No. 101

To
G.S. Forbes Esq
Secretary to the
Board of Revenue
Fort St. George.

Bd. No. 3070.
From the Collector of Ganjam.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue under date the 12th May last No. 1687 and to supply the information therein called for.

Regarding the decree of the cultivation

2

of

of Sugar Cane I have from enquiries made come to conclusion that it would decrease very much more if it were not artificially stimulated by the advances made by the Agents of the Arcka Factory. The high prices that merchants will pay for rice and oil seeds &c are in fact more profitable to growers and afford a more suitable business for persons without Capital as most of our ryots are. If however as at present appears probable, the demand for our agricultural produce should cease, Sugar cane cultivation will be taken up.

3. Para 14 of the Boards Proceedings refers to the difference apparent in the number of Villages belonging to the Palaky Hoondah. Three villages and three hamlets were rented for three years from fusly 1265 to fusly 1267 but in para 22 of the Jamabundy Report for that fusly the three Villages were classed as

as three distinct Villages and the three hamlets as constituting one Village In the Statement No XV which accompanied the report for fusly 1266 the three hamlets were shewn as such instead of as one distinct village hence the difference noticed.

4. In para 16 the Board notice the disproportion between the number of Villages and the number of Tanks of irrigation belonging to them. The disproportion is without doubt real. There are very few tanks in the District of large size, those of the smaller size are not generally used for the purposes of irrigation except under pressing Circumstances In the hot season from march to June almost all these small ponds are entirely dry and useless.

5. A discrepancy in the interest account is noticed in para 17 of the Boards Proceedings. In the Statement No IX the interest shewn solely belongs to the Collections of

of Sugar cane I have from enquiries made come to conclusion that it would decrease very much more if it were not artificially stimulated by the advances made by the Agents of the ds la Factory. The high prices that merchants will pay for rice and oil seeds &c are in fact more profitable to growers and afford a more suitable business for persons without Capital as most of our ryots are. If however as at present appear probable, the demand for our agricultural produce should cease, Sugar cane cultivation will be taken up.

3. Para 14 of the Boards Proceedings refers to the difference apparent in the numbers of Villages belonging to the Salaky Hoondah. Three villages and three hamlets were rented for three years from fusly 1265 to fusly 1267 but in para 22 of the Jamabundy Report for that fusly the three Villages were classed as

as three distinct Villages and the three hamlets as constituting one Village In the Statement N. XV which accompanied the report for fusly 1266 the three hamlets were shewn as such instead of as one distinct village hence the difference noticed.

4. In para 16 the Board notice the disproportion between the number of Villages and the number of Tanks of irrigation belonging to them. The disproportion is without doubt real. There are very few tanks in the District of large size, those of the smaller size are not generally used for the purposes of irrigation except under pressing circumstances In the hot season from march to June almost all these small ponds are entirely dry and useless.

5. A discrepancy in the interest account is noticed in para 17 of the Boards Proceedings. In the Statement N. IX the interest shewn solely belongs to the Collections of

of the year both on account of the Current demand and arrears while the Statement N:X exhibits the entire demand hence the discrepancy.

6. In Para 18 the Board points out a difference in the Statements N:IX & XI The figure 4005 15—a in the Statement N:IX includes the Collections on account both of the current demand and arrears whereas the Statement N:XI shows the Collections on account of the demand of the year as in the margin.

× Figure shewn in Statement N:XI being Collections on account of the demand of the year — 3967-14-2

Collections on account of the arrears — 38—0—10

The Figure shewn in statement N:IX — 4005—15—0

7. Para 19 contains the differences apparent in the Statement N:XI and the Demand Collection and Balance Statement, upto the 30th June 1857 according to the prevailing practice the Demand & Collection and Balance Statement shewed under the head Shrotriems & Jodigee on Enam villages while the head "rents" shewed the Jodigee on Enam lands in the Government villages and the rents for one year On the other hand in the Statement N:XI these different items were shewn under this proper heads. The Sheristo Department has been instructed to maintain uniformity in the future accounts and it is hoped that those which will be submitted for the Fusly just closed will not contain any such anomalies The difference of Rupees 7.00 in the Extra Revenue arises from

Fort St. George 14th August 1858

the fact that in the Demand Collection and Balance Statement refunds are not included, while in the Statement N:XI they are invariably shewn.

To,

J. D. Sinn Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

B. Rs. 3431
From the Coll.r
of Vizagapatam

In reply to your letter No. 2665 dated the 17th Instant, requesting me to report on the subject of an attack on the Salt Pans at Conada with the Board had noticed in the Newspapers, I have the honor to state, that on the afternoon of the 1st July when at Bimlipatam, I received an arzee from the Head of Police at Conada

Fort St. George 14th August 1858

Conada, translation of which I enclose for the Boards information, on its receipt I at once sent off a number of my own Peons to Conada and not being clear as to the nature and extent of the movement I also wrote by a Sowar to the Officer Commanding at Vizianagrum requesting a company of sepoys might be held in readiness should occasion arise for their services the same night. I proceeded myself to Conada and the next day I was in the village which is some little distance off where I secured the persons of about 10 individuals who were named to me as the leading men in the village, and whose presence was recognized on the occasions referred to in the Report of the Head of Police. I also had the houses of several searched while there but being unable to remain at Conada I left Peons to continue the search the following

following day, however during the night the greater part of the salt was no doubt made away with and thus only about 200. Maunds were recovered The Board will observe that the Salt carried off by the Villagers from the Pans was of spontaneous production and after the manufacturing season had been declared at an end. I am told that for several years past it has been the practice of these people in the villages contiguous to Canada thus openly to visit the Pans in Gangs in defiance of authority and to act in a similar manner as described on this occasion by the Head of Police my opportune presence in the neighbourhood and the summary measures I adopted had an instantaneous effect and though I was surrounded by some thousands of people who had overawed the Police my sudden appearance

appearance overawed them, and I was able through my own Peons to have the 10 leading men secured and taken from the Village and these I subsequently flogged and sentenced for a short Imprisonment. The Head of Police has since reported that every thing has been perfectly quiet and that he has no fear of a recurrence in future years of a similar outrage after the summary way in which on this occasion the principal offenders had been dealt with by me.

I can only trust that the example I made may have the salutary effect anticipated by the Head of Police.

Translation of an Arzee addressed by the Head of Police at Conadah to C. W. Reade Esq.re Agent to the Governor dated the 30.th June 1858.

You

Fort St. George 14th August 1858

You are aware of the exertions used by me in checking thefts of Salt at these Pans from the commencement of the manufacture up to its close which thefts have been so common in formers years.

Owing to the sun being powerful from the 21st Instant some salt has sprung up spontaniously, and as I was preparing to collect and store that salt, the people of the villages of Valoodooroo, Conadah and Coloogoopettah who are the manufacturers assembled in a mob of five or six hundred, and commenced to take away the said Salt both day and night from the 27th Instant, at the same time preparing the beds of the Pans for Manufacture in the same manner as the Circar do when manufacturing the Salt Myself, and the Deputy Sheristadar, who had come here to measure and store Salt attended with

Fort St. George 14th August 1858

with some peons, attempted to disperse the said mob, but the moment we turn our backs they again go to work, as it appeared impossible to effect discipline with 4 or 5 Peons Saddey sed. 11th Pelly the acting Principal Assistant Agent requesting him to come to the spot and do the needful.

These people are used to act thus since a number of yeares without its ever having been properly brought to the notice of the Circar and thereby checked, and they attack and inflict wounds whenever a small party of Peons who number only between 5 and 10 attempt to interfere I beg you will be pleased to take these circumstances into consideration and give the necessary orders.

Fort St. George 14th September 1858

Sir,

I have the honor, by order of the Right Honble the Governor in Council, to transmit herewith a Return of the Service, and Charitable Inams in the Collectorate of Chingleput, as called for in your Circular Letter of the 3rd ultimo.

2. The Return of Service Inams shows a total of 39 Villages containing 145 Acres 15 Cawnies 8 Poles, and the Return of Charitable Inams shows a total of 121 Villages containing 1152 Acres 3 Cawnies 4 Poles, making a total of 160 Villages containing 1598 Acres 3 Cawnies 4 Poles.

3. In the Return of Service Inams, the Inam of Reddy Curnam, Hobli C. Sollicar, Shroff &c. Mr. Cotton, Collector of Chingleput, has entered the Rent of the Land at Rupees 27-6-1, 216-12-3, 25-11-5, 30-6-3, and 145-11-8 respectively, but as the Inamdars have not been called upon to pay the Rent, I am to request that you will be pleased to move the Board to direct the Collector to call upon the Inamdars to pay the Rent of the Land, and to report the result.

4. In the Return of Charitable Inams, the Inam of Davadayem Hobli C. Jamindary Hobli C. Bhatamurtty Hobli C. and Thyraty Hobli C. are entered as Rent free, but as the Inamdars have not been called upon to pay the Rent, I am to request that you will be pleased to move the Board to direct the Collector to call upon the Inamdars to pay the Rent of the Land, and to report the result.

5. I am to request that you will be pleased to move the Board to direct the Collector to report whether the Inam Lands in the Talooks of Chingleput, Tirpassore, Conjeveram, Arcot, Wandiwash, Vellore, Chittoor, Cuddapah, Bellary, Kurnool, Nellore, Ongole, Guntoor, Masulipatam, Rajahmundry, Vizagapatam, Ganjam, Coimbatore, Dindigul, Madura, Tinnevelly, Salem, Trichinopoly, Tanjore, Malabar, South Canara, and North Canara, are liable to the payment of Rent to Government, and if not, the reasons why they were exempted on the 1st Fasly, the Fasly in which the Settlement was introduced by the Collector of each Zillah.

I have &c.

(Signed) [illegible]

Secretary

13399

Fort St. George 14th August 1858

which is the name of the Tree was buried and carried annually to Town ment account as collection and entered under the Head of Revenue.-

5

The manner of collection under this Head, appears by the Proceed of 5 years was Rupees 69-8-3 1/2 as per Abstract No 1 of 3 Fasly Revenue of the Jaghire for ment of the Circuit of Conjeveram

This Tree was known in all the Neighbourhood of Conjeveram, Chingleput, as well as Chandragherry & the Southern Districts by the name of Kanniel or Kanniel Tree, and is considered by the Brahmins & other Castes of Hindoos as a sacred Tree

6

Considering this Tree as peculiar to this Country, I have taken pains to procure from the Gardeners of Triplicane & Egmore Nurseries, various Specimens of these Trees, which I have ordered to be planted in the Public Revenue Garden at Nungumbaukum

8.

Its cultivation appears to be very easy & requires little water

Fort St. George 14th August 1858.

To

E. S. Fraser Esqre.
Secretary to the
Board of Revenue

Fort St. George

Sir,

I have the honor to forward a Statement showing the extent and particulars of Certain Lands in the Mhercary Hills taken up for Coffee Cultivation and for building purposes, and to request that the Board will be pleased to give my sanction thereto.

2. I beg to state that in the case now submitted for the Board's sanction the grants of water the Lands applied for have not been as yet issued in the names mentioned in the Statement, but will be granted in Course after the Boundaries shall have been ascertained by the Collector's Survey Department

I have &c.

Signed D. Arbuthnott
Collector

following. but due care will be taken on future occasions to enforce the Govern-ment instructions on that point. In the present instances I propose to insert a clause in the several Puttahs to the effect that the Government Reserve to themselves a full Right over the waters of the Streams running thro' the land. and that the holder of the land shall not Construct any work on the Stream without the special permission of Government.

3 I take this opportunity of Request-ing the Board will inform me whether some specific provision may not be inserted in the puttahs securing to the land holders the use of the streams that pass thro' their lands, provided

provided that such use shall not inter-fere with other Rights of any Kind.

The holders of Coffee plantations attach more importance at the present time to the means of irrigating their plantations than they used to do formerly, and they are consequently anxious to know the exact interest they will be allowed to hold per-manently in such streams. No specific instructions are given on this point in the Board's Circular Order (Proceedings) of the 6th August 1856. I presume that the holders of lands on the Hills may claim the same sort of interest in the Hill streams as the holders of lands in the low Country enjoy with Regard to tanks or channels, and that the owner of the land nearest

nearest to the stream should have a preference right to the use of the stream over persons whose lands are more remote.

The Board has not yet Circulated the form of lease referred to in Para 3 Extract Minutes Consultation dated 26th July 1850. No. 172. I beg to suggest that in this form some clause should be inserted to prevent the mere occupancy of water being in course of time treated as an absolute right.

In many cases it may not seem necessary to interfere with the use of the streams for any given plantation while the adjacent land is unoccupied. But as cultivation extends. it may be considered unjust to allow the exclusive use of any one stream to a single plantation.

Some

Some general provision on this point might be made in each case.—

Salem, Collector's Office. Coimbatore. 22d June 1858.

(Signed) H. A. Brett
Collector

Fort St. George

Sir

Adverting to the Board's Endorsement on Petition No. 3443 of 1857 calling for fuller explanation than what was afforded in the Acting Collector's Endorsement under date the 4th February 1859 I have the honor to submit the following Report.

2 Petitioners Comien and Veeranien state that their late father held the Office of curnum for the village of Audanoor and 7 other villages in the Daramporary. I look on that after the demise of their father the Right of the Petitioners to the Office was disputed by certain parties when it was finally declared by the Court of Sudr Adalut in an Extract from their Proceedings under date the 17th January 1848. that the petitioners were the persons who had

EN

13424.

Fort St. George 14th August 1858

had the best right to succeed to their father's Office and that the Collector notwithstanding the above decision of the Sudr Adalut declared the title of the petitioners to be invalied and conferred the Office on another person Petitioners therefore pray that the Board will send orders to the Collector to register the Office held by their late father in their names.

3 It appears from the records of this Office that the Pennagaram Chowltah to which the Village of Audanoor and the 7 other Villages belong was resumed in the year 1831 that the Office of Curnum in those Villages was originally held by one Veeranien who died several years ago leaving only a widow named Sashammal who afterwards adopted a Son that this person died without any issue leaving a widow named Seetammal and that the Right to the Office was then disputed between Sashammal the widow of the original incumbent and her daughter and Son Seetammal

A Suit was then filed

in

4

13427 Fort St George 11th August 1858

Lechhart the late Collector

In the year 1851 the Mocktah of Pennagaroum was brought under Amany and on the 27th of May 1852 Mr Phillips the late Collector removed Venkatasoobien from the Acting appointment and appointed Ramaswamy Iyer to the Office Venkatasoobien died about 2 years and half ago and his Sons (Petitioners) claimed to the Office on the ground of it having been held by their late father referring to the order passed by Mr Phillips it appears that his reasons for removing Venkatasoobien were that Venkatasoobien had not been confirmed in the appointment previous to the Mocktah falling under the management of the Collector and that the claim to the Office was not so good as the the Claim of Ramaswamy Iyer the brother of Sectammal

To

The Brigadier P. Hammond. Commanding St. Thomas'

Sir,

I have the honor to acknowledge the Receipt of your letter of the 3 instant Conveying your opinion that one Arrack Shop at the Amount and at Sydapettah one Toddy Shop at the Amount are sufficient to meet the Requirements of the people.

...

2. Hitherto, on since 1849. seven toddy shops has been the Number fixed by the Amount Authorities within the Circle of 4 miles from the Main Guard and these shops have

2 Sydapetta
1 Valacherry
1 Vervumbaukum
1 Porour
1 Palavantangul
1 Mount.

For St. George 14th August 1858.

been located as marginally noted Before the above period the number of Shops was much larger.

3 I am Certain that the people generally will be much inconvenienced by one toddy Shop only being located in the large extent Comprised within the Mount abHarry limits, and to meet their Requirements would suppose that a Shop at Sydapetta Vermbaukum, and Porour at least would be necessary.

4 From my experience I am enabled to express an opinion as to the wants of the Community generally, but what Number of Shops may be expedient with Reference to Military Considerations I leave to your better judgement.

Madras 19th May 1858. } /Signed/ B. Cunliffe Collector.

Board of Revenue

Bd. No. 3527
From the Collr. of Madras.
To Board 31st August 1855
No. 170

Sir,

As directed in your letter of the 4th Instant I have the honor to forward at foot the Notification which I would propose to issue with Reference to Extract Minutes of Consultation of the 29th July 1858. No. 1060. Revenue Department.

2d The Board will Remember that a previous attempt to Come to an arrangement with the Madras Merchants to Ship Salt themselves, fell through from an extraordinary misconstruction by the Chamber of Commerce of any proposal though expressed in the plainest terms, and that when their error was pointed out from their declining in a few terse Remarks to Concur in the Plan suggested.

3 Subsequently from the great trouble to which the Salt Department was subjected in the supply of boats, I was about to advise that Government should discontinue the Shipment of

13443 Fort St. George 11th August 1858

Salt, and leave the same to the purchaser.

4 I abandoned the idea however as the Superintendent informed me that the rule and practice of the Port were for the seller to ship staple commodities purchased for him.

5 On further enquiry I find that this is not the case, and that, as seems natural, the purchaser conveys his exports to the vessel.

6. I therefore entirely concur in the Board's suggestion of the shipment of Salt being left to the merchant, especially as under the coming Escercise he will necessarily undertake this Office.

7. I have made several sales lately for export, but on condition that the purchaser supplied his own boats, and have not heard the stipulation objected to.

8. I would strongly recommend that no option be now permitted but that the Government provide Salt for export on these terms only.

9. I forward two Notices one involving the Shipment of the Salt by Government, the other by the purchaser; in the latter, I have charged the Salt

13444 Fort St. George 11th August 1858.

Salt at Rupees 12-8-0 per 100 Indian Maunds, exclusive of Cost hire &c to the Beach, the Sum of Rupees 2-8-0 being the best hire in the calculation of prime cost in Para 8 of Extract Minutes of Consultation, 31st May 1855 No. 651.

I Signed B. Cunliffe Collector.

Madras. 6th August 1858

Notice.

Exporters of Salt from Madras are informed that Salt will be supplied for export, only when boats are available at the ordinary rates, or when purchasers supply their own boats.

I Signed B. Cunliffe Collector.

Madras. 6th August 1858

Notice.

Salt will in future be supplied from the Madras Cotaurs for export at Rupees 12-8-0 per 100 Indian Maunds, exclusive of charges incurred in the transit of the Salt for the Cotaurs to the Beach. The further transport will be left with purchasers, the Government having discontinued it.

No. 37.

To
J. D. Sim Esqre
Secretary to the
Board of Revenue.
Fort St. George.

Bd. No. 3429.

From the Collector of Guntoor ..... } Sir,

I have the honor to acknowledge the receipt of the Board's Endorsement on Petition No. 1529 of 1858.

2. The entire extent of Enam alienated

13450 Fort St. George 16th August 1858.

alienated for the pay of the Village Curnums of Gurcholap amounted to 2 5/8 Coochels equivalent to 60½ Acres of which Petitioner as Meerasidar was in the enjoyment of ¼ on Coochel the quit Rent on the portion held by him appears from the accounts of 1854 to have been 7 Rupees at 28 Rupees a Coochel which he was called upon to pay but having failed to do so the Enam was resumed and carried to account.

