Salt and Opium Fort William

Sir,

I have the honor to acknowledge the receipt of your letter No. 198 of 27th ultimo with its enclosure, and in

in reply to request that you will inform t
Board that as I receive no official intim
of the port of the Vessel's departure, but am n
directed to receive Madras "Permit Salt" I am
unable to comply with the request of the Col
of Madras for a separate list of Sloop
from Ennore.-

At the time the Vessels ar
off the Golahs the port of departure is
easily ascertained either by inquiry or by
casual inspection of the Salt the quantity
of which is different at each port where
it is usually imported, but as there is no
object generally in keeping an account
the port of departure, when the Salt is
once stored it is with difficulty to be
traced. a note has been kept by the Gl
Officer of the Golahs of the port of Shipm
of Coast Salt imported in British Vess
but as regards Native Craft there is no record.

I submit 2 Statements
shewing the outturn of Cargoes which as corr
=borating the verbal Statements induced me
to submit the letter of the Commander
agency for the orders of the Board and
Government and which if forwarded to
Madras may supply the information requir

I have the honor to return t
documents received with your letter under
acknowledgment.

From the Chief Secy. to Govt.

Extract from the Minutes of Consultation
Under date the 27th. May 1843

Read again Extract from the Proceedings of the Board of Revenue dated 12th. January entered in Consultation 14th. February

Read also letter from Actg. Secretary to the Board of Revenue. —

Submitting with reference to the Extract from the Minutes of Consultation dated 14th. February last a further letter from the Collector of Trichinopoly with its Enclosures relating to the claim of Moortaza Cooly to an Enam at Mannygundum in the Conaud Taluk, and stating that the Board regret that these papers do not enable them to throw any additional light on the question whether the present claimant is in reality the rightful heir of the last incumbent. —

(Here enter 27th. April 1843 No. 213)

Para 1. — Without entering into the question of the right of Moortazah Cooly to the Enam at Mannygundum as the heir of the last incumbent, which has not been as yet established, the Most Noble the Governor in Council is by no means satisfied that the

the Grant is "Hereditary" as assumed by the Board of Revenue. The Purwanah accompanying on their letter of the 27th Ultimo does not declare it to be so, and the simple entry of the word "Hereditary" in the Register furnished to them by Mr. Wallace in 1803 (and which is in itself an unsatisfactory document) unsupported by any circumstantial or other evidence, is no proof of that fact. While the grant itself purporting to be for "subsistence" and as such restricted only to the lives of the persons on whose the Enam was originally conferred, leaves little room to doubt that it is not "hereditary."-

2. Under this view, His Lordship in Council resolves to direct that the Enam be not restored to any Member of the family, but be permanently resumed and incorporated with the Government lands, and that the proceeds which have heretofore accumulated in deposit be credited to Government.-

3. His Lordship in Council understands from Para 3 of the Board's Proceedings of the 27th November 1842 directed to the Collector of Trichinopoly, that they hold it both irregular and objectionable as the Government do, to dispose of the Deposits in the manner contemplated by that officer - His Lordship in Council is of opinion

opinion that all sums, ascertained to belong Government, should be brought to account the first instance, and that "public improvements" should be executed upon regular Estimates, and paid for out of the general resources of the State.-

To the President and Members of the Board of Revenue.

Order thereon- Ordered that copy of Paragraphs 1 and 2 of the foregoing Extract from the Minutes of Consultation of Government, be furnished for the information and guidance of the Collector of Trichinopoly with reference to his letter of the 4th April last, and that the concluding Para be considered in the Department of Public works with reference to the 3rd Para of the Board's Proceedings under date 12th January last No. 25.-

Read the following Resolutions Extract from the Minutes of Consultation dated 27th May 1843.-

Sir,

To the Chief Secy. to Government

Submitting a correspondence with the Collector of Rajahmundry on the subject of the Ramachandrapooram Zemindary again called upon on outstanding balance at present of Rupees 6,860-13-9 and stating that previous to recommending the final alienation of the said Estate to the Government he would submit that the attention of the Government be specially drawn to the charge

I am Sir,

Your

Most Obedient Servant

I am directed by the Board of Revenue to forward to you for submission to the Most Honorable the Governor in Council the accompanying correspondence with the Collector of Rajahmundry on the subject of the Ramachandrapooram Zemindary in his District. —

2

On reference to the documents noted in the Margin it will be seen that the Ramachandrapooram Zemindary

charged with the official duty of investigating the circumstances of the involved Zemindaries in Rajahmundry might be advantageously directed to stay further proceedings being in the meanwhile suspended also recommending for favourable consideration an application made by the Collector for a monthly allowance of 250 or 300 Rupees to the Zemindar C. Ramachandra pauga. —

Zemindary on being made over to the present Proprietor Vakeralapoody Ramachandra Rauze in 1836 remained burthened with a debt of 47,000 Rupees being the moiety of Rupees 94,000, raised on Mortgage by the Zemindar and his Brother, holder of the Cotah Estate, for the purpose of satisfying the claim of one Cudumaraba Rauze. The principal rate of Interest at which this loan had been obtained from the Candamally family subsequently induced Government to authorize an advance of 47,000 Rupees from the Public Treasury for the purpose of redeeming the Mortgage on condition that C. Ramachendra Rauze should take upon himself the payment of a private claim of Rupees 22,000 which had accrued on

on the joint Estates of Ramachendirapoo-
ram and Cottah, but had since there-
subdivision been the subject of continual
disputes between their respective Proprietors.
It was further stipulated that the advance
should bear Interest at 5 per Cent and
together with the 22,000 already mentioned be
liquidated by annual instalments of
Rupees 9,000 - - - It might have been expected
that this charge upon a Property the resources
of which were at the framing of the permanent
Settlement estimated at Rupees 89,867 would
in the course of a few years have been extinguished
the Statement however (No 3) which accompanied
the Collector's letter of the 24th April shews that
not only no part of this loan has been liqui-
dated but that the arrears of the Govern-
-ment Peishcush to the end of the pre-
-sent fasly will, as it is computed,

3. This embarrassed condition
of the estate is doubtless in some measure
to be ascribed to the disastrous nature
of the late seasons Fasles 1248 A.D 1838/39 1249 1839/40
1250 1840/41 1251 1841/42 "The first of these" to use Mr.
Smith's words" was a year of complete famine
in the second the greater portion of the
Crop of the District was destroyed by a
most violent storm and inundation
of the sea, in the third the crops failed
almost as completely as in the first,
and the prospects of the fourth year
tho' at one time most promising were
blasted by the entire failure of the
N. E. Monsoon." It must however be
added that the losses for which the
Government might have been prepared
as consequent on such a succession of
calamitous seasons have been further
enhanced by the discreditable conduct of
the Zemindar himself who in Fasly 1249 A.D 1839/40
out of Rupees 48,081 which he had realized

appropriated. Rupees 27517 to his own purposes.

4. The present depressed condition of the Ramachendrapooram estate is fully set forth in the Collector's letter of the 21st April the number of cultivating Ryots which in Fusly $\frac{1239}{A.D.\ 1829/30}$ was 1815, has in the present year, declined to 1498. or decreased by one sixth, while the land cultivated in Fusly $\frac{1252}{A.D.\ 1842/43}$ is less than that under tillage in $\frac{1239}{1829/30}$ by nearly one third. The collections for Fuslies $\frac{1250}{A.D.\ 1840/41}$ – $\frac{51}{1841/42}$ have fallen in each year below 50,000, while the settlement for the current season being as it would seem the utmost which the estate would bear is Rupees 59,927 or somewhat below the amount of Permanent Peishcash. This melancholy result Mr. Smith seems mainly to impute to the Zemindar who in place of restricting his demand on his subtenants to the standard or original assets, on which the permanent assessment was formed being Rupees 89,867-13-1, has compelled them to hold their land on a nominal assessment of Rupees 111,294-5-7 "his object being to have a

a lien on his Ryots for every atom of produce which might be yielded in the most favorable season. The inability of the Ryots to continue their cultivation the present assessment" is stated by the Collector to have been sufficiently established at the last Summabundy.

5. Such being in the opinion of Mr. Smith the principal cause of the depression under which the Zemindary is now labouring the measure of relief which he suggests is to reduce the assets, that is in other words to limit the demand upon the Ryots to Rupees 90,000 being within a few rupees of the assets on which the permanent settlement was originally framed. So this the Zemindar will consent and under this arrangement the Collector has little doubt that the whole of the Government balance will be liquidated in the course of twelve years.

6. In elucidation of this part of the subject the Board beg to refer to the accompanying Statement which has been prepared from the detailed accounts of the estate transmitted by the Collector 30th December 1839. It will be seen that the permanent assets mentioned in the foregoing Paras are in fact the average Collections on account of Land Revenue Sudiger Meturpha Vea from Fusly 1196 A.D. 1786/87 to 1208 1798-99 inclusive being the basis on which the Permanent Settlement was framed. It must not however be concluded that these were in any degree identical with the average actual demand on Zemindars Cist on the above period. Thus it appears that the average demand on the series of years already quoted amounted to Rupees 1,03,229-3-1. the actual receipt being only 89,867-13-1. Sicca the second series of Fuslies given or from 1234/1824/25 to 1246/1836-37 both inclusive while the demand (exclusive of Meturpha) averaged Rs. 106,155-5-4 the collections only reached on an average to Rs. 81,156-11-10. These are averages, the demand and collection for each year would of course vary with the nature

In Con. 13th Jan. 1840.

nature of the seasons. Thus to take the

	Demand	collection
1234	116,408	107,203
1242	115,283	80,589
1243	111,688	90,653

term during which the Zemindary was under Government management the demand for the fuslies 1234/A.D. 1824/25 42/1832/33 43/1833/34 was higher than the Cist framed by the Zemindar, and so strongly condemned by the Collector — On which of the fuslies from 1246/A.D. 1836/37 when the estate was put under the charge of the Zemindar to 1249/1839/40 when it was again taken under Zuft the Cist above alluded to was demanded, Mr. Smith has omitted to specify, but supposing the year for which it was framed to be but a little above the average, it will by no means follow that the settlement was excessive as it should not be forgotton that it is only 5000 above the average demand on the thirteen years from 1234/1824/25 — 1246/1836-37 which has been already quoted.—

* Rs. 111294.

7. As under these considerations the Board cannot but hesitate in attributing the depressed condition of the Ramachendrapooram estate to the high nominal Cist imposed by the Zemindar so by parity of reasoning they must consider it

it questionable whether the reduction of the nominal demand as contemplated by the Collector will be attended with the beneficial results which that officer anticipates - Mr. Smith's scheme it has been seen is to reduce the assets, or in other words restrict the demand on the ryots to Rupees 90,000 per annum, being within a few rupees of the average collections on which the permanent settlement was framed - assuming the fixed items as Sodigee Mocturpha and other extra sources (vide Col 3 of the Statement) at 12000 Rupees the annual demand upon the land will be lowered from Rupees 94,149 the average of the first series of years already referred to or from Rupees 94924-4-8, that of the second to Rupees 78000, or 17 and 14 per cent respectively - On what principle the assessment is to be reduced so as to give the above result on the whole Zemindary, and if the demand be invariable and irrespective of seasons, in what manner the deficiency on one year is to be compensated by the increase on another the Collector has omitted to explain, but it will not be

x From 1196-1208 these are counted to 11,779 annual average exclusive of tax on Palmira Trees From 1234-1246 to 1231 - excluding Mocturpha -

be necessary to call upon him for further information, as in the opinion of the Board altho' the details of the scheme were carried out, the measure itself is altogether inadequate to produce the results expected from it -

8. It is sufficiently evident that no reduction of demand can be effectual unless the demand so reduced be such as can with certainty be realized - It is no less clear that all calculations of the future revenue to be yielded by the Zemindary under consideration can be based only on the outturn of former years Let it then for the present be supposed (which will afterwards be shewn to be an exaggerated estimate) that the collections for each of the ensuing twelve years equal the average of the receipts from Fusly $\frac{1234}{1824/25}$ to $\frac{1246}{1836/37}$ on 84,146 and including Mocturpha which may be computed at 3000 Rs. to Rs. 84,146 annually -

The Charge to be set against this amount are -

— One twelfth of Rs. 1,75,566 - being the balance expected at the close of the Fusly

This computation is exclusive of interest even upon the loan actually advanced by Government, and has also no reference to the private claim of Rs. 22,000. which as stated in Para 1 of this communication the Zemindar has taken upon himself yet without adverting to these it will appear that the lowest amount of charge which under the plan now proposed would be thrown upon the estate is such as could barely be met tho' the autturn of the ensuing twelve years should be on the average equal to that realized under former management from $\frac{1240}{1824/25}$

8216.

Fort St. George 1st. June 1843

$\frac{1240}{1836/37}$ It is however evident from the whole tenor of Mr. Smith's last letter that the condition of the Zemindary has undergone a striking deterioration during the last 6 or 7 years. It has been shewn that as compared in the Fusly $\frac{1239}{A.D.\ 1829/30}$ the agricultural population has been diminished by a sixth, and the extent of cultivation by a third. The demand for fusly $\frac{1250}{A.D.\ 1840/41}$ $\frac{51}{1841/42}$ (which of course are not quoted as average seasons but merely as evidences of the exhausted state of the property) was Rs. 73,663 and Rs. 72,872 respectively, and the collection in either year fell short of fifty thousand rupees. The settlement for the current fusly being it would seem the utmost which the estate would bear is Rupees 59,927 or somewhat below the Permanent Peishcush.

9 It may be useful here to advert to the results of the 19 x years management of the whole estate of Cotah and Ramachundrupooram of which the latter is only a moiety. The Net surplus may be stated in round numbers at 2 lacs

x From fusly 1227 to 1245 inclusive.

lacs of Rupees Viz.t one lac of arrears liquidated and a balance in favor of the Zemindary at the expiration of the above term of Rupees 9,459-5-11 which with Rupees 85,891 paid by Government on account of the resumption of Mutupha gives rather more than another lac. Under the present scheme a weight of nearly two lacs (including the 22000 Rs. already adverted to is thrown upon half the original property, and that at a time when its resources are greatly impaired as compared with its condition during the former term of management

10. Were the realization of the out standing arrears under Mr. Smith's plan less dubious, its adoption is in the judgment of the Board open to other objections. During the twelve years for which the estate would remain under attachment, its proprietor would continue a mere pensioner on the bounty of Government on a monthly stipend of Rupees 200 or 300 debarred of all share in the administration of the Zemindary divested of all respect or influence among his people and at the expiration

Fort St. George 1st June 1843

expiration of the term would reenter upon the charge of his estate overwhelmed with private debts contracted on the most usurious terms, which in a few years would involve his property in fresh embarrassments to be terminated only by a second course of government management. It has been before remarked that this Zemindary was only released from a 19 years Kyfut in Fusly 1246, and was again assumed in $\frac{1249}{1839/40}$ if it is to be thus held for 12 years more it follows that of the 39 years or from Fusly $\frac{12\,7\,7}{1817/18}$ to $\frac{12\,6\,4}{1854/55}$ (inclusive) the estate will only have been four years in the possession of its nominal proprietor. The disadvantages of such a system require no comment.

11. The Board for the reasons above stated feeling themselves precluded from supporting the scheme suggested by the Collector would have no alternative but to recommend the final alienation by public sale of the Ramachendrapouram estate in satisfaction of the Government demand. Prior however to

8219. Fort St. George 1st June 1843.

to resorting to this extreme measure against one of the ancient land-holders of the country. They would submit that the attention of the Commissioner who has recently been charged with the special duty of investigating the circumstances of the involved Zemindaries in the Rajahmundry District might be advantageously directed to the estate in question, further proceedings being suspended until the Government shall be in possession of Sir H. Montgomery's views of its present condition and future prospects.

12. The Collector has it will be observed on more than one occasion humanely brought under the consideration of the Board the distressed state of the Zemindar C. Ramachendra Rauze and solicited some temporary provision (250 Rs. monthly is the sum specified) for his support. His conduct in Fusly 1249 / A.D. 1839/40 is indeed highly deserving of censure, in most cases however when estates have been attached some allowance has been made to their proprietors from motives both of charity & policy. If indeed there be cause of

8220. Fort St. George 1st June 1843.

of Ramachendra Rauze, ultimately resum[ed] charge of his Zemindary it seems most unwise, by denying him in the interim all means of support, to force him into debts contracted at ruinous rates of interest to the permanent prejudice of his Estate. The Board therefore beg to recommend the application contained in Para 5 of the Collectors letter of the 24th April for a Monthly allowance of 250 or 300 Rupees to the favorable consideration of Government.

for the information of the Board of Revenue that this district has been visited with a disastrous hurricane. On Sunday the 21st the sky assumed a threatening appearance, and the wind set in strongly from the North East, accompanied with rain. The rain and wind continued to increase till Monday afternoon when the approach of a gale became evident. It then blew with progressive violence and with torrents of rain and terrific thunder and lightning till midnight when there was a lull for more than an hour, after which the wind set in from the South west and blew with its highest

highest fury till 3 O'clock A.M. from which time it moderated. From the flooded state of the Country specially between Bapetlah and Chundrapetlah where the communication has been interrupted for the last four days, the reports of some of the Ameens have only reached me this day. By a merciful Providence the loss of human life appears to have been far less than might have been expected. No accounts have yet reached me from Palnaud but the gale appears to have been fell over all the rest of the district. Houses have been wholly or partially destroyed, a great number of trees blown down, tanks burst, the stalks of unthrashed grain carried away or spoiled, and a great number of Sheep and Cows lost. The town of Rajahpettah was completely inundated by the Mullah which flows past it swelled by the bursting of several tanks. Five persons are reported to have been carried away, the rest escaped by taking refuge in an old fort. The same Mullah augmented in its course filled, and then burst the Banpetta tank, and inundated the whole Country under its level. The last Crop, the standing

sharing of which had commenced the day before, has mostly, if not all, been swept away a number, said to be about forty of poor beggars who were lodging near the threshing floor, are supposed to have perished though only a few besides have as yet been observed. The Tappal Peon has this morning brought a report of the discovery of 2 Palankeens, 1 Cart, 2 Horses and several bodies near Curlapollem between Bapetlah and Chundole. If this be correct, it would appear that a party of native travellers had been overtaken by the flood.

