Sir

Para 1 I have the honor to acknowledge the receipt of your letter of the 28th Ultimo and to inform you that the commission to be drawn upon the sales of stamps during the months of April and May last will leave a balance of Rs. 11 — 2 which will more than cover the sum of Rs. 7-8-4 overdrawn on account of Salary of Daroga Vs. up to the end of the 2d quarter of fusly 1247.

2. To avoid any such inconvenience I have directed that the stamp Daroga at Chetterpore and the Vender at Chicacole should receive commissions instead of fixed Salaries.

3. Arrangements have also been made for the sale of Stamps at Chetterpore and Chicacole by the Daroga and Vender instead by the Cash keepers as at present

make available a sum of Rupees 100 to avoid subse-
quent references for increased Press Establishment be
a lesser outlay will hardly be compatible with
an efficient working of the Press.

Bd No. 2336
From the Collector of North Arcot

In forwarding the accompanying Statement of lapsed Yeomiahs in some cases of which there has been I regret to say so much delay I beg to state that there are now up to the present date no cases of the kind remaining undisposed of in my office.—

As the Dehaut Enam and Yeomiah cases are more easily disposed of than other Enam cases and as delay in settling them causes great inconvenience to the parties from their being many payments which are discontinued

Fort St George 17th July 1858

discontinued pending enquiry I have taken measures by sepa-
-rating them from the Mass of Enam cases and entering them as they are received from the Talooks in separate English Registers which will be con-
-stantly before me which will obviate delay in disposing of them.-

2. With regard to the other lapsed Enams I have for some time past had a Register of such cases prepared with a view to their settle-
-ment as much as possible according to date my current duties Revenue and Magisterial are so onerous that

Fort St George 17th July 1858

that it is with difficulty I can find time to dispose of such cases but progress in settling them is being made and I hope soon to be in a position to make a favorable report of the state of the arrears of these cases.-

3. The Board are aware that a portion only of the lapses are reported to them and that therefore the number contained in the Quarterly statement is not a criterion of the progress made in their disposal.-

From the Asst. Collr. of Malabar. . . .

Sir,

In reference to your letter of the 7th Instant No. 2007 pointing out a discrepancy between my Statement of Receipts and Sales of Salt in this District at the close of Fusly 1265 and commencement of Fusly 1266, I have the honor to inform you that on a reference to the 2 Statements in question the mistake appears to have arisen from a clerical error in the Balance of Salt in the Calicut Gollah inserted at the Commencement of Fusly 1266 as 44,464 mds 143/4 seers instead of 44,480 mds 3/4 seers the latter being the correct quantity I therefore beg that it may be rectified. ——

Sir

I have the honor to forward a list of papers relating to the assessment in the Talooks of North and South Arcot, Trichinopoly, &c. of which copies are required for reference in my Office and I shall be much obliged by your having the same transcribed for me employing if necessary a few copyists whose pay can be included in my contingent bill.

2. I take this opportunity of forwarding a list of papers of which I have already obtained copies, and shall be further obliged if you will be good enough to have this and the preceding one compared with the Indices of correspondence in the Board's Office with the view to any omissions being supplied with regard to the three Districts above mentioned.

3. I would also ask the favor of the correspondence relating to the new assessment of the surveyed Talooks or villages in South Arcot and Trichinopoly being first selected for transcript, leaving that belonging to the temporary reductions of assessment made pending the survey, to be supplied afterwards but as early as practicable

Sir

I am requested in the Sub. Secretary's letter of the 3d May last, I have the honor to forward herewith a copy of the design for the Peons Badges for this Department. The Shape resembles that adopted for the Revenue Department. For the Badges for the Settlement in the Provinces, the Vernacular (Tamil and Telugoo) terms for Settlement Department is given in the centre, instead of "Directors Office" which is substituted for my Peons.

2. The drawing which accompanied Mr. Sim's letter under acknowledgment is herewith returned.

B. No. 2800
From the Collector
of Nellore

Sir,

With reference to Extract from the Board's Proceedings under date the 14th November 1857 I have the honor to forward herewith a revised Statement of lands proposed to be given in exchange for Enam lands taken for public purposes in the Sub Division. Two new Villages have been since added to it.—

2 With reference to the Enquiry made in the Board's Proceedings of the 11th March 1858: I beg to state that the Sub Collector informs me that on enquiry none of the parties concerned are willing to accept Money payment when Government waste is not available.—

3. Independant of the unwillingness of the persons alluded to, to exchange a permanent means of income for a present consideration; I do not consider it good policy where any considerable amount of Jody may have to be paid as is so frequently the case in Nellore to diminish the annual resources of the Shrotriemdars, by encouraging them to alienate lands for ready Money, which would probably be expended leaving the Village protanto less productive.—

Nellore
Collectors Office
28th June 1858.—

(Signed) F. B. Elton

No. 407 to state that I am still without the forms of Puttah and Moochilka to be used in connection with the Railway pottahs already have three of the most favorable months for building in the current year passed away, and unless I am speedily furnished with the forms, I shall be able to do little, as the Jemmabundy of four out of the six Talook, I have been directed to settle this year, will take me out in a directly opposite direction

2. As regards the 2d Para of the Minutes

of

Fort St.e George 19th July 1858

of Consultation under reference I have only to state that the piece of ground selected for Military purposes was so selected by Brigadier Logan, he fully agreeing with me that the encamping ground for troops should be clear of the pettah, as a sanitary measure, in the event of any epidemic prevailing in the pettah and vice versa and the ground selected and marked out for the purpose is not more than 7 Minutes walk from the Station and eminently suited for the purpose.

3. All that appears necessary is a distinct order in the Military Department that troops Vz are not to encamp elsewhere than on the ground selected for the purpose; and as regards Commissariat and ordnance stores I have been in communication with the local officers of both departments and shall be able to

Fort St.e George 19th July 1858

accommodate them with room close to the station without in the least interfering with the arginal plan of the pettah.

The Mercal here referred to is in use. It is subdivided into 11 4/10 Seer Puddies of 82 Tolas each. It contains when heaped 27 1/2 lbs of Rice and when struck 25 lbs. The Pucka puddy contains when heaped 110 Tolas weight of Rice.-

According to the Return to the Circular of 1836, the Seer puddy held when heaped 15 Pollums or 79½ Tolas of Coolty, but the Pollums weight appears to have been somewhat less than it is now.

The Seer puddy holds when heaped 14 9/10 Pollums or 80 Tolas of Coolty Grain or House Grain. The Pucka puddy contains when heaped 19½ Pollums or 107 Tolas of Grain.

According to the trials made in 1852, the following Table and equivalents are found to be in use commencing with the Seer Puddy. a vessel of about 67 Cubic Inches and containing 76 Tolas weight of Rice Struck and 82 heaped. 1 Seer Puddy = 82 Tolas of rice heaped.

8 heaped Dº = 1 Mercal.

The amounts entered in the list forwarded by me are those which her Agent said to the Tahsildar that she intended to claim - I would propose that she should be asked to explain her wishes - It is not improbable that she may demur in regard to the exemption of the 1000 c. yards, the Subject may then be discussed between the Collector and herself -

2 I certainly should propose a commutation in the shape of remission of Peshcash when the amount of Quit Rent has been settled - Some difficulty will occur in regard to this for the private & Public Buildings are so mixed up together that the exemptions would be in the Character of detached patches of ground now occupied by Public Buildings -

No. 103

To G. L. Forbes Esqre
Secretary to the

Fort St. George

Bd's No: 3142
From the Acting Collr of Ganjam — Sir, Para 1 I have the honor to submit my report on the operations of the Printing Press belonging to this Collectorate during the Official year 1857/58.

2 Since the last report more extensive use of the press has been made. Every paper of which any number of copies was required has been printed and printed forms &c are supplied to the Subordinate Officers.

3 The most important event in connection with the Press is the establishment in October 1857 of a local Gazette It contains like its contemporaries in other Districts all Circulars to the Mofussil Officers, the Circular instructions

of

of the Court of Sudr and Foujdaree
Udalat and the most important of
the orders of the Board of Revenue and
Government, political news of great
interest, and a column has been at
times devoted to educational subjects;
it has also an idea in English which
I consider of great importance in other
Gazettes because it enables me at a
glance to see what portions I wish to
hear read. The general superintendence
intrusted to the revenue translator, at present
only 175 copies are printed weekly. Of
these 22 copies only are taken by private
individuals paying a subscription of Rupees
2-8-0 per annum, while 153 are supplied
gratis to public Officers. This publication
does not circulate among the heads
of Villages and that class as I
should wish and for such ignorant
and half civilized beings I would
strongly urge a large circulation
gratis tho' in Masulipatam I expected the
same class to pay, here I wish a copy
to reach every Village where there is a read-
able

able to read.

