No. 143

To J. D. Sim Esqre

Secretary to the

Board of Revenue

Fort St. George

Bd. No. 5260

From the Collector

of Cuddapah

Sir,

I have the honor to submit the explanation called for by the Board, in their Proceedings of the 20th September last No. 3561, respecting certain points connected with the Statements which accompanied my Report on the settlement of the District for Fusly 1266.

2 In Para 4 of the above Proceedings, the Board doubt whether the commutation price entered in Column 2 of Statement No. 2 of Fusly 1266, can be properly so called, as the Price of the 1st. Sort of Paddy entered in Column 4 of that Statement is higher than the commutation price, shewing at the same time, the difference exhibited on a comparison

between

between the Statements of Fuslies 1265 and 1266. To this, I beg to offer the following explanation. The average commutation price of the Wet, Rupees 117 entered in Column 2 of the Statement No. 2 of Fusly 1266 comprizes the prices of three sorts of Paddy, whilst in Columns 4 and 5 of that Statement are entered only that of the 1st and 2d Sort of Paddy, no Columns being opened therein for the 3d Sort. Hence the Price of the 1st Sort Paddy is exhibited higher than the commutation price as the Board observed.

Remissions	Rs. a. p.
Amount already remitted	2,013-2-10
Do. Recommended in Fusly 1265	2022-7-3
Do. Recommended in Fusly 1266	2253-9-4
	6289-3-5

3 The Marginal note will explain the omission pointed out by the Board in the 8th Para of their Proceedings.

4 I am at a loss to understand how the Board arrived at the conclusion that the Decrease in the land yielding sugar cane, amounted to acres 963 and not 937 as mentioned in Para 18 of my Report. On a careful comparison, however, of the Statements in this Office, the result is, as shewn in the margin, which is correct. The increase in the assessment of Rupees 2148 which it was not deemed necessary to specify in my Report, was easily arrived at from the Statement itself.

	acres

Total assessment of Fusly 1266 as per Statement No. 7	26326
Deduct Net of Fusly 1265 as above	24178
Net Increase	2148

Para VI Boards Proceedings 5 Upto Fusly 1264, a separate Statement in

Para 11 B. P

in detail shewing the particulars of the waste charged accompanied my reports - Since the introduction of the new forms of statements from Fusly 1265, none was furnished, there having been no forms for such details - As the Board now think that the particulars should be exhibited in future Reports, it will be attended to.

6 In explanation of the Remarks in Para 12, I beg to state, that by a clerical error "Caboolaty Bunjar" was entered in lieu of "Shamilat Bunjar" which requires to be altered

(Tamby jasty) 7 With reference to Para 13, I would beg to observe, that all lands measured by the Carkoons &c. brought to account within the Fusly, are included in the Demand and entered in Column 6 of Statement No. 10 - Those measured and brought to account after the expiration of the Fusly, or from 1st July up to the close of the settlement

Report

Report are brought under the head Extra Revenue and entered in Statement No. 9, thus distinguishing the quantity of land measured within the Fusly and those measured afterwards - This has been the practice hitherto observed in this District - The omission of this item in Statement No. 4 of Fusly 1266 alluded to in my Report, has been supplied in Statement No. 10.

8 The difference of Rupees 8,444-12-6 between Statements No. 3 & 4, noticed by the Board in Para 14, arises from the same cause, Viz., the amount of Tankiejasty or lands measured and brought to account within the Fusly having been included in Statements No. 3 and 10 - The Decrease of one Village in the Statement No. 1, is owing to a small Village, paying the very trifling revenue to Government of 5 annas per annum, in the Taluk of Muddenpully, having been excluded from the settlement in consequence of no cultivation having been carried on in it in Fusly 1266.

Statement No. 1 Villages
Fusly 1265 — 1755
Fusly 1266 — 1754
Difference 1

With

Fort St. George 28th December 1858

9 With regard to the difference pointed out by the Board in Para 15, I have the honor to represent, that the sum of Rupees 117888 entered as the net Increase in the total Settlement of the year is correct, as will be seen by the marginal note.

Settlement of Fusly 1265	2437044
Deduct Remission	2128
Net	2434916
Settlement of Fusly 1266	2552804
Deduct Net Settlement of Fasly 1265	2434916
Net Increase of Fusly 1266	117888

In the comparison drawn by the Board the amount of Remissions Rupees 2128 entered in Column 9 of Statement No 11 of Fusly 1265 should have been deducted, which not being done, is the cause of the difference alluded to.

10 The instructions contained in the Board's Proceedings dated the 18th July 1858, No 2645, will be attended to, in entering in the current years statement the Jody of the Shrotriem and Enam Villages.

deceased in the famine of 1824 fostered a boy called Bol: legaudoo who has lived with her ever since.

Another claimant to the Enam is Nagee, the stepmother of Songadoo. She has a right to the Enam and lived with Atchy, the last holder.

One Paupegaudoo claims the Enam as a dis: tant relation of the deceased. this is not proved and the Villagers know nothing of about him as he only came to village 2 years since.

Recommended that the Enam enjoyed by the deceased amounting to Rupees 37-12-1 be continued in the name of Nagee stepmother of her husband, Singadoo, after her demise it may be resumed. as the fostered son is of a different caste from the deceased who was of Car: penter and the fostered son a Kooraba or Shepherd caste.

No Summuds Vca are forthcoming.

Polmarah Enam is entered original in the Cymash accounts in the name of Chawmireddy; in the Tarmary Ra: mareddy; and in the enamdy of Chawmireddy.

Dundaga Enam is entered in Cymash in the name of Vencatreddy and Chaw: miredy; in Tarmary Vencatreddy; and in Enamaty, Vencatasemreddy and Chawmireddy.

Guddateeroo Enam is entered in the three accounts in the name of Mamereddy.

It is not known when or by whom these Enams were granted nor who was the original grantee. for the legal esc: tortion to which the names of Chawmireddy and Vencatasemreddy or Vencatreddy.

It is known when or by whom these Enams were granted nor who was the original grantee. for the legal esc: tortion to which the names of Chawmireddy and Vencatasemreddy or Vencatreddy.

Polmarah Enam or Dundaga Enam tracing boundaries of a Village Dundaga Enam for the illegal esc: tortion to which the grantee had been subjected. Guddateeroo Enam for removing mounds of earth and making the soil fit for cultivation

Yarata Nickoloo, the last holder, aged 60 years died on the 27th February A.D. 1849.

She was the wife of Chaw: miredy and sister in law of Vencatasem reddy or Ven: catreddy.

Share enjoyed by the deceased 8-1-3
Ditto by Cav: nam Ven: catroydoo in gift for the last 14 years without Deed of gift - - 7 - - 1 - 9
8-3-0

The deceased has left no Heirs

Besides the Enam alluded to & the land held Dus vundum assessed at 4-4-10 & puttah lands at 15-5-4

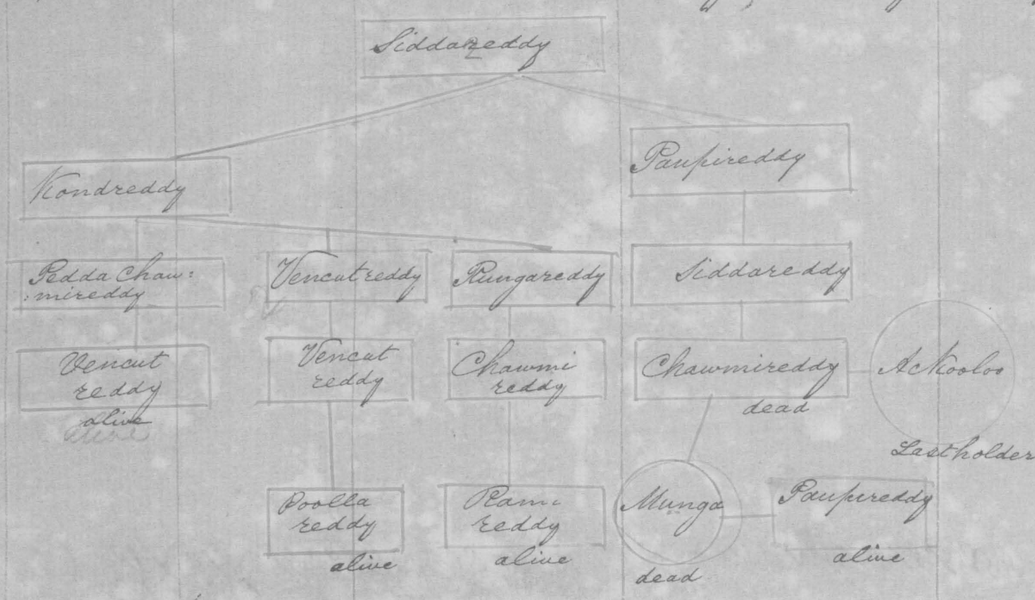

The deceased has left no near relatives the names of her husband and brotherinlaw are entered in the Enamaty Vca accounts.

The share of the Enam is claimed by Paupi: reddy Son in Law of the deceased It is for Government to decide whether they will allow Paupireddy to enjoy the Enam which came by his wife during his life, or resume it at once.

Recommended that the latter course be pursued.

The share held by the deceased has since her death been enjoyed by Vencatreddy, Poollareddy, and Ramireddy, who enjoy Separate shares.-

From the above it will be seen that the deceased bestowed a portion of the Enam upon Carnam Vencatroydoo who is still alive. Instructions are requested as to whether this Enam should be at once resumed or continued to Vencatroydoo during his life.

Granted in Charity

It is not known when or by whom these Enams were granted but it is said that one Kristnapah acquired the hereditary Enam 250 years ago from former Govt. No Sunnuds &c. are forthcoming. The Enam in Nossum is entered in Pymash, Tarwary and Enamaty accounts in the names of Injados Kristnappah and Chetumbaram whilst the Enam in Mookkamulla is entered in the said accounts in the name of Daranee Ramiah

Injados Aswurthum, the last holder, died on the 9th Visakha bahoola of the year Sadharana on 5th May 1850.

He was the great grand son of Kristnapah & daughters son of Daranee Ramiah.

Share enjoyed by the deceased in Nossum - - 53-1-2
in Mookkamulla 8-5-11
Share granted in gift by the deceased to one A. Sunjeeva Dhanooloo in virtue of an unstampt paper dated the 15th Tarteekasoodha of the year Sarvary or 9th November 1840. but under the enjoyment of the deceased in Nossum - - 7-1-7
Total 68-8-8

Share enjoyed by Curnum Sooryappah and his brothers son Atchiah in donation in Nossum 7-5-10
Ditto by ooppaladodium Soobbiah in donation in Nossum - - - - 8-3-6
Ditto by Salava Aswurda Rama deetchatooloo's brother Soobbiah and sons &c. in donation in Nossum 13-2-2
28-11-6
Total 97-4-2

The deceased has left no heirs of his body, but two cousins named Soobbiah aged 30 & Rudmanabiah aged 30

These possess no other means of subsistence

The last holder of the Enam Aswurthum died without heirs. The Enam is claimed by his 1st cousin Soobbiah on the grounds that although they lived separate they enjoyed the land and produce jointly Soobbiah further claims all the lands alienated by the deceased with the exception of Rs 7-5-10 in the Village of Nossum, granted in gift to the grandmother of Curnum Sooryappah by the ancestors of the deceased. With regard to Rupees 7-1-7 entered in Column 6 as in the enjoyment of the deceased though alienated by him to one A. Sunjeeva Dhanoolo in virtue of a deed of gift it appears that this land previous to its alienation was given on Cowle for 18 years to one Bolliah in liquidation of a debt in the year 1840. There is another Cowle deed forthcoming executed by the donee to the said Bolliah desiring him to restore the land at the expiration of the 1st Cowle. Thus the donee never enjoyed the produce of the land.

Instructions are requested with regard to the disposal of this portion of the Enam.

With regard to Rupees 7-5-10 situated in the village of Nossum it is proved by the villagers that it has been in the continued enjoyment of the present occupant Curnum Sooryappah and his nephews Atchiah for the last 26 years. as they have been in the enjoyment of it for a long period it may be continued to them.

21666 Fort St. George 28th December 1858

Ooppilada:
:dum Soobbiah enjoys the share assessed at Rupees 8-3-6/10 in virtue of unstamped deed of gift dated the 17th February 1840 executed to his father by the deceased - The present occupant having been in possession of it for 18 years recommended that it be continued to him during life and then be reported on

The remaining share amounting to Rupees 13-2-2 was granted in gift to the elder brother of the present occupant by a deed of gift on unstamped paper dated 6th July 1824 The deceased and his brother having been in possession of the land for nearly 34 years recommended it be continued to them -

As above shown Soobbiah is entitled by hereditary right to succeed the deceased - Recommended that the share of the Enam enjoyed by the deceased be continued to him -

Pullagattoo Enam in the Village of Chin: :na Comurla dry 21 21 2 47 1 1

It is not known when or by whom this Enam was granted but it is said that one Boodda Reddy acquired the same during the Mayana Govern: :ment for erecting a Village called Bood: :dareddypully which subsequently fell into ruins previous to the Pymash.

Granted in Charity for constructing a Vil: :lage.

Gopoola yellummah the last hol: :der aged 70 years, died on the 10th Jasta Soodda of the year Ratchasa or 26th May 1855

Her rela: :tionship with persons entered in the accounts is un: Known.

Share enjoyed by the de: :ceased - - - 5-14-2
Others enjoyment - - - 41-2-11
47-1-1

The deceased has left no heirs-

The share of the Enam of the de: :ceased is claimed by Goorroo: :vuppah No 16, Goo: :rummah No 12 Poollegau: :doo No 19 and Poollareddy No 20 on the ground that on the demise of Nagummah No 8 their ancestors claimed the Enam. Her daughter Yel: :lummah, the last holder, filed a suit in Court for the recovery of the land. They all entered into an agreement, that, No 15. the deceased should enjoy the Enam during her life, and on her demise claimants should succeed A. Rayeenamah was filed in the Court in Suit No 1 of 1825. They produced a receipt dated 1st September 1848 granted by deceased to Vencatah No 17 for the costs of Court proceedings paid by the latter to the former in which the circumstances above stated are entered. The Claimant are devided and enjoy separate shares in the original Enam. This receipt however is dated after the proclamation prohibiting the alienation of Enams was promulgated. The deceased has left no heirs and the Enam was by lineal descent Recommended that the share of the enam amounting to Rupees 5-14-2. be resumed.

or Reddy Enam and in the Enamaty ac: :counts it is entered as Barabaloty woolega Enam or service Enam in the names of Maleredy Balavencata and Vallamboy and also as Pullagattoo Enam in the names of 7 reddies.

Coolecoonta Taluk				
Bhatavelly Enam				
in Timmana:				
yampet	a	283	9 3 10	
a Boyalatalapatty		1 30 12	15 12 3	
a Woppaloor	a	255	12 12 6	
a Goodipaud		5 32 -	9 4 9	
a Ety Kala		2 18 1	2 9 2	
Total —		11 20 5	49 12 6	

It is said that these Enams were acquired in Charity - Royasam - Soobbanachar: - loo the last holder aged 30 years died on the 2nd Ms: - sueeja Saloshe of the Years Sadharana or 23rd October 1850 -

His fathers Sister was the daughter in law of Kristnachar: - loo and wife of Ramacharloo -

Godavarumm: - mah was the wife of Krist: - nacharloo -

And See: - tummah was the deceased's aunt -

The Enams entered in Column 2 amounting to Rupees 49 Rs 12 - and Pice 6 had been enjoyed by the deceased -

The deceased has left no heirs -

The Enam in question came to Ennakamm: - mah from her husband She gave it in gift to her Sis: - ther Sasha: - charloo in 1807 who died leaving a son Sob: - banacharry the last holder he never having been married has left no heirs - The Enam in question is claimed by Beema Row, Cousin of the deceased on the ground that he was joint with the deceased and performed his funeral rites - This plea does not stand good as the family of the Original grantee is extinct and also the lineal Descendant of him to whom it was given in gift has also become extinct -

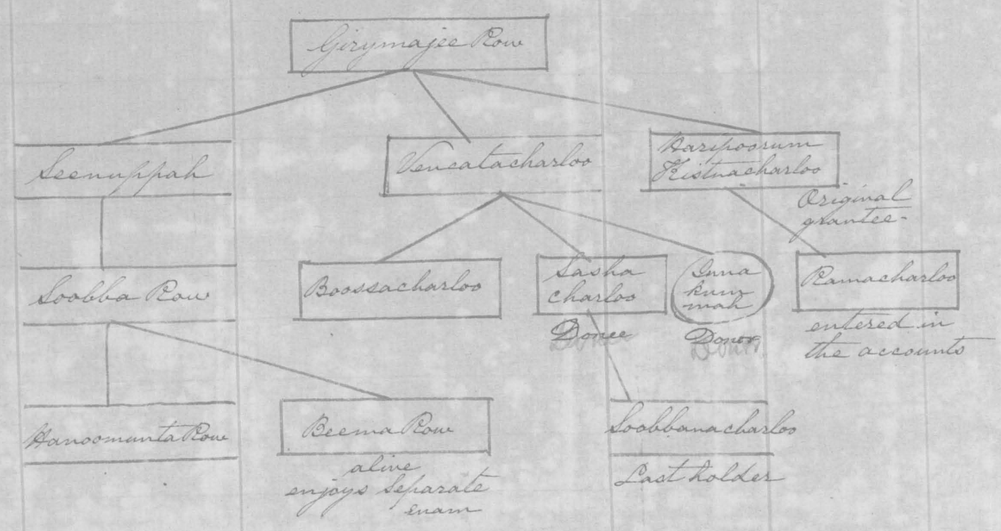

Recommended that the Enam enjoyed by the deceased amounting to Rupees 49 - 12 - 6 be resumed -

Krestnacharloo whilst those in Goodepaud and Ety Kala are entered in both the accounts in the names of Vyapury Seetummah and Godavarummah respectively -

No 1 An unstamped deed of gift of the Enams in the abovementioned 5 Villages granted by Janakammah daughter in law of the Original grantee to her brother Royasam Sashacharloo, dated the 15th Visaka Soodda of the Year Parabava or 21st May 1807 -

1. Original Sakeed dated the 24th July 1808 signed by the Tahsildar to the reddies and Carnams of Timmanayanepat, stating that as Shashacharry has produced a document to the effect that the Enam lands under the enjoyment of the deceased, Janakummah were granted to him in donation contained the lands (if they are Cadeem and entered in her name) to the said Sashacharry and file the document in question in the records

	Total		39	27½		87	12	9	

Granted in Charity

Bitchapaty Veerabadriah (the last holder) aged 60 years died on the 8th Ashadha Soodda of the year Eramadeecha or 11th July 1853.

