No. 1

Istcharnamah issued by C. Whittinghame Esqre. Collector of North Arcot.

Be it hereby known to all the Village Monigars Curnums and Ryots that.

Hitherto it was the practice to levy Tayuljasty teerwah when ryots raised

paised crops by means of water from Charity tanks &c. but in para 19th of the Extract from the Proceedings of the Board of Revenue dated 5th October 1854, it is stated that if ryots avail themselves in Cultivating there lands, of the water from jungles streams, natural pools, charity tanks, and other Sources, in pepairing which the Government have incurred no expence the demand of an extra afsefsment in those cases will not be made, but the farm teerwah only will be levied except in the case of Charity tanks, the Government claim the right to the water from Jungle Streams &ca. and will permit the use of it only provided the supply of any Government tank &c. is not lefsened; Government also reserve the right of repairing or improving these streams or pools when considered necefsary to augment the Supply in Civil Works, and until their

Government

Government will neither prevent the ryots making use of the water for their Cultivation or make any demand for Kayulyasty Hence, it is hereby notified for general information and guidance, that lands, irrigated from the Supplies of Charity tanks, jungles, Stream's or Pools &c. no extra afsefsment but the faram teerwah alone will be levied.-

Istiharnamah issued by C. Whittingham Esqre Collector of North Arcot.-

In the Extract Minutes of Consultation from Government under date

date the 16th. December 1857 conveyed in the Proceedings of the Board of Revenue dated 26th. March 1858, it is stated that the water from Jungle Streams &c. is exclusively the property of Government, and that those Cultivators who make use of that water for their Cultivation should agree to pay the extra Assessment, as Government will construct anicuts in places wherever they may be required in the said Streams &c.

It is therefore hereby notified for general information that, if water from the above Sources is made available for Cultivation, Extra Assessment for the same will be taken to Summah from fusly 1267.

R. No. 4776
From the Collector
of North Arcot

Sir,

I have the honor to forward the undermentioned Statement having reference to the compensation awarded and paid by me agreeably to the provisions of Act VI of 1857 on account of land taken up for the South Western Railway.-

A Statement Shewing the Compensation paid for land &c. taken up exclusively for the Railway.-

B Statement Shewing the Compensation paid for land taken up for Brick fields &c. and which is to be recovered from the Railway Company.-

C. Statement Shewing the particulars of the Moniem land taken up for the Rail road and of the land which it is proposed to grant in lieu.-

The

2 The extent of Cultivable land taken up for the Way and works to which Statement A refers amounts to 234 cs. 5 as. ch. "

bearing an assessment of Rs. 2,084 a. — P. 10 and is included in 64 Villages of which 8 are in the Cauvery pauk Taloot, 1 in Sholinghur 25 in the Trivellum and 10 in the Salghur Taloots. The Compensation awarded and paid by me for this extent amounts to Rs. 9,143 a. 5 P. 7. The Total amount of Compensation paid is Rs. 15,205 a. — P. 11 of which a Sum of Rupees 756 Rs. 13 a. 11 P. was on account of Mouiem land, Rupees 1078 was paid as the value of 529 productive trees Rupees 1010 — 11 a. 3 P. on account of 93 Houses, Rupees 15 — 10 — on account of the backyard of 4 houses, Rupees 2,615 — 9 — 4 on account of 71 wells, Rupees 416 on account of 2 Ponds and Rupees 168 : 14 — 10 on account of loss of Crops. —

The

3 The extent of land taken up for brick fields &c. for which the Compensation paid is to be recovered from the Railway Company Amounts as shewn in Statement B to 4 cs. 7 as

bearing an assessment of Rs. 12 a. 3 P. 1

The Compensation awarded by me for this extent amount to Rs. 53 a. 15 P. 5.

4 The amount of Compensation which was fixed with the Consent of the Ryots at 3 — 4 — 5, or 6 years assessment of the land, was determined on a Consideration of the quality of the land and the means of irrigation possessed by it. —

5 The whole of the amount paid as Compensation was paid to the

the Ryots in my presence.—

6. The extent of Monieam land taken up for the Railway is 36—11 cs. as bearing an Assessment of Rupees 250—4—3 as p for which, as already stated, a sum of Rupees 756—13—11 has been awarded as Compensation. With regard to the land to be given in lieu accounts have been received from all the Tahsildars concerned but the Trivelloor Tahsildar who has been repeatedly called upon for the required information, but who has not yet furnished it. The extent therefore for which accounts have been received, is 22—12—8 cs. a dc bearing an Assessment of 187—10 as shewn in Statement C. The extent to be granted in lieu is 29—9—. c d. the assessment of which amounts to 186—13—10 The difference is

Rejd 28/6

is attributable to the impossibility of finding in individual cases suitable land of a value equivolent to that of the extent taken up.

Under these circumstances I have the honor to request that the sanction of Government may be obtained for the payment made by me amounting to Rs. 15259—4—of which a sum of 53—15—5 remains to be recovered from the Railway Company I beg further to request that sanction may likewise be obtained for granting to the Inamendars whose lands have been appropriated for the Railway other lands in lieu as shewn in Statement. No 217

To I. D. Sim Esqr

Secretary to the Board of Revenue

Fort St. George

Sir,

B. No 1810
From the Collector
of North Arcot

I have the honor to submit the information required by the Board in Extract of their Proceedings dated 25th August 1838 No 3241, on the subject of the settlement of the District of North Arcot for fusly 1266.-

2. The point remarked upon in para 6 has been already noticed by me in my letter of the 31st August 1838 No 173.

3 The instructions of the Board contained in para 7 regarding the entering of the 156 hamlets under the head of Villages in Statement No 15 will be attended to in preparing the Settlement accounts for fusly 1267.

4. The accompanying Statement No 1 affords explanation regarding the discrepancies noticed in para 8, the decrease of 2 Villages in fusly 1265 was caused by those Villages being entirely

entirely uncultivated, the same reason accounts for the decrease of 2 hamlets in that fusly- The net decrease of 5 Villages in fusly 1266 was caused by the transfer of 4 Villages to the Salem District by 4 other Villages being deserted, and by 3 Villages which were formerly deserted having been brought under Cultivation. The increase of 2 hamlets is attributable to the circumstances of two formerly deserted hamlets having been brought under cultivation.-

5. The 26 ryots referred to in para 10, were those who claimed remission- The amount granted Rs. 14 As was to one ryot whose loss for failed crops came alone within the remission rules.-

6 The explanation regarding the new entry in the accounts of fusly 1265 of "Revenue fines" and of the increase under that head in fusly 1266 as compared with fusly 1264 is that the fines collected in fusly

Fort St. George 28th December 1858

fusly 1265 were by an oversight not carried to account but were kept in Deposit, and that in the succeeding fusly 1266 they were carried to account, together with the fines imposed in that fusly.

7 The instructions in para 12 regarding the Sevy Immunah will be attended to in the report under preparation.—

8 With reference to para 13, Mog to explain that the figures 4,84,027 Cultivation and 2,07,372 Rupees assessment are taken from enclosure a in Statement № 3 which does not tally with Statement № 21 for the following reasons.

The extent given in enclosure A in Statement № 3 includes the extent of land on which Stulla Cummee and other remissions were granted. Statement № 21 exhibits the nett extent. There is no provision in enclosure A for shewing the extent after deduction of extent on which remission has been granted. So that there are no means of instituting a comparison as regards extent between A of Statement № III and Statement № 21.

The assessment of 2,07,372 (given in Enclosure A) includes.

Fort St. George 28th December 1858

includes the amount of assessment remitted on account of Stulla Cummee &c., and though provision is made in enclosure A for shewing the assessment after these deductions have been made the remaining amount will not tally with that given in Column 3 of Statement № 21 for the reasons I am about to give. The total of 20,98,108 given in Column 3 of Statement № 21 is the survey assessment less the occasional remissions of Stull cummee &c., whereas in enclosure A the amount of assessment after deducting remission is 16,91,133 but in these latter remissions are included besides the Permanent remissions Tenevah Cummee and Cuttoogottah all which 3 items are also included in Columns 5 of Statement № 21 two other items which are not included in that Column viz. Dannashayee Enam Mariah and one half share of Cundapallum Village amounting together to 80,034 If this amount be deducted from the total remaining assessment given in Column 6 of Statement № 21 the remainder will be 16,91,133 which is the amount of assessment after deducting remissions given in Enclosure A in Statement № 3.

9. The instructions contained in para 14 will be attended to in submitting the report for fusly 1267.

10. The report referred to in para 15 was submitted to the Board on the 17th September 1858.—

Translation of a Petition addressed by C. Whittingham Esqre. Collector of North Arcot to Ragonada Row Saib Jaghier: =dar of Colatoor on the 22d. June 1858—

In your letter of the 9th. December last you state that Granv: =pett Anuntacharry having preferred a complaint that you had depri: =ved him of the grain Inamem allotted to him in your Jagheer you brought to the notice of the late Sub

22031 Fort St. George 28th December 1858.

Sub Collector Mr. Binning that a grain Inamem was originally allot: =ted by your ancestors to the said Anuntacharry to enable him to build a house at Ragonadapooram and reside there, that he accordingly built a house there & made it his place of abode and enjoyed the Inamem that some time after the house fell to ruin and that he left it and went and Resided at Cuddapah and that you then warned him to put the house in order and either to occupy it himself or get some one else to live in it when the Inamem would be continued to him, but that he did not act up to this advice that Mr. Binning thereupon passed an order to the effect that if Anuntacharry erected a house in the said Village of

of Ragoonadapooram and either him=self or any other in his stead lived in it the Ironiem would be con=tinued to him but that the present Sub Collector has set aside Mr. Binning's decision and in direct Contravention thereof, decided that as it appeared that Amunta=charry had long enjoyed the Ironiem while residing at Gramsheth it should be continued to him, and you say that if the latter decision were carried out, the other Inco=mindars will also take advan=tage of it and desert their house to the great insecurity of the Villages.