2. The direct loss of Revenue will fall chiefly in the Banpetlah and Jenaldy Tanahs, where the grain of the sharing Villages was not divided.

Sir,

From the Coll.r of Bellary—

Reporting the circumstances connected with the ruined Village called Valpoonadoogoo in the Gooty Talook having been restored by certain Ryots of Yadakee Talook agreeably to the original engagement noticing the benefits which accrued to Government therefrom and requesting the Board to determine whether with reference to the former Coll.r Mr Robertson's report the cowle of the Ryots for Enam can now be exposed.

Dated 29th Dec.r 1835.

Para 45 of the Report for Fasly 1235
Dated 1st March 1827—

See Para 61 of the Summabundy Report for Fasly 1234.

The Board are aware that on a former occasion the late Principal Collector Mr Robertson reported his having accepted an engagement from certain Ryots of Yadakee Talook for restoring a ruined Village (Valpoonadoogoo) in the Talook of Gooty and breaking up Black land fields containing 758 Acres rated at Canteroy Pagodas 369 engaging also not to contract their usual farms in Yadakee also to sinking a Well all on the condition of the Circar allowing the Great Plough Cowle for a period of 7 years and granting in Enam a piece of land of 50 acres assessed at 16 Fanams per acre. The Board though objecting at first on certain grounds entered in their Proceedings, were inclined nevertheless to give full weight to the further observations of that Officer, and have been pleased to recommend in their next Proceedings that the grant may be confirmed prohibiting however any

engagement of the kind being hereafter made without being previously submitted to them, and the Government have accordingly sanctioned the recommendation in the

Para 6 Minutes of Consultation dated 27th March 1827

2

I have now to acquaint you for the Board's information, that the quantity of land these Ryots have cleared is Acres 770 assessed at Rupees 411, and after enjoying the Cowle for 7 years that the land is fully reclaimed, that they hold Pattahs for the same and pay the assessment which amounts to Rupees 855 after deducting the usual remission of one fourth since the last four years the Cowle having then expired.—

3

I must not neglect to inform the Board that they were punctual in the fulfilment of their original engagement that they augmented even their ancient holdings in Gadakee. Since the Cowle expired which was in fasly 1249 these people have frequently urged their claim to the promised Enam of 56 Pagodas in land in consideration of the

the cost and labour bestowed in rendering the place habitable and sinking a Well. The recommendation of this grant has been deferred that the Collector might be satisfied that the agreement was finally fulfilled. I am able to state that they have restored the Village by erecting 50 Houses and populating it, with 32 families consisting of 90 Men and 82 Women, that it also contains 21 Bullocks &c. The well they have formed and the small Tanks are capital ones, and the water is a great comfort not only to the inhabitants themselves but also to neighbouring Villagers who resort to the vicinity with numbers of Cattle. The Money expenses for the Houses are estimated at Pc 569

1 Village Choultry
3 Flat Houses

Dc for the Pond at 160

1979

Independent to the above, their own labour may be estimated at a further sum making the whole cost nearly 4,000 Rupees.

4

From this Statement the Board I trust will be pleased to take into their serious consideration the trouble and the interest these Ryots have taken in fulfilling their engagement according to the inducement

an inducement held out to them by the late Principal Collector added to the extraordinary benefit the arrangement has already brought to Government by an increase Revenue amounting annually to Rupees 855-

5 The Board will also determine whether Mr. Robertson having held out what I cannot but look upon as a promise, and the Government having undoubtedly become great gainers by the whole transaction, the request of the Ryots can now be refused.

Submitting further information relative to the Robbery committed at the Salt Depot at Semmunjary and the steps taken to trace the offenders-

I have the honor to acknowledge the receipt of the Board's Proceedings of the 17th instant transmitting Copy of an Extract from the Minutes of Consultation dated the preceding day requiring further information relative to the robbery committed on

on the 29th Ultimo at the Salt Depot of Semmunjary and with reference to the amount then in deposit, to state that the Collections from the sales of Salt, which used formerly to be remitted from the Salt Depots to the Talook Treasuries once a Month, have for some years past, been remitted once in 15 days, from whence they are again remitted with the land revenue and other Collections monthly either to the Poonamallee Treasury at Conjeveram or the General Treasury at Fort St. George- The Salt Depot at Semmunjary is distant 10 Miles from the Sydapet Talook Treasury at Guindy, and 45 Miles from Conjeveram the remittances are therefore made to Guindy and from thence to the General Treasury at Fort St. George

The amount in the Cash Chest at Semmunjary on the date of the robbery was the Collections of 13 days-

The guard employed at Semmunjary consists of 1 Duffadar and 8 Peons, a number barely sufficient for the duties of watching the Pans, Salt in store and to furnish a guard at the Salt Cutchery, and I may also take this opportunity of recording my opinion that no care or attention in the selection of Peons will ever render them such efficient guards over a Treasury as disciplined men- Several of the Salt Depots in this District as in the case of Semmunjary are from unavoidable causes situated at some distance from-

from large and populas Villages and I would
therefore suggest as an additional precaution that
those Estates should be furnished with Iron Cash
Chests - for in event of similar attempts being any where made such chests would
resist every effort to break them open whilst their weight and particularly with money in
them, would secure them from being carried off bodily -

2 With reference to the steps taken to trace
the offenders, I have the honor to state that directly the
wounded Prisoner informed the Tahsildar that the party
who with him committed the Robbery had come from
Madras, he waited on the Chief Magistrate and Superin-
tendant of Police who furnished him with some Peons
and gave him every aid in his power to trace the persons
named, but from further information since obtained from the
Prisoner it appears, that the parties he alluded to were
chiefly men from the District of Salem, who had been
in Madras for a short time, and who are supposed to
have returned to their country immediately after the per-
petration of the Robbery - A Darfadar and several of my Peiyets were
despatched to Salem some days since with a letter to the Acting Ma-
gistrate calling for assistance to secure these persons and as their
Villages are known, I trust some success may attend the measure

3 The Prisoner who was cut down by the Village
Moonsiff is an old offender, he having formerly been transp-
orted for seven years under the sentence of the Supreme Court

and

and subsequently been confined in the Jail at Chittoor for a
further period of seven years; which last period of imprison-
ment only terminated about two Months since - The
Moonsiff is certainly deserving of a reward for his
conduct, and I would suggest that the present of a
sword with a silver handle of the value of 100 Rupees
should be given to him - Such a present I have
ascertained would be more acceptable to him than a
present in money -

Order thereon

Ordered that the foregoing letter
be submitted for the information of the Most Noble
the Governor in Council with reference to the Extract from
the Minutes of Consultation under date 16th May last.

There appears nothing unusual in the
amount of Cash deposited in the Salt Cutcherry of Sem-
mengary but the strength of the guard seems scarcely
sufficient for the performance of the various duties
of watching the pans or the Salt in Store, and guarding
the treasure and Cutcherry, the Collector proposes to supply
the Salt Depots at Semmengary and several other
places which are situated at a distance from large
and populous Villages with strong Iron Cash Chests, a
which appears to the Board, a very proper and effectual
precaution

precaution -

The Robber who was cut down by the Moorsiff. is an old offender lately released from the Jail at Chittoor and the rest of the gang are stated to be inhabitants of the Salem District whither a party of peons has been dispatched in pursuit and the Collector hopes will succeed in securing them -

The Collector is of opinion that the Conduct of the Moorsiff is deserving of a reward and states that a Sword with a Silver handle would be more acceptable to him than a present in Money - Such a reward appears well suited to the occasion and the Board concur in Mr. Sress recommendation that 100 Rupees may be allowed to be expended for this purpose -

Actg. Collr of North Arcot -

Requesting Sanction for disbursing Rs 213-2-0 on account of Pay & Saderwand of the Narravanum Talook Establishment for January last as the amount sent by a Peon of that Talook on the 20th February 1843 was misdelivered by him -

On the 20th February last the Saderwand and Pay of the Silledy Establishment of the Narravanum Talook for the Month of January amounting to Rs 214-10 was forwarded to the Talook from the Treasury in Chittoor in charge of Shaik Adam a Peon of the Narravanum Talook - The Peon did not return to the Talook and no trace whatever has been obtained of him since the time of his receiving the Money. He has no family and no relations in the District and I cannot even ascertain to what part of the Country he belongs - He entered the Service in 1840 previous to which he had occasionally done duty as an Umedwar in the Collectory - The Head Peon of the Narravanum Talook who became Security for his good Conduct on his appointment appears to have done so as a matter of form without knowing any thing about him and has been dismissed accordingly.

2 I request the Board will be pleased to obtain Sanction for my disbursing the sum of Rupees 213-2-0 the Saderwand and Pay of the Narravanum Talook Establishment for the Month of January last.

3 - The absconded Peon had received 2 Rupees of his Pay at the Chittoor Treasury and was to have received Rupees 6-8 in the Talook the - difference between Rs 214-10 - which have been stolen and Rs 213-2-0 for disbursement of which Sanction is now requested,

(25-26)

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 19th May requesting that the sanction of Government may be obtained for the disbursement of Rs 213-2-= on account of the Sunderwarad and Peay of the Nannavanum Talook Establishment for the Month of January last which has been entrusted to a peon Shaick Adam who disappeared with it.

2 It is not doubted that much pains have been taken to discover what may have become of the emigrating peon but his disappearance without any trace of him or the money is not satisfactorily accounted for.

The circumstance of any individual being so suddenly emigrating would appear sufficient to excite suspicions, but when it is known that the person referred to had a sum of money in his charge it is not impossible that he might have been wilfully made away with, and it is not enough in a case of this description to be satisfied with the inference that because this man is not found that he has absconded with the money.

4 Before submitting the case to Government and soliciting sanction for a double payment it is necessary that the Board should be able to state upon authority that every means have been taken to ascertain what has become of the man, they desire therefore to be informed what steps were taken immediately it was discovered that the man was missing whether any endeavours were made to trace his course and whether any description of him was sent to other Districts to forward among other particulars you may be able to supply the Board will be glad to receive as early as possible.

With reference to the Extract from the Proceedings of the Board of Revenue dated the 4th Instant I have the honor to explain that the charge of Rupees 49-13- for the supply of Provisions to the crew of two Gaurd boats in April 1841 was incurred by Mr. Franklin among other charges on advance but that Officer having been absent on

on leave it was not adjusted in account till August of the same year, or Fusly 1251, consequently it was not practicable to include the charge in the bill submitted for sanction on the 26th April 1842 as the latter comprized only the disbursements actually made in the previous Fusly 1250.-

Proceedings thereon Para 1.

Relative to the settlement of the Land revenue in the District of Combatore for Fusly 1251 A.D. 1841/42.

This is one of the most favorable settlements that have come under review for the year in question.— The supply of rain tho' calling forth some complaints from the Ryots for its effects on their dry crops was generally seasonable and sufficient. There was consequently a considerable increase of cultivation

cultivation over that of the preceding Fusly. The Principal Collector only notices a trifling decrease in the Garden lands of Pulladum Talook, dependent on local causes and remission has only been required in a single Village of the same Talook of which the Tank had been injured by a sudden influx of water. By a Communication from the Acting Civil Engineer 6th Division in the Department of Public Works, the Board observe that the restoration of the Nellumboor Tank which had been out of repair since Fusly 12.30 1020/21. is considered to hold out the prospect of very great advantages and they trust therefore that the Principal Collector will give his best attention to the project.—

below last years prices. Whenever Memorandums are furnished for more easy reference it is essential that they should be accurate to be of any value.-

3. The outturn of the year is highly creditable to Mr. Wroughton's manage= =ment.-

4 Rs as p. Among the items of increase is 368-10-9 on certain lands in Pulacherry Taloork reclaimed from the forest and held since 1822 at rates far below the regulated assessment. Although extraordinary indulgence may be proper on such occasions sometimes the

the Board are glad to see that agreeably to their repeated observations it has now been found possible to subject these lands to the usual assessment. It is observed that no mention occurs of these, nor of those subsequently noticed at Para 22 in the former Statements of favorable Cowles submitted to the Board.-

Para 13. 14. 5. Rs as p. Decrease 27-6-6 is noticed as having arisen from an adjustment of the remuneration allowed to Village Officers. On the province coming into the possession of the British Government all the Service Emoluments were resumed and again restored at a subse= =quent period. But as in many instances they had become incorporated with the holdings of ryots on their absolute restoration would have occasioned embarrassment the proceeds alone were paid to the Enamdar instead of being credited to Government. This arrangement has in some cases led to disputes and the Principal Collector therefore in the year under review has remitted the assessment on Service lands in the individual occupation of the Enamdar where practicable on where not has granted waste land of the same value Under the circumstances of the case this seems the

(where alone it has been enforced) to the extent recommended by the Principal Collector. The only restriction necessary is to see that the authorized proportion of pasture to arable in each holding is duly maintained, and that the usual restrictions regarding "good" and "bad" land are observed.—

Para 19 8. With regard to the marginal remark on this para stating that ½ Garden assessment has in some instances been demanded, the Board observe that the paras of the Revised Rootinmamah therein quoted, do not sanction such a practice but prescribe the imposition of the teerwa on similar land in the same neighbourhood ("Samp Ponjah teerwa").—

9 The discrepancy noticed in the Board's former Proceedings between the amount of Kaijum Cowle entered in Statement 8 of the Report on Fusly 1250. and that returned in the special return furnished in 1248. related simply to a difference in the exact amount shown against each Village in these two documents the sum of which amounts to 343—12—11. Enclosure 4 herewith transmitted exhibits the

the mode in which this result was obtained.—

Paras 32 & 36. 10. In these Paras the Principal Collector reverts to the discussion of certain favourable permanent Cowles to Villages situated in the wide and embracing tract skirting the base of the Shevaghery Hills which have been examined at large in former proceedings of the Board. Mr. Wroughton is of opinion that the imposition of the full survey rates of assessment in accordance with the directions of the Board sanctioned by Government will cause a large and immediate loss of revenue and undo the labor and exertions of the last 20 years undertaken too, he urges on the faith of terms "conveyed to them by a competent authority" whose power, as far as they were concerned, remained unquestioned during the period of his stay in India" And he proposes as "the only means of meeting the views of the Board and at the same time of keeping up the Villages" to consider the present Cowle assessment as the future permanent settlement in substitution of the survey assessment the difference amounting to 6430—12—1.—

K

11. It is seen that the return to the survey rates required by the Board has been effected without difficulty in the precisely similarly circumstanced Villages of the Pulachy Talook. and by on the general assertions above noticed no reason is shown why the same measure should not be meted to those in Danaikenes Attah. Some dissatisfaction doubtless will be created by the resumption of privileges so long enjoyed, as the Principal Collector has himself observed when alluding to a similar case. But it is not probable that the parties will resort to the extreme measure of deserting their lands. They must be well aware that no claims to exemption from the authorized assessment are valid unless they emanate from Government and they must be equally cognisant of the opposition offered to the various measures introduced by the Officer alluded to, who formerly administered the affairs of the district, measures which however well meant were calculated to nullify the Survey he himself had completed and which the public records of the last 12 years show to have been steadily discountenanced and checked by the Controlling authorities.

Para 31.

Authorities.

12. The Board on a former occasion pointed out the singular effect of an indulgence intended apparently to improve these Villages in producing a precisely opposite result. The Statements marked A and B. and the Memorandum forming Inclosure No. 23 all exhibit the same view.

No. 21. 22.

Stat. No. 21 A Col. 5-6.

In Fusly $\frac{1213}{A.D.\ 1803-4}$ the revenue of the nine Villages amounted to Rupees 4,743-13-4 of the whole of which was levied at the full Survey rates. In $\frac{1251}{1841/42}$ Fusly A.D. the cultivation was reduced to Rs. 3,660-12-11 and the Revenue to Rupees 2,279-7-. three Villages in the interim having been entirely deserted. Surely therefore no great inducement is held out or for persisting in an experiment that has worked so unfavorably, besides being unjust to those who pay the full assessment.

Waste Land for Fusly 1251.

Cultivated Land for Fusly 1251.

13. But admitting that a case had been made out for doing so the plan proposed by the Principal Collector for that purpose is obnoxious to serious objection in itself. The subjoined statement shows the mode in which it is proposed to adjust the reductions of the assessment the

Thus there would be too distinct set of rates in the same Village and the great object proposed to be attained by a Revenue Survey that of equality is set at nought. It

Para 34. is quite true as the Principal Collector has urged that the strict application of the most wholesome general rules may sometimes be inexpedient. But what the Board have always contended for is that no necessity for a departure from them has been shown in the present instance. Without a more clear exposition of the causes of deterioration of these Villages the Board looking to their past and present condition and to the course pursued in other cases of similar character in the same District do not feel that

that they would be justified in recommending the measure now brought forward.—

Para 36 14. The explanation of the Sub Collector regarding the Exponaido lands in Caroor Talook and the interdiction of any grants on favorable Cowles as even uncalled for are satisfactory.—

15. The Statements of lands under the occupation of Europeans and liable to

Para 50 quit rent and assessment on the Seilgherry Hills has been made to include lands similarly occupied at Coimbatore and sanction is solicited for the confirmation of the amount there entered Rupees 183-2-. The Board see no reason to object to these sums but with reference to the correspondence noted in the margin and to the entries in the Statement abovementioned under the heads Nos 7-8-13 and 19 the Principal Collector will be pleased to report specially on all cases in which extensive tracts of land may be occupied as plantations by parties in the service of Government.—

Para 54 16. In reply to the enquiry regarding the application of Rule 11 of the revised Kookummanah to Grass lands of the

the regulated extent in the possession of ryots, the Board are of opinion that the occupant of such land is not liable to be disturbed for the sake of a more advantageous offer any more than the holder of Ponjee.—.

