Sir,

I have the honor to state for the information of the Judges of the Sudr Court, that I have received reports that a portion of Ground for which the Salem Mootahdar claims rent as the site of the Salem Court, is not in the Government possession but cultivated by others. when the Judge of Salem applied for the rent. I requested the Mootahdar to point out the Ground on which he claims payment, which he has not done I would therefore suggest, that the payment should be with-held until he shews that the Government possesses the land & for which he calls on them to pay, I have had it twice inspected and the reports from both parties is the same. —

On referring to the Accounts of the last annual settlement submitted to Government (Fusly 1250) the Villages of Enjoor and Poongalum are entered as Shrotrium paying a quit rent of 60 Pagodas, but from the Proceedings of the Board of Revenue recorded above it does not appear by whom they have been held since Fusly 1231. The Statements of the Petitioners (who are the sons of the last incumbent) leave it to be inferred that they have not been enjoyed by them, since they merely state their conflicting claims for the terms on which they desire the Villages to be restored. Under these circumstances the Board will be pleased to call for and submit a

Sir,

From the Asst Collr of Masulipatam. Recommending that the Pension enjoyed by the late Nizam Ul Dowlah who died in April last may be continued and paid in arrear to Jalal Ul Dowlah, as the Eldest son and Head of the family—

(35)

Para 1. I have the honor to forward copy of a Petition addressed to the late Collector by Jalal ul Dowlah, Eldest son of Nizam ul Dowlah (son of the late Roostam Ally Khan Nabob of Masulipatam) who was in receipt of a Monthly Pension of Rupees 419-6-- and who died on the 4th April last—

2. The deceased left a large family, and it became necessary for the late Collector to institute an inquiry as to who was the proper person to be placed at the head of the family. This point was at first disputed, and in consequence of dissensions among the junior branches of the family as to the share each has to receive out of the Pension enjoyed by the deceased, the enquiry was necessarily prolonged—

3. Finally all parties agreed to the eldest son Jalal ul Dowlah being constituted Head of the family and when a reference on the subject was made by the late Collector to

to Nabob Intezam ul Dowlah Roostoom-
=jah, he in a letter to Mr. Ward the Head
Assistant Collector in charge gave an opi-
=nion to the same effect and at the same
time forwarded a list giving the names
of the family and the amount he pro-
=posed should be paid to each-

4. I forward a Copy of the
Nabob's letter, as it contains a full ac-
=count of the different branches of the
family and will enable the Board
to praceive how numerous are the
claimants for support from this Pen-
sion- I think the list prepaired by
the Nabob bears marks of a partic-
=ular bias, and as a list shewing
the mode in which he proposes to
distribute the amount of the pension
has also been given in by Jalal ul
Dowlah, differing in a few particu-
=lars only from that made out by the
Nabob, and as he is the best judge
of all matters connected with his
own family, I think that if any list
is to be recognized preference
should be given to the one preiared
by him-

5. I refrain, however, from
sending either of these lists as it appears

to

to me that a discussion of these points
is unnecessary and in fact opposed
to the wishes of Government, as expressed
in a letter from the Secretary to Govern-
=ment to the Board of Revenue, dated
2d. October 1821, and it therefore only
remains for me to propose that, as
the deceased has left a large
family entirely dependent on the
pension for support the whole pen-
=sion Viz. Rupees 419-6-a should be
continued and granted to his eldest
son Jalal ul Dowlah, as Head of
the family for the general support
and that it should be paid in
arrear from the 4th April last the
date of the decease of Nizam ul
Dowlah-

The 3d daughter is Bekhannum Bagum ~~&~~ whose age is 15 years not married. Jomma Bagum the mother of the above named persons and the widow of the said Roodbee Saheb is now living. The marriages of the eldest son Shajah Uddeen and 2 daughters, were performed by their grand father Nizamuddawlah Bahadur, two sons and one daughter are fit to be married, all these individuals are now living. The deceased Nizamuddawlah Bahadur had 5 sons and 4 daughters by Pareebagum who is alive. Eldest of the said 5 sons named Moojuffer Saheb, and the 2d son Gauzee Saheb, after having grown older were dead without Marriage. The 3d son Allaboddy Khan is now of 41 years age, he is younger by 10 years than Roodbee Saheb, by 9 years than Moojuffer Saheb and by 3 years than Gauzee Saheb. he is now alive and married

Jallaloddy Khan who was the deceased Nizamuddowlah Bahadurs 3d son by Parabagum, and who is the eldest of the deceased's sons now living, claims to the situation of the head of the family and promises that he will support the family properly and keep them in peace. Sumsamuddeenally Khan who was the 5th son of his mother, but now the second son and younger brother of the said Jallaloddy Khan, says that as all the members of the family are on good terms with him, he should be appointed as the head of the family or otherwise he wishes that the stipend which may be settled on him out of his fathers allowance may be paid to him separately.

4. All the other members of

of the family wish that, as the sole means of their subsistence is the monthly allowance granted by the Honorable Government, an arrangement should be adopted, so that the stipends which may be settled on them respectively should be monthly paid to their uninterruptedly, and without occasioning trouble on their part -

5. However I am glad to acquaint you that, with much difficulty I have settled all the disputes between the deceased Nazamuddowlah Bahadur's two sons and among the remaining family, and brought them to the terms of reconciliation, on condition that a list shewing the Monthly stipends which may be settled on them respectively, should be made and kept in your office for their benefit - To this, may be attributed the delay which has already occurred in submitting this report -

6. Under the circumstances I beg to suggest the propriety that a list shewing the Monthly stipends of the respective Members of the family shall be made and kept in your office with the

the sanction of the honorable Government, and at the same time the head of the family shall be strictly instructed to pay each member his fixed monthly stipend for every month. By this arrangement I think that no disputes will arise in future among the family, and if perhaps any will be raised regarding the payment of their respective stipends, and consequent complaints to be made to the authorities, it will be most easy to them to decide such complaints according to the list above referred to -

7. I therefore beg to submit a list shewing the respective stipends of the family people, which is prepared by me according to the intention of the deceased Nazamuddowlah Bahadur; and according to the customs of our family, as well as with reference to the amount of the deceased's monthly allowance -

8. As to the appointment of the head of the family it is my opinion that it is unjust to appoint the

the youngest son as the head of the family, while there is an eldest son who is deserving and competent—

9. Therefore, I beg to re=
=commend that the deceased Naza=
=mudaulah Bahadur's elder son
Jalaladdy Khan, (who is competent)
shall be appointed as the head
of the family, and accordingly
the payment of the deceased Na=
=zamudaulah Bahadur's monthly
allowance of Rupees 419-6- a be
ordered to him, with instructions
that he should pay the several
members of the family their res=
=pective stipends for every month,
without troubling them for the
payment—

10. In conclusion I trust
that my foregoing suggestions will
appear to you well ground=
=ed—

From the Sub Collr. in charge of Bellary--

Reports the result of certain accusations made against Sashagerry Row Tahsildar of Tadputry for purchasing and Mortgaging Lands in his Talook and requests the Board's orders on the subject--

Sir,

1. I have the honor to request the Board's orders on the following subject--

2. A man named Ramadachary who considered himself aggrieved by Sashary Row the Tahsildar of Tarputtry preferred several complaints against him for receiving bribes and purchasing lands in the Talook of which he was Tahsildar. These charges were investigated by the Head Assistant Collector Mr. Fisher who has the immediate charge of that Talook. Many of the charges were not proved, but the following on the admission of the Tahsildar are proved. They are as follows.