Having gone over the explana=tion as detailed above as well as the Sub Collectors Memo and the Record which accompanied it on the Subject under notice, I find there is

is nothing to prove that the Ironiem was allotted to Amuntacharry for residing in the Village or that he was to enjoy it provided he resided in the Village nor does it appear that the Ironiem in question was granted by your ancestors to the said Amuntacharry for any services to be rendred by him. It however appears that the Ironiem was granted to Amuntacharry for maintenance and that it had been accord=ingly continued to him for a length of time. It further appears that although Amunta=charry received the Ironiem for some time while residing at Ragoonadapooram he afterwards received it for forty years while residing at

at Gramopetta - It is not therefore proper that you should now object to this long continued practice & and discontinue the payment of the Monies you are & therefore directed to con: = tinue the Monies to & Anuntacharry in accor: = dance with the orders & of the Sub Collector -

BB № 5530 Sir

From the Collector of North Arcot - - - - } Para 1 I have the honor with reference to the Board's Proceedings of the 12th June 1857 № 2017, and to para 11 of Extract Minutes of Consultation under date 18th November 1857 conveyed in Extract from the Proceedings of the Board of Revenue dated 12th January 1858 № 166 to submit a report on the financial position of the Lungerkhanah and Dispensaries at Arcot and Vellore drawn up to the end of 1857. The accumulated Savings of

2. the Lungerkhanahs for the three years 1851, 1852 and 1853 amounted to Rupees 11385-13-6 as shewn in para 8 of my predecessor Mr Bourdillons letter of the 30th March 1854 - In para 7 of that letter Mr Bourdillon estimated the probable saving from the sanctioned fund of the Lungerkhanahs for five years from 1854 to 1859 as shewn in

the

	Sanctioned amount			Probable expenditure			Probable Savings

the Margin, and in para 9 recommended the Establishment of a Dispensary at Arcot, and another at Vellore, to be maintained out of the savings of the Lingerkhanahs, the annual cost of the Dispensary at the former place being estimated at 2316, and that of the Dispensary at the latter at 2460 Rupees.-

This recommendation which met the approval of the Board and Government was accordingly sanctioned in Extract Minutes of Consultation dated 16th May 1854 P. D. No 478.-

4 The Dispensary at Vellore was Established in June 1854. The amount sanctioned for the maintenance of this institution, calculated from the time of its Establishment to the end of 1857 is Rupees 8815 and the disbursements during the same period

period amount to Rupees 7,950-9-1. To this sum however must be added Rupees 554-8-4- being the value of the Furniture and Surgical Instruments purchased for the use of the Hospital, and which was not included in the Estimate framed by Mr Bourdillon and sanctioned by Government. This raises the actual expenditure to Rupees 2505-1-5, a sum less by 309-14-7 than the sanctioned amount. Enclosure No 1 shows the details of the expenditure incurred on account of this institution.-

5. The Dispensary at Arcot (now removed to Wallajahpett was opened in January 1855. The sum sanctioned for its maintenance, calculated from the time of its organization to the end of 1857, is Rupees 6948. The actual expenditure for the same period is Rupees 8890-11-6 being 1,942-11-6 in excess of the Sanctioned amount

6. This increase is to be attributed to the following causes.-

1st The provision made in the Estimate for

Fort St George 28th December 1858

for medical attendance was, as in the case of the Dispensary at Vellore, 50 Rupees a Month as the allowance for a Surgeon and, Rupees 24-8-0 as the pay of a 2nd Dresser, but as no Surgeon was available, it became necessary to place the institution in charge of a

January 1855 full Apothecary, who for the first Month after his Establishment drew Rupees 145-14- as his Salary and allowances inclusive of travelling allowance, and for the fifteen months following, or from February 1,155 to April 1856, at Rupees 115-7-4 a Month - From May 1856 to December 1857, or for 20 Months he drew at the rate of Rupees 65-7-4 the other 50 Rupees being drawn in the Military Department - The proper course would be to recover in the Military Department all that has been paid to the Apothecary in excess of Rs 65 a Month, and

to

Fort St George 28th December 1858

to credit it to the Lungerkhanah funds.-

2nd In the Estimate no provisions was made for House rent as it was intended that the Dispensary should be located in a Government building at Ranepet accordingly no rent was paid for the House from the 1st January 1855 to the 31st March 1856, when the building occupied by the Dispensary being required by the Military authorities it became necessary to locate the Dispensary elsewhere. another building in Ranepet was first taken, but that being

Bd Pro 3d March 1856 n: 679- wanted by the owner, the Dispensary was with the sanction of the Board of Revenue removed to Wallajapetta - The rent of the only suitable

Bd Pro: 12th Jany 1857 n: 157-2017 house in that place was 25 Rupees per Mensem of this Mr King agreed to pay 15 Rupees leaving 10 Rupees to be disbursed from the Lungherkhanah funds - The rent paid for the house latterly occupied at Ranepett had been 10 Rupees. The above arrangement was sanctioned by the Board of Revenue.-

Enclosure

July.
August.

Enclosure No II shews that during the Months noted in the Margin 26 Rupees were charged as House rent to the Lungerkhanah funds instead of 10 Rupees. This was erroneous, and Mr King has been called upon to refund the amount over drawn

3rdly Travilling allowance had to be paid to the Garrison Surgeon at Vellore for proceeding to Arcot once a Month for the purpose of inspecting the Dispensary, which as above stated had been placed in charge of an Apothecary a circumstance which necessitated the periodical inspection of the Dispensary by a Surgeon and as a professional officer of that rank was not located at Arcot the duty of inspecting the dispensary devolved in the Garrison Surgeon at Vellore the nearst station to Arcot.—

4thly Certain Surgical Instruments and Hospital Furniture not provided for in the Estimate had to be purchased for the use of the Dispensary.—

10 The amount of actual expenditure has therefore been 6889-1-6 in excess of Mr Bourdillons Estimates of which excess 5289-7-7- appertains to the Lungurkhanah at Vellore and 1599-8-11 to that at Arcot.-

Enclosure No 5 exhibits separately

11 for each Lungurkhanah both the estimated and actual expenditure for the years 1854 to 1857.-

12 In 1854 the expenditure in the Vellore Lungurkhanah was below the estimated amount for the in that year the number of persons relieved was above that shewn in Mr Bourdillons Estimate. Still the average quantity of rice issued per head and its value was below the rate assumed by that Gentlemen. Hence the actual saving in 1854 was 22 per Cent above the probable saving given in the Estimate.-

In

13 In 1855, 1856, and 1857 the expenditure In the first and last of these years, the number relieved was likewise above the Estimate, but the rate per head following below it, the quantity of rice issued was less than the Estimate Had the season been favorable and had rice been sold at the price assumed in the Estimate Viz^t 1 Rupee for 17 3/4 measures, the saving in those years would have been greater than that anticipated, but in 1855 rice was sold at an average 9 1/4 and in 1857 of 13 measures for the Rupee Hence the saving in these years was respectively 90 and 21 per Cent less than was anticipated.-

14 In 1856 the number of recipients in the Lungerkhanah was considerable above the Estimate and in consequence, although the rate per head was below it, the quantity of rice issued was greater and at it was sold as 13 1/8 measures the Rupee, while the Estimate gave 17 3/4 measures, the saving was 38 per Cent below what was anticipated.-

The

15. The number of recipients in the Lungerkhanah at Arcot during the years 1854 and 1856 was also greater than the Estimate but as the average quantity of rice issued per head was less, the total quantity of rice issued was likewise less than the Estimate but as rice was sold in those years at 9 1/2 and 7 3/4 measures,- instead of 10 1/8 one 15 1/8 respectively as was anticipated, the cost exceeded the Estimate and hence the saving in 1854 was 24 and in 1856 - 57 per Cent less than what was expected.-

16. In 1855 the quantity of rice issued per head was less than the Estimate but as the number of persons relieved at the Lungerkhanah was considerably greater, the quantity of rice issued to them was likewise greater than the estimate and as in that year rice was sold at 9 instead of 15 1/2 measures for the Rupee as was expected, the expenditure very much exceeded the Estimate and the saving was therefore

89

89 per Cent less than was anticipated.-

17. In 1857 the expenditure in the Lunguerkhanah was below the Estimate in consequence of the average quantity of rice issued per head having been very much short of that given in the Estimate that the number of persons received was greater. The saving therefore in 1857 was 1 per Cent above the Estimate.-

18 The savings from the sanctioned funds obtained during years 1854 to 1857 amount to 8470-11-11- The total expenditure incurred in the Dispensaries for the same period which it was expected would be covered by those Savings, amounts to 17,395-12-11- being Rupees 8,925-1-0 in excess of the Savings.-

Rs 11385-13-6

That excess has been met from the old accumulated savings in the manner suggested by Mr Bourdillon in Para 8 of his letter of the 30th March 1854- These savings have thus been reduced to Rs 2,460-12-6. as the accompanying account which is Enclosure No 6 will shew.-

19 In the year 1857 the excess of expenditure

Sanctioned amount	9,641	15	-
Deduct expenditure	5,225	10	4
Saving	4,413	4	8
Expenditure in the dispensaries	5057	4	10
Deduct saving from the Lunguerkhanah	4413	4	8
Excess expenditure	644	-	2

expenditure beyond the savings of that year was Rupees 644. the savings having amounted to 4,413-4-3 and the expenditure of the dispensaries to 5057-4-10 and if the excess of expenditure should continue at that rate, the Surplus fund would disappears in 4-years.-

20 The prospects of the Current year are however so favorable that a considerable fall in the price of grain may be anticipated and that combined with greater economy in the Management of the Lunguerkhanahs would obviate the necessity of further encroaching on the surplus funds without requiring the discontinuance of either the dispensaries or the Lunguerkhanahs. I have pointed out to Mr Sullivan that although he has kept the rate per head within the Estimate, he has greatly exceeded it in the average number of persons received and in that respect greater economy seems possible, and would be desirable.-

21 I have already adverted in my previous communications to the causes of the delay that has taken place in submitting this report. This delay has Chiefly arisen from the imperfect

state

Fort St George 28th December 1858

state in which the accounts of the Arcot Dispensary were received from Mr Elliot, which necessitated their being repeatedly returned for rectification and from the time occupied in the preparation of the necessary Statements from the Treasury accounts in my Office. although I was for some time unwilling to transfer to Mr Sullivan the Superintendence of the Arcot Dispensary on account of the facility which Mr Elliot's proximity to it offorded for his Superintendence, yet I became at last satisfied that the interests of the institution required the transfer, and it was accordingly made on the 23rd September last Mr Sullivan was already in charge of the 2 Lungerkhanas and of the Vellore Dispensary.-

22. Copy of Mr Sullivan's Report and the Statements forwarded by

Fort St George 28th December 1858

him are herewith submitted but it will be found that in consequence of the necessary corrections made in my Office there is not a perfect accordance between his report and mine.-