Acres. Cents. 60 27

See Rule in Letter Volume.

3. The Endorsement of Mr. Stokes directing that the Collection of quit Rent due on the Enam held by Petitioner be deferred pending the Settlement of the Enam tenures generally appears to have been issued without a reference to the old accounts and cannot therefore be considered a sufficient authority for not exacting from the Petitioner the prescribed amount of quit Rent.

4. The arrears due by the Petitioner up to the close of July 1262 were remitted under

From St George 16th August 1858

By No 3525
Amount the Bill
for Stamp Paper 5

Dear Sir

Referring to Circular of 25th ult: Board's Proceedings No 2891 dated 29th ult: I have the honor to forward herewith Requisition for Stamp Paper to the amount of Rupees 5 for the use of the Police Establishment of this Station for the month of August 1858

I am Dear Sir
Your most obedient Servant
(Signed) F S Elton
Collector

To
The Secretary to the Board of Revenue
Fort St George

No 2410

From F S Elton Esqr
Collector of Nellore
To
The Secretary to the
Board of Revenue
Fort St George

in Chingleput would be temporary and as only fo-
-cd Nos any last letter I pointed out any objections
to considering the Pagoda and Post Writer permanent
hands and any English Department consisting there
for of only 12 in all A reduction of 2 will bring it
down to 10 or 3 short of North Arcot and not as
the Board imagine to a footing with that Dist.

2 Mr Brooks reductions consisted of the
kinds reduction of hands and Reduction of Salary
Under the former head the reduced the 3 hands
from my fixed Establishment Viz 2 Writers 1at
35 Rupees and the other at 21 Rupees and 1 Gommah
at 21 Rupees under the latter his reductions consist
-ed of the

Deputy Accountant from Rs	70 to 55		Reduction 15
Native Accountant	35	30	5
2 Writers from	70	56	14
1 Writer	31½	25	6 8
1 Gommastah	21	17	4
			44-8

Being a total monthly reduction
of Rupees 121-8-0 To this he added Rupees 18 by
the reduction of a District Post Office Writer on

35 Rupees & 1at 21 Rupees the other writer proposed to be reduced was the District Post not on the fixed Establishment

35
21
21
77

Hands — 77-0-0
Salary — 44-8-0
121-8-0

on Rupees 10 and a District Post Office Gommastah
on Rupees 8 bringing his total reductions up to Rupees
139-8-0 but having raised the Salary of 1 Gommastah
from Rupees 21 to Rupees 24-8-0 his actual reductions
reached Rupees 135 By giving me however a Pagoda
Gommastah on Rupees 16 as the Cashkeepers Ammunies
in lieu of his Gommastah on Rupees 21 the difference
Rupees 7 brought his actual reductions down to
Rupees 129-0-0

Fixed Establishment Rs 111
contingent 18
129

3 In para 7 of the Boards Proceedings
they consider that with a modification of Mr Brooks
propositions and under the impression they were with that
he had left the English Department of this District
on the same footing as that of North Arcot a worthy
saving of Rupees 97 might still be effected in lieu
of Mr Brooks Rupees 129-0-0

4 Deducting Rupees 18 from Rupees 139-8-0
Mr Brooks reductions in my fixed establishment
will be found to be Rupees 121-8-0 of which Rupees
77 come from reduction of hands and Rupees 44-8-0
from Salary In regard to the latter Item I have no
objection to offer presuming that reductions of same
sort

District Post Office writer Rs 10-0-0
D'Gommastah 8-0-0
Reductions 18-0-0
Deduct Increase 4-0-0
Net reduction 14-0-0

sort are necessary but in regard to the former as I have already shewn in my former letter that the two were required in substitution of Pagoda and District Post servants improperly allowed me in Thirst Class and in my present detail they will only bring my fixed English Establishment up to 10 or 3 short of the Hands in North Arcot I must beg the Board to obtain the Sanction of Government for my being allowed to retain them on my Establishment

5 I should also further propose the granting of reductions can be made from their future salaries as vacancies occur to the extent of Rupees 20 8 per annum as hereunder shewn

			Difference
1	Writer from Rupees 35 to Rupees 25		10
1	Do.	21	17½ 3½
1	Gomastah	21	" 11 7
			20½

making with Rupees 46-8 my total reductions Rupees 63 or only Rupees 32 " " less than the sum proposed by the Board

6 My present and future fixed Establishments will therefore I propose stand as follows

Present Establishment	Rupees	Future Establishment	Rupees
1 Head Accountant	100	1 Head Clerk	100
1 Translator	85	1 Translator	85
1 Deputy Accountant	70	1 Writer	55
1 Recordkeeper	50	1 Recordkeeper	50
1 Assistant Accountant	35	2 Writers at 35 Rupees	70
1 Do. Do.	35	2 Do. at 25 Do.	50
3 Writers at 35 Rs	105	2 Do. at 25 Do.	50
1 Do.	31½	2 Do. at 21 Do.	42
2 Do. at 21 Rs.	42		1508
12	553½	12	

7 This arrangement of course leaves my Pagoda and District Post servants untouched as unenumerated with my fixed Establishment

7 Referring to Returns of actual work for a Series of years to which reference is made by the Board in Para 12 I have the honor to annex the following Statement shewing its gradual Increase in the English correspondence during the last 8 years

Letters

13462

From L.P. George 16th August 1858

Number of Statements discontinued - 6
Monthly ? Do new added 18
Annual Statements discontinued 5
Quarterly Do reports Vcs new added 14
Half yearly ?
Annual ?

In this statement however I beg to say that the amount shewn as the actual Collections during the year is further diminished by the amount of Drawbacks allowed on goods re-shipped to other Ports and Returns made to Planters who have given up their Estates and left the Country, which amount cannot be correctly ascertained at present, but will be accounted for in the Statement for the ensuing year.

I have also to report that the Collection of Revenue at all the Outports has been regularly carried on by the Assistant Collectors and Clerks stationed there, and that the Returns from them are duly rendered to this Office.

The additional work of collecting the Revenue at the Outports has been performed by the Assistant Collectors without any additional remuneration.

By the Ordinance No 3 of 1858 the Duties on Spirits have been increased from 1 Rix Dollar to 1½ Rix Dollars per Gallon, and the Duties on Tobacco from 1 Rix Dollar to 2 Rix Dollars per lb. The Duties on Opium have been increased from 2 Rix Dollars to 3 Rix Dollars per lb. and the Duties on Betel Nut from ½ Rix Dollar to 1 Rix Dollar per lb.

The Duties on Spirits and Tobacco have been collected by Stamps, and the Duties on Opium and Betel Nut by Weight.

I have the honor to be Sir
Your most obedient humble Servant

Sir

With reference to Extract Proceedings of the Board of Revenue dated 19th instant I have the honor to observe that Kedery Govinda Menon was dismissed from the Public Service for overstanding his leave and failing to produce a Medical certificate

2 The circumstances were as follows He obtained 9 months leave on Sick certificate and for the purpose of attending to his private affairs) on four consecutive occasions the last term extended to 1st February 17th 1858 on the 7th of that month he wrote to the Tahsildar to say that he would rejoin by the end of the month in this he failed and then applied for 2 months extra leave stating that he was Sick

Fort St George 16 August 1858

sick and that it was uncertain when he would join He was then ordered to join within 5 days as he had been previously warned when the last period of the Seven months leave was given that no further leave would be granted

3 On 15th March the Head Assistant Collector informed the Collector of what had taken place on the 18th the Collector issued an order to Petitioner to return within 5 days failing which the man who had been acting for him would be confirmed

4 On 20th March Petitioner informed the Collector that he could not join by that time as he was sick he also requested to be appointed to Some Taluk near his Village an order was issued directing him to produce a Medical Sick Certificate within 7 days otherwise another party would be appointed in his place of this order the Head Assistant Collector was informed and on the 6th May he reported that Petitioner had not in any way confirmed to

Fort St. George 16th August 1858

to the directions given him and that the 2 Months Extra leave which he had applied for had also passed on 12th May the Head Assistant Collector was informed that as Petitioner had neither come to his work nor produced a Sick certificate the Conclusion was that he did not care about his situation and that another person should be appointed in his stead 5 It was not until this course of conduct had been pursued for 10 Months that Petitioner was dismissed and certainly every forbearance seems to have been extended to him

+ Dated 31st July 1858.

Sir,

1. I have the honor to forward to you to be laid before the Board of Revenue and Government the accompanying Petition* It is numerously and highly respectably signed.

2. The Petitioners complain of the robberies which occur on the Beach, and the little assistance they receive from the Police to suppress them. I am aware that robbery is very extensively and systematically carried on, and has been for a considerable time, in the Boats and on Goods landing and shipping, and while lying on the Beach.

3. The commissioner of Police and the Collector of Sea Customs have given unremitting attention to suppress the robberies as set forth in the Petition, yet there is no doubt the grievances complained of are intolerable, as the robberies are constant. With a view to put a stop to them the officers above mentioned have expressed unsparing vigilance

Fort St. George 16th August 1858.

vigilance to detect robberies, in which they have been energetically assisted by Mr. Dalle Inspector Ewell, but the inferior Servants of the owners of Goods, the Police, and the low grade of Custom House officers are, there is reason to fear, all in Collusion, and despite our exertions to put down this iniquitous system, so that the detection and punishment of parties concerned in crime are few compared with the robberies committed.

4. This evil has been increasing year after year, and I am decidedly of opinion no thing but a well organized Establishment will put it down. Supervision of the Police by parties who can be trusted is necessary, and to ensure men of character accepting Service they must be well paid. The Police force should be increased, to act effectually and employed afloat as well as on shore.

5. Considering the large amount of Port dues paid, the amount of the Customs Collections, and that parties must land their Packages at the Custom House, I respectfully submit that owners of property may reasonably expect that an Establishment should be maintained sufficiently strong in number and so superintended that it shall

Fort St. George 16th August 1858.

shall Guarantee the safety of property which parties, as before observed, are compelled by Law to land at a particular spot and place in the Custody of an Officer of Government.

6. The Marine Police Act, so far as I am aware of its provisions, will not provide a remedy for the evils complained of.

Sea Custom House

I have &c.
(Signed) W. E. Underwood
Collector of Sea Customs.

W. E. Underwood Esqre
Collector of Sea Customs
Madras.

Sir,

We beg respectfully to bring to your kind notice that much inconvenience, trouble, and roguery is always experienced on the beach by the Cooly people, boat men, beggars, and especially by the basket bazar people who are all in the habit of plundering one grain &c by making holes and cutting up Bags when landing on the beach, and for which purpose notwithstanding all that we could do ourselves to prevent the acts, we have hardly any aid from

13475 Fort St. George 16th August 1858.

from the Police peons stationed in the lines of the beach, as they are very indifferently disposed to our frequent complaints and thereby those inconveniences are most pacha increasing every day as to subject our trade to much loss.

The quantity of Gram thus plundered every day even at a rough Guess will amount to a great deal and which can only be estimated by a personal inspection and with a view of convincing yourself as to the truth of our Statement, we most respectfully Solicit your goodness will be pleased to take a Glance over the North beach on some of these mornings when landing operations take place, and favor us with the protection we so much stand in need of and for which act of Condescension we are and all shall ever prove grateful.

Madras, ... 31st July 1858. } /Signed/ By several Native Merchants.

With reference to an Extract from the Proceedings of the Board of Revenue under date the 26th November 1857 enquiring what e- class

13483 Fort St. George 17th August 1858

Sir

I have the honor to state that Sungum Sungum, being under the orders of Government Mr. [illegible] × genially fixed [illegible] as a 3rd Class Talook Cutchery will be required for it. The present area, population, and Revenue of the Sungum Talook are as follows.—

× 7th July 1856 Vide Circular and Standing orders C. P. W. Page 332.—

Square Miles area	Population	Revenue Fusly 1268 Rupees
178	35,141	103,896

and there is not likely to be any material alteration in this respect, when the Talooks are remodelled; though it was at first contemplated to increase its size.—

To Board 13th July 1857

2 It was my intention to have awaited the decision of Government on this point, but as a considerable time has elapsed and a new Talook Cutchery is very much required I consider that no delay should take place which would prevent its being included in the next Budget

3 The standard Plan approved of by Government in Extract Minutes Consultation of 18th November 1857, alluded to by the Chief Engineer has not been furnished to this Office

To G. L. Forbes Esqr
Secretary to the
Board of Revenue
Fort St. George

B. No. 1446.
From C. J. Shubrick Esqr
Collr of Chingleput.—

Sir

I have the honor to submit my Report on the Revision of the Assessment of the Chingleput Talook or rather of the 143 Villages settled by Mr. Smalley as required in Para 2 of Extract from the Board's Proceedings No. 594 of the 12th March 1856 with such further observations regarding the Assessment of the Remainder of the District as naturally occurred to me during the Course of my enquiries.

2 In Para 11 of Mr. Smalley's letter No. 25 of the 27th January 1855 he suggested to the Board that the Revision of the Assessment should apply to Rates supposed to be more than Ordinarily high and that these should be lowered on the principles laid down by Government in such places & to such extent

extent as might seem needed. In Para 5 of his letter Mr. Smallett had already stated that it was only in the Villages settled by Mr. Smalley that the Ryots Complained of the pressure of assessment.

3 The Board's instructions on Mr. Smallett's letter that the revision of the assessment should be Conducted on the principles enunciated by Government necessarily extended my enquiries Considerably beyond the Villages settled by Mr. Smalley in as much as it was necessary to see what other Villages would Come within the definition of being assessed at Rates supposed to be more than ordinarily high on which the Ryots Complained of the pressure of assessment

Board's Proceedings dated 31st August 1854 Para 3 Page 22 Circular order Book 1854.

4 The principles enunciated by Government are that not more than 40 Per Cent of the assessable Produce should be taken as the Government Share

13484 Fort St. George 17th August 1858

Share & not less than 60 per Cent be left to the Ryot. These principles may be theoretically Carried out as regards the assessable Produce & Ryot be totally millified in practice by the Rates at which the Government Share of the assessable Produce is Converted into money. It appeared to me therefore necessary to Consider both the amount of assessable Produce that is ostensibly taken by Government and the Commutation Rates at which it is taken for nothing Could be Clearer than that while the amount of assessable Produce taken might be nominally high it might in reality be easily paid by the Ryot if Converted at favorable Rates & that on the other hand if the Commutation Rates were unfavorable the Ryot might be very heavily assessed in many Though the Government Share of his assessable Produce might nominally be very little

+ By assessable Produce is meant that portion of Gross Produce which is divided between Government & Ryot i.e. the Gross Produce less the Votantrum

5 Neither the Board nor Mr. Smallett have stated precisely what they meant by "Rates more than ordinarily high" but presuming that

that both the ingredients I have men-
tioned must of necessity be Considered
in an enquiry made into the matter
I have Considered them in both aspects
& though I have submitted my pro-
posed Reductions for Mrs Smalleys Village
on a Change in the Rates between the
Government & Ryots shares as they
are now found to prevail I have also
with to view wherein the further Reduction
that would ensue if a Change was also
made in the Rates of Conversion

6 It will be seen that in
the 43 Villages settled by Mrs Smalley
3 only fall within the principles enumer-
+ Vide statement No 1 -ated by Government Regarding assessable
Produce and that the Rates of Conversion
Vide statement No 12 are most unfavorable to the Ryots in
all the Villages settled by that Gentle-
-man and that the Ryots are Conse-
-quently suffering from two distinct
Causes from being deprived of too large

13484 Fort St George 17th August 1858

a portion of their assessable Produce
& from being made to Convert it
into money at too high a Commutation
Rate.

7 It is this latter Ingredient
that adds to the Ryots difficulties
in Mrs Smalleys Villages and execution
also in 59 of Mrs Hepburns as has
been elicited during the enquiry, In
the Villages settled by the other Settle-
-ment Officers the former Ingredient
only prevails-

8 Under the Boards orders
noted in the margin the marahs.
have been deducted out of the Gross
Produce & the balance divided between
Government & Ryot at the 60 per Cent res-
-pectively the result for Mrs Smalleys Villages
is a total deminution on the Survey Beriz of
Rupees 1359-3-4- & on the average Subs-
-equent Demand of Rupees 1725-7-7
Hs

+ Bd Bord 17 Augt 1855 No 204
From Do 23d augt 1855 No 209
Bd Do 18 Septr 1856 No 232
From Do 7 Novr 1855 No 270
+ Vide statement No 6.

Total Beriz of 143 fasls for 18 years from fasly 1219 to 1266 — Rs. A P 974403-----

Average per fasly — 54134-0-0

Of which average Runjab Beriz is about — 46000-0-0

Remission at 12 per cent in round numbers — 10000-0-0

+ Vide statement No. 10

The diminution if taken for the last 16 years only wants not to exceed Rs. 10000 in round numbers if extended to the entire District would be about Rupees 16000+

9 The change in the system of calculating the Meraks was most advisable while it provided for the payment of the public Village servants the Servants of Government & the Village Community at the Joint expense of both by a deduction on his account from the entire assessable Produce before its division into Government & Ryots Share respectively its simplicity Commended it for general introduction into the District when planned as in the case of the Runjab Villages it accompanied an alteration in the Government & Ryots shares of Produce according to the principles enumerated by

13484 Fort St George 17th August 1858

by Government.

10 Carrying out the arrangement will have caused increase the actual demand against the Ryot in the 3 Villages previously referred to where the Government share is already 60 Per Cent as the Meraks will have to be deducted out of the entire gross Produce hereafter instead of out of a part of it only as heretofore. In the other Villages though the demand may in Consequence be said to be nominally higher against the Ryot, in as much as all Fees will be deducted before his own proper portion of the Crop is assessed yet, with the general reduction of all assessments above 40 per Cent down to that rate the actual demand against him will have been very much reduced In the 3 Villages the Demand will have been augmented by Rupees 24-10-4 & in the other Villages been reduced by Rupees 17,280-1-11-

Para 6

Vide Para 13 & also statement No. 6.

11 The accounts have been prepared on the

13484 Fort St George 17th August 1858

the above principle for two Smalleys Villages that as the Board would possibly like to have examples of a Village settled under the old & present proposed principle before them for elucidation. Beg to submit a specimen of each giving the necessary particulars & w.g leaves.

Settlement of the Village of Anoor under the present system on every 10 Cullums of Gross Produce as fixed at the survey Vide Statement No 2.

Deduct 3 8 1/4
— 3 2 3/4

Per cent 5 1/2

margin. The difference between this and the proposed system is 5 1/2 per cent against Government.

