Fort St. George the March 1843.

Diary.

24th March.

From the Pl. Coll.r of Coimbatore: Received letter requesting

(1) an extension of 15 days leave to that granted to him in the Fort St. George Gazette of the 4th Instant.

Order thereon Ordered to be submitted through the channel of the Civil Auditor for the favorable consideration of Government.

(1-2)

24th Received the following Extract

From the Sy. to Govt. } Extract from the Minutes of Consultation under date the 23d March 1843.

Read the following letter from the Acting Secretary to the Board of Revenue.

(3) Submitting a correspondence with the Principal Collector of Canara, and recommending for stated reasons that sanction be granted for destroying a quantity of Tobacco sent for from Madura in Fasties 1246 and 1247 for A.D. 1836/37 — 1837/38 monopoly sale in that district, and for writing off in the accounts its actual cost being Rupees 3,029 11-2. also recommending that sanction be granted for writing off the wastage for Fasly 1256 Cumbd to A.D. 1846/47 amounting to 14-6-7- 23-2-0.

(Here enter 2nd March 1843 — No 97.)

As Mr M. Lewin appears to be

be the Collector who ordered the Tobacco — the Most Honorable the Governor in Council desires that he may be called upon thro' the Board of Revenue for an Explanation of the circumstances under which he acted.

The Board will forward a copy of foregoing letter with the correspondence on the subject, to Mr. Lewin.

(A true Extract)

Read the following Extract from the Minutes of Consultation in the Marine Department

Transferring to the Revenue Department a Dispatch from the Honorable the Court of Directors, respecting the Teak forests situated within the limits of this — Presidency.

(Here enter 18th February 1843 No. 57)

Para 1. Ordered that the Dispatch received,

Systematically

Fort St. George 27th March 1843.

received with the foregoing Extract be transmitted to the Board of Revenue for their information and for the purpose of being communicated for the information and guidance of the Collector of Malabar.

2.

It is observed from the Resolution of the 5th January 1841 No. 47, Communicated to the Honorable Court with the papers accompanying para 7 of the Revenue letter dated 1st October 1841 No. 40 that the suggestion conveyed in para 3 has been in some measure anticipated, by the temporary appointment of Mr. Smith Sub Conservator of Forests in Malabar, and under the views expressed by the Honorable Court, His Lordship in Council will regard Mr. Smith's appointment permanent, so long as the duties entrusted to him are performed with efficiency.

3.

The works on Arboriculture promised by the Honorable Court in the concluding para will, on receipt, be forwarded to the Board, for transmission to the Collector of Malabar.

No. 10 of 1842.

Our Governor in Council.

at

Fort St. Geo

Para 1.

Annual letter dated 31st January 1840. No. 3 para 25. Secretary's letter dated 23 October 1840 No. 52 27 — No. 54.

The correspondence noted in the Margin respecting the Teak forests situated within the limits of your Presidency has been transferred from the Revenue Consideration in this Department, but as we have entered fully into the subject in our Dispatch of this day's date, No. 5, to the Supreme Government, from which you will no doubt receive such communications as may be thought necessary, there remain only one or two points, on which we need touch at present.

2.

In a Minute dated 12th October 1840, your President in alluding to the difficulty likely to be experienced in procuring properly qualified persons to take charge of the Government Teak forests observes that even in England the science of arboriculture is but imperfectly understood, whereas in Germany it is studied systematically

systematically, Schools being there established for that particular purpose. His Lordship accordingly recommends that German Foresters regularly educated for their profesion, should be procured and sent out to India.

3. We have not however thought proper to act upon this suggestion: Knowledge of the best modes of culture practised in Europe, might prove of little utility in a country where the trees as well as the climate are so widely different, and would at all events require the addition of much local information, before it could be turned to account. As therefore the Managers of the Government Forests from whereever procured will have much to learn, before they will be fully capable of discharging their duties efficiently, perhaps the best plan on the whole will be to choose the fittest persons

persons that can be found on the spot. These will no doubt possess useful information founded on personal observation and experience, and it will not be difficult for them to obtain from books a sufficient knowledge of the general principles of Arboriculture. We have been informed that one of the best treatises on the subject is a little work, published by the society for the diffusion of useful knowledge entitled "Useful and Ornamental planting." "Barlow on the strength of materials," and "Mathew on Naval Timber" may afford some additional information and an account of the chief timber trees of India, with a notice of the circumstances to be attended to in

planting

planting is in preparation by Dr. Forbes Royle. We shall transmit by an early opportunity by way of the Cape of Good Hope ten copies of each of these works. Two of them those of Barlow and Mathew are among the books applied for by Mr. Conolly the Collector in Malabar. The other three mentioned in that Gentlemans list will not be supplied as we understand they are purely botanical and incapable of affording any assistance in the Management of forests.

(6)

From the Collr. of Malabar — Submits Copies of Reports from Monsr. Perottet French Botanist, and the Head accountant Mr. Bates together of a correspondence with Dr. Wight on the subject of sowing teak seeds and replenishing the Teak forest and recommending an increase of Salary to the present Acting Sub Conservator.—

To E. C. Lowell Esqre.
Acting Secretary to the Board of Revenue
Fort St. George

Sir,

Monsr. Perottet a Botanist in the service of the French Government having landed at Calicut on his way to Pondicherry, I availed myself of the opportunity to request him to visit the tracts on which operations have lately been conducted with a view of raising teak plants and to favor me with his opinion as to the propriety of what had been, and what should be done. Monsr. Perottet not being acquainted with the language of the Country, I deputed my Head Accountant Mr. Bates who is himself a superior gardener, to accompany and assist him, and I now beg to forward Copies of Reports which have been sent me by both parties (that of Monsr. Perottets' translated from the Original french).—

From Monsr. Perottet 2/23d January/43
" Mr. Bates 27th Ditto

The Board will observe from these reports that a difficulty, which with my inexperience and ignorance of botany, I had not till lately thought of, has arisen as to the exact method of preparing the teak seed previous to sowing it in the forest with a view

view of ensuring its germination - Mr. Smith, the former Acting Sub Conservator does not seem to have been aware of this difficulty and hence no doubt is to be attributed the total failure of the 30,000 Seeds, which as mentioned in my letter of the 4th. August last, he put into the ground in May last.

Mons. Perottet it will be seen, recommends a particular process for this preparation, which I will have fully tried before the Monsoon - To ensure so far as lies in my power however, the non-recurrence of another failure which cannot be remedied for a whole year, I have thought it well to appeal to the judgement of Dr. Wight who has kindly favored me with one or two other plants which he recommends should be tried tho' as he informs me "he has had no experience of raising teak and his plans are grounded on theary and may prove as unsuccessful as what you have tried."

To Dr. Wight 23d. February 48 / From Ditto 4th. March.

I beg to append here the correspondence which has passed between Dr. Wight and myself - The detail may be considered wearisome but I feel it necessary to attract attention to it with the view of placing myself

myself in a fair position and of pointing out to the Board, that any disappointment of the hopes of Government of seeing large tracts of ground replenished with teak, will not necessarily depend on any want of vigilance and care on my part - The detail will shew I think how necessary it is to follow out the original plan intended by Government in the Minutes of Consultation dated 15th. January 1841, and again to move the Court of Directors to engage the service of some person duly skilled in the science of Arboriculture for the purpose of being employed as Sub Conservator - The present system as will be observed from the Minutes of Consultation above quoted, was avowedly a temporary one - the Collector having been directed "to look out for the most eligible person procurable" to be employed until

Note - Canara is alluded to as well as Malabar in these orders of Government but from what I understand the difficulties in that district are not so serious as they are in this - the forests are not so much denuded of teak, and require more nursing more than any thing else - It has not been yet attempted there to raise teak from seeds -

until the arrival of the arboriculturist expected from England—

The Board are well aware of all that has been hitherto pursued in obedience to these instructions—I have done all that was in my power to select the fittest, procurable Men and have given such general superintendance and aid as is in the power of a Collector, but it is now more than ever evident that higher qualifications are necessary than I allow. I at one time thought, and that success can only be rationally looked for in what it appears is a hitherto untried experiment, at the hands of a person thoroughly educated in this particular art.—

In making this observation I have not the slightest wish to reflect on the present Acting Sub Conservator Mr. Graham, who I find a very painstaking and excellent person—Nothing can exceed the assiduity with which he has worked so far as his knowledge has enabled him—He has, as will be seen by Mr. Bates' report (and I have since then been a personal witness of his labors), been very active in

improving such teak plants as are to be found scattered among the Government forests—and he is also busily occupied in trying various experiments with the view of rearing teak in different ways. In fact so greatly has he exerted himself in what is certainly a most trying and arduous post involving as it does from the necessity of constant exposure to the sun and jungle, no slight risque of health, that I am induced to recommend that he be allowed the full

full amount still unappropriated

Amount allowed for an acting Sub Conservator —	Rs.	150
Salary of Mr. Graham the present Acting Sub Conservator under the orders of the Board of Revenue 24th October 1842	Rs.	65
Ditto of 4 native Overseers		35
		100
Balance Unappropriated Rupees		50

of the Salary fixed for the Acting Sub Conservator as shewn in the Margin a reward which will I doubt not stimulate him to continued exertion.

Calicut
10th March 1843

/Signed/ H. V. Connolly
Collector.

P.S.

I shall of course avail myself as far as is practicable, of all the suggestions furnished by Monsr. Perottet. The nurseries he alludes to and deprecates, were formed for the purpose of trying experiments.

No. 1

To

H. V. Conolly Esqre.

Wcn. Ycn. Wn.

Sir,

In informing you of the desire I had to explore the upper banks of the Calicut river you begged me to give you my opinion on the subject of the Teak forests which exist in those parts and inform you whether the means hitherto employed for their conservation were rational and conformable to the rules of arboriculture. On my return from the excursion which I made in company with one of your public servants Mr. Bates, I beg to acquaint you in a few words with the result of my examination as also my opinion on what should be done for the future. The bad weather we experienced prevented our seeing many of the forests but what we did see was enough to enable me to form my opinion as to what had and what should be done with regard to their preservation and increase. Every where I remarked that the trees which constitute these forests were mutilated by the people living in their neighbour-hood. Whenever these men are in want of a piece of wood for the handle of a work tool, or any other purpose they go and

and procure it for themselves in the woods, cutting at random and without any precaution, from whence it follows that the trunk thus mutilated shoots again with difficulty and the shoots produced are crooked and stunted.

It would be useful then, before undertaking any thing else, to surround the forests and the grounds you wish to appropriate for new ones, with a slight enclosure and to charge the Kotwal of each neighbouring Village with the care of them. The teak trees appeared to me to flourish every where and in all soils. they grow however, more quickly and become finer in solid rich soils and particularly in the vicinity of rivers, the latter also greatly facilitate the carriage of wood. as to the Nurseries proposed to be formed in separate ground for the purpose of raising plants to replenish the forests or make newe ones, it is in my opinion a ruinous system and one which will never fulfil the end proposed. You will comprehend that the care of a forest cannot be compared to that of a garden, nor even to that of an Orchard, the attentions requisite for forest trees are those which nature-

nature herself points out. thus, it is by sowing good seed in moist earth that we re-establish forests, or form new ones. but to obtain this result it is necessary to proceed in a particular manner. here is the method I would propose. as the Embryo of the Teak seed is clothed with an exceedingly hard husk, in order to hasten its destruction, the seeds should be stratified before they are committed to the Earth, either in boxes or in a damp warm soil sheltered from the rays of the sun. This stratification is effected as follows. You place at the bottom of a box, or any large Vessel, a a bed of good earth composed of vegetable manure of about two inches in depth in this first bed you strew a layer of seeds that is to say a bed of these seeds very thickly strown. then a new bed of earth, above that another layer of seeds, and thus successively until the box or Vessel is filled. however you must take care that the receptacle is not too deep that the seeds at the bottom may not rot. The soil must be watered often, and must remain in this state until the germination of the seeds, that is to say, forty days. By making this stratification before-

before the rains the seeds can be sown in the forests at the commencement of the monsoon, and thus the young plant will have the benefit of all the rainy season, and acquire sufficient strength to resist the succeeding hot weather. The following is the way to sow the seeds. You must take a number of workmen proportioned to the quantity of seed you have to sow; each of these men will have a narrow hoe and a bag fastened round the body containing a certain portion of the stratified seed and walking thro' the forest, they will make in every place that seems suitable a hole of from 1½ to 2 inches at the deepest in which they will place two or three seeds slightly covering it with a small portion of earth with one foot, this operation which should be very quick must be superintended by an intelligent and skilful person, who must pay the greatest attention to see that the people do what they are told; this plan seems to me the most reasonable, the easiest and the most likely to succeed there is another method still shorter for multiplying teak trees in the Forests where they exist and it is

that I think which nature has given to this tree to perpetuate itself, since the seeds I may observe by the way are rarely fertile. It is by re-production from the roots. In fact I have remarked wherever I have seen Teak trees that from their roots, and especially from those that were cut close to the ground young trees were produced; that is to say that from some points of their roots straight and vigorous shoots sprung forth. We should profit then by these means which nature points out by going into the forests, slightly uncovering some of the roots, and cutting them in some places in order to cause the development of more shoots, we should thus in a short time have trees of handsome growth. Another precaution which I would wish to see taken in this country for the preservation of forests, especially those of Teak, relates to the cutting of trees. Instead of barking, mutilating and hacking the foot of the trees as is done now at pleasure, I would wish on the contrary that they should be cut with care and as close to the ground as possible; for this reason I have said above that the Teak shoots very willingly from

its

its roots, well by cutting the tree in question smoothly and with a good hatchet you would ais a first result see springing from the circumference of the cut (which would be made slanting or like the mouth of a flute to facilitate the running off of the rain) several suckers, of which you would only suffer the strongest and straightest to grow, and as a second you would have fine trees and abundance of them. In the attainment of this end it would suffice to employ at the felling of these trees an intelligent man capable of comprehending this physiological fact. Thus I sum up my views. To surround the forests with a slight fence, solely to shew that it is forbidden to enter them. 2nd to render the Tahsildar responsible for any injury done to the Forests situated in his district. 3rd To abandon altogether the system of Nurseries which cannot be otherwise than ruinous to the Company without any ulterior result. 4th To sow good seed which has been previously stratified. 5th To uncover and lop the large roots here and there to oblige them to throw out new suckers. 6th To have the fellings of the trees conducted by an intelligent man. In addition, have

these

these forests as near the means of transport as possible.

Such, Sir, are the thoughts — I am enabled to give you on the preservation and propagation of the Teak forests in this country. I regret that my departure obliges me to furnish you with them in a hurry, but if you wish for longer details it will give me real pleasure to send you them from Pondicherry whither I am going.

Calicut ——— 25th January 1843.

(Signed) S. Perrottet.

P.S. Care should be taken in sowing the seed that the holes be at the distance of about 6 feet from each other. The trees finding themselves thus near one another, shoot more perpendicularly without throwing out lateral branches when they exist, divert to their profit, and consequently to the detriment of the principal stem the juices and nutritive matters furnished by the earth and the surrounding air.

It is absolutely necessary if you would obtain trees straight and of single growth

growth to cut those lateral branches which develope themselves all along the trunk from the ground to the summit of the tree. You should in this operation, employ intelligent men, who will cut off every branch very smoothly to the height of about 20 feet. I would moreover recommend when the young plants produced by sowing in the forest, have attained the height of between 1 and 2 feet, to cut away all the brambles and trees of other kinds which at first were necessary to shade these seedlings in order to procure them air and light elements thenceforth indispensable to the progressive development of these trees. these precautions are quite necessary; they are taken in all European Countries, where forests are an object of public utility and of private revenue. It will appear from this detail how necessary it will be to have in this County, a man instructed in vegetable Physiology and Arboriculture however I presume that Mr. Grahams, at present charged with the superintendence of the forests can follow out the hints I have here enumerated.

No. 7

To H. V. Conolly Esqre

8cd 8co 8co

Sir,

1 I beg leave to report my return from Ariacode to Colicut on Friday night last, and to submit a statement of the result of the enquiries made agreeably to your orders.

2. Soon after our arrival at Ariacode, Mr. Porrottet and myself accompanied by Mr. Graham inspected the work done in the Arimburra Coothoo Forest, and we found Mr. Graham had already done all that we could have thought of suggesting with a view of either improving the Growth, or increasing the number of Teak plants nearly all the young trees had been cleared of their superfluous lower branches, as they not only tend to impede the growth of the trunk, but prevent the formation of sound Timber. some of the several shoots which had sprung up too closely together from the stems of old trees that had been felled, and which had they remained, would have prevented any one of them from arriving to perfection, have been removed. a sufficient number of these shoots have however been retained, until it can be ascertained, whether

whether a plan which Mr. Graham has just adopted of transplanting a few of them, (of from 5 to 8 feet high) and paying some attention with respect to watering will be attended with success in causing them to take root Mr. Graham said he was aware that the present dry season is some what unfavorable for a trial of this nature but his object being to gain time, the plan if found to answer even with a single shoot, may be carried out with better hope of success during the Monsoon, for each plant thus obtained, may be said to have attained the growth of a seedling of not less than 5 or 6 years, and will effect a great saving.-

The Ernood Tahsildar stated that similar branches of Teak trees which were indifferently used by Villagers as posts in the formation of fences, have been known to take root and grow into good trees. this renders the trial which Mr. Graham proposes making still more desirable.-

3. Mr. Graham has sown about 20000 Teak seeds, and in doing so has observed four different processes, in view to gaining the experience which is so much required

for raising Teak plants from seed, about 5500 Nuts were burnt so as merely to destroy the outer bark which covers the shell, about 14,000 were a little more burnt, some few were carefully cleared with a knife of all the outer bark, and the tops of the nuts cut out as much as admitted of the nutri=ment conductors being exposed, and some others were cracked and the kernels separated from the shell before they were put down in beds carefully prepared for the purpose, and it will therefore require the lapse of another month to be able to learn which of the above experiments may best answer. From minute enquiries which I made, it appears that hardly a single individual has ever taken pains to sow the Teak seed, nor do they possess any certain information as to the proper method of raising Teak plants.-

4. Of the young plants (seedlings) put down by the Tahsildar in the Arimbra Coothoo Forest, about One fourth have perished, but the others which have obtained the height of from 1 to 2 feet appear to be very healthy,

*after Mr Smith's Dismissal

healthy, and if they survive the approaching hot season, of which there seems to be little doubt, there can be no further fear of their perishing except from the ignition of the Forests, and to guard against any accident of this nature, Mr. Graham has already commenced clearing the large collection of brushwood from the foot of the young plants, and expects to be able to complete this work within another fortnight after which he purposes commencing his operations in the direction of Manjbaak.

5. The unusual rain which fell on the 16th and till the forenoon of the 17th retarded our progress to Nelamboor. We inspected the Ayeeroo Nellikawoo Forest, and found the Teak plants put down by the Tahsildar to be doing as well as those we saw at Ariacode. about one fourth of the Original number appeared to have perished here also. The young saplings require pruning, and the brushwood clearing as soon as possible. On nearing Mombaak we visited Eddakole Forest, where likewise we found the young plants put down by

the Tahsildar with some few exceptions to be thriving and the young trees and brushwood stand in need of the same attention as the Forests we had just left.

6. On the 18th we were joined by the Tahsildar at Ariacode. In the evening we proceeded to Manjerry, and on the following Morning to Mallipooram to inspect the 5000 Teak plants, which Parry Mootha gave the Tahsildar to understand he had ready there, but after a fruitless search of many hours, we could neither find Parry Mootha (who was stated to have gone to Condotty) nor his 5000 plants. The fact is, he appears to have imposed on the Tahsildar, for from the enquiries I made, it would seem that a few months ago he obtained a few (3 or 4) plants, grown from seed which it is supposed were accidentally swept together with other grain that had been dried underneath a Teak tree preparatory to being sown in a field. and in the confidence that he could raise other plants by collecting and sowing the seeds of the same tree, appears to have taken the few Teak plants

plants above referred to, to the Cniaad Tahsildar, and offered if required, to supply within a certain time any number of plants the Government may desire. some allusion was at that time made to a number equal to 5000 plants which the Tahsildar appears to have erroneously understood were ready grown, but the members of Parry Mootha's family, his neighbours and likewise the Mookiestes of the Village Poolliam Paramba Imien Adyiar, all residents in the Maymoory Umshom, in the vicinity of Mullie-ram, positively assert, that he (Parry Mootha) had never before grown any Teak plants, and that he had been seen only a few days before burning a handful of Teak seeds which he carried in the direction of a field, where it is believed he must have sown them, but none of those present could ascertain the spot.

7. On our way back to Calicut we proceeded in the direction of Mauasherry, where we visited the Mungulsherry Teak Gardens. we were much delighted at the promising sight which the numerous and healthy young Teak trees presented, with very little paine in comparison to the other

Government

Government Forests, those Gardens could be rendered much more valuable. the saplings and shoots already there require a little pruning and thinning as soon as possible, and more than double the number of plants and trees now on the spot, can be grown in the vacant grounds of the same Paramba. the sail all along the banks of that branch of the River seems to be well adapted for the growth of Teak Trees, and the possession of as many of these Parambas as can be purchased, would indeed in the course of a short time, prove a valuable acquisition to the Government.

8. In conclusion I beg to observe, that Mr. Graham appears to have done a great deal during the short period he has been in charge of the Forests and evinces much anxity to do all in his power in fulfilment of the duties entrusted

to

to him. He feels at the same time that the means at his command are rather scanty to enable him to carry out his projects with any degree of efficiency. the number of Peons attached to him are too few, and most of them being of the Nair and Thiar caste he finds it difficult in consequence of their being so long absent at their meals, to obtain their services when most required. Christians, Parriahs or any other caste less scrupulous in their ceremonies of eating &c., would answer his purpose much better.

Mr. Graham has been authorised to entertain any men he may think best suited for Peons (signed) H. Conolly

Calicut 27th January 1843

(Signed) W. Bates
Head Accountant

My dear Wight.

You may or may not be aware that the Government have authorized a considerable expenditure with the view of replanting various tracts of country which formerly abounded in teak, but which now from the ruthless way in which they were cleared by needy Proprietors are absolutely denuded of that valuable plant. The only way in which this object can be obtained at any thing like a moderate expense, is by propogating the plant from seed and this I have attempted rather largely- but to my great disappointment with little or no effect. Not imagining there was any mystery in the matter- I had a large quantity of seeds collected when they fell from the trees and put them into the ground just before the Monsoon, in the same way as I would any other seed, But it now turns out, a fact of which no one was aware before so far as I can learn, that some particular process is required to rid the Teak seed of its outer coating and for want of this process all my seeds remained in the ground (and rotted there eventually) without shewing any signs of life. The most intelligent Natives I could find, expressed their

their opinion that the forest seeds which grow without any culture are prepared for this growth, or in other words lose their outer coating by the great heat which is caused by the fires which annually consume all the brush-wood in the jungles and they recommended therefore that the process should be tried, which is explained in the paper marked A. This I have done, but as you will see by the paper marked B with equivocal success. In this emergency I think it well to appeal to your skill and kindness to give me any aid and advice which your botanical experience may suggest. The question is you will see a very important one and I am assured you will not grudge the trouble of reflecting on it and favouring me with your views. The sooner you can do so the more I shall feel obliged.

Yours sincerely

Calicut 23d February 1843

/Signed/ A. V. Conolly

4

No 40 Conservator's Department

To A. V. Conolly Esqr
Collector of Malabar

The Urzee of Veetoopsa the Ernaad Tahsildar.

I have received the order No 86 dated

dated the 22d October, requiring me to enquire and report as to the best method of sowing Teak seeds and rearing saplings in the Government Forests &c.

A copy of this order together with a Teakseed had been delivered to the Peshkar Chatoo Menon with directions to proceed and to inform, after a personal inspection what places seemed most eligible for the sowing of Teak seeds, and to enquire of the Jenm proprietors of the Forests and others as to what should be observed when saplings are plucked from the ground and transplanted. and besides we have here also made the necessary enquires.

I am informed that the soil of the Forest called Eddacotta Mala is the best for Teak seeds, that the place is cool, water easily obtained, and for the seeds sprouting quick, favorable. that next to it is the Airanili Cava forest and next to it Arowakode Manuand Parowapado Manu Forests, and other cool situations adjacent to rivers. that when seeds have been sown and germinated and become saplings, and fit for transplanting, they should be planted in the aforementioned forests, as there are large vacant places. These forests consequently

consequently, I consider as the best adapted for this purpose.