Enclosure N=7

To C. Whittingham Esqre

Collector of North Arcot

Sir,

1 With reference to your letter of the 19th Ultimo N= 25 and its enclosures received at this Office on the 22nd Ultimo I have the honor to submit the information required in Para 11 of the Extract Minutes of Consultation dated the 18th November communicated with the Proceedings of the Board of Revenue of the 12th Ultimo N= 166.-

2 I should have replied earlier but that I found it necessary before giving a decided opinion in connection with Para 16 of my letter of the 8th March last N=46 regarding the amalgamation of the two Lungerkhanahs to ascertain what had been the cost of the Ranipett Dispensary from the efcting Head Assistant Collector, the Officer in immediate charge of the institution. and his reply I only received yesterday.-

The

Fort St George 28th December 1858

3 The Dispensary at Ranipett is not under my care or supervision as you are aware although maintained out of funds over the expenditure of which I have been directed to exercise an economical control and on this point I would beg to refer you to my letter to your address of the 23rd May 1857 N= 60 and your reply of the 27th Idem N= 277.-

4 Herewith are submitted in the prescribed form two Statements A & B exhibiting on the same sheet the extent of relief afforded and the charges incurred at the Lungerkhanahs at Vellore and Arcot for the whole of 1857 and from the 1st March to 31st December 1857 up to which former date (exclusive) I reported on the institutions in my letter of the 8th march 1857 N= 46.-

5 Two other Statements C and D are likewise submitted showing the actual costs of the two dispensaries for the same periods.-

The

6 The sanctioned amount avail-
-be for the maintenance of the four institutions
that is two Lungurkhanahs and two Dispensaries
for the period immediately under report that is
from 1st March to 31st December 1857 is Rupees
8087-4-5 the actual outlay 9051-6-2 being on
excess of expenditure over income of Rupees
964-1-9.-

7 The whole of this surplus
charge is to be ascribed to the cost of the
Ranipett Dispensary for it will be seen by
a reference to the annexed table that there
is a decrease on the total expenditure of the
two Lungurkhanahs in the period under
reviews as compared with a similar period
in the preceding year 1856 of Rupees 944-14-2.-

Items	Total cost expenditure from 1st March to 31st December 1857			Total cost expenditure for the like period 1856.			Decrease		
Vellore Lungurkhanah	3353	13	6	3901	3	7	547	6	1
Arcot Do	1070	11	10	1468	3	11	397	8	1
Total							944	14	2

8 again as regards the Vellore Dispensary
it will be seen by a reference to the annexed State
-ment that the cost for the period has been kept
within the sanctioned cost expenditure Rupees
106-7-2.-

Monthly Sanction			Number of Months under review.	Total amount of Sanction			Total cost for same pe-riod.			Saving		
Rs	a	p		Rs	a	p	Rs	a	p	Rs	a	p
205	7	7	Ten	2050	"	"	1943	8	10	106	7	2

9 By Minutes of Consultation Public
Department dated 16th May 1854 No 478
the Sum of Two hundred and five/205 Rupees was
sanctioned for each of the dispensaries less as regard-
-ed the Ranepett Dispensary. twelve/12/ Rupees for
house rent on the score of there being a Government
building available for the purpose thus reducing the ori-
-ginal allowance for that institution to one hundred
and ninety three/193/ a month or as 2316 per annum.-

10- Subsequently to the Dispensary being
Set up. Ranepett ceased to be Military Station
and the institution was saddled with an Apothecary
on a Salary of 115-7-1 instead of Medical
allowance of as 50 and later still the Government
building

building had to be given up and a house so rented - Taking thus the original sanction of 193 the account runs thus Rs 193 - 50 Medical allowance + 115-7 apothecary's pay + 12 house rent = 270-7-- or so Rs 65-7-- in excess per Mensem of the sanction for the Vellore Dispensary.-

11 On a reference to Statement D it will be seen that in October Rs 29-9-3 is charged for a Dresser this is Rs 5-1-3 in excess of the sanctioned charge Rs 24-8-- fora 2nd Dress - In November only Rs 5-13-- and in December nothing at all but I have been informed that the Services of the 2nd Dresser formerly employed being required in the field a 1st Class Dresser was in the first instance employed and again removed and the Service of a pensioned Apothecary secured who demands a still higher rate of pay a matter which I believe to be under reference to the higher authorities.-

12 On a reference to Statement C it will be seen that from October the Vellore Dispensary has been saddled with

with a 1st Dresser instead of a 2nd Dresser as sanctioned the difference between Rs 35 and Rs 24-8-- Rs As Rs 10-8 or 120-- per annum. I have the honor to address you on this subject on the 2nd Ultimo No 2 but have not as yet received a reply.-

13 I would now beg to refer to Para 9 of my letter of the 8th March 1857 No 46 in which 14½ puddies I then stated might be considered somewhat unfavorable rate and on which I proceeded in subsequent Paras to frame some Estimates the annexed Marginal Statement will shew how much are unfavorable the rates have been for the period under review notwithstanding which the saving exhibited in the tabular statement at Para 7 of this letter has been effected.-

1857 Months	Vellore Puddies	A	ch	Arcot Puddies	A	ch
March	13	--	6	15	4	--
April	13	3	15	14	12	10

14 It is hardly to be supposed that these very high rates will continue much longer though they have lasted much longer than even I anticipated when Mr Bourdillon and I were at variance on the probable cost of the institutions.-

15 The sum of 964-1-9 exhibited in Para 6 of this letter as expenditure in excess of income does not appear to me of sufficient magnitude to necessitate

Fort St George 28th December 1858

necessitate at present the amalgamation of the two institutions at any rate between this and the 30th June next when I shall again report on the State of the Funds.-

16 It occours however to me in connection with the Ranepett Dispensary and Paras 9 and 10 of this letter that a saving might be effected if the institution were placed in Ranepett again as it is most probable that a Medical Officer will always now be there looking to the Number of European Troops in the Country and would only draw 50 Rupees as at Vellore for Medical attendance which would at once relieve this institution of Rs 65-7-- a Month or Rs 785-4-0 per annum and with the present demand on all branches of the Medical Service the apothecary now in charge could easily be provided for.-

The

Fort St George 28th December 1858.-

17 The above is merely a suggestion of mine, the Government will be better able to Judge from their own information whether my supposition of a Medical man being likely always to be at Arcot now be correct or not. The difficulty is house room but a building might be erected and paid for out of the funds whenever they exhibit a surplus which they must do in time as no new admission are made to either of the Dungerkhanahs and the price of grain cannot well average more than at present.-

To,

I. D. Sim, Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir,

Rec'd No. 35741.
From the Collector
of North Arcot

I have the honor with reference to para 2 of Extract Proceedings Board of Revenue No. 3896 dated 15th October 1858 to state for the information of the Board that the condition of the Devadhundum Cowle were not carried out - The expression in Mr. Grame's Cowle is that if the Grantee desires it he will receive in return for his expenditure one fourth of the lands &c. The Cowledar however does not appear to have desired it, for after the expiration of his lease he did not receive any portion of land, but one

fourth

fourth of the net Beriz of the land under the tank as shewn in the Marginal Statement

2. An Estimate has with reference to para 5 of the Board's Proceedings been prepared by the Tahsildar amounting to 400 Rupees which is not a fifth of the amount estimated by Mr. Sick.—

The Tahsildars Estimate includes repairs to the Tank to the supplying channel and to a Spring channel which irrigates the lands. The Tahsildar reports that the Desabundumdar has †spent 780 Rupees on the tank in 1856 but that the tank is in a bad condition and that the channels are neglected.

acknowledge the receipt of Extract Proceedings Board of Revenue No 4381 dated 25th November 1858 in which the Board state that they "only intended that the Road cess should be blended with the assess=

new rates sanctioned for the District—
Those sanctioned for the Northern
Talooks are exhibited in the accompanying
Statement together with the results that
would follow from the addition of 2
per Cent to each rate.— Those results
shew the extreme undesirableness of
such a measure to say nothing of the
inexpediency of again altering rates so
recently sanctioned.—

3 The Board state that
such a plan would obviate such
complaints as those recently made
by the ryots at Palmanair but in the
first place I apprehend that such an
alteration of the rates would create
real and well founded dissatisfaction
and

and in the next place it is evident that
the partial object to the Road Fund
which is stated was subsequently with-
drawn was a mere pretext the real
grievance being the new Forest Conser-
vancy Law for although the settle-
ment of Palmanair was unavoid-
ably delayed till October the
balance of Ryotwaree revenue
outstanding on the 30th of that
month was only 81-3-2 in Palmanair
Taluk and 17-10-4 in Vencatgherry

before the 30th November while that of
Palmanair was reduced by that date

B. No. 5566
From the Collector
of North Arcot

Sir,

I have the honor with reference to para 4 of Extract Proceedings Board of Revenue No. 3363 dated 7th October 1857 to submit a Statement shewing the usage obtaining in this District in regard to the services performed by the Pullacattoo Enamdars.—

2 It will be seen from the Statement that these Enams are confined to 3 Talooks, and that the total number of Enams is 281 that in 188 of these Villages the Enamdars do the duty of monigars and that in 93 they perform no duty.—

I have

3 In the Glossary marked B of names given to the Bara Balothee or Village Servants &c. in Northern Division of Arcot forwarded to the Board by Mr. Robertson, the 18th February 1830, Pullicuttoo Enamdars are entered as Village Sibbundy; and Mr. Bourdillon in his state=ment shewing the various des=cription of Enams, transmitted to the Board with his letter of the 28th July 1854 includes Pulli=cut Enams among those com=prehended by Regulation VII of 1831.—

4 I cannot however con=sider a Pullicuttoo Enam to be of the same nature as the Enam

Enam of a Village Manegar. The Pullicuttoo Enamdar obtained his enam for a service which he has completed, and there was no obligation in his case to perform any further service to Government, whereas the Village Manegar is bound to continue the performance of cer=tain services, which if discontinue=d render his Enam liable to forfeiture.—

No. 257

To

I. D. Sim Esqre

Secretary to the

Board of Revenue

Fort St. George

Sir

B. No. 5583

From the Collector of North Arcot

I have the honor to submit the following explanation, with reference to Extract Boards' Proceedings dated 29th October 1858 No. 4083, on some points, on which I have failed to make myself understood in my previous communications, and also to forward the information required by the Board in those Proceedings

2 In Extract of their Proceedings No. 1807 dated 20th May 1858, the Board refer to my letter of the 13th* March 1858, as recommending that the linear measurements of fields contained in the Pymash accounts should be omitted from Statement No. 6 of the Village accounts

But my letter was not written with such an object. There had never been any question

of

* Should be 15th

Fort St. George 28th December 1858.

of rewriting No. 6 of the Village accounts which has been in use for the last 3 years it has always been prepared by the Curnum and has never contained or been intended to contain linear measurements When therefore the Board's Proceedings of the 20th May 1858 were received by me, I concluded that No. 6 was a clerical error and was the more confirmed in this opinion because the Board proceeded to state that I might omit in preparing Statement A, Columns 10, 11 and 12, which are the Columns for the linear measurements and square Contents, and which permission it was the object of my letter of the 15th March 1858 to obtain.