4 Much use of the English portion of the Press has not been made as yet, beyond printing mere forms, no English work has been done; but I should hope to see published in this and in every District as the slack time in more necessary business would allow selections from the letters written and reports made by former heads of the District. There are many reports no doubt in this Office is in others valuable because written by able men and at any rate containing information as to facts and feelings as then existing which would afford invaluable aid to Collectors now, especially in these days when there is such a constant change for a glance over a printed paper will afford a better insight into a matter than is acquired by attempting to decipher a mildewed page of faded words. the Board will no doubt have seen the first more I made in this respect before I left Masulipatam and I have

Fort St. George 20th July 1857

have no doubt, if not in the few of Mr. G. E. Russell's letter recorded here, certainly in Pannem there are mines of sound & policy which any agent would be only too glad to appropri if easily procurable.

5 The drawback in this District in respect to the utili of the Printing Press is, the obsolute necessity of having the power of printing Orya as well as Telugoo, but as yet we have received no Orya type and when we do, the Gazette must be then published in both languages, and there will be a demand on the time and attention of the present Superintendent which I fear he cannot answer to, without in jury to his proper duties and I warn the Board to expect a requisi for

Fort St. George 20th July 1858.

for a paid Superintendent

6 The work done by the Press during the last Official year is as follows.

	No. of Copies	Value Rs a P.

	18,423	556-12-1

This work far exceeds the work done during the Official year 1856/57.

7 The total expenses of the printing Establishment including the contingencies during

Fort St. George 20th July 1858

during the last official year amounts to Rupees 903-1-10. Thus it will be seen that the earnings of the Press or the value of the work done by it and its expenses are nearly equal. Of these earnings Rupees 762-5-9 are the value of work done for Government and therefore must be debited to the public account the remaining Rupees 142-13-3 are actual receipts into the Treasury and will be credited in the accounts under the proper heads. On the whole it appears that the working of the Press has been satisfactory. The operations of the Waterloo Autographic Press are not so satisfactory it has not done any thing beyond printing a few thousand of Orya puttahs, and after the receipt of the Orya type the Press may be transferred elsewhere. The expenses incurred on account of it amount to Rupees --10--

I have the honor to report for the information of the Board of Revenue that Messrs Vally Linares and Co have made the Collector of this District a Defendant in a suit which they have brought against the owners of the Tickaly Estate.

2 The Board will remember that this Estate is under the attachment of the Collector by order of the Civil Court and no such attachment can be withdrawn without a further precept from the Court and as laid down in Macpherson's Civil Procedure the Collector in such circumstances ought not to have been made a Defendant so that I propose a short answer of a few lines denying for this reason to Collectors liability to be sued and praying that his costs may be at once adjudged to be paid by Plaintiff.

herewith returned

In acknowledgment of the Board's endorsement dated 17th June on Petitions Nos 1569 & 1670 from certain Brahmans of the Golgondah Talook I have the honor to state that on recent occasions a necessity arose for requiring supplies from the Petitioners and others, and on whom Captain Owen at the exigency of the moment indented proportionately for what he wanted. On the matter being brought to my notice on the 7th Instant I addressed to Captain Owen the same day a letter of which the enclosed is a copy; from this the Board will gather that the grievances of the whole of the petty merchants in the Talook so far as

Sir,

I forward to you a Petition received from certain Merchants of the Golgondah Talook - you will perceive the reasonableness of the representation they make and my desire is that while

while requiring every one to aid Government on this or any other emergency no one should be a sufferer through rendering such assistance. The people avow before me their readiness to supply all that may be wanted by you in conjunction with other traders like themselves in the surrounding neighbourhood and all they seem anxious to be relieved of is, the duty of accompanying their goods because of the known unhealthiness of the localities to be visited and their consequent fear of sickness and death. I would therefore suggest that on future occasions when about to make any excursions such as those from which you have recently returned - that you call upon the surrounding merchants at your

your discretion requiring them to deliver certain quantities or a certain value of supplies for the troops to be regulated of course by the anticipated period of absence, and for these you might make an advance of one third their value and for the carriage of the same I shall be prepared to support your contingent Bills, on your return to Head Quarters, whatever remains will be returned at the rate of sale and the balance due will be paid by you at once.

Orders have been sent to the Tahsildar of Golgondah to cash any orders of yours issued on the above account as well as on account of cost of transport as above, and for which as just stated, you will be pleased as soon as practicable to submit contingent Bills with

will all particulars.

I think this arrangement will meet the difficulty and the merchants seem satisfied and have promised in return to give their hearty response and co-operation to any demand you may find it necessary to make upon them.

whom it had been returned has informed
me that he has lost it, but Judging from

Sir,

With reference to your letter dated 1st January last No. 52 accompanied by a Copy & Extract from the Proceedings of the Board of Revenue dated 23rd September 1857 No. 3152, Calling for an explanation on certain points regarding the Chaultry erected by me for the accommodation of Travellers at Singaperumall Coil in your District, I have now the honor to submit my reply thereto as follows

2 The points adverted to in the Board's

Fort St. George 20th July 1858

Boards Proceedings may be devided into two Vizt.—

1st The plan forwarded with my letter of the 22d December 1856 does not exhibit the extent and nature of the accommodation set apart for the different classes of Travellers

2 The chaultry has not been erected with a view to the accommodation of all classes of the Community—

3rd In regard to the first point I beg to explain that I have erected two different buildings one on the Eastern and the other on the Western side of the Southern high Road leading from Madras to Trichinopaly. The one on the eastern side, accommodates the different classes of the Hindoo Community noted in the Margin and is devided into two parts with several out houses adjoining thereto and the extent thereof is about 3 grounds. The other building on the Western side has been built for the accommodation of Foreigners and Mohomedans of higher classes two Rooms facing to the Road with suitable

Suitable Verandah Behind this building is large Verandah distinct from the rooms for the accommodation of Bheads Wc. The extent of this building is upwards 1000 s. feet I have also erected four Bathques in Connection with the Chaultry on the East side of the Road, one of which only is occupy by a Bazar Man, one used as a Water Pundal and the other three are held for the accommodation of any other Clafses not Coming within the various description above mentioned.

4 The above explanation will I trust be sufficient to shew that, the Chaultry has been built with a view to the accommodation of all Clafses of the Community.—

5 Referring to your requisition for retransmission to you of the original plan returned to me with Mr. Greeves's letter No. 113 of the 3rd July 1849 I regret to state that after a thorough search, as intimated to you in my letter of the 27th February last and 10th Ultimo I have not been successful in finding out the plan in question. The other plan returned to me with your letter dated 13th Ultimo is herewith re

Fort St. George 20 July 1858

retransmitted as requested.—

6 I have further to state for the information of the Board that in addition to the Chaultry built by me, as originally proposed, I have erected a separate substantial building for the Collectors Sunah station with two Verandahs on the front and rear sides thereof. I have likewise built another substantial Charity School house with a lodging adjoinning thereto for the residence of the School Master.—

7 From the correspondence in 1849 it may be in the knowledge of the Board of Revenue that the want of a Chaultry at or about the spot where it has since been built was deeply felt by all Clafses of the Community I have therefore erected it afterwards at a cost nearly double the amount originally proposed and at a distance of 30 Miles from Madras with all the dis advantages of the locality The ground is rocky and water is not procurable unless

† Rupees 4000 Vide my letter to the Collector dated 13th February 1849 Para 1

Fort St. George 20th July 1858

unless at a great depth. The soil for burning bricks and floor Bricks has to be brought from not less than three miles distance. No more than a Moiety of the quantity of wall Bricks burnt at a little distance from the spot becomes fit to be used for works, in Consequence of the badness of the soil. Trees to be used in burning the brick Kilns &c. were purchased Cut and brought on Carts from a distance varying from 2 to 5 Miles. Teakwood and Palmyrah and Iron Materials for the buildings were all Carried on Carts for a distance of 30 Miles from Madras. Brick Layers Carpenters and other Workmen also were sent from Madras. —

8 Under these Circumstances I exceedingly regret to state that after all the enormous Costs and untiring labour bestowed in regard to the Caultry in question, the Board were led to suppose that I have not built it with a view to the accommodation of all classes of the Community whilst, my view was such from the beginning to the end. I beg to assure them that I am however sanguine, that under the explanation now afforded the Board will find that

