I am directed by the Honorable the Deputy Governor of Bengal to transmit to you for the information of the Most Noble the Governor in Council the accompanying Copy of a letter No. 1067 from the Board of Customs Salt and Opium dated the 17th Instant, and of its Enclosures, and to request that measures may be adopted for providing a supply of 380900 Mds of white Kurkutch Salt for exportation to Chittagong on account of the ensuing season 1842/43

The present demand includes the balance remaining unsupplied on the Indent 1841/42.

2. I am desired to solicit attention to the 4th Para of the Board's letter and to the observations of the Salt agent a[illegible]

at Chittagong contained in the 2d and 3d Paras of the Letter to the Board dated the 30th June last respecting the delivery from several Vessels of a large excess of Salt above the quantity shipped at Calcutta

3. A Statement of the deliveries of Salt from 53 Vessels in 1841/42 accompanies exhibiting a deficiency of receipt 1,902-2-0 Maunds and an excess 6232 25 4 Maunds

To The Honorable W. H. Bird
Deputy Governor of Bengal
&c &c &c

Dated 17th October 1842.

Hon'ble Sir,

We have the honor to submit herewith a correspondence with the Salt Agent of Chittagong as noted in the Margin and to solicit with reference to the Agents letter under date the 23d ultimo that the necessary communication may be made to the Government of Fort St. George

Salt

From Agent No. 208 dated 30th June last
To Do No. 739 dated 23d July
From Do No. 373 dated 23d September with 3 Enclosures

of White Kurkutch Salt may be provided for Exportation to Chittagong on account of the ensuing season 1842/43

2. Your honor will perceive that the present demand includes the balance remaining unsupplied on the Indent of 1841/42

3. We regret to find that the rates at which the Salt now indented for is to be imported, are somewhat, Fifty 3 Rupees in excess of those which have obtained as respects recent supplies to Bullooah and Chittagong. This enhanced freight is represented by the Agent to be owing partly to a number of contractors having failed in their Engagements of the last season in consequence of inclemency of weather and partly to the circumstance of the Madras coast not at present holding out the same profitable Market for Grain as heretofore thereby lessening the inducement for a resort to the coast on the part of the Chittagong Shipping conveying the Grain and bringing Salt as return Cargo,- Under these circumstances we conceive that the rates proposed by the Agent to be allowed to the contractors to be as favorable as could be.

be expected and I am have accordingly in anticipation of your Board's sanction intimated to Mr Stratton our approval of his arrangements.

4. In reference to the general results of last seasons arrangements reported on by the Agent, we have to note that several Vessels have delivered an excess of Salt aggregating Maunds 6232-25-4 above the quantity shipped at Escapade as per letters of advice and we beg that the attention of the Madras authorities may be drawn to the circumstance and to the observations of the Agent thereon as contained in Paras 8 and 9 of his letter dated 30th June last herewith submitted. To whatever cause this excess may be owing it is of course desirable that measures of more strict supervision should prevail be taken to secure correspondence as far as practicable of the accounts of actual future shipment with those of receipts.

5. With adherence to Para 10 of the Agents letter above quoted we solicit that application may be made to Madras for a statement of the reasons which induce a higher charge for the salt intended for

Sulkea than for that shipped for Chittagong.

We beg that the enclosures may be returned when no longer required.

No. 258.

To Henry Sottens Esqre.
Secretary to the Board of Customs Salt and Opium
Fort William

Sir,

I have the honor to request the attention of the Board to the subject of the importation of Kurkutch Salt from the Madras Coast during the present and ensuing seasons.

2. On reference to my Predecessor's letter No. 496 dated 29th August 1841 it appears that the contracts of the present season amount to Maunds 419350 a larger quantity than is actually required for the consumption of both Divisions which amounts as per margin, for the past year 1841-42, to little more than two lacs of Maunds.

1841/42	
Chittagong	94567
Balasore	106496
Total Maunds ...	201063

A.

3.

A great number of the contractors have failed in their engagements, but as it appears by the statement in the Margin, that Vessels with contracts amounting to Maunds 95,750 have not yet returned I cannot state at present the extent of these failures most of those who have returned declare they have been prevented by the severity of the season from reaching the Port of Ennore safely and in some instances this may be true, but the chief cause of the failure is that the contractors have been deterred from visiting the Madras Coast by the very low price of grain this season in that part of India.

	No. of Vessels	Amount of contracts
Arrived with Salt	60	230,950
Arrived without Salt	18	62,300
Not yet returned	23	95,750
Failed to take certificates from Agent	8	25,50
Wrecked	1	3,450
	110	417,030

4.

The Board are probably aware that the Chittagong Merchants contracts generally export grain from that Port and from Arracan for sale on the Madras Coast and have hitherto frequently realized larger profits from that trade than from their Salt engagements and it is probable that the present freights allowed for Salt would not induce a sufficient number of Vessels to start in ballast for the mere purpose of bringing Salt. During the

the grain Exporters have incurred heavy losses, and many having gone to other Ports in quest of a better Market were unable afterwards to fulfil their engagements which require them to bring the Salt to Chittagong before the end of June.

5.

My Predecessor having taken the precaution of indenting for a larger quantity than was actually required no immediate inconvenience to the Department will be occasioned by the above circumstances but the Merchants have been deterred by the losses they have sustained this season, from coming forward to contract for next years importation and I have consequently been prevented from making any arrangement for the ensuing season.

6.

The Merchants have Petitioned me to allow them a higher rate of freight which it might be necessary to concede if the cause of their dissatisfaction were of a permanent nature, but as I see no reason to consider it so, I am unwilling to advocate any increase considering however that it is desirable to conciliate the Merchants as well as to secure an arrangement for next years provision, I beg to recommend the following plan for the sanction of the Board.

Vizt.

Viz^t. to allow to those Merchants who have duly fulfilled their contract for the present season a bonus of Rupees 3 per hundred Maunds on the Salt they have imported provided that they will enter into engagements for the ensuing importation at the rates of freight now in force and that security be taken for the repayment of the bonus in the event of the contractors failing to fulfil their engagements.

7 Considering the cause of the non fulfilment of their engagements this season I am unwilling to levy the penalty to which the contractors are liable on that account, but the Board will perceive that the plan I have proposed by excluding them from the benefit of the bonus will have the advantage of acting both as a penalty on them, and as an encouragement to those who have completed their engagements to come forward again.

8- I may take the present opportunity of bringing to the notice of the Board the following circumstance The Kurkutch Vessels in former seasons have generally brought more or less Salt in excess of their Certificates for which they have received

payment at the contract rates. In the present season I have thought it desirable to adhere to the same practice feeling quite certain that not to do so would only encourage the Golah Officers to smuggle it into the Golahs for their own benefit - the consequence had been that a large number of Vessels have delivered in more than 100 Maunds each in excess of their Certificates and one Vessel as much as 453 Maunds 8 Seers in excess.

9- I am aware that under Section 41 of Regulation X of 1819. the existence of so large an excess renders the whole Cargo liable to confiscation - but this must necessarily be overlooked, as it is only by my having promised to pay for it, that an amount of excess has been discovered so greatly beyond what has heretofore come to light the Merchants have given me no satisfactory reason how they procured the surplus but the how and the wherefore are I think equally obvious and as the Board will no doubt be disposed to bring the subject to the notice of the Madras authorities in order to enable them to establish

15/49 Fort St. George 1st December 1842

establish a Salt Agency over the Coast of Coromandel, and declaring the Duties, Regulations and Rules to which the Trade in Salt shall be subject, and the Penalties to which Persons offending against the same shall be liable.

Chittagong

Sir,

I have the honor by Direction of the Board of Customs, Salt and Opium to acknowledge the receipt of your letter No. 258. of the 30th Ultimo, relative to the importation of Kurkatch Salt from the Madras Coast during the present and ensuing Seasons and in reply to state that the Board are glad to observe from your letter that inconvenience will not ensue from the failure of the contractors for the import of Madras Salt to ship for Chittagong, the whole quantity indented for which appears to have been in excess of what was actually required.

2. Your attention being attracted to the necessity of taking special measures to ensure the next seasons supply of Madras Coast Salt the Board observe that you propose to encourage these parties to ship at present contract rates, by giving to all who fulfilled their contracts a bonus on imports of 3 Rupees per 100 Maunds recovering the bonus on failure of fulfilment of contract by a Security bond while you release those who have not fulfilled their

contract from the penalty of their obligation.

3. The Bonus roughly calculated on the Deliveries and further expectancies would amount to 19,000 Rupees. Now if this sum must be expended, or any part of it, the Board consider the less complicated mode of raising the Freights would be more secure for the ensuing season, and those which follow as they observe that losses actually incurred (and the causes already ascertained by you) have prevented Merchants from coming forward to contract.

4. Averages of the freight for the past years have been calculated at different series of years but under all circumstances, the Board would prefer leaving you to consider and report the Settlement of the rate of freight which might be accorded to them in the season under contract.

5. The unfavorable circumstances seem to justify in the past season your releasing the non performing contractors from their obligation which at your recommendation the Board consent to do accordingly.

6. You are perfectly correct the Board a fine in paying for all Salt imported the

Fort St. George 1st December 1842

the question of overshipment will be considered on receipt of your final report.

Sir,

I have the honor to acknowledge the receipt of your letter No. 739 dated 23d July regarding the importation of Kurkatch during the past and the ensuing season, in regard to the former. I beg leave to forward as promised in the latter part of my letter to your address as per Margin a statement of the total excess of Salt discovered above the quantity mentioned in the letters of advice received from the Principal Collector of Nellore,- the same statement will exhibit to the Board the general results of the contracts made in August 1841 for the last seasons importation.