Charges.	Tahsildar's Statement.
1st. This was a charge made against the Tahsildar for receiving from one Streenevasachary in consideration of having obtained for him the Management of the Shrotrium Village of Peddamullapelly	The charge as stated is not proved. But the Tahsildar admits having lent Streenevasachary at two different times, the sums of 70, and 80 Rs. for which he took a bond

Peddamullapelly a Bhatwartie Enam, nominally, for 180 Rupees, the sum said to be paid for the same in a deed of sale.

2d. This was a charge against the Tahsildar for oppressing one Offee Saib, and compelling him to sell him his Kyratee Enam situated at Vellalore for 250 Rupees.

bond and the Bhatwartie Enam was mortgaged to him in security. The land consists of 14— Acres. 8 Guntahs — as. 5 3/4 assessed at Rs. 70- a. 14- p. 6. and the terms of the bond were, that the debt should be paid in 3 years or the land to be considered the property of the Mortgagee. The deed is made in the name of Vasdeva Row son of the Tahsildar, a boy of 8 years old.

The charge, as stated, is not proved. But it appears from the Tahsildar's Statement and documents that the land was sold by Offee Saib to Khan Saib 5 years ago, and Khan Saib (a substantial Renter) sold it to the Tahsildar for 220 Rupees. The land consists of 42 acres. 24 Goottahs — 10 as. 4 p. — assessed at 36- 8- 3- The deed of sale is made

3d. This is a charge for lending to Cowlighee Hanoomuntah Chary the sum of 110 Rupees and mortgaging his Dasavundum Enam Land.

4th. This a charge of lending to Vellaloor Kristnachary the sum of 300 Rupees secured on the Mortgage of certain Bhatwartie Enam land situated at Nittoor.

made out in the name of Vasdeva Row the Tahsildar's son.

The Tahsildar admits the charge, the land was mortgaged for 3 years and if within that time the money was not repaid it was to be considered as sold to the Tahsildar. It consists of Acres. 4- a. 1—25.10 assessed at Rs. 19- a. 3- p. 2- The Deed is made out in the Tahsildar's son's name Vasdeva Row.

The Tahsildar admits the charge. The Mortgage Bond shews that the land Mortgaged consisted of Acres. 47— a. 21- p. 13- assessed at Rs. 25- a. 8- p. 7- and that it was to be enjoyed as interest on condition of being restored when the debt was paid.

The

5th This is a charge of purchasing for 40 Rs. certain Enam Land situated at Tarpatty to which there was no rightful owner, but for which a fictitious claimant was produced.-

The Tahsildar denies the fact as stated.- The land was Kyrate Enam, and belonged to one Sydamee Koosiannah: mak and others- it was sold to Govinda Row (brother in law of the Tahsildar) for Rupees 40 & consisted of 2 Acres- G- 12 a. P. a- assessed at 6- 2- a-

6th This is a charge made against the Tahsildar for being concerned in an Indigo Manufactory as partner with two others; Curnum Yellojee and Venkatadry Ramana, but hearing that Sundry complaints were about to be instituted against him he withdrew, taking bonds from the other two partners for 1200 Rupees

The Tahsildar denies any connexion with the Indigo Manufactory, but admits that the two parties were in want of money and that a Sister of his wife named Tolsammah the widow of Russaldar Streenivasa Row came to Tarputtay & she lent money amounting to Rs. 1000 and took a bond payable in 5 Months The bond is however ... made

This

made out in the name of the same boy, Vasdava Row, son of the Tahsildar- This is explained by the Tahsildar to be in consequence of his Sister in-law having no son of her own, and being a woman was unwilling to have the bond in her name.-

7th This is a charge of lending one Vellalor Rajooty Sashachary the Sum of 180 Rupees secured on the Mortgage of Enam land in the Yadaki Talook with a provision that if the Money was not repaid in 4 Years, the land was to be considered as sold to the Tahsildar.-

The Tahsildar admits the Charge- The Land consists of 6 Acres 4- as. 30- a- a- assessed at Rs. 29- 5- a- and the deed is drawn out in the name of the Tahsildar's son.-

3- There are two other Charges for holding 2 pieces of Circar land, planted with trees and flowers by the Tahsildar, but they are not of a nature to need a report upon.-

4- The subjoined is an Abstract of the 7 foregoing Charges proved against the Tahsildar- A Statement of the land sold & Mortgaged is enclosed.-

5. In the Extract of the Proceedings of the Board of Revenue, under date 14th June 1826, in letter from the Secretary of the Board of Revenue dated 7th August 1826, respecting the possession and purchase of lands by Public Servants, all Revenue Officers were prohibited, under pain of immediate dismissal from purchasing, by private bargain, any lands in the provinces in which they respectively are employed." and again in a letter from the Secretary to the Board, dated 10th September 1829, in reply to a special reference from the Principal Collector of Bellary, it was declared "that the Rules laid down in the Board's orders dated 7th August 1826, are to be considered equally applicable to Enam as to Circar land, it being deemed objectionable to allow the Purchase of lands of any description by a public Revenue Servant except under the restrictions laid down in Para 73 of those Proceedings."

6. It is quite evident that the Tahsildar has been guilty of a breach of these Rules, which I am not aware have ever been rescinded. They appear however to be very imperfectly known, and probably, in several instances, transgressed, and the Board will perhaps agree with me, that the extreme punishment of dismissal is not needed in the present case. The more so since the Tahsildar states that he has no other transactions of the kind in the Talook. I should nevertheless recommend his removal to another Talook, but as the Collector of Mr. Mellor is acting temporarily in the Board it would be desirable to know his opinion previous to transferring Sashagery Row elsewhere.

7. I request an early reply to this letter, as I have thought it right to inform the Tahsildar that he must consider himself as suspended from his Office, until the orders of the Board are received, for I should not think myself justified in restoring him to his Talook in the face of the Board's Orders quoted above.

The

Proceedings Directing the immediate dismissal of Sashagerry Row from the Situation of Tahsildar of the Tarpuddy Taluk in Bellary for having obtained possession of lands by private contract in that part of the district over which he presides, without previously bringing the circumstances to the notice of the Collector.

