From the Agent to the Govr Vizagapatam

Sir,

In acknowledgment of the Board's endorsement No. 119 of 1858 on Miscellaneous Petition No. 1611 of 1858 addressed to Government by the late Head of Police of Vizeanagrum complaining of his dismissal from Office by me, I have the honor to state that on the recent occasion when the Zemindar of Bobily was about to pass through the Town of Vizeanagrum this Officer proved himself totally unfit for the post he filled, he displayed the greatest want of ordinary courage and at a time when he should have been present to the peace, he was no where to be found until discovered in his own house.

2. There was a noisy demonstration by the popular of Vizeanagrum on the evening of the 13th March last against a measure which I had publicly announced would shortly take place under cover of my authority. I allude to the procession through that Town of the Bobily Zemindar's family, and it was of great importance that at least some of those who took part in that demonstration should be secured, yet out of some thousands of people assembled the Head of Police not only secured no ones person, but to this time has failed to name a single individual who was present, whether from fear of the revenge of the party or from other sinister influences I cannot say, but it is very manifest that

that a Head of Police who had been stationed for 8 years in a Town could not be really ignorant, or at all events ought not to have been ignorant, of some at least of the leaders in a movement of so grave a character, and if it be fact that he was ignorant of the name of any one present on the occasion of the demonstration, it can only be accounted for by his absence when his presence was so urgently necessary besides, considering there is a large Military force at Vizianagrum, had the Petitioner done his duty he would at once have called on the Brigadier for aid to disperse the mob supposing he had himself been overawed by their noise and number, but he did nothing of the kind, and took no measures of repression whatever, and though all eventually passed off quietly this was entirely owing to the influence and exertions of the Rajah of Vizianagrum and of some of his principal people.

3. I do not think it necessary to go into any further detail of my reasons for removing the Petitioner. he showed himself a coward as I consider, as well as thoroughly unequal for the post of Head of Police, and as the interests of the community and the peace of the Country are paramount considerations, I did not hesitate to dismiss B. Seemiah from his Office and I presume the measure finds ample support in the grounds I have stated.

4. I beg to enclose for the Board's information

Copy

Copy of my Report on the occasion I have referred to and in Para 2 they will see that I mentioned the dismissal of the Head of Police.

5. The orders of Government on my report are also forwarded for the Board's perusal.

Vizagapatam Govt Agents Office 13th July 1858.

Signed C. W. Reade
Agent to the Governor.

N.o 672

Extract from the Minutes of Consultation under date the 22.d May 1858.

Read the following letter from the Agent to the Governor of Fort S.t George in Vizagapatam.

Reports upon the result of his proceedings in Vizianagrum against the demonstration to oppose the Bobilly family passing through the Town of Vizianagrum.

(Were entered 28th April 1858 N.o 771)

The Right Honorable the Governor in Council quite approves the proceedings of the Agent in regard for the passage of the Zemindar of Bobilly through the Town of Vizianagrum, and considers them to have been marked with much firmness and judgment.

2. The Right Honorable the Governor in Council is likewise much gratified by the conduct of the Rajah of Vizianagrum on the occasion. Although the Rajah may himself be too enlightened to entertain such narrow prejudices there can be no doubt

that

that the required concession must have severely tried the feelings of his dependents and retainers - He seems throughout to have acted a highly honorable part and to have behaved with the best faith. The Agent will be pleased to convey to the Rajah these sentiments

To T. Pycroft Esq
Chief Secretary to Government
Fort St. George.

Sir,

I have the honor to report the following circumstances for the information of Government.

2. On the 2d March I received an application from the Zemindar of Bobilly for a Purwanah or Pass permitting certain members of his family to proceed on a pilgrimage or visit to Rajahmundry on the 4th idem the Pass was granted in the usual form and further directing that all assistance should be rendered by the Native authorities on the line of route by which the Zemindar's family were to travel - On the 15th March a report from the Head of Police reached me marked A accompanying, stating that on the night of the 13th there had been a demonstration in the town to apprize the approach of the Bobilly Zemindar's family but that no one was identified though upwards of 1,000 persons were said to have assembled themselves

themselves, in consequence of this report I suspended the Head of Police and on the 15th March the newly appointed Head of Police sent me a further report enclosing 2 Placards marked B & C which he stated had been discovered posted up in the town of Vizianagrum on the previous night. In reply to these Reports, I forwarded 3 Proclamations a copy of which marked D is enclosed, offering a reward of 300 Rupees for the discovery and conviction of the author or authors of each of the said placards. I also addressed the Rajah of Vizianagrum on the subject requesting to know what had passed and drawing his attention to the Placards in question. On the 17th the Head of Police reported that on the previous night 2 of my Proclamations had been torn down and over the place of one of them a paper had been posted, a translation of which marked E accompanies, and on the same date I received a letter from the Rajah expressive of his deep distress and annoyance at what had happened, and desiring that the discovery of the guilty might be left to him adding that he had issued a Proclamation offering a reward of 1,000 Rupees for the apprehension of any who had instigated and promoted the movement, or were in any way concerned in the placards.

3. Consequent on matters assuming so serious an aspect, I at once determined to proceed to Vizianagrum in view to making every effort

to

to discover those who had thus dared to set the laws and my authority at open defiance - I addressed to the Rajah the letter copy of which is marked F. I also had prepared 6 Proclamations similar to those which had been destroyed and on the morning of the 1st April I reached Vizianagrum - On my arrival I was greeted with information from the Head of Police that a third placard more violent and abusive than the previous ones had been found posted upon the wall of a house in the town on the night of the 28th March a translation of this placard is marked G. The Head of Police ought not to have lost a moment in forwarding this placard to me, but in explanation of the delay he states that he had hoped to identify the hand writing and to obtain information which might afford some clue to the authors of it. For the discovery of the authors of this Proclamation I at once offered a reward of Rupees 1,000 with a conditional pardon to any but the principal. I was also on the same day visited by the Rajah who evinced considerable anxiety and concern of all that was passing. I followed up my letter by closely questioning him as to the persons in his employ distinguishing those in whom he had confidence and those whom he mistrusted and he readily furnished me with such a list - The Rajah has also in his service in various subordinate Posts as Sepoys and Rowdies about

about 70 other individuals Natives of Hindoostan, but I pass these by as persons of no note or influence while I have no reason to suppose the servants in whom he expressed the utmost confidence, to be either traitors to that confidence or otherwise than perfectly loyal to the British Government - I therefore desire to disconnect them with the recent events.

4. The Government will observe that the ostensible cause of this repeated manifestation of bad feeling and determined opposition to my authority has been solely the expected progress of the Bobilly family through the Vizianagrum town. The event is alluded to in all the placards and on the first night to oppose such progress was the avowed object of the demonstration.

5. The Government will necessarily be aware of the ancient and bitter feuds existing between the respective families of the two Zemindars of Vizianagrum and Bobilly, they are matter of history, and while in the minds of the Chiefs these feuds may no longer outwardly have existence and both Zemindars may in a measure be sincere in their desire, as evinced before me, to be reconciled, still this feeling is undoubtedly not generally shared in by their respective followers or clans-men, who there can be no doubt have always been very averse to any amalgamation of interests, or of any approach to friendship between their respective chiefs, thus while I fully credit the assurances of the Rajah of Vizianagrum that he is in no way

opposed

opposed to the passage through his ancestral town
of the family of his hereditary enemy, and further
that he would aid their passage to the best of his
power. I am of opinion that his people think and
feel differently, and render the false notion of
Patriotism they would not hesitate to risk the dis-
pleasure of their Lord and Master as well as incur
the penalties of the Law rather than submit to
what in their ignorance and superstition they are
pleased to designate as an insult and indig-
-ty to the family of their Zemindar.

6. It was this knowledge that had pre-
-viously led me before the present instance to
press on the Rajah the necessity for closely watch-
-ing his people, and I have frequently during
the past year of excitement and mistrust, urged
him to vigilance in regard to them, but all
having passed off quietly hitherto, I was pre-
-pared to attribute to him a power and influ-
-ence over his people and followers greater than
the test of the present occasion might seem to
warrant, for passing events certainly indicate
that in the one hereditary feud between his
own and the family of Bobilly he is power-
-less to control the passions of the people, who
the latter seem as determined to take matters
into their own hands and to carry their feud
against the expressed wishes of their chief
and in defiance of the laws and of local author-

I

Fort St. Geoge 2d August 1858.

7 I cannot however believe that the
inhabitants generally of the Town of Vizianagram
would dare to place themselves in such direct
antagonism with the powers that be unless
influenced and backed by others of more note
and consequence such I know to be the
prevailing opinion among all classes and
the consideration induces the supposition that
some of the Rajahs immediate adherents
must be privy to what has passed and have
certainly connived at it, if they have not actually
instigated the late movement. It was with
this impression I wrote the letter I did mark
ed **F**, and subsequently called upon the
Rajah for the particular information with
which he so readily furnished me of the prin-
-cipal individuals about him.

8 I had previously been informed
that one "Chenbroogh" an inhabitant of Bima-
-resand one "Reddy Sunneassya Brahmin of this
part of the Country both in the pay of the Rajah
were concerned in the matter, and as the
Rajah did not include them in the List of
those in whom he expressed confidence
I mentioned their names to him when he

at

at once disclaimed all responsibility regarding their Conduct, and gave me a few particulars respecting both proving that in his own estimation they were persons of doubtful Character.

9 Of course all this time I had not been inactive in measures to discover the prime movers in the matter, and I had other reliable sources of information from which I derived much that proved of value. On the 1st April I suddenly espied the Brahmin "Reddy Sunniassy" also one Calladah Appadoo and the Hindoostanee man named "Chumbo Singh", the latter holds some confidential employ under the Rajah the two former I sent in at once to Vizigapatam under a Guard, and on the following day "Chumbo Singh" and a fourth whom during the night I had caused to be apprehended.

10 His Lordship in Council will be aware that all this occurred just at the period when his Lordships advent was expected at Vizigapatam, and I was consequently unable at the time to pursue my enquiries further but after securing those whom I had reason to suspect were the principals in the movement

movement, I made all necessary arrangements to guard against disturbance and placed a Military guard over the Police Cutcherry which is situated in the Centre of the Town I left Vizianagrum on Saturday the 2nd for which the Governor at Vizigapatam who was expected there the following day.

