you that I have suspended the Salt Tahseeldar of Mutcanum, and it is probable that I may consider his dismissal necessary.

2 I am disposed to read the order on the subject of reporting such cases for the Boards approval and permission as applicable only to Land Revenue and Police Tahseeldars, and not to an officer who should more properly have been denominated Salt Ameen. I shall be obliged therefore by your informing me of the Boards opinion, lest I should unnecessarily trouble them.

Reporting upon the settlement of Fusly 1251 and submitting therewith the Summahbundy Statements &c. connected therewith.

Sir,

Para. 1. I have the honor to submit the Summahbundy Statements of this District for Fusly 1251

2. The commencement of the season was most favorable, and every advantage was taken of the early rain and abundant as well as regular supply of water in the rivers to bring the lands under cultivation; In the Months of October and November however the beginning of the North East Monsoon, and the favorableness of which to the productiveness of the Crop depends, the rains were so heavy as to damage considerably the Cur Crops, which were then ready for harvesting, and at the same time so greatly increased the already heavy volumes of water in the river, that had it not been for the escape of the surplus of the Cavery afforded by the works subsidiary to the Upper Anicut, on the north bank into the Colleroon the river and the Delta and the Cultivation depending on them, must have sustained considerable damage; as it is however the efficiency

of

The sum entered for Upsaks Bangey Rupees 1831 – 15 – 2 is owing to the cultivation of the 2nd Crop of some Wet Land having been estimated at the Immakhundy but afterwards from inability in some instances and insufficiency of Water in others the land was not sown. The remission recommended for failure of Crops is Rupees 842 – 1 – 3 and is a balance of Rupees 134 – – against 43 Ryots whose dry fields were not productive at all, and the remainder Rupees 408 – 3 – 2 is the balance against other Ryots in different Talooks for whose Wet cultivation there was not sufficient Water to bring it to perfection. The other items need no remark.

From

3.- From the above Statement it will be observed that there has been a net increase of Revenue amounting to Rupees 30,247-13-11 from the Extra Sources in Fusly 1251 over the preceding year.-

Sayer.- 4 The Sayer Revenue during the Fusly under review amounted to Rupees 228,080-13-4 being Rupees 25,005-...-9 in excess of that of the preceding year.- This has arisen from the favorable terms offered by the Renters of the Betel and Tobacco duties and by the increased consumption and transit of Betelnut Indigo and Silks. The Indigo Crop was the largest ever known and the increase of Revenue derived from the duty on that article was very considerable.-

5 There is also an apparent increase of Rupees 3,539-7-8 the amount of Sayer Revenue realized in the Bungapilly Sagerin excess of the sum of Rupees 7000 fixed by the Government to be paid to the Sagerdars having been credited as Collections of this District. In last year

Minute of Consultation 20th August 1839 Para 4

year although the total amount of Sayer Revenue realized in the Bungapilly Rupees 11,505-7-3 was included in the demand entered in Statement No 2 yet that sum was entirely excluded from the Abstract Statement in the Principal Collector's report.-

6.- Of the above demand Rupees 21,885-4-4 were carried to account within the Fusly. The remaining balance of Rupees 1,395-7-7 was also collected within the Fusly, but it could not be carried to account till after its close.-

Abkary. 7 The demand under this source amounted to Rupees 1,06,573 being Rupees 1,985 in excess of the demand in the preceding Fusly. Of the above amount Rupees 1,03,686-1-1 were realized within the Fusly and the balance Rupees 3,186-14-11 since its close.-

Sundrys small Farms and Licenses.- 8.- The following Statement exhibits the particulars of the net decrease of Rupees 12,44-3-4 in these rents.-

13.- From the above Statement it will be observed that there are now no arrears of Extra Revenue except under the head of Maturpha, in which there is a balance of this date of Rupees 1075-4-5- Of this, Rupees 349-5-4 may be considered recoverable- The remaining balance of Rupees 725-15-1 is desperate and I request permission to strike it out of the Accounts. The particulars of this balance and the circumstances which have rendered it irrecoverable are fully explained in Statement No 14-

From the Collr. in the N. Va. Dn. of Arcot.

Sir,

I have the honor to submit for the consideration and orders of the Board of Revenue the accompanying copy of a letter dated 4th Instant from the Acting Sub Collector, reporting the seizure of 107 Case Bottles of Batavia Arrack in the Shop of a Parsee named Boomanjee at Arnee on the information of the abkary Renter - As the exclusive sale of spirituous liquor, Country and foreign is confined to the Government Renter, under Section V Regulation I of 1820, and as the possession by Boomanjee of the liquor in question is in contravention of Section XI of the same Regulation, I beg to recommend that the quantity seized may be confiscated and the proceeds disposed of as directed in section XIV. Mr. Hall entertains no doubt that the liquor in question was stored for sale to Europeans.

To

The Collector in the
Northern Division of
Arcot.

Sir,

Para 1. I have the honor to solicit your instructions regarding the disposal of 107 case bottles of Columbo Arrack seized in the Shop of a Parsee by name Boomanjee at Arnee, in consequence of information lodged at this Office by the Abkary Renter.

2. Boomanjee deposes that the Arrack has been in his Shop for a long period and in proof has produced a Rhadary of the year 1839, under which he says the Arrack was conveyed to Arnee from Madras. He has also filed copy of a license which he represents to have been granted in 1822 by Mr. Cooke the Principal Collector of this District, to his father for the sale of foreign spirituous liquors under the usual restrictions.

