letter

12574 — Fort St. George — October 1842.

Diary.

19th October — Received the following letter.

To, The Secretary to the Board of Revenue Fort St. George.

(1) From the Pl. Coll. of Canara

Sir,

I have the honor to forward for submission to the Board of Revenue, the accompanying Copy of an application for leave of absence for 3 Months from my Head Assistant Mr. Reade which under the circumstances stated, I beg to recommend may be granted.—

Pl. Coll.s Cutcherry, Mangalore, 14th October 1842.

I have &c.
(Signed) H. M. Blair
Pl. Collector

No. 1.

To, The Principal Collector of Canara.

Sir,

With reference to Section 7 of the Moosenbe Rules, I have the honor to request that you will be good enough to forward my application for leave for 3 Months to proceed to Bombay and Alexandria

Alexandria on urgent private affairs, to date from the 26th Instant, or from the day on which I may quit the Coast.—

2 As by the orders of Govern=ment I am required to state the reasons of my application, I have to add that it is in consequence of my being compelled through ill health to send my family to England.—

Head Asst. Coll.r Cutcherry, Mangalore, ——— } Signed Charles Reade
14th October 1842. ——— } Hd. Asst. Collector.

Order thereon.— Ordered to be submitted

1-2 through the channel of the Civil Auditor for the favorable consideration of Govern=ment.—

17th October.—

Proceedings.— In examining the Returns of

3 Fines and stoppages made from the pay of the public Servants in the Masulipa=tam district for the quarter ending the 30th June last, the Board remark that in many instances the Fines imposed are excessive and in some not authorised by the Regulation. In the 1st case of No. 8 the Tahsildar of Masulipatam

Talook.

4 Cont. 17th Oct. 1842.

Talook is stated to have been fined under a Regulation which does not ap=pear applicable to the offence with which he is charged. In this and in 3 of the 9 it is presumed the proceedings of the Magistracy have been duly submitted to the Court of Circuit. The Board will not reverse the orders of the late Col=lector on the present occasion but they would impress on his successor the ad=visableness of a less hasty and less fre=quent exercise of the power of imposing fines on the superior Public servants under his authority than is apparent from the statements referred to.—

The Board observe that the stoppages reported have been returned.—

H

At a Meeting Present—

John Dent Esqre. Senior Member.

Thursday 20th October 1842.

G. D. Drury Esqre. Second Member—

and

Sir H. C. Montgomery Bart: Acting Temporary Member—

Alexander Maclean Esqre. Acting Third Member. Absent on leave

Minutes of the last Meeting read and approved—

(4)

From the Madras Govt. to Government.

Read the following Extract.

Extract from the Minutes of Consultation under date the 17th October 1842—

Read the following letter from the Secretary to the Board of Revenue—

Submitting a letter from the Principal Collector of Salem stating that the person whose entertainment on his Establishment was sanctioned by Government for the purpose of instructing the Ryots in the manufacture of Sugar [Here enter 26th September 1842 No. 4187] was employed in various parts of his district for 10 Months.

Months, which measure was attended in its results with much success and that a sample of the Sugar manufactured by that person was forwarded by the Board to the Collector of Madras in order that the opinion of competent judges might be obtained on the price it would command in the Market here and in England, and transmitting that Officer's reply stating that it was likely to realize a remunerating price—

The Most Honorable the Governor in Council considers the result of the experiments made in different parts of the Salem District for the manufacture of Sugar from the cane, as brought to notice in the correspondence which accompanied the above letter, to be very creditable to Mr. Gleig's Zeal, and he resolves

resolues in consequence to communicate the same to the Honorable the Court of Directors in reference to Para 30 of the letter to them dated 27th August 1842 Pt. 40.

With the view of inducing speculators to come forward as purchasers of Salem Sugar and thereby encouraging the manufacture of the Article, it is resolved that the following Notification of the result of the Experiments in that District be published for general information.

Notification.

The following notice of the successful results of certain Experiments made in the District of Salem, for the manufacture of Sugar from the Cane, is published for general information.

In 1840, a person was engaged from Pondicherry to instruct the Natives of the Salem District, and his attention was directed to the fine tatoks of Raizpoor, Trichengode, Tripatoor, Denkenkotah and Osoor.

The experiment has been successful and the produce of the improved

manufacture

manufacture is reported to have realized from 2½ to 2⅔ Rupees the Maund in the District, besides obtaining for the manufacture a premium of Rupees 350 awarded by the Agricultural Society. A sample of the Sugar produced during the present season has been described by the best Mercantile Authorities at Madras to be "of a Superior quality well suited to the British Market and likely to realize a remunerating price". The natives of the District are stated to be satisfied that this mode of applying the juice of the Cane is more profitable than the manufacture of Jaggery and that they only want a certain demand and ready payment to encourage them in the prosecution of it.

Fort St. George 17th October 1842.

By order of the Most Honorable the Governor in Council.

To The President and Members of the Board of Revenue

/Signed/ Walter Elliot
Y. Secy to Government

Resolution thereon.

(4-5)

Resolved that copy of the foregoing Extract from the Minutes of Consultation be furnished for the information of

of the Principal Collector of Salem, with reference to his letter of the 15th August 1842.

Read the following letter.

To The Secretary to the
Board of Revenue
Fort St. George

6

From the Asst Coll. of Vizagapatam

Sir,

Para 1. I have the honor to request you will do me the favor to call the attention of the Board of Revenue to my letter of the 13th August last to which no reply has yet been received.

2. The compromise adverted to therein having been suggested by the Board of Revenue, sanctioned by Government, and the terms thereof in conformity with the orders received having been drawn out by my predecessor Mr Arbuthnot, it would only be in accordance with official courtesy, to acquaint this office if any obstacle prevented its fulfilment.

3. No such intimation has ever been made, and Mr Smith I understand

understand is carrying on the suit as if no compromise was intended.

4 It could, I believe, be demonstrated in twenty lines - that it is for the advantage of Government to secure the permanence of the dam in the Tondavaa river, by which the Godicherlah Estate in this district is irrigated, and that self interest should lead Government to support the establishment of this erection, instead of to seek its removal.

Vizagapatam
Coll.r Cutcherry
11th October, 1842.

(signed) P. B. Smollett
Asst Collector.

Resolution thereon.

Dated 22d Sept.r 1842.

6.7

Ordered that copy of the Board's letter to Government, in submitting the Acting Collector's letter of the 13th August, be communicated to that Gentleman for his information - Mr Smollett will be made acquainted with the orders of Government as soon as they reach the Board.

Read the following letters.

To The Secretary to the
Board of Revenue
Fort St. George

8

From The Asst Collr in charge of Masulipatam

Sir,

Para 1. With reference to your letter

Fort St. George 20th October 1842.

+ No. 930 of 1842.

letter dated 9th July last enclosing, for report therein, a Petition from Rajah Sobanadry Apparow Bhahader Zemindar of Noozeed, to the effect that the collection of the balance of Peishcush (which he states will amount at the end of the Fusly to 25,000 Rupees) may be postponed and no interest charged on it. I have the honor to mention, for the information of the Board, that neither was the state of the season in Fusly 1251 of so unfavorable a description as to authorize the indulgence required by the Zemindar, nor has his conduct, with reference to fidelity in previous engagements, been such as to afford grounds of confidence that he would abide by his own proposals should they receive the sanction requested.

2. Although the resources of the Zemindary during last Fusly are not clearly ascertained as the management is still vested in the Zemindar yet from general information and the comparison afforded by the known state of the crops in the neighbouring Talooks

Fort St. George 20th October 1842.

Talooks, it may be assumed that the available resources amounted to more than the demand of Government. There was no deficiency in the crops in this part of the District tho' the prices were low; but in this respect, the Zemindar, having the advantage over the Government Talooks of priority in the market, must have secured higher rates than were obtainable after the kyle, when the ratio between the supply and the demand were so much changed. The private means of this Zemindar (judging from his usual expenditure) are not shewn to be yet exhausted, and I can see no good reason for his failure to discharge the balance due by him.

3. The Zemindar of Noozeed has palpably disregarded his existing engagements with the Circar; and as an instance of the manner in which he is prepared to trifle with express agreements, I may observe that, on the 16th June last, when I was in charge of the District, there stood a balance against him for Fusly

Fort St. George 20th October 1842.

	Rs	a	p
fusly 1251	44425	15	6
Arrears of fusly 1248.	6,125	—	—
	47550	15	6.

In satisfaction of this, his Vakeel execut-
-ed before me a kararnamah to the effect
that he would pay this sum by instal-
-ments Viz.to 25,000 before the 30th June,
and the remainder before the 8th July -
About this time, the Petition under —
reply was before the Board, but not a
word was mentioned of that fact either
by the Vakeel or by the Zemindar in his
Arzee acknowledging the stipulations
entered into regarding his debt. If, as said
in the Petition, he saw no possibility
of paying to within 25,000 Rupees —
of his balance and yet was prepar-
-ed at the same time to engage to pay
the whole, it is evident he looked upon
the agreement (and indeed has treated it)
as waste paper. The present arrears
on his Estate (including Rupees
6,125 — — for fusly 1248 which, he
has not thought fit to liquidate) are
reduced to the promised amount of
25,000 Rupees though not within the —
promised

Fort St. George 20th October 1842

promised time - This is exclusive of interest
on the arrears which amounts to 4047 - 11 - 3.
making a total of Rupees 29,047 - 11 - 3 - of
his want of good faith in regard to simi-
-lar engagements he has afforded several
proofs - On the 6th November 1839, he exe
-cuted a kararnamah before Mr. Peter pro-
-mising to pay the balance then due 20,000 —
Rupees with the kists from April to June
1840, but failed to discharge any portion of
it exclusive of this, the arrears for fusly 1250
amounted to Rupees 44519 - — - 2, and by De-
-cember 1841 he had only paid in Rupees
21,222 - 12 - 3. leaving still a sum of Rupees
23296 - 3 - 11, due for this fusly - From motives
of judicious kindness, to convince the Zemin-
-dar that his engagements were not so light-
-ly regarded by Government as by him, and
thus to induce him to recover himself in
time, Mr. Grant credited this balance
out of the payments which had been
made for the current fusly 1251. It is easy
if it be thought necessary, to adjust this
sum in the arrears by transferring
it from fusly 1250 to fusly 1251, nor will
this affect the merits of the present
question

question-The subsequent failure on the part of the Zemindar to pay any but a small portion of the kists due on Padapandoo and the consequent attachment of that Mootah for a balance of Rupees 35,338-2-8 are reported in a letter dated 14th April last-

4- But in addition to this, according to the Kararnamah executed before the late Collector on the 8th January 1838, this Zemindar as surety for his relation the Zemindar of Begorah engaged to pay the sum of Rupees 68,476-9-11 which he has failed to do-He also under the express sanction of Government renewed and extended the former engagement by entering into another on the 4th May 1840, in which he agreed to pay the sum of Rupees 63,000 as follows.

		Rs	a.	p.
Fasly	1249	12476	9	11
	1250	12,623	6	1
	1251	13,300	"	"
	1252	13,300	"	"
	1253	13,300	"	"
	1254	7,000	"	"
	1255	7,000	"	"
	1256	7,000	"	"
	1257	7,000	"	"
		63,000	"	"

C/

Of the sum that should have been paid by the end of last fasly Rupees 38,400, not a fraction has been paid up to this time; nor can this breach of a liability deliberately entered upon be palliated by the argument that the question of lowering the Peishcush of the Begorah Estate has been subsequently agitated-

5- In conclusion, I beg to observe that the difficulty with other Zemindars in keeping their Estates clear may often be, want of means, but with the Noozeed Zemindar, it would appear to be principally want of inclination or of resolution to observe a wise economy-If therefore, the indulgence be requested be shewn to him, as there will be little doubt but that the Mylaveram and other Zemindars, whose necessities are more real, will regard it as giving them a claim to similar consideration, and will relax in their endeavours to satisfy the demand of Government, nor can it be supposed (arguing from direct experience) that the new engagements proposed by the Noozeed Zemindar would be faithfully observed.-

I

12589 Fort St. George 20th October 1842.

6. I would submit for the instruction of the Board a proposition that a demand be made for the present arrears (without interest) and if it be not satisfied or if reasonable prospect of it's being satisfied be not shewn and proved that the Estate be at once attached. This may induce the Gemindar to apply his immediate resources towards the liquidation of the debt by convincing him of the necessity of so doing; and may be expected to have a good effect in expediting the arrangements of the other defaulting Gemindars.

7. The Petition is herewith returned.

Masulipatam
Coll.r Cutcherry
30th September 1842

/Signed/ C. E. Ward
Head Asst. Coll.r In Charge

Proceedings thereon -

8.9

The Board do not consider it necessary to remark at any length on Mr. Ward's statements and argument to shew how small are the Petitioners just claims to consideration - It appears sufficiently evident that the Gemindar has not shown so strong an anxiety as might have been displayed to fulfill the various engagements which he had undertaken - The

Fort St. George 20th October 1842.

2. The Gemindar's proposal is to reduce the demand for Fusly 1251 against his own property to 25,000 Rupees by the end of the Fusly; and he asks for time to pay that sum, and for the total remission of the interest on it - Mr. Ward states that the balance has been reduced to the sum stated, though not within the Fusly; and he recommends that this principal sum without interest should be demanded, and that the estate should be attached unless the money is paid or a satisfactory arrangement made for its payment -

3. There can be no doubt that the great depreciation of produce has affected the Revenues in Noozeed, as well as elsewhere, and the Board are willing to grant the indulgence proposed by Mr. Ward - They request, therefore that the Collector will call on the Gemindar to pay the 25,000 Rupees within a month from the receipt of the notice, with the understanding that if this is done, the Board will recommend to Government that the claims

claims for interest should be relinquish-
-ed. If the money is not so paid, Mr. Porter will proceed to attach the Estate.

To
The Secretary to the
Board of Revenue
Fort St. George

Sir

10

From the Hd. Asst. Coll.r in charge of Masulipatam — Para 1.

-quence of the abundant supply of water received in the Colair Lake, I have found it necessary to replace the Establishment for those Moo-

12596 Fort St. George 20th October 1842.

Read the following Report.

To, The Secretary to the Board of Revenue Fort St. George

(15)

From the Collr. of Chingleput Submitting his report on the Settlement of Land Revenue of the Chingleput District for Fusly 1251 together with the usual Statements connected therewith.

Sir,

Para 1. I have the honor to request you will lay before the Board of Revenue the accompanying Summabundy Statements of the Land Revenue of this District for Fusly 1251.

2. Owing to the absence on sick certificate of my late Head Assistant Mr Peters, the Settlement of the whole of the 10 Talooks into which the Jaghire is divided, devolved on myself, and the Summabundee in them was conducted under my own supervision.

