B. No. 4728.
From the Collector of Vizagapatam } Sir,

I have the honor to submit herewith the original accounts of Crooda-poram and Lutchmipooram of Surwasiddy and Golgondah Talooks respectively prepared according to the new forms according to the accompanying list called for in your Circular letter of the 23d July last No. 2778.

2. These forms have been duly introduced into the two Government Talooks of this Zillah in Surwasiddy in fuoly 1268 in Golgondah in fuoly 1268

3. With the introduction of the new forms as might be expected many mistakes were at first made by the Curnums but since they have been properly explained to these officers by my Principal Assistant and by myself on our recent tours. The majority are able to prepare them with accuracy & I do not doubt their being punctually & correctly prepared hereafter.

The

Fort St. George 21 October 1858.

4. The new forms are a decided improvement on the old ones they facilitate references and are an assistance in other respects when making the Jummabundy.

5. I have no particular observations or suggestions to make on respect to any other portion of the Manual.

Sir,

With reference to the Boards' Endorsement on Petitions Nos. 1880 and 2458 of 1858 from Bollo Vencataraya setty in Lydapoor Talook I have the honor to report that the Petitioner has rented 3 Villages for 3 years as noted in the Margin On 2 of which the following balances are outstanding up to the end of fusly 1207 Viz:—

1. Goolemchala Do.
1. Paulour from fusly 1205 to 1207.

Fort St. George 21st October 1858.

On the ground of losses sustained by the Storm of November last.

2. It is not usual to allow remissions in rented Villages and the Petitioner has no claim to have the balance struck off on the ground of poverty I consider it would therefore have a bad effect if remission was given to him by encouraging other renters to withhold their balances and that all that is necessary is to grant him time to pay up the balance by instalments during the Current fusly which he has agreed to do as Noted in the Margin and to repair the Tanks regarding which I have written to the District Engineer who has lately been supplied with additional funds.

B. R. No. 4303.

From the Collector of Bellary } Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 8th Instant calling for a brief report of the circumstances under which the Zilladar Hanumuntah Row referred to in my letter of the 26th July last was suspended from Office & subsequently restored.—

2. In reply I beg to state for the information of the Board of Revenue that the Zilladar in question was suspended for the space of one year from the 1st April last by Mr. Goldingham the Head Assistant Collector then in charge of Sub Division in consequence of Captain Harris of the 3d Light Cavalry having complained that when the Regiment in question halted at Dandaloor on the 15th March the Zilladar sold grass at different rates. i.e. 4 & 8 per Rupee though all the bundles were

Fort St. George 21 October 1858.

of the same description. Subsequently an appeal was made to me by the Zilladar and on this appeal a report was called for from the Sub Collector Mr. Arbuthnot in his letter of the 11th May 1858 reported his opinion in the matter as follows.—

I have the honor to inform you that I have examined several witnesses on behalf of Hanoomuntah Row Zilladar of Dandaloor who all state that the grass was sold at 8 and 6 bundles per Rupee according to quantity and that there were no bundles offered for sale by the Zilladar at the rate of 4 per Rupee. From the Statement sent by Captain Harris it appears that the Zilladar told him that there were bundles for sale at 4 per Rupee and that he afterwards denied this and stated that he had only 4 bundles at the rates of 8 and 6 per Rupee respectively.—

2. With regard to the bundles sold at the rate of 4 bundles per Rupee it appears that this rate was asked by some of the Ryots of the Village for grass which they had brought for sale independently of the Supplies collected by the Zilladar. The Zilladar asserts that he

Fort St. George 21st October 1858.

told Captain Harris that the Ryots were selling at this rate and that afterwards when that Gentleman ordered him to bring the different bundles he brought only the bundles he sold and when asked were the 4 per Rupee bundles were he told Captain Harris that there were none at that rate meaning that the (Zilladar) had not any and had not sold any at that rate.—

3. Except the prevarication regarding the 4 per Rupee rate in the presence of Captain Harris and even that seems capable of explanation there is no proof of any attempt at cheating on the Zilladar's part It appears that the first man who went after straw got 6 bundles per Rupee that the next man who went was offered 4 by the Ryots. Had the Zilladar wished to cheat he might have named the higher rate at first and stuck to it as to the measurement proving that the 5 per Rupee bundles were smaller than the 6 per Rupee I am not

Fort St. George 21st October 1858.—

inclined to attach much importance to the fact as the measurement of Grass or straw must at all times be some what vague and uncertain.—

4. On a review of the case I am of opinion that the Charge against the Zillah dar is not proved and that he ought at once to be restored to his appointment I enclose herewith depositions taken from witnesses on behalf of Zilladars.—

Under these Circumstances I agreed

3. with Mr Arbuthnot in the opinion that the Charge against the Zilladar of Dandaloor is not proved and that he ought to be restored to his appointment on the understanding that any irregularity on the part of the Zilladar has been checked by the punishment he has already undergone and accordingly he was restored on the 20th May following.—

4. The Zilladar seems to have been acquitted fully of cheating for which he was punished by Mr Goldingham, but he was not so fully acquitted of equivocating.—

From the Collector of Salem

Sir,

I have the honor to bring to the notice of the Board the following circumstances Connected with certain Enam lands which were resumed under the orders of Government dated 27th April 1854 and 18 April 1855.

2. In the Tabular Statement submitted to the Board from my office under date the 5th September 1853. and 20 February 1856 it was stated that the Enam lands situated in the Villages noted in the Margin† had been exclusively enjoyed by one Appiah Kistnamachary who died without issue and that in Consequence the Enam lands had been resumed according to the Orders above referred to.

Board of Revenue

Fort St. George.

B. No. 4362.

From the Collector of Salem

Sir;

I have the honor to bring to the notice of the Board the following circumstances Connected with certain Enam lands which were resumed under the orders of Government dated 27th April 1854 and 18 April 1855.

2. In the Tabular Statement submitted to the Board from my office under date the 5th September 1853. and 20 February 1855 it was stated that the Enam lands situated in the Villages noted in the Margin† had been exclusively enjoyed by one Appiah Chetty who died without issue and that in Consequence the Enam lands had been resumed according to the Orders above Referred to.

3. Subsequently Lutchmanial

and Muneyamal referred to in the Genealogical tree appended to the Tabular report dated 5th September 1853. preferred their claims for a certain share in the resumed Enam lands. The Talisildar was ordered to enquire into their Claims It appears from the Talisildars report and from the records Connected with the case that both these parties enjoyed shares in the resumed Enam lands in the proportions given in the Margin until the time it was presumed and that owing to the absence of the Petitioners at some distant place they were not able to prefer their Claims at an earlier date.

The Board will observe that

that the Government have recognized in their decision dated 27th April 1854 above quoted the title of the Petitioners to Certain Enam lands in the Villages of Punnapully and Narasapooram and have ordered the continuance of the Enam to the Enumdars during life.

5. It will be observed that the Pymash Enamdar of those two Villages was Appah dexatum as in the Case of the Villages noted in Para 3 of the letter. The title may therefore be traced in both Cases to the same source.

6. I therefore recommend that the Enam lands which were erroneously resumed may be restored to the Petitioners and be continued during their life as in the other two Villages.

The changes apparent compared with similar returns inserted in the last year's report arise chiefly from alterations in the demand owing to the difference in the current prices.

Season and sanatory state of the of the District

10 The season of the year under report tho' decidedly superior to that of Fusly 1263 was however not very favorable. In the earlier months indeed there were good and regular falls of rain accompanied by steady freshes in the rivers but as the North Eastern monsoon did not set in till about the middle of November the interval between the two monsoons was unusually long and had an unfavorable effect on the standing crops which in some places subsequently suffered again from

from heavy rains. The outturn generally is considered therefore to have been below the average.

The decrease in the Dittum is only nominal arising from a diminution in the Aloongoo demand with reference to the current prices.

14. It will be seen that the deductions on account of waste Nuttoo. paul &c. aggregating Rupees 111742 shew a decrease owing to the more favorable Season. The remission on account of Stalacummy used heretofore to merge in that on account of waste but is now exhibited separately in accordance with the new forms.

Remarks on the Sewai Summa Statement No. 9

17. Statement No. 9 Shews the particulars of the Sewai summah. There is a decrease of 11245 Rs. It will thus be seen that the total land Revenue demand of the year amounted to Rs 4,430293 which is below that of fusly 1265 by Rupees 330004 The decrease occurred almost entirely in Olongoo rented Villages owing to the current prices having been lower in fusly 1266 than in fusly 1265.

19. The revenue from Sundry sources however exhibits an increase of Rs 116324 and the several heads composing this branch of revenue will now be briefly noticed.

Fort St. George 21st October 1858.

31. Of the Sums entered in Column 6 application has been made for writing off Rs. 76,224 and a separate report will be submitted hereafter regarding the remaining balance.

32. Little or no coercion was used in the Collection of the revenue as will be seen from Statement No. 13.

33. The issue of advances on account of cultivation has been discontinued under the orders of Government.

Vide Ex. Minn. of Cons: 19th Sept. 1855. No. 1012.

