Diary.—

3d May.— A. Robertson Esqr. has in pur-
=suance of his appointment published in the
Fort St. George Gazette of the 2d Instant Assumed
his seat this day as Second Member and
Subscribed the following Oath according to
Section II Regulation I of 1803.—

(1)

Mr. Robertson's Oath.— I, Andrew Robertson, do promise
and Swear that I will to the utmost of
my endeavours well and faithfully execute
and discharge the duties of an Officer of Re-
=venue reposed in and committed to me, by
the East India Company, and that I will
not demand take or accept, directly or in-
=directly, by myself or by any other person for
any use, or on my behalf of or from any Rajah,
Zemindar, Talookdar, Poligar, Farmer, Renter or
Ryot, or from any person paying or liable to
pay, any tribute, Rent, or tax, to, or for the use of
the said Company, any sum of money or other valu-
=able thing by way of Gift, Present, or otherwise,
over and above, or besides and except, the ac-
=tual tribute, rent, or tax, authorized to be
=taken by, and for the use of the said Company
and that I will justly and truly account for,

answer.

answer, and pay all the rents, duties, and other revenues, and sums of money which shall come to my hands or to the hands of any person or persons in trust for, or employed by me, as an officer of the Revenues of the said Company unto the said Company.—

So help me God.

Sworn to before me this Third day of May 1843 at Madras.

/ Signed / A. Robertson

/ Signed / J. Dent
Justice of the Peace

Ordered that the foregoing oath be submitted together with the following address,

To

The Acting Chief Secretary to Government.

1-2

To The Acting Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to report that A. Robertson Esq.re has this day assumed his seat at the Board, in pursuance of his appointment as 2d Member, having first taken and subscribed the oath hereunto transmitted.—

Revenue Board Office
Fort St. George,
3d May 1843

/ Signed / E. C. Lovell
Acting Secretary.

Received.—

3d May. Received the following letter.—

To

E. C. Lovell Esq.re
Acting Secretary to the Bd. of Revt.
Fort St. George.—

3

From A. Freese Esq.re
Coll.r of Chingleput.

Sir,

Para. 1 I regret having to state for the information of the Board, that a report was received late last night, informing me that a Gang of robbers supposed to amount from 50 to 60 persons, attacked on the night of the 29th Ultimo, the Salt Cutcherry at Summenjary, and having wounded several persons who were then present succeeded in breaking open the Cash Chest and plundering it of money to the amount

Rs.	As.	Ps.
of 8,564	14	—

2 A number of the Villagers having been quickly collected, pursued the gang, one of whom was cut down with a sword by the Village Moonsiff, and secured together with a bag containing 1,000 Rupees of the amount plundered. Detailed information has not yet been received, but from what I have learnt the gang were composed entirely of Madras people, who had been planning the attack for nearly a month, and it is to be hoped that the information gained from the man that has

has been apprehended will lead to the seizure of the rest of the perpetrators of this daring act — and to the recovery of the property carried off —

Chingleput District,
Coll.ns Circuit Cutcherry,
Tirvallore 1st May 1843.

/Signed/ A. Freese
Collector

3-4

Resolution thereon.— Resolved that the foregoing letter be submitted for the information of Government. It will be satisfactory to the most Honorable the Governor in Council to learn that one of the Gang had been cut down by the Village Moonsiffs and secured, together with a thousand Rupees of the plunder, and it is trusted that the apprehension of the individual will lead to the discovery of the rest of the Gang and the treasure. The result of Mr. Freese's further exertions will be communicated at the earliest period.—

No. 1337 of 1842.
Territorial Department
Revenue.

To
L. R. Reid Esqre
Chief Secretary
Bombay.

Sir,

With reference to your letter No. 5394 dated 14th September 1840, and accompaniments, I have the honor to forward Copies of letters from the several Collectors of Land Revenue, and to submit such additional remarks as seem to me necessary, on the subject of leasing dry lands for garden purposes, at their present rates of assessment.

2. The measure as proposed by the Collector of Belgam does not appear to be one that would be generally applicable throughout the Presidency, nor in any part of it without modification, as to the length of time during which Garden lands are to be held on such favorable terms. The measure with certain modifications in this

1 Ahmednuggur
2 Candeish
3 Poona with accompaniments
4 Sholapoor
5 Lama
6 Putnaghiree
7 Surat
8 Broach
9 Kaira
10 Ahmedabad

this respect might be introduced, with very great benefit to the Country, into the Poona, Nuggur, and Sholapoor Collectorates, and I should have added Candeish also, were it not that Mr. Pringle seems opposed to it, and that I feel anxious first to obtain a more detailed report of his views on this subject, for which I have applied to him.

3. In those districts where the revised assessment has been fixed, this measure may be said to be even now in force, since the benefit of all improvements on the land is secured to the undertakers for thirty years. In those Districts of the above Collectorates where the Survey has not been completed the measure might be introduced by authorizing Collectors to grant dry lands on leases for terms of years, varying from 15 to 30 according to the amount of outlay made or contemplated on improvements, at the present rates of assessment, or at such rates as may be subsequently introduced for similar lands, the time being of course calculated so as to allow the Cultivator a sufficient prospect of return for his outlay.

4. The chief objection that may be advanced, is the chance of present loss for-

of revenue to Government by parties at pres-
-sent cultivating Bhagayet lands / paying
the higher rates / throwing them up from
inability to compete with those who will
have to pay only a Jeroyet rate of assessment
on similar lands; and this is one reason
which induces me to exclude Guzerate as a
part of the Presidency, where a serious loss of
revenue might be produced by the general
introduction of the proposed measure.

5. With regard however to the Collector-
-ates in the Deccan, there is less to fear on this
head, from there not being so much Bha-
-gayet Cultivation - still I should have exp-
-pected some small temporary loss of revenue
here also by the old Garden land being
thrown out of Cultivation, but a measure
similar to that now proposed has been
successfully tried in the Sungur Collectorate
since 1834, without any such effects Mr Harrison
in his Revenue Report for 1838/39 / dated
8th October 1839 / in reference to this, writes
(Para 23.) "From a Statement I have before
"me it appears that from the 2nd January
"1834, on which date the orders for exempting
"wells dug on Jerait, or dry lands, from

"the Bhagayet or high rate of Assessment
"and land watered from a Well which has
"been prepared from one fourth of the high
"Assessment were first promulgated until the
"month of May last, two hundred and fifteen
"Wells were constructed on Jeroyetty or dry
"land, and one hundred and sixty two Wells
"repaired on the Mamool Bagayet lands"
from the beneficial effect of this measure
tried on so small a scale / having been
sanctioned originally for only four years,
and subsequently for four more / some idea
may be formed of the immense improvements
that would arise to the Country were such a
measure introduced generally into the Deccan.

6 With regard to Guzerat and the
reasons I have given above for doubting
the expediency of such a measure there, you
will observe that the Principal Collector of
Surat, Collector of Kaira, and Sub Collector
of Broach, all agree in thinking it un-
-judicious to introduce such a measure

Fort St George 4th May 1843

*The granting 30 years leases sanctioned here has all the beneficial effects expected from the Survey and measure.—

within their respective Collectorates to Mr Brook and Saira little or no benefit would accrue to the Cultivator, and in that the loss of Revenue would probably be very considerable from old Bhagayet lands being thrown out of cultivation, Sir R. Arbuthnot speaks highly in favor of the introduction of the measure in the Ahmedabad Collectorate, but allows that an immediate loss of Revenue would occur, tho' he adds that he has no doubt, but before 5 years had elapsed a perceptible increase would take place in the Revenue. He does not however explain how this is to be brought about, whether by the inducement which the increase would offer for bringing waste land into cultivation, or in what other mode. There is altogether not sufficient satisfactory argument in proof of the success that would attend the extension of this measure to Ahmedabad to induce me to recommend it.

7.— With regard to the Surat Collectorate, I think Mr Langford's letter sufficiently explains that no benefit would arise from the introduction of this measure there, for the Survey of Assessment is now done Talooka by Talooka actually

Fort St George 4th May 1843.—

greater than what is paid for garden cultivation, and in the other Talookas with the exception of Mahim and Bassein the difference between the Khoorsa and garden rates is trifling.—

8. The introduction of the measure into the Putnagherry Collectorate seems one of doubtful expediency. It would only affect waste lands, since the assessment on such land as was under cultivation at the last survey continues fixed at the same rate until the next Survey. The loss of Revenue would be considerable, for there is much Bhagayet cultivation in some parts which would most probably be thrown up. This sort of cultivation is said to be much on the decline in the Putnaghurry Zillah, partly from a fall in the price of garden produce, and partly from the land having become effete and requiring rest and breaking up anew, but chiefly in consequence of the present high rate of assessment on such land, which leaves less profit in proportion than from the Gerayet Cultivation. It would probably therefore be sufficient to reduce the Bagayet rates in this Collectorate

where

where there are to high, so as to offer inducement for bringing such garden lands, as have been thrown up[n] again into use.—

2.— I beg to annex also copy of a letter from the Collector of Poona with accompaniments from his late third Assistt. Mr. Hart as bearing reference to this subject. Mr Hart proposed as a more immediate encouragement to the Cultivator, that dry land be granted as proposed for 30 years, for garden purposes without paying higher rates, and also that each acre should as it was made capable of sufficient and permanent irrigation, be held rent free for all the term of the lease "which should remain unexpired after the "year in which the land was so improved"— I cannot say that I see any necessity for this additional encouragement, being of opinion that the liberty to cultivate more profitable crops paying only dry land rates would be quite sufficient to make the tenant turn his fields from Bevayette to Bagayet, without exempting them from all tax on lands so converted, by which the Revenue would necessarily suffer

very considerably—

Poona, Revenue Collectors Office, Sept[r] 20th 1842.

/ Signed / Wm. Simpson
Revenue Comm[r]

No. 1021 of 1840

Territorial Department
Revenue.—

To John Dickart Esq[r]
Revenue Commissioner
Poona

Sir,

I have the honor to acknowledge the receipt of your letter of the 28th Ultimo, No. 1399, calling upon me to state my opinion respecting the leasing of dry land for garden purposes at the present rates of assessment, and in reply beg to observe that I can conceive no measure more likely to redound to the benefit both of the Government and the Ryot than that of allowing the cultivator to hold watered land paying only the Bevayet or dry land rate of assessment.—

2d. Such a measure (as you are aware) has been in operation in this Collectorate since the month of January 1834 and under date the 30th of May last, the Government

Fort St. George 4th May 1843.

Government sanctioned its being extended for a further period of four years.—

3d. The advantage of holding out every possible encouragement to the Ryots to sink Wells, was discussed at some length in my Revenue Report dated 8th of October 1839, and there is no subject, whether as affecting the prosperity of the Ryots or the permanency of the Land Revenue of equal importance.—

To The Revenue Commissioner
Pona

Sir,

I have had the honor to receive your Circular No 1399 of the 28th Ultimo with accompaniments, calling for my opinion on a proposition for letting Land for garden cultivation at the dry Land rates of Assessment.—

2.— Where the Assessment of garden Land is ascertained to be higher, with reference to its net produce, than that of other Land, it should be reduced to its due proportion

but

Fort St. George 4th May 1843.

but beyond that any reduction would derange the general equality of the Assessment, and therefore seem inexpedient.—

3. In many cases garden cultivation, after allowing a fair return for every outlay of Capital, whether permanent or temporary, yields a greater net produce than dry Land Cultivation, its Assessment therefore at the same rate, would in such cases be unequal, and as a general measure, disadvantageous.

Candeish Circuit Office
Camp Monkty.

No 1018 of 1840.—

To John Vibart Esqr
Revenue Commissioner

Sir

I have the honor to acknowledge your Circular No 1399 dated 28th Ultimo, forwarding copy of a letter from Government No 2901, dated 14th Ultimo, and copy & its enclosures, and requesting my opinion respecting the question discussed of leasing dry Land for Garden purposes at the present rates of Assessment.—

2. The expediency of that exemption,

Mr

6799

Fort St. George 4th May 1843.

Revenue Commissioner's letter No. 9600 of 1832 to the address of the Principal Collector and its enclosures.

Revenue Commissioner's letter No. 2009 of 1836 dated 26th July to Principal Collector and its enclosures.

Mr. Rose informs, has been fully disposed on the correspondence noted in the margin, but the whole of this correspondence was destroyed in the fire of the Cutcherry.

3. There cannot be a doubt of the impolicy of placing a high assessment on Bagayet lands and the total exemption must certainly tend to encourage the cultivation by irrigation, which must be considered a desirable in a Country so liable as the Deccan is to suffer from drought.

4. There is no Bagayet rate of assessment levied in this Collectorate in land irrigated by wells and Boorkies only Tanks shall or land watered by aqueducts being subject to extra assessment except in Sidapoor, where, you are aware, that a small additional assessment has been sanctioned on Garden Lands and that this additional rate has already been levied for some time and has not been found to act as a check on the Cultivation of Garden Lands in that Purgunnah.

5. I would however much prefer an arrangement by which all the increased profits from an outlay of Capital on land were

6800

Fort St. George 4th May 1843.

were reserved to the Individual encouraging the expenditure and his descendants, as all the trifling additional assessment has not thrown any Gardens out of Cultivation in Sidapoor, I think it will have a tendency to prevent any great increase in this description of Cultivation.

Coorg Collectors Circuit Cutcherry Mercara, November 1840.

Acting Collector

No. 1715 of 1840.

To J. Nisbet Esqre
Revenue Commissioner

Sir,

With reference to the correspondence as per margin, I have the honor to forward the accompanying Extract from a letter from my Assistant Mr. Hart, containing a proposition for granting rent free, for a term of years, Lands rendered capable of being irrigated and used for the Cultivation of Garden produce, the proposition is well worthy of the consideration of Government, but I am inclined to think the sacrifice of Revenue might be considered too great. If the plan were acceded to, the indulgence might be

Fort St. George 4th May 1843.—

be restricted to those who had sunk Wells from their own resources without aid from Government, the plan of taking into consideration the amount of outlay and granting the land for a proportional period at Jeroyet rates, has I believe, been found to answer well, altho' it cannot be doubted that Mr. Hart's plan would prove a greater encouragement to the outlay of Capital in this form.—

I have already stated my own opinion that Jeroyet rates only should be taken from Jeroyet land, whatever improvements may be made on it during the period for which the lease of the land may have been granted.—

Circuit Cutcherry
Camp at Cowrie
2d December 1840.—

(Signed) P. Stewart
Acting Collector

Extract from a letter from Mr. Hart, 3d Assistant Collector, dated 23d November 1840. No. 4

I would respectfully venture an opinion that even this plan might be improved in a manner which would give more immediate encouragement to the tenant and yet not throw the land out of the pencil of Government for such a protracted period, namely to give the lease in the first instance for a

Fort St. George 4th May 1843.

tolerably long term, say thirty years, at the present Assessment, with a stipulation that each acre comprised in it, should, as it was made capable of sufficient and permanent irrigation, be held rent free for all the term of the lease which should remain unexpired after the year in which the land was improved, and that at the expiration of the lease, it should be renewed at the actual value of the assumed land—The sacrifice made by Government would be very little, but it would be a Money more acceptable, and useful than a pencatter one of a more important nature, especially to Cultivators of small capital—It would also tend to induce an earlier improvement of the land, as the holder would be aware that the chance each of his fields was to pass from Jeroyet to Baghayet, the sooner it would render him the two-fold advantage not only of more profitable Crops but also of exemption from all tax upon them during the term until the expiration of this lease.—

True Extract
(Signed) P. Stewart
Acting Collector

No.

6803 Fort St. George 4th May 1843

No 17 of 1841.

To John Vibart Esqr

Revenue Commissioner

Sir,

I have the honor to acknowledge the receipt of your Circular Letter, No 1399, dated 28th October last, and to report that there can be hardly a doubt of the expediency of granting leases of considerable duration at the usual rates in all cases where cultivators are willing to convert dry land into Baghayet.

2. You are aware that in the whole Marka, Tholapoor and Barsee Talookas of this Collectorate, the benefit of all improvements whether by sinking Wells or otherwise, are secured to the undertakers for a period of 30 years, dating from the introduction of the revised rates of Assessment.

3. In the Purundha and the Talookas South of the Bheema, the new Survey is now in progress, and as it will take some time to complete the whole it would be desirable to vest the Collector to grant leases at dry land rates of Assessment as they now exist or may in future be modified for any period

6804 Fort St. George 4th May 1843

up to 20 years for land newly brought under irrigation, the length of the lease to be determined with reference to the expence of the improvement contemplated.

4 I would also take this opportunity to state that the small supply of Babool seed forwarded with your letter, No 813 dated 3rd July last, previous to the setting in of last rains, was distributed in the Baraee, Indee, Kepburga and Moodilishal Talooks but not above half of the seed came up, and I shall feel obliged by your procuring a further supply as soon as procurable. The large Neem, I would beg to observe, which though a fast growing tree seems to be much valued for building, and extensively made use of where procurable. It requires no care and thrives well in black soil where so few trees will grow, as well as in rocky, hard ground which is of little or no other use for any other purpose. I would recommend that plantations of Neem trees should be sanctioned on the same rules as ordered for Babool, and if approved

of

of, shall be glad to receive a supply of seed the sowing of which Mr. Blane is willing to superintend in the Talookas under his charge. —

Collectors Cutcherry, or &c.
Camp at Roonbarey
15th January 1841. — } (Signed) E. Montgomerie
Collector.

No. 1430 of 1840

To The Revenue Commissioner
Poona. —

Sir,

I beg respectfully to acknowledge the receipt of your letter of the 28th Ultimo with its inclosures, requesting my sentiments on the proposal submitted by the Collector of Belgaum for leasing dry lands for Garden purposes at the present rates of assessment. —

2nd As a general measure, I am humbly of opinion, the one proposed by Mr. Townsend is defective, In this Collectorate little benefit would result from its adoption, and in some places it would certainly entail a loss of Revenue. —

3rd In the Deccan Southern Maharatta Country the Bagayet rates are sometimes

sometimes four and five times higher than what are paid on the Khurreef Crop, here the Khurreef assessment is often greater that what is paid for Garden Cultivation. —

4th In Salsette with the exception of Cocoanut Garts, Garden Lands only pay two Rupees and a half per bega, whereas it is estimated that the Khurreef lands of the first quality are assessed at from five to fifteen. —

5th In the Mahim and Bassein Districts alone I should anticipate some increase were the proposed plan adopted, as from the superiority of the soil in the above Talookas, the Bhagayet rates are higher there, than in other, but in the remaining parts of the Collectorate the difference between the Khurreef and Garden assessment is so trifling to lead me to suppose that the measure would induce the Cultivator, to expend his capital on sinking Wells, and particularly as he now enjoys many Bhagayet advantages.

6th The Ryots of this Zillah in several places hold small plots of ground not-

not more than a few yards in quantity, in which are situated their Wells and some few fruit trees, and for this alone they pay the Bagayet rate as soon as their Rice Crops are cut the latter land is prepared for their crops of Onions and other Vegetables which are irri=gated from the above Wells sometimes a single family Cultivating several beegas on these second Garden Crops no extra Revenue is levied, and the payment of the Khurreef assessment with all these advantages is not likewise to accept a new tenure on which would in few places entail on him any benefit. —

Canna Coll.r Circuit,
Cutcherry, Pandoora,
5th November 1840.

/ Signed / J. W. Langford
Acting Collector

No. 890 of 1840.

Territorial Department
Revenue

To
John Tibart Esqre
Revenue Commissioner
Canara

Sir,

I have the honor to acknowledge the receipt of your Circular No. 1339, dated 28th October last, together with its accompaniments

and

and beg to submit my sentiments on the question discussed of leasing dry lands for garden proposed at the present rates of assessment, as therein called for, co together with such few remarks as have suggested themselves to me on a careful consideration of the subject. —

2nd The soil of this Collectorate gene=rally speaking is so ill adapted for garden purposes, from its barren and rocky nature, and from the absence of natural means of irrigation and the expense and uncertainty of success attending artificial attempts, such as making "kunds" constructing Wells &c. that the same field for enterprize and the same inducements to expend Money and time on such undertakings as may be found to exist in more favored Countries, will always be wanting in this Collectorate. —

3rd The Baghoyet Cultivation in these parts is chiefly composed of Cocoanut, Betel Nut, Jack, and Condnee trees. the latter being found generally on the outskirts of Plantations

and

and sometimes, as also the Jack trees, in: -lated spots. Plaintain trees which are unprofit- are seldom found, except in rich spots of land, in the immediate vicinity of the houses of the better sort of Cultivators, while Mango and Tamarind trees though also free from assess: -ment, are rarely or ever met with except in their wild state, as the sale of the fruit does not afford sufficient profit, or hold out adequate inducement to undertake the trouble and expense of planting and attending to them. —

4th The Sandy Soil in the immediate vicinity of the Coast, though well adapted for Cocanut trees, is unexcelled for any other produce; the best, largest, and most thriv- -ing plantations of this description are found exposed to the strong sea breezes, and almost on the sea shore. — The Condmee and Jack trees are hardy, and thrive on very dry and poor soil, and require very little attention, but the betelnut is comparatively speaking a tender tree, and is supposed to flourish best in lower and richer lands, in the vicinity of rivers and streams where greater facilities for irrigation exist.