11 During the evening much nothing of note occurred, one Placard however marked H was found stuck up on a house in the Town abusive rather of the Rajah than of the authorities and declaring that His Highness was playing false outwardly pretending to cooperate with me in the course I was adopting but in reality acting and abetting those who were acting in secret hostility to my authority. Notwithstanding the allegations made in this Placard affecting the Rajah to be entirely false and malicious, and by many the Placard is thought to be the work of the Bobbily people but as all was quiet in the Town and no further disturbance apprehended, I merely employed the interval in arranging for the advent of the Zemindars son. I fixed the 3rd Instant at 6 A.M. as the date and hour he was to pass through with his Retinue and on the

morning

morning of the 18th I drew up the accompanying Fara-
nation marked I a translation of which into Tel-
was duly posted all over the Town, giving the in-
habitants by invitation the opportunity of they de-
sh of coming forward and openly stating any ob-
jections they might have to offer, meanwhile Sa
ceived an anonymous address purporting to
signed by all the people of Vejeanagrum and tran-
lation of which will also be found among the
accompanying papers marked J This paper
is couched in different language and is altogeth
of a very different character to any of its predece
sors, at the same time it clearly betrays the
very strong feeling existing on the point contended
for, and while it professes obedience to the orders
of the authorities in the matter, the dislike of the
parties to those orders is not attempted to be conc
12 Stock the precaution of communica-
ing with the Bobilly Zemindar requiring him to
instruct his people on no account whatever to
resent or resist any obstruction by word or deed
that might be offered by any concealed or other
persons while the procession was passing through
the Streets this was in reference to the expressed
fears of the Zemindar that Stones might be thrown

or

or other insults be offered to his family but from
which I undertook to guarantee him provided his own
people did not take the law into their own hands
by acting on the defensive
13 Provision was also made for fur-
nishing supplies to the Bobilly people and Bazaars
were temporarily established at their encamping
ground outside the Town
14 The threatening attitude assumed
by persons unknown and the repeated threats per-
sonally addressed to myself necessitated more
than ordinary precautions in order to ensure
with certainty the safe conduct of the party and
however sanguine I might myself have felt as to
the result I did not consider it right to ignore
Military assistance without which it would
have been impossible to calculate on the con-
sequences I therefore called upon the Command-
ing Officer of the 31st Regiment Light Infantry
at Vizianagrum to be under Arms with
400 men on the morning of Thursday the
22nd at 6 A.M. the hour and date ap-
pointed for the passage of the procession
and three Companies were accordingly sta-
tioned at different intervals in the Street

through

through which the procession passed while the Police and the Rajahs people occupied other posts between the Militiary and ours so as to watch events and to repress any attempt at opposition or disturbance

15 I had previously strictly required that the procession should not enter the Town later than 6, and true to time they appeared precisely at that hour and by 7 A.M. had completed the passage of the Strait and had passed the Rajahs fort and in an hour subsequently they were encamped according to arrangement upwards of 2 Miles beyond the precincts of the Town, and in the morning they had proceeded 8 miles further on their way.

16 Thus has ended in perfect quiet and order this long looked for event, an event which however trifling it may seem to European eyes, is viewed I believe of very vast importance by every one in this Zemindary both of Vizeanagrum and Bobilly and that the local authorities and Government have also hitherto so viewed it is shewn by the fact that this procession had heretofore been prohibited for fear of bloodshed and of a general riot. 17 The principle involved appears to me an obvious one, and it was this principle which I have contended for, and have happily been able successfully to carry out. The Town of Vizianagrum is an open public thoroughfare and the error of allowing a family feud between two neighbouring land-holders to interfere with the liberties and rights of each other and their respective dependants, both being subjects of the same Sovereign Power admits I think of no question this principle had till now been conceded to a false policy as concerns which at the present day could find neither sympathy nor support and I have reason to know that my explanations on this point to the Rajah as well as to his head men was eventually fully comprehended with persons of their education and birth of course reason had its due weight while the machinations of the ignorant and superstitious could only be met by those measures of repression and precaution which it devolved on me to adopt in furtherance of the public peace, and I trust the Government will approve of the policy I have pursued and of the way I have enforced it. I believe that the events of the 22nd will lay the foundation of a new era in the history of the 2

Zemindars

Fort Saint George 2nd August 1858

Zemindars this is the general impression and in my belief it has already paved the way for that reconciliation and better state of feeling which it is so desirable should subsist between the two most influential and wealthy Zemindars in the District.

18 I enclose for the information of Government Copies of 2 letters addressed by me to the Rajah of Vizianagram and to the Rajah of Bobilly on the determination of the affair of the Vizianagram Rajahs reply which I am in every way satisfactory for there is little doubt that the Rajah's feelings had been practiced upon by many about him, and his letter argues that he resisted those influences in deference to the Counsel and advice which throughout he so willingly received from me

19 In Conclusion I would solicit of the Right Honorable the Governor in Council the expression of His Lordships gratification and sense of the valuable and active Co-operation rendered by the Rajah of Vizianagram in aid of my authority in connection with this unpleasant affair

B.C. No. 3270

From the Collr. of Masulipatam } Sir,

In my letter of the 23rd Ultimo No. 123 I reported to the Board the circumstances under which I postponed the sale of the Dameracattah Estate. The Zemindar since the date of that letter has paid in the amount of his stipulated instalments, reducing his debt to Government at this date

Fort St. George 2d August 1858

date to Rupees 16,194 / exclusive of interest / which is payable within the Current Month.—

2 As by far the greater part of the Peishcush has been thus liquidated, I have no doubt that he will succeed in raising money to pay off the remainder. But if by any chance he should fail it is necessary that I should have the authority of the Board to proceed with the sale of such part of the Estate as may be deemed equivalent to the balance due. I have for this reason drawn up a fresh notice of sale which I herewith submit for the Board's approval. The Board will observe that I have selected 13 Villages with an approximate revenue of Rupees 23,300. The principle which I have had in view in this selection is this. As the whole Estate is liable to be sold to the whole Peishcush so is the Portion to be sold to the balance of Peishcush due. In order, I enclose a detailed Calculation of the same. The reason why I have selected these Villages in preference to others, is that they be contiguous to the Talook of Daeni, with which they can be easily incorporated. It will be observed that I have inserted a clause to the effect that the actual Peishcush to be paid will be determined by an examination of accounts if possible by the day of

of sale if not at as early a date as can be and that the Peishcush is only an approximation as nearly as can be.—

3 As intimated in my last letter the Estate is still continued under attachment I beg to be favored with the Board's instructions on this subject at an early date.—

I have the honor to forward the Statement of Demand Collection and Balance for the Month of June 1858, and to submit the following Explanation in connection with it. —

2 As the Immunabundy settlement has not been completed, the Demand entered in Column 5 of the Statement opposite to the Item "Ryatwar" under the head "at permanently settled" does not shew the actual beriz That amount has been calculated in those Talooks in which the settlement has not been made, on the extent of land cultivated. The former assessment of

of that Land has been reduced by 28 percent in Poonjah and 30 percent in Nunjah and the remainder has been taken as the Demand of those Talook.—

3 The amount of demand for the talooks of Cannery pauk Sholinghur and Trivallum which have been settled, has been correctly entered. The greater part of the Chittoor Talook has been settled, but as the settlement of some Villages has still to be made the exact heri of that Talook is not yet ascertainable I am not aware how many talooks the Sub Collector has completed but as I have not yet received the heriz of any of his Talooks, though I have called for them, I cannot enter the true demand of any of these Talooks in Column 5

4 I am now engaged in the Settlement of the Satghur Talook and have still to settle Chendraghery, Suttivaid

With reference to the Board's endorsement on Petition No. 982 of 1858 I have the honor to report as follows.—

2 The Petitioner by name Sam=thoorisspa Immoody Erawasspa Naick the head of the surviving Members of the pensioned family of Nagalapooram described in the Correspondence noted in the Margin and he draws a Pension of 5 Rupees per Mensem.—

To Board of Revenue dated 26th December 1845
Extract Minutes of Consultation 13th February 1846
To Board of Revenue 21st July 1851
From Do. 13th March 1851

3 In the year 1851 the three widows of the Petitioners elder Brother who left the residence of the Nagalapooram family in Consequence of disagreement among the Members and went to live with their respective Parents requested that a portion of the Sanctioned allowance might be paid to each of them respectively Mr. Bird ordered

Fort St. George 2d August 1858

ordered the Petitioner to make a provision for these widows but he declined to do so on the ground that the widows refused to reside in the family house Mr. Bird recommended to the Board of Revenue under date the 21st February 1851 that a portion of the Sanctioned Stipend for the family might be allowed to be paid separately to each of the three widows at the rate of 5 Rupees per Mensem.—

4 The Board in their Proceed=ings of the 13th March 1851 declined to sanction the Sub Division of the pension of the Petitioner and ordered that the pension should be Continued to be paid to the Petitioner as Head of the family while he should be continued to afford support to the widows.—

5 On the 14th April 1851 an order was sent to the Treasurer directing him to Continue the payment of the pension to the Petitioner as Head of the family: and accordingly the Petitioner was in receipt of the whole amount of the pension upto October 1857.—

6 During the latter part of the year 1857 one of the three Widows of the Petitioner

Petitioners elder Brother two others having he came reconciled with the Petitioner / Com- plained to the Collector Mr. Silver represent that the Petitioner had withheld the payment of the allowance due to her share on the ground that she left his house and lives with her Parents. ——

7 The Tahsildar of Ollapedaram having been directed to make enquiry into the matter reported that the Petitioner had deposed he would not give the Complainant any portion of the allowance as long as She refuses to reside in his house. ——

8 On the 3d December 1857 Mr. Silver sent an order to the Tahsildar directing him to inform the Petitioner that his objection to pay the Complainant her share of the allowance on the score of her having left his house are not reasonable that unless the Petitioner consented to make any provision for the Complainant measures would be adopted for dividing the pension and paying the Complainant

Fort St. George 2d August 1858

Complainant her share of the allowance agreeably to note 5 appended to the Circular Order of the Board of Revenue dated the 27th February 1851 / Vide Circular Order of the Board of Revenue Vol II page 5 / but the Petitioner having still objected to conform to this order Mr. Silver issued an order to the Treasurer under date the 22d February 1858 directing him to pay 5 Rupees to the Complainant and the remaining 55 Rupees to the Petitioner on obtaining a receipt from the latter / Petitioner / for the whole amount. ——

9 The Petitioner being dissatisfied with the above decision has appealed to the Board on the subject. ——

10 The Petitioner prays that the decision of Mr. Silver should be cancelled and that the whole amount of the pension be continued to him from November 1857 leaving the complaining Widow to look

look to him for her support like the two other Widows of his elder Brother.—

11 I have therefore the honor to request that the Board will be pleased to favor me with their instructions as to whether the Rate No. 5 alluded to by Mr. Silver in his orders above quoted is applicable to the present instance where no specific sums have hitherto been engaged by the other Members of the family and if not so applicable then to cancel the order to Treasurer

Sir

With reference to the letter No. 1818 dated the 20th May last from your Office requesting information as to whether any tax is levied in this District for each palmirah tree felled or for leaves cut from this tree and if so to state when and how the tax originated and the Grounds on which it is levied and also my opinion as to whether it is expedient to maintain or abolish it. I have the honor to inform you that it is usual in this District to fell only withered and unproductive Palmirah trees for this purpose the previous sanction of the Collector is required and a tax is levied from the owner

for

1st Sort 6 annas per tree
2d Sort 4 Do Do
3d Sort or trees not well grown

for each Palmyrah tree thus felled according to the rates specified in the Margin.