34. The following Statement exhibits the receipts and charges in comparision with Fusly 1265.

Vide Statement No. 14.

Fusly	Collection	Charges	Percentage
	Rs.	Rs.	
1265	57,26,161	6,48,159	11 5/16
1266	53,45,492	5,38,697	10 5/16
Decrease	3,80,669	1,09,462	.

The

Fort St. George 21st October 1858.

Receipts
Land revenue
Decrease 456650 Rs.

35. The decrease in the Land Revenue Collections arises partly from the Along demand of fusly 1266 being less than that of fusly 1265 owing to the current prices having been lower and partly from the smaller amount of the recoverable arears outstanding at the commencement of the past fusly than at the beginning of fusly 1265.

36. The fluctuations in the other items of receipt have already been noticed in their proper places.

Charges
Salary of Collector &c.
Rs.
Increase 19723

37. The increase in the Collectors Salaries is owing partly to the whole Salary of the Head Assistant Collector having been debited to this head in fusly 1266 whilst in the preceding year it had been a charge against the Magisterial Department also partly to the increased rate of allowance granted to the special assistant

Fort St. George 21st October 1858.

Collector Mr. Agnew to the Salaries for the months of May having been debited in the accounts of June of the past fusly & to the larger amount of deputation allowance drawn by the Officers acting for the Collector—

Honoor and District Establishment
Increase 08745 Rs.

38. The increase in the charges on account of the Native establishment is only nominal arising from the pay of Pattamonigars for fusly 1205 and of the taloke establishments for may of that year having been disbursed in the past fusly owing to the system of preaudit introduced last year.

Extra revenue
Charges not chargeable to any particular Sources of Revenue
Decrease 143515 Rs.

39. The decrease in this item is owing to the payment of pagoda & Mosque allowance for a part of the past fusly not having as yet been debited to the proper head of account pending the preparation and submission of abstracts for audit by the Civil auditor.

Salt Manufacturers Share
Decrease 49443 Rs.

40. The decrease under this head arises from the smaller quantity of salt manufactured as compared with fusly 1205

Acting Collector
of Tanjore

Sir;

I have the honor to submit the following report on the settlement of the Division for July 1208 together with the accompanying Statements and their enclosures (numbered 1 to 8) and which have been prepared according to the new forms. I may observe in passing that the settlement of the preceeding July had under the orders of the Board noted in the Margin* been made for the most part by Collector Mr. Forbes.—

2. The annexed Statement shows the number of villages in the Division and the tenures under which they were held in the year under report as compared with the preceding

Fort St. George 21st October 1858.—

From this it will be observed that out of three villages held under Amanyin Tusby 1265 two were rented out in the Tusby under report leaving only one remaining under this head. Subsequently the village of Mullattoo in the Coottalum Talook formerly held on favorable money assessment leaving in default of direct heirs lapsed to Government was also taken under Circar managem

3. The irrigation of the Division is as you are aware entirely dependant on the rivers Cavery and Colleroon and does not vary I may observe however that the supply of water in the South Rajen Veikal has been much increased by the raising of the Lower Colleroon Anicut and that generally the means both of irrigation and drainage in the Division are complete To the north of the Sheally Aspeer and between that river and the Colleroon the drainage is still some what obstructed but when the Canal in that part of the Co is fully completed and on the proposed in its eastern bank it is hoped the Divisi

effect may be in a great measure gained.—

Season— 4. The season was on the whole a favorable one and the freshes in the rivers though sometimes low were generally sufficient for the purposes of irrigation. The rain fall throughout the year was the same as in the preceding Tusby but was more unequally distributed In the month of november only there were 16 inches of rain and on the 20th of that month as also on the 8th of December there were severe gales from N.N.E accompanied with very heavy falls of rain by which Considerable damage was done to the low lying lands near the Sea Coast.—

Sanitary State 5. The season has not been particularly healthy Cholera prevailed in the beginning of the year and to a later period than usual Small pox was also unusually prevalent in the last season

17666 Fort St. George 21st October 1858.

The slight decrease in Poonjah and Bagayet lands is owing to the conversion of these lands into Runjah the increase in the latter is also owing to the village of Nullattady having now reverted to Government as a Tarruff village.—

Remissions— 8. The amount of remissions granted in the Fusly under report was Rs 21025 being 1¾ per cent on the whole Berij and Rupees 5063-12-9 more than in the preceding Fusly. Nearly 12000 Rs of this amount was given in the Shealy Taluks and in those villages near the Coast where the young plants were entirely destroyed by the excessive rains in November & December and also by the influx of salt water.—

Rytwaree Villages— 9. The following abstract Statement exhibits the Settlement of the Rytwaree villages in the Division in Fusslies 1265 and 1268.—

To the Secretary to the Board of Revenue

Sir

I have the honor to forward herewith for the information of the Board of Revenue a Statement shewing the Number of Villages in the Talook of Olungoor which were affected by the Fasly 1205 and 1206 and the Increase and Decrease of Revenue in consequence.

2. In the Fasly 1205 there were 443 Villages of Olungoor Talook, and in Fasly 1206 there were 480 Villages, the increase of 37 Villages is owing to the Division of Villages which were formerly Shrotriums, but which have been resumed and assessed with Fasly 1206.

3. The Gross Rental of the Talook in Fasly 1205 was Rupees 5,67,691-6-9 and in Fasly 1206 Rupees 5,67,623-14-6 being a decrease of Rupees 67-8-3 which is owing to the Remission of Rupees 1703-1-5 on account of Failure of Crops.

4. The Grain Rent in Fasly 1205 was Rupees 567-11-0 and in Fasly 1206 Rupees 490-13-4 being a decrease of Rupees 76-13-8 which is owing to the Commutation of Grain Rent into Money Rent.

5. The Assessment of Olungoor Talook in Fasly 1205 was Rupees 8297-3-0 and in Fasly 1206 Rupees 8220-5-0 being a decrease of Rupees 77-3-0 which is owing to the Remission of Rupees 1703-1-5 on account of Failure of Crops.

6. The Collection of the Assessment of Olungoor Talook in Fasly 1205 was Rupees 8297-3-0 and in Fasly 1206 Rupees 8220-5-0 being a decrease of Rupees 77-3-0 which is owing to the Remission of Rupees 1703-1-5 on account of Failure of Crops.

7. The Balance of Rupees 1703-1-5 remitted on account of Failure of Crops in Fasly 1205 was collected in Fasly 1206 with the Assessment of that Year.

8. The Standard Rental of Olungoor Talook is Rupees 5,67,691-6-9 and the Rental of Fasly 1206 is Rupees 5,67,623-14-6 being a decrease of Rupees 67-8-3 which is owing to the Remission of Rupees 1703-1-5 on account of Failure of Crops.

The Beriz shewn for Fuslies preceding 1262 is composed of Jyen and Canal fees alone including those on Enam lands In Fusly 1262 however the items forming the head of Deposit Viz.t the fees appertaining to Pagodas Brammins and mant and Village Curnums and making in all the sum of Rupees 8951-9-0. was incorporated with the Jyen and hence the Beriz shown for that and the subsequent Fuslies includes the said items. Besides this the Beriz entered for Fuslies 1263 and 1265 includes also the Fishrent the amount being Rupees 8050. and Rupees 8176 respectively

Demand Collection and Balance.—

14- Of the total Demand for Fusly 1266 Viz.t Rupees 1720221-4-10 the sum of Rupees 1565013-4-11 was realized within the Fusly and since its close and upto the 8 instant a further sum of Rupees 134210-0-10 has been collected making the whole amount Rupees 1699223-5-9—

The balance remaining is thus

Coercive Measures—

16. Coercive measures have been in some cases resorted to but to a very limited exetent and only as regards moveables. The large Moorsedars particularly in the Shally Salem are the parties who form the most flag- with holding

withhold their balances and this for no good reason whatever except that they have an idea it enhances their consequence and that by keeping large sums in arrears they will be evidently remitted measures however will be taken to put a stop to this and I think it may be necessary for examples sake to attach and sell some of the lands of some of these defaulters.—

Sequestration of Pagoda Enams.—

17. With reference to the instructions of the Board as contained in their Circular of the 7th December 1854 I have the honor to report that no landed Enams on money allowances of Pagodas have been sequestered on account of the latter having been abandoned for upwards of 12 years and—

B. No. 4474.

From the Acting Collector of South Arcot.

Sir,

In reference to the Boards Proceedings No. 3503 of the 20th Ultimo which accompanied Extract Minutes of Consultation of the 18th August 1858. I have the honor to report for the information of the Board and Government that the necessary arrangements for the Commutation of the allowances formerly granted to the five Pagodas in question were completed so as to take effect from the 1st July last the beginning of the Current Fasly The Management of the land selected by the respective Trustees and yielding in the aggregate an annual revenue of 2450 Rupees has been duly transferred to them The pyots holding Pattahs for the land so assigned have been informed that the Assessment will for the future be levied by the Trustees of these five Pagodas and an agreement has been taken from the latter binding them to respect the existing right

rights of all the Pullahedars.—

2. As to the nature of the authority under which the fees were formerly levied for the benefit of these Pagodas I have the honor to refer the Board to Mr. Hall's letter dated 9th August 1855 in which the matter is fully explained and the original levy of the fees in question together with the Sayer and Sea Custom Revenues is attributed to prescriptive usage.—

Mr. Hall's letter is transcribed below for convenience of reference.—

Perimbay 4th October 1858.