5th It is generally asserted by intelligent individuals interested as well as disinterested, who have

good

good opportunities of forming a correct opi- -nion on the subject that of late years Baghayet Cultivation has decreased in this Collectorate, and not a few instances have came to my own knowledge in which the independent holders of Baghayet lands have been compelled to throw up their Estates, from finding this kind of Cultivation a losing concern, the reasons of which are assigned to be the combined effects of a deficiency in the general produce of such lands, caused either by a deterioration in the quality of the soil, owing to its exhausted state, which could only be remedied by removing the old and unproductive trees, breaking up the lands and permitting it to lie waste until it be sufficiently recovered, or from the ina: -bility of the Cultivators from want of Capital and falling off in the market price of the produce, and to make good even the Govern: -ment demands, much less to lay out Capital and expend time and labour in sinking Wells and improving in other ways the Cy means of irrigation and in replacing the unproductive trees with young ones. — Any inducement therefore which can be held out and any arrangements that can be entered into to revive and Cy extend

extend Baghayet cultivation in this Collectorate without involving to large a sacrifice of Revenue to Government, is a subject well worthy of every consideration.—

6 You are doubtless aware that many "Cowles" of waste and other lands for garden purposes on very favorable terms were granted to individuals by the former Government and in some cases on the expiration of the Maffee "and "Islamy" terms, the trees were assessable at low money rates.— The additional advantage therefore, held out in the plan recommended by Mr. Collector Saunders &c and his 1st Assistant, seem to be the inducement that is offered to individuals to take up such leases as are described by them, as the speculators fears that the altered condition of the lands, and change in the produce, might subject them hereafter either on the expiration of the leases, or on a general survey to an assessment at the high Baghayet rates of the country, to which fears in many cases, is I

submit

submit, to be attributed their want of spirit for such undertakings and not, as is commonly asserted, their want of energy and abstinacy I will be thereby seen at reach, and that temptation to impose on the Kindness and liberality of Government, will not be held out as have been found to have &c been practised in some cases of Cowls granted according to the old system by the holders thereof having upon principle become more and more neglectful of their plantations, as the period for assessing &c such as the rates specified in the lease draws near, for the present plan will I trust tend to remedy this evil, as the benefits arising from the undertaking will survive the leases and the owners of the lands will have no reason to relax their exertions for fear of an increased assessment.—

The Baghayet rates are &c much higher in this Collectorate than the Peroyet, without at the present day

Corresponding

corresponding profits resulting to the "Ryots" from the former Kind of Cultivation, and to this may often be attributed the pack of one half of a "Ryots" estate being sometimes found in a flourishing condition, while the other half is in a neglected state, for it may be, that the granting of such favourable leases for new garden lands may operate as a temptation to cultivators to neglect and entirely desert in some cases their old ones, but this would I think only prove the severity of the present Baghayet rates combined with deterioration in the productiveness of the land, and a falling off in the advantages and profits formerly attending the cultivation, and can hardly be urged as an objection to the introduction of the measure, for it is far better, in my humble opinion, that old and worn out plantations should be deserted with the prospect and probability of new ones being formed, than that the owners of the farmers should be compelled ere long by necessity to throw them up and seek a livelihood elsewhere and by other means.

8 For the reasons above stated I am inclined to express my hopes that if Cowles for waste and Jeroyet lands on the terms proposed by Mr. Townsend with

with the period of exemption from assessment in each case regulated on a consideration of all the circumstances connected with it, by which I would wish to be understood to mean the probable expense of the undertaking the ability of the individuals to meet it, and the local and natural advantages for irrigation &c. belonging to each spot selected for these purposes, which exemption I am led to consider, seldom need exceed 15, but certainly ought not except in those cases in which enterprizing individuals well to do in the world, may undertake the plantation of teak trees, which would thrive in some places, I have no doubt, when in consequence of the profits likely to arise therefrom, though eventually certain, being so distant owing to the length of time that these trees take to arrive at maturity a much longer period may be found necessary (to be extended beyound 20 years, many ryots would readily accept them, and we should in a few years have every reason to rejoice in

the

calculated on the capabilities of the soil as has been or will soon be substituted every where for yearly estimates "by the crop" and where this fixed assessment prevails, the ryot is at liberty to cultivate what produce he pleases and to reap the benefit of whatever judgment or capital, he may bring to the improvement of his own fields. But to offer a premium for the extension of Bagayet cultivation would it seems to me, be to do something like reverting to the now exploded principal of assessing "Coolwar," and would be hardly fair to the holders of old Bagayet lands.—

4 These Bagayet lands are very extensive in the Surat Zillah, and are assessed at large rates and it is probable that the immediate effect of applying the principal advocated by the Collector of Belgaum would be that much Bagayet land would be thrown up, in order that dry lands might be worked on the smaller assessment. Government would thus lose revenue, and the country in most instances want of water as to require the cultivation

sacrifice.—

5 Neither is there any want of Trees in this part of the country, that Government should interfere to promote plantations of Tamarind Mangoes &c.a.— The cultivation of Teak Timber is another question and deserves to be considered separately.— I am not at present possessed of information enough to enable to offer any remarks worthy your attention, in regard to Teak Plantation, but I am prosecuting enquiries on the subject.—

No.

the prospects of Baghayet cultivation not only returning to, but even extending beyond its pristine state. —

9 In some cases when pursuasions for these Cowls, in consequence of their having been obliged to throw up their de Baghayet lands from inability to meet the Government demands, are in such depressed circumstances as not to admit of the requisite outlay of capital on their parts, Government might further extend its fostering and liberal hand and add to the inducement by making Succauce advances on the principles and conditions lately determined on. —

10 In conclusion I would &c &c humbly suggest that a clause in all such &c leases as I have above recommended be inserted, binding the lessees under penalty of their cowles being resumed, and their being further liable to make good the amount of Revenue given up since the grant to state in writing the probable period it will take to prepare the land, which they should not be permitted to exceed &c unless good and sufficient grounds be shewn

shewn, and when the ground is ready to plant annually a certain number of trees, otherwise after taking up the Cowls, they might by neglect or wilful fraud, defeat the liberal intentions of Government. —

Revenue

To John Vibart Esqre
Revenue Commissioner
Poona.

Sir,

I do myself the honor to reply to your Circular reference of 28th October last, No. 1399 on the question of leasing dry land for Garden Cultivation, proposed by the Collector of Belgaum. —

2. The circumstances and climate of the Surat Zillah differ considerably from those of the Belgaum Collectorate, &c where also the assessment has never, I believe been properly revised. and still continues to be very unequal. —

3. The Surat districts have long been comparatively settled and a fixed Bargote calculated

Fort St. George 4th May 1843.

No. 233 of 1840.

Territorial Department Revenue.

To William Simson Esqre.
Principal Collector of Surat.
Camp at Broach.

Sir,

I have the honor to acknowledge the receipt of your reference of the 6th Ultimo calling for my opinion relative to land after being brought into garden cultivation being allowed to continue to pay the assessment fixed for dry land. In the sub division the revision of assessment of all the land is being carried on, and when that is fixed, the cultivator will be allowed to reap all the advantages which he can gain by sinking wells, planting trees, or making other improvements in his holding without having to pay to Government a higher rate of land tax. It is difficult in the Sub Collectorate to distinguish minutely the Garden and dry land as there is much of the latter that pays, on account of the richness of the soil, a higher rate of assessment than the former and is what we should call Garden land, such is the land on the banks of the Nurbudda opposite Broach which yields

Fort St. George, 4th May 1843.

yields Plantains, Guavas, Limes, &c. without artificial irrigation; again the holders of rice lands in Hansote and Ankleswar take advantage of neighbouring tanks for the irrigation of their Crops in the Months of October, and although their lands pay a higher assessment on this account, they cannot be considered as Garden lands. On these accounts I do not consider that the application of the measure proposed by the Collector of Belgaum is at all required in the Sub Collectorate; either as regards dry and garden land, or giving a premium for planting Mangoes, Tamarinds, or other large trees, as advantage is always taken of rearing them where the soil is congenial to their growth. Teak Timber never having been grown in the Subdivision, and its introduction here not appearing a matter of importance, I do not enter upon any remarks regarding it.

To

John Vibart Esqre

Revenue Commissioner

Poona.

Sir,

I do myself the honor to acknowledge the receipt of your letter, No. 1399 dated 28th October last, requesting my sentiments on the question of leasing dry land for Garden purposes at the present rates of assessment, and in reply beg to state that Mango, Mowra, Raien, Tamarind, and Kurujee are the kinds of wild fruit trees most plentiful in this Zillah, consequently there is no necessity in my opinion for leasing dry land at the present assessment for the particular purpose of extending such plantations, but I consider it advantageous to let out land in the manner contemplated for Orchards or Malcoat Cultivation, as the Cultivator taking it at a light assessment, can improve the soil by personal labour, Manure, &c., and in the expectation of reaping further advantages, he may be induced to construct Wells. The sanction given

Fort St. George, 4th May 1843.

given for granting leases of 30 Years, as communicated in the 23rd Para of the reply to my Revenue report for 1838/39, will I think, meet all that Mr. Townsend requires, and will no doubt lead to the increase of the present Number of Wells in the Zillahs, and be a source of much public benefit.

No Teak, Jack or Sadur Trees are grown in this Zillah, but in such places where they can be cultivated, and in the Zillahs where such Trees, together with Mango, Mowra, Raien, Tamarind &c. are scarce, I consider the proposition for increasing them made by the Collector of Belgaum to be judicious, and may extend to the introduction or augmentation of such plantations.

To

John Vibart Esqre

Revenue Commissioner

Poona.

Sir,

I have the honor to acknowledge the

the receipt of your letter of the 28th October, No. 1399, transmitting Copy of a letter from Government, with transcripts of its enclosure, requesting me to report my sentiments on the question of leasing dry land for Garden purposes at the Soroyet rate of assessment, and in reply to state that in my opinion it is highly desirable, as regards the permanent improvement of the Country and the Revenues of Government, that no extra assessment should be levied on land rendered capable of irrigation by means of Wells construct-ed by private individuals. On the occa-sion of a new classification of the lands of a Village and a general revision of its assessment, all fields capable of irrigation would of course be reckoned as first sort, and would contribute in some degree to an increased rent. The advantages, however, to be derived from their increased value, at this considerable, is of minor importance to the general increase of Cultivation and improved resources; which an adoption of the plan proposed would create throughout the

the Country, particularly in the diminution of the wages of labour which at present are so excessive compared with other parts of India in this Collectorate, as entirely to pre-vent individuals employing their capital in speculations of a Novel Kind. That the excessive price of labour is caused by the present state of the land tax, I think admits of no doubt. The measure would also, if adopted, in my opinion, effectually prevent seasons of famine to which Goozerat is periodically liable by the encouragement it would hold out to extend irrigation, for one or two Wells would probably be dug in every field, and on a partial failure of the Monsoon, the Ryots would not only be able to save their Kurreef Crops, on which the people almost entirely depend for food, but greatly to ex-tend their Rubbee Cultivation at all times.

2nd. The immediate loss of revenue is the only point which requires consideration. By returns, it would no doubt, appear excessive, but it is impossible fairly to estimate the amount of any deficiency

Fort St. George 4th May 1843.

deficiency in this way, and I have no doubt were the experiment tried in any section of the Country, it would turn out not only to be trifling, but before 5 years had elapsed, a preceptible increase would take place in the revenue, and the condition of the people would be very generally improved - of course in revising an assessment for the purpose of introducing this plan care should be taken that all lands which have been capable of irrigation for a considerable period should be subjected to a dry land tax, with reference to their improved condition, and made to bear rather a higher assessment than land originally of equal quality, in the same Village.-

To.
Wm. Simson Esqre
Revenue Commissioner.

Sir,

I am directed to acknowledge the receipt of your letters, dated the 20th September last, No. 1337, and 11th Instant No. 1394, with Enclosures, on the subject of the proposition for holding out an inducement to the extension of Garden Cultivation, and to acquaint you that the Honorable

Honorable the Governor in Council is disposed to view favorably the plan of granting to individual Ryots leases for terms of 30 years, on condition that they shall, during that period, pay only the present or future Jeroyut rates, in order to encourage the construction of Wells and the conversion of dry into garden land.

2. This plan I am instructed to observe, has been virtually adopted in all the newly surveyed and assessed Talooks, and it need not be deferred in those in which the survey has not yet commenced, as the progress of the survey will be in no way affected by its introduction.

3. The Province of Goozerat does not appear to require this kind of encouragement, nor does the Konkun. The Governor in Council is therefore of opinion that the measure should be in the first instance, confined to the Collectorates of Poona, Solapoor, Nuggur and the Southern Mahratta Country, and desires that you will instruct the Collectors of the three first Zillahs to carry it into execution. Those of Belgaum and

Order thereon (Read again Inbent 11th may) — Ordered to be sent again in circulation.

15-16

To E. C. Lovell Esquire
Acting Secretary to the Board of Revenue
Fort St George

17/17

Sir,

From the Coll.r of Rajahmundry — Para 1

Submitting the necessary information called for in the Board's Proceedings of 15th and the Extract from the Minutes of Government of 10th Feb.y 1843 regarding the Rauley Estate.

No 1 and 2

In reply to the Proceedings of the Board of Revenue of 15th February last, and the Extract from the Minutes of Consultation of Government of 10th of the same Month, I now beg leave to submit two Statements showing the result of the Management of the Rauly Estate for the five Years from fusly 1247 (1837/38) to fusly 1251 (1841/42) inclusive prepared from information furnished by the Proprietor Co[n]cherlacotah Lutchmedavannah, and from Village and different Accounts within my reach—

2. The Permanent Settlement of the Rauly Estate, is Rupees 43767—8—0 and the gross receipts including Village Charges Tuccavy &c.a have been on an average Rupees 55431—1—0 for the five Years under review, whereas the Proprietor has only paid to Government bonâfide on account of this Estate the average sum of Rupees 38046—8—4. On the ground, therefore, of the badness of the past seasons as regards this Estate, or of her own conduct and character, I never could,

and

and never did consider this Individual entitled to consideration—

3 The grounds, on which, I have considered it my duty to submit this case to the favorable consideration of Government, are as follows— Cotcherlacotah Venkataroydoo, the Husband of the present Proprietor, was in fusly 1241 / 1831/32 / paying annually to Government the sum of Company's Rupees 2,79,215—13—5. All this property has now vanished either by private or public Sale except this single Estate of Rauly, which is a very good one, and one of the very few Estates, which have been able at all to bear up against the past calamities of the District— any one will, I think, admit, that it was natural, that, while such a fearful ruin was going on in a Family, the resources of the only Estate, which could pay it's own way, under existing circumstances, should be indented on to try to save some of the rest of the property, and to this must I think be fairly attributed it's present embarrassment— The present balance against the Rauly Estate, is Rupees 28,245—4—10, namely Rupees 14,860—1—7 on account of itself and Rupees 13,385—3—3 on account of the arrears not realized by the sale of the other Estates, and this balance, I beg leave

leave to recommend, should be received from Cotcherlacotah Lutchmedavamah by five yearly Instalments of Rupees 3,649. as stated in my letter of 28th December 1842— Besides Cotcherlacotah Lutchmedavamah, there is an unfortunate Insane Brother of her deceased Husband, who is dependent on her for a maintenance through this Estate, ten Villages of which, were originally truly his, though no Subdivision or public registry ever took place—

Zillah Rajahmundry,
Coll.r's Circuit Cutcherry,
Amlapoor,
21st April 1843—

From A. Meller Esqre
Coll.r of Bellary

Sir

In auditing the accounts of this Collectorate for Fusly 1251 the Civil Auditor has remarked that the charge noted in the margin cannot be admitted without the special sanction of Government. Regarding the particulars connected with this Pension I beg to refer the Board to my letter bearing date the 13th July 1841 and as it is unnecessary for me to recapitulate the circumstances under which payment of the Pension has been made to Bangummah I have only to request that the Board will be pleased to obtain for me the Special Sanction of Government for Company's Rupees 2155-12-6 being the amount entered by the Civil Auditor retrospectively for two Fusles 1250 and 1251 A.D. 1840-41

x Compensation in lieu of resumed Land Allowances and Privileges Paid to Bangummah the widow of the late Poligar of Ruidroog for Fusly 1250 and 1251 Rupees 2155-12-6

Pars 1

Requesting instructions on certain points relative to the arrangements connected with the appointment of the Mahunt to the charge of the Temple at Tripatty -

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 24th Ultimo, forwarding Extract from the Minutes of Consultation dated 21st April 1843 by which I am required to carry out all arrangements connected with the appointment of the Mahunt to the charge of the Temple at Tripatty with as little delay as practicable

2 As no arrangements have as yet been made I am under the necessity of requesting instructions on the following points

Is the Mahunt to possess authority to appoint and dismiss the Officers of the Temple and to punish them by fines and raise or reduce their Salaries at pleasure?

Is the Mahunt to be required to render an account to any one of the receipts and disbursements of the Temple?

Is the Mahunt to be bound down to apply to any particular purposes the Offerings made to the Temple?

Are

6856. Fort St. George 4th May 1843.

Are the net receipts of the Current-
-purly from the offerings made to the Temple which
have been carried to account to be paid back again
as proposed by Mr. Goldingham in Para 7 of his
letter to the Board dated 17th December 1842

In case of the death of the Mahunt-
what provision is to be made for his succesor

3 With reference to the last of the
above queries it appears to me essential that either
a Provisional succesor be appointed or that some
officer of the Temple should be invested with authority
to take immediate charge of the Treasury in case
of the Mahunts death - To leave the Temple
for a single day without a strong controlling authority
would expose the Treasury to be plundered. The
secluded situation of the Temple among Jungles
and Hills exposes the Treasury to great danger from
professional Gang Robbers as well as from the servants
of the Temple itself - If the offerings continue to be
made to the Temple as at present and the disburse-
-ment remain the same there will soon be an enormous
accumulation of wealth there, and the protection of it
from plunder will every year become more difficult -

North Arcot -

25. 26
26

To the Acting Collector of
North Arcot.

Sir,

To the A.g Coll.r of North Arcot

I am directed by the Board
of Revenue to acknowledge the receipt of
your letter of the 1st Instant, requesting in-
-structions on certain points connected with
the recent appointment of the Mahunt to the
charge of the Tripatty Pagoda.

In answer I have to communi-
-cate to you the following replies to your seve-
-ral queries -

1. The management of the Temple
having been confided to the sole charge of
the Mahunt he will exercise the fullest
control over the whole Pagoda establishment.

2. He is to keep an account of all
receipts and disbursements which is to be open for
public inspection when required -

3. He is to apply the receipts on
behalf of the Temple to the celebration of the
usual ceremonies and festivals and in accord-
-ance with the Sunnads which have hitherto
been in force -

4 - The net receipts from the offerings
made to the Pagoda from the commencement
of

of the present Fusly are as proposed by Mr. Goldingham to be repaid to the Mahunt to meet the expences for the current year.

5. From Para 1 of Mr. Goldingham's letter of the 13th February last it appears that in cons 23d Feby 1843. the nomination of his successor is usually made by the Mahunt, and that in the event of his death without such selection the appointment rests with the Members of the Muttum generally. The Board quite concur with you as to the ill effects to be apprehended should the sudden death of the Mahunt leave the Pagoda without some recognized controlling authority, and are of opinion that this would be most effectually obviated were the Mahunt to exercise his privilege of nomination at his early convenience when in the event of his death his nominee will at once succeed to the charge of the Treasury and Management of all matters connected with the institution. The Board request that you will communicate with the Mahunt on this subject and report his answer.

Revenue Board Office. Fort St. George, 4th May 1843. } Signed / C. C. Lovell Acting Secretary.

Proceedings Relative to

Read again the Report of the Collector of South Arcot on the settlement of that District for 1251 Fusly 1841/42 A.D. thereon, Para 1.

The season seems to have been

to the settlement of the Land Revenue of the District of South Arcot for Fusly 1251 A.D. 1841/42.

less favorable than in the neighbouring district of North Arcot commencing auspiciously but ending in disappointment. The irregularity of the monsoon had the effect of diminishing the dry produce and of preventing the extension of the wet cultivation to its usual amount.

Para 4 & 7.

The price of Grain was even lower than in the preceding year notwithstanding the indifferent return of produce. But upon the whole the Season cannot be considered as one of Calamity and may be considered as below the average of indifferent years. The resources of the Ryots were further impaired by the failure of the Indigo market, the demand for which has hitherto been of essential use in assisting the ryots to pay their Kists.

These circumstances led the

2.

Board to expect a considerable decrease of Revenue but they were not prepared for so large a defalcation as the subjoined Statement shows to have taken place being 2,25,302-15-3 below the settlement of the previous Fusly.

Fusly

1801.

Fort St. George, 4th May, 1843.

Para 10.