The sale proceeds are divided in equal portions between the Government and the owner of the tree.

2. These rates were fixed by the Acting Collector of this District in 1842 with reference to the quality and value of the trees.

3 It would appear that this arrangement originated to guard against the want or removal of trees that were productive and paying tax to the Government and for the same purpose it seems to be expedient to continue this check In case of a productive tree being thus felled it still contributes slightly to the revenue instead of causing a positive deduction from it.

Sir Henry G Montgomery Bart.

4 There is not any tax levied in this for leaves cut from the trees that are felled.

5 The withered and unproductive trees standing on Government lands are sold as follows.

1st Sort - 12 Annas per tree
2d Sort 8 Annas per tree
3d Sort is sold by public auction and the sale proceeds carried to the Credit of Government.

Sir,

Bd No 3388
From the Collr
of Canara.

In reply to your letter
No 1807 calling for information as to the
effect of existing Laws in checking smug-
gling in this District I have the honor to
state for the information of the Board
that they are in my opinion of very little
use as they only empower the revenue
officers to confiscate the Goods seized
which illicit traders deals, confiscation
does not operate as a check as the cost
price of the article in Goa is less than
1/10 part of what it can be readily sold
for on this side of the frontier and
therefore one successful trip in about 8
pays the smuggler.—

In most places the confis-
2 cation of Carts vessels and Cattle seized whilst
employed in smuggling would no doubt have a
beneficial

beneficial effect in checking illicit trade
but in this District the nature of the Coa
is such that salt smuggling is mostly car
ried by individuals each carrying a load on
it is therefore very desirable that pecu
punishment should be awarded to those wh
may be caught in the act of smuggling.

3 The returns herewith forwarded
will show how little smuggled salt is co
fiscated and though this may be partially
accounted for in many ways from the
corruptness of the lower class of Office
and the handsome way in which the smu
=ggler can afford to pay for their connu
ance. The smuggler should be the object
of capture rather than the goods and the
punishment should be commensurate with
the expense and trouble of catching him
I must here observe that the existing laws
also offer great facilities for avoiding
the payment of the Customs.

4 We have now no means of

knowing whether a vessel really lands her
cargo at the Port for which she clears out
or not I do not know that the revenue has
suffered very materially from this as
yet because the bulk of our foreign
trade is not with foreign Ports in India
but with Arabia.

5 There is nothing however that
I am aware of to prevent the Arabian
gallows which take in cargoes of rice
here from clearing out for Bombay
and thus avoiding the payment of duty
whilst they sail directed to the Persian
Gulf.

6 I do not say that this is prac
=tised I believe that it is not but cargoes
cleared out for British Indian Ports are
no doubt landed in Goa and other foreign
Ports in this Country.

7 Although this may not be smuggling
within the meaning of the term as now made
use of by the Board a means of defrauding
Government of its just dues exists and ought
may

in my humble opinion to be provided ag

8 Adequate legislation on these points would secure the due collection of Customs and check smuggling in the District but it has lately come to my knowledge that in consequence of a difference in the export duty in this and the Bombay Presidency tobacco is exported from Bombay Ports to Sedasheguer and is smuggled thence into Goa or re-exported for sale in the Portuguese territory. This should be brought to the knowledge of Government I think and the present is a fit opportunity for doing so.

9 As regards salt the laws relating to illicit dealing in this article within the Company's territory if made as pliable to smuggling from Goa would perhaps serve to shake the system that now exists and for carrying on which there are both great facilities and great temptations. The jungle paths afford numberless means of egress and ingress all along the Goa frontier

frontier and the immediate means of concealing smuggled goods on an alarm being given whilst the large profits to be made offer temptations which com paratively security make irresistible.

10 Most of the articles entered in the accompanying Statement have been found on Arab Seamen on in their boats when about to leave the rivers - The large items however refer to known instances in which goods shipped for British Indian Ports have been landed in foreign territory

11 This sometimes occurs from stress of weather or variation in the demand for the goods which will not sell perhaps at the port of destination and in such cases the Agents for the Vessels not unfrequently themselves report the occurrence and tender the duty which would have been levied had the Vessel cleared out for the Port at which her Cargo was disposed of.

Sir.

I have the honor to acknow-

the Proceedings of the Board of Revenue

Consultation of the 9th of the same month
and calling for further information in
reference to the Statements submitted
by me of Enam lands taken up by

the compensation paid therein.

2 I beg now to submit a more detailed Statement which I hope will be found to contain all the information required. The extent of, and the assessment on, the different descriptions of land taken up is exhibited, the average shist per acre, number of years for which compensation has been paid and the amount for each year, and the extent of land given in exchange.

3 The Board are aware that in the delta that the highest assessed and most valuable land, both Government and enam, is found, and it is of course in this part of the province that land has been taken up. The Channels often run through the richest land on the banks of the Godavery. The rates

assessed lands of the upper Talooks. In the margin is given the average rates for fasly 1264 of the Government land in those Talooks in which land was principally taken. It is also within the Knowledge of the Board that the dry land often bears a higher assessment than that classed as wet an examination of the detailed accounts shows that in most cases the present valuation of the land taken up is below the average rate of assessment in each village.

4 As already stated in my letter of the 30th. April 1857, in determining the amount of compensation to be paid, and the extent of land to be given in place of that taken up, every means in my power was adopted to guard against fraud. The accounts of the annual income derived from the lands that is the sum paid by the actual cultivator to the enamdar, or, what is called, the amaracuse shist, were carefully tested with the assessment of the adjoining Government land, and in determining the extent of land to be given in lieu, the area was not alone considered but the actual value,

entered in the as in the Margin of the 5th Para of

value - The actual extent of land
given is considerably less than that
taken up - From the Statement No.
forwarded with my letter of the 30th
April 1857 it will be seen that the
actually paid to the parties concern
were considerably below those entered
in the Statement submitted by my
predecessor with his letter of the
22d. November 1853.

5 May I beg that a copy
of my letter of the 28th August last
may be forwarded to Government
when this communication is submitted
should the same not already have
been placed before them.

To I. D. Sim Esqr

Sir

I have the honor to submit for the consideration of the Board of Revenue a proposition for vesting the present Sub Officer of Police at Tirunoor with the powers of an Ameen of Police with jurisdiction over certain tracts which at a great distance from the present Tahsildar's

2 The present station of the Tirunoor Tahsildary is Chintlepoody which is distant upwards of 30 Miles from Tirunoor & 60 Miles from Pongolamoo the furthest Village in that Division as things stand now almost all cases of heinous Crimes fall under the primary investigation of the Sub Officer of Police because the Tahsildar himself is at too great distance to admit in time & the parties are subjected to the inconvenience of a double examination before Committing the Court - owing to the distance that has to be travelled the parties are virtually debarred from prosecuting petty cases of theft assault &c. &c. This part of Country about Tirunoor is very jungly and abounds with petty Zemindars & Head Varadars among whom feuds are not uncommon. Till recently heinous Crimes were rife in this part of the District which is further the most distant & exposed part of our Frontier -

3 For these various Reasons it seems to me that it would be highly beneficial to have a respectable Officer invested with the powers of an Ameen of Police stationed at Tirunoor with jurisdiction over the Villages

From the Collr of Masulipatam

to assist the Sub Officer in the execution of his duty I trust the Board of Revenue will give the weight of their recommendation to this proposition & obtain the authority of Government for carrying it out -

4 The pay now attached to the Sub Officer of Police of Tirunoor is Rs. 15 per Mensem - My predecessor has added to this 10 Rupees per Mensem from the funds of the Estate the immediate management of which has been entrusted to this Officer - The sum of Rs. 25 per Mensem being a fair salary will I think be sufficient for the present to render the office a respectable one, and I consider this opportunity a convenient one for giving my proposition a trial without entailing any present additional expence to the state -

5 If after a time the arrangement is found to work successfully, the question of the salary of the Ameen of Police may be brought forward at a future date or when the Estate reverts to its owners the Board will observe that provision has been made in the Revised Inoyenzalitah for an Officer for the same station on a salary of Rs. 50 per Mensem -

From the Board's Proceedings
To the — 18th July 1858

With reference to the correspondence marginally noted I have the honor to bring to the Board's notice that the whole quantity of Salt therein stated to be available on the Beach at Covelong for export to Calcutta has been ordered to be shipped for Messrs. Barry Leveridge & Co. and a further quantity will be required to be brought to the Beach from the Platforms in the vicinity to meet their demand. I beg the Board will inform me whether I am to store any more Salt on the Beach to meet future demands (if any) and to what extent. The cost of bringing the salt from the other Platforms to the Beach Platforms will be Rs. 1-12 per Garce and of course considerable wastage in the conveyance must be looked for

From the Collector
of North arcot } Sir,

Para 1 I have the honor to state for the information of the Board that on the receipt of an Extract from the Proceedings of the Board of Revenue dated 29th May 1854 which accompanied a Copy from the Extract from the Minutes of Consultation dated 16th Idem No. 678, Sanctioning the formation of Civil Dispensaries at Ramipett and Vellare, Mr. Baurdillon the late Collector instructed Mr. Sullivan in letter dated 13th June 1854 No. 154, of which a Copy is enclosed, that Furniture required for the Dispensaries in question should be procured without loss of time in communication with the Garrison Surgeon at Vellare —

× Vide Paragraph letter from Mr. Baurdillon to the Board dated 30th March 1854 No. 32

2 Mr. Sullivan accordingly obtained a List of the Furniture named by the Garrison Surgeon

Surgeon and forwarded the same to Mr. Bourdillon with a Memo. of the probable cost thereof, who issued advances to Mr. Sullivan for the purchase of the Furniture, and requested that officer to forward Bills for the actual expenditure as soon as the supply had been completely effected.

