Diary

The following Minutes having been passed by the several Members of the Board they are accordingly recorded.

(1)

Minute of Mr Drury. Chellapah Mudeliar was reinstated by the Board in his Office as Sub Sheristadar on their acquitting him of the particular charges preferred against him by Mr Onslow who has now recommended him as a proper person to hold the highest Office a Native Revenue Servant can hold in the District.

In his report on the settlement of the District for Fasly 1250 Mr Onslow stated that he considered him Chellapah Modeliar to be exceedingly corrupt and faithless and utterly undeserving of confidence and that he had not employed him since January 1840 being utterly averse to the admission of so disreputable a person into his Cutcherry in a capacity in which good example

dated 10th Sept. 1842 Para 66

DESTROYED

DESTROYED

in

it so necessary.

Mr. Onslow now states in his letter of the 6th October that his sentiments have undergone not the slightest change as regards the guilt of Chellapah Moodelliar and further that he has no personal interests in the nomination of this man to the Office of Head Sheristadar, except such as are inseparable from a desire that the Public Servants himself should be men from whom he can expect with a tolerable degree of confidence, efficient assistance. These conflicting opinions appear to me to be a bar to the appointment of Chellapah Moodeliar as Head Sheristadar in the District of Trichinopoly, as proposed to be recommended to Government for Sanction and while such sentiments are recorded in the Office of the Board and of the Collector it will in my opinion be more for the interests of the District and of the Govern-

ment to [illegible] Moodeliar in his present Office in which it would seem he gives Mr. Onslow satisfaction.

/Signed/ G. D. Drury

10th November 1842.

2

Minute of Messrs. Dent & Maclean. Mr. Drury objects to the recommendation of Chellapah Moodelly for the Office of Head Sheristadar at Trichinopoly on the ground of the very unfavorable opinion of his character recorded by Mr. Onslow and is of opinion whilst such sentiments stand on record in the Office of the Board and the Collector, that it will be more for the interests of the District and of the Government to continue Chellapah Moodely in his present Office in which it would seem he gives Mr. Onslow satisfaction.-

If the public character of Chellapah Moodely rested only upon the opinion of Mr. Onslow I would have been no party to any recommendation for his promotion but when the testimony of Mr. Dickenson, Mr. Cameron, Mr. Nelson and Mr. Blair

DESTROYED

in

in his favor is also on record, the last of whose statements that his "character for honesty and integrity has never been impeached" I think that the unfavorable opinion of Mr Onslow proved after a few Months experience and qualified as it must be considered to be by his subsequent recommendation of him should not be allowed to outweigh the favorable testimony of four of Mr Onslow's Predecessors, nor to nullify the good and faithful service of a long series of years, the more especially as Mr Onslow himself now comes forward to advocate his promotion. On these grounds I concur in the Draft proposing, with the sanction of Government that Chellapah Moodely should be appointed Head Sheristadar of Trichinopoly.

7th November 1842.

/ Signed / J. Dent

I fully concur in opinions with Mr Dent and Sir H. Montgomery that it would be inconsistent in the Board to refuse a compli-

request regarding Chellapah Moodeliars accession to the Head Sheristadarship and the more so as the Government will, by the intended reference, in that quarter have an opportunity of approving or otherwise, as they see fit, of the Boards Proceedings.

/ Signed / A. Maclean

10th November 1842.

Minute of Sir H.C. Montgomery Bart.

(3)

After having acquitted Chellapah Moodely of the charges brought against him, it would, I think, not be consistent in the Board now to refuse the entertainment of his claims for promotion on account of these very charges. Had it not been for these charges. The high testimonials he bears from other Gentlemen under whom he had served would at once have pointed him out as the fittest man for the vacant Office, as Mr Onslow now states him to be from his experience and talent. But after

ORIGINAL DESTROYED

after the remarks of Government on the Board's Proceedings it is but respectful to Government that the case should not be decided without reference to them. The proposed draft explains the difficulty in which the Board are placed and solicits the sanction of its adoption.

(Signed) H. C. Montgomery

Sent the following address in consequence.

(1-4)

To The Chief Secretary to Government

Sir,

To the Chief Secy to Government

Para. 1. I am directed by the Board of Revenue to request you will lay before the Most Honorable the Governor in Council the accompanying letter as per margin from the Collector of Trichinopoly recommending the appointment of his Deputy Sheristadar Chellapah Moodelly to the Vacant Office of Head Sheristadar in that District stating that the Board could have had no hesitation in acceding to it without reference to Government but that Government expressed an opinion highly unfavorable to this individuals return to Office even as Deputy Sheristadar

Mins of Cons 15th Oct 1842

2. Adverting to the unfavorable opinions of this individual recorded by

27th Jany 1840
14th Febr —"—
23d —"—
19th June —"—
19th Augt —"—
15th Septr —"—

Mr. Onslow in his previous letters noted in the margin the Board called upon that

that Gentleman under date the 29th September to state what circumstances had occurred which had led to such an entire change in his sentiments transcript of the Board's letter to Mr. Onslow and his reply are herewith submitted for the information of Government.

Sheristadar so long as Mr. Onslow remained in charge of the District but as that Officer himself now solicits the advancement of Chellapah Modelly the Board seems bar to the appointment taking place stating that the 2d Member has recorded a minute dissenting from the majority of the Board.

Mins of Cons 21st March 1843

3 The name of Chellapah Modely has of late been much before the Board and the Government but as the Board fully acquitted him of all the parts of the charges brought against him, which affected his character, and as the Government were pleased to leave this decision undisturbed, the Board would have had no hesitation in acceding to Mr. Onslow's recommendation without reference to Government had not Government expressed an opinion highly unfavorable to this individuals return to Office, even as Deputy Sheristadar, so long as Mr. Onslow remained in charge of the District, as it could not be expected after what had passed that Mr. Onslow could repose any confidence in him.

Mins Cons 11th Augt 1841

4. Mr. Onslow himself now solicits the advancement of Chellapah Modelly from the Situation of Deputy to that of

Head

Head Sheristadar; and the maine ground
of the objection of Government would thus
seem to be removed under these circum-
-stances and the favorable opinion re-
-corded in the 3d Para of Mr. Onslow's
letter of the 6th Ultimo the Board see
no bar to the appointment taking place.

In conclusion I am instructed to
add with reference to a former order of
Government that only three out of the four
members constituting the Board concur in
the foregoing recommendation. The 2nd
Member having recorded a Minute
stating his reasons for dissenting, the
other Members also put their sentiments
separately on record.

To

The Acting Secretary to
Government
Fort St. George

Sir,

I have the honor herewith to
transmit for the decision of the Most
Honorable the Governor in Council

copies of correspondence between the Prin-
-cipal Collector and myself regarding the
transmission of Mr. Hawley's Baggage
to Bombay.

2. The nature of the responsibility
alluded to in the Principal Collector's letter
I do not clearly understand, but cannot
help thinking that of whatever nature it
may be, it is not obviated by the
suggestions contained in the 2d para of
his letter.

3. Mr. Hawley left this in the
height of the S. W. Monsoon when his
baggage could not be sent by sea. He
therefore left it in my charge to be forwarded
by that mode of conveyance when the coast
was again open in preference to having
it sent by land at that season.

The Coast being now open
I applied to the Principal Collector on
the subject. His reply has rendered
this reference necessary, and as Mr. Hawley
has been writing urging the early dis-
-patch of his baggage, I trust the reply
may not be delayed longer than is
absolutely necessary.

Minutes of the last Meeting read and approved.

Read extract from the Minutes of Consultation dated October 5th 1842, transmitting an Extract from a Letter from the Honorable Court of Directors dated June 21st 1842, having reference to the disturbances in the District of South Arcot in 1841, and to the Proceedings of the Commissioner deputed to investigate them.

(Hereunto Number 1192.)

Ordered that Copy of this Extract from the Minutes of Consultation of October 5th 1842, and of the Paragraphs of the Court's dispatch which accompanied it be furnished to the Collector of South Arcot, for his information and future guidance.

Ordered also that Transcripts of Paras 6 & 8 to 15 to 16 of the dispatch and of Paras 8 of the Minutes of Consultation be sent to Our Author for his information.

8A
Order thereon.

No 885 Fort St. George 15th November 1842.

Ordered that Copy of Para 18 of the dispatch and of Para 3 of the Minutes of Consultation be communicated to Mr. Dent, and of Para 20 of the dispatch and 5 of the Minutes of Consultation to Mr. Cunliffe.

No 866 With reference to the 2d Para of the foregoing Minutes of Consultation the Board beg to acquaint the Government that they have under their consideration a report from the Collector of South Arcot regarding the assessment of the Cheltumbrum and Maraigoody Talooks.

9

From the Sec. to Govt to Govt communicating observations on the Board's proceedings relative to the settlement of the Land Revenue in the District of Cuddapah for fasly 1250.

Read the following Extract from the Proceedings of the Board of Revenue under date the 25th October 1842.

Relative to the settlement of the Land Revenue in the District of Cuddapah for fasly 1250.

Para 1. Although the usual rains were more scanty than in the previous year, and did not suffice to fill the tanks, thereby causing much engaged land to be left fallow, and tho' from the same cause the produce in many places proved deficient, the cheapness of grain in the Southern provinces influenced the Markets of Cuddapah also and occasioned a

Hore entd 12th Sept. 1842 No 390.

14086. Fort St. George 10th November 1842.

a fall in prices of from 15 to 20 per Cent. The combined effect of these causes may be seen in the Settlement as compared with that of 1249 Fusly of Rupees 109212-15-9 - notwithstanding that 15869 acres had been taken up for Cultivation in excess of that of the previous Year -

Para 4 - 2. The circumstances of the season & the quantity of land left unassessed necessarily entailed a large amount of remission, but it is satisfactory to observe under the other usual heads of loss from which the ryots usually suffer there is a decrease: some of the items of deduction particularized in the Collector's Report paras 20 & 24 of your Board for the notice of the Board as being deductions apparently unauthorized from the Rates of Assessment -

3. The Gross Demand is assessed at 2,07,494-6- fallen short of that of the previous Fasley in the sum of Rupees 1,02,725-12- of which nearly the whole has been collected, leaving only a balance of Rupees 3,703-6-11 on the 30th June Last -

14087. Fort St. George 10th November 1842.

Para 5 - 4. The settlement of the Bagana Jaghire amounts to Rupees 114,916-3- or Rupees 8497-3-9 less than in 1249, of which Rupees 8491-14-6 remained outstanding on the 31st July last, a large proportion when compared with the balance on the Government Lands, an explanation of which as well as of the succeeding arrears of the two former years, the Board have very properly called upon the Acting Principal Collector to afford.

Para 9 - 5. The balances of previous years in the rest of the districts have already remained outstanding too long; the Board will be pleased to require Mr. Arbuthnot to effect an adjustment of these without delay and will direct his attention to the standing Rule, that no arrears of a former season should be allowed to continue in force against a ryot after the close of the following Settlement - The explanation of the item of 885 Rupees will be laid before Government on its receipt by the Board -

Extract Minutes Con. 25 July 1843 Para 9.

Extract Minutes Con. 8 Sep. 1842 Para 4.

Paras 11 & 14 - 6 - The observations of the Board on the mode of checking the abuse of New Wet Cultivation are good as far as they go. But it appear to the Most Honorable the Governor in Council

Fort St. George 10th November 1842.

Council that the condition specified at the close of the 12th para of their Proceedings is ready of evasion, either by means of collusion among the ryots themselves or thro' carelessness or connivance on the part of subordinate revenue Officers. The circumstances noted in the preceding para (13) seem to afford a case in point and the fact is more plainly stated in para 3d of the Sub Collector's Report. The necessity for the speedy adoption of a general rule on the subject is made evident by the mention of the new ryots that appear to the springing out of this novel tenure in the 33d para of the same paper.

7. The observations of the Board on Paras 14. 15. 16. and 18 appear just and proper.

8. His Lordship in Council is pleased to observe the favorable terms in which the exertions of Messrs Cotton & Walker are noticed by the Board.

(True Extract)

/Signed/ W. Elliot.

To the President and Members of the Board of Revenue.

Acting Chief Secy to Govt

Fort St. George 10th November 1842.

Order thereon.

9-10

Ordered to be communicated for the information and guidance of the Acting Principal Collector of Cuddapah, with reference to the Extract from the Board's Proceedings under date 12th September 1842.

The Board are not aware to which of the items of remission noticed by the Sub Collector the remarks of Government in Para 2 are intended to apply, but they believe that all specified in the Paras quoted are customary deductions. Cattoogotta Sudda Saroo and Mucta Comte, are favorable rates granted for the extension of cultivation. Saiey Sagavaut and Nispasayatty are low rates fixed on lands cultivated by certain Polegars and their relatives. Shamalat Sudwandum and Shrotreum. Sudar Rayut need no explanation. The remission in the difference between the low rate levied, and the survey assessment. Although all these remissions are ordinary, the Acting Principal Collector is requested to ascertain and report whether there was any irregularity in the mode of allowing them in Fusly 1250.

20 to 24.

2. The Board observe that the Summary Report for Fusly 1251 conveys detailed

Para 31 Ben. Cir. Oct. 31st 1842.

Fort St. George 10th November 1842.

detailed information as to the old arrears of the District; with the exception of those of Fusly 1242. The report on these latter is still only promised, and the Board request that no further time may be lost in submitting it.

3. Mr. Arbuthnot is requested to give his best consideration to the subject noticed in Para 6, and to offer any plan that such consideration and further experience may suggest.

Ordered that copy of Para 1 of the above Proceedings be submitted for the information of Government with reference to the papers recorded in them.

(11)

From the Acting Secy to Govt

Communicates observations & records on the Board's Proceedings relative to the Settlement of the Land Revenue of the District of Tinnevelly for Fusly 1252

Extract from the Minutes of Consultation under date the 3d November 1842.

Read Extract Proceedings of the Board of Revenue

Relative to the Revenue

Settlement of the District of Tinnevelly for Fusly 1252.

(dated 15th September 1842 No 397)

Para 1. The Car (or early wet) cultivation though at the commencement of the season undertaken to some extent did not realize expectations, both from want of water, and being injured by heavy showers after the grain

Car & Peruncm two descriptions of cultivation.

Fort St. George 10th November 1842.

was standing, this produce therefore from the amount of Remission thought necessary, may be considered to have almost failed.

2. The Pashanum (or after wet) and Poonjah (or dry) crops however yielded abundantly, though there was a slight decrease in the cultivation of the latter, and from their produce, & revenue caused the selling price of grain to fall 13 1/8 per Cent, which having considerably effected the Settlement in the Wodiagra pented Villages, may account in a great measure for the decrease of wet land revenue in this, in comparison with the preceding Fusly amounting to 16,88,08-9-6 Rupees.

Fusly 1249	17,85,307-- -10	
1250	16,16,498-7-4	
	16,88,08-9-6.	16,88,08-9-6 Rupees.

Para 3 Board's Proceedings.

Reduced cultivation appears also to have operated in aiding this result.

Para 5 Board's Proceedings.

3. A transfer, such as the one announced, of two Villages from one Talook to another is, as the Board remark "to be avoided," but His Lordship in Council cannot altogether concur with them in their reasons in deprecation of the measure. It requires perhaps Local knowledge to state what advantage would ensue

in

Fort St. George 10th. November 1842.

in the Revenue Management from the change but that an improvement in the Police Administration may be by the arrangement effected, the Government would suppose very possible.

4. The net revenue from all sources amounted to 2,69,323 - being below that of Fasly 1249 by Rupees 183178. - Of the former sum Rupees 1,85,803 - were collected within the Revenue Year, and subsequent receipts diminished the balance in July 1842 to the trifling sum of 8,939, a result creditable to the authorities of the district.

Fasly 1249 - 2,52,501 -
1250 - 2,69,323 -
183178.

