Diary

14th Octr. Received the following Letter

To E. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

1
From A. S. Onslow Esqre
Collr. of Trichinopoly

Sir,

With reference to the communication noted in the Margin apprizing me of the nomination of Shaikeggary Row to the Office of Head Sheristadar of this District, I have the honor to request that you will inform the Board &c that that person has not made his appearance before me, and that I have received no communication from him, or from the Principal Collector under whom he is employed upon the subject. I beg to suggest therefore that Mr. Blackburne be directed to instruct him to wait on me.

I have &c
(Signed) A. S. Onslow
Collector.

3
From the Chief Secy. to Govt.

Transmitting for any observations the Board may have to make Copy of a letter from the Commissioner in the Northern Circars Reporting on the condition of the Ranley Estate & the balances out standing against its proprietor.

No. 586
From Chief Secy. to Government.
Min. of Cons. 2nd June 1843.

Read the following Extract.

Extract from the Minutes of Consultation
Under date the 2nd October 1843.
Read the following letter.

To G. D. Drury Esquire
Chief Secretary to the
Government of
Fort St. George.

Sir,

Para 1. I have the honor in obedience to the instructions contained in Minutes of Consultation of the 2nd June last to report the result of my enquiries into the condition of the Ranley Estate, and into the Balances outstanding against the Proprietor.

2. The Estate is admitted to be the best in the District; it is situated between the two main Branches of the Godavery. It contains about 1,200 Pootics of cultivable & land which from its fertility under good management might ordinarily yield a Revenue of 60,000 Rupees. The affairs of the Ranley Estate according to the accounts of the circuit committee & were assumed at 64,253, and the Per- manent Peshcush was fixed & at

Fort St. George 16th October 1843.

at 43,769-8-11 which must be pronounced a moderate demand on so fine a property and on which the owner of it ought never to have failed to discharge. The Estate was purchased by Cochurlacotah Venkatarauz father in law of the present Proprietor in the year 1812 for Rupees 84,000, and in the year 1832 came into the possession by right of Inheritance of the present Proprietor, a female by name Cochurlacotah Lutchmedavamah, and the widow of Cochurlacotah Venkatarauz son of the original purchaser.—

3. The late Proprietor and his father regularly paid the Peishcush till Fusly $\frac{1246}{1836-37}$ a period of 20 years, when in consequence of an arrear of Rupees 10,686-8-11 it was advertised for Public sale as well as the four other Estates named in the Margin, the property of the same parties against which balances amounting in principal to the sum of 74,124-6-1 were outstanding.—

4 In September 1838 these four

+ Auchentah Venoomentrah Caupaneram Morrary.—

Fort St. George 16th October 1843.

four Estates were sold by auction for Rupees 47,400, and together with collections made between the interval of advertisement and date of sale amounting to Rupees 2816-11-2, the sum actually realized by Government from them in satisfaction of these arrears was Rupees 7,215-11-2 or 91-5-1 more than the demand of Principal due.—

5. At the urgent solicitation of the owner the sale of the Ramley Estate was suspended, on the balance of Rupees 10,686-8-11 outstanding against it was made good from the proceeds of the sale of the 4 other Estates above mentioned, and the owner entered into engagements to liquidate by instalments the balance which this transfer caused still to remain against the 4 Estates sold, which with interest amounted at the time to Rupees 16,354-9-2. The following Statement exhibits in one view these transactions.—

Surplus 91 5 1

Skough

6. Though the Proprietor failed to perform her engagements with respect to these balances, she continued punctually to discharge the current Peshcush of the Pauley Estate till Fusly 1248 or 1838/39 when in May 1842 having again fallen into arrear to the amount of Rupees 19214-3-9 the Estate was taken under the management of the Collector.—

7. In December of Fusly 1252 1842/43 the Proprietor paid ten thousand Rupees towards the liquidation of these balances, and with the surplus Collections of Fusly 1252 they have been reduced at the end of that year to Rupees 26736-13-9.

8. The Government, in the 3rd ¶ Para of the Extract from the Minutes of Consultation, remark on the existence of a demand against Estates which were sold in 1838, and on the increase of that demand from 7923 Rs to 13385 Rs at which amount according to the Collectors accounts it stood at the date of her Report—

No 586 2nd June 1843.

Vide Collectors letter to the Board dated 28th Dec 1842

9. Had the proceeds of the sale of these four Estates been carried to the legitimate head in the accounts, viz. to the credit of the Estates actually sold there

there would, as before remarked, have been no balance of Principal against them, and but a trifling amount of Interest and charges of attachment, which should have been remitted at the time, and the accounts finally closed.— The account with respect to them would have run thus.—

Balance remaining till the date of sale which took place in September 1838.—

Interest 2969-5-11
5668-1-2

But the payment from the proceeds of the sale of the 4 Estates of the balance against the 5th, has caused confusion in the accounts and has made balances to appear, which in reality should not exist. - But rectifying this error the whole matter is simplified and the just demand in Principal against the Rauley Estate shewn to be as follows. -

Balance on Rauley Estate till the date of sale of 4 Estates		10,686-8-4
Do. on Do. for Fasly	1249 / 1839/40	10905-6-4
Do. on Do. for Fasly	1250 / 1840/41	2,106-5-4
Do. on Do. for Fasly	1251 / 1841/42	339-15-6
		24038-2-6

+ Rs 16,354-9-2

10. The proprietor claims remission of the whole sum, which according to the Collectors accounts remains outstanding against the 4 Estates, on the ground that the collections of the Rauley Estate had been frequently made use of in payment of the Peshcush of the other 4, and she submits a statement in corroboration of this assertion, but in this Statement, copy of which is inclosed there is evidence of extravagant or expenditure

expenditure of the Income of her Estate; or indeed of the misappropriation of sums which were ample to discharge the just due of Government which appear to me to nullify any such claim, besides the liquidation of the demand against the Rauley Estate in the mode above stated, was done at her request, and for her benefit, and she entered into formal engagements for the gradual discharge of the balance this act left pending on account of the 4 Estates sold. - I am therefore of opinion that she is justly chargeable with the sum of Rupees 10686-8-4 carried to the credit of the Rauley Estate, but as the Government have observed that "their authority has not been withheld for writing off the balances "remaining after deducting the purchase price "of Estates bought at public sale on its own account" and "His Lordship in Council would not be unwilling to extend to the Rauley Estate a similar "relief on account of those balances not chargeable on itself". I beg to recommend that the Principal sum of + 2698-11-3, which would have been the only balance unrealized by the proceeds of the sale of the four Estates, had those proceeds been credited

+ Original Balances on 4 Estates - 77,124-6-1
Sale and Collections up to the date of sales - 74915-11-2
Surplus - 91-5-1
Add charges of Attachment - 2790-"-4
Balance against 4 Estates should have been remitted - 2698-11-3

Fort St. George 16th October 1843.

credited to the account of the Estate sold, hereto annexed together with the Interest accruing on it, and on the balance against the Rawley Estate to the date of sale amounting in all to Rupees 6,206-4-6.

Principal balance on the 4 Estates	2,698-11-3	
Interest thereon	2,969-5-11	
	5,668-1-2	
Interest on the balance of Rawly Estate	538-3-4	
	6,206-4-6.	

The Balance against the Proprietor up to end of Fusly 1252 will then be as follows.—

Due up to the date of sale of 4 Estates.		10,686-8-11
For Fusly 1248 1838/39	10905-6-4	
For Fusly 1250 1840/41	2,106-5-4	
For Fusly 1251 1841/42	4675-15-9	
	38374-2-1	
Deduct Surplus Collections of Fusly 1252 and 10000 Rs paid by Proprietor credited to the balance of Fusly 1254 1841/42.	14335-15-6.	
Remaining balance due	24038-2-6.	

11. After bringing to the credit of the Estate some balances outstanding against the Ryots for the past fusly, which are now in course of collection, and may be estimated under 5,000 Rupees.— The Proprietor may, without difficulty pay down whatever sum may be wanting to reduce the balances against her to 12,000 Rupees.

Fort St. George 16th October 1843.

Rupees.— On her actually so reducing her debt to Government, and entering into formal agreements for the liquidation of that amount by Kists instalments during the present and next fusly, equal to 6,000 Rupees per annum, her Estate may, I would submit, be safely released, without undue sacrifice of the interests of Government.—

12. On these grounds, and also considering that since the attachment of her Estate, Lutchmadevy Ammah has paid ten thousand Rupees on the expectation that it would have been restored to her early last fusly, and that the balance, after paying the further sum proposed will be reduced to an amount, which in addition to the current Peishcush, by good management and a proper degree of economy, may be discharged from the Income of the property within the stipulated period, I beg to recommend that these terms be allowed, and that the sanction of Government for the release of the Estate, on her conforming to them, be given at an early period, as the season of cultivation is rapidly passing on, and the Proprietress will require timely possession to enable her to make arrangements with the cultivators, and to keep the proposed engagements with Government.

13. In the event however of the Proprietor failing to adhere to the terms proposed, the only alternative appears to be, the bringing the Estate to immediate sale, when the entire amount of balance will either be realized, or this valuable Mootah revert to Government.

(Signed) H. E. Montgomery.
Commissioner.

Rajahmundry District.

From the Secy. to Govt.

Read the following Extract

Extract from the Minutes of Consultation dated 3rd October 1843.- Read the following letter.-

To F. F. Thomas Esqre.

Secretary to Government

Public Department

Fort St. George

Sir

Para 1.- I have the honor to acknowledge the receipt of the Extract from the Minutes of Consultation under date the 26th Ultimo, calling for certain information regarding the cause of the delay in the transit of letters between Trichinopoly and Keeranore.- The delay in replying to the orders in question was occasioned by the difficulty of obtaining information from each individual runner, without impeding the Tappal.-

2. One of my Tahsildars has made personal enquiries of as many of the runners as he could hindely visit; and the others were questioned by a competent Talook servant.- It is needless to trouble Government with the several statements obtained from them, for they one and all contain nothing but the most frivolous excuses for the delay complained of, and some of them as plainly

Fort St. George 16th October 1843.

plainly admit that it is occasioned by the runners improper absence from their stations.-

3. The cause assigned in the Trichinopoly Post Master's letter to the Post Master General, Viz. the runners being obliged to resort to the Tahsildars Cutcherry for their pay, cannot but consider a mere pretext. I have however adopted measures to prevent any excuse on this account being urged again.-

4. It seems to me that if on the occasion of any delay immediate information were to be communicated to me or to the Tahsildar, within whose range the delay may occur, by which means detection of the real cause could be made without difficulty.- and if a portion of the pay of the delinquents were to be stopped, the cause of complaint would soon cease, and I am of opinion that strict attention on the part of the Post Masters to this suggestion will supersede the necessity of reappointing overseers.-

Trichinopoly Collectors office, 22nd September 1843.-

(Signed) A.D. Cruttenden Collector

ordered

Fort St George 16th October 1843.

Ordered that the foregoing letter be communicated to the Post Master General, with reference to the Extract from the minutes of Consultation dated 26th August last No 885.—

The suggestion contained in the concluding para of the above communication appears to the Government well calculated to prevent delays in the transit of letters, and may obviate the necessity of reappointing overseers.— His Lordship in Council desires therefore that it be generally adopted.—

(Signed) J. F. Thomas
Secy to Government.

7-8

Order thereon.— Ordered to be recorded.—

To The President and Members of the Board of Revenue

Gentlemen,

9

From the Secy to Government

I am directed by the Most Noble the Governor in Council to transmit to you, the accompanying copy of the 5th part of Volume III of Circular orders of the Sudr Dewanny Udalut at Calcutta from 25th February to 30th December 1842.—

Fort St George
7th October 1843.—

(Signed) J. F. Thomas
Secy to Govt

Order thereon.— Ordered to be recorded.—

9-10

Extract

Fort St George 16th October 1843.

From the Secy to Government.

Communicating a letter from the Court of Sudr Udalut and requesting the Board to submit their sentiments on a proposition of the Principal Collr of Nellore for annexing the Village of Veeraraunpooram to the Zillah of Nellore.—

11

Extract from the Minutes of Consultation Under date the 10th October 1843.—

Read the following letter from the Acting Register of the Sudr Udalut.—

To

J. F. Thomas Esqre
Secretary to Government in the Judicial Department

Sir,

Para. 1 I am directed by the Court of Sudr Udalut to transmit for the purpose of being laid before the Most Noble the Governor in Council a letter dated the 24th Ultimo from the Principal Collector of Nellore with a copy of a communication from his Sub Collector, together with the correspondence on the part of the Collector and Sub Collector of Cuddapah regarding a rent free Agraharum called "Veeraraunpooram" situated on the boundary line of the Districts of Nellore and Cuddapah and hitherto, it would seem, not under the Civil or Criminal Jurisdiction of either, and requesting that necessary measures may be taken for bringing the Village under a regular jurisdiction.—

2 It appears from the accompanying papers—

papers that a claim was raised on behalf of the Agraharamdar to the right of exercising the sole jurisdiction in Criminal and Civil cases within the above mentioned Village, and in support of his claim it is asserted that the Village has never been assessed or under the control of the Authorities of Nellore or Cuddapah.

3 The Court of Sudr. Udalut consider the Principal Collector of Cuddapah's letter decisive on the point of the disputed Village belonging to the Nellore District, whilst the circumstance of the Sayer Collections being credited in the accounts of a Cuddapah Chowkey may be accounted for in the mere convenience of arrangement.

4 As the Map shews the Village to lie within the frontier of Nellore the Sudr. Udalut would beg to recommend to Government the proposition of Mr. Stonhouse, viz, that it may be formally annexed to Nellore and placed under the Police jurisdiction of the Head of Police of Gogoolapully.

Sudr. Udalut.
Register's Office
11th September, 1843

Signed H. D. Phillips.
Acting Register

To The Register to the
Court of Sudr and Foujdaree Udalut
Fort St. George

Sir,

I have the honor to transmit a Copy

of a letter from the Sub Collector and Joint Magistrate of this District with copies of its enclosures on the subject of a rent free Agraharam situated on the boundary between this District and Cuddapah, and hitherto it would seem not within the Civil or Criminal jurisdiction of either, the jurisdiction in such cases as occur within the limits of the Village being claimed and exercised by the Proprietor only.

2. The records of my Office afford no information as to how this state of things originated. The grant is an exceedingly ancient one, and it occurred to me that the Vencatagherry Zemindar whose lands are in its vicinity might be able to elucidate the matter and accordingly applied to him. From his information it appears that certain Villages belonging to the Canegherry Droog in the Cuddapah District, as well as some Villages now forming part of one of the Divisions (Gogoolapully) of the Vencatagherry Zemindary formed a separate Talook Mareila, and that those who held the Vencatagherry Zemindary before it came to the present family

family detached from each of a certain number of adjacent Villages situated in the Gogoolapully Division of his Zemin=dary a portion of land deducted it from the goodcent of the respective Villages, formed these portions into a separate Village under the name of Veeraramas=poorum, and conferred it on the ancestors of the present possessors—

3- The necessity of placing the Village under the Civil and Criminal jurisdiction of this District or Cudda=pah is obvious. The most convenient arrangement is to annex it to this District and place it under the Police jurisdiction of the Head of Police of Gogoolapully from the lands of which division it was originally separated.

I have the honor therefore to request that the Judges of the Sudr and Foujdare Adalut will take the necessary steps to give effect to this or some arrangement which will place the Village under a regular Civil and Criminal jurisdiction—

Nellore Pl. Coll.r Cutcherry
24th August 1843. } Signed J. V. Stonhouse
Civil Collector

To J. V. Stonhouse Esqre
Principal Collector and Magistrate
of Nellore.

Sir,

1- I have the honor to forward copies of a correspondence that has passed between the Sub Collector and Joint Magistrate of Cuddapah and myself on the subject of an Aggrahara situated on the boundary between this District and Cuddapah called Veeraramapooram—

2 You will observe from the enclosures in my first letter to Mr. Cotton that a claim is made on the behalf of the Aggrahara andar to exercise the sole Jurisdiction in Civil and Criminal cases within the limits of the Village in question. Under the impression that this was a claim quite inadmissible and as the question of Jurisdiction remaining unsettled had been and was still attended with inconvenience as a preliminary step to bringing the circumstances of the case to your notice addressed the Sub Collector of Cuddapah to ascertain whether the records of his Office or of the Doopaud Talook, certain Villages attached to which adjoin Veeraramapoorum, could furnish any

In Enclosure No. 3.

any information on the subject.