Mr. Hallett has adduced as another cause for this result, viz. "that the attention of many was diverted from their usual avocations to the orders and changes which resulted from the disturbance in May 1841." The proclamation of the Commissioner under date 10th June 1841, provided that all lands made over to applicants during the preceding 3 years without the consent of their last occupants, should be restored on the requisition of the latter to that effect. Mr. Hallett in a separate communication has stated that he proposed a limit to the preference of such claims by prescribing that none should be received after the 15th October. He adds, that he induced parties to compromise whenever it was possible, encouraging the conclusion of such arrangements in the Villages where the parties resided, and confirming the agreements without scrutinizing their merits; that he insisted on those who took back land agreeing to cultivate or to pay the assessment, together with several other stipulations detailed at length in his notices of which translations accompany the Settlement report. These views were subsequently found to be in accordance with the views of Government, and the result

From Collr. 9th January in Cons. 23. Do. 1843.

See Enclosures marked K. L. M.

Extract Minutes Cons. 4th April 1843. No. Date

is

is given as follows in a subsequent para of the same letter "Afterwards, during the settlement many who had signed to cultivate or pay when taking back land from Burkastdars petitioned for remission, as such lands were waste. I gave the option to all so situated of paying and keeping the land, or of being excused and returning it to the Burkastdars. In almost every instance they chose the latter alternative and thus many lands again reverted by free consent to parties desirous of cultivating, instead of continuing in an unprofitable condition."

4. The Board cannot leave this part of the subject without recording their sense of the tact and firmness displayed by Mr. Hallett in composing these differences and their belief that but for the sound discretion exercised by him on this occasion, the loss of revenue would have been still greater.

Paras 14. 5. A further special reason for the decrease of Revenue is found by Mr. Hallett in the factious spirit evinced by the ryots of the 2 Southern Talooks, who though enjoying superior advantages from the recent improvements in the irrigation of the Coleroon, wantonly neglect to avail themselves of them in the hope of

obtaining more favorable terms of assessment. But as this subject will come under consideration on a separate communication connected with the survey of Manargoody and Chellumbrum it is unnecessary to pursue it at present.

6. The Board proceed to notice the details of the settlement. The Decrease of Dry cultivation amounting to 55793 is general, being

Paras 9-10. compensated by an increase in one Talook only of 7044 Rupees for which no particular reason is assigned. One item of 2,328 Rupees was

Para 11. occasioned by the reintroduction of the plan by which the assessment in part of the Sarvapooram Jageer is fixed on the implements employed in cultivation on which Mr. Hallett had furnished a separate report. In the marginal Statement to para 9, the Decrease in the district generally is distinguished from that in the resumed Jageer alone. The result is that while the former is only 4 percent the latter rises to 16 percent. No separate entries on account of the Jageer however occur in the accounts and the Board are consequently precluded from attempting to ascertain the cause of so remarkable a discrepancy but probably this result may have in some degree been occasioned

From Collr 29th Novr 1842. 22d Decr 1842.

by

Para 10. by the unfavorable rents stated to have been obtained for some Villages in the Saveraporam District. Hereafter it would be convenient in noting distinct heads of this description to supply separate figured Statements in elucidation of them which will suffice if given in the Native language.

Para 12. The Nuncah Decrease amounted to 190850 which the Collector classes under four heads according as the lands are irrigated from the three principal rivers, the Coleroon Pennar and Guddalum or from minor streams and Tanks but which distinctions are not traceable in the accounts.

Chiefly in Manargoody	53062
Chellumbrum	23414
Trivady	17091
Villaporam	28803

Supra Para 5. Para 14 16-16-P. 8. Mr. Hallett's observations on the cultivation dependent on the Coleroon have already been adverted to. The relinquishment of that under the other two rivers he seems to consider to be owing to over assessment. But this in the absence of proof the Board are slow to admit. It is true the land so left is the highest assessed, the average of which considerably exceeds the general average (see Statement A Col. 18) but it may be that these being assessed with a two Crop Soil according to the principles of Mr. Ravenshaw's survey the indifferent prospects

* See Marginal

	Talla Para 15 — Cs	Rs	average per Cawny
Villaporam	1879	14,07,300	11-7-4
Trivady	909	12302	13-7-10
Trenellore	710	9388	11-11-5
Ellavana Soor	384	5351	11-11-3

prospects of the season and the little chance of obtaining the second crop withheld the ryots from carrying out their Cultivation.

In noting the Decrease of Total cultivation Rupees 7552, Mr. Hallett states that he adheres to the opinions already given by him in favor of taxing the produce not the land, but with reference to the discussion on the subject now pending, the Board will reserve the expression of their sentiments for the present.

Proceedings February 6th 1843. Dt. April 6th.

Para 22. Besides the amount of waste 10. remitted the demand was enforced in a small number of cases in which parties maintained possession of land under the Darkast System, they could not beneficially employ, but only to the extent of one half the assessment. The Board would not have objected to the levy of the whole in such cases. It is obvious that both for the protection of the revenue and in justice to individuals, the wanton retention of waste land merely for the sake of excluding others should be steadily discouraged, and wherever a party cannot plead the circumstances of the season or the usage of the District with reference to fallows to the Collector's satisfaction, no indulgence should be shewn. In cases of waste taken on Cowle the

the provisions of the Cowlnamah should be strictly observed. but it would appear that

Statement H Col. 117 @ 120 half permission had been allowed to a small extent on some Cowle Land left waste in Trevallore - This is irregular -

Para 24 11 In this para are noticed a few items of "Extraordinary remissions" - The first of these occasioned by the ravages of the Elephants comes properly under the regular head of Remissions - The trifling amount of the second and careful inquiry made by the Collector before admitting it are sufficient to induce the Board to concur in its propriety - tho' it is contrary to the usual

Para 25 practice of the District - But the third which was on account of withered produce should have been regulated strictly by the standing orders on the subject - These Rules were formally communicated by Government with reference to the remissions granted in South Arcot in the settlement of

From Govt 4th March in Cons 10th Dec 1825 - 1233 Fusly. and were afterwards repeated in a Circular to all Collectors. - In the Sub Division more

+ 18th June 1831 - attention seems to have been given to the regular

From Sub Coll Para 15 - practice which should be carefully observed on all future occasions. -

12 The Collections within the Fusbie amounted to 1,87,388 and subsequently to 375,899 leaving a balance of 33,343 which has since been reduced to 21,410 at the date of the last Demand Collection and Balance Statement which forwarded

This

This result is very creditable

Para 27 @ 30 - 13 to Mr. Hallett's management and the Board

Para 32 - notice with much satisfaction the sound views by which he stated his proceedings to have been guided in recovering the revenue. The tendency of the concessions made by the French Government no doubt was of a nature to increase his difficulties But the Board fully concur with him in the opinion that extraordinary indulgence was inexpedient and unnecessary - The amount of that given in Tanjore seems to have been misconceived by Mr. Hallett - It merely extended to a discretionary power left with the Collector to press the collections at an early or a later period in compliance with his own request and responsibility for the ultimate realization of the whole remaining untouched. No apology therefore for the omission of a similar recommendation is required -

P. 31 - 14 - The Board are glad to observe the terms of commendation in which the services of the Sub Collector Mr. Murray and the Head Assistant Mr. Cunliffe are acknowledged by the Collector, and have much satisfaction in bringing the same to the notice of Government together with their own opinion of the industry discretion and sound views exhibited by Mr. Hallett in administering the affairs of the District under circumstances

State of George the Third 1843

Abstract

| 1842 | | |

Resolution thereon Before submitting the above for sanction the Board wish to be informed why the charge for the Month of April 1841 was not included in the accounts of the Months of May June and July of the same year forwarded to the Board 26th April 1842 The attention of the Collector is also called to Mr. Ogilvie's letter 7th May 1841.

(30. 31)

To E. C. Lovell Esqre
acting Secretary to the Board of Revenue
Fort St. George.

(32)

From E. B. Thomas Esqre Collr. of Tinnevelly

Sir,

In reporting on Petition No. 1734 of 1842 forwarded with your letter of 30th ultimo, I have the honor to state that the circumstances of this Petition having been already brought to the notice of the Board in detail in the correspondence noted in the Margin, it is only necessary to state that the Petitioners (who are the descendants of the founder of the Mosque) having been constantly disputing for the management of the Institution and the funds allotted for it without making a selection among themselves of one qualified for the undertaking, an arrangement was proposed by Mr. Eden in his letter to the Board dated 19th February 1836, and sanctioned by the Board in their Proceedings dated 7th March 1836. the affairs connected with the Mosque and its funds were therefore conducted

+returned

To the Board 15th January 1838
Board's Ro. 2nd Feby.
To the Board 19th Dec. 1842
Board's Ro. 7th March

under Circar Management till August 1842, but when the general withdrawal of the interference of the Public Officers with the Religious native Institutions and their revenues was carried into effect, the relinquishment of the Management also of the Mosque became necessary: it was then deemed best to entrust the management to Syed Fakaroodeen one of the descendants of the Original founder, whose name is entered in the Register, and under whose superintendence the Mosque was, when it came under attachment. Under these circumstances any claim that the Petitioners may have against the present Superintendent should be preferred in the Civil Court, to which I beg to recommend that they may be referred.

Tinnevelly
Trichendoor
on Circuit, 27th April 1843.

From the Secy to the Board of Revt D. P. W.

Transferring to this Department certain Letters regarding the transfer of the Village of Cravendoor from the Collectorate of Tinchinopoly to that of Salem.

39

Fort St. George 4th May 1843.

Extract from the Proceedings of the Board of Revenue in the Department of Public Works under date the 27th April 1843.

Read again the following letters.

No. 1.

To Captain T. Best

Secretary to the

Board of Revenue

&c &c &c

Fort St. George.

Sir,

With reference to the Boards instructions on the subject I have the honor to inform you that the Collector of Tinchinopoly, the Sub Collector of this District and Captains Langford and Bell met at Moghanoor on the 13th Instant, and inspected the localities connected with the dispute between that Village and Cravendoor. I beg to enclose the Sub Collectors report, and I have also received a letter from the Collector of Tinchinopoly stating his opinion on the Subject, but that I must be already before the Board.

16th March.

2. The Board are now in possession of every particular and I can see nothing to add to the information detailed to them, but as the inhabitants of Moghanoor appear still to evince the reluctance they have always done to any amicable arrangement, it remains now to settle the matter upon

upon the principle as to how far the Sircar has a right to regulate & interfere with the sources of irrigation independant of Manorial rights when these, as in the present instance are obviously opposed to the interests of the Government and the community.—

3.— It appears conceded that Moghanoor Village has always had a right to a direct supply from the Rayah Vankal and the Village of Cravandoor to the surplus and drainage, and surely so long as the former has always a sufficient supply for all their purposes of irrigation, I cannot see how they can be allowed to throw any obstacles in the way of widening the main channel by which they will have a greater supply themselves and the Village of Cravandoor be materially benefitted & and I cannot enter into Mr Grieg's view of the case that the inhabitants of Moghanoor would be justified in resisting such a measure as an encroachment on their rights, for indeed with all respect to Manorial wages, the Government surely would never allow the Inhabitants of one Village as also the public revenues to be dependent on the bounty of another, especially when the proposed extended supply of water would tend to their mutual advantage.—

I see

see no plausible objection to the —
4.— Moghanoor people can advance (excepting that as having) changed the nature of their cultivation partly from rice Crop. to Plantains, they would not be able to regulate their supply so as to suit the latter crop but that could easily be regulated by the local authorities, if both Villages are put under the same Revenue and Magisterial jurisdiction.—

I therefore perfectly concur in
5.— the view of the case taken by the Collector of Trichinopoly that both Villages should be placed under the same Superintendence and that accordingly the Village of Cravandoor should be transferred to the Collectorate.— I am not prepared to make any objection at present to the Mootah of Calastoor being at the same time transferred to Trichinopoly but shall address the Board again when I am in possession of better information on that point.—

6.— The Engineers have I presume submitted no further report on this occasion having nothing to add to their former one of September 1842.— Captain Bell has requested to have the sources of the Channel stopped at the most suitable time to enable him thoroughly to examine the Capabilities of its being enlarged

and

and I fully expect that by adopting the arrangement proposed in their joint report that this dispute will be put a stop to.—

I must add in explanation for my not having attended the conference myself that when I first joined the District the Board's orders had been received for some time, and I was quite unacquainted with the subject I considered Mr. Brett more competent to enter into it and requested him to communicate with Mr. Onslow afterwards when I received that Gentleman's letter fixing the day the 13th I found it quite incompatable with my other more important duties to go to such a distance being engaged in the Settlement of the Summad accounts. I could not leave my Cutcherry without material inconvenience to the people assembled for that purpose, and which I did not conceive the importance of the case would justify.—

Salem Zillah—
Parampoory———
Prin.l Coll.r Cutcherry
25th March 1843.—

Signed W. E. Lockhart
A.g Prin.l Coll.r

A true No. 1.—
To W. E. Lockhart Esq.r
Acting Principal Coll.r Salem

Sir
Para 1.— With reference to your letter dated 8th Instant

Attinn transmitting copy of a letter from the Board of Revenue dated 12th January 1843. relative to the dispute between the Ryots of Mohanoor and Paramdoor and requesting me to meet the Collector of Trichinopoly on the subject: I have the honor to report my having met that Gentleman with Captains Crawford and Bell and that we had the two parties before us at Mohanoor on the 13th and 14th Instant.—

2. Nothing new has been elicited by the present enquiry. The parties were advised to arrange the matter amicably but the people of Mohanoor continued as reluctant as they were found before, to agree to any of the proposed measures. It remains therefore only for the higher Authorities to order whatever is thought the best plan to be adopted.—

3rd Para of Board's letter

3. No doubt the Village of Mohanoor would suffer loss were either the plan proposed by Captain Cotton, or that since proposed by the present Engineers to be carried out to their full extent, as they both involve a direct supply to be given from the Rajah Vaikal as compensation for the present loss in the drainage but as it is equally true that a loss to a certain

certain extent is caused to the Village of Cavemdoor by the present system of cultivation, it is only a questionable how far the Revenue Authorities are justified in interfering, and to what measure there are the least objections.-

4.- In respect to the last point I must state that as yet I have seen no evidence to satisfy me that the renewal of the Channel cases proposed by Captains Lawford and Bell without granting a direct supply but merely for the purpose pointed out in my letter dated the 6th October last with building Sluices where they are wanting, is not likely to restore to Cavemdoor as much water as they have ever enjoyed hitherto. I believe also that the Collr. of Trichinopoly is willing to try what benefit may result from these measures without insisting on a right to a direct supply; and the people of Mohanoor will not I think offer any serious opposition to the Channel being dug if it be only to save water that is now wasted. Indeed it is evident that no persons can reasonably oppose the arrangement, excepting the few to whom the land belongs in which the channel is to be made.-

5.- If on the other hand one or other of the two plans proposed by the Engineers

Engineers is to be followed, the remedy to be applied will be a violation of the original agreement, which conferred on the Village of Cavemdoor only the drainage of the Mahanoor fields excepting a small direct but limited supply from the small Channels as explained in Para 5 of my letter dated 22nd April 1842 and must be carried into effect on the principle that the Government have an absolute power independent of existing rights over the sources of irrigation. In the other arrangements there do not appear the same objections as the channel had a previous existence, and such being the case the executive Officer should not hesitate to enforce if necessary, what is obviously just.-

6.- Little impression would be made on the Village of Mohanoor by attaching the Nearly land against Cavemdoor, or by the Collector of Trichinopoly withholding the ready money on payment.- The land is not enjoyed as I have said the Money is paid into the public Treasury, were the land to be resumed, it would be thrown out of Cultivation as it can only be irrigated by the Rajah's Vaikal

7.- With reference to Para 4 of the Board's

x dated 12th January 1843.

Board's letter. I beg to explain that part of the Rajah Vorkul does pass through the land of Oroorundoor. but the people of Oroorundoor do not assert a right to water on this ground. it is probable that the Channel did not reach so far formerly and was continued by consent of the Village of Oroorundoor after the agreement to which alluded to was made between the parties or between the two Governments then existing for the surplus Water.

3d. If it be determined to place the two Villages under one Collector as there are three Villages above Mohonoor supplied by the Rajah Vorkul it would seem advisable to annex Oroorundoor to the Salem District.

Salem District,
Paramuttay Talook,

To

No. 2.

To Captain S. Best
Secretary to the Bd. of Revr.
in the Department of Public Works
Fort St. George.

Sir

In obedience to the instructions contained in the Board's communication of the 12th January last, I informed Mr. Lockhart the Acting Principal Collr. of Salem that with reference to a communication from himself I was ready to meet him at Mogonoor in Salem on the 14th of the same Month. and altho' Mr. Lockhart replied that he could not positively promise to be present but that he would be if possible, as the Acting Civil Engineers of both divisions. Captains Lawford and Bell. had with some difficulty made arrangements to go to Mogonoor I thought it proper to proceed thither - for it might not have been practicable at another time to have secured the presence of the Engineers - and the present was the most eligible time for inspecting the lands in question - accordingly in conformity with the Captains Lawford and Bell and Mr. Brett the

the Acting Sub Collector. I inspected the localities on the 13th and 14th of last Month.

2. Without attempting to detail every minute item of dispute between the two Villages it seems sufficient to observe that the chief cause of complaint on the part of the Coramandoor people is that they are deprived of a great portion of the supply of water which they have been accustomed to receive from the surplus of the Moghanoor Main Channel in consequence of the greater expenditure on Moghanoor occasioned by recent increase in the cultivation of the Plantain and they pray that certain Channels by which water was formerly conveyed to their fields but which are now blocked up in order that the water may be diverted to the new Plantain Gardens may be restored so that they may carry on their cultivation to the extent to which they have been accustomed.

3. Our Examination fully corroborated the allegations of the Coramandoor ryots that some of their Channels were blocked up and it is quite clear that owing to the recent formation of Plantain Gardens more

water is expended in Moghanoor than was formerly. This description of Cultivation does not perhaps require so great a flow of water as paddy - but the actual expenditure is greater for the system demands that the water should be introduced into deep trenches in which it is allowed to remain so as thoroughly to soak and saturate the soil, no part whatever escaping good husbandry therefore points out the expediency of placing plantain gardens at the lowest possible level - so as to receive all the surplus water from the lands above and this arrangement has been observed in the case in question but this is not all. the plantains are not left to depend entirely on the surplus water from the other cultivation but great paine are taken to direct every drop of water that can be secured to the gardens and as any saving would go to benefit rival cultivators more water than is absolutely necessary is taken and owing to the low level of the gardens is irretrievable for other cultivation and returns useless to the river.

On the morning of the 14th inst. I inspected the lands of Coramandoor which were

were said to have suffered from want of water-
Ocular demonstration put to the truth of the alle-
-gation beyond doubt and we received a remark-
-able confirmation of the correctness of Major
Cottons positive assertion, which Mr Gley
seems to call in question, to the circumstance,
of the Moghoonoor people letting a supply of
water into the Coravundoor Channel and so endeav-
-ouring to deceive us into the belief that the
reason of the lands of the latter remaining
unwatered was owing to the neglect of the
proprietors. They had forgotten however that a
Captain Lawford and I had crossed the Chan-
-nel the day before when it was quite dry and
they had not calculated on our being abroad so
early for the water had only just time to reach
the crossing place when we arrived at it. The same
trick was attempted with Major Cotton and was
detected and it seems worthy of mention as an
indication of the manner in which the Moghoonoor
ryots are in the habit of attempting to benefit
themselves at the expence of their neighbours

5. The accompanying Statements
the correct preparation of which has delayed
my

my report thus long is intended to shew the state of
the cultivation of the province and of the Revenue of
Coravundoor for some years and it will be seen that
the Moghoonoor are not without cause of complaint
tho' not perhaps to the extent which the Board
may have been led to think. The circumstances how-
-ever I have detailed appear to me to be quite
sufficient to shew that independently of what
they have suffered something must be
done to protect them for the future.

6. There are two obvious reme-
-dies one to increase the supply of water to
Coravundoor by a direct cut from the Mogho-
-noor Channel as proposed by Major Cotton
and which can be done without encroaching on
the lands of Moghoonoor as the Board suppose.
the other by restoring the Channels complained
of as being blocked up. The former would meet
with most violent opposition on the part of the
Moghoonoor people and altho' I am persuaded
that if necessary it would be quite competent
to the Government to do so. there is no occasion
to insist on the measure for the restoration of the
blocked

blocked up Channels will answer the first purpose and the Moghanoor people have not the face to oppose it and those of Coravundoor express themselves satisfied with the arrangement.-

7. The latter then is the measure which should be adopted for the relief of Coravundoor and Captains Sanford and Bell are of opinion that when the main Channel is cleared out and its head put in proper order regarding which Captains Bell will take the necessary steps there will be abundance of water for all parties.-

8. I am persuaded however that what-ever measures may be adopted none will be effectual for the prevention of disputes so long as the Villages remain under separate authority for the facility with which water can be diverted to the Moghanoor Plantain Gardens by means of petty Channels thro' the Banks is so great that nothing but the most vigilant superintendence which cannot well be effected under present circumstances will hinder the Moghanoor Ryots from taking undue advantage of their superior situation (and notwithstanding the appearance

H.C.B.

appearance of fairness they have now assumed I am convinced that they mean to endeavour to establish the principle that no more water than they cannot use is to be allowed to go to Coravundoor- where- as it is quite clear to me that the latter Village is entitled to as much as will suffice to irrigate their Mamool extent of cultivation.-

9. Under these circumstances I beg to propose that both Villages be included in one District and as the Channel in which the misunderstanding originates has its rise in Salem and irrigates other than the Moghanoor lands in that District- and as the Coravundoor Meerasidars cannot be properly protected by the Collector of Trichinopoly without almost con-tinual correspondence with the Collector of Salem- It seems to me that it will be best to transfer Coravundoor to the Collectorate of Salem.-

10. An inspection of the Map will shew moreover that Coravundoor is separated from the rest of the Trichinopoly District by a large space included in that of Salem- and I am of opinion that that the Eastern boundary of Coravun-door should form the boundary of the two Districts and that the Villages between it and the Moottah of Lauttoopoottoor as well as that Moottah itself ought to be annexed to Trichinopoly- had this been the case formerly much of the trouble which took place in regard to the Totium chinna Veikal would, I am persuaded, have been avoided, and altho' there is no absolute necessity for this measure it occurs to me that it is as well to point it out for the Board's consideration.-

Resolved

Fort St. George 4th May 1843-

Resolved that the foregoing letters and previous correspondence on the subject be transferred to the Revenue Department of the Board where the question regarding the transfer of the Village of Oravundoor from the Collectorate of Trichinopoly to that of Salem will receive consideration and final disposal.-

From Coll.r Trichinopoly 28th November 1842
Board's Proceedings 19th — Do.