I have the honor to be
Sir,
Your most obedient
humble Servant
(Signed) G. N. Taylor
Acting Collector.

To.

The Acting Secretary
Board of Revenue.

Sir;

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 31st Ultimo No. 1981 Communicating instructions on the points submitted in my letter of the 1st January

Fort St. George 24th October 1858.

January last Connected with the Arrangements for assigning land in lieu of Money Payments to Certain religious institutions in this District.—

2. In reference to Para 3 in which the Board Call for My opinion as to how far the allowances amounting to 2450 Rupees paid to 8 Pagodas in the Cuddalore Talook as specified in Statement No. 1 which I forwarded with My letter of the 1st January are affected by the Views expressed by Government in the Extracts from the Minutes of Consultation dated 20th July 1853 No. 861 of which a Copy accompanied the Board's Proceedings under acknowledgement. I beg to state that the Rooshums in lieu of which the allowances in question were granted appear to be of precisely the same character as those fees which were formerly Collected from the Land Sayer at Madras and for which the Government have decided that they are in no way bound to Continue the

the payment of the Commuted Allowances on the grounds that the Connection of the State with Native religious Establishments has ceased and that the Branch of Revenue on which they were Chargeable has become extinct.—

3 As regards the Fees in this District I must however observe that they were not wholly derived from the land Sayer but partially resulted also from the Sea Customs I am nevertheless unable to discover what portion of them may be said to have belonged respectively to the land and Sea Customs as they were realized indiscriminately on all goods intended either for inland consumption or for export by Sea. They were clearly Extra Fees beyond the legitimate demand on account of Government levied according to prescriptive usage from the Merchants and Treaders.—

4.— It seems that after the

levy of these fees was prohibited by Reg. 12 of 1803 Mr. Fallofield the Collector addressed the Board of Revenue pointing out the loss which the Pagodas had sustained The following is an Extract from his letter dated 25th March 1806.

Para 37 "It will not I hope be thought foreign to the subject of this address (being unacquainted whether any representation has ever been made to your Board) if I here mention that the Principal Pagodas in the Tiruvendipooram District as well as those in Cuddalore Bounds have sustained a loss the former of 280 Pagodas per annum and the latter 420 Pagodas per annum by the general abolition of the sayers as well as the Maganah which they derived from Sea and Land customs the fees or perquisets from those sources having yielded them on a Medium of 5 years the sum of 700 Pagodas annually"

On the 11th December of the same year the Board wrote to Government as follows.— "The

Fort St. George 21st October 1858.

Para 52. "The principal Pagodas of Cuddalore and Tirooveendipooram having suffered a considerable diminution of their income by the abolition of all Extra Fees on the Customs we beg leave to recommend that an allowance be made by Government to the Pagodas of Cuddalore of Pagodas 420 per annum and of 280 Pagodas per annum to the Pagodas of Tirooveendipooram to commence from the beginning of the Current Fasly and to be disbursed under the Control of the Collector."—

The Government upon this recommendation authorized by the following order under date 31st December 1806 the disbursement of the Sums proposed—

Para. 20. "His Lordship in Council is pleased on your recommendation to authorize an addition being made to the Allowances

thus-

Fort St. George 21st October 1858.

the Pagodas of Cuddalore of Pagodas 420 per annum and to the Pagodas of Tirooveendipooram of 280 Pagodas per annum to be disbursed under the Control of the Collector and to Commence from the beginning of the Current Fasly"

The Board will observe that in the foregoing order of Government there is no mention made of the Specific Source of Revenue upon which the payment of these allowances was to be charged which have therefore from the first been debited to the General Revenue Thus although the Source from which the fees were originally derived has become extinct as regards the Land Customs still it cannot be said that the Branch of Revenue upon which the allowances were made Chargeable has also ceased to exist.—

6. In the Case of the Fees formerly Collected at Madras it appears by the Government order quoted in the Proceedings of the Board dated 6th June 1853 that the Commuted allowances were actually paid in the first instance from the Sayer Revenue and that it was only after the abolition of the Land Customs that they were Continued

from

Fort St. George 21st October 1858.—

from the general revenue.—

7. I have thus, I think put the matter as it really stands before the Board to enable them to judge whether the views laid down by Government in the Extract of Minutes of Consultation already referred to are applicable to the Case or not & I beg to solicit that I may be furnished with their instructions and orders.—

8. I hardly feel myself Competent to give a decided opinion on the point but I am inclined to think that the same general principle is really involved in the two Cases although they appear under some what different aspects on account of the wording of the orders by which the Government sanctioned the payment of the Commission allowances in lieu of the Fees.—

I have the honor to submit for, Trust, the favorable consideration of the Board and Government, an application from Acela: maunaty Tirvengala Charloo the Head Sheristadar of this District to be permitted to draw the increased salary of 100 Pagodas, or 350 Rupees per mensem from the 11th August last, on which date he had Completed a period of 5 Years service as Sheristadar.

2d The papers in his possession show that Tirvengala Charloo discharged the duties of his Office while Head Sheristadar in the Madras Collector's Cutcherry with great Zeal and assiduity and

in

in a manner to call for the hearty approval
of the gentlemen under whom he was employed
I have had great Reason to be satisfied with
the manner in which Tirvengada Charlu
has performed the arduous duties of his
present Office since he has been in charge
of it He has been upwards of 26 years in the public service
& holds very high testimonials to the manner in which he
has acquitted himself during that long period.

3. A Tirvengada Charlu only drew when employed
Madras, the allowance of a Sheristadar of a "Settled" District
but under the order of Govt of the 27th Sept. 1847 service
in a "Settled" is admissible as service in an "Unsettled"
District in the calculation for the higher rate.

There cannot be the slightest
objection to your receiving the mark of esteem
and respect which some of the cutcherry servants
have offered for your acceptance.

The Government would be
pleased rather than offended, that the
servants of the office of which you were lately
the native head should have joined
together in presenting you with this mark
of their regard.

I am extremely glad that they have
done so, for it is a proof that your impartiality and
kindly feelings towards them have been duly appreciated.

From the Collector of Sir,
Chingleput I

In Compliance with the Boards instructions Contained in Extract from their Proceedings No. 2266 of the 1st July last, I have the honor to forward the Original report and enclosures from the Tahsildar of Chingleput with English Translations, shewing that evidence had already been taken respecting the payments made by the Ryots to the Mutgar in liquidation of their Kists & the genuineness of his signature to the receipts which he gave them

2 The Mutgar is reported to have died some what more than two years ago, and his son was found incompetent to succeed him. He was a Government servant, and enjoyed Maniems and other emoluments amounting to Rupees 25-7-9- per annum.

Translation of a Ryfeet taken by the Chinglepet Taluk Sheristadar Ethi nevasa Row from the Curnum Chellaperma Pillay and Balakristna Pillay of vadacadu baby in the above Taluk.

We are asked to state in whose time and for what purpose Vadacadu baby was granted for the Mosque at Covelong who are the recipients of its emo ments as well as their nature the ceremonies performed at the Mosque the mode of entry in the Burward Tarapady and other accounts and the demand Collection and Balance for Fusly 1261.

In reply toe state as follows we had heard that the village was granted as Shrotriem in the days of Navab Mahomed Allikhan for the purposes of the Mosque at Covelong. The Burward Tarapady accounts of the village were with Ramakistna Pillay Curnum of Poonjary and were lost when his house took fire about 20 years back. In Ramdree Dowle and other accounts the village is entered as Shrotriem without stating the purpose for which it was granted. It is in the enjoyment of the parties noted in the margin. The Jody of Rupees 81 6 4 is paid by them according to their shares. For fusly 1261 a balance of Rs. 32 11 2 was left which should be discharged in the manner pointed out in the margin we do not know what Services are done at the Mosque

summoned and examined the Sookavasy Ryots,
the Curnum and others of the above Village. On
referring to the depositions taken from them, and
also to the Takeeds and other Records in my
Office bearing on the subject the following
facts are disclosed The Village of Vadacadoom-

tenance of the Mosque at Covelong in the
days of Nabob Mohomed ally Khan Mohomed

portion valued at Rupees 96 — 7 — 6 of the fiel
of the Village for Fusly 1261 would appear t

Servants of the Mosque, on Roobs Pattas

The Servants of the Mosque plead
that the Potagers embezzlement of the money
collected from the Sookavassy Ryots with-
out being remitted to the Circar and the
ignorance as to the nature of the balance
Shewn against them having led to the re-
sumption of the Shrotriem its restoration
should be ordered on proper enquiry.—

At the time the Village was re-
sumed the above said Balakistna Pillay

were examined by the late Tahsildar —
Narrainsawmy Naidoo Balakistna Pillay
admitted that he collected from the Ryots
the above said Sum of Rupees 177 — 3 — 11
but stated that the Servants of the
Mosque paid to the Circar only —
Rupees 48 — 11 — 2 and appropriated the
remainder

remainder to themselves according to their respective Shares and that as regards the balance of Rupees 32 11 2 due to the Leircar it is outstanding against the parties noted in the Margin. I assert the truth of his Statement no enquiry seems to have been made as to whether he professed any Document executed to him by the Shrotriemdar.