† No. 268 dated 30th June 1842

a Enclosure No. 1.

I regret having failed to procure the acquiescence of the Merchants to lower rates for the ensuing importation than those proposed in my last letter and have

Fort St. George 1st December 1842

accordingly concluded contracts at those rates subject to the approval of the Board for an importation of 380900 Mds from the accompanying Statement of the quantity of Salt now in store, the Board will observe that the above is much more than is likely to be required but past experience has proved the necessity of calculating on a large number of failures of engagements I have noted in the Margin, the result of the contracts for the last two years with reference to which I cannot recommend a smaller number for the ensuing season than I have proposed. I have accordingly the honor to forward a detailed list of the engagements I have made and to request the Board's sanction for the arrangement.

Pursuant to the Instructions of the Board I have the honor to submit herewith a Sketch, which will explain the relative position of the Lands and Tope of the property at Pondicherry and is so far of public utility. There has been no special care taken of the Tope since the pay of the Gardeners was stopped, though the renter of the fruit has taken some care of it. But now it is taken care of at the cost of Mr. Pelly. No travellers bungalow is required at Arikadoo poor, though that Bungalow in question would be very useful as a native choultry, but to repair it and the Well so as to render it fit for this purpose would cost two or three hundred Rupees and at present Mr. Pelly is not willing to part with the bungalow to Government.

2. The few trees which bore fruit were rented last year, and realized 4. Rupees which was carried to the credit of Government. But in future, if the Tope is considered to be the property of Mr. Pelly upon whom Quit Rent is now demanded, this of course will not be collected.

Sir,

From the Sub Collr in charge Bellary } Para 1

Referring to the Extract from the Proceedings of the Board of Revenue dated 22d September 1842, I have the honor in compliance with the requisition contained in para 4 of those Proceedings to enclose a sketch, which will shew the relative position of the house and Tope of the property at Hindoopoor - The Tope is open to travellers and is so far of public utility - There has been no special care taken of the Tope since the pay of the Gardeners was stopped, though the renter of the fruit has taken some care of it - But now it is taken care of at the cost of Mr Pelly - No travellers bungalow is required at Hindoopoor, though that Bungalow in question would be very useful as a native choultry, but to repair it and the Well so as to render it fit for this purpose would cost two or three hundred Rupees and at present Mr Pelly is not willing to part with the bungalow to Government -

Ordered to be brought forward at a future day -

From the Collector of Bellary - Read letter, submitting an application from Mr. Fisher Head Assistant requesting leave of absence for one year to proceed to the Neilgherry Hills on sick certificate, under the provisions of sections V and VI of the absentee Rules -

Order thereon,

Read the following letter from the Collector of Chingleput giving further explanation with reference to the suit brought against himself and others by Mootiah Naick of Veervasaukum-

In Corr. 17th Nov. 1842.

(Here enter Oct. 25. Oct 4th 1842 No 132)

Proceeding declining for stated reasons to recommend to Government to undertake the defence of the suit brought against the Collector of Chingleput and others by Mootiah Naick of Veervasaukum-

thereon, 1. From this letter and the documents which accompany it it appear to be the facts of this case -

(20)

2- Plaintiff gave a durkhaust for some annaudy waste land, specifying the boundaries and stating the quantity by estimate at 50 Cawnies - The Tahsildars by the Collectors order inspected the land, (but did not measure it) and reported that the Durkhaust comprised three numbers containing C. a. 53-13½ Cawle was issued accordingly by the Collector -

† Tah.rs Arzees Sept.r 18.th 1841-

It

It was found afterwards

3. that the area within the boundaries specified in the durkhaust contained 118 and odd cawnies, instead of 50. Plaintiff cleared and cultivated the whole extent. But the Meerasidars who had from the first objected to the Cawle being given, opposed his taking any land beyond the exact extent entered in the Cawle, and ultimately all the land not included in it was ordered to be made over to the Meerasidars and appears to have been so made over - It is for this land that Plaintiff now sues, omitting four Mullums, of which it is not certain whether they are Inamiem or Jyan land -

Tah.rs Arzee Aug.t 20.th 1841-

Tahsd.r Oct.r 16.th 1841-

Arzee Aug.t 31.st 1841- Letter post

4. It is evident that the Cawle was given by the Collector under the impression that it comprehended the whole extent of land applied for by Plaintiff, in other words that its boundaries coincided with those stated in his durkhaust - That this was his impression is plain from the Tahsildars Arzee, from the Cawle itself, and still more clearly from the Tahsildars report of what occurred when he inspected the land before the Cawle was given, and of the circumstances

curnums statement at that time. Hap=
=pears evident that all the parties pre=
=sent on that occasion, Tahsildars, Cur=
=nums, Meerasidars, and Durghaust=
=dars, thought at that time that those
three numbers comprehended all the
land within the Durghaust boundaries.
The cowle issued on the same miscon=
=ception, and there is no reason to
doubt that if the real extent of the
land had been known, the whole
would have been specifically en=
=tered in the cowle. Thus it may be
said that in point of fact Plain=
=tiff received cowle for the whole
118 and odd Cawnies.—

5. The fact that the Puttahs
given to Plaintiff for fusly 1249 and
1250 specify 53 and odd Cawnies only
does not militate against the
foregoing view, but supports and
corroborates it. For those puttahs
were given under the idea that they
comprised all the land cultivated
by Plaintiff, both that within the
three stullums, (as subsequently as=
=certained (and that without them.
And it is evident that both Reitrien=

in the three Stullums, were made after
the discovery of the mistake in the Cowle
and were designed to take a cunning
advantage of that error.—

6 The merits of the case being thus,
the Board cannot recommend to Govern=
=ment to undertake the defence of the Suit.—
They cannot conclude their remarks without
adverting to the irregularity of which the
Tahsildar was guilty in making his re=
=port on the Lands without having mea=
=sured it; and to that on the part of the
Collector in issuing the Cowle without
knowing more accurately what extent
of land he was granting, all the subse=
=quent misunderstanding and litigation
are attributable to this lax way of
doing business and the Board hope
that no such practice will be permitted
to obtain for the future.—

at all plain to the Board that it was

Sir,

From the Coll.r of Chingleput
Reporting on Petition No 1235 of 1842 presented by Lutchmi Ummal Widow of the late Zemindar of Vullacuttah
+ No 1935 of 1842 forwarded to Govt

(24) Para 1.- With reference to an Extract from the Proceedings of the Court of Wards under date the 15th August, and the 2 Paras transmitting for report a Petition from Lutchmi Ummal Widow of the late Zemindar of Vullacuttah, I have the honor to submit for their consideration the information therein called for.-

2 The points adverted to in the petition are comprized in two distinct periods and appear to have been purposely confounded and mixed up by the Petitioner, but to which I shall allude separately for the sake of placing them in a clearer light before the Court of Wards.-

3 On the demise of the late Zemindar, his widow the Petitioner the young minor and Rangoo were left by transmitted to me a copy of his Will and severally requested that I would in accordance with it, register the

Mantats

Fort St. George 1st December 1842.

Mootah in the name of the Minor, and allow the Uncle Ragavah Chary to manage the property— On ascertaining that the Will was a true document the Mootah was registered in the name of the Minor and the Estate left under the joint Management of the Widow and Ranga vah Chary, who employed the same persons as the deceased had done as their Agents— The affairs of the Estate were then conducted without disputes arose between the parties, when on a reference to me I balanced the Estate according to the tenor of the Will, and as had formerly been requested by the Petitioner, under the sole management of Ragavah Chary, but which arrangement was subsequently cancelled, & I received instructions from the Boards and the Estate taken under my control on the part of Court of Wards.

On examining the Accounts of the first of these periods and of the authenticity of which there is no doubt, it appeared that the revenue actually derived was considerably below the sums paid on account of the Peishcush, Sibbundy charges, household expenses and funeral ceremonies of the deceased, and the widow to meet these

charges mortgaged certain Jewels for the sum of 855 Rupees— This sum she now claims.

5 Subjoined is an abstract statement of the receipts and disbursements, but as they occurred when the Estate was under the joint management of the family, I see no reason for now interfering, and there are also no assets from which the amounts claimed by the widow could be liquidated, should the Estate hereafter become vested by the widow's claims might then be attended to.

6.- I now proceed to the second period. The quantity of Mauturam grain on hand at the date of assumption of the Mootah by Rayavah Churry alone under my orders in August 1841 amounted according to the estimate entered in the Curnum's Accounts to Cullums 755-5 Measure which on measurement proved to be deficient by Cullums 5-7 Measure 5-2 and the remainder was disposed of as follows.-

	Cullums	Measure
Given for the Mootahdar's family and on loan to certain Cultivators	21	10½
Sold by Rayavah Churry	595	7
Delivered over by Dº to Tahsildar	77	5
	694	0½

The Curnum stated that no portion of the grain found deficient had been appropriated by Rangavah Churry for his own use, and that the apparent difference arose from the quantity of grain actually taken charge of by him having been estimated and not measured.-

7 No grain was reserved by Rayavah Churry as stated in the Petition the whole having been sold by him partly in the Mootah and partly at Madras at different rates the average of being 24 Mercals per Pagoda which was not lower than the selling price at the time, though had the grain been reserved

to a later period it would have brought a better price. The amount realized from the sale of the grain was Rupees 959-10-6.- Under this explanation it will be evident to the Court of Wards that the statement of the Petitioner, that 90 Cullums, together with 1100 Rupees, had been embezzled by Rayavah Churry is incorrect.-

8 The sum actually due by Rangavah Churry was as before shewn only A. R. P. 56-14-11 being the balance in the account of the joint management, but to which sum the Petitioner has improperly added the value of the Cloths &c. presented by her to the members of the family during the performance of the funeral rites of the deceased Zemindar, as well as certain sums expended by him during the joint management for the use of the Petitioner and Minor.-

9 The sale proceeds of grain realized by Rangavah Churry subsequent to his assumption of the Management amounted to A. R. P. 959-10-6 & to which the sum in hand above alluded to 56-14-11 being added the amount became accounted for by him is Rs 1016-9-5

The charges against this sum are as follows.-

Interest on the Balance of last for Fusly 1250	34-2-4

The Petitioner's Vakeel was present when the settlement of the accounts with Ragava Chary took place and was fully aware of its details and could not shew any error in the Accounts.—

10 It appears to me unadvisable to permit the Minor's relation to act in conjunction with the Annecavah as requested by the Petitioner but I have no objection to his bringing to my notice any circumstance connected with the Management of the Estate or to furnishing him with any information when required.

