Read also the following Papers.

No 76.

To

G S Forbes Esqre
Secretary to the Board of Revenue
Fort St George

Sir,

Rd No 2309
From the Dpy Asstt
Collr in Charge
of Ganjam

I have the honor to report that Chayatemmyachendra Hanachendara Jagud Deo Zemindar of Sooringhy an ancient Zemindary paying a Peshcush of Rupees 3500 per Annum died on the 4th instant. He has been sick for the last 4 years during which period

Fort S. George 11th June 1838

period his son Veeladreechendra Rajaharechendara Inggudoo aged 25 years has been managing the affairs of the Estate and he acknowledged as the rightful successor and heir of his father. The late Chyetunnyachendra Haree Chendra deo has also left 2 brothers Nittiya:munda Chendra Rajahramanavara deo and Adwytachendra Raja Chetreyavara deo and a nephew Mahadavamohana Rajah deo. I have the honor therefore to request that the sanction of Government for recognizing Veeladree Chendra Rajaharachendrana Inggud deo as Zemindar of Soorinjhy may be obtained.

/Signed/ J Thornhill
Asst Collr in Charge

No 83

To
G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort S George.

Bd's No 2160
From the Collr of Bellary

Sir,

Among the description of cases of lapsed Enams referrable to the Board for disposal are "Shrotriems". A question has been raised whether this is intended to embrace the Shrotrium shares in Villages such as are commonly termed Shrotriums in this District. There are 164 Villages in this District ca Shrotriem Villages. The lands are held by [illegible] on the Ryotwar tenure, but a deduction from the Beriz collected, of a half, a fourth or some other proportion, is set aside for the Shrotrium dars of whom there are sometimes several sharers I have the honor to submit whether this description of Enam should not be treated as ordinary cases disposable of by the Collector and not referred to the Board.

Fort S. George 11th June 1838

Bellary Collr's Office
Ramandroog 18th May 1838

No 97

To

G. S. Forbes Esqre
Secretary to the Board of Revenue.
Fort St George.

Sir,

Bd No 2191
From the Collr of Masulipatam

As I find that the Padlocks attached to the Cash Chests in the Hooz.or Treasury of this District are not only old but of a very common description, I think it very necessary that there should be at least one good lock for each chest of which there are twelve. I shall feel obliged by your obtaining the Board's sanction and furnishing me with 12 chubb's Patent or his Cross Key Padlocks not smaller than 2 inches.- The loops of some of these Padlocks should be large enough to go round a hasp 3/4th of inch in thickness the others need not be quite so large.

To

I D Bourdillon Esqre
Secretary to Government R D
Fort St George

Sir

I have the honor to report as directed on the Petition noted in the Margin

No 1901 of 1838
From Davanga Goonding Danapa Pettah Gowdah of all weavers in the Village of Cottoor in Koodlighee Talook Bellary -
Dated 29th July -

2 The Petition purports to be from Davanga Goonding Danapah and all the weavers of Cottoor - But on investigation made it appears

Praying orders to the Collr to allow them to pitch Tents at the periodical Villages Fairs as other Caste are allowed to do and to carry as their trade therein they being at present prohibited from so doing -

No 1901 of 1838 -
Forwarded to the Collector for early report -

By order
Fort St George
18th August 1838
/Sigd/ W Sudleston
Dy Secy to Govt

that Danapah alone is the Petitioner - The allegations

Fort St George 12th June 1838

allegations made by him are that he has a right to pitch a Tent and sell his clothes in the Bazar of Cottoor - The facts of the case are as follows -

There is a weekly market held at Cottoor in a Street occupied by the Davachanum Caste people - The Davungum class of whom the Petitioner is one have never been permitted to have a Tent and sell goods in person themselves in this Street on the Market days and any attempt to do so has been resisted by the Davachanum class - about 20 years or more ago this Petitioner Danappah attempted to do so but was resisted the case came before the late Municipal Collector Mr Robertson and the Petitioner then entered into an agreement not to interfere with the Established practice but that he might be allowed to sell his goods on the market days by means of an Agent who was to be a Mussalman or one of the Davachanum Caste and to this effect Mr Robertson issued orders to the Talook authorities in December 1834 now 21 years ago

and

and it is false that the Petitioner ~~agents~~ asserts that Mr Rolentson allowed him permission to pitch his tent and sell his Goods - Notwithstanding this order the Petitioner in 1835 attempted again to transgress the rule and the market in consequence was closed for sometime Mr Blane the Sub Collector enquired into the matter and on the 28th April 1836 issued positive orders prohibiting Dhanapa from pitching a Tent and selling his goods in the Bazar Street but allowing him to do so by an agent a Mussulman or one of the castes previleged to sell in that Bazar as before agreed upon.

3 These orders have been observed for twenty years until the Petitioner again attempted to transgress them in August last about the time he petitioned Government.-

4 None of the other Members of his, the Panchangum, class have made any complaint against

against the prohibition It appears that the Dommacharum class who inhabit this Bazar have always exercised the previlege of selling in the Bazar or Market days to the exclusion of the Dasangum class of the Village, who according to the usages of the Castes have not a right to do so.

5- I have the honor to return the Petition.-

No

Fort St George 12th June 1838

Enc 1

No 425 of 1837.

Petitioner claims the Maniem Meerasy of Covanumthal in the Wundawash Talook. He states that it was mortgaged to the incumbents fathers more than 60 years at the expiration of which period it was agreed that 7/8 of the Maniem should be restored without redemption to the family of the former possessor 1/8 remaining in the possession of the Mortgagee.

2 In 1834 after the expiration of the above period this petitioner presented a petition for restoration of the Maniem to Mr Bourdillon the Collector, who decided that as the Maniem had been so long in the possession of the opposite party it could not be restored to the Petitioner.

3 On the receipt of the present petition it was forwarded to Mr Sullivan the Sub Collector for enquiry. He reports that in the munsiff's Patta

Fort St George 12th June 1838

Puttee accounts prepared in 1820 in entry exists to the effect, that the Petitioners fathers mortgaged the Maniem in question to Raganachanny the father of the present incumbent for 60 years and that at the expiration of that period 7/8 of the Maniem should be restored to the former possessor this entry is signed by by the father of the present incumbent, and therefore though the Mortgage bond is not forthcoming and the transaction is denied by the present incumbent, there can be no doubt that the Statement of the petitioner is correct.

4 As however the late Collector decided against the petitioner the present Collector must await the order of the Board on the subject.

Bd. No 2293
From the Collr of North Arcot
Sir
Para 1 — I have the honor to acknowledge the receipt of the Boards Endorsement on Petition No 330 of 1858 in which I am requested to state whether the arguments made by Petitioners induce me to take a different view of the case

2 — My decision confirming that of the Head Assistant Collector is dated 20th November 1856 In an Extract from the Minutes of Consultation under date the 18th March 1857 communicated with Extract from the Proceedings of the Board of Revenue date 23d Idem No 925 collectors are reminded that cases similar to the present must be under Regulation VI of 1831 be personally investigated by them and as this case has been decided on a report by the Tahsildar I beg to suggest that I should refer it for reconsideration to native

assessors

9623 Fort St George 12th June 1858

assessors

The points adverted to by the petitioners in their appeal to the Board that "Ragoo nathpully is a perfect stranger and has no "lows stands in the Village" "that he" "is not related" "that" "neither" "he nor his" "ancestors ever held any share in the Village" "are questions upon which native assessors acquainted with the history of the Village are likely to come to a fair decision

To

The Chief Engineer
in the Department

Sir

Subsequent to my report dated 4th Instant a report from Captain Crewe was received on the 5th Instant of which the 2nd enclosure is a Copy and in the afternoon of the same day I received intelligence of the fall of three arches of the Codamoorutta bridge and of other disasters in the neighbourhood of Trichinopoly I accordingly returned to the Station and yesterday morning Examined the Caroor road the Codamoorty bridge the banks of

Fort St George 12th June 1858

of the Codingnal and Codamoorty and of the Wooyacondan Channel and in the afternoon the Madura road the Corayaur its banks and the two bridges over it I have the honor now to submit a report of the late flood and its consequences

2 In the Delta of the Cavery the rain fall has not been very great although almost unprecedented at this season from the night of the 28th Ultimo to the morning of the 3d Instant 6-14- inches from 6 A M. of the 3d to 6 A M. of 4th ——— 3-675

6 4:5" ——— 1-125

much more rain must have fallen in the vally of the Coray and Arroyaur South of the Wooyacondan

3 On the night of the 3d or morning of the 4th the Corayaur flooded the Cavery South of the Madura road and poured over and through that road in numerous

numerous places south of the bridge between the madura road bridges and Dindigal road bridge it breached its right bank in two places and flowed over the Dindigal road between the bridge and the butts

4 At the Porter Caliungula the water was on the morning of the 11th escaping with a depth of 3 feet on the Crown but the flood came down the Valley of the Corayaur and Arreayaur too rapidly to be carried off by this means of Escape and forced for itself a passage by a breach (40 yards) in the interval between the necessary dykes (Woogacondan North bank) opposite the Artillery Barracks the Woogacondan Channel at this point is 14 feet above the paddy fields at the foot of its North bank The rush of water was therefore tremendous.

5 At the same time a large body of water was passing down the Odaya from

from the Coorchy varry Escapes.

The accumulated waters pouring down the Codingal and Codamoorty Could not get away into the Cavery through the 5 Arches of the Codamoorty bridge at as rapid a rate as the flood waters were pouring in upon them across the Woogacondan &c. accordingly the Codingal breached its banks in several places and the flood Spread over the whole country for 5 or 6 miles west of the Trichinopoly Embankment from the Woogacondan on one Side to the Cavery bank on the other at depths on the paddy fields being from four to Six feet and on the beds of the two rivers from thirteen to fourteen feet

At 2 P.M. this flood

7 topped the Coimbatore road near the 4th * miles Stone and at this Sheet of water 80 yards long and a few inches deep passed

* a quarter mile west of bridge.

passed over the road in to the Cuvvery this however did very little injury to the road

8 At 4 P M the Trittachinthony bank gave away and the water rushed through a breach 80 yards long with a depth of water of about 6 feet the lower 9 feet of the bank being protected by a stone revetment stood This rush of water flooded the paddy fields between Chintamoney the Fort Trunthaneythony and the Combatore road and Ultimately at 10 P M poured over the latter and formed a large breach west of the Surplus bridge and Sluice

9 Notwithstanding all these means of escape the flood still continued to rise, For Eighteen hours enormous masses of water had been pouring across the wooya condan

-condan by its weirs and by a large breach Yet there was no falling off in the flood above. (South of) the Channel embankment the Artillery barracks were Surrounded with water Compounds. on the South Side of the Channel were all flooded and the stream itself was above the crown of the Arches of the bridges across it

10 In the evening of this day the water passing through the Codamorty bridge was in front Six feet above the Spring and 1 - 6 in below the crown of the Arches during the night it rose 2 feet by the water mark I find it to have been 6 or 8 inches above the Crown of the Arches the three western Arches with their 2 piers were washed Away at three O'clock

An

on the morning of the 5th

11 When this flood Set in on the morning of the 4th the Cauvery was about 5 feet deep on its mean deep bed during the day it rose being backed up by the flood pouring out by the Coda = mooty mouth and the Caroor road bund in the Evening it was about 7 feet deep and probably at the time of the fall of the bridge was 7½ feet on the mean deep bed At that time the Surface of the flood in front of the bridge was 6 feet above the Sand level (mean deep bed Cauvery at mouth of Codamoorty)

12 The head of water at the bridge was therefore at least 6 feet And the velocity through the bridge above 21000 yards per hour or 17½ feet per Second The Surface of the piers and Spandrils exposed

exposed to the above pressure and im = petus was about 850 Square feet and the Scour of water formed holes the depth of which was unfathomable by the means at my disposal when I inspected the work these holes must be more than 10 feet below the basement level of the bridge

a nine yard hole

13. The Volume of water passing down the Codamoorty and Coleroon cannot have been less than 58,00,000 Cubic yards per hour or 23500 Cubic feet per Second a discharge which would have Severely tried a bridge affording twice the water way of the late Codamoorty bridge

14 The weather has now I trust finally cleared up the fall of rain yesterday was only — 0 — 75 inch and the Sky to day looks more Settled the total rain fall in the 8 days up to

to this morning is Inches 11 15 eleven
and fifteen hundred but for more Rain
must have fallen higher up the Valley of
the Carayaur and arreyaur The floods were
on this occasion more violent more sudden
and altogether more formidable than they
were in October and November last

15 The Roads South of
the Cauvery have Suffered Sadly the Ma-
dura Coimbatore and Dindigal roads
are very much injured by the breaches above
reported The Tanjore road is much cut
up and has 2 large breaches in the 5th mile
besides its Road Culvert destroyed

16 The Cauvery South
bank has also been breached in
two places by the Rain floods forcing
their way in to that River and the
banks of the principal Surplusses
are

are for hundreds of yards. Cut to
ribbons by breaches.

17 The first thing to
be done is to close the large breach
in the Woiyacondan Channel for
which I issued instructions to the
Executives Engineer of the Circle yester-
-day immediately after my inspection
this is now being done by means of Na-
-mal bamboos and horses.

18 The next thing will
be to open the Communications to the
South and west by restoring the roads
to as passable a state as possible
and Establishing a ferry at the Codamoorty
mouth for the latter I am now preparing
a Couple of Cask rafts and if necessary
a floating bridge can without diffi
=culty be thrown across the River

The

Front St George 12th June 1858

to this morning is Inches 11—15 eleven and fifteen hundred but for more Rain must have fallen higher up the Valley of the Coragaur and arregaur The floods were on this occasion more violent more Sudden and altogether more formidable than they were in October and November last

15 The Roads South of the Cauvery have Suffered Sadly the Madura Coimbatore and Dindigal roads are very much injured by the breaches above reported The Tanjore Road is much cut up and has 2 large breaches in the 5th Mile besides six Road Culverts destroyed

16 The Cauvery South bank has also been breached in two places by the Rain floods forcing their way in to that River and the banks of the principal Surpluses are

Front St George 12th June 1858

are for hundreds of yards. Cut to ribbons by breaches.

17 The first thing to be done is to close the large breach in the Woyagoondam Channel for which I issued instructions to the Executive Engineer of the Circle yesterday immediately after my inspection this is now being done by means of Natmul Coolies and horses.

18 The next thing will be to open the Communications to the South and west by restoring the roads to as passable a state as possible and Establishing a ferry at the Codamoorty mouth for the latter I am now preparing a Couple of Cask rafts and if necessary a floating bridge can without difficulty be thrown across the River

The

9640 Fort St George 17th June 1858

woyya condam more closely and find besides the principal breach east of the Poattoor Calin -gulahs two other large and Serious breaches in the Shalamonlimit west of the Calin -galas. the north bank from the Artillery barracks to opposite the Kalamen Civil Cs Colingala is cut to pieces by the floods. The Calingulas are injured The greatest exertion will be made to get the Channel as well as river banks at Trittaunthony and Chintamoney into a fit State to receive Cauvery water by the 20th Instant the Coimbatore Tanjore Dindigal and Tanjore roads will also be put into a passable State as Soon as possible

To

W. Knox Esqre
Collector of Masulipatam

Sir

1 With reference to Para 3 of Extract from the Proceedings of the Board of Revenue dated 11th March 1858. wherein an Explanation is called for as to whether I notified in the District Gazette my readiness to receive complaints against the Tahsildar of Jaggiapetta

I have the Honor &c to state that I to a certain extent then implied my readiness, that is, I notified in the Gazettee that parties who wished to prefer Complaints against the Tahsildar should come to my Office for this purpose, for I constantly received so many anonymous petitions from Ryots and others complaining of the injustice and oppression of this Tahsildar which from my personal Knowledge of him, I knew, were not groundless, that I felt it necessary as the only means of ascertaining the truth of those Petitions that a regular enquiry should be made into them I did not wish to take any unfair advantage of the Tahsildar my only object was that parties who had any real grounds of Complaints should prefer them before me in person and not make them by means of anonymous petitions upon which I could not act.

2 Had any false Complaints been brought before me the Complainants could have been punished as surely was would the Tahsildar for any Charges proved against him.

Sir

B. No. 1817
From the Collector of Canara. . . . .

I have the honor to acknowledge receipt of Extract from P. B. R. dated 26th March 1858 forwarding Extract Minutes Consultation under date 10th idem and with reference to the instructions therein contained to describe the manner in which Certificates for refund of stamp fees are received examined and disposed of in Canara and the difficulty of carrying out the orders now received

Describes with reference to Boards Proceedings dated 26th March and Government Minutes consultation under date 10th Idem the manner in which certificates for refund of stamp fees are received examined and disposed of in Canara and points out the difficulty of carrying out the orders on the subject now received

On this subject therefore I

2

have the honor to request the further instructions of the Board and Government

It will be observed that the

3

sale of stamps in this District is very extensive and productive of a large amount of revenue and that the refunds claimed are numerous

numerous and considerable in amount.

4 The peculiar formation of the District its great length and the fact that North Canara has its own Courts the District being divided into the Zillahs of Honore and Mangalore have all contributed to the introduction of the existing arrangements and I trust that with reference to these circumstances the present mode of conducting busines may be sanctioned though not in strict accordance with the working of the Act and the instructions now received

5 Owing to the great length of this District it is quite impossible for all parties who obtain certificates for the refund of stamp duty from the Civil Courts to present them before the Collector therefore it is customary for parties who live near the Huzzoor station to file their Certificates before the Collector whilst those who are at a greater distance present them to the Tahsildars.