Abdooladeep Saib	10 2 9	
Marooboo Saib	8 12 4	
Mynoodeen Saib	10 12 10	
	32 11 2	

The Tahsildar wrote an Arzee No 217 on the 15th January 1853 stating that the Servants of the Mosque were not present for making an enquiry as regards the outstanding balance due to the Leircar It having appeared that the above Nottagar also died two years ago leaving a Sonnamed Vadachella Pillay aged 16 years I called for him and examined him to which he stated that he knew nothing of the matter and that

that the Rolls of Erroosalanamahs Tundul accounts &ca in his house appeared not in proper order. This individual does not seem to possess capacity enough or the aid of proper men to enable him to succeed his father in the Office of Nottum. The Sokavasee Ryots stated that they paid their whole balance for Fusly 1261 into the hands of the Nottagar Balakistna Pillay and obtained receipts from him which receipts were required by the Curnum Chellaperma. Pillay for the purpose of checking the Leircar balances of which 30 Receipts are now present written as may be observed in the hand writing of the above Balakistna Pillay a Statement which is admitted also by the Curnum Chellaperoomah Pillay. It is an important fact that the Nottagar was the person who collected money from the Ryots on his own receipts and never discharged to the Leircar the whole jody of 81 6 4 but only

only a portion Viz^t 18 11 2 the rest being stated by him to have been received by the Shrotriemdars in their respective Shares, a Statement to confirm which he does not appear to have produced any document nor do the Shrotriemdars admit having received the money. It must therefore be inferred that the Nattaun embezzled the money he had collected from the Ryots as stated by the Shrotriemdars. The resumption of the Shrotriem is owing to the Servants of the Mosque being absent and remaining at Madras and elsewhere at the time a notice was proclaimed in the Village as regards the outstanding balance of Rupees 32 11 2 due to the Circar and their consequent ignorance of the nature of this balance. The undermentioned documents are therefore forwarded herewith for your information

Sakeen Mohideen Sahib and others The Shrotriem Body is Rupees 81—6—4 per a: num. of which Rs 48—11—2 were paid by the for Fusly 1261 being undischarged, a balance of Rupees 32—11—2 for which the shrotriem was resumed, and so continues since Fusly 1261. I and the Rotagar Balakistna Pillay have Rept an account of the Condoomoodul Ka: Beriz

Beriz for the year of resumption, and this account is now ready at hand. The accounts will shew that the Condoomoodul Beriz is Rupees 96—7—6 the Malvarum grain of which was enjoyed by Sakeen Mohideen sahib and others in 4 shares—The Rotagar Balakistna Pillay collected from the Soogavansy ryots the sum of Rs 161—7—11 on account of lands held by them on Rocka Puttah granted by the above parties and Rs 15—12—— on account of trees, thus making a total of Rs. 177—3—11. The Rotagar having Expressed that the money so collected by him had been wholly received by Sakeen Mohi: = deen Sahib and others, I and the Rotagar gave a Kyfeet to that effect in Fusly 1262. But I do not know whether those parties actually received that amount. At the time we gave our kyfeet the managers of the Shrotriem were not present at all. After the Shrotriem was resumed, these parties Enquired of those that came from Coveleng and never admitted having received the amount as stated by the Rotagar Balakistna Pillay

ow which I took back the receipts he had given to the ryots, prepared a list for them and delivered them to Shumsoodeen Sahib. None of those receipts are with me. All the receipts I had taken from the ryots are in Balakistna Pillay's own hand writing. I have neither informed the Rotagars, nor that Shumsoodeen sahib and others did not admit having received the above amount, nor did I make myself acquainted with the particulars of the Circumstances. Balakistna Pillay never shewed me any document in acknowledgement of the receipt of the said amount by the Shrotriem share holders. To the Kyfeet given by me and the Rotagar declaring that the share holders received the amount - I affixed my signature simply placing confidence on the Rotagar's words and nothing else.

In the year preceding the resumption, viz.th fusly 1261 in paid our whole Puttah Bariz into the hands of the Mottagar of that year named Balakistna Pillay, from whom we obtained receipts, which receipts were demanded from us by the Curnum Sholapillay, two years ago on the orders of Nojamoodeen Saib for the purpose of Seeking the outstanding balances. With the exception of the above receipts we have none else. The lands composing the single share of Shumshadeen Saib, one of the Shrotriemdars are held from him on Puttah by 3 of us, viz.t. 1/4 share by Coollapa Rattan, another 1/4 by Comaruppa Rattan and one half by Suminor Rattan, who respectively, enjoy the produce, pay the kist, and obtain separate

The outstanding balance other than the amount of receipts, was also Collected, these receipts also were taken from us by the Curnum Chellapilley. Why these receipts do not also appear before the Cutchery is not known. We received no written Puttahs, the Shrotriemdars having verbally permitted us to enjoy as stated above. The remaining Nunjah and Poonjah lands we held on Warum.—

2 I see no objections to any of the rules. They are all useful sanatary purposes but it is doubtful whether arrears of quit rent a tax to be devoted to local and Municipal purposes (vide Rules 18) can be realized in the same way as arrears of Land Revenue.

3 It is also open to remark with regard to Rule 15 that the Magistrate has at present power to suppress public

nuisances, tho he has not power to enforce more sanatory regulations in towns. so far as this rule refers to Regulations of the latter class he would not be able to treat breaches of the rules as Criminal offences.-

4 The Board observe that the rules can be applied strictly only when sites of the new towns are Government waste, and that in other cases the local officers must use their influence to induce the proprietors to conform to those as much as possible. I do not think that any Magistrate would have it in his power to persuade the proprietors of landed estates to adopt the same system tho of course it will be my

Adverting to an Extract from the Proceedings of the Board of Revenue dated 10th August last No. 3007 reviewing my Report dated 22d July last on Petition No. 5 of 1838 and observing that the question of inheritance to Enams whether by adoption or otherwise depends to a Considerable extent on the date of the original grant and Requesting me to furnish information on this point and to Report at the same time whether the adoption was duly Reported the Circumstances under which the Registration was altered in July 1261

as also the Changes that have been made in the Register of this Enam since the date of the Survey I have the honor to state that the Records of my Office do not Shew the date of the original grant.

2 The Petitioners Claims as stated in my former Report Relate to Certain shares in the Jodighy agraharums noted in the Margin. In the Survey accounts these shares were Registered in the name of one Seer Ayengar, at whose death the Shares descended to his son Streerungachary

in my letter dated 22d. July last. that the Enam had been Registered in the name of Seer Mootoosawmy Iyengar in Fusly 1261 or 1851-52 was an error.

4 With Regard to the adoption of Seer Mootoosawmy Iyengar. it appears from the Tahsildari Urzee dated 21st. September 1858. that no Report was made to any of the Government authorities. The Curnum of the Village stated in his deposition before the Tahsildar that Seer Mootoosawmy Iyengar was adopted by Coopspumnal when he was 14 Years old and that the adoption was made after the Ceremony of Copanayanum (the investiture of thread) was performed as an adoption after that Ceremony has taken place is not recognised by Hindoo Law I am of opinion that the Claim of Seer Mootoosawmy Iyengar to inherit the shares in question after the death of Coopspumal Cannot be maintained.

From the Collector of Salem ..

Sir,

I have the honor to acknowledge the receipt of the Board's circular No 145 dated the 21st April 1858 forwarding Copy of Extract of Minutes of Consultation under date the 6th of March 1858 Relative to the Plantation of topes and trees.

2 With Regard to the 1st question "whether any new Measures or inducements are advisable to encourage "the planting sheriff and Sandy tracts "with date, palmyra, and other trees" I think the people in this District would be encouraged to plant palmyra topes if the Village Community were allowed to hold land for such topes free of rent or at a mere nominal rent. I explained

Fort St George 22d October 1858

explained in a report to the Board dated the 31st October 1854 No 90. that much had been done in the District during the last 20 or 30 years towards planting Palmyra topes for the Government. The people have seen the system pursued and therefore they are prepared to plant trees on their own account. I think it likely that a whole Village would take a greater interest than single individuals in planting Palmyra topes.

3 Hitherto the ryots have received no hire for the labor rendered on this account. In future hire ought to be paid if planting for the Government be continued. I beg for instructions on the latter point.

4 The Boards question is not confined to Palmyra trees. As to other kinds of trees the Village community would often be happy to plant trees of other kinds on land held

held in common free of rent, or subject to a nominal rent.

