For acquiring these he obtained permission from Mr A. Robertson by order dated the 28th March 1831. This Officers Salary Amounts to Rupees 24705–15–9– His purchase in value to Rupees 9395–

6 The only land in the revenue Department imbraced in these Returns entered in the names of relatives are Nos 3 and 5 and No 1 in the Judicial department of the Agency In the former instances the cist of the lands does not esceed Rupees 81 per Annum 20 Rupees in Vizeanagrum and 61 Rupees in Saloor Zemindary. These lands were acquired by the father of the Head Revenue Moonshee, who was in the employment of the late Vizeanagrum Zemindar, and for some service rendered to the Zemindar of Salloor was rewarded 30 years ago with the land in question upon the death of the present Zemindars father thus grant and all others of a similar nature in Salloor were resumed, but almost immediately restored at the instance of the Zemindars family. There is no ground for supposing that the acquisition was improperly obtained. There seems to have been some mistake in your Office in remarking in Para 7 that this was a modern purchase or acquisition—

In explanation of supposed discrepancy between the Amount Rupees 4,151—4—1 requiring Sanction and the Sum Rupees 3,546—0—0 noted as actual charges by the Government, I have the honor to state that the latter Sum merely represents the value of the Articles actually expended during the year

The Sum Rupees 4,151—4—1 is the Amount of Cash advanced for purchase of Stores during the year for which Sanction is required

There was in Store for next years Consumption Rupees 1163 worths of Stationery &c.

Resolution thereon. Resolved that the foregoing letters and the enclosures of the first be submitted for the information and orders of the Right Honorable the Governor in Council with reference to Extract Minutes Consultation dated 9th February 1857. No 152 Revenue Department.—

(193-94)

2. With regard to the discrepancy noticed by Government between the amount Rs 4151-4-1 requiring Sanction on account of Huzzoor Saderwarded in the Bellary District in Fusly 1265. and the actual Charges Rupees 3546. the Collector explains that the latter Sum is merely the value of the articles actually expended and that the former is the amount.

Fort St. George 5th December 1857

Submitted and paras 3 and 4 of the letter now under consideration which must be noticed. In the former the value of paper remaining on hand at the commencement of Fusly 65 is set down at Rupees 553 whereas in the latter it is given as Rupees 753. The difference the Board presume arises from the figure first given being intended to represent the value calculated on the rates of Fusly 1260 while the latter show the value according to those of 1265 upon this supposition there would still be a slight error which is probably owing to the additional rise of price since last year.—

7. With regard to the item Rupees 44—4—2. objected to by Government the Collector explains that 30 Rupees is the amount of Cart hire

Fort St. George 5th December 1857

hire paid for transmission of Type from Bellary to Cuddapah and Madras as per orders of the Board and Government For this charge he requests the Sanction of Government. The remaining Rupees 14—4—2 was incurred on account of Printing Office Sadarwared and will be defrayed from the Funds realized from work performed by the Press.—

8. With reference to para 3 of the Extract Minutes Consultation under reply it is observed that an arrangement for reducing the cost of the Collector's establishment by Rupees 83—4—4 in order to meet the Charges of the Printing Office was recommended for Sanction as a temporary measure and received the approval of Government in Extract Minutes Consultation under date 28th Novem=ber 1857 No. 1234. their Proceedings of the 6th July last No. 229 forwarding a printed Copy of Extract Minute of Consultation dated 21st June last No 613, was received, This rendered it necessary again to revise the Statement before it could be submitted.—

3. The enclosed Statement was accordingly prepaired, and forwarded to the District Engineer for verification, and that Officer has pronounced it to be perfectly correct, so far as the extent of land is concerned.—

4 With reference to the assessment on the extent entered in the Statement; a comparison with the Pymash Accounts has shewn it to be correct. When the survey and assessment of the Northern Talooks were made in Fusly 1215, this Pollium was under attachment and was therefore surveyed and assessed in common with the Circar Villages, under these circumstances, I have the honor to request sanction for granting to the Poligar, the compensation shewn in Column 13 of the Statement amounting to Rupees

Fort St. George 5th December 1857

Rupees 2,507-9-- up to Fusly 1266, and for deducting in future from the annual Paishcush payable by him the sum of Rupees 374-8-11 shewn in Column 11 of the Statement being the amount of annual loss entailed on the Poligar by the appropriation of cultivable land in his Pollium for the Trunk road after deducting this sum, the net Paishcush amounts to Rupees 11,628-5-4.

To avoid fractions the Paishcush might be fixed at 11,628 Rupees from Fusly 1267.—

Resolution thereon.

(195-96)

Resolved that the foregoing letter and Enclosure be submitted for the orders of the Right Honorable the Governor in Council.

In this communication the Collector requests the sanction of Government for paying the Bungy of Polygar of Pittapore Rupees 2507-9-11 being the amount of compensation due to him for lands taken up on the Pollams for the construction of the Western Trunk road partly in Fasly 1235 and partly in Fasly 1261 and for deducting from fasly 1267 the annual loss to the Polygar viz Rupees 374-3-11 the Peishcush.

		374.3.11.		2,307.9.11

* Less Rs. 10.11.0. the assessment on the extent of the old road available for cultivation.

3. The Collector states that the extent of land stated in the Statement has been verified by the District Engineer the assessment by a comparison with the Pymash of Fasly 1263 when the Pollam being under attachment was surveyed together with the Crown Villages. The computation has been calculated according to the principle laid down by Government in para 5 of Sectional Minutes Board's No. 613. Revenue Department dated 20 June 1857.

Bd's Ltr dated 15th July 1857.

4. The Board recommend that the compensation amounting to Rupees 2307-9-11 may be sanctioned to the Peishcush from Fasly 1267 fixed at Rupees 1175 on the annas and price as proposed by the Collector.

Noti. No compensation is allowed on Rs. 3.12. of Perambokelam taken up.

5. The Collector will take care that pattas for lands are duly assigned as required.

The Enam being held only on a life tenure, the amount of the same should be disbursed on the Enamdar, who is reported to be absent from the District, appearing for Muster.-

6. On a consideration of the foregoing circumstances, and as any predecessor, Mr. Bird, objected to comply with a similar request made by the Court in 1855, I replied to this Court that I do not feel myself authorized, without the sanction of the Board of Revenue being first obtained, to

to order the sum claimed by Gopaulasawmy Chachariar, to be disbursed to him, but that the requisition of the Court will be attended to on the appearance of the Enamdar.

7. Under the foregoing circumstances and as Gopaulasawmy Chachariar has furnished security for the amount claimed by him, asserting that his brother Veerarayanar Chachariar, who is at enmity with him, is alive at Combaconum, I have the honor to solicit the instructions of the Board, as to whether I can order the disbursement of the arrears of Monieum due to the share of Gopaulasawmy Chachariar from Fasly 1263 to 1266 in the absence of his brother Veerarayanar Chachariar in whose name the monieum in question

Explanation with reference to his not reporting to Board already on the Erode Bungalow and Submitting copy of correspondence on the Subject.

In reference to para. 7 of the Extract from the Proceedings of the Board of Revenue dated 19th Instant No. 4032, I beg to inform the Board, that I have frequently, since April 1850, requested the Railway Officers to come to some decision about the Erode Bungalow, and I only did not report each letter to the Board wishing to have some definite offer or arrangement to lay before them, for approval, ere I wrote.

2. Besides writing I met some of the Railway Officers at Erode - inspected the Bungalow and urged a decision by them to enable me to refer definitely to the Board - Failing in any Offer by them, I referred

I request to know if you would wish to purchase or rent the Public Bungalow now little used by Travellers. Its cost to Government was about 2,900 Rupees. growth of this spirit (of which they at present are wofully devoid) that the amount of assistance from the people can be determined. I trust, that gradually the people may become alive to the benefit they would reap from this state of things and then a much smaller body of Police than that now employed would suffice.

In conclusion, I beg to bring to the consideration of the Court the expediency of reviewing at an early period the present defective system of the Village Police-

Here enter enclosure No: 2 Copy of a letter from the Collector of South Arcot to the Board of Revenue dated 22d January 1850 on the state of Police-

Para 1.

After the representations now made by the Magistrate of South Arcot, the Government will not refuse to recommend for sanction the continuance for another year of the Extra Police Establishment solicited and resolves at once to address the Government of India on the subjects- The

Governor

Governor in Council however still thinks that the more frequent presence of the Magistrate or his Assistants in these Talooks is necessary- On reference to the Statements of Extra Establishment allowance furnished by the Collector for Fasly 1257, it is observed that this Acting Head Assistant Magistrate was the only Officer of the District who visited the Talooks of Tricullore, Trinomalay and Chaitput and that he was only 11 days in the first, and 5 days in each of the other two, making a total of 21 days during the year in the 3 Talooks, a period insufficient for the conduct of the ordinary annual Revenue Settlement-

2. In the Statement in the margin of the 3rd para of the Magistrate's letter the Police Establishment employed in the 4 Talooks is given at 150 Peons and 4 Duffadars- The Magistrate has quite omitted all mention of 11 Duffadars and 205 Revenue Peons also in these same Talooks who are available for Police duties equally with those actually borne on the Police lists, thus proving that the Establishment is not so limited as he endeavours to shew and the Governor in Council is yet of opinion that a more energetic Superintendence of the Police by the Magistracy is requisite.-

3- Mr. Davis has certainly exhibited the inefficiency of the Village Police, and it appears he fully represented the condition of it in a report to the Board of Revenue

so

Fort St. George. 21st January 1850

so long ago as 22d January 1846 when he made propositions for its improvement and for duly remunerating the Taliars. To this report it does not appear that any reply has been given, and the Governor in Council resolved to furnish the Board of Revenue with the correspondence which has now passed together with Copy of these proceedings of Government and to direct the early attention of the Board to the subject which is one of importance to the District of South Arcot.

2. In the last para of his letter the Magistrate mentions the absence of all assistance in the detection or suppression of Robbery by the Villagers. This is no doubt a serious difficulty, but it is one not confined to the District of South Arcot. Mr Davis seems fully alive to the importance of encouraging a spirit of resistance on the part of the people to the attacks of robbers and the Government have always been willing to manifest their appreciation of such services from the Villagers by conferring liberal rewards to those who are represented to have rendered them.—

Proceedings thereon; &c.

Relative to the modifications in the remuneration of the Village Police of the South Arcot District.

(3-4)

The insufficiency of the emoluments Official remuneration enjoyed by the subordinate Village police Servants in the District of South Arcot seems, from an early period, to have formed the subject of representation on the part of the Functionaries charged with the administration of the affairs of that Province. In his report to the Police Committee under date 12th October 1805 the Collector Mr. Ravenshaw brought to notice the poverty of the Village Taliars, which induced them to connive at and even to assist in most robberies, and he proposed to give them a monthly pay in lieu of their Enam land, which they had not the means of cultivating and from which they did not obtain sufficient to place them above want. In his letter to the Board of 21st June 1806 he entered more fully upon the subject and submitted a Statement showing the number of Taliars and their emoluments, in the Taloocks under his immediate management, or those noted in the margin. He pointed out that more than half their Enam was waste that the whole amount realizable both from that part of their possessions which was under cultivation and from their Adiutrums or fees would not on an average give more than

which they could be expected to serve— At which rate the aggregate expense for 362. Taliars would be Pagodas 258—24—72½ per Mensem or Pagodas 3102—28—70 Annually.

4 From a subsequent communication 12th. May 1807 it appeared that the condition of the Village Watchers in the Sub division of the District was still worse than that of those in the Collector's Talooks whose state had been described in his letter of 21st. June 1806.

In Cons: 21st May 1807

In Cons: 26th June 1806.

5. Under date 11th. July 1807 the Government sanctioned the grant of a monthly salary at the rate of 2½ Rupees per Mensem to the 362 Taliars who had previously been altogether without remuneration the aggregate expense being Pagodas 3102—28—70 per Annum; but nothing was done towards improving the condition of the other Village Servants of the same class who were in the enjoyment of some emolument, however inadequate.

In Cons: 23d July 1807 Para 13.

6. The triennial and decennial rents followed soon afterwards on During the currency of those Leases the

the renters in order to have the Tolies and Taliars more immediately about their persons and probably to exert a greater influence over them, changed the Inamdar Enams in lands which were for the most part, the most distant from the Village for lands in its more immediate vicinity sometimes of equal, but frequently of higher value. On the reversion of the District from Lease to Annamie and particularly on the numbering of the fields in the several Villages being completed in Fusly 1237 these changes were discovered and the lands at that time enjoyed by the Taliars and Tolies were carried to the Ain Jumma, those Village Servants being ordered to revert to their former Inamems. The hardship of this measure was exposed by the Principal Collector Mr. Cunliffe in his letter of 4th. February 1829. He represented that the Original Enams from having been so long abandoned had in many cases become overgrown with Jungle and could not be reclaimed except at a very considerable expence, that many of the Enamdars were

In Cons: 9th Feby. 1829

were therefore, unable to resume the cultivation and were in consequence deprived of all emoluments whatever and he requested permission to allow them to retain the lands then in their occupancy, where the value did not exceed that of the Original Enam, or that where it did they should be charged with the difference or that land should be assigned them which could be more easily brought under culture. Mr. Cunliffe likewise represented that in many Villages the Enam was a money payment sometimes as low as one Pagoda per Annum, and that if this was resumed and lands given in its stead, "the Circar would not feel it whilst a set of Servants who were quite indispensable would be relieved from much suffering."

7. In their reply to the above application under date 16th. February 1829 the Board called for information respecting the parties by whom the lands allotted by the Renters to the Village Servants, had been previously occupied and

and as to whether any interests would be prejudiced if the Jodies and Talaiars were allowed to retain those lands. They further requested the Collector to explain what extent of land and what value he proposed to assign for the remuneration of those Village Officers who were in the receipt of only small money payments. It does not appear that any answer was made to this requisition.

8. In Para 10 of his report† upon the Settlement of his District for Fusly 1245, the Principal Collector in allusion to some remarks upon the condition of the Talaiaries which had been made by his Sub Collector observed "The evil noticed by Mr. Thomas is is general throughout the District, there is scarcely a Village where the Talaiaries and Jodies do not complain either of having no Maunsem at all or that the land allotted to them is unfit for cultivation, or so far from the Village, that called upon as they are at all hours of the night and day, to perform Circar duty they are unable to go out and cultivate it." This evil, "he added "is notorious" and

and he recommended that in each case which was made out to the satisfaction of the Collector he would be allowed to grant an extent of ground to each agreeably to Section XVI Regulation XI of 1816 in proportion to the Beriz of the Village, the Grants being specially reported annually for the sanction of the Board and of Government.

Proceedings 13th March 1837. Para 16.

9. The Board of Revenue in their review of this part of the Collectors report desired to have an estimate of the probable extent and assessment of the land which would have to be assigned to Salaries and Sotties, in the event of the arrangement recommended by the Principal Collector being sanctioned; and the Govern: ment, Extract Minutes Consultation 15th May 1837 Para 7 approved of this estimate having been called for observing at the same time that, "If grants of this kind be regularly reported to the Board and limited to a certain quantity and quality of land, it does not appear likely that the power would be misused."

10. Owing probably to changes in

In the Officers at the head of the South Arcot District, the above call was for some time not attended to, but on the 5th. January 1839 the then Principal Collector again addressed the Board upon the subject. He remarked that the preparation of such an estimate as had been required would occupy a consider: able time, and take up the services of some of his establishment who could be much better employed, unless it was determined that the estimate would be acted upon when prepared. No steps had yet been taken for its formation, and it appeared to him that the Beriz of the Village was not exactly the best standard by which to proportion the amount of the recompence. The duty of the Salaries was or ought to be pretty much the same in all Villages, but the revenue received in any one Village did not at all affect the respon: sibility of the Village watcher. The Principal Collector then suggested that to provide a sufficient number of watchers for the whole District, a number of Salaries be appointed equal to the number

In Cons: 28th Feb: 1839

number of Villages and that he might be permitted to regulate the allotment of their services according to the wants of the different localities. in some Villages two or three Talaries would be required, in some cases one Talary would be sufficient for two or three Villages. It was proposed to allot to each Talair a Inam reem of the yearly value of Rupees 30, and to discontinue all money payments, and the arrangement if carried out for the whole District, would after credit was taken for the emoluments to be resumed, involve the grant of allowances in land to the Net Annual value of Rupees 41830. Mr. Ashton at the same time submitted a Statement shewing the present condition of the Talaries in one Taluk (Trivady) of his District, from which it appeared that their emoluments were very unequally distributed, and in many cases altogether inadequate. He also showed by a second Statement, that of the whole Talary Mauniums in the District, a large proportion nearly a third, was waste. It was part of his plan to resume such of the waste Inams as

Average of 17 years or from Fasly 1231 end of Decennial Lease to Fasly 1247

as might on examination be found to be unproductive and to grant good land in lieu of them as also when the existing Inamiems were in excess of the standard of Rs. 30, to resume the surplus and make it available for meeting the expence of the whole scheme.

