Extract from the Minutes of Consultation under date 17th September 1842.

Read the following Extract from the Proceedings of the Court of Wards Relative to the Settlement of the Minor Estates of Marinjhy and Sungunnaloah for Fusly 1250 in the District of Vizagapatam.

(Here enter 1st September 1842 No. 374)

Marinjhy Fusly.
1249-30,242-5-
1250-30,224-15-1-
17-5-11-

Para 1.- The Estimated resources of this Fusly fell short of the previous one by 17-5-11- though the original decrease was 65-12-- the difference having been made up by an increase in the Cuttoobady Enams- The deficiency was caused by a failure in the Mango Crops.-

1249-35,339-3-9-2-
1250-35,166-13-4-
172-6-5-

In the Summahbundy Settlement there is a decrease of Rupees 172-6-5. attributed to the unfavorable state of the season.-

*869-13-9-

3.- The balance* at the close of the Fusly was reduced up to the 14th December 1841 to Rupees 651-2-6- and the latter sum, it was stated, would be realized within the year, but the difference between the Summahbundy Settlement

Fort St. George 3rd October 1842.

Settlement and Sheam Dowle was considered irrecoverable at present.-

Of former arrears the sum of 4- still due at the time of the Collector's report was Rupees 4,503-9-11 of this 1,079-10-9- was remitted by Government, leaving a balance of 3,423-15-3 for future adjustment.-

21st November 1840 +
28th August 1841.

5.- The gross receipts of the Fusly, inclusive of Rupees 2,287-12-- being the balance in hand of Fusly 1249, were 37,651-12-9 and the charges as per Margin, 25,635-11-3, leaving a surplus revenue of 12,016-1-6- of which Rupees 10,000 have been invested in Government securities, a result highly satisfactory.-

Peishcush 18,500-11-
Collection Charges Subsistence &c. 7,135-11-3.
25,635-11-3.

Sungunnaloah.-

6.- The Right Honorable the Governor in Council is much gratified at finding that the outturn of this Estate was even more favorable than that of the one above reviewed, and records his opinion that the management of both reflects great credit on the Asst.

7.- It must be a source of satisfaction to find that since the two Zemindaries have come under the superintendance of the Court of

of Wards, and the immediate Supervision of the Collector, that a sum of Rupees 27,000 has been invested in Government Bills for the Zemindar of Marungy and that a Rupees 17,500 stand in the same securities in the name of the Proprietor of Sungumoulsa

8.- The increase in this Estate of Rupees 404-14-2 in the Kistwar Demand has been occasioned to the amount of 404-0-10 by bringing under tillage "lands previously uncultivated"- As the Court remark, it would have made the remark more explanatory had the Collector stated the extent and description of lands so cultivated, together with the amount of assessment upon them, especially as in his report for Fusly 1249 an increase amounting to Rupees 1245-15-8 is accounted for by "extended cultivation of waste lands"

Fusly 1249-11,200-1-- " 1250-11,610-15-2 404-14-2

9- It is certainly necessary to know the causes that diverted the attention of the ryots to the waste lands in preference to those usually cultivated, another item of the increase is stated at

Sivima Khanorgally-

at Rupees 25 and as arising from the renewal of a lease of a Village, the Collector here also omitting to detail the causes of this favorable arrangement.-

10- His Lordship in Council therefore calls Mr. Smollett's particular attention to the instructions of the Court, as conveyed in the latter part of para 7 of their proceedings and will be glad to find a strict adherence to them in future.-

11- The increase in the settled Dowle* and Collections is explained by "the high price which produce of every description obtained throughout the year" a remark, it is observed, applied to an increase of a similar nature in the previous Fusly through an abundant season would lead to the inference that other than local causes created such a demand, and therefore the reasons should have been explained.-

Rs
*551-14-10
 641-11-8

12- The balance of Settled Dowle amounted on the 4th December 1841 to 56-7-10, and the arrears of the previous

previous Fasslies were on the same date 774-10-7 and are reported gradually recoverable-

13- The total receipts inclusive of a money balance of 1018-12-3 amounted to Rupees 16,029-15-1 leaving a balance after deducting espences of 6,354-12-" of which 5,510 have been invested in Government Securities-

Peshcush-6701-
Subsistence & Collection Charges 2975-3-1
9675-3-1

14- The gross charges fell below those of 1249 by the sum of Rupees 217-5-2 a result which must be considered satisfactory

15- His Lordship in Council has already recorded his approbation of Mr. Arbuthnot's management, but would have wished that he had more fully particularized the studies of the two Zemmdars, more especially, as a similar omission was remarked upon, in the Minutes of Consultation under date 21st November 1842-

16- The Marungby Zemindar is stated to be at the time of report within two years of his majority and as it is the duty of Government to ensure as far as lies in their power, that this period be profitably employed by him, his Lordship in Council determines

Fort St. George 3rd October 1842

determines to call upon Mr. Smollett for a special report, as early as possible, on this subject, detailing the nature of the Zemindar's studies, of his present advancement in them, and also of the estent of tutorage employed Mr. Smollett will at the same time report similarly in detail on the progress of the Zemindar of Sungumnulsah-

Para 2.- Para 1- The settlement described in these Proceedings is of a favorable nature.

" 3. The season of 1250 was better than the preceding one and upon the whole good, &c That there was increase of Cultivation under every head of wet, dry and garden, and a corresponding increase of Revenue amounting as compared with the revenue of 1249 to 30,133-4-10 chiefly derived from the dry lands- The improvement would have been still greater but for the partial failure of the early freshes of the Cauvery by which a portion of the first rice Crops were lost and for the depreciation of price in consequence of the general abundance of

of produce throughout the Country which the Collector fears will impede the realization of the whole amount settled by him-

2. The total Land Revenue amounted to 1,46,887-7-2 and including Extra Sources to 1,48,059-2-8, exhibiting an increase on the whole of 33,126-11-7-

	Fusly 1249	Fusly 1250	Increase

Extra Revenue	1,76,194-4-9	1,79,187-11-6	3,615-3-11

3. The Balance of Land Revenue at the close of the fusly was 20,840-4-11 which

Collectors Report Pa 4-65. Board's Proceedings 15 " it is observed was reduced on the 31st " to 9,409-13-5. From the observation may last to of the Collector above quoted, it is feared that the greater part of this will be found to be irrecoverable- It is clear that it can only be realized now by trenching on the resources of the current year and the Board will therefore exhort the Collector to bring the question of the proportion of demand to be retained to a speedy determination-

Para 16 His Lordship in Council approves of the call made upon the Collector to state whether the arrears of former years are recoverable or not, and desires that they will impress on Mr. Onslow

Fort St George 3rd October 1842.

Onslow the importance of effecting this object

It should be understood as a general rule that all balances on the Ayan lands should be finally adjusted during the Settlement subsequent to that on which they have occurred, and that in other cases as when occurring on Jirt rent, peshcush &c. they should be specially explained in each settlement. Referring to Statement 10 that accompanies the Collector's Report, it is observed that the total amount of former balances at the close of 1250 was 13,483 — 1 — 11 of which one half or 6,575 — 12 — 3 had accrued previous to 1248 Fusly or from 1238 to 1248 — and this sum had been reduced by the Collection of 1246 — 5 — 9 during 1249 Fusly. This result shows that Mr Onslow has not been inattentive to the importance of the subject and it appears from the last Demand Collection and Balance statement, received by the Board that the sum total on this account has been still further

reduced to 10457 — 5 — 11 —

His Lordship in Council is only desirous of reiterating the frequent expression of the sentiments of Government on the impolicy of such heads of account as that of Columns 12 in Statement 10 being allowed to remain at all

Para 5.

5. The observations of the Board on the practice of throwing up old occupied lands are just and proper, but great care is necessary to prevent such freedom from degenerating into abuse — It must be obvious that the value of particular fields and spots of land is relative and dependent on that of others in their neighbourhood — The assessment too, will often be found to have been imposed with reference to the natural dependence of one field on another — such Considerations together with the principle inherent in the Village communities providing that all the inhabitants should have a share in the superior and inferior soils, the near and the more distant localities, led to the adoption of

the patent system and other schemes of native revenue administration subsequently abolished. The freedom of selection is now conceded to the Ryots in all districts subject only to the condition of relinquishing good and bad land as it is termed, together, and in due proportion and it is desirable that this check should always be kept in view.

Paras. 6. 9.

