No. Diary

At a Meeting Present

John Dent Esqre Senior Member

A. Robertson Esqre Second Member

and

Walter Elliot Esqre Third Member

Thursday 26th October 1843

Minutes of the last Meeting read and approved

Read the following Extract

(1) From the Chief Secy to Government Recommending for the sanction of the Government of India certain Cases of yeomiah proposed to be renewed in the Districts of Guntoor and Bellary and stating with regard to the subsistence yeomiah enjoyed by the late Syud Peer Padsha Saheb Deputy Darogah of Adoni Court would not be justified in recommending its continuance to the son of the deceased who is in the enjoyment of a small income from this Pettah Village

Extract from the Minutes of Consultation Under date the 7th October 1843.

Read the following letters

from the Acting Secretary to the Board of Revenue

Submitting a letter from the Collector of Guntoor recommending that a Rezenah of Rupees 1-11-4 received by Meerabeebee deceased for attending and keeping lights in the Mosque at Datchapally may be continued to Russain beebee her sister in law. (Here enter 28th Augt 1843 No 439)

Submitting a letter from the Collector of Bellary reporting the deaths of several yeomiahdars and stating that if Government should see fit to continue these yeomiahs the Board would recommend that authority may also be granted for the payment of the arrears. (Here enter 28th Augt 1843 No 423)

The

Para 1 The cases Nos. 49 54 and 33 of Register Nº 2 submitted in Paras 2 3 and 5 of the latter communication are similar to those which formed the subject of the correspondence noted in the Margin In the Extract Minutes of Consultation dated the 3rd of May 1842 No 588 the Government in adverting to the object for which these yeomiahs were nominally granted Viz. "the offering up of prayers for the prosperity of the state" expressed their opinion that they could only be viewed as charitable grants for the support of the parties, and although occasionally renewed always liable to resumption or subject to gradual reduction. But on this point the sentiments of the Government of India have not been communicated in their reply to the letter dated 17th January last with which the Extract above quoted was submitted and the yeomiahs have accordingly been continued without any express intimation as to the terms of the grant.

To the Govt of India	dd	13th December 1841	No 1535
From - - - -	Ds	" 24th January 1842	No 10
To - - - - -	Ds	" 17th " 1843	No 44
From - -	Ds	17th February "	No 23

2 The Most Noble the Governor in Council resolves therefore in soliciting the authority of that Government for the renewal of the allowances in the cases noted in the margin to request their instructions whether such grants are to be resumed on the death of the parties to whom they may now be continued.

† Rupees 3-1 per Mensem to Boochunnah eldest son of Pollasasty from 9th June 1842.

Rupees 1-8-6 per Mensem to Seobuk son of Cheturnbuddut from 13th of June 1843.

Rupees 6-7-3 per Mensem to Panchubeebee widow of Cuttamaraz shaun Ally said from 31st October 1841.

3 The sanction of the Government of India will also be requested for the continuance to the undermentioned individuals of the Service yeomiahs referred to in the first and in Para 4 of the second of the communications above recorded.

To Bujanbeebee sister in-law of the late incumbent Meerabeebee Rupees 1-11-4 per Mensem for attending and keeping lights in the Mosque at Datchapally in Guntoor from the date of the yeomiah dars death.

To Goolam Hyder the infant son of Pandoo Shah said Rupees 6-7-3 per Mensem for teaching the Koran in the Jumah Mahajeed at Adoni from the 1st August 1842.

With

15630 Fort St. George 26th October 1843

4 With regard to the subsistence yeomiahs of Rupees 12-14-6 per Mensem rec= =eived by the late Syed Peer Padsha Kadery Durvish of Adoni his Lordship in Council observes that as the renewal of similar grants has been declined in cases of extreme indigence, he would not be justified in recommending its continuance to the son of the deceased, who is stated to be in the enjoyment of a small income from a Shrotriem Village.

(6)

Read the following letter from Acting Secretary to the Board of Revenue. Submitting a correspondence with the Acting Collector of North Arcot the subject of the Dehat enam Village of Aryoor in that District and stating that as the services at the Mosque are no longer required the Board see no necessity for continuing the endowment but if Govt. should see fit to order the enam to be resumed they would propose to consider further what compensation should be granted to the present incumbents. (Recd 5th Octr 1843 No. 459)

15634. Fort St. George 26th October 1843

Before passing final orders on the subject of the foregoing communication the Most Noble the Governor in Council desires to be informed on what grounds the Board of Revenue consider the present incumbents of the Dehat. Enam Village of Aryoor entitled to compensation, for it is observed that the services enjoined by the Grant are no longer necessary, and the party for whose subsistence alone it also provided had died some time ago.

11

From the Agent to the Govr. of Fort St. George at Nunnool

Sir,

Para 1. In answer to your letter of the 2nd Instant received on the 18th I have the honor to inform you that there are not now in Nunnool any petty farms of the objectionable nature therein alluded to.

In the early days of our assumption

15636 Fort St. George 26th October 1843

assumption of this Territory Mr. Blane abolished various
species imposts and taxes, the most important
of which was the Stullabantie (reduced by Mr.
Blane and subsequently abolished by Mr. Bayley)
which I have noticed in my report on the settlement
for fasly 1252, about to be submitted to the Board.

To

E. C. Lovell Esquire
Secretary to the
Board of Revenue
Fort St. George.

14

From the Commr. in charge of Rajahmundry

Sir,

Para 1.

In a late communication
to the Board I took occasion to mention the
excessive floods of the Godavery in the past
season. The 2nd fresh with which this District
was visited commenced on the 28th of August
and did not subside till the 15th of September,
the country within the influence of this tre-
=mendous river being during that period 21-
days flooded. The injury to the banks of the
Streams subsidiary to the Godavery, has been
very great. the banks of the Bhospiah &
Channel have been breached in many
places and every river bank has suffered
more or less - The Woondy Talook has been
much flooded and the Works in it which have
of

Jn.t St. George 26th October 1843

of late engaged the particular attention of the
Civil Engineer have been seriously injured and
with them the Villages they were intended to
benifit- This Talook at any time requires an
efficient Amildar but at such a period when
the Ryots of the Aparah Villages are dishearten'd
by the loss of their early crops and by the injury
done by the floods to their land prepared for
Cultivation more than ordinary exertions and
efficiency must be looked for from the Head
of the Talook or the interests of the Govern=
=ment and the Ryots must suffer-

2

The inefficiency of Appoorow-
Modelly the Amildar of Woondy is a matter
of notoriety throughout the District- He is an
inhabitant of Chingleput and was for some
time employed in the office of the Board as
an English Writer whence he was in 1840 pro=
=moted to the situation of Head of Police and
Amildar of Woondy Talook. His inability to
= carry on the duties of his Talook were too appa=
=rent while I was lately in the neighbourhood,
considerable balances for the past fusly in the
Aparah Villages remain uncollected. my
orders were unattended to and my endeavours
to sent the Villages of the Talook unsupported
by the Amildar, No exertions were made
by

Jn.t St. George 26th October 1843

by him to prevent breaches in the banks
of the rivers or to stop them when made
and so low was the Estimation in which he
was held by the Ryots that the mention of
his name to any of them usually caused a
smile of derision and an expression of the
uselessness of expecting any thing to be done
by him - Under such circumstances the
Board will not be surprised that I consider it
incumbent on me at once to remove Appoo=
=row Moodelly from the office of Amildar
which I have done from the 1st Instant
and I have to request the confirmation of the
Board for this act-

15643 Fort St. George 26th October 1843

Read the following report.

To

C. C. Lovell Esqr
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

(18)

From the Collr of Masulipatam

Reporting the result of the Annual management of the Village of Daravarum Pergunnah of Nedadavole for fuslies 1251 & 1252 and also stating that orders have been issued to effect a settlement for fusly 1253 for such amount of rent that can fairly be obtained under reference to the present condition and capabilities of the Village.

Para 1. With reference to your letter of the 14th August last requesting to be informed of the result of the annual management of the Village of Daravarum the Pergunnah of Nedadavole referred to in the correspondence therein noted, I have the honor to state that the annual settlement of the Village for fuslies 1251 & 1252 Rs. 743 amounted to the sums entered in the Margin as compared with the amount of rent which was cancelled by the late Collector as stated in his letter dated 21st May 1842.

Fusly	Annual settlement Rs. a. p.	Rent amount Rs.
1251	921-9-2	900
1252	851-8-5	1000

2 The settlement of fusly 1252 Rs. 1842 & 43 exhibits a decrease of Rupees 70-9 below that of the preceding year which has arisen inconsequence

Fort St. George 28th October 1843

in consequence of some Payakarce Ryots from the Village of Brammanagoodem situated in the same Estate usually cultivating lands in Daravaram having left it leaving the lands uncultivated. The cause of this is to be traced to the mode of settlement viz. Veesabady or Muctah, or money rents which was introduced by the late Zemindar into the Villages composing the Medadavole Estate. The amount of Sist then fixed on the lands appears disproportionately high with reference to their present capabilities combined with low prices of grain by which a greater portion of the demand nominal as it is, is allowed to remain as a balance, the Collections being made with reference to the actual resources of the Village. The Veesabady demand as fixed proportionately in each field having remained unaltered. The Village of Daravaram after the rent was cancelled by the late Collector has been managed under Veesabady as above described, and not as appears to have been supposed under annamji, or the

Fort St. George 28th October 1843

settlement by a division of produce.

3. The consequence of this was, that of the amount of settlement for fasly 1251 / 1841-42 there remained some balance of which a part is due by the Payakarce Ryots of Brammanagoodem who finding themselves no longer able to pay the Veesabady must have left the Village as above stated.

4 Orders have been issued to the Tahsildar of Ralinghy to effect a settlement for fasly 1253 / 1843-44 for such an amount of rent as can fairly be obtained with reference to the present condition of the Village and its capabilities and the result will be hereafter ascertained.

Order thereon

20-21 Under the circumstances stated in the foregoing application, the Board will overlook the departure from the usual course in sending it direct instead of through the office of the Collector and resolve accordingly that it be forwarded for Submission

ORIGINAL RESOLVED

Fort St. George 26th October 1843

submission through the Channel of the Civil Auditor for the favorable consideration of Government -

Read again letter from the Principal Collector of Nellore dated 18th and entered in Consultation 28th August last -

Ordered that the following letter be sent in reply -

To

The Principal Collector of Nellore

Sir, I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 16th August last and in reference thereto and to the previous correspondence noted in the Margin to communicate to you the following observations -

2 In the letter under acknowledgement you state "there is no question of right to be settled - the right is clearly enough established not solely by the Custom of the District but by written agreements between the Parties" and - "Party refuses to abide by the agreement and you request the Board's opinion as to your competency to interfere to enforce a compliance with such agreement and the Custom of the Country. The Board have no difficulty under the circumstances stated by you in replying in the affirmative and giving it as their opinion that it is perfectly competent for you to interfere in the manner proposed - they would however recommend in all cases of the description referred to that you should refrain from interference except when it may appear to be urgently required -

Signed / C. C. Lovell
Acting Secy

26th Oct. 1843

Fort St. George 26th October 1843

Read the following letter -

To

C. C. Lovell Esquire

Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

23

From the Pr. Collr of Nellore

Para 1

No. 1

Reporting on the balance of land and other sources of Revenue excepting Shrotriums up to Fusly 1248 as they stood at the close of Fusly 1252 and transmitting Eight Statements in regard to them -

I have the honor to transmit herewith a Statement No. 1 exhibiting the balances of land and other sources of Revenue excepting Shrotriums, from fusly 1240 to 1248 both inclusive, as they stood at the close of the fusly just expired 1252 - This Statement has been prepared in the form furnished with the Board's Proceedings of the 18th July 1836 -

2 I have omitted the Shrotrium balances because as I have already intimated to the Board it is my intention to report separately on the subject of the Shrotrium revenues of the District when the outstanding balances on each Shrotrium will come under separate consideration - They are not like Ayen balances as they have accrued chiefly during the periods that the shrotriums have been under the management of the Circar Officers -

3 The Government in Minutes of Consultation dated 28th November 1837 granted authority to write off from the accounts of this District Rupees 5,06,429 - 11 - 6 - on account

15648 Fort St George 26th October 1843

account of Land Revenue, Amanie Shotrums, Stalla Cumnums, Roofsooms and Motuffa - Which formed the assessable balance on these Accounts up to fusly 1239 inclusive as it stood at the close of fusly 1245 - The sum was accordingly written off. The Juvenile report therefore refers to the balances from fusly 1240 to 1248 both inclusive as they stood at the close of fusly 1252 - They are as follows -

	Rs	A	P
Amanie			
Dowle Ejapha	7,36,872	14	8
Sayer	8,710	12	9
Motuffa	87	9	8

Deduct Decrease							1,242	15	10			
Net Increase							56,360	11	6			

Annexure

6. It will be seen that the Talook Accounts exhibit the outstanding balances at Rupees 8,47,586-- while the Demand Collection Balance Statement gives them at Rupees 7,91,225-4-7 the net difference being Rupees 56,360-11-6--

7 I will proceed to explain the reasons of these differences in respect to each item--

Aumanie Rs 1547--11

In the Talook Accounts it is a practice with the Sahsildars to add any surplus incidental Collections to the Demand, whereas in the Demand Collection Balance Statement the Demand remains the same, and the collections only are brought to account as Iyen Beyriz- Also in the Talook accounts certain items of Dowle Ejafa &c have been inadvertently entered both as Demand and the Collections made on that account as Collection under Iyen Beyriz- but these items do not form any part of the Demand exhibited in the Demand Collection Balance Statements the Actual Collections only being credited to Escbea Revenue. There are several other minor discrepances of the same kind observable arising from trifling causes with which it is unnecessary to trouble the Board-

Dowle Izapha Rs 8,710-12-7

8 This item consists of Ayen revenue concealed Cultivation for instance brought to account after the closing of the Jummabundy- The Sahsildars in their accounts add them to the Demand whereas in the Hoozoor Accounts and Demand Collection Balance Statements the Demand after

after having been once fixed cannot be altered and their Collection consequently is merely brought to account as Exctra revenue under Sevaya Jummah.