11. In their reply of the 28th. February 1839 the Board stated that they were not prepared to recommend the adoption of a measure of so extensive a nature as that proposed, and that they thought it preferable that instead of effecting so entire a change of system the Principal Collector should examine into the merits of each case brought to his notice, wherein the remuneration of any Village Talair might be inadequate, or altogether wanting, and submit any recommendation which he might think fit to offer upon the subject for the consideration of the Board. It was suggested that the investigation might be made and the result reported for one Taluk at a time, by which course the labor of preparing accounts might it was presumed be lightened. It does not appear that any measures were

were

were taken in consequence of these instructions

12. In 1841 the condition of the South Arcot Taliaries was adverted to by the Magistrate and Joint Magistrate in their annual reports upon the Police of the District. These reports were laid by the Court of Foujdaree Udalut before Government who in Extract Minutes Consultation 21st May 1842, transmitted Copies to the Board with a request that they would call for such further information as might appear to be requisite, and submit it to Government with their own sentiments upon the subject. Information both in respect to the Taliars and to the Village Moonsiffs, on which latter question a separate communication had been submitted by the Collector, was accordingly called for by the Board under dates, 16th February 1843 and 13th June 1846 and was supplied by that Officer in a report bearing date 22d January 1846. This is the report alluded to in Para 6 of the letter from the Magistrate of South Arcot to the Court of Sudr Udalut dated 27th July 1849, and to which

which the early attention of the Board has been called in the Extract Minutes Consultation of the 6th October last, prefixed to these Proceedings. It may conveniently be considered under two heads 1st as it relates to village Moonsiffs. 2ndly as it refers to Taliars.—

13. With regard to the first of these two classes of servants, the Collector in his previous report of 10th April 1844 had attributed the limited extent of Judicial business in the disposal of petty suits, performed by village Moonsiffs, to the absence of the necessary qualifications on the part of those by whom the appointment was usually held. The Office of Moonsiff, he stated, was partly filled by Monegars, and partly by others, who received no remmuneration from Government. The ignorance and poverty of these Officers acted as a check to any improvement either in their moral or social condition and Mr Bowis suggested that a better and more educated class of men might be secured by the Government granting to them some remuneration either in land or money in proportion to the size of the Village over which they presided. In their answer 13th June 1844 to this report

In Cons. 22nd April 1844.—

report the Board pointed out to the Collector that the employment in the Office of Moonsiff of any parties who were not heads of Villages was opposed to the provisions of Section II Regulation IX of 1816 and they requested him to report the total number of village Moonsiffs in the Southern Division of Arcot, showing how many of them were heads of villages. the average amount of the remuneration enjoyed by them whether there were no Moonsiffs, and whether the jurisdiction of any Moonsiff extended at present over more than one village. He was also desired to state whether in those Villages where the Moonsiff was not the head of the village any practical difficulty would be experienced in substituting the Head of the village for him and was directed in supplying future vacancies in the Office of Moonsiff invariably to make his selection from the Heads of Villages

Statement A

14. From the Collectors' report now

now under review, it seems that of the 3266 Villages in his District there are 2120 in which the duties of Moonsiff are discharged by the Monegars. the aggregate emoluments of these Officers are Rupees 19,578 the Taalook average varying from Rupees 16-14-4 to Rupees-4-6-3 per man. There are 215 villages, including 66 depopulated, in which there are no Moonsiffs, and orders have been sent to the Thasildars to nominate parties as soon as practicable in the remaining 925 Villages, the Office is held by individuals who are not heads of villages, and who receive no remmeration for discharging its functions. These parties it is explained, are employed in consequence of the incompetence of the Monegars, and were they to be removed and the actual heads of the villages required to undertake the service, it is feared that its duties would be imperfectly performed.

The Collector refers to the smallness of the sum drawn in many instances, in right of their revenue Office by those Monegars who are also Moonsiffs and states that although parties may be found who from various

various causes may be willing to hold the situation of Moonsiff without any emolument, yet that he was induced to recommend the grant of some remuneration either in land or money as necessary to confer respectability upon the Office, and by encouraging parties to qualify themselves for it to improve the efficiency of the Village Police and the Judicial system.

15. The Board of Revenue cannot by any means concur in these views. They observe, that the emoluments of the Heads of villages in South Arcot from a charge of 2/4 per Cent upon the gross revenue. That the individual receipts are in many cases small, arises from the fact of the Managarship being frequently shared by two or more individuals. but this very partition is of itself an indication of the estimation in which the Office is held. In truth the situation both of Monegar and Moonsiff in South Arcot is coveted from other

considerations

considerations than those of emolument. that is from the importance and authority which it confers. The Board are not prepared, for the present at least, to advise any additional provision for the Moonsiffs in South Arcot such means are not, in their opinion, required to enhance the efficiency of the Office. Its improvement is to be accomplished, gradually, by the efforts of the Collector and Magistrate, in encouraging parties to refer their differences for the decision of that tribunal. by selecting the best men available for the appointment, by showing respect to the incumbents, and evincing consideration for any errors into which they may have fallen from inexperience and imperfect acquaintance with their duty. The necessity of employing in so many instances Moonsiffs who are not heads of villages is to be regretted and every opportunity should be taken of remedying this departure from the provisions of Section II Regulation IV of 1816 by selecting proper persons for the Office of Head of the Village. It is observed that in several cases the same individual

holds

holds the Office of Moonsiff in more than one village, and that in many he is non-resident. These irregularities should as far as practicable be corrected.

16. The Board now turn to the second, and more important part of the Collector's report, viz, that which relates to the condition of the village Taliaries and the measures to be adopted for its amelioration. The Taliary emoluments in South Arcot are of three kinds 1st Manieums, or grants of rent free land 2nd Fixed salaries in money at one uniform rate of 2 1/2 Rupees per mensem or Rupees 30 annually 3rd Lotumtrum or fees these last were formerly paid in grain and taken from the gross produce before the division of the Crop on the introduction of the survey and assessment, they were commuted into Money and are now deducted from the Summa and disbursed to the Taliars half yearly.—

17. The number of Villages in the District is given by the Collector in Enclosure A at 3260. besides hamlets of

of which 312 are depopulated." Of the total number 3260 2975 are ain villages the remainder are held on various tenures as shown in the margin. In Enclosures Nos 1 2 and 4 of the same letter the number of villages is however stated at 3253. In 771 of these, the Taliaries enjoy Enam lands in extent 2,175—8¾ with an assessment of Rupees 7,656—7—9 in 690 villages the Taliaries receive Lotumtrums, which on the cultivation of Fasly 1253 amounted to Rupees 4,101—5—2 in 297 they are paid by fixed salaries of 30 Rupees a year in 1099 they are in the enjoyment of Maneyems 3,706—¼ = 20,720—5—7 and Lotumtrums 17492—4—6 jointly amounting in the aggregate to Rupees 28,212—10—1 in 390 Villages there are no Taliary emoluments of any kind in 71 of these the Taliaries serve, tho' without any official remuneration in the remaining 319 there are no Taliaries.—

Sotuntrums in South Arcot, calculated on the Beriz of Fusly 1253, was Rupees 11,633–3–7 the aggregate fixed money salaries are Rupees 12,780. the entire extent of Manniem land is C 5,895 5¾ assessed at Rupees 28,440–11–6 thus the value of all the Taliary emoluments of every description in the District, supposing the whole Enam land to be cultivable would stand at Rupees 52,873–15–1. or on the average of the 2,863 villages in which the Taliaries are remunerated at about Rupees 18½ for each village annually.

* This however does not tally with the Statement in the Principal Collector's letter of 5th January 1839 according to which the average Enam from Fusly 1231 to 1241 was C 5799 with a Beriz of Rupees 30,012. See afterwards Para 24.

19. The Collector has forwarded detailed accounts showing for each Talook the various Taliary allowances in land Money or fees in the several villages. He has also added abstracts but he has not proposed any new arrangement. He states, that he entirely concurs in the suggestion made by the previous Principal Collectors Mr. Ashton in his letter of 5th January 1839.

1839. This, it will be remembered, was for the resumption of all money payments, and the grant to each Taliar of a Manneum of the yearly value of Rupees 30. the number of Taliars was to be equal to that of the village in the District, and their distribution was to be regulated by the Collector according to the exigencies of the different localities. Mr Davis states that, if the Board should not agree to the discontinuance of the money salaries and Sotuntrums, and to the equalization of all the Taliary Enams, "he will regulate the Enam to be given thus, excepting those on monthly pay, with reference to the amount of Sotuntrum enjoyed by each Taliar" or as he subsequently explains he will "according to the various circumstances connected with each Village, allot waste lands to those Taliars who have none, and grant new waste in lieu of that found unfit for cultivation to the value (ie as the Board presumes the average value) of about Rupees 30 per Annum to each individual including

Para 10

including Sotuntrums which amount he considers to be on a moderate scale. The extra charge involved in the arrangement, after the various resources which are regarded as available have been taken into account, is Rupees 9,756 13. 9 (being the teerwah of the additional Enam lands which will have to be assigned) but it is represented that as there are many depopulated Villages in the western Talooks, the services of Taliars are not needed there for the present, and that Lands to the value of 3,000 Rs. or 4,000 Rs. out of the above mentioned quantity will not be required. It is also observed that as what remains of the expense will eventually be recovered to Government by the gradual resumption of Cutbuddies Enams as Lapses occur.

20. In discussing the Collector's proposal it will be proper to consider—

1st The number of Taliars which will be required for the whole District.

2d The average rate of remuneration to be assigned to them and the aggregate cost

cost of the entire arrangement—

3d The existing resources available in reduction of that cost—

21. The total number of Taliars to be entertained for the whole District has been taken by the Collector at the number of Villages viz 3,253, subject for the present to some deduction on account of certain depopulated villages, in the western Talooks. The number of villages in which the services of Taliars will now be required does not clearly appear from the Collector's report and Statements. Thus in enclosure A of the letter of 22nd January 1846 the number of Villages is given at 3260 (besides hamlets) of which 312 are said to be "depopulated". The Board are not aware whether by this expression is meant merely uninhabited villages or villages without either houses or cultivation and wholly deserted and they request explanation upon this point. In Statement No 2 of the same letter the number of Villages is given at 3253— and the Collector in

Fort St. George 21st January 1850.

Para 9 states that lands to the value of Rupees 3000 or 4,000 Rupees will not for the present be required as there are many depopulated villages in the Western Talooks as the average extent of Manneum land for each village has been assumed by the Collector at such as would yield 30 Rupees per annum the number of depopulated villages would thus stand at 133 or 100 instead of 312 and the number of those needing the Office of Taliary at 3,120 or 3153 The accounts received with the last settlement report from South Arcot show that the total number of villages is 3,376 in which are included 35 overrun with Jungle" and 42 deserted" leaving 3299 villages. The Collector is requested to furnish explanation upon these differences and to show what is the actual number of villages in his District, which at present require the Services of Taliars.

by the Collector at 30 Rupees per annum to be given in land This is the Standard of emolument proposed by Mr. Ravenshaw in his letter of 21st June 1806. except that he suggested payment in money. It is also the the rate which was recommended by him in his letter of 2nd April 1807, as the least for which Service could be expected from those Taliars who had then no provision. which was approved by Government 11th July 1807, and is still in force as regards those particular Servants. The same Standard was also adopted by the Principal Collector Mr. Ashton in his letter of 5th January 1839. In the late revision of the Guntoor Police allowances, the remuneration of the Mohtands, who were to be regarded as on the footing of Taliars, was fixed by Government at 2 Rupees per Mensem and the excess above the value of their existing Enams was to be made good in money. the allowances to those who at present were totally unprovided for being made in money only. Looking to all the circumstances of the case it does not appear to the Board, that the average rate

of

of remuneration Rupees 30 per Annum proposed for the South Arcot Taliars is unreasonable. It is to be understood that the amount to be allotted to each Taliar will not be uniform, but will in some measure vary according to the nature and extent of his charge.

23. It is next necessary to examine what resources are at present available for defraying in part at least the increased charge which will be caused by the proposed revision of the Taliars allowances. These are shown by the Collector in the Statement No. 4 submitted with his letter of 22nd January 1846. and are estimated by him at Rupees 87833, 2-3. Items 3 and 4 of that Statement, the amount of commuted Sotuntrum and of the payments now made to those Taliars who receive money Salaries are of course appropriable to their full extent. These equal jointly Rupees 24433—3—7 calculating the Sotuntram upon the bariz of Fusly 1253. The Collector is requested to submit a Statement showing the

the average amount of Sotuntrum for the last ten fushies 1249-1258.

24. The next item to be considered, No. 2 in the Statement, is the value of the Mauneums now in possession of the Taliars. which is given at C. 5895-5 3/4 assessed at Rupees 28440-11-6. This does not tally with the account of these Enams furnished by former Collectors in 1829 & 1839. in the earlier of these Returns the Taliary Enams were given at C. 5733 bearing an assessment of Rupees 27769. In Mr. Ashton's Statement the extent and value of the Taliary Mauniems, on an average of the 17 Fushies 1231 to 1247, was entered at C. 5799. with a Seerwah of Rupees 30012. but seems to have fluctuated from year to year. The Collector is requested to afford full information on all these particulars. Whatever may be the true extent of the Taliary Enams, there seems however to be no doubt that a considerable portion is unculti-vable. and that other land will have to be granted in lieu of it. The Collector will

will be so good as to furnish a Statement distinguishing the cultivable from the uncultivable portion of the Taliary Mauneums all which have not been cultivable for the last seven years being classed as uncultivable. It is probable that when this account has been received, the existing landed emoluments for the Taliars will not be found to be actually available to more than 2/3ds or 3/4ths of their nominal amount.—

25. The resumed Cavil income which forms item No. 5 in the Collector's Statement consists of the Cavil allowances in land and fees formerly enjoyed by the Poligar of Woodiarpollium in the Mannargoody and Chellumbrum Taloors of South Arcot and in the Sankerapooram Jaghire, which were resumed under orders of Government in the Extract Minutes of Consultation 31st January 1842, and of similar emoluments held by several petty Pollegars in the same Taloors, the resumption of which was directed by Government under dated 11th April of that year. The vala-

of these various sources of income is assumed by the Collector at Rs 32384-3-9 which sum is made up of the following items.

Amount of Cavil fees and lands belonging to the Woodiarpollium Poligar in Chellumbrum Mannargoody and Sankerapooram resumed in 1842 — Rs 19172-3-4.—

Amount of do belonging to other Cavilgars in the same Taloors ——— 12,301-14-0

32,384-3-9

26. It does not appear to the Board why this last sum of Rupees 910 has been included among the Cavil resumptions. In the year 1806 certain Cavil Mocafs lands, fees &c to the extent of S.P. 39451-40-77½ were resumed in South Arcot, and life pensions amounting to P. 6575-16-42¼ were granted in lieu of them. The allowance Rs 910 now

now in question was one of those Pensions, having been conferred upon the Poligar of Woodiarpollium in compensation for his resumed emoluments in the Verda= =chellum Talook. It lapsed to Govern= =ment upon the death of the Minor Poligar in 1842. It is not however clear, that this allowance any more than many others granted at the same time and under the same circumstances and which have since fallen in, can be regarded as an asset appropriable for defraying the expence of the present measure as the proceeds of the lands &ca in place of which this and the similar Pensions were conferred and on which they formed a charge may be considered as having been already made available for the cost of the general Police establishment of the District, which was introduced in the beginning of this century in supercession of the old Cavil System.—

Note. Nearly 3/4ths of the Pensions granted in 1806 had lapsed in 1842 see from Collector 30 April in Cons 19th May 1842 Para 7.