Fort St. George 4th May 1843

3

To
Captain J. Best
Secretary to the Board of Revenue
In the Department of Public Works
Fort St. George

Sir

Para 1 I have the honor to request that you will submit for the consideration and orders of the Board the accompanying copies of a correspondence which has passed between myself and Mr. Gleig the Principal Collector of Salem and of Extracts from the Diary of the Civil Engineers of the Division relative to the irrigation of the Village of Ooravandoor in the District of Trichinopoly.-

2 The Village in question derives its supply of water from the Surplus of a Channel which waters the Village of Moghanoor in Salem and a Sum of Rupees 24-8-- is paid annually from the Trichinopoly Treasury to that of Salem and an extent of Cawnies 12---- of land was formerly deducted from the Village of Oooravandoor and originally it appears granted as Enam to the Villages of Moghanoor but is now incorporated with the Circar lands of Salem for the previlege of using the Surplus Water.-

3 The people of Moghanoor in

in Salem have of late considerably extended the cultivation of plantains which at certain times require a very copious supply of water and from this and other causes the Ooravandoor people do not receive the usual quantity - the disputes which this state of things gives rise to, are endless and the Civil Engineers of the 5th and 6th Division have twice at my request examined the localities with a view to the adjustment of all differences.

It will be seen that both Major Cotton and Mr Shaw who first made an examination and Captain Bell and Captain Lawford who subsequently did so, all concur in opinion that something ought to be done to ameliorate the condition of Ooravandoor and the measures proposed by the last named Gentlemen seem to me to be without a valid objection.

5 The accompanying Memorandum of the cultivation of the Village will shew that it is suffering, but the falling off will be greater as the diminution of Revenue has not hitherto, I have every reason to believe, been proportionate to the decrease of produce - the people, as in Cutlay Mahanum, paying as long as they can.

6 The long period during which the people of Ooravandoor have had reason to complain renders me very anxious to apply a

a remedy as soon as possible - and I beg to submit the case in order that the Board if they approve of the proposals of Captains Lawford and Bell, may give such orders as they may think proper for the performance of the necessary works.-

7 The great detriment to property which has been occasioned in another part of the District - I allude to the Cultay Mahanum by the supply of water being cut off for the benefit of people in another District seems to render it incumbent on me to resist as far as lies in my power a repetition of similar Encroachments and I trust that the Board will not admit the principle that any one Village has a right to increase its cultivation at the expense of another the Village of Ooravandoor now that they are under one Government must surely be considered as having an equal right to their Mamool supply of water as those of Ooravandoor to their's and the annual payment for the privilege is made not by the Meerasdars of Ooravandoor but by the Government into its own Treasury. In short as it is quite clear that by custom the Ooravandoor people have a title to the use of a certain supply of water and that the

recent

recent increase of cultivation in Moghanoor has in a measure deprived them of their right they are entitled to such remedy as can be afforded them without injury to the former condition of Moghanoor and such a remedy seems provided in the proposals of Captains Lawford and Bell.-

Trichinopoly Collr Cutcherry, 28th November 1842.

No 1

To. The Principal Collector of Salem

Sir

Para 1. Adverting to the frequent disputes between the Villages of Mohanoor and Ooravandoor I have the honor again to bring to your notice the very serious inconvenience to which the latter are subjected and the consequent loss of Revenue to Government from the inhabitants of Mohanoor persisting in disallowing them the usual quantity of the surplus water. That their complaints on this score are well founded seems to have been made perfectly clear to the Civil Engineers of the 5th and 6th Divisions who inspected the localities in concert a few days ago.

2 It is my intention to address

address you again upon the subject when I shall have received Official notice of Major Cottons visit to Ooravandoor, in the mean time I have to request the favor of your issuing strict injunctions to the Tahsildars of Namcal to take care that the Surplus water is permitted to flow to Ooravandoor instead of being turned off to the river as appears now to be the case.-

3. The crops of Ooravandoor have already suffered very much and will of course suffer more unless you are good enough to grant the aid solicited immediately.-

Trichinopoly. Samayavaram, Collr Cutcherry, 2nd December 1841.

(Signed) A. J. Onslow
Collr

To. The Principal Collector of Salem

Sir

With reference to my letter of the 4th Instant I have the honor to send annexed a copy of an Extract from the Diary of Major Cotton Acting Civil Engineer of the 5th Division and I request to be favored with your opinion regarding that Officers proposals for securing a better supply of water for the Village of Ooravandoor.

I beg to state my opinion that

that the first measure will be sufficient for the object in view, but I shall be happy should you think it probable to take charge of the Village of Mohansor in accordance with Major Cotton's suggestions if no objections exist to the transfer on the part of the Board of Revenue.-

Trichinopoly, Perambalore Coll.ty Cutcherry 11th December 1841. } (Signed) A. P. Onslow Collector

To, The Collector of Trichinopoly

Sir,

Para 1 Referring to your letter of the 11th December last forwarding copy of an Extract from the Diary of Major Cotton and requesting my opinion regarding his proposal for securing a better supply of water for the Village of Ooravundoor.-

2 The first proposal he makes is to cut a new channel from the Rajah channel of the Mohanoor Village, to this proposal I know the Ryots will not consent, something similar was previously attempted by one of the Engineers and resisted in consequence of the loss which they would thereby have sustained. From the report of Mr Brett, to whom the enquiry into obtaining circumstances was entrusted, it would appear that the Villages in Ooravundoor are

are not complaining so much of a loss of privileges formerly enjoyed as making an attempt to obtain fresh and more valuable ones, and as the Village within this boundary yields a Bareej of nearly 7000 Rupees, it is necessary to be careful how the means of irrigation are diverted from so valuable a cultivation.-

3 The Complaint that water is allowed to run to waste unnecessarily does not appear to be substantiated, it would appear that from lands cultivated on the river banks, it cannot be brought back, and the question as to whether the people are to be restrained from cultivating any produce they may judge fit cannot be entertained, plantains are much cultivated in all the Villages possessing river channels and are a very profitable mode of occupying the land more particularly when the price of grain is so low as it has of late been.-

4 The second item of complaint, as entered in Mr Brett's report Viz.t, the stoppage of a channel to Ooravundoor, would seem to be equally without cause, as the Trichinopoly Ryots admit they had no right or authority for its possession.-

The

5

The enquiry into the third point complained of, leads to the same result. Mr Brett states that the cultivation of the spot of land could not divert the surplus channel.-

6.

As regards the fourth point complained of by the Coravandoor people- you will see from Mr Bretts statement, that the opposition of the Mohanoor Ryots is to a larger supply being taken than the neighbouring Village is entitled to. The land given for the use of Mohanoor channel was I have no doubt given for the cultivation of the ground stated in his report as se- parate from the Village. when it was given the two Villages belonged to two different Governments for the transfer was made before Trichinopoly or Salem either came into British profsession it is stated that the Mohanoor Ryots have never attempted to stop the supply, but to prevent the Trechinopoly Ryots from taking more than their share by which the supply of Shenkerapolliem might be lessened I am of opinion that the information of a pun- chayet for enquiry and Settlement, as re- commended by the Acting Sub Collector would

would answer all purposes, and do not see any necessity for interfering with the pre- sent established Boundaries of the districts. I forward for your inspection, Copies of the documents received from the Acting Sub Collector, and shall address the Engineer for the purpose of having a Survey and repair, where required of the river Channel- that being, I think, the point of most importance to a Settle- ment of the complaints.-

(Signed) J. D. Gleig
Pr Collector

Salem Zillah,
Office,
Pr Colr Cutcherry,
5th July 1843.-

To, The Principal Collector of
Salem.

Sir

In acknowledging your letter of the 5th Instant upon the subject of the dispute regarding the distribution of water in the Villages of Mohanoor and Coravandoor I beg to express my regret that I cannot concur in the view which you have taken of the case.-

Without entering into a dis- cussion of the grievances of the cultivators of Coravandoor as they seem to be understood by

Fort St George 4th May 1843

by Mr Brett I beg to observe that their real cause of complaint is that the supply of water received by them from the Rajah Voikal of Moghanoor which was formerly sufficient for them has of late years become exceedingly precarious. To ascertain the cause of this Major H Cotton the late acting Civil Engineer of this Division in Company with Lieutenant Shaw the late acting Civil Engineer of the 6th Division personally inspected the localities and gave it as his decided opinion, in which Mr Shaw concurred, that the people of Poravandoor, had good grounds for complaint in as much as their lands were "dry and the Crops perishing" and that their only two "Sources of Supply were in part closed" while the lands in the Salem District were all well supplied to the very extremety and a considerable body of surplus water falling unnecessarily into the Cavery from the Moghanoor fields. "There is therefore" Major Cotton continues to observe "no want of water if properly managed even in the present low state of the River for all the land of both Villages, but no measures are taken for checking the wasteful expenditure of the water above for the benefit of the lower lands."

I

Fort St George 4th May 1843

I submit therefore that it has been sufficiently established that the cultivators of Poravandoor have good grounds for complaint and that there is a wasteful expenditure of water by those of Moghanoor. The remedy proposed is to widen a channel in the limits of Poravandoor by means of which the Poravandoor people now receive a small supply. to build a sluice of Masonry at the head of it at A and to allow the principal portion of the supply from the Rajah Voikal to be conducted through it to Poravandoor instead of leaving that Village dependant as it now is upon a channel situated below the one which it is proposed to enlarge. A measure which by taking off the supply at a superior level prevents the same chance of waste as now exists without at the same time doing the slightest injury to the Moghanoor people for as shewn by Major Cotton, there is abundance of water to supply both Villages if it be carefully husbanded.

Under these circumstances I must confess my unwillingness to submit the case to the decision of a Panchayet yet to be composed in the manner suggested by you - for I feel persuaded that instead of

of

of any amicable arrangement being effected exorbitant demands would be made by one party and attempts to without rights by the other and that the hostility of both would be in all probability greatly augmented

I venture to express a hope therefore that on a reconsideration of the case you will not withhold your consent from a measure which while it will be unattended by mischief to the Moghanoor people seems to me to be urgently required in justice to those of Ooravundoor and I shall esteem it a favor if you will oblige me with an early reply to this communication.

Trichinopoly 27th July 1842.

(Signed) A. P. Onslow Coll.

To, The Principal Collector of Salem

Sir,

Para 1. The Collector of Trichinopoly having addressed you on the 4th and 11th December last on the subject of the disputes between the people of Moghanoor and Oooravandoor, his last letter being accompanied by a Copy of an Extract from the Diary of Major Cotton Civil Engineer of the 5th Division

I have the honor to inform you, that I took the earliest opportunity of going to Moganoor and investigating the case.-

On Examining Murdanoiken

2 Modelly the Head man of Ooravundoor, with the view of ascertaining all the questions in dispute between the two Villages he brought forward 4 distinct cases of grievance.-

The 1st is that water should be allowed to run into the river from the Plantain Gardens instead of its being made to flow into the Surplus channel.-

The 2d that a small channel running from the Rajah channel in the land near Senkerripolliam has been filled up.-

The 3d that a small of land formerly waste over which surplus waters flowed into the surplus channel, has been cultivated by sami Vencatacharry, and consequently the passage of the water obstructed.-

The 4th that 6 small channels issuing from the Rajah channel by which certain land of the Oravundoore Village is watered, were stopt last year, and the waters carried up to Senkerpolliem.-

3 In regard to the 1st point, this

this is not a new subject of dispute, and was fully reported on by the Namcul Tahsildar on the 19th September 1838. It appears that some of the land situated between the Surplus channel and the river has such a slope towards the latter, that in any kind of wet cultivation the water would run into it; but it is also admitted that a certain quantity of water is lost to the Village of Oravandoor thro' the cultivation of plantains which requires that the water should be allowed to be on the ground only for a short time and be made to run in channels of considerable depth and slope which in several lands terminate near and empty themselves into the river. I am yet however of opinion, that the people of Moganoor are entitled to carry on the kind of cultivation which yields them the greatest profit and this is the case with the plantain, when rice sells below a certain sum, not only in this Village but in all the Villages watered by the Cavery Channels the plantain is cultivated to a considerable extent.

On the 2nd point the Head

man of Oravandoor admits that a channel referred to was cut without authority, in 1836 he states it was filled up. there are no proceedings to shew by whose orders this was done, but it is clear that the people have no right to this channel. The 3rd point is an old matter on which the Namcal Tahsildar also fully reported in his roy[illegible] dated September 19th 1838. The Tahsildar states that a channel had been cut in the place described, when the plantain was cultivated in the adjacent piece of land, which was again united to it, when Sami Venkatacharry cultivated rice. On measuring the land, Sami Venkatacharry was found to have less than belonged to him according to the Pymash account, and the measurement of the neighbouring fields was correct. It is also to be observed that the cultivation of this spot of land could not divert the surplus water from the surplus channel.

The

5. The 4th matter of complaint requires more consideration than the other three, the land irrigated by the small channel running from the Rajah channel is separate from the rest of the lands of Oravandoor and the Oravandoor Village is entitled to as much water from the Rajah channel as is suffe-cient for the cultivation of this se-parate portion of the Village Ayacut, but it is the constant aim of the peo-ple of Oravandoor to obtain more water than is requisite for this pur-pose alone, as the surplus water from the fields can be carried off into the surplus channel by which the greater part of the Village of Oravandoor is irrigated and hence the chief cause of contention between the two Villages.-

The

5. The people of Oravandoor do not formally prefer a claim to any such excess and in my opinion they cannot be entitled to any water in addition to that which flows from the Moganoor fields into the surplus channel, and the water which they have always enjoyed from the Rajah Channel for the cultivation of the portion of land referred to above, for it is not to be supposed that consent would have been given when the agreement was first entered into which led to the Mercooly land referred to in the report of Major Cotton as being made over to the Village of Moganoor for the Oravandoor Village obtaining more water than the quantity not required by the Moganoor Village, unless the latter received an equivalent: such as was probably the mercooly land which is situated in the midst of the land watered by the small Chan-nels for the benefit of the water to the lands adjacent. Nor do I conceive that any public authority can appropriate at plea-sure any portion of the water to the use of one Village from a Channel irrigating and enjoyed by another excepting in the event of the Channel being enlarged and an increase

of

Fort St. George. 4th May. 1843

of water obtained at the public expence, for the reasons it seems that Major Cotton's proposal for a new Channel to be cut from the Rajah Channel in the Village of Moganoor to supply the deficiency of water in the Channel watering the Village of Oravundoor without the consent of the people of Moganoor cannot be effected, and to attempt it would be no more just to the people of Moganoor than the cutting of a Channel, which was proposed by an Engineer in 1838 between the river and the lands from which water runs into the river which was commenced but discontinued on the people of Moganoor objecting and the Tahsildar of Nannilam reporting that the Channel if it were cut would throw out of Cultivation land paying rupees 602 belonging to Moganoor.

7. The Moganoor people have never attempted altogether to stop the supply from the 2 Channels, but they oppose a larger quantity of water being taken than custom sanctions which would be detrimental to their land at Sembiavirpallium situated near the end of the Channel. To prevent further disputes in this matter I think it advisable that

Fort St. George. 4th May. 1843.

that a Punchayet composed of persons to be named by the two authorities on both sides of the boundary should be assembled to determine the quantity of water requisite and which it has been usual to allow for the irrigation of the land mentioned in the deposition of the Curnum of Oravundoor as being at present Cultivated by the water of the Rajah Channel, and to decide on the size of sluice and Chunnam sluices and the number of hours for which they should be opened for that purpose.

8. If this proposal is adopted and so an end put to the facility which at present exists of increasing or diminishing the supply of water, I see no more room for further dispute, a final decision being at the same time given in favor of the Moganoor people on the 1st point. Though disputes have prevailed for a long period a reference to the cultivation accounts of the Village of Oravundoor will shew, I believe that the amount of Cultivation has not diminished of late years while the way the settlement is made in the Oravundoor Village may have induced them to complain when there was no just cause. On going over the Village of Oravundoor I found

land

land near the spot watered by the 8 Channels newly prepared for wet Cultivation and questions from No. 10 to No. 23 in the Cummums deposition display much equivocation, for which he ought to be punished on my examining him in order to elicit this fact.

9 As a secondary means of affording the Village of Oraiyundoor as much water as possible it is of course proper to keep the Rajah Channel in good order, and instructions have been given to the Tahsildar to see that this is constantly attended to attention to this point is more particularly due to the people of Oraiyundoor, as the ready money payment of 24½ Rupees was originally made perhaps expressly for this purpose. care will also be taken to prevent any wanton waste of water from the lands lying nearest to the river from any ill will which the Moganoor people may entertain towards those of Oraiyundoor. but any thing of this description has not been complained of.

10. Copies of the depositions taken by Mr. Prendergast and myself, and copy also of the report of the Tahsildar of Namcul dated 19th September 1838 accompany this letter.

Moghanoor Surplus
or Oravundoor Irrigating Channels-

The Acting Civil Engineers of the 5th and 6th Divisions having in Company with the Sub Collector of Salem carefully examined the subject in dispute between the Ryots of the Salem Village of Mahanoor and those of the Trichinopoly Village of Oravundoor as well as the localities have agreed on the following report-

The Complaint of Oravundoor resolves itself into two heads-

1st That as certain of their lands are watered by Channels leading direct from the Mahanoor Rajah

6920. Fort St. George, 4th May, 1843.

Rajah Vaikal, the heads being within the limits of Mahanoor their supply of water is interfered with at the pleasure of the people of that Village and that it is consequently insufficient-

2 That as the surplus of the Mahanoor fields is the irrigating Channel of their lower and principal lands a considerable portion of this surplus is diverted by the Mahanoor Ryots for their own purposes from the proper Channel and lost in the Cavery-

On the other hand the Moghanoor Ryots rejoin on the first head of complaint that the opposite party are in the habit of secretly removing the dams at the heads of these small Channels and obtaining much more water than they have any title to-

The remedy therefore in this case is simple enough and will confirm as far as it is practicable the rights of both parties, restraining their injurious proceedings, namely to build small head sluices to all the Channels, the time of keeping open each being under a regulation. The bank of the Rajah Vaikal will also be thus preserved in better order-

As

At the second head we were particular in tracing the numerous Channels which conduct partly a direct supply and partly the surplus water of higher lands to the Collection of the Mahanoor fields on the South of the main surplus, and found as it had been stated that a considerable quantity of water was thus lost in the Cavery.-

It is impossible if the Cultivation is maintained, to recover the surplus for the benefit of Oraemndoor, because some of the land is naturally on too low a level and so much of the rest is cultivated as plantains which cannot be flooded like paddy but are fed by deep trenches in which the level of the water is greatly reduced.-

Besides this we traced one of these minor surplus Channels to its termination in the main surplus (or Oraemndoor irrigating Channels) and found that certain parts of it had been obstructed and that it consequently conducted very little water none of which was allowed to pass into the main surplus. It was also evident that the Channel was an old one and its former communication with the main surplus was very clearly traced.-

The Channel was also traced backwards and found to receive a large surplus all of which is cut off from Oraemndoor

Oraemndoor and ultimately to communicate with a direct branch of the Rajah Vaikal.-

In this state of things we are of opinion that the Oraemndoor ryots are entitled to a restoration of this Channel and to its enlargement to a such a breadth as will enable it to convey to the main surplus the same quantity of water that, according to what has been stated above, is now diverted for the lower fields and plantain ground of Mahanoor. Its direct communication with the Rajah Vaikal affords the means of making compensation for such water to Oraemndoor by a direct supply without cutting any new Channel and so destroying other land. It must certainly be widened in some parts but this may be done with very little damage to the Cultivation on either side.-

+ a mean breadth of 2 yards.-

If this is allowed, a permanent sluice should be constructed in the bank of Rajah Vaikal in lieu of the imperfect vent now in use for the branch above mentioned.-

This seems to be the only method of satisfying Oraemndoor without exciting the strongest opposition on the part of the Magahnoor ryots who would be extremely averse either to relinquish their profitable plantain

Plantain Cultivation or to allow a new Channel to be cut but it is not surely asking too much that while they are allowed to enjoy all the benefits of their superior situation and to Cultivate whatever produce may best suit them. they should make to Oravoondoor the simple compensation above stated.