6. His Lordship in Council disapproves with the Board, of partial and unauthorized alterations of the assessment, a practice already strictly forbidden. But it would appear that complaints of unequal assessment have not been confined to the Villages under the Channel in Conaud Talook and the refusal of certain Meirasidars to cultivate their proper lands noticed in a subsequent para of the Board's Proceedings may perhaps be connected with some real or supposed grievance of this description as it appears to have been on a former occasion. In making revisions of the measurement

9. His Lordship in Council has much satisfaction in recording his sense of the care and attention exhibited by Mr. Onslow in completing the settlement which is particularly exemplified in the pains bestowed on the improvement of the revenue accounts, and in his encouragement

2- I hasten to rectify an apparent misunderstanding of a passage in my letter of the 18th August last, and at

at the same time to apologize
for having failed to guard -=
against it. The following is
the passage to which I re-
refer - "Some Summuds that
I have inspected have the name
entered in a different hand,
from the rest of the docu=
=ment, but this frequently -=
occurs in the ordinary des=
=patch of the Moonshees=
business, when expedition=
is required, and is no=
indication of the name
having

having been inserted after the signing
of the paper". - My meaning was that,
when a number of Summuds of appoint=
=ment or other orders running in the=
same terms are required to be prepared
expeditiously, the Moonshees cause=
them to be written out by the Goomastahs
of their own and other departments -=
leaving a blank space for the name of
the Nominee or person addressed -.
The orders so prepared, are then brought
to the Head - Moonshi, who himself has
the names inserted in communication with
the Sheristadar, and then takes them for
the Collector's signature. The practise
of signing Summuds before the insertion
of the name of the person appointed
is not, and does not ever appear to have
been sanctioned in this Office -.

From the Collr in the E. Dn of Arcot-

Reporting on the Mauritius Sugar Cane cultivation, and submitting Copy of a letter received from the Acting Sub Collector dated 21st Instant--

Sir,

I have the honor to acknow-
-ledge the receipt of your letter dated 22d Ultimo, relative to the Cultivation of the Mauritius Sugar Cane in this District.—

Para 1.

2. A small quantity of Cane of this description, was distributed by me last March to some Ryots in the Principal Divi-
-sion- The Cane is looking well, far superior in appearance to the Country Cane, and promises a good Crop- The quantity was very small, as I could not procure more at the time- It was eagerly-- sought for by the Ryots and they have earnestly requested that seed Cane to a large extent may be obtained for them for next year's sowing--

3. In the Sub Division, the Mauritius

Cane

was introduced last year by Mr. Bourdillon, and it appears from the report of the Acting Sub Collector, Copy of whose letter on the subject dated 21st Instant is herewith submitted, that 2/3 Cawnies of Sirkar land assessed at Rupees 24-a-11- and 1/8 of a Cawny of Enam land are now Cultivated with the Mauritius Cane - A portion of last year's Crop failed, otherwise a larger extent of land would have been cultivated with this kind of Cane - It is stated by Mr. Hall, that, the Ryots "who "either possess or have seen the Mauritius "Cane universally, and readily admit its "decided superiority over that of this Country and that a desire prevails to obtain more seed Cane of the Mauritius Cane - The Ryots of the Sub Division Mr. Hall states, are carefully preserving what they already have, and that there is a prospect that it will be extensively Cultivated -

4. Adverting to the recorded advantages of the Mauritius cane elsewhere, and to the eagerness displayed in this District to extend the Cultivation, it is my intention to encourage

it among the Ryots - It has only commenced it may be said in this District, other Districts may be able to furnish results, and in this case it would be satisfactory that these should be communicated to me, particularly as regards the watering and whether Dr. Wights recommendation of planting some Canes in Dry Grain Fields, where the only water is from the falling rains, has been attempted and with what success -

5. The Ryot is exposed to some charge in the purchase of the Cane, especially when it is brought from a distance, and there is a possibility of some of the seed not growing as was the case last year in the Sub Division - Adverting to these considerations and to the importance of encouraging the Cultivation of the Mauritius Cane, I would beg the permission of the Board to remit 2/3 of the assessment for next year, and 1/3 of the following year, on Land Cultivated with the Mauritius Cane to the extent of 5 Cawnies in the Principal Division, and

vation being bonâ fide by Ryots---

Sir,

Para 1. I have the honor to acknow-

Instant with Copy of that from the Board of Re-
venue of the 22d Ultimo, calling for information
on the subject of the Mauritius Sugar Cane
grown in this District, and to submit the
following as far as regards its Cultivation
in the Subdivision--

2. The Mauritius Cane was introduced
into this Division only last year by the late Sub
Collector Mr. Bourdillon, who then distributed
about 1000 Canes, which the Ryots were permitted
to Cultivate on lands free of tax for the first year,
so that they might thereby be induced to preserve

this year there are 2 1/3 Cawnees of Sirear,
assessed at Rupees 24 — a — p — 11 - and 8 of a
Cawnee of Enam land under Cultiva-
tion, which, considering the further dis-
tribution in the early part of this year of
I believe, 400 more Canes and the proli-
fic nature of Sugar Cane, is but a
small increase in its Cultivation, com-
pared with what would have occurred had

ly failed--

4.
some of the present Crops, and can testify
that the Maritius grows much stronger and
heavier than the Country Cane, but I am
informed that the preparation and plough-
ing of the soil for it, requires more labour and
care- Those Ryots to whom I have spoken
on the subject, who either posses or have
seen the Mauritius Cane universally, and
readily
ordered

readily admit its decided superiority over that of this Country, more especially with reference to its sweetness, and the larger quantity of juice it yields. They seem impressed with a belief that it is particularly suited for the manufacture of Sugar Candy as well as Sugar of the first quality, but as they have not yet made any Sugar from it, I am unable to state decidedly the relative qualities and value of the produce of the two species of cane in question.

5. I conceive that no doubts can be reasonably entertained regarding the benefit which a more extensive Cultivation throughout the Country of this superior species of Cane will create both to the Government, the Ryots, and all concerned in the sugar trade, and I am happy to be able to report, that, judging from the anxiety evinced by the Ryots, in this part of the District, for a further supply of Cane

cane, and the care with which the generality of them are preserving what they already have there is good reason to anticipate that in the course of a few years it will become very largely cultivated in the Subdivision, more especially in the vicinity of Timiry in the Arcot talook, where even now Sugar is manufactured from the Common Country Cane much approved of in the English Market.

"-12. Statement of Demand Collection and Balance on account of Arrears of Land Revenue at the close of fusly 1251 -

"-13. Statement Comparative of Charges

Villages- 2 The total number of Villages in this fusly corresponds with that of the preceding one - The Village of Annandanoor was transferred from the list of rented Villages to

to those of Ryotwar the Puttah having been delivered to the proprietor of the Village. The Village called Afsoor which was in-
=cluded last year in the rented Villages is now added to the list of Bacherauk or Villages the lands of which are laid waste - The circumstances under which it was deemed expedient to allow a por-
=tion of this Village to be rented in fusly 1250 were explained in the Summabundy Report of that year, and my sentiments as to the cause of the Ryots refusing to cultivate on the usual terms, have been more particularly detailed in my letter of the 17th Instant. I have only to remark in this place that all attempts to induce the Ryots to undertake the cultivation of their lands at the rates of assessment hitherto prevailing for fusly 1251 proved unavailing and the enquiries which I instituted lead me to the conclusion that the fertility of the lands has really been very much affected by the Salt works in the adjoining Villages of the Tondamaun Country - The rates too as shewn in my letter of the 17th Instant are higher than those in

in the neighbouring Villages, and these causes added to a continued depression in the price of grain have combined to impoverish and discourage the people. Only one Village: Poyapoothoor, in the Talook of Vitticutty remained under Cumany in fusly 1250, and in the fusly under report this was rented. leaving no Village under this discription of management.

During

Season. 4. During the whole season there was a great failure of rain. From May to August. with the exception of June, slight and partial shewers fell, but were quite insufficient for the purposes of cultivation the consequence was peculiarly distressing to the people who are accustomed in the early part of the season to sow the grain upon which they mainly depend for their support. the after part of the season being devoted to the cultivation of produce for the purposes of profit enabling them to defray the cirear dues. Nor did the season improve as it advanced so as to admit of their making up for the loss thus sustained by the cultivation of the latter crops. for the rains when they did fall came in such quantities, and lasted so long, that much damage was done, and the result was a falling off in the Revenue of the dry Villages in all the Talooks except Vitticutty which was more favored in regard to rain. and where the garden lands

lands were therefore more extensively cultivated. The Taloks which suffered most are Arreaclore and Woodiar pollaim. the soil of which being less retentive than that of the others, water can only with difficulty be stored, and the immediate dependance on rain is greater.

5. In regard to the Wet Taloks the supply in the Cauvery was good throughout the season but the continued depression of prices was much felt.