27- The value of the Cavil emoluments enjoyed by the Woodiar= =pollium Polligar in the Munnargoody and

and Chellumbrum Talooks and in the Sunkerapooram Jaghire is taken by the Collector at Rupees 19,172-3-4 accord= =ing to the estimate given by the Principal Collector Mr. Dent in the Statement fur= =nished with his letter of 19th December 1831. But it is to be remarked that on the resumption taking place 15 per Cent or Rupees 2861-10-6 was conferred upon the Poligar for life and allowances for life or for a term of years were granted to Individuals and Institutions to whom alienations had been made by him. The Poligar's Pension has since fallen in (Extract Minutes of Consultation 7th April 1843) and the payments to Pagodas have been redeemed by the disbursement of one general sum Extract Minutes of Con= sultation 24th May 1843, but those to the Mauneumdars must in part at least still be made. Moreover of the above emoluments Rupees 19172-3-4 was in land and it was stated in the Principal Collector's letter of 2nd February 1838 Para 6, that one third part of this land was waste In fact it does appear from the Statement in the letter from

28. The next available resource, as proposed by the Collector, would proceed from the resumption of the Cavil-income at present enjoyed by Andeyapah Soorie Poondary Poligar of Mangalore in the Verdachellum Taloke. The question of resuming these allowances has been for some time under the Board's consideration, and was brought to their notice by a former acting Principal Collector in his letter of 27th December 1836.

Assistant Magistrate in the Talooks in which crime is most prevalent: and to bear in mind that a more energetic Superintendence of the Police by the Magistracy of South Arcot is very requisite. I have the honor to submit the following observations for the consideration of the Court: and eventually that of Government.

2. The Extra Police force was intended to patrol the four Westerwar Talooks which are covered with extensive and impenetrable Jungles, affording much shelter not only to the gangs of robbers, who infest that part of the Country, but also to many robbers who come from the Salem and Trichinopoly Districts.

3. The area of these Talooks is not less than 2479 Square Miles, very nearly equal in extent to one half of the entire district. If we consider the number of Villages, amount of population, the vast extent of Country, and the fact that a Country from its natural causes affording every facility to Robbers, and then look at the Talook Police establishments

Fort St George, 21st January 1850

Establishments consisting of Police Peons and Duffadars Superintended by one Head of Police, with the exception of one of the above four Talooks, where there is a Peishcar. I think it would appear clear, that this Establishment is too limited and insufficient for the purposes required.

4. The Talook of Cullacoorchy, which forms part of the Sub Division, the Joint Magistrate visits occasionally. The Talooks of Trecallore and Tenamally being placed under the charge of my Head Assistant, he will continue as heretofore to visit them from time to time. I will also bear in mind the opinion of Government, and shall occasionally depute an Assistant to visit the different Talooks.

5. With respect to the 3rd Para of your letter and to the remarks of Government, that the present state of crime in the Talooks is highly unsatisfactory. I am sorry that neither sufficient or requisite means were placed at my disposal, neither do I think that the most

energetic

required to stand at 3,253 as assumed by the Collector, the total cost at Rs. 30- to each Taliar annually would be Rs. 97,590- if from this Rupees 4,000 be deducted for depopulated villages" the aggregate charge is Rupees ——— 93,590-- --

The available resources are as under stated.-

2 Amount of commuted Solumtrums reckoned upon the Bariz of Fusly 1253 ——— 11,653-3-7

3. Teerwah of Enam lands supposing ⅗ of that Rs. 28,440-11-6½ now held as Taliary Maniem to be cultivable ——— 17,064 6-10

4- Resumed Cawl Income of the Oodiarpolliem Poligar It has been already shown Para 27- that these emoluments for the 6 years Fusly 1246 to 1251 whilst under Aumanie average Rs. 8,574 Annually. They are still chargeable with some life Pensions- when these fall in

in the entire value of these Sources of income allowing for some extension of Cultivation in the Cawel lands can hardly be rated higher than ——— Rupees 10,000 -- --

5. Cawel Emoluments of other Poligars in the Manargoody and Chellumbrum Talooks- Supposing them on the expiration of the allowances now chargeable on them to yield ⅔rds of the amount Rupees 12,301-14- -- assumed by the Collector would give Rs. ——— 8,200 -- --

which deducted from the aggregate Charge Rupees 93,590 as above noticed will leave

leave the additional expense to be incurred in the Assignments of rent free land at Rupees 29,892-0-0, but this can hardly be viewed as commensurate with an annual Money disbursement to the same amount.-

33 One difficulty tho' not specially adverted to by any of the Revenue Officers who have written upon the question, in the formation of any scheme for the general improvement of the S. Arcot Taliaries, arises not simply from the inadequacy of their allowances as a whole, but from the unequal manner in which those allowances, such as they are, are at present distributed. Thus to take the account particular submitted by the Collector for the Trivady Talook the Taliary emolument in the Village of Taly amounted to Rupees 38-2-4 per annum, those for Vadavumbalum only to Rupees 3-2-5 the bariz of the Villages for Fusly 1257 being respectively Rupees 799-9-10- and Rupees 2,236-10-9. Many similar instances of inequality might be pointed out in the same account and in those for the other

other Talooks. If in the better paid Villages the Taliary emoluments be reduced to any thing near the standard of Rupees 30 per Annum, the measure will be attended with much hardship to individuals. If on the other hand the reduction be not made or be even deferred till the demise of the present incumbents, the cost of the general reform to Government will be enhanced to a degree which the Board could not recommend them to incur. Under these circumstances there seems to be no choice, but to make the measures of reduction as well as enhancement general and immediate. In some few cases it may be practicable to compensate the Taliars whose allowances may be reduced by appointing their Cosharers or partners to Villages where no Taliars are at present entertained or by employing them in the same village where from its size and importance more than one Taliar is required. Advantage should be taken of all such opportunities, but it is feared that they will not often present themselves.

The

34. The Board of Revenue are not prepared to concur with the Collector in recommending the resumption of the fixed Salaries now drawn by certain of the South Arcot Poliars, and the substitution of grants of waste land on Enam tenure. Of the 426 Poliars who at present receive Monthly pay a large proportion, as already shewn, have been thus remunerated since the year 1807, or for more than forty years. The scale of remuneration is not excessive, and any such change in the mode of making it as would deprive them of their Monthly Salaries and oblige them to undertake the Cultivation of waste land would probably be felt as a hardship. It seems to the Board to be desirable to disturb existing arrangements as little as possible. Moreover the system of remunerating Village Officers by Money Salaries has been long established in S. Arcot. All the heads of Villages and Curnums having been so paid since the time of Lt. Ravenshaw. Money payments have also recently been authorized

Para 5.

authorized by Government in the case of those of the Mohtands or Poliaries of Guntoor, who are not at present in enjoyment of any landed emoluments as likewise in Augmentation of the allowances of those, the value of those Enam lands fall below the prescribed Standard.-

35. To the resumption of the Potuntrums there does not appear to be the same objection. These fees are in many instances small in Amount- the average on the whole 1823 Villages in which they obtain being only about Rs. 6-6-3 for each Village. In all cases in which they are inconsiderable they might at once be commuted into land- when taken on the average of the last ten fusslies they equal or exceed the rate of remuneration proposed to be established for the Village under the new arrangement. So much of them as may be equal to that rate may be continued as a fixed money payment, and the excess be resumed.-

In

36. In the foregoing paras the Board have traced the progress of the discussion regarding the emoluments of the inferior Village Police Servants &c. in the District of S. Arcot from the first agitation of the subject by Mr. Ravenshaw in 1806, and have examined the measures which have from time to time been proposed by the District Authorities for placing those emoluments upon a better footing. they have also attempted to form some approximate Estimate of the expence to Government at which the improvement would have to be carried out. They have found it necessary to call upon the Collector for further information upon certain points particularized in Paras 21-23. 24-27-29-31- of these Proceedings, but they resolve at the same time to lay this Paper before Government for the purpose both of exhibiting the past history and present position of the question, and of soliciting their instructions in regard to the general principles on which the proposed reforms should be carried out. The arrangements which the Board would

would suggest for the revision of the Taliary emoluments in S. Arcot are.-

1st That the Salaries of the Shumbalum Taliars who are paid by a fixed Monthly allowance of 2½ Rupees remain unaltered.-

2dly That the Taliary Jotuittrums be at once resumed. except where calculated on an average of the last ten years they may equal or exceed the rate of remuneration which will be fixed for the Village under the new arrangement, in which case such portion of them as may amount to that rate will be continued as a fixed money Salary and the excess be resumed.-

3dly That the remaining Taliars be remunerated by allotments of Enam land of the average yearly rental of Rupees 30, but that the exact extent to be assigned be allowed to vary according to the size situation or other circumstances of the Village.-

4th That all allowances either in land or fees above the Standard to be fixed for each Village, be resumed.-

5th That where any part of the Manneum land now held by a Taliar be unfit for cultivation, good land be assigned to him

Fort St. George 21st January 1850.-

him in lieu of it, in such quantity as shall raise his remuneration to the Village standard, and that the unproductive land be resumed.-

6th That a Taliar be attached to each Village. The Board do not concur in the opinion expressed by Mr. Ashton, and apparently adopted by the present Collector, that two or more small Villages might be put under the same Taliar. They think however that when the Village may be of considerable size and revenue, and the Taliary allowance would therefore be on a high scale, they might be divided among two or in very peculiar cases even among three Taliars.-

37- Should the above principles be approved by Government the Board will instruct the Collector to prepare a detailed account shewing the result of their application to one Taluk. The account will be examined in this Office and if found correct the Collector will be required to furnish similar Statements for the rest of the District. On the receipt of which the Board will lay before Government the particulars of the whole arrangement and the aggregate expense which will be involved in it. Meanwhile the Collector will lose no time in furnishing the information already called for in Paras 21-23-24-27-29-31- of these Proceedings.-

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Collector of South Arcot for his information and guidance.-

Our Governor in Council

at

Fort St. George.-

Paras 1. We now reply to the undermentioned paragraphs of your marine Letters dated 13th March (No. 4) and 10th April (No. 6) 1849.-

by enabling the Bombay Government to obtain Timber at a much lower cost, and accordingly has our approval.-

3. A proposal of the Bombay Government that certain Forests in Northern Canara should be placed under the management of Dr. Gibson Conservator of Forests in the Bombay Territories, was rejected by you on the ground that "every necessary object would "be secured by a ready Co-"operation of the local authorities with Dr. Gibson."-

4- Our own view of the question coincided more nearly with that of the Supreme Government.- We consider that Dr. Gibson, whose appointment is very recent, will, for some time, find ample occupation in the Forests situated within the Bombay Territories, but that when the superiority of

of his plan of Management has been demonstrated, the limits of his superintendence may be advantageously extended.-

Paragraphs proposed Changes in the Timber Agency and Conservancy of Forests in Malabar and Canara

5 The fact that the Stock of Timber on hand at Bombay and at the Depôt on the Malabar Coast, will suffice for the wants of the Naval Department for seven years to come, will of course cause a considerable reduction to be made in the expensive Establishment hitherto maintained for the purpose of purchasing and otherwise procuring Timber.- (3 See Para 1 of this Resolution.-)

6. With respect to the modified Establishments to be maintained both in Malabar and in Canara on the subject of which you were consulted by the Government of Bombay,

Bombay, we agree with you in regarding the preservation of the Forests as the chief object to be attended to for the present, and we consider that the Forest Establishments should not materially exceed what may be requisite for that purpose.—

12 Arrangements for procuring planks from the Annamalay Forests for use in the Bombay Dockyard.

8. Our instructions have been greatly mis-apprehended if your intentions are here correctly represented. Nothing was farther from our meaning than that the Government Forests should be farmed to private speculators, for experience has shown that such persons commonly exercise their privilege in the most reckless and extravagant manner destroying or wasting as much Timber as they remove, in good condition— what we intended was

was, that the Forests

Extract from the Minutes of Consultation under date the 18th January 1850 No. 55.-

Read the following Extract from the Proceedings of the Board of Revenue.-

Reporting upon the management of the Extra Sources of Revenue in the District of Trichinopoly in Fusly 1258 / 1848/49 A.D.

Para 1. The Settlement of the Extra revenues of the Trichinopoly District amounted for Fusly 1258 to Rupees 49,644 being above Fusly 1257 in the net sum of Rupees 3005. This advance occurred in the two principal sources the Abkarry and Stamps, in the former from enhanced offers for rents by which an increase of Rupees 1,849 was obtained, and in the latter from the operation of Act 17 of 1848 by which the stamp revenue was enhanced Rupees 2,141 beyond that of the preceding year.-

2.- The collections within the Fusly amounted to Rupees 48,475, and of the balance of Rupees 1169 remaining

remaining at its close Rupees 759 have since been collected leaving Rupees 409 which is stated to be in course of realization.-

3 Under the explanation now afforded the Right Honorable the Governor in Council grants authority for writing off in the accounts of the Trichinopoly Collectorate the arrears due by the Hill Renter of the Torriore Talook for Fusly 1256 amounting to Rupees 1558-11-10 / 31 Five hundred and Fifty Eight, annas fourteen and Pice ten.- He cannot however refrain from noticing the neglect imputed to a Tahsildar now deceased of omitting to take security for the fulfilment of the Rent, and is surprised that the omission should have at the time escaped the attention of the Collector's Cutcherry.-

Net Decrease. 129591 13 2

2 From the above it will be seen that there was a net Decrease of Rupees 129591-13-2 arising out of a gross increase of Rupees 3802-7-8 and a gross decrease of Rupees 133394-4-10-

× Rs. 161-3-8
※ Rs. 1—0—0
⊙ Rs. 195—0—0

3 The items of increase in the ×Ahkarry and small ※Farms and Licenses and the decrease in ⊙Moturpha are trifling and do not call for Remark.

4 The increase of Rupees 3640-4—0 in Stamps is caused partly by the greater number of Suits filed and partly in consequence of the operation of act XVII of 1848 by which Stamp papers have been substituted for institution fees.

5 In the Sea Customs Revenue there has been a decrease of Rupees 10,820 11-1 viz. Rupees 9264-7-6 in the duties on exports and Rupees 1536-3-7 in those on imports. The former occurred under the operation of act XI of 1848. the export trade of Nellore having almost entirely a coasting trade. The latter was occasioned principally by the diminished import of Paddy and Rice from Arracan.

6 There has been a large falling

falling off in the Revenue realized from Salt in the Tuply under Review, as compared with that of the preceding. The decrease amounting to Rupees 122397 11-1 has thus occurred.

In the Home Sales - - - - 1295-4—7
In those for Export by Sea - 61557—12—0
In the inland Sales - - - - 59544-14-0

The first item of decrease is small and does not need Remark, and the Second is sufficiently accounted for by the Sub Collector in charge in Para 13 of his Report -

7 The falling off in the inland Sales has taken place in all the Divisions and is attributed to various Causes, to the increased Resort of the Brinjaries to the Guntoor Pans to the decline in the price of Grain in Nellore inducing the Merchants importing Oil seeds and other Kinds of grain to carry them on to Madras and take their returns supplies of Salt at those Cotaurs and to the increased production of

earth

earth Salt in the District of Cuddapah.

" 1258	2285	210	221272	"	"

8 With respect to the first of these reasons it will be remarked from the Memo in the Margin that the inland Sales of Salt in Guntoor during Fusly 1258 exceeded

As to the second the Madras Salt for inland Consumption which opened only in april 1847 have been very Considerable during the Fusly under report but how far under the

Circumstances stated by Dr. Perrais they have interfered with those of the southern Cotaurs of Nellore it would be difficult to say. As to the 3rd Cause the subject of the earth Salt of the Ceded Districts has recently been under the Consideration of Government. To attribute any falling off in the Sales to the increased use of this Commodity is a common excuse among Salt Servants. In ordinary years the quantity of earth Salt

Salt Consumed in Cuddapah and Bellary it is probable varies little - in bad seasons the ability of the Ryot to purchase Marine Salt is diminished, and earth Salt is in Consequence more freely resorted to. Fusly 1258 was an unfavorable year in Cuddapah - and the use of earth Salt may therefore have temporarily increased and that of Marine Salt have declined - but the two are rather concurrent effects of the same cause.

