The

The causes of increase and decrease by which the Settlement of the several Estates for Fusly 1251 A.D. 1840/41 was affected, will be explained as each Estate comes separately under notice.

Season. 4. It will be observed on reference to the reports appended to the Monthly Statements of Demand Collection and Balance submitted to the Board from June 1841 to February 1842, that the season in the year under review, varied much in different parts of the District. The consequence was, that several Estates situated in the vicinity of the Kistna and Godavery Rivers received abundant supplies of water, not only from the freshes of those large Rivers, but also from heavy falls of rain after the commencement of the Monsoon which proved very beneficial in inducing an extension of wet land cultivation, which yielded an abundant return of Produce, whilst on the other hand, in Ellore, Timoor, and Nuggiahpett, where there was rather a failure in the periodical rains, the Tanks, Channels, streams, water courses &c. dependent thereon, did not

not receive their usual supplies of water and the cultivation was in consequence not only impeded but gave a small return. On the whole, it may be said that the season proved favorable to the Poonasah Crop in all parts of the District, that the produce of black Paddy as well as Pyra Crops, tho' damaged by rains which fell during the period when they were coming to maturity, was by no means less than that yielded in Fusly 1250 A.D. 1840/41 during which, these species of Crop suffered severely from the failure of rain. The Jonna Crop however for which the season was ill adapted, gave a very unfavorable return.

Vinnacottah and Goodewadah. 4 The annexed Statement will shew the extent of cultivation, the quantity of produce, and the value of the Circar share of the grain in the Estates of Vinnacottah and Goodewadah for Fusly 1251 A.D. 1841/42 compared with the preceding Fusly

Abstract

17177 Fort St. George 13th November 1843.

The total amount of Settlement of these Estates for the Fasly under review exhibits a net increase of Rupees 32,112-1-11 above that of the preceding year. The only species of cultivation on which there was a decrease of Settlement was the Jonna, which tho' the cultivation appears to have been considerably extended exhibits a decrease in Settlement Amounting to Rupees 1,714-3-10 as will be seen on reference to Col. 14 & 15 Page 3 of Statement No 3 this

Decrease in Comparative Produce between Fasly 1250 & 1251 Rupees 1,714 3 10

17178 Fort St. George 13th November 1843.

this was caused by scanty produce owing to the season as noticed above having proved particularly unfavorable to the Jonna Crop, combined with a depression in the prices of grain to the amount of Rupees 2-15-7 per Candy below those of the preceding Fasly. Each of the other species of cultivation both dry and wet exhibits an Increase amounting in the aggregate to Rs. 28697-15-3 as shewn in the Margin which increase would have been considerably greater but for the falling off in the prices of all kinds of grain below those of the preceding year.

Proceedings dated the 26th January last, — they animadvert upon the great falling off in these Purganahs in Fusly 1250 / A.D. 1840/41 — and observe that hitherto the expectations founded on the late extensive Maramut expenditure had been disappointed — Upon this point I beg to observe that the season of Fusly 1250 / A.D. 1840/41 as noticed in — Para 6. of my Report on the Settlement of that year was very unfavorable for all descriptions of produce, — both wet and dry Sonna alone excepted. These Purgunnahs consist chiefly of Paddy lands and tho' the Settlement was as obtained by the —

Board

Board below that of Fusly 1242 / A.D. 1832/33 the quantity of produce was greater — as shewn in the Margin, and the falling off in the Amount of Settlement may be attributed as much to the lowness of the prices of grain compared with the famine prices of Fusly 1242 / A.D. 1832/33 as to any other cause.

8. As regards the non fulfilment of the expectations — founded on the late extensive Maramut works in — these Estates. I would submit that these — had hardly been completed a sufficient — time

time in Fasly 1250 / A.D. / 1840/41 to allow of a fair estimation being made of their effects and it is also to be observed that the Tanks situated in this District upon which the cultivation of wet lands depends are not of such magnitude as those to the southward; the supply of water received by them either from the freshes of the Kistna or Godavery, or from the fall of rains in the early part of the season being insufficient both for the cultivation of lands in the first instance, and for bringing the Crops to maturity in the event of any accidental failure of subsequent rains, the wet crops in this District are consequently dependent principally on the fall of periodical rains whatever may be the supply received in the Tanks. During Fasties A.D. 1240. 1839/40. 1251. 1841/42 1252 1842/43 great benefit accrued from the Saravut repairs to the wet Crops, but in Fasly 1250 A.D. 1840/41 these advantages were neutralized by the failure of subsequent rains at the proper season.