Prices. No. 1. 6. The accompanying Statement* will shew that the prices of grain remained nearly the same as in the preceding fusly, and to this cause must be attributed the great falling off in the cultivation of the Valan Crop the price of which was hardly sufficient to defray half the assessment to which land cultivated with it is liable. there was also a general falling off in the cultivation of other crops from the same cause, and I found it necessary at the close of the fusly to apply for permission to postpone the collection of a portion of the balances which had consequently accrued.

The

The relief was granted and has, I am persuaded been attended with very beneficial results in creating a confidence in the people that they will not be pressed beyond their means. It is apparent also in the exertions they are making for the season in which I am writing.

Settlement. 7. The Tummasebundy commenced in December 1841 and was concluded at the end of May. The Taloks of Conaud. Vitticotty. Caulgoody. Mossery. Woodiar pollium and Arreaclore were settled by myself. Those of Torriore and Volconda poorum by Mr. J. Bird Sub Collector of Coimbatore, who was appointed to the charge of the District during an attack of illness which obliged me to leave it while engaged in the Settlement. In 26 Villages. I should here observe. in the Conaud Taloak the Meerasidars refused to receive their puttahs. the circumstances connected with which conduct will be detailed in another part of this report.

8. The subjoined Statement exhibits a comparison of all items of the net settlement of fusles 1250 and 1251. from which it will be perceived that there was a decrease in the latter fusly of Rupees 30183-15-2.

Increase and Decrease under the head of Ashtabagum and Chatabagum

16. The net result of the changes under this head arising from Brahmins cultivating their own lands, which had been previously cultivated by ryots, and from the indulgence being disallowed in some instances in which it was found to have been obtained irregularly, exhibits a decrease in the Circar revenue of Rupees 164-6-2. A detailed report regarding this custom will be made in connexion with other subjects, in obedience to the orders contained in the Board's proceedings of the 28th July 1842.

17. The items of increase and decrease under the heads of Porumpoke, Fusul Jastee, and Commee and Vampira exhibiting on the whole, a net increase of Rupees 4,379-3-5 do not seem to require any particular remark.

21. It will be observed from the above Statement that no less than Cawnies 1797-66-12 are represented to have been converted from dry to Wet, while the increase of Revenue in consequence is only Rupees 360-3-11. The fact is that only Cawnies 41-3-6. were really converted all the rest, which are situated in the Talook of Woodiarpolliam, although cultivated as Nunjah, having hitherto been entered in the accounts as Poonjah Crops, there being no difference in that Talook in the rates of assessment of Poonjah and Nunjah. It was however thought proper that the real description of cultivation should be noted in the accounts. Thus the increase in revenue is derived from the above Cawnies 41-3-6. situated in other Talooks.

accounts ought, now that the land has become the property of Government, to be struck out. Rupee 1-7-3. also a portion of the tax fixed on a compound being found to be in excess of the demand proper to the real extent of land has been remitted in adjusting the accounts this item has been entered under the above head. to which it does not properly belong. It would occasion great trouble to make the necessary alterations now. it is proposed to do so therefore next year.

Increase and Decrease in ready money Collections.

24. There was a net increase under this head of Rupees 125-9-9. the only item which seems to call for remark is the increase on account of Kadooneervary and Seercooly amounting to Rupees 1,203-6-5. arising from the extensive use of water from Tanks and Nullahs belonging to the Circar by ryots who had not made use of it in the preceding fusly. The increase and decrease in the other items arises from usual causes.

27 The extraordinary length of time to which the rains of the North east Monsoon were protracted in the season under review, and the height at which the River was thus kept, caused extensive inundations and the crops being in consequence destroyed, it became necessary to make remissions to the Amount of Rupees 3306.8.2. 32 This seems to be the proper place to notice the circumstances alluded to in para 7 under which the Meerasidars of 26 Villages refused to take their Puttahs. These persons at the time of Summahbundy alleging the plea of poverty, refused to execute the Moochilkas usually given in exchange for their Puttahs and demanded that the old system of Varum or division of produce should be reverted to- This demand it was of course impossible to comply with- and altho' remissions such as the emergency of the case seemed to call for

for were offered, they most resolutely declined acceding, to any terms, but those which they themselves had proposed- There is nothing in the situation or circumstances of these Villages to render it proper to extend to them any indulgences which are not allowed to others- all have suffered more or less and to make any exceptions would undoubtedly, besides being, unjust, give rise to further demands- The only course to be pursued therefore was to give the Puttahs into the hands of the Curnums- and to secure the produce and get it disposed of under the superintendence of the Circar Servants- and it will not be surprizing that under these circumstances out of the total demand against the Villages in question Viz. Rupees 50036-2-9- the sum of Rupees 15324-10-4- still remains uncollected- Rupees 31634-8- having been realized by the sale of grain and the value of the grain remaining being Rupees 3077-0-5-

Statt No. 14.

33 If the gross produce as reported to be discovered by the Government servants and exhibited in the accompanying Statement

statement could be considered as the actual quantity produced there would doubtless appear to be sufficient reason for complaint on the part of the ryots but it must not be concealed that there is very great difficulty in securing the whole of the produce under such circumstances as are above detailed and that some loss must be sustained - so that the quantity entered cannot at all events be considered as the whole of the produce - Moreover, before the interference of the Circar Servants, the Mootah Car had been reaped and heaped so that there is scarcely room to doubt that a considerable portion of it was made away with and disposed of unknown to the Servants of Government -

34 I have no hesitation therefore in expressing my opinion that the conduct of the Meerasidars was quite uncalled for by the circumstances and in fact highly contumacious. they have ever met with the greatest indulgence from Government - as is exemplified in the remissions which are always made when really required, and in the forbearance of Government in

in abstaining from selling their lands for arrears - and I suggest that this is a proper occasion for the Government to assert their rights and expose to sale the lands of some of the most refractory - If they are allowed to escape with impunity, there is reason to fear that their example will have an exceedingly bad influence and that others who feel themselves aggrieved - instead of resorting to the proper measures, will also attempt to compel concession to their demands by similar conduct - There is I have good reason to believe, a very erroneous impression abroad that if Puttahs and Moochilkas are not exchanged, the Government demand cannot be insisted on, nor the lands sold in satisfaction of it, but of course having been cultivated and Puttahs having been offered to the Proprietors, the land is liable to sale - I need not expatiate on the mischief to which this opinion, originated by some of the hangers on of the Courts always to be found in such towns a Trichinopoly, would lead - and

the necessity there seems for at once so putting it down by excercising the power which is supposed not to exist. I will submit a Statement in the usual form in a separate address for this purpose.

35 In addition to the balances occasioned by the conduct of the Meerasdars described in the foregoing paragraphs arrears accrued in other Villages, and the Board were pleased to grant authority under date the 7th July last, for the postponement of the collection of 31,000 Rs. It was not necessary to take advantage of this indulgence to the full extent and the sum actually allowed to lie over is Rupees 24,724 - Viz.t

shewed this to be clearly the case. an amount of Rupees 303-8-4, being found to have been imposed in excess of the proper rates, and which was included in the demand has been allowed to lie over. I beg that I may be permitted to strike it out of the accounts.-

37 The total outstanding balance of Fusly 1251 is Rupees 47,420-4 of which Rupees 18,401-10-9 is due by the 26 Villages above alluded to. of this latter sum, about Rupees 3077 - - - will be collected from the sale of grain. of the remainder, Rupees 12,953-9-2 may be con=sidered as recoverable and Rupees 25,339-6-9 irrecoverable.-

Sir,

I have the honor to transmit herewith a Statement of the Land Revenue and Sayer Collections of the Fusly 1250 and 1251 corresponding with the Years 1840-41 and 1841-42 respectively, and to request that you will be pleased to lay the same before the Honorable the Governor in Council.

2. The Statement of Land Revenue exhibits a Balance of Rupees 30,183-15-2 as having been collected during the Fusly 1251 in excess of the Collections of the preceding Year, but this Balance is subject to a Deduction of Rupees 3,925-15- on account of Remissions granted during the Fusly 1251 on Lands which had been granted on Favorable Terms for the Encouragement of Agriculture, leaving a Balance of Rupees 26,257-12-2 as the actual Increase of Land Revenue for the Fusly 1251.

3. The Balance of Rupees 447-5-8 exhibited under the Head of Moturpha is the Balance of Collections on account of Fusly 1250 and Previous Years, and the Balance of Rupees 57-10-8 under the Head of Stamps is the Balance of Collections on account of Fusly 1250 and Previous Years.

4. The Balance of Rupees 224-7-6 exhibited under the Head of Sundry Small Farms is the Balance of Collections on account of Fusly 1250 and Previous Years.