5 Date trees are not grown to any extent in any but the 2 Baliyghaut Talooks nor do people in general value Date trees as they do Palmyra trees are raised on good lands as well as on bad lands. I do not see why good land should not be used for this very useful kind of tree, considering how much waste land of all kinds is still available in the District.

6 With regard to the 7th question in whether the plan proposed for adoption by Government in cases where one party has the trees, and another holds the land can be followed in my District I am of opinion that the rent at present paid to the Government for trees held separately from the land might be made over to the land holder, the puttahs having still held by the tree holder, tho' there would be no need to renew the puttahs annually. If the land holder

should be unable to collect the rent, the collecter might enforce payment as in the case of land, Practicably this sort of difficulty will seldom or never occur. For a few years the tree renter was made in this District to pay the rent to the landholder, but in 1854 the Board, who had in the first instance approved the practice, directed that the tree renter should be made to pay the rent direct to Government. It is already the practice when trees held separately are relinquished, to make them over to the tenant of the land.

Vide letter to Board dated 28th November 1854 No 102 and Board's Proceedings dated 18th December 1854

7 With regard to Para 7 I may remark that trees in backyards are always held in this District free of rent. The order of Government in Para 6 directing that the topes to be made over on Puttahs at Taram rates to the heirs of the original proprietors, or to respectable individuals

tenants

tenants, or to the Village community, at the discretion of the Collector, will be duly attended to.—

8th. With regard to Para 4 no misapprehension has existed in this District on the 2 subjects noted by Government in the final Extract Minutes Consultation. There is one instance in which the Rules regarding scattered trees on Cultivated lands have not as yet been enforced Palmyra Trees in such lands are still subject to a tax. This point was brought to the Board's notice in Paras 4-9 and 10 of my letter dated the 2d January 1857.

9th. If these trees should in future be exempted from any tax, when growing on unoccupied land the loss to Government would be according to the returns prepared for the Fusly that has just closed, about Rupees 17'688—

10th. Now that I have supplied the necessary information on this point, I beg it may be decided whether trees of this

+ In Patent lands 11858

this situated shall in future be exempted in this District or not.—

9th. The Revenue from Palmirah on unoccupied lands amounted last Fusly to Rupees 7780.

10th. There is reason to believe that lands on which Palmyra trees are standing have in many cases been taken up lately by persons who believed that the trees would shortly be exempted from the tax. The aim of such persons is to rent out the trees themselves to the classes who depend for their livelihood on the use of the trees.—

11th. As soon as I receive the Board's reply on the last named point, a draft of the Notification referred to in para 43 of the Board's Proceedings will be submitted to the Board for approval.—

Sir

I have the honor to furnish the report of the circumstances attending the fraud committed in this District by altering a certificate for refund of stamp duty, which the Board have in your letter of the 3d September 1858 No. 3360 directed me to submit to them

2

On the 23d April last I received from the Superintendent of Stamps a letter dated 21st Idem bringing to my notice the fact of an erasure having been made in the certificate granted by the District Moonsiff of Chittoor for the refund of Stamp duty under Act XVII of 1848 in sect. No. 304 of 1855 with the fraudulent design of enabling the party to draw three full amounts of the Stamp duty instead of

the

the society to which only he was entitled.

3 On this I wrote to the Civil Judge requesting him to ascertain and inform me whether there was any person in the Moonsiffs Court who was prepared to state before me on Solemn affirmation that the Certificate was not submitted by the Court in the state in which it was returned to me by the Superintendent of Stamps.— I received on the 28th. April a reply to this communication giving the names of the required witnesses, whom I at once, summoned.— On the 29th. April, the witnesses appeared before me, and on the same date a warrant was issued for the apprehension of Moorcumbat Narsiah the person who presented the Certificate and obtained payment of the refund. He however absconded, and tho' a reward has been offered for his apprehension he has not been found.— Moorcumbat Narsiah was the Vakeel of Tallagoontalingama Naiker the plaintiff in

in the suit, and the party to whom the Certificate was granted. As it appeared to me that he was a party to the fraud I issued a warrant for his apprehension on the 30th. ult. April. He was tried by me and committed to the Criminal Court on the 8th. May.—

The Sessions Judge released him on bail till the 25th. August, in the hope that the Vakeel Moorcumbat Narsiah might be apprehended, & then finally acquitted him expressing his opinion that the Vakeel Moorcumbat Narsiah, who received the money from the Treasury was the only guilty party. Copy of the decision of the Sessions Judge in this case is herewith forwarded.—

4 A proclamation was issued directing the appearance of Moorcumbat Narsiah before the Magistrate, he has no real property and moreover the Courts of Foujdaree Udalut decided on a reference made to them,— that the provisions of Section XVII Regulation IX of 1816 do not apply to heinous offences. Remarks

I see very just reason to doubt the statement of the 5th witness that the Certificate in question was

Fort Saint George 22d October 1858

made over to the Prisoner (and by him transferred to his (5th witness) brother & have little doubt that the latter person is the only guilty party - It is evident that he was the Recipient of the money from the Treasury. The Certificate bears an Endorsement from the Prisoner to the 5th witness brother and I have been unable to discover who the attesting witnesses are. This and other points can only be learnt from the 5th witness brother who has chosen to decamp, and in the hope of whose appre-hension the disposal of the Case has been delayed. The Prisoner have been allowed to be at large on bail. The Prisoner has all along denied all Knowledge of the transaction and the 5th witness's testimony evidently delivered in order to screen his brother does not appear trustworthy. Two of the three persons whom he stated were present when

when the Certificate was delivered to the Prisoner, deny it in toto. The Prisoner's Signature in Official Records when Compared with that attached to the transfer Memo: in the Certificate is found to differ. I Convicted with the Mahamedan Law Officer in the Prisoner's acquittal and therefore release him.

Short produce as well as the amount of
additional tax (Puslgasty) are all
liable to fluctuation every year and
it is only on the Completion of the
Jamma bundy settlement that
the Revenue of each year can be
ascertained. In the present state of
Circumstances in Tinnevelly therefore
it

it is evident that it would be very diffic.t to render the water Charge a permanently fixed Sum for it Could only be determined each year with Reference to the Net Revenue Remaining after paying the Land Tax.

4 A work of irrigation of great magnitude that has been projected for execution in this District Viz.t the annicut and Bridge across the Tambraparny River with the limits of Shreevycontum Taluk for which a sum of Rupees 38,6000 has been sanctioned by Government, if undertaken by a Company ample Remuneration might be calculated on for an increase in the Revenue of Nunjah Arable waste land 5118 One Crop land proposed to be cultivated with two crops 6972 Dry land proposed to be converted into wet 10303 Amount of Remission for drought and short produce 23953 46346 Rupees 46346 has been expected to Result from the execution of this important work as shewn in the Margin. 5 With Reference to Para 4 of the Board's Proceedings under Reply I have the honor to state that from enquiry it appears that Cotton seeds are sown generally between the months of September and October after rain has fallen. In the space of 4 Months the pods are formed on the plants and they burst in February and March. It is Considered that the plants do not seem to Require water from the time they have Come to bearing Summer Rains and Lightening are said to be injurious to the Cotton Cultivation by Causing the pods to drop off I beg to forward for the information of the Board Copy of a letter from Mr.r Barter a European Merchant at Tuticorin on the Subject and am able from my own observation formerly in the District of Bellary to add my testimony to the General Correctness of the views profounded in Mr.r Barter's letter.

In

6 On experiments with foreign Cotton Seeds tried in 1848-1849 in the Sub Division of Bellary it was Clearly established that irrigation was Necessary sufficient Rain failing to promote the full growth and maturity of the Cotton plant in the Red soil and under such treatment the produce far exceeded both in quantity and quality that of the indigenous Cotton generally grown in the Country, it then Remained a question how far Remunerative Cotton could be rendered when the additional expenditure of partial irrigation was incurred for its production

7 I quite Concur with the opinion expressed by Mr. Baxter Regarding the limited irrigation of the Cotton plant when sown in black Soil

8 Like Indigo the Cotton plant will grow without artificial irrigation and in every favorable seasons may reach full

full maturity quite independently of it, but in general limited irrigation tends greatly to the Superiority of the Crop and its produce.