11 The allowance assigned for the maintenance of the Minor has been fixed in proportion to the net revenues of the estate (deducting charges) as will be seen by the annexed Memorandum.—

To the Collr of
Chinglepute } Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 17th Ultimo— As the malversation and misappropriation charged against Ragava Chary are alleged to have occurred at a time when the property was not under the care of the Board they have not authority to scrutinize his Proceedings, But they remark that the Accounts which he produces are not such as to be satisfactory— And that the payment of 455 Rupees to himself on account of his legacy was quite unauthorized so long as the estate remained under any liabilities and should not have been made until the money advances by Petitioner had

24-25

had been repaid.-

2 As regards the future administration of the proprietary, the Board observe that under the Regulations the nomination of a Manager is necessary- As it is the wish of the family that one of their own connections should be employed to the charge of the Board think it better to comply with that desire if possible; and they think it probable that the interests of the proprietor will be better cared for than by a mere stipendiary and one who receives so small an allowance as this estate can afford- They instruct me to request therefore that you will endeavour to select a fit person from among the young gentlemen connected to have charge of the property and recommend him to the Board for the Office of Manager-

3.- With reference to Clause second Section XIV Regulation V of 1804 the Board wish you to consider whether the sum allowed for the maintenance of the family may not be somewhat increased.-

To the Secretary to the
Board of Revenue
Fort St. George.-

Sir,

Referring to the Extract from the Board's proceedings of the 8th September last conveying further instructions relative to the orders of Government granting remission of teak for five years on land taken up for Coffee cultivation and intimating that purchasers for land under these orders will be dealt with agreeably to the order of the Court of Directors in Para 55 of their General letter of the 28th July 1841.-

2 The order of the Court as above quoted appears to recognise a limited Mera pee right; and such an order is very necessary to prevent the appropriation of the lands on the Sheveroy Hills by intruders to the prejudice of the original inhabitants.

3.- As my acts require the confirmation of the Board to make them valid I now forward for the Board's information a copy of Notices issued to the parties occupying lands intimating that I was only prepared

26

11th October 1842

prepared to recognize the puttahs of the Old renters to the extent of lands actually under cultivation in Fusly 1251- There is a number of disputes regarding lands held on the late renters puttas both out, and I believe in Court- Many parties have puttahs for the same Grounds and the only way to prevent irregular claims is to recognise only those lands held by the Settlers, and which were actually under cultivation during the last year of rents, at which time, the renters puttahs ceased to be in force.-

4 I have had it intimated to me that the parties sent up to these Hills by the Philanthropic Society, are endeavouring to get possession of Lands on speculation for resale, but as the claims to remission must be sanctioned by the Board, it will be easy to check this practice by enquiry into the means for cultivating, before recommending the grant for the Boards sanction.-

5 I shall be obliged by the Boards instructions regarding restricting the Acknowledgements of the Settlers right to lands to those actually under cultivation, as the time of Settlement is now nat for off.-

The Principal Collector having received information that certain Coffee planters on the Shevaroy Hills are appropriating and laying claim to lands for the purposes of speculation, In order to prevent loss or disappointments, hereby intimate that he is not prepared to recognise any claim to land beyond what was under cultivation in Fusly 1251- The Board of Revenue having directed that no new lands shall be granted to strangers until offered to and refused by the Hill people of which due notice was given in the Isteyar under date the 17th September 1842.

No new appropriations will be confirmed by Puttahs, unless the above orders have been complied to- It is likewise further intimated to those who may wish to possess lands on the terms granted by Government under date 19th May 1842 which authorized five years full remission of Teerwah for lands occupied as Coffee plantations, that application must be first made through the Principal Collector in order that the sanction of the Board of Revenue may be obtained thereon.-

To the Principal Collector of Salem

Sir,

To the Pr. Coll.r of Salem 3

Suggesting certain alterations in the Instructions issued by this on the subject of lands taken for coffee planting on the Shevaroy Hills

In reply to your letter of the 12th Ultimo on the subject of lands taken for Coffee planting on the Shevaroy Hills, I am directed by the Board of Revenue to point out to you that the Board's order to which you advert was issued not with reference to the Hill lands, but to those in the Low country to lands in short to which the Cavilnamah of the District has heretofore been applicable so far as it is suitable indeed, it may be properly extended to the lands on the Shevaroys, but it is necessary to remember that the provisions contained in the Honorable Courts dispatch therein quoted, is specially restricted to "Meerasy Villages" and the Board believe that there are none answering to that denomination on those Hills. Without special reference to dispatches therefore; or a strict adherence to the course it prescribes it will be sufficient to exercise a general care that Land shall not be taken by Settlers, in such localities as to inconvenience the ancient inhabitants or such lands as the latter may not be willing and may not engage to occupy.—

July 28th 1841 Para 65

2 In the above respects the Sate your requires some little modification, in others it meets the Boards approbation.— The Board approve also your

views and intentions detailed in Paras 3 and 4 of your letter — with the sole exception that the rights of Settlers should be limited, they think, not to the Land which they actually cultivated in Fusly 1251. but to that which they actually cultivated — or paid revenue on — for that year on —

this

this opinion you will be pleased to act, unless there be any special reason against it to notify to the Board.

Sir,

Para 1. I have the honor to reply to your letter of 29th August.

The above is only the blood genealogical tree, but on that no claim is founded by any party.

2 At the death of Gungadara Ninar, the original Cavelgar, receiving 1799-10-6 per annum, Tongantheta Ninar was granted 3/4 of the pension (on 9th April 1818) or 1349-11-6 per

per annum. It would appear that as
title as is now-a-days required was not then
for. Tangantheta Nainar was married to
the 2nd daughter, and also was adopted
original Cavelgar, Gungadara Nainar, he
not have been adopted had he been the
:in-law and had he been adopted, he could
have married Camatchee, to obviate which
:culty, the Cavelgar's daughter Camatchee
purposely adopted by one Canaapy Pi

fully in favor of Tanganthetta Nainar's
legal adoption.

3

By answer he certainly me
not at all of the original family, and
think there is good reason to suspect

that his adoption was not of a nature to
have entitled him to such handsome con:
:sideration by Government although the
Court legally adjudged him the right to
the property of the original Cavilgar.-

4 Be that as it may, he held
the pension of 349 11 6 up to 5th April
1841 when he died, leaving no issue. But he
adopted Gungadara Nainar, the son of
Ammanee Ammal, and grandson of the
original Cavilgar, the day preceding his
death and on the ground of this adoption,
Gungadara Nainar prays for the continuance
of the pension.-

5th Very contradictory courses
have been pursued towards different Cavil:
:gars on the occurrence of lapses. but
it appears at present to be the wish of
the Home authorities to extend indulg:
:ence when fairly called for. Again it
is to be remarked that the present claim
springs from the adoption (ostensibly ap:
:parently on purpose to secure the pension)
by one who bore no blood relationship to
the family and whose position seems

to

to have been obtained rather too easily and if now recognized will exclude all other blood of the original cavilgar..

6 It certainly strikes me always that in respect to these pensions Blood relationship should be first considered. Were duties executed, an adopted male would be preferable to a blood female But it is not even required that any rank or station should be maintained, the object of Government is rather to assist the descendants of the family. My own opinion is, therefore that if any liberality be shewn by Government in this case it should be exercised towards the blood descendants of the original cavilgar, and these will be..

1 Ammanie Ummal..... daughter..
2 Camatchee..... daughter
3 Gungadara Nair..... Grand son and present claimant on ground of adoption by the late Holder who was adopted, but not of the blood..
4 Umbooja Ummal..... Grand daughter
5 Punjanada Pillay..... Grand son..
6 Meenatchee..... Grand daughter

to these I would add Lutchmee Ummal alias Camatchee the wife of the original cavilgar..

7 Lutchmee Ummal alias Camatchee - widow..

7 If small pensions amounting in the total to a portion of that lately given, be bestowed on these seven individuals with a strict understanding that they severally lapse on death, the subject will be disposed of in a more equitable mode in my judgment than by solely continuing a part of the late grant to the claimant Gungadara Nair..

detailed information regarding the irrecoverable balances proposed to be written off by the Acting Principal Collector of Tanjore.

letter with their recommendation for writing off the outstanding Balances pronounced irrecoverable the Board require more detailed information regarding these balances than is given either in the Acting Principal Collectors letter or in the remarks appended to each Column in Statement No 2.

2 The Statement it is observed in some cases does not specify the different descriptions of settlement under which these balances have accrued.