No. 1.

To J. H. Cochrane Esqre
Collector of Cuddapah

Sir,

I have the honor to inform you,

I have considered it necessary to suspend the Taksildar of Budwail pending an enquiry into Certain charges brought against him, these charges are bribery and Corruption, & falsifying Accounts by placing sums Collected from one Village to the Credit of others. Selling the Cattle of a Ryot without authority for less than they were worth and writing false Statements in his Orzees. From the investigation which has already taken place

Fort St. George 21st. January 1850

place there is strong reason to believe the charges are not incorrect.

As a full explanation will be forwarded to you on a future occasion I consider it unnecessary to enter into any detail regarding these charges at present.

Proceedings thereon.

The Board of Revenue sanction the Suspension, by the Sub Coll.r of the Thasildar of the Buntwail Talook pending the issue of the inquiry into the charges brought against him.

They hope to be made acquainted with the result of the investigation at an early date.—

Para 1. I have the honor to submit the usual Statements shewing the Revenue Collection

Fort St. George 21st. January 1850

Collection, Charges and Surplus proceeds of the Shrotriem Villages attached by the Zillah Court and placed under my Management for fusly 1258. F.D. 1848/49.

2. On referring to the Statement No.1. the Board will observe a trifling increase of Rupees 8. 11. 6 in the Beriz of the Village of Peroonellore, and a decrease of Rupees 4. 8. 11. in that of Authoor, whilst there is no alteration in the Beriz of the remaining Villages which were rented on the same terms as in the preceding fusly. Of the Net Beriz of these Villages Amounting to Rupees 1742. 1. 1 Rupees 1598. 1. 1 have been Collected as shewn in Column 7 of Statement No. 2. The remaining Rupees 144. being the Amount of subsistence money due to the Shrotriemdar of the 1/4 share of the Parathoor &ca Villages is due by the renter, who is also the Creditor on whose account these Villages were attached. Arrangements have been made for the early adjustment of

Fort St. George 21st. January 185

of this sum either by the payment of the Amount, or the giving a receipt for the same as further liquidation of the debt. The lease of these Villages granted in fusly 1256 for a period of 3 years having expired with the fusly under review, fresh Offers have been invited, but inconsequence of the unfavorable nature of the season, without success; and it will be necessary to retain it under Amany Management.

3. The Shrotriem Village of Anvaloor which was rented for a period of 30 years from fusly 1245 has likewise been taken under Circar Ma= =nagement, the Renters having on account of the difficulties experienced in paying the Kist resigned the lease, and as yet no

no others have offerred to rent it, probably from the unfavor= =able prospects of the present season.

From the Collr. of South Arcot.

Sir,

Fort St. George

I have the honor to report

Reporting on the circumstances relating to the suit in which the Shrotriem of Tunderay and Enoum lands were involved explaining the condition of the holders apart from these alienations and is of opinion that in the event of the Enoams being disallowed to the Enamdars the same ought to revert to Government.

upon the several points called for in the Board's Proceedings of the 13th September last relative to the circumstances attending the Suit in which the Shotrium Village of Tunderay and Manium lands referred to were included.

2. Goolam Hoossain the original possessor of these lands died many years ago leaving a widow 1 a son 2 (the Petitioner) and two daughters 3-4 all of whom appear to have lived amicably together for a length of time. But on a dispute arising between Mother and son the former entered an action against the latter in the late Auxiliary Court of Cuddalore in Suit No. 139 of 1835 claiming a share of the property It is thought that this Suit was entertained on

1	Beejan Bee
2	Goolam Mahdeen
3	Beebeenah Beebee
4	Aishee Bee

on the understanding that Regulation XI of 1831 did not bar its admission until Act XXXI. 1836 was promulgated. From a Razeenamah filed by the Defendant Petitioner/in that Action it is seen that he had agreed to allow his Mother one eighth share of the property and upon the orders of the Court Beejum Beebee enjoyed that portion of the Shrotriem and Enam lands ever since paying also the one eighth part of the rent due to Government on account of the Shrotriem a translated copy of that Razeenamah is enclosed.

No. 1.

3. The Board will see that the Petitioner therein alludes to the Extent of the share to which his two Sisters were entitled tho' they do not appear to have been parties in the Suit. Accordingly under the authority of Government Beeheenah Beebee one of the Sisters Lawl Beebee daughter of the other/deceased/Sister Ateiee Bee and Sirdar Jaffer her Husband sued the Petitioner to participate also in the family property upon

On Petition No. 812 of 1842

upon the tenor of the aforesaid Razeenamah. The Mooftee Sudder Ameen having rejected the claim of the last individual decreed 7/16 share of the property to the two first. It is true the Petitioner denies the execution of the paper in question but it will be seen that the Court disproved his statement the document must therefore stand as a valid one.

See Encls: No. 16 in Pets. No. 72/49.

4. Upon this decree Goolam Mahdeen appealed to the Civil Judge in A. Suit No. 32/44. who in modification of the decree passed by the lower Court ordered a share equal to 7/16 of the profits of the Village lands of Tunderay in favor of the 1st and 2d Respondents and affirmed the rest of the Decree. I understand from the Vakeels of these parties that the Petitioner never made his special appeal altho' the Court left it optional with him to do so.

5. However, upon a Motion made by the 1st and 2d Plaintiffs in the Original Suit the Court on the 16th December 1846. issued a Hookumnamah to put them in

in posession of their share of the Enam lands and other property as well as to recover Rupees 408-8-2 being the profits of the Shotrium Village for the space of four years together with costs of Suits. Accordingly their shares in personal and other real property were made over to them but it appears the Petitioners portion had to be sold to meet the judgment of the Court, the Amount so realized appears from the papers submitted by Government Vakeel to have been Rupees 177-11-11.

6th The Petitioner is known to be poor and the Vakeel of the two females says they are no better. Petitioners son declares that the husband of Beeleena Beelee is in the receipt of a Moonshee Pension of 25 Rupees a Month at Madras and that Loal Bee who is a widow has no means of support, she has a son who is a Trooper in the Cavalry, and 9½ Rupees pay Monthly.

A. 2. 7th Enclosure No. 2 will shew the value of the Village Tunderay according to the Survey Accounts and the average Gross and

Nett Beriz and Collection with explanatory remarks.

8. In regard to the Enam lands adverted to in para 2 of the Boards' Proceedings the Petitioners son thinks his father Goolam Mahomed (who has been residing for some time at Madras) may likely be in posession of the Original Enoyetnamah. I have no means of procuring this document nor of submitting any explanation respecting it.

No. 4 Mr. Cunliffs' Takeed dated 14th November
No. 3. 1827 together with the Arzee received on the subject are copied, translated, and herewith forwarded.

9. The two Shrotrium Villages of Kalanette and Nayerpet are still held on Shrotrium Tenure by the descendants of the original grantee and the grant of the former seems to have been made exclusive of the Enam. But as the Government reserves to itself the discretion of continuing or resuming alienated lands, I am of opinion that in the event of the Cuttoolady Enam of C. 9-7¾ land being disallowed to the Petitioners family, the same according to

to Established custom ought to revert to Government and not to the Shotriemdar..

Translation of an Extract from an Uzy without date to B. Leuncliffe Esqre Principal Collector of South Arcot from the Tahsildar of Tirouvamullay Talook Fo 102 October 1827

In the Paymash Account of Nunjah Cuttiady Manium of 7 3/8 Cawnies is entered but from the Ayacut Account it is not entered that the land has been cultivated and enjoyed every year. The Goomastah of the Soorothrummdar states that in the year Eeaspara when 7/8 Cawny of the Manium land was cultivated and the produce thereof received by the Manium:dar when the Soorothrummdar made a complaint at the Talook Cutcherry and the Teerwah of the land was collected from the Maniumdar. On the Curnum of the Village being examined he admits the fact of the complaint of the Soorothrummdars Goomastah to the then Tahsildar but he does not know of the Money/Teerwah/ having been collected

The Goomastah Sama Chetty made a complaint in Fusly 1236 to the effect of the Manium Nunja land having been cultivated and of the produce thereof having been forcibly carried away by the Maniumdar and it was enquired into and reported upon to the Hoozoor but orders were received to direct him to go to the Civil Court. From this it does not appear that the Maniumdar enjoyed it with the consent of the Soorothrummdar.

The undermentioned documents have been produced by the Maniumdar on his being required to do so if he had any re:garding the Manium Viz.

Copy of a Purvana given by Nabob Amurroodeenrahaden in Fasle 1202 to Goolam Hussain Subadar of the Cuttiady permitting the Manium 32 6/10 Cawnies to be enjoyed — 1.

Copy of an Enoyetnamah issued by Nabob Hoomiathool Omeer Bahader in Fasli 1209 to Veneata Row Seenevas Iyen Amildar directing to allow the enjoyment of the Manium for the Current year as was the case up to last year — 1.

similar grant has been recently ordered for those in the Circar Villages as per Regulation XI. The Talaiar cultivates and enjoys it.

I beg to send herewith a list of the 14 Manimms alluded to in the Pymash account of the said Soorothrimm Village shewing which of them are in the enjoyment and which are not together with a deposition taken of the Village Curnum on the subject.

I wrote this to bring to your notice the particulars of the subject contained in the Eighth Paragraph.

Translation of a Yakeed signed by Bo[illegible] Leunliff Esqre Principal Collector of South Arcot to the Tahsildar of Tirnomalay Talla No. 18 dated 14th November of Fusly 1237.

In your Urzee numbered 102 without date you acknowledge the

receipt of an order referring to you for investigation and report the Urzee addressed by Tirkadar Gopaul Row on the enquiry made by him into the complaint presented at the Hoogoor by one Sama Chary Goomastah to Soorothrimmdar that the Curnum of the Soorothrimm Village Unlawfully had entered extra Maniems according to his pleasure and state together with the Curnums deposition and an explanatory list after having examined the accounts and enjoyments that for Pullian Hea & Charities Manimms were entered in the Pymash account of the said Village in the same manner as is the case in other Villages but it has neither been enjoyed nor included in the Ayaent Account of the Soorothrimmdar from its commencement up to now that no Manimm is allowed for the petty Dannotammo except an allowance called Vilaenll that Maniem for Hundana num Hea & charities are entered in the Pymash and Ayaent Accounts and enjoyed accordingly that Maniems for Pookery or Taliari and Rengacharry were subsequently granted and entered in the Ayaent account that 7/8.

Cawnies

Cawnies of Nunja Cultiady Maniem which is entered in the Pymash account is not included in the Soorothrummdar's Ayacut account but proved to have been enjoyed, that the Maniemdar possesses some documents such as Summuds of the Nabob's time, but the Maniem was not given him, that the Maniemdar had in one of the former years and in last year carried away the produce of one and odd Cawny by force which was complained of by the Soorothrummdar and on enquiry was made at the Hoozoor, and that the Soorothrummdar says that the Maniem was neither given nor enjoyed since the commencement of the Soorotheem.

In the Urzee addressed by the late Tahsildar in fuslies 27 & 28 when the Cultiady Moniem was disputed he reported not only that the Moniem was never enjoyed since the Soorothrum was conferred but also that it was in dispute since the fusly 11 when assumed by the Company. The Moniemdar asserts his Moniem to be

32 and odd Cawnies in Vulavetty Sanayoor Nungoor and Noyerput of which 23 in the Villages of Sanayoor and Nungoor are only entered in the Maniem Immahlundy Account and granted and the remainder in Vulavetty and Noyerput is neither entered in the Moniem Immahlundy Account nor granted. In the Urzee Enclosure No. 3 in the above letter, it is stated that the Cuttoobady Mauniem Cawnies 7 3/8 in the Village of Vale=vettee is entered in the Pymash accounts- but is not entered in the Ayacut account as having been cultivated and enjoyed every year- about the enjoyment of the Enam Caw=nies 2-1 3/4 in the Shotriem of Nayerpur there seems at the time when the Urzee was written to have been no dispute- In the Takeed Enclosure No. 4, the Tahsildar is ordered to confirm the Mauniems of the Valavettee Village in reference to the Shotriemdar's Ayacut Account and to the continued enjoyment, and to prepare accounts accordingly- and under this order it seems to have been intended to make over the Cuttoobady Enam Cawnies 7 3/8 to the Shotriemdar, on the ground that it was not included as Mau=niem in his Ayeut account nor in the Mauniem Summabundy Account: nor in the list of Cuttoobady Mauniems prepared by Mr. Hyde in Fusly 1237 and that it had not been enjoyed by the Mauniemdar but had

in Fusly 1237 the Mouciem of the Vala=vettee Village was not inserted - All these particulars being known from the above Urzee also you are directed to confirm† the Mouciem of the Valavettee Village in reference to the Shotriemdar's Ayacut account and the continued enjoyment and to prepare the Accounts accordingly.-

Extract

Extract from the Proceedings of the Session Court of Cuddalore, dated 7th December, 1849-

1- In Session Case No. 48 of 1849.

the Prisoners Oryuran alias Tandaverayen & 6 others charged with having committed a gang Robbery in the house of Narrain & Shetty in the Village of Cumum Shavady of Trevady Talook- It appeared from the record that a list of Stolen property was sent to the Tahsildar by the Village Moonsiff and that the Tahsildar himself received a list of the property from the Prosecutor, these two lists however were not forwarded by the Tahsildar with the record of the case; the Session Judge therefore directed the Tahsildar to forward the two lists to the Session Court-

2- The Tahsildar sent the lists and in his Urzee dated 4th Instant stated that the lists has not been forwarded with the record of the case because

a

a list made out in the proper form had been sent, and he did not think it necessary that a piece of cadjan on which the list sent by the Village Moonsiff is written, is broken off, and the piece cannot be found.

3. The Cadjan list does not bear the Signature of the Village Moonsiff and it is marked by the Prosecutor.

4. The list taken by the Tahsildar from prosecutor's dictation on the 18th August is signed by the prosecutor.

5. In this last mentioned list a small earthern oil Chatty is entered valued at annas two but evidently in a different hand from the other articles in the list, this Chatty is said to have been found on the 1st Prisoner there is also entered in this list a piece of Cloth of Six Cubits, this was originally valued at annas four, this has been altered

altered to annas two and thus the sum total of the Articles remains unaltered. In another part of the same list is entered a piece of Oil Cake valued at Pice three, this is also in a different hand, a beetle bag is also entered, the original value is pice Six, this has been altered to pice three by this means the sum total is unaltered.

6. The Tahsildar says that the list prepared according to form had been sent, by this he means the list shewing the Prisoners on whom each article was found, therefore he did not think it necessary to forward the other two lists, he must have known that both lists were necessary as each had to serve a different purpose, and that he did known this is evident because in other Cases forwarded by him, in which these very same Prisoners are accused, he has sent the list made out immediately after the robbery and the list shewing the

the persons on whom the property was found.

7- The Case was postponed until the receipt of the list from the Tahsildar and on the 6th Instant on which day the lists were received the Prosecutor was examined on his Solemn affirmation, he stated that the value of the Cloth measuring 6 cubits is annas four and it was entered at this valuation in the list the Tahsildar took from him, that the value of heette bag in the same list was entered at pice six; that he put his signature to the list the Village Moonsiff sent to the Tahsildar and that the signature affixed to the list taken by the Tahsildar and then shewn to him is his.

8- From the Statement of the Prosecutor it is clear that the Cajan list forward by the Tahsildar purporting to be the one received by him from the Village Moonsiff is not the list which he received

received and as this list does not bear the signature of the Village Moonsiff the Tahsildar has made the remark that a piece of the cadjan is Broken and cannot be found, leaving the Court to infer that it was on this last piece that the signature was written and thus saving himself from stating a direct falsehood.

9- The evidence of the Prosecutor also shews that the list taken by the Tahsildar has been altered to make it correspond with two articles, the Chutty and Oil cake forwarded to the Court as part of the stolen property found on the Prisoners.

10- It is evident that the Tahsildar being aware of these alterations in the list was in hopes that among the voluminous records of the 16 cases sent up by him to the Criminal Court the absence of these lists would not be discovered and that he would escape detection.

