Fort St. George

Sir,

1 On my joining the Jaghire in 1838 I found it had been in contemplation to purchase the buildings at Guindy known as Murrays Stables for a Talook Cutcherry & Jail & also that an arrangement for the purchase of certain land in the vicinity had been made with the concurrence of Lord Elphinstone, whereof the Government were to retain such portions as they might require of the Cutcherry Compound, the formation of the new approach to Guindy and the road leading towards the sea, whilst Mr. Kelly had agreed to become the purchaser of the remainder at the same price per Cawney as had been fixed with the owner for the whole. I then brought the subject to the notice of Government, requesting sanction for the purchase of the Buildings and for the Cost of the land reserved for Government purposes, and which was granted on

Mint. Cons. dated 2d Nov. 1838 and Dt. 27th Augt. 1839. 2

on the dates noted in the margin. Mr. Kelly however having subsequently declined fulfilling his part of the arrangement, it became necessary to look out for another purchaser for the remaining portion of the land and one has offered in the person of Fakeer Saib of Madras, but as I have ascertained that his object is to build a Native Bazar and a number of small houses upon the Ground, I am induced to bring the subject to the notice of Government, as to allow the Ground to be so disposed of would evidently destroy the new approach to Guindy, which has been constructed with so much labour, and to solicit sanction to complete the purchase of the land at the Cost of Government, with the view of again disposing of the property whenever a favorable opportunity for so doing, without injury to the appearance of the public property in the vicinity presents itself. The extent and price of the land for which sanction was before obtained and for which it is now requested, and which is situated on the right hand

Extract from the Minutes of Consultation under date the 7th April 1843.

The Most Honorable the Governor in Council proceeds to pass orders on the following paragraphs of the Dispatch in this Department from

from the Honorable the Court of Directors dated 1st February 1843. No. 2 which alone require notice

1

The Honorable Court will observe from para 25 of the letter dated 26th December 1842, No. 62, that the Money allowance in lieu of the Canil lands resumed from the Zemindar of Woodiarpalliam was erroneously conferred on him, "in perpetuity" and that the mistake has been rectified and the grant is now regarded as "for life".

2.

The Board of Revenue will with reference to the instructions conveyed in para 4 take measures without delay for giving effect to the orders of the Honorable Court and submit to Government for sanction the amount of compensation they consider to be an equivalent for the lands resumed from Pagodas and Chuttrums.

Extract of a General Letter from the Honorable the Court of Directors dated 1st July 1843 No. 2

17) Arrangements consequent on the resumption of the Canil Lands held by the Zemindar of Woodiarpalliam in the Talooks of Chillumbrum and Managoody in South Arcot reported

3

You have Directed that all the lands and other revenues enjoyed by the Pagodas in these Talooks be resumed, and that a Money allowance equal to 15 per Cent on the income derived therefrom be conferred on him in perpetuity that the Institutions

allowance equivalent to their full value being granted to the present incumbents for life the circumstances of each family dispossessed being reported for consideration on each lapse With respect to lands alienated to Pagodas they are to be resumed in like manner a compensation equivalent to their full annual value being granted, terminable at the expiration of 5 years.

4

We are of opinion that in these arrangements the instructions communicated in Para 4th our Dispatch dated the 2d July (No. 7) 1841 to deal liberally with the parties who have so long held undisturbed, although unauthorized possession of those lands are sufficiently complied with, and we accordingly give them our confirmation. With respect to the allowance Directed to be given in lieu of the lands resumed from Pagodas and Chuttrums, amounting to Rupees 1602 8 1 per annum, we think it would be more expedient to make the proposed compensation by the immediate payment of an equivalent amount.

Ordered that the following address be submitted in consequence.

I am directed by the Board of Revenue, to acknowledge the receipt of an Extract from the Minutes of Consultation of the 7th instant, communicating Extract from a General letter from the Court of Directors 1st February 1843, and requesting that the Board will submit for sanction the amount of compensation which they consider to be an equivalent for the lands resumed from Pagodas and Chattrums but formerly alienated by the Polegars of Hoodiarpollium to those institutions in the Munnargoody and Chellumbrum Talooks of South Arcot.

2. In reply the Board instruct me to state that Rupees 3017 8 4 being quintuple the amount of Rupees 1,607 8 1 originally proposed to be paid annually for the term of five years, will, in their opinion be an equitable equivalent in compensation of the resumed emoluments in question. Read the following Letter from the Commissioner at Kurnool

Forwarding a Statement of the Allowances to Pagodas, Mosques and Yeomiahdars and recommending that the Allowances for the support of the 2 former be continued, and that those of the latter lapse to Government as the parties

Containing observations and orders relative to the Religious and Charitable Allowances disbursed in the District of Kurnool and reserving that the Commissioner

+ Rupees 1,11,408-3-3.

in Council observes that the Religious and Charitable Allowances disbursed in the District of Kurnool, are stated to amount to Rupees 1,11,408-3-3 per annum, the greater portion being on account of Yeomiahs to Mussulmans and Hindoos.

2 The Yeomiah must be viewed at present only as life grants to individuals and His Lordship in Council is of opinion, that where the parties entitled to them are dead, or have left the District the allowance should be at once resumed and that for the future whenever a claim to succeed to lapsed allowances may be preferred, a special report on each case should be submitted through the Board of Revenue for the orders of Government. Where however, a Yeomiah is awarded by, for a religious purpose as for Native Religious Festivals, the Mohurrum &c., or where the grants from their nature appertain to Religious Institutions, and are intended for their support, it is the opinion of the Government, that such grants should be discontinued, when it can be done without injustice to individuals, and they should not form an item of annual disbursement from the Public Treasury. The Commissioner will carefully investigate this matter, reporting those cases in which he considers it to be open to the Government to discontinue the payment from the state, and to leave the Institutions and Festivals to the support of those interested in them - and in those

which he should be of opinion that the Govern=
=ment is in equity bound to the payment, he
will state, in what way the obligation may
best be redeemed - Whether, by assignment of
lands yielding annually an amount equiva=
=lent to that paid by the Government, or, by any
other mode, by which the continued connection
of the Government with the religious Institution
of the people, may be avoided, and they may
be left in all that concerns their religious Wor=
=ship entirely to themselves, without interference of
any Kind. -

3 It is the intention of Their Lord=
=ship in Council to address the Honorable
the Court of Directors on this subject, and
pending their reply, the Commissioner, when=
=ever he deems it necessary, will make the
usual disbursements without seeing that the
conditions of the grants are observed. He will
especially report, whether there is any peremptory
necessity for continuing the allowances for the
Mohurrum and various Festivals under the
various designations in which they appear
to have been heretofore drawn in the Lists
submitted by him - and whether the funds
for needy Travellers under the head of
Mohurrum allowances is not [illegible]

entire abolition.

4 The Commissioner will be furnished
with a copy of the Rules issued in the Revenue
Department for the guidance of Collectors
in the payment of peomiah, which that Officer
will be requested to establish in the territory under
his charge, and furnish a descriptive Register
in duplicate, with the requisite details at the end
of the year through the Board of Revenue, for record.

from a letter from the Honorable the Court of Directors addressed to the Government of India in the Financial Department, dated the 31st May 1841 № 13.

Para 162 We proceed to notice very briefly the Revenue and charges of Madras and Bombay in the years 1835/36 and 1836/37 for the purpose principally of bringing into one view the financial results of India for those years.

Madras Revenue 1834/35 – 1835/36 and 1836/37.

The causes of the variations in the aggregate amounts of the receipts in the General Department at Madras in the period under review will be immediately seen on reference to the particulars in the margin. The cessation of income from the Mint was the necessary consequence of its temporary abolition. The large amount of Bank profits brought to account in 1835/36 was the result of several years accumulation, and the unusual sum realized in 1836/37 by the sale of Presents was occasioned by the disposal in Bengal of certain Jewels the produce of which was credited to Madras. It is satisfactory to observe progressive improvement in the Post Office Receipt and stamp duties.

The receipts in the Judicial Department were considerably higher in 1835/36 and 1836/37 than in previous years owing to the institution for at the Zillah and Circuit

Government instead of being allowed to
District Monsoon as was the case prior to 1833-4.

of Land Revenue the
resources in 1834/35
and 1835/36 presented
a more favorable
aspect than any we
had witnessed within
the period of the 4 pre-

1836/37 a falling off again
occurred — We dwelt at
considerable length upon
the declining state of
the Revenue of Madras in our Financial
Despatch to the Local Government dated 20th
August 1837 No. 13. and the Government in
consequence of that communication appointed Mr.
R. Cotton the 2nd Member of the Board of Revenue
to inquire fully into the causes thereof — Mr
Cotton was relieved from his ordinary
duties at the Board to enable him to devote
his whole time and energy to this interesting
subject and afforded every official fa-

was not to be confined "wholly to those
"causes but also to consider how the

"trenching all superfluous charges and esta-
"blishing rules for preventing any excess here-
"after," we are in hopes that we shall soon
be furnished with very full and valuable
information upon those several points. —
166 The greater falling off of
upwards of 20 lacs of Land Revenue in
1836/37 as compared with 1835/36 was no
doubt occasioned by an extensive failure of
the crops in many Districts from exces-
-sive drought. In Coimbatore alone
there was a diminution of 7½ lacs or
about one third of the Gross Revenue, a
which is ascribed to this cause, and in
several other Collectorates though the fall-
-ing off was considerably less it is attri-
-buted to the same unhappy cause. In
the Abkarry and other receipts in the Revenue
Department in the 3 years under notice
there was but a slight fluctuation. —
167 The income from Peishcush
and subsidies being fixed by
Treaties with the Government
of Mysore, Travancore, Cochin
and Kurnool, is not liable
to any fluctuation. — The a

Customs 168

In the Customs Receipts there was a material increase in 1836/37 as compared with the two preceding years. The augmentation occurred principally in the Land customs in Canara and at Madras. In Canara it was produced by a larger exportation of Betle nut and Cardamoms than usual owing to the Season having been very favorable for their growth, whilst in the year 1835/36 there was a remarkable failure in the Crops of those Articles. At Madras the net receipts of Land customs was considerably larger in consequence of the Drawbacks having been less in 1836/37 than in the preceding year.

Tobacco

In the receipts from the Tobacco Monopoly there has been a progressive improvement since 1831/32 in which year the amount was less than at any preceding period subsequently to 1825/26 In 1826/37 the amount was higher than in any former year. The causes assigned for the increase in the last two years under review are the improvement in the quality of the article produced in Coimbatore and also to more extensive Sales in Malabar.

Salt

The receipts from the sale of Salt were higher in 1834/35 than in any year preceding with the exception of 1829/30 when they were nearly a lac more.

In 1835/36 the sales fell off in most of the Districts, and in 1836/37 the measures in Bengal for suspending the exportation of Salt from Madras to Calcutta for two or three years necessarily reduced the trade in that Article at the former Presidency upon the whole however we do not regard the Salt Receipts as unfavorable

The decrease between these amounts are accounted for almost wholly by the fluctuation in the Land Revenue and the crediting of the accumulated Bank Profits in the year 1835/36 Comparing the average amounts of the total

receipts in the last 7 years with the average amount in either the 7 or 14 years preceeding we find there has been a falling off of 18 lacs of Rupees per annum in the last 7 years, which has occasioned by the depressed state of the Land Revenue in consequence as we gather generally from the Proceedings of the Madras Government of general unprosperous seasons for agriculture having occurred in many Districts of the Presidency within the period ad-

Excluding from the charges of the General Departments as they are shewn on the Madras Statements, the value of Stationery supplied &c from thence and the payments in respect of Interest which will be accounted for hereafter, we find the remainder &c amounted in 1834/35 to Rupees 3,452,131 in 1835/36 to Rupees 3,398,511 and in 1836/37 to Rupees &c. 3,143,927. There was consequently a diminution in the general charges in 1835/36 as compared with the amount in 1834/35 of Rupees 53620, and a further diminution in 1836/37 of Rupees &c 254584. - These reductions as will be seen by the summary in the Margin occurred principally in the following items of expence Viz.t - In the Out bar charges there was a saving in 1835/36 and 1836/37, of nearly &c 40,000 Rupees in each year in consequence of scarcely any pressents having been given away, and in 1836/37 by reductions to the extent of nearly 22,000 Rupees in the Salary of the Residents at Travancore and Mysore - Under the head of Public Establishments &c in that of the College at Madras and on account of public instruction and allowances to Students the expence in 1836/37 was less than in &c 1834/35 by nearly 46,000 Rupees, owing to the discontinuance of part of the Establishment and to the number of Pupils having been less - in the Mint charges the reduction was occasioned by the discharge of Establishments consequent upon the resolution of 21st October 1835 for the abolition of the Mint and the cessation of losses incurred from wastage - In the Stamp charges in 1836/37 the diminution was only nominal owing to the Commission paid to the Collectors being charged in the

Revenue Department instead of under the head of Stamps as formerly - We deprecate of this transfer as having a tendency to compression. The whole charge connected with the sale of stamps should be stated under one head. - In the expenses for Hospitals and Vaccination, the reduction in 1835/36 and 1836/37 was owing to there having been less vaccination in the Provinces in those years. In the Miscellaneous charges the reduction in the same years was the result of there having been less payments for extra Batta to Officers escorting Treasure and for performing other civil duties. On the other hand there was an increase in the Ecclesiastical Expenses in 1835/36 and 1836/37 owing to the appointment of a Bishop. In the Famine Assessment charges in 1836/37 in consequence of bringing to account in that year a considerable portion of the expenses incurred in the preceding year for the repair of Roads. There was a surplus charge in three years on account of the Assessment Establishment of Rupees 40,834 - we have already complained to the Government of this

to any charge on this account, and we trust that arrangements will have been adopted to prevent the recurrence. -

It is satisfactory to observe a tendency to improvement in the net result of the Post office Revenue. There was a slight diminution in the charges of this Department in 1835/36 and 1836/37 as compared with 1834/35, accompanied by a progressive increase of receipts. In 1836/37 there was a net Postage Receipt of Rupees 89554

175

The Judicial charges were less in 1835/36 and 1836/37 by upwards of 3 lacs of Rupees than in 1834/35. Under the Supreme Court the expenses for freight and sick & convicts were less in 1835/36 than in the preceding year by Rupees 40,834

The expence on this account is now also considerably less in 1836/37 than in 1834/35 - The office of Puisne Judge was also vacant from January to December 1836 which accounts for part of the reduction - The charges of the Court of Sudr and Foujdaree Udalut in 1834/35 were nearly 90000 Rupees higher than usual owing to the payment of arrears of Salary to the 2d Judge and to the extent of Deputation allowance to Acting Judges in that year. There were, consequently no real reduction of Charge in 1835/36 and 1836/37, the difference between the expences in those years and the amount in 1834/35 being accounted for by the above circumstances. - We regret to observe that in the two following years 1837/38 and 1838/39 these charges progressively increased.

176. There was an augmentation in the Revenue charges of more than 2 lacs of Rupees in 1835/36 and 1836/37 as compared with the amount in 1834/35. This increase occurred chiefly under two heads, Collectors salary and Commission to which we shall presently refer, and the expense for the repair of Tanks, which latter though in excess of that year by 1,18,000 Rupees was nevertheless moderate in comparison with the expenditure for many years previously to 1833/34. There has been a considerable increase of late years in the proportion of Civil Engineers charges debited to the Revenue Department and the reasons generally

assigned for it in the Madras Accountant Reports are the adjustment of arrears or of the proportion applicable to this branch. As the results are usually an increase of expense it is impossible to understand the modes of adjustment adverted to. The combined charges on account of the Board of Revenue, Salaries and Commission of the Collectors and Subordinates of the Establishments which together may be denominated as the charges of collecting the Land Revenue were higher in 1836/37 than in the two preceding years, notwithstanding the remarkable falling off in the receipts of that year.

In taking a review of the charges of collecting the Land Revenue of Madras during the 21 years from 1816/17 to 1836/37 inclusively, we regret to find that while as already shewn there was an extensive falling off in the means throughout a considerable portion of that period there was at the same time a general tendency to augmentation in the charges. In the first 7 years of the series the average charges was Rupees 26,89,910. per Annum only. In the second 7 years of the series the average charge rose to Rupees 36,14,837 per annum and in the third series to Rs

We are unable to ascertain exactly the average amount of Land Revenue collected in the first Series of the period, in consequence of the Nuttumpha Say having been combined with it up to the year 1820/21 when it was first stated separately, but there is no doubt that it fully equalled the average amount collected in the second Series which as shewn in the Margin was Rupees 3,24,13,533 — — In the third Series the average amount of the receipts fell to Rupees 3,01,15,452 being a reduction of 7 per Cent, and yet the charges of Collection which had increased from Rupees 26,89,910 the average amount in the first 7 Years to Rupees 33,14,837 the

the second 7 years / or more than 23 per cent / were allowed still further to increase to Rupees 34,20,696 in the last 7 years of the series, being an advance of upwards of 27 per Cent on the charge of the first Series, notwithstanding the great and continued falling off in the resources. These are circumstances which appear to us to call for serious enquiry and examination on your part. Upon this subject we desire your attention to a Minute by Mr. Sushington of our Council at Madras dated the 9th October 1838 of which a Copy is transmitted in the Packet wherein he calls to the notice of the Council the repeated, and almost incessant application to the Government for Increase of Establishments and the facility with which such increase is acceded to. A copy of the Minute recorded in reply to it / but dated some Months later / and which we do not consider satisfactory is also transmitted in the Packet. Mr. Sushington's representation, and particularly the subject of increase of Establishments to which he refers certainly require your attentive consideration and the exercise of a constant and vigilant control.

In the charges of collecting the Land Customs at Madras a saving was effected in 1835/36 and 1836/37 by the abolition of Establishments which were rendered unnecessary in consequence of a portion of the Sayer Revenue having been remitted in those years. In winding up the Charges of the year 1834/35 we shall deduct the sum of Rupees 1,97,752 the amount of a Carnatic Bond deposited as a security for the discharge of a balance standing upon the Books of the Import Warehouse Keeper against the late Nabob in which the Commissioners have awarded in our favor. We shall also deduct from the Charges in each year the amount of Commercial receipts in excess of the Commercial payments. For the better understanding of the adjustments which were required to be made in the Extraordinary Departments of the Statements, to obtain a correct view of the financial Results of the Madras Charges in the years received with the adjustments already adverted to, we find the total amount was in 1834/35 Rupees 4,43,07,390 in 1835/36 Rupees 4,08,87,837, and in 1836/37 Rupees 4,14,97,799, which being deducted from the total receipts in the same years leaves a surplus in 1834/35 of Rupees 34,39,233, in 1835/36 of Rupees 8,21,877- and in 1836/37 of

22

Para 1 The deficiency in the Stamps

appears to have occurred so far back as the year 1817, - and as it is not possible at this late period to fix the responsibility upon any Officer, the Most Honorable the Governor in Council has therefore no alternative but to grant his sanction for writing off from the Accounts the sum of Rupees (5,079 - 13 - 10) Five thousand and Seventy nine, Annas thirteen and Pice ten, being the value of 1817 Rolls, as shewn in the Enclosure No 2 to the Board's letter of the 29th September 1842 No 422.-

2. It is observed that this deficiency, although easily traceable from its being excluded from the returns furnished from Malabar to the Stamp Office, either escaped detection or was unnoticed until 1836, a period of nearly 20 years. His Lordship in Council cannot but attribute great neglect to that Department, and he trusts that such arrangements have been made as will ensure the exercise of a more efficient check over the Returns of the Collectors, and so lead to the ready discovery of any similar deficiency.

Para 1.

The Most Honorable the Governor in Council sanctions the proposed disbursement of Rupees 448 on account of the additional Establishment required in North Arcot, for the preparation of the Settlement Accounts of Fusly 1251 —

28

Sanctioning the proposed disbursement of Rupees 448 on account of the additional Establishment required in North Arcot for the preparation of the Settlement Accounts of Fusly 1251 and desiring the Board in future to submit both in respect to estimated and actual disbursements a statement exhibiting at one view the extent of additional aid required in the several Districts for the preparation of the Summa-bundy accounts.

2.

His Lordship in Council observes that disbursements of this nature are in some Districts blended with other Extra charges and submitted for sanction in the Statements ordinarily laid before Government by the Board of Revenue and as they do not in consequence appear distinctly and

and separately on the face of the Proceedings of Government, they are omitted in the Tabular Statements furnished to the Government of India, while the disbursements sanctioned upon special applications, are alone included in those Statements. -ing those noted in the Margin, it is desirable that it should be clearly shewn that they are not unusual or special in a few Districts, and with this view, as well as to obviate fre-quent applications for sanction on this account, His Lordship in Council desires that the Board will in future submit, both in respect to estimated and actual disbursements, a State-ment similar in form to that furnished with their letter of the 15th August 1842 No. 348 exhibiting at one view the extent of additional aid required in the several Districts for the preparation of the Summa-bundy Accounts, with remarks pointing out the cause of an excess of charge in one District as compared with others.

In returning the Petition from Cooraney Nursiah late a Sub Officer of Police in the Cooran Talook, forwarded for my consideration with Mr Baudillons' letter of the 10th October last, I beg to state that from the proceedings of the Criminal Court in the case committed for trial by the Petitioner, and from the station of the Parties concerned therein, the Petitioner seems to have been guilty of misconduct to an extent that justified his removal from employment by Mr Arbuthnot. But I am not aware that his exclusion from the public service in perpetuity is required, nor intended. The entertainment of servants of the Class of Petitioner must be left to the discretion of the local Officer, and there has been no bar that I know of to his reemployment but the disinclination of the Collector to give him service.—

Cottoory Soobanah Puntooloo of Cocanada Ameen of Cocanada Talook and 3. G. A. Smith Esqr. Collector in the Tillak of Rajahmundry in all three Defendants.