3 Col. No 12 is stated to be the balance against persons deceased or deserted. No information is given regarding their Meerasy lands or whether this balance remains after all their available property has been appropriated to the liquidation of the demands. The Board desire information on these points and an account of the mode of settlement and tenures of the Villages where the defaulters occupied the lands on which these balances have accrued.

Similar

4 Similar information is requisite with respect to the amount entered in Col. 13 of the same Statement.

5 The remarks appended to Cols. 14—15—17—19—20—21—22 are not sufficiently explanatory to enable the Board to form a judgment on the Items included in them.

6 Further information is also required regarding the amount entered in Col. 16 said in the heading "to be against waste lands erroneously brought to the Jummahbundy accounts," but in the note appended said to be "partly by land having remained uncultivated for want of rain and partly "by the rents on Kutgoota Cadaurumbum "Villages having been raised." It is desirable to know what portion of this amount is for lands left waste for want of water and what portion appertains to the Cadaurumbum Villages formerly held under Kutgoota Tenure. The Board in their Proceedings on the Settlement of 1249 objected to the provision for granting remissions in

Para 14

these

these Villages as proposed by the collector and desired to know whether these lands remain waste for want of pain and on what grounds a deviation from the terms of the settlement in their favor was recommended. Without referring to these remarks or furnishing information therein called for, the only plea now stated is that the Rent of the Villages has been raised and the lands left waste in consequence. It is necessary to know what measures have been adopted to ascertain the extent of waste. also what proportion this waste has borne to the cultivated lands and what remissions have been hitherto annually given to these Villages in addition to those now applied for.

7 The statements now furnished shew only the balances outstanding up to Fusly 1247. By the Demand Collection, and Balance account up to end of Fusly 1251, there were in addition to the amount entered in

in the Accounts now sent outstanding balances For Fusly 1248 - 15,074 — 5 — 4

" 1249 — 15,484 — 6 — 7

" 1250 — 16,664 - 12 — 9

47,223 — 8 — 4.

It is desirable that the balances for these years should be included in the accounts and the Acting Principal Collector is accordingly requested to report on them also.

8 On the 28th. of April last the Acting Principal Collector was required to report further on the circumstances attending his recommendation of the 8 of the same month of the Publication of the notice for the Sale by Auction of the lands for arrears from Fusly 1248 to 1250 of two Meerasidars of the Manargoody Talook. This information should be afforded with that on the points above noticed, and it is hoped that no time will be lost in furnishing these accounts in such a shape & with such explanation of each item of balance as will admit of the Board forwarding them

them to Government with their recom=
=mendation in favor of those that may
be irrecoverable being at once written

To The Principal Collector of Canara,

To the Prncl Collector of Canara

Sir,

22d November 1842

In your Return of Public servants suspended and dismissed for the 3d Quarter of the present year, it is observed that the Sahsildar of Soondah was suspended on the 4th July on certain charges, and it would seem continued under suspension at the Date of the dispatch of that Return Viz. the 22d Ultimo - The Board feel at a loss to know what charges they are which need a period of more than 4½ months for investigation, and they remark that this long suspension without report to them is totally at variance with the orders of Government.

Para 1

Reporting on Petition No. 1726 of 1842 presented by certain Ryots of Veroocundlum in the Pedda pollium Talook

With reference to Petition No. 1726 of 1842 presented by certain Ryots of Veroocundlum in the Peddapolliem Talook forwarded with your letter of the 21st Instant I have the honor to report for the information of the Board, that I do not consider the Petitioners deserving of the consideration requested. The Nunjah lands of this Village were as usual sown prior to the setting in of the monsoon, and the Tank subsequently received a four months supply of water, and the Petitioners neither when the Adungle Accounts were prepared, or at the Summahbundy, brought forward any claims for remission on account of crops entirely destroyed by drought. Had any of their crops suffered in the way now stated, they would indubitably have urged the matter during the settlement.

During the Summahbundy the

the Collector to compleat pruning claims for remission on account of deficient crops on ab about 12 Cawnies of land situated at a distance from the Tank when after due

enquiry Rupees 41-1-4 were remitted to them on those grounds, in addition to the several other items detailed in the margin.

3- The total Beriz of this Village for fusly 1251 with the outstanding balance is also exhibited in the margin, from which the Board will observe that the Merasdars, the Petitioners alone have balances against them, and as they have the means of paying but were endeavouring to evade the necessity of doing so by loud clamours of inability and loss. I instructed the Tahsildar to attach their property. and the parties were personally told by me that I would proceed even to the sale of it, should they not liquidate their balances: a very large sum on account of fusly 1251 is still outstanding in this District, and chiefly from those well able to pay, and the support of the Board is necessary to enable me to carry on the duties devolving on me. I trust therefore the Board will

Order thereon

Ordered that the following endorsement be passed on the Petition referred to in the foregoing letter.

Upon a reference to the Collector of Chingleput, it appears that no claims for remission on account of perished crops were made by the Petitioners at the time of the Jummahbundy, when alone such claims could be duly investigated, that the Village Tank received a four months supply of water and that the Sooddra Ryots have discharged in full the demands against them. under these circumstances the Board consider the claim of Petitioners to remission altogether inadmissible.

Proceedings. Para 1 The Board proceed to take into consideration the report of the Collector of Rajahmundry on the Zemindaries and Estates in his District which were in possession of their Proprietors at the commencement of Fusly 1251 together with an advertisement for the sale of such as may not have fulfilled their engagement.

2 Regarding the four first classes into which the Collector has divided the Estates no observations appear to be called for; the Board are content to leave their disposal to the discretion

Communicating observations and orders on a letter from the Collector of Rajahmundry an advertisement for the sale of certain Zemindaries and Estates in that District which have not fulfilled their engagements for the past Fusly 1251

discretion of the Collector. The 25 Estates included in the fifth class it will be necessary to notice in detail.

No 24. 3. In regard to the first Estate the class Vellah. the Collector appears, from

No 1241 of 1842. a Petition presented to the Board by the Proprietor enclosing copy of an Endorsement of the Collector on a former petition presented to him to be precluded from complying with the Petitioner's wishes to register the Estate in the joint names of the present Proprietor and another. and the Board under the peculiar circumstances of the case authorize the Collector to take the Estate under circar management and retain it until the balance is liquidated.

4. The Balance against these

No 25 and 26 four Estates having been so much reduced in

32-.-.-33. since the despatch of the Collectors Report, the Board would be unwilling to resort to the extreme measure of sale and hope that before this the full amount has been either received or arrangements made for its liquidation.

No 27, 28 29 and 31 5 In these Estates tho' the balance is still considerable particularly in No 27 Vellumpollum

Vellumpollum and 29 Cranpah, it is observed that besides the Current Peshcush, heavy instalments on account of the arreads of previous years were paid up, a disposition being thus evinced on the part of the Proprietors to keep their faith with Government, the Board therefore would deem that any arrangements should be made with them which held out a reasonable prospect of the balance being discharged rather than resort to the sale of the Estates.

No. 31-35-36 37. and 41.— 6. In these Five Estates the collections have exceeded the current Peshcush but the chief portion has been carried to the account of arrears of previous years although it does not appear from the Amounts that any instalments with the exception of No. 41 were fixed for the payment of the arrears. In a season when prices were so low difficulties no doubt must have been experienced in converting the produce into money, and the Board would feel every disposition to extend indulgence and save the Estates from sale if any arrangements can be effected by the Collector for

for the gradual and certain liquidation of the arrears.

No. 39-40. 7 The remarks immediately preceding are, with trifling modification, applicable to these 2 Estates, the total Collection nearly amounting to the annual Peshcush.

No. 34. 8 The Peshcush on this Estate Rs. Gootalah Fasl. is 44,567 and the Arrears Rs. 23,120 making the total Demand Rs. 67,687 of this amount, the Proprietor has paid in the current year 47,687 leaving a balance of 20,000 for the liquidation of this. the Proprietor solicits four years time. The Board transmit for the information of the Collector four Petitions received from this Individual, and before passing final orders desire to have his opinion as to the measures which he would recommend to be adopted towards this Estate.

No. 1141-1199 1271 & B. No. 116 of 1842.—

No. 38.— 9 In reference to the Balance Rs. 27,972 due by the Estate Panoonuntrah the Proprietor has solicited that Rs. 18,000 the Arrears of 1248. and 49 may be altogether remitted, and that he may be allowed four years to discharge the remainder, arrears and Current amounting to

No. 1164 of 1842 B. No. 118 of 1842

Fort St. George 5th December 1842

to Rs. 9820 the request of this Proprietor is inadmissible, but the Collector would appear to consider this individual deserving of indulgence, altho' he has omitted to recommend any specific measure. the Board request that this may be supplied.

No. 48. 10 The Peishcush on these Estates Moongondah Vizn. is Rs. 28,180 the Balance now outstanding Rs. 39,702. besides private claims on the Estates, the private creditors, it appears, press the sale of the entire Estates, and request that whatever remains after paying Circar dues may be made over to them, the Proprietor solicits that the Estates may be subdivided with a view to a portion of them only being disposed of. The obstacles which the proprietor has already thrown in the way of the preparation of Subdivision Accounts render it unadvisable to make a second attempt at their preparation could any advantage result to him therefrom. but the Amount of the balance already exceeds what it can reasonably be expected the whole Estate will realize. the Board have no alternative therefore but to desire that it may be intimated to the Proprietor that

Fort St. George 5th December 1842.

that if the Arrears are not immediately discharged, or satisfactory arrangements made for their discharge, the Entire Estates will be immediately brought to sale.

11. None of the aforementioned Estates except Moongondah are attached, it remains only to speak of those which are attached.