3. I entertain little doubt, but that the Arrack was stored at Arnee for the sole purpose of being retailed to the Soldiers of the European Regiment, which was ordered on the

the 13th of last August to be stationed at Arnee, and I am therefore induced to recommend that it be confiscated on account of Government and sold to the Abkarry Renter, who alone possess authority to retail foreign spirituous liquors in this District. The necessity for adopting this rigorous measure appears to me to be more pressing in consequence of a Wing of H. M. 25th Regiment being now in Cantonment at Arcot, where Boomanjee is about to open a Shop, and of another wing of the same Regiment being in orders to be stationed at Arnee, where he already has a Shop.

4. The quantity seized is about 103 Gallons, which is valued at 3 Rupees per Gallon according to Boomanjee's Statement, which in consequence of the absence of the Abkarry Renter, I am unable to test with his opinion.

Proceedings thereon.

The Board authorize the confiscation of the Arrack referred to, and the

the distribution of the proceeds according to Regulation. Mr. Hall should have described more particularly the nature of the Rhadanny produced to cover the Attack; but the omission need not affect the order, as no permit could be valid to protect a smaller quantity of liquor than two leaguers.

The licence produced by Doomanjee is illegal, and that all similar ones should be called in and cancelled, as has already been done at Ranipett

The Hon'ble Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to request that you will lay before the Right Honorable the Governor in

the accompanying letter from the Principal Collector of Salem, reporting with reference to an Endorsement passed by Government under date the 17th of March last, on Petition No. 252 of 1842.

2 As it appears from the above report that Mr. Greig has satisfied himself that Timmapien when holding the situation of Tahsildar of Salem, gave lands on reduced rents to his own relations and that he has subsequently unmasked his sense of such conduct on the part of the Tahsildar, by removing him from his situation, the Board do not consider it necessary to pass any orders in the case further than to record their approval of the Principal Collector's decision.

3 In reference to the concluding part of para 6 of the Principal Collector's letter, the Board are willing to leave the reemplacement of Timmapien to the discretion of the Principal Collector.

4 The Board have already had before them that part of the Petitioners' complaint in another relating

setting forth the difficulty of access to the Principal Collector and the restrictions put upon the transmission of Petitions

Reporting upon the settlement of Fusly 1251 and submitting the Summabundy Accounts of that District.

Para 1. I have the honor to submit the Summabundy Statements of this District for Fusly 1251

2. The commencement of the season was most favorable, and every advantage was taken of the early rain and abundant as well as regular supply of water in the rivers to bring the lands under cultivation. In the Months of October and November however the beginning of the North East Monsoon and the favorableness of which the productiveness of the Crop depends the rains were so heavy as to damage considerably the Cur Crops, which were then ready for harvesting and at the same time so greatly increased the already heavy volume of water in the rivers, that had it not been for the escape of the surplus of the Cavery afforded by the weeks subsidiary to the Upper Anicut on the north bank into the Vettaroo, the rivers within the Delta and the Cultivation depending on them, must have sustained considerable damage; as it is the excess of the supply

of these subsidiary works to regulate the discharge of water from the Cavery in very high freshes was most satisfactorily tested during the last season. In December also the rains were so plentiful that the Peshanum Crops running much to straw were much less productive than in the preceding Fusly. The low lands towards the east which receive the surplus waters from the western and higher parts of the Province, in addition to the local rain, suffered considerably from the increased quantity poured into them. The greater proportion of the remission made on the whole District as will be seen hereafter has been allowed in the four Talooks thus situated.

3 In exhibiting the results derived from the Collaroon Tunicut I have excluded Fusly 1246 from the comparison of

of the cultivation and revenue previous and subsequent years as directed in the 5th Para of the Boards Proceedings on the Report of Fusly 1250.

By the Marginal Statement it will be seen that on comparison with the previous year the average produce of the Amauny Villages in Fusly 1251 gives a decrease of 18 1/4 pr. Cent. The average of Current prices is 30 11/16 pr. Cent below that of the preceding Fusly and 43 3/4 pr. Cent below the Standard. The extraordinary depression in price this year is attributable to the generally favorable nature of the season in other Districts having rendered them independent in a great degree of the supply they usually draw from Tanjore.

8. In the first four classes of Villages no change has taken place.

9. From the number of Woolung Rented Villages in last, 5 have come under Amauny and 9 have been rented for one year under the Durkast System as pr. Order of the Board, while 15 Villages rented under the Board's order and

Fusly

and 15 under Amauny in last, have reverted to the Woolung Rent in this year, making thereby a net increase of 16.

10- In the number of Villages rented under Board's order in last, there is a net decrease of 16 which is caused by the transfer of 43 Villages to different heads Viz^t. 15 to the Woolung Rent one to the Woolung Rent not affected by the Current prices and the remaining 27 to Amauny in this year, at the same time there is an addition of 9 Villages from Woolung Rent and 18 from Amauny in last year to the Head of Villages rented under Board's order in this.

11. To the number of Woolung Rented Villages the commutation prices of which are not affected by the Current prices, there is an addition of 3 Villages Viz^t. 2 from Amauny and one from those rented for one year by order of the Board in last year.