The Office of the Curnum of the said Village appertaining to the Pagoda Zemindary now under Circars attachment was long ago acquired by our ancestors and conducted by a single person without the appointment of a Co. Curnum and the emoluments therefrom derived were enjoyed by the same person who performed it. My Grand father named Cauvanaze was appointed to this Office and died after discharging the duties

of it for long time and then his son at my father Peda Timmeranze alias Timmeranze having succeeded him his name was entered in the lists of Curnums of the year Crodhanah or A. D. 1805 and Sreemookah or A. D. 1813 which were obtained by the Circar under Regulation XXIX of 1802. My father thus held the Office for a long time and departed this life whereupon I was employed in his place by A. Crawley, Esqr late Collector in the year 1832 and am since discharging the Circar's duties with punctuality and enjoying the emoluments derived from the Meerasy. My name was also entered in the list of Curnums obtained by the Circar in Fasly 1248 or A. D. 1838.

While the case was as above my enemy the 1st Defendant having combined with the 2nd caused him to report on 22d May 1841 to the 3rd Defendant to appoint him (the 1st Defendant) as Co. Curnum by representing certain false circumstances against me. As I heard this, I have on the 26th May 1841 presented an Arzee to the 3d Defendant but although he found from the Lists of

Curnums

Cummum at his Keeper, that my father and myself have been successively appointed Cummums of the said Village and that no Cummum was ever employed, yet he rejected my argee with an endorsement of 1st June 1841 that unless I collect within the end of fusly 1250 the balance of revenue fixed against the said Village for that fusly a Co-Cummum would be appointed as required by the 2nd Defendant. The balance against my Village was not levied in full in consequence of the failure of Crops arising from the draught of rain in that part of the District in fusly 1250

It is the duty of the Cummum to pay proper attention without any difference in writing the accounts &c while it is incumbent on the Cummum on behalf of the authorities to attend to the affairs of the Cust, collection &c but when there was no any defect in the discharge of my duties the 2nd Defendant has not only rejected my argee by mistake with an endorsement that I should keep the collections which is not my duty but the 2nd Defendant's but under a further report of the 2nd Defendant vainly deprived me of half of my Cummum duty and employed for it the 1st

the 31st August 1841 in repugnance to the Regulation XXIX of 1802 Section V Regulation XXV of 1802, Section XI and Circular order of 2nd Sept. 1807 Number 1830 which provide that the duties of a Cummum should not be discontinued without the decision of the Court. The 1st & 2nd Defendant has since held half of my Cummumship and received 75 Rupees, being half of the emoluments derived from my Meras[illegible] Situation for the year Khara or fusly 1251 amounting to 150 Rupees as follows, 60 Rupees levied from Cultivators Inamdars as has been usage for a length of time past, 70 Rupees from Jerogty Ryots 10 Rupees from Shetterpha Ryots and 10 Rupees from Marriage presents. I was deprived of half of my Cummum right in consequence of the 3rd Defendant having newly appointed the 1st as Cummum upon a false report which was made by the 2nd at the instigation of the said 1st & 2nd Defendant, I am obliged to file the present Complaint against the three Defendants with a view of obtaining redress from your Court.

I therefore pray your Court will be pleased to examine my witnesses and document as well as the lists of Cummums lodged in your Court and pass a Decree

adjudging the 1st Defendant to pay me in cash the Rupees 75 received by him, being the half of the emoluments due to me for the year Talavadi or fasly 1251 together with the costs of suit and subsequent emoluments and cancelling the order of the 3d Defendant so that the 1st Defendant may be dismissed from the Co-Curumee duty which annually fetches about Rupees 75 and that I may be restored the same. Please to provide.

No. 2.

To The Court of Udalak of the Zillah of Nasalipatam.

Proposed answer by G. A. Smith Esq.r Collector in the Zillah of Rajahmundry 3 Defendant to the Complaint filed by Autoocoory Pedda appulnaeze Plaintiff in cause No. 779 of 1842 on the file of your Court.

The Plaintiff states in his Complaint that the Office of Curumee of

Navara Village was long ago acquired by his ancestors and was successively held by his father and himself without the appointment of Co-curumee, that the collector appointed the 1st Defendant Autoocoory Chinna appulnaeze, a Co-Curumee at the misrepresentation of the 2d Defendant the answering Cocanada Talook, by rejecting his application with an endorsement that a Co-curumee will be appointed, unless he realizes the revenue balances in full within fasly 1250, but that it is incumbent on the answering to attend to the same. He therefore prays the Court for a Decree to recover from the Co curumee Autoocoory China appulnaeze, the half of the emoluments received by him for fasly 1251 Viz.t Rupees 75, together with the costs of the suit, and the subsequent emoluments, dismissing him from the Office of Co curumee.

In reply to the above, the Collector begs leave to state that the appointment of Autoocoory China appulnaeze, the 1st Defendant, as Joint curumee of the Village of Navarah along with Autoocoory Pedda appulnaeze, the Plaintiff is perfectly correct and unperatively necessary under Regulation XXX

of 1802 section XI. The assets of the Village of Navarah are Rupees 1782 12 0 and the permanent assessment Rupees 3217 11 9 and in consequence of the great defalcation of the Revenue and deterioration of the Village, the Collector was obliged to go into detailed examination of the cause of which it appeared that much was attributable to the misconduct of the Plaintiff - on reference to the permanent accounts, it then appeared that at the time of the permanent settlement there were two Curnums doing the duty, Autoocoony Bhanapah and Autoocoony Ramasawmy. The 1st Defendant is the son of the 1st Curnum, Autoocoony Bhanapah, but being a minor at the time of his father's death, his rights were lost sight of, and one Curnum only from the other branch of the family has since conducted the duties strictly speaking, the Defendant, Autoocoony China Appulanaya, is by birth the first legal and rightful Curnum of the Village of Navarah and as such has always enjoyed a part of the meerasy lands of the Village, though not before called on to perform the duty for which he has all along received a remuneration.

Under these circumstances the Collector trusts that the Court will dismiss this suit with costs.

The 1st Defendant has filed a separate Answer but as the 2nd Defendant the annum of Cocanada Talook is the servant of the Collector he requests that this answer may be taken for him also. — (Signed) C. A. Smith

Ordered that the following address be submitted in consequence.

To The Acting Chief Secretary to Government,

To the Acting Chief Secy. to Government. 58-59

Sir, I am directed by the Board of Revenue to request that you will submit for the orders of the Most Honorable the Governor in Council the accompanying copy of a letter and enclosures from the Collector of Rajahmundry dated 5th April 1843 regarding a suit which has been filed against Irin the annum of the Cocanada talook, in another in the Zillah Court of Rajahmundry by Autoocoony Pada Appulanaya Curnum of Navarah in the Pittapoor Zemindary. —

Proceedings.
Relative to the management of the Extra sources of Revenue in the District of Masulipatam for Fusly 1251.
A.D. 1841/42.

22nd Copy in Cons. 5th July 1843 No. 5.

Salt. 66

Fort St. George 20th April 1843.

Read the letter from Collector of Masulipatam submitting his report on the settlement of the Extra sources of Revenue in his District for Fusly 1251.
A.D. 1841/42

Para 1. The receipts from this source of Extra Revenue exhibit an excess above those for the antecedent Fusly of Rupees 13960-12-- the increase in the Pondraca Cotaur being Garces 301-375 or Rupees 31703-7-- having more than counterbalanced the falling off in the Innoogoodroo sales or Garce 169-311-7 in value Rupees 17826-13-11.

1251-262588-15--
1250-248628-3--

2- In the Pondraca Pans there was an increase in the quantity of spontaneous salt sold for home consumption of Garce 29-350 and Rupees 3136-14-- and in that sold for Inland transport of G. 272-25 and Rupees 28566-9-- a result attributed to the superior quality and larger stock of spontaneous salt on hand, and the plentiful supply of water and forage which attracted the Bunjarries.

3. In the Innoogoodroo Cotaur there has been a decrease in the sales both for home and inland consumption. in the former of G. 31-191-7 at Rupees 3305-5-11 in the latter of G. 138-120 at Rupees 14521-8-- which is ascribed to the total want of spontaneous salt in store, none having been produced during Fusly

Fort St. George 20th April 1843.

Fusly 1250 / A.D. 1840/41 — It would seem from this circumstance that the spontaneous salt is more in request, than the manufactured, the supply of the latter in hand at the commencement of the fusly under review not having been half disposed of. —

4. In Para 8 Mr. Porter offers explanation on a passage (Para 8) in the extra revenue report of Fusly 1250 / A.D. 1840/41 which had been understood by Government and the Board to imply that the late Collector anticipated from the sale of spontaneous salt a permanent annual addition of 4,00,000 Rupees to the extra revenue of the District such it would now appear was not the purport of the observations above alluded to, by which it was merely meant that the spontaneous salt produced during Fusly 1250 / A.D. 1840/41 would eventually realize the above sum, and not that an increase to that extent was to be expected in the outturn of each successive fusly. —

7,340-15-4

5. No salt having been manufactured at either Cotaur during the past year in consequence of the large stock remaining in store the charges have been little more than half of those of the preceding fusly

deducting these from the gross collections there will remain a net revenue of Rupees 2,52,283-1-4 being Rupees 19,726-1-- in excess of the net receipts for Fusly 1250. —

6. The demand under this head was less by Rupees 2,117-13 than that of the foregoing year — the principal falling off has been in piece goods from diminished exportation, in Tobacco and betel owing to the renters for Fusly 1250 / A.D. 1840/41 having collected duties in advance on a considerable quantity of Tobacco which entered into the next years consumption (a practice which should be carefully guarded against in future) in oil, oil seeds and Iron the decrease in the duties on these articles has been partially counterbalanced by a large importation of Opium from the Nizam's dominions and an increase on some other commodities — The charges exceed those for Fusly 1250 / A.D. 1840/41 by Rupees 4,604-3-- of which Rupees 3994-9-2 is from the greater amount of drawback and R. 609-9-10 for the pay of the establishment for the Ausamie Management of some chunkies which were rented in Fusly 1250 / A.D. 1840/41 — the net decrease on the settlement of the year will therefore be Rupees 6,722 in compensation of which is to be set Rupees 2,864-—-9 excess of arrears collected in the Fusly under review

7. The revenue under this head exhibits a decrease of Rupees 2,632-4-8 which has occurred principally in the exports of blue cloth and long cloth by the Commissariat and of grain to the port of Madras. There has been a small increase in the amount of duty on imports Rs. 556-13-6 the whole has been collected within the Fusly together with Rupees 168-14-3 arrears outstanding from the year preceding. The charges were the same as those for Fusly 1250 A.D. 1840/41

Sir,

Adverting to your letter of the 29th January 1842. I have the honor to inform you that the Board of Revenue in reply to a reference I made on the subject have directed the payment of the share therein referred to to Camalo Sayemmah the wife of the said Poroshottum Row to whom it is stated to have been assigned by a written deed many years ago on account of jewels she had made over to him. Under these circumstances

circumstances I am precluded from paying the amount into your Court.-

Sir,

I have the honor to acknowledge the receipt of your letter of the 27th March 1843, in reply to Mr. Blunts of the 29th January 1842.-

The pretended assignment by the Insolvent to his own wife is one of the fraudulent Cloaks invariably attempted by all native Insolvents another mark of fraud is that the circumstance was wholly omitted from his schedule-

Under the circumstances I beg you to take notice that the assignment is void in law, independently of the fact

of

of the illegal and fraudulent omission to state his claim to the property in his schedule If therefore you pay the same over to the Insolvents estate you will do so at your own personal risk both as to the value of the property and as to the costs of legal proceedings you will therefore do well at least to take an indemnity from the party before paying over the money-

To C. C. Lovell Esqre
Acting Secretary to the Board of Revr
Fort St. George.

From the Asst. Pr. Collr of Cuddapah

Sir

(80)

Para 1. I have the honor to report for the information of the Board of Revenue that I have removed to an inferior situation Seeta Ramapah the Tahsildar of Royachotty

2. This measure was rendered necessary by the general state of business in the Talook which was highly unsatisfactory, and evinced much negligence and inefficiency on the part of the Tahsildar.

3. The accounts of the talook were always in arrear. The Assessment on concealed cultivation during last year which had been brought to light after the Summabundy and which not being included in the Survey of the talook, does not come so frequently under my immediate observation, had remained uncollected.

4. In several instances, fines imposed on the Village functionaries for neglect of duty, were not recovered till I commenced upon

upon the present Summabundy.

5. The natural consequence of such a state of things was that the Inhabitants of the Talook seemed to have lost all consideration for the local officers, and it was not without much difficulty and after great delay that they could be assembled for the Annual Settlement.

6. I beg to submit for the consideration of the Board of Revenue, the particulars of one instance of neglect on the part of the Tahsildar, which I think will of it self be considered a sufficient ground for the removal of the Tahsildar.

7. There are six sorts of Timbers (of which Red wood is one) in the Jungles of this District, which are not allowed to be cut without the previously obtained permission of the Circar.

8. The sum of five Rupees is charged as the price of each bandy load of Red wood, besides the duty.

9. In November last, two instances of a quantity of redwood having been collected without the permission of the Circar, or the payment of either purchase money or duty, were brought to the Notice

of

of the Tahsildar by his Subordinate Talook Servants.

10. In the one case the quantity of wood was about 2 Bandy loads. In the other, it was much larger, and the misconduct of the party, charged with having defrauded the circar, was greatly enhanced from his being a mifsul Reddy of the Village.

11. In both instances, the Carkoon held a preliminary enquiry, and forwarded his Proceedings to the Tahsildar To say the least, these most fully established the necessity of an immediate and searching enquiry.

12. Up to the end of March, however, the Tahsildar had taken no steps for instituting such an enquiry, and this notwithstanding, that, as appeared by his Diary, he had passed 3 days in the very Village in which the transactions were alleged to have occurred, and I am perfectly satisfied that if the circumstances had not come to my knowledge the matter would have dropped altogether.

13. Whether any other consideration beyond mere indolence, influenced the Tahsildar

Tahsildar in suppressing this enquiry I am unable to say. I submit for the consideration of the Board, his own explanation, as well as translations of 2 letters, which were addressed to him by the Carkoon on the subject.—

14. The Board will not fail to observe, that in his Arzee the Tahsildar endeavours to throw discredit in the Proceedings of the Carkoon, but if complaints were really made to him, that that Officer was taking improper means to procure evidence, surely this only rendered an immediate investigation the more necessary.

15. The following is a Statement of the Services of the late Tahsildar of Royachoty, from which it will be seen that he had little Revenue experience when he was appointed to that office.—

Translation of an Urzee addressed to W. C. Arbuthnot Esq.re Acting Principal Collector of Cuddapah by the Talsildar of the Royachoty Talook, dated 28th March 1843.

After the usual Compliments, I most humbly beg leave to represent that

that I have been favored with an order No. 278, wherein it is stated that the Sayer Mootsuddy Venkut Row, and the Karkoon Khistnuspah, had reported to me in the Month of November last, that Venkutreddy Mirsul Reddy of Choondoopully, had built a house partly with new, and partly with old wood, that the permission of the Circar, for cutting the new wood, had not been obtained, and that the duty had not been paid either on the new, or old wood - further that a Ryot of the same Village, had conveyed to his house 2 bandy loads of Red wood, on which no duty had been paid. It is also mentioned, that it appears by my Diary for the Month of February last, that I passed 3 days in the said Village of Choondoopully, and I am directed to report what measures I have adopted in consequence of the above communication, and to forward to the Hoozor, without delay, all the Originals with the enclosures, which I may have received on the subject, I most respectfully beg to represent, that Venkut Row, the Sayer Mootsuddy repeated in his letter of the 9th November

November last, that Narapareddy, the father of Venkutreddy of Choondoopully, conveyed some timbers, and some Redwood, and built a house without the payment of duty thereon; and requested instructions how to act on the subject. Karkoon Krishnaspah requested me in the 2d Para of his letter of the 9th November last, to inform him of the steps to be adopted, in the event of any Heads of Villages or others building a house, having cut a large quantity of wood in the Hills, without the previous permission of the Circar, or purchased it from those who conveyed it to their houses, under similar circumstances. Adding that on the receipt of my Answer, he would submit Proceedings on the subject. Whereupon I prepared a letter to the Sayer Mootsuddy, desiring him to hold an enquiry as to how long ago the wood had been cut, its quantity, and the nature of it, the places where they were felled, and whether the house has been built with the whole of the said wood, or only with a portion of it, and to forward the lists shewing these particulars. another letter was prepared to

to the Carkoon Krishtnappah requiring him to make an enquiry and to report the names of such Persons and Villages. While letters were thus prepared, the Defendants Venkutreddy wrote a letter to the Cutcherery complaining that the Carkoor Krishtnappah had irregularly obtained depositions from some persons after abusing and frightening them, in regard to a house which he had built a year before with the woods acquired by his father 20 years ago, as well as with some other sundry wood, subsequently procured and he (the said Defendant) also informed me of this verbally when I told him, that after receiving answers from the Mootsuddy and others, I shall answer him. In a letter from the Carkoon on the 16th November, he stated, that one Venkutreddy having collected timbers, and built a house. He obtained Kyfiyets on the subject and submitted them to me, and requesting that I shall proceed thither for the completion of the enquiry and in the letter of Mootsuddy dated the 21st November he

he stated, that he has sent in a list on the estimation of the wood in question. As there appeared to be some difference in the statements of the servants abovementioned, I issued Takeeds to the Moonsiff of the Village and others, directing them to inform me of the facts of the case, together with a detailed description of the wood. I resolved to visit the house myself, and report the case to the Hoozoor after due enquiry as to the cause why the Heads of Villages and others failed to prevent the Defendant at the time he conveyed the wood, and when he built the house. On my tour through the Villages for the examination of the cultivation in them, I arrived at Choondoopully at one Yamo of the night of the 13th February from the Village of Veerabully, and set out the next day for the inspection of the Tanks of that village and on the 3d day I proceeded to the hamlet where the house was built and found that it was completely built and was occupied by the family. As the timbers were of Yapa and Red wood together, and as about 40 Pillars were

under

under the walls of the house, it was not possible to distinguish their quality, and the difference between the old and new wood - I thought it advisable to enquire from the Individuals who planed the wood, as well as those who sold them at Royaverum and Sanepoy together with the Heads of those Villages. But an order having been received on the 18th to the effect that your honor would arrive at Royachoty on the 26th for the Revenue Settlement of that Taloork, I found no opportunity of remaining in that Village. In order to fix the house before the examination of the case, I felt doubt because I was informed that during the time of Mr Lane, some wood in the houses of certain wood-sellers in the Town of Cuddapah having been fixed on the information of the authorities of the Cheenoor Taloork, and its being reported to the Board of Revenue, they directed that the wood discovered in the houses should not be confiscated - As the wood had been used to erect a house, it was not possible to make away with it. I thought to make a proper enquiry into the whole

whole circumstances of the case, and then to submit the result to the Honble and to act in conformity to the instructions of your honor and so I caused the summons to be prepared for the Witnesses Vizt - As there was a Magisterial case, I examined it on the same day, and started from thence. In consequence of the pressure of the Summabundy business I had no leisure to examine the case.

In regard to the Joists in the house of Togata Venkatah an enquiry was not made in consequence of the indisposition of the owner thereof. A takeed was therefore issued to the Heads of Villages to take the wood into their possession until further orders, which they did accordingly.

I forward herewith the Original Proceedings held on the subject as per the accompanying list. In all the Taloorks where I have been employed, I acted with particular care to prevent any irregularities and secure the circar dues. Some persons who dislike such conduct, and some who are unable to transact their duties, take advantage of any opportunity to blame others. Besides this,

I

I am given to understand that some body represented to your honor that many of the Villages of this Talook, are my relations, and that the public duty is consequently not conducted satisfactorily. I humbly beg to assure you that I have no relations at all in this talook, and to confirm this, I respectfully beg to state that a reference to the accounts and Records will shew the extent of the concealed cultivation, and the No. of robberies committed previous to my arrival - and with what view Mr. Lavie transferred me to this talook, and how the duties have been conducted after my arrival here - I further beg to add that altho the appointment of the Surcheshuna has not been filled up during 5 Months, yet I am taking a great care day and night, in conducting the duties satisfactorily - As I am a poor Man and loaded with a numerous family, I most humbly beg that your honor will have the kindness to take the whole of the above circumstances into your honor's serious consideration and see me protected -

by A. Krishnappah Carkoon of Choondoopully dated 9th November 1842.