12. From the Demand Collection and Balance Statement received for October it would appear that the current Demand against

No. 42-43 these two Estates Annadavarapadoo and Tuckilunkal, have been discharged, and they trust that the Collector has been able to make some arrangement for the liquidation of the arrears.

No. 44 13 Of the balance against this Estate Rauly Rupees 13,358 accrued in the late Proprietor's time and Rupees 27,687 in the present incumbents, making the total balance Rupees 41,072 or nearly one years Peishcush Vizt. 44,693. This man's total Payments in the current year have been 41,500 Rupees, but it is still necessary that some steps should be taken for the liquidation of the large outstanding arrears and if the Zemindar cannot propose some terms to

to which the Collector can agree, the Estate must be brought to Sale.

No. 45

14.

This Estate Takey &c. is owned by two Females who are also the joint Proprietors of two other Estates Vakilippah and Vadasalaroo, the former paying a Peshcush of Rupees 22,066 the latter of Rupees 38,493. The total Arrears against the three Estates is Rupees 87,074-. The Proprietors have, in a Petition addressed to the Board, prayed that the two latter Talooks may be sold and that they will make up &c. what may be realized by the sale to the sum of 50,000 Rupees, and on their doing this, they further pray that the Arrear on the takey &c. Estate only may be remitted to them, and the Estate restored to them free of incumbrance. The Board cannot entertain a proposition involving such a remission, but they will be glad to receive any suggestions from the Collector for the future liquidation of the balance against these Estates which may save any of them or the whole from the sale.

No. 49

17

In reference to the Cotah Estate, the Board will be prepared to pass orders when the explanation required by Para 2 of the Board's Proceedings 22nd September last have been received and the consent of the two brothers received to the proposed Peshcush to be fixed on this and the Ramachendrapooram Estate or fresh Subdivision accounts submitted.

18

Mr. Smith will gather from what has been stated that the Board, after a season like the past, are unwilling to bring to Sale any Estate where there is a probability of making any reasonable arrangement for the liquidation of the arrears. Mr. Smith will be pleased to submit a Statement of such, with detail of the arrangements proposed, and when no prospect of the payment of the arrears is held out, the Board must reluctantly authorize a Sale - and they desire a list of such Estates to be furnished with a Sale advertisement. -

19.

In conclusion the Board observe that in the case of almost every Estate - which have been noticed in these Proceedings, the Collections realized within the year, would, if carried to the credit of current Peishcush, have been sufficient to satisfy the Demand, and there would have been no arrears of Current Revenue whatever, but in place of this being done, a part only of the Collections have been credited to the head of Current Peishcush and the

remainder

remainder carried to the Account of Arrears, nor is it apparent upon what principle, or whether upon any fixed principle, these portions have been regulated. The practice however is not only highly objectionable but is opposed to Regulation, and should be forthwith discontinued. All Collections should in the first instance be appropriated to the discharge of the Current Demand of the year; this liquidated, any surplus may be set apart for the payment of arrears, and

and the Board desire that this
course may be invariably observed
for the future.

Sir

Para 1. I have the honor to acknowledge the receipt of the accompanying Petition from Cheddumbarom a Cosharer in the Curnuckum Meras of the Village of Chinnapasoopoola complaining of having been excluded from the Mesul of the above Village.

In reply I beg to observe that in many Villages of this District the Cosharers in the Curnuckum meras are very numerous but it is customary to place in the Mesul only such of them as may be required for the duties thereof — when the present Petitioner applied to be employed in Fusly 1250 a.d. 1840/41 almost all the Inhabitants raised strong objection and his request was not therefore complied with — I must add that there are already 3 Meerassydars in the Mesul and that the Petitioner is sole Curnum of the Village of Madidennay and the joint Curnum of Chadeperalladinnay which appears to me sufficient reason for not placing him in the Mesul of a 3d Village in

From the Coll.r of Chingleput

Sir,

22 Para 1. I have the honor to report, for the information of the Board that the special appeal suit filed in the Court of Sudr Adalut against Mr. Maclean and others, by Yellapah Reddy, and which was reported in my communication noted in the margin, has been decided in his favor, as will be observed by the enclosed copy of the award -

To Board 9th Nov.r 1841 -

Vide Enclosure A

2. The total expences incurred in the defence of this suit have amounted to Rupees 697 - 1 - 3. of which Rupees 419 - 14 - 4 were sanctioned by Government under date the 28th June 1841. and I have therefore to request the Board will obtain the special sanction of Government for the balance, amounting to Rupees 277 - 2 - 11. Two hundred and seventy seven annas two and Pie Eleven -

3. The original and special appeal

appeal suits were filed and admitted by the Court to sue pauper suits, and Yella-pah Reddy is not possessed of any property which can be attached and sold for the costs, but as he gave security for eventual costs in the appeal suit before the Provincial Court I have directed the Government Pleader in Sudr Udalut to move the Judges to issue a precept to the lower Court to collect and pay to me the costs incurred in the appeal suit -

1. The original Plaint set forth that the Plaintiff and Kalava Reddy and Goorroomoorty were Merasidars of the Village of Mailveranum in the Talook of Conjeveram in the Zillah of Chingleput and that having been forced against his will into taking the rent of the Village the 1st defendant ordered the Tahsildar to collect the arrears due from him - This was in the year Swabhanoo in a time of drought and famine -

2. The 2d Defendant in league with the 7th and 8th Defendants afterwards procured the Collectors order / 1st Defendant / to attach the Plaintiffs property, and having done so made it over to the other Defendants as if an open sale had taken place -

3. After deducting the Proceeds realized from this transaction the 1st defendant made out another account of Balances against the Plaintiff, and attached and sold some more of his property in conjunction with the other Defendants, to the 7th Defendants, on the very day of the attachments, on the very day of the attachment -

4. The Plaintiff goes on to state that he complained to the successive Collectors for the time being of his grievances, and to the Board of Revenue, and these authorities referred

referred him to the Civil Courts for redress.

5. The Plaintiff concludes by praying that the property sold may be restored to him and estimates his claim at Rs. 4,199-13-

6. In answer to this Plaint the 1st Defendant A. Maclean Esqr. states that the Plaintiff voluntarily engaged himself for the rent of the Village, Goaromworty being his security. That he subsequently fell into arrears which the Tahsildar; 2d Defendant, reported to the Collector on 24th July 1824, and on 10th September an order for the sale of the Plaintiff's property was issued.

7. That the Plaintiff never made any complaint as to any illegal proceedings attending the sale, or that the property was unfairly sold for less than its value.

8. The answer concludes by saying that the Plaintiff has made false statements of his case, that having failed in his engagements to the Balances due by him to Government were recovered according to the Regulations and that he has been subjected to

to no loss at the hands of the 1st Defendant.

9. The 7th and 8th Defendants in their answer deny the truth of the Plaintiff's statements and declare that due notice of the sale was given, and the Plaintiff made fully aware of the Proceedings of it.

10. The 8th Defendant purchased part of the Property and so did the 7th Defendant, and the Commissioner (the 3d Defendant) placed them in possession of it, and they have enjoyed it ever since (19 years).

11. The Defendants conclude their answer by asserting that as they have been at considerable expense in improving the Village the Plaintiff has filed a false suit to set it back again.

12. The reply reiterates the assertions of the Plaint.

13. The suit was tried ex parte as regarded the 2d 3d 4th 5th & 6th Defendants.

14. There were 7 witnesses examined by the Zillah Judge on the part of Plaintiff, and a Joint witness for both parties, Anna Pillay, and six (6) witnesses on behalf of

of the Defendants —

15. Nine[9] Documents were filed on the Plaintiffs part, and 26 Documents by the Defendants —

16. The Zillah Judge of Chingleput stated in his Decree, that certain property of the Plaintiffs had been attached and sold 30th July 1824 and 25th August 1824 respectively —

17. That more property was subsequently attached 1st December 1824, and sold on the same day, both sales having taken place within 30 days from the time of attachment, except the Plaintiffs cattle.

18. The Zillah Judge then alludes to the enactment of Regulation XXVIII of 1802 Section XXI, by which persons who may sell destrained Property in any other mode than that prescribed by the Regulations, such person shall forfeit to the defaulter the arrears owed by him, and also make good to him the Value of the property sold —

19. As to the property attached having been sold at an unfair valuation the Zillah Judge pointed out that the List of property and the valuation was signed by the Plaintiff himself as Village moonsiff, which disproves this, and as to the sale not having been open or Public, the witnesses for the defence disprove this statement also, and it is certain that the Plaintiff himself made no complaint as to either of these points till 29th November 1825, or more than a twelve months after the sale, this is shewn indeed by the Plaintiffs own document No 99 —

20. The Zillah Judge here remarks that property

property sold some in the midst of a famine, and the rest before the People had recovered from the effects of it could not be expected to fetch a good Price.

21. The Decree sums up by shewing that the Revenue Board had given no orders to remit the balance due by the Plaintiff or to collect it by instalments gradually. That the 2d Defendant was justified in collecting the Balance as he did, that the property was sold at Public Auction, and realized the full value which could be obtained for it under the circumstances. As however the 3d Defendant conducted the sales illegally as Commissioner for the sale of sequestered property, the Decree adjudged the 3d Defendant, the Commissioner, to pay to the Plaintiff Rupees 105—4—9, the amount of arrears due by him, and Rupees 800 the value of the property sold. Plaintiff to pay all the costs of the Defendants except those of the 3d who was to pay his own and the Plaintiffs also.

22. The Plaintiff thereupon became appellant and in his appeal urged that

that as the sale had been found, to be an irregular one, the property ought to have been given up to him, or it that the Decree is of no use to him because the 3d. Defendant is a man of no substance.