Before sowing the seeds the ground should be cleared and the jungle set on fire and burnt, and the stalks of paddy thrown or spread rather thick all over the ground so cleared. then the ground should be turned up in beds of about the circumference of 2 or 2½ Rolls. having done this good seasoned seeds from the first blossoms should be brought and spread on the ground and hay lightly sprinkled on them. the hay then should be burnt gently and with care so that only the rind of the seeds are singed without injuring the kernel. this being done the seeds should be sown in the beds already prepared, and hay lightly spread over to keep them cool and to prevent the heat of the sun from injuring. after this, the beds should be watered every other day; which if continued, in forty days the seeds will germinate.

I am informed that within 5 Months the saplings will grow above a span; that if the Teak seeds are thrown on the ground without

without undergoing the above process they will not shoot out, that of the great quantity of Teak seeds fallen in the forests some grow because they are not centirely burnt when the forests are in fire. that of late the Jennies have not been in the practice of either sowing or transplanting in the Forests, but that in the parambas they rear teak saplings and transplant in the manner aforestated. that no other mode is observed for the rearing of Teak saplings. that to prevent the saplings, which are transplanted from decaying and drying, they are for a few days kept covered up. and nothing more is done. and that the inhabitants of the lower country are not acquainted with the way of planting saplings as they do in the upper country.

Now, the Teak seeds are not properly seasoned. but I have directed the Rolkars of the Nellicoothu Malla and the Peskar Chathoo Menon to procure and get ready about 50 parahs of the first bearing as soon as they are well seasoned.

15th November 1842.

B

Memorandum

After a strict examination of

of the Tahsildars letter dated 15th November 1842
which mentions that the Teak seeds before being
sown should be spread on the ground in a bed and
covered over with a light coating of hay the hay was then
to be set on fire for the purpose of clearing the shell of
of its outside coating which is of a spungy nature.

Not being satisfied with the
above process of preparing seeds for sowing, I
applied fire to a few of the seeds, and found from
the trial, that the coating covering the shell acted
like turf, which convinced me that in this process
the seed inside of the shell must be destroyed
on in a manner roasted, and therefore be rendered
unfit for vegetation. I then threw a few of the
seeds into water to see what effect the
water had on them, I found on this trial
that the coating acted something like a spunge
and contained as much water, as convinced
me, that the shell and seed must not before
the time usual for the seeds vegetation, which
is mentioned in the Tahsildars letter to be
forty days.

Being unable to get any useful
information on the subject from any of the proprie-
tors of Forests in this part of the Country, and being
convinced that the shell ought to be cleared of

the outside spungy coating before being put
into the ground, myself with two Coolies and
two Peons set to work with Knives but after
working about an hour the Coolies gave in
in consequence of the benumbing pain it
occasioned in the fingers, but however with
the Peons in a few days I was enabled to clear
six thousand seeds, which were sown on
the 4th of January last in beds of about
sixteen yards long and one and a quarter
broad, along with fourteen thousand pre-
pared by fire, the whole covered over with
a light coating of hay and in sixteen days
after they had been put into the ground
on removing the old hay to replace it with
fresh I discovered that five of the seeds
cleared with the Knife had vegetated and
one of those prepared by fire.

On the 26th January I discovered
that white ants might be usefully employed
in clearing the seeds, from a quantity that
I had thrown into a corner of the Bungalow,
I picked about two thousand which they
had in that one spot cleared in eight
or ten days and since that time they have
cleared between five and six thousand more

those

those cleared by the Ants are in general better cleared than those that are cleared with the Knife.—

Signed W.m Graham

Ootacamund 4.th March 1843.

My Dear Lavally,

I fear that ere this time you are considering me very remiss in delaying so long to answer your letter of the 23.d Ultimo. The delay has originated in two causes: the first an expensive pressure of other business which has occupied my attention so much that I have had no heart for any thing else until it was out of hands; the next and probably the most cogent was my not knowing well how to advise or what remedy to recommend.—

I am to the best consideration I am able to give it appears to me there can be no absolute necessity for the laborious operation of removing the pips from the pulp (for you will allow that name to the outside covering) as practiced by your Sub Conservator. Nature is in most instances a very cunning artificer and seldom bestows superfluities on any of her productions. The problem therefore to be solved is what is the use of that covering

covering, is it or is it not, for the purpose of promoting the fertility of the seed: I am inclined to adopt the former of these alternatives, as of the two the most likely to be the true one.—

We can never for an instant suppose, that nature gave the covering to be burned off: still less can we imagine it was bestowed to try people's patience in cutting it off with a Knife; for what then was it given? To answer this question categorically would be bold, but we may guess, bringing analogy to our aid.—

The Cinnamon seed is in like manner covered with a thick fleshy Coat which I dare say to the uninitiated might prove a serious impediment to getting the seed so protected to vegitate. It is besides when first gathered juicy. In Ceylon the planters turn these properties to account when they wish to replenish their plantations with young trees. They gather a great heap of those berries which they form into a heap, and cover lightly with straw or Fern, which abounds about their plantations, and leave there to heat. In the course of 8 or 10 days fermentation commences

heat

heat is generated and with the heat vegetation commences. These seeds thus prepared are immediately sown, and a sufficiently large proportion are found to vegetate.

The teak seeds are very differently situated both as to the texture of the covering, and the forests in which they grow. The covering is dry and where the tree abounds there is generally abundance of fallen leaves, shade, and during a considerable portion of the year a superabundance of moisture. Now I could venture a large stake on the truth of what I am going to assert Viz.t That vegetation always commences during the wet season. If this is the case it is obvious that the opinion of your acting Sub Conservator (whose name I can't read) that when the Coating is full of water it must not both the shell and seed long before the usual time for vegetation, must be wrong, and that the contrary is truly the case, Viz.t that the sponge must be filled with water and kept constantly moist until vegetation commences, and is rendered evident by the bursting of the shell, and protrusion of the young plant which owing to the thickness and

and density of the shell as compared with the size of the seed, must take some time to accomplish.-

These are the premises. let us now apply them to practice. Only recollect I speak from theory not practice having never attempted to vegetate a teak seed. Assume you can without the least difficulty get any quantity of seed. Assuming that as in the case of Cinnamon heat more speedily calls vegetative action into existence, I should try to excite it in two different ways. first by making a heap. previously soaking the seed for an hour in water, and leaving them to ferment and heat in the Ceylon fashion, when that was accomplished, I would sow them on shaded beds of very light sandy well moistened soil, covering them over with a quantity of fallen leaves or litter which might be kept in its place by sprinkling a little earth over them. These arrangements should all be completed before the rains commence and the beds kept moist by occasional watering until the rains render that unnecessary. That is one way. The next

plan

Fort St. George 27th March 1843

plan I would try would be to tumble a bushel or so of seeds into a tub of nearly boiling water (i.e.) from 180° to 200° leaving them until the water cooled, and then proceed as in the former Case. In preparing the beds if the soil of the spot is at all stiff and liable to Cake and harden much when dry, I would mix a large quantity of sand, and when digging it cover over the whole with a thick coating of dry leaves of any kind which dig well into the ground. These when once well wet retain moisture strongly, and ere the seed are ready for it, have filled the beds with leaf mould, the very soil in which they naturally grow when circumstances favour their vegetation in their native forests. Now recollect, as said to above, both these plans are grounded on theory. and may both prove as unsuccessful as what you tried, though I expect better success than you obtained; of one thing I am quite sure that much moisture is required, and I strongly suspect the heat of fermentation which is naturally produced at the beginning of the rains, where heaps decaying vegetation happen to

Fort St. George 27th March 1843.

to be accumulated, and that it is in such situation the seed sprout.—

To make sure that failure, if it occurs, results from our bad method of sowing, make sure that the seed sown are good, and that you are not working with empty shells. This you can do by cutting the shell across when the section should show 5 apartments, one in the Centre and four in the Circumference, (as) something like that. If good the outside Cells should each have a Kernel large enough to fill it, and unless one in more of these Cells are so filled, the seeds cannot possibly vegetate more than an empty filbert shell. It is most unlikely that all the seed gathered are good, to ascertain the proportion of good to bad is therefore a necessary preliminary towards ascertaining the success of any plan of sowing that may be tried. In ascertaining this take your average from not fewer than 20 or 30 seed unless you find all you cut good in which case fewer might serve.—

I think I have now given you all the information of which I am in possession but should you desire opinion from the above

sample

sample that I can be of any further service
in aiding you, and forwarding the views
of Government, in advancing so important
an object as replenishing our Teak forests.
command my services in any way I can
render them.-

Sir,

I have the honor to inform you that the order for Pay was received at this station on the 10.th and forwarded to the Collector of North Arcot on the 11.th of February since that time I have received no answer and consequently no pay has been issued to the Detachment.

The same inconvenience has been experienced on several previous occasions by Detachments arriving here for treasure, the Collector being absent and no one being authorized to deliver the amount. The detachments in consequence have been detained many days. I should be obliged by this irregularity being brought through you to the Collector's notice.

Chittoor 20.th February 1843.

10th Novr. 1842.
the Principal Collector of Nellore on the Settlement of the District for Fusly 1251.—
41/42

(12)

Here Enter No. 6/6

Proceedings thereon.
Relating to the Settlement of the Land Revenue in the Nellore District for Fusly 1251.
1241/42

The report includes the Wodiagherry Talook which formed the subject of separate communications in the two last years, but the

5039 Fort St. George 27th March 1843.

the recently purchased Zemindary was considered by the Principal Collector to require distinct consideration.—

2. The number of Villages settled was larger than in the previous year by 77 from the above cause or more correctly the increased number was 78 two of the Wodiagherry Villages having been somewhat irregularly entered before the resumption of the Jaghier in the Rawoor Talook to which certain lapsed Zemindary fees payable by them were credited which led to their being enumerated as distinct Villages.

Para 9. 3. The season is described as having been favorable. The dry Cultivation was affected by partial inequalities of the Monsoon as was also the last wet crop in some degree by a slight deficiency of the latter rains.

4. There was a trifling decrease in the cultivation of Dry and Garden lands which was compensated by an increase in that of wet. This with the smaller Amount of remissions required in consequence, caused the Ameanee lands to exhibit a considerable increase Amounting as compared with 1250/1840 Fusly to Rupees 12,365-9-11.—

5. The particulars are exhibited in the Subjoined Statement.—

Fusly.

Produce Land

Ready Money

In

Para 11-12

6. In examining the details of Increase and Decrease, the same tendency to the relinquishment of dry cultivation in the principal Division, is observed that has been noticed in former occasions, which the increased occupation of Similar land in the Subdivision shews to have been independent of season, and attributable to other causes. But as Mr. Ronkonsee is about to report separately on this Subject, it is unnecessary to pursue it further at present.

From Collr. 18th Oct. 1841. Report in 1850. P. 9 Subdn. 2nd Hoor. Proceedings of the Board 14th Decr. 1842 Para 9.

Para 23.

7. But besides the Dry lands thrown up as above stated a considerable extent taken for cultivation at the beginning of the season was afterwards left fallow and charged with the full assessment.

8. In Statement No. 2 the extent of lands so left is shewn to be Gntas. 7,786 b. 24, on which the assessment amounted to Rs. 48,948 11.5 and in Statement No. 7 the details are more fully shewn.

	Gntas.	
Dry Lands producing	73,158	Cl. 39
Inundated	116	40.
Deducted for sufficient reason at Summah bundy	1,201	34

Total Dittum	81,511	29.

Cl. 9 & 95 No. 1 to 23

See Statt. No. 7 sets forth the reading grounds

9. The proportion is most remarkable

in the Talamanchee Taluck in which 410 Gurtaes were taken up of which 3 were deducted, 269 cultivated, and the remainder 137, (nearly one third) was fallow and paid the full demand. The Board are aware of the practice of the Yellow District according to which wet land only is taken with the exception of preceding remissions for failure of water, while dry garden and jarcab are bound to pay under all circumstances because they will always yield a fair returns as pasturage. This subject was discussed in former proceedings. But with reference to the very large proportion of such collections both in this and in previous years the Board consider that more particular explanation should have been afforded and request that it may be given in future reports.

28th August 1837

10. The following Statement exhibits the extent of engaged land thus left fallow at from 9 to 12 per cent for the five last years. It is remarkable too, that there seems to be a progressive tendency to relinquish dry cultivation in the Principal Division and to engage in it in the Sub Division.

Sub Collectors Division	45,245 13 2	42,973 3 5	2,597 2 9 9	5 11½	
Total	1,49,984 3 9	1,42,709 5 10	13,274 11 11	8 13½	
		Sums Collected at Fort St. George D.C. 13. Jan to 31st January	11,873 8 9		
		Remaining Balances	1,401. 8 2		

17. Mr. Minchin confining her observations to the Principal Division is of opinion that little of this balance should be recovered on the ground of the distress likely to be occasioned to the ryots thereby with reference to the circumstances of the Season and the fall of prices and he adds "they urge with much force and truth that while Government in Seasons of scarcity and high prices, share with them the advantage of such high prices" by the manner in which remissions are granted "they are left to sustain the whole loss occasioned by low prices". On this the Board would remark that the rule for determining remissions is neither a severe one, nor is it stringently enforced. It merely provides that none shall be granted for a particular spot

spot or field without reference to the rest of the farm but that it shall be regulated by a general consideration of the returns of the land and of the means of the farmer. The commutation price being fixed on a moderate average, leaves the benefit of a dear market, in all other respects, to be enjoyed by the ryots while in a plentiful season, the fact is overlooked that the ryot has a much larger quantity of grain to sell, tho' the price is lower.

18. The Board however do not desire to be understood as advocating a rigid enforcement of the demand now outstanding. They will be prepared to give an indulgent consideration to such recommendations for the adjustment of the arrears as the Principal Collector may on farther enquiry think it necessary to offer and to submit them for the favorable decision of Government.

19. In the same spirit they resolve to solicit the Sanction of Government for writing off the balance in the Woodiagherry Talook, amounting to (14,334. 10. 1). Fourteen thousand three hundred and thirty four, Rupees ten and Pice one, the particulars of which have undergone the careful investigation of the Principal Collector

as

as recorded in Para 36 @ 40- There appear to be sufficient grounds to prove that Rupees 8,135-7 were actually collected by the late Jaghirdar while there is reason to believe that much if not the whole of the remainder, 6199-9-6 was levied from the Cultivators, however appropriated afterwards. It is very desirable, that in relieving the ryots from farther responsibility, the sum remitted to each should be distinctly stated to him at the ensuing Settlement, and if possible noted in his Puttah.-

Para 40 20. The arrears of the Shotriums Villages continue to increase and now exceeds the amount of the permanent Summa- There seems little hope of the proprietors being able to extricate themselves from the weight of these accumulations, but the subject will receive separate consideration hereafter.

See Statement Para 5.

Permanent Assessment of Pari Shrotriums for Fusly 1251	50,924-4-5
See Inclosure No 10 Col 8.	
Arrears since 1240 Fusly	94,965-5-4
Dr Current	19,764-3-9
Total	1,14,729-8-1

x Vide Total 114 Rs.

21. With regard to the difficulty experienced in settling the assumed Shotriums from the necessity of measuring the produce, the Board would suggest that it would be obviate[d] in

a great degree by renting them to the principal inhabitants or failing these to other parties willing to undertake them.-

Contra 42-47 22. The Zemindary collections call for no particular observation.-

Para 51 23. A separate Report is promised on the outstanding arrears of former years- The Board desire to call the particular attention of the Principal Collector to the orders of Government on this subject under date 17th January last para 14 The subject of the following para of the same communication likewise specially demands his notice with reference to the Board's orders of the 30th January.-

In Cons. 30th Jany 1843.

24.- With reference to the observations of the Sub Collector in para 22 of his Report, it is only necessary to observe that the subject of the Cottery tax was fully discussed in the Board's Proceedings of the 19th January last, the Principal Collector will be pleased to watch attentively the working of the measures therein authorized and their effect on the Revenue which is observed rose under the operation of the system complained of Form 93,613 Rupees in

Fusly

Fasly 1236/26/27 to Rupees 129.4.30 : Fasly 1251-21/42

25.- The general results of the settlement exhibiting a Net increase of Rs 92,752-12-5 in the land revenue or of 18267-11- under all heads is very satisfactory and bears testimony by the continued zeal and ability which have always characterized Mr. Stonhouse's administration of the District. Ordered that the following letter be sent in reply.

To

The Commissioner in Charge of

Madura.

26

To the Commissioner in Charge of Madura

Sir

Para 1

Replying to the letter from the Principal Collector of Madura on the subject of his proposal for assigning the Poonjah and other uncultivated lands at present enclosed for Bay

I am directed by the Board of Revenue to acknowledge the receipt of Mr Blackburne's letter of 20th June last, proposing to assign a certain proportion of Teeravah the Poonjah and other uncultivated land at present enclosed for pasturage and hold free of any payment to Government by the chief Ryots in the Kanghany Zemindary of the Dindigul Sub Division of the Madura District.

and 2

From this communication it appears

Fort St. George 27th March 1843.

and pasturage and held free of any payment to Government by the Chief Ryots in the Ramgherry Zemindary of the Dindigul Sub Division of the District

appear that in the Fusly just elapsed out of Cawnies 54,227 being the extent of the Ramjah adjacent after deducting Manniums and Poramboke uncultivated in this Zemindary 19,005 Cawnies only were cultivated. Cawnies 2818 were used free as pasturage common to the whole of the inhabitants while the remaining 32,408 Cawnies of which more than half (33333) are of the first quality with 100 Cawnies of Poramboke and 213 Cawnies of uncultivated Nunjah in all Cawnies 34611 have been enclosed and appropriated by the Principal Inhabitants as their private grazing lands and for hay without any payment to Government whatsoever. Under these circumstances and adverting to the great falling off in the revenues of the Estate from Fusly 1213 to 1220 and again the renewed decrease since 1226 Mr Blackburne recommends "the preparation of a detailed list of all lands desirable for cultivation and inviting Ryots to take them up by proclamation that all for which no cultivator can be found to come forward, shall be left open for individual pasturage at the quarter tax, and all not so appropriated should be free to the inhabitants in common" he further suggests the

Fusly 1213 Rs 32,227
" 1226 " 23,215
" 1231 " 19,005

Fort St. George 27th March 1843.

extension of the same rule to the adjoining estates assumed Pollams of Veeramalee Thyagamullee and Comaravady.—

3. The Board can discern no valid reason why the grazier in Ramgherry and the adjacent Pollams should be exempt from the land tax borne by the Agricultural Ryot and paid by the inhabitants of all other grazing Districts. They desire to call your attention to the subject and if you concur with them in opinion they would wish that the lands taken up as above described as private pasturage and for hay should be continued to the present holders wishing to retain them, subject to the payment of ¼ tarwah as recommended by Mr Blackburne. The Board are not disposed to proceed the whole length proposed by the Principal Collector and offer the lands at once by proclamation for cultivation, they consider that it would be sufficient first to call upon their occupants for payment of the Quarter tax, and on their refusal to give the land to such Ryots as may be willing to take it on the full assessment and when none come forward to making it over for grazing at the quarter rate to such as may be disposed to take it for that purpose. Should there be no proposals either for

for tillage & pasturage the land should be thrown into the general Village waste and declared free to all Inhabitants—

4 If as the Board anticipate, there be no objection, this measure will of course be extended to the Pollliums of Veeravalle Thoyamalia and Comaravady which are contiguous to the Zemindary. It may also be observed that all the general Village common be open free of demand to all Inhabitants of that Village Ryots bringing their Cattle thither from other Villages for pasturage should be charged at the 1/4 Teeroah grazing tax—

5 The Board do not consider that it will be necessary to retain for one or two years a Deputy Shasildar on 35 Rupees Monthly as suggested in the concluding Para of the letter under remark, some opposition must at first be anticipated, but the Board are of opinion that the occasional presence of the Shasildar and perhaps temporary residence in the Pollliums of the Taluk Sherestadar or other subordinate would be sufficient to carry out the required arrangement without adding to the present Establishment— The Board will of course be prepared to support you in any measure which

which you may be compelled to make as regards the Nattumgars if, as is hoped will not be the case, any factious conduct on their part should render their temporary suspension necessary—

Revenue Board Office

Acting Secretary

Read again letter from the Commissioner in charge of Madura dated 2nd and entered in Consultation 16th Instant—

Ordered that the following letter be sent in reply—

To the Commissioner in charge of Madura.

To the Commr in Charge of Madura

27

Sir,

I am directed to acknowledge the receipt of your letter dated 2nd March 1843 and to inform you that the Court of Wards approve of your proposal that the Minor Zemindar and the other Members of the Family mentioned in the list which accompanied it should receive the sums allotted for their support through the Manager of the Zemindary until a proper person can be found to undertake the Office of

guardian

guardian to the Minor.

2. The great difficulty in procuring a guardian is stated to be attributable to family disputes, and the influence which Mr Fischer has obtained over the Mother of the Minor but for which she would perhaps be the fittest person for the Office.—

3 It is desirable that an effort should be made to come to some understanding with her by which Mr. Fischer's interference should be put a stop to, and the Court would suggest as the most probable means of obtaining this object that you should seek an opportunity of discussing the question with her personally.

4 Her real interests and the future welfare of the family are so deeply involved in some arrangements of the kind that if the attempt has not already been made in the manner now proposed the Court would recommend it, as, at least, well worthy of a fair trial.

To the President and Members of the Board of Revenue

Gentlemen

With reference to the Extract from

from the Proceedings of your Board of the 6th July 1836 and the correspondence which accompanied it regarding the state of the Charity Choultry endowed at Benares by C. Singanah Chetty of Madras I beg to solicit that you will be pleased to obtain from the Supreme Government such further information as regards the interest as well as the surplus funds which may have accumulated up to the last year together with the account of disbursements since the date of the last communication from that Government. It is my most earnest desire to promote the endowment of the Charity Choultry in question on a more extensive scale than at present. I therefore trust your Board will be pleased to obtain from the Supreme Government a detailed information on the subject so that I may be enabled thereby to give effect to the wishes which I have long cherished for the further arrangements of the Charity Choultry at Benares notwithstanding it has been conducted in an efficient manner.—

read and approved.

Read again Extract from the Minutes of Consultation dated 28th Ultimo and entered in Consultation 2d Instant

Ordered that the following address be submitted in reply.

(3)

To The Acting Chief Secretary to Government.

To the Ag. Chief Secy to Government. } Sir, Para 1.

Ag. Chief Secy. to Govt. Stating with reference to the Extract from the Minutes of Consultation dated 28th Ult. that with the exception of Tanjore

I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation under date 28th Ultimo in which the Board are requested to furnish a report pointing out those districts

Tanjore and Chingleput the instructions of the Honorable Court of Directors desiring that in every District the usual residence of the Collector should be fixed at the same station with his Principal Cutcherry and Treasury are strictly complied with and explaining the cause of the deviation in those two Districts

districts in which the orders of the Court of Directors desiring that in every District the usual residence of the Collector should be fixed at the same station with his principal Cutcherry and Treasury are not conformed to.

2. In reply the Board beg to state that the Principal Collector of Salem having been directed to fix his usual place of residence for the future at the town of Salem, the only Districts in which the instructions of the Honorable Court are not strictly complied with are Tanjore and Chingleput.

15th in Cons. 20th March 1843.

3. In Tanjore the Principal Cutcherry and Treasury are at Negapatam which is the Head Quarters of the Head Assistant Collector - but the Collector when not there or on circuit in the Talooks has his residence at Vellum which would seem preferable as more central and from its vicinity to the town of Tanjore more convenient

in other respects since the duties of Resident have been added to those of Collector.

