Resolution thereon.— Resolved that copy of Cara 1 of the foregoing order of Government be transmitted to the Collector of Rajahmundry for his information and guidance in the reference to his letter of the 1st December last No 146.—

(5-6)

Read the following letter

To J. D. Boudillon Esq.
Secretary to the
Board of Revenue
Fort St. George

Jillah Rajahmundry
Collector's Office
Cocanada 29th December 1842

Sir,

Henn. G. A. Smith Esq.
Collector &c.
Rajahmundry.

I have the honor to report for the information of the Board of Revenue that Mummuru Venkatarattnam Proprietor of Morrumudah Estate having transferred to Daumarru Narsimha Apparow inhabitant of Comarapeeram in this District by sale his proprietary right in the said Estate I have at the request of the parties duly registered under this date the said transfer in the Public Registry of lands paying Revenue to Government according to the Regulations.—

(7)

I have &c.
(Signed) G. A. Smith
Collector

Resolution thereon.— The Board approve the charge of Registration notified in the foregoing letter.—

(7-8)

Read the following Statements of Statements

The Board now proceed to take into consideration the reports on the Returns of the estates under management in the Masulipatam District for Fasles 1248 and 1249 / A.D. 1838-39 1839-40.

(13)

From Collector July 11th 1840 in Cons. August 3.

Do. Aug.t 17. 1841 in Cons. September 2nd

Proceedings thereon. Para 1.

Relative to the management of the Estates of Vinnacottah and Gudewadah Ellas Hannully Davarcottah & Chanoobundah under attachment in the district of Masulipatam for Fasles 1248 A.D. 1838-39 and 1249 1839-40.

1 Vinnacottah & Gudewadah
2 Ellore and Cauvally
3 Davarcottah
4 Chanoobundah.

The Estates comprehended in these reports are four as specified in the Margin and the Board will notice them in succession for both years conjointly. At this late period the Board do not think it necessary to go into the subject in much detail, they may here remark that the delay in reviewing these reports is owing to their having wished to be able to make a conclusive report and proposition at the same time regarding the condition and future prospects of Ellore, but as circumstances render that impracticable for the present, they will not longer postpone the consideration of them.

2 The seasons of the two years were of directly opposite character. That of Fasly 1248 A.D. 1838-39.

July 11th 1840 Cons 6

was a severe drought, both the local rains and the

August 17th 1841 Cons 15th

stream of the Kistna having failed; in Fasly 1249 A.D. 1839-40 on the other hand, supplies from both sources were good. The Cultivation of the former year was much restricted for want of Water, and all the Crops were almost

Fort St. George 4th January 1843.

almost or entirely destroyed by the same cause, except Sonnah which thrives in dry seasons and yields little in wet. It would appear indeed that the Province would have endured the visitation of a famine, except for very large importation of Sinthorne grain. The direct aid of Government was also beneficially extended to the destitute poor in the way of giving them employment in works of a public utility.—

From Collr Chingleput 18 instn. 4 March 1839 — 4 Govt. 5 April 39

3. In consequence of the opposite circumstances of the two seasons the settlements varied correspondingly. In Fusly 1248 there was a very great falling off with the cultivation and productiveness of the wet Crops and most of the dry; but the fine Crops of Sonnah combined with the high price of the Revenue of Sonnah being then taken in kind, more than compensated the loss. It thus happened that there was a large increase of Revenue above the preceding year in Porayar, Collah and Vinnacollah, where Sonnah is extensively grown and a considerable falling off in the other Estates where wet grain is the chief product. In Fusly 1249 the reverse was the case, the rains being abundant and the Crops of paddy thereon being good and of Sonnah bad; there was a decrease of Revenue in Puvracollah and Vinnacollah, and an increase in the other Talooks.

Ord. 18 Dec. 1838/40

4. The subjoined Statement gives a view of the Revenue of these two years in juxta position with that of Fusly 1247.

Ord. 18 Dec. 1837/38 Settlement

Fort St. George 4th January 1843.

Explanation

Statement of Settlement of Fusly 1248 and 1249

Fort St. George 9th January 1843.

Readings Records &c of 1842.

The Board take occasion to remark here as they have recently pointed out in another place that the demand on account of "Maramut Nuf os" improperly included under the head of Revenue. The above Statement differs from those given by the Collector being rectified by the omission of that item.

5 The Board now proceed to make such remarks as appear necessary on each of the Estates.

Vinnacotah and Goodavadah.

In Para 10 of the report for Fusly 1248 and Para 8 in that for Fusly 1249 the Collector has given a detailed Statement of the settlement of Vinnacotah and Cordavadah. This accords with the general observation preceded a long remark. In the former Statement Vinnacotah only Ten Villages of Vinnacotah Talook are put down as under Rent in Fusly 1247 and in Ummany in Fusly 1248 with a loss of nearly 2/3rds of their Revenue in the latter some Villages are brought from Ummany to Rent which from the coincidence of the Amount the Board suppose to be the same, and the Revenue of Fusly 1247 is nearly regained. In Goodewadah two Villages are put down as bearing a permanent rent but there is never the less a slight difference between the Amount in the two Fasles,

August 17th 1841 Para 8

Fort St. George 9th January 1843.

the Board would be glad to have the reason of this explained. From Statement No 3 accompanying the report of Fusly 1248 it is observed that there was a falling off in the culture of Tobacco that year, from four Cullies to one, or 75 per Cent; no reason is given and the general drought does not seem to be a sufficient cause for the diminution in a species of Culture depending entirely on Well irrigation.

6. In both reports the Collector refers to the improvements authorized by Government to the Bodamair and Dallair Channels. In Fusly 1248 the total failure of the freshes in the Kistna, from which river they draw their supplies presented the expected results; but in Fusly 1249 there was a large extension of wet Cultivation. The average increase of Revenue anticipated from these improvements when the Estimates were proposed for sanction was 20,900 Rupees, on comparing the Cultivation under these Channels in Fusly 1249 with the average of the preceding three years previously to which the Board have no accounts there is found to be an increase of 327-12-14½. The increase of Revenue over the average of the same period was

Estimated Rs 19552-4-6 sanctioned by Govt March 4th 1837 in Cons: 16th Para 14.

Para 10.

Sd C.C. in Sept 1837 Nov 27th 1838.

	Nunjah Land Cultivated	as.	as.	Rs	Benj Rec'd	as	p
Fusly 1246	73	3	"	4174	1	"	
" 1247	310	5	12	23452	8	3	
" 1248	8	13	"	184	2	"	
Total	357	5	12	27810	11	3	
Average	119	1	14	9270	3	9	
Fusly 1249	456	13	14½	40363	6	6	
Increase	337	12	14½	31093	2	9	

was 3,893 2-9 it was less than it otherwise would have
been in consequence of a fall in the price of Paddy
the Revenue being then in kind. The
Statement given in the Margin shows
that the Revenue of Fusly 1249 in these
two Talooks was the highest since Fusly
1245 and exhibits a continuous
increase which is gratifying.

Settlement

	Rs	as	p
Fusly 1245	68767	15	6
" 1246	69115	7	"

" 1248	82135	15	7
" 1249	89977	11	11

Fusly 1245 R.D. 1835-36

Shine and
Equivally.

The total failure of the rains in Fusly
1248 R.D. 1838-39 had a very serious effect on the Revenue of
these two Talooks, which consist almost entirely of
wet land.- Their joint Settlement amounted to Rs
3,883-7-7.
more than 3,885 6-9 being less than a tenth of the
Peishcush.- In Fusly 1249 R.D. 1839-40 the rains being more
abundant there was a material improvement, and
the Settlement amounted to 18,910-2-; still however very
far below the Peishcush. The cause of the great
fluctuations in the Revenue from year to year
is explained to be the uncertainty of the supply
in the two streams on which these Talooks mainly
depend for irrigation. It is added that the Tanks
and Channels generally had been allowed by the
shortsighted economy of the Zemindar to become
very much out of order. The Collector observes that the Settlement of

nt for Fusly
49 Para 11.

Fusly 1249 R.D. 1839-40 the' an improvement on the preceding
year, is small in comparison with what the Estates
are capable of producing under complete irrigation.
The truth of this is obvious from a comparison
of the Revenue in present and past times; and
the Board are glad to find from the report of
Fusly 1250 R.D. 1840-41 just received that a large amount
of the receipts for that year was expended in
Maraumut.-

8 In his report for Fusly 1248 R.D. 1838-39 the late
Para 21 to 28 Collector goes into the circumstances of these Estates
at considerable length, and fiscally proposes a
reduction of the Peishcush. The Board are not
prepared to go with him in all that he says on
† Para 40. this subject. His opinion as to the excessiveness of the
Peishcush appears to them to be contradicted by
† Para 32 the fact he had previously stated, Viz., that these
Estates were extremely profitable to the Zemindar
for some years after they were made Peopietary
and they think that the deterioration of their
resources of late years is not by any means wholly
‡ Para 32 ascribable to the cause he assigns, as they find
from the returns on their records that the fall in the price
of agricultural produce in the District has not been so great as

to exertion and production in Rental. Shown in Summary Village.—

Shanasbundah—11

Fusly	1247	1339—3—0	This is a single Village, there was
— " —	1248	896—5—10	a considerable decrease in its Revenue
— " —	1249	1181—6—10	in Fusly 1248 and a large increase
Peishcush		787—8—0	in Fusly 1249 in both years the Beriz considerably

exceeded the Peishcush. The circumstances of this Village have been before Government. It subsequently formed the subject of a law suit in the Auxiliary Court at Masulipatam, which was decided in favor of Government and an appeal against that decree is now pending in the Northern Provincial Court.—

Extract Proceedings Board of Revenue 28th Oct. 1837.—

Government 25th April 1842.—

12. The Collector has given a Statement for each year shewing the total Collections out of the Settlement compared in each case with those of the preceding Fusly. That in the Report for Fusly 1250 there was still an arrear outstanding for Fusly 1248 and a still larger one for Fusly 1249 The balances should receive the attention of the present Collector in order that such part as is recoverable may be realized and such as is not may be written

Report for 1248 Para 63 for 1249 Para 17th

JJ

JJ. There is one entry in this Statement which needs special notice. The sum of 314 Rupees is put down as remitted in Ellore and casually out of the amount of the Settlement, it is not known on what account or under what authority this unusual remission was made and Mr. Porter is requested to explain it. Neither report contains any allusion to former balances of Settlement which should invariably be detailed.—

13. Some subsequent Paras in both reports are devoted to a comparison of the Amount of the Settlement with the Peishcush and to the detail of payments made in liquidation of the latter. The actual result, in the amount of balances outstanding at the date of the report is given in the subjoined Statement.—

Demand

as the Collector would seem to represent. They are on the contrary one very material cause of it in the neglect of the means of irrigation on which the productiveness of these Estates so much depend, and on those in the succession of disastrous seasons with which that part of the Country has recently been visited. The former of these causes is capable of removal the latter is only temporary, and though it might be pleaded as a ground for indulgence in the remission of arrears, it is not, any more than the other, a reason for the permanent reduction of the Peishcush. The Board will now abstain, however, from further remarks for the question regarding the Nedadavole Zemindary with which this is so intimately connected, being now under discussion, it is not at all desirable to enter on the subject at present.

Paras 35 and 42

Davracotah — 9 The large increase in the settlement of Davracotah Estate in Fusly 1248 A.D. 1838/39 and the falling off in the following year, have been already noticed as well as the causes.

Para 3 Settlement

Fusly 1240	87540	2	6	
" 1241	64358	6	3	
" 1242	100158	6	5	
" 1243	109200	6	9	
" 1244	63909	16	9	
" 1245	89269	5	1	
" 1246	99957	12	8	
" 1247	83951	15	2	
" 1248	152418	15	2	
" 1249	109346	12	4	
Peishcush	102890	11	4	

The Revenue of the former year was the highest for a number of years as seen in the Margin. In both the settlement exceeded the Peishcush.

There

10 There is an increase in the Rent of Hunter Villages of 813-3-8 in Fusly 1248 A.D. 1838/39 and of 3702-8-0 in Fusly 1249 A.D. 1839/40. The cause of this is not stated, but it is supposed that a part of the increase in both instances is from those Villages which are leased out for five years at gradually increasing rents. Mr Porter will be pleased to give explanation later. Mr Porter will be pleased to give explanation on this particular. The late Collector indulges in some remarks as to the superiority of the Aumany over the renting system which it is not necessary to notice here further than briefly to express dissent. The inherent vice of the Aumany system are such as no vigilance of the Collector can counteract.

Report for Fusly 1249 Para 58 to 60.

Para 67

It is obvious that the circumstance which led Mr Grant into this comparison of the two Systems was only an accident arising from what he himself elsewhere calls the famine price of Journah in Fusly 1248. A.D. 1838/39 The result of the very next year directly contradicts his inference and argument, as it shews a large decrease in the Aumany Settlement and that not wholly collected while there is a material increase in the Rented Villages and on all fully realized. The fact noticed in Para 68 shews how much greater is the stimulous to

Report for Fusly 1249 Para 14

Fort St. George 9th January 1813.

| | | |

that the sums included in the Summah-
bundy under this title are very far from
corresponding with that rule. For convinience
of reference a Statement is subjoined
shewing the amount expended in Main-
tenance in the two years under review, and
the amount included in the Summah-
bundy as "Maramut Sief" and Mr
Porter is requested to state more explicitly
by what rules the demand is regulated
and to offer any further remarks
that this Statement may suggest.

Ordered

Fort St. George 9th January 1843.

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government, and a transcript of the same be forwarded to the Collector of Masulipatam for his information and guidance.

Read the following Letter—

To

Fort St. George 9th January 1843.

To

J. D. Bourdillon Esqre
Secretary to the
Board of Revenue
Fort St. George.

From G. Pelly Esqre
Sub Collector in Charge
of Bellary

Submitting his report on the Settlement of land Revenue for Fusly 1251.

14

Sir.

I have the honor to submit my Report on the Settlement of the land Revenue of the Bellary Division of Ceded Districts for Fusly 1251 together with the undermentioned Statements.

No 1 Summah and Kisthundy of Fusly 1251

2 Comparison between the Settlements of Fuslies 1250 and 1251.

3 Abstract of Collections since Fusly 1210 compared with the Settlement for Fusly 1251.

4 Abstract Comparative Statement of the cultivation and Net Settlement for Fusly 1251. according to the Board's form of 27th January 1823.

5 General Revenue Statement for Fusly 1251.

6. Statement of Gonchee cultivation for Fusly 1251.

7 & 8 Register of Land held on Cowle-

9 Comparative Statement of Cowle land for.

Fort St. George 9th January 1843.

for Fusly 1251.

No 10 Comparative Statement of Encrease cultivation for Fusly 1251.

11 General Abstract Comparative Statement of the whole Revenue from the land and from Extra Sources for Fusly 1251.

12 Statement of Trees in the Circar Plantation.

2. The Settlement was made as usual in detail for each Talook by Mr. Mellor the Collector in 10 Talooks of the Collector's Division Mr. Fischer settled the two Eastern Talooks of Sadpuliey and Yadatree entirely, I may venture to say, to the satisfaction of Mr. Mellor to whom and myself since I have been in charge he has rendered great assistance in the various duties entrusted to him. The 5 Southern Talooks which composed the Sub Collector's charge were settled by myself

3 The season was in general very favorable The early rains set in May and showers continued to refresh the lands from time to time, and fell plentifully during August, September and October. The Talook of Muddugserah received a larger supply of water than it has received for many years, and of which it, in particular, has been in much need. The Crops both early and late throughout the District were good

and

Fort St. George 9th January 1843.

and the Tanks having generally received a plentiful supply, the Revenue of the year will be found to be very high, the highest on record since Fusly 1229.