3. From the letter of the Principal Collector it seems clear that the Village is not included in the Cuddapah District and as he is prepared to acquiesce in any arrangement that may be proposed the most convenient plan seems to be to place the Village under the jurisdiction of the Head of Police of the Jogoolapully Division. This Officer indeed has latterly when the necessity has arisen exercised Authority but not without protest on the part of the Aggrahaarumdars officers as will be seen from the translate of a deposition given before me by the Vakeel of Soobbayasoolo which forms one of the enclosures of this letter. It appears from the Nellore Kaziyeer Record Keeper's report that no Village of the same name is to be found in the list of Villages belonging to the Venkatagherry Zemindary.

4. I am doubtful whether you may not consider the question one calling for reference to higher Authority and I therefore forward copies of three documents proceed on behalf of the Aggrahaarumdar. They however contain nothing to support the claim set up-

up. The individual himself is the high Priest or Goorou of the brahmins of the Smarta sect.

Nellore District. Addunky Sub Collr's Office 2nd March 1843.

Signed/ J. Purvis. Sub Collector and Joint Magistrate.

To J. J. Cotton Esqre Sub Collector and Joint Magistrate of Cuddapah.

Sir,

I have the honor to forward translation of an Extract from a statement given by one Telecapully Soobbasoolo the Vakeel of the possessor of the Village of Veeraramapooram situated near and said to have been a hamlet of the Village of Cuddakindy-pully in the Doopaud Talook of your Division as well as translate of an Urzee given by the same individual to the late Joint Magistrate. You will observe from a perusal of these papers that an extraordinary claim to exercise a right of jurisdiction in Civil and Criminal matters within the Village in question is set up on behalf

behalf of the Aggraharamdar as circumstances calling for enquiry by the Police have occurred since that referred to, in these papers and the question remaining unsettled is attended with inconvenience. I am induced previous to the case being submitted either by yourself or from the Office for the orders of higher Authority, to request that you will furnish me with any information on the subject to be found in the records in your Office or in those of the Doopaud Taluk whether the Village is claimed as belonging to the Luddapah District and what truth there is in the statement of Poobbayasoolos regarding the Summary suit said to have been dismissed by a former Sub Collector and whether any Police jurisdiction has ever been exercised in the Village by the Authorities in the Luddapah District. A reference to the old records in the Principal Cutcherry may appear to you necessary in which case you will perhaps do me the favor to transmit this letter and Enclosures to the Principal Collector and obtain from him the required information. From the address of Soobbayasoolos to

to the late Joint Magistrate of Vellore it would seem that the subject had come under the notice of your predecessor Mr. Skelton but he does not mention whether that Gentleman came to any determination on the question.

Vellore District.

Sub Collector

Translation of a Petition from T. Soobbayasoolos a Vakeel of Anloor Soobbaroy Sastroolos Inhabitant of the Aggraharam of Swamoolawar to the Joint Magistrate of Vellore dated 22d May 1841.

That about 150 years ago Doolipaulla Canzeranza Stala Curnom of Maurella Seemah had caused to be erected the Village called Veeraraya puram in a desert place situated

situated at the North east of the
Village of Cuttakiddapully which is now
attached to the Doopaud Talook in
Cuddapah District and then granted
it in donation to Abhumana Souka
=ra Bharata Swamoolawar who is the
priest, since, which period and during
the Mahomedan Management the
said Swamoolawar have been enjoying
the profits of the Aggraharums in
question with the sole Authority
after the Country was assumed by the
Honorable Company Colonel Munro
when he proceeded to Doopaud Tala
for surveying the lands, sent for
Poorneeum Kristnumkutlos the then
Todwa Talaq of Swamoolawar for the
enquiry of Veeraraumapooram Villages
after instituting an enquiry into the circumsta
of it accepted the request made by the
Goomastah to the effect that the Agraharu
in question was not attached

to any of the Villages of any Zillah and
the sole authority was vested in Swamoolavaur
that gentleman afterwards gave permission to
enjoy the aggraharum as usual whereupon
Colonel Munro caused the other Villages
to be surveyed and examined the ac
=counts and then went away since
that time Swamoolavaur has been un
=interruptedly enjoying the profits
of the aggraharum but 2 years ago,
one Moodaum Luteeb of Ramapully a
Village attached to Googalapully Division
in Nellore Zillah having killed one
Mungala Rungadoo in the fields of
the Village of Veeraramanpoorum the Head
of Police of Googalapully Division went
to the spot in order to enquire into the
case and he by the instigation of
Mookoo Lutchmiah Village Moonsiff
of Ramapully and of Luteeb, sent for
Mungala Sauveegandoo viz. Inha
=bitants of Veeraramanpoorum
upon suspicion enquired and released
them for want of proof but the said
Luteeb was convicted and punished

As

Fort St. George 16th October 1843

& Swamoolavaur and Soobbaroy Sastrooloo were then on circuit about the Country they only heard the circumstances but were not present on the occasion about one year ago when your honor was going to Cumbum you were pleased to halt at Veeraraumanpoorum Village during the absence of Swamoolavaur and Soobbaroy Sastrooloo the sons of the latter visited your honor and represented all the circumstances about the Village of Veeraraumanpoorum after Soobbaroy Sastrooloo came to the Village, his sons told him that you were pleased to tell them, that they should cause the aggrahaurum to be attached to any District as it would be improper to keep the Village unattached to one but Soobbaroy Sastrooloo heard this and did not like to do so as the Village in question had been under enjoyment with the sole authority of Swamoolavaur for 150 years. Subsequently when Mr. Skelton the late Sub Collector of

Fort St. George 16th October 1843

of Cumbum came to the Canegherry Doorgum he sent for Soobbaroy Sastrooloo from Veeraramanpooram at the time when that Gentleman instituted an enquiry into it. I gave a Kyfent stating that that aggrahaurum was not attached to any District and that the sole authority was vested in Swamoolavaur but it was not left to any body thereupon that Gentleman was pleased to tell me to produce any summuds if there were any. consequently I deputed some Peons to Swamoolavaur for them, but they have not been received yet. this circumstance is still under the investigation of the Sub Collector of Cumbum. about one month and a half ago the daughter of one Mungala Vencata patty, aged eight years went to watch over the gardens belonging to their family and descended into a well in order to quench her thirst, she slid down the well and was drowned. The people belonging to the family burned the dead body without

Fort St. George 16th October 1843.

without bringing the circumstance to the notice of Soobbaroy Sastroolo but there being no Village Moonsiff at Veeraraunanpooram to enquire the circumstance, Sastroolo did not became aware how the circumstance came to be reported to the head of Police. Whenever any cases had happened in that Village Soobbaroya Sastroolo and Swamoolanaiar were on circuit about the Country and they therefore did not know how they had been disposed of. There having excited an enmity between Moopkoo Lutchmiah, and myself in many circumstances he caused to be written a false report to the Head of Police by the Ron who came to serve summons upon him, stating that Soobbaroyalo Sastroolo knowingly had said to the people of the Village that the dead body of the daughter of Mungala Vencatapatty should be buried and no report made to any body. The Head of Police then summoned Soobbaroy Sastroolo and Mungala Vencatapatty &ca

Vencatapatty

Fort St. George 16th October 1843.

Vencatapatty &ca were not present at that time in the Village Soobbaroy Sastroolo only named me as Vakeel on his behalf in order to attend before the Head of Police according to his summons. I accordingly went there having existed a friendship between Moopkoo Lutchmiah and the Head of Police &ca servants, the Goomastahe affronted me and at the time when the deposition was taken from me, they did not write what I mentioned but wrote what they pleased. By this reason they entertained all feelings towards me and forwarded a record to your honor. This circumstance reached the notice of Soobbaroy Sastroolo and he having desired me to go to your honor and represent all the circumstances accordingly I came to your honor and did not ever enter into the circumstances of the false statements. The Priest of all the Country named Sankarachariar Swamoolanaiar was holding the sole authority of the Swagpauram who having been on circuit about the Country and the sole authority of

of that aggrahaurum having been vested in Swamoolavaur, the circumstances which have taken place in that aggrahaurum were not enquired into by any authority but after the Tanahs were recently Established a few years ago some murder cases have taken place in the fields of Veeraraumanpooram and they were settled by the Head of Police of Googoolapully-Assobbaroy Sastrooloo and Swamoolavaur were then on circuit about the Country they may have only heard the circumstance that were not present on the occasion. Subsequently a few days ago Soobbaroy Sastrooloo having reached his aggra=-harum on his private concerns. Mookoo Lutchmiah and the Head of Police combined together and made it in this way. therefore I request your honor will be pleased to enquire into the circum=-stance of the death of Daughter of Mungala Vencatasutty, either personally or through the channel of the Head of Police and I have no concern with those persons but as from the beginning the sole authority of aggrahaurum was vested

in

in Swamoolavaur and as it was not left to any body since its commencement I write this for your information.-

(Signed) T. Soobbajoosooloo
Vakeel of Soobbaroy Sastrooloo

(Signed) C. Veeravalingum
Head of Police.-

Despd 11th July 1844.-

Rydent given in on Tuesday the 11th Jastabahosla of the year Plauva by Tellicapully Soobbajoosooloo a Vakeel for Auboy=-or Minister of Abbenandunda Vidjasenkara Bhaurata Swamoolavaur son of Jyavenk=-=jasooloo, gains his livelihood by the Swadeshy=-=ems of aggrahaurum, aged 40 years of Brahmin caste, Smarta religion, and an Inhabitant of Dasulla putty aggrahaurum subject to Maurella seema.-

2. State what you know regarding the daughter of Mungala Vencatasutty who died by drowning in a well in the Village of Veeraraumanpooram.2-

A. The Daughter of the said Vencata=-sutty 8 years of age, went to watch over the garden belonging to their family-when she descended into a well in order to quench.

Fort St. George 16th October 1843.

quench her thirst - her leg slipped she fell down in the well and departed this life - Her heirs having discovered the body took it out of the well and buried it - This circumstance reached the notice of Soobbaroy Sastriolos on the next day - but he kept quiet as he ascertained from an enquiry that she fell down in the well by accident and died, but not by any other reason.

2. Why was the circumstance of the death of the daughter of the said Vencatapetty by drowning in the well not reported to the Head of Police as it ought to have been?-

A. The Village is under the enjoyment of Swamoolavaur as Surva Aggrahaurum It was usual that similar Police cases and any other circumstances were not to be reported to the Circar for their separate enquiry - In pursuant to this practice, the circumstances regarding the death of the daughter of Vencatapetty by drowning in the well was not reported to the Head of Police.

2. Have any cases as the deaths

Fort St. George 16th October 1843

deaths by drowning in wells, ever occurred in your Village and were they not reported to the Circar?-

A. It appears that one or two similar cases have occurred but I heard that Soobbaroya Sastrolos kept quiet understanding that they had not taken place by any violence - but I cannot now recollect the name of the deceased persons or the year in which they died.-

2. Were any heinous crimes such as murder and gang robberies committed in your Village?-

A. No such crimes have hitherto been committed.-

2. Who was enquiring into the Civil cases and petty assaults occurring in your Village.-

A. In civil cases, if the Plaintiffs and Defendants were the Inhabitants of that Village, the person who might remain there on behalf of Swamoolavaur was enquiring verbally and after selecting Arbitrators to inspect the documents was disposing of the cases. In petty offences also, the same person was enquiring into the matter verbally and disposing of it either by

by inflicting fine or by an amicable settlement. It was going on thus -

2 What will be the amount of the highest fine inflicted. 2

A. The highest fine will not exceed ¼ Rupees. -

2. If any charges of petty or heinous crimes or civil suits had been preferred by the Inhabitants of your Village against the Inhabitants of other Villages and if the Inhabitants of other Villages prefer any complaints against the residents of your Village who instituted an enquiry into them. 2

A. No heinous crimes have hitherto been committed in our Village and no enquiry was therefore made by any one whenever the Inhabitants of other Villages came to charge the Inhabitants of our Villages with petty assaults, the person who was there on behalf of Swamoolavaur enquired into them and disposed of them as I have stated above - The Inhabitants of our Village did not ever complain against the Inhabitants of other Villages in any cases. The

person

person who was there on behalf of Swamoolavaur did not therefore ever send for the Inhabitants of other Villages and institute any enquiry against them - Had any of the Inhabitants of other Villages been caused of any offences committed in our Village and had it been impossible to call for them, it was usual to cause the sufferers to go and complain against them before the authorities under whose control the parties were - Whenever the Inhabitants of other Villages came to institute any civil suits against the Inhabitants of our Village the person who was there on behalf of Swamoolavaur was enquiring and disposing of them and the suits instituted against the Inhabitants of other Villages have been disposed of by the Authorities of those Villages.

2. Have you any documents to prove the Statements you have made above. 2 -

A

Gogoolapully Police of that Division one Mookoo
Lutchmiah an Inhabitant of
Ramiapully attached to the said
Division came and committed
an assault near the house of
Soobbarey Sastrooloo. The latter
persons Goomastah named Dava=
=rapully Vencatarow preferred
a complaint against the=
man on the subject before the
said Head of Police at the time
when Jaunty Lutchmenarainuppa
was District Moonsiff of Maurka=
=pooram, a Civil Suit was institut=
=ed before him against
Tellikanpully Sadhanvadhanmloo

and

and others / where living in our Vil=
=lages / by the widow of their late brother
who was living at Cocherlacottah. The
Moonsiff therefore issued summons to the
said Sashavadhanooloo, but Ghudeyarum
Veneatachella Sastrooloo who was then manag=
=ing the affairs for Swamoolawaur and myself
Consulted together on the subject, and address=
=ed a letter to the Moonsiff stating that the
Village in question is surva Aggrahaurum
of Swamoolavaur and that the Circars were
not interfering with any claims made by
the Inhabitants of other Villages against
the Inhabitants of our Villages The Moon=
=siff having then enquired into it, observed
that the Village in question was not attach=
=ed to his division, and therefore struck
of the suit from his file. About
7 or 8 years ago a Summary Com=
=plaint was preferred before the Sub
Collector of Cumbum by Doolypaul=
=la Maalacondroydoo, an Inhabitant of
Cookerlapaud, against Doolipaulla
Veneanah and others who are Inhabitants
of our Village for a share of a Mauniem
situated

situated in our Village -

The sub Collector having enquired into it observed that the Village was not included in the list of the Villages of that District and then dismissed the case saying that that dispute should be settled by the Inhabitants of our Village - The case was then enquired into and disposed of by Soobbaroyasastrooloo - The Civil suit also alluded to in the above was disposed of by Soobbaroy - Sastrooloo as it was brought before him - Besides this the branches of Sayer and Abkarry Revenue are not under the management of the Circar and Maturpha Collections also are under the management of Swamoolavaur who is therefore collecting that tasc --

10th Janaary 1843

To the Acting Sub Collector
Nellore

Sir,

With reference to your letter

of the 17th Ultimo and its enclosures, I have the honor to inform you that I have forwarded them, as well as Copies of all proceedings to be found on my records, to the Acting Principal Collector, with a view of Comparing them with any that may be in exeistence in the Hoozoor Record Office, and further Communication with you hereafter --

Cumbum Division,
Sub Coll.rs Office --
10th January 1843.

/ Signed / J. J. Cotton
Sub Collector.

To

A. Purvis Esq.re
Sub Collector and Joint Magistrate
Nellore -

Sir,

With reference to my letter dated 10th Janaary last, I have the honor to forward herewith Copy of a letter from the Acting Collector of Cuddapah in answer to that alluded to in my letter under reference for your information ---

Cumbum Division,
Sub Coll.rs Office ---
15th February 1843.

/ Signed / J. J. Cotton
Sub Collector.