Para 56. 17. With respect to the mode of dealing with complaints of incorrect measurement adverted to, in this para. the Board see no objection to the course suggested by the Principal Collector of permitting the objector to leave the land if dissatisfied. but as the Board fully concur with Mr. Wroughton, believing that such errors of measurement are frequently occasioned by fraudulent or accidental alterations of the original survey boundary marks great care must be taken before allowing such fields to be thrown up to see that no such deceit has been practised. Permission should never be granted except by a special order from the Honble Board on a full report of the means adopted by the local officers to test the cause of the error.—

18. While on this subject the Board would suggest to the Principal Collector the propriety of taking steps for ascertaining generally

generally whether the Boundary stones down at the survey to mark the limits fields have been disturbed by subsequent encroachments or alterations.—

Para 60 19. Of 21,18,939-12-2 the amo of the land Revenue finally settled 21,07,90 were collected within the Fusly and 6,087-8- subsequently leaving the balance at the end of September 4,970-2-11- reduced by the a of March to 3,476-1-2.—

Para 61 20. The arrears of previous ye at the close of 1250 amounted to 21,594-1 of these 5,509-4-3 have been recovered durin the Fusly and 4,325-7-11 are in course of re=lization but the remainder 11,760-a-1 the Principal Collector states, after a careful s=crutiny during the progress of the settlement to be desperate, and the Board resolve therefo to solicit the sanction of Government for writing them off to Profit and Loss.—.

Para 57. 21. A sum of 68,652-12-7- is borne on the Salook Accounts as the amount of Fines and Penalties imposed on Ryots in cases of prosecution for concealed Revenue, under Regulation IX of 1822- The amount had been in progress of accumulation since Fusly

From its nature it has not been credited under any head of account and does not appear as a balance, the items of which it consists being carried when realized to the head of "Sirae Summa:"— Adverting to the length of time that many of these have been allowed to remain dormant, and to the doubtful propriety of holding the ryots responsible for acts of omission on the part of the public officers of Government, the Board are of opinion that such demands should not be enforced and authorize the Principal Collector to strike them out of the accounts accordingly— Cases of collusive fraud between the Cultivators and the Village officers may no doubt occur, but as it is the special duty of the latter to prevent such, and as they receive a remuneration for their services, the Board are of opinion that

From the Pr. Coll. of Coimbatore — } Sir,

Para 1

I have the honor to acknowledge the receipt of your Secretary's letter dated the 13th Instant, directing that temporary arrangements for the irrigation of the Plantation of Mr. Cockburn and Mr. Robella on should be made to save them from unnecessary loss—

2.

In obedience to which, the Rishear of Jackanairy was instantly directed to place matters on precisely the same condition they were in previous to my orders for the restoration of the waters appropriated by these and other Parties to their original Channel — your Board's orders on this subject have been delayed partly on with the view of doing as little injury as possible to the respective Properties of these Gentlemen, pending the final decision of the question, and the period selected for their operation was with reference to the commencement of the raing season on the Hills, which renders the gardens in our question independent of artificial support.—

3

As several other parties are similarly circumstanced these orders have been extended to them also—.

4

I have to apologize for having allowed this question to remain so long in abeyance, but the heavy press of business at this time of the year, has prevented my giving the subject that deliberate consideration which it so urgently requires— In the course of a very few weeks, however, I pledge myself to forward a report to the Board in such a shape as will place this question in the clearest possible point for decision.—

Capt.n G. Vallancey } Sir,

ngalore ——— }

With reference to the accompanying Copies of letters from Mr. Wroughton, Collector of Coimbatore together with an Extract from a letter addressed to me by Captain Reynolds, who is now at Coonoor on the Neilgherry Hills, and with regard to the proceedings of Mr. Wroughton in the case of the property at Coonoor, which I have sold to Captain Reynolds, I have the honor to make the following Statement and to request that you will have the goodness to lay it before the Board of Revenue.—

metting of a cor= ondence he Print= tor of= mbatore= ding certain l on the herry Hills chased from Burghers= requesting his right= be recog= ed by a= ernment nt and the use of tream= ch runs his land be per= ved to him=

"On Monday I had an inter= =view with Mr. Wroughton at= Ootacamund, he began by saying, that neither Captain Nedham nor yourself had made any= Official application for land, that you were not authorised in purchasing land from the Bhur= =gurs without reporting it — Officially to this Office, and as to water you had no right to — touch a drop without the per= =mission of Government."

Mr. Wroughton states, in the first place, that neither Captain Nedham nor I had made any official application for land

land, and that we were not authorised to pur-
=chase land from the Bhurgurs without report-
=ing it officially to his Office, by this, together
with the portion of an Extract of Minutes of
Consultation, which Mr. Wroughton has brought
forward, but which it is well known to the
Board, had no reference to land on the Neil-
=gherry Hills, the Collector purposes to shew
that my right to the land was not valid, —
Secondly that, I had no right to the water, which
had been made to flow through the land, and
the right to this water, appears also to be called
in question by the Board of Revenue by your
letter, dated the 25th August 1842, and wherein
Mr. Wroughton is desired, immediately to
call upon me for an explanation for my
having turned the water from its natural
course for my own private advantage —

With regard to the first
question, I have to state that the greater portion
of the land which was held by the late Captain
Nedham, is Government land, and it was
given to him by Mr. Wroughton in August
or September 1841, and that Gentleman at
the time it was given, by him accompanied
Captain Nedham to the land, Capt. Nedham
pointed

pointed out its capabilities for the purpose
required it, mentioning that as it had been occu
by the Sappers and Miners it was very rich
moreover that a stream, which sprung at the
top of the land was brought through it. I give th
as it was stated to me by Captain Nedham,
A few days after, two of Mr. Wroughton's Official
Servants in the Revenue Department, went to
Coonoor, by that Gentleman's order, and marked
out and made over the land to Captain Nedham
at the same time they procured for him, from
the Monegar, and Head Man of Coonoor, and
their tract of land adjoining, for the sum of
430 Rupees or thereabouts. The documents of
transfer and sale, then made out were sent
down for Mr. Wroughton for his information
and with a request that a Government Grant
might be obtained for the land, The Collector
returned the vouchers, stating that a more parti-
=cular and accurate defining of the land, together
with its exact dimensions &c.a must be made
and entered in a form of application, as sent
with the letter. This letter was in my profession,
the Copy however must be in the Collectors Office,
This, I presume to think, shews that an
Official application for land had been made by the

the late Captain Nedham, and granted by the Collector The application for a grant, was not renewed either by Captain Nedham or myself, because, the instructions, contained in the Collector's letter required that the services of an experienced Surveyor should be obtained, and as there was not one attached to the Coimbatore Collector's Office, nor, at that time, one on the Hills available, it was obliged to be laid over.—

In April or May 1842, Mr Wroughton was at Coonoor on Circuit, He sent the Talook Paishkar to me to know if I had purchased Captain Nedham's property, and if I was answerable for the Quit Rent, he also sent some of his Cutcherry Servants to measure such of the land as had been cleared, it was so measured, and it was intimated to me by the Official, the amount of Quit rent I should have to pay, The whole land was looked over, the Cs watercourses examined, but not a word in the way of disapprobation of my proceedings was then addressed to me by the Collector, nor until the present moment, and my outlay on the land was at the rate of 400 to 450 Rupees Monthly.—

With

With reference to the land since purchased from the Bhurgurs, I beg to that I made the purchase without referring at time to the Collector, because Mr Wroughton told me, when I had spoken to him regard land on the Hills, that in the first instance must be purchased from the Bhurgurs who right it was, and then a Government Grant f the same to be requested.—

I made no application for grant, on concluding the purchase, for two rea sons, first because the Collector required th land to be regularly surveyed and measured, and it was then, as it is now covered with high grass and brushwood also, a Surveyor was not present,- Secondly as the land was not to be brought under Cultivation, perhaps for years, no Quit rent would be paid for it, as I was so informed by the Cutcherry Servant before mentione but the Monegar of Coonoor, from whom the land was purchased, informed me that he had pre sented to the Shasildar of the Talook, his razenamah on the sale of this land and he re ceived from me money to pay for the stamped paper, I hope therefore that this is sufficient to establish my right to the land as far as purchase goes

goes, all the vouchers for these portions of lands are in the possession of Captain Reynolds.

With respect to the second question i.e. the diversion of a public stream for my private advantage, I beg in the first place to remark, that from the time the Hills have been settled to the present period, as far as I am aware the right of individuals to turn streams for their one use has never been questioned. Much property on the Hills has been realised in consequence of this advantage, and many properties have changed hands at high prices because of this advantage. Moreover it has been considered and in some cases has been decided by our law Courts, that a water course which has been formed for years, without let or hinderance has become private property.

The water courses on the land in question were made from ten to fourteen years since by the Sappers and Miners when they were established on the land, at that time the late Captain Needham saw them, and resolved in his mind that if he ever took land on the Hills it should be this, principally from its having such a command

For Nineteen Months that the land has b
held, Mr Wroughton knew that the water
from the main stream was used and
although in August 1842 he was desired to
call upon me immediately for my authority
for using the water yet I continued to hold
it until March last, without question, altho he
must have been aware that a large outlay
was made Monthly; Mr Wroughton's reason
for delay* appears a strange one considering
that the Month of May is generally a dry
one, even on the Hills, whereas in August and
the following Months rain is plentiful, at all
events, as Captain Reynolds remarks, had
he reflected a moment he must have

seen that the promulgation of such an order at any time was just tantamount to knocking all our operations on the head, and to delay for so many Months was only placing me in greater difficulties

Under these circumstances I cannot suppose that the Board will discontinue to the owner of the property the right of use of the water of the main Stream, or deprive him of his right to the stream which rises on his own land and thus destroy the property which wholely depends on this supply of water – Also after the explanation I have given of the tenure under which the land is held the Board of Revenue will consider that it has been correctly obtained and direct that it be surveyed and measured by a competent person, that no further time may be lost before applying to Government for the requisite grants that both Captain Reynolds and I be secured from loss –

your letter of the 19th ultimo—The Board will await your promised report on the whole subject with which they hope to be favored at an early date.—

3. On the remaining point discussed by Captain Vallancey, Viz.th the title under which the land in question is held, the Board remark that it is perfectly clear from that Gentleman's own letter that although Captain Nedham may have been in communication with you with a view to making an application, no regular application drawn up in the due and usual form was in point of fact ever made and no other can be recognized. As it is obviously improper that Europeans should continue to occupy land without notifying the same to Government and obtaining their permission, the Board request that you will at once call upon Captain Reynolds, to whom it would appear Captain Vallancey has sold the property, to submit an application in the Customary form with which you will furnish him for the land in question.

Should

Provision is made in para 14 of the absentee Rules for the former, none for the latter: and to make the circumstance still more dissimilar an Assistant was doing duty when Mr Arbuthnot was appointed to the District.—

Sir,

Having this day received a communication dated the 18th Instant, and addressed to me on the Neilgherry Hills from the Secretary to the Board of Revenue in which I am directed to join my station immediately and to

to furnish any explanation which I may have to offer of my conduct in having quitted Coimbatore without resuming the duties of my office or holding any communication with you.

I have the honor to state for the information of the Board of Revenue that I reported my arrival here on the 20th Instant, which was the earliest date it was possible for me to do so, after having received your letter of the 13th Instant, and I beg here to remark that had I been favored with any kind of intimation from you previous to my departure from Coimbatore on the 14th Instant, regarding the irregularity of my conduct complained of in your abovementioned letter, I should never have quitted my station.—

I beg to offer in explanation of my late absence from my duty here that it arose entirely through a misconstruction of Section 14 of the absentee Rules of the Civil service, published in the Fort St George Gazette of the 21st February 1840, under which I conceived that I was entitled to a period of one month in order to join my station

station from Chetwye on the Malabar coast where I delivered over Charge of my late office to the Head Assistant Collector of Malabar on the 6th Instant.—

I have also to state that my belief in the construction of the above section of the absentee Rules was further confirmed by a similar proceeding on the part of Mr. Arbuthnot, who, to the best of my recollection was appointed to act as Head Assistant in this District in the month of May last, and arrived here in the same month but did not report his arrival to his official superior or enter upon his duty as the Head Assistant Collector, until two or three weeks had elapsed from the date of his arrival—the intermediate period having been passed by him on the Neilgherry Hills. From no notice, to the best of my knowledge having been taken of Mr. Arbuthnot's absence from his duty after having joined his station, I am led to believe that I cannot offer the same in justification for my late absence from my

my duty which he could have done had he been called upon to do so—

it necessary to refer to the case of Mr. Arbuthnot in vindication of what he now admits to have been a misconstruction of the orders of 21st February 1840- The distinction between the two cases as you have remarked, sufficiently obvious- Mr. Arbuthnot coming to take up "a new appointment" might be considered entitled to avail himself of the period specified in the above rules; whereas Mr. Goldie having to "resume an old one" was bound to rejoin the district to which he stood attached with all practicable despatch- The Board cannot but express their disapprobation of Mr. Goldie's proceedings in having after his return to Coimbatore quitted it again without having reported his arrival, or reentered upon the duties of his office; especially as he must have been aware that Mr. Oswell's absence had left you without European Assistance at the most important period of the Revenue year- you will be pleased to communicate these observations to Mr. Goldie-

Sir

In reply to your letter of the 8th Instant requesting the recall of the order issued to the Peishcar of Jackanairy for the restoration to its original course of the stream diverted to the Plantation of Mr. G. Stockwell and Captain Pope. I would acquaint you that the

Fort St. George 1st June 1843

the order is general and applies to all those who have without the permission of the local authorities diverted the hill streams from their natural course to the low country, for speculative agricultural, and private purposes.

It cannot but be a matter of regret that this order should press heavily on a few individuals, who in a spirit of appropriation have acted so unadvisedly. but the object of the Board ought not, and must not be mistaken, having in view merely the protection of the Ryots in their hereditary rights, and the preservation of the Revenue, which so greatly depends on the preservation of the mountain streams.

With reference to para 2 in which you threaten legal proceedings, as of course you are at liberty to pursue such a course, but after the above explanation I doubt not your good sence and the interests of your employers will induce the propriety of a more subordinate mode of procedure.

Sir,

1. I beg leave to acknowledge the receipt of your letter of the 15th Instant, and on the part of my Employers, in reply to state that the reasons I have for complaint against the prohibition of the use of the water for their Plantation are 1st. That no intimation of the kind was given when the ground was first occupied. 2d. that although as I am informed the instructions of the Revenue Board were dated in August 1842, they were not acted upon till a few days ago, and were not communicated to me. 3dly. That if I had been aware of their existence &c. it would have been easy to have made other arrangements, which would have prevented the property of my employers being exposed to utter ruin by this sudden and unlooked for order.

As

Fort St. George 1st June 1843

2d As the order is stated to be general, I beg to say that it is not generally acted upon, for I am informed that there is at present more water drawn off in one week from the natural streams to irrigate Gardens &c attached to many houses on the hills than the 3 plantation under my charge has used in a whole year. I beg to instance 3 "Stonehouse" "Kali and Mr Norton's houses

3 It is well known that 3 Coffee trees require only moisture and that 3 slight: but that little is necessary; Any alteration of the original course of the stream has never therefore been requisite & and has never been made; all that is desirable is a very small stream not above 4 Inches broad and 2 deep in truth so little is required that I am satisfied if the Channel was continued to the bottom of the hills the water would never reach it.

4 I beg further to state that my employers are the last Gentlemen to wish any injury to the Rights of the Ryots of the low Country, but I

Fort St. George 1st June 1843

I am sure that a proper investigation conducted on the spot by any person versant with such matters will at once convince you that no injury can possibly result from their being allowed the use the very small quantity of water required

To The President and Members of the Board of Revenue Fort St.a George -

Gentlemen,

I beg to remind you of my letter of date the 16th.a Instant, in.a reference to the Confiscated quantity of.a spirits belonging to me, in which I quoted Regulations and even precedents which.a lead me to the conclusion that the.a manner my stock has been dealt with is not in Conformity with the mode of procedure prescribed by Government, and at the same time soliciting payment of its value to me.

I also beg to acknowledge the receipt of your Board's Endorsement of the 3d.a April, through the Acting Collector of this District, but I am led to expect a different decision will now be given, on the grounds set forth in my last letter.

Independent of the Regulation I.a/c.a I conceive my case must be apparent to your Board as one of great hardship

hardship, for after having got up the spirits question, been made to pay a heavy duty th on account of extra strength, and procured Government Valid permits from the Colle of Madras to protect it, it is confiscated a being deposited in my shop, just as if it w a smuggled article on the report of the Abkary Renter who affirmed it to be arr instead of Spirits of Wine, it having bee passed as the latter, by the Collector sea Customs.

Even allowing it to be Spirituous Liquor I presume that if it having been found in any possession, did in any way interfere with the Abkary Ren ter's privileges, it should not in the first instance have been allowed to pass the limits of the Supreme Court of Judicature. But in the present instance by a curious process it is sent up with a valid permit required by the Regulations* arriving at the place of destination is not in any way protected by it, but on the contrary be comes a dead letter.