6. As soon as the Certificates are filed before the Collector they are sent with an order to the Stamp Darogah for comparison with the Register of sales and for report. this he does. Certificates filed before a Tahsildar are in like manner compared by him with the Register of Sales and forwarded to the Collector with a report. These Reports are read to the Collector and the Certificates are next sent to the Head Sheristadar. There is a Goomastah in the Sheristadar Department for this espress purpose who is assisted by others when necessary. This Goomastah takes charge of the Certificates that come to the Head Sheristadar, compares them with the advices received from the Civil Department and sees that they are in due form. If any difference is discovered he reports the circumstance to the Head Sheristadar who lays it before the Collector for final disposal. The Goomastah previously enters into a

a book the No. date amount &c. of certificates which have proved correct and subsequently prepares the necessary orders for the amounts payable from the respective talooks as well as from the treasury these orders he produces before the Head Sheristadar who makes the necessary examinations affixes his initials to them and sends them up for the Collectors signature. On the despatch of these orders the refunds are made to the parties on their appearance at the Treasuries.

7. Certificates on which payments have been made are despatched once a quarter to the Superintendant of Stamps with a list as soon as the quarter is closed. Certificates which have been entered as paid in the Treasury Muthkaraddah and in the remittance lists of the Talookes are separated and compared with these lists as well as with the receipts granted by the parties, with reference to the correctness of the amounts paid and a general list is drawn

drawn up. This list is translated into English by the Darogah which together with the Certificates is laid by him before the Collector for signature and subsequently forwarded to the Superintendent of Stamps.

8. The receipts under the head of Stamps in this District are far in excess of those in other Provinces. Tanjore and Malabar excepted.

The receipts for July 1266 were as follows.

Net Collections	80028	4 —
Fees on Europe Papers	216	5 — 6
Amount of paper issued gratis for Government Law Suits and security bonds of public Servants	80	8 —
Fees on the above	—	8 — 6
Total	80,325	10 —

Commission at 5 per cent on the above sum minus fees on Europe paper Rupees 3978 — 1 out of which the amount at 2½ per cent being deducted for the several venders the balance at 2½ per Cent paid to Darogah Rupees 1989 — 6½

which

which gives an average of Rupees 163-12-0 per
mensem / This latter Gomastah's Pay Rupees
171/- In the current fusly 1267 the receipts
are above those of the past fusly being
Rupees 18024 in excess at the end of march
last.

The refunds made during
fusly 1266 amount to Rupees 8091 in 2027
Certificates.

9. From the above Statement
the extent of business connected with stamps
and the mode of dealing with it will be
apparent and I think the impossibility
ty of filing all certificates before the
Collector will be evident.

10. Hence the process noted for the gui-
dance of Collector in para 8 Extract Minutes of
Consultation dated 10th March 1858 No 312 cannot
well be adopted. Again the duties which must
of necessity be entrusted to the Chief Gomas-
tahs of the Sheristadars Department [illegible]
preclude

preclude the possibility of one of them un-
taking up this work which in itself is
more than one Gomastah can get through
without frequent assistance and I am
therefore obliged to request that the busines
be still conducted as it is at present one of
the Sheristadars being of course held respon-
sible for the due supervision of the exami-
nations made in his Office.

To

G. S. Forbes Esqr

Secretary to the

Board of Revenue

Madras

Sir

D. No. 2114

From the Asst. Collr
of Malabar.....

With reference to Extract from the Proceedings of the Board of Revenue dated 6th instant No. 1625

No. 1888 dated 31st March 1858 to the Secretary Planters Association—
Para. 1 of Letter from the Secretary Planters Association dated 12th April 1858—
No. 1001 dated 23d April to Dr. Dr.
From Dr. dated 19th April 1858.
No. 1139 dated 23d April to Dr. Dr.
From Dr. dated 12th May 1858.

I have the honor to submit copies of further correspondence on the subject of the Wynaad Ferries.

2. The secretary to the association reported that he had great difficulties in obtaining boats, and to obviate disappointment which I conceived to be likely to occur I at once ordered the appliances to be constructed / of more than ordinary / strength and convenience / The old systems must obtain a years at least longer

3. In the mean time the district Engineer is carefully examining the matter and I am not without hopes that he will be able to construct convenient temporary Bridges from Local Funds.

4. With reference to the extension of the period to 5 years I venture to solicit a reconsideration of the Boards View. Three years would give abundant remuneration tho' it is not this the Planters ask. The Planters Association is not a very certain nor a very stable body as they already find among themselves recesses take place. Tho' strides now being made by Wynaad make it impossible to judge of what may be its requirements 5 years hence and new comers would be contesting the arrangement of their Brother Planters I would therefore beg the Board not to hamper the local Officers with a five years lease.

5. I venture to assure the Board that already the system of 5 years leases is proving very detrimental to the interests of the local

funds

Ft St. George 12th June 1858

funds in Malabar Bridges are being con-
structed and when the question of compensation
is referred to a Punchayet the leaning of the
bodies is invariably towards the lessee. The bases
are at little cost for planks. Boards are abundant
A couple ordinary fishing canoes are hired or
brought for ferry boats and a couple more are
put together to carry a platform, while the lease
lasts and when it expires they go back to their
legitimate trade or are transferred at a good
valuation among the people themselves.

2nd July 1857 No. 102

6. I ventured as reported at the time to reduce the period when disposing of the South-ern ferries last year from 5 to 3 years. The Board is aware that a contingency has since cost as 18000 which might have been entirely obtained had the lease been shorter. The ferries need never be let for a longer period than 2 years

Calicut.....
13th April 1858 } I Signed W. Robinson
Acting Collector

To.

W. Robinson Esqr.
Collector of Malabar.

Sir

In reply to yours of the 12th instant. I cannot state with authority the ferries the Planters Association would undertake without Calling a Meeting and as most of the Committee are on the coast just now shipping their crops this cannot be done immediately. At our last meeting the feeling was that we should be willing to undertake the following ferries.

1st

1st Cuncoth stream at Vythiry

(Temporary Bridge)

2d The Panamanam ferries

3d The ferry at Mantoddy

From the difficulty I have experienced in purchasing boats from a private ferry I should say we must at this late Period be satisfied for this season with the old arrangement of Jangdars.

The local Authorities might as of old construct these Jangdars and when matters are arranged with regard to the transfer of the ferries the association would pay the cost of same.

Terricut.....
19th April 1858 } I Signed A. C. Barnes
Secretary P. A.

No. 1139/1858

Secretary Planters Association

Sir

Terricut Wynaad

With reference to your letter dated

dated 19th instant I have the honor to state that the hitherto existing arrangements shall at once be given effect to and had better subsist throughout this season pending more careful arrangement.

Lieutenant Tenant informs me that orders have already been issued to construct good Jangars and I will endeavour to secure proper management of the ferries for this year.

I am not without hopes that within a year or so one or more of these very ferries will be spanned by Temporary Bridges nothing but the temporary restrictions on expenditure which has been forced on the Government of India delays the constructions of works which all admit are called for in Wynaad.

No 35

To

G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St George

B. No. 1184
From the Board of Ganjam } Sir,

Para 1 In reference to the Extract from the Proceedings of the Board of Revenue under date the 19th June last No 2095 I have the honor to submit the following Report on the claim of Sree Ramachendra Hurrychendana Sagadeo Ex Zemindar of Hantghur to certain Villages called Mokasas included in the Said Estate-

2 After analizing the voluminous records which have reference to these Mokasas and giving a careful consideration to the circumstances stated by the Ex Zemindar and by the purchaser of Hantghur it appears that the questions which require consideration for the purpose of disposing of the claim are

1st Are the Villages to which the Exzemindar has put forward a claim bona fide Mokasas

2nd Who is their legitimate owner now?

3 With regard to the first question it must be stated that the number of Village in Hantghur is 202 according to the accounts of the Permanent Settlement, Of these 79 are classed as Seroyaties

77

for Religious purposes.

as Mokasas 22 as Agraharums, and 24 as Amaneas
It does not require to be shown that by the Sevagaty villages
are meant all the lands the entire income of which excepting
the cultivators share is liable to be demanded for the general
Revenues Mokasas are villages exempted from the assets
of permanent assessment and granted to people for good Service
and distinction. This is also the name by which the private
landed property of the ancient Zemendars is generally designa-
ted in this District Agraharums are those Villages which
are granted to Brahamins, and Amgeyas are landed
grants attached to religious institutions

4 The public records of this Collectorate with regard to these Mokasas extend as far back as the year 1788. The Returns of this period contain the Statistical information of this Country compiled by the circuit Committee, known here as Saunders Committee, and are in English. The next set of reliable Returns are those which were prepared under the superintendence of Mr Brown at the time of fixing the permanent Settlement in this district. In the former of these 69 of the 77 villages are classed as Mokasas and the whole 77 are given as such in Mr Browns Returns

5 In the accounts of the Circuit Committee the names of the Mokasadars as well as their number are given but in Mr Browns Returns, this information is

not supplied although among the Jeluzu Returns upon which the Englishpress appear to be based, there has been found a list, which however is not signed by any one in which the names of the mokasa villages and of the Mokasadars are mentioned. Judging from the oldness of the paper and the writing upon it the genuiness of the document does not appear to be open to objection.

6 We have also got the Returns taken for three years 1805/6 to 1807/8 and in these the names of the Mokasadars are given.

7 The accounts of the years 1813, 1814 and 1815 shew that in those years these villages were under the enjoyment of certain individuals

8 Then came the Returns of 1814 which are designated "Munro Returns" in which the Mokasa villages with few exceptions appear to be owned by certain private individuals

9 The Accounts of the years 1822 and

and 1831 also shew that these Villages were then held as Exempted lands.

10 The returns of the years 1845 and 1848 mention that only 19 of the 77 Mokasas were duly those years enjoyed by private parties.

11 Again from the Returns of the year 1833 it is seen that 27 Villages are shown as having been enjoyed as Mokasas

Years	Enjoyed as Mokasas. Revenue Farmed out	Paying Peishcush	Total.	Jeroyatie.

Rodiers accounts 1263	"	"	19	58	77
" 1264	12	14	26	51	77

12 From what is stated above and from the marginal Memorandum it will be seen that there were very few of these Villages which were not enjoyed on the Mokasa tenure, until the year 1844. How they were treated during those years of which we have no returns is beyond this Office to ascertain.

13 Light will be thrown on the subject by a reference to the early Records of the District. Speaking of the Resources of Shahjehanpur in the latter part of para 31 of their letter dated the 25th April 1788 the Circuit Committee state "Notwithstanding

our repeated orders as well as those of the Chief to whom our Presidents applied on this occasion, it was three months before this Zemindar would furnish us with any part of his Accounts which he did not even then send altogether but by piece meal, thereby putting it out of our power (who were unwilling to delay our business) to form any judgment of their authenticity by comparing the totals with such information as we could otherwise procure of the value of his Country. This Circumstance prevented our rejecting them at first which we should certainly have then done as we have since been obliged to do, finding, upon perusing them [illegible] that they make his Collections to be only Rs. 100,183 — 9 — 11 although we are very credibly informed that they amount one year with another to Rs. 150000 at which Sum as the Rajah has refused to supply us with more authentic accounts of his Country we have stated them in our

our general abstract persuaded that it does not exceed
his actual receipts from it"

14 The value of the Entire Estate as given
in the Returns which the Zemindar furnished to Mr.
Brown in 1813 when was professedly collecting informa-
tion for the purpose of fixing the Summa in perpe-
tuity Amounts to Rupees 68899-15-5 These returns
appear to have been rejected as not approaching to
truth for we find the Board in their Letter to Gover-
nment dated the 25th June 1814 have the following passage

"Its gross produce according to the com-
mittee of Circuit was Rupees 15,000 of which deducting
Sayer viz two-thirds are Rupees 97939 the average of
Collections of 17 years is Rupees 43,588 and the permanent
assessment proposed by the Collector Rupees 58,000 from
this are proposed deducting Rupees 300 on account
of Syer Salt, Abkarry and Customs the three for-
mer of which by the Collectors Accounts Amounts
to Rupees 2061 and fixing the permanent Summa
at Rs 55,000

15 It is Evident then that the perma-
nent Assessment of Haudghur was formed
mainly if not entirely on the Data furnished by
the Accounts of Circuit Committee From the
foregoing

foregoing it will also be observed that in the Accounts
of the Committee Circuit as well as those which Mr.
Brown received from the Zemindar all these villages
are stated as having been held on the Inaam tenure
In the former the Average of Eight years is given
and in the latter a certain Sum is put down against
the name of Every Village as its income Neither
furnish details as to whether or not Any and what
Amount was deducted on Account of these Villages
from the Assets on which the permanent Settlement
was formed

16 In 1816 there Remained a balance of
Rs 35019 on Haudghur and Mr Spottiswood Com-
piled the necessary information for Subdividing
the Estate and selling it wholly or partly From Copy
of Enclosure No 2 of that gentlemans letter which
accompanies this it will be seen that Mr Spottis-
wood treated the Inaam or Jagcer Villages as a
separate division of the Estate and proposed that
Pagodas 4869-37-35 Rs 17044-6-6 Should be
fixed as its permanent Summa

17 From this circumstance it is plain
that until then the proportion which these Villages
were to bear to the Peishcush was not fixed Mr
Spottiswood

our general abstract persuaded that it does not exceed
his actual receipts from it"

14 The value of the Entire Estate as given
in the returns which the Zemindar furnished to Mr.
Brown in 1803 when he was professedly collecting informa-
tion for the purpose of fixing the Jumma in perpe-
tuity Amounts to Rupees 68899-15-6 These returns
appear to have been rejected as not approaching to
truth for we find the Board in their letter to Govern-
ment dated the 23d June 1804 have the following passage

"The gross produce according to the com-
putation of Circuit was Rupees 150000 of which deducting
Sayer Viz two-thirds are Rupees 97939 the average of
collections of 17 years is Rupees 103588 and the permanent
assessment proposed by the Collector Rupees 88000 from
this was proposed deducting Rupees 3000 on account
of Syer Salt Abkarry and Customs the three for-
mer of which by the Collectors Accounts Amounts
to Rupees 2061 and fixing the permanent Jumma
at Rs 85000

15 It is Evident then that the perma-
nent Assessment of Vaudglur was formed
mainly if not entirely on the data furnished by
the Accounts of Circuit Committee From the
foregoing

9696 Fort St. George 15th June 1858.

foregoing it will also be observed that in the Accounts
of the Committee Circuit as well as those which Mr.
Brown received from the Zemindar all these villages
are stated as having been held on the Inokapa tenure
But the former the Average of Eight years as given
and in the latter a certain Sum is put down against
the name of Every Village as its income Neither
furnish details as to whether or not Any and what
Amount was deducted on Account of these Villages
from the Assets on which the permanent Settlement
was formed

16 But 1816 there Remained a balance of
Rs 35019 on Vaudglur and Mr Spottiswood Com-
piled the necessary information for Subdividing
the Estate and selling it wholly or partly From Copy
of Enclosure No 2 of that gentlemans letter which
accompanies this it will be seen that Mr Spottis-
wood treated the Inokasa or Sayer Villages as a
separate division of the Estate and proposed that
Pagodas 4869-37-35 Rs 17044-6-6 Should be
fixed as its permanent Jumma

17 From this circumstance it is plain
that until then the proportion which these Villages
were to bear to the Peishcush was not fixed Mr
Spottiswood

Spottiswood had however no occasion to resort to Extreme measures and this question therefore remained in Statu quo It must also be remarked that the Peishcush of the Estate was always paid without reference to the Entire value of these 77 Villages

18 We have therefore no direct Evidence to show whether or not the Entire value or a favourable quit rent of these Villages was included in the permanent Assessment That they were treated as Inokasas and held on the Inamdar tenure is clear from the fact of their having been from the Earliest times with few exceptions under the enjoyment of Certain individuals and the legitimate inference appears to be that these Villages are virtually Inokasas -

19 Mr Walter Elliot when Commissioner in the Northern Circars seems to have entertained a Similar view of Certain Similarly constituted mokasas in the Zemindary Estate of Jeelah for in his letter to the Chief Secretary to the following passages occur

Dated the 7th March 1834 No. 39

Para 9 "Under these circumstances it

it is impossible to tell what should be considered as constituting the assets of the Zemindary Settlement or how questions involving a right to escheats should be settled - It is however quite certain that all these three villages referred to in the present correspondence held on Mokasah tenure anterior to the permanent Settlement." -

Para 19. "This fact favours the correctness of the conclusion previously formed upon which the orders of Government of the 26th July 1833 were founded." -

20. The Summud Mulkeyat Jumeerar which can be adopted as a safe guide in cases of this sort - shews that these 77 villages are Mokasas. The names and numbers of the different villages of this class are not in some instances clearly legible on the document which the Exzeminder has produced, but as a Copy of it Exists on the records of Government a reference to it will dispel any doubts which may be entertained on this point. -

As

Still this would however no occasion to resort to Extreme measures and this question therefore remained in Statu quo It must also be remarked that the Peishcush of the Estate was always paid without reference to the Entire value of these 77 Villages