I am sorry however to say 4. the Cholera has been very prevalent and destructive during the year. It hung about the District from July to February and from that time till the end of the Fusly; it has been very severe, and I am grieved to say still continues; and up to this time 9641 deaths have been reported. The number of Persons attacked during the Fasly are reported to be 14436 of whom 8431 died and 6005 recovered, being a proportion of deaths about 5/8ths to recoveries. No Talook has been entirely free from it, but the Talooks that have suffered more particularly are those entered in the Margin. Fever in a few Villages was very bad and being near Anuntapoor I sent out as I did last year the Native Dresser Poonram whose services under providence no doubt saved the lives and restored to health many poor sufferers. The Cholera and the very low price of grain during the present year has in some measure delayed the collection of the Rists, but it has only been partial. The average price of grain has indeed been lower than in any year for the last ten years as will be seen from the subjoined List of prices.

Bellary, Adoni, Gollem, Punchapollem, Gooty, Hurponhully, Raidroog, Anuntapoor, Pencondah and Dharmavaram.

Since

5. Since the return to the Ryotwar system and the enjoyment of the general remission there has been no year in point of Revenue equal to the Settlement of the Fusly now under report. It exceeds the highest on record Viz.t Fusly 1232 by 2 Rs. 1 a. 0 p. per Cent, and Fusly 1235 the next highest and the standard year for all fair comparison by 5 Rs. 4 a. 0 p. per Cent. The Board are aware that Fusly 1232 cannot properly be brought into comparison from the enormous* amount of waste which the Ryots paid for in that year.

Increase	129,681

* It was never known but probably was not far from three Lacs of Rupees.

But in comparing the Settlement of Fusly 1251 with 1235, it will be satisfactory to know that in the present year, the Revenue has been derived

derived from land actually sown to a greater degree even than in Fusly 1235, when the waste which paid Revenue amounted to Rupees 45,806, and in the present year it is only Rupees 24,230. But the prices of grain in the present year have been and will prove if they continue so low, detrimental to the Ryots. In Fusly 1235 Rice was 250 Rupees per Garce and Jonnalu 11 Rupees. In this year, as before remarked, they are at 191 and 69 Rupees respectively, and this circumstance must not be lost sight of in comparing the general prosperity of the Country. It may not be unacceptable to the Board to see what Saloobs have risen and fallen since Fusly 1235, as compared with Fusly 1251, and I have therefore subjoined the following Statement.

* Particulars		
Reddy Appanum Banjer	8,205 11 -

In Roodleghee Talook the true decrease is not so much as represented in consequences of Rupees 10,341 properly belonging to the year 1234 having been carried to account in Fusly 1235 The true decrease is Rupees 11,363- all the rest exhibit a true comparison.

6. The cultivation of the year as entered in the Curnums Accounts and the amount confirmed at the Summahbundy exhibits as usual a difference / in this year / of Rupees 145,588- On this subject it will here be proper to reply to the Board's remarks contained in Paras 7- 8- 9 and 10 of their Proceedings in the Settlement of last year, and to explain, that no alteration in Mr. Robertson's system has been made Mr. Mellor in the 7th Para of his Report of last year made a comparison between the Amils Dowle of two years / Fusly 1249 and 1250; / and then compared the Amildar's Dowle of Fusly 1250 with the Summahbundy of Fusly 1250; and again the Summahbundy of Fusly 1249- and 1250. and in explaining the cause of the decrease between the Summahbundy Settlements of the two years, the Board seem to have imagined, that Mr. Mellor attributed the decrease

	Sum Rupees
Amildar's Sagavaly	33,93,107-
Summahbundy	32,47,579
Difference	145,588

See Para 7 of Summahbundy report of Fusly 1250.

Fort St. George 9th January 1843.-

See Board's Proceedings on the Settlement of Fusly 1250- Para 7.

decrease of the Summahbundy Settlement of Fusly 1250 below 1249 "partly to the discontinuance of "a practice which had obtained in previous "years of retaining in the Ryots original engage- "ments and afterwards excluding from the Puttahs lands not under tillage." If the Board will be so good as to refer to Mr. Mellor's Report Para 7, they will observe that the above quoted reason referred solely to the difference between the Amildar's Dowle / or the survey value of the land entered in the Curnum's Accounts as original engagement / of Fusly's 1249 and 1250, and had no reference to the comparison between the Summahbundy Settlements of the two years- No alteration has taken place in the system adopted by Mr. Robertson. The intention of Mr. Mellor's Circular order was to check a loose way the Tahsildar's had fallen into, of including in their Caboolati at the cultiva- tion season lands which the Ryots never had cultivated for several years and which it was not likely he would cultivate and thereby to obtain with greater accuracy, prior to the Summahbundy, a true Account of what it was reasonably supposed might under ordinary circumstances be the actual cultivation of the year

year. This order had the desired effect in the dry lands, but in the Tank lands where the Amildar's Cabooliaty was made before the Tanks were filled, a great deal was and must ever be deducted from the Amildar's Dowle not the result of a loose and careless settlement by the Tahsildar but from unavoidable circumstances. The plan pursued by Mr. Robertson is still in force. It is at the time of the Summahbundy, to revise the Amildar's Dowle by striking out from it 1st the lands which constitute the whole farm of a Ryot, whose farm from want of water, or the death or desertion of the Ryots or for want of means, has been entirely abandoned and for which consequently no Puttah is issued. It includes the agreements of new Ryots as well as old under similar circumstances; 2d a deduction from the Amildar's Dowle is made of the Revenue derived from lands which form only a part of the cultivation of Ryots still present at the time of the Summahbundy. This consists of those Extra taxes of Seerwah and Fusul Iastee for taxes on Dry land converted into wet, and the tax on 2d Crop Land assessed as one Crop of these

being

being extra taxes are considered as not properly belonging to the settlement and are consequently deducted previous to making it. if it is found that there has not been water sufficient for their cultivation, or if any other good reason exists A trifle, not worth mentioning of the Iyen Term sometimes is included in this deduction. But with this exception, the land and the Iyen Assessment are retained in the Puttahs The Extra Taxes only are deducted from the Amildar's Dowle, should these items of deductions from the Amils Dowle have formed part of the Summahbundy Settlement of the previous year. they are exhibited as decrease of cultivation in the Summahbundy Accounts and the sum deducted forms part of the sums entered in Column 80 of the Statement No. 2 and in Column 236 of the general Revenue Statement No. 5. If they were not part of the previous year's Settlement but form an item only in the Curnum's Accounts and Amildar's Dowle of the present year, the deduction is no where shewn in the Summahbundy Accounts

but

Fort St. George 9th January 1842.

but they comprise part of the deduction made previous to it.

7th Of the sum of Rupees 1,45588 deducted from the Amildar's Dowle this year /Fusly 1251/ abovementioned, the sum of Rupees 41827 is the Iyen Jerim of land forming the whole farm of Ryots who held no separate individual Puttah in the present year; and Rupees 103761 is the sum of Extra Taxes entered in the Curnums Accounts / or Amildars Dowle/ and Struck out as not forming a part of the Settlement of the present year. Every small portion of these whole (a little more than 8000 Rupees only) is the amount belonging to dry lands the rest is the sum deducted on account of irrigated lands. Tank lands always form the grand item. With these exceptions, all other lands agricd for at the season of cultivation are entered in the Ryots Puttahs and deductions for uncultivated potions are remitted under the head of Caboolati Bunjer which this year amounts to Rupees 164499 and the above is precisely the plan adopted by Mr. Robertson as explained in Paras 5 & 6 of his report for Fusly 1237. But I have, since writing the above

Fort St. George 9th January 1843

above observed that Mr. Robertson gave further explanations on this subject, and I beg leave to transcribe what he wrote in his Summahbundy Report on the Settlement for Fusly 1245 and the Board will perceive, that no alteration has since taken place. Mr. Robertson observes "there is a difference as usual "between the cultivation of the year as "entered in the Curnums' accounts and the "amount inserted as such in the Summah- "bundy Settlement; the reasons which cause "this difference were fully explained in the "5th and 6th Paras of my Report on the Settlement "for Fusly 1237; but for the satisfaction of "Government, I shall here take the liberty of "briefly noticing the items composing the "difference in the year now under Report.

"Amount of Amildars Sagavaly for "Fusly 1245 as entered in the Curnum "Accounts including omissions deducted "at the Summahbundy	311762
Deduct	
Farms engaged for at the beginning of the year but left wholly uncultivated from the failure of rain	56725
Do. Do. from the want of means	27767
Total of Farms originally engaged for in 1245, but for which no Puttahs were issued	84492
Amount of Extra Taxes / Jeerum Jastee and Fuffsul Jastee / on lands included in the Puttahs in 1245	56375
Total deductions	140867
Remains Summahbundy Settlement.	297895

7/12th

"With regard to the Farms left wholly
"uncultivated from the failure of rain or want
"of means the Assessment on which amounts
"to Rupees 84,492, they were necessarily
"excluded from the Settlement of the year
"as the Ryots holding them had no revenue
"to pay and consequently did not receive a
"Puttah. With regard to the other item
"of Rupees 56,375 it should be explained, as
"that the lands and Jyen Assessment are included
"in the Puttahs of 1245, but only such portion of
"the Extra Taxes originally engaged for as
"which was actually payable; that is to
"say when there was water enough to
"bring the Crop to maturity. It
"is believed that in every Ryotwar
"District under the Madras Presidency
"a difference exists between the
"Cultivation originally engaged for, and that
entered

"entered in the Summahbundy Accounts. but
"it is probably greater in Bellary than in
"the other Provinces from its position as
"making it subject to greater vicissitudes
"of season, and partly because the largest
"portion of its wet lands are Assessed
"as one Crop land".

8 I hope the Board will excuse the length which I have entered into on this point, but I thought it as well to do so that the Board might be made fully aware that no alteration had taken place in Mr. Robertson's mode of account. I have the honor to send the

+A. Circular Order alluded to by Mr. Mellor as desired by the Board, and likewise

°B. one of Mr. Robertson's Orders. And to annex the following Abstract of the Amildar's Dowle and Summahbundy Settlement for the last 3 years for further elucidating the subject.-

Before

Fort St. George 9th January 1843.

Before quitting the subject it is necessary to state that an increase to the Amilu Dowle, not noticed in the above explanation and comparison, arising from the amount of concealed cultivation detected previous to the Summahbundy, is added to the Summahbundy Settlement.

It amounted this year to Rupees 19,201.-

9. The extent and Survey value of the different Classes

Fort St. George 9th January 1843

classes of Land included in the Settlement / separating the lands liable to Revenue from uncultivated land remitted at the Summahbundy of Fusly 1251, as compared with the preceding year are exhibited in the following Statement-

It will be observed from the above Statement, that in the First Division Viz.t of lands paying Revenue there was an increase in acres and assessment in the Red Dry lands and Tank and Nullah lands, and an increase in extent also in the black land, but a trifling decrease in assessment, and also a trifling decrease in the Well lands. The amount of Moozrah Bunjer land or waste land deducted at the Settlement was last year 29,019 acres assessed at 27,160 Rupees. In the present year it is only 169,100 acres assessed at 210182 Rupees making a difference of 37,919 acres assessed at 6,978 Rupees in favor of the present year which it will be observed is derived Chiefly from the Tank lands, which being unsown last year were then deducted in the Puttahs. The total shews a great increase in the Jegoobadi or Lands paying full tax both dry and wet, amounting to 98,992 acres assessed at 13,826 Rupees. In the Cowle lands however there is a large decrease in the dry lands of 18,739 acres assessed at 36,104 Rupees, being a transfer to the head of Jegoobadi and is Chiefly / Viz.t 17,245 acres Rs 35,073 / confined to the Black Lands.

The

The difference between the Gross Settlements of Fusslies 1250 and 1251 it will be observed is 96503 Rupees in favor of the latter. In the net Settlement the results are still more favorable exhibiting an increase in favor of the present year above Fusly 1250 of 14,1705 Rupees. In the principal division consisting of 12 Talooks the increase is 45,515 and in the 5 Talook Talooks of the Sub Division it amounts to the large sum of 96,318 Rupees or Rs 19 As 2 " per Cent higher than last year. The Revenue of the Talooks of Muddugserah which has suffered for want of water for a length of time is no less than Rs 57 a 3 " per Cent above last year. The total per Centage of the whole District above last year is Rs 6 a 7 ". The various items &c which compose the difference between the gross and net amounts in both year are shewn in one view in the following abstract.

(see last Col.n of Statement No 5)

Total Net Revenue	2197059	2338764	141705	"

The

12 The items composing the net increase noted above (Vizt. Rupees 141705) are divided as follows. Increase on account of extended cultivation Rupees 69950 - Upon lands occupied in the last and present Fusslies 68819 Rupees. Increase of Quit Rent and other items (after deducting a loss of 99 Rupees for ready Money allowances) 2935 Rupees. But the real increase and decrease are shewn in the comparative Statement No. 2, and by a reference to that Account it will be seen that the total increase is Rupees 254050 - " - " and the total decrease 112345 " - " being a net increase as noted above of 141705 " - "

13 The different items which compose the increase are first "Increase of cultivation" Rupees 135057 about two thirds of which Vizt. Rupees 90587 is the amount taken up by Ryots who held Puttahs in the last year. The rest 44469 Rupees was taken up by Ryots who held no separate individual Puttah in the same village in the preceding year. The increase arises chiefly from the cultivation of Tank lands to a greater extent than in last year.

Statt. No. 2 Col. 56

Statt. No. 2 Col. 64 Col. 59 to 65. The next article is "Increase of Rent" amounting to 112056 Rupees and consists of the following items.-

Land

Land occupied but left unsown during the last but productive in this year	74344-3-4
Difference between the established remissions on the Survey Assessment on lands cultivated in the last and present year	571-1-4
Difference between the Quit and full rent of land whose Cowle has expired	33673-4-4
Increase upon lands allowed an abatement of rent last year for losses of Crops	2309-1-4
Miscellaneous items Chiefly remissions disallowed for tending young Topes	1192-8-4
Total increase of rent	112056-1-4
Adding thereto increase of Cultivation as above	135057-4-10
Makes the total increase Pyotwar	247113-5-10

14 The increase of Quit Rents payable by Holders of Inam in Column 67 amounts to Rupees 2774, and entirely arise from increase of Cultivation. The next item, increase of Sheerdarghee (Column 68) is the Extra Tax imposed on Dry Cram Land Converted into wet by means of Circar water Rupees 2013. The remainder Rupees 325 is increase of

of fees derived from certain wet Cnams when Cultivated, and of the Extra Tax on Cnams assessed as one Crop land, which were this year Cultivated with a 2d Crop. One half nearly of the whole increase on Sheerdarghee is in the Muddugserah Talook. The last Article of Increase Rupees 2136 in Column 69 arises from the Juffreck or Extra Assessment on Cnams Cultivated by Ryots who are not the proprietors. The decrease under this head in Column 93 is however equal to the increase being Rupees 2038. and the increase and decrease are pretty equal in all the Talooks.

15 The different sums which compose the Gross decrease of revenue are as follows. The decrease of Cultivation (Column 81) Rupees 65106 was the amount Cultivated last year but thrown at the ploughing season of Fusly 1251 or subsequently excluded from the accounts of the Settlement because the land comprised the Ryots whole farm and contained none liable for revenue. The proportion of land wholly relinquished by Ryots who held no separate individual Puttah is Rupees 21243, and by Ryots who still hold Puttahs is Rupees 43863. The causes to which the decrease

Fort St. George 9th January 1843

decrease of Cultivation is attributable, c^s will be found in the General Revenue Statement and are hereunder exhibited.

