H.B.

No. 13.

To

The Collector in the Northern Division of Arcot.

Sir,

Para 1. Being about to give over charge of these Talooks, I submit a short explanation of the Land Revenue settlement for Fasly 1251 although all the accounts are not yet completed.

2. The Dumrah Kundy was commenced in the latter part of February and concluded in the end of June, I made the settlement of each Talook within it, and with the Ryots individually, instead of determining these Berij merely from the Curnams accounts as has been customary hitherto, I afterwards distributed the Puttahs all, except those of a very few Villages, being given away in my own presence.

3. The season of Fasly 1251 resembled that of Fasly 1250 in this respect, that the early rains were scanty and the late rains abundant. Up to the middle of May there was no rain at all, from that time to the end of June the rain was general and sufficiently abundant for the Ponjah

Cultivation

Cultivation. In July there was very little rain, and in August and September no general and plentiful rain, but only partial and light falls. Except in about fifteen Villages in the immediate vicinity of Trivettoor in which there was heavy rain in September, so heavy as to do much damage and breach a Number of Tanks, there was no rain any where sufficient to supply the tanks until the middle of October. At that time the North East Monsoon came on heavily and filled all the tanks with a very few exceptions and continued so long as to do much damage to the standing Crops, especially in the Trivettoor Talook. After the early part of November there was no rain at all, except a few light showers in some quarters at the beginning of January.

4. The want of early rain threw back the early Ponjah Crops, and the late sowing and the want of rain in July lessened the returns. The later Crops too for which the proper time of sowing is July were thrown back by want of rain in that Months,

and

and suffered somewhat in consequence.
From August the Poonjah cultivation pro-
=ceeded regularly, being every month a little
in advance of that for the same month
of the preceding year. The ultimate result
is an increase of 1018½ Cawnies and 1870
Rupees above Fusly 1260, but a decrease of
4097 Cawnies and 12514 Rupees below the
Poonjah cultivation of Fusly 1249.

5 In Peinjah the want of rain
in July diminished the cultivation of the
Car Crop, but the heavy rains in October
led to an extended cultivation of Sumbah
and Navaray. The totah Nunjah culti-
=vation was 41124 Cawnies, bearing a
Revenue of Rupees 470877 - 12 - 10 a p, this is
a decrease of 333½ Cawnies and 12600 Rupees
below Fusly 1260, but an increase of 920
Cawnies, and 8974 Rupees, above Fusly
1249. As in Fusly 1250, the Sumbah
Crops suffered for want of rain in
December. The totacal cultivation there
is a decrease from 451½ Cawnies with
a Revenue of Rupees 9944 - a - 4 to 406
Cawnies, and 8901 - 6 - 6 12a p being a difference
of 40½ Cawnies and Rupees 1061 - a - b Revenue.

The

6 The totah gross cultivation
Beriz is Rupees 11691 - 10 - 8 a b below
that of Fusly 1250, while there is
an increase of 642½ Cawnies in
the extent of land cultivation
arising from the larger propor-
=tion of Nunjah in the ear-
=lier than in the later year.
It will be observed in the
Nunjah, that the decrease
of Revenue is much more
than proportionate to that
of cultivation, this is
owing to the less cultivation
of the high class of lands,
in consequence of the lateness
of the rains and the lowness
of prices.

7 The prices of grain was unfavora-
=ble to the Riot in the preceding
two Fusleis 1249 and 1250, but in
Fusly 1251 it fell still low-
=er. I subjoin a Statement
showing the average selling price
of Car and Sumbah Paddy in each Month
in the Cutcha towns of the four Talooks.

J. L.

8 The general average for the four Taloobs for the whole year is 22 - 2 Mers Mens for a Pagoda, or a trifle under 18 Pagodas a Garce. The commutation rate is 25 Pagodas, the average price for the whole year, therefore was 28 per Cent below the commutation rate. The price during the period when the grain of the year was in the market Viz.t for the Cair from October, and for the Samba, from January, was still lower, the common average is only 16 Pagodas a Garce, which is 36 per Cent below the commutation rate. The encreased demand against him of course pressed heavily on the Ryot, who had no addition of means to meet it, except that in Villages much favored in the means of irrigation, second Crops, for which there is no additional assessment, were more largely cultivated than usual. I had particular opportunities of observing, that the unfavorable prices deterred the Ryots to a great extent from cultivating the highest taxed, and therefore most productive Soils, and the same cause prevented the cultivation of much land which from the abundance

o/o.

of water towards the latter part of the year, would otherwise have been cultivated. These evils, under similar Circumstances, must necessarily accompany a settlement based on a fixed commutation price of Grain.