18 We have therefore no direct Evidence to show whether or not the Entire value or a favourable quit rent of these Villages was included in the permanent Assessment That they were treated as Inamkasas and held on the Inamdar tenure is clear from the fact of their having been from the Earliest times with few exceptions under the enjoyment of Certain individuals and the legitimate inference appears to be that these Villages are virtually Inamkasas

19 Mr Walter Elliot when Commissioner in the Northern Circars seems to have entertained a Similar view of Certain Similarly constituted mokasas in the Zemindary Estate of Jeelah for in his letter to the Chief Secretary to the following passages occur Para 9 "Under these circumstances it

Dated 7th March 1834 No 39

it is impossible to tell what should be considered as constituting the assets of the Zemindary Settlement or how questions involving a right to escheats should be settled It is however quite certain that all these three villages referred to in the present correspondence held on Mokusah tenure anterior to the permanent Settlement." Para 19. "This fact favours the correctness of the conclusion previously formed upon which the orders of Government of the 26th July 1833 were founded." 20. The Summud Mulkeyet Jumeer which can be adopted as a safe guide in cases of this sort shews that these 77 villages are Mokasas. The names and numbers of the different villages of this class are not in some instances clearly legible on the document which the Exzemindar has produced, but as a Copy of it Exists on the records of Government a reference to it will dispel any doubts which may be entertained on this point.—

As

21. As cases of this sort are of every day occurrence in this district, and as the right of Government to escheats is involved in them the question demands our attentive consideration for if it be finally determined that the villages which the Ex. Zemindar claims as his are Mokasas the dispute will be between him and Government, but not between him and the purchaser of the Estate.-

22. I now proceed to state in as few words as possible the opinions which the former Collectors seem to have entertained although incidentally with regard to these villages.-

23. The first document of this sort is a letter from Mr. Spottiswood to the Zemindar of Hautghur dated the 22d. May 1810. This appears to be a reply to the Zemindar's request to have the Cuttoobady on the Mokasa villages reduced. Mr. Spottiswood declined to entertain the Zemindar's proposition and told him that as the Mokasadars of these Villages had a perfect right to

to alineate or transfer their Mokasahs by sale or gift, they might invest their Capital in them and extend the Cultivation by bringing the waste lands under the plough. The original letter has not been produced it is entered in the Book of copies on our records but the ink and writing appear to be new, on the other hand the numbers of the preceding and following letters are consecutive and do not exhibit a gap any where. This cannot on this score be adopted as an unquestionable document.-

24. The next document is an order of Mr. Ogilvie to one Ganda Balaram Kristnamah to proceed to Hautghur and attach the Seroyaty Villages 79 in number. This order is dated on the 3d. May 1834 and shows that it was held that the remaining villages were to be left in statuquo.-

25. Hautghur was placed under attachment in Fusly $\frac{1254}{1845}$ in consequence of the default of the Zemindar to discharge the Peishcush and remained so until the end of Fusly 1257. The following

following orders refer to this period.-

26. On the 10th May 1845 there was issued an order to the Hautghur Ameen to the effect that as a village called Tentodya was given to the spiritual preceptor of the Rajah it should not be classed as one of the Serogatee Villages but left as a Mokasah - From the year 1831 down to the year 1855 this village although one of the Mokasahs appears to be classed with the Serogaty Villages.

27. On the 16th Idem there was issued to the Hautghur Ameen an order to the effect that a village called Gokoolapilly one of the Mokasahs might be left to the Mokasadar for that year. This village is still enjoyed as a Mokasah.-

28. On the 17th May 1845 there was issued an order to the effect that Santarapore a village included in the Mokasahs and still held as such was to be left as an Awaneya.-

29. On the 14th June 1845 the Hautghur

Hautghur Ameen was informed that villages belonging to one class were mentioned under those of another and directed to furnish a correct return of the villages of the different classes.-

30 On the 28th June 1845 the native officer in charge of Hautghur was desired to leave a village called Kola Mughe one of the Mokasahs and still enjoyed as such to the Mokasadar.-

31. On the 17th September 1845 there was issued an order to the effect that Voostapada and Kotajumma two villages included in the Mokasahs and attached to two different religious institutions should be left to be used for the purposes of their grant. This is a general order in which the native officer was reprimanded for his remissness in classing the villages of one kind under those of another.-

32. On the 16th February 1846 the Hautghur Ameen was instructed not to take more than the usual dues from the Enamdar of Santarapore

a

Fort St. George 15th June 1858.

/a Mokasah Village/

33. On the 6th August 1846 Bo-
charapore a village included in the
Mokasahs was ordered to be left
to the Grantee. This village is still
enjoyed as a Mokasah.-

34 An attentive consideration
of these orders will shew that at no
time was an enquiry instituted to
ascertain on what tenure the so cal-
led Mokasah villages were held.

35. In the statement of demand
collection and balance furnished
at the close of Fusly 1257-49 of the
77 Mokasahs appear to be classed
under the Jeroyatics but owing to the
very careless manner in which pub-
lic business was conducted in the
district until a very recent period
the abovementioned orders and
returns do not agree generally, for
the villages shewn in the margin
appear in the former to have been
enjoyed by the grantees, whereas the
latter shew them as Jeroyaties. But
one fact is clear that all those
Villages which were during this
period

Tentoo leya
Cuntarapore
Babarapore
Gokoolapilli

Fort St. George 15th June 1858.

held as Mokasahs were left
to be enjoyed as such.-

36. In Fusly 1260 there re-
mained a large balance against the
Estate of Hautghur and it was brought
under attachment the accounts then
rendered by the Rajahs servants
shew that 26 only were enjoyed as
Mokasahs.-

37 Before the close of the
Fusly 1863 Hautghur was again brought
under attachment in consequence of
a large balance of Peshcush which
then remained undischarged. The
returns which were taken at this
period shew that 50 of the 77 Moka-
sahs were subject to full assessment
in common with the Jeroyatee Villages.-

38. In 1853 one Ranchoor
Nursiah sent up a Statement to Mr
Walter Elliot the then commissioner
in the Northern Circars to the effect,
that all these villages were escheats
to Government. This statement was
referred to Mr Anslow for enquiry.
Mr Anslow after making a reference

to

x "On Examining the accounts it does not appear that the assertions of the Petitioner are correct only one of the villages therein mentioned is open to suspicion, with the exception of it all the villages are Jeragties. If the Petitioner has any true statement to make he may so do." 16th April 1853.

to the accounts recorded his opinion to the effect that with one exception all the villages mentioned in the statement were Jeroyties.-

39. In the Goodicut accounts which the Ex. Zemindar rendered before the sale of the Talook and which bear his signature 34 villages are given as Mokasahs, but of these, 19 are in the permanent settlement account classed as Mokasasahs, the remaining 15 are Jerayatee villages.

40. The marginal memorandum will shew the number of Mokasah villages which were under the members of the family of the Zemindar and his domestic servants, but I think no credit can be given to these latter accounts; the Ex. Zemindar accounts for the difference in the account of 1240 and 1254 by stating

Years	Under the family members.	Under domestics	Total.
Circuit committee Khan Jerayaty	18	2	20
List without signature	19	3	22
From 1214 to 1216	17	1	18
" 1222 and 1223	21	2	23
" 1224	22	2	24
" 1226	24	6	30
" 1231	21	6	27
" 1240	23	7	30
" 1254 to 1857	2	1	3
" 1260	2	1	3
" 1263 Goodicut	2	1	3
" 1264	2	1	3

9990 Fort St. George 15th June 1858.

stating that villages which he held himself were classed as Jerayatee, not Mokasah.-

41. It is shewn that the individuals in whose enjoyment the 77 villages are said to have been from the time of Circuit committee down to the recent period are by no means the same, people totally unconnected with the original grantees have at various intervals held these villages and been in their turn succeeded by others having no connection with them-

42. The Ex. Zemindar claims as his all those villages of the class of Mokasas which are not now enjoyed as such by any other individual and has in his profession Cadjans which are stated to be deeds of sale received from those men who are said to have sold the Mokasas mentioned in them which had been granted them in perpetuity to the Zemindar. These documents have been examined, none of them bear the signatures of the sellers but this is a custom of the old times and cannot be

be questioned much. The dates of sale mentioned in them with few exceptions correspond with the ephemeris compiled by Mr. C. P. Brown. In several cases the villages said to have been sold, appear to have been under the enjoyment of the sellers for a long time after the date of sale. In explanation the Exr Zemindar states that the sellers were still permitted to hold them. These circumstances, connected with the general rumour that all these documents have been forged make it necessary that they should be received with some caution.

43. The Exr. Zemindar states that all the villages to which he has put forward a claime and which are put down in all the recent returns as Seroyaties were under his private enjoyment and that the Ameens and other officers deputed to manage the affairs of the Estate included under the Seroyaties all those Mokasas which were under his private enjoyment and which did not shew the

the name of any other individual as its holder.

44. By the accounts put in by the Exr. Zemindar but which he now objects to in his address of the 16th November last the full cist of these villages appears to have been levied by the renter of the Talook Pittabheram Pantoolo from fusly 1260 to fusly 1263.

45. The estate was sold in fusly 1264 but pending the orders of Government on the circumstances of the sale it was not put in possession of the purchaser until the latter end of fusly 1265.

46. During this period the Talook remained under attachment. The Exr. Zemindar instituted no claim for these Mokasas either before or after the sale nor did he signify his intention of doing so at any future period; he explains this omission by stating that he put off raising the question hoping that the Honorable Court of Directors would order the Zemindaree

to

to be restored to him. Soon after the receipt of the order of Government confirming the sale, the Talook was made over to the purchaser in the same state in which it was managed during the time of attachment with the surplus collection remaining on account of the Estate.

47. A consideration of all the circumstances of the case and perusal of the Memorandums &c. put in by the ex-Zemindar (copies of which I forward), leave no doubt in my mind that the 77 villages were Makasar and treated as such abinitio but the argument that because this is the case they must not be sold with the Talook, is contrary to all rule and custom, they form part and parcel of the Estate and must be transferred with it; this the Ex Zemindar seems now inclined to acknowledge, though for a time he would not admit; the question of ownership therefore alone remains to be gone into and I

I submit an account shewing the nature of the claim set up by the Ex-Zemindar and the result of a verbal investigation which I made, the vakeels of the Hautghur and of the collicate Zemindar being both present and the circumstances of each village being fully discussed; from this, it will be seen that of the 50 villages claimed, he can produce no title of any kind to 20, he has bills of sale and other deeds for 30, of these the dates of 26 agree with those in Mr. Brown's ephemeres and 4 do not. Again of the 50 villages 12 appear from the accounts &c. to have been enjoyed by the members of the Rajah's family and may therefore I think (even though they were entered as Serogaty in last accounts) be looked on as personal enams and be left in the hands of the Rajah, giving an equivalent to the Cuttoobandy to the present owner of the Estate as per Mr. Brown's account but the other villages in number

× Rupees 6,807.

number 19 having been elapsed as Ireroyatee, as noticed in para 43 must be treated as such and should revert to Government; this would leave 19 villages as shewn in the abovementioned account to be enjoyed by the present proprietor, all of which appear to have been appropriated for service of some Kind or other to the Rajah of Hautghur as such.—

48. I do not think the income derivable from these 12 villages Rupees 2780 added to the allowance the Court were pleased to propose for the support of the Ex. Zemindar can be thought too large a sum in deed I fear it will be all squandered away as all his former income was, but this is no reason why he should not receive what he appears to be justly entitled to.—

49. If Government takes the same view of the case that I do, I would beg leave to suggest that to prevent as much as possible all cause of

× Rupees 3000.

9696 Fort St. George 15th June 1838.

of quarrel between the parties, Government should make a deduction in the Peshcush to the amount of the Cuttoobandy payable on these and the villages that should revert to Government; the Cuttoobady on the former being paid by the Ex-Zemindar direct to Government.—

Ganjam District Collectors Office, Chutterpore, 8th March 1838.

(Signed) W. Knox
Acting Collector.

Annexure	Villages	the Permanent Settlement account.	subsequent to the Permanent Settlement.	Date of purchase	Remarks.
1.	2.	3	4.	5.	6	7

Of those of 50 Villages claimed by the Ex Zemindar of Hautghur as his. — The following 30 are those purchased by his Ancestors. —

---

1. 4. Bhatoosinghy — Damandrasing — Broondavana Thevy Chendana Duggadeo. —— 13th Cutcha of Streemookoon. dated. — 21st Vroochecumn

This village was purchased by my Grand Father from the original holder / the deed of sale is with me / It was given by him to Somsoondara Chavoo Putnaik for enjoyment during his life. This will prove from the remark of Mr. Munro's Committee in 1262 Fusly. After his death the village come to my father's possession, and given under wages for service to Sonsundara Chavoo Putnaik and for some time it was enjoyed by my father. This will prove from the Fifty Ameens accounts for Fusties 1240 and 1250 It will also be proved from the Mufty accounts of Fusties 1257 and 1264 that as the village was in my own enjoyment from 1848 to 1854 i.e. up to the time the dispute commenced. As the actual enjoyer of it up to 1848 still living there is no necessity to enquire about the legality of my right against the orders of Government dated 27th July 1848 and 15th August 1853 such enquiry should only be made in regard to my heirs after me. The point now to be discussed is, whether I was in the enjoyment of it from 1848, or not. As that point will be clearly and satisfactorily proved from the above accounts. You should be pleased equitably to

2. 7. Hundeagoodah — Narain Nijenkoo and Crootnasatroo sollo. —— Broondanana Hurrichendana Duggadeo —— 12th Cutcha of Streemookoondadeo 25th day of Becha.

time as well as the 29 Villages below stated. ——

This Village was purchased by my Grand father from the original holder / the bill of sale is with me / and it was only given to servants under their wages. This will prove from the Committee accounts of Fusly 1226 During the purchase it was 48 years in the enjoyment of my ancestors and myself. This will be proved from the accounts alluded in the 1st remark. As for other points see the 1st remark. ——

3. 9. Goondrebandy — Gungadurbahadur Bundoosamy. — Do. — Do. — Do. — 11th — Do. — Do. — 5th day of Mashem.

This village was purchased by my Grand father / the Bill of sale was with me / and was in the enjoyment of horses feeding, and the salaries of horse keepers &c. This will be proved from 1226 Fusly committee accounts. It was 49 years in my possession. ——

4. 11 Tonkachoy — Gopenandroutoo rah and Lutchmen dofs. —— Balincaswer Harry chendana Duggadeo. —— 21st —— Do. —— Do. — 19th day of Mashem.

This was purchased by my Father / The deed of sale is in my possession

is, whether I was in the enjoyment of it from 1848, or not. As that point will be clearly and satisfactorily proved from the above accounts. You should be pleased equitably to

					time as well as the 29 Villages below stated. ——
2.	J. Kundeagoodah	Narain Nipenkoo and Croolnassatroo sollo. ——	Broondanana Hurrichendana Iuggades ——	12 Anks of Shea. Mookoondades 25th day of Bechal	This Village was purchased by my Grand father from the original holder / the bill of sale is with me / and it was only given to servants under their wages. This will prove from the Committee accounts of Susly 1226 During the purchase it was 48 years in the enjoyment of my ancestors and myself. This will be proved from the accounts alluded in the 1st remark. As for other points see the 1st remark. ——
3.	9. Goondrebandy	Gungadurbahadur Bundoosany. ——	Do. — Do. — Do. —	11th — Do. — Do. — 5th day of Mashem.	This village was purchased by my Grand father / the Bill of sale was with me / and was in the enjoyment of horses feeding, and the salaries of horse keepers &c. This will be proved from 1226 Susly committee accounts. It was 49 years in my possession. ——

25.	54 Bullegawyee	Rayaseetambara Sauto Vca	Balunkaswera Hurrechendana Sagadeo	19th Do. Do. Do. 4th Meenum		Purchased by my father Document is found the profits were appropriated to his own use Do. Do. enjoyment 42 years. —
26.	55 Sasanunn	Bamurto Mahapatroodoo	Do.	Do.	22d Do. Do. Do. 4th Medoonum	Do. Do. by Do. Do. Do. Do.
27	57 Manaseelah	Chamobovonaly Putnaik	Do.	Do.	19th Do. Do. Do. 19th Mashem	Do. Do. by Do. Do. Do. Do. Enjoyment 42 years. —
28.	62 Bodochoodea padah	Gungadurdoss Vca	Do.	Do.	22d Do. Do. Do. 10th Coombum	The original holder of this village being unable to pay the fixed Cuttoolidooty of it made over the right of it to my father on account of the arrears they again resumed the village on condition to enjoy it for life paying 4th part of the produce as

as Cuttoobandy after their death the village came to my father's posession Document is with me. Enjoyment by us 22 years.—

29. 73 Dongoory — Deenaboodoo Saunto. Broondavana — 9th Onko of Moo. Hurrechendana — koondadee — Purchased by my Grandf father and was given under wages to Rama. Suggadee — 5th day of — singhy Saunto for some time. By my Medoonum — father it was again given to the original holder on 21st Onko of Mooloonda Deo on condition to enjoy it during his life time paying forth part of the produce under Cuttoobady. After his death it was resumed by my father. Two documents to the above effect are found — enjoyment 20 years.—

30. 75. Billgaum — Streechendana — Balancadwera — 17th Onko Stree. Saunto 2nd — Hurrychendana — Ramachendradee Sagadee — 29th Medoonum Purchased by my father from the original holders about 23 years ago since which it was under our enjoyment.—

The following 20 are the Sagheers of which my grand father was the original holder and have since been in the enjoyment of myself and my blood relatives:

31. 60. Borasinghy — Stree Bodomagosaye — — — My grand father was the original holder as it was to the date of the permanent settlement in the enjoyment of his elder fathers wife. It was entered in those accounts in her name Stree Bodama. "goosayee" after her death my father gave it to his Bantoo Samasoondara Chanoo Pitnaik under his wages for service for some time and then resumed by my father, and after him came to my enjoyment. As for other points, see remark No. 1 to the Village No. 4— It was customary in our caste that the males and females Viz. Mother, Wives, Daughters and Brothers, Sons, Uncles &c." who undivided they live on separate messing in the place with their slaves Consequently the Rajah should supply them with all the necessaries by means of ready money and villages respectively. If the bride groom married, and, neither others died their villages will be reverted to the Rajah and will be disposed of at his pleasure.—

32. 61. Bhaleah — Streemagosaye — — — The above remark applies to this but as it was in the enjoyment of my grand fathers mother Stree Magosayee, prior

							prior to the permanent settlement her name was entered in the accounts. After her my father gave it to his mother after her death it came to my fathers enjoyment.—
33.	63	Bondamarah	Do.	Do.			Do. Do. Do. Do.
34.	65.	Boyerounny	Seye Samadany				Do. Do. was given to his sister Sojamah, therefore her name was entered in the accounts. After her my father gave it to his Daughter (my sister) she having been married the village came back to my fathers enjoyment, and after him to me.—
35.	66.	Chimaloorgam	Bodo Samadany				Do. Do. was given to his wife Boddo Samadany, So her name was entered in the permanent accounts afterwards it was given to his 4 Daughters; they enjoyed the same jointly this will appear from the accounts of Fasly 1226 after their marriage the village was resumed by his father and after him it came to me.—
36.	67.	Nimmanah	Do.	Do.			Do. Do. was given to his wife Boddejamah, after her was given to his brother, and after her it came to my father and then to me.—
37.	68.	Baodayesoony	Cumnea Samadaye				The original holder was my grand father, was given to his elder brothers wife Comnea Sama Dany, after her my father became the enjoyer of it and then to me.—

9696 Fort Saint George 15th June 1858.

Memorandum.