At the same time we think that as an auxiliary measure the thorough clearing out of the Maghanoor Rajah Vaikal should be attended to in order to ensure a good supply from the river to all parties and to conciliate as much as possible the good will of the Mahanoor ryots to the general project.

It appears from the report of the Tahsildar that this has not been done for a considerable time and that much good may also be effected by constructing sluices in lieu of many cuts through which water is now lost.

The Acting Civil Engineer 5th Division will therefore inspect the Rajah Vaikal and prepare a general Estimate should the Principal Collector of Salem and the Collector of Trichinopoly approve the project.

Extract

Extract from the Official Diary of the Acting Civil Engineer of the 5th Division for part of the month of November 1841.

Trichinopoly District

30th Continued my examination of the Moganoor Rajah Vaikal in Salem District supplying the lands of Oravoondoor in the Trichinopoly District Moosery Talook.

In consequence of the continued and serious Complaints of the Meerasidars of Oravoondoor that their lands are deprived of water which they ought to receive from the Moganoor Channel owing to that Channel being in the Salem District, I accompanied the Civil Engineer of the 5th Division and made a full examination of the facts and grounds of their complaint. The following Sketch will shew the situation of the lands and Channels in question. The Moganoor Rajah Vaikal has its head in the Cavery about 10 Miles above Oravoondoor and after irrigating the lands belonging to the Moganoor Village of the Salem District terminates in a very small Channel near Oravoondoor and the surplus of some of the Moganoor lands forms also a Channel of supply for Oravoondoor. The lands of Oravoondoor are

are now dry and the Crops perishing and I find no water at all in the small branch which is the termination of the Rajah Vaikal and almost none flowing in the surplus Channel so that the only two sources of supply are in fact closed and on examining the Channels above I find that the lands in the Salem District are all well supplied to the very extremity and a considerable body of surplus water is falling unnecessarily into the Cauvery from the Moganoor fields. There is therefore no want of water if properly managed even in the present low state of the river for all the lands of both Villages, but no measures are taking for checking the wasteful expenditure of water above for the benefit of the lower lands.

The interest of the Circar as well as that of the Meerasidars of course requires that none of this waste should be permitted while any of the lands are in want of water, and moreover the Village of Oravundoor has surrendered a tract of 12 Cawnies of land (shewn as "Meercoly land" in the Sketch) for the express purpose of obtaining water from the Village above them and also a sum of 24½ Rupees is annually paid from the Treasury of the Trichinopoly Collectorate to that of Salem on the same account. It therefore follows that the Village of Oravundoor should be as much considered in the distribution of the water as the Village

of Moganoor but it is not so considered and in fact it does not appear likely that it will be so with any degree of certainty or security unless some written regulations are established for the two Villages placed under the same Collectorate. The transfer of the Meercoly land and the annual payment is an arrangement of very long standing and formerly obtained for Oravundoor a sufficient supply of water but it was allowed to fall off and in 1837 I am informed the Collector of Trichinopoly found it necessary to attach the produce of the Meercoly land and to stop the payment of the 24½ Rupees which for a time caused the interests of Oravundoor to be attended to, since which the land has been enjoyed by the Moganoor Village and the money paid to the Salem Treasury, but the return for it has been again withheld.

It is quite necessary that this subject should be immediately arranged. I can only propose for the consideration of the Collectors of Trichinopoly and Salem the following plans, one of which may be found to afford to the Village of Oravundoor the security it appears to have always had a claim to by actual purchase. 1st I would recommend that

Fort St. George 4th May 1843.

that the small Channel at A should be given as a Branch from the Rajah Voykal to the Oravundoor Village. It is so situated as to command the high land near its head as well as to supply the surplus Channel and by its means all the remaining lands of the Village. It should have a head sluice to regulate its supply and be under similar regulations with the branches which supply the Salem lands.

2nd If the 1st plan is not adopted I would recommend that the two Villages should be placed under the same Collectorate, in which case I doubt not that the water would be fairly distributed as there is no question of the supply of water being quite sufficient.

In case the first Plan should be adopted and I can see no possible objection to it I submit the following

Ordinary Estimate.

Head sluice in the South Bank of the Poganoor Rajah Voykal.

3X1X1 - 3 Foundation.

2½X⅝X1½ - 2 2/32 walls above.

5 11/32 Cubic yards of Brick in Ch. 2½ per C. yds 12 - 4

Plastering 4 sq. - - - - - - - - - 2 - -

Widening Channel from A to B

No. 4

Read the following letter—

From the Collector of Trichinopoly dated 28th November 1842.—

Submitting for order a correspondence with the Principal Collector of Salem and the Civil Engineers relative to a water dispute between the Villagers of Coravandoor in Trichinopoly & Moghanoor in Salem.—

H. E. No. 441.

The Board having perused the correspondence received with the foregoing letter, referring to a dispute concerning the supply of water to the Villages of Moghanoor in the Salem District and of Coravandoor in the Trichinopoly District are of opinion that the arrangements proposed by the Civil Engineers of the 5th and 6th Divisions, Mayor H. C. Cotton and Lieutenant Shaw. Captain Lawford and Captain Bell are calculated to provide as far as practicable for the just claims of both parties, and the acting Civil Engineer of the 6th Division will be directed to prepare Estimates for carrying into effect the arrangements proposed in the joint report of Captain Lawford & himself, dated the 22d September 1842.—

The Principal Collector of Salem will be informed of this decision and will be instructed to execute with as little

little delay as practicable the Estimates of the Engineer unless after having himself visited the locality and made inquiry personally into the circumstances he should obtain additional information, calculated in his opinion to induce the Board to alter the decision formed on perusal of the papers now laid before them—

Resolved that copy of the foregoing Proceedings be communicated to the Collector of Trichinopoly and Acting Civil Engineers of the 5th. and 6th. Divisions for their information and guidance, and that transcript of the same with the letter recorded above be forwarded to the Principal Collector of Salem with the following communication.—

W. E. No. 604 To the Pl. Collector of Salem dated 19th December 1842.—

No. 5.—

From J. D. Gleig Esqre.
Principal Collector of
Salem

To Captain Best
Secretary to the
Board of Revenue
in the Department of Public Works
Fort St. George

Sir,

1— I have the honor to acknowledge the receipt of your letter of the 19th Instant &c

conveying Extract from the proceedings of the Board dated 19th December 1842 I also enclose for the Boards information Copy of a letter dated 2d. December sent by me to the Collector of Trichinopoly, which does not appear to have been before the Board.—

2 The dispute regarding the water supply between the two Villages of Coravundoor in the Trichinopoly District and Mohanoor in the Salem District, has been of long standing as far back as 1832 the late Sub Collector Mr. Cathcart, enquired into it and reported, and since that time complaints have from time to time been made.—

3 The Village of Coravundoor in the Trichinopoly District never possessed the right of a direct supply of water from the Mohanoor channel before the Country came into British possession when the two Districts belonged to two different Native Governments the Money payment and land mentioned by Mr. Onslow was paid by the one Government to the other for the privilege of using for the Cultivation of Coravundoor not the water from the surplus of a Channel which waters the Village of Mohanoor this implying that Coravundoor has

has the right of a direct supply from the Channel but for the privilege of Cultivating from the water which escaped by drainage from the Mahanoor Nunjah Cultivation

4 In consequence of increased Cultivation in Mahanoor, Mr. Onslow says, that the Cara = =vundoor Village does not receive the usual quantety: Our reports in Salem are, that the increase of the Cultivation from this drainage water in Caravundoor is the cause of any de = =ficiency of supply - be that as it may, this is not a point requiring the interference of En = =gineers to settle it, the best mode would have been as offered to the Trichinopoly Collector, the assembly of a Punchayat. but the cause of the com = =plaints from Trichinopoly tends more to ac = =quire a new right that to establish an old one, and in consequence, the Engineer, Major Cotton, came and being unable to loose the knot, he cut it set = =ting every vested right aside - The Engineer of this Division, whom I requested to inspect the ground Major Cotton reported on, has also recommended the adoption of a plan at variance with the rights of either party, Viz.t the direct supply by a Sluice from the Maha = =nadi Channel to the Village of Caravundoor. This, by a copy of Urzee which herewith — — accompanies,

accompanies, the Mahanoor ryots will resist to the utmost of their power by every means within their reach, and if carried into effect it will be the means of making more permanent and intense the animosity which at present exists. I would also beg to submit, that it is not compe = =tent for the Board or even for the Government to make any decision on the case in question. The right to the channel in question was vested in the Village of Mahanoor before the right to the Country was vested in the English Government, who have made laws by which the settlement of such disputes are to be regulated the — — British Government have given the Mahanoor ryots no new source of supply of which they might claim the disposal why then are these people to be deprived of the protection of laws they are bound to obey. —

5 I cannot coincide in the opinion of the Collector of Trichinopoly that the measures proposed by Captains Bell and Lawford are without a valid objection - The grant of a direct communication in the Mahanoor Channel to Caravundoor would take the power from the Mahanoor ryots to

to regulate their supply, it would be a source of constant contention and it would jeopardize a revenue of Rupees 6,000 for what was not a fifth part of its value. I do however most perfectly agree with him that the Villages under our Government have an equal right to their manool supply. I trust the Board will call for a Statement of Cultivation from the Collector of Trichinopoly from the source in dispute for Ten or Fifteen years after the assumption of his District compared with that of the last Ten or Fifteen years, to satisfy themselves that the decreased supply is the sole cause, and not the increase in the Cultivation in Coravundoor that is the occasion of this outcry. There is no wish to withhold what is usual, but our ryots will defend themselves from encroachments on their rights.—

I would respectfully submit for the Board's consideration, that the case in question, may like others of the same kind, be submitted to the decision of a Punjayet, by means of which, if the Trichinopoly ryots are contented with what belongs to them, the settlement will not be difficult— any other

other means will be the occasion of an immediate suit in Court, the result of which, tis not difficulty to anticipate.—

Salem Yellah Apoor.—

No. 1 in No. 5.—

To The Collector of Trichinopoly

Sir,

Referring to your letter of July last relative to the dispute existing between the Coravundoor and Mahanaar Ryots, I have the honor to inform you, that since that period the Acting Civil Engineer in this District has examined the ground and Channels as reported in his Diary of September last, Copy of which I suppose you, to have received, as in your letter of 11th December 1841, you state your acquiescence in the plan he proposes.—

In my former communication I proposed to you the only permanent remedy that I could think of for a settlement of this long agitated claim, you refused a Punchayet, and I must now give you my reasons for objecting to any other mode of Settlement, except by an appeal to the civil Courts.— This

Fort St. George 4th May 1843

This is a dispute of long standing which cannot be determined either by the Engineers, by you, or myself as far back as 1833, I find a report from Mr. Cathcart, then Sub Collector in Salem, stateng, that the complaint of the Coravundoor ryots was occasioned by an increase in their cultivation, rather than a decrease in the usual supply.—

In making the demand that the Coravundoor ryots now do, it would have been satisfactory if you had examined into the rights they possessed over these grounds of claim, and stated specifically the amount thereof before making application to this District and leaving that for us to perform there can be no doubt that the ryots of Coravundoor do not possess, that, they never have possessed any right to a direct channel from the Rajah Vaikal at the surplus channel, and therefore that the recommendations of the Engineers are both at variance with the established rights of the Mohanoor ryots the only right belonging to the Coravundoor Village is the surplus water from the fields— if there be any obstruction to this, I know no better mode of

Settlement

Fort St. George 4th May 1843

Settlement than by Punchayet, who would carefully investigate the conflicting claims and whose decision would be final.—

You state that the real cause of complaint is that the supply of water received by the Coravundoor ryots from the Rajah Vaikal of Mohanoor which was formerly sufficient, has of late years became exceedingly precarious, the complaint has been existing for ten years, and I would request you to inspect the accounts of cultivation at the time the country was assumed and the accounts of the present time; for we believe that this is an attempt of the Coravundoor people to procure by clamour what they cannot lay claim to of right, or as the Parkison stated in his report to you, they think the best way to obtain it is by continually making complaints.—

There is no disposition on the part of the Mohaganoor Village to withhold what is due; but they state, that they will resist by all means in their power any encaroachment on their rights and that if a Sluice was opened in the Rajah Vaikal channel for the benefit of the Coravundoor ryots, it would ruin their Village and be a source of much greater contention than at present exists.—

Major

Major Cotton states, that there is a superabundance of water. I believe that Major Cotton's inspection was not sufficient to authorize the judgment so hastily come to, I doubt whether he was in possession of the extent of lands receiving their supply from the channel above mentioned. my Mahratta Superintendant, the only person belonging to my Establishment who was present informing me that he would not hear what the Moghanoor people had to say, and Mr. Shaw, who had newly joined the District, was of course ignorant of any thing relating to the subject. If the Engineers had been requested to go to the spot for the purpose of inspecting this disputed right to water, I ought to have been informed thereof the first intimation I had was the report.—

The great point of contention seems to be that the Coravundaor ryots want to force, if they can, a direct opening to the Rajah Vaikal to which they have no claim, and as determined a resistance in the Moghanoor ryots not to yield up their rights. the first attempt to carry the plan against them into execution, will produce a suit in Court, to which neither you nor I can give a satisfactory answer. There is no difficulty in making a Settlement by Punchayet.— but I know no other means of bringing this contention to a satisfactory conclusion.—

Salem Gillah Cutcherry,
Pt. Coll.r
2d December 1842.

No 8

To Captain S. Best.
Secretary to the Board of Revenue
In the Department of Public works
Madras.

Sir,

Para 1. Adverting to the Extract from the proceedings of the Board of Revenue in the Department of Public works dated 19th Instant, relative to the dispute between the Villagers of Oravundoor in Trichinopoly and Moganoor in Salem, I have the honor to forward, for the consideration of the Board a copy of a letter from the Principal Collector of the latter District dated the 2d Instant which was received subsequently to the dispatch of my address on the subject.—

2. Mr. Gleig it will be perceived considers that the dispute can only be decided by means of a Punchayet or by an appeal to the Civil Courts— and the Meerasidars of Oravundoor have consented to allow the matter to be referred to the decision of the former tribunal— but I am in doubt how far it is competent to Collectors to submit cases of this sort— involving as the present one does, risque to

to the Collections of a portion of the Circar revenue and the welfare of a portion of the people committed to my charge, to final arbitration in the manner proposed - I beg therefore that I may be favored with instructions. —

3. I must permit myself to observe that Mr. Ogilvy has in some measure misunderstood the view I take of the case - I fully admit that the Meerasidars of Oorawndoor cannot by reference to former custom establish a claim as of right to a direct supply of water from the Rajah Voikal - The argument which it has been throughout the correspondence my intention to insist on is that they have a right to be restored to the full enjoyment of their customary privileges or that an equivalent should be conceded to them - but I must contend that if by altering the situation of the Head of a Channel advantages are to be obtained for a village which cannot claim them of right the alteration ought nevertheless to be made, if it can be done legally, provided it involves no injury to the

the interests of other parties. —

4. The four Engineers who have examined the localities in question bear me out in my supposition that the proposal for a new head would have this effect - but of course if there are legal objections it will be futile to insist on the measure - nor should I - in the face of such objections and of the decree passed in the Cautoopoottoor case have for a moment thought of attempting to insist on the execution of the work - but objections of this sort may sometimes be overcome - and to endeavour to overcome the present objections was my wish. —

5. I must however submit that if the regulation of Channels of irrigation which are kept in order at the expense of Government are never to undergo alteration when the caprice and jealously of rival Meerasidars prohibit it - or without the liability of being subjected to the uncertainty of a legal decision - then the Government is pleased at a disadvantage —

disadvantage which may at some future
period be productive of no small degree of
embarrasment and in the instance in question
it should surely be ascertained whether the
opposing Meerasidars cannot be brought to
terms by the offer of compensation if upon
enquiry it should be proper to give it
before abandoning the project altogether.—

6. In reference to Mr Ogleys
observations regarding the extent of Cultiva-
tion in Oaravandoor I have the honor to
to submit a Statement in which it is
exhibited from the earliest period of
which I could obtain accounts.— I beg
to protest against the assumption that
because at an early period less land
was cultivated than at present therefore
there is no reason for the present outcry—
such an inference is not fair for from
a variety of causes which ought not now
to exist the extent of cultivation may at
that period have been restricted to a
smaller quantity than might in better
times have been carried on and it
will be seen that the present extent
is

is by no means the largest.—

I have then the honor to
request that the Board will be good
enough to inform me whether the dispute
shall be submitted to the ordeal of a
Punchayet or whether any other measures shall be
adopted. The necessity of obtaining good
advice in the matter will be obvious from
the circumstances alluded to in my
former address, to which other Villages in
the District have been reduced, and will
I hope plead my excuse for thus encroach-
-ing on the time of the Board.—

Trichinopoly—
Coll^r's Cutcherry—
24th December 1842

/Signed/ A. P. Onslow
Collector

Collector

Fort St. George 4th May 1843 –

No. 7

To,

The Principal Collector of

Salem –

Sir,

Para 1 The Board of Revenue desire me to acknowledge the receipt of your letter dated the 23d Ultimo on the subject of the dispute between the ryots and Mohanoor in your District and Oraveendoor in that of Trichinopoly –

2. The Board are not satisfied that every endeavour has been made to effect an arrangement satisfactory to both parties, nor do they approve of your proposal to submit the matter in its present stage to the decision of a Punchayet –

3. It is not clear to the Board that the Ryots of Mohanoor would sustain any loss, even if the arrangement, which the Engineers have proposed and which the Trichinopoly Collector supports, be carried into effect – and if this cannot be clearly satisfactorily shewn to be the case it would be unreasonable that the ryots of one Village would be allowed from feelings of enmity or other cause to prevent the improvement

of

Fort St. George 4th May 1843 –

of their neighbours lands and of the public revenue – In the present instance it appears that certain lands alluded to in the various reports as "Neercooly" in addition to Rupees 24½ annually are given by Oraveendoor to Mohanoor for surplus water which it is in the power of Mohanoor to withhold and which they do in effect withhold by carrying on a description of cultivation which causes the surplus water to run to waste and prevents its reaching the lands, for the benefit of which it was purchased – If this be the case it would seem but reasonable that the Neercooly land should be resumed and the money no longer paid –

4. It appears also, from the sketch illustrative of Major Cotton's report that part of the Mohanoor or Rajah Vaikal runs through the lands of Oraveendoor and that from this part a channel might be taken for Oraveendoor which would be entirely within the limits of that Village The Board wish these points to be ascertained

They

5. They direct that you will proceed to the spot and then in personal communication with the Collector of Trichinopoly make enquiry in order to determine the basis of an amicable adjustment of the dispute, or in case this cannot be effected, to report so fully that the Board may have the means of deciding as to the propriety of placing both Villages under one Collector or on such other measures as may be calculated to obtain the end in view.—

6. The Civil Engineers of the 5th and 6th Divisions will be directed to meet you should their other duties permit their doing so.—

7. Copy of this letter will be furnished to the Collector of Trichinopoly who will arrange a day for meeting you and it is requested that you will be so good as to inform Captain Bell of the date fixed on.—

Comp.d Sho.s Ritchie.—

From the Bd. of Rev. 8/26th Feby. 1829. No. 80. To 2d. 10th March 17th

It appears from the correspondence noted in the Margin, that under date the 10th March 1829. the Government resolved, upon the recommendation of the Board of Revenue, that the inam lands referred to in the letter above recorded, should descend to the heirs of the deceased incumbents, on making good their titles in the Zillah Court. that in obedience to these orders, certain parties instituted suits to establish their claims, and one Kabil khan obtained a decree in favor of his right to inherit the property in question. This decision it appears was subsequently reversed by the Provincial Court, and the lands declared to come under Regulation IV of 1831. The course prescribed in this Regulation for determining such claims, is similar to that laid down in the Resolution of Government above adverted to, and the Zillah Court in taking cognizance of the claim appears to His Lordship in Council to have acted in accordance with the provisions of Clause 1st Section II of the Regulation.

From the Actg Chief Secy to Govt

Transmitting Copies of a Communication with the Govt of India, and requesting further information on the subject of the claim advanced by certain parties to the proceeds of the Enam Villages of Naulpauknum and Manulvandy in South Arcot.

To J. F. Thomas Esqr

Acting Chief Secretary to the Government of Fort St George.

