Revenue Department dated 18th June 1858

Referring through the Board to the Collector of Chingleput for his immediate report on the points therein specified, a letter with its enclosures from the Chief Engineer relative to the terms under which the Civil & Architects Department is at present supplied with [illegible] Chunam.

(See No. 1156 in Separate Volume)

No. 73

To
G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

With reference to the Sub Secretary's letter of the 3d Instant No. 1597, I have the honor to acknowledge the receipt of 2 pairs of Scales and 4 Chubbs locks.

B. No. 2078
From the Pd. Asst. Collr. in Charge of Ganjam

Para 1

2. There appears to have been some mistake regarding the scales required for the Treasuries in this District 2 scales or patent Balances capable of weighing 1000 Rupees and 2 of

of Smaller Size one of each for Chetterpore and Chicacole respectively are required 1 pair of scales at 2½ Rupees each is therefore returned and the price of 5 Rupees being deducted, a Bill for the balance Viz.t Rs. 41-8-0 is enclosed and I have the honor to request that Scales or Balance of the large Size Viz.t capable of weighing 1000 Rupees and as accurately as possible may be furnished as soon as possible.

No. 84

To
G. S. Forbes Esq.re
Sotary to the Board of Revenue
Stort St.a George

B.d R.d 2355
From the Asst Coll.r of Ganjam

Sir

With reference to para 3.d of the Extract from the Proceedings of the Board of Revenue under date the 16.th November last. No. 3995 I have the honor to report that the 8 villages classed as uncultivated villages in the Jamabundy Report of this District for fusly 1264 belong

to the Dimchagidatolo Mootalwin Goomsur. This Mootalw consists of 29 Villages and was for some years the Jaghir of Sama Bejeyee Bahadur Bukshe the late Chief of upper Goomsur who forfeited it on account of his complicity in the Goomsur disturbances of 1847. 21- of the Villages of this Mootalw pay revenue but from the remaining 8 the only income derived is the Jodi or enam lands held by Samustan paiks and Moturpha, for all Government land is uncultivated from want of Jerayah Ryots It will thus be seen that these 8 Villages could not be placed in any of the classes existing in this District, Viz the Ryotwaree Asst. Mootalw Jaryand Amany.

2. With regard to para 7 of the above mentioned Proceedings. I beg to state that the recoverable old balances as mentioned in the Jummabundy Report amounted to Rupees 209-9-11 which was reduced to Rupees 131-9-11 during the ensuing fusly 1265

In

Fort St. George 19th June 1858

In Fusly 1266 Rupees 81–4–– more accounted for having Rupees 51–5– to be realized during the current fusly 1267

Sir,

Bd No. 2369
From the Collr of
Rajahmundry

With reference to my letter of the 27th March last, I have the honor to report that the sale of the abkarry Farms for the coming five years was conducted by me at Cocanada on the 12th Instant according to advertisement.

2. The accompanying Statement exhibits the highest bid for each Talook and the average basis for the last five years as

Fort St. George 19th June 1858

Fusly
as well as for 1267 From this it will be seen that the biddings of every Talook are higher than the rents for the current Fusly with the exception of Rajahmundry for which no one was found to bid more than at present paid.

3. The total annual increase is Rupees 28650 above the basis of the current Fusly and Rupees 3884–10–5 above the average of the last five Fuslies.

4 The usual deposit of Rupees 4–2–8 per cent was made at the auction and the parties have agreed to make the necessary deposits and tender the requisite Security if the Same be completed they will be put in possession of these farms on the 1st July.

Signed A. Pinnix
Collector

Fort St George 19 June 1858

appearance of defending myself which would be disrespectful to Government and unjustifiable to the public.—

3. I must beg the Board to remember that before I had been in charge of this District one fortnight, I wrote confessing my ignorance, and soliciting instructions again on reading the Proceedings of Government dated 4th August 1857 regarding the Rajahmundry District. I urgently asked for positive orders, so that all my errors have arisen from an inability which I openly avowed to comprehend the wishes of Government. I trust the Board will observe that I am no where charged with disobeying or indeed misinterpreting definite orders of Government in

4 Para 33 of their Proceedings I have given a

See letter dated 17th Augt 1857.

See letter dated 28th Nov 1857.

Fort St George 19th June 1858

a final order, I feel fully justified in making my explanation as short as possible.—

The discrepancy alluded

5. to in para 4 arose from the Bahargully Purgunah being accidentally omitted in the Table marked B.—

6. With reference to the remarks in Paras 10 to 14 I beg to explain the Pootty of land there alluded to is 10 Acres 24 Koosums, this will make a considerable difference in the rate of rent per acre— for instance land paying 40 Rupees a Pootty, pays 3— 12— 0 an Acre and if 2 Rupees water rate be added the rate 5— 12— 0 is in my humble opinion more than a

Fort St George 19 June 1858

a full average assessment
of the Tanjore "where water never
"fails and roads are by Com
"parison good and the Coast
"is at hand for export. The
"land rent averages under Rupees
"1 3/4 an acre."

See Commrs Letter No 2 report Para 3/13.

7. With reference to para 6 it is my misfortune that I have not made myself understood, my report shows there was no delay in this District in introducing a water rate on dry land converted into wet, altho' the Commissioner Northern Circars' Proclamation dated 24th August 1854 assured the Ryots they would be allowed for 2 years to enjoy the extra water, without paying for

Fort St George 19 June 1858

for it, but it was considered that the benefit resulting from new irrigation to the usual wet lands of a Village, should be prohibited in the increase in the rental of the Village, and I unfortunately omitted to show how the wet lands of the District have contributed towards the expenses of the irrigation works.

8. I now annex a Memo showing results of no small moment, because of the permanent character of the additional revenue they exhibit.

Comparative

9876 Fort St. George 19 June 1858.

9 With reference to para 19 it is due to Mr. Chase to explain that Mr. Fraser's order was never sent to Pentapaud Taluk that when Mr. Chase reached the Taluk the crops were all harvested and the Ryots were then very unwilling to pay a sum of their liability to pay which they had never been forewarned, and they well knew it to be very much more than their neighbours residing in the Sub Division of Rajahmundry who are said to pay 3 Annas an Rupee I can assure Government with reference to para 27 no grain is ever exported from Ellore.

10 I trust I have now furnished all the explanation absolutely necessary on a subject which the definite order of Government has placed beyond discussion.

Masulipatam

Signed / F. B. Elton
Collector.

9879 Fort St. George 19th June 1858.

No 95.

To,

G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George.

B" No 2573
From the Collr
of Nellore.

Sir,

I take the opportunity of the transmission of the Statement of Extraordinary expenditure during the past 5 years to bring to the Board's notice the fact that the Wet land Revenue of this District is seriously imperilled by the utterly inadequate amount which has been allotted for repairs during the present official year.—

2. I fear it is impossible for me to convey an adequate idea of the devastation among the works of Irrigation effected by the Cyclone of November 1857. The Tanks were breached literally by hundreds, while numbers of others received more or less injury. The wet land Revenue has fallen about Rs 3,00,000 which is chiefly attributable to this cause. Under these circumstances the repair of the tanks, for the preservation of existing revenue, appears the first want of the District.—

3. I beg to refer the Board to the copy of my letter to the Secretary to Government dated 2 March 1858 which was

Fort St. George 19th June 1858.

From District Engr. to Colln. April 27th 1858
From Collr. to Chief Engr. May 8th 1858 Co. Mem. Con. June 1st 1858

was furnished on a form like enclosure and to forward copies of the correspondence noted in the margin annually soliciting an addition of 1 Lac of Rs. to the amount allotted for repairs.—

4 The ordinary Estimates received up to this time amount to Rs. 1,71,306, which the amount entered in the Budget is but Rs. 77,100. Lt. Mullins, a remarkably active & intelligent Officer, entered 2 Lacs of Rupees as the amount that would probably be required, which was cut down to the sum mentioned, or considerably less than half, in the Central Office, on the grounds mentioned in Paren 3 of the orders of Government accompanying.

5. A three years average may be good rule under ordinary circumstances, but can be no criterion of what is required in a District which has been devastated by such a Hurricane as that of last years.—

6. The estimates alluded to amounting as above mentioned to Rs. 1,71,306/ provide for the recovery repairs to 399 Tanks, which were either breached, or severely damaged by the storm, including some such works as Salingal chs & Sluices. The Revenue under these Tanks is 2,20,000 Rs. a considerable portion of which will be risked if they are not executed. There are besides 177 breached Tanks with a Revenue of 2,50,000 Rs. for which repairs to some extent were performed in the last official year, but some of which would require further repairs to strengthen them, & put them in a state to last and the next Monsoon.—

The

Fort St. George 19th June 1858.

y. The cultivation season has already commenced, and repeated freshes come down the Pennar, it is therefore of importance to the interests both of Government and the people that no time should be lost in placing the works of Irrigation in an efficient state of repair.—

Millore, Collectors Office

No 867

To

J. B. Elton Esqr

Collr of Nellore

Sir

In fowarding for sanction a Supplemental List of ordinary Estimates for 1858/59 I have the honor to call your attention to the fact that Rupees 77,400 only have been entered in the Budget for the irrigation Repairs of this District & that the Estimates already amount to Rupees 79086 while for the Nellore Range which contains by far the most important irrigation works in this District but very few Estimates have as yet been received.

2 When sending my Budget Statements to the Chief Engineer I entered 2 lacs of Rupees as the amount that would probably be required, & this sum was disallowed & the item above mentioned inserted It is not necessary after the extended correspondence which has taken place to say any thing more Regarding the State

9884 Fort St George 19th June 1858

State of the irrigation works generally & to any one acquainted with the District the amount at present allowed for repairs is palpably is insufficient & I would suggest that unless it be the intention to abandon more than half the Wet cultivation for the next Fusly, Government be requested to sanction 1 lac in addition to the Sum entered in Budget Statement No 3

Camp Koilcoor 27th April 1858

/signed/ John Mullins. Lieut & District. Engineer Nellore

To. The Chief Engineer

Fort St George

Sir I have the honor to forward copy of a letter received from the District Engineer calling my attention to the inadequate allowance entered in the Budget of this year for the irrigation Repairs of this District and to request that you will forward it as the circumstances admit with the following observations for the consideration and orders of Government.

2 The subject is one of extreme importance, both as regards the Government Revenue and the interests and welfare of the ryots and of the community generally who are dependant for supplies of food and what is raised in the District.

3 It is well known that Nellore Suffered most severely from a terrible Cyclone in November last, which has been specially brought to the notice of the Government of India in the Report accompanying the present years Budget But the irrigation works were even previously to this lamentable occurrence in a very imperfect

state there had been a hurricane accompanied by an almost incredible fall of rain in the preceding year breaching upwards of 50 tanks in one taluk and circumstances alluded to in my Report to the Secretary to Government In Reply to the Circular of the 10th of February 1858 had presented the ordinary Repairs being fully carried out before the disastrous occurrence of November 1857.

I took that opportunity to recommend strongly that the amount to be allowed for Irrigation Repairs during official year, now Commenced should not be limited to the average of the past 3 years the circumstances in which Nellore is placed being quite exceptional & I now beg to support the District Engineers recommendation that one lac of Rupees should be sanctioned in addition to the amount entered under this Head in Budget Statement No. 3 with the view of preventing the Serious loss of Revenue and other disastrous consequences that must be anticipated Should this amount be limited to the Sum.

I have

the annual meeting of Bayside Building and Loan Association held in the Company office on Friday, 1920 the following were elected Directors for the ensuing year.

Of the Shareholders of the Bayside Building and Loan Association held in the Company office on Friday, the 4th day of January 1920 the following were elected Directors for the ensuing year.

Thomas Jones, Peter Smith, John Brown, William Taylor, Robert Wilson, Henry Davis, James Miller, Charles Moore, Edward Anderson.

Woorooputtoo Enam

in Cassinapully

web– 2 16 4 11 7 ¼

It is not known when or by whom this Enam was granted nor who was the original grantee No Summuds are forthcoming

This Enam is entered in the Pymash accounts in the names of Poolla reddy and Moomully Vanooroo reddy Vizt and in the enimaty accounts in the names of Timmareddy Condareddy and Vonoopooreddy.–

Granted for establishing a village

Sentem Rungared dy, the last holder aged 60 years died about 8 years ago.–

He was the younger brother son of Poollareddy son of Condareddy and elder brothers son of Timmareddy whose names are regis tered in the accounts

He was not con nected with Vonooroo reddy.

Share enjoyed by the deceased 2–13–10

by Nagered dy 1–7–

Narapareddy 1–7–

Others enjoyment 5–11–9

Total 11–7–7

The deceased has left no family Besides the above Enam the deceased had reddy enam to the amount of Rupees 13–

The last holder of the share of Rs 2–13–10– Poonagareddy has left no family A claim is made by deceaseds grandfathers 2 great-grand sons by a second wife Venkut reddy and Soobbareddy as having been adopted by the deceased, but the proof of either having been adopted is not clear and their relation ship to the deceased is very distant. The share is recommended for resumption.

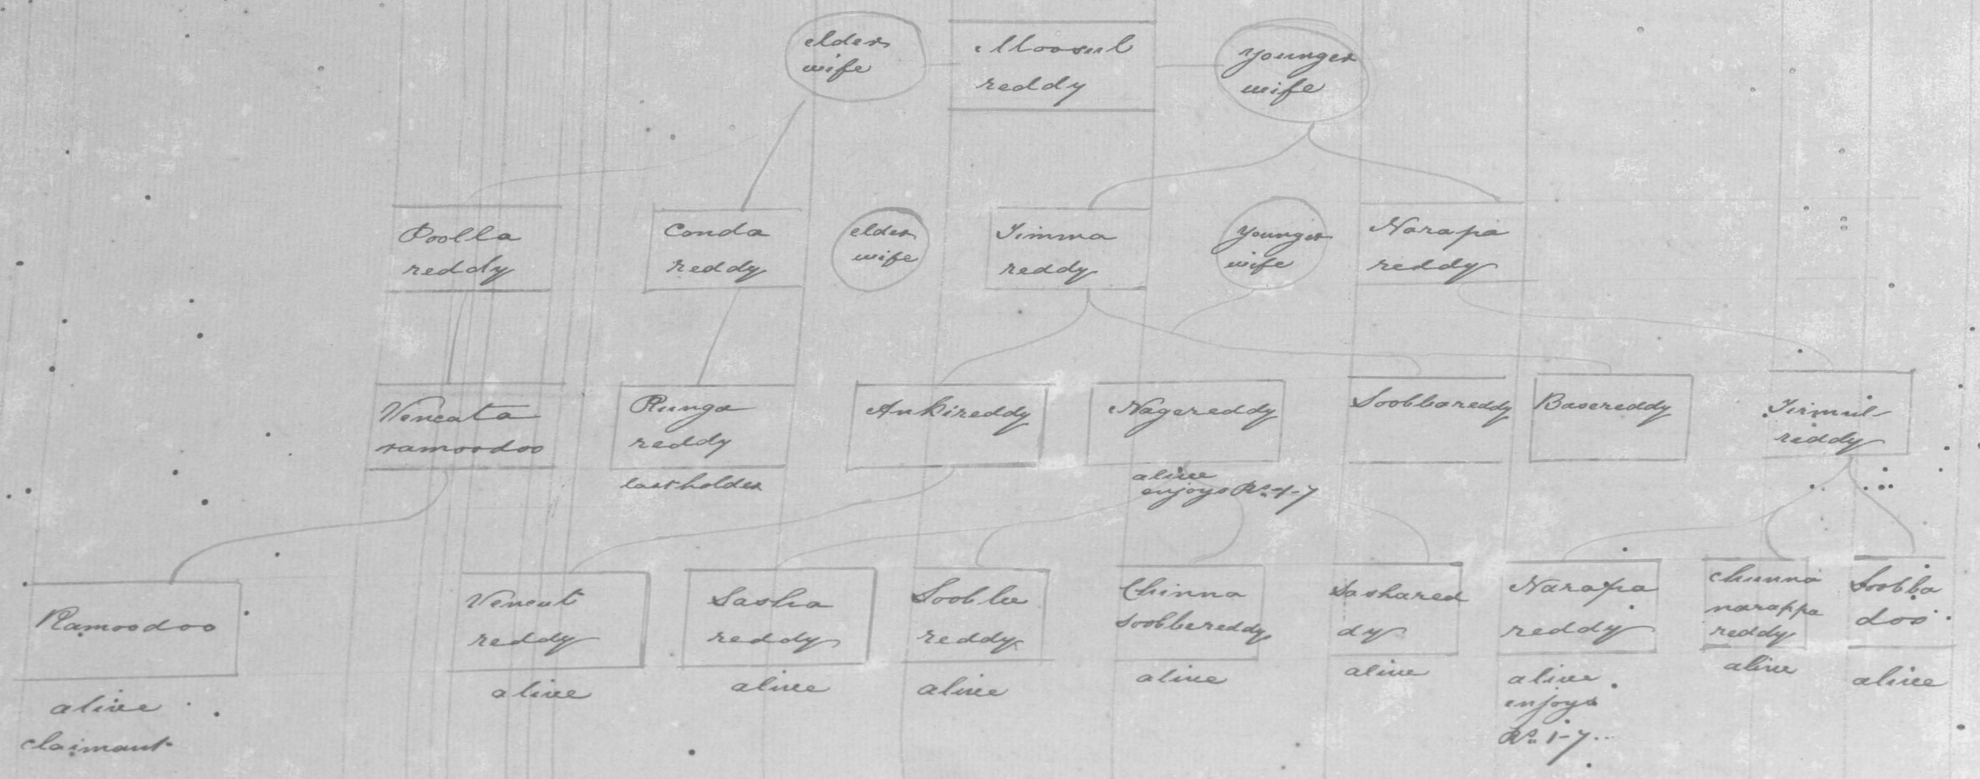

/Signed/ A. Wedderburn

Sub Coll 12

The Collector objects to the proposition of resuming the Enam proposed by the Sub Collector– Ramoodoo the claimant is second Cousin to the deceased and his grand father Poollareddy is entered in the Pymash and enamaty accounts Ramoodoo has been long under the protection of his maternal grandmother and probably owing to this the deceased has been allowed to enjoy the share of Ramoodoo, his doing so will not deprive him of his right to a share in the Enam enjoyed by his ancestors. The last holder has now died without heirs and as Ramoodoo is the grandson of Poollareddy who was the elder brother of deceaseds father Condareddy recommended that the whole of the Enam enjoyed by the deceased be continued in the name of Ramoodoo–

His house got a share of the enam by donation from the deceased father in the year 1830 amounting to Rs 88-14-1

His daughter Rungama aged 8 years

His younger brothers wife Lukshmama aged 19 years

His younger brothers daughter Venca tama aged 5 years

The enams were enjoyed undividedly

They are in moderate Circumstances.

Looking at the long enjoyment of this — a donation which is alleged to have been given on account of the donee's assistance and services in the donees household - the Sub Collector recommends the share thus alienated to be continued for life to the donees son Narsimhacharlu and the rest to be resumed.

Signed J. Wedderburn
Sub Collr

The Collector differs in opinion from that expressed by the Sub Collector in the above decision on the following grounds

The Sub Collector seems to admit the validity of the deed of donation said to have been executed by the father of the deceased in 1830 but the Collector repudiates it — Your witnesses speak to the correctness of the deed, and they are the attesting witnesses. It appears that in

Jeroomala Rungacharloo

Nursoo Raghapatama.-

Other documents

1 Unstamped deed of gift by Jeroomala Ramanoojacharloo, to his father in law T. Papa charloo dated the 15th Chytra Soodda of the year Vicrooty or 8th April 1830.

