Mandate to the Nais Dasapondiyas Dasamookies that now are and that may hereafter be in the Havily Condapilly and in the Punganah of Bezorah Vea attached to the Cinca Mostafanagar. Six Cuthies of arable waste land in the Villages of Doneyateoor and Vellatoo in the Said Punganah of the Said Cinca having under Summo of former authorities been assigned and continued rent free to Lollah Bascare a Bramin on account of his subsistence I also confirm the same accordingly. Therefore you shall make over the Said land to the Said Bramin. He shall apply the produce thereof every year to the support of his family and continue offering up his prayers for the augmentation of my prosperity.

Regard this as a Takeed and enforce it as above mentioned.

is unworthy of belief. The  
 "men are also equally guilty  
 "I have therefore dismissed both the  
 "men and Reddies from office  
 "I have directed the recovery of  
 "the amount misappropriated by  
 "for July 1255 to a moiety of  
 "which I consider the inform  
 "entitled, and he therefore  
 "will be pleased to obtain the  
 "sanction of the Board of  
 "for discharging the same to the  
 2.

The case is one which  
 presents some remarkable  
 "features. The extent of land  
 brought to light has been  
 "covered many years. but the  
 cause of its escaping detection  
 by the Government Officers is  
 owing to a false survey made  
 at the survey in July 1254 the  
 quantity of land entered for  
 this village is only 2248 acres.  
 In consequence of some dispute  
 between this and a neighboring  
 village a remeasurement was  
 made of the lands and found

Chief George 20 August 1858

found placed in fully 1245 and  
 the result of that measurement  
 made the area of land entered  
 less than the survey measure-  
 ment. Only 2205 acres were found  
 then. The village has been brought  
 under full cultivation for about  
 10 or 12 years past and when  
 that is the case there is no  
 annual examination of fields  
 and hence the errors above the  
 two prior measurements were not  
 discovered, and the village author-  
 "ities who have been dismissed  
 by Mr. Collett plead this fact  
 as their excuse. Yet that the  
 village was fully cultivated  
 according to the Government ac-  
 "counts, and that therefore there  
 no further demand against them.  
 It may serve in part as a  
 mitigation of punishment but  
 it can not I think be ad-  
 "mitted as a sufficient ex-  
 "cuse for their not bringing  
 to the notice of the Government  
 authorities

13727

authorities what they must  
have very well known the  
fact that there was more  
land than they had a right  
to. I have therefore confirmed  
Mr. Collett's decision directing  
the collection of 18s-7 (which  
is found to be the correct  
amount by something small  
increase within 1/10 found  
in some fields which may  
be allowed as usual) and  
I think the Raddis & Furmen  
should all be dismissed for  
a period of three years at  
least as a punishment.

3- The extra land found  
is claimed by a neighbouring  
Village longer in the Raddis  
Village, this has to be left.

From the Collect<sup>r</sup> of North Arcot

Sir,

I have the honor to submit my report on an Annual Settlement of the District for July 1858 and to forward 14 Statements in the form circulated with the memo. of the Chief Secretary to Government dated 23 August 1855. The

- Statement showing the number of Villages and Hamlets in each Talook.
- Statement showing the number of Pottahs &c in each Talook.
- Statement showing the Houses and Population.
- Statement showing the different sources of Irrigation in each Talook.
- Statement showing the Rent Roll.
- Statement showing the Cereal and Grain

quinquennial statements specified in the margin are also herewith forwarded in the form which accompanied

the Memo. from the Acting Secretary to Government dated 21<sup>st</sup> March 1857

Or

Fort St. George 20 August 1858.

The statement required in the Board's Circular order of 4<sup>th</sup> August 1856 is herewith submitted.

Villages which the Settlement was made.

2. Statement No. 1 shows the number of Taluqs settled by me, and those which were settled by Mr. Sullivan.

The Sub Collector, and Mr. Elliot the Acting Head Assistant the places at which the settlement was made, and the date on which it commenced and terminated.

It has also the number of Ryotwar villages for which putaks were distributed and the total number of such putaks. The period occupied in the settlement of each Taluq.

Fort St. George 20<sup>th</sup> August 1858.

Salook has been calculated in the manner prescribed by the Board in their Proceedings of the 8<sup>th</sup> June last No. 1918.

3. The quinquennial statement No. 15 exhibits the number of Villages in each Taluq. and the different tenures under which they are held.

On comparing the number of Ryotwar Villages set down in statement No. 1, with that given in statement No. 15 it will be seen that the former exhibits the number as greater by 269 Villages. The explanation of this discrepancy is that 158 hamlets have always been settled independently of the Villages to which they are attached.

3. The quinquennial statement No. 15 exhibits the number of Villages in each talook and the different tenures under which they are held.

On comparing the number of Ryotwar Villages set down in statement No. 1, with that given in statement No. 15 it will be seen that the former exhibits the number as greater by 269 Villages. The explanation of this discrepancy is that 158 hamlets have always been settled independently of the Villages to which they are attached (and

and are therefore entered among the settled Villages in Statement No. 1. In the same Statement have also been entered 111 Shrotrams and Enamirah portions of which were entered at the Enamabandy on account of lapses and other causes. Two paramount Shrotrams Villages are also entered.

The number of Villages and hamlets in the Enamandaries and Pollias as exhibited in enclosure A in Statement No. 15, is greater by 69 Villages and 706 Hamlets, than the number exhibited in the

the Statement appended to para 4 of my last settlement report. The reason is that the Pongannur Zemindary was transferred to this District from that of Cuddapah at the commencement of the present year.

The different sources of irrigation in each Taluk of this District are particularized in Statement No. 18. The following is an abstract thereof:-

No census was taken on the July under report and the statement given above exhibits the result of the census taken in July 1265. The accuracy of the returns of the Village Officers was in the first instance tested by the Sahildars in a few villages and was then verified by my European subordinates during the Jannahundi in the manner prescribed by the Board in their circular of the 7<sup>th</sup> February 1858. In both instances the accounts were found to differ but very slightly. The result of the re-examination by the Sahildars was a mean difference of 1/16 of 1 per Cent, and of that made by the European officers of

of  $\frac{1}{4}$  of 1 per cent. This slight difference was caused by births deaths and emigration occurring between the census and the reexamination.

9 A classified list of puttals with the amount of apportionment paid by each village is contained in the Income statement No 14.

It shows to what great extent the poorer class of land holders predominate in this District.

Of the total number of puttals viz. 124,015 only 75,222 or 60 per cent are held by the ryots paying less than 10 Rupees to Government. In statement No 16 the total

13740

Fort St. George 25<sup>th</sup> August 1858

number of Ryots was given as 78396. It is obvious therefore that there is a large class of Ryots holding direct from Government whose proper position is that of agricultural labourers. As long as this system continues, difficulty in realizing the revenue must be experienced, and the duties of all classes of public servants be rendered very onerous. The numerous disputes between these petty landlords occupy time and attention that might be better disposed of.

The season of 1858  
and 1859

District

The season of 1858 was much more favourable than that of the preceding year.

" As regards the sanitary  
state of the District during  
the year under report Cholera  
prevailed in almost all the  
talooks but chiefly in those  
of Melase and Sautghar.  
The total number of deaths  
by Cholera was 1849 during  
the year under the report. Typhus  
and Ague occurred but to  
no great extent.

A murrain attacked  
the cattle which destroyed  
12,226 of them.

cultivated in the year under  
report was greater by 54,620  
acres than in the previous  
year, and there was inconsequence

This result is in part to be attributed to the favorable nature of the season, and in part to the expectation maintained by the Ryots of a speedy reduction of the assessment.

The

The favorable season of  
July 1856 had caused the  
decrease shown in these items.

16. To the same cause  
is attributable the decrease of  
Rupees 1894 in "Planting"  
remission. The greater breadth  
of cultivation required a greater  
extent of land to be taken up  
for seed beds.

17. The copious supply of  
water received by tanks caused  
a decrease of remission under  
the head of "Inundated" or "Washed"  
inundated, to the amount of  
Rupees 122 by preventing the  
peasants from cultivating the  
of the tanks as they did in  
July 1855. These crops were  
subsequently submerged and

13748

that rendered remission necessary  
in that July.

18. Under the head  
of "Washed" or "Rupees washed"  
washed away by floods the  
remission granted, amount to  
Rupees 4310-4 which sum is by  
Rupees below that allowed in  
July 1855.

19. The amount of remission  
granted for "Havy" or "Failed Crops"  
was less by Rupees 5044 than  
in the previous July. In that  
July, the remissions under this  
head amounted to 5842 Rupees.  
In the July under report  
remission under this head  
was rendered necessary by the  
failure of rain in the months  
of January and February. The  
Howrah, or late wet crops  
suffered

suffered considerably in consequence. Claims for remission on account of failed crops were well enquired into and care was taken that the duty of examining the state of the crops was not delegated to inferior public servants. The remissions which after enquiry it was found necessary to grant were given at the Commutation conformably to the instructions of the Board of Revenue contained in their Proceedings of the 3<sup>rd</sup> May 1855. The remissions so granted amounted in the aggregate to Rs 765. Statement No 5 exhibits the actual amount of Shary in each Talook, and the amount

has been remitted. The enclosed is an abstract of that statement.

20 The expiration of that term of the lease under which certain lands in the Palmandir talook were held and the consequent payment thereon of the full assessment has caused a decrease in the amount of lease remissions. The decrease is also partly owing to the payment

payment of a higher tax on  
progressive Coules in the  
Sutward Talook according to the  
conditions of the Coule. The  
extent of land held on pro-

In regard to cultivation there is an increase of 1230 Acres.

Indigo is principally cultivated in Talag land that is land on which a crop has been already raised. This crop is usually Pambas and is harvested in October. In November partly 1265, the fall of rain was scanty which caused a smaller extent of land to be cultivated with Indigo. As a part of the harvest of the Indigo is carried to account in the subsequent year, a decrease under this head is apparent in partly 1266.

the head "Coral. Candayam" which is a decrease of 68 Papes which is owing to a diminution in the cultivation in the hilly tracts of the Poorbar Taluk.

31. The exemption of fish lands and Palmaria Tapes situated in back yards and on barren lands and on land paying no assessment has caused a decrease of 144 Papes under this head.

32. The revenue from "Lank fishery" amounted to Papes 5772-0-7 which is less than that derived in July 1855 by 128 Papes. This decrease is chiefly owing to the Lank having remained full all the year, and having thus prevented the taking of the fish in the bed of the Lank.

District was caused an increase under this head.

Masabady

This tax was never collected in this District till the transfer of Pongand. The amount shown in Column 3 of the Statement is the Masabady tax of that Polliem.

Soy Sammak.

The increase under this head is chiefly attributable to an increase in the amount of Quattris levied by the Courts on unstamped deeds.

Interest.

The interest account exhibits a decrease of 92<sup>rs</sup> Papes which is attributable to the Abharay per cent. which Mr. Corbett and Morrison having been more punctual

The correspondence noted in the  
margin has since taken  
place on this subject. The  
sum of Rupees 3-3- shown  
in Column 10 of the above  
statement is the Matarpa  
tax due for fasby 1265 by two  
Rajots of the Village of Vardagapollam  
in the Intward Talook of whom  
it is reported to have absconded  
and the other to be in a state  
of extreme poverty.

The following is an exhibit

[illegible]

13770

Fort St George 20<sup>th</sup> August 1858.

Act XVIII of 1850 came into operation about the middle of the year under report, the practice of attaching and selling lands for arrears of revenue continued until that period.

Particulars of the doubtful balance of our Land permiss.

41 The amount shown  
in Column 9 of the statement  
given in para 34 is the teeswah  
of land which is the subject  
of boundary disputes between  
the Ryots of the Tiruvannam  
Taluk and the Cannerpattur  
Zemindar, <sup>the people of the Subward Taluk</sup> and the Calasary  
Zemindar; and between the  
ryots of the Taluk of  
Cannerpattur in this District  
and those of Conjevaram  
in the Chingleput Collectorate.

13771

Fort St George 20<sup>th</sup> August 1858  
 The imperfect method of  
 measuring land which was  
 adopted at the Symash Survey  
 renders the adjustment of  
 these disputes exceedingly  
 difficult. On this subject  
 I propose to address the Board  
 in a separate communication.

Particulars 42. The sum of 2,236-11-11  
 of the amount recommended given in Column 10 of the  
 extract off same statement included  
 a sum of Rupees 169-4-1 which  
 was recommended in my last  
 my last settlement. Report before  
 be written off of this amount  
 Rupees 3-11-7 have been struck  
 off the accounts with the  
 sanction of Government given  
 in Extract Minutes of Council.

