Read the following letter

To

C. C. Lovell Esqr.
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

31

From J. Scott Esqr.
Agent to the
Government of Fort St. George
at Nurnaul

Submitting an Estimate for the sanction of the Board for the articles &c required for the use of the English Department and also requesting to be informed whether he is to indent on the Commissariat Department for the above or have them made up by himself.—

1.— I have the honor to submit an Estimate of Extra charges proposed to be incurred in this year for which I request to have the sanction of the Board.—

2.— The nature of the Statements and Forms required to be forwarded in English to the Board, Accountant General, Civil Auditor, and Sudr Adalut, require them to be written on tables, or desks, and to expect an efficient and responsible discharge of their duties, it appears necessary that the Writers and Accountants and Translators in the English department should be furnished with the latter, which I propose to have made in the simplest manner, and to open at the top so that each man may be able

quantity

Fort St. George 20th October 1843.

able at the end of the day to put away carefully, and in short free of being soiled the papers on which he may be engaged. Having no convenience of this sort they are now either all bundled up together and put into a large box, or tied up in cloths and left in the Cutcherry.

3. The Almirah I consider very useful for such English correspondence and papers as are being continually referred to, and if I mistake not, one or more will be found in every Collectors Office.

4. The presses are required for the Books without them he is unable to make the book covers for the English Correspondence.

5. I also beg to be informed whether I should indent for these things on the Commissariat Department or whether I shall have them made up myself.

I have &c.
(Signed) S. Scott
Agent to the Governor of Fort St. George
16th October 1843

Fort St. George 20th October 1843.

Order thereon (vide remarks 30th October).

Ordered to be brought forward at a future day.

(31-32)

To,
C. E. Lovell Esqr.
Acting Secretary to the
Board of Revenue
Fort St. George

(33)

From the Collr. of Chingleput

Sir,

With reference to the Board's Proceedings of the 12th December 1842 and to your letter of the 25th Ultimo, I have the honor to forward the accompanying Grant in the name of His Highness the Nabob for the Garden situated at the foot of the Saint Thomas' Mount

16049 Fort St. George 26th October 1843.

Mount and claimed by Mrs. Chambers as stated in Para 6 of my letter of the 29th August 1842 — but which claim has been rejected by the Board and Government.—

Chinglepet District
Coll.rs Cutcherry—
Collectorney 18 October 1843.

Signed J.P. Freese
Collector

Order thereon
Letter to the Coll.r 6th Nov.r—
(33-34)

Ordered to be brought forward at a future Meeting.—

To

16050 Fort St. George 26th October 1843.

To
C. C. Lovell Esq.re
Acting Secretary to the
Board of Revenue
Fort St. George

(35)

From the Coll.r of Chinglepet—

Sir,

Reporting on the Settlement of Extra Sources of Revenue for Fasly 1252 and 1253 Fs. submitting the annual Statements—

Para 1—

Vide Enclosures ABC and No.1 & 4 with a Pundits Statement in Triplicate.—

In laying before the Board the accompanying Statements of the Extra Sources of Revenue for Fasly 1252 1253 Fs. I have the honor to state that the Gross Revenue Amounted to Rupees 55,007-14-8 which is below the Revenue of the preceding year by Rupees 8,015-5-6 or 13⅛ per Cent. The increase and decrease under each head are hereunder shewn.—

				Decr.e

Fort St George 26th October 1843.

2. Under the head of Salt there is a decrease of Rupees 63503-14-0 in the Sales for Home and Inland consumption and of Rupees 37457 in that issued for exportation to Calcutta amounting together to Rupees 100960-14-0 but in the first mentioned amount is included the sum of Rupees 7533-14-0 plundered from the Nadasemmungary Salt Cutcherry which had not then been brought to account. This sum being deducted the actual decrease in the Inland Sales is reduced to Rupees 55970 and which I must attribute to the Bunjaries and other Salt Dealers having for a period been prevented from resorting to the Pans in the usual number by the heavy rains of January and May, and more particularly by the prevalence of Cholera and mortality raging amongst the Cattle.

3 Some small portion of the decrease in the Southern Pans is also I conceive attributable to the difference in the shape of the measure by which Salt is received and sold in this District and at Mercanum in the Southern Division of

Vide letters to Board dated 19th and 23rd September 1843.

Fort St George 26th October 1843.

Arcot. Here the Measure is a deep and narrow measure so that even if the measurer do not strike the Salt exactly level with the rim of the measure there is very little excess of quantity whereas in the Mercanum Pans the measure is a broad and shallow one so that a very trifling excess above the rim amounts to a large percentage. I have however brought this circumstance to the notice of the Acting Collector as different systems of measurement in adjoining Pans is objectionable, and the measure in use here corresponds with that

24th June 1820 forwarded by the Inspector General of Civil Estimates. A similar difference till lately existed in the Pans of Reddypollium of North Arcot which are adjacent to the Soonampagoontah Pans of this District, but the Collector has since caused his Measures to be made,

31st May 1814 according to the Standard measure under instructions from the Board.

4 The increase of Sales for Home and Inland consumption at the Mercanum Pans in the past compared with the preceding Fasly appear

Rice

Port St George 26th October 1843.

from the Returns furnished to me by the Collector of South Arcot to amount to Rupees 51139-3-3 whilst the decrease in our two Southern Cotaurs of Chayoor and Chinnambut Amounted to Rupees 8703-7-" but the Acting Collector of South Arcot has at the same time informed me that his sales are not above the average of former years.-

5.- The decrease in the sales for exportation may be attributed to the want of Tonnage and the number of Vessels that have found more profitable employment in conveying coties to the Mauritius.-

6.- The salt transactions of the current year are progressing more favorably the Inland sales up to the 15th Instant exceeding those to the same period of the past year in Rupees 55099-3-" and the issues for exportation in Rupees 41979-"-" making a total increase of Rupees 97073-3-"-

7 The Net decrease under the general head of customs is Rupees 92-4-2 but deducting the Amount levied on account of Sea Customs duties Rupees 1-1-0 on the stores of Vessels wrecked on the Shore of

Port St George 26th October 1843.-

of this District during the Sale of May there is an actual decrease in the Collections on account of Land Customs amounting to Rupees 1406-5-8- Of this sum Rupees 815 is the difference in the amount for which the Betel Leaf farm was rented in the past compared with the preceding year, the extensive injury sustained in the Betel plantations during the Storm of May having occasioned a corresponding decrease on the Tenders, whilst the balance of Rupees 591-5-8 arises chiefly from a falling off in the duties on Cloth caused by the combination of the weavers and the temporary suspension of their occupation in consequence of the introduction of the Loom tax under the orders of the Board.-

8.- The increase of Rupees 8500 under the head of Abkarry has arisen from that branch of Revenue having been rented at public auction for 3 years in July 1852 to 1854 at an annual sum so much exceeding the rent of the preceding Sale. The circumstances under which

Fort St George 26th October 1843.

which this post was transferred from the nominal Renters to Moorta Pinnial are known to the Board, they having been the subject of the correspondence noted in the Margin.

Ft. Dis. 27th May 1843 from Dis. Collr. to Ft. 29th do. from do. 4th July

9 The increase in sundry small farms and Licenses is so small as Rupees 36-15-2 and therefore requires no explanation.

10 There is a large increase in the demand for Motorpha Revenue Viz. Rupees 7,522-7-5 arising from the general introduction of the Loom Tax under the orders of the Board. A Statement shewing in detail the number of Looms formerly and recently taxed with the different rates of assessment is herewith submitted for the Board's information, from which it will be observed that the rates vary from 1 to 16 Rupees per Loom. The rates formerly proposed by my predecessor Mr. Maclean varied from 2 to 5 Rupees, but this reduction was found expedient. The weavers having continuously refused to class themselves with a view to evade the imposition of the tax I was obliged to settle the rates myself but this was done with great care and after prolonged enquiry regarding the

2 January 1843 No 5

Fort St George 26th October 1843.

the description of cloth woven by each class and their average profits, and the Board will I think on a review of the rates fixed consider them moderate and appropriate. There has been an increase in the number of Looms subsequent to Mr. Maclean's Report so that the number now subjected to that Tax is 5754 in the whole District and the amount of the tax per annum is Rupees 15950 or on an average Rupees 2-12-4 per Loom. Half of the demand newly imposed has however been foregone for the past fasly under the Board's instructions

Dated 23d November 1834 Loom Annual Tax Formerly taxed 344-12-0 Now taxed 5411-8-0 Total 5754-20-0

Dated 2d Augt 1843

in consequence of the tax not having been introduced until the first half of the year had expired.

11 The decrease of Rupees 2021-0-0 in Stamps is attributable to a reduction on the sale of stamp paper for suits and to the reduced extent of Miscellaneous business in the Civil Court arising from the introduction of what has been denominated the pauper system in the execution of decrees.

12 The demand Collection and Balance under each head of the Extra Sources in Fasly 1252 are shewn in the subjoined Statement.

Order thereon.

35 - 36

Ordered to be sent again in circulation.

37

To C. C. Lovell Esqre
Acting Secretary to the
Board of Revenue.

Sir,

From the Collr. of Chingleput. 3 Encl.

With reference to the Extract from the Proceedings of the Board of Revenue under date the 28th August, calling upon me to report whether the adoption of Venkataramanjooloo, by the late Shrotriemdar of Poottoocand is Valid, in point of Law, I have the honor to state for the information of the Board that, on enquiry it has been ascertained that during the illness, his brother Saguemadasawmy Naik, on the 13th of Auney of the Year Soobacrooloo, presented to him for adoption his Second Son Venkataramanjooloo, then aged 4 years, when Seetarama Naik in the presence of his two Wives received the Boy, and acknowledged him as his adopted Son, and on this occasion the usual ceremonies are also stated to have been performed in the presence of the Relatives and Priest. When Seetarama Naik subsequently died, his funeral obsequies were performed by the said

23 June 1842

16078

said Lad, and he has since been recog-

-nized as the heir and representative

of the deceased.

2. Under these circumstances

the adoption of Venkataramanjooloo

appears to be full and unquestionable.

3. Should the Government

resolve to acknowledge the adoption,

and continue the Shrotriem to the

minor as the 3d life, it will be

requisite to resolve to whom

the management shall be entrust-

-ed. The Father of the Boy

is

Fort St. George 26th. October 1843.

is not certainly a proper Guardian, and he is also now in the Debtors Jail of Madras; but the trust might be reposed in Moorty Ummall the Widow of Dr. Sawmy Naik the Mother of the deceased Seetarama Naik; and to whom Sawmy Naik left the bulk of his Property.—

Chingleput District,
Collector's Cutcherry,
Pullicarnay 21st. October 1843.

/Signed/ A. Freese
Collector.

Ordered that the foregoing letter be submitted with the following address.

To

Fort St. George 26th October 1843.

To

The Chief Secretary to Government

(37-38)

To the Chief Secy. to Government / Inf. 28th Augt 1843.