5. In para 11 of their Proceedings the Board remark that out of the four Villages in the Chokumpully Zemindary held on favorable rates in two, the Proprietor had made some trifling unauthorized additions and that two remain the same as in the Permanent Settlement - The Collector however reports that in the former two the Zemindar had granted remission above the

Fort St. George 15th. November 1842.

rates laid down and in the latter two had withheld what was justly due - Time and undisturbed possession bearing somewhat supplied the place of more regular documentary title, His Lordship in Council will not change the existing tenure -

6. His Lordship in Council, although not averse to Remission in cases of necessity cannot but observe the apparent magnitude of the sum deducted for perished and short crops - It is in increase of a similar boon in the preceding Fasly by half a lac of Rupees -

7. In consideration of the rich harvest stored from the Pasharam and Poonjah Crops and one not it would appear, unaffected in its effects even by the low prices, it is to be feared that specific instances of loss, amply repaid by gain from other sources were treated with an indulgence, intended originally for impoverished individuals, labouring under general deficiency and misfortune in all their means of livelihood.

8. The remarks of the Board

on

on this head are quite correct, and must together with their other sentiments generally, His Lordship in Council's entire approval.

9- " The alteration in the rates of assessment of occasional wet lands (or Punjab mail Punjab) discussed in Paras 12 at 15, will be finally and more satisfactorily effected by the survey now in progress, but in the meantime His Lordship in Council concurs generally in the sentiments of the Board that all lands deriving their supply of water from public sources of irrigation, should be assessed with the usual Punjab rates, and more with reference to the description of produce and that those drawing their supply from improvements executed by the occupants should receive such liberal and extended consideration as will fully remunerate them for the capital and labor expended. This latter subject it is observed has frequently of late come under discussion & His Lordship in Council will be glad to receive the promised Report of the Board on the general question.

10- With regard to Sir Henry Montgomery's anticipations of distress

to the Cultivators and consequent loss of Revenue, from the immediate application of the higher rates of tenure to lands under Government tanks and Channels, His Lordship in Council is of opinion with reference to the large amount of the proposed increase nearly trebling the sum at present Collected,

	Rs	a	p
Present demand under Channels	4,887	3	6
Proposed ——— Do. ——— Do. ———	1,70,082	7	1
Increase ———	1,21,208	9	7

that the demand instead of being imposed at once, should be raised very gradually according to the discretion of the Collector until the new survey rates have reached the just limit.

11 It appears that the Collector's report was dated in November 1841, and the Board's Proceedings thereon forwarded to Government only in the September

of

of the following year. This delay in the transmission of the Reports, prevents the possibility of correcting any errors that may appear in the Proceedings of the Collectors as an instance of the evils arising
Paras 12 & 17 from this practice. It is stated that the observations of the Board on two very important points in the Revenue Management for 1249 had reached the Collector too late to be put into practice in the Fusly under review another year having passed, their present Proceedings are subjected to a similar fate. The Most Honorable the Governor in Council trusts that these delays will be avoided in future.

12 His Lordship in Council receives with pleasure the favorable testimony borne to the Services of Mr. Pringle.

To the President & Members of the Board of Revenue.

(A true Extract)
(Signed) Walter Elliot
A.J. Secy. to Govt.

Ordered

Order thereon. Ordered that transcript (11-12) of the foregoing Proceedings (omitting Para 11) be furnished for the information and guidance of the Acting Collector of Tinnevelly. Mr. Thomas's attention is particularly requested to Paras 9 and 10. In pursuance of the sentiments expressed in the latter Para. the Board would suggest that the gradual addition to the assessment proposed should be carried into effect with reference to the propositions of the Collector in the 7th Para of his letter dated 23d February 1842, subject of course to the operation of the new Survey rates.

To

The Secretary to the
Board of Revenue
Fort St. George

(34)

From the Coll.r of Masulipatam, Sir, Para 1. I have the honor to acknowledge the receipt of your letter dated 2d June last forwarding a Petition from Rajah Narriah apparow praying for an advance of 680 Rupees to enable him to defend a suit regarding an Island in the Godawary alleged to belong to his Zemindary.

Submitting report on Petition No. 793 of 1842 presented to the Board by Rajah Narriah apparow praying for an advance of 680 Rupees to enable him to defend a suit

2 The records of this Office shew that a dispute exists between the Zemindars of Nedadavole in this District and Vasuntawada in the District of Rajahmundry relative to an Island formed in the bed of Godawary and that the Collectors of Rajahmundry and Masulipatam proceeded to the spot in the year 1838 and after a careful enquiry into the claims of the contending parties decided in favor of the right of the Nedadavole Zemindar to the Island in question, having previously obtained Moochilkahs or agreements from the Vakeels of the respective Zemindars to abide by their decision.

The

Fort St. George 10th November 1842

3. The Proprietress of Vasuntawadah dissatisfied with this decision instituted a suit in the Zillah Court at Rajahmundry against the Zemindar of Nedadavole and several others on the plea that the agreement tendered by her Vakeel to abide by the decision of the Collectors was not authorized by her and the Judge decided it in her favor on the ground that her claim to the Island was fully established and that the former decision of the Collectors was of no force as the agreement given by the Vakeel was not authorized by his constituent.

4 On the receipt of the letter now under acknowledgment, orders were issued for the production of all papers connected with the suit, but they could not be obtained until very lately. It appears from a perusal of the evidence as well as on a consideration of other circumstances that there are strong grounds on which to prefer an appeal against the decision of the Zillah Court tho' at this stage of the Proceedings, it is impossible to offer an opinion as to its ultimate

ultimate result.

5 Under these circumstances, I am of opinion that assistance should be afforded to the Zemindar to enable him to try the merits of the claim which was once unanimously decided in his favor by the two Collectors, and accordingly recommend his prayer for the favorable consideration of the Board

6 The sum specified by the Zemindar as necessary for the prosecution of his claim is Rupees 680 for which I beg to request that the sanction of the Board may be granted.

7 The Petition is herewith returned

Masulipatam Coll.rs Cutchery. 28th October 1842. } /Signed/ R. S. Porter Collector

Order thereon (34-35) Ordered to be submitted for the orders of the Most Honorable the Governor in Council with the Board's recommendation that under the circumstances stated by Mr. Porter, the sum of 680 Rupees may be advanced to Narrah Apparow for the prosecution of the appeal to be recovered out of the proceeds of the Zemindary which is now under attachment for arrears.

Read the following letter.

To The Secretary to the Board of Revenue Fort St. George

(36)

From the Coll. of Guntoor. Transmitting the Sristadar's opinion on certain innovations in the revenue practice of the Guntoor district.

Sir,

Para 1. I have the honor to transmit copies of a paper in Telugoo and English containing the replies of the Sristadar to four queries regarding certain innovations in the revenue practice of this district, which appeared to me to be both just, and of primary importance to the relief of the Royets from their present depression, and which I accordingly thought it right to make without further delay.

2. So intimately however do the native Servants consider their interest to be bound up in the preservation of all that is vicious in existing usage, that I shall require the cordial support of the Board in effecting any approach to reform. I fear indeed I shall not be able to do much without the assistance of a servant trained in a better school than the Northern Sirkars, and capable of more enlarged objects than the success of his private intrigues. The present Head of the native office is clever and professed

of

of much esperience of a certain kind, but he is utterly incapable of appreciating sound revenue measures, and is so wedded to the crooked and oppressive practices now in force, that nothing but opposition is to be looked for at his hands in any departure from them.

3. It is unnecessary for me to detail the circumstances of this district, or the comparative advantages of a fixed field assessment and other tenures. The net produce here is every where shared, but strange to say, much dry land is also held on share particularly in the Vasseredy and Chittoor Zemindaries. I fully join in Mr. Goldingham's wish to introduce the field assessment as extensively as possible. But in the mean time it appears to me that in all lands under the management of Government, where it does exist, it ought to be accompanied by those wise and just provisions for the protection and relief of the Royet, which were essential parts of Sir Thomas Munro's management, and seem to be even of more importance than an exact measurement and classification

of land.

4. The first query regards the Royets liberty to hold as much, or as little land as he chooses. In practice this has never been conceded in Guntoor. The fear of a decrease in the Dowl has always operated to deter the revenue servants from allowing the free relinquishment of land. In his Minute on the state of the country dated 31st December 1824, Sir Thomas Munro explains fully the existing state of things in India, and it is worthy of note that after saying it is obvious if perfect freedom were given to the Royets to throw up whatever land they did not want, they would throw up about one fifth of their land, and thereby diminish the revenue in the same proportion, he adds "The liberty of doing so has been partially and "must be fully granted to them". I have not however ventured to go the length of granting such full liberty, but have cautioned the Ameens against adding land to the Royets farms and have authorised them to relieve those who apply in the proper season, of land which they have not means to cultivate well.

5. The practice of estimating the crops on the money rented lands which forms the subject of the second question has already been noticed

Fort St. George 10th. November 1842.

noticed and denounced by the Board. I have therefore ordered its unqualified discontenuance.

6.— The practice of requiring the Ryots to obtain from the Amuen a written permission called Dumbala "first to cut, and then to remove his crop, and that of keeping the amount of his Gummadundy before the produce is placed at his disposal, noticed in the third and fourth queries is both obviously unjust, unwise, and inconsistent with the principle of a money rent. I need only refer to Sir Thomas Munro's remarks on these heads in his Minute recorded on the 3d. April 1824 on the State of South Arcot. I have had opportunities in three districts of witnessing the operation of late Rents, and in two of seeing them substituted for the practice which prevails here. In every case the facility of collection seemed to be in proportion to the independence of the Ryot. I would purpose, if the Board approve, to collect,

No. 1.

Replies to the Questions regarding cultivation &c.

Question — No. 1. What are the objections to allowing ryots to cultivate only as much lands as they wish?

Reply — No. 1. No objection that can be raised to this rule, will appear lawful, as it can be easily said that obliging a ryot to take more lands than he is willing to cultivate is evidently unjustifiable. With reference however to experience and the practice generally admitted in this and in the neighbouring districts, it cannot be denied by any that it is necessary to encourage the ryot to extend his cultivation as far as his means easily permit. More particularly so since the late famine which ravaged this District in Fusly 1242 and 43, and the late cold and fever which depopulated many Villages more severely in 1244. The number of the Ryots being too limited since then, and there being large extents of Enam lands

Fort St. George 10th. November 1842.

land in every corner, which their holders let out at any lower rate of assessment as the ryots wish, they became too averse to the cultivation of cirkar lands. It appears proper to speak of Mulrauze District here. In many Villages in the western parts, the rates of assessment were considerably reduced between fusly 1236 and the famine, the time that the District remained in the hands of the proprietor Mulrauze Lutchmiah. In fusly 1246. the Collector Mr Bruce issued a Hookoomnamah allowing lands laying waste on Surgaty or on favorable proportionate Sist. and promising a recommendation to the Board for the striking off of all the balances up to famine. your honor has seen from the English correspondence how favorably Mr Goldingham has brought to Muktah some of the Villages under the sharing system in the Rachoor Talook, and how favorable arrangements he made in regard to certain Muktah Villages in the same Talook and some in Poloor &ca. with a view to effect the extension of cultivation. He has effected a reduction of the rate of Allaurpha tax on sheep and goats from 6 to 3¾ Rupees per hundred. Every one is relieved from paying any tax on ten of his number excepting the shepherds.

He

Fort St. George 10th. November 1842.

The cultivating people have a further relief of paying no more than 4 Annas on 30 more to sheep is brought under tax until it passes its first year. In Innacondah &ca, half of the grazing tax is remitted to every one that cultivates one kutchell for every plough. * Notwithstanding all such favors, yet the ryots have not extended their cultivation as far as their means easily permit, without preventing their cultivating a reasonable proportion of Enam land too. In many Villages the ryots have under each of them a quantity of best land with due portions of inferior qualities too. no one is disposed to take the inferior description unless accompanied by a due portion of the best. Each of the ryots has under him a portion of nearest and a portion of the distant land too. some ryots have under them a quantity of the land under wells and a due portion of others lands too.

If, under all the circumstances, the cirkar is declared to do no more than depending entirely on the will of the ryots, many retain under them only the best and the nearest portion and the lands under wells &ca. and prepare to relinquish the other descriptions of land or a greater portion of them. In lieu of the

* Mulrauze Talook — Amount of Gross Collections
Fusly 1236 — 4,30,81 — 8 — 11
" 1244 — 1,05,459 — 11 — 2
" 1250 — 2,51,414 — 11 — 1

* Mulrauze Talook — No. of Ploughs
Fusly 1236 — 1,22,2[illegible]
" 1244 — 6,005
" 1250 — 8,889

the lands so relinquished, they take Enam lands more, or lands of the aggraharum Villages, or of the villages under rent where the renters are ready to let out their waste lands at any lower rate of assessment, or on such successive shares as the ryot wishes. They pay more attention to increasing their number of sheep and cattle, chiefly in Innacondah and those parts where there is much grazing land.

It is true that some of the ryots have complained lately of having had under them more lands than they could cultivate, and in consequence they were obliged to pay sist on a portion laying waste. such persons must of course be relieved from such burden and be allowed to retain what they can cultivate.

Instead of the rule which confines the ameens to depend entirely on the will of the ryot, it appears under all the circumstances adviseable to lay down a provision strictly prohibiting the ameens from requiring the ryot to take more lands than he can cultivate, and making at the same time the duty of the ameens to encourage the ryot to extend their cultivation as far as their means easily permit

on the point of the ryots throwing up lands, it should be declared that no one should be allowed to throw up only inferior lands, but both good and inferior lands together in due proportions.

2 1st 2d What are the objections to abolishing the present practice of taking an Estimate and change of the crop on Muktah lands?

A. The general crops of this country being Jonna, Varega, Cotton &c., the excess or deficiency of rains can injure them more easily than they do the other crops, and in consequence the produce is often subject to fluctuation. The rains of some seasons proved so partial that in the same Village some of the fields produced adequately, which others sustained considerable loss. The ryots being answerable to their Muktahs, the fluctuations in the produce, it may be said, are of little consequence. It is of course so in the case of those ryots whose circumstances and credit enable them to discharge their Muctahs without trouble. But in regard to others, whose number is considerably greater, it is to be stated that in making collections the Muktahs should be strictly adhered to in all the ordinary cases, but in cases of those whose produce falls short, attention must be paid to the state of each ryot and to the extent of his entire produce compared with the amount of his entire muctah sist as far as it may be necessary to prevent him from losing his means of future

cultivation

cultivation - To effect this, it is necessary that correct anchanahs should be taken before the crops are cut, by the Samuldar generally - In cases of the poor ryots in which the Samuldar's Anchanah shews a falling off, a Tanaky or check anchanah by the ameen is likewise necessary - The entire absence of anchanah will leave an opening for the pretension of short produce even by the ryot whose produce is adequate -

2.

No 3. What are the objections to abolishing the present practice of giving Doombalas or written permission first to cut and then to thrash the crops on Mukhtal lands?

A. A great number of the ryots are such as cannot pay their kists, but by means of loans from their opulent neighbours respectively, and of them a number is such as cannot procure loans but on a condition of discharging the same in grain from the produce in their fields respectively - It is customary that in cases where the Poonasa crop is great, permission is given both for cutting and taking it away at the same time after paying or giving a Document to pay in about four, eight, ten or fifteen days, about one half of the entire Mukta - As regards too poor, the permission is given on the responsibility of opulent Ryots - Thus, the collection on Poonasa and short Jonna is made in about October and November - In cases in which there is no Poonasa, one half, or a greater portion

portion of the entire Mukhtah is collected when permission is given for the cutting of Jonna in December and January, and the remaining balance is realized at the time of giving permission to take away the Jonna in February and March, leaving a balance to be collected on Pyra crops in April and May in cases where such crop is expected - If the practice of giving these permissions is abolished, the poor Ryots, who of course dispose of the different crops as they come to be cut do not make their payments as punctually as they of necessity do at the opportunities of taking the different permissions and it will therefore be difficult to recover the balances from such men afterwards - as their private property is often very little to be attached - It does not therefore appear advisable to abolish the practice under the present circumstances, but it can, it is hoped, be done so in a more improved state of the country and of the ryots -

2.