11- When falsifications of the records are

are resorted to by the Chief authority of a Talook to bring a charge home against the accused, but little confidence can be placed on the acts of the Subordinate Police authorities of the Talook.

12. The Sessian Judge resolves to forward to the Magistrate of South Arcot the two lists received from the Trevady Tahsildar, and authenticated Copy of the last part of the Prosecutor, Narraina Shetty's evidence, and an authenticated Copy of the defence of the 1st Prisoned Oryuran alias Tandavaroyen with a request that the Magistrate will institute such enquiry into the matter as he may think fit, the two lists to be returned.

Ordered that Extract from these proceedings be forwarded to the Magistrate of South Arcot by Precept returnable in 10 days from and after its receipt.

Extract

No. 2.

Extract from the proceedings of the Sessian Court of Cuddalore, under date 27th December, 1849.

Read again the Return made by the Magistrate of South Arcot dated 17th December to this Court's Precept of the 7th December 1849.

The Magistrate in his Return states that the Teroovady Tahsildar has been employed in this District for upwards of 23 years and has hitherto conducted himself to the satisfaction of his employers added to which for nearly 10 years he held the situation of Head Jamabneveis in the Collector's department. In consideration of the above, for this, his first offence, the Magistrate suggests he might be suspended for six months which he thinks would be a warning to him for the future.

2. The Sessian Judge is of opinion that Six months suspension is an ample punishment for having altered the list; since the date of this Court's proceedings dated 7th December

December, the Sessions Judge has concluded the trials in Sessions Cases from No. 48 to 56 and No. 59 and 60 and from what he has seen of the Tahsildar's conduct in these cases, he is of opinion that the man is quite unfit to hold the situation of Head of Police.

3. Of the above eleven cases in seven the robberies were committed in the Teeroovady Talook and on the following dates. In No. 60 on the 28th August 1848 in No. 56 on the 18th May 1849 in No. 53 on the 23d July 1849 in No. 49 and 50 on the 24th July 1849 and in No. 48 on the 15th August 1849 not a single person was apprehended in any of these Cases until the 18th August.

4. In nearly all these cases the greater number of the Prisoners are said to have confessed before the Police, but the property found bears a very small proportion to the property robbed, and in some

of

of the cases the confessions do not agree with the evidence, there is every reason to believe that these confessions are not true and genuine.

5. In one or other of the cases the following persons are admitted as witnesses Viz.t Veerum Son of Coollen, Caroopen Moottyen Son of Orrayooran alias Tandavarayen, Conacal Veeran and Narayen these men depose that they were asked by the Prisoners to commit robberies and they refused and not once but two or three times. this of itself is sufficient to cast a doubt on their evidence as to none but men of bad Characters would such a proposition be made, these men on being apprehended as Prisoners, and not until then denounced the other persons apprehended besides this Veerum the Son of Coollen after his apprehension digs up articles which he has in his possession and which he admits he knew to be stolen. Conakul Veerum and Narayen retain in their possession an Aroonal for two months which from

from Veerum's deposition they must both have known was stolen property and what these men say is taken as good and sufficient evidence that they received the articles from the prisoners and that they saw the Pri=
=soners in a gang.-

6. It is impossible to suppose that the Head of Police was ignorant of the circumstances attending the burial and finding of the cloth in No. 57 of the changing of the cloth in No. 52 and the finding the screw in No. 56. In No. 50 the 7th witness an arrack seller admits that she received a Capoo from 4th Prisoner in payment for liquor, this of itself is a misdemeanor on her part nevertheless her evidence is received and no punishment inflicted on her for having acted contrary to the term of the Moochilka she signed.-

7. In No. 57 the 3d witness is Orayooran alias Tandavarayen and this man is 1st Prisoner in No. 48, 49, 50, 53 and

and 54; and in the same case No. 57 Pavaday is 4th witness and he is 10th Prisoner in No. 49-50. and 53. The 3d witness in No. 56 Ramen is the 4th Prisoner in No. 57.

8. The Witnesses in these cases say they received property from the Prisoners, and in a very few days after it had been delivered to the witnesses, the peons came and demanded the restoration of the property in No. 57 the peons came the second day after the cloth had been buried in No. 56 the 12th witness had the cloth only two or three days in his possession in No. 54 the peons came and took the nose orna=ment from 10th witness the day after she had received it from the Prisoner, it is quite evident that these articles had been delivered to the witnesses for the purpose of being found on them.-

9. The Session Judge is satisfied that the Tirovady Tahsildar fearing that from the frequency of the crimes and the non-apprehension of the thieves, he might ultimately

ultimately be deprived of his situation, appre-
=hended all the suspicious characters he could
get hold of some of whom he made Prisoners, & others
he admitted as witnesses and thus by packing the
evidence hoped to gain credit for his exertions and
keep his situation.

10. It is very probable that many of the
men in these cases do not bear the best of
Characters but however bad they may be, nothing
can justify the conduct of the Tahsildar.

Ordered that an Extract from these
proceedings be sent to the Magistrate of South Arcot.

Proceedings thereon.

Under the explanation afforded
the Collector in the Enclosures to the above letter
the Board of Revenue sanction the suspension for
Six months of the Trivady Tahsildar Venc
Row and they would have been prepared to co
acquiesce in the propriety of inflicting upon the
individual a heavier punishment had the C
Collector seen reason to propose it. They are of
opinion that Vencat Row should not be allowed
return to the charge of the Trivady Talook when his
suspension terminates - but should be transferred to
other Tahsildary.

comparing the sales of each Fusly entire as shewn in the 2d Abstract and the Depot Accounts there was a slight decrease in the aggregate consumption of the 3 Talooks of the Principal Division together with Ramnad and Shevagunga but a large Decrease in the Export to the Dindigul Talooks including Ramagherry and to other Zillahs.

In

6. In fact the whole decrease took plac
in the purchases for other Zillahs because it
is easily seen from the disproportionately large
supply furnished to the Iyempully Talook

of the Sub Division in Fuslies
1255-1256 and 1257 that the Traders
must have disposed of a large
portion in the neighbouring
Zillahs of Coimbatore and Salem - The
quantity taken by that Talook in the Fusly
under report appears by comparison to
be rather above what was requesite for
its own consumption.

7. Whether the supply received c
from the Coast by Coimbatore, Salem and Trichi
nopoly in Fusly 1258 was less than usual
in the aggregate, or whether they only took a
smaller quantity from the Madura Depots mak
ing up the deficiency from those of Tanjore and
Tinnevelly I have not the means of judging correct
ly but I am informed that owing to a failure
in

in the crops in Tinnevelly Pandies from that
District were sent as far as the Iyempully Talook
of the Dindigul Division, carrying Salt and taking
back Grain - There is usually a considerable
Export from the Tanjore Pans by the Road
in this District from Tondy to Dindigul and
thence to the Frontier, but whether the sales
in the Southern Pans of Tanjore were par
ticularly large in the Fusly under review I
do not know - It is supposed here that the
increased sales in the Madura Districts in
Fuslies 1255-56 and 57 were partly owing to a
deficient supply in the Tanjore Pans, and the
trade may now have returned to its usual chan
nel - As I am aware however that on the whole
there was no Increase in the sales for Inland
Consumption in Tanjore there is probably some other
cause for the deficiency - It is generally supposed
that the Earth Salt manufactured in the Tondi
man's Country is exported into the Company's
Districts, and I have no doubt from actual c
observation

observation that such is in some degree the case but as the Rent received by the Rajah has continued for several years at nearly the same amount Viz.t between twelve and thirteen thousand Rupees there seems no safe ground for concluding that the Exeport thence has increased recently so as to account for the decrease in the Fusly 1258 as compared with Fuslies 1254. 1255, 1256 and 1257 With former

Fuslies it is on a level as will be seen from the Margin The Tahsildar of Iyempully Talook in which the chief Decrease is seen states that the Traders had still on hand a part of the stock laid in during former years and the low price which Cotton till very lately obtained in the Market may have prevented the usual amount of Exports to the Coast which always affects the Salt sales - In the Inland Districts also there is generally some manufacture of Earth Salt

Salt to which a rise in the price of Sea Salt owing to any impediment to the importation naturally gives an impetus.

8. It appears to me that to draw safe conclusions regarding the Salt Revenue Tanjore Tinnevelly and Madura should be viewed together since accidental circumstances connected with Salt itself may determine the route of the Traders to one or other of these Districts

Statement No. 5

9. Owing to the total exhaustion of the Depots by the large sales of 1256 extraordinary efforts were made to procure the manufacture of a large quantity in 1847. Salt was prepared in 1848 also to a larger Amount than had been usual, but less than I had ordered owing to dissensions among the Ryots of the Tuttanum Pans. At the commencement of 1849 the Stock in hand was considerable, but being still below what seems to me requisite I shall endeavor to maintain the Manufacture of future years at a higher standard - We have

difficulty

difficulty in effecting this owing to the opera
of Husbandry and Salt Manufacture clashi
and the time of the Salt Amildar being m
occupied by his heavy duties as a Police Off

There was a Decrease in the charges both for
Manufacture and Sale which is explain
in the Remarks to Statement No 1.

10. The small Increase in the collec
at the single Chokey on the Pass leading
the Travancore country was owing to a gre
Export of Piece Goods.—

11. In the Revenue from Sea Custom
there was a large Decrease owing to the smal
Export of Piece Goods to Ceylon a
diminished Import of Betel Nut
from that Island and the operat
of Act VI of 1848 abolishing Duties
the Port to Port Trade of India The
first item of Decrease is attribut
by the Merchants to the competi
of English Manufactures, but is probably m
occasioned also in some degree by the reduc
state of the prosperity of the Island and
Exports

Exports from Tinnevelly - The principal Katoo
-tay Chitty of the District informed me that
less Betel is imported from Ceylon owing to
a large supply being now received into the
Presidency from some Island of the Eastern
Archipelago - I deem it more probable that
fewer Exports led to there being fewer returns
The last Item requires no remark.—

12. There was a small Decrease in the
charges explained in Statement No 1.

Abkary

13. The Increase under the head of Abkary
was owing to keener competition for the
Rent occasioned by the profit derived in
the preceding Fusly in consequence of a
rather low rent and the general prosperity
of the District. The Balance exhibited
in Statement No 2 as outstanding at
the end of the Fusly was recovered in full
within the Month of August.

14. The trifling Decrease in the
Demand under the head of small Farms
and

and Licenses composed chiefly of Fish Rents needs no remark. The Balance of 6589-11-11 outstanding at the end of the Fusly was reduced by the end of September to 87-5-1 which will be recovered.

15. In the Revenue from Stamps there was a very large proportionate Increase of which 4039-8-- was derived from the sale of Paper in lieu of Institution Fees under Act XVII of 1848 and the remainder was chiefly owing to Suits each for a very large Amount and requiring proportionately high Stamps having been filed in the Civil Court

16. The old Balances under the head of Abkary and small Farms and Licenses outstanding at the commencement of the Fusly under Review were reduced in the course of it to 895-2-2 and 86-8-11 respectively. The former was recommended for remission under date the 6th October 1849 and of the latter has been reduced to Rupees 38-1-9 which will be recovered at an early date.

33 Fort St. George.

From the Collector of Madura, dtd. 11th July 1849.

In accordance with the enclosed report from the Collector of Madura dated 15th October 1849 submitting for the orders of Government the Petition of Sooboo Pillay and 3 others of Tandicomboo praying to be exempted from the payment of the Sugar Cane Duty imposed by Act IV of 1848 and to be allowed to manufacture Sugar free of Duty for their own consumption.

2. The Collector has recommended that the prayer of the Petitioners be granted.

3. The Board of Revenue are of opinion that the Petitioners should not be exempted from the payment of the Duty imposed by Act IV of 1848 on the Sugar manufactured by them, but that they should be allowed to manufacture Sugar free of Duty for their own consumption, subject to the same restrictions as those imposed by Section VII of Act XXVIII of 1836 on persons manufacturing Sugar for sale.

4. The Board therefore recommend that the Petitioners be allowed to manufacture Sugar free of Duty for their own consumption, subject to the same restrictions as those imposed by Section VII of Act XXVIII of 1836 on persons manufacturing Sugar for sale.

5. The Board would also recommend that the Petitioners be required to give security to the amount of the Duty on the Sugar manufactured by them for their own consumption, and that they be required to take out a Pass for every Maund of Sugar manufactured by them, and to produce such Pass to the Collector of the District on demand, and to pay the Duty on the Sugar manufactured by them for their own consumption, whether such Sugar be found in their possession or in the possession of any other person.

Submitting with reference to the Board's Proceedings dated 13th. Instant copy of a correspondence between the Chief of Mahé & himself on the subject of the price of Salt used by the Fishermen of the French Settlement of Mahé in the curing of their fish for commercial purposes—

Sir,

I have the honor to acknowledge the receipt of the Board's Proceedings dated the 13th. Instant, desiring me to report on the complaint contained in a letter addressed by the French Ambassador to Her Majesty's Secretary of State for Foreign Affairs to the effect that I objected to the Salt used by the Fishermen of the French Settlement of Mahé in the curing of their fish being considered as coming within the terms of convention between Great Britain & France.

2. I beg in reply to submit copy of the correspondence which took place in 1846 between the Chief of Mahé and myself by which the Board will perceive that I merely submitted for the consideration of that Officer

Officer whether the Individuals who had embarked in the speculation of salting Fish for commercial purposes were entitled to the benefit of using Salt supplied from the Gollah at Tellicherry at Prime Cost for the domestic use & consumption of the Inhabitants of Mahé. I distinctly intimated to Mr. Hayes that the restriction should extend to the poor fishermen who might have occasion to cure their surplus fish.

see para 2 of Encl. No. 8.

Mr. Hayes having fully acquiesced in the view I had taken of the case, I did not consider it necessary to bring the subject to the notice of the Board and I beg to add that the cause which led me to address Mr. Hayes on the subject was the information I had received of a few Merchants (one of them a British subject) having undertaken to send a large consignment of salted Fish to Colombo, to effect which they made use of Fish caught not only by the Mahé fishermen but by those residing within the Company's limits they made Mahé their Depôt in order to evade paying the Monopoly Price for the Salt they required as well as the Export Duty.

J'ai examiné avec soin le Rolif de la differe

November 1844, la garce ancienne equivalen
un poids égal a cent quarante cinq Maunds

ference que presente Monsieur Le Collecte
sur une moyenne proportionnelle avec la
confusion des poids et mesures puisse
etre exacte, il aurait fallu pour d
montrer un excedent établir une

cette difference serait la sem
ble difference exacte qui pour
rait etre demontree comme
un excedent.-

La quantité de sel fourni pen
dant les années Fazely 1250, 1251,
1252 and 1253 est de 3934 Parrahs
de 25 dangalies chaque, qui font
a raison de 120 Parrahs a la garce
32 garces et 94 Parrahs pour 4 An

haut an nouveau poids 145 Inands et fractions.

La Moyenne proportionalle dapres la nouveau poids seroit donc de 1174. Inandes et 27 Setiers ou ci ..... 8 m 14 s 27

La quantité de sel fournis pendant les Annees Fazely 1254 and 1255 est de 4020 Parrahs de 20 dangalies chaque on le Parrah egalant un Inand la fourniture est de 4020 Inands ce qui fait en mesure ancienne, 27 garces et 105 Inands, dont la moitié qui est la Moyenne proportionelle dela furniture des deux dernieres Annees est de ..... 13. 52.

Donc la differenece ou l'excedent pendant l'année Fazely 1255 reste que de ..... 5...32.

Le motif decet excedent comme

je vous lai deja dit par ma Let: tre du 2 du present mois No. 47 provient decequ les habitants de Inahé ont sale pendant la derniere Annee une quantité plus considerable depoissons.

I have the honor to ac: knowledge the receipt of your letters dated respectively the 6th. and 12th. the latter conveying a copy of a communication ad: dressed to you by Monsieur

Le

Fort St. George 21st. January 1850.