With reference to the Extract from the Minutes of Consultation under date 12th. August last.— I am directed by the Board of Revenue to forward for submission to the Most Noble the Governor in Council the accompanying letter from the Collector of Chingleput 21st inst. & 26th Octr. 1843. from which there appears no doubt of the adoption of Venkataramanyadoo by the late Seetarama Naik Shrotriemdar of Ootoocaud being valid in point of law.—

2. If the Government shall be pleased to order the Shrotrium to be continued to Venkata Ramanyadoo who is now only five years old as the 3rd. life. The Board propose in their capacity of Court of Wards to nominate Moorty Ummall the Mother of Seetarama Naik as Guardian of the Minor.—

Revenue Board Office,
Fort St. George 26th October 1843.

/Signed/ E. C. Lovell
Acting Secretary.

(42)

(Here enter No 86)

Proceedings thereon.

Relative to the management of the Extra Sources of revenue in the district of Salem for Fusly 1252.

Current demand,
1257 - 345629-4-8
1252 - 345058-6-3
decrease - 570-14-5

1 The total demand in all sources of Extra Revenue for the Fusly under review was Rupees 345058-6-3. being Rupees 570-14-5. below the settlement of the preceding year a decrease of 108. 7-10. in the charges reduces the difference on the Net Revenue of the two fuslies to Rupees 462-6-7. as shewn in the Margin.

Charges
1257 - 30425-12-11
1252 - 30337-4-2
decrease - 108-7-10

Net Revenue not including Extra Collection
1257 - 315183-8-8
1252 - 314721-2-1
Net decrease 462-6-7

The fluctuations under the several heads of extra Revenue do not appear to call for much remark.

In

Fort St George 26th October 1843.

Sayer.

2 In the amount realized from the 5 per cent transit duty there has been an increase above 1257/1841/42 of 3107-11-7. principally in Cloths, Castor oil seeds, Ghee &c. This has been nearly counterbalanced by the falling off in the Betel and Tobacco rents which from diminished competition were 2,900 below those of the year antecedent. There is a decrease of 187-10-9 in the charges, giving an increase in the Net Sayer revenue of 1252/42/43 above that of 1257/41/42 of Rupees 395-6-4. The whole had been collected.

Demand
1257 - 160391-13-9
1252 - 160599-9-4
Increase - 207-11-7

Charges
1257 - 19185-13-1
1252 - 18998-2-4
decrease - 187-10-9

Net Revenue
1257 - 141206-8
1252 - 141601-7-11
Increase - 395-6-4

Abkarry.

3. For reasons given in Mr Gleig's letter of 21st June 1842 submitted to Government 8th July the Abkarry Rents of Fusly 1252 fell 7,766 below those of the year antecedent though they exceeded by 4313 the average of the three fuslies A.D. 1842/43. 1248/38/39 — 49/39/40 — 50/40/41. The whole has been realized.

1257 - 86116
1252 - 78350
decrease 7766

Sr Gleig 30th June 1842

Small Farms

4. The demand on this source of extra Revenue was less by Rupees 593-5-8 than that of Fusly 1257/A.D. 1841/42 the decrease is principally (Rupees 564-12) in the Tamarind rent occasioned. it would seem from deficient produce Rupees 11-2-8. only are

Demand
1257 - 9609-0-5
1252 - 9015-10-9
decrease 593-5-8

Fort St George 26th October 1843.

ase outstanding and will be collected hereafter.

Moturpha Demand
1251 75345-12-4
1252 82057-10-6
Increase 6711-14-2

5 The total demand on account of Moturpha exceeds by 6711—14—2 that for 1251 the increase is entirely in the dry Moturpha and of it, Rupees 2105- is the tax on Carts which has hitherto been entered under the head of Extra Collections but now included in the Moturpha - In the Loom tax there is a decrease of 303—15—6. This trifling difference would not need remark were it not that the trade in Cloths would appear from the Sayer to have improved which would lead the Board to expect an increase rather than a falling off in the tax on Looms - Deducting charges the net Revenue is Rupees 79,632—14—2 of which 487—5—11 is still due - The recovery of 237—5—11 of this balance seems doubtful—

Stamps -
1251 - 16377-9-4
1252 - 17460-4-4
Increase 1082-11-4

6. There is an increase in the revenue derived both from stamped papers and Rowannahs - The former from increased litigation, the latter from greater exportation of piece Goods.—

Extra Collections
1251 - 5620-4-6
1252 - 8132-4-8
Increase 2512-0-2

7 The extra Collections of the Fusly under consideration exceed those of the preceding year by Rupees 2512—0—2 the

Fort St George 26th October 1843.

principal increase has been in Moturpha - the sums realized from tax on Carts from 1839 to 1841, which were before in deposit having been brought to the dry account under sanction of Government given 31st December 1842.—

Inclos 13 Pags.
Old Balances.

8 Of the arrears of Extra Revenue on account of former fusles outstanding at the commencement of Fusly 1252 (1842/43) being 2345—11—3. all has been collected except Rupees 170-0-9. balance of Moturpha for 1250—57 (40/41. 41/42) which for reasons stated in the Report seems irrecoverable and the Board concur with Mr Lockhart in recommending that it should be written off.

The total Net Revenue realized

1251 - 318901-8-8
1252 - 324085-0-5
Increase - 5183-15-9

9 on all branches including current arrears, and extra Collections amounted to Rupees 324085-0-5 being Rupees 5183—15-9 above the Net outturn of Fusly 1251 (A.D. 1841/42). This result is satisfactory.

Ordered that a Copy of the foregoing Extract from the Board's Proceedings together with the annexed Comparative Statement of Demand Collection and Balance be submitted to Government and a transcript of the same be forwarded to the Acting Principal Collector of Salem for his information and guidance.—

(46)

From the Asg Pl Collr of Salem - Sir

With reference to your letter of the 2nd Instant, I have the honor to inform you that in the Sundry small farms and licences rented in this District, an item Vizt Vapaulay leaves is let out in the Talooks of Denkencottah and Osseor the leaf is used for dying Cloth, and as it is the common growth of the Jungle the public notwithstanding its being farmed out, collect them to the annoyance of the renter which it is impossible to prevent and it has been frequently the subject of complaint, so much so, that in Fusly 1252 it has been given out for only 3 Rupees, there being little demands for it and as it is a petty farm and the renting of it is attended with annoyance between the public and the renter, I would recommend its discontinuance. the amount realized on the said article, during the past 10 Fushes is as follows.-

Sir

47
From the Aty. Collr of South Arcot
Forwarding a statement shewing the amount realized during the last 10 years by the Rent of Chanks Washermens Earth and Rattans and on the several items comprizing the rent of small farms in his District for fasly 1252.
Rd 1st Oct. 1843.

Para 1 With reference to your letter, I have the honor to forward herewith a Statement shewing the amount derived for 10 years from the rent of three articles that I consider objectionable viz. Chanks, Washermans Earth and Rattans and of the several petty farms which are generally rented.—

2. The privelege of purchasing the Chanks taken by the fishermen from that part of the Sea between Murkanum and Killay is rented for so small a sum, that the profit arising to the renter can be but trifling while its being given to the fishermen for their own benefit would be much more advantagously disposed of, and I think the abolition of the rent would be a great indulgence to the poor people who procure the article in question.

3. This Earth is used by the Washermen for bleaching Cloths, as well as for making Soap. It is found in certain Villages in the limits of the Villapooram and

1609

Fort St George 26th October 1843.

and Tindevanum Talooks and is annually rented, but the offers of it vary with reference to the extent of blue Cloth Manufactured at Pondicherry. The inhabitants in the neighbourhood might earn a scanty maintenance by the disposal of it on their own account as well as its being of great utility to that hard working class the Washermen. I am therefore of opinion that the rent of this Article should be discontinued.—

4. The Rattan is a spontaneous produce of the Jungles in the vicinity of The Trivaddy Talook in which neighbourhood a great number of Basket makers reside whose means of subsistance is materially affected by the rent of this Article. The extent of its produce is not great and the Rattan is so inferior in quality that I think this rent might be abolished in favor of the above class who earn a livelihood by the produce.

1258	3,107	171	4,32,180
1259	3,107	171	4,32,180

Decrease 182-29-6. 19067-12-11

Increase of 182-29-6 or Rupees 19067-12-11 in the year 1252 Fusly

and compared with the sales of last year, Large as this falling off may appear, it is not greater than was anticipated but more particularly in Fusly 1257 and 1259 Fusly from the extraordinary nature of the times. The Low price of grain in Tanjore for 3 successive Years, has been kept down by precedent, and the Ryots Inclined for Money for the Payment of their Revenue demands that it became necessary for them to limit their expenditure in all Articles which could be dispensed with, Salt being one of the most expensive articles of consumption, the Ryots have been obliged to use it sparingly as it is possible - The Inner Classes as Pareahs &c Cooliers &c cannot be said to have benefitted by the Cheapness of Salt as they receive their wages in grain in the Marketable, the Price of which being kept down for their Labour not in Money but grain, and this in no greater quantity than Usuals - This grain they have exchanged for Salt and other necessaries of life at the rate at which grain was selling in the Bazar, and consequently receiving a smaller quantity of Salt in proportion to the Wages of the grain Trader

Fort St George 26th October 1843-

Under those circumstances the temptation to purchase illicitly manufactured Salt at a Cheaper rate, or to make use of earth Salt, which in many parts of the District grows at the very doors of the people could hardly be withstood, and though every precaution was taken to protect the interests of Government, I have no doubt that very many persons have had recourse to the use of the earth Salt from necessity, who in ordinary seasons would have been regular purchasers in the Bazar.—

5- A further decrease in the Home Consumption has arisen in consequence of the almost total failure in the Mango and Tamarind Crops, large quantities of these fruits are generally preserved and pickled in Salt, for which purpose little or none was expended this year, owing to the barrenness of the trees- I can myself bear witness to the failure in the Tamarind produce, having visited the large topes in the Suttoocottah Talook at the time they should have been in full bearing: few trees had any fruit at all on them, and most had barely enough to pay for its gathering.—

6- In renting the privilege of selling Salt within certain limits in the vicinity of the pans which comes under the Head of Home Consumption a decrease of 30 Garces below the rents of last year has arisen in consequence of [illegible]

Fort St George 26th October 1843-

Fuslies	amount-

1251	3,91,198
Total	74,79,623
Average	3,73,981
1252	3,81,257
Excess	7,276

7. The marginal Statement exhibiting the Sales of Salt for the last 20 years, shews how liable this branch of the Revenue is to fluctuation, and comparing the amount realized in the year under report with the average of the preceding years- there is an excess above the average of Rupees 7,276-—

Inland Consumption-

	G-	m	Rs	A	P
Fusly 1251—	572-	185--	5,808-	9-	--
" 1252-	629-	150--	6,483-	6-	--
Increase-	56—	865--	675—	13—	--

There is an increase under this Head

	G	m	Rs
of	56	365	--

or Rupees 675—13—-- compared with the sales of last year- This increase may perhaps be partly attributed to the constant watchfulness which has been kept up, to prevent as much as possible the transport of Poodoocottah Salt thro the District thus driving the Merchants to purchase at the pans. The trade in this article may be checked, but cannot, I am persuaded be prevented altogether under the present system, the employment of a very large establishment would be required on the boundary of Tanjore and that dividing Trichinopoly and Tanjore territory, the cost of which would hardly be repaired by the benefit gained.—

1252	36-130-0-	3814	2	0
Decrease	3-230-0-	375	6	0

In the sales for Karraicaul and Tranquebar a Slight decrease is shewn amounting to Rupees 481-

11- The Government in the 8th Para of the Extract from the Minutes of Consultation on the Extra Sooze Report of Fusly 1251 require information regarding the final Settlement of the question between Tranquebar and the Government, relative to a proposed reduction in the price of Salt supplied to the Danish Settlement- Seventy five Rupees per Garce was the price at which it was proposed to sell Salt to that Government, on their undertaking to purchase sufficient for the consumption of the Settlement, but the reduction was not considered sufficient by the Governor of Tranquebar, who proposed 50 Rupees per Garce as the final sum to which he would consent; so great a reduction not being

considered advisable, or likely to be attended with any corresponding benefit to the English Government, the terms were declined, and the Salt has since been sold at the former rate i-e Rupees 105- per Garce-

12- In the Sayer Summa there is a Net decrease of Rupees 5,494-10-1-

Decrease			

Net Increase - 2202 11 2

Fort St. George 26th October 1843.