Fort St. George 20th July 1858

that the Chaultry in question was erected for the accommodation of all classes of the community to the extent of their wants which I watched by putting up myself there for a few days and nights occasionally after the completion of the Buildings. Another Consideration which presented itself to my view at the time was the difficulty to maintain in after time the Chaultry in proper repairs were I to extend the buildings on a larger scale especially when I found that such an extention was above the wants of the Travellers, except very rarely. The Board will perceive from my letter of the 22nd December 1856 that I have besides left for the maintenance of the Chaultry some property in trust, which I am sorry to say is not sufficient to meet all the wants especially the cost of repairs to the fullest extent. —

9 In conclusion I request you will be good enough to submit this letter for the favorable Consideration of the Board with your kind and reasonable supports thereto, and to obtain for the Chaultry in question the usual grant of Maneim. —

10 I take this opportunity to beg that you will have the goodness to grant me

as

Fort St. George 20th July 1858

as formerly requested in my letter of the 13th Febry 1849 a permanent Caule on favorable terms for the land purchased by me for the erection of the Chaultry out houses, as well as for the plantation of Topes being in all about 16 Cawnies all of which were never Cultivated or yielded any revenue to Government for the last many years, except in one instance in which I tried the Cultivation by a Cultivator and suffered a loss by paying assessment more than the total produce of the crop. Of Course, Village accounts shew that a portion of the land is Capable of yielding revenue but the question is whether any had been actually derived by Government from the land for the last 20 years. I have reason to believe that none of the lands have ever yielded any tax to Government as they Chiefly Consist of waste lands, such as are called in public accounts, Poorumboke Immemorial waste and Lank &c &c &c. —

Bd No. 2864
From the Collector of Salem —

Sir,

I have the honor to bring to the Boards notice an instance of of gross negligence on the part of Teaga-raja Pillay, the present Tahsildar of Athoor, and late Tahsildar of Tengeicottah, in the discharge of his duties connected with the Taloor Tappal in the latter Taloor.

2 It was brought to my notice in the month of October 1857 by the Inspecting Postmaster that a large balance was outstanding at the Post Office at Daramporry on account of District Post letters. The amount due on the 30th September last according to the account of the Deputy

Fort St. George 20th July 1858

Deputy Post master was Rupees 105-14-6; of which the greater portion was outstanding in the Talook of Tengericotta

3 It appeared from a report made by the Tahsildar of Tengericottah on the subject, that the total balance outstanding up to the 30th September 1857 in his Talook was Rupees 112-15-6

	Rs	a	P
Due from a Village Moonsiff	6	8	—
Due on a Bangly parcel	1	8	—
Due on letters undelivered	86	9	6
Postage due on letters delivered	39	1	—
	112	15	6

as specified in the margin, that this balance had been accumulating from November 1854, that up to October 1857 certain sums had been collected monthly and paid into the Treasury; but that from September 1858, while the balance was gradually increasing no sums whatever were paid in.

4 The number of letters actually in deposit was 1717 and 47 News papers, of which 972 letters, 25 Service letters, and 3 news papers were paid despatch and the remaining 764 letters and

Fort St. George 20th July 1858.

44 news papers were bearing.

5 The person immediately responsible for the outstanding balance was Comarasawmy Pillay, an Assistant Royasum in the Tengericottah. This person, whose pay was 3-8-— per mensem, was employed to keep the District Post accounts, and to receive and distribute the letters passing thro' the Office. At the commencement of the enquiry he paid to the Tahsildar Rupees 24-12-— stating that this sum had been collected, and was kept by him in deposit till the remaining balance on the letters delivered, Viz^t 14-15-—, could be got in, but he could not shew that the latter sum was actually outstanding as uncollected. This person was therefore charged under the Provisions of Regulation IX of 1822 with

Fort St. George 20th July 1858.

with having embezzled Rupees 14-15 and was fined double that amount. He has also been dismissed from his situation.

6. In respect to the letters undelivered he stated that they had been detained till persons could be found to deliver them.

7 The Tahsildar pleads that he was not aware that such arrears of undelivered letters had been allowed to accumulate. or that such arrears of Postage were outstanding: that having had to superintend the Revenue and Police duties of a large Taluk he was unable to attend to the supervision of the Postal Department himself: and that he depended on the Taluk Sheristadar for doing this part of his duty.

8 The Taluk Sheristadar states that the supervision of the Postal accounts was reserved by the Tahsildar to

Fort St. George 20th July 1858.

to himself, and that he only assigned the Postal accounts prepared by the Assistant Royasum during the absence of the Tahsildar from the Cusbah; and further that he asked the Royasum every month at the time of Jesal, if he had any collections to give in, and that if any money was given by him, it was duly taken to account.

9 It must be admitted that great neglect has been shewn in this case in two respects.

1st. In respect to the balance which was allowed to accrue,

2dly, In respect to the very large number of letters which were kept in the Taluk undelivered. The Tahsildar as the head of the Office is the person on whom the responsibility rests. He shewed

gross

Fort St. George 20th July 1858.

gross negligence in omitting to exercise any supervision over the Assistant Peyadum. If the Tahsildar had examined the Postal accounts once a Month or a fortnight, such accumulation of letters and Postage due could not have occured.

10 Under these circumstances I beg to recommend that the Tahsildar Jeyaraja Pillay should be fined in a sum of 50 Rupees for his gross neglect.

11 I reported the matter to the Post Master General, by letter dated the 6th May 1858, recommending that as the bearing letters could be of little service to the parties to whom they are addressed, they should be delivered free of Postage. But he has since replied to me that the party thro' whose negligence the loss was occasioned ought to be made responsible for any loss incurred on the bearing letters. I have therefore thought it right to proportion the

the fine to the loss likely to result from this source.

Sir,

I have the honor to forward an original Petition to my address from Syed Abdool Khadir and Zorah Sultan Sahibah, Members of the family of the late Moostapha Ally Khan of Woodiaghery, requesting the transfer of the payment of their pension from this Office to that of the Collector of Nellore, on the grounds of the climate of Madras not agreeing with them.

2 Payment has been made from

from this Office under the authority conveyed in Extract from the Proceedings of the Board. dated 7th July 1857 N°2301, and a retransfer to Nellore within so short a period, is certainly objectionable with reference to the remarks of Government in Extract Minutes of Consultation, 28th July 1853, Circular Order 11th August 1853, Volume 2, Page 161, but perhaps the Board will recommend it for the reason adduced, declaring that the praying office will not be again changed.

From the Collector of Madras - - -

With reference to Extract Boards Proceedings forwarding Extract Minutes of Consultation of the 22nd Ultimo N°860. I have the honor to forward Copies of letters from Mess^rs Walker and Plumbe Surveying the Vepery and Triplicane divisions explaining the grounds of their declarations that access to the interior of the houses in a block was indispensable to a correct measurement and definition of their area.-

2 Mr Walker having reported in his letter Copy of which was forwarded to the Board with mine of the 16th April last, that he was refused entrance to their premises by certain parties in Vepery. I desired him to abstain from further proceedings and that I would instruct him on receiving the orders of the Board on my reference.-

3 As he had recently reported

to

to me that the Survey of Vepery had been completed & had imagined that the opposition complained of had been withdrawn but he states in his letter that such was not the case and that he was obliged to take the measurements by chaining along the walls &c.

4 Had I been aware of this proceeding, I should not have encouraged it as I suppose that it is not intended that in the execution of an important Government measure their Officers should prowl about on the tops of houses and use all means but the natural one in the execution of their purpose.-

5 Colonel Boulderson in supposing [To Government 15th May 1858 No 57] that objection to the survey of the Agraharam by a native Surveyor must have misunderstood my remarks on the subject.-

6 I stated and as I thought distinctly that if on his opinion it was inexpedient that a European Surveyor should enter upon the premises, I should be obliged to ask the Board for the employ-

of a native Surveyor I could have given no other reply for the employment of another Surveyor would have been an additional outlay which I was not authorized to incur.-

7 The native Gentleman present was Sadagopah Chetty a Vakeel of the Sudder Court and to him I turned to enquire whether in reality the caste prejudices of the Brahmins would be invaded by the entry of an European into their premises, and his reply is alluded to in para 9 of my letter of the 18th March 1858 No 45.