† here with forwarded

in 1839, the wife of Nursimhacharry named Lutchmanmah, whose husband was cousin to Ramanujacharry father of the deceased, sued her brother in law Ramanujacharry for maintenance in the Zillah Court of Cuddapah which was settled amicably by a razeenamah executed by both parties in which the share of the enam each was to hold is distinctly mentioned, these two shares amount to the sum entered in Column 2. nothing is there= in stated with regard to the deed of gift said to have been= executed to the claimants

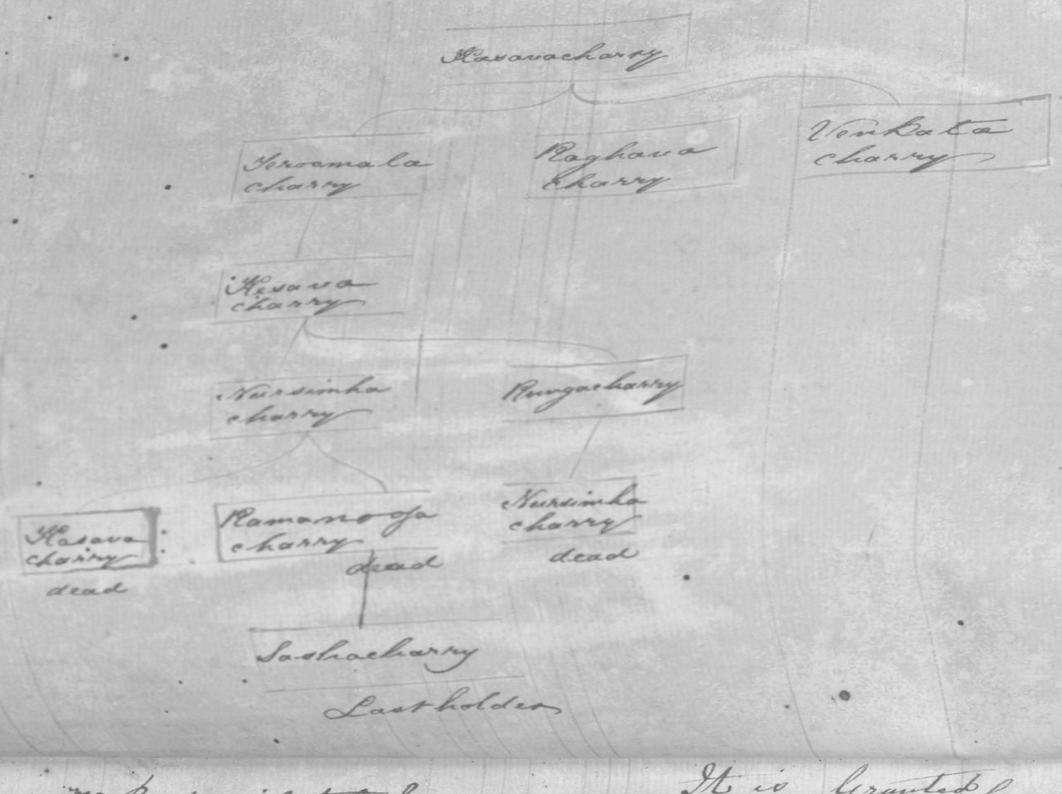

father Papacharloo in 1830, which most certainly would have been had any such been in= existence- On the demise of Lutchmummah proceedings were held in 1854 in which the present claimant Nursimmacharloo deposed that the whole enams were in the enjoyment of the father of the deceased and the deceased who was then a minor, had the deed of donation been in= existence it would have been produced or mentioned nothing of the kind took place. The inhabitants of the Village in which the different enams are situated depose to their having been enjoyed by the father of the deceased and the deceased. Some depose that the claimant collected al= the rent of the enams on behalf of the deceased vashacharloo which is acknowledged by the claimant. In the enamaty accounts prepared in fuslies $\frac{1246}{1835}$ & $\frac{1258}{1847/48}$ eighteen years after the execution of the alleged deed of gift the whole enams are entered in the names of the ancestors of the deceased nothing is mentioned of the donation. On the above grounds the Collector is of opinion that the deed gift is in the 1st place illegal and in the 2d a forgery and it is highly improbable

1809

9894

Fort St George 19th June 1858

improbable that the said deed of gift would have been kept so long secret unless former enquiries were instituted regarding the Enams- The Collector recommends that the whole of the enams be resumed in default of heirs

had no power to give away an enam she succeeded to through her late husband the present claimants have no title and the enam awaits the decision of Government for its resumption.

/Signed/ A. Wedderburn
Sub Coll.r

A claim to the donation

enam

has been set up by one Ragavacharry who alleges that his grand fathers brothers son Venkataraghavacharry gave the said enam to his brother Venkatacharry for his support during his lifetime, that Venkatacharry gave half of the enam to the father in law of the last holder viz. Lukshmummah and that the remaining half was enjoyed after Venkatacharrys death by his brother Ragavacharry the present claimant, that Lukshmummah after her father in law and husbands death restored to Raghavacharry the half of the enam which was held by her, and that four years afterwards Ragavacharry leased the whole enam to her on an annual rent of Rs 8.

There being no evidence to show that any portion of the enam was ever in the possession of Ragavacharry, or that he ever received any rent from the last holder, the sub collector regards his claim as unadmissible and recommends that it be disallowed

Dry 14 3 7 10 17 6 10

The following document is filed in the case.

1 Original taked dated the 15th
a shadha Soodda of the year
Atchiakon A. D. 1746 issued by one
Vencatuppa Naidoo, in the reign
of Haleem Khan to the effect that
a enam has been granted to
the wife of Sydummah Said Vizt
Mojabee and her daughters.

The document in question
does not specify the village in
which the enam is situated nor
the relationship between the parties
entered in it and those registered
in the accounts has been ascertained
hereunto forwarded

This enam is said to have been granted during the Mayan Government but by whom granted or who was the original grantee is not known This enam is entered in the Pymash in the name of Seikbee and in the enamaty account of Fusly 1220 in the name of Seik Hoossain.

Granted in Charity

Dukhnee Seik Hoos sain, the last holder died on the 5th Assu wee ja Soodda of the year Virodhicrou too of 29th September 1851.

The deceased has left a widow named enambee aged 40 years. Besides the above enam there is a puttah land in the Village of Arkoomilla assessed at Rupees 1- 2- 0 entered in the name of the deceased She is in poor Circumstances

The whole enam entered in Column 2 was enjoyed by the deceased

The last holder Dukhnee Seik Hoossain does not appear to have been a blood relation of the original granted Seik Hoos sain brother of Shaikee gouse the enam in gift to the latter on her marriage she has enjoyed the same for forty years, after her demise her fostered son, the last holder enjoyed the enam for 16 years he has now died leaving no heirs recommended that the enam enjoyed by the deceased amounting to Rupees 17 Annas 6 & 10 be continued in the name of his wife enambee during her life after which it may

Board of Revenue

Fort St. George

Bd No. 2201

From the Collr of Cuddapah

Sir

I have the honor to acknowledge the receipt of your letter under date the 12th April last No. 1263 communicating upon three measures forwarded by me to the Board of Revenue at their request and requesting me to send for and test the identical measures received from Madras in 1846 and after testing their capacity with the weight of water to report the result.

2. In accordance with the wishes of the Board expressed in their letter under reply. I sent for the identical measures received from Madras in 1846 and tested the weight of water they contained by weighing the same against Rupees and the result is stated beneath.

I.

9916 Fort St. George 19 June 1858.

Statement of the No. 48 from the Collector of Cuddapah exhibiting the Results of certain Experiments for the performance of certain Measures of Capacity

Measures	Performance by	Ascertained by	Remarks
Madras			
Pennycoo Paddy	Pennycoo Paddy	Actual Weight of Water	
Pennycoo Paddy	Cuddapah Paddy	Ditto

(Signed) C. H. Murray
Collr

Cuddapah District
Collector's Office
Cuddapah 25th January 1858

3. I must here acknowledge that the scales made use of are not of a delicate nature having been procured from the Bazar at this place but if the Board desire it I shall on my return to Cuddapah test the measures by again weighing their contents of water in the scales supplied by Government to the Treasury I was unable to procure scales sufficiently large to weigh the first and second Treasures Viz. Inercal and half Inercal, the water contained in the quarter Inercal weighed 2 1/2 Rupees. The Inadra measure 1 1/4 the the half measure 7 0/4 quarter measure 3 3/4 the eighth of the measure 1 2/2 the sixteenth 8 3/4 and the thirty-second 4-8 The above is the result arrived at from the scales made use of and it is not improbable that there may be some slight error tho' I believe it not to be more than half a Rupee or a Rupee the most.

No 88

To,

G. S. Forbes Esqr.

Secretary to the
Board of Revenue
Fort St. George.

Sir

With reference to the Board's Proceedings dated the 28th May 1858 No 1309 forwarding Extract minutes of Consultation of the 26th idem sanctioning the defence at the Public cost of O. S. No 71 of 1858 preferred in the Subordinate court of Salem by Venkatakistnen, late curnum of Punnarasal in the Athoor Talook, I have the honor to forward a copy of a decision passed in that suit by the Subordinate Judge on 30th September 1857. The Sub Judge dismissed the suit and adjudged the Plaintiff to defray the costs incurred by Government.

2. The Plaintiff appealed against this decision to the Civil Court in A. S. No 44 of 1858 but as the appeal was based on the grounds already set forth in the original plaint, I have not thought it necessary to put in any answer in appeal.

Re No 2401
From the Collector
of Salem ....

Salem Collectors Office
30th June 1858 .....

/ Signed / H. A. Brett
Collector

O. P. No. 71 of 1854

Plaintiff — Venkatakistnien, cummum of the Village of Ponamapel, Vakeel Appasawmy Pillay

Verses

Defendant — H. A. Brett Esqr. Collector of Salem, Vakeel Goolam Dossen Saib

The Plaintiff sues to recover Rupees 50 being the balance of a fine of Rupees 70 levied from him the difference having been returned to him for the retrogation of the cummum Inerafay of the Village of Ponamapel yielding on average annual return of Rupees 40. and for the recovery of Rupees 20 as damages being his salary from the date he was dismissed to that of the Plaint.s He also sues to recover the salary up to the date of restoration to Office that he did not wilfully conceal lands under cultivation and thereby prevent them from being incorporated in the public accounts as set forth by the Collector's decision for the professed no authority to measure the lands that of the fields

fields be measured separately no increase increase in the cultivation will be discernible Here enter the Collector's answer from Para 2

× × × × ×

In reply the Plaintiff states that he not only seeks for the reversal of the Collector's decision but also to recover damages that he also prays that the lands in question may be measured by means of an Ameen deputed by the Court. He was therefore justified in instituting this regular suit instead of preferring an appeal.

The Defts dispensed with a rejoinder

Judgment

The Court is precluded from entertaining an action brought against the Collector for arrears of salary or for the restoration of the Cummum Inerasee Vide C. O. 130 a. In the Plaint there is a confusion of terms. Salary the recovery of which is sought by Plaintiff being

being styled "damages". The suit does not appear to be laid for damages against the Collector for illegal proceedings but solely for the reversal of that Officers order. The Plaintiff is not liberty to pursue the course provided by the C.P. above quoted or to prefer a summary appeal before the higher Court the case is therefore dismissed with costs to be paid by the Plaintiff.

No. 99

To.
G. S. Forbes Esqr.
Secretary to the
Board of Revenue
Fort St. George.

B. No. 2217
From the Collector of South arcot...
Submitting a Tabular Statement of the alterations in the Broyen Zahitah to meet the expenses of the Printing Press and requesting that sanction may be obtained to their being carried into effect from the 1st Instant.

Sir

Having already submitted an incident of the additional Type and other materials required for the use of the District Press under my charge I have now the honor to advert to the arrangements regarding the Press Establishment which have been objected to by Government on the 29th March and 11th May 1838.

2. In obedience to the orders conveyed by Extract from the Minutes of Consultation of the 14th Instant the Office of Translator will be restored to my Establishment from the 1st of the Current month and the partial reductions Amounting to Rs 9—8— made by Mr. Hall in the Salaries of 14 Goomastahs and 1 Carkoon I have ordered to be discontinued from the same date I have likewise adjusted the accounts of the Press for 1836/37 according to the Entries exhibited in the account Current the excess expenditure of Rs 211—10—2 having been sanctioned in Para 2 of Extract from the Minutes of Consultation of

1 Sheriff 14 — —
1 Commandah 24 — —
1 Moonshy 10 — —

Board's letter to Collector 16th October 1856 Board's Proceedings 1st December 1856.

of the 29th March last.

8 These alterations effected I trust I shall be permitted to observe that as the reductions made by Mr. Hall in the Officers noted in the margin have long since been approved of by the Board and acted upon accordingly, there would seem to be no objection to my continuing to appropriate the amount saved so far as it goes to meet the permanent charges of the Press for the current year.

4 As regards the amount still required I beg to state that in consequence of the recent introduction of new forms of Tamil accounts which will in future be printed for circulation in the Talooks I can further reduce the Revenue Establishment by dispensing with the services of a Sumpretty at the Moorgoor and of an additional Goomastah in the Talook of Nanargoody who draw respectively 13 and 10½ Rupees per months.

5. The total saving effected by the foregoing arrangements will be 72 Rupees to which the sum of 20 Rupees reduced in the Moorsy Sudder Ameens Court being added the total amount becomes 92 Rupees being the sum required to defray the total wages of the Press Establishment including 5 Rupees for contingent Charges

communicated in a letter from the Civil Judge dated 24th December 1857.

6 I propose to abolish the situations of one Sumpretty

Sumpretty and Goomastah as above stated because owing to the general diminution of work in their respective Departments in consequence of the introduction of Printing there appears to me to be no objection to the measure but if my proposition should be disapproved I request that I may be allowed to appropriate to the Press the sum of 20 Rupees from the pay of Translator which will reduce the emoluments of that Office to 50 Rupees a month. This arrangement can be effected without causing injury to any one as the Office is still vacant and I have not yet chosen the new incumbent.

7 I shall shortly submit to the Board my Report of the operations of the Press for the past official year in which I hope to be able to shew that it has proved generally useful and that its Receipts have covered the expenditure

8. It is proper to mention in conclusion that the Civil Auditor has declined to pass the abstract of the Press Establishment for last month and as I am unwilling to make advances from the general Treasury I solicit that the Board will be pleased to give their early consideration to the alterations in the Arrangements submitted in the accompanying Tabular Statement and obtain the sanction of Government to them being carried into effect from the 1st Instant.

Fort St. George 19th June 1858

Detachment were assaulted on the occasion in question by a Mob of the townspeople and the ringleaders who where committed to the Criminal Court for trial escaped all punishment escept a requisition of Security - in consequence of a suspression of the truth by the two principal witnesses.

2 A Copy of the Magistrates diary order, on the subject of the Misconduct of the Police, is appended for the information of the Board.

South Areat - Collectors Cutcherry Cuddalore 2d June 1858

/ Signed / J. N. Taylor
Acting Collector

It

Fort St. George 19th June 1858

It is clear from the Head Assistant Magistrates inquiry that the Statements which Peon Permal Naik and Bungalow Sepay Said Ibraham wilfully retracted in their evidence before the Criminal Court were voluntarily made in their depositions before the Head Police Officer of Chattput. It is proved that no intimidation was used towards them and the Statements of the European officers themselves are sufficient to shew that their first testimony was correct - For thus defeating the ends of justice doubtless on the receipt of some consideration from the parties who committed the assault they are unworthy of being retained in the Employ of Government and are consequently Dismissed from the office of Peon and Bungalow Sepay respectively

2. The Head Police officer is also deserving of Severe punishment of

Fort St George 19th June 1858.

of the very defineint Police arrange:
ments he appears to have made on the
occasion it was his duty to have used
every possible precaution to prevent a
collusion between the European Soldiers
and the Mass of people collected on Marked
day. Instead of being present himself and
assisting by his authority to procure supplies
and to prevent a breach of the Peace he
contented himself with deputing one tahsil
dar for the purpose. This is not the
only instance in which his conduct as
reported by the Head Assistant Magis:
trate has been unsatisfactory. He is
therefore suspended from office for the
period of two months. The date of his
suspensions will be that of his being
relieved by the officer appointed by the
Head Assistant Magistrate to act for him.

Consultation dated the 7th instant No 605,
I have the honor to observe that not
having been favored by the Board with
more than a mere order to communicate
the Government decision to the Petitioner
which is transmitted for my information
and guidance I am unable to trace the
4th March 1858. grounds on which my report on the
case has been deemed inapplicable

2. I am also left in ignorance
of the grounds on which it has been thought
necessary to advise the resumption of the
grant, so that in future reports on cases
of a similar class there will be a repetition
of the views which I seem erroneously
to have taken

3. Should the Board see no
objections to the course I would therefore
beg

9934 Fort St George 19th June 1858.

beg to be furnished with a copy of their proceedings on my letter dated the 4th March last.

B. No. 2229 Sir.
From the Asst Collector of Tinnevelly - - - }

With reference to my letter of the 5th Instant No. 165, reporting the suspension of Sreenevasiah the Tahsildar of the Sreevelly-pootoor Talook, I have now the honor to lay before the Board of Revenue copy of a letter and of its enclosures received from the Sub Collector commenting upon the mis-conduct of the Tahsildar in two cases of attempt to defraud the Revenue.-

2 The Sub Collector recommends that the Tahsildar may be dismissed from the Public Service.-

3 The conduct of the Tahsildar appears to be indefensible being characterized by great dereliction of duty both in want of Zeal and in attention to orders at the least if not being guilty of direct dishonesty - I have therefore to request that the Board of Revenue will confirm the sentence of dismissal from the Public

To D. Mayne Esqr
acting Collector of
Tinnevelly

Sir

1 I have the honor to forward copies of the decisions passed against the Tahsildar of Sticorin-velly pootoor Talook in two cases of attempt to defraud the Revenue.-

2 Since the Tahsildar has been under me, I have had on several occasions to be much dissatisfied with his conduct. He has allowed the Revenue in spite of repeated orders to collect, to fall into heavy arrears entirely owing to his indolence and particality.-

3 During the enquiry in the above cases, I saw several reports in which the Tarafdars brought to his notice that the Crops were ready to cut, that the only way to collect the arrears was to Zuft them, and requesting his orders and assistance to do so. Of these, the Tahsildar took no notice, and the Balance still remains. In one instance after the crop was carried off, he sent

Fort St. George 19th June 1858.

sent me an account of one pair of wooden slippers and a Stone mortar attached - saying the defaulter had nothing else. That the revenue can be easily realized by Zuft-ing the crop is proved by the fact shown during the enquiry that in one Village, where a Peon went to collect and Zufted the crops, 1000 Rupees was at once paid up.-

4 In all ordinary Revenue enquiries without repeated orders and fines and not till after great delay can he ever be got to do any duty. It is the same in Police cases.-

5 Besides the above two instances proved against the Tahsildar, in three other cases I discovered attempts at fraud and ordered the revenue on the lands to be collected. Tho the Tahsildars name was not mixed up in them, they occurred under his charge, and I do not believe they occurred without his cognizance. I have the honor to request you will apply to the Board for his dismissal.-

To

9939

Fort St. George 19th June 1858

No. 96

To,

I. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

Bd. No. 4056
From the Asst. Coll. of Canara.

Sir

I have the honor to submit my Report upon the land and Extra sources of Revenue for Fusly 1266 AD 1856/57 accompanied by the accounts and statements noted in the margin.

Bd. Nos. 1646 A & B. 7 to 11, 13 to 19
District Nos. 1 to 18
Salt Statement Nos. 19 to 21

2 This report has been drawn up as far as the circumstances of the District permit in accordance with the instructions contained in the Board's Circular of the 4th September 1856 and the tables and other accompaniments prepared upon the forms received from Government with their Communication of the 2d August 1856.

3 The several Talooks were settled as shown in statement No. I viz. 5 talooks by the Collector Mr. Fisher 6 by myself and 1 by the acting Head Assistant Mr. Binny.