(46)

therein.— The conduct of Sashagerry Row Tahsildar of Tarpuddy in obtaining the possession of certain lands by private contract, in that part of the District of Bellary over which he presides, without previously bringing the circumstances to the notice of the Collector, in view to the special sanction of the Board, is clearly shewn in the enquiry instituted into the several charges, detailed in the foregoing letter.— So direct an infringement of the rules laid down in the Board's Proceedings, under date the 19th June 1826, respecting the possession and purchase of lands by Public Servants, leaves the Board of Revenue no course but to direct the immediate dismissal of Sashagerry Row from his situation of Tahsildar.—

2. As it would seem, however, that

that the rules, respecting the acquisition of lands by public Servants in the provinces, are not generally known, the Board will leave it to the Collector to reemploy Sashagerry Row hereafter, in a less responsible situation in the Public Service, if he should think fit. Meanwhile they desire that the utmost publicity be given to the rules in question, and that all the native public Servants be warned of the consequences of their infraction.—

Ordered also that the following letter be circulated in consequence.—

Circular to all Collectors Except Bellary and Madras.

Circular.

The Board of Revenue having been led to believe that the rules respecting the possession and

and acquisition of lands, by native Public Servants, within the provinces in which they are employed are very imperfectly known, and not sufficiently enforced; resolve to call the attention of all Collectors to the Extract from the Board's Proceedings communicated by Circular, under date the 7th August 1826, and to request that they will make known the rules in question to their native Public Servants, intimating at the same time that any infringement of them will render the offender liable to immediate dismissal from the Service of Government.-

Sir,

From the Asst. Pr. Coll.r of Cuddapah

(48)

With reference to the Extract from the Proceedings of the Board of Revenue under date the 30th June 1841 I have the honor to submit a statement exhibiting the assignments of land proposed to be granted for the endowment of the Choultrees built by Butcha Row in various stations in this district.

This statement has been prepared under the orders of Mr. Ashton and as the Choultrees are all of great utility I beg to recommend that the proposed grants may be confirmed as otherwise they will, in a very short time, fall into disrepair, and there are no funds from which the necessary Establishment for keeping them clean can be remunerated.

To The Secretary to the Board of Revenue Fort St. George.

From the A.g Prin.l Coll.r of Cuddapah Sir,

(50) I have the honor to acknowledge the receipt of your letter dated the 25th August, requiring my report on the subject of the Cattoo=bady Enams, the improvement of the Police and the extinction of Gang robberies, to be forwarded as early as practicable -

2. The accounts regarding the Cattoo=bady enams are nearly completed and my report on that subject might be submitted in a short time, but as I am desirous of having the results of the present year exhibited in my report on the state of the Police in this District I propose, with the permission of the Board, to submit the whole of the above subjects at the same time to their consideration in the month of January -

3 In the meantime it will doubtless be satisfactory to the Board to be informed that the District is at present in the enjoyment of tranquillity, that there are no organized Gangs of

Sir,

I have been making Sugar on a limited Scale here for the past two years, and having got out an English Mill, I am about to set it up. Before erecting

erecting Buildings for the Mill, I beg to bring to your Notice the loss I have sustained the past two Seasons, from being unable to Sell or make any use of the Molasses remaining after the Sugar is made, and in doing So, beg you will be pleased to obtain for me the necessary permission to erect a Distillery and to Distill Rum, under the Same restrictions which Government Grant, or may hereafter Grant that indulgence to others. The Rum So made being Solely for exportation.-

Should this permission be granted, it will not only be a boon conferred on me, but on all the Ryots who Cultivate Sugar Cane Around this, Numbers of whom make Sugar and Know not what to do with their Molasses, whereas should I obtain permission to distill Rum, it will enable me when purchasing Cane Juice from the Ryots to purchase their Molasses from them also.-

With respect to Appoyee alias Journaky ummals request to be allowed to retain the management of the Estate during her life time I beg to observe that she never has had the management and that I do not see how the difficulty which Cachee Cullyanna Rungapah Calatta Tola Codiarr claims supposing him to be rightful heir, opposes to a compliance with her request can be overcome. I have no doubt that Appoyee ummal has sufficient abilities to manage the Zemindary and I believe that she would have done so well for the interests of her son, but, even if the claim could be admitted I am persuaded that as this inducement has ceased and from the notorious and undisguised feelings of hostility

hostility which exist between her and the parties whose claims have been lately recognized her successor would have cause to complain of Maladministration.

The pleas which Rungammal alias Subummal sets up in support of her claim viz. that the Rights of the 1st and 2nd Wife have ceased is of course untenable. nor does it seem to me that she has any grounds on which to assert a claim for herself or her son the latter being the Son of a third Wife and many years younger than Cuchee Cullyanna Rungapah Calaka Sola Codiar who is a son of the second Wife of the deceased Zemindars Grandfather. Under these circumstances I presume that the Court will not require any further investigation to be instituted regarding Rajalinga Soobummah's Petition.

In regard to a provision for the support of either of the parties the Board will be aware that there will be no funds at my disposal for such a purpose in the event of Cuchee Cullyana Rungapah's claim being admitted. I presume that they should prefer their claims for a maintenance out of the Estate, should they consider themselves entitled, but in the Courts of Adalut.

Having thus stated in my opinion, I solicit the Courts orders whether Cachee Cullyana Rungapah Calaka Sola Codiar is to be placed in possession of the Zemindary and of the property and money belonging to the Estate which are in the Collectors charge and as that individual is becoming importunate to assume his rights I take the liberty of begging the favor of an early reply.

Returning Petition No 1091 of 1842 with the explanation required.

68

To The Secretary to the Board of Revenue. Fort St George.

Sir

I have just had the honor to receive your letter of the 15th Instant with Petition No 1091 of 1842 and other Enclosures herewith returned, requiring to know what I have done in reference to my endorsement of the 3d June and for what reason.

2 The unfounded complaints of various European authorities at Madura some known and others left to be guessed at accusing my neglect of duty as Magistrate as being the cause of the introduction of Cholera into the Fort or at all events of keeping it there longer than would otherwise have been the case drew down upon me the Minutes of Consultation of the 11th October 1837. ever since that period as well as ever before, my best endeavours had been exerted to cleanse and purify an overgrown and neglected town by opening out, de-pol, restoring streets to their original width and

by

by laying down drains. Of late that I have been aided in the detail by Assistant Surveyor Manett. In their department of Public Works the Board ought to have a communication before them from the Civil Engineer and myself on the subject. The object is being attained with an Extraordinary vigour at the same time that one fourth of the ramparts have been levelled and one fourth of the ditch filled up.