To James Silver Esqre
Collector of

Sir, In answer to your Circular of the 6th Instant, Calling for my opinion Regarding the advantages or disadvantages of artificial irrigation to the Culture of Cotton in India I have to state that from my own observations I am of opinion that the frequent irrigation of Cotton growing

growing on black clayey soil would
be injurious, enjuring if not des:
:troying the Radicles of the taproot
and so Reducing or entirely Cutting
off nourishment to the plant
from the soil. but I am not pre:
:pared to say that an occasional
and moderate supply of water even
here would not be of service, the
black clayey soil I allude to re
:tain below the surface moisture for
a Considerable time, which I attribute
not merely to its tenacious property
but also to the Crust that hardens
on the surface and Renders the sun
Rays impervious to the soil beneath
which the taproot is imbedded Conse
:quently I am of much the same opinion as
the Collector of Broach as to the unadvis
:ability of the Government Commencing
their artificial irrigation in such soil as

for I presume an additional assessment
on the land to meet the expense would
be the Consequence from the Collector
of Broachis Remarks I take
it for granted that the soil there
is of much the same sort as found
between Mapedasum in this and Tiroo:
:mungalum in the Madura Zillah
With Regard to the lighter Red
brown and grey soils I am of opinion
that irrigation would be decidedly ad
:vantageous in promoting a finer plant
increased produce and a stranger
staple. the indigineous Cotton is better
able to sustain itself and be
productive in the absence of artificial assist:
:ance than any exotic I have Come across
and Consequently the foreign Cottons
would benefit in a greater Ratio
than the Common Cotton of the
Country and I doubt not that if irrigation
was applied to the lighter soils of the
Cotton growing districts of India that
the

the land would be capable of bearing a Reasonably increased assessment and yield for finer Crops and secure the object for which so much of the Honorable Companys money has been hitherto uselessly expended both in this and the Bombay Presidency namely the substitution of the more valuable Cottons for the indigenous description I have had my attention drawn to the increased number of pods attackedby insects amongst Cotton grown on irrigated lands but I am not sure that I ever noticed it to an extent that would admit it as a valid argument against the artificial irrigation of the plant.

From the Collector of Coimbatore.

I have the honor to state for the consideration and orders of the Board of Rev that in the statement of Cultivation forwarded to the monthly, the present assessment on the fields actually Cultivated is entered because the survey assessment has undergone reductions more than once and also for want of another Column in that account for the same

2 The actual assessment now Recovered is less than the original one from the above cause, and cannot therefore be shewn in the account above alluded to without great difference between it and the actual demand. From No. 2 of the Taluk account does not also Contain a Separate Column for Survey assessment. under these Circumstances I Request the Board's instructions as to whether an additional Column may be opened in the above account furnished by the Tahsildars for Survey assessment, or whether the present demand alone on each field be entered. Pending the Receipt of the Board's orders I have directed the preparation of the account in question as usual.

The observations of the Board under date 31st Ultimo No. 1935 though not exactly describing what I believe, to be the real difference between the results of the Nungumbaukum Survey of 1803 and of the present times have brought to light some great errors of this Office in my attempt to recover able the two Surveys in Paras 5 and 9 of my report of the 27th March 1858.

2. I will furnish the information required in your letter under acknowledgement.

3. By "Production" is intended Land for the most part yielding revenue, though as stated in Para 11 of my report, lands held free are included in it. The term is not quite suitable but answers better perhaps than "cultivated" or "assert".

4. The remaining deficiency of Cs. G. 40-13 alluded to in Para 5 would seem to be explained by the item "New Roads & Extended" taken into calculation in arriving at the decrease of Cs. Gs. 114-18-1508.

Gentlemen

I have the honor to acknowledge the receipt of your letter of the 9th Instant received here late at night and beg to refer you to the Master Attendants' Department which regulates the supply of Boats the contract on Masula Boats with the Salt Department having ceased since 5th February last.

The weighing of Salt

No public notice was given of this so far as we know by Binny & Co.

Sir, With reference to
the notification in the Fort St George
Gazette dated 19th January last
we

Fort St George 22d October 1858

we have the honor to bring to your notice the very great detention experienced by the Ship "Himalayah" in consequence of the Superintendent not shipping off the Salt. On the 2d Instant we applied to him in the usual manner for 600 Tons of Salt and up to this date only 107 Tons have been shipped. The circumstance was brought to the notice of the Superintendent both by ourselves and the Commander and we were referred by him to the Master Attendant, but that Officer upon being applied to informs us that his Department is not bound to provide Boats for that purpose thus leaving the matter in a most unsatisfactory State. We need not inform you that this detention will not only cause a serious loss to the owners as far as

Fort St George 22d October 1858

as the Cargo is concerned but the Vessel may be exposed to the very sudden squalls and bad weather which so frequently occur at this season of the year and which have on many former occasions proved so injurious to the Shipping Interest.

Under these circumstances we beg that you will issue the necessary orders to the Departments to which the Shipment appertains that no further detention may take place, and that the Commander may be enabled to proceed on the Voyage at an early date.

Should the matter be one upon which you have no Control we request that you will submit the question for the consideration of the Right Honorable His Lordship in Council.

in the Shipping of Salt from this
Port and are aware of no unnecessary
delay having been occasioned by the
Salt Department

3. Mr Campbell's letter informs
you of the real Cause of the short Ship-
ments under notice viz inability
to procure Boats though more than the
usual rate has been tendered in this

4. I have reported to the Board
of Revenue the difficulty in the
supply of Boats and have proposed
the publication of a notice in
the Official Gazette that for
the present Salt will be provided
for Export only when Boats are
available to the Superintendent
of Salt or when parties take the
shipping of the Salt into their own hands

Brooke Cunliffe Esqre
Collector of Land Customs
Madras.

Sir.

A letter addressed to
us by the Commander of the French
Ship "Himalayah" loudly protesting against
the delay to which his Vessel was sub-
jected in loading certain Salt at this
place recently renders it necessary to
reopen the question, as to whether the
Salt Department was not bound to
furnish Boats, and if so, whether or
not the Owners of that ship have
not a fair claim for loss from Boats
not having been supplied by that
Department.

2nd In dealing with this
question now, we have particularly
before

Fort St. George 22d October 1858

before us your Official Memorandum of the 19th January last setting forth the terms on which you were prepared to issue Permits for the Export of Salt and our letter of the 9th Ultimo to the Superintendent of Salt. together with his reply thereto dated the 10th Idem, the last of which affirms that the Department could not supply Boats as its contracts with the Masula Boat-men ceased on the 5th February.

Our view of the case is this. On the 26th March we paid Rupees 1230. and received a Permit to Export Salt by the "Himalayah" to the extent of 8200 Maunds which represent quantity and value according to the terms set forth in your notice of the 19th January and as this includes the charge for Boats. we submit you were clearly bound to provide them.

And to shew that this must have been the view your Department took of its position we beg you

Fort St. George 22d October 1858

you to look at the exception it expressly took to supplying Boats when replying on the 13th Ultimo to a further requisition for Salt made by us on the 10th Idem.

The quantity of Salt for which Permit was granted to us represented in Tons would be 300. which under ordinary diligence and without interruption from high Surf as in this case might have been laden in 6 to 10 days. but the "Himalayah" began her loading on the 30th March and ended it on the 26th April. having after all only received 254 3/4 Tons in part of the 300 Tons sanctioned.

And thus there appear two grounds of claim upon your Department. Viz.t 1st for 17 Days Demurrage and 2d for loss of Freight on the quantity of 45 1/2 Tons short shipped, the former of which may be taken at 10 Pounds a day. and the latter at say Rupees 9. or Eighteen shillings a Ton, and these represent an aggregate

aggregate claim of £ 210 — 14 . 6 ~
which we think may fairly be made
upon your Department by us for the
Owners of the "Himalayah."

We acknowledge the
correctness of all that has been ~
urged as to the difficulties of getting
Boats, but we submit that, that
did not relieve you under your engage
ment to supply them.

Awaiting your reply and
intending to lay copies of this corresponde
ence before the Governor in ~
Council.

to the "Himalayah" for the alleged

and for loss of freight through

45 1/4 Tons.

2. You applied on the 26.th
March for 8200 Indian Maunds ~
for the "Himalayah," and from
information received from the Salt
Department I understand that the
shipments took place as marginally
noted, and that the Vessel received
from the 1.st to the 26.th April. 6960
Maunds.

3. You state that you
"acknowledge the correctness of all that
has been urged as to the difficulties
of getting Boats" but it may be as
well to state here more particularly
what those difficulties were and what
effects were made by the Salt Depart.
ment to procure Boats.

4. Though the ordinary
here

here of a boat per Trip was Rupees 1—8—" the Department offered Rupees 1—12—"

5 On the 1st April the Salt Carricopilly on the Beach reported that Boats had been much taken up by the Master Attendant, and that he had frequently applied to the Boat Overseer for boats, without success.

6 On the 10th Carricopoly reported that the Surf was high, the "Himalayah" long way out, and that he had applied for boats in vain.

7 On the 12th the Salt Superintendent called at your Office and accompanied the Captain of the "Himalayah" to the Master Attendant who however was not successful in procuring boats.

8 As many other Vessels were taking in Salt, boats could still be obtained with great difficulty and from the 18th your own Firm supplyed 37 Boats receiving the rate from Government of Rupees 1—12—" per Trip.

On

9 On the 26th you wrote requesting that no more Salt should be furnished and that the cost of the quantity short shipped should be refunded to you.

10 Up to the 17th April you were apparently so satisfied with the course of shipment that you applied for 8200 Maunds more, for the same Vessel, which the Superintendent declared that he could not supply unless you furnished your own boats.