The deceased on the 16th December 1842 granted the whole Enam in gift to his wifes Sisters Son Rachiah and wifes sisters grandson Siddalingadoo and executed a deed on stamped paper.

The deceased has left no heirs.

The deceased was an old man and had no one to take care of him He took his wifes sisters Son and grand son to live with him and made over to them the whole Enam by a deed of gift executed upon Stamped paper dated the 16th December 1842. Recommended that the enam be continued to the parties during their lives and he reported on at their demise as Government may at once resume the Enam on the grounds that the deceased enjoyed it up to his demise and had no right to bestow it on a different family. Deceased and the two Lances lived together.

+ is herewith forwarded.

He was the son of Bitchapaty Veeriah.

He relationship with Jungum gungappah is unknown.

No 153

To J. D. Sim Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir,

Bd No 5794
From the Collr of
Cuddapah —

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated the 8th Instant No 4554 & to state in reply that on the 13th July last order was sent to the Talook to place a Peon in temporary charge of the Travellers Bungalow at Goorumcondah in Conformity with the instructions contained in the Proceedings of the Board of Revenue of the 9th idem No 2355.

2 On receipt of the Extract Minutes of Consultation dated the 8th October 1858 No 1360 a Sumeer was appointed to the said Bungalow on the 21st of that Month — an application was made to the officer Commanding the Ceded Districts on the 15th idem for a Pensioned Sepoy to be attached to the Bungalow & on the 20th November

the

Fort St. George 28th December 1858

the officer Commanding Cuddapah appointed a Sepoy and forwarded him to me - This Sepoy having applied for 15 days leave on account of the marriage of his daughter it was granted & he must have ere this taken Charge of the Bungalow -

3 From the above explanation the Board will see that from July last the months in which a Palook Peon was nominated the District Engineer may be considered to have been relieved from the Charge of the Travellers Bungalow at Goorumcondah & I cannot perceive any ostensible grounds for a Reference on the part of the Chief Engineer on the subject - If a Complaint had Reached him that no Establishment had been entertained to the Bungalow in question the proper Course would have been to have first ascertained the fact from me whose duty it was to carry out the orders of Government -

Cuddapah Collrs Office on Circuit at Gummulmudgoo 18th December 1858 -

(Signed) Mc-Murray
Collector

Fort St. George 28th December 1858.

No. 154

To J. D. Sim Esqr.
Secretary to the
Board of Revenue

B. R. 5823
From the Coll. of Cuddapah

Sir,

Fort St. George

As directed in Para 6 of Extract Minutes of Consultation under date the 8th Ultimo No. 724, I have the honor to submit thro the Board of Revenue my opinion upon Mr. Brett's Report to Government on the Treasury & English Department of the Collectors Establishment of Cuddapah -

2 In Para 16 of Mr. Brett's Report that gentleman proposes to separate the present Treasury establishment into two divisions one to be under the Cash Keeper the other to be under the Native Accountant - To this arrangement I have no objection to offer -

3 In the above Para it is proposed that the Salary of the Native Accountant be Reduced from 35 to 30 Rupees - The Head goomastah of the Treasury Department has been nominated to perform the duty of the Native Accountant - His pay as Head goomastah is Rupees 35 which it is proposed to be Reduced on

on his demise or Removal - Under the new Rules he will have to write the Day Book; Receipts & disbursements both in the Cash & transfer department to enter all Cash orders in his Books & to keep the Book marked C. He has also to exam: -ine the Talook Accounts Current. Thus the duty is shewn to be a Responsible one & the pay ought to be in accordance with it - It is advisable that those attached to the Account Department should remain in it & for this purpose, the allowances ought to be liberal - The Native Accountant will have more Responsibility and more to do than if he held the office of Head Goomastah in the Treasury & the natural Consequence will be the Native Accountant with more Responsibility & less salary will do all he can to be Removed to a Talook Sheristadar or some other situa: -tion where the allowances are higher & a better oppor: -tunity of promotion presents itself - The frequent Re: -moval of a Native Accountant when he has become thoroughly acquainted with the nature of the duty and can at once carry out what may be required of him will be very inconvenient while a new man until

until he learns the method of keeping accounts, he will be constantly making mistakes & he again will desire to leave the office for promotion as soon as it can be obtained the more frequent the changes in that office the greater will be the inconvenience - Should the pay be liberal not less than that of a Talook Sheristadar Rupees 35 a Comparatively young man might be nominated to the appointment & informed that he was expected to Remain in that Department for some time & as he early arrived at a liberal Salary he should not consider it hard if others get their promotion to the higher grades in the Revenue Department before him they having for a length of time held Smaller situations or Salaries - If I mistake not this argument was made use of by the Governor general when the Accountant General & Civil Auditors Departments were separated from others and it was Ruled that only those who had risen in the office of the former should hold situations in it or that of the Civil auditor - This argument applies equally

to

to the situation of Native Accountant & I would urge the advisability of retaining the Salary of the Native Accountant at the same rate it now is Rs. 35 per Mensem the paultry saving of Rs. 5 per Mensem ought not to be Considered & I do maintain that a Native holding that office & Rank cannot support his family as he ought to do on less. —

4 In Para 17 Mr. Brooke states the Cash Keepers Department will have little to do beyond Keeping the few accounts he enumerated in the Margin & adds that one Goomastah under the Cash Keeper will be sufficient to keep the few Books required of him under the new System & Recommends that the Salary be reduced from Rs. 21 to Rs. 15 in Para 18 which will be Remarked on below. It is much to be Regretted that Mr. Brooke did not enquire of the Cash Keeper what that Goomastah had to do & he would have learned that besides Keeping the accounts referred to. He has to perform a large amount of Miscellaneous business Connected with the Treasury which has been entirely overlooked. I shall merely mention some

some 15 or 16 items which must be done independant of those above Referred to —

1 To write at the bottom of each Remittance list received from each Talook shewing the amount —

2 To prepare accounts shewing the despatch of Remittances for the information of the Collector to enable him to trace any delay that may take place —

3 To prepare monthly list of Peons attendant in the Treasury with the deductions from the salary as Should any take place —

4 To write fair Copies of arrears to the Collector and enter in the Books. —

5 To write answers to the Collectors Talbeds and Memorandas of Replies to those of the different Departments under the Collector & enter them in the Books —

6 To write Memorandas to be sent with the different Sums sent from the Treasury to the Civil Court Sub Court, Moonsiffs Court to the Overseers, Supervisors and others of the Public Works Department frequently to the Tahsildars as well as to the Cantonment &c. Railway Engineers &c. —

7 Receipts in Duplicate to be taken from all Pensioners paid at the Treasury. From parties who present

Fort St. George 28th December 1858.

present Certificate from the Courts for the Refunds of Stamps Duty and owners of Government Promissory Notes who draw Interest at the Treasury -

8 To Keep a Register of all Pensions paid from the Treasury -

9 To Keep arms and ammunition account -

10 To Keep List of Skins of Wild animals -

11 To Keep Postage Labels Account -

12 To Register Cash orders & Keep them in a Book -

13 When References are made it frequently happens that the accounts and Correspondence should be Searched for several years past & supply the Requisite information to the Collector, Head Secretariat or the Head Accountant as the Case may be -

14 To Keep a Diary of all that takes place in the Treasury -

5 These are a few of the Miscellaneous duties which the Cash Keepers Gomastahs are Called upon to perform and I would Submissively beg to add that one Gomastah is not Sufficient for the performance of the Work - two at least would be Required - There is no provision for sickness made should the Cash Keepers Gomastahs take

Fort St. George 28th December 1858

take leave as he is entitled to do for one Months in the year or have the misfortune to be struck down with Sickness there is no other to take his duty the Consequence is - the Treasury duties are at a stand Still to the great inconvenience of Government & I would here beg to make a few Remarks upon the Reduction of pay among the Public Servants It is my humble opinion that they are under instead of being over paid & many experience a difficulty in supporting their families Mr. Brooke Recommends that the Salary of the 3rd Gomastah should be Reduced from Rs. 21 to Rs. 15 this I Strongly object to particularly taking into Consideration the work he has to perform & the very high rate at which Common articles of food are procurable - It may be added that this Reduction is to assimilate the pay to that of Bengal - I will grant that it is so. but before the assimilation takes place it ought to be Considered whether Rupee 15 will go as far in the purchase of food in Madras as in Bengal, I am inclined to believe it will be nothing like it - I have heard that Wheat & Bengal grain are the Chief articles of

food

Fort St George 28th December 1858

food in Bengal & that from 80 to 120 Measures can be obtained for the Rupee - In this part of the Country seldom more than 12 to 16 can be obtained at the present time first sort Rice has fallen to 8 Measures the Rupee - To the poorer classes, rice though grown in the Country is an article of luxury instead of a daily article of food. I believe it is allowed that household Servants can be obtained in Bengal for half the sum paid in Madras - the cause of this is, the Comparative cheapness of food between the two Presidencies - I would earnestly press upon Government the advisability of not reducing the pay of the lower Servants - if reduction be required Commence at the head & cut downwards not with those who can least afford it - I sincerely trust that Government will not approve of the proposals adverted to in Para 19 of Mr Brebner Report -

In Para 20 Mr Brebner has made a number of mistakes which he would not have been led into had he made a little more enquiry - Mr Brebner urges that the 6th "Goomastah who has been deputed to aid the Sheristadar since the Preaudit System Commenced in preparing the Baramahl Contingent & Sandermahl accounts should be dismissed - The services of the Goomastah cannot be well spared - he has to keep the Baramahls of

Fort St George 28th December 1858

of the 13 Talooks in which nearly every day there is some new change one goes on leave and a Substitute is placed in his room - some are sick & unable to perform duty - Peons are changed so are the Carkoons and deductions must be made from their salaries for entering in the Baramahl Sent Monthly to the Civil Auditor these must all be kept with the greatest care & the Contingent accounts of the different departments must be scrutinized & prepared by him, after which it is examined by the Head or Hail Sheristadars besides keeping the Permanent advance Fund Book and should these duties not Completely occupy his time his Services are employed in other duties - he is by no means an idle servant - Mr Brebner adds if H. Christmahroo still wants assistance he might now as probably be able to procure it in his own department - The Board of Revenue and Government are aware that the Establishment of Cuddapah is smaller than any other district in the Presidency and the Goomastahs of the Sheristas Cutcherry are as few in number as can possibly be to carry on the work - They are engaged for several Months at the annual Settlement as well as performing the usual Routine duties and while at the Hoozoor Station in preparing the required accounts for

for the annual Report they have as much work as they can perform and are but ill indifferently paid for what they do. H. Pristnarow can look for no aid from the Sheristadars Department.

8 Mr. Brooks adds that the preparation of the half yearly Statements of the prospective the Regular and the Comparative Estimates have been transferred from the Sheristas Department to the Native Accountant Where or when this transfer took place I know not but if it has I will say that those Statements will never be forthcoming if prepared by the Native Accountant for the simple reason the Native Accountant has no data on which to form his Cultivations the whole of this information is to be obtained not from the Records of the Native Accountant but from the Monthly Cultivation Reports Season Reports Jamabundy Accounts, & Grain Reports which are only in the sheristahs Cutcherry and are entirely foreign to the duty of the Native Accountant. By the Circular of the Accountant General. The Native Accountant is only to keep the books referred to in the Circular, viz such as day Books Daily Abstract and Check the talook accounts Current.

he

he has nothing to do whatever with Cultivation or Season Reports & cannot therefore possibly prepare the Statements referred to by Mr. Brooks in Para 20.

9 In the Sheristas Department only can these accounts be prepared and this fact removes one of the chief objection raised by Mr. Brooks for continuing the service of the 6th Goomastahs.

10 Mr. Brooks after referring to the English Establishment in Paras 23, 24, 25, and 26 alludes to a Translator and adds had Cuddapah in like manner a Translator on 70 Rupees what is now nobody's work and therefore some time left undone &c. Had that Gentleman made a little more enquiry he would have discovered that upon the 2d Writer devolve the particular duties of translation and the Board are quite aware that the translation & preparation of Bhaturaitty cases has been a heavy tax upon the English Department. I presume from the

Fort St George 28th December 1858

the Extract above Referred to, that Mr. Brooks alludes to certain Circulars of the Accountant General not having been immediately transl= =ated for the use of the Sheristadars & Cash Departments - This however, cannot be attributed to the Translators as the Circulars of the Accountant General for the introduction of the new systems of Accounts which were to be immed= =diately carried into effect not having been distinctly understood - The Consequence was a Reference to the Accountant General involving about 17 Replies which were only Received either on the day of Mr. Brooks arrival at the Station or that previous to it & Consequently the Translations could not have been prepared - The other translations Required have been prepared as speedily as possible -

11 The Scale of the present English Department was submitted for the Consideration of the Governor General of India in 1852 & Sanctioned - I would therefore beg to Recommend that it be allowed to Remain as it is - What Mr. Brooks alludes to by saying what is nobodys work & some times left undone,

Fort St George 28th December 1858.

undone, I am at a loss to Conjecture - There is no such thing in the English Department, as being nobodys duty - In the different offices at Madras, the Secretariat the Board of Revenue Public Works Department, there is a Manager in each into whose hands the different papers Required to be prepared or Copied are placed & he is Responsible for their due performance - In like manner in the English Department of the Zillahs, the Head Writer or Clerk Represents the Manager & he distributes the work to be done to his Subordinates as he Considers best & is held Responsible for the punctuality of its performance & its Correct= =ness so that every description of duty Required by the Department is assigned to a particular individual by the Head Clerk every morning -

12 With Regard to para 28 of Mr. Brooks's Report the above Remarks will be a sufficient Refutation to the Suggestions Conveyed by that Gentleman -

13 In Conclusion I would beg to bring under the serious Consideration of the Board before any attempt is made to Reduce the Salaries of the Subor= =dinates of this Establishment, to take under their Special

Fort St George 28th December 1858

special Consideration the enormous prices to which the necessaries of life required to a Hindoo have risen Rice is one hundred per Cent dearer than it used to be being now 8 measures per Rupee & formerly 16 Jonna is now 18 to 20 measures & formerly 35 to 40 other Cereals & pulse of every des: -cription have risen proportionately & it can hardly be supposed that the public Servants can per: -form their duties effectually with themselves badly fed & a starving family at home -

14 I would therefore humbly suggest that before the petty Reduc: -tions proposed by Mr. Brees Esq are sanctioned the Board will give the above suggestions their deep Consideration particularly as Public Servants are prohibited from entering into any Commer: -cial enterprises to better their means.

No 155

To I. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St George

Sir

B No 5822
From the Collector of Cuddapah ——

I have the honor to enclose Copy of a letter received from the District Engineer of Cuddapah for the Consideration of Government & the Board of Revenue which appears to me to be written in a style to say the least of it unbecoming -

2 The Notice put up in the Public Bun: -galows alluded to by Lieutenant Stewart is Copy of the Extract Minutes of Consultation dated 4th August No 781 Received with the Proceedings of the Board of Revenue and bearing date 17th August 1857 No 2748 which was printed and hung up in the Public Bungalows for the information of Travellers in General, without any inten: -tion on my part of giving offence - In giving it publicity I

I believe I have only carried out the wishes of Government and the Board of Revenue - as far as I can recollect, the Notice was put up in the Public Bungalows prior to Lieutenant Stewarts arrival in the District and he has now been in it for nearly one year without taking any offence at it why he has done so at present I am at a loss to Conjecture -

3 As I understand it the letter of Lieutenant Stewart is intended for a personal attack upon myself as if I had issued any orders on the subject complained of and had singled out the Public Works Department, the Board are aware that

this is not the case and I was not authorized to add or to take away from the Minutes of Consultation sent me by the Board - If the Railway Department was excluded it was no fault of mine as it was not included in the Minutes of Consultation sent to me -

4 The Board will perceive that the District Engineer has twice declared his determination to set the instructions of Government at defiance, although he has received orders on the subject from his immediate superior, the Chief Engineer, I could hardly have believed that any officer would have dared to express in such set terms his determination to set at nought the orders of the Right Honorable the Governor in Council

Council as Lieutenant Stewart has done - It is in vain for him to issue instructions to his subordinates when he shows them that he himself, sets at defiance the orders of Government. To my certain knowledge he occupied two of the three rooms at the Gorramendalo pulaw upstairs, after it had been Repaired by Government as a Public Bungalow and the whole of the underportion for a length of time, and in a former letter addressed to me he mentioned it was his intention to pass a Considerable time there -

5 If I understand the Government intention correctly it is they have no objection to a public officer taking advantage of a Bungalow when empty for a night or day in passing but such officer ought not to Remain in it for any length of time or as it has in effect, while he draws Extra allowance - Should I be mistaken in this I shall feel obliged by the Board informing me of it -

6 I shall also feel obliged by the Board informing me of the wishes of Government as early as convenient -

Collr

No 991 of 1858/59. Encl

To

M Murray Esqre
Collector of Cuddapah

Sir,

I have the honor to draw your attention to a printed paper bearing your signature which I have seen suspended in several of the Public Bungalows in this District. Its object is to warn officers of this Department and of the Telegraph Department from making use of those buildings

2 As you of course are aware no Telegraph officer has ever been employed in this District so that the only object for giving so prominent a position to the paper in question must have been to prevent the officers of this Department from making use of the Bungalows.

3 The orders of Government on this Subject have however been circulated by the Chief Engineer to the whole of this Department and I think you will admit that the method taken by you for giving further publicity to the or-

these orders was not only unnecessary but is open to objections.—

4th I think that a more Satisfactory and Cordial Course and one Certainly as likely to ensure Success would have been to have Communicated with the Head of this Department and to have requested him to Circulate the prohibition among his Subordinates. The very prominent position which you have given to your Memorandum never has prevented and never will prevent me from making use of the Bungalows when I find it expedient to do so. although on one occasion the notice was thrust under my nose in a very disagreeable manner by the person in charge of the Rachotee Bungalow. Surely this could never have been your intention nor the intention of Government.

5th I think it is scarcely fair that in this District the Members of the Department of Public Works should be singled out from among all those to whom the habitual use of the

travellers

travellers Bungalows is prohibited. It would certainly not be a difficult task for me to prove that the officers of the Revenue Department have been in the habit of using these Buildings at least as much as the officers of this Department. If the Memorandum is to be Continued I would request that the Revenue Department may be included therein. Members of it are prohibited equally with Members of this Department from making unnecessary use of the Bungalows.