I trust that under the

* A.D. 1820 Regulation I section XIV.

these circumstances my request for the payment of the value of the articles/particulars of which I have by me/ will be complied with, and if my solicitation cannot be acceded to, I shall feel thankful by having the Regulations quoted to me which legalize the confiscation and sale of the liquor under the existing circumstances of the case, and the grounds explained on which my request cannot be granted-

From the Coll.r of Ganjam } Para 1. I have had the honor to receive your letter dated the 23d March conveying instructions in regard to the classification and valuation of Sugar.-

2.- I presume that in the scale of valuation of the different sorts of Sugar given in the 2d Para of your letter the Candy of 500 lbs is the standard intended to be referred to.- The Tariff valuation of Jaggery or coarse Sugar; of boiled or refined Sugar; and of Sugar Candy, accord-

Sugar	46-4--	40--
Sugar Candy	101-4--	110--

-ing to the Sayer and Sea Custom Tariffs in force in this District are noted in the Margin.- It will be observed that the present official valuation of a Jaggery a considerable quantity of which is exported to Pooree and to Cuttack where it is extensively consumed, is considerably below that of Country ungrained Sugar according to the new scale I understand from

J.G.B.

8335 Fort St. George 5th June 1843.-

from the tenor of the 1st Para of your communication that it is not intended that the present valuation of this Article should be raised.- The new valuation of Raw grained Sugar, very nearly corresponds with the existing valuation, but in the present Tariffs of this District, the refined and partially-refined Sugars No 1 and 2 of the new scale, are not distinguished, all Sugars being included in the same Class I request to be informed whether in respect to these Sugars, the existing Tariff should be adhered to; also whether the present valuation of Sugar Candy which is not entered in the new scale, should be continued.-

/Signed/ R. A. Bannerman
Collector

Ordered that the following letter be sent in reply.-

To The Collector in the Zillah of Ganjam

To the Collector of Ganjam.-

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 25th ultimo and to acquaint you

In Cons. 5th June 1843.-

you in reply that it was not intended by my letter of the 23d March last to make any alteration in the Tariff valuation of Sugar Candy and Jaggery which are not mentioned therein.-

2. With regard to this "refined and partially refined Sugars" which "are not distinguished" in your District, "all Sugars being included in the same class," there is no doubt that if by being so included they are improperly valued in your Tariff, it should be corrected in this respect without delay.-

3.- The class to which the Sugars may belong will be best ascertained by comparing them with the specimens to be procured from the Collector of Madras, and you will observe that the Madras valuations should be taken as the or maximum but where the prices of the several descriptions of Sugar may be lower in your District, it is not required that they should be raised to the Madras

Madras Standard.-

to Calcutta being fixed for next July I beg to suggest that you endeavour to obtain from the Officers who received the last supply of Salt in Calcutta some information as to the Quantity delivered in Calcutta shewing the cases in which there was an excess or loss, the names of the Merchants and the amount of the excess above the Permit.— It would afford me great assistance in enabling me to judge as to how the measurement may be carried on most correctly this year and I may be on my guard against particular Merchants receiving too favorable a measurement.— I know not whether there may be any great inconvenience in procuring the necessary information from Calcutta, but it would prove very useful and I would even suggest that in future a Quarterly report of the Salt received in Calcutta and the measurement of it there with reference to the Permit might be forwarded to this Office.—

With reference to your letter of the 6th March last in which I was called upon to explain more particularly the irregularity in the manner of producing the Rowanah for which the Tobacco was subjected to the penalty of treble duty, as entered in the Statement for November last, I have the honor to state that it appears from further enquiry that the owner instead of carrying the Article to its destination, as entered in the Rowanah, had disposed of the same at an intermediate place and never gave notice of the same to the Sayer Servants nor produced the Rowanah till called for, with the view, it is strongly suspected, of evading the payment of duty on a further quantity of Tobacco which he would no doubt Export under cover of that Rowanah.-

Para 1. The Board of Revenue are aware that the Akkarry Farms of this District was under the authority conveyed in their Proceedings of the 2nd July 1842 rented at the commencement of the current Fusly for 3 years to Govindsawmy Naick and Govinda Ramasawmy Naick at Rupees 76000 per annum, who deposited as security for the due payment of the Rent a blank endorsed Company's Promissary Note for Sicca Rupees 25000 of the 6 per cent Loan.

2. Subsequently Moorty Ummal, the widow of the late Dr. Sawmy Naick addressed an urzee to me stating, that although the rent had been taken in the names of the above mentioned persons who were her Sons and Sonsinlaw, they were in fact merely her agents, and that the Bond for 25000 Sicca Rupees was her property, and that it was to be returned to her at the termination of the lease. Moorty Ummal was

Submitting for orders the request of Govindsawmy Naick one of the Akkary Renters to transfer his share to Jagannadasawmy Naick and suggesting that unless the fallist of the current Fusly be paid by the 1st July and all the parties concerned agree to the proposed arrangement for the future management of the Farms it should be attached and sold for the ensuing Fusly.

was then informed that she could not be recognized by me as the Renter, but as the actual Renters had also written to me that the bond was her property, and to be returned to her alone, on the completion of the lease, that there would be no objection to doing so, provided all the kists of the rent were paid up. The Renters have been very irregular in the payment of their monthly instalments and the balance up to the end of April last is Rupees 13533 — 12 — 3, and another kist amounting to Rupees 6333 — 5 — 4 will in a few days be due, but the agent of the Renters has been with me, and states that this amount will be shortly paid up and the Farm retained for the period for which it was originally taken.

3 This agent has however brought an arzee to me from Moorty Unnah and Gooroosawmy Naick her son in law respectively requesting the transfer of the latters share in the rent to Jagunnadasawmy Naick the surviving eldest son of the late Dr. Sawmy Naick, a request I do not feel authorized to comply with, without

orders, more particularly as another difficulty has arisen from the other renter Coolunda Ramasawmy Naick having been imprisoned for debt, and being about to take advantage of the Insolvent Act.

4 Under these circumstances it appears to me advisable to intimate to the Renters and Moorty Unnah that unless the full kists of the current Fusly are paid up exclusive of the Deposit by the 1st July next the Farm will not be continued to the present Renters beyond the current year, but that being done no objection can be offered to continuing the Farm to the Renters, or transferring it to Moorty Unnah and Jagunnadasawmy Naick, for two years on the original terms provided the present renters execute an agreement to that effect, but should all the parties not comply with these suggestions I would advise the Farm being immediately attached, and any loss with the arrears recovered from the Bond in deposit, and the Farm for the ensuing Fusly should again be put up to public competition.

Procedings thereon
30. 31

From the foregoing letter it appears that it is the wish of the present Abkarry renter of the Chingleput District and of Meerly ummal, who states that she is principally interested in the farm that it should be transferred for that remaining two years of the contract to her and Jagannadaswamy Naick the eldest surviving son of her late husband.

From the statement furnished by the Collector it appears that there was a balance of the whole of Fasly Kists and a part of February amounting in all to 13533 — 12 — 3 then outstanding and unless this balance together with the full amount of the current kists are paid up, exclusively of the deposit by the 1st July next, the Board cannot consent to the transfer sought to be effected, but the full amount of the current kists once paid up the Board will not object to the transfer in the mode and on the terms proposed in the concluding para of Mr. Freese's letter

With reference to your letter of the 25th ultimo, I have the honor to state that the collection of Maturpha Loom and other taxes of a similar nature is not considered to be vested in the proprietor of any free Inam Village in this District. The Enamdar of Caremanul however formerly collected and enjoyed the revenues derived from land and sea Customs, Looms, and Maturpha under the authority of the grant issued in favor of his father by the Nawab Wallajah, but these sources of revenue have been resumed many years since. The case of the Enamdar has been frequently brought to the notice of the Board and various propositions for compensation submitted. but the Government determined not to entertain the subject of the Enamdar's claim until he should produce the orginal Purwanah of the Nawab.

From the Asst. Collr. in the Arcot. } I have the honor to submit the explanation required by the Boards endorsement on the enclosed Petition No. 1688 of 1842.

From the Pty. Dr. of Reports that the Petitioners of the accompanying Petition No. 1688 of 1842 should be left to establish their claim for the Inam lands by a Civil suit under the explanation afforded.

2. In 1840 the Petitioners and three others represented to the Collector that they were Joint sharers with their Brother Timmareddy in certain Mala Inamum Lands, Pottorumut Inamum Lands, Service Inamum Lands and Putcut Lands, situated in the Village of Kuccapully; that Timmareddy being the elder brother the lands were held in his name and that he having no sons had executed a Deed assigning them to his son-in-law Pullal Chinnareddy in disregard of the Petitioners rights, and they prayed that the Collector would not sanction this Proceeding.

3. The Petition was referred to the Tahsildar for enquiry and reports — eighteen

Fort St. George 5th June 1843

Eighteen Witnesses were examined by the Tahsildar, from whose evidence it appeared that there was some relationship between the Petitioners and Timmareddy but not that they were brothers. It was also clearly proved that the Lands in question had not only always been held in the name of Timmareddy but had also always been in his possession except that about twenty years before, three of the Petitioners had for two or three years cultivated a part of the Mala Enam Lands but whether as sharers or as sub Renters of Timmareddy the witnesses were unable to say.

4. It also appeared that Timmareddy has been Monigar of Kuccapully since fusly 1216 that the Petitioners held no land in the Village.

5. No definitive order seems to have been passed on the Petition by Mr. Ogilvie but in fusly 1250 the Puttah for the Putcut Lands in question was made out in the names of Timmareddy and his son-in-law Pullal Chinnareddy. In the following year Mr. Goldingham dismissed the Petition, and accepted Timmareddy's resignation

resignation of the Lands in favor of Pullal Chinnah-reddy, and entered them in her Puttah.—

I am of opinion that Mr. Goldingham's decision was right and that the Petitioners should be left to establish their claims by a Civil suit.—

Sir

With reference to the Endorsement on the accompanying Petition 1811 of 1843, I have the honor to state that I am of opinion that the application should be dismissed, because the Choultry in question was built without the sanction of the Board of Revenue, without which sanction, the builder is not entitled to the support of Government and because the land applied for belongs to the Jaghiredar of Arnee.

From the Asst Pr. Collr of Salem . . . .

Sir,

With reference to your letter of the 30th March last requiring information whether the Principal Collector obtained special sanction from the Board for Timmapiah Tahsildar of Darampoory to construct a Choultry, I have the honor to state, that although no special sanction was obtained as required by the Circular of the 19th January 1832 the Tahsildar constructed the Choultry after obtaining the orders of Mr Gleig the Principal Collector in anticipation of the Board's sanction. Copy of the Taheed ifsued to the Tahsildar permitting him to build is herewith forwarded. I hope the Board will recommend the grant of the usual Endowment to the favorable consideration of Government.

Sir,

To the Chief Sect to Government. } 1.

From the Sub Coll 13th Inst Con 30th March 1843.

From Do 25th May in Con 5th June.

I am directed by the Board of Revenue to forward to you for submission to the Most Hble the Governor in Council the accompanying communications from the officiating Principal Collector of Salem requesting that waste land bearing an annual assessment of 60 Rupees may be granted in Endowment of a Choultry recently constructed by Timmapien late Tahsildar of Daremporry near the Village of Catrovapelly in the Salem Talook.

2. As it would appear from Lockhart's letter that this building must have cost at least Rupees 2,700 that it has been built in strict conformity with the Rules of the 9th July 1829, is on a road much frequented and is likely to be of great public convenience the Board beg to recommend the application to the favorable consideration of Government. It will be seen that the building was commenced under the sanction of the Principal Collector although the circumstance was not reported to the Board of Revenue nor their concurrence obtained as required by their Circular of 19th January an omission of which Timmapien could not of course be aware and which the Board trust may not affect his claim to reward for the useful undertaking which he has just completed.

because the quantity of Petitions presented, their bold and extraordinary misrepresentations, and falsehoods together with the number of fictitious signatures annexed must have induced the Board to attach an importance to the subject, which it by no means really deserves.-

2. It will be in the Boards recollection, that, in my communications relative to carraying out the orders of Government to withdraw all Circar control in the Management of the Pagodas, I pointed out many difficulties which delayed success: but in the case of no single Pagoda did I meet with such entire and consistent opposition as in that of Trinamalay-

ally

Fort St George 5th June 1843

3

My Records shew t
prefsed the Talook authorities to persu
inhabitants to come forward - Surgeon
endeavoured to make the Vattavalum
the only man in the neighbourhood of an
to undertake the trust - At the time of
Summahbundy in 1251. I personally ca
upon the people to nominate their
Trustees - This I repeated a few mont
later in September 1842 when in the Tal
and finally when a vast number of peopl
at the time of the feast in November
assembled from Madras and the neigh
ing Districts, I invited parties to come
ward that I might accomplish what
desired -

4

5

All this was in vain -

Just at this time one of the
Goorookuls or Priests of the Pagoda, assu
ing a monthly salary of 10 Rupees propos
to undertake the Management, I replie
that if agreeable to others who would
associate themselves with him in the
Trust I would consent, and I must remark
that nothing but the exigency of the case
would

Fort St George 5th June 1843

would have induced me to accept his proposal,
even with the Security of respectable joint
Trustees, as I was acquainted with this man
and knew him to be of a quarrelsome
and turbulent disposition -

However he would not
6.
agree to any divided power and the Ryots
of the Talook Petitioned Government on
no account to allow the charge to be given
to the Goorookul, which two circumstances
at once stopped all chance of arrangement
with him -

The Trinomaly is one of
7
the Five Great Siva Pagodas of Southern
India - It is situated in a very poor coun-
-try and is unsupported by the Inhabitants
of the neighbourhood or even of the District,
for these reasons, altho I had hitherto as
in others cases, hoped to appoint Trustees
who resided some where near, now, that
I failed Inaturally as a last ressource
looked to parties, who, while not in the
immediate locality, took an interest in the
institution -

I found that the inhabitants of
8

+ Govt

of Madras gave great support to the Pagoda generally.-

That Soobbaroya Moodely (one of the new Trustees) gave annually Rupees 319-6-. for the performance of ceremonies.-

That Poonamallee Patchyappa Moodelly gave Rupees 159-11-. annually.-

That Patchyappah's Estate gave 365 Rupees annually.-

That of 76 Choultries built in Trinamaly Town 31 were by the liberality of Madras people.-

That of the Jewels and property of the Pagoda 30,000 Rs worth out of the whole 70,000 Rupees value were presented by Natives of Madras, and that the Car, estimated at a cost of 35000 was also a gift from the same quarter.-

9. It was with great satisfaction therefore to myself and with positive justice to those who had such concern in the Pagoda, that after one or two communications, I found the

Fort St George 5th June 1843

the following Gentleman, Residents of Madras willing to undertake the Office of Trustees.-

Soobbaroya Moodelly above mentioned as a Patron

Appasawmy Moodelly, who has extensive Indigo transactions in South Arcot.-

Ramsawmy Moodelly son of J. Chennatomby Moodelly

Baula Soobbaroya Moodelly of Totticul.

Singaravalou Moodelly of Connoor son of Moorooguppa Moodelly

10 According[ly] I requested them to meet me at Trinomaly in March, that they might personally receive from me the charge.- On my arrival, I found four present, and in several conversations I ascertained that in every respect they were most desirous of conducting the affairs of the Institution to the satisfaction of the people agreeably to which they signed the document

A a translation of which I enclose.-

11 As the Tahsildar reported to me that the Sonadree Goorookul would not give up the key of the room that the Jewels

Jewels might be examined in the presence of the new Trustees, I sent for him and explained the impropriety of his conduct, assured him that no change whatever was contemplated in the internal management, that all offices would remain in the same situations; and that he was exposing himself to punishment by his contumacy. He was obstinate however and not wishing to hurray him into error, I dismissed him, stating that he must present himself the next morning and give up the Key.

12. He accordingly came declared that the Pagoda was his own and that he had a Meirassy right to it as well as its property. I explained that the same rights which he had always enjoyed would be continued to him as well as to all others connected with the Pagoda. that he was but a servant for the performance of certain duties and ceremonies, which would be maintained without change; and warned him of the consequence of his misconduct.

Tho

Tho evidently well aware that he had nothing to complain of from a dogged and premeditated determination to oppose the orders of Government and the Collector; he refused to deliver the key - and this too not in a manner which called for interpretation as asserted, but in plain language and by gestures also, which he repeated, and which no one at all acquainted with Tamil could misunderstand.

13 I was forced to punish him, as he was being led away in charge of persons about 200 or 250 persons, including nearly all the Pagoda Servants 120 in number, and headed by the other Grorrookal, rushed forward, and using violent language and menaces immediately before my face rescued him from Custody, and carried him off - a great number of Ryots were close by for the purpose of receiving Puttahs - They flocked towards the mob at the moment, but almost instantly left it. The mob was then increased by some inhabitants of the Town, who being usually

usually employed in furnishing supplies to the Pagoda had been persuaded by the Goorookals that they would lose their trade and after attacking the houses of the Trustees and the Sheristadar carried the rescued Prisoner with flags and Tom toms into the Pagoda.-

14. Having availed myself of my own powers of punishment as regarded a considerable number of those who assisted with the mob. I found it imperative on me to proceed with more rigour towards a few of the ring leaders, and with this view issued warrants for the apprehension of five persons who had been most conspicuous and also evidently had acted on a preconcerted plan. They, together with the rescued prisoner, secreted themselves in the sacred part of the Pagoda - and with the exception of one there they are now acting on their own free will, and interfered with, in no degree by me, as I have given strict orders that nothing be done towards their apprehension that can possibly offend the feelings of the natives which might have been the consequence of taking them forcibly (which of course I could easily have done at any time) from their place of refuge.-

By

15. By their behaviour alone is the Poojah stopped and on this point I will only refer to the translation of a Notice† published by me on occasion of the non performance of the usual ceremonies on the first feast day after the disturbance.

†B

16. Previous to finally making over charge to the 5 Trustees I proposed to all the people assembled to associate 5 of themselves, if they had such wish. with the other 5. None of the respectable Monegars desired to do this, a few troublesome characters proposed that 20 of themselves should take the Trust, and on my asking why they had never come forward earlier they admitted that they all purposely kept back in the hope to force the Circar in Continuing the Contract.