9. Para 6 of the Boards' Proceedings above alluded to, contains the

the following remark "It is mentioned in the report that the Tanks were filled by the early freshes in the Kistna and this was to have been anticipated, yet it is to be inferred that the next remark that extended cultivation was followed" is an oversight, as it is found from Statement No. 3 that the wet cultivation was less than half of that of the preceding year." In explanation of the above, I beg to observe that in Para 7 of my report dated 25th November 1842 for Fasly 1250 / 1840/41 it is stated that the Tanks received full supplies of water from the early freshes and that "the Ryots were consequently induced to bring a large extent of wet land under cultivation" but that they were disappointed in their expectations owing to the entire failure of rain in the months of October and November" by which period the supply the Tanks were exhausted. By the foregoing expressions it was only meant, that, encouraged by the fair prospects before them, the Ryots were induced, or persuaded, to bring more wet land under cultivation than they otherwise would

would have done. The term large was used on the occasion only in its general sense, and no comparison of the extent of cultivation in both years having been made, it was not intended that the inference should be drawn that the cultivation in Fusly 1250 A.D. 1840/41 was larger than in Fusly 1249 A.D. 1839/40

10. The Board in Para 7 of their Proceedings observe "that there was a "falling off likewise in the Estates of "Ellore and Covelly, but to a comparatively "small amount and though the irrigation "is not so good as in the Purganahs of "Vinnacottah and Goodewadah, being depen- "dent on a far smaller and more "uncertain River, yet there was but little "diminution in the extent of wet cultiva- "tion and much less than in those "Mootahs in its productiveness". The falling off to which allusion is made in the above remark was, in the Goodewadah and Vinnacottah Estates, from Rupees 90130-12-0 in Fusly 1249 A.D. 1839/40 to Rupees 32711-8-0 in Fusly 1250 A.D. 1840/41, or little less than 2/3rds, whilst in Ellore

Ellore and Covelly the Settlements for Fusly 1249 A.D. 1839/40 & 1250 A.D. 1840/41 is Rupees 19113-2-0 and Rupees 12781-11-11 respectively shewing a decrease of not more than 50 p.c. and this comparatively small deterioration is conceive may be attributed in part to the very circumstance of the sources of irrigation in these Estates being so much inferior to those in Goodewadah and Vinnacottah. In the latter, advantage was taken of the favorable season of Fusly 1249 A.D. 1839/40 to develope their resources to the utmost; whilst in the former, the more limited sources of irrigation, and a deficiency of the latter rains, rendered this impossible and the consequence naturally was that the transition to the very unfavorable season of Fusly 1250 A.D. 1840/41 which followed, was more severely felt in the first mentioned Estates than in the last.

11. Adverting to Para 5 of the Board's Proceedings dated 9th January last, in which information is requested as

Taulies a.D. 1248 / 1838/39 and 1249 / 1839/40 I beg to explain that both of the Villages in question were let out on a feer=manent rent per Annum at Rupees 427. but over and above this, certain collections are made in each of these Villages under the general head of ready Money Collections; some at a certain fixed sum, and others according to the quantity of Produce which accounts for the difference noticed by the Board.=

Advertising

10 Adverting to the Board's remarks contained in their Proceedings dated 9th January last, relating to the falling off in the cultivation of Tobacco, I beg leave to observe that the article is not extensively cultivated in these Purganahs as in Deevy Dawercottah and other Estates; the extent of land adopted for this species of cultivation is limited and of this limited extent, it is necessary that a certain portion should be left fallow every year that its productive powers may not become exhausted. Owing to this cause, as likewise to the drought of the season which rendered the supply of water in the Wells deficient the extent of cultivation of the article in 1248 / 1838/39 exhibits a considerable diminution as compared with Taulies A.D. 1247 / 1837/38

The following Statement

Ellore and Cavally. 13. exhibits a net decrease of Rupees 3172. 11. 2 in the Settlement for Taulies A.D. 1251 / 1841/42 of the Estates of Cavally and Ellore, being the result of an increase on the former of Rupees 949. 2. 8, and a decrease of Rupees 4121. 13. 10 on the latter.