Relinquished by Rayatcaries		4490-3-0
Relinquished by Holders of Gonehee Puttahs		4986-1-0
Total relinquished for want of means		34368-9-0

Relinquished for Causes distinct from poverty.

Relinquished from the failure of rain or flood / less than any year since Fusly 1235 / being given Jerrim

8295-1-0 Fusul and Revaz Jastee	13625-11-0	21920-12-0
Relinquished in exchange for other fields		8817-9-0
Total for Causes distinct from poverty		30738-5-0
Total amount of land relinquished		65106-14-0

Of the sum stated to be relinquished from failure of rain and flood, about 15800 Rupees is the loss from actual failure of rains and the remainder is attributed to land inside Tanks which were cultivated last year and to the bursting of some Tanks.-

The

Fort St. George 9th January 1843

16. The next Division of Decrease / Co^s. 89 / Rupees 43,236 is composed of remissions of rent on Lands which were also included in the Puttahs of Fusly 1250. The greater part of which Viz^t 38,724 Rupees is on Lands sown last year but left uncultivated in the present year. The decrease in Co^s. 83 Rupees 1,602 is owing chiefly to larger payments to Shrotriemdars than they received last year consequent on Extended Cultivation. The Item written in Co^s. 85 Rupees 2,673 is composed of remissions chiefly for losses of Crops. a small sum Rupees 360 is temporary abatement of rent to poor Ryots who had not the means of paying. The other two items / in Co^s. 86 and 87 / are small and need no remark. The total decrease of Rent in Co^s. 89 being added to the total decrease of Cultivation makes the gross decrease Ryotwar Rupees 109,343 and deducting this sum from the Gross increase in Co^s. 66 the result is an increase in the Net Settlement of Ryotwar above last year of Rupees 138,770. The decrease of Quit Rent / Co^s. 91 / Rupees 1,139 is owing partly to deaths and desertions of the Enamdars, but chiefly to the inability of the holders to pay the whole Quit rent. The decrease in Co^s. 92 Rupees 537 is the amount of

Fort St. George, 9th January 1843.

of tax imposed last year on Dry Enam Lands converted into Wet and one Crop Land cultivated with a second, but which taxes were this year not imposed as the land was not cultivated as last year. The decrease of Enam Suffreek [Col. 93] has already been noticed. There is an increase of 6,008 Ryots and a decrease of 3,247 the particulars of which will be seen in the Statement No. 2. An Abstract taken from Statement No. 5 exhibiting the actual changes among the occupants of farms is subjoined.

See Statement No. 2 Cols. 50 to 55 & 73 to 78. Statement No. 5 Cols. 201 to 206.

Total number of Ryots holding individual puttahs in Fusly 1250	83,146.
Deduct.	
Number of Ryots who have thrown up all their lands from the want of means	2,819.
Ditto from other causes	428.
Remains Ryots who still continue to hold individual Puttahs in Fusly 1251	79,899.
Of which the number occupying the same field is	52,063.
who have exchanged land without contracting their farms	1,954.
who have increased their cultivation above last year	15,569.
who have thrown up part of their Cultivation	10,313.
Add new Puttah holders in this year	6,008.

" 1251 - 91,556
Increase - 2958

Settlement No. 5.

17. The General Revenue Statement contains the usual details of the settlement of the year. I shall only notice a few heads in that Statement. In Col. 102 the amount of Jyen Terrum or Fixed assessment on the lands occupied in Fusly 1251 is stated to be Rupees 2,968,935. As the present is a year in which the Cultivation has been extended beyond the Cultivation of many previous years the Board will perhaps be pleased to see what description of land according to the Survey classification is now occupied. It is divided as follows.

	Assessment Rupees	Proportion Rupees A. P.
1st Land Cultivated in the year of the Survey	2,371,104	79 14 "
2d Land Classed at the Survey as Layek Bunjer	386,051	12 15 "
3d Do Do as Anady Bunjer	84,484	2 14 "
4th Enam land resumed since the Survey	110,830	3 12 "
5th Reclaimed Parumpoke	16,466	" 9 "
Total	2,968,935	100 " "

18. The Extra taxes of Seeroa & Tufsul Jastee in Cols. 103 & 104 Viz 151,236 Rupees and 106,221 Rupees are both higher than at any time since the Fusly 1235.

19. Under the General Head "Description of Land," the amount of Cowle Land is this year Rupees 134,968. I beg to subjoin the usual Abstract of Cowle and shall here only observe, that the subjoined abstract shews that the amount of Cowle newly taken up this year is Rupees 15,303. of which 2/3d is Black Land Kayan Cowle, and the rest Chedati Cowle. The total remissions on this it will be seen is Rupees 126,685, of which 124,487 is the Cowle Remission, [See Col. 150] leaving a Net Amount to be paid by the Ryots 8,282 Rupees as stated in Col. 172.

The

Fort St. George 9th January 1843.

The total amount of Cowle disallowed is Rupees 51,380 of which Rupees 49,868 is Cowle Teenoah, (which is all except a trifle of Rupees 896 under cultivation) Of this as will be seen by additions I have made at the bottom of Col. 9 of Statement No. 9. 39921 Rupees is fully cleared, and the rest remains to be cleared; and 41,366 Rupees is retained by the Ryots who held the land on Cowle, and 7,607 Rupees has been taken up by other Ryots. The usual Cowle Registers and Comparative Statement of Cowle are enclosed. The other particulars demanded by the Board will form the subject of a separate Report as suggested by Mr. Mellor.

No. 7 to 9 See Proc. of the Bd. of Revenue dated 18th March 1841.

20. The usual Statement of Gyneheed or cultivation is transmitted, and the particulars of that kind of Cultivation during the present year are entered in it. The amount is stated in Col. 123 of the General Revenue Statement to be Rupees 1,33,398. The Net demand on which is Rupees 2,50,593 being Rupees 11-10-- per Cent on the whole Ryotwar Settlement of the year.--

See Col. 178.

21. Of the total land occupied in Fusly 1251. the Survey assessment of what actually paid Revenue is Rupees 30,37,397. of which Rupees 29,42,029 was sown at the time of the Tunnabundy (including also Rupees 34,216. the demand on account of waste,) and

See Statement No. 5. Col. 124 to 127.

Rupees

Fort St. George 9th January 1843.

Rupees 95,367 was the Estimate for the Vyaeek Asp remaining to be sown. The amount of uncultivated land deducted from the Ryots Puttahs was Rupees 2,10,182. The remissions on the actual cultivation will be found in their usual places in the Statement. They amount to Rupees 8,85,217. The remissions for Moonasib Cummy in Cols. 154 & 155 it will be necessary to allude to in reference to the remarks of the Board in their Proceedings on the Settlement of last year on this item of deduction in the Separate detailed account of the Village of Mopadi. The Board objected to the remissions of 1/3d & 1/4th being calculated on the Gross assessment previous to the deduction of "Moonasib Cummy" or discretionary remission allowed as they observe long before the remissions of 1/3d & 1/4th were sanctioned; and in the Village of Mopadi this mode of calculation is shewn to produce a loss to the Circar of Rupees 19. But this supposition is in reality not the case. The deduction for Moonasib is always the net after the usual deduction of the 1/3d & 1/4th remission. For instance, if the assessment of a piece of Well land of 2 Acres was Jerrim 20 Pagodas, and the rate was considered too high, the remission for heavy assessment would be, say, 3 Pagodas per Acre, Jerrion. or deducting the 1/3d remission of the 3 Pagodas it would be 2

Statement No. 5 Col. 140 to 166.

See Bd. Proc. dated 18th March 1841. Paras 13 & 14.

Pagodas

Fort St. George, 9th January 1813.

Pagodas per Acre, Vasooli; in all 4 Pagodas Vasooli for Bari Deet Moonasib-and the whole deduction would be as follows.-

	Pagodas	Fans.
Serrim	20	"
Deduct 1/3d remission	6	7
Remains	13	3
Moonasib [Vasooli]	4	"
Net	9	3

This is the way all the Moonasib Cummy deduction is invariably made, except an item called Bari Serrim Cummee in the Kumply Talook, & the remission for Bari Deet on Lands under Cowle. but when the Cowle is expired the Vasooli of the Bari Deet remission is deducted as on other Jeyabady lands. Now if the Moonasib Cummee were allowed on the Serrim as the Board propose it would not in the supposed Case mentioned above be Pagodas 4, but Pagodas 6, and the amount would run as follows.-

Serrim	20	"	"
Deduct Moonasib [Serrim]	6	"	"
Remains	14	"	"
1/3d Remissions	4	7	"
	9	3	"

The same would be the result if applied to the Village of Mopadi-

The Gross assessmt on Land receiving one third remission is	267	7	1
Deduct 1/3d Remission	89	2	"
Dr Moonasib Cummee for high assessment	19	2	"
Tope Remission	1	"	"
Total Remission	109	4	"
Net assessment	158	3	1

Fort St. George, 9th January 1813.

The Moonasib Cummee 19-2-" above deducted is the Vasooli after deducting 1/3d remission of the Serrim 28-7-4 and by deducting this remission before the 1/3d remission it would be as follows.-

Gross Assessment	267-7-1.
Deduct Moonasib	28-7-4.
Remains	238-9-13.
Deduct 1/3d Remission	79-6-12
Tope remission	1-"-".
Remains as in former account	158-3-1.

This has always been the practice since fusly 1234 in the remission for Moonasib Cummee, and in Mr. Robertson's Report for that fusly he noticed the change he had made in clasing only the Net Sum after deducting the Established remissions as the remission under that head. The Gross Sum had previously been inserted. The Board would appear to suppose, that the Moonasib Cummee was a remission allowed long before the remissions of 1/3d & 1/4th were sanctioned, but this is only true in part. Moonasib Cummee has been granted to a far greater extent during Mr. Robertson's Administration than before. In the Margin I have entered the remission under this head in each year since fusly 1234. Under this explanation,

	Rupees		Rupees
Fusly 1234	5,452.	Fusly 1243	19,452.
" 1235	4,834	" 1244	19,386.
" 1236	6,753	" 1245	21,006.
" 1237	6,931	" 1246	25,165.
" 1238	11,662	" 1247	28,224.
" 1239	14,948	" 1248	29,393.
" 1240	18,289	" 1249	30,508.
" 1241	17,816	" 1250	30,831.
" 1242	16,642	" 1251	33,310.

See Summabundy Report of fusly 1234. Para 47.

Fort St. George, 9th January 1843.

explanation, I am sure the Board will not desire the account to be altered. The total sum for Moonasib under the two heads of Kayem Moonasib or Extra remission on account of high rent, and temporary abatement of rent allowed to poor Ryots is this year, respectively Rupees 31,389 and 1,920.

Statement No. 5 Cols. 154 & 155.

22. The whole remissions of every kind on the Settlement of the year Ryotwary amounts to Rupees 1095399. and the Net Revenue Ryotwar is 21,54,676 Rupees. Of which Rupees 20,19,619 is the demand of this year on the same land which was occupied last year and Rupees 1,35,057 is the demand on increased Cultivation.

Col. 169.

Col. 265.

23. It remains now to mention the Enam Cultivation of the year. The total amount of Enam Cultivated in the present year was Rupees 15,23,773 being Rupees 48,612 above the amount of last year. The increase in the Dry and Wet Lands was equal the amount cultivated by the Enamdars themselves was Rupees 12,126. and the rest 36,486 Rupees by other Ryots, who with the small exception of 2,007 Rupees cultivated by Ryots who held no Circar land all hold on Circar Puttahs. The usual account of Enam cultivation is enclosed.

Statement No. 10.

The

Fort St. George, 9th January 1843.

24. The Sayer in Enam Cultivation are shortly exhibited as follows compared with last year.

	Fusly 1250.			Fusly 1251.			Increase			Decrease		
	Rupees	A	P	Rupees	A	P	Rupees	A	P	Rupees	A	P
*Jodee or Quit Rent	169095	"	"	170,232	7	6	1,134	7	6	"	"	"

Fort St. George 9th January 1843.

29 I have the honor to send the Statement of Young Topes.— As usual great care and attention continue to be bestowed on these most useful and Ornamental acquisitions to the Bellary District, and it is sincerely to be hoped that they will continue to receive from the Board and Government that Support which has been hitherto granted.—

30. The Board have called for a detailed account of a Village containing more particulars than that

Fort St. George 9th January 1843

that Sent last year. The accounts of the Village of Booraguellah in the Punchapollem Taloork has been prepared, and I have the honor to send it, and hope it will supply the information required by the Board.—

31. I shall conclude this Report by annexing the following two Abstract Statements, which shew the Proportions at the average rate per acre of each class of Land occupied in a Series of years which will probably be acceptable to the Board as Shewing at one view the General Statement and fluctuations of the Cultivation in the Bellary District

Statement

Fort St. George

9th January 1843.

1st Statement. Proportion of each Class of Land to the whole Cultivation.-

Proportion of each class of land to the whole cultivation.-

Ordered

Fort St. George 9th January 1843

15
Order thereon (14-15) Ordered to be sent again in Circulation.

To J. D. Bourdillon, Esqre
Secretary to the
Board of Revenue
Fort St. George

16
From A. Meller Esqre
Collector of
Bellary

Sir,

I have had the honor to receive an Extract from the Proceedings of the Board of Revenue, dated the 21st November 1842, on the report of the Management of the Extra sources of Revenue in this District for the past Fusly 1251 and with reference to the latter part of 1st Para I beg to explain, that the decrease under the head of Cotton and Cotton Thread to the extent of Company's Rupees 8,990 or 31 1/8th Per Cent below Fusly 1250 is certainly attributable to the change of destination as therein recorded.

2. There has however no falling off in the Exports of these our staple articles for, the aggregate value of Cotton actually exported from the District in the year under review amounted to Company's Rupees 12,18,501 / being Company's Rupees 16,29,78 above the Exports of the preceding year /

and

Replying to the Proceedings of the Board of Revenue dated the 21st Novr 1842 regarding the Decrease under the head of Cotton and Cotton Thread and an alleged Discrepancy in the settlement of all Bellary revenue.

(16)

and the increase appears to have accrued chiefly in Exports to Canara as per Memorandum in the Margin and is caused by the Demand for Shipments on the Coast to which the Article is conveyed under Moffee Nowannahs with great facility. The great improvement in the roads in that part of the Country while the great Military road through this District both via Goaty and by Paulasamoodrum has been allowed to remain [with a few exceptions where the road had become impassable] much in its former state [and the non payment of frontier Duty which the Article would have been subject to, if exported to Mysore, are circumstances in favor of the Exporters who in consequence of these advantages seem to have kept to this channel of trade since Fusly 1250.

Places	Exports of Fusly 1250	Exports of Fusly 1251	Comparison Increase	Comparison Decrease
Mysore	3,40,092	2,71,326	"	68,766

3-

I am informed that the principal

Dealers in Cotton at Madras manifest a desire whenever the speculations or the state of the Market admitted / for investments of Cotton from this District and that the Bellary Cotton has been highly approved of, but the miserably bad road in the direct line via Cuddapah has proved the greatest obstacle to such an undertaking and I should imagine to the extension of all trade a generally Bandy men are always averse to proceed by that route and have enhanced the rates of hire so that however favorably the bargain may have been concluded in the purchase, the selling price of the Article when it arrives at Madras does not repay the prime cost and charges or the produce of this District would have long ago found its way to the Presidency, and the vast plains of Black land have been covered to a greater extent with the Cotton Plant instead of being barren wastes. This appears by the small quantity for Madras entered in the Memorandum having been carried for the most part by the Bangalore or Colar road, while that for Chittoor is transported to Wallajapett which is an intermediate place of store for supplies

to

to Madras. This being a subject irrelevant to the present reference I shall not enlarge on it further than to express a hope that whenever the stringency of the rules for expenditure not absolutely necessary shall be relaxed, the Board will take into their favorable consideration the repeated applications from this District by the late Principal Collector a Mr. Robertson and subsequently by myself that a larger sum than that now sanctioned Viz.t Rupees 650 per Annum may be placed at the disposal of the Collector for the repair of roads.