1 In reply to your official Memo. of the 1st Instant I have the honor to state the Survey of the Vepery Division was completed by the end of last May - The opposition complained

of

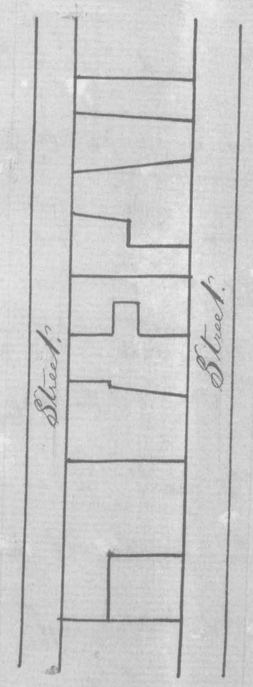

Fort St George 20th July 1858

of in my letter to you dated on the 15th March 1858
was not withdrawn and I was throughout the whole pe-
-riod of the Survey put to considerable inconveni-
-ence and a great deal of delay was occasioned
by the frequent refusal. I met with I was however
enabled to complete the Division with the ex-
-ception of two houses inhabited by the parties
named in my letter - As these houses are
adjacent I have given them two numbers and
one area. The plan adopted by me in the
the measurement of houses where entrance
was refused was to ascend to the roof and
chain along the ridges of the buildings and
the natives rarely refused me permission to do this
for though many of their tiles might be broken, they
preferred this to my entering their dwellings the mea-
-surements were as correct as if taken inside but
occupied more time - In some cases where I could not
obtain admission I measured the premises from the
adjacent buildings and Mr Atkinson's property was
measured by passing round it through the adjoining compound

Ananthu Cherry
Histriah Reddy

Fort St George 20th July 1858

2 With reference to the 3rd Para of your
Memo it is actually necessary for a Surveyor to have
free access to either house or grounds or at least
every alternate house to enable him to give an ac-
-curate plan, unless the measurements can be taken
on the roof and I have at all times measured the
premises on the ground where permission was
given for me to do so - Even where the fronts of
a row of houses stand on one street and their
backs on another it is necessary to look at the cross
boundaries, for it frequently happens that one party
will have a room standing entirely within the
alignment of the boundary of the adjacent hold-
-ing or it may run across in a variety of ways as
shewn in the Margin and unless these irregular
boundaries were taken notice of, no accurate plan
could be drawn and to discover them it is necessary
to have access to the building for it is is not at
all times that this information could be obtained
even by inspection on the roof - In conclusion
I must notice that the parties from whom I receive
most opposition are men of the Brahmin, Komatte &
and Reddy caste and I do not think that it springs
alto-gether

Fort St George 20th July 1858

altogether from any caste prejudice, for when any fancied advantage, is to be gained, or when they have any particular object to gain, they have frequently requested me to enter their premises in preference to my taking measurements in any other way.-

Sir,

1 With reference to your Official Memorandum dated 1st Instant, having reference to the Triplicane Survey, I beg respectfully to state that it is not possible to determine the area of any holding without knowing the dimensions of its boundaries + angles -ancillary means, which in blocks of houses such as are now under Survey, are not in any way available- Every holding has at least 4 boundaries, and of these four only one is obtainable except in corner houses and then 2 can be measured- To use a familiar illustration if would be to endeavour to find the area of a room by merely measuring the door leading into it, without being able to go at either the inside or the outside of it- In furtherance of my explanation- I beg to append a Sketch of one of the blocks yet to be measured- It is bounded by 4 roads and

Fort St George 20th July 1858

and each of the 4 sides averages 608 feet in length- The measurement of the front of each holding of one of the sides is marked but the whole that I can get at are divided off to Scale. There are about 100 holdings and of these more than twenty are within those marked, not shewn because I cannot get at them- There is also a large open piece of ground which may be belong to one or more but in either case access must be obtained to the boundaries- It is impossible for me to know in what direction the lines in the Sketch run, they may be 1050 or 100 feet, and may take several turns as they often does will be seen by some holdings added to the Sketch and already measured-

2 The aggregate area of the whole block can of course be determined, and compared with the total area of the Cutcherry records of them if they are all recorded, but this would only shew (if not agreeing) that there is an error somewhere-

3 The irregular lines in the Sketch are those the length and termination of which I want to discover and it must be clearly seen that I cannot do that without actual measurement.-

Sir.

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue N° 1557 dated 30th April 1858 containing observations on Return sent from

Fort St George 21st July 1858

from this Office under Regulation IX of 1822 dated 23d November 1857.

2 The Board observe that both the Talaiyari and Curnum in case No 1 should be finally dismissed from Public service, especially the latter as he has been convicted of a similar Offence in two other Villages and request my opinion as to whether it is not desirable to appoint a Separate Curnum for each of these Villages, the preference being given to qualified Mirasidars not closely allied to the dismissed party, and further whether it is not expedient to take this opportunity of making the emoluments in the village of Peapaly which it seems unnecessarily large, commensurate with the duties of the Office applying the surplus to increasing those of other Officers inadequately paid in this or other villages, and desire me to report on the Entire Enam Mirasi and Ghyra Mirasi being separately shewn and the ayacut and Berij of the Village.

Jn

Fort St George 21st July 1858

3 In reply I beg to state that the Summabundee Settlement of the fusly 1266, I was given in a general way to understand that the Kurnums of the Talook Panchayetdars had concealed cultivation in their villages, and in consequence Officials were sent to remeasure the lands of a few important Villages. In this examination lands liable to a demand of Rupees 326-8-.. were found to have been concealed as shewn in the margin. The number Tarak Rs of the village of Peapaly had not been made by the Villadar before the Summabundy Settlement, and therefore the Summabundy accounts &c were prepared on the responsibility of the Curnums only. The number Tarak Rs of the 2d and 3d villages were made by the Villadar before the Summabundy Settlement. Of the aforesaid land found to have been cultivated in excess a portion was cultivated with Vysakh Crop after the

the Jummalunden was ever and therefore neither the Reddies Curnums nor the Gillahdar were to blame regarding this cultivation. This amount of the Fysul Crop is Rupees 54½ as noted in the margin which being deducted from the total sum found in excess viz: Rupees 326-8-" leaves a net sum of Rupees 272 for this amount the Defendants were sentenced by the Head assistant Collector on the 16th September 1857.

4. The Defendants appealed to me from this order on the 27th November 1857 urging several reasons for a more lenient view of the case and I referred their Petition to the Head Assistant Collector for his opinion Mr Goldingham on review imputed no fraud but great carelessness only on the part of the Petitioners. I was therefore disposed to modify the punishment. The Potails and Curnums must be held responsible for bringing to account all the lands under cultivation in their villages their neglect

neglect to do so lays them fairly open to the imputation of concealing the cultivation with the view of defrauding the Government and profiting themselves by the fraud - as the examination which led to the discovery of the concealments was made before an opportunity was given to the parties to collect the Revenue from the Ryots they reaped no benefit by the concealment - Under these circumstances I modified the punishment by directing the suspension of 3 years ordered by the Head Assistant Collector to be for one year only and confirmed the fines imposed.

5 The Board consider they should be dismissed and their allowances continued to their successors on a reduced scale commensurate with the duties applying the excess emoluments to other Officers inadequately paid From this it appears that the parties would be finally dismissed But such a severe

punishment

punishment as is involved in the dismissal and deprivation of his Meerassy inheritance is more than is contemplated by the Regulation for offences of this nature - The village officers of Bellary are not like other servants of Government receiving pay simply They have held their Meerassy rights and Enams for generations and it has not been customary to disinherit them and resume their rights in perpetuity for faults of this kind and should it be necessary to inflict such penalties as now contemplated by the Board it should be imposed only of very clearly determined fraud In the present instance the Head Assistant Collector imputes only carelessness to the Culprits - The practice in Bellary has always been to suspend for such offences but not to resume the Enams permanently and this course has been approved of by the Board and Government and is

consistent with the Spirit of the orders of the Board dated 15th July 1839 / see Circular Order Book page 265 - 266 with the notes appended thereto / If the Board should think it expedient to visit offenders of this class with greater severity than it has been usual to do, I would beg to submit that it be previously notified that fraudulent entries of cultivation will subject the Curnums and Potails to the resumption of their Enams I trust with this explanation the Board will confirm my decision in this case -

6 The Board with the view of allotting a portion of the allowances enjoyed by the Potails and Curnums of Peraply to other village Officers who are inadequately paid desire me to report the ayacut Berij and Population of the Village and also the means of subsistence of other Officers in the Village as well as of the Mirasi and Ghyre

7 The Curnum in case No 2 is spoken of above. The Board in para 6 of their Proceedings are of opinion that the Potails in this case should both be dismissed and that I should consider whether a single Potail on higher salary than either of them should not be appointed. The Head Assistant Collector has fined them 15 Rupees each and suspended them from Office for a period of one year. They have not appealed against this order, consequently they have borne the punishment. They were found guilty of concealing land valuing not more than Rupees 37 The modified punishment against the Curnum is suspension from Office for not more than one year and I therefore consider for the reasons before given that the punishment of the Reddies is also sufficient.