No 4. What are the objections to altering the present kistbundy so as to make the collection of the 1st kist begin in December on all except sharing lands?

A. The time for the cutting of Poonasa, and short Jonna is October, Jonna December and January, Cotton February and March, and Pyra crops April and May - In consideration of this, the kists of the permanent settlement are commenced with October and closed with June - The manner in which the Collections

collection are usually made as mentioned in the reply to the question N°3 is also in accordance with these kists of permanent settlement. The kists in the Coudes of Palnaud are four commencing with December. Innacondah and Bellumcondah five commencing with October. Poloor five beginning with November. Rachoor eight beginning with October. In Vajsereddy's District, many Villages five kists commencing with October and the other eight. These are only the kists in the Coudes, but it will be seen from what is stated above that the esclent of the collections usually made upto December according to the opportunities and convenience afforded by the produce, exceeds considerably what the kists of Coule up to that month amount to. This being the case, the alteration proposed to make the first kist begin in December, will not, it is apprehended, be suitable to the business of this Country.

15th August 1842

(Signed) N. Kashagherry Row
Head Seristadar.

Ordered that the following letter be sent in reply.

To The Collector in the Zillah of Guntoor.

(36-37)

To The Collector of Guntoor

Sir

Communicating the Parwannah I am directed by the Board of

the observations of the Board on his letter of the 25th ultimo reporting the general principles of revenue administrations which he maintains.

of Revenue to acknowledge your letter of the 25th Ultimo. The Board fully concur with you in the general Principles of Revenue administration which you maintain, but they desire to impress on you that where a wrong and impolitic system has been confirmed by long usage it is necessary to use circumspection in introducing even wholesome innovations.

2. As to the liberty of retaining or relinquishing lands, the Board approve the order which you have given, and think that further licence may be allowed; but they are not prepared to authorize an instantaneous abandonment of all check. The restrictions in Bellary consist in requiring Riots relinquishing land to give up good and

and bad together, and in limiting the proportion of Enams to be held by any Riot. The Board think that restrictions of the same nature are necessary and are applicable in Guntoor, and I am directed to enclose an Extract from the rules in use in Bellary, and copy of a letter from Government regarding them, and the Board request that you will take them into consideration and adopt them for your district with such modifications as local circumstances and usages may seem to you to render necessary.

3. The practice of estimating the Crops where a money rent is fixed, and that of prohibiting the reaping of the Crop without special permission, are both vicious; and the Board approve of

* Rules 1 to 3 and 10 to 14 of those submitted to Govt. by the Board of Revenue May 20th 1824 - Letter from Govt. June 4th 1824 & in Cons. 7th

of your having abolished the former, and authorize you to make the prohibition of the latter general.

4. The Board think that caution is necessary in withdrawing the existing restriction on the removal of Crops from the threshing floors, lest the realization of the Revenue should be endangered by improvidence or fraud. It is certainly unnecessary that the rule should be enforced indiscriminately against all riots, the rich and the poor, the honest and the knavish - But the Board believe that this safe-guard is found necessary in every district, in the case of particular Riots whose character is known to be bad, and to this extent, Viz^t. That such an owner is not allowed to remove his grain without payment of the demand, or giving a sufficient guarantee for its payment - The Board authorize you to dispense with the present practice thus far; in detail it must rest with your discretion and that of

of your Tahsildars to apply this general rule to particular cases.

5. The Board are averse to any hasty alteration of the Kist bundy, which was framed it is to be supposed not without consideration of local circumstances. They are unwilling therefore to entertain your proposal on that subject at present, but will be prepared to give attention to any suggestion that you may see occasion to offer after further consideration and a longer experience in that District.

6. The Board are led to suppose that the answers given by your Serishtadar to questions proposed to him, were drawn up for your own information on that confidence which is highly desirable, to a certain extent, between a Collector and the Head of his native Office. It was not necessary therefore to lay them before the Board; nor need the Board make any observations upon them, further than to remark that they see in them with some matter of a contrary character, a good deal that is practical and judicious especially in the first Answer.

Revenue Board Office,
Fort St. George,

Reporting on the District settlement of fusly 1251.

No 11

To The Secretary to the
Board of Revenue
Fort St. George

Sir,

I have the honor to forward herewith the Summabundy and Kistbundy Statement for fusly 1251 with a detailed Summary.

2. bundy Statement in English and Mahratta and

3. a Statement of the Beriz of that fusly compared with the previous one.

2 Seven of the Eleven Talooks comprizing the Principal Division including the Talook of Woodiagherry for which a separate Report was submitted in fusly 1250 were settled by myself, the two Talooks of Doommalalapoor and Goondavole by Mr. Mathison the late Sub Collector when in charge of the District during my absence at the Presidency on private affairs, and the remaining two Talooks of Cavalyt Calegherry by my acting Head Assistant Mr. Cochrane.

3. The Settlement of the 5 Northern Talooks which compose the Sub Division was made by the acting Sub Collector Mr. Purvis, a Copy of whose report I beg leave to transmit herewith.

4. I have thought it advisable to report separately this year on the Summabundy of the recently purchased Zemindary of Sydapoor I have therefore excluded it from the present report.

5. The mode of settlement was the same as in last year.

14130

Fort St. George 10th November 1842.

6. There was a decrease of two in the number of Villages settled on Mr Smalley's Muctahs, and there is an apparent increase of 77 villages which is occasioned by the Woodiagherry Talook being this year included in the general Report while last year it formed the subject of a separate one. The decrease of two in the number of Mr Smalley's muctah Villages arises from the circumstance of two Villages in the Rawoor Talook hitherto entered as belonging to that Talook being in fact Villages in the Woodiagherry Talook. When the Goopully war were in profession of the Woodiagherry Jaghire they also held certain Villages comprizing what was called the Mymeloor Division in the Rawoor Talook. There were two brothers who on account of a dispute which arose divided their landed professions into two equal portions. The income of the one who got the Mymeloor Division having been less than his brother's in the annual sum of 20 Pagodas it was stipulated that the latter should annually pay him that sum, and accordingly directed the Villagers of Rainepully and Baalopully which belonged to him to pay him annually

ten

ten Pagodas each, deducting the amount from the Begriz payable to himself on the assumption of the District the Mymeloor Division came into the hands of Government and was included in the Rawoor Talook while the Woodiagherry Villages were continued as a Jaghire to the then possessor it seems however that these two villages still continued payment to Government of the 20 Pagodas annually, and this led to their being entered as Villages belonging to the Rawoor Talook as the Woodiagherry Jaghire has now come into the hands of Government, I thought it proper to discontinue the previous arrangement and to direct the Villagers to pay their revenue entire as revenue of the Woodiagherry Talook, and consequently they have been excluded from the Rawoor Villages.

7. As regards the Villages of the Woodiagherry Talook it is necessary to explain that the total number up to Fusly 1250 was 82 eight of which were and still are held by the Gungoolawar Poligar on an annual payment of 2,648 Rupees. These 8 Villages are included in the Junnabundy Accounts like other

other Government Villages. The Board are aware that the two villages of Cheeroovella and Bheemavaram were held by Syed Moostafa ally Khan, the late Jagheerdar's brother, whose death was reported to the Board under date 22d February last. These two villages have been resumed and incorporated with the other villages of the resumed Jaghire. Four villages as the Board are aware have been continued from Fusly 1251 by the Supreme Government as Shrotriums making with that of Caunchiroovoo five villages held on that tenure in this Talook. The number of Woodiagherry villages settled on the Mucta rates introduced last year was 67 one of which has been made over from the current Fusly to Syed Saiffaun as directed in the Minutes of Consultation dated the 16th June 1842.

Tomawarapaid. Conducted gravely. Kistepoorum.

Rawoolasolloo.

8. The Season was more favorable than that of the preceding year in as much as it permitted of a more extended Cultivation of the 1st and 2d Series of Crops wet and dry. In the Month of May there was a Storm which was accompanied by as all of nearly five inches of Rain which proved highly

highly useful for the cultivation of the 1.st Series of Crops which usually begins with May. From the beginning of that Month till the setting in of the North East Monsoon there was a fall of 26 Inches in fusly 1251 while during the same period in the previous fusly the fall had been under Six inches. The fall during the North East Monsoon in fusly 1251 was under 20 Inches while in the previous fusly it had been 26 Inches, but in both years the Monsoon ceased early in November, and had there been but an average fall during the N. E. Monsoon it would have been so far as regarded rain, the most favora-ble season experienced for many years-

9. The 1.st and 2.d Series of wet Crops produced well, but the third series sus-tained considerable injury by the ravages of insects occasioned chiefly by the want of rain-The dry crops did not produce well, partly from injury by insects and partly from too much rain during the period of their growth. The Garden crops generally produced well-The season as it affected the Sub Division will be found detailed in the Ashtagy Sub Collector's report-

I am

10 I am sorry to say that the prices of grain were ruinously low and occasioned considerable embarrassment even to the more substantial Ryots, many of whom actually sold their property in prefer--ence to their grain to pay the revenue - Ibeg to forward the usual Statement of the prices of the principal grains during the year. The Settlement commutation prices in this District are 30 Rupees for dry and 20 Rupees for wet grain while the actual selling prices of the Merchant, which exceed the prices at which the Ryots sell by 4 Rupees a Candy, were on an average 26 Rupees per Candy for both dry and wet grains - The Board may easily imagine the extent of the Ryots losses under such a state of the grain market but as no evil is without its concomitant good the rest of the Community of course benefited greatly by the cheap prices of food--

11- A Comparative Statement of the land taken up for cultivation in fusles 1250 and 1251 is exhibited in the margin - In the Principal Division there was an increase of 222 Goortoos in the extent

extent of wet land, a decrease of 130 Goortoos in the garden lands, of 8 Goortoos in the Jareeb and of 1128 Goortoos in the dry lands upon an extent of 36,000 Goortoos—

12— There is no cause assignable for the decrease in the occupancy of dry lands beyond those detailed in my Jammabundy report of last year on this point— The throwing up of Garden lands is partly attributable to the lands, from one cause or another becoming unproductive but chiefly from the Wells becoming dilapidated which is always more or less the case if the rains are heavy and the Ryots being either unable or unwilling to incur the expence of their repair— The decrease in fusly 1251 in the garden lands is likewise in part owing to four of the Villages of the Woodiagherry Talook having been held as Shotrium in which the garden cultivation amounts to 47 and odd Goortoos which were necessarily deducted from the accounts of the year, while in those of last they were included.

13— In the Sub Division there was an increased occupancy of lands of

of 1040 Goortoos of dry 79 of wet and 10 of Jareeb and a decrease of 15 Goortoos in Mooloom— The causes of these results are detailed in the Sub Collector's report—

The actual Cultivation in 14 fusles 1250 and 1251 is exhibited in the margin— In the Principal Division there was an increase in the wet cultivation of 3943 Goortoos occasioned by the more favorable nature of the season— In the Sub Division there was also an increase of 1125 Goortoos—

The extent of dry land cultiva- 15— ted in the Principal Division was less than in the previous year by 659 Goortoos occasioned chiefly by the great prevalence of ague in many Villages, while there was an increase in the Sub Division of 1806 Goortoos—

In the cultivation of Garden 16— lands in the Principal Division there was a decrease of 132 Goortoos which was occasioned partly by accidents, the sides of Wells having fallen in just about the season of cultivation thereby preventing the tillage of the lands, and the possibility of timely repairs— Some Garden lands are situated in the high parts of the beds of tanks, the cultivation of which was prevented by the

lands

lands being under water, while others receiving irrigation from Tanks were left uncultivated in consequence of the insufficiency of water for the wet crops owing to the very early period at which the N. E. Monsoon terminated. Similar causes operated to occasion a small decrease of 12 Goortoos in the Jareeb Cultivation in the principal Division. There was a decrease in the Sub Division of 24 Goortoos of Garden land and an increase of 5 Goortoos in the Jareeb Cultivation.

17 The following Statement shews the percentage of waste in fusles 1250 and 1251 on the extent of land taken up for Cultivation in both Divisions.

The

The gross settlement of July 1855 was Rupees 14,84,384-2-4 the deductions amounted to Rupees 1,90,385-2-2 leaving the net Settlement Rupees 14,93,984-3-4 being an increase over the net Settlement of the previous year of Rupees 1,23,240-3-10 of which the increase in the Principal Division was Rupees 83,992-1-5 and in the Sub Division Rupees 39,254-2-5.

20 I proceed now to explain the items of deductions from the gross settlement. The first item was an account of parishes

	Cos	as	p
Principal Division	934	3	10
Sub Division	846	11	5½251

crops which amounted in justly to Rupees 1,780-15-3 being less than the deduction on the same account in the previous year of Rupees

	Cos	as	p
Principal Division	4,937	3	10
Sub Division	4,646	7	4
	9,635	11	2

The more favourable nature of the season is the cause of this result.

21 The next item of deduction is an account of lands left waste. Namely

	Cos	as	p
Wet Lands	13,110	3	6
Dry lands	679	7	7
Garden	2,508	8	9
Jarcels	1511	7	5
Total	17,709	11	5

in the Principal Division to Rupees 17,709-11-5 being less than the deductions in the previous justly of Rupees 83,115-3-8 in the Sub Division the deductions for waste

waste in the justly under review was 36,008-11-9 and was less than the deduction on the same account in the previous justly of Rupees 27,462- of the amount deducted in the Principal Division Rupees 19,805-9-3 was an account of lands not sown nor inundated while the remainder was an account of waste inundated brought newly under this head.

	Cos	as	p
Wet lands	17,265	12	10
Dry lands	3,357	3	11
Garden	2,306	6	4
Jarcels	1,494	3	1
	19,805	9	3

	Cos	as	p
Wet lands	18,465	6	10
Dry lands	3,222	4	7
Garden	202	2	5
Trees	14	4	4
	22,994	2	2

22 The chief deductions for waste were

	Cos	as	p
Survapully	3,066	15	2
Nellore	25,173	11	3
Talamuchy	28,487	7	9
Singum	9,916	12	10

Mayany waste in the Talooks noted in the Margin and was chiefly of lands usually cultivated with the third series of crops in the latter part of November and December. These were left waste from the state of the tanks at the period of cultivation. Several of which owing to the premature cessation of the rains in the first week of November were not more than half or three quarters full, and consequently

Fort St. George 10th November 1842

consequently insufficient for further cultivation without a certainty of losing some of the crops which had been already sown.-

23.- The deduction for dry waste in the Principal Division amounted to Rupees 6579-7-7 while in the previous year it had been Rupees 9948-8-1 giving a decrease in the former year of Rupees 3369-0-6 of the deduction so made in this year Rupees 3222-4-7 was the assessment on lands situated in the beds of tanks the cultivation of which was prevented by their being under water, Rupees 2115-9-9 consisted of deductions where unavoidable circumstances had prevented the Ryots cultivating his lands- Rupees 319-9-7 was the Assessment on lands washed away or rendered unfit for cultivation by floods, and Rupees 332-4-5 was the assessment on lands left waste but in lieu of which other fields of the same amount were cultivated- The last item of deduction on account of dry waste was Rupees 539-11-3 for dry lands partly proposed to

Fort St. George 10th November 1842

be cultivated under Mayany but unavoidably left waste and partly not cultivated from their peculiar situation which allows the land to be cultivated only with wet crops if practicable and not with dry crops in ordinary seasons except in years of drought.