* Fort Pellore 500 — Fort Pompeet 600 —

3 Abstracts for the actual cost of the Furniture were received from Mr. Sullivan with letters dated 12th June and 11th October 1855, of which I beg to forward herewith Copies for the information of the Board together with a Copy of my letter to the Civil Auditor dated 7th Ultimo No. 95 accompanied by a Copy of his reply dated 18th Idem No. 26. —

4 In requesting that the Board will be pleased to obtain the sanction of Government for Rupees 554-8-4 and Rupees 708-4-4 respectively, to enable me to adjust advances on the Bills being passed by the Civil Auditor, I beg to explain that the circumstances of these and

Fort St. George 3d August 1858

and other advances having so long remained unadjusted, is in great measure to be attributed to the Manner in which unadjusted advances have hitherto been shewn in the accounts - The Monthly Journals exhibited only the advances of that Month, the former unadjusted advances were submitted only once a year to the Accountant General, and elicited no remarks - The attention of the Collector was in this way never called to the state of those advances I brought this subject to the notice of Majors Harrison and Brooks when they were employed in this District in introducing the Bengal system of accounts, and the rules they have framed and submitted to Government for sanction will prevent in future advances remaining so long unadjusted. —

Sir,

Para 1 I have the honor to enclose Copy of an Extract from the Minutes of Consultation of Government dated 16th Ulto sanctioning the Establishment of a Dispensary at Ranipett, to be maintained out of surplus funds of the Lunkeyanah - and for the better understanding of the terms on which the dispensary is based, I send also a Copy of my last letter on the subject, dated March 30th 1854. ——

2 You will be good enough to put yourself in Communication on this subject with the Officer Commanding the Station, with the view of obtaining the use of a suitable building from among the Government Buildings now unoccupied. Should any repairs be required, I beg to request that in Concert with the Commanding Officer you will cause an Estimate to be

Fort St. George 3d August 1858

be made for what is necessary, and send it to me, Commencing the work however without delay. —

3 I presume that the Government sanction will be Communicated to Colonel Taylor through the Military Department and that he will do what is necessary towards obtaining the Services of a Dresser, entertaining the other Servants required, obtaining Medicines &c. Some hospital furniture will also be required, which will be provided out of the accumulated funds and as there is now no Commissioned Medical Officer at Ranipett it may be convenient to adapt the list which will be prepared by the Garrison Surgeon of Vellore for the Dispensary to be Established at that Station & I beg you will Communicate with Mr. Sullivan on that point - as Vellore possesses greater appliances than Ranipett Mr. Sullivan may be able also to aid in providing the things required - You will be good enough to send me an Estimate

of

Fort St. George 2 August 1858

of the things considered necessary and other probable Cost. but you need not delay their preparation, as it is desirable the Dispensary should be opened to the Public as soon as possible.—

4. With reference to the observation of Government respecting private contributions towards the Dispensary I beg that you will Circulate a Paper inviting subscriptions.—

5 You will be good enough to send in Monthly accounts of the expenditure of the Dispensary similar to those now sent in for the Lungur Khanah Viz an acquittance roll for the Servants employed and Statements of the expenditure in other ways.—

of Furniture in question were debited in my accounts to the Head "Advances on account the Service of Government" On the receipt from Mr. Sullivan of the abstracts for the Actual expenditure the differences between the amou of the actual expenditure and the Amounts ac were paid, but instead of carrying in my acc the full amounts of the Abstracts to the of the proper head of charge, by crediting t head "advance" the portions of the Sums pre paid on that account, and outstanding under t head advance, only the net amounts that a subsequently paid were debited to the proper head of charge. This mistake was not discov till lately when my attention was directed to an examination of the Amounts outstanding in accounts under the head advance in view to their adjustment and as according to the facts System, no sums are to be adjusted to the debit of proper head of charge without being suffici by audited abstracts. Bd No 2565-
From the Acting Collr of Ganjam

Sir

As ordered in the Extract from the Proceedings of the Board of Revenue dated the 29th april last No 1824 I have the honor to submit a statement of the Establishment I would propose for the Collection of Sea Customs duties in this District -

2 In making this Report I would wish the Board when considering this question to bear in mind the importance and necessity of engaging as superintendants intelligent men whose opinion would have some influence with the Ships Captains & two of men who are very impatient with the delays and trickeries of Native Merchants and also men able to restrain any drunken freaks of the Crews -

3 In neither of the above Cases do I consider Natives of any use and Government will readily recognize the importance in this remote district of having Establishment which will do something more than Collect dues and sign passes

4 The Board will observe that I have proposed much higher pay than is usual in this district but I can assure the Board that this District is not the cheap place it may on account before me proves that the necessaries of life have encreased 60 per Cent of late years and the mistaken policy of cheap servants is manifest in the present disordered state of my Office -

5 I feel very anxious that this letter may receive as favorable a hearing as possible I am well aware how imperative the orders of the supreme Government are to restrict expenses to the least possible amount but what I have proposed is I fully believe the least sum that will purchase an honest thoroughly efficient Sea Customs Department -

B. No 3214.

From the Collector of Rajahmundry

Furnishing further information on the subject referred to in the memorial from one Vadravoo Chundramonly of Condagootoor in the Talook of Caperam in the Rajahmundry District.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue of the 18th February last transmitting Extract from the Minutes of Consultation of the 12th of the same month calling for information on the subject referred to in the memorial from one Vadravoo Chundramonly of Condagootoor in the Talook of Caperam in this District, praying for the restoration of an Enam allotted by the zemindar of Peddapoor for the support of a Pagoda.—

2. The facts of the case are given in my endorsement of the 2nd September 1856 on the Petitioners address No 274 of 1856 the correctness of which the Memorialist does not appear to dispute. Under a document dated 4th June 1837 the then zemindar of Peddapoor granted Vadravoo Chundramooly an Enam of the annual value of 12 Pagodas for the support of a Pagoda in the Village of Condagootoor and the same zemindar also

12909 Fort Saint George 4th August 1858.

also passed an order on the 11th October of the same year authorizing the disbursement annually of the sum of Rupees 28 from the Village charges to defray the cost of keeping a light in the same Pagoda and of certain festivals and ceremonies

3. These allowances in money and land were continued up to Fasly 1255 (A.D. 1845-46) but in the following year when the estate reverted to Government they were resumed as being grants of a very recent origin and such as it was not competent to the zemindar to make, and could at all events only have force so long as the state was held by the party who had granted them. —

Para 5. 4. The Memorialist refers to grants made in the same zemindar for the support of Choultries at Peddapoor and Conteemanedy and still continued. The exact date of the grants is not known but it appears by a letter from a late Collector Mr. Crawley to the Board that they had been granted prior to the date of his letter Viz. 25 April 1835. The Board on the 18th May of the same year sanctioned the continuance of the grants, and the Choultries are now efficiently kept up under the supervision of the Government Officers. —

5. I may also mention that the Anam for the support of the Choultry at Mallacherod was

12910 Fort Saint George 4th August 1858

was granted under the rules of the 20th August 1829. The sanction of the Government of India was given under date the 21st December 1849.

Sir

Dated. I have the honor to submit herewith three Statements in the prescribed form shewing the particulars connected with the working of the Collectorate Regr in this Office during the past official year 1857/58.—

2.— Statement No 1 shews the receipts and disbursements of the year. the former amounted to Rupees 1552—1—. and the latter Rupees 1183—5—4 leaving a Balance in favor of the Regr of Rupees 368—11—8. to which should be added Rupees 364—5—5. being the former years balance. or in all Rupees 732—1—1 at its credit on the 31st April 1858.—

3.— The work done and charged for the Collectors office 112 Folios of plain matter, and 65 forms of Tabular Statements having been fair-ed. In addition to these the publication of the District Gazette was commenced in last September and

and has been continued regularly once a week. The enclosure No 4 is a list shewing to whom the Gazette is sent on the public service and the number of its paying subscribers. the number of both descriptions exceeded two hundred being at present 198 Copies of the Gazette forwarded on service and 355 to paying subscribers every exertion is being made to make it useful and interesting to all parties. and the benefit of the publication is undoubted.—

4.— No papers were printed in the year under review for the Civil Court at this Station, owing probably to the large number of forms struck off for its use in the previous year. The other public Departments have not taken advantage of the Regr to any extent. In the private work there was a large increase.—

5.— The permanent Establishment continued unaltered. No temporary Establishment paid from the earnings of the Regr. a competitor on 5 Rupees per Month

month was added, and an allowance of Rupees 30 monthly made by the late Acting Collector to the Head Accountant for superintending the operations of the Press which entails much extra trouble and obliges him to attend at out of Office hours - as this is in conformity with the rules of Government in which latitude may power was given to the Collector to expend portions of the earnings of the Press for the greater efficiency of the office, and the Superintendent has been given to understand that this allowance must depend entirely on the earnings of the Press and I may add as the Manager has done his duty very satisfactorily I hope this arrangement will be approved of and continued.

x 29th March 1858 No. 408

5. In the report for the past year allusion was made to the insufficiency of Armenian type supplied. This want was more than ever felt when the publication

publication of the District Gazette commenced; and the quantity absolutely required 48 3/4 lbs. was procured from Madras. Even since the receipt of these types several of the Armenian types occasionally run short - an Estimate for these types and other articles required has been prepared and submitted for sanction with a separate communication.

7- The number of Forms & Standing orders now printed have been much to facilitate business, and the publicity given to the orders of Government the rulings of the Law Courts, and other matters of importance has been most beneficial to the public.

8.- The mark in the Press Office has so much increased that I am about to take one apprentice or 5 Rupees a month, to learn his business and help the department He will be bound to the Press for 3 years.

No. 150

To
G. L. Forbes Esqre

Board of Revenue
Fort St. George

B. No. 2067.
From the Collector of Nellore
Submitting the information required in the Board's Proceedings of the 1st October 1835 regarding the Roosoomy collected in the Nellore District.
Mysd. C.D. & Ss.

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated 1st October last on the Subject of certain Poligar Roosoomy levied in this District, I have the honor to Submit herewith, 5 Statements Shewing the Roosoomy collected in Cases not embraced in Mr. Ratliff's Report of the 2d July 1835, and other particulars illustrative of the Subject under consideration. I beg also to refer the Board to the account of the Poligars of this District, including those in the Venkatagherry Zemindary, contained in Mr. Stonhouse's Report of 18th April 1838. These latter, it does not seem necessary to bring under consideration at present.—

2. Statements A & B. refer to the Roosoomy of the Vorraiwar Poligar, whose watch extends over the greater portion of the Talook of Sydapoor, and a part of that of Goondavole. Roosoomy are accordingly paid to him in lieu of the Government Villages of the former, and 9 of those of the latter. As in the case of the Woortawar, and Chittatewar

22

Chittatewar Roosoomes, the rate of payment varies extremely and follows no uniform principal. The total income of the Poligar from the fees amounted in Fusly 1243. to Rupees 1479–6–7. in the two Talooks, in the proportions shown in the Margin and is nearly 4 per Cent on the Government Revenue of the Villages. The portion of this stated to be expended for the maintenance of Peons, and Cavilgars, and in the payment of the Peishcush with which he is charged amounts to Rupees 799–1–3. as shown in the Margin leaving the Net income of the Poligar at Rupees 680–5–4.–

Peishcush	192	8	—
Peons	129	"	"
Cavilgars	477	9	3
	799	1	3
Remainder	680	5	4

3. In addition to this he holds a Cundrega of 21 Goortoos, Granted by Mr. Travers, it is rent free, but being jungle land is stated to produce only Rupees 23. per Annum, as pasture. It is at present under enquiry with other alienations of Messrs. Travers and Hasley. Besides attending to the Cavelly of the Villages within the range of his Supervision, the Poligar is liable to be called upon in times of emergency to assist in the preservation of the peace, but unlike those already reported on, the Toorrawar Roosoomes are collected by the Poligar himself, without the interposition of Government.

