4372 Fort St. George 10th November 1842.

Read the following letters.

59.

From the Fin. Coll.r of Coimbatore — Reporting on the Settlement of the Land Revenue of his District for July 1251-

To

The Secretary to the
Board of Revenue
Fort St. George.

Sir,

Para 1- I have the honor to forward herewith the usual accounts of the Annual Land Revenue Settlement of the District for Fusly 1251, and previous to entering into the details of my management, I would beg leave to bring to the notice of the Board the gratifying fact that the amount of the present Settlement exceeds that of the last 10 years upon the average by Rupees 119102-11-0- This result has been accomplished by the easiest and most simple means- confiscation of Property or confinement have not been resorted to in a single instance-

2- The season for the Cultivation of the dry crops although considered favourable when contrasted with late years was still exceptionable in the opinion of the Cultivators from the rains being too early by which the crops had advanced so far towards maturity as to be unable to bear the heavy rains of the N. E. Monsoon without injury, and the rains which fell about the middle of December 1841 was considered to have operated prejudicially

to

to the Cotton produce as well as anise seed.—

3— These Causes, however, had the contrary effect on the Garden and Nunjah Crops which produced most abundantly of their kind and of excellent quality. It would appear however that the Pulladum Talook was not favored equally with the Others, and that well lands to a considerable extent remained uncultivated, the drought of the previous years having dried up the springs and otherwise interrupted the sources of supply.—

4— The Tobacco crop was successful on the whole altho' in some places from local circumstances, the quality of the Article was deteriorated the produce, notwithstanding with reference to the quantity and quality surpasses that of the previous year.—

5— The several Rivers and Tanks received a full and continued supply of water and Nunjah cultivation was freely carried on, but not to the greatest extent, the confidence and resources of the Ryots having been impaired by the failures of previous years.

6— The only wet lands on which

remission

remission was granted for failure of produce and which demand explanation are those situated in the Village of Neelumboo in the Pulladum Talook. This Tank had recently undergone repair but not to a sufficient extent to render it capable of retaining the unusual supply of water which came suddenly into it before the works had had time to settle, and in consequence it was breached to such an extent as to render it's repair impossible in sufficient time to save the revenue.—

7— The average price of all description of grain fell 26 per cent below that of last year as would appear from Statement No. 10. of which the following is an abstract and the prevailing prices throughout the Fusly have been unequalled during any period of the last 10 years.—

Average

Fort St. George 10th November 1842.

8. The produce and price of Cotton has undergone little or no variation during this year—

9. The state of the Revenue in the current Fusly contrasted with the settlement of the preceding one is shewn in the following abstract exhibiting a net increase in favor of the present year to the amount of Rupees 92,612-7-4 growing out of a total increase of Rupees 173,118-15-6 and a total decrease of Rupees 80,506-8-2—

Settlement

Fort St. George 10th November 1842

10- Under the head of Punjah lands occupied on payment of full rent will be observed a Net increase of Rupees 43,980-1-5 produced by an increase of 74,499-2- and a decrease of 30,519-1-7-

11- The increase is formed of the following items Viz- Rupees 43,810-13-2. the demand on waste and Perumpoke lands and also on lands in excess of the Anjacent account, and now occupied on payment of the regulated assessment Rupees 40-11-10. the assessment on lands formerly alienated for the payment of Village Subbendy from the Putent Farm of Pyetu now exchanged for other lands, Rupees 13274-1- the demand on Cowle lands carried to the head of full rent according to the stipulations of the respective Cowle Puttahs; Rupees 17,004-13-3 on Grass lands now under cultivation and subjected to the payment of full rent; and Rupees 368-10-9 on certain Jungle lands in the Villages of Sungumpollien, Angulacoorchey, Sellipully, and Ctor in the Pulachey Talook, which up to last Fusly paid at the rate of Rs a p 1-7-6 per Bullah having this year been

assessed with reference to their productive power as tested by the lands contiguous-

11- In regard to these recently assessed lands some further remark would seem necessary- The parties named in the margin proposed in Fuslies 1232-34-36 and 37 to bring under Cultivation the lands in question which were then covered with thick Jungle on condition of being allowed to occupy them on payment of a reduced rate of 1 Rupee 7 annas and 6 pice per Bullah which was acceded to- they Cultivated the quantity proposed and continued payment of the stipulated amount until last year- The density of the Jungle which formed the principal Cause for this concession has become cleared to a considerable extent, and with its disappearance the causes of the concession have ceased- under these circumstances it appears to have been considered that the indulgence was no longer necessary, and accordingly the lands have been surveyed and assessed in the present Fusly which has led to the increase of Rupees 368-10-9 above remarked upon- The following Memorandum will shew more clearly the nature and extent of this increase-

Classification

Classification of Lands.

Rate of Assessment as at present fixed.	Amount.	Amount of Fasly. Pucka Rent.	Deduct Amount of Revenue at 11½ per Bullock	Net Increase

	Total	354 2½	893 6 10	368 10 9

14381. Fort St. George 10th November 1842.

13. The decrease consists of the items detailed as follows. Rupees 18,677 4. 9. the assessment on lands left uncultivated from uncontrollable circumstances, and also on lands which have been exchanged for waste bearing an equivalent amount of assessment; Rupees 257 4 6. on lands carried to the head of Perumpoke; Rupees 27 6 6. on those alienated for the payment of Village Officers in lieu of lands which have been exchanged; Rupees 147 5 2. on lands struck off the accounts in consequence of overmeasurement in the survey, Rupees 9,205 1 8 on those entered under the head of Grass in adjustment of Grass lands cultivated vide para 21 of the Hookoonamah, and Rupees 2204 5 0 on lands converted into Garden and Nunjah and entered in the accounts as such.

14. In explanation of the exchange of Enam lands of Village Officers which has taken place in this Fusly, I would observe that the Enam lands now exchanged were

were originally given from the Putcut Farm of Ryots who retained possession of their land and continued payment of the assessment thereon to the Village Servants. In the year under review in consequence of some mis-understanding between the Parties it became necessary to relieve the Ryots from this arrangement which was accordingly provided for by allowing the Village Sibbendy to enjoy their Putcut lands, rent free in satisfaction of the amount of their Emoluments and in cases where it seemed expedient by the allotment of waste lands. This practice prevails in the District for many years past and is not attended with any confusion in the accounts. It is permitted only in cases where such transfer is considered indispensably necessary to uphold the Ryots in the undisturbed possession of their hereditary lands, but this arrangement seems to me liable to objection so long as the Ryot pays the Assessment to the Enandar the time and labour of the

the latter is gained for the exercise of his Public duties. In the present year dispensions have occurred to render the transfer of Enam lands necessary. The advantages of its discontinuance, however, are very questionable in my opinion, but as the Government seem to consider the prevailing practice open to objection as causing alteration in the Assessment and classification of the Village lands &c &c &c I would be glad to be favored with the Board's opinion on the subject of this order being strictly adhered to in all instances.

Adverting to para 4 of the Proceedings, I beg to observe that the lands in the Villages of Ettimadoy and Poodoor in the Coimbatore Talook were this year inspected and measured and the difference between the actual measurement and the quantity assumed in the survey accounts was adjusted in the manner pointed out by the Board which occasioned a decrease of Rupees 150 12-8 a Statement shewing the extent of Anjacut and cultivation is forwarded herewith and I beg leave to state that Curpa Goundens the individual referred to died in 1824. Neither his heirs or relations hold any land whatever.

	No. of Estate		Amount		
Lands paying Assessment	38	8	147	5	2
Sunkalp Land	3	2/10	3	7	6
Total	41	10/10	150	12	8

The

He was Mooniegar of Ettenadaig and Poodoor in 1822 and in order to clear the Jungle and improve the Villages be requested to be allowed to hold the lands in perpetuity on payment of half the survey assessment- this requisition was complied with- but nothing having been done in pursuance thereof his right has been forfeited and the land is now occupied by other Ryots on terms agreeable to the survey assessment-

16. Referring to para 7 of the extract noticing an item of decrease amounting to Rupees 7878-13-7, I would observe that this decrease had been occasioned from the exchange of Punjah lands into grass and in order to cover the deficiency which would have occurred by this arrangement, pasture lands to the amount of Rupees 18,570-11-7 were cultivated and brought to the head of full rent as shewn in Column 3 of Statement No. 5 which accompanied my report on the settlement of last Fusly- The transfer in question was therefore advantageous to Government in the sum of Rupees 10,691-14-0- Lands paying full rent are never allowed to be exchanged for pasture lands unless the transfer will assuredly prove profitable to Government- nor can this practice be discontinued without considerable inconvenience to the Ryots- When the soil becomes exhausted from continued cultivation, they resume it for pasturage and to make up the loss of Revenue which this arrangement would involve, they cultivate their Grass lands paying full rent on them- this privilege has been allowed for a series of years and is expressly

expressly provided for in the Hoolkoomnamah sanctioned by the Board under date 1st April 1841- In like manner in the year under review Grass lands amounting to Rupees 17,04-13-3. were brought to account at full rent in exchange of those carried to the head of Grass, the amount of which does not Rupees 9205-1-8-