3. The season generally speaking during the Fusly under review must be considered a very favorable one, for not only did a more than usual supply of rain fall throughout the District during the Petty or South West monsoon but the whole of the Tanks in the District were simultaneously filled by heavy falls of rain at the end of October, and first week in November

November - The necessity however of keeping the Calingalahs of the Tanks and reservoirs open at that early period of the rainy season to prevent their being breached, was the cause of much water being permitted to escape, and which unfortunately was not subsequently replaced, the fall of rain at the end of November and in December having been unusually scanty, whereby the water collected in the smaller reservoirs, which require replenishing two or three times to bring the Crops under them to maturity, proved insufficient, and considerable loss was sustained in the Ravery Crops, whilst portions of land that had been prepared for seed remained unsown -

4. The abundant fall of rain in July and August above mentioned led to a corresponding increase in the extent of cultivation in the dry and wet lands, in the year compared with the preceding year, and from the subjoined Comparative Statement it will be observed that in the Village

in which the settlement was based upon the survey assessment, there was an increase of 6,207- Cawnies of Punjah or 1st. Crop and 3355- Cawnies or 2nd. Crop, as well as 6130 Cs of Punjey lands, with a corresponding increase of Revenue amounting to Rupees 52,259 - 13 - 2, or 6 3/10 per Cent -

2nd. Crop -	Cawnies - as.

Thos.

6. This result must I conceive be considered highly satisfactory to the Board, for whether the extent of cultivation or Reviz of the District be regarded in comparison with the cultivation or Revenue of the past or of former years, it will be found to stand prominently forward as one of the most favorable on record, a convincing proof, that the serious decrease in the Land Revenue noticed a few years since had their main origin in a series of unfavorable seasons, and scanty Monsoons, and not in impoverished or disheartened Cultivators.

7. No Estates reverted to Government from the Management of the Shotahdars during the past year, the total number of Villages held by them being as in the preceding year 401, and the Permanent Summah amounting to Rupees 14,940-14-- .

8. Under the Heads of Shrotrium there is a decrease of Rupees 125-3-9 consequent upon the lapse to Government of the 1/3d. share in the Shrotrium

Village of Kelar, held by the late Seroomagalummal, and which was resumed agreeable to the orders of the Board dated 16th. May 1842.

9. There is also a decrease of 1 Village assessed with the sum of Rupees 490 under the head of Mucta or Fixed Rents, arising from Arnachella Moodelly having in consequence of a misunderstanding with the Cultivators thrown up early in 1251 the lease of the Village of Jeroovercaud, in the Poonamalee Taluck which had formerly been granted to him for the term of 10 years by the late Shrotriumdar when the Village was held under Shrotrium Tenure. There is also a trifling increase of Annas 7-2 being the Seerwa on certain reclaimed waste lands in the Villages of Chunjuncarry & Coorumbaukum according to the terms of the agreement by which the Sheigal lands alone of those Villages were rented for a period of 30 years, the net decrease under this Head therefore amounts to Rupees 489-8-10.

13. In my letter under date the 14th February replying to certain observations of the Board and Government relative to the settlement of Fusly 1249, I submitted a Report shewing what appeared to me the immediate causes which had led to a decrease in the actual Revenue of 5 of the Talooks when compared with the Permanent Settlement, whilst in the adjacent ones there was more than a corresponding increase, and it will not therefore be necessary for me to repeat those observations here, the details of the Permanent Beriz shewn in the foregoing Statement, are solely for the purpose of a general comparison, and from which it will be observed that the result of the year under review is satisfactory, as exhibiting a Net increase of Rs. 24,343-3-7 or 2 3/4 per Cent compared with the

that standard - In comparing the actual extent of Cultivation and Revenue of the Ryotwar Villages in the past and preceding years it will be observed that there was a general increase of cultivation in every Talook in the former period, though varying considerably in percentage, consequent in the degree in which the respective Talooks had been affected by the season of Fs. 1250, but the cultivation generally in the past season, was not only more extended than in the preceding one, but the Beriz is higher by 52,259-13-2 or 6 3/10 per Cent.

14. The annexed Abstract Statement shews the remissions granted in Fusles 1250 and 1251 the result being a decrease of Rupees 1903-1-9- below the amount remitted in the former year - The general principles on which these remissions were granted have been so frequently detailed by me, that I shall now only offer a few remarks on such of the Items as appear more particularly to call for them.-

Fusly- Rs a p
1250—2401-6-3.
1251—3037-13-5.
Excess- 636-7-2.

15- The amount of remissions granted in Fusly 1251 under the head of Shanelat Bunjer or parts of fields left incultivated is Rupees 636-7-2 in excess of the amount permitted in the former year on account of their having remained uncultivated, though satisfactory reasons, such as having been submerged from the filling of the Tanks or from being unfit for cultivation by having been cut up by the run of water during the heavy Monsoon, or on account of lands newly taken up for cultivation, the redemption of which, prior to the close of the cultivating season, was found impracticable.

16- There is a decrease of Rupees 2,067-13-2 in the amount of the remissions granted on account of Phala=nustum or deficient crops in the past compared with the preceding year, the sums being respectively Rs 2406-7-6 and Rs 4,474-4-8- of the former of the sums the chief portion was

called for, through the injury sustained by early crops sown in the beds of Tanks and on the banks of Rivers, or Salt Marshes, which were injured by the Tanks being filled earlier than was anticipated, and by the overflowing of the latter- Under this head is included also Rupees 278 remitted to the Cultivators of certain lands at Vulloor, situated in the Talook of Nayer, the Nawry produce on which was very scanty consequent to the breaching of the Temporary Annicut across the Cartillar River, by means of which those lands are supplied with water.

17- The remissions under the head of Paneeboodty or Crops totally destroyed by inundation amounted to Rs 1759 a 13 p - or 510 Rupees in excess of the past year- this excess however was from the nature of the season to be anticipated- every care was at the same time taken to prevent any fraudulent returns of loss being entered in the Accounts-

Fusly- Rs a p.
1250—1249-6-3.
1251—1759-13-—
Increase- 510-6-9-

The

Fusly Rs a. p.
1250 - 6473 - 4 - -
1251 - 2703 - 6 - 7 -
Decrease - 3769 - 13 - 5 -

18. The remissions under the head of Shrotrium or Crops that had totally failed through a deficiency in the means of irrigation amounted to Rs 2703 - a 6 - p 7 - being less than the amount remitted from similar causes in the Fusly 1250 by Rs 3769 - a 13 - p 5. The greater portion of the amount actually remitted in the past year was called for by Crops thus destroyed in the Peddapollum and Nayer Talooks where the Manavery or Paddy Crops raised through the falling rains alone are more extensively cultivated than in other portions of the District, and in which there are many small Tanks that require constant replenishing to bring the Crops under them to maturity, but which did not occur in the season under review from the early cessation of the Monsoon. These remissions were granted only after a full enquiry into each case and with due reference to the condition of the Cultivator and the produce derived by him from other lands.

19. The sum of Rupees 246 - 9 - 6 entered under the head of Shrotrium Remissions

Remission, is the amount of Revenue leviable on a portion of the lands forming the 1/3 share of the Shrotrium of Kelar enjoyed by the late Serooma-gallummal but which she had realized previous to her demise and the resumption of the Shro-trium the amount of Revenue actually realized by Government since the resumption of the Shrotrium has been Rupees 17 - 8 - 10.

20. The Board of Revenue in their Proceedings on the Settlement of Fusly 1249 remarked that the result must be considered highly satisfactory the Beriz having not only far outstripped that of recent years but approximated closely to the highest amount that could be shewn during the last 38 years, the Beriz however during the past Fusly from extended cultivation actually exceeds that of 1249 by Rupees 5009 - 10 - 1 and is the highest on record since 1220 or a period of 30 years, but should the comparison of the general Revenues including Extra sources be made the result will be found still more satisfactory.

In

21. In the realization however of the land Revenue during the Fasly under report much care and consideration to prevent loss and difficulty to the Ryots in consequence of the unprecedented low rates at which all description of agricultural produce was selling, was necessary and I therefore permitted the collections of the Rists, where the Cultivators retained their produce in store to proceed more slowly than usual the result of which was an outstanding balance at the termination of the Fasly of Rupees

a	p
393,917 –	10 8

22. The price of produce in the Market having since risen to a moderate rate the cultivators are now disposing of their grain and the balance above noted has been reduced to Rupees 175,819-6-11 or 13 7/16 per Cent and during a late Tour to some of the Talooks arrangements were made for the liquidation of the greater portion of the remaining outstanding Rists during the present and two succeeding Months.

I.

23. I imagine at the same time that it will be found ultimately necessary to remit a small portion to those cultivators who live solely on the produce of their lands and who were obliged to dispose of their Grain at an early period at disadvantageous rates for their support and the payment of a portion of their Rists, but on which point as well as on the subject of the old balances, I propose shortly addressing your Board in a separate letter as soon as I shall have visited the Northern Talooks.

24. Annexed is a general Statement exhibiting the aggregate settlement of all branches of Revenue during the past and preceeding Fasly exhibiting a Net increase in favor of the former amounting to

a	p
Rupees 1,23587 –	15 9

17

Sir,

From the Coll.r in the Sn. Dn. of Arcot. } Para 1.

I have the honor to forward a statement No. 1 of Balances outstanding against the Mootahdars noted in the Margin of the Talook of Cuddalore, together with a Statement No. 2 of Sibbandy Vca. required to collect the Rents Vca. for which I request the Board's sanction, as well as their approval of the accompanying copy of an advertisement for the sale of the Estates in question.

Forwarding Statements of Balance against the Mootahdars of Cuddalore Talook and requesting Sanction of the Board for the sale of the Estates.

Venkatapatty reddy of Vanamahdavy	
Chinnasawmy Iyen.	
Seenevasa reddy and Narraina reddy	of Nullatoor
Viswanatha reddy of	Aunavelly
Chundrasakara reddy and Thurmaseva reddy	of Tondamahnuttum.

2. All these Mootahs are in a very bad state

quarrelling between the Mootahdars and the ryots and no hope that I can see of bringing them to a comfortable settlement.

3. The balances it will be observed are very large, I am willing to allow much indulgence in consequence of several circumstances having affected the collections of the Revenue during the last fusly but here the deficiency is far beyond what has existed in any other part of the District.

4 Seeing little chance of extrication from their difficulties, in consequence of their bad management, I recommend that in the regular course these Mootahs be sold, in default of payment of their dues.

Ordered

12728 Fort St. George 20th October 1842.

Order thereon — Ordered that the advertisement forwarded with the above letter for the sale of certain Mootahs therein specified for arrears of Revenue be published in the Office of the Board of Revenue, the date of sale being fixed for the 1st of December next. Mr. Hallett will be pleased to make the necessary alterations in the Notification to be published in his District.

The Establishment temporarily deputed for the management of the Mootahs advertised for sale as exhibited in the Statement No. 2 submitted by the Collr. are sanctioned by the Board of Revenue.

(17 - 18)

To The Secretary to the Board of Revenue

Sir,

Fort St. George

(19)

From the Collr. in the S. Dn. Dn. of Arcot — } Para 1

In the face of repeated orders, the Salt manufacturers of some of the Villages at this place, have in the present year not only far exceeded the littum, but have made Salt of a most infamous quality.

Forwarding samples of Salt manufactured at the Pans of South arcot and requesting permission to destroy some of the bad quality.

I delayed bringing the matter to the Notice of the Board till my other duties enabled me to look into the matter myself.

2. In the two Villages of Ooranoy and Nadacoopum some of the Meerasidars have exceeded the littum 100 and 200 per Cent. The greater part too is so bad that I have hesitated much in receiving any except of the quality contained in No. 1 box.

3. I have however arranged thus. I have received all of the quality No. 1. I have received of the quality No. 2 only to the extent of the individuals' littum — and the quality No. 3 I will take none of. It must be destroyed. It is dirt rather than Salt.

4. Each of these boxes is composed from some 20 or 30 heaps. Thus giving a fair average description of the several qualities.

5. I regret to say moreover that this excess and also this bad Salt is made in a great measure purposely that by delay being created

created in its reception, the Villagers may have the continued opportunity while it is unreceived and unstored of selling and smuggling. I have reason to believe that from 20 to 30 Garce have been sold and smuggled away this season from the 3 Villages of Tricanoor, Nadacoopum and Oorany; while I have not succeeded in apprehending more than 20 persons Concerned in smuggling about one garce.

6. It is almost impossible while all the inhabitants pull together to watch well these outlying Villages, about 4 or 5 Miles from Marcanum. The Codeiwarum is very high, at Nadacoopum even 10 per cent liberal payment I always conceive to have been granted on the principle that by its means the necessitous would be in the interest of the Cultivator, and content with the great profit allowed would afford protection

protection against illicit trade and smuggling.

But as instead of this they now look upon the Codawarum as a right and sell and smuggle to their utmost, they bring upon themselves the only punishment I can inflict, the withholding the dittum hereafter. This I shall certainly adopt next year, and attempt to bring matters into a more regular course. The great quantity of Salt in store will enable me to do so without any risk.

8. It has perhaps been the most favorable season ever known for the manufacture of Salt, and not a grain of worse quality than No 1 ought to have been made. The following table will however shew at once the arrangement mentioned in para 3.

	Dittum.		Manufactured.		Received.		Rejected and to be destroyed.	
Tricanoor	20.	"	18.	214	9.	224	8.	390
Nadacoopum	50	"	68	139	27.	36.	41.	103
Oorany	60.	"	98.	345	52.	71.	46.	274
Total	130.	"	185.	298	88.	331	96.	367.

A

4. A former order of the Board compels me to ask for approval, and permission to destroy this salt, in quantity Garce M. 96 — 367 — It really cannot be received, for the greater part it would be almost dishonest to sell as salt; and to pay the Meraseedars for it, would be to encourage them in their disobedience and misconduct.—

10— In respect to the season of the year I shall be obliged by the Board's early orders, as I should wish the salt to be destroyed under the superintendence of myself or one of my Assistants.—

11. The box No. 4 contains an average sample of the Manufacture at the Marcanum pans this year. The whole dittum has been completed of this quality. I doubt if so good a batch of salt has been made for many years. Last season I cautioned the Meraseedars, and they have paid attention. It is here shewn that in a good season there can be no excuse for the tender of bad salt by the Meraseedars — and no claim to its acceptance by the Circar.—

Markanum, South Arcot Collector's Circuit Cutcherry, 7th October 1842 — — — — } / Signed / C. H. Hallett Collector.

12

Proceedings thereon. The Board approve of the Collector's intention to destroy the salt rejected for its bad quality; and they observe that it was competent to Mr. Hallett to execute this purpose without a reference as their order to which he seems to allude relates only to the destruction of good salt because in excess of the dittum.

2 The Board cannot sanction the withholding of the dittum from the offending Villagers as a fine for their selling and smuggling salt. The proper punishment for such misconduct is prescribed in Regulation I of 1805.

From the Coll. in the S. A. Cy. of 7th Oct.