13772

Fort St George 20<sup>th</sup> August 1858.  
 dated 19<sup>th</sup> February 1854. The sum  
 of Rupees 1910-12-1 is the  
 outstanding balance of the  
 adjustment due on account  
 of a second crop raised  
 with the aid of Clear water  
 on one Crop Manium land  
 in July 1854. The amount  
 charged under this head  
 was 11,710-7-9 of which Rupees  
 9,799-11-9 were collected prior  
 to the receipt of the Proceedings  
 of the Board of Revenue  
 dated 13<sup>th</sup> December 1856. It is  
 ordered that the Board state  
 that as the rule for levying  
 the katra-gas had not been  
 promulgated till the cultivation  
 had been completed, no demand  
 should

13773

should have been made under that head for July 1854. The sum of Rupees 122-1-2 is the balance of land revenue due for July 1854 from the four Villages transferred from the Sengalur Talook of this District to the Triplicane Talook of the Salem District as noted in para 54 of the last report. The sum of Rupees 15-8-0 is the amount embezzled by the Moneys of Sankarapattinam in the Salem Talook out of the Village Collections for July 1854. The Moneys having been tried and convicted of the offence was fined agreeably to the regulations but being unable to pay the fine and paying no property by the sale of which the amount might

might be realized he was committed to jail. The sum of Rupees 21-2-1 is the one fourth portion of the putthah levy of July 1855 of two Ryots of the Village of Arumay-pally in the Palmanair Talook. In that July the house of the two Ryots who are fathers of an undivided family was attacked at night by robbers and everything it contained of any value was carried off. The inmates and among them the two Ryots were severely wounded, and thereby rendered unable to attend to reap the crop which they had raised and which in consequence perished. Mr. Bantary the Acting Additional

Additional Sub Collector who  
settled the Talook of Pannam  
in July 1845, considered that  
under the above circumstance  
a remission of one fourth of the  
puttah being of the two years  
ought to be made as a com-  
pensation for the loss  
they had sustained and  
he accordingly deducted  
it from their puttah. I have  
the honor to request that  
sanction may be obtained  
for writing off to Profit and  
Loss the same total of the  
above mentioned items  
amounting to Rupees 2235/11/10

to notice in a separate  
communication several  
points adverted to by  
Mr Sullivan in that  
report.

Remarks on the  
conduct of  
the subordinate  
officers.

45 I have continued to  
receive that cordial cooperation  
from the Sub Collector Mr  
Sullivan that I have acknowl-

and I have had reason to be sa-  
tisfied with his management of  
the Talooks entrusted to him.

I am happy to express my sense  
of the valuable services which  
Mr Whiteside my assistant has  
rendered me. The services of my Head  
Sheristadar having been placed at  
the disposal of the Acting Additional Sub-  
Collector for the reason of the absence of  
his duties have been performed by the  
Naib Sheristadar and the Head Goomas-

satisfied with them.

revenue to the Government to the former  
tank the supply of water will be greatly  
augmented when the channel from  
the Palace. Amient is completed by  
which also a large extent of waste land  
will be brought under cultivation The  
Cherapur Amient is also deserving of notice  
whereby some 20 Villages in the Trinittoor

6. Statement No 19 exhibits the Rent Roll for the whole Sub Division for the Fushy under consideration and appears to call for no special notice.

7. The season in the Fushy under review was favorable as compared with the previous Fushy. The fall of rain in the months of the SW monsoon was considerable and during the NE monsoon it was more favorable than in the preceding Fushy in the margin is exhibited

10. Diseases (a species of murrain) among cattle in the Sub Division more especially in the Poloor and Vellore Talooks for the period under review was of a most decidedly noxious nature and has caused the great distress amongst the ryots and has much crippled their agricultural stock the Marginal Statement illustrates what has first been stated.

a trifling decrease of 151<sup>Rs</sup> is observable under  
the head of Barchoody and of 47<sup>Rs</sup> under that  
of Pyamali caused by the circumstances of

Under the head of General Remissions there was in Fasly under review an increase of fixed remission of 16,723 and in Damasha exam of 6,576 to be ascribed to a larger extent of land having been cultivated in Fasly 1266 than in the preceding one

The large falling off in Indigo cultivation observable in this Tusly as compared in the Tusly 1265 is somewhat and although the cultivation of our remunerative dry grain crops (furnish the season was favorable) and in consequence of the demand for Indigo having fallen he urged as causes the Sub Collector is disposed to think that in consequence of Indigo

Indigo sown in one Tusly being brought to account if again productive in another Tusly. a door is open to much found and he would propose an Azmash or examination of the state of Indigo Cultivation immediately on the opening of the new Tusly in order to ascertain whether it should be brought to account or not in that Tusly.

Enam Jody - 62 22  
Enam Bhogajesty 66 1/2 726  
The Collections under items Marginally indicated show an actual increase under the head of Enam Jody of 62 and an apparent increase of

Fort St George 20<sup>th</sup> August 1858

of 66 1/2 under the head of Enam Baga-jasty; no annual settlement report for the Sub Division was forwarded for Fusly 1265 under the circumstances noted in Para 55 of the Collectors report for the whole District dated 4<sup>th</sup> November 1856 and it would appear that the Enam Bhogajasty for Fusly 1265 was included in the general Baga-jasty return for the district the increase in both instances was occasioned by extensive cultivation.

Under the head of Cauvery 23  
Condam will be observed a decrease of 48 Rs the whole of which was in the Polonnaruwa Talook and occasioned by a decrease in the Hill cultivation by the inhabitants of the plain. A decrease of 50% is observable under the head of Joprandayem as compared with the results of Fusly 1265. mainly owing to extended cultivation of both of occupied and Enam lands for the trees on which the tax was remitted under the orders of Government dated 31<sup>st</sup> May 1855 also to an inferior Mango and Tamarind season as compared with last Fusly and a consequent falling off in some of the Jope Durahasts especially Tamarind. The small increase of 21 under the head of Tank fisheries hardly calls for remark.

Annexed is an Abstract Statement 25 showing the general result a comparison with the preceding Fusly (1265) in which is exhibited the gross demand for Land Revenue the several deductions there from and the net remaining increase.

ately preceding Statement No. 8. exhibits in detail the items composing the Moturpha revenue for the July under review. The net increase is 287. It is largest under the head 'House Tax' and 'Looms' as regards the house Tax nearly 223 was levied in the village of Adavandal in the Talook of Vellore which is a very populous suburb of the Town of Vellore and indeed may be said to form portion of it hitherto the occupants of those premises had been in the habit of paying certain rents to the owners of the lands on which they stood they (the

puttahdars) paying the land Tceerwah to the Circar owing to the continual complaints from these occupants against the demands of the puttahdars and to the puttahdars making the non payment of the petty holders an excuse for withholding the Tceerwah on the land the Sub Collector after much trouble succeeded in effecting an arrangement by which the puttahdars were to relinquish their rights to the land and the house holders to become direct payers of a house tax to the Government.

Sir,

I have the honor, with reference to

the accompanying Copies of letters from my Acting Head Assistant Mr. Elliott dated 5<sup>th</sup> Instant together with copy of one from the acting Civil auditor dated 31<sup>st</sup> July 1858 No. 350, to request that the Board will be so good as to obtain the sanction of Government for grant - ting retrospective leave to Mr. E. F. Elliott from the 3<sup>rd</sup> to 15<sup>th</sup> July inclusive -

I sent instructions to Mr. Elliott when his leave appeared in order regarding the disposal of his office during his absence, but Mr. Elliott, who was at the time engaged in very important business in the neighbourhood of the railway, retained charge of his office, with the wish of expediting the business in question, and took his leave for the limited and distinct periods mentioned in the civil auditor's letter -

Sir,

With reference to the accompanying original letter from the acting Assistant Collector, North Arcot and St. Andrews, intimating to me, that in consequence of my having availed myself of the leave granted to me on the 25<sup>th</sup> June last, in 3 detached portions; this will subject me to the loss of all salary and allowance for the period of my absence after resuming my duties on the 29<sup>th</sup> June, unless I obtain the sanction of Government for my absence. I have the honor to request, that you will be good enough to apply for this sanction on my behalf for the whole period from 5<sup>th</sup> to 15<sup>th</sup> July.

To

C. F. Elliot Esq<sup>r</sup>  
Assistant Collector of  
North Arcot.

Sir,

I observe from your letter of the 21<sup>st</sup> Instant, to the address of the Collector of North Arcot that you availed yourself of the leave granted to you on the 25<sup>th</sup> ultimo, in 3 detached portions vizt from 26<sup>th</sup> to 28<sup>th</sup> June from 3<sup>rd</sup> to 5<sup>th</sup> July and from 10<sup>th</sup> to 15<sup>th</sup> July which is at variance with the rule and will therefore subject you to the loss of full salary and allowances for the whole period of your absence after resuming your duties, on the 29<sup>th</sup> June. The act of resuming your duties after having been absent on leave virtually cancels the remainder of that leave and you cannot be again absent, without again obtaining permission to be so. Under these circumstances you will be considered as absent without leave, from 3<sup>rd</sup> to 5<sup>th</sup> and from

File para 106

 I have the honor to annex a Statement

 agreeably to the Honorable Court's Order  
 Tobacco is shown in my Statements under

 the former, and Tobacco in its raw state  
 under the latter head.

3.

The further Papers mentioned  
in the Margin refer to a  
later Question respecting

Tabacco, vizt. the difference  
of duty levied on Imports, prevailing at  
the Ports of Calcutta and Madras,  
former being 5 per Cent, and the latter  
less. The duties were equalized, and  
the duty reduced at Madras to 5 per  
Cent.

4.

The difference of duty on Exports  
was not charged at Madras it is now  
under act of 1844 10 per Cent, and in  
Calcutta under act No. 21 of 1850

13857

it is 4 annas per Mound. There is  
no reason that I am aware of why  
the duty should not be equalized

the case in Paddy and Rice, and  
this is perhaps a favourable opportu-

from the Board of Revenue  
would be sufficient to effect this.

Sir,  
With reference to the Endorsement  
by the late Commissioner on Petition N<sup>o</sup> 834 of  
1852, I have the honor to report that 1 of the 3  
Petitioners stated before the Tahsildar of Hadda  
that Cuttobady was not twice collected  
from him but only demanded, the second  
makes a similar statement adding that  
he does not recollect having affixed his  
signature to the Petition now under

disposal, while the 3<sup>rd</sup> man declares that a  
sum of Rupees 2-10-6 was twice collected from  
him on account of Cuttobady for July 1251 once  
on the 14<sup>th</sup> July 1841, and secondly on the 10<sup>th</sup>  
December 1853 and produced the receipts in  
support of his statement but the present  
Tahsildar says that from his accounts it  
appears that the sum originally collected was  
through some mistake or other carried to the  
Credit of the Village of Daroomunta poor but  
that no entry can be found in the accounts  
of the present Curium of the latter Village and  
that the old Curium is dead. This Petitioner  
however begs permission to withdraw his complaint.

Under these circumstances and with  
reference to the long time that has elapsed  
I will strike the Petition off the file.—

To exercise any interference with the Palmyra and Date trees such are separately rented generally to Toddy Drawers although in a few cases the abkerry renters hold the rent -

2 The Revenue derived from this source is included in the Land Revenue demand under the head of Sundry items - The individuals to whom the produce of the trees are rented by the Joint Renters of the Village have, as mentioned in my letter of the 24<sup>th</sup> ultimo, the right of making use of the leaves fruit fibres manufacturing Jaggery and appropriating to their own use the toddy drawn from the trees but they cannot sell it or make use without a Combe from the arack renters with whom they generally enter into agreements The Renters of the trees have

have a right to work those trees which whether situated on Seroyty lands in the ryots holding or Enams are called *Nio* *sturpha* trees that is such as are liable to tax but I have not been able to ascertain when by whom or on what principle certain trees especially in Enam lands have been so classed The ryots holding Seroyty lands are not by virtue of them being such considered as possessing a right to all the trees standing on the land but only to those planted either by themselves or their ancestors

In regard to the latter the Renters of the Palmyra & date trees of the Villages enter into agreements with the ryots and with their Consent work the trees -

3 In several Talooks of the District the same practice obtains as regards Palmyra & date trees on Enam lands In many instances the right to the use of the trees does not rest with Enamdar but

made known by him to the Sheristadar then in  
charge of the Taluk within the prescribed period  
& that he also submitted an argee to the Collector's

Taluk Sheristadar was dismissed from the  
Public service many months ago & has since  
died & the argee referred to is not to be found  
among the records of the office. It appears however  
from a petition presented by the Petitioners under  
date the 12<sup>th</sup> February 1855 that he was not  
aware of any arrears of quit rent against the  
Ezraam & that so soon as he became  
acquainted with the fact he expressed his

practice obtains to a greater or less extent in nine Talooks, and from accounts which I have lately procured with much difficulty it would appear as shown in the margin, that nearly 80000 trees situated in Enam lands are thus rented out. The practice existed previous to the permanent Settlement —

4 Although the occupiers of lands are doubtless at times inconvenienced from the proceedings of Toddy drawers, I do not think the damage done by them is

is often very serious and I am not at present prepared to recommend any general departure from the practice which at present obtains. one plan might be adopted if the Board see fit to authorize it that is to let the trees liable to tax, to the holders of the lands on which they stand, when they may be willing to take the rent leaving it to them to make their own arrangements with the Toddy drawers. This would give them the power of excluding the latter together if they wish. In case of their renting the Toddy drawers holding direct from the Dyots will be the more likely to be careful not to injure their Crops in any way —

3 Petitioner asserts that these Enams  
were formerly alienated on free gift tenure  
and that the Charge of quit rent which  
has since been made is unjust, but  
that assertion is not borne out by facts  
the accounts from 1237 clearly showing

From the Collectors

Sir,

With reference to the Govern-  
ment Endorsement on Petition <sup>B. No. 2781</sup> of  
1857 calling upon me to report through  
the Board of Revenue I have the honor to  
submit the following explanation.  
2 Petitioner states that her late  
husband was the proprietor of one share  
in the Idiggy Agraharum of Potty;  
situated in the Salim Talook, & that  
a quarter of this share has been usurped  
by one of the Agraharumdars she therefore  
prays for the sanction of the Government  
to enable her to sue for the above quarter  
of a share in the Civil Courts.  
3 It appears from the Report of  
the Tahsildar that the Petitioner's late  
husband was as stated in her petition the  
proprietor

13886

Fort George 21<sup>st</sup> August 1858

proprietor of one share in the Jodighy  
:rakarum of Pottipully that her husband  
about 6 years ago mortgaged a quarter of  
his share for Rs 60 to one Venkatagerry  
Soolbier & that after the death of Ven-  
:catagerry Soolbier this quarter share  
gifted into the hands of his brother Gopu  
who at the time of his death in July  
1366 bequeathed the above quarter  
share and his other property to his  
nephew Soolbaroyen.