17. I then finally appointed the 5 Individuals above named and with reference more particularly to your letter of 25th Instant in addition to what is explained above I would state that they are of the same faith that they are respectable and wealthy, that I have every reason to conclude

conclude that they are capable of doing —
Justice as Trustees to a Pagoda, which besides —
being greatly supported by Madras inhabitants
and neighbouring Districts is yearly endowed
by the Rajah of Mysore, Chundoo Lall of —
Hyderabad and by our Government while
on the other hand the instigators of the se-
veral petitions are worth nothing are badly
disposed / I may instance their encouraging
poor wretches to cut out their tongues in the
Pagoda) and by their criminal Conduct have
brought upon themselves the almost certain
punishment of long imprisonment — —
under Regulation III of 1831 I may as —
well also remind the Board that I selected
them only when the whole of South Arcot
refused the Trust. —

18. The Board cannot fail
to observe, that there are in reality but
few signatures to the Petitions. The same
hand writing appears over and over again, —
indeed they emanate only from a small
party attached to the Goorookuls and misled
by their absurd assertions that I have
stopped the Poojah - that I am starving
them

them have appointed Christians as Trustees —
&c. &c. &c. In proof of this I may mention that
on my proceeding immediately from Trinoma-
ly into the adjoining Talooks of Chelput
all the respectable inhabitants verbally
and in writing begged of me on no account
to employ the Goorookuls. but to maintain
those I had appointed. This was repeated
in still stronger terms in the next Talook, —
Tindivanum; and in Vilapooram it would
have been the same but that illness suddenly
compelled me to hurry away. The Cuddalore
Talook has also presented a like request. —

19. I cannot conclude without
adverting to the malicious attacks in these
petitions upon my Head Sheristadar. Neither
he nor I was previously acquainted with the
Trustees, as was his duty, holding so high and
confidential a situation, he hesitated not —
to express an opinion that they were more —
worthy of the Trust than the Goorookuls,
who as well as all others in South Arcot
had purposely kept back, but it is idle
to attribute bad motives for such an opi-
nion, when it went only to bestow a —
charge

charge refused rather than coveted by all.—
I shall only add that in this as in all other
matters I have found this officer actuated by
a wish to benefit the people generally.—

20. I regret having been forced to
go into this affair at such length for in itself
it is undeserving of it. The case is precise-
-ly similar to that of the Virdachellum
Pagoda, respecting which a Petition was pre-
-sented to the Board, and endorsed under date
20th March 1843.—

+ Nº 11 of 1843

21.

The Goorroo Kuls are still
secreted in the Pagoda with some of their
friends, who keep them supplied with provisions.—
Probably the people of the District will soon Com-
-pel them to turn out; my interference is and
will be only exerted for the preservation of the
Peace, and for the legal prosecution of the of-
-fenders upon fitting opportunity.—

Notice is hereby given that the Collector would on no account whatever

whatever interfere with the usual ceremonies and customs of the Pagoda, if any hinderance is offered to their performance it is by the misconduct of some of the Pagoda servants and others who by opposition to the orders of Government and to the Collector, who is only anxious in enforcing those orders to do what is best for the whole people, are subjecting themselves to severe punishment.—

From the Principal Collr. of Coimbatore.

Sir,

I have the honor to forward for the favorable consideration of the Board an Original Communication to my address from Ramakistna Pundit my Head Serishtadar, together with an Extract from the Retrenchments of the Civil Auditor to which it refers.

Forwards an original communication from Ramakistna Pundit Head Serishtadar together with an Extract from the retrenchment of the Civil Auditor and requests under the reasons therein stated that sanction of Government may be obtained for the charges for the charges objected to.

With regard to the charge of Rupees 4-87-12-0 I would remark that Ramakistna Pundit was transferred to this District under date 16th November 1841. He ceased to do duty in Masulipatam on the 11th December following and joined his new appointment on the 28th January 1842. The Civil Auditor objects to the payment of salary for the intermediate period viz. from 11th December 1841 to 27th January 1842 in consequence of this charge involving a double payment

payment. Appoo Row, the late Head Serishtadar having also drawn his salary at the rate of 700 Rupees a month up to the 5th January 1842, the date on which the leave of absence granted to him under instructions from the Board, expired - but as this double payment was a matter of necessity in justice to Ramakistna Pundit, I request that the special sanction of Government may be obtained for this charge - the rate at which he was paid viz. 315 Rupees a month was sanctioned by Government on the 8th June 1841 and which he drew whilst Head Serishtadar of the Masulipatam Collectorate.-

3 With respect to the 2nd item objected to of Rupees 1795-2-6, I have merely to observe that the salary of Ramakistna Pundit was paid at the rate of 350 Rupees a month from the 28th of January 1842 the commencement of his service in this District, with reference to the Rules laid down in the Extract from the Minutes of Consultation dated 22nd March 1816. the period of his service as Head Serishtadar for

5

5 years having been completed on the 9th August 1840 to entitle him to the increased rate of salary (350 Rupees) but which he did not draw under the Rules. Masulipatam being a settled District. Under this explanation, I solicit that the sanction of Government may be obtained for this charge also.-

No. 1

To J. C. Wroughton Esquire
Principal Collector of Coimbatore

From Ramachetty Pundit Head Sherestadar of the Honorable

Most Honored Sir,

With due respect I beg to state that a retrenchment having been made by the Civil Auditor in the account annexed to his letter of the 25th February last, against my personal allowances to the amount of Rupees 114-6 the total sum which I have drawn since my removal to my present office from the situation of Head Sherestadar of Masulipatam District under the orders of the Board of Revenue dated 15th November 1841 I have the honor with much

much respect to submit the following circumstances connected with the retrenchment and I shall esteem myself highly obliged by your transmitting them to the Revenue Board with your favorable recommendation.-

2 The District of Masulipatam is termed "Settled District" but the Duties which a Sherestadar has to perform there, are more arduous and difficult than what are prescribed to the Head Sherestadar in an unsettled District the cause of which here follows. The famine which prevailed in that District in fasly 1242 entirely emporerished the Zemindars who thereby failed in the discharge of the public demand and also ran into debts in consequence of which a great number of Zemindaries has been taken into management partly for public and partly for private demands. Several Estates have also fallen in the hands of the Court of Wards consequent on the non-age of heirs of the deceased Zemindars which were managed under Amara tenure - a system quite open to fraud as communicated to the Board by your Honor when in that District in your letter No. 14 dated 17th February 1838. In consideration of the foregoing reasons the

the Board at the recommendation of Mr. Dent the the late Collector of that District, sanctioned* Rupees 70 to be added to the sum of Rupees 210 the salary of the Head Sheristadar chargeable to Government the former ex the proposed increase of Rupees 70 being borne by the Estates under management. In the revised Jaghenzabitah submitted by your Honor which in that District to the Board with your letter No. 83 dated 15th September 1838, my salary was proposed to be paid at Rupees 280 inclusive of the above 70 Rupees and allowance which my predecessor was in receipt of. This your Honors proposal was sanctioned by the Government in the Minutes of Consultation dated 10th November of the same year and which rate of salary was paid to me for a period of 6 years from the 10th August 1835 the date on which I entered upon the duties of that situation to the 9th August 1840 and which the Board have admitted in their Proceedings of the 1st March of the same year.-

3 As I have completed my 6 years service as Head Sheristadar in that District by the 9th August 1840 the late Mr. Grant the then Collector had recommended in his letter as per Margin to the Board of Revenue that my salary must be increased to 100 Pagodas according to

to the Rules sanctioned by Government under date the 22d March 1816 in consideration of the arduous duties which I had to perform there and also of my zeal and assiduity, but the Government in their Minutes of Consultation dated 8th June 1841 Copy of which accompanied the Board's Proceedings dated 21st of that Month sanctioned an addition of Rupees 35 to my salary amounting in aggregate to Rupees 315 per Mensem according to the Rules above quoted, which rate of salary was drawn by me to the 27th January 1842 as I entered upon the duties in this District on the 28th but nothing was drawn by me contrary to the orders and Rules of the Government.-

4 My zeal and exertion in the performance of my duties will be apparent on perusal of the communications noted in the Margin from Messrs. Goldingham & L. Blane and other Gentlemen, as also from Mr. Grants letter to the Board dated the 11th December 1841 on which day I was succeeded at Masulipatam by J. Ramanoojarow and which appointment was confirmed by

by the Board of Revenue under date the 3d January 1842. With the permission of the late Mr. Grant who in consideration of my faithful and beneficial services to Government as Head Sherestadar — for a period of 6 years and 7 months, was pleased to reward me with a pair of Shawls accompanied by a valuable testimonial and Tanjeed a circumstance well known to your goodness and the Board of Revenue) I left Masulipatam on the 13th of that month and ought to have joined my station here on the 13th February 1842 according to Section 14 of Rules published in the Official Gazette dated 31st March 1840 Page 235 the distance from Masulipatam to this place being 569 miles but I arrived and assumed charge of my duty in this District on the 28th January 1842 or 16 days previous to the time allowed for joining new appointment. Under the foregoing circumstances it will appear that the retrenchment to the sum of Rupees 487-12-0 which I have drawn from 11th December 1841 to 27th January 1842 is not reasonable.—

6 The salary drawn by me from the 28th January to 30th June 1842 Viz 5 1795-2-0 at

Fort St. George 5th June 1843

at Rupees 350 per Mensem is retrenched but as the Rules above quoted entitles me in this unsettled District to an increased allowance in the same manner as it was observed in the case of the late Hoggilla Venkatarow on his removal to Tinnevelly from Masulipatam District, it will be evident that the said rate of salary paid to me is just and reasonable.—

6. The Civil Auditor retrenches the salary paid to me upto 17th January 1843 under the plea that it involves double payment as much as Appoorow has drawn his salary upto 5th January 1842. For which I beg to state that as I was transferred to this District under the Board's sanction dated 16th November 1841 it will appear just to your Honor that I am entitled to draw my salary in this District from the above date and that Appoorow should be permitted to draw for that period the allowance which the Government have been pleased to grant on him. Fearing that I would interfere with your Honor's other avocations were I to enclose Copies of all the papers I professes I submit herein enclosed Copies of only those which relate to my salary and most earnestly but submissively beg your Honor will on perusal of the same, obtain the Board's sanction for the amount retrenched against me.—

Received the following letter

To E. C. Lovell Esqre
Asst. Secretary to the Board of Revenue
Fort St. George

1

From the Collr. of Masulipatam Reporting upon the effects of a gale of wind which occurred on the 22 Ultimo —

Sir

I have the honor to report the occurrence of a gale of wind accompanied by a considerable fall of rain on the 21st and 22 Ultimo — The wind set in on the evening of the 21st from the N. E. and gradually freshened coming round to the Eastward and Southward until the night of the 22d. when the gale was at its height, the wind being then S. W.

2

The effect of the Storm are most conspicuous at Masulipatam where the damage done to houses and other property was very extensive — The Sea rose to an unexampled height coming in from the S. W. over an embankment called Soppings Dyke and inundating the Country between the Coast and the Pettah up to the second line of houses — Several Country Craft have been wrecked, but I am happy to say that the Crews have with few exceptions escaped and

and that no lives have been lost on shore.

3 The Pottah Canal the repairs of which had just been commenced was filled from the Sea, and I much fear that it will be found impracticable to proceed with the repairs at present but upon this subject I have addressed the Acting Civil Engineer whose reply I shall have the honor to communicate as soon as it is received.

4 From the reports which I have received from the interior it appears that the gale extended with more or less violence over the Talooks of Palnaghy, Goodewadah Ellore Bezwadah, Chillapully and Decoy, that many Cattle have been destroyed and that damage has been incurred but not to any very considerable extent in those Villages where the Dalwa produce was reaped, but not got in and where the process of kyling the grain was going on the heaps having been uncovered by the violence of the wind and the grain damaged by the rain.

It

It is to be expected of course that the loss thus occasioned will be materially exaggerated by the parties on whom it has fallen but I have no reason to apprehend that even those cases which may be substantiated will cause any material diminution in the revenues of the Current year.

The Most Noble the Governor in Council proceeds to pass orders on the letter from the Honorable the Court of Directors in this Department dated 1st March 1843 No 4.

Para 1. A copy of this dispatch will be furnished to the Board of Revenue and their particular attention drawn to the observations of the Honorable Court, not only in respect of the cases of Bapoo Row and Chellapah Moodely but in reference to all cases where persons of rank and standing in the public service are concerned.

2. His Lordship in Council desires that the remarks of the Honorable Court be communicated particularly

Forwarding Proceedings in the case of Bapoo Row late Head Shristadar and Chellapah Moodely Said Shristadar of Trichinopoly and also a Memorial from Bapoo Row complaining of his dismissal from Office by order of the Board of Revenue and 1249 and also of having to the same parties.

Para 1 Bapoo Row the Head Shristadar of Trichinopoly was charged before the Collector Mr Onslow with having received bribes from parties interested in the Abkary rent of the Town of Trichinopoly in Fasties 1247 & 1248 and also of having made loans of money of his guilt submitted the case to the Board of

of Revenue by whom after an examination into the evidence his dismissal from office was directed and their decision was subsequently confirmed by your Government

2 It is much to be regretted that in investigating a charge of this nature which if proved would have brought the convicted party within the scope of the penal provisions of Regulation IX of 1822, Mr Onslow should have conducted the enquiry in a manner which Mr Dent, the Senior Member of the Board of Revenue has admitted to have been very informal if not "irregular" and that with advertence to the nature of the charge the Board of Revenue should have directed the removal of the Sheristadar instead of remitting the whole case back to the Collector, with instructions to frame specific charges, and proceed to trial in the manner laid down in Regulation IX of 1822.

3 You will inform Bapoo Rao that we decline to interfere with the decision of your Government confirming the Resolution of the Board of Revenue in his case.

From the Chief Secty to Government ----

Transmitting for report a letter from Mr. A. N. Groves complaining of the proceedings of the Pl. Collr. of Coimbatore in having ordered the Canal watering his Plantations to be cut and the water stopped

Extract from the Minutes of Consultation under date the 2d June 1843.-

Read the following letter.-

To, The Chief Secretary of Government.
Fort St. George.

Sir,

I am induced to address the Most Noble the Governor in Council through you in consequence of the receipt of the following Extract from a letter of the Board of Revenue under date the 21st August in reply to one from the Principal Collector of Coimbatore of the 30th July 1842 which was forwarded to my Son Mr. F. A. Groves on the Hills, and is as follows.-

The Extract from the Board of Revenue.

Para 1. Adverting to the observations contained in your letter of the 30th July last relative to the lands in the occupation of Mr. Lascelles and Captain Valancey I am directed by the Board of Revenue to observe that without permission of Government the diversion of any public Stream of water from its natural course for the private advantage of individuals whether Natives or Europeans is altogether unauthorized and the Board accordingly desire that you will immediately call upon Mr. Lascelles and Captain

Fort St. George 8th June 1843.

Captain Valancy for an explanation of their acts and require them to restore the streams they have improperly arrested to the former state.—

Order of the Pl. Coll. of Coimbatore to stop the water.—

*See copy of the order—page 9.

1.

In consequence of this the Principal Collector of Coimbatore has felt it his duty to order the Tahsildar to cut the Canal which watered our plantations whereas the date of this letter shows as well as that to which it was an answer that there could have been no original intention in the Board of Revenue of applying this rule to us seeing that at that time our ground was not under the Principal Collector of Coimbatore and I feel assured the Board will allow that the charge of using water without the authority of Government does not apply to our case. From the very beginning every step was pursued in conformity to the wishes and direction of the Collector of Malabar Mr. Conally, and when Lord Elphinstone intimated his dislike of the water being turned off above the falls lest it should destroy their beauty it was arranged with Mr. Conally's full—

knowledge and consent that the water was to be taken off from under second fall by a new channel which was consequently cut by us at a great expense and trouble, but not one word was ever intimated during the correspondence that went on in connection with this subject of the water I believe to the Collector of Malabar nor certainly by him to us that there was any thing contrary to the wishes of Government or universal usage on the Hills in the water being thus applied but on the contrary from the farm of Lord Elphinstone at Katy (on the very same stream) to the least cottage in Ootacamund every garden plantation and house is supplied by leading off streams greater or less, nay so far was Mr. Conally from ever alluding to an objection that it was his earnest wish we should throw our whole energy and means into the cultivation on the Hills. so strongly was he impressed with the importance of our pursuits there. and if a ryot is not to consider that there is done with the permission of Government which is done with the knowledge and sanction of his Collector how is he to be sure he is ever safe. for as it cannot be expected that the ryot knows the rules and regulations of

every district he naturally looks for direction to his official superior. In all cases at Chittoor I have always pursued what the Collector sanctioned without hesitation except when he suggested that reference to the Board of Revenue was desirable and then I have followed his advice, but if every thing that I have done must be considered unauthorised till I have a direct Government sanction I feel I may be robbed by a stroke of a pen of the fruit of 6 years labour and the outlay of more than 40,000 Rupees and before I have gained hardly a Rupee in return for my outlay. On the Hills with not only the full concurrence of the Collector of Malabar but under the influence of all the encouragement he could give we have been induced to bestow 3 years hard labour and spent more than 13,000 Rupees for all which we have not received as yet one anna in return.

Its bearing on the Interest of Government.

2. It may however be worth while for a moment to consider the position in which the Revenue of Government is really placed by this severe and most undeserved punishment inflicted upon us. The only question that really is at stake immemorial custom being

being against and not in favor of the present course) seems to be has this course been injurious to Government in the past or is it prospectively likely to be so.