To J. J. Cotton Esq.re
Sub Collector of Cuddapah.

Sir,

I have the honor to acknowledge the

the receipt of your letter dated the 10th Ulto: no and its enclosures, which I beg leave to return

I have caused ~~W~~ investigation to be made in the records of my Office from which it is apparent that at the time of survey the Aggrahaurum of Veeraraumaupooram was not supposed to belong to this District. It is frequently mentioned in the survey accounts as forming the boundary of the adjoining lands. The Cairee assigned for its not having been surveyed by Colonel Munro bears absurdity on the face of it and there is nothing in the records of this Office to support it. I am not aware whether the Venkatagherry Zemindary has been surveyed, if it has not I can readily imagine that the above Village belongs to that Zemindary but has been overlooked in the list of Villages as it yields no revenue. In this case the only difficulty is to account for the Sayer being included under the Nundaranum Chowky of this District.

My idea that the above Aggraharum does not belong to this

District is supported by the fact that in all the Maps it is placed within the Nellore frontier. It is of course absolutely necessary that it should be attached to either the Nellore or the Cuddapah District, it seems quite immaterial to which, and I shall be perfectly satisfied with any arrangement which the authorities in Nellore may propose.

Cuddapah District

Translation of a Deposition given by Saleka pully Soobbarasooloo a manager in the execution of the duties of the Aggraharum called Veeraraumaupooram belonging to Jenkarachurla Swamoolaruaur.

Q. It has been understood that you did not allow the individuals named Canoomurlapoody Gooravappah &c to attend before Head of Police of Gogoolapully Division according to his summons. Why was this?

A. The Head of Police of Gogoolapully

Fort St George 16th October 1843.

Gogoolapully Division issued Summons to the individuals named Canoornurlapoody Goorouvappah &c alluded to in a Complaint preferred by Neelesetty Venkiah in which it was stated that the Village Veeraraumanpoorum was attached to the Gogoolapully Division. The said Veeraraumanpoorum Village which belongs to swamoolavaroo has not as yet been attached to any Zillah. This circumstance has been brought to the notice of the Joint Magistrate and I gave a deposition before the then Head of Police on the Subject but as it is now stated in the summonses that the Aggraharum was attached to his Division and as it is not ascertained to what District the Village was attached I was obliged to write a letter to the Head of Police of Gogoolapully requesting him to let me know to what District the Village in question was attached. Thereupon the Head of Police wrote to me in answer to inform him by whom I was authorized to write to him so but

Fort St George 16th October 1843.

but he / the Head of Police / did not tell me whether or not the Village was attached to Gogoolapully Division I then wrote another letter to the Head of Police stating that I would inform the circumstance to Soobbroysa: troolas and act according to his directions on the subject. The Aggraharum in question was not hitherto included in any District but the Head of Police of Gogoolapully now states that it is attached to his Division I was therefore left in doubt whether to send the people to the Head of Police according to his summonses supposing that I ought to ascertain in the first place to what Division the Village in question was attached Consequently I did not send the persons - The Peons who where deputed to serve the summonses of the Head of Police of Gogoolapully Division having pressed me to send the individuals I told them that they could take the persons after I receive an answer from Soobbasastroolas in the

Subject-

Fort St. George 16th October 1843.

Subject- The Peons then went away to Mogulloor the next morning I am not aware what the Head of Police reported to the Joint Magistrate afterwards on the subject Having been served with a summons from the Hoozoor requiring my attendance I immediately came here--

2. By whom was the Police inquiry going on in the Village of Veeraraumaipooram after the Police Cutcherry at Gogoolapully was established--

A. The Police enquiry was going on in the Village both before or after the Police Cutcherry was established at Gogoolapully. As this Village is survaggraharum no enquiry was made by any others but in last year the daughter of one Mungala Venealapaty aged 8 years having died by drowning in a Well. one alloor Narasiah who was then managing the affairs of Aggraharum in question, had given permission to dispose of the dead body — Some of the Circar Peons who came to-

Fort St. George 16th October 1843.

to Ramiapully reported the circumstance to the Head of Police. The then Head of Police named Vanoolapandy Vijia having issued summons to Soobbarayasastrooloo I went to the Head of Police for the former with a Vakalatnamah from him - but as some quarrel took place between myself and the Head of Police I addressed an Urzee to that effect - afterwards a new Head of Police having been appointed, he enquired into the matter and I gave a deposition before him.

2. What was the quarrel that took place between you and the late Head of Police--

A. In taking a deposition from me the Head of Police caused to be written "that I Talekapully Soobbayasooloo-

Fort St. George 16th October 1843.

Soobbujoosooloo the Vakeel of
Alloor Soobbaroysastrooloo was an
inhabitant of Veeraraujpoorum which
is attached to Gogoolapully
Division." I then told him that
I would give my deposition if
he causes to be written in my
deposition that I am inhabitant
of the Village Veeraraumaujpoo
-ram which is Surva Agra-
-haarum of Swamoolavaru,
but that I would not give
my deposition if he causes
to be written that the Ag-
-grahaarum in question
was attached
to

Fort St. George 16th October 1843

to Gogoolapully division. He then refused
to do so and told me that he would report
the circumstance to the Joint Magistrate.
I then came to Mr. Mathison and pre-
-sented an Urzee to him that Gentle-
-man having permitted me to go
to the new Head of Police in order
to give a deposition before him
who would report my case, I accordingly
went there and gave deposition
before him that Gentleman likewise
told me that if I delivered a Keyfeat
he would report the circumstance
to the Principal Collector and pro-
-ceed according to his instructions
since which time no further orders
have been given me on the subject.

Is this declaration
2 correctly written?
yes.
A
Have you any deeds or do-
2 -cuments regarding this Agraharum?
I delivered copies of the
A Deeds for the Agraharum before
the Head of Police of Gogoolapully
Division in last year. I have no
documents

copies now transmitted

documents other than those I have already delivered I do not know whether there are any more with Swamvolavaur-

Ordered the recommunicated to the Board of Revenue who will be pleased to submit their sentiments on the proposition of Mr Stonhouse for annexing the Village referred to in the foregoing letter to the Mr Estate of Nellore

Ordered

11-12

B.

Order thereon

(Read again Hon. Board's letter)

Ordered to be brought forward at a future meeting.

Read again letters from the Acting Collector of Vizagapatam dated 27th April and entered in Con. 11th May 1843 and from the Chamber of Commerce dated 26th May and entered in Con. 10th July last.

Ordered that the following address be submitted with the above mentioned letters.

13

To the chief secy. to Government Submitting certain communications and recommending the modification of the Abkary Regulations now in force in such manner as shall relieve persons working Distilleries after the European system from their present obligation to export the whole produce hereof and permit them to dispose of it for consumption in this country.

To the Chief Secretary to Government

Sir

Para 1 I am directed by the Board of Revenue to transmit to your for the consideration and orders of the Most Noble the Governor in Council the accompanying letters from Mr. I. McKenzie forwarded thro' the acting Collector of Vizagapatam on the 27th April last, and from the Chairman to the Chamber of Commerce under date 26th May 1843.

2 The question to which both of the above communications refer is the same viz. the propriety of modifying the Abkary

Abkary Regulations now in force in such manner as shall relieve persons working Distilleries after the European system from their present obligation to export the whole produce by Sea, and permit them to dispose of it for consumption in this country under such restrictions as shall be deemed necessary for securing the Government Revenues.—

3. The grounds of this application are clearly set forth in Mr. McKenzie's letter. It is there shown that the Molasses and other residue resulting from the Manufacture of Sugar cannot at present be turned to account. There is no demand for it in this Country nor could it be exported to a profit while the Rum which might be obtained from it is not permitted to be sold for home consumption within the Madras Presidency, and from its inferior quality cannot compete with the west India rum in the British market. The whole of the Molasses consuming Mr. is consequently wasted, and the total charge of production thus falls upon the sugar

above

alone, enhancing its price, and therefore limiting the demand for it. As a remedy Mr. Mckenzie suggests that the sale of rum for Consumption in this Country be legalized, under such conditions as shall be necessary for protecting the revenues now derived by Government from the Abkary Monopoly.

4. In Bengal, as the Board understand, the sale for home Consumption of Spirits, made after the European process of distillation, has long been permitted, the liquor being there subjected, when sold by retail, to such excise duty as shall equal the highest rate paid at the nearest Sudr or Government Distillery. It may be doubted whether this levy of excise duty could, under the present Abkary System, be extended to the Madras Provinces. The renters having the sole privilege of manufacturing, as well as vending for home consumption, all spirits within the limits of their farms will, it is evident, retail those only of a quality sufficiently good, which can be produced at the cheapest rate, and would not take

Reg. VII of 1824 Bengal Code

take liquor from the European Distiller if the price be enhanced by an excise duty to a rate exceeding that, at which they could manufacture for themselves. In the instance under consideration, even tho' the cost price of the rum should be less than that of country Arrack and the profits of the present Abkary contractors be increased by vending the former than by continuing to retail the latter, the greater competition for the farms thereby caused and the higher rents obtained, would, the Board consider, tend more to the advantage of government; than the imposition of an excise duty; which, unless accurately adjusted, might check the manufacture altogether, and would demand a degree of Supervision not always attainable, especially where the distilleries are at a distance from the Huzzoor Station of the Collector, or his Subordinates.

5. The Board would strongly advocate a compliance with the applications now forwarded, and should the measure meet the approval of Government they will be prepared at an early period to submit the Draft of an act for attaining the end proposed, being in modification of Regulation 1 of 1820. The only change which would seem

seem necessary would be to relax the limitations contained in Clauses II and III Sec: IV, to such an extent as shall, in addition to the present export by sea, permit the sale for home consumption of all spirits manufactured by European process, but only to Officers in behalf of Government, or to Arrakary Renters for retail within the limits of their farms.

6. The anomaly at present resulting from the joint operation of Regulation I of 1830 as it now stands, and of act XXIII of 1841, is sufficiently striking - while the latter of these enactments interdicts the importation of Foreign rum into the Madras Territories, the former prohibits the sale for home consumption of that manufactured in the country. Some alteration in the existing law is therefore clearly called for, and the measure now proposed, while it affords but a fair encouragement to the Sugar manufacturer in the Madras Territories, will tend to render the Government independent of the supplies of spirits for the public service from the Eastward and Ceylon, and will ensure to the Native community a more pure and less deleterious article than they have hitherto been in the habit of consuming. On these grounds therefore the Board beg to recommend the present application to the favorable

favorable consideration of Government.

Revenue Board Office,
Fort St. George,
16th October 1843.

(Signed) C. C. Lovell
Acting Secretary.

Read the following letter.

To C. C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

14

From the Collr of Vizagapatam — Para 1 — Sir

for arrears of Revenue advertized for the 19th Ultimo proceeded according to the terms published on that date.

2. The owners of most of the Proprietary Estates having previously paid, or having made satisfactory arrangements for paying the entire balance, the sale of the Pimlay Mootah and of the Villages of Cheepoorpully was proceeded with.

3. The former Estate, as the Board know heretofore the property of the late Mr. John Leonhardy, who was largely indebted to Government thereon, was sold last year and knocked down to one B. Narapah for 3500 Rupees

Rupees. The Peishcush thereon being Sixteen Thou-
=sand Rupees per annum.

4. This man as I have already
reported has given me much trouble throughout
the season. His Kists being constantly in arrear,
and the crop on that Ground being, I was aware, in-
=sufficient to meet the Government Demand, I
was compelled twice during the year to sequester
the Mootah, to prevent the grain being removed
entirely with no security for the Government Re-
=venues. Nevertheless every reasonable facility
and encouragement was given to the Mootahdar,
and the security of a person of reputed property
having been ultimately tendered, the Estate was
was again left in his management up to the
end of the fusly.-

5. Then seeing that his promises
of payment were always vain, and that his Securi-
=ty appeared disposed to evade the responsibelity
he had voluntarily undertaken, I was compelled
again to sequester, and I have secured two hundred
Garces of Grain, or there abouts, stored on the Pro-
=prietor's account in the Mootah.-

6. Up to the day of sale
the Proprietor continued to make proposals
by himself and Security of large payments,
and I had assured him, if these were made,
and a disposition shown to act correctly

the sale of the Mootah should not be forced.-
I was actuated to this because, the Proprietor's
management had not been fairly tested, in
as much as possession was only given him
in November last.-

7. On the day of sale however
not a farthing was forthcoming, only new pro-
=posals of payment at a more distant date.-

8. I was compelled therefore to sell
the Mootah and I bid for it on account of
Government to a considerable extent. There
were other competitors however, who seemed in-
=clined to go far beyond its intrinsic value,
and it was ultimately Knocked down to
one Hurry dos Venkatanarsingarow for
Rupees Five thousand.-

9. This person is a man of res-
=pectability and of some property, he has
deposited the entire purchase money in the
treasury, and I request authority to make over
the Mootah to him with the least practicable delay.

10. The balance unpaid at the
date of sale of last year's Peishcush was Rupees
11509.- Deducting the purchase money the balance
will be Rupees 6509.- To meet that there is the
grain in deposit valued at about 3000 Rupees.-

The

The rest must be recovered from the surety by name Samaloo, who has means.

11. When it is recollected that Government received in last year 3500, by the former sale, it will be found that considerably more than the Peishcush will have been derived from the Estate in Fusly 1252.

12. I request the earliest practicable reply to this requisition for authority to make over the Estate to the Purchaser, because the season is advancing and it is desirable that the management be entirely left to the new Proprietor.

13. I have entered more at length into this matter than its importance perhaps deserves, because I believe it likely the late Proprietor will address the Board by Petition. I repeat he is undeserving of no consideration, that he has been very favorably treated, and that he has no real grounds for complaint.

14. The Cheepoorpully Village was allowed to come to the hammer by the family who have heretofore held it, from private dissension consequent on the death of the Head of the family. It was purchased by one of the members for 3120 Rupees, and the family who are wealthy will discharge the balances of old arrears from their own means.

Vizagapatam Coll.r's Cutcherry 5th. October 1843.

(14-15)

Resolution thereon,

/Signed/ P. B. Smollett Acting Collector

The Board confirm the sale of the Dimlay Estate for Rupees 5000— and of the Cheepoorpully Village for Rupees 3120 — reported in the foregoing letter, and authorize the Acting Collector to make them over to their respective Purchasers.

(16)

Proceedings thereon Submitting for the Deevy Zemindary in the Masulipatam

for the indulgent consideration of Government from the Collector of Masulipatam report, upon the composition which he has effected in adjustment of the private claims against the Deevy Zemindary.

Masulipatam District was for many years after the conclusion of the permanent settlement one of the most flourishing Estates in the Northern Circars. The average Collections of 33 years from Fusly 1210 to 1242 both inclusive, amounted to Rupees 88481 which on the Peishcush is only Rupees 47887 left an average annual surplus in favour of the Zemindar of Rupees 40594. From the last mentioned Fusly the Estate began rapidly to decline owing in part to the adverse nature of the seasons but in no small degree to the profuse and profligate expenditure of its late proprietor, until at his death, which happened 18th May 1836, the balance of Peishcush outstanding against the Zemindary was Rupees 65355 and the property was further clogged with private debts to a very heavy amount. The estate which had before been under attachment for arrears, having on the decease of its proprietor been taken under the guardianship of the Court of Wards, their attention was early drawn to the importance of rescuing from its pecuniary embarrassments so valuable a property which had been estimated by the Collector Mr Golding has as capable of yielding a yearly revenue of a lac of Rupees, a sum fully

to effect an arrangement with the private creditors of the estate, were successively made by the Collectors Mr Blane and Mr Grant, the latter of whom under date 4th September 1840, reported that he had concluded a compromise with 19 Creditors and trusted to be able to carry out the settlement with the remaining 17 in the hope that Government might be induced to advance the amount of Composition which should be ultimately agreed on, and which might be estimated at about a lac of Rupees, from the public treasury on the mortgage of the estate. On this subject Government Minutes of Consultation 25th November 1840 observed, "the Right Honorable the Governor in Council is glad to learn that an arrangement so favorable to the interests of the estate as that specified in Para 22 of the Collector's report, had been effected with a considerable number of the Creditors, and trusts that Mr Grant will be equally successful in his endeavours to effect a similar compromise with the rest. His Lordship in Council will be happy to give considerate attention to any proposition which may hereafter be submitted by the Court of Wards by which so desirable an object, as the relief of this estate from

from the very heavy pecuniary embarrassments with which it is at present incumbered can be accomplished Comparatively speaking at so small a sacrifice.