4. Statement C. shows the Roosoomes enjoyed by the Mootheyalapand Zemindar Balarow.– They are not Cavil fees as in the case of the Poligars already noticed, but appear to have been granted for very different purposes. Their

Vide to Board 1st October, 1819.

origin and nature were thus explained by Mr. Fraser so far back as 1819.–

Para 64. "The Mootheyalapand Zemindar enjoys Maniems "free of any Rents, and Roosoomes for performing the "Office of Desmuk in the Mootahs of Cavaly, "Caleghery Doottatoor, Putchavad, Davagoodoor "and Buddapoody."–

" × × ×

Para 65 "The Office of Desmuk was formerly conferred in "two equal Shares on the family of Balarow, and on "that of Joopully Apparow.–

" × × ×

Para 66. "Desmuk means the head of the Country, and it "appears from the Purwanahs of Shuffee Khan, and "of Mahomed Syed Dewans at Hydrabad, on "that the Desmuk was to take measures to "improve the Cultivation of the Country; and "to be answerable for the due realization of "its Revenues, for which Office it is supposed "that the Roosoomes and Maniems were allotted; "but it does not appear that the Zemindars of "Mootheyalapand at any time rendered the "Services for which these Roosoomes and Maniems "were given them."–

Para 72. " It appears that the Jummah of the "5 Purganahs of Woodiagherry Talook was "Rupees 40,094. and that of the 15 Purganahs of Cumbum

"Cumbum Talook Rupees 1,20,718 — 9 — " making the total of
"these two Districts Rupees 1,42,6,812 — 9 — " of which
"the amount expected to be realized thro the
"means of these two Desamooks was Rupees 2,54,607 — "
"and from this sum Rupees 1,62,840 — 7 — " was said to
"be remitted or postponed usually on account of
"unfavorable Seasons, or in fact upon grounds
"not now intelligible, and the remaining
"being Rupees 91,766 — 9 — " only was actually
"payable to the Circar. —

Para 74. "To enable them to collect these Sums the
"Desamooks were allowed a Roosoom of 2 % on the
"Jummah of the Districts of Woodiagherry, and
"Cumbum." × × × × ×

5. Although the ostensible service for which the Roosooms were originally granted has not been rendered, they are still enjoyed by the Zemindar. As in the case of Woortanaw, and Chittateway Roosooms, those of Balarow are also collected by the Circar, and credited to the Peishcush or payable by him. They are levied in 84 Government, and 10 Shrotriem Villages, and consist for the greater part of 2 % on the Cultivation Berij of the Villages, also of a Muctah or fixed Charge in some Cases, and

and of both combined in others, as will be seen on reference to Statement C. The Muctah bears no fixed proportion to the Revenue of the Villages, and varies greatly in different ones. The total proceeds of the Roosooms amounted in Fasly 1263 to Rupees 2301 — 11 — 10 as p on a Government Revenue of Rupees 78,938 — 14 — 3 as p or 2 — 14 — 8 % — ment Revenue of Rupees 78,938 — 14 — 3 as p or 2 — 14 — 8 %. —

6. It remains to notice what are called the Stalla Curnums Roosooms. These were formerly paid to certain Officers whose duty it was to keep Copies of the Revenue Accounts, and who were supposed to act as a check upon the Talook and Village Servants. The fees were resumed after the assumption of the District, and made payable direct to Government, in consequence of the abolition of the Office. They are now included in the Ryots Puttahs, and are annually collected and brought to account. They amount to 1 % on the Cultivation Berij, and average about 1,479 Rs. per annum. The Charge is light, and no complaints are made about its payment. —

7. The Roosooms enjoyed by the Poligars, and the Mootteyalapand Zemindar have been so long recognized as part of their income, that it appears necessary, if they are resumed, to reduce their Peishcush, and where

where that is inadequate, to grant Compensation in lieu.—

8 The Chittatemar Roofsoors having been for some years wholly absorbed in paying the Government peons whom this Poligar nominally keeps up, and in making up his Peishcush, for which these Sources have latterly proved inadequate, he will have nothing to receive on their resumption. In this case it must be considered that in reality these fees are paid to Government, and it rests with them to make such arrangements as may be considered best. The same remarks applies to a considerable extent to the Poortawar Roofsoors, but they have not been wholly absorbed in the manner, and consequently some compensation will have to be made, if they are resumed

† Marked D

An account of the proceeds of these Roofsoors, and the way in which they have been appropriated for the 5 years from Fusly 1258 to 1262 accompanies.—

9 The peons, whose Salaries are paid from this source, cannot be dispensed with, and unless an additional Establishment is Sanctioned to the same extent, and paid for out of the general Revenues of Government

Government, the amount must be made good.—

10 The Peishcush also of these Poligars must be reduced on the fees being discontinued.—

11 If financial considerations will not admit of the additional charges on the one hand, and the reduction of Revenue on the other, involved in getting rid of these Roofsoors altogether, which would be the most satisfactory mode of Settling the question, I beg to recommend that they should be made less onerous, by being spread over a greater extent, and charged at one uniform rate throughout the District; with the exception of those levied on Shrotriums, which I would leave as at present.—

12 Should this be determined on I would recommend that the rate fixed on should be 3 Pice in the rupee, being about 1½ per Cent on the amount of each ryots puttah, to be carried out only on the occasion of the revision of the Assessment recommended in my report of 17th May last, otherwise the increase of taxation where the Fees are not now levied, would be a serious objection to the plan. It is calculated this will produce on an average Rupees 20832—14—4 which would be sufficient.

to

to include Balarow's Rooſsoums also by reducing his Peishcush, and carrying a corresponding sum to the credit of Government in lieu; and to settle the Tottawar Poligars on the same principle as I have recommended in the case of the Woortawar; viz. paying the Peons he keeps up direct by Government, remitting his Peishcush by carrying a corresponding sum to the credit of Government, and granting him compensation for the remainder. The estimated result of these changes are shewn in the accompanying Statement Marked D. There would also be a considerable surplus, which might be devoted to form a Road Fund, which it would probably be considered advisable to establish, on the occasion of the contemplated revision of the assessment above adverted to.—

13. An abuse which should likewise be done away with on the final settlement of this question is the appointment by the Poligars of Naiks and peons wearing the Government belts, who are paid out of their Rooſsoums as above explained. It is supposed under the present System, where the Nomination rests with them, that the places are purchased, the evil of which in impoverishing an already low paid class, or in tempting them after they have obtained the situation to make up

up for what was paid for it by extortion, I need not dwell on.—

14. I propose to leave the Cavilgars employed by the Poligars on their present footing, with a clear understanding that the latter are bound to keep them up, and that Government insists on the efficient performance of their Police duties.—

15. The Stulla Cummums Rooſsoums are at present carried to the credit of Government.— They are levied at a uniform rate of 1 Per Cent on the Beriz, and although they are certainly an addition to the land tax to that extent, I am not aware that any thing can be done but either to give up this source of Revenue, which would involve a loss to Government of about Rupees 10,479 annually, or to keep them on their present footing.— These Rooſsoums would however form an excellent fund for increasing the pay of the Village Moonsiffs in connection with the proposed revision of the Village Police, which I consider is a very desirable measure.—

Sir,

I have the honor to acknowledge the receipt of the Circular Extract Proceedings Board of Revenue No. 2633 of 15th Instant accompanied by Copy of Extract Minutes Consultation dated 28th June 1858 No. 882 and I am required to report on the arrangements proposed by his excellency the Commander in Chief for removing the Bellary Treasury within the new Military limits which it is proposed to fortify.

2 The Bellary Civil Treasury is now and has been always located in the present Fort at Bellary immediately under the protection of the European troops Formerly a Regiment of Europeans and a company of European Artillery garrisoned the Fort. The regiment has for some years past been removed to the new Barracks outside the Fort and about 3/4 of a mile distant. The Artillery are still within the Fort. The Treasury is in a strong building immediately adjoining the Maingaurd and directly opposite the Artillery Guns and Barracks. and also near the Arsenal. so at present it is in a very secure place. But it is distant from the Collectors Cutcherry about

about ½ a Mile which is an inconvenience. It is now proposed to remove all the Military from the Fort and to destroy the fortifications and to remove the Treasury into the new Fort which it is under contemplation to erect in the vicinity of the present European Barracks. This would probably place the Collectors Treasury at a distance of nearly 2 Miles from the Cutcherry. It would then be necessary to have a subordinate Treasury at the Cutcherry where the Treasury Establishment of Cash Keeper and 4 Peons &c. should perform all the work. As sum of about 5,000 Rupees should be always retained at the Cutcherry Treasury where all payments into the Treasury should be first received and shroffed and remitted from time to time under charge of the Cash Keeper to the Cash chest in the Military Fort where the bulk of the cash should be kept; and when money is required for disbursement it should be taken thence to the Cutcherry. The bulk of the cash would average about 8 to 10 lacs and sometimes a larger sum. The Hoozoor Cutcherry is quite devoid of defences at present. It might be made defensible against sudden attack. It will be necessary to build a new Treasury and a Guard House and a wall. The Cutcherry adjoins

adjoins the Bruce Pettah which is the principal part of the native Town of Bellary on the east side of the present Fort. On this side also is the Gaol at present and all the Court Houses and Civil and staff Houses. If the Troops are entirely removed from the Fort the whole of this part of Bellary will be left unprotected. It would therefore be proper to establish a guard (perhaps of an Officer and 100 Men) having its head quarters at the Cutcherry for the protection of the Treasury and defence of the Town generally.

My reply therefore to the queries in the 2d Para of the Boards Proceedings is shortly summed up as follows 1/ The Treasury cannot be entirely located in the proposed new Military Fort 2/ About half a lac or so of Cash must be kept at the Hoozoor Cutcherry where a Treasury must be built (3) which may be made defensible in conjunction with the Cutcherry building against sudden attack (4) The distance from the Cutcherry Treasury to the Military Fort will be from ½ to 2 Miles &c.

(This

(this depends on the exact site chosen for the Fort) (5) About 6 to 10 lacs will gene=rally be deposited in the fortifications.—

4 From the same Minutes Consul=tation it is seen contemplated to enlarge the Sanitary Sanatarium the Ramandroog. It is proposed to invest the officer comman=ding with Magisterial power. This I think is desirable The Native Village should be also greatly improved as it consists to=only of grass thatched huts. which may be burnt down at any moment. I lately proposed to the Board that I should be permitted to advance on loan abou 5,000 Rupees to persons who would engage to build a better style of house.