3 It is customary for encroachments to commence in a Street by the erection or projection of a few Cocoanut leaves or by raising the ground half a foot in front of the door way. This soon becomes a mud pial. is next covered with a pandal. then follows enlargement of the front of the house on each side of. and to extent of the door pial. This is replaced by brick and Chunam with a tiled roof. the neighbour takes the new projection as the line of the Street till at length in many there is not room for a Cart to pass.

In

4 In the case in question I am perfectly convinced I have been guilty of no injustice to the complaint. The line is palpably marked by a Pagoda Menthapam of great antiquity. What has been removed was a palpable projection into the Street that no one could object to defend against inspection. The building itself which I have not yet touched must eventually come down, unless I have orders not to interfere in the matter. I delay now only to endeavour by good words and Money to induce the Men to leave the place which I fully purpose taking hereafter by authority if such interposition be necessary. and such is the plan I pursue in almost all cases; and do not fear to have been guilty of the slightest injustice nor do I meet with opposition Except from Curnums or the present or former dependants of the Court or Cutcherry who have generally less right than any other of the inhabitants.

5 Any interference on the part of my superiors will make my present difficult and invidious task trebly more painful and if they are afraid to support me I trust they will not think it any dereliction of their care of an individuals right to point out to them the

Proceedings thereon.

(68-69)

The Board see no occasion to interfere in the matter of these Petitions the Acts complained of, moreover, appear to have been done by Mr Blackburne more in his Magisterial than his Revenue Capacity.—

Ordered that the following Endorsement be made on the Petition above specified.

"Having had under consideration a report from the Principal Collector of Madura on this Petition, the Board do not consider it a subject for their interference."

The Board desire to point Mr Blackburne's attention to the letter above recorded, the general tone and some particular passages of which they are persuaded he will perceive on a perusal to be unbecoming any official communication and especially one from a subordinate to a controlling authority. They trust this brief allusion to the subject will be sufficient.—

Proceedings.

Relative to the Settlement of the Land Revenue of the District of Tinnevelly for Fusly 1250.

Sent to Tinnevelly 23rd Septr

(70)

The Board proceed to take into consideration the Report of the Collector of Tinnevelly upon the Settlement of the Land Revenue of that District for Fusly 1250.

/ Here enter No 733 /

The early part of the season for cultivating the Car crop was very favorable and cultivation was carried on to a great extent but the failure of the rains in the Months of July and August, not only put a stop to this description of cultivation but caused a serious injury to the standing crop much of which was destroyed for want of water.—

2. In the Northern Talooks the rains were still more scanty and the car cultivation was very trifling.—

3. The season for the Peshamum, the other wet crop was however more favorable, for although the cultivation was somewhat restricted owing to the partial rains in September the plentiful and timely supply in October and November with occasional showers at subsequent periods brought the whole to maturity crops yielding abundant produce — the

Poonjah

Fort St. George 15th September 1842

Poonjah cultivation also received full benefit from these late rains and the crops of the Lands cultivated were more than usually productive.

4. The current selling price fell 13 1/8 per Cent below the price of the year preceding but the abundance of the crop rendered the Disposal of the grain even at this reduced rate a matter of difficulty to the Ryots.

5. Two Villages it is observed have been transferred during the year from the Vullgoor Talook in the Sub Division to that of Punjamahl in the Collectors Division "for the better management" it is said "of both Revenue and Police." The Board do not comprehend how the mere transfer of these two Villages in account from one Talook to another is to improve the revenue, and Police management, changes of this kind are at all times better avoided unless some substantial benefit is to arise out of the change and without some further explanation of the advantages on the present occasion the Board would be disposed to direct the immediate retransfer of

Para 7

Fort St. George 15th September 1842

of the Villages to their former Talook.

The total net Settlement of the year including Peishcush and Extra Revenue, amounted to Rupees 2069323 being Rupees 183178 less than the Settlement of the preceding year the different items comprising the Land Revenue, are given in Para 8. of the Collectors Report it is not considered necessary to follow him thro the whole of them, tho some observations appear to be called for upon some of the items.

7. The great amount of decrease Rupees 119901 it is observed has accrued in the Wodeyngoo rented Villages and the Collector explains that this has occurred partly from reduced cultivation /Rupees 44938/ but mainly from a falling off in the price of grain /77033/ Rs. amounting together to a gross decrease of Rupees of Rupees 121072 reduced by a gain in the malwaram produce of 1170 Rs. to the net sum above stated.

8. The Board have no doubt as to the accuracy of the above Explanation but

Para 8

but it would have been more satisfactory as particularly pointed out in their Proceedings on the Settlement of 1249. if a detailed Statement exhibiting the particulars of these grofs sums had been submitted as one of the accompaniments to the Report.

9. In the 18 Villages comprising the newly acquired Talook of Chakimpully which it is observed is the only portion of the District under an annamie & Settlement or a Division of the Produce it is satisfactory to notice progressive improvement, there being an increase in the year under review over Fusly 1249. of Rupees 3285-6-11.

Coll.r's Report Para 13

10. The Collector would appear to have misapprehended the instructions contained in the 11.th para of the Board's Proceedings 7.th June 1841. regarding the examination of the titles under which "Calom" and Poroapas" Lands are held generally throughout the District — The Board only intended these instructions to apply to the Villages in the Chakimpully Talook and had no reference whatever to

to the rest of the District whatever examination may be thought necessary in the District generally will be best made when the survey is carried out.

11 In the Chakimpully Talook 4 Villages only appear to be held under this tenure, all of which were granted long anterior to the Permanent Settlement in two of these some trifling unauthorized additions have been made by the Zemindar, which it is proper to resume the other two remain the same as entered in the Permanent Settlement accounts, and tho' the parties in poffeffion can produce no regular title or summed to establish their right "their long and undisturbed poffeffion" the Collector adds "previous to the aſſumption of the country is unDaubted" and the Board are of opinion that they should not be disturbed.

12. The instructions of the

but it would have been more satisfactory as particularly pointed out in their Proceedings on the Settlement of 1249. if a detailed Statement exhibiting the particulars of these gross sums had been submitted as one of the accompaniments to the Report.

9. In the 18 Villages comprising the newly acquired Talook of Chakumpully which it is observed is the only portion of the District under an annamie & Settlement or a Division of the Produce it is satisfactory to notice progressive improvement, there being an increase in the year under review over Fusly 1249 of Rupees 3285-6-11.

Coll.r Report Para 13

10. The Collector would appear to have misapprehended the instructions contained in the 11th para of the Board's Proceedings 7th June 1841. regarding the examination of the titles under which "Patom" and Poroapas "Lands are held generally throughout the District — The Board only intended these instructions to apply to the Villages in the Chakumpully Talook and had no reference whatever to

to the rest of the District whatever examination may be thought necessary in the District generally will be best made when the survey is carried out.