Sir,

With reference to your letter No 224 dated the 2d Instant with its enclosures on the subject of a claim advanced by certain parties to the proceeds of the Enam Villages of Naunulpauknum and Manulvandy in the District of South Arcot, I am directed by the Honorable the President in Council to state that in the translated copy of the Sunnud dated Hijre 1163 or AD 1749 the total annual income of the two Villages above specified is stated at Pagodas 150 In Mr Hydes Register of Enam Villages of 17th February 1815 the estimated annual Value

Value of Navulpaukum rs. Pagodas 245–3–70
Mannlvandy ---------- 68–25–30.
but it cannot be ascertained from the papers submitted with your letter what is the present amount of the annual income of each of these Villages after deducting charges of Collection, nor what is the value of the Enam proposed to be granted from the revenue of the Villages in question to the family of Syed Hossain Mohdeen the son of the last Proprietor in whose name the Villages were registered. I am accordingly directed to request that with the permission of the Most Noble the Governor in Council these particulars may now be furnished for the information of the Honorable the President in Council.

2 Pending a reply to the present communication the original papers received with your letter are detained.

/Signed/ Fred. Jas. Halliday
Offg. Secy. to the
Government of India

Ordered that the foregoing letter, and that, to which it is a reply, be furnished to the Board of Revenue with

with a view to the information required by the Government of India being furnished at an early date.

/Signed/ J. F. Thomas
Acting Chief Secy.

2 In the correspondence which accompanied Mr. Chief Secretary Chamiers' letter of the 18th September 1840 and which is herewith again transmitted to enable the Government of India to dispose of the present reference the circumstances relating to these two Villages

From Bd. of Rs. 10th Dec. 1838 No. 631 with 3 Enclosures & Order of Government appended
From Do. 19th August 1839 No. 371 with 3 Enclosures & Order of Govt. appended
From Do. 3d August 1840 No. 290 with 3 Original Enclosures
Extract Minutes of Con. dd 4th Sept. 1840 No. 650/980

Villages are entered upon at length, and it will be observed that the failure to produce the Original summud has alone prevented a recog= nition of the claim of the heirs of the former incumbent. In their letter of the 22d August last the Board of Revenue supply this omis= sion and as no doubt is entertained of the genuineness of the summud it is recommen= ded that the title of Syed Hussain Mohdeen, the son of the last proprietor Bauker Hussain in whose name the two Villages in question were registered by the Board of Revenue, may be recognized.

3 As the Villages have always been under the Management of the Officers of Government, His Lordship in Council proposes with the concurrence of the Government of India to order their resump= tion and incorporation with the Govern= ment lands, allowing Syed Hussain Mohedeen, for the benefit of the family a money payment averaging with the net revenue of a series of years.

4 It will be for the Honorable the President in Council to consider, not= withstanding that the grant is registered "Hereditary"

"Hereditary" whether the particular purpose for which it was made Vizt. for continually offering up prayers for the Donor, is such as to demand that the British Government shall continue to pay the proceeds of the Villages without reduction. His Lordship in Council is of opinion that under any circumstances the parties have no claim beyond a grant for life.

Extract

11

From the Acting Chief Secy to Govt

Resolving to submit for the consideration of the Government of India the Board's communication relative to an increase to the Salary of the Sub Collectors' Sheristadar in Malabar.

Extract from the Minutes of Consultation
Under date the 2d May 1843.

Read the following letter from the Acting Secretary to the Board of Revenue.

Stating with reference to the Order of Government of the 23d March last that the Board supported the recommendation of the Collector of Malabar for the reduction of the pay of the Caway Tahsildar not because they considered it too high but because the pay of the Sub Collectors' Sheristadar was manifestly far too small and that it will be very gratifying to them to learn that Government have been pleased to sanction an increase of pay to the Sheristadar without reducing the emoluments of the Caway Tahsildar.

(Here enter 6th April 1843 No. 182)

It appears to His Lordship in Council highly undesirable to reduce the Salary of so responsible an officer as a Tahsildar who

who has peculiar temptations and facilities for obtaining undue emoluments unless good and sufficient cause can be shewn for the reduction. His Lordship in Council at the same time fully recognizes with the Board of Revenue, the inexpediency and injustice of retaining a superior Officer as the Sub Collectors Sheristadar, upon a lower scale of remuneration than the Subordinate Officers. Nor is he aware of any ground, upon which this Officer should be placed in so anomalous a position in Malabar or the Salary be there fixed at a lower Amount than in any other Collectorate. He resolves therefore to submit the Boards communication for the consideration of the Government of India.

23

From W. B. Smollett Esqre. Acting Collector of Vizagapatam.

Sir

Reporting for the information of the Board of Revenue the result of his investigation into the validity of the claims of certain parties professing to be creditors to the late Jemmadavarmah Proprietrix of Golgonda.—

Para 1. In compliance with the orders contained in an Extract from the Minutes of Consultation of date the 4th July last, answering an investigation into the validity of the claims of certain Parties who professed to be creditors of the late Jummadavummah Proprietrix of Golgondah, I beg to report for the information of the Board of Revenue that I have had, with one exception, all the parties before me, and that I have made every possible enquiry into their demands.—

From Collector 12th November 1838
Board's Proceedings 9th May 1839.
From Ag. Coll.r 10th May 1842.—

2. The circumstances under which these claims were contracted have been so fully explained in the correspondence noted in the margin, that it is unnecessary to recapitulate them here.—In the statement which accompanied the letter from this office of the 10th May last, the Balance due to the claimants without interest was estimated at Rupees 14,924-12-6.—

3. The enquiry now made, and the result of which is shown in the figured Statement

Statement which accompanies, how places the principal sum still due to the creditors of Jumma-dawamah at Rupees 10424-12-6 only - The nature of the vouchers by which these sums are proved is explained so fully in the column of Remarks that I need not describe them more particularly in the body of this Report. - I believe no doubt can be entertained that all the documents are genuine. - The parties are quite ready to relinquish all demand for interest on payment of the principal. -

4 It will not fail to be observed that the claim of one creditor I. Verasamy, did not originate in any dealings of Jummadawamah herself, but in certain loan transactions of her predecessor Annantaboopaty, acknowledged and confirmed by Jummadawamah. I consider his claim as valid as those of the other two creditors. -

5 M. Ruganaikloo has informed me by letter that his claim against the Estate had been satisfied in full, and that he had no demand now to make. -

6 Mr. H. Leonard also informed me by letter that there was no demand against the Golgondah Zemindary due to his deceased Brother's estate. -

7 I have not been able to procure the attendance of B. Patranze although he was repeatedly required to come forward, but this person is the author of the accompanying Petition to the Most Honorable the Governor in Council, referred to me with an Endorsement of Lieutenant Colonel Forster, Acting Private Secretary, on which it may be expected that I

4 Ct. 496 of 1842

should say a few words. -

8 This young man is the grand son of the late Jummadawamah, he is the same person adverted to in the concluding Paragraphs of my Report on the settlement of the Golgoondah under date the 29th November last, who, as nearest male heir of the deceased Proprietrix, claim to be entitled to the succession. -

9 I also pointed out in that report, that the Golgonddah Estate did not, as was erroneously stated, become the property of Government by forfeiture, but had been purchased from motives of Policy - by Government for a pepper corn, some time after the murder of Jummadawamah by the retainers of her imbecile predecessor and relative. - Annantaboopaty, who had shortly before voluntarily transferred the Estate to that Lady. -

10. The views of Mr. Arbuthnot in bringing the Estate to sale, and his opinions in reference to its ultimate disposal, were distinctly submitted in the correspondence noted in the Margin, to which I beg to refer the Board of Revenue, and possibly, Government though they may be disinclined to restore the estate to the Family, may still think it right to make some permanent provision to the representative of an ancient race. -

To Board 20th June 1837. -
Do. 9th Jany 1838. -

They have no property and live under the protection of the Zemindar of Madigole, who himself is greatly embarrassed. -

11 (Signed) P. B. Smollett

Vizagapatam
22nd April 1843.

(Signed) P. B. Smollett
Ag. Collector

Ordered

Ordered that the foregoing letter be submitted with the following addrs.

To The Acting Chief Secretary to Government

Sir,

Para 1 I am directed by the Board of Revenue to request that the accompanying letter from the Acting Collector of Vizagapatam, reporting the result of his investigation into the claims of the creditors of the late Jummadoracumah Proprietrix of the Golgondah Estate may be submitted for the consideration and orders of Government.

2 From former correspondence it will be seen that this Estate was brought to sale rather from motives of state policy than the necessity of recovering the arrears of Revenue and was purchased on account of Government at a nominal price to the exclusion of the claims of the private creditors and has since been found to yield

23-24

24

To the Ag. Chief Secy. to Govt. 3

Submitting a letter from the Ag. Collector of Vizagapatam reporting the result of his investigation into the claims of the creditors of the late Jummadoracumah Proprietrix of the Golconda Estate and recommending that authority may be granted for the payment of Rupees 10424-12-6 on this account. also stating that adverting to the circumstances under which this estate became the property of Government, it may be becoming its liberality to make some provision for the representative of this old family.

22 April 1843 in Cons. 8th May

yield a considerable surplus income, after payment of all demands on account of both current and arrears of Peishcush; under these circumstances and in consideration moreover of the debts having been contracted by the late Proprietrix in order to discharge the arrears of Peishcush which were due on her taking possession of the Estate, the Government resolved to regard them with indulgence and ordered that the Collector should make enquiry regarding their authenticity.

3 The total amount of the Balances was estimated in the first instance without interest at Rupees 14924-12-6 this sum has been reduced under the Acting Collector's investigation to Rupees 10424-12-6 by the demand of one of the claimants M. Rungaiah Roo having been admitted to have been satisfied in full, and another B. Patrauze, although repeatedly required to come forward, having failed to make his appearance. The Acting Collector has no doubt that the documents in support of the other claims are genuine and that the several sums are really due amounting as above stated to Rupees 10,424-12-6 the payment of which

which the Board therefore recommend may be authorized by Government. —

4 Adverting to the circumstances under which the Golgondah Estate became the property of Government, the Acting Collector appears to think more over that it might be proper to shew some consideration for the reduced condition of the family as represented by B. Patrauze above mentioned the grandson and nearest heir of the late proprietrix. — They are stated to be living under the protection of the Zemindar of Madigole himself greatly embarrassed. It may therefore be becoming the liberality of Government to make some provision for the representative of this old family. —

To E. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

(25)

From the Collr of Rajahmundry

Submitting the request of the widow of the late Proprietor of Rajahmundry Yca Estates together with the information connected with the case and requesting orders to make them over to her on the payment of Government balance against them. —

Sir,

Para 1 I have the honor to submit for the consideration of the Board of Revenue, Copy and translation of an arzee addressed to me under date the 20th Instant by Chintapullah Ramanyah Widow of the late Chintapullah Venkataraw Proprietor of the Rajahmundry and Dhanelaswaram Estates paying an annual Peishcush to Government of Rupees 7939-7-11 and which were attached by me on his death for the arrears against them as reported in my letter of 4th Ultimo. —

2 The charge made by Chintapullah Ramanyah turning a visit of condolence from her Granddaughter Row Lutchmeh to Venkyamy, the wife of Rajah Row Sooriarow Zemindar of Pittapoar, into an intention of plundering her, was unnatural, however as there were a good many

many Female Relations, both in and out of the house, who had expectations from her husband, it was most desirable, on that no collision should take place, which might create a confusion, in the course of which, any of the property might be lost, measures were therefore taken by me to prevent any such occurrence, and every thing since has settled down quietly. —

3. Four days after the death of Chintaputtah Venkatarow, the papers of which the accompanying are copies and translations reached me purporting to have been left by the deceased Venkatarow that they are most suspicious documents, and they have never been followed up and as Chintaputtah Ramanyah as the widow appears in the absence of a son to be the proper heir, I beg leave to recommend that I should be authorized to make over to her the Villages of Rajahmundry and Dhawlaswaram on her discharging the arrears due from them. —

†Nos. 2 and 3. Arzee and Bill of sale dated 28th Feby 1843. —

Collr's Circuit Cutchery, Amlapoor, 25th April 1843. —

(Signed) G. A. Smith
Collector

To

No. 1

To G. A. Smith Esqre
Collector in the Zillah of Rajahmundry. —

An Arzee from Chintaputtah Ramanyah Widow and heir to Rajah Venkatrow late Proprietor of Rajahmundry and Dhawlaswaram an inhabitant of Peroogondah. —

My husband having departed this life on 2nd March 1843. Rajah Row Venkata Sooria Row the Zemendar of Pettapoor arrived at my gate accompanied by two hundred men with a view of taking away my real and personal property by force, but you were then pleased to relieve me from that danger upon my addressing you as Magistrate an Arzee to that effect on the said date, copy of which, I beg leave to submit for your perusal. —

As I was informed by the persons who were managing the said two Villages on our behalf, that you placed them under attachment on 4th March last with a notification that they fell in arrear of Rupees 2732 - 8 - 11 on account of pash Kists &ca after deducting what was paid

paid to the Carogah of Rajahmundry up to the said date in consequence of the death of the Proprietor I have on the 18th of that month addressed you an arzee by tappal stating that as I who am the sole heir of the late Rajah Chintapullah Venkata as consistent with the Hindoo Law will incur the expences in case of the Villages remaining under attachment you would be pleased to release them and permit me to manage them myself as the heir of my husband and issue orders to the Carogah of Rajahmundry Division to receive the amount of the said arrear from me. But you were pleased to reject the arzee with an endorsement under date the 22nd March last, that in consequence of the death of the Proprietor, and the Villagers falling in arrear, the notification in question had been published, but notice was not given to me (the Petitioner) on the subject, and if I had any right to the said Villages I should make a petition to the Collector stating the grounds under which I should be entitled to it, and that the same would be submitted to the Board of Revenue for their orders. —

In consequence of the above, I now beg leave to apprize you

you, that I am the sole heir to the whole property of my husband the late proprietor consistent with Hindoo Law and the usage of the country. As I have not any male issue now alive and with regard to the suits pending in the Provincial Court against my husband, that Court vested in me the power of defending them as sole heir of my husband: consequently I beg you will also be pleased to nominate me as heir of my husband, receive from me the balance of arrears outstanding against the said two Villages, and issue an order allowing me to manage them myself. I also beg to state that if I am not permitted to discharge the balance of arrear and take possession of the Villages as above requested, I shall suffer the charges and loss by retaining the Villages under attachment. —

I therefore pray you will be pleased to submit my present address to the Board if necessary with your recommendation and cause the

the Villages to be released from the attachment without loss of time. Please to ex-
perusse dated 20th April 1843. -

(Signed) Rajah Ramanyah

No. 2.

To George Antony Smith Esqre
Collector of the Zillah of
Rajahmundry

I Rajah Chitaputtah Venca-
-tarow Zemindar of Rajahmundry &ca
present my salaams and beg to inform o
you that I am happy here wishing at the
same time that you will continue to
write me of your welfare. -

I have been for these 2
or 3 Months sick, but from 10 days I am
very much worse. - I therefore thought
that my existence is nearly at an end
and in making arrangements for be-
-queathing the whole of my peraonal
and real property Among my daughters
in law and legal heirs, I do hereby by
virtue of a Puttah, which accompanies
this give up to Stree Rajah row &n
Veneata

Vencata Sooria Row Bahader, Zemindar
of Pettapore &ca the 2 Villages called Rajah-
-mundry and Dawelaswaram which I
bought in public auction, according
to his letter to my address requesting &n
me to grant him these 2 Villages for the
sum of 12,300 Rupees still remaining &n
with me, out of the 20,000 Rupees sent
to me by his mother Rajah Bhaviah
at the time of his marriage with my
grand daughter Lutchme Venkeyam-
-ma, for the purpose of purchasing
for her jewels, after having subsequent-
-ly given her certain Ornaments &n
to the amount of Rupees 7,500, in con-
-sideration that it will be best to ful-
-fil her wishes, as no proper Male
is left among the surviving Members
of my family capable of managing
the affairs of those Villages. - you &n
will, I hope, in consequence on the
perusal of this my proposal be pleased
to put the said Rajah Venkata Sooria
Row Bahader, in possession of those 2
Villages

Villages and in future continue to receive &c
from him the usual Peishcush payable thereon.
Please to take this into your
consideration. Dated 28th February 1843.
(Signed) Rajah Venkatarow.

No 3.

Bill of Sale executed by Rajah Chintapul-
-lah Venkatarow to Shree Rajah Row Venkata
Cooria Row Bahader Zemindar of Pettapore
&c under date 28th February 1843 correspond-
-ing with Tuesday 14th of Magah Chhoolum
in the year Soobhacrootoo.

As I am dangerously ill,
and think that I shall lose no longer, &c
and as I have nobody after me, among
my family capable of managing the
affairs of Rajahmundry and Davala-
-swaram Villages bought by me in &c
public auction, which are since under
my enjoyment. I do hereby, by virtue
of the Puttah give up to you those 2
Villages agreeable to your request, for
the sum of 12,500 Rupees remaining
with me out of the 20,000 Rupees &c
sent to me by your mother Rajah &c

Baviah

Baviah at the time of your marriage with
my Grand Daughter named Lutchme &c
Venkeyamma for the purpose of purchas-
-ing for her proper joys, after having sub-
-sequently given her jewels valued at 7,500
Rupees you will therefore in future continue
to pay to the circar the Peishcush fixed there-
-on annually, and enjoy the benefit derived
therefrom as long as your posterity exists.
This is the Puttah executed
of my free will and consent.

(Signed) E. C. Lovell
Acting Secretary. -

Read the following letters.

To E. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

(27)

From the Collr of Guntoor

Sir,

Para 1. In reply to your letter of the 30th Ultimo I have the honor to explain that, as will be observed by the Monthly Return of persons charged &c under Regulation IX of 1822 for the Month of December last, ten cases, one of which included four

four persons, remained undisposed of at the close of that half year being thirteen persons as appears from the half yearly Return. -

2. The form for the half yearly abstract, as the Board are aware contains no Column for persons, whose cases have not been disposed of, neither does it shew the number of cases. - It has been usual in this office when one individual has been charged with more than one offence to enter in the abstract the number of such charges, but where several individuals

individuals are charged in one case to enter the number of individuals. Some confusion appears hence to arise which might perhaps be obviated by opening a Column for cases as well as persons, and a Column for cases undisposed of at the date of the Return.—

Guntoor Zillah,
Coll.rs Circuit Cutcherry,
Dindy, 11th April 1843.

(Signed) H. Stokes
Collector

(27. 28)

Order thereon.—Ordered to be brought forward at a future Meeting.

To,

To

C. C. Lovell Esq.re

Acting Secretary to the Board of Revenue

Fort St. George

(29)

From H. Stokes Esq.re Collector in the Zillah of Guntoor

Reporting on the settlement for Fusly 1251 / 1841/42

Sir,

Para.1 I have the honor to submit the usual Statements in English and Telugu explanatory of the Settlement of Guntoor and Palnaud for Fusly 1251 / 1841/42 Viz.t

1.st Statement shewing the Settlement of the Land Revenue of Guntoor and Palnaud.

2.nd General Comparative abstract of the Demand from all Sources for Fusslies 1250 / 1840/41 and 1251 / 1841/42

3.rd Statement Comparative of the Settlement of Land Revenue of Palnaud for Fusslies 1250 / 1840/41 and 1251 / 1841/42

4.th Demand Collection and Balance of Land Revenue in Palnaud for Fusly 1251 / 1841/42

5.th Statement of Collections and Charges.

6.th Statement of lands in Palnaud taken on favorable terms.

2.nd The Board are aware that the Management of this district in the period under review has been conducted under considerable disadvantages for which they will, I am persuaded, make due allowance Mr.

Goldingham

Fort St. George 8th May 1843

Goldingham found it necessary to attack the large Vassereddy Zemindary in the middle of the harvest on the 7th of January, and shortly after left the district in charge of Mr. Hathaway from whom Mr. Mathison received it on the 3d March. His attention was immediately directed to a revision of Mr. Goldingham's arrangements for the Vassereddy Estate which resulted in a general change on the 13th of April of appointments extending not only to that Estate but to almost every Office of importance with the exception of Cash Keeper and accountant both in the Huzoor and Tanahs, changes were also made in the limits of the different Tannahs and Villages transferred from one to another. On my arrival on the 22d of April I was beset with petitions from the ousted servants and was so much occupied with the trial of the Cp. Nail Seristadar on the charges on which he had been suspended by Mr. Mathison the current business being at the same time abstracted by other causes that I could not personally attend to the settlement. The accounts of Palnaud had been completed and the Puttahs distributed by Mr. Hathaway acting Head Assistant before I took charge as also the accounts

Fort St. George 8th May 1843.

accounts of the Innacondah and Bellumcondah Tanahs of the Mudrauze Estate. The rest of the Settlement of the attached Estates was necessarily left chiefly to the Seristah Department. The sharing of the produce in some Villages was much delayed and a great number of intricate objections and disputes. The Gummahbundy accounts of the Tenally Tanah were not closed till January and the complete account of the gross Collections of the Vassereddy Estate while under the Zemindary Management in Fusly 1250 / 1840/41 was not obtained till the beginning of this month. Hence has arisen the delay in furnishing this report and in many other branches of business which I deeply regret.

Season 3. The season in Guntoor favored the sowing and Growth of the early and principal dry crops by copious rains in June, and seasonable showers in the three following Months, but material damage was sustained in some places from violent and partial rains in October and the early part of November. The principal Jonna crop was below the average but the red paddy and the last crop called Pyra of different varieties of pulse and Oil Seeds and the grain called Varega were very good

The

The wet collections under tanks dependent on rain was limited and some of it failed under the Bapetlah and other Tanks supplied by channels a good crop was obtained. On the whole the crop of fine rice was above that of the preceding year but below the average.