Le Precepteur des Revenues in which that Officer attempts to shew that the increase in the quantity of Salt supplied during the last Fusly year is not so much as stated in my letter to you of the 30th. Ultimo viz. 12—64; but only 5—37—33. I beg to observe that the comparison drawn by Mons. Vecquet is between the average of the four Fusly years antecedent to 1254 and the average of the two subsequent ones Fusles 1254 and 1255 by this method a large portion of the increase which took place in 1255 (the ascertainment of the cause of which was the object I had in view) is absorbed in the latter average, and the results deduced therefrom inapplicable to the operations of the year under reference. Both the items inserted in the margin of my

letter of the 30th. July were according to the new or present mode of measurement, and in further elucidation of the point, I beg to annex a figured Statement which will, I hope convince you that the excess in Fusly 1255 compared with the average of the five previous Years is, according to the new Measurement, actually ..... 12—63—32.

and according to the old Measurement ..... 10—124—9¼

2. This increase is attributed to the fact of a large quantity of Fish having been salted at Madé during the past year, but as all the Fish thus salted have been exported from thence by Sea, I would in reference to article 6 of the Convention between the Governments of Madras and Pondicherry signed at Pondicherry on the 13th. day of May

To, Monsieur Hayes.
Chief of Mahé

Sir, I have the honor to acknowledge the receipt of your letter of the 10th Instant, in reply to mine of the 20th Ultimo.

2 The restriction, in respect to the use of Salt which appeared to me desirable, applied solely to any extraordinary case similar to that which occurred in the course of the last Fasly year. It was far from my intention that it should extend to the poor fishermen who might have occasion to cure their surplus fish. The extent of the Population of Mahé will no doubt enable you to form an estimate of the probable quantity of Salt that will be required Monthly or annually

for

for domestic use, which Estimate would I conceive afford a data for your periodical incidents upon my Gollah at Tellicherry.—

Recd 13th Decr 1849.
Recd 21st January 1850.

2. From this communication and the enclosed correspondence it will be seen, that Mr Conolly's objections did not apply to the salt required by the native fishermen of Mahé for curing their surplus fish. but to the case of some merchants one of them a British subject—who had undertaken to send a large consignment of salted fish to Columbo and who had made Mahé their depot with a view to evade at once payment of the monopoly price for the salt employed by them, and the export duty. The distinction drawn by the Collector seems to the Board to be reasonable.—

To the Chief Secretary to Government.

Submitting papers from the Collector of North Arcot on the application of the Daughter of the late Tayabah Saibah of Arcot for the portion of the Yeomiah enjoyed by her late Mother and conveying the Board's views on the subject.

Ord. Ltr. from Govt. Dated 2nd inst. No. 1 of 1850.

1. I am directed by the Board of Revenue to acknowledge the receipt of the order of Government dated 2nd January 1850 on the application of the Daughter of the late Tayabah Saibah of Arcot, for a portion of the allowance enjoyed by her late Mother.—

2. In that order the Board are requested to state their reasons for withholding their support to the recommendation of the Collector for continuing to the present applicant a small portion of the lapsed Yeomiah, as an act of bounty.—

3. In reply I am directed to submit the accompanying papers connected with the case, and to state that the Board would not have withheld their recommendation in behalf of the Petitioner under the circumstances mentioned by the Collector in his Endorsement of the 23rd November 1848. if that Officer, to whom the subject had been referred

referred for further information, had not discovered that the party in question was not dependant on the bounty of Government but that she had several relatives who were able to afford her asistance.

4. It will be observed also from the concluding para of the communication already quoted, that there are strong grounds, for suspecting imposition relative to the Yeomiah enjoyed by Petitioner's Mother and sought to be continued to her, which if true, furnished an additional reason for withholding any special indulgence in the present case.

Proceedings.
Pointing out to

The Board observe that the four

to the Collectors of Nellore certain letters addressed to the Board standing first in his unanswered list up to 31st December 1849. which in the Board's opinion may be struck off.

four first letters entered in the above list are of dates upwards of twenty years since, and that the fifth is dated 8th August 1842.

They likewise remark that four of these letters are connected with surveys, and that the other refers to certain Maunaums which seem to have been proposed in 1828 to be given to the Curnums and Shroffs of the Carroo Villages.

It seems unnecessary to keep these papers any longer on the Collector's unanswered list, he will therefore be so good as to strike them out.

The questions connected with surveys may be revised when the general subject is under consideration, and Mr. White may renew the application, if he think fit, regarding the Curnums and Shroff's Maunaums.

Proceedings:-
Requesting the Collector of Madura to revert to the old system of transmitting all statements &c. to this Office enclosed in Envelopes.

It is observed that the Collector of Madura has on some recent occasions forwarded Statements to this Office, under wrappers, apparently in consequence of the recommendation contained in the notification of the Post

Post Master General dated 20th. January 1849. The Board request that Mr. Parker will continue the previous system of forwarding all documents to their address under envelopes, which will prevent their being damaged, or their accompaniments being lost, during transit.—

Diary

14th January Received the following letter

To, J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

1

From the Collector of Trichinopoly — Acknowledges the Board's Extract of the 12th July last on the subject of the recent changes in the Management of the Sreerungum Pagodas.—

Sir, I have the honor to acknowledge the receipt of your Extract from the Proceedings of the Board of Revenue under date the 12th July last, containing the Board's remarks on the subject of the recent changes in the Management of the Sreerungum Pagodas and directing me to communicate unreservedly with all Classes and ascertain whether the parties to whom the administration of the Pagodas is now confided are generally acceptable to the Community.

2. The Proceedings of the Board detail with such fullness the measures previously taken for the Management of these institutions, since Government placed them under Native trustees, that it is only necessary for me to observe preliminarily that the information which I am now called on to furnish, is confined to the two Pagodas of Rungaunadaswamy and Jumboo Chistna in the Inland of Sreerungum, no change having

having occurred in the Management of the Toyman or Rock fort Pagoda.

3. It will be proper for me to allude first to the Runganadaswamy Pagoda, as the principal Change has been made in its Management, and it is the institution of most importance. It seems also necessary that a decision should be passed regarding it, before arrangements can be satisfactorily considered for the second or Jummbookistnah Pagoda.

4. Veerasawmier Manager of the Commissariat office, and Bala Soobraumny Mudelly has superintended the affairs of the Runganadaswamy Pagoda for 3 years in conformity with their election as Trustees by the Native Hindoo Community in December 1845 when Mr. Onslow in April last placed the Pagoda in the hands of Runganadaswamy Iyengar and Sevagoorvonada Pillay, upon the nomination of the Stalatars, directing that one of the Stalatars in annual rotation should act with them as an ex Officio trustee. Mr. Onslow reported the reasons which induced him to make this alteration and the Board while expressing regret

regret that a change had been thought necessary observed "that they would not object to the new arrangements if assured that they were urgently called for and that they are satisfactory to the great body of worshippers interested in the institution."

5. I was therefore called on to report the sentiments of the community, which I have hitherto delayed doing for several reasons. It seemed to me inadvisable to add to excitement and party spirit by calling a meeting or taking other public steps to learn the wishes of the people, and I therefore sought to ascertain them by conversation with persons of respectability as opportunities occurred. This course seemed to have the advantage both of allowing time for the party spirit excited by the changes to subside and for judging if the new Trustees proved successful in giving satisfaction to the community. I was anxious to avoid the necessity of further changes, and hoped that the advantages anticipated by Mr. Onslow would arise from having as Trustees persons who were unconnected with the public service and who from the mode of their election were likely at all events to act harmoniously with the Stallatars.

6. I regret however that it is my duty to report that the present arrangements have failed in giving satisfaction

satisfaction to the community, and that the interi-
nal affairs of the Pagoda have not been so conduc-
ed as to prevent fregnent and strong complaints on the
part of the servants of the establishments, the Stalla-
tars and the Tengalier party whose usages are
to be followed in the Pagoda according to the
decrees of the Civil Courts so violent indeed
have the disputs become that some change or mo-
dification in the Management would seem indis-
pensible, even if public opinion was more in favor
of the present Trustees than it appears to be.
On this point my enquiries lead me to the
conclusion that while each party has some adherents
from personal or family motives, and while the
general body of the worshippers would be satis-
fied with any arrangement which secured the
orderly management of the institution the majority
of the community are in favor of the late and against
the present Trustees.—

7. I had hoped that it might have been possible
to induce the two parties to lay aside their dissen-
sions, and agree to a plan for the Common manage-
ment of the Pagodas. I find however that this is
impracticable from the unwillingness of the ex-
trustees to act with Rungasawmy Iyengar and
it seems therefore necessary either to replace
the Institution in the hands of the late
Managers who were appointed in 1845
by the community or proceed to a new
election according as the Board may deem
advisable.—

8. To give the Board the fullest
opportunity for deliberation on this point, I
should mention that the late changes have
brought into prominence the disputed point
whether the right to nominate Trustees is
vested in the community at large, or in the
Stalatars. The Board have indeed already
expressed their views on the point* but the im-
portance which the subject has now acquir-
ed renders it necessary that in future arrange-
ments the question should be authoritatively
settled.—

9. Much of the excitement which the
late changes caused has apparently arisen
from the right of electing Trustees having
been taken away from the community who
regard the Institution as the property of
the Hindoo Public and assigned to the
Stalatars, who are generally looked on
as merely hereditary ministerial servants,
subject to the Superintendents of the
Pagodas in the discharge of their
duties, and unpossessed of any private
right to the Institution, although entitled

Para 20.

by their position to weight and influence in the conduct of its affairs. The Stalatars on the other hand are anxious to obtain the entire control of the Pagoda and its funds, and have been encouraged by the recent changes, to assert their claims in an extraordinary manner. They have addressed me petitions stating that they had ordered the dismissal of the present Managers and intended proceeding to the nomination of others and I was obliged to take notice magisterially of the conduct of the Stalatar now in Office, as ex-Officio Trustee, in consequence of his placing his private seal on the Treasury and using force to prevent his colleagues, the majority in the committee of management, from having access to it. To show the views of the Stalatars I beg to enclose for the Board's perusal a copy of an arzee addressed to me by them on the 8th Instant together with my endorsement upon it.

10. The importance of the question which arises from the conflicting claims of

of the Hindoo community and the Stalatars has made it necessary for me to enter into this detail for the purpose of representing the state in which matters stand and enabling the Board to decide on the steps which are now most advisable for providing for the management of the Pagoda. The agitation of this question is in itself a matter of regret as it is likely to affect unfavorably whatever arrangements may be made for the future orderly management of the institution, and render their success more difficult, even if an immediate decision be given on the point.

11. With respect to the Jembookistnah Pagoda there will be apparently no difficulty when the arrangements for the principal Dewastanum are decided upon. If Veeresawmier and Balasoobramany Moodelly were replaced in the management of the Ramanadaswamy Pagoda, the former would I am confident be ready to resign his Jembookistnah trusteeship, should such be the pleasure of the Board, in order that

the

the Community might have the opportunity of electing Seevagoorooneda Pillay as the representative of Avadya Pillay on his giving them satisfaction regarding the jewels of the Institution supposed now to be in the treasury room of which he appears still to posses the key. The present managers applied to me to be furnished from the Government records with an authenticated Copy of the list of Property belonging to this Pagoda for the purpose of bringing a Suit, Civil Suit for its recovery against Seevagoorooneda Pillay, but I have hitherto deferred compliance with their request in the hope that matters might be eventually settled without the necessity of recourse to the Law Courts.—

12. I have not considered it necessary to forward with this report Copies of the numerous complaints which have been presented to me against the present managers of the Ringanadeswamy Pagoda, especially as many similar address appear to have been sent direct to the Board

Board. I deem it however proper to enclose for the Board's information a copy of a charge lately made to me by the present against the ex. managers, accusing them of having exceeded the proper expenditure of the Pagoda to the amount of Rupees 9,884 12 10. during their term of Office, and of having removed money from the treasury when directed to give up their trust. I was called upon to take cognizance of these charges under Regulation VII of 1817, but my power to do so would seem doubtful as the accused are not now the Office holders described in Section XVI and after taking also into consideration the time which had intervened before the charges were made

made, the state of party spirit, and the confidence which a Majority of the community still show in the late managers, I limited myself to calling upon them for explanation of the accusation. A translated transcript of the reply which they made to my call is enclosed for the information of the Board.

To. The Presence of E. Maltby Esquire Collector of Trichinopoly.

The humble address of Streevatha=veysa Butter, Sreevathoolathaseya Runga=charriar, Sree Parasara butter, and Sreevootha=manumbee, the Stalatars and Thurmacurthers of the Streerangum Davastanum. 1st. The Nawab Saib granted Enoyetumah to your Petitioners ancestors constituting them and their posterity heirs of the Streerangum Sthulum. From the period of the assumption of the Country by the Company the Receipts sent to the Hoozoor by the Head Peshcar for the Mogence Money for the Davastanum were always signed by your Petitioners according to custom and the money sent for, and the accounts of the expenditure were also signed by your Petitioners; also the late Zillah Court passed a Final Decree in No. 130 of 1808 declaring your Petitioners alone were entitled to receive the Mogence Money.

2. In 1842 the Government passed an order on the Act of Parliament to put the Davastanum in

in possession of the Heirs. The late Collector Mr. Onslow wrote to the Board that your Petitioners were the Heirs but that as the Davustanum was a large one, Kristna Row and Chundrasagarum Pillay who had been chosen by your Petitioners should be allowed to assist them. The Board on the 6th October 1842 accordingly confirmed the suggestion of the Collector. 3d. The Collector Mr. Onslow accordingly on the 12th November 1842 granted your Petitioners an Hookoomnamah in which they were directed to take possession of the Davustanum, and all the Jewels and other property belonging to the Davustanum, and it was also stated in the Hookoomnamah that they were not amenable to any Authority, that in the event of any of the Assistant Durmacurtahs, dying or resigning your Petitioners should be elected instead, and that the Office of Dhurmacurtahs should be vested in your Petitioners and their heirs. 4th In the Muchilika taken from your Petitioners by the Circar at that time they bound themselves to be answerable for the 4 Lacs of Rupees worth of Jewels belonging to the Devastanum, the annual Allowance of 35,000 Rupees, the profits of the Covil vasil, and to give accounts of the same

and that should any deficiency be found that your Petitioners would be answerable. 5th While your Petitioners were thus conducting the duties of the Davustanum the abovementioned Kristna Row died. Your Petitioners and Chundrasagarum Pillay afterwards conducted the affairs of the Davustanum up to August 1845, a period of 3 years and 2 Months. Such being the case Chundrasagaram Pillay died when your Petitioners elected Cunjamalay Moodeliar Cash Keeper of the Collector's Cutcherry and Ramasawmy Moodeliar as Assistant Dhurmacurtahs. On Mr. Onslow making a Report of this to the Board they in December 1845 directed that the Heirs of the deceased Durmacurthars should be elected in their stead. 6th The Community has a right to assemble and appoint a Committee to institute an enquiry only where any extensive property may be left unclaimed by a person dying intestate, such being the case and at variance with above Hookoomnamah the Community appointed 2 Circar Servants Cunjamalay Moodeliar and Veerasamyer Commissary Manager, Durmacurtahs of

of the Devastanam, even then also the Jewels and other property of the Devastanam were in possession of your Petitioners. 7th. Your Petitioners presented a Petition to the Revenue Board against the usurpation of their Office of Dhurmacurthers by the Public Servants abovementioned. On the Subject being re-ferred to Mr. Oslow that Gentleman sent a Summud on the 3d. February 1849 directing that the late Managers and your Petitioners should look after the affairs of the Devastanam. 8th. On your Petitioners objecting to this arrangement Mr. Onslow made a report to the Revenue Board, who sent an order dated the 12th. March 1849. On this order Mr. Onslow sent a Summud on the 6th. April to the Tahsildar of Laulgoody directing him to nominate 2 of your Petitioners in conformity with the Original arrangements. 9th. Your Petitioners relying on the false assurances of Rungasawmyiengar named him and Seva-gooroonatha pillay as Darmacurtahs to assist them. 10th. Your Petitioners presented many Petitions to your honor regarding the many tricks of Rungasawmyiengar and Seva-goornada Pillay to usurp the 4 lacs of Rupees of Jewels &c. but no orders were passed thereon, and when the Devastanam was

was locked by one of your Petitioner Stree va thavey as a Butter to secure the jewels, your honor fined him 50 Rupees and directed the Jewels to be placed in possession of the As-sistant Durmacurtahs. 11th. Moreover, neither the Government nor any other authority appoint-ed Rungasamyiengar and Seevagooroonatha pillay, your Petitioner alone appointed them as Assistant Dhurmacurtahs. Such being the case your honor has given them the Mogene Money and allowed them to usurp the Davastanam Jewels. 12th. As the arrangements now in force are at variance with the Decision of the late Zillah Court to the order of Govern-ment and to Mamool it has become imperative on your Petitioners to institute a Civil Suit. The institution of the Suit would be at variance with Section IX & X Regulation II of 1802 and to C. O. of the 6th. June 1833. 13th. In the Suit which your Petitioners will institute to cause the former decision to be carried into effect according to the abovementioned Regu-lation, the Government must be the Defendant under Section XIV Regulation VII of 1817. The object of your Petitioners is therefore to request your honor will kindly be pleased to peruse the

the Documents herewith presented to send for your Petitioners personally, enquire fully into all the circumstances of the Case, and that you will in regard of your Petitioners carry out the decision of the Court, the order of Government, and Mamool, and the course followed in the other 21 Zillahs of the Madras Government since 1812. In the event of your honor not complying with your Petitioner's request they pray that your honor will according to Para. 3 of the Petition Rules No. 5 of Government Endorse this Petition as to the party against whom your Petitioner may institute a Suit.—