The efforts made by Mr. Grant for the attainment of this end were however subsequently foiled by the perverse conduct of some of the remaining Creditors, and further attempts were for a time suspended, in consequence of the death of that Gentleman.

2. The negotiation has been resumed by Mr. Porter, and the arrangements which he has effected and which are nearly the same as those contemplated by Mr. Grant, form the subject of the letters now under review. It will be seen that the amount of private debts due upon the estate equals (principal and interest) the sum of Rupees 371621. Of the above it is proposed that the Creditors shall remit the whole interest to being Rupees 240609. and a certain percentage of the principal leaving the amount to be paid under the Composition now proposed at Rupees 100857. which will further be reduced to Rupees 97956 if the suggestion made by the Collector in favour of

Letter 16th May 1843.

of Krishnasastree be acceded to. All the Creditors have by the documents duly executed signified their acquiescence in the terms as above detailed, with the exception of two persons whose

Rs. 13359. claims are inconsiderable, and from whom no opposition is to be expected.

3. The composition as given in the preceding Para cannot but be considered as most favorable, and evincing much tact and judgement on the part of the Officer to whose exertions it is due. Mr. Porter further calculates that in the event of the sum required being advanced from the public treasury on the Mortgage of the estate, the whole amount, together with the Peishcush now outstanding,

Peishcush outstanding

Since collected
See letter 14th Sept. ---- 12000
69911
Amount of
Composition ---- 100854
170765

may be discharged in 6 years. The grounds of this opinion are given in his letter of 27th July last, in which for reasons stated in detail, he estimates that the Zemindary in ordinary seasons, and under a careful System of management may be expected to yield an average annual revenue of Rupees 80,000 of which after deducting Peishcush and Charges computed at 37,000 Rupees, there will remain a

a yearly surplus of 23000 Rupees which will free the estate from all embarrassment by Fusly 1260, or the period when the minority of the present Zemindar will terminate.

4th In the Accounts submitted by Mr. Porter the proceeds of the Deevy Zemindary for the last 10 fuslies exhibit it must be admitted a mortifying Contrast with the out-turn of the 33 years which preceded them. This deterioration is to be ascribed to various causes: to the improvidence of the late Zemindar; to a series of unfavourable seasons; to the low prices of agricultural produce caused by the influx of Arracan grain; and perhaps, in some degree, to the frequent changes in the revenue authorities, on whom the superintendence of the Masulipatam District has devolved. The recent improvements in the irrigation of the Zemindary, the attention paid to the estate by Mr. Porter, and the interest which he evidently takes in its management have induced the Board to submit his application for the indulgent consideration

of the Most Noble the Governor in Council. They should add that in the event of the Collector's proposal not being adopted the property must either be parcelled out under decrees of Court among the several parties having liens upon it, or be sold in satisfaction of arrears of public Revenue. Under the latter alternative it is not probable that the estate could be bought in by Government as there can be little doubt that it would realize more than the balance of Peishcush outstanding against it. In either case therefore the Zemindary would pass into other hands, and the patrimony of a respected family be permanently alienated from its present proprietor.

Ordered

Ordered that copy of the foregoing Proceedings be submitted for the information and orders of Government.

Read again letter from the Collector of Guntoor dated 30th Ultimo, and entered in Consultations 9th Instant.

Ordered that the following letter be sent in reply.

To The Collector of Guntoor.

(19)

To the Collr of Guntoor

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 30th Ultimo, proposing a modification of your Establishment as necessary to promote its efficiency.

2. Under present circumstances the Board would wish any modification of this kind to be considered in connexion with the General revision of your Establishment proposed in your letter of the 25th May last, as suited to the new territorial Division of the District therein recommended.

3. These latter arrangements the

the Board will immediately proceed to consider on being favoured with the information requested in my letters of the 13th March and 6th July last, regarding the debts due by and to, the Zemindaries, and the probable outturn of their Estates under Government management.

recommending that an Establishment may be allowed at the Monthly charge of Rupees 9-8 for the Joomma Musjeed or Principal Mosque of the town of Woodiagherry.

2. The late Jaghirdar, it is stated, payed a Monthly allowance of Rs. 17 for the Support of the Mosque Establishments besides some presents at certain festivals, but the Jaghire having been resumed in 1839. the whole income at present amounts to about 8 Rupees per Annum only which is derived from a small Mauniem

Min. Cons. Govt. 1st. Nov. 1839 in Cons. 18th. Do.

The population of Woodiagherry is chiefly Moosulman and the Mosque is much resorted to and every Mosque in the District of any note receives some allowance from Government. Under these circumstances the Board beg leave to submit the Principal Collectors application for the favorable consideration of Government.

Revenue Board Office, Fort St. George, 16th. October 1843.

A.t. Secretary

Read

Read the following reports

To

C. b. Lovell Esqre.

Acting Secretary to the Board of Revenue Fort St. George

29.

From the Collr. of Nellore

Reporting on the Settlement of the Nellore District for Fasly 1252 and transmitting various documents connected therewith according to a list of the Packet herewith sent.

Rect. 2-1-43.

Sir.

1. I have the honor to transmit herewith the Jamabundy and Kistbundy Statement for Fasly 1252 with a detailed Jamabundy Statement, and a Statement of the Beyrij of that Fasly compared with the previous one both in English and Marattah.

2 Ten out of the twelve Talooks composing the Principal Division including the Talook of Sydapoor which was reported on separately in Fasly 1251 were settled by myself and the remaining two Talooks of Rawoor and Woodiagherry by my Head Assistant Mr. Cochrane.

3. The settlement of the 5 Northern Talooks comprising the Sub Division was concluded by the Sub Collector Mr. Purris, a copy of whose report accompanies

No 4

4. The total number of Villages and hamlets of the District is as follows.

Villages

Fort St George 18th October 1843

Villages	Fusly 1251	Fusly 1252
Principal Division	442	494
Sub — Do.	235	235
	677	729
Hamlets..		
Principal Division	390	410
Sub — Do.	197	191
	587	601
Total Villages and Hamlets	1264	1330

The following are particulars

	Fusly 1251	Fusly 1252	Increase	Decrease

	235	235	"	"
	677	729	54	2
Net Increase	"	"	52	"

There

Fort St George 18th October 1843

5 There is an increase of 54 Villages under Aumanie Nodeemonsaly was the only Aumanie Village last year, while in Fusly 1252 besides this Village there were fifty two Canoy Villages of the Sydapoor Taloke as also two Villages of Cheroovella and Bheemavaram in the Woodiagherry Taloke held by Moostafa Ally Khan the late Sagherdar's eldest brother, making a total of 54 which were settled under Aumanie. The two Woodiagherry Villages having reverted to Government at a broken period of the year were last year settled according to the engagements existing between the proprietor and the Ryots.

6 Although the total number of Muctabundy Villages was the same as in last year, there was a decrease of one in the Woodiagherry Taloke and an increase of one in the Ravoor Taloke arising from a dependant Hamlet having been formed into an independant Village while the former was reassumed by the transfer of the Village of Ravoolacolloo to Syed Soltan

16th June 1843

Soolkum as authorized by Government.

7. The decrease of two under the head of Villages settled according to the holders Muctahs in last year, is owing as already noticed to the two Villages of Cheeroorella and Kheemaraum having been settled under Amanee this year.

8 There is a difference as hereunder exhibited in the number of Villages settled under different modes in the Sydapoor Talook in fusly 1252 in comparison with that of fusly 1251.

Description of Villages	Fusly 1251	Fusly 1252
Coroo	49	52
Amarams	21	19
Shrotriums	24	24
Cuttoobadies	9	8
Swra Enams	6	6
	109	109

9. From this statement it will be seen that three Villages became lessened in fusly 1252 Viz two Amarams and one Cuttoobuddy. The two Amarams

Amarams were those of Rungapooram and Paramkaungepully which for the reasons detailed in Paras 63 and 68 of my report on the Sydapoor Talook for fusly 1251 were resumed and the Cuttoobuddy Village of Ramzoola Yerragoontapollem having been voluntarily relinquished by the Proprietors has been added to the Coroo Villages.

10. It will be seen that there is an increase of 14 hamlets in fusly 1252 above those of fusly 1251. The Sydapoor Talook being included in the present Report gives an addition of 15 hamlets but the newly restored Village of Rundapooram in the Ravoor Talook having been transferred from this head to that of independant Villages gives a nett increase of 14 in the number of hamlets.

11. The season proved extremely unfavorable for the 1st Series of Crops both Wet and dry. There was no rain to speak of nor any freshes in the river till the beginning of July when the period for the cultivation had passed by. From the middle of July there were occasionally rains during the

Fort St. George 16th October 1843.

the entire period of the Cultivation of the second series of dry Crops, but the freshes in the rivers which usually occur during the prevalence of the S. W. Monsoon entirely failed and the season was exceedingly unfavorable for the wet cultivation. The N. E. Monsoon to a great extent failed during the Months of October and November the fall was under 4 Inches during the whole of the Monsoon there were not more than two or three freshes in the rivers usually about one fourth, and on one occasion half of a full river. The best supplied Tanks excepting those of the smallest description were not more than half full. The Monsoon rains ceased by the middle of November and had it not been for a very opportunate fall of rain towards the latter end of January a very serious loss of Revenue would have occurred by the withering of Crops which eventually came to maturity. The season generally may be considered to have been somewhat favorable for the dry, but very much the reverse for the Wet cultivation. The dry Crops actually grown in

Fort St. George 16th October 1843.

in general, produced an average and that of Jonna an abundant Crop while the produce of the wet lands was indifferent except in some few Villages for though to a large extent they were ultimately reaped, the outturn was affected by the sickly state to which they had been reduced previous to the fall of rain in January. The season appears to have been much the same in the Sub Division. There was a great failure in the cultivation of the 1st Crops which was limited in fact to low and moist lands. A seasonable fall of rain in August allowed of a more than usual cultivation of the 2nd series of which the principal Crops of Jonna is stated to have produced abundantly. The 3rd series of Crops seem to have been cultivated to the full extent. These remarks have reference to the Dry Crops for the Maganie cultivation was seriously impeded by the want of water.

12. I had occasion to notice in my report in July 1841 the very depressed state of the prices of every description of Grain. In the year under review they have been still lower, in fact grain has not been saleable, and the Ryots who were in circumstances to

to admit of it, have been obliged to sell or mortgage their Jewels and other property to pay their Rents. The effects have been most disastrous on the Agricultural population in fact it is impossible to give an adequate idea of the depression of the Agricultural classes. If prices continue as they have done substantial relief in some form or other must be extended to the Ryots in the settlement of the current year, for the permanent sources of Revenue will otherwise be seriously impaired involving the ruin of many of the less substantial Ryots and the relinquishment of a large extent of land now under cultivation. Should such a state of prices continue, I shall feel it my duty to make it a matter of special reference previous to the Immabundy. The usual price current is herewith sent from which it will be seen that the average of the prices of dry grains vary from Rupees 18–10–8 to Rupees 10–12– and of wet grains from 19–0–0 to Rupees 12–5–4 The average prices of wet grains in the Principal Division in which is nearly the whole of the cultivation of the District was under 16 Rupees while in the Sub Division consisting almost entirely of dry grain cultivation the average price

price of dry grain did not exceed Rupees 12–8– the settlement commutation price being 30 Rupees I beg to refer the Board to the statement given in para 4 of the Sub Collectors report. These, as the Board are aware, are the Merchants prices in the Cutcherie Villages of the respective Talooks and consequently are from 2 to 4 Rupees per Pottah higher than those at which the Ryots sold their grain.

13. The Marginal statement exhibits a comparison of the lands taken up for cultivation in Fasslies 1251 and 1252. In the Principal Division there was a decrease in the occupancy of all descriptions of lands as follows.

	Garden
Metta	2986
Mugany	1274
Moolcom	98
Sarcob	12

This relinquishment of lands in the Principal Division was occasioned by the heavy losses the Ryots have sustained in the two

two preceding years from the low prices of grain which deprived some of the means of carrying on their cultivation to the same extent as before, and obliged others to abandon it altogether. It was also in part owing to lands having from one cause or another become unproductive and which were in consequence thrown up—

14. The decrease in the occupancy of Mooloom and Sarcab lands is owing to the inability of certain Ryots to repair the Wells which have fallen in, to some Ryots having died or absconded to several Ryots having relinquished them on account of their poverty, and to some lands having become unproductive. There are many wells in this District useless for purposes of cultivation and which the Ryots have not the means of repairing.

15. In the Sub Division there is a decrease of 1919 Gorstas in dry and 87 in Mooloom lands and an increase of 19 Gorstas in wet and 47 in Sarcab lands. The decrease in the dry land which is considerable seems to have been occasioned primarily by the Ryots losses in the previous year by low prices followed up

Land actually Cultivated

up by the very unfavorable commencement of the season of the present year. The Sub Collector very wisely refrained from permitting Ryots to take up more than they were willing to engage for. One third of the whole decrease in the Mooloom occurred in the Cayole Talook, of which as much as 12 Gorstas were in one Village only. These as well as the other Lands composing the total decrease under this head were relinquished in most cases from their being quite unproductive and in some, from the Ryots want of means to carry on their cultivation.

16. The actual cultivation in Faslies 1251 and 1252 are exhibited in the Margine

17. It will be seen that there is a decrease in the cultivation of all descriptions of lands in both the divisions.—

	Principal Division Gorstas.	Sub Division Gorstas.
Metta	3188	2044
Magany	8492	1189
Mooloom	195	173
Sarcab	19	7

This

Fort St. George 15th October 1853.

This decrease arises from the nature of the season which has been already explained. Of the deficiency in the Wet cultivation in the Principal Division amounting to Gootoos 8492- Gootoos 478 occurred in the Cauvery first Crops, Gootoos 2831 in the 2nd and Gootoos 5183 in the Cudah or 3rd Series of Crops, I am inclined to doubt the policy of the course pursued by the Sub Collector in forcing the cultivation of Modcom lands with Crops which must be the effect of imposing any assessment as I understand it to be on the Ryots for Burgur as explained in the 11th Para of his report. It appears true that under such a system the Wells will never be repaired. Modcom lands will yield very fine dry Crops, and ordinarily the Ryots will not fail to grow dry Crops in such lands. The object in view should be to restore these wells if they can be restored and I think this would be more likely to be effected by not permitting such lands to be taken up for dry cultivation. The Ryots will never think of repairing the Wells

Fort St. George 15th October 1853.

Wells so long as they are permitted to grow dry Crops on such wet lands and pay the dry land Assessment.-

18. The following statement exhibits the percentage of waste on the lands occupied for cultivation in both divisions in Fuslies 1251 and 1252.-

	Principal Division		Sub Division	
	Fusly 1251	Fusly 1252	Fusly 1251	Fusly 1252

20. The form of Statement given in Para 8 of the Boards Proceedings in Fasly 1250 does not distinguish the gross settlement, Deduction and Net settlement of the Principal and Sub Divisions and I have therefore thought it better to insert in the body of the Report the result of the settlement in the form hitherto adopted, and to send a separate Statement in the form prescribed in the proceedings above noticed.-

No. 6.