11 In the Chakumpully Talook 4 Villages only appear to be held under this tenure, all of which were granted long anterior to the Permanent Settlement in two of these some trifling unauthorized additions have been made by the Zemindar, which it is proper to resume the other two remain the same as entered in the Permanent Settlement accounts, and tho' the parties in possession can produce no regular title or summed to establish their right "their long and undisturbed possession" the Collector adds "previous to the assumption of the country is undoubted" and the Board are of opinion that they should not be disturbed.

12. The instructions of the

Para 14

Board contained in their Proceedings above alluded to /Para 19/ regarding the assessment to be collected on Nunjah mail Punjah Cultivation

Cultivation reached the Collector too late to be enforced in the Fusly under review this is of little consequence however, as it is desirable that due notice should be given of any contemplated change in the System.

13. The Collector without meaning to impugn the propriety of the decision of the Board on this question very properly points out what will be the probable effect of the measure and which he thinks likely to be a considerable falling off in the Cultivation - This has led the Board to a careful reconsideration of their orders which were to the following effect Viz.

First That all Poonjah Lands cultivated with whatever produce by means of wells dug at the Ryots own expence should pay only Poonjah assessment -

Second The Lands classed as Runjah which are so circumstanced at present as to be beyond the reach of Tank or river irrigation if cultivated by means of the falling rains with Poonjah produce should only pay the average Poonjah assessment of the Village

Third

Third That Runjah lands cultivated with Poonjah produce by means of Corkar Tank or channel irrigation should pay the Runjah assessment of the land instead of paying as at present at various rates according to the description of produce raised a different rate prevailing for every different prop-

14. To enforce this last Rule, Sir Henry Montgomery thinks will have the effect of reducing the cultivation, this may possibly be the effect for the first year or two after its introduction but the Board cannot think that it will continue - The Rule applies only to Lands classed originally as wet; and which possess all the advantages of water provided at the circar expence, it seems very reasonable therefore when cultivated that they should pay the full wet assessment and the Board see no ground whatever for modifying their orders in this respect and direct that they be carried out -

Para 19.

15. There is a slight falling off in the Poonjah Cultivation which seems to call for no particular remark.

The

16. The total Gross Settlement of the Land Revenue, exclusive of Peishcush and Extra Revenue, for the year under review amounted to Rupees 18,37,405-11-8- being Rupees 1,24,664-3-1- less than the Gross Demand of the preceding Fusly- from this Gross Demand certain Deductions being made on account of remissions for perished crops and short produce reduced the net Settlement of the Land Revenue to Rupees 16,16,498-74-

17. The Board's sentiments on the subject of remissions for perished crops Vide did not reach the Collector in time to be carried out in the Fusly under review and the "adjustment of the

18. The Board have no doubt that every care was taken to ascertain that no remission was allowed for any crops but such as had failed for want of water but they are satisfied under the system described that the interests of Government suffer and still desire that the rules laid down in the Proceedings above alluded to may be strictly enforced for the future.

19. Including Extra Revenue and Peishcush the total net Settlement of the Land Revenue, for the year amounted as before shewn to Rupees 20,69,323 of this amount 18,50,803 were collected within the Fusly leaving a balance of 2,18,519 which has since been reduced by further Collections to

to the trifling sum of Rupees 2939 a result which the Board consider very creditable to the authorities who have been entrusted with the Revenue management of the District.-

20. A separate Report is forwarded from the Sub Collector who had but recently joined the District and which does not appear to call for any particular remark.-

21. The Board are well pleased to observe the favorable mention of Mr. Pringle the Head Assistant.

22. In conclusion the Board desire to state with reference to the observations of Government in the Minutes of Consultation under Date 27th July 1841. that a detailed Report upon the Moturpha Revenue of the District has recently been received from Sir Henry Montgomery and is now under their consideration and will be laid before Government without delay.-

Para.n 1. I have the honor to report on the Settlement of the Land Revenue of this District for Fusly 1251, and to forward the usual Statements marked from A to D and from No. 1 to 14 connected therewith.-

The former without including Nunjahmail Poonjah and Campyre, which will be separately noticed, being 7403 SC 1 M 2¾ M in excess of Fusly 1250 and making the Total Cultivated land under S.o Cottahs 94465 - 7 M ½ M excluding the Chokumputty Estate brought to Ayen in Fusly 1245, but inclusive of it, S.o 97,428 - 9 M 7¼ M exceeding in either case that of any year as the Marginal Statement shews since Fusly 1232 the year immediately succeeding the decennial leases, and the latter as being only Rupees 862 13 10 one

3. It is almost needless to add that the season has been highly favorable for wet land Crops. The rains of the South West Monsoon commencing in the latter end of May, and continuing at intervals, with more than usual regularity kept the rivers and Tanks depending on them supplied till the end of September when the North West rains succeeded and, though in December there was little or none, the deficiency was made up by an abundant fall at the latter end of January which it is the peculiar good fortune of Tinnevelly to be rarely disappointed in.

For Poonjah Cultivation the Season was not so favorable. Rain failed in the Months of August and September the period for the ploughing of Seved land, and neither has the quality or quantity of the Cotton Crop been equal to the year preceding.

5. The following Statement exhibits the Cultivation under all denominations of Fusly 1251 in comparison with Fusly 1250.

Nunjahmail Poonjah and Vampyre

7. Under the heads of Nunjahmail Poonjah and Vampyre will be observed a diminution in the Cultivation of Fusly 1251, on Comparison with that of Fusly 1250, but this decrease is not to be attributed to the Season, but to Causes unconnected therewith. The rules regarding the Cultivation of Nunjahmail poonjah, which were in force previous to Fusly 1251, having been pronounced by the Board and Government as objectionable, and holding out advantages to the Cultivation of Nunjahmail poonjah produce on land well irrigated at the expence of Government and capable of producing the more valuable and higher taxed Crop of paddy, were revised and came partially into opration in

in the present year. The result has been that S.C 1050 - 5m 3/4 formerly cultivated Nunjahmail Poonjah have reverted to Nunjah and S.C 3,616 1m 1m 1/4 have remained waste, the average Village rates which such lands would bear if cultivated being deemed by the Cultivators to be more than they could be made to yield. For similar reasons the Cultivation of land under the head of Vampyre is deficient in comparison with the previous year by S.C 1179 - 2m 1/4 of which S.C 390 - 10m - 4m 3/4 have reverted to Nunjah and the remainder left waste.