Statement No 4 will shew the differences for the whole village of Anoor, on the Amount of demand that will have to be given up on the proposed system amounting to Rupees 510 — 10 with the variations per Cawny to be effected in each of the different rates prevailing in the village and the future fixed assessments they are to bear

M

13484

Fort Saint George 17th August 1858

It will be seen that there are four rates for double Crop. and 11 for single Crop. the former being reduced from Rupees 14 per Cawney to Rupees 11 for the highest. and from Rupees 11-9-3/4 to Rupees 9-4 "0 for the lowest while single Crop Lands will be reduced from Rupees 13-5-8 to Rupees 10-12 "0 for the highest and from Rupees 3-8 "0 to Rupees 2 12 "0 for the lowest. The per centage of reduction on each rate is shewn in Col. 25. and on the Percentage for the whole Village. which it will be seen in the aggregate amounts to 21 per Cent. The reason of this Percentage being one more than the rate given for every 10 Cellums in Col. 11. arises out of the arbitrary way the assessment is fixed by Mr Lindsay at the survey field settlement when for instance if the Government Share of the whole is Reduce converted into money at the Commutation rate given

13484

Fort St George 17 August 1858

Rupees 13-13-4 "0 at the assessment to be fixed. Rupees 11 must for convenience be fixed on instead.—

13.— The assessment on the 143 Villages on the principle adopting. and on those proposed at will at the amount it bore at the time of the survey. and the amount it reached now, under both principles. shewing the addition of new land broken up since the survey. is shewn in the following Statement = being figures.— Vide Statement No. 6.—

fees

× Vide Para 12 of Board's 31st Octr 1822 Vide also Para 20 of Board's Proceedings 19th May 1828 wherein they observe that "In the Villages settled by Mr. Smalley the increase of the Assessments was

15.—

per Cawney for each chaprin the village of Catatora selected as an example for each of the 3 years of Cawney management and for the average of the 3 years and the reduction of the assessment, and the results compared with my of the Commutation rated chiefly at the time and the rated of conversion.—

18. The commutation rated or rated of Conversion chosen by Mr. Smalley carried from 13 to 16 per cent per Pagada & more chiefly the average prevailing prices for the 21 principal years in the several Villages excluding 3 years where the prices rate exorbitantly high. And the conversion of the Produce at these rates into money and fixing it at the money earned on the field at due to the high proportion of the Government's Share of the Produce / Maiharam / which he made Mr. Smalley's assessment bear so heavily on the people and be the subject of their Complaint ever since.—

A

13484 Govt & R George 14 August 1858

17.— It would seem that Mr Smalley himself was aware of the high nature of his assessment, and advocated a reduction which the Board & Government subsequently made but owing to his departure from the District, the reduction was only carried out in one Village Ordered on him to the extent of 11 Per Cent by Mr Smalley, and in another Ordered by Mr Cunliffe to the extent of 2 per Cent by Mr Cunliffe.—

18.— Mr Smalley advocated the reduction altogether in 81 Villages of which 3 were afterwards incorporated in the settlement of Rafts & Pucca & Maharam rated varying from 2 to 15 per Cent leaving 61 other Villages alone, and if had been carried out as sanctioned, it would have reduced the survey fixed assessment of the 123 Villages from Pagodas 20330 — 10 3/4 to Pagodas 18,946 — 11 1/2 or a reduction of Pagodas 1383 — 15 1/2 on the assessment

Instead of this reduction being carried out Mr. Babington who

-viously to Mr Babington
-gotten a revision of Mr
Babington's assessment but
in Para 14 of the Board's
Proceedings

Mr. Dunkley's proposed [illegible]

settlement exceeding the rates proposed by the Petitioners — 2 Villages 105
Do — by the Petitioner — 3
Do — by the Respondent (Collector) — 11
Do — on the average price of 22 years from 1209 to 1231 excluding years of drought and famine — 24

*The Board's Proceedings dated 8th May 1845 state that Mr. Babington was aware of the rates being different from those established by his predecessor meaning Mr. Dunkley.

+ Vide Statement No. 10.

who succeeded Dunkley mentioned his account by and by detecting some mistakes Dunkley had committed and could not [illegible] pared at the a fresh revised settlement which effected an augmentation of Rupees 875 — 11½ annas on 4½ per cent on Mr. Dunkley's recommended reduced survey settlement and this revised settlement of Mr. Babington had remained in force to the present time Mr. Thomas proposed a still further augmentation in 141 Villages to the amount shown in Statement No. 11 wherein the labours of all Gentlemen are thrown out of account. It will be seen that Mr. Thomas's modified would have produced a reduction of Rupees 1246 — 13 —

(Y. B. 3 Vict. 1841 Para 69 to 71 and Para 58.)

Great A George 17th August 1858.

Mr. Babington's settlement arising out of the discovery of errors in his calculations to the amount of Rupees 1949 — 11½ annas on augmentation of Rupees 128 — 15 — 13 Villages and a diminution of Rupees 293 — 7½ — 25 Villages leaving Mr. Babington's other Villages unaltered. The errors discovered in his calculations Mr. Thomas also had previously to Mr. Thomas's getting a revision of Mr. Babington's settlement but in Para 11 of the Board's Proceedings

13484

13484

Fort St.a George 17.th August 1858

District notwithstanding that they have better
reasons for knowing them as (Mr. Babingtons) at
the time of their enforcement and on the average
of the 10 years from Fusly 1257 to Fusly 1266 It will
be seen that the total Nunjah Inam Sheigah amounts
to Cawnies 9447—12—2 assessed at Rupees 64,988—5—6
of which the average waste on the last 10 years from
Fusly 1257 to 1266 was Cawnies 3033—7—10 assessed
at Rupees 19,387—5—0 or 30 per cent adding the Laikh
the ayacut would be Cawnies 12238—14—10 assessed
at Rupees 78,709—0—6 of which Cawnies 4674—10—12
assessed at Rupees 27,865—14—3 or 35 per Cent was
waste and that on the total Ayacut including Sheigal
Laik Auddy and Drumboke amounting to Cawnies
21,100—13—8 assessed at Rupees 110,682—10—2 the
waste amounted to Cawnies 12,514—4—12 assessed
at Rupees 56,651—6—4 or 51 per Cent. It should
be observed with reference to the small percentage
of Double crop lands left waste that the Extra
assessment for Double crop has never been levied
in

20th Statement of all the

the condition of Mr

Lindley's ryotwar

above Thirty Mr. Babington

assessments / but I

call them Mr Lindley

to avoid confusion

and because they are

known and his assess-

ments by the people of the

District

13484

Fort St. George 17th August 1858

District notwithstanding that they have better

reasons for knowing them as Mr Babington's) at

the time of their enforcement and on the average

of the 10 years from Fusly 1257 to Fusly 1266 It will

be seen that the total Nunjah Inam Sheigah amounts

to Cawnies 9447—12 as 2 6 assessed at Rupees 64,988 as 8 6

of which the average waste on the last 10 years from

Fusly 1257 to 1266 was Cawnies 3033—7—10 as 6 assessed

at Rupees 19,387—5—8 or 30 per cent and adding the Laik

the ryacut would be Cawnies 12238—14—10 as 6 assessed

at Rupees 78709—as—8 6 of which Cawnies 4674—0—12 as 6

assessed at Rupees 27865—14—3 as 8 or 35 per Cent was

waste and that on the total ryacut including Sheigal

Laik Auddy and Drumboke amounting to Cawnies

21,100—13—8 as 6 assessed at Rupees 110682—10—2 as 8 the

waste amounted to Cawnies 12,514—4—12 as 6 assessed

at Rupees 56,551—6—4 as 8 or 51 per Cent. It should

be observed with reference to the small per centage

of Double crop lands left waste that the Extra

assessment for Double crop has never been levied

in

in this District unless the double crop has been raised
and that there has consequently been no special induce-
ment from pressure of assessment to throw it up and
take single crop land instead as in the adjoining Dist.
of North and South Arcot where the double assessment
has been levied whether the double crop has been
raised, or not in this way while Mr. Smalley's Ch.
ges and the District in general may be said to be
heavily assessed Compulsory pressure of Assessme.
in the manner prevalent in those Districts is unk.

21. I have said before in Para 16 that the
Commutation rates varied from 13 to 16 Mercalls p.
Pagoda and that he advocated their reduction*
making them more to the advantage of the
Ryot by allowing a greater quantity of Produce
to be necessary to his payment of a Pagoda in
money. In the Village of Calutthoor which Mr. Sma.
refers to in Para 16 of his report of the 31st October
by way of example he calculated that with his pro.
deductions on the survey field Assessment the
Commutation rates would be about 18 Mercalls p.
Pagoda

* Vide Para 17

13484 Fort St. George 17th August 1858

Pagoda. He says the Inhabitants wished it to be
20 Mercals that he proposed 16—3 Mercals to them or
the average of 16 favorable years or years of
low prices but that his Mediators fixed it
at a mean between the two making it about 18
and that the same course was followed in the
other Villages recommended by him for reduction
The reduction proposed in each being such as
to give as he supposed an average Commutation
rate of Mercalls 18 for all. This result though
intended by him does not seem to be borne out
as may be seen from Statement No. 13 where the
Commutation rate for Calatoor is shewn to be
Mercalls 17—4m— and in the other Villages still
less The result such as it is was however set
aside as already reported by Mr. Babington
who fixed Mercalls* 18 1/8 as the Commutation
rate in 2 Villages 18 in 6 and various rates varying
between 13 to 17 5/8 in the remaining Villages—

* Vide Statement No. 12

22. The succeeding Officers who settled
the various Villages as they fell in to Government
followed Mr. Smalley's plan of ascertaining the average

Vide Para 29 of Mr. Freeres Report of 8.a February 1841 & Para 31 of Mr. Macleans Report of 15.a April 1837

average prices of the previous 21 years before fixing their Commutation rates but having ascertained them they did not like. Mr. Smalley's fixing as the rates with proposed deductions to be afterwards sanctioned but made allowances at the time for any particular circumstances in the Villages and their distance from the Madras and other Markets and adopted instead of the ascertained prices more favorable rates varying from between 17 to 20 Mercalls or an average 18 Mercalls in round number as their Commutation rates The result of their rates was to fix their assessment at lower figures than Mr. Smalleys. The following will shew the average assessment per Cawney for Single Crop Nunjah of the different Settlement Officers including those of Messrs. Hepburn and Ellis who preceeded Mr. Smalley.

	Pags	Rs
Mr. Hepburn	1	12 1/4
Mr. Ellis	1	
Mr. Vivash	1	14 3/8
Mr. Maclean	1	14 3/4
Mr. Smalley	1	15 1/2

It will be seen that Mr. Smalley's Settlement

* Vide Statement No. 11 & also Para 20 of this Report

is higher than Mr. Macleans the next highest by 3/4 Pagodas per Cawney which for the Cawnies 9447—12—2 settled by him would give Rupees 1,800 for his Settlement above what Mr. Macleans Settlement would have produced.

23. Should the fact that 30 Percent of Mr. Smalley's sheriyat Settlement is lying uncultivated and the reduction of 21 per Cent now proposed be considered insufficient to relieve it from the pressure of assessment which it has been shewn to bear and that in consequence a further change is also required in his commutation rates the change in the rates or the deductions that in this case would then have to be made would be an additional † 12 per cent from Mr. Smallies assessment as changed and enforced by Mr. Babington as may be seen from Statement No. 15.

† 10756 Rupees Vide Statement No. 14 for the Village of Anoor by way of example and Statement No. 15 for the whole Settlement of Mr. Smalley

24. As the Board must necessarily require some Data to guide them before Comming to

to a resolution on the matter, it is advisable that I should refer them to Mr. Smalley's own report on his settlement, which will shew them that his original survey fixed Settlement exceeded in the Village of Calatoor taken as an example no less than 6 1/2 annas per Cawnie, the average of 20 years prices in the Village, an excess that virtually invaried the rates of Government and Ryots shares and compelled the Ryots to make the excess good out of his own per share of the Produce Even after the deduction proposed by Mr. Smalley his Settlement would have exceeded the average of 20 years by 1/4 annas as may bee seen in the Margin and it must be again repeated that his proposed deduction was never Carried out, but was subsequently adversely changed by Mr. Babington, so that the present existing excess is still more unfavorable to the Ryot than even Mr. Smalley who

* Para 12 To Board dated 31st Octr. 1822.
Survey Settlement 3 2-13
Average of 20 years 3 2-6 1/2
6 1/2

Survey & Settlement with proposed deduction 2-7 3/4
Average of 20 years 3 2-6 1/2
1/4

who thought he had proposed to reduce his assessment to a sort of actual average intended to be.

25 In Para 28 of his report Mr. Smalley considered his assessment moderate as it gave the Menavidars 60 per Cent of the Gross Produce exclusive of their Saluntrums and in an unfavorable year when grain was at the cheapest and the extent of Cultivation not above the average would still leave them 30 Per Cent. In support of this view, he refers the Board to a Statement × Compiled by him for the purpose in which he assumed the amount of Gross Produce of the whole District on a Calculation derived from past Collections and converted it into money at the price which prevailed in the year Rowdry or Fusly 1210.-

× Statement No 9

26. A reference to the Statement will shew that Mr. Smalley rated the Collections of

of the District at Pagodas 316250 of which 300000 were Nunjah and 16250 Punjah and Totaical that he converted each Pagoda into 3 Collums of gross Produce making thereby the total Nunjah gross Produce collums 900000 and added thereto on the grounds of suspposed fraud and concealment an additional 5 Per Cent or Collums 45000 From this total collums 945000 he deducted the Zemindary and Shrotriem Peishcush in Collums at the Conversion price of Collums 3/8 Pagoda which for Pagodas 91600 made Collums 274800 leaving the balance Collums 670200 as the gross Nunjah Produce of the Amany Mootah or Government Villages. This gross Produce he devided between Rya and Government at 60 per Cent for the former Collums 402120 and 40 per Cent for the latter Collums 268080 converting this latter into Pagodas Mercals 18 per Pagoda, he made it amount to Pagodas 178720 which he considered the value of the Government share of the gross Produce of the Amany Mootah or Government Villages he

over

owner included. The Beriz of these Villages under the permanent settlement he shewed to be Pagodas 158400, and considered that if the increase of 10 per Cent or Pagodas 15840 which was the percentage he had added to the assessment of the Chingleput Talook to meet repairs and charges of Collection, were added to it, the Beriz would only be raised to Pagodas 174240, or Pagodas 4480 short of the actual value of the Government share of the gross Produce. This difference being at the rate of 2 3/4 per Cent, he considered to be so much gain to the Ryot whom he therefore held to be in the actual enjoyment of a Godewarum of 62 3/4 per Cent, and to pay a Mail-warum of only 37/4 per Cent to Government.

27. In reference to this Statement, to shew that no dependance can be placed on it, it is enough to point out the omission made by Mr Smalley of not adding to the Zemindary and Shrotriem Villages, the 5 per Cent which he had added for fraud and Concealment in the entire gross Produce of the District and deducting the Zemindary and Shrotriem Peishcush with this additional 5 per Cent added to it as he ought to have done to have made his account correct on his own principles The result of his omission was necessarily to increase the amount of gross Produce left as the gross Produce of the Amany Mootahs or Government Villages by as much as he had omitted to add to the Zemindary Villages or by Collums 13740. Mr Smalleys allowance for Punjah and Totacal Cultivation was also inconsiderably small and had of course the further effect of increasing the Ryots Cultivation

* 16250 Pagodas or 57000 Rupees in round numbers

of the District at Pagodas 316250 of which 30000 were Nunjah and 16,250 Punjah and Totaical that he converted each Pagoda into 3 Collums of gross Produce making thereby the total Nunjah gross Produce Collums 9,00000 and added thereto on the ground of suspposed fraud and concealment an additional 5 Per Cent or Collums 45000 From this total Collums 945000 he deducted the Zemindary and Shrotriem Rights in Collums at the Conversion price of Collums 3½ Pagoda which for Pagodas 9,600 made Collums 274,285 leaving the balance Collums 670,200 as the gross Nunjah Produce of the Amany. Moottah or Government Villages. This gross Produce he devided between the and Government at 60 per Cent for the former Collums 402,120 and 40 per Cent for the latter Collums 268,080 converting this latter into Pag. Mercals 18 per Pagoda, he made it amount to Pagodas 17,8720 which he considered the value of the Government share of the gross Produce of the amany. Moottah or Government Villages he

own included. The Beriz of these Villages under the permanent settlement he shewed to be Pagodas 158,400, and considered that if the increase of 10 per Cent or Pagodas 15,840 which was the percentage he had added to the assessment of the Chinglepet Taluks to meet repairs and charges of Collection, were added to it, the Beriz would only be raised to Pagodas 174,240, or Pagodas 4,480 short of the actual value of the Government share of the gross Produce. This difference being at the rate of 2¾ per Cent, he considered to be so much gain to the Ryot whom he therefore held to be in the actual enjoyment of a Coodewaram of 62¾ per Cent, and to pay a Mail. -waram of only 37¼ per Cent to Government.

27. In reference to this Statement, to shew that no dependance can be placed on it, it is enough to point out the omission made by Mr Smalley of not adding to the Zemindary and Shro. -triem Villages, the 5 per Cent which he had added for fraud and concealment in the entire gross Produce of the District and deducting the Zemindary and Shrotriem Deishcush with this additional 5 per Cent added to it as he ought to have done to have made his account correct on his own principles The result of his omission was necessarily to increase the amount of gross Produce left as the gross Produce of the amany. Moottahs or Government Villages by as much as he had omitted to add to the Zemindary Villages or by Collums 13740. Mr Smalleys allowance for Punjah and Totacal Cultivation was also inconceivably small and had of course the further effect of increasing the Ryots Cultivation

* 16250 Pagodas or 57,000 in round numbers

cultivation and profits from Nunjah In fusly 1261 this Punjah and Istacal Cultivation reached Rupees 114000 and in fusly 1266 Rupees 45[illegible] generally speaking it is about 1/3 of the Nunjah Beriz. In fusly 1210. Mr. Smalley only made it amount to Rupees 37000 The way in which Mr. Smalley divided the Government and Ryots shares may also be objected to taking the highest and the lowest rates he appears to have divided them and by striking an average concluded that the shares were about equal, taking no reference apparently of the number of Villages in which the high or the low rates prevailed rates which by varying could not but affect the value of his calculation as to the general or usual rate that prevailed It has already been observed that the price he selected was the price of one year only.-

× Pagodas ₹250

The gross Produce being converted at 3 Collums he converted the Mailwarum at 1½ Collums or 18 Meracalls

Vide Statt No 1

28 To Come to a decisive opinion on Mr. Smalleys views of moderate assessment laying a side his calculations and the extent of relief, if any required by the District it

13484 Fort St. George 17th August 1858

is well to Compare the assessment of Chingleput with the assessment prevailing in the neighbouring District of South Arcot and to consider the different conditions of the two Districts with reference to their abundance or otherwise of labour and water power, as well as any advantages resulting to them from proximity of trade and markets.-

29.- In Para 21 of the Boards Proceedings of the 26th April 1852, they laid it down "that the assessment of a District must be regulated primarily with reference to its own Circumstances which may or may not Correspond with those of its neighbours and the Board may therefore consider that a Comparison between Chingleput and South Arcot is some what beyond the question, when discussing the assessment of the former District only A Comparison however appears to me to be of advantage and perfectly fair when it can be shewn that the more favored District in the above

above respects is the more lightly assessed one and that relief is consequently required to put the suffering District on a footing of equality with it.-

30.- To proceed then with the comparison. The average rate per Cawney for single Crop wet land in South Arcot if calculated on the Sheigal amounts to Rupees 10-10-9 if on the whole area including waste to Rupees 8-5-11 Deducting the remission of 25 per Cent lately sanctioned for South Arcot the average will be Rupees 8-0-1 and Rupees 6-6-8 respectively- In Chingleput the average are Rupees 6-3-3 on the Sheigal and Rupees 5 on the area but it must be remembered that in the case of the former District the Village Servants fees are incorporated in the Government assessment and paid from the Treasury while in the latter they are partly exclusive from it and paid by the Ryots in Kind. If the fees in South Arcot which amount to

x Coll.r of South Arcot to Board 17th December 1853 No 101 Para 15

Vide Para 11 & Statement No 2

13484 Fort St. George 17th August 1858

to about 20 per Cent are deducted from the averages these averages will be reduced from Rupees 8-0-1 and Rupees 6-6-8 to Rupees 6-6-6 and Rupees 5-2-1 respectively averages so very little above the averages of Chingleput that they would be undeserving of notice if the agricultural advantages of the two Districts were in any Degree similar The poverty of the soil of Chingleput, and its want of various Products has often been brought to the Boards notice by my Predecessors, it in fact produces nothing but Paddy unless an indifferent yield of Indigo may be adduced to the Contrary and the Ryot is unable to bring any cotton, Sugar, or other valuable products to market giving him a larger profit than that which he derives from his Cultivation of Paddy he has not even Plantain gardens to assist him to any great extent, or Betel Topes either. Under these Circumstances, the profits from his Paddy Cultivation can be all that he is said to possess and Compared with the profits of the Ryot in South

South Arcot, there can be no question of his being infinitely worse off. In that District, the water power is much greater and from being supplied from rivulet Channels in great abundance much more certain, while therefore the South Arcot Ryot has the valuable products which the Chingleput Ryot has not and cultivates both Cotton & Sugar he has also the advantage of European Manufactures of Sugar, Rum, Iron and Cloth to bring the precious Metals into his hands, Pondicherry, too demands his Paddy as much as Madras does the Paddy of Chingleput.