9 In their Proceedings of the 28th April 1842, Para 8 the Board of Revenue desire that accounts may be submitted to them, showing the prices of grain Monthly in these four Taloobs as prepared both according to the old method of estimating the prices for each Month in advance, and according to that introduced newly in Fasly 1250, Viz.t of taking the prices in arrear. I regret that I am unable to furnish this comparative Statement, as the price Lists for the past year were prepared in the latter mode only. As the Board repeat their disapprobation of the Change of system, I have put a stop to the newly adopted method of taking the

prices

16133 Fort St. George 5th December 1842

prices, and the old method will be adhered to for the future.—

I have also, with reference to Para 9 of the same proceed-
-ings, ordered the discon-
-tinuance of the price lists obtained from the ants &
villagers.—

10 The following Statement shews the Re-
-venue of Fusly 1251 as compared with that of Fusly 1250.—

13 Nuttungaul - It has been usual here to bring to the Summa the Nuttungaul or seed beds from which the Paddy plants are transplanted, but this year I deducted all such land except where it had been cultivated after the transplantation, or where it came to Summa as stubbacurrumy under the same rule as is followed in the case of waste. This remission seems no more than justice - since the Ryot derives no profit come from land so employed I should not however have made this innovation on former practice, without previously obtaining the sanction of superior authority, except that the particular circumstance of the season already

already adverted to, seemed especially to call for the indulgence this year, I allowed the remission the more readily, as I understood that it obtains in both the adjoining districts of South Arcot and Chingleput, although in both the land assessment is much lighter than in these Talooks.

14 I hope the Board of Revenue will approve of the remission and authorize its being made permanent.

The subjoined Statement shows the particulars of the remission, which it will be seen was under 1200 Rupees. The Poloor Talook did not benefit by this measure, as the settlement of that Talook was completed before the point was noted, including that Talook the Amount of Revenue to be relinquished in future years may amount probably to 1500 or 1600 Rupees.

Teeruzgaum

15. Tenaugaury. Under instructions from Government close restrictions have been laid on the grant of this remission during the last four years than were usual before, and the limitation has been received as might be supposed, with much dissatisfaction by the favored classes. The new rules never=theless seem to me wholesome and proper, except in one particular viz which I think some relaxation desirable. Where land is transferred from one individual of the favored classes to another, whether by gift, sale, mortgage, or simple Razinamah, the remission is with=held. this is found to interfere prejudicially with the transfer of landed property, and on that ground I would recommend that land already enjoying remission should still obtain it, when transferred between individuals of the favored classes. It is not necessary to extend the in=dulgence further to include transfers between the favored classes and ordi=nary Ryots, or to allow the transfer to constitute in any case a claim to remission on land not enjoying it before

With

16 With reference to Paras 22 & 24 of the Board's Proceedings of the 28th April, I beg to say that no Arrochilkah waste was brought to Jummah in Fusly 1251, and that the sentiments of the Board there expressed on the subject of durghasts for land, have been attended to

17. The following Statement shows the Beriz Collection, and outstanding Balance for Fusly 1251, up to the 10th Instant.

Talooks	Total Beriz including hor=turpha, tank fisheries, and Topes.	Collected up to 10th August 1842	Remaining Balance

Total	594,559 6 5	528,373 6 2	66,186 . 3

Fort St. George 5th December 1842.

The unusually large amount of the balance is owing to the extremely low prices of grain throughout the year, This made the Riots, in general, unwilling to part with their grain, from the hope of a rise in the Market. In this endeavour to defer the payment of Revenue, the Monigars and their friends were of course the most successful; above one half of the sum now outstanding is due by Monigars and their relations, but as a material rise has taken place in the price of grain within the last month, there will be less difficulty in realizing this balance. Those Riots who were unable to resist or defer payment of their Rists, and who therefore parted with their produce at the low prices, were of course losers. A large porportion of the whole balance however will be realized by the end of the present month.

The

Fort St. George 5th December 1842.

18

The following Statement shows the old Balances from Fusly 1240 to Fusly 1250, inclusive as they stood at the commencement of Fusly 1251 as well as the amount collected in the course of that Fusly.

To

Fort St. George 5th December 1842.

No. 14

To

The Collector in the

Northern Division of

Arcot.

Sir

Para 1

I do myself the honor to submit a brief supplemental report regarding the Revenues of this Sub division for last Fusly.

2. Adverting to Para 12 of Mr. Bourdillon's Report dated 11th August, it will be observed that Rs. 1549-9 are entered as remitted on account of young Crops spoiled by a superabundance of water, while the accounts exhibit remissions to the amount of Rs. 1557-5-3. This circumstance, not mentioned by Mr. Bourdillon, appears to have been granted as an indulgence on account of loss in the Ponjah Crop of a man who had cleared and cultivated with labour - some waste jungly land in Poloor Talook. It was probably omitted in the report on account of its not being, in the opinion of Mr. Bourdillon, deserving particular notice

3 Three Statements exhibiting a Comparison of the entire revenues of this Subdivision for Fusles 1250 and 1251 are submitted herewith, of which the following summary is annexed -

Abstract.