After the usual compliments,

I beg leave to state that having understood that Camalapoor Togoroo Venatah of the Village of Potreddepully a hamlet of Choondoopully, conveyed some Red wood to build a house without the permission of the Circar - I told the villagers and others of the said Village to go to the spot where they were kept, and ascertain how many bandy loads of wood there were, and from what place they had been brought, and to make out a Mahazurnamah to that effect - They accordingly made out a Mahazurnamah stating that there were 114 Joists of Red wood in the house of the said Venatapah, and that they had been purchased from the people of Canepoya - I forward herewith the said Mahazurnamah together with the declaration taken from the said Venatapah, and I beg that you will have the goodness to dispose of the matter according to the Regulations. Moreover it is stated in the Mahazurnamah that the wood in question would

would be a handy load, but on my observation it appeared to me that there would be 2 handy loads- I have ordered the Reddies to have the wood placed in possession of the Villagers until further orders, and to produce them when required by the Circar.-

2- If you inform me of the rules to be observed in case of the Villagers and others cutting a large quantity of wood in the Hills without the previous permission of the Circar or purchasing it from others who have conveyed it under similar circumstances and building a house with it- I will make an enquiry on the subject on the spot and forward the Proceedings- I request that you will favor me with an early answer on the subject.-

From the Collector of Chingleput. Dated 1st April 1843. Received 4th Ditto. Paral. Reporting on the existing system of taxing Topes and Trees and offering certain suggestions for its modification.

Sir,

With reference to Mr. Bour: dillon's circular under date the 2d January calling for reports on the existing system of taxing topes and trees, with any suggestion for its modification I have the honor to state for the information of the Board of Revenue, that topes in the

possession and enjoyment of the Meerasdars and others are burdened generally with a land rent corresponding with the rate of assessment borne by the adjoining Punjey lands but that should a tope contain many worn out or unproductive trees a tax on each distinct fruitful tree is levied.

2. Detached fruit trees whether in the Village limits (except such as may be situated within the pyals backyards) or in the vicinity of the Village or on the bunds of Tanks pay tesewah according to the scale noted in the Margin. In a few instances however the Topes and fruit bearing trees are in consequence of the Meerasdars declining to hold them on the above terms annually rented by public competition.

to offer sufficient inducements to encourage the planting and formation of new topes, I would beg to suggest that authority should be given to Collectors, to remit for seven or ten years the rent of lands taken up for such purposes provided his previous permission is obtained. The parties planting the topes should not at the same time be debarred from raising such produce as they can between the trees. but should they neglect the trees making the planting of them a mere pretence for enjoying the land free of rent the power of levying the land tax should still remain with the Collector. As the termination of the above period or whenever the trees began to bear and be profitable, the regulated assessment on the land might be levied. Fruit bearing trees planted by the side of roads are under the orders of the Board already declared escempted from taxation. Topes newly planted on the roads or the banks of Tanks for the convenience of Travellers should likewise be permanently escempted from assessment previous permission for their formation having been obtained.

Fort St. George 20th April 1843.

To E. C. Lovell, Esqre

Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

From the Jt. Collector of Salem ...

Stating the condition on which the Ryots are willing to plant topes in his District and forwarding a Statement of the number of Topes ..

With reference to your letter of the 2d February regarding the encouragement of the planting of Topes I have the Honor to state that many of the Inhabitants in this District are willing to plant Topes on certain conditions

It appears that under former Governments, if a person applied for lands for the purpose of planting Topes - any Description of land they required was granted to them cultivated lands waste lands Immemorial waste lands or Porumbake lands at places best suited for the convenience of Travellers, free of Assessment, with the privilege of cultivating the land until the trees grew up the produce of the cultivation being for the support of a man employed to look after the trees. The owners of the Topes never sold the fruit such as Mangoes Tamarind &ca the produce of the Topes, but allowed it to be used by travellers and the gardener in charge of the Tope under these rules topes were extensively planted, but since the country was assessed by the British Government assessment was levied

Fort St. George 20th April 1843.

different rates, on some Topes, at the rate of Tope assessment on others, for the land that is cultivated under Topes and on some for the Number of trees bearing fruit - Consequently the Inhabitants discontinued planting any more - Annexed is a Statement of the Revenue derived from the Topes for the last two years

As Government wish to encourage the planting of Topes the Inhabetants are willing to undertake to do so on the following conditions - Should a tope be planted on cultivated land where there are wells, the planter must be at liberty to make use of the water from them, or from wells in adjoining fields or from Tanks free of assessment - also to cultivate the ground free until the trees grow up but should Government not be disposed to grant, lands free of all assessment the inhabitants are willing to plant Topes

Nunjah lands and cultivate them paying only half Nunjah assessment - the same for Bagayeth lands for Punjah lands converted into Bagayeth and watered by Circar water - and cultivated until the trees are full grown half Bagayeth assessment, but if they plant Topes on

Fort St. George 20th April 1843.

Poonjah lands and sink wells at their own
expence and water the trees and are
allowed the enjoyment of any cultivation
on these lands they are willing to pay half
Poonjah teerwah. When the trees are full
grown, no cultivation can be carried on
under them, they therefore expect the teerwah
will be remitted but if the owner of the
tope appropriates the produce of the tope
such as fruit &c. for his own use the
full assessment of that land of whatever
description should be paid.

At present any person wish-
ing to plant Topes on Immemorial waste
lands no assessment is levied.

There are large tracts of
land in this District unfit for any
cultivation and without water the ryots
are willing to select portions of these
lands and sink wells at their own
expence and plant topes and by great
labour endeavour to cultivate it until
the trees grow up for such lands they
expect to be exempted from paying teerwah

19533 Trees of various kinds, the Physel,
or fixed teerwa for these topes is Rupees

to Rupees 1700 and odd which is entered
in the Summah Accounts. In Fusly 1251.
the collection amounted to Rupees 1762-9-11
In Sarry Mootah Villages there are 531.
Topes containing 21386 trees its Physel Teerwa
is Rupees 2219-13-1. of which the Moota-
dars collect only a portion, having reduced
the teerwa considerably and retaining some
of the topes themselves, dispose of the
produce, consequently the exact amount
realized by the Mootahdars is not correctly
known. There are also 948. Topes on Anady
Poramboke lands on which no teerwah
has been fixed. being on Amany Sarry
and Pillaput lands.

Conduct. The circumstances of the case seem to have been somewhat misunderstood by the Court of Directors for they allude to it in these words "Sanction granted for the repayment to certain Inamdars in North Arcot of the proceeds of their lands which had been illegally sequestered by the Tahsildars." This however was not the case. The lands in question were registered as the Inam lands of one Meer Ahmed Alie. This person had died several years before the Tahsildar sequestered the lands, and up to the present time his heirs, if he left any have not appeared to claim the Inam. When the Tahsildar sequestered the lands they were enjoyed by Parties who alleged that they held them partly on Mortgage and partly on gift from the deceased Inamdar. This may or may not be true. There is no one forthcoming on the part of the deceased Inamdar to disprove it. The sanction was granted for the repayment of the proceeds of the sequestered lands to the holders of the lands, the alleged Mortgagees, not to the registered Inamdar. The land still stand registered in his name.

endorsement on the enclosed Petition No. 1958 of 1842. I have the honor to report that the representations made in it have not been substantiated by evidence though I am disposed to believe that they are not wholly groundless, for it is notorious that abuses such as those complained of do, and must, exist. The march of Troops is always attended with more or less oppression to the people by the conduct of the Peons employed in procuring supplies, and through this District Troops are perpetually on the move. In this instance no specific charge has been made. Mullah Reddy has given a deposition in which he states that he was incited by Kistna Reddy to join him in giving the Petition to the Board. He never made any previous complaint on the subject to the Collector. As to Kistna Reddy he is not as he represents himself a ryot of the Villages named in the Petition though he has laid claim to the Meerasi of them. He is a Vellore man and a very troublesome character. Abuses of the description complained of are never passed over unpunished when

proof can be obtained of them.—

Sir,

From J. D. Gleig Esqre. } In reply to your letter of the
Collr. of Salem — — — } 23d. inst. bearing the post mark of the 31st. Ultimo

Stating that his intention to submit a further communication on the subject of fixing the future residence of the Salem Collector at Salem but that he is prevented doing so for want of certain information and requesting that the Collr. of the District may be instructed to furnish them to him without delay.—

requesting to know if it be my intention to submit any further Communication on the subject of fixing the future residence of the Salem Collector at Salem, I have the honor to inform the Board that such is my intention but that I am prevented doing so for want of the necessary information which I applied for to the Acting Principal Collector upwards of a Month ago and have as yet had no reply. This is important

important to my interests that I should have that without delay, and I therefore request that the Board will instruct Mr. Lockhart to furnish me with what I have now required, and what may hereafter be necessary, without delay.—

I have had copy of the Court of Directors letter from the Fouzdary Court but am not yet aware on what cause of Complaint the Honorable Court have acted in this matter. Whether it be of a revenue or Magisterial nature. I request therefore that the Board will procure me this information for knowing that parties have been investigated to lay Complaints before the Madras authorities for no other purpose than doing an injury to the Principal Collector (as witness the case of Ringanadien) tis no less necessary for the Government than for myself that the true nature of the grounds of action should be before them. The Honorable the Court of Directors in their letter have stated that the Fouzdary Court in recording their Judgment against me on a charge of partiality in my decisions were apparently guided by private informa-

tion. It would materially assist me to know who were the private informers of the Fouzdary adawlut. I therefore respectfully solicit that this information may be afforded me.

As regards the house at Ysoor the Board are aware that that residence was not fixed on by me, I only joined the Salem District in 1838. The house at Ysoor was purchased by Mr. Orr from Government and has been the sole residence of the Salem Principal Collector since 1833. This has been repeatedly recognised by the Revenue Board, particularly in their preventing my predecessor from drawing his Extra Tent allowance at Ysoor, in consequence of its being his principal place of residence. Up to this time it has not been made a matter of Moment where the Collector resided. and I cannot bring myself to suppose that after allowing a residence of 10 years and the outlay of a large sum in building at Ysoor, the Government, either here or at Home, would issue an order to the Collector to leave his property thereby Muleting him of the sum of Rupees 12,000 unless there was

was a very apparent necessity for such a measure How far the necessity exists I wish to examine when I know the cause of complaint during the previous year I was 7 months in the district and 5 at Ossoor.

I have casually heard that in making arrangements for the change of the Sub Division Mr. Lockhart has recommended the talooks of Attoor Sengeracotta, Dhurmpoory and Nomalore as the charge for the Sub Collector. A reference to the Map will be sufficient to convince the Board that this is not the best arrangement. all these talooks adjoin the Salem Talook in which the Principal Collector is to reside. the residence of the Sub Collector would I fancy be at Dhurmpoory and to come to that place from Attoor a ryot has two roads, either through the town of Salem the Principal Collector's residence, after which he has forty Miles to travel, to Dhurmpoory, or by the Munjanady pass when he must come to within 7 Miles of the Collectors residence before he turns North to travel his 40 Miles or upwards

Nomalore

Nomalore is also conveniently situated for Salem than Dhurmpoory, tis 10 Miles distant from the former and 30 from the latter. The talooks of Dhurmpoory and Sengeracotta also be better for the Principal Collector than the talooks of Trepatore and Pistnaghery which are to the North and beyond them.

If the Collector is to be located at Salem the Baramahl and the two Mysore talooks of Ossoor and Dengecotta should be the charge of the Sub and Head assistant Collectors. The best division I consider that which I mentioned to Mr. Lockhart viz. the four Northern talooks of Dengecotta. Ossoor. Pistnaghery and Trepatore, for the Sub Division. The Head assistant would then have his two talooks of Dhurmpoory and Sengeracotta adjoining to those of the Principal Collector whose charge should be all the low Country within his bounds.

For this arrangement if the Government do not wish to take my house at Ossoor the Sub Collector may be located at Pistnaghery where there is an old house

which

which might be rendered habitable, is now used as a public bungalow—Or if this arrangement is not approved the Sub might take the 4 Baramahl talook and head Assistant the two Mysore ones, or the Sub might take the two Mysore talooks with those of Kistnaghery and Dhurmpoory, leaving Trepatore and Tengeracotta for the head Assistant in this latter arrangement there is no place of residence for the Assistant; however either of these are preferable to that recommended Viz. clustering the charges of Principal and Sub Collectors round the base of the Shevaroy Hills.—

I beg to solicit the early attention of the Board to my request for information.

the fish renters of Combaconum Taluk.

Up to Fasly 1250 Fish renters were in the habit of collecting a duty on all Fish brought for sale within their limits. tho' a duty had been already once paid in the limits from whence they were brought. This collection of double duty being a source of constant complaint and manifest injustice, was put a stop to at the close of Fasly 1250 and a consequent decrease in the amount bid for the rent in 1251 followed, as is shewn in the Margin.—

Fasly 1250- Rs. As. 1300- 4-
Bidding for 1251- 1006- --
Decrease- 295- 4-

Subsequent to this offer, a proposal was made by Arroomoogum pillay and Goorooppa Naik to take the rent on the old footing at 1303 Rupees, and their offer accepted.- This appears to have arisen from some oversight, for in December following a proclamation was made prohibiting the collection of double duty in direct contradiction to the terms of the Cowle and the consequent reduction of the Renters profits. Under these circumstances the defaulters pray that the sum originally offered 1005 Rupees should be substituted for the amount at which they took the rent, making a difference of Rupees 298. of this 98 has been recovered and their remaining balance of 200 Rupees I have

An order from the Hozor dated 24th April 1830, directing me to put under attachment 10 chays of Enam land belonging to Cawder Cody and to forward to you the Enamdar and his defendants together with documents has been received. -

In reply I beg to state that Kumma Ramen did by my order put the Enam under attachment. A copy of the accounts furnished to me by him on the subject is herewith sent. I sent a Peon to bring up to me the Enamdar and his defendants. but the Peon reported to me that the original Enamdar Cawder Cody and his son Madar Cody

Cody were dead. that Saut Bee the lawful wife of late Madar Cody went away on Boardship with her son Saib Cody a Sepoy. and that the Concubine of the late Madar Cody named Ammubee and two grand sons were residing in the Tanjore District. A person named Syed Bawoodeen appeared before me as Vakeel on behalf of the abovementioned Enamdars. and stated that the receipt granted by Mr. Wallace had been destroyed by fire. but he produced to me a copy of the Purwanah which and also the Vakeel aforesaid I beg to forward to you in charge of a Peon. I beg further to state that it has been reported to me that the produce yielded by the Enam land was taken away by the Vakeel aforesaid. -

From the Pr. Coll. of Canara.—

Submits observations in reference to the Board's proceedings dated 23d April last.

Sir

I have the honor to acknowledge your letter of the 23d January last in which an early answer is requested to the letter from your Office dated 23d April last relative to

case of the Buntwall Gomastah Soobrow, and states his conviction of that Officer's guilt, and of the Shroff's innocence—

Fort St. George 20th April 1843—

of Buntwal— I feel that some apology is due to the Board, for the delay that has taken place in submitting a report in this case, but the fact is that on a reconsideration of all the proceedings in the case, in connexion with the memorandum of the Board, received with their letter of the 23d April, I saw such strong grounds for believing, that the opinion of the Sub Collector was substantially correct, and that no grounds for suspicion existed against the Shroff, that it appeared to me, that no further proceedings could be taken with any advantage in the matter, and from a pressure of other business, it was allowed to lay over.—

A— 2. I now beg to submit, copy of a deposition taken from the Shroff, on the points remarked upon by the Board, as bearing suspiciously against him, the explanations to which, appear to me clear, and satisfactory—

3. In order to shew the grounds upon which I am still of opinion, that the embezzlement rests with the Gomasta, and that no criminality attaches the Shroff,

I beg

I beg to be allowed to submit the following observations on certain points alluded to in the Memorandum of the Board above mentioned in which it appears to me, that erroneous impressions of the matter in question, have been received.—

4. In the 4th para of the Memorandum, the Board remark that "it is difficult sometimes to identify the details in the Gomastahs book with the entries of totals in the Shroffs"— The difficulty here mentioned, would not however, have occurred, had the accounts been fairly, and properly kept, and it must, therefore, be attributed to their having been falsified for a special purpose. This difficulty, moreover, has been further increased by the mode in which the translations of the accounts have been prepared for the inspection of the Board in their own Office—

5. In the Statement appended to para 5th of the Boards' Memorandum, the several items of which it is composed, have been extracted here and there from the Gomastahs kathkorada of the day, in order to make the totals correspond with the gross amount entered

in the Shroffs' book. This mode of comparing the accounts, I must beg leave to observe, does not lead to a correct conclusion, as it is contrary to the system in which the accounts are kept. Whenever payments have to be made to any number of Individuals, or for several separate items, the details of the payments are consecutively entered in the Gomastahs book, and the Shroff is desired to take out the total Amount required for distribution at the time, for that particular purpose. In comparing, therefore, the Items in the Gomastahs book, with those of the Shroff, they should be taken in the order in which they occur—

6. I have now numbered in red ink all the charges entered in the Gomastahs Book, during the two days of the 28th February, and 1st March, being Nos 1 to 49. The items from 37 to 42, consecutively, amount to Rupees 89. while the gross amount in the Shroffs book, is only 87-8. This difference of Rupees 1½ I cannot but believe, was intended by the Gomasta to make good in part his embezzlement of the 8 Rupees.—

7. The disagreement here shown, between the accounts of the Gomasta, and the Shroff, did not I presume, attract the

notice of the Board, though I observe it has been marked in pencil in the Board's Office, by the Gomasta who examined the accounts—

8. Again, on comparing the translation /Enclosure A/ forwarded with the Board's Memorandum, with the Gomastas' book, it appears that the consecutive order of the account has not been observed—This inversion of the order of the accounts, I cannot but believe, has been the main cause of the false entries made by the Gomasta, to cover his fraudulent appropriation of the 8 Rupees, not having appeared in their real light to the Board—

9. As the falsification of the accounts, is the leading point in the evidence against the Gomasta, and must go far towards determining the question at issue, I beg to submit herewith a literal translation of the original kathkarada— on a comparison of which, with the enclosure A transmitted with the Board's Memorandum it will be seen, that the latter is far from being an exact translation, as the Board supposed it to be—

10. In the 8th para of their Memorandum

Memorandum, the Board observe, that the payment of 8 Rupees to two peons with Treasure, is the last Item of charge, or charged at the end of the Gomastas' book of the 1st of March, and so it certainly appears to be in the translation prepared for the Board.—

11. On examining the Gomastas' book, however, this charge of 8 Rupees, is not the last, but stands № 37 in the regular order, and is followed by 12 other Items until the close of the account of that day—The payment in question, is not even the last on the page in which it is entered, their being another Item of Pagodas 2-9-6, or Rupees 11-12as—a entered below it— The Board suggest the possibility that the above 8 Rupees, may have been the identical sum "paid by the Shanbogue Dewapah, and "disbursed to the peons in the hurry of dis= =patching the remittance without being entered "in the Shroffs' account of receipts"— It is to be observed, however, that this sum of 8 Rupees, was credited in the Gomastas' accounts, on the 28th February, on which day the remittance was

was made up, and, were there, therefore, no other circumstances of suspicion in the case, it is in the highest degree improbable, that had such a payment been actually made, it could have been omitted by the Shroff in his receipts of collection, and inadvertently paid away by him to the peons on the following day—

12. In the Gomastas book there is a charge No 49 of 1½ Rupees, the value of Coir purchased from the stores in hand for the Mercara Road— This amount is clearly stated in the Gomastas book, to be "creditable to the Road advance," so that it was only entered in the book by way of an adjustment, by debiting the amount to the "Charges Remittance" and for which credit was to be given under the "Road Work"— This Item, therefore, would not appear at all in the Shroffs book, in which actual payments and receipts in money, only, are entered— But in the Statement A. received from the Board, this amount of 1½ Rupees, is exhibited as a sundermared charge, and the sum as actually disbursed, it forming one of four Items, amounting to 24½ Rupees, and being

with a similar sum in the Shroffs account—

13. This amount of 1½ Rupees, ought properly to have appeared as a credit in the Road Department, and the absence of such a credit, taken in connexion with other circumstances of the case, leads inevitably in my opinion, to the conclusion, that this item also was fraudulently made use of by the Gomasta, to cover his embezzlement of the 8 Rupees falsely entered as paid by the Shanbogue Dewapah—

14. Although other circumstances might be mentioned as throwing suspicion on the Gomasta, I do not think it necessary to go into any further particulars on this first charge, as I am inclined to believe, when the translation of the kathkharada now submitted, is compared with the one prepared in the Boards Office, they will be disposed to take a different view of the case of that formerly entertained— The manner in which this latter translation has been made, is certainly very remarkable, and had it been done in my own Office, I should have been inclined to suspect that the Gomasta by whom it was prepared, had been actuated by an endeavour to favor the Gomasta Soobrow—

C.

With

Fort St. George 20th April 1843.—

15. With respect to the 2nd count, on which Soobraw is accused of having embezzled the sum of 20 Rupees, on the 25th March, the Board observe in their Memorandum, that the Shroffs account must be looked upon with suspicion, in consequence of the alterations that appear to have been made in it. On referring to the Shroffs Book, it appears that three letters only ஐ ர் ஸு are written in darker ink, all the other letters both before, and after them, exhibiting nearly the same appearance, or any difference that may appear, being certainly not more than is to be met with throughout the book—.

16. It is further remarked by the Board that the sum was first entered as as received from, the "Postingney Devastan," to which was added in a different coloured ink, "from ex Shilk." The book, however, exhibits no such word as "Devastanum" or any other of similar meaning nor can I perceive from the entry in question, the least ground for suspecting any fraudulent intention on the part of the Shroff—.