8 The Curnum in case No 3 is spoken of above. The Board in para 7 observe that the Potail should be dismissed

dismissed The amount of the concealed cultivation he has been found guilty of is not more than Rupees 11/2. The Head Assistant Collector has fined him Rupees 10- He made no appeal against it. However that punishment is I think adequate.

9 The Board in para 8 state that case No 4 should be treated as case No 1 The Curnum is the only Defendant in this case. The amount of the concealed cultivation he has been found guilty of is not more than Rupees 7-8-". This village was not examined by the Zillahdar before the Immumbundee settlement. The Head assistant Collector has suspended him from Office for a period of 2 years and fined him in the sum of Rupees 50 He appealed against this order along with the Defendants of case No 1 within the prescribed time. Viz: on the 27th November 1857 The Head Assistant Collector is of the same opinion as regards this man

as

Fort St George 21st July 1858

as he was in regard to the Defendants in case No 1 consequently for the reasons stated in para 6 I modified the suspension of 2 years to 1 and confirmed the fine. I trust my decision in this case may also be confirmed by the Board in common with case No 1.

10 The Board in paras 9 & 10 state that the Potail be dismissed and that it seems fair that a village Officer should to some extent be held responsible for the conduct of his Goomastah. This Village was not examined by the Zillah at the Summahundy Settlement. In the recent examination the total sum found in excess in this village amounts to Rupees 112 Of this 93-8-0 Rupees is to be deducted on account of Vyakh cultivation made after the Summahundy and the Defendants are punished for concealing the remaining sum of Rupees 18½ The Head assistant Collector has suspended the Potail from Office.

Fort St George 21st July 1858

Office for a period of 2 years and declares the Curnums Goomastah unfit for further employment and further fined them in the sum of Rupees 50, at 25 Rupees each. The punishment is not modified as the Defendants made no appeal. I consider the punishment inflicted on the 1st Defendant is sufficient. The 2d Defendant is dismissed from Office. The Board observe that the Principal should to some extent be made answerable for this offence. The Principal is a woman and she is a widow. She used to carry on the duties by a Goomastah as he is now dismissed another man has been appointed by the Circar in lieu of him a portion of the Inseraissy will be given to him for his maintenance.

12 In Proceedings of Board of Revenue under date 10th April on a similar subject I am directed to "consider and determine whether the servants therein entered as convicted of fraudulent conduct should not be dismissed from the service of Government. the punishment of fine and suspension already inflicted sufficient and beg to point out that as no part of the demand on the land had been collected from the Ryots the attempted fraud has been heavily punished "In this opinion for the reasons above stated and especially with reference to the former instructions of the Board referred to in Circular order 15th July 1839 I am disposed to coincide.

Sir,

I have the honor to acknowledge the receipt of the Board's + Endorsement on Petition No 103 of 1858, ° Herewith returned in which I am requested to submit an early report with reference to the order of Government Noted in the margin. That order directs me to forward an immediate reply to the + order of Government dated as per margin calling upon me to explain the grounds upon which I consider that the order of Government dated 13th June 1857 No 564 gives an hereditary title to the Inam referred to in the present Petition.

+ Dated 3d June 1858.

+ Extract No 6 No 1039 under date 16th October 1857

2 The explanation in question was submitted to the Board in my letter of the

25th

26th October 1757 No 264 I stated in that letter that I had not intended to imply that the order of Government referred to gave an hereditary tittle to the Inam in question, but that the order of Government had been quoted by me as having sanctioned the amount of a commutation allowance for a Defaunt Inam, which the Board in para 7 of their Proceedings of the 10th March 1851 had stated to be hereditary.

No 564
13th June 1851

3 Certificates of the nature of that in question were issued before my arrival in this District to Tycomaliders to enable them to draw their allowance, and as a means of precaution, the same plan was adopted by me in the case of Defaunt Inamdars. The entry under the head Terms of the grant was made in accordance with the tenure that had been recognized in the Board's Proceedings above referred to.

Sir,

From the Collector of North arcot

I have the honor with reference to para 3 of Extract from the Proceedings of the Board of Revenue dated 18th May 1858 No 1813 to state for the information of the Board that I have received from the Zemindar of Caurvet -nuggur in a letter dated the 12th Instant, a Statement of the amount levied by him on timber taken from his estate, and of the grounds on which he founds his claim of a tax on stone.

With reference to para 3 Extract Proceedings of the Board of Revenue dated 18th May 1858 No 1813 reports on the claim of the Zemindar of Caurvetnuggur to a tax on stone quarried in his Estate also states the amount levied by the Zemindar on timber taken from his estate.

2 The Zemindar states that he has always received a tax of 4 annas per bandy load of firewood cut on his estate, and a tax of from 1 to 2 Rupees per bandy load of timber according to the quality of the wood

He

Fort St George 21st July 1858.

He states also that he has leased some portions of his forests. For the privilege of cutting wood for making ploughs and other implements, his ryots pay the same tax, but he does not mention the amount. The revenue derived from these sources from fusly 1260 to 1264, the Zemindar states to have amounted to 9 Rs 13-11- The price of wood having risen in fuslies 1265 and 1266, the amount of revenue from these sources realized in those two years was 5392 Rs 11-2-0

3 The Zemindar has not hitherto received any tax on the stone quarried in his State. He however states that hitherto none but his own ryots have cut stone, one that it has always been carried off with his permission. He gives instances in which his permission was asked for and obtained to quarry stone of good quality for the purposes of sculpture, as well as for lining

Fort St George 21st July 1858.

lining wells &c.

He states that he apprehends that under the plea of supplying the railway, the contractors may carry off stone for their own purposes, and therefore wishes a tax should be imposed, but does not name the amount, leaving it to be settled as may be thought proper. He adverts to the peculiar tenure of the Western Zemindaries, which vests in the Zemindars absolute control over their Estates with the exception of certain products named.

4 I am of opinion that the Zemindar's requests are just. I see no reason why if he have a right to his timber, and his stone, he should be expected to part with them for nothing.

The contracts for the supply of materials seem hitherto to have been framed by the Railway authorities

in

Fort St George 21st July 1858.

in Circar, as well as Zemendaries based on an understanding that the contractors were to obtain them gratis - an unreasonable expectation, which has led to the present enquiry - Had those who made the contracts ascertained what the contractors would be called upon to pay for their materials, this cause of delay in carrying on their works would not have occurred -

The instruments kept in possession of Mr. Williams for public purposes having

Fort St George 21st July 1858.

having been returned to Madras as stated in my letter of this date, I have the honor with reference to the Boards Proceedings dated 28th April 1858. to forward an Indent from Mr Williams for the instruments he urgently requires and to request that the same may be ordered to be sent as soon as possible as there are many Surveys waiting to be completed on the Nilgherries. It would have been a great convenience had the Board allowed this Office to return as asked by Mr Thomas some of those instruments now returned agreeable to their orders. Saving thereby the expence of transit delay, and probable injury to the instruments.

Sir

With reference to the Extract from the Proceedings of the Board of Revenue under date the 21st ultimo, No. 2148, I have the honor to state, that the course pointed out by the Board, of moving the Subordinate Court to obtain permission for amending the Decree in O.S No. 17 of 1857, cannot be followed in the present instance, as an appeal has already been preferred against the Decree by the Plaintiff and admitted by a higher Court. The legislative provision under which a motion of the nature indicated should be made, allows such an alternative only in cases in which no appeal may have been admitted by a superior Court. Under these circumstances

To the Civil Court of Calicut

Appeal Petition of P. Grant Esqr Acting Collector of Malabar by Government Vakeel Amboo Poothoonal.

I beg to prefer hereby an appeal against Shekary Warmah Wallia or Senior Rajah of Paulghaut supplemental Plaintiff in O.S No 17 of 1857 residing at Agatalara Amshom, in the Paulghaut Talook, for the recovery of Rupees 32-7- being amount of batta due to Witnesses

2dly As it took some days for the Witnesses of my Predecessor to travel a distance of nearly 90 Miles from Paulghaut, the place of their residence to Calicut, and back there again, they are, in accordance with justice, and Law, and without a

a doubt entitled to batta which was accordingly paid them by my predecessor.

3dly According to the general prevailing practice in Courts, and the Regulations, an item of this nature ought to be included in the Decree. The charge in question should therefore have been so included by the Sub Court in the present instance.

Section XXVII Regulation XIV of 1816

4th The usual time for producing accounts of such charges at the Court, is before the fair copy of the Decree is prepared, and the account in this case was accordingly shewn to the Sub Judge on the 1st April 1858, ie eight days previous (to the preparation of such fair copy) but it was rejected.