23. Appellant denies that he signed the List of property attached, and that the sale was Public; for how could it be so. he asks when the Decree itself pronounces it an illegal one. He therefore prays that the property itself may be given up to him.

24. In the appeal answer the 1st. Defendant / A. Maclean Esqre / adverts to other points of the case not material to be recated here. Such as the rest, Could the Provincial Court of Appeal for the Centre Division observe in their Decree that the 30 days referred to in the Zillah Judge's Decree is drawn from 2d. Clause 14th Section. Regulation V of 1822. which also declares that the period is allowed in order to give time to the party to stop the sale by Application to the Collector by which / the Court infer / they mean. to point out that the party / the Appellant

appellant / did not avail himself of the opportunity so afforded.

25 That both sales were illegally conducted, the 1st. before the expiration of 30 days from the sequestration, the 2d. sale immediately following it.

26. It must always be a difficult thing to prove / the Provincial Court say / how far the sale was public, and how far the want of observance of legal forms worked an injury to the Plaintiff, but in this case the Parties were renters, and Mirasdars of the Village, one or other of them at all events were present at the sales, they made no objections to them, and the Witnesses of the Defendants likewise depose to a number of other persons being also present.

27. It is impossible to believe / the Provincial Court say / that the illegality in the sale conducted by the Commissioner worked any injury to the Plaintiff. For a long interval elapsed between the 2 sales, and more than a Year elapsed before the Plaintiff took any steps to set them aside.

That

28. That the Plaintiff - Appellant experienced any difficulty in preferring an appeal to the Collector, or in obtaining redress from him or from the Board of Revenue, the Provincial Court think is incredible. There was an arrear of Revenue due, the property was liable for it. The collection of it was ordered by the 1st Defendant / Respondent in the usual manner by a Tahsildar to the 2d Defendant, and the responsibility of the actual sale rested on the Commissioner the 3d Defendant". The Commissioner neither answered the suit nor appealed against the decision passed against him.

29. The Provincial Court consider the amount sued for to be "an absurdity" for if the Village had been capable of yielding any such fruit, there would have been no difficulty in raising an amount upon it sufficient for the trifling arrears on account of which it was sold."

"It is impossible that the Plaintiff would have had any difficulty in saving his property if he had

"had he immediately after the sale carried the amount of it to the Collector.

"It may be much doubted — whether the appellant has any claim on the score of real Justice, in regards of the Interval which took place before the sale". He allowed the illegal sale to have effect for a whole year before taking any effectual measure to set it aside, and then allowed several years to elapse before bringing his suit"

30. As the Decree passed against the 3d Defendant had not been appealed against the Provincial Court could not do otherwise than confirm that part of the award.

31. But this award the Provincial Court thought did not affect the interests of the other Defendants - none of them had acted illegally - No collusion had been proved or was even probable between 2d & 4th & 8th Defendants; and if such had been the case, the remedy was in the appellants hands, by an immediate appeal to the Revenue authorities

authorities. The Plaintiff allowed matters to "proceed in a wrong course till a difficulty "should have formed in setting them right, "and comes forward to seek restoration of pro- "perty which lapse of time, and the ordi- "nary mutations consequent thereon have "rendered impossible."

32. For the above reasons the Provincial Court confirmed the Zillah Judge's decree, and directed that the Appellant should pay the costs of Appeal

33 The Appellant thereupon presented a special appeal to the Sudr Court of Adalut in forma Pauperis.

34. In the special appeal he makes use of the same argu- ments as before and complains of the Decrees of the lower Court being only passed against the 3d Defendants "who is a beggar" and that he can not expect to recover his Meraysy Lands unless the sales themselves are set aside.

That in previous suits of this description, and No. 25 of 1822 of the file of the Provincial Court of the Centre Division in particular, sales have been set aside, and property restored to the parties.

36. That the present decree is not consistent with that in question, and is opposed to Judicial practice.

37. That awards against the Commissioner of sale, whilst the Revenue Servants are not affected, do not afford protection to the Ryots from injustice, and the special Appellant prays the Court in con- clusion to set aside the sale itself, and to award to him restitution of his Meraysi Lands. This special appeal was duly admitted by the Sudr Adalut on grounds hereafter recited.

38. The Government Vakeel on behalf of the Collector for the time being / A. Freese Esqre / made answer to it by repeating that a Balance was actually due by the special Appellants and property attached

in consequence, and no complaint was made by the special Appellant either as to the value of the property or the irregularity of the sale. That the Commissioner who conducted the sale was not a servant of the Collector, but appointed by the Court, and what could the Collector do regarding his acts after such a lapse of time when the irregularity of them was complained of. The Commissioner has never defended the suit that the sale ground upon which this special appeal was admitted was to be that the property was attached and sold on the same day. It appears however from the Records of the Collectors Cutcherry that the Tahsildar ordered the Peishcar on the 11th November to attach the property, and that the Peishcar informed him in reply that he had done so on 25th of the same Month.

39

That the Tahsildar thereupon

thereupon ordered the Commissioner on 28th of the same Month who appraised the property on 30th November and 1st December, on which latter day it was publicly sold. In the accounts forwarded by the Commissioner dated 18th Kartekay of the year Tarana, corresponding with 1st December 1824, the particulars of appraisement and sale of the property attached are set forth which makes it inferible that the property was previously attached.

Importance is attached to this point, the Special Appeal Answer explains in consequence of the case having been tried ex parte as

as regards the Sahoildar and Commissioner and from its being the sole ground of the admission of special Appeal. It was shewn in the original suit that part of the Cattle, sold on 1st December, formed part of the property attached on 30th July previous, and from these and other circumstances, the special Appeal answer concludes the special Appeal ought to be dismissed and the Decrees of the lower Courts confirmed.

In

41. In addition to the above a very long special appeal answer was put in by Ingasawmy Moodelly the 8th Respondent in which the former Proceedings as exposed in the pleadings in the original suit are again recited - they plead that they have enjoyed the Village for 19 years which they purchased at the sale in question and have had the Inerafty registered in their names ever since the Puttahs made out in their names, and hold certificates of the sale in their hands - That they have greatly improved the Village by extensive outlays of money - That Gouramoorty and Kelavareddy the other Partners who were present at the sale complained of by the special appellant, were satisfied with the proceedings held by the Commissioner and have raised no objection to this day; nor would the appellant have done so had he not avariciously coveted the Village since he has perceived the great improvements in the condition of it, made by

Fort St George 5th December 1842.

by the special Respondents means and thus preserved in preferring this special appeal—

42. The special Respondent then point out that the Regulations Viz. clause 3rd Section XXI, XXV Regulation XXVIII of 1802 do not at all provide for any annulment of a sale irregularly conducted— The Commissioner is to make good the lapse his irregularity may occasion.—

43. It is upon this principle that the Decrees of the lower Courts are founded and the special appellant has unjustly preferred his appeal against all the Defendants notwithstanding.—

44. As to the Commissioner being rich or poor that does not alter the case.

45. The Suit No. 25 of 1802 quoted in the special appeal does not apply and is quite different from this case as explained in detail.

46. This special Respondent concludes by announcing himself heir to the 7th Respondent Auroomoogal Boodelly who has died childless and by praying for the dismissal of the special appeal.

47. The Court observe in this case that

Fort St George 5th December 1842.

that the special appeal in forma Pauperis was admitted by the Sudr Adalut under the following circumstances 19th July 1841. The Judges say they do not consider that the 1st of the sales was illegal because Regulation V of 1822 is not applicable to cases in which the Officers of Government are Parties of which nature this case is— But the 2nd sale Viz. the sale of Petitioners property on the same day that it was attached, the Court of Sudr Adalut consider to have been illegal, and that Damages are recoverable for it.

48. It is quite clear from a perusal of the Records of this trial and of the above quoted Proceedings of the Sudr Adalut that the points now under discussion are reduced to whether the 2nd sale of the special appellants property was legal, and if not, what compensation he is entitled to further and beyond what the lower Courts have awarded him— For with regard to the terms upon which the special appellant contracted

Fort St George 5th December 1842.

contracted his engagements with the Collector, the Rent and the Cowle, whether the Balance against him were due and whether the Collector was authorized to distrain the property, whether the Tahsildar 2nd Defendant was bound to obey the order of the Collector the 1st Defendant, and whether by issuing his orders to the Commissioner of Sales (whether directly from himself or through the Peishcar) he exceeded his authority - all these Questions have been in the opinion of the Court of Sudr Udalut disposed of in the lower Courts against the special appellant and very justly so. —

49. Before however disposing of the question of the legality of the 2nd Sale, it is to be observed that as the Court of Sudr Udalut have pronounced the 1st Sale not to have been illegal, the amount of that sale and of the arrears due by the Special Appellant for which his property was sold at that sale, might with great justice be deducted from the award against 3rd Defendant the Commissioner since those 2 amounts are included in that award; if two obstacles

did

Fort St George 5th December 1842.

did not prevent it. —

1st No appeal has been preferred by the 3rd Defendant against that award. —

2nd The Sudr Udalut have laid it down as a Rule that an appellant shall never be left in a worse plight than the original Decree left him in by the appellate Court. Except on the special appeal answer of the Collector for the time being (a Treese Esqre) it does not seem to have been doubted or denied that the 2nd Sale took place on the same day of the attachment of the property and the doubt is not of much importance in the absence of any better evidence than the Commissioner's account alluded to, in the special appellant's answer and which is not filed of Record. —