1st Then what quantity of water had really been appropriated to irrigation of our plantations during the period that elapsed previous to the letter of the Principal Collector of Coimbatore in July 30th 1842. the utmost extent of plantation did not exceed 25 Cawnies (and Captain Vallancy's lefs) and from the best estimate I can form of the quantity of water required for plantations in comparison with Nunja ground below (which requires 7000 cubic yards a cawny) is above the hills one tenth below the hills in the Carnatic one fifth so that if it could be proved that the water used on the Hills was abstracted from the irrigation of Coimbatore there would be only water sufficient for 2½ Cawnies of Nunja ground to meet the defalcation of; this could not yield to Government above 30 Rupees whereas we then paid 80 for our land reclaimed from the jungle but this is not all. the money for the water being realised, there is no more advantage to Government, whereas in our produce there is an increasing duty as the plantation grows up on every

No loss but gain to Government.

cawny

eavny arising out of the duty on the Silk — produced whereas the quantity of water — required diminishes.—

No water lost to Coimbatore from the Irrigation of the Hills

3 But I deny that one drop of — the water used for irrigation on the Hills is ever abstracted from below, the water that above the Hills is directed in irrigation — either percolates the earth into the same — Stream at a lower level or is evaporated — from its surface and is precepolated — again in rain all of which runs below for in the freshes on the Hills the only — desire is to get rid of the water.—

India needs for its prosperity not the increase of Paddy cultivation but Exportable products.

4. What India needs both for its — Revenue and internal prosperity is the — esctension not of paddy cultivation which is already too abundant and consequently too low in price to remunerate the cultivator but in such esportable commodities as enrich both the mother country and the Colonies.—

How the flax cultivation is affected by this measure.

5. In our attempt to raise flax on the Hills the same thing applies as to the plantations the quantity of water wanted is not great but if we cannot com= =mand a drop (and except from these streams of which the use is now denied us there is no means of commanding any) the cultivation must

must be given up, for the plant is so delicate — that it cannot stand the monsoon rains it — would be all beaten down and destroyed — and if we choose the mild weather we — must expect comparative dry weather and then if we cannot command the application of water this valuable product which from the appearance of what is now just ripe is so fair, must be entirely relinquished, and in fact the whole Hills given up to perpetual sterility as I have before ob= =served as to profitable produce, for in this mountainous district wells and bowries cannot be provided as in the low Countries the rivers and running springs are the only general means of obtaining water, and that too for no other possible end than to add to an unprofitable and Superas= =bundant produce such as paddy even could it be proved (which it cannot I apprehend) that one drop less water would descend into the plains in consequence of the irri= =gation of the Hills.—

The importance of encouraging individual efforts in introducing new and — valuable — articles of demand.—

6. It has ever been I believe held to be a true principle, to deny ad= =vantages to one class of cultivators that would enable them to produce cheaper than their

their fellow subjects the old staple commodities of a Country but the wisest policy to give every encouragement to individual exertion at their own risk to create new sources of Revenue by the production of valuable articles of consumption or demand and certainly the reports of the Bengal Government prove that they have taken the same view for they have given Lacs in direct bounty to induce others to undertake what we have endeavoured to accomplish at our own risk and with the full sanction of the only authority with which the Government has placed us in direct connection and I feel assured we may fully rely on the justice and kind consideration of Government in this case of extreme hardship, and that they will accede to our earnest desire that at all events the interdict of water for the use of our plantation may be withdrawn and that we may be allowed to use it as our plantations need as before. For now without a word of previous explanation or enquiry as I have observed the order has been given to turn away our water and thus the plantations which have cost us years of labour and so large a

The extreme hardship of the measure

a sum of money and which were so entirely fostered and encouraged by the Collector of Malabar during the period those parts of the Hills were under his active and enlightened care are in danger of becoming entirely ruined and the leaves left to wither should rain not immediately fall when the worms were just requiring their largest supply and thus we shall be deprived of our first expected return, and this I feel assured arising from a misapprehension of the Principal Collector of Coimbatore as to the intentions of the Board and the real effect of irrigation of the Hills on the districts below and an inadequate view of the value of the cultivation of such products as Silk, Coffee, flax, and the other exportable commodities on the prosperity of India. But at all events it can never be the intention of any Government to interdict to one district the use of those bounties of nature with which God has blessed it, for the advantage of another province to doom the beautiful climate and soil of the Hill Country to comparative barrenness and jungle and parties interested in the cultivation to ruin for

for the purpose of extending the growth of paddy in the low country; even could this be obtained by the plan pursued.-

No distinction ever existed between wet and dry land on the Hills-

7. And it is worthy of remark that the very distinction of Nunja and Poonja lands does not exist on the Hills, but the water has ever been used by all parties without restriction or remark or reference to any such principle as prevails below and as it regards the Hills therefore, if the right of depriving the cultivator of the use of water is assumed now for the 1st time it is the assumption of a new right by Government and depriving the Proprietors or cultivators of an old and invaluable one and it would seem immaterial in principle whether Government draws its Revenue from one district or another from water or produce so that it secures the revenue somewhere on some fixed and equitable principle.- However this remains for the wisdom of Government to arrange but whatever course the Governor in Council may think it right to pursue relative to the right of water on the Hills it will be I earnestly hope to regulate not to destroy that

that right and it must not be forgotten that such harsh checks to years of labour will not exhaust their baneful influence by the ruin of our hopes but tend universally to discourage what India most needs the introduction of European Capital and energy into a field which has hitherto had its immense resources locked up for want of any who would encounter the discouragements attendant on a 1st undertaking.-

Other consideration not dwelt on.-

8. I do not here dwell on other consideration that would render the ruin of this project the fruit of so much labour and expense deeply painful at the very moment it was beginning to yield some return when the silk worm house was just built and every thing seemed to promise that our labours there would be as successful as here, because these considerations are of a nature that I have ever wished to abstain from <u>publicly</u> obtruding but they are such as I think were unselfish and designed for <u>public</u> advantage rather than my own, and I think I could easily shew that if I had turned away the whole river instead of as much as could be contained in a watercourse

Our efforts by no means purely private.-

watercourse of 2 feet wide by 9 inches deep — (and not always running) that the Divi=sion of a public stream for mere private advantage was never in our contemplation — nor indeed in any thing we have undertaken at the Hills or at Chittoor but that — our objects have ever been and are in — the widest sence public. I trust the most Noble the Governor in Council will — pardon any informality there may be in this direct application arising as it does out of the extreme necessity the — state of our silk worms and leaves lay us under of obtaining immediate redrefs.

P. S.

Since writing the above I have received a letter from the Collector of Malabar containing the following passage and confirm=ing all I have said above as to his views. — "The order to which you refer regarding the pro=hibition to draw off any water from the streams "that run into Coimbatoor is as surprising "to me as it can be to you: and if it would not be too great a liberty may I request a copy of the communication of the Principal Collector of Coimbatore of the 30th July 1842 to the Board of Revenue so far as it relates to

The object of the Board's reference to Mr. Blair was to ascertain that he had satisfied himself of the facts stated, and that his opinion that the Suit should be defended was found=ed on a due consideration of them- the transmission of a further report from Mr. Reade the Head Assistant, was therefore unnecessary. It was thought moreover that Mr. Reade's proposed answer might have been revised and reduced somewhat in length with advantage- The expression therein used that "the circum=stances above detailed may not be strictly correct" appears a singular admission to be found in such a document and quite sufficient to throw doubt upon the accura=cy for which Mr. Reade afterwards claims such implicit reliance.

Sir,

From the Collr of Masulipatam— } Para 1.

Reporting the result of the settlement effected with the Creditors of the late Zemindar of Deavy by which the bonded Debt which stood at Rupees 3,71,691—3 has been reduced to Rs. 1,00,851-4-2 which sum is recommended to be advanced from the public Treasury with the view of relieving the Estate from its present incumbrances.—

With reference to the correspondence noted in the Margin, I have the honor to report for the information and orders of the Court of Wards,

the result of the overtures made to the Creditors of the late Zemindar of Deavy with the view of effecting a compromise of their claims.—

2. The Court are aware that arrangements for the above purpose were commenced by the late Collector Mr. Grant, and that a satisfactory settlement was effected with a portion of the Creditors, under the condition that payment of their claims should be made within a certain date, but that it was found impracticable to act upon those arrangements, owing to the refusal of some of the most influential of the remaining

Fort St. George 8th June 1843

remaining Creditors, to accede to the terms proposed, the consequence of which was that those who had been already brought to terms receded from their agreements, on the period of which had in the interim expired.

3 In pursuance of the intention expressed in Para 17 of my report dated 7th November last, I have had several conferences with the principal Creditors, at which, I endeavoured to impress upon them the utter hopelessness of their receiving for many years to come, any portion of the large amount of their claims, whilst the Government, whose claims hold precedence of their own, have so large a demand for arrears of Peishcush, and on whilst the resources of the Estate continue, as they are at present deteriorated in consequence of a continued depression in the prices of grain and the effects of a succession of varying seasons, unless by a liberal reduction in the amount of their respective demands, they should induce the Government to step forward on behalf of the Minor to relieve the Estate from its embarrassments by an advance from

Fort St. George 8th June 1843

from the public Treasury- after considerable discussion, and with some little shew of reluctance on the part of a few of them, the most influential were induced to subscribe to the terms offered, which are the same as those originally proposed by the late Collector. their example was soon followed by the remainder of those who had not already been treated with, and those who had signified their intention of not holding by their first agreement, were soon persuaded to allow the same to remain in force, the only alteration being that the term of it is extended to the 1st of January 1844-

4. The Amount of Composition to be paid to those Creditors who had handed in documents duly executed & signifying formally their consent to the arrangement proposed is Rupees 9,8038-12-2 as shewn in Col. 28 of the Statement A now submitted, whilst that to be paid to the individuals who are absent from Masulipatam and whose agreements of the nature above described have not therefore been delivered, is Rupees 2,812-8-: making the aggregate amount for which the whole private

5 The Creditors last alluded to, as not having yet delivered the formal agreements to abide by the terms proposed, and the gross amount of whose claims as is shewn in the Margin are Chinnum Rajamah, and the heirs of Moonshee as Meeran Saib, to these a communication has been made, and I hope at no as distant period to receive from the men agreement executed in due form mean time, as I have reason to believe that no objections will be offered by them to the terms which have been acceded to, by the rest of the Creditors, and as as I have pledged myself to use my best as exertions to get the money paid to each as much within the date stipulated in their as agreements as possible, I have not thought it necessary to delay this communication any longer —.

8. Upon the whole, I trust that the arrangements now reported as having been made for the reduction of the claims of the private Creditors on the Deevy Estate

Estate will be considered satisfactory and such as may enable the Court of Wards to recommend that the amount now agreed to be received in full of all demands be advanced from the public Treasury, in which case, adverting to the prospects of speedy payments which on I have held out to the Creditors as stated at the conclusion of Para 5 of this letter, I venture to express a hope that I may be furnished with the orders of Govern= =ment at as early a date as may be convenient. —

9. In concluding this report, I deem it but justice to acknowledge on the assistance which I have received in the course of my negociations with the Creditors, from V. Kistnasastroolo Pleader in the Northern Provincial Court, one of the most influential if not one of the principal creditors of the late zemindar, in consideration of which I would crave the attention of the Court to the following circumstance in regard to a portion of this persons claim on the Deeny funds. —

11. It will be seen from the

correspondence noted in the Margin, that a process was issued at the instance of Nabob Noormissa Begum for the pay= =ment of the sale proceeds of certain personal property belonging to the late Deevy Zemindar, and that the Board on authorized the same amounting to Rupees 6142-15-8 to be paid to her — On the receipt of these instructions, the then acting Collector Mr. Blane, with much consideration and forethought, withheld payment of the sum to the party, under the apprehension that a payment made to one Creditor to the exclusion of others would greatly impede a satisfactory settlement with the remaining Creditors, and that on the consequence would ultimately prove injurious to the interests of the minor. In the meantime Kistna Sastroolo on moved the Provincial Court that on his claim, founded on a Razeenamah, had preference over that of the Nabob, and thus obtained a process in his favor, by which the sale proceeds above alluded to were awarded to him, but Mr. Grant actuated by the same motives as Mr. Blane,

on

on the former occasion, moved the ex Provincial Court to suspend the process in question until the settlement which he was endeavouring to make with the ex Creditors generally should have been completed- this request having been granted by the Provincial Court, the money has never been paid—

12. Adverting to Kistna Sastroolu's forbearance, and the lead he has taken on the present occasion in bringing all the claims to a settlement, I think it would be but fair to shew some indulgence to this individual as an act of grace for services rendered, and I would therefore submit for the consideration of the Court whether the amount of sale proceeds above noticed as having been awarded to him but a portion of which he is bound by his agreement to forego, (should the Court of Wards not see reason to

absolve him from his bond) should not be paid to him, instead of the sum entered in Col. 28 of the statement— The amount of this claim, tho' carried to the Credit of the Estate, is still Jeoncew at the disposal of the Court of Wards, for the purpose for which it was claimed under the Courts' decree.—

Rs. 28942-" see opposite to No. 22.—

13. Should the Court approve of this suggestion, the amount entered in Col. 28 will be reduced from Rupees 100851-4-2 to Rupees 97956-8-2.—

14. Independently of the total bonded debt exhibited in the accompanying statement, there are a few other sums stated to be due to certain individuals as shewn in the accompanying supplemental Statement B. regarding these, I beg to offer the following explanation.—

15. Item No. 1, is the sum stated to be due to B. Narsinga Row on account of advances made by him for the subsistence of the Minor Zemindar and his dependents for the period commencing from the date of the late Zemindars

Zemindars decease, up to the date of the sanction of the Court of Wards en authorising a Monthly allowance - This Claim is supported by the present Guardian - 16.

Item No. 2 is the amount of arrears of salaries due to the servants of the late zemindar for periods ante-cedent to the date of his death, and upon whose claims a report was called for, by the Board by Endorsement on the accompanying Petition No. 376 of 1842 - It will be observed from the Marginal Note appended to Para 4 of 30th Jany. 1837 - Mr. Goldingham's report that he therein stated that in the event of advances being made by Government for payment of the bonded debts, these salaries should be paid out of the same funds - It will likewise be observed from the correspondence noted in the margin that, as a special case the arrears due to one of these servants To the Board 21st Nov. 1839 Board's Proceedings 9th December — was authorized by the Court of Wards to be paid - I have not however entered these claims in the general Statement of debts as they cannot be considered as

as constituting a bonded debt - The individuals are many of them still in the employment of the minor Zemindar - and likely to remain so and I beg to submit therefore whether the sums due to them as well as item No. 1 might not be paid out of the future current Collections of the Estate, or postponed till the minor attains his majority. —

17. The items from No. 3 - to 6 are composed of sundry small sums. These have not been brought to notice till lately and I should think that they may be allowed to lie over for the present leaving it to the family to satisfy these claims themselves. —

Reporting the substance of subsequent accounts of the effects of the Hurricane on the night of the 22d ultimo.-

Sir

Para 1 In continuation of my report dated 27th ultimo, I have the honor to state for the information of the Board the substance of subsequent accounts of the effects of the Hurricane on the night of the 22d.

2 In the Palnad little injury appears to have been done by the gale, but the consequences of the excessive rain have been disastrous. Scarcely a tank remains unbreached. The Nagalair river suddenly rose from the rain and the tanks which had burst along its course to such a height to sweep away several houses of the Villages of Pydepundi Cummapooty & Pedacodamagoondla & completely to inundate the town of Datchapilly with the exception of the Brahmin quarter, which being considerably raised afforded an asylum to the rest of the inhabitants many of whose houses including the Bazar were entirely swept away. The old and new travellers' Bungalows referred to in the correspondence noted in the margin have both been reduced to ruins. It is desirable

x Letter from Civil Engineer to Bd dated 8th November 1842. Do to Do from the Bd 24th Do.

desirable that sanction should immediately be communicated through the regular channel through which application will be made for a travellers Bungalow of Brick in chunam of the standard Plan. I have also in anticipation of the Boards sanction authorized an advance of 300 Rs. to assist the poorer inhabitants to rebuild their houses.—

3 The towns of Poorshottapatam and Chickalore pand situated along the same nullah as Rajapattah were also inundated and in a great measure destroyed. The inhabitants of the former place generally saved their lives by escaping to a strong built house belonging to Sayerkhan Ameen of Tenaly.—

4 By the latest report from the Bauputlah Tanah dated 31st. May the heaps of thrashed grain were still in the water and are most likely entirely spoiled. The estimated produce was about 1200 Candies. The value of Sirkar share about Pagodas 10,000.—

5 In the salt pans the loss has been great. The estimated quantity of salt received in store at Nizampatam and Parlee is 56 Garces 14 From Chinna Ganjam and Peddah Ganjam the accounts have not been received

a great proportion of the salt manufactured this season was also destroyed. a particularly hard case occurred at Parlee when a party of Lambadies had received on Monday the 22d about 4¾ Garces of salt which as well as great number of their cattle was lost in the night. In consideration of their great loss. I would beg sanction for restoring the money to them.

6 The new Madras road has been greatly injured. the coat of gravel having mostly been washed off into the fields. but the three new Bridges at Parchoor, Nundapand, and Varagany have stood uninjured which is a good test of the excellence of the work.—

7 The report noticed in the 3d Para of my letter of the 27th was not well founded. The total number of ascertained deaths is 32, 3 of which occurred by the falling of a building. the others were drowned.—

To the Chief Secy. to Govt. &c.

Sir,

With reference to the Proceedings of the Board of Revenue dated 1st instant I am directed to transmit for the information and orders of the Most Noble the Governor in Council the accompanying further report from the Collector of Guntoor regarding the effects of the storm on the night of the 22d. Ultimo which the Board regret to observe were more disastrous than was at first supposed.

2. Lives have been lost, considerable injury appears to have been done both to public and private property. The new road to Madras has been greatly injured. From the sudden and heavy fall of rain Several tanks have burst their banks and the Nagulum River rose so high as to inundate the town of Datchapilly ruining the public bungalow and sweeping away the Bazar and many of the houses

8480 Fort St. George 8th June 1843.

3 Mr. Stokes in anticipation of sanction had made an advance of 300 Rupees to the poorer inhabitants to enable them to rebuild their dwellings which the Board recommend may receive the special sanction of Government.