4 The number of Villages paying land Revenue in this District is 2275

Villages a/p. No. 15

A

Fort St. George 19th June 1858

5 A statement exhibiting the Nos area and tenures of these Villages falls due at the time and finds place in the appendix No 15-

6 Of the abovementioned number 8 Villages in the Sooprah and Vondah talooks of the Balaghaut divisions lie waste so that the actual number of agricultural Villages is 2267-

7 These Villages are all Ryotwar the holdy paying assessment as Mootah on Gunny Wargs-

8 These are Enam lands in this District but they are mere portions of Estates scattered throughout the different Villages and in no case are entire hamlets held under such tenure-

9 Our accounts shew generally the number and kind of these Enam lands but do not very distinctly define their area and boundaries-

10 The Ryacat in fact of many of our Villages entered in the accounts as

Separate

Fort St. George 19 June 1858-

seperate and self contained may be found on closer examination intermixed with that of contiguous hamlets bearing different names a confusion which is existent with our assumption of the Country and for which there is probably no effective Remedy short of a general survey of the Province-

Irrigation

11 A statement of the different sources
A/c No 18- of irrigation falls due this year and is herewith forwarded-

12 In the table transmitted by Mr Maltby in July 1263 the more important works of irrigation only find mention the Statement having apparently been framed Rather with the view of exhibiting the number of tanks requiring repair than the whole aggregate of such works now existing in the District-

13 In obedience to recent orders abstracts of the statement kept by the Shanbogues of all such works have been required from the several Talooks and a general

Summary

Summary Compiled—

14 On Comparing this with the former returns the number entered has been found greatly to exceed the original Estimates—

15 The Shanlognes Returns professes to draw a distinction between works the property of Government and those belonging to private individuals but the principle upon which the specification has been made is not very intelligible and there are other irregularities and incongruities in them which make it undesirable to make use of them in their present state—

16 Time however not admitting of fresh inquiry a statement is now submitted prepared on the statistics Collected by Mr. Mattly and as further sorting of the Village accounts will be instituted during the approaching S. Immediately with a view to verify the new returns and test their correctness

trust worthiness—

17 For further particulars in connection with this part of my subject I beg to refer the Board to my Report of the 5th September last which I believe states the case pretty nearly as it is and will shew that we stand less immediately in need of the intervention of Government in this respect than is probably the position of most other Districts Mr. Mattly appears to take a similar view of this matter in his report for 1263 a.D. 1853/54—

General Statistics Census app No. 17

18 A table exhibiting the Results of the quinquennial Census lately taken will be found in the appendix—

19 No pains have been spared in rendering this Return as Complete and accurate as possible and I am disposed to believe that notwithstanding the ignorance and prejudice which have to be combated in a Research of this nature, these Statistics are on the whole sufficiently Reliable—

The

Increase of 1260 - 1056338
1266 - 1126938
Inc: 70605
Percentage — 7

20 The population of Canara has now will observe increased 70605 since the last Census was taken in 1260 which gives a quinquennial average for the in District of 7 per cent -

21 Mr. Fisher in his administration Report for 1855/56 Remarks that at the * 9/16 May 1856. rate the population would double in 68 years adding that in 1800 it was estimated at 392000 souls whereas it has now nearly doubled - He also draws attention to the fact established by these Returns that the Mahomedans have increased faster than the Hindoos and the Christians again far more rapidly than either -

22 Mr. Fisher in claiming acceptance of this fact of excessive fecundity among the Christian population of this district observes that in 1800 they numbered on their Returns from seringapatam whether they had been Carried

away

away Captives by their Mohamedan Conquerors some 1000 souls only whereas after a lapse of 56 years they are estimated at 43767 -

23 Enterprising industrious and living under institutions more favorable in every respect to the propagation of the species I am disposed to think that their number is not overstated in the present Estimate -

24 As I gather from some of approved authorities the decennial increase in the population of Great Britain is 13.2 per Cent and that of this District, as I have before Remarked, gives an average of 7 per Cent for half that period - This Result is highly satisfactory as it indicates enlarged facilities of livelihood, salubrity of Climate and the existence of well directed and successful enterprise

Division	Ta: Loc: Lots	Tanky Stock	Tanky Inv: 1260	Per upon Increase centage	Per upon Decrease cent:
Trangabaree	6	4051	6725	2674	5
Bancoorah	3	1563	2835	1272	168
Ankola	3	1563	2835	1272	7
Balaghaut	3	2744	5342	2598	16
Total	12	8358	16333	7975	135

Fort St George 19th June 1858

enterprise and industry among the body of the people—

25 With a per Centage ranging between 5·87 in the Sea board districts we have in the Balaghaut an increase of no less than 16 per cent—

26 This startling disproportion I ascribe chiefly to the large immegration from the adjoining districts Composed of persons & their families who come to trade & settle permanently on the fine Virgin land which still invites appropriation in that mild and thinly populated Region— Of this population of 11/4 lacs about 1/7th only is now agricultural the average number of inhabitants to each square Mile living in the Sea board districts 168 & above Ghaut 66— In a District like Canara abounding in dense & extensive forests & under every possible stage of agricultural development this population is naturally most unequally distributed

Fort St George 19th June 1858

distributed and there are tracts both above and below Ghaut rates for which there is not a hut or a hamlet to be met with—

27 Many interesting calculations and deductions might be drawn from these tables but I must leave the figures to speak for themselves and pass on to other subjects—

Agricultural Stock—
app: No 16
1260—816091
1266—840705
Inc: 24614
Percent—3

28 A table of the number of Cattle employed for agricultural purposes is given in the Margin and shews an increase of 24614 head or 3 per cent during the 5 years under review—

29 Cattle and Buffaloes do not here attain the size and symmetry met with in the live stocks of some other districts In the Balaghaut division however where pasturage is richer and more plentiful fine animals of both descriptions may frequently be met with and the breed of buffaloes especially is in some parts of that region very superior both in point of size and proportion—

30 Sheep do not thrive in S. Canara

Canara and are only brought from the Mysore Country in sufficient numbers to meet the local Consumption—

31 Goats seem to do better, but are not reared to any great extent by the people—

Sheep included in the above Goats omitted from do. 8913 / 7737

32 The subjoined statement gives the particulars of these 2 latter items of farm stock.

33 We have no accounts which shew the number of actual Cultivators, our Census Ryots & Pattahs Settlement being made on the unit or Estate. The number of such units is stated at 598.33 the proprietors or occupants holding under every variety of tenure. No very accurate Estimate however of the number of proprietors & can be based on these figures, as a unit, tho' standing on the account under one name, has frequently many proprietors having become subdivided by purchase, mortgage, partition and such other means and vice versa and holding Cens: pricing

Comprising frequently several units—

Holdings more than one = Estate—18841 Joint Holders 22186 / 41027

34 Bringing such statistics however as we have to guide our Calculations, the number of actual land holders may be set down on a Rough estimate at 41027—

35 The Majority of proprietors do not cultivate their own estates but sub rent & lease them out on a variety of terms. The Betelnut gardens however of the Balaghaut division are very generally cultivated & managed by the actual proprietors—

36 The number of persons thus directly and indirectly engaged in agriculture is as given in the Census table—

37 The new forms of Village accounts have been Circulated among the Shanbogues who prepare the pattahs & Receipts on the method therein laid down—

38 As I have already stated our accounts do not in many instances admit of an Individual settlement and

no

in such cases the puttah is made out in the name of, and issued to the Chief Proprietor only or to the party who has held it for any uninterrupted length of time - To the other parties concerned receipts only are granted - It is not usual to issue single puttahs to several parties collectively.

39 Prior to the transfer of any puttah or a change of name in the accounts the parties concerned must generally file a deed of "Rayes" and "Kabool" and the transaction be duly registered as under orders of the Collector as prescribed by section 2d of Regulation XXVI of 1802 unless no other terms can a transfer be effected -

Rent Roll 40 The Rent Roll or statement classifying the Ryots according to the amount of Rent Yea. Dea. paid on the Government demand will be found in the appendix This return is for Reasons elsewhere alluded to Rather "emergent" than individual the classification

classification being made according to the amount of assessment which each Estate pays - Petty mirasi paying an assessment of Rupees 10 and less are most numerous in the Talooks of Bekul Ankola and Soopah and the largest undivided Estates are to be met with in the Talooks of Cundapoor - The former are most flourishing and profitable but the state of the latter is by no means so satisfactory Large bodies of the labouring classes of the Cundapoor and the adjoining Talooks of Parcoor go annually above Ghaut to work in the Coffee gardens and returning home with the fruits of their 6 months industry Compete eagerly for land in their own neighbourhoods owing to the competition and the high rates of assessment Rents in that part of the district

district are enormously high and on neither landlord nor tenant has the profit he is entitled to accept-

41 These remarks apply also with some modifications to the Honore & Anikola Talooks where the Renund is also more difficult of realization than elsewhere. This is a state of matters that would admit of easy and prompt Remedy had we the surveys and other statistics of such as undergo but unfortunately the Inquiries or Seed account is

is the only guide in the majority of cases so that beyond a little temporary Relief no permanent readjustment of the assessment can be made until they have come under special inspection and report-

42 Much however has been done in this matter latterly & Reports & surveys come in as quickly as with our limited Establishments can be reasonably expected-

Season

1265-1266 Fasli
Northern Section 98-155
Southern Do. 111-172
Eastern Do. 72-83

43 The fall of Rain during the year under report was much heavier than that of the past and several previous years-

44 The Monsoon set in about the middle of May and was ushered in by heavy showers during the earlier half of the months-

45 Farming operations were consequently seriously interrupted & the outturn of the cereals and those more delicate garden products betelnut, pepper & Cardamums fell short of that of the previous year-

46 The failure of the latter Rains in September and October had also an injurious effect on the 2d & 3d Crop Cultivation

Fort St. George 19th June 1858

which depends on these for its supply of water—

47 The Cocoanut Gardens however do not appear to have suffered and gave a good average return to the Cultivator—

48 A severe but fortunately most partial hurricane did great injury in some of the garden districts especially of the Cundapoor Taluk and Considerable remissions became necessary on account of trees blown down and other damage—

49 There were fewer well ascertained Cases of Cholera during the year, but Small Pox and fever, particularly of a most virulent type were very general The latter disease was particularly prevalent and fatal in the parishes situated at the foot of and along the Coast of the Ghauts, where it seriously impeded farming and public work operations— The mortality from these causes is stated in the margin—

	1865-1866.
Cholera	411 209
Small Pox	2550 1929
Fever	" 2936
	2961 5071

50 The mortality among Cattle was much as it was with that of the previous

Fort St. George 19th June 1858

1265 — 11,945
1266 — 14,841

previous year and is given in the margin—

Prices 51 The prices of grain and of every species of garden produce were unusually high and must have more than made good to our farmers any loss or deficiency of Crop— Scarcity and high prices in the inland districts and Malabar especially combined to divert the rice supplies usually received from above Ghaut and to raise prices upon those even of the previous season, which as Dr. Fisher elsewhere observes were higher than they had been for the last 30 years— This state of matters I do not ascribe in any degree to local scarcity as the trading season Closed leaving us with large surplus Stocks in hand—

52 Towards the latter end of the season prices became more stationary and an unusually early monsoon having cut off Communication with Malabar, Rajoi rice was procurable at more reasonable Rates—

Subjoined

53 Subjoined will be found a table exhibiting the prices of the different Kinds of Rice as compared with those of the last and the average of 5 previous years-

	Payanghaut Salooks Average per Garce of Sura Rice-	Average per Garce of Innocah Rice-	Average per Garce of Rapi Rice-	Balaghaut Average per Garce of Paddy
	Rs	Rs	Rs	Rs
Fasly 1265	299	208	195	74
1266	243	213	193	93
Difference — Increase:	14	5	Decr. 2	Incr 19
Per Centage	6	2½	1.	25
Average of the past 5 years	200	179	161	55
Difference between average & Fasly 1266 - Incr	43	34	32	38
Per Centage	21½	20	20	70

51 The prices of Betelnut pepper and Cardamums in the Balaghaut talooks are as usual given below-

	Average per Candy of Betelnut	Average per Candy of Pepper	Average per Candy of Cardamums
	Rs	Rs	Rs
Fasly 1265	40	69	606
1266	42	71	608
Difference — Increase	2	2	2
Per Centage	5	3	"
Average of the past 5 years	40	56	583
Difference between average & Fasly 1266 — Increase.	2	15	25
Per Centage	5	27½	4¼

55 The yield in all may perhaps somewhat short of the average but Betelnut and Cardamums

	Rs/fo	
Fasly 1265 —	21	were in good Request and rose in price Pepper
1266 —	20	although for reasons hereafter to be given in less
Decrease.	1	
Per Centage	5	active demand advanced not withstanding an
Average of past 5 years	17	former quotations - The Cocoanut Crop was excellent
Increase	3	
Per Centage	18	but owing to increased imports from Malabar prices

fell 5 per Cent -

56 The demand for this article in the European markets is however too active & steady to render it probable that prices will ever again recede to their former standard -

* Rs 16 ₹ Mil.

Appendices Nos 20 blanks -

57 Accurate statistics of Cultivation cannot the Board are aware be furnished for this Province, where so much of the land is private property and has never been surveyed - but large tracts of waste are annually coming under the plough & applications for land pour in from all sides more plentifully than can at all be disposed of by any Local Establishments -

Exports -

	Home produce	Inyoor & Coorg	Total
Fasly 1265	33,252	4,038	37,290
1266	27,220	3,024	30,244
Decrease	6,032	1,014	7,026
Per Centage	18.	25.	19.
Average last 5 years	28,975	6,742	35,717
Decrease	1,755	3,718	5,473
Per centage	6.	60.	15.

58 The marginal table gives the quantities of rice exported by sea during the year & that preceding it - the article exported was chiefly the produce of the District as very little of that of the inland Country found its way to the Coast for reasons already stated - There was a considerable falling off in the Exports of rice to Malabar Arabia and other foreign ports owing to the outbreak of the Persian war and high prices -

59 In Malabar the old surplus stocks at the opening of the season were large enough to keep prices down and interfere with the early activity of the Export trade which was further interrupted at its most critical and valuable time by the Monsoon setting in a month sooner than is generally

Exports by Sea- expected - In Betelnut and Cardamums the

	Betelnut	Pepper	Cardamums	
Yearly 1265	10,846	5,903	193	year's results contrast favorably
1266	12567	3,980	217	
Difference	Increase 1721	Decrease 1923	Increase 24	but in pepper the Exports fall
Per centage	16.	33.	13.	
Average of last 5 years	10543	4274	182	short both of those of the past
	Increase	Decrease	Increase	
Difference	2024	294	35	& the average of 5 previous years.
Per centage	25	7	24	

60. This is not owing to scanty crops but to stagnation in the Inland Market or trade having taken an inland direction - How far the last named cause may have influenced these results I am of course unable to say as no account is kept of the trade which crosses our Eastern frontier Our stocks however must be Considerable and are probably held back from the Market by the growers in expectation of sharpening the demand

demand and forcing up prices beyond even their present high figure -

Oilseeds Landed
1265 — 6,559
1266 — 11,499
Inc: 4,940

61. In other Commodities trade has been brisk and progressive the export of oil seeds from Tuticorin and Coompta was so large that it forms a new feature in our Commerce and the transactions in Cotton have nearly doubled themselves within the year -

Per centage - 6

previous year and exceeds the quinquennial average manufacture - The particulars are given in the Margin -

Settlement -
Appr: 2 p. 3

63 From what has been said it will be apparent that the general state of the district during the past year has been prosperous and satisfactory - The decrease of Rupees 10,313 is wholly attributable to a falling off in the Sea Customs Revenue which instead of being Carried as heretofore to the account of Sea Customs has in accordance with the Board's instructions dated 12th July 1856 been included under the head of "Land Revenue" this result should however be a subject rather of

	Rs.
1265	2,064,330
1266	2,054,017
Decrease	10,313

† 1265 — 17,344 -
1266 — 5729 -
Increase - 11,615 -

of congratulation than disappointment in indi-
=cating as it does the success of recent measures
taken in connection with that most important
and remunerative source of revenue, our forests.

Rs
1265 — 19,16,967
1266 — 19,21,026
Increase 4,159

64 In the actual land Revenue settlement
there is a net increase in the year of Rs. 4,159-

65 In the Sospah and Sondah Taloks Rs
large tracts of virgin lands are yearly
being reclaimed and appropriated, & in the
other more highly cultivated districts improve-
=ment & extended agriculture are every where visible

66. From all sides pours in applications
for land and were our limited establishments
able to dispose of such cases within a
reasonable time the years Results would be
told in much larger figures than what now
finds entry in the accounts-

Rs
1265 — 2,32,305
1266 — 2,31,438
Increase 867

67 In the Coondapoor Taloks alone
is there a decrease. The high assessment obtain-
=ing in this Taloks has already had notice in para
40 of this Report, and the Condition of the more

Suffering

suffering portion of it the Barnow parish
has I observe been described by Mr. Fisher in

paras 16 & 17 last year's report -

68 The settlement of this Mogany I made
on the spot and found that blight, fever
and murrain had again told disastrously on the
Cultivation. The gardens presented a sadly neglected
aspect large tracts of rice land were lying fallow
& the people generally looked unhopeful & disspirited
so far therefore from attempting to bring up the
large remissions of the previous year I found
+ Rs. 864 myself compelled to give further Compensation
to the extent of Rupees 652 - In addition to
the ravages of sickness and blight the hurricane
already alluded to was peculiarly destructive in
this and the adjoining Mogany of adimalay
and many thousands of trees were blown down
in gardens which even under the most favorable
circumstances pay assessment with difficulty.
This and the adimalay Mogany at the foot of
the Ghaut have thus received within the last
2 years relief to the extent of Rupees 1679 but
more remains to be done, and so soon as the
present Cunjamari accounts have been replaced

by

Mogany	Adimalay	Total
1265 — 864	—	864
1266 — 652	163	815
	1515	163 — 1679

Fort St. George 19th June 1858

by surveys and more reliable statistics, the circumstances of each estate should be sifted and the assessment re-adjusted on a more moderate and equitable scale-

69 Inoculation as the Hummum[1] parish is in the Mysore Country it labours under the additional drawbacks of being unable to bring its Garden produce to any market East or West without payment of the frontier duties- This circumstance combined with a badly supplied labour market entitles it to a lower Rate of Assessment than might be fairly fixed on Garden land of like quality in the Bilghi and Sandals talooks-

Appendix No 4

70 No Remarks appearing necessary in respect of deductions from the Heriz on account of the various descriptions of enam it has been thought sufficient for present purposes to note merely the amount of temporary Remissions in the principal items showing the increase and decrease in the same- Remission is only granted in case

Fort St. George 19th June 1858

cases of well ascertained hardship where in consequence of distitution & other misfortunes the Landholders have been Compelled wholly to relinquish their Estates or limit operations until their means will admit of a more extended industry-

	Rs.
July 1265 -	23853
" 1266 -	23003

7th The Remissions on account of enam wholly abandoned amount to Rupees 23,003 and fall short of those of the previous year.

	Rs
July 1265 -	24,762
" 1266 -	25,381

Those granted for land not forthcoming are in excess and will probably be on the increase for several years to come under the mistaken policy which allows a discretion to the local officers in dealings with such cases-

72 The increase in the amount of Remissions on Hossagain Heriz instalments scarcely calls for comment- Reckless Compensations and improvidence under various forms rendering it frequently necessary to revise & modify the terms of the original engagement- This increase it will be observed has been largely added to by the accumulations of instalments due

	Rs.

due on Rs forgagaini Estates brought to ac-
-count during the year under report-

Sundry Items Forest

73 The results of our forest ad-
-ministration have already been so fully
Commented on in my Report of the 18th
September last to the address of the Conservator
of Forests that I need only here state
that the net revenue from this source
amounts to Rupees 116148 being Rs 1813 less
than that of the previous year-

July 1265 - 117961 Rs

T. Koomeri

74 I have already stated broadly
my views on this difficult subject in my
forest Report and believe it is now engaging
Dr. Cleghorn's earnest Consideration-

75 The question is one of such delicacy
and intricacy that nothing short of a
Special Report would suffice to place it
before the Board in a state of preparation
that would admit of its being fully con-
-sidered and disposed of.-

76 I collected some materials in
the hope of being able to redeem a long
made promise on the part of my Predecessor
but

Fort St. George 19th June 1858.

but want of leisure and the pressure of
general business have prevented me from
putting them into form. Whilst I
must now leave to Mr Fisher, and
will therefore now only consider on
Koomeri in its bearing on the financial
results of the year under report.

	No of Pattahs	Acres	Settlement Rs.
1265	6410	17778	17346
1266	3840	8556	5729
Decrease	2570	9222	11615

77. There is as has been already remarked a large decrease of Koomeri cultivation in all the talooks. This is partly attributable to the prevalence of sickness in the high land country, but principally to the energetic measures taken to check all unlicensed clearing and enforce local rules.

Fasly	Belaut Talooks		Other Talooks		Total		
	Pyots	Extent acs.	Pyots	Extent acs	Pyots	Extent acs	
1265	184	8965	1557	3190	1721	12155	
1266	163	5983	1460	2545	1623	8528	
Difference	1	2982	97	645	98	3627	

78.- To complete my financial statement under this head I add the return of Koomeri cultivation on private Estates also exhibiting a large decrease.

Road	Talook	Length of clearing on the sides of Roads	Extent of cultivation
		yards	Acres
Mercara Jellalore	Pootoor	1160	8 28
		3216	32 9
Singawady	Ruthola	839	15 8
	Soopaly	299	6 5
Parwar	Coorga	2304	31 15
Sumbugay	Do	198	1 38
		8016	95 24

79. Subjoined is a table shewing the extent of road side clearances granted gratis under the orders of Board dated 3 January 1857.