1. Of the 202 Villages attached to the Tandoor of Haughtigur 79 are Sevagaty Villages 77 Sughier Mocasiahs, 24 Amanies belonged to Pagodas, and 22 are Aggrahawrams under the enjoyment of Brahmins. To the above Villages were devided into 4 Kinds at the time of permanent settlement, and were so entered in the permanent accounts and in Cadles. Of which except 79 Sevagaty Villages the rest of 3 Kinds will be manifestly shewn with the names of their Proprietors in the permanent Accounts. On a perusal of the record it will be apparent that those Villages should be enjoyed by the heirs of the original proprietors and those who purchased them from the heirs, therefore your honor will observe that those Villages are not in any way connected with the Sevagaty.

2. The nature of the 77 Sughier Villages is thus. The late Zamindars made

and their families and adherents incurring their own expences, cut the jungle, and built Villages and enjoying the produce thereof as Sagheerdars from a long period. Consequently there is no any connection between Sevagaty and those of Sagheer Villages. The Zemindar enjoys the Sevagaty Villages as a Zemindar and the Sagheer Villages on the right of their having been in his name and some by means of purchase. On the permanent settlement the Cuttabudy on the Sagheer Villages having on an average been fixed much, the Sagheerdars are unable to pay the same owing to other inconveniences. Some of the Sagheerdars having sold their Villages the ancestors of the Ex Zemindar as well as him purchased them all in 50 which are enjoyed by the Ex Zemindar only. They have justly come to the possession of the Ex Zemindar and are in his enjoyment for a long time, now the Cullecate Zemindar on

9696 Fort Saint George 15th June 1858.

on the ground that they purchased the Talook of Kantyhur illegally to the possession of the said Sagheers with Sevagaty Villages. The 50 Sagheer Villages should according to justice be in the enjoyment of the Ex Zemindar of Kanyhur, he being the Sagheerdar of them, and the full Cuttabudy thereof Rupees about 20,000 will be paid annually to the Cullecate Zemindar; this is justice therefore your honor must be pleased to pass an order on the above effect.

3 Your honor is aware that if all the 77 Villages are Sagheers they should be in the enjoyment of Sagheerdars and the Cuttabudy thereof should be paid to the Zemindar who purchased the Talook with which they are connected. A question might arise to you as to whether the 77 are Sagheer or Sevagaty Villages and if they are Sevagaty Villages they should be in possession of the Cullecate Zemindar with the Talook undertaken by the

the 77 are but Saghuer Villages they were entered as such in the permanent accounts, and the Cowls it being the final settlement, and were entered so under the head of Saghuer otherwise they would have been entered under the head of Sevagaty. Should you think that the 77 Saghuers have been subsequent to the permanent settlement, joined by the Committee on Services in the Sevagaty such order would have been brought to the notice of the Zemindar. It was not done so otherwise the Zemindar would have dispossessed the whole 77 Saghuer Villages from Saghuer dars and include them in Sevagaty when as the Ex Zemindars purchase some of the Saghuer Villages from some and endowed them to others as gifts B for instance; a Village called Bonapully was purchased by the late Zemindar from its proprietor Bompadar Vanna Iyenna for 600 Pg in the year 1840 and was Endowed as

as gift to Pethuabara Middeda Bhoo Swamapatty, which was reported by the late Commeens and recorded in your Office on a perusal of which it will be manifestly obvious that it was a fact and that the 77 are Saghuer Villages.

3 Of those 77 Villages had been settled as Sevagaty at the permanent settlement in the first instance why should the 2d Committee that took place in July 1220 enter them as Saghuers in the accounts then prepared and why should some of them be entered in the accounts as Saghuers as in the enjoyment of the late Rajahs and in case if they were Sevagaty why should not one of the 79 Sevagaty Villages entered together in the same accounts

4 Of the 77 Saghuer Villages had been settled at the Permanent settlement as Sevagaties with the 79 Sevagaty Villages, then the whole of the Talook should comprise 156 Sevagaty Villages

Whereas

whereas, on the 3d May 1834 the late Collector Mr Oglivie deputed one Jowdoo Bidraincvistnamah Pantooloo as Fufty Tunneen for the Collection of some arrears, and in the appointment order issued to him it was stated that there are only 79 Serayaty Villages therefore it will be apparent to your honor that the remaining 77 are Sagheer.

5 Should those 77 Villages are settled in the permanent account as Serayaty then there can be no more Sagheer Mocasah Villages in Kandyan which circumstances would be clearly shewn by the accounts, as it was not the case all the Collectors whenever they appointed Fufty Tunneens on the Saveedook, they used to issue orders to them excluding the Sagheers &c according to permanent accounts from the attachment notwithstanding your honor in 1854 when appointed as Fufty Tunneen B. Crestina Row for present section of this Talook issued an order to him excluding the Mocasah Villages as per permanent accounts.

Besides-

9696 Fort Saint George 15th June 1858

Besides if those 77 Villages have not been admitted by authority in the Committee as Sagheers why should 27 of them are to the present moment in the enjoyment of the other Sagheerdars. Lately when the late Tenindar reported to the Collector that some of the Sagheerdars are not paying him Cuttoobady, it being too much. Tunnemahs were issued that the Cuttoobady fixed in the permanent settlement cannot be reduced, and that the Sagheerdars had every right and liberty for disposing the same or to fertile the Jungle places more. Under these circumstances, there can be no objection to suppose that the 50 villages now in dispute have come to the possession of the &c Tenindar by means of purchase, and are in his name to the date of the sale of the Talook, and so to allow the &c

Tenindar

Zemindar to enjoy them are paying the regular Fist to the Collector Zemindar as other Sagheerdars do.-

7. Altho' these 50 Villages are manifestly appear to be Saghees a question might perhaps arise for they being under the enjoyment of the Ec Zemindar by the time it was sold they must go the purchaser that can never be done, because it is mentioned in the Turkey order issued prior to the Auction of the Tanjore that the Sagheer and Moxasah Villages were not connected with the Tanjore and the proclamation issued for the Auction of the Tanjore gives authority to the purchasers so much as stated in the permanent Code but not on the Saghees or Moxasahs, or except only to receive the Cutcherry Thereof is usual according to permanent settlement.-

For

8. For instance. A man who is vested with two different authorities such as Sumeen and Head of Police if one authority is taken from him it is clear enough that he is vested with the other. So Ec Zemindar of Hanjore has two titles Viz. a Zemindar by the Jeyagty Villages and Sagheerdar for 50 Sagheer Villages. He is only dispossessed from his Zemindary the Jeyagty Villages having been sold for the arrears due to Circar the Ec Zemindar has every just right on the Saghees which he acquired by purchase Viz. as he has on his house and other things. Consequently the Saghees should be left in his possession as other things of his own when the Tanjore was sold. Of the 77 Villages are Jeyagties and that they should be made over

over to the Cultivate Zemindar why should 27 of them be allowed to Keep in possession of the other Sagheerdars to Ring only the remaining 50 which were in the enjoyment of the Hautghur Sagheerdars as Sagheers when you Know all of the 77 are of similar nature.

9 If you want to include the 27 Sagheer Villages now in the enjoyment of others with the Sevagaty and make over to the Cultivate Zemindar, I cannot be done so in either Revenue or Magistrate, and with reference to the reasons quoted below.

10. You honor might suppose that as Mr. Anstey considered the Villages of Pittapauldoo and Cumbave gam in the Tindale Taluk which stand in the Sagheer head in the Permanent settlement accounts to be of a Sevagaty nature, also the 77 Sagheer Villages of the Hautghur

Hautghur Taluk are of the same Kind and are consequently liable to be enjoyed by the Cultivate Zemindar the purchaser of that estate if so the 77 Villages are to be continued to Sagagadee of Hautghur who were enjoying them up to the time of auction referring the Cultivate Zemindar to the Civil Court in the event of his laying a claim upon them for, under the imagination of Mr. Anstey that the Kham of the Sagheer Villages is included in the permanent settlement in the same manner as the Kham of Sevagaty. He asserted that the Sagheer Villages are also of the same nature as Sevagaty, the Kham being shewn in the permanent accounts in a great Amount it only authorizes the Zemindar to levy the full Amount from the Sagheerdars, who would in consequence have a little benefit but such as

an entry of a large amount would do not provide any right to the Zemindar to occupy them, depriving at the same time the holders of their claim on the Villages which they brought to a flourishing state after experiencing every hardship for the purpose. For instance, the Peishcush of the Zemindaries in this district were not fixed at one rate same of the Zemindars enjoy a great profit while certain others have a little and some have not any at all after paying the fixed Amount but still all of the class possess an equal claim and the Zemindars who draw no profit whatever as long pays the Peishcush cannot be deprived of his claim on a plea that nothing had originally been allowed for his profit. If Revenue through the entire assets of the Sagar Villages

Villages are entered in the permanent account without leaving any thing for the encumbent and the same is fixed as a Cultoobady, which might appear to be heavy the Jaghierdar has a sufficient right to enjoy the Village which cannot be interfered with so long as the Cultoobady is punctually paid, and in the event of his failing to pay the fixed amount the village will be liable to be sold and moreover the Kham was fixed on the average Collections of the preceding 16 years taking at the same time into view the profit which the holder would have to derive from the villages should the authorities be pleased to make enquiries as to what amount the present excessive Collections from the villages whose Kham had been fixed on the average of 16 years are levied your goodness will be convinced yourself that the holder had some profit by the time of the permanent Settlement. On the same reason in the case of Rettapadoo and Cumbarengaum in the Tarlah Taulook the recommendation of Mr Onslow to give them over to the Zemindar as Jeyagty Villages on a plea that their Kham had ben brought to account in the permanent settlement was not approved of by the Commissioner

commissioner who directed their restoration to the purchaser Doovandapedda Naidoo together with the produce &c^a of the last 6 years during which the Collector managed the Villages saying that the reason assigned by Mr Onslow for making them over to the Zemindar on an imagination that they were Serayaty Villages would not be a substantial one, and that should the Zemindar consider them to be Serayaty he should have to bring a Civil Complaint, on this reason your honor made over the two Villages to the purchaser directing him to pay the Zemindar the Small Cuttoobady inserted in the accounts of 1226 fusly instead of the excessive Cuttoobady entered in the permanent settlement accounts. Should you be pleased to peruse the final order issued in that case on 1853. you will be pleased to consider yourself that the 50 Saigheer Villages in the Stoulghur Estate which were under the enjoyment of the Zemindar up to the time of Auction are to be put in possession of the same Zemindar referring the present Callecote Zemindar to Civil. Besides the Cuttabady

of those 50 Villages is entered in a small amount Viz^t Rupees about 4,000 four thousand in the account of Fusly 1226, while the permanent account show a Cuttoobandy of Rupees about 24,000 twenty thousand. As the Stoulghur Zemindar will bind himself to pay the excessive Cuttoobady of the Villages according to the permanent accounts without reference to the account of Fusly 1226 according to which you were pleased to order the payment of small Cuttoobandy for the two Villages in Turlah Taluck It is believed that your honor will have no objection to order the Stoulghur Zemindar to enjoy the Villages

11 Moreover, though a Village is really a Serayaty one, but enjoyed by another as Jagheer, the Zemindar shall have to possess it by a legal means and his acquisition by a Complaint either in the Revenue or Magistrate Department is prohibited by the Sudr Udalut in Decree N^o of 18 and G. Puttuberah Puntulu having purchased Bramanachuppu

in

in Public Auction requested that certain Serayaty lands which he said certain others had occupied and were enjoying as Enams might be made over to him and further stated that the usual fall Peshcush cannot be paid until a settlement is made in the case but agreeably to the Commissioners order you were pleased to say that notwithstanding the Lands in question bear an entry in the Serayaty head in the Circar accounts yet he should himself adopt measures to effect their resumption by means of a regular Civil Complaint, and that the enjoyment of the persons cannot be disturbed by a Magisterial or Revenue process. Again when Boyanapaudy Cudungha purchased Barwah Estate in Auction he made a similar request that the lands might be made over to him but Mr. Onslow referred him to Civil thus, while the lands which evidently appear to be Serayaty are not liable to be resumed by the owner of the Estate except by means of a Civil process

9696 Fort Saint George 15 June 1838

process, in consequence of a simple reason of their being held under an Enam or Sagheer tenure for it is to be considered by your honor have the Sagheer Villages which have been enjoyed by Hautghur Suggadra for a length of time are liable to be occupied by the Cullecole Zemindar.

12. Your goodness might entertain yourself a doubt, that in the event of the Sagheer Villages under discussion being restored to the Hautghur Rajah the Cullecole Zemindar might be subjected to a great loss, the revenue derivable from other sources of the Estate might perhaps too short so that it cannot even be sufficient to meet the Peishcush demand, in explanation of this I beg to say as follows. There remains every year a surplus of about 30 or 40 thousand Rupees in favor of the Cullecole Zemindar on account of the Hautghur Estate in addition to the Cattobandy payable by the late Zemindar to him for these 50 Sagheer

Jaghier Villages which being heavily taxed the Hautghur Zemindar will have a profit of only about 6 or 7 thousand rupees, this though be not sufficient to mait the disbursements of the late Zemindar which even extended to a very low extent, will amount to about 20 thousand Rupees a year, he will have the supply of fuel, grass, Vegetables &c Sundries and the people will be at his service, and thus there will be a little aid or accommodation for him to pass the time in some way or other.

13. There might arise a question as to why the Hautghur Rajah has hitherto delayed in claiming these Villages as the Hautghur Zemindar is more highly esteemed than that of Cullecote in Zemindary respects, and the people expressed to your honor that to pay their tribute to Cullecote of Hautghur having lately Zemindar is a characterless thing for there, the Hautghur Zemindar is hitherto ashamed to make any dispute whatever regarding his Jagier Villages, which if

9696 Fort Saint George 15 June 1858

if possessed by him he will have to pay himself their Cuttoobandy to the Cullecote Zemindar, and as an appeal is still pending before the Honorable Court of Directors for the entire Zemindary which if restored he considered he would have no occasion to dispute regarding the villages, but as no final decision is yet passed by the Court. As your honor who is well convinced of every particulars of his misfortunate state is shortly expected to leave the district, if a complaint be lodged before a new authority his silence so long might then be found objectionable and as all of his Jewels, hitherto remaining with him have been disposed of for his maintenance for which he is at present put into a good deal of trouble the claim for the Jaghier Villages has been laid before you since the last 5 months, your honor might consider that the restoration of the Jaghier Villages to the Hautghur Zemindar might disturb the peace of the country which will never be the case for the Ryots at first disputed that they would not pay their Revenue to the Cullecote Zemindar as such would be

be a disgraceful thing to them when the Kaulghar Rajah who was their former land lord bound himself to pay his Cuttoobady to the Cullecote Zemindar what objection would the ryots have to pay also their sist?