17- Under the head of Garden lands subject to the payment of full Teerwa there is a net increase of Rupees 11,80-4-2 growing out of an increase of Rupees 22237-15-11 and a decrease of Rupees 8157-11-9-

18- The increase abovementioned is formed as follows Rupees 6566-8-1 on waste and Perampoke, and also on lands not included in the Survey accounts having now been brought into cultivation, Rupees 58-3-11 from the resumption of Village Sibbendy Enam Lands, Rupees 8370-9-5 from the levy of full rent on Comle Bagayet Survey Punjah and pasture lands which have been cultivated this year and

Rupees

Rupees 7,244-9-8 from the conversion of Punjah Lands into Garden.-

19- The decrease under this head consists of the following items Rupees 4764-6-- on Lands left waste from death desertion and insolvency of holders and also from the exchange of Lands Rupees 221-11-- on Lands carried to the head of Peramboke, Rupees 58-7-7 on those allotted to Village officers, Rupees 17-4-7 on Lands deducted in consequence of over measurement in the Pimash accounts-Rupees 2,169-3-4 on Lands cultivated with Punjah produce from want of water in the Wells and charged with Punjah assessment as prescribed in paras 7 and 9 of Hookoommanah, Rupees 516-13-3. on Lands entered under the head of Grass in lieu of pasture Lands cultivated, & Rupees 410-11-- from the conversion of Garden into Punjah.-

20- Under the head of Punjah Lands paying full Teerwah is a Net increase of Rupees 34,430-2-7 growing out of an increase

of

of Rupees 44,440-11-8 and a decrease of 10,010-12-6.-

21- The increase is made up of various items as shewn below-Rupees 25,468-15-9- on Lands brought into cultivation from waste and Peramboke, and from Lands not included in the Survey Rupees 58-11-8. on Lands formerly allotted as Enam to Village Officers and now taken back and credited in the accounts, Rs. 2025-15-7 the amount of Fasul Jasty or increase of rent from the cultivation of two crops in one crop Lands, Rupees 3,649-5-1 on Cowle Lands the term of which expired and which have been charged this year with full rent, Rupees 7500-8-1 on Punjah Garuno Punjah Lands now cultivated with Punjah produce and entered under their appropriate heads Rupees 1,116-9-3 on Lands on which remission was allowed in last year for failure of produce having this year been charged with full Teerwah, Rupees 1174-14-9 on those converted into Punjah, and Rupees 3,547-14-6. on certain Lands which were given

on

on a reduced rate of four Rupees a Cawney in Fusly 1230 /1820/ having this year been charged with the Survey rate and in some instances with one half of the difference between the Survey assessment & the reduced rate, the other half being chargeable in the ensuing Fusly - The marginal Statement will shew the particulars of this increase - 22 - These lands are situated in the Villages of Animalli & Cotoor in the Pulachey Talook and were granted by Mr Sullivan on the discretionary rate just mentioned as an encouragement for the Ryots to cultivate them which otherwise could never have been occupied in consequence of the unhealthiness of the locality - the difference between the Survey assessment and the reduced amount was

	Extent of Land.	Original Survey assessment	Amount at the rate of 4 & 6 Rupees Cawney.	Amount of reduction	Reduct amount to be charged next year	Returns charged this year	
Animalli	1987	18/24	13479 15 3	7950 11 "	5529 4 3	2764 4 2	2764 4 1

Total	2420	4/24	16306 15 1	9681 2 5	6625 11 8	3077 13 2	3547 14 1

Full Current Charges this year -

Full difference charged this year -

was always written off under the head of "Permanent reduction" - In Fusly 1248 proposals were tendered by different Ryots to occupy the lands in the Cotoor Village which rate on payment of Six Rupees a Cawney instead if four Rs has since been levied - the increase of two Rupees a Cawney being credited under the head of "Fasul Jamaby" or augmentation of assessment from the cultivation of an additional crop - This reduction was conditional depending upon the repair of the works of irrigation by the Ryots at their own cost and upon the payment of the prescribed demands whether the lands were cultivated or laid waste - The repairs of the channel and other works were executed by the Ryots from funds raised by a subscription - this appeared to the late Principal Collector to have been irregular - the cause for reduction founded upon the insalubrity of the tract could no longer be pleaded as a drawback and as any of the Inhabitants in the neighbourhood, at the same time

time came forward to occupy these lands on the terms of the Survey assessment, but as it was considered the sudden augmentation of the demand would press heavily upon the Ryots one half of the difference between the original assessment and the reduced demand was charged in this Fusly the other half being leviable in the ensuing one. The repairs of the channel were made this year by Government to the amount of Rupees 807-12-3-

23. With reference to the increase of Rupees 25,468-15-9- shewn in para 21 of this Report, I have to state from the improvement of certain works of irrigation in this year a large extent of Punjah and Garden land was converted into rice cultivation- In the Village of Ecteor, the Anicut across the Ailiar River flowing from the Animalli Hills was repaired and a branch channel excavated by which 78 6½/16 Cawnies of dry land was brought into wet cultivation and charged at Rupees 4-15-4 a Cawney the rate of Survey assessment on Punjah lands of similar

description

description in the Village-

24- The decrease of Rupees 10,10-12-6- has occurred under the following circumstances Viz: Rupees 6,762-4-8 from lands thrown waste from want of water and other causes, Rupees 406-11-7- on Lands incorporated with Perumpoke. Rupees 26-5-8- on lands allotted to Village Servants, Rupees 2,354-9-8 the remission on two crop Lands which yielded one crop this year and Rupees 311-6-1 on Lands cultivated with dry produce and charged with Punjah rent chiefly in Shanalapoor in the Pulladum Taluk, the anicut across the Royel River in the limits of this Village having been out of repair in this Fusly, and Rupees 149-6-10- on Lands on which a remission was allowed for failure of produce in the Village of Keelumboor under the circumstances stated in para 6 of this Report.-

25- Under the head of Cawle inclusive of the three descriptions of Lands namely Punjah Garden and Punjah, there is a net decrease of Rupees 2431-7-" produced

by

by an increase of 1318-7-1 and a decrease of 15,549-14-10.

26- The Particulars of the increase are Rupees 5940-0-2 on waste and Paramboke Lands now held on Cowle this year, Rupees 23-2-1 on Bagajet Turrai Punjah Lands cultivated with Garden produce, Rupees 519-4-6 on Punjah and Garden Grass Lands now under cultivation, Rupees 250-5-5 on Punjah Lands converted into Garden and Punjah, and Garden into Punjah; and Rupees 6385-10-11 on those the demands on which was augmented according to the terms of the Cowle namah.-

27- The decrease is comprised of the following particulars Rs 539-14-10 on Lands thrown waste in consequence of casualties among the holders, & from exchange of Lands Rupees 4-14-8 on Lands carried to the head of Paramboke and found deficient in remeasurement, Rupees 14,945-0-0 on those carried to the head of full rent and Rupees 60-0-7 on ex. Punjah Cowle Lands converted into Garden and Punjah.-

28- With regard to the decrease of

of Rupees 539-14-10, the demand on Cowle lands thrown waste as shewn in the preceding para, and to the remarks of the Board contained in para 8 of the Proceedings dated 2nd. May 1842, I would observe that lands in the vicinity of Hills and in unhealthy situations and also lands the assessment on which was much over-rated were previously granted on Permanent Cowle - when a casualty occurred among the holders, they were struck out of the accounts and when lands were again taken up for cultivation, they were re-entered under the head of Cowle; hence the decrease which is apparent. The instructions of the Board on the subject of Cowle are strictly attended to.-

29- The transfer of Garden & Punjah lands held on Cowle into the heads of "Punjah Turrai Punjah" and "Bagajet Turrai Punjah" remarked upon by the Board in para 10 of the Proceedings has always been made with reference to their instructions conveyed in the Extract dated 29th. October 1835 and the Lands

&c

Fort St. George 10th. November 1842.

The Cowle remission allowed in the Village of Devambady in the Pulachey Talook in consequence of the heavy rate of assessment discontinued this year and the lands more brought to account on the term of the Survey assessment - It was communicated at the time of the settlement to the Inhabitants of Bhoovarakan Chattrum, on were similar remission exists, that their lands would be charged at the full Survey rate next year which has been productive of much discontent - Where it is recollected that they have held these lands upon the terms which are now interrupted for the last 15 years it ceases to be a matter of surprise -

32 - With reference to para 13 of the Proceedings I would observe that Cowle remission of a permanent nature exist in 7 Villages in the Danaikencottah Talook 5 in Collegal 3 in Caroor and 2 in Cheyar and Pulachey Talooks - The Cowle Lands in Pulachey will be disposed of next year as stated in para 31 those in Collegal Caroor and Cheyar shall be reported upon in Fusly 1252 - The only Villages wherein I consider a reduction of assessment necessary at present are those in the Danaikencotah Talook situated contiguous to the High Road leading to the Neelgherries on Seringapatam and Mysore - Any attempt to do away with the existing Cowle in these unhealthy tracts will be followed by an entire relinquishment of them and render futile the good which has been effected during the last few years -

33 - The accompanying Statement

A.