21.- The Gross settlement of Fasly 1252 was Rupees 18,66,286-5-10 the deductions amounted to Rupees 3,03,284-8-2 and the Net settlement was Rupees 13,00,971-13-8 being a decrease below the Net settlement of the previous year of Rupees 3,31,749-11-0 of which the decrease in the Principal Division was Rupees 183,587-2-10 and in the Sub Division Rupees 148,162-11-2.-

22. I proceed to explain the deductions from the Gross settlement.-

Lost tree.- 23 The first deduction was for perished Crops which amounted in Fasly 1252 to Rupees 7912-5-0 in the Principal Division and Rupees 8067-11 in the Sub Division making a total of Rs 15978-12-11 being

J.C.B

being an increase in the Principal Division above that of the previous Fasly of Rupees 9978-1-2 and a decrease in the Sub Division of Rupees 40-3-6 the Net increase being Rupees 6937-13-8 The remission on this account in the Principal Division was allowed in 4 Taloks of which Rupees 3355-11-1. were in the Survapully and Rupees 3401-12-1. in the Nellore Taloks, Rupees 506-7-0 in the Talamunchy and Rupees 504-13-11 in the Cavally Taloks making a total of Rupees 7827-12-0 in the above four Taloks. The Chief deduction on this account in the Sub Division was Rupees 750-11-5 in the Buddapoody Taluk, which is the only Taluk in that Division in which there is much Magany lands. It was principally the assessment on lands sown early in the year in anticipation of a sufficient supply of water to bring the Crops to maturity, and in which the Ryots were disappointed. The deduction under this head would have been very large

*Fasly 1251
Principal Division 934-3-10
Sub ——— Do 640-11-5
1780-15-3

Large list for the timely fall of rain in the latter part of January as I have already mentioned.

Rumpa.

24. The deductions on account of land lost waste, amounted in Fasly 1252 to Rupees 28,070–8–5 in the Principal Division and Rupees 6,982–12–7 in the Sub Division — Total Rupees 34,053–5–0 while in the previous year it was Rupees 14,723–8–10 in the Principal and Rupees 35,008–0–9 in the Sub Division. The particulars of the deductions is as follows.—

	Fasly 1251	Fasly 1252	
Principal Division	Rs a p.	Rs a p.	
Metta	6579 7 7	7,862 9 10	
Magany	131,124 1 1	265,920 6 0	
Moolum	2,508 8 9	4,990 3 9	
Jarcel	1,511 7 5	2,297 4 10	
	14,723 8 10	28,070 8 5	
Sub Division			
Metta	788 13 11	5,237 2 10	
Magany	33,285 7 9	65,229 5 8	
Moolum	853 5 3	867 5 11	
Jarcel	281 5 10	298 13 2	
	35,008 0 9	66,952 12 7	

25. Of the amount deducted under this head in the Principal Division Rupees 7,957–4–8 was on account of waste mundated while the rest was on account of lands not sown. The waste mundated in the Sub Division was Rupees 28–11–10

Wet lands	2,392–0–5
Dry Do.	4,908–15–11
Garden	581–9–11
Jarcel	14–4–0
	7,957–4–8

Metta	21–13–10
Jarcel	6–14–0
	28–11–10

26. The Talooks in which the chief deductions for Magany waste were the following.—

Talooks	Fasly 1251	Fasly 1252	Increase
Sawapully	34,403 4 3	53,762 11 7	19,359 7 4
Nellore	31,819 8 8	73,472 8 11	41,653 0 3
Talamanchy	31,246 5 2	48,078 14 7	16,832 9 5
Sungum	12,348 1 2	32,505 3 11	20,157 2 9
Cavaly	4,733 4 4	23,318 2 1	18,584 13 9
	114,551 7 11	231,137 9 1	116,585 1 2

27. The principal Talooks where this deduction took place in the Sub

Fort St. George 10th October 1863.

Sub Division were as follows.-

Talooks	July 1251	July 1262	Increase
Puddapoody	24,418 1 11	35,704 5 8	11,286 3 9
Davagoodoor	4,809 10 11	17,253 1 11	12,443 7 0
Ongole	2,355 12 11	9,959 9 5	7,602 12 6
	31,584 9 9	62,917 1 4	31,332 7 3

28.- The foregoing results are attributable solely to the deficient supply of rains and freshes in the Rivers as already explained in preceding remarks.-

29.- The deductions for dry waste in the Principal Division amounted to Rupees 7,802-9-10 in fusly 1252 while in the previous year it had been only Rupees 6,379-7-7 exhibiting an increase in the former year of Rupees 1283-2-3.- Of the deduction made in this year Rupees 4968-15-11 were on account of lands situated in the beds of Tanks and not brought into cultivation first from the want of rain and afterwards from being underwater at the season of Cultivation Rupees 1356-1-4 was

Fort St. George 10th October 1863.-

was on account of land belonging to Ryots who partly from their impoverished condetion and partly from the deficiency of rains, were not able to cultivate a deduction of Rupees 362-10-1 was made in account of absconded Ryots Rupees 556-4-11 was on account of lands which were washed away or overflowed and rendered unproductive by that and other causes. Rupees 519-8-8 was on account of lands for which other land had been cultivated.- The last item of deduction was Rupees 119-1-10 which was in account of dry lands which the Ryots took up to cultivate as Magany but which was prevented from the want of water. There was a decrease in the deduction for dry waste in the sub Division owing to the relinquishment of lands which in the previous years had been occupied and deducted as Bunjer at the settlement.-

30.- The deduction for Garden waste in the Principal Division in fusly 1242 was Rupees 4,991-3-9 while that in the previous year it was Rupees 2508-5-9 exhibiting

Fort St George 10th October 1843.—

Exhibiting an increase in the former year of Rupees 2481–11–0. The amount deducted for Sarcab waste was Rupees 2297–4–10 in fusly 1252 and Rupees 4511–7–5 in the previous year being an increase of Rupees 785–13–5 These Garden and Sarcab lands depend partly upon wells and partly upon Tanks water for irrigation. The deficiency of rains was the chief cause of their having been left Punjer. There was an increase also in the deduction for Mooloom Punjer in the Sub Division from it not having been possible to cultivate certain Gardens under the irrigation of Tanks and which had no water and this is also stated by the Sub Collector to have been the cause of the Sarcab waste in the Sub Division.—

Inundated 31.— The deductions for inundated lands amounted in the Principal Division to Rupees 169–6–11 in fusly 1252 and to Rupees 4730–7–10 in the previous fusly. The deduction under this head is confined to Lands inundated after being brought into cultivation and are chiefly situated on the bors of Tanks. The small

Supply

Fort St George 10th October 1843.—

supply of water in the Tanks necessarily decreases the deduction under this head. In the Sub Division there was no necessity for any deduction on this account.—

Cowle Remission 32.— The following were the deductions for Cowle lands in the year under review and the previous fusly:—

	Fusly 1251			Fusly 1252.		
Principal Division——	1466	7	9	916	9	5
Sub Division——	1705	1	8	981	14	8
	3171	9	5	1898	8	1

There was a decrease of Rupees 549–11–4 in the Principal Division and of Rupees 723–3 in the Sub Division making a total of Rupees 1273–1–4

33. The Cowle Remission of fusly 1251 in the Principal Division was Rupees.—— 1466–7–9

Deduct

On account of land brought under full assessment in fusly 1252——		154–12–9
Land brought upon an increased rate of assessment in fusly 1252——	354–10–10	
Dry waste belonging to Abscinded Ryots—	41–2–2	
Do — Do to Dead Ryots——	5–10–0	
Do — Do to very poor Ryots——	15–3–3	66–9–5
Magany waste from utter want of water—		11–11–11
Do Sookkee——		10–6–8
		602–6–7
Remainder——		864–1–2
Add Remission in lands newly taken upon Cowle in fusly 1252——		52–8–3
		916–9–5

The

Fort St. George 10th October 1843.—

34. The decrease in the Cowle remission in the Sub Division is explained in the Sub Collector's report.—

Paulevasey 35. The next item of deduction was on account of Paulevasy as follows.—

	Fasly 1251			Fasly 1252.		
Principal Division———	1103	13	3	1704	"	"
Sub Division———	150	12	8	59	13	6
	1160	9	11	1763	13	6

In the Principal Division there was a decrease of Rupees 45–5–11 in the Cyacarry Paulevasey and an increase of Rupees 745–8–8 in the Pucka Paulevasey—the former item does not seem to require remark. The increase in the Paulevasey on account of lands watered by Pucka tanks was occasioned by the small quantity of water remaining in the Tanks which rendered the use of Pucka tanks absolutely necessary to bring the Crops to maturity.—

36 The decrease of Rupees 96–15–2 in the Sub Division was in the Pucka Paulevasey and arose from short cultivation in the Village of Caraikoo upon which the Ryots are entitled to

Fort St. George 10th October 1843.—

to Paulevasy compared with the previous Fasly.—

Discretionary Remission. 37 The deductions under this head amounted as follows.—

	Fasly 1251			Fasly 1252		
Principal Division———	910	4	3	1229	15	4
Sub Division———	302	6	7	278	7	5
	1212	10	10	1508	6	9

It will be seen that there was an increase of Rupees 319–11–1 in the Principal Division and a decrease of Rupees 23–15–2 in the Sub Division. The deduction under this head does not call for particular remarks. The remissions were only given on full enquiry and consideration and where the circumstances of the case appeared to render them indispensible.—

Casual Cummee 38 The last deduction from the Gross settlement was under the head of Casual Cummee in which there was a Net decrease of Rupees 248–1–3 in the Principal Division in Fasly 1252. There was no deductions made on this account in the Sub Division in the Fasly

Fasly 1251–440–4–3
" 1252–192–3–"
248–1–3

justly under review. The decrease arose principally from certain Modcom lands situated in the beds of Tanks which in last year could only be cultivated with one Crop from having been under water at the season of cultivating a second Crop having this year been cultivated with two Crops. This was the cause of the increased remission under this head in the Ravoor Taluk last year and of the decrease in the same Taluk this year.— There was an increase of remission under this head in some Talooks especially Sunguns from the cultivation of dry Crops in wet and Modcom lands the cultivation of which with their proper Crops was prevented by the want of water.—

36. The Net settlement of Fusly 1252 in the Principal Division was Rupees 893887—14—7 and in the Sub Division Rupees 407083—15—1 making a total of Rupees 1300971—13—8 or Rupees

Principal Division 1,83,587—2—10 2,31,729—2—11 less than the
Sub Division 48105—14—1 Net Revenue of the
previous year—
Pollay

60 The Board's Proceedings dated

dated the 19 January 1843 authorizing the abolition of the capitation and the introduction of the Mucta System from Fusly 1252 were received on the 28th of that Month too late to allow of a change this year throughout the district, as the Board intimated a wish should be done if practicable. The Jumabundy Accounts of the Tomalatalpoor Gundadie Calegherry and Ravoor Talooks having been already prepared the Pollay was settled in these Talooks in the previous system of capitation, as also in the Woodiaghorry and Sydapoor Talooks. In the two last the capetation system was purposely adopted from the circumstance of there not having been a sufficiently long period under the management of the Officers of Government to allow of the same data being procurable for them as were requisite to form a Muctabundy Pollay. For Woodiaghorry we had only the Pollay collections of 3 years and for Sydapoor only two. I considered it therefore advisable that both these Talooks should remain for a further period of

of two or three years under the capitation system to arrive at a correct conclusion of what would be the fair revenue to be assessed under the new mode— The Mucta system was introduced into all the remaining Talooks of the Principal Division viz. Nellore Survapully, Coloh, Talamunchy, Gungum and Cavaly— The average Collections of 5 years from Fusly 1247 to 1251 for each Village the present number of Cattle shewn by the Capitation Accounts of Fusly 1252 where the counting had been made and by those of the previous Fusly where it had not been made the Collections of former years and the extent of lands affording pasturage to Cattle were taken into consideration in fixing the Muctas for each Village which was done with the concurrence of the Ryots— The Village Moonsiff, Head Curnams, Curnums and individual Ryots then consulted together and gave in an individual account with all their signatures for the sum so fixed. This Amount they were informed was to be permanent, subject to a fresh distribution of the Amount at the annual

annual settlement by themselves according to any change in the description and number of the Cattle which in the course of the year might have supervened. There were one or two Villages where the Ryots did not assent to a fair Mucta and they were told that the sum fixed for the year under review was open to revision hereafter— There was one exception in the Principal Division the town of Nellore where the Mucta system was not introduced it not having been possible to effect it— When the District was under the Mucta system formerly under the Collectorship of Mr. Smalley it was then as now found impracticable to apply that system to this Town— The difficulty arises from its mixed population— A large portion of the Pollam in it is payable by inhabitants and Sepoys who have no cultivation— In the Villages the community consists for the most part of the cultivating classes, the number of Cattle belonging to each individual is well known and they have no difficulty in entering into a conventional agreement for a certain Amount of Revenue for the Cattle in a Village both it is not so in a large

Fort St. George 16th October 1843.

large and populous town with a community consisting chiefly of those who are not cultivators and who have little or no concern or connection with each other. There are other difficulties also attending its introduction into such a place as Nellore with which it is not necessary to occupy the Board's time. I could have wished it had been otherwise for the sake of uniformity, but found it impracticable

41. The following statement exhibits the Rollay in the last and present year in those Talooks where it was settled on Capitation.

Talooks	Capitation Rollay of Fusly 1251	Capitation Rollay of Fusly 1252

	42803 4 7	45046 11 5	46,138 15 6

43. The total Revenue on account of Rollay and Sales of Pasture lands in Fusslies 1251 and 1252 was as follows.

Fusly

44. There was a gross increase in the Principal Division in Fusly 1252 of Rupees 471-11-1- in the Poolary and a decrease of Rupees 911-6-11- in the Sales of pasture lands - The decrease arose chiefly from the pasturage in the reserved lands having to a great extent failed from the dryness of the season compared with that of the previous year -

45. The introduction of the Ryotwar System in the Sub Division has been attended with unexpected difficulties, and the Sub Collector has entered into somewhat lengthned remark on the Subject - Having received his report on the Settlement at a late period, and being unable to ascertain from it clearly how the change of System has been effected in the different Villages, more especially as his detailed Poollary accounts have not been transmitted to me, I must beg the Board's permission to make it the Subject of future remark - The Board will observe in Para 26 of Mr. Purviss report that he accounts only for 221 Villages while

Fort St. George 16th October 1843.-

14528

while the number of Villages in the Sub Division is 235. In the Comparative State=ment given in the same Para it would seem that the 5 years average is not of actual Collections as intended by the Board, but the average Poollary assessment.-

4 b. Of the Net Ryotwar Settle=ment of Rupees 893887-14-7 of the Prin=cipal Division there was collected within the fusly Rupees 796536-1-11. The Sub=sequent collections up to the 15th August amounted to Rupees 25210-13-8 making a total of Rupees 821746-15-7 leaving a net outstanding balance at that date of Rupees 72,140-15-4. The Beriz Collections and Balance of the Sub Division are entered in the Margin

Beriz Collections	⊕	4,07,083-15-1-
Up to the close of fusly	}	367746-3-3
Subsequent Col=lections up to 15th August	}	7,823-11-2-
		375569-14-5-
Balance		31514-4-8-

The total balance outstanding on both divisions is Rupees 103654-15-8- The assessment on Margin, Metta, Moolooms and Jareet Punjer, left waste from neglect on the part of the Ryots was under the principles of the Settlement imposed on the Ryots and amounted

amounted to Rupees 29679-14-9- in the Principal Division and Rupees 34995-4-6 in the Sub Division but though assessed it was out of the question to press rigidly its collection in such a year as that of fusly 1252, when the loss to them by prices was from 40 to 50 per % and moreover when from a considerable extent of land they had reaped but a very indifferent crop- I allude to those lands which they had already determined to abandon from=their sickly State, and the want of water but which were eventually saved by the fall of rain in January- Up to 15th September a further sum of Rupees 13,282 1-6 in the Principal Division has been realized, and from a minute examination of individual balances and the loss the Ryots have already sustained, I should be wrong were I to hold out the expecta=tion of any further portion of the out=standing balance being realized.-

47. The Collections on the Sub division were obstructed by the very low price of all descriptions of grain principally, and partly by the occurrence of a storm in the

Sub Division.

the latter end of May, which Seriously damaged, and in Some cases, so totally destroyed, a quantity of Stacked grain, the propertyes mostly of poor Ryots. The Pub Collector is inclined to think that about 4,000 Rupees of the outstanding balance may be realized

48. The Berize, collections and Balance of the Shrotrium Revenue of fusly 1252 are exhibited in the Margin. The total number of Shrotriums in the Principal Division in fusly 1252 was 186, in the previous fusly 163, being an increase in the former fusly of 23. The

The actual increase is 24 arising from the Shrotriums in the Sydapoor Talook having been included in the present Report. The Net increase is 23 from the resumption in consequence of the death of the Cundregadar in the course of the year of the Canoopoor Cundrega under the orders of Government noted in the Margin and which Stood in the publick accounts as a Shotrium. The tract of land which the Cundrega comprised has been incorporated with the Coros Village of Canoopoor from which it was originally Separated, and has been erased from the list of Shrotriums.

