No. 201

To
J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

Brd No. 4854
From the Coll.r of Masulipatam

I have the honor to report to the Board of Revenue the death on the 2d Ultimo of Mahomad Jaffer a Stipendiary connected with the family of the Nawab of Masulipatam who was in the Receipt of,

Fort Saint George 13th November 1858

a monthly pension of Rupees 57-12-" and whose place in the list of money allowances transmitted to the Board on the 18th Ultimo was No. 6 under the head of Personal grants not strictly hereditary

2 The deceased was the grandson by the elder daughter of Abdabegum, who was one of the daughters of Hussain alli Khan and a Pension of Rs. 57-12-" was granted him by Government under the orders of 28th February 1795. The pension was Renewed in his Name on the death of his grandmother in 1831 on the Condition of his appropriating a portion of it for the support of the family of Abdabegum's youngest daughter whose Name was Mahabegum.

Vide also
To Bd 11th March 1795
From Do 18th March 1795

To Bd 12th July 1831 No. 97
From Bd 11th August 1831
Communicating
E. In. 6.9th August 1831 No. 150

3 The deceased accordingly enjoyed Rs. 30-6-" while Moojafer ali Sahib, Son of Mahabegum received the Remainder from him, as his Share (Viz.t Rs. 27-6-".

4 The deceased has left behind him a wife (Talamabegum Saheba) and four unmarried daughters, besides his brother (by Consanguinity) Moojafer ali

Fort Saint George 13th November 1858

ali Sahib whose family at this date consists of a wife, and three unmarried daughters and who is also burdened with a payment of Rs 5 to the Son and Daughter of his deceased sister.

5 The wife Fatama Begum or Sahiba prays that the whole of the pension which her husband was in receipt of may be Renewed or according to the Custom of the family in the Name of Moojafer ali Sahib the eldest Surviving male member of it. She Receiving her husbands share thereof and Moojafer ali Sahib his Share as before.

6 As the Survivors of the deceased Stipendiary Consist of many unmarried daughters and are Reported to have no other means of livelihood, I think the present is a Case which is not Susceptible of Considerable Reduction in the Amount to be Continued, and I therefore beg to Recommend that 25 Rs be

Fort Saint George 13th November 1858

allowed to the widow and daughters leaving Moojafer alys Pension in tact.

To

J. D. Sim Esqre

Secretary to the

Board of Revenue

Fort St. George.

Bd No. 5026
From the Collector of Nellore ...

Sir,

With reference to an Extract from the Minutes of Consultation under date the 28th September last sanctioning the Reduction of the assessment of the Dry Lands in the Woodiaghery Talook, I have the honor to state that the Villages of the late Woodiaghery Jaghire for which I applied for the Reduction are not all Contained in the present Talook of that name but are also situated in five other Talooks as shown in the Margin I beg therefore to be favoured with instructions as to whether the above orders are to be understood as applying to all the Villages of the late Woodiaghery Jaghire as was probably intended.

Talooks	No. of Villages
Woodiaghery	18
Ravoor	8
Caleghery	14
Sungum	2
Talamuchy	1 25
Grand Total	67

2. The 25 Villages in question having been excluded from the benefits of the Dry land remissions granted in 1855 when none was sanctioned for Woodiaghery and having been settled on similar principles to the other 42 Villages of the Resumed Jaghire, they should undoubtedly I consider be allowed to participate in the Reduction of Assessment now sanctioned as was my intention when reporting on the Subject.

No 201

To

J. D. Sim Esq
Secretary to the Board of Revenue
Fort St George

Bd No 5027

From the Collr of
Bellary

Sir

I have the honor to report favorably of the rains that have fallen through the last month —

2. The rains commenced on the night of the 30th September and in all parts of the District there was an abundant fall between that day and the 2nd October when the rain seemed to cease and the weather cleared up and a powerful sun will no doubt have given agricultural pursuits most valuable assistance

3. I am sorry to have seen in Bellary upon constant every day for the many days together. There was not a single day at the town of Bellary that it did not rain for 4 days and 13/2 inches fell during those days.

The tanks generally have not been very heavy at a cost or destructive to tanks — but the principal tanks have nearly all gutted. In two districts near Talak have been breached — and one or two elsewhere — In the Hillsborough Division of the Bycore Country the rains have been very heavy and destructive of property — During the same time more than 25 inches fell at Sorraver which is 40 miles from the frontier of Mundaetteerah. The River Hagary as also the Vumar and Sonnabatra came down in very heavy floods and it is said to contemplate that some of those

plans

Fort St George 13th November 1858

plans projected five years ago to save us from famine by storing up the waters of these large streams, have yet been developed. In September at the last of the Western Monsoon, the Country was parched up, and famine apprehended. In October volumes of water sufficient to irrigate perhaps the whole of Bellary rushed useless into the Sea.

4. Communication between the Principal and Sub Divisions was cut off (as frequently has been the case) for nearly a fortnight, while a Bridge over the Pennar on the Trunk Road No 2, commenced 4 years ago remains still incomplete, and the work is stopped. I would urge the completion of this work without delay and the road connected with it. But I need not say that I would urge on the prosecution of the projects of those great works which are contemplated for saving some of those valuable waters now so unproductively pouring into the ocean.

Bellary Collr's Office

Para 4.

Fort St. George 13th November 1858

of the deceased, Surviving, than those noted in the genealogical tree and in Column 7 of the Remarks in the Statement of the case. The deceased holder has left no lineal descendant Her nephew or sisters Son, named Pedda Poollareddy, was supported by her from his infancy, to whom she is said to have alienated her enam on her death bed. This transaction being perfectly illegal and the party being a decendant of another family, his right to the last holders share was rejected. The Surviving members of the family are Maraina Reddy, Chenchooreddy and Thakoora, who are 1st & 2nd Cousins to the deceased's husband They are divided and hold a Separate share in the enam, the fact of their being divided alone invalidates their claim to the Lapsed share.-

3. As stated above, there are no other members bearing a nearer or more distant relation to the deceased than those alluded to in the preceding para.

Cuddapah

B. No. 4738.

From the Collector of Salem.....

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated the 18th May 1858, No. 1799, reviewing my reports on the Minor Estates in the Salem District from Faslies 1264. 1265 and 1266. and as being me to explain the case of certain discrepancies in the Peishcush for the last 3 Faslies.

2. In reply, I beg to specify in the Margin the Correct Peishcush that ought to have been entered against the Several Mootahs noticed in the Extract. I request the Board will be pleased to correct the amounts entered

	Rs. as. ps.
5 Shantapuram Jeeyr	3502-13-
6 Nallum	3178-9-2
10 Annandoor	75 ps 8-4
11 Cudalloor	8422-2-3

Fort St. George 13th November 1858.

entered in the Statements accordingly. The Board will observe that the Nallum and Annandoor Mootahs being the property of one person, the Peishcush of the one Mootah was by mistake entered against the other. The other differences were the result of clerical errors.

3. With reference to the point that the guardians of two Mootahs have not furnished the necessary accounts. I had previous to the receipt of the Proceedings under reply, called upon the guardians to explain why they had not rendered the required accounts. The guardian of Annandoor Mootah, has explained in reply that owing to certain disputes between herself and the other Joint Mootahdars, she was not able to make up her accounts. In the other case, Viz. that of Cudalloor,

the

Fort St George 13th November 1858

the Accounts were sent in after my report was forwarded. The Moutahdar has promised to send them in at the proper time in future. I have not therefore thought it necessary to apply to the Civil Judge on the subject as suggested in Para 8 of the Extract under reference.

Fort St George

B No 5050
From the Collr
of Salem

Sir

A Goomastah in my Office applied to me during the present month for a day's leave, to allow of his performing the usual annual ceremony for his deceased mother, I have the honor to request the Board will submit a question on this subject to the Government,

to

Fort Saint George 13th November 1858

to ascertain whether under the present rules for the Uncovenanted Service, Hindoos who require leave on such occasions as the one now stated, are liable to have the whole of their Salary stopped for the day they are absent.

2 The Civil Auditor in his precis of the leave Rules Circulated with his letter dated the 25th August 1858 has explained that the Government order of the 16th April 1858 does not provide for any Case, of any Kind, in which occasional leave can be granted without forfeiture of Salary: I do not think the Government Can have Contemplated such Cases, as the one to which I now refer. There are Certain days in the year in which Hindoos are obliged according to the usual practice of their Religion, to employ themselves in a way which Compels them to absent themselves from Office. It must also happen, with the Uncovenanted Servants as with others, that they are, occasionally unable to attend

to

to Official duty on account of Sickness or Sudden death in their families. The Uncovenanted Servants will Consider it a great hardship if on either of the two occasions I have now named the Consideration and privileges they have hitherto enjoyed should be denied to them.

Sir,

With reference to the Correspondence noted in the Margin I have the honor to Submit for the information of

* To Court of Wards 4th Octr 1858
From Dy 3d Wr Dr

of the Court. a Copy of the Decree passed by the Sub Judge in O. S. No. 21 of 1856 on the file of his Court dismissing the Plffs Claim with all Costs.

The time allowed to Plaintiff for preferring an appeal will expire on the 12th November 1858.

Madura 30th October 1858 / Signed pr. H. Thaway.

Acting Collector

Madura Subordinate Court Decree.

Subordinate Court Original Suit No. 21/56

Plaintiff. vers Defendants

Soobramoney Chetty / R. D. Parker Esqr. Collector & Agent to the Court of Wards

2 Ramien Gardien of the minor Zemindar of Shevagungah.

Vakeel Vakeel

Narain Row Ramasawmy Iyah.

1 This is a Suit for the Recovery of Rupees 1253-2-4 being the mesne profits of certain Village for Fasties 1252-53 & 54. and Interest thereon together with Subsequent Interest upon the Principal till Collection.

2 The Plaintiff states that the Village of Caresaycolum in Shevagungah Zemindary was sold to him under the Rayenamah filed by himself as Plaintiff and 2 Defendants in Suit No. 3 of 1837 on the file of the late Southern Provincial Court [illegible]

October 1842. that the village was then under the attachment of the Collector, who made it over to the Zemindar in 1844. that upon the application of the Plaintiff, the Court not only delivered over to him, the Village and also sent a letter to the Collector to remit for payment to him the Sum of Rupees 1169-3-7 being the Net profits of the Village for the period intervening the date of the sale and that of its delivery to him, but as the Collector stated in his Reply that the said Sum was also paid to the Zemindar, the Plaintiff was directed, on the 18th July 1846. to recover the same by a Civil action as the Zemindary is at present under the management of the Court of Wards. the Plaintiff has brought this Suit against the Collector and the guardian of the minor Zemindar.

3 In their answer the Defendants admit the fact of the Village having come into the possession of the Plaintiff as stated in the Plaint. but plead non liability to Plaintiffs Claim, Contending that immediately after the Plaintiff was placed in possession of the Village, Pitchamaul Natcheyar the widow of the Zemindar and her Brother (1st Deft in the aforesaid Suit No. 3) and this Plaintiff to recover the Village as her dowery property and by a Supplemental Plaint She waived the Recovery of the mesne profits.

Decree

because they were paid to her husband when the Zemindary was Restored to him. In 1849 the Civil Court finally decreed to him the village in question. Under these Circumstances the Plaintiff has no Claim, to the Mesne profits for any period.

4 The Reply and Rejoinder Contain no nothing materiab.

5 Points for Plaintiff.

1st Prove by Documents and Witnesses that Plaintiff is entitled to the amount Claimed and that the Defendants are liable for the same

6 Points for Defendants

1st Prove that Defendants are not liable to the Claim of Plaintiff.

7 Plaintiffs Exhibits.

A (No 16) Authenticated Copy of a letter dated 5th February 1846 from the Subordinate Court to the principal Collector of Madura Requesting him to Remit the sum of Rs 685-8-0 being the proceeds of the Village of Pilvoy Merichan and Karisakolum

To prove the Points of the Plff.

B (No 17) Authenticated Copy of a letter dated 7th February 1846 addressed to the Sub Court by the Principal Collector stating that there was no such deposit in his Treasury

Treasury in favor of the Court.

C (No 21) Do of a Decree dated 30th September 1848 passed in the Original Suit No 1 of 1846 on the file of the Hindoo Sudder Ameens Court Shewing that Pitchamma Natchiyar had Relinquished her Claim to the loss of produce of Karisakolum.

D (No 33) Authenticated Copy of the Diary Order passed on the 18th July 1846 by the Sub Court stating that the Plaintiff was at liberty to see the Collector if he Considers to have any Cause of Action against him.

Defendants Exhibits.

8 I (No 25) An attested Copy of the supplemental Plaint put in on the 1st July 1846 by Pitchamma Natchiyar in Original Suit No 1 of 1846 of the Sudder Ameens Court file, Relinquishing her Claim to loss of produce of the property therein Claimed.

To prove the Points of the Defendants

II (No 28) Do of the Razeena: mah motion presented on the 7th October 1842 by the Plaintiff & Defendants in original Suit No 3 of

of 1837 on the file of the late southern Provincial Court Shewing, that if any dispute should arrise Regarding the disputed Village of Mootooveyya Ragoonatha Mootooveyya Tavee should be held liable for it

III (Pa 29) Authenticated Copy of the Decree dated 4th July 1848 passed by the Civil Court in appeal Suit (No 64) of 1848 Shewing that the Village &c in question was given in dowery to Pilchama Nalcheyar and that Mootooveyya Ragoonadha Mootooveyya Tavee had no Right to alienate them.

To prove the Points of the Defendants.

9 No Witnesses were cited by either party.

Judgment

10 There is no question as to the Village of Canisacoil having been sold to Plaintiff in satisfaction of a Razeenama bond to it having been delivered over to Plaintiff in pursuance of a Court precept, which also directed the Collector to pay over to Plaintiff the net profits for the period intervening between the sale and the delivery, but as it

was subsequently determined in appeal Suit No 65 of 1848 by the Civil Court of Madura that the Village belonged to Pilchama Nalcheyar (Plaintiff in that Suit) and not to her Brother it is Clear that he (the Brother) had no Right to sell it to Plaintiff and also as Clear that Plaintiff Can have no Claim upon Defts for any profits from the Village so sold.

11 The Claim is therefore dismissed and Plaintiff directed to pay all Costs.

Costs incurred by Plaintiff.

No 176.

To
F. D. Sim Esq
Acting Secretary to the
Board of Revenue

Sir

From the Collr of Coimbatore

With reference to the Extract from the Proceedings of the Board of Revenue dated 20th Ultimo No 3546 and to the orders of Government therein conveyed in Extract Minutes of Consultation of the 4th Instant No 1353, I have the honor to report that as requested by the Assistant Commissary General at Hoonsoor in his letter of the 15th September 1858 No 178 copy of which is herein enclosed, I made arrangements for the despatch of the white Elephant and its dam to Madras and they accordingly left Coimbatore on the morning of the 24th Instant under the charge of a peon, and two Mahouts - whom

whom I have furnished with sufficient funds to meet the feeding charges of the above animals on the road.—

2. I have given particular instructions to the attendants to halt at Pommalle and report their arrival to, and apply for orders from the Commissary General at Madras as suggested by Captain London.—

3. As the dam was somewhat sickly lately and as the young one is not able to travel more than 7 or 8 miles a day I think their journey to Madras will occupy about 40 days.