5. The Balance of Rupees 729-7-10 exhibited under the Head of Ab. Barry is the Balance of Collections on account of Fusly 1250 and Previous Years.

6. The Balance of Rupees 3,870-15- exhibited under the Head of Sayer is the Balance of Collections on account of Fusly 1250 and Previous Years.

7. The Balance of Rupees 30,913-1- exhibited under the Head of Grand Total is the Balance of Collections on account of Fusly 1250 and Previous Years.

8. The Balance of Rupees 1,20,13-12,373. exhibited under the Head of Fusly 1250 Rupees is the Balance of Collections on account of Fusly 1250 Rupees as exhibited in the Statement for the Fusly 1250 Fusly 9993-5-6. and the Balance of Rupees 2,020-6-9- under the Head of Fusly 1250 Rupees 2,020-6-9- under the Head of Fusly 1250 Rupees is the Balance of Collections on account of Fusly 1250 Rupees.

I have the honor to be,
Sir,
Your most obedient humble Servant,
(Signed) H. D. Bruce

Order thereon

(39.40)

Ordered to be sent again in Circulation.-

Read the following letter.-

To,

The Secretary to the
Board of Revenue
Fort St George

(41)

Sir

From the Pr Coll: of Madura . .

I have the honor to forward Statements of the Settlement of this Collectorate for Fusly 1251 (A. D. 1841/42) in conformity with the forms forwarded from the Board under date the 29th July and received by me on the 14th August 1841 as per list A from 1 to 18.-

Reporting on the Settlement of the Land Revenue of his District for Fusly 1251.-

2 The detailed Ryotwary Settlement has been completed in all the Sin or unalienated lands, as promised should be attempted last year

SGB

It took up from February to the end of June being 4 Months for the large and three for the smaller Talooks.- The detailed Ryotwary Settlement for the Maniem lands / lands alienated in whole or in part / shall be forwarded hereafter, for the Curnums being also Curnums of the Sin Villages I was obliged to dismiss them to their houses to aid in realization of the Government dues. I was enabled to complete the Settlement, or its scrutiny in each separate Talook by deputing the principal revenue Servants and going from one to the other accompanied by my Head Sheristadar so that no delay arose any where from misunderstanding or misapprehension for which I am not myself responsible. The Pottahs were every where distributed by myself in person in so many different places

as to make the necessity for attendance to the Ryots as light a labor to them as possible. I instructed them as to the proper mode of appeal from my acts and negligences to the Board & Government, but I did not attempt to read each Pottah to its holder and ask him if he understood it and was satisfied. Perhaps the Board may concur that my time could not suffice for such an overwhelming labour where they consider there are 20,000 Pottah holders in the large Talook of Theroomungalum.

3. No rain fell in Fusly In August and September, which is the proper season for cultivation of the dry lands, the rain was partial and insufficient, nevertheless there was no decrease under this head. The North East Monsoon set in before the middle of October and ceased early in the following Month; whilst a great fresh rushed down the Vyghy on the 12th October, supplying all the channels and tanks in its course to the sea, and being frequently

Remission in Fusly 1250 Rs 26,980-7-10. Fasly 1251. 2623-4-11.

frequently renewed in moderate or small freshes there was a continued flow such as had not been experienced for the last ten years, and the remission for withered crops has consequently been small. As the amount of revenue depends on extent of cultivation, the settlement of the year under report exceeds that of the preceding one by Rupees 75,933-13-0; but from the unseasonably late period at which the first rains fell for the dry land cultivation, and from the want of rain, at the end of November and beginning of December, to invigorate and fill the Ears of the wet land crops, I fear the Ryots cannot boast of abundant returns. I mention this from personal observation and conversation with cultivators; I have no returns of produce whereto ground my opinion.

4. The average selling prices of paddy during the year under report has been Rs. a. p. 1-2-1 per bullum, whilst in the preceding one it was as high as Rs. a. p. 1-7-1, hence the great difficulty experienced by the Ryots in paying their dues and more especially by the Bramin Ryots, who till the land through hired labourers and who are more expensive in their houses and Cloths, simple as they are than others castes of cultivators some

have

have been necessitated to mortgage a portion of their lands and should the blessing of abundant crops keep down the prices in the current fasly, I anticipate I shall be unable to recover the Government dues from this caste in particular.

5. The dreadful fever that for two years ravaged Ahtoor and neighbouring villages in Dindigul has entirely ceased, but has left those villages a scene of desolation and, with exception of Cholera, which prevailed to some extent in the populous town of Madura and its environs alone the district has been healthy throughout and no disease has prevailed amongst the cattle- abundant crops of wet and dry land produce in the surrounding Collectorates of Tanjore, Trichinopoly and Tinnevelly have reduced prices to the great comfort and satisfaction of all classes except the growers and have no doubt had their effect on the general tranquility and comparative freedom from offence which I observe with satisfaction all round me.-

6. Claims to remission for withered crops were to so small extent in the year under report that I was spared the pains of personal examination- The whole was conducted by trust-worthy servants of the respective talooks under my written instructions as to the mode, and the remission was given under the usual rules.

7. No change has taken place in the principles of the settlement, but the detailed Ryotwary Accounts have been prepared in Tamil and Marattah for every village in the Collectorate.-

8 The following is a comparative abstract of agricultural Statistics between fasslies 1250 and 1251.-

In respect to the decrease of 3 villages, it is because Duit pent villages are not included in the Board's form. For the same reason the Ponds and small Channels have been omitted in the Sub Collector's division though not in mine. The decrease of population is in consequence of similar exclusion of all under ten years of age.

The Peshcush remains unaltered. The increase in the Ryotwary settlement follows the increased cultivation consequent on the abundant but somewhat unseasonable supply of water, as shewn in para 3. Last year the hill rents were included with the land revenues, but as they are excluded now form an item of extra revenue under the new form of Accounts, that item is excluded in both years from the comparison.

The difference in the revenue from extra Sources will form the subject of a separate report.-

12.- I have succeeded, without recourse to harsh measures of any description, in realizing as usual, the whole of the land revenue within the fusly, but to do so has cost me much anxiety and unusual vigilance, owing to the low price of produce, but in the Statement there will appear to be a balance of

Rupees

Rupees 23,000-" " against the Shivagunga estate because I cannot adjust that sum in the Accounts till I am apprised by the Sub Treasurer of its having been realized on good drafts which I have already forwarded to him. The appearance of this as a balance is the less annoying to me, inasmuch as under the Board's instructions respecting the Cullamunthai Mootah I never can exhibit a statement free of outstanding balance though in point of fact there be no balance in the Collectorate. This second apparent Item of balance accounts to Rupees 3,449-5-9 and I beg to request sanction for its being written off as well as for Rupees 5,840-3-1- the nominal balance of Fusly 1249 and 1250 since acceptance of the Mottahdars relinquishment of the estate of Cullamunthai.-

13. In their proceedings of the 26th May on my report of the 31st July last on the settlement for fusly 1250, the Board seemed to think there had been little improvement in the revenue since the Company's management was considered first to have taken effect. I beg to subjoin a Statement of the settlement, Collection and balance, and advances for cultivation in each fusly from 1221 to 1225 both inclusive, but in all cases omitting fractions of a rupee.-

In explanation of the balances that appe
since I received charge of the Collectorate in f
1243 (A.D. 1834) I beg to state they are exclu
=sively Peshkush balances, of which that in
fusly 1247 was already almost entirely collec
mitted the fusly and the bills remitted t
the Presidency but the amount not realize
awaiting the expiring of the accepted time
Since that there has been no balance at all, fo
though there is an entry as being such it is
entirely illusory - as before shewn the resignation
of an Estate was accepted; the utmost amount of
settlement has always been duly realized, but
because the settlement did not equal the Pesh
=cush, the difference is under the Board's or
orders, exhibited as a balance in my accounts.
In the 6th para of my report of the 31st
July 1840 I pointed out some of the causes
that operated in enabling me to effect a simi=
=lar timely realization of the revenue - but
those reasons unfortunately furnished cause
of animadversion to the Board, which however
was not adopted by the Government, and, in ad
addition, I will now mention a few others. The
entire discontinuance of dismissal or removal (except

Fort St. George 3rd October 1842.