11. There has been great delay certainly, but I submit that it was unavoidable under the present shipping capabilities of the Port. To the Six or Eight Ships loading with Salt simultaneously, the Department supplied about 40 Tons Daily, of which the "Himalayah" received about one third, no other ship, though equally delayed, has made a similar demand, the difficulty in procuring boats being patent to all.

Great

12. Great exertions having been made to ship, the Salt Servants of the Department cannot, I think, be justly charged with any remissness and that the Government cannot be fairly called upon for compensation.

13. If, being aware of the many obstacles in the way of shipment, and the efforts made to overcome them, you are determined to bring you claim on the Letter of the Notification, that Salt was available for Export at 15 Rupees the 100 Indian Maunds, and would be put on board by the Government, it becomes a question whether these terms were not initiated and put aside by your Office supplying boats towards the conclusion of shipments and whether your receipt of the 27th April for the 6960 Maunds shipped, does not close the transaction and

and forbid its reopening at this late date.-

14. On the 13th April you wrote me regarding the delay in shipping, and I expressed my regret that I could not assist you "as the trade of the Port had taken up all the Boats" you still continued to receive and on the 17th even asked for 8200 Maunds more.-

15. With regard to the claim for loss of Freight through short shipment, I think it sufficient to say that the supply of Salt was discontinued at your own request by letter of the 26th April, and that the cost of the Salt short supplied Viz.t 186 Rupees was refunded to you on the 8th May.

16. If you intend to go up to Government with this case, I would suggest that you forward it thro' the Board of Revenue, who are the immediate appeal from

In conducting the Settlement of the present Fasly the revocation and oppression connected with certain items of the Malurphee Case, have again come under notice and I am induced to remit to the subject of my letter of 22nd December 1855 in which these

these were particularized Amounting to about 5000 Rupees.

2 Upon examination of the list, it will be found that the tase in these instances is levied on the poorest and most miserable classes and cannot be defended on the ground of an income tase.

3 The Government in para 20 of Extract Minutes Consultation of 8th September 1855 observed that altho the question of the General abolition of the Malurphee tase was referred to the Government of India, it was still open to the former to abolish such items as may be specially objectionable and accordingly remitted the tase on Sheep and Goats levied from the Shepherds Amounting to Rupees 10000 and I would venture to hope that the same indulgence may be extended to the items above alluded to, as I believe the Grounds to be fully as strong and in some Cases even stronger for its cessation.

4 The liberal measures of Govern-ment in the abolition of the Village Poolany the

the tax on Sheep and Goats and also on the firewood in the Coast Jungles have been sensibly felt in the District and I hope the advantage as well as the propriety of this policy will be proved by the revenue for the Current Fasly Coming up to Standard exceeding that of the past year notwithstanding the deductions of the abolished items above noticed. Under this Circumstances also I trust the Small loss of revenue will not be allowed to Stand in the way of the present proposition and that the Board will be prepared to support it with their favorable recommendation.

2 I see no objections to any of the rules. They are all useful for sanatory purposes but it is, I think doubtful whether arrears of quit Rent a tax to be devoted to Local and Municipal purposes (Vide Rule 18) can be realized in the same way as arrears of Land Revenue.

3 It is also open to remark with regard to Rule 15 that the Magistrate has at present power to suppress public nuisances tho he has not power to enforce mere sanatory regulations in Towns so far as this Rule refers to Regulations of the latter class he would not be able to treat breaches of the rules as Criminal offences

offences.

Para 8 Extract Board Proceedings dated 8th April 1837 No 3080

4 The Board observe that the rules can be applied strictly only when Sites of the new towns are Government waste and that in other cases the Local officers must use their influence to induce the proprietors to conform to those as much as possible. I do not think that any Magistrate would have it in his power to persuade the proprietors of landed estates to adopt the same System tho of course it will be my duty to do my best on that point.

I have the honor with reference to your letter of the 16th June 1838 No 2086 and my Communications dated 4th and 27th August 1838 Nos 153 & 172 to forward the accompanying Copy of a letter from the Collector of Cuddapah transmitting to me the list of the 23 Pooganoor Enams Cases adverted to by the Board and to state for their information that on examining the records of these Cases they are found to be all defective in not containing the

Copse

Capse Register, so that it has been ne-
cessary to return them to the Zemindar
Under these circumstances and with refe-
rence to the fact that all the Enams of
the resumed Jaghire of Avelcondah and
Maunmadoot Soliem have to be examin
and reported on when necessary it is
not practicable for me to state when
I can transmit my final report on
the 23d Poonganoor Enam Cases.

2 I beg also to refer to my letter
of the 30th July 1838 No. 152 which show
that there are still 51 other undisposed of
Enam Cases in my Office.

honor to forward herewith a List of the
Records transmitted to you with my

With reference to your Letter

No 449 dated the 14th ultimo, I have the
honor to inform you that a Copy of the
Register of Enam Cases of the Poonganoor
Talook is under preparation which will
require some time for the copying of the
vast number of the Cases entered in the Register
appertaining to that Talook. It appears
impracticable in the absence of any list in
this Office to distinguish among the 60 Cases
alluded to in your letter the number that
have been already decided and those remaining
to be disposed of. This can be easily done
if the whole bundle be transmitted to this
Office for that purpose.

The 23 Cases entered in the
accompanying

accompanying List are those referred to by the Board in their Proceedings quoted in your letter. Delay in forwarding them to you arose in consequence of the confused state into which they had fallen by being mingled with other Cases previous to their being sorted out.

Sir,

3d No 4283
From the Acting Collr of Malabar

With reference to the Extract from the Proceedings of the Court of Wards under date the 1st March last, I have the honor to furnish the required information on the two points therein set forth for the approval of that Court.

2 First as regards an establishment for the management of the property of the Nellalomars family, I think that no other arrangement is necessary than that sanctioned by my Predecessor. An old Agent of the family on a Salary of Rupees 5- per Mensem had been appointed by him to look after and manage the Estate under the Superintendence of the Talook authorities I have reason to think that the Estate under such administration would be more economically and efficiently managed, than by an establishment

establishment more expensive and exclusive in its nature.

3 Secondly. In regard to the Conservation of the forests on the Estate in question, I beg to state that they are at present under the supervision of the Talook authorities an arrangement which under the existing state of the forests I think quite sufficient for their Conservation. There is a prospect however of a great portion of these forests or more properly speaking jungles being reclaimed by European Settlers. A. McLaseller has applied for a portion of them for the purpose of being planted with Coffee, and arrangements which shall be submitted to the Court of Wards for sanction, are at present being made with a view to complying with his wishes. As the prospect of reclaiming these lands increases Special arrangements will then become necessary and may be safely made without entailing any burden on the Estate.

4 The McLaloue Estate was taken

charge

charge of in April last and the proceeds from it from that period to the present are given in the Margin, and have been carried to account for the expenditure of the McLaloue family.

Extract from the Proceedings of the Chief Engineer in the Department of Public Works Under date the 14th October 1838, —

Read the following letter

No 593 of 1838/59

To Major E. Lawford
Offg Chief Engineer
D. P. Works

No 4638,
To The District Engineer of Cuddapah —

Sir, Government have recognized the expediency of the District Engineer being Consulted by the Collector in the matter of rectifying the configuration of Talooks I have the honor to make the following observations upon certain alterations of that nature which are I believe contemplated in this District

The Chief evil Complained of

2.

and

and which I believe the proposed changes are intended to remedy is the close proximity of the towns of Muddenpilly & Vailpaud the Cutcheries respectively of the large Talooks of Muddenpilly & Goorumconda. The former town is in the South Eastern Corner of the Talook while the latter is situated on the extreme western boundary of the Goorumconda Talook. They are thus distant from each other only two Miles as the Crow flies.