Moturfa Rs 7,700-15-11-

9 This difference arises from their having executed a practice up to the time of my joining the District of entering in the Demand Collections Balance Statements the Actual Collections only as the Demand and which I discontinued from fusly 1245 and directed as with the land revenue the Jummabundy amount should be in future entered in the Demand- In the Talook Accounts a different system was pursued, and a regular demand entered as per Jummabundy, and the Collections credited thereto, Balances would consequently appear in the Talook Accounts, whereas in the Demand Collections Balance Statements previous to fusly 1244 no balance of Moturfa Revenue appears--

10. Another cause of this difference arises from certain items of Moturfa Revenue settled subsequent to the formation of the Jummabundy being added to the Demand in the Talook Accounts while in the Demand Collection Balance Statements the Demand remained the same and the Collection was carried to the Head of Exctra Revenue. Sums uncollected will thus necessarily appear as a balance in the one set of Accounts and not in the other--

Tuccavy Rs 2--"--"

11 This difference arises from inadvertence in having credited in the Talook accounts 2 Rupees short of the correct sum.

Stalla Cusnoms Roofsooms Rs 29,565-10-10

12 This difference has been occasioned chiefly by the same cause which gave rise to it in the Moturfa as already explained namely that previous to fusly 1244 while the Jummabundy amount was entered in the Talook Accounts as the Demand, in the Demand Collections Balance

Statements

Fort St. George 26th October 1843

Statement the Demand was entered at the Actual Collec-
tions only-

Poligar's Roofsoons
Rs. a. ₰ 13
Bhalasw 6620-11-
Hoobawar 3456-7-11
Chittaiwar 1742-15-10

payable by these Poligars as the Demand in the Demand Col-
=lection Balance Statement and any balance on account of
their Peishcush will appear only in that Statement where-
in the Talook Accounts the whole amount of the Roofsoon
is entered as the Demand, and thus arises the discrepan-
=cy in the Balance Statements of the Talooks to the
Hoozoor. Ibeg to refer to the Statement No 2 which exhibits
more particularly these discrepancies-

14 The following is a fusly war Account of the Aumanie and Dowle Ejafa balances-

On

Fort St. George 26th October 1843

15 On referring to the several Jummabundy Reports of my predecessors and myself it will be observed that at the dates of those reports various portions of the then outstanding Ajen balances were supposed to have been recoverable- They were as follows-

		Rs	a	₰
Fusly	1240	43,961	12	1
	1241	2,11,280	6	"
	1242	24,900	"	"
	1243	19,863	3	10
	1244	"	"	"
	1245	11,000	"	"
	1246	9,000	"	"
	1247	13,000	"	"
	1248	"	"	"
	Total	1,49,005	5	11.

16 The detailed explanation furnished in the several Jummabundy Reports informed the Board of the causes which operated in each year to prevent the realization of the revenue anticipated at the close of the preceding year- The Amount of Ajen revenue actually realized of the then supposed recoverable balances has been Rupees 84,529-3-8-

17 In the period embraced in this report there has been one severe famine-fusly 1242, and a less severe one in fusly 1246- Of the entire land Revenue balance of Rupees 7,45,583-11-5- Rupees 4,99,153-1-9- is outstanding upon the first four years Fusly 1240 to 1243 inclusive- The outstanding balance on the famine year of fusly 1242 alone is Rupees 291,635-11-8. and of the succeeding year Rupees 92,017--6. The balance outstanding on the

Remaining

remaining 5 Fusslies (1244 to 1248) is Rupees 2,46,430-9-8. giving an average of Rupees 49,286-1-11. or Rupees 4-0-8. per % on the average land revenue Beyriz of the District for the same period. These balances are composed of various items and the Collection of them pressed as far as could be without serious and permanent injury to the Ryots. Latterly they have had to contend with prices ruinously low and have experienced great difficulty in disposing of their produce at any price. They comprise portions of the Assessment on Metta lands left uncultivated from adversity of season or other cause, on Maga nie land Mooloom and Jareeb lands left waste from the neglect of the Ryots, on wet lands which have not perished entirely but yielded scarcely any produce, though sufficient to exclude them from remission for Sooktee, and a variety of other cases where according to the principles of the settlement the assessment is imposed on the Ryot, while it is almost out of the question to expect him to pay it. He for instance cultivates a Common Garden crop on Tobacco land, As this is contrary to Rule he is assessed with Tobacco Shist which is about 5½ times more than the value of the produce he has raised. It is needless to occupy the Board's attention with details of which they are as well acquainted as myself. I am of opinion that the only portion of these balances which may be considered

considered recoverable is Rupees 2,136-6-8. a sum of Rupees 27,675-3-1 is due chiefly from Cundregas, Manicums, and Metta Cnams left uncultivated, in some instances from the owners being unable to pay so high a rate of Beydiga in others from not being able to procure Ryots to cultivate them in others again from adversity of season. In all these cases the Beydiga is included in the Ayen Demand. Some of the parties are dead, some have left the Country, others are in a state of destitution. some of the Cundregas are under attachment but little income is derived from them. A very inconsiderable portion if any could be recovered of these balances. I would recommend that they be struck off and the several grants resumed in all cases where the incumbents have left the Country or have died, and that as regards those who remain it should be intimated to them that on their failing henceforth to be punctual in the discharge of the Circar Demands their lands will be at once permanently resumed.

The amount therefore to be written off on account of land revenue aumanie and Dowle Izafa as per Demand Collection Balance Statements, and the Talook Accounts is Rupees 7,43,447-4-9. as hereunder exhibited Fusly war.

18

Fulies

Sayer — 19 This balance is recoverable and is in course of liquidation by Monthly instalments of 4 Rupees in pursuance of the Board's orders — Communicated in Para 8 of their Proceedings on my Extra Revenue Report for fusly 1251.—

Motursa — 20 The Motursa balances up to the close of fusly 1239 were written off— In my report of the 19th December 1838 a detailed explanation was given of the balances of this item of Revenue from fusly 1240 to 1246— The following Statement exhibits the balances outstanding at the date of that report also the subsequent Collections up to the close of fusly 1252 and the present balance up to fusly 1248 inclusive. It will be seen that of the balance stated to be recoverable in that report Viz: Rupees 253-6-5 = Rs. 194-4-11 has been recovered—

21 The following are the particulars of this balance.

Due by the Merchants of Cottapatam 4,161 1 2

All the circumstances connected with this demand against the Cottapatam Merchants were detailed in my Moturfa Report but the subject was not noticed in the Board's Proceedings thereon though subsequently in the Minr of Consr on the settlement of fusly 1250 and the Board's Proceedings annexed thereto it was intimated that the demand should be enforced but I do not understand if the Board's order was intended to be retrospective and to apply to the then outstanding balance or only to the future - Most of these Merchants are wealthy and will able to pay this amount though I do not think it would be fair to compel payment now as it has been left uncollected so long under the Board's " "
orders. I am of opinion that the balance should be written off and have therefore included it under irrecoverable balances -

The next item due by the Butchers of Ongole is a sum of ..... 560 " "

By the Banians of Ramiapatam and Pauderty 4 15 6

By the Banians and Weavers who reside near Ramanjarow's Choultry at Soma-nalapentah ..... 121 6 "

Tuccavy

This balance is outstanding for the

22 following fuslies —

1242 ——— 1213 — 12 — "

1243 ——— 212 — 9 — 3

1247 ——— 18 — 9 — 5

The greater portion is due by Ryots

23 to whom advances were made in fusly 1242 — which turned out to be a year of famine. The recovery of it therefore in that year was out of the question — Rupees 585 — 14 — " is due by dead or absconded Ryots and the remainder are not in circumstances to afford a reasonable expectation of re = covering any portion from them, still I do not think as it was an actual disburse = ment of public Cash that it should be written off at present and have therefore classed it as doubtful. —

Statement No. 4 gives the

Stalla Cumums Roofsooms. 24 particulars of these balances and are exhibited in Abstract below —

Deduct decrease in the Jalook Accounts since Fusly			879 1 9
Net amount to be written off			57,462 2 11

25 The nature of these Roofsoons was explained in my former report on the balances outstanding up to Fusly 1239 dated 26th November 1836 — This sum is irrecoverable for where the Ryots are unable to pay their ayn balances, they must be unable to pay the extra impost on account of

of the resumed privileges of the Stalla — — Cumums

These Roofsoons were explained

Bhalarows Roossoons 26 in my former report dated 26th November 1836.— I have communicated with the Mootealpand Zemindar who declines agreeing to a relenquishment of the whole of these balances, as he has fulfilled his engagement with the Government in the punctual discharge of his Paishcash — — He is however willing to forego the same proportion to his Demand as the Ayn balance in the several Jalooks bears to the ayn Beyrij.— This would amount to Rupees 1330—2—3 leaving a net balance still to be collected of Rupees 5290—8—9.— Statement No 5 which accompanies gives a Fusleewar account of this present balance.— It will be seen that since Fusly 1244 they have been mostly realized and that the larger portion of the balance is due for the

4

For.t St. George 26.th October 1843

4 previous years Viz.t

Fusly 1240	1033	3	4
1241	1410	10	3
1242	1840	12	4
1243	1046	12	7
Total	5,331	6	6

27 I have thought it best for the present to class the balance under this head as doubtful.—

Poortawar Chittaiwar

28 The balances on account of the Roofsooms of these Poligars up to the close of Fusly 1243 were written off under the orders of Government of date 29.th July 1836— The present balance, the details of which will be found in Statements 6 & 7, is due for Fusly 1244 to 1248 inclusive and amount to Rupees 25,466—6—4 all particulars connected with the Poligar's Roofsooms of this District were furnished in my report dated 18.th

For.t St. George 26.th October 1843

18.th April 1838 These Roofsooms are incorporated in the Ryots Puttah with his ayen Shist. and collected together. and the same causes which have rendered them incapable of paying their ayen Shist have prevented their paying their Roofsooms. The system of Poligar Roofsooms requires entire revision and remodelling - The recovery of any of the outstanding balance is hopeless and I have therefore included them under irrecoverable.

+ Statt No.8

29 Some balances appear in the Accounts for Fuslies prior to Fusly 1240 (this) that is to say prior to the period embraced in this report— They are as follows—

	Amount of balance at the date of the report	Subsequent Collection	Balance
Amany	2235 " 4	" "	2,235 " 4
Shrotriums	4021 3 8	664 13 7	3,356 6 1

The

Fort St. George 26th October 1843

30 The aumany balance of Rupees 2235—1—4 was the assessment upon the land found by measurement in excess in the Mustah lands of Alloor in the Talamunchy Talook reported on in my letter under date 8th October 1836. and which was classed as doubtful in the former balance report. There have been no means of since recovering any portion of it, and it may therefore be deemed irrecoverable and I recommend its being written off.

31 The balance of Rupees 3,356—6—1. will be treated of in a separate report on that branch of Revenue and that due on account of Stulla Curnums Roofsooms being due only by Shrotriumdars will be disposed of together with the rest of the Shrotrium balances.

32 The remarks I have already made in regard to the balance of Bhalarow's Roofsooms are equally applicable to those outstanding for fuslies prior to fusly 1240 and the same orders will dispose of both. The proportion which he agrees to relinquish by on account prepared in my Office will be Rupees 385 2—6—3.

33 The following Statement exhibits the balances under each head which I would recommend to be written off

following Re-

port.

Sd/-

15687 Fort St. George 26th October 1843

To,

C. C. Lovell Esqre.

Acting Secretary to the

Board of Revenue

Fort St. George.

25

From the Collr. of Bellary — — — Submitting Report on the Settlement of Land Revue for Fusly 1252. A.D. 1842/43.

Sir,

Para 1. I have the honor to submit my Report on the Settlement of the Land Revenue of the Bellary Division of the ceded Districts for Fusly 1252 A.D. 1842/43 together with the undermentioned Statements.

No. 1. Summah and Kistbundy of Fusly 1252. A.D. 1842/43

" 2. Comparison between the Settlement of Fuslies 1251 A.D. 1841/42 and 1252. 1842/43.

" 3. Abstract of Collections since Fusly 1210 A.D. 1800/1801 compared with the Settlement for Fusly 1252. A.D. 1842/43

" 4. Abstract Comparative Statement of the Collection and Net Settlement for Fusly 1252 A.D. 1842/43 according to the Board's Form of 27th January 1823.

" 5. General Revenue Statement for Fusly 1252. A.D. 1842/43.