4 From the foregoing the Board  
will observe that the Demand &  
which the Petitioner claims is now in  
the possession of Soolbaroyen. If the  
petitioner thinks that she has a right  
to the Demand I see no objection to her  
being allowed under Regulations of  
1831 to prosecute her claim in the  
Civil Courts.

Sir

I have the honor to acknowledge  
the receipt of Extract Proceedings Board of  
Revenue No 2761 dated 23 July 1858 requesting  
me to explain more fully the grounds on  
which I have exempted Carts in the employ  
of the Trinomally Iron Company from  
improvement for military service and  
remarking that so long as improvement  
is necessary at all, that the Board do  
not see how a general exemption can  
be allowed any class or Company.  
2 The instructions issued to Mr.  
Sullivan were not intended to exempt  
any class of persons from the general rules  
in question but were founded on particular  
circumstances with which Mr Sullivan  
was made acquainted by having the  
whole Correspondence on the subject  
forwarded

13888

Fort St George 21<sup>st</sup> August 1858Copy of which is  
sent herewith

forwarded to him. The first letter from Mr. Maylon the local Manager of Iron works in question, showed I could find sufficient grounds for my interference & I should have considered myself bound, who ever had been the Complaint to prohibit such interference with Cart actually employed by the party complaining.

To C. Whittingham Esq<sup>r</sup>  
Collector of North Arcot

Sir,

I allow me to ask the favour of your advice and assistance under the following circumstances. We have recently erected extensive works at this Cusabul where we are now engaged in the manufacture of Iron for shipment to England & Cannon Balls for the Fort St George Arsenal Madras. We send the whole of our produce through the North Arcot district to the Arcot Railway Station by Native Cart up

13889

Fort St George 21<sup>st</sup> August 1858

up to the beginning of March I found much difficulty in getting more than 40 or 50 Carts per month because it was alleged they were seized on their return by the Police authorities for the transport of troops. as our produce was fast accumulating and as we were producing at least 7 Tons per day, I tried at the end of February last other means to induce a greater number of Bandymen from the surrounding Villages to work for us and I found that by offering a present of one Rupee (in addition to the Customary here) for every ten Carts we could get as many as we required (last month we dispatched 341 Carts) but I regret to say owing to some of the Bandies having been seized by the Government Police, only 145 Carts have returned with the Railway Company's Receipt Note & I have discovered that many of the Carters have taken and Pig Iron and laid it down in their Villages, some of them have taken their Bandies to pieces whilst some have returned

13890

Fort St George 21<sup>st</sup> August 1858

Returned here begging to be loaded up  
and proposed to take the row from the  
Villagers when an opportunity offered. I  
ventured to trouble you with these  
to show the difficulties to which we  
are likely to be exposed for want of  
arrangements with the proper authorities.  
On the 20<sup>th</sup> ultimo, I sent a man with a  
number of Carts to see that the Carters  
were not interfered with in their return to  
their works for their balance here, but  
I regret to say that 3 of the Carts were  
seized by the arsoo Carters but were released  
by the Carters paying 2 Rupees each  
to the Peons. I would have liked to explain  
that I have not made these remarks in  
any illiberal spirit believing as I do in  
the claims of the Government at such  
periods as the present in the regard to the  
transport of troops are of permanent  
importance I should be sorry to withhold  
any and every assistance that my humble  
position can afford but it appears that  
the conduct of the Police authorities  
whilst

13891

Fort St George 21<sup>st</sup> August 1858

whilst seriously interfering with our operations  
indirectly defeats the object in view. Having  
stated my views thus fully I feel assured  
that you will assist us as far as you  
consistently can under the circumstances.  
Probably you could favor me with a pass  
which I could give to the Carters but this  
I will leave to your superior judgment.

2. Six of the first seven petitions on the list are with the Sub Collector who has been remiss of the length of time they have remained undisposed of. The seventh No 2147 of 1856 was forwarded to me for such notice as I might deem proper -

It is an Enam Case - It has been gone into by the Acting Head Assistant Collector in whose Division the Enam is situated, but the examination is defective and requires to be completed. It will be disposed of at an early date -

3. With reference to the observation of the Board that the number disposed of during June was less than that of the addition to the file I beg to observe that considerable number of the petitions are now for disposal & that it is in many instances found that the matter has not previously been brought to the notice of the Collector, so that in fact as

13893

Fort St George 21<sup>st</sup> August 1858

portion of my current business instead of reaching me by the usual channel. Comes through the Board. This course is productive of delay.

4. The state of the arrears in the disposal of the petitions referred to me is as follows -

The total number remaining undisposed of at the end of July was 42 of these 19<sup>+</sup> are with the Sub Collector 2 with my Assistant 16 have been referred to the Tahildars and 1 to the Congoody Zamindar. Four only remain in my office under investigation -

2 I have stated in para 3 of my letter above adverted to that I received from Mr. Murray with the Records pertaining to Pongamoon a Gentoo of their Contents in which the Enam were mingled without arrangements other matters I beg to submit a specimen both of the list & of the Records of the

13895

two Enam Cases to show how impossible it is for me to learn from them what Cases have been disposed of and what remain for me to settle.

3 The first entry in the Gentoo's list is to the following effect Complaint of Mungalapadogandoo that his Enam lands had been usurped by Soob Reddy documents were on examining the record 5 papers are found & the missing one, the Complaint is stated to have been returned to the Zemindar The 5 remaining papers are stamped with the names of Mr. H. Forbes They consist of a summons issued by the Zemindar and 4 depositions taken by him There is no document to show whether the Case has been disposed of or not It is not however apparently a Case of lapsed Enam after 1500 entries referring to other matters

ting money to the Subordinates in the

Public Works Department by Talook

Peons called for in Contract Minutes

of Consultation under date 7<sup>th</sup> June1858 Public Works Department N<sup>o</sup>

1078 communicated with Contract

from the Proceedings of the Board

of Revenue dated 21<sup>st</sup> June 1858.N<sup>o</sup> 2145.2. The existing Establishment  
of Talook Peons is not more than  
sufficient for the performance of  
Ordinary duties. Whenever circumstances  
have

13900

Fort St. George 21<sup>st</sup> August 1858

have created the necessity of maintaining stronger Police posts than hitherto in various localities, the sanction of Government has been obtained for increasing the Establishment which was unable to meet the additional call. No hands are therefore available for escorting remittances to the Public Works Department.

3. I beg to submit in confirmation of this Statement an account of the manner in which the Pems in this Talook (Chittoor) are employed at the present time. There are 1 Duffadar and 10 Magistrate pems, and 1 Duffadar and 97 Revenue pems under the orders of the Tahsildar and Head of Police of the Talook. I do not include 1 Duffadar and 10 Pems under the

13901

Fort St. George 21<sup>st</sup> August 1858

Town Cistwall because they are borne separately on the Establishment list, and are not more numerous than their special duties require them to be. In fact it has been usual to assist them with Talook Pems. Although the Talook pems are borne partly as Magistrate, and partly as Revenue pems on the Establishment, in practice no distinction is made between them. Of these 109 pems under the immediate order of the Head of the Talook, 14 are allotted to the Head of Police of Damulcherovi, as police subdivision of the Chittoor Talook. The number is not more than adequate, and of this small number one half are employed in holding Tasmahs.

4. The Tahsildar of Chittoor has therefore a total of 95 pems for the performance of all revenue and Police duties. Of these no fewer than 60 are employed

13902

Fort St George 21<sup>st</sup> August 1858

employed in guarding tomahs and in watching  
Roads.

Now the duties of guarding the Palook  
treasury, taking charge of prisoners under  
examination, serving notices, summons  
and Warrants, used for the performance  
of the various revenue and police service  
which they are required to render to the Tal.  
sildar and Head of Police, 35 peons only  
are available.

5 In some other Palooks there is  
still more difficulty in meeting the demand  
of peons for ordinary duties, and I am of  
opinion that their numbers do not admit of  
any of them being sent with money to the  
Subordinates of the Public Works Department.

their extent and the Condition of the Hamlets attached. —

3. These villages are of a extensive area and the hamlets of small size as to render their separation and creation into distinct villages a matter of Convenience both to the people themselves and to the Government. Already most of the hamlets have separate village Officers of their own. And those that have not, can be supplied on the arrangement taking place. —

4. There has been some opposition from a few of the villages to the proposal of separating the hamlets but on the whole the arrangement appears acceptable. And I trust may be sanctioned for the several villages entered in my Statement. —

5. I have omitted the village of Varagappan di shown in Hefsey's list for the reason that the hamlet

hamlet is very small, comprising an area of 60 Cawnies only with a population of twenty two resident ryots. But the extent of the village itself is Cawnies. 2024

Sir, In forwarding the accompanying Copy of a letter and its enclosure from the Deputy Superintendent of Revenue Survey I have the honor to remark that the arrangement therein proposed of separating large Mazrahs from the parent village if it can be as easily accomplished as easily as the Tahsildar predicts appears a measure highly desirable. It would not only greatly aid Lieutenant Hefsey but would

would doubtless benefit the Talook authorities, and I cannot but think it would tend both to the easy realization of the Revenue and to the Cultivation of waste.

2. It appears that in some cases Maniagars already exist for the Mazarahs distinct from those of the Ayeen Villages there would be I apprehend no objection to nominating separate Village Officers for Mazarahs in the event of their being separated and formed into distinct Villages as now advocated.

3. It would I presume be necessary to address the Board on the subject so that the proposition meet your wishes I trust you will lay the matter before them and should you think proper I will address the Director of Revenue Settlement after learning your views.

Copy of a letter from Lieutenant W. H. Eby  
Deputy Superintendent Revenue Survey  
dated 21<sup>st</sup> June 1858.

Deputy Director of  
Revenue Settlement

Sir; Challambaram  
I have the honor to enclose a list of Villages which are not only so large as to be inconvenient for mapping but which have within them one or more Hamlets which with the exception of having no defined Boundary are to all intents and purposes separate Villages.

The Cultivation of the Mazarahs is separated from that of the parent village by waste ground.

In many instances as  
May

may be seen in the list, there are separate Maneyagars to them. I would suggest that the Tasildar should be instructed to assign a boundary to each Hamlet. He says that he can do this in two days at the most.

The Village must be divided in some way or other as a map. Containing 5,000 or 6,000 acres is too large to be used in the field. It will be as well to make these divisions permanently useful.

The greater part of the Villages have already been measured by a means. I shall be obliged if you will kindly

Fort St. George 21<sup>st</sup> August 1858.

kindly let me have an answer to this communications as soon as possible as in the event of your not thinking it advisable to do as I propose I must run lines across the villages for our own convenience.

There will be no confusion in the numbering of the fields as the numbers in each Hamlet are consecutive though of course they do not begin from 1.

Perumbaloor is the Quibah of the Talook and a town of some size. The area of land is upwards of 3300 Cawnies. And the Hamlets are some distance off. The Cultivation accounts are kept distinct and the assessment varies in rate for the Quibah and Hamlets. There are two Curmums. But only one Monegar who is likewise the Moonsiff. There is no objection to separating the three.

Remarks. —

One Monegar presides over it. For Coorumbaloor itself there are Six Monegars. And for the entire village three Curnems and one Monsaff. The Kamitet may be separated with advantage and created into a distinct Village.—

The Hamlet and Parent Village are already almost distinct. The revenue Collections are made separately in each by different Monegars. The Village Officers are the two Monegars and one Curnum. The total area is not extensive being within 1200 Caw. mex. But the Hamlet is large and might be separated.