24 The deduction for garden waste amounted to Rupees 2,508-8-9.- In the previous year it was Rupees 2,899-8-1- The amount deducted for land waste in this year was nearly the same as in last years. These results do not appear to require particular remark.-

25 The next item of deduction was for inundated lands and amounted in the Principal Division to Rupees 4786-7-10 while in the previous year it was 2,214-6-4 the increase arising from the early period of the year at which the tanks received water which drowned the first series of crops sown therein whereas in the former year the crops on those lands came to maturity, and were reaped- The deduction for unmanufactured crops in the Sub Division was

Fusly 1250 —	1,511-0-8	600 ac c
Fusly 1251 —	1511-7-5	

was Rupees 80-4-5.

26 The deduction for

	Fusly 1250			Fusly 1251		
	Cds	as	P	Cds	as	P
Principal Division	1962	11	3	1466	7	9
Sub Division	1148	11	7	1705	1	6
Total	3111	6	10	3171	9	5

Cawle lands in the year under review and the fore remains fusly is exhibited in the Margin. There was a decrease in the Principal Division of Rs 495-3-6 and an increase in the Sub Division of Rupees 556-6-1 giving a net increase of Rupees 60-2-7.

27. The Cawle remission of fusly 1251 in the Principal Division was

Deduct:-

On account of Land brought under full assessment in fusly 1851	384-1-5	
Land brought upon an increased rate of Assessment in fusly 1251	400-10-3	
Mogany waste immediately	"	15-4
Dry Land:-		
Absconded Ryots	54-11-"	
Poor Ryots who were unable to cultivate	109-13-"	
Land has washed away by floods &c	21-14-"	974-4-"
Remainder		988-7-3
Add:-		
Remission on Land newly taken upon Cawle in fusly 1261	478-6-"	
		1466-7-9

The

28 The increase in the cawle remission in the Sub Division in the year under review is obtained in the Sub collectorate report and arose from a larger extent of land having been taken up on Cawle remission.

29. The next item of deduction was on account of Pasture as hereunder shewn.-

	Fusly 1250			Fusly 1251		
	Cds	as	P	Cds	as	P
Principal Division	963	10	6	1003	13	3
Sub Division	155	9	9	156	12	8
Total	1099	4	3	1160	9	4

30. These results do not appear to call for particular explanation and the same remarks is applicable as regards the Principal Division to the next item of deduction discretionary remissions which amounted in the Principal Division in the fusly under review to Rupees 910-4-3 and in the previous year to Rupees 898-6-" - In the Sub Division there was a decreased deduction under this head

head of Rupees 1016-3-. below that of the
preceding fusly occasioned chiefly by the
discontinuance of the discretionary remission
given by the Sub Collector Mr. Mathison in
the settlement of fusly 1249 in the Village
of Pulicaar. Till the Ryots were satisfactorily
shewn to have changed their systems of which
I am not by any means satisfied and certainly
not to the extent assumed by Mr. Mathison
I deemed it but fair that the existing
classification should continue in force pend-
ing my further enquiry and decision. I am
now engaged in the examination of the
Settlement Accounts of that year which
formed the basis of the Sub Collectors
enhanced assessment, and which I hope
shortly to complete.-

31.- The last deduction from the gross
settlement was under the head of Fusly
Summeery in which there was an increase

Fusly 1250	956-3-6	in the Principal Division	
Fusly 1251	1440-4-3	in the year under review	
	484-"-9	of Rupees 484-"-9 The increase	

arose principally from the Ryots
of the new Talooks of Woodiagherry
cultivating as they had been accustomed
to do inferior Crops on higher rated
lands, many of whom were ignorant
of the rule obtaining in the other
Talooks of the District that the saving

so would be subjected them to the payment of
the assessment of the lands, whatever might
be the crop they thought proper to grow.
Under these circumstances and as the Ryots
of Woodiagherry are very poor, & agriculture much
depressed I considered it better to grant
them relief than adhere inflexibly to a rule
which is felt even severely by a substantial
Ryot, and would be much more so by an im-
verished condition of the Woodia-
gherry Ryot, though it is gratifying to know
that their circumstances have materially
improved since the Sagbire has been
under the direct management of the
Officers of Government.-

32.- The net Settlement of fusly 1251

Principal Division-	83992-1-5	exceeded that of the pre-		
Sub — D° —	39254-2-5	vious year by Rupees		
	123246-3-10	123246-3-10.-		

33.- In the following Statement is exhi-
bited the revenue from Poolary in fusly
1250 & 1251.-

	Fusly 1250			Fusly 1251			Increase	Decrease
	Poolary	Sale of pasture lands.-	Total	Poolary	Sales of pasture lands.-	Total		
	Rs a p	Rs a p	Rs a p	Rs a p	Rs a p	Rs a p	Rs a p	Rs a p
Principal Division	68 "0	68 "0	136 "0	84950 11 6	8162-9	93112 12 3	2109 9 9	- - -
Sub Division	82645-	83246 1	165891 1 3	147527 7 5	14225 7 3 6	161752 14 4	82452 3	652 10 0	.. .. ..
	123234 10 7	14760 15 4	138595 9 11	123204 15-	14149 15 6	137354 6	2462 4 7	.. .. ..

Here

34 There was an increase in the Principal Division in Fusly 1261 of Rupees 2490-7-1 in the Capitation Poollary and a decrease of Rupees 680-13-4 in the sale of pastures. In the Sub Division the Capitation Poollary exceeded that of the preceding Fusly by Rupees 582-13-4 and there was also an increase of Rs 69-13-6 in the sale of pastures making together an increase of 652-10-10. The favourable nature of the season afforded a more abundant pasturage for the cattle than in the preceding year and less necessity existed for the purchase of reserved pastures which was the chief cause of the decrease under that head in the Principal Division.

35 Of the Net Ryotwar Settlement of Rupees 1,33,4738-6-4 of the Principal Division there was collected within the Fusly Rupees 1,32,4136-1-5. The subsequent collections up to the 15th September amounted to Rupees 577-11-6 leaving a net outstanding balance at that date of Rupees 55,357-9-9. The collections were pushed as far as they could be without permanent injury to the Ryots I have already acquainted the Board of the ruinously low prices of grain and also of the very inadequate return the Ryots derived from the 3rd Series of their wet crops, these causes combined and more especially the first have operated greatly to the detriment of the agriculture classes, and in the midst of plenty, have left them to bear alone all the evils attendant on such a depreciated nature of [illegible] the

the produce of their labors. To a greater or less extent they have suffered and will suffer from the same cause so long as the settlement commutation prices remain as at present, and they urged and with much force and truth that while the Government in seasons of scanty produce and high prices share with them the advantage of high prices, that is to say if they claim remissions for Crops which they have not reaped they are left to sustain alone the loss occasioned by low prices in seasons of plenty. I am of opinion that out of the outstanding balance of Rupees 55,357-9-9 it would not be expedient to press the Collection of any further considerable sum a small portion is still recoverable without a recourse to the sale of property, and under the circumstances of the season a Sale of property for its recovery would be felt as a harsh measure.

36 I have made an investigation into that portion of the balance of Rupees 4,34-11- adverted to in my reports* on the Wodiaghary Talook for Fusties 1249 and 1250 on anticipated payments to the late Sagheer-dar for which the Ryots were unable to produce receipts

* Paras 28 & 29 of Fusly 1249

Para 33 of Fusly 1250

receipts. The sum was Rupees 10,968-7-4 of which
300-11 has been since realized leaving a balance
still outstanding of Rupees 10,336-10-4.

37. The result of a close enquiry
as to whether this sum or any portion of it
was actually paid or not to the late
Jagheerdar has proved that the Ryots to
whose receipts in some cases timekhas and in
others receipts of the late Jaghurdar and
his sons &c. for

Chk. a/c
5765-2-1

that there are entries in some accounts
found with Damurla Krishnaiah
the late Jagheerdar's Parbutty at
Woodiagherry for payments to the Amount of 71-7-
That there are entries in the accounts
of the late Jaghiredar's Head Accountant
in support of the payment of 951-5-0
That the Village Sheriffs Cash Chittas
as also the Carnums Accounts con-
tain entries in support of the
payment of 687-12-0
That the late Jaghurdar's Collections
and balance Statement of Jusbyms
proves the payment of a sum of 19-6-0

Total 8435-4-7

38 It will accordingly appear that the balance

balance for which there are no receipts
accounts or Vouchers beyond the Carnums
accounts to support the assertion of the Ryots
of a prepayment to the Jagheerdar Amounts
to Rupees 6199-9-6 they still affirm po-
sitively that the sum was actually
paid to the Jaghurdar or his sons, Vizt.
Remitted to the Treasury at Woodia-
gherry

Chk. a/c

Total 5263-4-9

39. The remaining portion of the balance consists of similar payments the details of which would be too lengthy to enumerate. The Curnums accounts if they may be trusted prove the payments to have been made but there is no collateral evidence to support their accounts. Had the Jaghiredar's accounts been kept regularly and been all forthcoming there would have been little difficulty

Fort St George 16th November 1822.

difficulty in arriving at a correct conclusion upon the matter, but such is not the case, I have just to know that many of his accounts are discharged before his arrest. It will be observed that of the balance of Rupees 1994-9-6 nearly two thirds are said to have been remitted to the Treasury at Nedianghery, but such of the Jaghiredars Duplers as are for thcoming have been thoroughly sifted and no trace can be found in them of the receipt of this money. I am however of opinion that the Pycts Statements are entitled to credit and that the Amount was actually paid; but in a question of doubt between the Government and its Pycts and very poor Pycts too, I am sure the Board and Government will gladly respond to the recommendation that the Scales should turn for and against them and that they should be relieved from any further demand on this account.

The Shrotrium Beriz of Jusly 1231 upon 163 Shrotriums amounted to Rupees 6493-9-8 inclusive of the 4 Shrotriums newly Conferred in the Nedinghery Talook which are chargeable with a Beriz of Rupees 128. The Beriz and Collections of the Shrotriums Restored in the Jusly under review is exhibited in

Shotriums which are under Kyst. The cause of the non punctuality of the Shotriumdars has been partly a defici= ency of produce and principally the very depressed state of the price of grain from which they have suffered alike with the Government Ryots; In cases where the Shotriumdars had hitherto been punctual I allowed them to pay their balances with the current instal= ments of Justy 1252 which I trust will meet with the Boards approval as an actual necessity existed for some forbear= ance; In other cases I adopted such mea= sures as I considered best for the realiza= tion of the balances but till the whole subject of the Shotrium Revenue has been laid before the Board, and some method change made either by presumption of those on which large balances have accrued or the Regs modified and adapted to the altered circumstances of the present period I do not hope to see the Shotrium Revenue placed on a footing which will secure a punctual realization

Fort St. George 10th November 1842.

realization of the Government Revenue. I have been so much engaged in other duties more especially in having the settlement of the two additional Talooks of Woodiagherry and Sydapoor the latter being in a State of the greatest confusion that I have not had leisure to go as fully as I could wish into the question of the Shotrium Revenue of the District that I hope it will not be long before I am able to submit my promised report thereon.

4. The cause of the outstanding balance on the Kyfted Shotriums is that most of those in the Principal Division consist of wet lands, in which the produce has to be kyfted, this cannot be commenced upon till near or after the close of the Justy, which necessarily makes it late before this process can be completed and the grain disposed of. Of the balance of Rupees 18,325-2-11 I expect Rupees 7,000 will be shortly realized and I fear no portion of the remainder can be considered recoverable.

42. The subjoined Statement exhibits the Peishcush revenue of this District in the year under review the Collections up to the 15th September & the balance at that date.

				Deduct Decrease			41226	11	4			
				Net Increase			186267	11	"			

The

49 The Net Increase in the land Revenue is Rupees 92782-12-8. The decrease in Peishcush arises from the Zemindary of Sydapoor having become a Government Talook from the commencement of Fusly 1251 while in the preceding Fusly the Amount of its Peishcush was brought to account under that head. The increase in the Shrotriums is attributable to the four Villages which were Government Villages of the Woodiagherry Talook up to last year having been granted as Shrotriums and transferred from that head to the Head of Shrotriums as already noticed. There is a corresponding increase in the Stalla Carnums Reysoms in proportion to the increase in the Land Revenue under Aumanie of Fusly 1251.

50. The Statement of the total charges of the District for Fusles 1250 and 1251 in which the percentage of the different branches of Revenue distinguishing the charges of general management from that of particular items of account is exhibited as called for in the Board's letter under date the 29th November 1830 is also forwarded

Nellore, Principal Collectors Cutchery, 19th October 1842.

E. E. Jno. / Signed J. V. Stonhouse Principal Colls

To

Fort St George 10th November 1842.

To

The Principal Collector

in the zillah of

Sir

Nellore.

I have the honor to forward herewith the usual Summabundy Kistbundy comparative Statement and other accounts connected with the Settlement of the Talooks composing the Sub Division of Fusly 1251.—

Number of Villages and Hamlets.

The Number of Government Villages was the same as in the previous fusly Viz.o 235 but in consequence of a new hamlet having been established within the limits of the Village of Ravoor in the Buddaypoody Talook the total number of hamlets was 191.—

Season and Crops.

3. The Season itself was decidedly favorable. It commenced particularly so. The rather heavy rains in the Months of June and July encouraged the Ryots to cultivate the Pomasa or 1st. Crop to an unusually large extent and the crop was generally very productive. the cultivation of the series of Crops was not carried on to so great an extent as in the previous fusly

Fort St. George 10th November 1842.

fusly principally in consequence of the Ryots having taken advantage of the favourable commencement of the season and sown Pomasa Crops in many of the fields which they would otherwise have reserved for later Crops. From the continued rains during the growing season the Jonna which is the principal Crop of the 2d series in the 3 most northern and in a great portion of the Davageedoor Talook was a good deal affected by blight and the outturn was consequently small. The other crops of this series yielded a very tolerable return with the exception of the Lamp Oil seed plants, the fields of which in some parts were considerably injured by the ravages of insects. The 3d Crop cultivation was carried on to a greater extent than in the previous fusly but from want of rain at the latter period of the season the Variga Crop did not produce well. the Pyra Jonna yielded a fair return but generally the outturn was somewhat less

than

than in the preceding year and the crops of Sanigalos or Bengal gram were almost universally destroyed by insects. Most of the Tanks in this Division received a full supply of water and the wet cultivation was generally carried on in proportion, the total extent exceeding considerably the cultivation in fusly 1250. Unfortunately two of the largest Tanks in the Division, Mopaud and Machavarum in the Buddaipoody Talook were breached during the very heavy rains in the end of October and although measures were at once adopted for the temporary repair of the breaches, yet, in consequence of there being little or no rain subsequently but little further supply was received and the cultivation under these Tanks during the year under review was necessarily very limited. The wet crops were nearly all brought to maturity and produced very fairly.

Prices No 3.

4. It will be seen from the statement now transmitted that there was a very considerable fall in the price of, with but one exception, every

every description of grain in the fusly under review as compared with the previous fusly, Sanigaloo or Bengal Gram formed the exception, the Crop as observed in the foregoing paragraph having almost entirely failed; since the famine in fusly 1242 certainly and, I believe, may say since the establishment of the Sub-Division, gram has never been known to have been at, I speak of course with reference to the former, so almost ruinously low a price. When it is recollected that the price at which the Government share of the estimated produce of the land, was at the time of fixing the assessment, commuted to a money rent, was, for all grain produced on dry land, 30 Rupees a Candy. It will readily be understood how severely so great a fall in the price of all grain must have been felt by the Ryots. The average price during the past season of some of the principal dry grains grown in the Northern Talooks taking the averages of all the five Talooks is entered in the Margin.