Fort St. George 10th. November 1842.

A and B. would shew that Punjah lands of the several classes (from 1st. to 10th.) and also the garden lands were given on Cowle for three fourths of the survey assessment in Fusly 1233 in the Villages of Nundeepooram, Illeetora, Cunnee Pora, and Valley Moyar which are below the foot of the Guzzelhutty Ghaut and that those of Chinnapully situated near Danaikencottah were granted in Fusly 1225 for one half of the fixed demand. The Punjah lands in the Nellitoray Village which are overrun by Jungle (exclusive of the lands situated near the Village and cultivated with Dhruppye &c. which pay full rent) and those in Odindoray and Dallecpolliem at the foot of the Caroor Ghaut were given indiscriminately at a discretionary rate - In some years Government received a fixed share of the produce - in others one third of the aggregate quantity of produce and again in others one third of the survey assessment in Kind and Money. This arrangement has been modified in the present year in consequence of

of the loss and difficulty of disposing of the produce and the parties have all agreed to a commutation in money. These lands yield only a single crop and the Villages are very thinly inhabited. The abrogation of these Cowles would, I fear, be productive of immediate loss of Revenue to say nothing of the inexpediency of disturbing the Ryots in the occupation of lands conveyed to them by a competent authority more than 20 years previously and whose power as far as they were concerned remained unquestioned during the period of his stay in India. The Memorandum herewith forwarded exhibits the average annual Revenue of the several Villages mentioned above both previous and subsequent to the grant of the Cowles in comparison with the revenue of the Current Fusly.

34. With a view however to dispose of this objectionable head of Settlement I would propose that a reduction of Assessment be made assimilating it with the present Cowle terms which notwithstanding the

the great decrease which will accrue appears to me the only way of meeting the desire of the Board and at the same time of keeping up these Villages. This reduction may perhaps be viewed with objection as it amounts to a large sum when contrasted with the assessment of the neighbouring Villages but I beg to say that the proposed modification is a matter of necessity to secure the existing revenue. Experience of former years confirms this belief the produce in the lands in question has always been scanty, and the labour and charges of cultivation disproportionately heavy. The following Memorandum will exhibit the decrease which would be nominally occasioned from the reduction now proposed, which it is hoped with good Seasons, may be covered by increased occupation of waste lands which on this being confirmed will assuredly take place. and after all, this proposition cannot be considered in a Revenue point of light. It must be viewed as a measure of expediency having for its end the keeping open the Roads to Seringapatam via the Neelgherries and

Stems.

35. Should my proposition be considered unobjectionable, I request that I may be favored with the Board's instructions to carry this arrangement into immediate effect.

36. With reference to paras 14 and 15 of the Board's Proceedings on the settlement of the preceding Fusly, I beg to forward copy of communication from Mr. Bird affording the information required by the Board regarding the "Europicoramaidoe" lands in Caroor Talook — In 1823. 326 9/16 cawnies of Nunjah land assessed at Rupees 4055-2-— were given on a reduced Amount Viz" 3032—15—7 in consideration of the difficulty of irrigation. To cover this difference 204 9/16 Cawnies similarly situated and bearing an assessment of 2,133-1-— were held by Ryots on payment of 1536—10 which is more by Rupees 513—14—5 than the revenues abandoned by Government. It would therefore appear that the aggregate quantity of land held on favorable terms at the commencement was no less than 531 9/16 Cawnies

Cawnies bearing an assessment of 6,188—3—" but paying a revenue of 4,569—5 subsequently 271 14/16 cawnies were deducted for reasons stated by the Subcollector and there remain only 259 10/16 cawnies under the head of Cowle. The conditions on which this concession was made have been fulfilled and no transfer of these Cowle lands has taken place. they yield two crops in the year in common with other wet lands, and it appears to me that the indulgence granted by Mr. Sullivan had no reference to the number of crops, but to the difficulty and expense which the Ryots were subjected to in cultivating them subsequent to Mr. Sullivans grant 58 3/16 Cawnies were given on favorable tenure under similar circumstances but Mr. Bird seems to have interdicted this practice in Fusly 1248. The discrepancy remarked upon by the Board in the concluding part of para 14 has been occasioned by the abrogation of three Cowles in the Caroor Talook.—

37. Under the head of Bagayet Turn Punjah there is a net increase of Rupees 1,601-14-2 growing out

out of increase of Rupees 3,859. 3. 3. and a decrease of Rupees 2,257—5—1.

38. The increase comprises the following items Viz.th Rupees 2,168—3—11— on lands cultivated from waste— Rupees 1039—9—10. on Garden lands cultivated with dry produce, and entered under this head— and Rupees 651—5—6. on Garden Grass lands cultivated with Punjah—

39. The decrease has arisen under the following circumstances namely Rupees 574—11—5 on lands left waste from Casualties, Rupees. 15. 12—. on lands included in Perampoke Ven.h Rupees, 1555— 12. 3 on Bagayet Turm Punjah lands carried to the head of Garden and charged with full rent; and Rupees 111. 1. 5 on lands entered under this head of settlement having been carried to the heads of Pro: gressive Cowle, Nunjah and Grass, the two former for the cultivation of Garden and Nunjah products and the latter in exchange of grass lands, cultivated under the restriction contained in para 21 of Hookoomnamah—

40. Under the head of

of Nunjah Turm Punjah is a net decrease of Rupees 3,505. 3. 6 produced by an increase of 931—4—9 and a decrease of 4,436—8—3.

41. The increase consists of Rupees 707—14—1 on waste and Perampoke lands which from want of means of irrigation were cultivated with common dry grains, of Rupees 83. 10—5 transferred to the head of "Bagayet Turum Nunjah and of Rupees 139. 12—3. on Nunjah lands cultivated with dry produce in consequence of want of water—

42. The decrease comprises Rupees 719. 10. 5 on lands left uncultivated from — uncontrollable circumstances; Rupees 66. 12—10 the reduction of settlement on lands which in last year were occupied on Garden tenure, were now cultivated with dry grains; and Rupees 3,647. 7. 9 on lands carried to the head of Nunjah—

43. There has been no remission in this year for failure of produce except in the Palook of Pulladum where under the cir- = cumstances stated in para 6 of this Report a remission of 136. 3. 1 was made as shown in the following Memorandum—

Proceedings 44. Under the head of Grass lands there is a net decrease of Rupees 2,967-4-3. growing out of an increase of Rupees 4,082-1-10 and a decrease of Rupees 7,049-6-1.

45 The increase includes Rupees 1604-10 from the occupation of waste and Perumpoke lands, and Rupees 2,478-1-" from the transfer of Punjah and Garden lands into this head in lieu of pasture lands cultivated.

46. The decrease has been occasioned as follows. Rupees 1,381. 5. 5 from lands left unoccupied under circumstances out of control; Rupees 23-7-1 on lands included in Perampoke and allotted to Village Sibbendy, Rupees 4712-7-6 on those carried to the head of full rent; Rupees 288-"-" on lands included in the settlement of progressive Cowle Rupees 585. 8-1 from the transfer of grass lands to the head of "Bagayet Turn Punjah" and Rupees 58. 9-1 on lands converted into Garden and Pot cultivation.

47. In para 17 of Extract the Board require an explanation of certain entries regarding the reduction of

Fort St. George 10th. November 1842.

of remission on Grass lands, and I beg leave to state that the sum of Rupees 1500 shewn in para 9 of the Sub Collectors letter as the sum total of half rent paid up to Fusly 1249. The decrease which has been occasioned in carrying out the instructions of the Board was only Rupees 746. 6-9 in the Sub division, which when added to the decrease in the Talooks under my charge makes an aggregate of Rupees 863 - 8 - 11 vide Statement below.

Extent

Joint Collector's Division

Sub Division

48. With reference to the interrogations of the Board on the subject of Grass lands in para 18 of the Proceedings dated 2d. May 1842, I would refer them to para 9 of the Sub Collectors letter under date 3d. August 1841. It will be observed that those Ryots who paid ½ Teerwa were allowed to hold the same lands on payment of one fourth of the survey assessment equivalent to one fifth of the amount of their Putcut rents. the difference was made good by the occupation of waste lands. the same arrangement was made in the Talooks under my charge The instructions of the Board that the same "lands which were charged with half rent "in last year ought not to have been granted "at one fourth of the assessment" will be adhered to hereafter and a statement exhibiting the manner in which all grass lands in excess of one fifth of the Putcut rent are carried to account will also be invariably furnished in every year from the ensuing Fusly.

49. Under the various heads of Settlement, lands to the Amount of

of Rupees 910 9 8 were carried to the head of Perumpoke the details of which are as follows. Rupees 86 6 11 on lands appropriated for the site of the Villages; Rupees 11 5 1 on those used for the stand of Cattle; Rupees 61 11 9 on lands at Kotagherry and Coonoor in the Neelgherry Hills and also at Coimbatore for which Permission Certificates were issued and which are to be carried to the head of ready money Collections; Rupees 686 10 8 on lands destroyed by flood; Rupees 15 14 1 on those occupied as Roads; Rupees 31 12 11 for excavating Channels; and Rupees 16 9 3 on lands rendered unfit for cultivation from the Palmira Trees thereon having become productive and charged with tax as usual.