6th Again I would point out that no notice of the Railway officers has been taken in the Memorandum in question. although it is notoriously the case that almost every Bungalow from Appicapully to Baulapully has been occupied for Months past by some one or other among them. If the prohibition is to be continued in its present public position, I request that this Department may also be inserted therein. I think it is unfair that the Department of Public Works should be singled out for public notice as if its Members were in the habit which they certainly are not of constantly making

use

use of the Bungalows.

7 I feel certain that you will admit the justice of these remarks and I therefore request that you will be so good as to order the papers in question to be removed from the walls of the Bungalows - should you wish it I will again call the attention of all my subordinates to the fact that they are prohibited from making unnecessary use of the Bungalows.

8 I request that you will be so good as to inform me whether or not you adopt my suggestions - In the event of your refusing to do so - as I do not wish it to be thought by you or by any one else that I make use of these Buildings in a stealthy or an illegal manner I feel myself bound to inform you with reference to the latter portion of your notice in question that I am now making use of the Public Bungalow at Shettewarpully and that shall always do so when I find it expedient.

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated the 14th April 1856 No 1114 forwarding Extract Minutes of Consultation dated the 3d Idem and Requesting Collectors to state without Reference to previous Reports on the same subject, the Rules under which the felling of timber and fuel in the Government forests is carried on in their Districts & and secondly to propose such Regulations as they might think it practicable to introduce into their respective Districts with the view of placing the forests under proper control, & to the for checking waste and Securing to the state a suitable Revenue from the forest lands.

2 The forest lands in this District have not been treated on an uniform System

From

B No 2403.
From the Collr of Salem

Fort Fulgeorge 28th December 1858

From an early period a taxe has been levied on trees and bamboos in the Jungle tracts of the Denkenecottah Talook up to Fusly 1263 three Jungle tracts were rented out - The prescribed Rates while the taxes were then formed were as follows -

For a Cart load of Rough timber ——— 8 ——
For a Do of Planks ——— " — 12 — "
For beams of a superior kind dragged on the ground by a pair of bullocks — " — 2 — "
For beams of an inferior sort - Do — " — 1 — "
For an ass load of Split bamboos — " — " — 8
For one Coolly carrying wood or bamboos to the market for sale ——— " — " — 2"
For one Wodders Cart ——— " — " — 8
Annual taxe on every basket makers knife - - } 1 — 8 — "

3 In Fusly 1264 these tracts were brought under the direct management of the Collector

The

Fort Fulgeorge 28th December 1858

The Rates then introduced Correspond with those previously levied by the Renters with this difference that the taxe on basket makers knives & the taxe on Wodders Carts have been discontinued -

4 Liberties in the Southern parts of the District certain tracts of land: Two Jungle were formerly formed, but in the Course of years much of the Jungle land was Reclaimed for Cultivation and the farms were so Reduced in value that in Fusly 1263 they were altogether abandoned. No Rules have ever been prescribed for preventing persons from felling trees indiscriminately -

5 A full account of the several forest tracts in this District was given in my letter to the Board dated the 26th March 1856 No 37. -

In

Fort St. George 28th December 1858

6 In respect to the 2d point referred to by the Board I assume that no opinion is required from me on that part of the subject now that the forests have been placed under the superintendence of a Conservator. The Board will, however, find if necessary that I have fully discussed the same question in the letter above quoted - As that letter embraces the entire subject, I feel at liberty to Refer the Board to it, notwithstanding the instructions given in the Proceedings now under Reply to the effect that References to previous Reports on the same subject are to be avoided -

7 In submitting this Reply I beg to state that a Report would have been made at an earlier date if I had not erroneously supposed that the subject was one which had been handed over to the Conservator of Forests -

No 162

To J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George

B/ No 5044
From the Collector of Salem

Sir,

With reference to the Board's Proceedings dated the 9th May 1857 No 1495, forwarding Petition No 810 of 1857, presented to the Board of Revenue by Chinna Sashaungar of the Giddugamil Village, in the Lenkerrydroog Talook, and desiring to know whether the tanks of Chenganapooram and achampully are in good repair, to what ecxtent they are dependent for their supply of water upon the stream of which the petitioner has made use, and whether the cultivations of the land lying to the North of the petitioners tank were formerly charged with teermah jaudy; I have the honor to forward copy of a report made to me on the subject of the above petition by the Acting Sub Collector, Mr Smith, with the plan which accompanied it -

dated the 18th Augt 1858 No 78

It

2 It appears from this report that the petitioner Sashiengar constructed the tank in question in Fusly 1260, & that from Fusly 1261 the lands brought under Nunjah cultivation were charged with an extra cess. The reason why the extra cess was imposed is given in Mr. Smith's letter.

3 With regard to the 1st. question contained in the Board's Proceedings, I beg to state that the new tank built by the petitioner intercepts two streams from flowing to two old ruined tanks called Chinnayarce, and Poodoocolum, and thence to the achampully tank in the Congan: poorum mootah. There is no tank called the Chenganapoorum tank. The achanapully tank is in good repair, and the Mootadar, it appears, has stated before the Tahsildar that his tank has sustained no loss of water from the construction of the petitioners tank. This moota: dar's tank is still fed by two large streams.

4 The tanks of Chinna ary and

Collr's & Salem Lr. dd. 24th March 1860 No. 1300

and Poodoocolum are old ruined tanks which were breached before the Survey. It appears that the repairs of these tanks were undertaken in Fusly 1235; and that before the repairs were completed, new freshes came in and destroyed the tanks.

5 With regard to the question, whether the cultivators of the land lying to the North of the petitioner's tank were formerly charged with Teermajasty, it appears that the lands to the North of the tank in question were never cultivated with Nunjay, or charged with teermajasty before the new tank was built. These lands have since the construction of the new tank been cultivated with Nunjah.

6 With regard to the last question, it appears that the petitioner never ob: tained the permission of the authorities for constructing the tank, and that no teerma were Entered into.

Under

7 Under the circumstances exc=
=plained in Para 11 of Mr Smiths letter, I concur with him in his view, and re=
=commend that the petitioners lands be charged with Poonjay Teerwah, till the old tanks below shall be repaired. The petitioner will of course be required to pay poonjah teerwah for the land occupied for the bed of the tank. The sacrifice of Revenue from remitting Teerwah jausty on petitioners lands amounts only to 5 Rupees a year.

8 With regard to the tree tax which the petitioner alleges was imposed on the Palmyrah trees planted by him in his putcut lands, it appears that the trees were not taxed up to Fusly 1264. Up to that time they had not come to maturity. In Fusly 1265 they were charged with the tree tax, according to the existing practice of the District. On the latter point I beg to refer the Board to para 8 of my letter dated the

Collector of Salem

the 14th October 1858 No 148 relating to the tax on Palmyra trees in putcut lands, and to the practice which is still ob=
=served in this District in that case.

Salem
Collectors Office
30th October 1858

(Signed) H. A. Brett
Collector

Encl 1
To H. A. Brett Esqre
Collector of Salem

Sir,

Referring to your letters of the 20th May 1857, and 26th January 1858, for=
=warding Petitions Nos 810 and 3811 of 1857 presented to the Board of Revenue by Chinna Sashiengar of Lenkerrydroog Taloork, together with a copy of an Extract from the proceedings of the Board of Revenue dated 9th May 1857; I have the honor to forward you a report after due enquiry upon the several points adverted to in the Board's proceedings.

x Herewith re=
=turned

2 The Petitioner states in his petition that Nunjah Teerwah was fixed upon

upon his Poonjah land converted into Nunjah from the irrigation of the Tank, constructed at his own expense in the Amany Village of Gedigavel in the Talook of Sentherydroog and that the Palmyra Trees planted by him in his putcut Poonjah lands were taxed.

3 It appears that when the Petitioner addressed you about nunjah teerwah being fixed upon his lands situated by the use of the water of the Tank constructed by him, certain enquiries were made on the matter in 1854 that the time of the Summabundy of fusly 1264 Nunjah teerwah was permanently fixed by you upon the lands. An endorsement also appears to have been given by you upon Sashiengar's petition bearing No. 3104 dated 7th January 1857, confirming your order in fixing the Nunjah tax.

4 From your settlement book of fusly 1264 and from the endorsement upon the petition above mentioned, I observe that the ground you assigned for fixing nunjah teerwah upon the petitioners

land

land were as follow.

1st That the Petitioner by constructing a new Tank obstructed the Jungle stream supplying the Achumpully Tank in the Saury Mootah of Bonjanapooram

2dly That by the construction of the new tank the lands lying to the north of it which were formerly cultivated with Nunjah Crops by the water of the stream lost a proper supply of water.

3dly That the ruined Tanks of Poodoo-colum and Seroocolum if brought under repair would not get their usual supply of water owing to the construction of the new Tank across the Jungle stream.

5 Dissatisfied with your orders the Petitioner appears to have appealed to the Board and get their instructions to report upon the matter. On the receipt of the Board's orders calling for the information now supplied, Takeed were sent to the Talook Tahsildar from this Office

6

to make the required enquiries regarding certain points. From the report received from the Tahsildar and on a reference to the records of my office, it appears that in the year 1842 the petitioner addressed the then Sub Collector and the Tahsildar of the taluk to permit him to construct the Tank and to bring the lands below it under munjah Cultivation paying a poonjah teerwah and binding himself to pay the rent of the land which may be taken up for the site of the tank. Upon this the Tahsildar appears to have inspected the localities and framed an estimate for the construction of the Tank but the records do not show that permission was granted by the Sub Collector to construct the tank.

6 The petitioner is said to have spent about 700 Rupees in constructing the Tank. The Tank was built in Fusly 1260 and in the following fusly the lands below it were brought under cultivation - the small amount of Munjah teerwah levied

levied above the usual poonjah rate yearly is shown below.

Fusly	1261	2 - 1 - 2
"	1262	2 - 1 - 2
	1263	4 - 10 - 9
	1265	1 - 2 - 7
	1266	5 - 11 - 4
	1267	5 - 11 - 4
		21 - 4 - 4

7 The sum of Rupees 2-9 being the teerwah of a Poonjah land measuring acres 3.264 taken up for the site of the petitioners Tank was remitted by the Circar from fusly 1261.

8 Mr. Grant the Sub Collector is said to have inspected the localities during his stay in the Senkerrydroog taluk but left the District before making a report on the subject. From an examination of the map produced by the petitioner and the one furnished by the Tahsildar. I find that the Achumputty Tank situated at a distance of some miles in the Jaury Mootah

Moottah of Cangomapooram has several supplying streams and that it does not depend upon the stream feeding the new tank constructed by the petitioner. The Moottadar of Congomapooram states that he has nothing to say against the Petitioners proceedings in having built the Tank and that none of the royets have complained on the subject.

9 The lands lying to the North of the petitioners Tank are not included in the Nunja Ayacut of the village and before the construction of the tank they were always cultivated with Poonjah crop but by the retention of water in the Tank a spring arose in the Jungle stream below it which enabled the Ryots holding the lands marked A in the plan to bring the same under nunjah Cultivation the amount of Nunjah tirvah levied on thereon above the poonjah rate is shown

below

below.

Fusly	1261	" 11	3
	1262	4 . 13 .	8
	1263	10 . 10 .	5
	1264	9 . 6 .	11
	1265	2 . 1 .	2
	1266	2 . 1	2
		29 . 12 .	7

In some unfavorable years when there was a scanty supply of water in the Tank the water in the spring was also scanty and consequently the nunjah cultivation of the said poonjah lands declined.

10. From the records it appears that tho' the Petitioner repeatedly addressed a former Sub Collector to allow him to construct the Tank that no orders of any kind were given him about his request and that the petitioner built the tank without permission.

" It is very evident from my own personal inspection that the petitioners tank & also a bund built a cross a Jungle stream as per map does obstruct the water flowing into the Poodoocolum Tank which however has been out of repair for a great number of years, I would therefore

+ B in the Map

therefore strongly recommend that the Tank and a bund a cross the Jungle stream be allowed to remain and that Poonjah Tax only should be levied with the understanding that if the Podoocolum tank is repaired the bund must be removed from the Jungle stream and petitioners lands be then brought under munjah assessment. The petitioner also must pay poonjah tax for the ground taken up for the construction of the tank.

12 With regard to the tax levied upon the Palmyra trees planted by the petitioner, I beg to state that according to the practice now obtaining in the District a tax of Rupees 6-0-3 was fixed in fusly 1265 upon his trees.

13 The records connected with the case are herewith forwarded.

No. 174.

To,

J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George.

Bd. No. 5028.

From the Collector of Salem.

Sir

With reference to Paras 8 and 9 of Extract from the Minutes of Consultation, under date the 11th April 1856, No. 372, I have the honor to submit certain Statements showing the total extent of arable lands in the Salem District, under the two heads Poonjah and Munjah, arranged in classes according to certain rates of assessment, with the Cultivation and the waste in each class. A list of the Statements is annexed to this Report.

2. In the Minutes of Consultation above referred to, the Government took into consideration an Extract from the Proceedings of the Board of Revenue, dated the 31st January 1856, No. 319, submitting with the Board's observations, certain reports and letters from my Office, relative to the high rates of assessment on the Munjah and Poonjah lands of the Salem

Salem District, and detailing the measures of relief which the Board recommended for reduction.

3. The Government remarked that they were unable to give their assent to the Board's plan for reducing the assessment "in the absence of the detailed statistical information necessary both to prove its necessity, and to display its probable financial effect."

4. The Statements now submitted have been prepared according to the forms referred to in para 9 of the above Minutes of Consultation, tho', for reasons which will be explained, the number of them is much greater than what the Government thought would be required.

5. The Salem District at present consists of 14 Talooks, of which 8 are comprised in the Talaghaut Division, 4 in the Baramahl Division, and 2 in the Balaghaut Division. When the original Survey was made the District, which did not at that time include the Balaghaut Talooks, was divided into 3 Divisions the

the Northern or Graham's, the centre or Munro's, and the Southern or McLeod's.

6. The Soyjal Statements for the 12 Talooks forming the Talaghaut and the Baramahl Divisions, are 26 in number: viz. 12 for 12 Talooks, a for the Jaghier of Mullapady, b a Division of the Kistnagherry Talook, c for parts of Talooks which were not included as entire Talooks in any one Division, d for the three Divisions, Southern middle and Northern, e one for the 8 Talooks forming the present Talaghaut Division, and one for the 4 Talooks forming the Baramahl Division. For the original 3 Divisions 4 Statements have been prepared instead of 3, because the Northern Division was settled in partly by Colonel Read, and partly by Captain Graham. A list is given

in

a viz Nos 1 to 12
b Nº 13
c Nos 14 to 20.
d Nos 21 to 24.

Nos 27 to 35.

× in the Margin showing what Talooks, or what parts of existing Talooks, were included in the several Divisions.

7. The Poonjah Statements for the 2 Balaghaut Talooks are 9 in number. The Poonjah lands in each of these Talooks have

have been divided into 3 classes, and therefore there are 3 Statements for each Talook. There are also 3 Statements for each class in the 2 Talooks united.

8. These Statements have been prepared in order to show with some degree of accuracy the present condition of the assessment, the effect of the assessment in keeping waste especially superior lands and the general financial result of any changes that may be proposed.

Vide Para 8 Extract Minutes of Consultation No. 372.

9. I will in the first instance refer to the information which the Poonjah Statements furnish with regard to the Talaghaut and the Baramahl Division.

10. Subjoined are two abstract Statements, the one showing in each of the 3 Divisions, the Cultivation and the waste divided into 5 grades, the proportion between the two, and the proportion which the lands comprised in each grade bear to the total ayacut. The other giving similar particulars for the same portion of the District, divided into the Talaghat & the Baramahl Divisions.

Total Deaths 167,967 | 104,380 | 32,124 | 57,936 | 50 | 49 | 107

Fort St. George 28th December 1858

The whole quantity of lands included in these Divisions, cultivated and waste, amounts to acres 1,06,589 Viz.t.

Under Cultivation	57,693.
Waste not exceeding 10 years	1,98,891
Do. above 10 years	3,04,055
Total	10,60,589

11. It appears from the 1st. of the two Statements that in the 3 Divisions the proportion of Cultivation to waste is as follows.

	Acres.	Percent.
Southern, containing	35,340	49
Centre	46,1041	50, 63/
Northern	24,8208	65 7/12

In the Southern Division, as already surmised, the rates of assessment are in general higher than in the other two Divisions. There is no great difference as to the total extent of waste between the Southern and centre, but between them and the Northern there is a considerable difference in favor of the latter. In the same Statement the lands contained in each Division have been divided into 5 Classes, in order to show whether the higher assessed lands are in equal proportion to the lower in each Division. On this point there is a striking difference between

Fort St. George 28th December 1858.

between the 3 Divisions. In the Southern Division, the lands under 2 Rupees form 70 per Cent of the whole. In the Centre, 84 per Cent. In the Northern, 93 per Cent. It therefore appears that the rates are generally higher in the Southern than in the other two Divisions. The mean rate per acre in each is as follows.

	Rs. a. p.
Southern	1-12-3
Centre	1-5-7
Northern	1-0-4

12. It is likewise seen on Examining the second of the two abstract Statements that the lands assessed under 2 Rupees in the Baramahl are 95 per Cent of the total ayacut, against 71 per Cent in the Salaghaut Talooks. This Statement therefore tends to prove that in all the Southern Talooks 18/ the assessment is higher than the assessment in the Baramahl. Whether the rates are higher or not relatively with the quality of the lands has yet to be considered.

13. The Southern Talooks as they exist at present comprise the entire Southern Division (5½ Talooks) and part of the Centre Division, viz.t. the present Talooks of Nomalore and Shenkerry-droog with half of Trichengode. In the subjoined abstract Statement the lands in these two Talooks and a half of a Talook are divided into 5 grades, as in the other two Statements.

Statement showing the Number of Persons Claiming Relief from each Shade of Valuation, the Number Allowed, the Number Reduced, and the Number Refused.

Counties.	Valuation.	Claimed.					Allowed.					Reduced.					Refused.				
		1st Shade.	2nd Shade.	3rd Shade.	4th Shade.	5th Shade.	1st Shade.	2nd Shade.	3rd Shade.	4th Shade.	5th Shade.	1st Shade.	2nd Shade.	3rd Shade.	4th Shade.	5th Shade.	1st Shade.	2nd Shade.	3rd Shade.	4th Shade.	5th Shade.
4 and above	159	807	62	203	127	544	33	33	67	67	"	The two lowest rates pay 7½ per £.									
3 and under 4	5414	18202	2372	7843	3042	10157	44	44	56	35	5	9									
2 and under 3	28633	67373	14733	24666	13920	39909	57	57	49	49	25	24									
1 and under 2	68941	103670	24905	52446	39936	37994	57	57	49	49	38	32									
Under 1	12981	9650	5991	4797	6290	4889	49	50	57	50	11	6									

In each Talook the lands assessed under 2 Rupees bear to the whole extent to the following proportions.