12- The net decrease of 3 in the number of Amauny Villages is in consequence of the reversion in this

year

year of 15 Villages to the Head of Woolung Rent, 18 to the Durkast Rent under the Board's order for one year, and 2 to the Woolung Rent (the commutation price not being affected by the Current prices) tho' there is an addition of 5 Villages from Woolung Rent reverting to Amauny at the expiration of their lease, that Meerasdars not choosing to renew the same, and 27 from those rented for one year under Board's order in last have come under Amauny in this year.

13- The number of Villages rented this year under the Durkast System according to the order of the Board are 111. This mode of Settlement was resorted to after every endeavour to get the lands rented Woolung had failed, and in accepting the proposals I was guided by the quantity of actual produce derived from the lands under Amauny in former years, the amount for which they were rented last year, the outturn of the Last Crops if any and in cases where suspicion existed of too low an offer having been made, the state of

and 15 under Amauny in last, have reverted to the Woolung Rent in this year, making thereby a net increase of 16.

11. To the number of Woolung Rented Villages the commutation prices of which are not affected by the current prices, there is an addition of 3 Villages Viz. 2 from Amauny and one from those rented for one year by order of the Board in last year.

12. The net decrease of 3 in the numbers of Amauny Villages is in consequence of the reversion in this year

year of 15 Villages to the Head of Woolung Rent, 18 to the Durkast Rent under Board's order for one year, and 2 to the Woolung Rent (the commutation price not being affected by the Current prices) thus there is an addition of 5 Villages from Woolung Rent reverting to Amauny at the expiration of their lease, that Meerasdars not choosing to renew the same, and 27 from those rented for one year under Board's order in last have come under Amauny in this year.

13. The number of Villages rented this year under the Durkast System according to the order of the Board are 111. This mode of Settlement was resorted to after every endeavour to get the lands rented Woolung had failed, and in accepting the proposals, I was guided by the quantity of actual produce derived from the lands under Amauny in former years, the amount for which they were rented last year, the out turn of the Cur Crops if any and in cases where suspicion existed of too low an offer having been made, the state of

of the Crops were examined; and the offer accepted or rejected as the case might be.

14. The result of this rent gives as will be seen in the Margin, an increase in comparison with Fusly 1250 of 13,495 Columns of grain tho' there is

	Extent	Grain Amount Colls.	Money Amt. Rs.

Increase in Fusly 1251 above Fusly 1250	162	13,495	Decrease 20590

a decrease of 20,590 Rupees in the Money Beriz owing to the lowness of prices.

15. In obedience to the orders of the Board in their Proceedings on the Report of Fusly 1250 proposals for the Durkast System have been invited at the commencement of the present Season tho' no alacrity in making them has as yet been evinced by the holders of Amany lands who very naturally having the option between the Wooling, the Durkast and the Amany System, put off agreeing to either of the former two, till the advanced state of the season enables

enables them with tolerable accuracy to ascertain from the state of their Crops which will be the most advantageous.

The great reduction in the number of Amany Villages effected by the introduction of the Durkast system is a matter of congratulation, tho' it is to be apprehended that its continuance, will materially check the resort to the Wooling Rent in future.

16. The number of Villages under each settlement wherein Remission has been granted in the Runjah Beriz on account of waste or unproductive lands or for short produce is shewn below.

taking into consideration at the same time, that two thirds of the collections in Fusly 1251 have been made at the Standard rate, while in Fuslies 1236 and 1237 they were made under Woolung System the Amount

amount of arrears will not be considered excessive. It is no uncommon supposition by persons now resident in Tanjore, that the Meerasidars of this province are rich and not materially affected by one or two seasons of low prices, in consequence of the gain they have made in years when their produce ensured them a large profit, it is perfectly true that as a matter of account they have been gainers to a considerable extent, and that all of them have saleable lands but I am assured, and believe it is equally true that they have not hoarded a Rupee against the day of trouble, they have like many other regulated their expenditure according to their ordinary income, not however in wasteful extravagance, but in the improvement of their property the extension of their cultivation, marriages and the consumption of articles on which duty is

paid,

paid, thus benefitting the trade of the District and adding to its Revenues. It is in consequence of this expenditure of former profits that Meerasidars have so severely felt the depression of prices this year. In the absence of ready Money it is obvious that the demand must be satisfied by the sale of grain at however great a sacrifice, and the sacrifice has been indeed heavy, as is shewn by the accounts of the last year as well as by those of the year under Report. In the former the prices being 18¾ and in the latter 43¾ below the Standard, which loss was further increased by a falling off in the quantity of produce as before alluded to. The severe strait to which the cultivators were driven in consequence of this state of the market, made it necessary as well as politic that some measures of relief should be adopted, in favor of the Meerasidars under a fixed Money Assessment, and in suggesting the

post

postponement of the June Kist. I did so after deliberate consideration, and frequent discussion with my native Establishment who concurred with me in the expediency of the measure, not only as an immediate relief to the Meerasidars, but as one, the adoption of which would tend greatly to secure the usual cultivation of the ensuing year, this end the indulgence certainly seemed to effect for no sooner was it generally known, that a punctual payment of the full demand up to the end of May, would relieve the land owner from harassing the applications and interference, than prices rose from grain being no longer prematurely forced into the Market, and Chearfulness and confidence were restored, as was manifested by the speedy return of defaulters whom the pressure of the times had forced to decamp, the payment of their arrears generally, and commencement of cultivation with spirit and energy - A very different result I am convinced would have attended a pressing demand, a demand which could not

not have been realized, without having recourse to sequestration of property to a larger amount than would have found purchasers even had sanction been obtained to resort to this extremity for the recovery of balances, which had accrued from circumstances beyond control. The Amount of Kist postponed, is divided on those of Fusly 1252, and I anticipate little difficulty in realizing the whole under more favorable prices, which may be looked for in the ensuing Fusly.-

No. 13

To

The Acting Principal Collector of

Tanjore.