3d November 1840.

49. Of the Shrotrium Berij, the amount realized up to the 15th August in the Principal Division was Rupees 40412-6-3 leaving an outstanding balance at that date of Rupees 25774-10-1 of which Rupees 7,650-14-2 is due by Shrotriumdars who are in possession of their Shrotriums and Rupees 18124-5-11, on Shrotriums which are under Zuft. The reasons which are stated for the decrease in the Jyen Revenue Viz. the lowness of prices and deficiency of rains and produce have

have mostly occasioned the want of punctuality in the Jaree Shrotriumdars. The necessary measures have however been adopted for the recovery of the outstanding balances.

50. The balance due from Zufted Shrotriums is attributable partly to the causes detailed in my report of last fusly, and partly to the effects of an unfavorable season. Of the balance of Rupees 18124-5-11- there are resources for Rupees 6600-- and the remainder is irrecoverable.-

51. The subjoined Statement exhibits the Peishcush of the District in the year under review, the Collections up to the end of August and the balance at that date.-

	Amount of Peishcush			Collections within the close of the fusly-			Subsequently collected up to the end of August.			Total Collections			Balance.

52. The Vencatagherry Zemindar has represented to me the heavy loss he has sustained by the depressed state of the grain market, and the unfavorableness of the season, which I have reason to think is true. The balance due by him has been since reduced to Rupees 51923-4-2 and the remainder is in course of payment and will be shortly realized. the Small balance due by the Mottealpaud Zemindar has been since realized.-

53. The demand on account of the Woortawar Poligars Roosoomsfor fusly 1252 was

59. Having received the Board's Proceedings on the Summabundy of fusly 1250 after the transmission of my report for fusly 1251, I was prevented replying to one or two points on which the Board called for information. The first point was in respect to the manner in which Sugar Cane Crops are assessed, and a Statement was called for shewing the former and present rates of assessment. It is not possible to prepare such a Statement for if the Board refer to their letter under date 2nd. July 1838, it will be found that the assessment on Sugar cane varies with the description of land on which it is grown- if on one crop Maganie land 1½ Magany assessment is imposed, if on land assessed for two Crops of Magany that assessment is levied, if on one Crop Mooloom land, 1½ of the Mooloom assessment, and if on two Crop Mooloom land, the two crop Mooloom assessment is taken- if on

on Jareeb the original Jareeb Shist, with which the land is assessed, is levied.-

60. The difference between the present System and the former one is simply that the assessment is now upon the land, whereas formerly it was upon the Crop.-

61. The 2d. point regards the Cultivation in the Village of Moottaal- paud in which an explanation is called for of the reasons of the abandonment of the dry lands in this Village, with a Statement shewing the details of its cultivation for the last 10 years.-

62. From the figured Statement given in the Board's Proceedings of the wet and dry cultivation in this Villages in fuslies 1249 and 1250, they have been led to infer that the Magany rates must originally have been fixed low and those of the dry lands high. The Statement exhibits a cultivation out of 140 Goortoos of Metta exclusive of parampoke of 19 Goortoos only in fusly 1249, and of 11 Goortoos in fusly 1250, while out of a Goodecut of 137 Goortoos of Magany 127 were cultivated

cultivated in Fusly 1249, and 119 in Fusly 1250-
63. The Metta rates in the Village
are not high, they are more moderate than
the Magany rates, the large Metta waste
is attributable to other causes. They have
140 Goortoos of arable dry land, and but 15
Goortoos of pasture, whereas they are
entitled to have for pasture for their
ploughing cattle, an extent equivalent to
one fourth of the whole land occupied
for cultivation, this for Fusly 1250 amounted
to 45 Goortoos, and as only 15 were actually
pasture, thirty Goortoos out of the 140 were
necessarily appropriated to the purpose
of pasture for their tilling Cattle. Of the
remainder Viz. 110 Goortoos, 67 are situated
in the bed of the tank, and their culti-
-vation is very uncertain. Of late years
the Seasons have been wet. The Mootteal-
-paud tank is so well supplied that it
has repeatedly breached, and therefore
with but a moderate Monsoon the bed
is under water. Deducting 67 Goortoos from
110 there remain 43 Goortoos, of which the
Ryots occupy for cultivation nearly
13 leaving only 30 available for the
grazing

grazing of the Village Cattle, on which they
paid in Fusly 1250 a Poollary of 74 Rupees
on about 150 Cattle, being as much as 5
Head of Cattle to a Goortoo, and nearly
double the number for which such an ex-
-tent of land will afford pasturage. From
the foregoing explanation it will be
seen that from so large an extent of
land being situated in the bed of the
tank the Metta Cultivation must neces-
-sarily be in an inverse ratio to the Magani
-The Statement of 10 years Cultivation
No 7. of this Village is herewith transmitted.
64. I proceed to notice those points
in the Board's Proceedings on the Jum-
-malandy of Fusly 1251 on which explanation
is desired. The Board have remarked
on the large amount of dry waste in-
-cluded in the Settlement in Fusly 1251 as
well as in previous years, regarding
which they observed that more particular
explanation should have been afforded.
65. The Board must be aware that
up to Fusly 1246 it was a principle of the
Settlements in this District to include
all dry waste in the Settlement, except
in

in seasons so adverse as to approximate to a year of famine. As an established rule of the Settlement it was deemed unnecessary by former Collectors to afford an explanation for the imposition of such an assessment on the Ryots. It is still as much a principle of the Settlement as it was then, but the aplication of it is much less stringent than formerly, under the discretion accorded by Government in Minutes of Consultation of the 21st September 1837 Para 2, and as the Board were from the first averse to deducting such lands, at the Settlement except in very urgent cases, my object has been to limit the exercise of the discretion given to me as much as was consistent with the well-being of the Ryots. The including of such lands therefore in the Settlement having been, and still being, an established rule and principle, and the not including them in the Settlement the exception, I was under the impression that if particular explanation were necessary it was in regard to the application of the exception, not to the enforcement of the rule for which no other

other explanation can be given than that it is, and always has been, a rule.-

66. In regard to the disproportion noticed in Para 9 regarding the Talamunchee Talook, I may explain that in those Talooks which consist principally of wet lands of which Talamunchy is one, the extent of dry and pasture lands is very limited, and the Ryots have no alternative but to appropriate a part, if not the whole, of their dry lands for the pasturage of their Cattle, and as the Ryots of such Talooks are mostly, compared with the Ryots of the dry Talook, in good circumstances, and the extent of dry land not considerable they willingly pay the assessment for the sake of what they consider their most valuable property, their Cattle.-

67. I have to apologize for having omitted to explain the falling off of 25 per % in the Aumanie Village of Nedemoossaloo, as also the decrease of Rupees 1,454-11-8- in the Beyriz of the Soomalatalpoor Talook, while there was an increase of Beyriz in all the other Talooks.- The decrease in

in the Beyriz of the Village of Vedamoosalee did not arise from any material decrease of cultivation but from the adversity of the season- The Village has neither Tank or river channel for its wet cultivation, but depends almost entirely for its Supply of water on the rain, and the damage water of the fields of another Village- It so happened that for a Short time immediately preceding the reaping there was an entire want of rain which occasioned them to yield a Scanty produce- another cause was the fall in prices- The two principal grains fine and coarse paddy having in fusly 1250 been commuted respectively at Rupees 18-"-" and 15-8-" per Poolly which in fusly 1251 the commutation prices were 15-"-" and 12-"-"

68- The reason of the decrease in the Toomalatal poor Talook was the relinquishment of dry lands which has become unproductive, and on account of Magany land left uncultivated in the Village of Murpoor from the bank of the Supplying channel to the tank having

having burst at the season of cultivation and no supplies having been received after the the damage had been repaired.-

69 In Proceedings on the settlement of Woodiagherry for fusly 1250 the Board remark (Para 6) that they presume that in the attention of the Mooloom rates prevailing under the Jaghcerdars management to that obtaining in the Government Talook, the length of time the Ryots had cultivated their lands under the former was enquired into, that due notice of the intended change was given at the commencement of the season, and express themselves to judge of the effect of the change as the comparative relation between the old and new rates of assessment had not been given.-

70. If the Board will refer to my report of the 12th April 1841 they will find particular information of the Jaghcerdar's Mooloom rates, as also of the rates in the Government Talooks which it was proposed to substitute for them.-

71. In my report on Woodiagherry

for

for fusly 1250 I particularly stated &c &c in the same Para to which the Board's &c remarks refer, that the difference between the old and new rates where the latter exceeded the former, were, for stated reasons, remitted under discretionary, and one of those reasons was that the Ryots were not aware at the commencement of the season that they would be assessed differently to what they had been under the Jagheerdar administration.— The cases were numerous, and no information entitled to sufficient credit was obtainable, as to the periods during which the parties had held the lands under the Jaghirdars rates.— The periods varied from 2 to 6 years, and all circumstances &c were taken into consideration in regulating the remission, some of the rates were almost nominal and whatever the period may have been, I am not of opinion it would have justified the continuance of them

them.— The general result of the change was a net increase of Rupees 2556-4-7 although there was a decrease of 7 Cottahs and odd on the Cultivation.

72. Adverting to Paras 7 and 8 of Minutes of Consultation of the 1st April last, regarding the exemption of half Pollam to the Member of the late Jaghirdar's family. I am glad to be able to bear testimony to their good conduct so far as it has fallen under my observation, I would recommend that the exemption be limited to those immediate relatives of the late Jaghirdar, who &c have been deemed by the Government deserving of allowances for their support, on account of such relationship.—

73. Of the balance of Rupees 72563-6, outstanding at the date of my report on Woodiagherry for fusly 1250, Rupees 1097-7-7 has been since collected, leaving an outstanding balance up to the 15th August last of Rupees 6158-13-11. of this I do not consider more than 600 Rupees recoverable.—

74. The Report on the Roofrooms in the Woodiagherry Taloot, referred to in Para 34 of the Board's Proceedings on fusly 1250, &c will be shortly submitted.—

75. In Para 14 the Board have given

a

a comparison of the average rates of assess-ment in the Woodiagherry, Ravoor, and Calegherry Talooks, and observe that the assessments in the former are much be-low those of the dry and wet lands in either of the latter Talooks, and that con-sidering the advantages Woodiagherry possesses in extensive garden lands over those Talooks, there would appear no rea-son why the valuation of the Government share of the dry and wet produce should be less.

76. The grain assessment of the Woodiagherry lands is much the same as in those of other Talooks. The de-crease in the rates arises, as the Board seem to be aware, from the decrease of the commutation prices. The existence of such differences in rates is of com-mon occurrence every where, as will be seen if similar comparison be made of the rates of the dry and wet, and even garden assessment of the two divisions of Coimbatore, of the two divisions of Arcot, of Coimbatoor compared with Tala-North Arcot, Dindigul or the Ceded Districts even in this District the Singanum Talook adjoins

adjoins that of Calegherry, its average net assess-ment per Goorboo is Rupees 19-1-8 while that of Calegherry is Rupees 23-1-1. On the other side the Caudly Talook adjoins that of Calegherry in which the average dry assess-ment is Rupees 5-9-9 while that of Ca-legherry is Rupees 4-5-1. The average dry assessment in the Curvapully Talooks is Rupees 7-4-10 per Goorboo while in the adjoining Talook of Nellore it is Rupees 4-10-2. The average net assessment in Cotah Talook is Rupees 23-1-11 while in the adjoining Talook of Curvapully it is Rupees 20-13-5 and in that of Nellore Rupees 18-10-11 such differences therefore in the average rates of assessment of Talooks will invariably be found more or less in every district.

77. It remains for me therefore only to notice why new commutation rates were necessary. The Board seems inclined to doubt the necessity of it, from the advantage Woodiagherry possesses over the adjoining Talooks by its extensive Garden lands. The Woodiagherry Ryots may have some advantage over the Ryots of those Talooks but not to any great degree

degree, as they also are Talooks possessing a considerable extent of garden cultivation and good Wells. - It may be a question whether the Woodiagherry Ryots with an equitable assessment on their garden lands, derive any especial profit or advantage from them. - It is true that they have a larger share of the produce in Gardin than in other lands, but the cultivation of them in Woodiagherry more especially as I informed the Board in Para 32 of my Report in July 1249, is very laborious and expensive, they are liable also to the Contingency of outlays - sometimes large outlays for repair, but even supposing, as the Board imagine, that they have advantages by their garden cultivation it appears to me opposed to the essential principle of fixing a field assessment, to allow the advantage derived from one kind of cultivation to influence the determination of the money assessment on other Kinds of lands. It is to be remembered also that it is not every Ryot in the Village who has Garden cultivation so far from it none but Substantial Ryots can undertake it on their own means

78. We profess so far as I understand it, to proceed

proceed on the principle of fixing a fair equivalent in money for the estimated produce of the land, and it has been usual in carrying through this part of the process of fixing a field assessment to be guided by the prices of past years. - This was the plan adopted in the Woodiagherry assessment. - The average of 5 years was assumed, a sufficient period to allow of forming a tolerable satisfactory conclusion of the market prices of the several Grains, and more especially as the assessment was not permanent. - On the Chingleput Survey by Mr. Smalley which was intended to be permanent, the commutation prices were I believe fixed on an average of only 3 years. The commutation prices in the Government Talooks were fixed 40 years ago, and were little applicable, most especially the dry grain prices, to the present time and state of things. - The most ample evidence is afforded in the several reports forwarded for some years past to the Board, of the injurious operation on the interest of the Ryots of the present commutation prices in the Government Talooks. - The great depreciation in the value of all descriptions of the staple grains since the assumption of the Country occasioned by the entire cessation in later years of Military operations the encouragement and extension of commerce, and the scrupulous care with which the British Government has refrained from any interference with the grain Markets, is universally

universally felt and acknowledged. One of the Talooks, Calegherry, although surveyed by Mr. Smalley, is notoriously over assessed, in part arising from its commutation prices. The condition of the Woodiagherry Ryots has been, in my former reports, represented to the Board. They were mostly in a state of abject poverty when the Jughire was resumed by Government. Under these circumstances, I hope the Board will feel satisfied, that the only safe principle to proceed upon in commuting their produce into money was to adopt the five years average of the prices of grains produced in the Talook, and not to adopt the prices prevailing in the other Government Talooks, confessedly to high, and which if applied to Woodiagherry would have shewn a better average rate per Gorroo, but I fear a greatly diminished future cultivation and Revenue. The accounts of two Villages called for by the Board are herewith transmitted.