In Shenkerry droog - - - - - - - - 74 per cent
Womalore - - - - - - - - - - - - - 69 per cent
Part of Trichengode - - - - - - 78 per cent

It is therefore apparent that in these 2½ Talooks the higher assessed lands bear a greater proportion to the lower than in the Baramahl where the same higher grades form only 5 per cent of the total ayacut.

14. The fact that higher rates prevail in the Southern Division has been ascribed to some want of judgment on the part of Captain McLeod; but It might, I think, be inferred with more justice that all the lands below the Ghaut pass / the 8 Southern Talooks / were considered more fertile than the lands in the Baramahl, and that on this ground they were, in general assessed as higher classed lands.

On

In the present day the Baramahl lands are considered poorer than the Southern. This point may be admitted, and yet ample reason may be shewn for reducing the present rates.

15. The Statements prepared according to the Government forms exhibit a larger proportion of waste in every grade. That so much waste should exist in every grade is owing no doubt to over - assessment. Lands of the better quality and lands of inferior quality were both over assessed, but in the two cases distinct causes can be assigned for the over assessment.

16. I will deal first with the lands of inferior quality. Colonel Read was of opinion that for all Soils the Government share should amount to ⅓ of the gross produce. Referring to the practice of the Native Governments he observed, that half the

× Para 66 of the report.

the produce was always taken as the Govern:ment share. In another place he states that an equal Division of the Crops between the ryot and the Circar, exclusive of certain perquisites allowed to Village Ser:vants, was the rule observed over all India the half share being "sufficient for the Cul:tivator's maintenance and expences of cultiva:tion." Under his own assessment the share allowed to Government was 1/3 of the dry and 2/5ths of the wet Crop.

17.

It might seem from certain parts of the report that he intended, when calculat:ing the Government share, to proportion it an increasing rates to the quality of the soil; but, after a every careful study of the Report, I feel quite satisfied that 1/3 was considered the proper Government share for every gra:dation of Soil. It was only in exceptio:al cases when the soil was held to be "very rich," or "very poor, that his Surveyors were authorized to vary the proportional

Para 185

rate, unless indeed some variation was allowed for certain temporary and incidental causes connected with the Ryots stock or other circumstances of the kind.

18. To dispel any doubt on this point, I subjoin a Statement, containing in the two first Columns a scale which Colo:nel Read prepared for the use of his Surveyors, "answering," as he describes it, "to "every Gradation of the Soil within the sup:"posed possibility of estimating the pro:duce". In this scale the several money rates in the 3d Column bear to the cor:responding grades 17 in number in the 2d Column one uniform rates of 1/3d

Para 193

Scale

Statement No. 28 — December 1855.

Scale of Rates showing the Rent to be levied on Government Lands sold by the Ryots under Act XII of 1852.

Classes.	Rate per 10 acres.	Ryots share of 2/3ds.	Profit	Loss.	Percentage of Government share increasing in each grade.	Gross produce.	Government share.	Ryots share.	Ryots profit.
1	Rupees 100	Rupees 66	Rupees 33	Rupees 33	100	Rupees 8 6	Rupees 1 4	Rupees 7 2	Rupees 4

19. The scheme of assessing every variety of soil at the same proportional rate was favorable to the better classes of lands, but unfavorable to the lower classes ~~~~~ Its natural effect on the inferior qualities was to throw them out of cultivation, for the lower classes of lands could not possibly pay each one the average rate paid by the whole.

20. If several classes of land varying in quality were under cultivation, the lands in one only of those classes would according to the law which regulates the employment of capital and labor, be just sufficiently productive to cover the cost of production, neither more nor less, after deducting the Government share of one third. If other lands inferior in quality to that one were cultivated at the same time, their produce would at Current prices, be insufficient to Cover the cost of production and the tax of one third.

21. On the other hand, if the same proportional

proportional share be levied on lands which, in different gradations, exceed in fertility that single class which is just productive enough, at Current prices, to cover the Cost of production, and to give Government ⅓ of the gross produce, it is evident, that the Ryots share will be sufficient, not only to cover the Cost of production, but to give him a surplus, increasing in a corresponding ratio with the fertility of the soil.

22. This point is placesed in a clear light in the Statement annexed to para 18 of this Report. In that Statement it is assumed that the grade 75 per cent below the highest grade (No. 11 in the scale), yields a gross produce which will exactly cover the cost of production, and will give Government a share of ⅓ Column 3, exhibits the Government share in each grade, calculated at ⅓, i. e, at the rate given by Colonel Read. Column 6, shews the ryots profit or loss in each class, after deducting the cost of production. It will be seen that all the rates above No. 11 give

× assessment to the Rupee 47-4-8.

give to the Ryot a surplus, after paying both the Cost of production and the Government share. The ryots share in all the rates below No. 11 is below the cost of production, diminishing in proportion as the grades exhibited in Column No. 2 decrease in quality. Column 6 also shews that the superior lands continually increase in value to the Ryot, so long as the share taken by the Government is an uniform rate of 1/3d on the gross produce, whatever that gross produced may be.

23. In Column 7 Shave given certain rates, according to which the Government might have assessed the higher lands, and yet have left a surplus to the Ryot. The gross produce is shewn in Column 8; the Government share in Column 9; the Ryots share, including the cost of production fixed at 47-4-8 Rs a p in Column 10; the surplus, after deducting the cost of production, in Column 11.

* Calculated with reference to Column 3.

24. In all the 10 rates, there is an increasing surplus remaining to the ryot, though the Government share

share in the 1st class is as high as 48-5-4 Rs a p per cent, or nearly 1/2 instead of 1/3d. It is therefore evident that a number of Soils varying in quality will never secure to the Government a share of 1/3d and at the same time leave to the Ryot neither more nor less than the Cost of production. It is but a single quality of land that will give exactly those proportions, and that quality must be the worst quality on which the current price of produce will allow the ryot to Cultivate, so as to give him the ordinary return for his labour. The proprietors of the Superior lands obtained an excess of produce (or rent) from their lands as the necessary result of their greater fertility.

25. A tax on rent properly so called, cannot affect prices. Where use the term rent as signifying that "portion of the produce which is paid by the former to the landlord for the "use of the natural and inherent powers of the "Soil;" that is, the difference between the amount "of the produce obtained from the Superior lands,

and

MacCulloch

"and the amount of the produce obtained from
"the worst quality under Cultivation".

20. The Government tax laid on the land owner, when it bears a uniform proportion to the produce, is a tax on the gross produce which proportionately raises the price of produce. There is no absolute necessity that such a tax should be collected from the owner of the land. It might be levied on the produce when brought to market, nor is it necessary, in order to ensure a certain extent of Cultivation, that the uniform proportion paid to the Government should bear any certain ratio to the gross produce. If the Government fixed their share at one half instead of one third, a certain quantity of land must still be cultivated, i e, as much land as would be required to meet the effectual demand for produce. The public would have to pay enhanced prices to cover the Cost of producing so much of the necessary supply as the Cultivators provided under the most unfavorable circumstances. In other words, if his share of one

half instead of one third be inadequate to cover the cost of production, he must be paid accordingly.

27. Whether the gross produce, or only the land lord's rent, is the proper object for taxation, or, whether both ought to be taxed, are distinct questions which I have not discussed in the foregoing remarks. I have aimed at distinguishing the several objects of a land assessment the one from the other, because a right understanding on that point will throw considerable light on the present state of the assessment in this District.

28. My remarks on Colonel Reads plan of assessment have been confined, as yet, to points connected with his mode of dividing the produce. I have not referred to the rates at which the produce was commuted for money rents. Colonel Read adopted a single rate for Poonjah lands throughout the whole 12 Talooks, and a single rate for Nunjah land. In the former case, the rate was

was Rupees 5 - 5 - 2 - In the latter Rupees 5 - 8 - 7 per Candy - No doubt, this uniform rate has an unequal effect in some places - It is not to be supposed that the cultivators of the land always incur equal expenses in bringing their produce to market - The rate, therefore, in many cases might have been too low for the land nearest a good market, or too high for the land remote from a good market.

29. It is impossible at the present day to ascertain which of the 17 classes was capable in Colonel Read's time of paying the cost of production and no more - Tho' this class is unknown, the fact that all loads, of every quality, were assessed at a uniform ratio, is enough to raise a presumption that all the waste lands exceeding it in fertility were wrongly classed by the Subordinates employed in the Survey - It cannot be that the Government share bore too high a proportion

on any given class - Tho' prices may have since risen, the same reasoning will apply at the present time to the same grades or to any of them in which a large proportion of waste exists, Until lately, prices have always been unfavorable compared with the prices at the Survey -

30. 2dly. The probability that the over assessment is great increases as the grades ascend, for the Government might have taken a much larger proportion of the produce than 1/3 from the superior lands, and yet those lands could have been Cultivated at a profit, if no mistake had been made regarding their real quality -

31. 3dly. If it be proved that the Surveyors were so often in error with regard to one class (i - e the waste), it is fair to assume that they also made great mistakes, tho' not equally great mistakes, in respect to the lands under Cultivation - Their mistakes could not have

x as exemplified in the Statement annexed to Para 18.

been

been so great in the latter case, as the lands would not be cultivated- In this point of view cause is shewn for making a reduction in both the Cultivated and the waste, tho' not for making a uniform reduction on both- In passing I may point out that this evidence, showing that half the lands in the District are lying waste though errors made in determining the quality of the lands, affords a strong argument in favor of a new Survey-

32- 4thly, Whether the lands inferior to the one which only paid the cost of production and the 1/3d Government share were wrongly classed or not, as to their actual quality, it is clear that the assessment of 1/3d is more than they could pay- Such lands could not be cultivated except the ratio between the Government's share and the Ryot's share were less than 1/3d, and decreasing as the lands decrease in quality- If lands so classed have not

not been thrown out of Cultivation, it must be assumed that their real quality was under rated-

33- 5thly, The fact, that lands are frequently saleable in this District, does not prove that the lands are in general rightly assessed; for any assessment however high, provided it bears a uniform ratio to the whole produce, would not affect the sale of lands exceeding in fertility the worst quality under cultivation-

34- I now proceed to explain the measures which the foregoing facts and reasoning would seem to warrant. The information supplied by the Government Statements is of a general nature- The lands are arranged in these Statements according to certain rates of assessment- Their real quality is merely inferred from those rates- It is therefore impossible to adjust

any

any measures that may now be proposed for remedying the defects in the assessment with the same success as a Survey would allow of, tho' not, I trust, impossible to find a partial remedy, which will at least improve the revenue, and at the same time, by throwing open more land, be beneficial to the people.

35. The most obvious course is to reduce the assessment on the waste lands. I have already given reasons for making a reduction, both on the Cultivated and the waste. I have also explained on what grounds I think an equal reduction on both is not necessary. I do not recommend that the same extent of reduction be made in the Talaghaut and the Baramahl Talooks, tho' in both Divisions some reduction is called for. My reason for making this distinction must be explained. It is shewn in Paras 12 and 13 that there is much more land under high rates in the Talaghaut Talooks than in the Baramahl. It is possible that

that the quantity of the lands in the Talaghaut Talooks was in general, over rated to a greater extent than the lands in the Baramahl; and lastly, it is generally admitted that a Rupee an acre is a very light assessment for lands of a tolerable quality. This was the Common opinion before prices rose to their present height. In the Baramahl the lands under that rate are 61 per Cent of the whole extent. vide Statement in Para 10. I therefore think it proper to recommend a less extent of reduction in this division, tho' in the proportion between Cultivated and waste, there is no great difference in the two Divisions.

36. Some explanation is likewise necessary with regard to the low rate of reduction on the grades under 1/4 Rupee. Tho' I have maintained in this Report that the lands of inferior quality require an

an assessment below the average rate to retain them in Cultivation, It is I think advisable, under present Circumstances, to guard against the very low class lands coming into competition with the large quantity of better qualities, which, under the reductions actually made, will be available for Cultivation. It is not necessary to prove that inferior lands, if disproportionately assessed, may be Cultivated at a greater profit by the Cultivator than lands of better quality, tho' there can be no such advantage in any case to the revenue. It ought to be better for the Ryot, as it must be for the Government, that he should cultivate the lands of superior quality.

37. In discussing Colonel Read's scheme, so far as it related to the inferior lands, I had in view only the lands of that kind which were under cultivation at the time of the Survey. In the event of a new Survey

Survey, it would be an important question how waste lands of the lower qualities ought to be treated. Some one class, as already stated, must at the current prices of the day yield the Government share, fixed at pleasure, and the actual cost of production, neither more nor less. If after that starting point be found, low waste classes should be assessed at a proportionally lower share to secure their Cultivation, it would injuriously affect the Classes already cultivated; for its effect would be to lower prices from its increasing the supply of produce at a time when the lands under Cultivation were already adequate to meet the demand. The next higher land must be thrown out of cultivation. The difference in the tax is therefore needlessly sacrificed. The benefit to the consumer is not permanent, for a fall in prices, produced by a mistaken application of labour, cannot be permanent. The better course therefore, is

is, at such a time, to assess the waste inferior classes at a uniform rate, and to let the cultivation of them at a future period depend on that natural law, which, in countries where the land is not taxed, secures the gradual cultivation of inferior soils. The same principle ought to be followed, as far as possible, at the present day. The proper object to aim at is to relieve those classes which would, but for an irregulated tax, be cultivated first.

38. If at any future time, there should be a permanent rise in prices, consequent on a permanent increase in the demand for agricultural produce, and its natural effect an increase in the cost of production, the inferior classes would commence to yield rent properly so called. The Government would then have it in their power to raise an additional revenue in a way which need not affect prices, nor throw any lands out of cultivation. I mean, by taxing the landlord's rent, and yet leaving him a share.

39. I will conclude these remarks by pointing out that any officer, who may hereafter be employed to revise the assessment in this District, will, at the commencement of his operations, be in a different position from that in which Colonel Read stood. He will start with the ascertained fact, that all agricultral produce has been liable for many years past to a certain fixed tax. He will at once assume that cultivated land of the worst quality is taxed at 1/3 its gross produce. With regard to all other classes under cultivation, he will know that they are superior in quality to the one abovenamed, and, consequently, that each class is capable of paying at current prices, 1/3, and more, as the Government share. Colonel Read had no such fixed point to start from. Tho' the Government share was in former times, as now, a tax on the gross produce, and not merely a tax on rent, it is probable that much land of inferior quality

Fort St. George 28th December 1858.

quality was taxed at low proportional rates, under the erroneous idea that it would serve both the Government and the people, if by such means, the Cultivation of inferior soils could be encouraged. If such inferior lands were under cultivation at the time of the Survey, Colonel Read was called upon in justice to existing interests to follow the same principle in assessing them. This was, under actual circumstances, the proper course, whether he followed its or not. At the present time, no lands which do not pay 1/2 / with the few exceptions his Surveyors were permitted to make / are under cultivation, nor is it, as I have already observed, expedient that any measures should be taken to force the cultivation of such lands.

40. In the Talaghat Talooks, Supposed First, to reduce all the grades, cultivated and waste, from 5 and upwards, to 4 Rupees, an acre.

Secondly, to reduce the cultivated lands, in the grades ranging from 4/2 to 1/4 18 3/4 per Cent.

Thirdly, to reduce the waste in the last named grades 3 1/4 per cent.

Fourthly

Fort St. George 28th December 1855.

Fourthly, to reduce all the grades cultivated and waste, under 1/4 Rupees, 6 1/4 per cent.

41. In the Baramahl Talooks, First, to reduce all the grades, cultivated and waste, from 4 1/2 upwards, to 4.

Secondly, to reduce the grades from 4 to 1/4 under cultivation, 6 1/4 per cent.

Thirdly, to reduce the waste under the same grades, 12 1/2 per cent.

I do not recommend that any reduction be made in the rates below 1/4 in this Division.

Note I do not make any distinction between cultivated and waste in the grades from 5 and upwards, because the reduction in that instance is not a uniform proportional reduction. I make no reduction in the lowest classes because I think it inadvisable to offer a premium for the cultivation of inferior soils.

42. In Colonel Read's Scale, the highest rate allowed for Poonjah lands was Rupees 9-12-

anacse

an acre - In the Government Forms, there are two rates above that sum - The land included in those two rates in the 12 Taluks is acres 148 of which 78 per cent is waste - This, therefore, was the extent to which the Surveyors departed from the rates given in Colonel Read's scale -

43. The actual loss incurred in reducing the 1st 5 grades in the Talaghat Taluks to 4 Rupees, would be Rupees 427; which is equal to a reduction of 33 per cent on the cultivated portion - If, at the rate of 4 Rupees, all the waste lands in the same grades should hereafter be cultivated, the revenue they would yield would amount to Rupees 11356; which would give an increased revenue of Rupees 7139, after deducting present loss -

44. In proposing 4 Rupees as the highest rate, I reckon that the Government share would amount to about 1/4 of the gross produce, at the prices which prevailed in Fusly 1262 -

45. The actual loss incurred in

reducing the cultivated lands, ranging from 4½ to 1/4, 18¾ per cent, and the cultivated lands under 1/4 6¼ per cent, would amount, in the one case, to Rupees 76432, in the other, to Rupees 5491, total Rupees 81923 - The total reduction on the waste in the two cases would amount to Rupees 142150 -

46. In the Baramahl Taluks, the actual loss incurred in reducing the first 6 grades to 4 Rupees would be Rupees 330, which is equal to a reduction of 1 per cent on the cultivated portion - If, at the rate of 4 Rupees, all the waste lands in the same grades should hereafter be cultivated, the revenue they would yield would amount to Rupees 736 -

47. The actual loss incurred from reducing, at the rate of 6½ per cent, the cultivated lands, ranging from 4½ to 1/4, would amount to Rupees 5344 - The reduction on the waste lands in the same grades, at 12½ per cent, would be Rupees 11326 -

The

Fort St. George 28th December 1858.

The total reduction in the 12 Talooks would be as follows.

On the cultivated lands reduced to 4 Rupees ——— 4,330.

On Do. in the grades ranging from 4½ to 1¼ ——— 8,776.

Do. Do. in the grades under 1¼ - 5791.

Total ——— 91,597.

On the uncultivated lands reduced to 4 Rupees ——— 6,996.

On Do. in the grades ranging from 4½ to 1¼ Rupees ——— 148,599.