31 As regards the Labour Market the landowners of Chingleput is but indifferently off, the demands of the Presidency and the various Cantonments calling away from his

13484 Frost St. George 17th August 1858

Tanjore 6-3-10
Chingleput 6-3-3

Collector of South Arcot to the Bd of Revenue dated 17th December 1853 - No 101 Para 15.

him hands that would otherwise work in his fields those that remain are at high wages.

32. Compared with the Tanjore the best watered District of the Carnatic the Nunjah assessment of Chingleput agrees very nearly exactly as shewn in the margin. It should be remembered however that in Tanjore the assessment is very much of it for Double Crop land while in Chingleput it is for single crop land, the advantage is therefore all in favor of Tanjore.

33 These observations, it will be perceived, naturally introduce the general condition of the District which I will now proceed to lay before the Board.

In

*Vide also Statement No. V

Sir Para 20 I showed the condition of the Smalleys assessment. The enclosed Statement No. II Col 2 will show the condition of the whole District inclusive of the Smalleys Villages for the last 78 years from Fasly 1249 to 1216 both exclusive of 26 Villages settled by the Juries in Fasly 1259 or only 15 years ago, and of the Villages received at different times from North and South Arcot which are shown separately in Col 3 & 4 Col 2 of the Statement shows that the total Survey Berijes of the different Districts the Officers and the average Beriz of the last

last 18 years Amount to Rupees 979.331 — 2 — 9 and Rupees 812.319 — 9/4 — 4 in reference to which it should be stated that the Survey Beriz is the Sheigal including Dry Wet, Gardens and Ready money Collections while the average Beriz takes in also the lands added from Laikh Ahady Perumbokes &c. subsequent to the Surveys and during the 18 years of the Statement — It will be seen that notwithstanding these additions the average Beriz falls short of the Survey Beriz by Rs. 167011 — 11 — 5 or 17 per Cent showing that much of the surveyed lands must have been thrown out of Cultivation for other lands reclaimed from the waste and brought to assessment at lower rates

34 — As regards the Juries Villages settled 8 years ago. Col. 3 will show that the difference between the Sheigal and average amounts to 25 3/11 Per Cent

35 — It was the opinion of the different Officers that the average Berijes should reach the Sheigal Berijes as a standard of the correctness of the latter in reference to

to the Capabilities of the Villages settled by them respectively it must be allowed that there should Ryotwar Assessments have been too high to allow of such being the case as clearly the above where the averages are in the case of all the older settlement Officers together 11 per Cent and in the case of Mr. Pierce 23 per Cent below their respective standards

36 Having thus considered the average of all the settlements for the last 18 years together it may be as well as to look at the condition of the several settlements separately in view to ascertaining to what Extent they have stood the test of time Mr. Maltby in reviewing the Settlement of Mr. Macleay considered that for the period it had been in Force Viz. 6 years it had proved highly advantageous to the Government having raised the Revenue from its then depressed state no less than Rupees 116,842 19 0 above the average it had attained during the previous 15 years. He however thought that

13484 Fort St. George 17th August 1858

that the period of 6 years was too short to allow of an opinion being formed of Mr. Macleays settlement more particularly as the 6 years in question were very favorable years and to use his own words he thought it that Mr. Macleays settlement had "not been sufficiently long in force to distinguish its effects on Cultivation from those which may have arisen from incidental circumstances of seasons and prices" It seemed to him therefore "advisable that the Assessment should have a longer and more favorable trial when it might be expected that the tendancy to improvement hitherto apparent would become more extensive and rapid - But if the settlement did not stand this test and Cultivation failed to attain its proper level relief might then be afforded & the prosperity of the District advanced by the Assessment being modified at an Uniform rate" Keeping those observations in view Statement No. 18 has.

has been prepared showing the Fasliwar fluctuations in the different Berizes of the several Settlement Officers commencing with Mr. Hepburne in Fusly 1232 and brought down from various intervening periods to Fusly 1268. The average percentage by which the several average Berizes fall short of their Shigal Berizes is shown in the subjoined Abstract of Statement No. 18.

Settlement	Shigal Beriz	average Beriz	Known what fusly to what fusly			Decrease	Percentage
			For	From Fusly	To Fusly		
Mr. Hepburne	22118	20018	35 years	1232	1268	2100	9½

tion was 2-7 per Cent of the land and 23 per Cent of the assessment on the Shegal and 35° and 30 per Cent respectively after including the Laikh while on the total Ayacut including Anady and Perumbooke the difference was as high as 61 # and 51 per Cent results which scarcely speak in favor of the moderation of the Settlements taken together. If these were the results in a favorable years in an unfavorable one they would of necessity have been still more conspicuous

38. The Stationary Condition of the District may be seen from the Fusly wise Berizes which vary very moderately from one another except in those years that are known to have been exceedingly favorable or the reverse. These moderate variations.

variations would show the prosperity of the District of Cultivation had reached its full limit and neither more land or water were available for its further extention but with the example of Truly 1261 in view in which though a very favorable year 3 Lacs of Rhigal and Laikh and 5 Lacs of Anady and Porumbokie were waste these moderate variations tell in a Contrary direction altogether Relief to the whole District on the principles enunciated by Government would therefore seem to be necessary and Statement No 16 has been drawen up shewing that it would involve a Sacrifice of present average Revenue not exceeding Rupees 150,000 in round numbers. This Sacrifice would doubtless give a momentary impulse to Cultivation though not at first to the extent of its reduction - It would require time to bring the additional lands into fixed Cultivation as the increase of Cultivation would chiefly have to be looked for in the sinking of new wells in wet lands for procuring the extra quantity of waters that would be required One benefit resulting

13484 Fort St. George 17th August 1858

resulting from the measure would however be the inducing of new hands to enter into engagements with the existing Merasidars which from the present high rates of Assessment they are now loath to do. The Merasidars who are now more or less little better than Ordinary hand to mouth labourers would have a class of labourers under them tending to their prosperity both as individuals and as Village Communities and population would necessarily increase from the stimulus to labour and the production of a greater quantity of food The more the Merasidars would be able to sublet the more the Country would flourish and a wealthy prosperity be in time the consequence I conceive that the System carried out might in time greatly reduce the number of direct holders of land from Government and thereby greatly benefit the Country I do not go with the admirers of the Rotwary systems and Government interference in

in every petty detail with individuals and am afraid that however the system may have been lauded as paternal and protective to the individuals concerned its results have been the general continuance of poverty among the people and the almost impossibility of any one Class or person rising above another. The Palar project should not be forgotten in the prospective benefits it is likely to confer on the Country and which can only furnish its supplies of water in the dry months of the year or say rather in June and July and occasionally a freshin February its benefits on the permanent prosperity of the people by ensuring Cultivation and certain harvests will be incalculable with the Palar Project in full play in June and July any pre-sent deficiency from reductions of

13484 Fort St. George 17th August 1858

of assessment would be soon made up by the greater breadth of land brought under permanent Cultivation—

39 His marine Surveys and Settlements Carried out in Chingleput have one with another Cost the Government about one and a half Lac of Rupees and it may well be questioned whether it is worth while spending any more money now in endeavouring to ascertain over again the actual quantity of gross Produce yielded on every Cawney of Land under Cultivation and so making a fresh settlement on fresh information to be perhaps as faulty as those Settlements on some of them that have been preceded it. For all present purposes or Reduction, the Settlements of the different settlement officers may be allowed to remain for however it has been thought that many of their Calculations of gross produce fell far below the actual quantity yielded in the District the fact of their Ryotal Basis being left so much uncultivated goes to show that their

B. Pros. 26th aug. 1844 N. 492 Para 111-

Vide 2nd Smollett's letter No. 26 dated 27th January 1855 Para-

13484

Fort St George 17th August 1858

has been allowed in North Arcot as the most advisable means of affording speedy relief to the whole District and which could be carried out with simplicity and ease and without any or very trifling expense to the state - a matter of some Consideration pending the scientific Survey in Prospect -

42 It is supposed that the best Soils of the District do not on an average yield more than 14 Collums of gross Produce per Cawney 40 per Cent of the assessable portion of which at 8 Imeralls Per Pagoda will give nearly Rs. 12 as the maximum Rent per Cawney - I would suggest therefore that Rs. 12 should be fixed as the maximum Assessment for single Crop land, & Rupees 18 for double Crop land all higher Rates being reduced to those levels & proportionate Remissions granted for all lower Rates finishing with Rs. 2 as the lowest Rate for single

13484

Vide statement No. 19.

Fort St George 17th August 1858.

Crop and Rs. 3 for double Crop land - The subjoined Table will give the Per Centages of Remission I would recommend -

Double Crop rate				Remission
Assessments varying from 15 per Cawney to 18 Rupees				20 Per Cent
Do.	10½	to 15	"	15 Do.
Do.	7½	to 10½	"	10 Do.
Do.	3	to 7½	"	5 Do.
Single Crop rate				
Do.	10	to 12	"	20 Do.
Do.	7	to 10	"	15 Do.
Do.	5	to 7	"	10 Do.
Do.	2	to 5	"	5 Do.

These per Centages of Remissions which are far short of those recently sanctioned and likewise carried out in the infinitely more highly favored District of North Arcot would give for the 143 Villages of Mr. Smalley's Settlement a probable present but only temporary diminution of Revenue of Rupees 9396 and for the Remainder of the District on a Rough Calculation about Rs. 80000 or at the rate of 11¼ per Cent only when practicably carried out Reference would

Average Assessment Basis is about Rupees 7,16,000

Remission at 11¼ per Cent } 80,000

Settlements must have been above the amount which the people could willingly afford to pay & that new land on Reduced assessment has inconsequence been obliged to be resorted to to obtain the profits which the better & more advantageously situated land from its higher assessment had refused to yield -

40 The amount of gross Produce on which the different settlements were leased at a cost of a Lac & a half of Rupees having therefore been accepted and acted on by both Government & Ryot for various lengthened periods dating in some instances so far back as nearly 40 years it may be very questionable whether any Change in the actual amount of gross Produce & its subdivision into Government & Ryots shares would be acceptable to the Ryot of the present day Considering the Cost of obtaining it advantageous to the Government to say nothing of the ill feeling likely to be engendered by the measure leading

13484 Fort St George 17th August 1858

leading the Ryot to suppose that an increase instead of a diminished demand was the object sought to be obtained against him - an alteration in the Government and Ryots shares on the principles enunciated by Government which Commands itself to the understanding of the most illiterate Ryot in the Country leaving the Gross Produce as it is seems therefore the only politic Course to be followed with the simplification of the mere ad-

41 If the alteration in the Government and Ryots shares of the assessable Produce which it was shewn in para 38 would cause an immediate diminution of Government Revenue to the extent of Rupees 15000 is considered to be too great a diminution in a small District like Chingleput added to the further reduction of 12 Per Cent in Mr. Smalley's Villages on account of Commutation Rates, I would then in that case advocate some such alteration as has

13484 Fort St George 17th August 1858

has been allowed in North Arcot as the most advisable measure of affording speedy relief to the whole District and which could be carried out with simplicity and ease and without any or very trifling expense to the State - a matter of some Consideration pending the scientific Survey in Prospect -

42 It is supposed that the best Soils of the District do not on an average yield more than 14 Collums of gross Produce per Cawney 40 per cent of the assessable portion of which at 18 Pagodas Per Pagoda will give nearly Rs. 12 as the maximum Rent per Cawney - I would suggest therefore that Rs. 12 should be fixed as the maximum Assessment for single Crop land & Rupees 18 for double Crop land all higher Rates being reduced to these levels & proportionate Remissions granted for all lower Rates finishing with Rs. 2 as the lowest Rate for single

13484

Fort St George 17th August 1858.

Single Crop and Rs. 3 for double Crop land - The subjoined Table will give the Per Centages of Remission I would recommend -

		Double Crop cast		Remission
Assessments varying from 15 per Cawney to 18 Rupees				20 Per Cent
Do.	10½	to 15	"	15 Do.
Do.	7½	to 10½	"	10 Do.
Do.	3	to 7½	"	5 Do.
		Single Crop cast		
Do.	10	to 12	"	20 Do.
Do.	7	to 10	"	15 Do.
Do.	5	to 7	"	10 Do.
Do.	2	to 5	"	5 Do.

These per Centages of Remissions which are far short of those recently sanctioned and likewise carried out in the infinitely more highly favored District of North Arcot would give for the 443 Villages of Mrs. Smalley's Settlement a probable present Cut only temporary diminution of Revenue of Rupees 9396 and for the Remainder of the District on a rough Calculation about Rs. 80000 or at the rate of 11½ per Cent only when practicably carried out Reference would

Average Remissions Being is about Rupees 7,16,000

Remissions at 11½ per Cent } 80,000

13484 Fort St George 17th August 1858

would of course have to be made to the principles of the different settlements and the proportions of Government and Ryot to shares that are found to prevail in them & the final result would in all probability fall short of the sum I have supposed it might possibly reach -

43 If the Board will be good enough to refer to statement No 11 they will see the Percentages of waste to the Cultivated land in every Class of Mr Smalley's settlement A glance at the Percentages will shew that the higher assessed lands are not more thrown out of Cultivation than the lower assessed which can only be accounted for by their more favorable positions & greater abundance of water The inference must therefore necessarily follow that with reference to their actual Capabilities all the Classes are in their respective degrees over assessed and that in consequence they all need reduction

And this

13484 Fort St George 17th August 1858

44 Another proposal that would simplify Mr Smalley's settlement and at the same time very little affect the calculations that have been made of diminished Revenue whether the Remissions to be allowed are 21 or 11½ per cent would be the alteration of his 70 Classes of Single Crop and 68 of Double Crop land into 27 & 32 Classes respectively by omitting the fractions & graduating the Classes by half Rupees - A practical Reform of this description was advocated by my Predecessor in his letter of the 27th January 1855 apparently with reference to the Board's Proceedings of the 31st August preceding - If allowed the Classes would in future stand as follows -

under the first proposal of affording Relief 21 Per Cent -			under the second proposal affording Relief 11½ per Cent	
	Double Crop	Single Crop	Double Crop	Single Crop
Class	assessment	assessment	assessment	assessment

13484

Fort St. George 17th August 1858

45 I have said in Para 20 that 30 Per cent of Rs 3 Smalleys survey Beriz was lying waste and that the fact of its being waste while at the same time other lands had been reclaimed and assessed at lower rates showed that his assessment must be higher than the people could well afford to pay Besides the general reduction of Rs 3 Smalley's assessments which I have elsewhere explained, I would here beg to advocate a change in some of the Classifications of his lands & a removal from their position among Nunjah lands to Punjah lands a third examination into Rs 3 Smalleys Valley has shewn that in many places lands have been entered and classified as Nunjah merely because Nunjah Crops had been raised on them at some time or other previous to his survey field assessment but which had no stain supply of water to continue the Crops of Nunjah Crops & that they have in consequence fallen out of Cultivation and became waste - For such lands it

13484

Fort St. George 17th August 1858

is useless to continue entering them as Nunjah with Nunjah assessments as the very fact of their Nunjah assessments coupled with their certain deficiency of water prevents their being Cultivated while if they were classed as Punjah and assessed as such they would probably never cease to be occupied. I beg to recommend that such lands where found to have lain waste may be altered from Nunjah to Punjah. The charge will be a reduction in the assessment but an increase in the Revenue and necessarily be beneficial to the Cultivators.

46. I would also beg to recommend the abolition of Manavary Punjah and its incorporation with Punjah where necessary. These lands have in many instances no permanent supplies of water and depend on the falling rains alone; it is their position alone in the bed of a Tank or at the foot of a hill that has caused their being classed as Punjah but with an uncertain supply of water the classification seems very frequently to have been faulty and its abolition advisable similarly with the former proposal an increase of

of Revenue cannot but be the consequence. In the Nayer Taloks particularly there are whole Villages[x] classed as Manavary Nunjah that have no supplies of water beyond what they receive from the falling rains. When these Manavary lands have been annually Cultivated their Classification may of Course be allowed to remain as having stood the test of time but when such is not the case and the lands have remained waste, whether in the Nayer Taloks or elsewhere rectification seems to be advisable not only for the sake of the Revenue but the prosperity of the Villages Community who would be largely benefitted by the additional land opened out to them for Cultivation.

[x] 25 Villages Containing upwards of Cawnies 9000 or 1/9 of the Nunjah Ayacut of the Taloks.