To

The Secretary to the Board of Revenue Fort St. George

Sir,

I have the honor to enclose copy of a letter from D. Pugh Esqre. of the firm of Parry and Coy. In this District a Licensed

of such a nature has not hitherto been granted: it appears in a measure doubtful whether such License should be granted without reference to the Board, and that the same course may be pursued here as in other Districts, where I believe licenses have been given, I have thought it advisable to request that I may be instructed if the Regulations on the subject should be exactly followed.

Cuddalore
Coll.n Cutcherry,
15th October 1842

/Signed/ C. H. Hallett
Collector.

To
C. H. Hallett Esqre
Collector of the southern
Division of Arcot
Cuddalore

Sir,

Having entered into extensive engagements with Ryots at Collarcoily for the purchase of their Sugar Cane Juice for the purpose of making Sugar thereon, I have the honor to request you will be pleased to grant me permission to make Spirits from the Molasses so

for exportation under the usual instruction.

Cuddalore.
13th October 1842

/Signed/ D. Pugh

Ordered that the following letter be sent in reply.

To
The Collector in the
Southern Division of
Arcot.

(21-22)

To the Coll.r in the S.n Div.n of Arcot

Sir,

In reply to your letter of the 13th Instant, I am directed to inform you that the Board of Revenue are aware of no objection to the issue of a license to Mr. Pugh, for the object and with the stipulation, specified in section II Regulation 1 of 1820. The Board accordingly authorize you to grant such a license to that Gentleman on his executing a counterpart of the same. A Form of license is enclosed.

2 Clause fourth of the section quoted above need not now be attended to.

Revenue Board Office
Fort St. George

Order thereon.

Ordered to lie on the table.

Proceedings

Relative to the management of the Extra Sources of Revenue in the District of Madura for fasly 1251

The Board proceed to dispose of the report of the Principal Collector of Madura upon the management of the Extra sources of Revenue in that District for fasly 1251.

(25)

Paras 1.

In the revenues derived from the sale of Salt in the fasly under observation there was a decrease of Rupees 3,164-12-10 as compared with the preceding year. The Collector observes however that the sales of Salt in fasly 1250 were the highest on record, and adds that if the Comparison be extended to the 10 years immediately preceding Viz. from fasly 1241 to fasly 1250 the increase in fasly 1251 above their average will be seen to amount to Rupees 2205-7-10. The decrease in the year under review is attributed

Command
1250- 2,166-30-6-6
1251- 70,001-9-8
3,164-12-10

Paras 2.

24th August in Consl.n
4th November 1842

attributed to the panic produced among the salt dealers in consequence of some deaths occurring from cholera at the pans, which checked their resort thither, and also to the measure of pressing the Carts of the Country to assist the 5th Regement N.I. on its march thro' Madura. It is observed also that a great alteration had taken place in the retail value of salt as in the Month of March fusly 1250 the retail price was Rupees 130 per gurse, whereas in the same month fusly 1251 it rose as high as 150 Rupees per Garce, but no explanation of the cause of this fluctuation in price is given by Mr. Blackburne. A decrease in the sales at the Pans would naturally tend to increase the prices in the interior, but not to the extent here noticed.

Para 2.

2 In reference to the observations at the conclusion of para 2 the Board think it only necessary here to remark that out of an Estimate of Pa 24000 for Road repairs about 7,000 was alternately sanctioned, which under the restrictive system enjoined on the Board was as much as Mr. Blackburne could reasonably expect; and very much more than allowed in other Districts.

J.G.

The

Gross receipts
1250 - 2,74,783 - 14 - 1
1251 - 2,66,613 - " 9
Decrease 8170 - 13 - 4

Charges -
1251 - 53,291 - 12 - 9
1250 - 28,744 - 13 - 7
24,546 - 15 - 2.
Increase of fusly 1251

Printed Statement -

3. The Gross receipts in the Salt Department inclusive of Extra Collections (Rupees 41 - 7 - 1) fell below those of fusly 1850 in the sum of Rupees 8,170 - 13 - 4 and in the Charges there was an increase of Rupees 24,546 - 15 - 2 owing to the quantity purchased having been greater and the advances for manufacture being also more extensive than in the previous years the consequence was that the net Revenue derived from Salt in fusly 1251 exhibits a total decrease of Rupees 32,717 - 12 - 6 -

Sayer
1251 - 2,75,811 - 3 - 6
1250 - 2,70,211 - 6 - 1
Increase 5,599 - 13 - 5

Infor 14th June

4. The Demand under the head of Sayer exhibits an increase of Rupees 5,599 - 13 - 5, the result of a total decrease of Rupees 6,680 - 2 - 7 in the 5% duty under Cumany and an increase of Rupees 12,280 - 0 - 0 in the Betel and Tobacco Farms owing to Competition among the bidders as particularized in the letter from the Principal Collector dated 3d of June 1841. The above demand was collected within

Fort St. George 20th October 1842.

within the fusly with the exception of Rupees 2,805 – 8, under the head of Extra Collections the sum of Rupees 53 – 12 – 11 was also brought to account making the gross Collections amount to Rupees 274,059 – 8 – 5. In the charges there was a decrease of Rupees 8,622 – 3 – 11 arising chiefly from the amount of Drawback being less in 1251 than in fusly 1250 which is explained by the Principal Collector to be owing to the deminished Export of Piece goods to Ceylon from the market being supplied direct from great Britain to the exclusion of the manufactures of Madura.—

Drawback –
Fusly 1250 – 15005 – 10 – 7
1251 – 8,406 – 8 – 1
6,599 – 2 – 6

Para 3.
Printed Statt.

5. In the Current collections in the Sea Customs Department there was an increase of Rupees 988 – 4 – 1 stated to have arisen from the increased importation of Areca nut from Ceylon – The Gross Collections shew an increase of 891 – 10 – 3 and the Charges an increase Rupees 49 – 5 – 7 the net revenue therefore was in excess of the preceding year by Rupees 842 – 4 – 8.

Sea Customs
1251 – 14052 – 5 – 4
1250 – 13064 – 1 – 3

From the Coll.r of Tinnevelly
With reference to the Board's Proceedings on the Settlement of Fusly. 1249 and of previous years - Reporting on Pattees and Parwanas tenures in Tinnevelly and forwarding 3 Statements connected therewith &c.

Read.

Sir,

With reference to the Board's Proceedings on the Settlement of Fusly. 1249 and of previous years, I have the honor to report on Pattees and Parwanas tenures in Tinnevelly and to forward Statements from Nos. 1 to 3 prepared from the public records of this District, Nos. 1 and 2 being intended for Pattees and Parwanas separately and No. 3 for both. The estimated value of the full Maiwarum grain according to Village averages and at the settled price of Fusly. 1251, if receivable, for the whole extent of Pattees and Parwanas lands entered in the Ayacut Accounts is exhibited in the respective Statements as well as the actual Beriz under the heads of Pattees and Parwanas for Fusly. 1251, at the different current selling prices and Parwana rates of the respective Villages.

The

2 The Pattum and Parasaya lands in this District have been granted for the four different charitable purposes specified in the Marginal Village Service the improvement and most of them of Cultivation + are held under the benefit of grants from the Individuals.- Native Government, a small portion only having been made since the assumption of the District by the British.- Of the lands held from former Governments same are enjoyed under Summuds issued either from the Nabob direct or from his Servants deputed for the Management of this District, others have no better title than Mamool, while those held since the assumption of the District by the British Government are enjoyed under the authority of different Collectors.-

3.- Under the head "Having Documents" in the respective Statements are included the lands of parties who have produced their original Summuds or

copies of them, or where the public records shew these lands to have been held under Summuds.- Of these Summuds some are signed with the persian word Beig and sealed, while others are left unsigned and merely sealed.- Supposing the Summuds to have been originally issued, it is not very likely that they would remain so long in existence and those produced as well as the copies when the originals are said to have been lost are equally to be viewed with distrust.- Thus Accounts however of Pushes 1213, 1215, 1216 and 1217, shew that all these lands included in the Statement as granted during the Nabob's Government were actually so enjoyed before the assumption of the District by the British Government.-

4 The lands held for the benefit of "Charitable Institutions" "Village Service" and "improvement of Cultivation" Vide Marginal Note in para 2/ may be supposed to have been granted permanently.- The rates fixed on those for the last do not appear to have been calculated

calculated with reference to the cast and trouble of reclaiming Purdy lands digging Wells for irrigation or repair= =ing destroyed Tanks, as in some = =places they are exceeding by high in others they are moderate and pro= =portionate to the fertility of the soil.-

5 The chief part of the lands held by Individuals under Inamds is stated therein to be hered= =itary, but for the remainder such particulars are not mentioned. Batta are however of a trifling extent and the Lands have alike descended from the Grand fathers and Great Grand fathers of the party now holding them or have been transferred by the origi= =nal Grantees or their heirs.-

6 It is impossible to state whether the Lands held by Manad were granted to the holders for life or in perpetuity, there being no other warrant than that of custom for the occupancy of the Lands and its

present terms. In some cases the Lands vary from that mentioned in the Pymash Varums of Fasly 1213 tho' in they correspond with that entered in the Settlement Accounts of subsequent years.-

7 The rates of Pattem and Parapaw vary considerably. For Pattem land the highest being Grain Co Pagodas per and the lowest Grain Co Star Pan for Parapaw Land the highest Chuckrums 8 and fanams 5 and the lowest fanams

Cavilgay Varee or a taxed levied to meet the expenses of Maramut.-
Vavany or bribes to Public Servants.-
Tykkedutto Varee or Tax on Straw Bundles.-
Nuzzer or Present made by an inferior on his coming before his Official superior.-
Mutuddy Jakareer or Presents to Public Servants.-
Nautturi Selavoo or Throffs fees
Sadir Varee or Tax levied from Pattem and Parapaw dars for praying dancers and Musicians.-
Pillee Vartanee or Bribe for changing the Registry
Collate Peow tax
Nautto Mahajanum or Presents to Head Inhabitants.-
Sundry other taxes.-

2/2.- Besides these rates there are in most places additional taxes of the nature described in the margin also levied on Pattem & Parapaw Lands.- These are doubtless abuses and arbitrary demands paid

paid at first to avoid the discon-
=tinuance of the favorable tenure
and sanctioned subsequently by custom.
In Pattem and Parapaso Villages no re-
=mission on account of drought or
short produce is allowed, nor are any
charges for repairs of works of irrigation
admitted by Circar wherever the rates
are favorable.-

8 Some of the Pattem and
Parapaso dars in different Villages
finding the rates charged too high
have thrown up their lands and left
them turs and request the cancelling
of these tenures and the levying the Vil-
lage average instead. The Cowles
granted to the dismissed Sepoys of
Ramnad have been already report-
=ed on to the Board in Mr Eden's
Report on the Settlement of Tinevy 1265

9 As for the orders
passed by Mr Hepburne for
the cultivation of Tinevy land
on Pattem and Parapaso
tenure some shew that the
lands entered therein are to
be held by the original Gran-
=tees and some by their succesors
also, a question has arisen whether in

the former case the favorable tenure
should not cease with the life of the
Original Grantee. On such uncertain
terms it appears to me unlikely that
any one would undertake the cultiva-
=tion of land requiring the expenditure
of Capital, and I therefore conclude that
the intention of Mr Hepburne though
not explicitly given in his orders,
was that such tenure should be
permanent. It is for the Board to
decide whether these grants or others
since made by the Collectors of this
District should be confirmed. The
amount of them, it will be observed
is small and the lands have been
cultivated under the just expectation
that the Officer giving them had due
authority to do so. In no case do I find
any reason for supposing that any
undue advantage has been improperly
obtained. Another question has also been
raised which it is desirable the Board
should decide Viz. the right of Grantees
of Pattem and Parapaso lands to dispose
of them by sale or otherwise. The

passe par

possessor of such lands cannot transfer to another more than the extent of right he himself enjoys, and when the transfer does not interfere with the claims of Government I do not perceive the necessity or justice of prohibiting it; excepting of course the lands held for charitable purposes or Village Service.-

10 It may be said that in general the lands granted on Pottem and Paropakoo tenure by the Native Government are favorably held. The due entry of such in the early Accounts of the District after its assumption, and the admission of the tenure since have naturally led the possessors to suppose their titles good, and transfers of land have been accordingly made. To cancel such tenure now would create distrust and confusion, and I would recommend the continuance of the rates for the lands duly entered in the Accounts of the years above quoted, that permission be given for reversion to the Village averages where such rates have been found so high as to throw the lands out of cultivation, and the assumption of such portion

portion of the lands taken on Cowles granted by the Native Government, by Mr. Hepburne, and other Collectors as though many years have elapsed, still remain uncultivated.-

11.- In some of the Summuds from the Nabob, and as entered in the early Accounts as well as in some of Mr. Hepburne's Cowles especial rates lower than those for the other lands of the Villages are expressly mentioned to be granted on the cultivation of Nungulu Mail Bongalu and Vampyre crops. The abolition of these rates throughout the District under the Board's orders would, if acted upon with regard to such Pottem and Paropakoo lands, vitiate the tenure on which they are now held under the authority of such Summuds or Cowles, and the continuance of the rates in cases where they are distinctly specified in Summuds or Cowles, & they correspond with the Accounts which I have directed, will I imagine be in accordance with the intentions of the Board if these documents are admitted as sufficient warrant for favorable tenure of any kind.-

Tinnevelly 10th September 1842. } Signed/ H. C. Montgomery, Collector.

Statement

12787 Fort St. George 20th October 1842.

Order thereon.

Ordered to be sent again Circulation.

(26-27)

To, The Secretary to the Board of Revenue Fort St. George.

(28)

From the Acting Collr of Tinnevelly — Sir,

With reference to the Board's Proceedings of the 29th Ultimo stating the number of Nutmeg Plants sent to the Principal Collector of Salem reporting upon the general state of the Spice Gardens in the Tinnevelly District —

Para 1. In acknowledging the receipt of the Extract from the Proceedings of the Board of Revenue dated 29th Ultimo I have the honor to report that 10 dozens of young Nutmeg plants were sent, under charge of a peon, to the Principal Collector of Salem on the 17th January last.

2. With reference to the Spice Gardens in this District, which I have taken the opportunity of visiting, and to which my attention was drawn by my predecessor Sir Henry Montgomery, I have put myself in communication with Mr Hindsham of Travancore and other spice planters of standing and experience, and from their practical information and having seen the plan of management adopted in similar plantations on the western coast I hope to be able to put these Gardens on a better footing.

3. It is now more than 40 years since their first establishment, properly

properly attended to they ought long ago
to have paid their own expences and be
a profit to Government; instead of which
they have usually been a yearly loss &
their primary object I conclude was not
profit but to form an experimental &
Nursery; from whence to disseminate va-
luable seeds or young plants for trial
elsewhere. This object appears to have been
wholly lost. No cultivation, manuring
or pruning seems ever to have been
used in the Gardens the plants are
left entirely to themselves, and no care
has been taken to renew or propagate
the old stock by rearing seedlings of
the more valuable kinds, yearly. such
as the Nutmeg, coco, and clove, the mere
sowing a few seeds of each annually
all that was necessary.