Sir.

Para 1 I have the honor to submit the Tunnabundy Report of the Myaveram Division for Fusly 1251.

2 There was an abundant supply of water in the rivers at the commencement of the Fusly and the season being a most favorable one until the setting in of the North East Monsoon, great hopes were entertained of a plentiful harvest, and every exertion was made to bring the cultivation to the highest pitch. During the Months of October and November the rain fell with unremitting violence for several successive days, which was very prejudicial to the Car, and in many parts highly injurious to the Sumba, Peshanum, Crops, especially in the Velenganam Talook, where it was necessary on account of the heavy loss sustained by the destruction of the young plants, to grant remission on 227 Values of land.

3 The banks of the rivers in the Division were carefully attended to throughout the season, and only six breaches occurred, which were replaced with all practicable speed

speed and the floods having a free egress into the sea partially subsided without committing any further damage.

4 The number of Villages comprised in the Division are 2010 Viz.

The chief item of increase as in the field assessed Villages which has been included in the Settlement.

Of the 430 Villages rented under Wolungo stystem, 420 were demd only rented last year, and the other 10 have been transferred from those under Amaury and the Villages rented according to the instructions of the Board of Revenue.

Last fusly there were 8 Villages under Amaury of which 2 continue under that head and 6 have since been transferred to Wolungoo and 13 have reverted to Amaury in the present fusly which were rented in the last according to the instructions of the Board of Revenue making a total of 16 Villages still under Amaury — alth

altho there is an inconsiderable increase of Villages under Amauny in the Current fusly it will be observed from the Marginal Statement that the number is very trifling compared with the 8 preceding fusles—

9 On enquiries being made regarding the state of the Sumba Peshanum crops of these Villages it was estimated that the produce would be much less than that of last year, and considerably below the Wolungos Standard grain Amount, and as the offers of Merasdars were in every respect most disadvantageous to Government, their retention under Amauny was considered preferable to the introduction of a precedent for accepting such unfavorable proposals—

10 The harvest was consequently conducted under the Management of Circar Cal m. Or Servants and yielded 137-3-1/2 per valy in this and Cal Or m 210-3-1/2 in the last year—

11 The standard price is 3 Rf 1/2 C per Cullum. The average of the current selling prices of the last fusly was 2-12 17 C and that of the present one is 1-26 7/8 being 40 1/2 per cent below the Standard, and 23 1/4 per cent below the prices of last year. The Marginal statement exhibits the variation of the prices during the last 10 years and the gross decrease of price in this fusly—

that any strenuous exertions have been made to meet the Government demands, the amount must be realized by the sale of a portion of his Estates —

23. Unprecedented low prices throughout the year combined with deficiency of produce so exhausted the resources of the Mirasdars that very great difficulty was experienced in collecting the revenue up to the end of May and many of them were compelled to sell and Mortgage part of their lands to enable them to pay their kist —

24. The amount of June kist was Rupees 137930 10 7 of which Rupees 18570-14-12 have been realized leaving a balance of Rupees 119359 11 8 at 86 7/12 per Cent —

25. The postponement of the June kist was a very popular measure and at the same time a most effectual expedient for relieving the people from their pecuniary troubles — It gave confidence to the Mirasdars and wealthy numerous defaulters who on despair of being able to

& answer the full demands, had left their Villages to avoid the repeated applications of the Talooke authorities for payment. Had the Collection of the June kist been persisted in, many Mirasdars would have been left without the means of cultivating their lands during the ensuing season, and the amount could only have been realized by extensive registration of property —

26. The necessary arrangements have made for collecting the June Kist during the next fusly —

Shealy Tabok by extending the Rajah Voy-kal from the lower Colleroon Anicut and several other works connected with it have been fully completed. By these improvements a great extent of land hitherto unproductive will be brought under the plough.

29 The privilege of cutting fuel in the Shealy Jungles having been granted to the Porto Novo Iron Company free of rent for 5 years. The amount of rent entered in the accounts of last Fusly has been omitted in this Settlement by order of Government. The Serafdars are employed in clearing the Jungle and preparing the land for Cultivation.