Vide Board's Orders 4th May 1837

4. In the remarks on Abkarry Revenue contained in the 4th Para of the above Proceedings it is stated that "the Board observe discrepancy in the amount for the "abkarry rents between the sum mentioned "in the Collector's letter Dated 5th July 1842 and "the Statement Marked A. transmitted with "the present Report," and that "the attention "of the Collector is drawn to the circumstance "with a view to the correct adjustment of "the Accounts." In elucidation of this subject I have the honor to state that it has been the

the practice of this Office to receive proposals for the rent of the Abkarry Farm of Gooty at the established sum of 365 Canteray Pagodas per year, the calculation being made at one Canteray Pagoda per diem for 5 Companys of Sepoys Viz.a / as the standard strength of Troops stationed at Gooty / or at two Canteray Fanams per diem for each Company and all claims of the Circar to additional Tax or those of the Renters for remissions of the Beriz consequent upon the increase or reduction of the force as the case may be being reserved for adjustment at the Close of the Fasly. A stipulation to this effect under the technical term of "Crops Cummee" is made in the Cowle or Puttah granted to the Renters and the Kists are accordingly adjusted finally, on obtaining correct information regarding the strength of the Troop from the Officer Commanding the station. The total amount of offers submitted for sanction in my letter of the 5th July 1842 bears no reference to the Settlement entered in Col.7 of the statement marked A consequently the difference between

CRs. 24,441-5-4
24,370-8-9-4
CRs. 636-7-4

between these two sums amounting in the present instance to Company's Rupees 636-7-4 is on account of the abovementioned remission for Troops of which the party stationed at Gooty is now small. It is not usual to enter into these particulars in the report on Exctra sources of Revenue. To render explanation unnecessary in future, I have given instructions that the proposal shall be made agreeably to the actual strength of the Garrison with the usual Proviso that the amount is to be increased or diminished agreeably to the standard rules.

Bellary District---
Collector's Office on Circuit---
Advance 24th December 1842
Resolution thereon

} I Signed I A. Moffat
Collector

16-17

The explanation of the Collector on the two points of the Board's Proceedings which he notices are satisfactory and need no remark.

Ordered with reference to Paras 2 and 3. that the Letter be transferred to the Department of Public works that the state of the road may there receive consideration.

Read the following letter-

To

To J. D. Bourdillon Esqre
Secretary to the
Board of Revenue

Fort St. George

From W. H. Arbuthnot Esqre
Acting Principal Collector of Cuddapah

Sir

Submitting a Report on the accompanying two Petitions addressed to the Board of Revenue by Pedda Sicka Reddy inhabitant of Beemagoondum in the Gummulmudgoo Talook.

Rec'd 1st Feb. 1843
No. 511 of 1843.

18

I have the honor to submit a report on the accompanying two Petitions addressed to the Board of Revenue, by Pedda Sicka Reddy inhabitant of Beemagoondum in the Gummulmudgoo Talook, in the first of which he complains that a dispute between himself and his Brothers has been referred to a Punchayet and in the second that in contravention to the decision of the said Punchayet a part of his Puttah land has been transferred to his Brothers.

2- The Proceedings that have been at different times held in this case are rather voluminous but the following is a brief abstract of the case-

3- The father of the parties who are all Brothers died considerably in debt. By an arrangement amongst themselves, the Petitioner undertook to liquidate a large proportion of this debt, and was in consequence put in possession of half the property of the deceased

Fort St.e George 9th. January 1843.

deceased, the remaining half being equally divided between the other 4 brothers - Things remained thus for 5 years, when the younger brothers complained that the whole lands ought to be equally divided amongst them all, as the period for which by the arrangement made amongst themselves, the eldest brother was to enjoy the half share, had expired. By the proceedings held before the Tahsildar it appeared that on the father's death an arrangement was entered into by the 5 brothers in the presence of several mediators to whom the settlement of this affair was entrusted that the Petitioner should be put in possession of half the property and pay off a large proportion of the father's debt and that the remaining half of the property should be equally divided amongst the remaining 4 brothers - A document to this effect was accordingly prepared - On further consideration this arrangement appeared too favorable for the eldest brother and another was concluded on the same day and in the presence of the same mediators to the effect that in consideration of the

large

Fort St.e George 9th. January 1843.

large proportion of the debt which the eldest brother had undertaken to discharge, he was to enjoy half the property for 5 years, after which period the whole was to be equally divided amongst them. A 2d. document to the above effect was then drawn out and signed, but the 1st. does not seem to have been destroyed - The younger brothers admit the execution of both documents - The Petitioner on the other hand asserts, that the 2d. is a forgery but the writer and the attesting witnesses (4) in both documents are the same - Of these the writer and three attesting witnesses depose to the execution of both documents while the remaining witness denies all knowledge of the 2d. one.

4. On the receipt of the Tahsildar's Proceedings an order was issued to convene a Punchayet but the eldest brother strongly protested against this, on which Mr. Hallett (Acting Collector) ordered that the parties should remain in possession of the lands that they had previously occupied and that the younger brother should be referred

to

Fort St. George 9th January 1843

to the Civil Court on this being communicated to them they declare that they would not pay the revenue of the land in their occupation - On this Mr. Hallett ordered a Punchayet to be assembled at the Huzzoor In the mean time Mr. Ashton took charge of the District and he issued an order to the District Moonsiff to assemble a Punchayet agreeably to Clause 4th Section V Regulation XII of 1816 - This was accordingly done and in conformity to the award the whole of the Puttah lands have been equally divided amongst the brothers.

5.

The only question that now remains for consideration is, can a Punchayet assembled under Clause VII Section V Regulation XII of 1816 at the request of one party and without the consent of the other decide in a case of this nature the question of permanent or proprietary right? I think not, Clause I Section IV of the above regulation extended by Section XVIII Regulation V of 1822 details the cases which may be so decided as follows - Any claims to lands or Crops which may depend on the determination of an uncertain and disputed boundary

or

Fort St. George 9th January 1843

or land mark and also such disputes as may arise regarding the occupying cultivating and irrigating lands as may arise between land-lords or renters and their ryots or between ryots and ryots - It seems therefore that except where the question depends on the determination of a disputed boundary or land-mark, which was not the case in the present instance a Punchayet can only decide as to the occupation / temporary of course / of land - If the view I have taken of the Regulation in question be correct, then the Petitioner is not precluded from having his case reheard in a Civil Court but if it be ruled that a Punchayet assembled as above stated can determine the question of permanent right then the Petitioner's case has been finally disposed of - Under any circumstances however I do not see that the Revenue authorities can proceed any further in the matter -

Cuddapah District -
Revenue Collector's Office,
Canalapore 5th Jany 1843

I Signed / W. U. Arbuthnot
Asst Collector

The

Resolution thereon - 1

(18-19)

The question at issue between Petitioner and his brothers being one of proprietary right depending on the validity of a certain document was not within the cognizance of the Punchayet to whom it was referred; and the transfer of the land from one party to the other in pursuance to their award was illegal - This act should be reversed, and the dissatisfied party be referred to the Civil Courts.

2- It is necessary to point out to Mr. Arbuthnot that his letter contains no fewer than three misquotations of Regulations these are probably the fault of the Copyist but such errors should be guarded against as they may make a communication unintelligible.

Ordered that the following Endorsement be passed on Petitions 1560 of 1841 & 57 of 1842.

"Petitioner is referred to the Acting Principal Collector who has been furnished with instructions for his guidance in the ca

From J. Goldingham Esqre
Collector of North Arcot

Sir, Fort St. George

I have the honor to submit the accompanying translations of the Cowlenamah and Bookoonnamah now in force in this District as required

(20)

+ 12th September 1842 by you*-

North Arcot
Collr's Circuit Cutcheery,
Varnavanum
23d December 1842

I am Sir
Your most obedient Servant
(Signed) J. Goldingham
Collector-

Translation of the Cultivation Hookoom-namah -

1- By the seasonable fall of rain during the commencement of July 1216, Poonjah grain such as Bajeerah, Raggy Cholum &ca has of course been sown as also kar in Nunjah land irrigated by Wells, River and spring Channels, and the rain during the Months of August and September, which has supplied

supplied certain Tanks with from 2, 3, 4 to 5 Months water, and the channels filled by River freshes, are further of considerable advantage to the Kar Cultivation on the Nunjah 1 and 2 Crop land. The season moreover affords an opportunity for the sowing and transplanting of Sumbah But to prevent loss in cultivation from either incompetency on the part of Monigars of certain Villages, or from want of sufficient hands, the Tasildars, Peishcars and Surfdars should personally inspect the capabilities of each Tank, River Channel, Spring Channel, Bell and Tanguh attached to their respective Supervision and cause the attention of every Ryot to be exerted in the raising of the Nunjah Cultivation.

2. If Doonjah grain such as Gram, Teel, Oolundoo, Moogo, Buller, &c. be raised on seykah or Bunjer land, the return will be more productive than if

raised

raised on the lands of the preceding year, care should therefore be taken to follow this mode of cultivation, and when a Ryot has no Seykah or Bunjer land, the kyputtoo land left uncultivated by any other Ryot or Podoovoo — Bunjer land in the Village should be given him also a Cadjan note specifying the Sull, Sa, Cawny and Seerwah of such Bunjer land, that the Ryot undertaking to cultivate it may before hand be acquainted with the assessment fixed thereon.

3. Some of the tanks contain from 2, 3, 4 to 5 Months water from the rains which have fallen hitherto, others are yet to be supplied and the whole must receive their full supplies, it is therefore necessary that the repairs to the several Water Courses should be inspected, and such repairs as are to be executed by the Cultivators should be done accordingly, and such repairs as are to be executed thro'

+ Land belonging to any Ryot.
* Land belonging to no Ryot.

thro' the Sircar, the subject must be reported to the Hoozoor for instructions

4- The Tahsildars should retain with them a List of the Reservoirs &c. in their respective Talooks, exhibiting therein the number receiving their supplies from River Channels and the number from Jungle Channels, and should any of these Channels be either injured, damaged or blocked up with sand thereby the passage of the Water, the nature of each repair should be ascertained, and such trifling repairs as will admit of being performed by the Mongars &c. of the Village, should be got done by them, and for such as must be executed by Government, Estimates should be prepared and submitted to the Hoozoor-

Dusbundum Tanks are constructed in greate numbers in the Talooks of Chittoor, Cuddapahnattum and Vencatagherry Cottah, should any of these stand in need of repairs, Estimates

Estimates should be prepared and sent to the Hoozoor and the repairs caused to be made by the Dusbundunndars, according to their respective shares, speedily. The particulars of accounts taken on this occasion should be retained both by the Curnams and in the Talook Cutcherries. In case of absence of any Dusbundundar or of others refusing to pay for the repair according to their shares, their portion of the Dusbundum Manyam should be attached and the result reported to the Hoozoor-

5. The Mongars should be directed to assemble the Ryots &c. of their respective Villages and be careful in turning the Water from the Channels, during the progress of the seasonable rains, to their respective Tanks, they should further pay particular attention in the raising of Nunjah Cultivation to the extent, the means of irrigation will

will afford. They should also commence with the sowing of the Poonjah seed on its proper season. It is very likely that in some Villages where there are more than one Mongar attached, the Circar business will be greatly interrupted from disagreement among them; instances of such occurrences should be reported, for instructions, to the Hoozoor.

6. The Mongars should observe call the strict attention of the Cumboo Cutties (distributors of Water to the fields) who enjoy Enam land and Sotuntrum, in distributing no more than the requisite quantity of water to the Sunjah fields, and in the opening and shutting of the sluices at the proper times, in order that a larger quantity than necessary may not be expended. The strictest watch is also enjoined on the part of Cumboo Cutties against any Ryot taking more water to his field on the pretext that the quantity

quantity allotted is insufficient, for such an act will only occasion an unnecessary wastage of Water. The Sluices therefore should on no account be opened while the Calingalahs are discharging water.

7. If Kar and Sumbah (web grain Cultivation) are raised in their proper seasons in the last year's Nowrah or sumbah lands, the return will be beneficial, and Nowrah being raised on Palady or land from which kar has recently been cut, the produce will be small, such land should therefore be allowed to remain unsown for about a Month, after it has been ploughed 2 or 3 times and well enriched with manure and Jungle Leaves, (the leaves will rot and enrich the soil) before the Nowrah is sown. If Nowrah is also grown on waste land after ploughing it two times.

times the produce will be very favorable.

8. Owing to certain Ryots appropriating to themselves Poonjah and Nunjah Puttcut land, to an extent beyond their ability to plough, and not allowing others to cultivate it, portions thereof remain fallow much to the loss and disadvantage of the Sircar. To prevent such practices the Ryots should in general be warned that if they allow any portion of their Puttcut land to remain fallow for two years, they will lose all claim for that portion; and that the land will be taken from them and made over to another for Cultivation.

9. Nunjah lands are invariably irrigated by Reservoirs, River Channels, spring Channels Wells &c. But for lands solely irrigated by Bource Pauchell or Wells, Water from the Tank, River and spring channels should on no account be allowed, nor shall the irrigation from these sources be made

available for Nunjah, Tolacul or Poonjah Poovasy raised on Poonjah land because such an indulgence will lead to the diminution in the quantity of Water necessary for the wet land Cultivation. strict attention should be paid in this subject.

10. The Sircar land as also the Dusbundum, summud and Jarrapady Enam land are of course usually irrigated by Tanks and channels &c. such being the case, the Manegars and Ryots of some Villages are in the habit of Cultivating both 1 and 2 Crop in summud &c. Enam lands, stating that the same were either sold or mortgaged to them, or that they have agreed to pay the Enamdar Grain, Rent, or moderate Teerwah and by their doing so it not only diminishes the Sircar water but portions of the Sircar land remain fallow. Care should therefore be taken to see that the Sircar land is first cultivated.

J.

11. In some Villages where there are 1. 2 or more Monigars attached to each, the Cultivation is flourishing and extensive, owing to their being on friendly and amicable terms, and by their unanimous and willing exertions in transacting their duties. In others the matter is quite the contrary, owing of course to a feeling of hostility among the Manigars. The Tahsildars should therefore allot portions of land in such Villages to be exclusively Cultivated under the Superintendence of each Monigar, binding them by a Moochilkah to see that the land so made over to them, is thoroughly cultivated and the Jeerwah paid to the Sircar, and that failure in the ratification of this agreement will subject them to the loss of their office. They should further be acquainted with the unavoidable necessity of binding themselves to this agreement on pain of dismissal,

and

and the conduct of him who perseveres in a refusal to enter into such an agreement, should be noticed to the Hoozoor. Again in certain Villages, where there is but only one Monigar attached to each, the Cultivation is neglected from want of due exertions. In such cases also the Tahsildar should institute a careful enquiry, and obtain Moochilkahs in the manner above directed, and use his utmost endeavour to forward the Cultivation.