8. The Marginal Statement shews that the selling prices have fallen during the present year, something more than 28 per Cent below those of Fusly 1250. The abundant produce in this and in the neighbouring Countries of Travancore and Madura has naturally affected the prices and the grain Market has been and

Continues

continues to be overstocked. In the month of March a sudden rise of price took place from a universal disinclination on the part of the land holders to dispose of their grain at the, to them, ruinous prices offered for it. But this rise was only momentary for the obligation to meet the Government demands soon forced a large stock of grain into the Market and the price again fell. This temporary increase during one of the Months included among those affording the data on which the average forming the annual Settlement is calculated, has been slightly disadvantageous to the Ryots, and with the addition of the 5 per Cent exacted in conformity with the terms of their Volungoo Moochilkas, as the share of loss in price which they are bound to bear when it falls below the standard, has generally prest heavily upon their

9. In a year like the present on precautions against fraudulent returns of sales of grain were particularly called for, and have been adopted. The Accounts furnished from the Villages and Towns were carefully inspected and compared, and their correctness tested from time to time by the personal investigation in some instances of myself and my Assistants during our Circuit, by persons specially deputed from the Hoozoor Cutcherry, and by the superior Talook Servants. In determining the rates where those of the Village have appeared unreasonably low or otherwise objectionable, or in Cases where Returns were not made, the selling rates of the nearest marked town or the town to which the produce of the Village has been known to find its way have been adopted, a deduction being made according to the distance of the Village from the Market for Carriage at a rate

rate that was regulated in Fasly 1244 and has been since in use—

10. The adoption of the retail market prices, where they have exceeded the rates obtained from the Villages, has not been generally satisfactory to the Ryots who claim strict adherence to the Village Accounts. On these latter however notwithstanding the utmost precaution, entire dependence cannot always be placed, but the claim on the part of the Ryots to some further deduction in consideration of the difference between the wholesale and retail prices, they disposing of their grain at the former and being charged for the Government share at the latter, besides having to bear the loss by wastage, was so urgent and appeared so just that in some Cases the Market rates have undergone a further trifling deduction.—

11. The Talooks of Shreevilly pootoor and Shenkernumargoody have in the present year

year been made over to the charge of the Sub=
collector, Streevilly pootoor one of the largest
Talooks in extent requiring more attention
than I found I was able to bestow on it.
It had previously been under the immedi=
=ate Management of the Head Assistant —
but it was inconveniently situated for an
Officer whose other duties required his being
frequently near the Coast, and under these
considerations I exchanged it and Shenker=
=neargoody, uniting it and the remaining
portion of the Subcollectors Division, for the
two Southern Talooks of Vullioor and
Trangunchery.

12. The Settlement of the 8 Talooks
Viz.t. Nellumbalum, Vedoogramum, Tenaasy,
Talook, Threevygoondum, Ottapedarum, Punjamahl
and Chokumputty was conducted in detail by
myself and the Puttahs distributed by myself in
person in each Talook Vedoogramum excepted, a
Village in the adjoining Talook being more conveni=
=ent for the purpose, and the Settlement of the
Talooks of Vulliook and Trangunchery
by

by the Head Assistant Collector at their respect=
=ive Cusbahs.

The Talooks of Shermadavy,
13. Brommadasum Streevilly pootoor and Shenker=
=neargoody now form the Division of the Sub=
collector —

The only change in the classi=
14 =fication of Villages has been the transfer
from Poonjah to Patum of the Village of Auda=
=ly colum in the Streevygoondum Talook —
consequent on S.n C. 4 — 0m — 8m of land in it
being cultivated Punjah in the present year —
Two Villages hitherto in the Ottapedarum Talook
Villapanary and Chedumbarompully at the urgent request of the Inhabitants of them
have been transferred to the Shenker=
=neargoody Talook.

16. On reference to the above it will be seen that in Wooloongoo Villages, notwithstanding there is an increase in the Nunjah Cultivation to the Extent of S. C. 6,305 — 9 m — 4½ a. there is a large Decrease in the Money demand Amounting to

17. The 18 Villages of the Cholumn=dutty Estate comprise all under the Head of Aumany. Since Fusly 1246 the year succeeding the assumption of this Estate, the wet Cultivation as the Marginal Statement shews have been gradually incredsing. The Car Culti=vation of the present year fell slightly short of the previous Fusly in conse=quence of the want of seasonable supply of water in the only two Villages where Car Crop are grown. In Peshanum a large Increase has taken place and it will be observed by the following Statement.

Mad

that the average actual produce per S. C. as well as the gross produce itself has considerably exceeded that of the previous year. The cutting of the Peshawarum Crops under Circar management in these Villages was superintended by Mr. Fane, to whose vigilant control this increase of produce brought to account is partly to be attributed. In the present year the Mailwarem grain was made over to such of the Villagers as were willing to take it at the average selling prices of the year, an arrangement which was universally consented to and which has greatly facilitated the realization of the Revenue in the present Fusly, and having been conducted in a spirit of fair dealing has not been disadvantageous to the Cultivators.

20. The decrease under this Head is Rupees 16,108 - 7 - 6 being with a trivial exception caused by decreased cultivation of Nunjah mail Poonjah, in comparison with Fusly 1250. A portion of this decrease as has already been stated in Para 7, has been occasioned by the reverting Nunjah of Sc. C. 1050 - 5 - 1/4 previously Cultivated with Nunjah Mail Poonjah produce, but the greater proportion is for land left waste in consequence of the intimation that the reduced rate of tax would not be admitted as formerly - under

the authority of the Board given on my representation of the 23rd February last the operation of the new rules regarding Nunjah Mail Poonjah Cultivation has been suspended during the present year. The following Statement will shew what would have been the Money result had they been in force during Fusly 1251.

21. That the license to Cultivate Poonjah Crop on Nunjah land praying for it at a rate considerably below the average Nunjah rates is liable to abuse and has been in many instances abused. I do not pretend

pretend to deny- Neither that some of the land so cultivated, now that the prohibition against its being charged otherwise than as Nunjah is to be enforced, will be again brought under Nunjah Cultivation - The experience of the present year however tends to shew that much Nunjah land hitherto yielding a profitable return to the Cultivator and a considerable Revenue to the Government will in future remain waste to the detriment of both —— The orders of the Board on this subject have been fully promulgated throughout the District and there can be no longer, the reason that existed in Fusly 1250 for their not being acted upon, but the Cultivation Accounts already received for the ensuing season (1252) shew that the expected decrease will not be trivial, and the loud complaints of the Cultivators prove how seriously they consider themselves affected by the change —— If even in a

a year when prices are low the Nunjah tax is too high to admit of the Cultivation of Poonjah produce on inferior Nunjah land, in one when prices are expected to be high, the increased tax they will cause, will necessarily act as an additional bar to the culture of this description of produce on land which will not yield a return from a rice Crop, and in such years especially will these lands be left waste.

The following Statement will shew what would have been the result in the present Season had the Nunjah rates been applied to land stocked with the 8 before mentioned products. charged in 1251 from suspension of the Board's orders at the old Vampyre rates, and with reference to the loss of Revenue consequent on their discontinuance I would solicit the further instructions

35- The Decrease in the several sources of Revenue enumerated in the marginal Statement is caused by low prices, and the increase in Hill rent by advanced rents offers and new rents of Rupees 1123-"-" and by

by the transfer of Rupees 212-8-6 to this from the Head of Nelawary and Moturpha in which two latter the rents of certain Hills in the Shenkernimorcovil and Strevilly pootoor Talooks had previously been erroneously entered.