17. Another circumstance which the Board have noticed in refutation of this charge is, that the Gomasta is said to have

Fort St. George 20th April 1843.—

made a false entry of credit in the accounts of the 12th March, to make good an embezzlement which he did not commit until the 25th of that Month—

D

18. On this point I must beg leave to observe, that the account of charges in the Tobacco Department, was prepared for the month of February, and submitted to the Huzoor on the 10th of March. It is therefore, under all the circumstances of the case, highly probable that the Gomasta, after the account was submitted, should endeavour to take advantage of the first opportunity that offered, of making good the deficiency which he knew would appear in the Tobacco accounts from his contemplated embezzlement—

19. The Board are further disposed to believe, that the short credit of 20 Rupees under the head of "Recovery advances," was not intentional, but was owing, as stated by the Gomasta, to a "hand mistake" Had this been a single instance, and unattended with other suspicious circumstances, some credit might have been given to the excuse, but compiled as it must be, with the other suspicious entries in the account, it is impossible, in my opinion,

to

Fort St. George 20th April 1843.

to look upon it, in any other light, than a designedly fraudulent entry to make good his embezzlement.

20. The following circumstances not alluded to in the Sub Collectors' decision in the case, affords in my opinion a further corroboration of the Gomastah's guilt. In debiting the amount of Tobacco Charges (Pos. 13-3-¾ or Rupees 53-3-4 on the 25th of March) after the receipt of sanction there is an interlineation in the Gomastas' book of the word ~~Sk~~ vagaire ie, et cetra. The conclusion I draw from this is that by apparently including other Items, it was artfully intended to elude enquiry regarding the difference between the charge, and corresponding credit that might otherwise attract attention. With a similar view of concealing his fraud, the entry of a credit from "~~Mayes~~ Diggar bab" or other head, was, I cannot but believe, designedly made by the Gomastah. Haste or inadvertence, might properly be pleaded as an excuse, had this occurred but once. the same entry, however, is so repeated a second time as will be

Fort St. George 20th April 1843

seen on reference to appendix No 2, in the Sub Collectors decision. On this point Mr Maltby justly observes, "such a vague entry in the accounts could not be made except for fraudulent purposes and would under any circumstances be inadmissable."

21. In para 12 of the Boards Memorandum, they desire that the Shroff should be called upon to explain why the sum of 20 Rupees which they believed to have been actually paid, does not appear in his account.

Amount of Sanctioned charges was	P. a. P. 53-3-4
Ditto credited as Recovery under the head of advances	33-3-4
Difference or short entry	20-0-0

22. The foregoing explanation will it is hoped satisfy the Board of the fraud committed by the Gomasta, by the short entry of 20 Rupees out of the sanctioned charges in the Tobacco Department, and that the same sum of Rupees 20, was falsely credited by him, as paid by the Pootiguey Shanbogue.

23. From the Statement made by the Shroff in further explanation of the suspicions entertained against him by the Board, it appears that according to the prevailing practice

practice in the Talook Cutcherry, the particulars of disbursements are invariably written by the Nugdi Gomasta, gross sums only being communicated to the Shroff; while as regards receipts whatever is brought by the Potails &c.a is first entered by him, and then read out to the Gomasta, in order that the receipts may be written in his Hathurada. But where money may be credited out of the shilk or fund of disbursement such sum is first entered by the Gomasta in his account, and the Shroff is afterwards desired to enter the same in his. This was the case with the Shroff in crediting the sum of 20 Rupees as from "Shilk," but which the Gomasta as above said, falsely enters in the Hathurada, as paid by the Postiguey Shanbogue—

24. The supposition of the Board in this point, Viz.t that the Shroff, observing the short entry of 20 Rupees in the Gomastas' account had taken the opportunity of omitting to bring to account the sum received from the Postiguey Mahanuny, is I must beg leave to observe, very improbable—

25. The Shroffs in the Talook Cutcherries, sit below the place occupied by the Sheristadar, and Gomastas, it would not, therefore, have been possible for the Shroff to have observed the omission in the Gomastas account, at the time, unless the book had been put into his hands which there appears no reason to suppose was the case—I will only further observe on this point, that if it had been true, that the Shroff had embezzled this sum of 20 Rupees, it could not have escaped the knowledge of the Nugdy Gomasta, and that instead of taking means, as he appears to have done to conceal the deficiency, it was his duty to have brought

Fort St. George 20th April 1843.

brought the circumstance to the notice of his superior—

26. The examination of the accounts of which I am now reporting the result, was conducted under the superintendence of my present Head Sheristadar, who from the inspection of them, is fully convinced of the justness of Mr. Maltby's decision in the case—

E 27. All the accounts connected with the case in reference to my present observations, are herewith forwarded for the consideration of the Board.—

Fort St. George 20th April 1843

28 In conclusion, I must beg leave to observe, that should the Board contrary to my expectation, be still of opinion that there is not sufficient evidence to bring home the charge of embezzlement to the Goomasta, it will be necessary that I should have authority to write off the deficiency in my accounts, as I am decidedly of opinion, that there exists no ground whatever for calling upon the shroff to make good the amount.

To

E. C. Lowell Esqre

Acting Secretary to the Board of Revenue

(104)

From the Pe. Collr. of Canara

Furnishing information required regarding the purchase of Madura Tobacco

Sir,

I have the honor to acknowledge your letter of the 25th Ultimo, accompanied by Minutes of Consultation of the 23d and in reply transmit for the information

Tobacco for the Monopoly in Canara in Fusly 1246 while he was Collector of the District.

of the Government. Copy of a letter addressed to me by Mr. Blair the present Principal Collector of Canara.

2 The circumstances to which your letter relate, occurred so long ago, that I found myself unable to speak with any degree of certainty in matters of detail, tho' I had in perfect recollection, the main facts.

3 Mr. Blackburne the present Principal Collector of Madura was the person who assisted me in obtaining the tobacco, and the contracts for its supply were made by him, or thro' his means.

4 I have written to beg that he will refer to the correspondence which passed between us, (of which I have no record) & should he enable me to add any thing to Mr. Blairs letter, it shall be sent to you for the information of the Board.

5 Referring to the quantity which has turned out to be unsaleable. Will observe that it does not appear to me (considering the distance from which the tobacco was brought and subsequently after its arrival in Canara transferred) to be very large.

6 Whether the loss, or how much of it, occurred during my administration of the affairs of Canara, I am unable to say, but

but I apprehend it might be found on enquiry that during the time I was Principal Collector of Canara there was more tobacco condemned than in former years. The loss of the first Cost, may be regarded of little moment, compared with the Monopoly price and it always appeared to me a matter of common justice that bad or even doubtful tobacco should not be forced on a people, who are not only debarred the legal means of obtaining it elsewhere, but exposed to heavy penalties for smuggling, a demoralizing habit, quite sure to receive the utmost encouragement from a want of liberality on the part of the Government Officers in the conduct of the Monopoly.

7 From the foregoing considerations, I have no doubt whatever, altho' I cannot speak positively of the circumstances, that nothing but actual necessity induced me to resort to Madura.—

Sir,

I have the honor to acknowledge the

the receipt of your letter of the 27th Ultimo — together with its accompaniments which are herewith returned; and I lose no time in complying with your request to be furnished with information as to the circumstances under which a supply of Madura Tobacco was ordered in 1246 Fusly for the Monopoly of this District.—

2 In consequence of a failure to a considerable extent of the Tobacco Crop in Mysore, in the year 1837, the Tenders made for supplying the Monopoly were so high; and owing to repeated failure of the Contractors, so little confidence could be placed in them, that it was not deemed expedient to accept the offers made, and two Ameens were, therefore, deputed to Mysore to make purchases of Tobacco on account of Government. The necessary purchases were accordingly — made by those servants; but before the whole quantity purchased could be dispatched, the disturbances of 1837, broke out in the District, which put a stop for a considerable — time, to any further supply being sent down the passes. after the

restoration

restoration of tranquillity the quantity of Tobacco procurable from Mysore, previous to the setting in of the Monsoon, was insufficient for the consumption of the District until the new Crop of the following year could be obtained. It became absolutely necessary therefore, to procure a sufficient supply from some other quarter, and arrangements were made for procuring it from Madura from whence supplies had on former occasions of emergency, been obtained.—

3 In the following fusly 1247, in consequence of a partial failure again of the Tobacco Crops in Mysore, and the small quantity in store from the preceding years supply, a further quantity of Madura Tobacco was ordered by Mr. Maltby the Sub Collector in Charge.—

4 From the preceding observations, it will be obvious that the Madura Tobacco was only purchased in consequence of a sufficient quantity of Mysore Tobacco not being procurable; and though the former kind is less acceptable to the people of this District, than the latter, yet the most serious inconvenience would have been

been experienced, had there been any actual want of this most necessary Article of consumption in Canara.—

Sir

From the Coll.r of Malabar — — Bringing to the notice of the Board the conduct of the Sheristadar and Tahsildar in attempting to suppress a case in which 2 individuals, and one of them a female were cruelly and shamefully tortured

I received information about a — month ago that some property which had been plundered from the house of a Brahmen would very probably be found in the possession of certain parties, Eleven in number, in the Shernaad Talook, I accordingly sent a few Peons from my own Cutcherry to the Tahsildar of

tortured by his Subordinates upon suspiccon — that their relatives were concerned in a robbery, and recommending that for the sake of example some signal mark of the Boards displeasure may be shown to the individual concerned who has been suspended pending their orders.—

of that Talook with directions to use them, as well as his own people in tracing out the clue that had been given me.—

On the 25th. of February last I received a report from the Tahsildar to say that his Peshcar had sent to him a woman and a Man, Penoty and Vaylas, who confessed, the former to her paramour having brought some of the stolen property of the House where she lived with Vaylas her Brother in-law and delivered it over to him.—The latter (Vaylas) to having received the property and hid it in the cleft of a tree which grew near his house.—The Tahsildar added that on allowing Vaylas to climb the tree for the purpose of getting the property (gold Coins) he had made his way to the top-most branch and before measures could be taken to stop him, had hung himself with his waist cloth.—This however had broken under his weight and he had fallen to the ground from whence he was raised with a broken thigh.—He had taken, he said, a deposition from Vaylas and found he had acted in this way from shame at having been

been accused by his sister-in-law.—

It was evident to me on the first reading of this Extraordinary story that something more had occurred than the Tahsildar chose to mention and I at once made a strict enquiry of the unhappy sufferer Vaylas as to the real reasons which could have led him to take such a step as he had done.—He was at first unwilling to enter into any detail of his motives but after being reassured, informed me that he had been so cruelly tortured in order to elicit a confession, as to where he had disposed of the stolen property said to be in his possession that he had resolved on putting an end to his life with the view of escaping from further ill-treatment, and had accordingly invented the story of his having placed the property in a tree that he might be enabled to carry his intentions into effect.—The evidence of Penoty who I believe accused her brother-in-law under the infliction of shameful torture, corroborated the belief which was engendered by Vaylas's story, and the strong circumstantial evidence of his conduct, that some very improper proceedings had taken place in the Talook,

and

Fort St George 20th April 1843.

and I accordingly deputed my Assistant Mr. Platel to make a local enquiry - The information which Mr. Platel was able to obtain, more and more strengthened to impression I had received and after a further examination in continuation of that made by Mr. Platel. I arrived at the conclusion that not only Penaty and Vaylos but a third party. Mayoty, had been ill treated (as they severally deposed before me) on the suspicion, not that they were themselves robbers, but that they had probably received property which their connections had stolen - The evidence to prove these abominable facts was not as may be supposed very clear (legally speaking) tho I was able to commit one Peon to the Court for trial - but I considered myself to have quite sufficient moral proof against the Peshkar, Police Gomastah, two of my own Peons and three Talookmes to dismiss or otherwise punish them, according to their degrees of guilt -

The immediate purpose of my writing is to bring to the notice of the Board the conduct of the Sherastadar Tahsildar on this occasion, and to request their orders regarding him - In my opinion his behaviour is utterly unworthy of the high and responsible station he

Fort St George 20th April 1843.

he holds - as I have mentioned in the beginning of this letter he reported the facts of Vaylos having attempted to throw away his life in the presence of himself and many other spectators, without attempting to give any rational reason for such a proceeding - It appears now after the lengthened examination which I have been forced to make in consequence of the Tahsildar's supineness, that Vaylos just before hanging himself, publicly protested that he was innocent, and that he was driven to make away with his life by the cruelty he had experienced - The omission to allude even to this striking fact, evidently tells strongly against the Tahsildar - I do not say that Vaylos (or Penaty) was tortured under the orders, or with the connivance of the Tahsildar, here I think the Peshkar was chiefly to blame - but I feel considerable doubt as to whether he did not know that the former (Vaylos) at least had been tortured, and whether that knowledge as he had not acted on it at once, did not induce him to think enquiry afterwards -

there is evidence, and I think a credible one, states that Vaylos did complain to the Tahsildar when brought into his presence the day before of the ill treatment he had received, but without effect -

In the case of Mayoty, the third person tortured, the Tahsildar's conduct is to my mind liable to great suspicion - I have embodied my

my sentiments on this matter in the latter part of an order which I have this day addressed to the Tahsildar, and which I may as well insert here.— "With regard to Mayooty you simply deny "all knowledge of any torture having been inflicted "on him. This may be true but it certainly reflects "little credit on your intelligence and vigilance, that "the barbarity which was practised on him should "have been practised within a short distance of "you by the Peons who were under your orders, with "the cooperation, if I am not misinformed, of one "of your own private Servants (a Bearer) whom you "had left with the Peons in going to search a "neighbouring house. To say the least of it, it is "clear that the people under you have no "fear of your interfering in matters of this des"cription and therefore commit actions which "I had hoped, were only committed by Gang "Robbers, and Pundarums. It is impossible for "me to express my horror of what has now come "to my notice. That three individuals, and one "of them a woman, should have been cruelly "and shamefully tortured, and that on little

mor

"more than suspicion that not they, but their "relatives, or connections rather, were concerned in a "robbery, is indeed disgraceful to the power "under whom it has been committed. What "judgment will be passed by higher authority "I cannot determine, but for their judgment "I deem it necessary to send it, and in the "mean time I have resolved on suspending "you from your functions."—

With this Extract and a full translation of the two reports made by the Tahsildar with reference to this subject, I now leave the matter in the hands of the Board merely recommending that for the sake of example, some signal mark of their displeasure may be shewn to the individual I have been commenting on.—

The only reason I have for not proposing his utter dismissal is, that he is a very old man, having served the company some 40 years, and that his conduct may perhaps be in some degree attributable to the failure of his mental faculties.—

Cotty brought him a small Cocoanut shell covered with Coir, in which he said there were gold fanams and requested him (Vayloo) to take care of it, and that he consequently received it and concealed it in the cleft of a Powah tree which is in his compound whereupon he said he himself would take and give it up. The sun having set and it being then late in the evening nothing was done that night, and with the view of not giving Vayloo an opportunity of disclosing this circumstance to any body else, and to secure the property the Deponent yet Seyed Miran and the Talook peon Viraia were both entrusted with his care. This morning before sun rise, myself together with the people mentioned in the Memorandum submitted with this, taking Vayloo with us, proceeded to the above house and there made enquiries. Vayloo said that the shell containing fanams was concealed in the cleft of the tree aforementioned about 10 or 12 feet from the ground and that he would himself climb up and take it out. Having said this he laid hold of the Vines which grew round the tree and gently climbed up as far as the cleft into which he put his hand, and soon after quickly

climbed higher up. On perceiving this, he was desired not to proceed higher up and to come down but without paying any attention to what was told him, he continued going higher up. Seeing this, I directed that somebody should climb the Tree and bring him down and Panayomporathen Paramgoden Nair accordingly went up the Tree, and as soon as he neared Vayloo, the latter allowed himself to drop from a branch of the tree after having tied one end of the Cloth which he had round his person, to that branch and the other end round his neck without however tightening the knot. By this time Parangoden Nair came up to the branch and laid hold of Vayloo by the right arm, but the Cloth broke in the middle and Vayloo fell down on the plot of ground below. He was immediately examined, and it was found that the bone of the right thigh was broken, the wrist of the left hand a little swollen and the skin on the left side of the testicles split about an inch in length, and of a paddy grain's length in breadth. A Doctor was accordingly sent for and Vayloo shewn to him. Gooliga (a kind of pills) and other Medicines were

prescribed and given. Vayloo was interrogated as to his reason for having thus attempted to hang himself and a Memorandum made of the Wounds and other injuries he had received; Vayloo stated that he attempted to hang himself because he was hurt at being accused in this manner by Penoty who is his Wifes younger Sister, and that his reason for saying that the Cocoanut shell and fanams were in the cleft of the Tree was with the view of effecting this end. The Native Doctor Pallichul Vellan Raman Coolly being examined stated that he is of opinion that Vayloo will not die of these injuries. Believing that if Vayloo is put in the Hospital and medical aid afforded him he will recover, he is carried to the Magistrates Office by Coolies for the purpose of being sent to the Hospital accompanied by the physician Vellan Roman and two peons who are in charge of this argee, the two depositions taken from the physician viz. the Memorandum and the two pieces of cloth with which Vayloo attempted to hang himself.—

On referring to your report regarding Tean Neruvatody alias Cheracote Vayloo falling from a tree and breaking his thigh, it appears that he had declared that he attempted to hang himself with a cloth in consequence of the Tear Woman Penoty having asserted that he had received stolen property, but it is generally reported that Vayloo was actuated to do so from the ill treatment he had received - and it is but reasonable that you, who were at the spot, should have known that such a report was in circulation, and it was consequently your duty to have made such enquiries as would have traced out the real cause of his attempting the deed - as Vayloo was sent to the Peishkar by you, you are directed to enquire if any of the Rolkars or others maltreated him, and what could have induced him to attempt to put an end to his existence in the manner he has done - and send in a detailed report of all the information you may possess with regard to this case from the beginning — A

I have received the over No: 19 of the 23d March, together with the copy of Cherookarkala-thel Pathomas deposition - I am thereby required to state whether any ill treatment was used by any body to Jean Navarathoty alias Cherakisto Taylor and the cause which induced him to attempt to hang himself, and also to state on what grounds the said Pathomas house was searched, with all particulars relative to

6081. Fort St George 20th April 1843.

to the nature of ill treatment used —

One of these anzees merely states what took place before Taylor's apprehension & is immaterial to the matter at issues —

I have already submitted anzees No: 19 & 20 dated respectively the 22d and 24th February on the subject alluded to above - I deputed the Peshkar Rayroo Numbear for the purpose of apprehending Coyapachatta coroo Coolty implicated in the robbery committed in the house of carotada tha Namboodry and searching his house - He sent a Memorandum dated the 23d February which was received on the same day at half past 7 o'Clock stating that neither coroo Coolty nor any of the stolen property could be found - that it was necessary that Jean Taylor should be interrogated on some points - that having heard that Taylor was with the Cherokaroo adegary on the night watch, he wished him to be sent up if he should be found and that in consequence of a deficiency of peons for making searches &c he wished that four more peons should be sent to him - upon this I made enquiries after Taylor, who was found and brought, and for the purpose of assisting the Peishkar in the search &c the Huzzoor Sepoy Mahomed Ecuph, peon Manatha Chapan Nair, Taloor peons cherakal Kanaren

Fort St George 20th April 1823.

Kanaren and Vallo the Peon of the Governer were sent to him, with Vayloo under their charge to be made over to him. On the same day the Peshkar together with the above mentioned individuals returned bringing with them Vayloo and a Tiar Woman named Vanicka Valeja Penoty - and it was represented to me by the Peshkar that Penoty had said that Coroo had delivered to Vayloo some fanams in a Cocoanut shell, and that Coroo was her parom

In consequence, Penoty was examined in my presence but at a short distance, as I was then in an unpolluted state. It was then that one Vellasherry Coomkarroo residing at Vengara Unichom brought an argee complaining of failure of certain crops of paddy, while engaged in questioning him with regard to it, the Police Gomastah Eranhe Menon and the Huzzoor Deloget Seyd Aliram went up to Vayloo who was standing at a certain distance to avoid polluting me, close to where Penty was examined, and in her presence, the Police Gomastah examined him, and that Officer informed me that Vayloo stated exactly to the same effect as the female Penoty - and said that the Cocoanut shell containing fanams was concealed in a cleft of a Powah Tree in his compound

Fort St George 20th April 1823.

and that he would take and deliver it up himself - after this, before the dawn of Morning, in Company with a large number of people. Vayloo was conducted underneath the abovementioned tree, and on arriving there I questioned him, when he told me that he had concealed a shell containing some fanams in a cleft of the Tree, which he said he would take and deliver up himself - when the morning had dawned properly, he climbed up the Tree - I did not know or did he tell me that he was maltreated, nor was any thing of the kind rumoured, and this is the reason why I did not make any enquiry on the subject - On the 21st of February whole search was being made in houses where suspecion was entertained, three Copper Vessels, and one Coroly (a large broad Copper Vessel) were found in the hut of a Cherma (slave) belonging to Catepra-thy Cony Moideen - After this, the Nazer proceeded to the house of Ayattoo Thamoo for the purpose of searching, and as I reached a plot of ground to the Westward of Catapratha, the Nazer came up to me bringing with him the Tiar Woman named Ponipary wife of Thamoo, and told me that she stated to him that she had had a Silver Chain

Fort St George 20th April 1843.