4. Attention to above & of the Boards [illegible]

1858 No. 8546, wherein they say that "it will be seen that it is intended "to send the Elephants to Calcutta "by land".— They do state that I am not aware whether the Commissariat Department intend to send them by land or by Sea to Calcutta.—

B No. 4468
From The A/Collr of Sea Customs Madras

Sir,

I have the honor to forward copy of a letter from Messrs. Secol & Co dated 1st October 1858 requesting that Drawback may be granted on the reshipment of a certain quantity of Sulphur, which was imported in July 1856 per "Eugenie" from Marseilles.—

2 Under Clause 2 Schedule A. Act VI. of 1844, Drawback cannot be allowed on the reshipment, the usual period of two years within which drawback can be claimed having expired, but under the circumstances explained by Messrs. Secol & Co. I would suggest that their request be submitted for the orders of Government.—

3 150 Barrels of the above consignment have been shipped to Pondicherry, as directed

in

Public Works Department

B No 24842

From the Accountant General } Sir.

x No 3910

In the 7th Para of Extract from the Proceedings of the Board of Revenue dated 16th x Instant they observe that the question regarding the arrangement of remitting money to subordinates in the Department of Public Works by Peons seems to have been under my consideration, but that they are not aware of the result.

2 I have therefore the honor now to report to Government in what manner the subject came under my consideration, and what steps I have taken respecting it.

3 In September 1857 the Chief Engineer brought to my notice a complaint from the District Engineer of Bellary that the Tahsildars of that District refused to send up the pay of each subordinate in the Public Works Department to the place where he resided, and that the Sub-Overseers and others were in consequence obliged to attend themselves

themselves at the Talook Treasury to draw their Pay. He requested me to issue such instructions to Collectors as would tend to obviate the inconvenience.

4 I suggested to that officer that it would be proper for the Executive Officer attached to each Talook to draw the whole of the Pay of himself and his subordinates, and distribute it among them, instead of making it imperative on the Subordinates to attend the Talook Treasury to receive their Pay as this appeared to be the case from the letter of the District Engineer. The Chief Engineer having approved of this suggestion, and informed me that my letter to him on the subject was circulated to all the District Engineers, the necessary instructions were issued by me also to all the Collectors.

5. The Chief Engineer however on further representations made to him by the District Engineers of Chingleput and Cuddapah requested me to reconsider the subject and to authorize some assistance being rendered by the Talook Peons in conveying the Pay

in pay of the Public Works Department. The Collectors whom I called upon for their opinion on the subject having stated distinctly that the services of Talook Peons could hardly be spared for such a purpose without impairing the efficiency of the Revenue and Police Departments; I took no further steps in the matter but simply communicated the result of my correspondence with the Collectors to the Chief Engineer. The further consideration of the subject does not fall within my province, and I have thought it proper to inform the Government of what has taken place in the matter.

In accordance with the wishes of Mr. Ball Collector South Arcot I have the honor to address myself directly to you and to inform you with reference to the Statement made in Para 29 of my report that I more particularly referred to the Arcalore Talook of Trichinopoly in which no funds were supplied to the ryots for the purpose of erecting Boundary marks. I sought also to observe that I shall perhaps not have used the expression "make the villagers pay" in as much as I have

Fort Saint George 13th November 1858

I have no authority to do so my meaning was that the inhabitants of adjoining villages were called on to furnish materials for a boundary mark alternately and were told that they were responsible for the safe keeping of those for which they had furnished materials.

As to the perpetuation of the field marks left by the Survey Ameens I have given repeated instructions to the Talook and Village Officers on the subject and if I mistake not have also addressed myself to the Collector of the districts in which I have been employed pointing out the inconvenience and delay to which the Assessing Officer will be subjected if the marks left by the Survey Ameens are not made permanent and have also touched on the importance of some steps to effect this object being taken in the Report I had the honor to forward through the Collector of South Arcot about three months ago. I take this opportunity of Remarking that destitute as I am of any powers to enforce my orders I find it sufficiently difficult to perform my own special duties without undertaking those which I submit more particularly belonging to Revenue Officers & for which they have ample powers.

To. The Secretary to the Court of Wards Fort St George

Bo No 4977
From the Collector of Ganjam

Sir

I have the honor to forward an Estimate Vizt for the construction of a road from Bonto to Heerumundee amounting to Rupees 10770 and request the sanction of the Court for its immediate execution. The Estimate for Masonry works is included in the above amount.

2. The Enclosed copy of the Acting District Engineers letter will shew the ground on which the construction of this line of road as well as one from Buttely to Heerumundalum / the Estimate for which

is

Fort St George 15th November 1858

is being also submitted to the Court, is recommended. I would request the attention of the Court to the remarks of the Acting District Engineer in para 7 on the expediency of procuring the superintendence of an European Officer for these roads.

I quite agree with Captain Harrington in thinking that these large sums should only be laid out on behalf of the Ward, under the best guarantee which we can furnish for the manner in which the Expenditure is directed and I think it impossible for Captain Campbell with his numerous other duties to bestow sufficient attention to these works.

If the Court approve I request they will obtain the services of an Officer for the superintendence of these roads and any other works now in progress in the Zemindary on which his supervision

Fort St George 15th November 1858

may be found desirable. The allowance should, I conclude be on the same scale as in the D. P. W. when regimental Officers are employed in the Department.

Ganjam District Collectors Office Chetterpore 19th October 1858.

(Signed) G. J. Forbes
Collector.

No 1.
No 262.

To
The Collector
of Ganjam.

Sir,

I have the honor to return the Estimates prepared by Captain Campbell Assistant Agent Kennedy as follows.

1 Estimate
1 Plan

For Masonry works on the proposed Road from Buttely to Heerammundalum Rupees 17610-

1 Survey.
1 Report
1 Estimate of earth work & Abstract.
1 Estimate of Masonry works.

For continuing the Buttely and Heerammundalum Road to Bonto on the Kennedy and Calingapatam Road Rupees 10770-

They

Fort St George 15th November 1858

2. They have been examined and checked in my Office as far as the imperfect data which accompany them admit of. In future it will be better that each road Estimate should be complete in itself, and provide for the required Masonry works adapted to sections of rivers and streams which should be clearly shewn. In the accompanying Estimate references are made generally to Plans and Estimates prepared for other lines of road, to which we have no means of referring and which may or may not be applicable.

3. I am however unwilling that the Estimates of these valuable lines should be delayed by being kept back for further details the more so, as Captain Campbell tells me he has carefully examined the proposed line and taken the sections of the streams &c. I would recommend that

Fort St George 15th November 1858

that the plans surveys and Estimates be forwarded to the Court of Wards and that application be made for early sanction though I would suggest that the following remarks be brought to their notice.-

4. My letters to you No 212 and 213 of 10th and 11th September 1858 enclosing a sketch Map of the proposed lines explain the reasons for my advocating the line from Buttaly vice Veeramum Vellum to Bonto near Sarvacotta. These might be laid before the Court for their consideration. My letters also allude to superintendence.

5. It will be observed that I do not altogether advocate the description of road for which provision has been made I prefer a cheaper road with much simple and less expensive masonry works On this point I have no doubt whatever. We have not nearly sufficient bricklayers in the Ganjam District

District for the works in hand. They will with difficulty be induced to work in the Kemedy Zemindary, and of there are a few cases of fever they will leave the work in a body. Hence bridges with brick arches may be delayed for years. We should, content ourselves with building piers and abutment in stone and chunam / which very indifferent workmen can do / and laying on them wooden platforms. We can get plenty of excellent wood cheap and the Village carpenters can do the work. Such bridges could be constructed in a few weeks and would last for very many years.

6. The lines should not however be delayed pending preparations of a revised Estimate. The working season in Kemedy is short and I look on the lines as so important, that no time should be lost in commencing them as there is no want

want of money, there need not and should not be any delay.

7. However, I am convinced that it is essential that an Officer should be sent especially to superintend these lines, assisted by two good European Overseers. The Officers and subordinates should be selected with some care. In that case we may hope to see the lines finished in 18 Months if this working season commencing in November is not lost. Work in Kemedy is somewhat trying and the salary should be fixed accordingly. It is, I think, a point for consideration whether the Amount of such superintendence should be charged entirely to the Kemedy Estate or in part borne by Government.

8. If an Officer is sent, he should commence the formation of the lines, clearing of jungles &c. at once, and correct sections of every stream and Nullah should be taken. Plans of Platforms bridges can

con then / if my views are approved of / be prepared in my Office, and it will be found that the Estimate for masonry works will be considerably lessened, and their construction much simplified, thereby saving much time labor and money.

9. The cost now Estimated is as follows.

Earthwork &c. Buttaly to Heeramundalum	Rs	24110-0-0
Masonry works Buttaly to Heeramundalum	"	17610-0-0
Completing the above line with earthwork and Masonry to Bonto near Parvacotta	"	10770-0-0
Total Rupees		52490-0-0

To this must be added the cost of efficient superintendence for 18 Months.

Bd No. 4565
From the Collr.
of Guntoor...

Sir,

I have the honor to acknowledge the receipt of the Board's Endorsement dated 26th August last on Petition No. 2369 of 1858.

2 The Petitioners are the residents of the Village of Cheeralah which was transferred from Nellore to this District in July 1857 under the orders of Government conveyed in the Board's Proceedings of the 26th June 1847.

3 They have hitherto been in the habit of paying in the Currumsa fee of 8 Annas a Coom per Annum which they now decline doing and have in fact withheld payment for Fusles 1266 and 1267.

4. The Petitioners were summoned by Mr.

Mr Cotton when Acting Collector and agreed in depositions given before that Gentleman to continue the payments as usual this agreement however has not been acted upto and in June of this year a crowd consisting of some two or three hundd appeared before me in Banpellah and that the audacity to deny ever having given such a deposition Every effort has subsequently been made to induce Petitioners to come to some agreement with the Curnums but without effect and the amount due to the Curnums for the last two years still remains uncollected.

5 The arbitrary rate of 8 annas a Coomy would appear excorbitant, but from the enquiries which have been made, it appears to be an usual one and has had its origin long before our administration of the Country.

6 In para 93 of the Manual of instructions for the preparation of Jamabundy accounts, it is laid down that the

the fees due to the Village Servants shall be included in the Public accounts and shall be entered in the Puttah of each individual under the head of Sundry items and the aggregate of the amount so included shall be deducted in the Puttahs either of the Village Officers themselves respectively or of those of one or two individuals in the Village who will pay the amount punctually but in consequence of the refusal of the Petitioners to make the usual payments it has not been practicable to carry out these orders.

7 The revenue of the Village of Wheerlah for 1267 amounts to Rupees 6030 and there are four Curnums actually performing the duties of the office the amount of their emoluments are shown below.

Items

1835 — Govt Salt Cargo Dr. 4th November 1838.

present Customs to Office which took place in 1266, two other individuals were appointed to act for them whose pay remains yet unpaid. The delay that has taken place in the disposal of this matter has resulted from my desire that they should come to an amicable settlement among themselves such a result seems as far as ever unless an offer on the Petitioners part to pay one pie a Rupee on the amount of Loom tase can be considered as offering a possible solution to the difficulty however that may be the Petitioners having offered every resistance short of actual violence have gone without leave to their own Village.

10 Under these circumstances it appears to me that pending the revision of the allowance of Village servants the present System of payment should be permitted to continue and that in the event of Petitioners failing to settle the matter amicably the payment should be enforced under Regulation I of 1826.

11 Petition No 2369 of 1838 is returned herewith.

Draft of an Answer

The Collector of Chingleput who has been made the 1st Defendant in this suit, begs to file the following answer. The Statements contained in Paras 1, 2 & 3 of the Plaint do not seem to concern him. He does not therefore deem it necessary to answer them, though he observes that they are misframed by the Decree of

Fort Saint George 15th November 1858.

appeal suit No 1 of 1860, from which it is obvious that the twelve shares enjoyed by the Plaintiffs are but a subdivision of the 7½ entire shares held by them in the Village, & do not include the 2½ shares in the possession of the Defendants from 2 to 7 & that the lands made over to Davarajah Pillay alluded to in Para 2 consisted of those appertaining to one of the 12 shares enjoyed by the Plaintiffs. & not the lands in the possession of the Defendants as noticed in the Decree of the Principal Sudder Ameen in Original suit No 75 of 1845.

2 In Para 4, it is asserted that the Defendants from 2 to 7 are Sroyavasis; but in the appeal suit No 107 of 1863 and in Original suits No 822 of 1815, 1 of 1816. & 75 of 1845, they are reliened from the payment of Swatantrum paid by

Dy

Poyakarries, and as the exceptions taken by the Plaintiffs in original suit No 75 of 1845 were disallowed both in that suit, and in appeal suit No 39 of 1847, as well as by the Court of Sudder Adalut in Extract from their Proceedings dated the 16th October 1848, and as moreover the lands of the Defendants, which had been in the first instance attached in execution of the Decree in original suit No 75 of 1845, were afterwards released, and orders issued for the attachment of the 2/3 out of the 12 shares as alone possessed by the Plaintiffs (thus shewing that the Defendants held their lands distinct from and not under the Plaintiffs, which, if they had, their lands would have been held liable to attachment in satisfaction of the judgement passed against the Plaintiffs)

If

If the Plaintiffs considered that the Defendants were not entitled to Merapoy Puttahs, they had only to institute legal Proceedings and get them cancelled. All that the 1st Defendant has done, was to enforce the orders of the Board of Revenue, based as they considered them, on the judgements of the Judicial Tribunals, and for this he does not consider himself to be properly made a Party to this suit, and therefore requests the Court will strike him out of the List of Defendants, and dispose of the matter as it concerns the Plaintiffs & other Defendants alone.

3 The other Statements contained in Paras 4, 5, 6 & 7 do not seem to be worthy of attention, as most

Fort Saint George 15th November 1858.

most of them will be found to be mere reiterations of what was setforth in the Plaintiffs & Replies of the Plaintiffs in the suits alluded to in Para 2 which were allowed to have no weight by the Courts before whom they had been adduced.

4 As for the compensation paid to the Defendants for their portion of the lands included in the Railway, under Act 20 of 1852, alluded to in Para 8 of the Plaint, the 1st Defendant has only to observe that under section 17 of the above enactment no action could be against him, the Defendants from his being the Proper Parties to be proceeded against.—

Fort St George 15th November 1838

Moodely & Annamaly Moodelly sons of Chedumbra Moodelly & Shunmooga Moodely son of Conarasamy Moodelly praying that the Meenapsee Puttahs recently joined in the names of the Defendants from 2 to 7 for 99 Cawnies of wet and dry land yielding an annual revenue to Government of Rs 5-7-4 - 3 - 1 which they had held and cultivated as Tenants may be cancelled and Soogasamy Puttahs ordered to be joined in their stead - 2ndly that 61 3/128 Cawnies of dry and wet Samoodayem land as per pantien one hereunder specified yielding an annual Revenue of Rupees 307 - 7 - 3 and a Samoodayem (common to all) Tope measuring 117/128 of a Cawny and yielding annually Re 1-9 may be recovered and restored to the Plaintiffs and 3dly that a Samoodayem Puttah for the same as usual may be joined in their names: 4thly That a sum of Rs 97-5 being the Amount of Sodum trums due and

Fort St George 15th November 1838

above Samoodayem lands from Fasly 1263 to 1267 and Rupees 33 being the value paid for the lands included in the Railway making a total of Rs 130-6-7 may be recovered from the Defendant and paid to the Plaintiffs

The Total amount for which this suit has been brought is Rs 1013-12-9.

1st The Village of Thoocoovoor was formerly an Agraharum divided into 4 shares which were subsequently subdivided into twelve shares and enjoyed by the Plaintiffs and their forefathers as Meenapsadars.