This is a large Village and has an extent of land to six thousand Cawnies. The Hamlet also is extensive and has its own defined boundaries. The Village Officers for the Cusab and hamlet are same - namely One Curram and two Monegars. The Village and hamlet may be separated -

Sir,  
 The Acting District Engineer  
 in his letter of the 19<sup>th</sup> February last having  
 brought to my notice that the Gopuram of the  
 Pagoda at Strevellypoottoor was in a  
 dilapidated condition and from its situ-  
 ation likely to cause injury in case of its  
 falling as apprehended by the executive officers  
 (Lieut Passton) I directed the Tahsildar  
 to call upon the manager (the Zemindar  
 of Shewaghenry) to repair the building.

Lieut Baker has now forwarded  
 an Estimate of Rupees 800 for building up  
 the parts necessary to preserve those parts of the  
 structure which are in danger of falling and  
 he states that from the great magnitude of  
 the work the Zemindar is unwilling to  
 undertake it himself without assistance  
 from the Public Works Department.

3 Copies of the letters above mentioned and of the observations of Lieut Paseton regarding the state of the Gopurum together with the plan and Estimate which accompanied it are herewith enclosed for the consideration and orders of the Board.

4 The surplus proceeds of the Villages belonging to the Pagoda amount to Rupees 3389-6-6.

5 Being doubtful whether the Government would approve of rebuilding a Hindu Temple it seemed to me more prudent to permit it to fall if the manager was so indifferent (or perhaps designing) as to put the onus of the consequences on the Government but since Lieutenant Oakes entertains a different opinion I have thought it proper to refer the matter for the orders of the Board of Revenue.

Collector of Tinnevely.

Sir,  
Lieutenant Paseton in furnishing me with a report on the ancient Buildings in his Range mentions that the large gate way to the Gopurum of the Tinnevely footstool Pagoda is in a dangerous state one of the side walls which is faced with cut stone has bulged very much and would probably give way should any vibration occur. The wall in question is said to have been built about 20 years ago to assist in supporting the Gopurum which on account of the sinking of its foundation or from some other cause appears to have pressed unequally on some of the supports and has splintered the stones of which they are composed. The deflection of

13929

of the wall is said to be on the inner side.  
Under these circumstances I have the honor to request that the Manager of the Struvellipootoor Pagoda may be called upon to repair the wall in question or if the repairs can be executed from the Treasury Fund will call upon Lieut Passtone for an estimate for rendering the same secure.

To,

D. Mayne Esq.,

Acting Collector of  
Struvellipootoor.

Sir,

I have the honor to forward an Estimate of Rupees 800 for supporting the Gubern of the Pagoda at Struvellipootoor for your consideration and sanction and I enclose Lieut Passtone's General Observations regarding the state of the Building and a plan shewing the remedies proposed.

2. It is proposed to construct a semi-circular arch on Pillars 13 1/3 yards high to support the weight of the superstructure and to relieve that portion of the building between the stone pillars from which the stone facing has been detached so much as to render the stability of the building extremely

13931

Fort St. George 21<sup>st</sup> August 1858

extremely precarious.

3. As the Gubernium is 6<sup>5</sup> yards high and there are dwelling houses in its immediate vicinity and also the main thoroughfare along which the boat will be drawn during the feast which takes place about the middle of August, I apprehend that much loss of life may be caused if the Gubernium is not at once supported.

4. I have therefore requested Lieut. Passton to erect the scaffolding (which is provided for in the item included in the Red Bracket in the Estimate) as soon as possible and await your sanction before making preparations for supporting the Gubernium permanently.

13932

Fort St. George 21<sup>st</sup> August 1858.

5. As the two lower stones of the Gubernium are constructed of stone Lieut. Passton has proposed constructing the Pillars and arch of cut stone also in order that the appearance of the building may be destroyed as little as possible but if there is a deficiency in the funds which can be devoted to this purpose the arches and Pillars might be constructed of Brick in Chumam which would reduce the Estimate to about Rupees 4.50 or nearly one half.

6. The manager of the Pagoda the Zemindar of Shevaahery is extremely anxious that the repairs should be executed at.

13933

Fort St. George 21<sup>st</sup> August 1858

at once but he will not undertake them himself as he considers the work of too great magnitude to be performed by the unskilled workmen of the present day without the aid of a skilled member of the Department and I think the Zemin-dar is right for great care and attention will be required in removing the injured portions of the Building & in erecting the proposed arch.

This Guburn is the loftiest and handsomest in the District or in Madras but I am not aware whether it would come under the category of "Interesting Monuments" regarding the preservation of which Orders were issued in G. M. C. No 1060 dated 8<sup>th</sup> 1857 Vide Page 544 Circular Order Books.

## General Observations

July 1<sup>st</sup>

Under the direction of the Surveying Civil Engineer

Streets &amp; footpaths

The foundations of the Guburn have sunk very unevenly causing cracks in the wall of considerable extent which is on one side of the entrance porch in the recess between the large stone pillars the facing of cut stone has separated from the brickwork, on the other it has splintered to such an extent as to render it liable to give way though not detached from the body of the wall to the same extent as the former, which appears to be supported only by friction against the pillars on each side of it, and as it has moved since its state was first pointed out to me, it will be probably fall shortly unless supported.

To prevent so serious an accident occurring I have estimated for constructing walls of one yard in thickness in front of the injured facings

13935

Fort St George 21<sup>st</sup> August

facings to a height of twenty feet and on  
for constructing a semi circular arch with  
with it is hoped remove the strain from  
walls and prevent any further movement  
taking place.

3. Though the fall of the detached part  
wall would not I think involve that of the  
superstructure its removal might be attended  
with danger there being a very large crack  
in the brickwork above it so that on the  
whole I am of opinion that it will be better  
to provide merely against its fall.

4. For the same reason perhaps  
it will be better not to attempt to  
force it into its old position though  
the work would be stronger if it could  
be done.

5. As the collection of materials for  
will take some time and the facing wall  
in its present state very insecure.

13936

Fort St George 21<sup>st</sup> August 1858

to erect as soon as the wood &c can be procured  
a scaffolding with shields of planking to  
support it the shields being removable one  
by one as the new walls are constructed.

6. In the upper part of the building  
since Buttresses are required to support portions  
of the North East and North West walls about  
8 inches of the inner face of the wall having  
split off to a height of about ten feet and  
being likely to fall unless supported.

7. There are several other large cracks in the  
Brickwork caused by the uneven settlement  
of the foundation they appear to have  
existed many years & I cannot find  
that they have increased lately. The work-  
manship employed in building the upper  
part of the Gobson is excellent  
the Bricks used being of better quality  
than any now made & the mortar  
joints

13937

Fort St. George 21<sup>st</sup> August 1858

Joins scarcely exceeding on  
eighth of an inch in thick-  
ness...

8.. I am on the whole inclined  
to think that with the repairs  
I have estimated for there will be  
no fear of the fall of the Goburam for  
very many years and that  
the necessity of taking it down  
will be avoided.

Supreme Government of the 30<sup>th</sup> April last in which it is declared that "casual leave on private affairs" cannot be granted to unimportant servants, I have the honor to request you will inform me what course is to be followed in regard to such servants when they, not being sick, require leave for the day on account of ceremonies connected with the death of relatives and on other somewhat similar occasions. Such cannot often be taken under "privilege leave," as no second leave can be granted under this head till the expiration of 6 months from the date on which the party returned from the leave. It may perhaps be granted as "private affairs," though this is doubtful and it seems hard to subject a hardworking servant to a stoppage of half his pay in consequence of his absence on such an account. As a similar question must have arisen in other Districts I think it best to refer the matter that it may be authoritatively determined upon.

Sir, With reference to an Endorsement on the accompanying Petition N<sup>o</sup> 1236 of 1858, presented to Government by Vellanki Pitchiah alias Tencata Spobbiah, requesting permission to bring a suit in the Civil Court, to recover a share in certain Enam Lands from his relations, I beg to report that it appears from the papers received from the Sub Collector's Office that the petitioner does not now wish to bring any suit on this account, as he and the other sharers have settled the matter so far amongst themselves. The petitioner has still apparently a claim for money due to him on account of these lands, but the permission of Government is not necessary to bring a suit for this.

and value of the other enams held by the family of the late incumbent (Narasimma Chary and whether, in addition to them they held Pottah lands or have any other means of support, also to inform the Board what was the date of the Survey account in which the Enam in question is entered, and to forward the Document referred to in support of the Enam, I have the honor to state that the family left by the late incumbent possesses certain other Enams, amounting to Rupees 30-3, as mentioned in the Margin and no Pottah lands.

2. These last mentioned Enams were originally held by the late incumbent Narasimma Chary, on whose death they descended to the present incumbents as his legal heirs. Besides this, Venkatchary, the eldest son of the late incumbent, draws from the Government a Pottah, or charitable allowance of Rupees 38-10 per annum.

3. I herewith enclose the original deed of Gift with its translation.

4. In regard to the concluding part of the Board's Extract, I beg to state that the Enam land in question was surveyed

Fort St. GeorgeB<sup>d</sup> No 3311From the Collector, Sir,  
of Salem

Adverting to the Board's Endowment on petition No 688 of 1856, calling upon me to report whether the petitioners' salaries and emoluments are relatively smaller than those of the Curmums in the other Talooks of the District, I have the honor to submit the following report.

The

13968

Fort St. George, 23<sup>d</sup> August 1858.

2. The petitioners, Curmums of the Denkincottah Talook, state that prior to the assumption of the Country by the British, the Curmums in that Talook were allowed to enjoy rent free lands assessed at Rs 50 for every village whose Bariz did not exceed Rupees 1000, which is equivalent to Rupees 10 per cent on an average, but that after the assumption of the Country in July 1212, when the Talook was surveyed, a percentage of Rupees 2½ was fixed as a salary for the Curmums, that this salary is a very inadequate remuneration for the amount of work the Curmums were required to perform under the old system of preparing the village accounts, and that it is much more so now owing to the introduction of the new forms of village accounts.

3. The petitioners therefore now pray that a salary of 10 per cent on the Bariz of the village may be allowed to them.

4. On the subject of this petition I beg to refer the Board to my letter under date the 19<sup>th</sup> July 1856. For the Baramahal and Balaghat Talooks, to which latter Denkincottah belongs, the salary of the Curmums was fixed at the survey on a uniform principle, viz at Rs 2½ per cent, but in the Talaghat Talooks, or Talooks

13969

For 6 St<sup>h</sup> George, 23<sup>rd</sup> August 1858.

Talooks below the ghauts, the percentage varied inversely according to the Beriz of the village, the allowance being larger where the Beriz is small, and smaller where the Beriz is large. The percentage in these Talooks is found to fluctuate from Rupees 6. 11. 7 to 8. 4.

5. When any Agraharam in the Talaghat Talooks has reverted to the Government, it has been the practise to introduce such villagers the percentage rate at which the curnums in the Baramahal and Balasaghat Talooks are paid.

6. From the foregoing facts the Board will see that the salaries of the Curmums in the Denkencottah Talook are not relatively smaller than those which the Curmums in the remaining Talooks receive.

against my endorsement, much valuable time - would be lost which can ill be spared, looking to the already very late date which, owing to the introduction of the new rates and other causes, the Jumnabundy of Tuly 1267 has been protracted. I may mention for the information of the Board that this petition is no expression of the general feeling of the Talook but merely the result of the intrigues of a parcel of Mahajanams and Agraharum Ryots who view the revision of the assessments and the withdrawal of these petty remissions with the jealousy they do every advance in the right direction, especially when a door to intrigue and speculation is closed. My own belief is, that  $\frac{2}{3}$  of the signatures are fictitious.

5. I trust the Board will excuse my addressing them direct but it is of the greatest importance, with a view to getting in the outstanding balances for Tuly 1267, that the Jumnabundy should be brought to an early close as possible and a reference to Mr. Whittingham, who is probably by this time at the other end of the district would cause considerable delay and until the petition is finally disposed of by the Board

those concerned will hold out and refuse their puttahs.

6. Should the Board agree to my proposal of a final endorsement I request that the petition may be forwarded to me direct as early as practicable.

the sum of Rupees 197-6-, the revenues from  
grass lands of fushies 12.53 @ 12.67 / minus ex-  
penditure Rupees 32-11- / which have been car-  
ried to the credit of Government under the  
head of Extra Revenue in the different  
years. The Collection of each year, taken by  
itself, being found too small to effect any  
improvements, it was allowed to accumulate  
but instead of being kept a part was by oversight  
carried to account of Government.

2. The roads in the Cutcherry compound are much out of order, and I propose to have them repaired with money on receiving the sanction of Government. I also require a large water Pondal for the use of the public servants and another for parties coming from a distance to sit under during the rain or extreme heat, and as the funds from which these were to have been erected have been amalgamated in the local funds, I shall at once request the District Engineer to set a foot to them. To J. D. Sim Esq  
Secretary to the Board of Revenue  
Port S. George.

Sir,

1. I have had the honor of receiving your  
letter N: 7006 of the 7<sup>th</sup> Ultimo calling my par-  
-ticular attention to the high rate of Salt was-  
-tage prevailing at some of the Ports in this  
District.