" 6. Statement of Gonohee Cultivation for Fusly 1252 A.D. 1842/43 compared with Fusly 1251 A.D. 1841/42

" 7. 8. Registers of Land held on Kayem Cowle and

and Chedaly Cowle.-

No. Comparative Statement of Cowle lands for Fusly 1252.- A.D. 1842/43

"10. Comparative Statement of Enam Cultivation for Fusly 1252.- A.D. 1842/43

"11. General Abstract comparative Statement of the whole Revenue from the Land and from Extra Sources for Fusly 1252.- A.D. 1842/43

"12. Statement of Trees in the Circar Plantations.-

2. The settlement of the Sub Division (consisting of 5 Talooks- namely.- Anantapoor, Pengondah, Rodecondah, Mudugerah and Dhurmaverum) was made by Mr. Pelly the Sub Collector whilst on my own Division comprising 12 Talooks was settled by myself.-

3. The Board are aware that it was noticed in the report on the Settlement of last year that Cholera broke out in the District and that the mortality had not ceased at the date of that Report. I am truly concerned to state that after continuing till the ... mon

Month of October in the present year, it again returned in April and spread universally with the exception of three or Four Talooks. its course has to this date been marked with fatal consequences. I have however to state that agreeably to the Board's desire contained in their Proceedings dated 7th February last,+ Persons have been employed on a Monthly Pay of 7 Rupees each to administer medicines in those Talooks where the disease was not most rife and Medicines with instructions for use have been forwarded to the Talooks by the Medical Officer attached to my Establishment. The total of Persons attacked with this sickness since the last Report is stated at 7,878, of whom the number recovered is 2,876 and of those that fell a sacrifice to its violence is 5002. I am sorry also to state that agricultural Stock likewise perished in considerable numbers in some places in this year.-

+ Para 4.

+ No. 10148.

4. The Season of Fusly 1252 in A.D. 1842/43 respecti

respect also to cultivation was less favorable
1st The want of adequate rain in June
and July for Moongary as well as in
October and November for Wingary has not
only diminished the extent of the Dry
Crop, but caused a decrease in the return
owing to fields which were sown late having
become parched up, moreover the harvest
was so late that the Cotton (a Crop pe-
=culiarly looked to by Cultivators as reimburs-
=ing them for loss in other produce) did
not flourish and this misfortune was
Coupled with another the fall of unsea-
=sonable rain in the Months of April
and May a period during which the Pods
usually open the consequent injury was
considerable 2ndly The occurrence of light showers
frequent in some places, but not capable
of filling Tanks has caused a decrease also
in the Wet cultivation under them, and the
decrease of Tank Revenue in Muddugerak
Taloork alone is so serious as to amount
to Rupees 26,000 when compared as
with

with last Fusly 1251 A.D. 1841/42 a year however far
above the Ordinary level.

5. The Board are aware
that the prices of Grain have been
low for several years. in the year
under report they have been remarke-
=ably so. that I have shewn in
one view in the following abstract
the average rate of the selling
price of Staple Kinds of Grain,
also Cotton during the 5 consecutive
years previous to the Survey
Assessment or from Fusly 1210 A.D. 1800/1801 to
1214 1804/1805 and for the last 20 years
antecedent to the present Fusly as
well as for the 18 years, which re-
main (after deducting the two
years of scarcity therefrom
namely Fusties 1234 A.D. 1824/25 and 1242 A.D. 1832/33 and
then drawing a comparison of
the present with last year.

15696 Fort St. George 26th October 1843.

8. In the foregoing Statement the Lands included in the Puttahs are stated at acres 2209631 assessment Rupees 3208832 - and deductions allowed therefrom, for Land left unsown at acres 229413 Assessment Rupees 205363 leaving as Net Settlement acres 1980218 assessment Rupees 2958469.

	Extent of Land	Assessment
Fusly 1251	2187766.	3247579.
" 1252	2209631.	3208832.
Increase	21865	"
Decrease	"	38747.

In the 1st item there is an increase (above last year) in the extent by acres 21865 resulting from the Ryots having this year taken Red lands lowly assessed, and a decrease in the assessment of Rupees 38747 - arising in the Wet lands (uncultivated) in general, whilst in the last item "Net Settlement" there is a decrease below last year

Fusly 1251	2018666.	3037397.
" 1252	1980218.	2958469
Decrease	38448.	78928.

of acres 38,448 assessed at Rupees 78928. Of this acres 34176 assessment Rupees 45770 is in the Dry land and acres 2116 assessment Rupees 13198 in the Tank lands both owing to insufficiency of rain. The decrease in the Lands under Nullahs and Wells

wells being acres 2,156 assessment Rupees 19,960 arises as net result from certain Tanks within the beds of which are irrigating Nullahs and Wells having received a supply of water this year, and partly by the relinquishment of the holdings of poorer Ryots. It will be observed that in the foregoing Statement the Net Settlement is distinguished under two heads, 1st. Land paying full rent amounting to acres 19,31,298 assessment Rupees 28,70,066. 2d. Land under Cowle being acres 48,920 assessment Rupees 88,403. In the latter head there is a decrease below last year of acres 22,548 assessment Rupees 46,531 - owing to the usual transfer of Cowle expired lands made to the former head and notwithstanding this transfer the decrease of cultivation amounts to acres 15,900 assessment Rupees 32,397.

9. The subjoined is an abstract Statement of the Land Revenue of the District for the Fusly under Report.

Net Revenue	23,38,768	23,08,149	"	30,614

From

Fort St. George 26th October 1843

From the above it will be found that tho' the Revenue for the present Fusly 1252 A.D. 1842/43 has fallen short by Rupees 30,614 a centage of Rupee 15 on the whole of this the decrease in my own Division is but Company's Rupees 13,370, or 12 As. per Cent. whilst (in consequence of the inadequate supply of water in all the Southern Talooks but especially Muddugserah) in the 5 Talooks comprising the Sub Division it is Rupees 17244 or 2 Rs. 14 As. 0 P. per Cent. The decrease in the Muddugserah Talook alone amounts to a real sum of Rupees 20,294 bearing the high centage of Rupees 20—2—0 on the total Revenue of that particular Talook.

10

I now beg to append an abstract of the Statement No. 2 embracing items of every source appertaining to the General head of Land Revenue. In this abstract it

Fort St. George 26th October 1843

it is stated that the decrease in the Settlement constrasted with the last year is Rupees 33,268 and that it has been reduced to Rupees 30,614 by two additional items brought to account this year. Viz. The 1st item is Rupees 2,295 being the Land Revenue collected for Fusly 1252 A.D. 1842/43 in the 4 Villages formerly enjoyed by the deceased Veeroopatch Appah hereditary Devan of the late Poligar of Hurponhully, and reverted to circar under the orders of the Board of Revenue dated 18th July 1842 and the other item is Rupees 359 being the collection of Quit rent (for Fusly 1252 A.D. 1842/43) on grounds on which private Bungalows are situated.

† Vide M. of Cons. dated 11th July 1842.

The

12. The decrease of Revenue is Rupees 196,712 with the exception of Rupees 137 arising in the charges collection, it is composed of three Petty heads. Decrease of cultivation arising from land relinquished in the present year, Rupees 98,976. Decrease of Rent on land still occupied Rupees 91,756, and Decrease of tax on Enam land Rupees 5,843. Of the first (Rupees 98,976) Rupees 47,701 is land relinquished altogether and consequently excluded from the Puttahs as per these particulars.

present, and most of which will be again occupied when the season may prove more favorable. Of this Rupees 42,187 is chiefly the Tank land relinquished for want of water, it is composed of Iyen Inam Rupees 10,267. Jeeva Taxed Rupees 18,421. and Unpaid Taxed Rupees 18,499 and the rest Rupees 9088 arises in the exchange of arable lands for unirrigable tracts. The second Decrease of Rent being Rupees 91,756 a great part of this or Rupees 81,618 is the deduction of Rent on land which tho' comprized in the Puttah and cultivated in last yet was laid waste in the present year. Of the remainder Rupees 10,138 a sum of Rupees 8955 is the remission granted to those Ryots (chiefly of Black land Talooks) whose fields were examined by Tahsildars and ascertained to have yielded no return; whilst the other Rupees 1183. is composed of small items or discretionary abatement allowed to poorer Ryots. Third and lastly of the decrease on Enams (Rs. 5,843) Rupees 1629 is from Quit Rent in Col. 94.

The

17. The total ayacut of the aforesaid 4 Villages Rupees 4,423 includes the Enam land Rupees 903 as decided and left to the enjoyment of the respective holders by the late Principal Collector and stands thus,—

In Fusly 1243.

	Amount of survey Enam	Amount of Jodee Enam	Total	Amount of Jodee
Village Servants—	148	320	468	146
Charitable and Bhatavurty Enams.	311.	124	435	35
Total	459	444	903.	181.

The remaining to the Circar land assessed at Rupees 3,520 being Waste land Rupees 1187 and land down in the present Fusly Rupees 2,333, amounting with Tirwul Castee and Rewaz Castee Rupees 692. to a Gross Revenue of Rupees 3,025. of which the Remissions at the Summahbundy

Summahbundy being Rupees ——— 932.
Caboolate Bumjee ——— 84
Established remission of one fourth ——— 728
Mamool remissions ——— 120

granted to Ryots of a Village whose lands have been saddled with Tirwul Castee. The demand notwithstanding the Established remission of one fourth (which we Commenced to grant to these Villages) has exceeded the Collection usually made by the late Sagheerdar. There remained after the above deductions Rupees 2,093 add Enam Jodee Rupees 191. and Enam Tuffrack Rupees 11. the total Settlement is Rupees 2,295 which as being the adjustment of an arrear of many years standing now finally settled and the Revenue permanently added to the Summah will I trust be satisfactory to the Board.

18. Under the head description of Land the total amount of Cowle land amounts this year to Rupees 88,424. as per the following abstract of the two usual Cowle Registers herewith sent Nos. 7 and 8.—

Statements Nos. 7 and 8.

19. The accompanying Comparative Statement of Cowle Lands No. 9 shews the de-
Statement No. 9 - crease on last year at Rupees 46,544 being the result of a Gross increase of Rupees 9,390 (Rupees 8,789 by old waste newly taken up and Rupees 601 by lands taken up in previous years but not entered in last years Regis-ter) and a Gross decrease Rupees 55,935 the Cowle expired portion transferred to land liable to full rent inclusive of a small sum of diminished Cultivation Rupees 1178. Of the portion (Rupees 54,757) thus transferred a greater part or Rupees 53,522 is the amount of land whose term of Cowle has actually expired, being Rupees 49,286 Kayem Cowle and the residue Chedati (or Progressive Cowle) the chief portion of this Cowle expired land is in two Talooks namely Bellary and Cuddapah. The lands whose Cowle is expired are under examination to facilitate &c. preparation of the particular Statement according to the Boards Form A forwarded in their Proceedings dated 18th March 1841. I shall have the honor to transmit it with the

Regd Cond 49,102.
Ecommt Cowle 184
49,286

the requisite Remarks so soon as it is closed &c.

20. In Paras 20 and 21. of the Proceed-ings under date the 27th February 1843. the Board have expressed their wish to be informed as to what portion of the lands partially cleared or not cleared at all is held under Kayem Cowle, also whether these two items of Land are held by the original Ryots or by others; but the Cowle Report separately transmitted under date the 21st October 1842. would have already given this information.

21. The Board observe in para 22. of their Proceedings on the settlement of Fasly 1251 A.D. 1841/42. a variation in the Provisions of the progressive Cowle in one instance as the remission granted for the whole three successive years from 1249 A.D. 1839/40. to Fasly 1251 A.D. 1841/42. to a particular tract of land amounts to a moiety of the assessment, but on this &c. I have to explain that a tract of land under a Tank in Nonpasully Talook having remained waste for a period of 30 years (deprived of its Cultivators who had absconded) Covered &c. with Jungles of the thorny Trees &c. Called

15716 Fort St. George 26th October 1843.

Called Toomachettoo. Mr. Robertson in July 1241 F.D. 1831/32. resolving to bring a part of it under Cultivation by means of Payakarry Ryots accepted the offer of me and the same rate of Cowle for the last two of the three successive years in consideration of the labourious and expensive work required to restore the land. Subsequently the Ryots extended their proposals to the other part and this is the instance noticed by the Board. The whole extent thus Cultivated and the rent thereon after the Cowle has expired amounts to Cs. acres 18 assessed at Rupees 140. I take this occasion also to state that there is another instance in which the provisions of Cowle would appear to have varied in some degree, that is the method devised in July 1250 to render ruined wells available for Cultivation which has met with success and the quantity of land so Cultivated is entered in the Cowle Register No. 8. and the following is an abstract thereof - the difference is very trifling and it is to be remembered that the Ryot does not enjoy the one third remission till the land pays its full assessment.—

I remain.

As entered in the accounts of the subsequent Faslies.

15717 Fort St. George 26th October 1843.

Abstract of Cowle Bonds executed in favor of the Ryots of Toomachettoo as entered in the Register No. 8.

Remaining as carrying forward from the Cowle Provisions in the Ryotwary Statement.