25- The chief item of increase in stamps is under the Head of Judicial papers required for Civil Suits, and the numerous money transactions Mortgages &c. which taken place between Meerasdars and money lenders. a decrease in Sayer Rowannahs has attended a decrease in that branch of the Revenue—

26- The annexed amount of Balance at the end of the Fusly has been all received into the Treasury, since the expiration of the Fusly.—

Rs 24454-4-4-

27- The sum annexed is the balance outstanding against the Chank Renter formerly confined as a defaulter but released as per order of the Board dated 28th November 1842. This sum is irrecoverable, and instructions are solicited for writing off the amount to profit and loss.—

† Rs 273-13-10-

28- In concluding my Report on

Fort St. George 26th October 1843.

on the Extra Sources of Revenue I have great pleasure in again bearing witness to the Zeal and ability evinced by Mr. Cook my Head Assistant in the Management of the Departments under his immediate charge i.e. the Salt, Sea Custom and Frontier Collections.—

Tanjore 13th October 1843.

Signed J. F. Bishop
Asst Collector

From W. Onslow Esqr. Collr. of Trichinopoly &

Sir,

In obedience to the instruction contained in your letter of the 2nd. Instant, I have the honor to transmit the proceedings Connected with the Petition† hereunto returned.

†No. 813 of 1843

The substance of the case being given in Mr. Woodgates decision, it seems unnecessary for me to make any observation but that the appeal was preferred irregularly.

Trichinopoly Collr. Office, 11th. October 1843.

[signed] W. P. Onslow
Collector.

Circar
Vers.

Murdanaigum Pilly Curnum of Cotharapatty Conaud. Charged as follows.

1st. With having collected from the Ryots Rupees 5—5—9. which is the amount remitted by Circar on account of waste lands.

2d. For not having brought to the Circar account certain extent of Modalady and Talady lands cultivated by certain Ryots, but of having collected the assessment from them and of having appropriated

appropriated it to his own use.

3d. with having made excess collections from the Ryots.

4th. With having allowed one Alagavalan Potmaker to enjoy half the produce of 2 Cawnies of Poonjah land which was cultivated by Moothoonen free of Rent, and fraudulently collected 2 Rupees yearly or 12 Rupees for 6 years from the latter.

5th. With having inserted in the Curnams Puttah the land belonging to Chinna Royen.

6th. With having collected a certain sum as Rent on the land cultivated after the conclusion of the Settlement of Fusly 1251 and not bringing to Dowlejasty account but after the complaint. the Curnum dent one account to the Talook for Rupees 3—11—. when the actual assessment amounted to Rupees 4—11—.

7th. The average Teerwa per Cawny stands at 28½ Fms. the Curnum has fixed 33½ Fms. for the land Cultivated.

8th. For having failed to Cultivate certain extent of Punjah Land situated under a ruined Tank which he had engaged to Cultivate and for which an advance was made of 35 Rupees for its repair.

9 With having received from certain Ryots Rupees

Rupees 11—12 - which he was to credit to their Kist but which he failed to do..

The Tahsildar of Conaud investigated this complaint and submitted his Proceedings to Hoozoor, the sum total exceeding 50 Rupees— The case is examined under Section Regulation IX 1822..

The Curnum denies the charges above mentioned. but admits that he collected 8/4 Rupees in excess on account of his Salary and for the deficiency of Maramut Money; and that he Collected 4½ Rupees from Soobramonia Chitty and 3 others on account of Dawle jasty. He also appropriated 3 Rupees of Baba expence when he went to Summabundy. but afterwards credited it to the Circar. He did this with the consent of two Ryots. Veeragounden and Singa Gounden.

1st With regard to the 1st charge it appears from an examination of the Thundul Coorishpoo account which is written by the Curnum himself that the total assessment on the land laid waste by 62 individuals was Rupees 111—11— that the remission allowed by Circar on that account was Rupees 4—15— which leaves a balance to be collected from the Ryots of Rupees 106—12— The Curnum however has collected Rupees 114—11—6-

which is 7—15—6- above the actual demand. Pozaigounda, Mutha Goundan and Andy Pozaigounda, Mutha Goundan and Andy depose that no remission was allowed them- that the Curnum collected the assess- ment but that they do not exactly know what the sum was (so collected:)—

2nd Respecting the 2nd charge the evidence of Poyacone Chinna Vemblagaren and Raman is not corroborated by other proofs or documents it cannot therefore be satisfactorily proved.-

3rd charge:— The Curnum in his Collec- tion Account states, that in Fusly 1250, the Bereeze was Rs 1,454—12- The Collections made by the Curnum amounted to 1,452— Rs 14—6, leaving a balance of only Rs 1—13—6, but the balance he states to be due by the Ryots is 13—4—8 which is 11—7—2 above the actual balance, so that it is plain the Curnum has appropriated this to his own use.-

The Bereeze of Fusly 1251 amounted to Rupees 1,395—15—7½ the actual sum collected from the Ryots 1,414—12-3 Excess of Collection

Rupees 11—12 - which he was to credit to their heirs but which he failed to do.

The Tahsildar of Conaud investigated this complaint and submitted his Proceedings to Hoozoor, the sum total exceeding 50 Rupees. The case is examined under Section A Regulation IX. 1822.

The Curnum denies the charges above mentioned. but admits that he collected 8/4 Rupees in excess on account of his Salary and for the deficiency of Maramut Money; and that he collected 4/2 Rupees from Soobramonia Chitty and 3 others on account of Dowle jasty. He also excepts appropriated 3 Rupees of Baba expence when he went to Summabundy. but afterwards credited it to the Circar. He did this with the consent of two Ryots. Veeragounden and Singa Gounden.

1st With regard to the 1st charge it appears from an examination of the Thundul Coorippoo account which is written by the Curnum himself that the total assessment on the land laid waste by 62 individuals was Rupees 111—11— that the remission allowed by Circar on that account was Rupees 4—15— which leaves a balance to be collected from the Ryots of Rupees 106—12— The Curnum however has collected Rupees 114—11—6-

which is Rs 7—a 15—p 6- above the actual demands. Pozaigounda, Kuba Gounden and Andy depose that no remission was allowed them. that the Curnum collected the assessment but that they do not exactly know what the sum was (so collected.)=

2nd Respecting the 2nd charge the evidence of Poyacone Chinna Emblagaren and Raman is not corroborated by other proofs or documents it cannot therefore be satisfactorily proved.-

3rd Charge:= The Curnum in his Collection Account states that in Fusly 1250, the Bereeze was Rs 1,454—a 12- The collections made by the Curnum amounted to 1,452—4—p 6, leaving a balance of only Rs 1—a 13—p 6, but the balance he states to be due by the Ryots is 13—4—8 which is 11—7—2 above the actual balance, so that it is plain the Curnum has appropriated this to his own use.-

The Bereeze of Fusly 1251 amounted to Rupees 1,395—15—7½ the actual sum collected from the Ryots 1,414—12-3 Excess Collection

Fort St. George 26th October 1843.

Collection above the demand amounts to Rupees 39—6—11, Notwithstanding which the Curnum makes the balance due by the Ryots to be Rupees 20—10—3. The Curnum acknowledges that the accounts were written by him and admits that he is responsible for its contents.

4th Charge. It is proved by the deposition of Alagavalan (a Potmaker) and Poyacone that 2 Cawnies of Poonjah land was allowed to be enjoyed free of Rent. but the charge of having collected 12 Rupees for five years from the same man (Poyacone) is not corroborated.

5th Charge. From an examination of the field war Accounts it appears that in a field called Peenal-kirtoo-Cullay Cawnies 1—10—5 stands in Fusly 1251 in the name of Chinna Pyen who held it from Fusly 49—but in Fusly 50—21/4 Goolies of the above land was entered in the name of the Curnums Father.

6th Charge The Curnum acknowledges to have collected 3 Rupees in the month of Chittery or Vyasy with the consent of two Ryots

Fort St. George 26th October 1843.

by name Veera Gounden and Singa Gounden that he appropriated that for his own expences but with an intention of repaying the Circar. 7th Not proved. The Curnum does not appear to have rated the lands above what was necessary and usual.

8th The Tank was out of order. Curnum received an advance of 17 Rupees in 1829 and also a further sum 1830—Total 37 Rupees. The Tahsildar states 36—11—0 have been expended on the Tank. but there is no Document to shew that the Curnum ever agreed to Cultivate the land under it.

9th This Charge is proved by chits in the Curnums Handwriting that he did receive 11—12. from Theelamala Gounden and two others. The Money was given to the Curnam in the years Velumby and Vekarry 1837 and 1838. The Statement after so long a period is unsatisfactory. The charge does not come under Regulation IV 1822.

The sums proved therefore against the Curnam are.

1st	Excess Cultivation on account of waste land	Fusly 1251	8	7—15—6	
2nd	Do. Do. beyond actual demand	1250	—	11—7—2	
3rd	Do. Do. as shewn above	1251	—	39—6—11	
			Total	58—13—7	
	Amount of Collection made for Dowlaisty in Fusly 1251. appropriated to his own use by his own admission in 6th Charge			3 " "	
	leaving Grand Total			61 13 7	

16136 Fort St. George 26th October 1843.

I recommend that the Curnum be fined in double the amount proved to have been collected by him Viz.t Rs. 123 As. 11 P. 2. and that he be dismissed under Regulation IX 1822.-

Trichinopoly 9th January 1843

[Signed] C. H. Woodgate
Head Asst. Collector.

I concur in the justice of the above decision but think it expedient to reduce the amount to be collected from the Curnum to Rupees 70. Murdanai Rum Pillay is accordingly sentenced to pay the above sum under Clause 1st Section V, Regulation IX of 1822 - If he is dissatisfied with this decision he is at liberty to send me an appeal to be forwarded to the Board of Revenue within 3 Months from the day on which this decision shall be delivered to him.-

Copy of decision delivered 8th February 1843.-

66

Sir,

From A.D. Onslow Esq. Collr of Trichinopoly

When I wrote my letter of the 10th Instant I was under the impression that Shashagherry Rao was still drawing pay and liable to do duty under Mr. Blackburne, having ascertained that this is not the case I have issued an order to Shashagherry Rao to

to repair to my Cutcherry.

Trichinopoly
Coll.r's Cutcherry
18th October 1843.

Signed / A. P. Onslow
Collector.

Order thereon.