on promotion) from place to place of the Servants
of my own office and in the taluk Cutcherries -
the same system nearly as completely carried
out throughout the talooks even as low as a Peon,
so that dismissals and suspensions are confined
almost solely to Village officers who meet
such punishment in a formal manner after
careful investigation under Regulation IIX of
1822. great care in filling up vacancies
from deaths or retirement, always promoting
men in preference to introducing new servants
and always filling up the minor situations
from persons belonging to the Collectorate in
preference to bringing in a stranger or dependent
in another country - a watchful care not to press
the poorer cultivators for his rents whilst
collection from the heads of the villages, the
wealthy and the Mahajenums is postponed
third favor, and, very mainly from the high
example of integrity and industry set by my
head Peristadar, Sashagherry Road, which is
generally copied with greater willingness and
success than I could have expected - The Board
rather attribute the result to good years and light
taxation - The years I think cannot be
considered

considered more favorable than average - the taxes have not been reduced, yet the same result has never before been exhibited, so that if my reasons be not approved, the cause has still to be sought.-

14.- Statement Number 12 gives a view of the small extent of sugarcane Cultivation.-

15.- At the earliest moment in my power after receipt of the Board's Proceedings of the 27th May, shewing, in the 13th para, their dissatisfaction with the little information I had given them respecting the decreased revenue from the Tullamum Estate, I proceeded to the spot and satisfied myself, the Accounts they commanded me to forward never have been in existence - nor is there any ground to expect such Accounts should be forthcoming - Statement A exhibits its settlement - It comprises hardly any rice lands - the soil is dry situated on an elevation surrounded by hills - I have no reason to believe any combination against the Government - The Mottahdars system of abandoning the

+ 600 Rs tax:

survey

survey rates and renting it to the highest bidders was the most profitable - I am convinced the rates must be lowered, but still I claim the three years observation granted me originally by the Board, and which they do not even now deem too much, before offering my opinion as to the extent to which the rates should be lowered: and I must content myself with expressing my sorrow that I am still unable to afford them more information than has already been long before them - As yet I am unable to say whether there has been mistakes in the survey - a not unlikely occurrence - or if the value of the soil has been changed by climate or other cause; though we well know it is long since the Mottah has been favored with the rains formerly remembered.-

The Board would augur from the accounts that there was a decrease in the cultivation of no less than 6651 Cawnies between fuslies 1249 and 1250, and tho' the same Accounts shew the Money decrease was only 838 Rupees, it never seems to have induced them to think the apparent cultivation of 1249 was but laid

16. Notwithstanding the low price of grain I am happy to report the manager of Ramnad has satisfied the demands against him with his usual punctuality And harrassed as he now is by his sister Moottoo Veerayee Nachyar, the late guardian, and by Paroudy Vurdanee Nachyar, the Mother and present cx guardian of the minor Zemindarry heiress, aided by the intrigues and cabals of her brother, who has succeeded in unsettling the unanimity and obedience of the whole Zemindary, I cannot but give him more credit than I should otherwise be inclined to do- He is engaged in completing the essencine portion of Road No 8 from the Port of cx Devipatam to Ramnad, whereby I have little doubt he will have conferred a lasting benefit on the Estate. And though I fairly told him I could not prevail on the Government to undertake the joint expense cx of reconstruction of Road No 9 which will prove of such material value to the growers of Cotton, in affording him

a short line of land carriage to the Co-ast, he willingly undertook his share in the confidence that I would never cease to urge the advantages of their co-operation on the Government.-

20. Calimandah Jafty Mootah Jummabundy account.
21. Jafty Mootah's Dehawar Kammy Jasty.
22. Shrotriem beriz Yabitah or Statement of the only Shrotriem village in the Sub Division.

Villages & hamlets.

2d. The undermentioned is a Statement of the Increase and Decrease in the number of villages and hamlets situated in the Amani portion of the Sub Division compared with the last Fusly.-

Ain Shrotriem

	Fusly 1250	Fusly 1251	Increase	Decrease
Villages	279	279	"	"
Hamlets	1,226	1,229	3	"
Total	1,505	1,508	3	"

These

3. These three hamlets are situated near the high road; one in Tenkurray and two in the Talook of Kellacottah; and have sprung up to meet the convenience of the ryots who had cultivation near the spot.

Population. 4. The decrease in the Population of the Amani portion of the Sub Division compared with that stated in the accounts of the previous Fusly is found to be 11,324. the number for Fusly 1250 as having been taken as 2,21,132 whilst that of Fusly 1251 only at 2,09,808. The chief if not only cause of this decrease is that children under ten years of age have been up to last Fusly, included in the number of adults, in the accounts. The Statements for the present Fusly being prepared agreeably to the new Forms, the children are now omitted; and hence the decrease in Population Children of 7 and 8 years old are however much used in tending sheep, watching cattle & crops &c. The area of the Amani Villages of the Sub division may be taken at 4,251 square miles, which shews 49 inhabitants to each mile, and to each house 4 persons above the age of ten.

Cattle. 5. The following abstract Statement will point out the Increase in Cattle compared with Fusly 1250 as computed from the accounts of the Village Officers.

Particulars.	Fusly 1250.	Fusly 1251.	Increase	Decrease.
Cows and Calves	69954	71,510	1,556	"
Bullocks	42,845	43,730	885	"
Female Buffaloes with Calves	21,078	21,684	606	"
Male Buffaloes	4,581	4762	181	"
Sheep	103093	106169	3,076	"

The increase in Cattle is chiefly owing to the District having been favored with seasonable rain almost throughout the year, which provided water and good pasture for them.

Season. 6. With respect to the season of cultivation during the Fusly under report, I beg to state that it was on the whole, good.

7. With reference to the Punjah cultivation or that of grain and pulse produced on dry lands, the following is Statement of the number of days on which Rain fell in the four Talooks during the first sixe months of the Harvest year.

10. The increase of the lakes and consequently annicuts arises from four of them having become perfectly useless from age and want of the necessary repairs at the proper moment when much loss to individuals and the Circar might have been prevented. They were not therefore entered in the usual Jummabundy accounts up to the last Fusly. Three of them have been repaired at the Circar expence and one by the ryots.

11. Jungle streams have generally been added up with the number of Channels in the Jummabundy accounts, but as the accounts for the present Fusly are prepared agreeably to the new Forms in which the streams are omitted; the above decrease is the consequence.

12. In anticipation of abundance of water which might be turned to account in the cultivation of Nunjah, tanks were dug in certain spots by the ryots at their own expence, each at a supposed cost of from 50 to 100 Rupees. The tanks were found useful and remunerative.

13. As the Tolas or yettums on the banks of rivers, and the Enam Wells, were not

not included in the accounts up to last Fusly but are brought to account according to the new Forms; and as some Wells have been recently sunk by certain ryots at their own expence the above increase is occasioned.

Settlement.

14. Preparations were made for the Settlement of the present Fusly in January last, by an order from me, to enquire into the state and extent of the cultivation. The Curnums of the Talooks of Iyempilly and Tenkurray were collected at those Talook Cutcherries respectively, and those of Nellacottah and Tadicomboo at the Dindigul Casbah Cutcherry, latter two Talooks being contiguous to Dindigul. The preparation of the Jummabundy accounts was commenced in February according to the order of receipt of the accounts of Cultivation received from the several villages. Individual Statements were immediately prepared in Hinduvi. The puttahs were subsequently distributed individually by the Acting Sub Collector Mr. Owen, at the following stations. For the Tadicomboo Talook at Dindigul, Tadicomboo and Vadamadura. For the Iyempilly Talook at Pullaney and Chettraputty. For the Tenkurray Talook at Tenkurray and Devadannaputty. For the Nellacottah Talook at Dindigul, Pulkanooth, Cunnivady and Buttalagoontah

The

The number of Puttahs mentioned as issued to those who had partners were in last Fusly included in the number of those of the residents and non residents.

The increase in Puttahs 17. is owing to fresh land being taken up as well as to certain partners who held puttahs conjointly in last Fusly having in this Fusly done so individually which will also account for the decrease in the above number of partners.-

16433½	16561½	335½	207½	128.

It might appear more simple to strike off the half plough, but as many of such have been sent in from the villages a systematic reduction would take extensive effect over those numbers, as they are brought to account at two ploughing bullocks for each plough, any odd number on the village returns constitutes the half plough. The cultivators being 40057. the number to each plough will be about 2½. The number of Cawnies being 158264. the number of Cawnies to a plough will be 9½, and the number of Cawnies to each ryot four.

Explanations.