Chain, a part of the stolen property round her waist, which she had delivered to Calapoothy Cohasherry Veeran Cotty, who immediately made it over to Mayootty, the son of Vagrakealathil Pathomah Vee. at this information, and as Veeran Cotty was married to Mayootty's Sister and both their houses were close to each other, the Nazir Peshkar and people proceeded to Viran Cotty's house, while I in company with the Police Gomastah and several others proceeded to the house in which both Mayootty and Pathooma live. Mayootty having seen us, immediately ran off, but people were sent after him and he was found concealed in a wood situate to the westward of his house, being brought to the Yard of his house where we were, I directed that he should be kept there, and to keep watch that no property is carried out of the Houses, and then went to Viran Cotty's house with the Police Gomastah and others, where the Nazer and Peshkar had gone to search, there we searched, the Nazer and Peshkar then left the place for the purpose of searching the houses

of Cattiparathu Pony Moideen and his son Vee. while I, the Police Gomastah, and others, went again to the house in which Pathooma and Mayootty live, and searched it. This is all. I did nothing to Pathooma or her Children, nor did I cause any body to do aught to her, nor cause the loss of her property. When the searching was all over on that day, the 21st February, it was about sun set, and consequently Pony Pary was not then examined. On being examined on the next day the 22d, she did not make the same statement as she did before verbally, but stated that the Silver Waist chain was delivered to another person named Chalakandil Canyathen Coonhappoo. In consequence of my having found part of the stolen property in the hut of one of the Cheromars belonging to Cattiparathy Pony Moideen during the search, and having some time before also brought to notice that individual's bad character &c. he bears a grudge against me. and as Viran Cotty is the son of Pony Moideen's younger brother, and married to Pathooma's daughter I suspect that this charge against me by her & others have been brought thro the encouragement given by Pony Moideen.

I have the honor likewise to mention the great inconvenience at present experienced by the Troops at this place from the want of Lines, the men are scattered all over Tellicherry, and in the event of their being required on any sudden emergency some time would elapse ere they could be assembled. I trust I may be excused in mentioning, there is a small piece of waste ground on the Southern side of the Fort, which appears to me peculiarly well adapted for hutting

This, perhaps, is the "resolution of Government" adverted to in Para 5 of the Board's letter to the Chief Secretary dated 23d March 1835, in which the Board observe that it does not appear from the tenor of that resolution "to have been intended that any reduction should be made in the original amount of the pension on the death of any of the parties mentioned in the will of Kader Nawaz Khan, at least during the life time of Mahomed Bauker Hoossain Khan, in whose name the pension was granted generally for the support of the family, but without any specification of the individuals to be maintained by it." Governor in Council
Fort St.e George

Most Honorable Sir,

In consequence of the valuable services rendered by me during the late insurrection in the Ganjam District the Government as a mark of their approbation were pleased to bestow on me the Yalamon Chully Mottah in the Rajahmundry District—the Original Peshcush on the Mottah having been found too high, they were most graciously pleased to recommend to the Honorable Court of Director its reduction, and the Honorable Court having acquiesced to the recommendation of

of Government, I beg to take this opportunity to express my gratitude for the same, and to submit that in the Cowle which was first granted for me, confirming the above Estate, by some mistake, I have not been correctly designated in it, I am then named as — Cundaccory Mulakaurajum instead of Rajah Cundaccory Mulle Kaurjanar Boodhanarow which I beg respectfully to state is my correct designation, and from the enclosed Public documents marked A and C, it will be seen that I am recognized in the manner above indicated. I therefore apprehend that, in the course of time, after my death the error referred to may prove detrimental to the interests of my family, or may lead to doubt or difficulties; to guard against such contingencies I earnestly pray that your Honorable Government will be pleased to desire the Board of Revenue to cause the necessary correction to be made, and a new Cowle to be issued to me on the occasion of the reduction of the Peshcush being carried into effect; for which act of Kindness I shall as in duty bound not fail to pray for the prosperity of the British Government.

To The Acting Chief Secretary to Government submitting with reference to Para 6 of the Extract from the Minutes of Consultation dated 21st January 1843. the Original title deed of the Yalamanchelly Estate in Rajahmundry and stating with respect to the Zemindar's petition transmitted by Government for the consideration of the Board, that it appears from the previous correspondence in their Office that the name by which the Petitioner is designated is the same as that entered in the existing Summud. Yes. Yes. Yes.

In Cons. 21st January 1843

Sir,

Para 1. With reference to Para 6 of Minutes of Consultation January 21st/43, — Communicating Extract from a General Letter from the Honorable the Court of Directors under date 12th October 1842, I am directed by the Board of Revenue to forward the accompanying Original title deed dated 17th January 1837 of the Yalamanchelly estate in the District of Rajahmundry.

2. In their Secretary's letter of 31st August 1840, the Board remarked that should the Peshcush on this estate be lowered to Rupees 12,000 per annum as then proposed, the preparation of a fresh Cowle would be unnecessary as the reduction might be notified by endorsement on the Original permanent Summud. In a Petition from

18th in sous 24th April 1843.

from the Zemindar, recently referred by Government for the consideration of the Board of Revenue, that individual states that he has been incorrectly styled in the present Cowle as Cundracoory Mulla Kaurajum whereas his proper designation as will appear from certain public documents accompanying his letter is Rajah Cundracoory Mullee Kaurjumoo Boothana row. he therefore prays that on the occasion of the reduction of the Peshcush a new Cowle may be issued to him under the latter appellation. On reference to the previous correspondence it appears that in the report of Mr. Commissioner Russell, and the proceedings subsequently before Government, as far as they have been furnished to this office, the name by which the Petitioner is designated is the same as that entered in the existing Sunnud. the public documents to which he refers in support of his request are Official Communications from the Provincial Court Northern Division and the Collector of Rajahmundry and Vizagapatam, addressing him by the name by which he now desires to be known. These being all of very recent date make but little in support of his claim, and the Board do not

not apprehend that the retention of the present Cowle will hereafter lead to any doubt or difficulty as to the rightful proprietor of the Estate. but it will remain for Government to determine in reference to the importance which the Petitioner seems to attach to the alteration and to his meritorious services, whether his request may be complied with, and a fresh Sunnud issued in his name as Rajah Cundracoory Mulla Kaurajum Boothana row.

With reference to an Extract from the Board's Proceedings dated 6th June last, (12) wishing to be informed of the practice observed in levying duty on Chayroot in this District, I have the honor to state, that the duty on the article in question as well as on all others is levied when brought to the Chowky for the purpose, but in cases where duties are farmed or the principal products of the land, an Estimate is made by the Gomastahs when the crop is in the field, as a check against any attempt on the part of the owner to smuggle or otherwise evade the payment of prescribed duty, and the owner required to account for such quantity till it can be ascertained that the duties were collected in full.-

In the instance under notice the owner Chelmiah being called upon to account for the quantity

6129 Fort St. George 24th April 1843.-

quantity of Chayroot estimated at 3-2-0 stated that he under 27½ Maunds which had already paid duty and 1½ Candy lost by wastage. 33- Maunds was deposited in the House of D. Doorgapah. This person was required to produce the quantity which on examination at the Custom House was found to contain only 18 Maunds, and on being further asked as to the remaining quantity stated that he mortgaged it to A. Venkatasawmy on enquiry this statement was proved to be false.-

As Chelmiah has thus failed to account satisfactorily for the remaining quantity and appeared to have appropriated the same clandestinely in dying cloths, a sum equal to double the amount of duty was levied from the individual in question.-

In conclusion, it is necessary to state that no actual seizure from the house of Doorgapah took place, but he was called upon to account for the quantity which he did accordingly.-

2. As the 15 Maunds comprized in the quantity above stated the not satisfactorily accounted for by the grower do not appear to have been actually discovered or seized by the Sayer Officer, the Board are of opinion that the levy of duty double or single on this portion is hardly borne out by the Regulations - as however the quantity 18 Maunds really found in the house of G. Doorgapah might have been confiscated altogether, the Board will not disturb the decision of the late Collector but direct that the distinction above adverted to be kept in view in recommending the imposition of Extra duty in future.-

Para 1.- I have the honor to acknowledge the receipt of your letter of the 13th instant with its enclosure, and to state that the debt to Nabob Nooroonnissa Begum of Masulipatam is the first item in the Schedule of two liabilities given to me by Mutrouze Luchmiah - The amount however entered in the Schedule is Rupees 73.150 --, the difference between this and the sum for which a notice has been served upon her arises apparently from the interest for the period subsequent to 9th Thula Kartika of the year Plava or November 1841, and law charges, being included in the latter, and not in the former amount - It will be observed that this debt originated in Lutchmiah's borrowing the sum of Rupees 37.717-5-4 in the years 1831 and 1832. Law charges and interest have since swelled the amount - It however it is now claimed upon a Razeenamah and as Lutchmiah has claims

to a greater amount on the Vaseredaly Zemindar and others. I fear the predator is not likely to consent to any abatement. I have however requested Lutchmiah to send his Vakeel that I may enquire on this point.

2. With reference to what is stated in the petition that no answer had been received from me to an Arzee addressed on the 28th March, I beg to state that the Arzee referred to was delivered to me by his Vakeel on the 4th Instant, the reply was dictated the same day and signed the next. In it I recommended Mr Lutchmiah to move the Provincial Court to postpone the execution of the Warrant in consideration of the steps which she had taken in conformity with the instructions of the Board of Surrendering her Estate and giving in a statement of her claims and liabilities. 3 On the 18th instant, I received the reply of Ramanadha Baboo to my Enoyetnamah of the 25th Ultimo. He continues to urge the same frivolous objections to the terms proposed to him as at first, and has not sent the engagement required of him. The Vakeel of Atchemmah whose claim to the Zemindary is still under litigation, has come to represent that her rights are endangered by the obstinate conduct of Ramanadha Baboo who in the expectation that the final Decree of the Queen in Council will be in her favor feels no interest in preventing the alienation of the Estate. I do not however, think this a sufficient ground to postpone the sale and purchase by Government of the Zemindary should it eventually prove that it has been decreed to Atchemmah the option may then be allowed to her that has been offered to Ramanadha Baboo.

4. With regard to the present circumstances of the individuals, I have to add that they have for some time been on bad terms with each other, and constant disputes have occurred respecting the share according to which each should enjoy the profits of the Shrotrium &c. and the question having been brought under the notice of the Board and Government, an arrangement was entered into and sanctioned by Government by which they have since enjoyed the profits in the proportion of 5 and 4 shares respectively. The surplus profits clear of all charges on account of Kist Sibbundy, charities and maintenance of certain females when shared by the parties in these proportions are of, I believe, not much more than sufficient for their expenses each has some dependents. The Shrotrium Village is at present under the management of Narrainswamy Raz. The following is an Abstract of the actual revenue, charges and surplus profits for the last 4 years.

Ordered that the following address be submitted in consequence.

To The Acting Chief Secretary to Government.

Sir,

19-20

To the Actg. Chief Secy to Govt.

Submitting with reference to the Extract from the Minutes of Consultation dated 15th Septr 1842 a correspondence with the Collectors of North Arcot and Chingleput relative to the Villages of Eanjoor and Poongalum in North Arcot and stating that under the information now received the Board are not prepared to advocate the claims of the family of the late Shrotriumdar of those Villages for further participation in the bounty of Government.

Para 1 I am directed by the Board of Revenue to acknowledge the receipt of an Extract from Minutes of Consultation under date 15th September 1842, calling for a special report on the whole circumstances relative to the Villages of Eanjoor and Poongalum in the District of North Arcot and in reply beg to transmit for submission to the Most Honorable the Governor in Council the accompanying correspondence on the subject with the Collectors of Chingleput and North Arcot as noted in the Margin.

From the Coll[r] of N. Arcot — 30th Nov[r] in Con[n] 19th Dec[r] 1842
To the Coll[r] of Chingleput — 30th January 1843.
From Do in Con[n] 21st Apr[l]

2. From this it will be seen that the two Villages above mentioned rated at an annual Bariz of Pagodas 216–18–17 or Rupees 757–6–8 were held at a fixed low rent of 60 Pagodas per Annum by one Coloor Vencatranze to the time of his death which occurred in 28th November 1841.

The

The condition of the original tenure was the performance of certain Police duties which however have ceased to be rendered since the introduction of the present Police system. On the demise of Vencatarauze the Villages were taken under the management of the Collector and the whole collections have been since carried to the credit of Government under two distinct heads 60 Pagodas as Jodee on Shotrium Villages and the remainder deducting charges, as Extra Revenue. The average outturn of the Villages since they have fallen under Sircar management or from A.D. 1831 is Rupees 510–5–5 per annum from which the average charges being deducted or Rupees 105–13–1 these results an average net annual Revenue of Rupees 404–8–4.

3. It is now proper to advert to the letter from the Collector of Chinglepute of the 10th Instant, showing that the same Vencatrauze in consequence of the abolition of the Office of Poligar and resumption of the privileges attached to it received in the year 1802 the Village

of Coloor in the Nayer Talook of the Saghire at the light quit rent of Rupees 347–11–8 which at his death was continued to his sons Narrain Sawmy Ranze and Gopaul Ranze the average surplus profit realized from this Village for the four last years amounted to Rupees 1296–6–8, and Narrain Sawmy Ranze and his brother have also Main Cawl Mannuems, fees &c. in other Villages of Chinglepute to a considerable amount the particulars of which are fully detailed in Mr. Freezes communication.

In their Secretary's letter of July 21st 1812. The Board were induced to recommend that in accordance with the course pursued in South Arcot in similar cases, 10 percent on the Annual Value of the Shotrium Villages of Cangoor and Poongalum enjoyed by Vencatrauze in North Arcot should be continued to his family. The considerable emoluments of which his sons are still in possession in the Chinglepute District had not at that time attracted their attention, but under the information now received the Board are not prepared to advocate their claims for further participation in

in the County of Government-

5- Referring to Para 2 of the letter from the Collector of North Arcot of 30th November 1842 the Board are of opinion that the Shotrum therein referred to should be at once incorporated with the Ten Villages and the heavy charges hitherto incurred obviated for the future by the Substitution of a fixed money assessment for the Annamee system now in force-

From Dr Tellery Dr

Para 1. With reference to the correspondence noted in the Margin, I have the honor to state for the information of the Board that on receipt of their orders, I caused the Mootah of Annicut to be attached on account of the balance due by the Abkarry Renter of the first half year of Fusly 1251 / A.D. 1841/42 but as immediately received a letter from Mr W D. Meppen of Madras stating that the Mootah had been for some period past mortgaged to him for 1000 Rupees, and requesting therefore that it might be released from attachment.

23

2. Having seen the documents connected with the Mortgage and the receipts for the Rists of the past year

I found no reason to doubt the correctness of the transaction, and have therefore ordered the attachment to be withdrawn. Chendumbara Mootiah Pillay does not appear to be possessed of any other property, and is otherwise so much involved that there is no prospect of any part of the arrear being realized. I therefore request that the authority of Government may be obtained for writing off the Amount Viz. Rupees 3492 – 5 – 5 Three thousand four hundred and ninety two Annas five and pice five.

Resolution thereon. The Board agree with Mr Freese that under the circumstances within detailed he had no choice but to release the Mootah, but they do not coincide with him as to the propriety of recommending to Government to write off a balance which has so recently accrued. The conduct of the defaulter does not entitle him to

any.

Ordered.

-any consideration - From the accounts furnished to the Collector - and submitted in Mr. Reeves' letter of January 14th - 1843 it appears that the Amount which Cheddumbara Mootyah Pillay actually collected is on his own - showing Rupees 31,211 - 10 - 8. It may be doubted whether this be a true return, as the collections for the short time that the Abkarry was under Sircar Management or from 17th December to the 11th January being less - than a Month were Rupees 8,000 ab - which rate the sum collected by the renter for the five Months that he had the farm must have exceeded Rupees 40,000. The charges were Rupees 10267 - 8 - 1, so that the net Amount which C. Mootyah Pillay must on his own statement - have realized will be Rupees 20,944 - 2 - 4 of which sum he seems from the Collectors letter before quoted to have - paid only Rupees 18825, leaving more than Rupees 2000 unaccounted for. Under these considerations the Board

request that the Collector will prosecute his enquiries during the remainder of the Current Fusly for the purpose of discovering any property available for the liquidation of the balance in question which may hitherto have escaped notice, and should none be eventually forthcoming, he will recur to the subject in his next receipt on the Extra Revenue of his District, and request sanction for writing off the arrear in the Public Accounts.

Sir,

With reference to my letter of the 5th instant, I have the honor to inform you, that Mr. Graham the Acting

that Mr. Graham the Acting Sub Conservator, is a unwilling to remain in his present Post. even if the larger Salary recommended should be given him and recommend that until a fit person is procured the charge of the appointment be made over to a Native.—

Acting Sub Conservator has informed me, that he is not willing to remain in his present post even if the larger salary which I have recommended, should be granted him, I was not prepared for this determination, but it is expressed in such strong terms that it is clear he is thoroughly dissatisfied with his position, and has fully made up his mind to resign. His chief motive is I understand the discomfort to which he is forced to expose not only himself but family by living in so retired and poor a place as he is obliged to do in order to attend to his duties.—

The Board know well how difficult it is to obtain a European fitted for the peculiar and as yet not fully comprehended duties of Sub Conservator.— In the present emergency I can only recommend that until a fit person is procured, whether from Europe or elsewhere, the charge of the appointment be made over to a Native whose attention will be directed to watching over the various tracts of Forest land belonging

The Native must I think be allowed 50 Rupees per mensem at the least. I have in

This is one of the important Offices of a Sub Conservator. Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 13th instant reporting on Petition No. 487 of 1843 preferred by the Parias of Egmore.-

2. In Para 2 of a letter from the Secretary to the Board to the Collector of Madras under date 12th August 1824. it is remarked that "the Meerasadars of Egmore have a grant in their name for a tract of land a part

Fort St. George 24th April 1843.

of which, as the Board understand, is occupied by themselves and paid by the Parias of the Village. The demand of Quit Rent for the whole of the land included in this grant is, or ought to be, one item; and of course the property of the persons having the ground and occupying a part of the land is answerable for the whole".-

3. The Board must be indebted to you for information as to whether the foregoing assumptions are correct, whether the Ground on which Quit Rent is now demanded from the Parias be included in the same certificate under which the land in the Village of Egmore occupied by the Meerasadars is held, or whether, altho' all the Grants may run in the name of these last, the portions of land inhabited by them and the Parias respectively are entered in separate Certificates, in the latter case the Board wish to know whether there be no property belonging to the Meerasidars and available for attachment within the limits of the land which the Parias at present occupy.-

To

The Honorable Sir. G. Arthur Bt. K. C. H.
President and Governor in Council

Honorable Sir

In forwarding the accompanying communication from Commander Williams Government Agent for the purchase of Timber at Calicut, I have the honor to bring to the notice of your Honorable Board the lamentable decrease in the supplies of Teak Timber procured and procurable from the Malabar and Canara Forests and to urge the necessity of the intervention of Government for the preservation, by such means as may in the wisdom of Government be deemed best, of the Teak Trees now remaining that are of such vital importance to the Public and Ship Building interests but which are at present so wastefully destroyed.—

2. The late politic acquisition of the Northern Forests has every prospect both immediate and prospective of answering the intention of Government in furnishing a large supply of good and useful Timber, but still the principal Timber of superior sorts for Keel pieces, Beams, Floors and other particular and indispensable purposes, must be obtained from the Southern Forests, to preserve which calls for the greatest attention.-

3. Being fully convinced that much of the very superior and particular Timber required for Ships of the Line is annually wasted when smaller and inferior material might be equally advantageously appropriated, I take leave to suggest to your Honorable Board the advisability of calling upon the great Government consumers of Teak Timber (principally the Commissariat, Gun Carriage and Engineer Departments) at the various stations both under the Madras and Bombay Presidencies, to use the greatest economy by not demanding Timber beyond the scantling positively required for work wherein that of inferior dimensions can be used as also the substitution, wherever practicable of other descriptions of Timber than Teak

Teak a coarse that have been recently practiced in the Bombay Dock yard and Gun Carriage Departments with great advantage.

4th. With reference to the 11th. Para of Commander Williams letter, I have deemed it necessary to urge more actively on the part of that Officer in personally visiting the different Forests, that appears not to have been the case hitherto, from motives of escpense, I therefore take leave to submit to the consideration of your Honorable Board whether with the present salary of the Timber agent, the ground of omission on this score be valid, and the propriety of granting Travelling expenses to obtain so desirable an object.

Sir,
I have the honor to acknowledge the rec[illegible]

of your letter under date the 9th. Ultimo, and to state that I should have replied to the same at an earlier date had I been able sooner to have procured more certain information as to the Number of Poon Spars of large dimensions which were likely to reach the Coast during the present season.

2nd. In my letter of the 28th. of October I mentioned that 16 Poons Spars had been felled by a Contractor with a view to supply me, but that out of such probably not more than 7 or 8 would be found on their arrival at the Kotagal river, to be of size and quality suitable to the purposes of the Dock yard.

3rd. I now beg to forward a list of 16 other Poon Spars which have been procured for me by other merchants, and which will arrive at the Calicutatam River at the end of the present month, the dimensions of most of these Spars are good and should the quality not prove inferior, when inspected on their arrival, they will be secured for the use of the Dock yard.

4th. I beg also to state that another merchant has felled on my account 24 Poon Spars of 70 to 90 feet in length, from Forests on the neighbourhood of Cheughaut, but as these Spars

spars are still very distant from water Carriage
though they have been felled more than a twelve
month, it is doubtful whether they can be brought
to the Coast in time to ship off to Bombay during
the present season.

5. Between twenty and thirty Foon
spars, the produce of Forests situated in this
District, have been cut expressly for me.
but out of the whole of these two only have
turned out to be fit for the Dock yard, and
these I am unable to persuade the owner to
sell separately from the rest.