Name	Assessment	Cowle Remission	Assessment	Cowle Remission	Assessment

Cowle			6 "	40 "	35 "
Assessment			6 "	40 "	35

When the Board look at the foregoing in a financial view I hope they will not object to the Form introduced into these remote places - for instance in the Rondroog Talook where no one could be induced to hold the land under Wells while they are in such a ruined state and the Government could not get them repaired unless at an enormous expense. —

22. Under the head "mode of occupancy" the individual holdings amount by survey assessment to Rupees 2,79,907. and the land Cultivated in Conchee or partnership to Rupees 4,10,925. Of the individual holdings the quantity Cultivated by Meirasidars is Rupees 7,82,083. that by other Resident Cultivators Rupees 17,61,754. and by the Payaharry Ryots Rupees 2,54,070. The accompanying statement of Conchee Cultivation gives the usual information regarding the number of shares the kinds of lands they occupy and the mode of division among themselves whether by sharing Crop or dividing the land, it also gives a Comparison between the settlement of the last and present year. The latter demand on the land Cultivated in Conchee this year amounts to Rupees 2,42,777 and bears a per Centage of Rupees 11-7-11 on the Ryotwar settlement of the year (Rupees 18,81,619). —

Stat. No 5 Col. 122. And 123.

* Stat. No 6 Col. 175.

* " No Col. 177.

Statement No 6 Col. 126.

23. The Assessment of Land on which the Revenue was realized in the fusly under report amounts in two items to Rupees 29,58,469 - The 1st of which Rupees 28,58,381 was what was entered as land Cultivated up to the time of making the Jummabundy Rupees 28,14,471 land ascertained to be actually sown and Rupees 43,910 waste land included in the Puttahs and assessed, and the other item Rupees 1,00088 is the land which remained to be sown on account of the Vysak Crop — to these if added Assessment Rupees 2,50,363 deducted on account of land occupied but which could not be cultivated, the total Gross assessment will be Rupees 32,08,832 - In this the Survey assessment — Rupees 43,910 on waste (as above stated) being included amounting Vassolie to Rupees — 32,010 being Rupees 9,163 assessed on Appanum lands neglected by Potails who hold — them to Cultivate; Rupees 6,764 taxed on those who have thrown up their Puttah land and Cultivating Enamdars land — and Rupees 16,083 on Ryots who have thrown up part of their holdings to secure the Cultivation of the more profitable —

portion

portion (the waste not exceeding the established one tenth of the amount entered in the Puttah) and the waste thus assessed bears a Percentage of C= Rupees 1-8-.. on the total Revenue..

24th The total remission upon the actual Cultivation of the year is Rupees 8,35,278 of which the Established remission is Rupees 7,83,959- the remainder Rupees 51,319 being discretionary remissions termed moctiary or Hungamy Vazah the Chief portion or Rupees 29,632 is Moonasib Cummee Kayem moonasib Cummee Rupees 27,508 and Hungamy moonasib Cummee or temporary abatements allowed to poor Ryots Rupees 2,124.-

Stat. No. 5 Col. 163.

25- With reference to the Board's observations in Para 24 to 26 of their Proceedings on the Settlement of last year and to their desire "that in future accounts the remission "for high assessed lands on the original "assessment and the moonasib remission after "the deductions of 33 and 25 per cent may be "Separately Shewn" I beg to state that I have accordingly exhibited them distinctly under Column 153 of the Statement No. 5 and I here have to point out to the Board distinctly that Kutla Towcoof has long been totally abolished the

Vide Para 26.

(the close of fusly 1245 / A.D. 1835/36) - Balances of this nature are now included in the Kistbundy and for remitting the same, application is every year made to the Board for Government sanction. The remission of moonasib Cummee is altogether distinct and has no connection with the old Kutlah Towcoof whatever.-

26. Here I beg to refer the Board to Para 7 of the Jurm Jummabundy Report of the former Principal Collector of the ceded districts dated 26th July 1807 in which Colonel Munro proposed a reduction in the Assessment of lands on which the Survey Rent has been ascertained by subsequent experience to have been calculated at too high a rate, and I further beg to refer to the subsequent requisition of Mr. Robertson in Para 62 of his Jummabundy Report for fusly 1234 / A.D. 1824/25 - Both in conformity to the Board's Proceedings on that Report.- In obedience to the Minutes of Consultation thereon Mr. Robertson took up the accounts which were found partially prepared in Fusly 1217 / A.D. 1807/1808 by Sir Thomas Munro and Compared them with his own minute examination of several fields as well as with the result of

Para 35

Para 16.

of the opinion of some of the Old Public Servants and intelligent farmers; that able officer then commenced to allow an abatement on such fields as were found overtaxed and consequently waste. This kind of abatement he called "Deet Cummee" and included it in the item of Bhare Turm Cummee an item which long prevailed in the Talook of Rumpley as already stated, and these two items are blended under the head of Kayem Moonasib Cummee. Deet Cummee has by degrees of course increased to such a height that it has given rise to the present doubt, yet the real cause of its augmentation is that it of course increased with the quantity of high assessed waste land every year brought into cultivation by means of the measures adopted by Mr. Robertson.

I must also explain that under Kayem Moonasib Cummee there is another item being the reduction in the Revaz Jasty, a tax levied in imitation of former Native Governments on the Cocoanut and Beetle Nut Trees in addition, of course to the Survey Rent of the land they are grown on, for the number of Trees either died or past bearing. The following is the Distinct Account of

of Kayem Moonasib Cummee for the Fusly under Report exhibiting the Amount of Remission on the Originab Assessment and the Amount of remission after the deductions of 33 and 25 per Cent.

The former Amounts to, Rupees		2,581
Bharee Turm Cummee in the Talook of Rumplee	1,729	
Deet Cummee to High assessed land which is taken on Cowletenure the remission on it being allowed only on the Gross Assessment	852	
	2,581	
The latter Amounts to Rupees		24927
Deet Cummee on high assessed land, the Cowle of which having expired, this deduction is allowed after the established remissions	20706	
Revaz jasty &ca a deduction allowed after the Established remission for the number of Trees died or past bearing	4,221	
Totab as per the note under Col: 153 of the State: ment No. 5.	24927	27,508
Or in the other words Bharee Turm Cummee & Rumply Talook	1729	
Deet Cummee both before and after the Cowle expired	21,558	
Revaz Jastee &ca for Cocoanut Gardens &ca	4,221	
Corresponding Totab		27,508

15/24

Fort St. George 26th. October 1843.

of Crops is Rupees 10,135 of which the most part or Rupees 8,955 was on fields which received no remission of the kind in last year, they having then yielded a crop, but this year ascertained to have been withered as noticed in para 12 of this Report, and the remainder are insignificant remissions.

28

27th Feb.y 1843. With reference to Para 28 of the Board's Proceedings in which they wish to be informed whether a comparison with the Accounts of fusly 1218 / A.D. 1808/1809 of the Village of Mopedy has shewn the Amount to be in the proportion given in the last Year's Report. I must explain that the Account of Deet Cummee tho' partially prepared by Sir Thomas Munro, in fusly 1217. / A.D. 1807/1808 yet the abatement was not actually carried into effect till at last done by the late Mr. Robertson, he included the Amount of this remission in the Kayem Moonasib Cummee from fusly 1236 / A.D. 1826/27. The total extent of the Well land of the Village of Mopedy is assessed at Cp.s 267 7 1 Of this that which the Cultivator has no abatement is Canteroy Pag.s 136 — 9 and the remainder Canteroy Pag.s 131. 6. 8 is explained in the following tabular Account.

Deet

15/25 Fort St. George 26th. October 1843.

The sum of Cauteray Pagodas 19 — 2 — entered in Column 7 of the foregoing is what was included in the Rayem Moonasib Cummee.

29. The survey assessment on land cultivated both in last and present year Amounts to Rupees 30,82,574 of which Rupees 94,551 is what changed hands the rest being retained in the holding of the same occupants. The Revenue in that year amounted to Rupees 20,55,701 and the Demand for the present Year is Rupees 20,37,987, exhibiting a decrease of Rupees 17,714 below last Year; and the Cause is, that the Season has been less favora: — : ble. —

30 The Enam Land cultivated both in Circar and Enam Villages this Fusly amounts to Rupees 15,66,242* being less than last Year by Rupees 23,830 or 1 — 8 — per Cent. The Chief portion of this occurred in Dry land laid waste from insufficiency of Rain. The annexed is a brief account shewing the Enam Cultivation of Fusslies 1251 A.D. 1841/42 and 1252 A.D. 1842/43 in Circar Villages — a similar one in the Enam Villages not being thought necessary.

Fusly

* In Circar Villages 15,02,732
In Enam Villages 63,510
15,66,242

Fort St. George 26th October 1843.

Comparison

Total

Enam Cultivation in Circar Villages.

Independent

31. Independent of the Assessment Company's Rupees 1,592 levied on Circar Ryots who have thrown up their Puttah land as less profitable, and Cultivated Enamdars Lands, the following are the items of the gain.—

Total Sodee entered in Para 10 of this Report } 170,1446

Of which the Amount Collected on Enam. } 118,917

Sody or Quit Rent on Enam land ——— 118,917.

Neersarghee or tax usually levied on Enam land.

Cultivated by means of Circar Water ——— 6,672.

Enam Suffreck ——— 9,577

135,166.

32. Thus the total demand for the Fusly under Report on account of Land Revenue amounts to Rupees 23,08,149 and the Collections and balance of the same compared with those of Fusly 1251/A.D. 1841/42 are shewn in the following brief account.

Statement

Fusly.	Kistbundy Beriz.	Of which the Collections made within the Fusly.	Balance.	Proportions per Cent.	Subsequent Collections up to end September	Balance out standing
1251	23,38,764	23,10,105	28,659	1 1/4	23,953	4,706
1252	23,08,149	22,86,347	21,802	15	12,723	9,079

Of the above balance for Fusly 1251/A.D. 1841/42, a Sum of Rupees 1,650 has been collected to the end of September 1843, leaving a balance of Rupees 3,056 and for the remission of the same, application shall hereafter be made. with regard to the balance on account of the present Fusly 1252/A.D. 1842/43, I beg to state that it amounts to Rupees 9,079. and the chief cause of this balance is attributable to the reduced price of Grain. Of this, about Rupees 6,000 will prove to be irrecoverable balance. It includes the Vysak Bunjer.—

33. I subjoin a General abstract Comparative Statement of the whole Revenue from the land and Extra branches for Fusly 1252. A.D. 1842/43

The

Fort St. George 26th October 1843.

The foregoing shews the Net increase of Collection in favor of the present year at Rupees 23,634 and is the result of a decrease in the Land Revenue of the year Amounting to Rupees 13,863 and an increase in other Branches of Collection of Rupees 37,497 of which the increase in Extra branches alone amounts to Rupees 32,639. arising chiefly from the Abkarry Rent having been so high and partly from the Collections of the last Kist of that branch made on account of the preceding year being brought to Account in the beginning of the present Year, independent of the whole 12 Kists appertaining to the Year and the rest are refunds of advances for Public Works &c. &c. The portion of Collections on account of the present Fusly is Rupees 33,77,602 and the following is a Short Account of the Coins of which it was composed.

Statement

Fort St. George 26th October 1843.

	In current Coins	Uncurrent Coins	Total.
Gold	3,927	105	4,032
Silver	33,63,335	4,119	33,67,454
Copper	6,116	..	6,116
Total	33,73,378	4,224	33,77,602

Fusly 1251 -- 28,041
" 1252 -- 4,032
Decrease -- 24,009

Gold being only Rupees 4,032 exhibiting a decrease of Rupees 24,009 below last Year and is explained by the scanty Circulation of the District.

Sic

15735 Fort St. George 26th October 1843.

The decrease of Rupees 2,849 in the Ordinary Charges as well as other items of decrease need no remarks. The increase of Rupees 3370 in the Collectors Salary and Commission is caused by the Salary for June in last year drawn by myself at the General Treasury at the Presidency having been charged for in the Accounts of this District, for the present year, and partly by the Deputation allowance received this year by the Sub Collector the item of Rupees 1512 is from the Salary to my Assistants being for a longer period.

36. Adverting to the Board's observations in Paras 8 to 12 in their Proceedings on the Review of the Cost report I beg leave to annex a figured Statement prepared with the view that the Board may be satisfied with the effects of the remission of 33 and 25 per Cent in the several Talooks of the District with

15736 Fort St. George 26th October 1843.

with the cause of the declining state of some and the improvement of others. It may not however be amiss to premise that if the Board call to mind the assumption of the Jaghire of the late Poligar of Narraindurgum Rent and its forming ever since part of the Pariz of the Talook of Goodlegkee they should have classed the Talook in question with the two they have already ascertained to have retrograded compared with Fusly 1218 A.D. 1808/1809 a year long prior to the permanent remission. In the Statement here annexed I have classed the whole 17 Talooks into four, separating the restored Jaghear from Goodlegkee, and contrasting the Pariz of Fusly 1251 A.D. 1841/42 with fusly 1218 A.D. 1808/1809 first without and then after deducting the said remissions from the Pariz of the former year 1251 A.D. 1841/42

Statement.

to the Ryots which in all years affording a proper supply will avail - With regard to the 2nd and 3d Classes of Talooks, I am of opinion that no more land than what is now occupied by Ryots will yield Revenue and that we can only keep up the present Bariz. Regarding the 3 Talooks in the fourth or last Class I need only refer the Board to the explanation regarding them given by Mr. Robertson, in Para 55 of his Report on the Settlement of Fusly 1234 A.D. 1824/1825 as regards Mr. Robertson's hopes to see these Talooks soon in a prosperous state, particular relief

All Kurpanbully Podiyghur Hoskotta Taluq

Besides the permanent remission on the assessment, Cocoanut Gardens receive, to this date the usual deduction on account Trees past bearing, dried or decayed, and the amount so deducted is so particularized in Para 2 of this letter, Rupees 2,225. Of this Rupees 2,225. being in these three Talooks, I beg to refer to Para 32. of the Report for fusly 1236 / A.D. 1826/27 wherein Mr. Robertson enters into detail on the hard-ship to the Ryots who cultivate Cocoanut Gardens and purposes to relieve them from the demand of Reway Jastee &c. In fine nothing that has yet been done has availed to make the Ryot easy in circumstances or to keep up the original Revenue. I presume the cause of all this to be attributable to the following. The Ryots are of the very poorest Class such as Lingayest, Cooroobawars, and Boiders - while the dry Land they hold as Mifsub a soil that does not yield abundantly like the Regud Lands. The seasonable rains required for Mufsul, have been deficient and uncertain for several years in the District and the Ryots in question have

Fort St. George 26th October 1843.

have been sufferers. Independent of this is the worthlessness of their grain and and the small quantity of Enam lands in their cultivation compared with other Talooks and prevalence of Cholera preventing on these Talooks shewing any improvement. The Board are also aware that in Fusly 1218 A.D. 1808/1809 a year of the highest Beriz the settlement was made under a pressure that would not now be borne.