21

Explanation of the above-mentioned kinds of cultivation &ca.-

No. 1. Punjah fields cultivated with dry grain, legimes, pulse, grain, oil, rope, cotton, &ca.-

No. 2. Punjah garden cultivated with cholum or great millet, Cumboo, or bajra &ca. irrigated from Wells, some lands having been cultivated with garden produce an increased tax was placed thereon from which amount on each field if the regular tax be deducted, the teerwa jastee or sheer profit to the Circar is Rupees 254- as 3- ps 5.-

No. 3. In Nunjah lands sometimes two and even three crops are raised, but only one crop is inserted in the accounts.-

No. 4 From a failure of the sources of irrigation of Nunjah, Punjah is cultivated on half teerwa according to the provisions of the general Hookumnamah of the District.-

No. 5. Nunjah garden being cultivated with Plantain, Betel, Sugar-cane.

cane and turmaric, were to pay an increased assessment over that fixed for the ordinary Nunjah cultivation. The increased tax on account of the increased value of produce, amounts to Rupees 2786- as 10- ps 2.-

No. 6. Nunjah produce has been reaped during the present Fusly from lands on which a fixed Punjah tax is generally leviable, on account of increased facilities of obtaining water to cultivate a more valuable species of produce. The increase of tax on this species of cultivation amounts to Rupees 357- as 15 ps 2-

No. 7. Shows the lower assessment leviable on Shotriem villages and certain lands whether cultivated or not.-

No. 8 This increase is to be attributed to a competition for the rental of certain topes.-

No. 9. This tax is paid for the pasture lands of the 32 hamlets appertaining to the village of Tadicomboo on there being no tax at present levied

on the other portions of the division where the pastures are very rich and invariably made use of by the richest and most powerful to the exclusion of all others.

No. 10. Of this amount, 700 Rupees are derived from the hill which forms part of the Zemindary of Kunneevady now under immediate Circar management. On this hill, Plantain and Jack, wheat and other grain are cultivated.

120 Rupees is the amount derived from the Cardamon plantation on the same hill, being rented at the same rate for 5 years. It is generally understood that the renter of this valuable plantation or species of produce, has cleared 4,000 Rupees in this Fusly alone, which will doubtless increase till the rental has expired

57 Rupees 4 Annas and 3 Pice is the amount derived from 3 rented villages situated on hills in the Tenkurray Talook. The spots in these

these places are cultivated with Plantain Jack, Punjah grain Castor oil seed, &c.

No. 11. This quit rent is levied on the late Mr. K. Davidson's Bungalow at Pulkanooth.

No. 12. The decrease in the item on the rent of honey and wax is to be ascribed to only a few bidders having ventured on the speculation, in consequence of its not having proved a source of profit during the preceding Fusly.

The total of the Tarwa Justee or increased assessment on the superior kinds of produce (after deducting the regular tax on the respective lands) is Rupees 3,398 as 12. P. 9.

22. This Statement exhibits the amounts of Remission allowed by the acting Sub Collector for withered crops &c.

There

No. 1. There having been on the whole a good supply of rain in this Fusly. is supposed to have restricted the amount. allowed on this account.

No. 2. The decrease in the allegal manf or remission on betel & plantain is similarly accounted for.

No. 3. Cowle has been granted to some few persons in the present Fusly conformably to the rules in force; and hence the increase.

No. 4. The assessment on land cultivated by sugarcane was alone entered in the accounts for last Fusly. By the new Form it is required that the difference of decrease between the present Teerwa and that established by Mr. Collector Hurdis on such land should be particularized. Consequently the difference, under the head of Decrease. is inserted in the Statement for the present Fusly. a separate Statement for the cultivation of the sugarcane, is given in this Report.

No. 5. This teerwa ~~cessiny~~ has been caused from Paddy having been sown

sown in the Punjah Garden adopted for Plantain and Betel, which is liable to a higher tase.

No. 6. From Punjah having been cultivated on Punjah land liable to a high rate of tase.

No. 7. From Kodah or Punjah garden, and Punjah lands having been cultivated in the Tobacco garden, liable also to a higher tase.

No. 8. Punjah Cultivated on Koday or garden land is liable to half Kodah tase in the Talooks of Iyempillay, Tenkurray and Nellacottah, whereas it is liable to the highest Punjah tase in the Talook of Tadicomboo.

No. 9. As. Kottaparratee (cotton produced after cutting down the last year's plants) was obtained in certain spots of this District, such was liable to only half the usual teerwa, because only one crop was obtainable in two years.

No. 10. From certain ryots of the Mailmongalum Village in the Tenkumray Talook, having undertaken to cultivate

cultivate some nunjah, which they after-
wards failed to do, without duly resigning
the same or permitting others to cultivate
the land - they were saddled with -
half the tase due thereon - -

No. 11. The cultivation in certain
beds of tanks having been destroyed -
by inundation, this remission was -
granted - -

No. 12. In some parts of this Dis-
trict damage and loss by drought having
occured to the entire first crop in -
Fusly 1250, the ryots refused to cultivate
the lands thereon a second time unless
a lower tase were demanded which is
said to have been granted, In the
present Fusly, such not being the -
case, the decrease in this item is the
consequence - -

No. 13. This decrease has been occasio-
ned by the late seasons being favorable, no
cowle land was permitted by the ryots to lie fallow.
This was not the case in the previous Fusly when a
great part of the lands on cowle tenure was left waste.

29. By the above it will be seen that the difference between the assessment placed on cultivation of this description by Mr. Nurdis and the present system is Rupees 1356 - 1.5. a/c. The ryots have cultivated in this Fusly sugarcane on lands liable to a Comparatively trifling tax; and therefore the above increase in the cultivated land has been attended with a decrease in the tax thereon---

30. Altho the Fusly was not ushered in by any very favorable appearances the subsequent supplies of rain were calculated to induce the ryots to extend both their Kunjah and Punjah cultivation to their usual extent. Have been given to understand, however, that the paddy in several places ran a good deal more to stalk, than was desirable, and the consequent produce was not quite what had been anticipated - the amount of tax derivable from Kunjah cultivation in the present Sub division being as follows---

31. It appears that the wet cultivation in Tenkurray is nearly equal to all the others put together - The surplus grain of Tenkurray has till lately found a ready market in Tirnongalum and Tenkasi by an expensive route of 56 miles to the former and 70 to the latter; but a bandy-road having been made about two years back, those distance have been reduced by 30 miles - which must tend to operate favorably on the consumers - at those places - which however are not in the Sub division - altho the grower is enabled to send out a greater quantity of grain in the same period than before - his profits will not of necessity increase in the same proportion - The increased competition from improved means of transport will curtail the growers profit whilst the consumers will benefit - from those causes as much as the Carriers or merchants -

32. At the time of paying up the Jumabandy kists, 4 in number, the price of grain fell as is usual, but came lower than last year as shown in

The Hills in the Sub -

33. Division of Dindigul from which - Revenue is derivable, are situated in the Talooks of Iyempillay, Tenkurray and Nellacottah. For the 40 years preceeding the last eight, the rents for the Poombarray Yettoor, Vilpatty and Veerupatchee - nads situated on the Pullaney hills in

the

the Talook of Iyempillay and of Tandikudy in the Talook of Tenkurray, were generally given to the people of the plains who managed to out-bid those who lived on the hills. By means similar to those by which the hill ryots lost the rental, over-collections were made by the renters and only just tolerated by the ryots. Indeed a refusal was an unhappy speculation was it found the ryot a defendant in Court - other methods of annoyance were not lost sight of so as either to reduce them to beggary or submission. This tyranny and abuse of very limited authority is not however restricted to the hills round Dindigul, but whilst it tended sadly to annoy and aggravate the people also tended as a natural consequence to inflict injury on the Circar. In fusly 1213 it was directed that the rents should not be given to persons who inhabited the low country, from which period the hill people have extended their cultivation particularly of wheat, but not for sale as formerly, since the being fully aware of the value of the production compared with the price they could command

the

the corn is kept for private consumption, as from experience they have found it far more nutritious than any other grain. what is generally called hill wheat, is not so valuable as English wheat, called Sembah and also Salem from which districts it is said to have come. But wild Hog, deer, Elephants and bison, destroy the English wheats which only affords one crop, whilst the hill wheat requires comparatively little trouble to rear two crops.

34. The narrow and difficult path down the hills was a great bar to all communication with those below. There now exists a better road from Tallaney to Pomberray and Shemboganoor towards Devadanapully with halting sheds at convenient intervals, which prove useful to merchants with laden cattle. The hill people have an increasing stimulus to extend their cultivation; but neither tamarind trees nor Cardamoms are as yet found there. The following are descriptions of grain now cultivated on the hills.

There are 3 Villages on the Kummeevadi hill in the Pellacottah Talook in which Runjah, Punjah, Plantain &c. are cultivated. It is rented yearly for about 700 Rupees. This amount has for a long time been entered in the Villages Soomadoyum account. The cultivation of Cardamons is here abundant and fast increasing, and would with care prove a most valuable source of revenue if adopted on those hills which are now and are likely to remain under Amani management, which is not the case with those situated in the Kummeevadi Muttah.