6. I respectfully beg to submit
the assurance that I have dureng the last 2
years used every endeavour, both by the pro-
mise of superior prices and the offer of money
in advance, to induce the Foon spar Trees
to fell spars of 100 feet and upwards
in length and that they have hitherto failed
in their promises to supply me I believe to
be the consequence of the great difficulty (coming
to the exhausted state of the private Forests, to
which only they have access) of finding trees
of proper girt, which have a length of bole,
clear of branches, longer then from 80 to 90 feet

7. On the subject of curves, I
regret to state that it is next to impossible
to procure them in Malabar in any quantity,
there are not 5 sound ones of large dimensions
to be found among the several thousand logs
of Timber lying at Calicut and Ponany. The
Teak tree in Malabar is naturally of
strait growth and when curved or crooked
is generally the consequence of some hollow or
defect causing the tree to bend out of its na-
tural position and although curves in a lesser
ance might be produced by proper train-
ing the native Proprietors will not go
to the least expense to conserve their Forests,
no improvement can therefore be looked for
unless Government shall see fit again to
place the Forests under conservative regu-
lations and encourage the growing of curv-
ed Timber under the Superintendence of a
competent arboriculturist. each of the two
Rajahs Veroopad who possess the greater num-
ber of the Timber forests in this District,
have promised to provide me this season with 100
curved or crooked timbers, but from the re-
ports of persons in my employ who are
watching their proceedings in the Forests I

do

do not expect to receive more than 50 Curves from both of them.-

8. In the Travancore country the greater part of the Teak Timber is on the contrary curved or crooked but not more than a third part of it is sound and serviceable for ship Building purposes, there are now lying exposed for sale at Allepey upwards of 2,000 logs (the greater number crooked) the supply of the last and present seasons. I have been in communication with the Britesh Resident and have lately submitted a proposal to purchase 4 or 500 Curved, and 2 or 300 strait Timbers if permitted to select them out of the entire quantity in the Allepey Depôt and from a private communication which I have this day been favored with from General Cullen I am led to believe my offer will be accepted.-

9. I request I may be permitted to delay until after I shall have visited Cochin and Allepey my report of the quantity of each description of Timber which I may be able to procure for the use of the Dock yard during the present season ending in June next, as depending alone on the supply in Malabar, I am unable to form as yet even a probable

estimate I regret extremely to state that the falling off in the quality of Teak Timber is much more manifest in this than in preceding years, and I greatly fear the supply is failing very fast in Malabar. nearly the whole of that portion of the wood lately brought down, which has already been exposed for sale, has turned out so exceedingly defective and inferior as to preclude the posibility of my purchasing it, for one large lot the only tolerable one in the Market containing 139 logs nearly all superior and First sort, I had agreed under certain conditions to pay 24 Rupees the candy, but on turning the Timbers for more particular examination they proved so unsound that I was compelled to relinquish the bargain, the same lot was however immediately after resold at the same price to Messrs. Wells and Morly Merchants of Calicut who purchased it with a view to its shipment to England on account of Messrs. Campbell Dallas & Co. of Bombay.-

10. With reference to the system of purchase by selection, which I had hoped to introduce I beg to state that

that the proportion of really sound and good timbers to those inferior and defective is not now greater than one in twenty and that consequently the prices asked for selection are proportionately high misced timber above 3 Candies in solid contents and of ordinary description, that is, having more than two thirds of its entire quantity unsound and inferior, will sell at from 20 to 22 Rupees the Candy and timber still more inferior in quality but which would be considered in the Dock yard as little better than refuse wood, will sell readily at from 18 to 20 Rupees; the selection of timbers answering to Dock yard superior could not now be obtained under 40 Rupees nor first sort under 30 Rupees, the Malabar Candy: about 60 Logs of long then and strait timber, most of them answering to Dock yard 2nd sort, have been lately sold by selection at 30 Rs and above to Arabs and others who required long Deck Planks for Vessels under construction at Cochin.-

11. The increasing scarcity of Teak timber of good quality in Malabar, has led me into correspondence with the Resident in Travancore as to the possibilty of entering into Contract with

with the Rajah for the supply annually of a certain quantity of timber in classes corresponding to those of the Dock yard, the result I shall do myself the honor to submit as soon as possible, I beg to add that the teak forests in the Cochin and Travancore states are very extensive and the exclusive property of the Rajahs who wisely retain the monopoly of the trade in Teak timber and further that the Forests being under the management of European conservators, may be expected to afford a perpetual supply of Timber.-

12. As regards the supply of Timber to the Gun Carriage manufactory at Bombay I beg to state that I have endeavoured as much as possible to keep within the limit of the prescribed length, Viz. from 14 to 20 feet and although I have sometimes exceeded the latter dimension it has generally been with Timbers not so well adapted to the purposes of the Dock yard, in consequence of their containing some flaw or defect which rendered there extreme length unavailable, but which having a clear portion of sound timber not less than 14 feet in length, made them suitable for the Gun Carriage manufactory the

Fort St. George 27th April 1843.

the superior timber alluded to in the 3d Para of your communication now under acknowledgement as having been transferred to the Dock yard were not supplied by me to the Gun Carriage Department but must have been procured in Bombay Towards the end of last season in April and May I forwarded to the Gun Carriage Manufactory 10 Logs of Timber which had been split into 2 pieces each these were of much greater length than necessary but each piece contained some defect which rendered it less valuable for the Dock yard and I was moreover under the impression that the Gun Carriage Department was in urgent want of Teak plank at the time. I beg to add that the Timber which I may in future supply to the Gun Carriage Department shall be procured as nearly as may be possible to the dimension of the Shortest limit or 14 feet.

13. As regards the supply of timber to the Gun Carriage Department at Madras I beg to mention that there is no longer a necessity for my procuring it in log as the Military Board have authorized my supplying check Planks cut in the Forests to the dimension required.—

14 In conclusion I beg leave

Fort St. George 27th April 1843.

to offer the expression of my deep regret that you should consider me wanting in activity in working out the ends for which the timber Agency was re-established, but I beg to assure you that I spare no personal exertion and that no one can feel a greater interest than myself or possesses a more anxious desire to promote the success of the undertaking which you have been pleased to intrust to my management I trust I may be permitted to add that the state of the timber trade is very different from what it was during the time of the former agents who experienced not one of the many difficulties which I now have to contend with, there was then little or no competition in the Market and the injurious effect of abolishing the conservancy had not then manifested itself as timber of the best quality was to be obtained without difficulty in the greatest abundance whereas now in consequence of the almost exhausted state of the Forests in Malabar but very little timber of large size can be procured at all and scarcely any of the same superior quality as that of former years I would submit that my sphere of usefulness might be increased, and the interest

interest of the agency advanced were I enabled
to make frequent excursions to the more
distant points of this and the neighbouring
districts whence timber is procured or where
Forest Proprietors may reside, as personal
communication is much to be preferred to
correspondence by letter, the great expense of
maintaining a travelling establishment for
myself and public followers has hitherto
prevented my undertaking journeys save
such as had some definite object, the attain-
=ment of which required my personal attend-
=ance, but I beg to assure you that in the event
of your desiring that I should so employ my-
=self, no amount of fatigue or exertion shall
prevent my constantly visiting every place
where I may conceive my presence can be
advantageous I would however respectfully re-
=quest that an allowance may be granted me
to cover the expenses of travel, the two former
Timber Agents each received the sum of 300
Rupees monthly as deputation or travelling
allowance, though their journeys never extended
beyond Ponany and although it may be objec-
=ed to grant me the same indulgence perma-
=nently, I trust I may be permitted to draw
deput-

deputation or travelling allowance during
such days as I may during each month
be absent on occasions of duty
from Calicut the Head Quarter
of the Agency.

From

To
Colonel the Honorable Sir G. Arthur K.C.H.
Governor and President in Council.

Honored Sir,

In acknowledging the several letters now returned, particularly that of the Superintendent of the Indian Navy sent for report, on the subject of the lamentable decrease of the supply of Teak Timber procured and procurable from the Malabar and Canara forests, we would venture to observe, that this fact has been known for a considerable time and was stated before Parliament by Dr. Wallich in 1832 to the effect "that the forests that used to supply the Bombay and other Docks of India with Malabar Teak peculiarly fitted for building, had fallen off from extreme exhaustion".—

2dly. With regard to the means to be used for the preservation of the young Teak trees and others so wastefully destroyed, as stated by the Superintendent, we consider that before any further step is taken, that Commander Williams be directed to place himself in communication

Fort St George 27th April 1813.

communication with the Collectors of Madras and Canara, and obtain from those authorities the terms or mode of purchase of the wood from the Government forests by private individuals, and whether there is any control or limit in cutting down, and carrying away Timber by the Merchants, or their people; because we learn from reference to the Parliamentary proceedings before stated, that there had been a monopolly of the forests in former years which was considered so serious a grievance and so much complained of that it was abolished and a great improvement on the Timber market and Ship building was the consequence, but whether this monopolly was by Government, or that the forests are now thrown open to the public at a moderate rent, is not stated.—

3d

We conceive therefore it may suit the views of the Superintendent and the Honable Government to come to a decision on future proceedings, that Commander Williams might suppply a useful report of the extent and capabilities of the several Government forests the distances in land from the coast, names of the

the rivers communicating with the forests down which the logs are floated, and the particular forests where conservancy would be useful, this might be obtained from Mr Conolly or Mr Blair, the Collectors who would aid the Government Agent on such Inquiry.—

4th Agreeably to the 5th para of the Superintendents letter the several Departments, Engineer, Commissariat and Gun Carriage will be placed in possession of his sentiments with regard to the economy of timber, tho' with the exception of the Agent for Gun Carriages the others mentioned depend on the public Markets.—

5th With respect to the subject of expense to remunerate Commander Williams for any particular duty that has hitherto not devolved on him, that is should he be required to proceed on land we would respectfully recommend that he be reimbursed actual

of Government that the Commissariat, Gun Carriage and Engineer Departments will receive attention. Such papers will also be furnished to the Board of Revenue for consideration in connection with the above reference.

7. Resolved that the correspondence which has passed on the subject of Teak forests since the letter to the Government of Bombay dated 5th January 1841 may be furnished to that Government with an intimation that when the further report from the Board of Revenue as received it will be in the power of His Lordship in Council to give a comprehensive view of the whole subject.

To

The Collector of Malabar

Sir.

I am directed by the Board of Revenue to forward the accompanying Extract from a letter from the Honorable the Court of Directors in the Marine Department under date the 30th November 1842.

2. From this you will perceive that the attention of the Home authorities has been forcibly drawn to the devastated condition of the Malabar Forests and to the measures calculated to arrest their further destruction and insure a regular and adequate supply of Teak timber for the public service. The local Government have also called for further information on this important subject and to enable the Board to comply with this requisition I am directed to request your particular consideration of the principal topics touched upon in the despatch from the Honorable Court and more

more especially to require a detailed report on the following points.

1st The extent and condition of those forests in your District the proprietary right to which is vested in Government their situation productive powers and measures adopted for their conservancy.

2nd The extent and condition of the teak forests claimed on account of Government from private parties and the tenure and terms on which they have been acquired as also whether with reference to the measures in progress under the Bombay Government it will be necessary to obtain more forest land For this purpose you will place yourself in communication with the authorities at that presidency who have been requested to afford you all the requisite information.—

3rd The progress made in the formation of new teak plantations on the lands recently acquired with any suggestions in furtherance of this object which you may wish to offer.—

4th The preparation of a schedule of duties on the exportation of timber which shall vary

according to the length of the logs without reference to their breadth a measure regarded by the Court as best adapted to prevent the felling of young trees and saplings at present carried to a destructive extent On this subject it is desirable that you should communicate with the Principal Collector of Canara that the scale of duties which obtain in both districts should be the same.—

In conclusion I am directed to

3

bring to your notice in reference to Para 4 of the accompanying letter that the Home Government have been pleased to approve of your recommendation that the business of felling and conveying to the coast Timber belonging to Government should be performed by contract in preference to any other mode, and have directed that in future the contract system may be employed whenever it may be found practicable.

Transmitting an Extract of a letter from the Honble Court of Directors on the subject of the Teak forests in Malabar and Canara & requesting him to submit a report on the extent & condition of the Govt. forests in his District and the measures adopted or required for their conservancy—

Sir,

Para 1 I am directed by the Board of Revenue to transmit to you an Extract [Paras 4-5-6] from a letter from the Honorable the Court of Directors on the subject of the Teak forests in the Provinces of Malabar and Canara and to request that you will at your early convenience submit a report on the extent and condition of the Government forest in your District and the measures adopted or required for their conservancy.—

2 In para 5 of the Extract now forwarded it is suggested with a view to check the felling of young trees which is at present carried on to so destructive an extent, that the duty on the exportation of Teak wood shall henceforth vary only according to the length of the logs without any reference to their breadth. The attention of the Collector of Malabar has been called to this revision of the timber tariff

tariff and he has been directed in communication with yourself to prepare such a scale of duties varying only with the length of the timber exported as shall be equally applicable to both Districts.—

3. In reference to para 4 you will observe that the Court of Directors are of opinion that the business of felling and conveying to the coast timber belonging to Government should be performed by contract and direct that this mode be adopted wherever it be practicable.—

To J. D. Bourdillon Esqre

Fort St. George

From G. A. Smith Esqre Collector of Rajahmundry

Submitting the arrangements for Board's sanction of the Government arrears outstanding against the General proprietary and Zamindary Estates with reference to Board's Proceedings of 5th December 1842.

Sir,

Para 1 With reference to the Proceedings of the Board of Revenue, of 5th December last, I now have the honor to submit for the consideration of the Board a revised Statement of the balances due from Estates which were in the possession of their Proprietors at the commencement of Fasly 1251. A.D. 1841/42.

2. In this statement the Estates are divided into six classes for the sake of easy reference.

10

3. The first class contains fifteen Estates permanently assessed at Rupees 72,1851 15-2. the whole of which has been paid. Out of Rupees 100,344-9-11- the Permanent assessment of the nine Estates forming the second class, Rupees, 8,358-7-6- are still outstanding but there is no doubt of their realization. The Pollah Estate has been attached with the sanction of the Board in consequence of disputes and a report is now under submission to the Board, with reference to the orders of the Courts for making it over to one Cauzy Meer Shumsooden, Saheb arrangements have already been made with the sanction of the Board for the liquidition of the balance of Rupees 6029-7-10 standing

Petition No. 1241 1842, returned vide letter to Board 20th September 1842, Board's Proceedings 10th Octr. 1842.

standing against the Six Estates of the 3d Class assessed at Rupees 13,104-9-4.

There is a very heavy balance of Rupees 37,745-5-4, standing against the twelve Estates of the fourth class, notwithstanding Rupees 18,458-4-4, have been realized since my report of 20th July to save these Estates from sale at the end of this fusly some assistance appears necessary and just, with reference to the past four unfortunate seasons and I have accordingly proposed that certain instalments should be allowed in no case exceeding three years inclusive of the current. This indulgence will I have very little doubt, save these Estates with the exception of Godalak, respecting which some further remark appears necessary from me. Munnem Vencataratnum the Proprietr of Godalak, is a Merchant and unequal to the management of this Estate which is near the Hills and which he never visits, and I fear the purchase has been a most ruinous one to him, from the commencement. were the resources of the Zemindary in the current year, strictly applied to the discharge of the Government Dues, I have not the slightest doubt but that the indulgence now recommended by me would save the Estate but I fear for the Proprietr is too deeply engaged in other speculations

Permanent Rt. assessment 2,97,583-14-0

to admit of this and I am in daily expectation of being obliged to attach this Estate with reference to the Current revenue. Whatever my own opinion however of this man's affairs and conduct may be, I have not considered it proper that he should be deprived of a fair chance of saving his Estates, and I have accordingly proposed what appears to me a fair definite arrangement in the same manner as I have done in the other cases. Four Petitions respecting this Estate are returned.

5. Of the five Estates entered under the fifth class, one Rauly has already been reported on but the other four are in a most desperate condition, and I fear the very liberal indulgence even now recommended by me of allowing six years for the liquidation of these arrears inclusive of the current will be of no use in the case of Panoornuntra Inavilly and Sonteecondah. The Sakry Vizca Estates could be easily saved by the present recommendation, if the two Widows, the Proprietors, could agree, but I fear there is no chance of that. They unfortunately reside beyond my jurisdiction in the Vizagapatam District, so that it is out of my power to convey to them the advice necessary for bringing them to a proper understanding.

I have

I have entered the Cottah and Moorgondah Estates under a Sixth class. The actual state of the Cottah Estate has been long about a good deal by quarrels among the several Joint Proprietors but the Management of it in this Fusly is going on very well and endeavours are being made to introduce a management by a person on behalf of the Proprietors under my superintendence. The conduct of the Moorgondah Proprietor has been so bad, in first making away with upwards of 10. thousand Rupees out of the first collections realized by him after a most indulgent arrangement for saving his Estate had been admitted by Government and secondly in throwing every obstacle possible in the way of effecting a Subdivision of his Estate as ordered by the Courts, that I cannot possibly make any recommendation in his favor nor is there the slightest hope that any engagements would be fulfilled by him. Besides, the surplus amount realized by the sale of the whole Estate, has been ordered to be sent to the Court of Adalut at Rajahmundry. I propose therefore entering in the sale advertisement in July next this Estate along with

B. Petition returned No. 1154. 1842

Bd's Proceedings 3d December Dt. with Government orders.

such others as may not fulfil the definite arrangements now proposed, Viz. of paying the current revenue of the year in full and the amount of arrears entered in Column 7, within the expiration of the Fusly year. A sale of any Estate could not well take place earlier, as no individual would bid until the arrangements of the current year, are brought to a close.

7.

In the 19th Para of the Proceedings to which this letter is a reply, the Board have observed, that if in almost every case referred to, the whole amount realized had been carried to the head of current revenues instead of to the head of current and arrears, there would have been hardly any balance of current revenue for Fusly 1257 and they have directed that this 1846/42 practice may be discontinued for the future.

This point requires further consideration and I beg leave to submit the following three Abstract positions illustrative of the custom of the District. First, the Government Demand against the Proprietary Estates does not fall due until the 15th October, whereas the realization of the revenue in their Estates commences in August and

Fort St George 27th April 1843.

and September, generally amounts, therefore paid within the 15th October are carried to the Head of arrears and those paid subsequently to the head of current. The second position is surpassing the early part of the season, or the South West monsoon, to be favorable. A Proprietor has paid in full his current rents as far as they have become due and having the means tenders a portion of his arrears on which he is chargeable, with interest. I apprehend Government could not legally refuse such tender although a failure of the North East Monsoon, might subsequently disable him from fulfilling his further engagements of the current year in full. The third position is that of an Estate brought to sale for arrears. In this case the amount realized within the day of sale goes to the former Proprietor and that realized subsequently to the purchaser. Thus therefore as the sales usually take place within

Vide Board's Proceedings 4th February 27th 1834 Para 4

the 15th October, a portion of the revenues of the year must necessarily go to the head of arrears.

The

10-11

Proceedings thereon,

Submitting a letter from the Collector of Rajahmundry reporting his further proceedings in the matter of the balances due from the Estates which were in possession of the proprietors at the commencement of fasly 1251 1841/42, and stating that if Government should see fit to extend some degree of consideration to those suffering solely from natural causes it will be necessary to institute further enquiries into the degree in which each Estate has been affected by them and that the question should be for stated reasons left to the judgment of the Commissioner lately appointed to Rajahmundry in preference to that of the Collector also recording observations in reference to the Collectors remarks on the subject of the Boards suggestion to appropriate in the first instance all Collections to the discharge of the Current demand of the year.

Fort St. George 27th April 1843.

The condition of the Estates as exhibited in this letter manifests some improvements upon that shewn in the Collectors previous communication. The Board are glad to observe that three of those noticed in para 4 of their Proceedings of the 5th December last under attachment from extreme embarrassment are now entered as comparatively solvent and another as completely so having

paid in full. One of the former however is Vellak, the attachment of which for other reasons was sanctioned in the Proceedings of the 10th October and 3d November last.

2. Besides these the two Estates alluded to in para 12, of the former Proceedings have been classed with those in which the arrears are in a fair course of liquidation.

3. The prospects of the remaining Estates which were discussed in paras 4 & 10 of the same Proceedings seem nearly hopeless the terms proposed by Mr. Smith for enabling them to recover themselves, will it is feared prove insufficient and the Board would not be justified either by past experience or by the tenor of the recent observations of Government in the

Fort St. George 27th April 1843.

Rauly property, in sanctioning their adoption.

4. Still less can they advocate the measures proposed for those included in the 5th Class which even the Collector pronounces to be in "a most desperate condition" and three of whom to be beyond the power of benefitting even by the large concessions he has recommended.

5. The plan of gradually recovering arrears of permanent assessment by instalment in addition to the current demand has been often tried but rarely with a successful result. Judging from former experiments the Board are of opinion that wherever they have accumulated to an Extent approaching that of most of the Estates now under consideration, but one or two courses remain for adoption. either to forego the arrears or to bring the lands to sale.

6. The circumstances under which the permanent assessment was imposed forbid a resort to the first of these alternatives unless the Government should feel disposed to exercise a degree of liberality not anticipated by the original terms of the Zemindary tenure in consideration of unforeseen and unusual calamities against which it was impossible for the proprietors to provide.