And your Petitioners as in duty bound Will Ever Pray—

The Collector has no orders to give on the Subject adverted to at the end of this Petition. Regarding the general contents of this Petition the Collector repeats the substance of his former endorsement on Petition No. 155 Viz. that under the arrangement established by the Superior authorities for the management of the Pagoda he does not recognize the Stalatars as Dhurmacurtahs or Trustees, with the exception of the one who may be acting in annual rotation with the appointed Trustees.—

No. 2

Translate of an Urzee submitted to E. Maltby Esqre Collector of Trichinopoly by Rungasawmy Iyengar and Seenagoorooda pillay Durmakurtahs of Shreerungaham Pagoda—

On the 3d Instant we reported to you that improper items of charges were entered in the Pagoda accounts by Kunjamalay Moodeliar and others the late Managers of the aforesaid Pagoda upon which we were directed by you on the 8th idem to submit a report showing the item in detail, and mentioning when & how they came to our Knowledge—

We beg to state, that we having heard from many people that Kunjamalay Moodeliar and others after being appointed as Managers to that aforesaid Pagoda in fusly 1256 or in December 1845 fraudulently entered in the Accounts many sums as having been expended on account of Circar servants—Pay of Servants, advance made to

to Paddy Contractors price of — articles, and an account of repairs &c. & we having further heard that Kunjamalay Moodeliar took away — some Dustors containing accounts and also a certain sum of Money from the Pagoda Treasury to his house in the Fort at 1 P. M on the 11th April last, we examined the — Pagoda Accounts, and found that several items as mentioned in the Accompanying Statement were entered in them, and we therefore reported the same to you —

We beg, therefore, that you will Enquire into the above circumstances, inspect the Documents passed by Kunjamalay's Moodely, and Veerasawmy Iyer's Balasoobramonea Moodely and by

Ootammunbee & recover from them for the Pagoda the Amount taken away — from the Pagoda Treasury on the 11th April at 4 P. M.

People of consequence who come from a distance to visit the shrine during festivals, and also at other times as a matter of respect, The respectable Natives of Trichinopoly are also presented with the same whilst the Davastanum was under the Circar Management the Expenditure in this item was exstensive and tho a Dittum (amount) fixed was established, yet at times it exceeded the fixed amount, for the truth of which the accounts kept during the Circar Management are a proof It subsequently became necessary to obtain the aid of opulent people and the ryots for carrying on the Pagoda business because the Circar afforded no Assistance and Numerous presents of Jewelry &c. continued to be made to the Pagoda Consequently when such persons came to the temple it was necessary to present them with (Presadum) cakes for making which the required Articles were supplied from the Covil and entered in detail in the Accounts. The parties here alluded to never received a cash in Money of which the accounts are a proof

To support this Charge the Trustees have only shown the increase in the Poosay Mitchum, without showing the decrease made by us in the Iyen Sibbendy which is dishonest. The truth of this explanation will appear from the Sibbendy list and the book in which the Servants sign receipts for their Monthly Salaries

by as for each item of the accounts which accompanied the 1st. arzee and a perusal of it will convince your honor that the present Durmacurtohs have made a false Statement charging us with having wrongfully appropriated money with a view to bring us into disgrace.

2d. The above said Canjamalay Moodelliar Ottama Numbee Iyengar and Veerasamy Iyer/one of your present addressers/having been appointed Managers by the Community conducted the duties of Pagoda on the 20th. December 1848. Conjamalay Moodelliar resigned the appointment on the ground that he had no leisure for its duties whereupon the Community appointed Badasoobra=mania Moodelliar/the other of your present addressors/in his stead. Since that time we in conjunction with Ottama Nambee Iyengar conducted the duties of the Coil up to April as mentioned in the arzee. Canjamalay Moodelliar after his resignation never interfered with the affairs of the Pagoda and yet

yet it is falsely stated in the arzee that he was daily in the habit of appropriating to himself sums of money debiting them in the accounts to some mock expenditure and that he on the 11th. April took away the remaining sum from the Pagoda Treasury.—

3. If the Statement of the present Trustees accusing him of having appropriated money daily has any claim to credit a detailed account shewing the amount which Conjamalay Moodelliar took at each date, the persons by whose means he obtained the Money and the manner in which he effected the appropriation might have been given either in their 1st. arzee or in their 2d. which they wrote 4 days afterwards in answer to your Summud dated 20th. November requiring their answer to certain questions but they have not done so. In the accounts which they have now sent they state that we appropriated to ourselves Rupees 9884-12-10 debiting it to some mock expenses & point out the different

different items by means of which the misappropriation has been made. In this same account some sums which they have entered are shewn to have been expended, others are apparently due by certain individuals and some others again appear to have been advanced for the supply of materials which have not yet been delivered. The trustees do not state in the Arzee that they have questioned the individuals by whom the sums of Money and materials are due nor do they state that those persons denied the debt. If this is taken into consideration it will be perceived that the present Dharmakartahs have tried to bring us into disrepute by charging us with embezzling sums either expended or advanced for the Pagoda use because the native community applied to you lately for permission to assemble for the purpose of taking into consideration their irregularities.—

As regards the charge of our having taken away publicly certain

money on the 11th April we beg to state that the Managers of the Jemboocaiswaram Pagoda placed their Moheem Money in our charge because their treasury was still in the possession of Avadia Pillay and others and they had no fit place to secure it. In compliance with their request we ordered the Head Peishcar of Seerangham Pagoda to receive the Money into the Seerengham Pagoda Treasury keeping a separate account for its receipts and disbursements. On Sabapathee Moodeliar who is since dead and the other Managers of Jemboocaisweram accordingly directed their Peishkar to send the money belonging to that Pagodastanum to the Seerengham Treasury out of the Money thus received into the Seerengham Treasury such portions as were required from time to time were sent to the Managers of the Jemboocaisweram Pagoda upon their receipts when it was known that new Dharmakartahs were about to be appointed we and Ottamanumbee Iyengar agreeably

agreeably to the request of the Jemboo-
=caiseveram Trustees sent a Yaddast
to the Head Peshkar of Seerengham
Ordering him to send to them the sum
of Rupees 3,454-2-8. which belonged
to Jemboocaiseveram Pagoda and was
then in the Seerengham Pagoda
accordingly the amount was paced to
the Peshkar and Moozoomdar on the
11th April upon their receipts - With
this exception we have not taken a
single cash out of the Seerengham trea-

sent to Jemboocaiseveram is that which
we are charged with having embezzled
and the Yaddast which we sent to Head
Peshkar is the document which the trustees
have in their profession and allude to
as proving it - They name as further
evidence certain persons who are employed
under them. —

Sir,

(2)

From the Collector of Trichinopoly - -

Reports further on the subject of the Streerungam Pagoda referred to in his former letter dated the 10th Instant.

Para 1

In reference to my letter of the 10th Instant reporting on the Management of the Streerungham Pagodas, I have the honor again to address you on the subject, for the purpose of representing that the animosities and quarrels to which I before alluded, have reached a height which daily threatens disturbances of the peace and renders it necessary that as early a decision as is practicable should be given regarding the parties to whom the superintendence of the Pagodas is to be hereafter entrusted.

2. Of the two new trustees appointed by Mr. Onslow, Rungasawmy Syengar has taken the leading part, with the concurrence and support of the other who belongs to neither of the rival parties, in managing the affairs of the institution.

Rungasawmy

Rungasamy Iyengar is connected with the Wadagaliahs, but a temporary alienation from his own party in consequence, I understand, of some family disputes prevented his being unacceptable to the Tengaliah Stalocks by whom he was recommended to the Collector for the appointment.

3. Dissensions however soon arose between him and the Stalocktar in Office as ex. Officio trustee, in consequence of contentions for the Chief authority Rungasamy Iyengar has insisted on having the principal rule, for which the Stalocktar has also contended, representing that the few of the other trustees having been nominated by the Stalocktars shewed that they were merely meant to be his assistants or subordinates.

4. It would seem that since these disputes separated Rungasamy Iyengar from the Tengaliahs, he has sought to win the favor and support of the Wadagaliah party

party and for this purpose has been guilty of several unjustifiable and improper acts. Besides changing many of the Pagoda servants and usages he removed the Tengaliah sign which he had previously allowed to be placed over the principal gateway, and caused much risk of a serious disturbance during the Poongul festivals. On this occasion the festival was interrupted and the procession with the idol detained for a day on the public road, because some of the Tengaliahs were prevented taking their Customary parts in the ceremonies. The anger and excitement which was thus created in a large crowd, composed not only of the 2 rival sects but of general worshippers, made it difficult to maintain the public peace.

5. Although it has been my endeavour to interfere as little as possible in the Pagoda affairs, I find it necessary to take magisterial notice of the late occurrences alluded to above. It appears however to me that public peace and order cannot be relied on while the Pagoda continues under its present management; and, I therefore request the early orders of the Board on my late co

To

The Chief Secretary to Government

(1-3)

Sir,

To the Chief Secretary to Government — } With reference to the Proceedings of this Office under date 12th July last, and to the Extract Minutes Consultation of the 31st idem, I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Trichinopoly dated the 10th instant, relative to the management of the Streeringham Pagodas in his District.

Submitting letter from the Collector of Trichinopoly relative to the management of the Streeringham Pagodas in his District and conveying the Boards opinion on the existing arrangements for managing the Runganada swamy Pagoda and that the former Trustees should be re-elected, also forwarding another letter from that Officer shewing the necessity for the early settlement of the question.

Rec'd 23rd January 1850

2. In the Proceedings above referred to, the Board of Revenue reviewed the Changes which had been made among the parties nominated to the administration of the affairs of the chief Temples in the Island of

of Streeringham, those of Runganada-swamy and Semboocaswarum, from the time that those institutions were first transferred to the charge of Native Trustees in 1842 to that of the introduction of the present arrangements in the early part of the past year. While they regretted that the Collector Mr. Onslow should have considered it necessary to disturb the state of things which he found subsisting on his return to the District, they stated that they would not object to the Changes which he had effected, if assured that those measures were urgently called for, and were satisfactory to the great body of the worshippers interested in the institutions. On these points however further inquiry seemed necessary, and the present Collector Mr. Maltby was therefore desired to communicate unreservedly with all classes, and to endeavour to ascertain their sentiments upon the recent arrangements, and whether the parties to whom the administration of the Streeringham Pagodas was now confided were generally acceptable to the community. The Government before whom the above Proceedings

Proceedings were laid, Extract Minutes
Cons. 6th August 1849. Consultation 31st July 1849, deferred the final consideration of the subject until Mr. Mal reply had been received. His answer now under submission furnishes the required information.

3. In this communication Mr. Maltby states that the existing arrangements for the management of the Ruganadaswamy Pagoda, which is the most important of the Sreerungham Temples, have failed to give satisfaction to the Community at large, or even to secure harmony among the Trustees themselves. So violent indeed have the disputes become, between these latter parties that some modification in the management would seem indispensible even if public opinion were more in favor of the present Trustees than it appears to be. But in regard to this point the inquiries instituted by the Collector have led him to the conclusion that while either party has its partizans, and while

while the general body of the worshippers would be satisfied with any arrangement which would ensure the orderly management of the institution the majority of the community are in favor of the late and against the present Trustees. Under these circumstances and the impracticability of reconciling the contending factions, it seems to Mr. Maltby necessary either to replace the institution in the hands of the late Managers who were appointed in 1845 or to proceed to a new election with a view further to assist the Board in deciding upon this last alteration, he observes, that the late Changes have brought into prominence the disputed question whether the nomination of Trustees is invested in the Community at large or in the Stalattars - and that much of the late excitement has proceeded from the right of election having apparently been thereby taken away from the community, who regard the institution as the property of the Hindoo Public, and conferred upon the Stalattars,

Stalluars, who are generally looked on as
merely hereditary ministerial Officers of the Pago
4. The Board learn with much
regret that the arrangements made by Mr.
Onslow for the management of the Rung
-nadaswamy Pagoda, which though carri
out without authority, might it was hop
have resulted in the better ordering of the
institution, have so totally failed in acc
-plishing that object. Under the circum
-stances represented by Mr. Maltby the
removal of the present non-official
trustees seems urgently called for. With
respect to the two modes open to adopti
for supplying their room, it seems to the
Board that it would be in every way
preferable to reinstate the former
Trustees rather than to elect others.
The late Managers were formally cho

Their removal in 1849 was an act of the Colle

would simply be a recurrence to the previous

to an election would not only add to the
excitement and party spirit already too
prevalent, but would involve the decision
of the mooted question regarding the right

between the Hindoo Community and the

their opinion. but the agitation of the
matter seems at present uncalled for and un

the Board would beg to recommend that the
Collector be empowered to replace the adminis

Balasoobramunneya Moodely, one of the Stalluttars being associated with them yearly in rotation as ex Officio Trustee. It will be seen that when the affairs of this institution have been arranged those of the less important Pagoda of Sumboo-swarumm are not expected to present any difficulty and their adjustment may, the Board think, be left to Mr Maltby to be effected in some such manner as that suggested in Para 11 of his letter.

From the Collr of Chingleput

Sir,

Affording the further information called for by the Board in their letter of the 9th August last on the subject in the Cowle granted by the Nabob to one Gopauliah of Calattoor.

Para 1. } The Proceedings of the Board of Revenue under date the 9th August last, I have the honor to submit a Cowle issued by Government on the 29th April 1785 to one Numboot Vencata Soubeya for peculiar privileges on the cultivation of 379 Cawnies of land in Sauthamjary and four other Villages specified in the Cowle, which though in most respects resembling the Cowle granted to Sashachelliah, differs from it in one most material point, Viz.t that in the former grant, and which though executed in the same year bears a prior date it is distinctly laid down that the privileges were bestowed on the grantee and his heirs; and they have accordingly been

2. No records beyond the Grant of Government are forthcoming in my Office in either case to shew for what particular services the Grants were originally conferred. From the Statement of the Petitioner Gopauliah it appears that his Grand father Gopauliah having at his own cost built the Tank of Calattoor at an outlay of 4000 Pagodas, the Nabobwas pleased to grant him a Purwanah for the enjoyment of certain privileges; in consideration of which the Government on the 16th September 1785 granted to Sashachellah, father of the present Incumbent, the Purwanah in question.

3. There are other instances of Teazgary remissions being enjoyed in this District by certain Pagodas and Individuals to the extent of Rupees 954. 6. 6. on Cawnies 902 as 7 3/8 bearing a Teerwah, according to the Survey assessment, of Rupees 5844. 12. 10, but for which there are no Sunnuds the

the privileges having been continued in consequence of their having been enjoyed from time immemorial, and been entered in the oldest procurable accounts. These as well as the Ayacut remission Vea on the lands held by Gopauliah and Numboor Vencata Soubeya are shewn in the general Statement Marked A herewith submitted.