4. The Board also recommend that he may be permitted to return the money of a party of Lombadies who the same day had purchased 4 3/4 Garce of Salt the whole of which was lost with a great number of their Cattle.

From the A.P.C. Coll.r of Cuddapah 31st Oct.r 1842 In Cons.n 12th January 1843

Read again the Report of the acting Principal Collector of Cuddapah on the Settlement of Land Revenue for Fusly 1251. A.D. 1841/42.

22

Proceedings Relative to the Settlement of the Land Revenue in the District of Cuddapah for Fusly 1251.

/ Here enter No. 82. /

1 The business of this settlement was conducted partly by the Sub Collector Mr. Cotton, partly by Mr. Arbuthnot and that of the Sub division by Mr. Woodgate acting Sub Collector, Mr. Mayne Head Assistant and Mr. Cotton the Sub Collector.

Para 4 (a) 8. 2. The season was very favorable as regarded the supply of rain and the extension of cultivation, but its influence on the health of the inhabitants was injurious, fever and Cholera having prevailed to a considerable extent.

Para 11. 3. The land taken up for cultivation exceeded the engagements of the preceding Fusly by acres 15,706 yielding Rupees 40,836, but owing to the large remissions in 1250 Fusly for lands left to unsown the actual increase of cultivation amounted only to

to acres 49-484 assessed at Rupees 159062. The

effect of this was a net increase in the settlement under review of Rupees 1,34,846 13 7

Para 9. 10 4. The state of the Market for agricultural produce was not more favorable in Cuddapah than elsewhere.

Para 12 13 5. The only items in which the cultivation shows unfavorably in comparison with that of 1250 / 1840/41 is in the black lands where there is a decrease of Rupees 1214 and in the garden lands dependent on Wells, of Rupees 5,658; the latter owing partly to lands actually deserted, partly to others transferred to Nunjah. But the former appears to have been occasioned not by the relinquishment of land but by the larger occupation of lower assessed lands. The decrease occurred chiefly in the Coilcoont Sub Taluk as exhibited in the following statement.

	Acres	Rupees	Increase Acres	Increase Rupees	Decrease Acres	Decrease Rupees

Fusly 1250 12,230 Rupees 2811

"——1251 11665 Rupees 24421

Decrease Rupees 565 Rupees 390

The reason assigned by the acting Principal Collector is the poverty of the ryots but in the Windoovee account shewing the increase and decrease of each Village in the District it is ascribed to the death and emigration of ryots and the departure of the Poykarree Cultivators. The fact of the increased occupation of lowly assessed lands would lead to the supposition that sufficient attention had not been paid to the standing orders of the 7th June 1824.

Para 16 & 23 6. Mr. Arbuthnot has entered into a full explanation of the necessity for making remissions after the completion of the Settlements. The reasons adduced may be classed under three heads. 1st The first, that of land unable to bear the additional assessment for a second crop in consequence of the demand for the first having

Proceedings 12th Septr 1842 P. 15

having been originally fixed too high has been
red by the Board's Orders of the 13th February
last. 2 The next is that of lands taken up
for late Cultivation / Vysak Bunjur / in Taloks
settled in the early part of the year. After the
Summabundy is finished circumstances may
arise to prevent them from being sown and
the Ryots apply to have them deducted from
their Puttahs. The cause of this is ascribed to the
early period at which it is necessary to commence
the Settlement in a District so extensive
as Cuddapah. 3. The remaining items
consist either of lands unsown or of those
in which the seed has not germinated,
which are brought to notice for the first
time at the Summabundy and therefore
require to be more fully investigated before
the demand on them can be remitted. The
remedy suggested by Mr. Arbuthnot for
getting rid of the present practice
is to exclude the doubtful items from

the Summa in the first instance and to bring
them to account afterwards as / Sunkhee
Pasthee or / cultivation discovered after the
settlement by which is understood that the
amount would be credited as / Sevae Summa /
extra Collections.

7. The Board are not aware
that importance has been attached to such
difficulties in other Districts where the
Settlement must be commenced as early in
the Season as in Cuddapah or that they have
called for the adoption of similar expedients
The plan now proposed by Mr. Arbuthnot
is not only, as he himself states, the same
in effect as the former one, but it is open
to the further objection of shewing a less
amount of Land Revenue than has actually been
realized by occasioning a portion of it to
be entered under a head commonly appropri-
ated to items of a totally different description.
The more regular practice is to
credit the demand with all such
items in the first instance and
where

where good cause may afterwards be shewn why any of them should not be enforced to treat them as a balance and to obtain the sanction of Government for writing them off to profit and loss, after due scrutiny at the next ensuing settlement.

8.

But it appears to the Board that most of the items enumerated in Para. 16 admit of easy adjustment by the means usually adopted for such a purpose. They consist in paying due attention to the preparation of the inspection accounts / Pahnie Hisab / each Zillahdar is expected to visit the different Villages in his charge shortly before the Summahbundy and to note the actual condition of every field that can by possibility come under discussion on that occasion before the Collector.

9.

These returns checked by the Viva voce examination of the neighbours among the assembled Villagers should enable the Collector to ascertain with tolerable accuracy

how much additional cultivation can be completed with the water remaining in the tanks and how much credit should be attached to complaints of inundation, insufficiency of water, failure of seed, double entry, erroneous description &c. Where after such careful enquiry it is found that a field had failed to obtain the supply of water which there was reason to expect it would, the demand must be suspended and treated as a balance where on the other hand a claim to remission is afterwards found to have been unnecessarily admitted, the amount must be credited as Sirai Summa.

But such cases, if proper scrutiny is made, must be very few, and their amount very trifling. The chief business of a Summahbundy consists in investigating objections of this nature and such must exist to a greater or less degree in all Districts There is nothing peculiar in Cuddapah to render them of more frequent occurrence there than elsewhere, or to prevent the checks

Paras 20 & 26.

checks abovementioned from being equally efficacious in disposing of them. One or two Passages in the Report have led to the belief, that they are not employed to the extent they might be. For instance with respect to concealed cultivation brought to light after the Settlement is over, it is stated that such frauds are most frequent in the Southern Talooks which are always settled last, long after, not only the season of cultivation, but the Harvest itself, is past; and where at least there is no excuse for every cause of complaint not being fully explained to the Collector by the Talook servants. If moreover accounts of cultivation are regularly furnished to the Huzzoor during the season of cultivation and these in a few Villages taken at random subsequently compared by Huzzoor servants deputed for the purpose, with the actual extent of land brought to account, there could be little room for the successful practice of fraud. The Board request Mr. Arbuthnot's

attention to these remarks and trust he will be enabled to dispense entirely with the practice of after remissions in his future Settlements.—

10. Of the whole demand Rupees 2,050,988 were collected within the fusly and 85,986 to the date of the Collectors Report leaving a balance of 5,365 at the date of the Report reduced by the last returns to Rupees +3,373. 2-2.

have been examined and adjusted. These amounted at the close of the examination in the Month of October last to Rupees 15,264-9-8 extending over a period of four years from fusly 12448 A.D. 1838-39 to 1250 1840-41 and inclusive of one item that has been standing over since 1242. 1832-33

There remain then Rupees 14,409 of which 2,272-7-5 are pronounced to be recoverable but the remainder 12,137-2-3 are

are considered by Mr. Arbuthnot to be of such a nature that the attempt to levy them would ruin such of the parties by whom they are due, as are forthcoming, while the rest are utterly desperate. The Board determine therefore to support his recommendation, and to solicit the sanction of the Most Noble the Governor in Council for writing them off to profit and loss.

Para 38 13. Complaints are stated to have been preferred by some of the Village Officers that their emoluments fall short of the proportion laid down in the scale of remuneration framed by Colonel Munro when Collector. In reply to Mr. Arbuthnot's enquiry whether he should be empowered to make up any such deficiencies as may be proved to exist, the Board consider that it would be very desirable to do so, and they are of opinion that special representations should be made of such cases as are considered urgently

Fort St. George 8th. June 1843.

to demand attention. These the Board will submit for the sanction of Government pending the more general measures for the reform of the Village institutions now under consideration.

Paras 39 & 41 14. The state of the roads in Cuddapah has lately occupied much of the attention of the Board in the Department of Public Works and a detailed exposition of their views on the Subject will shortly be laid before Government. A very recent communication from the Acting Principal Collector to the same effect as the paras of the Report, on which these observations are founded, will be forwarded at the same time.

From Pt. Coll. 12th May 1843 in Depart. Public works.

Paras 44 45 15. The explanation afforded in these Paras in reply to the Board's observations in their Proceedings of the 12th September last Paras 13 14 and 16 are satisfactory.

Para 46 16. Mr. Arbuthnot offers some observations on a recommendation made by the Sub Collector in the concluding

8493

Fort St. George 8th June 1843.

concluding paras of his report for a revision of the Survey rates in certain Villages, the circumstances of which he considers to have undergone important changes since the Settlement founded on them was concluded. The Board concur with Mr. Arbuthnot in thinking any partial measures of this description to be objectionable. The danger of tampering with the operations of the Survey in particular cases, has often been pointed out and need not be dwelt upon further.

7

The Board desire to call the attention of Government to the favorable terms in which Mr. Arbuthnot notices the conduct of his Subordinates, and to record their own sense of the satisfactory evidence borne to the success of his own Management by the increase in the Revenue, its easy and regular collection and the improved state of the Police.

Endt.

"From the Collectors report, it appears that Petitioners were fined for allowing the son of the Curnum of their Village who had been dismissed for dishonesty to discharge the duties of that Office in place of the party appointed by the Collector and for conniving with him in making excess charges against certain Ryots. The Board see no reason to interfere."

Also on Petition 960 of 1841

"It appears from the Collectors report that the first Petitioner has no

Extract from the Proceedings of the Sudr
Mdalut under date the 8th August 1842.

Read Miscellaneous Petition
presented 14th February 1842 by Govind
Moortoozah on behalf of H. M. Blair Esq.
Principal Collector of Canara in which
complaint is made against Special Appeal
No 16 of 1837, and reconsideration and revision
thereof prayed.

1.

The Sudr Mdalut having
considered the above Petition and perused the
Decree complained of are so clearly convinced
of the incorrectness and injustice of the
decision particularly as regards the
award of compound interest, and the
discussion of irrelevant matter, that an
opportunity is afforded for a recurrence to the
uncommon measure of referring a suit back
a second time for review of Judgment.

2.

The Provincial Court can
be seen travelled out of the record and in

8520

Fort St. George 8th June 1843.

in their anxiety to support the letter
of the law to have lost sight of Equity.
It is argued that previous to the sale
of land sanction from the Revenue
Board was requisite, whereas the
Principal Collector proves that no such
sanction was requisite for ensuring the
sale of a defaulter's land, until subse-
quent to this disputed transaction
the Sudr Mdalut must record their
objection to making assumptions or
insufficient grounds, or to the taking
advantage of pleas, never used by either
party - to suppressing objections, or dis-
-covering difficulties not naturally
elicited by the enquiry - as such a course
of proceeding inevitably leads to confu-
-sion, and militates against the simple
principles of Judicial investigation
in this country where equity rather
than legal technicality ought to
be enforced.

3.

The Sudr Mdalut in their
proceedings of the 23d March 1840 para 8
in allusion to the question of the legality
of allowing compound interest to the

Special

Fort St. George 8th June 1813.

Special Appellant stated that it appeared to them "that if the Provincial Court "should adhere to that computation of "interest; it will be necessary for that "Court to shew that it is not barred "by the Provisions of Section V Regulation XXXIV of 1802".

4. "In the revised Decree it "is stated the Provincial Court have again "attentively considered this point and are "of opinion that they are entirely justified "in adhering to their original Award as "regards the Section of the Regulation referred "to by the Sudr Udalut it appears to the "Provincial Court that it cannot apply "to the present case as it declares only "that the Court shall not Decree compound "Interest on intermediate adjustments of "Accounts. The Provincial Court required "the Principal Collector to restore the "land and account for its produce and "as that produce might have enabled the "Plaintiff / Special Appellant / to maintain "herself, it was considered but just to allow "compound interest to meet the interest "which she had had to pay for what the

mind

Fort St. George 8th June 1813.

"must have raised for her maintenance "in default of such produce, or to recom- "pense her for the loss of that which "might have accrued on savings".

5. The Sudr Udalut cannot concur with the Provincial Court in the correctness of the above reasoning.

In the first place the Sudr Udalut would ask, If the Sections pointed out by the Sudr Udalut do not apply to the present case, by what part of the Regu- lations do the Provincial Court consider themselves to be justified in awarding compound Interest at all?

The Section in question authorizes Courts to award compound Interest in cases where accounts between the parties having been adjusted, the former bonds or agreements may have been cancelled and new bonds or agreements taken for the aggregate amount of the principal and the legal interest remaining due upon the adjust- ment consolidated into principal Money; "but it particularly prohibits Courts from "decreeing to Creditors compound Interest, "arising from intermediate adjustments

of

of accounts.

If then the Law declare that compound Interest cannot be allowed on the adjustments of accounts, a fortiori must it be prohibited where no adjustment of accounts has taken place.

6. Respecting the second part of the ground named by the Provincial Court on which they adhere to their original opinion, the Sudr Udalut would remark that even admitting that the Regulations allow the Provincial Court a discretion as to whether or not they will admit compound Interest in such a case (which however the Sudr Udalut deny in this the present is not a case calling for the exercise of power of granting it.

7. Before awarding to the special appellant compound Interest it should at least be shewn that she had claimed it. The Sudr Udalut do not find it any where stated by the special appellant that she had been compelled to borrow money for her support. Without proof that she had been put to this expence it is not reasonable to allow her compound Interest to cover it.

On

On the ground therefore that the

8. Decree of the Provincial Court awarding to the special appellant Compound Interest on the yearly produce of her land is sanctioned by no part of the Regulations, the Court of Sudr Udalut determine once more to refer the Suit back to the Provincial Court, with directions that they will readmit it on their file, and pass a Decree on it after having maturely considered this part of the award.

9. The Provincial Court passed their first Decree against the Principal Collector on the two fold ground, that the sale of the land of the special appellant was illegal, because the amount of Rists due for the current Fusly was included in the demand made against him, and because a greater portion of land was sold than what was necessary, to cover the arrear legally due.

10. In their second Decree the Provincial Court have abandoned these grounds and have pronounced the sale of the land to have been illegal, because

Fort St. George 8th June 1843.

because the Principal Collector failed to obtain the sanction of the Board of Revenue for the sale.

11. When the fact is considered that the Sicca for which the greater part of the balance claimed was due had expired, the Court are not disposed to concur completely with the Provincial Court in the doctrine here declared, and the Provincial Court should be desired maturely to consider this highly important point.

12. It is further an opinion of the Sudr Udalut that the attention of the Provincial Court be particularly directed to the damages awarded by the Decree referred to them, with a view to their deciding whether they be not, as they are declared to be, exorbitant.

Ordered that Copy of the above proceedings be forwarded by precept, returnable in 5 days to the Provincial Court in the Western Division, for their information and guidance.

Decree

Fort St. George 8th June 1843.

Decree of the Provincial Court.

The special appellant seeks the reversal of a Decree of the Assistant Judge of the Adalut of Canara, confirming a previous decision by the Register which dismissed her claim to recover a land with house &c. thereon, of the alleged Annual produce of Hoons 60-1-4 and being an Annual assessment of Hoons 22-8-3 which as she asserts was illegally sold for arrears of Revenue amounting to Hoons 26-1-11 on the 25th May 1822.

Under date the 18th January 1839, the Provincial Court passed a Decree pronouncing the sale irregular, with reference to the provisions of section V and clause 5th section XIII Regulation XXVII of 1802, and adjudging the Principal Collector of Canara & the special Respondent to pay to the special appellant Rupees 1,222-1-8,3 on account of arrears of produce, and that the land be restored to her, the Principal Collector repaying to the purchaser the amount received from him.

The

Fort St. George 8th June 1843.

The Judges of the Sudr Adalut on application for relief from that Decree by the Principal Collector of Canara in their proceedings under date the 23d March 1840, directed that the said Decree be cancelled for irregularity, and that the special appeal be revived in order to its reconsideration and eventual judgment denovo, and in accordance with which the Provincial Court after taking evidence on certain points on the 3d September 1841 passed a second Decree confirmatory of their previous one, and on which the Court of Sudr Adalut in their proceedings of the 8th August 1842 observe "that "they are so clearly convinced of the "incorrectness and injustice of the "decision, particularly as regards the "award of compound interest, and the "discussion of irrelevant matter, that "an opportunity is afforded for a "resort to the uncommon measure of "referring a Suit back a second time "for review of judgment."

The 2d Judge Mr. Bird having

having considered this case, recorded the following Minute under date the 19th December 1842.

"The Provincial Court have now to record judgment in the "case, and in doing so, I would pre"mise that as the former proceedings "were held before, and both Decrees "passed by Officers who are no longer "presiding in the Court, I consider it "preferable, more particularly as the Court "of Sudr Adalut have declared that "the "Provincial Court travelled out of the "record" to refer as little as possible to what has "gone before, and to confine myself to "pronouncing upon the real point at "issue, and which appears to be whether "the special Appellant Korapullee has "or has not received injustice at the "hands of the Defendant by the sale "of the land, and in determining this, "I think, that attention should be "directed to the following points Viz.ts "1st " Whether arrears of revenue were "due by the special Appellant, and "if so, whether the usual process of

"of attachment was observed, and time "allowed for the payment of the sum due. "2d. Whether thro' the fraud of the four "first Defendants the sale was so conducted "that a valuable property was sold "for a sum below its real value. "3d. Whether with reference to the pro"visions of clause fifth section XIII. "Regulation XXVII of 1802, the sale must "be held to be illegal, and "4th. Whether, under Section V Regulation "XXVII of 1802 it was imperative on the "Revenue authorities to first distrain "and put up to sale a portion only of the land "With regard to the 1st point, "it is admitted by the special Appel"lant that Woons 14-8-12 were in "arrears for the passed fusly /1231/ "and Woons 11-3-2 due for the months "of January and February of the current "fusly: She admits also that a proclama"tion dated 19th March, notifying "that the sale of the property would "take place on the 17th April, was "affixed to her house, but taken down "in her pleadings / after two hours fixa"Petition dated August 1823/ after 8 days, and

"and that the sale did not actually
"take place until the 24th. of May, and as it
"would appear that no further process has
"been customary in Canara, when attaching
"property than to issue a proclamation;
"and as Regulation XXVII of 1802 no where
"enjoins the particular form for the attach-
"ment of lands, I can see nothing in
"favor of the special appellant on
"this point."