The

	Total acres	Wynaad acres	Malabar acres	Canara acres
Fasli				
1265	17883	9231	8157	4728
1266	18674	9381	9293	5103
Increase	791	150	636	375

80.— The cultivation or land cultivation is increasing and Land taken up for this purpose is for the most part assessed at 8 annas the Acre but in the Balaghaut Division where the soil is richer. there are also rates of 12 annas and 1 Rupee and upwards. Govt. and the Board are aware many turn their Kumaki land to account in this way free of assessment.—

81 The amount realized and yet remaining to be brought up under Ryotwar instalments on Hoshanga and Kadaan Dittos is given in the Abstract No. 6—

	Instal. wants due	Realized	Remaining to be brought up
	Rs.	Rs.	Rs.
Hoshegaung	1566	1468	98
Old Ditto	407	283	124
	1973	1751	222

given.—

82.— The cultivation of Sugar cane was less extensive during the past than the previous year the heavy rains in May having interrupted planting operations and affected both the quantity and quality of the crop.—

Abstract No. 7 Extent of land Acres

1265	3234
1266	2799
Decrease	435

83.— This branch of husbandry is however progressively becoming more popular and general especially

especially in the Balaghaut division where much land taken up and entered in the accounts as begayet is yearly brought under sugar cane cop The scanty yield tended to raise prices to twice the ordinary standard

84.— Jaggery commands a daily certain market at our Northern ports where it is a frequent practice to stow it away as ballast to cotton freighted craft.—

85.— There is a decrease under all the items of which this tax is composed.—

86.— Runar stills for the preparation of Sandalwood oil were licensed during the year owing to diminished sales of material in Mysore and to considerations connected with our forest policy.

87.— The decrease under the item "Shops" trades &c has nothing to say to the question of commercial prosperity and development but is principally due to causes already noticed and to uncertainty in regard to the future policy of Government with respect to this source

of

of Revenue.—

Extra Revenue App. No 9.

88.— The decrease appearing in the amount of Assessment on Waste Land in the Statement of Shiraz Jamma may be accounted for by the more speedy disposal of applications for fresh land by which holdings of this class are at once transferred to the list of estates paying fixed assessment

89.— The fluctuations under other items are unimportant and do not call for comment.—

General Revenue 90. Appendix No 10

90.— The results of the season in all the General Source of Revenue are summarised in the annexed table and shall now be briefly reviewed in the order in which they stand.—

Items	Last Return Fasly	Fasly	
	Rs a P	Rs a P	
Land Revenue	2064330 1 3	2054017 " 10	
Abkarry	78377 14 3	83758 " 13	
Moturpha	17278 7 3	16704 14 5	
Salt	400752 8 3	495954 8 2	
Sea Customs	79961 15 2	79320 7 1	
Sayard	41955 7 5	40863 4 8	
Stamps	11760 9 "	8124 9 6	
Amanbeni Cash	37691 2 11	25297 5 9	
	724778 " 8	811235 2 5

Interest Account	176 11 6	716 2 7	
Grand Total	7805470 9 4	2385108 1 2	
		Increase 79538 " "	

Land Revenue / Sundry Revenue

Abkarry average of 5 years Rs 85758 Fasly 1265 Rs 83858 Increase 2317

91.— The Abkarry Revenue falls short of that of the previous year by Rupees 4520 although still in excess of the 5 years average.—

92.— This deficiency arises from the reduced rents at which some of the farms were leased out under the new system of quinquennial tenure

Salt Revenue

93.— Of the results of the salt Monopoly administration I have recently had occasion to speak in my report of the 27th July 1857 P. 75.

94.— The Statements herewith submitted will be found to have been prepared in the form received with the Government Resolution dated 20th October 1855 and exhibit the financial results under all heads.—

Fasly 1265 Rs 400,752 1266 495,954 Increase 95,202

95.— In the sales for both home and inland consumption there is an increase especially in the latter. The premature suspension of trade at the close of the previous season and interruption to manufacture in Goa caused by an unusually early monsoon, were chiefly instrumental in producing these results.—

96.— Some account too it to be made of smuggling

smuggling and illicit production thus cut short in the very height of their activity I may here mention that the extra revenue from this source formerly exhibited separately has now been included under the instructions of the Accountant General, in the general Revenue.

97 Statement No 20 shows an increase of Rupees 17,718. in the amount of Goods warum or salt purchase charges. The increase on account of home manufactured salt is Rupees 22,308 but the purchases of the Bombay article fall short to the extent of Rupees 4,590 thus leaving a net increase of Rupees 17,718 as mentioned above. The increase in contingent charges is accounted for by larger sales during the year.

Sea Customs.

Increase	Rs.
In Rice	1200
Other Goods	4651
	5851

Decrease	
In Goa salt	4897
Other Goods	600
	1497
Net Increase	4354

98. The Receipts from this source show likewise a Net deficiency of Rupees 1645 In Rice and other trade we have it will be observed an increase of Rupees 5851 whereas in that of Goa salt there is the large falling off of Rupees 4892.

99. The present high duty and other causes already noticed when speaking of salt, account for this result.

The

100. The import trade in this article too labours under the futher disadvantage alluded to in my last report of constant liability to interference and detention at our ports owing to the defective system of measurement obtaining in the Goa Country, which falsifies the manifests when tried by our standard.

101. Mr. Maltby more than once addressed the Portuguese Government on this subject but with little apparent benefit and the remedy would seem now to lie rather with the traders themselves who should have measures regulated according to our Standard at all the ports whence salt is shipped.

Sugar 102. Under this head there is a decrease of Rupees 1102 attributable to a falling off in the imports of salt consequent on the low state of Stocks in Goa and the difficulty of finding a remunerative return load for the cattle at the high prices ruling on this side of the border.

Stamps.

	Duty	1264	Increase	Decrease
	1265

Margin.-

115- These arrears are due by indigent
Ryots resident for the most part in the
Hummun Mogany Cuddapoor Talook whose
cases have each had separate consideration
and seem deserving of indulgence - In realising
the years revenue the extreme measure of restraint
and sale have been but rarely resorted to the amount
so collected being only Rs 987 or 9 price per Cent
on the whole - The subjoined Statement exhibits
the number of cases in which land lords resorted
to sale of property in satisfaction of their dues.

No of Estates	sale proceeds of Property
24-	Rs 427

Estates	Sale Proceeds of Property
45-	673 Rs

a favorable season and good prices have tended to
reduce the number of such cases as compared with
the results of the previous year.-

The

Fort St George 19th June 1838

Charges
Appx No 14

116

The forest charges included under the head of General Department have now in conformity with the instructions of the Accountant General been embodied with those of the Land Revenue.

117

The increase in charges on account of salaries &c of European officers is to be chiefly ascribed to the appointment of an Assistant Collector to the District, to whom allowances were disbursed from the 3d March last.-

118.

The decrease in charges incurred in the several departmental establishments is due to the new system of debiting the accounts with the actual disbursements only in supercession of the former practice of bringing to account all salaries as entered in the pay list.-

119

The decrease in the amount of Sadarwanee and Contra charges is too inconsiderable to require explanation.-

Salt charges 120

The increase in Salt charges is ascribable to the causes detailed in para 93.-

121

There is this difference however between the Statement there given and that now subjoined, that in the former the charges actually

Fort St George 19th June 1838

actually incurred only are entered whereas the latter comprises also the amount of advances

Sea Custom charges

122. The saving effected under the head of Sea Customs charges is due to the reductions during the year of the greater part of the temporary preventive establishment maintained along the Goa frontier in consequence of the inactivity of the inland salt trade.-

Stamp charges

123 The change made in the mode of calculating the Duty in 1265; brought a larger amount of stamp duty refunds to that years account than properly belonged to it and has tended to decrease to a corresponding extent the charges under this head for the year under report.- Fluctuations in the payment of Commission too under this head depend it may be observed upon the amount of revenue realised.-

Coir charges

	Candies	Value
1265	607	12348
1266	633	14049
Inc	26	1503

124 The purchases of coir during the season amounted to 633 Candies being 26 Candies in excess of what was taken into stock the preceding year.- This under the rules which allows 3/4ths of the price to be given in rice was paid for at the then enhanced rate of Rs 94-2-6 per Corge, involving an increase of expenditure under this head to the extent shewn in the Margin.-

	Corges of Rice	Rs
1135 @ 94	26	10823
Cost at 85-10-6 the average of 1265		9846

1263	39739	2629	
1266	53908	7393	
Increase	14169	4966	

131 With my statement thus modified and supported by Census, Sea Customs and traffic tables I have, I believe, established my position that the year of which I have been speaking is only a further link in the chain of continuous progress and development to which my predecessors have so often pointed with just pride.

132 The partial stagnation in the rice market was, as I have shewn purely accidental, and will I venture to predict be replaced by a season of unprecedented prosperity and activity.

133. The Board are well aware that during the greater part of the year there were but 3 European revenue officers - a staff wholly inadequate to the requirements of the district Mr Thomas arrived in the month of March and

Fort St George 19th June 1838

and Messrs Greame and Pechin have subsequently taken their places in North Canara.

134. As however the Summaloondi of both subdivision had been completed by myself prior to relieving Mr Fisher at Head quarters separate reports have not been required from the 2 last named Gentlemen and are not submitted - To Mr Binny's own and are not submitted - To Mr Binny's industry and efficiency as a public officer Mr Fisher has already borne favorable testimony -

135. In endorsing that estimate I have only to add that Mr Binny's acquaintance with the Southern division has been of especial service to myself, whose experiences have been confined to North Canara -

136 Mr Thomas has already mastered the language sufficiently to conduct business in it and has now a separate Police and revenue

revenue charge. He is an in-
telligent and energetic officer.

137 The Head and Sub
Sheristadars have already been frequ-
brought to the favorable notice of
the Board during the short period
of my incumbency here I
have had no reason to ques-
tion the propriety of the
estimate formed by my pre-
decessors of these officers
ability and moral character. To

Roodrapah

Roodrappah the sub divisional
sheristadar am I particularly
indebted and gladly record my
high opinion of his intelligence,
industry and uprightness.

of Public Works Madras Date the 12th February 1858

Read the following letter

No. 40.

To
Colonel C. C. Faber.
Chief Engineer
Department of Public Works
Fort Saint George

Bd. No. 728
From the Supt. Engineer
Southern Circle

Sir

I have the honor to acknowledge the receipt of your letter No. 1725 of date the 3d Instant favoring me with your opinion that before any remissions are granted for failure of Crop for want of water in the Talook of Laudgody at the approaching Settlement the permission or opinion of the District Engineer should be obtained

2. I have this day submitted your opinion for the orders and consideration of the Board of Revenue

Trichinopoly
Collectors Office
6th February 1858

Signed J. Birch
Collector

Resolved with reference to the foregoing letter from the Collector of Trichinopoly No. 40 dated 6th February 1858 to inform that Gentle-

men

Fort Saint George 19th June 1858.

man that the Chief Engineer observes he has not expressed the opinion that the permissions of the District Engineer should be obtained before permissions for failure of Crop on account of alleged want of water in the Sandgoody Tabacco Rs are granted but simply that the opinion of that Officer should be sought as to there having been any actual or sufficient failure of the Supply the Control of which is vested in his Department. The Collector will of course act or otherwise on the District Engineer's opinion exactly as he may think proper but it may be regarded as one advantage of the new system that in additional and an important check Rs is thereby gained on the claims of Shareers and it is to be hoped that by mutual good understanding it is one that will be practically realized on most occasions of granting remissions.-

Resolved to forward a Copy of these Proceedings for the information of the Board of Revenue and District Engineer of Tinchinopoly.-

Fort St. George

B. No. 2563

From the Collector of Vizagapatam } Sir

I have the honor to acknowledge the receipt of a Circular Extract from the proceedings of the Board of Revenue of date the 1st Instant No. 1946 and so submit herewith an account shewing the Disbursements made by Government on account of the Native Religious institution in this District during the past year of 1857.

2 On a former occasion

occasion, Mr. Robertson late Collector reported to the Commissioner on the 6th February 1855, that the best means of withdrawal of Government interference, was to make over lands of equal value to the several Priests of these Pagodas or to their Trustees, and at the same time he submitted a detailed account shewing all such payments.

Nellore
Collectors Office
17th June 1858

I Signed I H. B. Elton
Collector
Do

Fort St. George 21st June 1858.

No. 100

From G. S. Forbes Esqr
Secretary to the
Board of Revenue
Fort St. George

To
C. A. 2595

From the Collector of Nellore .....

Sir

I have the honor to submit the following report on the Local Fund of this District for the Official year 1857/1858, and to forward an abstract Statement shewing the Collections and disbursements for the same period.

2. The Local funds in Nellore is in its infancy and is only just beginning to assume any importance. The operations of the year were consequently on a small scale, but the establishment of a Road fund cess during the past year under the orders of Government noted in the Margin will be the means I trust of greatly extending its usefulness.

6th January 1858.

A.

Fort St. George 21st June 1858.

3. A sum of Rupees 2013-13as-2p out of surplus Pagoda funds transferred to this head under the orders of Government marginal-ly noted remained at the commencement of the Official year under report to which Rupees 335-5as-9p the amount realized from the Road fund during the latter months being added, the total assets were Rupees 2349-3a.-5p.

4. No new work was undertaken but a sum of Rupees 230 was in communication with the District Engineer sanctioned for opening the new road from Nellore to Cuddapah as far as Sungum about 20 miles by repairing temporary Bridges without which the new line would be almost impassable owing to the channels which cross it. Of this the actual expenditure to 30th April 1858 was Rupees 112-15as-9p and aid was also in communication with the same Officer afforded to the Sessions Judge.

Judge for the purpose of opening a road between Ryngamaikapetta and Nabobpetta suburbs of Vellore by the convicts. The communication was much required and it is likely to be a very useful work on a small scale. The amount expended within the period under report was Rupees 49-3-0.

5. The balance remaining on the 1st May 1858 was Rupees 2186-15-2 to which the proceeds of the road fund in 1858/59 estimated at Rupees 7000 being added, more important works may be commenced.

6. I propose to undertake the construction of a road from Goodoor the Palock causbah of Surapully situated on the Northern trunk road to Doogarauzepatam the present terminus of the Eastern Coast canal

Goodoor

Goodoor is also the point at which the new Rapoor line to Chetwail in Cuddapah leaves the Trunk road. This latter line is I regret to say still unfinished, but when completed the communication between the interior and the Coast Canal would be very useful.

7 The officiating District Engineer concurs in the project, stating that it is a measure likely to be of great utility and benefit to the District, he thinks that a Second class road may cost Rupees 30,000 but promises to have an Estimate framed when opportunity offers. The distance from Goodoor to Doogarauzepatam is about 25 Miles. The road will probably pass through or near the Cusbah Town of Cotah, which will be a further advantage.

8 The 2nd project for the year is a local one, Viz the clearing out of a

a fine reservoir situated at Mordapett a Suburb of Nellore, and furnishing water for domestic purposes to the inhabitants of those parts of the Town near which it is situated to whom the project is likely to be very acceptable a sluice to let in fresh water and an under one to let it out when it requires cleaning are part of the project which has the decided concurrence of the Officiating District Engineer who considers it would be of great benefit to the people of Nellore, and has promised to frame an Estimate. The cost will probably not exceed Rupees 1,100.-

9 The funds being still very limited, it is not proposed to entertain any permanent Establishment.-

Nellore Collectors Office 18th June 1858.

I Signed I F. B. Elton Collr

G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd. Rc. 2576.
From the Collector
of Chingleput.

Sir,

I have the honor to inform the Board, in reply to your Circular No. 1163 of the 1st April last that the use of Country Paper has not altogether ceased in this District It is greatly used for accounts both in the Hoozoor and Talooks the French Paper being too flimsy for the purpose. The quantity of each description used

10055 Fort St. George 21st June 1858.-

used for the last 7 years with their prices is entered in the accompanying Statement. The increase of consumption in the Fusly about to expire has been consequent on the issue of an increased quantity of paper for the preparation of the Village accounts by the Curnums.-

No 70

To

G. S. Forbes Esqr
Secretary to the
Board of Revenue
Fort Saint George

Bt No 1834

From the Collector of Bellary - Sir

With reference to the Proceedings of the Board of Revenue under date the 20th March 1858 held on the Summabundy Report for Fasly 1266 submits the Explanations thereon Called for

Para 1 I have the honor to acknowledge the receipt of the Proceedings of the Board of Revenue under date the 20th ultimo No. 997 held on my Summabundy report for Fasly 1266.

In the 2nd para. of Proceedings the Board observe that the 164 Shrotriem villages entered in Col. 5 of the Quinquennial Return No. 15 should have been entered in Col. 2 of the above Return. But I would Explain that the so called Shrotriem villages in this District are in fact Ryotwarry villages, the right to the lands belongs to the Government; and they are managed as other villages of the Ryotwarry settlement; but the amount of the Shrotriemdar's share in the annual Revenue of the villages, is paid in ready money; accordingly those Shrotriem villages were entered among the Ryotwarry villages in Col. 5; but should the Board be still of opinion, that the villages in question should properly be entered in Col. 2 it will be done accordingly.

Fort St. George 21st June 1858

2. With regard to the differences pointed out in para 3 in the sources of irrigation between the returns of Fuslies 1265 and 1266 it will be observed that the Board have taken in comparison only those sources which are in repair, but it appears expedient to compare both the works in repair and out of repair together as contrasted below

Item	Government works			Private works			Dasavundum works			Total		
	In repair	Out of Repair	Total	In repair	Out of Repair	Total	In repair	Out of Repair	Total	In repair	Out of Repair	Total

The

1058

Fort Saint George 21st June 1858

The difference of 16 Dasavandum works pointed out by the Board is in consequence of works out of repair which had been erroneously entered among works in repair in the accounts of Fusly 1265 having been correctly entered in the accounts of Fusly 1266 It will be seen that the whole No. 326 of Dasavundum works in repair and out of repair is correct. The Board remark that the number of new wells the lands irrigated by which are held at "Dry rates", are entered at 651 while the Comparison between the accounts of Fuslies 1265 & 1266 shews that the whole increase in the number of wells is only 357. In the note appended to para 4 of my report for 1266 the number of new wells was erroneously entered at 657 instead of 561; and the difference still observable is owing to certain wells which had been entered among those out of repair in the account of Fusly 1265, having been included under those in repair for Fusly 1266 as explained below

No. of wells in repair according to the report of Fusly 1265 ——— 16,935.

No.

* Note 1267 in the Board's Proceedings evidently a clerical error.

Fort Saint George 21st June 1868

Nr of wells in Repair according to the report of fusly 1266 ——— 17,292

Difference as pointed out by the Board — 357

Deduct wells which had been entered for fusly 1265 among those out of Repair and which are correctly exhibited among the wells in Repair for Fusly 1266 — 13

Net Difference — 344

Add Unfinished private works included in the accounts of fusly 1266 under Out of Repair ——— 217

Total new wells for Fusly 1266 — 501

The fresh accounts of Sources of Irrigation have been received from some of the Talooks and are being examined the accounts from other Talooks are still due

3 The Board (para 4) call for some explanation as to the decrease in the population of 4 Talooks therein alluded to. It had previously attracted my attention and the Tahsildars had been directed to explain the cause of this fluctuation. The Board will observe in para 5 of my report that in submitting their explanation

Fort Saint George 21st June 1868

explanation "that the decrease is attributed to the "famine that occurred between the Two periods" I have expressed my dissatisfaction of this explanation and was inclined to attribute the decrease to a want of accuracy in taking the Censuses. There is no further explanation to be given on this point

4 In para 5 the Board observe that it "seems of little use to distinguish between the "Nr of Cultivating ryots and the number of Ijem "Puttahs, if the numbers are always supposed to be "equal," and that it would be better simply to enter "the "Nr of Ijem and of Goonchee Puttahs" The Abstract given in para 6 of my report is, the Board will observe, prepared according to Statement Nr 16 (Quinquennial); as the headings of this Statement require the number of ryots to be exhibited the number of Merasidars and state Ryots as well as of Payakarees, is shewn in the Cols 2 & 3 and the number of Ijem or Single Puttahs and of Goonchee or Joint Puttahs is exhibited in Col: 5 & 6 according to the practice in this District. The number of Persons engaged in Cultivation is however known and it will be found in the Quinquennial Statement of Population Nr 17, where the number

is

is entered in Col 18, as 685068 persons belonging to the agricultural Class which comprises the families and Servants of 100533 Ryots entered in Col 4 of Statement No 16 and other Enamdars.