4 The Principal Cutcherry and Treasury in the District of Chingleput are at Conjeveram but the Collector for reasons fully detailed in his letter herewith forwarded and to which the Board beg to call the attention of Government usually resides at Pulleycarny. The Board have much pleasure in bearing testimony to the zeal evinced by Mr. Freese in the Management of his District and are not aware of any inconvenience having resulted to the public service from his having his Cutcherry at Pulleycarny. The Treasury it is observed is at Conjeveram, but it is of less importance in this than in any other District that the Collector should make the locale of his Treasury his principal place of residence, as the remittances from the Talooks are forwarded direct to the Presidency sufficient only being retained in the Treasury at Conjeveram to meet the current

13th in Cons. 15th March 1843

expences

5081 Fort St. George 30th March 1843

experience — Canjevaram indeed seems to possess little advantage in point of locality above Pullicarny — Ching leput appears to be the most centrical position for the Collector to locate himself and his establishment, but it is understood there are no public buildings suitable for their accommodation and under all circumstances the Board see no objection to the Collector being permitted to remain at Pullicarny —

To
C. C. Lovell Esqre
Acting Secretary to the Board of Revenue
Fort St. George —

From H. V. Conolly Esqre
Collector of Malabar

Sir,

With reference to my — Communication of the 10th Instant, I think it well to forward Copy of a letter received from the Acting Sub Conservator Mr Graham —

(4) Pay Assistant

Mr Graham it will be observed writes with considerable acuteness, and has evidently a good deal of knowledge of the subject on which he treats, tho' the conclusions at which he arrives do not clear up the mystery which prevails as to the exact proper treatment of the Teak seed. I have directed him to try every method that has been proposed and can only express my hope that one or other will be found successful —

Mr Grahams letter will perhaps be a stronger recommendation in favor of raising his pay than any thing I have been able to say in my letter above referred to —

Calicut — } (Signed) H. V. Conolly

5083 Fort St. George 30th March 1813.

To H. V. Conolly Esqr.
Collector of Malabar

Sir,

I beg to acknowledge the receipt of the Copies of Communications of Doctor Wight and Monsr. Perrottet and to offer for your perusal the few following remarks thereon, and should you think that I have erred in any of them, I shall take it as a great kindness by your pointing it out to me that I may thereby be enabled to correct them.—

The method of stratifying or heating the Seed preparatory to sowing, as mentioned by those two learned Gentlemen is an excellent method, and answers well with many different kinds of Seed. I have seen it tried with the seeds of different kinds and before I left home was getting into general practice with Gardeners and Farmers even with their Wheat and Barley &c. but I am of opinion that it will never answer with the Teak Seed which differs very materially from most Seeds that I have yet seen, this plan I intended to have adopted on my first arrival and in a discourse

5084 Fort St. George 30th March 1813

with Mr Francis (on his first visit to this place) on the difficulty of Vegetating the Teak Seed, I mentioned this plan to him, but on a further examination of the Seed, I could plainly perceive that it would not answer, and experience since has further convinced me that I was correct in my opinion.—

The Teak Seed is exactly formed as shewn by Dr Wight in his correspondence with you on the subject, and can with great care be vegetated in this way, but as soon as that has taken place, it would perish and I think the two following facts will bear me out in this opinion, the first is that this Seed (as I shewed you on the Morning you visited the forest) when vegetation has taken place bursts a piece out of the side of the shell, and comes clear out of it it is therefore necessary, that earth be convenient to the young root, so that it is able to lay hold on it for nourishment, in the event of its not being able to do this and bring itself out of the shell, it in the course of almost an incredible short space of time turns of a Rusty Color and perishes, and if vegetated in a box or in heaps it would perish

perish as soon as Vegetation had taken place being unable to get any thing to nourish it as to its living until it was planted or placed in beds is out of the question, some that I have seen in this state thrown up by the carelessness of Coolies in watering the beds, have almost instantly perished. out of numbers that I have almost instantly covered up, marking the place with a bit of stick, not one of them has yet recovered and it is certainly the most delicate seed that I have ever yet seen.

The second is the uncertainty as to the time this seed takes to vegetate the Tahsildar in his letter gives it to be forty days. Mr. Perrottet in his plan of planting gives it the same time, but contrary to all the rules of nature of other seeds, I believe this seed, taken in a body has no regular time as to its vegetation at least if it has, those that have in a manner been born under them have not yet gained this knowledge, and I think I have in front of my own eyes almost convincing proof that my opinion on this point is correct. The seeds that were

were planted in the nursery commenced vegetation on the sixteenth day after they were planted above two Months have since elapsed and they are still vegetating. The Seeds you requested me to buy in a box commenced vegetation on the eleventh day, and on each of the following days one seed vegetated Viz. 12th. 13th. 14th. 15th & 16th days after they were planted since that time, Viz. the 8th. Instant, no more vegetated, and this morning another seed vegetated. this alone I think would preclude it from being Stratified to any advantage.

Dr. Wight in his correspondence appears to lay a large stake on the truth of what he is going to say, Viz. that vegetation always commences during the Wet weather, and says, if this is the case it is obvious that the opinion of your Acting Sub Conservator, that when the Coating is full of Water it must rot both the Shell and Seed long before the time for vegetation must be wrong and that the contrary is truly the case, Viz. that the Sponge must be filled with Water and kept

Constantly

constantly moist until vegetation commences and is rendered evident by the bursting of the shell and protrudeon of the young plant, which owing to the thickness and density of the shell as compared with the size of the seed must take some time to accomplish, we will then for the present suppose that my opinion on this point is really wrong (and I sincerely wish it was as it would save me a very great deal of trouble) can Dr Wight solve the following problem for us, Viz. what becomes of the millions of seed that annually fall on the forests or what became of the forty or fifty thousand planted there by Mr Smith last year during the rains, if it is only necessary to fill the Sponge with Water and keep it in that state until vegetation commences the rains will certainly keep it filled, I really think that the following is the real solution of the problem, Viz. their Sponges were filled with a superfluity of Water and potted them, out of the great quantity planted by Mr Smith, not one of them vegetated, out of six thousand planted by me and cleared with the utmost care almost

almost certain that not less than four thousand of them has already vegetated, how then can the failure of the seeds planted with the pulp on, be accounted for but in the following manner, Viz. Heat is necessary to the vegetation of the seed, and to heat seeds of any kind, it is only necessary to damp them and keep them in this state by frequent light waterings. a superfluity of water will rot them and the pulp of this seed being of a Spungy nature and so much of it surrounding the shell, it fills itself with a superfluity of Water, and is constantly drawing a fresh supply into the Sponge, and in place of engendering heat has quite the contrary effect it engenders Cold, and prevents the seed from vegetating, and in the course of a short time destroys it altogether if Dr Wights opinion was correct, there is scarcely a Teak seed that falls in the forest, but would vegetate, i.e. if by filling the Sponge with Water it would engender heat, for each seed contains a sufficient quantity of pulp to effect this

Fort S. George 30th March 1843

and I believe the Teak seed tree is among
of those obstacles, all seeds requisidly in
or less preparation before they are fit for
and I think the removal of the fut a branch
this seed, is the preparation that it requires that
accident has brought to our aid an evil
that has hitherto only been a nuisance
to Mankind, and I am almost inclin.
to believe, and particularly as the Forests
abound with ants, that it is these ants
which clear the seeds that grow spontaneously
and eat ab the same time the planter by
covering them over with earth as they generally
do with every thing they come near, and which
would give the seed a very fair chance
of growing.—

Mr Perrottets opinion that the
trees are defaced by people cutting handles
for tools is certainly wrong, there is not a
native in the Country who will put a teak
wood handle in a tool if he can get a piece of tough
jungle wood, and there is no scarcity of it on the
banks of this river.—

Fort S. George 30th March 1843

this it would then be quite unnecessary either
to put them into a box or in heaps to effect
this, if it were possible to keep the pulp in
a moist state, and prevent it from filling
itself with water, it would then have the
desired effect, not only in heaps but on every
seed that falls.—

I am therefore inclined to adopt the
latter of the two propositions made by Dr Wight
and to suppose that it was given by nature to
in a great measure prevent its fertility and
prevent its becoming a nuisance to us, rather
than a blessing, and were but one hundredth
part of the seeds that annually fall to grow
it would have become this long ago, as our
Forests would have been nothing but a complete
mass of stunded Teak trees, almost growing
on the tops of each other, nature is —
indeed a cunning artificer, and seldom
bestows superfluities, but very often places
obstacles in our way, and in return, has
furnished us with reason to teach
us how to remove them out of our way

and

Fort St George 30th March 1843

As the plan of fencing in Forests four or five Miles Square nothing need be said.—

The plan of planting the Forests from old roots would I think, be a more ruinous way to the company than Nurseries we need only here ask what has become of the Seventeen or Eighteen thousand planted by Mr Smith in this way; there is not thirty of them in existence.—

I understand Mr Bennett aright when he speaks of Cutting the lateral branches smoothly, to mean smoothly with the trunk he is certainly wrong, it is a well known fact that when a branch is cut that it shrinks a little at the place so cut and besides that the end that is cut dries up a little and if Cut close to the trunk shrinks into it a little and thus forms the holes that you may often see where branches have been cut close to the trunk of the tree or broken off carelessly. By leaving a small part of the branch Cut to project from the tree it has the

Fort St George 30th March 1843.—

contrary effect particularly if the tree is young it will stand a chance of forming solidly in the trunk and by the time the tree is fit for felling, it will scarcely be known that a branch had ever been there, care should be taken that the branch Cut is not by carelessness or bad tools split inwards, or it will form a hole the same as in cutting close.—

With reference to what I have said above, regarding the removal of the pulp from the shell, I believe the Natives are all agreed on this point, as they are of opinion that it should be burnt off, and they say it will not vegetate with it, they also attribute to fire the clearing of those seeds that grow spontaneously, but I think from the complete failure of those in the nursery prepared by fire, I have attributed the real cause to it. After the Jungle had been fired on examining the fallen seeds I could scarcely find one that had perished by the fire as that Element burns upwards and soon passes over them, they nearly all escape.—

Should we be obliged to have recourse to Nurseries for the replenishing

5093 Fort St. George 30th March 1813.

planishing of the Forests and I think from the number of cleared seeds that have vegetated it may be done without running the least chance of ruining the Company we will have to adopt quite a different plan as to the place of sowing them for I find that what I then thought would have been a very great saving, has proved to be quite the reverse. They must be sowed on the clearest ground that can be found and at a good distance from water for that element in hot dry weather draws to it innumerable swarms of insects, all of them ready to pounce upon any thing newly spring-ing from the ground. I am however anxious to do away with them altogether in the event of either of the two plans of planting mentioned in my letter of the 15th Instant succeeding, and either of them will be the cheapest mode of planting the Forests and nearly as simple as the one proposed by Mr Perrottet.—

5094 Fort St. George 30th March 1813.—

I had almost forgotten to say any thing on Dr Wight's plan of proving the seeds, and which I think would be a very good one if the seed would grow with the pulp on, but since I last saw you, I have discovered a very simple and easy way to prove them and which can be done in a few moments on the ground that I am planting, viz. throw them into a Vessel filled with water the good will sink and the bad float on the top of the Water

However should you deem it necessary to give any of the plans proposed a trial, I shall give them a fair one with the greatest of pleasure.—

Arcade— } I Signed W. Graham

5

To the Actg Chief Secy to Government submitting two Letters from

Para 1

To The Acting Chief Secretary to Government

Sir,

With reference to the orders of Government

5097

Fort St. George 30th March 1843.

...ur. this post. Mr Conolly states is a most trying one involving no slight risque of health from constant exposure to the sun and jungle.—

6. Mr Conolly appears to take the greatest interest in the promotion of the views of Government in regard to the improvement of the growth of Timber in the Forests and to have found in Mr Graham as fit a person to fill the situation of Sub Conservator as could be procured in this Country.—

7. It will be observed that the importance of obtaining a trained Arboriculturist is again insisted upon both by the additional experience of Mr Conolly and by the spontaneous suggestion of the Board it would appear desirable therefore to bring these views again to the notice of the Home Authorities unless the recent orders of the Court of Directors preclude a further reference. In either case, the Board propose to authorize the permanent employment of Mr Graham and to bestow on him the portion still remaining unappropriated of the Sub Conservators Salary 150 Rupees per Month. His Salary would thus be raised to 175 Rupees per Month which the Collector doubts not would stimulate him to continued exertion.

5099 Fort St George 30th March 1843.

you should interfere with the Collector of that District - That Officer will continue to carry on his duties without reference to yourself, exclusively under the control of the Board of Revenue —

3- His Lordship in Council does not consider it necessary to furnish you with detailed instructions on all the points of your enquiry - But he is desirous of impressing upon you the importance of directing your enquiries chiefly to those causes which affect the permanent well being of the District —

4- You should carefully discriminate in your enquiry, between the various causes which have been alleged as the sources of the depressed condition of the District — estimating as far as practicable their relative influence, Separating such as the drought and inundation of recent unfavourable seasons and the low and unremunerating prices of produce which no foresight could avert, from

5100 Fort St George 30 March 1843.

the causes of embarassment which have arisen from the Zemindars own mismanagement, and character, as the large sums wasted in idle and wanton extravagance, the loss and deterioration of the estate from the neglect to keep up the means of irrigation; or from undue pressure at particular periods on the ryots leading to their general poverishment -

5. You will ascertain whether — there is reason to suppose - that the Estates have suffered whilst under the Management of the Officers of Government - acting for the Court of Wards or holding them under the orders of the Courts of Justice, or under attachment for arrears of Revenue —

6- You will also minutely — investigate the condition of the ryots or tenants on the Zemindary Estates as compared with those on Government lands, and the general condition of the people both in the Zemindary and in the other parts of the District —

7- Your attention should likewise be directed to the Estate of the Village Communities, and the rural police of the District —

8. It should be an object of your

your especial solicitude, to ascertain in what way the ancient families of the Country can be relieved from the difficulties and almost hopeless embarkassment in which they are now plunged, and whether any measle can, as suggested by the Court of Directors (para 2 of Despatch dated 31st June 1842 No 14) can be devised which may save them from the ruin and degradation which now hang over them, without the sacrifice of the interests of the great mass of the people, and of the public revenue—

9. His Lordship in Council will instruct the Board of Revenue to give you access to the papers on their records which may throw light on the state of the Rajahmundry District, and you will be furnished from this Office with Copies of the remarks of the Honorable Court of Directors bearing on the important object of your commission—

10. You are requested to place before the Government at an early date,

a list of the Establishment, as limited as possible, which you consider necessary to the due discharge of your duty; and, if required, His Lordship in Council will authorize your selecting from the Revenue Department, one, or more of the Native Servants whose aid you might deem peculiarly valuable to you, though, if it can be avoided, he would desire that other Offices should not be interfered with—

11. In consideration of the arduous and responsible character of your duties, and that you are at present only in the receipt of the ordinary allowances of a Collector, the Civil Auditor will be instructed to pass to yourself, your full allowances as Collector and Magistrate including Tent allowance with an extra deputation allowance of Rs 500 per mensem, and when sanctioned, you will be authorized to draw the pay of your Establishment with your own allowances at Rajahmundry—

12. The Government will furnish the Collector of Rajahmundry with a copy of para 2 of this letter, and with instructions

Fort St George 30th March 1843.

instructions to give you every facility in conducting your enquiry, both by affording you access to all the information in the records of his Office, and the assistance of any of his Huzzoor subordinate Officers, and of the Salook Officers generally - The Government trust with confidence to your discretion that this authority may be used with great circumspection, always in communication with, and through the Collector, that the ordinary Revenue and Police duties of the District may be carried on without obstruction --

13- You will communicate with the Government direct, and at the close of the commission submit a connected report of all your proceedings, and the results of your enquiry specifying distinctly to what causes you more especially ascribe the disastrous state of the province, and the practical remedies required to restore it to a healthy and prosperous condition --

14- His Lordship in Council is desirous that you should lose no

Extract from the Minutes of Consultation
Under date the 18th March 1843 -

Read the following Extract from the Proceedings of the Board of Revenue --

Relative to the Settlement of the Havelly Lands in the Ganjam District for Fasly 1250 / 1840/41 -- (Here enter 2d January 1843. (No 8)

8

Para 1. The Season though an improvement on the preceding one, was still unfavorable, and is the 4th of this Nature that has consecutively harassed the Ganjam District; there is an Increase in the Settlement of the Government Lands of 25,949 Rupees.

	Rs.
Fasly 1249 - 39-40	439135 -
1250 - 40-41	465084 -
Rupees -	25,949

2. The Proceedings now received & former ones, however shew that not so much the Demand, as the actual Collections must be looked upon, as the outturn for the year -

The

Fort St George 30th March 1843.

3. The existing system is such, that the Collections within the Fusly, may almost be considered as the Summabhundy of the year as but a small sum is realized subsequent to its close, after these latter Collections, the outstanding balances have been of late, and are for the Fusly under observation, considerable, and are declared† for Fusly 1250, for the most part irrecoverable, they are probably of a like nature for antecedent years.—

† Para 11 Collectors Report.

The Magnitude of the Ganjam balances has constantly become subject of remark, and its causes satisfactorily explained.—

Collrs Report Fusly 1248

5. The Lands which constitute the Settlement being rented at the commencement (and generally anterior to it) of the year, the usual deductions, consequent on unfavorable seasons which are denominated remissions in the more regularly settled districts, and which are not brought upon the Demand, are necessarily Balances in Ganjam, and arising from great poverty, non-cultivation, &c. are seldom if ever to any extent recovered.—

†265082 Rupees.

6. Of the Land† Settlement 93496 Rupees

Fort St George 30th March 1843.

Rupees were outstanding at the close of the Fusly, which sum was reduced on the 1st† November 1842 to 73480 Rupees.—

7. The entire Revenue from all sources is shewn to have amounted to 1202201 Rs. which though a decrease in the Demand† of 1323721 Rs. 32358, is an Increase in the Collection of Rupees 1163333 38868. in comparison with the preceding year.—

8. A falling off in the Moturpha is discussed, and improvements suggested by the Board in Paras 5-6—12, which are well worthy of Mr Bannerman's consideration.—

9. The Report on the Balances promised in Fusly 1249 should at once be submitted† duly affording the information required by the Board, as there can be no reasonable grounds for the delay that has already occurred.

†Para 11.

10. The Board have very properly called† for a special Report on the progress of the survey commenced so far back as 1837, as they appear to possess but little information on the subject. As the present very deficient and irregular system can only be

*Para 9.

Fort St George 30th March 1843.

be remedied by the radical improvement above suggested, the Government trust that Mr. Bannerman will be able at no distant period to submit the report, with the necessary details required by the Board - The importance of the subject would appear to warrant the propriety of making the Collectors attention for the most part subsequent to the completion of this great reform, so as to accomplish it with the least practicable delay -

11- The Board have also called for a Report on the Zemindaries (which this year almost paid in full their peshcush) on which as a Revenue of more than five lacs of Rupees is realized, it is certainly extraordinary that a Report is not annually furnished -

Peshcush 514870-
Collections 504049-
Rupees 10827-

12- The Board, in their capacity of Court of Wards, are the guardians of the Minor Zemindar of Purlah Kemedy, yet have received no report on his charge from their executive Officer the Collector, since Fusly 1247 / 37-38 -

13- Adverting to the great distress experienced

Fort St George 30th March 1843.

experienced for some years from the scanty supply or failure of the rains, the Government would repeat their observations as to the expediency of improving the irrigation of the District, and trust that measures tending to this end have been extensively adopted -

† Extract Minutes of Consultation 9th October 1840 -

14- The Government are compelled with regret to go farther than the Board, in deprecation of the great delay that has occurred in the transmission of the Collectors report; no circumstances can justify the fact of a Collectors Report being postponed until 3 months after the expiration of the following Fusly, and if not yet done, the Collector should be called upon to state when his report for Fusly 1251 / 1841-42 † already as the Board state, over due, will be forwarded, and the causes which have prevented its transmission at the proper period -

15- The Government readily receive the explanation afforded by the Board, in respect to the tardy submission of their own Proceedings and they trust that all the settlement

5109 Fort St George 30th March 1843.

Settlement Reports of Fusly 1257, and the Pro-
=ceedings of the Board will be submitted
at an early date.—

Fort St George 30th March 1843

(12)

From the Actg Chief Secy to Government } Read the following Extracts — Extract from the Minutes of Consultation Under date the 23d March 1843 — Read the following Extract — from the Proceedings of the Board of Revenue — Relative to the Management of the Extra Sources of Revenue in the District of Nellore for Fusly 1251. (Here enter 27th Feby 1843, № 112) Corresponding with A. D. 1841/42.

Communicating observations and orders on the Board's Proceedings relative to the management of the Extra Sources of Revenue in the district of Nellore for Fusly 1231.

Para 1. The financial result of the Management of the Extra sources of Revenue in the District of Nellore during Fusly 1251. is satisfactory. The Net revenue under all heads amounted to Rupees 595,253-15-2 and exhibited on a comparison with that of the previous year, a Surplus of Rupees 130,232-12-6 arising almost wholly from the sales of Salt —

	Fusly 1250	Fusly 1251
Salt	313,239 - 8 - 1.	448,428 - 8 - 3.
Sayer	91,157 - 6 - 6.	85,188 - 9 - 3.
Sea Customs	5,043 - 13 - 3.	6,771 - 3 - 11
Abkarry	18,803 - 3 - 3	21,723 - 15 - 7
Small Farms	296 - 7 - 11	284 - 12 - 9
Stamps	14,717 - 9 - 9	13,312 - 15 - 9
Moturpha	21,264 - 15 - 11	19,565 - 13 - 8
Total	465,821 - 2 - 8.	595,253 - 15 - 2

Salt — Paras 2d & 3.

2. In the sales of this article there was an increase of nearly a Lac of Rupees, for the most part, for Inland consumption, arising

+Epidemic amongst the Cattle in Guntoor the want of salt at the Chittoor and Chingleput Pans—

arising from causes + which the Board of Revenue state, compelled the Merchants usually frequenting the Salt pans of the Neighbouring Districts of Guntoor, Chingle=put and Chittoor, to resort to those of the Nellore District. an apparently large decrease in the charges has also added to the Revenue from this source, the net receipts from which are exhibited at Rupees 135137—4—2 above those of Fusly 1250—

Sayer. Paras 6 & 8.

4 Under the + head of Sayer or Land Customs there was a decrease of Rs= =pees 6,220—13—6 arising principally from a demination in the Trade in Piece goods. His Lordship in Council fully concurs in the view expressed by the Board in the 8th para as to the responsibility of parties who have jointly engaged in rents under Government, and approves of the instruc= =tions issued in conformity thereto—

Para 9 & 12

5. The fluctuations in the remaining items of revenue, Viz^{t}, Abkarry sea Customs small farms, Mohturpha and Stamps do not call for particular notice—

His

6. His Lordship in Council observes that no report has yet been laid before Government of the nature referred to in para 9 of the Extract from the Minutes of Consultation of the 11th February 1842.- and that the question at issue is of too much importance to be longer neglected..

*Liability of certain parties to the Motur=phatapdis= =puted.—

Sir, Para 1 With reference to the Extract

Fort St. George 30th March 1843

within whose districts salaried Post Masters are maintained be instructed to give effect to the suggestion therein contained for promoting the efficiency of the Post office Department.

dated 11th March 1843.

Extract from the Minutes of Consultation

I have the honor to state, that in obedience to the directions therein contained instructions have been issued for the abolition of all Overseers within the Company's territories, subject to the jurisdiction of this Government.

2 With reference to the last Para. of the Extract from the Minutes of Consultation under acknowledgment, I have the honor to suggest, that the several Collectors, where salaried Post Masters are maintained, may be requested to instruct the Tahsildars and other district authorities on the different lines of road to afford the several Post Masters every assistance in their power for the speedy transit of the Mails, to maintain an efficient control over the runners, particularly in placing cooly runners at each stage for the transport of the over land packets to and from Bombay to ensure the same Cooly runners who are posted in a month being engaged for the successive months instead of placing fresh men each month and prompt payment to the Cooly runners as well as permanent runners.

Fort St. George 30th March 1843

runners, to aid the runners in conveying the mails over streams and nullahs without any detention, and to investigate the cause of delays or show progress of the runners, and to report the result thereof for the information of the Post Master-

Extract

Fort St. George 30th March 1843.

No. 2.—

Extract from the Minutes of Consultation dated 9th February 1843—

Read the following letter from the Secretary to Govern=ment of India—

(Here enter 11th January 1843 No. 114)

Under the authority con=veyed in the foregoing letter the Most Honorable the Governor in Council directs the abolition from the 1st April of the Overseers in the Post Office Department within the limits of this Presidency, the duties required of them being from the above date, entrusted to the Tahsildars or district au=thorities, and with reference to its concluding para desires the Post Master General to state whether a less number of runners than that proposed in his communication of the 11th November last to be maintained in

Fort St. George 30th March 1843

in the ranges of Cuddapah and Bellary, would be sufficient.—

(Signed) J. F. Thomas
Actg. Chief Secretary

No. 3.—

Extract from the Minutes of Consultation dated 11th March 1843—

Read the following letter from the Post Master General—

(Here enter 13th February 1843 No. 138)

The Most Honorable the Governor in Council having so recently re=resolved that the Overseers of the Post Office Department should be abolished within the limits of this Presidency, and observing that no importa=nt objections, which were not previ=ously before the Government are now urged against the measure re=quires that the arrangements already sanctioned be carried into effect—

If after trial it should be found that Overseers are necessary to the efficiency of the Post Office Department in any District His Lordship in Council will then be prepared to make a further representation

representation on the subject to the Government of India—

The Post Master General will point out the mode in which he desires Collectors to assist the salaried Post Masters in communicating with and in maintaining due control over the runners in their respective ranges.—

/Signed/ J. F. Thomas
Ag. Chief Secretary.