Ordered to be recorded.
Read the following letter.

(66-67)

To,

C. C. Lovell Esqre.
Acting Secretary to the
Board of Revenue

(68)

From H. C. Wroughton Esq.
Principal Collector
of Coimbatore

Sir,

Explaining the reasons under which Ramakistna Pundit the Head Sheristadar is entitled to draw pay from 11th December 1841 to 27th January 1842 & requesting sanction for the amount paid.

I / The labors of the Fasly having terminated I now with pleasure advert to your letter of the 19th June 1843, with reference to the pecuniary interests of my Head Seristadar Ramkistna Pundit, the wording of which would appear to deprive him of 26 days pay at the rate of 315 Rupees a Month as Head Seristadar of Masulipatam as another individual was appointed in succession to him the very day he relinquished that appointment. This and the favoring consideration which was so liberally observed to old Appoo Row must necessarily involve a double payment either in this or in the Masulipatam District and therefore it requires adjustment under special explanation of the circumstance which I have the honor to submit in detail.

2 Ramkistna Punidit was transferred to this District by the Board on the

the 15th November 1841. He left Masulipatam on the 11th December following and entered upon the duties of his office on the 28th January 1842, being 48 days, which considering the distance between that District and Coimbatore cannot but be considered a very short period and 12 days less than the time allowed by section XIV of the Rules published in the Fort St. George Gazette for 1840. Page 143. No travelling allowance is claimed by him for the journey which he was obliged to undertake under the orders of the Board, and it would therefore seem a matter of justice that he is entitled either to the emoluments of the old or the new situation whichever may be approved by the Board. But I submit, it might be obviated either by permitting the lately appointed Sheristadar of Masulipatam to draw his Salary from the 6th January 1842, the date on which the Board authorize Ramkistna Pundit to draw pay from my Office or by the payment of the Pension to Appoo Row from the 11th of December

December 1841 - an arrangement which will entail no pecuniary loss on Ramkistna Pundit and at the same time prove an Act of justice to all Parties..

3 Under these circumstances, I request the Board will be pleased to take his case into their favorable reconsideration and withdraw the retrenchment now hanging over the Head Seristadar..

4 I have further to request that the sanction of Government may be obtained for the Salary paid to Ramkistna Pundit Vizt. Rupees 223-8-9 which the Board authorize him to draw from the 6th to the 27th January 1842..

Coimbatore
Print. Collr's Office

/signed/ J. C. Wrenghton
Principal Collector

Ordered that the following letter be sent in reply..

69-69

To the Dpl. Collr.
Coimbatore

To The Principal Collector of Coimbatore

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 30th September last requesting that the claim of Ramakistna Pundit to be relieved from the retrenchment of his Salary

Infm. 26th Octr.

Salary for the period between the date of his quitting Aracalipatam and that in which the situation of Head Seristadar of your District became vacant by the retirement of Appoo Row..

2 The Board's objections to this claim that its admission would occasion a double charge were stated to you in my letter of the 19th June last and they consider them insuperable. The Board are nevertheless willing to submit the question for the decision of Government if it is your wish that they should do so..

3 The charge mentioned in the concluding Para of your letter appears to be regular and therefore not to require the special sanction of Government..

Revenue Board Office
Fort St. George
26th October 1843

/signed/ E. C. Lovell
Acting Secretary

Read again letter from the Principal Collector of Canara dated 5th and entered in Consultation 26th August last..

Ordered that the following letter be sent in reply..

70

To The Principal Collector of Canara..

To the Dpl. Collr. of Canara

Sir,

Para 1.

I am directed by the Board of

16142 Fort St. George 26th October 1843.

of Revenue to acknowledge the receipt of your letter of the 5th August last.

Before 28th Augt 1843

2 In my letter of the 26th June last you were apprized that the formal decision of the Board in appeal acquitting the Goomastah Lookoo Row having been communicated to you on the 9th December 1841 this decision could not have been set aside nor did the Board feel justified at this distance of time to recommend to Government to bear the loss of the alleged embezzlement, they see nothing in the communication now under acknowledgment to alter this opinion, if there are difficulties in the case they are difficulties the Board are constrained to add of your own creating in allowing Months to elapse after the decision of the Board acquitting the Goomastah was Communicated to you without advancing a single objection to it. The Board therefore repeat that they are not prepared to recommend that Government should bear the loss of the alleged embezzlement.

71

From H. M. Blair Esqr. Collector of Canara } Para 1

Reporting on the settlement of the Land Revenue of this District for Fasly 1252.

Sir,

I have the honor to submit my Report on the settlement of the Land Revenue of this District for the past Fasly 1252 together with the usual Accounts and Statements.

English ABCDEFG&H. Nos. 1.2.3.5.6.8.12&13

2 The several Talooks were settled in the following manner Viz. Buntwal and Cundapoor by myself, Oodipy, Barcoor & Mangalore and Becul by the Sub Collector, Mr. Forsyth; Sonda, and Bilghi by the Additional Sub Collector, Mr. Lushington, and Honore, Ankola and Soopah by the Head Assistant, Mr. Reade.

Season 3 The Season was on the whole favorable. There were some heavy falls of rain in April and May, and the S.W. Monsoon set in steadily in the beginning of June and continued without any

any considerable intermission till the first and second crops were brought to maturity

4 The early rain in April, and beginning of May, proved injurious to the rice cultivation, as it generated insects, which partially damaged the crops, this was particularly the case in the coast Moganies in the Codapy Talook, where the rice crops suffered considerably from this cause, and from blight, In several low situations on the coast, the young rice plants were, also, partially washed out of the soil by these early heavy rains. The rice crops in the Talooks below the Ghauts were rather under an average harvest, but in the Bala-ghaut Talooks, they yielded generally an abundant return –

5 The Cardamum produce was abundant, but both above and below the Ghauts, the yield of Pepper and Sooparee was considerably below the average, which is attributed to the injury these products sustained from excessive heavy rains in the early part of the season –

6 In consequence of the early rains in April, the Manufacture of Salt was greatly impeded, and the produce fall short of the quantity estimated by Garces 2069-230-4 and

	Garce	M	P
Estimate — 1252	3757	17½	4
Manufactured — 1252	1687	34½	—

" 1252 —	1687	34½	—
Decrease —	164	34½	—

and of the quantity manufactured in July 1251 by Garces 164 – 34½ – This, added to the losses sustained from the same cause in the preceding year, has greatly distressed the salt manufacturing Ryots –

7 The District was generally healthy throughout the year, with the exception of the Buntwall Talook, in which the Cholera broke out in the Month of May last, and raged for a short time with considerable virulence. Owing to the panic it occasioned among the Mysore bullock drivers, a stop was put for a time to the trade in Salt at Buntwal. A murrain also prevailed in the Buntwall Talook, which is stated to have carried off between three and four thousand head of cattle –

Export of Rice 8 The Export of Rice including Canara and foreign produce exceeded no

Exports, and low price of grain they cannot be thought

Contained

Low price of grain they cannot be thought

Contained

large - Owing to the earnest representations made to me by certain of the Ryots in the Codipy Talook whose crops had suffered most severely from in= =sects and blight, I thought it necessary to make a further enquiry, after the Jummabundy had been made, into the circumstances of those Ryots whose cases seemed to call for some further in= =dulgence than had been allowed at the settle= =ment - The abatements that appeared necessary were not considerable, and they will be recom= =mended to be struck off the Jumma, as irre= =coverable balances, as I considered that it would be inexpedient to make any alteration in the original settlement of the Talook -

18 The remissions allowed under the heads of poverty, and losses by fire, were limited to cases of actual distress and serious losses from the destruc= =tion of Agricultural stock and Cattle -

17 According to the instalments previously arranged, the sum of Rupees 7385 - 4 - 10 should have been realized during the year under report. Of this amount Rupees 5785 - 10 - 6 were brought to account, leaving a balance of Rupees 1599 - 10 - 4, which, owing to failure of crops, and lands unavoidably left par= =tially waste could not be added to the settlement without distressing the Proprietors of the Estates on which it was to be assessed. -

The

The great depreciation in the price of grain also, which from the Statement in the Margin, it will be seen, has fallen considera= =bly below the commutation rate during the last two years made me further un= =willing to enforce the instalments in cases where from the causes abovementioned, the circumstances of the Ryots were otherwise than prosperous -

	1251 Per Corge Rs a p	1252 Per Corge Rs a p
Rivazor commutation rate	56 - - -	56 - - -

Decrease	206	9,645	11	9

22- In several former Reports and in my letter to the Board on the System introduced in Fusly 1243, I have expressed my opinion, that it would be unwise and indeed impracticable in many instances, rigidly to enforce the instalments as they were originally

*36th July 1842

originally fixed. Had these, indeed, been more carefully considered in the first instance, with reference to the real condition of a certain class of Estates, than was actually the case, it would still have been necessary, among a numerous body of small proprietors without capital, like those in Canara, to each of whom the loss of a few cattle, or the partial failure of crops, becomes a cause of serious distress, that frequent modifications of the proposed settlement should be made. It is only, I am persuaded, by a most cautious and considerate introduction of the system of instalments now in progress, that it can be successfully carried out to its completion. Any attempt to force it beyond what the circumstances of the country will fairly and easily admit of, would create distress and discontent among the Ryots, which might go far to create a general complaint, and opposition to the whole measure.

23 The general result of the system hitherto appears to me to be highly satisfactory as since its first introduction in Fusly 1243, the land Revenue has continued steadily

to

21. In reference to my remarks

*Para 16 on this subject on my report on the settlement for Fusly 1249, showing the increase that had resulted from the introduction of the system up to that time, the Board in their Proceedings dated 23d September 1841 expressed their doubts as to whether the whole amount of the increase exhibited, could fairly be attributed to the causes noticed by Mr. Maltby the Sub Collector, and myself. As the Board did not state the grounds on which this opinion was formed I am unable to meet any objections that may have oc= =curred to them, to the statement submitted by me - The conte= =nued steady increase of

1158. Fort St. George 26th October 1843

the Revenue, in the two last Fusslies, under the operation of the system in question notwithstand= =ing they have been years of unfavourable prices, will I trust satisfy the Board of the correctness of the opinion formerly expressed by me on this subject. If the increase shown, is not to be attributed to the system now in progress it would certainly be difficult, in my opinion, to assign any other cause, to which it could fairly be ascribed since our acquisition of the Province in the year 1799 no similar amount of Revenue for a series of years, has ever been collected, and at no former period has it been realized with greater ease, or regularity. It therefore appears to me, that since the introduction of Mr. Vice-ash's system in 1243, modified as it has necessarily been as near an approximation has been made to a uniform and regular revenue, which was the end in view as is capable of being attained under the existing circumstances of the great body of the land holders of this Country. The Board, however, seem to be of opinion that the object of the system in question has by no means been attained, because Remissions are still allowed at the

Proceedings dated 23d Sept 1841 Para 13

Settlement

Fort St. George 26th October 1843

settlement. which it was supposed were to be entirely discontinued after the changes introduced in 1243. I feel perfectly persuaded however. that in proposing to put a stop to the indiscriminate remissions which were formerly made in this District, it was never for a moment contemplated by Mr. Vivcash. that remissions for failure of Crops, and other unavoidable mischances. should not be allowed after the introduction of the system recommended by him, and I also feel equally assured, that had he continued in the District to carry out his system, he would have seen the necessity of modifying it, in certain Classes of Estates, in the manner that has since been found requisite by myself and the other Officers who have administered the Revenues of the District since Fusly 1243-