2d One of the above shares having been sold by one of the Meenapsidars to Damanga Pillay the said share as well as all the Samoodayem previleges appertaining thereto was made over to him.

3d The remaining 11 shares the Plaintiffs continue to enjoy together with Gramanamiems Eyamanamiem and all

all other Samoodayem privileges.

4 The Defendants pleam 267 are Sugavasies in the Village - They having cultivated a portion of the lands in the Village some of the Plaintiffs formerly sued them on certain occasions for Toondoo and Coopputtam privileges. In these suits the Courts merely decided that the privileges sought by the Plaintiffs could not be awarded to them on the ground that the same had not been usually paid to them - It was by no means established by any decree that the Defendants were either Meerasidars in the Village or had any Meerasee right to two and half shares.

5 During the time the Village was under Amany prior to Fusly 1248 the names of the ancestors of the said Defendants as well as those of the Defendants themselves were entered in the accounts

accounts as Soogavasies - In Fusly 1248 in which the issue of Puttahs was first introduced Meerasee Puttahs were distributed to the Plaintiffs and the said Defendants were only allowed what were usually termed "Roodoo tand Puttahs" for the lands in their possession - While things remained thus the Village Curnums prepared a false account in Fusly 1250 entering therein the total number of shares in the Village as 14½ and those of the said Defendants as 2½ out of them This being known to the Plaintiffs they Petitioned the then Collector Mr Freese on the subject who having made the necessary enquiries into the subject cancelled the false accounts so prepared and decided that the Village consisted of 12 shares and that the said Defendants were Soogavasies and possessed no share in the Village - The said Defendants subsequently petitioned the later

Fort St George 15th November 1838

late Collector Mr Cochrane alleging that they were Meerasidars in the Village and requesting that Meerassee Puttahs might be granted to them and they might be allowed to share in the Samoodayem land and a Puttah for the same might be issued to them and that Gentlemen after examining all the documents bearing on the subject decided

Fort Saint George 15th November 1858.

decided on the 15th April 1853 that the said Defendants were not Meerasidars, and they were not entitled to any share in the Samoodayem land. While so he soonafter sent an order on the 20th July 1853 to the effect that the said Defendants having appealed to the Board of Revenue, that authority decided that the Defendants from 2 to 7 were Meerasidars and they had consequently a right to Samoodayem lands and accordingly issued a Meerassee Puttah to the said Defendants recognizing their right to 2½ shares in the Village and further allowed them a Puttah for a portion of the Samoodayem lands which had theretofore been included in the Samoodayem Puttah held by the Plaintiffs.-

6. The power of decreeing Meerassee right to the said Defendants, and of transferring to them the Samoodayem lands held by the Plaintiffs for a long time, lies within the province of the Judicial authorities and no regulation vests in the Collector a revenue functionary the power of doing so. In the order of the Board of Revenue which the late Mr Cochrane said he had only enforced it is stated that their decision of the Meerassee right in favor of the Defendants was based on the order which the Court is said to have issued to the Nazir under date the 7th April 1848, and which went to establish the

Fort St. George 15th November 1858.

the right of the Defendants to 2/12 out of the 10 shares of which the village consisted. The Plaintiffs produced before the Collector the Diary of your Court dated the 15th September 1853 which in interpreting the true meaning of the said order to the Nazir pointed out that the order in question did not establish either that the Village was divided into 10 shares or that the said Defendants were entitled to 2/12 out of them but the Collector did not take the said Diary into consideration.—

7. The Plaintiffs thereupon petitioned the Board of Revenue and Government narrating the foregoing circumstances. They in reply ordered the former on the 17th November and the latter on the 30th January 1857, that the Plaintiffs should obtain redress through the Civil Courts. The Railway Company having taken possession of a portion of the Samoodayam lands in the Village for the purposes of the Railway, the Plaintiffs claimed Compensation for the same. The amount of the value of the land so taken was accordingly remitted to the 1st Defendants Cutcherry by the said Company of which the 1st Defendant attempted to allow a portion to the Defendants from 2 to 7 when the Plaintiffs

Fort St. George 15th November 1858.

Plaintiffs remonstrated as serting that the Defendants had no rights to Samoodayam lands but the 1st Defendant deaf to the Plaintiffs remonstrance paid 30 Rupees out of the above money to the Defendants from 2 to 7. The said Defendants continue enjoying the Swadantram privileges appertaining to the Samoodayam lands since fusly 1253, in which year the late Collector Mr. Cochrane improperly recognized them as as Meerasidars, and issued to them a Meeras Puttah as well as Puttah for a portion of Samoodayam land which he had made over to them.—

8. The Revenue authorities having acted illegally in this case, they were also included among the Defendants. Under these circumstances therefore the Plaintiffs pray that the Meerasee Puttah recently issued to the Defendants from 2 to 7 for the lands in their occupancy yielding annually Rupees 574—3—1 may be cancelled that a Soogavaisy Puttah may, as usual, be granted to them for 61 59/128 Cawnies of wet and dry Samoodayam land

To J D Sim Esqr
Secretary to the
Board of Revenue
Fort St. George

BR No 4995

From the Collector of North Arcot } Sir,

I have the honor to report the death on the 4th May 1857 of Rungachary the Dunnacurtah or trustee of Sree veerdarayaswamy's Pagoda at Yadamury in the Chittoor Talook - The Succession to the trusteeship is claimed by Anan. Rungachary the son of the deceased on the ground that he has conducted the affairs of the Pagodah conjointly with his father agreeably to an order passed by Mr Brett late Acting Collector on a petition submitted by Rungachary praying that his son might be appointed to assist him as he was an old man and unable to manage the affairs of the Pagodah himself - The claim is also advanced, on the ground that the trusteeship of the Pagodah is hereditary

hereditary.

2. The Tahsildar having b
directed to ascertain the wishes
the Village community in regard
the appointment of a Durmaku
tah to the Pagodah and to repor
upon the claim of Anamgaracha
has submitted the orders of the
Village community with his le
tter of the 17th March 1858. It appe
therefrom that the Hindoo population
of the Village amounts to 58 person
who pay a revenue to Government
of 599 Rupees. that 12 ryots whose
beriz amounts to 20 Rupees are
absent from the Village. that of the
present, 3 ryots alone whose revenu
amounts to 41 Rupees have voted in
favor of the present claimant. that
10 ryots whose puttah beriz amount
to 359 Rupees have voted jointly in
favor of Kistniah who is the Mun
of the Village and also a renun
[Poojutty] of the Pagodah.

Calal

[Poojutty] of the Pagodah, and of Calal
Chinnagoorooveppah Naik of Chittoor.
and that 20 Ryots who pay a revenue
to Government of 120 Rupees have voted
in favor of the said Kistniah alone.

3. Kistniah has stated before
the Tahsildar that if the Authorities
are unwilling to appoint two joint
Durmacurtahs. viz. himself and
the said Calal Chinnagoorooveppah
Naik as voted by the Majority
of the respectable portion of the Vil-
lage community he will consent to
the appointment of the latter alone.
Chinna Goorooveppah Naik has
likewise stated that he is able
to Manage the affairs of the
Pagodah himself.

4. The Tahsildar has given
it as his opinion that as Kistniah
is already a servant of the Pagodah
it is not expedient or advisable to
appoint him a trustee - He therefore
recommends that Chinnagoo-rooveppah
Naik

Naik alone be appointed Durmakurtah of the Pagodah recommendation which I beg to support - I have the honor therefore to request the authority of the Board of Revenue for the appointment of the said Calal Chinnagoorooumppah Naik as trustee to the Streevurdaraja swamy Pagodah at Madanury -

5. With reference to the allegation of Anangarachary that the trusteeship of the Pagodah is hereditary the Tahsildar has enquired into the subject and reports that the allegation is unfounded -

6. Anangarachary has in support of his claim submitted a Memorial signed by the inhabitants of the villages adjacent to the Village of Madanury praying that he may be appointed trustee of the Pagodah but I consider that the matter ought to be left to the decision of the inhabitants of the village in

which the Pagodah is situated and they are with a few exceptions opposed to his appointment -

7. Two of the ryots whose puttah levy is Rupees 2-3-10 and who were reported to have voted in favor of Kistnah have since presented a Petition to me disclaiming their votes and urging that the trusteeship should be conferred on Anangarachary but the majority of the votes are as above stated not in his favor -

8. When Durmakurtah were first appointed in 1842 the nomination to the trusteeship of the Streevurdaraja swamy's Pagodah was submitted for the approval of the Board - No private person as competent to make provision for the succession to the trust and management and it is the province of the Collector as the local agent to propose for the approval of the Board the persons chosen by the inhabitants of the place who are

are reported fit for the Office.

From the Ag Collector of Coimbatore

Sir

With reference to the Boards Circular of the 13th August 18[illegible] No 3003. I have the honor to state for their information that the only place in this District where European liquors are sold in any considerable quantity are the Neilgherry Hills and the privilege of selling such is licensed to respectable shopkeepers and Hotelkeepers.

2. In the Puttah granted to the Abkarry Contractor he is also authorized to sell European liquors, and I request to be informed whether the authority so given may stand good under the present order

of Government, or whether the provision made in the Puttah, should be cancelled in the latter case. I fear the contractor will bring forward a claim for remission of a portion of his rent on the score of being deprived of the privilege hitherto enjoyed by him. I would however beg to state that the authority granted to him in his Puttah does not preclude the Collector from granting licenses to others as well perhaps it would be as well under present circumstances to let this permission stand good, until the expiration of the present contract which takes place at the end of fusly 1270 and when a new one is made, the terms of the Puttah may be so modified as to give no authority whatever to the contractor to sell European liquors as now ordered

ordered by Government.

5 The particulars of Works of irri- -gation are shewn in Statement No. 18. It must be borne in mind that this Statement (according to previous practice which has not been deviated from in this respect) shows as separate and distinct channels every branch of a river channel irrigating a Village. Again what are called Anniccuts, are for the most part dams of an unimportant character comprising even small temporary bunds of

of Sand or Mud intended to turn aside the Water of some small Channel into a Pyatah holding. There is but one important Ancient in the District that recently erected over the Pennar. The annexed short Statement is calculated to give a fair view of the irrigation resources of this District.

Particulars of irrigation Works	Percentage of Wet land irrigated	
1 Ancient on the Pennar River		
13 Channels from the Pennar River, Tanks supplied by them	35	of the whole Wet cultivation
Tanks with a cultivation of 500 Acres and upwards supplied by humerous rivers and Jungle Streams	20	Ditto
Inferior Works	45	Ditto
	100	

The Wells are distinguished into old and new the former irrigate the usual garden or Inoloom lands, the latter 1898 in number are Wells dug in dry lands for irrigation. The absence of a similar Statement for the former quinquennial period

period precludes me from showing the increase that has taken place under this head.

General Statistics.

	Fusly 1260	Fusly 1266
Population	935690	952032
Terraced houses		1999
Tiled Ditto		8136
Thatched Ditto		170236
		180371

b. Population and other Statistics are given in the Margin in Comparison with the preceding quinquennial period. The population is that of the Entire District. Zemindaries included and exhibits an increase of 16,342. Many of these designated as Terraced houses are of the humblest descriptions, constructed with a mud roof to avoid the danger of fires but not otherwise much superior to the thatched houses which is the general Style of building in most parts of the District.

y. Statement 16 exhibits the Amount of agricultural Stock in the Government Villages a very Considerable diminution has I regret to say occurred since Fusly 1261, under the head of Cows, Buffaloes and sheep which is attributable to a succession of disastrous circumstances; the inundation

	Fusly 1261	Fusly 1266
Ploughing cattle	105896	99652
Cows	196936	164946
Buffaloes	88104	72026
Sheep	1137105	373703
Total	828061	710327
Ploughs	82174	33537

inundation of Fusly 1262 the drought of Fusly 1263 epidemic diseases and lastly the Storm in November 1836, which caused great destruction amongst the flocks and herds. In the number of ploughs there is an increase consequent on the larger area under cultivation

8. The Rent Roll exhibits no material variations, and does not therefore call for remark.

Season and Sanatary State of the District

9 The season opened under unusually favourable circumstances. Early rains in May and June followed by still more copious falls in July and August and successive freshes in the Pennar. Supplied with remunerative prices, gave a great stimulus to cultivation. A much larger breadth of land than usual was brought under Carr or the 1st series of Wet Crops Sugar and others of the 1st series of dry grains were also largely raised. In July and August the Peshanum or 2d series of Paddy

Paddy was extensively cultivated the area under this species of Crop being twice that of the preceding year. The season was also favorable for the 2nd dry series consisting of Cumbu and Oil seeds. The rains however almost entirely failed during the months of September and October and a great part of November and the North East Monsoon was unusually late the Crops suffered severely in consequence and were in a very precarious State. On the 20th November the North East Monsoon set in with unusual violence accompanied by a severe Gale and extremely heavy rain, which breached a great number of Tanks. Measures were however adopted to place them in temporary repair and a timely fall of rain in the early part of December having refilled many of the Tanks the 3d series of Wet Crops was cultivated to a considerable extent. The 3d series of dry grains consisting of Pyru Jonna. Varegu and Pulse Crops were also extensively cultivated. Subsequently the rains having ceased and the supply of Water in the Tanks and channels being insufficient to bring the whole of the Crops to maturity some portions whichever were Sown Sown at

at a later period failed partially or entirely. The later crops both Wet and Dry also suffered considerably from an attack of Caterpillars. On the whole as shewn in the margin the cultivation under all heads of Wet, Dry and Garden far exceeded that of the preceding Fusly though Fusly 1265 was a year in which cultivation was very extensively carried on. The harvest on the other hand was inferior to that of the previous year, owing to the drought before the setting in of the monsoon, the effects of the storm, and the destructive visitation of insects. The fall of rain at Bellary during the 12 months from May 1856 to April 1857 is given in the margin.

11. Small pox and fever prevailed in some taluks the latter in a very remarkable degree and a scarcity of Salt for a time owing to which the settlement had to be carried on in the neighbouring Talook of Sydapoor. The District was however nearly free from Cholera during the year under review.

Prices

12. Prices were remunerative though lower than in the preceding year the price of Paddy on the average of the year was considerably above the commutation rate and that of the Dry grains was nearly equal to it as shown in the margin. In the months of March, April, May and June however when the Ryots bring their produce to market prices were somewhat lower.

			Net Increase		22894			

The principal increase is in Lands left Waste from Want of Water consequent on the state of the Tanks the rains though abundant being too sudden & violent and accompanied with a gale of Wind. The

actual cultivation & Waste charged to the Ryot.

15 The assessment on the lands actually cultivated inclusive of the Waste charged to the Ryots amounted to Rupees 1253758 while in the previous year it was 1176936 which shows an increase in favor of the year under report of Rs 76822. The details under the heads of Wet Dry and Garden are given in the subjoined Statement.

1264	1001507
1265	1198368
average	1171739
1266	1274242

The actual cultivation (inclusive of Waste charged) is higher than the average of the last 10 years by Rupees 102503 and exceeds every one of the series with the exception of Fasly 1257 notwithstanding the large reductions of assessment lately sanctioned.

Sanctioned in the Garden lands which are wholly excluded from it and are not shown as a Remission as in the case of the Dry lands.

16. The deductions from the cultivation demand are shown in Statement No. 4.

17. The total amount of remissions in the year under review was Rupees 154,353 against Rs. 123,700 in Fusly 1265.

Govt. Min. Con. dated 24th July 1858 No. 893 @ 22

18. A very large proportion of this sum consists of the reduction of 2 and 3 annas in the Rupee on the Dry land rates lately sanctioned. In the present year it amounted to Rupees 76,692 against Rs. 63,920 in the previous one the increase being proportionate to the larger breadth of Dry land under cultivation.