5 In para 6 the Board remark, that, if "as the Collector supposes, the Increase in the "Number of Petty holdings is owing to persons "coming forward in consequence of the new Rule "ignoring the system of obliging Ryots to hold a cer- "tain quantity of land, I should state what Num- "ber of new puttahs have been taken up by per- "sons who held no puttah before, as compared with "the Number of Mamool Puttadars". The account No 19 is prepared in accordance with the Govern- ment Form from which the information now Sought for by the Board cannot be obtained, nor is there any other detailed account that will correctly shew the number of new Ryots with reference to their Class in the Rent Roll. But I would beg to ob- serve that the Board seem to have misunder- stood my meaning. There was never any rule in the District obliging ryots to hold a certain

certain quantity of land. I partly attributed the increase in petty holdings to the liberty acceded to the Ryots of throwing up land they did not wish to retain, but which it had been the rule to keep in their puttahs on the System of giving up good and bad together. But a ryot who paid 30 Rupees last year, under the new privilege might give up 10 Rupees of unprofitable land and would then fall into the Class of Petty Holdings and so increase that Class

6 With regard to the discrepancy in the Number of Tanks observable between the Abstract appended to para 8 of my report and that append- ed to para 4 of the same, it is to be observed that in the former account of Tanks which received Supply the Government works are alone exhibited whilst in the latter abstract of Sources of Irrigation both the Government and Private Tanks are Shewn which is the cause of the difference

According to the Abstract of Tanks which received Supply 1103
According to the Abstract of Sources of Irrigation — 1267
Difference 164

7 In para 8 the Board remarks that Com- "paring the Merchants Prices of grain with the "Average Bazaar Prices Shewn the Monthly "Price Lists, there Seems but little difference between

"between the two, that it is very uncertain as to
"what is meant by merchants prices whether it is what
"the merchants give to the Ryots or the wholesale
"prices at which grain is sold (to any one) in the
"Market, where above one Pootty is bought at once"
To this I would reply that as far as the Statement
in question are concerned the Prices in both are
Bazaar prices. But in the monthly prices lists the
average of prices in four principal Towns of the
District is alone given whereas the prices given
in the Jummabundy report are the averages of
several markets in the 17 Talooks. Both are
supposed to be the prices given by the merchants
to the Ryots who bring their grain to the mar-
ket. They do not refer to the actual price which
the ryots may obtain by advances Mc from the
merchants, and which cannot be ascertained with
any degree of accuracy but they represent the
general rates prevailing in the Market Towns of
the District. The Board also doubt very much
"if purchases are actually made by native mer-
"chants in Bellary by this Madras Garee" and they
request that "the price per Candy or Pootty should

also

also be Stated" Purchases are not made by the
Madras Garee by the Merchants in Bellary who
purchase by the local Pootty. But in the accounts
prices per Garee have been calculated and exhibi-
ted from a long time past according to the Boards
Orders. In the Statements No 2 of the Government
Forms also the prices per Madras Garee are exe-
hibited. To give the price per Candy or Pootty by
which the Merchants purchase grain in this
District as now directed by the Board is not
practicable from the fact that the Pootty
differs in quantity in different places Formerly
a Pootty of 960 Seers or 1/5 of a garee was shown in the
accounts and this Pootty may again be introduced
in the accounts. But as this is not the Pootty
by which purchases are made here the entry of
this would be of no use. The garee is 4800 Bellary
Seers (a measure well understood in Bellary
equivalent to 2/3 the Madras Padi) or 3200
Madras Measures i e a garee.

8. In para 9 of the Proceedings under
reply the Board have corrected a mistake
I made in saying that Two third of the land

relinquished

Fort Saint George 21st June 1858

relinquished was taken up again in fusly 1265. It was only one third as correctly stated in my report for 1265 fusly. But the Board have made a mistake in explaining this as "14½ lacs out of 45⅓ lacs of acres". My observations in my report of 1265 fusly referred not to acres, but Rupees - and the amounts were not "14½ and 45⅓ lacs" but only 146446 Rupees out of 453854 Rupees -

9 In para 9 the Board remark that the extent of land taken on kayem cowle is great and "that before granting such an extent of "land on Kayem Cowle it would have been right "to have informed the Board, and wish to know if "the land is in addition to what the ryots occupied "before or if they have given up old land to take the "Cowle". In accordance with the Cowle Rules established by the late Principal Collector Sir Thomas Munro and approved of by the Board of Revenue waste lands are taken up by ryots on Cowle tenure; but ryots are not allowed to give up old land paying full assessment in order to take Cowle, and so the land is in addition to what the ryots occupied before when lands are taken up on Kayem Cowle Security is

Fort Saint George 21st June 1858

taken from the ryots guaranteeing that they will render the land fit for Cultivation within the term of the Cowle. This practice has been in existence since the renting System was abolished and the amany System introduced in this District; it was never considered necessary that the permission of the Board should be specially obtained previous to granting lands on Cowle tenure. A large extent of waste land was taken up on Cowle in fusly 1267 also in expectation of a reduction of assessment, and a further quantity of waste land is being now prepared for Cultivation under the Cowle tenure, for fusly 1268; since the reduction of assessment was made. The Cowle Rules are published in the District and as long as they are conformed to the Tahsildars are authorized to grant Cowles; and the Board will perhaps on reconsideration be disposed to allow the long Established practice which has received the Boards Sanction and been frequently reported on, to remain undisturbed.

10 In the same para the Board point out an

Fort Saint George 21st June 1858

an erroneous comparison made by me between the Cultivation of fusly 1265 and Cabooliat of 12
Before the receipt of these Proceedings this error was detected and I had the honor to submit on the 16th February last a corrected Memorandum of the land occupied in Substitution of the original Memorandum appended to para 11 of my report and as it now appears (from para of Boards Proceedings under date 12th April Nº 1267) that the figures for fusly 1264 have been incorrectly re-entered in the report for 1268 fusly. I have the honor to submit a carefully corrected and examined memorandum for entry in the Margin of 11th para of my report for 1266. of Land occupied in fusties 1264-1265 and 1266

11 The information called for in the 11th para of the Proceedings of the Board of Revenue above referred to on the subject of Reddies appearing will be furnished as soon as the accounts of the current fusly 1267 are got in, a special account is being prepared, from which I hope to be able

Fort Saint George 21st June 1858

to lay the subject before the Board in a satisfactory manner

12 The Board point out (para 13) a difference of Rupees 9-15-» in the Cowle remission between the amount entered in Statement Nº 4 and that entered in the Cowle Statement Nº 6, and its enclosures; The amount of Cowle remission viz Rupees 118155-8-» entered in Statement Nº 4 is correct; and the Sum of Rupees 9-15-» which should have been entered in the progressive Cowle Statement, was erroneously omitted in Statement Nº 6 and merged with other remissions

13 The difference of Rupees 811 pointed out in the 14 para of the Boards Proceedings observable in the Stamp Revenue, is the value of defaced Stamps paper returned to the Superintendent of Stamps, and credited in the demand Collection and Balance Statement, whilst in the Statement Nº 10 of the Jummabundy accounts the value of those Stamps was not included

According to the Statement of Demand Collection and Balance — 26997
As per statement Nº 10 — 26186
Difference — 811-

14 The Board point out in para 15 that the Col. 8 headed "Interest account" in enclosure of Statement Nº 11 has been left

left blank the sum of Rupees 486-13-2 Should have properly been entered under this head but was erroneously merged in the amount of Extra Revenue in Col. 7. of the Statement

15 With regard to the difference pointed out in para 16 regarding the entry of charges on account of Government Plantations for fusly 1265. I beg to submit the following explanation On the 18th May 1852 two separate Sanctions were granted for the expenses of the Government new Plantations of this District Viz. No. 3101 Rupees annually for the Topes planted up to fusly 1261; and 2d the appropriation of the produce of these Government Plantations for the support of Topes planted subsequent to fusly 1261. In the Statement No. 14 of 1265 fusly the amount expended of the latter description of charges, amounting to 833 Rupees was also included; but as this was not correct in the accounts of fusly 1266 the charges on account of both descriptions above noticed, amounting to Rupees 3951 were correctly included and hence the difference

In

16 In the 17th para of their proceedings the Board calculate a difference of Rupees 18513 in the amount of permanent remissions shown in Col. 5 of Statement No. 21 and that exhibited in Col. 3 of Statement No. 4; but these two Statements do not admit of comparison with each other as they represent different things. In Statement No. 4 of remissions the amount of permanent remission entered at 637421 is on the whole amount assessed, including second Crop and additional assessment, of Rupees 26,92,122. But that entered in Statement No. 21 (the object of which account is to show the average assessment per acre on the land occupied by Ryots) is the amount of permanent remission estimated on the Jerum assessment of Rupees 21,97,299 on lands exclusive of second Crop and additional assessment. It will be observed (Statement No. 21) that the Jerum assessment on the whole land Cultivated for fusly 1266, amounts to Rupees 24,20,476; and from this 223177 being deducted on account of lands without remissions there remains a sum of 21,97,299 Rupees, and on this amount the permanent remissions has been estimated at Rupees 6,18,908

* Permanent remission as per Statement No. 4 — 637421
* Do. No. 21 — 618908

From the Collector
of Bellary
Dated 22nd May
1858.

Sir,

With reference to your Circular No 1843 I have the honor to forwarded a Statement shewing the expenditure on Public works by this Department during the last 5 years and also upto November 1856. The accounts from 1851 to 1854 have been closed for Calendar years. The period from January 1855 to April 1856 has been reckoned as one Official year. The works executed from May to November 1856 when the Department was under the Collector have also been included in this Statement. I learn that the Bills of works executed in the Engineer's Department after the Transfer of the Department are still incomplete.

of the official year 1856/57 but it was not till the 1st of January 1857 that the executive charge of the District was transferred to the Engineer Department. During the first 8 months of that year the public works were principally conducted through the Salook agency during the remaining one third of the year some works were executed by the Subordinates in the Department Public Work and some by the Shanadars, the latter having charge of only such works as they had previously commenced.

+ C. M. dated 12th November 1856 No. 212
C. C. Pros. 15th Dec. No. 8117.

3 The total outlay during the year 56-57- on account both of repairs and new works amounted to Rupees 100001-7-4; of which sum nearly one half was laid out on Irrigation

Repairs - 72,313-11-2
New works 27,689-7-2
100,001-7-4

Irrigation works. The bulk of the remainder or nearly Rupees 44,000, was on account of Roads and Bridges No irrigation works of any considerable importance were undertaken during the year, the chief expenditure being on repairs of existing works. The case is however different with communications and Buildings. The road from Yercaud on the Shevaroy Hills to Mallapooram the hill Railway station a distance of nearly 19 miles, was commenced in May 1856, and nearly one half of the line was completed by the close of that year. The expenditure during the year on this work was Rupees 10500 - another branch road leading to Semmery droog from the 12th mile on the high road from Salem to Namcul was also in fair progress. This branch was opened

+ Estimate - 24,600 Rs
+ Estimated 5,800 Rs
Total dist. 20 miles.

opened to connect Rageipoor with Sen Kerrygdrog. Nearly a third of the line was completed during the year The expenditure for the same period on this work was Rupees 3000-

4 As regards buildings the Salem Jail chiefly calls for remark This work was commenced on an Estimate of Rupees 36000 but owing to the late period at which the sanction of Government was received very little or nothing in the shape of work was performed during the year. Two other work, Viz: the Sick Stables the Remount Depôt at Ossoor and the Hospital for Venterans at Salem, may be classed under buildings of importance undertaken during the year.

5 The order of Government directing that all works be discontinued, excepting those of an

an emergent Kind materially affected the progress and working of the Department Public Work.

6. With regard to the general results of the Official year Just closed; I may observe that the expenditure on account of repairs and new works amounted to Rupees 10,9,119-12-11- or Rs. 9118-5-7- in excess of that incurred during the preceding year Including a further sum of Rupees 6966-11-11- laid out in the purchase of Building materials and Tools, the excess over the past year comes to Rupees 16,085-1-6-

As in the preceding

7. year the outlay on works of irrigation was almost wholly on account of repairs Deducting the sum disbursed on Irrigation works the remainder Rupees 66,000 was laid out on communications and buildings

Repairs – 65191-5-5
new works – 43,928-7-6
10,9,119-12-11

+ New works – 42128 804 = 42,932

buildings - With one exception under the head of "buildings" all the other works were those commenced in the preceding year - The amount of work during the year under review was in regard to communications less than that performed during 56 - 57 - The proportion being one half for the Mulla portion and one for the for the Sankerry drong line compared with what had been executed the previous year - The Jail work is in fair progress and the stables at the Remount Depot have been completed - They only important building that was undertaken this year was the District Engineers office and store sheds -

8 That so limited an amount of work was done to the roads was owing principally to the stoppage of all Public works except

except those of a very urgent nature under the instructions of the Supreme Government conveyed in Circular from the Chief Engineer dated the 17th July 1857 N=66 -

9 I beg to enclose two Abstracts one shewing the details of expenditure on Repairs and new works - and the other giving a list of important works for the Official years 1856 - 57 - and 1857 - 58 -

No 114

To

G. S. Forbes. Esqre
Secretary to the Board of Revenue
Fort St. George

Be No 2589.
From the Collr of North Arcot

Sir,

I have the honor to submit for the consideration of the Board copy of a correspondence that has passed between Mr. Sullivan and myself on the subject of the failure of crops in the Poloor Talook.

Submits with certain observations for the Boards consideration and orders copy of a correspondence that has passed between himself and the Sub Collector on the subject of the failure of crops in the Bloor Talook.

2. I considered and still consider that the circumstances stated by Mr. Sullivan in his letter of the 27th Ultimo and in his demi Official note of the 7th June in which he expressed serious apprehensions in connection with the Poloor Talook render it highly advisable that he should proceed at once to that Talook and satisfy himself by local enquiry, what has been the condition of its cultivation, but in para 4 of his letter of

Fort St. George 21st June 1858

of the 9th he states that if he is allowed some discretionary power in granting remission he is sanguine that he shall be able to settle the Poloor Talook with satisfaction.—

3. I fear however that if this discretion be extended to the Talooks of Tirvellore and Wundawash in which the loss of crops was after careful enquiry ascertained to be only 2 25/32 2-7/8 per Cent on the Cultivation, it will create great discontent in the other Talooks of the district which are in the course of settlement.—

4. I beg to notice with reference to para 4 of Mr. Sullivan's letter of the 9th that "the twelve per Cent was not the "extent of Munjah shavy to the end of last "year, in the Poloor Talook," but up to the 20th of April last, as was stated in my letter of the 8th May No. 83.

5. I beg to solicit the instructions of the Board whether they are willing to authorize Mr. Sullivan to exercise the discretion in granting shavy which he requests

Fort St. George 21st June 1858

requests may be given him, or whether they are of opinion that notwithstanding all that Mr Sullivan has advanced in his letter of the 9th Instant he should be required to ascertain personally what has been the condition of the crops of the Poloor Talook.—

No. 305.

To

A W Sullivan Esqr.
Sub Collector of North Arcot

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter of the 27th Ultimo No. 90 enclosing an anonymous petition on the subject of the failure of crops in the Poloor Talook which petition purports to come from the ryots of that Talook.

When

Fort St. George 21st June 1858

2. When towards the close of last year, reports were received from the Talook that a considerable failure of crops was anticipated, I called the attention of the Tahsildar to my repeated orders that in such cases they themselves their Serishadars and Peishcars should personally examine the state of the crops and that the Tahsildars should then report the result to me. The report of the Tahsildar of Poloor showed that the loss by shavy in the Poloor Talook where it had been most extensive was not much more than 12 per Cent on the cultivation I submitted this report to the Board, and obtained thereon their Orders regarding shavy which have been promulgated.—

3 In your letter under reply and in a note marked demi Official dated 7th Instant you mention the "sad state" of the Poloor Talook, and report that "shavy exists there to a great extent" "It is obvious therefore

Fort St. George 21st June 1858

therefore that in spite of the care I have taken to obtain correct information of the real extent of shavy on that Talook the report furnished to me by the Tahsildar is not trustworthy, and I have therefore the honour to request that you will be so good immediately on the receipt of this letter to proceed yourself to the Poloor Talook together with your serishadar, and ascertain by careful enquiry what the real condition of the crops has been any recommendation that you may feel it proper to make founded on this personal enquiry I shall forward to the Board for their early consideration and orders.—

4. As this enquiry will somewhat retard your Jummabundy I have decided upon relieving you from the settlement of the Trevalum Talook which I shall undertake myself.

5. As I consider it of great consequence

Fort St. George 21st June 1858

consequence that the ryots of the Poloor Talook should learn as early as possible the steps I have taken consequent on the reported state of that Talook, I have sent a tahseed to the Tahsildar directing him to inform the ryots that you are about to visit the Talook immediately with a view of personally ascertaining its condition

I have the honor to be &c

Sir

I have the honor to enclose for your perusal and such notice as you may consider necessary a threatening anonymous petition purporting to come from the Ryots

Fort St. George 21st June 1858

Ryots of the Poloor Talook.

2. I should not deem it worthy of consideration excepting for the statement made in it of certain special remissions having been made in South Arcot at the Jummabundy of the Current Fusly looking to the badness of the season.

3. If these remissions really have been granted in South Arcot which touches the Poloor Talook and where a revision of the assessment is in full working it would be deserving of the consideration of the higher authorities whether looking to the sad state of the Poloor Talook a similar indulgence might not be extended to it

10098 Fort St George 21st June 1858

No 1102

To

C Whittingham Esq.

Collector of North West

Sir

I have the honor to acknowledge receipt of your letter of yesterdays date No 1236 being a reply to mine of the 27th Ultimo No 1091 with enclosure and to a Semi Official note of mine of the 7th Instant

2 I have no reason whatever to believe that there has been any remissness on the part of the Taloke Tahsildar of Poloor his Sheristadar or Peshcar in carrying out your orders regarding Waste crops but their operations were confined by those orders, I believe to Nunjah Shavy and the information so far I believe to be quite trustworthy

3. To enter therefore more carefully with my Sheristadar into an enquiry of what

the

EB.

10099 Fort St George 21st June 1858

the real condition of the crops has been" in the Poloor Taloke would be a work of great and to me apparently useless labour, as regards Nunjay, as stated before, I believe the accounts to be quite correct and as regards Poonjay, I do not see the use of agitating the question unless it be in contemplation to give remission on that head which would have to be extended to all Talookes.—

4. Twelve per Cent may have been the extent of Nunjay shavy to the end of last year in the Poloor Taloke but it is increased by the shavy of the Navira crops and owing to the percentage system of calculating shavy on a manoputtah beriz which may be fair enough where his Poonjah crops have not also failed, a great portion of this Nunjay shavy has to be brought to account and in such a year will press very heavily on the ryots notwithstanding the revision of the general assessment.—

The

Fort St. George 21st June 1858.

5 The expressions made use of by me of the 'sad state' of the Poloor Talook and the 'great extent of shang' had reference to all crops and to the general character of the season which has been very disastrous to the three southernmost talooks especially Poloor and Wundawash in which talooks in many villages until the recent rains, water was wanting for even Domestic use and cattle, as also pasturage for the latter.—

6. I had always intended doing the Poloor and Wundawash Talooks last, in order that I might hold some such enquiry as that you propose, if I found it absolutely necessary, and I would wish, if I am able to continue my work at all in the district, to adhere to this plan but my health has been so bad for the last month that I much

fear

Fort St. George 21st June 1858.

fear the necessity of applying for sick certificate, a step I am however most anxious to avoid.—

7 . . My reason for wishing to take these talooks last is that any enquiry held there with the object, whether avowed or not, of recommending some leniency in the settlement before puttahs had been generally taken in at any rate some of the other Talooks would tend to unsettle the latter as they have all more or less suffered from the unfavorable season and this would seriously delay the whole Jemma: bundy.—

8 I mentioned to some of the principal ryots of the Poloor Talook who came up to me my intentions regarding them and they went away apparently satisfied but they are always a trouble: some discontented set especially those bordering on the South Arcot district where

Fort St. George 21st June 1858.

where I am given to understand, notwithstanding the recent revision of the assessment in that district extensive remissions on account of Shavy Vr have been given this Fusly looking to the badness of the season and on extension of such indulgence to these Talooks, seeing that they border on the South Arcot district might be advocated I think at once this is all the ryots ask in their petition.