4 In Palnaud the general character of the season was the same. The principal dry grain crops were good but damaged by the heavy rains at the close of the season, which also injured the cotton crops. The late sown dry grains (Pyru) succeeded well. The wet cultivation was small, because the tanks were not supplied in time nor were they filled by the late rains. The outturn was below that of an ordinary year.

5 The District appears to have been generally healthy scarcity of water was much less felt than in the last year though sufficient in April and May to cause inconvenience and alarm in the Town of Guntoor. The measure which has since been adopted of not allowing the water of the large tank at Guntoor to be used for cultivation which exhausted it before the hot weather, until it is hoped prevent the recurrence of similar distress at that place

place. The channels of Vellatore, and Moonangy to which the Board advert in their proceedings on the last Gunnahbundy report were beneficial as far as they go but to render them fully available, a good deal remains to be done. The present Civil Engineer Captain Buckle has reported on them in very favorable terms in his Diary for November last which will have put the Board in possession of the information they desired.

7 The prices of Paddy and Jonna continued progressively to decline from the point they were reported by Mr. Goldingham, to have attained at the ends of the last July as shewn in the Margin.

Prices

	Rate per Candy or Pulte			
	Paddy		Jonna	
	Guntoor	Palnaud	Guntoor	Palnaud
	CRs. a. p.	CRs. a. p.	CRs. a. p.	CRs. a. p.
1841 July	23 15 10	24 " 5	21 6 2	22 " 4
August	23 2 3	24 5 5	20 3 3	19 13 4
1842, February	19 10 8	24 4 2	16 10 2	17 15 7

July	18 12 7	22 " 4	19 " 5	13 2 9

till nearly by one fifth, other grains have fallen in the same manner. To account for this general depression, requires a more extended

extended view of the financial matters of the country than I can take. It has however now reached a point which tells disastrously on the revenue and on the resources of the Ryots so much so, as to threaten the stability of the money rates not only of the Zemindaries but of the Palnaud where are more judiciously fixed. Up to this time there is no appearance of re-action. The consequence has been a desire among the Palnaad Ryots to contract their cultivation and in the Zemindaries to cultivate on share or throw up Mucta lands. This must be borne in mind as the main cause of the decrease of the revenue under the several heads to be noticed hereafter. Wet lands throughout Guntoor and Palnaud and dry lands also in Tenally and in many Villages of other Tannahs of the Vajsereddy Estate and in Chilkaloorpaud are settled on share. The wet crops and in Tenally the dry also are measured under Sirkar Superintendence and the value of the Sirkar share at the current price is levied from the Ryots elsewhere on sharing dry lands what is called the Anchana or Tysul obtains that is an Estimate is made of the standing crop and the ryots consent

consent being obtained the Government demand is determined by the current price. Even on Mucta lands the sound principle of a money assessment that of non interference advocated by Mr. Thick in his report of the 25th April 1832 has often been departed from and the demand has been regulated by what is called on Aywez Jummabundy that is collecting only the value of a portion of the estimated produce at the price current, and allowing the difference between this and the Mucta or money rate, to lie over as a balance. It will thus be perceived how immediately low prices must act upon the Collections.

Para 22.

8. On the revenue of the year from all sources including arrears there is a net decrease of Company's Rupees 97,218-2-2. arising out of a gross decrease of £ Rupees 1,10,270-14-11. and £ Rupees 13,052-12-9. increase as shewn in the following table. The Extra sources of Revenue having already been reported on, and the report disposed of by the Board need not now be noticed. Item

Repully Estate

14- The Repully Zemindar Maneca Row Iangama Row having as on former occasions failed to furnish the prescribed Estimate for the year was repeatedly prefsed to send it, which he did in June- According to this account his collections amounted to Company's Rupees 80,000—15—11- and his charges as fixed by himself to Company's Rupees 14,000, leaving a surplus as available for Peishcush of Company's Rupees 66,000—15—11- His actual remittances however fell short of this in the sum

Company's Rupees 5774—2—8- besides sum of Company's Rupees 904—3—"- Malumpha remission not included in his Estimate leaving thus a balance unaccounted for in his hands of Company's Rupees 6678—5—8- He has been called upon for this sum, but has paid only Company's Rupees 1,500—1—" and attempts to account for the defalcation by the decline of prices and shall produce a ground which is manifestly untenable as both the prices and produce of the Fusly were known when he sent in his Estimate

15- The actual accounts for the Fusly were only received from the Managing proprietor in the Month of February last- The following are the results- The Zemindary contains 7 Agraharums- 1- Monavurty Village and 59 other Villages which were managed as shewn in the Margin- The following is a Comparison of the demand with last Fusly-

	Fusly 1250-	Fusly 1251-

The

16- The increase on wet cultivation is attributed to the greater supply of rain The decrease on dry cultivation occurred in Villages the rents of which eoxpired within the preceding year, and in diminished out-turn of sharing Villages..

17- The following is a comparative statement of collections.

	July 1250		July 1251.		Increase		Decrease	
	CRR	a P	CRR.	a P	CRR	a P	CRR.	a P

other charges	"	" "	1346	8 10	
Total	9,600	" "	14421	12 7	

like manner been exceeded in former years and by the other Managing proprietors also. Their only explanation is that the sum sanctioned is inadequate and was unavoidably exceeded.

21. The opinion expressed in Para 6 of the Board's Proceedings under date 11th July 1842, of this proprietor's management was duly communicated to him.

Suttanapilly Estate. 22. The Managing proprietor of the Suttanapilly Estate Maunoor Venacatagopaul row sent in his Estimate of the outturn of the Fusly on the 9th of January 1841. It exhibited the receipts including Company's Rupees 8,208 on account of arrears as Company's Rupees 1,14,511-14-10. deducting Estimated charges Company Rupees 16,000 of collection and subsistence and Company Rupees 2,640. allowances to dependent Zemindars, total Company Rupees 18,640. he estimated his remittances on account of Pisheush at Company Rupees 95,871. 14-10. To this is to be added Moturpha remission Company's Rupees 1,258-11-4. total expected remittances Company Rupees 97,130-10-2. His actual payments however including the Moturpha remission and Company Rupees 2,600 paid in the end of July fell short of the estimate by Company's Rupees 20,271-14-10. In explanation of this deficiency the Zemindar represented in person that in consequence of the subsequent fall in prices and the reduced out-turn of the sharing lands the actual Collections fell short of the Estate in the sum of

of Company's Rupees 13,561 and that a further sum of Company's Rupees 3,700 - - - had been expended in - - tank repairs, Pagoda ceremonies and temporary establishment for Villages, of which rents expired with the last Fusly, as also in law charges. The difference of Company's Rupees 3,710-14-10 he promised speedily to remit. as however he failed to do so, and as his payments were less than those in the Chilkalore paud Estate in the sum of Company's Rupees 12,186-10-1. notwithstanding the Extra Charge incurred for the minor of the Sooloor Division of that Estate, I called upon him in writing to make up the difference, informing him that on failing to do so the Estate would be taken out of his hands. It was not however until this call was repeated by Mr. Hathaway during may absence in December that he paid Company's Rupees 4,000 requesting more time to discharge the remainder. The request having been refused, he sent a further sum of Company's Rupees 2000. The Zemindar's conduct however since the close of the Fusly does not properly fall within this report.

23. The Zemindar's Estimate of Charges exceeds the limit fixed by the Collector by Company's Rupees 5,660 besides the further sum of Company's Rupees 3,000 subsequently stated to have been incurred. As his actual accounts this repeatedly called for are still withheld more cannot now be said on this Subject.

Mulwagu Estate. 24. The following Comparative Statement gives a general view of the Settlement of the Mulwagu Zemindary.

Fusly.

The

25. The net increase on dry land of Company's Rupees 14,501-6-4 occurred on lands cultivated on Cowle or progressively increasing assessment taken up partly in this year and partly in past years. The decrease on wet land is attributable to low prices. On the whole there appears a net increase of Company's Rupees 11640-15-8-

26. In the Collections however there has been a net decrease of C. Rs. 7311-5-9 as shewn in the following Statement--

	Fasly 1250			Fasly 1251-			Increase			Decrease

The

31. The two widows to whom this Estate belongs have not yet furnished the required explanation regarding a sum of Company's Rupees 19,643-1-4 being a portion of what was collected before the attachment of the Estate by the Officers of Government in Fusly 1250 (1840/41) as mentioned in Para 37 of last report. This sum being added to the decrease of payment shewn in Para 13 C Rs A P 16,129-10-7 gives the Total apparent decrease of the year under report as C Rs A P 35777-11-11. In explanation of this it is to be observed that the Collections of arrears in 1251 (1841/42) were less in the sum of Company Rupees 13,218-9-- than in 1250 (1840/41) and that additional charges were incurred in Fusly 1251 (1841/42) on account of the Minor Yds to the amount of 13,268-13-1, while some Charges which were incurred by the Managing proprietor in 1250 (1840/41) have not been shown in their accounts.

Vasireddy Estate. 32. The difficulty experienced in settling his Estate has been adverted to. The result in comparison with the preceding year is as follows--

Fanams.

				3,57,032	15	6

St.

35 It will be observed from these accounts, that whereas the collections from the Tanahs as per Settlement in Para 33 including balance on hand amount to Company's Rupees 3,28,311-6-6. the sum appropriated as per Statement in Para 34 amounts to Company's Rupees 3,57,032-15-6 the difference being Company's Rupees 28721-9-" must have been paid by the Zemindar from other Sources in the hope of averting the attachment. If this sum be taken into account, it will be found that there has been a decrease in the payment of Peshcush from the resources of the year of Company's Rupees 57,245-7-6

Collected in the Tanahs by the Zemindar	105,115-15-3.	
Balance on hand at the commencement of the Fusly	56-2-5	
	105172-1-8	
Deduct charges as sanctioned	22,417-12-7	
Paid by him on account of Peshcush	111475-14-1	
	133893-10-8	
Difference	28721-9-"	

Decrease as per Statement in Para 13	28523-14-6	
Paid from other Sources	28721-9-"	
	57,245-7-6	

The causes which combined to produce this falling off - besides those already mentioned are that a large amount of the proceeds

proceeds of wet cultivation of the preceding year was carried to account in Fusly 1250/1840-41 than in 1251/1841-42 and that part of the demand on dry produce which was actually shared was not realized till after the Fusly while the demand on the sharing Villages itself fell off from less produce and low price -

36. Connected with this Estate it is proper to mention the following circumstances - as reported by Mr. Goldingham when the Estate was attached, the Zemindar's accounts were seized and brought to Guntoor by Mr. Goldingham's direction in order to examine into the alleged misappropriations of Ramanadha Babo - These Dufters nearly filled a Room in the Cutcherry at Guntoor

To Board dated 8th January 1843
To do 31st do

Guntoor - The examination was commenced and the late Sheristadar Mungamoor Lutchmeniarsoo but much remained to be done when Mr. Goldingham left the district and the examination was stopt - On being reminded by the Provincial Court, I thought it scarcely advisable to entrust these Accounts to the unchecked examination of the Establishment subsequently introduced, and I called on the Zemindar to send his Goomastah to be present at the examination, together with a Goomastah on the part of Atchemmah, who was engaged to prove his embezzlements - This he declined to do and the Accounts have not yet been examined -

See letter to Board dated 29th June 1842.

Palnaud District

37 The Government district of Palnaud was settled as usual under the Ryotwary system - The following is a comparative abstract of the settlement from all sources -

Number	Items	Demand for Fusly 1250	Demand for Fusly 1251	Increase	Decrease

40. It thus appear, that of these items 3700 acres — 13 c — assessed at 6 Rupees 4981 — 13 — 2 has merely changed hands, and properly speaking does not come under the head of either increase or decrease of Cultivation — Of the new Cultivation 1,016 acres 19 c has been taken up as old waste on Cowle free of assessment for the first year 1,382 acres 27 c has been taken up as recent waste subject to a reduced assessment of 6 Rupees 581 — 0 — 10 —

41 — The wet land under cultivation was as follows, compared with the last Fusly —

	Land		Produce		Value of Sirkar Share			average produce per acres	
	Acres	c	Candies	Toms	6 Rs	a	p	Candies	Toms
1250	1,085	15	515	9¼	3,424	5	3	0	9½
1251	718	31½	434	16¾	2,426	1	6	0	12 6/64
Decrease	366	23½	80	12½	998	3	9	0	0

Shere

42. There is thus a decrease of 6 Rupees 998 — 3 — 9 arising chiefly from the limited Cultivation —

	On Puttahs			Amanie			Total		
	6 Rs	a	p	6 Rs	a	p	6 Rs	a	p
1250	920	0	6	544	12	4	1,464	12	10
1251	906	7	9	385	8	5	1,292	0	2
Decrease	13	8	9	159	3	11	172	12	8

43. In Gardener land, there is a decrease of 6 Rupees 172 — 12 — 8 — The particulars of this amount are as follows —

Old Wells	432 — 7 — 5
New Do	78 — 6 — 6
Nullahs	405 — 5 — 6
Betel Gardens	221 — 12 — 3
Village Sites	154 — 0 — 6
	1,292 — 0 — 2

The particulars of the assessment on old and new Wells will be seen in the Statements No 7 and 8 — One new Well was constructed during the Fusly — Sixteen have been completed and the land under fifteen of them is under Cultivation — One Cultivated last year was this year waste for want of water in the Well —

44. The increase or decrease in the other items composing the settlement does not appear to require detailed explanation

40. It thus appear that of these items acres 3700 — c 13 assessed at 6 Rupees 4981 — 13 — 2 has merely changed hands, and properly speaking does not come under the head of either increase or decrease of Cultivation — Of the new Cultivation acres 1,016 — c 19 has been taken up as old waste on Cowle free of assessment for the first year acres 1,382 — c 27 has been taken up as recent waste subject to a reduced assessment of 6 Rupees 581 — " — 10 —

41 The wet land under Cultivation was as follows, compared with the last Fusly —

	Land		Produce		Value of Sirkar Share			Average produce per acres	
	acres	c	Candies	Tooms	6 Rs	a	p	Candies	Tooms
1250	1,085	15	515	9¼	3,424	5	3	"	9½
1251	718	31½	434	16¾	2426	1	6	"	12 6/64
Decrease	366	23½	80	12½	998	3	9	"	"

Shere

42. There is thus a decrease of 6 Rupees 998 — 3 — 9 arising chiefly from the limited Cultivation —

	On Puttahs			Amanie			Total		
	6 Rs	a	p	6 Rs	a	p	6 Rs	a	p
1250	920	"	6	544	12	4	1464	12	10

Decrease	13	8	9	159	3	11	172	12	8

43. In Gardener land there is a decrease of 6 Rupees 172 — 12 — 8 — The particulars of this amount are as follows —

Old Wells	432 — 7 — 5
New Do	78 — 6 — 6
Puttahs	405 — 5 — 6
Betel Gardens	221 — 12 — 3
Village Sites	154 — " — 6
	1,292 — " — 2

The particulars of the assessment on old and new Wells will be seen in the State=ments № 7 and 8 — One new Well was constructed during the Fusly — Sixteen have been completed and the land under fifteen of them is under Cultivation — One Cultivated last year was this year waste for want of water in the Well —

44. The increase or decrease in the other items composing the settle=ment does not appear to require detailed explanation

explanation— Under the items termed Amanie, some land was this year taken on Puttah, which causes the decrease in items 5 and 6, and in item 10 there is a decrease from the diminished produce of Tamarind Topes— The items of increase are in Poollary £ Rupees 86—7—11 and in quit rent on Enams from the Cultivation of some of that land last year which has been waste since the Country came under British Government—

45. The Demand and Balance at the end of the Fusly of which little has since been collected were as follows—

	Demand			Balance at the end of the fusly			Since Collected		
	£ Rs	a	p	£ Rs	a	p	£ Rs	a	p
Under Puttahs	115,185	1	11	3,501	15	7	109	4	10
Amanie	3,149	9	10	"	"	"	"	"	"
Quit rents &c.	47,797	6	6	8,886	8	10	38	14	6
Total	166,132	2	3	12,388	8	5	148	3	4
Dasabhagum	636	4	3	"	"	"	"	"	"
Grand Total	166,768	6	6	12,388	8	5	148	3	4

As

As usual the balance of Quit rent lands was large— Mr. Goldingham fully explained the nature of these balances in his letter dated 21st November 1840— The remaining sum of £ Rupees 3,392—10—9 was reported by the Ameens to be due by poor Ryots, who could not pay without trenching on their means of Cultivation and I. did not under these circumstances press its collection—

46. The arrears in Palmaud at the beginning of the Fusly, Collections, and Balance at the end of the Fusly were as follows—

	Quit rent &c.			Lands paying full sist			Total			Collected in fusly 1251			Balance		
	£ Rs	a	p	£ Rs	a	p	£ Rs	a	p	£ Rs	a	p	£ Rs	a	p

As

Fort St. George 8th May 1843.

I beg to recommend for remission the balances on Circar land up to Fusly 1248. amounting to 6 Rupees 21739–15–8–

47. The total collections in Fusly 1250 (1840/41) and 1251 (1841/42) were as follows—

	Arrears			Current			Total		
	6Rs	a	℔	6Rs	a	℔	6Rs	a	℔
1250	7,087	2	1	160281	10	8	167368	12	9
1251	1471	12	11	154379	14	1	155851	11	0
Decrease	5615	5	2	5901	12	7	11517	1	9

48. I now proceed to reply to the observations of the Board on the settlement of Fusly 1250 (1840/41).

Boards Proceedings dated 11th July 1842

The

Fort St. George 8th May 1843.

Para 7.

49. The practice of taking an Estimate called Anchanah of the produce of lands under a money assessment whether in the Palmaud or the Yemmadaries has been considered useful as recording data to judge of the assessment, and of any balance which may remain unrealized. It has also been used to regulate the demand on Ryots not considered solvent who are called Nadar. My own conviction, however is that it is decidedly injurious, as involving an unnecessary interference with the Ryots and lessening their independence, and I have discontinued it.—

50. The remission for lands taken up, but not sown, is not extended to parts of field less than 8 Acres.—

Para 9.

57. The 3 acres — 24 cs. of Garden land entered without assessment since Fusly 1236 (1825/27) is a Tope of Mango, Tamarind and other trees planted by the permission of Mr. Whish in the Village of Dooghy about Fusly 1235 (1825/26). It does not appear that it has been brought to the notice of the Board except in this

this Statement—

Para 10 52. Of the land entered as relinquish=ed in Fasly $\frac{1250}{1840/41}$, the following are the particulars—

	Land		Assessment		
	Acres	C	Rs	a	p
Entire farms of deceased Ryots	97	10	128	14	0
Do of emigrated Do	942	10	1,296	10	10

Add increase of assist on land taken upon Cowle in previous years	0	0	3228	0	2
Difference in the accounts	0	0	0	2	1
Total	10232	1	14059	12	11

54. The only restriction at=present in force on relinquishment of land in Palnaud is that no Ryot who has thrown up any part of his land within

within the preceding two years is allowed to have the benefit of Taragaty or reduced rates on waste land until the loss in the revenue from the transfer is covered, that is the whole shist of the new land is levied, unless it exceed the shist of the land relinquished, and in that case Taragaty is enjoyed on the excess only. I do not think it at all desirable to introduce the practice of throwing up good and bad land together. The contraction of Cultivation appears to me to be caused by the fall of prices and consequent deduction of agricultural profits rather than by the operation of the rules now in force, under which the Palnaud attained much prosperity. Should any change be made, I think it should be in limiting the remission allowed on waste land. It might perhaps also be advisable to introduce rates of rents for pasture lands. On these points, I am endeavoring to collect information with a view to such change as may seem proper.—

Para 11. 55. The 66 acres 6 cawnies of land which the Board suppose to have been transferred from

from the Head of Garden to that of Dry land, is originally dry land cultivated occasionally only from Wells with Garden Crops and when it is so cultivated the difference between its proper rate as dry land and the garden rate is levied under the Head of Amany Jareeb. The assessment on Garden lands in Palnaud was uniformly 6 Rupees 4—8—9- per acre. After permission was granted to Ryots constructing new Wells at their own expense to cultivate dry land under them without any increase of assessment, Mr. Goldingham saw the necessity of a reduction in the old rate of Garden land, which was accordingly made on land under Nullahs to 6 Rupees 3—7—9. per acre and under Wells to that of the highest rate for dry land in the Village. The Well cultivation has not, however, as yet increased as was anticipated. The assessment inserted in Statement No. 8 of well cultivation is the full assessment with the exception of Nos. 9 and 30. The assessment on part of the land of No. 9 is

Fort St. George 8th May 1843.—

56

The accounts of the Village Pedugooralah in the Datchapully Tanah in Palnaud as per accompanying list Marked A, are submitted in conformity with the Boards' circular orders.—

Guntoor Zillah
Collector's Circuit Cutcherry,
Dindy, 28th April, 1843.

(signed) H. Stokes
Collector.

Statement.