Fusly 1265 Rs. 20,496. — Fusly 1266 23,168

19. The next most important item of remission is Shamilat Bunjer or portions of fields or holdings of Ryots left Waste the latter remark applying to Villages not included in Mr. Smalley's survey

Compare ff. And vide Int. ff.

survey where the fields are of a very large size. It was given principally on portions of Wet lands left waste owing to causes beyond the control of the Ryot such as the want of a sufficient supply of Water to bring all the lands under cultivation on the one hand or from the lands being submerged in the beds of Tanks &c.

20. The remission on account of Shavy or Crops withered for want of Water including remissions on Crops which perished from the Saline nature of the soil amounted to Rs. 14,790 being Rs. 6759 in excess of the previous year. The failures occurred in the Peshanum Crops from the remarkably dry Weather which preceded the setting in of the North East Monsoon and in the later cultivation from the failure of Water towards the end of the year in the Tanks. With reference to the prevailing prices at the period of harvest nearly the full extent of Shavy was remitted except in Woodiagherry where a lower rate of commutation prevails which was.

In Fusly 1266 } Rs. 14,790
In Fusly 1265 } 8031
Excess } 6759

was not the case the previous year or the amount would have more nearly corresponded.

	Fasly 1265	Fasly 1266
	Rs.	Rs.
Assessment on Shavy land	12,546	15,238
Deduct for assessment profits and other lands from high prices	4515	448
Remainder	8031	14790

21. Rupees 2470 were also remitted on crops submerged and destroyed by inundations and Rs. 911 on crops destroyed by the freshes of rivers and the overflowing of the sea during the storm Rupees 2199 was remitted under the head of Pankevaey being a prescriptive deduction in favor of certain non resident Ryots and for manual labor involved in the use of Pecottahs and Rupees 843 under the head of Pucul Cummee on two Crop lands on which a single Crop only was raised. Imagany lands which were cut up by freshes or torrents & Gardens whose wells were in a ruinous state were in special cases allowed to be cultivated with Metta produce and the difference between their Puram assessment & the lower dry rate Viz Rs. 1353 was remitted under the head of Seerwa Cummee This item also comprises the remission of the Puram assessment given

given on the Imagany lands of certain resumed Cunadegas which being irrigated from Tanks constructed by the owners were only liable to pay the dry assessment.

22. The Cowle remissions amounted to Rs. 10989 being considerably in excess of similar remissions in the previous year which were only Rs. 4124. This is a further proof of the desire to extend cultivation. The lands newly taken up on Cowle in the year under review were principally immemorial Waste or Waste for upwards of 10 years as the marginal details will show

	Wet	Dry
	acres	acres
Immemorial waste covered with jungle	30	630
Immemorial Waste	367	1193
Waste for 10 years	674	1724
Waste below 10 years	84	206
Total	1155	4053

Amount granted in Fasly 1265	amount granted in Fasly 1266
Rs. 8371	Rs. 17800

23. The last item which remains to be noticed is the Moonasub or discretionary remission the principal particulars of which are given below

It consists of Rs. 4897 remitted on Crops which failed after the ears were formed or which were so destroyed by Caterpillars as to leave very little for the Ryots to reap but which would not come strictly under the head of Shavy

Rs.

Rs. 1310 is the half Seerwa remitted on certain of Inspr. Travers and Fraser's Cundrgas under the orders of Government. Remissions amounting in the aggregate to Rs. 648 were given in numerous small cases of a miscellaneous nature & Rupees 1094 3 were remitted in the Mucta Pollam (fixed grazing tax) on account of lands occupied for cultivation from time to time & no longer available for pasture as well as owing to loss of cattle from the effects of the Storm decease &c. The former though stated as a ground of remission would be found if analyzed to be again as land pays for more when cultivated than in the shape of grazing tax.

19th August 1854

Sugar cane, Cotton & Indigo cultivation.

24 Statement No 7 exhibits the extent of land cultivated with sugar cane, Cotton and Indigo. The first is cultivated but to a very trifling extent There was a small decrease in Cotton which is also not a staple product of this District and of an increase of acres 1788 under the head of Indigo

	Fasly 1265	Fasly 1266
	acres	acres
Sugar cane	12	8
Cotton	14178	14,126
Indigo	17844	19,627

Sewy Jummabundy Inam or Cobra Rewenue

25. The demand under the head of Sewy Jummah was Rupees 8684 against 8674 Rupees in the preceding year. The increase occurred principally

principally in the proceeds of Inam lands under attachment pending enquiry in fines levied on Stray Cattle in the proceeds of Palmyra trees lopped sold on account of Government penalties levied by the Courts on unstamped documents and interest charged on arrears of Land Revenue.

Sundry items of Ready Money collections

26. The particulars of Sundry items of land revenue are shown in Statement No 4 Abstract Amount to Rs 2,22,942 being Rs 6054 less than in the preceding year. The decrease occurred chiefly in the Amount of Sheist (a charge made on Waste lands under the plea that they afford pasture) and in the Cunchas or regular pastures in consequence of less land being available owing to extended cultivation or from lower Offers having been received. There was also a decrease under Inam bedjga Palmyra rents and Chayrot but not very considerable.

Rents

Fasly 1265	Fasly 1266
Rs.	Rs.
40202-	40103.

27 The settlement of the rented and Amany Villages amounted to Rupees 40104 which is very nearly the same as in the preceding year notwithstanding the reduction of the Garden assessment

average per year	507,891
1266	539.344

Abkarry, Moturpha. Stamps & Sea Customs

33. The abkarry was settled at an advance of Rupees 1727 from higher offers having been received probably attributable to the change of System under which the farms are rented for a longer period. The Moturpha exhibits but the stamps shew a considerable increase. The trifling amount under the head of Sea Customs consists entirely of tonnage duty.

General result Land & Extra sources

34. The total demand for Fusly 1266 of Land and Extra sources of Revenue combined inclusive of Sayer Jummah is Rupees 25,03,575 against Rs 24,68,614 in the previous year being an increase.

Fort St. George 16th November 1858

Collections Land.

35 The collections under the several heads are shown in Statement No. 11 and of the land Revenue demand of Rupees 18,81,469 Rupees 16,64,482 were realized within the fusly & Rupees 179787 Subsequently to the end of September up to which these accounts have been made up. The balance outstanding is thus reduced to Rupees 37,200 or nearly 2 per Cent on the demand. This is a considerable improvement on last year. Of this Rupees 26,380 is outstanding on account of amany ryotwar grant of which as the season is now favorable is likely to be collected. Rupees 10,199 were due on Shrotriums principally.

August × in the Talooks

principally on Villages under attachment which having been under Government management and yielded a revenue less than the Peishcush fixed on them, there is little or no prospect of the difference being realized. Rupees 621 were due on permanently assessed Estates, the greater part of which will be realized.—

Collections Extra sources

36. The abkarry balance has been fully recovered under the heads of Inoturpha & Sevay Jummah, there were balances of Rupees 339 and 1439 respectively a portion of which is likely to be recovered.

Coercive process

37. Statement No. 13 exhibits the extent of property sold in satisfaction of arrears of revenue although moveable property was attached to a considerable amount it was found necessary to sell only a small portion of the same.

Arrears

38. The balances outstanding under all heads inclusive of those for fusly 1265 amounted at the commencement of the year under report to Rupees 43842 3 9 7 This amount was however reduced to Rupees 12623 1 9 at its close partly by collections and part having been remitted under the sanction of Government. By subsequent collections to the end of August and by writing off a further sum for which sanction has been received this will be reduced to Rs

The

42. The Peshcush Balance Rupees 1340—4—0 is due by the Wunthawar Poligar for fusly 1264 there seems no prospect of recovering this sum from his Rayoomes which were insufficient to cover the current demand in fusly 1263 also it is therefore recommended for remission according to previous practice.

43. The balance under the head of Rents consists of Rupees 1539—3—3 the remission allowed to the renters of 20 Villages in the Sydapoor Talook on account of the reduction of garden assessment under the orders of Government and Rupees 610—11—3 due by the Head Cauroes & Curnum of Panchaity in the same Talook who rented the Villages for an amount much raised by competition and have thereby fallen in arrears. Their property was attached but in consideration of their poverty and the inexpediency of injuring the Ryots by selling up their houses &c

x 11th June 1857

and farming stock. I recommend the balance to be Written off.

44. The balance under the head of Ryotwary, inclusive of Mala Curnums. Rayoomes and Sewoy Jummah are classed as Irrecoverable on the following grounds.

	Rs.	a	P
Due by deceased Ryots	563	12	1
Ditto absconded	718	6	0
Ditto poor	15472	2	3
Ditto other causes	10175	4	6
Total	26929	8	10

The three first require no detailed remarks.

The fourth consists of the following items—

Rs. 1314—3—3 is the amount of Shary remission withheld from the Ryots of certain Villages in Fusly 1264 on account of high prices. Considering the nature of the case the previous disastrous year the unfavorable season which followed & the then depressed state of the District special sanction should I consider have been again applied for to relase the rule as was done in fusly 1263. I now beg to recommend that the balance be written off. Rupees 1463—13—11 is a portion of the Sarum rates in.

in 8 Villages usually allowed to remain uncol-
lected on account of high assessment Rs 2183-13-10 is the assessment of
certain Waste Lands carried to account at the Settlement
but which were afterwards ascertained to have
been left waste from deficiency of Water Rupees
1628-2-3. is remissions due on account of Crops
which perished from drought and inundation
the accounts of which were received too late to be
deducted from the Demand & Rupees 28-1-1
is Peroona Cummul (included in the Demand
for the same reason) on Wet lands cultivated
with dry grains. Rupees 557-14-2 is the assess-
ment on lands ploughed for fusly 1263 but
erroneously carried to account under the
head of Suay Jummah in fusly 1264. Ru-
pees 285-0-7 is the Balance of Bedjas on ac-
count Inettah Inam lands laid Waste the
owners of which are either not forthcoming
or have failed to liquidate the Bedjas in
consequence of which the Inams in question
will be liable to be resumed Rupees 37-7-
is the assessment of certain

Vide letter from Collr of Bellary to the Board under date 18th October 1854 Para 5:

lands under attachment in the resumed Jaghier of Woodiagherry which appear to have been improperly Enfield but which are considered to require the sanction of Government for their restoration Rupees 81-14-5 is the assessment of lands cultivated by certain Village Servants in lieu of their Manium rendered unfit for cultivation pending sanction for exchanging them for others. Rupees 64-10-3 is the assessment of some cultivated lands included in certain Roads newly formed. Rupees 1587-0-1 is the amount of Pollaxy or grazing tax on standing which owing to loss of cattle or from causes has not been able to be collected as the last years have been very fatal to cattle and there is a considerable falling off in the Agricultural stock of the District I recommend that this balance should be written off Rs 161-15-5 is due by certain privileged classes not usually subject to the grazing tax and Rupees 731-1-6 is the balance of Jodi on 11 Cundigas under attachment for arrears this balance accrued under Government management owing to the actual proceeds of the Cundigas falling short of the Jodi fixed on them & is consequently considered irrecoverable.

The

Due by Deceased Rs. 4-0
" ryots 29-7-
Ditto absconded 98-4-
Ditto Poor 568-15-5
696-10-5

14. The Inctur pha balance of Rupees 696-10-5 being due by deceased absconded & poor persons as shown in the margin is irrecoverable.

15. The aggregate amount of irrecoverable balances under all heads reported on above is Rs. 3116-9 and I request that the sanction of Government may be obtained for writing off together with the properties of Chittadevar & Woorteva Roofsooms chargeable thereon.

Advances for cultivation & Salt manufacture

17. The issue of Succany for cultivation has been discontinued under the orders of Government dated 4th September 1853. Out of the Succany of 500 Rs. sanctioned for salt manufacture for Fusly 1266 Rs. 315 were issued which will be recovered in full from the salt manufacturer's share.

Comparative abstract of Demand Collection & Balances.

18. Annexed is a comparative abstract of the demand collection and balance of all sources of Revenue current and arrears in comparison with Fusly 1265.

Fusles	Items		Demand	Collection	Balances
			Rs. A. P.	Rs. A. P.	Rs. A. P.

			294478	255092	39386

Fort St. George 16th November 1858

Charges

49. The details of the charges are shown in Statement No. 14 and their percentage to the gross collections is entered below in a comparative form.

Fusslies	Collections	charges	Per centage
	Rs.	Rs.	
1265	23,27,133	3,26,387	14
1266	25,30,410	2,81,565	11

50. The Collectors salary for 11 months only was paid within the year under report whilst during the previous year the full salary for 12 months and some arrears were disbursed. A smaller charge was also incurred under the head of Deputation allowance and Salaries of Assistant Collectors than in Fusly 1265 and the pay of a part of the District establishments both land Revenue and Salt for 11 months only appear in the accounts. A smaller quantity of salt stored in the present year.

Fort St. George 16th November 1858

year also led to a diminution in the amount of the Salt manufacturers share and other attendant charges. On the other hand a large sale of stamps caused an increase in the amount of the Venders Commission and a larger amount of stamp duty was refunded than in the previous year.

Remarks on the conduct of Subordinate Officers.

51. It is again my pleasing duty to record my sense of the zeal and efficiency of my Sub Collector Mr. Minchin of whom I have before spoken in the highest terms.

52. In my last report I stated that Mr. F. W. Morris late Acting Head Assistant was a most promising Public servant and notwithstanding the unfortunate result of his last examination (which is greatly to be attributed to the extent of the duties he has had to perform) I can after further experience speak with still greater confidence on this point. He is a talented young man deligent in the performance of his Work and most willing to undertake any public duty entrusted to him.

53. Mr Hooper who was appointed to this District at a late period of the year under report has also given me satisfaction.

Fort St. George 16th November 1858.

No.

To.

G. N. Taylor Esqre.
Acting Collector of
Nellore.

Sir,

I have the honor to forward the Jamabundy Accounts for the last Fusly of the Sub Division, which was settled by myself in the different Villages of each Talook, as shown in Statement.-

2. There is no difference in the number of the Villages or the tenure on which they are held between the last and the preceding Fusly.-

3. The principle Sources of Irrigation in the Sub Division are Tanks dependant on the local fall of rain for their supply. There is only one Tank fed by a Channel from the Swarnmair River, to the north of which the means of irrigation are at present insignificant, the four Northern Talooks being confined chiefly to Dry Cultivation.-

4. There is an increase in the number of private Tanks and wells during the last five years, but the Account No. 18 is not comparative, and that formerly furnished does not supply the details of information

information as to new and old wells.

5. All the anicuts within the Sub Division are of the most petty description, and are in no case more than temporary bunds of mud or sand renewed with the necessities of each season. The private Anicuts are intended generally to turn aside the water of some small channel into the Ryots holding, and rarely irrigate more than two or three acres of land.

6. Statement 16 exhibits the amount of agricultural stock in the Division; Compared with the account of Fusly 1261 it shows an increase of nearly 600 ploughs, while however there is a slight decrease in the number of ploughing Cattle. The decreave is more marked in the numbers of Cows, the buffaloes, and sheep, being about 2,500, 1,500, and 11,000, respectively; this decrease is in a great measure to be attributed to the year of Scarcity in Fusly 1263, from the effects of which the stock in the Sub Division was only begining to recover, when the storm

ab

at the close of last year caused great destruction in the flocks and herds, and accounts for their present reduced numbers.