12. It is very likely that of the Ryots who are willing to take up land for Cultivation during the current year, there can be no difficulty in regard to those who have the means to do so at their command. But some who have not even the means of supporting themselves, and others capable of Cultivating only small portions of land with one or two ploughs, depend entirely

entirely on the aid of Tuckavee. The Tahsildars should therefore visit every Village under their control and after a careful enquiry, personally distribute Tuckavy, according to the wants of each person obtain from them the usual agreement and security, and direct the Monigars to assist the Ryots in procuring them with ploughing Bullocks &c. at proper times. should it however come to notice that Tuckavy was given to Dar or Ryots who did not depend on that indulgence, and withheld from Dar or Ryots who were actually depending on that aid, thereby occasioning loss in the Cultivation, the Tahsildars will be subject to severe displeasure. The agreement and security together with the Tuckavie distribution List should, as usual, be forwarded to the Hoozoor treasury.

13. Some of the Ryots are in

in the habit of raising on Poonjah land Teeb or Nat raggy as 1 Crop and Poorasy, 2 Crop, by the supplies from Sircar Tanks and Channels, the result is of course, beneficial to themselves but a loss to Government because by using the Water from the said sources it diminishes the quantity required for the real wet Cultivation. The Ryots should therefore be warned against such a procedure, and in breach whereof the full Nunjah Teerwah should be demanded for the Cultivation of Teel on Poonjah land, and half the Nunjah Teerwah for Ratraggy.

14. In the several Tanks, River and Spring Channels &c. in the Santghur Talook are incapable of affording a full supply of Water for the whole wet Cultivation, a portion of the Nunjah land Cultivable with wet produce, has been assessed

assessed on a high Teerwah, and a portion denominated Atchoocut land, Cultivable with Punjah Turrum - Coonjah such as Natraggy, Tewaree, Teel &ca, on a moderate Teerwah, The Cultivation should therefore be conducted accordingly - But on the Contrary, if any Ryot should raise Sugar Cane, Paddy &ca, being a - Superior produce, on Atchoocut land by the irrigation of Tanks &ca - he shall not be considered exempt from the demand of the Punjah - high Teerwah.

15. There are certain Potacal lands in the same Talook denominated Paul Baugaet bearing a low assessment, on this land Chilly, Tobacco, Brinjall and Natraggy &ca may, as usual, be cultivated, but if Punjah produce is raised thereon, the Punjah Teerwah will be levied.

16. In Arcot &ca Southern - Talooks the assessment on Land - is not fixed on 1 and 2 Crops - separately

separately but on classifications, whether 1 or more crops are raised in each - class of land, Viz.t, 1st Class 2d Class, 3d Class, 4th Class and 5th Class. Hence some of the Ryots are in the habit of Cultivating only the 3d and 4th class - Land which bears a low Teerwah to meet their own advantages, and neglected the more highly assessed lands, altho' means of supplies were at hand, and from - want of attention on the part of Monigars &ca, in this respect loss to Government is eventually the result. Every care should therefore be taken previous to the period of Cultivation to prevent such an - occurrence by causing the Ryots to cultivate the land both of the high as well as of the low Teerwah, and if any Ryot has been detected of having actually neglected the former, while he had the means of supplies of - water, a strict enquiry should be - instituted into the matter by the - Tahsildar &ca and the result reported

to

to the Hoozoor before the time of cultivation, noticing at the same time the extent and classification of such Ryots Poonjah and Nunjah land, as also the extent he left fallow.

17 The following rules should be observed in instances of raising Fuzulzasty on Poonjah Puttecut land by means of private Wells, and which should be made known in general.

1st The Ryots in the Talooks North of the Palar and in the Villages of Malemunnoor, Keelmunnoor and Cullamungalum in Vellore, are in the habit of wilfully leaving their Nunjah Puttecut land fallow, and raise Nunjah cultivation on their Puttecut Poonjah land by means of private Wells. Thus they reap and enjoy the extensive Nunjah produce to their own advantage by not only paying the Poonjah teerwah but also by neglecting

considerable portion of the Puttecut Nunjah land waste, Be it therefore particularly made known to all that they are at liberty to raise Fuzulzasty on their Puttecut Poonjah land by means of private Wells, after the whole of their Puttecut Nunjah land has been cultivated. On the contrary, should any Ryot do so by leaving his Nunjah land uncultivated, he should be made to pay the Nunjah teerwah of the clafs of the Puttadah land Situated in the vicinity of the said Puttecut Poonjah land, and if there should be no Puttadah land, the teerwah of the Panchah land, But in the absence of either the one or the other description of the land in the vicinity of the said Puttecut Poonjah land, the full Nunjah teerwah of the same clafs should be fixed, of which 1/3. being deducted for labor of drawing

water

water, the remainder, corresponding with the extent of the Puttcut Punjah land left uncultivated by the Ryot, should be carried to Summah 2d.

These instructions also refer to Ryots leaving their Puttcut Potacal land waste and raising Potacal cultivation on Puttcut Punjah land by wells so dug at their own expence detrimental to the revenues of Government. The Ryots are at liberty to raise Potacal Poovasty on Puttcut Poonjah land by means of private wells after they have thoroughly cultivated their Puttcut Potacal, But on the contrary Should they leave any portion of the latter waste and raise Potacal Vea. on the former, the Potacal teerwah should be fixed, of which the amount corresponding with the extent of Potacal Puttcut land left waste should be taken to Summah 3d.

The same precaution is necessary in respect of raising Poonjah Poovasty on Poonjah Puttcut land

land by means of private Wells and leaving portions of the latter waste. The amount teerwah for the extent so left waste should be levied from the said Poovasty produce.

18. Application by Ryots for constructing private Wells for raising Poonjah Poovasty Vea. on their Puttcut Poonjah land, should be referred to the Hoozoor for instruction, accompanied with a Statement from the Monigars of the Village that the undertaking will in no way interfere with any courses of irrigation or with the Lands of other Ryots Vea.

19. For all Poonjah Poovasty raised by means of manavary (fall of rain) after the Puttcut Poonjah land has been fully cultivated, no additional teerwah shall be levied. But where any such has occurred by leaving any portion of the Puttcut Poonjah uncultivated, additional

teerwah

Fort St. George 9th January 1843.-

teerwah for the extent shall be demand=ed. If Poolay Kar be raised on a Poonjah land, in Sutwaid Saloke excepted, by the above said Means of Supply, 3/4th of the Nunjah teerwah fixed on the Nunjah land in its vicinity shall be levied, Should there be no Nunjah land So situated, 3/4 of the teerwah of the same class of the Nunjah situated elsewhere. But in Sut=waid the full Nunjah teerwah Should as usual be levied in Such instances.-

20- If 2 Crops shall be made on 1 Crop Pel land by means of Sircar Water, the 2 Crops teerwah Should be levied according to the classification of the land.-

21- If on 2 Crop Puttecut land 1 Crop only was raised, while means of Supply for both were a=vailable, no remission shall be allowed for Boganushty. But if 2 Crops were raised on 1 Crop land, Bogazaunsty teerwah should not be demanded, because it is

done

Fort St. George 9th January 1843.-

done by the personal labor of the a=Ryot.-

22- If Nunjah has been a=made on Poonjah land by supplies from unclaimed Wells, Wells of another Ryot, River, Brooks &ca the Nunjah Puttadah teerwah Should be levied, and in the a=absence of Such, 2/3d of the Panchel teerwah- For Poonjah Poovasy, the Poonjah teerwah, and for Totacal, the full Totacal teerwah.-

23- The usual teerwah a=Should be levied for all cultiva=tion raised in the Village of a=Ary and Poolavary, situated in the bed of the Cavery Jaunk Tank, &c., and all applications for cultivat=ing on Porompoke land in the beds of Tanks of other Villages, Should be regulated by a fixing the Class and assessment equal to the Neighbouring fields in the bed. The assessment on water Mellom cultivated on Porumpoke land in the bed of

Tanks,

Fort St. George 9th January 1843.

Sanks is not at one permanent rate. It is therefore necessary to levy the teerwah according to the preceed= =ing year for cultivation made on land Cultivated and assessed up to the last year; but where this was not the case, the Poonjah ca= teerwah calculated on the nature of the Soil, and that fixed on ca= land in it's vicinity, should be demanded.-

24 The practice of bringing to the Cultivation account, portions of a field, either Poonjah or Nunjah, which are the sites of Ryots houses, or otherwise un= =cultivable, from its being covered with Sand, Stones &c. &c. as whole Mulls, is open to much inconveni= =ence in the forming of the Samu= =bundy Settlement. The Tricadars Should therefore personally inspect such land, and dis= =tinctly exhibit in the ca= Cultivation &c. account, the ca= portion actually fit for cultivation

in

Fort St. George 9th January 1843.-

in each Mull, by deducting the ca= portions now objected to as unfit for Cultivation.-

25.- Certain Ryots are in the habit of cultivating only a portion of a field consisting of the best Soil, and claim remission at the period of Settlement for the re= =maining portion left uncultiva= =ted.- In instances of such a ca= nature occurring in a field, ca= which, having the means of Supply, was year after year, ca= till the last, fully cultivated, the payment of the assessment on the whole field Shall not be considered exempted.- On the other hand, if such has occurred from causes deserving favorable consideration, and only within 3/4 of a field has been cultivated, remission Should be allowed for the waste; and if above ca= 3/4 of a field was cultivated, full teerwah Should be taken to account.- The Cultivators Should

be

be particularly made acquainted with these instructions- Some fields again are of an unwieldy Size, Say, Five Cawnies and upwards Composed on a Poonjah Stull, and Two Cawnies or more a Nunjah Stull, and con= =sequently it is impracticable for one Single individual to unde= =take the Culture of the whole field. If a field therefore of this description is taken for cultivation by Ryots, it Should be measured and an account, exhibiting the extent and Nos. allotted to each, Kept by the Curnum and a Copy on thereof in the Taloop Cutcherry.

26. With regard to anady and Salvar Bunjer land granted on Srayem (progressively increa= =sing) Cowle, enquiry Should be made to Know the Nos. of Stulls granted on that tenure, the Nos. of years elapsed since each was granted, and the teerwah

teerwah each is subjected to in the current year, and accordingly the full teerwah is to be taken to account.-

27. Proposals for unoccu= =pied anady or Salvar Bunjur or Puttadah Paichal land situated in the bed of Tanks, which was once in cultivation and abande= =ned owing to the Assessment being high, Should be forwarded to the Collector within the Month of December for ins= =truction- and the Ryot on Proposing, informed, that only on the condition contained in the following Paragraph will Bunjer land be given on Cowle.-

28- If Ryots have first fully cultivated their Putteut land in the previous year, and propose cultivating Sucu= =gal Salvar or Anady Varu Bunjer on cowle, they Should be Subject to the following rates of

teerwah

teerwah and they should be fore=warned that the rates of teerwah Specified are confined only to cultivation conducted on a co= Written Cowle being previously obtained from the Circar, and that retrospective effect will be inadmissible at the period of Settlement.-

For waste above three to five years standing.-
- 1st year 1/2 teerwah
- 2d Do full - Do

For Do above Six to ten years.-
- 1st year 1/4 teerwah
- 2d Do 1/2 - Do
- 3d Do 3/4 - Do
- 4th Do full Do

For waste and anady Banjar of ten years and upwards.-
- 1st year 1/8 teerwah
- 2d Do - 1/4 - Do
- 3d Do - 1/2 - Do
- 4th Do 3/4 - Do
- 5th Do full Do

29. The Zeatzgary remission of 10 per Cent will be allowed in the Talooks of Arcot, Vellore, Trivettoore, Poloor and Wundiwash, on for Cultivation raised bonafide by Brahmins and Mussulmen.-

The

30. The highest offer on competition should be obtained for the rent of the Mango, Tamarind, Palmira and other large Topes &c. (exclusive of those included in the Ryots Puttcut land) at the season of bearing, the same to be forwarded to the Hoozoor, together with the Malzamins &c and a Statement Shewing the average Berij of each tope during the ten preceding years.-

31- In accordance with the instructions of Government a remission of 12 1/2 per Cent on the turun assessed lands of all the Talooks except those of Arcot Vellore, Trivettoor, Poloor, Wundewash and Sutwaid Shall be allowed.-

32- The System hitherto observed in the Chingleput Zillah for the Villages transferred from that Collectorate Should be observed.-

Dasturdom

33. Dushundum Tanks are constructed in the Talooks of chittoor, Tripatty, Penneury, Cuddapanattum, Vencatagherry Cottah, and in certain other Talooks, and the parties are entitled to from 1/3 to 1/4th of the land under their irri=gation as Dushundum Enam=- A single field in some places compose both the Circar and Dushundum Enam land, the Monigars should in such instan=ces be careful in allowing no more water than is proportionately allotted for each; should it co= however come to be known that any Monegar has, contrary to this, exceeded in regard to the quantity of water given to the Dushundum Enam, he will not only be subjected to pay a large fine, but also to im=mediate dismissal. The Tahsildars &c. should not only communicate this order to all the Monigars in writing but they

they should also see it strictly at=tended to.-

34. There are certain lands in the alienated Polliams attach=ed to the Penneurry Talook, co= also Yadergoontah Polliam at=tached to the Satghur Talook, co= denominated Stulla Cuttabuddy, which pay to Government half Jodee, and lands called Pollam Cuttoobuddy which pay 1/3rd Jodee The holders therefore of such lands should invariably be present in their Villages and cultivated their land- But should any portion of the land remain co= unoccupied owing to death, co= desertion or removal of the holders thereof to distant co= Countries, the Tahsildars should assume the land so abandoned and cause it to be cultivated, co= reporting particulars to the Soozoor:-

35- The following instructions should be attended to in respect co= of

of Manyem and Marah res=
=tored to Monigars, Curnums,
and Kotagars, in fusly 1236.-

1st If the Poonjah or
Nunjah Maniem lands be=
longing to Monigars, Cur=
=nums or Kotagars are in the
condition they were at the time
of assumption, and in the co
possession of the Meerassidars
themselves, they should be co
allowed to be cultivated co
accordingly, and if in possess=
=sion of others, they should
be taken and made over to
the former.-

2d If the land was
Poonjah at the time of assump=
=tion, and afterwards improved
and converted into Nunjah
by personal exertion, and
construction of private wells,
at the expence of the Monyem=
=dar, he alone shall enjoy the
advantages

advantages derivable therefrom.-

3d If the land was c,
Poonjah and was converted into
Nunjah by means of Circar
Tanks, Channels, &c the Poonjah
teerwah should, as usual, be co
granted as remission and the
Nunjah Fuzulwasty teerwah co
carried to account.-

4th If the land is in
possession of a person other than
the Meerassedar himself and
that other had improved and
converted it from Poonjah to
Nunjah &c, by constructing
wells &c &c at his own expence,
he should be allowed to retain it,
and other land, equal in extent,
and value to the Maneyem in
in its former condition, should be
assigned to the Maniemdar, Provi=
=ous however to doing so, the Tah=
=sildar should send without co
delay an account of the co
extent

extent ¼ ⅛ ¹⁄₁₆ of the land to the Hoozoor, to enable the Mana=
=gemdars being put in posses=
=sion thereof within the cur=
=rent period of Cultivation.-

5th The Marah to Mo=
=tigars, Curnums, Nolagars,
and Toolkeries, which was
assumed in fusly 1213. cur=
being restored, the indul=
=gence should be continued,
as was usual till Fusslies
1210, 1211 and 1212, and remission
will be granted for the amount
carried to account on the assamp=
=tion in Fusly 1213.-

/Signed/ J. Goldingham
Collector.

Translation

No. 2.