36. Adding to the net land Revenue of Fusly 1251 amounting to Rupees 15,16,162-15-6 the sum of Rupees 4,29,774-0-9 derived from the above Sources of Revenue the Total land Revenue amounts to Rupees 19,45,937-0-3 exclusive of Deposits, but inclusive of them, to Rupees 19,71,956-11-7 as shewn in the Statement appended to Para 15 of this report.

39 I have the honor to submit a report of the Sub Collector on the settlement of the Talooks under his charge, and take this opportunity of expressing my thanks to Mr. Whittingham for the cooperation on all occasions I have received from him. Mr. Pringle the Fr. Assistant Collector has had under his charge the Revenue details of the Talooks of Vullyo and Kangoonary the Salt and Sea Customs Departments, and a portion of the Magisterial duties of the Collectors' Division of the District and I have much pleasure in recording my entire satisfaction with the manner in which Mr. Pringle has conducted the management of this charge. His activity, discretion, and habits of business, make him a valuable Public Servant. From Mr. Fane the Assistant Collector, I have received real assistance, and beg to bring to the notice of the Board his

universally meritorious conduct. In the detail Management of the Land Custom Department and in the Superintendence of the Harvest of the Aumany Villages, he has exerted himself with much benefit to the Government, and he has fully qualified himself for the more important duties which his recent promotion will require of him —

Tinnevelly, Tencausey 1st September, 1842 } (Signed) A. C. Montgomery Collector.

Sinnevelly 2 C. C. Fort St. George
1st July 1842 S. Signed/ H. C. Montgomery. Collector

10567 Fort St. George 15th September 1842.

To The Collector of Sinnevelly

Sir

Para 1. I have the honor to report the conclusion of the settlement for Fusly 1251 of the 4 Talooks under my charge Viz.t Shermadavy, Brummadasum, Sunkarnynarcoil, and Sravelly pootore, and to forward the usual accounts numbered from 1 to 10. The two last mentioned Talooks were transferred to the Sub Collectors Division on the 1st. of January last, and the Talooks of Vullyoor and Nungoonary lately under the charge of the Sub Collector now form a part of the Division of the Collector In each of the abovementioned 4 Talooks was the settlement conducted and the Puttahs to the Ryots distributed.

2- From Table No. 1 it will be observed that these 4 Talooks contain 2 Villages more than in last year. These Villages, Vellapparnery and Sethumbrapully, were transferred from the Talook of Ottapedaram to that of Sunkernynarcoil by the late Acting Collector.

3- The Carr season of Fasly 1251 was very favorable, the rains which commenced in the latter part of May falling with little intermission on the Hills till the latter end of August and affording a constant supply of water in the Rivers and Tanks- the Carr crops in Brummadesum and Shurmadavy to which

which Talook Carr Cultivation in the Sub Collector's Division is almost entirely confined came to maturity, nor did there occur a single instance of failure, or of short produce.

4 The excess above the preceeding year in Carr Nunjah Cultivation Amounts to Sc.b 214 — 10 — 3/8, the greater part of which occurred in the Talooks of Brummadasdow and Shurmadavy, the extent of Carr Cultivation in Sunkernynarcoil and Streevelly pootoo being very inconsiderable. In the 2 former Talooks Sc.b 151 — 19 Mc. of Peshanum one crop land were this year cultivated with Carr and there was an increase in the extent of Cultivation in the Carr Cuttaly Land of those

these Talooks Amounting to Sd C. 62-12-3/8

6. The increase in Vonpyre cultivation Amounts to Sd C 8-16-1-

7. The Peshanum season commenced in a promising manner, and the rains which fell in November and December insured a constant supply of water during the whole period of the Peshanum Cultivation. The extent of drought and of short produce is in consequence very inconsiderable. The rains which fell in January and the quantity of water which the Pinacolam Tanks

Tanks held at the conclusion of Peshanum cultivation, induced the people to extend the cultivation of second crops on Peshanum one Crop land much beyond last year These second crops did not however all come to maturity in consequence of the want of rain in the Months of March and April. In the Talook of Streenellipoolore Sd C. 137-3-m 7/8 m of these second crops failed and the extent of short produce was Sd C. 319-8-1/4. The only other instance of failure or short produce occurs in Shermadavy. This land in extent Sd C. 2-9-m 7/8 m has only this year been brought under cultivation and is so situated that however favorable the season, success must always be uncertain. As however Remission for drought and short produce was granted in accordance with the rules which were in force previous to Fusly 1245 the whole of the above land was not exempted from the payment of teervah. the particulars of the Remission will be

be given hereafter.

In

In consequence of recent orders directing the levy of Nunjy Teerwah on Nunjay land without reference to the description of produce when irrigated by Tanks or channels kept in repair at the expense of Government, Nunja land in the Sub Collectors Division to the extent of Ls.C: M. D. 1363-19-7⅞ which has hitherto been cultivated with Nunjah mel Poonjah has been allowed this year to lie fallow, either because the land is of an inferior description, and the average Malwarem consequently so high as compared with the productive powers of the soil as to deter the Ryots from Cultivating it with Nunjay, or because tho' capable of irrigation from Tanks or Channels when the supply of water is abundant, the situation of these lands renders the means of irrigation uncertain, and the cultivator is unable to rely on that constant and abundant supply of water which is necessary for the Cultivation of rice- Previous to the orders above referred to being generally understood 2350-10-3⅞ Cottays of Nunjay land were cultivated with Nunjay mail Poonjay- In consideration of this circumstance the Cultivators have

have been permitted under instructions from the Board of Revenue to pay the usual Nunjay Mail Poonja Teervah. What portion of this land will in future lie thrown out of Cultivation it is not at present possible to decide, but that the greater part will lie allowed to lie fallow cannot be doubted. It will be observed by the Marginal Statement that there was an increase of S.C. 245-9-5¼ in Nunjaneel Poonjah cultivated in Garden lands by means of Wells.