"As respect the 2d. point I
"would observe that it appears to me
"to be wholly impossible to declare
"that any fraudulent sale has been
"proved to have taken place, and beyond
"the circumstance / no uncommon one /
"of property having been sold for a
"sum below its possible value, there
"is nothing that I can see to bear
"out the special appellant in her
"assertions against the four first
"Defendants."

"On the 3d. point I entirely
"agree with the 6th. Special Respondent that in
"selling a land for arrears of the first Instance there would be

"no other means of securing the amount of Rists
"due up to the period of sale than by
"taking it from the proceeds of the
"Sale", "and I am clearly of opinion that
"under the circumstances of the present
"sale, such a proceeding cannot be
"held to be illegal."

"To the 4th. point and
"on which I consider the whole
"decision rests, I have given my
"best consideration; and after due
"attention to the several enactments
"relative to the sale of property,
"and the arguments recorded, I am
"of opinion that the provision of
"Section V Regulation XXVII of 1802
"were never intended to have so strict
"a construction put upon them as to
"prevent a Revenue Officer from selling
"a greater portion of an estate than
"might appear probable would cover
"the arrears due, should he deem
"such a proceeding expedient, for as
"the 6th. Special Respondent has observed a differ-
"ent course would involve the adjustment of so many points
before

"before a fraction of an estate would be brought
"to sale as would materially impede the
"collection of the Revenue"; and it appears
"to me that section V of Regulation XXVII
"of 1802 taken in connexion with section
VI, gives the Collector full and summary
"power to collect the just dues of
"Government, for which the whole estate
"is answerable by the sale of the whole or
"a portion of the said estate:

As however this is a point
"of great importance, not only as
"regards the present claim, but to
"land-holders in general, and as the
"construction now about to be given
"to the Regulation ought by reason
"of there being no further appeal
"under the Regulation to be final,
"I consider that prior to passing any
"decision in the case, it would be
"advisable for this Court under the
"provisions of the latter Section of Regu-
"lation XXII of 1802, to obtain the
"distinct opinion of the higher Court, on
"the construction that should be given
"to Section V Regulation XXVII of 1802.

On

"On the construction then
placed upon Section V, a Judgement in
the claim can be passed, and in the
event of its being declared imperative
on the Revenue officers to have put up a portion
and not the whole estate, the sale must of course
be declared illegal & I am then of opinion that
the Judgement formerly recorded by this Court
in their Decree of the 3d September
1841 should be passed after deducting
the amount Decreed, as Compound interest,
and which I consider to be entirely
opposed to the provisions of Section V
Regulation XXVII of 1802, simple
interest being adjudged in lieu, and
calculated in the usual mode.

"Should a contrary
"construction be given, I need hardly
"record my opinion after the observations
"made that I consider the Decree of the
"lower Court should be confirmed with
"Costs against the special appellant
"Rora pulloo."

"The 3d Judge Mr Morris
dissenting from the 2d Judge's opinion,
recorded his minute under date the 9th June 1843.

The

The 1st Judge Mr. Waters for whose consideration the case was left, recorded the following Minute under date the 27th March 1843.—

1st "The 1st Judge having maturely considered the records of this case, coincides in opinion with the 2d and 3d Judges, as to the expediency of submitting a reference to the Court of Sudr Adalut, in order to ascertain the construction placed by the Judges upon Section V Regulation XXVII of A. D. 1802, the propriety indeed of such a reference is obvious for, as remarked by the 2d Judge, the case under hearing is of great importance to land holders generally, also to Collectors of Revenue, the decision about to be passed mainly depends upon the construction above asserted to, and from such decision there is no further appeal."

2d "The question involved in the enactment above quoted is whether the Revenue authorities are legally required under Section V

"Regulation XXVII of 1802, to distrain and put up to sale a portion only of land upon which there may be an arrear of Revenue, or whether such enactment authorizes them to distrain, and put up to sale the entire land, has elicited much conflicting opinion; the original and appeal tribunals appear to have conceded such authority to the Collector, whereas the Provincial Court in their final Special Decree at least, assumed the contrary: the Judges of the Court of Sudr Adalut on the other hand in their reply to the reference made to them and which is dated the 27th February 1843 state to the effect that no definite or exclusive rule can be laid down, since deprecating all unnecessary or excessive attachment, they clearly intimate that circumstances may arise or exist, under the exigency of which such a Collector of Revenue would be justified in attaching the entire lands of a defaulter."

3d "In giving them this general rule for guidance, it appears to

"to the 1st Judge that in the present instance
"there was no excessive attachment made
"by the Collector, not in reality at least.
"This opinion appears satisfactorily
"established from the fact of the proceeds
"of sale realized upon the entire available
"land amounting to Rupees 182-0-0 being
"only 23-0-67½ Rent. in excess of the
"arrears of Revenue for Fasleis 1231 and
"1232, which were calculated at 158-3-32½ Rent.
4th".

"It may possibly be
"affirmed, the estate being worth a much
"larger sum, that this circumstance
"could not justify the attachment of
"the whole land by the Collector and
"his servants since it ought to have
"been assumed that the result would
"be very different, this does not however
"follow as a matter of course, for there
"was an extensive mortgage upon
"the estate, there had been no failure
"of Crops and apparently there had
"been no preparations for any hostile
"attempts made for prosecuting public
"vation. All these circumstances may
"safely be gathered from the voluminous
"papers

"papers composing the record of this case
"to have existed, and most assuredly
"they are of character which involving
"outlay of money and trouble, might
"in the opinion of the Talook revenue
"Officers, as also in the opinions of the
"purchaser be held to deteriorate from
"the (otherwise) admitted value of the
"land. Here also it may be remarked
"that several witnesses (Revenue Ser-
"vants) who are examined pending
"the special appeal on behalf of the
"special Respondents, have deposed
"to the fact of a portion only of the
"land having been in the first instance
"attached, and relinquished (for reasons
"assigned) as inadequate to the end for
"which the attachment was made,
"there is also and in corroboration of
"the above a certain original Revenue
"Urzee produced (No 341) of Fasly 1232
"addressed by the Tahsildar (no doubt) to
"the Collector."

5th. "It cannot (as the 3d Judge
observes) be held that the circumstances
attendant upon the sale are devoid of

of suspicion of unfairness and collusion, they do not harmonize; and in this opinion the Court are unanimous; admit of proof; at all events proof has not been adduced, hence it is useless to dwell upon the subject further than to remark, that the assertion of the 3d Defendant urged by Petitioner during the original hearing to the effect that his bid for 45½ Hoons was accepted, is incredible. Indeed such been the case, he would no doubt have petitioned the Collector upon the subject of its ultimate rejection.-

6th. "It appears to the 1st Judge that no substantial exception can be taken to the original proceedings of the Collector, the special appellant though in one place she falsely asserts that the usual notice was affixed to her house but two hours admits in another that it remained affixed for eight days, and it is not pretended by her that the sale was effected before the time permitted by

by law. certain witnesses even have spoken to her being allowed an extension of time, be this as it may, she must well have known during the Fusslies /1231 & 1232/ what would be the consequences in the event of the arrears of the revenue due by her not being paid, this must have been still more strongly brought home to her upon the promulgation of the proclamation and notice, and it is not credible, supposing the latter not to have remained attached to her house for 30 days, that she could upon such grounds conceive the lands would not be sold. Throughout the long period comprehended in the above, the special appellant appears indeed to have taken no effectual steps towards paying the arrears either by surrendering moveable property or by raising money upon her land which if it were as valuable as she asserts could not be difficult.-

7. It does not appear to the 1st Judge that the special appellant has any reasonable grounds to complain

of

of sanction for the Sale not having been applied for from the Revenue Board / supposing that such sanction was not obtained which is by no means certain, there being reason to infer that the order of the Board might with other important papers have been destroyed during the insurrection of 1837 / because it is shewn never to have been the practise generally though observed perhaps in some few instances / in the province of Canara to follow such course. No one can be really affected by the omission of a practise with which he they are unacquainted. The omission may indeed, if the strictest letter of the Law be regarded, reflect upon the Collector of Canara and Revenue Board, who must tacitly have sanctioned the practise adverted to, but it does not either in law or equity avoid the special appellant, she was afforded due notice of the proceeding sale, hence the intent and purport of the

the Regulation were answered, and the consequences of neglect rested with herself in reference to the practise thus existing in Canara, there is no reason to suppose that she would have considered herself more endangered by a knowledge that the Revenue Board had sanctioned the sale, the point indeed has / apparently / been unnecessarily mooted during the trial for the original plaint urges no such plea.-

8th "Merely adverting to the fact that the orders of Government, dated in the year 1817 fully sanction the sale of a defaulter's land previously to the expiration of the Current Fusly, there remains to be remarked upon one exception alone which has been taken to the legality of the sale and that is the difference which is asserted by the special appellant to exist between the real value of the estate in regard to actual produce, and the amount of produce mentioned in the Collector's proclamation, in the opinion of the Pot Judge it would be but just to annul the Sale could it be shewn that the proclamation had under valued the Estate to an

exctent

extent likely to depreciate the Sale such however does not appear to be the case - The assertion of the Special appellant that it produced 60 Pagodas is obviously false, and the depositions of two of her witnesses to the effect that it produced 35 Hoons do not, upon a careful consideration of their respective statements, appear worthy of credit, all that can be admitted is that the produce exceeded, when the land was sold, the sum mentioned in the proclamation which restricts it to 30 and odd Hoons, by perhaps three or four Rupees, this difference is shown to have originated with an error on the part of the local authorities, and cannot materially have affected the sale".

9th " In conclusion, it is a subject of regret, that a land so valuable as that under consideration should have brought so small a sum and more so, because there is no remedy under the circumstances detailed

detailed in this Decree which can be applied for the relief of the Special appellant. Adverting to the uncommon nature of the occurrence however, there can be no doubt but that all future attachments of valuable estates on account of a comparatively small arrear of revenue, will be carefully watched by the principal revenue authorities, and, with reference to the opinion of the Court of Sudr Udalut, avoided as far as practicable".

"On the foregoing grounds, the 1st Judge does in conformity with the provisions of Clause third, Section II, Regulation 8 of 1831 hereby Decree that the decision of the lower Court be, upon the recorded opinions of the 1st and 2d Judges affirmed, and that the Special appellant do pay all Costs of Suit".

Collr. of Malabar &c.

With reference to my letter dated the 31st March last, I request to know whether the Board can obtain sanction for me to disburse thirty five rupees to Vayloo, the individual whose thigh was broken from falling from a tree on which he had hung himself, to enable him to defray the charges of his passage from the Talook Authorities the sum might be deducted from the Tahsildars pay which in consequence of his suspension on this account, has not been drawn since the 30th March last.

2. Vayloo is so far cured as to be released from Hospital, but it will be many months before he is fit to earn his livelihood by work and wishes to appropriate the 35 Rupees to his subsistence during that time. I may take this opportunity of mentioning that the Peon whom I stated in my letter above referred to, to have been sent up to the Provincial Court for the share he had taken in torturing Vayloo, has just

Acting Secretary to the
Board of Revenue
Fort St. George

4th

Sir,

From H. V. Conolly Esqre } I have directed in your letter
Collector of Malabar } of the 27th Ultimo para 2 to prepare a schedule
Pointing out an apparent clerical error in the Board's letter of the 27th April last in the words breadth and length and stating that unless this were rectified it will be impossible to frame schedule of duties on the exportation of teak timber. } of duties on the exportation of timber (teak)
which shall vary only according to the length
of the logs without reference to their breadth
or measure it is observed, regarded by the Conservators
(of Forests) as best adapted to prevent the
felling of young trees and saplings at present
carried to so destructive an extent. It appears
to me extremely probable that some clerical
error has occurred in copying the original
instructions, and that the words breadth and
length have inadvertently taken each others
proper place. But whether this be the
case, or whether the mistake has arisen
from the Court not having due information
before them, I can only observe, that it is a
mistake of the most vital importance. So
then this cannot be better than use the
words

words of the Government agent for timber to whom I made a reference on the point "to shew the "fallacy" Captain Williams observes "of fixing the duty with "reference to length instead of thickness, it is only "necessary to mention, that the teak tree attains "two thirds of its extreme length before the bole "acquires any considerable thickness. The small "teak wood sold under the denomination "Ithail" "or "Kyle" is generally 25 and 30 feet long but not "more than 5 or 6 inches in diameter - whereas "the entire quantity of full grown timber brought "to Calicut not one eighth part will average 25 "feet in length. Trees that are only half grown "will produce longer timber than those that "are full grown, because the branches are round "and cut off clean, and squallow of the branch "portions of the bole being taken into the "length, but in a full grown tree the branches "are hollow and the hollow runs into the trunk "or bole of the tree, consequently the length of "a full grown tree is only that portion con- "tained between the root and the part where "the superior branches commence. Though a "number of 35 and 40 feet in length (full grown) "is sometimes produced, it is but seldom, and "not in greater proportion than 1 to 500 timbers

of

"of 25 feet and under. Again many long and large timber "grow in places whence they cannot be brought "entire owing to their great weight, these are now cut into "short lengths and are thus rendered capable of transport "These are the kind of timbers which I procure for and are "best suited to the Gun carriage manufactories where "length is no consideration and great girth only is "required - the imposition therefore of a heavy "duty on such timber, merely because it were short, "would be detrimental to the interests of "Government."

I presume that there will be little difficulty in having the error now pointed out rectified until this is done it would be obviously impossible for me to comply with the Boards orders to frame a schedule of duties for the purpose in contemplation.

letter of the 27th Ultimo pointing out what you consider to be an error in the principle on which the schedule of duties on the exportation of Timber was directed to be framed in my letter of April 27th 1843.

2.

Your present explanation renders it sufficiently obvious that a tariff framed on the letter of the instructions recently sent to you would defeat the very object which it is intended to ensure. The Board therefore consider that the spirit of the recent orders from the Honorable Court will be best complied with by your preparing a schedule in which the rate of duty shall vary inversely with the breadth of the Timber brought for export, by which means the duty will fall most heavily on Timber of least girth, and the present practice of felling young trees and saplings be most effectually checked.

It will be seen that the extent of this Ground is cawnies 2.15.00 The entire spot is situated on the North Esplanade, and is the property of Government; it being part of the lands purchased by the late Esplanade Committee under conveyances from the former Owners dated respectively the 13th September 1822, 1st September 1823 and 27th February 1824 and bearing Nos 5793/6449 & 6753.

To the Collector of
Madras,

Sir,

In reply to your letter of the 26th Instant requesting to be informed whether I am aware of any objection to the appropriation of a part of the North Esplanade of Black Town as a place of burial for the Native Christians connected with the Church Missionary society, I have the honor to state that in my opinion it would be highly objectionable to appropriate any part of the Esplanade for such a purpose.

The Burial Grounds on the Esplanade are already far too numerous, and it is extremely desirable to endeavour to diminish them, instead of permitting them to be extended.

I hope every application for Ground to be used as Burial Grounds, of which I have received several, will be at once refused.

I have reason to apprehend that the Burial Grounds already established on

on the Esplanades are extending beyond the limits which had been allotted to them. With the view of ascertaining this I shall feel obliged by your being good enough to favour me with sketch plans of them shewing their limits and the nature of the authority upon which they are possessed.

From the Dy. Collr. in charge of Madras ——

Fort St. George

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 29th ultimo transmitting Copy of an Extract from the Minutes of Consultation of Government under date the 25th May together with the three petitions from Shurbaun Begum therein referred to.

It appears from the records of this Office that the pension of 100 Rupees

claimed by the petitioner, is part of the one of Rupees 1225 per mensem originally granted to her late husband Khader Nawaz Khan, for the support of his family in compensation for his Jaghire of Valavanoor &c. which was resumed and that upon his demise in 1804 it was continued for their benefit to his only son Mohomed Bauker Koopsaire Sahaw alias Bhyram jung whose death was reported in Mr. Robertsons letter under date the 10th April last.

*Vide Extract from the minutes of the Right Honble the President of Council dated 20th June 1804

To Board 10th March 1835 P. 2745

The petitioner has received the allowance in question since her husbands death as the payment thereof was provided for by his will. In consequence of a dispute in 1834 between herself and her son it was decided by Government, on the 5th May 1835, that she should be required to lodge in this Office the amount payable to his Mother, to be issued thence on his receipt. This practice was observed until the 31st January last.

As the petitioner has thus enjoyed the 100 Rupees per mensem since the year 1804, and as she is the widow of the original Jagheerdar I beg leave to submit my opinion. That if the allowance is to be continued to the representatives of the last incumbent, it would be but just that the petitioner should be

be authorized to receive her share of the undiminished from this Office on her receipt, instead of from any of the surviving Members of the family consisting of the Daughter-in-law Grand-Daughters and some other distant relations.

The Board concur with Mr. Hudleston that if the pension held by the late Mahomed Bauker Hossain Khan alias Byrum Jung is continued to his representatives the Petitioner Sharbanoo Begum who is the widow of the original grantee should be allowed to receive her share of 100 Rupees per mensem undiminished thro' the office of the collector of Madras.