39. I have the honor to forward the accompanying account of a single Village, Ootoor, in the country language in

Fort St. George 26th October 1843.

in conformity to the Boards instructions in Para 40 of their Proceedings. This account contains almost every description of land and cultivation that a Village can have in it.

40. The usual statement of Government Plantation now forwarded will shew that of - of the 664 Topes entered in last years account one containing 325 Trees within the compaind hedge of the Bungalow near Kindloopoor, the property of late Mr. Robertson has since been made over to C. Pelly Esqre who purchased the Bungalow agreeably to the Boards orders. There remain 663, and they with the four which I have planted this year amount to 667 Topes and the trees in them are as hereunder stated.

Dated 8th Decr 1842

	Number of Topes	Fruit Trees	Other Trees	Total
Planted by Mr Robertson	663	1,65,339	9,854	1,75,193
Do by Mr Mellon	4	2,407	"	2,407

Every care and attention is given to these Plantations

Fort St. George 26th October 1843.

Plantations and I am happy to state that they are generally flourishing.

41. It remains only to refer to the Minutes of Consultation dated 14th September 1843. which alluded to two important points of the Report, the prevalence of Cholera and the Cowle Lands - Human means as is most truly observed have not yet availed against this most fatal disease, but I trust that it will be believed that the remedies placed at my disposal, I have employed, and I am now in conjunction with the Assistant Surgeon attached to the Department, arranging a more extensive plan of operation. The disease is still lurking in many Villages and I fear from the deaths that I have taken place among the Heads of Families and Polea of, and others among the Ryots, some difficulty will be experienced in the ensuing settlement - The Government as well as the Board allude to the general prosperity of the District - I must not however fail to observe that the want of a remunerating Price is now

Fort St. George 26th October 1843.

now beginning to be felt as a great Drawback and will no doubt affect the occupation of Cowle lands - I fear a minute examination into each case will exhibit some faults in the system adopted in former years in giving Cowle where careful enquiry has not been made by the Amildars - Measures have however lately been adopted that will put an end I trust to this, and at the same time not interfere with that change of land and abandonment of worn out soil, which appears necessary to the continuance of the assessment - In fact it must ever be borne in mind that the object of the Cowle, is not only to extend cultivation but to Keep it up to its present standard which I assure the Board at the present prices of Grain will be a work to employ every energy of the authorities and will require in other matters that every assistance be given to the Ryot - The Board will, I hope believe that I would not lightly make statements so deeply affecting the interests of the Government - But

it

Fort St. George 26th October 1843.

it is nothing but the truth when I affirm that many Ryots are deeply sunk in Debt that they have lately evinced a strong inclination to reduce the extent of their Farms and these inconsequence of the present prices failing to remunerate them - Why did Mr Robertson / as able a Collector as ever enquired into the circumstances of a Ryot / adhere so pertinaciously to the Kutta Sowcoof? why did he expend enormous sums in the repair of Tanks and water courses? why did he on every occasion anxiously avoid any measure that would increase the burden of the Ryots? only because he felt it necessary to assist them by every means short of an infringment of the rules of the Settlement - The events of 40 years will hardly alter the circumstances of any District unchanged - still less is it likely that they should remain so in a District surrounded by Territories where 40 years since there was little use for the Plough - An late occasion when 300 of the Serroogoopah

Fort St. George 26th October 1843.

Serroogoopah Ryots fled to the Nizams country what was their reply when I enquired into their case they said "when the assessment on our Lands was made, there was no Rice grown in our vicinity the produce of our Lands went to Foreign countries" Invention these circumstances

see Sugar cane Report dated 9th December 1841.

a Town Duties Report dated 25th September 1843.

a Extra Revenue Report dated 29th September 1843.

Vide letter to the Accountant General dated 29th September 1843, on Gain by exchange.

not as wishing to trouble the Board with the details of any difficulties that may occur, but that I may if possible be allowed to relieve the people on such occasions as do occur and which I have alluded to elsewhere and also in explanation of the state of my balances Vide no fair Estimate can be made of the regularity of my collections if they are compared with years in which every doubtful sum was entered into the Kutta Sowcoof, and if subsequently collected carried to sevoy Jummah - The Government Proceedings express the same fear as the Board that the Kutta Sowcoof has not been abandoned - I have strust fully explained this - The Board will

will see what great powers of alleviating a Ryot in difficulties and of shewing a clear Balance Sheet it gave to the late Principal Collector. I am not aware that in his hands the Item though irregular was any great loss to Government but as an irregular and deceptive style of account there can be no doubt of the propriety of its being abandoned.

42. The explanation of the Statements and my own report I will now close reserving several points for seperate reference as this Letter has already extended to a great length.

43. I have the pleasure to forward Mr. Pelly's Report of the Talooks which form the Sub Division. The Board will observe that Mr. Pelly states that the Grain at one time was almost valueless Mr. Pelly was for several months during my absence on Leave and on duty in charge of the District.

The settlement of the year before last I concluded before I left, but

but upon Mr. Pelly fell the duty of reporting on it. The Board have already passed their opinion and I have great pleasure in bearing testimony to the deligent and efficient manner in which Mr. Pelly conducted the duties of the District during my absence, as also to his manage= ment of the Sub Division since my return, the interest that he takes and the zeal that he evinces are shewn in the correct= ness and detail of his report. Mr. Pelly has made himself Master of the Revenue Details of this District, a knowledge which

Fort St. George 26th October 1843.

which will I feel assured be of
advantage to the Government
wherever he may be employed.

44 I have also great pleasure
in speaking of my two Assistants
Mr. Robinson and the Honour-
able D. Arbuthnott who are both
attentive to their duties. Mr. Robinson
having now been some time in
the District is rapidly acquiring
a very sufficient knowledge of
Telugoo, and I have accordingly
entrusted to him the details of
the Sayer and the examination
of Police cases. Mr. Arbuthnott
has also undertaken the Manage-
ment

of

Fort St. George 26th October 1843.

of the Topal Department which
the Board will be aware has
partly devolved upon the Office,
also the Posting or Bearer's Department
and is otherwise of use to me in the
Magistrate's Office.-

45. Mr. Fischer my Head
Assistant has been absent during
the year on Sick Certificate.-

Bellary Collector's Office
11th October
1843.

(Signed) A. Mellor
Collector.

Fort St. George 26th October 1843.

No 38

To

A Mellor Esqre

Collector of Bellary

Sir,

Para 1 I have the honor to submit my Report on the Settlement for Fusly 1252 of the 5 Talooks of the Sub Division accompanied by the Customary Statements.

No 1 Summah and Kistbundy of fusly 1252.

" 2- Comparison between the Settlement of fusleis 1251 and 1252.

" 3- Abstract of Actual collections since fusly 1210- compared with the Settlement of fusly 1252-

" 4- Abstract comparative statements of the cultivation and Net Settlement for fusly 1252. according to the Board's form of 27th January 1823.

" 5- General Revenue Statement for fusly 1252.

" 6- Statement of Gonchee cultivation for fusly 1252.

" 8- Register of Land held on progressive Coule.-

" 9- Comparative Statement of the Coule land for fusleis 1251 and 1252.

" 10 Comparative Statement of Enam cultivation for fusleis 1251 and 1252.

The

Fort St. George 26th October 1843

2. The season was not so favorable by any means as the preceding year. The rains for the early dry crops though commencing well, fell short afterwards and but an indifferent Crop was obtained. The latter rains for the Tank cultivation were also very deficient especially in Maduveerah, which last year had such a beautiful supply and it will be seen that of the decrease of Revenue which has taken place in 3 Talooks, three fourths is in that Talook. Some of the Tanks in Anantapoor and Dhurmavaram have received a better supply and there is an increase in those two Talooks. The Cholera which last year in my report to the Board on the Settlement of the whole District I described as being so distressingly prevalent I am sorry to say has not yet disappeared from the Southern Talooks. The number of deaths actually during the fusly under review in the 5 Talooks was 1995 equal nearly to the preceding year when 2023 deaths occurred. The proportion of deaths to recoveries is also the same about two deaths to one recovery. Anantapoor and Dhurmavaram suffered most.

The

The Disease at the time of writing is still about, and the measures approved of by you for affording medical aid are being adapted with what success I shall hereafter report. Great mortality amongst the sheep and cattle attributed to the same Disease has occasioned much loss to the ryots about 10,000 Cattle and Sheep and Goats nearly 40,000 have been reported to have died of Sickness called by the Natives Cholera.- Prices which reported to be so low last year, are still lower this year, and this added to the indifferent state of the crops has occasioned some difficulty in realizing the revenue, crops have been cut and the Grain in some places reaped in the fields without a purchaser at any price to enable the ryot to dispose of it and pay his rents in addition to which some Dysac crops were much injured by rain towards the close of Fusly

+ Average Prices of Grain in the 5 Southern Talooks

In

In the dry lands there is apparently a large increase of cultivation 25343 acres assessed at 6,558 Rupees but an equal quantity is deducted as Cabalatti Burjer in the Puttahs and the actual quantity of the Dry lands liable for Revenue in 1252 was in reality below that of last year as shown in the Margin - And in the Irrigated lands though the amount of cultivation entered in the Puttahs of 1252. Fusly was 7,713 Rupees only below that entered in the Puttahs of 1251. Fusly yet the actual decrease of cultivation was 2660 acres or of assessment 1,621 Rupees. The decrease in the Tank lands as entered in the Puttahs is shown to be only 62 Rupees. There is an increase in all the Talooks especially in Dhurmdaverum of 14962 Rupees to Balance against the great Decrease of 15024 Rupees in the Muduveserak Talook. The Tanks were so abundantly supplied and the cultivation in consequence carried so high last year in that Talook that the

Net		5622

the decrease appears large, though the Burjer as compared with previous years is higher than the average. The decrease under the Nalah and Wells as entered in the Puttahs is to be attributed chiefly to two causes, Viz^t, a decrease arising from the cultivation by Tanks filling inside which cultivation was carried on last year, by means of Nalahs or Wells which is about 3,730 and from the actual abandonment of land, arising solely from the inability of the ryots owing to the low prices and in some cases to the ravages of Cholera, to cultivate their usual farms. This may be said to be about 8,111 Rupees. The true decrease of cultivation is here also larger than appears by the Gross Puttah cultivation, the real decrease in Nalah lands as compared with last year is Rupees 3,217 and in well lands 8,624.

Deduct Ready Money Allowances	1,000	969	"	31
Net Revenue	600,813	583,569	"	17,244

The

The deductions on account of Caboolat Bunjer is larger by 25,261 Rupees than was deducted for the same causes last year, the cause whereof is to be found in the deficiency of the supply of water chiefly, partly also to Dry lands exchanged for others but retained in the Puttahs and also to the inability of the Ryots to cultivate to the same extent as last year. Of the total amount of Remissions on land left unsown 140423 Rupees the sum granted to Dry lands is 39,991 Rupees and the rest 100432 Rupees is for irrigated land. The items of Remissions on the land actually cultivated are all below the amount granted last year, and appear to call for no particular explanation. The cause is chiefly to be attributed to the lands allowed the remissions last year, not being sown this except the item of 1,559 Rupees which for the most part is composed of Remissions granted last year for the care of young Topes now withdrawn.

6. The Gross Increase and Decrease is exhibited in the Statement No. 2.

In

In Col: 60 of that account the Gross increase of cultivation is stated at 50,950 Rupees being land newly occupied and for the most part (39,576 Rupees) by old Ryots. The increase of Rent on lands occupied in the last and present year for the several reasons stated in the account is 20,303 Rupees making the Gross increase on Ryotwar 71,154 Rupees.

Col. 61. to 67.

The Gross Decrease Ryotwary amounts to (Col. 93) 88,222 Rupees. Of which 43,833 was decrease of cultivation excluded from the Puttahs partly, Viz.t 12,695 land given up entirely by Ryots who have relinquished their whole farm but chiefly by Ryots who have relinquished only a part of their land.

The causes to which this decrease is attributable, are as follows.