Para 11

25 In their Proceedings dated 17th November 1842. the Board remark that in my Report on the settlement for Fusly 1247. I stated, that it seems obvious to remark from the results of the plan hitherto, that the arrangements for the instalments in the Kunchurly Wurshs, were somewhat too

Fort St. George 26th October 1843

hastily made. and that will in many instances require to be modified according to the actual circumstances of the Estates;" and that in Fusly 1249. I expressed my opinion of the favourable working of Mr. Vivcash's system. and of the inexpediency of making any alteration, and it is thereupon concluded by the Board, that I have seen reason to change the opinion I expressed in Fusly 1247. the reason for which change of opinion, I am called upon to explain. Although this explanation would come more appropriately at the conclusion of this report. yet as the subject is so closely connected with the preceding observations it may perhaps be more convenient to enter upon it here-

26 With respect to the two passages alluded to, I beg leave to observe that a further consideration of them. with their context will, I think show the Board that there was no ground for supposing I had changed the opinion I originally formed of the necessity of modifying the periods fixed by Mr. Vivcash, for the instalments, according to the circumstances of certain Estates: and that this opinion

opinion was not at all at variance with the sentiments I subsequently expressed, of the beneficial nature of the measure, generally. The alterations alluded to by me in my Report[†] on Fusly 1249, as being inexpedient, referred to the proposal of Mr. Malby, to separate the inland from the Coast Estates, which had been discussed in this Report[×] upon 1248: whereas in the same paragraph in my Report above mentioned, in which this is alluded to, I stated, that the transfer which now takes place, (of the Thurty to the Kumthurty, which is part of the modification of Mr. Vieash's system which I thought necessary in Fusly 1247) is not attended with any practical disadvantage. In every report of mine on the subject, the necessity for a modification of the system in question has been insisted on, while the general result of the measure, as now being worked out, has been shown to have proved beneficial both to Government and the people.

27 The collection of the Land Revenue

[†] Para 27

[×] 16th January 1840 Para 1 at 26

Revenue in the year under report, was made with great regularity & considering the general depression in the circumstances of the Landholders, caused by the low prices obtainable for Rice, the staple of the District, and the heavy losses sustained by the Salt manufacturing Ryots which was particularly felt in the Condapoonalook where the balances are consequently largest.

28. Although the assessment on the cultivable land of these Ryots is not fixed with reference to the profits of their Salt manufacture, yet their means of discharging punctually their land rent, cannot but be seriously affected by such repeated losses as they have sustained

of

of late and it is on this account that it has always been customary to allude to the circumstances of this class of Ryots in the Land Revenue Report

29

Demand		1844.864-6--
Collections		1803.241-10-6

34 It gives me much pleasure
to record the high sense I entertain of the
services of the late Sub Collector Mr. Forsyth,
who though comparatively new to the Revenue
Department on his joining his appoint-
-ment, applied himself so diligently, and
with so much ability to the duties of his
Office, that he soon became a most ef-
-ficient Revenue Officer, and afforded me
valuable assistance during the time he
remained in the Department.

35th Owing to Mr. Forsyth's
removal to another office I have not thought
it

it necessary to call upon him for a Jam-
=mabundy Report as there was nothing
which called for particular remark in the
Talooks settled by him-

36 The Board are so fully a-
=ware of the high Character of Mr. Cushington,
the Additional Sub Collector, as a Public
Officer, that I consider it would be super-
=fluous in me to say more on the pre-
=sent occasion, than that he has continued
to conduct the important duties of his
charge with the same unwearied Zeal, and
ability which has always characterized his
public services-

37 I have also much satisfac-
=tion in bringing to the notice of the Board,
the zealous and able manner in which my
Head Assistant Mr. Reade has conducted
the duties of the Talooks entrusted to his
charge. Owing to the important inves-
=tigation connected with the frauds com-
=mitted by the Tahsildar of Sondah, a-
=which unavoidably occupied much of Mr.
Cushington's time the settlement of a portion
of the Sub Collector's division was also made
by

by Mr. Reade, and I have great reason to be
satisfied with the readiness with which this
Officer has always been prepared to give his
assistance in the promotion of the public
Service-

38 Accompanying I beg to
2nd October 1843 submit the Report I of the Additional Sub
Collector on the settlement of the Talooks of
Soonda and Bilghi-

39 In para 16 of his Report Mr.
Cushington advocates the measure of
granting large advances of Tuccavy for re-
=storing certain Supari Gardens which are
now falling into decay, owing to the Proprietors
want of capital to make the necessary im-
=provements. Of the expediency of this
proposal I must confess I entertain consi-
=derable doubts. It is evident from the
observations in the preceding paras of the Sub
Collectors Report, that the deteriorated con-
=dition of these Gardens has not been
brought about by the pressure of the
assessment, which on the contrary, is extremely
light: and that with ordinary prudence
the proprietors ought to be in prosperous circumstances

The

Fort St. George 26th October 1843

The fact I believe is, that the present impover-
-ished condition of a large proportion of the Brahmin
Owners of these Gardens is to be attributed entire
-ly to their own habitual improvidence and
reckless habits of expense which have involved
them in debts and difficulties and there is
too much reason to fear in my opinion, that
if considerable advances of Tuccavy were now
to be made to these Proprietors the greater por-
-tion of it would be eagerly grasped by their
Creditors the Potails, who, from Mr. Pushington's
report on the case of the late Tahsildar
of Sonda, appear to have obtained such com-
-plete influence over them. Unless the sums
proposed to be advanced, were actually expended
through the means of Government Servants, a
plan liable to obvious objections, I do not
see how the appropriation of the money to
the payment of the debts of the borrowers
could well be prevented. As a profitable
return from these decayed Gardens, under
any circumstances must be slow, the money
advanced by Government could not be repaid
for several years, which would be contrary
to the present practice by which Tuccavi
is

Fort St. George 26th October 1843

as repayable in one year, and it is, I think much
to be doubted, whether under the present condition
of these Gardens, any security could be obtained
for the eventual repayment of the sums proposed
to be advanced. I have always myself been opposed
to the principle of granting tuccavi except on
occasions of peculiar, and unavoidable calamities,
such as seasons of excessive drought, and the
distruction of agricultural property by fire or
other accidents, when some temporary assistance
from Government may be obsolutely necessary
to enable the indigent Ryots to carry on their
cultivation. But the manner in which these
loans from Government are sometimes given,
operates, in my opinion, injuriously, by fostering
that improvidence and want of forethought, which is
in very many instances the chief, if not the only causes
of the Ryots' distress, and difficulty. Considering the en
habits and general Character of the Brahmin garden
Proprietors in the Balaghaut Talooks, I fear that
this would be particularly the effect of
any unusual grant of Tuccavi in their case, as
although it might prove a temporary relief to a few it would
lead all who are falling into difficulty, to look to
Government for assistance, instead of endeavouring
to extricate themselves by their own prudence and

Fort St. George 20th October 1843

and industry - Any temporary assistance from Government, would not affect the causes which have brought these impoverished Ryots into their present distressed state, and as there is no reason to suppose that these causes would not still continue to operate, after relief had been afforded, there could be no security that they would not in a few ensuing years require further aid from Government, to keep their Estates in any profitable condition. With these views I do not myself feel prepared to recommend any unusual loans from Government, in the shape of tuccavie to the Garden proprietors in the Balaghaut although it will of course be for the Board to determine, whether on the representation of Mr. Lushington (whose experience in the upper Talooks of the District, entitles his opinion to great weight) they consider the measure advisable -

Para 19 a 24

40. In his present Report the additional Sub Collector, refers to the question discussed in his report of the preceding year, relative to the conversion of ruined Gardens into Rice cultivation on a reduced Peiz: and also the allowing such lands to be held, on the same terms, or condition of their being restored to productive

Fort St. George 20th October 1843 -

I regret that owing to the want of the usual compliment of Assistants, during the past year, my time has been necessarily so much occupied with details of Police, and other matters, which though of inferior moment cannot be deferred, that I have been unable to give that attention to the subject above mentioned, which it calls for, or to visit the upper Talooks which on ensuing several Accounts I have been desirous of doing -

As this Report has been unavoidably extended to a greater length than

41. usual, and as I am not now prepared to submit a matured opinion upon the questions above mentioned, I think the Board will prefer my not entering into the subject at all at present - and I shall with as little delay as possible address the Board separately on the proposal contained in the additional Sub Collectors report -

I beg leave now to reply to

42. some observations of the Board in their Proceedings on the settlement for Fusly 1250 dated 17th November 1842 - In

16173 Fort St. George 26th October 1843.

43. In para 6, the Board call upon me to explain the data upon which 129 Wurghs situated in the Baroor or Talook, which in the previous year paid the full Tarow Beriz, Vizt, Rupees 1,635-15-7, were in Fusly 1250, transferred to the head of Vayda, and assessed at only 1627-15-7, or 8 Rupees less - also to whom the remission is to be allowed, for what period, and in what proportion I propose to distribute 8 Rupees to the 129 Wurghs -

44. It is, I should hope, almost unnecessary for me to state that no such absurdity as the distribution of 8 Rupees over amongst 129 Wurghs was ever contemplated by me. The reduction of the 8 Rupees alluded to was made in two Wurghs on account of serious losses of property and produce by fire as shewn in the Margin: and one year was allowed for bringing the Estate to the full Beriz again -

45 The circumstances of one of the 129 Wurghs transferred by Pl[illegible]

16174 Fort St. George 26th October 1843.

46 It having been proved during an enquiry at the settlement, that some waste belonging to two other wurghs, had been clandestinely included in this wurgh, was added to the demand of the Wurgh in question, as shown in the Margin. From this it will be seen that the settlement of 1249 on this Estate was not altered, but as it appeared that the addition could not be brought up in one year, an instalment was allowed, for ex paying the full Beriz, and the estate, therefore was necessarily classed under Wayda -

48. The several proprietors of these Wurghs having brought some additional land into cultivation

Fort St. George 26th October 1843.

cultivation, beyond the extent formerly entered in the accounts, an additional assessment was accordingly imposed on the portions added to the respective Estates. But as the cultivation of these spots was not in a sufficient state of improvement, to yield a full return for the labor and expense bestowed upon them, it was deemed advisable to fix Instalments for paying up the full assessment imposed. To have refused this indulg= =ence would have been to discourage similar extensions of cultivation in future. Under the above circumstances it became necessary to strike those wurghs out of the class of Bhurty, and to place them temporarily under the head of Wayda- 49.

It has hitherto been customary to submit the Statements of the Settlement in Abstract only, which sufficiently shows the results of the Annual alterations. If similar details to those now submitted, are to be required to be furnished in future for each estate, the work of the Establishment will be infinitely increased, and a considerable addition to the number of Extra Servants now employed at the Jummabundy will be necessary. —

Fort St. George 26th October 1843.