I pray therefore that a Decree may be passed adjudging the above amount to be paid by the Respondent together with costs of this appeal.

Bd No 2938
From the Collr of Madras

Sir,

I have the honor to seek under Section XX Act VII of 1857, the approval of the Board to the amount of certain fees fixed by me for the services of the Arbitrators in a recent case of arbitration.

2 The Government having directed me by Esctract Minutes of Consultation, 4th Ultimo to take possession of a portion of a house in Triplicane required for public purposes, the question of compensation for the house (the proprietor having under Section XXXII elected to sell the entire house) was submitted to the decision of the following Arbitrators.

N. Ponnambla Pillay on the part of Government
Mullaroa on behalf of the proprietor and Dr Flymn, as the third Arbitrator under Section XII

3 The majority of the arbitrators (N. Ponnambala

11985 Fort St. George 21st July 1858.

(N. Ponnambala Pillay dissenting) gave in an award and demanded fees for their services.

4 Fifty Rupees were proposed as the fee to Dr Flymn and 25 each to the two Native Gentlemen associated with him.

5 The amount is in my opinion a liberal one for one days engagement but if more than is necessary in the opinion of the Board I hope that they will lower it to the proper sum.

6 The old Act XX of 1852, gave no fees to Arbitrators, and this is the first instance of such remuneration having been solicited.

7 The occasions will be rare in which an arbitrator in the position of Dr Flymn will be required and generally I shall fix a low sum as fees if they are here after demanded.

8 I did not anticipate a requisition for fees, and as Dr Flymn was close at hand he undertook at my request the Office of third arbitrator.

9 It is not impossible that with this precedent arbitrators will usually require to be paid for their services, and as there are four cases now pending settlement under the Act

11987 Fort St. George 21st July 1858

Act I beg to ask whether I should submit for the approval each sum proposed as fees as the case comes under settlement or whether the Board can grant me general discretion to award such amount as I think may compensate for the service rendered.-

The deceased has left no direct family The surviving members of the family are Soobabhutloo, his father aged 54. The Sub Collector, however disallowed the decision of the Punchayet, which was not a regular one held under the Regulations, & ordered the lapsed share of 4 Gortoos to be registered in the name of Dheeravadenna & 4 Gortoos in the name of Soobabhutloo & Sashumbhutloo The 2 latter have appealed against this decision, As the deceased Pamiah left no descendants, & there is no claimant nearer than his Great Grandfathers descendants of the 3d degree, Soobabhutloo & Sashumbhutloo, who stand to him in the relation of Cousins Soobabhutloo is also his natural father, & on the failure of the line of the adoptive family property passes to his natural Kindred. The former however is the prior claimant & I recommend that the 4 Gortoos held by Pamiah be continued to Soobabhutloo and Sashumbhutloo, but the case is one of sufficient doubt to render a reference for orders necessary. through which they hope to remedy it is the transfer of their Pans to the Collector of Madras. The Petitioners cannot but be aware of the great benefits accruing to the Manufacturers under the Collector of Madras from the Sales for Inland Consumption and it is but natural that they should that they would participate in these profits if they could get themselves placed under his management. To accomplish their object, which of course is profit alone there does not appear to me to be any necessity for placing them under the Collector of Madras. It can be realized by affording them a simple measure of justice being nothing more than bringing their Salt to the bank of the Adyar by the South East Canal and in Communication with the Bandies travelling on the Southern & partly on the Western Trunk Roads. The Canal which at present by cutting off the Covelong Pans from Communication with the Interior has of late been the means of bringing the greatest distress on the

manufacturers would then return them more than the profits they have been enjoying for many years past while it would relieve the entire bandy trade of the Southern and partly of the Western Roads of carrying their Salt an additional distance from Madras and make a legitimate inroad into the monopoly which the manufacturers under the Madras Collector have since 1847 been virtually keeping to themselves In every way the measure is desirable and can be accomplished at very trifling expense to be followed by prosperity to at present a very suffering Class of the Community while it would also help to stimulate the boating trade of the South East Canal, and give employment to a number of people to seek their living on its waters.

3. It appears to me that every object the Petitioners could wish for would be accomplished by such an arrangement, while they could hope for

for nothing more from being placed under the Collector of Madras. The Canal not extending beyond the Adyar would not allow of their Salt being brought into the existing Salt Platforms of Madras except by expensive land carriage* and they could therefore ask for and expect nothing more than a supplemental Platform Depôt under that Officer somewhere near the Southern limits of his jurisdiction. The arrangement to them under the Collector of Madras, would be no more if so much as that I propose to give them under myself while the advantages of exclusive Control of the District are very great. I need say no more on this head than that they are agriculturists as well as Salt Manufacturers and have therefore always balances of Land Revenue to pay. In the case of the Manufacturers of Vayalore and other Pans in this District under the management of the Collector of Madras, difficulty is experienced in Collecting these balances through that Officer

* Water Transit per garce from Covelong to Adyar Rs. 2-4-0 Land Transit per garce from Adyar to Madras Platform Rs. 7-0-0

Officer, which would not exist under other circumstances on a late occasion I requested that their Coodivarum might be appropriated to liquidate their balances but Mr. Cunliffe only consented to the extent to which the manufacturers admitted their balances to be due thus permitting them to withhold payment under all sorts of inadmissible pleas for remissions enquired into and refused to them at the Annual settlement. The payment moreover when realized was realized with difficulty and was contingent on the presence of the Tahsildar or one of his Servants at the time the Coodivarum was distributed. It does not appear desirable that this difficulty should be increased or extended to other Pans and another independent jurisdiction built up. On the Contrary if the argument goes for anything it shews that the Pans in this District now under the Collector

Public from the influx of traders. Under these circumstances I am inclined to recommend the purchase of a piece of ground near the Canal bridge of about 10 Cawnies in the vicinity of pasturage and water which may be purchased for about Rupees 2,000 as conveniently situated both for unloading the Salt boats as they arrive from the Pans and supplying the bandies coming from Madras over the Marmalong and Elphinstone bridges. The purchase of the land with the cost of the Platforms and Cutcherry will not eventually fall upon Government as the Manufacturers have Consented in writing to defray the Cost by a reduction of 1 Rupee per Garce in their Codiwarum till the sum to be advanced by Government is paid off. This sum for the Platforms 3 in number will probably Come to Rupees 1500 and for the Cutcherry to Rupees 200. The land I think should be purchased bonafied by

Fort St. Georges 22d July 1858

Collector of Madras should be restored to it and that instead of manufacturing the Salt he requires for the wants of the Madras Market he should indent for it here. The difference to him would be nothing while it would do away with the anomaly now existing & put matters on their proper footing.

4. The establishment of a Depôt or Supplemental Platform has been frequently advocated by my Predecessors and the time now appears to have Come when it should be seriously thought of. The banks of the Canal or of the navigable portion of the Adyar river with contiguity to the Public roads appear to me to point out the most desirable situation for the Depôt and it remains therefore only to fix its exact position where these advantages Can all be combined and at the same time no inconvenience occasioned to the general Public

by Government though the manufac-
turers are willing to pay for it also as
much do they feel their disadvantage
of position since the opening of the
Inland trade at Madras that they
formerly were prepared to pay for the
excavation of a Canal to the Adyar
at their own expense the temporary
reduction of 1 Rupee per Garce from
their Coodevaram for the erection of

therefore be hesitated at.—

nearly ceased An occasional Vessel

from its position to windward of

it is never likely to receive. The
retention of Salt at Covelong for exp

unnecessary and the greater part

6. The great quantity of Salt now at
Covelong originates chiefly in the Board's
Orders noted in the margin enjoying the special
manufacture of Salt for the Collector of Madras
who afterwards only took a little of it and
the necessity of always having a 2 years supply
on hand for Shipment and Inland Con-
sumption which have both ceased to be in
demand During the present year not a single
Garce of Salt has been sold at Covelong
itself where all may be said to be gradually
wasting away to the loss of Government
who have paid for it and the ruin of the
Manufacturers who cannot hope to be ordered
to manufacture more so long as more than
the average 2 years supply remains on hand
Since the excavation of the Canal whereby
the inland trade has of late been cut off
the average sales have sunk to nothing
and unless the Salt is removed its eventual
disappearance in the shape of wastage &

must be sooner or later expected To obviate this its removal to the proposed Depôt on the Canal seems to afford a certain means the quantity of Salt to be removed will be about 2576 Garces and allowing for a little delay in the presenting of bandies to the Depôt it is not likely when its existence becomes known that a longer period than eighteen months or two years will be necessary to clear it off The manufacture may therefore almost immediately recommence at the Covelong Lt.