On Do. in the grades under 1¼ ——— 4,877

Total ——— 160,472.

Grand Total ——— 252,069.

× Nos 105 & 106

I have prepared two Statements shewing these reductions in detail - These Statements are entered in the list -

48. I now turn to the Balaghat Talooks. These two Talooks were assessed in 1802 by Mr. David Cockburn. The Villages were formed into 3 classes, and the Poonjah lands in each Village into 5 classes, as shewn below -

Villages.

Fort St. George 28th December 1858.

Villages.	Lands. 1st Class.			2nd Class.			3rd Class.			4th Class.			5th Class.		
	Rs.	a	p	Rs.	a	p	Rs.	a	p	Rs.	a	p	Rs.	a	p
1st Class Village —	2	4	"	1	14	"	1	8	"	1	"	"	"	8	"
2nd Do. — Do. —	1	14	"	1	8	"	1	"	"	"	12	"	"	8	"
3rd Do. — Do. —	1	8	"	1	2	"	"	14	"	"	10	"	"	6	"

49. The lands in these two Talooks have been classed in the Statements in the same way as the lands in the other parts of the District - This was necessary because in numerous instances, the Taram rates no longer exist - Two or three causes are alleged for this fact - The next year after the survey the taram rates were raised in many cases by an addition of what is termed the Deed amna assessment - In others, they were raised by a discretionary addition, which it seems did not bear any regulated proportion to the survey rate - The rates were thus raised because the survey assessment was found to be lower than the assessment levied

levied by the Mysore Sultan - Again the tarum rates have been disregarded in the case of lands assessed subsequent to the Survey - These several causes have made it impossible for me to prepare the Statements according to the Survey classes -

50. "Deed," signifies one and a half - The "deed anna" rate is 1½ anna in the Rupee, or 9 Rupees 6 annas per cent - The, as already stated, the additions were not always made at this rate, every excess has been included under this term in the Statements - The Statements exhibit the "deed anna" assessment separated from the tarum rates - It amounts on the cultivated lands, in the two Talooks together, to Rupees 2494 - " - " -

57. It appears that in both Talooks the proportion of cultivated to waste, in all 3 classes, is, on the whole, much larger than the same proportion in the other Talooks - The actual quantity of land assessed above the highest tarum rate in the 1st Class Villages, Viz:, 2 Rupees 4 annas, both Talooks

Talooks included, is very small - It amounts to Rupees 3770 - Of this, Rupees 1311 is waste - In the second class Villages, the quantity of land assessed above the first turum rate, Viz: Rupees 1 - 14 - " , is Rupees 3562 - In the 3d Class Villages, the same quantity is Rupees 4361 - If the rates on these lands were generally reduced to the first turum rates in each class, the actual loss would be Rupees 1813 - The total amount of "Deed anna" given up on the Cultivated land will be Rupees 587 I recommend that this measure should be adopted - The Deed anna assessment on such of the Cultivated and waste lands as are not included in the above reduction amounts to 2147 - I recommend that the whole of this item should be abolished - In that case, the sum remitted includes the extra rates imposed on those lands which in the Statement bear a higher assessment than the 1st Class rates, and secondly, the extra rates on lands which bear in the Statements / Survey rates and additional rates inclusive /

× 1st turum rates. 182 a. 4 1. 8. "

a

a lower assessment than 1st class rates.

52. The Nunjah Statements for the 12 Talooks are 58 in number, viz., 24 for 12 Talooks, 2 for the Jaghire of Mullapady, a division of the Histnagherry Talook, 14 for parts of Talooks which were not included as entire talooks in any one division, 4 for the three divisions, viz. Southern, centre, and Northern, 2 for the 8 Talooks in the Talaghat Division, 2 for the 4 Talooks in the Baramahl Division, 1 for the Cavery Channels, 1 for Nunjah lands under wells, 6 for Mewar Nunjah, viz. 2 for the Talaghat, 2 for the Baramahl, 1 for wells in the two Divisions united, and 1 for Maunavary Nunjah. The lands in each are divided into grades according to the Government forms. In most instances there are two Statements for each Talook, or other part, showing the cultivated and the waste under 2 different Sources of irrigation, viz., tanks and Channels.

53. The "Meewar Nunjah" is land charged subsequent to the Survey with Nunjah rates.

No. 90

No. 91

It consists, partly, of unassessed waste, and, partly, of land originally assessed as Poonjah. "Mananary Nunjah" consists of lands on which Nunjah crops are raised from the falling rain only. All the above named Statements are entered in the list annexed to this Report.

54. In order to arrive at any just conclusion, as to the effect of the original rates, it was considered absolutely necessary to prepare separate Statements for the lands under Tanks and under channels, because at the Survey Colonel Read fixed for different sources of irrigation different proportions for the Government share. It also thought it necessary to show separately the lands assessed subsequent to the Survey. In this latter case, the Statements

exhibit

exhibit only the aggregate cultivation in the divisions, and not the cultivation in each Talook. The "Manavary" for which there is only one Statement is a very small quantity, which will in subsequent paras be treated along with the Fysul Nunjah under Tanks and Channels.

55. Lands assessed subsequent to the Survey have been assessed on different principles at different times. At one time, the assessment imposed on such land was the average assessment in the Village. The

present practice is to charge waste lands with the assessment borne by adjacent lands of similar quality.

56. Colonel Read furnished his Surveyors with a Scale for Nunjah Lands, in the same way as for Poonjah Lands. The Scale is subjoined.

Colonel

21794

Fort St. George

Colonel Read's Scale for

Rate per Cawny of 2½ acres.

Referred to the Subjoined Statement

57. In this scale the several sources of irrigation are divided into 9 classes. The Government is allowed a different proportional share in each class. Colonel Read's Report contains on another Statement showing what the variations are. This Statement is given in the Margin. The Punjab lands in each class are divided into 12 grades. The several money rates bear in each grade a uniform proportion. Colonel Read's remarks regarding the Poonjah scale apply equally to this scale.

* Vide Para 18 of this Report.

In

Fort St. George 28th December 1858.

58 In the 9 classes entered in the scale, tanks alone occupy 5 classes including 3 in which the lands are irrigated partly from Tanks and partly from wells. In my Statements all 5 classes have been blended together and included in one class. He has divided the Channels into 2 classes. In my Statements there are one Statement for the Cavery Channels exclusively, and one for all the other Channels. The Nunjah under wells is all included in a single Statement. I have added to the scale given above an average (Column 10) formed from the 5 classes under Tanks, and an average (Column 11) formed from the 2 classes into which wells were divided.

A. B. and C.

59 The three abstract Statements subjoined exhibit the Nunjah lands (gross) under Tanks and under Channels, divided into 3 grades, 1st for the 3 Original Divisions, and 2d for the Salaghat and the Baramahl Divisions. They show the proportion between the Cultivated & the waste in each grade, and the proportion which the ayacut in each grade bears to the total ayacut.

60. In the Statement for the 3 Divisions, the lands under Tanks and Channels are blended together. I have not thought it necessary, in this instance, to give a separate abstract Statement for the 2½ [x] Talooks, which, with the Southern Division, form, as already explained, [x] the 8 Southern Talooks, as they now exist. It seems already sufficiently clear that there is a difference in the rates prevailing in all the 8 Southern Talooks, compared with the rates prevailing in the Baramahl Talooks.

[x] Nemalore Shenkerydroog and part of Trichengode.

[x] Para B.

Talooks.

61. The subjoined abstract Statement relates to the "Nemar Nunjah." This Statement is drawn out on the same plan as the two Statements, Marked B. and C. annexed to Para 59. It exhibits the Cultivation & the waste, both under the Tanks and under Channels, first for the Talaghat Division, and, secondly, for the Baramahl Division.

Abstract

21802

Fort St. George

28th December 1858.

Abstract Statement, shewing the Cultivation Nunjah and the Waste divided into 3 grades, in the Tala: ghat and the Baramahl Divisions.

62. The whole quantity of Runjah lands / Fyrul / under Tanks and channels, with Manavary Runjah, Cultivated and waste, in the 12 Talooks is as follows.

Under Tanks.

	acres.	Total.
Cultivated	26,340.	
Waste not exceeding 10 years	4,746	
Do above 10 years	7165	38,257

Under Channels.

Cultivated	10114	
Waste not exceeding 10 years	1503	
Do above 10 years	2692	14,309
Grand Total		52,566

Manavary Runjah

	acres.
Cultivated	103
Waste not exceeding 10 years	36
Do above 10 years	75
Total Manavary.	214

63. Abstract Statement A, appended to para 59, proves that there is proportionately more land under high rates in the Southern Division, than in the centre, or the Northern. Abstract Statements

Statements B. and C. prove the same point with regard to the Talaghat Talooks, compared with the Baramahl. The proportion between the Cultivated and the waste, in each of the 3 grades, is somewhat in favor of the Baramahl Division. The mean rate per acre in each of the two Divisions is as follows.

		Rs.	as.	p.
Talaghat.	Tanks	8	6	4
	Channels	9	3	"
Baramahl.	Tanks	5	5	"
	Channels	6	5	1

64. The entire extent of lands assessed as Runjah subsequent to the Survey, cultivated and waste, in the 12 Talooks, is as follows.

	Under Tanks.	acres.	Total
Cultivated		5,228	
Waste not exceeding 10 years		535	
Do above 10 years		570	
		Total ---	6,303

Under Channels.

Cultivated	2529.	
Waste not exceeding 10 years	278	
Do above 10 years	149	
Total	2956	
Grand Total	9259	

As in the case of the Tyaul Nunjah, the lands assessed at the higher rates are greater in proportion in the Palaghat Talooks, than in the Baramahl.

65. It is evident that the Nunjah Statements do not show so large a proportion of waste as the Poonjah Statements. Tho' this fact indicates that over assessment may not be so general in the Nunjah lands, it is still apparent that a larger proportion of waste exists in each grade than would exist, if no errors had been made regarding the qualities of the lands.

66. My remarks relating to a fixed proportional share applied to Poonjah lands of different qualities, are equally applicable to Colonel Read's fixed proportion on Nunjah lands, tho' the ratio should not be the same for every class of irrigation. In both cases, the Govt.

Statements

× Vide abstract Statement appended to Para 61.

Statements, combined with the information obtained from Colonel Read's Report, lead to the same inference, 1st that the lands are over assessed in many instances, 2ndly, that the main error was in over estimating the qualities of the lands.

67. To meet these defects, I recommend that a reduction be made on the Nunjah lands, Tyaul, Mewar, and Manavary. I do not think that the reduction need be so high for the Nunjah as for the Poonjah lands. Nor, tho' I have shown that higher rates prevail to some extent in the Southern Talooks, do I think it necessary in this instance to recommend different rates of reduction for the two Divisions. I propose the following reductions for all the 12 Talooks;

1st, to reduce all the grades, cultivated and waste, from 16 and upwards, to 14 Rupees an acre.

2d, to reduce all the grades under cultivation, ranging from 5 and under 16, by 12½ per Cent.

3d, to reduce the waste in the same grades, 18¾ per Cent.

In this reduction is included both Tyaul & Mewar lands.

Fort St. George 28th December 1858.

68. The actual loss to be incurred in reducing:- 1st the first 6 grades, cultivated to 14 Rupees- 2ndly, in reducing all the grades under cultivation, from 5 and under 16,- 12½ per cent, would be for the first item, Rupees 4702 for the 2d item, Rupees 28103 total, Rupees 32805. The loss from reducing the uncultivated land in the same grades would be Rupees 22,333, total Rupees 55,138. I have given in the Margin a Statement showing these reductions in detail.

The

Fort St. George 28th December 1858.

69. The "Manavary" does not form a separate class in the accounts- The Government may think it proper to class and assess the small quantity of land embraced in this item, viz acres 214, assessed at Rupees 114, as Poonjah land- In that case, the loss of Revenue would be about Rupees 247- The rates for Manavary Nunjah have been reduced to the highest assessment 1 Rupees 4 - - - - now proposed for the Poonjah lands in the Palaghat Division, where this class of lands occurs- All the rates below 5 Rupees have been left untouched.

70. I have noticed, above, all the Nunjah Statements for the 12 Talooks, with two exceptions, viz the Statement for the Cavery Channels, and the Statement for "Nunjah under Wells."

71. With regard to the Cavery Channels, no reduction, I think, is required- The subjoined Statement shews the total assessment, the cultivation & the waste, including Tyrsul lands and Nemar lands-

Tyrsul

Fort St. George 28th December 1858.

73. The Government in Para 15 of Extract from Minutes of Consultation under date the 11th April, 1856, No. 372 observed that the Collector might be authorized to deal at once with this land in the mode already prescribed for wet and gardens (Extract from Minutes of Consultation December the 20th) in conformity with the suggestion in Para 22 of his letter of April the 14th. As proposed in that letter these lands and the Tooyjah garden lands already reduced should be subjected to the same reduction, I now submit a Statement shewing what a reduction made on these principle will amount to. The total extent under cultivation in Fusly 1262 was acres 3502, assessed at Rupees 18584. The loss of Revenue will amount to Rupees 5275. The waste lands in the same Fusly were acres 1269, assessed at Rupees 8164. The reduction

on

No. 46

No. 107 in the list appended to the report.

Fort St. George 28th December 1858.

on these lands will amount to Rupees 272.

If, therefore, the waste lands be hereafter brought under cultivation, the revenue from that source will amount to Rupees 544, which would give an increased revenue of Rupees 177 after deducting present loss.

The statement in these cases applies both to Nunjul and Unmar lands. It does not shew what would be the result if the reduced grades were brought to the nearest multiple of ¼ of a Rupee. The loss would be small.

74. I now turn to the Nunjah lands in the Two Balaghat Talooks, the two sources of irrigation, viz, tanks and anicuts, were divided into 4 classes and the Nunjah lands under each class into 5 classes, in the following manner.

Sources

Fort St. George 28th December 1858.

Sources of Irrigation.

Nunjah Lands.

Dry

75. The Statements submitted for these Talooks are 8 in number, viz. 4 for lands under Tanks, and 4 for lands under channels. These Statements are entered in the list.

Nos. 92 to 95

Nos. 96 to 99.

Note
There are no first class amicats in the Cossoor Talook.
The first class Statement for channels relates to the Denkencottah Talook only.

76. As Tanks and amicats were originally classed in the manner above shewn, it was necessary to prepare separate Statements for each class of irrigation. The Statements have been prepared according to the Government forms, because the Survey rates have been disturbed, as well with the Nunjah as with the Poonjah lands, in these two Talooks.

77. It appears from the Statements that the highest assessment in the two Talooks for Nunjah land under first class irrigation is only Rupees 8 - 12 - - Other rates, exceeding this, are

are shewn in the Statements. This excess is owing to the additional assessment imposed subsequent to the Survey. The nature of the additional assessment has been already explained in para 49 of this report. I recommend that all the lands assessed above the highest tarum rate be reduced to the first tarum rate in each class, and that the additional cess be struck off in the other cases. The reduction would amount to Rupees 173 on cultivation, and 358 on waste.

78. The "Mewar Nunjah" under the same classes amounts to acres 1293, assessed at Rupees 6307 - of this, acres 782, assessed at Rupees 3692, are cultivated, and acres 511, assessed at Rupees 2,615 are waste. The reduction would amount to Rupees 10 on the cultivation and 5 on the waste. The additional assessment alone

the

the tarum rates on the cultivated portion, amounts to Rupees 221. The loss in the aggregate including Syrsul and Nunjah amounts to Rupees 767-79. In both the Talooks of Ossoor and Denkenkottah, there is a small quantity of land assessed at the survey as "Nunjah under wells," viz acres 47, assessed at Rupees 204. The Extra assessment, amounting to Rupees 9, may be struck off from these lands.

80. There are still two items to be noticed, viz, Poonjah Bagayet lands under Tanks and Chamels & Nunjah Bagayet lands.

81. The total extent of Poonjah Bagayet Cultivation, under Tanks & Chamels, in Fusly 1262, was acres 1056, assessed at Rupees 4619. The Government remarked in regard to this description of

* Para 15 Extract M. Con: dated 11th April 1859 No. 372

of lands, that it would be proper to class it as Nunjah.

82. There are 3 Statements for Poonjah Bagayet, viz, one for lands under Tanks, viz one for lands under Chamels, and one for lands under Cavery Chamels. These Statements have reference to the Talaghat Talooks only. There is no Poonjah Bagayet as a separate class in the Baramahl Talooks, nor in the Bagayet Talooks.

83. The Abstract Statement in the margin shews the total cultivated and the

the waste - I recommend that these lands, excepting so much of them as belong to the Cavary Channels be reduced in the same way as other Nunjah lands - I shew in the Margin the effect of this reduction - The actual loss on the Cultivated lands would amount to Rupees 424 - The reduction on waste lands to Rupees 542 -

84 - I do not include the Cavery Channels

Fort St. George 28th December 1858.

Channels, 1st because the highest rate in this instance, viz 8 - 2 - 5 is, not high for Nunjah lands, 2ndly, because there is reason to believe, from measures at present in contemplation for improving the Channel, that the means of irrigating the lands on which Poonjah Bagayet produce is now raised will be made more secure - The cultivated portion is 62 per cent of the whole ayacut -

85 - With reference to Para 4 of the Board's Postscript to their Proceedings, dated 31st January, 1856, No. 319, regarding the proposed reduction in the assessment on Nunjah garden lands, and Para 15 of an Extract* from Minutes of Consultation dated 11th April 1856, No. 372, reviewing the above Proceedings, I submit two Statements the one* shewing the extent of land cultivated as Nunjah Bagayet, in the Talaghat and the Baramahl Divisions, in Fusly 1267, with

* quoted in Para 1 of this Report.

* No. 103

with the original Survey assessment on the land, and the additional Bagayet assessment, The *other shewing the same particulars for the Balaghat Division 86.

* No. 104

Nunjah Bagayet produce consists chiefly of Cocoanut trees and Betelnut trees. In the Talaghat and the Baramahl Talooks, productive gardens in Nunjah lands were assessed at the Survey, in some cases, at double the Nunjah rates. In other cases, a separate tax was imposed on the trees, instead of a double rate on the land. Productive gardens in Poonjah land, also classed as Nunjah Bagayet, were assessed at the average Nunjah rate in the Village, and either that rate was doubled, or a separate tax was imposed on the trees. The tree tax varied from annas 3-9 to annas 2-6 on Cocoanut trees, and from annas 2-6 to 4 Pice on betelnut trees.