Cultivation to the extent of S.C. 249-3-5⅛

The annexed Statement of the Poonjay Cultivation shews a Net decrease of Chains 284⅞- The Decrease in Poonjay occurs chiefly in the Talooks of Shermadavy and Brummadasem in which Talooks from the extent of Nunjay Cultivation and the abundant means of irrigation, the Cultivation of Poonjay is not so eagerly pursued as in Talooks of Shenkernynarcoil and Streenellipootore in which Poonjay produce forms the subsistence of the greater part of the Inhabitants--

To The Secretary to the
Board of Revenue
Fort St. George

Sir

From the Collr of Tinnevelly Submitting opinion on the points referred to in Para 11 of the Board's Proceedings dated 24th March last regarding the lands of the native Religious Institutions in Tinnevelly

Encl 21-22-23

73

Para 1 In my letter of the 22nd April last reporting on the Devastanums Establishments of this District and written subsequently to the receipt of the Extract from the Board's proceedings of the 24th March, I expressed my opinion on the points therein submitted for my consideration. In consequence of your letter of the 25th Ultimo I have now the honor to state that the control of lands alienated for the support of the Religious Institutions whether the Revenue has been fixed for a term of years (which is not the case in Tinnevelly) or not, hitherto held under the immediate management of the Officers of Government cannot, I believe without detriment to the interests of all parties concerned be transferred to the Trustees or Agents appointed to the charge of the Institutions. The avowed cause for the assumption of some of such lands in this District was the mismanagement of the

the Pagoda Agents of the time, which was so injurious to the interests of the Government to whom Revenue was payable and to the persons cultivating that nothing but the measure of depriving the Agents of all power over the lands was thought sufficient to prevent their being sold for arrears of Revenue.

2 In many cases where lands the property of Pagodas are held engagements have been made with the Cultivating Ryots under the full expectation that they were to look to the Government alone as their Landlords. In Tanjore for instance, the Parcoodies of the Villages belonging to some of the large Pagodas have agreed to the fixed assessment on the lands, they cultivate and a certain amount of the payments made is carried to the credit of the Pagoda in the Meerassy warem. That these men entered into these engagements under the firm conviction that they were to continue under the sole control of the Government Officers is as clear as they would justly have cause of complaint were these lands to be transferred to that of the Pagoda managers. In

3 In Tinnevelly the greater part of the Pagodas are supported by a fixed Tusdeek or ready money allowance paid by Government ever since the assumption of the District, in lieu certainly of lands resumed by the Government preceding, but what these lands consist of or where they are situated is unknown, they have long since merged into the general property of the District and the transfer of them cannot under any circumstances be made. As before stated the ground for resuming the rest was "the mismanagement of the Revenues by the Brahmin Malabars" and it can hardly be supposed that similar mismanagement would not again occur were the control entrusted to persons having neither personal nor permanent interest in the property.

Vide Para 4 of letter to Board from Collr of Tinnevelly 22d April 1842 reporting on Davaswarum Establishments.

4 The Board in their Proceedings have so correctly depicted the vexatious interference to which the Cultivators of the soil would be liable under the administration of the new Trustees, and the inadequacy of the protection that could be afforded to the cultivators, that

Fort St George 15th September 1842

that there is no necessity for further remarks on those points. As far as Tinnevelly is concerned, besides these considerations against the relinquishment by Government of the management of these lands, there is in favor of their final assumption and of the allotment in lieu of a fixed Tusdeek the advantage that this measure would place all the religious Establishments on an equal footing and maintain one regular and uniform system throughout the Districts.

From the Public Consultations.

Affording explanation on the several points noticed by the Board with regard to the applications of Captain Valancey for certain lands on the Banks of the Kullar River and giving a description of them.

Sir

I have the honor to acknowledge the receipt yesterday of your letter dated 25th ultimo, forwarding copy of communication from Captain Valancey dated 10th of that Month and requesting me to report what were the terms on which that Gentleman proposed to take land — what description of land he applied for and what were the reasons for which I refused to give it to him —

(79)

2 I beg to state in reply that I have never received any official communication from Captain Valancey on the subject of land, and the rejection of his application is a mistake. Had it been otherwise as I have not the power to decline a requisition of the kind his proposal would have been kept in abeyance until I could have had

had an opportunity of consulting the Board on the subject —

3 Captain Valancey has repeatedly addressed me privately regarding some land which he is desirous of obtaining on the Banks of the Kullar River and my last note to him forms the subject of his letter to the Board under date 10th of August 1842, which was to the effect that Section III Regulation XIX of 1802 not having been rescinded although greatly modified by Act No IV of 1837 I considered it my duty previous to making over land to Captain Valancey or any other Public Servant, that an application should be made in the manner therein prescribed for the Government to determine whether this Regulation was entirely superseded by the Act or not. By Act No IV it appears that any subject of his Majesty may acquire and hold in perpetuity land [illegible] and the doubt which arises is whether Government Servants holding Public situations are included in this enactment and

and

and as it may form a precedent for other applications of a similar nature it is a matter of considerable importance that this point should not remain in doubt, and regarding which I beg to be favored with early instructions.

4 From the general tenor of Captain Valancey's communications it is impossible to make out precisely the terms on which he proposes to hold the land. I have reason to think, however that it is his intention to get it on Ryotwar tenure and to convert it into Nunjah by using the waters of the Kullar River. If as he now states in his letter to your address it is to be appropriated for the cultivation of Sugar Cane, it would become, on the termination of the Cowlenamah liable to the payment of two Cupparam or upon the average Rupees 10.7.4 per Cawney according to the usage of the District, for there is no reason why Captain Valancey should be admitted to more favorable terms than those granted

granted to the Ryots.

I am free to confess that I greatly

5 disapprove of the diversion of the Hill streams from their direct flow to the plains which is evidently contemplated in this case. I do not mean it to be understood that it is a matter of importance in politary instances but it introduces a system which may be mischievous and can never be profitable to Government.

The land is rich alluvial deposit

6 on the Banks of the Kullar River capable of yielding the most valuable products. It is heavily timbered at present so much so as to have prevented the Tahsildar from classifying and determining the rate which ought to be fixed upon it.

7 In the event of its being ruled that Captain Valancey can hold land, although a Public Servant it will be necessary for him to make his proposals in a specific Public form which he has not yet done.

although he denied that such was the case. They, therefore, overtook Venkatasawmy's Cart at Ammunjeecurry, where on strict enquiry, he admitted that there was a quantity of Ganjah upon it. He promised to point out the owner, but failed to do so, and the Cart was, in consequence, brought to the Cutcherry, where, on due examination, four bales of Ganjah were found concealed under cover of Bamboos.

3 Venkatasawmy states that one Veerasawmy residing in a Village near Vellore engaged his Cart at Madras on payment of Rupees 6 as hire for the importation of Bamboos, but that he took Cart to a distance of 20 Miles beyond Vellore, and that there, in his absence, Veerasawmy tied up a quantity of Bamboo on the Cart, and on his return, he directed him to proceed to Madras. Veerasawmy staid away at a Choultry place near Poonamalee, and instructed the deponent to halt near Pounamen Pagoda at Choultadrepett. He admits having told the Mettoo Coonu that there were no goods on his Cart liable to duty, and confirms the Coonu's Statement respecting the further enquiry

enquiry made by them at Ammunjee curray. He only heard on the road that there was Ganjah on the Cart, and is not aware whether Rowannah for it was obtained or not.