7. The Census exhibited in Statement 17 shows an increase of upwards of 5000, adults over the preceeding fusly with a slight decrease, about 350 in the number of children. The Comparative Value of the houses, and comfort of the people, cannot be deduced from the account of storied, tiled, and thatched houses, as displayed in this account. Many of the thatched houses in Cavaly are most substantial building, while in the Northern Talook of Chendalore is found a style of house common in the Ceded Districts, constructed with a mud roof to avoid danger from the fires so common there in the Dry season such houses fall under the designation "terraced", while they are generally of the humblest description of habitation.

8. Statement No. 19 exhibits the Rent Roll of the Division, and requires little remark. The transfer of the Talook of Cavaly has increased the number of Ryots holding large Puttahs to some

extent,

extent, the extremes of wealth and poverty being found to a marked degree amongst the agriculturists of that Taluck.

9. The season opened favorably in the Sub Division, and early rains which fell in the month of May, though useless for cultivating purposes, supplied pasture for the cattle, and drinking water in the Tanks throughout the hot months. The rains that fell later were however very partial, and sufficed for Cultivation only in the north and west of the Division. The north east monsoon set in peculiarly late, and until the middle of November the Southern Talooks were suffering from decided drought; on the 21st of that month however the monsoon broke with a violent gale of wind, and heavy fall of rain, which sufficed to fill most of the Tanks that were not injured by the storm. Another opportune fall of rain was experienced in the early portion of December, which refilled the Tanks generally, and gave some supply to those that had been

injured

injured by, and repaired since the preceding gale.-

10. The Dry Cultivation was successfull throughout the year in the extreme north of the Division, where alone rain was experienced from the months of July to November, but in the rest of the Country with the exception of a small extent of land sown under Poonasa, or early Crops, the staple Moodooroo Crops could rarely be grown and the greater extent of land was kept perforce for the Pyru, or third series of Crops, Cultivated in November and December.-

11. Whenever however the Ryots had been able to take advantage of the local showers, grow either of the earlier series of Crops, their Cultivation was particularly successful throughout the Division and the season was consequently a favorable one to the Ryots of Chendalore Talook. Late in November the Cultivation of the later Crops was commenced, and carried on with vigour throughout the Division. The second fall of rain was equally opportune for this Cultivation as for the wet, and at first it appeared that these Crops would be more than ordinarily successful. In the

middle

middle of the month of January however it was seen that these hopes would be frustrated. Throughout the Division, but more particularly along the coast Villages, the ravages of green caterpillars commenced, and although they disappeared at the close of the month, the destruction they had committed in the interval was alarming. The horse gram and similar pulses suffered most from this visitation, the whole plant being devoured, and the Ryots thus lost the forage in addition to the grain, which to agriculturists is the most important portion of the crop, from its having required to feed cattle in the Dry season.

12. The Varagoo Crop the staple Pyra growth of the four Northern Talooks suffered most after the Pulses, the ravages in this instance being confined to the ears of grain; the produce of the most fertile fields being reduced from one half to one tenth of their ordinary outturn.

13. The Pyra Jonna in the Buddapoody Talook was also attacked at a slightly later season, but did not suffer so much injury, though the later Paddy Crops

Crops in both the Southern Talooks were all more or less injured by a like visitation.

14. The Wet Cultivation in the Southern Talooks was entirely confined to the later months of the year, there having been no water in any of the Tanks so late as the middle of November. The gale which burst on the 21st of that month was most disastrous in its effects in many parts of the Division, but the rain which accompanied it dispelled the fears of another famine, which were at that time hanging over the Ryots minds. Unfortunately the long preceeding drought, had rendered the Tanks unequal to resist the sudden flood of water which rushed into them, and in the Talook of Cavaly no less than 30 Tanks were breached during the gale, and in spite of the efforts of the Villagers to put up temporary dams most of this supply of water was lost. In Puddapoody Talook though several Tanks were in a very precarious state at the height of the gale, but few were injured, and these with most of those in Cavaly were at once put in

in temporary repair, and were in a great measure filled by the second fall of rain, which was fortunately quite unaccompanied by wind.

15. The earlier sowings of this Cultivation were successful throughout the Division but the later Crops were generally poor, and as already stated were also attacked by insects. By the month of April the supply of water ran short throughout the Tanks in the Division, and the Crops which had not yet been cut, and which still required one or two waterings to bring them to maturity suffered severely.

16. Cultivation had been carried on to a greater extent than the supply of water warranted, and the loss to the Ryots on this account was greater than an inspection of the remissions for sookly, would lead one to believe.

17. The Garden Cultivations were in the same manner highly successful as for as the first Crops were concerned, but in the Coast Villages where that Crop is not grown, and one of Paggy in the early months of the year is alone Cultivated, the gale in November, during which the Seabird over

over the lands throughout almost the whole length of the Division caused most serious loss to the Ryots. The Gardens were either wholly destroyed for the season, or their productive power was deteriorated to a great degree coupled with the fact that the ravages of the caterpillars were greatest on the coast, there is no doubt that to the Villagers thus situated the season under review was a most disastrous one.

18 The Sanatory condition of the people was on the whole satisfactory; there was very little Cholera known throughout the season, and I am happy to be able to report that the disease which used to be chronic in the town of Ongole has hardly been known there since the removal of the vast Jungle of Prickly Pear which used to surround the town.

19 Small Pox however has been more than usually prevalent.

Vaccination

Vaccination appears to be no protection from its attack, and I have reason to fear that the natives have strong grounds for regarding this operation with some alarm. It is doubtful as a preventive, and most certainly in this Country, is in itself a disease of no slight importance.—

20. Epidemics raged amongst the cattle in various parts of the Division before the setting in of the hot weather. They were most fatal in the Canaly Talook, where in the Month of May several hundreds of Cattle died in the Village of Poodra:cota alone. Great loss of Cattle was also experienced in the two Southern Talooks, in the gale in November, but except on the line of coast, little damage appears to have been inflicted to the North of the river Colair.

21. Statement No: 2 shows the

the prices of Grain, according to the average taken for the whole Season. As thus exhibited it appears that the price of 1st. sort Paddy was nearly half as high again as the commutation rate while the prices of the different Dry grains did not fall much below it. The prices were of course at their lowest at the time of harvest, when the Ryots were mostly obliged to sell and they did not probably often benefit by such rates as are entered in this Statement.—

22. What would formerly have been called the Dittum of the year, is shown in Enclosure B in No: 3; under certain rules the Ryots enjoy a perfect freedom to throw up any land they like, unquestioned in any way as to the reason of their proceeding. This Statement shows that no loss to Government results from this liberality and it may be stated with

Port St. George 16th November 1858

with truth that the Ryots have learnt to value their land doubly since it has been no longer forced upon them. In the Season under review there was an increase of 121.16 acres of Dry land taken up by the Ryots over the amount thrown up by them, and the increase in the holdings of Wet cultivation is not less striking, though the want of water in the Tanks caused a great por: portion of this last to remain waste.

23 There is consequently a falling off of nearly 2000 acres in the actual cultivation of wet lands compared with the preceding Fasly, and it is to be feared that even the extent of land brought under the plough was more than the supply of water could properly irrigate. Whereas in the Talooks of the Sub Division, the Tanks are supplied solely by the local

Port St. George 16th November 1858

local rains, the fall of which is peculiarly uncertain in this District, the welfare of the people, and the Government Revenue must always be liable to such fluctuations.

24 The amount of waste charged to the Ryot consists chiefly of Dry lands and the extent, a little upwards of 12,000 acres, corresponds nearly enough with the increase in the amount of land taken up, over that relinquished by the Ryots. The amount of waste in Dry land remitted, compared with that charged is trifling, and was chiefly struck off on special cases of poverty and loss. The principle of charg: ing all Dry waste, included in a Ryots Puttah, is now pretty well understood in the Division.

25. The same practice extends as a General rule to Garden land except where the last is irrigated from a Govern: ment Tank in which the supply of water fails. Such cases being clearly analogous to ordinary wet cultivation the

the charge on waste would have ben obviously unjust.

26 The Remissions on the cultivation as shewn in Statement 4 will be found much larger than in the preceding Fasly as would be expected from the unfavourable nature of the Season.

27 The increased amount of waste land remitted on portions of fields is chiefly on wet land where from the want of water only part of a field could be cultivated and the assessment of the remainder had to be remitted.

28 The Amount of Sookly remissions is large but in no way represents the loss to the Ryots from the failure of water at the close of the season. Much of the Paddy at that time required but one or two more waterings to produce a fine crop from the want of which the outturn was rendered almost Valueless though from the grain having formed in the ear Sookly could not be granted. Such grain could not be sold for any price but the Ryots eat it for the sake of economy, and had the straw in such cases to meet the call for the assessment.

29 The increase of remission on Cowle lands is another proof of the eagerness of the Ryots to take up new lands which leads them to bring so much immemorial waste under the plough. The movement commenced in the preceding Fasly when the amount of this remission rose from a mere trifle to Rs 1[illegible] and

and has increased by nearly another thousand rupees in this Season

30 Of the discretionary Remission about Rs. 3000 was granted in special cases of loss and poverty the rest being customary deducations from the dowle. I have already described the exceptional nature of the Season & the peculiar losses experienced in a great part of the Division by the ravages of Caterpillars in the beginning of this year and the destruction caused by the gale towards the close of the last. Of the former calamity I was an eye witness and was careful to acquaint myself with the real extent of the injury in most parts of the Division. The trifling remissions which I granted on this account were founded on personal enquiry and knowledge of the real state of the crops in the different parts of the Country, The greatest loss was experienced on the line of coast in the Ongole Talook, and the remissions I granted there amounted to about Rs. 1700 The next largest remissions of Rs. 600 was granted to the Buddapoody Talook on account of losses caused by the storm in the Coast villages. Although in both these cases the consideration shewn to them was gratefully accepted by the Ryots there is no doubt that in no individual case did the amount remitted

remitted cover even what may be called the Government share of the loss experienced but the Ryots felt that their misfortunes were being taken into consideration and were satisfied with the trifling but prompt relief which they obtained

31 Palvasy is the usual remission granted in this District to compensate the Ryots for the labour of irrigating their Paddy lands by manual labour when the water will no longer run from the Tanks and is granted according to fixed rates.

32 There are no other items of remission calling for special remark.

33 Statement 7 displays the extent of Cultivation with Sugar Cane, Cotton & Indigo. There is a marked increase in the extent of these two last products over the preceding Fasly amounting to 1212 acres of Cotton and 3056 acres of Indigo the price of grains of all kind having fallen considerably the growth of a money paying crop like Indigo proportionally rose in favour

34 The sundry Items of collections are shewn in Statement 4 The decrease in the Enam Basis gas arises from certain wet land, Enams having been left uncultivated for want of water, The decrease in the

Poollary corresponds with the increased quantity of land taken up by the Ryots into their Puttahs, as it would be obviously unjust to charge both Poollary and Jaram Sheist on the same piece of land the former has been remitted in all cases where the latter has been assessed and as in the Northern part of the Division Poollary is charged strictly on land in possession of the Ryots for grazing purposes all such remissions cause a positive decrease of the Poollary assessment, which cannot be changed upon other parties to keep up the amount as the Jaram assessment is in every case much higher than the Poollary previously charged, every decrease in this Item thus caused is a sign of a real gain to Government

35 The decrease in the Palm tree Rents is attributed to the destruction of the trees in the gale the loss of which in the Cavaly Talook was very considerable.

36 Statement 10 and its enclosures exhibit the general result of the year as compared in the preceding one shewing a total decrease on the Land Revenue of Rupees 11293 — 14 as ——— By referring to enclosure A in Statement 3 it will be seen that this decrease arose from various causes dependant on the season chiefly from the decrease in the actual wet cultivation owing to the want of water as there was an

an actual increase of nearly Rupees 19000 on the mere assessment of the Dry lands held by the Ryots in this Fusly Had the Season been as favourable as the last this would have appeared in the accounts as a bona fide increase instead of merely covering a portion of the loss entailed by other causes

37 The increase in the Abkarry is attributable to the new system introduced of selling the Farms for a term of years which has attracted enhanced offers.

38 Statement H shews the Demand collections and Balance for the year, Out of a demand of Rupees 504,786 the collection up to the 15th June amounted to 429,611 leaving a balance of Rupees 75,175 most of this sum was however collected before the close of July leaving a balance at that period of Rupees 13680 being 2¾ per cent on the demand. Proper measures have been taken for the recovery of most of this amount, of which probably not more than Rupees 5,000 will be finally irrecoverable.

39 The Statement of arrears is shown in No. 13 the generally unfavourable nature of the Season was against much collection beyond the demand for the year although the arrears of the preceding Fusly were tolerably brought to account, The remaining balances of that Fasly amounting to Rupees 5299 were the subject of individual enquiring by myself during the Jamabundy and I have recommended that Rupees 3739 out of this sum should be finally remitted as irrecoverable.

40 The balance of Fusly 1264 is now of

of such ancient date that I am not sanguine of collecting the whole amount entered as recoverable unless we are favored with a more favorable season than we can at present dare to expect.

41. It has been found necessary to resort extensively to coercive process in the collection of the Revenue as shewn in Enclosure A of No. 13. That process was in general however confined to the mild form of Demands and though property was attached to the value of nearly Rupees 15,000 it has not been found necessary to sell more than about a hundredth part of that amount.

42 I am glad to be able to report well of the general diligence and zeal with one marked exception of the Tasildars of the Sub Division amongst them however I think that the excellent conduct and integrity of P Chouchal Row now temporarily employed in the Principal Division and of B. Gopauliah deserve to be brought prominently to notice.

43 The Shenistadar has prepared the accounts of the Division with his accustomed diligence

J. D. Bin Esquire
Secretary to the
Board of Revenue
Fort St. George

B. No. 1,981.
From the Collector of Cuddapah. 1.

Sir,

With reference to the Circular order No. 9. issued by the Conservator of Forests dated the 19th September 1858 wherein it is stated, with reference to Para 1 of Extract Minutes of Consultation dated the 4th August 1858 that such being the property of Government no timber of any description is "henceforth to be felled in them, unless with "the permission of the Officers deputed for "such purposes and in such localities & "and on such conditions as they may determine"- I shall be obliged by your informing me who the Government authorities are and whether the levying of seinoriage of 3 annas upon each sleeper is to be collected by the Revenue authorities or the Conservator of Forests - if by the latter I am not aware of any such Officer being nominated

1869

Fort Saint George 16th November 1858.

nominated to this District I would further beg to point out the hardship and inconvenience parties are now put to, by being prohibited from cutting Wood for their own household purposes, agricultural instruments and other utensils pending an order from the Conservator of Forests. I should also be alleged by your defining the word "timber" and whether the same amount of seniorage is to be collected upon large and small beams, whether fit or unfit for Railway sleepers, cut by private individuals for their own use. If trees which the inhabitants of the Western talooks are in habits of cutting for firewood is to be considered as timber and 3 annas be collected on it will greatly enhance the expense of firewood which is to be procured in some places from to 20 miles Again, cultivators have been in the habit from time immemorial of cutting wood for their own use and this may be considered as a prescriptive right. The ryots till the ground from the proceeds of which the Government derive their revenue - they are therefore entitled

1870

Fort Saint George 16th November 1858.

entitled to some consideration and might be permitted to cut what wood they require for themselves for house building instruments, Carts and firewood free of duty with the exception of 5 Kinds on which base is levied the present order states that no timber is to be felled without authority, but who this authority is, is undefined. I am inclined to believe it is taken from the hands of the Collectors and vested in the Conservator of Forests who as a separate and distinct Establishment but whether any one of such Establishments is nominated to Cuddapah I have yet to be informed. I think it only just and proper that seniorage should be levied upon Railway sleepers, as private individuals have hitherto been in the habit of felling the trees grown in the Government Forests and disposing of them as sleepers to the Railway Company but this does not apply equally to cultivators and Merchants who require to have houses, carts, agricultural instruments &c. in order to carry on their trade for which they pay Pisalmoddy and for cultivating the land

Fort Saint George 16th November 1858.

land and carrying on their trade between dif-
ferent portions of the country. If a distinction
is to be drawn between the parties, which is
not done in the Circular above referred to,
I beg you will inform me whether seniorage is to be
collected equally upon Railway sleepers and
timber cut for house building and other pur-
poses required by the individuals who cut it.

apposite specimens of his qualifications and attention to the duties assigned him. The Peria y Mr Hall, collector of South arcot was so good as to appoint a Sheristadar for the express purpose of attending to the survey and in consequence, Lieutenant Hefsey met with no hinderance worthy of notice. This Sheristadar was of the greatest assistance not only in adjusting disputed boundaries, but also in compelling the Ryots to perpetuate field marks and in superintending the extension of the taluk and village boundary marks on the exact spot laid down by the surveyor.