3 It would seem however from para 3 of Extract of the Board's Proceedings of the 29th October 1858 that I was in error in soliciting orders on a subject already disposed of but it appears to me that some misapprehension has arisen regarding the

Register

Register to shew the new assessment and Statement A. These are referred to by the Board as distinct accounts but they are in fact the same.

4 In Extract Minutes of Consultation No. 1179 under date 22d October 1855 R D in which Government direct the rewriting the survey accounts in connection with the revision of the assessment, they expressly direct in para 2, that "the record to be thus framed should be in form of Register A in the new system of Village accounts," the last column being filled up when the new rates for the Village shall have been determined. In thus writing this Register in the Form A of the new Village accounts, a sum of Rupees 16,000 was granted. The Board in para 4 of their Proceedings under reply speak of Mr. Baurdillon's Register and Statement A as distinct accounts, but it appears from the above orders of Government, that they are the same.

5 In rewriting the survey Register

Register in the form A of the Village accounts same modification of that form became necessary, because it provides only for entries from the Pymash accounts shewing linear measurements the square contents and extent, but has no columns for entries from the Jarum Chittah, which gives an extent differing in many instances from that shewn in the Pymash and is nevertheless the extent on which the revenue is collected

6 To obviate this difficulty, Government, in para 3, Extract Minutes of Consultation No. 132 under date 3d February 1857 sanctioned the opening of two new columns in Form A one shewing the number of the Field as given in the Jarum Chittah account which was found sometimes to differ from that given in the Pymash account, and the other column to shew the extent of the Field according to the Jarum

Communicated with Bds Pro. Dy 13th February 1857

Tarumchittah.—

7 In para 16 of their Proceedings dated 30th March 1857 communicated to me with the Proceedings of the 11th June 1857 No. 1984. the Board express their regret to hear "what I had reported in my letters of the 31st January and 2d February 1857 "as it will same what deteriorate from the value of Register A for which a considerable sum has been sanctioned. It will not however destroy it entirely nor will it, the Serishadar states, present an impediment to the revision of the assessment." In their reply; Extract Minutes of Consultation under date 2d June 1857 No. 545. Government state, that "they share in these views of the Board" and observe, that "as the reduction of over assessment in a satisfactory manner is the sole object of the present enquiry. Such

Regd DG

such exactness only as may be necessary to secure that object should be arrived at, and that the preparation of Register A, on a more perfect model, would be a work more properly left to be undertaken at the period of the general survey.—

8.— Mr. Banbury, the additional Sub Collector, was at that time, as the Board are aware, entrusted with the completion of the revision of the assessment, and to him therefore was committed the duty of preparing the Register or Statement A with my Letter of the 22nd January 1858 No. 75. I forwarded to the Board

14th January Copy of a letter from Mr. Banbury on the expediency of rewriting Register A, observing that from the late date at which Mr. Banbury had made the reference, it was clear that he considered the orders of Government (quoted in the previous para) to authorize the postponement of

rewriting

re-writing that Register till the general survey. but that the Government only said that such exactings only should be viewed as might be necessary to secure the object stated, and that it therefore appeared to me that Govern=ment intended the Register A should be prepared from existing materials.—

9. In Extract Board's Proceed=ings No. 1158 dated 31st March 1858, the Board replied to that letter— They stated that "they were of opinion that until the general survey the re-writing of Register A was not desirable, as much trouble and expense would be involved in its preparation, and it would probably not escape being tampered with, before the general survey reaches the District.—

10 In the mean while, be=fore a reply had been received to my letter of 22nd January, I again ad=dressed the Board on the subject of re-writing

re-writing the survey account in the Form A I had looked further into those accounts, and in my letter of the 15th March 1858 I pointed out, that the Curnums, in preparing annually the No 4 or Adangal account of the new Village forms, made no attempt to reconcile any discrepancies that might exist between the Pymash and Tarum Chitta=tah accounts, but adopted the simple expedient of ignoring entirely the Pymash account and preparing No 4 from the tarum Chittah— I also pointed out that in one Village taken at random, a discrepancy existed between the Pymash and Tarum Chittah accounts in 38 consecutive num=bers and that in two or three instances, the difference was of the amount given in the Margin, and that in

every case, the extent given in the Tarum Chittah, was adopted by the Curnum, in preparing N.& I then) proceeded to question the expediency of incurring so great an expense as would be entailed by rewriting the survey accounts, with the sole object of retaining the linear measurements, for it is in that respect only that the Tarum Chittah is less complete than Pymash—

11— To this letter the Board replied in their Proceedings of the 28th May 1858 No. 1807, and my answer of the 27th September No. 193 to that communication, elicited the further orders of the Board in Extract of their Proceedings No. 4083 dated 29th October 1858 now under reply—

12. Under this explanation the Board will perceive that my letter of 15th March 1858 No. 46, which elicited

elicited their orders in Extract Proceedings dated 20th May 1858, was written prior to the receipt of their final orders, conveyed in Extract of their Proceedings dated 31st March 1858 No. 1158.—

13 As the instructions in paras 5 and 6 of the Board's Proceedings under reply, have been framed on the supposition, that Mr. Bourdillon's Register and Statement A of the new Village forms are different accounts and as the Board have passed final orders regarding Statement A it is necessary for me to receive further instructions on the subject, before carrying out the Board's orders.—

14 No portion whatever of the two sums mentioned in the last para of the Board's Proceedings, has been expended—

Sir,

I have the honor with reference to an Extract from the Proceedings of the Board of Revenue dated 23d August 1858, requesting me to report on the case of the alteration of the dates mentioned in the charge against Baboo Row therein alluded to, to state for the information of the Board that from the explanation received from the Acting Head Assistant Collector, it does not appear that the alteration adverted to was made with any fraudulent intent - It also appears that in addition to the alteration of dates there was some delay on the part of the Head of Police, and Mr. Elliott's Taking inflicting a fine adverts to both offences -

2 - The case was one, which

had been dismissed by the Head of Police, and it was sent to the Assistant Magistrate with a view to his ascertaining whether the Head of Police had been justified or not in adopting that course. -

that in Fusly 1265 a Mr. Lovery residing at Madras, cultivated certain lands in the four Villages noted in the Margin attached to Trivallum Talook in this District, but failed to pay the assess=ment due thereon amounting to Rupees 201-10-3- A sum of Rupees 30-7-9, being the amount of compensation due to Mr. Lovery for land taken up by the Railway Company has been carried to the credit of Govern=ment thereby reducing the amount of assessment due by him to Ru=pees 171=2-6.-

2.- It appears from the report of the Tahsildar of Trivallum that Mr. Lovery was not to be found either in the above named Villages or in any other part of this District since the demand became due, but that he possesses a building in the same Village called Luttairy

Luttairy in the same Talook, which the Tahsildar suggests may be sold and the sale proceeds thereof carried to account in satisfaction of the said demand.-

3. The land was attach=ed under Regulation XXVII of 1802 but on the passing of Act XXIII of 1856 the land was releas=ed from attachment, and the proper course seems now to be to sell the house in ques=tion and I beg to solicit the sanction of the Board for disposing of it by pub=lic auction.-

4.— The Tahsildar re-
=ports that the Railway
Officials who occupy the
house, and who were the only
parties from whom any in-
=formation could be obtained
regarding Mr Lowry, have
stated that they are desirous
of purchasing the building
if sold by public auction.—

No. 266

To J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St George

B/No. 5656
From the Collector of
North Arcot

Sir,

I have the honor to submit the scheme for a revision of the assessment in the Sattenaid Taluk called for in para 1 Extract Proceedings Board of Revenue No. 3485 dated 16th September 1858.

2 In para 2 of their Proceedings the Board advert to the fact that para 18 of Mr Bourdillons letter of the 23d October 1854 as well as other parts of that letter shew that he Contemplated such a scheme of reduction as would place the lands of that Taluk on an Equality with the rest of the District.

The measures advocated by Mr Bourdillon appear to have been the following four.

1st To lower the assessment of the second Crop.

2dly

Fort St. George 28th December 1858

2dly To reduce the assessment of the higher first Crop.—

3rd To change the present rates into terms of the Rupee by which a slight reduction would take place.—

4th To class manavary lands as Poonjah.—

3 All these measures have been carried out and the scheme founded on them has received the sanction of Government The assessment of the second Crop which in some Villages was the same as that of the first crop and in others $\frac{6}{8}$ & $\frac{5}{8}$ of the first, was in every Village reduced to one half.—

The assessment of the higher first Crop has been reduced from 9 to 19 per cent.—

The former rates were changed into terms of the Rupee

And lastly the manavary lands have been classed as Poonjah

The

Fort St. George 28th December 1858

4 The 3d of the measures adopted that of bringing the old rates to the nearest terms of the Rupee which constituted the new rates left some of the old rates untouched as will be seen by an inspection of Columns 2 and 4 of the statements Nos 1 and 2 a few instances in which the extent of land Concerned is not inconsiderable are noted in the margin. In such cases the road fund of 2 per cent was an additional impost and as it was not intended that the assessment should be raised in any Taluk some further remission of the assessment in this Taluk is necessary

		C.	C.
		126	24
7	7	168	25
5 - 4	5 - 4	172	91
3 - 8	3 - 8		

Another Consideration called for owing to the same necessity is that the denial in future of remissions hitherto usual for Mullacumme Mothungal &ca is grounded on the large reductions of assessment made in this District

But

But suttivaid has not shared largely in these reductions and as has been shown some rates even when the extent of land involved is not inconsiderable, have remained precisely what they were before the revision. —

5 The scheme now submitted by desire of the Board is intended to obviate these two objections a further reduction on the Punjah rates in which the previous reduction did not reach 6 per cent, and on those poonjah rates that obtained less than three per cent reduction so that all punjah rates shall be at least 6 per cent lower than the old ones, and poonjah rates 3 per cent is the principle on which the scheme is framed. —

6 such an amount of reduction will not only meet the impost of the Road fund but may be also Considered as a fair set off considering the Circumstances of that Sal ook against the withdrawal of the remissions hitherto granted

7 The financial results of this scheme are given in the subjoined

subjoined statements. —

With reference to my letter of the 19th November last No 295 recommending the appointment of the three individuals therein named as Dunnacaralahs or trustees to the Pagodah at Poloor the Board in Extract from their proceedings under date the 22d December No 4626 desire to be informed whether the nomination requires their Confirmation by usage and whether the proposal of holding any one of the three individuals responsible for the due expenditure of the Tusdeek allowance of the Pagodah is advisable or safe.