4. Beyond the few young Nutmeg plants lately sent to stations I cannot learn that any plants from the Gardens have been ever spread. I have now made arrangements for some of each valuable kind being duly propagated in case Government should

any spice plants in future: the only kinds which I conceive are now deserving of much care, are the Nutmeg, clove, and coco (or cho-colate) trees; the others, coffee and cinna-mon, formerly scarce but now plentiful and of depreciated value, in many parts of India, are no longer worth expence or much trouble; the three former Nut-meg, clove, and coco tree, might I think be tried with success in many parts of this Presidency.

5. The Jungle and forest trees with which the gardens here (4 in number) are now over grown, I have had cleared. Forty years ago, they were useful and necessary as a shelter to the young spice plants, now they have so increased as to injure and overrun the Gardens.

6. A portion of the extra expenditure had been already reduced by my predecessor dismissing some of the Gardeners, and I trust in a couple of years the gardens may yield an annual profit to Government and furnish a regular supply of valuable young

young plants for use in other localities, and with reference to their successful cultivation in Bencoolen, Singapore and other localities I am of opinion that both the Nutmeg, and Clove but especially the coco, might be cultivated with success as a garden produce in many parts of the plains of India - a few plants of the tea Shrub, the asafoetida and the Mangosteen, are also to be found in the gardens and appear healthy.-

(Signed) E.B. Thomas.-
Acting Collector.

28-29

Order thereon-
Read again
Jn. 10th November/-

Ordered to be brought forward at a future day.

Read the following letter

To,
The Secretary to the
Board of Revenue
Fort St. George.

30
From the Pr. Coll.
of Coimbatore-

Sir,

As requested in your communication of the 1st Instant, I have the honor to forward two original Moochilkahs executed by Ramiah for the Sayer and Tobacco Rents of Fasly 1243 together with

with the original Durkastnamahs referred to.-

(Signed) J. C. Wroughton.
Principal Collector.

30-31

Order thereon-
Read again
Jn. 24th Octr./

Ordered to be sent again in Circulation.

To,
The Secretary to the
Board of Revenue
Fort St. George

32
From the Pr. Coll.
of Coimbatore-

Sir,

I have the honor to forward for the information of the Board copy of communication from the Sub Collector dated 24th Instant reporting the seizure of 1 Garce and 58½ Measels of earth Salt, imported from the Pondimans Country, and under the circumstances therein stated. I request the Sanction of the Board for its confiscation and sale under Regulation I of 1805.-

(Signed) J. C. Wroughton
Principal Collector.

To, The Principal Collector of
Coimbatore

Sir,

I have the honor to report the

the detention, in the first instance, on the 20th Instant, of 1 Garee 58 ½ Mercals of Salt by the Tahsildar of Caroor Talooke, and the subsequent seizure, of the same this day under my orders in consideration of the Salt being of Foreign manufacture, and illegally imported into the territories subject to this Presidency I therefore beg to recommend that the sanction of the Board of Revenue be obtained for its confiscation and sale agreeable to provisions of Regulation I of 1805.

2. The seizure was made in consequence of intimation given by the Monigar of Malapolliem to the Tahsildar late on the night of the 19th Instant, that a Camp of Coravours with Salt had halted within the limits of the Village and whom he suspected to be professed of earth Salt - The Tahsildar on the following morning found the Camp in the Village of Cavilelly whither they had moved, and on a subsequent

inspecting their Salt bags discovered it to be earth salt such as is sold in the Rajah Zondiman's country - The whole Camp was detained and an investigation instituted, when it was elicited by the depositions of the Coravers that the Salt in question was purchased by them at the Rajah Zondiman's Salt Depôts.

The value of the quantity of Salt seized may be estimated at Rupees Four hundred.

(Signed) A. Bird
Sub Collector.

32-33

Resolution thereon. The Board of Revenue authorize the confiscation of the Earth Salt imported from the Zondiman's Territories, the seizure of which is reported in the foregoing letter, and the distribution of the proceeds according to the Regulations.

From the circumstance of so large a quantity of smuggled Salt having been at once discovered in transits at a distance from the borders

Fort St. George 20th October 1842.

orders of the Legislature Country and from representations which have at different times been received from the Collectors of the Salt Districts — the Board are inclined to believe that a considerable traffic in Earth Salt is carried on between the Sandwash Country and the interior, and they would urge on the Revenue authorities of Coimbatore a continuance of the vigilance which has been so laudably exhibited on the present occasion.—

I &c

The Secretary to the
Board of Revenue
Fort St. George

34

From the Pr. Collr. of Coimbatore. Forwarding copy of communications in explanation of the American system of rice cultivation, with the opinion of himself and of the Natives as regards the advantages of its adoption.

Sir,

1. I have the honor to acknowledge receipt of Extract from the Proceedings of the Board of Revenue dated 1st Instant directing me to report the probable amount of Surplus which will remain from the proceeds of the sale of the rice and straw composing the Crop raised by Mr. Morris, and whether that sum will be a sufficient remuneration to be given to him and also

Fort St. George 20th October 1842.

also the details of the mode adopted by Mr. Morris in the American System of cultivation.—

2. In obedience to these instructions I have the honor to submit three communications on this Subject of a most conflicting character Mr. Morris' mode of cultivation in principal is precisely the same as that observed by the Natives for ages past. only infinitely more expensive and less simple. The grain alluded to by Mr. Morris is Caur" a three Months Crop. and too well known to the Members of the Board to require more particular remark. the grain with which it is contrasted is Sumbah or Six months product.—

3. I have not got the correspondence in my Office to refer to, but if I recollect rightly, the object has been lost sight of which induced Government to accept Mr. Morris's Services. Economy with greater abundance, and the production of a Second Crop from the Same Sowing being the benefit assured by the American

American mode of cultivation - none of which results are discernible in the present trial.-

4- As a remuneration cannot be claimed either on the succefs or demonstrable advantages of the undertaking I have no guide to recommend a recompense to Mr. Morris.-

5. With reference to the Order requiring me to ascertain and report the Sentiments of the Native Cultivators towards the American System of culture, I reluctantly beg to state that it is my opinion and also that of all the other Natives whom I have consulted on this point that trials of this nature are not viewed with any interest whatever; and the Ryots would no more deviate from their present mode of cultivating rice, than they would depart from the most deeply rooted prejudices.-

6- I am aware by the remark I subject myself the charge of prejudice, but time the great demonstrator of event will

will test the correctness of my Statement Should the attempt be renewed.-

A 7- The enclosed Statement will amply supply the requisite information regarding the Indian mode of Cultivation in Errode, which with a slight variation may be taken as a Standard throughout the District.-

Coimbatore,
Pr. Coll.rs Office,
30th September 1842

(Signed) J. C. Wroughton
Principal Collector.

No. 1.

To The Principal Collector of
Coimbatore.

Sir,

I delayed replying to your letter letter of the 16th Instant, enclosing Extract of proceedings of the Board of Revenue dated 1st September 1842 until I should have had an opportunity of obtaining from Mr. Morris written instructions for the cultivation of rice according to the American method Copy of which I subjoin.-

In course of conversation with Mr. Morris he mentioned that the Native Growers had informed him

Fort St. George 20th October 1842.-

him, that they considered the grain co-
produced on his fields superior to
that they obtain, and would have
preferred it to their own for seed.-
They at the same time remarked
the deficiency of Straw which they
considered a drawback but thought
it partly if not principally attribu-
-table to the late season at which
his paddy was sown.-

If in these Statements
they expressed their real opinions it
seems a subject for regret that Errode
was so unfavorably situated for the
growth of Cotton, since, had he
remained there, he might, by follow
-ing up his first trial under more
favorable circumstances, have
succeeded in proving to the satisfac-
-tion of the Natives the superiority of
that system and establishing the
practice of it along the banks
of the Bavani Canal, whence it
would undoubtedly have co-
spread.-

In his present location

Fort St. George 20th October 1842.-

Mr. Morris has no opportunity of carrying
out the wishes of Government by conti-
-nuing to cultivate rice but should
circumstances occur to render necessary
his removal to Coimbatore, I trust an
opportunity of doing so will be afford
-ed and if the drill method is really
preferrable, enable him to establish
the fact to the satisfaction of all
persons interested in this branch
of agriculture, until which time
it is not to be expected any
Native will attempt to practice it.-

(Signed) J. Robert Wight Surgeon
Supt. Cotton Farms.

Coimbatoor - - -
27th September 1842

Copy of a letter from Mr. Morris a Cotton Planter
To Dr. R. Wight
Superintendent Cotton Farms

Sir,

In reply to the queries on
rice cultivation introduced by myself
in last year at Errode. I beg to
State that the System pursued was
as follows.-

1st I ploughed my land whilst
moist with the common Country
plough.-

plough - This though not altogether suitable yet I think better than the American Cotton one for that kind of cultivation the proper implement is what is called in America shovel plough - 2nd. I then levelled my land in the ordinary way as practiced by the Ryots in India after which I laid out my drills from 16 to 18 inches apart this was done with hoes to a depth of about 2 inches - 3rdly. the rice was then sown but very thinly in the drill at a rate of perhaps not more than half a Bushel per acre - 4thly In 10 or 12 days after the rice had Sprung up - there was a little water let on and remained for 10 or 15 days at a depth of 3 inches after which it was let off for 3 or 4 days and was continued in this way to let on and off until the rice had matured taking care to have fresh water daily applied - the kind

kind of rice planted at Errode was the common Country rice, and it was sown entirely too late for a fair experiment - this mode of cultivation requires no more water than the Indian System. -

(Signed) James Morris.

Coimbatore - 24th September 1842 } No. 2.

Translated Copy of Urzee from the Tahsildar of Errode dated 13th September 1842.

I have been favored with your Tahseed dated the 2nd Instant directing me to state the probable charges incurred for the Cultivation of rice by Mr. Morris, the quantity of produce obtained and whether the American mode of culture would be attended with more advantage than the Indian mode, and if so to what extent and in what respect; also whether the Ryots would be willing to follow the process of the American System, or whether there is any disinclination on their part to do so. -

Pursuant -

Pursuant to this order, I made enquiries and I am informed that Mr. Morris in the first instance cultivated the American Paddy in wet lands in the Villages of Chinna Aggraharum and Verapolliem, but the Seeds not having vegetated, he ploughed the lands a second time, and cultivated the rice of this Country generally known by the name of Annadanum Paddy (coarse Paddy) and obtained a Crop. what were the actual Charges on this account I have not the means of precisely stating. I am informed, however, that the Sum of Rupees 594-14-0 have probably been disbursed. the value of the produce Amounts only to Rupees 161-4-0 It is therefore obvious that the American mode of cultivation is unprofitable in every respect. The American Ploughs are too large and heavy to be of any use and cattle of Sufficient Strength to work them with are not procurable in this part

part of the Country. This difficulty may be overcome by the employment of additional Coolies, but as the system itself is not in any way advantageous, the Ryots of this Taloke are not willing to follow it. I beg leave to forward herewith two Statements Shewing the charges of Cultivation Ves. Ves. both in the American and in the Indian mode.-

The Nunjah lands in this Taloke are only watered from 6 to 10 O'C a. M. and then the Sluices are shut up. The Inhabitants state that in the American System of cultivation, as large beds are formed (each bed occupying the Space of 5 or 6 of the beds made by Natives in their Nunjah land) it necessarily requires irrigation from morning to evening. It also appears to me that any large extent of cultivation in this System would require a considerable quantity of water which will be attended with a proportionate deficiency

deficiency of Supply to the lands lower down the Channel and thus occasion a loss of revenue to Government

(Signed) Rungasamy Naik
Acting Tahsildar.

No. 3.

Translated Copy of Report from the Tahsildar of Errode dated 21st. September 1842.

With reference to my Urzee reporting the unwillingness of the Ryots in this Talook to follow the process of the American System in the rice cultivation I was again directed under date 15th Instant to obtain correct information on this Subject and to Submit it in the Shape of Mahazurnamah.-

In obedience to this order, I called upon the Curnum, Monigar, and the Inhabitants of the Villages of Chinna Aggraharum and Virapol-liem to afford me a correct information and they all State that the American System of cultivation is more expensive and less profitable

profitable. The value of Ploughs and other implements was estimated by them and however much the cost of these implements is reduced they would be useless- as the Native Inhabitants are utterly ignorant of the new System, and as it is one which requires greater labour they consider it to be most unprofitable and are therefore unwilling to follow it- To this effect they have given a Mahazurnamah Shewing also the Charges of cultivation &c. which I respectfully beg leave to forward herewith.-

(Signed) Rungasamy Naik
Acting Tahsildar-

No. 4-

Translated Copy of Mahazurnamah- delivered by Videe Jen, Ramasamy Naiken, and other Inhabitants signed hereunder residents of Virapolliem and Chinna Aggraharum in the Errode Talook dated 21st September 1842.-

2. Are you disposed to cultivate Paddy in the American System?- What will be the charges of doing so and what will be the Amount-

Amount for cultivating the Same co quantity of land in the Indian mode what are the relative advantages gained by these two descriptions of culture state these particulars as correctly as possible.-

A. We do not Know precisely the amount of charges required for the American cultivation, but c having inspected it under the direction of Mr. Morris, we assume the following valuation.-

Value of 4 Spades	4	- -
" 8 Ploughs	40	- -
" 4 Teak yokes	14	- -
" 4 Chains	14	- -
" 16 Rattan Bows	-	8 -
" 4 Handles for Spades	-	8 -
Hire of Carpenters and Iron Smiths.	7	- -
Value of Seed grain	6	- -
Charges for manuring the ground-	14	- -
Pay of 4 Coolies for 12 Months at One Rupee, twelve Annas per Mensem each	84	- -
	184	- -

184 - -

Hire for 4 Coolies at one anna each per day for 4 Months to drive Bullocks when ploughing	30	- -
Value of 8 Bullocks at Rs. 25 each.	200	- -
These Bullocks would work for the period of 4 years for one year on the average Say Rupees	50	- -
Value of Grain for Bullocks for 12 Months	180	- -
Weeding 9 ea	18	- -
Reaping and thrashing	13	8 -
Pay of Neerauie Sibbendy to be given in Kind	1	6 -
Amount of Revenue payable to Government	96	- -
Total	572	14 -

This is the amount of capital and Charge for cultivating 5 Cawnies of Nunjah land- the produce obtained on is as follows.-

Mr. Morris cultivated 10 Cawnies and only raised a Single Crop of "Caur Paddy" of this Country the produce of

of which we understand to be
90 Salgays - If two Crops are raised
in 5 Cawnies of land the produce
would be the same upon the average
that is 90 Salgays Value of this
quantity at 1 - 10 - 0 per
Salary - Say Rupees 146-4-0
Value of Straw Rupees 40-0-0
Deduct quantity required for
Bullocks and take the
Surplus at 15-0-0

Total Rupees - 161-4-0

Thus the charges of cultivation are
heavy and the produce deficient
The American ploughs are very large
and are worked on the soil here
abouts with much difficulty -
Bullocks of Sufficient Strength and
adopted for the task are not ob-
obtainable in this part of the
Country - and although additional
Coolies are employed for the purpose, the
charges incurred are not covered by
the return - The Nunjah Cultivation of
this Talook requires irrigation only
from

from 6 to 10 o'C. a.m. after which
the Sluices are closed - In the Ame-
-rican System large beds are formed
(each covering the space of 5 or 6 ex
Indian beds) and when the plough is
set to work in them 10 or 20 long
furrows are made in the bed, each
6 inches in depth and one cubit in
breadth - the Seeds are Sown in them
and when they vegetate, the furrows
are earthed up and the plough is
made to run on the Sides of the
Plants which cuts trenches on both
Sides - To irrigate This completely
water should necessarily be let into
the field from morning to evening
Under these circumstances it would
appear that this mode of culture requi-
-res a great deal of labour as co
well as a considerable quantity of
water without any adequate return -
However much the value of the
Ploughs and other implements is
reduced we are not willing to ex
adopt this course, for in the event
of

of our undertaking to do so, there is every probability of a heavy loss of revenue - the lands lower down the Channel will experience a Searcity of water and in consequence will be thrown waste - Besides all this for the cultivation of 5 Cawnies of land under our System a charge of 171-8- u- is incurred - the value of produce amounts to Rupees 188- 14- u giving a clear profit to the Cultivator - This course is familiar to every one in the Country and we are of opinion that it will not be abandoned for one which is more expensive and without advantage.-

(Signed) Videe Jen and
14 other Inhabitants

Fort St. George 20th October 1842

Read the following report.