Ans — As those Villages are not Jeroyaty but Jaghier they are not liable to be occupied by the Cullecote Zemindar, and after you might consider that instituting an enquiry into the just manner by which the claim of the Villages devolved after the Kaughtghur Zemindar his claim be found invalid, they are escheatable to Government, and that consequently an early investigation into the case is urgency, such an enquiry is not at present requisite because the long undisturbed enjoyment is only to be established at present. The Villages were legally possessed by the Kaughtghur Zemindar who enjoyed them for about 20 or 30 years without any interruption whatever, as shown by

9696 Fort Saint George 15 June 1858

by the account rendered by the Zuftz Ameens no others have ever forthcome calling themselves to be the claimants of the Villages his long enjoyment may be considered to be a valid ground for claiming them, even the lands enjoyed without due substantial grounds are not intended to be resumed at once but are allowed to be enjoyed by the present holders for life, and a report is called for by Government for their disposal when lapses occur therefore you may be pleased to convince yourself that even the question as to how the Villages were possessed by the Kaughtghur Zemindar is not to be raised so long as he lives, but that they are to be continued to him or if you are pleased to say that they are of the same nature as those in Turlah Zemindary it will be just to issue orders to makeover the Villages to the Holder Kaughtghur Zemindar) referring the Cullecote Zemindar to the

Civil

Civil judicature, and the former will then have sufficient room to establish his claim, and even in this latter case no enquiry is at present needful.

15 It is very common for the authorities as yourself in the event of ancient Zemindary being reduced to poverty to protect them and their character by rendering assistance in some way or other and to assume the same. The Kaughlghur Zemindary has been enjoyed by the family of the Zemendar for about 1000 generations the Talaka was formed by clearing off the jungles. It was never prior to acquisition by the ancestors of the Zemendar enjoyed by any others nor it was posessed from any one else. The family is subjected as will be found from the geneology to the control of the Honorable Company ever since it was established, and besides at the time when Mr. Brown commenced making a permanent Settlement

9696 Fort Saint George 15 June 1858.

settlement all other Zemindars combined together resisted the orders of the Circar and made a war at Sarooguedah, even at that particular time the Kaughlghur Zemindar never attacked against the Government but was humble to them, and was in friendly terms. The other Zemindars in this District occasionally raised Peetoories, but the Kaughlghur Zemindar was always far from such malpractices when the Goomsoor &c. Zemindars made a disturbance the Kaughlghur Zemindar without being called for by the Circar to render his assistance exerted himself in bringing them to proper terms by persuading them that they ought not to have resisted the Circar order &c. The Government having been informed of his praise worthy conduct esteemed him highly he attacked himself against the Zemindars who were against the Circar and Supplied the Circar people with provisions when it could

could not have been procured in the war, in such a case, as the family of the faithful Zemindar is reduced to poverty suffering every hardship for maintenance being obliged to get out of the Taaluke with a request for pardon respectfully beg leave to implore that after paying a little attention for about an hour to the grievances of the Zemindars you will be graciously pleased to grant him justice and put him in possession of his lawful holdings.

 Fort St. George 15th June 1858.

No 3

Most Respected Sir,

As you are the Ruling authority I consider you as my Father, so please take me to be your Son and protect me.

My fortune is solely devolving on your pen.

Your honor should take little pain to discover my claims by your equitable sight if so my large family, whom your honor is aware was in affluent circumstances will live some time in the world which Kindness will please the Almighty and he will bless your prosperity.—

It was proved from your Enquiry that the 50 Villages which I am claiming are Jaghcer and that they were in my engoyment.—

I came to know that you entertain a doubt in putting me in possession of the Villages in consequence of their having been merely entered in the Jerayety Villages in the accounts for Fushes 1257 and 1260, as

as well as in Goodicat account. That entry was made solely by the ignorance of the writer such a trifling mistake is pasable and cannot prejudice my title and your merciful assistance to me regarding them. Should your honor please explain the mistake above alluded to in your report to Government I doubt not they will sanction your recommendation about me.

The construction of the Provisions in the orders and Regulations about the lands included in Jerayaty for some time not to be made Inams again, are only applicable to those below stated, but not in my case as Mohurry was purchased by Government some of the Inams in it on your Settlement, were included in Jerayaty; after some time passed if any man come forward with a document and claim for any Inam included in Jerayaty that prevents in regranting as Inams. The Jagheer in my Talook are not similar ones; for they never went under Government at

9696 Fort St. George 15th June 1858.

at any time nor any competent authority held any investigation of them and made Jerayaty therefore the mere mention of them with those of Jerayaty Villages by the ignorant of the Zufty Sunneens &c cannot hold good, and consequently &c they cannot be called Jerayaties but you may conceive that that entry is a sufficient proof of itself that the Jagheers were in my enjoyment.

The Jagheer villages called Pitta: : pandoo and Cumberegaune in Tarlab Talook were in 1847 Jufted with Jerayaty villages and were included in the Jerayaty and passed 7 years. On a complaint of the Jagheerdars regarding them, the Honorable Govern: : ment were pleased to pass orders to exclude them from Jerayaty and made over to the Jagheerdars, a perusal of the correspondence on the

on the subject will I trust relieve you from all your doubt in rendering me justice. as regards the Goodicut &c accounts I beg to observe that it was written in Teloogoo. which I am quite ignorant of, nor was it in the hand writing of any one in my Vantgheir Talook That account was produced before you in the days when the Talook was sold. Four years prior to it the Talook was entirely left in the management of the Officer of the Aska factory. I suppose therefore the then manager Puttabheraw Puntooloo being anxious to purchase the Talook he must have got the accounts prepared so, which the authorities also will take it to be true. The writer of these accounts is a relative of the Cullecte Zemindars Vakeel and was a Goomastah from that to this time &c under the Cullecote Rajah, I now humbly solicit your honor to recommend about my 50 Villages and protect me and my large family from further trouble which Kindness will be greatefully acknowledged.—

Chetterpore 16th November 1857

V.T. Collector

The principal point that you should take proof is whether or not the 50 Jagheer Villages were in the enjoyment of Hautghur Jagadee up to the time of sale of the Talook and make over them to him if it is proved in his favor, but no necessary to enquire how they came to his possession by the undermentioned two reasons.-

You shall have to consider the 50 villages as Jagheers or Jeroyaty but not otherwise.-

1st Reason. Should you consider that they are Jagheers, then there should be a dispute between the Jagadee and the Government but not Callecote Zemindar Provided there be a dispute between Jagadee and Government, the villages should be in the enjoyment of the former during his life time. after his death it will be your duty to Enquire into them whether to include in the

9696 Fort St. George 15th June 1858.

lapsed Enams, or to dispose of them as the pleasure of Government.-

2d reason. If you observe them as Jerayaty villages there may be a dispute between the Hautghur Jagadee and the Cullecote Zemindar but not with Government.-

With reference to the Minutes of Government and Commissioner passed in 1853 about the Jagheer Villages of Rittapaudee and Dumberegam in Tur Talook Talook which the Collector said to have been Jerayaty, you should place the Hautghur Jagadee in possession of the 50 Jagheer Villages, referring the Cullecote Zemindar to the Civil Court, under these Considerations it appears to be your duty to see into the claims of Hautghur Jagadee; as he was in the enjoyment of them from a long and considerable time but it is no need to enquire otherwise about their legal right. For instance if you please to see the Settlement Accounts of Fusly 1226, as well as those sent in by the Fufty Aumeens, and those sent by the Aumeen Bukshy Christna Row who was sent before the Talook was sold, you will observe that those 50 Jagheer Villages were in his Enjoyment during the time of his ancestors, consequently there will be no objections to make them over to Jagadee.-

—. No. 87. —

To,

G. B. Forbes Esquire
Secretary to the
Board of Revenue
Fort St George.

Bl. No. 1981
From the Acting Collector of Masulipatam submitting for the favorable consideration of the Board a proposition for the modification of the quit rent on certain Enams of the Madhavarum Village in the Pentapaud Taluk. —

Sir,

1. I have the honor to submit for the favorable consideration of the Board a proposition for the modification of the quit rent on certain Enams of the Madhavarum Village in the Pentapaud Taluk. —

2. During the last Summabundy the Enamdars consisting of the Curnums other village servants, and certain Brahmins complained of the excessive quit rent which was levied upon their Enams, and prayed for its reduction on the following grounds. —

3. These Enams existed previous to the Permanent settlement, and according to the oldest accounts extant were in Fusly 1208 assessed with a quit rent at the rates of Rupees 5, 4½, 4, 3½, 3, 2½, 2, 1½, 1 per Pootty [of produce]. —

4. In Fusly 1211 that is immediately preceding the introduction of the Permanent settlement, these variable rates on the produce were converted for fixed money rents on the land some Enams at Rupees 36 others at Rupees 28 per pootty of land. —

5. After the Permanent settlement in Fusly 1214 it appears from certain accounts rendered by the zemindar, that some of the Enams were assessed at Rupees

Note

9699 Fort St. George 15th June 1858.

Rupees 49½ others at 38½ others again at Rupees 32 per pooty but the quit rent on such of the first class enams as belonged to Curnums was reduced from Rupees 49½ to Rupees 28. —

6. In Fusly 1224 a further reduction was made for when some of the village servants and Enamdars complained to the zemindar, he was pleased to remit the quit rent altogether, as he did generally throughout his Estates. The Enams which were still left liable to Cottoobady were Pootties — 17 — 18 — 1 the quit rent whereupon was Rupees 680-7 — These arrangements continued up to Fusly 1234. —

7. In Fusly 1235 Garga Vencata royaloo, who rented the Village from the zemindar measured all the lands of the village and found in the quit rent Enam lands now under consideration an excess of Pootties 10 — 5 — 6 and although the extent of the Enams were thenceforward entered in the accounts according to this new measurement the old quit rents alone were collected up to Fusly 1247.

8. From Fusly 1248 to Fusly 1252 while the estate was under attachment the quit rents were collected as before irrespective of the excess arising from the measurement and on those enams on which the quit rent had been remitted by the zemindar, the full Cuttoobady was reimposed and collected but in doing so, the results of the measurement were set aside. —

In

Fort St. Saint George 15th June 1858.

9. In Fusly 1254 accounts were prepared for a Sub division of the Estate. On this occasion the excess in the area of those enams resulting from the measurement of fusly 1235 was brought to account and the quit rents of fusly 1214 increased proportionately. This was a mere matter of account for the increased quit rents were never actually levied from fusly 1254 to fusly 1257. —

10. The new zemindar, who succeeded to the Estate during this interval also levied on the Maf Enams certain quit rents at his pleasure at so much per poolly of produce. —

11. In Fusly 1258, the Estate was again sifted, when the Enamdars were called upon but never made to pay the quit rents as fixed in the accounts of the Sub division. Those Enams which were up to that time paying Cuttoobady paid no more than their former quit rent and the Maf Enams remained exempt altogether as before. —

12. Previous to Fusly 1261, several Enamdars had deserted their landsome unable to pay the quit rents. The extent of the Enams, so left was Pc. 10–6 Quit Rent Rup. 391–6–– Those thus remained of Inam Cuttoobady Enams. Pc. 7–12–1 Quit rent Rup. 289–1–– or according to measurement Pc. 12

C.M. C. 31st March 1855.

Fort St. Saint George 15th June 1858.

Quit rent Rupees 438–8–3 as per Sub division accounts. —

13. In Fusly 1261 the estate reverted to Govern-ment and from that year to Fusly 1265. the old quit rent only of Rupees 289–1–– was levied with regard to the Maf Enams up to Fusly 1265 half of the remitted quit rent was reimposed and collected on the cultivated portion of the respective Enams. —

14. On the report of the late special Assistant Collector, Government directed the reimposition in full of all quit rents remitted by the zemindars Mr. Ballard, issued orders accordingly except in the case of the Enams of the Madhaveram Village about which he did not feel sure whether he was to take the old, or new measurement for his guidance. In March 1856 Mr. Lushington decided the question in favor of the latter course not only in regard to the Maf Enams but also to the other Enams which were all along paying Cuttoobady. —

15. Accordingly in Fusly 1266 the quit rents were fixed as follows.

	Former Area		Former Quit rent.			Present Area			Present Quit rent		
	Pc.	S	M	Rs.	a	P.	Pc.	S	M	Rs.	a	P.
										438	8	3
Maamool Cuttoobady Enams	7	12	1	289	1	–	11	7	6			
Maf Enams.	12	18	7	589	11	6	17	7	10	803	11	–
Total.	20	10	8	878	15	6	28	15	–	1242	6	3.

among the Maf Enams two have been latterly resumed having been left by the owners. the extent of the remainder is Pc. 17–7–10 Quit rent –– Rupees.

Jo^rt. Saint George 15^th June 1858.

Rupees 803—13— as given above.—

16. It must be observed here that by another measurement made in Fusly 1262. the area of these Enams was made out at P 30-4-3 Quit rent Rupees 1284—15—3 which is the demand of the present day.—

17. The average rate of the quit rent is Rupees 35 per pooty on the service and Rupees 46 on the Charity Enams, while the average assessment of the Government lands of the same village is Rupees 47. It must therefore, be admitted that the present rates of quit rent, are so heavy as to render the land liable to an average assessment and consequently enams only in name. There is no reason to suspect that these Enam lands have really increased in area since they were granted; they are situated together and are included within the original boundaries, and the excess in the area found by measurement, is entirely attributable to the case way in which these lands were bestowed, the same increase has been found in the Government lands and in those days the amount of produce and not the area of the land was deemed important.

18. In Fusly 1211, as I have already observed the rates of quit rent were only Rupees 28 and 36. per pooty and the enhancement of

Jo^rt. Saint George 15^th June 1858.

of them by the zemindar in Fusly 1214 was evidently an arbitrary Act which whether wrong or right continued in force, down to the latest time irrespective of the land actually enjoyed.—

19. I am of opinion that the original area of land that subsequently proved to be greatly under measured should be maintained upon which the rates charged in Fusly 1211, should be fixed and I found my opinion on para 13 of the order of Government dated 31^st March 1853 "that it is not competent to zemindars to raise the quit rent above the rate fixed at the Permanent Settlement and that such increase is altogether illegal and opposed to the provisions of Section XII Regulation 25 of 1802."

20. In the same village another complaint of an analogous nature was made at the same time by the Doombala or free Enamdars, who were liable in Fusly 1208 to the payment on their Enams of 1 Loom per pooty of their Crop under the name of Ghuttoo Looms or contribution to the repairs of the Tanks.

In

9699

For^t. Saint George 15^th. June 1858.

In Fusly 1211 it was commuted to a money rent of 12 Rupees per potty of land; afterwards the zemindar increased the rent to Rupees 15 at which rate it continued down to Fusly 1264. In Fusly 1265 the remitted Ghuttoo Ioom rents were reimposed on the Cenams at the measured area and hence the cause of complaint with these Cenamdars, is precisely the same.—

21. The particulars of this class of Cenams are given below.—

A^t old Area		Ghuttoo Ioom			A^t new Area		Ghuttoo Ioom		
P^s	I	M^s	R^s	a	P^s	P^s	I	M^s	R^s	a	P^s
13	9	18½	207	10	-	20.	13	12	309	11	-
	Increase Rupees —					102.	-	-			

M^r. Ballard does not appear to have given particular consideration to this point and directed the reimposition of the Ghuttoo Ioom Imposts in a general way.—

22. For the Current Fusly 1267 I have directed that the Collection of the additional quit rents, levied on either description of Cenams be postponed till the instructions of the Board are received on the present reference.—

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 18th Ultimo No. 1790 Calling on Collectors of the Districts comprizing the Southern Division to report at an early date what means are taken to ensure a Correct Return of the price & quality of the third sort of Rice—

Two returns are rendered in this District, the one shewing the average price of the cheapest rice at a guide plaw during the month, and the other the average price of the cheapest price for the entire district for the same period—The officers to whom they are sent are the two officers Commanding Rayacottah & Salem and the officer Commanding

Fort St George 15th June 1858.

Commanding the Ramnaud Depot. The average price for the entire District relates to the Second sort of rice entered in the Boards' Prices current, as that is the cheapest sort of rice in general use—

3. The other return shews the average price of a still cheaper description of rice, which is sold at the three places specified above, tho it is not sold at every place in the District—

4. The average in the latter case is struck from returns of the daily prices at which the rice was sold at each of the stations named— The average for the District is calculated on similar returns furnished for the principal towns in each Talook

5 These lists are first prepared by the Village authorities and are afterwards checked by the Shanbogs before they are submitted to my office.—

Fort St George

Sir,

3d No. 2618—
From the Ag. Collr
of South Arcot—

I have the honor to forward for submission to the Board a short Paper which I have written in Correction of certain Statements and figures occurring in Para 16 of the Memorandum published by Colonel Arthur Cotton on the Causes of a Recent breach in a branch of the Godavary anicut—

2 Colonel Cotton's Pamphlet is I believe an Official Paper and printed Copies have been Circulated to Public officers in every District of the Presidency I refrain from entering into any discussion on the subject of which he writes in the para alluded to but it has appeared to me proper to bring to notice officially the errors into which he has fallen in regard to the Revenues of the sub Division of Rajahmundry—

South Arcot
Collrs Cutcherry
Cuddalore
31st May 1858

(Signed) G. N. Taylor
Ag. Collector
Memorandum

Fort Fulgeorge 15th June 1858

Colonel Cotton's printed Memorandum on the late breach in the Godavery Annicut having reached me only within the last few days I have been unable to take earlier notice of the remarks which he has been led to make regarding the increase of Revenue in the Sub division of Rajahmundry. I have no intention to discuss in this place the merits of the Settlement which is called in question by Colonel, but I desire to Correct the erroneous impression which his observations evidently written under great misapprehension calculated to convey.