50. In my letter to the Board dated 30th. July 1842, I forwarded a statement shewing the extent and Revenue of lands occupied by Europeans on the Neelgherries. I now beg to submit a similar statement including the lands occupied also at Coimbatore which I propose to include in the settlement of the ensuing Fusly exhibiting the amount distinctly under the head of Fixed Sourmadayem, and for which

J

Irequest the sanction of the Board.

51. Under the head of Fixed sour=
=nadayem there is a net increase of Rupees 7,806-
8 — " occasioned 1st. from the appropriation of
waste as Pasture lands, 2ndly from certain number
of Palmira Trees having become productive and
charged with additional tax, and 3rdly from
the levy of Revenue on Village Enam lands which
were converted from Punjah into Garden and
Nunjah.

52. In explanation of the last
item, I have to remark that Punjah lands allotted
for the payment of the Village Sibbendy were
converted into Garden and Punjah by the
assistance of Wells situated in waste lands, and
the Tanks and Watercourses constructed at the
expense of Government and the increased
Amount of Assessment Viz. 449 11 1 conse=
=quent on this conversion was realized as pre=
=scribed in para 3d of the Hookoom namah. Whether
the lands will continued to be cultivated as at present,
or revert to their original condition is not certain, and
I have therefore entered this Amount under a distinct
head in Statement No. 2. Should the present improvement

prove

prove to be of a permanent nature, the lands will
be carried to account under their appropri=
=ate heads in the ensuing Fusly; provision being
made for the emoluments of the Village Sibbendy
as usual.

In para. 19 of their Proceedings

53. on the Board require explanation regarding an
increase of Rupees 4,219. 13. 9 under the head
of Grass rent. In reply I would remark that
waste lands and also pasture ground in excess
of one fifth of the Amount of entire Farm
were rented to Ryots for grazing ground for
one year on payment of a fourth of the Survey Assessment

on

such lands according to the instructions laid down in para. 31 of the Rookoomnamah and separate Puttahs issued for the same the income under this head in the Current year above the rentah of last Fusly Amounts to 5630-10-9 throughout the District the puncham lands which paid ½ Teerwa upto Fusly 1249 have never been included in the rents and the Ryots who graze Cattle on "Pillowary lands" are of course required to pay the prescribed Amount of grass rent to other Residents on Paycurries

54. I have further to observe para 11 of the Rookoomnamah after setting forth as follows "It has been the practice "hitherto to receive proposals from the Ryots "to convert Punjah fields in the occupation "of other Ryots into Talaab upon

"upon the payment of Garden Teerwa" rules "In future no such proposals will be received "but all Ryots shall be upheld in the undis-"turbed possession of their lands of whatever "description so long as they continue to pay "the Teerwa fixed upon them" I have the honor to request to be informed whether grass lands are included and come within the meaning of this para. There are several reasons why this tenure should also be included, but as the question is one of abstract justice it does not seem to require any preface whatever.

55. With reference to para 21 also of the Rookunnamah observation seems necessary on the following point. It prescribes that "when grass lands are converted by Ryots into arable and arable into grass without reduction of the total amount of their rents they are to be entered according as they are cultivated." The long established practice in the Talooks under my charge is greatly at variance with this order. When lands become exhausted from continued cultivation, the Ryots are always allowed to take up fresh waste lands equivalent to the Amount of that which

Fort St. George 10th November 1842

which they are desirous of giving up provided no other Inhabitants propose to occupy such waste lands this custom has been observed both previous and subsequent to the promulgation of the Hookoomnamah. In the Sub Division it has been superceded by para 21 and the Inhabitants are only allowed to make an Exchange within their Farm which has given rise to frequent complaints and Confusion. The justice as well as expediency of having one uniform rule throughout the District does not admit of a doubt, but in this instance as in some others, this para is opposed to the long prevailing Rawmool of the District and the point to be determined is which is to take precedence in practice.

56 There is another point of great importance which seems to require the consideration of the Board particularly with reference to their endorsement on two Petitions dated 23rd November and 11th December 1841, which I cannot pass without notice Complaints are constantly made against the correctness of the survey measurement which altho'

Fort St. George 10th November 1842

surprisingly correct as a whole in some few instances is found faulty. I observe the complaints have always been met by a remark that the Pymash Dittum cannot be interrupted and I perfectly agree in the expediency of this order only that a remedy to the following effect might be added leaving it optional with Parties to relinquish such farms. In many instances the complaints which are made against the veracity of the Survey are unjust and the difference which appears is owing to subsequent partitions and alterations of the boundaries of fields which have been made by the Proprietors and without reference to any authority. I would recommend therefore that they should be left to their own choice as regards the occupation or relinquishment of such lands for if any provision is made to supply the alleged deficiency it would create numberless complaints render a new Pymash necessary and involve Government in an Expense by which no corresponding benefit would accrue. I shall therefore continue to follow up the long Established practice of disposing of such Complaints in the manner prescribed without I receive your Boards orders to the Contrary.

57 A Balance of Rupees 68652-12-7 which appertains to the Shevoy Summa" head forms an item in the Balance sheet of the year under review and which I request permission to expunge from the accounts. The formation of this Amount has occurred from the practice of making the Ryots participate as well as the Curnums for offences coming under class 4th Section II, Regulation IX of 1822 Viz.t for making false and fraudulent entries in the accounts by concealing Cultivation. In like cases the Ryots also have been connected in the Offence and sentenced to pay a fine from one to three years of the Public Revenue. This has had its origin for a number of years, but the existing Balance will shew how very rarely it has been carried into operation against the

the Cultivation and it now stands as a medium of extortion to the Native Servants. I beg therefore that this nominal Balance may be written off from the Accounts and for the future, I propose to regulate my mode of punishment to the means of the Ryot and to the application of Section XIII, Regulation IX of 1822.

58 I conceive under ordinary cases the Ryot if liable under such circumstances, could not be called upon to make good a defalcation of more than one years standing.

59 The number of Puttahs distributed in this Fusly in the Talooks under my charge are 139147. Exceeding those of the last year by 11687. The number in the Sub Collectors Talooks are 10479 which is more by 1395 than those given in last year.

60 The Total demand of Land Revenue as settled for Fusly 1251 is 2118939-12-2 of which sum Rupees 2107902-"-11 were collected, leaving a balance of 11037-11-3 subsequent Collections

to

For't St. George 10th November 1842

to the end of September viz.t 6,067-8-4 reduced the balance to the small sum of £.970-2-11 which is under adjust=ment.

61 The arrears outstanding at the end of September 1841 were Rupees 62,218-7-5. Collections to the end of September 1842 amount to Rupees 5,509-1-3. The remission made under the sanction of Government is £.623-11-2 in all Rupees 6132-15-5 which diminish the arrears to 16,085-8- of the sum of 9,074-5-10 con=sidered doubtful in last year and - regarding which the Board directed the institution of further enquiries. Rupees 2659-12-11 were collected up to the end of last month, leaving 6,364-8-11. After the closest scruting during the settlement of the Current year, the circumstances of each individual Ryot was fully ascertained and I am satisfied that it cannot even in part be collected without the total destruction

For't St. George 10th November 1842

of the Ryots property. The Statement in the Margin will shew dis=tinctly the Amount recover=able in the arrears accu=mulated from Fusly 1215 to 1850, and the amount to be realized from the sale of Property and that considered desperate which sums Viz.t £.11760-- - 1-) -- eleven thousand seven hundred and Sixty and pice one, I request may be recommended to be struck off the Public Accounts. mea=sures will be adopt=ed for the realization of the Amount in column 6 of the State=ment.

62 The total demand from all sources of Revenue as settled for Fusly 1251 is 25,857-12-8- which

The

63 The Board will be aware of the circumstance that the Tobacco supplied to the Native States of Travancore and Cochin is given at the rate of 37 3 " a Candy exclusive of the amount of Sayer duty, the difference between this rate and the prime cost as well as the surplus in the charges of Sibbendy 8ca 8ca were annually credited under the head of "Deposit" from Fusly 1237. As this entry seemed to me objectionable, I have brought the amount into the proper head in the year under review.

64 The total Collections from all Sources inclusive of the refunds of Charges of Collections but exclusive of deposits and other

Fort St. George 10th November 1812.

other receipts not being revenue are.
Rupees 21,77,619-13-5 The total charges
of management were Rupees 2,39,656-4-10
or Rupees 9-10-9 per cent which is less
than the per centage of last year by
9 Annas 11 pice.

65 The Report of the Sub Collector
is forwarded herewith. The Board will
not fail to observe that Mr. Bird
has maintained in the Settlement of
the Sub Division, the high character
for which he has been so repeatedly
Commended. Mr. Goldie my second Assis-
tant has assiduously applied himself
to the discharge of the duties entrusted
to him, and I have much pleasure in
bringing to the notice of the Board that
he

Fort St. George 10th November 1812.

he has acquired my confidence, and I
consider him perfectly competent to
act alone, the period of his probation,
one year, having expired.