That

7. That the province of Rajahmundry has suffered under inflictions of Providence to a greater degree than most of the surrounding districts has been fully setforth in the annual reports of the last 11 Years laid before the Board and Government. While the large number of Estates involved in Ruin, proves that so general a result must be referrible to a common cause.-

8. At the same time it cannot be denied that these misfortunes have in many cases been aggravated, in others perhaps caused by individual mismanagement and improvidence. In the latter case indulgence would be misplaced and the Collector's letter now under review records instances in which extreme measures are called for both on account of warning and example- such are Gostal and Moongoondah.-

9. If Government should see fit to extend some degree of consideration to those suffering solely from natural causes, it will be necessary to institute farther inquiries into the degree in which each Estate has been affected by them.-

10. The appointment of a Commissioner to Rajahmundry has recently been

communicated to the Board. Several arguments suggest themselves for leaving this question to his judgment in preference to that of the Collector. The indulgence if granted will be less susceptible of being drawn into a precedent, and the possibility of interfering in such an extraordinary course will appear to be placed beyond the Collector's power. The Zemindars will feel that Government continue to attach that importance to the inviolability of the Permanent Settlement with which it has ever been sought to invest it; and any measures of grace or severity will be received as deliberate and well considered acts emanating directly from paramount authority- for these reasons, the Board resolve to submit the course here suggested for the consideration of Government.-

11. In concluding their Proceedings of the 5th December last, the Board drew attention to the fact that if the total Collections realized within the year on account of each Estate in Fusly $\frac{1251}{1841\text{-}42}$ had been carried to the credit of "Current Peishcush," there would have in fact been no arrear of Current Revenue whatever, and impressed upon Mr Smith

the

the necessity of appropriating in the first instance all collections to the discharge of the current Demand of the year, and this liquidated, any surplus may be set apart for the payment of arrears. Mr. Smith in replying to the above Proceedings considers that the point requires further consideration and submits three Abstract positions illustrative of the Practice of the District.

First, he observes, the Government Demand against the proprietary Estates does not fall due until the 15th October, whereas the realization of the Revenue in these Estates commenced in August and September generally, all sums therefore paid within the 15th October are carried to the Head of Arrears and those subsequently to the Head of Current.

Second. he supposes the instance of a very favorable S. West Monsoon, and a Proprietor having paid up in full his current Kists as far as they have become due, and having the means, tendering a portion of his arrears on which he is chargeable with interest, in such case Government could not, he argues, legally refuse to receive such tender.

The Third position is that of an Estate brought to sale for arrears; in this case the amount realized within the day of sale goes to the

former Proprietor and that realized subsequently to the Purchaser.

12. The two last cases supposed by Mr. Smith bear no analogy to the position of the Estates to which the orders of the Board have reference. in regard to the second case, they would observe that out of the total amount Rupees 26,949 collected in $\frac{1251}{1841\text{-}42}$ and credited to arrear of $\frac{1250}{1840\text{-}41}$ Rupees 26,546 were credited before the 8th of October before any current Kists for $\frac{1251}{1841\text{-}42}$ became due; and in regard to the third position tho' this is equally irrelevant to the case of the Estates under reference not one having been brought to sale, it may be necessary for the Board to add one word of explanation as their orders have been quoted. The orders alluded to arose out of a practice observed in Rajahmundry up to 1833 of holding the purchaser of an Estate sold on account of arrears of Revenue responsible for the Kists which may be due at the time the Board's sanction to the sale may be received; this the Board considered irregular and ruled that the Registered Proprietor of an Estate sold for arrears of Revenue was legally, and the only person who was legally, responsible for the public Revenue due upon such Estate up to the day of sale, as he received credit for the Collections up to that date;

† 7th Proceedings 27th July 1834 Para. 344.

date of the correctness of this opinion the Board apprehend there cannot be a doubt, but to prevent the possibility of inconvenience, or anticipation of the resources, in carrying out this principle in practice, it is essential that all Estates sold for arrears of Revenue should be disposed of as soon after the close of the Fusly as possible, and notice of the sale may always be given by the 20th of July.-

13. It only remains for the Board to notice Mr. Smith's First Position.- There cannot be a question that if a Proprietor who is in arrear voluntarily tenders payment of such arrear before the Kists of the current Fusly fall due, such tender must be accepted; but such tender should be perfectly voluntary, or otherwise the attempt to collect arrears from the resources of the current year will inevitably lead to embarrassment in realizing the current Peishcash - it is observed that heavy balances are due for Fusles $\frac{1248}{1838\text{-}39}$ and $\frac{49}{39\text{-}40}$ by almost all the Proprietors who had credit given them on account Fusly $\frac{1250}{1840\text{-}41}$ out of Collections made in the early part of $\frac{1251}{1841\text{-}42}$, whilst it would seem but reasonable if the assets of $\frac{1251}{1841\text{-}42}$ were to be credited

credited to any other year than that to which they properly belonged, that they should go in liquidation of the oldest arrears.-

The Board have in the instructions issued to Mr. Smith had only in view that the resources of the year should first be held available for the current Peishcush and any surplus only appropriated for the discharge of arrears, and this principle they still desire as far as practicable to be carried out.-

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be submitted to Government.-

Forwarding a statement of the number of Base Coins in deposit in the Treasury of the Zillah of Cuddapah & requesting to obtain the sanction of the Board of Revenue for the erection of a Bungalow by disposing of them.

Para 1. I have the honor to report for the information of the Board of Revenue, that the Base Coins tendered in payment of Revenue throughout this District, are annually broken up and lodged in the Treasury. -

2. The accompanying statement will exhibit the extent to which these coins have accumulated during a long series of years. -

3. As there is generally a small quantity of silver in these coins, I anticipate that a considerable sum certainly five or seven hundred Rupees might be realized

6232 Fort St. George 27th April 1843

by disposing of the fragments in public auction.-

4 Perhaps the Government would not object to any sum thus obtained being expended in local improvements, and if so, I would strongly urge the advantage of the erection of a Travellers Bungalow at Royachoty. The necessity of such a building was brought to the notice of the Board of Revenue, in the Department of Public works, by Mr. Hallett, Acting Collector in his letter dated the 28th June 1841 and in the communication from the Civil Engineer which accompanied that letter. I also can bear testimony to the inconvenience which many Travellers have experienced from the absence of any suitable accommodation at Royachoty, since I joined the Cuddapah District.- The nature of the climate of this District greatly increases this inconvenience.- The estimate formerly framed by the Civil Engineer for a suitable bungalow amounted to Rupees 1493-2-11 but I think I could undertake to have it constructed for some what less than that sum as the materials can be procured at a moderate price and in the vicinity of Royachoty.-

I trust that the Board will recommend to Government the construction of a Bungalow at that place at a cost not exceeding Rupees 700-"-" beyond the proceeds of the sale of the brass coins above referred to.-

thereon. The Board presume that the payments of base Coins referred to in the above letter from the Acting Principal Collector of Cuddapah have never been brought to account and form no part of the reported balance in his Treasury, and under this impression authorize him to dispose of them by Public Auction. The propriety of recommending to Government the construction of a travellers bungalow at Raichoty to be paid for in part from the proceeds of the sale will be better considered separately when the Board shall have been informed of the amounts realized.-

Sir,

Para 1. I have the honor to acknowledge the receipt of the accompanying Petition* from the Ryots of Oradeccheravoo in the Cossamkondah Talook of this District on which I am directed to report.-

2 The Ryots complain that they are now called upon to pay Marrah to the Reddies of their Village contrary to the

usual custom, notwithstanding the Cur-
collection has been prohibited by Colonel
Munro.

3 The Reddies and Curnums
of the above Village preferred a com-
plaint to Mr. Hallett in July 1250, that
the Inhabitants of Omarakay also its
dependent hamlet refused to pay them
the usual fees in Fusley 1249 and in
1250 - an order was sent to the Tahsildar
to investigate and report upon the
matter - By his proceedings, it appear-
ed that in the Accounts of Omara cu-
Vuntara for prepared in Fusly 1205,
certain Marah or fees are entered as
payable by the Ryots to the Reddies and
Curnums, with reference to the qua-
lity of the land, and the nature of the
Cultivation, and that up to the Fusly
1249 the Ryots had been in the habit
of paying these fees with the exception
of a very trifling difference as to the
amount on dry lands, as the Ryots did
not raise any objections to the pay-

amount of marah, but to the payment
at all, an order was issued that
they must pay the Marah of fees as
entered in the accounts and as they
continued to resist, the property
of 4 of them was attached - It
has not yet however been sold, nor will orders
be issued on the subject, till
the decision of the Board of
Revenue is communicated -
I need hardly add that the
Records of this office contain no
order of Colonel Munro on
the subject, nor can the Petition-
ers adduce any prayer
that such an order was ever
issued -

Requesting that an Early reply may be obtained from Government for an immediate introduction of a 5 years Lease in the Zaghir of Bungamut

I am directed by the Board of Revenue to transmit for the information of the Right Honble the Governor in Council a Copy of a Letter from the Collector of Kurnool dated the 15th Instt. with its Enclosure, and to request that the Commissioner may be instructed to report whether he has any objection to the proposed Lease.

2. The Board observe that the Nawab's Debts will be liquidated in 3½ years, when by the orders of Government the Zaghir is to be restored, and as the Nawab has left his brother Futteh Ali in charge of the Zaghir, they see no reason why a Lease should not be granted to him for 12½ years, as proposed by the Collector.

3. The Board are aware that the Estate is now under the management of the Court of Wards, but they are of opinion that the Nawab's interests will be better consulted by conferring a 5 years Lease than by continuing the present system of annual settlements, which the Collector has found objectionable, no longer exist, but that such a settlement as best suits the only parties concerned, namely the Nawab his creditors and the Ryots, would be far preferable even though they should be satisfied with a smaller amount of Revenue than what Government year after year have been

Requesting that an Authority may be obtained from Government for an immediate introduction of a 5 years lease to the Sagheer of Bungana pilly

To C. C. Lovell Esqre
Acting Secretary to the Board of
Revenue

27

Sir,

1. I have the honor to forward to Government through the Board of Revenue a proposition to rent out the several Villages of the Bungana pilly Sagheer on a 5 years lease.-

2. Since it has been publicly ac=knowledged that the sequestration of this Sagheer was made under an error, and, that it is to be restored unconditionally to the Sagheer as far as soon as his present debts are paid off, and since it was only in consequence of the above error that the Estate ever came under the Board of Revenue, I conclude the necessity for enforcing a ryetwar settlement, which every Collector has found objectionable, no longer exists, but that such a settlement as best suits the only parties concerned, namely the Nawab his creditors and the Ryots would be far pre=ferable even though they should be satisfied with a smaller amount of Revenue than what Government year after year have been

3. The Ryots are most anxious to revert to the old system of renting the Villages to the Reddies and Curnums. The Nawab has often urged me to introduce that mode and all the creditors with whom I have had intercourse are far from having any objection, as they know I can secure them a certain Dividend, whereas under the present settlement it is very fluctuating.

4. If other argument were required for reverting to the system of Village leases it might be found in the fact that the present system has not answered, and I would refer to the remarks made in every Collector's report in Bungalow; for it is utterly impossible to apply the minutest and inflexible rules of a Ryotwar settlement to a country where we do not know the extent, or value of any one individual's holding and it is for want of these data that the "Demand" has been made so lovely, and such heavy outstanding balances the result balances which however astonishing they may appear to persons accustomed to the rigid exactness of other Districts, are for the most part irrecoverable. In fact an enquiry into individual balances where there is neither survey nor assessment leads to

ability of the Ryot (the value of his land being unknown), a test which is liable to the greatest abuse, and any fallacy in which is almost out of the power of an European Officer to detect.

5 I propose a Rent for 5 years because the Heads of Villages declining renting for less, they state, and with truth, that a smaller term is not sufficient to allow them to make improvements, or make sure of one good season, in fact the shorter the rent the greater the risk.

6. The only objection that I am aware of, is the fact that the Nawab's debts will be cleared in 3½ years, when by the orders of the Honorable Court the Jaghear is to be restored, but considering that his brother Futteh ulla Khan's debts will not be cleared for 12½ years, and that the Nawab seems desposed when his own are liquidated, to assist his brother, I feel assured that the objection is not insurmountable particularly as it is the Nawab's personal request to me that it might be a 5 years rent, and he is quite willing to leave his country a year or two more to be managed by me, as long as he is clearly

it is not called a sequestrated Jaghire.

7. In Statement I will be found an estimate of the profits of each member of the family among whom the Villages are shared, and who are independently responsible for their own debts. The Statement also shews the No. of years in which each Member will be able to liquidate his debts.

8. Perhaps it is as well to remark that these debts are there settled by Mr. Blane and that they include a few debts to a small amount as per Margin, for which there were vouchers, and which the Debtors acknowledged, but the creditors being Hyderabad people would not attend to Mr. Blane's modification - Government ordered that 6 Months should be allowed them to prevent their claims but the Records do not shew that any such limit was actually notified to them, mean while their money according to share, lies in deposit and now amounts to 2,709 Rupees. It has also come to my knowledge that the Nawab has incurred fresh debts, during the time his Jaghire was sequestrated and he was offered an allowance of

Nawab	876
Futteh ali khan	4085
Syed Mahomed khan	1582
Ghulam Mahomed khan	971

I rather think that it is with a view of shewing his creditors that there is some security for a clearance of these that he wishes the rent to be 1½ years longer than what would be sufficient to pay the debts in the prevent schedule -

9. I would also remark that Rownuck Ali khan has enormous debts at Hyderabad, where he is an Ameer of the Court holding extensive Jaghires. His share of the Bangarapilly Jaghire was only held responsible for the debts due to those of his Creditors who had assignments on that part of the Country. There are now all paid off, and he wishes either to put his own managers in charge of his Villages, or to induce me to guarantee the Revenues to some other creditors to this I have replied that as he never comes near Bungarapilly himself I shall rent the Villages to the Reddies and Curnums, as they agree to a Jamabundy, and that at the close of each Fasly, the net Revenue will be paid to his order, to be renewed year by year, but no continuous arrangement can be allowed, for this would perpetuate a guarantee beyond the time after which the Jaghire will be restored to

to the whole of his Hyderabad Creditor.

10 Taher Ali Khan the Tahsildar of Sonpet has also paid off his debts. He is a highly respectable man and kind to the Ryots of his Village. All his debt was on his father's account, and he has incurred nothing new as a marked of confidence and approbation of his conduct. I have told him I would accept his own Durkhast (as whatever comes from his Village would of course go entirely direct back to his hands) which he has fixed much below even the average Collections, and he is not a person more likely to exact from the Ryots than any other Renter would.

11. The next question is what would be the total amount of Rent, who will be the Renters, and what security is there? The first part of this question does not require discussion as it is a matter which can be of little consequence to Government. I have however drawn up an Abstract Statement (No 2) which shews the amount of offers made, as compared with the Demands and Collections of the last 5 years, and with the Demands and probable net settlement (after making the

Renters will almost all be the Reddies and Curnums of their respective Villages, and I have promised to give them the preference where they are men of good character, above adventurers who may offer more. The security that they will give is generally known by the name of "Zuminbundee" or security one for another which is reckoned sufficiently safe. In some instances Merchants and Sowcars have been offered as security.

12. With regard to the amount I beg to observe that though it does not equal what has been the usual estimate of this Jaghire's land Revenue Viz. 110,00 Rupees including the 6,000 Rupees Sodjy, that it exceeds the average Collections of the last 5 years. The country has been managed by us 7 years, but the Settlements of the 2 first years were not made with sufficient accuracy to take into account.

13. I had fixed 1 lac of Rupees as the sum I expected for the Jaghire, and even now I believe the Durkhasts may be increased in a few cases, but I was called away in the midst of my investigation into details. even as it is, the sum total would have come to 1 lac had I not agreed to take Taher Ali & his Villages at a sum lower than the

prices of grain at all what they were in former years, this Jaghier should have actually paid 11000 Rupees but I have ascertained beyond a doubt that grain is at least 50 per cent below what it used to be a few years ago. The Calculation of the present Fasly is 881 Candies for 123,109 or (at 3 acres per Candy) 2½ Rupees per acre, which considering the small extent of wet land is very high in comparison with the Ceded Districts.

14 I do not wish to fix the rents exactly as the Durkhasts now stand, as a few more local enquiries must be made which I am obliged to break off; but this will only cause a slight alteration in 6 or 7 cases and my object is to get sanction for the Rent as early as possible as the Fasly will close and all the trouble be thrown away.

15 With all consideration for the changed circumstances of the Nawab, who is no longer more pensioner without any vested right in the Jaghier and to prevent any future objections on his part, I have made him acquainted with the names of every Renter that has as offered himself and the terms on which he is to have

grant, though at first the Nawab strongly urged the division of the Jaghier into 4 portions and renting out each separately. He was put up to this by some influential Soucars who have claims on him, and whose underrenters would have taken the Rent but this I declined to listen to. There still remain a few petty personal objections which I can undertake in a few minutes conversation to dispose of; as the Nawab himself is sensible that I am consulting his own interests as well as those of other parties.

16 The Lease that I propose to give will be founded on that given by Mr. Ross at the Decennial settlement but not quite so long a Document. There are 5 Villages containing a large proportion of wet land which perhaps should be settled conditionally, as some of the Cuddapah Villages were. I have already received unconditional offers for them by the heads of the Villages, to an amount above the average of the past 5 years collections, but I suspect they ought to yield more. This however need not interrupt the general Sanction, and can be kept for

17 I have no accounts with me of the exact amount of present outstanding balances but they amount to about 50,000 Rupees of which not more than 7000 are recoverable. The Nawab is quite ready and so are the creditors to let me settle this question, for they are well aware that it is next to impossible without any survey or assessment accounts for me to go upon which individual can, and which cannot pay his balance and I believe they would agree to strike it all off if they could obtain the 5 Years Rent which they look upon as secure to a Rupee, particularly as it is reckoned very moderate.

18 My intention is, where the Balance on a Village is so unrecoverable as to make it demand necessary to enter into an extra item in the Renters Roobekaka and make him answerable for it. This no doubt can be arranged as the Renters are the only persons (being the Raddies and Curnums themselves) who do know who ought to make up the deficiency.

19. It will be observed that State= =ment 2 shews the extent

of which 838 are Enams out of this Enam 292 are on Deposit. These consist chiefly of Enams granted by the Nawab during the few years previous to our assumption of the Jaghier, and were ordered by Government to be re= =sumed on the supposition that the Country not being the Nawabs, he had no power to grant them. I have received applications from those who held them, to restore them now that the Nawabs late authority is recognized. In some cases he is willing to restore them, and in some he is not; in the latter case there can be no doubt on the subject, as whatever may be the usage of our Government, it is an under= =stood thing among native rulers that Enams (except when given to Religious institutions or as a remuneration for digging wells or Tanks) are resumable at a very short= notice. In the former case, the value of the deposit Enams since they have now paid Rent should occasion arise to restore teerwa 5 years, has been entered in the any, it will be easy to make an allowance er the amount of Lease, but I would not mend the restoration of any except

time the Jaghеer is held in trust and certainly no new Enams can be allowed.

20 Among the large remaining portion of Enams, there are some which are hardly tenable, and the Nawab was not sorry when the Collector threatened to investigate them and save him the odium of resuming any. I have not yet had time for scrutiny, but where the Nawab himself objects to the title, I consider they should be examined and if not fully supported, be added to the Circar land.

21. The only portion of Revenue that accrues to Government from any collections made in this Jaghеer is the surplus of Sayrabome 7000 Rupees. This the Board are aware was arranged in consequence of the Gidgonilla Chokies being amalgamated with Bunganapilly and 7000 Rupees was found as the Bunganapilly share of the collections because that was the average amount of former years. The surplus is from 3,000 to 4,000 Rupees annually.

22 In consequence of the orders of Government to push forward the line of Chokies to the Kurnool and Hyderabad frontier, the Bunganapilly receipts will be affected, as Kurnool Rawanak will pass free.

and through Bunganapilly. If a 2nd duty is not allowed to be levied, a claim for compensation will be made and if this is to be allowed I doubt if Government will be any gainers by pushing forward the frontier Chokies to the Tumbudra, for the gain will only be the difference between the duty collected on Hyderabad goods imported into Bellary and Cuddapah only, and the duty on goods imported into Bellary, Cuddapah and Kurnool all together. As yet I have not ascertained what the estimated value of such importations may be, but I only mention the circumstance as one which is likely to affect the Revenues of the Jaghеer under consideration.

23. As the Nawab is very anxious to know forthwith and on what terms his country will be restored to him, and which may as well be notified to him at once, I would recommend that the Summud given to the Sunnoor Jaghеerdar (herewith enclosed) may be shewn to him and a clause added to prohibit him granting Enams without notifying to Government and that none be given except by a written Document which shall state that they are only held as long as his family have the Jaghеer, and copies of such Documents to be filed in some Government office.

24 In conclusion I beg that authority may be given to me to receive and confirm such Durkhasts as appear unobjectionable and this as early as possible; or else it will be too late, and it is a point

Sir

From W. H. Babington Esqr
Acting Collector of North Arcot

Para 1. Submits amended Detailed Statements in English and Hindoowee of the Land proposed to be granted to the Village Officers with exception called for in the Board's Proceedings of the 14th October 1841

With reference to Extract from the Proceedings of the Board of Revenue dated 14th October 1841 on the subject of the arrangements to be made for the grant of land as commutation for allowances to the Sibbendy of certain Villages in North Arcot and with reference to your letters on the same subject of the 10th January 1842 and 9th March 1843. I have the honor to submit Amended Detailed Statements in English and Hindoowee of the Lands proposed to be granted.