2. In Para 2, it is stated that in the was-  
-tage Returns for Fusly 1265, the rate for the  
whole District averaged more than 5 1/2 per cent,  
while at Madras it was only 2 1/2 and in Mellore  
under 7. In reply, I beg to state that the was-  
-tage of Fusly 1265 was enhanced by the Salt  
sold in that year consisting exclusively of Salt ma-  
-nufactured in Fuslies 1261, 1262, 1263 & 1264, and  
was consequently accumulated wastage of 23 3/4  
years old Salt, while the small wastage in  
Madras and Mellore may have been caused

from

13983

Fort St. George 24<sup>th</sup> August 1848.

13984

Fort St. George 24<sup>th</sup> August 1848.20<sup>th</sup> Dec 1852

from exactly opposite circumstances, or from the salt being sold within the year of its manufacture or shortly after. The difference of wastage would of course increase with the years the salt is kept before it is sold. The Board's orders noted in the margin, and an application of the Collector of the District together with the wants of this District occasioned the manufacture of 8,000 Garces of salt in July 1262. but the Collector having only indentated afterwards for a small quantity of salt, left the remainder to be sold in this District. The Board's orders of the 13<sup>th</sup> March 1854, having enjoined a full 2 years supply of salt to be kept up, has by the trade falling off, further occasioned large stocks of salt to be kept on hand, and exposed longer than was advisable, or was anticipated, to the inclemencies of many successive seasons, and thereby enhanced the amount of wastage as a necessary consequence.

3. As regards the wastage of  $25\frac{3}{4}$  per cent at Soonapagootah, it appears that a theft to the extent of 3 Garces 185 Mercals was discovered in two of the heaps the value of which amounting to Rupees 391-15-9 is under process of recovery from the servants at the Pains. The servants might have been dismissed, but it was thought better to make them in future by deductions from their monthly salaries when recovered, the percentage of wastage will be reduced to a trifle.

4. In Para 3, it is stated that the average rate for the whole District rose in July 1266 to 11. 4 per cent.

and at Poongalum to 21 per cent on the salt of July 1263. As before remarked, the loss was not derived from the salt of one year only being sold, but from salt that had stood 5 years, and diminished accordingly. There were moreover heavy gales in November and December 1266. The Pishcar at Poongalum reported the losses from the gales to vary from 2 to 9 per cent, and the Head Assistant, who afterwards visited the Pains, ascertained the entire losses, inclusive of the special losses by the gales, to be 38 per cent.

5. Referring to Para 4 of your letter whether any investigation has been held on this subject, I beg to state, that whenever losses are reported from unfavourable weather Estimates of them are called for, and whenever practicable, tested by the actual measurements of the Head Assistant. I have myself personally examined heaps and compared them with the Estimates sent in. These examinations are kept as records, and act as a check against the Pishcars who know that their reports of sales will be tested by the results of these examinations, and no further loss of salt allowed than the quantity found on the last examination would honestly allow of. If it has exceeded it, the servants at the Pains have been summarily brought to account, and compelled to make good the excess.

6. Enclosed are 2 Statements showing the losses found on examination in each of the Tinslies 1265 and 1266, and the losses actually ascertained when the heaps were sold with explanations of the difference. The Board will see that the losses do not vary much in respect to each other.

This small excess of wastage is owing to an interval of 8 Months occurring between the sales and the date of the last examination.

This disease has resulted from the examination having succeeded and the sales for the most part preceded the Monsoon.

Vide remark opposite ch. 2

This decrease is owing to the difference of measurement caused by weighing salt when exported and measuring it when examined.

Note remarks opposite Chugoot.

This trifling increase needs no remarks.

This large increase is owing to an interval of 2 years since the date of the last examination.

A theft was committed in 2 of the heaps, but the perpetrators not being discovered, the servants at the Pans were ordered to pay Rs. 391-15-9 towards recovering the loss, their dismissal being considered inexpedient.

The percentage in Col 7 is on the whole less than that in Col 10 but the wastage in 2 of the heaps sold being greater than in other heaps a sum of Rs. 9 1/4 was recovered from the Fishcar and other Officers.

Signed C. J. Shubrick  
Collector.

1. I have the honor to return the Petition  
N: 1811 of 1858 from Mummiah and Timmiah  
inhabitants of the Mavoonja Konasamoodrum  
the Puduvail Talook praying for orders for the  
repairs of their Tank.

2. On receipt of the Petition it was forward-  
ed to the District Engineer with a request that  
he would do the needful. Copy of his reply to  
my application is herewith forwarded for the  
Board's information. It will be seen that an Es-  
timate was prepared for this Tank amounting  
to Rupees 2400 and forwarded to me for approval  
on the 11<sup>th</sup> May. it was then forwarded to the  
Chief Engineer who sanctioned the amount on  
the 1<sup>st</sup> of June last. It is not very clear,  
whether this sanction is included in the 26,800 Rs  
referred to by the District Engineer, or whether it  
was a separate sanction, nor does the District En-  
gineer mention what sum was available for the  
Tank. if the Chief Engineer's sanction was not  
included in the 26,800 Rupees, the Tank might  
have been repaired by this time, and as it  
appears an important work, something might  
have

have been done to carry out the repairs.

To, M. Murray Esq  
Collector of Cuddalore.

Sir,

I acknowledge the receipt of your letter  
of the 27<sup>th</sup> Instant, N: 577 along with an enclosure,  
which is herewith returned. I have the honor to in-  
form you that our estimate for the repair of the  
Konasamoodrum Tank, amounting to Rupees 2400  
was included in List N: 1 of the Ordinary Es-  
timates for May last, which I forwarded to you  
for signature with my letter N: 29 of the 11<sup>th</sup> May.

2. The Estimate in question was sanctioned  
by the Chief Engineer on the 1<sup>st</sup> June last, and the  
work would have been commenced, and well-nigh  
completed, ere now, but for the fact that the ex-  
penditure for the present year on Irrigation re-  
pairs is restricted by the strict orders of Govern-  
ment to Rupees 26,800. The consequence of this  
most unfortunate restriction is that the Konasamoo-  
drum Tank, along with many more in equally  
urgent need of repair, has remained till now un-  
touched.

3. I have been for a long time in hopes that Government would have seen fit to remove the restriction to which I have alluded. I first addressed the Chief Engineer on the subject on the 13<sup>th</sup> May, deprecating strongly the smallness of the sum allowed us for this year. Since that I have written repeatedly on the subject, and I still hope something may be done before it is too late.

When in 1855 land was first taken  
up in this District for Railway purposes an  
order was sent by me to the several Tahsildars  
concerned directing them to include all the land  
occupied by the side ditches of the line in the  
account of compensation payable by the Govern-  
ment. The compensation accounts having been accord-  
ingly prepared & submitted by the Tahsildars were for-  
warded to Mr. Pochin the Head Assistant Collector in  
order that they might be examined and checked in  
his office, the talook through which the line passed  
being in his Division.

2 That officer under a mis apprehension  
returned the accounts to the Tahsildars with  
an order directing them to enter all the land  
occupied by the side ditches in the account  
of compensation payable by the Railway  
Company for ballast pits which he considered  
them

them to be. —

3 Revised accounts were accordingly prepared and submitted by the Tahsildars to Mr. Pochin in whose office they remained till he was called away to Banara to assume his appointment of acting additional sub collector. The accounts were then called for by me & were submitted to the Board on four different occasions & claims to compensation were disposed of by me.

company the remainder the railway authorities refuse to pay on the ground that they had not taken up for ballast pits as much land as has been put down to their account. Upon this representation the accounts were reexamined & it was found that the land which had been entered in the accounts as taken up for ballast pits was in fact land occupied by the ditches bordering the line & which should therefore have been paid by Government & not by the Railway Company.

5 An account has therefore been prepared in which the compensation for the land occupying the side ditches has been charged to Government. The Board will observe from this account which is herewith submitted that the amount really due by the Railway Company for land taken up by them is only 15 Rupees and that as they have paid the first of the sum marginally noted in para 4 vizt Rupees 147-10-5 they have over paid the sum of 132-10-5 which I request sanction to refund to them and to charge the same to the Government and also the sums of 189-14-5, 295-2-5 and 290-10-10 making a total of 908-7-1 payable by Government.

As required by the Board we

the Proceedings dated 22<sup>nd</sup> ultimo have  
the honor to forward the accompanying state-  
ment shewing in detail the mode in which  
the recently revised tarums and rates of  
assessment of this District can be introduced  
into the Petitioners Village which formerly  
belonged to Chingleput and what would  
be the effect of the change. -

Poonjah

3 It will thus be seen that  
421 Cawnies of Poonjah are at present assess-  
ed at Rupees 116-8- The rates vary from  
Rupees 3-4-6 to 2-10- per Cawny and the

nearest equivalents in the South Arcot modifa-  
scale, after deducting 25 per Cent are the 9<sup>th</sup> 11<sup>th</sup>  
tums Viz<sup>t</sup> Rupees 2-11 and 2-3 respectively - by  
this process the reduction in the Poongah assess-  
ment will amount to Rupees 223-7-0

4 Similarly a remission of  
20 per Cent on 70 Cawnies of single crop land  
land at present assessed at 529 and the ass-  
-lation of the tums to their nearest equiva-  
-lents in the scale of this District, involves a  
sacrifice of assessment amounting to Rupees 11-7-0  
To this must be added the sum of 17 Rupees  
hitherto levied on 3 Cawnies as consolate  
2 Crop Teerwah - and upon which for the fu-  
-ture single crop Teerwah should be charged  
Two crop land will pay a moiety of the first  
crop assessment, when a second crop Teerwah  
will hereafter be levied on registered  
crop land as has hitherto been the practice in  
Chingleput.

Total

5 There is but 1 $\frac{1}{3}$  Cawny of 9<sup>th</sup>  
-der land in this Village assessed at 10<sup>th</sup> 11<sup>th</sup>  
per Cawny brought to the South Arcot scale  
this will be charged for the future at 7-1 per  
Cawny and the reduction on the assessment  
amounts to Rupees 11-7-0

dry land by means of Cereus water, it is the  
practice

practice in Chingleput to levy the aver-  
-age wet assessment of the adjoining lands.  
In future the prevailing, uniform rates of  
Kafser Viz<sup>t</sup> 5 Rupees for a wet or Garden  
crop and 3 Rupees for a dry crop, will be  
charged on such occasions.

7 Trees are taxed a triple  
higher in the Chingleput Villages than in  
in the rates will be assimilated at a  
loss to Government of a few annas.

8 The allowances to Village  
Officers should also be regulated event-  
-ally on the same principles as those which  
prevail in this District - This can be done  
at the next settlement and will involve the  
resumption of maniam lands and the pay-  
-ment of ready money allowances without  
loss to Government.

9 I am not able to state with  
certainty that the Chingleput Villages have  
been transferred to this District are not present-  
over assessed or that the petitioners in common with  
the rest of the 5 other Villages similarly circum-  
-stanced have real grounds for an abatement of

the present rate of assessment. similar to that which has been conceded to the ryots of the 10 Hooloos Talooks. The rates of wet assessment are higher, by the dry rates are lower compared with those of this District. I think it desirable however on the whole that these Villages should be assessed uniformly with those of the Hooloos Talooks. The Board will observe that every large portion of the Apanat of the Petitioner's Village is waste and I have little doubt that a reduction of assessment will result in an extension of cultivation and eventual increase of Revenue. On these grounds I would recommend that the concluding proposition of Petitioners be complied with. Similar Statements have been prepared for

14007

Fort St George 24<sup>th</sup> August 1858

for the remaining 5 Villages and on the receipt of the Board Orders in regard to the treatment of the Village now reported on, the Assessment of the others will be arranged accordingly. The total abatement of the assessment in the Villages of this reduction be carried out will amount to 1799 Rupees on the total Apanat.

From the A<sup>d</sup> Collector  
of Madura.

1. I have the honor to submit the consideration of the Court of Wards the following information with reference to an Extract from the Proceedings (N= 1600) under date the 14<sup>th</sup> May 1858 in which they sanction the payment of Pichama Nachear's debt, on the condition of her residing at Sengunga.

2. The offer was conveyed to Pichama Nachear in a Gadast of the 19<sup>th</sup> idem and (in consequence of her taking no notice of it) by a second one dated the 15<sup>th</sup> idem.

3. After the return of Mr. Fisher from a temporary absence, she, on the 24<sup>th</sup> June, replied that she would accept the offer but could not at present proceed at Sengunga as the Palace required repair, living there was expensive and some matters relative to the Zomendary, which were under investigation before me required her presence in Madura.

14010

Fort St George 24<sup>th</sup> August 1858

4. Being satisfied that these were vain excuses, I informed her that the offer of the Court of Wards would be no longer be open to her as she refused to accept its conditions.

5. Against this order, I am informed she has appealed to the Court of Sudder Udulat. In the mean while as the documents marginally noted will shew, the decree holder, Cadavalaan Chetty has transferred the Decree holder to Mr. Fischer who has paid him the amount Rupees 4757-9-10.