To The Secretary to the Board of Revenue Fort St. George

(38)

From the P.l Coll.r of Canara Reporting on the Settlement of Canara for fasly 1251. English- A B C D E F G & H Nos 1 2 3 5 6 8 12 & 13. Sundries. A B C D E F G H I J K L & M. Nos 1, 2, 3, 5, 6, 8, 12 & 13.-

Sir,

1. I have the honor to submit my report upon the settlement of the land Revenue of this District for the past fasly 1251, accompanied by the usual Accounts and Statements.-

2- The several Talooks were settled in the following manner- Buntwal, Udapi, Barcoor, Cundapoor, and Honore by myself, Ankola by the late Sub Collector Mr. Anderson; Soopak, Sondah, and Bilgy by the Acting Sub Collector Mr. Duckington, and the remaining Talooks of Mangalore and Bekul by the Head Assistant Collector Mr. Reade-

3- The season proved very favorable. The rains set in regularly on the 1st June, and continued without any considerable intermission, until the 1st & 2d Crops were brought to maturity-

2d- The produce of the Rice crops was very abundant; but extremely heavy rains in the Month of August, occasioned some damage to the low Rice lands in certain localities- The Pepper

Pepper and Betelnut, proved also very productive, both above and below the Ghauts, but the Cardamums sustained some injury from the heavy rains in August.

	Candies	M.	P
Estimate of 1251	3,11,923	4	
Manufacture in ditto	1,852	28	8
Decrease	1,266	35	4
Manufactured in 1250	3,635	28	8
Ditto in 1251	1,852	28	8
Decrease	1,782	30	0

5. An unusually heavy fall of rain in the Month of April, proved very injurious to the Manufacture of Salt, which fell short of the Estimate by 1266 Garces, and of the Manufacture of 1250, by 1,782 Garces. In consequence of this failure, the salt manufacturing Ryots have been very considerable sufferers.

6. The season was generally healthy, both for men and Cattle. The Cholera prevailed for a short time in the frontier Moganies of the Soopak Talook, but medical aid, as far as was possible, was promptly afforded, and the loss of life was inconsiderable.

Population. 7. The triennial census taken during the fusly under report, exhibits an increase of 32,187 in the population of the District, and of 16,330

in the number of Cattle. The particulars are shewn in the subjoined Table.

	1248	1251	Increase	Proportion per cent
Hindoos	7,55,006	7,80,963	25,957	3½
Mussalmen	53,574	58,010	4,436	8¼
Christians	26,294	28,088	1,794	6¾
Total Population	8,34,874	8,67,061	32,187	4
Cattle	6,42,948	6,59,278	16,330	2

Exports of Rice. 8. The export of Rice including Canara and Foreign produce, exceeded that of the preceding year by 2,364 Corges, and the average of the past 5 years, by 18 Corges. The following Statement exhibits the total quantity of Rice exported within the year under report, distinguishing the proportion of Canara and Foreign produce.

	Canara		Mysore and Coorg		Total	
	Corges	Marcs	Corges	Mark	Corges	Mark
1250	20,950	3	3,559	12½	24,509	15½
1251	23,109	10¾	3,746	34	26,856	2¾
Increase	2,159	7¾	187	21½	2,346	29¼
Per Centage	10	12¾	5	11½	9	24
Average of the last 5 years	24,199	19	2,338	19½	26,837	38½
1251	23,109	10¾	3,746	34	26,856	2¾
Decrease	1,390	8¼	Inc. 1,408	14½	Inc. 18	6¾
Per Centage	5	28¼	60	9½	"	3

The

9- The decrease in the exports of Canara Rice compared with the average of the last 5 years, is to be accounted for by the increased importation of Coorg and Mysore produce.-

Prices. 10- The prices obtained by the Ryots for grain in the lower Talooks, during the past fusly, were below the average of the last 5 years, as also of the rates prevailing in fusly 1250, as shewn in the annexed Comparative Statement.-

	Average per Corge of Seera Rice.			Average per Corge of Mussoor Rice			Average per Corge of Rasy Rice

The

14- The decline in the price of Supary, the staple product of the Balaghaut, was not material, but the low rates obtainable for Pepper, caused considerable loss to the growers of that article. The price of Cardamums, though below the average, was more favorable than in the preceding year; but as the produce fell considerably short of the Average return, the growers obtained but little advantage from the rise of price.

Export of Balaghaut Staples.

15- A Statement comparative of the export by Sea & Land, of the abovementioned three articles, the principal products of the upper Talooks, is subjoined.

Average	8,706-5-3	
Fusly 1251	7,438-14-7	
Decrease	1267-6-8	

must always render some slight fluctuation in the Settlement unavoidable.

20. The reductions under the heads of waste, and destruction of Crops are the only ones which appear to call for any detailed explanation. The particulars of the remission are shewn in the Margin. The waste in Cumeri, or hill cultivation, is of common occurrence; this description of culture not being of a fixed nature, but spots broken up and sown in one year, are deserted for fresh ground. The waste in Rice and Garden lands, was chiefly owing to the unhealthiness of certain localities in the Buntwal Talook, which occasions changes in the spots cultivated every rainy season; and also to floods, and salt water inundations in low lands on the banks of Rivers.

Particulars of Waste.		
In Cumeri	2179	8-1
Rice lands	2314	1-3
Gardens	125	11-2
	4,619	1-6

21. In the remissions on account of destruction of Crops, the most considerable occurred in

was in consequence of the destruction of the second Crops, on the banks of the large Rivers of Guerasa-upah and Meerjan, caused by an unusually high rise of the tide, which overflowing the embankments, flooded the fields with salt water, and irretrievably ruined the crops. The case of each claimant for remission on the above accounts, was minutely inquired into, and the abatement allowed I consider to have been urgently necessary, as besides the immediate loss of crops, the lands themselves in many instances were injured by

the irruption of Salt water.

22. According to the instalments previously arranged, the sum of Rupees 7,571-9-8, was to have been added at the settlement of the Fasly under report towards raising Estates to the Maximum berij. Of this sum Rupees 6,565-2-3, were brought to account, having a balance of Rupees 1006-7-5 which could not be realized without distress to the Ryots, owing to the lands on which the additional assessment was to have been raised, being partially or entirely uncultivated. The great depreciation in the price of grain, which was 13 per Cent below the commutation rate, also operated in preventing the enforcement of the instalments to the full amount.

27

During the Jummabundy under Report; those Estates that are capable of paying the maximum when fully cultivated, but which remain partially waste, for want of occupants, have been entered in a 5th Class, as recommended by the Board, in their *Proceedings of the 23d September 1841.— The Estates coming under this head amount to 793, assessed at a Beriz of Rupees 15904-10-3, of which the demand for the year was Rupees 9750-10-2- The particulars in detail

*C. para 13

are exhibited in the accompanying Statement Marked I.-

28.

Having in my letter to the Board dated 30th July last expressed my opinion at length regarding the classification of Estates, and the other points connected with the system introduced in Fusly 1243, I think it unnecessary to add any thing further on the subject in this report.-

29.

Demand	18,41,413	7	9	
Collections	18,18,362	13	1	
Balance on the 11th July 1842	23,050	10	8	
Since Collected	16,254	8	7	
Balance on 1st October 1842	6,796	2	1	

The collections of Land Revenue in the year under Report, were made with regularity. Of the total demand, amounting to Rupees 18,41,413-7-9 Rupees 18,18,362-13-1 were realized within the Fusly leaving a balance of Rupees 23,050-10-8, which has been since reduced to Rupees 6,796-2-1.

30.

Arrears at the end of Fusly 1250	19,041	15	-
Do Do 1251	23,050	10	8
Increase	4,008	11	8

The balance at the close of the expired Fusly exceeds that of the preceding year by Rupees 4,008-11-8 which is attributable to the very low prices obtainable for grain; and to the deficient manufacture of Salt, both of which causes pressed severely on the means of the agricultural classes.-

The

31. The arrears of Land Revenue outstanding at the beginning of Fusly 1251 amounted to Rupees 22877-14-8. Viz.

	R	a	p
On account of 1250	19041	15	4
D: of former Fuslies	3835	15	8
Total	22877	14	8

of this sum Rupees 18330-14-9 were realized during the past Fusly. Viz.

On account of Fusly 1250	16901	14 10
D: of former Fuslies	1428	15 11
	18330	14 9

32. The following arrears are considered irrecoverable owing to the poverty and distressed condition of the Ryots against whom they are outstanding. I beg, therefore to recommend them for remission.

Fusly	1247	110	5 3
	1248	121	11 8
	1249	79	8 9
	1250	332	9
	Total	643	10 5

33 The subjoined comparative Statement of the Revenue from all sources, exhibits an increase in the fusly under Report of Rupees 4,931-6-9. The decrease observed under the head of Ameendevi, is only nominal, arising from the mode in which the accounts of this branch of Revenue are kept. The actual quantity of Coir (in which the Revenue of the Islands is paid) sold within the year realized Rupees 10,425-14-1, but being the produce of the previous season, the proceeds according to the existing system are not brought to the account of the Fusly under report. Had this amount been taken into comparison, the actual increase in the total Revenue of the year would have appeared at Rupees 15,357-4-10.

Fort St. George 20th October 1842.

34

dated 7th Oct.

I beg to submit herewith copy of the Report of the Acting Sub-Collector on the settlement of the three Balaghaut Talooks under his charge. It gives me much satisfaction to mention the able and zealous manner in which Mr. Lushington continues to conduct the duties of the important division of the Province entrusted to his management. I have also much pleasure in recording my opinion of the assiduity and ability of Mr. Reade the Head Assistant, from whom I have on all occasions received cordial assistance in the discharge of the various duties of my Office.

35.

In conclusion I beg to state that the omission noticed in para 19 of the Proceedings of the Board under date the 23d September 1841, have been supplied in the Statements connected with the settlement under report and care will be taken to avoid any deviation from the established forms of accounts, unless a necessity appears for so doing, when the same shall be specially noticed.

The

SGB

Fort St. George 20th October 1842.

The permission to relieve

36.

the cultivators of Cumeri from assessment on waste lands along the sides of the newly constructed Road to Sirsi, as sanctioned in para 25 of the Board's proceedings abovementioned, has been carried into effect in the present fusly 1252. The report required of the extent of land taken up under this indulgence, will be submitted with the Jummahbundy report on the Current fusly.

Principal Collector's Cutcherry, Mangalore 10th October 1842.

/Signed/ H. M. Blair
Princ. Collr.

P.S. Having only received the Sub-Collector's Report after my own was ready to be dispatched, I have been unable to offer any remarks in the body of my Report on the questions discussed by Mr. Lushington in para 12 at 19 and 23. I think it preferable however, to address the Board separately on the subjects alluded to, should it appear necessary to do so, after having given them a fuller consideration than I am able to do at present.

/Signed/ H. M. Blair
Pr. Collr.

12888 Fort St. George 20th October 1842.

To

The Principal Collector of

Canara

Sir,

Para 1. I have the honor to report upon the Settlement of the Land Revenue of the Balaghaut Talooks of Soopah, Soudah and Bilghi conducted by me during Fuoly 1251.

Season. 2 The Season was on the whole very favorable. The fall of Rain was regular and copious, and proved amply sufficient for the cultivation of the Rice lands in the Maganies on the Eastern Frontier, and was equally favorable to the productiveness of the Gardens. The Rice Crops were very good, as also were those of the various kinds of dry grain, which are cultivated so largely on the Frontier, and it is satisfactory to observe that the cultivation of the sugar cane in these Talooks is annually increasing, and promises to assist materially in improving the resources of the Ryot, especially if they can be induced to take more pains in the

Manufacture

manufacture of Sugar, or Goor, and there appears to me to reason to hope that the prohibition of the importation of Bombay Sugar may tend to bring about this desirable result.

3 The crops of Betelnut and Pepper were very abundant especially the latter and although the produce of the Cardamum bushes was somewhat less than usual, the falling off was not so great as to detract very materially from the generally favorable outturn of the season. The Frontier Maganies of the Soopah and Sonda Talooks suffered in some degree from Cholera which was raging for some Months with great violence in the adjoining Talooks in the Dharwar and Sugger Districts, but the mortality was not very great and the season may be considered to have been generally healthy.

Prices 4. The price of Rice in these Talooks as in all other parts of the District fell materially below the rate which it brought in the preceding year, but as with the exception of the frontier maganies

of

Fort St. George 20th October 1842

Para 13.

the subject was brought to our notice the notice of the Board of Revenue in the Report of the Acting Principal Collector in Fusly 1248. I am not aware on what data the Tariff value was entered therein at 1000 Rupees as in the land custom Tariff its value is 750 Rupees per Candy, the duty on which at 15 per Cent amounts to 112½ Rupees, as mentioned in Mr. Malby's Report, but even this I think too high, for as stated by Mr. Malby the Bazar value never exceeds 650 Rupees, and it can scarcely be expected again to attain that rate as its depreciated value is in a great measure attributable to increased production in the adjoining Nugger country, as well as in this District. During the past Fusly the price received by the Ryots has at no time exceeded 450 Rupees, and as the crop now ripening is unusually abundant the market rate at this moment is only about 300 Rupees.

The

Fort St. George 20th October 1842

Exports.