66 A separate report will be
submitted on the Settlement of the
Estate of Shamalour and Colamputty
in the Palachey Talook, at present
under the management of the
Court of Wards, as required in the
Extract from their Proceedings dated
27th May 1812.

Coimbatore.
Collr's Office,
29th October 1812.

/Signed/ J. C. Wroughton
Principal Collector

Collector

Fort St. George 10th. November 1842

No. 24.

To
The Principal Collector of
Coimbatore.

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter of the 5th. Instant and agreeable to the instructions contained therein beg to submit Abstract Statements in English and Hindovee detailed ones exhibiting Isenmar, the quantity and assessment of the Nunjah land including the Crapoomaidoo in the Carroor Talook given on discretionary assessment and permanent Cowle, likewise the extent and assessment of the land taken in exchange by the Ryots to make up the deficit of Revenue sustained by this reduced tenure.

I have also added to these Statements an account shewing the amount of land on high levels irrigated by lifting water from the channels brought under cultivation subsequent to these Grants and which land has been given to the Ryot at a fixed reduced assessment calculated on the same data and principle as the permanent Cowle, but without their conditions.

2 With reference to para 15 of

Fort St. George 10th. November 1842

Extract from the Proceedings of the Board of Revenue dated 2nd. May 1842 I beg to offer the following explanation.

As far back as A.D. 1823 the inhabitants of the villages of Neroor Vangal and Kelamapooram obtained an order from Mr. Sullivan the Principal Collector authorizing them to hold certain Nunjah land on a permanent discretionary reduction of the Assessment on the condition that the Ryots bound themselves to make good the difference of assessment relinquished by cultivating other land and paying for the same whether cultivated or not. This was agreed to by the parties and 326 1/16 Cawnies of Nunjah land assessed at Rupees 4,055-2- was granted to them at Rupees 3,032-15-7. And they in conformity with their compact taking up waste Nunjah land to the extent of 204 15/16 Cawnies assessed at Rupees 2,133-1- But this Nunjah land was of the same description as that for which the Ryots already demanded an abatement namely too high a level to admit of free irrigation from the channel and consequently it was permitted to be held at the reduced rate of Rupees 1,536-0-10. This sum being in fact about five hundred Rupees in excess of the amount of assessment

assessment originally struck off.--

3 "To these stipulations and conditions the inhabitants have strictly acted up. and the assessment fixed by Mr. Sullivan on these lands taken in exchange duly rendered to Government.--

4 From the foregoing it is evident that not only are the lands comprising the original grant held on a reduced assessment but also those lands taken in exchange to make up the sum of revenue abandoned. We have then at the very commencement no less than 531 9/10 Cawnies of Crappamaidoo land the Pymash assessment of which is Rupees 6,188 3 - but held at the reduced rate of Rupees 4,569 - - 5. From this however must be deducted 271 14/4/10 Cawnies for the reasons that 238 14/10 have during the last twenty years reverted to their original Pymash assessment and have been brought to account at full rent in consequence of the Ryots having reduced the soil to such a level as to admit of its free irrigation from the Channel, and the remaining 33 Cawnies are made up of land destroyed by flood and left waste by the death and insolvency of the Ryots, so that the present condition of the permanet Cawle and Crapoonaidoo lands amounts to 259 10/4/10 Cawnies.--

5 With reference to para 15 of the Board of Revenue's Proceedings adverted to, I must acknowledge that these Crapoonaidoo lands situated in these three villages do yield annually two crops. In fact all the wet lands in these villages supplied as they are most abundantly with water the whole year round from the Caurery yield two crops and were taxed indiscriminately at the survey with two crops rent. That is those irrigated direct and with ease from channel paying the same as the lands requiring the labour and expense of lifting the water for cultivation. Thus giving one portion of the village community an undue advantage over the other in the market.--

6 To remedy this grievance and place all on the same footing Mr. Sullivan had resort to the expedient of a Discretionary assessment and at the same time securing the Government from loss by insisting on other land being taken up to make good the sum deducted. I beg to subjoin the following statement to shew in detail the survey rates of assessment on Nunjah lands in these three villages and the reduced Jarem on the Crapoonaidoo fields.--

14592 — Fort St. George — 10th November 1842.

14594 Fort St. George 10th. November 1842.

These lands have never been exchanged and those that were originally taken up still continue to be charged to each village. The difference is made good as I have already shewn from Nunjah lands.

Adverting to the latter part of para 14 of the Board's Proceedings I beg respectfully to refer to my statement of Cowles in the Carvor Talook Submitted on the 17th November 1840, in which seven Cowles are entered. Three were finally disposed of and brought to account on full rent leaving four (the very ones now referred to) for which it was difficult to suggest a remedy and I take leave here to repeat my opinion that since the conditions of the agreement have been fully acted up to, and the stipulated lands taken up in each case, it will be impossible to deal with these grants or to find any plan for the payment of the full assessment. The demand for which would be instantly followed by a relinquishment of all the lands taken up to make good the revenue remitted.

8. I must here report that

14595 Fort St. George 10th. November 1842.

in making the settlement for Fusly 1248, I interdicted for the future the practice of allowing any more of these lands being held at the reduced rate and brought those lands cultivated that season to the full survey assessment, leaving the lands granted at the favorable rate up to Fusly 1247. as I found them, which you will perceive from the English Statement, to amount to Cawnies 5 8 3/20.

No 27

To The Principal Collector of,
Coimbatore

Sir

Para 1. I have the honor to submit the usual Statements in Englishs and Windive of the annual Settlement of Land Revenue in the Talooks comprising this Division of Fasly 1251.

2 I have again to report a season in every respect favorable throughout the year in this portion of the Coimbatore Province. During the early part of the season, that is in April and May, more than the average fall of rain was received, pretty general and for the most part abundant, enabling the Ryots to raise his Caur or early Crop with ease.

The Months of June and July were dry throughout the Division. In August and September much rain was received in Carore, Conghiem, and Dharapooram Talooks. But none in the Chuckragherry Talook until October when the supply was most abundant there as well as in the other Talooks. The North East Monsoon

too

too was favorable during November every where thus enabling the ryot to increase his dry land cultivation this year to an extent of 5,139 3/8 Bullahs assessed at Rupees 13,719-9-7 more than the preceding Fasly. The Cumbu Crop is stated not to have been so productive as heretofore owing to the draught in June and July, the season for sowing, followed by excessive wet in the subsequent months. The plant vegetated luxuriantly and running to stalk yielded but a scanty return, estimated at one half of the usual produce. The garden cultivation was most successful, every well was supplied to overflowing with water, and the increase in this description of agriculture amounted to Bullahs 614-2 23/30 assessed at Rupees 5,927-12-0. All the garden products such as Cholum, Raghee and Tobacco yielded profitable returns, the only exception was the Cummin Seed Crop, grown in the neighbourhood of Cedanmalcottah, which was materially injured and much blighted by the unusual fall of rain experienced in January last.-

The freshes in the Cavery

were extremely heavy and continued particularly the former river which rose to an unusual height. The wet lands dependent on channels taken off these rivers as well as those under Tanks were fully cultivated and an increase on last Fasly of 575 Cawnies. The Rice harvest was abundant and no Skavi found whatever.-

The average price of grain of every description fell considerably below that of preceding year as exhibited by the subjoined Statement.-

Dry Lands.

4 Under this head there is an increase of Rupees 13662-2-6 being the result of a gross increase of Rupees 19595-14-9 and a gross decrease of Rupees 5933-12-3.—

Garden Lands

5 In the garden culture there is a net increase of Rupees 5541-"-1 resulting from a gross increase of Rupees 7477-13-" and a gross decrease of Rupees 1936-12-11.—

Wet Lands.

6 In this item there is an increase of Rupees 3739-9-" derived from a gross increase of Rupees 5408-13-10 and a gross decrease of Rupees 1669-4-10.—

7 Of the Sournadayem or ready money collections there is an increase of Rupees 2188-7-" derived from the jungle rent of Kullapoorum, and grass lands given on lease for one year only under the term of Pillovaree agreeable to the provision of the Hookumnamah.—

Remissions.

8 The only remission granted this year was the usual deduction of Rupees 293-12-11 from the Bariz of the Poorookhopollium Village in Dharapooram on account of certain Brahmins.—

The

9 The total demand in the Division on account of Land Revenue inclusive of Fixed Sournadayem for the Fusly under review amounts to Rupees 611839-1-" of which the sum of Rupees 606339-10-10 was realized within the Fusly leaving a balance of Rupees 5499-4-2 to be liquidated, which has since been reduced to Rupees 3356-8-" and this sum will I expect be shortly collected.—

10 The arrears outstanding at the close of Fusly 1760 as shewn in Statement No. 13 amounted to Rupees 3681-11-10. Of this Rupees 3281-"-2 have since been realized, leaving a balance of Rupees 400-11-8 still outstanding. Of this sum, I consider Rupees 186-4-5 recoverable, but for the writing off of the remaining Rupees 214-7-3 I beg to recommend sanction be obtained. The following shews the particulars with reference to each Talook.—

Princ.l Coll.rs Office
31st October, 1842.