9. If however I have some descretionary power allowed me in granting remission for Nunjay shavy under the rules altho the waste crops may not have been kept on the ground for inspection provided at the Jemmabundy I am satisfied on enquiry that the crop was truly withered I am sanguine that I shall be able to settle the Poloor Talook with satisfaction to all parties though not without some trouble but it

Fort St. George 21st June 1858.

it always has been a troublesome talook and I fear your Talkid to the Tahsildar will have a tendency to make the ryots of the Poloor Talook more saucy and exigeant.

10. With reference to Para 4 of this letter if you still wish it, I will take up the Poloor Talook at once but it will be against my own judgment and I am confident the result I predict will ensue as regards the other Talooks

11. The Curnums of the Vellore Talook having returned I shall be able to give the puttahs out in a day or so to nearly 2/3 of this Talook the ryots of many Villages from a distance are up and have been for some days detained by the absence of the Curnums and it would be hard to send them back without their puttahs added to which the bulk of the Poloor Curnums are also absent just

Fort St. George 21st June 1858

just now on the same errand and without them I could not get much information

12. Besides the state of my health which makes me desirous if possible of not being out of reach of medical aid for a short time there is another important reason of a Magisterial nature for my not leaving the vicinity of Vellore just at present which as I do not wish it made public at this moment I have embodied in a semi official herewith enclosed.

13. I trust that you will not think by my writing this letter that there is any wish or intention on my part to evade your request regarding proceeding to the Poloor Talook immediately but I really believe it would lead to similar demonstration in other Talooks and seriously complicate the Jemmabundy of the Sub Division

Br. No. 1939.
From the Jt. Collr. of Tinnevelly. } Sir,

The Mother of the Minor Zemindar of Shevelputty Estate now under Circar Management reports to me by an Elzee dated the 17th Ultimo that the Ameen entertained for the management of the affairs of the Estate carries on her duties efficiently, and judiciously to promote the well being of the Zemindary, and recommends that the allowance of 12 Rupees now assigned to him may be increased to 17½ Rupees.

The Zemindary of Shevelputty is composed of 30 Villages, the affairs of which are stated to be managed efficiently by

Fort St. George 21st June 1858.

by the Amen: The Manager of the estate of the Minor Zemindar of Mun: narcottah the peshcush of which is less than that of Shevelputty receives a salary of Rupees 7½ a month, conse: quently and moreover as the adverse state of the season for the last 3 or 4 years has increased the price of the necessaries of life, I am of opinion that the pay of the Amen should be increased to 7½ Rupees a Month. I therefore re: quest that the Court will be pleased to accede to the recommendation of the Minor's Mother for an increase of the Salary of the Amen.

Acting Collector.

Memorandum

10113 Fort St. George 2nd June 1858.

Memorandum.

Wm. C. Taylor applies for 5 Cawnies of land at Cotacamund. It is bounded on the north by waste land, on the South by upper drive, on the east by the lower drive and waste land, and on the west by the upper drives. No objection, whether on public or private grounds, exists for disposing of the above land the upset price calculated at 5 years Quit rent at 1-2-4 per Cawny per annum amounts to Rupees 28-10-4.

Cotacamund, 4th June 1858. } (Signed) J. W. Sibery
Acting Collector.

B. No. 2226

From the Collr. of Malabar ...

Sir

With reference to the papers noted marginally, I have the honor to report on the subject of the attempt to produce Salt of superior quality within the District of Malabar

2

I need not refer to the records noted marginally which occurred about the time that the manufacture of indegeneous Salt ceased in Malabar (1823) to satisfy the Board that the promiscuous revival of the manufacture

manufacture of the miserable article which was produced in the Malabar salt creeks would prove in the last degree detrimental to the Revenue would necessitate the entertainment of a large establishment to protect it and lead to constant collision. The old method of manufacturing in Malabar was really an expensive and deficient one and lastly I do not hesitate to add that the salt manufactured by the processes now used in Malabar was of a character that was and would be found utterly unfit for the purposes of the Government monopoly.

3. As the District now stands the illicit manufacture

great and its surveillance is possible. During the 30 years since the manufacture ceased the swamps have become overgrown and many are converted into Paddy fields and cocoanut Plantations. The taste of the people has improved and the wealth of the Community is such that the people easily afford to pay for the better and foreign article. There is no general and tempting demand for the bad indegenous salt. But the promiscuous revival for one season would again bring all these prolific sources of illicit manufacture and active collision into full operation and the effect would be to reduce the taste of the people within a few years so greatly that there would I fear be but a poor market for the imported article which for the sake

of

of the Revenue it was hoped would be abundantly introduced by sea

4 I therefore considered that great circumspection was to be observed in regard to the revival of the indigenous manufacture of salt. I refused to give the general license that formerly prevailed and restricted the operation of the Government Order to pans to be opened on improved principle, and on the system pursued on Bombay. The most eligible localities for Exclusive manufacture and easy surveillance were chosen at the places noted marginally and there proprietors were encouraged to lay out considerable sums of money in reclaiming the

the pan from Waste. Experienced Manufacturers were obtained from Bombay and entertained as instructors and more or less extensive pans planned on the principle adopted in the Bombay Salt works were cleared and formed.

5 I carefully avoided giving any assurance that should hamper Government in future. The salt was to be manufactured Exclusively for Government and to be delivered at the Gollas. No guarantee as regards the future was held out. No rate to be paid for the salt could be fixed upon as it was impossible to foresee the cost of production. So I merely informed them that as it was calculated that the profit of the monopoly to Government should be 10 Rupees per Garce of salt 15 Rupees would

be the highest price that could be allowed that b on 7 Rupees per Garcaw was the price usually paid by Government in other Districts and that although 15 Rupees b/s charges would be paid for the first salt produced the price would eventually be adjusted with reference to the cost of production.

6. Considerable energy was shown by the people during the season of 1856/57 and a good deal of money was espended. Pans were cleared and laid out with care and every exertion was made to secure success. I regret however to say that the attempt failed every where except at two spots

Calicut-Ellatoor
Shernad-Kallooa

named in the margin and at these although salt was produced it was comparatively poor in quality and

scarcely exceeded a sample in quantity.

7. The expenditure during that year 1856/57 is shewn in the margin

Wages to 8 Manufacturers from Bombay		603-7-0	
Do " 5	Do in Malabar	118-10-2	
	Rupees	722-1-2	

8. It is difficult to give precise reasons for the failure - It is attributed to many circumstances but the principal cause is no doubt to be found in the sandy nature of the soil of our tidal creeks and the tendency of the water to sink thro' the bottom of the pans. This circumstance was aggravated by the roots of Jungle that was cleared away by number of crabs and Worms that perforated the bottom of the pans Vide Vide In fact the Bombay Manufacturers allege that even on these fine clayey soils it requires several years to restore

to

to perfect working order pans that have fallen into long disuse. The climate has had effect. During both these last seasons we have had a singularly early burst of the monsoon and this has been preceded by an unusually early commencement of broken weather

Season of 1857/58

9. The entire failure of the season of 1857/58 naturally made people very doubtful about proceeding with these attempts during the season of 1857/58 and I too have been willing rather to concentrate our endeavours this season. The two most favorable localities near Calicut were selected, experienced Bombay manufacturers were again called for and the experiments have again been vigorously prosecuted. From the pans of the former a small quantity of salt

Pattiyat Govinda Menon's Karimbilly coorgis

a sample of which is herewith sent was obtained at the latter spot. The attempt has again entirely failed.

Wages for Bombay manufacturers Rs. 235

10. Expenses as per margin have been incurred and have been borne by the proprietors but I venture to solicit sanction to refund this sum making the amount requiring sanction Rupees 539-1-4, Viz.

Expenses incurred in season 1856/57 Rs. 722-1-2

ditto ditto 1857/58 " 82 " 2

804-1-4

Less Amount sanctioned in Extract Minutes of Consultation dated 17th January 1857 Rs. 65 ——— 500 " "

Still requiring sanction 304-1-4

11. So far the attempt to produce good salt must be characterized as too unsuccessful to warrant any conclusion on the subject of the production of a salt in Malabar, in any way suited to the purposes of the Government In one.

Fort St. George 21st June 1858

Bialabeau Salt
nâtroopoo could with any justice or fairness be sold to the people at the pre-
-sent Monopoly prices even were the or-
-dinary manufacture of the country ful-
-ly revised and a fair supply produced.

12. We have been disappointed so far I must admit that I am no-
-longer so sanguine. We have had ex-
-perienced manufacturers from Bombay.
We have had the advantage of a Zea-
-lous and Experienced official formerly employed in the Salt Department in Tanjore as a Superintendent. We have had energetic and liberal capitalists to un-
-dertake the business, and every facility and aid has been afforded but we have not succeeded. I should recom-
-mend that a further trial be made next year at the Pans where slight success has occurred this year. Should this succeed other proprietors will speedily follow and in a few years a

Fort St. George 21st June 1858

a fine supply may be obtained.

13. But I am afraid the mat-
-ter will after all resolve itself into a question of the expediency of the contin-
-ued cessation of the indegenous produc-
-tion and the indiscriminate revival of the manufacture of the miserable and insufficient article which has disappeared from the District for 30 years with all its innumerable sources of roguery vex-
-ation and Collision and discredit to the Government for dealing in an inferior article at very high prices

14 I do not hesitate to record my most decided preference to the former alteration Viz^t the continued cessation. I have had se-
-veral years experience of the diffi-
-culties attending the administration of

The smugglers are trouble

of Monopolies in Malabar, and I fore-
see much confusion and difficulty should
the other be permitted. I must re-
fer the Board to the correspond-
ence which took place about the
time the manufacture ceased in proof
that such was the result of actual
experience of years. The only argu-
ment used at the time against the
suppression was that of the advan-
tage of "giving employment to a num-
ber of individuals who would otherwise
"for a certain period at least be cut off
"from a means of gaining subsistence." This
argument has clearly now no force after
a lapse of 34 years of disuse - There is no
active desire or demand for the revival of
the manufacture on the part of
the people It would be no boon to the country to

Letter from Board of Revenue dated 23rd Sept. number 1824

EK

to retail the miserable article of home
manufacture at the present monopoly
prices and the Law admits of no
differential rates.

15. The question will then
be how is the supply of foreign Salt
to be obtained On this subject I wrote
No. 152 fully under date the 17th October 1857
and I must admit that my fears
as to the effect of the change do not
abate.

16. In October 1856 we raised
In Bd's 1-2-6 the price of Salt 15-10/2.6 per ℔ so as to
include expenses. The trade was
thrown open at an Import duty of 14
Annas per Indian Maund and
every encouragement was given long
credit for the payment of duty and
high Storage charges have all
been offered - Imports have been
authorized even at the Minor
ports

ports which are not included in the
list but the result is not encoura
-ging. The import in 1856/57 on pri
-vate account amounted to 34,347
@ 14 as per Indian Candy at a duty of Rupees
in bronnd 30,054 but the speculation proved
disadvantageous and the import of
1857/58 on private account fell to
Indian Candy 10,435 realizing a
duty of Rupees 8,931. Those imports
have only taken place at petty inter
-mediate ports and are to be accoun
-ted for solely on the ground that
shipping had to be sent to these ports
for produce and must have come
in ballast had they not brought
a small cargo of salt.

17. The fact is simply this
after two years experiment we
cannot point to the smallest advance
in the tendency of commercial capital
towards

towards this branch of trade - there
is not the faintest prospect of com
-merce under present circumstan
-ces gradually supplying the place
from which the Government de
-sires to withdraw. The change
if carried out on the 31st January
next must be a sudden & violent measure.

The consequence to the peo
18. -ple will assuredly be perplexing
-We are selling salt at the Government
Gollahs at Rupees 1383/4 per Goree
Expenses inclusive and Merchants clearly do not find
their account in competing. A
large enhancement of price must there
-fore be the first and inevitable con
-sequence of the change so far as I can
learn

Fort St. George 21st June 1808

learn Rupee 1-6-- 7p.c. Indian Garaud is the very lowest rate at which Bombay salt imported at annas 14 p.c. Indian Garaud can be sold by private Mer- chants on the coast - Thus 153 to 164 probably 175 Rupees per Garee will become the lowest price at the sea Ports of this necessary to the poorest mans comfort - add to this the certain- ty of temporary combinations amongst the Bopla Merchants uncertainly of supply deficiency of stock during the Monsoon and other contingencies of trade and I foresee for a time at least very considerable popular inc- convenience -

19. The consequence to the Bunjarees traders upholstering the produce of the interior

Fort St. George 21st June 1808

interior to the coast and look to salt for a return load, will be very severe These nitinerant Merchants now obtain a certain return load at a known cost and without demurrage for their enor- mous droves of cattle. A single days detention on the coast where fodder is very expensive is a serious matter to them - Their demand is sudden and their requirements are very large and - emergent - Under the new system supplies will frequently be deficient and require to be picked up at more spots than one - The holders of salt will be enabled by a very temporary combina- tion to exact from their haste and necesity almost any price - In short they will assuredly meet with great difficulties This circumstance will have a serious effect on the cost of transport to

Fort St. George 21st June 1858

to the coast of coffee &c. for a time.

20. I need scarcely add that the local officers of Malabar without exception look forward with some anxiety to the sudden change the people of the country universally deprecate it. The principle is very good and I do not despair of seeing it carried into practice, but among a population constituted as that of Malabar and at a time of very prevalent Excitement so important a change should be carried out very gradually and the country should be carefully prepared for it such is not the case

Fort St. George 21st June 1858

case now and cannot be the case before the 31st January 1859. The opening of the Railway will I think have an important effect on this trade and I would await that event.

21. I append a full Statement of the Salt Revenue of the District from the earliest periods. It presents under the present system steady and satisfactory increase and this year it rose to the unprecedented amount of Rs. 361,624.

I doubt whether any important financial purpose is to be served by the immediate charge.

ER

10137 Fort St. George 21st June 1858

No 89 1858.

To G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

B. No 2422
From the Actg Collr
of Malabar

Sir,

I have the honor to for-
ward a decision recorded by me under
date the 16th April 1857 in the case of
Venkata Ramya late 1st Goomastah
in the Wynaad Talook, and to beg
that the Board will permit his re-
instatement.

The facts of this case are
these. His Treasury Account of Pay
of Establishment had fallen into
arrear and confusion, more or less
thro' his own fault, but with the
palliation that the Wynaad ac-
counts of Establishment are exceed-
ingly troublesome to keep up on
account of the number of sick, of
Substitutes

Substitutes and of dead Peons pay &c
and from the fact, that many, owing
to the distances to be travelled, had
been in the habit of leaving their
pay undrawn &c for months. In
1856 Mr. Clarke suddenly required
a clear and thorough condition of
accounts and return of Balances
in Deposits unpaid, and in the hurry
of preparing this return a mistake occur-
red, in consequence of having failed
to enter some payments; and to adjust
this he fabricated or altered some items
of the account. The payments had
been duly made and appeared in the
Huzzoor accounts. No embezzlement
took place and he derived no pecuniary
profit from the irregularity. However
I dismissed him, as the 1st Goomastah
in the Wynaad Talook is virtually
the Talook Sheristadar, and
I consider the alteration of
items of any account even
without

without fraudulent intention or
profit a serious offence in an officer
in his position.

He is an old servant and can
be trusted with money - but his
greatest virtue consists in his being
acclimatized to Wynaad, where he
has resided for years and always
enjoys health - an exception to the
sad rule in that Country, this makes
his re-employment almost indispensable.

Since his removal from the
service I have found it quite im-
possible to induce Officer of worth
and character to go to Wynaad - I have
sent one or two, and the last I have
been obliged to remove for petty
irregularities in the transaction
of cash business of the Treasury,
and now I cannot get an Officer
to go, to whom I would be willing
to entrust the Treasury and accounts
in

*NB The Country is so unhealthy that almost every Officer prefers re-signing his service to proceeding thither

in the Tahsildar's absence.-

Venkata Ramayen was weak, but he was not dishonest, The punishment he has undergone will suffice I think for the purpose of warning, and it would be a real benefit to the Public service to have an experienced and acclimatized servant in Wynaad who will take care to behave in a trustworthy manner in future - We despair of providing well for the appointment in any other manner.

Calicut 4th June 1858

(Signed) W. Robinson
Acting Collector

Memo

A careful examination into the circumstances of this case satisfies me that carelessness not wilful fraud has

has been the cause of the fabrication of false accounts.-

The 1st Gomastah had omitted an item of cash deposited, and when the accounts came to be balanced, an excess of cash in hand appeared - He seems then to have be thought himself of how to get rid of it, and set it down as due to certain Officials, whose accounts he proceeded to alter in the account of salary- In accordance with this arrangement, Rupees 9-11-9 were disbursed to persons to whom it was not due, the balance was refunded - The Rupees 28-10-9 are still due to the Porkady Ameen, and are to be made good in full by the 1st Goomastah.-

An examination of this Officers accounts

Fort St. George 21st June 1858

accounts shews that he has disbursed erroneously Rupees 18-5-7 to various individuals, Peons, which deficit he is likewise to make good.

The Acting Collector, while acquitting the Defendant of fraudulent acts for his own benefit, considers the doctoring of account and making false entries to cover errors and negligences and the carelessness shown in making extra disbursements are indicative of so thoughtless and untrustworthy a turn of mind and habit, and a course which merits severe censure for the sake of example, that he cannot retain him in the responsible post of 1st Gomastah in a Calcutt-

He will refund the deficiency — and is hereby removed from his appointment.

Fort St. George 21st June 1858

No. 74

To
G. S. Forbes Esqr.
Secretary to the
Board of Revenue
Fort St. George

Sir

13th. No. 2045 From the Collector of Madras ...

Reporting upon certain frauds in the Yeomiah Department of this Office.

I have the honor to report upon certain frauds in the Yeomiah Department of this Office which a recent investigation has brought to light.

2. Enclosure 1 is an Abstract of the evidence given before me, and to this document I would refer the Board for particulars, as I shall confine myself in this letter to giving a short history of each case, and making a few remarks which naturally arise from them.

3. On the 2nd of February I received a letter from one Gholam Hoossain, bringing to notice that Ghouse Bee who drew a pension from this Office of Rupees 46-10-0 yearly, as the alleged grand daughter of Beejan Bee, a deceased Stipendiary of the Stampank Saghire, was not so related, but was in reality the daughter of — Shurkh Hoossain, a Vakeel for several parties (Goshee women) receiving pensions from this Office.

To Board	5th October	1855
From Do	30th October	1855
To Ditto	12th November	"
From Board	22nd December	No. 3423
forwarding Extract Minutes of Consultation	15th Idem	No. 1360

4

Mahomed Jalaludeen	1
Mahomed allykhan	2
Subder Hoossain	3
Mahomed Jaffer ally	4
Fitha Hoossain Khan	5

The informer mentioned certain Yeomiahdars of the Stampank family, who could speak as to the real descendants of Beejan Bee, and these having been examined by me, fully bear out the informer's

informers assertion, that Ghouse Bee was not the grand daughter of Beejan Bee, the latter having left only one grand daughter named Kyroonnissa Begum, who draws a pension of 33 and odd Rupees monthly from this office in right of her deceased husband.

5. Sheikh Hoosain has been the Vakeel of this woman since the commencement. I have already reported to the Board regarding this man and another, Gholam Mahomed Sahi, having been allowed by the yeomiah Department to draw pensions as Vakeels, much in excess of the amount the yeomiah rules permit, and showing the impracability of adhearing strictly to the rules respecting Vakeels and Certifiers sought for some modification of them upon the suggestions thus made I have not received the Boards views.

6. Sheikh Hoosain admitted before me that Ghouse Bee was his own daughter that he gave her to Moden Bee, who was childless and one of the Stampank family, and that part of the pension of Mohdeen Bees grandmother & Beejan Bee had been conferred upon his daughter.

7. I stated in my letter to the Board, 12th November 1857 that Gholam Mahomed Sahi and Gholam Moolah had given a kyfiyat before the amildar on the 15th August 1856, that Ghouse Bee was the daughter of Jainup Bee, the daughter of Beejan Bee

K.B. 9th May 56

Bee, the husband of the former having been Syud Ally.

8. These men acknowledged their signature to the kyfiyat, and the Certificate given by them as certifiers to the existence of Ghouse Bee, and asserted that they had always declared that Ghouse Bee was the adopted daughter of Mohdeen Begum, and that they knew not what was written on the documents which they had attested.