3 My opinion on the Subject has not been asked by the Collector but as I believe that the remedy proposed will be productive of far more inconvenience than is caused by the present arrangement I deem it my duty to offer for your Consideration the following Remarks—

1 The proposed alterations consist in I believe in transferring the South Eastern portion

portion of the Muddenpilly Talook along with the town of that name to Goorum-conda in retaining Vailpaud as the Cutcherie Station of the latter Talook thus increased in Size and in Selecting a new Cutcherie probably Cotta Cotta or Rungasamoodra for the Remaining portion of the Muddenpilly Talook. Now these changes so far from being improvements will I think be worse than the existing arrangements in every point of view—

5 In selecting a Cutcherie station the points to be attended to are first that it should be as Central as possible—Second that it should be as accessible as possible—and third, that the place Selected should not be a Small and unimportant Village. Of these Consideration the last is by far the least important

important - for if a Cutcherry be well situated near the Centre of the Taloks and easily accessible from all sides it will be very strange if it does not soon become the most important town in the Taloks -

6 There is no doubt that at present both the Taloks in question fail to fulfil the first of these Conditions. The Cutcherries are far from the Centre of either Taloks -

7 The Second Condition which is the most important of the three is fulfilled in the Gudderpilly Taloks. The town of that name though not Central is undoubtedly the most accessible spot in the whole Taloks It is the point of junction of four great lines of traffic

from Cuddapah viâ Goorumconda
from Bellary viâ Condelree -
from Bangalore viâ Seeglahylee
from Palmanair viâ Poonganoor

and from the large, rich tanks in the west of the Taloks viâ Cota both of these

three of these lines there are Roads already sanctioned on the other two the formation of Roads can be only a question of time -

In the Goorumconda Taloks on the other hand the present Cutcherry Veilpaud is by no means well chosen in point of accessibility - It is indeed accessible from no part of the Taloks excepting alone the town of Goorumconda from which place a rough Cart road leads to Veilpaud -

At present the Goorumconda Taloks is of a very inconvenient shape being about 50 miles in length with an average width of about 12 miles so far from rectifying this the proposed alterations would increase its length by some 20 miles -

8 There is however a very simple and obvious remedy for its present inconvenient shape a glance at the map will show that the Cuddapah and Chittoor Road runs through the Centre of the Taloks almost exactly bisecting it. On this very important

important thoroughfare there is a large and wealthy town which fulfils all the Conditions of a Cutcherry, I refer to Pedair. It is centrically easily accessible from all sides and even now a place of Considerable importance, It is a most healthy place and situated on the most important thoroughfare in the District. No doubt Vellpaud is a wealthy town but in its out of the way position it never Can increase much but on the contrary promises to be one of the most thriving towns in this District.

3 The following therefore are the Recommendations which I venture to make on the Subject—

1st That no alteration be made in the boundaries of the two Talooks in question I do not think that this Could be done without very much increasing the Convenience at present Complained of Indeed that inconvenience will vanish if the Cutcherry

Cutcherry be moved to a more accessible place—

2 That the Cutcherry of the Muddenpilly Talook be allowed to remain in its present position I grant that it is not central but on more grounds than one I think that in this case that should not be considered an objection—It is by far the most accessible & the most suitable site for a Cutcherry in the Talook. It is a most important town & its importance will of Course increase with the formation of the Roads now Sanctioned. There is one more argument in its favour which is gradually assuming the importance which it merits. Its climate is by far the best in the District for the European Constitution. It is indeed our Sanitorium English houses are springing up Round it, and the removal of the Talooldar would I think most impolitic—

3 That Pedair be made the Cutcherry

Fort St. George 23d. October 1858.

Coulsals of the Goorumcondah Talook is in place of Voilpaud, Except that it is a large and wealthy native town Voilpaud has no argument in its favor. Its situation is Confined & unhealthy. It is more than 20 Miles distant from a large part of the Talook. It is almost the most inaccessible town in the Talook. The selection of Peelair would Remedy all these disadvantages. already a large and important town, situated in the very Centre of the Talook and on the principal thorough-fare in the District healthy and with plenty of Room for expansion. One only wonders why it was not originally Selected.

the Board will observe that in the last report x it was stated that the remaining works could be performed before February last but I find that has not proved to be the case, it appears from enquiry that the Record Keeper was employed on other duties from November last until February in March he was suspended in the Boodiky case and the person who succeeded to the post has assorted 596 of the 696 Drafters which according to the former report remained unarranged the remaining work he promises to finish before the end of November next there is every reason to believe that he will do so.

4. I would also beg to urge on the attention of the Board the absolute necessity for employing an additional Copyist for entering into the Sections the current English work of my Office.

5. The current English work is doubtless more bulky now than before it is the revised Mogenzabitah which was submitted by Mr. Knox on the 22d November 1856 No. 221 to the Board it was proposed that one more Copyist should be employed permanently pending the sanction of the arrangement proposed in it. a copyist then

then employed and his salary was included in the estimate for additional Establishments.

6. The Mogenzabitah proposed by Mr. Knox was returned for revision & the additional Copyist has ever since been borne on the Establishment his services cannot be dispensed with & as no other arrangement can be effected for the present, Sanction is requested for Continuing this Copyist Salary in the Bill for additional Establishment which I believe is generally very small in the District.-

Sir,

I have the honor to transmit for your consideration an address and its accompaniments from the person marginally named who under your order dated the 16th September 1857 has been removed from the Office of Puttamanian of Cushabo Valungamam.

2. The papers before me show that the dismissal of the Ex Monieam was recommended by the local Tahsildar whose view of the neglect of duty imputed to the former officer was based on a report from the village Curnum.

3. There is nothing to show that any opportunity was afforded to the Monieam of meeting the accusation preferred against him and adverting to the tenor of the appeal which he now makes I find myself debarred from forming any safe judgement

Sir,

I have the honor to acknowledge the receipt of your letter of the 20th November last enclosing the appeal Petition of Arnachella Iyen late moonsiff of Velangamon with its accompaniments and calling upon me to state under what circumstances he was at once dismissed from

Fort St. George 25th October 1858

from the Public Service.

2. In reply I beg to state that it has been repeatedly brought under my notice that the said Arnachellum lives for the most part in the village of Caroopoor which is 4 Miles distant from Velanga mon and that besides having about 35 Wallies of land of his own to look after, he is one of the managing trustees of the large Pagodah at Tirichera distant about 6 miles from Velangamon Further the said Arnachellum is himself concerned in many Law suits pending in the various Courts at Comba conum and which renders his attendance at that place frequently necessary.

3. With this amount of business which may be considered particularly his own it is therefore altogether impossible he can undertake the duties of the Office of Moonsiff of so large a town as Velangamon and it was only very recently that the Civil Judge remarked on

Fort St. George 25th October 1858

on the amount of the Civil arrears on his files.

4. Since the receipt of the Mazzarnamah which was presented to you on the 31st October and forwarded by the Petitioner with your endorsement, I have sent for ten of the inhabitants of the town selected indiscriminately from those who signed the Mazzarnamah, and they have one and all deposed on oath that the late Moonsiff used only to visit Velanganaon occasionally, that the little Civil work which he professed to do was done by a Goamastah in his name; and that he paid no attention whatsoever to his Public duties.

5. For these reasons I thought it proper to remove him from the office and under the explanation now given, I trust the measure will meet with your approval.

6. The depositions taken from

Fort St. George 25th October 1858

from the parties who appeared before me and the documents which were enclosed along with the appeal Petition are herewith returned.

desirable that each of these officers should be kept informed of all that is going on affecting the well being of the country in all its various aspects, and the cost of the additional copy would I fancy be quite trifling.—

In explanation of the apparent discrepancy remarked upon in an Extract Proceedings of the Board of Revenue dated 2nd October 1838 I have the honor to observe that the Six Petitions alluded to in the 1st Para, are those which have been already disposed of, and form no part of the balance as the heading to the 4th Columns of the Register will shew. The Form under which the Register was prepared is one which has been adopted for the last two years.

Vide letter from Mr Parker dated 4th Octr 1838 - From Board 10th Oct No 3323

2 If all the Petitions specified in Para 3 of the Proceedings have to be entered the list will be a very long one, and as the original Form received with the Board's Circular Order of the 15th April 1839 has since undergone many

many modifications the Board may think it advisable to furnish a fresh Form thereby obviating the possibility of misconception.

Sir,

With reference to Para 2 of Extract from the Proceedings of the Board of Revenue dated 8th instant No 3397 directing me to state whether Government have passed any orders regarding the disposal of the surplus funds therein referred to, I have the honor to inform you that Mr Silver in Para 4 of his letter to the Board of Revenue dated 15th May 1836, recorded his opinion that the surplus proceeds of the Pagoda lands realized and held in deposit anterior to the lands being made over to the Trustees, are due to the Pagodas to which the lands belong. On this subject final orders of the Board have not yet been received of

Sir,

3d No 4283
From the Acting Collr of Malabar

With reference to the Extract from the Proceedings of the Court of Wards under date the 1st March last, I have the honor to furnish the required information on the two points therein set forth for the approval of that Court.

2 First as regards an establishment for the management of the property of the Nellalomars family, I think that no other arrangement is necessary than that sanctioned by my Predecessor. An old Agent of the family on a Salary of Rupees 5- per Mensem had been appointed by him to look after and manage the Estate under the Superintendence of the Talook authorities I have reason to think that the Estate under such administration would be more economically and efficiently managed, than by an establishment

has been no storm, and the rain though at times heavy has not been such as should have caused serious injury to the Tanks. if they had been in a tolerable condition. The result however has I regret to say been very disastrous I have already communicated to the District Engineer the breaching of no less than 86 Tanks and reports of others have since come in.

3 The large Tank of Alloor with an Ayacut of Rupees 37000 breached before it was half full, which might probably have been avoided had the most important part been first attended to. ——

4 Other Tanks are also in a precarious state and some of those breached last year have not yet been repaired. ——

5 My Chief object in writing now, without waiting to give more particulars, is to recommend that prompt advantage should be taken of the remainder of the wet season in which there will probably be a break, to push forward the repairs as rapidly as possible, in order to take advantage of the later rains which may be expected in November and the early part of December especially as there is now no want of funds I beg therefore to recommend that the sanction of Government should be