50. It is to be observed that the arrears due by the special appellant to liquidate which, the 2nd Sale took place, were a continuation of the original arrears due by him and which the property sold at the 1st sale was insufficient to pay off. Under such circumstances an immediate sale seems to have been contemplated by the legislature by section 21 Regulation XXVIII of 1802

the very time of the sale and alter it, but as the Decree of the Provincial Court has justly pointed out the special appellant suffered such a time to elapse before the raised the Question of the validity of the sale and the Proceedings of the Courts have since so prolonged the course of time, that to disturb the sale of the Village after a possession by the other party of 19 years, would now be to disturb the right of property, and to throw the affairs of the Village in question into inextricable confusion, and to perpetrate injustice upon innocent Parties in possession.—

58. The Court therefore considering that an ample measure of redress has been afforded to the special Appellant by the lower Courts, that his special appeal in forma Pauperis has met with the most indulgent attention.—

59. That the strict Provisions of the Regulations merely upon which his special appeal was admitted will not admit of such a construction as that the annulment of the sale of the Villages can

can be founded upon them, and that the conduct throughout of the special Appellant is undeserving of any further consideration, do therefore for the foregoing reasons confirm the Decrees of the lower Courts in all respects, and adjudge the special Appellant a Pauper to pay the costs of special Appeal at any future time should he become possessed of any property—

(22-23)

The Collector is requested to submit a detailed account of the costs incurred in this suit, shewing their total amount, the portion already sanctioned, and that still requiring it. The Board will then be able to bring the subject before Government.—

With reference to his letter of the 20th May 1841 Mr. Freese is also requested to inform the Board whether the costs in appeal were duly realized; and whether any part of those in the original suit have been recovered.

From A. Freese Esqre
Collector of
Chingleput.

Sir,

Para 1. I have the honor to return Petition No. 1546 of 1842 from certain Ryots of Damal complaining of my having ordered the balances due by them to be realized, if necessary, by distraint, and forwarding in proof of their statements, an original notice of the Tahsildar.—

(24)

2. The Petitioners are perfectly correct in stating that I did give the orders for the attachment of their property, but it was because they had the means of paying, and were endeavouring in conjunction with many others to withhold their balances, and the result has been that the balance of 1800 Rupees due on the entire Village has been reduced to 794 Rs without the necessity of selling a single person's effects. In regard to the notice, it will be quite sufficient to point out for the information of the Board, that the persons whose effects were distrained by name Ayah Venkatachary, alias Ayahveyengar was for some time a Honzoor Cutcherry

servant, and held a Tahsildarship for 13 years, and is a man of reputed wealth; a fact sufficient to shew the value of the Petitioners statements.-

Resolution thereon.

(24-25)

It appears from this letter that the Petitioners are largely in arrear to Government not from losses or poverty but contumacy and ordered therefore that the following order be passed on their Petitions.

1546 of 1842.

"The Board have ascertained from the Collector that the Petitioners have ample means of defraying their balances; they consider them entitled to no indulgence and reject their Petitions."

Read the following letter from the Collector of North Arcot containing his report on the management of the Extra Sources of Revenue in his District for Fusly 1251 A.D. 1841/42.

Proceedings. Para 1-

Relative to the Management of the Extra Sources of Revenue in the District of North Arcot for Fusly 1251 A.D. 1841/42.

Hevenur 8th 1860.

Owing to the Storm which occurred in the Month of May 1841 the Collector states that the Paus in the neighbourhood of the Pulicat Lake became inundated, that

destroying the Salt in progress of manufacture and which for a period of two Months would not be recommenced, the consequence was that the quantity of Salt produced in the year under review was below that of Fusly 1240 A.D. 1840/41 by 3m Garces 116-370.-

2- To this cause is attributed the falling off in the Sales of Salt in Fusly 1251 A.D. 1841/42 which were less by 3m 156-275 than in the previous year, the decrease in the Revenue derived therefrom being Rupees 16,452-3- calculated at the Monopoly Sale Price Viz. Rupees 105 per Garce.-

3- The total Proceeds from the Sales within the year under report were 20,039-4- or Rupees 16,452-3 below those of the preceding when the Collections amounted to Rupees 36,491-7.-

4- The charges incurred were

short of those of Fusly 1250 A.D. 1840/41 by Rupees 1343-2-4 chiefly in consequence of the disbursement of manufacturers share having been less owing to the deficiency in the Quantity manufactured.

Increase and Decrease in the Collec

commerce; in the Collections from Gingelly
seeds, and other small articles, there was
also an Excess. The decrease arose
noticed above principally from a
diminution in the demand for Cloths
at Madras, and also the Collector

to be owing to the Market at the Pre

decrease owing to the absence of
competition amongst the bidders.

7. Of the current demand on account of Sayer, Rupees 139358-12-2 were realized within the fusly, leaving a balance outstanding at its close of Rs 781-5-11. the whole of which was brought to account at the date of the Collector's report

Mr. Golding hazards observation 19.

in the concluding para of his letter that "the diminished sales of Salt from there being no Salt at the Pans in the North Arcot District probably led to an increased sale Elsewhere" appear to be fully borne out by the increase that has arisen in the Tiddah Division of the District of Nellore where the Sales exceeded those of fusly 1250 a.D.-1840/41. in the large sum of Rs. 44,760-8-5. This excess is explained by Mr. Stonhouse in para 70 of his report on the Extra Sources of revenue in his District for fusly 1250 a.D.-1840/41. which will be shortly submitted to Government "to have arisen from there having been no salt in store in the neighbouring Districts which compelled the Brinjarries to resort to the adjoining Collectorates."

Ordered that a copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the collections, charges and Net Revenue be submitted to Government and a Counterpart of the same be forwarded to the Collector of North Arcot for his information and guidance.--

The

Season.

Fort St. George 5th December 1842.

4. The periodical rains which commenced after the 15th of May were of service in the ploughing of the dry lands and the Rains in June furthered the sowing of this description of cultivation. Drizzling rain fell in July, but the supply to the tanks was not such as to ensure an extensive cultivation of the wet or Punjah lands; kar was however raised in proportion to the means afforded and under such channels and Wells as were available for irrigation. In August again the rain was partial, but in September several of the tanks received a supply of from 2 to 3 Months water, at the close of October and the beginning of November the rains were more favorable and the tanks which received their supplies from River channels were then completely filled, other Tanks from ½ to ¾; this rain greatly assisted in forwarding the Poonjah cultivation of the Sumbah and Nounah in Punjah cultivation, it was also of great service to the Crops then on the ground. In December, however, the rain failed, On the whole although the

season

Fort St. George 5th December 1842.

season throughout, was not such as to favor cultivation to its full extent, there is notwithstanding an increase above that of the preceding year, which has occurred in all the Talooks Wundawash, Poloor and Sriputty excepted.

Cultivation Dry lands. Sholinghur Trivellum. Sautghur Vellore Trivettoor Poloor Wundawash. Pennurry Tenealagherry Cotak.

5. Some of the Talooks in the District derived but little benefit from the former rains, in these the Poonjah Cultivation such as Bunjeerah, Raggy, &c. fell below that of last year, this deficiency was however made up by the latter rains in the Poonjah pulse cultivation. Thus, on the whole, there is an increase in the Poonjah cultivation of the year under report the extent exceeding that of the year preceding in Cavenier 8,136-9 10/16 assessed at Rupees 12,129-14-1 some instances occurred of which Crops having been dried up from an entire failure of rain, but the Ryots reploughed their lands and sowed them with latter rain seed.

Wetlands Kar.

6. There is a decrease in the Punjah Kar Cultivation of the year below that of

of the preceding. occasioned by the unfavo-
=rableness of the early rains in the 5 Southe-
and Sautghur Talooks, but the after
rains favored the Sumbah cultivation
in all except Wandiwash, Sholinghur
and Trivellum Talooks. The cultivation
of Nowrah in Sholinghur, Trivellore, Sut-
=waid and Wundiwash fell off but in the
rest of the Talooks it was cultivated to
a great extent, Notwithstanding the dis-
=parities stated, arising from the rain hav-
=ing been favorable in some Talooks but scan-
=in others, there was a net increase in the Tal-
Nunjah cultivation of the year of Cawnies 3991
9 2/4 or Rupees 26361-12-4 above that of the
preceding.

Garden lands. 7. The decrease in Setacal or Garden lands
cultivation is Cawnies 53-10- as per assessed at Rs. 114-37-
5- attributable chiefly to the want of rain in the
Poloor and Wundiwash Talooks.-

8. On the whole Punjah, Nunjah and Setacal
cultivation of the district there is an increase of
Cawnies 12082-9/16 as or Rs. 37054-9 as above Fusly 1250.

Fuzulzausty or Increase from 2d Crop.- 9- Statement-B exhibits the Fu-
=zulzausty the increase under this head

amounts to Rupees 10802-1-3 as and is owing to the increased Cultivation of Nunjah in Punjah and 2 Crop Nunjah in 1 Crop Nunjah land in the Chittoor, Cavery pauk and Sholinghur Talooks.-

General out-turn of the season.- 10.- The return of the year on Punjah Lands average 10/16 and on Nunjah kar 3/11 and on Sumbah and Now-
=rah 10/16.-

Prices.- 11- Annexed is a table of the prices of Grain in the Talooks forming the Collector's Division.-

The average Market Price of Grain last year was Rupees 88-14-2 as. The Remission of 12½ per cent is not allowed in the Sub Division, the price obtain-
=ed thereby by the Ryots was 18 Pagodas per Garce. In Fusly 1250 the Price in the Sub Division was Pagodas 19½ per Garce. The commutation rate is 25 Pagodas per Garce. The low prices of the season pressed considera-
=bly on the Ryots.-

12- The revenue under the large Cavery pauk & Tank amounts to Rupees 1837-1-11 as being a trifling increase of Rupees 1013-10-6 above the preceding year. Had the earlier rains been more favorable the revenue under this fine reservoir would have been more favorable.-

Shavee 16

Fort St. George 5th December 1842.