(Signed) J. C. Stroughton.
Principal Collector.

Order thereon.

60-61

Ordered that the original Proceedings referred to in the foregoing letter be returned to the Principal Collector as requested by him—Mr. Stroughton will be pleased to send them back to this Office with the further explanation in this case which he is about to submit—

Read the following letter.

62

From the Pt. Coll.r of Canara—
Submitting further information required

To, The Secretary to the
Board of Revenue
Fort St. George.

Sir,

I have the honor to acknowledge your letter under date the 15th ultimo calling upon

Fort St. George 10th November 1842.

required in the Proceedings of the Board dated 15th September relative to the Petition from the Heads of the Cheltrapaul Pagoda—

× 15th Sept.r 1842 Revenue Department

upon me for further information relative to the Petition from certain heads of the Cheltrapaul Pagoda, and in reply beg leave to submit the following information on the subject—

2. With respect to the practice hitherto observed in filling up vacancies in the Office of Pattally, the following Statement has been made by several of the oldest Inhabitants of the community, who have been examined on the subject by the Behut Tahsildar—

3- Coyadwittle or Paramkulpodal Amboo, was Pattally for about 31 years up to A.D. 1791- His man was killed during a disturbance in the time of the Sherkare Rajah— His Nephew Corah, out of grief for the loss of his uncle, not desiring to hold the Pattallyship to which he was the Secretary successor, one Covacundta Cunnah, was appointed to the Office, which he held up to 1794. Cunnah having resigned the Office for some reason, Corah, the abovementioned heir of the Coyadwittle family, was then chosen, and held the Pattallyship till 1803 after his death in that year, the vacancy appears not to have been

filled up for two years, when one Madow Embrane was put into the Office, Hee continued to hold it for about sixe years, when he resigned it. For four years after his resignation, the Office was vacant owing to differences that existed between the heads of the Pagoda and the Rajah of Nilashwar, when by the interference of the Sub Collector Mr Hudleston in 1826, the difference having been compromised, one Rama Cooly Patta, was appointed to the vacancy. After his death in 1834, one Balajee Row, was confirmed in the Office by the then Acting Collector, This incumbent died in 1837, from which time to 1839, the duties of the Office were conducted by one Atticul Nunna, under a Takeed of the Tahsildar, pending the appointment of a successor in Coyadwittle Coma, who was nominated by the Rajah, and confirmed by the Sub Collector, he being a descendant of the family who possessed the hereditary title to the Office.

4. Of the seven Pattallies above-mentioned, the first appears to have succeeded to the Office by inheritance, the two next were chosen with the mutual consent of the Petitioners predecessors, and the Rajah of Nilishwar. The fourth was appointed by the Rajah alone. The nomination of the fifth and sixth, by the Rajah though at first objected to, was at length acquiesced in by the Petitioners, and consequently confirmed by the Revenue Officers. The appointment of the seventh, the present Pattally, has now been disputed by the Petitioners, although by his undoubted hereditary tittle to the Office, and unexceptionable Character, no valid objection can be raised to his nomination.

5. The duties of Pattally are to take the Custody of the Pagoda property, moveable and immoveable, to collect the revenues from the tenants who cultivate the Pagoda lands, and to exercise a supervision over the inferior servants in all ordinary cases, but in any case of extraordinary nature he is to put

under the orders of all the headmen of the Institution.

6. The present Pattally, was ordered on his appointment, to take charge of his Office, and enter upon the Ordinary duties as his predecessors had done. The instructions to the Tahsildar on the subject were simply to this effect, and the Petitioners were not dispossessed of any property belonging to them as they have alleged.

7. The Petitioners assert in their petition, that they are the rightful owners of the Pagoda lands &c. and that by the appointment of a Pattally they have been disturbed in their possession. In refutation of this allegation. I beg to observe, that there are arzees in the records of my Office, presented by them on several occasions, in which they clearly admit that the Pattally was the manager of the Pagoda property of every discription, and the appointment has frequently been solicited in favor of individuals recommended by them.

8. The present claim of the petitioners appears quite unwarranted, by any previous practice since we have any knowledge of the Management of the concerns of the

Pagoda, and the interference of the Government Officers has only been such as has been exerted on former occasions, in order to maintain the established form of Management of the Institution.

Principal Coll.r's Cutcherry, Mangalore, 27th October 1842. } / Signed / H: M: Blair. Princ.l Collector.

Proceedings thereon.

(62-63)

It appears from the foregoing report that the appointment of the present Pattally or Manager of the Chelapaud Pagoda to which objection is made by the Petitioners was in strict accordance with the practice heretofore observed by the local authorities in filling up vacancies in the Establishment and further that the Petitioners' allegation that they have thereby been dispossessed of certain property belonging to them, and also deprived of the Pagoda are altogether unfounded. under this explanation which the Board consider quite satisfactory, they resolve to pass the following Endorsement on original Petition No. 1861 of 1841 returned in the Principal Collector's report.

Endorsement.

"The Board of Revenue having made a reference to the Principal Collector of "Canara

"Canara on the subject of this address see
"no reason to interfere with the orders issued
"by the local authorities.

Read the following letters

To,
The Secretary to the
Board of Revenue
Fort St. George.

(64)
From the Collr. of
Malabar.

Sir,

I have the honor to forward for the consideration of the Board of Revenue a translate of a Hookummanah which I propose issuing for the future administration of the Neilgherry Talook. The necessity of some such orders as are detailed in the Hookummanah were brought prominently to my notice during my late visit to the Hills.

Malabar Collr. Office,
Calicut 25th October 1842.

(Signed) H. V. Conolly.
Collector.

No. 1.

Hookummanah issued relative to the Cultivation of lands &ca on the Neilgherry Hills.

The Ryots on the Neilgherries receive Pottahs year by year, specifying that they are to pay a certain tax for a certain portion of land supposed to be in their possession. It appears however that in many instances instead of

Cultivating the land so specified, they allow it to be fallow (without however relinquishing their hold on it) and take up and cultivate other land to an equal amount, contenting themselves with paying the tax mentioned in their Pottah. In other words a ryot whose Pottah states him to hold one Cawny of land subject to a tax of 1 Rupee, keeps that Cawny fallow and cultivates another Cawny in a fresh place paying however but one Rupee for both Cawnies, the cultivated and the fallow one.

For some time after the Neilgherries were known, the people were in such a state of poverty and the land of so little value, that it was not thought expedient to disturb the practice, above alluded to, however singular. An entire change has since been effected in their circumstances. The Ryots of the Hills, from the superiority of the soil and climate and from the great demand that exists for every species of their produce, are better off than the ryots in other places generally. It is necessary therefore that according to the practice prevalent in other District, Coimbatore, for

instance, each ryot should in future be permitted to hold only as much land as his means will admit of his cultivating, resigning the remainder to Government previous to the season of Cultivation. In the event of this rule not being attended to, all lands so possessed tho uncultivated, will be liable to be included in the Summahbundy and the full assess-ment collected thereon.

2. Pasture land being necessary for cattle, all ryots will be permitted to have grass lands to the amount of one fifth of that contained in their respective Pottahs and Grass rent only will be collected for such lands.

3 When a ryot wishes to cultivate a new piece of ground, he must inform the Monigar and Curnum of the situation, extent &c. of the land, and obtain from the Monigars chit permitting the occupation of it.

4. After a ryot, as above stated, makes a proposal the Monigar and Curnum must go and inspect the land and having obtained every information requisite, such as the quality of the land extent

&c., they must report to the Tahsildar accordingly. Having them obtained instructions from the Tahsildar, all these necessary particulars must be written in the chit to be given to the Ryot, which must receive the signature of the Monigar. It must be seen to that these lands are cultivated at the proper season. The Curnum of the Village previous to, or after the Dittum or Settlement, must examine all the lands under Cultivation, and if he should discover any cultivated clandestinely, should report the same to the Tasildar, entering them in the revenue accounts. should it be found after the Summahbundy Settlement, that lands have been cultivated without previously obtaining the permission of the Circar, the Curnum will be liable to be punished as prescribed by the Regulations.