Marginal Extract from one of his previous letters, is transcribed for the Boards information.

Finding however that from some or other, too few Ryots could lately be induced to afford satisfactory details to draw him at Captain Priddy's request from demarcation duty since the arrival of the Deputy Director of Revenue Settlement he has been employed for a similar purpose and Mr Bambury has found him very sufficiently.

Reports on

Petition

No. 889 of 1858.

Sir

The Shrotrium land mentioned in the enclosed address to Government, is included in a Duftur Rocca grant for 17 Villages, made in A.D. 1799 by Rajah Serfojee, to 36 Brahmins. It is registered No. 1 of the Collectors Shrotrium List of 1809. One of the original grantees, Ramachendra Secrajee by name, had 7 Vaylies as his share in Village Serroomungacherry Talook Coottalum, which, at the time of registry, were in possession of his son, Gopalarannachender.—

V. M. G. 2—6—66

2. It now appears that 1/3 of the seven vaylies was assigned as Gramabhogum to the original Proprietors of the Village, of whom one Boobba Pillay had 4 M. 6 G. — 53 which, at the survey of Fusly 1238, were entered in his name as 5 M. 6 G. — 98 Deducting 3 M. 6 G. — 4 subsequently sold by his son Ramasawmy Pillay, the remaining 2 M. 6 G. — 94 are entered in the Anoobhogum account of Fusly 1238 in the name of his daughter, Swaranum, the

For Fort St George November 1858.

the Petitioner, who solicits permission to sue Moottoo Komara Pillay for the recovery of [illegible] of the above [illegible] mortgaged to him, but which it is asserted, he illegally retains.—

3. An action brought by this female in the Combaconum District Moonsiffs Court has been removed from the file, as connected with Enam lands. The mortgagee, however having disappeared, the land has been under management by Government Officers.

4. Altho' the grant in question bears a date subsequent to that specified in Regulation XXXI of 1802, the Enam, under the standing rules, is exempt from interference on the part of Government during the life time of the Petitioner.—

5. I therefore see no reason why in order to the establishment against the Mortgagee of her alleged right, the permission solicited by Petitioner should not be granted to her; subject, of course, to the operation of the general Enam rules.—

Memo

Fort St. George 16th. November 1858

Encl. No 2

Memo containing the information required by Mr. Mallet Professor of Chemistry in the University of Alabama United States on the following points regarding the Cotton Plant.—

1st. Nature and depth of the soil as to dryness or moisture retentiveness what other crops are grown in it, is it deemed very fertile any special pet weeds?

Cotton is cultivated in all description of soil found in this District but more esctensively in those known as the Carsal or Black Cotton soil secondly in the Vepal (a mixture of black and Sandy Soil) 3rd the Pallet (a stiff clay soil) and 4th the Shevel (a red soil).—

The black Cotton soil is of a loose friable nature varying in depth from 2 to 5 or 6 feet Soon after a heavy fall of rain, the upper surface of the soil to a depth of about 9 inches becomes dry, but the lower portion to a depth of 3 or 4 feet

feet will retain moisture for 4 or 5 weeks The other Crops grown on this soil are Cumboo, Cholum, (different sorts of Maize) Buller, Bengal Gram, Varagoo, Red gram (Species of Vetch or false) Raggy, Thany, Coltheravalie Chendoorookoo Oil and Castor Oil Seeds &c. The soil is considered esctremely fertile. The weeds usually found on this soil are the Coorookoo, Authalay, Athalay vuttel, Moorookan Vuttel, Hotte Kelungoo and Kunden Katheree &c.

The Veppel soil partakes of the same nature as Black Cotton soil varying in depth from 2 to 4½ feet After a heavy fall of rain, the upper surface of this soil to a depth of about 6 inches soon becomes dry, but the lower stratum to a depth of 3 or 4 feet

feet will retain moist
for 3 or 4 weeks The oth
crops grown on this
soil are Cumboo, Rag
Cholum, Butler, Red
gram, Thanay, and
Castor Oil Seeds &c.
This soil also is consi
dered to be fertile
but in a less degree
than that first e
named. The weeds
usually found on
this soil are Coorookoo
Authalay, Athalay
vattel, Moorookavuttel
and Handumkatree
&c.

The Pettel soil is
stiff and untractable
It varies in depth fro
1 to 3½ feet - After a
heavy fall of rain, the
upper surface of this
soil

soil to a depth of 4
inches soon will become
dry. but the lower stra=
tum to a depth of 3 feet
will retain moisture
for about 2 or 2½ weeks.
The other crops grown
on this soil are Cumboo
Horsegram, Samay, &
Varagoo, Thanay, and
Castor Oil Seeds &c.
This soil is not con=
sidered fertile The
weeds usually found
on it are Coorookoo-
Hundum Kuttheree &c.

The Level Soil is
of a loose friable nature
varying in depth from
1 to 3 feet - After a
heavy fall of rain,
the upper surface of
the soil to a depth
of 1 foot soon becomes
dry

dry but below portion to a depth of 1½ or 2 feet, it will retain moisture for 1½ or 2 weeks - The other crops grown on this soil are red grain, Varagoo, Castor Oil Seeds, Thanay &c. This soil is not considered fertile - The weeds usually found on it are Veraly Perum day, Coliyer, Amaray &c.

2. Geological and Topographical character of the District Nature of underlying rock, level above the Sea, well or ill drained naturally &c.

The Cotton fields towards the west side this District are slightly undulating with a general slope to the eastward, while to the east, the Country lies almost flat, the plains sloping very gradually towards the Sea From observations taken

taken with an aneroid Barometer it appears that the level of the former varies from 250 to 300 feet and of the latter from 80 to 120 feet above the Sea. Below the above mentioned soils Gravel of different descriptions and Kunker or decomposed gneiss are met with and in some spots occasional strata of crystaline limestone crop up through the gneiss - The granite formation is chiefly found in the Northern portion of the District and is met with at various depths below the Kunker and gneiss. That which is termed "decomposed gneiss" may perhaps be a species of disintegrated Rock of a comparatively late formation - The Northern part of the District is intersected by numerous small Streams and the Cotton Fields are consequently well drained

During

3rd. Climate (especially as regards rains, their amount and the seasons at which they fall) is irrigation employed when and how long in the year?

During the dry months or from January to September when the heat is excessive During the South west Monsoon there are occasional showers in the North of the District especially in the more western portion of the Cotton fields - The North East Monsoon continues from the middle of October to January and during its prevalence rain falls generally over the whole District Irrigation is not employed for the growth of Cotton in this District. A return showing the fall of rain from January to December 1857 is herewith forwarded rain Gauges are kept at all the Chief Stations.

4th. Kind of Seed used and whence obtained?

Cotton seeds are obtained from these places in the District where the previous crop had yielded a full produce of good quality. The seeds are in the first instance exposed to the sun to dry, when sufficiently dried it is the practice

practice to put them into water mixed with Buffaloe dung and then they are again dried and the seeds are now considered ready to be sown in the proper season.

5th. General Character of plant whether herbacious or tree Cotton?

The Cotton plants in this District are herbacious, tree Cotton is not grown here.

6th. Average height of plant and spread of branches, distances from plant to plant?

The average height of the plant is 3¾ feet and the spread of the branches is 1¼ feet. The average distance from plant to plant is about 1 foot.

7th. Average spread of roots in depth and laterally?

Average spread of roots is 1 foot in depth and 6 Inches laterally.

8th. Mode of Cultivation; time of planting distance at which plants

Cotton fields are ploughed five times between the Months of

plants are placed apart, amounts of labor be- stowed upon weeding during growth time of flowering time of picking duration of picking & co weight of "ginned" Cotton fi- bre produced per acre, weight produced per hand employed ?.

of April and Septem- they are manured with Cattle dung. After a gr shower of rain the seed are sown generally be- tween the Months of Ja tember and October - The distance at which the plants are plac apart is about one fo The weeds are removed growth of the Cotton plant. The total amount of labor destined upon weeding may be valu at about Rupees 1½ pu acre. The plants flower in the month of Decem or January. Picking co mences in February and with April. If after any rain falls & pi picking takes place June and July. The

of ginned Cotton fibre is to the product per acre about 86 lbs, weight per hand employed is 6 lbs.

9th Manure used, if any Cotton seed returned to the soil, stalks allowed to decay on the field ?

There is not any Cotton seed returned to the soil in form of manure: nor are the stalks allowed to decay on the field.

10th Diseases or Ravages of insects to which the plant is subject.

When the Cotton plants came to bearing they are sub- ject to 2 Kinds of diseases, the first is called in Tamil en "Sambal noaye" and the 2d "Canjorum noaye" when the first men- tioned disease prevails the yield becomes very indifferent and if the last named disease ex- exists the pods drop off entirely. Unseasonable rains in

18797

Fort St. George 16th November 1858.

Extract Minutes of Consultation 20th July 1858 From Board 27 Idem
Extract Minutes of Cons. 18 October 1858. From Board 18 Idem

Sir,

I beg to reply to the correspondence noted marginally regarding a Wood Depôt on the banks of the Coovum River, and so situated as to be convenient to the residents of Chintadrepetta, Pareamoottoo and the Western Environs of Madras.

2. On receipt of the first order referred to above, I requested the Commissioner of Police to inform me whether the 1½ Acres first proposed near the penitentiary would interfere with the safety of the prison for in my opinion the extent was ample for the purpose in view.

3 After several communications had passed I was at last informed that the quantity of land available had been curtailed to about ½ Cawney.

4 This obviously was too small, and so there is no other unoccupied Government land in that quarter the

Fort Saint Geo.e 16th November 1858.

the Municipal Commissioners concur with me in advising that one Cawney of land on the South bank of the Coum and near the Bridge shall be purchased and rented out as a Wood Depôt.

* Marked A in the enclosed plan.

5 The land is now built upon but if the residents receive compensation for their houses they will remove, and the land itself must be purchased from the Shrotreimdar of Chintadrepetta.

6 The value of one Cawney at 100 Rupees the ground will be 2400 Rupees and the buildings may be worth some 1500 Rupees = 3900 Rupees.

7 If wood merchants will occupy the land a result which is probable, but must be shown by the future, I should levy the usual monthly rent of 7 Rupees the Ground the rate paid by the wood stacked near Cochrane's Basin, and the outlay would be repaid in about two years. One Cawney will be sufficient to commence with and the space can be enlarged if our wants demand it.

8 This is the best arrangement in that could which occurs to me and I beg to know whether I am to carry it out.

No 1

To W. H. Bayley Esqre
Acting Secretary to Govern
Revenue Department
Fort St. George

Sir,

No 1289

Para 1 In Extract Minute
Consultation dated 18th December 185
Government sanctioned the proposal

of the Survey in the remaining dry Talooks of Trichinopoly Viz Volcanda-poorum and Torriore, and as the working season has now drawn to a close, it is necessary to determine at once where the work should proceed in the next year, particularly as the Demarcation parties will carry on their duties without any recess, and are expected to complete the above two Talooks by the middle of the present month, tho 46 demarcated Villages will remain for next years Survey comprizing a probable area of about 220 Square Miles.

No 505

2 On 14th September last I addressed the Board of Revenue on the subject proposing to continue the Survey of the South Arcot District northwards from the Talooks already surveyed on the ground of its being necessary to have the demarcation party for next year in close proximity to the classification

classification parties which have still a large field of work in that locality, both branches being under the same Deputy Director, and much inconvenience having already been experienced by the distance between the two scenes of operations occasioned by the unavoidable interposition of one or two Surveyed Talooks - The Board however in their Proceedings of 12th ultimo (copy of which as appended with a copy also of the letter to which they form a reply) while recognizing the weight of the considerations urged for completing the Survey of the South Arcot District "strongly urge that the party should be transferred to North Arcot" to Salem".

No. 3819

3 I have in accordance with the views of the Board which are doubtless correct if only practicable of attainment placed

placed myself in correspondence with the Collectors of the two Districts named to obtain further information which seemed necessary on the subject before submitting this important point for the final orders of Government.

4 The Collector of North Arcot puts forward a strong claim for the introduction of a revenue Survey in his District on the ground of inequality of assessment and in accuracy of accounts of area of fields while in Salem also this measure is strongly advocated particularly for the Southern Talooks.

5 To enable me to take up the North Arcot District some special arrangements will be required, as it will not be possible for my Deputy who will have a years' work of Classification in Trichinopoly in the ensuing season to superintend the Demarcation which must precede the Survey in North Arcot,

Fort St. George 16th November 1858

Arcot, and the only plan which occurs to me is to place the Demarcation in North Arcot under a Head Assistant or an Assistant Collector of some experience, who while working under my orders as regards this duty, might have revenue and Police charge of a Taluk or two in which the Demarcation may be going on, but it would be essentially necessary that he should not be liable to be called away in any other duty at a distance. If it were thought necessary to grant any Deputation allowance to this Assistant, who would be selected for his experience and special qualification, such additional allowance might be charged to this Department, as funds will probably be available for some time to come on account of the Establishments not being all completed.

6 While it is to be admitted that the placing the Demarcation and Classification in different hands is disadvantageous

Fort St. George 16th November 1858

advantageous this will be the less felt in the present case. — — — — — — — — — — as Mr Banbury will afterwards enter upon the Classification in the North Arcot District, not as a stranger, but as well acquainted with its local circumstances and revenue administration. —

7. On the other hand if Salem is taken up, it will have this advantage that its southern Talooks in which the Assessment is the highest lie contiguous to the Talooks of Trichinopoly surveyed this year and might be demarkated by Mr Bamberry, tho' still with some inconvenience and the Survey would proceed Northwards and then enter the North Arcot District on the South where the Collector proposes to commence the work as being more urgently required there, as also stated in para 32 of Mr Bourdillon's letter to the Board dated 23d October 1854.

8. If the Government should determine upon taking up the North Arcot District some such arrangement as that above

No XII of 1855 Selections from the records of the Madras Government.