47. Before Concluding this Report it is necessary for me to Apologise for the late period of its transmission this has been partly owing to the intricacy of some of the accounts to be prepared especially No. 11—15. and a few others and the necessity of getting the information from more Taloks than one owing to Mr. Lovalley's Villages

13484 Fort St. George 17th August 1858

Villages originally in one Talook having by changes of boundaries been subsequently devided among three. as also that the whole has been the work of my Nail Sheristadar and his Establishment with the aid of a Gomastah only from the Head Sheristadar while their other duties have been performed by them without intermission from the Commencement of their enquiries up to their end.—

48. I beg particularly to bring my Nail Sheristadar Vurda Charlu to the Boards favorable notice in the enquiry which could not have been conducted as it has been without his assiduous attention and lengthened experience of the District and thorough knowledge also of its English and other Records Unless all these qualities has been possessed by him an increased Establishment would have been

Survey Beriz	979331	2	9	20359	4	6						
Decrease of the average Beriz below the Survey Beriz	167011	14	5	5220	9	2						
Percentage of Decrease	17			25¾								

This is exclusive of Small Farms and Licenses

Of this the average Runjah Beriz may be calculated in round numbers at 7,14,000 Rs, for which the proposed remission at 21 per cent would amount on a rough calculation to 1½ lac of Rupees.

The average has not been struck because the several Berizes are not for one and the same number of Villages

Note

Mr Tweedy fixed his Sheigal Beriz for 625 Villages subsequently 30 Villages were transferred to South and North Arcot-1 Village was leased out on Perpetual rents and another granted as a Sajhire. The Fusly was Beriz excludes therefore the Beriz of these 32 Villages, while the Sheigal Beriz includes it. The Sheigal Beriz of these 32 Villages has not been ascertained, as it is not of so much consequence as to affect materially the comparison between the Sheigal Beriz and the Fuslywar Beriz. In the same manner Mr Maclean fixed his Sheigal Beriz for 756 Villages subsequently 14 Villages which had been Shrotriem & Jaury Zemin Villages, lapsed to Government. The Fuslywar Beriz includes these 14 Villages while the Sheigal Beriz excludes it. The unequal comparison is of no great consequence for the reason above assigned.

I Chaigal Beriz of these 32 Villages has not been ascertained, as it is not of so much consequence as to affect materially the comparison between the Sheigal Beriz and the Fusly war Beriz. In the same manner Mr. Maclean fixed his Sheigal Beriz for 756 Villages subsequently, 14 Villages which had been Shrotriem & Saury Zemin Villages, lapsed to Government. The Fusly war Beriz includes these 14 Villages while the Sheigal Beriz excludes it. The unequal comparison is of no great consequence for the reason above assigned.

J. D. Sim Esquire
Secretary to the
Board of Revenue

Sir,

With reference to the Board's Endorsement on Petition No. 1873 of 1858 from Kristnapp late Tahsildar of Coimbatore, I beg to refer them to Mr. Thomas's letter of the 10th April No. 60 and to mine of the 22nd May 1858 No. 88 from which it will appear that independent of Kristnappas entire unfitness for duty from severe and hopeless illness. Mr. Thomas entertained a bad opinion of him in consequence of a supposed deficiency in the Treasury of the Coimbatore Talook when Kristnapp had charge of it. This was however made up previous to the new Tahsildars resuming charge of the Treasury, and the case therefore was not susceptible of being brought to formal enquiry.

Sir

I have the honor to report for the information of the Board that an application has been made to me by Rutnala Naidoo requesting me in obedience to a decree of the Supreme Court dated 24th March 1857. to register the 2 Proprietary Estates of Peddola Toongom & Chinna Toongom in his wife's name and he has produced a copy of the decree which I annex.-

2. The Board will observe that this is a translation between a man and his wife and the object is to defraud the son and next heir who living up here, declares he knew nothing of the suit in Madras and prays me not to register the estates in his step mother's name.-

3. I fear I have no option, but to obey the decree of the Supreme Court tho' I.

From the Asst Collector of Ganjam

Sir,

I have the honor to report for the information of the Board that an application has been made to me by Rutnala Naidoo requesting me in obedience to a decree of the Supreme Court dated 24th March 1857 to register the 2 Proprietary Estates of Peddla Soongom & Chinna Soongom in his wifes name & he has produced a copy of the decree which I annex.-

2.- The Board will observe that this is a translation between a man and his wife and the object is to defraud the son and next heir who living up here, declares he knew nothing of the suit in Madras and prays me not to register the estates in his step mothers name.-

3. I fear I have no option, but to obey the decree of the Supreme Court tho' I.

Fort St George 18th August 1858

I question its jurisdiction as well as its Judgement in the present instance but perhaps the Board will favor me with their opinion on the course to be pursued.

Ganjam District —
Collector's Office
Chatterpore 5th August 1858.

/Signed/ T. I. Knox
Acting Collector.

BE No 3088.

From the Collector of Rajahmundry

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue of the 30th July 1857 forwarding Extract Minutes of Consultation of the 8th Idem calling for certain information regarding Act III of 1857, and the levy of fines on trespassing cattle by the Zemindars and Proprietors.

2. I much regret the great delay which has taken places in my replying to this reference, but there has been very great difficulty in

13499.

Fort St George 18th August 1858

in ascertaining whether any such items were included in the assets on which the permanent settlement was fixed. It seems that certain sums were included under the head of "Fines" on various accounts but nothing has been found in the records, after long and careful search, to show that fines for cattle trespassing were included under the head and therefore no necessity exists for considering the subject of compensation.

3. A notice has been issued forbidding the levy by Zemindars and Proprietors of any such fines.

4. There do not appear to me to be any grounds for exempting any of the Estates in this District from the operation of the Act under reference.

Ruzeenamah presented by Thee
Teroomala Dhurmachanloo Iyavaru ma
father and Guardian of Venkata Thee
Chanloo Iyavaru Minor and adopted s
of the late Teroomala Venkatadhurma
Croostnamachanloo Iyavaru Pauper Pla
and by Alumalummah widow of the
late Thesmut Teroomala Sashavatarum
Singara Chanloo Iyavan Defendant in
Suit No 17 of 1847 on the file of Iyav
Court.

Alevaylummah Ammanavaru
widow of the late Defendant states as
follows

follows.-

Venkatadamma croostnamachanloo Iyavaru
who was the adopted son of my father
in law - Venkatastreenemma Chanloo Iyavaru
and Sashavatarum Singanachanloo Iyavaru
who was his legitimate son and my husband
divided in equal shares the lands appert
taining to the Arudanum of Pentapaud
which were acquired by your ancestors
retaining Jointly the Agrahaarums of
Condooroo Gandapoody and Venkatraja
pooram and the Enam Lands situated
in Padamlah and Moodoonooroo they were
in the habit of dividing and enjoying in
equal shares the profits derived therefrom
My husband having instituted a Suit in Sa 1644
of 1833 in the late Zillah Court of Rajah
mundry against Venkatadamma croostnamma
chanloo that Court passed a decision in it
entitling my husband named Sashavatarum
Singanachanloo

Singara Chanlos Iyavaar to the whole of the Estate the adoptive father of the Minor having appealed to the late Provincial Court in No 9 of 1835 Tayemmah the adoptive Mother and Guardian of the Minor and my husband filed a Rauzeenamah thereto and this Suit having been instituted with reference thereto the Plaintiff and Defendant entered into certain Conditions in the presence of Mediators and have satisfied the Plaintiff as follows.. 1st that a half share of the lands &c in the Village of Dentapaud which were hitherto enjoyed according to the lists of the respective shares filed by Appellant in No 9 of 1835 in the Original Record should be divided accordingly that the lands situated in the Agrahanums of Condooroo Gandapoody and Venkatrayapoorum and the Enams lands situated in Podala and Moodoonoor should be held under our joint management and the profits &c thereof under the several head

head should be divided into two equal shares and that the Gardens and dwelling places in the aforementioned Villages which were lately under the enjoyment of Venkatadarmacroostnama Chanlos, should be enjoyed by Vencatastreenevasa Chanloo his adopted son from generation to generation and that my husband's share should be enjoyed by me accordingly and we both parties have now settled, that besides the terms thus entered into by us all the claims in other respects that were made in the Complaint the Supplemental Complaint and in all the pleadings filed on behalf of both parties should be annulled.

That the Agrahanums of
2. Condooroo Gandapoody and Venkatrayapoorum and the Enams of Moodoonoor and Podalah should be divided into two equal shares whereunto I or the said

Fort St. George 18th August 1858.

Said Minor Thuremenassa Charloo should wish it to be done that when such a division may be made if any obstruction is offered the Court should admit all the requests of the person who may have solicited the division and accordingly by means of a warrant cause the lands of Pentapaud Agrahaarum that have hitherto divided agreeably to the lists of the lands of the other Villages that may be held jointly to be divided equally and made over to that party. That if on enjoyment of the half share of the land situated in the Agrahaarums of Pentapaud Condooroo Gundapoody and Senkattagapooram and in the Mannimums of Moodal and Padaulah which were held by my late husband on my transferring my right thereto a Boy who may be selected by me from my Kinsmen pass adoption according to the authority vested in me by

Fort St. George 18th August 1858.

by a will left by my late husband or failing in it to my bestowing the said property to a Dowhettuvadas Grandson by her daughter / be approved either by the Minors Guardian or by the Minor himself or by the Minors heir all applications that may be made either by me or by my heirs to your Court should be admitted and the same enforced by means of a warrant to prevent any obstructions on their part That if I or my heirs or Grand children offers any obstacles to the enjoyment of the half shares either by the Minor Senkata Thuremenassa Charloo or by his heirs the Court should on their application inforce the same and we both parties have agreed to the foregoing effect.-

As we have settled three

3

mediators that a sum of one hundred and

twenty

Fort St. George 18th August 1858

twenty Rupees should be paid annually during her life to my mother in law Chengamah, I have agreed to give her 1st except the Mirasi Venkatasheeven Chanlao's share a suitable portion of my share of sixty six Rupees and half out of the lands in Pandaspoolam which usually yields an annual Cist of one hundred and thirty three Rupees as is obvious from the Village accounts upto the year Sowmeyah 1849 gradually my share of Rupees 28 Twenty eight besides the half share of Venkatashee vasse Chanlao out of the land of Anna Chavavoo the Cist of which is fifty one Rupees gradually my half share out of the division of Sattanagrantai which yields a Cist of five Rupees 4aly the land which yields a Cist of 9 Rupees which is

Fort St. George 18th August 1858

is under the cultivation of Arelum Selly Annie selly and which appertains to Cottakana 5th my share of the division of the produce raised in the land of the Tank called Manuum Chavavoo which is under the cultivation Lemanah Venkanah which is Twelve 12 Rupees making in all lands yielding an annual Cist of one hundred and Twenty Rupees appertaining to my share of the Agraharums of Pentapaud. Further I have settled and satisfied my Mother in law Chengamah that she should pass thro the Southern door way of one of my dwelling places which has been selected for her residence during her life that I should pass thro the Northern doorway and that I should open a door way into the yard

in

Fort St. George 18th August 1858

in which a well is situated to enable her to draw water.

4. That in the event of the reservation of the lands of Annachenoovoo and Cottah Canah out of the foregoing lands not having been as yet arranged for cultivation I should pay from my property a sum of Three Rupees being the Cist thereon for the Current year..

5- That the Minor should discharge all the Loans that were contracted by his natural father Vencatasreenevasa Chanloo on his account without reference to me that I and my heirs should discharge all the Loans that were Contracted by myself or my husband without reference to the Minor and were both parties have agreed and settled that we should have nothing to do with the property and debts of one another from this day

6 Durmachanloo Tyavaru guardian of

Fort St George 18th August 1858

of the Plaintiff Vencatasreenevasa Chanloo states as follows I have also agreed to all the conditions above stated by Aleevalummah widow of the late Defendant we have settled that if the said Aleevalummah or her heirs or her Grandsons by her daughters side should throw obstacles in the enjoyment of the share of Vencatadumma croostanna Chanloo adoptive father of the Minor / or by his adopted son Vencata Nreenevasa Chanloo from generation to generation the Court should prevent the obstacles by means of an injunction that the Minor alone should discharge the Loans that were contracted by the said Vencatadumma croostanna Chanloo that the Stamp duty and Pleaders fees for Court charges that have been incurred by the parties in this Court in the said Suit should be paid by them respectively..

I have also agreed that in the event of Aleevalummah the widow of the late Defendant

Defendant selecting a Boy from her kins
and receiving him in adoption and if
does not take place but she endows her
own one of her Grandsons by her daugh
side the same should continue in
enjoyment of that Land from posterity
to posterity That besides the sum of
hundred and Twenty Rupees that may
paid by the said Aleevalummah for the
support of the said Chengummah for
the dry land from the division on
western side which yields an annual
Cist of Thirty Rupees from the minor
share should be given to her and that
after her death each persons lands are
to revert to them respectively - As have al
agreed to these and all the other terms en
into by Aleevalummah we both parties
freely agree that if any of the parties shou
ever throw any impediment the Court should
a warrant enforce the said Terms - Fur
we have agreed that in the ment of the
vation of the lands appertaining to
Chencovoo and Cottakara which are given to

be given to Chengummah for her
maintenance not being as yet arranged
for cultivation the sum of thirty seven
Rupees which the said Aleevalummah
has agreed to in the 4th Para shall be
paid by her to Chengummah on the 30th
Decreasing moon of Maughum of the
year Sadaranah 12th March 1831 that
Chengummah should pay the Cummum
privileges on the lands yielding one
hundred and Twenty Rupees which were
settled towards her support.

We both parties pray that your
Court should admit all the foregoing conditions
and pass a Decree accordingly.

No 129

To J D Sim Esqre
Secretary to the
Board of Revenue
Fort St George.

Sir

I have the honor to report
on the Petition No 4030 of 1857 addressed
by Rungaparnaidoo and others of Indoo
coorpettah in this District to the Board
of Revenue and bearing their Endorse
ment.

2. The facts of the case are briefly
these - One Singarachariar of Stonehouse
pettah Nellore a stranger, but who had
previously taken up some land in the
Village of Indoocoorpettah, presented
a Dunkhast for 28 Goortoos of land
in the Village of Indoocoorpettah
in the Nellore Talook - The land in
which the proposal was made measures
upwards of 92 Goortoos, and excluding
fractions, consists of 30 Goortoos of Dry
land 18 of wet, 2 of Garden, and 41 of
Pasture

Re No 3297
From the Collector of Nellore

Goortoos
25 for wet cultivation
3 for Dry

for

Pasture land unclassified - The whole of the Dry and 10 Goortoos of the Wet being under the occupation of Ryots, there remained 2 Goortoos of Wet, and 41 Goortoos of pasture available.

3 It is contended however by the Ryots of the Village, that the greater part of the land the Dunkhastdar applied for is in their occupation, and though from the Dry land having been held on full assist for pasture, and being therefore undistinguishable from the waste around, this is rather difficult to determine, there appears to be no reason to doubt that such is the case - The remainder of the land proposed the Ryots stated was their Poollary waste.

4. I consider that under such circumstances if there be a doubt the Ryots of the Village should have the first choice - They have been for many years praying for a certain extent of

of lands, not well defined as to exact boundaries, but included in a certain Goodcaut, and from this fact, as well as from the land being in their Village, they should I think be allowed to retain what they want in preference to its being taken up by a stranger, and this latter argument will apply also to the Poollary waste not held in Puram assessment.

5 Captain Rutherdom an Executive Officer of the Public Works Department inspected the place at the request of the Dunkastdar, and reported that the lands appear to have been formerly under Wet cultivation, and that they can be irrigated: the Ryots of the Village however offered to bring them under Wet cultivation, if water were supplied. Part of the land they state was so cultivated formerly, but it was discontinued owing to the water, which was obtained from the channel of another Village, having

Pasture land unclassified - The whole of the Dry and 10 Goortoas of the Wet being under the occupation of Ryots, there remained 2 Goortoas of Wet, and 41 Goortoas of pasture available.

3 It is contended however by the Ryots of the Village, that the greater part of the land the Dunkhastdar applied for is in their occupation, and though from the Dry land having been held on full assist for pasture, and being therefore undistinguishable from the waste ground, this is rather difficult to determine, there appears to be no reason to doubt that such is the case - The remainder of the land proposed the Ryots stated was their Poolleary waste.

4. I consider that under such circumstances if there be a doubt the Ryots of the Village should have the first choice - They have been for many years praying for a certain exclusion of

of lands, not well defined as to exact boundaries, but included in a certain Goodcut, and from this fact, as well as from the land being in their Village, they should I think be allowed to retain what they want in preference to its being taken up by a stranger, and this latter argument will apply also to the Poolleary waste not held in Turrum assessment.

5. Captain Rotherdam an Executive Officer of the Public Works Department inspected the place at the request of the Dunkastdar, and reported that the lands appear to have been formerly under Wet cultivation, and that they can be irrigated; the Ryots of the Village however offered to bring them under Wet cultivation, if water were supplied. Part of the land they state was so cultivated formerly, but it was discontinued owing to the water, which was obtained from the channel of another Village, having

Fort St George 18th August 1858

having been refused.-

6 Mr Taylor the late acting Collector ordered the lands to be made over to the Durkhastdars on the grounds that the Ryots had failed to cultivate any of it and having received a remission in the Poolleay at the Summabandy assessment of pasture could not with justice be urged. A Copy of his order is enclosed

Nellore Collectors Office 23d July 1858

/ signed / J. B. Elton
Collector.

No 1.

To Jaganmadoo Row.

Tahsildar of Nellore.

The acting Collector has received your Urzee No 229 dated 22d December 1858 together with its enclosures - Singaracharlo tendered a durkhast for cultivating 3 Goortoos of Dry land and 25 Goortoos of 1st class Wet land amounting in total to 28 Goortoos in the Linjapalem subject to Indooscurpettah - From your Urzee No 112 it appears that the whole land was from time immemorial entered in the Dittum

Fort St George 18th August 1858

Dittum as mettah / Dry land / and that the Ryots have been praying dry suit that in Fusly 1231 when the lands were under Unmany 2 Goortoos of the said land was cultivated with magany with the assistance of rain water, that no hedge &c was properly formed, that the said Ryots offer to raise Nunjah cultivation on the said land provided irrigation from Channel is allowed, that the land No 12 and certain other lands were held by the Ryots from time immemorial as pasture and poollery waste, and that they continue to graze their cattle on the said land, that there are no lands which were not in the holding of the Ryots, that there is no sufficient pasturage and poollery waste for 297-5-9. Goortoos of land From your Urzee of 229 it appears that out of 95-7 Goortoos of land attached to Loguspa Hundred, deducting the lands excepted there remains 34-0 of which 2-10 is only available for pasturage, that

that the lands are not classified, that the Ryots cultivating the lands of this Village and paying Poolley of 24 Ps for 5-2 Goortoos of land prepared for magany cultivation are included in Dry and not in the Magany, that during the days of Kunnum magany cultivation having been raised for one year, and the Ryots of Pillaipoody having obstructed the irigation the Ryots presented a Petition stating that if the irigation is allowed them from the Pillaipody Channel, they will cultivate the land and pay teerwajady to the Circar- From the Uzeez of the Durkastator and the Plan and from the reply of Captain Ritherdon, it appears that the Durkhast land in Lingapollum Cundrega No 11 was formerly under Wet cultivation that there were irrigating channels for the same but the lands were subsequently left waste and cattles were grazed on it From the accounts kept by the curnum Ramaspadrupaiah it appears that

that the lands in the holding of the Ryots is 29 and odd Goortoos - land exempted 4 Goortoos - and for pasturage 41. making a total of 74 is waste, and the accounts do not clearly show the exact position of the Dittum lands. While it appears from the account of the Curnum that the 20 Goortoos of Dry land belonging to Ramaspah Naidoo and Kistna Reddy is lying waste, it does not seem correct to say that the 28 Goortoos of land applied for by Singala chary is included in the Dittums of the said parties. It also appears that in Fusly 1264 the said Singalachary tendered a Durkhast for a portion of the said land and after it has been accepted, the said parties objected to it on the pleas that it is included in their Magany Dittums

Fort St George 18th August 1858.