9. Subsequent to same Correspondence with the Shopank Agent in 1856, Copy of which is forwarded (Enclosure 2) and to which I will make further reference at a latter stage of this letter, I had determined having found that I could not enforce the Yeomiah Rules in all their stringency, to make payment to the sixteen women whose cases were looked upon with suspicion by Dr Balfour, upon Certificates of existence given by the Dewan to the late Nawab.

10. Upon proof of this irregular payment to Ghouse Bee I requested the Shopank Agent to call upon the Dewan to explain under what circumstances he had passed his Certificate to Ghouse Bee and was surprised to find from his reply to Dr Balfour 15th February 1858 (Copy of the Correspondence is forwarded in Enclosure 3) that Ghouse Bee was the adopted, and not the real grand daughter of Beejan Bee.

11 She stated also that this was not the only instance of payments by this Office to adopted children, and on further requisition from me stated which these instances were.

12. This last letter / To Government Agent 6th March / disclosed three other cases of pensions fraudulently obtained, and this I will proceed to relate.

Moorad Bee

13. This woman has drawn a pension of 160 Rupees yearly from the 17th September 1828, as the supposed daughter of Odia Sahiba, a member of the Stampauk family.

14. The Collector Mr. Murray, granted the pension under the general authority conveyed in Government letter to Board 20th March 1821 permitting the transfer of a pension of a deceased member of that family to his or her successor, on a reduction of 1/3

15. Not only is it clearly proved by the yeomiahdars noted marginally that Odia Sahiba had no children, but also that Moorad Bee was the daughter by a concubine, of her husband Moonavar ally Khan, and that she is now the wife of Sheikh Hoossain, the Vakeel before alluded to.

Mahomed Ally Khan
Mahomed Jaffer Ally
Sheikh Hoossain Khan

Mariam Boards case

16. This woman receives a pension of Rupees 93-4 a yearly as the supposed legitimate daughter of Moonavar ally Khan, a member of the Satampauk family.

The

The Collector under the authority of the Government letter 20th March 1821, having sanctioned a continuance of his pension, 2/3 to his alleged daughter, on the death of Moonavar ally Khan in 1826.

17. It is now discovered that Mariam Bee is the sister of the above mentioned Moorad Bee, and the wife of Sheikh Khan, the brother of Sheikh Hoossain.

Koolsum Bees case

18. This woman was granted a pension of Rupees 66—10—8, yearly as the grand daughter and representative of Fatma Begum a member of the Satampauk family, under the sanction of Government 20th June 1854 upon the recommendation of the Collector 5th May 1854.

19. The Amildar reported 1st December 1853, that Koolsum Bee, was the grand daughter of Fatma Begum, and forwarded a Kyfiyat from Abdool Khadir, a yeomiahdar and since dead, Gholam Mahomed Sawi, & Sheikh Hoossain, in which they declared that Koolsum Bee was thus related.

20. Mr. Stokes also took a deposition, 27th January 1854, translation of which only can now be found, from Ahmed ally Khan and Sufder Hoossain, yeomiahdars of Satampauk the former dead, the latter now drawing a pension of 40 Rupees yearly, in

which

which they state that Koolsum Bee was the daughter of Hoofsain Bee, the daughter of Fatma Begum.

Mahomed ali Khan Mahomed Jaffer ali Fatha Hoofsain Khan

21. It is now clear from the evidence noted in the margin that Fatma Begum had only one daughter, Kyroonnissa Begum, who is childless, and that Koolsum Bee is the daughter of Ahmud ally Khan, mentioned in the preceding Para, who it is alleged gave her daughter to his sister, Fatma Begum and whose pension descended to her, Koolsum Bee, on the declaration of her father and Sufdar Hoofsain, that she was Fatma Begums granddaughter.

22. The Chepauk Agent on the 4th March forwarded a Memorandum by the Assistant Government Agent in which mention is not only made of Ghouse Bee, Moorad Bee and Mariam Bee, but adds the case also of Peyaree Bee, as drawing a pension as the alleged widow of Khadir Hoofsain Khan, though not in reality thus connected with him.-

Peyaree Bees Case

23. This pension on the recommendation of the Collector, 27th May 1841 obtained a pension of 9 — 5 — a yearly, under the sanction of Government 30th August 1841, as the widow of Khadir

Khadir Hoofsain Khan.-

24. Peyaree Bee on being required by me to adduce proof of her marriage, forwarded by her Vakeel a what is styled a "Hibla namah" in which, if genuine, Khadir Hoofsain Khan calls her "husmook or brought as a slave, but having added the term "Zouza" it is supposed, as will be seen in the Abstract of Evidence, by some of the deponents that the Khan might have been married to her. The deponents showed the utmost unwillingness to express an opinion upon this paper or on the terms it expressed, and evidently wished it to be supposed that Peyaree Bee was the mistress wife of Khadir Hoofsain. The woman being of low birth and a slave in his household. I am inclined to doubt the alleged marriage, but this point will be decided hereafter, as Peyaree Bee has requested six months time within which to bring proof of the marriage to obtain which, as she states it is necessary to proceed into the Vellore District.-

25 It will be seen that the parties pretend to be the "adopted" children of those through whom they claim the pension, but putting out of

of the question the fact of the Mahammedan law not recognising adoption, this flimsy pretextis disposed of by no mention of adoption having been made in the original papers, but the pensions sought for by right of lineal decent.-

26. With the exception of the last named case, decision on which may be deferred for six Months, though the pension will be meanwhile suspended, the other four cases are clearly fraudulent, and payments in them will of course cease.-

27 I pass now to a consideration of the proceedings which shall be taken against those who have been instrumental in the successful issue of these frauds.-

28. There is an affidavit before the Amildar given on the 15th August 1855 by Gholam Mahomed Savi a pensioner of Rupees 50—13—4 annually from the Shepaunk Agents Office, and Gholam Dollah receiving annually Rupees 7—8—4 from this Office, that Ghouse Bee was the daughter of Syud Ally and Jainup Bee the daughter of Beejan Bee.-

29. The above two men together with the Cassim Saheb a yeomiahdar of 18 Rupees annually from this Office gave a declaration before the Collector 19th January 1856 that Ghouse Bee was the grand daughter of Beejan Bee.-

30. Gholam Mahomed Savi and Sheik Ha

Hoofsain, and Abdool Khadir, dead, gave an affidavit before the Amildar that Koolsum Bee was the daughter through a daughter of Fatma Begum.-

31 A Translation only is for the coming of a Declaration made before Mr. Stokes 27th January 1854 by Ahmed Ally, dead, and Subder Hoofsain a pensioner receiving 40 Rupees annually from this Office, that Koolsum Bee was the grand daughter of Fatma Begum.-

32 Gholam Mahomed Savi and Tuckey Hoofsain a yeomiahdar receiving 64 Rupees annually from this Office gave a Cararnamah before Mr. Stokes 18th July 1854 in which Koolsum Bee is called the grand daughter of Fatma Beejum.-

33. From the evidence, in Ghouse Bee's case of Gholam Mahomed Savi it is clear that her pension was drawn with the cognizance of Mohdeen Begum a pensioner of 50 Rupees annually from this Office as Ghouse Bee lived for some time with Mohdeen Begum, and as the Vakeel Gholam Mahomed Savi frequently gave in her pension at the house of the latter.-

34 From the evidence given by Fitta Hoofsain Khan drawing a pension of 160 Rupees annually

annually from this Office, in the cases of Moorad Bee and Maryam Bee, I think it certain that he was aware of the circumstances under which these women obtained their allowances. His father, Hyder. Nawaz Khan apparently procured for her the pension of Moorad Bee, and his uncle Moonavur ally Khan obtained the pension for Maryam Bee. His Knowledge of the fraud is alluded to in the letter from the Assistant Government Agent of the 3d March 1858.

35 The men whose names I have underlined, being also Pensioners have in my opinion justly forfeited their pensions, and I apprehend that the Board will direct that their allowances be discountinued.

36. Sheikh Hoossain who plays a prominent part in these frauds, is not a pensioner but it may be, in the judgement of the Board expedient to proceed criminally against him and even against those who have forfeited their pensions, in those instances in which they have attested false declarations.

37. It may be that a prosecution for assisting to defraud the Government, might be brought to bear fully against those men, and if the Board are of the same opinion I will put the papers into the hands of the

Honorable Companys solicitor.

38. The Board will observe that these frauds all occur in payments to alleged members of one family that of Satampanah, and that Sheikh Hoossain the Vakeel for this family is the arch perpetrator of them, having also directly benefited, inasmuch as his wife Moorad Bee, and his daughter Ghouse Bee, and Maryam Bee, the wife of his brother Sheikh Chand received pensions under his successful misrepresentations.

39. Gholam Mahomed Savi is another chief instrument, and these two men as reported to the Board in my letter of the 9th May 1856 were so long allowed by this Office to draw as Vakeels pensions so much in excess of the sum allowed by the yeamiah Rules

40. I think it impossible that these frauds could have been carried on for so many years without the connivance of the Servants who were attached to the yeamiah Department previous to my letter of the 9th May 1856.

41 These were two, Margasahya Moodely yeamiah Writer, and Meer Zohar ally Persian Moonshee, the former died in December 1855, or I should certainly have recommended

his dismissal from Office for allowing these two Vakeels to draw such large sums without bringing the circumstances to the notice of the Collector.-

42 The other moor zohar ally, is the Persian Moonshee, whose situation I proposed to abolish as useless in my letter of the 13th September 1856, and which was discontinued by Extract Minutes of Consultation of the 1st April 1858.

43 I had intended providing for moor zohar ally in the arrangement to directed by the orders of Government last mentioned, but the inquiry into these frauds leads me to the conviction that he has been all along conversant with them, His duties as Persian Moonshee were almost nominal, and he was therefore employed in the yeamiah Department, as being a Mahommedan, he was likely to posse[illegible] knowledge of the facts and representations made in Connection with the yeamiahdars mostly Mahommedan and the many Mussulmany & Gosha women who were paid by this Office.-

44 He has been cognizant of every thing done in this Department for many years, and since Margasahaya Moodely's death has been the person referred to

to on all occasions for the practice and past proceedings of the yeamiah Office.-

45. In Ghouse Bee's case, whose pension I recommended, had I known as much of the Pension Department as I do now for I had then only lately joined the office I should not have been satisfied with the assertions of Gholam Mahomed Sawi, Gholam Ollah, and Casim Gholam Mahomed Sawi, Gholam Ollah, and Casim sahib, persons unconnected with the Satampauk family as to the identity of Ghouse Bee, but should have required the evidence of Hitha Hoosain Khan, Mahomed Eulal Dodeen and other male members of that family who receive pensions from this Office, and I think Margasahaya Moodely and moor zohar ally highly culpable in allowing these first named men to appear before me for the purpose they did and in not informing me of the existence of those members of the family to whom I should naturally look for the information I sought to obtain.-

46.- There was not a Mahommedan pension paid Monthly here which did not pass under the review of the Moonshee, he knew the recipients, and knew the reasons for which the bounty of Government was distributed.

He

47. He pretends that he was merely called in now and then as Moonshee to translate some Persian or Hindustan document but such was not the case, his intimate connection with the Department is notorious to the whole office, and being acquainted as a Mufsulman, and long resident in Madras with the sheikh Hoossain, Gholam Mahomed Saw Seikh Chand, and the other Mahommedans who were constantly appearing at the Office for muster or payment of pension, it appears to me beyond doubt, that he was acquainted with the perpetration of the frauds now reported.-

48 Sheikh Hoossain did not hesitate to say in open Cutcherry that the Moonshee was well aware of these pensions being received by those who were not what they represented themselves to be, but this testimony comes from a polluted source and should perhaps be put aside but the Moonshees implication is also generally alluded to in the letter from the Assistant Government Agent.-

To Chepauk Agent 3rd March Enclosure 3

49 Meer Zohar Ally is an old servant of Government Service and I know that if my recommendation is attended to there is no chance of his regaining public

employ but I never the less request if his situation having been abolished, that he be relieved from continuing him on the Establishment.-

50. I now wish to offer a few remarks upon an observation which occurs in the Chepauk Agent to letter of the 20th February /58 (Enclosure 3) to the effect that he / the Dewan / takes the same view of the impossibility of these people being relations as formerly expressed.-

Enclosure 2

51 Dr Balfours opinion as to these women is contained in Para 2 of his letter to my address 30th September 1856 and I would ask whether there is anything in that letter to justify the strong terms used in his communication of the 20th February last the impossibility of these women being related.-

52. It is necessary that I put this question, for if these Jeomiah frauds were made in the agents letter of the 30th September 1856 as apparent as they are now, I have been guilty of continuing payments to parties who were proved to have been not entitled to them.-

53. The correspondence with the agent connected in consequence of my wishing to reply from the best informed sources to the query of the Board in their letter of the 13th May 1856, whether the women referred to were strictly "Gosha" and whether they maintained their

Yrost St. George 21st June 1858

54.- The Agent's subsequent enquiry led to his letter of the 30th September in which 16 women are reported as suspicious cases, three of them especially so and these three are among the five now reported upon. The Agent states that the information elicited by him leaves great doubts as to the right of these people to enjoy pensions.-

55. The payment of these pensions was suspended by me, and I requested the Agent to prosecute his enquiries, and to place the identity of the parties beyond all doubt as their Vakeels were daily presenting themselves in a body at my Office, declaring themselves willing to be subjected to any enquiry, but praying that it might speedily be entered upon, as in that season of and scarcity, their clients were almost starving.

56.- I could obtain nothing definite from the Agent upon which in my opinion, I should be justified in stopping payment, though I had suspended them pending his expected report.-

57.- I gathered from his letter of the 7th January 1857 that his Establishment had no leisure to copy out the report he had framed regarding the pensions paid by me to Gosha women, and I placed a writer at his disposal for that purpose, but I got no report but as he required further aid which I had not to give, I suppose from his abrupt reply of the 15th January that he was not inclined to move further in the matter.-

If

Yrost St. George 21st June 1858.

58. If as it appears to me, the great doubts expressed by him consisted in the fact then known to him, of those women being only adopted children, I think that this information I should have been explicitly conveyed to me and I might have made my own enquiries as I have now done.-

59. It will be seen that one of the cases now proved as fraudulent, that of Coolsum Bee, was passed by the Agent in the Pista attached to Para 1 of his letter of the 30th September 1856.-

60 There is ample proof I think in the papers now submitted of my reading for on good cause being shown, to withhold payment of the pensions, but as the Agent proceeded no further than to express great doubts of the rights of the parties interested I did not consider myself warranted in longer keeping from them the small pittances upon which alone they maintained themselves.-

61 It was improbable that of the whole 16 cases would have been proved fraudulent and therefore I thought it better that some though not entitled, should be paid than that others to whom payments were justly due, should be deprived of the bounty of Government in a season of general distress and high

The

From Ft. St. George 21st June 1858

62. The allowances were not paid from September 1856 to January 1857, but receiving at that period no proof of ... from the Cheparuk Agent, I determined to disburse the pensions upon a Certificate of existence from the Dewan of the late Nabob, supposing that such a document from so respectable a quarter would be a sufficient guarantee of the identity of the pensioners.

63. Payments were again suspended in January until July, soon after my return from leave, when as it was not a time to add to the excitement generally prevalent by withholding allowances, the right to which had not been disproved, I directed payment on the Dewans Certificate of existence, and they were thus continued until the receipt in February of the letter mentioned in Para 3, when I declined to disburse the pensions for January of the 16 women suspected by the Agent and they have been since unpaid.

64 The explanation of the Dewan for having granted the Certificates is conveyed in his letters to the Agent of the 15th and 19th of February, and is in my opinion extremely unsatisfactory.

He

From Ft. St. George 21st June 1858

65. He could scarcely have been deceived by the alleged assertion that Government were aware of the parties being only "adopted" children, and should have brought this fact once to my notice.

66 I would suggest that the Government be moved to direct the Agent to inquire into the remaining twelve cases declared suspecious, as his office has so many facilities for such an investigation, not enjoyed by mine.

67. As this letter has extended to some length, I beg to recapitulate the suggestions I have made in it.-

1. That the pensions to the parties noted marginally shall cease with the exception of that to Peyari Bee, which shall now

Ghouse Bee
Moorad Bee
Maryam Bee
Hoolsum Bee
Peyari Bee
Gholam Mohomed Savi
Gholam Allah

now be suspended, and finally decided

Cassim Sahib
Sulder Hoosain
Jacky Hoosain
Mahdeen Begum
Fatha Hoosain
Khan

hereafter 2 That Meer Zohar ally lend-
re employed 3 The opinion of the Board
requested as to the propriety of pro-
ceeding criminally against those
upon whose representations in writing
the pensions were originally granted
by Government 4 That the Shepaul
Agent be directed to enquire into the iden-
tity and right to pensions of the twelve
remaining parties mentioned as suspicious in Para
2 of his letter to my address of 30th September 1856

before the Collector 19th January 1856. to the effect that Ghouse Bee was the grand daughter of Beegum Bee now states that she was a child brought up by Mahdeen Beegum grand daughter of Beejan Bee.—

Ofsain Beebee and Leaeem Beebee former deed sign a discriptive roll before the Collector in which Ghouse Bee is stated to be the daughter of Jairab Bee, the daughter of Modeen Bee.—

Moorad Bees Case.

This woman is the supposed daughter of Oulia Sahiba a Member of the Saturn: spauk family and who drew a Pension of 240 Rupees yearly on her death in 1828 2/3 of her pension or Rupees 160 were granted to Moorat Bee Shaikh Hoosain has long drawn her pension, and for the last year it has been paid upon production of Dewans certificate.

The

Fort St. George 21st June 1858

The Collector granted the pension under the general authority conveyed in Government letter to Board 20th March 1821.—

† In from Board 26th March 1821.

Letter from Dewan to Government Agent 4th March 1858 stating that besides Ghouse Bee there are 3 others, who draw pensions as belonging to the saturnspauk family but who are only adopted daughter Viz.t Moorat Bee Mayyum Bee and Leadsum Bee.—

Mahomed Ally Khan

Oulia Sahiba was the elder Sister of Hyder Nawaz Khan He and my grand father were brothers She was married to Moonewr Ally Khan had in Children; Does not know who Moorat Bee is.—

Mahomed Jaffer Alley—

Oulia Sahiba was the elder Sister of Hyder Nawaz Khan Does not know whether Oulia Sahiba married but is certain that she had no Children knew moreover Ally Khan but not his wifes name. Is sure that Moonewr Ally Khan had no children Does not know who

who Moorat Bee is.—

Fitha Hoosain Khan

Is son of Hyder Newaz Khan and nephew to Aulia Sahiba she married Moonewer ally Khan and had no issue.—

Moonewer Ally Khan had two Laughters by a Conenbine Koolasa Banoo Moorat Bee and Mavian Bee. The former is the wife of Sheikh Hoosain and the latter the wife of his brother Shaikh Chan they all live together in one house.—

Shaikh Hoosain

Moorat Bee is my wife she was the adopted Laughter of Aulia Sahiba, and on the death of the latter her brother Hyder Newaz Khan procured her pension for Moorat Bee I draw her pension and pay it to her Fitha Hoosain Khan knows all these circumstances.—

Mariyam Bees Case

This woman is a the

the supposed Laughter of Moonewer Ally Khan and on his death was granted 7/8 of his pension or Rupees 93-4-0 yearly on 31st May 1826 under the general authority of the Government letter to Board 20th March 1821—

Letter from Dewan 4th 4th March 1858 declaring the Maryam Bee is an adopted daughter. Does not know who Maviam Bee is, but she is not the daughter of Moonewer Ally Khan, who I know well had no children.—

Mahomed Jaffer Ally.

Fitha Hoosain Khan

Maviam Bee is the Laughter of Moonewer Ally Khan and his concubine Koolasa Banoo she is the wife of Shaikh Chan brother of Shaikh Hoosain.

Shaikh Hoosain

Mariam Bee is the adopted daughter of Aulia Sahiba and after the death of Moonewer Ally

Fort St George 21st June 1858.

Ally Khan Hyder Nowaz Khan got his opinion transferred to Mariam Bee who is now the wife of my brother Shaik Khan.