In para 16 of the paper in question after stating that the present officiating Sub Collector had shown him a letter protesting a departure from the terms of my Settlement Colonel Cotton proceeds to say "As the whole former Revenue was only 4 lacs this prevents him (Sub Collector) from levying more than 4,0000 Rupees" The inference to be drawn from this Statement and from the remarks which follow clearly is that the former Revenue independently of the Annicut was 4 lacs and that the present Revenue is Rupees 4,0000 and will Continue at the latter figure until the

Fort Fulgeorge 15th June 1858

the survey This however is far from being the fact If by former Revenue is meant the actual Collections realized from the 3 talooks of the division in former years the sum of 4 lacs is rather above the average on referring to official returns in my possession I find that the average Collections for a series of years before the Construction of the Annicut amounted to Rupees 375000 and a paper Recently Received gives the average of the last 5 years of the series (Fuslies 1251 to 1256) as only Rupees 355000 - In the Fusly year 1256 when the Annicut was Commenced the Collections were however a little above 4 lacs the average of the Succeeding 6 years (Fusly 1257 to 1262) was nearly 4½ lacs and the actual Collections from the 3 talooks in each Successive year since Fusly 1262 have been in Round numbers as follows -

Fuslies 1263	4,73,000
1264	4,74,000
1265	5,20,000
1266	5,44,000
1267	5,57,000

The

9709 Fort St. George 15th. June 1858

The Collections of the Current Fusly (1267) are not yet complete - the figures opposite to that year represent the demand But as the uncollected balance for Fusly 1265-66 was only a few hundred Rupees there can be little doubt that the demand for Fusly 1267 will be similarly realised - The present Revenue therefore is Rupees 117000 above the limit supposed by Colonel Cotton -

557000
440000
117000

The settlement to which exception is now taken was made for Fusly 1265 not by an addition of 10 per Cent to the former but to the present Revenue i e the Revenue of 1264 It is shewn by the above Returns that the Revenue of the Current Fusly (1857-58) from the 3 talooks of the Sub Division is Rupees 83000 in advance of the Collections in Fusly 1264 (1854-55) Rs. viz 110000 or nearly 25 per Cent above the average of the 6 years immediately following the Commencement of the Ameint Rupees 182000 or nearly 50 per Cent over the average former Revenue

X

X

375000-
11,

9710 Fort St. George 15th. June 1858

Revenue and a trifle more than 2 lacs or 37 per Cent above the average Collections from Fusly 1257 to 1265 I am not aware of any error in the above figures but believe that the Records of the Collectors or the Sub Collectors office will prove them to be correct.

With respect to the watered area it is impossible to determine any thing with certainty until a survey is made Colonel Cotton assumes the watered area of the Sub division to be 200000 acres which according to District accounts is about equal to the entire Cultivable ayacut of the 3 talooks - His estimate is I think in excess of the truth - but assuming it to be correct - as the present Collections are nearly two lacs of Rs. above the former Revenue the increased turnuk is at the rate of one Rupee per acre - In advocating a survey I have so repeatedly pointed out the palpable inaccuracy of the present District accounts that I have no wish to go over this ground again - I suppose however that in the absence of more accurate returns the Revenue officers are compelled to accept the talooks and Village accounts for what they are worth to check them by all available means, and to assess accordingly

9711 Fort St. George 15th June 1858.

accordingly. The difficulty of this process can only be properly understood if we attempt to realise the hopeless confusion into which lands, Closes, fields, and tenures must inevitably fall where a Village has been rented out in Common for a number of years - as the joint rents could not be disturbed until the survey, the object of my settlement was to enhance meanwhile the Collections demand upon the Ryots in a tangible form and to secure a gradual increase to the Revenue without depending upon doubtful returns of watered area. I am not in a Condition to Compare the results with other parts of this District where a different Course has been pursued, but so far as the Wet Land is concerned I believe the Comparison would not be unfavorable to the Sub division.

Fort St. George

Sir

B. Dr. No. 2486 From the Collr. of Canara

In reply to the Board's Circular No. 1360 under date 19th April 1858 I have the honor to state that the Returns furnished from this District in accordance with C. O. No. 1508 dated 17th May 1856 & Memo No. 1618 dated 28th May 1856 are Conformable to the instructions now given viz: less some Potails (Managers) who are not also Village Monoriffs were entered.

To discover this a further reference to the Talooks will be necessary as the account furnished refers to 1833 as well as to 1853 & all my Records were destroyed in 1837. The number of Potails not holding Monoriffs Cannudo must be very small & if great accuracy is not necessary in the Returns in question perhaps the delay that must take place in furnishing the Corrected Returns need not be incurred. on this point I shall await the order of the Board.

No. 92

To G. S. Forbes Esqr.
Secretary to the Board of Revenue
Fort St. George

Sir,

Bd No. 2503
From the Collr. of Nellore

I have the honor to submit the prescribed statement exhibiting the operation of the Printing Press of this District for the year 1858/59-

2 The amount of work executed by the Press during the year under review is Rupees 1268-6-7 Calculated according to the scale prepared by the Superintendent of the Gazette Press of this the work done for the Collectors Department amounted to Rupees 1128-14-8

For the Civil Court	14-2-0
For the District Engineer	50-0-8
For the Inspecting Post Master	13-14-0
Inspector of Prisons	5-14-3
Commanding officer	1-8-0

Rs. 53-15-8 P The remainder being made up of private work

9725 Fort St. George 16th June 1858

work done as shewn in the statement No. 2 It will be seen by this that by far the greater portions of the work has been done for the Collectors Department large Numbers of Sale Examination Byelo Petitions & Receipts have been struck off and usual letters Returns &c. printed. The Chief feature however of the year is the Establishment of a District Gazette, a most useful publication which will be further noticed below

3 The District Engineer has also availed himself of the Press to a Considerable extent and the District Gazette is extensively used by him for the Communication of Circular instructions to the Members of his Department the value of such work amounting to Rs. 128 out of a total amount of Rs. 178-0-8 done for this Department - The balance Rupees 50-0-8 only has been Charged to him - The entries in the Gazette being free under the orders of Government

Government dated 3d August 1857-

4 The works belonging to the Court has but slightly increased during the year as shown in the Margin- The lists called for by Government in Para 4 of Extract Minutes of Consultation under date the 29th March last are herewith forwarded-

In 1856/57- 9
In 1857/58— 14
Increase 5

5 There is also an increase in the work done for private pastes of Rupees 40-2-6 over last year-

In 1856/57- 1343— 11
In 1857/58- 53-15-5
Increase 40-2-6

6 The receipts for the years under report amount to Rupees — 1159 - 6 — 11

To which added balances remaining as per last Report — — — — 205 - 3 - 9

Total — 1364 — 10 — 8

7 The charges of Establishment and Sundries amount to Rupees - 1035 - 4 — 4

Cost of a Rolling Press Types & other printing Materials — 246 — 4 — 4

Total — 1281 — 4 — 4

Balance in favor of the Press - 83 — 10 — 4

1364 - 10 — 8

A small increase in the Establishment was incurred at the time the District Gazette was set up as explained in the letter Marginally Noted- The pay of the Establishment is now 85 Rs. per Mensem

To Board 21st April 1858-

which exactly corresponds with the Reduction by which it is met- The earnings of the Press will be sufficient for Sundries, and the balance in hand alone will it is Considered meet them for some time to Come-

8 The Circulation of the Gazette was at the Close of the official year 241 Copies a brief abstract of which is given in the Margin The Gazette has also limited private Circulation the subscription for the year amounted to Rupees 26.—

Fort St. George

Sir

Bd No. 2106
From the Collr of Cuddapah

With reference to the Extract from
the Proceedings of the Board of Revenue dated the
16th January last I have the honor to submit a report
on the progress made in the disposal of Bhatavratties
enam cases by the aid of the extra establishment
sanctioned by Government on 10th January 1857 convey-
-ed in the Extract from the Proceedings of the Board
of Revenue dated the 19th Idem-

2 The establishment allowed for 12 years by
Government consisted of one Writer & one Translator
the former was nominated on the 6th February 1857 and
the latter on the 1st April of the same year-
The term for which sanction was granted excpi:
-red on the 7th February and 31st March of the
present year from which period
they ceased to draw pay- The difference
in dates between the nomination of the two
individuals allowed for the extra establishment
was owing to the difficulty of obtaining a translater-

9727 Fort St. George 10th June 1858

3 Of the whole number of Cases Viz 477 23 Cases Relating to Poonganoor talook have been sent to the Collectors of North Arcot to which that Zamindary has lately been transferred & the remaining 451 Cases have been dealt with during the year. These Cases may be divided into two Classes the first Consisting of 192 Cases which had not been disposed of the translations being unintelligable & the form irregular These have now been revised & disposed of the second division Contains 262 Cases not hitherto Commenced which have been translated & disposed of upto the 31st of March all the Cases received from the talooks at the Hoozoor establishment have been Cleared off—

4 Of the 454 Cases disposed of 66 Cases in 3 sections have been forwarded for disposal to the Board of Revenue and two additional Cases were sent in Reply to petitions from the parties Concerned making a total of 68 Cases Cases 16 have been fair copied & the documents translated but their

9728 Fort St. George 16th June 1858

their transmission has been delayed owing to the non receipt of documents in and of the Cases, Cases 12 have still to be fair Copied & the documents translated before they Can be forwarded—

5 During the year 87 Cases have been enquired into and forwarded by Tahsildars & received in the Hoozoor in last months & there are 600 Cases in the different talooks to be enquired into by Tahsildars—

9732 Fort St George 16th June 1858

Enclosure No 1

Official Memo.

With reference to the acting Collectors Endorsement on Board Petition No 4168 of 1857 *herein Enclosed calling upon the Sub Collector for such explanation as he may deem proper with reference to the Boards endorsement dated the 20th January 1858 the Sub Collector has the honor to explain that the land in question originally belonged to the Petitioner Vythelinga Pillay, In Fasly 1265 with a view of evading paying the Jeerwah on waste land as required by the introduction of the Dittum System, he resigned the land but to ensure themselves that the land should not be lost to the family, Petitioners son Valaida Pillay gave a Durgast for the same for the following Fasly and subsequently one Rama Pillay tendered for the land and the Tahsildar made it over to him in consequence of Vythelinga Pillay having re-signed it so recently and in appeal the Sub-Collector upheld the Tahsildars decision it appearing to that officer prejudicial to the interests of Government to encourage a practice so open to abuse. It is true that in some instances lands have been made over to parties who previously resigned them although others tendered for them but on this

Fort St George 16th June 1858

this occasion the Sub Collector found the land already made over by the Tahsildar and he declined to disturb the arrangement as he considered it might have a salutary effect in preventing others lightly to resign their lands as they most assuredly would do when left waste, if they felt certain that by tendering for them on the 1st of February of the following year they would have the preclaim and thus virtually annul the principle of the Dittum

No 103

To. G. S. Forbes Esqr
Secretary to the
Board of Revenue
Fort St George

Sir

Bz No 2332
From the Acg Collector of South arcot - - -

With reference to the endorsement of the Board on Petition No 1092 of 1858 dated 3d May last I have the honor to state that the Petitioners gave a Durkast in the first instance for the whole area of the Village including Eram tank bunds, Ponds &ca as without specifying any particular fields and the Sub Collector accordingly rejected their application, available portions of cultivable land were afterwards given to other Durkastdars whose Durkasts were regularly made.-

Subsequently and at the request of the Petitioners the Sub Collector made over to them 6 6/16 of land and offered a further portion of 14-4 4/4 of which they accepted only 2-6 and declined the remainder.-

Under

9736 Fort St George 16th June 1858

Under these circumstances the Petitioners have no real cause of complaint and their repeated Petitions on the subject are merely vexatious.-

Bd No 2271
From the Collector of Tanjore —
From Bd 25 Jany/58
To Bd 2d March &
" 2d September/58

Sir,

Adverting to the correspondence noted in the margin, and to the remark by the Board on the estimate of the Extra charges proposed to be incurred in Fusly 1266 that "the charges for Salt Mercals "have been omitted, as weighments will "soon be introduced instead of measure: "ment," no estimate was submitted for making new Salt mercals for the current Fusly 1267.

The change contemplated not having however, as yet been introduced, and a large quantity of salt of salt having been ordered for manufacture this season, it seems to me absolutely necessary to have new mercals made up, to replace those on hand which are reported by the Head Assistant Collector in charge of the Salt Department to have become unserviceable. I beg accordingly to submit an Estimate for 16 new Mercals, which

2

which I request may be sanctioned, unless the substitution of the weighment system has been determined upon and the requisite Balances can be supplied at once.

3 To avoid delay the Estimate is separately sent up I should otherwise have included it in the Statement of Extra charges for the ensuing Fasly 1268.

Tanjore Collectors Office
Chattoobarah 29th May 1858 } (Signed) H. D. Phillips
Collector

Estimate of the cost of making 16 mercals for the use of the Salt Department in the District of Tanjore for Fasly 1267.

For 384 Seers of Brass at 24 Seers per mercal and at 8 annas per Seer inclusive of the hire of the workman.	Rs a p 192 - - -	
For Stamping 16 mercals at 1 anna per Mercal	1 - - -	
Total	193 - - -	
Deduct the value of about 240 Seers of Brass the 16 unserviceable mercals on hand at 5 annas per Seer	75 - - -

Fort St. George

Bd No. 2507
From the Actg Collr of Madura — }

Sir,

I have the honor to submit my report on the working of the Government Press for the Official year 1857/58, and to enclose the three undermentioned Statements.

No. 1 Account Current of the operation of the Printing Press.

No. 2 Memo of the work done in the Press Office during the year.

No. 3 Memo: shewing the work done compared with the funds available to meet the charges in the Press Office.

2 The cost of all work done for the Collectors Cutcherry as shewn in the Statement No. 2, is in effect but nominal, and such being the case I have not thought it proper to charge it in the Account Current

Current I have only given the payment received Viz. Rupees 205-9-4 for forms &c. printed for other Offices the Court and the Engineers Departments &c.

3 The publication of a weekly Gazette was commenced on the 9th January last and all orders and matters affecting the interests of the Ryots and the Public are published in it from time to time an arrangement, which I have reason to think, is fully appreciated by the people.

4 The Balance in favor of the Press in last year 1856/57 was Rupees 136-2-11. The surplus in this year is Rs 205-9-4. The total saving therefore amounts to Rupees 341-12-5.

5 The sums on account of work done for the different departments are recovered from time to time and

9742 Fort St. George 16 June 1858.

and placed to the credit of the Press.

6 The Press is also open to private parties when not employed for the public Offices.

7 As required in the concluding part of para 4 of Extract Minutes Consultation of Government dated 29th March 1858 No 408 forwarded with the Board's Proceedings of the 28th April last, I enclose two lists one of papers actually printed and the other of papers that might be printed in 1858/59 furnished by the Civil and Subordinate Judges of this station.

C. Story Esqre
Civil Judge of Tinnevelly

Sir,

With reference to your letter of the 25th Instant and its enclosures, I have the honor to inform

inform you that the Proprietor of Mailmanthay Zemindary is the person answerable for the payment of the arrears of peshcush outstanding against the Estate agreeably to the provisions of Section VIII Regulation XXV and Section III Regulation XXVI of 1802 and to para 3 of the Proceedings of the Court of Sudder Mdaulut under date the 17th September 1832, communicated by the Board of Revenue in their Circular Order of 11th October 1832. It appears also that the Proprietor of the Maimanthay Estate continued to pay the Peshcush due to Government and to obtain receipts for the same in his own name up to Fusly 1266. The Estate was attached in regular course on the 19th Instant on account of the arrears due for Fusly 1267.-

Under these circumstances the request of the Guardian of the Minor heirs of the late Chundoolaul is inconsistent with the rules in force and cannot receive any consideration.-

Tinnevelly

9751 Fort St. George 16th June 1858.

In the English Department work to the extent shewn in the marginal abstract has been turned out during the year under review being the value of 81641 Impressions. The Press is praying so well in this Department, that to save time and trouble I ventured, with the view of putting it in a thoroughly efficient working state, to order direct from Messrs. H.W. Caslon & Co. Letter Foundery, London, the additional material to the Amount of about Rupees *268-10-" entered in the accompanying List. I was aided in the selection by Mr. G. Plebst, the intelligent Superintendent of the Mangalore Mission Press.—

Revenue Department	104-3-"
Magisterial Ditto	35-1-"
Sea Custom Ditto	154-4-"
Salt ——— Ditto	17-2-"
Total Rupees	310-10-"

* of this only £25 equivalent to Rupees 252-10-1 has been remitted.

Enc. 4.

3. No Presses, the Colleyom excepted, have hitherto existed in the Malyalum Country, and few foreigners are willing to engage in the service in Malabar we have therefore had to teach and raise our own subordinates, a circumstance which has been a serious impediment to the efficiency of the working of the Press during the year under review.—

Sanction.

9752 Fort St. George 16th June 1858.

4 Sanction will be required for the above named additional orders, as well as for the list of the additional material now appended, with reference to Para 7 of Extract Minutes of Consultation of Government of 29th March last No. 408.