4. The 10 Cawnies of Maniem land granted to Gopauliah have been ascertained, according to survey measurements, to Comprize 9. Cs. 12 1/2 as. of land the assessment on which would be Rupees 149. 15. 8 P. per Annum Gopauliah or his ancestors never enjoyed remissions on so large an extent of cultivation as 200 Cawnies as permitted in the Cowle. The entire extent of land in his possession in the Village of Calattoor is 91 Cs. — 15 as. bearing a Teerva of Rupees 548. " 10, the remission on which, if fully cultivated would amount to Rupees 141. 4. 2, as P. but the remissions in this, as in all other cases of Teazgary, have hitherto been

B.

been granted only on those lands cultivated by the Cowledars own ploughs and servants. I beg also to submit a Statement† shewing the remissions enjoyed by Gopaliah during the last 10 years, the highest of in Fusly 1258 amounting to Rupees 62. 5. 1, and the lowest of Fusly 1255 to Rupees 3. 13. 8.

5. The Cowledar possesses besides these lands 131. 3/4 Cs. of Pooja lands in Calattoor and 91. 114 7/8 Cs. of Nunja, Pooja, and Totacal lands in the Villages of Saloor and Manapaukum as bearing a teeva of Rupees 673. 3. 8 for which no remissions are allowed. He holds them simply as a Meerasy Ryot in good circumstances. His present age is about 60.

6. The only documents in the Petitioners possession in favor of his rights beside the Purwanah of Government are enumerated in the Margin, and which are

† A Petition presented by Gopaliah to the Board of Revenue under date the 30th August 1824 claiming the restoration of his usual remissions which had been stopped in Fusly 1233 having been omitted in the settlement of the Survey accounts with the Endorsement of the Board and the then Collector Mr. Nisbet thereon The Putta issued to Gopaliah for Fusly

Fusly 1233 the Collector's remissions from Fusly 1234. The Money assessment fixed on Gopaliah's lands deducting the remission of 6 Collums of Coodevarum. A Petition from Gopaliah to the Collector Mr. Cunliffe requesting to allow him to enjoy the produce of his maniems with Endorsement.

taken by the Board when granted the new Purwanah to his father Sasha chelliah and it is probable not only that it will be found in the Records of the Government Office, but also that the original report of the Committee of Revenue may be obtained, and which would explain with greater certainty the intention of Government in bestowing the Grant. As it is, appears from the grant to Vencata Soubeya to have been customary with the Government to state when the grants were intended to be hereditary, I cannot but entertain a doubt whether it was intended that this Cowle should be so likewise.—

Translate of a Petition from Gopaliengar son of Sashachellaterengar Ereraffy ryot of the Village of Calutteor attached to the Chinglepute Talook of the Chinglepute District to the Board of Revenue under date the 30th August 1824.

Your Petitioners family were in the enjoyment upto the year 1822 of 10 Cawnies of Nunjah Manie land and the privilege of receiving a Coderumum of 6 Culs. in every 10 on the Cultivation of 200 in the above Village which privilege was granted to them under a Purwanah of Government executed in the year 1785. The Serishtadar nominated by the Honble for the settlement of the Jaravary assessment in the Village having omitted to take into account the 6 Culs. of Coodemarum above mentioned and having allowed only 4½ Culs. of Coodemarum in fixing the assessment of your Petitioners land in Common with the lands of the other Ryots, Petitioner produced his documents to the late Collector Mr. Smalley who ifsued orders to

Fort St. George 24th January 1850

to the Sheristadar to make proper remissions in the assessment. The Sheristadar promised to prepare the accounts accordingly at the Summab: bundy. Notwithstanding these Circumstances the present Collector Mr. J. Nisbett caused a Puttah to be prepared for the year 1823 without your Petitioners Knowledge fixing the Berij on his lands in accordance with the Survey accounts as proposed by the Sirkarmundar. Your Petitioner thereupon presented an urzee to the Collector remonstrating against this measure and requesting that the proper Remissions might be allowed to him to which the Collector replied he would do so from the ensuing year and urged the Petitioner to receive the Puttah already prepared for that year. Under these Circumstances Petitioner humbly requests your honorable Board will ifsue orders to the Collector to allow as usual the remissions due to him agreeably to the Purwanah. A Copy of the Purwanah is herewith accompanied

To the Chief Secretary to Government

Submitting correspondence with the Collector of Chingleput relative to certain lands in his District held by one Gopaulah upon free or favorable tenure under a Coule and conveying the Board's views on the subject.

Sir,

I am directed by the Board of Revenue to submit for the orders of Government, the accompanying correspondence which has passed between this office and the Collector of Chingleput, relative to certain lands in his District held by one Gopaulah upon free or favorable tenure by one Coule-

From Collector 28th May in Con. 9th August 1819

From Collector 7th Dec.

D.S.

Fort St. George 24th January 1850.

2

The Coule in question was granted by order of the Governor and President in Council of Fort St. George to Shashachellick, father of the present holder on the 16th September 1785. In consequence of the representation made in his behalf by the Committee of Revenue he is authorized him to enjoy ten Cawnies of Enam Paddy field ground in the village of Catatoor and to receive his cultivators share at the rate of 6 Callums in 10 upon a further extent of 200 Cawnies in the same village. The 10 Cawnies of Enam have been ascertained according to survey measurement to comprize C. 12 1/2 of land, the assessment on which would be Rupees 119-15-8 per Annum. Of the 200 C. on which the Coulcar is entitled to favorable rates of warum only C. 91-15 with a teerah of Rupees 548-4-10 are in his possession. The permission upon the whole extent if cultivated would amount to Rupees 141-4-2 but the indulgence is confined to the quantity of land actually tilled by the Coulcars own ploughs and servants.

and

and the amount enjoyed by Gopaulier on an average of the last ten Fasleis has been Rupees 43–13–4 per annum & Gopaulier is a substantial ryot holding lands in full assessment in Calatoor and other villages of an annual assessment of Rupees 673–3–8.

Jaghire Committee to Government 16 August 1785
From Govt to 14th September

3 From the correspondence which preceded the issue of the Cowle as noted in the Margin, it would seem to have been granted for the purpose of continuing to the Grantee the same privileges which had been conferred thro a similar instrument upon his father by the Nabob in consideration of the expense incurred in repairing the tank and reclaiming the lands of the Calatoor Villages. It is stated by the present Cowledar that the original Cowle granted by the Nabob to his ancestor was taken by the Board, when the new Purwanah was issued. but this document does not seem to have been sent up to Government with the letter from the Jaghire Committee under date 16th August 1785. It is not to be found in the Office

Meaning thereby probably either the Govt or the Jaghire Committee

The

4 The Cowle granted in 1785 thro
given on behalf of the President and Governor
in Council and sealed with the Company's
seal seems to have been issued thro the
Jaghire Committee and is signed by their
Secretary. A rough draft of this instrument
has been discovered among the Board's
records and is herewith forwarded. By
it the Enam land and the favorable
rate of Coodivaram now in question together
with other privileges respecting Tank Meerahs
&c are conferred on Gopaulier and his heirs
but it is not quite clear from the wording
whether all these privileges or the latter
only were meant to be hereditary. The
Cowle eventually issued differed from
the Draft both in respect to it's being
confined to the privileges now under
consideration and in its containing no
specification of an hereditary tenure.

Should the original Nabob's
5 Cowle be discovered among the records
of Government it will probably be
thought proper that its conditions, what-
ever they may be in regard to the permanency
of

of the grant should be protected. If it cannot be found, as the Cowle issued in 1783 contains no stipulation for its continuance in perpetuity, contrasting thereby, as remarked by the Collector, with a similar instrument granted to another party under the same authority and in the same year sufficient indulgence will, in the opinion of the Board, be shown to Gopaulier if his present advantages be left to him for his life and his lands remain favorably assessed, he passed to full servah on his death.

6 From statement A submitted with the Collectors last letter it will be perceived that besides the lands referred to in the Proceeding Paras and C. 86 2 1/8 held by one Vencata Ramiah under an hereditary grant lands to the extent of C. 7 7 3/8 bearing a Survey Assessment of Rupees 58 4 12 10 are enjoyed by other parties on similarly favorable terms but without

sanads and simply on the ground of long usage and entry in the earliest District accounts. The remission on these lands if cultivated to the full extent would be Rupees 954 6 6 but the actual amount allowed during the last ten years has been much less. Of the whole quantity part is held by Pagodas and part by Brahmin ryots while one portion is enjoyed by a Cummum but whether in virtue of his Office does not appear. With the lands belonging to the Religious institutions the Board would not interfere. Those held by individuals might they think be disposed of according to the principales of the Enam rules.

Statement A

ruler of 27th July 1818 - and in reference to the absence of information as to their origin and the purposes for which they were granted be continued on their present terms as long as they may remain in the families of their existing holders - The land held by the Cummum should be treated in the same manner unless it appears to form part of his official remuneration, in which case it should be regarded as permanently attached to his office.

Fort St. George

Sir,

(11)

From the Collr of Madras

Submitting the printed Statement of the Gross Collections charges & Net Revenue of the Extra Sources of revenue together with its several accompaniments A to H, as well as a separate report from Mr. Assistant Collector Taylor in the Salt revenue, for Fusly 1258. 1848/49

3d Aug. 1849

I have the honor to transmit herewith, in triplicate, for submission to the Board of Revenue, the printed statement of the Gross Collections, Charges and Net Revenue of the Extra Sources of revenue in the Collectorate of Madras, together with its accompaniments A to H for Fusly 1258. 1848/49 and my Assistant Mr. Taylor's report on the Salt revenue, which is under his immediate management.

Salt

Fusly 1257	Rs. 273629	
1258	398813	10 6
Increase	125184	10 6

2. It will be seen, from Mr. Taylor's report, that the Gross revenue from the Sales of Salt in Fusly 1258 was Rupees 398813-10-6, exceeding the revenue of the previous year by Rs. 125184-10-6. The Charges were Rupees 71270-3-2 and the Net Revenue Rupees 327543-7-4 which is Rupees 101035-3-8 beyond that of 1257. The per centage of Charges was in 1257, 18 20/64 and in 1258, 17 55/64.

From Board 12th July 1849.

4. The Demands of the Current Abkarry revenue for Fusly 1258 was Rupees 572744-6-3, the whole of which was collected within the year, together with the sum of Rupees 5-13-3 referred to in Para 3 of my letter of 17th October 1848, making a total of Rupees 572750-3-6. Adding to it the several items of Extra revenue enumerated in the margin, the aggregate amount of the Abkarry revenue of 1258 is enhanced to Rupees 573707-3-4 exceeding the Collections of 1257 by Rupees 4321-4-10.

5. The outturn of the two Fuslies, as exhibited in the Margin, will shew that the Increase on Putta Arrack is Rupees 3,196 – 7 – 7 whilst the Decrease in Columbo Arrack is Rupees 6,360 – 7 – 0. attributable to the facilities with which European Spirits can now be sold, even in unlicenced Tiffen Houses as I stated in Para 13 of my letter dated 31st August last. from the existing defects in the Police, Regulations, which the passing of the Act referred to in that letter can alone remedy. In making the above comparison, however, it is proper to draw attention to Para 19 of my report of 31st October 1848. No. 93, as it will be seen that, in Fusly 1257, the Increase in the revenue on Putta Arrack was Rupees 22,103 – 12 – 5, and that on Columbo Arrack Rupees 10,835 – 3 – 6.

In the Toddy revenue of 1258 there is an Increase of Rupees 44,330 – 2 – 10, whilst, in the sale of Brandy for Medicinal

Medicinal purposes, there is a Decrease of Rupees 141 – 10 – 0. When reporting on the settlement of the Abkarry revenue, I observed that the Collections on Toddy were estimated at Rupees 2,30,670 – 7 – 11, but the amount actually realized is in excess thereof by Rupees 55 – 13 – 9 I consider it expedient to allude to these facts in reference to the observations in Para 8 of the Board's Proceedings dated 26th February 1849.

7. The entries in respect to the Collections of the Abkarry revenue for Fusly 1258 correspond with those in the Statements of Demand Collection and Balance, with the exception of the several items of Extra revenue, the whole of which are included in the sums of Rupees 907 – 10 – 5. and Rupees 49 – 5 – 5 in Columns 12 of the Statement No. 1.

9. The explanation in Para 8 of Mr. Taylor's report applies equally to the Decrease in No. 1.

10. The Decrease in No. 2 and Increase in No. 4 do not call for any particular remarks.

11. The Decrease in No. 3 is owing to the Jaggery purchased in 1258 for the distillation of Putta Arrack having cost Government only Rupees 18,897-5-11 whereas in the previous year the outlay was, in proportion to the quantity, Rupees 24,178-8-5.

12. After deducting the charges the Net Abkarry revenue is Rupees 4,96,386-2-6, exceeding the like revenue of 1257 by Rupees 46,689-11-5.

Fusly 1257	Rs. 4,49,696-7-1

The per centage of Charges for 1257 was 13 30/84 and for 1258, 13 30/84.

13. In the Ordinary receipts under this head, there is a Decrease of Rupees 450-11-8. the revenue consisting of the established fees for regulating the Weights and Measures in use at the different Bazars. The addition of an item of Extra revenue raises the Collections of 1258 to Rupees 11,295-1-5; falling short of those of 1257 by Rupees 438-15-8.

20. It will be seen that the Increase in the revenue on Firewood is as Rupees 1,133 – 13 – 9, whilst on Chunam Shells the Decrease is Rupees 2011 – 4 – 2 owing partly to a decline in the demand during some Months of the year, and partly to the beds whence the article is imported being for some time under water, but chiefly to the prevalence of sickness in the Villages along the line of the Canal which prevented many of the Boatmen from doing any work at all for several Months. 21. The Decrease on Grain and *Sundries, Rupees 1,085 – 12 7, is attributable to the unfavorable state of the Madras Market, which do not afford the native Merchants any inducement for the importation of those commodities to the same extent in 1258 as in the previous year.

23. The Net Decrease in the Canal revenue for 1258 is Rupees 1,695 – 12 – 5.

24. Adverting to Para 36 of my report of 31st October 1848 and to Para 14 of the Board's Proceedings of 26th February 1849, it is requisite to explain that, under the circumstances stated above, I am still unable to enter, as fully as I could wish, on the question as to the precise effect of the modifications in the rates of toll on certain Articles authorized by Government in 1846, although the revenue is kept up, and there is every prospect of its improving by an enhancement of the demand for the articles usually.

28. The Decrease in No 2. and Increase in No 4 do not call for any particular explanation.-

29. The Decrease in No 3 is owing to the disbursements for repairs having been much greater in 1257 than in the succeeding year.

30. After deducting Charges the Nett revenue is Rupees 27,912-7-7 short of the like revenue of 1257 by Rupees 1,544-9-11. The per centage of

Abstract

Fort St. George

No. 7.

Abstract shewing the Quantity of Articles on the Canal from 12th July 1847 to 11th July 1849. (Fusly Increase and Decrease on each item.

Articles.	From 12th July 1847 to 11th July 1848 or Fusly 1257. Number of Boats	Quantity	Amount of Toll CRs a ∞	From 12th July 1848 to 11th July 1849 or Fusly 1258. No. of Boats	Quantity	Amount of Toll	Remarks.
Firewood	512	87.15.745 Billets	4,910 14 1	461	75.15.683 Billets	1,450 . 8	The decrease is attributable to the sale of the article in some Months having been limitted while in others the Merchants were not able to procure it in time for the Market on account of the rain.
Faggots	1209	150.804¼ Bundles	11,991 5 6	1321	174.512½ Bundles	13,586 . 8	The increase is in proportion to the large quantities imported in Fusly 1258 to secure a sufficient Stock so as to meet the demand during the Monsoon.
Shells	1296	74.656 Parahs	6184 2 3	1001	49.460 Parahs	4,172 11 1	The decrease in this article is chiefly attributable to many of the boatmen of the Villages which yield the Shells having been deterred by the prevalence of Cholera from importing them and partly to the sale in some Months being small and the beds whence they are taken having been under water for some time.
Grain	195	217 Gs. 4 112 Mds.	660 7 9	56	128 Gs. 4 3 Mds.	360 15 1	The importers would not bring in a larger quantity in consequence of the low prices in the Madras Market which was over stocked in Fusly 1258.