Koolsum Bees Case

Report of Amildar 1st December 1853. forwarding a Kyfiyet from Abdool Khader Yeomiahdar and now dead, Ghoolam Mahomed Savi and Shaikh Hoosain who declared that Koolsum Bee was the grand daughter through a daughter of Fatma Begum

x Kyfiyet given before Mr Stokes 27th January 1854. by Saturnpauk Yeomiah Dar Ahmud Ally Khan since Lead and Subidar Hoosain of the same family and Yeomiahdar on 40 Rupees per annum that Koolsum Bee was Fatma Begums grand daughter being the daughter of her daughter Oosain Bee

x Original not forthcoming though translation is found which was laid before Mr Stokes

ER

To

From Fort St George 21st June 1858

To Board 5th May 1854. recommending a Pension of Rupees 60 10 yearly to Mariam Bee as the daughters daughter of Fatma Begum

From Government 20th June 1854. granting the Pension with arrears from the date of Fatma Begums death from 1st March 1842.

From Board to Government Agent 4th March 1858 stating that Koolsum Bee is an adopted daughter.

Fatma Begum married but I do not know when she had two sons Ahmud Ally Khan and Cadum Ally Khan and a daughter Kyroonissa Begum who married but had no children.

Ghoolam Mahomed Ghoolam Hoosain Khan gave in favour of Koolsum Bee as stated in Mr Stokes letter of 18th July 1854 in which Koolsum Bee is called the grand daughter of Fatma Begum. Shaik Hoosain on being examined stated that he attached his mark to the document this the Petition Mr Shee confirms & says that he wrote the name on the document being read to him & on having certified that what Koolsum Bee Mahomed Ally Khan.

Mahomed & Suffer ally

Fatma Begum was entirely related to me, she married, and had two sons, and one daughter, the latter married and had no issue she is still alive.

Shaik Hoosain Khan

Fatma Begum was connected to my father. she married Ghoolam Ghoulam Khan had two sons Ahmud Hoosain Khan and Cadur Ally Khan and Kyroonissa Begum

10176 Sholapur George 25th June 1858.

Begum the married Ryder Hoosain Khan and has no children She is not known who Koolsum Bee is.

Sheik Hoosain Khan Ahmed Ally Khan Pensioner of the Satimpark family gave his daughter to his sister Saturn Begum. The pension of the latter came to Koolsum Bee upon the assertion of the said Ahmed Ally Khan and Sufdar Hoosain that the said Saturn Begum's grand daughter.

Does know the Caravan=nah signed by Sheik Gholam Mahomed Lusi and Abdul Khader that Koolsum Bee was daughter's daughter of Saturn Begum. acknowledged his signature states that he did the same then as he does now but knows not what was written in the paper.

Sufdar Hoosain Lusi. States that Saturn Begum had two sons and one daughter. that the latter is childless. it is known the first by him Ahmed Ally 27 January 1854 before Mr. Stokes and alluded to above Examd nothing about it.

10177 Sholapur George 21st June 1858.

The Peishcar Moonshee on the Office is then produced who declares that Sheikh Hoosain gave the Petitioner to understand that it is something getting between the Moonshee and Sheikh Hoosain.

Dayan Bee Sahe.

Declares that she is not the widow of Khader Hoosain.

Memorandum by Thomas Scott Asst Collector dated 3 March 1858.

This woman on the recommendation of the Collector of Madras. 27 May 1841. obtained a pension Government order 30 August 1841 of Rupees 93-5 per annum at the widow of Khader Hoosain Khan bearing date 15 July 1840. of the pension drawn by him and who died

Sheik Hoosain and Khaal and Ahmed Ally Khan deceased and Gholam Mahomed Lusi certified of Dayan Bee.

Mahomed Sufferally

Does not know whether Khader Hoosain Khan married or not. He was 54 years old. Khader Khan died in 1840

This

10178 Fort St George 21st June 1858.

This man evidently with held his knowledge of circumstances. He deposed as above with respect to the other alleged members of the family and being 36 years old when the Khan died, he must have known all about him.—

Look at his deposition of the 18th March where he gives all particulars of Fatima Begum, who he says was related to him, and yet knows nothing of her brother.—

Dayani Bee on being called upon to prove her title of the widow of Khadir Hoossain Khan, forwards a document signed by Khadir Hoossain Khan and many others in which she is styled "Sukhmauk" On being desired to furnish proof of her marriage begs six months time to go to Arcot and procure it, as the marriage was performed there.—

Fatima Begum had two sons and one daughter and two sons of her Hoossain had a son and the other two daughters.

Mahomad Salah Nabob

Mahomedan

10179 Fort St George 21st June 1858

Mahomedye Begum and Kokeloo Begum. These are her only grandchildren. Does not know who Dayani Bee is or whether Khadir Hoossain Khan ever married. He was not to whom he died.—

Having looked at the document forwarded by Dayani Bee declared that though styled "Sukmauk" she might have been his Nicka Wife, and it is stated that he married her by the word "Yanja" which means having performed marriage.—

Being asked what was his opinion as a Mahomedan as to the marriage of Dayani Bee, supposing that the document was genuine he refused to give a reply. By so doing he evidently wished to leave no doubt the point upon which the pension hangs.—

Fatta Hoossain Khan

Knows not whether Khadir Hoossain Khan was married though he was his father's first cousin.—

Has looked at the document forwarded by Dayani Bee by the word "Sukmauk" and "Yanja" thinks that Khadir Hoossain Khan acknowledged her as his wife.—

Fort Saint George 21st June 1858

To

E. G. Balfour Esq.
Government Agent at
Chepauk

Sir,

I am much obliged to you for the information contained in your letter of the 30th September and for the trouble so readily undertaken by you in carrying out the Enquiry requested in my letter of the 20th June last.

2 As you have thrown doubts upon the identity of 16 pensioners whose names you give may I request that you will prosecute your Enquiries still further so as to enable you to inform me positively as to their Existence

3 I have no means in this Department of ascertaining this fact I depend upon the Vakeels Certificates and Certifiers and I have already reported to the Board that these Vakeels have in many instances not been appointed in accordance with the rule directing that the allowance received by them shall bear the proportion of a moiety

Fort Saint George 21st June 1858

of the amount drawn by the pensioner.

16 Pensioners 4 Of course I shall suspend
2 Do absent payments to the parties noted by you as
10 Yeomahdars not having been satisfactorily identified
2 do doubtful and shall call for Explanation from the
2 do absent Vakeels of the parties stated to be absent

5 If I could by any Exertions of my own pursue the investigation in this Office I would not ask you to take the burden of it upon yourself, but as your Department offers such facilities for a strict Enquiry I hope that I shall stand Excused in asking you to undertake it in order that we may determine whether the bounty of Government has not been abused

6 I am empowered on
Extract Minutes reasonable cause of suspicion to call
of Consultation 5 upon the female pensioner to prove
in Claus 17th June her identity by personal appearance
Rev. Dept 1850 and on her failure to do so to resume the
No 555 Page 531nd pensions of herself and Certifier and I
1 Circular Order shall do this in those instances in which
Board of Revenue you may report that your Agents have been
prevented from making a full Enquiry

Fort Saint George 21st June 1858

Memorandum

These certifiers do the same viz Ahmed Alikhan Mahomed Hyder Ali. Mahomed Raja Hoopan Khan Gholam Hoopan Hyder.

7

Gholam Mahomed Sooce the Vakeel for several of these women draws an allowance from your office and payment of this it may be as well to suspend, until our present suspicions are cleared up.

8.

This man drew the pensions of the 4 women whom you have stated to be absent from the Presidency as present here on the dates entered below

Nureem Beebee for May in August
Ameen Beebee " June in September
Zarah Begum " April in August
Aulah Beebee Sahibah March in April

9.

As these particulars were omitted in the list sent you with my letter of the 20th June last I forward another shewing the names of the Vakeels and certifiers of the women forming subject of further enquiry that they may be called upon to apist you should their services be required

Sir

With reference to your communication of the 6th Instant I have the honor to mention that the subject of the Political and Civil Pensions having received much of my attention I reported to Government on the whole generally in a letter dated 17th July last suggesting the adoption of certain measures.

2

I have to express regret that the Employes in the Agency, thought well paid are too few in number to admit of my Employing them further on the Extra work you ask me to undertake and doing which is particularly difficult at the present moment; when, the debts excepted, the arrangements for settling the whole details of the Carnatic Circar has to be performed by the Agency.

3

It is true that by the Extra labour of the Zealous Servants, all our own work can always be

completed

completed but they often work till late at night and sometimes begin in the early hours of the morning to labour, and Government having it in their power from my report, to provide ample remedies; it would be wrong in me to give the other servants of the Agency more than their own work to do.

B. Cunliffe Esq.
Collector of Madras

Sir

I have had the pleasure on a former occasion and again more recently of acceding to your request to inquire into the right to pension of certain parties drawing the same through your office. Having submitted to the Right Honorable the Governor in Council a general scheme for all the Political Dep.t pensioners of the Madras Government amounting to about Rupees 5,000,000 per annum and having the perfect confidence that

that I could at once effect immense reductions in that vast amount I offered to Government to undertake the Examination of the same, and this will convince you that your not receiving any report on your few cases, is simply because as the Endorsements you have received will have shown you, the Clerks in the Agency are themselves over worked and cannot write out what I have written and not that my own duties are too burthensome or numerous. With Gods blessing I am able to do much more than I do at present but should that my time can be better employed than in writing out fair my own drafts and, in addition to extra Clerks allowed by Government, the regular Establishment have had no holidays, and been working from morning to night

2 I may mention however that if you will place a suitable number of Clerks at my disposal, after Monday next I will gladly complete your request and that, up to the present of the men who have appeared before

me

Fort Saint George 21st June 1838

me; there is not one case so established to my satisfaction, as, if I were the paying Officer, would justify me in ipsuing their pensions. I have not stopped Carnatic Jaghire dar stipendary. No. 37 Gholam Mahomed Savees pensions, because I consider that your office have led him into error in permitting a recipient of Rupees 4-3-9 to draw and be security for pensions to the extent of Rupees 700.

Government Agents Office

The Government Agent
at Chepauk

Sir

From your letter of the 7th Instant No. 3 I infer that your report upon the suspected pensioners paid at my office is drafted but that your Clerks have not time to copy it, I will therefore depute one of my own writers for that purpose, and place him at your disposal for 3 or 4 days from Monday next. My Office Establishment is small, but for the

Fort Saint George 21st June 1838

the sake of those who are so much affected by the question of their identity remaining in abeyance I will call on the other writers to transact the duties of the Absentee

2. With respect to your reason for not suspending payment of Gholam Savee's allowance I must remark that derelection of their duty on the part of my officials does not, in my opinion exonerate the abovementioned Vakeel from punishment in bring the chief instrument in a fraud, supposing the principals for whom he drew allowances are proved not to be prisoners.

3. I have stopped payment to the Vakeels of the suspected parties drawing pay from this Office and they are similarly situated to Gholam Mahomed Savee.

To

The Government Agent at
Chepauk

Sir,

As I learned from your letter of the 10th October 1836 that your Establishment was inadequate for the Extra work I had asked you to undertake in making further enquiry into the identity of certain female Jeomakolars paid from this Office I can not with hold from them any longer their allowances as their Vakeel were almost daily at the Office calling for an enquiry to be made or their Jeomahs disbursed as the pensioners were in the greatest poverty

2 I consented then to pay their allowances on the production of a Certificate of existence from the Dewan of the late Nawab and payments have since been made on such certificate

3 From information received by me I had reason to doubt the identity of one Ahouse Bee who receives a Jeomiah of Rupees 3-4-2 monthly

as

10204 Fort St George 21st June 1838

as the grand daughter through a daughter of Begum Bee a deceased member of the Satarnbank family

4 From enquiry made from certain Yeomahdars of that family it appears that Begum Bee had only one daughter Fatmah Begum who had also one daughter only named Khyrounissh who receives from this office a pension of Rs 33-5-4 monthly as the widow of Hyder Hoosain Khan

5 The Dewan however has certified on several occasions to Ghouse Dees existence, and I enclose his last Certificate

6 I should be obliged by your calling on him to explain under what circumstance he granted it

7 Gholam Mahamed Sang a Cawnbo Stipendiary gave on the 23 August 1833 a Security in

10205 Fort St George 21st June 1838

in this Office making his pension responsible for the truth of his assertion that Ghouse Bee was the daughter of Zenus Bee the daughter of Begum Bee and I have to request that you will stop payment of his allowance untils the suspicion in this case are explained and removed

To
E. G. Balfour Esqre
Government Agent
Chingleput

Sir,

In returning the letter from the Collector
of Madras with its enclosures received with your
communication of the 10th instant I have the honor
to state for the information of that Officer
that Chouse Dee Yeomiahdar is not dead but
alive

10207 Fort St George 21st June 1838

alive and she is the identical party to whom the Yeomiah
was granted. But the Chouse Dee is Deyan Dees adopted
grand daughter and not her own grand daughter. Besides
this there are two or three other parties among the Yeomiah
dars obtaining existence Certificates from me who are not
the direct but adopted Children of the deceased Yeomiahdars
when these parties were asked by me as to how I could
give their existence Certificates since Government do
not now grant any allowance to adopted Children they
stated that this Connection of theirs is known to Government
and that therefore the Collector of Madras and that
therefore the Collector of Madras continues to pay them
their yeomiahs I considered this statement of the parties
to be true because adopted Children were allowed Stipends
on by gone days but should it now prove false I
will hence forward cease to give them an existence

Government Agent at
Chepauk

Sir

In reply to your letter of the 16th instant
I beg to mention that the existence Certificates
furnished by me to some of the Pensioners paid
from the Office of the Collector of Madras and
alluded to in my letter of the 15th Instant have
been so; not on my having a sight of the parties
who live in seclusion from my view but on the
Statement of Shaik Ibrahim Khan the Daroga
of the Sight Department of the Sircar who

10209 Fort St George 21st June 1838

is acquainted with their circumstances and whom I
consider to be trustworthy

I have seen the husbands of some
of these Pensioners and find that they belong to
class of Menials, from which it is evident that
the Pensioners are not the relatives of Nujeeb
Khan Bahadur the late Jaghirdar of Satum-
pauk and the Dewan of the Nabob Wallajah
but the adopted Children of his relatives they
would never have been given in Marriage to
Menials

Sir

With reference to the
Dewan

10210

Fort St. George 21st June 1838

Dewan letter of the 15th instant to your address and Copy of which accompanied your letter of the 20th instant No 471 I have the honor to request that you will call on him to name the parties, other than Ghouse &c alluded to by him who are drawing pensions as adopted daughters of deceased pensioners

2 I will ask you to forward to him a list of the parties (16) mentioned in Para 2 of your letter of the 30th September 1836 No 119 with a request that he will state the particulars of any suspicious cases

3 The parties now as then declare their readiness to submit to any enquiries alledging and I think with justice the harshness of refusing payment of their small Stipends on general assertions of the existence of fraud especially in times of scarcity and distress

To

B. Cunliffe Esqre
Collector of Madras

Sir,

I have the honor to enclose translation of the letter returned in your communication of the 1st Instant and to enclose a Memorandum by the Assistant Government Agent

/Signed/ E. G. Balfour
Govt Agent

Govt Agents Office
3rd March 1838

Memorandum

It has been correctly ascertained that Shack Hoosain nominated fictions parties to be the relatives of certain deceased Jaghiredar Stipendiaries and secured pensions in their names and they are as per margin. These are the relatives of Shack Hoosain who has considerable wealth and one of these three is his wife and it seems that the witnesses falsely affirmed that the above woman were the proper Heirs.

	Rs. As. P.
Ghouse Bee	3 14 1
Moorad Bee	13 0 0
Murgan Bee	7 12 0
Peeyaree Bee for more she is not the widow of Kauder Hoosain Khan who enjoyed a monthly pension of 11 Rupees from the Collector's Cutcherry.	

Under these circumstances it will be just to

10212 Fort St George 21st June 1838

to resort the pensions assigned to them together with the pensions of their securities as a mark of punishment and it appears that Feddah Hoosain Khan son of Hyder Nuwaz Khan is well aware of the fraud and that he enjoys a pension from the Collectors Cutcherry

/ Signed / Mohiboolly

Further it has been reported that Hoolsoom Bees name is also fictitious I have great suspicion regarding the Yeomiahdars as the Officers attached to the payments Department in that Office are well acquainted with the above deception it is incumbent on them to report faithfully the fact in order that the public Treasury should not be wasted

/ Signed / E G Balfour
Government Agent

To,

E G Balfour Esqre
Government Agent at
Chepauk

Sir,

In re-enclosing the letter from the Collector of Madras received with your note of the 23d Ultimo I have the honor to mention for that functionarys information that besides Ghouse Bee there are three females in the family of Mahomed Nujeeb Khan Salar Jung Bahadoor the late Jaghirdar of Satumpaulle and Poondee who are the adopted daughters of deceased

10214 Fort St George 21st June 1838

deceased pensioners and whose names are indicated in the margin: more-over the pensioner No 22 Sukeen Bee does not live in seclusion these days

With regard to the other females mentioned in the list that accompanied your letter under reply, I would observe that the task of enquiring into the cases of females is sometimes accomplished satisfactorily when proper evidences are produced and sometimes not when there are no such evidences. I am therefore disinclined to enquire into such matters and also to furnish any exciseable Certificates in future, save to the persons of credit regarding whom there exists no doubt or suspicion whatever in order that I may be free from any blame in the event of any fraud being practised which may possibly be done by bad Characters

No 78

To

G. S. Forbes Esqre
Secretary to the Board of Revenue

Bd No 2149 / From the Collr of Madras

Sir,

The Board having directed me in their Proceedings of the 12th instant No 1684 to make further enquiry into the claim of Petitioners in No 66/1838 to certain lands now comprised in the premises of Brodie castle, I beg to forward Translation of a Statement made by him detailing the Grounds of his application.

He rests his claim on no better

2 pretensions than the possession of three Quit Rent Bills prepared in the name of Mr George Arbuthnot, in 1807, 8 and 10 as stated in his Petition.—

3 A Grant for the land was issued in that gentleman's name in February 1804 who transferred it, as Petitioner asserts to his father, but no proof of the alledged transaction is forthcoming.

It

Fort St. George 21st June 1838.

4 It is likely enough that the land was thus transferred, and was sold with the rest of [illegible] fathers landed property in that grant by order of the Supreme Court in 1821. That such sale took place we know from the enquiry made into the land held by Mr. I. B. Norton.

5 The Ground Petitioner now claims passed from Petitioner's fathers probably at that time, but as I said before the documents evincing his connection in any way with the land, are no later than 1810.

6 He would make out in his Petition the best case he could, and therefore it was that I dismissed it in the brief manner I did in my letter of the 16th April as the Government, if they obtain possession of the land need not fear his opposition to their title.

7 It was enough, I thought, to show his claim, as adduced to be unfounded, for enquiry which did not appear to me requisite, might lay bare defects in the title, and thus be opposed to the interests of Government, supposing they got possession

8 If Petitioner had any right to the land, he would long ago have sought legal means to

Fort St. George 21st June 1838

to enforce it, but having no case at all, he makes this appeal "ad misericordiam", which the Government may still accede to, if they became the proprietors of the land.

9 It has paid no Quit Rent since 1810 or thereabout, was afterwards waste and lost sight of, and its enclosure with the Brodie castle premises, whenever made, was unnoticed. The Bills for this property have been long issued for Cawnies 26-94 gns and the actual excess was not discovered in the Survey of the Mylapoor Division as reported in my letter of the 18th March last, but brought to light only on the remeasurement of Mr. Dupennier Kemp in December last.

(Signed) B Cunliffe
Collector

Madras
22d May 1838

Before B Cunliffe Esqre
Collector of Madras

1. What is the extent of land which you claim as your own includes in the Brodie castle at Mylapoor?

A

Fort St. George 21st June 1858.

A. Ws 8 — Gs 23 — 96 3/4 Alt of land included in the above garden which is my land and should be given to me.

2. What is the proof that your land is included in it.—

A. The Gnanuttans sold the said land to Mr George Arbuthnot in whose name Quit Rent Bills were issued. I have now produced the above Cadjan Bill of Sale and the Quit rent Bills No. 723 of 1807 and No. 979 of 1810 as well as a Quit Rent Bill of 1808 I have now other Documents but those But Mr George Arbuthnot assigned over to my father Nannainsamy Naidoo the Grant under which the said land was held which grant Mr Murray the late Collector took for his inspection and did not return it back to me.

2. Up to what year was the land in your possession and what proof is there for it

A. The land has not been in my possession for about 24 years, nor have I means to prove that the land was in my possession prior to those 24 years — But I shall prove it, by witnesses.—

2 According to your own Statement the land had not been in your possession for 25 years.— What do you say for this.

A. I could not have taken possession of it because I was unable.

19th May 1858. /Signed/ A. C. Narasemma Naidoo Alias A. Cadir Simmoloo.