5. It appears that the Monigars donot pass receipts to the ryots for the revenue paid by them and that the Curnum donot keep regular accounts of the Collections, circumstances which give room for making extra collections, and rendering it impossible to bring home guilt in the event of any ryot bringing

Charges of such abuses- To avoid this in future Cadjans bearing stamps will be sent from the Huzzoor, in which the Monigar is to pass his receipt to the ryot, particularizing the different Coins Collected and affixing thereto his signature- Each of these Cadjans should contain the whole of the Kists collected in one year- A regular account should be kept in each Village shewing the daily collections from the ryots, which should bear the signatures of the Monigar and Curnum or at least of one of them, and a Copy of it is to be delivered when the Kist Money is brought to the Talook Cutchery- any deviation from this will be attended with punishment.—

6- The Curnum will be required to prepare a sufficient number of Cadjans for the revenue receipts above mentioned, at the top of each of which, he should write the name of the Ryot, the Number of the Pottah and the Fasly for which the receipt is framed, and then give them to the Tahsildar, who will forward the same to the Huzzoor and after they are returned duly stampt from the Huzzoor

they are to be distributed to ryots respectively previous to the commencement of the Collection of the Kist, on which occasion the Ryots will have to bring them, in order to get the payments they make entered in them.—

7- It will be the duty of the Curnum, soon after the Kist begins, to prepare lists called Varidapoo, explaining what the Kist of each Ryot is, which he is to deliver to the Adigary, who according to the lists, will collect the revenue from the ryots and pass his receipts as abovementioned- Immediately after the close of the Immanabundy Settlement, the Pottahs forwarded from the Huzzoor should be distributed to each ryot in the presence of the Tahsildar.—

8- As it appears that the Monigars on the Hills do not known how to read and write, it is necessary that they employ intelligent people who can read and write, as their Gomastahs, but such Gomastah must be approved by the Huzzoor.—

9- It will be the duty of the Tahsildar to see that these rules in all

respects

respects are duly attended to, with effect.
He will be answerable for any infringement
of them, as the other Village Officers.—

(Signed) H. V. Conolly,
Collector.

64-65

Proceedings thereon. 1. The first rule of this Hookum-
=nama is designed to check a practice
common, it appears, on the Nulgherries
Viz. of the ryots changing their land at
pleasure, without making it known to the
authorities and having a corresponding
alteration made in their puttahs; but it is
not intimated that there is any fraud
intended or any loss occasioned to the Revenue.
It is proposed to make the Riots liable for the
assessment of land included in their puttahs
unless formally given up, and to prohibit
them from taking new land except by the
observance of certain formalities. These
rules, which are derived from low Country
practice, seem to the Board to be unsuitable
to the system of agriculture prevailing on
the Hills, and premature in the state of
society into which it is proposed to introduce
them. If the Custom objected to, were found
practically

practically inconvenient, by creating a monopoly
of land so that persons desirous of increasing
their cultivation could not obtain ground, the Board
would not object to the restrictions now contemplat-
=ed; but they are averse to sanctioning an inno-
=vation which would be very inpalatable,
merely for the sake of effecting greater regu-
=larity of Revenue management. For similar
Para 2. reasons they object to the limitation proposed
with regard to pasture land; the necessity for
this restriction as well as for the other seems
to be still very far distant.—

2. It is proper enough that a
Para 4. riot intending to take up new land should
previously acquaint the Village officers.—
But the formalities necessary before he is
permitted to open the ground should be as
few and brief as possible, and a reference
to the Tahsildar should be dispensed
with; neither does it seem desirable that
any one should interfere with the Riot
to procure the cultivation of the land
at the proper season.—

Para 5. 3. The plan of giving every riot
receipts

receipts for his payments on a separate
Cadjan inscribed with his name and
Para 6- bearing the Collector's stamp, is very good
and it would save some trouble to the
Ryots, and might furnish some additional
security that the blank stamped Cadjans
reached their destination, if, at the distri=
=bution of Puttahs for one year, the receipt
Para 7- Cadjans for the next following Fusly,
were given to the Ryots at the same time.

The Hoohummanah should provide
that the Puttahs should be distributed
by the Collector and it would of course
remain discretionary with him to delegate
that duty to the Tahsildar where other
avocations might prevent the discharging
it himself.

4- In many other places besides
the Villages of the Neilgherries the Monigars
are ignorant of letters, but it is not
customary to compel them to keep Gomastahs,
nor is it desirable. The proper Gomastah for
the Monigar in writing work is the Village
Curnum.

So

To The Secretary to the
Board of Revenue

(66)

From the Collector of Malabar — Sir, Fort St. George

Reporting on a Petition relative to a piece of land taken up for a burial ground at Cannanore. Dated 24th Octr 1842 Herewith returned

I have the honor to forward a copy of a communication from my Acting Sub Collector on the subject of the Petition forwarded to me with the Board's letter of the Instant.

2. On the 8th August last I received instructions from Government to allot a space adjoining the Protestant burial ground at Cannanore as a place of interment for the Native converts of the Protestant Missionaries or should such a spot not be available to select some other ground for that purpose in any other convenient situation.

3. Mr. Frazier in whose charge Cannanore is, was requested to carry out the Government orders, and accordingly in conjunction with Major General C. Allan, selected a piece of Ground at some distance from the one now chosen.

4 After it had been actually
† Protestant C. Missionary taken charge of by Mr. Hebeck and a body buried in it, some objections were made by the neighbouring House C.
holders

14628. Fort St. George 10th November 1842

holders, which the General thought of sufficient importance to justify him from canceling this grant, and he, in consequence, wrote to Mr. Frazier begging him to come over again to Cannanore and make another selection. Mr. Frazier did so, and after much search chose, at the suggestion of General Allan the site complained of — with what reason the Board will be able to decide on a perusal of Mr. Frazier's accompanying report. The case seems to me to be simply this — private ground was actually required for a public purpose, and in taking it with the knowledge and concurrence of the Proprietor, the Beebee of Cannanore, Lieu a arrangements were made to indemnify the occupant (a Mortgagee) for such loss as was experienced by its appropriation. I was merely waiting till another portion of land was assigned, in place of that taken, to bring the matter to the Board's notice and request the necessary sanction

14629 Fort St. George 10th November 1842

sanction for the exchange as also for the 9 Rupees the cost of the trees found on the occupied spot.

To. The Collector of
Malabar

Sir,

In addition to those, contained in the accompanying Copy of a letter addressed to Captain Saunders, I consider but few remarks can be required from me, on the subject of the Petition forwarded to the Board of Revenue. You are aware, that one of the 3 available positions for a Burial ground for the Reverend Mr. Hebeck, pointed out by the general Commanding, to me, was selected for the purpose, and resigned, for the reasons described in the accompanying correspondence, wherein, much anxiety was displayed, not unnecessarily to interfere with the Religious feelings of the people. The Piece of ground now under review was on its abandonment considered the most desirable, in short the only disposable site

I Signed I H.V.C

Fort St. George 10th November 1842

site and therefore, having been in due Form made over by Her Highness the Beebee, it was allotted for the purpose requires With regard to the conscientious scruples so forcibly set forth in the Petition (in consequence of the vicinity of the new Grave Ground to the Dwelling of Petitioner) I have only to observe that, I presume the pollution and conscientious suffering resulting from the neighbourhood of one description of Burial Ground would apply equally to all - that the wall of the old Cantonment Burial Ground approaches considerably nearer than that of the present addition thereto. and that the Description of bodies interred for the new have hitherto been placed in the old one namely the Native converts I am informed that not long since a public road passed along the wall of the Cantonment Burial Ground but which now illegally forms part of the Garden under review and a portion of the land under discussion and the recovery of which was lately under the contemplation of the Military authorities - a small exact sketch of

Vide the accompanying Plan

Fort St. George 10th November 1842

of the Ground made by the Engineer's Mistry accompanies this and which from personal inspection I can certify to be substantially correct.

2 In conclusion I beg to state that a relinquishment of the Acknowledged Circar right on the present occasion with reference to land in the immediate vicinity of the Cantonment, would from a precedent, a likely to be attended hereafter with results injurious to the interests of Government.

Acting Sub Collector

To F. H. Frozier, Esqre
Sub Collector
Malabar

Sir,

Permit me to forward you the Copy of a letter I have this day received from Bapoo a Native of Cannanore

Copy

Sir, I beg leave to inform your honor that it is 2 days ago Mr. Frozier Sub Collector

14634 Fort St. George 10th November 1842

To Captain F. W. Saunders
57th Regiment
Sir
Madras

Your letter dated the 24th September only came to hand a day or two since - In reply I beg to state that in compliance with orders from Government to appropriate a piece of ground, if possible, adjoining the present Cantonment Burial Ground for the use of the Native Christian Congregation of the Reverend Mr Hebeck, I agreeably to the Petition forwarded to you by Bapoo proceeded thither for that purpose - Though most unwilling I found it absolutely necessary to take in a very small portion comparatively of the cultivated piece of ground in the immediate vicinity - and of which Her Highness the Beebee of Cannanoor holds the proprietary right, and is bound by agreement with the Company to relinquish any quantity actually required for the purposes of the Government - On such occasions

14635 Fort St. George 10th November 1842

an authorized remission is made to the owners, by occupation, or cultivators of the Ground -

2- Had Bapoo mentioned to me the circumstances under which he held the property I should have done myself the pleasure of writing to you an explanatory letter on the subject knowing however I for it was fully explained to him in my presence / the real circumstances of the case and necessity of compliance, he, on receiving the usual remission merely petitioned me to ask General Allan for a small portion of other ground equivalent thereto this I did - I do not know if you are aware that not very long since it was before the Government for consideration (agreeably to the wishes of the General Commanding) to level the whole of the tope now under review it was not deemed necessary at the time, and it is therefore still standing -

3- Indeed scarcely mention that I took the least possible quantity of

14636. Fort St. George 10th November 1842

of ground that seemed to me requisite, and that, much against my own inclination.