6. The exports as compared with those of the preceding year are shewn in the annexed Marginal Statement. It will be observed that the enhanced price of Sooparee, commencing with an abundant crop led to the export of a larger quantity of this article than in the preceding year which it exceeded by 1,791 Candies. In Pepper also there was a considerable increase amounting in the 3 Talooks to 654 Candies. The decrease in Cardamoms is only 11 Candies, and this result shews that both the Cultivators of the Gardens and the Merchants must have

have been very beneficially affected by the circumstances of the year. The Hawlutk Duties upon the increased exports exceeded those of the previous year by upwards of 23000 Rupees. This is the first season in which any Betelnut has been exported from Canara in carts and in proof of the advantages which the improvement of the Balaghaut road has conferred upon the trade of the District, I am happy to have it in my power to mention that 102 Bullock Bandies laden with Betelnut for Ahmednuggar quitted Sircee during the year, and as the cost of transport upon Bandies is even now far less than by Bullocks when the use of wheeled vehicles is only commencing and part of the road is still unrepaired, I trust that in a few years when the greater portion of the produce is conveyed across the Frontier on carts the decreased cost of transport will be felt beneficially by the Ryot as well as the trader and tend to secure to the former an enhanced pri-

The chief additions were made in the Frontier Maganies of Moondagoody Hullial Indoor and in the large Magany of Soopak-

9. The Eastern Maganies presented a very striking contrast to their state when I last made the Summabundy of this Talook 3 years since when heavy remissions were necessary and I trust the Ryots have now entirely recovered from the effects of the succession of bad seasons which they had then experienced for some years. There is so much waste land fit for cultivation in these frontier Maganies that as the population increases we may hope for a considerable accession of Revenue. As the assessment on waste lands brought under cultivation exceeds the remissions on account of lands left waste and the fluctuations do not appear to me to be larger than may annually be expected in the present condition of this Talook, where the large extent of unoccupied land tempts many parties to cultivate lots of lands for a few years and then throw them up again with

of taking another spot which from lying fallow for some years may be expected to yield a large return, they do not appear to require further explanation. Judging from the Revenue returns the improvement in this Talook has been steady and progressive, notwithstanding the temporary causes of depression above alluded to, and during the last 15 years the Summa of the Talook has increased from 70,000 to 80,000 Rupees. These remarks however apply only to the grain land maganies, for the garden Maganies are generally either stationery or retrogading, while the Collections of Hullial and Soopah, as shown in the Table in the Margin have steadily increased from about 12,600 Rupees the average of their payment

payment during the first 10 years under the Company's Government to nearly 19 and 20,000 Rupees.

10- My Predecessors who have held charge of the Balaghaut Talooks since Mr. Vreasky's system was introduced, have said so much to prove that there are circumstances affecting the state of these Garden maganies which are quite beyond our control and are unconnected with the amount of the assessment or the heavines of the Howlet Duty, that it is unnecessary to repeat their arguments, but there is one circumstance which I do not remember having seen mentioned before, and which undoubtedly has great influence in causing the improvement or neglect of many of these gardens. It is a striking feature in the examination of the present and past state of some of the Villages in the Garden Maganies in the Loopah Talook, which is not so observable in either Londak or Pilghy, that while Villages which for many years after the commencement of the Company's rule paid very nearly the full Bariz are now neglected and

and only pay a small fraction of what they formerly paid without difficulty, and annual remissions are insufficient to induce the owners to remain, other Villages in the immediate Neighbourhood have continued to pay nearly the full Bariz from the commencement of our rule and on examination of the assessment in each instance shows that the amount in the Villages which have fallen into decay is not more heavy than in those which are still flourishing- My enquiries during the past Summabundy into the state of many of these neglected Villages convinced me that one of the chief causes of their present state lies in the superstitions of the People- and perhaps, there is not to be found in India a class of people whose minds are more powerfully affected by such feelings, as exhibited by their frequent complaints on matters connected with the supposed exercise of supernatural powers- A village at some former period has been attacked by an epidemic, the garden has suffered from blight, or some other misfortune has occurred the Village is ever afterwards regarded as being under the malediction of evil spirits, the

Fort St. George 20th October 1842

the owners of the Gardens think it useless to struggle against destiny, and after neglecting their gardens for a few years quit them altogether, or just escort themselves sufficiently to obtain a bare subsistence. While such causes are in escistence, no Revenue system can successfully contend against them, and there are so many Villages which have fallen into decay while those adjacent are in a prosperous state, in which no other adequate cause for their neglect can be assigned, that I am convinced these superstitious feelings have, in many cases been the main agents in producing the present result, and we can only look to time and an increasing and more enlightened population for any permanent improvement.

Sonda

" In Sonda the net increase amounting to Rupees 1,512-5-5 is the result of additions to the amount of Rupees 1,973-8-3- and of reductions to 461-2-10- arising from the undermentioned causes.-

The fluctuations do not appear to me to call for any particular observations- The chief increase as in the Soopah Talook was made on the Rice cultivation in the Frontier moganies, but there seems no ground to entertain any reasonable expectation that the Revenue of these moganies will approach to the Pymash assessment for many years to come, if even this result should ever be obtained- It is sufficient to observe, that in only two moganies have the reductions been higher than the additions, and as the Land Revenue of this Talook for the two last years has exceeded the collections of any previous years, the result is satisfactory-

The

Bilghy

12- The additions and reductions in the Bilghy Talook affording a net increase of Rupees 662-7-7 are shewn below.

as the chief increase arises from the payment of the instalments fixed by Mr. Vireash in Fusly 1244, which have in most cases been successfully realized this table does not appear to call for further observations-

Emancipation of the slave population-

13. During the course of the Jummabundy of the Sondiah and Bilghy Talooks several ryots represented to me that their Gardens must soon fall into decay, because they have now no power

power to compel the services of their Slaves or slaves, and by the fear of punishment to prevent their taking service with any other Master who will pay them higher wages; and as this is a subject materially affecting the condition of some of the garden proprietors in these Talooks I may be permitted to allude to it here. You will be aware that formerly there existed authority for punishing slaves who absconded from their Masters and compelling their return, and that punishment was occasionally resorted to, although the fear of consequences made the offence unfrequent- On the occasion of the transmission of a run away slave to the Criminal Court at Honore by Mr. E. Maltby in December 1840- a reference was made to the Court of Foujdary Adalut, and the opinion of the Mohamedan Law officer was promulgated that there were no 'true slaves' in the Madras Presidency, those denominated as such not having "been acquired by way of booty in a Musalman war," and that this the escape of

of a slave from his Master was not a
punishable offence

14. This is becoming generally
known and I have received Petitions referring
to it written by parties who have incited
these hereditary servants to quit their Masters
I have mentioned the subject as having come
prominently before me during the recent
Jummabundy, for although the slaves here
are not so numerous as in some other parts
of the District, especially in the Southern c
Talocks, the owners of Gardens who have from
time immemorial possessed this class of
labourers, without whose assistance or that
of Coolies procured for the season at a
considerable expense from below the Ghauts
their Garden will soon be ruined for
the escape of one or two such servants as
a serious loss, and as the neglect of a
Garden for a single year causes a check
to its productiveness, which it does not
fully recover for twice or thrice that period
this deprivation of their accustomed source
of labour is even more serious to them
than to the agriculturist, who can also
adduce proof in the fields which are temporarily uncult-

of

J.G.

of the exact extent of his loss and solicit and
obtain remissions accordingly.

15 It is not of course my
desire to say a word in favor of the retention
of the system of slavery mild and almost
nominal though it be in this District
but I am unable to see why the Cultivation of
land in the provinces of Malabar and
Canara are not entitled to expect compensa-
-tion when the legislature declares that slave
property is no longer in existence or to receive
some preliminary warning of the impending
change as much as British subjects in
other parts of the World where such property
has been less legitimately acquired and as
whether such is eventually allowed or not, it
is a subject of considerable interest to large
classes of Ryots in this District, and
may materially affect their means of paying
the Government Revenue. I beg to submit
these remarks for your consideration.

Question of allowing dry Coconut Gardens to be converted into Rice Lands.

16 Another subject which I beg
to bring to your notice is the desire which
has been expressed by many Ryots to be

permitted

permitted to convert ruined gardens which they have not the means of again planting into Paddy fields and to have a suitable assess-ment such as the Change calls for fixed thereon. For several years the same wish has been expressed and Shortly before Mr. C. Malthy's departure to Europe he had caused a state-ment to be prepared with the view of bringing the matter forward showing the number of Estates in the Londa Talook on which the owners wished a reduction of the assessment on the ground of the conversion of Garden into arable land and I regret that in consequence of his sudden illness and consequent departure to Europe he was unable to place on record any Memorandum of his opinion on this question.-

17 The number of Garden Estates on which an Estimate has been prepared for a reduced Beriz upon the portion proposed to be brought under the plough, framed at the highest rate which the best Rice land can ever be expected to pay in this part of the District Viz. 4 Bs. and

per Goontah amounts to 166. other cases have been excluded such as where the ruined garden forms part of a range and its conversion into Paddy field would prove prejudicial to the still flourishing gardens in the midst of which it is situated. In some cases the Owners have of their own accord and without permission already cut down portions of their gardens and converted them into Paddy fields and the annual Summabundy is fixed with reference to the produce of the year. It is very certain that when this step has been already taken the fixing a suitable Rice land Beriz would place the land-holder in a position in which he would feel confidence that he would never be called upon to pay a larger sum with the view of forcing up the collections towards the Ancient Garden Beriz than his altered circumstances would permit him to do without loss and the conviction would lead him to bestow more care on his land when he thus felt assured of an adequate return for his labor, and I believe that in such cases or where the owner of a Garden has

has ceased to bestow any pains upon it, and merely takes the fruit each year as the trees hasten to decay his Summabundy being made in proportion to the quantity actually gathered. the measure of fixing a grain land Beriz would be productive of increase to the present Revenue and enable such Estates to pay more than they have paid for many years.-

18 The question however is not free from objections and the great evil to be apprehended is that in some cases where from various causes a garden which has heretofore been in a flourishing state may have sustained damage for a few years or the means of the proprietor to bestow care upon his Estate have become lessened, the belief, that if he allows it to fall into decay instead of exerting himself to restore its condition a reduced assessment may perhaps be fixed upon it may often have a prejudicial effect in preventing those exertions which a knowledge that he will still have to pay the higher rate of Beriz will induce him to make. The profits of the Gardens where they are in really good Order even under the

the present rate of duty are so very much greater than those which could be expected to be obtained from ploughing up the same spot of land and sowing grain that there is no fear of those gardens are in a flourishing condition wishing for this measure. but the danger may be expected to come into operation when from any causes a garden is beginning to decay and its progress towards destruction will be proportionally more rapid.-

19 I have received many petitions on the subject but have not felt myself at liberty to take any steps towards proposing a reduction of the Beriz in the case of such Estates, as it involves the introduction of a new system and the principle is quite at variance with the object which has heretofore regulated the reductions of the assessment on Garden Estates, and which have been intended to encourage the proprietors and to lead them to bestow more care on their Gardens and thus to save them from falling into decay. Until therefore I know whether this system would be approved of in the

Fort St. George 20th October 1842

the case of those Estates on which an assess-ment fixed on the principles which regulated the proposed Paymash Beriz on 1st Class Rice land would be higher than the Collections have been for several years and would thus in the individual instance involve no loss of Revenue or whether the general objections to such a system are considered so weighty as to make its introduction undesirable it is unnecessary to enter into further details. but it cannot be denied that there are now many ruined and rapidly decay ing gardens which we can never again expect to see replanted and which would produce no more to the state as well as to the Cultivator were the trees to be felled and the ground cleared for the plough.-

Classifica-tion of Estates.

20 The annexed table exhibits the classification of the Estates in the Balaghaut Talooks in 1250 and the changes which took place during the Summabundy in 1251.-

Fasly

Fort St. George 20th October 1842.

Balance

Add in Fasly 1251

Total

Fort St. George 20th October 1842.

The number of Estates which have been placed in the 5th Class well able to pay the Beriz when fully cultivated amounts to 428. they are merely such as have paid the full Beriz in some year since Mr. Viveash's classification was first introduced and have been transferred to the Kumburty Class when they were no longer Cultivated. The number of waste or partly cultivated Estates in these Taloks which might be placed in the 5th Class as able to pay the full assessment whenever these are completely brought under cultivation and permanently occupied is very large but from the instructions received from your Cutcherry it appeared to me that I was only called upon to have such placed in the new Column, as had been transferred at some period since July 1242 from the Burtey to the 4th or Junky Class.-

Estates added to the Board's Jaigarish List

21 In the Appendix A. I forward a List of the Estates upon which during the Summabundy it appeared to me advisable to propose a

Fort St. George 20th October 1842.

a modified Beriz. They amount to 54, of which 19 are in Soopah 35 in Tondah and 2 in Bilghi. upon a few of these the modification had been framed by Mr. E. Maltby but they were not entered in the accounts until the Summabundy was made.-

22 The result of the proposed arrangement is shown in the margin. It will be observed that the Jarrow which is recommended is in the aggregate considerably above the average collections, and in no instance does it fall below it. In Soopah where the Estates included in this List consists generally of Rice land the

Remarks				

the increase above the average is very c^s
large - In Sonda where the Estates on which
the Tarrow is proposed are chiefly Garden
the proportionate increase is much less
but I am convinced it has been raised
as high as it can be without proving a
check upon industry and impeding im=
=provement, and it is to be feared that
the prices of Garden produce will never
again range so high as during the 17 c^s
years which were taken for Mr. Harris's
average - In some instances I have
adopted Mr. Cottons Paymash assess=
=ment and I trust that the arrangements
in these Estates will if sanctioned prove
beneficial to the Ryot while they at the
same time increase the Revenue which
in Ordinary Seasons ought to be realized
without difficulty - In all cases I en=
=deavoured to keep in view the princiles
which have heretofore regulated such re=
=ductions and by recommending that c^s
the assessment should be lowered where
it was manifestly too high have attempted to

to encourage the temporary tenant and c^s
Estate to become a permanent occupant
and to exert himself to improve his land
or to save a garden from falling into c^s
decay - A few cases may in each year be
expected to come before the officer making
the settlement in which a modification
of the Beriz may appear desirable. but
beyond this and the decision of the c^s
question to which I have referred in paras
16 to 19 nothing further can be done in
these talooks under their present circum=
=stances -

23. After the allusions which
I have made above to the circumstances
of those Estates which we cannot c^s
again expect to see replanted although
on this occasion detailed accounts are
unnecessary it may be desirable to
show that even were they ever c^s
again to become flourishing gardens
their present assessment is far too
high and can never be realized in
proof of which I annex c^s

in

Fort St. George 20th October 1842

Memorandum of Garden Estates in the Cadam Talook in which fractions of the whole of the Beriz are now bearing or destroyed the owners of which have it not in their power again to replant them and therefore wish to convert them into Paddy Land.