79. The attention of the Board and the Government seems to have been attracted

attracted by the progressive relinquishment of dry lands in the Principal, and the increased occupancy of them in the Sub Division. The remark is founded on the occupancy of dry lands in the preceeding 5 years Viz. from fusly 1247 to 1251. It is true that the accounts for this period bear out the Board's remark, but taking a longer period it will be found that, generally, there has been a progressive increase in the extent of dry land occupied in the Principal Division, while in the Sub Division it has been quite the reverse. This may be seen from the Marginal Statement which exhibits the extent of dry land occupied during the last 12 years. The annual decrease in the dry land occupied since fusly 1247 in the Principal Division is attributable to various causes. First a greater freedom than was formerly enjoyed in the relinquishment of

Fusly	Principal Division	Sub Division
	Coorloos	Coorloos
1240	22751	49813
1241	22801	49707
1243	22647	50413
1243	20304	40185
1244	24921	41230
1245	30060	42013
1246	30133	42310
1247	31260	42006
1248	29743	42734
1249	29249	44863
1250	28795	45693
1251	27985	46733

of lands, not sufficiently productive to repay the trouble and expence of their cultivation, 2ndly the condition of the Ryots of the dry Salooks, who are not in such good circumstances as those of the Sub Division, and their lands generally are of an inferior description to those of the Sub Division.- Another principal reason of the decrease is that of a large extent of Cowle land occupied in Fuslies 1244 and 1245 having been relinquished when it became liable to full assessment. It is also to be remembered that most of the Salooks of the Principal Division are wet, while those of the Sub Division are dry, that it is consequently more liable to an inundation by which the lands on the banks of rivers and channels are annually, to some extent, washed away and rendered unfit for cultivation, that there is moreover a strong leaning in the Ryots of wet Salooks, to relinquish dry for wet cultivation, while in dry Salooks they have seldom an option, and if they take up more land it must be dry land.- The extent of

of wet land occupied in the Principal Division in Fusly 1247 was 35,880 Gorjaus, in Fusly 1251 Gorjaus 37,482.-

80- The Board and the Government have adverted to the subject of my promised report on the Shrotriums of this District. I have already given the assurance that I am fully alive to the importance of the subject, and it has not in any degree been lost sight of- but I beg the Board to consider the nature of this report, and they will, I think, be satisfied that with the press of the ordinary business of the District, it is no easy task to furnish it.- When I first promised it, I stated that it would be necessary to go back into their history, with the view of ascertaining the validity of present titles, and the difficulty of this single point of enquiry may be judged of by the fact of most of them being Grants long antecedent to the Assumption of the Country.- This was but one point of enquiry, another, and equally important one, was in respect to an adjustment of their Beyrij, to their actual present value.-

The chief difficulty lies in obtaining the necessary materials for such a

Nellore, Principal Collector

S.G.B.

Collr's 7th October 1843 E. E. & Co's Signed J. V. Stonhouse
Pl Collr

Fort St. George 16th October 1843

To,

J. V. Stonhouse Esqre

Principal Collector of

Nellore.

Sir,

Para 1. I have the honor to transmit herewith the usual accounts, numbered from 1 to 5, connected with the Settlement of the Subordinate Division for Fusly 1252. / 1842/43

Number of Villages & Hamlets.

2. There was no change in the number of Villages and Hamlets which continued the same as in the previous Fusly, Viz.t 235 of the former, and 191 of the latter.

Season & Crops

3 The season commenced exceedingly unfavorably. In the months of May, June, and July the period for sowing the first crop of the year and when heavy showers are looked for, but little rain in some tracts and in parts no rain at all fell, and it was therefore only in certain spots favorably situated for collecting and retaining moisture that the first crop (Ponasa) was cultivated. In

Fort St. George 16th October 1843.

the Chendalore Talook there was not sufficient rain to allow of the land being ploughed and consequently although in favorable and even ordinary Seasons, a considerable extent of land is usually sown during the above Months no cultivation could this year be carried on. In Buddapoody the extent of this Species of cultivation is always very limited. Fortunately above the middle of August a very seasonable fall of rain took place which was very generally taken advantage of, and the Ryots were enabled to sow the Second series of crops to a greater extent than usual. Of these the Jonna, the principal crop of the series and one of the principal Crops of the year in the three Northern Talooks, yielded, notwithstanding there had been no opportunity to prepare the soil previous to sowing an unusually abundant return. The Aurcoga Pauggy and Varry sown in the metta land yielded, on the whole about three fourths of a full crop. The crops of Lamp oil Seeds were a good deal injured by the ravages of insects as were,

to

to some degree, those of the various Kinds of Pulse which were, as well as the Oil seed plants, further injured by, as regards such crops, unseasonable rains late in the season - advantage was taken of the rain in August and subsequent showers to prepare the ground for the 3d series of crops which were cultivated to the full extent. In the three Northern Talooks the Variega early sown suffered some damage, from rain late in the season, the same rain however brought to maturity, crops of similar grain later put in the ground which yielded a full return. In the two remaining Talooks the fields sown with the above species of grain produced very well, but the out turn of the Pyra Jonna was less favorable as the crop was damaged by rain at the end of December and January. The crops of horse gram suffered much from the ravages of insects. The aggregate quantity of rain which fell in the Fusly under review

was so limited that the cultivation of the wet land was seriously impeded, none of the Tanks received any thing like a full supply of water and some hardly sufficient to allow of any cultivation at all. the cultivation was generally carried on as far as the extent of Water in the Tanks would admit. In a few Villages Guddavary was sown early in the season in the hope that water might at a later period be received and the crop brought to maturity, but these hopes were in some instances disappointed. - The crops of this species of grain which were brought to maturity produced plentifully as was the case with most of the wet cultivation of the year, except the later crops in the Buddapoody Talook which were attacked by insects and did not generally yield a very good return. The season may in a word be described as regards the cultivation of wet lands as very unfavorable and as regards dry lands, as favorable, only for the cultivation of the two

latter

11665

Fort St George 16th October 1843.

Latter series of crops.

Prices

4. With but one or two exceptions and those in grain forming but a very small portion of the produce of the year in this Division the price of all grain was, I much regret to say, even lower than in the previous Fusly - I pointed

Paras 4

out in my report for Fusly 1251 / 1841-42 how severely the great fall in price of our produce affected the cultivating class and the experience of the past year has only tended to confirm what I then stated - In the annexed Statement is shewn the average price of the four principal dry grains grown in the four Northern Talooks for the last five years as compared with the price at which the Government share of the produce of the land was commuted to a money rent.

Grain

11666.

Fort St George 16th October 1843.

No	Grain	Fusly 1248	Fusly 1249	Fusly 1250	Fusly 1251	Fusly 1252	
	Commutation Price	30 Rs 6 As per Candy					
1	Jonnalloo	30 " "	6 5	22 10 10	19 13 5	15 4 6	12 15 "
2	Cudloo	30 " "	17 5 9	13 7 8	13 " "	9 1 3	8 " 8
3	Nungalloo	30 " "	22 9 1	17 13 5	16 2 1	12 2 7	10 13 7
4	Pungalloo	30 " "	24 6 6	19 2 1	16 7 8	13 8 4	11 1 "
	Total	120 " "	94 12 2	73 2 6	64 7 8	49 " 8	42 14 3
	Average of the 4 descriptions of Grain	30 " "	23 11 "	18 4 1/2	16 1 11	12 4 2	10 11 3/4

5. It will at once be seen from the above how serious the fall in price has been of late years, and how very much it has fallen below the commutation price. It is true that the price of grain produced in wet lands is not so much below the rate at which the Government share was converted into money Viz. 20 Rupees a Candy, but it is only in one Talook (Beddapoody) of the sub Division that there is any large extent of wet cultivation and consequently the Ryots in the 4 Northern Talooks suffer more from the lowness of price perhaps, than those in any other part of the District. Fortunately as I have before observed the produce of some of the principal crops in the above named Talooks was abundant had it been otherwise it would I am satisfied have been impossible, judging from the great difficulty that has been experienced in making the collections ~~in the Fasly which has~~ to have realized a great portion of the Demand, I am aware that

that when the fluctuations in the grain market are confined within moderate limits it is fair to conclude that what the Ryot loses by low prices in one year he recovers by high prices in another, but it unfortunately happens that the price of grain generally is hardly ever above the commutation price, seldom equals it, and is generally very much below it. Again although the produce may be abundant yet if the former cannot find a purchaser at a fair price or as was actually the case this year, can find nobody to take the produce of his lands at any price, he is I respectfully submit in hardly a better position, I might even say it in a worse, than if his produce was deficient.

Dittum 6. The Dittums for the Fasly under review in the Talooks of Enamanamellore and Angole and a few Villages of Beddapoody were framed under my own Superintendance. In the other Talooks they were made by the Tahsildars. The Statement A shews the extent of lands of all descriptions taken up for cultivation. The very unfavorable commencement of the season added to the low prices

prices discouraged the more substantial Ryots from extending their cultivation and in many instances the season compelled the poorer to relinquish a portion of their farms, being unable from want of sufficient stocks to bring all their land under cultivation within the limited time the peculiar nature of the season only admitted of. I felt I was only following the repeated orders of the Board of Revenue and the dictates of a sound policy in not pressing the occupation or retention of land where the inability to extend or retain either from the above causes or from poverty was apparent. Lands which had been rendered unfit for cultivation were also deducted but in several of such cases other lands were taken in lieu. These remarks are necessary to account for the falling off in the quantity of land taken up for cultivation.

7. It will be observed that 26 and odd Gyrtoos of Mooloom cultivation, have been relinquished in the Cangole Talook, of this about 12 Gyrtoos assessed at 25 Rs 13 As 8 was in the single Village of Nedoomaulloor. These lands had been for many years uncultivated the sources of irrigation having been destroyed, past repair, and the lands themselves having become impoverished and unfit for cultivation. These lands had been usually included in the

Fasly 1261 / 1851-2

the Bittum and the assessment collected. The Ryots brought the hardship of this to my notice last settlement but I did not feel I had obtained a sufficient knowledge of the facts of the case to authorize my departing from the practise that had hitherto been in force. This year however the case was different I had ascertained the Ryots were in a very impoverished condition and had great difficulty in paying even the assist of the lands they did cultivate. they positively refused to sign the Bittum unless these Gardens were excluded and being strongly impressed with the justice of their cases I after having taken measures to ascertain beyond a doubt that the lands could not be cultivated, permitted their exclusion from the Bittum. I confidently hope that in a very few seasons the policy, setting aside for the moment the justice of the measure, will be abundantly apparent by the return of the Village to it's former prosperous condition. The reasons for the relinquishment of the remaining Mooloom lands are much the same as in the Village abovementioned but as the extent in each Village is trifling it does not seem necessary to go into further detail. In some cases the land was of necessity relinquished in consequence of the Ryot having no bullocks or means of procuring any to raise the water for irrigating the land.

Cultivation and Waste

8. The annexed Statement marked B shews the extent of cultivation

Fort St. George 16th October 1843.

cultivation and Waste on the whole Bittum of the year. The extent of dry land left waste exceeds by 700 Goontoos and odd, the quantity left fallow in the preceding Fusly, but is about the same as was left waste in Fusly $\frac{1250}{1840-1}$ — The Bittum it is true is less but the season of Fusly $\frac{1250}{1840-1}$ was very favorable for the early cultivation, the reverse being as has already been shewn, the case in the Fusly under review is one of the main causes of a larger amount of land having been left waste in the present year — With certain exceptions to be alluded to in a subsequent Para of this report the Shist of the dry waste was included in the Jummahbundy.

9. My remarks on the state of the season will have prepared you to find a great falling in the cultivation of wet lands and I need not repeat what I have already stated. In some cases where the Ryots had failed from neglect in cultivating to the full extent of the available means of irrigation the shist of the land so left waste

was

Fort St. George 16th October 1843.

was or has hitherto been the custom added to the Demand. The extent so included in the Summahbundy was 25-45. $55\frac{3}{40}$ Goontoos assessed at Rupees 630-11-6. The remainder of the waste was deducted from the Settlement in accordance with the condition on which the land was occupied for Cultivation.

10. The wells of many of the Mooloom Gardens in this Division have become ruined and the Ryots instead of repairing them have contented themselves with raising a dry Crop of Suzza. The present season not admitting of this description of Cultivation being carried on a much larger extent of Mooloom land was necessarily left fallow. The Assessment on these waste gardens was with the exceptions to be noticed here after included in the Jummahbundy. In a few cases where the fault was not the Ryots I suspended for the present the Collection of the Demand; but in cases where the Cultivation had been neglected or where

the

the Ryots had the means and had neglected to repair their wells, I did not consider any indulgence was called for.

11. I need hardly I hope say that every possible measure was adopted by me throughout the season both in personal Communication, and through the Tahsildars and other Talook Servants, to induce the Ryots to carry on the Cultivation of all descriptions of land to the utmost extent, the Season and their means would admit of; and the deficiency as Compared with the previous year shewn by the Statement under remark has arisen entirely from Circumstances over which it was impossible to exercise any control.

Mode of Settlement.

12 The mode of Settlement was the same, as in previous fasles. Of the 238 Villages, Seventy nine were Settled according to Mr. Travers' Turrums and in one hundred and fifty Six the established remissions or additions to the turrums bearing that Gentleman's name were made. These last are better known, perhaps, by the term that

that has hitherto been used of the Mucta Villages.

Results. 13. A Statement shewing the total results of the Settlement in money for the fasly under review as Compared with the preceding year is annexed, the deductions it was found necessary to make in each Fasly are exhibited in the same tables.

14. From the above, it will be seen, that the Gross Assessment on the land occupied for Cultivation amounted to

to

11677

Fort St. George 16th. October 1843.

to Rupees 4,07,720 11 5 from which de-
ductions to the amount of 69,109 8 1 were
necessary, leaving as net land Revenue a
Rupees 338,611 6 4 or Rupees 48,129 5 9.
below the Settlement of the previous Fusly-
15- The causes which led to a
diminution in the extent of land taken
up for Cultivation have already been de-
tailed, and the same Causes operated to
reduce the extent of land Cultivated after
the formation of the Dittam. The means of
irrigation having been more limitted in the
Fusly under reference, there was necessarily a
diminution of revenue under the head of
Puruel Pastee or the enhanced Assessment
imposed, when lands assessed at the lower
rate is Cultivated with the more valuable
Crops, or two Crops raised on land As-
sessed for but one Crop.

Remissions Dry waste.

16 The remission on account
of Dry land left waste is less than
in the previous year, Certain lands
the Sheist of which was deducted at the
Settlement in Fusly 1251/1841/2 were this year
being unfit for Cultivation deducted from
the Dittam at the Commencement of
the

the year and therefore deductions were not
necessary at the Settlement. The reasons
for the remissions granted on the present
occasion are similar to those given in Para 12
of my Report for Fusly 1251/1841/2. I may men-
tion that had the Dittam itself not been
reduced, much larger deductions from the
Settlement of the Assessment on dry land
unavoidably left waste, would have
been imperatively necessary.

Wet waste.

17- The remissions granted on
account of wet lands left waste for
want of water amounted, it will be
observed, to Rupees 65,229-5-8. In ex-
planation of the necessity for which
large deductions, I beg to refer to my
remarks on the state of the Season.

Moolom waste.

18. The deductions on account
of Mooloom land left waste, exceeded
those made in the Fusly preceding,
by Rupees 215-1-8. Certain Gardens under
the irrigation of Tanks could not be
Cultivated this Season, there not being
sufficient water the Assessment on such
lands was therefore deducted. The
extent which according to the
practice

practice hitherto in force it was necessary to deduct in the Village of Pandarty and Alloor was also some-what greater in the fusly under review-

Jareb Waste 19- The extent of remission on account of Jareb waste was much the same as in fusly 1251 / 1241/2 The greater portion was deducted under the same circumstances as the Moolom alluded to in the latter part of the preceding paragraph.

20- On the subject of these annual deduction the Board of Revenue have animadverted in Para 11 of their Proceedings for fusly 1251 / 1843/2 The Dittum is made early in the year when it is impossible to say to what extent the season and other circumstances affecting this branch of Cultivation will admit of the Cultivation being Carried on. As the best mode therefore in which the wishes of the Board can be met I would suggest that these Moolom and Jareb lands be not entered in the Dittum at all. The extent of Cultivation of Course to be included annually in the Beriz at the time of Settlement you are perhaps aware that in consequence of an annual Change in the Spots Cultivated, the Dittum of this species of Cultivation

Cultivation in those two Villages is not an individual Dittum but the total extent of land is added to the Dittum account of each Village and the Cultivation is Carried on in various small portions by the poorer inhabitants of these populous Villages-

Remission on withered Wet Crops- 21- The amount of remission on account of wet lands on which the Crops withered, was nearly the same as in the previous Fusly and was principally the Assessment on lands sown early in the year in the hope that the Tanks would receive a sufficient supply to enable the Ryots to bring the Crops to maturity, But not having for the rain in January the amount to be deducted on account of withered Crops sown later in the season would have been very Considerable-

Vundra lands- 22- The season did not hold out any encouragement to Ryots to take up new land on Vundra Cowl during the present fusly- The Amount of remission demandable on account of land taken up in previous fusles was according to the terms of bowle less in the fusly under review, and there was therefore a decrease of Rupees 723-3 in the Amount of remissions under this head.