Translation of the Jummahbundy Hoo=
=kumnamah of Fusly 1246.-

Para 1.- For the Annual Jummahbundy
Settlement of the District, the Monie=
=gars and Curnums, with the assistance of
the Ryots, Totties and Tellicars of their
Villages, should after the completion of the
whole Cultivation in December and January,
carefully inspect and Measure the extent
of Cultivation, and then prepare a detail=
=ed Adungul Account of each Village as=
herein explained and forward the same to
their respective Talook Cutcherries.-

The Account should show,
the species of grain cultivated in each
stull of land and whether the produce has
been reaped, as also the extent of land
which came under the denomination of
Shar†pooldy or ††Stulla Cummy with the
reasons assigned under their respective
Stulls.-

In some Villages the Stulls
situated in the centre of Arable lands
are Cultivated, and those around left waste,
and in others the surrounding Stulls are
cultivated

† Land sprepared but not sowed.
†† Portions of Land left uncultivated.

Cultivated and the Centre Stalls left waste, Thus the ryots from ignorance of the actual extent allotted, for such Cultivation may encroach on some of the neighbouring Stall-lands - The Monigars should measure the extent of land so encroached upon and the Cultivation made thereon so as to show to which Stall it belongs. —

Should any Ryot tender Pottah for rumpoke land fit for Cultivation and Cultivate thereon Poonjah Nunjah or Totacal the extent in Cawnies of such land should be stated, as also the nature and Classification of the lands in their vicinity. —

The Account should show the extent of land granted on Cowle, the portion thereof left waste, and the terms of assessment it will be subjected to in the present year. —

Should Poonjah Powashy, Nunjah or Totacal be raised on any Class of Poonjah land, or 2 Crops raised on 1 Crops Nunjah land, the nature of irrigation by which they were raised should be exhibited, and if the above was raised

a portion of a Stall only, the Cultivated portion should be measured and the extent inserted, notifying also the Classification of the neighbouring lands - The same instruction is also intended for Totacal Fazulzasty, and if one of the two Nunjah Crops, suffer loss, the cause thereof should be assigned —

Should any Ryot propose to raise Madungul Cultivation in wastes Nunjah or Pallady Nunjah land or Poonjah Poovady &c. on Poonjah land, the extent proposed should be inserted in the Adungal Account "as agreement for future Cultivation," and a Caboolyet or agreement should be received from him, and this agreement should accompany the Adungul account in question to the Sudder Cutcherry. —

A remission of 10 per Cent is allowed for the Puttah land Cultivated by Bramins and Mussulmen in the Arcot &c. 5 Southern Talooks the Accounts should therefore shew under the number of each Stall the extent actually Cultivated by these people themselves, the extent let

on

on Warum and the extent given on Teerwah=
or on share to Soodras.—

In certain Villages portions of a Stull, of either Punjah Nunjah or Totaul are formed of bad and gravelly Soil, and others again are the former sites of Ryots= houses. These lands are incorrectly brought in as whole Stulls in the Cultivation ac= =count, and during the period of the Jum= =mabundy Settlement, such portions of the land are deducted and carried to the= Adungal account under the head of Re= =mission for Stullacumming, all lands there= =fore of that description, should be deducted from their respective Stulls the profitable lands only carried to account and at the period of preparing the Adungul Ryfeat, the total amount of the Monthly cultivated Stulls should be stated, and by deducting therefrom the unprofitable portions the total remaining should be made to corres= =pond with the Adungul Goshawarah.—

The particulars of the Boga= =zasty or Boganasty Vrea should be= assigned opposite each Stull, specifying distinctly the extent in Serkar land and the

the extent in Enam land, together with the= Amount of deduction granted for Boganasty= =— and the amount carried to account as= Bogazasty, the sources of supply by which they were irrigated should also be stated.—

With regard to Soornadayem or ready money Collections, the amount and= terms of the rent or of the Patent, as the case may be, for Tank fishery, Topes &c. &c. should be exhibited, also the species of trees in each Tope, exhibiting at the same time, the number productive and the number unproductive.—

The dates including day and Month in respect to individuals newly= included as paying Moturpha revenues and the nature of their occupations= should be exhibited, also the tax payable by other individuals carrying on the= same trade, and if any individuals= should happen to discontinue any occu= =pation subject to the said revenue, the Reason and date of such discontinuance should also be noticed.—

To enable the Tahsildars to obtain the Adungul accounts for their respective

respective Catcherries, they should in proportion to each Village allow the Monigars and Curnums, two, three or four days for the preparation of the Accounts, which should bear the signatures of those present at the time in each Village, and the Tahsildars should also require a Moochilkah from the Monigars and Curnums to accompany the Account of each Village, Certifying that the Account is correct, and that in case of any difference being brought to light during the course of enquiry, they (the Monigars &c.) would forfeit their Meerasies.—

Para 2— The Hamlets attached to Villages are in some Talooks separately carried to account. The Casbah Reddy and Monigars who continue to enjoy Manyems and Meerahs in such Hamlets, should therefore in conjunction with the Putail Enamdars, connected with these Hamlets be present during the preparation of the Adungul and Uzmaish Accounts and affix their signatures thereto, and they should further be aware that they are also subject to the penalty of losing their Meerasees in case of any difference being found

found in the said Accounts at any future period.—

Para 3.— After the receipt of the Adungul Accounts and Moochilkas of every Village, the Tahsildars, Peishears, Sheristadars, Gomastahs and Surfdars of the District should each take to themselves the examination of a certain number of Villages and proceed thither and act in conformity to the 1st Para of these rules by preparing an Uzmaish account in conjunction both with the Monigars, Maty Ryots Curnums &c. of their respective Villages and those of the neighbouring Villages, with every particular relative to each shall exhibiting at the same time the causes of any differences that may arise in comparing the Uzmaish with the Adgungul Account.—

Para 4— Those engaged in the Jemmahbundy Settlement of the Villages should keep by them the Monthly Cultivation account of each Village, the Adungul account in question, and the Uzmaish Account, for reference and comparison. The Monigars and Curnums should be present and attest the settlement with their signatures

signatures. The date on which the Settle=
=ment was concluded should also be exhi=
bited. —

Para 5. — The following relates to the
mode of levying teerwah on Fuzulzasty.

If Sugar Cane Buttu, Plantain
or productive Coconut trees are raised on
any Clafs of Poonjah land of the Pymash
turm Villages in the Chittoor and other
Talooks and in Malemunnoor, Keelmanoor
and Cottamungalum in Vellore Talook,
the Nunjah teerwah for 2 Crops of the
same Clafs should be levied. If Paddy,
Wheat or Gingelly oil seed, the Nunjah
1 Crop teerwah must be levied. If two
Crops have been raised, take the Nunjah
2d Crops teerwah. If 1 Crop Natraggy has
been raised, take half of the Nunjah
1 Crop teerwah and half of the Nunjah
2 Crop teerwah, if 2 Crops of Natraggy
have been raised. If there are no Nunjah
lands in the vicinity of the Poonjah on
which Fuzulzasty has been raised, the
Nunjah teerwah in the village of the
same Clafs as the Poonjah Clafs should
be fixed. When Ryots raise Nunjah Fazulzasty

on

on Poonjah land, previous to cultivating the
latter, the Nunjah teerwah should be affixed
as above and having deducted the Poonjah
Teerwah, the remainder is to be carried to
account under the head of Bogazasty. —
But when Nunjah was raised after Poonjah,
the whole Nunjah teerwah should be carried
to account. —

The Nunjah lands in the Talooks
of Arcot, Vellore, Trivattoor, Poloor and
Wandiewash (Malemunnoor, Kelmunnoor
and Cottamungalum in Vellore, excepted)
are not distinguished as 1st and 2d Crops.
It is therefore hereby directed that should
Nunjah be cultivated after Poonjah, or
Nunjah alone, on Poonjah lands of the said
Talooks the Nunjah teerwah is to be affixed,
and remission of the Poonjah Teerwah
being allowed, the remainder is to be taken
to account under Bogazasty. —

The following refer to the
Amount of Fuzulzasty to be carried to
account under different irrigations —

For all Fuzulzasty raised by
the irrigation of Tanks and Channels, the
whole Fuzulzasty teerwah as mentioned
above

above should be carried to account—

For all Poonjah Fuzulzastee —
raised by means of private Wells, the teer-
=wah of the Class of the Puttahdah (Well)
Nunjah land in its vicinity should be
fixed, should there be none of that sort
of land in its vicinity affix the Panchel
(Tank or Channel) Nunjah Class teerwah
but in case of there not being the one nor
the other of these discriptions of lands in
the Neighbourhood, the Nunjah teerwah
of the Class of the Poonjah on which Nunjah
was made should be affixed and after
deducting therefrom 1/3d for the labor of
drawing water from Wells, the remainder
2/3d is to be carried to account. If Fuzul-
=zasty by means of private wells be made
by any ryot who has left a portion of his
Putent Nunjah land fallow without
ample cause, the Fuzulzasty teerwah allowed
as remission (Nat Raggy, Noovvaloo, Coco-
=anut, Mango trees &ca excepted) should
be added to the extent of the Putent Nunjah
land left fallow. This rule applies to all
Fuzulzasty (Nat Raggy excepted) raised
by means of unclaimed Wells, Wells of
another

another Ryot, water from Swamps, Rivers, &
and Tanks constructed for charitable pur-
=poses

For Fuzulzastee on Poonjah land
raised from the irrigation of both Tanks,
Channels &ca and private Wells, the teerwah
as above mentioned should be affixed, and
teerwah calculated upon the extent irrigated
by Circar water should be taken to account and
for the extent irrigated by private wells the rules laid
down for such cultivations should be attended to—

For Fuzulzasty raised from Ma-
=nawary (Rain) in all Talooks except
Sutwaid, 3/4th of the Nunjah teerwah should
be fixed and having deducted the
teerwah of the land (Poonjah) therefrom,
the remainder should be carried to Account.
But in Sutwaid the full Nunjah teerwah
is to be carried to account as is usual—

Totaal produce such as Tobacco,
Chilly, Garlic, Onions, Yams, Sweet Potatoes
Saffron &ca grown on any Class of Poonjah
whether after raising Poonjah or without
such crop it is to be assessed with the teer-
=wah of the neighbouring Totaal land,
if there is none, with the teerwah of the
same

same Class of Totacal land, if there are no Totacal lands of the same Class in the Village with the teerwah of the Class nearly approaching to it and if there is no Totacal land at all in the Village with the teerwah of the same land in the neighbouring Villages, by affixing the teerwah according to the nature of the supplies by which such Fuzulzasty was irrigated deducting the teerwah of the land therefrom and carrying the remainder to Account.—

For all Totacal Fuzulzasty on Poonjah land raised by means of Tanks, Channels, unclaimed Wells and Wells of other Ryots, the Bogazasty teerwah as above directed should be carried to account.—

Should any Ryot leave a portion of his Ein Totacal land waste in the preceding year and have raised Totacal Cultivation on Poonjah land by means of private wells, teerwah as above stated should be affixed, of which teerwah for the extent left waste, should be carried to account and the remainder granted as

as remission but if such Fuzulzasty was made after the whole of his Totacal land has been cultivated, full remission should be granted.—

To-tacal Fuzulzasty is also raised in certain Poonjah lands by Manawary (Rain) in all such instances therefore 3/4ths of the totacal Teerwah should invariably be carried to account.—

If totacal Fuzulzasty be raised on Poonjah land by the irrigation of both Tanks Channels and private Wells, the Teerwah as above should be affixed for the portion irrigated by the two former sources calculated on the nature and description of the cultivation and the quantity of water supplied and the same carried to account and for the portion irrigated by the latter the Rules for Fuzulzasty raised by private wells should be observed.—

Half of the Poonjah teerwah for raising Poonjah Poovasy on Poonjah land is to be carried to account thus.—

If Poonjah poovasy be raised by means of Tanks, Channels &c by unclaimed Wells or by Wells of other Ryots, by Charity Wells or standing water the whole

Poovasee

Poovasee Teerwah should be carried to account.

If any Ryot has cultivated his Patcut Poonjah Land in the present year as in the last and then raised Poonjah Poovasy by means of private Wells or Manawaree remission, he should be allowed to enjoy the whole Poovasy so raised, but on the contrary should he have decreased the cultivation of his Patcut Poonjah Land in the present year, then the Teerwah for the extent so decreased should be deducted — and the remainder given up.-

If Poovasy is raised partly by means of Circar Tanks Channels, unclaimed Wells or Wells of other Ryots and partly by private Wells, Poovasy Teerwah should be levied calculated on the number of days the portion of cultivation was irrigated by Circar water and for the portion watered by private wells the Rules directed for such cultivation should be enforced.-

The following are particulars for levying teerwah on Fuzulzasty raised on Nunjah Land.-

Should Paddy, Sugar Cane, Beetle Plantain or Cocoanut trees be raised on any Clafs of 1 Crop Nunjah Land which

is irrigated by Tanks &c. in the Chittoor &c. Northern Talooks and Malemannoor &c. 3 Villages in the Vellore Talook, the 2nd Crop Teerwah affixed on the same clafs Nunjah Land should be affixed as follows.-

If Fuzulzasty is raised by means of Tanks, Channels &c. the 2nd Crop Nunjah Teerwah should be carried to account.-

If Fuzulzasty is raised on lands usually supplied by Tanks &c. by means of private wells, or wells of other Ryots from want of water in the Tanks, the Nunjah 2nd Crop Teerwah should be affixed of which 1/3rd should be allowed for the labor of drawing water and the remainder 2/3rds carried to account.-

For Fuzulzasty raised by means of Manawary in the Sutwait Talook, the Rules in practice during the last year should be enforced.-

If Beetle, Sugar Cane &c. that require large quantities of water is raised on any clafs of Atchoocut (Nunjah) Land in the Satghur Talook, in which Poonjah cultivation such as Raggy &c. that requires small quantities of water is usually made, the 2d Crop Nunjah Teerwah of such

such Atchoocut (Nunjah) land should be af-
fixed from which the Atchoocut Teerwah
should be deducted and the remainder carried
to account as Fuzulzasty.-

The Teerwah on Puttadah Nunjah
land is very moderate. therefore if such
lands are irrigated by Circar Tanks, Channels
or by decayed Tanks repaired by Government,
the Panchell Teerwah should be affixed,
deduct therefrom the Puttadah Teerwah and
carry the remainder to account. But in instances
in which the land was for sometime
supplied by Tanks &c and for sometime
by Wells, the Teerwah only for the number of
days irrigated by the former should be
carried to account.-

If Beetle is cultivated
on the Nunjah lands of the Arcot &c South-
ern Talooks, 1/4th over and above the Teerwah
of the land should be carried to account.
If Fuzul Zasty has been raised in the
Villages transferred from the Chinglepat
Zillah, it should be taken to account as
per Rules observed in those Villages.-

There are some Totacal lands
in the Satghar Talook denominated "Haub-
Bagauyet" which bears a small Teerwah
and

and is capable of being cultivated with
Chillies Tobacco Brinjall, Natragy, Cholum
&c but instead of these if Nunjah produce is
made by Tank irrigation, the Teerwah should
be fixed according to the Nunjah land in
its vicinity, of which the Teerwah of the land,
Haut Bagayet, should be deducted and
the remainder accounted for under Boga-
-zasty.-

The cultivation of Plantain,
Saffron Tobacco &c in certain Totacal
lands in Sutwaid Talook bears a high
Teerwah, other land again cultivated with
Onions Garlic &c bears a low, therefore if
produce of the sort subject to the high
Teerwah is obtained on land subject to the
low Teerwah the former should invariably
be affixed; deduct therefrom the latter and
carry the remainder to account under Boga-
-zasty.-