Order thereon— Ordered that a copy of the foregoing orders of Government and of the letter from the Post Master General therein mentioned be furnished to the Collectors noted in the Margin for their information and guidance—.

Pt. Coll.r of Coimbatore
Coll.r of Malabar
Coll.r of Trichinopoly
Coll.r of Madura
Coll.r of Chingleput
Collector of Bellary

Ordered that the following address be submitted in consequence—

14-16

To The Acting Chief Secretary to Government

To the Ag.r to Government ——— Sir,

I am directed by the Board of Revenue to acknowledge the receipt of the orders of Government dated 23d March 1843 directing that the Collectors

Stating that the Board in issuing orders as directed by Government

Ag. Govt. 29 March 1843

to the Collectors within whose districts salaried Post Masters are maintained to give effect to the suggestion of the Post Master General for promoting the efficiency of his department on the abolition of the Overseers apprehend that the arrangement may not prove ultimately either effectual or satisfactory.—

Collectors within whose districts salaried Post Masters are maintained may be instructed to give effect to the suggestion of the Post Master General for promoting the efficiency of his Department on the abolition of the Overseers—

2. Under these orders the Tahsildars and other District authorities on the lines of road will be required to maintain an efficient control over the runners, to station the only runners for the transport of the overland packets taking care that the same persons are always employed and that all are promptly and regularly paid to assist in getting the mail conveyed over any streams or Nullahs, and if delay or detention occurs to investigate and report the cause of it to the Post Master. It appears to the Board that the proper performance of these services will require more time and personal attention than the District Officers may be able to spare with due regard to the efficient discharge of their other duties. The distribution of the Government lands for cultivation supervision

supervision of the accounts of the several Villages, collection of the Revenue, the care and repair of the works of irrigation investigation of police cases and general superintendance of that Department — with other miscellaneous duties at present fully occupy the time of Tahsildars and require them to be frequently moving from one part of their Districts to another often at a distance from the post road and the Board fear these duties will be found incompati= =ble with that minute and careful attention to post Office details which will now be expected of them, in issu= =ing therefore the orders to the several Collectors as required by Government the Board beg leave respectfully to express their apprehensions that the arrangement may not prove ultimately either effectual or satisfactory—

Proceedings.

Read letter from Collector of Tanjam containing his report on the settlement of the Extra Sources of Revenue in his District for Fasly 1251.
A.D. 1841/42

Relative to the Management of the Extra Sources of Revenue in the district of Tanjam for Fasly 1251. A.D. 1841/42

Sent to Tanj. 22nd Dec. 1842.

Para 1.

The gross Collections from the sale of Salt during the Fasly under review as compared with those

Total Collections	
1251	2,63,652 — 4 — 5
1250	23,9319 — 6 — 3
	24,332 — 14 — 2

Fort St. George 30th March 1843.

those of the preceding exhibit an increase of Rupees 24,332 - 14 - 2. the whole of which with the exception of Rupees 422 - 2 - 10 has occurred in the sales of Salt for Inland consumption. In the particulars of increase and decrease both of Home and Inland sales in the respective Cotaurs given by the Collector the Board remark with satisfaction an increase in the Inland sales at the Nanjadah Pans of Rupees 26,826. counterbalancing a deficit to nearly the same amount in the previous year, occasioned by the prevalence of Cholera in the vicinity of the Cotaurs. The decrease Rupees 8,970 - 13 - 3 in inland sales at Onamcoorcottah is stated to have arisen from the stock of Salt at those Pans being insufficient to meet the demand, having been sold off at an early period, but no explanation is afforded as to the causes which prevented the manufacture from being carried on to an extent equal to that of the preceding Fasly which it may be observed was in its turn for Rs. (11716 - 12 - -) below that of 12409/10. The diminished sales at the Woomaravilly Pans are attributed to the merchants having in preference resorted to the nearest Cotaurs in Vizagapatam, it appears

Rs. 6390 - 3 - 9.

however

however from the Vizagapatam Coetra Revenue Report that the sales of salt have fallen off in that province generally and more especially in the Taus of Coonada and Cossilly which are the nearest to the District of Ganjam -

2. In the detailed account of charges suspended by the Collector to his report there appears to be nothing which requires particular remark. these amounted to Rupees 12,444-2-9. which deducted from the gross receipts leaves a net revenue of Rupees 2,51,208-1-8 being Rupees 28,655-13-3. above that of the previous Fusly, a result which the Board consider very satisfactory as indicating an improvement in the healthiness and general prosperity of the District though it is still considerably below the outturn of Fusly 1249. A.D. 1839/40.

Net Revenue.
Rs. 2,67,603-14-2

Sayer.
1251 - 2,371-10-6.
1250 - 23,749-7-10.
2,022-2-8.

3. The gross Collections on account of Sayer exceed those of 1250 (1840/41) by Rupees 2,022-2-8 which is ascribed to the improvement in the general trade of the Districts consequent on the more favorable nature of the past season. the charges are also within a trifle (Rupees 10-3-4) the same as those of the previous year.

Charges.
1251 - 6526-6-8.
1250 - 6516-3-4.
10-3-4

4. The gross amount realized from this branch of Revenue exceeds that for the preceding Fusly by Rupees 4,644-5-8 proceeding from the permanent

Sea Custom
1251 - 6720-1-4.
1250 - 2075-11-8.
4,644-5-8.

export trade, to what place is not specified, in Paddy and raw rice which had been completely suspended during the two previous years.

abkarry Rents
1250 - 26796-8-"
1251 - 26307-"-"
Decrease 489-8-"

5. The Settlement of the abkarry Rents for 1251/1841/42 fell short of that for 1250 by Rs. 489-8-" but the amount realized within the year exceeded that within the preceding Fusly by Rupees 2,463-1-8, the balance outstanding at the close of the Fusly was Rupees 3,035-12-11. of which the Board remark that Rupees 826-8-5 were still due at the despatch of the last account of Demands Collection and Balance from Ganjam in January 1843 the Board trust that this balance will shortly be realized -

Sundry Small Farms.
Demand
1250 - 3159-1-"
1251 - 3203-11-"
Increase 44-10-"

6. The demand under this head as also the Collections exceed those of the foregoing Fusly the former by Rupees 44-10. the latter by Rupees 622-3-11 the balance outstanding at the date of the January account was Rupees 176-13-3.

Collections.
1250 - 2,324-6-8
1251 - 2946-10-7
Increase 622-3-11.

7. The proceeds from the sale of Stamps were Rupees 93-13. above those of Fusly the charges, on account of larger refunds exceed those of the year preceding by Rs. 230.

1250 - 8608-10-"
1251 - 8702-7-"
93-13-"
1250 / A.D. 1840/41

6-6 and the penalties levied under Regulation

II of 1825) by Rupees 141-3-10, the result being a net increase on the outturn of the year under consideration of Rupees 4-10-4.

Moturpha Settlement rents
1250 — 8734-11-6
1251 — 8131-11-6
Decrease 663-3-

8. The demands and Collections on account of this branch of Revenue have both fallen short of Fasly 1250 the former by Rupees 663-3- the latter by Rupees 433-1-8. The amount outstanding at the date of the last monthly account (Sept.) was no less than Rupees 1216 or more than one sixtieth of the whole settlement. The attention of the Collector is particularly directed to the speedy realization of this considerable balance.

Collections
1250 — 6659-1-8
1251 — 6226-
Decrease 433-1-8

Old arrears Arbitrary.
1247 — 83-1-6
8 — 141-8-
9 — 382-8-1
607-1-7
Increase 44-5-5
562-12-2

9. Of the Arbitrary arrears for Fasly 1247-8-9 as given in the Margin, the Collector reports that the sum of 83-1-6 outstanding for 1247/1837/38 it is expected will be hereafter collected Rupees 141-8 for 1248/1838/39 is altogether desperate, while of Rupees 382-8-1 for 1249/1839/40 Rupees 307-13-4 will be eventually realized and Rupees 74-10-9 are irrecoverable. The Board therefore beg to recommend that this sum with that for 1248/1838/39 above mentioned, in all Rupees 216-2-9 may be requested by the Collector be struck out of the accounts. Of the Rupees 1,352-- the arrear for 1250/1840/41 Rupees 480 will ultimately be collected, but Rupees 871-5-- are represented to

to be altogether desperate. this sum is due by the renter of Sanjam who has made good little more than half the rent at which his farm was taken. It is scarcely possible to ascribe this defalcation to other than fraudulent causes especially when the Board perceive that the same farm was the next Fasly taken at an enhanced rent and that was the next Fasly exceeded the total rent

rent - 2020
paid - 1148
872.

rent for 1251-2 1/2 1/2
Collection within Fasly 2/3 1/2 1/4

the Collection within that Fasly. Before applying to Government for their sanction that the above sum may be written off in the Fasl for 1250 - A.D. 1840-41.
Acc accounts, the Board would wish to be further informed by the Collector as to what in his opinion has been the conduct of the defaulter and the causes of so large a deficit as also whether there be not reason to suspect the renter and his variety of concealing their property and whether the extreme measures authorized under Section VIII Regulation I 1820 might not deservedly be resorted to in their case.

10. Of the arrears for Fasly 1250 A.D. 1840-41 in small farms and Moturpha Rupees being Rupees 650-8-4 and on account of 1975-3-11 Rupees 3-15-3 and Rupees 63-3-9 have been collected respectively but the Board would remind the Collector that they have not yet received his detailed report on these balances as promised in Para 20 and 26 of his letter 8th December 1841 and adverted to in Para 3 Minutes of Consultation 8th March 1842.

arrears on account of small farms & Moturpha.
In Cons. 23rd Dec. 1841.
In Cons. 21st March 1842.

11. The gross Collections from all sources of Extra Revenue including extra Collections and those made on account of arrears amount to Rupees 34,667-14-7 the charges being Rupees 2,1264-7-6 thus leaving a net revenue of Rupees 32,403-7-1 which is Rupees 39,399-8-8 above Fasly 1250 A.D. 1840-41. The Board consider this result to be satisfactory.

Ordered that a Copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections, Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Sanjam for his information and guidance.

To,
The Sr. Secretary to the
Board of Revenue
Fort St. George

From R. A. Bannerman Esqre. Collector of Ganjam

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated the 23d ultimo, wherein it is ordered that Copy of certain Paras of a general letter from the Honorable the Court of Directors, be forwarded to me, I beg to bring to your notice, that Transcript of Para 32. has not been furnished with these proceedings, Copy of Paras 87. 88 and 89 of the despatch having only been received. Should it have been the intention to communicate to me the contents of the Para in question, will you have the goodness to cause a Copy to be sent to me.

(26)

Collector.

Resolution thereon.

The Board observe that Para 32 to which the Collector refers does not form part of the Despatch from the Honble Court of Directors dated 12th October 1842 but of the resolutions of Government thereon of the 21st January 1843. It appears from the records of the Board's Office that a transcript of the above Para 32 was furnished to the Collector of Ganjam with Copies of

Acting Secretary to the
Board of Revenue
Fort St. George

(32)

From the Acting Collr. of Vizagapatam.

States that a suit has been recently filed against him as Manager of the Vizianagrum Zemindary for the recovery of the Village Gungavarum, and recommends for certain reasons that the Case be compromised.

Sir

Para 1. A Native Female named Sasha Beebee has recently filed a suit against me, as Manager of the Vizianagrum Zemindary, for the recovery of a Village Gungavarum, assumed in the year 1836. A copy of the Plaint accompanies this letter.

2. I have moved the Court to strike the suit off the File first, because I am not personally responsible for the acts of my predecessors in their management of the Vizianagrum Zemindary; second, because I was ready to try the cause against the parties by whom the Lady was dispossessed in the Agents' Court. Third, because I had never been officially applied to for redress, nor refused the Plaintiff justice and fourthly because, in my judgement the Auxiliary Court could not legally entertain a cause to recover property not within the jurisdiction of the Ordinary Courts, nor enforce any decree relating thereto.

Copy

3. Copy of my Motion likewise accompanies this letter.—

4. The Court has not disposed of this Motion, but proceedings have been stayed thereon, pending the reference which I now make.—

5. I believe that the local Courts assume to themselves the power of hearing and determining all Suits against the Collector and Officers of Government, which had their origin in Orders or acts of these functionaries prior to the passing of Act XXIV of 1839. Thus, Suits against Mr. Arbuthnot, pending at the time of the promulgation of that Enactment, have been retained on the files of the respective Courts, and are still prosecuted under a construction of the Enactment laid down by the Sudder Udalut. The reasoning in support of this construction of the Law it is not in my power to explain, for I do not understand it. But the same arguments which suffice with the Judges to prove that former Suits may be carried on legally for property now out of their jurisdiction,

jurisdiction, will satisfy them of the competency to admit fresh Plaints having reference to acts that occurred before December 1839.—

6. I am of opinion therefore, that the point I have mooted of the incompetence of the local Courts to entertain this case will not be sustained.—

7. The merits of the case are as follows. Gungaramum was included as Jersyetty in the Estimate of the assets on which the permanent Settlement of Vizianagrum was fixed. But in the original accounts of the Village it is there styled (in an interlineation) Kaunaul Sahib's Mocaspah. This entry has most probably been foisted into the accounts, but the point is not very material.—

8. For it appears that ever since the permanent Settlement it has been held and enjoyed as a Mocaspah. In 1805 it was held under a Hirsaul Coole, by one Shaik Ally, subject to a payment annually of Rupees 138-10.— From 1807 to 1824 it was held under the same title by one Mahamed ally Khan son of Kaunaul Sahib.—

† His relationship to Kaunaul Sahib is unknown.

In

Fort St. George 30th March 1843.

9 In 1824 it was transferred by the latter professor to a female named Vizeerbebee, in satisfaction of a decree for a sum of money passed in her favor, and in 1832 the aforesaid female applied to Mr. Gardiner, and had the village registered in her name in the publick accounts.

10 Vizeerbebee died in March 1836 without issue, and the present claimant is her Niece. The death of the incumbent was reported to Mr. Freese the Collector who resumed the village, and on Sashabebee presenting a Petition he rejected the same, stating that the land was Jerayetty and that her claims were invalid.

11 Subsequently Shashabebee addressed a Petition to the Board of Revenue on the 13th March 1839, who returned the same with an intimation, "that with reference to Mr. Freese's endorsement they declined passing any orders in this case." In July 1840 an application to Government met with the same ill success.

12 I am of opinion that under this statement of the facts the length of time the village has been continued

Fort St. George 30th March 1843

with the Rajah's permission as a Nuzzaranah to various parties in regular succession, the Registration of the Village by Mr. Gardiner in the name of the Plaintiff's Aunt, and for other reasons, that the Ordinary Courts would not hold the assumption of the Village justifiable in the summary method pursued by Mr. Freese, and would decree accordingly.

13 I think it would be advisable therefore, and that in the end it would be most conducive to the interests of the Estate committed to my temporary management, to compromise the case. This, I have reason to know, may be easily done by admitting the Plaintiff's claim to the Village for her life, on the distinct renunciation by Shashabebee of her right to the same as a permanent alienation. The village would thus be included as Jerayetty on the death of this female.

14 Shashabebee will agree to this, and I request the orders of the Board accordingly, whether or not they approve of the question being settled in this manner as the Courts' Proceedings are at present stayed on my requisition, I trust I may be favored with your answer at an early period.

Vizagapatam, Governor's Agents Office, 21st March, 1843. } /Signed/ P. B. Smollett
A.G. Agent to the Govr.

To

5143. Fort St. George 30th. March 1843.

To

No. 1

Maharajestry the Auxiliary Court at Vizagapatam.

Plaintiff Shashabebee of Cajeincottah — Defendant P. B. Smollett Esqr. Acting Agent to the Governor and Manager of the Vizeanagrum Zemindary.

1st. The Plaintiff states that the village Gungavarum of Lanadah Mootah of the Vizeanagrum Zemindary was obtained as Mokaspah by the ancestors of one Camaul Saheb, anterior to the Permanent Settlement, in the accounts of which it was inserted in the name of the said Camaul Saheb and continued under him and his sons Mohammed Ally Khan respectively up to the year 1824, when the Village and some other immoveable Property of the said Mohammed Ally Khan were made over to Vizeerbebee (the adoptive Mother of the Plaintiff) by virtue of a Deed of sales of date the 27th. December 1824, passed by the said Mahommed Ally Khan in satisfaction of a Decree for Rupees 5350-1-8 passed in her favor by the Vizagapatam Zillah Court in No. 496. of 1816, and which was represented to

5144. Fort St. George 30th. March 1843.

to the Zillah Court of Chicacole by a Motion presented jointly by both parties on the 30th. December 1824.

2d. The said Vizeerbebee having taken possession of the village and other Property as above stated, enjoyed the same from the year 1825, paying a Cuttaboady of Rupees 138-10-. to the Circar and when the Vizianagrum Zemindary was taken under the management of the Collector of Vizagapatam, She presented an arzee to that authority to insert her name in the accounts as Mokaspadar of the village in question, who in reply issued an order to her on the 4th. December 1832. intimating that her request was complied with. She engaged the said village as Mokaspah paying Cuttaboady to the Circar up to the year 1835.

3d. The Plaintiff being Daughter of the Sister of the said Vizeerbebee and adopted by the latter, and there being no other heirs, She made out a Will on the 25th. November 1835 nominating her (the Plaintiff) as heir to all her property, and died on the 20th. January 1836.

Both

Fort St. George 30th. March 1843.

4th. Both during the time that Vizeerbeebee lived after executing the Will, and after her death, the Plaintiff had posession of the village Vea. and paid the Cuttoobady that was then due for Fusly 1245 to the Aumeen of Chadavarum Tanah, who in March 1836 prevented her from enjoying the Village after instigating and taking a report from the Curnum and Naidoos of the Village to the effect that the Plaintiff is the Daughter of Vizeerbebees Sister, and was adopted by her, altho she made known to him her just claims and documents.—

5th. Upon this the Plaintiff presented a Petition on the 10th. March 1836 to Mr. Freese then Collector, setting forth her claims Vea. but that Gentleman was pleased to return the Petition endorsing on it that the village in question was inserted in Permanent Cowle as "Serogett" and supported by the report of the aumeen who maliciously stated that she could not produce adequate proof as to her being the poseesar of the village.

The

Fort St. George 30th. March 1843

6th. The Plaintiff submitted thro' her Vakeel the following Documents to Mr. Freese the then Collector Viz.t The Deed of sale passed by Mohomed ally Khan to Vizeerbebee, the authenticated copy of the Motion jointly presented by the above two individuals to the Court, the order issued by Mr. Gardiner the late Collector in the 4th. December 1832, stating that Vizeerbebees name was entered in the accounts as Mokaddam of that village, an attested Extract of the Permanent settlement accounts granted by the Collector Mr. Mason shewing that, that Village is a Mokaddam, and the Will of Vizeerbebee and other proofs but that Gentleman without bestowing any consideration in them, caused the village to be taken into Circars amauny.—

7th. The Plaintiff afterwards represented the above circumstances to Mr. Arbuthnot the Collector, but obtained no redress. Colonel C. T. Smith having taken a power of Attorney from her, addressed the Defendant on the subject

who

who stated that he cannot infringe the orders of his predecessors but that the Plaintiff may have recourse to the Civil Court.-

8. It is not just that the late Collectors and the Defendant should from the end of Fusly 1245 take the village, while it evidently appears by the Official proofs specified in Para 6 that it was uninterruptedly enjoyed by the Mokassadar and his heirs from a considerable time, and subsequently by Vizeerbebee who became possessor of the same by purchase.-

9. The circumstance of the Plaintiff being heir to Vazeerbee-bee's property by virtue of her Will, was proved to your Court in Extra Motion No. 1060 of 1842, and your Court had granted a certificate to that effect.-

10. The Plaintiff therefore prays that the Court will after examining her documents and witnesses, be pleased to restore her the Mokassah Village situated within the undermentioned boundaries yielding 400 Rupees annually, together

together with Rupees 1829-10-- being the produce of the village for 7 years from Fuly 1246 to Fusly 1252 at Rupees 261-6-- per annum, after deducting the yearly Cuttoabady as mentioned in the Defendants proceedings dated the 16th September 1842 Vizt. Rupees 138-10-- from the Suit Rupees 400 and the Costs of the Suit 27th December 1842.-

No. 2.

Motion presented to the Auxiliary Court Vizagapatam by P. B. Smollett Esqr. Acting Agent to the Governor of Fort St. George in Vizagapatam, and Manager of the Vizeanagrum Zemindary.-

In reference to the Plaint filed against the Acting Agent by Sasha Bebee it is submitted to the Court that the Defendant is wrongfully sued,

sued, and he prays accordingly that the Plaint be struck off the Courts file.

It is apparent from the Plaintiff's own statement that her complaint has reference to acts committed by Mr. Freese, as Manager of the Vizeanagrum Zemindary when that Officer was Collector of Vizagapatam, in assuming wrongfully the Village of Gungavaram. It is manifest, therefore, that it is from Mr. Freese, as manager for the Rajah of Vizeanagrum, and from the Rajah his Principal, that reparation by action must be sought, agreeably with the Regulations and acts of Government, but the present Defendant submits that he had no concern in the act complained of, that he has never been applied to for redress, and he moreover disclaims participation in, or responsibility for the acts of former Managers and agents for the Zemindar of Vizeanagrum. He submits then to the Court that the Plaintiff should sue Mr. Freese, or the native ameen, and the Zemindar of Vizeanagrum, on whose behalf and for whose

whose benefit the land claimed was resumed, and further that such action, under act XXIV of 1839 can only properly be brought in the Agents Court, and not in the Ordinary Courts of Udalut.

The Collector and Agent, he contends, must be regarded in this matter simply as the duly authorized Agent of the Zemindar of Vizeanagrum, for whose benefit he manages the Estate. The real object of the suit is to recover a Village from the Zemindar, the proceeds of which he now enjoys, but the provisions of the act quoted place that Village beyond the Jurisdiction of the Ordinary Courts. Neither could the Rajah be sued therein for the recovery of such Village, nor his Manager, whether he be European or native or a covenanted servant of Government, or a private individual.

Altho' the agent is at present, likewise manager of the Vizeanagrum Estate, yet his duties in that office are quite distinct from those of his official Employment. He is only Manager as long as it shall please the Zemindar to continue to entrust

entrust him with his delegated authority - This trust might be withdrawn at a moments notice, or it might be thrown up by the agent, if he thought fit, with permission of Government to decline longer to conduct the management for the Zemindar -

For these reasons both because personally the Defendant had no concern whatever in the subject matter of this Plaint, and that he has never been applied to by Plaintiff, nor refused her satisfaction; and because the suit, if brought at all, should be brought against the actual wrong doer or against the dunnees who ousted the Village, or against the Zemindar, or against all, and in the agents Court, the acting Agent begs that the Suit be struck off the file, and the Plaintiffs be ordered to seek redress through any other authorized channel as she may be advised -

The agent will submit if required an answer on the merits to meet the Plaintiffs Demand, but he considers it necessary in the first instance to object to the Auxiliary Courts

Courts Jurisdiction in the matter at issue - He cannot comprehend on what grounds a suit for the recovery of Revenue possession of a Village in a tract withdrawn from the Ordinary Courts can be entertained, or how its decree can be legally enforced -

/Signed/ P. B. Smollett
Acting Agent to the
Governor.

(32-33)
33

Proceedings thereon - Parat - The Village of Canagawaram is stated to have been included as Jeroyetty in the estimate of the assets on which the permanent settlement of Vizeanagrum was fixed - In the original accounts of the village it is however styled in an interlineation, Kamaul Saheb' Mocassah - altho' this entry be open to much suspicion, the village seems nevertheless to have been held as Mocassah, ever since the permanent settlement - In 1805 it was held under a Hirsaul Cowle, subject to an annual payment of Rupees 138-10- by one Sheik Ali whose relationship to Kamaul Khan is not known - From 1807 to 1824 it was enjoyed on the same tenure -

by

Approving of the suggestions of the Acting Govt. Agent for Vizagapatam; for effecting a Compromise with Sasha Boobee who instituted a suit against him for the recovery of a Village in the Vizianagrum Zemindary -

by Mohamed Ali Khan son of Kamaul Khan. In 1824 it was made over by this last holder, in satisfaction of an amount decreed in Court to one Vizeer-bebee who in 1832 on application to Mr. Gardiner the Collector had the village registered in her name in the Public accounts and held it until her death without issue, in 1836. It was then resumed by the Collector Mr. Freese.