5 The Vernacular Press has been in use during 8 months. The amount of work done is shewn in the marginal abstract.

Revenue Department	939-4-"
Magisterial do.	43-2-"
Sea Customs do.	17-6-"
Salt do.	102-4-"
Total Rs	1102-"-"

No. 2205

The number of impressions amounted to 152098 exclusive of the Gazette. The expense of these few months enables us to judge, that the efficient and rapid transaction of business is greatly increased E.G. Pattahs were completed and issued without a weeks delay, and Circular Orders have been promulgated without the necessity of copying them in the Talook Office The Talook and Village Establishments have been relieved but not so much the Huzzoor Establishment.

English body 6 The weight of our Mulgalum Fount has greatly exceeded what I had anticipated Malyalum types appear to

to be heavier, and the letters more nu:
:merous than in other Vernacular lan:
:guages to which these differences must
in a general measure be attributed -
Further the due proportion of the different
Character &c. has not been so accurate
as might be wished, and we have a
considerable quantity of type which is
rarely used, but which will be kept
to supply the place of the type in use,
as it wears out:

9/30th October N°1154 1856

7 The Government sanction is to the extent of 350 lbs @ 1¼ Rupee per lbs - The actual weight of the supply amounts to 725½ lbs at 14 annas per lbs, value Rupees 646-6-3. The difference of Rupees 208-14-3 requires sanction:

8 The Malyalum type is open and large much of our work consists in ruled Statements, with printed headings - For this, the

the large type is less suited and causes a waste of paper, I have therefore taken upon myself to order 100 Rupees worth of long primer body type for this purpose I had in:
:tended to have paid for this as well as for the additional English type and ma:
:terials ordered, as per para 2 from the Proceeds of the Press but as the Government has directed that Estimates from all Districts once for all shall be procured and submitted to Government, I beg that sanction may be obtained for this also:

9 The District Gazette has been published be monthly since 8 March last and promises to be successful sixty three copies are issued gratis to the Officials of the District &c. There are 318 Private Subscribers on the List and the number is on the increase - It already pays about 66¼ Rupees per Month - It had been my intention to place this Department on a more effective footing by enter:
:taining a competent Manager and Translator and increasing the issue to 4 or more times per Month: Indeed

Manager and Translator Rs 50
Gomastah — 10
Total Rs 60

10 Indeed it has, I think, become indispensible to entertain an intelligent Manager of the Press of this District As it is, the time of one of my best paid Writers is almost entirely occupied in correcting Press, conducting accounts and the correspondence connected with the Press and preparing and translating matters for the Gazette. The working of our Press (the Vernacular has not been in really working order for more than six Months) inclusive of arrears uncollected on the 30th April, left a surplus of Rupees 870-4-0 with every prospect of increase; and I have not the smallest doubt that an intelligent Manager would make the Press pay, so as to realize, besides his salary &c. also a handsome profit, and this with great convenience to the Publick.

Adverting to the Board's remark in Para 10 of their Proceedings dated 1st October 1857 on the expenditure of Printing Paper, I beg to state that it was only a temporary advance Printing Paper cannot be purchased on this coast, and it was therefore found necessary to obtain a supply from Madras, the cost being in the first instance debited to advance, and subsequently adjusted

+ Since collected

adjusted as the paper is used and the price realized.

12 I beg to forward herewith

× No. 1655 the undermentioned Statements.

No. 1 Statement of actual Receipts and Disbursements for 1857-58.

No. 2 Ditto of Work done for the Collectors Office &c.

No. 3 Statement of Job Work.

No. 4 Estimate Shewing the amount of type and other Materials supplied and that are required to complete the Press.

No. 5 Return of the names of officers who are supplied with the Gazette, free of cost.

13 The preparation of the Lists required from the Courts called for in Para 4 of Extract Minutes of Consultation dated 29th March 1858, appears to be attended with some little delay owing to the Courts having to communicate with each other. These will be forwarded so soon as received.

Calicut
3d June 1858

(Signed) W. Robinson
Acting Collector

9757 Fort St. George 18th June 1858

Board of Revenue

Bd's No. 2317
From the Collr of Madras —

Sir,

I have the honor to request the Board's instructions relative to the settlement of this Doule of the Arrack Shops for the ensuing Fusly.

2 The Board were pleased on

To Bd's 30th March 1854

the recommendation of Mr Stokes, to settle the Shops for Fusly 1264 on the Doule of the previous year.

3 The Doule has been continued since, not only because the amount was considered a fair one in itself but also because another auction of the Shops might result in a decreased sum and because, there was not the same necessity here, as existed in other Districts, of testing the amount capable of realization by a settlement of

the

the rent at public auction, as whatever liquor a Shop Keeper sold above his daily Dowle, was procured from the Government store, and tax charged upon it..

Fusly	Dowle Rs	Excess Rs
1263	349503-	229974
64	325236-	7328
65	339028-	29832
66	347221-	56109
67	317643-	153062
	upto 30th May	

The marginal entries will show the Dowle since Fusly 1263 and the amount taken in excess of it.-

4 As Abkarry Rents are now often

N.B. The quantity engaged to be taken by each Shop has been the same given for five years, I did not think but the Dowle has varied in consequense of the rate being altered from 8 anams to present currency and again in last year the odd price being struck off.-

5 it expedient to disturb the settlement of Fusly 1263, but as the fifth year of the rent is about expiring I should certainly have wished to put up the shops to public competition for the ensuing year, did not the following circumstances render this course, in my opinion unadvisable

6 Since the 25th of February, the Commissary General has been unable, owing to the demand for the Army, to supply us with Colombo Arrack and has substituted Batavia Arrack,

7 This liquor being disliked by the

people generally, the Shop Keeper, though taking it, has not succeeded in selling his daily Dowle, and as he has been a severe pecuniary loser himself, I have been obliged to charge him only on the quantity sold..

8 We have therefore lost in our Abkarry Collections as reported in my letter of the 8th ultimo some 10,000 Rupees upto that date by the substitution of Batavia for Colombo Arrack.

9 I have constantly applied to the Commissariat Office for a return to Colombo Arrack but have received only promises of a supply when further imports should take place from Ceylon. Such have occured to a large amount but I have been answered that the Army required it all.

10 We cannot learn how long this state of things is to continue, and as the ordinary flow of business has been disturbed, and the Shops Keepers have been considerable losers already

it

to be such as to render leave of absence for a period of 15 months absolutely necessary for his recovery.

From the Ag. Master Attendant Madras

Sir,

In reply to your letter of the 31st Ultimo N: 1929, I have the honor to suggest that the printed Returns be sent to all vessels arriving in the Roads for a certain period after the day on which the census is to be taken say one month and that the numbers on board those which may belong to the port of Madras be taken into account.

Similar arrangements should be adopted at the out ports through the Marine Board, if as I conclude, the census is to be taken for the whole of the Madras Presidency.

the

The Registers of my Office do not include the names of Natives serving on board Native Vessels, but their number can be readily ascertained at any given time - Nor are the names of native passengers given by the Tindals of Native Vessels.

A register is however kept of the native Crews and passengers on board all other vessels.

No. 109

To G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd No. 2400
From the Collector of Masulipatam } Sir,

I have the honor to submit the following report upon the several representations contained in the Petition No. 1044 of 1858 addressed to the Board by Rajah Nariah Apparoo under date the 16th April 1858, and forwarded to me for report on the 23d idem. †

† Herewith returned.

2 In para 2 of the Petition it

it is stated that the authorities made an express statement of the Kist for Umbeepetta in it (Cowle) as being no more than Rupees 19,000 inclusive of Tangallamoody &c. Villages since created into a separate Estate. I have referred to the Moochilka put in when the permanent Cowle was given for the Nedadavole Zemindary of which Umberpetta was a part, and found no such specification of the proportion of Peishcush payable on Umberpett. There is nothing whatever in the Office to support the assertion. The Sub division by which the present Peishcush of the Estate was determined received the assent of the Commissioner in Fusly 1260 and at that time Petitioner raised no objection.

3 The Petitioner next alludes to certain alleged losses he

he sustains from the default of certain Mokasa and Aggrahar Villages. The Sub Division by which the Peishcush, upon Umberpetta was determined, was based upon the actual collections of the estate. Though the demand on these defaulting villages was Rupees 7202-10-6, the actual Collections from them was only Rupees 4125-0-8 and it was this last sum and not the first on which the present Peishcush was calculated so that in reality the petitioner has no ground of complaint on this score these Villages have long been poor and unable to pay the heavy Quit rents demanded of them nor could the Zemindar make them pay when he held them in his own hands. On the reversion to Government of the whole of the Nedadavole Zemindary in Fusly 1252, all the arrears which had accumulated upon

upon these Villages to nearly Rupees 70,000, were remitted for it was hopeless to attempt their recovery.

4 In paras 4 & 5 Petitioner speaks of the insubordination of his Ryots and of the adverse character of the season of Fusly 1267 both of which are true to a certain extent. The Ryots complain of his exorbitant demands as compared with that of Government in the surrounding Talook of Ellore, and Petitioner pleads that he is obliged to make such demands because his Peishcush has been fixed at a high standard although the settlement of the Peishcush was made on the same terms as others in the District yet the estate being small and not capable of much improvement, it is by no means as valuable as some others and the clear profit is but small after paying all

expenses, as to the season, it was adverse in the extreme. The same report that was made of it regarding the Ellore Talook by my predecessor, applies with equal truth to Petitioners Estate also. But it is the fundamental principle of the Permanent Settlement that the Petitioner "shall pay in all seasons the amount of the permanent assessment, that remissions shall cease and never be reviewed.

5 In para 6 a claim is brought forward for arrears of Maturpha remission due to his Estate as petitioner never pressed his claim for the item it has not been admitted upto this time. In the late Commissioners Proceedings 25th January 1851 No. 37 communicating order of Government 22d. idem sanction was accorded for a Maturpha remission of Rupees 1457-2 per annum for the first division

Nevadavole

Nedadavole, consisting of Nedadavole, Beherzully and Umberpetta, the last of which alone is now in the possession of the petitioner - The proportion of the said amount due to Umberpetta is Rupees 475 - 6 per annum, and this has been allowed to run into arrears for 7 years from Fusly 1261 to 1267 I now beg that sanction may be obtained for the payment of the arrears on this account amounting to Rupees 3320 - 3 and for its future disbursement every year as in the case of similar Estates -

6 In the concluding paragraph the Petitioner proposes to pay Rupees 8,000 and prays that the remainder may either be remitted or allowed to be paid in four annual instalments after crediting him with the arrears of the Moturpha Remission Rs 10,586 - 11 - 1 have already been paid into the Treasury and as shown above, a further sum of Rs 3,320 - 3 will be placed to the credit of the estate when the orders of Government are obtained for it leaving an inconsiderable balance of Rs 2,853 - 1 - 11 which I feel sure can be paid up without any real difficulty and it is much better that no encouragements should be given to any Zemindar to trust to such consideration being shewn him -

Masulipatam Collr's Cutcherry 3d June 1858 } (Signed) W. Kroos
Collector

To

No 114

To G. L. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

B. No 2548
From the Collector of Masulipatam } Sir,

Para 1 In compliance with the instructions contained in Extract Minutes Consultation dated 23d June 1857 No 706. I have the honor to submit a report on the deductions from their Peishcush to which the Zemindars and proprietors seem entitled if the right of levying fines for cattle trespass is taken from them -

2 The Statement that accompanies this report gives all the information that is obtainable from the old accounts - you will observe that no distinction is made between fines for cattle trespass, and other fines - I will therefore first describe the three kinds of fines most commonly levied - all of which were it seems entered in the Permanent accounts -

3 The first is the cattle fines, of which

which no more need be said, the next is the fine for corn thefts- this is a very profitable source of revenue as for each Seer stolen a fine of Rupees 4 is collected- A similar fine was levied by Government when the sharing system was in vague in this District, and without some such stringent rule, and certain punishment, it would be impossible to keep the heaps, and grain from being plundered to an enormous extent- from all I can learn, it would be impossible for any Proprie: :tor to carry on the sharing system without this power..

4 The third is the fine levied on Naikwadies, and Village Moon: :siffs, and other servants for neg: :lect of duty of all sorts, and kinds- These are no doubt strictly speaking illegal, + it will place the Collector in an anomalous position if, after tacitly admitting their collection, he was called on as Magistrate to punish

punish the Proprietor for attempting to enforce the payment by confining or otherwise, interfering with the liberty of a recusant servant- Still as the Village servants are paid by the zemindar there is no reason for interfering actively between the parties, they may be left to settle their own private disputes as domestic servants, and their Masters it being understood that any attempt to levy fines by force, or ill treat: :ment will subject the guilty party to punishment.

5 The amounts of these fines res: :pectively, it is impossible to ascertain but it is well known that the tax on corn stealers is the most productive, and that on Village servants the least so- the fines for Cattle trespass may therefore be taken at an average of 1/3 of the whole amount entered in the Permanent assets, and about Two thirds of this would give the sum noted in the margin, as the remission to be made yearly in the Peishcush paid by each Zemindar, or Proprietor-

+ Rs. 126

The

Fort St. George 17th June 1858.

The principle on which this is calculated is the same as that on which the remission to Zemindars on account of Moturpha was granted by Mr Russell in the year 1821 Vizt as the whole of the assets of the Circuit Committee is to whole Peishcush so the portion of assets now debarred from collection by the Act is to the portion of peishcush to be reduced in consequence. The remission is very inconsiderable in all but two Estates. Weyoor Zemindary Rupees 55 and Vasumtamada Rupees 37. In the other Estates it amounts only to Rupees 34 for 13 Estates, and it is hardly worth while granting it unless the Proprietors insist upon it. Without reducing the Peishcush on this account, credits may be given to the Zeminders at the end of each fusly as is now done for Moturfa remission.

Vide Report to Board 1st May 1821 No. 28

There

Fort St. George 17th June 1858.

There are some other Estates as shewn in the accompanying statement in which Cattle fines Pea. appear from old accounts to have been levied, but as no mention of this is made in the Permanent assessment account, it is reasonable to suppose that they were not included in the assets, and consequently now call for no remission.

I know of no reason why any one part of this District should be excluded from the operation of Act III of 1857 more than another and Government having already passed endorsements on several Arzies praying that it be not put into force here, and and decided that the same is just and necessary, no further remarks appear to be called for on the 4 Petitions† on the same subject which are sent herewith.

No. 316.

To, The Acting Secretary to
Government
Fort St. George

Sir

I have the honor to sub-
mit the report called for in the
communication marginally noted
on the subject of neglect or delay,
if any in making repairs to Tanks
and

and other irrigation works under the present system of Maramut.

2. The lateness of this communication has resulted from my wish to receive in the usual course from the District Engineer, the "Progress reports" intended by the new system to supply Heads of Districts with a knowledge of what the professional Executives have been and are doing within the limits of each Collectorate.

3 As however, it has not been in the power of the District Engineer as yet to furnish me with those reports for the period during which he has had the Executive in his hands, I placed myself in communication with my own Shasildars in order to elicit the requisite particulars; but the new system does not enable those Officers to glean any details of what is going on in their respective Talooks unless through the conjectural

From 1st Jany 1858.

estimates

estimates which Cummums may make of works they see in progress. but with which they have no concern.

4. From the 1st January last up to the 30th Ultimo. the Miscellaneous irrigation and other works actually sanctioned for this District amounted to Rupees 228,642.

5. The aggregate of the sums which more indented for by the District Engineer for the execution and which my local Treasuries were prepared to pay to him or to his Execution Subordinates, was Rupees 155,867.

6. The total amount disbursed to the Executive department during that period was however Rupees 87,823. but the expenditure actually incurred from 1st January to the 31st March last is stated by the District Engineer to have been only Rupees 26,213—9 I have no information from that Officer of the pecuniary result of the works which may

Disbursed	26213	
Surplus	61610	

may have been executed by his Department in April.

7. The Salaries of the Public Work Department officers and its office contingencies for the four months under remark. so far as my accounts at present show were Rupees 26675—3.

8. During a corresponding period of four months in the past years. when the executive was under the Collector the value of the works completed was Rs. 140,531—9—9. It would have been more had not the supposed near approach of the time for the transfer to professional Officers, led as far as possible to those works not being commenced which it would have been impracticable to bring to a close before the 30th April. The amount paid for Maramut in the first four months of 1856—55—and 54 was respectively Rs. 150468 — Rs. 191497 and Rs. 219125 including of course such new works as were then in progress.

The

9 The Transfer was not eventually effected. but the subject had been continually upper most and we were expecting it to take place though it did occur only on the 1st January last so that it cannot justly be urged that the Public Works Department suddenly received an unexpected charge.

10 Under the present system complaints of delay on the part of the Public Work Department officers ought not. I believe. to reach me, as I have no power to receive them, and when after the transfer. Merassidars did come forward with requests or reclamations, I referred them systematically to the District Engineer with an intimation that if they were not satisfied with that officers decision they should appeal to the Chief Engineer at the Presidency I am however bound to state. that when, time in the week. I personally received Petitions and as far as I can redress

redress grievances on the spot. I am as frequently applied to in respect of banks. Channels and other irrigation matters. now that I have nothing to do with them as I was. when the Maramut was entirely under Control by revenue officers. The impression of the Merassidars seems to be that to get that done which requires doing is a hopeless affair and in truth. seeing the insufficiency of the agency substituted for that of a Collector and his numerous subordinates. I do not wonder at the result and the depression which it creates.