Fort St. George 8th May 1843.

is Faragaty or progressively increasing and on the whole of No. 30 The land under Nos. 1 and 9 is not found too much to be cultivated by those wells respectively— The Wells in Palnaud are commonly large, lined with stone, and provided with steps, the cost of construction from 100 to 200 Rupees— They have been constructed by Ryots and not Sowcars— In No. Statement No. 8 for the present year, a Column has been opened shewing the total extent of dry land occupied by each Ryot in addition to that dependant on the Well as desired by the Board—

The

H.G.B.

Fort St. George

No 5.-

Statement Shewing the Settlement of the Zillah of Guntoor and the District of Palnaud for Fusly 1251.-

Guntur Zillah Collector's Circuit Cutchery Dindy 28th April 1843 C. B.

8th May 1843.-

Fasslies 1250 and 1251.-

Net Decrease.	Remarks.-
16.	
Rs a p	
2014 7 7	No 1 - From the excessive falls of rain this year, and from some Ryots being in indigent circumstances owing to the small produce of last year some Crops were not sown: some Ryots have proceeded to the Nezams talook and to the neighbouring zemindary Estates. Further a portion of the land is relinquished. Hence this Decrease.-
13 8 9	
159 3 11	No 2 - This Decrease is in consequence of a portion of Garden Land under Aumany being included in that for which Puttahs have been given.-
2187 4 3	
998 3 9	No 3 - This decrease is in consequence of an insufficient supply of water and to the low prices of Grain.-
" " .	No 4 - The wet Cultivation is limited owing to the tanks
32 8 9	not having received sufficient Supplies of water and the
280 3 6	dry Cultivation being Carried on in some wet lands Hence this increase.-
1311 " .	No 5 - This decrease arises in consequence of some Land of this Description being entered under individual Rent.-
" " "	No 6 - Vide Remarks above.-
" " "	No 7 - No Remarks.-
" " "	No 8 - This increase is owing to the dry Cultivation being Carried on this year in the Enam lands in the beds of tanks which did not receive full Supplies of water and to the
" " "	
144 12 1	Certain Enam Bunjer Land which was not Cultivated for a long time being Cultivated this year.-
144 12 1	No 9 - Altho a decrease has occurred in consequence of the reduced number of Sheep and Goats, yet the increase is from the grazing tax on the increased number of Cattle passing by the road and those arrived from different places and flocked also on the Cattle belonging to persons who are not Cultivators.-
3643 " 4	
304 1 4	No 10 Owing to the produce of the Tamarind topes being small.-
3947 1 8	No 11 Vide Remarks to No 3.-

idy. 28th April 1843. Errors. Excepted. Jpr.

Fort St. George 8th May 1843.

Order thereon. Ordered to be brought forward at a future meeting.

(29. 30)

Read letter from Principal Collector of Nellore under date the 5th Ultimo forwarding copies of a correspondence between himself and the Common Assignee of the Insolvent Court.

In Cons. 20th April 1843

Proceedings thereon. After the expression of their opinion conveyed in Proceedings September 22/42 to the effect that it did not appear necessary or expedient that the Principal Collector should take a direct part in bringing the matter before the Supreme Court, the Board cannot but regret that the Principal Collector should after a silence of 15 Months have reopened the discussion with the Common Assignee on the subject of the amount claimed on behalf of the insolvent Poorooshottummah Row, and they still consider that it would not be advisable to pay the sum into Court as suggested by Mr. Stonhouse. As however it would appear that Ramalayemmah has no property and could not furnish such full indemnity as would secure the Government from all risk of eventual loss the Principal Collector will be pleased to retain the share in question in deposit until called upon for payment under orders of a Competent legal Tribunal, where he will report the circumstance to the Board and await their instructions. It will be proper that this course should be notified to Ramalayemmah.

Read the following Letters.

(40) To A. Freese Esqre Collector in the Zillah of Chingleput.

From the Collr of Chingleput } Sir,

With reference to the accompanying Copy

Copy of a letter from the Civil Auditor, I have the honor to request that you will be good enough to forward thro' the Board of Revenue to Government my application to be appointed to act as Sub Collector of Tanjore retrospectively from the 2d August 1842 until 15th January last, the date on which I was relieved by Mr. Bishop from the duties of that Sub Collectorate.-

Chingleput } (Signed) M. S. Daniel
3d May 1843 } Acting Judge.

A

To M. S. Daniel Esqre

Acting Zillah Judge

Chingleput

Sir,

In a letter from the Collector of Chingleput dated the 28th Ultimo he reported that you had assumed charge on the 17th of the same months of the duties of Head Assistant Collector of Chingleput to which you were substantively appointed by Government on the 2d August 1842, but it does not appear by the Records of this Office that you were ordered to continue in your acting appointment as Sub Collector after your appointment to Chingleput Consequently in the absence of such an order, you are not entitled to any part of the allowances drawn by you after the period prescribed for travelling by Section XIV of the Absentee Rules now in force, calculated from the date following that on which you received the Order, communicating your appointment of the 2d August last. I have

have the honor to request that you will report the date on which you received that order.-

Fort St. George
Civil Auditor's Office
17th March 1843.

(Signed) J. C. Morris
Civil Auditor.

Proceedings thereon.- Mr. Daniel's appointment to be Acting Sub Collector of Tanjore was cancelled by his appointment to be Head Assistant to the Collector of Chingleput under date 2d August last, but as it is believed that his continuing to discharge the duties of Sub Collector was in accordance with the intention of Government, the Board recommend that he may be reappointed Acting Sub Collector of Tanjore retrospectively from the date above stated, to relieve him from the retrenchment of his allowances to which he is otherwise liable by not having joined his station as Head Assistant Collector of Chingleput, within the period prescribed in section XIII of the absentee rules.

40-41

42

To C. C. Lovell Esqre.
Actg. Secretary to the Board of Revenue
Fort St. George.

From the Collr. of Chingleput. Sir,

Referring to the 3d Para of my letter of the 26th May 1841, I have the honor to report for the information of the Board of Revenue that a sum of Rupees 217-15-2 has been recovered thro' the Provincial Court from the Security of the assistant Yellapah Reddy in the appeal Cause No 124 of 1838 and carried to the Credit of Government.-

Chingleput District Collectors Circuit Cutcherry
Streeperumatoor 5th May 1843.

(Signed) A. Freese.
Collector.

42-43

Order thereon. Ordered that a Copy of the foregoing letter be submitted for the information of Government with reference to Para 2 of the Board's letter dated 22d December 1842.- Read

Read the following letter

To C. C. Lovell Esqre.
Acting Secretary to the
Board of Revenue
Fort St. George.

44

From W. H. Babington Esqre. Sir,
Acting Collector of North Arcot.

Para 1. I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 13th February 1843 with its accompaniments, also of your letter dated 27th Ultimo on the subject of the abstraction of some Balls from the Tombs on the Burial ground at Arnee.-

Submitting Copy of a Report received from the Acting Joint Magistrate on the subject of the abstraction of some Balls from the Tombs on the Burial ground at Arnee and proposing either to employ a Guard to guard the Burial ground or the ground should be kept locked under the care of the Invalid Officer Commanding-

2. I have the honor to answer
Dated 19th April 1843.
From the Acting Joint Magte to the Officer Comdg Arnee dated 10th April 1843.
From the Officer Comdg Arnee to the Acting Joint Magistrate dated 15th Do.
Statement of Barrack Sergeant dated 15th Do.
Translation of an Urzee from the Police Ameen at Arnee dated 21st March 1843.
Petn of Do from the Jaghiredar of Arnee dated 11th April 1843.

Copy of a Report on the subject received from the Acting Joint Magistrate of North Arcot in whose Division Arnee is situated, and other documents as noticed in the Margin.

3. The Burial ground at Arnee is situated within the Fort. When the Fort is not garrisoned by an European Regiment an Invalid Depoy Guard is always stationed there under the Command of a Commissioned Officer of Police

Police Officers are not stationed within the Fort, nor have the Police Officers at Arnee ever been charged with the care of the Burial ground. When I was Sub Collector of this District some years since, all within the Fort was considered as exclusively under the charge of the Invalid Officer Commanding there.

4 It appears that eleven Slabs have been abstracted from the Tombs and that they began to disappear 5 or 6 years ago. The Garrison Serjeant who observed what was taking place states that on finding any of the Slabs missing he "duly reported the circumstance". The Invalid Officer however never made any report on the subject to the Civil Authorities. No trace can now be obtained of the missing Slabs.

5 With regard to the measures to be taken for the future security of the Burial ground, I have ordered an Estimate to be prepared of the expense of building up the ruined wall, and I propose that the ground should be kept locked up and the Key be in the care of the Invalid Officer commanding. I propose that in the absence of an European Regiment, the Invalid Officer commanding the Fort should

should have charge of the burial ground as it is situated within the Fort, and as there is no Civil European Functionary at the Station. If this is not considered expedient, I propose that 4 Peons be entertained for the purpose of guarding the Burial ground, for the Fort is distant from the town, and the Establishment of Peons at present maintained there is not so strong that one of the number can be constantly spared to keep guard in the Fort.

North Arcot,
Coll.rs Circuit Cutcherry,
Ranepet 1st May 1843.

/ Signed / W. H. Babington
Acting Collector.

To W. H. Babington Esq.re
Acting Magistrate of
North Arcot.

Sir,

Para 1. With reference to Mr. Goldingham's letter of the 21st February last No. 4 to the address of my predecessor, transmitting Copy of Extract from the Proceedings of the Board of Revenue of the 13th idem, enjoining the institution of an enquiry regarding the abstraction of some Slabs from the Tombs in the burial ground at Arnee, as resolved upon in an Extract from the Minutes of Consultation in the Military Department under date the 21st January of the current year No. 289, I have the honor to submit the following report on

2. On receipt of the letter and Proceedings above referred to, the Police Ameen of Arnee was called upon by the Joint Magistrate Mr. Lovell under date the 23d. February, as appears by the records in my Office to furnish the information required and from that Officer's successor (the Police Ameen having in the interval been promoted to the Tahsildarship of the Arcot Taluk) an Urzee was received dated the 21st. Ultimo to the effect; that having gone and visited the burial ground in company with the Garrison Serjeant he observed that some of the graves were without stones, that on counting them they amounted in number to eleven; that the burial ground was in a lonely isolated situation, and by only possessing walls on three sides opposed no difficulty whatever to individuals entering; and that it was impossible at the present time to ascertain who had abstracted the stones, or to hope to recover them.

3. As the Police Ameen further stated that the Garrison Serjeant who had been quartered at Arnee since 1836 had told him that he had gradually for some time seen the slabs diminishing in number, I did myself the honor of addressing a letter to Lt. Colonel Vivian of the 1st. or Fusileer Regiment, the Officer at present in

in Command of the Fort, of which a copy is enclosed, requesting him to have the kindness to furnish me with the Serjeant's Statements in his own words. This he was obliging enough to do and his reply forwarding the Serjeants statement is appended.

4. You will observe by the latter, that the abstraction of the slabs was duly reported by the Serjeant, and though not stated to whom, it was doubtless to the Officer in temporary Command of the Garrison, since the serjeant could hold no official communication with any one else, and I need here scarcely mention, that if any of the Gentlemen who respectively held the command at various periods, had brought the circumstance to the notice of the Joint Magistrate, proper measures would have been adopted to prevent the further desecration of the burial ground. The Police Tannah however, as appears by the serjeant's statement, being stationed above 3 miles off, and the burial ground being situated in a spot by which the Peons would have little occasion to pass, will account for their not having observed the abstraction of the slabs, and consequently for their having omitted to acquaint their

2. On receipt of the letter and Proceedings above referred to, the Police Ameen of Arnee, was called upon by the Joint Magistrate Mr. Lovell under date the 23d. February, as appears by the records in my Office to furnish the information required, and from that Officer's successor (the Police Ameen having in the interval been promoted to the Tahsildarship of the Arcot Talook) an Urzee was received dated the 21st. Ultimo to the effect; that having gone and visited the burial ground in company with the Garrison Serjeant he observed that some of the graves were without stones, that on counting them they amounted in number to eleven; that the burial ground was in a lonely isolated situation, and by only possessing walls on three sides opposed no difficulty whatever to individuals entering; and that it was impossible at the present time to ascertain who had abstracted the stones, or to hope to recover them.

3. As the Police Ameen further stated that the Garrison Serjeant who had been quartered at Arnee since 1836 had told him that he had gradually for some time seen the slabs diminishing in number, I did myself the honor of addressing a letter to Lt. Colonel Vivian of the 1st. or Fusileer Regiment, the Officer at present in

command of the Fort, of which a copy is enclosed, requesting him to have the Kindness to furnish me with the Serjeants Statements in his own words. This he was obliging enough to do and his reply forwarding the Serjeants statement is appended.

You will observe by the latter, that the abstraction of the slabs was duly reported by the Serjeant, and though not stated to whom, it was doubtless to the Officer in temporary Command of the Garrison, since the serjeant could hold no official communication with any one else, and I need hardly mention, that if any of the Gentlemen who respectively held the command at various periods, had brought the circumstance to the notice of the Joint Magistrate, proper measures would have been adopted to prevent the further desecration of the burial ground. The Police Jamnah however, as appears by the Serjeants statement, being stationed above 3 miles off, and the burial ground being situated in a spot by which the Peons would have little occasion to pass, will account for their not having observed the abstraction of the slabs, and consequently for their having omitted to acquaint their

their European Superiors with what was going on and also for no measures having been adopted by the latter for putting a stop to it:-

5. The Jaghiredar of Arnee having been vested with Police authority till the 13th of August 1839, it is possible that many, if not all of the Slabs were carried off during his Magistracy, and before he was relieved of the above duties, as would also appear by the Serjeants' statement who refers to their abstraction about 6 or 7 years ago. Letters were addressed to the Jaghiredar to explain the reason of the Slabs being missing, and in a reply dated the 11th Instant, he states that had the Circumstance of their being carried away been brought to his notice by the Officer Commanding the Garrison, he would have done all in his power to prevent a recurrence of it.-

6. The Cutwalls Peons have lately been ordered to see that no more of the slabs are carried away; and I hope there will be no further cause for saying that the Police are neglectful of their duties in regard to them.-

7. The Fort of Arnee having invariably, I believe, an Invalid Officer attached to it and being always liable to be garrisoned by European Troops, I would suggest in the absence of a permanently resident Civil Officer of Government that

that the burial ground be placed by order under the charge of the Superior Military authority for the time being; under whom I am inclined to think it must, by courtesy at least, have also hitherto been; and, in the absence of any of the Military, its preservation can with propriety be entrusted to the Police ameen.-

8. The Minutes of Consultation requiring measures to be adopted for the future security of the Burial ground, I have to suggest that a Mistry be sent to make an Estimate of the cost which would attend building up the fourth wall and generally repairing the other 3 if required - so as effectually to prevent all ingress or egress: and should you kindly favour me with your orders on this point, I will see them immediately enforced.-

North Arcot District, Joint Magistrate's Circuit Office, Trivettoor, 19th April 1843.-

/ Signed / C. J. Shubrick
Acting Joint Magistrate.-

To The Officer commanding Arnee.

Sir

Para 1. The Police Ameen of Arnee having mentioned in a report he was lately called on to make regarding the abstraction of some Slabs from the graves in the burial ground at the station under your command; that the Garrison

Garrison Serjeant, or a Serjeant belonging to the garrison with whom he went to inspect them, had informed him that he had been gradually seeing their number diminish ever since the year 1836; may I request you will in the absence of any one I can appoint to the duty (unless the Serjeant himself can write his own statement) do me the favor of allowing one of your writers or other person you may think fit to take down a short statement from him regarding his Knowledge of the causes and Circumstances attending their disappearance.

2. As the name of the Serjeant was not mentioned in the report above alluded to the Police amen has been ordered to point him out to you, should you send him a Requisition to that effect.

North Arcot District
Joint Magistrate's Office
Arcot 10th April 1843

Acting Joint Magistrate.

To The Acting Joint Magistrate of
North Arcot.

Sir,

I have the honor to acknowledge the receipt of your letter No. 5 dated 10th Instant, and I have the pleasure to send the statement you require, made before the staff

Staff Officer of this station who has attested the same.

I shall most willingly on all occasions attend to any similar requests from you, and shall be glad to forward the public business in any manner you can suggest.

Arnee, 15th April, 1843.

/ Signed / R. J. H. Vivian Lt. Colt.
1st N. C. Regt. Comg. Arnee.

Statement of Barrack Serjeant Joseph Fruin.

About 6 or 7 years ago in consequence of there being no protection for the Tombs in the Fort at this place, I think 13 or 14 small Slabs were taken away at different periods; on one occasion the Sepoys of the Guard detected a fellow running away with one, they however recovered the Slab, but the man escaped, it is now in the guard room, but in a broken useless state. The Police at that time was distant 3 Miles off the Fort. I occasionally inspect the Tombs and on finding any missing duly reported the circumstance. The Fort walls are in such bad order that Ingress and Egress is very easy.

A correct Statement.

Arnee, 15th April, 1843.

/ Signed / J. Warington. Lieut.
1st N. C. Regt.
Staff Officer.
Aryee

Arzee addressed by the Arnee Police Ameen to H. Babington Esqr. Acting Magistrate on the 21st March 1843.

In reply to the late Joint Magistrate's Lakeed to me of the 23d Ultimo relative to the removal of a number of Granite Slabs from the Burial ground in the Fort at Arnee, as noticed in an Extract from the Proceedings of the Board of Revenue on the report of the Major General Commanding the Division, I beg leave to state that I proceeded to the spot in company with the Garrison Serjeant there and on looking at the Tombs I find that some have been built with an intention of fixing the slabs afterwards, room being left for that purpose the Fort is invariably in charge of the Officer commanding the Regiment at Arnee, in the absence of a Regiment the charge devolves on an Invalid Commanding Officer.

The Serjeant tells me that only the Barracks, Granary, and Officers quarters are guarded by Sepays, that these are situated in the Centre, and in the Southern side of the Fort, whereas the Burial ground is situated in a lonely place at the western extremity of the Fort, and is entirely detached from all

all supervision; that it is enclosed by a low wall on the three sides, leaving that on the westerly side bare, allowing thereby free access into it. There is nor ever was a Guard placed at or in the vicinity of the burying ground.

I beg to state in furtherance that I find about 11 Tomb stones or Slabs actually removed.

The Serjeant, it appears, has been in the Fort from the year 1836 and in several occasions found the Slabs missing, which he reported to the Officers Commanding, and that the loss, however, is not much since the last three years. that about 2 years ago, an unknown person was seen by a Sepoy taking away a slab from the burying ground, that on the Sepoy running after to catch him, he dropped it down and escaped detection, and that the slab, which was broken in two pieces, was from that time left in charge of Sepoys.

The late Police Ameen in an Arzee dated 11th April 1841 to the late Joint Magistrate, informed that the slabs must have been stolen by some mean persons in consequence of the burial ground being situated in a lonely site and destitute of a Guard or any other protection, and that they can be of no use whatever to the people of this place.

My

My attempt to discover the stolen Slabs proved fruitless, nor can any clue be obtained to trace the apprehension of the persons who took them away.-

I continue to send Cutwalls Peons both day and night to guard the burial ground from further depredation. But I repeat that the site it is situated affords facility for committing the robbery.-

/Signed/ Venkiah

Police Ameen.

Arzee addressed by the Jaghiredar of Arnee to J. C. Shubrick Esqre. on the 11th April 1843.

In reply to your letter observing that I have failed to enquire and report on the subject of the abstraction of certain Slabs from the Fort at Arnee during my administration of the Police duties, I beg to state that had the Commanding Officers of the Fort brought the matter to my notice, I should certainly have acted according to usage and the result duly reported.-

The fact that such had at all transpired I cannot now say, as the whole of the Police record have been transferred to the Police Ameens Cutcherry.-

/Signed/ Seenevasa Row
Jaghiredar.

(True Translations)

/Signed/ W. H. Babington
Acting Collr. and Magistrate.

Ordered

Ordered that the following address be submitted with the foregoing letter.-

44.45

To the Acting Chief Secretary to Government.-

To the Actg. Chief Secy. to Government.

Sir.

Para 1. With reference to the Orders of Government under date 2d February last, requiring information regarding the removal of the Granite Slabs from the Tombs of deceased Officers at Arnee. I am directed by the Board of Revenue to submit the accompanying letter from the Acting Collector of North Arcot.-

2. It appears that when the Fort at Arnee has not been garrisoned by a European corps an Invalid Sepoy Guard has been stationed there Commanded by a Commissioned Officer and the burial Ground being situated within the fort has on such occasions been under his charge, but not at any time under the care of the Police Authorities. About 6 or 7 years ago the Garrison Serjeant noticed the disappearance from time to time of the Slabs, about 11 of which in all appear to have been removed, and "duly reported the circumstance" but no information was afforded to the Police who are now unable to obtain any trace of them.

3. The Acting Collector has ordered an Estimate to be prepared for building up the ruined wall and proposes that the burial Ground

ground shall be kept locked up hereafter and the Key be deposited with the Invalid Officer Commanding in the absence of superior Military Authority. These arrangements appear sufficient, and it is hoped will prevent similar depredation in future.