To the Acting Chief Sec.y to Government

Submitting a Correspondence with the Coll.r of Malabar together with a petition from certain Inhabitants complaining that a portion of her garden at Cannanore has been taken from her by order of the Collector to form a burial ground for the native Christian converts and stating that it is deemed necessary to give them a place of sepulture distinct from the common burial ground, the Board would suggest that this might be done by allotting them that part of the ground given which without petitioner's garden and if that should be too small it might be enlarged. The addition of a piece to the eastward of

Oct.r 26.th 1842

Sir,

Para 1. The Petition which, with the correspondence relating to it, is herewith submitted for the consideration of the

To the Collector of Malabar
October 15th 1842
From Do October 26th
in Cons. Nov.r 10th

Most Honorable the Governor in Council, is from a party who complains that a portion of her garden at Cannanore has been taken from her by order of the Collector to form a burial ground. In reply to a requisition for explanation, the Coll.r informs the Board that having been ordered by Government to provide a piece of ground for a grave yard for the protestant native Christians at Cannanore, he took a part of the garden in question, and added it to a piece of vacant land adjoining, for the purpose. He adds that the proprietary right to all the land at Cannanore rests in the Beebee, and that the occupants of the garden received compensation for his loss, in the shape of payment for fruit trees situated in the land taken from him.

2. This position may be true also that Government

Fort St. George 10th November 1812.

possess a right by treaty with the Beebee
to take any land required for public purposes.
Translates of deeds 1812. But the accompanying documents show that
a subordinate right of property has been
acquired, if not to the soil itself, yet to the
adjuncts and issues of it; and the Board think
that this has not been duly regarded. It seems
that two pieces of ground were rejected because
there were certain claims of property on them,
To Coll.r Oct.r 24. and that in question was taken, as appears
from the Sub Collector's letter, only because there
was no other available.-

3.

It occurs to remark that the
purpose for which this ground was taken
was not a "public object" or one in which the
interests of Government were concerned. Mr.
Hebeck himself is a private individual, and
the native Christian converts have no more claim
to the special regard of Government than
any other numerically equal class of their
fellow subjects. If however it is deemed
necessary to give them a place of sepulture
Sub Coll.r Letter distinct from the common burial grounds
where hitherto their dead have been
interred, the Board would suggest that
this might be done by allotting to them
that part of the ground now given

Fort St. George 10th November 1812.

which is without petitioner's garden; and
if that should appear too small (though
it would probably suffice for many years
for so small a community) it might be
enlarged by the addition of a piece to the
Eastward of it, and North of the Inaga-
-dine, as the Board have marked with
a red line in Mr. Crozier's plan.-

Revenue Board Office,
Fort St. George,

68

From the Collector of Malabar

Sir,

With reference to Mr. Parker's letter dated the 26th September 1839, I have the honor to report for the information of the Board that the Government dues on all lands held under Government Grants, have hitherto (with the few exceptions noticed in a Statement forwarded on the 26th Ultimo) been regularly levied in this District-

The assessment directed in the 2nd para of the instructions above referred to, has for Fushlies 1250 and 1251, been levied on fourteen compounds appropriated for sites of houses without any Government Grants, which had not previously paid any Quit Rent, but there has been some difficulty in carrying out the same principle at Cochin, in consequence of a great number of the

proprietors of houses at that place claim-
=ing exemption, on the ground that the
lands appropriated for building were
obtained from the Dutch Government,
with an understanding that they were not to
be subjected to any kind of tax. The
attempts hitherto made to ascertain the truth
of this assumption having proved abortive,
I have deemed it proper to request the Joint
Magistrate at Cochin to make a formal
enquiry into every separate claim, and will
do myself the honor of submitting a further
statement on the subject for the informa-
=tion of the Board when his report is re-
=ceived.-

Malabar ——— }
Coll.n Office Calicut }
29th October 1842. ——— }

/Signed H.V. Conolly
Collector.

Resolution thereon.-

(68-69)

The exemption from quit
rent claimed by the proprietors of Houses
at Cochin, can only be allowed on their making
good their titles to it. Mr. Conolly will

investigation which he has ordered into
the validity of those titles at as early
a period as may be practicable for the
Board's orders.-

To

The Secretary to the
Board of Revenue
Fort St. George

(7)

From the Coll.r of
Malabar ———

Sir, I have the honor to acknow-
=ledge the receipt of the Extract from the
Minutes of Consultation under date the 17th
September last forwarded with the Board's
proceedings of the 17th Ultimo.-

I beg to be favored with instruc-
=tions, with reference to the 5th para of the
2
Minute in question as to the date from
which compensation is to be allowed to the Todas
for the lands from which they have been
excluded in Ootacamund and its vicinity-
by recommendation, on the 13th July 1840 was
that the amount (150 per annum) should be
paid in arrear from the 27th December 1836,
the date on which it was first resolved that
compensation should be made. I am inclined
to believe that the Government have acceded
to this recommendation, but am anxious-
of course not to fall into a mistake.-

of them, as the other Village Officers.—

(Signed) H. V. Conolly,
Collector.

64-65

Proceedings thereon. 1. The first rule of this Hookum-
=nama is designed to check a practice
common, it appears, on the Nulgherries
Viz. of the ryots changing their land at
pleasure, without making it known to the
authorities and having a corresponding
alteration made in their puttahs; but it is
not intimated that there is any fraud
intended or any loss occasioned to the Revenue.
It is proposed to make the Riots liable for the
assessment of land included in their puttahs
unless formally given up, and to prohibit
them from taking new land except by the
observance of certain formalities. These
rules, which are derived from low Country
practice, seem to the Board to be unsuitable
to the system of agriculture prevailing on
the Hills, and premature in the state of
society into which it is proposed to introduce
them. If the Custom objected to, were found
practically

practically inconvenient, by creating a monopoly
of land so that persons desirous of increasing
their cultivation could not obtain ground, the Board
would not object to the restrictions now contemplat-
=ed; but they are averse to sanctioning an inno-
=vation which would be very inpalatable,
merely for the sake of effecting greater regu-
=larity of Revenue management. For similar
Para 2. reasons they object to the limitation proposed
with regard to pasture land; the necessity for
this restriction as well as for the other seems
to be still very far distant.—

2. It is proper enough that a
Para 4. riot intending to take up new land should
previously acquaint the Village officers.—
But the formalities necessary before he is
permitted to open the ground should be as
few and brief as possible, and a reference
to the Tahsildar should be dispensed
with; neither does it seem desirable that
any one should interfere with the Riot
to procure the cultivation of the land
at the proper season.—

Para 5. 3. The plan of giving every riot
receipts

receipts for his payments on a separate
Cadjan inscribed with his name and
Para 6- bearing the Collector's stamp, is very good
and it would save some trouble to the
Ryots, and might furnish some additional
security that the blank stamped Cadjans
reached their destination, if, at the distri=
=bution of Puttahs for one year, the receipt
Para 7- Cadjans for the next following Fusly,
were given to the Ryots at the same time.

The Hoohummanah should provide
that the Puttahs should be distributed
by the Collector and it would of course
remain discretionary with him to delegate
that duty to the Tahsildar where other
avocations might prevent the discharging
it himself.

4- In many other places besides
the Villages of the Neilgherries the Monigars
are ignorant of letters, but it is not
customary to compel them to keep Gomastahs,
nor is it desirable. The proper Gomastah for
the Monigar in writing work is the Village
Curnum.

So

To The Secretary to the
Board of Revenue

(66)

From the Collector of Malabar — Sir, Fort St. George

Reporting on a Petition relative to a piece of land taken up for a burial ground at Cannanore. Dated 24th Octr 1842 Herewith returned

I have the honor to forward a copy of a communication from my Acting Sub Collector on the subject of the Petition forwarded to me with the Board's letter of the Instant.

2. On the 8th August last I received instructions from Government to allot a space adjoining the Protestant burial ground at Cannanore as a place of interment for the Native converts of the Protestant Missionaries or should such a spot not be available to select some other ground for that purpose in any other convenient situation.

3. Mr. Frazier in whose charge Cannanore is, was requested to carry out the Government orders, and accordingly in conjunction with Major General C. Allan, selected a piece of Ground at some distance from the one now chosen.

4 After it had been actually
† Protestant C. Missionary taken charge of by Mr. Hebeck and a body buried in it, some objections were made by the neighbouring House C.
holders

14628. Fort St. George 10th November 1842

holders, which the General thought of sufficient importance to justify him from canceling this grant, and he, in consequence, wrote to Mr. Frazier begging him to come over again to Cannanore and make another selection. Mr. Frazier did so, and after much search chose, at the suggestion of General Allan the site complained of — with what reason the Board will be able to decide on a perusal of Mr. Frazier's accompanying report. The case seems to me to be simply this — private ground was actually required for a public purpose, and in taking it with the knowledge and concurrence of the Proprietor, the Beebee of Cannanore, Lieu a arrangements were made to indemnify the occupant (a Mortgagee) for such loss as was experienced by its appropriation. I was merely waiting till another portion of land was assigned, in place of that taken, to bring the matter to the Board's notice and request the necessary sanction

14629 Fort St. George 10th November 1842

sanction for the exchange as also for the 9 Rupees the cost of the trees found on the occupied spot.