1 I have the honor to submit for the consideration of the Board that.

that the Tahsildar of Chitwael taluk has reported to me that five Peons belonging to his establishment are exclusively employed in pro=curing supplies &c. for the Engineers of the Railway Department who are engaged in staking out the Railway in that taluk.—

2 The services of those Peons are diverted from the legitimate purpose for which they are intend=ed and would beg to know whe=ther the revenue authorities are to be called upon to find sup=plies for the Railway Engineers=. I have no objection to render a=ssistance but as the Taluk is large and the Peons few the employment of so many is a serious hinderance to the public Service. I therefore request the Board will

Sir,

I have the honor to acknowledge the receipt of the Circular Proceedings of the Board of Revenue dated the 21st Ultimo No. 2145 giving cover to Extract Minutes of Consultation dated 7th October 1857 No. 1078 in which the Govt. P. W. D. No. 1078 in which the Government inquire with reference to a communication from the Chief Engineer dated 7th May 1858 No. 140 whether arrangements cannot be made for remitting money to the subordinates in the P. W. D. when required by Talook peons once a month and it seems not less than 200 Rupees.

2 In reply I beg to state that I reported on the same point to the Accountant General under date 30th December 1857 No. 204 I therefore request the

the Board consideration to the enclosed report in question.—

2 The Board will observe from the reasons set forth in that letter that the plan proposed by the Chief Engineer could not be adopted without inconven- ience I cannot recommend that the Tahsildar or any other Officer of the Revenue Department should be made to bear any responsibility in regard to the money to be paid until its actual delivery to the party for whom it is intended, at the same time I beg to state that the existing system has not led to any complaints in this District.—

To

G. L. Prendergast Esquire
Accountant General
Fort St. George

Sir,

I have the honor to acknowledge the receipt of your letter dated the 16th Instant

Instant, regarding the pay of the Public Works Department, and requesting me to explain what practice was observed in this District before the receipt of your circular dated the 27th October last, and whether with reference to the local cir- cumstances of my District in rela- tion to the subordinate Officers of the P. W. D. and the strength of my establishment of peons the system of transmitting the salaries thro the Talook peons, as proposed by the Chief Engineer can be adopted in my Dis- trict without inconvenience or whether I am of opinion that the Officers of the P. W. D ought to send for their salaries viz to the Talook Treasuries and if so, to state my reasons.—

In reply I beg to state

2 that previous to the receipt of your Circular above quoted and since its receipts it was and has been the practice

practice for the numbers of the P.W.D. to send their passed abstracts by one of their own peons or by a lascar to the Taluk Treasury when the Tahsildar transmits the amount specified in the abstract that the bearer of the abstract at in times when the Overseers happen to be at the cutcherry stations. they appear personally at the Taluk Cutcherry to draw their salaries but their personal attendance is not required It is optional with them either to send the abstracts, or present it themselves for payments.—

3 The District Engineer furnishes this Office monthly with a list of his subordinates shewing the amount of salary or travelling allowance payable to each and the respective Taluks in which they are stationed - This list is furnished on the same date that the abstract is despatched to the Civil Auditors Office orders are therefore issued

issued to the several Tahsildars to pay the sum specified in the list to the several members of the Department on their presenting the passed abstracts, and the Salary is drawn either personally or thro agents as explained in the preceding para No complaints have been made in this District that the latter practice is inconvenient

4 The different seems drawn from time to time during the month for the payment of the work people are drawn in the same way as the salaries direct from each Treasury The District Engineers cheques are sent by people belonging to the Department. It might be urged with as much force in one case as in the other that to send money in charge of Revenue or Police peons would be convenient to the Public Works Department.—

5 The plan proposed by the Chief Engineer cannot be adopted without inconvenience in the Revenue and Police Departments - The Government have recently increased the number of Taluk peons in my District on the ground that the force was not strong enough for its legitimate duties I may therefore object with good reason to any extra duty

duty being imposed on this class.—

6 I may add also that abstracts when presented for payment are always receipted, and that the Talseldar has no further responsibility as soon as he pays the money. If the Talseldar or other Officer in charge of the Treasury is to send the money a question must arise whether he is to be responsible for the sum transmitted till it is actually delivered. At present the Officer to whom the abstract belongs feels a personal interest in employing a trustworthy agent to remit the money. In the same way all bills and abstracts are paid at the Huzoor Treasury direct to the persons in whose favor they are drawn, or to their authorized agents.—

From the Collector of Canara — & Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue /Gp. 2633/ under date 15th July 1858 forwarding Extract Minutes Consultation under date 28th June —

2 I am directed in para 4 of the above Proceedings to consult with District Engineer regarding the effective protection of my Treasuries, Talook as well as Huzzoor, but the Board observe that on this occasion they only require a general Statement as to how far these Treasuries can be placed within the limits of fortified posts or defences. In reply I have the honor to observe that

Fort St. George 4th August 1858

that no fortified posts exist in this District and that is in chosing sites for these buildings means of defence seem never to have been taken into consideration it would probably be found necessary to rebuild nearly all the Talook Cutcherries as with few exceptions, they are to my knowledge commanded by hills in this vicinity.—

3 I therefore request instructions as to whether the Board wish me under these circumstances to obtain the opinion of the District Engineer regarding change of sites and the nature of defences he would recommend.—

4 The Huzzoor Treasury I may observe is in a position which admits of a mine being run under it and has been declared incapable of defence by the Engineer Officer.

Sir.

With reference to para 48 of Extract from Proceedings of the Board of Revenue (No 1170) dated 1st April 1858. I have the honor to state for their information, that I do not think endowments are required for the Government Chuttrums in this District but would recommend that a sweeper be entertained at each of them, on a salary Rupees 1½ per mensem. These Chuttrums are mostly situated at points in the Jungle where travellers can obtain little other shelter, and it may be difficult to find persons who can be entrusted with the care of these buildings and are able to keep a numerical account of the travellers frequenting them for lower pay than that now proposed.

These.

2- These Chultrums will of course require occasional repair, and will be in fact treated as other public buildings. They are to Native Travellers, what Bungalows are to Europeans, and endowments do not appear necessary.

The Home sales of salt in this Collectorate are given marginally for a series of years. The decrease in them from fasly 1262 has been occasioned by the Superintendent in the following Year leaving properly in my opinion transferred to the head of Inland sales the salt taken for the supply of Sadrapatta Paint Thomas Mount Palaveram Poonamallee &c. publicks had previously been Carried to account under Home sales though the salt was Covered by Rabdaria.

3 These permits are not given at the Madras Cotaurs for Home Consumption though doubtless the dealers in the Inland trade when their salt has arrived beyond the Cotaurs occasionally part with a portion of it for

the

the Home trade.

4 The stock as the Board remarks has been for several years little more than a years supply but this short stocks has been caused by the demands made upon us for Export which Cannot be foreseen.

5 Previous to July 1264 our wholesale transactions were restricted by limited stocks & averaged about 5 Lacs of Indian Maunds Subsequently our wholesalers have had full play & excluding Exports & the recent impulse to our Sales Caused by the Rail Mans Calculate our yearly Consumption at Sixe Lacs of Indian Maunds.

6 Our Average stores since July 1264 has averaged eleven Lacs of Maunds or one Lac short of two years supply and for want of room we could not have stored more How the Exports have reduced the stock to little more than one years Requirement to the subjoined Abstract will exhibit.

Abstract

Fort St. George 4th August 1858.

Fusles	Home Inland Consumption	Inland Consumption	Total Home & Inland Consumption	Exports by Sea	Total	Grand Total
1264	102334	401620	503954	310844	814798	908606
1265	93794	417561	511355	653701	1165056	1373310
1266	92938	454884	547822	312997	860819	987028
1267	94955	583206	678161	178022	856183	1132155
Total	381021	1857271	2241292	1455564	3696856	4401399
Average	96005	464318	560323	363891	924214	1100350

7 Our manufacture which can be extended to any amount has not in the last season exceeded 13¾ Lacs of Maunds & with Reference to the available space for storage this outturn was sufficient.

8 In the four years given above the Exports fluctuate to the extent of three Lacs of Maunds If we were informed of the Requirements of Bengal & Chittagong at the Commencement of the year I might Regulate my manufacture accordingly but without this Knowledge it will be difficult to estimate beforehand the sales of the year.

For

12972 Fort St. George 4th August 1858.

9 For a Consumption of six lacs of Maunds we can keep up two years supply but for one of eleven our pans must be Consi:derably increased in number for which however there is available space-

10 There are now at the Cotaurs about 723000 Maunds & at the Pans about 335000 Maunds a quantity perhaps sufficient for our purpose especially if as I am informed the excise sys:tem is at hand-

11 Looking to the Abstract of the Salt Revenue for Fusly 1266 given in Board's Proceed:ings 20th July 1858 No. 2701 the Superintendent has pointed out to me what appears worthy of Communication that though the Home & Inland Sales are shewn to have increased in Fus'lies 1265-66 the actual quantity of Salt sold was much in excess of that exhibited owing to the increase in Actober 1865 of 2½ Mercals or 6% in the equivalent to 120 Indian Maunds This Change in the Conversion applied to the Sales of Fusly 1266 F 279795 Maunds gives no less than 316800 Indian Maunds

No 190

Endorsement on Petition No 1698 & 1886 of 1833

1 The Petitioner claims remission in the amount of Peishcush assessed on the Estate of Narsingapooram, on the grounds of a portion of its wet lands situated on the confines of the Coovum Tank having been inundated in consequence, as alleged of the said Tank having been enlarged since Fusly 1246

2 From the enquiry held on the subject it appears that prior to Fusly 1246 the Proprietors of the Coovum Mooduk had neglected the repairs of the Tank which consequently did not retain more than 6 months supply of water, On the reversion of the estate to Government in the above year the Tank was restored to a State of efficiency and has never since held seven months supply. There is however no reason to suppose that the bund of the Tank has never been unfairly lengthened or that water is retained in it to a greater height than authorized

Fort St George 5th August 1838

authorized by established usage in conformity with the decision of Mr Place when Collector of the District who caused marks to be permanently made on the Sluices of the Sluice. The Proprietors of two other estates Elemeyencotaur and Chellumputtoday whose lands are situated in the bed of the Coovum Tank and which similarly to those of Narsingapooram must have been effected by an excess of water in the reservoir assert that the water has not been retained to a greater height than authorized in reference to the said marks. The Petitioner it appears advanced similar claims in 1830 when Mr Freese after an enquiry into the matter considered them inadmissible and furnished the Petitioner with an Endorsement dated the 22nd July 1830 to that effect. It was then ascertained that 80 Cawnies of Narsingapooram was usually inundated by the Coovum Tank and that the Proprietors on that score, enjoyed an exemption from the Maramut Jessia charges to which they would otherwise have been liable in consideration of certain land of

Fort St George 5th August 1858.

of the Mootah being irrigated by this Tank. The alleged extent of inundation in Fusly 1262 does not appear to exceed the above 80 Cawnies

3 Lands situated in the beds of Tanks are more or less subject to inundation. They are necessarily cultivated before the filling up of the tanks or on the diminution of water in it as circumstances may admit of cultivation, this carried on must be frequently subject to inundation and injury by the sudden filling up the tanks before the crops are reaped and unless therefore it is shewn that the injury has arisen from water being returned on the Reservoir to an unreasonable or unauthorized height no fair case can be considered to have been made out for compensation. The Collector under these circumstances concurs in opinion with his predecessor that the Petitioners claims are inadmissable

No. 645 But. Mr. Blair in his letter to the Board of Revenue dated 16th July 1833 stated that the value of the ground was considerably overrated as it never did yield a Monthly rent of 20 Rupees to the Owners as stated by the Enamdars before the Head Assistant Collector Mr. Bourdillon, and that the utmost rent received for the shops existing on the ground previous to the Cavalry lines being formed at Trichinopoly did not exceed 10 Rs. a month, and this sum he considered to be a fair remuneration to the proprietors for the use of the ground. The Government Sanctioned this sum accordingly Goolam Hoosain died, and the allowance is granted to his Son.