	By Candy Rs. a. p.
+ Jonna	15-4-0
Varigal	12-2-0
Arooga	9-1-3
Ramgy	12-8-4

Dittums

5. The subjoined Comparative Statement A shews a net increase of land taken up for Cultivation including in both years land occupied since the formation of the Dittums and included in the Settlement of 1115 5/64 Goortoos. The Dittums were performed by the Tahsildars with the exception of some Villages in the Ongole and Cnamanamelloore Talooks which were framed by the Sub Division Sheristadar who was deputed for the purpose.

The

Cultivation of waste.

6. The Statement B exhibits the extent of dittum lands cultivated and left waste in the fusly in question. Although the extent of the Dittum of Mettah land exceeded that of the previous fusly by 1039 59½/64 Goortoos the quantity left waste was less by 706 30½/64 Goortoos than in fusly 1250 with the exception of 146 25/64 Goortoos, the assessment on which was deducted for reasons which will be explained hereafter. the thist of the waste was as usual included in the Settlement. The cause of the extended cultivation of wet lands is explained in my Remarks on the state of the Season.

7. In a few Villages where it was clear the Ryots had neglected the cultivation of their Maugany Lands although there was no want of water or as was in some instances found to be the case, had left minute portions of their fields waste. I felt it right following the Custom hitherto in force to

to assess a small quantity of waste to shew that such a practice would not be allowed with impunity but as it was not a year in which it was expedient to add any large amount of wet waste to the Settlement the number of Goortoos were but 11 45/64 assessed at 4 Rs 7-3 and as this was in several Villages the amount assessed in each Village or on each Ryot was very trifling with the above exception the Maugany waste was deducted from this Settlement.

8. There was a slight increase in the extent of Mooloom lands left waste in consequence of the heavy rains having prevented the Ryots of the Villages of Pauderty and Alloor in the Ongole Talook cultivating to the usual extent the Raughy irrigated by manual labor in the Sandy tracts in the vicinity of those Villages. Of the Mooloom waste 36 37/64 Goortoos were deducted from the Settlement as will be explained in a future Para of the report and the assessment on the remainder included in the Beriez.

Ditto														
Total														

11- From the above it will be seen that the gross assessment on the land amounted to 4,24,803-8 from which deductions to the amount Rs 38,124-4-7 being less by Rs 32,490-11-6 than the amount it was necessary to deduct the previous fusly were made leaving as net land Revenue for the fusly in question 3,86,740-12-1 exceeding that of fusly 1250 by Rs 3,8028-1-2- The total settlement after the other various items are included being 4,88,774-2-6 or Rs 39,782-15-9 above the fusly immediately preceding.-

Remissions Dry Wastes

12. The remission granted on account of dry lands left waste amounted to Rs 788-13-11. partly, the assessment on lands under inundation at the season of cultivation, the amount under this head was necessarily greater in the year in question, partly, on lands it had been rendered entirely unfit for cultivation by river floods and partly, on lands in the occupation of very poor Ryots, who it was quite clear had from circumstances

over

over which they had no control been unable to cultivate the full extent of their dittum -

Wet Waste.

13. The deductions on account of wet lands left waste amounted to Rupees 33,285-7-9 being less by Rupees 28,628-11-5 than those made on the same account in fusly 1250 - The cause of the decrease in the extent of deductions necessary under this head has been already explained -

Mootoom Waste.

14. The deductions on account of Mootoom land left waste amounted to Rs 652-5-3 of this it will be observed to Rs 35-7-13-6. being the assessment on 22 35/64 Gortos of land was deducted on account of the waste in the Villages alluded to in Para 8 of this report - It is usual to enter all these lands in the Dittums while the extent of cultivation only is included in the settlement the remainder was principally on account of gardens the wells for irrigation which had been destroyed, and land left waste from want of water in the Tanks on which

the

the cultivators were dependent for a supply and for which there were no other means of irrigation or which had been rendered unfit for cultiva-tion by floods

Jareb waste-

15. In the Village of Pun-dillapully in the Chendlore Talook certain of the Dittum Jareb lands had from various causes been left waste although land not in-cluded in the Dittum had been cultivated - It has generally been usual to assess both but being of opinion that the strong representa-tions of the Ryots were worthy of some consideration, and as at the time of foregoing the Dittum they were last to suppose some in-dulgence would be shewn them, I ventured, as a special case and on a distinct understanding that it was not to be drawn into a precedent, to remit a proportion of the Dittum Jareb waste equal to the extent of other land that had been cultivated but not entered in the Dittum the deductions on this account amounted to

to Rupees 128-15-11. the rest was deducted partly for the same reason as the assessment on the Mootoom land already alluded to in Pauderty and partly on account of the utter poverty of the Ryots or the ruined state of a few wells - It is hope, hardly necessary to state that no deductions on this or any other account were made without the fullest enquiry nor until I was quite satisfied of the necessity and propriety of the measure -

Crops destroyed by inundation Vide

16. The trifling deductions on account of wet land on which the Crop was destroyed by inundation does not seem to call for any parti-cular remark. Most of the Tanks having received a more abundant supply of water the Crops sown were generally brought to maturity in the fasly under review and the amount of remission demanded on account of withered Crops was consequently much less than in the previous year -

Vendra land

17. A further extent of land was taken

taken up on Vundra Cowle caused a correspondance increase in the remission granted on that account 221 48½/64 Gortoos of land bearing an assessment of Rupees 1299-7-2 were newly taken up in this fusly and this a remission of 957-14-8. was granted and the remaining sum was granted on lands taken up in previous years the time during which, accord-ing to the conditions of Cowle, re-mission was to be granted not having expired.

Fuspel Commy Paulwassy-

18. The small items of fuspel commey and Paulwashee do not seem to call for any particular remarks.

Discretionary

19. The settlement of the Village of Poloor in the Davangoodoor Taluk alluded to in Para 14 of the Sub Collectors report for fusly 1250 having pend-ing the final settlement of the question been made according to the ditteum of fusly 1249 no re-mission on account of the enhanced assessment was necessary this is the principal reason of

of the great decrease in the remissions granted under the head of discretionary the sum granted under that head in the Village in question amounting in fusly 1250 to 825-2-11.

Land on which seed did not vegetate-

20. There is one item of 8 Rupees-annas 5-Pice 1. the assessment on the two Gortoos of dry land the seed sown on which did not vege-tate that requires explanation the land was not a part of the usual Ditteum lands but was sown with the American Cotton seed received for trial in the course of last year on the understanding that the assess-ment would as a special case be remitted. The experiment unfortunately entirely failed for the seed did not even germinate.

Ready money Collections-

21. Of the items of ready money Collections there was an increase in the Poollary and sales of pasture land of 632-10-10. this occur-red principally in Budda poody and chendler Taluks and was the result of a more careful counting of the cattle by the Taluk servants. The season having admitted of

a

a more extended cultivation of the wet land exams an increase of 462-15-3. appears under the head of Badigas payable thereon - The increase under the head of chay= =root muctas has been occasioned by proposals having been received in fusly 1251 for certain tracts for the renting of which in the previous fusly no parties came forward - The amount realized under the head of firewood tax depends on the external demand for that article, the quantity exported was considerably less in the fusly under review -

Mode of assessing Poolary tax -

22. I venture here to add my testimony to that of I believe every Gentleman who has been in charge of this Office, since the introduction of the measure, of the very great unpopularity of the assessment of the cattle tax by Capitation, and how great a boon a return to the Muctá system would be considered by all parties I humbly conceive it to be a mistake to suppose that the inferior Ryot is at all more secured from

from unjust assessment by the pre= =sent system. He is equally in the= =hands of the Curnums and others - If he disputes the correctness of their accounts and demands a counting of his cattle by the Talook servants he is told that he has driven off or concealed a part and it is very difficult for him when such a practice is known to be so fre= =quently resorted to by those who intend to defraud, to prove him= =self immaculate - The present system is most harrassing both to the Ryot and the Government Officer, if he is honest, and a most fruitful source of illicit gain to the latter, if he is not -

23. The annexed State= =ment shews the amount of money settlement of each Talook in fusly 1251. an abstract compa= =rative Statement of the Revenue of each Talook in fusslies 1250 and 1251. will also be found below -

There

25.

There was collected up to the 15th August a further sum of Rupees 23,945-0-7. From the very low prices of grain and the deficient produce of some of the Crops it was not found possible to collect in the four Northern Taloo.ks any further sums without severely distressing the Ryots & seriously impairing their means of cultivation for the succeeding year. In the Buddapoody Taloo.k a further sum of 349-15-1. has been brought to account since the 15th August but I cannot indulge in the hope that any large amount of the balance still outstanding is likely to be realized in the present fasly—

The

27. The balance outstanding on account of Shrotriums in the possession of the Shrotriumdars amounted up to 15th August to Pdo 1,271-3-6. The necessary measures have been taken to realize the amount without further delay. A. balance of Revenue for fusly 1251. of Rupees 422-15-7. remains, it will be observed outstanding on the Shrotriums under attachment the greater portion of which is not likely at present to be recovered in as much as the settlement fixed according to the extent of cultivation and estimated produce, amounted to but Rupees 404-2-11. of which amount all but Rupees 34-10-8. has been already realized - This remaining sum will be shortly brought to account-

Statistical Memorandum 28

Below is given a comparative Statement of the Moturpha Revenue for the two last fusles in each of the five Talooks exhibiting a net increase in the latter fusly of Pdo 7½-14-2 The decrease of Pdo 128-2-7 observable in the Chendalore Talook occurred in the large mercantile Villages

Villages of Churiala and Pundilla fully where the tax is assessed yearly - the amount necessarily fluctuating according to the extent of traffic and number of looms -

Deduct Decrease 128 2 7.

Remainder or net Increase 7½ 14 2

Of

29. Of the above item of Pp Revenue a sum of 11340-9-3. was collected within the fusly, this amount was increased by subsequent collections up to the 15.th August to Pp 98-9-8 leaving a balance of 955-6-6. of which sum 618-8-4. is due by the Collapoutam Merchants, the Cingola Butchers and some other parties, who have disputed their liability to the tax from the time it was first imposed on them and who have never paid it- The remainder is principally due by weavers and others whom adverse circumstances have rendered unable to liquidate the Demand against them-

Balances- 30 In Para 18 of his report for 1250 Mr Mathison mentioned that he thought a sum of about 1000 Pp of the amount remaining outstanding up to 15.th October 1841. on account of land Revenue for fusly 1250 might probably be collected in the course of the fusly under review; as the season advanced however and the great fall in prices became apparent it was not thought advisable

advisable, considering the difficulty most of those, by whom balances were due, had, in payeng even their first for the current year, to make any demand on account of arrears the sum realized was consequently very trifling-

31. I have pleasure in acknowledging the assistance I have received from the Sheristadar and the Cutcherry servants of the Collectorate generally during the period I have been in charge of this Office-

Ordered

14295 Fort St. George 10th November 1842.

38. 38A

Order thereon.

Ordered to be brought forward at a future Meeting.

39

From the Pe Collr of Nellore — Forwarding an amended draft of the answer to be filed in the northern Provincial Court as regards the Village of Rajavole in the appeal suit preferred by the Calastry Zemindars.

To The Secretary to the Board of Revenue Fort St. George.

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter of the 27th Ultimo on the subject of the suit pending in the Provincial Court for certain lands claimed by the Calastry Zemindar from the Government Village of Rajavole and the Shrotriemdars of Doobagoota.

2. The Calastry Zemindar laid a claim in one and the same suit to ascertain extent of land situated in the Villages of Rajavole and Doobagoonta as belonging to his Village of Bheemavaram. The witnesses examined were the same persons for both Villages. The most important Document Document E in particular related equally to both Villages. Two Documents it is true, do not relate directly to Rajavole and remark about these may be omitted.

3. I cannot discover in the appeal Plaint that the Appellants object regards only his claim against Doobagoonta

Doobagoonta - He state that his whole claim was proved in the original suit, tas he originally Claimed 20 Kurtoot from Rajavole & asserts generally in his appeal Plaint that he proved his claim. he must seek by his appeal to the Provincial Court es the recovery of this land just as much as that he claims from Doobagoonta, though the latter would of Course be an object of greater Consideration and naturally of more extended remark in his appeal es Plaint in. as. much as the extent of land was nine times greater..

4. The Zillah Judge entered into no particulars in his decree in regard to the inconsistencies in the evidence es adduced in support of the claim of made any detailed remarks regarding the Documents filed. as therefore the es same persons were the witnesses in respect to both Villages, I considered it incumbent to enter into remarks which would impeach their es credit if that were shaken even

in

in regard to points relating to Doobagoonta, it made their testimony less worthy of belief as regarded Rajavole..

5. The appellant, it is true in his appeal Plaint has several times mentioned the Doobagoonta Village but these remarks with one exception were clearly elicited by the appointment of an aumeen to measure the lands who was likely for stated reasons to be influenced by partiality, but I cannot trace in them a desire to apply their Appeal arguments solely to Doobagoonta, and I consider them as applying as much to the one Village as the other..

6. I think it would be inexpedient as I have been made a party to the suit a proceeding I conceive of a very es questionable Charater, in. as. much as I doubt the power of a Civil Court to es make any one a Defendant in a suit at its own will and pleasure as was done in the present Case, and not even on application from the opposite party to allow the suit to be decided es exparte as regards Rajavole. It involves

a

a claim to 20 Gootaes of Government waste land and though the extent is small the Ryots are extremely jealous of such encroachments, and if the land in truth belongs to Rajavole I be transferred to the Calastry Zemindar, it may subject them to much inconvenience and loss. I consider it therefore on their account as well as on that of Government desirable that the Provincial Court may have the merits of the case laid fully before them. There is the strongest reason to consider the Calastry Zemindars claim as regards Rajavole an unjust one, The Ameen made his measurement according to the limits pointed out by the appellants party, which brought them within the boundary line virtually admitted by a judicial decree as the boundary line of the Rajaole Village.-

7. I beg to send an amended Draft of an appeal answer in which I have omitted what does not immediately apply to the Rajavole Village

though as I have already observed when the witnesses for both claims are the same persons, remarks which impeach their Credit in respect to one claim, must indirectly affect it on the other.-

8. I should mention in Conclusion that the further period allowed by the Provincial Court to file the appeal answer will escpire on the 15th. Instant.-

Nellore. - - - -

No. 1.

No. 45 of 1841. on the file of the Provincial Court of Appeal Northern Division.-

To The Provincial Court of Appeal
Northern Division
Masulipatam

Appellant

Respondents.-

Hoomday Rajaha Rayay.
Damara Coomara - - - -
Veneatapanaidoo Bahadeer.
} Versus. Salatoor Boochia & 17 Others.-

Answer filed by the Government Vakeel of the Provincial Court on behalf of J. C. Stonhouse Esqr. Principal Collector of the Nellore Zillah being the

the 17th Respondent in the above suit.-

As a perusal of the Record in the original suit will Convince the Provincial Court that the appellants' statement that a portion of the land in dispute was encroached upon by the Villagers of Rajavole is quite undeserving of belief it is not necessary to state at length any thing to disprove his statement; but as the Appellant has, in supporting this claim, laid in the original suit set forth in his appeal Plaint that the original decree was granted on 8 Reasons and Considers to have given satisfactory explanation for those reasons, it has been Considered essential to state briefly the objections to which his explanation is subject, in as far as it regards the Village of Rajavole situated in Woodiagherry Talook under the immediate management of the 17th Respondent.