2 When Dunnacaralahs were

first

Fort St. George 28th December 1858.

first appointed in 1842 the nomination to the trusteeship of the Lutchmenarasimah Dasastanum at Poloor was submitted for the approval of the Board No private person is competent to make provision for the succession to the trust & management and it is the province of the Collector as the local agent to propose for the approval of the Board the persons chosen by the inhabitants of the place who are reported fit for the office.

3 With reference to the advisability of adopting the proposal made in para 4 of my letter above quoted the Tahsildar was directed to ascertain whether the individual who was willing to be answerable for the misuse or due appropriation of the Tusdeek money could not alone be nominated to the trusteeship. The Tahsildar has in reply reported that he consulted the wishes

wishes of the Village Community and that they are unanimous in their wish that the three individuals selected should be nominated and that those three persons are unwilling to be jointly responsible for the Insdeak Chumey and have given in a Statement to that effect

4 I have the honor therefore to request that the Board of Revenue will be pleased to authorize the nomination of the three individuals above referred to viz. annivair Soobbier and Ramtroosoobbier as trustees to the Lutchmeenarasimmah Dawns tannum at Poloor.

No. 2043 dated 10th August 1855 I forward the Statement referred to in Para 5 of my letter of the 1st August 1855 No. 95

2 It appears that the total extent and Assessment of Village Enams alienated by mortgage Sale or Gift are 218 Candies and 11 Pucs 27 -

3 I am not able to state in what cases the transfers took place prior to and in what cases posterior to the Enactment of Regulation VI of 1832 To ascertain this would require a lengthened investigation and would occupy time and attention which the Salt Authorities can ill spare and considering the late period at which the information now submitted has been obtained it would be impossible to say when the results of such an investigation could be Communicated as such transfers have long been Contemplated

in

Fort St George 28th December 1858.-

in this District it seems probable that a great part at least of these Enams changed hands before 1831.-

4 Adverting to the not inconsiderable extent of these alienated Enams & to the undoubted long possession of the present holders in some cases also to the Continuance given to these transfers by the local Authorities Carried to Jear in one instance as to induce the then Collector to advocate their legalization I would beg to recommend that the present holders be maintained in possession on the understanding that they perform the duties for which the Enams were granted.-

5 I have already stated in para 4 of my letter of the 1st August 1855 that I have since my arrival in the District refused to recognize the legality of such transfers, and have declined to register the possession of Alienated shares—

From the Collector of North Arcot

Sir,

With reference to the endorsement on Petition No. 2982 of 1858 presented to Government by Ramasamy Moodeliar an English writer of the Police Establishment at Arcot complaining that a private arrangement had been made with reference to his pay & requesting that an order might be issued for the regular disbursement of his full monthly salary of Rupees 15-12 as per sanction of Government, I have the honor to state for the information of the Board that the sum of Rupees 8-12 as the amount of the salary of a writer attached to the Cutwal's Chaultry entered in the general Baravarth and not 15 12 as stated by the Petitioner who has never drawn more than 8-12 a.

2 A sum of 15 12 was entered in the Baravarths prior to July 1851 as the salary of a writer attached to the Cutwal's Chaultry at Ranipett but on the 16th January 1860 Mr. Bourdillon, the then Joint Magistrate, subdivided the appointment nominating the Petitioner

I have the honor with reference to Extract Proceedings Board of Revenue dated 19th May 1857 No. 1700 and to Para 5 Extract Minutes of Consultation under date 18th May 1854 No. 565 to forward a Comparative Statement between Fusleis 1265 and 1266 of the extent of Cultivation of Garden Lands watered by wells in this District

2 The increase in Fusly 1268 is inconsiderable in consequence of the unfavorable nature of the season in that and in preceding years. —

3 The whole of the land entered in the Statement has, in the course of the recent reduction of assessment, been classed as Poonjah. —

In acknowledgment of the Boards Proceedings dated 27th April I have the honor to state that I am not aware of any objection to Carrying out the arrangement therein proposed for Commuting the present money payment to the Chellumbarum Pagoda for a grant of Rent free land and allowing the Ryots of Yelamgumboor the benefit of the reduced assessment as however there are several other Villages where deductions are made for religious institution in the same I also look under the term Kovil punnay it seems desirable that all such cases should be treated alike and be disposed of at one & the same time. —

2 A list of these Kovil punnay deductions including the Village of yellamgamboor will be found in the Statement submitted with Mr. Hall's

22152 Fort St. George 28th December 1858

Hall's letter dated 13th March 1855 No. 765 to 789 and I would solicit the early sanction of the Board to grant Rent free land in all the Villages specified, equal in Value to the fair average amount of the deductions hitherto made. —

Chief Secretary to Government
Fort St. George

Sir,

In reference to my letter of the 28th Ultimo and in pursuance of the order Conveyed in Extract Mercutes of Consultation dated 1st Instant No. 1199 I have the honor to forward for the Consideration and orders of Government a †project framed by the French Government for regulating the manner in which the revised Tariff is to take effect from the 1st October nesct. —

† received yesterday

2 The arrangement now submitted by Mr. Dubrayr for the approval and sanction of the Government goes considerably beyond the Concession contemplated by my proposal of the 16th December last In suggesting that the French Government should be requested to Collect Export Duty under arrangements similar to that in operation with respect to grain

Fort St. George 28th December 1858

grain upon Certain articles which were newly added to the Tariff because they had become objects of Commerce it was not the intention to introduce any alteration with respect to other articles already included in the Schedule. —

3 In the proposition now submitted the French Government undertake to Collect on behalf of the British Government, the duty upon all the articles enumerated in my letter of the 16th December last & which are specified in the Margin with the exception of Illupay Oil & Seeds Punna Kottay Oil & seeds and Tagaray seeds & also propose that Certain other Commodities hitherto liable to duty should be exempted from frontier taxation & they agree to Collect the duty on our behalf on the export of these articles by Sea from the French ports The following are the articles to which this proposition refers Gingely seeds Gusily Oil, Sugar Boiled Nut Betel nut, Cummin seeds Jaggery Lamp Oil and seed. —

Coffee
Chilly
Illupay
Seed Oil
Garlic
Ghee
Country Mustard
Onions
Punnay Kottay } and its Oil }
Turmeric
Tamarind
Tagaray Seeds.

4 The grounds upon which this measure

Regd RG

measure is proposed for adoption are given in the preamble of the paper now submitted the second clause of which may be thus rendered into English.—

"The following arrangements had been devised with a view to reconcile so far as the maintenance of the freedom of the French ports as regards the Export of the productions of the French Territory will permit the principle of exemption conceded by the British Government in 1819 in regard to all objects of Consumption with the right which the British administration possesses to Exclude from the exemption such of those articles as are also objects of commerce"—

5 In other words while the French Government appear to recognize the justice of the extension of the principle of taxation to all articles exported from the British Possessions into their Territory for exportation by sea. They claim on the other hand on behalf of the population of their Establishments the fullest application of the principle of Exemption for

for all commodities intended for its bona fide Consumption.—

6 Under this view the terms of the present proposition appear to have been drawn up and the articles specified in the margin of Para 3. have been included among those upon which the French administration undertake to Collect duty on behalf of the British Government on their Exports by sea from any of the French Establishments.—

7 To enable the Government to judge of the propriety or otherwise of according to this proposition I append a Statement of the amount of Frontier export duty levied upon these articles during the Fasly year 1266.—

1	Gingely Seeds	1208	2	6
2	Gingely Oil	358	14	1
3	Sugar	528	4	"
4	Boiled Nut	1649	14	10
5	Belel Nut	18	8	3
6	Cocoanut Seed	143	"	2
7	Jaggery	347	7	"
8	Lamp Oil Seeds	1496	14	8
		16630	1	6

8 It will thus be seen that in the event of the proposal being accepted the amount of Frontier duty to be given up amounts to no less a sum than 17,000 Rupees The greater portion of this sum however is Collected upon one Item Viz Gingily seeds & it will be remarked that this article which formerly passed free into 3 of the French Establishments will now be subject to the General Export duty by sea with regard to the other articles all of which may fairly be classed as articles of Consumption now are of any importance except sugar Gingily Oil and Lamp Oil and Boiled nuts I am not in a position to state positively that the production within the French Territory of any or all of these Commodities is sufficient for the Consumption but I believe that the quantities exported are very trifling The average export of Gingily Oil from Pondichery for the last 5 years has been 116 casks Valued at about Rupees 3,500 and of Lamp Oil 69 casks Valued at

at 2,000 Rupees - all that may be in excess of the Consumption of the place will pay the duty on Exportation & with respect to Gingely seeds at any rate we may Calculate on realizing the greater part of our present Collection I believe there is no export whatever of sugar or Jaggery from Pondichery the entire amount of duty on that article will therefore be surrendered on the whole the amount of duty which will probably be lost so far as this District is Concerned will be about Rupees 5000 but much of this will doubtless be made up by additional duty Collected in Tanjore and other Districts The Government will remark that with respect to those Districts the articles upon which the French Government undertake to Collect duty on exportation by sea on behalf of the British Government are as entered in the margin The frontier duty it will be observed has never yet been levied upon any of those articles except Gingely Oil

Tanjore
1 Gingly Oil
2 Lamp Oil Seeds
Rajamundry
1 Arrowroot
2 Betel nut
3 Corranden Seeds
4 Fenugreek
5 Lamp Oil Seeds

Oil in Tanjore.—

9 Under the circumstances I am induced to recommend that the Exemption Contended for by the Government of Pondicherry be extended to the articles of Consumption now enumerated some of which were formerly included in the Schedule and others only now introduced and that the propositions contained in the Paper drawn up by the French Government and now submitted for approval be acceded to.—

10 It appears desirable that the option provided for in the Concluding para of the Paper in question be distinctly kept in view and that the present arrangement be sanctioned experimentally to be renewed or not at the expiration of a period say 6 Months or one year sufficient to enable the Government to judge of the effect of this measure upon the Customs Revenue Frontier duty will be levied from the 1st Proximo in this District, on the articles Marginally noted

which

Article 5

Illupay Seed and Oil
Pinnay Coliay Oil
Sagary Seed.

which have been excepted from the present arrangement in consequence it would seem of their being produced in some quantity within the French Territory and exported to Europe.—

11 I have only to add in conclusion that a formal Convention between the two Government seems unnecessary. The terms adopted by the French authorities on the present occasion are similar to those which are ordinarily used in submitting propositions of this Nature

Should

Enclosure No. 3.