30 The annexed Statement shews the Beriz of the Village Nadoolitoo-senayegumteroovoo, which was last year transferred to this from Trinchinopoly District and this sum was duly collected within the year. 5 Under this head Rupees 30,923-6-6½ were collected in Fasly 1251 being a decrease of Rupees 34-3 10/p below the Collections of Fasly 1250 altho this decrease is trifling in amount it seems to require some explanation, as there was a gross increase in some of the Chawkies to the Amount of Rupees 2,718-4-11 the gross decrease in others being Rupees 2,744-8-11½

6 Of the gross increase in question Rupees 1397-13-3 arose from the extended cultivation of Sugar Cane consequent on the reduction of the Teerwah as directed by the Board's orders of the 13th November 1837, on Lands cultivated with Sugar Cane, and the whole of it occurs in the talook of Laulgoody. It has been my endeavour to give effect to the wishes of Government as communicated in the orders of the Board above quoted, by introducing the manufacture of a better description of Sugar than the very inferior article which has hitherto been made in the District and I have succeeded in instructing a number of persons in the art of making moist Sugar such as is commonly

Maunds 3- the Customs duty on the former amounted to Rupees 13-4-10, and on the latter to Rupees 1474-11-11½ there being no difference in the rate of duty to which they are liable- good Sugar has been manufactured in other parts of the District but my orders to distinguish it in the accounts have not been properly attended to- and as the prices on obtained were invariably I believe very high, varying from 2½ to 3½ Rupees a Maund, whereas the Common Country Sugar does not fetch more than Rupee-1-1-0 I hope that the manufacture will gradually increase as it has done in neighbouring districts.

7 The rest of the gross increase under the head of Sundries occurs chiefly in the articles Oil and Ghee. The decrease took place in the customs on the Dying root Oil. Tamarinds and Salt Petre.

Tobacco 8 The amount realized on account of the custom on Tobacco in fusly 1251 amounted to Rupees 26,322-5-9½ being Rupees 1103-3-1 above the Collections of fusly 1250 on Ganjah as they fell short in the sum of Rupees 173-1-4

9 I have been at some pains to discover what the consumption of Ganjah is in Trichinopoly the quantity indicated by the amount of duties realized appearing to be very small when compared with the extent and description of a great portion of the population of the place and there can be no little doubt that the customs are defrauded to a considerable extent. The right of selling this drug within the limits of the Military Cantonment is limited to a person licensed by the Commissariat Officer and I have reason to believe from the enquiries which have been made that the consumption is not less than at

the

Fort St. George 17th October 1842

the rate of 8 Maunds a Month or 96 Maunds per Annum which at the rate of duty authorized viz: 132 5/8 per Cent on a valuation of Rupees 11-12-" per Maund would yield Rupees 1512-"-" instead of Rupees 645-"-" all that was collected in fusly 1251.

10 There is some difficulty in devising a check upon this fraud arising from the circumstance of the duty being leviable by the Collector and the license to sell resting entirely with the Commissariat Officer for any attempt on the part of the former to put restrictions would of course have a tendency to lower the price which the bidder for the license would be willing to give for his exclusive privilege but I think it deserves consideration whether it would not be worth while to make it incumbent on the Commissariat Vender under the liability of heavy penalties to render a strict account of his Monthly Sales are being taken to ascertain at the commencement of this period of rent what quantity he has in store.

11 The falling off in the amount offered

offered for the rents which might be expected from the adoption of this measure would be at least partially made up by the increased receipt of customs and it certainly seems desirable that every possible check should be had recourse to to prevent the improper distribution of a drug so injurious to Morals and health

The Board are aware of the frauds which have been practised at Trichinopoly for the purpose of evading the duty on Tobacco and there does not seem to be any reason why the clandestine introduction and sale of Ganjah which is equally exposed to similar frauds should not also be guarded against.——

Fusly 1243 are recoverable the circumstances un-
=der which this balance accrued were reported
in my predecessor's letter of the 29th October
1834. It seems now only necessary to observe
with reference to the length of time which
it has taken to realize them that the im-
=mediate value of the security was much
more than sufficient to cover the chance of
balances and that their gradual realization
exhibits a proof to defaulters that Govern-

at the same time that it forbears using
oppressive measures to recover them ex-

time to recover them but under the cir-

recommend that the demand should be remitted.

caused their ruin and altho the Chaukeydar was
mainly to blame it does not seem proper that
they should be altogether exempted from
liability. I propose to submit a further re-
=port after observing their circumstances for
some time longer.

21 Adverting to the Decrease in the
Sayer Collections managed under Amanie it is
sufficiently obvious to me that this would be ex-
prevented by the addition of a few more ex-
Chaukies and this measure is extremely desirable
with reference to the very great annoyance which
traders now experience from the inconvenient ex-
position of some of the Chaukies.

for instance about 10 Miles west of the Town
of Tarriore and on the borders of the Salem
district there was formerly a Chaukey which
was abolished on the general reduction of the

there was formerly a Chaukey. By this arrange-

publication to Native public Servants of their
proceedings of the 19th June 1826, prohibiting
their acquisition of Lands without prior conse
obtained, and intimating a fear that thos
rules are both imperfectly known and
enforced.

2. The Rules in questio
issued more than 16 years ago, were pa

majority of them have acquired lands by
private purchase without permission
in direct opposition to the rules quoted,
but the prohibition of section XX.
Regulation XXVI of 1802 as extended
by Regulation VI of 1832 have never been
infringed.

3. The Board will recollect
the order was issued at the end of
1826, and that in 1828 occurred
H. H. Peter's death, followed by the
very important and troublesome
investigation undertaken by his suc=

this it may be owing that the
provisions of the order under consider

in a short time a dead letter.
I have republished it and ordered
its republication annually. Four
years ago I had a memo: prepared
for my own information of all lands
held by public native servants and

and have now called for a new and general one which I purpose forwarding, as soon as prepared; for the Board's final instructions on the matter.—

the Honorable Court in their Despatch dated 17th August 1838 No. 13.