With respect to the 132 wurghs
50.
transferred to the Bhurty from Board's Parish, remarked upon by the Board in Paras 7. and 8 of their Proceedings of the 17th November 1842, I beg to state, that as the Board directed that all permanent remissions such as the Beriz on Salt pans, should be exhibited as esta= =blished deductions from the Revenue, so it was also considered expedient, to class under the head of Bhurty, all Estates which paid the full demand, with the exception of certain small sums suspended on ac= =count of spots taken for public roads, and other Government purposes.

Nos of Wurghs	Thurra Beriz	Settle= =ment of 1249			addition according to instalments in 1250			Settle= =ment in 1250			Amount of remission on account of public Roads.

	132	10,712	12	11	10,507	9	2	10,513	"	11	199	12	"

The annexed State= =ment exhibits the extent to which remissions were granted on this particular account= some of these Estates paid short of the demand after deducting the road remissions, and arrangements were made to pay the difference be= =tween the Settlement, and the net assessment= Rupees 5-7-9. were added during the year in question; being

being the last Instalment to be paid up, when they were removed from Board siforish to Bhurty. A remark was appended to the Statement explanatory of this circumstance.

51. The observation of the Board in paras 10. 11. and 12 of the proceedings under reply, and the Minutes of Government dated the 12th January last, on the same, refer to the Revenue system introduced in Fusly 1243, on which a detailed report, as called for by the Board, was submitted by me on the 30th July preceding, — though it would appear from the tenor of their remarks that the Board could not have been aware of its receipt when their proceedings under reply were written. Having so fully expressed my opinions in the Report abovementioned, on all the questions connected with the present Revenue system of the District, I think it unnecessary to add any thing further on the subject at present, and will only observe, that I hope no long time will be allowed to elapse ere some decision is come to on the several points submitted to the judgement of the Board, as every year of the present uncertainty as to what is to be the result of the proposed alteration in the assessment on a certain class of Estates, operates as a serious check

Para 3 & 4.

check to their improvement, and creates, moreover, a feeling of doubt as to the permanency of the whole system now in operation.

52. With respect to the falling off in the number of Pottahs noticed in para 13 of the Board's Proceedings above mentioned as I beg to explain, that in Fusly 1246 (1836/37) the Rayets were informed, that Annual Pottahs would not be issued to the holders of Bhurty Wurghs, while their Settlement continued unaltered. When any alteration in the fixed demand of any one of these Estates become necessary, a Pottah was issued to the Proprietor, which was to be renewed each year — until the Estate was again brought up to the standard Beriz. It was owing to this that the number of Pottahs issued in 1250, was less than in 1249, as the arrangement had not previously been carried into effect. The object of this rule was to reduce the labor of preparing and filling up the Pottahs, and to effect a saving in the quantity of Paper used. But it is in my opinion attended

attended with a good effect, in impressing on the Ryots the idea that the Peiz on the Bhurty Estates is to be considered permanent, except under some peculiar circumstances which may call for a temporary al=teration in the assessment.—

53. In Para 20 of the Board's Proceedings under reply, they call for more particular information respecting 12,429 Rayets, holding land at present without any pro=prietary right, before they can consent to resign unconditionally the Government right in the waste lands newly taken up for cultivation for which in my report for Fusly 1250 I had recommended that Mool- Pottahs should be given

These

16180 Fort St. George 26th October 1843—

These 12,429 Rayets, I beg to state, are holders of Circar Gueny wurghs, which from failure of heirs or aban=donment by the original owners es have escheated to Government.—

The Statement in the Margin, exhibits the present state of the assessment on these Estates, The granting Mooly Puttahs to the Occu=pants of these Gueny Wurghs, will, in

16181 Fort St. George 26th October 1843.—

on all probability lead in a few years to their paying considerably higher than the present demand, while no possible advantage that I am aware of, can accrue to the Government, by relaxing the proprietary right in these lands.—

With

16182 Fort St. George 26th October 1843.

With respect to the branch 54-

road from the Mercara line to the Coast at Cajargode, alluded to at the conclusion of the Board's Proceedings above mentioned, I addressed the Assistant Civil Engineer on the subject on his visit to the District in December last, but I am sorry to say the visits of the Officers of the Engineers Department to this part of the Division are so rare, and for such short periods, that it is impossible they can give sufficient attention to half the works of importance that are brought to their notice. As I understand Captain A. Cotton is likely soon to visit the District, I shall bring the subject of this road to his notice, and submit a rough sketch of the proposed line which I had prepared some time ago, by the Salook Authorities.

Principal Collector's Cutcherry,
Mangalore,
17th October, 1843.

Statement

16234. Fort St. George 26th October 1843.

I

To The Principal Collector of
Canara,

Sir,

I have the honor to submit to you a Report upon the Settlement of the Land Revenue, of the Two Talooks of Sondah and Bilghy which was conducted by me in the past Fusly, that of the Talook of Honore, which forms a portion of my regular charge as Sub Collector in North Canara, having been made with your Sanction by the Head Assistant Collector Mr. Reade in consequence of so large a portion of my time having been devoted to the investigations into the exactions and various other misdeeds of Balakrist Row the late Tahsildar of the Sondah Talook which were not completed until so late a period, that it would have been impossible for me to effect its Settlement before the commencement of the Monsoon.

Season. 2. In these Talooks the season may be regarded as having been on the whole favorable. The Rice Cultivation both in the Eastern Frontier and in the Garden Maganies yielded a large return. A succession of heavy showers which fell while the

Mangalore, 1st October, 1843.

Asst. Collector.

16234.

Fort St. George 26th October 1843.

I

To, The Principal Collector of Canara,

Sir,

I have the honor to submit to you a Report upon the Settlement of the Land Revenue, of the Two Talooks of Sondah and Bilghy which was conducted by me in the past Fusly, that of the Talook of Honore, which forms a portion of my regular charge as Sub Collector in North Canara having been made with your Sanction by the Head Assistant Collector Mr. Reade in consequence of so large a portion of my time having been devoted to the investigations into the exactions and various other misdeeds of Balakrist Row the late Tahsildar of the Sondah Talook which were not completed until so late a period, that it would have been impossible for me to effect its Settlement before the commencement of the Monsoon-

Season, 2- In these Talooks the season may be regarded as having been on the whole favorable- The Rice Cultivation both in the Eastern Frontier and in the Garden Maganies yielded a large return- A succession of heavy showers which fell while the

Botel

Fort St George 26th October 1843.

Betelnut Trees were in blossom and before the fruit had set, tended in some places to make the crop of Betelnut less abundant than it had been in the previous year, and in other parts the ripening fruit suffered from blight, but it is to be observed that the produce of the previous year, was unusually large and the crop was not below the average. The produce of the Pepper vines also fell considerably below the crop of the previous year, when they were unusually productive, the effect of the season having been to give great luxuriance of growth to the plant, which is seldom found to combine with the production of a large quantity of the fruit. The crop is however considered to have equalled the average. To the Cardamom Bushes the season proved particularly favorable, and it is supposed that the quantity of this valuable spice which was produced in the season under review was at least $\frac{1}{3}$ large than usual. The dry grain cultivation which is so extensively resorted to throughout the Frontier Mogannies yielded good crops, and the returns of the Home Manufacture of Jaggry show that the Sugar cane is

Fort St George 26th October 1843.

becoming more extensively cultivated and the Ryots have derived encouragement from the abundant rains which have fallen for the last 4 seasons and which have sufficed to fill the Tanks upon which its cultivation depends as much as was desired. Now that the object of the Sugar Act is beginning to be understood and the people cease to regard it as an attempt on the part of Government to make the sale of Sugar an Monopoly in their own hands as exclusive as that of Tobacco and Salt, I trust that in North Canara in common with other Districts its operation will prove to be beneficial and to encourage the planting of the cane, the return from which when properly attended to, is far larger than from any kind of grain while the outlay required is very small.

Prices

3- In consequence of the abundant harvest which was obtained in the adjoining Mahratta country there was little Inland demand for grain from the Frontier Mogannies and the price of Paddy fell below that of the previous year and considerably below the average. The

	Paddy			
	Price obtained by the Ryots in Sondah per Garce		Price obtained by the Ryots in Bilghi per Garce	
	Rupees	a 0	Rupees	a 0
Average of 5 Years	27	7	25	4 10
Fasly 1251	19	7 6	18	10 9
" 1252	16	13 7	17	6 11

The rates which were attained for the 3 staple productions of the garden Maganies are shown in the Margin. In Sondah the price of Betelnut varied little from that of the preceding year and may be considered favorable, as the rate has for the last 4 years been so much higher than that attained for a long succession of years preceding them. In Bilghi the Betelnuts bore an enhanced value. The Price both of Pepper and Cardamoms experienced a further decline, which has tended to prevent the abundant crop of the first of these spices in the preceding year and of that of the latter in the year under review bringing any considerable profit to the produce.

Price of Betelnut per Candy

Sondah	16	9	8	18	1	8	15	15	11
Bilghi	19	9	10	19	15	3	17	13	8

Exports 5

The diminished production of the Betelnut crop below that of the preceding year is shown by the results of the exports, the deficiency in the quantity

exported when compared with the previous year having been in the Sondah Talook 1132 Candies but as the price obtainable in Bilghi was materially above that in Sondah, this led to a portion of the Sondah produce being carried into the Bilghi Talook which raised the Exports from that Talook as high as they had been in the previous year, and it is probable that the actual deficiency of produce in Sondah did not exceed 600 Candies. The quantity of Pepper exported fell below that of the previous year in both Talooks to the extent of 412 Candies a large quantity having been retained in the hands of the Merchants in the hope that prices would improve. The export of Cardamoms by an increase of Candies 149 shows the abundance of the crop and the large amount of duty collected in this spice prevented any falling off

Fort St. George 26th October 1843

8. Uncollected Balance at the end of the Fusly

Summabundy in the Tahsildar's Division of the Soondah Talook before the close of the Fusly and there was merely a small balance as

	Amount of the Summabundy	Amount uncollected at the close of the Fusly	
	Rs a P	Rs a P	
Soondah Talook Tahsildar's Division	1,03,995 1 9	" "	
Peishcar's Division	26,135 5 8	110 4 11	
Bilghy Talooks	58,728 10 5	20 4 4	

Of the total amount of the whole had been collected shown in the Margin in the Peishcar's Division In Bilghy also the whole may be considered to have been realized as the collection of the small sum shewn in the Table was suspended by my orders in consequence of loss by fire, after the Summabundy had been made; and I therefore beg to recommend its remission.

Paras 9 to 13 Remarks on the Settlement and general state of these Talooks with reference to a recent report in which the depressed state of the Ryots of the Soondah Talook was noticed.

9. As I have on a recent occasion, when submitting to you in detail the result of my Investigation into the exactions practised by the late Tahsildar of Soondah expressed my opinion of the poverty; and the generally depressed condition of the Majority of the Garden Proprietors of the Balaghaut, you may be surprised both at the Summabundy which I have made being somewhat in excess of that of

of the previous year and also at the facility with which the collections have been realized.