Dittum land and offered to cultivate themselves, but without doing so they let it waste and grazed their cattle on it. With reference to the Statement that there is a deficiency for the pasturage in the Village, an enquiry was made during the Summabundy and a sum of 100 Rupees was remitted in the Poollary case - If any offer to cultivate lands, the Ryots, then come forward asserting that the lands belongs to them and that they will cultivate it and afterwards leave it uncultivated and get their cattle to graze on it as they please, and therefore the present prayer of the Ryots to make it over for cultivation cannot be admitted. If they were desirous of cultivating it they would have cultivated it before

Fort St George 18th August 1858.

this, but they failed to do so. On the receipt of this order, you should make over to the said Singaracharry 28 Gorlaes of land Viz. 3 dry and 25 Wet as per his darkhast and to allow him to irrigate it from such channels as are available and carry on cultivation.

Board of Revenue
Fort St. George.

Rd. No. 3682.

From the Collr. South Arcot...

Sir,

In accordance with the order
of the Board conveyed in para 4 of their Pro:
:ceedings of the 15th July 1858. I have the honor
to submit my opinion regarding the effective
protection of the Huzoor and Talook Trea:
:suries in this District.

2. I have as directed, consulted the
District Engineer on the subject, and his pro:
:fessional view of the defenceless state of the
present Cutcherry buildings accords en:
:tirely with my own first with respect to
the Talook treasuries, which as the Board
are aware are all contained in the Talook
Cutcherries. Captain Ford states that
scarcely one of the latter is a strong build:
:ing or in good state of repair. Indeed when

called

Fort St. George 18th August 1858.

called upon to estimate for the repa
of several of them - Sept. those at Villap
puram Chittumbaram Gellavanasur &c
he pronounced them unworthy of exten
sive repairs and recommended that t
should be replaced by new ones. All t
Cutcherries moreover are badly situa
being in the midst of the Towns with hou
close up to them on all sides. New stand
plans for Talook Cutcherries have lat
been received from the Central Offic
and sent to me for inspection by the
District Engineer. They are, as Captn
Goad remarks, a very great improvemen
on the old plans both as regards accom
modation and Capability of defence and
nothing better could be desired in this
part of the Country. The new Cutcherrie
should invariably be built outside
the Town and in the middle of an
open space of compound.

I

Fort St. George 18th August 1858.

3. I would recommend that these precautions be adopted and new Talook Cutcherries be constructed on the improved plan plan - whenever it may be thought desirable in an economical point of view to place the present buildings by an entirely new structure. Mean while there need be little apprehension so far as this District is concerned on the score of the insecurity of the present Talook treasuries. The Collections come in from the Villages quite at the close of the month and are almost immediately remitted to the Hoozoor so that large sums are rarely, if ever, kept in the Talooks beyond a day or two.

4. With respect to the Hoozoor Treasury which contains occasionally as much as 8 or 10 Lacs and which is situated in one of the wings of the buildings, now

Fort St. George 18th August 1858.

now used as a Cutcherry and formerly
the Cadets Quarters. the District
:gineer remarks that its position is not
at all a good one, and the two ranges of
building being a considerable distance
from each other are not well calcu
for defence. He considers that the
:vernment House being a strong bui
would be at present the safest depôt
Treasure at Cuddalore but adds tha
in the event of increased accommodati
being at any time required in the Hosp
Cutcherry it might be obtained by bui
:ing rooms at right angles to each end
the extremities and having upper stories
Cutcherry would then be rendered mu
more capable of defence.

5. I agree with Captain Fo
that in the event of our being reduced t
defencible position, the Government Ho

Fort St George 18th August 1858

should be the buildings chosen but c
considerable alteration and perhaps
isolation from the exciting out houses
and the removal of some houses in
Mungacoopum would be necessary
to put it in a effective State of defence
The District Engineers proposition
to erect an upper storied building
on

13571

Fort St George 18th August 1838

at the extremity of the wing in which
the Treasury is situated seems deserving
of adoption if it be considered necessary
to insure a more effectual protection of
the Treasury against Sudden attempts
than that which now exists.

South Arcot

3d No 3676
From the Acting Collector
of Madura ....

Sir,

I have the honor to inform
the Board with reference to their Circular of the
19th ultimo No 2675 that all lapses of Enams
are reported to the Collector for orders mentioning
being made at the time of any former decisions
pertinent thereto.-

2 They are then disposed of in this
office on their merits after examination
according to the rules in force.

3 I consider the present system with the
contingency of punishment to the Village officers
who neglect to report them sufficient to secure
the Government demand upon Enams that have
lapsed thro the demise of life holders.

4 Very few lapses of this nature have
occured since the promulgation of the rules of 1848

of the manufacture safe keeping and
Sale of salt consistently with the views
of the Board and without subjecting Govern
ment to any outlay in addition to the
Amount now expended on account of
the establishments maintained at the
several pans at present existing it would
seem to be desirable to suppress the Cotta
named in the Margin and to abolish the
office of Peishcar together with his Gro
mastah and two Peons as now Constituted.

With reference to para 19
3 of the Proceedings of the Board of Revenue
it appears to me advisable to re establish
the Cottaum at Trichendoor.

By the arrangement specified
4 in the foregoing para (2) an Amount
of Rupees 454 - 12 - - will become avail
able for the employment of five superintenden
instead

Fort St George 18th August 1838

(instead of the Chowkeedars) who are to be
at their respective Cottars receiving

B. No. 3686

From the Actg. Collector of Coimbatore ... } Sir

With reference to the Board's Circular of the 17th Ultimo No. 2

I have the honor to forward a Statement shewing the operations of the Printing Press this Collectorate in 1857/58 prepared in the form prescribed in Extract Minutes of Consultation of the 6th idem No. 927 Revenue Department.

2. The press and Types belonging to this Office were supplied by the Board of Revenue and the Superintendent of Gazette Press and their value (yet not communicated to this Office) now adjusted in my accounts and I am therefore unable to fill up the Column intended to shew value of stock I would however request that it may be ascertained from the records of the Board Office and from the Superintendent of Gazette Press

Fort St. George 18th August 1858.

3 A sum of 119—11—10 has been charged in the accounts of this Office for printing and building apparatus which I beg may be added to the value of the Press and Types to be ascertained by the Board.

4. Under the Column Receipts from fines and other sources "a sum of Rupees 264—1—10 is exhibited. This consists of two items Viz. Rupees 161—9—0 the amount of subscriptions recovered for the District Gazettes and Rupees 102—8—10 the amount paid from Government Treasury for Contingent charges of the Printing Department as detailed in my annual Account current for 1857/58.

5 As directed in para 2 of the Circular under reply a Column has been added to shew the entire work done during the year 1857/58

6. The Amount of nominal debit and credit shown in my Account Current for Gazettes supplied to different public Officers is not included in the Statement now sent

Sir

I have the honor to forward the reports upon the accidental condition of the Travellers Bungalows in this District for the Official year 1857/58.-

The delay in the transmission of this Report has been owing to the accounts from some of the Talooks having been received as late as the 2nd instant notwithstanding my repeated calls for them. In order to ensure punctuality for the future I have issued a Circular strictly enjoining the Tahsildars to submit them reports punctually by the 5th of the month succeeding that on which the official year expires.

I have &c

3. It will be observed from Column 4. of the report that the number of Travellers that visited the Travellers Bungalows at Matoopollium is only 51 this has been deducted from the Bungalow signed by Travellers and cannot be taken as an approximation to the actual numbers of persons that visited the Bungalow in as much as the Cutwall of Matoopollium reports that many who halted at the Bungalalow did not sign their names in the Book.

4. My conviction from personal observation is that the Bungalow at Matoopollium is frequented at the average of [illegible] parties

Fort St. George 18th August 1858

parties per diem and gives accommodation to a larger number of Travellers than any other Bungalow in the District I have now given strict orders that all Travellers halting in it and elsewhere should invariably sign their names in the Bungalow Book. The Bungalow Book however is no test of the number of Travellers stopping there.

2 The causes which have led to a larger expenditure in the Magisterial Depart-
ment are attributable to a considerable increase
in the amount of business transacted in that
Department within the last few years as compared
to what it was in former years but on the
other hand it may be observed that the increased
expenditure in this branch is more than
Counterbalanced by a Decrease in the Revenue
branch of the Department. Both duties, as the
Board is aware are conducted by the same
Officer, and in the same Office and it
is therefore obvious, that the classifica-
tion can at best be only assumed,
and can hardly be taken as a cor-
rect representation of the actual ex-
penditure under each Department.

3 Viewing therefore the subject as

as it affects the whole District it will
be observed, that although the expen-
diture has not exceeded the sanc-
tioned amount in regard quan-
tity the value is slightly i e Rupees
256 in excess of the amount sanctioned
and Rupees 496 below the amount
of the Revised Estimate.

4 The chief cause of the
increase in the value, is however satis-
factorily accounted for by the sim-
ple fact, that the average prices
of Oil for the Quantity sanctioned
did not exceed 6 annas 11 Pice, where-
as the present price average 7 annas 10-3
per

Fort St George 18th August 1858

per Coolly or fifty per Cent in excess of what it was five years ago..

5 Under the above circum-stances I have the honor to re-quest the Board will be pleased to accord their early Sanction to the actual expenditure under the head of Sadr ward for the Fasly 1267 just expired. Viz.t In the Magis-terial Department Rs - - - - - 1883-11-7

To J. D. Sim Esqr
Secretary to the
Board of Revenue
Fort St George

B.o No: 3683
From the Actg Collector of Malabar - - - } Dated 28th July 1858

Sir

With reference to the Memo noted Marginally I have the honor to re-port on the expenditure of the Local Funds of this District during the Official year just closed..

As the executive of the Public

2 Works has from the 1st May 1857 been made over to the Engineers Department my observa-tions are all based on a Statement of the expenditure of the Funds submitted by the District Engineer.-

On the 1st May 1857 the

3 Balance on hand was Rupees 22,802-11 the receipts from Ferry Rents and tolls in 1857-58- amounted to Rupees 34488-6-2 making a Total of Rupees 57290-7-1- Of this sum Rupees 38566-6-6 were expended leaving a balance for the Current year of 1824-0-7.-

A

Vide Enclosures No: 1 & 2.

Receipts and Disbursements

Expenditure - 4

A reference to the Marginal Statement shews that the expenditure of the Funds during the past season has exceeded that of 1856-57 by Rupees 10869-1 a fact to be attributed to the small amount of expenditure on Public Works which enabled the District Engineer to devote more of his attention to the preparation of estimates from this Funds.-

	Expenditure in		Balance of Estimate on works in Progress	Increase	Decrease
On	1856-57	1857-58.			
Ferries	5096 12 2	16763 8 11	11666 12 9	6394 - -	
Roads	18639 10 11	14966 6 7	3673 4 4	10655 - -	
Canals	3960 8 4	6836 7 -	2875 14 8	3555 - -	
Total	27696 15 5	38566 6 6	- - -	20604 - -	

5 For the completion of the works which have been sanctioned up to the end of 1857-58 a sum of Rupees 20534- is required whereas Rupees 18724 only are in hand so that Rupees 1810 out of the Funds of the Current year will have to be devoted to them completion the reason of this is that the large sum of Rs 10000 has been set a side for tracing a new Ghaut and

and repairing the Roads in the Wynaad Talook.-

Ferries - 6

Under the Head of Ferries the most important works are the three Bridges over the Yellatoor the Kookadakadaroo and the Moorat Rivers. the first work has been completed and other two are expected to be finished in the present year. Sanction has been accorded for the construction of a Bridge over the Mahe River on an Estimate of Rupees 10070 this when carried out will complete the communication between Cannanore and Calicut thereby connecting two of the most important Stations in the District.-

Expenditure	1857/58	upto 1857/58
Yellatoor	2333	11159
Koodakadaroo.	5166	6888
Moorat	4662	5691

* Chief Engineer Dated 2nd July 1858 No 1585-

An Estimate Rs 3953 Expenditure " 2628

1 Estimate Rs - 1226 Expenditure " 1621

7- The Tirooparady Bridge replacing Trunk Road No 5 and the Calicut Coast road in communication and the Shatkadaroo Bridge between Tellecherry and Anjercandy both useful works will it is expected be finished this season.-

In

Fort St George 18th August

Expenditure - 4

A reference to the Margnal Statement shews that the expenditure in On 1856-57 1857-58. Increase Balance of Estimate on works in Progress of the Funds during the season has exceeded that of 1856-57 by Rupees 10664-1 a fact to be attributed to the small amount of expenditure on Public Works which enabled the District Engineer to devote more of his attention to the preparation of estimates from this source of Funds.-

Ferries	5096	12	2	16763	8	11	11666	12	9	6394
Roads	18639	10	11	14966	6	7	3673	4	4	10655
Canals	3960	8	4	6836	7	-	2875	14	8	3555
Total	27696	15	5	38566	6	6				20604

Decrease

5 For the completion of the works which have been sanctioned up to the end of 1857-58 a sum of Rupees 20534- is required whereas Rupees 18734- only are in hand so that Rupees 1810 out of the Funds of the Current year will have to be devoted to them completion the consequence of this is that the large sum of Rupees 10000 has been set a side for tracing a new Ghaut road

Fort St George 18th August 1858

and repairing the Roads in the Wynaad Talook.-

Ferries - 6 Under the Head of Ferries the most important works are the three Bridges over the Yellatoor the Koodakadavoo and the Moorat Rivers the first work has been completed and other two are expected to be finished in the present year- Sanction has been accorded for the construction of a Bridge over the Mahe River on an Estimate of Rupees 10070 this when carried out will complete the communication between Cannanore and Calicut thereby connecting two of the most important Stations in the District.-

Expenditure	1857/58	upto 1857/58
Yellatoor	2333	11159

An Estimate for 3953
Expenditure to 2628

1 Estimate for 1226
Expenditure to 1621

Fort St George 18th August 1858

Roads

8 In the line of road be-
-tween Tellicherry and Cannanore the
Expenditure Rs 2311. Yedcaud Bredge was rebuilt on an Esti-
-mate of Rupees 2106.-

9- The important portion of
the road between Calicut and Beypore
the Railway Termicus a distance of 6 Miles
was metalled and put in thorough rep-
Estimate Rs 5251 at an aggregate cost of Rupees 3857.-

10 On the recommendation of
the District Engineer and my Predecessor
8th August 1857 the Chief Engineer Sanctioned the appropri-
-tion of a Sum of Rupees 10000 for the im-
-provement of the communication in Wynaad
Of this sum Rupees 1539 have been expended
in tracing a new Tamberchetty Ghaut and the
District Engineer states his intention of with-
-ing the trace and otherwise improving the road
-ter the Monsoon is over.-

11 Between Nandoor and Shelo-
Estimate Expenditure
*Rs 1200 -- Rs 1401.
*" -1030 --- " 868.
on the road to the Hoondahs the Kallelo
and Cheriapuza* Bridges have been com-
-pleted and between the former station and
Nugadeporum the Nellecotoo Bridge was
Expenditure Rs 361.- finished on an Estimate of Rs 525.-

Fort St George 18th August 1858

12 The three roads diverging from
Murjetty to Nallapooram Atteacode and Eda-
-wana all within the Moplah district have
been repaired at an aggregate expense of
Estimate Rs 1490. Rupees 1735 and rendered practicable for
Bandy traffic.-

13 The coast line between Poothican
-gaddy and Tintalla has been thoroughly me-
In 1856/57 Rs 660-10-4
" 1857/58 " 709-6-2
Rs 1370-3-6.
-talled at a Total expense of
Rupees 1370-- and the portion
of the Tellecherry and Perambaddy road
In 1856/57 Rs 644-5-11
" 18-57/58 " 836-5-6
Rupees 1480-11-5
between Coottaparamba and Mutta-
-noor has been repaired at a cost
of Rupees 1481.-

14 Over the Keernellore river on
the coast road from Calicut to Mallapooram
In 1856/57 Rs 682----
" 1857/58 " 531-4-7
Rupees 1213-4--
a Bridge was repaired at a total
cost of Rupees 1213---- but the
Engineer states that it has suffered much
damage from the freshes during the last mon-
-soon owing to the faulty construction of the
abutements in the first instance.-

15 The Poolakany Bredge
near Mallapooram the Engineer was obliged to
rebuil

pull down and rebuild at an extra expense
In 1856/57 Rs 284-- of Rs 839- the whole work thus costing
" 1857/58 " 839---
Rs 1123---/ Rupees 1123..

16 The Kadoongachetra and Kakoongaltodoo Bridges- the former between Calicut and Mallapoorum and the latter near Munjeery were repaired on Estimates of
Expenditure Rs 213 + Rupees 278 + & 204 + respectively..
---"------ 65 +

17 At Cochin and many other parts of the District small outlays on the roads were made, but they do not call for any special mention..

Canals- 18 The largest outlay under this Head was made on the Calicut Town Canal which connects the Kalai river with the Chief Bazar it is one mile in length was estimated to cost Rupees 10743- in the first two seasons Rupees 2569 and in the last Rupees 5141 have been expended on it and it is considered to be nearly completed- as to its future utility there can be but one opinion and a light toll ought to bring in a fair Revenue..

19 Rupees 992 have been expended in deepening the Canal between Chowghaut and

and Ponnany and it is proposed to lay-out a further sum of Rupees 200 per the same purpose between former place and Cheteraie

20 Other minor expenses on account of Canals do not call for remark.

21 I beg to enclose a list of the principal works on which it is proposed to appropriate the Local Funds for the current year. An Estimate for a Truss Bridge at Tetrohe on the most important line communication between the two Military posts of Calicut and Mallapoorum has been submitted to the Chief Engineer for sanction that for the Mahé Bridge has already been sanctioned and the necessity for rebuilding the Tyolly Lock Gate has likewise been reported to the chief Engineer- I do not however anticipate that the Expenditure of the current year will exceed the resources of the

Fort St George 18th August 1858

the Local Fund for the same perio

22 Under the circumstanc

of this heavy drain on the Local

Funds for the Current year the L

-sirableness of setting aside a Sm

Sum for the construction of shelte

for native Travellers, as suggested

by any predecessor has for the pre

-sent been deferred until I am en

-bled to acquire a greater knowled

of the District and the requirement

of the various lines of roads, when a

separate report on the subject shall

be afforded.