7. Should these proposals be carried out one of the results that may be expected to follow will be the stoppage of wastage now averaging about 53 Garces in two years valued at Rupees 6,400 in round numbers as shewn in the margin. This now charge arises from the number of years the Salt remains on hand exposed to the weather before it is sold. With the establishment of the Depôt and consequent certainty of sales the manufacture can be regulated to

to the probable wants of the year and the whole sold off nearly as soon as it is manufactured wastage will then very greatly cease or be next to nothing and the profits due to Government out of this branch of Revenue be fully realized.

8. In regard to Para 2 of the Board's Proceedings under reference I have the honor to report that in July 1266 - 1106 Garces of Salt were manufactured at Covelong and Calumbalum where the united sales during the year reached only 940 Garces leaving with previous stock 2576 Garces on hand. In the face of this large stock it was not considered advisable to manufacture any Salt whatever in July 1209 and with reference to Para 3 that though Ships have been advertized for none have as yet answered the Call. I am however in hopes that two do so as their Agents leave within the last day or two been applying to me for information.—

recently transferred to South Arcot from
the District of Chingleput. Several Pyots
Puttahdars of the Village presented a
Durkhast in Fusly 1267 for 15 Kawnies of
waste land bearing an Assessment of 69
Rupees and odd. The Durkhast was accepted
by Mr Ball & the land made over to the Applis
cants.

3. The Petitioners who are the Monigars
of the Village claim as Meerasdars the
hereditary right to all waste lands they
contend that the first option of under
taking the land for cultivation be
longs of right to them that if the
occupation be conceded to others they
are entitled to a Swamibhogum or
Landlords share and that ryots so
occupying on Puttah have no power
to dispose of the land but simply to
enjoy the produce.

4. As Meerasy right is not
recognized in this District the objections
of the Petitioners were considered to be
inadmissible and the case of these
Durkhastdars was treated according to the

the ordinary rules - The latter are Puttah doars in the Village of long standing and would be elapsed according to the practice of South Arcot - As Poleaudy or Resident Ryots as such they hold direct from Government pay the teerwa of the land and are liable to no claim for Land lords share - The Petitioners are in the enjoyment of certain Enam lands and commuted Swotumbarums besides the land held by them on Puttah from the Circar - It rests with the Board and the Government to determine whether under the peculiarities of the Meerasy tenure which is said to prevail in Chingleput the exclusive right to the waste claimed by the Petitioners should be recognized whether they are entitled to demand from Dunkhastdars any fees in addition to the teerwa of land

land taken up for cultivation which is payable to Government and whether the right of such Dunkhastdars is restricted to the enjoyment of the produce and does not extend to the disposal of the land.

5 A paraeeody or Non resident ryot was under the native Government as the Board are aware allowed to hold land on favorable grain rent and according to the present practice of this District the offer of a non resident ryot to undertake waste land for cultivation is accepted. After the option has been given to the last tenant within 5 years and to the Colkoody or resident Ryots. The Dunkhastdars in the present case however are resident Puttaholders & no such rule applies to them and accordingly to the Custom of the District the land ought to be made over to them as a matter of course unsaddled with any of the restrictions sought to be imposed upon it by the Petitioners. Upon

6. Upon these grounds Mr Hall considered that he was justified in throwing out the Petitioners Claim without specific orders from higher Authority to admit it - The first option of taking the land would have been readily granted to the Petitioners, but their object was to establish a claim to what in this District are unauthorised privileges - Whatever may be the recognised right of Meerasdars in the Chingleput District Mr Halls view of the case derives support from the Honorable Courts despatch communicated 31st January 1842 Page 321. and from the sentiments recorded by Mr I Sullivan in the concluding paras of his report to Government dated 20th February 1841 - Boards Proceedings 16th February 1843 -

From the Actg Collector of Tanjore ... } 1. I have the honor to report for the information of the Board, the result of the arrangements made for introducing into the Cadarumbum Villages of Keevalure and Tirtoapoondy, the Cuttoogoottah Settlement authorized in Extracts from their Proceedings dated the 29th March 1855, No. 302.

Reports on the results made in introducing into two Talooks the Cuttoogoottah Settlement.

2. On proceeding to enter into engagements with the Meerasdars, I found it necessary, as anticipated by Mr Forbes and permitted by the Board, to modify slightly the demand proposed for each Village in the Statement submitted by that Gentleman with his report of the 8th of February 1855, and I accordingly availed myself of the discretionary power given on this head - The financial result of the settlement actually made is exhibited in the following Table -

3. The causes of this decrease will now be explained. The Pagoda Braminy and the Village pose Soturtum having been abolished under the late orders of Government, it was necessary to give to the Cadarumbum Mecrassadars, the benifit of this concession. The remission due to this cause amounted to Rupees 615-15-0 which has been detucted from the amount of the Cuttoogottah demand originally proposed.

4. The amount recommended by Mr Forbes in his Statement already adverted to as the fixed demand proposed for each Village, was either Mr Hindersley's Cootoogoottah beriz of Fusly 1241, the average Collections of the 10 years from Fusly 1252 to 1261, or the Jummabundy beriz of Fusly 1263 Modified according to local circumstances. These of Course has still been retained as the basis of the present Settlement, but as the sums then proposed include an amount of the tax which in the great Majority of cases, exceeds the present revenue from

This, under the circumstances, seemed to me but reasonable, and I have accordingly deducted the difference which amounted to Rupees 1120-6-" but as in some few cases the tree-tax of Fusly 1266 was more than formerly, the excess /Rupees 52-10-"/ has been brought to account which reduces the deduction actually made under this head, to Rupees 1067-12-".

5. Another item of deduction /Rs 338-4-"/ was in the Villages Punnad Rupees 77-3-" Cadamicid ... ... 91--3-" Peringottagay ... 90--15-" Vellakara-neroppoo ... 78--15-" + 338--4-" made in the Margin on account of Ayacut /arable/ land included in the Dittam, but rendered unfit for cultivation either by the formation of

sand drifts or by being liable to be flooded by salt water from their close proximity to the sea, and also by the excavation of drainage channels. I arranged to have these lands duly examined by parties specially deputed for the purpose, and made a rateable deduction on those which from the causes stated were entirely lost to the Mecarasdars- such it is to be observed being part of the area on which Mr Forbes amount has been calculated.

6. The Village of Hottamtiddal, No 4. Veevalare Talook in Mr Forbes' Statement, is Bechirag or uninhabited, and with the exception of a small patch of Manavary land, consists of waste never cultivated. It is accordingly seen that the Collection of the 10 years from Fusly 1252 to 1261 averaged but Rupees 8-10-", and that of a similar period between Fusly 1257 and 1266, only Rupees 5-14-". 7. The amount proposed for the Village of Vellapullum in the Tintacapondy Talook was Rupees 791-14-0 which is the average of the collections of the 10 years from Fusly 1252 to Fusly, 1261. The Meerassdars, however, objected to this demand, pointing to the greatly dimi-nished collections of later years as indicative of a deterioration of its resources. The Collections of the last ten years†, it is true, are very much below the average of the former series, but unfa-vorable seasons and a low cut-turn under cummy have tended very much to reduce the average of the later period. As however even after making allowance for these causes the result of the Comparison between the averages of the two periods is still unfavorable to the villages, I was willing to make some concession, and accordingly adopted Mr Cotton's Cuttoogottah Viz† 726-7-0 as a fair demand under all the circumstances. to raise any kind of crop on any des=
=cription of land, without praying any thing
above the beriz already specified.—

We further agree that in the
event of our failing to pay the Govern=
=ment demand regularly by the fixed
instalments, the balance which may
be outstanding against us shall be recover=
=ed by the attachment and sale of
our property, according to the Regulation

We shall in each Fusly
furnish the Circar with a statement
shewing the extent held by each and
the demand thereon.—

No 138

To J. A. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

B.O. 2420
From the Spl. Collr. of Madura

Sir,

In reply to an Extract from the Proceedings of the Board of Revenue dated the 15th April 1858, I have the honor to forward two Memoranda, the one the relationship of the parties named in Government Petition No. 1948 of 1857, and the other the dates on which they first entered the Service of the Government.—

2.— From Statements taken from the Head Sheristadar and the other employés, it appears that of the long list given by the Petitioners of whom no representative has come forward / eleven persons are related as under to the Raiz.—

A. The Head Sheristadar is father-in-law to the Head Sheristadar's son.—
B & H are the Raiz's Cousins.—
C & M are his Uncles.

N.