+ 2 to 4 Pice on Cocoanut trees than Arecanut trees

87. It appears from Statement

No. 13

No. 103 that in the Talaghat and the Baramahl Talooks, the Nunjah lands assessed as Nunjah Bagayet in Fasly 1267 consisted of acres 554, the present assessment on the land is Rupees 413, the Teermahjasty Rupees 343-- -- and the tree tax, Rupees 254, total Rupees 1798. If the present assessment be deducted, the additional assessment Teermahjasty and tree tax inclusive will amount to Rupees 3684.

88. In the same year, the Poonjah Lands charged with Nunjah Bagayet assessment on the same principle as the Nunjah Lands, amounted to acres 3385, bearing a Survey Land assessment of Rupees 1117. The Teermahjasty was Rupees 1055, and the tree tax Rupees 251, Total of these two items Rupees 1306. Total of the 3 items Rupees 2423.

89 The Poonjah Bagayet Lands charged with Nunjah Bagayet assessment was acres

29, yielding a total Rupees of Revenue 311, viz, Fysul assessment Rupees 150 - " - -, teer=
=mahjasty Rupees 144, and tree tax Rupees 17.

90. The total Revenue from teermahjasty and tree tax, inclusive of Nunjah, Poonjah & Poonjah garden land, amounted to Rupees 575. I now beg to recommend that these two items should be discontinued.

91. In the Balaghat Talooks, in Fusly 1217, the Nunjah land actually oc=
=cupied with trees has been charged on with the first class Nunjah assessment. The remaining portion of the field, with the first class Poonjah rate. From Fusly 1217 Poonjah lands, when planted with the same trees, have been charged with the average Nunjah rate till the trees arrived at maturity, and, afterwards, with the first class Nunjah rate.

92. The Nunjah Bagayet lands amounted in

in Fusly 1267 to acres 2063, assessed at Rupees 13825 - " - -, viz, Fusly teermah Rupees 12883 - " - - and teermahjasty Rupees 942 - " - - -. In this instance, I do not recommend that the extra assessment, viz Rupees 942 - " - -, be struck off. With regard to future planta=
=tions, the practice of raising the assessment to 1st class rates ought to be abandoned.

93. All the items on which the Go=
=vernment proposed to reduce, or modify the assessment have now been disposed of. A few Miscellaneous points remain to be no=
=ticed.

94. With regard to the proposed Road Fund, the Government observe* that it would distribute the burden more equally to vary the rate in proportion to the amount of revenue paid, rather than to the extent of land oc=
=cupied. In conformity with this view, I beg to suggest that a rate of 4 Pice in the Rupee, be collected for all descriptions of land.

* Para 20 Extract Mr. Cons. dated 20th December 1855 No. 1372

lands. In cases where the present assess-
ment should not be reduced, the proposed
rate might be deducted from the original
assessment. The rate now proposed would
yield on the total Beriz for fusly 1267
for Poonjah, Nunjah, and garden lands, in
the Amany portion of the District, Rup-
pees 34454- as the total amount of the
fund.

95. I have not shewn what would
be the financial result, if the Poonjah
and Nunjah lands belonging to the different
grades in the Government forms, were reduced
by addition or deduction to the nearest
multiples of 1/4 of a Rupee. In lieu of
this measure, I propose that all the lands
falling under one grade in the Statement,
as for instance, the lands ranging from "3
to 3 1/4" in the Poonjah Statements, be formed
into one class, each class having a number
corresponding with its place in the State-
ments. According to this plan, there would be

be a variation in the rates contained in
a single class, but the small range
which these variations would have, would
not materially affect the object for
which it is proposed to divide the lands
into such classes.

96. Hitherto a reduction has been
made in this District on the survey rates
of assessment in favor of Brahmins and
Mahomedans. This reduction, termed "Sock-
-harasy", is at the rate of 20 per cent.
Colonel Read explains that a reduction
has been usually allowed to these two
classes, because they "cannot on account
"of their religious tents or condition in
"life, hold the plough themselves which
"obliges them to employ Soodras, or the cul-
-tivating class of the inhabitants." The system
"has its origin, I believe, in the mistaken no-
-tion that the Government tax never, in any
case, allowed more to the cultivator as
his

his share, than what was actually sufficient to cover the cost of production. Many means of livelihood are open to these two classes, which are not open to the common cultivator. In that respect, therefore, they are better off as members of the community than the lower class, and 2ndly, when, as residents of Villages, they form a portion of the agricultural class, they have been, and always will be able, through their superior influence, to obtain their full share of the better classes of lands, i.e, the lands which must yield more than the ordinary returns required by the actual cultivator, I therefore recommend that this privelege be no longer continued. The sum remitted on account of "Sookavasy" in Fusly 1267 amounts to Rupees 750. The remission ought to merge in the general remissions.

97. I should be glad at the same time, to see the entire system of Cowle abolished. There is no good reason why the cultivation of waste lands should not be left to make its own way, on the principles referred to Paras 37 and 38 of this report.

98. The temporary reduction on the assessment tempts the people from the full assessed lands, and secondly there is no need to remit any portion of the tax, even for a temporary period, to induce people to extend cultivation when the demand for produce calls for it. "The cost of bringing waste land into a "fit state for the plough," may properly be viewed as part of the increased cost at which inferior lands are brought into cultivation. The Cowle System was in favor with the Native Governments because it

it enabled them to favor dependents. They also sought by such means to force cultivation. The amount remitted on Cowle lands in July 1267 was Rupees 88564, a very needless sacrifice of revenue. Rotam could be so convenient for abolishing this System than the time when a general reduction is made in the assessment. I therefore hope the Government will, at least in this District, abolish it, as an experiment.

99. I subjoin a Statement shewing the present prices of produce compared with the prices which prevailed at the time it was first proposed to reduce the assessment. The rise in prices at the present time is on the average 143 per cent for Poonjah and 158 per cent for the Punjah. Reduce on the prices prevailing in July 1262 and 60 per cent and 83 per cent respectively on the commutation rates.

Description of grain.	Commutation prices.	Average prices per Garce in July 1262.	Average prices per Garce in July 1267.	Increase of the prices of July 1259 above the Commutation rates. Fort St. George 28th December 1858.

100. It is uncertain at present to what this rise is owing. It is coincident in this District with increased cultivation, which fact tends to reduce prices temporarily. The last three years, however, have been bad years, so that extended cultivation has not been accompanied with proportionate increased in produce.

Fort St. George 28th December 1858.

101. I also beg to subjoin an abstract Statement, shewing the extent of Cultivation in Fusly 1266 Compared with the Cultivation in Fusly 1262. The large increase in Cultivation is owing chiefly to a great rise in prices, combined with an influx of Capital, produced by a large expenditure during the last few years on account of the Railway.

I also

102. The Government were pleased to authorize my engaging extra help in preparing the Statements. The expense incurred on this account has been Rupees 719-5-4. I beg that this amount may be sanctioned. A detailed Statements is submitted with this report.

103. Seeing that so many different classes of Cultivation have been treated of in this Report, I have appended to it a Statement, shewing in abstract, every item on which a reduction is proposed.

104. In printing the Statements, I struck off, after communication with the Secretary to the Board as many numbers of each Statement as the Board and Government require. The Statements therefore number 11 each set, 5 for the Board, and 6 for the Government.

Fort St. George.

Bd. No. 5430

From the Ag. Coll.r of Salem

Reporting upon Board's petition No. 35 of 1858.

Sir

Adverting to the Board's endorsement on petition No. 35 of 1858 calling upon me to report with reference to the order of Government noted within the petition, I have the honor to submit the following explanation.

2. The petitioners state that they are proprietors of certain enam lands situated in four Villages in the Denkencotta talook, that one Rungachary the brother of the first and second, and the uncle of the 3d. petitioner, had the exclusive enjoyment of the Enam lands, owing to the absence of the petitioners in other Districts for upwards of 30 years, that Rungachary having died about 3 years ago without issue, these lands have been illegally taken possession of by certain parties, on the plea of a mortgage of them made by the deceased Rungachary. They contend that the mortgage in question is an illegal one, it having been effected without the sanction of the petitioners, who

who are Joint proprietors, and therefore pray for the Sanction of the Government to enable them to prosecute their claims in the Civil Courts against the mortgage.

3. From the report of the Tahsildar of Denkenottah, who enquired into the matter, it appears that the claim of the petitioners, relates to certain Sodigy and Suwa Enam lands, assessed at an aggregate sum of Rupees 28-11-0. The entire enam consists of 2 Nunjah and 3 poonjah fields. In the Survey accounts, 4 out of the 5 fields, are entered in the name of one Venkatachary; and the remaining one in the name of his son Shreenivassa Chany. The former, it appears is the father of the 1st. and 2d., and the grand father of the 3d. petitioner; and the latter, the brother of the 1st. and 2d. petitioner. It does not exactly appear how the 3d. petitioner is related to Shreenivassa Chany; but it may be presumed that the 3d. petitioner is Shreenivassa Chany's son, from the fact of his bearing the same name.

4. The Enam lands in question have been in the possession of other parties for several years past by virtue of a mortgage. The present occupants (mortgagees) of the Enam

Enam lands, produced the mortgage deeds, which had been executed, in two instances, by the deceased Rungachary, and his brother the first petitioner and, in the remaining 3 cases, by the deceased Rungachary alone. The mortgage in all the 5 cases seems to have taken place prior to the year 1848.

5. From the foregoing circumstances, the Board will perceive that the petitioners are undoubtedly the legitimate proprietors of the enam lands in question, altho' they are now in the possession of other parties by virtue of mortgage. I am therefore of opinion that the petitioners may be permitted under Clause I Section II Regulation IV of 1831 to sue out their claims in the Civil Courts against the mortgagees without prejudice to the interests of Government.

Board of Revenue

Fort St. George

Sir,

3d No 5429
From the Actg Collector
of Salem

With reference to para 1 of an Extract from Proceedings of the Board of Revenue dated 21st October 1858, No 3975, I have the honor to enclose a fresh Genealogical tree, with the names of the different members of the family entered in it; from which it will appear, that Lutchmummal is a distant Kinswoman of the last holder of the Enam, and widow of the grandson of the original Enamdar's brother.

2 There is nothing in the records to shew when she and the other claimant Munneyamal obtained their shares; but it is to be supposed, on

Fort St. George 28th December 1858.

† dates of which are also unknown.

on the demise of their father and husband respectively, who were both named Streenewasa Chary; neither do their names appear as share holders in any of the Public accounts.

3 The only names that appear in the register, are those of the original holder, Appadekshatcer, his son Virda-chary, and grandson Appakistnama-chary.

4 As regards the remark of the Board in para 2 of these Proceedings, it would seem that what the Collector Mr Brett intended to urge, was, that as these claimants were in undisturbed possession of a portion of the Enam lands in the Villages of Pannapillay and Masapoorum, (Cases Nos 1 and 5 respectively of the Tabular Statement) their present claim may be admitted.

From the Asst Collector
of Salem

Sir,

With reference to the en:
:dorsements passed on Board. Petitions
Nos 2010 & 3906/1857, I have the honor to make
a report for the information and instruction
of the Board.

† Copy of which accompanies

2 From a † return made by the
Acting Head Assistant Collector, and from
the Record furnished by him, it appears,
that

Fort St. George 29th December 1858.

that, at the time of the survey, Vellien,
the grand father of the Defendants, held
the Office of Toty until Fusly 1221; when
the renter of Bommayacoopam and the
three other Villages, removed him from on the grounds
of old age, and appointed in his stead an
individual named Arasan (brother of 1st
and husband of 2d Petitioner) who was wholly
unconnected with Vellien.

3 In 1846, the grandsons of Vellien,
having attained their majority, asserted
their claim; and the Collector, Mr Lockhart,
after referring the matter to three curnums,
awarded that the contending parties should
perform the duties of the Office and receive
its emoluments, alternately for a year.

4 He was satisfied that the grand
sons of Vellien were the rightful heirs
to the Office, but took into consideration
the fact of Arasan having held the Office
for 35 years.

5 This arrangement was acceded
to and amicably up. held until 1855. when
the said grandsons, asserting their sole
right

right, refused to allow the Petitioners to participate in the duties and emoluments of the Office.

6 The Petitioners in consequence appealed to the Acting Collector Mr Cherry who reversing Mr Lockhart's decision registered the Office in the name of the eldest grandson of the Pymaish of Toty.

7 It appears to me, that however unadvisable it may be to allow of the division of Offices, Mr Cherry erred in passing the said order.

8 Altho' it is clear that the eldest grand son Vellayen was the heir of the Pymash Toty, and that the Petitioners derive their rights from one unconnected with the family, yet the latter had obtained a right by the decision of Mr Lockhart, in which the opposite party acquiesced for about seven years, and Arasan thro' whom they claim had enjoyed the Office for

for 35 years.

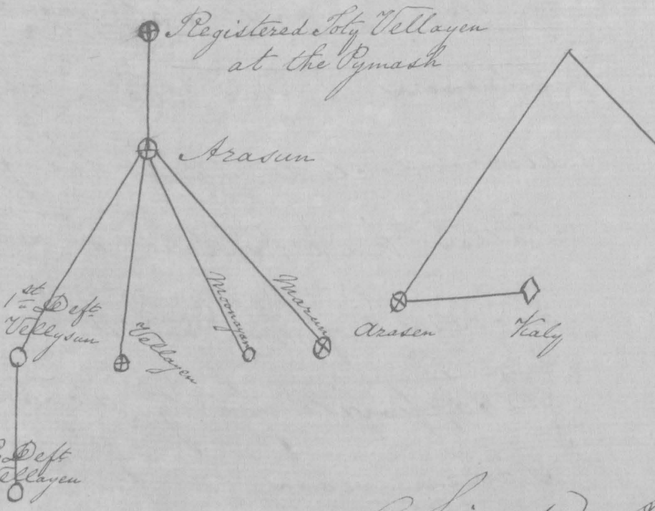

9 It is also a question, whether the preferable course would not have been to decline to reverse an order passed by a predecessor, and to refer the appellants to the Board of Revenue.

10 On the other hand it appears that the male Petitioner Malovin is Toty of other Villages, so that no great hardship could result from upholding the lineal decendant of Vellien.

11 The accompanying Genealogical tree is annexed as explanatory of the claim.

To A. Kathaway Esqre
Acting Collector of
Salem

Sir.

In accordance with the Collector's letter of the 18th September I have the honor to submit the following report relating to Petitions Nos 2016 and 3906 of 1857 forwarded by the Board for report by endorsement.

2 The petitioner Maloonum represents that by a decision passed by the Collector he and his sister in law were entitled to one half share of the toty merasy of the Villages of Bomayacoopum, Shondrapully, Tadawvalasay and Pakeer-goundanoor in the Jari Mootah of Bomaya-coopum in the Tripatore Talook but that in opposition to that order the defendants had usurped the whole meerassi and had been supported in doing so by the then Collector. Petitioner therefore prays that the original decision may be abided by.

3 In the Pymaish accounts the register is in in the name of Vellayan who had one son Arasan (deceased) who

Fort St. George 28th December 1858.

who had four sons Vellarasan Vellayan (deceased) Moonean and Maran (deceased) The present defendants are Vellarasan and his son Vellayan who are therefore the direct lineal descendants of Vellayan the Registered Toty at the time of the survey.

4 It appears that shortly after the time of the survey these Villages were formed from the Moottahdar by one Ramalinga gownden that this man on account of enmity with Vellayan and his son Arasan suspended them and appointed in their stead another man by name Arasun (deceased) that after Arasun's decease the meerasi came into the hands of Kali his widow and Maloonan his younger brother the present Complainant.

5 So matters were till 1846 when the two parties having a quarrel complained to the Collector Mr. Lockhart. The Complaint was referred to the Tahsildar for report and upon receiving the Urzee of the Tahsildar Mr. Lockhart referred the cases to 3 Curnums in the Tripatore Talook

for

for them to examine and record their opinion of the rights of each parties. They gave it as their opinion that Maloovun and Kali were entitled to 3/4 of the Meerassi, and the Defts were entitled to the remaining 1/3rd. Mr. Lockhart however gave it as his decision that each party were entitled to equal shares Vizt. (Maloovun and Kali) one half and Vellarasun and his party the other half. The decision was dated 21st. November 1848 and is that referred to in the petitn.

6 Another quarrel arising between the two parties, the case was brought before Mr. Cherry the then Acting Collector who in a Takeed dated the 8th. April 1857 said Vellara: =sun is the proper register toty and in his name it must remain and with regard to the shares Govern: =ment cannot enter and it is from this decision that the appeal is now made.

If

7 If the Meerassi is to be decided upon lineage from the survey toty, without doubt the defendants Vellarasan and his son Vellayan are alone entitled to the Meerassi and the grounds on which the complainants rested his claim in the time of Mr. Lockhart were those of an illegal act as Ramalinga gownden had no authority for his proceeding. The Meerassi should therefore be allowed to remain with the defendts and the register to be confirmed in their name. The com: =plainants are not so they state in their petition dependant on this Meerassi alone for their livelihood as Maloovun is toty of other Villages besides these.

8 On their examination before me Maloovun produced certain docu: =ments purporting to be given by the Defendts declaring that they had no further claim on the Meerassi. Defts denied ever have given such documents and Maloovuns assertion is unsupported.

The

Fort St. George 28th December 1858.

The kurnum stated in his deposition that he had never seen these documents before and did not know how they were obtained.

Dy No. 5433
From the A.S. Collr of Salem

Sir,

With reference to the Board's Endorsement on Petitions No. 4022 of 1857 and 2399 of 1858, I have the honor to state, for the information of the Board, that the suit filed by the Petitioners late husband referred to the whole of the Moottah & other effects.

It

Fort St. George 28th December 1858.

2 It appears that the Petitioners late husband, was the Co-proprietor of the Moottah of Annadanumputty, and had only 4 Villages for his share - The Petitioner, after the death of her husband, presented a Petition to Mr. Brett, requesting him to register the said 4 Villages in her name, as the only legal heir to the estates of her husband. This Petition was followed by a counter Petition from the joint Moottahdar, who therein protested against the registry of these 4 Villages in the name of the Petitioner until the suit filed by her husband for possession of the whole Moottah was decided by the Court - Mr. Brett therefore declined to register the 4 Villages in her name and gave the Petitioner more than one endorsement to this effect.

Sir,

With reference to the Board's Endorsement on Petition No. 93 of 1857, I have the honor to forward copy of an Endorsement passed by the Acting Head Assistant Collector Mr. Carr on the 23d. Instant; The Board will observe that the Petitioners assertion that Chinna Chamoondy had been employed only as a Cooly is without foundation that Petitioners claims to the whole of the Meerassy were rejected in 1845 and 1852 by the Collectors Mr. Gleig & Mr. Phillips; also that Petitioner, has, in presence of the Acting Head Assistant Collector, expressed his willingness to allow the defendant and his party to enjoy without molestation their moiety of the

Fort St. George 28th December 1858.

the Meerassy, and that accordingly Petitioners moiety has been restored to him, with a proviso, that any future breach of this agreement will entail his dismissal.