11. As respects "neglect" by which I conclude the Government to mean neglect by the Public works Department to perform work actually necessary. I can only state that a Collector seems to have a very narrow opening for learning what the Executive officers. do or do not do. A

Collector

Collector is to be furnished with a copy of the Progress report submitted to the Chief Engineer but as to the date of its receipt in the office of the Collector. the latter lies at the mercy of the District Engineer and as this report is the only means by which the Collector can officially and openly ascertain what work is proceeding if there be a delay of a few days beyond the date now prescribed for its despatch to Madras its despatch to the Collector becomes comparatively useless.

12. The people of the District do not as yet appreciate the advantages of the new system and so far as I can observe and learn seem to despair of their landed property retaining for any length of time the value which it now bears I must candidly state that I do not myself see how the expected depreciation

depreciation is to be avoided if such expenditure as was formerly incurred as a yearly disbursement was necessary and the rate of progress by professional and scientific agency, shall not exceed what we have seen executed since the transfer on the 1st of January last, still as the District Engineer was entrusted with the entire executive of the province only on that date. he may fairly urge that we have not yet had experienced enough of the working of the present system and may justly argue that the innovation under his sole guidance on what was being well and satisfactorily done under the Collectors. subordinates is not so palpably unsuccessful as to support the belief that the complaints which appear to have reached the Government are justified by the condition of maramut affairs in Tanjore.-

However

13. However this may be, so far as Tanjore itself is concerned, I have ever felt and still feel that the transfer was a mistake, or at the least a measure of very doubtful policy unless it had been made to an establishment of a strength and cost which I apprehend the Government finances could not permanently support with Justice to other Districts.

14. In a communication of the marginal date, I have separately submitted my views as respects the emergent repairs of lines of communication in this District where the roads cover 1200 Miles of ground.

12th May 1858 No. 247.

15. I am satisfied that in the course of time the Government will become aware of the disadvantage of not leaving the roads as they have been for half a century under actual superintendence by revenue officers and

9801 For. St. George 17th June 1858

and general control by the Engineer Department and I am equally satisfied that we shall soon become alive to the imperative necessity of empowering the Collector at once to cause repairs to be executed at the salt pans and salt Depots whenever they are wanted whether periodically or emergently.

16. There is indeed a radical defect in the present system of Public Works. Viz.th that those entrusted with their execution are also the examiners and approvers of the work they have done. Under the old system the Collectors subordinates carried out estimates which professional men had prepared. The Civil Engineer or his Deputies then went their rounds and the result of the labors of the Revenue Department Officers was subjected to a strict, zealous and I may add, jealous scrutiny,

scrating by a branch of the public Service whose duty almost required them to find fault.

17. The records of every Cutcherry in the Presidency may be referred to for proof that the scrutiny of the Engineer Department was not a mere form and that it was unceasingly and unsparingly exercised.

18. This check had a most salutary effect on Public works. as. whatever the bearing of the system in other respects those revenue officials who had the execution of Estimates acted with the knowledge that sooner or later. all that they had performed would undergo a thorough examination at the hands of the professional member of another Department who were certain to expose whatever was wrong or defective, and perhaps commend what was deserving of praise. The fear of

9801 Fort St. George 17th June 1838.

of punishment and the hope of reward however faint and distant created by such a contingency did I think much good, but those motives of conduct appear to be wanting on a material degree in the new system. Under it, indeed, servants of the Lower Subordinate grade have those of the next appear grade above them and above both again are executive officers with defined ranges of the country under their supervision. The Subordinates of the present day are however with changed official designations. and enhanced salaries only the former Maistries and Overseers whom the Collector and his Thasildars were want to employ. If executive Officers of admitted scientific or professional acquirements could always personally superintend or inspect each

Under it. indeed. servants of the Lower Subordinate grade have those of the next appear grade above them and above both again are executive officers with defined ranges of the country under their supervision. The Subordinates of the present day are however with changed official designations. and enhanced salaries only the former Maistries and Overseers whom the Collector and his Thasildars were want to employ. If executive Officers of admitted scientific or professional acquirements could always personally superintend or inspect each

each work during its progress or or even the more important of works only within their respective divisions. the necessary restraint upon the subordinate grade of officers in the performance of the important duties entrusted to them would not be so sadly deficient: but with a tract of country ar-

	Total	3720

ranging in this comparatively small District nearly 750 miles under each Executive officer it seems hopelessly and physically impossible that there can be exercised a proper effective supervision over the expenditure of the public money. This is now practically left for disburse-

to a class of inferior persons acting without the fear of that wholesome check which existed under the old system.-

19. Apart from this important defect in the present arrangements the strength of the new establishment costly as it is seems me to be altogether insufficient to meet the calls made upon its time and labors. To take an example the Talook of Puttoocottah comprising an area of 1040 square miles. is the largest in extent in the District and is wholly dependent for its cultivation on the falling rains. It has 282 Government Tanks within its limits of which no less than 103 have been more or less injured by the late unusually heavy rains and floods the number of breaches in the damaged Tank Bunds being stated to me by the Tasildar at

Coll. to Govt 12th May 1858. No. 247.

4th May 1858.

at 1/12. All the important lines of communication in the Talooks have also been more or less seriously cut up and damaged and yet for the duties of this Talook there had been permanently located in it prior to the late storm only one sub overseer on Rupees 25 a month. Further it had received since the 1st January only one visit from a superior officer of the Department which visit too was of only one day, the officer in question being a native Sub Engineer who was formerly the Sub Collectors' Maramut Superintendent. In mentioning this I do not impeach the arrangement for I conclude that if there were more Superintendents there would be more visits and that of these the result would be more work estimated for though still its execution might

9801 For. St. George 17th June 1858.

might be of doubtful celerity. 20. To visit and inspect in the first place the sad havoc thus caused to work scattered over 1040 miles of country, to prepare estimates and carry them out before the beginning of the fast approaching cultivation season, we have 1 Sub Engineer 5 Sub Overseers and 5 Lascars of the whole available force of the executive range of 3 Talooks of which Puttoocottah is one were to be concentrated on this one, but such application of professional strength is I apprehend out of the question, as the establishment now detailed have to look after the important River irrigated Talooks of Mannargoody and Tritrapoondy, besides that of Puttoocottah, the two former being divisions which comprise an aggregate area of not much less than 800 square miles. Nothing more

more I consider, than the mere mentions of these facts, is necessary to shew the clear impossibility of 5 Sub Overseers with a Sub Engineer at their head, attending to the execution and superintendence of works in 1800 miles of country where 3 Tahsildars with all the available force of their Taloks consisting of about 1200 Servants, formerly supplied their place, and where under the old system more than 400 persons would have been ready to be turned out to repair damages such as those which the rains have lately occasioned.

21

It is not surprising that not one of the damaged Puttoocottah Tanks has so far as

9801 For.t St. George 17.th June 1858.

as I am informed been taken in hand since the heavy rains that fell at the beginning of this month and it will be nothing unexpected if the cultivation and Revenue of the Talooks for the coming Fusly are seriously affected It is not intended in these remarks to cast any reflection on the officers of the Professional Department; for nothing is wanting in the devotion and energy of those European members whose labors have come under my personal observation and Sub Engineer Achoota Naidoo is evidently a zealous pains taking man but arrangement as they now exist clearly require of the superintending heads for more than can possibly be done by themselves or by the agency at their commands.

22. As a necessary consequence of this insufficiency in the

the strength of the Public Works Establishment temporary hands are, I believe, called into requisition to superintend road and other works.

23. It will be for Government to consider whether material of this Kind will supply trustworthy agency seeing that such men have nothing to lose and from the uncertainty of their position would necessarily feel disposed to make the best of their temporary incumbency.

24. It may be alleged. I am aware. that under the old system also temporary Maistries were taken into pay and remunerated from the sums sanctioned for the works to execute which they were appointed. No doubt such was the system. we then however, had to superintend and check

9801 Fort St. George 17th June 1858.

check them, a far more numerous body of Government servants in permanent employ than the District Engineers can make available for such a purpose and in the Sequal there was that dreaded examination and scrutiny by Engineers subordinates who had had no hand in nominating or selecting such temporary assistants.

25. It has been contended, I am aware also, that the native Tahsildars and their subordinates generally are averse to the success of the new system. which deprives them of their former profits on Maramut outlay and I am told that certain letters to this effect have appeared in the "Examiner" dated Tranquebar; known to proceed from an East Indian of the Public Works Department whose practice it is to write up any branch

of

of the service to which he may be attached for the time being. The feeling is probable but another one has been created by the transfer Thasildars now feel secure in office whereas formerly they never know when or whence a blow would not fall on them in connection with the one or the other of the Maramut works completed or in progress in their range and my own impression is that the transfer of the Maramut is regarded by them all as an immense blessing and relief. It will not, I conclude be denied that a certain percentage is supposed to have reached the pockets of the Native agency unavoidably employed by a Collector on all occasions of public work disbursement and rumour puts that centage at 10 per Cent assuming this then

E.R.

9801 Fort St. George 17th June 1858

as a fact. I see nothing in the new system which will prevent the continuance by its native subordinates of which has cast so much odium on revenue servants at any rate the Public Work Department Native agents as they now stand share that odium for they are the men who served under the Collector instead of the District Engineer to whom they are now subordinate.

26. There might too, have been in advantage then which cannot at present exist. If a Tahsildar retained for himself and inferiors 10 Rupees from 100 due on estimate carried into execution it was in very rare instances I apprehend, that he did not by his influence so arrange that the Meerasidars and their Coolies should execute work for the full value of 100 Rupees

The

The Public Work Department native subordinates will be unable if they kept back the 10 per cent to make good the deficient work, so that in the long run as it appears to me the Government will lose in two ways instead of in one. I assume in this arrangement that what was done formerly will be done again for it is not likely that by the mere act of an official "Transfer" we should now be working with all that is pure and honest and that Maistries at present called Sub Overseers should forego their perquisites, because they receive 35 instead of 14 Rupees a month or that Road Ameens elected for that work from hungry expectants for employment should be true to their masters in the Public Works Department when they were not

9801 Fort St. George 17th June 1858

not so to the Collector and his Chaseildars.

27. To make the assertion would be to declare that greater results are achieved by fewer superintendents and that more important consequences arise from diminished means of securing them.

28. Enclosed I beg to send a copy of the Sub Collector Mr. Cadell's views of the question involved in the Government requisition under reply.

29. The accompanying table will exhibit Tabor Kuar in a concise form the value of works performed by the Collectors' agency in the first four months of 1854-55-56 and 57 contracted with that done in the first quarter of the current year by the Public Work Department as now constituted. But I should explain that the supposed cost

cost of the latter is drawn from estimates made by my own Pharsildars solely in communication with the officers of Villages where the Public Works Department have work under progress.

30 The District Engineer as before stated estimates the value Para 6. of the whole of the works done by his departmental Officers for 3 months of this year at Rupees 26,213.

No 50

To A. D. Phillips Esqr. Acting Collector of Tanjore.

Sir.

10th Febr. 58 20th April With reference to the orders of Government noted in the margin I have the honor to submit my report as regards the Division under my charge.

2. In the repairs of River Banks

9801 Fort St. George 17th June 1858

Banks and in works connected with the general irrigation of the country, works are in progress on the Coleroom Bank at Sittamully; in the Codamoorty and Poottaur Rivers in the Vulunghiman Taloork and the strengthening and improvement of the South bank of the Coleroon in the sheally and Coottalum Talooks. has I believe also been carried out. with the exception of these and some small works in the Mannyar river, I am not aware that any thing has been done in the other Riviers or in strengthening those places where breaches have occurred. some of these works are of very urgent nature such as the breaches in the Vinnier River in the limits of Coloor and yeroomapadoogary and the widening and straightening of the river at both these places. The banks of the Vettaur in the Village of Andiechmungalam in the Vulunganan

Taloork

Talook and those of the Munnjar in the Village of Malacauttoor. are also in my opinion in a dangerous state.

3. Much allowance is however to be made for a new Department which has only existed on an independent footing for 4 Months and has had doubtless many difficulties to contend with, I am however strongly of opinion that the Department of Public Works as regards this District is quite unequal to the amount of work to be done and this on 2 grounds, 1st. because our working season comprises only 5 Months 2 of which are almost taken up with the harvest and 2ndly because the means or rather the men to make an efficient department are not forthcoming.

4. Of the advantages to be derived from a thoroughly trained professional executive I conceive there can be but one opinion but a reference to the List of parties now comprising the Department of Public works in this District will I think shew that the change to what is termed a professional executive has

9801 Fort St. George 17th June 1858

been after all more a name than a reality. The Department although enlarged and extended; has for the most part for its subordinate agency. the very same parties who were formerly employed as Maistries. Maramut monigars. Goomastahs and apprentices. Many of the Maistries / I speak of those I know / were only employed by us simply because better men were not to be had. but which under the control both of the professional and Revenue Departments and with the active superintendance of the Local officers the works were on the whole fairly and creditably executed. now however that the same subordinate Agency has been raised officers of higher emolument and responsibility. and has been at the same time removed from a more rigorous control, the actual execution of works is for the most part turned over to temporary Ameens and Peons / entertained as I understand by the Overseers and Sub Overseers / and who as might be expected. are as ignorant as the Coolies they profess to superintend. The consequence is that while the works are infinitely more expensive; they are not only not better executed, but in my judgment and after some years acquaintance with Maramut. not so well as they were before the transfer took place.

[illegible]

the jurisdiction from one Talook to another.

The Village is nearer to Cunnanore (the Tonniore Talook Cusbah) than to the Town of Caulgoody And of consequence I would not advocate any alteration.

4 The following are the hamlets of Trichinopoly.-

Moovaroyenpolliem
Coundenputty
Mannulpolliem and
Iyempolliem.

With reference to Illipoor and its numerous Villages, I must explain the Government are in error when they suppose that the Illipoor Mahaganum is surrounded by the Madura Province and thus isolated from the Conad Talook Illipoor is almost enveloped by the Rajah Tondimans Territory.

On the North, East, South, and partly to the west is all the Tondimans Country - To the South West

West Manapara Talook (now of Trichinopoly) abuts and therefore no Villages of Madura can possibly be exchanged with Illipoor.

6 I submit that Illipoor must remain as it is, isolated from Conad.-

No 89

To
G S. Forbes Esqre
Secretary to the
Board of Revenue.

Sir,

With reference to the accompanying Copy of correspondence noted in the Margin, I have the honor to request the Sanction of the Board for putting up to auction the upper portion of the land shown in the enclosed plan and applied for by

3d No 2140 From the Ag Collr of Combatore
+ From J Rohde Esqre 18th Decr 1837
To Do 12th May 1838
From Do 13 Do "
From Do 15 Do "

by I Rohde Esqre at Ootacamund.-

2. The total extent of land applied for marked A A and B in the plan, is 5 Cawnies the lower portion of which B measuring one Cawny and 20 Grounds borders immediately on the Lake and under the permission of Mr Thomas, Mr Rohde has already raised a plantation on it. The sale in public auction of this portion of the land appears to me objectionable because if any other party competes with Mr Rohde and this is not at all improbable and becomes the purchaser of it - I fear that it may eventually get built over with not very picturesque Stables or Cowsheds, which would sadly interfere with the prospect of the present drive. This land should not in my humble opinion be given to Mr Rohde or any body else but every encouragement might be given for the planting out of Trees &c thereon :-

The

3 The portion on the lower part of the road now objected to might be made up in quantity to the west* of the upper land applied for and to which there appears to me on a personal inspection to be no objection The whole portion therefore to be put up to auction should the Board approve of this exchange would be as before 5 Cawnies. The upset price thereon as shown in the enclosed specification is Rupees 28-10-4 calculated at 5 years Quit Rent at 1-2-4 per Cawny per annum

* marked CC

4 I take this opportunity of forwarding a Sketch showing the borders of the Ootacamund Lake - from which it will appear that a large portion has been already occupied and in some instances covered with very inferior buildings huts

Fort St George 17th June 1838

huts &ca that which is left I am not disposed to recommend to be granted to any one hereafter and with a view to maintain what still remains of the boundary of the present drive I request the orders of the Board prohibiting any further grants of lands on the Margin of the Lake.-

To

E B Thomas Esqre
Collector of Coimbatore

Sir,

I have the honor to state that having for the sake of sheltered planted parts of the publick ground sketched in the annexed plan I am desirous of securing it on the usual terms both with the view to the

Fort St George 17th June 1838

maintenance of the plantation and with that of its extension on the usual terms.

Coimbatore 18th December 1838

/Signed/ Rohde.

No 127.

To

I Rohde Esqre
Ootacamund

Sir,

1 With reference to your letter of the 18th December 1837 I beg to acquaint you that there is a public objection to your having that portion of the land applied for by you which borders immediately on the lake.

2 If such does not happen in your time yet it may eventually get built over with not very picturesque looking stables or Cowsheds.

3 This would in my opinion sadly interfere with the beauty of the present drive and I feel indisposed for these reasons to recommend the lower portion of the land applied for by you.-

I

9809 Fort St George 17th June 1838.

I shall however be happy to forward your application for the whole of the upper portion for the approval of the Board subject to the usual conditions of its being put up to Public Auction.