Fort Saint George 16th November 1858

above proposed will be absolutely necessary while the alternative seems to be to enter upon the Salem District from its Trichinopoly frontier. In the meanwhile to prevent the work of demarcation being brought to a stand still, before final orders can be received upon this subject my Deputy will take up the dry Villages in the Moosery and Paulgoody Talooks of Trichinopoly which lie to the North of the Cavery. The Assessment in these is formed in the same irregular way as in the adjoining dry Talooks Viz. with reference to the nature of the Crops and as these two Talooks are small being together within 300 square Miles / computed from the lithographed Map and taken also from the revenue accounts / it appears desirable that there Wet as well as Dry lands should be surveyed so as to complete the small Doab being between the Vellar river of South Arcot and the Coleroon and Cavery on the South as far as the Salem frontier, the Cavery still forming the S.W. limit of the Survey so fold

Fort Saint George 16th November 1858.

field if it is extended to the Salem District.

Dated 29th Ultimo No. 611. — 9. I have addressed a separate communication recommending the immediate entertainment of a 3d Deputy's party in Masulipatam, and if the Government are prepared to remove the temporary deferment to the extension of operations contained in Extract Minutes Consultation dated 20th Ultimo I shall speedily address you on the subject of entertaining the remaining or 4th party but as the Government may like to view the whole field of operations in connection with the proposition for the Southern party I may state hereby anticipation that the claims of Rajahmundry for an immediate survey are of the strongest nature particularly when taken in connection with the returns of the great irrigation works, and if sufficient hands can be found I am disposed to recommend the employment of the 4th party in the Collectors Division of that District in addition to the 2d party now in

Fort St. George 16th November 1858.

in the Sub Division as otherwise it must take
3 or 4 years before the whole of the Godave-
ry Delta can be completed, while also
the state of the more inland parts of
the District equally requires this measure
I am not afraid of having 3 parties in
the Godavery and Kistna Deltas crowded
too closely together as there is ground for
two parties to expand from Rajahmundry
Northwards thro' Vizagapatam and
Ganjam, and the whole of the Rajah-
mundry District itself and the upper
part of Masulipatam also, while the
3 party as before if the whole of the
Kistna Delta extending thro' Guntoor as
well as the inland Talooks of that Dis-
trict and also the Nellore District beyond
it.

If this found impracticable to
have the 4 party in Rajahmundry
Nellore seems to have a very strong
claim for it both from the nature of
the present revenue assessment and
from the apparent impracticability of
disposing

Fort St. George 16th November 1858.

disposing of the Poolla in a satisfactory
manner without a re assessment of the
whole lands, as was recently pressed upon
my attention when passing thro' that District.

Case Binny & Co against the Bd of Revenue.—
Letter Binny & Co to Secretary Bd of Revenue.—
Letter Collector of Madras to Secretary Board of Revenue.—

Sir

I have the honor to acknowledge your letter dated 10th Instant with papers as per margin, connected with the case Messrs Binny and Co against the Board of Revenue submitted to me for arbitration

Looking to the notice of Government dated 19th January 1858 that they were prepared to supply Salt Boats included from the Madras plat-

Fort St George 16th November 1858

plat form for exportation I cannot see that a quantity per diem is indicated thereby, compleating the shipment within a prescribed period. I am therefore of opinion, that on this point, there is no breach of contract on the part of Government and that demurrage is not chargeable against them Time for shipment being apparently an open question. —

On the other hand Messrs Binny and Co agreed to purchase from the Government 300 Tons of Salt and the same having been accepted 254 3/4 Tons of the article only were supplied, thereby bearing a deficiency of 45 1/4 Tons and which the Government stated they could not furnish Boats for the shipment not being procurable. This being clearly a breach of contract. I consider that Messrs Binny and Co are fairly entitled to remuneration from Government for loss of freight at the rate of Rupees 9 or Eighteen shillings per Ton as claimed by them. —

No 198

To J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St George.

B° No 5182 Sir,
From the Coll^r
of Ganjam

With reference to the Circular letter from the Board of Revenue under date the 23d July last No 2773, I have the honor to state that the new forms and the Manual of instructions for their use were received in this Collectorate in the month of June 1855. The village accounts of fusly 1265 were not prepared according to these forms. A beginning was made in the ensuing fusly 1266, but many of the village accountants did not fully comprehend the new forms

2 In Mohurry Goomsur and Sooradah the forms being imperfectly understood, accounts were prepared in part only in accordance with them

during the fusly 1267 the system became known throughout the district and the village accounts were prepared according to the new forms. In the Talooks of Mohurry Goomsur, and Sooradah, the village accountants are Oriyas accustomed to write on Cadjans only and they have consequently found it difficult to adopt the new forms.

3 The Talook and Hoozoor Goomas-tahs however exerted themselves to make the new forms intelligible and with this assistance and by means of Volunteers the accounts were prepared.

4 They promise to learn Telugu soon and prepare their accounts themselves. The Tahsildars of these Talooks have been ordered to pay particular attention to the subject.

5 The Cyrnums of the remaining Talooks

Talooks Wadada. Ithapore, and Poobbacondah have prepared their accounts according to the new forms without much difficulty. There is generally no objection to the introduction of this new system into this District.

6 In some of the new forms there are headings for "taram" and "tarawa" With regard to all those numbers which are mentioned in the columns this information has been supplied. But with regard to the lands not mentioned in the columns the extent only is given As the assessment is not fixed in this district the columns for this is left vacant. The new forms require taram to be mentioned with regard to enam also, but as this information cannot be supplied from this district the income of the enams is given.

7 With regard to the surveyed tracts of this Collectorate, the number

number and extent of each portion of land, are given With regard to the tracts which have not been surveyed the extent given on the dictum of the village authorities, is converted into acres at 5 Burrums per acre, every field has a separate number assigned to it The information thus afforded however cannot be implicitly relied upon as it is founded on Curnums accounts Jusab Justi has never been introduced into this District.

8. With regard to the other forms there appears to be no objection as they are adapted to the circumstances of this District. The collection accounts sent in by the Curnums correspond with the new forms and the Adungal and Koolamvarie Chittas are founded upon it and puttahs easily prepared.

No 181

To J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St George.

R. No 4876
From the Collr of Nellore

Sir,

I have the honor to acknowledge the receipt of your letter of the 23d instant, enquiring whether the account of the inundation of the country about Nellore and the partial destruction of the anicut which was published in the Fort St George Gazette by the Post Master General, is

2

The account is sufficiently correct for the purposes of general description, but it was then too soon to give accurate details. There was a considerable amount of Water crossing the road between Venkatachellum's Chauttram and Goodoor which seriously injured it, and was some impediment to the passage of the mails, but there has been no serious flood or inundation beyond what was communicated regarding the breaching of the Tanks under date the 23d Instant, which was more owing to the defective state of the work of

Fort St George 17th November 1858

of irrigation than any peculiar violence of the Elements.

The breaching of the anicut was deferred being then reported for the reasons mentioned below

3 I stated in the letter referred to that I did not even then consider the report complete, as I had that very day received the news of several tanks being breached. Still less could I have given any correct idea of the damage done in this respect so far back as the 13th October, the date of the Inspecting Post Masters letter.

4 The Pennar Anicut was in such an unfinished state that it could not be expected to remain uninjured after even a moderate fresh. It has I regret to say been very extensively breached, and a considerable portion of it has been carried away. This accident will not however, I am of opinion, have any serious effect on the Revenue of the present year. I had it under my consideration whether the breaching of the anicut should be mentioned in my report of the 23d Instant

Fort St George 17th November 1858

23d Instant, but decided on deferring doing so, as that letter was written for a special purpose, and required an early reply, whereas the breaching of the Anicut did not admit of being immediately prepared like the tanks, regarding which the reference was then being made.

5 I visited the vicinity of the Anicut on the 12th Instant, and also spoke to Captain Mullins, whom I met on the road. He was of opinion from the appearance of the Water that it had been breached, but to see it was impossible on account of the height of the River. I have watched the progress of this work since June last and have had serious apprehensions Regarding it, and I have reason to believe that it was on my representation that Captain O. Connell was sent up to Nellore.

Boards Proceedings No. 3055 dated 30th September 1858
Min. Cons. No. 1273 dated 17th Sept.r 1858

I have the honor to report that I apprehend considerable difficulty in carrying out the orders of the Board and Government for the disposal of the Topes on unoccupied land, which I am directed "to make over to respectable and substantial "parties who may undertake to pay the "land revenue and are likely to preserve "the trees". There will be many claimants to such valuable little properties as will be thus gratuitously conferred upon the lucky man who is so fortunate as to obtain the Collector's favour. The accompanying list will show a few of the Topes which will be eagerly sought by many - and which might be sold to the highest bidder on the same conditions, provided he was approved by the Collector - But as

18822

Fort St George 17th November 1858.

as the Government have disapproved of the sale of these Topes I purpose during the ensuing Summer Sunday to endeavour to settle competing claims and when I do not succeed satisfactorily I shall report again on the subject to the Board and apply for further instructions

Sir,

B° N° 4859

From the Coll^r of Bellary

Among the items standing under the head of "Deposits of the Revenue Department" I find the following four sums which might properly be credited to "Local Funds" Viz

Rs	a	p	
1138	1	11	Profit in the sale of some Timbers purchased for public purpose and sold by order of Government.
6	12	1	Proceeds of Boory Durwandar Inam land of the inhabitants of Agrahanoor in the Talook of Gollem for fusleis 1261 & 1262 estimated on behalf of Government owing to the absence of the Inamdars and the Boory being out of order.
6	1	6	Proceeds of Boory Durwandar Inam of Baravangood of Manchanoor in the Gollem Talook

Fort St George 17th November 1858

Talook for Fusly 1263 owing to the Boory being out of order.

17	4	Sale proceeds in fusly 1264 of Surplus materials obtained for building houses in the Inamroyett at Puttecondah of the Panchapallum Talook.
17	5	Sale proceeds in fusly 1266 of old and unserviceable materials of certain dilapidated Shops which were built at the expense of Government in the said Inamroyett.

1185 — 11 — 7

No claims exist for the above items and I have therefore the honor to request the Board's sanction for carrying them to the credit of the Local funds.

Bd No 5189
From the Coll. of Canara

Sir,

Up to this time, I have heard nothing

nothing of the Barque "Rose Ellis", or of the despatch of the salt alluded to in the Board Proceedings under date 20th October 1858 No 2041, as about to be shipped from Tinnevelly, should I receive the full quantity supposed to be on the way to Canara, I shall still require 600 Garce. Dupr Mds 192000- and I have the honor to request early instructions as to the course the Board think proper to pursue, in order to procure this supply

2 It is preferable that Goa can furnish 500 Garces- Dupr Mds 60000, and for this amount, I have offered to pay as follows, requesting His Excellency the Governor General of the Portuguese Territory to give publicity on Goa, to the notice issued- My offer are For salt delivered in November, 35 Rs per 120 Mds for Do delivered between December & March, 30 Rs pr 120 Mds

3 I am at present unable to say, whether I shall succeed in obtaining Goa salt, but I have made an open offer, and if salt is to be had I shall probably get it. In any

Coen

S.

the combination of the Merchants was complete, and as I cannot under any circumstances expect a large quantity of this salt, I have not thought it worth while to give in to their demands, or to offer higher prices than those above named.

4 As far as I can see, I must depend entirely on the Eastern Coast for my main supply, and I am therefore anxious to bring at once to the Boards notice the existing state of matters, and to press on their attention the necessity of early arrangements, as after January, the strong North westerly winds which prevail here, render working up the Coast very tedious, and will make the transfer of the salt from a Ship to boats in the open sea, a matter of difficulty, if not of danger-

No 112.

To G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George.

Bd. No. 2526.
From the Coll. of Masulipatam

Sir,

In reply to your letter of the 11th Ultimo No. 1677 on the subject of the cost of manufacturing salt, I have the honor to inform the Board that the Coodewarum given by Mr. Fraser was for manufactured and swamp salt together. The revised Statement now sent, gives the cost of each description of the salt and is brought down to fasly 1266, so as to include the change of Establishment, which has taken place since. At present there is but one pan in the District, the other having been abolished last year under the order of Government. I have however distinguished the Pans in the Revised Statement.

2 Properly speaking, there is no such thing as Coodewarem for Salt in this District. The Salt is manufactured strictly under Amanie, that is, the requisite number of Coolies are engaged annually, and are paid by the day for the working season, and the whole process of manufacture are watched and regulated by the Ameen and his Peons. I propose applying for leave to alter this System from the next Season, the men have no interest in the Salt and I find it impossible to get them to do a fair day's work for a fair days pay, and it is only lately they all struck work, because a deduction was made from the pay of those who did not attend at the proper hour.

3. By the recent alteration in the rate of Toll, the shipping charges, given at Rupees 2-6-9 in Mr. Fraser's Statement are reduced by Rupees - - 2 - a - - -

Masulipatam Coll.s Cutcherry, 7th June, 1858.

(Signed) W. Knox
Collector.

B. No. 4912
From the Collector
of Masulipatam.

Sir,

The Civil Court of Masulipatam having under instructions from the Court of Sudr Adawlut issued the usual Warrant for the execution of the Appeal Decree in the Visvannapetta Case, I have the honor, with reference to their Proceedings dated 19th August last No. 3169 communicating resolution of Government to appeal from the decision of the Sudr, to Her Majesty in Council, to solicit the Board's instructions on the subject - I have not been informed under what circumstances the Sudr ordered execution of the Decree but perhaps they have taken Security from the Respondent as prescribed in Section IX Regulation 8 of 1818.

2. The time given in the Wadeant it will be observed expires on 22d Proxi: mo before which the Government Reader should take steps to have it withdrawn or it must be obeyed.

3. May I also request the Board to inform me with reference to para 6 of their Proceedings what arrangements respecting Costs they propose to come to.

8th October 1858. No. 3780.

To,
J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George.

Br. No. 3045.
From the Coll. of Salem

Sir,

1. The Saury Moottah of Amadanapully in the Salem Taluk has been taken under the Collectors Management under an order issued from the Sub Judge under the provisions of Clause

I

I and II Section V Regulation II of 1811.

2. In connection with this subject, I have the honor to submit a question for the decision of the Board The Tahsildar of Salem has requested that he may be allowed a commission for his part in the Revenue Management of the Moottah besides the usual establishment of an Ameen and some Goomastahs.

3. It has not been the practice hitherto in this District to allow any such extra remuneration to the Tahsildar, nor has there been I believe, any order or observations made by the Board at any time on this subject.

4. I request the Board will be pleased to let me known whether the Tahsildar can be allowed the extra remuneration he wishes to get.

It

1847

Fort St. George 18th November 1858.

It seems to me that any Revenue Officer in his profession who is required for the convenience of private parties to undertake extra duties may justly claim to have a remuneration for the work.

5.

The Collections heretofore of the Mottah is about 12/74ths year and the Peishcush Rupees 767-8-7.

No. 173

To I. D. Smith Esqr.
Secretary to the
Board of Revenue

Sir, Fort St. George

Bd's No. 5052
From the Collr.
of Salem

I have this date transmitted to the Board of Revenue my Report on the state of the assessment in this District. Though the plan I have proposed for lowering the assessment will no doubt receive early consideration I think it proper to remind the Board that the first kist for the present year will fall due during the current month and therefore to recommend that an application be made to Government to allow the temporary reduction which they granted in Esctract Minutes of Consultation dated the 10th

November

Fort St George November 1858

November 1856 No. 1193 for the Southern talooks to continue in force till they shall be pleased to pass orders on my assessment Report -

2 I beg also to explain that I omitted at the proper time to apply through the Board for leave to grant the same temporary reduction in fusly 1267 - The same Reduction as which was granted in fushs 1265 and 66 was continued in 1267 - but the necessary sanction was not I regret to say obtained as applied for at the proper time -

3 The Board will see from my Immediately Report for last fusly that ample ground existed for Continuing the reduction - the season was worse last year than in either of the preceding two years and the good effect which had attended

Fort St George November 1858

attended the Reduction in the first of those years was equally apparent in the 2d. I request the Board will be so good as to point out these as Circumstances when Submitting this letter to Government -

4 I also beg to say a few words regarding the time I have taken in preparing my Report for generally lowering the assessment throughout the District I may appeal to my Report as proof that the work was not a light one, - The labour of preparing the required Statements was in fact very great. The work therefore Cost necessarily much time but now that it is Concluded I trust it will appear that I have not omitted to take proper care to put the whole subject with its various details in a form that will satisfy the wishes of the Board and the Government -

Collector.