The total remission allowed under this head was Rupees 11,477 a. P. 8. 6. being 8,675 Rs. a. P. 6. 1 below that of the preceding year. The whole extent of land ploughed and not sown bears an assessment of Rupees 11,684 a. P. 1. 11 of which 266 Rs. a. P. 9. 5 were taken to account for actual neglect on the part of Ryots to sow while they had the means of doing so. Rupees 21,586 3 a. 5 P. of this description of land remained unsown, of which 998 Rs. a. P. 6 were taken to account as the Ryot was not entitled to the usual remission on under this head. the sum of Rupees 23,588: 2-11 was granted as remission Rs a. being 223. 5. 11 below the remission of the previous year.

Remission for Shavee or Crops which perished did not occur in the principal divisions during the year under review, but in a few instances it was found necessary to allow this indulgence both in Poonjah and Munjah in the Sub Division, where the want of

of water was ascertained to have been the cause. The subjoined Statement will shew the assessment of the crops which perished, the sum taken to account and the amount granted as remission in the Sub Division. The Poonjah Shavy occurred in the Village of Gotlian in the Poloor Talook. The land had been taken up by some new Ryots and as the Crops dried up Remission was given.

Instances occurred in the Sub Division calling for remission of the assessment on certain Vittoo paul or Crops which perished when yet tender; this does not appear to have occurred either from an negligence

negligences on the part of the Ryots or from a want of water, but from a superabundance of the latter which destroyed the young plants as observed in the 12th Para of the report from the Sub Collector. The whole amount of Villeparut is Rupees 536-11-7. of which 6 8-2. were taken to account for neglect and 530-3-5 remitted. The remission allowed for both Shavy and Villeparut amounts to Rupees 1,557-5-3. being 1,534-3-5 below the previous year. This indulgence was granted in advertence to the low Prices of the year and will I trust be approved.

Panny Boodooty. 17.- The Remission granted under the head of Panny Boodooty or Crops covered with water in the bed of Tanks, amounts to Rupees 1225-7-2. which is 917-14- above the remission of the preceding years.

Poimall.- 18.- Rupees 110-11-3. were granted under this head being Rupees 107-12-6. above the preceding years Crops to the extent admitted had been destroyed.-

Sand Cultivated with Mauritius Cane. 19.- The Remission of Rupees 5-3-6. granted for the cultivation of the Mauritius Sugar Cane was an indulgence granted in the Sub Division with the view of introducing this species of Cultivation and for securing a supply of Seed towards that end the Ryots were informed before hand that no assessment would be demanded during the year under report. I beg to recommend the Remission for the sanction of the Board.-

Boganasty. 20.- The assessment on account of Boganasty or loss of 2nd Crop amounts to Rupees 25,519-14-2, of which 605-12-9. were taken to account for neglect of cultivation, remission was granted for the remainder amounting to Rupees 24,914-1-5 which is 201-11-5. above the Nushty of the preceding year: the annexed Statement exhibits the loss on the Kar and Nowab Crops, and it will be seen that the chief loss was sustained in the Kar or 1st Wet Crop Cultivation owing to the scantiness of the early rains.-

Waste lands on Cowle.

21. The Amount reyaet for Bunjer land granted on Cowle in Rus: Rs a. P. 179-6-6 above the preceding year. This is owing to an increase chiefly in the cultivation of long standing Bunjer lands in Cedyalum and Tyar in Goolian in Palaur, which had been given to Ryots of other Districts in the Fusly under report free of assessment for the first years.

Seegaram. 23. A Remission of 10 per cent on the cultivation carried on by Bramins and Inspectors is allowed in the Talooks South of the Palaur, one Village, Oosoor, excepted, where the remission is 5 per cent. Care has been taken to confine the indulgence to the cultivation raised by the classes mentioned, whether with their own ploughs or let on Warram, and excluding all lands which have not been cultivated for the last 10 years and such as have been cultivated in Partnership with those not included in the privilege so far as the latter are concerned, and lands given for a Money rent as far as regards the individual taking the rent. The Remission granted under this head is Rupees a. P. 11,100-5-11 being Rupees 842-11-7- below that of the preceding year. The Chautoor Bogum and Punchamis sale or remission of 20 and 25 per cent is an indulgence existing in certain Villages of the Talooks.

of Chittoor, Vellore and Wunderwash, the amount remitted under this head is Rupees 118-13a-4p being Rupees 15-4a-11p in excess of the preceding year owing to a small increase in the cultivation. The total remissions granted for Tezzgary, Chanturee Bangum and Punchamisab amounts to Rupees 14,219-3a-3p being Rupees 827-6a-8p below the preceding year. The Tezzgary remission prevails exclusively with the exception of the Vellore Taloke, in the Taloke forming the Sub Division and Mr. Bourdillon in the 15th Para of his report urges the expediency of extending this remission to cases in which the land is transferred either by Gift, sale, mortgage or by simple Razeenamah to individuals of the same Classes. The Board have been pleased to sanction this extension.

26. In accordance with the instructions of the Board of Revenue Punjah assessment has been levied on certain Punjah cultivation belonging to Mr. Greaves at Chittoor irrigated from private resources without the aid of whatever of Sircar water, a remission of Rupees 18-6-6 or 4-7-9 above the preceding year's increased cultivation was allowed on this account.

Ryetwar remission of 12½ percent.

27. The remissions granted under this head is Rupees 114-53-14-6 being 8330-7-9 above the preceding year owing to the increase in the cultivation.

Malayalum Villages

The Revenue on the 28 Hill Villages which is under Amany fell short of the previous year in the sum of Rupees 70-8a-7p Poonjah is the chief cultivation made in these Villages and the Assessment is 2 Rupees on each Hoe, and 4 Rupees on each plough, but for want of rain the cultivation was small. In addition to the above Assessment, a Revenue + is derived from certain extra items as cutting Sandal wood, an inferior kind of this wood being found in the Jungles, gathering certain articles used in dying and other minor products. The Revenue from these items is rented out in the aggregate to the Villagers in conformity with the orders of the Board.

Soornadayem

29 The Increase of Rupees 1795-12a-1p on the Dodee of Chillara Manyem, Dusbundum Manyem and Shrotriem Manyem was chiefly in the Taloke of Penumurry, where, the Dodee is leviable

liviable on the extent of cultivation and where the cultivation was favorable. But in tope Adayem there was a decrease of Rupees 620—13—10 occasioned in the dant-
-ghur Pennurry and Vellore Talooks owing to a want of competition in the rent of this branch of Revenue. In the Tank fishery of the Dehat Enam Villages and in Cawelly Kundayem there is a small increase of Rupees 41—11—4. on the whole however, the Revenue under the head of Rokadayem exceeds that of the preceding year in the sum of Rupees 12 16—9—7.

37. In the review of the Settlement for Fusly 1250 the Government

Minutes of Con. 22d June 1842 Para 2. Proceedings dated 28th April 1842 Para 5 & 6.

Government and the Board called the attention of the Collector to the Kistbundy and desired that the Kists should be fixed with reference to the Harvest. As regards referring to the Kistbundy it is seen that the Kistbundy was not altogether fixed on the principle laid down by the Board, although practically in many cases, chiefly as regards the poorer Ryots, the collection did not take place till about the time of Harvest. The orders of the Board and Government on this subject will be carried out in future. The observation of the Principal Collector in his Report for last Fuoly that the "Growers" had not the advantages of the current Prices for their Produce "as they were obliged to dispose of it before it was off the ground to enable them to meet the Sircar Demand" was probably made chiefly in reference

to the condition of a very large proportion of the agricultural community who are completely in the hands of those from whom they obtain Loans, not only to meet the demand of the Sircar, but also their wants generally. A strict enforcement of the rule of not demanding the Kists till the period of Harvest will doubtless assist this portion of the community, but further aid in a facility of obtaining money on less usurious terms is also required. The improvement of society in the extension of sound Banking Principles or introduction of Loan societies which have proved so beneficial in Europe, can alone bring about the desired object. The commutation price of Grain has been hitherto quoted in former Reports at Rupees 85-6-5. on examining the accounts it is seen that the quotation should be Rupees 84-5-2 this will be quoted in future as the commutation rate.

Report from the Sub Collector Para 9.

It will be observed that the old method of taking the Price Lists in the Sub Division, Viz.t in the beginning of each month has been followed during the Finally under review and will be adhered to for the future. The Non-cultivation of the rich soils mentioned by Mr. Bourdillon, in Para 8 of his report has been brought to the notice of the Board in a former † communication. Mr. Bourdillon adverts to the practice of adding to the Summah the Nauttengaul or seed Beds. The Board # have been pleased to exclude seed Beds from the Summah when not cultivated, which will be observed in future.

Copy of the Summabundy Report from the Sub Collector is herewith forwarded. The Settlement was made, Mr. Bourdillon observes, with the Ryots individually, instead of determining

the Beriz merely from the Curnums accounts as has been customary hitherto. It will be seen that much anxiety was manifested that the account of each individual should exhibit a true Statement of his transactions for the year and that each Ryot should have full opportunity of testing the Village accounts. This important object should not be lost sight of. at the same time it is desirable that the Ryot should not be detained from his Village longer than is absolutely necessary. The general practice as it appears is to prepare the accounts in the first instance with the aid