	No. of Ryots	Amount in Rupees
Loss of Rent from Deaths	38	173
" from Desertions	162	1871
" from Poverty wholly	215	741
" from Do partly		7857
Total relinquished by State or Resident cultivators from deaths poverty &c.a		10,442
Relinquished by Pyacarris wholly or in part		2,728
Do by Gonchee Cultivators		545
Total relinquished for want of means		13,715
The amount of thrown up for want of rain		26,199
The decrease of Cultivation on lands exchanged		3,919
		Rs 43,833

Spe

The decrease of Rent on lands occupied in the last year, and retained in the Puttahs of the present year, is (Col. 92) 44,388 Rupees and almost entirely consists of land left unsown (Col 85) 42815 Rupees in Fusly 1252.

Col. 69 to 71.

The Increase of Rent from 8. Enam lands consists of the Ayen, Quit Rent 394 Neersarghee for circar water taken for Enam Cultivation 896 Rupees. Under these two heads the chief Increase is observable in the Dhurmaveram Talook where from the larger supply of water in some of the principal Tanks a greater quantity of Enam land has been this year sown. In the Maducserah Talook on the contrary from a deficiency of water the principal decrease under these heads will be seen. The decrease of Ayen is 308 Rupees and of Neersarghee 1,087 Rupees. There is an Increase of Enam Tuffrick 205, and a decrease of 321 Rupees. There is one new item of increase in Col 72 Viz.t Rs. a. P. 13—13—8 which is the Quit Rent on the land occupied by Gentlemen's houses at Anantapoor and Hindoopoor which sum by your order has been carried into the Land Revenue accounts.

The Increase and Decrease in

in the number of Ryots and Puttahs for the present year is nearly equal.

The subjoined Abstract from statement No. 5 exhibits the changes among the occupants of farms.

Total Number of Ryots holding individual Puttahs in Fusly 1252	22,182

10- In the General Revenue a Statement No. 5. the usual information is contained in detail and I need not but briefly notice a few of the heads- Of the gross Assessment 8,89,041 on the land occupied in the year under review 7,60,522 is the Ayen Jurrum- the rest is composed of the Extra taxes- The Col 102 to 106 accounts particular of the Cowle land and Statement No. 6-849- Gonchee Cultivation mentioned in Cols 117 & 123 are enclosed. In the Cowle Register No. 8. there is one Grant for four years. instead of 3 Years Progressive Cowle- It has been allowed at the request of the owner for the restoration of a Piece of Wet land 10 Goortoos assigned at 7-11 much destroyed and for which the usual Cowle was insufficient- One year Extra 1/4 remission has therefore been given, and the Cowle runs from 1251. to 1254, instead of 1253 fusly- Also in the Register for wet land held under Cowle from Fusly 1252. to 1253- which being for 2 years, enjoys a remission generally only of 1/2 the Assessment, there is one item of 10 Acres assessed at 118 Rupees Kalah cultivation on which 3/4 of the Assessment has been granted for the first year in

in the second preset year it will have only ½ the remission. This will explain all the discrepancies which appear in the Cowle Register. Statement No. 9 gives the usual information of Increase and Decrease of Cultivation under Cowle land assessed at 1207 Rupees which enjoyed the Cowles has reverted to the full assessment this year. In the Conchee account No. 6. it will be perceived that there has been a falling off in that description of cultivation of 6829 Rupees Jerrim which is almost all in the Maduceserah talook, and is to be attributed to the same cause as before stated for deficiencies in that Talook.

11. The remissions on the Gross Settlement amount to 334622. The amount for uncultivated land is 140423 Rupees of which upwards of a lac of Rupees is for irrigated land left unsown. Of the remissions on the land actually sown I need only draw your attention to those entered in Column 153 to 157. called remissions for losses of crop and in reference to the observations of the Board of Revenue in

Col 164.
Col 133.

See Bd. of Revenue Proceedings dated 27th July 1843.

in the para 23 to 26. of their Proceedings on the Summahbundy Report of last year, I will proceed to show the nature of the Remissions under the head of Moonasib in Cols. 153 & 154. The sum entered in Column 153 as "Kayam Moonasib or Extra Remissions" on account of high assessment Vca. is composed of the Net Remission allowed to lands whose Deed or rate of assessment has been lowered at different times chiefly by Mr. Robertson 3941 Rupees. Another item is the Remission of 187 Rupees which is the Just Sastr or tax on the 2d Crop of some high assessed Wet land in the Codicondah talook given by Mr. Robertson. A third item is 1556 Rupees granted for decayed Cocoanut and Betelnut Gardens in the Maduceserah Talook except 20 Rupees in the Pennacondah Talook. These several items are considered permanent since Mr. Robertson's death, the remissions of Kayam Moonasib Cummee have almost ceased to be given. In 3 instances only, since these Talooks have been under my charge have I granted this remission amounting 116 Rupees when it was urgently required. A general

general investigation however into the state of the over assessed fields with a view to a final reduction of the rates is a matter of great importance. But distinct authority is necessary for effecting this measure, which is one which requires much care to bring to a satisfactory and final conclusion. But it would not be expedient to enter upon it as a general measure without the authority of the Board of Revenue as hopes would only be raised which might eventually be frustrated. There are in the five Southern Talooks 12,252 Acres of dry land, the original assessment on which has been reduced from 14,773 Rupees Jerrim to 8,306 Rupees Jerrim and 1,389 acres of irrigated land, the assessment on which has been reduced from 30,587 Rupees to 23,433 Jurrim, both independent of the General Remission of 1/3d to well lands and 1/4 to all other lands. The other item of 607 Rupees in Col.n 154 "abatements of rent to poor Ryots" are remissions on account of poverty and small abatements to Ryots who have been at some

expense in cultivating some new land or repairing some works on their land &c.

Fusly	Maunds	Cutta	Total
	C.Rs	C.Rs	C.Rs
1232	4807	2999	7,806
1233	8362	2196	1558

1243	4782	6011	10793
1244	4672	4514	9186
1245	5708	3112	8220
Average	4428	4105	8533
1246	5719	"	5719
1247	5926	"	5926
1248	6273	"	6273
1249	6161	"	6161
1250	6780	"	6780
1251	6544	"	6544
1252	6291	"	6291

The Moonasib Remissions do not appear to have risen in consequence of the abolition of the Cutta Sowcaar as the annual remissions on each of these items noted in the Margin will show. The remission for losses of crops in Column 155 is 2,030 Rupees granted for Crops entirely or partially lost, or where the 2d crop of two crop land has not been cultivated and the Ryots has not been able to pay the full assessment.

12.

The amount of Net Revenue Ryotwar after all deductions, and inclusive of a sum of 1,200 Rupees for concealed cultivation amounted to 555,619 Rupees, of which 537,847 Rupees was sown including waste payable at the time of making the Summabundy and 17771 Rupees was the estimated demand for the Fysac. Of this latter sum 15,360 Rupees was afterwards sown

The amount of Taseer on Enam Col.n 183 to 189 was 2898 Rupees The

13 The Deductions for ready Money allowances Col. 191. to 194 being 969 Rupees leaves the amount of Land Revenue for Fusly 1252 (Col 195) 583,568 Rupees. Of this sum the amount collected within the Fusly was 577,920 Rupees and up to the Date of this report 576491 leaving a balance still due of 7,077 Rupees which is larger than usual but owing to the depressed state of the Market prices and the consequent poverty of the Ryots is not greater than might be expected. Of this about 1,300 Rupees will be recommended for remission as Tyssac Punjer and other sums amounting in all to about 3,000 Rupees it is expected cannot be realized. The rest will probably be collected in a short time.

14 The Revenue of the 5 Talooks on all branches is as follows.

	Fusly 1251	Fusly 1252	Increase	Decrease
	CRs	CRs	CRs	CRs

Bellary Collector's Office, 11th October 1843. — E E Jr. Signed / A. Meller, Collector

Order thereon — Ordered to be sent again in circulation

Read the following letters.

(25. 26)

To

15848 Fort St. George 26th October 1843

To

C. C. Lovell Esqre

Acting Secretary to the Board of Revenue Fort St. George.-

(27)

From the Asst. Princ. Collector of Cuddapah } Sir, Para 1 I have the honor to forward copy of a Correspondence between the Collector of Bellary and myself, and I shall feel obliged by your obtaining for me the opinion of the Board of Revenue whether it is necessary under Act No. XV of 1839 extended by Act No. XI of 1842 that Sugar passing from one District to another within the Madras Territory should be accompanied by the Certificate prescribed by the Act first mentioned.-

2 Sugar and Jaggery are manufactured to a considerable extent in this District, and I am unwilling to impose any restrictions on them, which are not absolutely necessary as the extension of such manufactures is highly beneficial to a District.

3 To enable the manufacturer or owner of Sugar to procure that Certificate it will be necessary for him to appear

Fort St. George 26th October 1843

appear personally before one of the European Functionaries of the District to subscribe the required declaration, which would frequently put him to considerable expense and inconvenience.—

4 It is very common for the Inhabitants of one District to convey small quantities of Sugar and especially of Jaggery to the Markets of the adjoining District, and this would be entirely prevented if it be decided that these articles must always be accompanied by a Certificate.

5 In regard to the other point referred to in the accompanying correspondence I am perfectly satisfied with Mr Meller's statement that Molasses Jaggery and in fact all Saccharine preparations are comprehended under the general term Sugar; and I have adopted measures to prevent their being admitted into this District.

Cuddapah District —

A

To
W. W. Arbuthnot Esqre
Acting Collector of
Cuddapah.

Sir I have the honor to forward Copy of an Istiar, which I have given for general information in this District with reference to the Sugar Act No XI of 1842 any Sugar Jaggery or Saccharine preparation must in future be accompanied by the necessary Certificates under your Official Seal and Signature.

Bellary —
Collector's Office
16th September 1843

/Signed/ A. Mellor
Collector

No 356

To
A. Mellor Esqre
Collector of Bellary.—

Sir I have the honor to acknowledge the receipt of your letter of the 16th Instant forwarding Copy of an Istiar published by you and informing me that any Sugar, Jaggery or Saccharine preparation pasing from this District to yours must in future be accompanied by the necessary Certificates under my Official Seal and Signature.

Although the importation of Foreign

Foreign Sugar, or of Sugar the growth of any British Possession into which Foreign Sugar is admitted has been prohibited - I do not think that it is necessary that Sugar passing from one District to another within the Madras Presidency should be accompanied by a Certificate bearing the Official Seal and Signature of the Collector. The Ordinary Layer Rowanahs contain the requisite information, and the certificate mentioned in Act. No XV of 1839 is only required to enable Sugar to be shipped for England -

The Sugar Manufacturers will be put to both trouble and expense to procure these certificates. This I would be sorry to impose upon them if it can be avoided and if you have not already obtained the opinion of the Board of Revenue, I shall be glad if you will be so good as to make a reference to them on the subject.

I shall also feel obliged if you will inform me whether you have received any instructions to prohibit the importation of Foreign Jaggery.

In our Tariffs, Sugar and Jaggery are entered as separate articles and

and the importation of Foreign sugar only is prohibited by Act No XV of 1839.

Cuddapah
Principal Collns Office.
27th September 1843.

/ Signed / W. W. Arbuthnot -
Acting Principal Collector.

To W. W. Arbuthnot Esqre
Acting Principal Collector
of Cuddapah.

Sir

In reply to your letter of the 27th Ultimo No 356, I have the honor to refer you to the Act of the Legislative Council of India No XV of 1839 the Provisions of which have been by the Act No XI of 1842 made applicable to Foreign Sugar imported by land as well as by sea -

2 There does not appear any objection to Sugar entering on the usual Rowanah only that such is not the tenor of the Act - The Board of Revenue having distinctly declared that they consider Act XI of 1842 as extending to the Inland Districts the Provisions and Penalties of Act No XV of 1839 - I have prevented Sugar from Mysore, Darwar, Belgaum, the Nizam's Dominions &c &c from entering the Province at all and have extended the prohibition under the orders of the Board on reference to every Saccharine preparation - I am not informed in your letter whether you have prevented Foreign Sugar entering

entering your District. As you can make any Rules you think proper as to the mode of granting the Certificate so as to prevent any extra trouble to the Merchants I certainly think a Certificate would be preferable, as it is always known where Sugar in any quantity is made, there can be no difficulty in giving a Certificate, nor do I think that ultimately any additional trouble would be incurred as in the event of Sugar not meeting a Sale, and at last being transported to the Coast, the whole would be confiscated if not accompanied by the Certificate. I have adhered to the first Form given in the Act because I find there will be difficulty in a District so surrounded as this by Foreign States in preventing contraband Sugar from entering and because I do not think any local authority has the power to modify an act of the Legislative Council of India - In Mr. Underwood's Circular letter of the 1st June last Jaggery is mentioned in addition to Sugar and the Board have extended the prohibition still further as explained in their orders that Molasses Jaggery and in fact all Saccharine preparations are comprehended under the general term Sugar. Consequently the prohibition stands good in regard to Foreign Jaggery referred to in the 4th Para of your letter although Sugar and Jaggery are entered as separate articles in your Tariff.

*Kakumbee in Gentoo.

Bellary Collector's Office 5th October 1843

/Signed/ A. Mellor
Collector

Ordered that the following Proceedings be recorded in Consequence.