Encl 1

Endorsement on Petitions 93 & 102 of 1857 presented to the Board of Revenue by Peryachamoundy son of the late N. Timmarayen Poly Meerassidar of Balecooly in the Ristna Pergherry Taloot Zillah Salem.

Petitioner states that a man whom he had kept on cooly hire by name Chinna Chamoondy had entered into the meerassy which was Petitioners sole right and had taken to himself a share and because Petitioner was not willing to allow him a share he had been altogether deprived of his rights and livelihood by the Head Assistant Collector.

From the records it appears that the Register in the Cymaish accounts was in the name of Timmarayen the Petitioners father; that the said Timmarayen's

Elder

elder brother Perya Chamoondy having no children of his own, adopted one Timmarayen the father of Chinna Chamoondy the de= =fendant. That the Register Toty Timma= =rayen shewed great favor to the adopted Timmarayen, that he gave him a girl in marri= =age and gave him a document making over to him and his heirs one half share of the Meerassy and that after this Nondy Timmarayen's death the complainant and the Defendents father Timmarayen en= =tered into an agreement and made it in the presence of many witnesses that each should enjoy a share of the Meerassy. that these documents were subsequently lost, but attested copies of them had been preserved in the Cutcherry which were produced.)

It further appears that on a petition of the present complainant the Collector Mr. Pleig January 6th 1845, gave orders that both parties were entitled to an equal share.

That on another petition Mr. Phillips the Collector ruled on May 9th 1857 that

that the former order must be abided by and that if another complaint is made the complainant will be suspended.

That in 1855 Chinna Chamoondy complained to Mr. Grame the Acting Head Assistant Collector that the present Pe= =titioner was giving much trouble and would not let him enjoy his share which had been formerly given to him by the orders of the above mentioned Collectors. Upon this being proved Mr. Grame suspended Peti= =tioner for 6 months by an order dated June 6th 1855. that during the period Petitioner appealed to the Board who gave him an Endorsement dated November 5th 1855 to the effect "that the Board declined to interfere as the right of Petitioners opponent to a moiety of the Meerassy was established in 1845".

That at the expiration of the 6 months Petitioner declined to take the half share and said that he would have nothing to do with it unless he was allowed the whole, and that upon this Mr. Grame on March 26th 1858 for= =bade him to have any thing to do with it

Fort St. George 28th December 1858

it as by his own conduct he had forfeited his right, and that lastly on his examination before the Collector Mr. Brett he persisted in his demand.

Petitioner on his examination before me consented to allow defendant Chinna Chamoondy and his party to enjoy their moiety without molestation, if he was again allowed one moiety.

Petitioner is informed that on that condition he is again allowed one moiety of the Meerassy, but that if he again makes complaint or molests the other party will at once be dismissed from Office and never again allowed a share.

No. 171.

To,
J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George.

B.R. No. 5407.
From the Collector of Salem — Sir,

I have the honor to report for the information and the orders of the Board of Revenue that the Joint Proprietor of the Veelagum Mootah in the Hishnagherry Taluk, viz Kristna Row, and Vurdaraja Moodely, applied to me on the 20th October 1856, to devide their Estate into two portions, the one to comprize 18 Villages, and the other remaining 16 Villages. They requested that the 18 Villages might be registered in the name of Kristnas Row, and the other portion in the name of Vurdaraj Moodely. They both signed a Moochilika to that effect,

Fort St. George 28th December 1858.

effect, specifying the Villages which each Division should comprized.

2. Beg to enclose 4 Statements showing the details of the Division and the data on which the calculations have been made.

Statement No. 1. Shewing the Ayacut of the Heelagum Division the extent of land cultivated during the 3 Fuslies 1211 - 12 and 13 and the extent of land cultivated during the 7 Fuslies from 1253 to Fusly 1260, with the average Beriz for those periods.

Statement No. 2. Showing the same particulars in regard to the Woolagum Division which consists of 16 Villages.

Statement No. 3. Showing in abstract the various items on which the average was struck at the time of the permanent settlement, and the items on which the present average Beriz has been struck - also

Fort St. George 28th December 1858.

also showing the proportions at which the Peishcush was fixed with reference to the average Beriz.

Statement No. 4 Showing the average Beriz of each of the Villages composing the two portions of the Moottah.

3. The Moottah of Heelagum was formed in Fusly 1214. Its average Beriz calculated on the actual cultivation of Fusly 1211, 12 and 13, amounted to Rupees 4358 - 6 - 2 (Enter thus as shewn) 4353 - 6 - 2. The Peishcush was settled at Rupees 3705 - 11 - 10.

4. In making the present Division, the average Beriz has been determined on the actual cultivation Beriz in each of the two Division during the 10 Fusly from Fusly 1251 to Fusly 1260. The accounts of the cultivation and Beriz were furnished by the Curnums belonging to the Moottah. The Moottahdars have duly subscribed their names to those accounts as correct.

The

Fort St. George 28th December 1858.

The reason why the Beriz of Fusly 1257 to Fusly 1260 has been taken to determine the present value of the Mootaks is that the Moottahdars applied first in Fusly 1261 to have the Moottah denided. The Sub division Statements were in consequence prepared for the above named Fuslies. After the accounts had been completed, the Moottahdars contested the accuracy of the accounts. They have since made a new application and have signed the same accounts in acknowledgement that they are correct.

5. Statement No 1 appertains to the Kelagum Division of the Moottah. It exhibits the value of the Division first according to the Ayacut extent of the Division 2ndly according to the Beriz struck for the part of the Moottah

Fort St. George 28th December 1858.

Moottah on the cultivation of Fusly 1211 12 and 13 and Lastly according to the present average Beriz of the 18 Villages of this Division amounts to Rupees 2781-5-7. The average struck at the formation of the Moottah on the Beriz for Fusly 1211-12 and 13 amounted to Rupees 2059-2-3.

6. Statement No 2. shows the same particulars regarding the Nodagum Division of the Moottah. Its average Beriz as shewn in the accounts of the original Settlement was Rupees 2263-6-1. The present ten years average Beriz is Rupees 2775-3-11.

7. Statement No 3 exhibits an abstract of the several items comprizing each division both at the time of the permanent Settlement and at the present period. The several Columns in this abstract commencing from Col: 4 to Col: 9 shew the details on which the average Beriz in each of the two Divisions now made was arrived at first when

21862 Fort St. George 28th December 1858.

when the Moottahdary tenure was formed, the deductions allowed as the Moottahdars profit, and the proportion at which the Peishcush was fixed in regard to the average Beriz Cols: 92 to 182 how the Beriz of the present division, the average Beriz calculated for each and the proportions in which the Peishcush is distributed among the two Divisions of the Estate.

8. As stated above the Peishcush settled for the whole estate was Rupees 3705-11-10 the Heelagum Villages being subject to an assessment of Rupees 1765-5-2, and the Woolagum Division to an assessment of Rupees 1940-6-8. In the present calculations the proportion of Peishcush to be assessed on the Heelagum Division is Rupees 1857-14-4 and that to be fixed on the Woolagum Division is Rupees 1850-13-6.

9. The subjoined abstract exhibits the value of the Estate calculated at the settlement separated into two portions as now divided

re. added was not the same in amount. The sum deducted in the first instance as the Mongaro pay was Rupees 53. 13. 4 being the average pay for Fuslies 1211. 12 and 13 but the sum added afterwards was Rupees 75. 13 — which was the amount debited to the Mongaro pay in Fusly 1213.

12 In the present accounts the pay of the Curnums and Totties deducted. This pay is the same as the amount fixed for them in Fusly 1213 Viz 99. 2. 4 for the Curnum and 75. 8. 8 for the tottes making a total of Rupees 174. 11 — This sum is distributed among the divisions in the proportion of 99. 11. 6 for the Hulagum Division and 74. 15. 6 Woolagum Division.

13. The Enam Jodighy was Rupees 60 - 13 - 11 at the time of the settlement being the average Jodighy for Fuslies 1211 - 12 and 13 as specified in the Margin. No change has taken place in the Jodighy since Fusly

	Rs	a	p
Fusly 1211	56	14	2
Do 1212	60	10	4
Do 1213	65	1	5
Total	182	9	11
average	60	13	11

Fusly 1213. From that time it has remained at 65 - 1 - 5. This sum is shown in the present devision Statements at 42 - " - 7 for the Heelagum Division and 23 — " — 10 for the Woolagum Division vide Colm. 172 Statement No. 3.

14. In devided the Peishcush of the whole Mootah in the manner prescribed in the Regns that is to say with reference to the present average Beriz of the whole Moottah the Moottahdars profits amount to 34 - 4 11/2 Pr Cent for the Heelagum Division, and 33 - 4 - 11 3/4 for the Woolagum Division, or Rupees 926 - 7 - 3 a year for the former and 924 - 6 - 5 for

Fort St. George 28th December 1858.

for the latter - Though this occasion a defference of Rupees 2 - - - 10 between the calculated profits of the two Divisions the Moottadars have expressed their consent to abide by the present divi: sion of the Estate notwithstanding the trifling difference above noticed -

15. Statement No. 4 gives a list of the Villages belonging to each of the pro: posed division with the average Beriz for each Village at the time of the permanent : settlement, and the average beriz accord: ing to the present division accounto- The average Beriz of Teelagum is Rupees 2781 - 5 - 7, and the proportion of Peishcush calculated for it is Rupees 1854 - 14 - 4- The average Beriz of the Woolagum Di: vision is Rupees 2775 - 3 - 11 - The proposed amount of Peishcush is Rupees 1850 - 13 - 6 - The former division will be registered in

Fort St. George 28th December 1858.

in the name of Krishna Row and the latter in the name of Surdaraj Moodely -

16. The present Statements have been taken from the original accounts left by the Carnums as these Statements have been prepared after much contention between the Moottahdars, I have the more confidence in recommending their adoption - The Tah: sildar reports that no difficulties exist regarding water or boundaries and the parties have entered into the necessary engagements -

17. The present sub Division will according to Section IV Regulation I of 1819 be subject to modification if within 10 years from the Date of the Board's sanction either of the Moottahdars should prove that any fraud or material error has been committed in apportioning the permanent assessment.

Salem Collector's Office,
Salem,
1st November 1858 - -

/Signed/ H. A. Brett

Signed/ R. A. Brett
Collector

Fort St George 28th December 1858.

No 194.

To

J. D. Sim Esquire
Secretary to the
Board of Revenue
Fort St George

Sir

In an Esctract from their Proceedings under date the 30th September 1858 No 3660 the Board express their opinion that the provisions of Regulation XXX of 1802 and of Sections VII VIII and IX Regulation V of 1822 are applicable to the cases of Jaghiers and Enams equally with those of Estates assessed to the Public revenue and direct the Collector to dispose of the request of the Jageerdar of Goorjenathenpully to be allowed to oust his ryots who refuse to receive Puttahs.—

Before

Ref. No 3180 from the Acting Collector of Salem — asking further instructions in regard to the matter referred to in the Board's Proceedings of the 30th September last No 3660.

Fort St Ann St George 28th December 1858.

2. Before doing so I would venture with due deference to observe that I consider with Mr Brett that I am precluded from thus Acting.—

3. Altho' the preambles of Regulations XXX of 1802 and V of 1822 uses the general term "land holders" which might embrace Sageerdars, yet in all the Sections the word "proprietor" is employed and Clause I Section II Regulation XXVII expressly limits the word "proprietor" to one who pays an assessment to Government.—

4. The concluding portion of the preamble of Regulation XXX of 1802 states the following rules have been enacted for the execution of puttahs between Proprietors or farmers of land or annuls and under tenants under farmers or ryots."—

5. The Court of Sudr Udalut in their letter of the 6th February and 22d August 1832.

Fort St Ann St George 28th December 1858.

1832 seem clearly to be of opinion that the above mentioned Regulation is in no way applicable to Sageerdars in conveyance of the said limitation of the word Proprietor altho' they confine their reply to the question actually before them.—

6. As the practice hitherto in this District has been to observe this interpretation and as the ryots may, if the Collector authorizes their being ousted, put the matter into Court it appears to me advisable that unless the Board have specific reasons, which the Extract under review does not shew, for ruling as they have done the point at issue be referred either to the Court of Sudr Udalut or to the Government Pleader.—

Salem Collector's Office Cofsoor 1st December 1858

[Signed] A Hathaway
Acting Collector.

Podary.						
Dry	9	9	12	8	1	2
Total 4 Villages.	22	34	1	18		8.

I do not perceive that this Enam was granted by any Sunnud when the grant was made in the name of one Poonalarada Vadiyar who after enjoying the Enam lands during his life time died some years ago leaving a son named Comarasawmy and a widow Conamala Ummal. This son also died shortly after unmarried and after his decease the widow in 1832 adopted Nungappen alias Comarasawmy a Nephew of the original grantee and enjoyed the Enam till her death in January of this year. The adopted son now requests that the Enam be registered in his name.—

As no Sunnud is forthcoming in support of the enjoyment and as no service of any kind is performed I would recommend that the Enam be resumed and that the adopted son be allowed as a life grant a moiety of the Enam Rupees 9 to lapse entirely on his demise.—

54	Hathaghurry Taluk.	The survey accounts of the Cnam in the name of Sherry Appen are entered as Cnamdar Summud is forthcoming in support of the grant	Charity	Vencatrow Chetty Ramanchetty	"		This Batamurty Cnam land stands registered in the survey accounts in the name of Sherry Appen but no summud is forthcoming in support of the grant. The original grantee made a gift of one half of the Cnam to Vencatasachary several years ago and the other half passed to the Cnamdars son Vencatramanien after his death It appears that Vencatramanien in the year Planunga A. D. 1847 alienated this one half of the Cnam to Ramacharry the son of the above named Vencatrow Charry who thus became the owner of the entire Cnam. Ramacharry in his deposition states that deeds of gift were executed at the time but that these documents were lost when his house was robbed some 6 or 7 years ago. 2. As the second gift was made recently and since the promulgation of the Cnam rules prohibiting such alienations, I do not think that it can be recognized as a valid one and would therefore recommend its resumption and that the other half which was alienated previous to the existence of those rules be continued to Ramacharry during his life time and than be resumed. —

Recommendation of the Collector and the grounds on which it is made.

8

The Balaventy Enam lands situated in the 7 villages stands registered in the survey account in the name of Kunjoonda Bhuttum and those situated in the villages Nos 8-9 and 10 in the name of his father Shashien Bhuttum but no summud is forthcoming in support of the grant. After the death of the two original grantees the lands passed to Chitumbara Bhuttum the son of the former and grand son of the latter who died 6 years ago issueless. The lands subsequently passed to Lutchamanmal (widow of the Uncle of the last holder). This widow died without lineal male heirs in November of this year.

2. Seevarama Bhuttar a grand son on the Daughters side of the said Lutchmanmal claims the Enam lands enjoyed by the deceased on the ground that he performed her funeral ceremonies. Being of opinion that the said claim ought not to be recognized. I recommend the resumption of the Enams.

No. 205.

To

J. D. Sim Esqre
Secretary to the Board of Revenue
Fort St. Geo.

Rec'd No. 5713.
From the Acting
Collector of Salem

Sir,

I have the honor to submit for the
Board's Orders the following fact relative to a
Desavundum Enam.—

Ext. Mfd.
A.G.A. Rs. a. p.
1—4—3—11—10.

2. It has been brought to my notice that a Desavundum Enamdar in the Cundaly Mootah in the Tripatore Talook having failed from want of means to repair the tank the Mootahdar with the consent of the former undertook to make the needful repairs, and assumed profession of the Enam lands in Fusly 1265 making them over on Puttah to the Enamdar.—

3. The son of the deceased Enamdar has stated before the Tahsildar during enquiry that he is unable to keep tank in repair; and that he is ready to pay assessment of the Enam lands is only 3 Rupees.

4. The question for decision is whether the Mootahdar is to be allowed to have the Enam lands on condition that he keep the tank in repair or whether the lands should be resumed, in which latter case the Government would have to undertake the repairs.—

5. The simplest course appears to be to make the Mootahdar also the Desavundum Enamdar: he assuming all conditions of service attached to the Enam.

6. The Enam appears to have been granted under the Mohomedan Rule, but no

Board of Revenue
Fort St George

Sir,

Bd No 5816
From the Collector of Salem

I have the honor to forward herewith translation of the Plaint in O.S. No 15 of 1858, filed in the Subordinate Court of Salem, by Anuntien of Salem, together with the draft of a proposed answer, and to request that the Board will be pleased to obtain the sanction of Government for defending it at the public cost.

2. The property disputed, is the same as that sued for in Suit† No 3 of 1856 which was reported upon in Mr Brotts letter of the 22d April 1856. No 47 The present Plaintiff was the 2d Defendant, the 4th and 5th Defendants were Plaintiffs in that Suit— and the present answer has been prepared with reference to the Answer prepared by the Board in that Suit.

† Since withdrawn

3. The time allowed for filing the

the Answer is 2 Months from this date and expires on the 20th of February 1859.

Salem Collectors Office
Of soor 20th December 1858 } /Signed/ A. Hathaway
Collector

No. 1

Translation of a Plaint preferred in O.S. No. 15 of 1858 on the file of the Subordinate Court of Salem by Anuntien residing at Salem against (1) A. Hathaway Espre. Acting Collector of Salem, (2) Listchmana chat residing at Vengany in the Paramutty Talook (3) Vencataramanachaus Son to the above (4) Doriachy goundem residing at Coochoopoliem in the above Talook, and (5) Sasthagery achanry living at Vengany.

The Plaintiff prays for the cancelment of a proceeding of the late Collector Mr. Phillips by which he caused the lands in dispute yielding an annual produce of 40 Rupees to be sold in auctions for 20 Rupees and made them over to the 3d Defendant This Suit refers duly to the lands Specified.

specified below with their limits. The above land and some other lands belong to the Plaintiff's father and the Puttah for the lands is to this day accordingly issued in his name.