2. The State of this ancient Zemindary was brought to the notice of Government in their letter dated 19th January 1837. when the Board submitted a communication from the Collector containing a proposal from the Proprietor to resume the Management of his Estate on the conditions of discharging the current Peishcush and giving security for the payment of the arrears which then amounted to Rupees 10,570—1—3. To this arrangement Government were pleased on the conditions specified to accede; it appears however that when the Zemindar was called upon by the Collector to make good his proposal he was quite unable to offer any terms which would warrant Mr. Eden recommending the restoration of the Estate.—

Government and the balances up to the date of the present report are stated to have accumulated to Rupees 12098-7-8.

4. With regard to the opinion expressed by Mr. Eden that the Estate of Vadowacoorchy was too highly assessed to enable the Proprietor to hold it with advantage, it will be observed in the report now submitted that although there are grounds for such a supposition, the Collector considers that the resources of the Zemindary have never been duly elicited owing to bad Management under the Zemindar and to the subsequent sequestration by the circar—having been in a great degree rendered nominal in consequence of the feudal feeling of the Inhabitants to the family of the Zemindar precluding its efficient Management by the Amanie Establishment. With regard to the opinion expressed by Mr. Eden that the Estate of Nadoovacoorchy was too highly assessed to enable the Proprietor to hold it with advantage, it will be observed in the report now submitted that altho' there are grounds for such a supposition, the Collector considers that the resources of the Zemindary have never been duly elicited owing to bad Management under the Zemindar and to the subsequent sequestration by the circar — having been in a great degree rendered nominal in consequence of the feudal feeling of the Inhabitants to the family of the Zemindar precluding its efficient Management by the Amanie Establishment. The observation of Sir H. Montgomery that in Fusly 1250 the entire Peshcush was realized and but for the outlay of Rupees 889 — 10 — 8.

for

for repairs to the works of irrigation, the Peshcush of the present year would have been realized in full, coupled with the application of the Zemindar for its restoration on its original terms led the Board to consider that the amount of annual Peshcush Viz.t 3059 is not more than the Estate is capable of yielding under proper Management and in ordinary seasons.-

5. The Zemindar now proposes to resume the Estate engaging to discharge at once the balance of Peshcush due for the past fusly and giving security for the liquidation of the arrears due by annual instalments of Rupees 500- These arrears it must be observed have accumulated almost entirely during the time the Estate has been under Amanee management the balance for which it was orginally attached in

in 1830 having been only Rupees 1050- adverting therefore to this circumstance and to the sentiments expressed by the Honorable the Court in their despatch quoted above on the occasion of the former proposal having been made by the Zemindar to come to terms- it occurs to the Board that indulgence similar to what has been shewn to other Zemindars may meet with the sanction of Government in this instance- and they would respectfully recommend

recommend that the Estate be made over to the Proprietor holding him responsible for the future punctual discharge of the Peishcush and arrears, but keeping the payment of such portion of the latter as accrued during the Fuimanie administration in abeyance subject to the future orders of Government.

Sir,

61

From the Asst. Coll.r of Tinnevelly stating generally that the Collector will apply for whatever additional European aid appears necessary after commencing the Survey and requesting the re-appointment of the late Asst. Serishtadar to the District if practicable on the grounds within mentioned.

With reference to Para 6 of my Predecessor's letter of 16th August Para. suggesting the appointment of an additional sub Collector, on account of the Survey in this District, I deem it my duty to state my own sentiments on the subject to the Board and Government, and to observe, in case of such an arrangement being in early contemplation, that I do not think it will at present be necessary. To enable me to conduct the duties of the proposed survey satisfactorily, it is desirable that I should previously see as much as possible of the Revenue work of this District, now new to me; and become acquainted with its various tenures, customs and peculiarities. This is best acquired by the daily review of the current business. Of 13 Talooks, 11 are already under the

the sub Collector, and 2 others under the Head Assistant, if an additional sub Collector be appointed. I must of course give him an adequate Revenue charge, and detach from my own personal observation several more Talookes. — an Establishment must also — be allotted to him at a considerable extra expence to Government, or my own must be crippled — by detaching more than can possibly be spared.

2 I have been some time — used to a Sharing Office, and have had the advantage of receiving this — District from Sir Henry Montgomery without arrears. I therefore feel a confident hope of being able to conduct the present duties without more — assistance than what I now have from the Sub Collector and Head — Assistant. If after commencing the extra duties of the Survey — I shall find Irregulars further — European aid I will apply to Government for whatever the efficient — management

Fort St. George 17th October 1842

management of the Province appears to require, and which I doubt not — Government will be ready to afford me.

3. The Board will I trust excuse me for observing with all deference, that I cannot but regret that the services and cooperation of the Nair Sheristadar Soobchetum Moodeliar, should — have been withdrawn from the District just at this important — period. I have not any personal acquaintance with him, but if I can at all depend on private — opinion and general report, — his known respectability, general intelligence and long service in — the Province, formerly as Head — Accountant, and latterly 8 years as Nair Sheristadar, cannot — but render his removal a serious loss to me coming new — into the District, and about to commence the very arduous — duties of a survey, requiring — my

the Sub Collector, and 2 others under the Head Assistant, if an additional Sub Collector be appointed I must of course give him an adequate Revenue charge, and detach from my own personal observation several more Talookes. an Establishment must also be allotted to him at a considerable extra expence to Government, or my own must be crippled by detaching more than can possibly be spared.