Estates	Cadam Taloo:	Average Summa
	Mr. Cotton's proposed Beriz	Sunday = 17 yards
	Beriz Difference	Collie = 1250
	Collection = Loss	Loom = 1250
	Rs. 4 as 0 Ps. 0 as 0	Rs. 4 as 0 Ps. 0 as 0
166	3131 8 9	2901 8 981 4 1 1967 2 4 1148 4 7

in the margin is a table showing the Cadam Beriz upon these 166 Estates the Paymash assess=ment proposed by Mr. Cotton the average Collections and the Summabundy of the last year. I do not enter the estimate of the Beriz framed at the rate of 4 annas per Goontah upon the spots which are convertible into Paddy land as it would certainly require considerable modification and might thus give rise to erroneous infer=ences at present it is sufficient to show that the Beriz on these Estates is far more than they can bear under any circumstances and to point out that it is impossible to make any arrangements for fixing a suitable Beriz upon them and thus ensuring their

J. G. B.

Fort St. George 20th October 1842

their improvement, until it is decided whether the principle of in any Cases Reducing the higher rate fixed on Garden Cultivation to such as may accord with the lower profits derived from agriculture may be introduced. The appendix B exhibits in detail the state of the Beriz in these Talooks, the Amount paid by the Bhurty and by the several Classes of Kumburty Estates, the portion of the Beriz which has been recommended for remission, and the sum which has to be hereafter brought up by the enforcement of the engagements entered into with the Ryots for raising their Summabundy by stipulated instalments.

Total	1,559	10	4	3050	4	8	1,490	10	4

the account the small Farms which have been formerly Clased with it— you will observe that while there is only a small increase in each of the Talooks of Soondah and Bilghy the increase in Soopah exceeds 1,200 Rupees. In explanation of this I beg to state that the Collections have been made as nearly as possible in accordance with the revised Lists prepared in Fusly 1248, your instructions for the Collections of the Moturpha Tax according to those Lists having reached me at a time when any enquiries into

into individual Cases or any considerable alteration would have been productive of confusion in the accounts and have led to great delay in realizing the tax, nor under the circumstances of the case, did I feel myself at liberty to make any extensive alterations but it is very manifest that the Lists received from each of these Talooks Could not have been prepared upon one system, and as a measure of Justice / the Chief object of the Revision having been the equalization of the tax / it appears to me that it will be desirable hereafter either to increase the Amount of the tax considerably in Londa and Bilghy, or to reduce it in Soopah—

26. In the Londa Talook the proposed additions according to the revised list Amounted to 184 Rupees. In Soopah to 1363—13—1 the Amount which each had previously paid being less than 700 Rupees. The Population of these 2 Talooks is nearly equal, but as Londa possesses the large and thriving town

of

of Sercy while Yellapoor and Hullial are petty Villages, and also contains a more busily occupied population, there does not exist any good reason why Sonda should contribute so much less than Soopah—

27 In illustration of the irregularity both in the rate fixed and in its being levied on certain occupations in Soopah which are exempted in Sonda, I cite a few instances in the Margin and should you agree with me in thinking that the instances cited prove that there ought to be a fresh revision of the Moturpha tase in the

1923

Fort St. George 20th October 1842.

Irrecoverable Arrears.

29. In the Talooks of Soopah and Sonda there is an outstanding Balance from former fusslies of Rupees 149—8—10 which I beg to recommend for remission as the Collection of these sums is either impracticable or would be productive of great distress. The Balances of 1247 and 1248 in Sonda Amounting to 116—12—10 are arrears against a large garden Estate assessed at Rupees 441—10—10. The Chief portion of it is in the possession of several purchasers who appear to pay their full share. The Wurgadar allowed the portion which he had retained to fall into decay, and this is the cause of the arrear. For 2 years endeavours have been made for its Collection, but the Wurgadar is now dead, and as this portion of the Estate would not sell, nothing remains but to recommend that the arrear should be written off.

Revenue from all Sources.

30. On a Comparison of the Revenue from all Sources in these Talooks for the 2 last Fusslies, as exhibited in the annexed Statement, it appears that there is an increase in Fusly 1251 of Rupees 23252—3—6.

Fort St. George 20th October 1842.

Sir

I beg to express my regret that the Report has not been submitted at a more early period after the close of the Fasly as it would have been, had not some unusual and very pressing business prevented my carrying my intention into effect.

Sub Coll'rs Cutcherry
Sircee Canara - -
7th October 1842 - -

(Sign'd) J. D. Cushington
Sy. Sub Collector.

Order thereon.- Ordered to be sent again in Circulation.-

38. 39

Read the following letters.

To The Secretary to the
Board of Revenue
Fort St. George.

40.

From Coll'r of Malabar

Transmitting for the Sanction of explanation & a report from the late acting Sub Conservator Mr. Smith on the subject of the unsatisfactory management of the Teak Forests.-

Sir,

With reference to your letter of the 25th August last, I have the honor to forward Copy of a Statement received from Mr. Smith late acting Sub Conservator.-

2 The only points on which it seemed necessary that Mr. Smith should treat, were those which related to the failure of the Saplings & seeds sown by him during the last

Fort St. George 20th October 1842.

last Monsoon. He has entered, however into a diffuse report containing much irrelevant matter. I do not think it necessary to follow him through all his remarks, but have made such hand Notes in the Margin of his Report, as seem desirable to throw some light on what he intends to explain.

3 As remarked in one of those hand Notes the reason assigned by Mr. Smith for the failure of the saplings and seeds, the only point I may again remark of any importance, is incredibly absurd. He supposes that they were destroyed by the Tahsildar and other influential Natives, in order to throw discredit on him. Supposing this wild idea to have any foundation, is it to be supposed that the parties would have had the forethought, and taken the trouble to root up some thousand saplings and replace them with suckers taken from stumps of old teak Trees. Yet this it is now found on Examination, are the saplings reported by Mr. Smith to have been planted and which (unless where taken out by my late orders to be replaced with real infant plants) are still actually standing. The fact appears

Mr. Smith had always an extraordinary idea of his own importance and gave me no little trouble by quarrelling with the native authorities of the District.

Fort St. George 20th October 1842.

appears to be, that in order to save the trouble of going, to a distance for young plants, these suckers which were to be found without difficulty in the vicinity, were substituted. An equal want of care is observable with regard to the teak seeds. The land was not properly prepared in the first place and was left to be over grown with thick jungle grass &c. which prevented the seeds from coming up.

4 The Board desire me to state whether Mr. Smith has from time to time submitted reports of his proceedings, and what steps have been taken by me with reference to these communications. Previous to the approach of the sowing season, April & May, I issued repeated orders to Mr. Smith to have every thing in readiness and particularly desired him to be careful in obtaining a supply of good seed. On the 23d May he reported he had up to that date sown 30,000 Seeds. On the 3d June I ordered him to send in a report of his proceedings every 10 days. Report accordingly arrived dated the 8th & 20th June, conveying intimation of his having sown 14,000 seeds independent of the 30,000 above alluded to and planted 10922 Saplings. On the 20th June, Mr. Smith started

desired to lay down the boundaries of Nellacoottah the Forest taken from the Zamoorein as reported in my letter of the 15th. July last, as well as of other tracts in the same direction. I was necessitated to send him at this time, as it was the only healthy season of the year in the Forests and the work to be performed would require him to sleep some nights in them. On his return (about the 30th. June) Mr. Smith reported himself unwell. On the 11th. July he informed me that he was so very ill, that it was absolutely necessary he should go to Ootacamund, where he had relations, for 15 days. I allowed him to go with an earnest injunction to arrange for matters being properly carried on in his absence, but not feeling satisfied with the report I received from his Gomastah a few days after he had left, I as stated in my first letter despatched two persons to make a close and detailed examination of what was really going on, and on their return took the steps reported in that letter.

5 This long detail will I hope convince the Board that no blame rests on me in this unforward affair. I had

every reason to believe that Mr. Smith was acquainted with the duty which he had undertaken and saw no cause till lately to distrust the favorable accounts he made me. All that a distant Superintendence could do, was done.

6 Since Mr. Smith's removal the Tahsildar with other Talook Servants have had the sole charge of the planting Establishment. The season was too far advanced to obtain and sow seeds but 6759 Saplings have been brought from a distance and placed in favorable localities. Nothing now can be done but to watch over them and preserve as many as possible during the ensuing dry weather.

7 It is for the Board to determine whether the plan I have proposed for the future carrying on of the conservancy should be carried out by appointing Natives, as in Canara, or whether another attempt shall be made to obtain a qualified European. I shall be most thankful to obtain the services of any one in whom reliance can be placed, and should the Board be aware of any individual

individual who they think will answer for the post, I will feel obliged by their sending him.-

Malabar, Coll.rs Office,
Calicut, 1st October 1842.

(Signed) H.V. Conolly
Collector

No. 1

To
H.V. Conolly Esqr.
Collector of Malabar,

Sir,

In obedience to the order of the Board of Revenue dated the 26th ult.o August last, I have the honor to state for their information, that on my arrival in Malabar to assume the duty of Acting Sub Conservator, I found the Government forest in a desolate state in consequence of the inroad made by the Smugglers of timber who had scarcely left a seasoned Teak tree to grow in the forest. I dedicated all my energy to find out the soils peculiarly adapted for the growth of Teak plants, and did all I could to ensure their preservation. The Forests from not having been worked from time immemorial by the Proprietors, who had allowed the trees to grow wild without bestowing the least care for their preservation, prevented me

me obstacles such as would have been deemed insurmountable by the indolent natives or an individual less energitical than myself.- I am constrained to do this justice to myself in consequence of having met with none from my Calumniators, who have thought fit to malign me to you, taking advantage of the zeal you always evince for the public weal.-

Exposed to the attacks of Elephants, Tigers, and myriads of deadly adders, and consumming under the influence of the jungle fever which was much aggravated by the fatigue of incessant locomotion, I thought it expedient to ascertain the different localities of the forests, and the description of trees growing thereon and for that purpose, proceeded in 1841 to Nellemboor (a place famous for its pestilential atmosphere) where the talook people in Conjunction with the Adegarry and the servants of the Nellemboor Tirrupaad, pointed out to me the forests purchased by Govern=ment.-

On referring to the Accounts

Fort St. George 20th October 1842

accounts I obtained from your office, I found that I was grossly deceived with regard to the boundaries. A tract of land densely shaded with promising Teak trees, and which in fact, is the most valuable part of the forest, was not as much as hinted at by the native Officers and when I since came to learn that it was a part of Government forest, and took measures to ensure the safety of the saplings, the Calook Officers as well as the Tirrupaad's people, laboured to persuade me to the contrary.- This circumstance was brought to your notice as early as the 29th June 1841 and on the 30th June 1842, I informed you by letter, that I conceived the soil of Arvacode Munna and Ramalur well adapted for the growth of Teak trees, and that if the aforesaid grounds were given up to the Tirrupaad it would be a great loss to Government.

My letter of the 15th June 1842 was replete with complaints of the annoyance I met with from the Tirrupaad, who left no means untried to prevent Cadies from engaging in my Service, and tamper with the fidelity of public Officers employed under

Fort St. George 20th October 1842

me.- In obedience to your order of the 29th June 1841, requiring me to repair to Nellicottia to ascertain the exact boundaries and the probable number of trees in that forest, I hastened to that place on the 8th September, and on the 25th reported the absurdity of the Tirrupaad's claim to a part of the forest enclosed within the boundaries pointed out to me by the Malears of Nellicottia forest.-

The forest taken from the Zamorin as reported in my letter of the 15th July last.-

In comparing the English accounts with which I was furnished, with the Malabar, I found such difference as could not be attributed to over sight or mistake. In the English the number of the teak trees each forest contains was not only accurately marked but their length, breadth and circumference given. The circumference of each was stated to be from 12 to 24 Barrels, while the Malabar account specified no such thing.- On my surveying the forests, I found only trees measuring from 7 to 8 Barrels in circumference, but I met with none of the description mentioned in the English account.- Finding that you were deceived by the native officers many of

Fort St. George 20th October 1842

of whom deal clandestinely in timber, and that Government had spent money viz. unprofitable purchase. I thought it my duty to mention this circumstance to you whilst you were at Bandoor on circuit in November last, when your Head Moonshee Cunjoo Menon, of whom I shall have occasion to speak hereafter was ordered to rectify the mistake.

At this time the smugglers probably aided by public officers, were carrying away teak timber from the Government forests, of this I was informed by the natives of Eddawava, consequently, wrote to you on the 9th June 1841 for instructions how to act, when you desired me in your communication dated 11th June 1841 to prosecute the plan I had suggested as soon as possible and to take care that no trees are taken away that are clearly within the limits. You further informed me in the aforesaid communication, that you had written to the Shasildar to call the Malgaary to account for his conduct and to direct him to give me aid. The public officers, I mean the natives, were not at all satisfied with

No money was expended in the purchase of this forest vide letter quoted last page.

I must here mention Mr. Smith's name with respect to you.

Fort St. George 20th October 1842

with my proceedings as it aimed to their perquisites and hourly exposed to detection the clandestine trade they were then and are still carrying on.

The natives have always betrayed strong dissatisfaction at my appointment, particularly those engaged in Government service; and ever since the trial of the Moonsiffs of Ernaad, who largely dealt in teak timber, my downfall was planned and effected. My letter under date the 14th December 1841 in answer to an order from you dated the 9th requiring me to answer for the satisfaction of the judge of the Zillah Malabar, whether, I believed the Ernaad Moonsiffs to be engaged in the timber trade, and to what extent, was ill calculated to attach them to me; for on that eventful occasion, your second Shellesadar Coonjoo Menon, both by intreaties and promises desired me not to mention any thing about Chedembrian's timber trade, to which I answered that I could not oblige him on that point, as I was called upon by the Court to state what I knew about

I can hardly credit that Mr. Conjoo Menon after professing indeed was ignorant all over the Country that Mr. Thomas did trade in timber.

Fort St George 20th October 1842

about the matter. The Capital employed by Chedembrian in timber trade was, as I have already reported to you 29,350 Rupees. I was not a little surprised at the singular conduct of your second Shelesa-dar, Cunjoo Menon, and could not then account for his taking such deep interest in the fate of an Individual who had rendered himself obnoxious to Government, but the subsequent private report, I had heard from different quarters about him, as well as the Thasildar, against whose conduct I often wrote to you, not only excited my suspicion, but compelled me to redouble my exertions in order to put a stop to such illicit trade.-

It was very doubtful if this spot had not been cleared before the ground was sold to the Government hence steps were taken to prevent a recurrence of such proceedings.-

Previous to my commencing business in the Government forest at Nellemboor, I pointed out to you a spot which was laid waste by one Comma Cala Nair Menon, who had cut down a great number of teak trees in order to raise a Crop of Paddy.-

The Thasildar was ordered by you to ascertain the fact, but his report proving contradictory, I found it necessary

Fort St George 20th October 1842

to point out to the Adegary and other native Officers the trees that were cut down bearing evident marks of recent mutilation. It cannot be supposed that the Thasildar was ignorant of it, or that Comma Cala Nair Menon had trespassed without his connivance, For what else could have disposed him to misstate the fact.-

I always made it a point of my duty to direct all operations in the forest in person, and the frequency of my visit to the Jungles in the absence of all comfort, in the worst season of the year, shattered my constitution and subjected me to violent attacks of the Jungle fever, from the effects of which I am not yet perfectly relieved.- This fact is so well known that my appeal to those who served under me as well as to the inhabitants of the Taluks of Ernaad, will be responded to the utter confusion of those who would feign prejudice me in your opinion. I often met with, as I have already stated, opposi-tions from the Tirrupaad who more than once bribed my Coolies and prevented others from engaging in my service.- These poor

tried

timid Mountaineers, dreading the displeasure of one whom they were accustomed to fear and respect, almost from their infancy did not chose to give him the least umbrage - I was at one time constrained to send for Coolies from Angady Poram, a place nearly 30 Miles from Nellemboor, and the kind treatment they had met with, encouraged others to flock to me.