37.

Cullimunday Muttah.

The six Villages of this under attachment for 3 years. Being situated near Syempilly, their Summabundy accounts were prepared at the said Cutchery, and afterwards puttahs were distributed to the ryots at the Village of Chuttrapully in the same Talook.

the lands according to their several abilities and paid the assessment - altho' the Cowle remission was in this way given, the revenue to the Muttahdar was apparently less than the peshcush amount. He therefore represented to the Circar his inability to pay so large a peshcush and the muttah is now under attachment.-

After the 6 Villages were brought under attachment, the Circar demanded of the ryots the whole assessment without any deductions save the Hoolos money allowed from Mr. Hurdis' time. The ryots therefore left the highest assessed lands, fallow, excepting only a small portion of a superior description, the produce of which they considered would enable them to pay the fixed rent. They likewise cultivated other lands on which a moderate tax was

was leviable. Some who had sunk Wells at their own cost, and cultivated both Garden and Punjah lands, expected a remunerative crop from either of the two descriptions of produce; but those who cultivated only punjah are not in general in a satisfactory state.

45. The Muttahdar allowed lands on Bowle to Potters, Barbers and Washermen, at the rate of 5 or 6 fanams to every 15 or 20 Coolies. They are stated to have served the inhabitants and obtained their ploughs on loan for their own cultivations, and thereby satisfied the demands on the Muttah being brought under Circar management, such lands becoming liable to a high rate of assessment; those people refused or neglected to cultivate, preferring to get their livelihood by other labour. Such is the apparent state of the Talleymunday Muttah; but to enable a just opinion to be formed of its true situation, to trace as far as possible the causes which have led to this actual deterioration of the Revenue a separate Report if desired will be submitted.

From the Pr. Coll.r of Coimbatore. Sir,

Custoory Chitty
Rungha Chitty.

I have the honor to acknowledge the receipt of your letter of the 5th Instant, giving cover to a Petition from the parties named in the Margin, claiming a reward for having given information regarding certain frauds committed in the Chouky of Collegal.

2 In reply I have the honor to state for the information of the Board that as the Petitioners † gave evidence in a case where no confiscation took place, I did not consider them entitled to the reward prescribed by Section XX Regulation I of 1812.

† Vide my Proceedings submitted in the monthly Return for April.

3 It would seem that their object in appearing as complainants was to gratify a feeling of enmity against the Sayer servants, and that the interests of Government formed a very secondary inducement in their Proceedings.

4. The Petition No. 1172 of 1842, is returned herewith.

Coimbatore, Pr. Coll.r Office, 21st September, 1842.

Proceedings

Proceedings thereon. The case referred-

(46-47) by the Petitioners was not one of evasion of Custom duty under Regu-lation I of 1812, but of embezzlement under Regulation IX of 1812, and the Petitioners have no title to reward for the information and evidence which they gave.

Ordered that the following Endorsement be made on Petition 1172 of 1842.

Fort St. George 3rd October 1842.

Read the following letter-

To,

The Secretary to the
Board of Revenue
Fort St. George

Sir,

1. I have the honor to trans=mit herewith, in triplicate, for submission to the Board of Revenue, the printed Statement of the Gross Collections, Charges and Net Revenue of the Extra Sources of revenue in the Collectorate of Madras, together with its accompaniments A, B, C & D, for Fusly 1251.

2. The Gross Revenue from the Sales of Salt for Home consumption in Fusly 1251 was Rupees 93,794-7-3, falling short of the Revenue of the previous year by Rupees 2,209-13-5. This Decrease is chiefly owing to Salt having been imported in large quantities into the Mount Cantonment and Sydapett

3- The recoveries of advances made to the Salt Manufacturers and the sale proceeds of certain unserviceable Palmeira leaves being added to the Gross Collections, the Grand total is Rupees 1,38,138-9-9, which exceeds the revenue of 1250 by Rupees 38,138-9-9.

4- The ordinary receipts, Rs. 1,30,617-15-3. and the two items of Extra Revenue, Rs. 7,938-[illegible] and Rs. 18-12-7- are separately entered in the Statements of Demand Collection & Balance to the 11th July last.

5- The charges of the two years under review are as follows.

6- The Decrease in No. 1 is trifling and does not call for any particular remark.

7- The Increase in No. 2 has arisen from Cudewarum having been paid in 1250 on G. 1,362-9-[illegible] only, whereas in 1,251 payment was made on G. 2,608-237-[illegible]

8- The Decrease in No. 3 is principally owing to arrears of Compensation to the amount of Rupees 1,568-8-11- for the suppression of Salt Manufacture having been paid in 1250 in addition to the usual charges under this head, whereas in the succeeding year no arrears were paid.

9- The Increase in No. 4 is owing to the quantity of Salt for which advances were made in Fasly 1250 having been G 903-[illegible]-[illegible] only, whereas in the year following it was G 4,000.

10- The trifling Decrease in No. 5 needs no remark.

11- The Increase in No. 6 is owing to the charges for Canal toll, Boat hire, Extra Servants &c. having been in proportion to the increased quantity of

of Salt manufactured in 1251 compared with the previous year's supply.

12. The Decrease in No. 7 does not require any remarks.

The Gross Amount collected on Imports from the interior was in 1250 Rupees 68,929-9-" in 1251 Rs. 69,827-7-1, the Increase being Rupees 897-14-1, whereas the revenue on the produce of Madras was in 1250 Rs. 5,022-4-3 and in 1251 Rs. 6828-7-2 the Increase being Rupees 1806-2-11.

18. The Increase in the revenue on Tabacco is Rs. 14,913-7-6. The report for 1250 shewed that the Increase in that Fusly was Rupees 3,123-10-5 the further Increase in 1251 gives an Increase over the collections of

of 1249 of Rupees 18,037-1-11-

19- The Decrease in the revenue from Ganjah and Bang is Rupees 2,419-10-1. The cause of the increased Collections in 1250 is known to the Board and Government- With reference to the observations of the Right Wonble the Governor in Council contained in Para 12 of the Minutes of Consultation under date the 1st March last furnished by the Board with the Extract from their Proceedings dated the 14th of the same Month, I submitted for consideration on the 15th Instant a Draft act which provides for the protection of the duty leviable on these articles, the adoption of which will, I have no doubt, contribute most materially to the improvement of the revenue from them-

20- The Gross Collections on Piece and Gruff Goods were in-

21- The particulars of the Statement inserted in the Margin will shew that the Decrease in the revenue on Piece Goods arose, Fusly

chiefly, from the quantity of Cosnboys, Handkerchiefs, Blue Cloths &c. which passed this Office in 1251 having fallen short of the quantity on which duty was paid in the previous year, attributable to a decrease in the demand at Madras and to a decrease of export by Sea on account of the unfavorable state of the English Market-

22- As regards the increase in the revenue on Gruff Goods, Rupees 46,635-7-2, it will be seen from the Comparative Statement in the Margin that it was derived wholly from Indigo and Betel Nuts-

23- Minutes of Consultation under date the 1st March last referred to above, I beg leave to observe here that the Principal Collector of the Northern Division of Arcot, agreeably to a request which I made, now furnishes me with a Monthly Memorandum of Rowannahs issued by, and produced to the Sayer Chowkeydar at the Principal place of store in that District

District for the transport of Betel Nut to Madras; but so long as Shops can be placed, and are placed, so near the range of the Madras Mettoos as to enable the parties concerned in a contraband trade, and taking advantage on dark nights of the open Country to run the articles clandestinely within the limits of this Collectorate, it must be difficult to suppress smuggling wholly, however vigilant my Establishment may be.