Thus all Fuzulzasty should
be carried to account in the manner above
directed, but in instances where the Teerwah
of the land on which Fuzulzasty occurs, is
higher than the Fuzulzasty Teerwah itself
the former should be taken to account and
for all Poonjah, Nunjah, and Totacal Fuzul-
-zasty raised in the Villages transferred
from

from Chinglepat, the Teerwah should be affixed according to that to which they were subjected while attached to that Zillah.-

Para 6 The following are particulars of the mode of levying Teerwah for cultivation raised on Porumboke lands situated in the bed of Tanks &c.-

For all cultivation on Porumboke lands situated in the bed of the Cauverypauk Tank which belong to Airy and Poolvurry &c. Villages the usual practice should be observed, but cultivation raised on lands in other Villages which were not assessed up to last year, the Teerwah should be affixed according to that fixed on lands of a similar kind calculated upon the nature of the irrigation by which it was watered and the description of the lands in its vicinity.-

For all water Melon cultivation raised on assessed land, the Teerwah should be levied as in last year, but if raised on unassessed lands, the Poonjah Teerwah should be applied, calculated on the nature of the Land in its vicinity and the irrigation with which it was supplied.-

No

Para 7- No remission for Boga-
-nusty should be granted to any Ryot of the Northern Talooks (Sutwaid excepted) and in Malemannoor &c. 3 Villages in Vellore or in the Villages transferred from Chinglepat, if he has raised only 1 Crop in his Putsaut 2 Crop Nunjah Land irrigated by Tanks and Channels while he had the means of supply. On the contrary should this have occurred from a want of water in the above sources remission should be allowed. The Teerwah in Sutwaid being generally small Boganusty remissions should in no case be allowed.-

Para 8. Ryots are bound to cultivate both the 1 and 2 Crops in 2 Crop Nunjah land irrigated by means of Wells, therefore, should any Ryot raise only 1 Crop and neglect the other no Boganusty remission shall be granted, but if a 2nd Crop has been obtained on 1 Crop Nunjah Land, Boganusty should not be carried to the Jumma.-

Para 9. Due enquiry should be made to ascertain the extent of Land left Sharepooldy by any Ryot while having the means of supply, a Moochilkah should be obtained from him and the extent of such

Land ploughed but left uncovered

such Sharepooldy should be carried to account, but if such occurred not from neglect but from actual want of water, remission should be granted. And if any portion of a Stull has been left Sharepooldy and the other portion cultivated the Rules prescribed for Stullacummy should be observed and enforced.-

Para 10- If a portion of a Stull only has been cultivated and a portion not owing to the badness &c. of the soil, the Rules prescribed on this subject in the 1st Para should be attended to, but should such have occurred on a Stull perfectly adapted to cultivation the Teerwah should be applied as follows.-

Viz: If 3/4 of a Stull was cultivated and the other 1/4 left uncultivated, full Teerwah should be carried to Account. But if any thing within 3/4 of a Stull was cultivated and the remainder not from sufficient cause Teerwah on the extent actually cultivated only should be taken to account and remission allowed for the rest.-

Ryots

Para 11.- Ryots who have obtained lands on Cowl are in the practice of cultivating a portion only and neglect the remainder just as it suits their purpose and at the period when (as per conditions of the Cowle) the full Teerwah is payable to relinquish them, but Teerwah according to the terms of the Cowle should be invariably carried to account whether the lands are cultivated or not.-

Para 12 If any Ryot wishes to cultivate Sheigal Bunjer, Salver Bunjer or Anody Bunjer + Putcut land, a Cowle will be allowed him according to the Rules of the cultivation Hoobkumnamah, but sanction from the Hoozoor must be first obtained.-

13 In accordance with the orders of Government a remission of 12½ per Cent for all the surveyed and turm assessed lands in the Talooks North of the Palar should be allowed, but none for the lands in the Talooks of Arcot Vellore, Trivattoor, Poloor, Wandawash and Sutwaid.-

14 Teazgawry remission as

+ Waste of the preceding 1 or 2 years.-
# Annual waste or waste from the preceding 4 or 5 years.-
+ Immemorial waste.-

as per conditions following should be al-
-lowed at the rate of 10 per Cent for cul-
-tivations made by Bramins or Mussel-
-men in the Talooks of Arcot, Vellore,
Trivattoor, Poloor and Wandiwash.-

Remission at the above rate
is to be given for cultivation made by
Bramins and Mussulmen or for them by
their own people and ploughs but should
they only obtain Puttahs for lands in
their names and have them cultivated in
partnership with Soodras the full Teerwa
for the extent occupied by the latter should
be taken to account and remission granted
for the extent raised by the former, and this
is to apply also to lands allowed on rent
to Soodras- but when the lands are let
on Warum, the Bramins &c are entitled
to the usual deduction of 10 per Cent.-

15. Dusbundum Tanks and
Channels are in some Villages constructed
by Ryots in the hope of enjoying 1/4th of
the cultivation raised under the former
irrigation and 1/5th of the cultivation raised
by the latter irrigation, this should accord-
-ingly be allowed, but it should not be ex-
-tended to lands which were formerly
irrigated

irrigated by Wells &c and which are now
flooded by the new Dusbundam, Tanks or
Channels nor for Monegars &c service lands.-

16. The fixed Jodee on all
Polwadahs attached to the Tripatty Talook
(those lapsed to Government excepted) should
as usual, be taken to account.-

17 The usual Putcut Tope-
-adayem Beriz should be carried to account
and where such depends on annual rent, the
proposals made by individuals for the same
with their security should be sent to Hoozoor
and the instructions therefrom acted upon.-

18.- The Putcut Tank fishery
Beriz should be carried to account as was
customary till last year, but in instances
where it is rented out yearly, the proposals
made by individuals for the same with
their securities should be sent to the
Hoozoor and instructions therefrom acted
upon- and from the whole of the aforesaid
Beriz that of the Dehaut Enam Villages
Dessawn Villages and the restored
Villages should be deducted, carrying
the remainder to account under the head
of Sundry Small Farms and Licenses as in
last

last year.-

19- All Jodee on Manieam lands with the exception of Cuttuddy-Enam in the assumed Pollams and Dus-bundum Enam lands, should be carried to account according to Mamool, and of the cultivated lands allowed as Cut-buddy Enam in the assumed Polams 1/3rd of its Jodee as per Pollam Cuttuddy and ½ of the Jodee as per Stulla Cuttuddy should be carried to account as usual and of the lands cultivated by Dusbun-dum Tanks and Channels the usual remission should be allowed, Viz. 1/10th for the cultivation made by the former irrigation, and 1/5th made by the latter, and teerwah being affixed for the re-mainder a deduction of 12½ per Cent should be made therefrom, and the re-mainder carried to account under the head of Dusbundum Jodee as in last year.-

20- As Manyems are allowed under Dusbundum Tanks and Channels, enquiries should be made to as-certain whether lands have been irrigated by Wells &c. in consequence of such Tanks and Channels being

being out of repair, or if Dusbundum lands only had been cultivated by the irrigation of Wells &c. by leaving the Circar lands waste, and the matter reported in detail to the Moozer for instructions.-

21- The tax on all individuals carry-ing on trade &c. under the denomination of Motarpha, should be affixed, as in the last year, and that on those recently engaged, should be in accordance with the tax pay-able by those engaged in similar traffic, cal-culated from the date each individual was so engaged. Those who came under the Motarpha Province in last year, calculated from the date they commenced their business are in the Current subject to the payment of full tax which should be accordingly collected and carried to account.-

22- The Beriz of Villages granted for 1, 25 or 30 years, that of lands granted on permanent Pattah of Shotrum Villages of Assumed Pollams and of Rajahandoo Manyem lands should invariably be carried to account according to the terms on which they are held.-

During

last year.-

19- All Jodee on Manieum lands with the exception of Cutbuddy-Enam in the assumed Pollams and Dusbundum Enam lands, should be carried to account according to Mamool, and of the cultivated lands allowed as Cutbuddy Enam in the assumed Polams 1/3rd of its Jodee as per Pollam Cutbuddy and 1/2 of the Jodee as per Stulla Cutbuddy should be carried to account as usual and of the lands cultivated by Dusbundum Tanks and Channels, the usual remission should be allowed, Viz. 5/16ths for the cultivation made by the former irrigation, and 1/5th made by the latter, and teerwah being affixed for the remainder a deduction of 12 1/2 per Cent should be made therefrom, and the remainder carried to account under the head of Dusbundam Jodee as in last year.-

20- As Manyems are allowed under Dusbundam Tanks and Channels, enquiries should be made to ascertain whether lands have been irrigated by Wells &c. in consequence of such Tanks and Channels being

being out of repair, or if Dusbundam lands only had been cultivated by the irrigation of Wells &c. by leaving the Circar lands waste, and the matter reported in detail to the Moogeer for instructions.-

21- The tax on all individuals carrying on trade &c. under the denomination of Metuphia, should be affixed as in the last year, and that on those recently engaged should be in accordance with the tax payable by those engaged in similar traffic calculated from the date each individual was so engaged. Those who came under the Metuphia Province in last year, calculated from the date they commenced their business are in the Current subject to the payment of full tax which should be accordingly collected and carried to account.-

22- The Berij of Villages rented for 25 or 30 years, that of lands granted on permanent Pattah of Shotrums Villages of Assumed Pollams and of Pajahbandoo Manyem lands should invariably be carried to account according to the terms on which they are held.-

During

Fort St. George 9th January 1813.

23. During the period of the survey Assessment and Inam Assessment in Justices 1215 and 1213 portions of Lands were deducted on account of Ryots Houses and Backyards as Gramanatum from the Village Poramboke Lands but on consequence of some of the Ryots having from various circumstances left their homes &c. the extent deserted has been cultivated and carried to account. Some of these Ryots as well as others have however again built houses &c. on such Lands and naturally solicit the permission of the Tenuah offered thereon which ought in justice to be granted In all such instances, therefore careful enquiry should be made, the matter reported in detail to the Rozgar and the instructions thereon acted upon.—

24. In certain Villages Ryots leave their usual place of abode and build on Circar cultivable Lands and on Poramboke Lands either because their former place of abode did not agree with them or with their Cattle in which they sustained loss or became

Fort St. George 9th January 1813.

it was insufficient, the prohibition of this indulgence would be discouraging. In instances of this kind therefore the extent so occupied should be measured and included in the Gramanatum Poramboke Land and the extent vacated for the aforesaid reasons should be taken to account at the same time a detailed account thereof should be submitted to the Rozgar.—

25. From a want of supplies of water from Tanks and Channels the Ryots resort to digging Wells in cultivable Lands to irrigate their Patcut Lands and such Wells are rendered useless when the Tanks &c. receive their periodical supplies no remission therefore should be allowed for Still Cummy or for the portion of a Still on which Wells were dug, but the Tenuah of the whole Still should be carried to Account.—

26 If Nunjah Cultivation by means of private Wells be raised on Manyam Ponjah Land granted to Monigars Curnums and Notagars, no Fuzulgassy should be carried to account if on the contrary this has been done by the irrigation

Fort St. George 9th January 1813.

of Circar Tanks or Channels, Fuzulgasty should be taken to account. In all Villages where after the Nunjah Cultivation has been paised to the extent in Fusly 1232, 2 crops Nunjah has been made on 1 crop Nunjah Manyam lands by means of Tanks or Channels, Fuzulgasty should not be carried to account, but where such has been done by leaving Cultivation below that Cultivated in Fusly 1232 Fuzulgasty should be taken to account.—

27. The Murahs allowed to Monigars Curnums and Notagars for part of the Jeerwah and to which they are entitled as usual up to Fusly 1211 (Tabelo time) and Fusties 1211 and 1212 the period the Country is vested to Government, the amount of Murah payable in each Village, should therefore be deducted as in last year from the Jeerwah but should any difference occur in the Murah so deducted, it should be made known to the Honjoor.

28. Enquiries should be made in the Villages where Mamool Tarapady is enjoyed to Monigars, Curnums and Notagars and all differences arising in the Indulgence

Fort St. George 9th January 1813.

indulgence should be reported to the Honjoor.

In Villages where Damashage Enam is contained, 10 Cawnies out of every 110 Cawnies cultivated in the Current year should be taken of which Enam according to each Officers share should be deducted and the remainder carried to account, but if the deductions so made rise higher than the Mamool Tarapady Enam the Mamool Tarapady Enam alone should be allowed, and if the deductions falls short of the Tarapady Enam the Enam should be on Damashage or 10 from every 110 Cawnies of land Cultivated.—

29. The Puttahs given to Ryots should contain in detail the number and extent of Stalls with their Jeerwah but the Moochilkas may be made to exhibit in Abstract the number of Stalls Cawnies and Jeerwah in each description of Cultivation, Viz. Poonjah Nunjah and Totacal, and the balance remaining after deducting Ayacut. The entries to the Moochilkahs must be among the Ryots themselves.—

30 A detailed account of the extent of Poonjah and Nunjah land—

Continued

Fort St. George 9th January 1843.

continued as Jaree Maryam on the pre-
sent year to each of the Desham
Villages in the current year where
Ceremonies were not performed should
be sent to the Mogoor.-

31. The indulgence of Nulla Cut-
-tabuddy and Pillam Cuttabuddy is allowed
in Yadoorendah Pollam and in Perumay
and Satghur Talooks. If Cultivation is
therefore made on such lands, by others
than the holders themselves (from reasons
of death or otherwise) of the land holders'
Statement of the Extent in Poonjah and
Nunjah &c. to be cultivated in each Village
individually with the Jeenwah and the
Amount of Sogee affixed thereon should be
sent to the Mogoor.-

32. Should there appear any
modifications requisite in the foregoing
instructions, it is expected that the same
will be communicated for instructions to the
Mogoor.-

Ordered to lie on the
Table.

Order thereon.

20-21

Fort St. George 9th January 1843.

Read the following letter.

To

J. D. Bourdillon Esqre
Secretary to the
Board of Revenue
Fort St. George.

22

From G. D. Drury Esqre Officiating Commissioner of Madura ---------- Submitting a proposed Moyenzabitah of Servants for the Management of the Ramnad Zemindary in Madura.-

Sir,

1. With reference to your letter dated 15th Ultimo, I have the honor to recommend for the sanction of the Court of Wards, that Syed Esmail may be appointed to be the Manager of the affairs of the Ramnad Zemindary, which was committed to the care of the Court on the 22d October 1842. This person held the situation of Head Tahsildar of Ramnad &c from February 1822 to July 1828 for the period of 6 years and 6 Months, and from his knowledge of the Zemindary and its inhabitants, and from his acquaintance with the Zemindar's family, I consider him to be a fit and proper person to undertake the Office of Manager.-

2. The Public services of this person during the period of 21 years and 7 Months were brought to the notice of the Board of Revenue by Mr. Vivash, and the Board were pleased to express an opinion in favor of the claims of Syed Esmail to be employed again in an eligible situation.-

To the Board of Revenue dated December 17th 1832. From the Bd. 7th January 1833.-

3. Under Clause Second, Section XI of Regulation

Regulation V. 1804. I beg leave to recommend that an allowance of Rupees 280 per Mensem may be granted to the Manager, being the same allowance which was granted to the Head Sahsildar of Ramnad, when the Estate was held under attachment, and the Court may not consider this an inadequate compensation for the trouble of managing 13 Talooks, and for the responsibility of a trust, which, it may be observed, is rendered the more arduous by the discord which at present prevails in the Zemindar's family.

4. In nominating the Establishment requisite for the administration of the property in trust, care has been taken to render it efficient and to avoid every unnecessary expence, and I beg to submit the accompanying Moyenzabitah which has been prepared in communication with Syed Esmail for the approval and confirmation of the Court of Wards, amounting to Rupees 3337. 14. - per Mensem, and annually to Rupees 39994. 8. - and inclusive of the Manager's Annual Allowance, of Rupees 3360. - - to the total annual sum of Rupees 43354. 8. -

5. Arrangements have already been made by the Principal Collector for regulating different establishments both for the household of the Minor Zemindar and her family and for the management of the estate, which have not been submitted to the Court of Wards. The enclosed Documents are Copies marked A B and C.