Accord relatif à la perception encas que touche les Etablissemens français del'Inde, de diverses droits de douanes établis par le Gouvernement de S. M. Britannique, a la sortie de certains articles exportés par terre ou par mer du Territoire Indien soumis à ce Gouvernement.—

L'extension prise par les exportations de certains articles exemptés jusqu'au jour, de tous droits, au profit du Gouvernement de S.M. Britannique, a leur entrée sur le territoire des établissemens français de l'Inde, ayant conduit le Gouvernt de l'Inde a viser le Tarif de ces droits, il a paru nécessaire de soumettre à une révision correspondante, les accords antérieurement intervenus (1) sur la matière, entre les administrations respectives des Territoire Indien soumis au dit Gouvernmnt.—

En conséquence il a été convenu dans la limite de ce que permet le maintien de la franchise dont jouissent les produits du Territoire français embarqués dans un des ports de ce Territoire, a consolider le principe de l'exemption consacré par l'accord du 26 Juillet 1819. à l'égard

égard de tous les objets de consommation, avec le droit qui a l'administration anglaise, de pourvoir à tout cause d'intervenir les articles qui font l'objet d'un commerce d'exportation, ne participent pas à cette exemption, les mesures suivantes sont établies concurremment arrêtées.—

Article 1er

Les droits dus en exécution de l'acte VI. de l'année 1844 sur les articles exportés des Territoires soumis au Govt de S.M. B. No. 4302
From the Ag. Coll. of South Arcot

Sir,

In my anxiety to place before the Government without loss of time the propositions of the French Authorities in regard to the operation of the revised Tariff, I find that I omitted to explain in the report which was despatched yesterday morning the object with which Gingily oil Seeds had been included by the French Government among the articles of consumption upon which duty should be collected on export by Sea.

2. In now hasten to supply the omission. I am informed that so extensive is the use of Gingily oil for domestic purposes among the native population that although upwards of 4000 cawnies of land are cultivated annually into Gingily Seed mixed with Indigo, within the French Territory, it is calculated that the production is insufficient for one third of the consumption. The greater part of their supply therefore is received from the British

Possessions

Fort St. George 28th December 1858.

Possessions whether in the Shape of oil or Seed and as the export of the oil is limited and a portion of it is re-exported by Sea, it follows that the consumption of the Seed grown in our Territory Must be considerable.

3. Under these circumstances the exemption of this article from Frontier taxation, though it will prove a great boon to the population of the French Settlements, will more materially affect our Customs Revenue than I at first supposed - and it will therefore be for the Government to determine whether in the event of the remaining propositions being acceded to, it will not be advisable to continue the collection of duty upon Gingely Seeds at the Frontiers instead of leaving it to be levied by the French authorities on export by Sea from their ports.

4. The free entry of Gingely oil will be no inconsiderable relief to the inhabitants and the Supply thus obtained will in all probability be sufficient to meet the Consumption.

5 A copy of this letter and of my report of Yesterday have been despatched to the Board of Revenue.

From the Actg Collr
of South Arcot

In compliance with the request contained in the Board's Proceedings of the 13th current, I have the honor to submit the correspondence which took place between this Office and the Department of Publice works respecting the erection of the Choultrum at the Vellaar, from which it will be seen that the sum Originally sanctioned amounted to 2,256 Rupees which was subsequently raised to 3,500 Rupees. The building was however completed at a cost of 4,300 Rupees as stated in Mr. Taylor's letter of the 2d Ultimo.

2d As to the information required regarding the "Choultrum fund" of this District I have the honor to state that it accumulated from the revenues of the Inamion Lands formerly granted to Choultrums and Bungalows

Bungalows under the management of the Collector, the greater part of which was appropriated by order of Government on works of public utility and that the sum still remaining in my Treasury amounts to Rupees 1,500.-

The accompanying Extract from a letter addressed by the Secretary to the Board of Revenue Department of Public works to the Chief Secretary to Government, will afford more detailed information on the subject.

Para 2. It will be seen from the Statement or "List of Bungalows" &c &c furnished by Mr Hallett that (35) Thirty five

five buildings have been from time to time, since 1821, constructed by Government for the accommodation of Travellers for the support of which, Enams of land have been granted in one instance 17 Cawnies and for the remainder 15 Cawnies being the quantity so appropriated of the 35 buildings it would appear that 29 are Bungalows & 6 are Choultrums and the total number of Cawnies amounts to 678-4 11/16 yielding an average annual Revenue of Rupees 1,783-5-7. In the remarks attached to the Statement it is said that all those Enams are under the management of the Collector from the proceeds the pay of Sweepers &c and the expense of necessary repairs &c are incurred in conformity with the object of the Grants the residue accumulates and is retained under the head of deposit "Choultry Fund" &c &c and the acting Collector in his letter adds - By judicious management a considerable amount× has accumulated which

Sir, Adverting to my letter No 382 of the 2d Instant. I have the honor to request that you will be so Kind as to take charge from the Tahsildar of Bowenghery of the materials specified in

in the Accompanying List and that you will also direct the Officer in charge of the range to carry on the work of building two out of the three Choultrums sanctioned by Government under date 5th April 1855.

The Amount Originally sanctioned was to come from the surplus Choultrum Funds and amounted to ₹6256 out of which I have already expended 804-8 for procuring teakwood planks and other materials. I request to say that upon examining the accounts I find that the actual balance then remaining is only 3500 Rupees instead of 5451 owing to other payments having been made from this source since the sanction was received, for the Choultrum this sum can be disbursed to you in the usual way whenever you like.

I beg to forward to you the plan of these Choultrums received with your letter of 29th August 1856 a copy of which was furnished to the Tahsildar of Bowenghenry for his

Sir,

I have the honor to inform you that the reduced amount mentioned in your letter of 1st May 1857 Rs. 393 as available for the Choultrums on Trunk Road No. 9 will not be sufficient to build two commodious and substantial Choultrums. The Original amount was Rupees 6256 - - with which it was intended to be

to build three Chuttrums namely one at the Vellaur annicut and the other two midway between that place and Punnoly and between it and the Lower annicut a plan was prepared accordingly but from the smallness of the Estimate the accommodation to be provided was restricted. But as the Original sum is not now available building more than two of the three Chuttrums is out of question and the price of Palmirahs has very much increased. I fear it will not be possible to build even two well.

Under these circumstances it has appeared to me that it will be a better plan to build one good Choultry having ample accomandation at the Vellaur annicut than build two in different ones. The annicut Choultry will be much more useful than one at any other place on the road as it will be midway between Punnoly and the Coleroon annicut at which places there are already good Chaultries and the distance either

either way is not more than a Native Travellers usually go in one day. The Choultry at the annicut is about half finished but if you approve my proposal the additions can easily be made to it and I will prepare a plan of them. I believe the Native community will be satisfied with the arrangements.

From the Collr. of Tanjore.....

The introduction of the new forms of Talook accounts received from Government, is attended with considerable difficulty. This of course, is to be expected on a first change of System, and the Talook servants not being yet familiar with the new forms and rules, there is a want of punctuality in the submission of the prescribed returns most of these, as under the new System, are required to be forwarded from the Talooks to the Head Accountant, who is stationed with the Treasury at Trangquebar, whilst the Duffer Cutcherry is with the Collector. Already and personal communication between the two Departments of account, being thus unpracticable, references backwards and forwards are found necessary, which

which are productive of delay.

From these causes, the Demand Collection Balance Statement for the month of August has not yet been received from the Head Accountant, but it is under preparation and will be submitted as soon as practicable.

The total amount sanctioned for the Boyzoor and Talook Revenue and

2. The particulars of this increase are given in the margin. The first two items are not properly chargeable to the fixed Saderwards and will be included hereafter in the monthly contingent Bills.

3. The 3d item, or the Jummabundy saderwards of the Puttoocottah Talook for Fusly 1265 and 1266 was not included in the abstracts of the Fusly to

to which they appertain, owing to the none-receipt of accounts at the proper time.

4. The introduction of the new Salt Forms has entailed the additional expenditure shewn on that account.

5. The last item of charge was peculiar to the past year, consequent on the political occurrences in the North west and the extraordinarily high price of oil being double the rates previously obtaining.

6. Under these circumstances, I beg to request that the Board will be pleased to obtain the authority of Government for this excess of charge over the sanctioned sum, amounting as already stated to Rupees (280-14-8) Two hundred and Eighty annas fourteen and pice eight, as the Civil auditor has refused to pass the excess in question.

In their proceedings of the 18th September last, No. 3531, your Board called for certain information relative to the Choultry at Paroovalundan which, as desired, it was my intention to submit at an early date but I have been prevented having consequent on the detention for a special duty at the extreme South of the District of the Assistant Collector Mr. Kerr who otherwise would have visited and reported on the present condition of the Choultry.—

I now beg to reply to

the four questions propounded by
your Board. The Meerasowarum

of the villages forming the endowment of the institution has been collected on behalf of Government during the four years of amauny management and, as stated in paragraph 17 of my former communication, has been carried to the credit of Government as there is now a sum of only Rupees 135-13-11. in deposit as a reserve to meet the current demands on account of sibbendy charges.