23 The non receipt of

the District Engineers Statements of

expenditure till the 26th ultimo I regret prevente

Proceedings of the Board of Revenue

Thursday the 19th August 1858

Read the following Papers received from Government and bound in a separate Volume.-

Bs No. 3664 — From the Chief Secretary to Government — Extract from the Minutes of Consultation in the Revenue Department under date the 5th August 1858.-

Reviewing the report of the Forest Conservator of the operations during the past official year and stating that this and the detailed account of his two assistants will be submitted to the Honorable Court.- — See No. 1086 in Separate Volume.

Bs No. 3663 — From the Chief Secretary to Government — Extract from the Minutes of Consultation in the Revenue Department under date the 13th August 1858.-

Considering it desirable that the Appeal against the Decree of the Sudr Court in A S Nos. 103 and 136 of 1857 should be made to Her Majesty in Council and directing the Government Pleader to take the necessary steps.- — See No. 1136 in Separate Volume.

Fort St George 19th August 1858

No 99

To, G. S. Forbes Esqre

Secretary to the

Board of Revenue

Fort St George

Sir

B2 No 3032

From the Actg Collector of Ganjam - - - } Para 1. Adverting to the Extract from the Proceedings of the Board of Rev under date the 17th April last No 1348, I have the honor to inform you that in the fig Statement submitted with my letter bea -ing date the 18th December 1856 No 229 quantity of Salt in Store on the 1st Octo 1858 the date on which it was the Boards desire that the new Standard should come into operation was 445922 Indian Maunds and that the quantity entered a lofs in Column 4 Viz 25083 was a mere Estimate formed on the preceding figu

2. The new Standard came into

Fort St George 19th August 1858

into actual operation in this District in December 1855 when the quantity of Salt in store was 391092 Indian Maunds and the lofs on this quantity at 5 5/8 per Cent was 21998 Indian Maunds the wast -age being 10954 Indian Maunds making an aggregate of 32952 Indian Maunds from which however must be deducted 9782 Indian Maunds the lofs at 5 5/8 per Cent on 174000 Indian Maunds sold by heaps. The arrangement made to give whole sale purchasers the advantage of the new standard was that for every heap they purchased the price was Rupees 1075-5-7 instead of Rupees 1140. This it will appear that in every heap the price of 67 20/40 Indian Maunds or 240 Measals was de -ducted but this instead of being shewn as lofs in the quantity of Salt was accounted for in the money results. Two figured state -ments elucidating the above remarks accompany this.

Fort St George

Sir

From the Collector of Chingleput ... I have the honor to submit my Report on the Settlement of the Land and Extra Sources of Revenue in this District for Fusly 1266 together with the prescribed Statements as per accompanying List A.

Reporting on the settlement of the Land and Extra Sources of Revenue for Fusly 1266.
A D 1856-157

2 The Jummabundy of the Carangooly and Chingleput Taloks forming the charge of the

13592

Fort Saint George 19th August 1856

the Head Assistant Collector was conducted by Mr J B Tod and that of the remaining eight Taloks by myself The places at which the settlement was made, as well as the time it occupied, are entered in statement No 1.

The number of Puttahs distributed is 31356 or 1814 more than in the year before The Increase has arisen from the distribution of separate Puttahs to separate members of the same family where the issue of Joint Puttahs had previously led to constant disputes, and to a greater breadth of land being newly granted on Cowle

3. The number of Villages in the District and the different tenures under which they are held are hereunder particularized.

	Fusly 1265	Fusly 1266	Increase	Decrease
Ryotwar	1653	1654	1	"
Rented for more than one year	9	13	4	"
	"	4	4	"
Rents for one year	21	12	"	9
Amany	316	316	"	"
Shrotriems	360	360	"	"
Zemindary	2	2	"	"
	2,359	2,359	9	9

Fort Saint George 19th August 1858.

There has been no change in the number of Villages though fluctuations have occurred in the mode of their settlement An increase of 1 Village will be found under the Head of Ryotwar and of 8 Villages under Rents for one and more than 1 year and a corresponding diminution under Amany This arises from the Village of Vellapankum which lapsed to Government in Fusly 1265 and which held under Amany in that year, having been brought under Ryotwary and from eight other Villages which were also held under the same tenure having been rented out for one, or more years in consequence of the difficulties and losses attending that mode of management.—

4. The statistical accounts relative to the means of Irrigation Agricultural stock, Rent Roll &c having been furnished to the Board in Fusly 1262 and being Quinquennial Returns, it was at first considered unnecessary to prepare them for the current year, but the requisite forms in which the information should be embodied having been since supplied by Government apparently with

Fort Saint George 19th August 1858.

with the view that they should be furnished with statements for Fusly 1266 and similar Returns being likely to be furnished from other Districts, they have been ordered to be prepared and will be forwarded to the Board as soon as received The Return of Population No 17 also a Quinquennial Return having been however already received is herewith forwarded—

5. The District contains an area of 2993 square miles, with a Population of 603221 souls, of whom a little less than two thirds are believed to be connected with agriculture The number of Houses of all descriptions is 93350 or about 6 souls per house The increase in the population during the last 5 years has been but inconsiderable, owing apparently to a succession of unfavorable years.—

6 On the whole the season of Fusly 1266 was favorable The early part of the year was the least so, as the rains were scanty from April to September, but in October and November there were heavy falls of rain which brought abundance of water into the Tanks and enabled the

Fort Saint George 19th August 1858.

the Ryots to make up for their previous deficiencies The Paulaur, Cheyar and Arnie rivers also came down, and greatly assisted the Tanks and Villages lying under them Later in the season the rains however ceased, and it was not without difficulty that some of the later crops were preserved, while in a few instances they actually perished.-

7. The quantity of rain which fell during the Southwest and Northeast monsoons is entered in the margin which though larger than that which fell in the preceding year, is below the average.-

Southwest Monsoon } Inches
Northeast Monsoon } 209

8. The health of the people was in general good; there were a few cases of Cholera Murrain prevailed more or less among Cattle.-

9. Prices were high but not so high as last year The prices of Paddy in the different Taluks as well as the average for the whole District are exhibited in Statement No. 2 The average price of Paddy it will be observed is Rupees 135 per Garce, or 25 per Cent above the commutation rate The prices of Dry grains were however generally less than the rates at which they were commuted when the survey field assessment was introduced.- Statement

Fort Saint George 19th August 1858.

10. Statement No. 3 exhibits in detail, the cultivation, and settlement of the Pyotwary portion of the District The fluctuations which occurred in the extent of land brought under the plough and the assessment thereon under the different heads of Dry, wet and Garden are shewn at one view in the Comparative Abstract thereto annexed The extent of land brought under cultivation in the last Fusly was Acres 239360 assessed at Rupees 675371 and that in the current Fusly Acres 288842 assessed at Rupees 1025786 The increase is 49482 Acres bearing an assessment of Rupees 150415 and has been consequent on the favorable character of the season, There has also been an Increase of Rupees 26149 under the Head of second crop and Tearwah Fasty or additional assessment on one crop land which with diminished remissions swelled the Land Revenue to Rupees 10338816—10—6

11. The extent of land occupied by the Ryots at the commencement of the Fusly was 239360 Acres assessed at Rupees 675371 but a portion thereof Acres 29425 assessed at Rupees 75415 having been relinquished and 79019 Acres assessed at Rupees 227639 taken

Fort Saint George 17th August 1888.

taken up anew, the total holding became 288954 Acres assessed at Rupees 102,6350-10-1. Deducting from this 112 Acres assessed at Rupees 564-2-5 on account of waste remitted, the remainder is 288842 Acres bearing an assessment of Rupees 102,5786-7-7 of which the actual cultivation was Rupees 102,2458-5-5 and of waste Charged Rupees 3328-2-2 The waste lands assessed with this amount were brought to account as it was proved on enquiry that their cultivation had been wantonly neglected; and was owing to dissensions between Poyaharrils and Meerasidars the latter of whom engaged to cultivate them but omitted doing so under circumstances which did not justify their being relieved from the years demand.-

12. The number of Villages settled last year under Amany was 21 and in the year under report 12 The decrease of 9 Villages has arisen from their having been rented out, as observed in Para 3 for one or more years owing to the great loss experienced last year in that mode of management. The breadth of cultivation in these Villages in the Current Fasly is

Fort Saint George 17th August 1888

is exhibited in enclosure A 6 Statement No. 3.

13. The nature and extent of remissions granted in Fasly 1266 are exhibited in a comparative form in statement No. 4 They are of the usual character, and have been granted under the rules in force. The total amount remitted last year was Rupees 945-61-7-6 and in the current year Rupees 9772-13-7- An Increase of Rupees 17891 will be found against a decrease of Rupees 114741 the net decrease being 96850 which is attributable to the favorable nature of the season.-

14. The amount of remissions granted in Fasly 1265 under the Head of land ploughed but not sown is Rupees 13370-5-11 and that in the Current year Rupees 13030-15-11 The decrease is Rupees 339 and is owing to none of such land having been sown this year.-

15. An Increase of Rupees 749 will be found under the Head of Tala Cimmy, of Rupees 1303 under lands flooded in the beds of the Tanks, Rupees 1261 under cultivation destroyed by Inundation and of Rupees 1716 under

Vathungal

13599

Fort Saint George 19th August 1886

Nathungal on seed Beds which been rendered necessary by the character of the season. The amount remitted last year under the Head of withered and partial Crops was Rupees 12|6|2-14-11 and in the current year Rupees 235-2-9-4 for the first Item, the claims for the latter having been wholly disallowed. The decrease of Rupees 11823 under the Head of Bogaecummy, has been consequent on the increased extent of 2d Crop cultivation. The other Items of remission are of an ordinary character varying with the extent of cultivation

16. The breadth of cultivation which entirely perished from drought and the extent of remissions granted for the same are exhibited in statement No 8. The loss under this head was chiefly in the Nayer Taloks where the lands are dependant on the falling rains the Taloks of Tyda pet Carangooly Chengleput and Ostramaloor also suffered but in a less degree Conjeeveram Poonamally, and Maneemungalum were nearly free from loss

13600

Fort Saint George 1st August 1888

The number of Villages where the loss occurred is 683 or about 29 per Cent of the total number of Villages in the District The number of Ryots to whom indulgence was shewn is 4605 or about 6 per Cent of the entire number The per centage of remissions granted to the assessment of the lands bearing the period-ed crops is 81 and that of the remissions to the settled demand is 10.—

17. Statement No 7 exhibits the extent of lands planted with sugarcane, Cotton and Indigo The Board are aware that the cultivation of these Products in Chingleput has hitherto proved a failure The small quantity of Indigo was further lessened in the present year from the failure of the early rains Last years Acres 7519 assessed at Rupees 1661-3-10 were cultivated In the present year only Acres 5576 assessed at Rupees 1836-9-4—

18. The Items included under the Head of Extra Revenue are detailed in statement No 9 In Fasly 1265, the demand under this head was Rupees 3025-3-3 and in Fasly 1266 it

Fort Saint George 19th August 1858.

it is Rupees 14966-6-2 The increase is Rupees 1611 against a decrease of Rupees 1170 the net result shewing an Increase of Rupees 1494 1 to this branch of Revenue The increase has principally occurred under the Heads of Extra Revenue or amount cultivated after the settlement and the sale Proceeds of Cocoa nuts at Streehurricottah.—

19. The demand under the head of Interest in Fasly 1268 was Rupees 1080-14-— In Fasly 1268 it is Rupees 1330-13-1 The increase of Rupees 648 against a decrease of Rupees 396 arose from the larger amount of Interest charged on arrears of Peishcush due by the defaulting Shrotriemdars.—

20. The extent of lands held on Progressive Cowle and the assessment thereon are entered in Statement No 6 Though the cultivation Beriz is 6188-9-2 yet the larger remissions granted on account of Cowle and waste reduced the amount to Rupees 1661-2-1 which exceeds the amount of the previous year by Rupees 808-5-— The lands held on Permanent Cowle

Fort Saint George 19th August 1858

bourle bear an assessment of Rupees 337-1-9 as shewn by enclosure A 6 the above Statement, and do not vary from the results of the past year.—

21. The general result of the Land Revenue settlement of the current Fasly inclusive of the Permanent Peishcush of Zemindary and Shrotriem Villages as compared with the last one can be gathered from statement No 10 but for facility of reference an abstract is hereunto appended.—

Items	Last Fasly.			Present Fasly.			Increase	Decrease
	Rupees	a	p	Rupees	a	p	Rupees	Rupees
Permanently settled	109778	7	"	109778	7	"	"	"
Shrotriem and Enam Villages	67000	13	10	67000	13	10	"	"
Rents for more than 1 year	2039	5	1	6285	15	"	4247	"
Rents for 1 year.	3404	10	2	6607	5	2	3203	"
Ryotwar	452740	3	8	1033868	10	6	281128	"
Amany or Division or Produce	12330	8	1	5519	14	10	"	6811
	947293	15	2	1229061	2	4	288578	6811

It will be seen from the foregoing that the total land Revenue in the past Fasly was Rupees 947293-15-10 and in the current Fasly Rupees 1229061-2-4 The increase is Rupees

Fort St George 19th August 1858

Rupees 28858 against a decrease of Rupees 688 which is attributable to the beneficial influence of the season The increase was in the Ryotwary portion of the Villages and Rent for one and more than one year

22. The settlement of the Extract sources of Revenue is likewise exhibited in Statement No 10 The subjoined Abstract shews at one view the mutations under the several heads in the past and Current fusly.

Items	Last Fusly			Present Fusly			Increase	Decrease
	Rupees	A	P	Rupees	A	P	Rupees	Rupees
Abkarry	77197	11	6	92650	"	"	15452	"
Motiurpha	31153	8	5	31348	1	1	195	"
Sall	2934450	13	2	2047062	1	5	"	86389
Stamps	16833	"	6	17089	15	6	257	"
	1118635	1	7	1348150	2	"	15904	86389

It will be seen that the decline in the Sall Revenue is Rupees 86389 It has arisen principally in the sales for Home and Inland consumption consequent on the difficulties

Fort St George 19th August 1858

difficulties experienced by the Merchants in procuring fodder for their Cattle at the Pans, and the bad behaviour of the Chunamcoul Peishcar who was removed from his Office as reported to the Board in the correspondence noted in the margin.—

* To the Board 28th March 1854
From do 23d July 1857

23. The Abkarry farm was Rented out for five years in the Current fusly at Rupees 92650 per annum or Rupees 15452 more than in the year before an amount never before realized.—

24. The Increase under the head of Motiurpha and Stamps is too small to call for any special notice.—

25. Combining the land and Extract sources of Revenue the entire aggregate demand of the fusly is Rupees 1596508 that of the previous year being 1370035-2-6 The increase is Rupees 320116 against a decrease of Rupees 93643 the net increase being Rupees 226473.

The

Fort St. George 17 August 1838

26. The average assessment per Acre is Rupees 3–12–2 as is indicated in enclosure B to Statement No. 10.—

27. Statement No 11 shows the demand collection and Balance of all sources of Revenue, Current and arrears for Fusly 1266 Out of the aggregate Land Revenue settlement of Rupees 1229061–2–4 Rupees 1063007–3–5 or 86½ per Cent was collected within the fusly leaving a balance at its close of Rupees 166053. 14–11 or about 13½ per Cent which has been partly reduced / on the 30th Ultimo / to Rupees 62278–2 or 7½ per Cent The balance of Rupees 3736–12–5 against the Zemindars and of Rupees 6909–13–3 against the Shrotriemdars will be adjusted as soon as practicable The balance under the head of Amany will be settled forthwith

28. The Board will not fail to notice that the Ryotwary balance outstanding on the 30th September in the Current year is considerably less than that due at the corresponding period of the year before and would have been still less but for the disastrous effects of previous unfavorable years from which the District is still

Fort St. George 19 August 1838

suffering and to the state of the Law regarding the attachment and sale of real property in the absence of personal measures are however in progress for the realization of the above amount as well as the recoverable portion of the arrears of former years and no endeavours will be spared to reduce the balance to the lowest possible limit.—

29. The abstract entered in the margin in ducate at one view the demand collection and Balance of the Extra Sources of Revenue the balance under the Head of Abkarry is under the consideration of the Board the institution of legal proceedings against Messrs Kennick and Co. having been stayed under their orders conveyed in Extract from their Proceedings No 2322 of the 8th July 1837.

Items	Demand	Collections up to 30th September	Balance on account of Current Revenues	Balance on account of arrears
	Rupees	Rs As	Rs As	Rs As
Abkarry	92650	" " 92650	" "	25288 8 6
Moturpha	31348	1 1 29970 10 7	1377 6 6	" "
Salt	207062	1 5 207062 1 5	" "	" "
Stamps	17089	1 5 6 17089 1 5 6	" "	" "

* Since writing this the orders of the Board have been received on the subject.—

30 The balance of Rupees 7201 under the

Fort St George 19 August 1858

the Head of Extra Revenue will soon be brought to account.—

31 The details of the demand collections and Balance in the Zemindary Villages are set forth in Statement No 12 Of the balance of Rupees 1091—15—1 Rupees 11939—15—11 have since been collected, and the remainder is in course of recovery.—

32. The particulars of old balances are set forth in statement-13 Of the total amount of balance outstanding at the close of the Fusly Viz^t Rupees 127222—5—2. Rupees 2613-3-3 have since been recovered and Rupees 6405-7-4—3 will be realized at the earliest practicable date leaving of the remainder Rupees 3277—1—10 doubtful and Rupees 67274—11—10 irrecoverable The amount entered as doubtful consists mostly of the portion of the partially perished Crops, which were included in the demand, and of which the recovery has proved most vexatious Of the amount entered as irrecoverable Rupees 67521—8—1 were recommended for remission in the letters marginally noted / of which Rupees 97—5—2 have

† Fort St George Nov^r 1855 No 295 Todo Nov^r 1856 No 370

Fort St George 19 August 1858

have since been collected / for which no authority has as yet been granted, and the remainder Rupees 7850—8—11 being considered desperate as being due from deceased absconded and pauper Ryots sanction is requested for writing it off to profit and loss—

33. Subjoined is a comparative statement shewing the demand, collection, and Balance of all sources of Revenue Current, and arrears The collections from all sources of Revenue amounted to Rupees 1705979—2—9 or nearly 88 per cent of the demand being 8 per Cent below than the previous year—

Enclosure

Fort Saint George 19 August 1858

34. Enclosure A to Statement No 13 shews the extent to which coercive process was resorted to. The Estimated value of property attached, both personal and real is Rupees 30769 but the property actually sold amounted only to Rupees 1439 or 4½ per Cent the defaulters in the other instances having liquidated their dues prior to the date of sale.-

35. The particulars of gross Collections and charges under the different branches of Revenue are exhibited in Statement No 14 The Collections amounted to Rupees 1582782—12—10 and the charges to Rupees 191142—14—11 leaving a surplus of Rupees 1391579—13—11 The per centage of charges to receipts is about 12 this year, while it was 15 ⅛ last year.-

36. I beg to add in conclusion that

Fort St George 19 August 1858-

that the Head Assistant No 1 Tod conducts his duties to my satisfaction, that the Head Sheristadar Sham Row has afforded me all the assistance I could wish, and that I return my former favorable opinion of the Nark Sheristadar V. Vurdacharloo

Dated 20th October 1857.