Proceedings

Proceedings thereon -

27-28

The question raised in the above correspondence is whether Sugar the produce of any District under the Madras Presidency should, on being conveyed into any other District under the same Presidency, be protected by the certificate of origin specified in the Act XV of 1839. There can be no doubt that such Certificate is altogether unnecessary. The provisions of Act XV of 1839 and XI of 1842 in no degree apply to the Sugar trade between two Districts both under this Presidency and the Certificate of origin prescribed in the first of those enactments is requisite only in the case of Sugar exported to England to enable it to be received there at the same rate of duty as is

15855 Fort St George 26th October 1843

is levied on West India Produce -

2 In his letter of 5th October last Mr Mellor states "in the event "of Sugar (ie the produce of the Madras "territories) not meeting a sale and at "last being transported to the Coast "the whole would be confiscated if not "accompanied by a certificate" This is altogether a misapprehension. To pres tect Sugar produced in one District on transit to another under this Govern ment or to the Coast no other document is required than the usual Sugar Rowannah now in force -

Ordered also that copies of the foregoing Proceedings be transmitted for the information and guidance of the Collectors of Bellary and Cuddapah respectively -

From the Actg Principal Collector of Cuddapah - Sir

Reporting on the settlement of the Land Revenue of the Cuddapah District for Fusly 1252 and forwarding the usual English and Hindovee accounts connected thereto -

Parā 1 I have the honor to submit &c my Annual Report on the settlement of the &c Cuddapah District for Fusly 1252 and to forward the following Accounts

1 Detailed Jummabundy Statement for Fusly 1252 -
2. General Revenue Statement Talookwar -
3 Register Shewing the Extent & &ca of land held under Cowle -
4 Register exhibiting the particulars of land held under Progressive Cowle
5 Comparative Statement of the land held under Cowle during Fuslies 1251 and 1252 -
6 Statement exhibiting the survey rent &ca of the Enam lands -
7 Jamah and kistbundy Statement -
8 Statement of Demand Collection and Balance
9A Statement of outstanding old Balances &c
B Statement Shewing the particular of the outstanding balances from Fusly 1248 to 1251

Comparative

Fort St. George 26th October 1843

10. Comparative Statement of all sources of Revenue.

11. Statement of Remissions granted for failure of wet crops.

12. Abstract comparative statement between the charges of Fusilies 1251 and 1252.

13. A Statement of the Extent and survey assessment of each description of land cultivated and left waste.

B Detailed Statement of the survey assessment of each description of land, and the Remission allowed for.

14. Statement of average prices of Grain.

15 Statement of the Particulars of the Seervai Cummi.—

2. I personally superintended the settlement in the following Nine Taloks Vizt. Jummulmudgu, Doovoor Colcomtlah, Chennoor, Canalapoor Goorrumkondah, Muddenpully, Poolevendlah, and Royachoty.

3. In the three taloks forming the sub Division Vizt. Cumbum, Doopand and Budwail, the settlement was conducted by Mr. Cotton, and the settlement of the 2 remaining Taloks in the Principal Division Vizt. Chitwail and Sidhout was entrusted to Mr. Mayne the Head Assistant.—

Fort St. George 26th October 1843.

4. The season was by no means so favorable as the preceding one. There was a fall of rain in the Month of August sufficient to enable the Ryots to plough the dry black lands, and to sow the mixed and red dry lands; but this did not extend to the Southern Taloks By this rain and that which subsequently fell in September, and October, the tanks were but partially filled and the Taloks of Ryachoty, Muddenpully, Goorrumkondah, and Chitwail which are principally cultivated with wet crops received a smaller supply than the rest of the District.—

5. There were indeed heavy falls of rain in January and March, which enabled some wet lands under Tanks to be cultivated with a second crop, but which, on the whole, did as much harm as good.

6 Altogether there was a decided deficiency of rain throughout the year, and I must acknowledge that I was agreeably surprized at the extent to which cultivation was carried on. In the Northern Circars, where I have been principally employed, and where rain, I believe, is generally more abundant

than

than in the beded Districts, such a season would have caused a much large proportionate loss of Revenue than it has done here-

7. The Chittajonna produced very scantily in consequence of the deficiency of rain at the commencement of the season, The Cotton crop suffered from the same cause, and also from the fall of rain in March when the plant was in full bearing-

8 The Horse Gram Ail plants, Doll, Congong, Bagra, Ragy, and Pulse both in the black and mixed soils yielded from 1/4 to 3/4ths of a full crop-

9 In a few localities particularly favored either from the construction of artificial works or from their natural position the lands depend: ent upon Tanks and Channels yielded in both Cartica and Vysaka crops, but generally speaking there was not more than sufficient water for one crop, and in some places there was not even enough for one crop to the full extent of the Ayacut-

10- It was fortunately not necessary to grant large Remissions for loss of wet crops- partly

partly because the early part of the season was the most unfavorable and therefore the Ryots did not commence upon their cultiva: tion till they were pretty certain of an adequate supply of water and partly because the very unusual Rains which fell so late in the season saved those crops that were in danger-

11. The remissions on this account amount: ed altogether to Rupees 2,639-u-11 Viz.

In the Principal Division	300-14-1.
In the Sub Division	2,338-2-10.
	2,639-u-11

12 The year was not a particularly unhealthy one; Fever and Ague was very prevalent and there was a great deal of Cholera throughout the District- No less than 3,400 Persons are estimated to have fallen victims to the latter complaint alone-

13- The mortality amongst Sheep and Cattle was likewise greater than it usually is-

14- The following Statement exhibits the prices of each description of grain during the last 6 years with a Comparison between the last and the preceding Fasly-

Price

15861

15 I might have been expected that the price of Produce would have augmented as the season ended not be called a favorable one but the above statement shews that such was not the case. This in any c[ase]

opinion, is to be attributed to the very abundant harvest of the preceding year.

In all the Districts under the [illegible]

Presidency, and also to the fact, that the rains were more plentiful in the hot year in the ensuing District

Collectors Genl and Collectors & Chiefs

Sheltons the season was not more favl

comparable then in this District

																													Net Increase & Decrease	387	28½	"	"	"	"	54,812	5	8

From

17 From the above Statement it will be observed that there is a net increase of acres 3873 - c 28 as ½ in the extent of land taken up by the Ryots but a net Decrease of Rupees 54,812-5-8- in the assessment on it This decrease is principally composed of Teervajasty, the additional assessment on dry land converted into wet by means of Cirear water and Fasuljasty the additional assessment on one crop land which has been cultivated with two crops The decrease under these heads amounts to nearly Rupees 43,000 and is entirely owing to the deficiency of water- The decrease in the assessment on the Dry Garden, Poonasa, and Wet land is to be attributed partly to all lands destroyed from inundations or other causes having this year been excluded from the Villavary after a full investigation instead of, as in former years, being included in the Villavary and remitted at the Summabundy, and partly to ryots having abandoned their cultivation either wholly or in part in consequence of the unfavorable nature of the season-

The

18. The increase in the extent of Dry land taken up, and the Decrease in the assessment on it arises from a good deal of lightly assessed Dry land having been newly taken up in the Goorrumcondah Muddenpully and Poolevendalah Talooks and to some more highly assessed land having been abandoned in the Coilcountah Talook and in the 3 Talooks forming the Sub Division

19. The prosperity of the black land Talooks depends much more on the price of produce than on the nature of the season- A very few showers is sufficient for the ordinary cultivation in those Talooks, and when produce bears a fair price the lands are eagerly taken up both by the permanent Ryots and by Paicaries from Kurnool, but at the present prices the crop does very little more than pay the cost of its production including of course, the assessment on the land.

20 The following statement exhibits the extent and assessment of the land actually cultivated in the Fusly under review compared with the preceding year--

								Net Decrease	27.092 29 7½	1.77.150 15 9

Shere

15867

Fort St. George 26th October 1843.

21. There was thus a net decrease of cultivation to the extent of 27092 acres 29 cs 7½ as assessed with the sum of Rupees 1,77,150-15-9-

22. The decrease in wet and Bagayet cultivation as well as in Teervajasty and Fasuljasty, arises from the inadequate supply of water in the Tanks, Channells, and Wells-

23. The Decrease in the Dry land cultivation, arises from the deficiency of rain in the early part of the season especially in the southern Talooks and as I have already observed from the low prices of produce-

24 The subjoined statement exhibits the Remission granted in the past compared with the preceding Fusly.

Fort St. George 26th October 1843.

25 To the Board of Revenue &c.

Gentlemen.

In several occasions intimated a strong desire that after Remissions should be discontinued as inconsistent with an Annual settlement no Remissions whatever have this year been granted after the settlement of each Talook was concluded.

26 The Zillah Judges have fully explained in my letter dated 21st June last that Varieties of unnecessary to go over the same ground again in this Report.

27. The increase of Remissions under the head of Cultivated Burgy and Loss of Crops has been occasioned by the insufficient supply of water for the usual cultivation the decrease under the other heads arises from the quantity of each description of Cultivation having fallen short in the last compared with the preceding Fasly.

28 The annexed Statement exhibits the Gross assessment different remissions, the Net Berij for Fasly 1252 in conformity with the preceding year.

I have &c.

&c

Fort St. George 26th October 1843.

29. The increase under the head of Sunkyjasty arises from the Settlement having been concluded at an earlier period in the past than in the preceding year. All concealed Cultivation discovered previous to the Settlement is included in the Immanabundy Beriz. All discovered in any Jalook after the Settlement has been completed, though included in the Kisthundy Beriz or adjusted Demand is entered under the separate head of Sunkeeyasty.

30. The reason for a larger portion of waste land having been tayed, is because all Persons who had converted dry land into wet by means of new wells, were compelled to pay for the land usually occupied by them whether Cultivated or not or to pay Seervajasty on the lands Cultivated with wet Crops. I shall enter upon this question at greater length in a subsequent part of this Report. The decrease in the Remissions on land town, Quit Rent, Enamaty- Seervajasty and Enam Jaffeyt arises from the diminished Cultivation under these heads respectively.-

31. I beg now to annex a detail of the different items of Increase and

Fort St. George 26th October 1843.

Decrease in the past compared with the preceding Fusly.-

	Rs. A. P.	Rs. A. P.

Schedule of Balances due by Collectors of Taxes, and Balances remaining at the close of July 1852, with the Collections of the Balances during the current year, and the Balances remaining at the close of July 1853.

Schedule of Balances due by Collectors of Taxes, and Balances remaining at the close of July 1852, with the Collections of the Balances during the current year, and the Balances remaining at the close of July 1853.

1580

Court of Exchequer 26th October 1843.

38.

The Collectors within the Parishes of Tuly and Ludgershall to the close of July 1852 are charged as follows:

Demand	20,159 9 4
Collections within the July	19,503 10 5
Balance at the close of July	655 18 11
Subsequent Collections	33,489 10 11
Present Balance	31,903 11 6
	1,586 7 5

39.

It appears that Accounts of the above Balances remaining unpaid have been regularly rendered to the Auditors of Accounts, and that Process has been issued against the Collectors and their Sureties for the recovery of the same, but that no Payment has been made on account of the Balances due by Ryde and Newport.

40.

The following Statement exhibits the details of the several Collections during the current year, and the Balances remaining at the present time.—

Examined

Auditors.

15881

Toth St. George 26th October 1843.

41. It will be observed that I have taken the liberty of entering under a separate head the amount which I recommended for remission in my last Report – as the Board have supported my recommendation it would be a needless waste of time to enter into the details of this balance again.–

42. The remaining balance amounts to the sum of Rupees 3843–4–1. of which I consider Rupees 741–13–2. to be recoverable, the remainder Viz. Rupees 3,101–7–2 is desperate, and I solicit permission to strike it out of the accounts.

43. The accompanying Statement No 9 B. contains all the details of these balances, and I am confident the Board of Revenue will be satisfied with the grounds assigned for so large a portion of them being considered desperate.–

44. The result of the Settlement of all branches of Revenue is embodied in the subjoined figured Statement–

Justly.

Toth 20th October 1843.

45. The whole of the above demand exceeding 25 lacs of Rupees has been realized with the exception of the small sum of Rupees 1586. 15. 4.

No words of mine could so satisfactorily establish the general prosperity of the District and I am fully convinced that the system of revenue which has been so ably introduced (though some reforms are required in its administration) is admirably adopted to the native Character and most conducive to the interests both of the Government and of the People.

Para 11.- 46. In the Proceedings of the Board of Revenue under date the 12th September 1842. my attention has been particularly called to the subject of New Wet Cultivation which prevails to so great an extent in this District I have accordingly given this important question the most mature consideration but I cannot coincide in the conclusion that I believe all my Predecessors have come to.

47.- If a Ryot converts Dry land into wet by means of the water of Tanks or Channels an additional assessment is [illegible]

consideration of the greater value of the produce it is thus rendered capable of yielding But in the Cowlnamah prepared by Colonel Munro which has never been cancelled, it is expressly stipulated that a Ryot may convert his dry land into wet by digging Wells at his own expense without any additional assessment provided only that he must continue to occupy and pay for the land which he had before been accustomed to cultivate.

48. This condition was evidently imposed to prevent the diminution of Revenue which would ensue if the Ryots were permitted unconditionally to apply their whole means and labour in raising from the lowly taxed lands the superior description of produce without any increase of Assessment.

49 Unfortunately however this condition from the facility with which it could be evaded and the difficulty of enforcing it has been little attended to, and the consequence has been that while there has been a falling off in the old highly

highly assessed Garden lands no less than 12,000 new Wells have been constructed throughout the District.

50. Under these circumstances it has been proposed that as this description of Cultivation has reached a magnitude which could hardly have been anticipated by Colonel Munro when the privilege was first accorded, and as many of the Ryots have violated the condition attached to it we should now be justified in imposing an additional assessment indiscriminately, on all the lands converted from Dry to wet, by means of these Wells, after the lapse of such a period, as may have afforded the Ryots not only an ample Compensation, but a liberal profit, upon the labor and expenditure which may have been applied

51. The principle here laid down for taxing improvements seems a perfectly fair and equitable one, but in my opinion it can only be prospectively applied in this District.