6. It appears to me that Mr. Fischer's only object in thus assuming the liabilities of the debt, is to obtain influence when the Zemin-dary is given over to the minor.

7. This would I fear be prejudicial to the Zemin-dary's interests and I would suggest that to check any future transaction of this nature the Court of wards (the condition not having been accepted) cancel the sanction contained in the above Proceedings.

8. Even if Pichama Nachear were to leave for Sengunga it is more than probable that she would take an early opportunity of re-turning to Madura.

9. So long as she can induce Chetty and

Translation of a Deposition given by Cadaravalon Chetty the adopted son of Arnachellum Chetty Vathegloor in the Amaraaty Talook Shoragangam Zemindari

I received from Mr G. F. Fisher Rupees 1757-7-10 being the judgement amount and interest due to me by the Ranae Pichama Nachar and made over to him my claim to the same, communicating the said circumstances to the Civil Court on the last Court day. -

Lutchumonen Chetty and Arnachellum Chetty filed a suit against the Ranae Pichama Nachar, which was settled by Ranae Namah for the amount of which and the interest thereon viz Rupees 15000 and odd a receipt was issued, of which amount Rupees 12000 being paid from the sale proceeds of the Villages of Arnachellum and Careshavolum sold by auction

14012

Fort St George 24<sup>th</sup> August 1858

in 1855, there was a balance of Rupees 3400 and odd, which was made over to me by the said 2 Chetties in December 1857. This sum and its interest amounting to Rupees 4700 and odd, I now made over to Mr Fisher as stated above at whose desire Cunden Chetty and Ramon Chetty paid me the amount on Tuesday last the 20<sup>th</sup> Instant and I presented on the next day a motion to the Civil Court informing it that I received the money from Mr Fisher in cash and requesting therefore that he may be ordered as Plaintiff - and that the warrant and the order for attachment issued on my account be stopped. -

Translation of a Deposition given before the Acting Collector of Madras by Cundon Chetty son of Nallarejan Chetty and Ramon Chetty of Andaravaram Chetty of Madras under date the 23<sup>rd</sup> July 1858.

We have in dealings with Mr Fischer - agreeably to his wishes we paid on his account Rupees 4,757-9-10 to Nattercottay Cadarabalen Chetty on the 20<sup>th</sup> Instant who told us that the amount he received was the judgment debt due to him from Pichama Nachcar which has made over to that Gentleman.

We have heard it read over to us it is according to what we have deposed to.

up for Rupees 310 for 5 years in June 1856, and has three  
 years yet to run for the period of engagement to be completed.

The request of the Contractor at present is  
 not for a permission but a return of the contract  
 of his contract, which as it appears to me to  
 be reasonable they have commenced for auction and to  
 request the Board's permission for reselling the contract  
 for the unexpired period. You will observe that my

To

P. Grant Esq.  
 Acting Collector of Malabar

Sir

I have the honor to forward for  
 your consideration an agree-  
 ment from Morden Cooty the  
 Arrack Contractor for this  
 station.

M. D.

14017

Fort Saint George 21<sup>st</sup> August 1858

He complains of the great loss he has suffered by the sudden termination of the Regiment from this station.

This complaint I think natural and reasonable and I recommend that so far as he struck off his contract for the present July, the total amount of his contract being, Napier etc.

You will perceive by a report from the late Acting Collector dated 12 Decr 1857 No 354 that he was of opinion that the request for a remission was unreasonable and that it would be taken into consideration of the present Contractor agreed to cancel the present Contract and leave it to be put up to auction afresh, there being still three years of the present Contract yet to run. This by the enclosed deposition you will perceive the Contractor states. Should you agree with me in directing a remission to be made and the Contract to be put up to auction afresh. I recommend that the Contract for the present be limited to one year as it is as yet uncertain whether this station will again become the Head Quarters of a Regiment or not.

I have &c

In reply to a circular Ex-  
tract from the Proceedings of the Board  
of Revenue dated 19<sup>th</sup> July 1858 No. 2675. —  
accompanied with an Extract from the  
Minutes of consultation of date the 8<sup>th</sup>  
July 1858 No. 941 I have the honor to  
state that the Salook Officers under whose  
Jurisdiction lapsed Enams may be situated,  
have been duly instructed to secure the  
cultivation of the lands to the best ad-  
vantage, and they are usually leased out  
to Ryots on the most favorable terms con-  
sistent of course with the ascertained capa-  
bilities of each individual holding. —

2 The village officials are further  
made responsible and are required to report  
in all cases of lapses of Enam which are held  
merely on life tenure and at the close of  
each year the heads of Salooks are accustomed  
to

With reference to the decrease of "Home sales"  
pointed out by the Board, it would appear that  
so far as this District is concerned no material  
fluctuation has taken place in the quantities  
sold annually from 1263 to 1265. In 1266 the sales  
were greater in consequence of prices being reduced  
on the abolition of the Depots at the several places  
noted in the margin on which occasion a larger  
quantity was purchased by the inhabitants of  
that neighbourhood for future use the same  
circumstance accounts for the deficiency ob-  
servable in July 1267. —

No 132

To  
J. D. Sim Esq.  
Secretary to the Board of Revenue  
Fort St. George

No 3340.

From the collector  
of Bellary —

Explains the difficulty of obtaining the necessary documents for the Board of Revenue in his District with reference to the Proceedings of the Board of Revenue No 2103 of 17<sup>th</sup> June 1858.

Sir, In Extract from the Proceedings of the Board of Revenue No 2103 of 17<sup>th</sup> June the Board observe that notwithstanding the repeated orders of Government against allowing any one class to engross public offices, almost all the important situations in Bellary are held

Fort St. George 25<sup>th</sup> August 1858.

the Board expressed (Para 5) that they are unwilling at present to extend these restrictions to the Sahibdars, or to introduce specific rules by which the official patronage of the Collectors should for the future at all be fettered. They (para 7) admit without question "that the favored class has chiefly recommended itself hitherto by its peculiar aptitude, and qualifications for the Public Service, and that it would probably be found impracticable to supply its place at once to the desirable extent, by other castes without prejudice to the public interests," and expressed a hope "that from the advance of education the Collector will find no difficulty in securing efficient men from all classes, and in proportioning fairly his patronage among them."

3. The Board have before them my letter dated 1<sup>st</sup> December 1850 reporting upon the Petition presented by the Merchants of Bellary to the Right Honorable the Governor Lord Harris relative to the family connections of among the Government servants. From this report the Board will observe that undoubtedly the class most efficient and able to transact the general duties of this District have

Fort St. George 25<sup>th</sup> August 1858.

have been the Brahmins and hence the "influence they acquire." I also stated that "the men of ability of other castes are hardly to be found in this District, and to introduce them into the Public Offices it will be necessary to initiate youngmen into the duties of the Office and that they should come in as Volunteers and go through the several grades and that they cannot be put at once into responsible offices." In the Board's Proceedings dated 31<sup>st</sup> March 1857, held on the above mentioned letter, they observed in para 9 that from the establishment of examinations of candidates for public employ and from the improved opportunities of gaining instruction now afforded by the Government, all classes will have a fair chance in competition and will greatly lessen the evil of family connections of the Government servants.

4. When the question of monopoly of public employ arose, the Board and Government calculated that of the whole number of servants as they stood at that time viz. 388 only 38 were persons belonging to other classes, the remaining 350 were the Mahatta Brahmins. The term Mahatta Brahmins, is not correctly speaking generally applicable

14033

Fort St. George 25<sup>th</sup> August 1858.

applicable to the Brahmins of Bellary, the Mahatta Bramins are very few, but from the fact of the accounts of this District having from the commencement of the present Government been kept in the Mahatta language, the appellation of Mahatta Bramin came to be used incorrectly. There are 3 descriptions of Bramins employed in this District viz: 1<sup>st</sup> Smarthas who worship both Vishnu and Siva 2<sup>nd</sup> Mudhuwas or Vyarnavas of the sect of Vishnu and 3<sup>rdly</sup> Shreyshavas as distinguished from the 2 former sects. each of the above castes neither contract marriages nor take meals with one another, the Shreyshavas especially do not take their meals in the presence of the other two classes. The above are the 3 principal sects of Brahmins and each of them are subdivided into many tribes &c. and each of these select their own class for intermarriages, and religious disputes exist between the several classes of Brahmins, they have never been connected with each other, as they consider themselves distinct from and superior to each other. But they are all according to class distinctions superior to all other castes in the estimation of the people. The respective number of each of the Bramin castes employed in this District are as shown in

14034

in the margin. The number of other classmen formerly calculated at 38 appears to be incorrect, as the actual number was 44 and this has since been increased to 49, the different grades in which these other castes are at present employed are as follows-

| Grades.                           | N <sup>o</sup> of other class servants not Bramins prior to 1855. | Present number | Difference. |

With the exception of Shroffs, Gollers & Noogoon Duffadars and Moochies, all the above men of other castes are not Bellary men. East Indian was promoted to the office of Head Accountant by the employment on other work of the original Brahmin incumbent. The Deputy Accountant and some principal writers are also of other castes. 3 men of other classes have been appointed to the office of Tahildars the first of whom I obtained from Major Dobbs Superintendent of Chittledroog Division in the Mysore Country and who is now a 1<sup>st</sup> Class Tahildar, the 2<sup>d</sup> is a Madras man who had been correspondence writer in my Office now holding a last class Tahildari and the 3<sup>d</sup> who is a resident of Masulipatam and who held the situation of Moonshee in the Sub Collector's Office was promoted to Tahildari of 100 Rupees per Mensem. A writer in the Military Department has been made the Police Ameen of the town of Bellary. A Mahomedan recommended to me by a member of the Board who had been a Gomastah in the Subordinate Court at Cuddapah, is appointed to the office of a Talook Sheristadar for qualifying himself for eventual promotion to a Tahildari, and three other young men have been introduced into the situations of Zillahdars in order to qualify themselves for holding higher appointments, and I am prepared to introduce more young and

and clever men found fit among other classes but the scarcity and consequent difficulty of finding fit persons among other classes is very great and has been fully reported before. But so far from my not having availed myself of opportunities to carry out the views of Government and the Board I feel that I have done all in my power to do so. and regret greatly that the Board should have deemed it necessary to record a different opinion. There are on the list of Superior situations -

all of other castes when in 1855 there was not one of these grades who was not a Brahmin, and in point of ability and efficiency for the service the appointments made of other class officials have been inferior to what might have been made had a selection been made from Brahmins.

5. Of the inhabitants of this District all the Village Pottails are of other classes than Brahmins, and there are almost the only persons among other classes that are at

14037

at all educated and able to write and read the language. They are vested with the powers of Village Moosiff under Regulations 4, 5 and 11 of 1810. The opinion entertained by myself as well as my predecessors of their unfitness to exercise this little authority that they have been invested with, is so strongly impressed in the minds of all Officers of the Board and Government that I need not offer any observations on the subject. There are a few of these men who might be selected for inferior appointments, they generally prefer employing themselves in their proper agricultural pursuits.

6. As education advances it is hoped that the services of educated men may be gradually secured hereafter from all classes in the District for the Government employ. There is at present but one Provincial School established in this District, the contemplated Talook Vernacular Schools have not as yet been opened. At the Bellary Provincial School the present number of pupils amounts to 300 of this 119 are Brahmmins and 181 of other classes. The other class inhabitants of the interior of this District do not send their children to the Bellary School whether from want of means or from not having relations and

and friends at Bellary to look after them, and therefore the early establishment of Talook schools will be of benefit especially for the people of other classes and thereby lessen gradually the difficulty of securing fit persons for employment in the Government service. But I know not yet where to obtain men competent for the higher offices of the District who can compete with those whose whole lives have been spent in the public service or in preparing for it. Even in the English Department at Bellary it is frequently found that the Brahmin is the best servant.

the ryots for the injury done to their standing crops amongst which they were obliged to go in marking out the line and consequently trod down and injured.

2. Besides the injury done to the standing grain, it was found that a number of valuable trees, such as the jack fruit, Lammaid Coconut and Betel Gardens had to be cut and destroyed to the injury of the ryots. The Tahsildar of the Talook of Chittur, Venkatarow went to the spot and arranged the matter between the Railway Company and the ryots. The Engineer Officers of the Company refused him and the Ryots to the Collector for compensation on account of the loss sustained by the felling of trees and destruction of Betel Gardens &c. The Tahsildar, by means of a Panchayat, has settled what is considered a fair compensation, to those who suffered loss amounting to Rs. 250-10-0. As I have no power to disburse this amount without sanction, I beg to enclose translation of a statement forwarded to me by the Tahsildar, showing the amount of compensation awarded to each individual for the loss he may have sustained.

From the Collector  
of Cuddapah

I have the honor to submit for the consideration of the Board, copy of a communication received from the Acting Civil Auditor, from which they will perceive that he has only passed my Bill for Extra Tent allowance for halting at Muddenpully on account of the Settlement, from 21<sup>st</sup> April to 19<sup>th</sup> May 1858 and objects to pass another for the remainder of May and part of the month of June without the sanction of the Board.