Received the 22nd October 1857.

Answered 23rd October 1857.

Sir,

I have the honor to forward herewith a Statement shewing the Collection for one hundred fluctuating days from the 22nd July to the 22nd ult.

Fort St. George 19th August 1858.

adding that if I asked for a month's leave it would be granted. At that time assuming that my absence did not prejudice the public interests, I was entitled to 3 months "Privilege" leave, and knowing if I did not avail myself of the whole term at once the absentee Rules would not allow of my afterwards claiming the unexpired portion I about the beginning of June applied for additional leave. The Collector of Bellary whom I submitted my application, recommended it to being complied with, provided Mr. Cooper who was acting for me and under orders for Gangam was allowed to remain. Meanwhile however I was apprized by the Private Secretary to the Right Honorable the Governor that I was about to be appointed acting additional Sub. Collector of Bellary and being ordered to join "as expeditiously as possible" I felt it my duty to make all private considerations

Fort St. George 19th August 1858.

cancelled my leave on its way through the Board's Office.

This forfeiture of a large portion (nearly two Months) of my leave by my sudden transfer to Bellary although not altogether agreeable was of no great consequence at the time but as my reasons for deserving to be in Madras at the end of this and the beginning of next Month are most urgent I trust that the Government will under the circumstances regard the break in my leave as having been caused by the necessities of the Public service and that the resumption of my duties in Bellary may not operate to my prejudice by depriving me of the leave I now solicit.

Bellary Additional Sub. Collector's Office. 16th August 1858.

(Signed) L. Forbes
by Addl. Sub. Collr.

Mr. Forbes reasons for applying for leave of absence being so very urgent, I cannot refuse to forward his application notwithstanding Mr. Goldingham's absence

10½ years in India

Summary.

The patient has been out of health for seven months, suffering from Dyspepsia & Hæmorrhoids.

16th July 1858 Mr. Blair who had just arrived from Cumbum, complained of general want of health pain in the stomach after taking food loss of strength and flesh and pain about the anus, on examination I found an external pile about the size of a small bean this I removed ordering.

℞. Tinct Rhei ℈ ij. ℥ X

in two Pills an hour before dinner daily
The bowels to be kept regular with Castor Oil 15th July In the same state complains of great depression of spirits the patient rather anæmic.

℞. Mist Ferri ℈ iij ℥ vj

℥ twice daily.
The patient continued in the same state

13054 Fort St. George 19th August 1858.

State never feeling well and doing his work
with difficulty he took the tonic Medicines
the bowels were kept in a natural condition
by Castor Oil and Rhei Comp. and Hydrar
& Creta The small pill which had been pre
:moved returned in the early part of August
this was again cut off on the morning of 5th
of August the patient complained that he
felt more pain than usual about the anus on
examination I found a large pill on the right
side partly covered by skin partly by mucous
membrane this he tells me gave him a good deal
of trouble about two months ago but disappeared
under the use of Astringent Cotions and rest.
I find on enquiry that Mr Blair has been
out of health for the last seven months con
:stantly taking Medicine for Dyspepsia the
:toms his health appears to me to be thoroughly
broken and the recurrence of the
disease seems to me to indicate that a change
is absolutly necessary.

Certified

13053 Fort St. George 19th August 1858.

Certificate.

I John Thomas Williams officiating
Gillah Surgeon of Cuddapah do hereby
Certify that Mr W. J. Blair of the Civil
Service is in a bad state of health and I
solemnly and sincerely declare that ac:
:cording to the best of my Judgment a change
of air is essentially necessary to his per
:covery and do therefore recommend that he
may be permitted to proceed to Europe for
15 Months.

J. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George.

Sir,

With reference to an Extract
Proceedings Board of Revenue dated the 26th
September 1857 forwarding Extract Minutes
Consultation under date the 12th Idem No. 926
relative to Profession Mallets application
for

B. No. 1809
From the Collector
of Salem

13650

Fort St. George 19th August 1858.

Sir

I have the honor to observe that in this part of India the District in which Cotton is grown to the greatest extent in Coimbatore. The plant is cultivated in the Salem District to no great extent in any one part and is usually grown with other produce in the same field. On this point I beg to refer the Board to my letter dated the 8th March 1858 No. 19 reporting on the cultivation of the 6 products noted in the Margin. As therefore Salem is not one of the principal Cotton growing localities I have not

Cotton
Tea
Sugar
Indigo
Jute and
Mulberry.

13651

Fort St. George 19th August 1858.

not attempt to obtain the specimens or the information required by Professor Mallet.

Salem Collectors Office
On Circuit Mulloor
28th April 1858....

I have the honor
Sir
Your most obedient
humble Servant
(Signed) H. A. Brett
Collector.

To

J. D. Sim Esqre
Secretary to the Board of Revenue
Fort St. George

Bd No. 3475
From the Collector of Canara....

Sir,

I have the honor to submit for the information of the Board the usual report on the Salt trade in this Dist. for the quarter ending 30th June.

In doing so I must review
2
the transactions of the past year and propose for the sanction of the Board such measures as appear necessary in order to secure an adequate supply of this indispensable article for future consumption. -

Sale of Quantities from 1st April to 30th June

Sale of Quantities from 1st July to 30th June

3 The annexed Comparative Statement shows at a glance all Government Salt transactions during the last three quarters of each year being given in the aggregate and those for the last separately as being the subject of the present report.

4 It will be observed that the total deficit in Sales for the whole of

of the year now closed as compared with the previous Fasly does not amount to more than 20,648 Indian Maunds value 30064 Rupees and that increased demand for Salt in the last three months has reduced the already reported deficit in revenue derived from the sale of Salt from Rupees 413-38 to the above Sum Rupees (Rupees 30064).

XX The disproportion between quantity and value is owing to the higher price of Bombay Salt which was sold in larger quantity in 1266.

5 The increase during the quarter under report is in home consumption and took place chiefly in the Honore and Bekul Talooks.

6 The Devanunny Ghaut being closed the supplies of Salt for the Southern Ballaghaut Talooks were drawn perhaps from Guernisipah instead of Kutgal and the trade at the former depot has increased immensely but I am rather inclined to put down much of the increased demand to the early and very heavy rain which prevented illicit manufacture for which the great length of Coast and innumerable back waters (particularly in the South) afford such great facilities.

7 The revenue of Fasly 1266 it must

Fort St. George 19th August 1858

must be observed exceeded that of the previous

Rs
Fusly 1265 - 406245 - Fusly by Rupees 930 63 So that though the compa-
" 1267 - 466454
Increase in 1267 } 60209 rative Statement given above Shows a considerable

falling off in revenue the Sales of Fusly 1267

exceed those of Fusly 1265 by Rupees 60209.

8 The quantity of Salt imported by Sea by private traders has been small during the past year but the trade across the Goa frontier has not partici- notwithstanding the disbandment of the Soopah Salt Works.

9 The total deficit during the past year including Customs duty on Salt is given in the Import

10 The stock at the commencement of Fusly 1227 was 478187 Indian Maunds that now in hand amounts only to 33095 Indian Maunds and will be necessary to take early measures to secure a supply to the extent of 300000 Indian Maunds part of which should be delivered by the end of October or early in November at the depots in South Canara. -

of

Fort St. George 19th August 1858

11. Of the measures I would propose to take in this matter I shall speak presently.

12. The Board are aware that in consequence of the Small Stock in hand at the close of last Monsoon (owing in a great measure to the failure of our own manufacture) a Contract was entered into for the supply of Goa Salt that the Contractor failed to deliver the Salt according to Contract and that subsequently with the sanction of the Board I applied to the Commissioner of Customs in Bombay for the quantity absolutely necessary to meet the requirements of home consumption &c. In land trade.

13 I further reported having bought up such parcels of Bombay Salt as had been bonded by private traders and the Board accorded their sanction to the mode in which I proposed to treat the Goa Contractor in allowing him the difference between the selling prices of Bombay and Canara Salt and observed that this or any other concession will be contingent in his future exertions.

14 The Contractor now professes his willingness to supply the quantity of Salt yet due if it is to be had in Goa, but denies his responsibility for the loss incurred in consequence of the failure of his Contract or that under the circumstances of the case he is liable to the penalties to which his agreement binds him to submit in the event of interruptions to

to the Salt trade from failure on his part. And this man trusted to the leniency of the Board on account of the difficulties with which he had to contend I should have been prepared to act to the fullest extent on the Board's observation above recorded but as he now denies into that he is bound by his Contract, I see no other course open to me than to proceed on my view of the matter and leave him to prove that he is not responsible and that his Contract is not binding.

15 I beg to append for the information of the Board correct translation of the Contract and of the deposition of the Contractor taken before me on the 22nd July 1858.-

16 Judging from the effects of the very heavy rains on our own manufacture I have little doubt but that the Goa Salt works have suffered very considerably and that the outturn in Bombay must be considerably below the average. I therefore turn to the eastern coast for the supplies I must obtain at the close of the season

17 All circumstances considered I think it will be better to close Antony Naiks Contract and I will therefore lay before the Board the annexed figured Statements. That marked A. shows the total quantity of Salt received from the Contractor or from other Sources and the quantity still due by that individual

individual or to be procured by Government and charged to him in the event of his failure.

18 That marked B shows the expenditure already incurred in consequence of Anthony Naiks failure and the amount for which he or his Security is at present liable.-

19 A Column of remarks is appended to each statement which will it is hoped render the entries clear and comprehensible but I must here observe that the charge of Rupees 53 per Gance as the price (including charges) of the Bombay Salt procured by the Commissioners of Customs whilst he contracted at the rate of Rs 50 per 120 Indian Maunds is to be ascribed to the difficulty of arranging equivalent when the Salt was of necessity Delivered by measure though the Contract entered into was for weight. The first receipt were accounted for at the rate of 424 Mercals per 120 Indian Maunds but of this the merchants complained and it became necessary to ascertain the actual measured value of 120 Indian Maunds of this Salt. The experiment made gave very different results but as the Bombay merchants were willing to admit that 400 Mercals was a Sufficient equivalent and the average obtained from such experiments as could be made was slightly under this quantity I granted receipts at the rate of 120 Indian Maunds for every 400 Mercals measured and hence the increase of 3 Rs per Gance.

20 Samples of Salt have been received from Madras and Nellore the former is very superior to the latter which however was damaged from being badly packed and exposed to rain on the road during transit.

21 One Sample of the Madras Salt that from the Attepur Division

Fort St. George 19th August 1858

to the Salt trade from failure on his part. Had this man trusted to the leniency of the Board on view of the difficulties with which he had to contend I should have been prepared to act to the fullest extent on the Board's observation above recorded but as he now denies into that he is bound by his Contract, I see no other course open to me than to proceed on my view of the matter and leave him to prove that he is not responsible and that his Contract is not binding.

15 I beg to append for the information of the Board correct translation of the contract and of the deposition of the Contractor taken before me on the 22nd July 1858.- ×× ×

19 A Column of remarks is appended to each statement which will it is hoped render the entries clear and comprehensible but I must here observe that the charge of Rupees 53 per Garce as the price (including charges) of the Bombay Salt procured by the Commissioner of Customs whilst he contracted at the rate of Rs 50 per 120 Indian Maunds is to be ascribed to the difficulty of arranging equivalent when the Salt was of necessity De livered by measure though the Contract entered into was for weight. The first receipt were accounted for at the rate of 424 Mercals per 120 Indian Maunds but of this the merchants complained and it became necessary to ascertain the actual measured value of 120 Indian Maunds of this Salt. The experiment made gave very different results but as the Bombay merchants were willing to admit that 400 Mercals was a Sufficient equivalent and the average obtained from such experiments as could be made was slightly under this quantity I granted receipts at the rate of 120 Indian Mounds for every 400 Mercals measured and hence the increase of 3 Rs per Garce.

20 Samples of Salt have been received from Madras and Nellore the former is very superior to the latter which however was damaged from being badly packed and exposed to rain on the road during transit.

21 One Sample of the Madras Salt that from the Attepur Division

Fort St. George 19th August 1858.

Division is said by those who have tasted the Samples to be less bitter than the others and therefore better suited for the trade here.—

22 The Crystals are so large and hard as compared with those produced here, that I should not expect a greater amount of wastage than with Bombay Salt Viz.t 1 to 2 per Cent and these good qualities would render Madras Salt acceptable to inland traders whilst its purity as compared with ours that from Bombay must be much in its favor. Samples from the Southern District have not yet reached me but the country craft have from Tuticorin escaped the notwithstanding round to this Coast and other freights can probably be procured at Madras at rates considerable below those likely to prevail at the Southern Ports perhaps the Board may think it advisable to estimate the expense of transport in square rigged vessels.—

23. Such vessels would be required to anchor off Mangalore and Cundapoor in 4 fathoms and would be speedily unloaded by large cargo boats which would then enter the small bar harbours and deliver the salt at the various depots along the Coast.

24 As Goa salt will not be procurable in any quantity it is unnecessary to give the rates as usually paid for it. The average price of Bombay salt delivered at our Coast depots has been about 22 Rs. per Garce of 400 Measures but it is probable that it would be dearer than usual at the opening of the season.—

25. Whether Madras salt or that from other Ports on the Eastern Coast could be sent round in ships at lower rates than those at present levied I

Fort St. George 19th August 1858

do not know but whatever the expense may be the charge for landing Salt from the ships would probably be Rupees 3— 8— " per Garce

26 I mention these circumstances in order that the cost of Madras Salt delivered in the coast depots here may be more readily estimated and I trust that the Board will favor me with their instructions at an early date in order that I may make

13668

Fort Saint George 19th August 1858

make arrangements for supply-
ing myself from Bombay
should they be of opinion that
circumstances do not admit
of Madras or other Eastern
Coast salt being sent-
round

No. 1

To

The Honorable Company

Kurar executed by Anthony
Naick son of Rame Naick
residing at Bollar in the
Town of Mangalore dated
21st October 1267. Fusly

Having in conformity to the
conditions of the Proclamation issued
from the Huzzegoor dated 6th Instant
contracted at the Huzzegoor to supply 1800
garces of Goa Salt at 4 24 Marcals
per garce for the use of the Government
monopoly for the Canara District at the
rates specified below: and Mr. Robinson
the Acting Collector having confirmed my
Contract for the above quantity of Salt; I
accordingly bind myself to deliver the 1800 garces of
Salt of the manufacture up to Fusly 1265 white
and of superior quality the quantity to be transported
to Buntwal and Baramangalore being delivered by me
at Mangalore on Board the boat and that intend-
ed for the other Taroaks at the respective Coleys all
expenses until the Salt is measured and delivered
on account of Pottemar freight boat hire &c

for

Fort St. George 19 August 1858

for transhipping the hire for carriage from the landing place to the Coteys & being borne by me.

2. Should I bring Salt of inferior quality I agree to demand no price for the same if it be run into the water.

Memo shewing the Tannah at which the Salt is to be delivered the quantity to be delivered and what period and at what rate.—

	Nov.r	Dec.r	Jany	Feby	Total	Rate per Garce
						Rs. a. p.
Mangalore Cusbah	50	50	100	100	300	19 " "
Mookky Tannah	..	25	40	35	100	23 " "

No. 2

Questions put by W. Fisher Esqre Collector of Canara to Anthony Naick late contractor of Goa Salt residing at Ballar in the Town of Mangalore on the 22d July 1858.

I Of 1800 garces of Goa Salt contracted for by you for manufacture of Salt delivery for the use of the at Goa having been a monopoly of this Dis- trict only 772-389 G m have the quantity procurable been supplied. The quan- tity deliverable not having been received, and sales interrupted thereby 413-398 G m have been procured by Government from Bombay 6-316 G m of Bombay Salt purchased from Ignas Pinhoo, & 61-316 G m of home pro- duce transported from Soneh there viz 772-389 G m and as the remaining quantity 1027-35 G m I was una- ble to deliver, as no Salt was procur- rable at Goa. I am not willing that the quantity of Salt purchased by the Sirkar instead, should be put down to my

Fort St. George 19th August 1858

Kutta, making a total of G. 1251-84 so that G 548-340 M is still unsupplied, and as this is urgently required by Government you are required to supply the same at the opening of the ensuing season. What do you say to this?

account. In the Karar executed by me I did not bind myself to be responsible for the quantity of Salt that may be sent for from either of the quarters. If Salt was sent for by the Sirkar for Goa, I would have been responsible agreeably to the terms of my Karar for any higher rate of price that may have been paid for it. Of the remaining quantity of G. M 1027-35 I shall supply the Government with such quantity as can be had at Goa this

Fort St. George 19th August 1858

this year. In the event of the whole quantity not being procurable, I request that the quantity that may remain unsupplied should be remitted to me. This is all that I have to say.

Memo.—

The Karar executed by him on the 21st October 1267 for the supply of Goa Salt was read over to him—

2 You have heard the Karar just read over to you. It is stated in it, that in the event of your failing to supply the Salt as stipulated by you, you would pay a penalty of 5 Rupees upon each garce on the quantity that may re-

By the Statement making other purchases I mean, that should the Government purchase and fetch Salt from the place, the Salt of which I contracted to supply I am responsible for the extra charges that

Fort St. George 19th August 1858

=main unsupplied, and 50 Rupees upon each garce in the event of the sales being thereby inconvenienced and the additional cost which may be incurred by Government should they make other pur= =chases such being, and I failed to deliver the case how is it that you state you are not responsible for the Satt procured elsewhere. 2 — that may be thereby in= =curred, and according to the tenor of the said Karar there is no reason for my being respon= =sible for the Satt sent for by Sirkar from other places. If there was abundant Satt at those Places such being the case how is it that you state you are not responsible for the Satt procured elsewhere. 2 — to the fine laid down in my Karar

As the stock of Satt there was very limited and I have exerted

Fort St. George 19th August 1858

exerted my self and delivered such quantity as was procurable, I am not responsible to pay the penalty laid down in the Karar Memo.—

The Deposition was read over.—

3 Is what has been just read over to you correctly recorded. 2—

Total Company's Rupees - - - - 2241 - -

All articles to be in Kurnool 4 days before the day on which the exhibition is opened, except those articles that will be injured by being kept whoever neglects this will find his goods refused.

as the prizes offered are handsome it is expected that competitors will bring their really best articles and go to some little expence in pulling cattle making neat boxes and bags, in cleaning the goods in the payment of bandy hire and searching throughout the Talooks for the articles required, and making things—

Each person should be able to state at what price he can sell similar articles and what quantity he can produce each year

No doubt many articles may be exhibited for which no prize has been specified the Committee will however take such cases into consideration and give prizes to discovering Exhibitions.