1st The appellants' 1st witness in

in the original suit deposed that the marasadinna which the appellant as original Plaintiff stated to be the joint boundary of the three Villages of Rajavole, Doobageonta and Bheemavarum, was situated at the distance of 8 fathoms to the south of Woolindamanepoottah, while the appellant had stated it to have been situated to the north of it and that there was no joint boundary stone on that marusadinna to be seen from the time he had a knowledge of the world. The 2d Witness asserted that there was the boundary stone on that Dennay. The 3d witness deposed that there was Nalagarayo to the south of woolindapoodepootta, which he was given to understand to be the joint boundary. The 4th witness declared that he knew nothing about the boundary limits previous to the measurement made by Caumaraauje singiah; that when he appeared as a witness in No. 330 of 1827, he stated Pootta to be the mooyyala or joint boundary in

in stead of Dinna and that the dis-
tance between the Poottu & Dinnay ex
was 1 fathom. The 5th witness speaks
that the Poottu was situated at a dis-
tance of 10 fathoms from the Dinnay
and that there was no stone on it for
the last 7 ex 8 years. The 7th witness
deposes to having seen the boundary
stone on the Morasadinnay 10 years ex
ago, while the 8th witness alleges that
he had never seen a stone on the
Dinnay. The evidence adduced by the
appellant abounds with so many ex
Contradictory statements as regards
the important point of the Mooyyalu or
the joint boundary of the three Villages
above alluded to and it is left for ex
the consideration of the Provincial Court
how the 5th & 7th witnesses were able
to see the joint boundary stone / the
former 7 or 8 years ago and the latter
10 years ago / which the 8th witness
who

who is also an Inhabitant of ex
Bheemavaram and who as a
renter enjoyed profit and suffered
loss from the Village, had
himself admitted never ha-
ving seen the stone. In the
Document C, the boundary
limit situated close to his ex
Village and to Rajavole and
Doobagoontah Villages was stated
to be Casavolaganyoonta. This
part of this Document is quite
at variance with his statement
ex the original Plaint, that
Morasadinnay was the joint
boundary

Fort St. George 10th November 1842.

boundary of Rajavole, Doobagoon-
-ta, and Bheemavarum Villages
and with the Document marked
F invented to support that state-
-ment. Moreover, in his Document
C. it was only stated that 200 Gorlos
of Bheemavarum Village were included
in Doobagoonta lands, but no allusion was
made in it about Rajavole Village.
From the Document D it
will be seen that the
Doobagoonta

Fort St. George 10th November 1842.

Doobagoonta Villagers complained that
Cannavarauze Singiah Tahsildar caused
the lands of Bheemavarum and Chandra-
pand Villages to be measured under
Doobagoonta, and it appears from
the Document E that the Bheemavarum
people stated at that time that a cer-
-tain extent of their lands was included
in the Doobagoonta Village northeast
direction. Thus it will be observed
that there is nothing in these two
Documents in support of the appel-
-lants' claim as regards Rajavole
Village, while on the contrary the
Document E supports the defence
of 17th and 8th Defendants in the original
suit.

As regards the Document F
which was maintained to be the most
important to the Appellants' claim,
it is to be observed that the Document
was never spoken of before any Autho-
-rity previous to its having been
filed in this suit nor was it produced
as it ought to have been either at the
time.

boundary of Rajavole Doobagoon-
-ta, and Bheemavarum Villages
and with the Document marked
F invented to support that state-
-ment.- Moreover, in his Document
C. it was only stated that 200 Gorlos
of Bheemavarum Village were included
in Doobagoonta lands, but no allusion was
made in it about Rajavole Village -
From the Document D it
will be seen that the
Doobagoonta

Doobagoonta Villagers complained that
Cunnavarapu Singiah Tahsildar caused
the lands of Bheemavarum and Chendra-
pand Villages to be measured under
Doobagoonta, and it appears from
the Document E that the Bheemavarum
people stated at that time that a cer-
-tain extent of their lands was included
in the Doobagoonta Village northeast
direction. Thus it will be observed
that there is nothing in these two
Documents in support of the appel-
-lants claim as regards Rajavole
Village, while on the contrary the
Document E supports the defence
of 17th and 8th Defendants in the original
suit.-

As regards the Document F
which was maintained to be the most
important to the Appellants claim,
it is to be observed that the Document
was never spoken of before any Autho-
-rity previous to its having been
filed in this suit nor was it produced
as it ought to have been either at the
time

time at which a Petition was stated to have been presented to the Collector by Bheemavarum people complaining that the Bheemavarum lands were included in Doobagaunta Village at which is the Document E, was deputed for enquiry at which time the renter of Bheema-varum presented a Matteen in No 330 of 1827 and in Extra No 291 of 1828 of this Court at the time the Document D. filed on behalf of the first-15 Defend-ants in the original suit, was executed by the Bheemavarum people on the 4th June 1827 nor does there appear the least reason for no allusion having been made about this Document in any of them although it may not have been actually produced. There are therefore strong grounds to lead to the inference that the said Document E had not been drawn out at the date which it bears and the Appellants claims has therefore been weakened by the Oral and Documentary evidence adduced by himself.

The

2 Para.

The Appellant, even in order to support unfounded claim ought to have necessarily inserted in the original Plaint the limits of the disputed land which he alleges to have been possible for the witnesses to point out and to have stated the particular Villagers who and when, as he observed have removed the boundary stone but such had not been the case, and the Appellant who seems to have known that the non-existence of boundary stones was the cause of others having encroached upon his land and that the people of other Villages removed the stones with the design of usurping his lands, should as Zemindar, have taken the necessary steps at the time of the stones being removed, to prevent its being done and he has not even given any explanation whatever for his not having done so nor does he seem to have ever agitated the matter before any public authority till now.

3 Paras.

If, as the Appellant observes, no evidence is to be required to support the Appellants Document E which it is neither

Fort St. George 10th November 1842.

neither a public Document nor one which had at any time before been produced before any public functionary and which is of such a nature as can probably and very easily be drawn out at any time the Appellant may wish to do it, it is also a matter of consideration that the people of all Villages situated around the Appellant's Village Bheemavaram would necessarily become sufferers when the zemindar may wish to encroach upon the lands of those Villages on the grounds of such documents. Had the Document B been a genuine one the Villagers of Pamarogodu between whom and the Bheemavaram Villagers this document is shewn to have passed ought to have a counterpart of it and it ought to have been produced in the circar on the disputation because Pamarogadu is a Government Shotrium Village. If any such Documents had really existed it would no doubt have been addduced

as

Fort St. George 10th November 1842.

as a proof in this suit, but no such thing seems to have ever taken place.

The inaccuracies and contradictions in the evidence adduced by the Appellant are innumerable, some of which have been already noticed in Para 1. Among his Witnesses the 1st is a nearest relation of the 2d Witness who is Curnum of Bheemavaram the Appellants Village under reference. The 4th Witness is the Village priest or Purchetoodu of the Bheemavaram Village & the 5th 6th & 7th Witnesses are also Cultivators of the same Village while the 8th was a renter of that Village and one who was entitled to Loss or profit as the case may be arising from the Village; which facts are of themselves evidents from the depositions delivered by them. It is therefore clear that they were naturally subject to Appellants orders and were actually obedient to him. Further the Appellant's 3d Witness who seems to have rented the Cunchu farming part of the disputed land deposed, that he was not

present

neither a public Document nor one which had at any time before been produced before any public functionary and which is of such a nature as can probably and very easily be drawn out at any time the Appellant may wish to do it, it is also a matter of consideration that the people of all Villages & situated around the Appellant's Village Bheemavarum would necessarily become sufferers when the remainder may wish to encroach upon the lands of those Villages on the grounds of such documents. Had the Document E been a genuine one the Villagers of Pamvogodavu between whom and the Bheemavarum Villagers this document is shewn to have passed ought to have a counterpart of it and it ought to have been produced in the Circar on the assumption because Pamvogadavu is a Tanerment Shutrium Village. If any such Document had really existed it would no doubt have been adduced as

as a proof in this suit, but no such thing seems to have ever taken place.

The inaccuracies and contradiction in the evidence adduced by the Appellant are innumerable, some of which have been already noticed in Para 6. Among his Witnesses the 1st is a nearest relation of the 2d Witness who is Curnum of Bheemavaram. the Appellants Village under reference. The 4th Witness is the Village priest or Purchetoodu of the Bheemavarum Village & the 5th 6th & 7th Witnesses are also Cultivators of the same Village while the 8th was a renter of that Village and one who was entitled to Loss or profit as the case may be arising from the Village, which facts are of themselves evidents from the depositions delivered by them. It is therefore clear that they were naturally subject to Appellants orders and were actually obedient to him. Further the Appellant's 3d Witness who seems to have rented the Cunchoe farming part of the disputed land. deposed, that he was not present

neither a public Document nor one which had at any time before been produced before any public functionary, and which is of such a nature as can probably and very easily be drawn out at any time the Appellant may wish to do it, it is also a matter of consideration that the people of all Villages situated around the Appellant's Village Bheemavaram would necessarily become sufferers when the Zemindar may wish to encroach upon the lands of those Villages on the grounds of such documents. Had the Document E been a genuine one the Villagers of Pannavgadoo between whom and the Bheemavaram Villagers this document is shewn to have passed ought to have a counterpart of it and it ought to have been produced in the Circar on the assumption because Pannavgadoo is a Conterminous Shotrium Village. If any such Documents had really existed it would no doubt have been adduced

as a proof in this suit, but no such thing seems to have ever taken place.

The inaccuracies and contradictions in the evidence adduced by the Appellant are innumerable, some of which have been already noticed in Para 1. Among his Witnesses the 5th is a nearest relation of the 2d Witness who is Curnum of Bheemavaram. the Appellants Village under reference. The 4th Witness is the Village priest or Pourchetoodoo of the Bheemavaram Village & the 5th 6th & 7th Witnesses are also Cultivators of the same Village while the 8th was a renter of that Village and are who were entitled to Loss or profit as the case may be arising from the Village, which facts are of themselves evidents from the depositions delivered by them. It is therefore clear that they were naturally subject to Appellants orders and were actually dependents to him. Further the Appellant's 3d Witness professes to have rented the Lunches forming part of the disputed land. deposed, that he was not present

Fort St. George 10th November 1842.

present when the cowle, alleged to have been granted to him was drawn out, that he had it not in his possession, that as Gouravapa Naidu one renter of Bheemavaram Village had given the cowle rolled up into his hands and as he had not read it, he did not see what was the size of the cadjan, and that he did not execute a Mootchelika being the counterpart of the cowle granted him. The 2 Witness deposed that both the cowle and Mootchelika were drawn out about the sale of the Cunchoo to the 3d Witness that he was the Writer of them, and that the cadjan on which the cowle was drawn out was a little less than 1 cubit long in size. The 5th Witness deposed that the 3d Witness was present when the cowle was drawn out. These and such other contradictions are of themselves evident from the Records. Under this consideration the Acting Judge did not deem it necessary to state them at length and has only noticed in his decree that there were contradictions in the evidence and so forth.

The

Fort St. George 10th November 1842.

The Appellants objections therefore on this point are quite improper.

Whatever may have been the way in which the enquiry and measurements were conducted by the Ameens, it will be seen from the evidence that of the Appellant & Witnesses that that portion of the disputed land which the Appellants alleges to have been usurped by the Rajavale Villagers is situated within the limits distinguished by stones fixed by the Tahsildar former yr. and was under the Village of Rajavale. Above all that very portion of the disputed land was decreed to belong to the Rajavale Village in Suit No 330 of 1824 on the file of the Nellore Zillah Court. The Appellants people in their Motions and Argees presented to the public Authorities before the institution of the present suit had only urged that Bheemavaram lands were included with those of Daabagaunta and those of Daabagaunta with Rajavale but it was no where asserted by them that any portion of Bheemavaram lands was encroached upon by Rajavale people. while such had been the

Fort St. George 10th November 1842

case, the Appellants has not at all stated in the Plaint the cause of his now claiming that 20 Cartaus of the disputed Land was encroached upon by Rajavale people— Under these circumstances it is clearly to be considered that the land which appears from the Original answer to belong to Rajavale appertains beyond all doubt to Rajavale.—

8th Para

The 5th Witness for the Appellant in the original suit stated that the land in dispute consisted of 100 or 180 Cartaus, of which 160 were under the Dambagaonta and 20 under Rajavale Villages— The 5th Witness deposed that he heard the disputed land to have been 120 Cartaus, of which 100 Cartaus were included in Dambagaonta and 20 in Rajavale Villages— Besides this, it was stated (as remarked in para 11th of this answer) in the Motion presented in Extra No. 291 of 1828 that 200 Cartaus of Bheemavaram land was encroached upon

Fort St. George 10th November 1842

upon by Dambagaonta people— In contradiction to this Motion, the 8th Witness for the Appellant, who was the said Motainer, declared that 180 Cartaus were included in Dambagaonta and 20 in Rajavale Villages— While such has been the discrepancies in the evidence on his behalf on most important points, it is improper in the Appellant to state useless objections as regards the extent of the disputed land as found by measurement— It will be sufficient to state in this place that it was not the province of the Ameen deputed to measure the disputed lands in the Original suit to have stated at length certain objections— quite irrelevant to the Commissioner entrusted to him against the Decision in No. 330 of 1827 and as this useless and improper observations on the said decree are of no avail it has not been considered necessary to state any thing in refutation thereof.—

In concluding, the Government Vakeel

Fort St. George 10th November 1842

case, the Appellants has not at all stated in the Plaint at the cause of his now claiming that 20 Cartaus of the disputed Land was encroached upon by Rajavale people— Under these circumstances it is clearly to be considered that the land which appears from the Original answer to belong to Rajavale appertains beyond all doubt to Rajavale.—

8th Para

The 5th Witness for the Appellant in the original suit stated that the lands in dispute consisted of 100 or 180 Cartaus, of which 160 were under the Dambagaanta and 20 under Rajavale Villages— The 5th Witness deposed that he heard the disputed land to have been 120 Cartaus, of which 100 Cartaus were included in Dambagaanta and 20 in Rajavale Villages— Besides this, it was stated (as remarked in para 16 of this answer) in the Motion presented in Extra No. 291 of 1828 that 200 Cartaus of Bheemavaram land was encroached upon

Fort St. George 10th November 1842

upon by Dambagaanta people— In contradiction to this Motion, the 8th Witness for the Appellants (who was the said Motainer) declared that 180 Cartaus were included in Dambagaanta and 20 in Rajavale Villages— While such has been the discrepancies in the evidence on his behalf on most important points, it is improper in the Appellants to state useless objections as regards the extents of the disputed land, as found by measurements— It will be sufficient to state in this place that it was not the province of the Ameen deputed to measure the disputed land in the Original suit to have stated at length the certain objections— quite irrelevant to the commission entrusted to him, against the Decision in No. 330 of 1827 and as this useless and improper observations on the said decree are of no avail it has not been considered necessary to state any thing in refutation thereof.—

In concluding the Government Vakeel

14314 Fort St. George 10th November 1842.-

Vakeel prays for the 14th Respondent that the Provincial Court will take into their deliberate and just consideration the whole of the original and Appeal Records in the case and confirm the Decree passed by the Acting Judge of Nellore as far as it regards Rajavole and direct the Appellants to bear all costs incurred by the 14th Respondent in the Appeal Suit.-

From Do November 3d in Cons 10th

The correspondence noted in the Margin with the Principal Collector of Nellore has reference to a Suit in which he was made a party by order of the Court in succession to the late Jaghiredar of Cadiapherry. The original suit was brought against the late Jaghiredar and 17 others to recover 200 Goomtahs of land from two Villages and the Jaghire having become forfeit before adjudication, though it would seem, after the completion of the pleadings, the Principal Collector was made a defendant in lieu of the Jaghiredar. The case was subsequently decreed against Plaintiff who has appealed in the Northern Provincial Court and the Principal Collector seeks authority to defend the appeal at the public cost.