Fort St. George 5th December 1842

Mrs

Fort St. George 5th December 1842.

To

W. Edmonstone Esq.

Secretary to the Revenue Board &c. &c. &c.

Sir,

I do myself the honor to submit for the information of the Board of Revenue a Statement exhibiting the difference in the Collection of Peishcush for the Fusly year 1251 and the Collection for the Fusly year 1252 Amount of arrears remitted the Price of Grain per Garce in the Karnatic and the Amount of Peishcush still due, as they stood on the 30th September last.

By the annexed Statement it will be seen that the Peishcush Collections for Fusly 1252 exceed those of Fusly 1251 by Pagodas 37,000 or Rupees 111,000 and that the Price of Grain has risen from Rupees 62 13 per Garce to Rupees 72 1 3 per Garce.

The Peishcush remaining due on the 30th September last amounts to Pagodas 1,00,000 or Rupees 3,00,000 of which Pagodas 50,000 or Rupees 1,50,000 are due by Talooks in which the Crops have been destroyed by the Locusts, and Pagodas 50,000 or Rupees 1,50,000 are due by Talooks in which the Crops are tolerably good.

I have the honor to be,

Sir,

Your most obedient

Humble Servant

(Signed) W. Edmonstone

Secretary to Government

16149

Fort St. George 5th December 1842.

Commutation rate per Garce.	87 8 .			

6. I am apprehensive that not more than half the present arrears will be realized during this month, after which the difficulty will of course be as still greater, in as much as 1st Kist for the current Fusly must be collected before the 25th Proximo.

7. In consequence of the almost entire failure of rain in May, June, July and August, a grievous deficiency has been occasioned in the Cultivation of the Poonjah and Nunjah Crops for this Season - which has caused an additional hinderance to the Collection of the last Fusly's balances.

Annexed is a Comparative Statement shewing the Cultivation of Fusles 1251 and 1252 up to the 30th of September

Comparivim

Comparison of Cultivation in the four Talooks comprising the Subdivision of North Arcot up to end of September in Fusles 1251 and 1252.

Stems	Cultivation up to 30th Septr. Fusly 1251.			Cultivation up to 30th September Fusly 1252			Decrease.		
	Rupees	A	P	Rupees	A	P	Rupees	A	P
Poonjah	1,28,497	14	-	84,951	9	4	43546	4	8
Nunjah	2,74,178	11	4	1,33,841	-	7	1,40,337	10	9
Totacal	1712	3	4	1,225	1	5	587	1	11
Total	4,04,388	12	8	2,19,917	11	4	1,84,471	1	4

8. The serious difficulty which has been experienced in this Subdivision in collecting the Government dues for last Fusly, and the total inability of so many Ryots to meet the demands of the State, except by parting with their goods or lands consequent on the low price of grain, and the unfavorableness of only one Season most strongly indicate, in my opinion, the impoverished condition of the land holders in general, and the consequent imperative necessity for a speedy survey of this part of the District, and the imposition of a more moderate and uniform assessment on the land than at present exists.

Ordered to be sent again in circulation

Read again in Consl. 13th Decr.

From J. D. Gleig Esqre
Princl. Collr. of Salem

To J. D. Bourdillon Esqre
Secretary to the
Board of Revenue
Fort St. George

From the Princl. Collr. of Salem

Sir,

33

Referring to Extract from the Proceedings of the Board dated 29th Sept. last, I have the honor to report for the information of the Board that a notice of which Copy accompanies was issued in conformity to their instructions giving the Ryots of Abinum and Appanasamoodrum another month to pay up their balance. no payment has been made, nor do I think there is any likelihood of any, as they positively refused to make any payment, except on their own terms. when I was at their Village last Jummahbunnoby.

Salem Zillah, Office,
Princl. Collr. Office,
29th November 1842.

Signed J. D. Gleig
Princl. Collr.

Resolution thereon

33-34

It does not appear from this communication that the Principal Collector has attached the Villages, as directed in the Board's order to which he refers. This he is requested to do, should the defaulters still hold out, and report his having done so.

Read the following letter from the Collector of South Arcot reporting on accompanying Petition presented by Gungathara Naiar of Chinna Salem in that District.

/Here Enter N. 30/

15th Novr. in Consl. 1st Decr. 1842.

Proceedings thereon

Resolved that the foregoing letter together with the correspondence entered in the Margin be submitted for the consideration and orders of the Most Honorable the Governor in Council with the following remarks.