Shasha Bebee the present claimant is Niece to Vizeerbebee by whom as her plaint states she was adopted, and a Will made in her favor, and on these grounds she has commenced the present suit against the Government Agent for the recovery of the village in the Auxiliary Court of Vizagapatam.

3. Mr. Smollett has moved the Court to strike the Plaint off the file, for reasons given in Para 2 of his letter, the most tenable of which appears to be the incompetency of the Court to entertain such Suits subsequently to the passing of act XXIV. 1839. He at the same time intimates his doubts as to the success of his application, and

and his apprehensions of an unfavorable issue if the cause be permitted to proceed to trial, and on these grounds proposes a compromise in which the Plaintiff is willing to acquiesce, the conditions being that she shall enjoy the village on Inocapah tenure during her life, and that it shall revert as Jeroyetty to the Rajah after her death. Further proceedings in the Auxiliary Court have been stayed, pending the present reference.—

4 Altho' the entry as Inocapah in the original accounts be liable to much suspicion, yet adverting to the length of time during which the village has been continued with the Rajahs permission to various parties in regular succession, and the circumstance of it's having been transferred for a valuable consideration to the aunt of the present claimant, and registered by the Collector in her name in the Public accounts, the Board entertain doubt of the propriety of supporting the summary resumption made

Fort St. George 30th March 1843

made by Mr. Fraser, and approval of the compromise now suggested. It is obvious to remark that if the son of the party in whose name the village originally stood consents to transfer it to Vizeerbebee in satisfaction of a decree, no question can be raised as to the legal right of the Plaintiff to convey it to the Rajah after her decease, in the manner now contemplated.

40

From the Collector of Gun. Para. 1 Have the honor to acknowledge the receipt of an Extract from the Board's Proceedings forwarding an Extract from the Minutes of Consultation calling upon me to state what measures I would suggest to remedy the great inconvenience stated to result in the Police Department from the constant employment of the Peons in the Town of Bunder in escorting treasure to Ellore and Condapilly.

Suggesting measures for the Escort of remittances to Ellore & Condapilly for the Payment of Peons with the view to remedy the great inconvenience resulting from the constant employment of Police Peons on that account.

2. I find that previous to my arrival in this District the practice of deputing Police Peons in the Bunder Division exclusively on the said duty had been discontinued, and that two Peons from each of seven Talooks in the District including the Bunder Division or 14 Peons in all were ordered to be constantly available at Masulipatam for the purpose of escorting remittances to Ellore and Condapilly which are generally despatched twice a Month.

3. This Number of Men can ill be spared from their usual duties considering the small

5161 Fort St. George 30th March 1843.

small body of Peons now employed in each Talook and the numerous duties they are called upon to perform in the Revenue and Police Department and I am therefore of opinion that a small Military Guard should be placed at the disposal of the Collectory Magistrate for the purpose. This arrangement would afford greater security in the conveyance of the Money which at times amounts to nearly twenty thousand Rupees.

4. Should this proposition do not meet with the approval of Government I would recommend the employment of 14 Extra Peons and 2 Duffadars the former at 4 Rupees and the latter at 5 Rupees each per Mensem.

To C. C. Lovell Esqre

Acting Secretary to the

Board of Revenue

Fort St. George

Sir,

From A. Mellor Esqre
Collr & Magistrate
of Bellary

With reference to the remarks contained in the 4th Para of the Board's Proceedings under date the 27th February 1843, I have the honor to forward Copy of a letter received from the Medical Officer attached to this Collectorate. Mr Pelly the Sub Collector, in making his observations upon the health of the District had I feel confident, no intention whatever of implying that no efforts had been made by the Collector. The Board have misconceived Mr Pelly's meaning in supposing that he, in alluding to the success which had attended the Dresser's efforts, referred to Cholera, I believe Fever was the disease that he referred to, as having inraged with great violence at and near Anuntapoor. I explain this circumstance because it otherwise militates against Dr Edgcome's Statement. The Board had before them also my detailed reports shewing that I had not neglected this

44

4th Jan'y 1843.
11th Dec'r "

Fort St. George 30th March 1843.

this important subject, I had already submitted a Statement pointing out in what way I thought the ravages of Cholera might be alleviated, and the detailed Statement and the expense are at this moment engaging my earnest attention. It would be difficult I think for any Collector living as I have for 3 years with Cholera on every side of me to forget its presence and be neglectful of any measure likely to stay its attacks. I think I am entitled to state that I am not aware that I have subjected myself to such a charge, as I consider the Para above alluded to likely to produce an unfavorable impression. I take the liberty to request that the Board will submit Dr Edgcome's report to Government together with this communication.

Bellary Collr & Magestrate's Office 21st March 1843.

(Signed) A. Mellor
Collector

No 1.

To A. Mellor Esqre

Collector of

Bellary.

Sir,

I have the honor to

acknowledge

*Extract from the Proceedings of the Board of Revenue dated 27th February 1843.

acknowledge your letter of the 18th Instant and its Enclosure†.

It has been the practice whenever Cholera has prevailed extensively in this District to send Medicines to the Amildar of the Talook in which it appeared for distribution to the sufferers through the Heads of Villages and such means were largely employed during the period to which the Summahbundy report refers. The Dresser in my absence on duty with the family of the Sub Collector, was also detached to afford Medical Aid in the western, and subsequently at your requisition in the Northern Talooks, and though his treatment was successful as far as our remedies were permitted to be used, I must not disguise the fact, that our best intentions are too often contravened by the ignorance and prejudices of the people - they refuse to avail themselves of the proffered means.

Notwithstanding the general prevalence of Cholera in 1841-42, I had little opportunity of contributing in

in person to its relief, the Establishment of the Collector enjoyed a remarkable exemption from that terrible disease, you will remember however on one occasion when the Cutcherry was at Hospett, it appeared in that Town, and also among our Camp followers, and that the means employed were attended with a large measure of success. I was accompanied in my rounds by one or two of the more intelligent of the Inhabitants (Mussulmans) who requested that some "Cholera Medecine" might be left with them to meet any future contingency - which was of course complied with.

With respect to additional aid to be allowed in the event of Cholera ever again raging with violence in this Collectorate, I know of no plan which would be adopted at once so effective and economical, as that of the Medical Officer in Charge being permitted, in communication with the Collector, to entertain temporary Dressers either by Indent on the Commissariat Department or independantly of that medium - Medical Pupils

Pupils who, tho' they may have failed to attain the higher standard of qualification now required of Medical Subordinates, have still a fair Knowledge of diseases and of the ordinary Methods of cure, might be probably be found in the Garrison, and Native Doctors are always available. The services of the District Vaccinators might also be enlisted on the outbreak of any epidemic disorder. the latter plan would be inconvenient, and is likely to be attended with far less advantage than the employment of Special Dressers; and I have always felt sceptical as to the amount of benefit derived by distributing Medicines through the intervention of Amildars, or other non Medical district authorities—

Finally the nature of the Sickness alluded to, by Mr. Kelly and which occurred in the neighbourhood of Anuntapoor, was Fever and Dysentery not Cholera and though formidable in extent was comparatively mild in character. Extra supplies of medicines were despatched from this place, with suitable instructions

instructions to the Dresser, to meet the emergency. He had fortunately an opportunity, arising from a happy incident, / The recovery of a Village Curmum who at first obstinately declined all assistance / of applying his remedies in a greater number of cases than usual and the result of his efforts was certainly very satisfactory—

Bellary March 20th 1843. } (Signed) G. Edgcome Asst. Surgeon

Ordered that the following letter be sent in reply—

To The Collector of Bellary—

Sir,

To the Coll.r of Bellary } Para 1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 21st instant giving cover to a communication from Assistant Surgeon G. Edgcombe and offering explanation in reference to Para 4 of their Proceedings of 27th Ultimo—

44-45

Received 30 March 1843.

2. The Board would observe that you appear to have altogether misapprehended the tenor of their observations contained in the Para above mentioned— It was in no degree their intention to imply

imply that you had been "neglectful of any measure likely to stay the attacks of Cholera" nor do they conceive that their expressions are susceptible of such interpretation. On the contrary they intimated their belief that the "humane endeavors of the Collector to stay the fearful ravages of that disease were not wanting" and invited any further suggestions on the subject which you might have to offer. Under this impression the Board do not consider it necessary to forward your letter to Government as you have requested.

3. The Board have observed with much satisfaction the attention which you have paid to the health of the Province under your management, and hope soon to receive the detailed Statement mentioned in your letter as to the measures to be adopted and expence to be incurred for the purpose of preventing disease by cleansing the Principal Towns in your district. They further consider the suggestions offered by Dr. Edgcombe as to the propriety of entertaining Extra Dressers on occasions when Cholera or other fatal diseases are more than usually prevalent

prevalent to be well worthy of attention, and will be happy to recommend favorable consideration of Government if made the subject of a separate communication.

Revenue Board Office; Fort St. George, 30th March 1843.

(Signed) C. C. Lovell
Acting Secretary

Read letter from the acting Principal Collector of Cuddapah forwarding his report on the Extra revenue of his district for fusly 1251 A.D. 1841/42.

5th in Cons 17th Oct. 1842.

Proceedings thereon,

Relative to the Management of the Extra Sources of Revenue in the District of Cuddapah for fusly 1251 A.D. 1841/42.

46

The gross demand under this head of Extra revenue exhibits an increase above fusly 1250 A.D. 1840/41 of Rupees 2506-4-9 but of this sum Rupees 3539-7-8. the Acting Collector explains to be only an apparent increase, being the excess of Sayer receipts from the Bunganpilly Jagheer above the 7,000 Rupees fixed by Government to be paid on that account to the Jagheerdar, which surplus has this year "been credited as Collections of the district" it is presumed from

Sayer.

Fusly 50	2,03,074-11-7	
add	4505-7-3	excess from B Jaghire
	2,07,580-2-10	
Fusly 51	2,28,080-12-4	
	20,500-9-6	real increase in Fusly 1251.

from the heading of Column N of the Statement in Para 14 as receipts from the Coilgoonta Chokie, tho' not explicitly stated and is included in the Sayer total for fusly 1251 / A.D. 1841/42. inserted in Para 2 of the report, while no credit is not given in the Total for 1250 / 1840/41 for the excess resulting from a similar cause in that fusly. It may be remarked however that if the accounts of both years are adjusted the apparent increase will be still more than above exhibited. Thus the Sayer revenue from Bunganpully for fusly 1250 / A.D. 1840/41. as appears from Para 14 was Rupees 11,505-7-3. or Rupees 4,505-7-3. above the sum allowed to the Jaghiredar to which amount as omitted in the total of 1250 / 1840/41. and not to Rupees 3,539-7-8 as stated by the acting Principal Collector the increase may be said to be only apparent. Deducting this sum then from the total increase of the year under review, there will remain a real and actual increase of Rupees 20,500-9-6.

This

2. This favorable result appears in part to have proceeded from the enhanced rents at which the farms of Betel, Tobacco, Godauk, Ganjah and Bang were this year taken, exhibiting (Vide Statement No 2 in the letter of the acting Principal Collector, June 28th 1842) an increase of 4,431 Rupees above those for the year preceding. It is further stated to have arisen from the augmented consumption and transit of Arecanut, Silks and Indigo, the latter Crop especially having been the longest ever known in the District. The acting Principal Collector does not however particularize, nor do the accounts submitted shew the extent to which the Revenue has benefitted by the increased trade and production of each of these important articles respectively. The whole demand was realized within the fusly but for reasons unexplained Rupees 9,395-7-7. could not be carried to account till after its close. The Charges are Rupees 192-13-11 below those of the previous year.

3. The outturn under this branch of Extra Revenue was Rupees 7985-0-0 in excess of Fasly 1250 (A.D. 1840/41) the whole has been realized Rupees 10348-1-1 within the fasly Rupees 3186-14-11 since its close.

Small Farms &c
1250-1651-1-8
51-1640-14-4
1244-3-4

4. There has been a decrease under this head of Rupees 1244 of which nearly half, Rupees 586 has been in the farms for Orchards or Topes arising from the past season having been unfavorable for the produce of the Tamarind and Mango Trees.

Moturpha
1251 13340-0-4
1250-13673-15-10
727-0-6

5. In the Moturpha there has been an increase of Rupees 727-0-6 composed of Rupees 96-15-6 of Veesabuddy and Rupees 630-1-0 for Bagur Veesabuddy. The whole of the above demand has been Collected with the exception of Rupees 312-10-2 the greater part of which it is expected will be realized hereafter. The standing sum of Rupees 162-10- paid to Paghiredars and Cranidars as the Amount of Moturpha Collected in their Village constitutes the sole charge under this head.

Stamps
1250-23559-15-0
1251-21363-15-0
2196-0-0

6. In the Stamps there has been a falling off of Rupees 2196 the result of

1250-1245-1-10
1251-1054-1-5
221-0-5

Old arrears

of deminished litigation. In the charges there has been a proportionate decrease.

From Para 12 of the report now under review and the Statement annexed the Board learn with satisfaction that of Rupees 18157-9-1 outstanding on account of old arrears at the close of Fasly 1250 (A.D. 1840/41) Rupees 16972-6-8 have been collected in fasly 1251 (A.D. 1841/42) and Rupees 109-14- more up to September last. The remainder or Rupees 1075-4-5 is due on account of Moturpha for the years 1248 (1838/39) - 9-50- 39/40-40/41. Of this sum the acting Principal Collector considers Rupees 349-5-4 recoverable, and the balance of Rupees 725-15-1 desparate and requests permission to strike it out of the accounts. On referring to the detailed Statement of these arrears No 14, the Board remark that the sums charged under the heads noted in the Margin and Amounting to Rupees 217-7-9. can hardly be termed balances in

Unusual ...	107-13-5
id est charged errone=ously on parties not liable by Custom to pay it.	
Amount charged twice	47-7-6
Persons who do not make profession ie ply the calling for which they are taxed	57-12-0
Ryots who undertook Cultivation and thus became exempt from Moturpha	4-6-10
	217-7-9

in as much as these were never actually due and were only by oversight or inaccuracy entered in the demand, the remainder Rupees 508-7-4 is owing by Ryots who have died or emigrated or who are utterly without the means of payment and the Board beg to recommend that the total of Rupees 725-15-1 may be written off, as requested by the Acting Collector.

Bungampully 8. The Settlement of the sources of Extra Revenue in the Jagheer of Bungumpully for Fasly 1251 (A.D. 1841/42) exceeds that for the previous year by Rupees 95-15-8 the increase in Abkarry (Rs. 842) and Moturpha (Rs. 233) more than compensating for the falling off in Sayer Rupees 965-15-7 but these fluctuations do not call for particular Remark. The demand in every branch was realized by the 5th October last, except in Moturpha in which there was a balance of Rupees 415-8 at that date. Of the old arrears (Rupees 2,027-12-7) there had been collected Rupees 1,591-1-3 and there was outstanding a balance of Rupees 413-3-2 into the particulars of which the acting Principal Collector

Collector promises to enter in his report on the Extra Revenue of the current year.

9. Of the Settlement of all branches of Revenue (exclusive of Bungampilly Jaghire) or Rupees 5,10,925-10-4 there remained at the date of the last Monthly account of Demand and Collection for January 1843 the trifling balance of Rupees 163-9-3. The gross collections for current and arrears amounted to Rupees 517,211-8-4 the charges Rupees 17,287-12-2 leaving a net revenue of Rupees 4,99,923-11-10 or Rupees 30,418-10-4 above the net return of the preceding fasly. The Board consider these results very creditable to Mr Arbuthnot's management.

Ordered that a copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections Charges and Net Revenue, be submitted to Government, and a transcript of the same be forwarded to the Principal Collector of Cuddapah for his information and guidance.

Abstract Statement Decennial Revenue

| | | |

2. In the Proceedings of the Board of Revenue dated the 7th June 1840 it is observed that the inefficiency of the Cutbuddy Peons in Cuddapah has frequently of late years been brought under the consideration of the Board of Revenue and the cause of this has been ascribed to the inequality and the insufficiency of the remuneration they receive. The lands they possess are in many instances though nominally held on a favorable quit rent more highly taxed than similar lands held by ordinary ryots under the survey assessment.

3. To remedy this, it is proposed to dispense with the services of such of the Cutbuddy Peons as are not required and in favor of the others, to make a reduction of the quit rent, now payable, to an extent that will leave the incumbent such a decent emolument, as his station, and the nature of the services he is called upon to perform, demand, but to leave none in a worse condition than they are at present or saddled with a higher payment than they now discharge.

With

4. With reference to the above observations and the opinion of Mr. Blane recorded in his letter dated the 16th August 1839 I have in the Statements now submitted fixed C. P. 8-1-0 or Rupees 23-10-0 per annum as the minimum of remuneration to be allowed to those persons who are required to continue their services.

5. The remedy proposed by the Board is very reasonable and, if it could be generally applied, could easily be carried into practical operation but a large majority of the Cutbuddies held survaenams, that is Enams on which no quit rent is charged which do not yield them C. P. 8-1-0 per annum, and others, even after the remission of the quit rent in full will not receive emoluments equal to that sum.

6. To make the measure of relief general therefore, it will be necessary not only to remit the quit rent now payable, but to make up the deficiency to such persons by granting them either additional Enams out of the ayacut Punjer, or an equivalent in ready money. There are indeed

some

some Villages in which no waste land is suitable for cultivation is available and therefore unless a ready Money allowance is granted, it will be necessary in lieu to remit so much of the assessment on lands usually cultivated by the Cutbuddy Peons as will bring their emoluments up to the proposed standard.

7. I conclude that the observations of the Board of Revenue above quoted were intended to refer to all classes of Village Peons who however different their original occupations, are now indiscriminately employed in all Revenue and

and Police duties.

8. The Statements now submitted have been prepared on the above principles and will supply the Board with full information regarding all details of the measure under consideration. I shall therefore proceed as briefly as possible to explain the results.

9 The following figured Statements exhibits the number of Cutbuddy Peons in each Talook throughout the District and the total Amount of their emoluments.

From

10 From the above Statement it will be observed that I have divided the Cuttuddies into 4 Classes.

1st. The Sungee Cuttuchuddies who as their name implies were originally entertained for Military rather than Police purposes. They were the adherents of the Poligars or feudal chiefs who were formerly so numerous in this District. The Enam held by them was only a sort of retaining fee. It was the only regular pay allowed them but whenever they were called out into active employment either as an escort to their Chief or to take part in the petty warfares then so prevalent they received a liberal remuneration as battah.

11 On the assumption of the Province by the British Government the Villages of the Poligars were resumed and a Money allowance substituted for the offices and Previleges which they formerly enjoyed. It was however good policy to leave the Enams in the possession of their followers and I have

I have no doubt that this was done more in the hope of converting into quiet peaceable cultivators, persons who would otherwise have earned a subsistence by their former occupation of robbery and thieving than in the anticipation of deriving much benefit from their services, and this object has been in some degree attained. This class who were formerly celebrated for their turbulence and martial spirit are now scarcely to be distinguished from the other Village servants.

12. The 2d. class comprizes under 8 denominations, the Village Peons who were more especially employed in Revenue duties and the realization of the Rents.

13. The 3d. class formed the Police of the District and were held responsible for the suppression of Crime and the apprehension of offenders.

14 The 4th. Class the Paria and Chucklers performed all the more menial offices of every description such as carrying the baggage of the Troops escorting Travellers, and the Tappel Runners with fire sticks, removing the dead bodies &c.

15. The following are the details of

5189

Fort St. George 30th March 1843.

Of the total Emoluments of the Cutbuddy Peons.

Total Enam	Mara Vurtna and Ready Money	Total	Sadee paid to Circar	Net Amount enjoyed by the Enamdars
Rupees a p	Rs a p	Rs a p	Rs a p	Rs a p
305765 2 2	14101 8 10	319866 11 -	26704 2 6	293162 8 6

16. The total number of original Cutbuddy Peons as shewn in the Statement subjoined to Para 9 amounts to 1171 of those 8074 held Enams free of any quit rent. The following Statement will shew the Cost of making up the Emoluments of those Peons whom it is proposed to retain to the sum of Rupees 23-10-- per Annum.

From

L.G.B.

Fort St. George 30th March 1843.

From the foregoing Statements it will be seen that to grant the sum of C.P. 8-1-0 or Rupees 23-10-0 to every Cuttoobuddy it will be necessary to remit Quit Rent to the Amount of Rupees 6,362-8-7 and to grant in land or money the additional sum of Rupees 69,524-14-7 thus incurring a total nominal increase of expenditure to the extent of Rupees 75,887-7-2. I say nominal increase because the grant of uncultivated land cannot be considered an actual outlay.

18 I must likewise observe that the number of Cuttbuddies whose services will be required hereafter has been estimated according to the Statements prepared by the Tahsildars of the respective Talooks but if the measure were ordered to be carried out of course a strict enquiry would be made at the time of Summabundy in each talook and some reduction might be effected. At the same time it must be remembered that there are in this District exclusive of the Poongunoor Jaghire 1766 Principal Villages and 8,199 hamlets and that with the exception of the Zungee Cuttbuddies who are I believe peculiar to this District

Vide No. 142 of the Zummabundy accounts.

District, the other classes of Village Peons is though under different names form part of every Village Community in Southern India and that therefore no very large reduction in the number of Cuttuddy Peons can be anticipated.-

19 Before leaving this part of the subject, I must bring to the notice of the Board that a few of the Peons actually pay more than the regular assessment of the lands, after deducting the authorized remissions whatever light the rest of the question may be viewed there can be no doubt that this ought at once to be remitted - It amounts altogether to the small sum of Rupees 180 - 12 - 5 as will be seen by the following figured statement.-

Talooks-

	Talooks.	No. of Persons	Total assessment of the Enam	Net Assessment after deducting remissions	Rodee payable to Circar	Excess above the Quit rent -

It

20 It now remains to be considered whether the advantages likely to be derived from the proposed reform are such as to compensate for the increased expenditure which it will necessarily involve.-

21 This question is so connected with the Police administration of the District that I have entered into the consideration of it at some length in my annual Report - on this account therefore and because I know that the Board take a great interest in the general state of the Police of this District I beg to submit a Copy of that Report for their information. From its perusal the Board will observe that I have not concealed my apprehension that little improvement will be effected in the conduct of the Cuttuddy Peons from this amelioration of their condition unless they are at the same time placed under more efficient supervision and control, and this in my opinion can only be looked for in a thorough reform of the Village Police.-

22 That the Village Police of this District is not only very inefficient but generally corrupt has been admitted by every Functionary, and they have been

been sufficiently numerous, who has been employed in it. In attributing this lamentable state of things to the subdivision of Service Enams, I am I believe, supported by the recorded opinions of almost all my Predecessors.

23 It seems to me high time that in the appointment and remuneration of officers holding so important a place in Society as the Reddies and Carnams we should cease to be guided by the Customs of each separate Village and that a fixed and uniform System should be established throughout the Presidency.-

24 Disputes in regard to succession to these Offices and to the enjoyment of the Enams attached to them are constantly arising, and a Collector in deciding them is frequently at a loss as to the Law by which he is to be guided. Is he strictly to follow the Hindoo Law of inheritance or is he to decide in favor of that arrangement which may seem most expedient? Again does the decision in favor of an individual to a share in the Cheraft give him a right to enter on the enjoyment of the Enam attached to an office the duties of which he may

may not be required or may not be competent to perform?

25 It will perhaps be observed in reply to these questions that the best plan will be generally to follow the Law of inheritance and the usage of the Country but that the Collector is authorized under Regulation VII of 1831 to make any other arrangement which the circumstances of the case may seem absolutely to require.

26 It has been observed by both Mr. Cadamajor and Mr. Blane, that the discretion thus vested in a Collector is scarcely ever exercised and why? Because so long as such interference with the law of succession and usage is opposed to the general practice every instance in which it may be resorted to will be considered a case of individual hardship and will give rise to animosities and heart burnings in the very Communities for above benefit was intended. Besides appeals will always be preferred against such decisions and it may not always be easy to satisfy Persons at a distance of the necessity of departing from the established usage though it may be perfectly evident to the officer who is on the spot, and at any rate the attempt to do so will occupy more

more of a Collector's time than he with justice to his other duties can conveniently spare.

27 Nor are the instructions of the Higher Authorities always consistent as to the principles on which disputes to the succession and the enjoyment of of service Enams are to be decided.