3. A balance of Rupees 1690-10-11 was not standing against the villages when they were brought under amauny in Fusly 1264. This balance accrued in the unfavorable season of Fusly 1263, in which owing to a combination of high prices

prices and low produce the holders were unable to pay up the full demand within the year having discharged Rupees 3056-7-7. out of a Jummabundy of Rupees 4747-2-6. they applied for permission to liquidate the residue with the Kists of the following Fusly 1264. Their request was acceded to by the then Collector Mr. Forbes, and orders were sent to the Tahsildar to take in writing from the parties an agreement to that effect, but the Villages having in the meantime been brought under attachment in conformity with your Boards orders, the Proprietors, of course refused to enter into any engagements about outstanding arrear due on Villages no longer in their possession otherwise, they were prepared to pay it and had been negotiating only for time so as to discharge it by instalments.

4. The buildings which con=

I have the honor to state

2. that as concerns Tobacco, I find on enquiry, that the notification of the Supreme Government which reduced the duty from 10 to 5 per Cent, must have been altogether overlooked in the Sea Customs Department of this Collectorate.

In the same manner,

also as regards Iron, it would appear that the provisions of Act VII of 1848 have been disregarded.-

4. To a certain extent these neglects may be attributable to the fact that a Copy of the Fort Saint George Gazette has not been officially supplied to the Head Assistant Collector, who as the Board are aware, is permanently Stationed at Negapatam with the entire charge of the Sea Customs and Salt Department-

This Village was never sequestered

N.B. 1 The land according to Pymash is less than according to the Registers because it does not include the Perumbeke.

2 Translation of the grant to which this case refers was sent to Board in connection with Tabular Report No. 92.

This is one of the numerous Villages granted under one general Summud in A.D. 1784 by Tolaja Maharaja to the Brahmins of the Arantangy District in the Talook Puttoocottah The summud is Registered No. 22 of the Collectors Shotriems Register

Seclarayan died 1st March 1855 was not known to be a Relation of original Grantee.—

Maradattoor and a half from Ramalingah.—

Soobbarayen deceased's Father held in this or Village one Pungoo of land but how and when he obtained it is unknown. On his death it passed to his 3 Sons Annavaum: my a Soobboocotty Ayah and the last holder. The first of these appears to be a registered holder The three continued jointly to enjoy the land until 1821 when they divided it.—

A6 This division the share of the last holders Amounted to 3/8 Pungoo to which in 1822 he added by purchase.

Annasawmyah. The others have however been land holders in the Village for many years past. Of the above mentioned 31/32 the deceased holder sold about 6 years before his death 5/16 to his brother, Soobbroyalty Ayen 1/16 to Appanayangar and 1/32 to Ramalinganadyar in 1847. He also in 1840 Mortgaged to one Gopalyangar 9/16 of a Pungoo. He thus died possession of 2 7/8 Pungoos including the portion Mortgaged which has since been redeemed by his son Rama: nadyen. The Son having in 1856 sold to Appanayengar 7/8 of a Pungoo has now inherited the remaining two.—

In this case then it is not known whether the 2 7/8 shares left by the last holder were or were not not in possession of the family of the original grantee. As the Shotreem however, is an ancient grant, and as most part of the 2 7/8 shares under enquiry may be obtained by bonafide purchases, I recommend their continuance to the two persons who now hold them Viz. 2 shares to Ramanadyan the last holders' son 7/8 share to the purchaser Appayengar.—

Redeemed only the Remaining 17/32 being enjoyed by the late holder at his death. For the first mentioned two purchases & for the Mortgages from Gopaliyan deed are produced.

No information can however be obtained respecting the sellers or mortgagees or as to how the 1/16 Pungoo which the deceased inherited was at first acquired. It is thus not known whether the 17/32 Pungoo in question was in possession of the family of the original grantee in July 1802. I therefore report the case for orders recommending that in consideration of the ancient date of the Grant & of the Value paid by the deceased for the greater part or 15/32 of the land that the whole 17/32 Pungoo be Continued to his son Sammy Vadiar, his temporary interest in the Mortgaged portion of it 8/32 Pungoo being duly noted in the accounts subject to Redemption by the Mortgagors' family at pleasure.

Sir

In the enclosed address to Government Tanjapayen Streenevasabhattra Chariar solicits permission to sue Vencata charry and others to recover certain Enam land.—

2. Petitioner however has declared here that he has no demand against others than Vencata Cherry from whom he claims 2.9 Goolies of 2—4 G. of Survamanium land in the village of Hottagoor Combaconum Talook It formed, he states his inheritance and he alleges that the above portion has been usurped by his opponent.—

3. Vencatacharry however denies the trespass and affirms that the 2.9 Goolies are part of his own inheritance and that as Petitioner had encroached on them, he regained possession under a judicial award.—

4. The 2.9 Goolies in question are entered in the Survey account of Fusly 1239 as being then held jointly by Petitioner and some other sharers in the Anoabhogum account of Fusly 1258 the land is registered in Petitioners name It yields annually to the Survamanium = dar

dar. Annas 7–5 and forms part of an ancient Sicca Summud grant registered in the Collectors Office for 1½ vaily of land in favor of one Streenevasacharry a Grantee, in A.D. 1694 by Rajah Shahajee. It was in possession of the family of the original grantee in July 1802 and therefore comes within scope of the Boards Circular 11th August 1853, Both Petitioner and his opponent are lineal discendants of the original grantee.

5. I see no objection to Petitioner being permitted to sue for the recovery of the land.

Sir,

Bc. No. 5848
From H. D. Phillips Esqre
Collector of Tanjore

I have the honor to submit a List of useless Hindoovi and Tamil records which I request the permission of the Board to destroy.

2 The accumulation of records has of late years been proceeding so rapidly and without any probable advantage to the State or to individuals that it becomes imperative

to

to retain none that can be dispensed with.

The convenient, spacious record building at Tranquebar is now quite full: nevertheless it is necessary I should some how make room for current and other records - I cannot see any way to such an arrangement without soliciting sanction for an outlay which, at the present time especially is not likely to be approved -

3 The Board will perceive from

from the accompanying List that what is proposed to be destroyed is quite useless and may well be removed -

Sir

B. No. 3904
From the Collr of Trichinopoly

I have directed by Extract from the Proceedings of your Board No. 2624 dated the 15th Ultimo I have the honor to furnish the Explanation required on the several points and discrepancies brought to notice connected with my Report and statements on the Land and Extra Revenues of this District for Fusly 1266 and in submitting my replies I beg permission to follow the order of procedure paragraph by paragraph

Para 2 of Proceedings 2 The Establishment of Subordinates attached to the Sherishtadars Department of this Cutcherry is too limited to admit of the settlement being prepared in each Talook There are nine Goomastahs of these

these two are employed in the Treasury office a third as a Samahnneyo under the Sheristadar leaving only six men available for the settlement and other current duties of the office since the addition of Manapara from Madura to this District the talooks are nine in number consequently it became imperative to make arrangements for the preparation of the annual settlement in such a manner as would not only meet the means at my disposal but would be the least inconvenience to the people

3 To the talooks of Terriore Volcandapoorum Arrealore and Woodiar pollum I deputed one Gomastha each For Conand and Laulgoody the station of Jemboolkaismaram on the island of Seringham was selected as being convenient ly situated for these talooks. Close to the town of Trichinopoly and not far from

from Laulgoody itself The Naib Sheristadar and one Gomashta were detailed for the preparation of the accounts. The talooks of Mooseery and Vitticutty are in juxta position and run parallel to one another on either bank of the Cavery The Cutcherry of Mooseery is convenient for both talooks and was selected in Consequence as the station of Settlement Manapara was added as not being very distant and because no other arrangement could be made The Head Sheristadar with the one remaining subordinate undertook these talooks and I moved to Mooseery at the same time with my Cutcherry

In the preparation of the Jumabundy accounts only were the orders of the Board deviated from In the distribution of the puttahs & in the assembling of the ryots the instructions of the 22nd Novr 1849 were regularly attended to and in nearly all the talooks of the Province I met the inhabitants at two or more places

I beg to furnish a return of the period I was personally present for the settlement in each talook The whole district was undertaken by me in Fusly 1266

Fort Saint George 28 December 1858

Para 3

5 The number of Villages for the talook of Manapara as given in the body of para 39 of the Report and the number entered in the Statement attached to the paragraphs are in themselves Correct

When the talook was originally made over from Madura it consisted of 31 Ryotwar Villages & consequently assisted to increase the District number by so many But subsequently when under the orders of Government of the 11th October 1856 the boundaries of each talook were adjusted and their size equalized an additional Ryotwar village was transfered to Manapara from Vitticutty talook thus making 32 Villages

So likewise for the same Cause is the further descripancy of 8 Villages to be accounted for They are Ryotwar and Shotriem Villages transfered to Manapara from another talook

6 The return given in by me are there = fore correct and I insert here the original

There is still however a difference of nine hamlets between the Collector of Madura's Returns & mine which I am unable to account for or Explain-

Para 4 With Reference to the Remarks of the Board being unable owing as to the many transfers of Villages &

the accounts not excluding what the previous Settlement was upon these transfers to trace the increase in the Ryotwar cultivation and Hariz satisfactorily for purpose of comparison with Fusly 1265 I beg to state that the Comparative Statement of Cultivation and settlement Enclosure A in No 3 is so arranged as to give the returns for Fusly 1265 according to the present extent of each talook after the exchange of Villages and therefore for purposes of Comparison the statement attached to para 10 is Valid

Para 5 The information here required cannot be obtained from the accounts furnished with the Report The formula of the several statements do not require a talookwar Comparison of Cultivation and settlement for past and present years A statement is now forwarded which gives the required comparison & exhibits an increase in favor of Fusly 1266 in cultivation

to

to an extent of Acres 1452

With reference to the entries in the Abstract Statement attached to para 10 excluding the cultivation for Fusly 1265 inclusive of Manapara while the amount of remission for the same period represents that of Trichinopoly Villages only I beg to explain there were no remissions granted at the Settlement of Fusly 1265 in Manapara talook and of consequence I had no other course but the one adopted. My report and returns shew the Exact state of the Cultivation and remissions in the District for the past year inclusive of the additional talook

Para 6. 9 The decrease for falling off in the item of Garden here exhibited is nominal and does not in

reality exist

In the Tarriore talook certain lands to the extent of 1456 Acres assessed at Rupees 10729 known as Punnavassay Gardens irrigated from tanks and other Government sources and raising similar crops to Nunjah fields were heretofore considered as Gardens and entered in the accounts accordingly In Fusly 1266 when making the Settlement this irregularity was brought under my notice by the proprietors claiming the reduced Garden Assessment for these lands I rejected their claim and transfered all these Punnavassay Gardens to the head of Nunjah But in the extent of Gardens cultivation Acres 35125 for Fusly 1265 these 1456 Acres of Punnavassay Gardens are included