25- The difference between the entries in No. 1- is equal to the amount of fines and vacant Situations in 1250; in which year the practice of bringing similar items to account as actual charges was discontinued, and is the cause of the decrease under this head.-

26- The Decrease in No. 2 does not call for any particular remark.-

27- The Increase in No. 3 is owing to the expense for the repair of Mettoo Huts having been in 1250 only Rupees 18, whereas in the year following it was Rupees 273-2-5.-

28- The refund of duty referred to in No. 4 was made under the sanction of Government of date the 13th September 1841.- Revenue Board 27th Sept. 1841.-

29- The Increase in No. 5 under the head of Drawback does not call for any explanation other than that this Office debits, in pursuance of existing rules, the amount of such Certificates as are issued by the Collector of Sea Customs on account not only of the duties levied at this Cutcherry, but also of the duties levied at the

of charges in 1250 was 11 59/64. and in 1251- 11 41/64.-

45. The Decrease under this head is Rupees 3083-4-2 attributable partly to a falling off in the Imports of Timber wood and Shells, but chiefly to tall on Gravel &c" the property of Government brought down by the Canal having been in 1250 Rupees 1814-1-11. whereas in the succeeding year there was no revenue credited under this head, in consequence of the closing of the Red Hill Rail road- The receipts noted in the Margin are separately entered in the Statements of Demand Collection and Balance-

The

47. The small difference in No. 1 does not call for any particular remark.—

48. The Decrease in No. 3 is owing to the Canal having been repaired in 1250 at an expense of Rupees 4,638—7—11. whereas in the year following no charge was incurred under this head.—

49. After deducting the charges, the Net Revenue is Rupees 10,746—15-6, which exceeds the like revenue of 1250 by Rupees 1547—11—9. The per Centage of Charges in 1250 was 69 61/64 and in 1257, 60 62/64.—

50. In the revenue under this head, there is an Increase of Rupees 2,249—11—8. which does not call for any remark.—

51. The Ordinary Stamp revenue Rupees 8,910—6—", and the refund of Commission Rupees 35—7—11 are separately entered in the Statements of Demand Collection and Balance.—

The

The charges are as follows.—

53. The increase in No. 1 is in proportion to the increased sale of Stamps in 1257.

54. The Increase in No. 2 is owing to refunds having been made to a larger amount in 1257 than in the previous year on application from the Sudr Court, under the provisions of Clause 2. Section XXII Regulation XII. of 1816 in the case of certain special appeals, being the difference between the amount of Stamp duty paid by the appellants and the amount payable for summary appeals.—

55. After deducting the charges, the Net Revenue is Rupees 7,805. 15-7, exceeding the like revenue of 1250 by Rupees 1691—6—8.—

50. In the Grand Total of Gross Collections for Fusly 1257 of the whole of the revenues adverted to in the foregoing Paras there is an Increase of Rupees 79574-"-" In the amount of charges there is an increase of Rupees 111675-2-9 and in the aggregate Net Revenue there is a Decrease of Rupees 32101-2-9. but excluding the excess of the payments in Fusly 1257 on account of Drawback referred to in Paras 29 and 31 above, and adding the abkarry revenue remaining uncollected for a certain number of days in September 1841, and referred to in Paras 32 and 33 to the Collections of 1257, the Net Revenue of that year would exhibit an Increase of Rupees 65864-15-11 instead of the present Decrease of Rupees 32101-2-9. I notice this, because the payments of Drawback are affected by transactions unconnected with any power of control possessed by this office, and

because the amount of Abkarry Revenue not realized in the Months of September forms a balance not originating in any thing connected with revenue management - The per centage of charges in 1250 was $29\frac{53}{64}$ and in 1251, $36\frac{51}{64}$.

To
The Secretary to the
Board of Revenue
Fort St. George

From Capt. T. G. Vallancey, Collector — &c.

Sir,

Para 1 I have the honor to acknowledge the receipt of your letter of the 15th Instant informing me that the Board having applied to the Principal Collector of Coimbatore for information regarding my application for land have been informed by that Gentleman that he has never received from me any specific and formal proposal for land but that some private notes have passed between that Gentleman and myself on the subject.—

2 I beg to state that I made a specific application for a piece of land and although my letters on the subject commenced "My Dear Sir," they were considered by that Gentleman, quite — formal enough, as his replies shew — which I herewith forward that the Board may judge how my application was received.— It was the receipt of the last letter that induced me to apply to the Board.—

I have the honor to say that

3 it

Fort St. George 3d. October 1842

it is my intention to convert the piece of land, which is now a Mass of Jungle, into a Sugar Cane plantation and to introduce the Munnitius Cane.—

4 The piece of land I require was distinctly pointed out to Mr. Stroughton, which his letters clearly shew, and I imagine that the Board will see that, the necessary report can be made by that Gentleman, but if the Board think that I ought to make another application, I shall be happy to do so, though I hardly conceive that to be necessary.—

9th. Feb. 1842

With reference to your several communications noted in the Margin, I have the honor to inclose an Extract from a Report of the Tahsildar of Danachencottah stating that the ground, you allude to is immemorial waste and unclaimed.—

You will observe that there

Fort St. George 3d. October 1842

is some difficulty in ascertaining the actual extent of the ground from the density of the Jungle, but if you will clear such quantity as you wish to appropriate, the measurement can then be made, and the demand of Government fixed with reference to the Capability of the Soil and to the assessment of the lands now under cultivation in the neighbourhood of it.—

No. 2

Extract of a Report from the Tahsildar of Danaickencottah dated 19th. February 1842.

Having been informed by Audyappa Naick, Cutwal at Metapolliem, that Captain Vallancey pointed out to him the ground extending from Hullar to a Jungle Stream known by the name of "Tennamaram Odayas Tunneepollam," the Peishcar of my Talook proceeded to inspect the same it is overgrown with heavy Jungle, and is difficult of access— It is also waste from time immemorial

and

Fort St. George 3d October 1842

and therefore no one has a right to it - It probably consists of 26¼ Ballahs (equal to about 98 Acres) but under the present state of the ground, it is difficult to ascertain the actual extent of it, and consequently the Amount of Government demand which Captain Vallancey will have to pay for this land cannot be known at present. There are a few Jack trees thereon which at present are rented by a Ryot, but he possesses no right in the land.—

No. 3

To,
Captain G. P. Vallancey
Sir,

With reference to your letter of the 24th Ultimo I have the honor to acquaint you that the land referred to being covered with Jungle and immemorial waste, you will be allowed to hold it according to the terms of the existing Cowlenamah Viz.t, three years free of Rent, fourth year one fourth of the Fixed assessment, fifth

Fort St. George 3d October 1842

year one half, sixth year three fourths, and from the 7th full Rent.—

The amount of assessment will be determined with reference to the demand on lands in the neighbourhood, and will be communicated to you shortly.

If however irrigated from the Kullar River, it will come under the denomination of Nunjah and be rated accordingly.

If the waters of this River are not used it will then come under the denomination of Punjah and the demand regulated with reference to its classification.—

To Captain G. P. Vallancey
Sir

I have the honor to acknowledge the receipt of your letter of the 5th Instant, and to acquaint you that I have given instructions for the measurement and assessment of the land therein referred to.—

You will be allowed to occupy

Fort St. George 3d October 1842

occupy the land according to the terms of the Cowlenamah now in force in the District, an Extract from which is annexed for your information. Any deviation therefrom will be with the sanction of the Board of Revenue.

Land which has been previously given to other persons, who have cleared a portion of it, and have subsequently relinquished it and quitted the Country will not again be given on Cowle tenure. Other applicants will only be allowed to hold it on payment of full rent.

In case of Cowle lands partially cleared being sold by the holder on the expiration of the Cowle, the Cowle will neither be renewed nor continued. On the contrary, the purchaser will be expected to pay the full demand which the land may become liable to. The Cowlenamah in question having been sanctioned by the Board of Revenue no other terms than those prescribed therein will, I imagine, be recognized.

To the Pre. Collr. of Coimbatore.

Ordered that that the following letter be sent in reply.—

To The Principal Collector of Coimbatore.

Sir,

With reference to my letter of

11575 Fort St. George 3d. October 1842

of the 25th August last respecting the alleged rejection by you of an application from Captain Vallancey for some land under the Neilgherries and to

In Cons 15th Sept. 1842 your reply under date the 9th Ultimo in which you state that you "have never received any official communication from Captain Vallancey on the subject of land;

I am directed by the Board to forward to you an original letter from Captain

In Cons 3d October 1842 Vallancey dated 22d Ultimo, with its enclosures all to be returned. From this letter it would seem that several communications had passed between you and Captain Vallancey on the subject of this land, many of them in strict accordance, with official usage, and tho' they now suppose that in the assertion above quoted you referred to the absence of a regular application in conformity with Regulation XIX of 1802 as indicated in your Note of the 10th August to

11576 Fort St. George 3d October 1842

to Captain Vallancey. still it would have been more satisfactory to the Board and have saved them an unnecessary correspondence with that gentleman had you put them in possession of all that passed between him and yourself on the subject.

2 The Board are desirous of submitting for the orders of Government some general questions regarding the occupation of land by Europeans involved in this case, but to enable them to do so, it is necessary that they should be fully informed upon it. You are requested therefore to submit the report called for in my letter above cited at your earliest convenience, and if the information already in your possession regarding Captain Vallancey's purposes and wishes with respect to the land is insufficient to enable you to do this, you will apply to that Gentleman for further explanation of his plans, on those specific points on which you may be uncertain