J

of the list of these Establishments and of the orders issued by the Principal Collector respecting them under the dates 25th and 29th of November 1842.

6. Until the appointment of the Manager now recommended is confirmed by the Court of Wards, no alteration could be made in these arrangements without throwing the affairs of the Estate into confusion. In the meantime I beg to submit a Memorandum exhibiting the difference in the nature and amount of the establishments as they have been provided, and of the Establishment now recommended for the sanction of the Court. A sum equal to ten per Cent of the permanent Settlement will be allotted for the support and education of the Minor Zemindar, and of such part of her family as may be entitled to maintenance at her expence. This per centage Amounts to Rs 33156 8 8 per Annum, and will be paid Monthly at the rate of Rs 2700 - -

22

Gross Revenue - - - -	4,97,348	4	-
Permanent Settlement - -	33,156	8	-
10 per Cent per Annum -	33,756	8	-
Monthly payment	2,700	-	-

- - When the Manager receives his commission of Management, the charges incurred for the provision of the dependents of various descriptions will cease.

7. Measures will be taken to provide for the superintendence of all endowments allowed in the Zemindary for the maintenance of the Native Temples and Charitable Institutions which will be submitted for the final confirmation of the Court. The person selected to be manager has been furnished with a Copy of Regulation V of 1804 and it seems necessary for me to suggest that the Court of Wards will be pleased to issue its injunctions that the Provisions of this Regulation shall be strictly attended to, so that under the sanction of Public Authority, secure and efficient means may be established to prove the property of the Minor.

8. The selection of the Guardian of the Minor Zemindar will be reported to the Court, as soon as a fit person can be found, who is willing to execute the Office.

Madura
3d January 1843

/ Signed / G. D. Drury
Commissioner In charge
Moyenzabitah

Fort St. George 9th. January 1813.

Commissioner In Charge.

The

Resolution thereon.

(22-23)

The Court of Wards approve and confirm the nomination of Syed Esmail to be Manager of the Ramnad Zemindary under Section VIII of Regulation V of 1804. The Commissioner will be pleased to fulfil the provisions of the same Regulation, and then deliver to him a Commission of management as prescribed in Section XI. he will also, agreeably to Section XII commit to his care all the real and personal property of the Minor and take measures for the due enforcement of the Regulation generally.

The Mayenzabitah which accompanied the above letter is under consideration and the Court will communicate their orders upon it in a few days.

Read.

Read the following letters.

from the Principal Collector of Coimbatore having reference to certain Proceedings held against the Acting Head of Police of Erroad Talook, and reporting his removal from Office.—

September 6th 1842 No. 52.
November 26th 1842 No. 86.

In Cons 12th Sept. 1842
22d Dec.

(24)

Proceedings declining to sanction the removal or degradation of Beem Row acting Tahsildar and Head of Police of Erroad Talook in the District of Coimbatore for certain abuse of authority & directing that he be replaced in charge of his Talook also noticing the very hasty & incomplete character of the Asst. Magistrate's investigation of the Case.

Letter 26th Nov. Para 2.

1. The Head of Police is charged with gross abuse of authority. He was tried before the late Acting Head Assistant Magistrate under Regulation III of 1839 and fined 35 Rupees. The charge was founded, to use the words of the Principal Collector "on the accusation "of his having recalled a Criminal case which he "had disposed of and actually forwarded to the "Zillah Court of Salem and which he subsequently "permitted to be compromised."—

2. The precise nature of the charge, the particular acts which were considered to constitute the "gross abuse of authority" are not shown either in the two letters from the Principal Collector or in that from the late Head Assistant Magistrate to himself. The record contains matter involving

involving a charge of receiving a bribe to permit the compromise but it is not to be learnt from the Principal Collectors letter whether the offence for which the Defendant was punished includes that, or whether it merely consists in the admission of the compromise - The Board will proceed to consider the case however as they find it in the record -

3. In april last, eight persons all of one family in the Village of Elavanalay were seized and sent to the Acting Head of Police by the Village Curnum charged with severely beating the Moonsiff - The case was investigated and being proved was about to be sent to the Criminal Court. but was stayed, and a report made to the Magistrate that the parties were willing to agree; and the Magistrate having allowed it, a razeenamah was admitted - subsequently three Peons who had been removed from this Talook to another, stated in a Petition to the Principal Collector in which they charged the acting Head of Police with injustice in procuring that removal, that the said acting Head of Police had dispatched the case above detailed to the Criminal Court and then recalled

† April 21

Dated 18th day of the year Soobacrut Corresponding with June 30th 1842.

recalled it - This charge was referred to the acting Head Assistant Magistrate for investigation, and in his enquiry it was stated by some of the parties that money had been given to procure the compromise -

4. As to the receipt of money by the Defendant, the act is totally destitute of proof, it is not supported by a single witness - Of the translated papers sent up by the Principal Collector the payment of money is mentioned in depositions 8-9-10-12-13 and 16. But not one of these witnesses had any personal knowledge of it, all declare that (as they were informed) it was demanded by and paid to the Curnum and Moonsiff; and only two (9 and 10) say that they were told that part of it went to the Defendant - There are many discrepancies too in their statements as to the details of the payments to the Curnum and Moonsiff, shewing at least that they knew very little about the matter -

5. The persons stated by most of the above to have paid the money to the Curnum and monigar were Chinnammaul the wife of the chief Prisoner and Nanjen his brother, the latter was not examined, the former was, but though so material a witness, her deposition is not translated - She says that when she went to see her husband, sons and

and other relatives at the Cutcherry, they offered the Curnum to pay 5 Rupees each rather than go to the Court, that he agreed and that she, together with Nunjen, accordingly paid 7 Rupees to the curnum and Mongar, that the prisoners were then set at liberty except her husband who was released some days later. She makes no mention whatever of the Head of Police and concludes her statement with a complaint of the curnum and Mongar for thus "unjustly receiving money from her"—

6. The Curnum Ramachendreen and Mongar Sidasiwien totally deny having received any money for the Head of Police, but the latter states that after the enquiry was completed, the Prisoners offered to pay him 10 Rupees on account of the wound and beating he had received; that 7 Rupees was accordingly paid to his brother at the time by Chinnammaul, on which he gave a Razeenamah and the parties, except Vellia Counden, were immediately released, and that Vellia Counden (husband of Chinnammaul and the chief Prisoner) afterwards gave him a heifer in payment of the remaining 3 Rupees. All the circumstances of the case concur to convince the Board

Board that this is the real account of the transaction. It is traceable in the statements of the other witnesses especially the chief ones Chinnammaul and Vellia Counden, and their evidence is a good illustration of the mode in which cunning but ignorant persons in this Country are so much accustomed to garble, truth with falsehood in making a false accusation. added to this are the prima facie and abstract probability of Sidasiwien's account; the evident candour of his statement his superiority in general character and credibility over the opposite witnesses; and the absence of any assignable cause, why he should forswear himself in this case. and it is also to be remembered that whether he did so or not, there is not a shadow of evidence in the record to affect Beem Row.—

7. As regards the recall of the case, after it had been actually closed and dispatched, for the purpose of admitting a compromise, the Board observe in the first place, that even if that were proved, they should consider it an extremely venial offence, and little more indeed than a mere error of form. But they are of opinion that such was not the fact. The witnesses to this point

point are 2-3-5 and 10, the first three are Peons, the last is one of the Prisoners. The 3d and 10th say that the parties were despatched, and went about half a mile, before they were recalled; the 2d says that they went out some distance; the 5th that he was told so. Their evidence is contradicted by 8, 9 and 13, who say they were only taken outside the Cutcherry; and more decisily and importantly by 11, 12, 14, 16, 16. and 17, who were all parties to the case, and who declare positively that they did not set off or leave the Cutcherry; the meaning of these latter witnesses is probably the same as that of the others (8, 9. and 13) the word Cutcherry being used in the one case to signify the examining room, and in the other the whole premises.—

8. After carefully weighing all the evidence and circumstances the Board find the fact as follow. That the examination of the case was completed, and the Head of Police intended to send it to the Criminal Court, but that as the complainant proffered a Razeenamah, he stayed it and made a report to the Magistrate, soliciting permission to receive the Razeenamah, releasing at the same time all the prisoners except Vellia Counden the principal offender, who also was discharged on the receipt of the Magistrate's reply.—

In

9. In all this the Board wholly exonerate Peem Row from blame, on the contrary his Proceedings were judicious and correct. The case was clearly one in which a Razeenamah was admissible, and the Magistrate's assent to its receipt shews that such was his opinion too. The payment of money, as compensation to the complainant and sufferer for the hurt he had received, (and whether with Peem Row's cognizance or without it) was unobjectionable, the same thing is done constantly in similar cases. The attavanay or report to the Criminal Court which is produced as evidence is of no force whatever; it shews that the Head of Police designed to send the case to the Court; in which he was right, for it was proved — But it does not shew that the case was actually dispatched, and the fact that it does not contain a list of the documents, is rather evidence to the contrary; and supports the statements of the Witness Dausapen the assistant Roysum by whom it was written — and even if the actual dispatch had taken place, the Board would still have equitted the accused, as already said, of any thing more serious than an irregularity.—

+ among the untranslated papers

In

10 In reviewing the whole case the Board are compelled to refer the accusation to interested and malicious motives. The persons active in bringing it forward so long posterior to the transaction to which it relates are not parties concerned but Peons of the Talook who had in the interval been removed to another Talook on the representation by the accused of their misconduct and neglect of duty. Their own statements, even admitting them to be true, shew that they knew but little of the matter for much of their information is given on hearsay: and their animosity against the acting Head of Police is manifest. Their object was twofold, to avenge themselves on the author of their punishment, and to recover their lost situation. it is to be regretted that the former has so far prospered, but it is hoped that the latter has not been attended with success. The charge having been thus brought forward it is not surprising that the Prisoners in the assault case, all of one family as they were, and still harbouring hostility against the Moonsiff (for the affray was not a mere accident but

but the result of an old and permanent quarrel) should fall into the views of the accusers in the hope of rendering the occasion subservient to their revenge or their adversary.

11 After the foregoing expression of their sentiments it is almost needless for the Board to add that they cannot sanction Mr. Wroughtons recommendation for the removal or degradation of Beem Row. They are of opinion too that he has been unjustly subjected to fine and though it does not lie within their province to direct the return of the fine they recommend it for the Magistrates consideration. They desire that Beem Row be immediately replaced in charge of the Errode Talook, and as Mr. Wroughton has committed a breach of the orders of Government in keeping him "acting" so long he should now be permanently appointed.

From Govt 19th May 1835 Para 6. Jud Cons 28th "

12 The Proceedings against Beem Row were in the Magisterial Department and as such were not within the cognizance of the Board. It was necessary however in exercising the power entrusted to them of controlling the dismissal of Tahsildars that the Board should go closely into those Proceedings and they have done so in the foregoing paragraphs. and they cannot conclude their

their remarks on this case without noticing the very hasty and incomplete character of the Head Assistant Magistrates investigation of it. In addition to passing sentence on most inadequate evidence as already pointed out, he neglected to take a great deal which was available and would have been valuable. The accusing Peons whose testimony was rendered justly liable to suspicion by their circumstances were examined, though only partially present, but the two Peons stated to have been ordered to take the parties to the Court, were not examined, nor were the other Peons of the Talook known to have been present during the transactions under question, nor was the Duffadar Timul Naick although he was the responsible person, the one most likely to be acquainted with the facts and the one from whom some of the informing Peons profess to have derived their information. The accused in his defence requested that the Talook Sheristadar and other public servants of the Cutcherry might be examined. It was due to him to take their evidence, and even if he had not cited them, they ought to have been examined as being certainly competent and knowing witnesses yet they were not called upon.

upon. He also offered documentary proof of the misconduct of the accusing Peons, showing their enmity to him and its causes, but this too was wholly neglected. Lastly it is to be inferred from a comparison of the dates of the depositions of the Complainant and witnesses and of the Defendant, that the latter was not present during the examination of the other parties; and it appears from his deposition that the complaint only, and not the evidence was read to him. Thus he was denied both the right of calling witnesses himself, and of cross questioning those who gave evidence against him or even becoming acquainted with their statements.—

Ordered that copy of these Proceedings be transmitted for the information and guidance of the Principal Collector of Coimbatore and that transcript be also furnished to the late acting Head Assistant Magistrate Mr L. T. Arbuthnot.—

Read the following letters.—

(25)

25

From W. Conolly Esqr. Collr of Malabar Reporting the payment of

To J. B. Bourdillon Esqre
Secretary to the Board of Revenue
Fort St George.

Sir

With reference to the Extract from the Minutes of Consulation under date the 17th September

Fort St George 9th January 1843.

Compensation to the Todas for Fusslies 1250 & 1251 defining the natural limits of the land actually in the occupation of the Todas referring to former letter for the delay in steps being taken for the education of the Todas, and stating that the rumour regarding the existence of female infanticide is not correct.

September, forwarded with an Extract from the Proceedings of the Board of Revenue of the 17th October last, I have the honor to inform you, that on a late visit of a few days to the Neilgherry Hills, I obtained the consent of the Todas to substitute words exactly answering to "compensation" for the term "Goodoo" used in the contract drawn up with them in 1840, and that under that consent, I paid them in my own presence the indemnity allowed by Government, for Fusslies 1250 and 1251, Viz. 300 Rupees, leaving the question of arrears to be settled when I am favoured with an answer to my reference of the 4th Ultimo.—

2. With reference to para 6 of the Extract from the Minutes of Consultation under acknowledgment, I beg to remark that the land "actually in the occupation of the Todas" on the Malabar Neilgherries has been previously defined to be the Sub-division of Toonad, known by the name of Melnaad, and that its natural limits may be sufficiently described for all practical purposes, as follows, the Dotacamund or Dutabettah range on the East, the Pyacarie River on the West, the Segoor range of hills on the North, and the pasture hills adjoining the cultivated ground in the direction of Mailure to the South. These limits

See letter from Bd of Revr to Govt under date 24th Septr 1835 Para 3.

An Exact definition of the limits shall be made by one of the Survey ars attached to the Division as soon as he can be detached from more emergent duties below.—

1843 No 9

From Secy to Bd of Revr dated 11th March 1830.
Do Do Do dated 4th April 1839
To Do Do dated 27th June 1839.

limits were, I know, considered in former years to stretch much further to the west, but the correspondence in the Government records noted in the Margin shews conclusively to my mind, that the line I have now drawn in that direction is the correct one, and that the East side of the Pyacarie river, must be considered the property of a Malabar Chieftain. The Board are probably aware that this side of the Country is only frequented by the Todas at certain seasons, their more fixed residences being on the west side of the river.

3. With reference to the 7th para of the "Minutes" I would beg to refer to my letter dated 9th December 1840, shewing the reasons which have hitherto prevented any steps being taken for the reduction of the Todas. I have by no means lost sight of the subject, and will not fail to address the Government when I am able to bring forward any feasible plan for effecting this object.—

4. With reference to para 8 of the "Minutes" I beg to state that the best enquiry I have been able to make leads me to hope that the "rumour that the practice of female infanticide still continues to be observed" is not correct. A reference to the Census of the Toda female population taken in 1836 and 1841 as shewn in the Margin would indeed go far to overthrow any such supposition.—

	Men & Women	Boys & Girls