2 I have been some time used to a hearing Office, and have had the advantage of receiving this District from Sir Henry Montgomery without arrears. I therefore feel a confident hope of being able to conduct the present duties without more assistance than what I now have from the Sub Collector and Head Assistant. If after commencing the extra duties of the Survey I shall find I require further European aid I will apply to Government for whatever the efficient management

Fort St. George 17th October 1842

management of the Province appears to require, and which I doubt not Government will be ready to afford me.

3 The Board will I trust excuse me for observing with all deference, that I cannot but regret that the services and cooperation of the Nair Sheristadar, Soobchenum Moodelian, should have been withdrawn from the District just at this important period. I have not any personal acquaintance with him, but if I can at all depend on private opinion and general report, his known respectability, general intelligence and long service in the Province, formerly as Head Accountant and latterly 8 years as Nair Sheristadar, cannot but render his removal a serious loss to me coming new into the District, and about to commence the very arduous duties of a survey, requiring my

my best energies, and every local information and aid I can avail myself of.

4. Under the above considerations I would respectfully & -> request the Board and Government to allow Soolochenum Moodiliar, should he be willing to return to his post here, and thus add to his claims for future advancement by assisting me in this arduous and important public duty; and unless his character is over-rated, I feel assured an appeal may be made to his sense of public duty with as much success and as fairly as to my own. I find that his appointment here has not been permanently filled up by my predecessor but left open for Soolochenum Moodiliar's possible return.

5. I will only add that if Soolochenum Moodeliar is unwilling to return as Nair Sheristadar and

and Government think right in their liberality to select him as a Native perhaps well fitted for the honor, he might be appointed to the Province on a similar footing to that of two public servants in Bellary and Malabar, Ramiah, and Mr. J. Platel; the greatfulness of the latter appointment I have for the last 18 months at Calicut had ample opportunity to observe.

6. In conclusion I need scarcely assure the Board and Government that I write solely on public grounds having no personal knowledge of Soolochenum Moodeliar, but believing that he is worthy of the notice of Government, and

and well calculated to afford me, from long local experience in this District, and general intelligence, the aid I have perhaps a strong claim on Government to request, in conducting the arduous duty I have been deputed to undertake. the entire new Survey of Tinnevelly. May I request the favour of the Board's forwarding copy of my letter with their recommendation to Government.

It is my intention immediately the Monsoon is over, and the season admits of it, to make a tour of the whole District, and learn as much as I can from personal observation, of its general features, peculiarities, and tenures, previous to commencing on the important business of the Survey.

of Government noted in the Margin, I am directed by the Board of Revenue to request that you will lay before the Most Honorable the Governor in Council the accompanying letter from the Collector of Malabar. The intentions of Government for the settlement of the boundary dispute during the Resident's late sojourn in the neighbourhood being thus frustrated, it is to be determined whether subordinate officers shall be deputed on the duty, or whether the matter shall be permitted to lie over, until it may be in Colonel Cullen's power to visit the spot in person. The Board would suggest however that delay be avoided if possible.

Proceedings

This Report comprehends seven ten Pagodas, of which fifteen receive allowances

allowances of different descriptions through the Collectors hands. These numbers are shown in the Report as twenty and eighteen respectively. The source of this error is that in the case of three Pagodas, each receiving payments of two different kinds, the separate allowances are treated of as though they were separate institutions.

Paras 2 and 4 and 17 12 and 16 in Statements

The first eleven numbers in Statement 2 are allowances of a peculiar description, enjoyed by as many Pagodas; their origin is detailed in the Report. It appears that in 1794 a Petition was presented to Government by some Merchants of Madras, complaining that unauthorized duties were levied from them at the Land Custom House. On enquiry it was found that a practice had crept in unknown to and unauthorized by the Land Customer (as the Collector was then termed,) of charging certain extra fees on goods passed by Hindoo Merchants, the proceeds of which were divided among a number of Pagodas. It was declared that this contribution could not be regarded in any other light than as voluntary, and the levy of it

at the Custom House was ordered to be abolished, but Government granted to the Institutions which had benefited to the half the amount of duties levied on valuable goods - and this constitutes these eleven allowances.

3 Nos 12, 13 and 14 are very small allowances to as many Pagodas; being money commutation of Enams granted originally in kind from the Salt manufactories.

4 Allowance No. 18 is a grant out of the Quit rent levied in Chingleput; it was sanctioned in 1837 on a complaint from the inhabitants that they could not pay quit rent, and defray their Pagoda expences too; but it was never actually paid till 1834. The Chingleput Pagoda receives also a large sum (in 1842) from the fund noticed above, and another large allowance from the Collector of Chingleput, altogether amounting to about 4,200 Pagodas, for the Chingleput allowances appears to be variable in amount.

5 Grant No. 16 is of somewhat similar origin to Nos 15 being

been bestowed by Government in 1828 for the expenses of the Festival of the Madras Goddess Yagathah, on the inhabitants complaining that they found difficulty in realizing a sufficient sum for that purpose by voluntary contributions. It is given to the same Pagoda as No. 12.