28 In an Extract from the Minutes of Consultation dated the 30th December 1841 it is observed, "that the "practice of partitioning Enams granted for "the performance of Public duties it is "believed prevails to a great extent in the "district of Cuddapah, but as it is evidently "an abuse it should be peremptorily prohibited "in future" and the Secretary to the Board of Revenue in his letter dated 27th September 1841 to the address of the Chief Secretary to Government writes thus "with reference to the observation con- "tained in the 6th Para of Mr. Ashton's letter "regarding the alienation of a portion of the "Enam to persons not holding the office the "Board entirely concur with him in opinion "that such a practice should be disallowed "and the proceeds of service Enams appro- "priated exclusively to the benefit of the "Party by whom the service is performed."

But

But these observations in the justice of which I must fully concur do not appear to be supported by the instructions contained in the Proceedings of the Board of Revenue dated the 16th. December 1841 and the 25th. August 1842 the former of which were approved of by Govt. in the Minutes of Consultation dated the 8th. July 1842, and to use the words of Mr. Blane, when writing on the same subject although it is laid down as a general rule that only the holders of offices are actually entitled to the enjoyment of the Enam, yet the Board are aware that claims of every kind between Cosharers out of office are frequently coming before them and decisions upon such cases formally recorded and the right of such Cosharers being thus recognized, it is difficult to impress on the People that there is any difference between these Enam rights and the right to land or property of any other description, and that it is not subject to the same Rules of inheritance.-

29 To such an extent does this feeling now prevail in the minds of the People of this District, that it will be impossible to

to remove it unless distinct Rules for the guidance of the local Officers are sanctioned and circulated throughout the Country.-

30 These rules should be Framed on fixed principles and be of universal application- I beg to submit a few Rules for the consideration of the Board of Revenue.-

1st. Service Enams are declared not to be liable to partition.-

2 No portion of the Enam shall be claimable by Persons who are not required either in person or by a Goomashtah to perform the duties.-

3 No Person shall be nominated as a Goomashtah who has not been previously approved of by the Collector.-

4 No Person who has been nominated as a Goomashtah shall be removed from his situation except under orders of the Collector.-

5 The Amount of Emolument in money or land to be assigned to the Goomashtah shall be fixed by the Collector.-

6 The number of Merasidars to be appointed to the Mirasi to be fixed by the Collector with reference to the extent of the Village, the nature of the duties of the office

Office and the value of the Enam attached to it.—

7. All appointments to the Mifsal shall be made by selection from the whole body of Merasidars of the persons best qualified. Cæteris paribus the largest sharer will be selected.

8. In the event of removal from Office for misconduct of a Merasidar a Goomashtah and there being no one qualified to supply his place among the other Merasidars, the Collector will appoint a Goomashtah and assign a portion of the Meras for his maintenance

31. To the second of the above Rules it may perhaps be objected, that in some cases the Emoluments of office will be excessive. These however will not be numerous and the advantage of establishing an uniform system will far more than counterbalance the objection.—

32. Should Rules similar to the above be adopted, I am satisfied that there would soon be a perceptible improvement in the character of the Reddies and Curnums. The offices would be eagerly sought for, and dismissal would be a heavy Punishment. The Merasidars not in the mifsal would keep a watchful eye on their more fortunate brethern and every instance

instance of abuse of authority or misconduct would speedily be brought to light. The Village Police would be greatly improved, the Revenue duties would be more efficiently performed, a great check would be placed on the concealment of Cultivation an offence now so prevalent and an improvement in the condition of the Cultbuddy Peons would then be felt not only as a boon to them but as a decided benefit to the Villages in which they reside.—

33. Before concluding this Report I beg to refer to an opinion which seems to have been entertained that the cosharers in the Enam perform the duties of the Office by turns, such is not the case. A large proportion of the Merasidars in almost every Village have never performed any duties and have not the slightest intention of ever doing so. Nor are Marrah or fees by any means general throughout the District. The Ryots are daily becoming more unwilling to pay them and in a few years I have no doubt that they will cease to be paid at all.—

34. It has also been observed that the present system is not complained of and it must therefore be supposed to be agreeable to the People.— I believe that the office would continue to be accepted even if the legitimate emoluments were to dwindle away to nothing. The love of authority alone would seldom induce a native to accept so responsible an office but in every village cosharers in the Merasi are to be found who would undertake the duties in the expectation that by peculation, Corruption, and unauthorized exactions they would be amply repaid for the want of legitimate remuneration.—

instance of abuse of authority or misconduct would speedily be brought to light. The Village Police would be greatly improved, the Revenue duties would be more efficiently performed, a great check would be placed on the concealment of Cultivation an offence now so prevalent and an improvement in the condition of the Cultivating Peons would then be felt not only as a boon to them but as a decided benefit to the Villages in which they reside.—

33. Before concluding this Report I beg to refer to an opinion which seems to have been entertained that the Cosharers in the Enam per form the duties of the Office by turns, such is not the case. a large proportion of the Merasidars in almost every Village have never performed any duties and have not the slightest intention of ever doing so. Nor are Marrah or fees by any means general throughout the District. The Ryots are daily becoming more unwilling to pay them and in a few years I have no doubt that they will cease to be paid at all.—

34. It has also been observed that the present system is not complained of and it must therefore be supposed to be agreeable to the People.— I believe that the office would continue to be accepted even if the legitimate emoluments were to dwindle away to nothing. The love of authority alone would seldom induce a native to accept so responsible an office but in every village Cosharers in the Merasi are to be found who would undertake the duties in the expectation that by peculation, Corruption, and unauthorized exactions they would be amply repaid for the want of legitimate remuneration.—

Cuddapah District Prin.l Coll.r Office, Royachoty 12th March 1843.

(Signed) H. W. Arbuthnot
Ac.g Prin.l Coll.r

Abstract

30th March 1843

the Hillah of Cuddapah for Fusly 1252.—

the Survey Enam.

Survey Enam.—

Persons who are to do duty.— Amount.	Persons required for the duty.— Number of Persons.	Amount.	Persons who enjoy less than at C.P. 8-1.— Number of Persons.	Amount of Marah and Quarters.	Amount to be added to make up C.P. 8-1 to Enam.

5210 Fort St. George 30th March 1843

No. 4.

To W. B Hawkins Esqr.

Register to the Provincial Court of Circuit for the Centre Division

Chittoor

Sir,

Para 1. I have the honor to forward a translation of the Report of the different Heads of Police in this Zillah and at the same time to submit my own Annual Report on the Police of the District under my charge as required by the orders of the Court of Foujdarry Udalut dated 16th November 1829.

2 The state of the Police in the Cudda-pah District has of late attracted much attention and I am glad that I have been enabled personally to Communicate with the Inhabitants of every talook in the Principal Division before having to record my sentiments on the subject.

3 It is by no means my wish or intention to exhibit the Police of this Zillah in a more favorable light than it deserves, but I cannot help coming to the conclusion, that much of the discussion in regard to it has originated in the somewhat startling and as it appears to me, erroneous reasons ascribed for the great increase of Crimes (especially gang

gang robberies, which was at one time so remark-
= able throughout the District.—

4 One of my Predecessors attributed this increase of Crime, and the apparent deterioration in the Character of the people, to the Judicial system which we had introduced, and as his moral views were advanced with Considerable ability it was very natural that they should attract much attention and meet with decided opposition from those who from long experince in the Judicial Department saw reason to uphold the system.—

5 It is not my intention to enter into any discussion at present in regard to the merits or demerits of our Judicial system but I hope to be able to shew that the Amount of Crime is by no means excessive now if the extent of district, the number of the population and the nature of the Country, is taken into consideration and that the increase of Crime especially of Gang robberies — which undoubtedly existed a few years back can be sufficiently accounted for without impugning our Judicial System or ascribing it altogether to the inefficiency of the Police.—

6 The district of Cuddapah is about 70 — or 80 miles in its extreme breadth and from 190 to 200 miles in its extreme length, containing an area of 12,753 square miles. The population of this

District may be Calculated at more than a million of people and 4/5th. of the District is thickly interspersed with hill and jungle lying chiefly on the frontiers of the Mysore territories, the Bellary, Chittoor and Nellore districts — thus affording every facility for the operations of Gang robbers and for the escape of offenders.—

7 The number of Cases of heinous offences brought before the Police in the year under review amounted to 1049 in which 3212 persons were supposed to have been concerned.— It must be observed that in the catalogue of offences entered in statement No. 2 under the denomination of heinous is included every offence beyond the very limited jurisdiction of the Magistrates, and also that as the statement in question is prepared more with a view to exhibit the operations of the Police, than the state of Crime, many Cases are entered in it which never occurred at all — Thus for instance a charge of murder is preferred, on enquiry it is ascertained that the party alleged to have been murdered

died

Fort St. George 30th March 1843

died a natural death. still as the case came before the Police, it is entered as a case of murder - again charges of robbery are frequently preferred which turn out to be nothing more than assaults or disputes in regard to property, in which the parties are eventually referred to the Civil Court. These Cases are also entered in the statement No. 2 as Gang robberies. This however has not generally been the Case heretofore. I should be glad therefore to know whether the mode in which the Statements are now prepared is considered correct. I may also add that when cases of Gang robbery do occur the number of persons supposed to have been concerned in them, is inserted with reference to the reports of the Village authorities, which are generally much exaggerated.

8. The best mode of ascertaining with any thing like correctness the increase and decrease of Crime in a District is, by instituting a comparison of the number of Crimes in a long series of

Fort St. George 30th March 1843

of years, for many incidental causes tend to swell the number of crimes at one time, more than another.

With this view I beg to

9. subjoin a list of heinous Offences alleged to have occurred in this Zillah during the 20 years preceding that under review, merely premising that a considerable deduction ought to be made in recent years as the statements contain a great many more Offences than they did formerly.

At

10 It will I think be admitted that the sudden fluctuations in the amount of crime, exhibited in the above statement, cannot be attributed to any equally sudden increase or decrease of efficiency on the part of the Police of the District and to shew in what it has originated, I have added a column exhibiting the land Revenue in each year, from which it is to me evident that the amount of crime has in a considerable degree depended on the nature of the season — The year 1823 was an unfavorable one, and the effects of it are apparent in that and the succeeding year. But in the year 1832 there was the most disastrous famine that can be remembered not only in this district, but throughout the whole of this part of the Country — Rice was selling at 4 Country seers ℔ Rupee and every description of grain was dear in proportion — It can hardly be considered surprizing that in such a season, and in a country affording as I have already Shewn, such facilities for plunder the poorer Clases of Ryots and the agricultural — laborers should have formed themselves into bodies

bodies for the purpose of procuring the means of subsistence by any measures however illegal or however wicked — To such persons our punishments hold out no terrors our imprisonment is so divested of all circumstances of severity, that I am satisfied that in the year to which I now refer there were thousands of the agricultural Clases who envied the lot of the Prisoners in the Jail —

11 When any large portion of the population has once adopted these lawless habits from absolute necessity it is notorious that many of them will not resume their former settled occupations, when that necessity has ceased to exist unless the most energetic measures are adopted on the part of the local Police and even then it must be a work of time —

12 Such was actually the Consequence of the famine referred to above, Gangs of robbers were regularly organized especially in the Mysore territories and Bellary District. Their leaders became so notorious that the proclamation of their names in a Village caused it to be immediately abandoned — The most daring

daring outrages were committed by such gangs, even in the immediate vicinity of the Tahsildars kutcherries, and so disheartened, did the inhabitants and even the police of the district appear to have become, that scarcely ever was any resistance offered. The evil disposed with in the District took advantage of this state of things and frequently employing the names of Leaders so notorious they were enabled to carry on their depredation with impunity for suspicion was generally thrown in a wrong direction.

13 These gangs have now however been hunted down and the most notorious of the leaders have been either apprehended or driven out of the Country.

14 There has been a great deficiency of rain during the latter half of the year 1842 which has led to an increase in the number of depredations but they have been mostly to a small amount, unaccompanied by any circumstances of aggravation, and have generally been committed by the inhabitants of the hill villages who assembled for the purpose and immediately dispersed. The largest amount of property robbed in any one case in the past half

half year, amounted to no more than 800 Rupees even by the report of the sufferer, and this is probably a good deal beyond the actual value of the property. I am happy also to be able to state that in several instances the Villagers have turned out and driven off the robbers and thus preserved their property. I have done all in my power to foster such a spirit which if generally exhibited would soon put a stop to gang robberies altogether.

15 I have thus, I fear at too great length, submitted my views as to the origin of the gang robberies that were so prevalent in this district. I now proceed to Consider the measures to be adopted to prevent the recurrence of such a state of things.

16 The first measure which I would recommend is greater attention to the works of irrigation that we may thus diminish as far as in us lies the chances of famine 2nd. 3d. when such periods of severe distress do unfortunately occur. I would strongly recommend a more general employment of the population in any works of Public utility, even though they may not be absolutely required. In the Course of my own experience I have

witnessed

witnessed the benefit of such a Course. In the Vizagapatam district a discretionary authority was granted to me to employ the starving popu-lation in a most disastrous season in any works of public utility. I availed myself liberally of this discretion and expended I think about 60,000 Rupees. But for this expenditure a considerable portion of the population must either have emigrated or have had recourse to plunder to enable them to support life. I saw many ryots who usually held puttahs to the extent of Rupees 100 labouring at road making for a smaller remuneration than the battah of a felon in the Jail. no sooner however did the periodical rains commence than the works were abandoned and the Inhabitants returned to their Cultivation most grateful for the assistance that had been afforded them.

17 The 3d and last measure which I have to recommend is the improvement of the Police. That there is great room for this has been readily acknowledged by every one who has taken up the subject and I cannot, to add, it is but too apparent both

both in the Village and the talook police.

18 The system of Village Police in this District is admirable and I cannot help attributing its inefficiency to the subdivision of the emoluments attached to the different Officers of Potail, Curnum and Village Peon, which prevails to so great an extent. To shew the effects of such a system let us suppose that 50 Pagodas are appropriated in land to the person who performs the duties of Potail. He has 6 sons, on his death, one is selected to perform the duties, but he receives only 1/6th of the emoluments. The remaining 5/6ths being enjoyed by his brothers who are liable to be called upon to perform the duty of Potail, in case of necessity, but who unless that necessity exist, do nothing. If the effect of this system is so striking in one descent, what must it be when continued for a series of generations. It is but too apparent in the inefficiency if not the corruption of the Village Police.

19 In the Open black soil Talooks the population is very superior to that of the rest of the District and the Potails, that is the whole body of sharers in the Reddy Meraps, farm

"Complaint of the Country that this is the case and
"it is not possible to peruse the list of Crimes
"above mentioned without the conviction that
"the Village Police are implicated in many of them."

23 The above description is, I fear too applicable to the Village Police of the present day. I have almost invariably found that according to the Character of the Potail, is the amount of robberies in a Village. some of them have in my presence boasted, and good cause they had to do so, that even in the worst of times no gang of robbers ever approached their Villages, and in those Villages where robberies are most frequent the Potail is either a nonentity or a suspected character.

24. The Board of Revenue have expressed a desire to improve the circumstances of the Village Peons or Cutbuddies watchmen &c. and I have prepared Statements exhibiting the cost to the State which such improvement would involve. This measure, if part of a general plan for the reform of service Enams, would be most beneficial, but alone it would be a needless sacrifice of revenue. If the continued subdivision of

Service

service Enams is allowed (for this subdivision extends even to the enams of those Classes) the Cutbuddies &c. that is those who perform the duties will in a few years be no better off than they are at present. Besides. I am satisfied that the conduct of the Cutbuddies and Village servants of every description depends almost entirely upon the character of the Potails and increasing their Emoluments without at the same time placing them under more efficient supervision and Control would be merely providing them with the means of more freely indulging in the vicious propensities to drink and game to which they are already too prone Gang robberies no doubt are frequently committed by Village watchers but they can never engage in such criminal transaction, without the knowledge and even connivance of the Potail.

25. The emoluments allotted for the support of the Peddies and Curnums are on the whole quite sufficient, but the subdivision of them amongst Classes who perform no duties reduce so much the pay of those who hold the Office that its duties are seldom zealously or faithfully performed.

J.

26 I am of Opinion that the partition of Service Enams ought to be declared illegal and that no portion of the Emoluments of an Office should be bestowed on those who are not either personally or by means of a Gomastah employed to perform the duty. That this would be an innovation in the Ceded Districts, I readily admit but I cannot help thinking that too much importance has been attached to the Customs which were found prevalent when we assumed the Country. The native Governments were celebrated for their liberality in the grant of endowments but what was so liberally given was as summarily taken away or transferred to another as convenience suggested.-

27 Besides these Village functionaries were very peculiarly situated under the native Government. The whole of the Cosharers in the Service Enams were answerable for the realization of the revenue, and if not for the suppression of Crimes, at any rate for the restitution of the Value of the property robbed within their limits, whereas a large portion of the emoluments of Office is now enjoyed by persons who neither perform any duty nor incur any responsibility

It is much to be regretted that the practice of levying the Value of property lost on the Village has been altogether abandoned.-

28 I feel confident that to place the Village Police on a satisfactory footing which is most important to the welfare and prosperity of the Country some change in the mode of remuneration is absolutely necessary but as the question is one of general interest as I believe improvement is required in every Zillah and as it is very desirable that an uniform system should be established throughout the Presidency I would respectfully suggest the appointment of a Committee composed of Judicial and Revenue Officers for its consideration.-

29. In regard to the Talook Establishment I was greatly struck on joining this district by the indifferent and negligent manner in which their duties were performed by the Heads of Police, Sub Officers and Talook peons. It seemed extraordinary that in a district where the servants have gained, and justly so, high a name for their ability in revenue affairs, they should be so wanting in this very important branch of their duty. This appears to me to have arisen

arisen in a great measure from the very
stringent Orders issued to the Police for
the apprehension of Offenders and to the
little attention paid to their Proceedings -
provided the parties apprehended were sent to
the Criminal Court - It was I conclude sup-
posed that all irregularities or omissions on
the part of the police in such cases would
be brought to the notice of the Magistrate by
the Criminal Court - I have however insisted
on the Heads of Police forwarding to the
Magistracy their proceedings in all cases whether
the parties are sent to the Court, or released,
and I am sanguine that by immediately and
strictly noticing all defects apparent in them
the Police Officers will soon be brought to
devote more attention to the correct performance
of their duty. The Consequence has already been
that although as great a number of persons
have been brought before the Police in the past
as in preceding years fewer have been sent
to the Court - but of those sent in proportion
a considerably greater number have been convicted

30. The Police Peons have hitherto been taught to

to consider the service as a hereditary and to such
an extent has this been carried that Children have
frequently been appointed and relations substituted
to perform their duty until they became of an age
to undertake it themselves - The consequence of this
is that the Peons almost invariably have for
generations resided in the Talooks where they
are employed - When therefore they are ordered on
any duty they generally proceed to pass a little
time in their own homes, and what is worse
still, they are frequently engaged in traffic
or some other employment which naturally
interferes with the performance of their Public duties -

31. In a talook which I lately visited
I found that a large portion of the best land
in the Cusbah Village was in the occupation
nominally of relations of the peons but in reality
of themselves - As the rains have been very deficient
this season, complaints were loud that these
peons had appropriated to their lands far more
than their share of water and such was
the fact, I may also add that there is a very
general impression throughout the Country that
there is rather too good an understanding between
the Talook peons and the thieves I can readily
believe.

believe this though I have not positive proof of it- all these evils may however be corrected by the local Magistracy and no exertion on my part shall be wanting to place matters on a more satisfactory footing

32.- Before concluding this report there are two or three practical points connected with the Police of the District which I think it right to bring to the notice of the higher Courts.

33.- The Court of Foujdary Adalut have ruled that the confession of a Prisoner in the Talook though satisfactorily proved in addition to proof of the Commission of the Offence, is not sufficient to authorize the Criminal Court even to hold to security; but it has also been decided that such cases are to be sent up to the Court, as it is possible that although a Police Officer may not be able or may neglect to discover Corroborative evidence, a full examination of the Prosecutor with the matter in the Confession may furnish to the Criminal Judge a clue to further evidence which may lead to conviction.

C. Ch. 30

34.- I have never known an instance of this discovery being made by the Criminal Court, & the effect of the present system is most prejudicial to the administration of

of Justice. When the Head of Police has once appre-hended a party and forwarded him to the Criminal Court notwithstanding any orders that may be issued to him he considers that the case has been finally disposed of as far as he is con-cerned and that the release of the Prisoner is the fault of the system. In Ordinary Cases he ceases to take any further trouble in the matter. As well are all Old Offenders aware of this that they invariably confess and what is the Conse-quence? The Prosecutors and attesting Witnesses as well as the Prisoner have to proceed frequently a considerable distance to the Criminal Court. In a few days they return to their Village. the prisoner exulting in the success of his scheme and ready to commit any fresh violation of the Law, in the full confidence that he has discovered a ready mode of evading its penalties. The example thus held out to the rest of the Community cannot but be most injurious.

35.- I am fully sensible of the justice of the arguments used by the Court of Foujdary Adalut as to the bad effects of too much importance being attached to talook Confes-sions, but I would strongly recommend that the Police-

Police be prohibited from sending cases to the Criminal Court unless there is some evidence corroborative of the confession of the Prisoner, if the Court of Foujdary Adalut see reason to adhere to their Opinion that a Taluk confession satisfactorily proved and supported by proof of the Commission of the Offence does not authorize a Criminal Court to hold a Prisoner to security.-

36 The vast extent of the Poolevendlah Taluk in this District had attached the attention and formed the subject of representation from almost all my Predecessors and it appeared to me to have a baneful effect both in regard to the Police and the revenue administration of the District. I therefore considered it my duty to bring the subject to the notice of the Board of Revenue. They were however of Opinion that sufficient reasons as regarded the revenue administration were not advanced to justify the change. It would be a needless waste of time to go over the same ground again, but I beg to annex a copy of the correspondence on the subject as an appendix to this report in Order that the Higher Courts may be

be enabled to take into their consideration how far the change recommended would improve the Police of the District.-

37 It will no doubt be observed that the arrangement contemplated by me provided also a considerable addition to the Police Establishment in the town of Cuddapah without additional cost to Government, This is very much required and if my proposition is finally rejected there will be no alternative but to incur the additional expense which is required to make the Town Police Establishment effective which at present is not the case.-

38. In conclusion I beg strongly to recommend that the present additional Establishment for which sanction is attained monthly may be made permanent. It has done good service in protecting the Ghauts or mountain passes most frequented by travellers and which used to be the scenes of constant robberies. This body will also

1 Surchashum	16	
6 Duffadars at 6 Rs each	36	
32 Peons at 3½ Rs each	112	
Total	150	

J

5240 Fort St. George 30th March 1843.

I doubt not be found very useful when aided by a few Police Peons from the other talooks in suppressing any gangs which the unfavorable circumstances of the present season may induce the poorer classes to endeavour to organize and in the event of any such symptoms exhibiting themselves it is of the utmost moment that the most decided measures should be instantly adopted to put them down. The general stability of this small Establishment

See letter No 240 dated 25th March 1842.

I have lately brought to the notice of the Court of Tongdarry Adalut and shall therefore not further intrude on their Valuable time at present.—

the Petitioner, on Condition that the latter should liquidate the arrears now due by him, when he declined to do so. The Original Petition is herewith returned.

Chingleput District,
Collector's Circuit Cutcherry
Carangoly, 24th March 1843.

(Signed) A. Freese
Collector.

Ordered that the following address be submitted in consequence.

55-56

To the Actg Chief Secty to Government.

To The Acting Chief Secretary to Government

Sir

I am directed by the Board of Revenue to request that you will submit the correspondence noted in the Margin, regarding the resumption of the Shotrium Village of Cadapaukum in the District of Chingleput on account of arrears of Revenue for the consideration and orders of the Most Honorable the Governor in Council.

submitting a correspondence with the Collr of Chingleput and recommending for stated reasons that the Collector be authorized to resume the Shotrium Village of Codapaukum and to pay annually to Vurda Pillay one of the Sharers half of the net proceeds therefrom after deducting the Peishcush and charges collection.

From Collr of Chingleput
22d inbont 29th August 1842
Exct Proceedings of the Board
29th August 1842.
From Collr of Chingleput
25th inst & 27th inbont 31st Octr
To Collr 16th February 1843
From Collector 24th inbont
30th March 1843.

5245 Fort St George 30th March 1843.

It will be seen that this Village
2.
paying an annual Peishcush of Rupees 582-
9—2 is shared between two relations of
whom one named Vurda Pillay paid his
portion of the Peishcush and was prepared
to discharge that of his Co-sharer named
Appasawmy Pillay upon the latter relin-
=quishing the other half of the Village in
his favor, which it was alleged he had
agreed to.