Vide Extract Minutes of Consultations No 577 of 5th June 1856 Para 8-

Enclosure A in Statement No 3-

while

which for Fusly 1266 they are excluded-
Add that number to the Garden Cultivation
for that Fusly and the result will be

	Garden Acres	assessment Rs	As	Ps	Acres
Fusly 1266 — —	34388	93426	9	11	
Add Punnaravoay	1456	10729	11	2	acres and Rs 8820
	35844	104156	4	2	Rupees

Therefore represent a decrease of results and figures but not of land thrown out of Culture

Fusly 1265	35125	112247 — 4 — 3
Increase	719	1909 — 3 — 11

Para 7

10 The unirrigated lands of the District especially in the dry talooks require rest and to be thrown out of Cultivation for one or more years Such privilege is accorded to the Ryots by the 19th Para of the Hookum-namah rules of 1853 It is there laid down that if a Ryot fail to cultivate his land for two years consequently he will forfeit all his right to it and another

another may take it up This implies a claim to occupy the waste within the period But at the same time it does not give absolute right for the practise is that should another party wish to undertake such land the former occupant is called on to resume it or give up his claim- After two years lying waste this option is not made and any person may cultivate such fallows without question

Para 8-

11 I observe the error here pointed out the cowle remissions ought to have been entered in Statement No 4 as well as among the remissions of the year brought under notice in the Report such entries shall be made in future

Para 9

12 The orders here conveyed shall be attended to in respect of the Peishcush of Kantpootoor and the Manapardalook Mootahs

Mootahs The amount shall be entered as Permanently settled in Column 2 of State-ment No. 10

Paras 10- 13 After a carefull inspection of the accounts I find the amount entered under sundry items in Enclosure A of Statement 3 to be correct That given on the back of Statement 4 for the fusties 1265 and 1266 omits the sum of Rupees 2-5-2 This is an item realized on account of tax levied on a house ground within the Fort of Trichinopoly and ought to have been inserted but through Carelessness has been omitted I regret this omission and care shall be taken to prevent its occurence again

Fusly 1265 Fusly 1266
97075-9-3-95909-11-5

Paras 11 14 The instructions here given in respect of carrying to account the demand on the Zemmdaries of Terriore Woodiur pollium and Arrealore shall be only attended to & the entries

entries omitted from Statement No 12 in future The closing demand collection & Balance State-ment of the fusly shall be corrected

Deducting the addition received from Manapara the population of the old District has certainly decreased The Census for Fusly 1261 of Trichinopoly proper gives a population of 706042 That for Fusly 1266 is 692506 leaving a decrease of 13536 and not 16690 as stated by the Board

Para 12 15 I am unable to explain the difference of 2315 in the population returns for Manapara as given by the Collector of Madura Unless it be that the return quoted is the population in Manapara for Fusly 1261 whereas Fusly account is that rendered for Fusly 1266. The Collector of Madura could have no information of population returns for Manapara taluk for Fusly 1266

Para 13 16 The number of new wells dug in the district since Fusly 1262 is 1261 as entered in Statement 18 I regret much the error in para 42

It

It has originated in the number of new wells dug during the year being incorrectly set down The number should be 626 and not 398 The difference being 228 which if added to 1033 stated in the Report will make the total 1261 as shewn in column 30 of Statement 18

Para 14 17 I recognise the differences pointed out here between the items of Revenue demand as entered in Statement 10 & 11 & the closing demand Collection and Balance account for the year - The entire entries as per Statement No. 10 are correct The differences of Rs 714 accruing between Statements 10 & 11 on the demand for Jody on Shotriem and on Ryotwar Villages are occasioned by an erroneous carrying to the head of Ryotwar certain ready Money Collection items obtained from Shotriem Villages amounting to 714 Rupees which ought to have been entered as Jody - Hence the decrease and increase differances as shewn at under Jody on Shotriem and under Ryotwar

Ryotwar in the two Statements

The closing demand Collection and Balance Statement is similar to Statement No 11 except as regards the demand Ryotwar From that head Rupees 1500 were deducted and seperately entered as Rents for more than one year being on account of the Woodiar pollum Jungle lease to the Iron Company If this sum be added to the demand amount and the 714 Rs erroneously entered from Jody be then deducted the remaining demand will tally with the entries in Statement No. 10 For example

	Rs
As per closing Demand Collection and Balance Statement - -	1292.910
Add Rents for more than one year -	1500
	1294.410
Deduct erroneous entry for Jody -	714
	1293696
As per Statement No 10 -	1293697

Para 16 18 The number of Shotriem & Inam Villages and Hamlets for Fusly 1262 entered in the margin of this para as 113 & 12 respectively is correct in reference to the entries of columns 10

Fort St George 28th December 1858

10-11-24 and 25 of Statement 1 But the Board have omitted the five Tuncearasso Villages exhibited in Column 26 of that Statement which make a total of 118 Villages & 12 Hamlets for Fusly 1262

In Fusly 1266 One Shotrium Village reverted to Government making the number to be 117 From Manapara 19 Villages and 28 Hamlets were received giving a total of Villages 136 with 40 Hamlets. But to the Hamlets must be added 54 more discovered on enquiry to exist though never before brought to account making the true total of Shotriems to the Villages 136 and Hamlets 94 — altogether 230 These numbers ought to have been inserted in Statement 15 for Fusly 1266 in columns 11 and 12

Those actually exhibited are I am sorry to state gross and careless errors on the part of the Shershtadars of my Cutcherry

From the Collr of Trichinopoly

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board No. 2895 dated the 30th July 1858 on the Subject of levying a road fund in this District and in reply beg to state that on a due consideration of the Board's suggestion as conveyed in the 2nd para and from a perusal of Mr. Bird's letter of date the 8th July 1858 No. 130 I do not my self perceive any particular difficulty in Carrying out their Order in reference to the System adopted in South Arcot Viz to blend the Road fund with the rates of assessment at the time of their remission by adding 1 Anna per acre to the remitted rates & after the Settlement to deduct the Local Fund from the Gross Revenue as Berij. —

2 My predecessor Mr. Bird appears to

to have retained his disapproval of the scheme and his greater experience and knowledge of the district make me hesitate to differ from him but I fail to see how a rate per Cawny would press with any more material severity on the poorer ryots than a percentage on the rent roll of each. In cases of failure of crops the tax being blended with the assess-ment would of coure be included in any Remission it became necessary to make and the advantages of good roads are so pre-eminent as fully to justify the small cess pro-posed even in the face of some popular oppo-sition which however would soon disappear as the benefits become apparent.—

3. Adverting to the 5th para of the Board's Proceedings under reply I beg to submit copy of a communication and its enclosure from the District Engineer in reply to a requisition made by me and to express my concurrence in restoring the differ-ent lines of District Roads Exhibited.—

Sir

Referring to Extract Minutes Consultation 27th May 1856. No. 785 pub-lished in C. C. D. P. W page 441 I have the honor to submit a Statement of the roads which I believe are requi-red for the District.—

2. The necessity of some of them has been acknowledged by Government and Estimates have been sanctioned though the work is suspended much to the injury of what is already done.—

3. The Trunk Road to Madras needs no remark from me.—

4. The Road to Salem follows the North bank of the Coleroon to Sotcinth and thence turns north the first 15 Miles

Miles run through sand an Estimate for 8850 Rupees for metalling and gravelling this has been sanctioned and is urgently required.

5. I believe the whole traffic of the South should proceed along this line to Salem when the railroad is opened as far as that town which I observe has expected by next July — there is certainly no inducement for Carts to continue on the present unbridged road to Madras. —

6. The Road to Madura has never been made beyond the old frontier of the District the 30 Miles in the Manapara Talook are highly necessary I do not know in what state the road may be in the Madura District but I believe our duty is plain enough as regards the construction in Trichinopoly. —

7. The road to caroor is much in want of thorough repair. No Estimate has yet been sanctioned though I believe the road is a necessary one not only in a Commercial but in a Military point of view as being the direct line to the Sanitarium

Sanitarium at Sackatallahs from Trichinopoly and the Coast —

8. The Tanjore road as far as Towagoody is in fair order with a maintenance allowance. —

9. The road to Dindigul I have no information of I hear generally numerous complaints regarding its condition I merely enter it as one that should be made and maintained as a 2d Class Government road. —

District Roads.

1st Class. The road from Trichinopoly to Irmk road No. 9 joining the Cusbah stations of arrealore and woodiarpollium has been sanctioned at the Estimated Cost of Rupees 43,600 work stopped.

Ditto 11. A portion of it has been bridged in the Lowlgoody talook and a small distance has been gravelled the first 7 miles from the Coleroon bridge is unmetalled and ends at Kullagoody in black soil the gravelling.

gravelling is only 2 inches deep (2 inches below) and is much cut up a maintenance allowance 745 Rupees has been sanctioned for the 20 Miles but 37 Rupees a Mile for sand and black soil is not of much use.—

12 Trichinopoly to the Salem frontier by Torriore an Estimate for 50,000 Rupees has been sanctioned but the work is stopped this appears an useful line.

13. Trichinopoly to Combaconum 9 Miles in this District has a maintenance allowance of 495 Rupees and an Estimate has been sanctioned for improvements but it is insufficient.—

14. Munnachenellore to the Trunk Road 2½ Miles maintenance allowance 130 Rs. to connect a Town of some Commercial importance with Madras and Trichinopoly.—

15. Woodiarpollium to Madanaroorchy on the Coleroon bank an important line by which a large traffic is now passing for the import of subsistence to Combaconum this will also afford another Communication

cation with Madras viz to the latter place

16. The above I propose to enter as 1st Class District Roads while the following as being less important I consider only 2d Class.—

17. From Coolumbandy to Timanoor branching from No. 1 to large town on the banks of the Coleroon which as a trading connection with Tiravadi and Tanjore 9 Miles of this road has been gravelled and has a maintenance allowance of Rupees 180.—

18. From Timanoor to Trumbaloor by Reelapaloor completes the communication with the Trunk Road, it is an old line gone to ruin.——

19. Trichinopoly to Poodoocottah 8 Miles lie in this Districts with a maintenance allowance of Rupees 400.——

Trichinopoly

Jos. A. St. George 28th September 1858

20. Trichinopoly to Circarpal