Pandaravaty 23- The season did not admit

admit of the Carao Cultivation in the Village of Caraidoo in the Buddapoody Talook being carried on to the usual ecstent conveguently the remissions under the head of Pauley vasy which it has been usual to grant in this Village on the above species of Cultivation fell below those allowed in Fusly 1251. 1841/2

24. The remaining small items of deduction do not seem to require remark.

Ready Money Collections

25. In the items of ready money collections there was a small increase in the Poollary sales of pasture land. A more limited Cultivation of waste land ensued to a deduction in the amount to be realized under the head of Enam Badigas. The same cause as in the previous fusly operated to produce same increase under the head of Chayrot Mucta, and a larger quantity of firewood having been escorted an increase under that head also resulted. Certain lands held on at a favorable rate of assessment having in consequence of the season been this year left uncultivated the amount realized under the head of Chantoor Chougum was less in the Fusly under review.

J.

Poollary.

26. I received a copy of the Proceedings of the Board of Revenue regarding the Poollary Revenue in this District a short time previous to commencing Settlement, and in Communication with you the capitation System was at once abrogated. In the Talook of Buddapoody where the old mucta System had not been in force, a gross amount was determined with reference to the number of Cattle at present paying tax and the Collections for the last five years and apportioned by the Ryots on themselves. In the 4 Northern Talooks the instructions contained in your Memorandum of the 15th. March last were conformed to. In 49 Villages and those principally in the Chendalore Talook the rate per Gorroo fixed by Mr. Travers on the Poollary waste was adopted and applied to all waste land held by the Ryots for grazing. The ecstent of waste being however in some cases too large, to admit of the whole waste

waste land of the Village being held and paid for by the resident Ryots. a sufficient extent was made over to them, and the remainder reserved for separate sale as pasture. In no case was any rate fixed upon the unoccupied arable Amount lands, or lands excluded from the Goodicut. Minaha lands, in the remaining 132 Villages of the Northern Talooks, where the rate fixed by Mr. Travers could not from the small quantity of Poollary waste, be applied without a considerable loss of Revenue, or where the Ryots refused to abide by it a gross amount was fixed in each Village in the same manner as in the Buddaiyoody Talook, leaving the Ryots to apportion the

Amount

Amount among themselves - it being however distinctly explained to them that the Arrangement was allowed for this year Subject to such final orders as the Board of Revenue might see fit to pass. The subjoined Statement shews the Amount of the present Mucta, Compared with that in Fusly 1240/1830-1 the last year of the former Mucta System, and the average of the last 5 years of Capitation. —

27. It occurred to me in the course of the settlement as possible, that you intended that the Ryots of such Villages in the Northern Talooks, as preserved a Mustah on the Total number of Cattle according to the plan laid down by the Board for the Principal Division should give up the grazing land held by them individually to the whole Cattle of the Village. It is right therefore I should state that this has not been done, nor is it practicable in inducing the Ryots willingly to agree to such an arrangement; they look upon their waste grazing lands as part of their farm, almost as much as the lands they actually Cultivate, and are even more averse to relinquishing them. In arranging among themselves the amount to be paid by each Ryot in some Villages the extent of land held by them formed the data; in others, the number of Cattle in some, both the land and the Cattle were

were considered. If permitted to give an opinion, I should say that the fairest and best way is to fix in Communication with the Ryots, certain rates per Ganlee with reference to the productive powers of the Soil, and the aggregate sum already fixed to be paid by the Village, and Assess each Ryot according to the extent of waste held by him. To carry out this System however, it is I think necessary that the Amount lands should be included. In many Villages the extent of Poollary waste, and land given by Mr. Travers with the view of being ultimately brought under Cultivation, and which Ryots have ever since retained, is owing to great portions of such lands having been brought under Cultivation, and the lands, originally held for Cultivation, retained for pasture, very limited. The Amount lands are generally in possession of the Ryots in the same way as the Poollary waste lands, and cannot in justice to the other Ryots be permitted to be held without, or at a lower Assessment. It is already

already clearly understood that in the event of any Ryot proposing to cultivate waste land of whatever discription, the occupying Ryot must either pay the full Assist himself or relinquish it, and I do not think applying a rate to the Amount lands when held for pasture, is, with ordinary vigilance, likely to interfere with their cultivation in a greater degree than is the Case at present, where however the Amount lands are very expensive, as Compared with the Poollary revenue and size of the Village, it is clearly advisable that such portions as are not held by the Ryots should be separately sold as Cunchas. I wish the remarks I have here made to be therefore considered as applying to Villages in which the extent of Poollary land is small, and the Amount lands, as compared to the Cultivation and Revenue of the Village, not unusually large. In some Villages in the Enamaramellore and Congole Talooks the extent of waste of whatever description is very limited. It was one of the great

Complaints

Fort St. George 16th. October 1843.

complaints against the Capitation system, that the Ryots had to pay according to the number of their Cattle, and not according to the extent of land available for Grazing - I would suggest therefore that the sanction of the Board of Revenue should be solicited for reducing some what the Poollary in Villages situated in the position above noticed; no loss of Revenue would result, for the Villages in which the extent of waste is larger, might fairly pay a little more - I have used the plural rates above, being of opinion that there is reason in the argument, which has frequently been used by the Ryots when discussing the question, that in most Villages the waste lands available for Grazing are by no means all of equal value, and that to apply the same rate to the good and bad lands is not fair - The Accounts shew that but one rate, usually prevailed in each Village during the former Mirasi System

Fort St. George 16th. October 1843.

System, but I have reason to believe the Ryots often made a different arrangement among themselves.

Money Settlement

28. The two Statements inserted below show the Amount of the Money Settlement of each Talook and the Deviz of each Talook of Fusly 1252 / 1842/3 as Compared with that immediately preceding.

34 In Chendalore Talook the decrease was in the large Villages of Chirala and Paudilla pully where the Tax is annually assessed- From the great falling off within the last two or three years in the trade in coloured cloths, the profits of the weavers have materially diminished and they are not in a position to pay the same amount of tax as when their trade was in a flourishing condition- Some to have altogether given up their looms and are consequently no longer liable to tax- Of the Moturpha Revenue as shewn in the above

above statement a sum of Rupees 11,506—7—11- was realized up to the 15th of September- Of the remaining balance 5/— 8 a/c 6- is still in course of realization from the Cottapatam Merchants- The sum due by them including the usual Motturpha for Fusly 1252, 1842/43 was Rupees 717—2—10- I explained to the Merchants while at Cottapatam that the Board of Revenue, had determined that the increased demand against them should be enforced and endeavoured to persuade them to liquidate it without further discussion but to this they would not consent and I was consequently obliged to proceed against them according to the Regulations, a compliance with the forms of which has caused some delay in bringing the amount due to account- Of the remaining balance a portion is due by the Ongole butchers and some others the question of

*See orders of Board of Revenue dated 30th January 1843, on Minutes of Consultation dated 17th January 1843

of whose liability to the tax has not yet been finally determined on, and on which subject I propose addressing you as soon as I have gleaned all the information procurable in a separate communication- Of the remaining balance a portion I hope will soon be brought to account, the rest is due by weavers and others who from adventitious circumstances have become too poor to pay the sum assessed on them-

35. Of the balance on account of Land Revenue remaining outstanding at the date of closing the accounts for my Report for Fusly 1251 1841/42, a sum of Rupees 1578-12-8- has since been collected leaving a balance still due of Rupees 22,366—3—11- I do not think present circumstances will

Balance Fusly 1251 1841/42,

To

The Chief Secretary,

I will be obliged, accordingly in the Pandesty and Dooragaruzepatam Division on the former it is about 10 Rs. 1/0 and may be considered as the ordinary Peculiation of the Year Other Dooragaruzepatam Division the Collector has given orders for the Collector to Estapully and Chief Assistant to Collector Tadah and Krishnapatam Collectorate and Chief Assistant to Collector Pallakolla and Collector Tadah the Collector of Nellore to the Collector of Nellore

I have the honor to be
Sir
Your most obedient humble Servant
[illegible]
Secretary to Government

Sks

The decrease in the Ceded Division is no doubt mainly attributable to the earth Salt pro=
=duced and sold for home consumption in the Ceded Districts mixed up with a proportion of the Coast Salts It is said to be exposed there for sale at 40 Seers for a quarter Rupee, while the price at which the Coast Salt is pur=
=chased at the Cotaurs is 12 Seers for the Quarter Rupee. In my Reports on Fusslies 1244 and 1245 I noticed the extensive manufacture of earth Salt in Cuddapah and the Board would appear to have brought the matter to the notice of the Collector of that District. What took place further I am not informed. but I infer that some efficient measures were adopted by the Collector to put down the practice, for I have had no complaint of this illicit manufacture till this year. It seems now to have revived and to require again the particular attention of the Collector of that District.

8 The Board will observe a very large Decrease in the Sales of the Jadah Division. The Revenue has been subject to great fluctuation during the last five or six years owing to circumstances explained in my several Reports

Reports on the Extra Revenue. In Fusly 1251 there was no Salt for sale at the Chengleput Cotaurs and the Traders resorted in consequence to the Jadah Division of this District where fortunately I was able to meet all their wants. This year matters have returned to their for=
=mer State. Salt has been selling as usual at the Chengleput Cottars and the Traders who usu=
=ally frequent those Cottars have made their purchases of Salt there instead of in this Dis=
=trict. I think it deserving of the Boards' con=
=sideration whether it would not be expedient to abolish the Cottaur of Soonapagontah in the Chingleput District, for so contiguous as it is to the Cottaurs of this District it holds out a great inducement to the native Servants with the view of inducing the Traders to give them the preference, and thereby increasing the sales of their own Cotaur to give over-measurement by which the Government is greatly defrauded. Soonnapoogonta is within 2 Cos of Pavapoorum one of the Sub Cottaurs of the Jadah Division and not more than 15 Miles from Jada itself.

9 The quantity and value of Salt exported by Sea in Fuslies 1251 and 1252 are shewn below exhibiting an increase of Bengal Maunds 86,305 or Rupees 22377-3-11 in the Fusly under review.-

Ports

14716

Fort St. George 16th October 1843.

10 There is an increase in the Extra Collections of Rupees 1,331—12— arising in the Salt Increase recoveries and refunds of Salt Manufacturers' share on account of the Manufacture in the Pauderty Cottaur of an inferior description of Salt. There were no refunds on this account in Fusly 1251.

11 The total Salt charges in Fusly 1252 amounted to Rupees 12,952—11—5.

In Fusly 1251		8,346	2 9
Increase in Fusly 1252		4,606	8 8

Quantity received into Store.	Md.	M	M
Fusly 1251	5,357	321	"
" 1252	9,855	370	"
Increase	4,498	49	"

This increase is owing to about double the Quantity of Salt having been received into Store raising proportionally the amount paid for manufacturers' share. It was also in part owing to an increased amount of Shipping Charges on account of the increased exportation of Salt to Chittagong and Calcutta.

The actual net Revenue from Salt in Fusly 1251 was Rupees 4,48,426—8—3

In Fusly 1252		3,89,001	4 4
Decrease in Fusly 1252		59,425	3 11

Fort St. George 16th October 1843

14 The Chief Increase arose in the Inland Duty on Tobacco and Ghee from there having been a greater demand for these articles. There is a little increase in the Duty on piece Goods owing to the experimental manufacture this year by a Native Merchant at Madras of a particular description of Cloth formerly woven in this District but for some years past entirely discontinued.

15 The amount of Revenue given up under the operation of the Rule permitting exemption from payment of duty of the Cloths of Ryots who follow no other occupation than Cultivation and intended for their own use and woven from Cotton produced on their own lands was in Fusly 1252 Rupees 62-13-8 being less than that of Fusly 1251 by Rupees 77-5-10.

16 Cloths woven by Weavers for their private use have as usual been exempted from Duty, the amount thereby given up in Fusly 1252 was Rupees 658-15-8 exceeding the amount on the same account in the previous Fusly by Rupees 79-4-9.

The

14723

Fort St. George 16th October 1843.

The Increase in the exports occurred principally in the articles of Horsegram, Green Gram, Red pulse, Firewood and Coriander Seed in consequence of there having been a greater demand for those articles.-

24 The increase in the Imports arose chiefly the Duty on Co-coanuts imported which had not been the case in the previous year.-

Maturpha 25 The Maturpha Revenue of Fasly 1252 Compared with that of the previous Fasly is hereunder exhibited.-

Fasly

Fort St. George 16th October 1843.

Fasly	Increase	Decrease
1252		

14724

	Fasly 1251		Fasly 1252		Increase		Decrease	
Settlements	29954	11	29684	13			270	2
Collections of Current Year	19245	5 3	19020	9 11			225	8 4
Do. of Arrears	384	8 5	818	9	431	1 4		
Contra Collections		3 "		3 "				
Total	19630	8 8	19845	3 8	215	11 4		
Balance	10324	8 11	10158	11 8			165	13 4

There was a Decrease in the Settlement Beriz for Fusly 1252 of Rupees 272-3-2 occasioned chiefly by a decrease in the number of Looms. This in common with all other Districts is so inundated with cheap Europe Cloths, that the cloth trade is almost annihilated and the manufacturing Classes greatly depressed in their circumstances. The trade in one article alone that of Bunder Muttums 20 years back exceeded in annual value two Lacs of Rupees. That trade does not now exist, the Cloths having been supplanted in those Markets by British Goods.

26 Of the Moturpha Beriz &c. there remained uncollected at the close of the Fusly a Sum of Rupees 1658-3-10, of which there has been realized up to the 15th September Rupees 842-8-8, leaving a balance still due of Rupees 815-11-2. Of the amount due from the Principal Division, I think that about 200 Rupees will be realized. As regards the balance outstanding on the Sub Division, the Sub Collector observes in his Report on the Jemma Bundy of Fusly 1252, that a

	Rs. A. P.
Principal Division	268-10-7
Sub Division —	547-1-5
	815-11-2

a sum of Rupees 51-8-6 out of a Demand of Rupees 717-2-2 due by the Cottapatam Merchants is in course of liquidation and of the remaining balance a portion is due by the Angole Natchers and some others, that of the remaining balance a portion will soon be brought to account and that the rest is due by weavers and others who from adventitious circumstances have become too poor to pay the sum assessed on them. Regarding the balances due by these persons for former years I have stated my opinion in my Report on the old balances dated 6th Instant.

27 Of the balance due from the Principal Division for Fusly 1251, at the date of my Report for that Fusly a sum of Rupees 350 was estimated to be recoverable and the sum actually realized was Rupees 472-14-6. Of the balance then due from the Sub Division, a sum of Rupees 142-4-1 also was realized.

Stamps 28 The following is a Comparison of the Stamp Revenue for the two last Fuslies.

Fusly

11427 Fort St. George 16th October 1843.

	Fasly 1251	Fasly 1252	Increase	Decrease
	Rs a p	Rs a p	Rs a p	Rs a p
Sales of Stamp paper	5366 4 "	5028 4 "	" " "	338 " "
Do of Sayer Ramanahs	6981 " "	7331 6 "	350 6 "	" " "
Do of Sea Customs Do	725 5 "	831 12 "	106 7 "	" " "
	13072 9 "	13191 6 "	456 13 "	338 " "
Penalties levied in the Zillah Court in admitting Documents not written in Stamps Paper	912 8 "	785 " "	" " "	127 8 "
Total	13985 1 "	13976 6 "	456 13 "	465 8 "
		Net Decrease		8 11 "

29

The Decrease arises principally in the Sale of Stamp paper at the Zillah Court, and the increase in the Sale of Sayer and Sea Customs Paper, makes no way owing to the same causes which tended to the augmentation in the Land and Sea Customs.

Sundry Small Farms and Licenses.