In the Month of June 1842, I was a second time ordered to inspect Nellicutta forest and to fix the boundaries, but nothing was done in consequence of the absence of the Pashcar and the Rajahs Canisten, who were ordered to go with me - The Tha-sildar on this occasion, as well as in many other, pleaded for the Terrupaad and suggested the propriety of surrendering Arva Code Munnu to him. On the 31st June last I returned to Nellemboor in consequence of a severe attack of fever and wrote to you for 15 days leave of absence to avail myself of Medical aid on the Hills, and on receiving your answer dated 14th July I gave over my establishment in charge to the Acting Gomastah and started on the 17th leaving

I garden in the immediate vicinity of the Nellamboor Terrupaad's Palace. It is a question whether it may not be given to the Terrupaad in exchange for my equally favorable spot -

leaving that part of the forest which had been worked in a promising condition, in the hopes of soon returning to my duty, and realizing the prospect of a flourishing forest of Teak plants from the 44,000 Seeds I had sown in different localities.-

I could not immediately after the expiration of my leave return to my duty in consequence of not having perfectly recovered my health, which was much affected by the enlargement of the Spleen, brought on by repeated attacks of fever as will appear by the Certificate of the Medical Gentleman who attended me. On this trying occasion I was not a little disconcerted at receiving your letter of the 5th Ultimo, divesting me of my employ and charging me with having neglected my duty and occasioned the loss of the Teak Seeds and the destruction of a large portion of Saplings. The number of Seeds sown by me is stated in your letter of the 16th August to be 30,000 while my reports of the 23d May and 8th June 1842 Specify 44,000 Seeds sown in Ramaloor, Eddacotai, and Arimbra cutu Mala. You will likewise find by my reports dated 15th June and 20th June last that 13622 Saplings were transplanted

Fort St. George 20th October 1842.

transplanted in different parts of the forest. I also informed you on the 9th June that I was busy in stocking other parts of the Gardens with saplings - The aggregate number of saplings planted is 17,358 and not 10,900 as given in your letter. This remarkable inaccuracy in the aforesaid letter places the conduct of the Native Officer who had read over my report to you in a dubious light, and I fear he had done it merely to lower me in the opinion you might have had of my exertions - I really regret that I was not on the spot when your people came to inspect the forest by your order - My absence gave my enemies sufficient time to execute their nefarious design, which I foresaw and was at a loss how to avert.

In my letter under date the 4th May you were duly apprized of the discouragement I met with in consequence of the Thasildar employing his son-in-law to act for me during my absence from the forest - His man not only wanted to defraud the Coolies

I sent down to the office to know the number of seeds and saplings reported to have been placed in the earth before the end of May - The Memo was taken to Mr. Platel who gave me the number of seeds stated in my letter of the 4th August as having been put down by the end of May - The seeds and saplings planted since that time have proved equally unsatisfactory.

On leave for 20 days.

JG

Fort St. George 20th October 1842

of their wages, but ill used them in such a manner, that they resolved one and all not to engage themselves in Government business The Tahsildar, who I fear is pretty well connected with the illicit timber trade carried on by the native functionaries, and staunch supporter of the Tirrupaads' Claims, strained every nerve to put obstacles in my way, and being vested with Magisterial power might, in conjunction with others have caused the destruction of the saplings &c. in order to procure my removal from their sphere of action - It is a common topic of conversation in Malabar, that several native Officers carry on trade under feigned names - The trial of Chedeambrian the Moonsiff of Ernaad, who was in consequence removed from that Talook, leave it beyond a dispute that some credit is to be attached to this report -

When my Deffadar kittenpen informed me that your second Shelistadar Cannjoo Menon, as well as Ramen Menon the Head Moonshee were dealing in timber, I made particular enquiries in order to bring their conduct to public animadversion

Almost groundless idea - The Tahsildar is a very respectable man - It is true Mr. Smyth quarrelled with him but so he did with a former Tahsildar -

How far this suspicion is correct I am unable to say, but it is merely a suspicion - It is generally believed that there are few Cutcherry in public employ who are not concerned more or less in the illicit trade of timber - Since my last exertions to put a check to such practices advancements is in my power -

Fort St. George 20th October 1842

animadversion — all I could collect from the inhabitants of the district was, that Coonjoo Menon was carrying on trade in the name of one Peroo, the present Attrack farmer - I was led to believe the report — from having seen several Elephants belonging to Coonjoo Menon in the forests, but — whether they were employed on his own business or rented by others, I was unable to ascertain - The situation he holds under the Collectorate, as well as his great influence over other subordinates, place his forest transaction beyond the probability of detection, and while matters stand thus, it cannot be supposed that the Peon and Havildar deputed by you to inspect the work in my absence, and who are, in fact, objects of fear to those under authority, would wish to risk the loss of their situation by a strict adherence to truth; further - the Thassildar against whom I have often meffectually reported, in conjunction with the Sirrupaad; might, with a view of bringing me into disgrace, have caused the destruction of the Saplings; they had sufficient time to cause the mischief as well as means to

The Jemadar and Peloyt were sent off by me at a short warning hardly any one was aware of their having left Calicut for they went entirely on my own sudden thought and they certainly arrived very unexpectedly as will be observed by a reference to my letter to Mr. Smith which forms an enclosure to this letter —

Fort St. George 20th October 1842

to effect it —

The non vegetation of these seeds is accounted for by the very careless way in which they were put in the ground —

With regard to the loss of the teak seeds I have only to say that — 44000 were sown in different parts of the forest, about 15000 of which were the abortive produce of the season, and to all appearance old and warm eaten, I had very little hopes of their coming up, however a few germinated before my leaving the forests - Out of the 17358 transplanted saplings nine hundred only perished in consequence of the aridity of the soil and the rigour of the season preventing their taking root - I have very reason to attribute the total destruction of the saplings (as mentioned in your letter of the 16th August in so short a space of time as that of 10 days to the malice of my enemies, and the negligence of the people who had conducted the work in my absence - even supposing — that they had perished for want of moisture in the soil (which is only irrigated by periodical rain and that extreme heat of the weather) or by the depredation of Cattle and other physical causes - Am I to be held accountable for such

The greater portion of these saplings were mere suckers taken from old Teak stumps as might have been expected they are now all dead —

Had

Fort St. George 20th October 1842

Had

Fort St. George 20th October 1842.

Had I possessed supernatural power so as to command the four Elements; control the season of the year, and render nature subservient to my views, I was then justly to be blamed for not employing such extraordinary faculty in the service of Government - It indeed grieves me to recall to mind the hardship and privation I have suffered in the discharge of my duties, and the way in which I was dismissed without being called upon to offer any explanation, or allowed the privilege of personally giving over charge of the Establishment - I am conscious that I had done my duty without flinching and am therefore confident that the Peons and Coolies who had served under me, if called upon will bear witness to the fact -

You are perfectly right in observing that my influence with my servants "was very little and that they were "not apprehensive in acting in the way they did though expecting my return in 15 days" I am compelled to admit this glaring truth and to state, that I had lost that influence

you

I enclose the whole of the letter extract from which is here quoted as it may throw some light on the case -

Fort St. George 20 October 1842

Mr. Smith came into my office in a state of great excitement one day and declared his Gomastah a youth of some 22 years and 2 of his Peons had attempted to kill him - why he knew not. The Gomastah and Peons declared Mr. Smith had got into a passion with them for some trivial cause and had threatened them with violence the latter story appeared the more probable but as I deemed it necessary to support Mr. Smith I changed all 3 servants and gave him others with whom I hoped he would be better pleased. Mr. Smith was generally allowed to select his own servants with of course some check on my part -

you hint at from the day in which the spirit of insubordination, which broke up into open mutiny had been allowed to prevail in my Establishment - My report against the mutineers, who attempted my life in December last, met with little credit, and from that time my servants encouraged by the example set by the Shasildar, looked upon me as an insignificant European, who was neither vested with power, nor possessed the confidence of his immediate superior - In my letter of the 5th March and 10th May last, I suggested the propriety of removing 3 Peons whom I considered as unfit for forest business, and also recommended the discharge of Unnee Moyen, but nothing was done towards supplying the Establishment with efficient Men - The Shasildar's influence prevailed on this, as it did on all other occasions, and I was under the necessity of substituting my own exertions in the place of that I expected from my subordinates. You must not consider Sir that I am wanting in my respect to you when I speak so unreservedly of your Native Officers, who, I have reason to believe, are my avowed enemies, I will always attribute

the

the loss of your confidence to my misfortune without suffering even a murmur to escape my lips; I had not the remotest idea of appealing to the Board of Revenue, but as that august body probably moved by the dictates of justice and moderation which so eminently characterize all their proceedings, have thought fit to call upon me for an explanation of my conduct, I conceive it my bounden duty to yield obedience and claim their patronage and protection.—

Against you Sir, I have nothing to complain; you have always treated me with kindness; and my present troubles will not obliterate from my mind that gratitude and respect I owe you, and with which I subscribe myself.—

No. 2

To
Mr. H Smith
Cotacamund.

Sir,

In reply to your letter of the 11th Instant, I have to inform you.

that the persons I deputed to examine the work that had been and was going on, were my Jemadar of peons and a Dilay at both from accustomed to Jungle work. They remained absent some days, during which they inspected immediately, every thing that had been done according to your reports. They found that of 30000 seeds mentioned by you to have been sown prior to the end of May last not one had come up, and that of 10900 transplanted saplings, more than half were already dead.—

Their report of what had taken place since your departure, was equally unsatisfactory - But six Coolies were at work, and the directing peon on being asked the reason of no more being entertained, pleaded a want of money - The acting Gomastah (now dismissed) had never been near the work - This lamentable state of inaction at the busiest time of the year, shews, either that my orders to you to make due arrangement for the conduct of your duties during your absence were not attended to, or that your influence with your servants

Fort St. George 20th October 1842

Servants was so little that they had no apprehension in acting in the way they did, tho' expecting your return in 15 days whichever be the case, I thought and still think that the interests of Government could be best secured by a total change of System.—

I am not of opinion that it is necessary for you to return to deliver over charge of a few working tools. The balance of Government Cash in your hands is I believe under 30 Rupees, which can be paid into the Nulgherry treasury I have desired your property at Tirnwali to be taken care of till you send directions regarding it.—

From the Collr of Malabar — } Sir,

Since writing my letter of the 1st instant I have heard of a European named Graham, who has been so very

Fort St. George 20th October 1842

highly recommended to me, that I think it may be well to make trial of him as an acting Sub Conservator. I enclose an Extract from a private communication which I have received on this subject from Captain Miller, Deputy Commissary of Ordnance at Cannanore, under whom the man served for some time. I would propose to allow him 65 Rupees per mensem in the first place, in lieu of the 50 recommended in my letter of the 4th August for a Native Head man (a European requires a pony to make him efficient) a sum which might in time be increased at the pleasure of the Board, should he prove himself worthy of the indulgence. The Native overseers alluded to in my letter just referred to (3 or 4 on an aggregate of 35 Rupees) would still be necessary but this would leave a balance of 50 Rupees a month unexpended from the salary (150 rupees) at present allowed on account of a Sub Conservator. This recommendation may appear inconsistent with that contained in my letter of the 4th August last, I can only say, that when writing that letter I despaired of getting a European in whom I could place any such

Fort St. George 20th October 1842

such confidence as it appears from Captain Miller's report, may be placed in Sergeant Graham - In that despair I preferred the entertainment of a Native who would obey orders, know his position, and avoid drinking; three points in which Europeans of the lower grade are very deficient.-

No. 1

Extract from a letter from Captain H. Miller to H. V. Conolly Esqre dated 4th October 1842.-

I hasten to reply to yours of yesterday, enquiring about the Character of my old Store Sergeant at Palghaut. He is a man in whom I take a great and sincere interest, solely because I know his sterling worth, and it will give me very great pleasure indeed to learn that he is fortunate enough to get a good situation under you.-

He is one of the very best men I ever had under my command; steady, active, Zealous, intelligent, and respectful. I enclose an Extract from

Fort St. George 20th October 1842

from my last Official report on him and the other Sergeant to shew you that I am saying nothing new of him which I have not always done - I do not know positively whether or not he is any thing of a Gardener, but I rather suspect he must be for I am nearly sure he has told me, that he was with his Father (who was one) when a boy & I know he has always professed to be fond of the business. I have not a doubt but you will find him an excellent Sub Conservator if you give him the birth, as I hope you will.

Ordered that the follow-
ing letter be sent in reply-

(40 - 42)

To The Collector of
Malabar

To the Collector of Malabar

Sir,

Para 1 I am directed to acknowledge the receipt of your letters dated respectively the 1st and 7th Instant and in advertence to the former to state that the Board of Revenue do not consider that the accompanying report furnished by Mr. Smith the Acting Sub Conservator as regards the management of the Teak Forests placed under his care to be by any means satisfactory and they accordingly approve and confirm his removal from that situation.

2- In reply to your letter of the 7th Instant above alluded to I am directed to inform you that the Board of Revenue are pleased to accede to your recommendation in favour of the European named Graham therein mentioned and to authorize the appointment of that person as Acting Sub Conservator of Forests in your District on a Salary of Rupees (65) Sixty five per Mensem.

3- The Board further instruct me

Fort St. George 20th October 1842

me to convey to you their sanction for the entertainment of four Native Overseers to assist in the Sub Conservators Department on the aggregate Monthly salary of Rupees Thirty five (35) as requested in your letter of the 4th of august last.

or documents among the Records of your office or that of the Deputy Surveyor General which may be of service to the officer conducting the new Survey.-

2 It is believed that Registers of Triangles of the survey executed in the years from 1807 to 1818 are still in existence also Books of Journals relating to the same work about the same period and bearings and angles subsiquently taken by Captain Ward. These as well as any documents of a similar character, it appears to the Board, may prove of great advantage in regulating the proceedings of the Surveyors to be employed, if not in diminishing labor at the commencement of the work for where Triangles have already been worked down with scientific exactness, the operation a second time may be

be safely avoided leaving only the reduction of them to a smaller scale if necessary to be now performed.