10- The latter circumstance which would naturally lead to a belief that the people were in a prosperous condition is however no criterion of this in these Talooks but is solely attributable to the circumstance of far the largest proportion of the Land Revenue, being collected not from the Ryots themselves but from the affluent Potails or Merchants who receive their produce- The fact of my having increased rather than reduced the Summahlundy during the last year does not arise from my opinion of the state of the People being in any considerable degree altered, but because I am convinced that in the aggregate the Summahlundy is exceedingly light and ought except in the case of very extensive failure of produce, combined with low prices to be realized without difficulty, although there may be individual instances where the produce of a Garden is barely sufficient to meet the Government demand and it will be observed that the chief source of

the Increase arises from the enforcement of the engagements previously made from which under the generally favorable circumstances of the year I saw no grounds for allowing any extensive departure

11- I was also compelled to make the settlement more speedily than I could have wished in consequence of the advanced period of the season, and had not this been the case, it is probable that the fluctuations would have been much greater and it is manifest that where we find the garden of a Ryot, falling into bad order, and can be certain that any remission which may be granted to him, with the view of enabling him to improve it will come directly home, to him and be devoted to that object instead of going into the Pockets of the Potail who receives his produce and who claims from him an amount of Debt upon account which is not justly due, and which can never be discharged in full, it is the Policy of Government temporarily to remit such a portion of the demand as will be beneficially felt, and to bring it up gradually as its effects are visible in the improvement of the Garden

and

and the augmentation of its produce but from the dependent position of the People many of whom are in reality but little affected by the circumstances of the season whether prosperous or the contrary such remissions ought not to be made without very strict scrutiny. Time would not admit of my making such scrutiny and under these circumstances there was an increase in every Magany of Sondah with the exception of that of Herroor in which I remitted 160 Rupees to 2 Ryots to enable them to improve a Garden rapidly hastening to decay. The remaining fluctuations in this and the Bilghi Talook appear to call for no explanatory observations.

12. That the condition of the Garden Ryots of these 2 Talooks at the present time is one of extreme depression cannot be doubted but from speaking with some of the principal Native Servants who have had long experience of this Talook as well as from referring to some of the Reports written by my Predecessors, from 10 to 15 Years since I am inclined to believe that bad as it is now it is not worse that it was then-

If however we compare the prices which have been obtained during the last 5 years for Betelnut the chief staple upon which the payment of the Revenue depends with the excessively low rates which previously prevailed for a succession of years and at the same time observe how small has been the increase in the amount of the Land Revenue in the Garden Maganies in proof of which I select four average years with intervals of 10 years between each extending up to the present time over a period of 35 years the result would appear to afford grounds for the opinion that the state of the Ryots ought to have become very much ameliorated beyond what it is at present.

	Summah Lundy Settlement of the 13 Garden Moganies of the Sondah Talook		
	Rs	a	p
1217	98938	4	4
1227	100539	11	8
1237	98176	8	2
1247	100264	4	2
1252	102293	9	4

Proof of the lightness of the aggregate Assessment.

13 In proof of the lightness of the present Summah Lundy when prices are obtained such as those of the past year with average crops I would point out as shown in the Marginal statement which exhibits the total value received by the Ryots (by which term I mean the value which ought to come home to them) upon the export of Garden produce from the Sondah Talook in the past year, and the amount of the

Exports from the Sondah Talook	Quantity	Value of the Rice obtained by the Ryots	Summah Lundy viz the 13 Garden Moganies together with 1/5 of that of Bunnawaloy	Proportion of value of produce exported to the Summah Lundy
	Candies	Rupees

Total		429,948	104,308	4½ to 1

14

Fort St George 26th October 1843.

the Summahbundy in the Garden Maganies it appears that the value of the Garden produce alone the profits of the Rice lands which are extensively scattered throughout these Maganies being excluded from the account, is equivalent to 4 times the amount of the Summahbundy of the Garden Maganies inclusive of the assessment upon the Rice cultivation. The Survey accounts however enable us to see what proportion the assessment on the Rice land when properly apportioned in these Maganies would bear to that on Gardens, and I find that it equals something more than 1/3d of the whole of 1/3 of the present Summahbundy of these 14 Maganies is struck off as being paid by the produce of the Rice lands the result as

Proposed Survey assessment on 14 Maganies of the Sondah Talook	Proportion of Betel nut Gardens	Proportion on Rice lands
Rupees	Rupees	Rupees
147,938	97,688	50,250

	Two thirds of the Summahbundy being the proportion of the Garden assessment as shown in the Survey Accounts	Value of Garden produce exported in Fusly 1252	Proportion between value of exported produce and Summahbundy thereon in 1252	Value of Betel nut alone Pepper and Cardamoms being left to the Ryot as clear profit	Proportion between value of exported Betel nut and Summahbundy of 1252.
	Rupees	Rupees	Rupees		
Present Summahbundy of 13 Garden Maganies	103293

Fort St George 26th October 1843.

given below shows that the Sirkar has only received for land rent upon Gardens a proportion equivalent to little more than 1/4th of the actual value received by the Ryots for the quantity of produce passed through the Hawlut Cutcherry which is considerably less than that proposed by Mr Harris as the share of the Government when the Establishment of the Survey assessment was under consideration or less than 1/4th of the value of the Betel nut alone, the Pepper and Cardamoms being allowed to the Ryots as clear gain, without any tax in the manner which was proposed by Mr Cotton as the ground work of his very moderate survey assessment. and we should be wrong were we to assume that the Hawlut Cutcherry returns show the full extent of the produce of the year.

The above Statement is 15-

I think sufficient to prove that the aggregate amount of the Summahbundy paid by the Garden Ryots although unequally apportioned is not more than ought to be demanded from them and that the

Fort St. George 25th October 1843.

the depressed circumstances of the majority of this class are attributable to causes entirely unconnected with the amount of the Summabundy and that if they really received the true Market value of their produce they ought to be in a state of prosperity. Beyond this it would be out of place for me here, to enlarge upon their condition specially as the Board of Revenue, have implied their disapproval of my having entered into detail on this subject in my Report already alluded to and I shall therefore, at once proceed to the only proposition which it now appears to me necessary to make.

Recommendation that advances recoverable by Instalments should be granted to the Proprietors of Deteriorated Gardens.

16. Much benefit I am convinced might be effected in these Talooks by liberal and judicious advances to enable the Ryots whose Gardens are in a state of progressive Deterioration to make those improvements which want of Capital has hitherto prevented. The practice of advancing Tuccavy repayable by instalments has of late years alto-gether fallen into disuse and many

Fort St. George 26 October 1843.

of the Ryots both complain of the absence of this assistance and speak of the amelioration in their condition which advances &c would eventually bring about. - When a garden has once fallen into a state of decay or has been neglected for even a few years, great exertion must be made in planting and rearing young trees to replace those which are past bearing, or in endeavouring to make those which have been neglected again productive, before any ade-quate return can be obtained. - The labour required for this purpose is of a very expensive character as al-most the whole of it must be per-formed by hired labourers from be-low the Ghauts, and thus where a Ryot has no capital of his own, and cannot obtain money without borrowing it at such an usurious rate of interest that there is little chance of the speculation proving profitable

Fort St. George 26 October 1843

profitable, no improvement of a garden can be expected to take place at present the advance of Tuccavy to the Garden Proprietors is almost entirely limitted to petty sums with the avowed object of enabling the poorer Ryots to pay the expenses of procuring and fixing the "thalai" over his fruit, to protect it from being destroyed by the violence of the rain, or other trifling annual expences, and none is allowed for general and extensive improvement. I beg to request your attention to this subject and point out that should the Board of Revenue be prepared to sanction advances of Tuccavy repayable by instalments for carrying on extensive improvements in the Gardens, and thus preventing many from falling into decay, which without such assistance may be expected to do so, the fact of all work of this character being performed through the agency of the Contractor, who brings up the labourers from below the Ghauts, would readily enable the Talook officers to check any misappropriation of such advances, and to see that it was duly applied to the object for which it was granted. And I believe that any sum which

Fort St. George 26th October 1843

after due enquiry might thus be advanced by Government with the view of augmenting the produce of the Betelnut Garden, would eventually bring a very large return, to the State and at the same time tend to remove much distress.

During the course of the Jummabundy only 14 Estates came to my notice upon which it appeared to me desirable to propose a permanent reduction of the Berij the result in abstract is shewn in the margin and the appendix A contains the statement in detail in the usual form.

Talook	No. of Estates	Gardens	Berij	Average Nett Collections of the last 5 years			Average Gross Collections of the last 5 years from Fusly 1247 to 1251			Amount &c. commuted for Remissions			Proposed Garrams			Increase on the above Nett Average Collections

In

Fort St. George 26th October 1843.

In the present state of the Balaghaut po-
-pulation I have no hesitation in expressing
my opinion that should a succession of un-
-favorable seasons occur the Gummahundy
Settlement, notwithstanding the lightness of the
assessment in the aggregate must exhibit a
very material departure from this Classifi-
-cation or great distress will arise from
the attempt to enforce it.

Para 19 to 22 Remarks on the proposed conversion of ruined gar-dens into arable lands & on the cases & in some instances of the decree for effecting such conversion.

In my Gummahundy Report for
19 last year I addressed you on the subject of
the proposed conversion of ruined Gardens
into Rice lands and the consequent re-
-duction of the assessment so as to be pro-
-portioned to the lower profits of agriculture,
as I felt that it was impossible that a re-
-vised assessment should be recommended
for any such Estates, until the admission
or rejection of the principal involved in
the proposal and which was entirely at va-
-riance with that which had hitherto
regulated the modification of the assess-
-ment under Mr. Venkash's system had
been considered and determined. As I have
not since that period received any communication

Fort St. George 26th October 1843.

of your views on the subject I again allude
to it for the purpose of offering a few obser-
-vations which a further experience of the
general circumstances of these Talooks
has suggested to me.

That there is a very great de-
20 -sire on the part of many persons to cut
down the trees in old neglected gardens &
and to convert them into Rice land is un-
-deniable, but that this does not arise
from the profits of the Garden, when
properly managed, not being superior to
those which are derived from the Cul-
-tivation of grain may be clearly infer-
-red from the fact of my having received
applications from parties in different
parts of the Tondah Talook, requesting
permission to convert a portion of their rice
lands into Gardens without any increase
to the assessment, and this also proves
that the extension of Garden Cultivation
is not in any way impeded by the present
Hawlut duties. To such a proposition I
have never seen any objection in inform-
-ing the parties at the same time that
in the event of the survey assessment

being

Fort St. George 26th October 1843.

being ever brought into operation, they will be liable to the payment of the rate fixed upon Gardens.-

21. The profit of a Garden are undeniably so much higher than those which would be derived from the same extent of Ground being brought under the plough, notwithstanding the great difference in the original outlay that unless there are any peculiar circumstances giving the produce of the grain land an unusually high value, a Landlord, who possesses the ready money required for creating and bringing a Garden into a flourishing state would probably be induced to do so.- The wish to obtain possession of ruined gardens, and to cut down the trees, is very strongly shown among some of the most affluent and influential Potails, who have capital at command sufficient to enable them to make the outlay requisite for restoring the Gardens to their former

State.

Fort St. George 26th October 1843.