2. I would beg to state, that my object in claiming Extra Tent allowance for two months in full, is, that the Settlement of the Talook of Goomumcondah was conducted at the Cusbah Muddenpully in addition to the Settlement of that Talook in consequence of their being no Talook butchery or other accommodation at the Cusbah Goomumcondah or Volpand suited for the occasion. The Jamabundy of each Talook had occupied a month, and had accommodation been available at Goomumcondah and I had held the Jamabundy there, I should certainly have been entitled to the Extra Tent allowance.

claimed. But in the present case, I had no other alternative but to choose Muddenpully as the most contiguous to Goomumcondah and left in convenient to the Village officers and Ryots to assemble for the occasion.

Under these circumstances I trust the Board will have no objection to admit my claim.

In para 10 Extract in  
minutes consultation under date 15<sup>th</sup> May  
1858 N<sup>o</sup> 632 Communicated with Extract in  
Proceedings Board of Revenue dated 28<sup>th</sup>  
May 1858 N<sup>o</sup> 1921. Government direct that all  
demand of services from the Cutcherry  
Peons of this District should be at  
once discontinued. —

2 In communicating recently  
with the Commissioner of Police on  
the subject of these peons, I stated to  
him that I considered it advisable to  
solicit the permission of Government  
for postponing their exemption from  
service till the new police arrangements  
for the District were carried out, and  
he expressed his concurrence in  
my

my views. —

3

In para 4 of my letter of the 24<sup>th</sup> December 1857 No 334 on the subject of the Cutbody peans. I stated that "although the general charge of Neglect of duty was sufficiently borne out against the Cutbody Peans, yet I had, had, as Magistrate proofs that some of them were not abnoxious to the Charge." Many of them are employed in the Talooks of Chittoor Palmanair, Tirumallam, Satchur, and Chendragherry in precisely the same duties as the regular police peans; they hold the same and patrol the road. Some months ago, 2 Highway robberies occurred on consecutive days, which were undoubtedly the consequence of negligent performance of their duties by the Cutboddies employed in that part of the District. I sent for them and admonished them; they promised and

14047

Fort St George 25<sup>th</sup> August 1858

and shewed greater vigilance, and the robberies ceased in that quarter. On the 23<sup>rd</sup> July, a highway robbery occurred in a lonely part of the Talook of Chendragherry, and both the Head of Police, and the Merchants who were robbed, attributed the robbery to the fact of the Cutbody peans employed in that road not having shewn their usual vigilance. —

4

Without therefore considerably increasing the police force in those Talooks in which the Cutboddies do perform police service, it would be hazardous for the peace of the County to dispense with their services, and with the near prospect of the introduction of the revised police Establishment, I do not recommend such an increase to the present force.

I would therefore solicit permission to retain the services of such of the Cutbody peans as are now

14048

Fort St. George 25<sup>th</sup> August 1858

now performing police duties and whose  
 today is less than the present assessment,  
 and therefore a boon to them, until the new  
 police arrangements have been com-  
 pleted such of the bulbody means as pay  
 a higher today than the new rates  
 of assessment, have been permitted  
 to resign their Quams and hold  
 their lands at those rates - They  
 will of course perform no further  
 police duties.

To

J. D. Sini Esq.

Board of Revenue

Fort St. George

B. N. 3060

From the Subbally Sir  
 of South Arcat }

In their Proceedings of  
 the 12<sup>th</sup> October 1854 The Board declined  
 to sanction the levy to wards the District  
 Road Fund of 1 anna per Cany on land  
 brought to the Jummah in the Talooks  
 of manargoddy, Chellumburam and Cudda  
 here, on the ground that it was inequitable  
 to make an arrangement similar to  
 that which was introduced into the 10<sup>th</sup>  
 Hoosoo talook until the revision of  
 the assessment in that part of the district,  
 which has been recently surveyed, &  
 should have been completed.

Three years have now elapsed since  
 their orders were written and through the talook  
 in question have shared to a considerable  
 extent in the benefit produced by the land  
 they

14050

Fort St. George 25<sup>th</sup> August 1858

they have hitherto contributed nothing whatever towards the expenditure. This state of things besides being unfair to the rest of the District, prevents our doing so much for the improvement of those Talooks as we otherwise could. There is no part of the District where good & improved communication are more wanted and more appreciated than in the two Southern Talooks. The Board are well aware of the difficulties experienced by the Ryots of well irrigated tracts on the absence of good communications, but the state of the Funds will not admit of the construction of Cross roads in these Talooks to facilitate the transport of produce from the Villages to the principal Markets. They will have seen from the sketch maps forwarded that the operation of the District fund in the Southern Talooks has been confined to making a road between the Cross bars of Chellamburam and Manargudy and from the former town to Bhonaghere, towards Pottan and Pillay also from the Vellans' ancient to the Veeramm tank and from Manargudy to the Calerom. With the exception of these and of the main Southern road which moreover is in a disreputable condition for want of funds, there is nothing that can be called a road in that part of the District. The same remarks apply, but of course in a minor degree, to the Talook of Cuddalore.

14051

Fort St. George 25<sup>th</sup> August 1858.

3

I beg therefore that the Board will be pleased to reconsider the matter and should they see no insuperable objection convey to me their authority to deduct from the present appts. of the talooks of Cuddalore Manargudy and Chellumburam for the current year, a Contribution to the District Road fund at the rate of one anna per Camney as is now done in the 10 Hosloos talooks. The approximate amount will be as specified in the margin. The Kullimalay resumed Jagheers will contribute 302 Papes. There are local Circumstances connected with those of Cheekady and Sunkaraparam which render it desirable to exclude them for the present.

4

The Board will bear in mind that a temporary remission of 20 percent has been granted to the Ryots of these Talooks pending the revision of apsement under the Director of Revenue Settlement. I am unable to state when this is likely to be completed by my information does not lead me to believe that the total Revenue to be hereafter assessed will materially differ in amount from that which is at present collected. for land of equal extent, and that the portion thus received from the Petitioner's brother was transferred to other parties named Iylasum Iyer and lastly for another piece of land of the same extent and that these parcels of land were entered in the Pattahs of those in whose possession they were.

After the Pattah for the land advertised to have been prepared in July 1866 in the names of the persons before mentioned, one Chittrabrotha Pillay alluded to by Petitioner presented a complaint to the Sub Collector stating that his maternal Grandfather Nullascom Chetty alluded to by the Petitioner had in July 1832 by word of mouth bestowed the aforesaid 12 and odd mircals of land to his father Seneer vasagum Pillay, that subsequently the sons of the donor, vizt Pillay moorthu Pillay and Soundratnam Pillay ratified the gift under a written Document, that ever since he and his father had been in possession of the land and up to July 1865 enjoyed the same by the Sub tenants, to whom it had been leased although the registry and Pattah had been allowed to remain in the names of the donor's sons on account of his (Nullascom Chetty) absence at Travancore and that on his return to Tinnevely in July 1866 the Registry and Pattah for that year ought to have been prepared in his name.

agreeably to the aforesaid Circular of the Sub Collector, and requesting that that order might be enforced in his case and the Pattah ready prepared and called; and that no obstructions should be offered to his enjoyment of the land.

The Sub Collector investigated the case under Regulation v of 1822. The Petitioner in No 1357 pleaded that as the a.c. Courts do not exhibit the name of the Chittrabrotha Pillay the land was not in his enjoyment. The Petitioner in No 1356 at first professed to have known nothing of the matter, but subsequently declared that he had only assisted the Petitioner in No 1357 in the preparation of the Pattahs and consequently affixed his signature to them from the oral evidence however adduced before the Sub Collector, that officer was of opinion that Chittrabrotha Pillay had been in the enjoyment of the land, he ordered the Pattah to be made over to him, and fined each of the Petitioners a month's pay for concealing the truth from him and dismissed the Petitioner in No 1357 for not preparing the Pattah for July 1866 in obedience to his circular order, and the Petitioner in No 1356 on the probability of his

having been privy to the conduct of his colleague, the more probable as a portion of the land in question had passed into the hands of his brother.

9 Three Petitioners then appeared to me, but I was precluded from making any reference to the records of the case, for reasons set forth in my endorsement of the 2<sup>nd</sup> May last.

10 In conclusion I have the honor to add that Pillay, Mootoo Pillay and Kullaseem Pillay had appealed to the Civil Court against the Sub-Collector's decision declaring the land to have been in the enjoyment of Chittapootra Pillay, but by a Decree / copy whereof is herewith submitted / decision of the Sub-Collector was affirmed.

1 This is an appeal from the decision of the Sub-Collector under Regulation V of 1822 adjudging certain land to remain in possession of the Plaintiff and the Pottah to be made in his name and referring the Defendants to the Civil Court.

2 The widow and heir of the first Defendant and the 2<sup>nd</sup> Defendant object to the decision on the following grounds:  
First Sheet

1<sup>st</sup> That the Sub-Collector did not take an answer from the Defendants nor make a personal investigation, but referred the matter for the enquiry to the Tahsildar, and merely required the Defendants to verify their statements before the Tahsildar without an opportunity of cross examination, and that this proceeding is contrary to the decision of the Sudder Court in Special Appeal No. 12 of 1851.

2<sup>nd</sup> That the Tahsildar has reported the deed of gift on which the Plaintiff bases his claim to be a forgery, and that its alleged grantor Kullaseem died before its date.

3 That the fact of the Defendants having enjoyed

Fort Saint George 25<sup>th</sup> August 1858.

enjoyed the land through the 1<sup>st</sup> and 2<sup>d</sup> witnesses up to  
 July <sup>1856, 57</sup> 1266 and of the 2<sup>d</sup> Defendant having cultivated  
 the land himself in <sup>1857, 58</sup> 1267 is proved by the village officers  
 and mether Pon and the Sasildars Simund and  
 by the vassal coorippon Chetta and Caramaul accounts.

4<sup>th</sup> That the 1<sup>st</sup> and 2<sup>d</sup> witnesses allude  
 to in the decision appealed against, gave evidence  
 adverse to the Defendants in consequence of their  
 (Defendants) having after the 1<sup>st</sup> depreciated sale  
 to the said witnesses, resold the property to the Court  
 Valuer Shunkarabingoom Sallay that the fairness of  
 their evidence will be obvious from the fact of their  
 having previously declared before the Sasildars that  
 the Defendants held enjoyment and obtained a  
 Simund and from the circumstance of their having  
 been included in original Suit No 78 and 113 of  
 1856 in the file of Krommadam District Mroonoff  
 as the tenants of the present Defendants (Appellants)  
 and then having made an answer in the said suits  
 admitting the same.

5. That Nulaperrumuttaven through whom  
 Plaintiff alleges he cultivated the land in <sup>1856, 57</sup> July 1267  
 declares that it was cultivated by the Defendants  
 and that Soobramoonyataven has made the  
 same statement.

6. That the statements of some of  
 the

Fort Saint George 25<sup>th</sup> August 1858.

the deponents before the Sasildar were not correctly re-  
 duced to writing but are taken down by the Registrar  
 on notes favorably to the Plaintiff - that the said  
 statements which were taken in the absence of the  
 Defendants are inadmissible and that the 1<sup>st</sup> De-  
 fendant did not admit the enjoyment of the Plain-  
 tiff whatever his deposition may have been made  
 to represent by the writer thereof which the Appellant  
 are not aware of.

7. That the Plaintiff's enjoyment is not  
 entered in the Circular accounts from the date of alleged  
 gift a period of 25 years as mentioned by Plaintiff  
 according to Mookoomanahs issued in the Revenue  
 Department, and that the Plaintiff advanced no  
 objection when the Entry or registry of the land in  
 dispute was changed on any claims in suits insti-  
 tuted without his having been included therein.

8. That enquiry has been made after  
 decision (in this suit) as to who enjoyed the pro-  
 duce of the lands in dispute in <sup>1856, 57</sup> 1267 and regard-  
 ing the exchange of lands.

9. That certain of the records in the  
 Civil and Principal Sudder Ameen's Court will  
 show that the Defendants held the enjoyment.

10. The Plaintiff in his answer observed  
 1<sup>st</sup> That a counter Petition to the Plaintiff  
 Complaint

Complaint / was filed on behalf of the Defendants at the Talook, and that the witnesses examined at the Talook were interrogated before the Sub Collector's Office according to the practice there and cross-questioned on behalf of the 2<sup>nd</sup> Defendant.

2<sup>nd</sup> That the Insaddar has not reported the deed of gift to be a forgery, nor was there any necessity for him to enquire into that matter, and that the said Deed was not executed by Mulla Seem Chetty, but by the 1<sup>st</sup> Defendant and father of the 2<sup>nd</sup> Defendant.

3<sup>rd</sup> That the fact of the Plaintiff's father and Plaintiff having enjoyed the land since July 1822-23 1237 is satisfactorily established while on the contrary there is no proof of enjoyment either by the Defendants or their ancestors during that period, that the 1<sup>st</sup> and 2<sup>nd</sup> Witnesses rented the land in dispute from the Plaintiff's father and Plaintiff under *Crassam Samyrogum* tenure and paid the Circar tax to Government that their names are consequently entered in the Circar Chittahs &c and that Chittahs do not stand in the names of the Defendants.