No. 165.

To,

J. D. Sim Esqre.

Secretary to the

Board of Revenue

Bd. No. 4622

From the Register of Government Grants. } Sir,

1. I should be glad if you

you would obtain for me the Board's instructions in regard to the enclosed Copy of an application from an East Indian British subject, for a Permission Certificate for land in the Provinces.

2. It has been the practice of the Registrar's office to refuse Permission Certificates to applicants of this Class, informing them that they should obtain a Cowle for the land from the Collector, in accordance, as supposed, with the orders of Government conveyed in a letter from the Board of the 12th January 1829.

To Register of Govt. Grants.

3. It appears to me however that the views of the Board and the Government

Government at that time had reference to the exemption of the party, an East Indian, from the expense of a procedure in cancellment only on a European. The Certificate fees of that day for land under five Cawnies were 35 Rupees, but a Certificate is now granted without fee.

4. I think therefore that a Permission Certificate may be granted to him, and in all similar cases future.

Sir,

BP No. 5093.
From the Collr of Vizagapatam

I have Rain guages have daily reached me but they really are so awkward in their construction that combined with the awkwardness of natives in pouring the water out of the guage into the measure I fear it will be impossible to place much reliance on the results. Had the receptacle for the rain been slanted off towards the neck & a small lip been made to the mouth of the guage the difficulty would have been remedied & I would suggest this improvement in their future manufacture when I think the masters might answer very well - I desire to know if it be obligatory to use these guages

or

1885

Fort St George 19 November 1858

or whether I may be permitted to use a common quart bottle to be fixed in the ground the funnel of the guages now sent being inverted in the mouth to catch the rain - this plan would be far more simple & there would be less chance of accident & less in the important work of measuring -

3 Natives are proverbially careless in these matters so that I hope the Board will sanction my putting aside the present guages & adopting the mode I propose -

4 Moreover where there are Europeans Resident I propose supplying the guages to them in preference to the Native Collectors Office as guaranteeing more accurate & reliable returns -

B. No. 4735.

From the Ag. Coll.r of Madura

Petitions No. 2019 2638 and 2834 of 1858 are herewith forwarded.

With reference to para 1 of the Extract Proceedings Court of Wards dated 9th august 1858 No. 2995 I have the honor to report that Pechamma Nachear having after much delay represented that unless she was allowed some money to for the parties who would prove her allegations she could not procure their attendance, I summoned them.—

2 In depositions taken on solemn affirmation they Repudiated all knowledge of any such transactions.

3 It is notorious, that the Petitioner is living here on usurious loans, the lenders of which expect to be Repaid on the Minor attaining his majority and it is more than probable that the present Suits motions are this solely with a view to

Fort St. George 19th November 1858

to her own interest—

4 The Board, dated the 1st March 1835, on which the present Claim is founded bear the signatures of the Zemindar & the transactions is supported by the accounts on the Records of the Zemindary.

5 It is true that the Claimant was a defaulter to the Estate to the extent of Rs. 351-3, but this was subsequently adjusted.

6. As Regards para 2 I would observe that the interest referred to therein is a balance struck after deducting the Counter interest from that charged on the principal sum, being the result of a settlement of parallel accounts of Receipts and payments—

The annexed Memo will explain the transactions—

Original amount of the Board 15106-11-0

Amount paid 6666-12-1

Balance on account of principal 8439-10-11

Fort St. George 19 November 1858

Interest on the original sum 9790-7-3

Deduct Counter interest on payments — — — — — 6156-1-0

Balance on account of interest 3634-6-3

Total amount due — 7084-5-2

From the Sd. Coll.r of Madura —

Sir,

With reference to the Board's Proceedings of the 2nd September 1858 No. 3343, authorizing the destruction of certain useless English Records, I have the honor to observe that the Quarterly statement of Stamps Papers and Cadjans does not shew (as the Board appear to think) to whom the Stamps Papers &c. have been sold, it is merely an account Current, shewing Receipts of Stamps, the Sales effected, and the balance remaining unsold during the Quarter—

2 If therefore no other objection exists, on the part of the Board I would Recommend their destruction.—

Sir,

Mangalore.

We have the honor to acknowledge your letter dated 23 Septr with an Extract from the Minutes of Consultation by the Board of Revenue & in reply have the honor to state that the proposed Reduction of duty on the Exportation of manufactured Tobacco would not have the desired effect on an unlimited exportation of the produce from this Country. It is difficult to say what this would enable exporters to compete with American trade, this article being many liable to damages in the voyage & to an ever Changing market at home. Our own experiments shew that the Indian Tobacco can only compete with the American & the Indian Export duty is not taken into consideration if duty is to be charged the Chances of a profitable & encouraging margin are so small that the enterprize of the Merchant is stifled in the beginning.

Considering the importance a Tobacco trade might attain if it receives a fair encouragement we are of opinion that the duty should be abolished altogether and that this article should be treated analogous with Cotton which is exported duty free and that such a measure would be the rise of a trade hitherto unpracticable and dimunished on account of its restrictions.

I have &c.

No. 183

To I. D. Sim Esqre
Secretary to the
Board of Revenue

Sir, Fort St. George

In reference to the
Board's Proceedings of the 18th Instant
No. 3927 I have the honor to state that
the item referred to is one of

Last July	Current July	Increased and Decreased
Columns 6 & 10	Columns 7 & 11	
41411	123770	
Increased		
Columns 8 & 12	82359	

The figures 82,359 should
be entered in Columns 8
and 12 being the difference
between the Collection of
arrears in last July and
those of the Current July as shown
in the margin.—

2 The figures are correct-
-ly entered in my office Copy of
the Comparative Statement No.
but it is probable that a Clerical
error has occurred in the transcription
of

From the Acting Collr.
of South Arcot

B. No. 4795

of that sent to the Board—

3 The increase in question is
attributable to the recent change
in the preparation of the Collection
accounts. Those for the last July
included only the Collection
actually received in the Hoozoor
treasury—whereas the amount for
the Current July includes the
Collections made in
Cowle file in accordance with
the Taluks in accordance with
the new form of accounts—

letter of 7th March 1857 Submitting the

Fort St. George 20th November 1858,

the Report called for in the Circular Extract from the Proceedings of the Board of Revenue dated 29th October 1855 on the Subject of Topes and Trees in this District, and proposing such modifications of the existing System of tree taxation as are best suited to the Circumstances of the District, I have the honor to inform you that as the Board have not as yet furnished me with definite instructions on the Subject much inconvenience is felt in the disposal of Claims brought forward by the Ryots for the Remission of taxes on Palmirahs, agreeably to the orders of Government as contained in Para 7 of Extract from the Proceedings of Consultation under date the

Fort St. George 20th November 1858

the 31st May 1855, Received with the Proceedings of the Board of Revenue above Referred to Conveying instructions for the modification of the tree taxe--

2 His Ryots bring under the plough lands under Palmi: trees which are only partly cultivable, not with a view so much of deriving profit from the cultivation so Raising such as with a view of obtaining Remission of the tree taxe, which is higher than the assessment on the land - In admitting claims for Remission, due caution has been exercised, so as on the one hand, not to withhold from the Ryots, the boon granted them by Government, and on the other, to guard against undue sacrifice

Fort St. George 20th November 1858

sacrifice of Revenue, and much
diffficulty is encountered in
distinguishing what may be
termed scattered trees from those
that may be held to be Topes,
Those trees that are brought
under the head of Topes and
taxed as such, are often
objected to by the Ryots, and
Remission is claimed by
them --

3 If the claims of the
Ryots which are found unre-
asonable are rejected, they
not only present Petitions to the
Board but they also bring suits
in the Civil Courts against the
local authorities, and subject
the Public Servants to un-
necessary trouble in defen-
ding the suits --

4 Under the 2nd
foregoing

Fort St. George 20th November 1858

foregoing circumstances and as Re-
missions on trees principally Pal-
myrahs on Puttah lands will neces-
sarily be on the increase varying
of course with the extent of
land brought under Cultivation, on
which scattered trees stand, as
Reported in my letter of 20th March 1857
it is of importance that definite instruc-
tions should be soon furnished on
the Subject I therefore Request that
my Report of 7th March 1857 may be
taken into the early Consideration of
the Board and Government and that
definite instructions may be sent,
if possible before the Commence-
ment of the Summahbundy of the
Current Fasly --

No. 185

To

I. D. Sim Esquire
Secretary to the
Board of Revenue

After
B. No. 5152
From the Collector
of Madras

Sir,

I have the honor to forward
1 translation of the Plaint in a suit instituted against me in the Principal Sudder Ameens Court of Chingleput under Section XVII Act XII of 1851, by one Cavelly Venkata Narrainappa, an inhabitant of Conaleeswaren Pettah in the Egmore Division of this Collectorate, for the recovery of Rupees 1-8- collected as Quit rent on his premises for Fusly 1266 and for Rupees 7-8- collected as arrears of the same from Fusly 1261 to 1265 inclusive -

I have moved the Court for
2 an extension of six weeks on the time allowed for a reply, having received Notice of the Suit only on the 6th Instant and have to request the sanction of Government to defend it at the public expence -

Two

Fort St. George 20th November 1858

3 Two questions are raised in the suit 1. That the land of the Pettah is exempt from Quitrent as being attached to the Pagoda of that place, and 2 the alleged illegality of the levy of six years arrears of Quitrent under Section XI.

4 It appears to me that the Court cannot entertain the first question

5 The Plaintiff indeed objected before me to the levy of Quitrent on the grounds set forth in the Plaint, but as he proceeded on no alleged grant nor produced any evidence in support of his declared privilege, I decided against its existence, and directed the levy of the rent. If dessatisfied with this decesion, he should have appealed to the Board against it.—

6 If the Pettah had any claims to exemption from rent, they were doubtless disposed of by Mr. Ogilvie in 1803 who then surveyed and assessed the lands of the Egmore Vcs. divisions. He in statement accompanying his report to the

X Section II

Fort St. George 20th November 1858

the Board of the 9th October 1803, recommends the assessing of the Pettah in these words.—

Number	Villages	Proprietors Names	Title Deeds	Extent C. G. Sft.			Remarks
82	Egmore	Comanasoo varoon Pettah	More than 35 years possession	12	10	321	Certificates may be issued.—

7 The sanction of the Board and Government of his proceedings cannot be found in this Office, but as his suggestions have been generally acted upon, the records of the Board will probably supply the deficiency.—

8 The Plaintiff moreover is not the proper party to raise the question of the Pagoda income, not being the Trustee, or as far as I can see, authorised by the residents to represent them in a matter common to them all.—

9 The correctness of the demand for Fusly 1266 (which is styled in this Collectorate the current demand, as our Collections are one year in arrear

comat

Fort St. George 20th November 1858

the English Government been
appropriated for the maintenance
ance of the Pagoda of Comaleswarer situated in the said pettah.

2 That the Plaintiff as
well as others who have their houses
built upon the lands belonging
to the said Pagoda of the said
Pettah have been paying their
rents to it even under the authority
of Government.

3 That while it is so that
in the end of fusly 1267 the
Defendant has, contrary to
custom levied Quitrent on
account of Government on
the said land and demanded
the same from the Plaintiff
in the Month of June last
for his house presenting to
him

the English Government been
appropriated for the maintenance of the Pagoda of Comaleswarer situated in the said pettah.

2 That the Plaintiff as well as others who have their houses built upon the lands belonging to the said Pagoda of the said Pettah have been paying their rents but ever under the authority of Government.

3 That while it is so that in the end of fusly 1267 the Defendant has, contrary to custom levied Quit rent on account of Government on the said land and demanded the same from the Plaintiff in the Month of June last for his house presenting to him

him a Bill for Rupees 7-8-0 on account of arrears of Quit rent from fusly 1261 to 1265 & another Bill for Rupees 1-8-0 on account of Current Demand for fusly 1266 which were accompanied with a Warrant, to which the Plaintiff stated that Quit rent should not be levied on the Dawustamane lands besides that as no Quit rent was charged on account of Government by the Collector on the Plaintiff's house upto fusly 1266 it is illegal to demand the same for these fusties in which it was not levied, but notwithstanding his representation, he being threatened that process of the distraint would be issued the

Fort St. George 20th November 1858

the Plaintiff as a matter of course paid the amount as demanded on the 21st June 1858 and received the Bills which accompanys this Plaint.

4 The Court will perceive that the said proceedings of the Defendant are inconsistent with the Sections 172 of act No. 12 of 1861 besides they will also find that in the Section 11 of the said Act it is only provided that if the arrears of Quit rent against the lands that were already assessed, remain uncollected for which the ryots have given written documents, the same may be realized within 6 years, but not to collect rents against the lands that were not assessed for fusslies in which it was not levied.

5 That it is not legal to collect Quit rent issuing a Bill for arrears as well as for Current from the Plaintiff on his house for the Fusslies; in which no Quit rent was charged either by the Defendant or his predecessors. I therefore request that the Court will be pleased to have the sum of Rupees 9 as well as the Costs recovered from the Defendant and paid to the Plaintiff, taking into consideration the aforesaid circumstances and examining the documents & Witness of the Plaintiff.

(Here enter S. M. P. No. 302 of 1858)

1 Petitioner adverting to the Decree passed by this Court in his favor in appeal Suit No. 103 and 136 of 1857 prays the Court of Sudder Adalut to direct &c. the lower Judge in Execution of their order dated the 10th Septem= =ber 1855 to levy from the Collector of Masulipatam and remit to &c. this Court for delivery to Petitioner the mesne profits of the Zemindary of Vissumapetta from the &c. year

18922

Fort St. George 20th November 1858

year 1849 to the date on which &c. the Estate was put into the possessi= =on of the Petitioner-

2 The Court of Sudder Adalut Resolve to direct that the unexecuted portion of their order of the 10th &c. September 1855 be now Carried into effect, provided that the Defendant do give good and &c. sufficient Security for the &c. money payable to him under it, pending the issue of any Appeal &c. which may be lodged by the Plaintiff to Her Majesty in Coun= =cil against the Decree of this Court passed in the Suit, namely in Appeals No. 103 and 136 of 1857.-

True Copy of a Letter
(Signed) Valentine Dale
Government Pleader

To I. D. Sim Esqr.
Secretary Board of Revenue

Bd No. 5130.
From Mesrs. Bainbridge & Co.

Sir,
Fort St. George
We have the honor &c. to

18923 Fort St George 20th November 18

to acknowledge Receipt of your
letter No. 4164 of yesterdays date.

Captain Liney of the Ros
Ellis informs us that his vesse
is as near as he deems it safe to
go, she draws 18 feet loaded & is ly
-ing on 6 fathoms of water and
is unable to discover any safe an
-chorage nearer shore.

We trust that the instruct
that have been sent down will en
-able the loading of the vessel
and in hope to hear shortly that
has taken a full Cargo and le
for her destination We shall
fore not Require to avail our
of your permission for the ve
to sail at once with whate
Cargo she may have on boa

Madras
10th November
1858