2. It will be seen that the Board declined to recommend the Appeal defence of the Suit as respects one of the two Villages because they were not persuaded of the right of Respondents in part of the Question and because the interests of Government were in no way implicated. Mr Stonhouse then submitted a fresh Draft of answer designed to meet the appeal as concerns the other Village only. This Draft may the Board think, be much abridged with advantage, and they have accordingly prepared a revised one, which is herewith submitted for approval and I am directed to request sanction for

A

Revised Draft of Answer of 17th Respondent in O. S. 45 of 1841 Northern Provincial Court.

The Answer of 17th Respondent will only refer to the claim on Rayavole Village as that against Doopagoontah does not concern the Government, for whom he acts and the merits of the case being fully set forth in the pleadings in O. S. the 17th Respondent will limit his answer to some remarks on the evidence for appellants

In Document C. the Tank called Cassoola Gonigoontah is stated to be the boundary: this is opposed to appellants allegation in O. S. that the Moorasadinnay was the joint boundary of the three Villages Bheemaveram, Doopagoontah and Rayavole whatever might be the contents of this Document, it could not be of value against the

Fort St. George 10th November 1842.

the Respondents, because it is only an ex parte Statement made by the Villagers of Bheemaveram who are parties in this case.

2. With regard to the existence of a boundary mark at the Moorasadinna as appellant maintains, the Provincial Court will observe that the evidence on that point is so contradictory as to be worthless, witnesses 1, 2, 3, 4, 5, 7 and 8 speak on this point some say there is not and never was a boundary mark on the Moorasadinna, others that they saw one, 7 or 8 years ago, others that something else at some distance from the Moorasadinna is the common boundary, but the testimony of 8th Witness a principal inhabitant and the renter of the Village is of most value, and he deposes that he never saw such a boundary stone on the Dinna The 17th Respondent would also point out to the Provincial Court that all the Witnesses are parties concerned in the suit The 1st is closely related to the 2nd who is Curnum of Bheemaveram, the 4th is Poonoolatom, and the

Fort St George 10th November 1842.

the 5th 6th and 7th are Cultivators of the same Village and the 8th as already said, as the Renter of it.

3.

Document F professes to be a Register of the Boundaries of Bheemaveram as Village drawn up 69 Years ago. This important Document was never heard of till now produced in this Suit it was not brought forward or even mentioned either when 0 Defendants Document D was executed by the Bheemaveram people in 1824 or when the Bheemaveram people complained to the Principal Collector that their lands were given by the Tahsildar to Doopragoontah and when the Auneen deputed by the Zillah Court in O.S. 330 of 1827 inspected and measured the land or when the Renter of Bheemaveram (8th Witness) presented a motion to the Court complying of that Auneens measurement as unjust. This is satisfactory proof that the Document is a forgery, and was justly rejected by the Acting Zillah Judge as such no evidence whatever was offered in support of it, and it is also to be observed that if it were genuine the Poonoogoodoo people, between whom

which

Fort St George 10th November 1842.

which Village and Bheemaveram it is stated to have been passed, would have had a counterpart and as that Village is a Shroteium would have produced it at the assumption of the Country

4. The evidence regarding the alleged lease of the disputed land to 3rd Witness by appellant is likewise contradictory, the 2nd 3rd and 5th Witnesses contradicting each others as to matters of fact as already observed, too, these Witnesses are interested in the Suit.

5. With reference to the claim now advanced against Rayavole it is further to be noticed, that appellants Document C, which is a complaint from the Capoos and Curnums of Beemaveram to the Principal Collector, concerning the alleged encroachment on their lands alleges that 200 Goontahs had been taken by Doopragoontah making no mention of Rayavole whereas now 180 Goontahs are claimed from Doopragoontah and 20 from Rayahvole and the 8th Witness who as renter presented Extra Motion 291 of 1828 in the Zillah Court there stated that 200 Goontahs

had

the 5th 6th and 7th are Cultivators of the same Village and the 8th as already said, was the Renter of it.

3- Document F professes to be a Register of the Boundaries of Bheemaveram Village drawn up 69 years ago. This important Document was never heard of till now produced in this Suit it was not brought forward or even mentioned either when O. Defendants Document D was executed by the Bheemaveram people in 1827, or when the Bheemaveram people complained to the Principal Collector that their lands were given by the Tahsildar to Doopagoontah and when the Auneen deputed by the Zillah Court in O. S. 330 of 1827 inspected and measured the land or when the Renter of Bheemaveram (8th Witness) presented a motion to the Court complying of that Auneens measurement as unjust. This is satisfactory proof that the Document is a forgery, and was justly rejected by the Acting Zillah Judge as such no evidence whatever was offered in support of it, and it is also to be observed that if it were genuine the Poonoogoodoo people, between whom

which Village and Bheemaveram it is stated to have been passed, would have had a counterpart and as that Village is a Shrotrium would have produced it at the assumption of the Country.

4- The evidence regarding the alleged lease of the disputed land to 3rd Witness by appellant is likewise contradictory, the 2nd 3rd and 5th Witnesses contradicting each others as to matters of fact as already observed, too, these Witnesses are interested in the Suit.

5- With reference to the claim now advanced against Rayavole it is further to be noticed that appellants Document C, which is a complaint from the Capoos and Curnums of Beemaveram to the Principal Collector, concerning the alleged encroachment on their lands alleges that 200 Goontahs had been taken by Doopagoontah making no mention of Rayavole whereas now 180 Goontahs are claimed from Doopagoontah and 20 from Rayahoole and the 8th Witness who as renter presented Extra Motion 291 of 1828 in the Zillah Court there stated that 200 Goontahs had

had been taken by the former Village, whereas in contradiction to that he now says that 180 were taken by the former and 20 by the latter.

6. In conclusion, the 17th Respondent prays the Court after considering the facts of the case and these failures and contradictions in the evidence for the appeal to reject the claim on Rayarole and recover for him his costs from the Appellant.

Proceedings thereon.

Read again letter from the Acting Principal Collector of Cuddapah dated 21st Ultimo and entered in Consultation 3d Instant.

Mr. Arbuthnot states that at the time of the assumption of the Country when the Original Assignment of the Villages of Cherlopilly and Murrenakolapilly together with a separate piece of land in the Gurrumcondah Talook was confirmed by Sir Thomas Munro for the support of the Tomb in question the Revenue administration of them was in consequence of the family of the deceased residing at Mysore

Mysore entrusted to a Darogah supported out of the Grant itself. A short time subsequent to this event he adds that the Amildar was directed to exercise a general Supervision over the Darogah both as regarded the management of the Villages and the disbursement of the proceeds in the payment of the Establishment at the Tomb. This System brought the accounts under the Eye of the Collector and hence a degree of General control has since been Exercised by the local authority.

It does not appear however that an actual resumption of the Villages has at any time taken place the interference on the part of Government having been limitted to a general control and supervision in their affairs with a view to check abuses and secure the distribution of their proceeds to the objects contemplated by the Grant.

Under these circumstances the Board of Revenue see no reason for withholding from the Head of the

the family the present Meer Mahamed Alli Khan, the uncontrolled management of the Villages and piece of land above alluded to and they accordingly directed that they be made over to him without delay and that all interference by the Government authorities with the future distribution of the proceeds be forthwith discontinued.

Read again letter from the Acting Principal Collector of Cuddapah dated 22nd Ultimo and entered in Consultation 3rd Instant.

(42)

Proceedings thereon.

As it appears from the foregoing report that the land to which the Petitioners lay claim belongs to the Zemeens in whose possession it has been since fusly 1231 and that the Petitioners are merely Sub renters, the Board record the following Endorsement on their address No 1380. of 1842.

Endorsement.

From the A.P.C. of Cuddapah.

Reporting upon the Settlement of the Land Revenue of the Bungapully Jaghire for Fusly 1251. as well as on the adjustment of the debts of its Jaghirdars.

Read the following letter.

To The Secretary to the Board of Revenue Fort St. George.

Sir,

I have the honor to submit a report on

1. the Settlement of the Bungarapully Jaghire for Fusly 1251. The settlement was concluded by the

2. sub Collector Mr. Cotton before I joined the District.

3. Although the season was on the whole rather favorable than otherwise, the Jaghire is by no means in a satisfactory or flourishing condition, and had it remained under my charge it was my intention to have proceeded there, with a view to ascertain whether an entire charge of System might not be desirable. The Board are aware that the Jaghire has never been surveyed and the assessment on the lands is much too high. The consequence is that there are always large balances outstanding at the close of each year, unless the amount that ought to be realized is definitively fixed, a great deal too much must always be left to the discretion of the Amildar.

4. The Reddies of many Villages in the Jaghire receive no remuneration for the duties which they ought to (but consequently do not) perform. Such Villages previous to the assumption of the Jaghire were either assigned to creditors for the payment of debts or rented out. Under such circumstances the cultivation has been gradually falling off, and it was my intention as the Jaghire is only temporarily under our management to have proposed a System of Annual rents always giving the principal inhabitants a preference to strangers in the event of their offering any thing like fair terms. I had ascertained that the Jaghirdar was very favorable to the introduction of such a system.

5. The following Statement exhibits the Beriz of the Jaghire and remissions that have been granted in the past compared with the preceding Fusly.

Fusly

The

14327 Fort St. George 10th. November 1842.

6. The demand, collection and Balance of the Jageer was as follows.

	Ps	A	P
Demand	111519	15	3
Collections within the Fusly	94300	1	10
Balance at the close of the Fusly	17219	13	5
Subsequent Collections	682	11	6
Remaining balance	16537	1	11

7. This large amount of balance is to be attributed to the high Assessment of the lands, the reduced circumstances of the Ryots and the low prices of grain in Fusly 1251.

8. The following is a statement of the arrears outstanding in this Jageer.—

14328 Fort St. George 10th. November 1842.

		Balance at the close of the Fusly 1250	Collections in Fusly 1251.	Balance	Remaining
		Ps. A. P.	Ps. A. P.	Ps. A. P.

"	1245	13850 13 9	12306 5 5	330 12 33	19 1
		40186 5 5	36224 3 5	1556	5023 6 4 1

9. It was proposed to enter into an enquiry into this arrears at the last settlement, But Mr. Cotton had so much important business on his hands at that time, having the charge of both the principal and Subordinate Divisions, that he was unable to enter upon an enquiry which would have occupied himself and his Establishment for so long a time. It is however a matter of great importance, and ought to be commenced upon as soon as possible. I had made arrangements for proceeding to the spot for that purpose on the 15th. instant, but the intimation that the charge of the Jaghueer was to be transferred to the Commissioner of Kurnool put a stop to my proceedings.

Para 7

10. With reference to the balance for Fusly 1246 being the Amount misappropriated by Rama Row late Cash Goomastah in the Jaghueer, the Board of Revenue in their proceedings under date the 16th. December 1841, remarked, that the "measures reported in respect to the recovery "of Rupees 1749 embezzled by Rama Row are by no means satisfactory, this individual having been committed to Jail "on a distinct charge of embezzlement should "not have been so immediately released except

"except upon the discharge of the full Amount, or upon "his giving the most ample security, which would seem "not to have been required; for as far as the Board "can judge the produce of his Enam land the only "tangible security he gave, amounted in two years "only to Rupees 83. 10. 9. The Board desire to know "whether this is the full value of the Enam land, and "whether this individual has any other available "resources" and again in their proceedings dated 12th. "September 1842 it is remarked, "that the sums already "realized from this individual should be carried "to the credit of the Jaghueer." On the subject I beg leave "to submit the following explanation.

Para 10

11. Shortly after Rama Row was committed to Jail Mr. Blane ascertained that he had no property except the Enam above referred to, and a house, which, although built at a cost of Rupees 150, could not be disposed of at any price, ordered the enam to be attached, and the funds to be credited on account of the embezzlement. He was of opinion that the detention of the above individual in Jail, would merely entail further loss as Batta and he therefore ordered his release.

12. The following Statement exhibits the extent and outturn of the Enam.

Total

14331

Fort St. George 10th November 1842.

	Deduct Remaining land attached by the Circar	Deduct land rented as a land attached by the Circar	Remaining land attached by the Circar	Amount Collected on the Land entered in Col. 6

" 1251	1 12 "	5 "	11 "	22 "	"
				136 "	"
				Average 34 "	"

N.B. Reasons to the attachment of the Enam lands of debts One of those periods expired in Fasly 1250 another expired with the present Fasly and the remaining one extends for 10 years more.

14332

Fort St. George 10th November 1842.—

From the above statement it will
13. be observed that the collections have not averaged
more than Rupees 34. There will be a slight increase
of 6 Rupees from the commencement of the Fasly,
as a 2d lease has now expired which will reduce
the portion still leased out to 2 Coodoos—

Of the amount of Rupees 323. 3—1
14. being the proceeds of the sale of his property re=
=ferred to in the Proceedings of the Board of
Revenue on the settlement for Fasly 1250, Rupees
83. 10. 9 have been erroneously credited to the Head
of Extra Revenue as reported in para 22 of the report
on the settlement for Fasly 1249, and the remaining
amount Rupees 263. 10. 10 which includes the amount
subsequently collected on the same account has been
carried to the credit of the Jagheer. There will still be
a balance of Rupees 1485. 12. 11. to be collected hereafter.

Rama Row is now in the service
15. of one of the Members of the Jagheerdar's family and
supports himself by the scanty wages he receives—

The following Statement exhibits
16. the demand from all Sources in the Jagheer
for Fasly 1251.

20. For some years the amount collected in each year was not distributed in the same years to the Sageerdars and the Creditors; but in Fusly 1249 a full adjustment was made of all previous collections. Since that period at the close of each fusly the total amount of Revenue realized is divided at the rate of 1/4 th to the Sageerdars, and the remaining 3/4 ths to the creditors, in proportion to the Amount of their debts.

21. The following Statement exhibits the original debts of the Sageerdars, the Amount forgiven by the Creditors at the time of adjustment, the Amount liquidated up to Fusly 1251 and the balance still due.

24. I fear that the Board of Revenue will be of opinion that I have entered into many unnecessary details in regard to the Jageer, but as I have received instructions to transfer the charge of it to the Commissioner at Cuttack, I propose to forward a Copy of communication to that Gentleman together with such statements as may be necessary to place him fully in possession of the present condition of the Jageer and the debts still due upon it.

Cuddapah District

Order thereon. Ordered to be sent again in circulation.

Read again letter from the Collector of Chingleput dated 31st August 1841 submitting Statements of the Settlement for Fusly 1250 A.D. 1840-41.

1st Cons. 9th Sept. 1841.

46

Proceedings thereon. Para 1. All tho' the season is admitted to have been an average one, the Plains by falling at unreasonable intervals, diminished the good effects which otherwise might have been expected from their abundance.

Relative to the Settlement of the land Revenue of the District of Chingleput for Fusly 1250.

Encl 3

The consequence was a very considerable decrease in the cultivation of Dry Land; whilst as regards Wet Land, the cultivation could not be carried on to the same extent as in the preceding year, owing to the heavy and sudden falls of rain which occurred in the early part of the season, and the consequent necessity there existed for letting off a portion of the supply thus received into the Tanks and Reservoirs, and the subsequent disappointment of the Ryots expectations of an additional supply nearer the close of the monsoon. These accidents would seem to have had not only an injurious effect

Para 2.

46

Proceedings Relative to the Settlement of the Land Revenue of the District of Chingleput for Fusly 1250.

Para 3

Para 1. Altho' the season is admitted to have been an average one, the Rains by falling at unreasonable intervals, diminished the good effects which otherwise might have been expected from their abundance. The consequence was a very considerable decrease in the cultivation of Dry Land, whilst as regards Wet Land, the cultivation could not be carried on to the same extent as in the preceding year, owing to the heavy and sudden falls of rain which occurred in the early part of the season, and the consequent necessity there existed for letting off a portion of the supply thus received into the Tanks and Reservoirs, and the subsequent disappointment of the Ryots expectations of an additional supply nearer the close of the monsoon. These accidents would

Para 6. seem to have had not only an injurious effect

effect on the wet crops generally, but to
have occasioned a decrease in the late
Para. 7. Wet cultivation (Navary) as well as an
actual loss in the crops sown. It is
further stated that the supplies
usually drawn from the Palar did
Para 8. not extend beyond the Cavaripauk
Tank in the Northern Division of
Arcot. The Gale in May also
" 9 & 10. caused considerable damage in
some places to the Navary
crops when almost ripe for the
sickle.