State with every prospect of eventually obtaining large profits, and I have no hesitation in saying that to them grain may and does yield a forced value far above the Market Rate.- In my report already alluded to I have shown you the utter state of dependance upon the Potails in which the Majority of the Ryots are placed they nominally owe him a vast amount of debt and as their gardens do not supply them with the necessaries of life, they are compelled to look to their Potail or other principal Man for their daily food on the threat that if they go to other quaters to obtain it, he will bring forward his claims against them in a Civil Court and obtain their Estate.- In this manner an abundant supply of Rice is to an influential Man of very great value and with it he supplies his dependent Debtors, making each engage to give in lieu of it a certain portion of his garden produce when ripe, the rate fixed upon the grain being far above, that upon the Garden produce far below its true

market

Fort St. George 26th October 1843

market value. I have seen accounts in which not less than 200 per Cent appears to have been made in a single year, by this mode of forestalling the garden produce through each of the 3 Kinds of Fruit, which become ripe at different seasons. -

22 This however is merely a question between the Ryot and the Potail, and does not bear directly upon the interests of Government, although it in a great degree, I think, explains the desire of the most influential Potails to become possessed of considerable arable land in addition to such as is sufficient to supply their own wants instead of looking to the profits by which they would derive from restoring a garden to its former state. -

Opinion that the Financial Interest of Government would be promoted by measures in encouragement of the restoration of Gardens. -

23 Viewing the subject solely on its bearing upon the financial Interests of Government, I am of opinion that it would be far more condecive to their advancement to fix a very low assessment, in fact a moderate rice land assessment on such ruined Gardens, expressly on the condition that the Party who offers for

Fort St. George 26th October 1843 -

them will restore the Garden, than to allow him to cut down the trees and convert it into a field so long as the Hawlut duties are retained, the Government will sustain no loss by the reduction of the assessment on decayed Gardens granted on the express condition that they should be restored to a flourishing state and as I believe that the Revenue derived from this duty, which you will observe in such a year as the present fully equals the entire amount of Land Revenue in three Taloocks is almost entirely paid by the foreign consumer of the articles of Luxury produced in the Gardens of North Canara and that any benefit from its abolition would fall almost exclusively upon the Consumer and not upon the producer. - I see no grounds whatever for dissenting from the opinion formerly expressed by your Predecessor Mr. Lewin to the effect that "the abandonment of the Hawlut duties without a substitute would be a mere waste of the resources of Government" more especially when, as at present, there is no slackness of demands for our Betelnut at a fair remunerating price -

Hawlut duties.

Amount of Jummabundy Fusly 1252 A.D. 1845 67 - 3 - 10

Collection from Hawlet duties - S. 18766 - 3 - 5½

Report on the Extra sources of Revenue for Fusly 1245. 31st Jany. 1837 Para 45. -

Beyond

Fort St. George 26th October 1843

24

Beyond these remarks, expressive of my conviction, that the circumstances which give to grain a forced value in the hands of men of influence, are one reason of their desire to convert ruined Gardens into Paddy lands, and that provided the Hawlut duties are retained the Government Revenue will be improved by any measures calculated to lead to an augmentation of the produce of the Betelnut Gardens, and to discourage any desire for their conversion into cultivable land, it does not appear to me necessary to discuss the subject at present in any other point of view, although there are others, which in their effect upon the condition of the People ought not to be lost sight of, but the non settlement of the question in one way or the other undoubtedly leads to an annual loss of Revenue. I will only add that should it be thought desirable by any interference to discourage the present tendency to the conversion of garden into arable land, nothing can be done towards effecting the restoration of such gardens unless liberal advances for that object are

made

Fort St. George 26th October 1843

made by Government as the requisite funds are not to be found except in the hands of the Principal Potails; who as I have already shown have generally no inclination for such undertakings.

The Revenue from the Mo-
hurpha tax is shown in
the Margin. I am
certainly of opinion that
that of Sondah is suscep-
tible of considerable
increase, without pres-
sing with any degree of severity upon the
class of people who are liable to its payment;
and as suggested in my Jummabundy Report
for last year, I beg to recommend an entire
revision of it in the 3d Balaghaut Ta-
luks with a view to its equalization.

25

Mohurpha	Fusly 1251			Fusly 1252			Increase			
	Rs	a	p	Rs	a	p	Rs	a	p	
Sondah	855	6	9	878	3	11	22	13	2	
Bilghy	285	8	4	297	"	5	11	8	1	
Total	1140	15	1	1175	4	4	34	5	3	

The decrease in the small
amount of Revenue which is derived from
Coomree cultivation in
these Taluks, and
which is even as a
fluctuating does
not appear to call
for any particular
remarks.

26

Coomery	Fusly 1251			Fusly 1252			Increase			Decrease

10259 Fort St. George 26th October 1843.

Collectorate of Balasore.

Sir

I am directed by the Board of Revenue to request that you will report for the information of Government the reasons why the Land Revenue of your Collectorate has been less during the Fusly year 1252 than during the preceding year 1257, and to state whether you are in possession of any information which leads you to suppose that the Collections of the current year will be more productive than those of the last year.

2. The Board observe that the Collections of Abkarry and Sayer have been less during the year 1252 than during the preceding year, and they request that you will state the causes which have led to this result.

I am Sir
Your most obedient Servant

16261. Fort St. George 26th October 1843.

Order thereon. Order to be sent again in Cir-

11-72 culation. —

To E. C. Lovell Esqre

Acting Secretary to the

Board of Revenue

Fort St. George

73 From the Pl. Coll. of Canara. — Sir,

I have the honor to acquaint you for the information of the Board, that no statement of the arrears of Land Revenue of more than 15 years outstanding at the close of fasly 1252, has been sent, no such arrears being outstanding in this District.

Principal Coll. Cutchery Mangalore 17th October 1843. (Signed) H. N. Blair. Princl. Collector.

Order thereon. — Ordered to be recorded. —

73-74 To E. C. Lovell Esqre

Acting Secretary to the

Board of Revenue

Fort St. George

From the Pl. Coll. of Canara. — Sir,

75 I have the honor to acquaint you for the information of the Board, that no Return of the issue of Grants of Waste Land for the support of Choultries built for the accommodation of Travellers in this Zillah for fasly 1252 has been sent, no such Grants having been issued during last year. —

Princl. Coll. Cutchery. Mangalore 17th Octr. 1843. (Signed) H. N. Blair. Princl. Collector.

Order thereon. — Ordered to be recorded. — Pl. Collector.

75-76

16262 Fort St. George 26th October 1843.

Read again letter from the Collector of Madras dated 20th Ultimo and entered in Consultation 2nd Instant. —

Ordered that the abovementioned Letter be submitted with the following address. —

To the Chief Secretary to Government.

77 To the Chief Secy. to Government. — Submitting with reference to the order of Govt. dated 11th July last a letter from the Collector of Madras with the Board's sentiments regarding a proposal to extend the Military Control at St. Thomas' Mount over certain Villages within 4 Miles of the Cantonment and to define the limits of the Cantonment by placing boundary Stones. —

22nd Sept. 1843 Encl. 2 Cons.

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of the order of Government under date 11th July last requiring the Board to report on a proposal of the Officer Commanding at Saint Thomas' Mount to extend the Military Control, over certain Villages which, though considered to be within 4 Miles of the Cantonment, have not been included or have been only partially included within its limits; & to forward for the information of the Most Noble the Governor in Council the accompanying letter from the Collector of Madras on the subject. —

2. Of the Villages, 12 in Number, referred to by the Commanding Officer it appears that the Six named in the Margin are already included within the limits as defined by the General Order of

Chinna Kurkum. Pan Kum. Kulkuttoo. Vairyampettah. Vanthalapooram. Moovarumbedoo. Nagapankum.

Government

Fort St. George 26th October 1843.-

2d. Master General 6th July 43 P. 3. 4.

Government 1st June 1832 under Clause XLIII Regulation VIII of the same year.-

3. Of the other Six Villages which are not included in the Cantonment, Madavaroyel is the only one in which Arrack and Toddy are allowed to be sold, it is situated 5 Furlongs beyond the limits, and the Abkarry Revenue which it yields amount to Rupees 929-0-6.-

Para Kuttumpachum
Punnycherry
Mooly pauttum
Soonowaspooram
Colatoor or Soonary Colatoor
Madavaroyel
Arrack 787-12-8.
Shop-s 141-3-10
Toddy 22-
929-0-6.

4. It appears not to be of much importance as a matter of Revenue whether this and the other five Villages last mentioned are included in the Cantonment does not appear but the very fact of the quantity of Spirits sold at Madavaroyel being so limited as it is, would seem to shew that little if any can be successfully smuggled from that place to the Mount.-

In Cons. 17th May 1841

5. From a letter from the Collector of Madras under date 3rd May 1841 Para 16 it appears that "the clandestine introduction of Spirits which had not paid the regulated taxes" would be more likely to take place "from the neighbouring District" of Chingleput as distillers there may distil what quantity they like at a cost of Seven Annas per Gallon and have "therefore" great temptation to

Fort St. George 26th October 1843.-

carry it clandestinely not only within the Cantonment, but "within the Madras limits" also, and under these circumstances the Board do not see that any advantage would be derived from extending the limits of the Cantonment so as to include these Six Villages.-

6. With regard to the proposal that the limits of the Cantonment should be accurately defined by boundary Stones, being "placed at several points" the Board observed under date 25th July 1816 on a similar suggestion of the Collector of Chingleput that "the limits of each Village" would "form well defined limits"- It appears to the Board that there is still less occasion now than in 1816 for placing boundary Stones, as the Quarter Master General's plans and the General Order of Government above referred to afford greater facility for verifying the limits- There can be few points at which it can be of any consequence that the extent of the Cantonment should be minitely defined and in these, land marks would not be wanting and the Board are therefore still of opinion that it is "not necessary

"necessary that the limits should be defined by
"stones" though they see no positive objection to
this being done if the Military Authority
desire it.-

Revenue Board Office,
Fort St. George,
26th October, 1843.

/Signed/ E.C. Lovell
Acting Secretary-

Read the following Letter.-

To
E.C. Lovell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.-

78

From the Collr of Sea Customs at Madras.

Sir

Para 1. I have the honor to acknowledge the receipt of your letter dated 21st Ultimo respecting the Value of Cotton.-

2. The Season for the Export of Cotton for this year has ceased but the contract price of the past Season paid by the principal Exporters for Sinnevelly Cotton has been from 63 to 63¼ Rupees the Candy. The Tariff value however being Rupees 63. The present selling price of Sinnevelly Cotton is I am informed Rupees 60 per Candy and I therefore respectfully beg leave to recommend that

that no change be made at present but that the consideration of the Question be deferred to 15th June next as approved of by your Board on a previous occasions.-

† Para 2 Board's Letter 26th Sept. 1840.

3. I may observe that the Tariff Value of Western Cotton is Rupees 45 and the present selling price Rupees 37, still I do not consider it advisable that any change should take place till June next.-

4. It will, I am confident, be satisfactory to the Board, to learn that a very marked improvement has been effected in the Quality of this description of Cotton, and as the growers are beginning to bring their own produce to Market instead of disposing of it to Brokers, it is to be hoped that a further improvement may be looked for in this important staple of the Country, as that which is now apparent, is supposed to have arisen from the Cultivator having seen, in Madras, the great difference in point of clearing between the Cotton grown in Sinnevelly, and that which was brought by themselves.-

Sea Custom House, Madras,
20th October, 1843.

/Signed/ W.E. Underwood
Collr Sea Customs.

Ordered.

Order thereon, Ordered to be brought forward at a future Meeting.-