4<sup>th</sup> That a deed of sale was fraudulently obtained while the matter in dispute was under enquiry by the Vakeel Pillay for the same sum of Rupees 500 for which a deed of sale was in the first instance

Fort Saint George 25<sup>th</sup> August 1858

instance fraudulently executed to the Plaintiffs 1<sup>st</sup> and 2<sup>nd</sup> witnesses that upon a fraudulent representation made by the 2<sup>nd</sup> Defendant to the Insaddar in last year, a Sumud was issued to the effect that he who enjoyed in the preceding year should continue in occupation, but not that the 2<sup>nd</sup> Defendant should enjoy the land, that the Plaintiffs 1<sup>st</sup> and 2<sup>nd</sup> witnesses have not stated in their answer before the District Munsiff of Brommadason that they cultivated the disputed land as the tenants of the Defendants, that moreover Plaintiff was not a party to that suit; and that the said witnesses have further admitted the fact of Plaintiff's father having mortgaged the land in question to them and of their (witnesses) having granted a receipt on the discharge of the mortgage.

5<sup>th</sup> That at the investigation of the aforesaid Vakeel Pillay Mulla peromal Saver who cultivated the land upon Plaintiff's permission in ear season of July 1857-58 1267 denied that fact as did likewise his brother-in-law Loo bramoneyatavar that the village officers have submitted a report to the Talook on the 25<sup>th</sup> September 1857 regarding the admission by the former (Mulla peromal Saver) of his being in possession of the ear produce and of his having rented the land from Plaintiff and that the Curum Meerassadar and

Matter

Fort Saint George 25<sup>th</sup> August 1858.

Neither you have also given depositions before the Magistrate respecting the said Nullaperumal Taven having agreed to pay the Government tax for the Carr harvest of the said field.

6<sup>th</sup> That the charge against the writer of the depositions has been advanced without foundation owing to want of proof on the part of the Defendant and that the 2<sup>nd</sup> Defendant was present during the investigation in the talook.

7<sup>th</sup> That 1<sup>st</sup> Defendant and 2<sup>nd</sup> Defendant father being the Plaintiffs maternal uncles and the granters of the gift, and both parties having been residents in Travancore change of Pally for the disputed lands was not effected, and that the Curums having fraudulently entered the Pally or registry in the name of the 2<sup>nd</sup> Defendant instead of in that of the Plaintiff complained on the subject immediately on his coming to his knowledge of it, and that the Curums were therefore dismissed.

8<sup>th</sup> That the Sub Collector properly assigned Nullaperumal Taven to account to the Plaintiff for the proceeds of his cultivation upon Plaintiff's permission, and that there was no exchange of land nor any other document to support that allegation.

Judgment.

4. The Plaintiff is the sisters son of 1<sup>st</sup> Defendant and of

Fort Saint George 25<sup>th</sup> August 1858.

and 1<sup>st</sup> Defendant is the paternal uncle of 2<sup>nd</sup> Defendant.

5 The 1<sup>st</sup> Defendant admits the Plaintiffs possession.

6 The 2<sup>nd</sup> Defendant was present when the Tahsildar examined the witnesses for Plaintiff, if therefore the said witnesses were not cross questioned it was his own fault.

7 It appears that the Sub Collector subsequently had these witnesses before him and made them verify their respective depositions on solemn affirmation.

8 This is not in the opinion of the Court strictly regular, as the Sub Collector ought properly himself to have gone into the matter, but as clause 2<sup>nd</sup> of Section XVI

Regulation V. of 1822 sets forth that "the decisions of the Collectors are not to be set aside for want of form or for irregularity in their proceedings" the Court overrules the objection raised on this point by the Defendants.

Fort Saint George 25<sup>th</sup> August 1858.

Neither have also given depositions before the Magistrate respecting the said Nullaperumal Taven having agreed to pay the Government tax for the Carr harvest of the said Jussy.

6<sup>th</sup> That the charge against the writer of the depositions has been advanced without foundation owing to want of proof on the part of the Defendants and that the 2<sup>nd</sup> Defendant was present during the investigation in the latook.

7<sup>th</sup> That 1<sup>st</sup> Defendant and 2<sup>nd</sup> Defendant father being the Plaintiffs maternal uncles and the granters of the gift, and both parties having been residents in Travancore change of Polly for the disputed land was not effected, and that the Curums having fraudulently entered the Polly or registry in the name of the 2<sup>nd</sup> Defendant instead of in that of the Plaintiff complained on the subject immediately on his coming to a knowledge of it, and that the Curums were therefore dismissed.

8<sup>th</sup> That the Sub Collector properly adjudged Nullaperumal Taven to account to the Plaintiff for the proceeds of his cultivation upon Plaintiffs permission, and that there was no exchange of land nor any other document to support that allegation.

Judgment.

1. The Plaintiff is the sisters son of 1<sup>st</sup> Defendant and of

Fort Saint George 25<sup>th</sup> August 1858.

and 1<sup>st</sup> Defendant is the paternal uncle of 2<sup>nd</sup> Defendant.

5 The 1<sup>st</sup> Defendant admits the Plaintiffs possession.

6 The 2<sup>nd</sup> Defendant was present when the Saksildar examined the witnesses for Plaintiff, if therefore the said witnesses were not cross questioned it was his own fault.

7 It appears that the Sub Collector subsequently had these witnesses before him and made them verify their respective depositions on solemn affirmation.

8 This is not in the opinion of the Court strictly regular, as the Sub Collector ought properly himself to have gone into the matter, but as clause 2<sup>nd</sup> of Section XVI

Regulation V. of 1822 sets forth that "the decisions of the Collectors are not to be set aside for want of form or for irregularity in their Proceedings" the Court overrules the objections raised on this point by the Defendants.

14072

Fort Saint George 25<sup>th</sup> August 1858

9 The first assertion of the Defendants in their 1<sup>st</sup> objection regarding the statements of Plaintiffs 1<sup>st</sup> and 2<sup>nd</sup> witnesses before the Ishsildar is mere assertion and the other and subsequent assertion of the Defendants has been distorted.

10 The only question that the Sub-Collector has and the Court has before it is who were in possession the opinion therefore of the Ishsildar on the Quid of gift is surplusage.

11 The Sub-Collector has recorded in full his reasons for considering the Plaintiffs in possession and as the Court sees no reason for differing therefrom, this appeal is dismissed without costs.

From the Collector, Sir,  
of Coimbatore } Para 1.

I have the honor to forward the usual Statements connected with the Land Revenue Settlement of the Travancollim Poliput under management in this District for Twelv 1267.

The revenue of the current Twelv amounts to Rupees 5753-1-9 and exceeds that of the last year by Rupees 331-3-4 as detailed in the annexed Memorandum.

| Poliput.     | Revenue for Twelv 1266. |          | Revenue for Twelv 1267. |          | Comparison. |           |
|--------------|-------------------------|----------|-------------------------|----------|-------------|-----------|
|              | Land Revenue            | Motorpha | Land Revenue            | Motorpha | Increase    | Decrease. |
| Travancollim | 5421 14 5               | 5532 8 7 | 220 9 2                 | 5753 1 9 | 331 3 4     | -         |

The Settlement was made as usual at Pullachy in the presence of the Acting Manager of the Estate, and Pattahs were issued to each individual. In consideration of the badness of

14079

Fort St. George, 25<sup>th</sup> August 1858.

of the season all necessary and reasonable remissions were granted to the ryots, during the settlement.

4. The Poliput consists of the same number of Villages and hamlets as in last year.

3 Villages and 12 hamlets, which are under Ryotwary tenure like other Cankar Villages.

5. The repair of Callegapoom Tank in the Poliput, for which a sum of Rupees 1200- was sanctioned on the 3<sup>rd</sup> December 1856 has been nearly completed, but the Tankmaster of Pullachy having required a further sum of Rupees 220- over and above the estimate to complete the repair the District Engineer has been written to, to inspect the Tank and to ascertain whether the above sum is necessary and on receipt of that Officer's reply, I shall communicate the result to the Court of Wards. The tank will not supply irrigation till next year.

6. A sum of Rupees 1735 having been advanced for new wells in the Poliput, they were dug in Poorjah lands, and are in use for the cultivation of garden produce without any additional rent or indulgence which ryots cannot generally expect from a Poligar the amount so advanced

14080

Fort St. George, 25<sup>th</sup> August 1858.

is in course of realization according to the fixed instalments.

7. The census of the Poliput was taken in July 1265 and will not again be ascertained till 1270, being quinquennial.

8. The state of the season during the year under review, was not so favorable as in last year, the extent of cultivation however exceeds that of the past year, though it yielded a scanty produce for want of sufficient rain. There was no peculiar sickness in the Poliput during the year, and all ordinary diseases have been cured by the aid of the excellent Dispensary newly established at Pullachy.

9. The subjoined Memorandum exhibits the prices of grain during the year in the Poliput compared with those of the last year.

| Description of grain | Price per Carce in 1266. | Price per Carce in 1267 | Increase | Decrease |
|----------------------|--------------------------|-------------------------|----------|----------|

The

14081

Fort St George, 25<sup>th</sup> August 1858.

The cause of increase in the prices of all sorts of grain as shown above, is the scanty produce in all parts of the District, consequent on the failure of periodical rains.

10 Statement No 2 will show that the rent of the lands in the occupation of ryots, amounted to Rupees 7466-1-6 and the Molurpha, ready money collections &c. Items to Rupees 220-9-2 making a total revenue of Rupees 7686-10-8 deducting therefrom the various remissions granted during the Settlement viz. Rupees 1933-8-11 the net revenue is Rupees 5753-1-9.

Demands for July 1267-5481-7-9  
 5 $\frac{1}{2}$  for arrears 2785.14.2  
+ 827.5.11

Fort St. George, 25<sup>th</sup> August 1858.

14. Statement No 4 exhibits the gross demand of the Poliput from all sources of revenue such as Land, Motupha and Sundry sources, minus charges for establishment 8<sup>00</sup> amounting to Rupees 8217-5-11. Of which Rupees 5570-5-7 have been recovered within the year under reference leaving a balance of Rupees 2647-11-4. Subsequent collections up to 31<sup>st</sup> July 1858 viz Rupees 326.10.4. have reduced the balance to Rupees 2320-6-11.

15. As regards the balance of the current demand, strict orders have been issued for recovery as soon as practicable. Of the amount of arrears of Rupees 1819.5-11 a sum of Rupees 1725 plus by the person who purchased in auction the trees in the Poliput as detailed in para 6 of Mr. Thomas report on the Settlement of July 1266 dated 29<sup>th</sup> August 1857 will be recovered, as per instalments allowed to him the remaining arrears of Rupees 94-5-11 in course of realization.

17. No sales of lands for arrears of revenue have taken place in this Poliput during the year under review, recoveries having been made easily.

18. The total surplus revenue of the Estate up to 30<sup>th</sup> June or close of the fisly, amounts to Rupees 896-9-6 as will be seen from Statement N<sup>o</sup> 5.

Fort St George, 25<sup>th</sup> August 1858.

19. It will be observed from Statement N<sup>o</sup> 6 that the charges of the Estate for the year under report, were Rupees 4011-12-6 which fall short of the last year's expenditure by Rupees 3538-8-. arising from a large sum having been disturbed last year from the resources of the estate for repairs of certain sources of irrigation for the improvement of the Poliput under the Court's sanction as detailed in para 18 of Mr. Thomas' report for Fisly 1266. Such expenditure has not taken place in the current Fisly. Hence the decrease above quoted.

20. The amount of Commission at 1½ Rupees per cent on the Collections of the Estate vizt Rupees 94-10-8 have been entered in Column 17 of the Statement N<sup>o</sup> 5, as there is no separate Column in the form for that Item.

21. The Pongah waste lands referred to in para 6 of the last year's report, have not as yet been given for

for cultivation because the cutting of the Trees on those lands is not yet completed, and when it will be so, I shall distribute the lands and report the same as directed in para 5 of the Proceedings of the Court of Wards dated 26<sup>th</sup> November 1857 No 4234.

22. The Minor Poligar though having nearly completed his 18 year of age, is still reading in the Tamil School. From a Memo left by Mr Thomas upon his application to take the charge of his Estate, it appears that Mr Thomas considered him 'yet too young in mind and face' to have his request acceded to, and directed that he should read and live steadily at Coimbatore for at least one year more. In this I concur.

Mr. Puckle reported that he observed the heaps he examined to be leaky, having large holes in them, showing that much salt had been melted. The loss in other heaps being not great, the wastage on the whole of the salt fell short of that found in examination.

Vide remark opposite Chumambut.

Vide remark opposite Chumambut. The heavy rains in Tushy 1265 and the gale in November and December Tushy 1266 proved a further cause of loss.

The Peishcar having reported that a quantity of salt had been stolen thro' the negligence of the salt Pans they were diminished.