2 The Plaintiff states that the lands in dispute having been mortgaged under a written document dated the 11th Audy of Sadarana (25th July 1850) by his father to the 1st and 2d Defendants were enjoyed by them and that in Truly 1260 his father died

3 The Plaintiff adds that he took the lands called Velamaram Poonjay in the Village of Cholypoliampatty for cultivation in Truly 1261 and sowed it with gunghery Oil seeds that the crop having perished for want of rains the Collector ought either to have remitted to him the Assessment of the lands Viz. Rupees 17 annas 1 as under Section IX Regulation XXVII of 1802 or to have made the land responsible for the Assessment that instead of doing this and without issuing a notice as prescribed in Section IX Regulation XXVII of 1802 the Collector issued an advertisement on the 20th February 1853 to the effect that the Plaintiffs Putcut land at Cholypoliemputty was attached and would be sold in public Auction and that the lands were then improperly caused to be sold on the 4th March 1853 for 20 Rupees and to be made over to the 3d Defendant while a month had not elapsed from the date of the advertisement as required in Section XI Regulation XXVII of 1802 The Plaintiff adds.

adds that this proceedings was entirely opposed to the Regulations.

4 When the Plaintiff was intending to file a suit in this case the Mortgagees Viz. the 4th & 5th Defendants anticipated him by bringing on such A.S. 3 of 1858 against himself and others requesting that the sale might be cancelled but have now withdrawn the suit in order to injure the Plaintiffs rights. As the Plaintiff is the legal heir to his father he has brought this suit and requests that the sale may be cancelled.

The boundaries of the lands in dispute are as follows.

West Inner A.S. 1 of A.S. 573 called Amunta Kaikeen padagay measuring acres 3-4-3 assessed at 9-3 situated in the bushak of Vengaray in the Paramutty Talook to the east of Rajakchary Kunjay to the South of Condacrajam Kunjay to the west of Pully andy Kunjay and to the North of the Cavery river.

Acting Collector

(Draft

No 2

Draft of an answer to be filed in O.S. No. 15 of 1858 on the file of the Subordinate Court of Salem by A. Hathaway Esquire Acting Collector of Salem and 1st Defendant in the above Suit

The first Defendant acknowledges that the land specified in the Plaint, was sold by the late Collector Mr. Phillips, under orders of the Board of Revenue, for an arrear of Revenue due for Fusly 1261.—

2 The arrear, amounting to Rupees 17-1, was due by Plaintiff, who became the proprietor of the piece of Nunjay land in dispute, on the death of his father Moatoosawmy Vencataramanien, its registered proprietor and Puttadar. The Plff does not deny that this arrear of Revenue was due, but contends that the precise piece of land, on which the arrear was due, should have been sold, and that the land in dispute belonged to his father and was entered in his father's puttah.—

3 The first Defendant submits, that according to the provisions of Regulate in 27 of 1802, the landed estate of a defaulter

defaulter is the security of the Public Revenue; and that under the above enactment, the officers of Government are authorized to attach and sell the entire or any portion of it, which they deem advisible, when an arrear of Revenue is due As on his fathers death, the Plaintiff became the proprietor of the landed estate registered in his fathers name a portion of this estate was rightly attached and sold for arrears due by the Plaintiff. —

4 In regard to the legality of the sale, the 1st Defendant is prepared to prove that it was conducted in all respects in a strictly legal manner It has been the practice in this District to reckon a Month for the Sale from the date on which the advertisement is published in the Board's office and such was duly observed in the present case. —

5 Under these Circumstances the 1st Defendant prays that the Suit may be

be dismissed with Costs.

In the Survey account the name of Patnaghurry Shashieen is entered as Enamdar.—

Canacammal daughter in law of the original grantee.—

Pattagar stands registered in the Survey account

the original grantee was the last holder who died in Fusly 1263.—

The above said

Venecatachary the present holder inherited those Enam lands from his father who received them by gift.—

persons Viz.ᵗ Irrulaiah, Patnaghurry Sashieen, and Ramien (also called Ramengar) who are related as father, Son and grandson respectively; but no sunnud is forthcoming in support of the grant Patnaghurry Sashieen inherited his father's Enam, and left it, together with the enams registered in his name, to his sons

Ramien (above mentioned), and Anantien, who both died some years ago, leaving only their widows named Canacammah and Lutchmamah.—

2 The enam lands, situated in the Village of Hunchetty and Malasona attached to Cattoor, are now in the possession of Venecatachary (brother to the widow canacammal) who appears to have inherited them from his father. It is alleged that these lands were some 25 years ago, received in gift by Streenivasiengar the father of the said Venecatachary. In the enam accounts prepared in Fusly 1249 the gift is noticed; but no deed of gift to this effect is forthcoming.—

The

21923 Fort Saint George 28th December 1858

3 The tenure being of so unsatisfactory a nature these lands might be resumed on Vencatachurry's death.—

4 The remaining lands pass'd to the two widows who enjoyed them in equal shares according to a formal partition made in A.D 1836 } * Of whom one a communal died in 1853.—

5 There are three claimants to her share viz.t Lutchmanal F, the other widow, who claims on the ground, that at the partition deeds were drawn up, no division ever took place, and that she had performed the funeral Ceremony of the deceased.—

2.d Ore Pathaphurry Narassimmah C who claims on the ground that the original grantee Slashieen was his ancestor.—
3.d Vencatachurry H the brother of the deceased Concummal, who claims on the ground that the deceased bequeathed the same by a deed of will, under date the 29th Pungoonie year Tarsdeveratoo A.D 1828 to his brother Ringawachurry, who also died some year ago.—

6 In regard to the 1st claimant as it appears that she lived so sparately from the deceased, enjoying a Moiety of the Inam, her claim to the other Moiety, is inadmissible. Moreover she has ample means of livelihood.—

7 In regard to the second claimant, he has failed to prove his relationship to Slashieengar the original grantee. This person besides put his signature as a witness to the deed of Partition that was executed by the 2 widows; a fact, which at once throws discredit on his claim.—

8 In regard to the 3.d claimant Vencatachurry; the will, on which he rests his claim, being of a date posterior to the Inam rules of 1848 cannot be recognized.—

9 I would therefore recommend the resumption of this share.—

10 I would observe in conclusion that there are also two pieces of land situated in the villages of Pungahully & Ralnagherry, which are at present enjoyed by Vencutramien H, on the ground that the widow Concummal, in 1830, mortgaged them for 250 Rs. to the father of an individual named Sashien, and that the latter has empowered him to take charge of them.—

11 This bond however (of which a translation is enclosed) is doubtless a suspicious one of 2 annas value, whereas the proper stamp for this amount is 8 annas. Moreover at the alleged date of the bond the denomination of acres was not in use in this District, the term goontah being always employed.—

12 It is written on a stamped cadjan

13 It is also questionable whether the widow can by such a mortgage alienate the land after her death.—

14 It will rest therefore with the Board to decide whether the latter enam be resumed at once, or on the demise of Sashien, the mortgagee's son, who asserts that Vencutramanien is his locumtenens.—

Salem Collector's Office Dofsoor 20th December 1858 / Signed / A Hathaway Asst. Collector

21925

Fort St. George 28th December 1858

Enc 1

Translation of a deed of Mortgage executed on a stamped Cadjan of 2 annas value under date the 25th March 1830.—

The Mortgage bond executed on the 25th March 1830, at Denkencottah, by Canacammal widow of Ramasawmy Iyengar, who was the son of Rutnagherry Sashiengar, to Vencatachary of Wadapoory in the Hoothoramallore Talook of the Chingleput District is as follows.—

I Canacammal, under my present exegency, hereby Mortgage to you my right to a half of the Enam lands situated in the Village of Amany Talook in the Pusiyahally Caray, in the Denkencotta Talook; being in extent about 7 acres, and subject to a Jodigy of 3 Rupees and Odd, and known by the name of Tolpady Nunjay; and also of the Tolpady Nunjay under the Sama Razien Tank, in the Rutnagherry Village of the Ooday Doorgum Caray, being about 2 acres in extent, and free from all liabilities, altogether making

Fort St. George 28th December 1858

making 4 acres. For this I have received from you a sum of 250 Rupees (written in characters also) I shall pay the interest on this sum till the whole sum shall be paid up with interest. In default of paying the interest you are at leberty to make the lands at once responsible for the interest and enjoy them as Sooda Bogeum "unristered Mortgage" When clearing the Mortgage I shall pay up the amount of the deed. I subscribe myself to this as a document of Mortgage executed with my own free will.

No 2900

From the Jt. Coll.

of Salem . . . .

Sir

With reference to the Govern-

ment Endorsement on Petition No 3125 of 1858 I

have the honor to submit the following explana-

tion

2. Petitioner states that certain Bata-

murtee Enam land belonging to the Petitioner's ancestors has been illegally taken possession of by certain parties on the plea that it was mortgaged to them several years ago and prays for the sanction of the Government to enable him to prosecute his claims in the Civil Courts.

3. From the enquiry held on the subject

subject matter of the Petition it appears that the claim of the Petitioner relates to certain Butavurtee Enam lands situated in the Village of Arcalley in the Denkencottah Talook and assessed at Rs. 5-11-2-4 In the Survey accounts this Enam land stands registered in the name of Vencataramien but whether this person is the original grantee or not it is difficult now to ascertain after the death of Vencataramien the Enam was about 47 years ago mortgaged by his brother Gopaleen to Mullapareddy who after a period of 6 years mortgaged it again to Nungah Reddy the Grand father of Sumpungee Reddy and Vencatarama Reddy in whose possession it at present is.

5 Sumpungee reddy produced two mortgage deeds, which confirm his Statement before.

before the Tahsildar that the Enam land has passed to him in the manner stated above—

6. It also appeared that the Pymash Enamdar has a Son now Surviving who did not come forward to assert his claims for the Enam land.—

7 From this the Board will perceive that the Petitioner is the proprietor of one half of the Enam

Fort St. George 28th December 1858.

Enam land as the nephew of the Pymash Enamdar and not of the whole Enam as stated by him. I am of opinion that the Petitioner may be permitted under Regulation IV of 1831 to prosecute his claims in the Civil Courts against the Mortgagees for the recovery of his Share in the Enam without prejudice to the interests of the Government.

&c

21936 | Fort St. Saint George 28th December 1858.

of these cases, and I trust, when the present Summary Settlement has been completed, and I can devote more time to the Enams, to be able to submit a satisfactory report on the state of the arrears of those cases. The marginal Statement includes 3 or 4 cases, which having been long pending before the Head Assistant Collector — I called up and disposed of myself, but it does not include the other cases which are pending before the Sub Collector and Head Assistant; and I have therefore requested them to furnish me with a Statement of the arrears of lapsed Enam cases in their Offices. All Yeomiah and Dehaut Enam cases are decided by the Collector, but Mr. Bourdillon considered that the Sub Collector and Head Assistant should relieve the Collector of the lapsed Enam cases arising within their respective Jurisdictions, and issued instructions accordingly. —

3. The above marginal Statement does

21937 | Fort St. Saint George 28th December 1858

does not include the 23 Poonjanoor Enam cases referred to in Proceedings of the Board of Revenue No. 2086 dated 16th June 1858. —

I am unable to ascertain whether the number of those cases remaining undisposed of is 23 or 60. —

A great mass of papers in considerable confusion was transferred to me by the Collector of Cuddapah, and the Seloogoo list of those papers has been drawn up without any arrangement. It is only after some labour that the number of Enams in these records has been found to be 60 but how many of those have been disposed of as yet to be ascertained. —

Four are five years ago on the com-
plainant endeavouring to cultivate the Enam
lands in question he was prevented by the Monigars
of the Village from doing so on the ground that he had
not been registered for the Enam. It further appears that the
Enam land has been left waste for about 30 years and
that it has been entered in the annual accounts
as 'Saury' or not resumed the heir being absent.
The Sub Collector is of opinion that
the complainant has esta-
blished himself to be
the sole heir to the
deceased Enamdar
Timmanna charry and
it would appear from the
fact of the Enam still entered
in the accounts as being "Unresumed"
that he has not been in possession of it —
owing to the non urging of the claim as much
as any thing else, therefore recommends
its being registered in the com-
plainants name to the favo-
rable consideration of
the higher authorities —

Moollapoondy in Chendragher- ry Talook. In the one Swastiem of Codyalumstree nevapa Nurda Charloo the whole extent of land is — Punjah 1 — 3-10 8 Enk apl Punjah 6-7-4-53-8-1 6-7-4-56-15-9 Lady — 8-3-11	This Village was at first for- med into 30 Swas- tiems by Streenes vapa Charloo and distributed as gift Donum to the present men on the 18th Alpesee year Ractachy or Sale- vahana sacum 1666 A.D. 1744. —	Agra- hara Swastiem	Mana- pankum Vencut Ragava- nah on the 2d Tyee year — Sadaranach A.D. 14th January 1851. — lapse report sent 26th May 1851.	3/4 share of the — Swastiem	1. Adopted brother Cadambee Kistna- ma Charloo The last incumbent mentioned in the Column 5 has execu- ted a will towards the men be low mentioned. —	The first right of the following 10 cases are Inamiens in the Village of Moolapoondy. This Village is entered in the alienated Regis- ter as Hereditary and was granted to Ragoo- nada Charry and others in 30 shares or Swastiems. The

Of this the land requested by Wallajahpett Narasimachary in the courts sale is. Pongal -.8.-.12.3 the land required by Vadlum Streenevasa Charloo. ½ share Remaining ½ share of swastiem belongs to Vinnapaulum Venkataya mmmah by means of purchase	The swastiem in question was originally granted by the above Streenevasa Charloo to one Codeyalum Streenevasa Vurda Charloo & his brother Narsima Charloo that there is no summud or original deed of gift. By the records of this case it appears that the deed of gift is in the possession of Baboo cootoomby Vurdacharloo and others the inhabitants of Pillapaulum in the Talook of Mammungalum and Zillah of Chengleput because the swastiem was mortgaged to them. —	1. Adopted brother Kadambly Kistnamah Charloo. 2. Yelanagarum geddam Streenevasa Charloo. 3 Codigalum Kistnamah Charloo 4. Cheerum Narasimma charloo 5. Yalumpully Cadumby Sasha charloo. 6. Nadauthoor Seroomala chary 7. Codigalum Sashacharloo. —	The original summud is with the parties, but an unauthenticated Copy is in the records of the Collectors Office. These shares have passed by gift and sale through several hands as appears by Copies of deeds deposited in the records The deceased Vinnapaum Vencatragavarmenal obtained the shares noted in Column 6 opposite each maniem by purchase and mortgage. On her death in 1851 the then Tahsildar reported to the Collector that she had died leaving no heirs and that certain parties were attempting to usurp the Enams He therefore requested they should be attached and the order was accordingly given on the 7th February 1851 subsequently a woman named Seerungamal appeared before the Tahsildar and stated that her husband who was in Cundapah was the grandson of the fathers side

Moolla[2] poondy in Chendra gherry Taluk & Sadagopa Charry's Swastiems Ponjah 1-3-12-3-11 Nunjah 4-5-12-46-28 8-9-8-50-6-9 Sooly — 8-3-11 Of this one swastiem ½ shares is in the enjoyment of Ramanooja charry the brother of the above Sadagopa charry and the remaining ½ was in the enjoyment of the late Venkata-	This swastiem was originally granted to one Chattoor Vencata- sooly Shenevas- -sa Charlos? —	Aggra- haram swastiem	Ditto.	½ Swastiem in the enjoy- ment of the deceased.	——— Ditto. ———	side and had been adopted by the de- ceased's mothers with the Consent of the deceased's father, and was therefore the heir to the pro- perty. A document had however been pro- duced by Seravay Sero- -malachary purporting to be a will executed by deceased, but bearing no date, the year and month only being entered and these are the month and year in which the wo- man died. It appears that the will was originally writ- ten on County paper, but
raogavamma by means of purchase. —						this draft was not pro- duced. This document gives Seranay Seroma- -la charry and 6 others each a portion of the deceased's Enam. One of the 7 persons named in the will is the above mentioned adopted son Kistnamacharloo His wife Seerungammal in her husband's absence, denied the the validity of the will, and alleged his claims to the entire moniems on the ground of his adop- -tion and near relationship. Kist- -namacharloo on his return asserted his claims on these grounds and further stated that the property with which the decea- -sed had purchased the Enams was not her own but belonged to her father by whose consent Kistnamacharloo had
3. Moolla poondy in Chendra gherry Taluk Cheerum Ra- -gavacharry Swastiem 1. — Ponjah 3-1-12-2-11-4 Nunjah 34-4-47-6-8 8-5-12-50-5- Sooly — 8-3-3. 3/4 share was under the enjoyment of late Vencat. ragavammah by means of purchase. —						had been adopted — A lengthened investigation into the validity of the will was made which seems to have been unnecessary, for as it was not conformable to Hindoo law it was invalid — Kistnama Charloo is the deceased's heir both by right of his adoption and of his relationship. Some of these nanjem shares were purchased others held on mortgage but
4. Moolla poondy Cadamby Kristnama Charry's Swastiem 4. — Por. Jah 3-1-2-4-2-15-3 Nan. Jah 2 3-13-4-42 7-10 4-15-8-45-7-1 Cody — 8-3-11 Of this whole Swastiem 1/4 share belongs to Cody Cunnyadanum Vencatramga Charloo and the remaining belongs to late Venkatragavum mah exclusive that of Punjah — 2 — Cawny of land which is under the enjoyment of Tadoor Seroonenga Dacharloo who obtained as gift or donum from late Cadam bee Threnevasa Verdacharloo the descendant of the Original grantee. —	This swastiem was originally granted to one Cadambee Kristnamacharloo after a long enjoyment of the swastiem was devided between his grand sons Kristnama charloo and Venkatragavacharloo of these two the former has sold 1/4 share out of his 1/2 to the women mentioned in the Column 8 on the 20th Chittree year Nundana A. D. 8th May 1833 and the latters grand son by name Ragava Charloo has sold his half share to the woman mentioned in the Column 8 on the 8th Margaly year Sarvery A. D. 20th December 1840 there are no deeds to support of these statements. —	Agrahara swastiem.	M. Vencat. ragavam. mah M.s January 1851. —	3/4 Shares	1 Adopted brother Cadamby Kistnama Charry. —	seems to have been unnecessary, for as it was not conformable to Hindoo law it was invalid — Kistnama Charloo is the deceased's heir both by right of his adoption and of his relationship. Some of these nanjem shares were purchased others held on mortgage but all the shares whether purchased or held on mortgage were sold or mortgaged by the deceased some years before her death. The Collector recommends that Kistnama charloo be registered as Enamdar. Since the attachment of the Enams the land has been cultivated by the Ryots and the revenue kept in deposit, the Collector solicits sanction to pay this amount to the Enamdar. The Collector recommendation is founded on the facts of Kistnama charloo being the grandson of the deceased's Uncle Ragava Charloo by the Fathers side, and of his having been adopted by the mother of the deceased. —