Offering certain observations on the subject of granting leave to Uncovenanted Servants with reference to the Board's Proceedings dated 30th June 1858 No 2250 and requesting Board's instructions

Sir.

I beg leave to acknowledge the Board's Proceedings dated 30th June 1858 No 2250, and its enclosures the rules on which leave may be given to Uncove-nanted Servants.

2 I would beg to call the - attention of the Board to the well known fact that there are many religious ceremonies which a Hindoo must per-form, such as the anniversary of his father's death. He must also attend the marriages or funerals of his near relatives a single day is all that is in general required for these ceremonies but under the new rules the Collector has not the power to grant leave for the day, nor can he allow a man to go to close the eyes of his dying mother or infant unless with the loss of a portion of the month's privilege leave and should two such leaves be taken in a year the month is gone.

3 This rule will, it appears to me

proves

press hardly on all native servants and be a source of much inconvenience to them, and the Heads of Offices a man if he must sacrifice his leave by taking one day, will naturally take as much more as he can get or a system of being absent without leave will grow up. for no Collector could enforce the full penalty of this act on a man who was unavoidably absent from his duty for one of the causes mentioned before.

4 I beg leave to suggest that in such cases of unavoidable necessity the Head of the Office may grant one or two days leave without reference to the Month privilige leave but if this cannot be, that the rule may be so far modified that parties may be allowed to remit these days as portions of privilige leave but that the taking of them should not bar a man's right to the remaining number of days due at the end of a year or two as the case may be.

The Tahsildar of the Taluk was, in the mean time, directed to make a full and minute enquiry into this matter, the result of which shows that such has not been the case, and that the cultivation was made by the Petitioner himself. From the Coll.
of Nellore

Sir,

I have the honor to acknowledge the receipt of the Board's Circular No 2633 on the subject of the defence of Treasuries.

2 I have communicated with the District Engineer and think it right to forward his opinion without abridgement. I concur with him as to the objectionable position of the Nougoor Treasury, which is situated in the heart of the Town, and as I do not think it will be practicable to obtain a clear space of 150 to 200 yards round it, I consider it should be removed to an entrenched position outside, especially as it would be extremely difficult in case of an attack

Copy enclosed

attack combined with a rising of the people to reach the present building through the streets. Attack must however depend on the strength and nature of the Troops forming the Garrison of the entrenchment as the Guard would most likely be placed in rather an isolated position and should therefore be of sufficient strength to be secure against a surprise. The Spot selected should also be within reach of support from the main body of the Troops.

3 As regards the Talook Treasuries it does not appear to me necessary to provide against anything beyond an attack by Gang robbers, or predatory bands and for this purpose with a Guard consisting as it probably would of a few Peons armed with muskets, strong doors, and loop holed walls &c. I consider to be the best mode of defence, especially as the attack would probably not

not last longer than a few hours.

Every Talook Treasury

4 should I consider have a Guard of 12 well drilled, active, Musket proons, practised in the use of their arms, under a trustworthy efficient Native Officer or Duffadar, and their pay should be somewhat higher than that of ordinary Talook Peons.

Nellore Collectors Office 4th August 1858

/Signed/ F.B. Elton Collector

N° 1529.

To. F. B. Elton Esqre Collector of Nellore.

Sir.

In returning the enclosures forwarded with your letter N° 171 of the 20th Instant I have the honor

honor to point out that there are no fortified posts or defences within the limits of which the Arcot Treasury can be placed and to inform you that I consider the present position of the Arcot Treasury exceedingly objectionable in a Military point of view and that as long as it is overlooked and commanded on all sides by the houses of the Bazar, its defence even for a limited time, would be a matter of great difficulty. The Treasury should either be removed to an entrenched position outside the town or a clear space of 150 to 200 yards all round the Cutcherry buildings, should be obtained by the removal of the huts and buildings which are at present crowded on all sides except the South. The first arrangement will of course be the best should it be in contemplation

contemplation to make Vellore a post for a European Detachment and it would then of course as far as the Civil Treasury is concerned be much the cheapest.

In many cases the Talook Cutcherry are rendered almost indefensible in case of a serious emeute by the crowding round them of Village houses which would enable an enemy to reach their walls and even below them in, without coming under the fire of the posts inside were this evil remedied and no building so placed can belong defended while it exists the better adaptation of the Talook Cutcherries for defensive purposes would be a very simple affair most of these buildings are nearly square in form and the addition of a room 12 feet square

square at the alternate or opposite angles would furnish a flanking defence which would render an attacking party liable to severe loss, and greatly improve the defensive powers of the garrison.

3 In concluding I may remark that although consideration I have for a long time thought that the Hoogoor Cutcherry should be placed on an open site some where near the Public Bungalow a position might I think be selected in that vicinity which would command almost every important building in the Station and the town also and at the same time be capable of defence by a very small force. It does not appear to be necessary to enter into the details at the question at present but should the advisability of

of removing the Treasury be further considered I shall be happy to furnish a rough plan showing the position I should select, and its relation to other buildings and Departments.

2 Through an oversight in my office, the tabular Statement was not Submitted in Fusby 1264. as the Civil Auditor has now objected to pass the expenditure on this account without the authority of Government the mistake has been discovered.

3 In my letter to the Board dated the 30th June 1854. No. 82., the Charge for the establishment was set down at 38. Rupees. Since then the establishment has been Reduced for Reasons explained at length in the memorandum appended to the Statement. I beg to refer the Board to my letter above quoted for the Reasons why the forming

System which had previously existed in Regard to these forests was with the Board's Sanction abolished

4 I Request that the Sanction of Government may be obtained for the expenditure shown in the Tabular Statement.

Remarks to the Statement

The proposed Establishment for the giddagaaub forests was entered in a Statement which accompanied the Magistrate's letter to Government dated 20th November 1857. The total monthly Cost was Rupees 26-8-, which was the actual charge in Fusly 1267. The total charge entered in the Statement now submitted is 35 Rupees a month. The following explanation is offered for this difference.

2 A charge of 38 Rupees per mensem was at first proposed in my letters

letters to the Board dated the 30th June 1854 No. 53; in anticipation of an estimated return of 1500 Rupees a year. The Board having sanctioned the measure in their Proceedings of the 27th July 1854. the Establishment shewn in the Margin was entertained from the 7th September 1854. at a Charge of 35 Rupees. In May 1855. one Goomastah at 4 Rupees and one peon at 2 Rupees with a Saderwards of ½ Rupee were dispensed with, as the Revenue Returns from the trees fell below the Estimate. In June again of the same year a Goomastah at 4 Rupees was dispensed with for the same Reason. But in September a Pygeet or Overseer was employed at 2-8 Rupees pr a month as the head peon.

For the five Tottoos of Denkenkottah Savalgerah Hoguyenaul. Punjahully and Goomalapooram.

4 Goomastahs at 4 Rs each	16	—
9 Peons at 2 Ds	18	—
Saderwards	1	—
	35	—

3 The changes thus made in the Original Establishment amounted

to a decrease of 10-8-0 Rupees against an increase of 2-8-0 Rupees, causing net decrease in the Establishment to the extent of 8 Rupees. The charge at present incurred amounts, therefore, to Rupees 27-0-0 or excluding the Saderwards, to Rupees 26-8-0.

4 In the present statement the charge incurred in the first instance, Viz 35 Rupees is shown as the Cost of the establishment, for if the Sanction be obtained for the maximum Sum, the Civil Auditor will then have no objection to pass the Charges incurred at the Rate of 35 Rupees for a few months in Fusly 1264.

5 The Receipts and disbursements on account of the gid. adgunal from Fusly 1264 to Fusly 1266 are shewn in the Margin:

Sir,

Para 1 I have the honor with reference to my letter of the 29th Ultimo No. 128 to submit for the information of the Board a copy of a petition dated 1st Instant from one of the Coulders of the Tope land in question.

2 The Board will perceive that he admits the irregularity of Cultivating and Carrying off a Crop from the Land before the tope was planted, but attributes it to the person entrusted with the Management of the tope

3 Under these Circumstances I would beg to suggest that the tax on the produce Reaped Amounting to Rs. 74-9 which has been already levied be not Remitted and that the Coule should be again granted to the Coulder.

Enclosure No. 1

To G. Whittingham Esqre
Collector of North Arcot.

The humble Petition of
Kistnasawmy Moodliyar
Cash Keeper in the Collec-
tor's Cutcherry of
North Arcot.

Sheweth,

That my late brother
Seeta Ram Moodly planted a Tope under
a Coul granted by W. Sullivan for the
support of a Choultry also constructed
by my brother. The Manneem with which
the Choultry in question is endowed having
proved insufficient for its maintenance.

The object, I humbly beg, to
assure your honor contemplated in the
planting of the said Tope was purely
one of Charity and not of gain, the posi-
tion of my brother and myself, and
that of other members of this family
placing them for above such con-
sideration. By the blessings of God
we are all placed in affluent circumstances

circumstances, and neither my brother nor myself ever entertained the most distant Idea of turning the Tope in question to our private advantage, while so the person entrusted with the management of the Tope (for the distance from Vellore our place of residence to the village in which the Tope is planted and our other avocations rendered our personal superintendance of the Tope in question impracticable) either in view to his own profit or through ignorance is said to have cultivated the land assigned to the Tope with Cumboo and the Curnum who was already jealous of our introduction into the Village having made an exaggerated report to the Tahsildar of his circumstance the same was brought to the notice of the additional Sub Collector who

who had then the temporary charge of the Sautghur Taluk. The additional Sub Collector being new to this District and not Knowing our circumstances in life, thought that the Cumboo was cultivated for our profit and therefore ordered the forfeiture of our Cowle; and the Board Petition that it is now under your consideration is an appeal against this decision. I therefore humbly trust that your honor will take the above circumstances into your Kind and liberal consideration and direct the restoration of our Cowle- as a punishment for the misconduct of the man entrusted by us with the management of the Tope, we directed him to pay the Teerwah of the land which he is supposed to have cultivated with Cumboo for if he did cultivate, it was without our Knowledge.