52. We cannot

have constructed Wells on the faith of Colonel Munro's Cowlnamah the privilege there accorded to them.

53. It is quite true that there has been a considerable decrease in the old Well Cultivation, and this may in some measure be attributed to the superior advantages the Ryots derive from the Cultivation of new Well lands / the decline in prices has also had a good deal to do with it / but a further decrease may to a certain extent be provided against now that attention has been drawn to the subject and it must not be forgotten that the Population generally derives much benefit from the construction of works which in a Country, so peculiarly liable as the Ceded Districts to drought, are the means of diminishing the chances and of alleviating to a certain degree the effect of a famine.

54. While therefore I am opposed to an additional assessment being imposed on lands Cultivated by Wells already dug I readily admit the propriety of framing a

a new Cowlnamah to supersede that now in force in which the terms on which Ryots may hereafter convert their dry land into wet should be clearly defined.-

55 There are however many instances in which the privilege accorded to these Wells have been most grossly and fraudulently abused, and the Individuals who have so acted I consider to be deserving of no indulgence whatever.-

56 Even after a Well has been dug and supposing it to be well supplied with water much labor and some expende is required to raise the water for the purpose of irrigation to avoid which, Wells have not unfrequently been dug in the immediate vicinity of a Tank or Channel the water of which is secretly conveyed to the land nominally under the new Well. On this point the Board have most justly instructed the Collector that all New Wells situated on lands classed as dry under Tanks and Nullahs which can in any way be affected by their waters shall be assessed with the usual additional tax.-

57. I have endeavoured to enforce these instructions during the last Summa-bundy but complaints and investigations as to what lands could and what could not be irrigated by the water of a Tank have been so numerous that I consider it indispensible to lay down some distinct rules on the subject.-

58. The Rules which I propose to introduce are as follows.-

1st No Ryot shall be entitled to exemption from Seervajasty unless he hold and pay for the whole of the land entered in his Puttah for the previous year. The sale or transfer of a portion of Puttah land will be considered equivalent to an abandonment of it.-

2d The lands cultivated by means of a Well situated within the bed of Tank and which is under water when the tank is full shall be charged with Seervajasty.-

3d All lands converted from Dry to wet by means of Wells constructed within 10 Chains (330 feet) from tank or Channels shall be charged with Seervajasty if the lands are on

on such a level that the water of the Tank or Channel will flow to them.-

4th. The lands under new Wells shall hereafter be always charged with Tarwajasty whatever may be their position, if it be satisfactorily established that they have on any occasion been irrigated by the water of a Tank or Channel.-

5th. The first of these Rules is in strict conformity with Colonel Munro's Cowlenamah. Of course a Ryot would not be expected to pay for wet land left waste in consequence of a deficiency of water.-

6th. In the Second Rule the Well can only be viewed as a reservoir to contain a portion of the water of the Tank. The lands which form part of the bed of the Tanks, when it is full are thus frequently cultivated after the waters have subsided.-

7th. Wells within the distance specified in the 3d. Rule from Tanks and Channels and on such a level that the water will flow to them can only have been dug with the intention of fraudulently

making use of the Circar water and it never could have been the intention of Colonel Munro that lands so situated should be exempted from Tarwajasty if cultivated with wet Crops. The Channel from the tank to the bed is so short that it would be difficult to detect it, if the Cultivation were that of an influential Ryot.-

8th. No observations are required regarding the 4th. Rule.-

By

15891 Fort St. George 26th October 1843.

63. By the adoption of these Rules the Cultivators will still be entitled to the privilege which they formerly enjoyed while the Government will be protected from loss of Revenue and fraud.-

64 I have the honor to forward the Annual Report of the Sub Collector There does not appear to be any thing in it calling for observations from me.-

65 In conclusion, I beg to repeat

15892 Fort St. George 26th October 1843.

my acknowledgement of the assistance I have received from Mr. Cotton and Mr. Mayne, and to express my continued satisfaction with the conduct of the Head Sherishtadar.-

Cuddapah District Principal Collector's Office. Vundalore 14th October 1843.

/Signed/ W. C. Arbuthnot

Cuddapah 11th July 1843. Errors Excepted.

Signed W. U. Arbuthnot
Acting Principal Collector.

To

Fort St. George 26th October 1843.

To

W. H. Arbuthnot Esqr.

Acting Principal Collector

Cuddapah.

Sir,

I have the honor to submit the annual report on the settlement of this Sub Division for Fusly 1252 the usual accounts having been already forwarded to your Office. Last years Summa-bundy was made by Mr Cotton in the months of December, January, February and March, not having arrived till within a few days of the close of the Fusly, the following remarks are chiefly derived from information obtained in the Cutcherry.

2 The commencement of the season was favorable. sufficient rain fell in July to enable the Ryots generally to cultivate the Coosh Key

Fort St. George 26th October 1843.

and Bagayet lands. During the next three Months Cumbum and Budwail had rain enough to bring the Crops to maturity, but in Doopaud the fall was scanty. In November there was rain only in Budwail by which the Pyra Jonna was grown. An unseasonable fall of rain in January in Cumbum and Doopaud was rather detrimental than otherwise. There was much less water

3. in the tanks this year than in the preceding one. Of the three large tanks Cumbum, Budwail and Porumanillah, the first alone had water sufficient for the cultivation under it from the surplus water received in 1251. The other two were about ⅔ full of the smaller tanks 16 only were full. 68 were

Fort St. George 26th October 1843.

were half full or rather more, and 10 had about a fourth of what they usually held and 88 were left dry. Doopaud suffered most from this want of water, only 2 small tanks were filled the remainder received hardly any supply.—

4 The cultivation began at the proper season the Jonna Suzza arikilos and wheat Crops were pretty good. Of the Cotton and Bengal gram Crops not ¼ was saved they suffered much from the rains in January and from insects called Seeguloo. In Doopaud the Crops were bad from the want of rain but on an average thro' the whole sub Division from ½ to ¾ of the usual Crop was obtained on dry ground.

5 In Badwail there being great hopes of rain no limit was put to the cultivation under that tank and some crops were lost for want of sufficient water under the Cumbum

Fort St. George 26th October 1843.

tank there was limit fixed but in Doopaud and elsewhere it was necessary to do so, the Paddy Raghee Jonna Sugar cane and other such crops were however good, but the price of grain was very low and consequently much difficulty was experienced by the Ryots in paying the Cist the annexed Statement will shew the great decrease in the price of Grain during the last 5 years caused by the increase of cultivation of Paddy and by the want of an outlet for superabundant produce. the Guntoor and Palnaud Merchants having gradually contracted their purchases of rice and much less having been sent into the Kurnool Country.—

Statement shewing the prices of Grain in the Sub Division from Fusly 1248 to 52

Caboolaty for Fusly 1251 and 1252 in the Sub Division.

The

Fort St George 26th October 1843

7

The decrease here shewn is 25,874-1-3 but owing to the early season at which the Jummabundy was held much land was taken up afterwards amounting as noted in the Margin to 4,932-9-3 Ps and carried to account under the head of Tankejasty the net decrease therefore is reduced to 20,941-8-. Of this making the same deductions for land cultivated after the Jummabundy was made 12,005-.-5 comes under the head of Teerwajastee and Fusul jastee and is to be accounted for by the want of water in the Tanks, in the 4 other heads the decrease arises partly from the poverty of the Ryots and partly from the want in some Villages of hands to cultivate Lands thrown up by poorer runaway Ryots while the low prices obtained for produce offer no inducement to those who have money to extend their operations.-

Cooshey	500-4-6.
Bagayet	95-9-5
Jury	155-15-.
Poonasa	39-8-11
Teerwajastee	647-8-10
Fusuljastee	3493-10-7
	4,932-9-3

8

The difference observable in the amount of 2,895-12-. Cooshkey and Cadarumbum Lands is owing to certain Lands entered as

Fort St George 26th October 1843

under wells and Tanks thus coming under the head of Neelarumbum.-

9

In the Laul or red Land an increase of 6-15-14 acres is shewn in the quantity of land cultivated but the Sist is less by 745-11-7 Ps this is owing to changes in the classes of Land cultivated the ryots being always most anxious to throw up highly assessed Land and to cultivate that rated more moderately- this remark applies also to the Masub or Land of a mixed quality of soil mentioned in the next Statement-

10

Owing however to the want of water much Land agreed for was not sown- Statement No 3 shews the Quantity sown in this and the last Fasly.-

The

Fort St. George 26th October 1843.

11

The decrease is in Acres 4,590-9-11¼ in Rupees 60,305-13-4 from this as before explained is to be deducted 6,930-2-1 the amount of Land sown after the Jummabundy Tookoomajee accounts were sent in leaving a net decrease of Rupees 53,375-11-3 Viz.t on the 1st Crop in Lands under Tanks Rupees 38,438.-13-10. owing to the want of water in the Tanks on the 2nd Crop or Tuffulasty and Teerwajasty Rupees 11,788-10-9 and in Coorshkey and Bagayat and Land under wells 3,148-2-8. In Fusly 1251 a large quantity of Bagayet lands was cultivated within this limit of the Cumbum Lake the waters being very low in July but the Tanks

Fort St. George 26th October 1843

filled in September before the crop was off the ground and most of it was lost on this account and there being much water in the Tank at the early part of the Fusly the Ryots were afraid to cultivate this Land again. the remaining decrease is on Lands left uncultivated on account of the death poverty and flight of the Ryots.-

12.

Agreeably to the order of the Board all remissions were settled at the time of Jummabundy.-

Beg Buny or remission

Beg remission

Beg Buny or Remission

As

Fort St George 26th October 1843

13 As per Statement N: the total increase in the amount of remission granted is Rupees 21,930-12-. under the head of Bunjer Raitee there is an increase of Rupees 3899-5-2-6 .. from this however must be deducted Rupees 1997-8-10 the difference between the Land sown after the Caboolaty and Jookum-rajee accounts were made up, the cause of this large increase was the General Scarcity of water which prevented the Ryots cultivating.-

Land sown after the Summabundy in excess of the Jookumrajee accounts 6930-2-1.
Do Do Do in excess of the Caboolaty account 4,932-9-3.
Net - 1997-8-10

14 The remission for Land sown within Tanks and flooded Peravia-boodity, shows a Decrease of 508-10-8 nos: of this year's Crops thus sown in the Cumbum and Budwail Talooks came to maturity, last year they were destroyed in Doopaud however the Revenue was the case, much of this year's Crop being destroyed by the rise of the water in the Tanks and most of this remission was given in this Talook.-

15 Thury Bondoo, the increase under this head is 2,005-4-11. In Doopaud

Fort St George 26th October 1843

there was no remission under this head the Land being left waste water on account of the Scarcity of water- In Cumbum only 21-5-10 was granted the rest was for Budwail where the Ryots were induced to cultivate largely hoping for a supply of water in the Tanks- The Crops that failed were examined by the native Revenue Officers, and in several cases where doubt existed by Mr Cotton.

16. The Jeerwacummy is less by 1023-4-8. than in the preceding year, the Land of the Village of Conasamoodrum has for many years been considered too highly assessed a 2s remission of Rupees 599-5-2- was granted in 1251- this year the 2s Crop was not cultivated till the Summabundy was over, it is entered under the head of Jankie-jastee and remission given as such in the Current Fusly the rate of assessment has been reduced as authorized by the Board's Proceedings of 13th February 1843.

The Budwail Tank burst in

16033 Fort St George 26th October 1843.

in Fasly 1232. and for part of the Land destroyed by the water a Cowle has been given and remission of 13-2- granted under the head of Payamally.-

18 Tezai Choutai. The decrease in these two heads is consequent on a smaller quantity of Land being cultivated and therefore smaller remission being required.

19 Cuttoogoottah &c. In Budwa and Doopaud most of the Land held under these heads are under Tanks and were not cultivated. One Ryot whose Land was classed under the head of Coimee Cowla charem was transferred to the Tezai account, his Cowle not appearing to the Sub Collector to be a genuine one.-

20 The remaing heads require no detailed remarks the amount of remission being less because less ground was cultivated than usual.-

21 The amount of Sist levied on Lands agreed for but left waste in the Fasly under review is Rupees 9,327-7-3 above that of Fasly 1251. In former years persons cultivating Cooshkey Land under

16034 Fort St. George 26th October 1843.

16.

new wells and leaving land under old wells unsown had to pay full sist on all or part according to their circumstances. Now in accordance with the view taken by the Board of Revenue as expressed in their Proceedings of 12th September 1842 remission is granted on the waste lands Teeruvajastee being collected on that sown or as much as equals the full sist of the land there being no fixed rule for refusing or granting remissions. In Fasly 1251 Mr. Cotton directed that when land was left Punjer the usual remission of ¼ on the lands cultivated by the Ryot should be deducted from the remission granted him, but it was found difficult to carry this plan out and this year owing to the low prices and want of water it failed completely, the per centage as shown by the following Account is therefore rather larger than in Fasly 1251.-

Comparative

16036 Fort St. George 26th October 1843

22. After deducting all these remissions the following Statement of the Land Revenue Demand for Fusly 1252 shows a deficiency of 46492-10-4 as Compared with the preceding fusly.—