Harnished a memo shewing how the several parties named in Govt. Petn. No 1948 of 1857 are connected with Rom Row the Head Sheristadar of the Madura District & another shewing how many of them have been employed or promoted since his nomination. Also one with reference to Extract Bonds pgs. Nos 1309 dated 10th April 1858 —

Government Petitions
Nos 1948 - 3088 - of 1857
& Nos 624 & 997 of 1858
are herewith returned

12038. Fort St George July 1858.

N & O are his brothers in law.
P is his brothers son in law
V is brother of the Ryot's deceased brothers father in law
W is Nephew to V.
AB is the Ryots brothers father in law.

3.— The Statement B shews that not one of the 47 persons entered in the Petitioners list was appointed subsequently to the alienation of the Land to his present Patt, and of the eleven individuals who are shewn to be his connexions, only five have been nominated since the Ryot first entering into the service of the Government in 1837.—

4.— It certainly is objectionable in principle and opposed to the orders of Government that the Head and Asst Sheristadar should be relations and Related to Pleaders, and all the Tahsildars in the District Parkunds, but as regards the subject of

12039 Fort St George July 1858.

of the present Petition I have never received a single bonâ fide complaint against him, and his reputation is that of strict honesty. He performs the duties of his office creditably. this is perhaps not so actively as some others. His character however fully makes up for that.

5.— The remarks of the present Petitioners / at Pulicat on a former occasion / are apparently fictitious ones. and the Petition may have emanated solely from envy.—

6.— The only plan that I can propose is to continue the system I have hitherto adopted of nominating to vacant posts suitable persons of the Sudra caste.—

7.— The Head Sheristadar likewise bears a high character for honesty. I cannot therefore recommend the extreme measure of transferring either of these Members.—

8.— If the Board think it advisable instructions might be

be given that as regards some of the Naibs relations, an exchange be made with similar servants in the Tinnevelly District.—

9.— As regards the alleged purchase of land by the Naib Sheristadar in the name of his son-in-law, the transaction took place it appears, some fifteen years ago. the land was purchased by his sister, and the imputation of concealment is denied with the facilities offered to public servants of obtaining land openly such a proceeding is not probable.

10.— As much information was requisite from the Talooks. delay has occurred in making this report.—

Of the 8 individuals whom I admit to be my relatives 3 are employed in the Shevagungah zemindary and other 5 altho employed in Government service they hold their official posts since the time I was young. The number of kinsmen of mine holding public employments will appear very small if compared with those of other servants.

No 145

To G. L. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd No 2732
From the Actg Collr
of Madura

Sir,

With reference to Para 9
an Extract from the Proceedings of
the Board of Revenue No 1857 under
date the 8th May 1858 I have the honor to
submit the following remarks

Para 10 Extract
Pro: Board of
Revenue

2 Promising that by Depot
in Mr Longley's report is meant
"Cotaur" I would observe that I still
retain the opinion that a salary of 35
Rupees per mensem will secure pers
of sufficient respectability to fill the
Office of Chowkedar.-

3 If they be raised to the post
of superintendent on salaries of 100 Rs
no little jealousy would ensue and
it is doubtful whether they would
subordinate themselves to the Amildar

4 Moreover looking at the ins
=tated portions of the pans it is questionable
whether

Fort St. George 22d July 1858.

whether the augmented Salary would
tempt natives of position in society.-

9 Chowkidars at 35 Rs per mensem 315-0-0
9 Superintendent at 100 Rs Do - 900-0-0
Difference - 585-0-0

5 On the other hand
the creation of Superintendents
would largely increase the
cost of the Establishment

6 With regard to the suggestion
of the Board in Para 7 that a reduction
of the Establishments of the Salt Amildar
and Hoozoor Cutcherry would provide
funds for this increased expenditure
I would observe that the Amildar
is also a Head of Police having juris=
=diction equal in importance to that of
Police Ameens and that his Esta=
=blishment is calculated to meet
his Police duties as well as the
preparation of accounts connected
with Salt. He also supervises the
Sea Customs.-

Amildars Establishment 290 Rs
Tahsildars Do from 400 to 580

7 As compared with that of
Tahsildars his Establishment is small
and it only exceeds that of the Police
Ameens of Camoody and Taduckoonattagay
by Rupees 43-8-0 a Month.-

Each

8 Each Chowkedar has the supervision of about 4 or 5 Villages attached to each pan.

9 As regards the Koozoor one Gomastah might be dispensed with at present but the saving thus effected is small and the increased sales of Salt might render necessary his re employment.

10 The augmented pay of Rupees 35 would I think be a sufficient stimulas to a respectable person to be careful and its increase to Rupees 100 would do no more.

11 It must be observed moreover that the proposed reduction of pans would enable the Amildar with the aid of a larger Establishment to bestow more time on their supervision and by his making more searching enquiries than he is now able to do the probability of fraud succeeding would be considerably lessened.

12 As regards the greater difficulty of obtaining Salt in consequence of the reduced number of pans on improvement of communication will it is more than probable neutralize this

this draw back and as for their capability of producing the amount of Salt requisite for present consumption this has been attested by the Officers on the spot while if demand increases beyond their capability Government can revert to any of the suppressed pans the land in the locality (probability in its nature unfit for agricultural purposes) being purposely kept vacant.

13 Allowing that under the new system increased traffic will enhance the cost of keeping up the roads to the Pans it is questionable whether this will much exceed the present outlay on the more extended area of imperfect roads which are exposed to the effects of the weather as well as the distribution resulting from traffic.

14 The accompanying Memo shews the distance of the present pans from each other.

Sir,

B. No 2967
From the Asst Collector
of Madura

I have the honor to inform the Board that agreeably to the instructions conveyed in their Extract Proceedings of the 2d October last No 3305, the Mercals now in use throughout the pans of the District were repaired from Contingent charges, but the Amildar now reports that as they have since become nearly worn out it will be necessary with a view to ensure a free sale of the Salt to make 50 fresh Mercals. I therefore request that the Board will either forward for the use of my District scales for weighing Salt or obtain Sanction for the purchase of 50 new brass Mercals conformably to the recommendation of Mr Sullivan in his letter to the Board dated 7th August 1857 No 174.

2. The old Mercals (112 in number) can be sold by public auction after a fresh supply has been obtained. They will probably fetch Rs 392 or nearly three fourth of the Estimated cost of the new ones so that the expense to Government will be only Rs 158.—

With reference to para 2 of Extract from the Proceedings of the Board of Revenue dated 18th May last directing me to report what measures are to ensure a correct return of the price and quality of the third Sort of rice I have the honor to inform you that the price of rice determined upon the report of the Tahsildar of the Talook in which Palam Cottah, the head quarters of the Regiment is situated, who procures from the Village Officers a list of the prices at which the traders men sell rice of all sorts but latterly they classify rice into two descriptions only as that imported by sea which ranks as of the lowest value has not been received for some months past.—

B. No. 3017-

From the Acting Collector of Coimbatore, Sir,

I have the honor to state for the Board's information that one of the Ryots of Choonchoovady, a Village in the Talook of Pollachey in this District having reported to the Huzoor that a certain extent of land was in the enjoyment of several Enumdars in excess of the quantity originally allotted to them in 4 Villages noted in the Margin the Tahsildar was directed to measure those lands.

2. The result of which is that an extent of 27 Bullahs

assessed at Rupees 107 — has been found to have been included in the Enam lands consisting of 47 Bullahs as detailed in the accompanying Account and to have been enjoyed by the Enamdars without paying any thing to Government.—

3. The Curnum of that Village being questioned during the present Settlement of this Talook states in his deposition that in 1843 his father having reported to the then Tahsildar the circumstance of some excess of land in the fields of the above Villages the Talook Sheristadar was ordered to examine the whole extent of land of each of those 4 Villages, but instead of doing so the Sheristadar measured only the "Iyen" or Circarlands & not the Enam

Whereupon

Fort St. George 22d July 1858.

4. Whereupon a concealment of Cultivation to the extent of Rupees 568 was discovered. From the above it would seem that the said Talook Sheristadar willfully connived at the excess in the Enam lands and that the late Curnam and his son the present Curnum had availed themselves of that opportunity to omit the excess from the Public account & they did not fail to bring the circumstances to the notice of the authorities originally.—

5. On an enquiry it appears that none of the Enam lands in this District have hitherto been measured Under these circumstances I think it sufficient to fine the Curnum with a sum of Rupees 20 tho' he deserves dismissal under Board's Circular dated 27th May 1850 and to pay that sum to the informant as a reward. I therefore request the Board's permission to do so.—

6. I have issued a circular Takeed to all Tahsildars to measure the Enam lands of all descriptions, and to furnish Accounts to show the excess quantity that may be thus found which I anticipate will be found to exist to a large extent.—