In the comparative
Statement submitted by Mr. Freese it
appears that in 1565 Villages
under Ryotwar settlements
owing principally to a
decrease of Cultivation in Fusly 1250, there
is a decrease in the Net Settlement of
the Land Revenue, including all
Villages under different modes of Settlement
below that of Fusly 1249 amounting to Rupees
A.D. 1839-40
47235-15-9 or 4 per cent. The Board in order to
extend the comparison have caused
to be prepared the subjoined Statement

	Nunjey	Crop	Canonies
		1st Crop	14,26
		2nd Crop	2325
	Punjey		12,363
	Garden		35.

Abstract

exhibiting the results of Fusly 1248, the first A.D. 1838-39 year of the introduction of Ryotwar Settlements in comparison with Fusles 1249 and 1250.

In

Fusilies	Extent of Land Cs. G. as. Rs. a. p.	Beriz
1249	57523-11-8-36	3513-13-9
1250	57933-6-14-36	1930-4-10
Difference	409-11-6	
	Decrease	1583-8-11

3. In the foregoing Statement it is seen that altho' in Fusly 1250 there was an increase of Cawnies 409—11—6 under the head of Villages recently assessed, over Fusly 1249, there was a decrease of Beriz Rupees 1583-8-11 which the Collector is requested to explain.

4. The attention of the Board has been drawn to the details of Kunjey Cultivation in the Manimungalum Talooks in the last three years, and it is observed, as shewn underneath, that whilst there is a very considerable increase in extent, as well as the aggregate amount of assessment during the two last years of the series, yet that the average per Cawny has fallen off to a degree demanding attention. The Collector is requested to state whether this is attributable to a over extended Cultivation of Lands assessed at an inferior rate, or to what other cause.

Fusilies	Extent of Kunjey Land Cs.	as.	Assessment Rs.	a	p.	Average per Cawney Rs.	a	p
1248	6417	4 10/16	35660	1	7	8	1	2
1249	6476	1 1/4	47445	3	5	7	5	2
1250	6338	11 2/16	46717	7	8	7	5	11

5. The changes under the heads of Shotrium Villages and Mucta and Permanent Rents, are insignificant and do not require notice.

Para 12-13, 11, 14, 15

6. Four Villages purchased on account of Government under sanction dated 29th Octr. 1840 12th October 1840, were transferred from the head of Jary Zemindary to that of Rented in Fusly 1250.

7. The rent of these Villages is the Merasidars on a Dowle or Estimate of the Crops involved a loss of Rs. 688.7-9 below the Permanent Beriz which is attributed

attributed by Mr. Freese partly to a falling off in the cultivation and partly to the low price of grain in the neighbouring markets. It is expected that under better arrangements, and in consequence of the repairs which the Reservoirs have undergone, the revenues of these Villages will exceed the amount of the Permanent Beriz. Mr. Freese also reports that the lands of these Villages have been surveyed and assessed on the same terms as in the lately surveyed Villages.

Para 16. 8 Comparing the results of the settlement in all the Ryotwar Villages with the permanent Beriz. there is a net Decrease of Rupees 27,164-14-5 or 3 3/16 per Cent whilst in the details Mr. Freese observes there is a decrease of 34,476-1- or 7½ per Cent in the Villages formerly assessed and an Increase of Rupees 6,811-2-7 or 1 9/15 per Cent in those lately brought under the Ryotwar system upon the Survey conducted by Mr. Maclean. as compared however with the revenues of the preceding fusly Mr. Freese further observes there is a net decrease amounting

	Formerly Surveyed Village			Newly Surveyed Village		
Permanent Settlement	461335	"	"	408365	"	"
Three years average	413631	"	"	389118	"	"
Decrease	47703	"	"	19241	"	"
Per Centage	10	6	"	4	12	"

to Rupees 46381-13- or 5½ per Cent a comparison between the settlement of any one particular year and the permanent settlement can lead to no satisfactory conclusion in favor or against the survey- if an average of the settlement of the last 3 years be taken the result exhibited is a considerable decrease both in the formerly assessed Villages and in those recently assessed.-

Para 18. 9. The total amount of remissions in fusly 1250 was less than in fusly 1249 in the sum of Rupees 366-10-11 altho this reduction is small as a whole it is satisfactory to observe that under the principal heads the

	Ds a. p.	
Shanlat Bunjer	2174-2-4	decrease in very considerable. The
Shavi	5134-11-5	causes which have swelled the
Payamaleo	1899-3-3	amount of remissions in fusly

1250 are certain increases arising out of a greater extent of land taken up under Cowle and others under the heads of Phalanustom (loss of produce) and Vettoopaul or loss seed

×	Ds a. p. 2342-12-7-
°	2954-13-7-
#	1112-12-4-

loss seed sown without germinating.

10. These Remissions alike as regards Increase and Decrease are satisfactorily explained in Paras 19 to 22 inclusive, and it only occurs to the Board to draw Mr. Freese's attention to the remissions under the Head of "Ponjey Crops perished" and "Bagayet or Garden" in Statement No. 23 which being unusual require explanation; and lastly to the "Roomauds deductions" the propriety of which, without further information, which it is requested may be submitted, is not apparent.

11. The subjoined results taken from a comparative Statement of Remissions prepared in the Board's Office, in Fuslies 1248 1249 and 1250, or since the introduction of a Ryotwar Field Assessment, show that under those heads which it was necessary to press on Mr. Freese's attention on a former occasion with a view to reduction, the desired object has been attained, whilst under one head there is a considerable increase which Mr. Freese ascribes

to the greater extent of waste lands cultivated under cowles on a progressive sale of rents than in Fusly 1249. These cowles Mr. Freese observes were obtained by the resident Meerasidars and Pycarries of the respective Villages, and in some instances by the neighbouring Sookavasy ryots. The Board are not prepared to advocate the indiscriminate grant of waste on Cowle they think that to the Kuddeem Ryots of the Village it should only be given when the partees have cultivated their usual kyput, and that strangers should only be allowed to take up waste land paying full teerwah. The separate report upon the 5 Cowles referred to at the conclusion of Para 22 has

14356 Fort St. George 16th November 1822

has been received and will be submitted to Government with a separate communication.-

Fr. Govt. 17th Octr. Dr.
Fr. Govt. 15th Nov. Dr. in Cons 21st "

With adverence to the orders of Government contained in Para 2 of the Extract Minutes of Consultation under date the 10th August last, directing the Board of Revenue to report what has been done relative to the introduction into the Salem District of the real Nutmeg plant from the District of Tinnevelly to which reference is made in the correspondence noted in the margin. I am directed by the Board of Revenue to request that you will lay before the most Honorable the Governor in Council the accompanying letters from the Acting Collector of Tinnevelly and the Principal

Collector

Fort St. George 1st November 1842.

Collectors of Salem dated respectively the 2nd of September and 22nd October 1842.

2. From these reports it appears that an assortment consisting of 10 dozen young plants was furnished to the Principal Collector of Salem from the Gardens in Tinnevelly in month of January last and were distributed to parties having land on the Shevaroy Hills the Talook of Salem, with the exception of a small quantity transmitted to Mysore the greatest portion of which would seem from the enquiries made by Mr. Ogleg to be in a thriving condition.

3. It occurs to the Board however that the Principal Collector in confining the distribution of the young plants to the Shevaroy Hills as would appear to have been the case from his present communication, has entirely overlooked the object originally contemplated by him as mentioned in his letter of the 3rd October 1839 which was stated to be the introduction of the real Nutmeg into the Calamully range of Hills in a District where a wild plant of this species flourishes the fruit of which Mr. Ogleg observed was sold to a merchant for the purpose of mixing with and adulterating the Nutmeg of Commerce.

4. It will be for Government to determine how far the suggestion in the 2nd para of Ogleys letter is deserving of being followed out.

Revenue Board Office,

Read the following letter

To
The Secretary to the
Board of Revenue
Fort St. George

Sir,

I have the honor to acknowledge the receipt of your letter of the 6th Instant referring me to the proceedings of the Board of Revenue dated the 3rd September 1840 upon the subject of Quit rent in the District of Trichinopoly.

(52)

From the Collr of Trichinopoly States that the enquiries regarding the situation of the 9 Grants of land in the Trichinopoly district has been unavailing.

Para 1

2 I regret to state that my enquiries regarding the situations of the 9 Grants of land alluded to have been unavailing, the altered state of the Cantonments since they were issued rendering it utterly impossible to identify any places with the description of the Grants in question.

3 The Quit rent due on the ground occupied by the Vestry School has been collected and brought to account.

4 The total demand upon the extent of land according to the Register of Government Grants in my office from the date in which the

the Grants were respectively issued up to the end of the year 1838 in Rupees 23758-12-1. this sum however never appeared in the accounts as a demand which was referred under the orders of Government communicated in the Extract from the Boards Proceedings of the 26th August 1839 to Rupees 3647-5-7½ being the Amount of Quit rent on all registered Grants, exclusive of reserved rent which was altogether remitted for a period of five years viz. from the year 1834 to the year 1838 inclusive.

5 Of the above Amount Rupees 1838-"-" were reported to have been collected in my letter of the 4th August 1840. but Rupees 118-2-3 due on account of Quit rent in a year subsequent to the above period having been erroneously included the Amount collected in satisfaction of the demand in question was Rupees 1778-1-4 the Amount since collected is Rupees 321-4-½ making the total Collections Rupees 2099-5-½ and the balance Rupees 1547-7-7½

6 Of this balance Rupees

are the demand on the 9 Grants of which the sites cannot be discovered. Rupees 923-10-2 on the land attached to the Artillery Barracks formerly held by a private individual under a Grant and now the property of Government. and Rupees 178-14-1 on a compound for which a Grant was supposed to have been issued, but which the present propriator proposes to be ignorant of and who in consequence declines paying the demand unless the justice of it can be legally established which it would be utterly impossible to do from the very great difficulty of identifying the supposed site and the description in the Register. The Grant therefore, Viz. No. 1346 which I have in vain endeavoured to apply to other sites, must be added to the number of undiscovered sites, the numbers of which are entered in the Margin, and the sum which must be considered as irrecoverable is Rupees 1202-7 and I accordingly solicit sanction for writing off that amount to profit and loss in my Account.

Sir

With reference to the correspondence noted in the Margin I am directed by the Board of Revenue to request that you will lay before the Most Honorable the Governor in Council the accompanying letter from the Collector of Trichinopoly together with some further correspondence on the same subject.

2 It will be observed that the Collector has succeeded in discovering the sites of only two out of the twelve grants which he formerly stated to be undiscoverable. The quit rent chargeable on the remaining ten grants amounts to 876 — 8 — 10 and the Board recommend that sanction may be granted for writing off this sum, as well as 923 — 10 — 9 the amount due on the land now the property of Government and occupied for the Artillery Barracks total 1800 — 0 — 7 to profit and loss.

Principal Collector declined to grant the land on the ground that Section III Regulation XIX of 1802 was still in force and not rescinded by Act IV of 1837. Captain Vallancy having referred the matter for the orders of the Board of Revenue, a correspondence ensued the whole of which is herewith forwarded. In submitting these papers for the orders of Government I am directed to say that the only object of the Board is to obtain the decision of the general questions involved in the case which in its other parts presents no difficulties.

2 The considerations of national policy which caused the prohibitions against the holding of land by Europeans have been abandoned, and Act IV of 1837 was passed in consequence, and though that enactment does not contain a formal repeal of Section III Regulation XIX of 1802, yet the Board are clearly of opinion that it does in fact repeal it, otherwise it would be an unmeaning and useless law as permitting that which was allowed already. The objections against the holding of land by the European servants of Government rest on different grounds from the general prohibition, and the desire that all

Fort St George 10th November 1842

all the time and talents of their servants should be devoted to their public duties, and in regard to officers engaged in the collection of the revenue, a paternal concern for the interests of their native subjects may still influence Government to forbid their non official persons engaging in Agricultural speculations and if such is the feeling of Government it is desirable that their wishes should be declared as to whether or not the prohibition should extend to land managed not personally but by means of Agents, and in the case of Planters servants to land so held and managed be-yond the sphere of their own authority.—

3.

As there seems to be some doubt on these points it is desirable that the wishes of Government should be declared, and there is another connected with the same subject which appears to them also to need regulation.

30th June 1842.

The Board submitted to Government some time ago two applications for land on the Neilgherries to the Extent respectively of 2000 and 300 Acres advertising to the Comparatively limitted quantity of land so situated and of such description as to be objected to

Fort St George 10th November 1842

European speculator and as it is not unlikely that such applications may become more frequent than they have been, the Board think it important that some rule should be established as to the quantity to be given to one individual.

It seems also expedient that conditions should be annexed to all such grants specifying the times respectively within which given proportions of the land and the whole must be cleared, and that lines of road must be kept on through the tracts of country most sought after.—

Ordered.

Fusilies	Extent of Land Cs. G. as. Rs. a. p.	Beriz
1249	57523-11-8-36	3513-13-9
1250	57933-6-14-36	1930-4-10
Difference	409-11-6	
	Decrease	1583-8-11

3. In the foregoing Statement it is seen that altho' in Fusly 1250 there was an increase of Cawnies 409—11—6 under the head of Villages recently assessed, over Fusly 1249, there was a decrease of Beriz Rupees 1583-8-11 which the Collector is requested to explain.

4. The attention of the Board has been drawn to the details of Kunjey Cultivation in the Manimungalum Talooks in the last three years, and it is observed, as shewn underneath, that whilst there is a very considerable increase in extent, as well as the aggregate amount of assessment during the two last years of the series, yet that the average per Cawny has fallen off to a degree demanding attention. The Collector is requested to state whether this is attributable to a over extended Cultivation of Lands assessed at an inferior rate, or to what other cause.

Fusilies	Extent of Kunjey Land Cs.	as.	Assessment Rs.	a	p.	Average per Cawney Rs.	a	p
1248	6417	4 10/16	35660	1	7	8	1	2
1249	6476	1 1/4	47445	3	5	7	5	2
1250	6338	11 2/16	46717	7	8	7	5	11

5. The changes under the heads of Shotrium Villages and Mucta and Permanent Rents, are insignificant and do not require notice.

Para 12-13, 11, 14, 15

6. Four Villages purchased on account of Government under sanction dated 29th Octr. 1840 12th October 1840, were transferred from the head of Jary Zemindary to that of Rented in Fusly 1250.

7. The rent of these Villages is the Merasidars on a Dowle or Estimate of the Crops involved a loss of Rs. 688.7-9 below the Permanent Beriz which is attributed

14371. Fort St. George 10th November 1842

Ordered that the following letter be sent in reply:—

57-58.

To the Principal Collector of Coimbatore

To The Principal Collector of Coimbatore

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 7th October last submitting an Estimate of Extra charges proposed to be incurred in the Current Fusly 1252.

2. The Amount Estimated for the Jungamah Sibbendy for preparing the Jamabundy Accounts à Rupees 1800—— exceeds the actual charges incurred on the same account for the preceding Fusly by Rupees 314-13-6 you are aware that it is the wish of Government and the Board to reduce as much as possible the charges under this head and from your letter of the 23d February last it is seen that the disbursement for the three preceding years averaged only Rupees 1445 per annum. The Board trust that by revised arrangements you will be able to make that sum suffice for Fusly 1252 also even including the additional work which you contemplate.—

3 The Estimate is returned herewith.