6 It is not accurately explained how the allowances Nos 17 and 18 originated, and the Collector of Chingleput to whom Mr Robertson refers the Board for information, is silent on the subject; they would appear however to have been granted in lieu of some fees or other emoluments formerly received. No. 17 is given to the same Pagoda which also receives in No. 4. a share of the allowance first noticed.

7 Besides the institutions included in the statement, two are noticed by the Collector one of which receives emoluments averaging 126-10-1 annually, from a certain fee on the adjustment of weights and measures at the Collectors Office, while the other receives no allowance from Madras, but only from Chingleput a portion of the produce of certain

certain Mairahs in that District, the other portion of which goes to the Triplicane Pagoda, as already mentioned. With regard to the fee levied for the Ramaswamy Pagoda, Mr Robertson suggests that the manager of the Pagoda should be empowered to collect it himself. The Board are doubtful how far the levy of such an extra fee should be allowed at all in the Offices, but they are decidedly of opinion that no unofficial person should be admitted to collect it and they would recommend a fixed allowance to the Pagoda to be substituted for it.

The Collector's Report is left full as to past management of the Pagodas and plans for the future than on other points but it is gratifying to find that Government interference in the Collectorate has never been carried to the same extent as in some other Districts and that consequently there will be the less difficulty and the less inconvenience in withdrawing it. It appears that in most if not all of the Pagodas under the Collector's superintendence there

are already fit and proper persons exercising management, and for the succession to whose Offices due provision exists - In the Town Pagodas for instance the management rests with the Durmacurtha and the nomination, to vacancies in that Office is in the hands of the Supreme Court; in the Pagoda of Chintadripettah there is an hereditary manager, the descendant of the founder in the Pagodas noted in the Margin there are managers apparently also hereditary also. Mr. Robertson's suggestion

Para 22. as to the future care of all these
Institutions

Institutions indiscriminately. is that a Trustee three or five, whichever number may be approved by the Board, should be appointed for each Pagoda. This seems unnecessary; the object in nominating Trustees elsewhere, has been to create an authority to exercise the supervision hitherto exercised by the executive Officers of Government; their powers of inquest into abuse being transferred to the Zillah Courts. In all the Pagodas noticed above, except the last, the Collector has exercised no supervision, and there is no power therefore to be transferred to Trustees, the cognizance of fraud and abuse, which in the interior will be vested in the Civil Courts, will properly and naturally within the limits of the Supreme Court devolve on the Master of that Court. With regard to the Triplicane Pagoda[1] and any others which, though not specially noticed, may be in the same condition, it will be necessary to provide for the nomination of the Durmacurthas on future vacancies; and Mr Robertson

[1] Para 8.

is requested to consider and report to the Board whether this will best be done by the appointment of Trustees, or by the general suffrage of the community, or whether it would not be better to allow the nomination in this instance, as in the Chinna Cadaverpermaul or Town Pagoda, to rest with the Supreme Court. If Mr Robertson should think the nomination of Trustees expedient, he will be pleased to submit the names of those whom he would propose.

The Pagodas included in this communication, but under the control of the Collector of Chingleput have already received consideration in reviewing that Officer's Report on the subject of this District.

I have the honr to bring to the notice of the Board of Revenue that certain Native Merchants having applied to me, by petition, for permission to occupy as a place of deposit for Firewood, the site of the former Salt Depot on the Beach at Royapooram, on payment of a Monthly rent of Rupees 7 per Ground for the benefit of Government, in consequence of their contiguance on another spot within the walls of Black Town having been objected to by the Police authorities, I propounded the Chief Engineer to inform me whether he would admit of the prayer of the Petition being complied with, the spot selected by the Petitioners being within the limits of the Black Town Esplanade.

The Chief Engineer stated, in reply, that there was no objection to the proposed arrangement and furnished me with a plan of the ground allotted to the petitioners, which

but he added that it would be necessary to make some compensation to the Grass contractor for the ground both on the Beach and near Cochranes Canal; For the little or no Grass may grow on either of the spots still the place for which he pays a Monthly rent, and which was let to him, is considerably diminished.

Colonel Sim suggested with the view of satisfying the Contractor that seven Rupees Monthly out of the rent received from the proprietors of the Firewood might be paid to him.

3 Before the Chief Engineers reply reached me, I received an Extract from the Minutes of Consultation in the Public Department dated 15th Ultimo No 857 directing the Superintendant of Police in communication with the Military Board and this Office to remove all stocks of Fuel near the North Beach to some convenient place beyond the Walls of Black Town where the wood might be safely stored.

4 I therefore furnished the Chief Magistrate and Superintendant of Police with a Copy of the Plan obtained from the

He has now informed me that the parties interested have expressed themselves satisfied with the site proposed, and that it was accordingly measured and staked by the Chief Engineers Department as well as by the Police Overseer.

5. The ground rent actually collected on the spot near Cochranes Basin for 1 year Amounts to an average of Rupees 21-6-0 per Mensem I have not the means of ascertaining precisely what extent of Ground on the Beach now allotted to the Triveni Merchants is likely to be occupied on payment of Rent to Government but if the whole were chargeable with the usual Rate of Ground rent, the Amount would be Rupees 189 per Mensem.