Appasawmy Pillay however
3.
when called upon by Mr Freese to give
effect to this arrangement altogether de-
=clined to make over his share of the
Village to Vurda Pillay. the only Course
therefore would appear to be that suggested
by the Collector that he should be authorized
to resume the Village and to pay annually
to Vurda Pillay half of the net proceeds there-
=from after deducting the Peishcush and
Charges Collection.

Revenue Board Office,

Read the following letter,

To, The Acting Secretary to the Board of Revenue Fort St. George.

(60)

From the Act. Coll.r of North Arcot— Sir,

of North Arcot— With reference to the orders of

14th February 1843 Government set of posite to the Items No.s 6 and 7 of the Extract from the Statement of charges incurred without estimate in the Magisterial Department of this District for Fusly 1251 / A.D. 1841/42 received with the Acting Sub Secretary

6th February Mr. Pycroft's letter, I have the honor to submit Copy of the

9th August 1841 Proceedings of the Foujdaree Udalut, together with the Account Particulars as therein required.

North Arcot, ... Coll.rs Cutcherry, ... Chittoor 20th March 1843. } (Signed) W. K. Babington Acting Collector.

No. 1.

Extract from the Proceedings of the Foujdaree Udalut under date the 9th August 1841.

Read letter dated 30th July 1841, from the 3d Judge on Circuit in the Centre Division forwarding, for the consideration and final Sentence of the Foujdaree Udalut, the Record of the trial in Case No. 11 Chittoor supplemental Calender for the 2d Quarterly Session of 1841.

The Prisoner in the Case is charged with Gang Robbery by Open Violence, attended with aggravating Circumstances, and has been convicted

convicted by the Court of Foujdaree Udalut of that Crime, and sentenced to be transported, and to receive 195 lashes.—

Referring to the Capture of the Prisoner, the 3d. Judge of Circuit observes that it was "at last effected by the praisa worthy exertions of the Rajah of Punganoor."

The Court of Foujdaree Udalut have much satisfaction in recording their sense of the Service performed by the Rajah of Punganoor in apprehending and bringing to justice so great an Offender, and should the measure appear to the Governor in Council unobjectionable they would respectfully suggest as an encouragement to others to similar Conduct, that Government should communicate to him their approbation of his conduct and the estimation in which his services are held on this Occasion.—

The Court of Foujdaree Udalut conclude that the necessary orders will be given by the Judge on Circuit for the due distribution of the reward offered for the apprehension of Poollacoora Moonegandoo.—

Ordered that Extract from the Proceedings be sent to the 3d. Judge of the Provincial Court of Circuit in the Centre Division for his information, with directions to make the necessary Communication to the Magistrate of North Arcot.—

Ordered also that Extract from these Proceedings be sent to the Chief Secretary to Government, for the purpose of being laid before the Right Honorable the Governor in Council.—

North Arcot, Collector's Cutcherry, Chittoor 20th March, 1813. E. C. Fort St. George. Signed W. H. Babington Actg. Collector. Ordered

5259. Fort St. George 30th March 1843.

Order thereon.

(Read again in Cons.n 10th April)

62-63

Ordered to be brought for-
ward at a future Meeting.

To, E.b. Lovell Esqre
Acting Secretary to the Board of Revenue
Fort St. George

From the Asst. Coll.r of Sir,
Nrn Dn of Arcot. I have the honor to submit copy
of the correspondence noted in the Margin re-
lative to a complaint made by Mr. Turner the
Civil Abkarry Renter of Vellore, for establishing
certain Arrack Shops within the
Civil limits.

Submitting Copy of a correspondence relative to a Complaint made by Mr. Turner Abkarry Renter of North Arcot against the Military Renter at Vellore for having established his Shops within the Civil limits and requesting instructions for removing the same

64

2- The complaint was made
in August last. The Collector on receiving
+24th August 1842- it, addressed Captain Nicholls the Deputy
Assistant Commissary General at Vellore on the
subject, and requested him to depute two persons to measure
the distance between the Fort at Vellore, and the
+31st Augt 1842- shops complained of. Captain Nicholls replied that
he would depute persons to measure the Military
+9th September 1842- "Abkarry limits," and in a second communication
requested a Copy of the resolution of Government
on the Original demarcations of the Abkarry limits.
+15th Sept.r 1842- The Collector in reply forwarded the
following passage from the Extract from the
Minutes

5260. Fort St. George 30th March 1843.

Minutes of Consultation dated 14th June 1822.

"The manufacture and sale of
"Spirituous and fermented Liquors at 5 General
"Military Bazars and within four Miles around them
"will be conducted by the Commissariat Officers
"stationed there."

Above a month after the receipt of this
Vellore
Masulipatam
Bellary
Cannanore
Tuticorin
+24th October 1842. Extract Captain Nicholls wrote to the Collector
stating that the "General Bazar" at Vellore had
always been considered as embracing the Military
limits or the limits of Command of Vellore, and
that he was prepared to remeasure the Abkarry
limits "from the same date" if Mr. Turner could prove
that the Military Contractor had removed any of his
Shops beyond the 4 Miles defined by the former
+5th Novr 1842 demarcation. The Collector replied that Captain
Nicholls was mistaken with regard to the demar-
cation, and that the measurement should take place
from the Military Bazar, and at the same time
forwarded to Captain Nicholls the whole of the Extract
from the Minutes of Consultation dated 14th
June 1822. Captain Nicholls having taken no further
steps in the matter the Collector after an interval

of

19th Jan.y 1843 / 28th Jan.y 1843 — of more than two months again addressed him on the subject. Captain Nicholls in reply stated that the present measurement must remain in force till the expiration of the Military Abkarry Contract, and observed that Mr. Turner should have complained at, or prior to the, Sale of the Contract. After an interval of nearly two months, the Collector

10th March 1843 — wrote to Captain Nicholls that he had taken measures for ascertaining the Amount of loss sustained by Mr. Turner by the Establishment of Military Abkarry Shops within the Civil limits, and that he was about to Submit a Report on the subject to the Board of Revenue, and Requesting Captain Nicholls from the commencement of the ensuing year to confine the Military Arrack Shops to the Military Abkarry Limits. No answer has been received to this letter.

3. While this correspondence was going on, Mr. Turner continued complaining in the Strongest language of the loss he was sustaining which he estimated at not less than 30 Rupees a day, and urged the Collector to report Captain Nicholls conduct to higher authority, and since my taking charge of the district he has addressed me to the same effect. Copy of one of his letters

letters which he desired might be laid before the Board of Revenue is with the annexed correspondence.

4. Captain Nicholls's letter of the 27th October 1842 is a virtual admission that Military Abkarry Shops are established beyond the Military Abkarry limits. I therefore think that he should be required immediately to withdraw the Licenses of all such Shops. Mr. Turner has contracted to pay Rs. 130,050 for the Abkarry Rent of the Current Fasly, and if he does not chose to pay it the Government will not be supported by the Civil Courts in compelling him to do so, that Government not having fulfilled their part of the Contract.

5. Whether the whole of the Shops which Mr. Turner objects to, as within the Civil limits are really so or not, is a matter which should be enquired into on the spot by an European Officer, as also regarding the Amount of Mr. Turner's Loses. It must not remain a matter of uncertainty what is meant by the terms "General Military Bazar." whether it is that spot designated "General Bazar" in the Quarter Master General's Plan of the Garrison

Fort St. George 30th March 1843.

Garrison of Vellore, or whether the term is to be considered to embrace "the limits of the Command of Vellore." It is absolutely impossible for me to proceed to Vellore and undertake this work at present as the current business of my Office is much too heavy to admit of it, owing to the circumstances of the Annual Revenue Settlement being now in progress, of my having to perform the duties of the Sub Collector and of the great amount of additional work detailed on the Office by the Canvassing of Gurzeemindaree being at present under Answer. The circumstance of my being unable to enter immediately upon this enquiry need not however prevent an injunction being sent to Captain Nicholls to withdraw the Licenses of the Shops established beyond the Military limits, and to report to this Office the date of his so doing and to specify the Shops he has withdrawn.

North Arcot
Coll.te Circuit Cutcherry
Rancipet, 27th March 1843.

Collector.

Extract from a Letter from Mr. Turner Abkarry Renter of North Arcot dated 25th Augt. 1842.

I beg you will have the goodness as to write to the Deputy Commissary General at Vellore, on the subject of my complaint, which I now make against the Military Renter of the abovementioned place, it has been reported to me that the Military Renter has established a Number of Arrack Shops within the civil limits and I have every reason to believe that the report is correct, and I went in person yesterday to see two Shops on the Arnee Road, and I have every reason to believe, that one of the Shops was 5 Miles from the Fort and the other about 4½ Miles and I am told that he has a great

great Number of Shops, about the same
distance from the Fort, this Question,
can soon be decided if this Deputy Com-
missary General will be so good as to or-
der his Renter to depute two Persons, and
I will do the same, to see that a strict and
correct measurement is made from the Fort
to the place or places where the Shops is
kept by Miles from the Fort is the full
extent of his the Military Renter's Limits.

/Signed/ T. Turner.
Abkarry Renter of North Arcot

/True Extract/
/Signed/ P. Goldingham
Collector.

To,
The Principal Collector
North Arcot

Sir,

1. In reply to your communi-
cation of the 27th Instant, I have the honor
to acquaint you that it is my intention,
in accordance with your request, immed-
iately to depute two persons to make a cor-
rect measurement of the Military Limits.

2. The Military Abkarry Renter
complained to me about 12 days since that
Batavia Arrack had been sold at the shops
of the Abkarry Renter of North Arcot which
was

was also admitted in my presence by one of
five Arrack Shopkeepers who stated that he
had been supplied with Batavia Arrack by
Mr. Turner as there was no Country Manufac-
tured Arrack prepared. The Manager in my
Office, who has been employed in this De-
partment 30 years, assures me that up to
this period the sale of Batavia Arrack
by the Civil Contractor has been annual.
The Military Abkarry Renter further
complains that Mr. Turner retails Arrack
at 4 and ½ Fanams per Seer, which rate is
inconsiderably below that at which the
former is bound to sell. Should the Abkarry
Renter in your District have been guilty
of any irregularity in the instances complained of,
I feel assured that such will be immediately
arrested on being submitted to your Notice.

3. I have the honor further to observe that these
Complaints by the Military Abkarry Renter are in
no wise recriminatory, having been preferred some
days back and press of business alone has prevent-
ed me from acquainting you with them sooner.

To,
J. Goldingham Esqre
Principal Collector

Sir,

Referring to the 1st para of my letter of the 31st Ultimo, I have the honor to inform you that I will depute 2 persons to make a correct measurement of the Military Abkarry Limits, agreeably to the tenor of the late Principal Collector W. Cooke Esquire's letter of date the 15th June 1822 on this subject I shall be glad to be favored with the Resolution of Government on the Original demarkation of the Abkarry Limits, should such documents be extant among the Records of your Office.

To, The Collector /
North Arcot Chittoor

Sir,

Referring to your letter of the 15th Ultimo, I have the honor to acquaint you that the "General Bazar" of this Station has always hitherto been considered as embracing the Military limits, or the limits of the Command of Vellore, and I have recently taken the depositions, on the prescribed affirmations, of the parties who measured the Abkarry limits in 1822, which correspond with the above Statement. I am prepared to name two persons to re-measure the Abkarry limits from the same sister, if the Civil Contractor, or Mr Turner, can prove that the present Military Contractor has removed any of his Shops beyond the four Miles defined by the former demarkation otherwise; in justice to the Military Abkarry Contractor, the present measurement

measurement must be in force until the expiration of this contract viz. 30th April 1843.

Vellore

Sir

I have the honor to acknowledge the receipt of your letter dated 27th Ultimo, and in reply to transmit for your information copy of Extract from the Minutes of Consultation bearing date the 11th of June 1822, from which you will perceive that the demarkation which have occurred to you is erroneous. The measurement should take place from the Military Bazar and the Abkarry Shops of the Military Renter should also be within four Miles around it.

The Plan of the Vellore Garrison drawn by the Quarter Master General under date 18th January 1830 must have been lodged in the Office of the Officer Commanding Vellore.

Vellore

Sir,

The loss sustained by the Abkarry Renters of this District on account of the extensive

extension of the Military Abkarry Shops beyond the limits of the Garrison of Vellore is about to be reported for the final decision of the Board as soon as the required report is received from the Tahsildar of the Vellore Talook, and I have the honor to request that you will be pleased to cause the Military Shops to be established within four Miles for the ensuing year in strict conformity to the orders of Government. This being previously intimated to all parties will prevent misunderstandings afterwards.-

North Arcot
Collector's Cutcherry
Chittoor, 10th March 1843 } Signed J.s Goldingham
Collector

To J. Goldingham Esqre
Collector of North Arcot

Sir,

I have the honor to acknowledge the receipt of your letter of the 4th Instant, and its enclosures, a Copy of Captain H. J. Nicholls letter dated the 28th January 1843, and in reply thereto, I beg most respectfully to state, that I am at a loss to know on what grounds or on what authority Captain H. J. Nicholls Deputy Assistant Commissary General at Vellore, withholds my legal and just rights; it is superfluous for me to state, that one

Mile

Fort St. George 30th March 1843

Mile of ground in circumference, all round the Fort, or General Bazar of Vellore, must be worth no small sum.

I beg to state that, on my word and honor, if I was put in possession of my legal rights, I could realize double the sum I claimed in my letter to you dated the 28th October 1842.

Captain H. J. Nicholls states in the 1st Para of his letter of the 28th January 1843 that the preverd Measurement must remain in force, until the expiration of the Abkarry Contract now existing this is very a Strange language indeed, it appears that he in all Supreme in this case and that it is fruitless for me to attempt to re-gain that which is so injustly withheld from me.

Again Captain H. J. Nicholls states in the 2d Para of his letter that the Civil Renter should have preferred his objections at or prior to the sale of the Contract, had I been aware that one yard of my limits would have been illegally withheld from me, Captain H. J. Nicholls might rest assured that I should have made objections to it, at the time of Sale.

I most respectfully beg to ask you Sir, if you rented a Farm or a House of any

Individual

Fort St. George 30th March 1843

Individual for 12 Months, and if that Individual did not deliver over such Farm or House, would it be lawful, for that Individual to withhold a certain portion of it, can he, the Individual, so renting the Farm or House claim his full rent for the said Farm or House. I should say he could not, nor neither can the Government claim rent from me, for what was never delivered to me. I preferred my claims as soon as I had time to make the necessary Survey that was required, before I preferred my Complaint, for I am well aware that a complaint of so Serious a nature preferred against any Officer holding a Staff Appointment under Government must be attended with disgrace if found to be untrue. I am Sorry that an Officer of so long standing as Captain H. J. Nicholls should allow himself to be duped by a Set of men void of all principles.

In the first place Captain H. J. Nicholls in his Official Capacity overstep, his authority and acted contrary to all orders and Regulations of Government, for I am sure that Captain H. J. Nicholls has no authority vested in him to extend

the

the Military limits of the Abkarry Farm, & of Vellore from 4 to 5 and 6 Miles, when he puts up the Military Abkarry Farms of Vellore he puts it up in compliance with the orders of Government Viz.t 4 Miles all round the Fort or General Bazar which is the proper place for the measurement to take place. After this is done how can he allow the Renter to establish his Shops 5 and 6 Miles from the abovementioned places instead of 4 Miles, Captain H. J. Nicholls may frame a plea that those Shops have been of long standing & and that he took it for granted that they were fixed in their right places, but this will I presume be a very lame excuse, for in the first place it was his Captain H. J. Nicholls duty to see that the Military Renters did not extend their Shops one yard over the limits laid down by Government Regulations, and under those Regulations and no other Captain H. J. Nicholls rented the Military Farm of Vellore to the present Renters how then can these Renters claim more than their lawful right. They as Military Renters cannot claim any more than they actually bought, they well know when they bought the Abkarry Military Farm, that their

their limits did not extend more than 4 Miles from the General Bazar or Pettah, which is opposite to the Fort Gate, how can the Renters claim a right to hold 9 Arrack Shops and 2 Toddy Topes in my limits, to me it seems obvious and requires no explanation, for instance if I had 2 Shops in the Military limits, the Military Renters prefer a complaint against me to you, I am certain Sir, that you would not hesitate a Moment in ordering me to give up the two Shops claimed by the Military Renters, provided you were sure they were actually their rights, and I am sure Sir, you would not be justified in withholding a single Shop after it had been clearly proved to you, that the Shops so claimed was actually in the Military limits, and I as the Civil Renter could not object to it, no matter how advantageous it might be to my interest.

Captain H. J. Nicholls in my humble opinion has taken a very unfair part from the beginning, when you first wrote to him on the subject. In the Month of August he Captain H. J. Nicholls, never made any objection

to

to the measurement if he had been candid and said in his reply to your letter in August last, that he would not withdraw the 9 Arrack Shops here under mentioned within his own limits the matter might have been settled some Months ago, but instead of that he gave me the trouble of going to Vellore and after keeping me about 3 Hours in his Office, he told me that he could not make the Measurement until he had written to you again, to ascertain the defined Boundary Mark of the Military Abkarry Farm. I accordingly wrote to you on the subject in September and received your reply in the same Month, stating if I went to Vellore that Captain H.J. Nicholls would make the required measurement, I accordingly waited on Captain H.J. Nicholls again on the 21st of October, but I am sorry to say with as little success as before, for he after a fruitless search after some of the Records of the Office which could not be found, he told me that he would not make the measurement, without he was ordered by higher authority

authority than you, he Captain H.C.J. Nicholls further added; that you had no authority to order him to make any alterations, and that he would not. I accordingly wrote to you after I returned from Vellore on the 28th of October 1812 particularizing the extent of my loss, and requested that my claims might be laid before the proper authorities. I also beg to inform you that I am prepared to prove that I am actually losing the sum I claimed in my letter of the 28th of October last Viz.t 25 Rupees per day, on accounts of the 9 Arrack Shops illegally withheld from me by Captain H.J. Nicholls Deputy Assistant Commissary General at Vellore. I also beg to inform you that in addition to the loss I sustained by the 9 Arrack Shops, I also am a loser by the sale of Toddy to the extent of 250 Rs. per Month, commencing from the 20th of this Month Instant.

In conclusion I most earnestly beg Sir you will lay my complaint before the Board of Revenue with as little delay as practicable, so that I may be compensated

5279 Fort St George 30th March 1843.

Compensation for the losses I have sustained and be put in possession of my legal rights as Abkarry Renter of your Jillah, and for which I shall feel ever grateful.

The following is a List of the 9 Shops that is illegally withheld from me by Captain H. J. Nicholls Deputy Assistant Commissary General at Vellore.

1 Arrack Shop in Mamalamunga peram situated 5 Miles distance from the Fort,
1 Arrack Shop in Adacumbady 6½ Miles from Do
1 Arrack Shop in Arageor 6 Do from Do
1 Do Do in Immirondy 5½ Do from Do
1 Do Do in Tellore 6 Do from Do
1 Do Do in Tiruvanny 5 Do from Do
1 Do Do in Jabrapet 4½ Do from Do
1 Do Do in Cattrapanddy 4½ Do from Do
1 Do Do in Bramaperam 4½ Do from Do

From the A^t Pr^l Coll^r of Salem

Sir

I have the honor to submit, for the consideration of the Board, Copy of an Arzee from Timmapien, late Tahsildar of Daraupoory, reporting the completion of a Chuttrum for Native Travellers near Catoorapullayputty in the Salem Talook at an outlay of Rupees 303-9-0 and soliciting a Suitable Endowment for the same. The Salem Tahsildar, who was directed to inspect the building and to report the valuation thereof, states, that it has been completed, and Estimates it at Rupees 2700-11-5, being Rupees 330-10-7 less than that stated by Timmapien to be the actual Cost; and as the Chuttrum in Question is situated on the high road from Coimbatore to Madras and Cuddalore, Viz Salem and Attoor, which is much frequented by Travellers from the Southward, and jungle to the extent of 2 Miles will be cleared for the building in question after obtaining the previous

(66)

permission

5282 Fort St George 30th March 1843.

per mission of the Principal Collector, I beg to recommend, that the sanction of Government may be obtained for the grant of a yearly allowance of Rupees (60) Sixty or that a piece of waste land of the Annual Value of the above Amount, which Endowment will continue only so long as the Building is kept in repair and applied to the purpose for which it has been constructed. A Plan of the Building is herewith forwarded for the Boards inspection, and it has been constructed strictly according to the rules of the 9th July 1829.

68

From the Asst. Pr. Coll.r of Salem—

To E. C. Lovell Esqrs.
Acting Secretary to the Board of Revenue
Fort St. George

Sir,

Reporting on the unfavorable state of the Season in the District by which a considerable decrease in the revenue in the present year may be anticipated—

I have the honor to bring to the notice of the Board, the following circumstances connected with the unfavorable state of the season in this District, by which a considerable decrease in the revenue in the present year may be anticipated—

2. There being but little rain in April

START 5283

April last, some of the Poonjah lands were ploughed and having moderate Showers in May the Ryots in expectation of more rain, sowed in that Month Cumboo, Till, Raggy &c.a; but the partial Showers of June and July afforded no benefit to the Cultivation, and they relinquished land yielding Rup.s 12,44,44—9—8 In August, rain fell in partial showers in some of the Talooks, by which a few small Tanks received an insufficient supply of water, and wet Cultivation commenced on the lands under them— The dry grain on the Poonjah ground sown in May, revived and yielded a moderate Crop, but where no rain had fallen, the Crops were generally destroyed, yielding however a small produce— In September and October there was a regular fall of rain, when Gram, Odeeth, Moong, Cheenna &c.a were down— The large Tanks received half and three quarter supplies, as did also the smaller, when Poonjah Cultivation, for a second Crop commenced— From November till January, there being a small partial supply of rain in some of the Talooks the dry grain, sown in

5285

Fort St. George 30th March 1843.

in Septembr and October, completed by it-
self in the wet Cultivation, however
small, failed, in consequence of
their not receiving a second supply of
water. The Lands, under large Tanks which
did not get their full supply, were laid
waste. Nearly Taxed Lands, which yield two
Crops, were relinquished as their returns
were insufficient to the Cultivator to keep
the Government demand, and a general
deficiency of water to commence on the
1st Crop occasioned a considerable
defficiency of Cultivation on the Dry
Accounts of the Current Year as well
as seen in the Annexed Statement.

Fort St. George 30th March 1843.

Ordered to be brought forward at a future Meeting

Read the following letter.

To E. C. Lovell Esqr.

Acting Secretary to the Board of Revenue.

Fort St. George

From the Actg Collr of Tanjore

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue under

72

date the 16th January, directing me to carry into effect the orders of the Court of Directors, regarding the conversion of the Lungerkhana at Combaconum into a Native Dispensary, I have the honor to inform you that the fund from which the present charges are paid in the "Surplus Pagoda Fund" for the appropriation and disposal of which a reference has been made to England, and until an answer is received on the subject, it appears to me advisable to leave the establishment of the proposed Dispensary in abeyance, unless the Government are prepared to keep it up at their own expence, in case the appropriation

5300

Fort St. George 30th March 1843.

as proposed of the Pagoda funds is not sanctioned.

(Signed) J. F. Bishop
Acting Collector.

Tanjore, Tellam
17th March 1843

Ordered that the following letter be sent in reply.

To The Acting Collector of Tanjore.

To the Acting Collr of Tanjore

Sir

I am directed by the Board of Revenue to acknowledge the receipt of

72-73

your letter dated 17th March 1843 proposing to postpone the conversion of the Lungerkhana at Combaconum into a Dispensary until instructions are received regarding the disposal of the surplus Pagoda fund, and to inform you in reply that it has been already explained to Government that the Lungerkhana is unsupported from the surplus Pagoda fund, and the Board therefore see no sufficient reason to wait for further instructions on the subject.

Revenue Board,
Fort St. George
30th March 1843

(Signed) E. C. Lovell
Sr. Secretary.

Read

5301 Fort St. George 30th March 1843.

Read the following letter.

To, E. C. Lovell Esqre

Acting Secretary to the Board of Revenue

From the Asstt Collr of Tanjore — Sir, With reference to your letter of the 9th Instant regarding the disposal of a Tahsildar's salary who may be under suspension, I have the honor to request sanction may be given me to pay the salary of Assoor Row suspended as represented by me on the 21st February last, to the person conducting his duties, which at this time of the year are heavy, and the party performing them well worthy of recompence.

74

Tanjore, Munnargoody 23rd March 1843 — (Signed) J. F. Bishop, Acting Collector.

Ordered that the following letter be sent in reply.