The Teerwah it would appear

appear be accordingly paid and I humbly beg to submit for your consideration whether the requirements of the case have not been fully met by this punishment.

We have spent considerable sum for planting and rearing the Tope ingueation and the profit of a bumber crop upon the land ingueation dwindles into nothing when compared with the money so Spent.

I therefore in conclusion humbly trust you will in consideration of the above circumstances be pleased to pass favorable decision in the case now pending before your honor.

For which act of Kindness and Benevolence I as in duty bound shall ever pray for your honors health wealth and long life.

I have the honor to acknowledge the receipt of the Board's Circular No 2702 of the 20th Ultimo, requesting to be informed whether measures have been taken in this District to bring the Stock of Salt to the average requirements of 2 years, and drawing attention to the general Decrease in the Abkarry and Increase in the Inland Sales.

2 In reply I beg to state that every effort was made to carry out the order of Government regarding the increased quantity of Salt required to be Kept in store. This has been most successfully executed at the large and extensive Pans of Marakanum, where the advantages of position and good quality of soil enabled the ryots to manufacture the maximum quantity required. but such not

not being the Case at the 3 southern ports of the District the manufacture has fallen short of the excess quantity ordered.

3 The subjoined statement exhibits the average quantity manufactured and sold during the past 3 years and the stock on the 1st July last.

The arrangements proposed in my letter of the 30th June last for the future working of the Rownah System will probable check the practice alloaded to, but the difficulty of distinguishing between the bonafide purchases for home Consumption, and those for the inland market, will not be entirely Removed.

From the Collector of Tanjore

Sir,

I have the honor to reply to the Boards Endorsement on Petition No. 1202 of 1858 dated the 18th May last from Managee Bhosalay

2. Appoo Sahib's alleged adoption in 1845 by Tookojee a deceased descendant of a former Tanjar Rajah of the same name was ignored by the late Resident Sir H. C. Montgomery Bart in communication with the late Rajah's Sirkele. Appoo Sahib is a grandson of Tokojee's sister. Radha Bagee

Managee

13066 Fort St. George 6th August 1858

3. Managee Bhosalay had previously been the officially recognized Manager of the affairs of the family into which Appoo Sahib had been as was alleged adopted but he was subsequently displaced by the Durbar Sirkele who nominated his successor one Narahur-ry Row. This person now holds the Office.

4. The present is not a fit opportunity for discussing the merits of a system under which Managers were thus selected for private Establishments. It seems sufficient to note the fact that such a step was frequently taken in respected of families in which the Rajah took an interest and that the dismissal of Managers generally went to severe the connection between Manager and Managed.

Managee

Fort St. George 6th August 1858

5. Managee Bhosalay however seems to have held to the adopted appoo Sahib and no doubt be effected they entry of the latters name in the accounts of the Village Mahadura = putnam in order if possible to cause his right to it to be officially acknowledged.

6. A late Resident Mr. Forbes on the request of late Sirkele as to the expulsion from the village of the ex- manager directed the local Tahsildar to arrange that the dismissed Manager should be allowed no interference with the lands nor an opportunity to disturb the arrangements of his successar. The latter is Zealous for the interests of a Member of the family other than appoo Sahib and the fact of possession and enjoyment under such circumstances is difficult of proper proof especially as owing to disputes between

Radha Bayee

Fort St. George 6 August 1858

between the females of the family and appoo Sahib the successor of Managee Bhosalay was not recognized by Sakavara Bayee and Appoo Sahib further between the two principal bodies of the family and appoo Sahib a feud existed until very lately. the object of each party being amongst others to obtain sole possession of the village Mahadavapatum.

7. The entries in the local accounts in favar of Appoo Sahib were made some twelve years back but they do not amount to formal registry being simply acknowledgments of payments of Cavel fees stated to have been made by him.

8. The village it is to be observed is one of the late Rajah's Mokasa holdings and is now under attachment with all

13069

Fort St. George 6th August 1858

all other villages of that class although it seems to have been alienated specially as support for Porkojee and his descendants more than half a century ago and to have been so enjoyed since then. It does not appear in the Enam Register of 1809 but since its attachment under orders by the late Commissioner Mr Hodges. Have released other villages of this class similarly held by Porkojee by whom they had been mortgaged.

9. The proceeds of the village Mahadawapatamarein deposit on account of the claim of the two principal ladies of the family and should perhaps be made over to them with the village. I have not as yet felt at liberty to alter the present arrangement.

1. Suit for the recovery of 15-12/16 Goolies of Malgoozary Cooryah

Fort St. George 6th August 1858

Poruph land yielding annually Rupees 121-14-0 and a stone well therein valued at 18 which Plaintiff states was his ancestral property and appropriated by the 2d and 3d Defendants by the aid of the 1st and 4th Defendants.—

2. The 1st Defendant in his answer denied the truths of the Plaint and stated that although the land was entered in the Plaintiffs grandfathers name, yet it was left waste for 20 years and no Teerivah was paid to Government and that in 1855 it was given to 3d Defendant on his application for cultivation. The 1st Defendant further stated that there was no well in the land in question.—

The 2d and 3d Defendants filed an Answer supporting that of the 1st Defendant.—

The Plaintiff in reply stated that though the land in question was waste for a long time yet it could not be granted to another person without obtaining a Razeenamah from its owner.—

In the rejoinder the 1st Defendant stated that no Razeenamah is necessary from the owner because his proprietary right to the land absolutely ceases when he leaves it uncultivated for a certain specific period and that it may be given to some one else at the option of the Revenue authorities.

The Rejoinder of the 2d and 3d Defendants contains nothing new.

The 4th Defendant allowed the case to be tried ex pa.

Judgment

The Court finds from the pleadings in this case that the 1st Defendants statements about the land having land waste for a period of 20 years has been uncontradicted by

Fort St. George 6th August 1858

by Plaintiff and under the circumstances sees no necessity for recarding Points.—

The Suit wareover being barred by the statute of limitation is dismissed from the file with Costs

Bd No. 3290
From the Ag. Collr.
of Tinnevelly

With reference to the Boards Endorsement on Petition No. 2033 of 1857 calling for a report on the statement of the Petitioners that the demand on account of Sanny begum is at variance with the Enclosed Puttah which limits the payment of rent to the Beriez of the land and to

to the Endarsements on Petitions Nos. 1132 of 1857 and 992 and 1388 of 1858 on the same subject I have the honar to submit the following Report.

2. Vencatasoorajoseyer and Ramnad Joseyer the Petitioners in Nos. 1132 of 1857 and 992 of 1858 are the Proprietars of the Sevacawsey Chuttrum in the Sauttoar Talook, and of the lands endowed thereto belonging to the Villages of Thadungany manachairy and Congalaporum situated in the Streevilly poottoar Talook.

3. Rawzee Naick &ca Petitioners in Nos. 2033 of 1857 and 1388 of 1858 are tenants under the above mentioned Proprietars. They state that formerly it was not customary for them to pay Samy-bogum on account of the said Villages but that in 1850 when the Chuttrum and Villages were under Cirkar management the Tahsildar of Sauttoar compelled the Rayets to Execute a Razeenamah agreeing to pay Sawmybogum that.

that the Board however cancelled the Razzee-namah and consequently Samybogum was not included in the Puttahs issued to them up to Fasly 1262, that subsequently the Sub Collectar forcibly obtained a similar Razzee-namah which the Collectar confirmed.

4. The aforesaid Proprietars state that upon a dispute between themselves and their tenants respecting Samybogum the latter voluntarily gave before the Sub Collectar a Razeenamah agreeing to pay Samybogum and the Sub Collectar thereupon ordered it to be paid and that the Collectar ratified that order. —

5. The Chuttrum in question with its Villages were under Cirkar management from August 1844 to March 1853 and during that period the Collectar having issued the order above referred to for the payment of Samy-bogum they presented a Petition to the Board bearing

bearing No. 979 of 1850 and from Mr. Bird's Endorsement thereon dated 18th December 1850 and the Board's Proceedings of the 13th January 1851 it would appear that Samybogum ceased to be demanded only during the period that the Chuttrum was under the Circar Management, and that the Puttahs enclosed in Petition No. 2033 and specially adverted to by the Board were issued omitting the same.

6. Under the orders of the Board dated 28th February 1853 the Chuttrum and Villages were made over to the Proprietors in that year and they pay the Circar revenue agreeably to Puttahs received direct from Government whilst the undertenants pay the Teerwah to them (the Proprietors) as privately agreed upon between them. Besides the Teerwah due to Circar it is customary in this District for the under tenants to pay something in the shape of Samybogum and

and consequently when a dispute arose between under tenants and the Proprietors the former executed a Razeenamah before the Sub Collector stipulating that they would pay Samybogum at the rate of 3 fanams for every chain of Poonjah and garden land they may cultivate that the Proprietors may lease out the Pungovaly Nunjah lands of the Chuttrum as they please and that the Proprietors should specify the amount of Samybogum in the Adaulay which they are to grant and obtain a counter document from the under tenants and the Sub Collector on the 2d August 1855 ordered the Tahsildar to see that these terms were duly carried out.

7. Subsequently the under tenants petitioned the Collector Mr. Bird but obtained an Endorsement dated 12th November 1855 declaring them to be bound by the Razeenamah and against that decision they do not appear to have appealed to the Civil Court.

It

Fort St. George 6th August 1858

It is moreover obvious from an Urzee received from the Tahsildar of Streevelly porttoor that with the Exception of 5 persons all the others pay Samyjbo= gum according to the above decision and that they obtain Receipts from the Proprietors for the money so paid.

8 An order passed by Mr. Silver dated 27th September 1856 No. 428 likewise confirms the previous decision above alluded to, and no appeal seems to have been lodged against it to the Civil Court —

9. The under tenants refer to a judici= =al Decree as Exempting them from the payment of Samyjbogum but this decree refers it appears only to one of the several under tenants who was not a Proprietor of the Chuttrum —

B. No. 3295
From the Actg Collector of Malabar.

Sir

Mr. Frere the Civil Judge of Tellicherry appointed Mr. M. D. Rozario Tahsildar of Cherrical as Monsiff of Tellicherry from the 1st July the appointment is conditional and depends on Mr. Rozario's success in his examination which will not take place until next year.

2. Mr. Rozario was naturally anxious that his resignation of the Tahsildarship should depend on the issue of his examination in which if he failed he hoped to be allowed to revert to his former appoint= ment. —

3. By circular order of Board of Revenue dated 27th March 1837 Note Para 6

I am precluded from keeping the Tahsildar-
ship open for more than two months but I
beg to request that Mr. Rozario's petition may be
granted and that the present Acting Tahsildar be
considered as acting only although drawing the full allowances of
his office until the result of Mr. Rozario's
examination is known.—

4. The indulgence I consider will be well
bestowed on Mr. Rozario an upright and efficient public
servant whom I shall be glad to see again in the Revenue
branch of the service if the result of his examination is
his exclusion from the Judicial line to which he has now been
called—