From Collr. 21st Jan. 1839
To Govt. 29th Jany. 1818
From Govt. 7th February 1818

2. The original Pulgar of Chinna Salem received a pension of Pagodas 544-8-6 fms C in lieu of certain resumed lands and privileges. two thirds of which or Pagodas 385-28-44½ was on his death in the year 1818 continued under the sanction of Government for the support of his family.

35

3. This reduced amount of allowance appears from the Collectors letter to have

have been enjoyed by Tangantheta Ninar who
altho' in no way connected by blood with the
family, had been adopted by the Original
Grantee.-

4.- In the Month of April 1841 this
individual died also, without issue having pre-
viously however adopted Gungathara Ninar
the present Petitioner who is the Grandson of
the original Cavilgar. The Collector considers
that the claim of Gungathara Ninar is objec-
tionable as having been adopted "by one
"who bore no blood relationship to the family
"and if now recognized will exclude all other
"blood of the original Cavilgar," and suggests
that if liberality is shewn it should be extend-
ed to the blood relations of the original Poli-
gar generally as specified in para 6 of his
report to each of whom a small pension for
life should be granted.-

5.- The Board do not consider
that there is any thing objectionable in the
adoption and it occurs to them that the Col-
lector has overlooked the fact that the party
adopted is the Grandson and lineal descend-
ant of the original Poligar and as such
possesses prior claims over the females of the
family

family, and they therefore beg to recommend
that Rupees 899-13-2 per Annum being one half
of the amount of pension granted to his
Grandfather be continued to him for the sup-
port of the family, on the understanding
that it should lapse to Government on his
death.-

Read again Para 5 of the letter
from the Acting Principal Collector of Tanjore
dated 15th and entered in Consultation 27th
October last.-

Ordered that the abovementioned
Para be circulated with the following Proceed-
ings.-

Resolved that Para 5 of the re-
port of the Acting Principal Collector of Tan-
jore on the Extra Sources of Revenue for the
past Fasly with Paras 2-4 and 5 of the Pro-
ceedings of the Board of Revenue reviewing
it, be forwarded to the Collectors of Madura
Tinchenopoly and Coimbatore and that these
Officers be requested to use their exertions
and to cooperate with the Acting Principal

the Traffic referred to.-

Read the following letters.-

From

Proceedings.-

15th Jn Nos 27th Oct. 1842.

(38)

28th Nov.

Fort St. George 5th December 1842

From E. B. Thomas Esqre
Acting Collector

To J. D. Bourdillon Esqre
Secretary to the Board of Revenue
Fort St. George

From the Asst Coll.r of Tinnevelly — Requesting orders as to filling vacancies in the Pagoda Committees whether by resignation or otherwise.

Sir,

Para 1. In extract from the Proceedings of the Board of Revenue dated 6th Ultimo Para 3, the Board observe that they still think that vacancies in the Pagoda Committees will hereafter be best filled up by the election of the community, rather than, as suggested by Sir H. C. Montgomery, by the nomination of the remaining Committee.

37

2. Several applications have been lately addressed to my Office by Members of Committees requesting to be relieved of the duty they had lately agreed to perform. I have taken no notice, as yet, of these requests, under the hope that they may not be repeated, but the parties induced to continue the charge once undertaken. Some definite plan however for filling these or other vacancies will be immediately necessary. In endeavouring to carry out the Board's view, difficulties have occurred, first, as to who should be taken as constituting the "Community interested" whether the whole Inhabitants of a Village,

Fort St. George 5th December 1842.

Town or District, of all castes and grades of Pindios temporary as well as permanent residents; and again, as to the impossibility of bringing all these parties to any one general choice or agreement. As far as I can learn I fear that in the larger places there would be numerous contending parties and much discord without any satisfactory settlement, under any thing like universal suffrage.

3. I would therefore propose as the only means which occur to me of carrying out the Board's view of election by the Community, that some qualification be fixed; and a majority of such qualified Voters, to elect the candidates perhaps the holding a puttah of from 7 to 10 Rupees and upwards, whether land or trade, might be a sufficiently specific qualification, and embrace the larger and more respectable part of the Community. In the smaller Village Pagodas, where the funds are very limited, little difficulty will be experienced but in the

in the larger ones where a considerable amount is involved, there will be more trouble in filling up Committees who can be trusted to disburse the funds honestly and impartially.-

4.- If the Board should approve the suggestion I have made, as qualifying for a vote, I will take steps for its being acted upon. The scrutiny of such votes may be by the Committee itself, without any reference being necessary to the Public Authorities.-

Sincerely ----
29th November 1842

/Signed/ E. B. Thomas
Acting Collector.-

Resolution thereon.-

37-38

The Acting Collector is informed that Government have it in contemplation to pass an act of legislation on the subject of the management of Native Religious Institutions; and that the mode of filling up vacancies in the office of Trustee or Superintendant will have a place among its provisions. Any order on that point at present, therefore, is unnecessary and would be premature.-