2 The Board in Para 2 of their Proceedings objected with reference to the Statements submitted by the Principal Collector with his letter of the 15th April 1840 that the proportion of Waste Land which he proposed to allot to the Village Officers very far exceeded that of the Cultivated Land; and observed that if the Waste Land in question was Arable they would not disapprove of the transfer but of

cultivated or had been abandoned for many years it was desirable that it should be optional with the Parties interested whether they would take it or not.

3. In conformity with the Boards' directions the Village officers have been permitted to reject such of the waste Lands entered in Mr. Ogilvie's Statements as they were not disposed to cultivate and other lands which they consent to take have been substituted. The Extent of the Land rejected by them amounted to Rupees 86. 5. 7 as shown by the accompanying Statement No. 3. Much of the land entered in Mr. Ogilvie's Statements as waste, is now under cultivation and from the subjoined abstract of Statements No. 1 and 2 forwarded with this Letter it will be seen that the proportion of cultivated Land exceeds 1/2 of the whole land proposed to be assigned.

Number of Statement	Land as per Statement sent to the Board on the 15th April 1840.			Land as per Statement now submitted.			Increase in cultivation	Decrease in waste
	Cultivated	Waste	Total	Cultivated	Waste	Total		
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

4. With regard to the Boards remarks in Para 4 of their Proceedings it is necessary as land is to be allotted to the Curnums of Cottoor to point out a slight inaccuracy in the abstract Statement B which accompanied Mr. Ogilvie's letter. The Mamool Marah enjoyed by the Curnum is not quite equal to the average maneum and Marah of the Village. The Curnum is entitled to Rupees 19. 5. 8 as average Maneum and Rupees 8 - 13. 9 as average Marah - Total Rupees 28 - 3. 5. but he enjoys as Mamool Marah Rupees 27. 15. 2 being Rupees 1 - 4 - 3 less, a difference so trifling that it was not thought necessary to assign him land in lieu of it - In accordance with the instructions of the Board it is now proposed to assign him Land to the extent of Rupees 19 - 6 as Maneum and sanction is requested for carrying Annually to account the excess of Marah enjoyed by him over the average Marah to which he is entitled. The increase of Rupees 19 - 6 is noticed in the above abstract.

5. With reference to Para 3

Fort St. George 27th. April 1843.

Aollee I have to submit the following explanation. In the Statements sent to the Board on the 26th. March 1827 and 19th. October 1838 the Office of the Curnum of Aollee was erroneously entered as one of those to which land was to be allotted. The fact was that the Curnum was actually in the enjoyment of Tarapady Manium land to the extent of Rupees 2. 8. 3 and of no other Manium or Marah and ought not to have been noticed in the above Statements at all. The mistake having been discovered the entry in Statement A to which the Board refer was made for the purpose of rectifying the error made in the previous Statements by deducting the Manium and Marah to which the Curnum had been supposed to be entitled and leaving him his Tarapady Inam. The remuneration to the Manigar of this Village is shown in both the former and present Statements No. 1 opposite to No. 137 of the Village of the Vellore Taluk.

With regard to Para 5 of the Board's Extract I beg to suggest that instead of annually deducting from the Settlement of

Fort St. George 27th. April 1843.

each Village the Assessment of the Land allotted it would be better that the Land should be entered in the accounts as Inam as is done at present with other Tarapady Inam Land.

North Arcot ..... Collector's Circuit Cutcherry Ranepet 22d. April 1843.

(Signed) W. R. Babington
Acting Collector.

Order thereon.

(35-36)

Ordered to be recorded.
Read the following letter.

To E. C. Lovell Esqr
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

From the Collr of South Arcot.

I have been forced to discontinue the Settlement and to place myself under Medical treatment.

37

Doctor Preston orders me to attend to such business alone as is urgent, forbids all vocal exertion and presses upon me an entire release from my duties for a Month or two, I thus am only capable of performing the Current business of my Office.

I have only the two Southern Talooks of my own range to be settled which may be done to advantage in June, when the irrigation works can be seen in play but the Summabundy of the Sub Collectorate remains to be performed, and if attempted by me I fear the result would be illness which would force me to take long sick leave, which I trust to being able to avoid.

Under these circumstances I have the honor to claim the consideration of the Board, and to beg they will represent to the Government how great an

In such case I should be able to apply for some leave under section XI of the absents Rules.

The Board observe that Mr Hallett has been without the aid of a Sub Collector since the 5th January last during which period the whole Revenue duty of the District may be said to have fallen upon him, the Head Assistant being quite new to the District having but recently joined, Mr Hallett it is seen has settled all the Talooks in his own Division except Mannargoody and Chellumbrum which he purposes to settle in June but the Summabundy of

of the 4 Talooks pertaining to the Sub Division still remains to be made which Mr. Hallett feels at present unequal to undertake altho' able to carry on the ordinary current business. And the Board would very respectfully but urgently press the necessity of some experienced Officer being sent at an early date to undertake this duty. They are the more earnest in this recommendation because it is very desirable after the recent distractions in South Arcot and just as the People's minds have become somewhat settled, that Mr. Hallett should not be withdrawn from the District for any protracted period.—

Representing that he has met with an unexpected obstacle in carrying out the plan of giving one of the Govt Farms for the use of the Nairdies and recommending instead that it be made over on certain conditions to the Cherumars or Slaves attached to the soil who are as much if not more deserving of sympathy and help from Government

"To the Board's Letter No 48 dated 25th Feb 1843."

With reference to the correspondence noted in the Margin I have the honor to inform you that I have met with an unexpected obstacle in the way of carrying out the plan I had recommended of giving over one of the Government farms in Ernaad for the use of the Nairdies. Being anxious to ascertain myself that there were no unknown difficulties which might afterwards embarrass me, I went to the spot which had been pointed out as peculiarly applicable for the purpose. It was well, I did so, for had the Board acceded to my recommendation and made over the farm in the way suggested, a serious injustice would have been done to a body of men whose are as much, if not more, deserving of sympathy and help from the Government as the Nairdies. The people I allude to are the Slaves (Cherumars) attached to

* It does not appear to be understood that they were on any occasion parting with rights to which they were entitled from the Circumstances around them.

the escheated farms who were enfranchised by the Government in the year 1836, but who are so strongly attached to their birth place that they have preferred to remain there and act as slaves to the various parties who have taken the farm in part from the Government, to better their condition as free labourers elsewhere. I found these poor creatures about 60 in number in a State of great despondency at the idea of being necessitated to remove from their homes, for extraordinary as it may appear in a Class so degraded as the Cherumars they have an equal abhorrence to the vicinity of the Nairdies to what is felt by the highest cast Brahmin, and nothing would induce them to listen to my proposition of allowing the Nairdies to come in part of the farm, they continuing on the remainder.

It would have been a very spurious sort of humanity which would have led me to wish to advantage the one party to the detriment of the other and I have therefore given up the idea of locating the Nairdies in that spot. I have succeeded in obtaining 2 pieces of ground for them in

Fort St George 27th April 1843.

in their sites and as I have some money which has been raised by private subscription with the view of ameliorating their condition, shall not trouble the Government with any direct application for assistance for the present.

My immediate scheme for the Niseides has failed but I trust that the Government will permit me to carry out the one that has incidently opened itself for the benefit of the enfranchised Churumers. I have just alluded to. I would propose to attempt to raise their condition by giving them the land which they have hitherto cultivated as slaves for the benefit of another to cultivate for their own. Some little difficulty may be found at first in making them feel their altered position and comprehend the fact that they can exist and thrive as a working community without the intervention of a Master or Patron. Some risque also will have to be incurred of a loss of Revenue from having many poor tenants in place of a single substantial one. But these difficulties will I believe soon vanish, and it is well worth

Fort St George 27th April 1843.

worth the time encountering them for the sake of the advantage that is contemplated. The chief means are willing enough to make the exchange, but the plan was not one that would either have suggested itself to their minds unprompted, and they are well aware that I have the power of punishing them severely should they wilfully fail in their engagement by removing them from the land, they so much prize.

The opportunity for trying the experiment is a very favorable one. The late renter positively declines to hold the farm any longer unless a considerable reduction is made in its rental, alleging that he has been a loser by it for some time. The rental was fixed as shewn in my letter of the 7th April 1841 in common with that of the other re-leased farms in Ennore after a survey by my Head Assistant Second Sheristadar. I do not like making any alteration at all Events prior to the receipt of the Board's letter which has been promised me under date the 16th February last, and I have thought it well therefore to direct that until further orders it be held in Cumanie-

with the Board's permission it, or part of it may be made over to the Churmars on a rental to be fixed after the inspection of the Crops passed. The Talook authorities exercising such direct Superintendence as will be naturally necessary at the commencement of such an experiment.—

Resolution thereon. The renter of one of the rescinded farms in the Ernaad Talook being unwilling to continue to hold it unless at a considerably reduced rent the Collector is desirous of engaging the Churmars or Slaves attached to the Soil in the cultivation under some superintendence of the Talook authorities and at a rent to be fixed afterwards with reference to the produce that may be raised. The opportunity appears very favorable for this attempt to raise the Churmars from their present degraded condition, and the Board authorize the Collector to avail himself of it in the manner which he has proposed and will feel much interested in the success of the experiment.—

Gentlemen,

dated 30th March 1843

I have the honor to acknowledge the receipt of your Secretary's letter and its several accompaniments, which latter are herewith returned as requested—

2. The subject of the above letter had, previous to its receipt been submitted to me by the Officer of this Department at Vellore and

Ditto from the Commissary General to the Collector 15th June 1822.

Ditto from the Commissary General to Captain Nicholls 28th March 1843—

dated 28th March 1843—

and copies of such parts of the correspondence which has passed thereon, as are likely to throw any further light on the dispute between the Civil and Military Abkary Renters, are annexed for your Board's information—

3. You will observe from my letter to Captain Nicholls, that I have already in part anticipated your wish in directing that Officer to remove any shops which may have been established by the Military Abkarry Renter beyond the established limits.—

4. The definition of these limits seems to be the principal point in dispute, and why this should be the case for the first time after a lapse of 20 years requires to be ascertained.—

5. I beg to refer you to Mr. Chief Secretary Hill's letter to the Collector and Magistrate on the following points— In the 9th Para in reference to Military Bazars it is mentioned "it will be desirable that the "Military Bazar should not be confined within "narrow limits" and it will be immaterial whether the space so allotted be actually occupied

28th Augt 1824

as

"as a Military Bazar or not." In the 10th
para it is said to be of "importance that
"an extensive range should be given to
"the operation of the proposed system" as
/Military abkarry/ also, "the Military
"Control over the Manufacture and sale
"of such liquors should extend as
"far as there may be just reason
"to think it can operate with effect
"in preventing drunkenness among the
"Troops." Mr. Cooke the Principal
Collector of North arcot who was
mainly instrumental in fixing the
limits of the Military abkarry Farm
dated 15th June 1822. at Vellore, says in his letter to the
officer Commanding that station
"From the 12th July next the shops
"will be removed to the distance of
"four Miles from the limits of your
Command."

6. From the above it may
dated 14th June 1822. be inferred that altho the Resolution
of Government specifies 4 Miles as
around the Military Bazar, yet that
term may be applied to a much
larger space than what is actually
occupied by the Bazar and that Mr.
Cooke considered that the
Military

Military abkarry control should extend
four Miles from the limits of the
Vellore Command.—

7. It appears therefore to
Dated 18th March 1843. me that Captain Nicholls in his letter
to my address has taken a correct view
of the principles in which the Military
abkarry limits were originally defined,
and that he was so far right in not
yielding to Mr. Turners demands
as he was borne out by the circum-
=stance of the shops complained of having
been under the control of the Military
abkarry for the last 20 years.—

8. However this may be,
no dispute has occurred before the
sites occupied by the present Military
Contractor have been so occupied by
his Predecessors for many years and
Mr. Turner when he purchased the
Civil abkarry contract must have
been perfectly aware of the circum-
=stance.—

9. The admission of the
Civil Contractor within the limits from
which he has so long been debarred
would bring parties over whom
the Military authorities could have

no

no control in closer neighbourhood with the Troops of the Garrison and as no additional Revenue is likely to be gained to the State by making any alteration, it appears to me desirable that the limits which have obtained so long should not be disturbed, but that the Civil Contractor should be clearly given to understand that he will have no right to establish Shops where Mr. Turner now demands them.—

the Collector in his letter /No. 5/ states "the measurement is to commence from the "General Bazar" you will perceive that the point at issue is this. From whence is the measurement to commence? as the correspondence between Mr. Cooke then Principal Collector of North Arcot, Lieutenant Colonel Deacon and Captain McLaren may tend to elucidate this subject. I have enclosed Copies numbered from 12 to 17 - The letter dated 9th September 1822 /No. 16/ appears to favor the impression that the measurement of the abkarry limits commenced from the termination or boundary of the Military or Police limits called elsewhere in the correspondence "the limits of your command" and again "the General military "Bazars limits" and "the Garrison of "Vellore" On this head I have taken evidence on the usual affirmation from the parties deputed by this Department to accompany the Tahsildar for the purpose of effecting the demarkation of the abkarry limits - all the deponents agree in one point viz. that the measurement is commenced from the boundary, or the

termination of the Military limits - this measurement has never been questioned for a period embracing upwards of 20 years, and yet on the representation of Mr. Turner, actuated entirely by interested motives, an attempt is made to remove the boundaries which have so long remained undisputed and it is to be inferred from the correspondence, that Mr. Goldingham, the Collector takes the same view of the subject as Mr. Turner. One thing alone from all the records to which I have had access although I regret that some bearing on the subject are not extant may tell in favor of Mr. Turners' claim - It is contained in a private note from Mr. Cooke to Captain McLaren dated 12th July 1822 and is on the file with other received letters. Mr. Cooke therein writes as follows "I agree with you fully regarding "the expediency of renting your limits "to the same person contracting for "remainder of the Vellore Talook if "a fair offer can be obtained "from him, as it would prevent

"prevent many disputes regarding the in-
-fringements of limits" whether this
opinion may have had any weight with
him when he came to the decision
conveyed to Lieutenant Colonel Deacon
in his letter /No. 17/ can only be
matter of conjecture. It remains
to be seen what would be the effect
of re-measuring the Arrack limits
from the confines of the General
Military Bazar itself, instead of
adhering to the old measurement
from the confines of the Military limits
I will only mention two certain conse-
-quences: First the decrease of about one
half the amount for which the
contract is now sold, second the
bringing in parties over whom the Military
authorities can have no control,
still nearer to the Garrison, and
thus throwing temptation in the way
of the Native Soldiery, who would be
enabled to obtains liquor at nearly
one half the price at which the
Military Renter is bound to retail it.
The former result is of lesser importance,
the latter is paramount. I have

this innovation to the utmost, and if requisite he

Dated 18th March 1843.-

2.- The Commissary General has directed me to make the following observations on the subject thereof.-

3.- The Alkarry limits around Pellore were established upwards of twenty years ago and have never once been disputed since that period to the present time.- They were well known to the several Contractors both Revenue and Military who have rented the farms from that period and both Mr Turner and the present Military Renter must have been well

their present Contract.-

4.- The limits cannot now be disturbed because the two renters disagree about not letting the Villages near the Alkarry Boundary.- a Boundary which is not and cannot be exactly four or five Miles around any of the Military stations, but which is considered to be a certain arrondissement comprehending within its embrace many small hamlets situated beyond that distance for the express purpose of deciding such disputes as have now arisen.-

5.- If the two Contractors cannot agree as they have done before, it will be your duty to guard against any encroachments on the part of the Revenue Renter, and to be equally careful that the Military Renter does not open any Shops beyond the established limits.-

6.- Mr Turner the Revenue Renter appears to object principally to a Shop which the Military renter has established on the Arnee Road, but it can be easily ascertained whether that Shop is on an old site or whether it is an innovation on the part of the present Military Renter, if it be the latter the Shop must be removed.-

to shew the Villages in the Skirts of the Military Boundary, and the No. of sites of Shops kept up on or about the line by the successive Military Renters.

8. At other stations whenever the civil Renters have opened Shops contiguous to the Military limits to entice or draw off the customers of the Military Renter, a representation to the Collector has always had the effect of causing the removal of such Shops, and the Commissary General hopes that Mr. Goldingham the present Collector will attend to any representation on the subject which you may now have to make to settle this dispute which Mr. Turner appears to have created to induce the Collector to believe he has sustained losses which will give him a claim at the close of this contract to a remission.

9. I am further desired by the Commissary General to add to the above observations that it is a subject of regret that you did not report at an earlier period to this Office the communications which you had held with the Collector relative to this dispute

Fort St. George 27th. April 1843.

originated several Months ago, instead of deferring it to this late period when the Farm is on the eve of being put up to sale.

An earlier intimation of the dispute would have allowed time to calmly discuss and adjust it, and thus have obviated the difficulties with which the disposal of the contract seems now to be attended.

Sir,

To The Acting Collr. in the No. Dn. of Arcot. Inft. 4th March 1843.

Para 1. In reply to your letter dated 27th March last, I am directed by the Board of Revenue to transmit to you the accompanying copy of a letter from the Commissary General dated 8th April 1843 in which he states that the shops complained of by Mr. Turner have been under the control of the Military

Inform 27th April 1843.

Fort St. George 27th April 1843.-

Abkarry Rentes of Cellers for the last 20 years - the Commissary General has however desired that any Shops which may have been established beyond the Abkarry limits should be ordered to be removed.-

2.- The real matter in dispute would seem to be as to what are the limits of the Military Bazar, and it is desirable that these limits should be accurately defined before disposing of the Abkarry Contract of the District for the ensuing Fasly.- If this cannot be done by you in communication with the Deputy Assistant Commissary Genral Captain Nicholls, the authority of Government must be obtained for the same, but the Board are willing to hope that this may be effected without troubling Government.-

"prevent many disputes regarding the in-
-fringements of limits" whether this
opinion may have had any weight with
him when he came to the decision
conveyed to Lieutenant Colonel Deacon
in his letter /No. 17/ can only be
matter of conjecture. It remains
to be seen what would be the effect
of re-measuring the Arrack limits
from the confines of the General
Military Bazar itself, instead of
adhering to the old measurement
from the confines of the Military limits
I will only mention two certain conse-
-quences: First the decrease of about one
half the amount for which the
contract is now sold, second the
bringing in parties over whom the Military
authorities can have no control,
still nearer to the Garrison, and
thus throwing temptation in the way
of the Native Soldiery, who would be
enabled to obtains liquor at nearly
one half the price at which the
Military Renter is bound to retail it.
The former result is of lesser importance,
the latter is paramount. I have
consulted with the Major General Commanding
on this subject, and I convey to you his sentiments

when

when I mention that he is determined to oppose
this innovation to the utmost, and if requisite he
will proceed moving the Government thereon. As the
day fixed for the sale of the Arrack Contract
for the ensuing year is at hand (viz. 10th April)
I trust I may be favored with your views on
this subject at as early a date as circumstances
will permit. -

Deputy Assistant
Commissary General.

Sir,

I have the honor by direct of the Commissary General to acknowledge the receipt of your letter, and the Copies of correspondence which accompanied it.-

Dated 18th March 1843.-

2.- The Commissary General has directed me to make the following observations on the subject thereof.-

3.- The Alkarry limits around Pellore were established upwards of twenty years ago and have never once been disputed since that period to the present time.- They were well known to the several Contractors both Revenue and Military who have rented the farms from that period and both Mr Turner and the present Military Renter must have been well

Fort St George 27th April 1843.-

their present Contract.-

4.- The limits cannot now be disturbed because the two renters disagree about not letting the Villages near the Alkarry Boundary.- a Boundary which is not and cannot be exactly four or five Miles around any of the Military stations, but which is considered to be a certain arrondissement comprehending within its embrace many small hamlets situated beyond that distance for the express purpose of deciding such disputes as have now arisen.-

5.- If the two Contractors cannot agree as they have done before, it will be your duty to guard against any encroachments on the part of the Revenue Renter, and to be equally careful that the Military Renter does not open any Shops beyond the established limits.-

6.- Mr Turner the Revenue Renter appears to object principally to a Shop which the Military renter has established on the Arnee Road, but it can be easily ascertained whether that Shop is on an old site or whether it is an innovation on the part of the present Military Renter, if it be the latter the Shop must be removed.-

7.- The Records of the Pellore Office ought

Fort St. George 27th April 1843.

to shew the Villages in the Skirts of the Military Boundary, and the No. of sites of Shops kept up on or about the line by the successive Military Renters.

8. At other stations whenever the civil Renters have opened Shops contiguous to the Military limits to entice or draw off the customers of the Military Renter, a representation to the Collector has always had the effect of causing the removal of such Shops, and the Commissary General hopes that Mr. Goldingham the present Collector will attend to any representation on the subject which you may now have to make to settle this dispute which Mr. Turner appears to have created to induce the Collector to believe he has sustained losses which will give him a claim at the close of this contract to a remission.

9. I am further desired by the Commissary General to add to the above observations that it is a subject of regret that you did not report at an earlier period to this Office the communications which you had held with the Collector relative to this dispute

originated several Months ago, instead of deferring it to this late period when the Farm is on the eve of being put up to sale.