74-75

To, The Acting Collector of Tanjore.

To the Asst Collector of Tanjore — Sir, I am directed by the Board of Revenue to acknowledge the receipt of your letter dated the 23d March 1843 requesting authority to pay the Salary of the Tahsildar Assoor Row, who is under suspension, to the person performing

In Cons 30th March 1843.

5302 Fort St. George 30th March 1843.

his duties. Pending a final decision upon this man's case the Board are unable to authorize the disbursement of any portion of his salary to the person who is acting for him.

Revenue Board Office, Fort St. George, 30th March 1843 — (Signed) E. C. Lovell, Asst. Secretary.

Read the following letter.

To, E. C. Lovell Esqre

Acting Secretary to the Board of Revenue, Fort St. George.

76

From the Collector of Trichinopoly — soliciting authority to attach lands at the close of the fasly with a view to some of them being positively sold in satisfaction of arrears of Revenue in order that the Ryots may be disabused of their concert that Lands cannot be sold for arrears if they refuse to take Pattahs. also recommending a deduction of 15 per Cent on the

Sir, Para 1. Adverting to the 32d and following paragraphs of my Jummabundy report for fasly 1251 / A.D. 1842 I deem it my duty to bring to the notice of the Board that the difficulties therein reported as having been occasioned by the conduct of some of the Merasidars have again occurred. Some the Land holders refusing to take their Puttahs and making every possible resistance to the Collection of the Revenue under the impression that if they do not take Puttahs their Lands are not liable to be sold for arrears of Revenue. Some of them have proceeded so far as to take measures for instituting Suits against me in the Civil Courts for attaching their moveable property. I &c.

the Jummah in Conaud and Sadgoody 8½ per Cent in Vellicotty and Moosery if prices do not rise by the end of July 1252 1842-43.

2. If the Board were to give me authority to attach without further reference the lands of Meerasdars who behave in this improper manner, immediately at the close of the Fusly - and if they would then sanction the sale of a few, in the most glaring instances, I have little doubt but that this kind of opposition would at once cease - If they do not think proper to do so I cannot but anticipate a large balance at the end of the season. I have therefore to solicit their early attention to the subject.

3. The continued depressed state of the grain Market has undoubtedly caused very great distress - but the parties to whom I above allude are for the most part in very good circumstances - and resist the demands of the Circar, not because they are unable to pay their dues but because they are better able to enter into a contest - In regard to such persons I am not disposed to recommend leniency.

4. But unless prices rise higher than there is any appearance of their doing at present, some measure of relief will be necessary

necessary for the generality of the cultivators in the four wet Talooks - The usual returns exhibit the rates at which grain has been selling and when it is considered that unless in many places it can be sold for 12 Annas, and in some for 14 Annas, the Collam, it does not yield a remunerating price, some judgment may be formed of the straits to which the greater part of the Ryots must have been put in consequence of the long continued depreciation in the value of grain -

5. Under these circumstances I beg to propose that should the state of things not alter for the better at the close of the Fusly, I may be permitted to withhold the Collection of 15 per Cent on the Jumma in the Talooks of Conaud, and Sadgoody and of 10 per Cent in those of Vellicotty and Moosery - which will amount to about Rupees 85,000 - the different circumstances of the people, and the result of the years outturn, requiring that there should be a difference in the amount of indulgence extended to them in the respective Talooks -

6. I beg that it may be distinctly understood

Fort St. George 30th. March 1843.

understood that it is not proposed to make the deduction in question if prices improve considerably.

7. The Jummabandy of the present season Fusly 1252 / 1842/43 in the four mel Taloks exhibits a decrease of about 23000 Rupees below that of the preceding Fusly - owing chiefly to the lowness of prices.

8. I trust that I may be favored with an early reply to this communication

Trichinopoly District, Money Coll[r]s. Office dated 17th March 1843. (Signed) A. P. Onslow Collector.

Ordered that the following letter be sent in reply.

To The Collector of Trichinopoly.

(76-77)

To the Collector of Trichinopoly.

Communicating instructions in regard to the course to be pursued against the Inamdars who have refused to receive their Puttahs with the idea that the Coll[r]. is thereby precluded from distraining and selling their lands.

Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 17th instant representing that the Inamdars in some parts of your district have again refused to receive their puttahs with the idea that you are thereby precluded from destraining and selling their lands -

The

Fort St. George 30th. March 1843.

2. The Board have already entered fully into this question in their proceedings on the settlement of 1251 Fusly, Extract of which will shortly be transmitted to you - Meantime they desire me to inform you that they consider the course adopted by you in that year in taking the lands of such parties under the charge of the Servants of Government, to be objectionable, The Board request therefore that you will intimate to them that they are acting under a mistaken impression, and that whether they take their Puttahs or not, the Demand of Government will be strictly enforced - You will then be pleased to adopt the usual steps prescribed by the Regulations for proceeding against Revenue Defaulters selecting such individuals in the first instance, as may appear to you to be most proper for the sake of example -

3. With regard to the subject of the concluding paras of your Letter the Board desire me to observe that they are unable to admit a formal proposition for a general reduction of the Current Revenue such as you have offered, Besides being objectionable in

Fort St. George 30th. March 1843.

in itself from its tendency to check a willing compliance with the demand and to induce others both in the same and neighbouring districts to insist upon a similar indulgence it can only be permitted under the special sanction of government. The Board do not intend that the conditional authority for postponing a portion of the collections conveyed to you by their proceedings of the 7th. July last should have been taken advantage of, to the extent it has been and they are anxious to guard you against holding out hopes of such an indulgence being repeated. The most advisable mode of proceeding, in their opinion, is to carry on the collections as far as practicable without resorting to the general application of measures of severity. When you are of opinion that any further exaction would prove injurious to the future prosperity of the Ryots and consequently to the resources of the State, it will be proper to solicit the indulgence of Government, and the Board will always be happy to submit a specific recommendation from you to that effect supported by explanations shewing its necessity.

Revenue Board's Office, Fort St. George
30th. March 1843.

(Signed) E. C. Lovell
Actg. Secretary.

Read

Fort St. George 30th. March 1843.

Read the following letter from the Collector of Trichinopoly reporting on the lands in that District held on the favorable rates of assessment termed Pattam and Perroopoo.

(Here enter September 18th. 1842 No. 104)

In Con. 20th. Oct. 1842.

Proceedings thereon.

Recording observations on a letter from the Coll.r of Timevelly on the subject of lands held on Pattam and Perroopoo tenures in that District.

78

1. The term Pattam signifies a low assessment in grain, and Perroopoo a low money rate. From the Statements which accompany the above letter it appears that the lands thus held amounts to 15111 Seed Cottahs of Nunjah, and 267 31/32 chairs of Poonjah, of which the full teerwah is 39784-6-5, and the favorable assessment 9864 7-2, valuing the grain rate at the selling prices of July 1851. Of the whole quantity 10166-20-7 3/4 Nunjah is on Pattam, and 4944-4-3/8 Nunjah, and 267 31/32 Poonjah on Perroopoo. Of the whole extent also 6581-17-4 3/4 Nunjah is by the grant of ancient Villages, and the remainder 8729-7-6 3/8 Nunjah & all the Poonjah, by grant of patches of land.

Para 3.

2. The greater part, Viz. 13299-18-1 3/8 and 101 1/64 Chains was granted previous to the assumption, and is proved by the accounts of Fasly 1213, 1215, and 1216, to have been held on the present terms at the date of that event. The remainder 1800-7-1 3/4, and 166 16/64 was granted subsequently

Fort St. George 30th. March 1813.

subsequently to the British assumption, by various Collectors, the latter grantity include the land given to the Ramnad Revenue Sepoys on their bein disbanded in 1808. The lands seem to have been bestowed for four several objects, Viz. for charitable institutions, for village services, to secure the cultivation of waste, and for the benefit of private individuals.

3. The questions for consideration are whether the titles put forward are valid, and whether if they be, they confer hereditary right and the subject may be narrowed by at once excluding the lands held for the two former of the four objects specified above. For even though the claim should be disputable, the Board would not advocate the resumption of lands held for a long period of time for such useful objects. The extent of these lands is Tanjore Rs. 3612 - 11 - 2¼ - Carnatic 98 27/32 the Collectors assessment is Rupees 43316 - 10 - 11, and the favorable rate 20080 - 1 - 6 -

4. As regards the lands granted for bringing waste into cultivation, the Board do not concur with the Collector in concluding that the low rate was intended to be permanent & hereditary - The condition is of the nature of

Para 4 & 9.

Fort St. George 30th. March 1813.

of cultivation Cowles, which are found effectual to the end proposed in granting them, though their reduced rates of Tarvah are only for a few years. In allowing therefore Pattam and Paroyfoo enames of this class to continue during the life of the individual holding at the British assumption, or in the case of subsequent grants, during the life of the first grantee the Board think they are making a very liberal rule. The Collector will act upon this rule, making no demands for the present collecting the full assessment for the future, where in the one case the holder at the assumption, or in the other the original grantee, is deceased. Mr. Hepburne having been quite without authority, to grant lands in perpetuity, his orders to that effect cannot be recognized -

Para 9.

5. Of the grants stated to have been bestowed for private individuals, some are supported by the Sunnuds of the Nabob or of his subordinate Officers, some by alleged Copies of such Sunnuds, and some by the Pulea of Mamool only, while a few proceeded from British Officers of the District - Strictly speaking the grants of subordinate officers

Officers could not be held valid; but to act on that rule would appear harsh after so long enjoyment - as to the permanence of these Enams, the Board will pay due respect to the Sunnuds and Copies of Sunnuds produced before the Collector and will view with indulgence such grants as are maintained to be hereditary by such special authority; for though these documents are justly liable to doubt, it will not be fair to scrutenize them too rigidly at this distance of time. It will be proper to submit each case for the orders of the Board as lapses occur - The other Enams not so specially declared to be hereditary and those held only by Mamool, cannot be allowed a larger measure of indulgence than that given above to the grants for waste -

6. With regard to the right of Pattam and Porospoodars to dispose of their lands by sale &c. the Board are of opinion that they had no such right. It has been decided in the case of the Ramnad Sepoys who got land in Madura (and whose case resembles the present) that they had no power of alienation, and that lands

lands which had passed into other hands should be charged henceforth with full Jeerwah. The Board desire that the same rule may be adopted with the Pattam and Porospoo lands in Tinnevelly -

7. On some lands, it is stated the Pattam or Porospoo is so heavy, that the owners wish to be allowed the average rates of the Village, a proposal which is supported by the Collector. The Board are willing, that the Enamdars should cancel their tenure, but in preference to charging the village average Jeerwah, they desire that the rate fixed on the land at the Survey about to be recommenced may be substituted, until the survey rates be introduced, the rate of the nearest Circar land of the same description, or in the case of whole Villages, the average of the surrounding Villages, should be levied. Those lands which have never been cultivated since they were given on Pattam or Porospoo tenure should be resumed, and included among the Circar lands, and given for cultivation on the terms above specified to any persons willing to take them -

Para 11.

8. The Board see no occasion to exempt the lands referred to in Para 11 of the Collector's report from the operation of the

the general rules given above -

9. In their Proceedings on the Summad Brandy Report for Fasly 1245, the Board called for some additional information regarding the Cowles given in the Tinnevelly & District to the Ramnad Sepoys - That has not been supplied, but it is not necessary as the grounds on which the case of the Ramnad Sepoys settled in Madura was determined, are fully sufficient to enable them to come to a decision regarding those in Tinnevelly also. A Copy of the Board's final order on that subject will therefore be sent over to the Collector of Tinnevelly with these Proceedings for his guidance in dealing with that class of Exams -

Sept. 11. 1837, Para 34.

Extract Proceedings Oct. 7. 1841.

10 - It already observed it has not been considered necessary to pass immediate orders on the two first classes of grants specified in para 2 - But the nature of the charities comprised in the first of these is no where apparent from the papers at present before the Board - and it may appear on further investigation that some of these are of a description that should subject them to the treatment laid down in para 5 - The Collector will be pleased to

to attend to this point - The Grants conferred for Village services will hereafter come under review with the general subject -

11 - The Board takes this opportunity of calling the attention of the Collector to the subject noticed in Para 35 of their Proceedings above quoted - No further communication having been received in reply to the orders there given, the Board request the Collector to furnish the information asked for at his earliest convenience.

11th Sept. 1837.

From the Collr of Tinnevelly, dated 79

With reference to the Extract from the Statement of charges incurred without Estimate in Fasly 1251, received with your letter of 6th Instant, I have the honor to state that

6315 Fort St. George 30th March 1843.

that the Extra Sibbendy employed for preventing ravages of wild Elephants there in alluded to, forms a part of the Mayengalatah sanctioned by Govern= ment on the 11th August 1827 - and which has been hitherto charged to the Head of "Extra Revenue Charges" in ac= counts, but the cause of its having been included in the Statement now alluded to was the fact of its having been retrenched last year by the Civil Auditor tho' subsequently explained to him -

Sincerely } (Signed) E. B. Thomas
18th March 1843 } Asst Collector.

Order thereon - Ordered to be recorded.

To C. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

81

Sir,

From the Asst Collr of Canara - forwarding Statements shewing the arrangements carried into effect in 3 Talooks and a revised account of Decayed Pagodas stating the actual amount of Deostanum Deposits, and promises to send the necessary accounts for the remaining Talooks after the completion of the Revenue settlement -

Para 1. In reference to your letter of the 6th Instant, and to the Proceedings of the Board under date the 22nd December last, I have the honor to forward the accompanying three Statements, shewing the arrangements made, and carried into effect, for the future management of the Native religious Insti= =tutions, in the three Talooks of Bodiery Barcoor, and Cundapoor.

2 - These arrangements are in accordance with the Board's instructions contained in their Proceedings of the 14th November last - The arrangements for the remainder of the District are under preparation, and the Statements for each Talook will be transmitted as soon as they are completed - I beg, however, to observe, that as my establishment is at present engaged in the annual land revenue settle= =ment, the arrangements for the two remaining Talooks, cannot, without inconvenience, be

be carried into effect until after the conclusion of the settlement.-

3.- As from the remarks of the Board in para 4th of their Proceedings dated 2d December last, a misapprehension appears to exist with respect to the amount of the accumulation of the Devastanam Savings, I beg to state, that the difference between the sanctioned allowances, Viz. Rupees 1,54,634-14-0, and the actual disbursements, Rupees 1,51,870-12-11, amounting to Rupees 2764-1-6, has been regularly carried to the credit of Government, since July 1245 A. D. 1835/36 and that there is, therefore, no deposit in my Treasury on that account- The actual accumulated deposit in the Treasury, on the 31st January last, amounted to Rupees 6,562-7-5, and is composed of the unpaid allowances of the deceased Pagoda, as well as of the sums retrenched from the salaries of certain Pagoda Servants on account of absence &c., the particulars of which are specified in the accompanying Statement.+

+ No. 4.

4.- In reference to the observations in Para 6 of the Board's Proceedings under acknowledgment, I beg to explain that the difference

difference in the Number of Pagodas noticed therein, is owing to an error in my former Statement, which is now rectified in the accompanying Statement No. 5.-

5.- Any further information on the subject that may appear necessary, shall be submitted in a final report, when the arrangements for the whole District are completed.-

Principal Coll.r Canara
Mangalore 18th March 1843.

Proceedings thereon. 1

Recording observations on a Letter from the Pt. Collr. of Canara forwarding accounts of the arrangements carried into effect in three Talooks of his district for the future management of the Native religious institutions and urging him to settle the Devastanum in the remaining Talooks with all practicable Despatch.

in Con. 17th Feby 1842

81-82

Codipy - 24171-12-10
Barcoor - 16,272-13-2
Lundapoor 22,016-4-8
59460-14-8

The Statements now forwarded exhibit the settlement of the religious institutions in three Talooks enjoying monied endowments to the amount of Rupees 59460-14-8 annually the total Jusdeck of the whole District being Rupees 135152-13-7 The Board notice with concern the little progress which has been made after so long a lapse of time in the adjustment of this important subject in Canara. The cause assigned for the delay moreover is precisely the same as that given in the Principal Collector's letter of 1st February 1842 upwards of a year ago, Viz., that his establishment were engaged in the annual revenue settlement - and the District under review is further the only one in which the arrangements for the transfer of the Devestanum are still incomplete, altho many others are at least equal to Canara in the number and wealth of their Native religious institutions, and the difficulties attendant upon their adjustment - Government have repeatedly called

called the attention of the Board to the subject, and while they regret that it should have been so far delayed as to interfere with the labors of the current Summabundy, the Board are under the necessity of pressing it most strongly upon the notice of the Principal Collector and urging that the settlement of the Devastanum in the remaining Talooks of the District should be effected with all practicable despatch - It is deserving of remark that the three Talooks of which the accounts are now forwarded are in the Principal Division - no arrangement seems to have been completed in the Sub Division tho' of the three Talooks which compose it, the Jusdeck of one (Bilghy) is only Rupees 2,636-9-3 that of another (Soopah) Rupees 2,343-15-7.

2 In reference to Para 4 of the Board's proceedings December 22d 1842 the Principal Collector explains that the difference between the sanctioned allowances and the actual disbursements amounting to Rupees 2764-1-6

has

has been regularly carried to the credit of Government since fusly 1251 and there is consequently no deposit in his treasury on that account - From the statements which accompanied his letter, it appears that the amount of deposit up to January 31st 1843. was Rupees 6562 — 7 — 5 composed of Rupees 5,884 — 2 — 2 from unpaid Salaries &c and Rupees 678 — 7 — 3 being Lapses in decayed Pagodas.

3 Refering to the first entry in the return for the Codispy Talook, Viz. Codispy Kista Dava Pagoda with an annual endowment of Rupees 8400 in Money and property of an estimated value of two lacs of Rupees the Board remark the appointment of eight trustees; but no mention is made either in the Statement or in the Principal Collector's letter as to who these parties are and what the circumstances which have induced him to select them for this important trust - The same observation applies to No. 11 and

and 12 of the same Statement to No. 1 and 15 of that from Barcoor to 1-3 and 5 of that from Candapoor. it is desirable that some further information should be afforded in these cases, and in general where the yearly allowances or accumulation of property annexed to such establishments are considerable, the Board are of opinion that the character and claims of the persons to whom their management is confided, should be succinctly stated.

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be furnished to the Principal Collector of Canara for his information and guidance.

From the Pl. Collr. of Canara. Read Statement of Extra tent allowance drawn by himself and his Subordinates for fusly 1251.

85

To E. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

From W. T. Connolly, Esqre
Collector of Malabar,

Acknowledging the receipt of the Board's Proceedings of the 20th ultimo conveying the Government Resolution on the claims of the Todas to certain lands on the Neilgherries and the sanction of the payment to them of Rupees 150 as compensation for the present year. Informs that he has personally disbursed on that account to the Todas to the amount of 300 Rupees for fusly 1250 as well as 1251 and expresses his hope that the whole of this disbursement may be sanctioned under the circumstances mentioned therein.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue under Date the 20th ultimo conveying the Resolution of Government respecting the arrangements recently authorized relative to the claims of the Todas to Lands on the Neilgherries, and the sanction of the payment to them of a Rupees 150 as a compensation for the present year, on account of the site occupied by the Cantonment of Ootacamund.

I beg to bring to the notice of Government that, as stated in my Letter of the 29th December last, I have personally disbursed compensation to the Todas to the amount of 300 Rupees for Fusly 1250, as well as 1251, and to express my hope that the whole of this disbursement may be sanctioned. I may have

Fort St. George 30th March 1843.

have mistaken the Government intentions and have acted inconsiderately in paying for Tuesly 1250, but at the time in which I did so, I had not the slightest doubt that the purport of the orders contained in Para 5 of the Govern-
ment instructions authorised the outlay from the Date of the letter in which I had re-
commended it, a letter on which the Govern-
ment orders were in a great measure based the only question in my mind was whether the remuneration should be allowed for a date preceding that letter / as explained in my communication of the 4th Nov-
ember 1840 / three months have elapsed since the Money was paid, and I shall find it extremely difficult, to say the least, to recover the amount from the Todas, espe-
cially as they are no longer under my juris-
diction. Should the Government resolve indeed that it be recovered I must express my hope that they will desire the Principal Collector of Coimbatore, to give me his aid in effecting it.

Calicut 14th March 1843 } / Signed / H. V. Conolly Collector

Ordered

+ Mr of Cons dated 17 Sept. 1842

13th July 1840

Fort St. George 30th March 1843

Ordered that the following address be submitted in consequence:-

To The Acting Chief Secretary to Government

Sir,

86

To the Ag. Chief Sec. to Government — Para 1

Inf. 20th Feb. 1843

(85-86)

With reference to the order of Government under date 14th February 1843. No. 172, sanctioning the payment to the Todas on the Nilgherries of Rupees 150, as a compensation for the present year, I am directed by the Board of Revenue, to forward for submission to the Most Honorable the Governor in Council the accompanying letter from the Collector of Malabar under date 14th March 1843 requesting sanction for the further sum of Rupees 300 which he had personally distributed to them for Tusties 1250. and 1251. A.D. 1840/41. A.D. 1841/42. having considered himself sufficiently authorised to do so under the orders of Government of 17th September 1842 Para 5; he states that his only doubt was whether he should calculate the arrears as commencing from a date antecedent to that of the letter / 13th July 1840 / in which he recommended the measure.

Inf. 30th March 1843

Inf. 17th Oct. 1842

A in the Ag. Chief Sec. letter 25th July inf. 3d Aug. 1840.

2. It appears to the Board to have been the intention of Government to allow the Todas compensation to the extent above stated and they therefore recommend that the payment may be sanctioned.

Revenue Board Office Fort St. George 30 March 1843 } / Signed / C. C. Lovell Acting Secretary

Read

Fort St.e George 30th March 1843.

From the Collector of Masulipatam. Read Register of Petitions
(87) bearing the Board's endorsements presented
to them in the Month of February last.

Order thereon. Ordered to be lodged.

(87-88) Resolved that the following
letters be despatched.

To The Acting Chief Secretary to
To the Actg Chief Secy to Government. Sir, Government.

The Acting Chief Secretary to Government

Sir

(91)

To the Actg. Chief Secy. to Govt.

Submitting a Statement shewing the number and description of persons charged under Regulation IX of 1822 and the manner in which the Charges have been disposed of together with a Statement of the number of Appeals presented to and disposed of by the Board under Regulation VII of 1828 during the 2d. half year of 1842.—

Para 1. I am directed by the Board of Revenue to submit for the information of Government the accompanying Statement shewing the number and description of persons charged under Regulation IX of 1822 and the manner in which the charges have been disposed of by conviction, acquittal or reference to the Courts, together with a Statement of the number of Appeals presented to and disposed of by the Board under Regulation VII of 1828 during the 2d. Half year of 1842.—

2. The total number of persons charged with offences under this Regulation in the above period was 199, of whom 182 were convicted, 14 acquitted and 3 forwarded to the Criminal Courts. Of the Number of persons charged with offences 26 were Native Servants of the Collectors Public Establishment, 172 Village Officers and 1 not on the public Establishment. Of the 1st. Class 15 were convicted, and 11 acquitted. The number of

of convictions in the 2.d Class was 166, the number of Acquittals 3 and the Number forwarded to Criminal Court 3.- She one in the 3.d Class was convicted.-

3. The District in which the greatest number of Charges occurred in Cuddapah but it is satisfactory to observe that that number is far less than what it was in the preceding Half year, and that all the persons charged were Village Officers.-

4. With reference to the remarks of the most Honorable the Governor in Council under date 31.st December 1842, regarding the great number of Charges usually made in this District, the Acting Principal Collector has explained that they should be ascribed not so much to fraud, as to negligence in the Village Officers in omitting to enter the proper extent of land taken up by the Ryots at the season of Cultivation, for which a small fine is considered in this District to be a sufficient fine. The Board have directed the Collector to conform to this practice hereafter, and to omit such trifling cases from his returns.-

5. In Ganjam, Masulipatam, Bellary and Chingleput, no trials took place under this Regulation during the period under review, and there was only one case in each of the Districts of Tanjore and Malabar.-

6. It is necessary to observe that, notwithstanding the decrease of the number of Charges in Cuddapah during the 2.d half year of 1842, there is still an increase in the total number of that period when compared with the preceding half year, which is chiefly owing to the large number of cases tried in Salem, Madura and Coimbatore.-

7. The number of Appeals remaining under consideration on the 31.st December 1842 was 1.-

8. The number of Appeals presented during the 2.d half year of 1842 was 17, all of which were disposed of, of the sentences appealed from having been confirmed and 10 reversed.-