4. The revenue derivable from these Estates chiefly depends on wet land cultivation, but from the total failure of rains during the early part of the cultivating season, as will be seen on reference to the season reports, appended to the Statements of Demand Collection and Balance for September, October, November, and December 1842, the cultivation fell off considerably. The Tanks, and water-courses in the several Villages of these Estates, tho repaired at a considerable outlay, were in consequence of the drought of season, in-effectual for irrigating the lands. The produce in four of the 6 Villages composing the Ellore Proutah failed completely, while in the other two there was a scanty return, consequently the settlement of fusly 1251 exhibits a considerable decrease below that of the preceding year. The ready Money collections have likewise fallen off. The Net decrease after deducting the increase derived from the Money rented and Garden lands in Ellore amounted as noticed above, to Rupees 4121-13-10. In the Cavally Proutah, tho the cultivation during the fusly under review, was far below that of the preceding

17189. Fort St. George 13th November 1843

preceding one, yet it gave a good return
and exhibited a small increase in the settle-
ment. Out of the 4 Villages composing the
Mootah, two suffered severely from drought,
and the extension of wet cultivation in the
remaining two, by which an increase of
Rupees 482-12-9 was effected, was chiefly
owing to the energy of the ryots who finding
that the rains which fell late in the sea-
son were insufficient for their purposes, en-
tered into an arrangement with the ryots
of Vongoor in the Umbergottah Mootah for
obtaining the means of irrigation to their lands
from the Tamalair, the right to the spring
water from which river has been claimed
by the inhabitants of that Village as their
exclusive right. By this means the crops
were saved from the destruction, and the total
Settlement inclusive of Money rented and
Garden lands, exhibited an increase of Rupees
949-2-8.

The Revenue from the wet lands in the Cummum Villages appertaining to this Estate, exhibits an increase of Rupees 3869-1-7, while that from the other description of crops has fallen off, by Rupees 33591-1-2, of which Rupees 32127-3-6 occurred in lands settled on a division of produce, as will be seen from the Marginal Note. The decrease under the head of Black Paddy Cha and Pyrah is not attributable to a diminution in the quantity of Produce, but to a fall in prices while in the case of Sonna for which the season was particularly unfavorable, there was a falling off both in produce and prices which of course occasioned a considerable decrease in the settlement. The extent of cultivation of the last mentioned crop during

Statements for Fuslies 1249 and 1250 A.D. 1839/40 - 1840/41 as shown in the Margin, I beg to offer the following explanations. Several of the Villages of this Estate being

Fort St. George 13th November 1843.

being situated on the banks of the Kistna, or being situated on the Islands formed by that river, the lands belonging to them are liable during the annual freshes to be washed away, and either separate Islands to be formed after a lapse of time, at some places nearer to the Villages, or a deposit accumulates at the same site, and becomes joined to the Main land. In these cases, the extent of land thus washed down is entered under the head of Poombokkalon - until it is gradually reclaimed from the river when it is re-annexed to the Village or Island, as the case may be, and the right to the land, be it sary, or Enam, is restored to the person who may have had the enjoyment thereof prior to it's being washed down.-

19. The increase in the two instances under notice, arises from the above mentioned cause, tho' the circumstances of each, differs, as explained below.-

The Village of Gazzolalanka

20. is an Island formed by the Kistna several

several years ago; any land containing an area of L.19-10- was washed away, of which from the accumulation of deposit an Extent of 10 Cuttics has gradually been recovered, and having become fit for cultivation, was entered accordingly in the Summalundy Accounts for Fusly 1250 A.D. 1840/41. Cs

21. The other instance in which the increase of 10 Cuttics in the Surva Mouzem has arisen, is in the Village of Sreecanculum on the banks of the Kistna - This is an ancient Capital in which is situated a Pagoda dedicated to Cancoolaswaraswamy, or otherwise called Andhranaikaswamy, for Cs which an Endowment was made during a remote period by Kistnah Royalon, who reigned in this part of the Country in the year Salavahan 1440 corresponding with A.D. 1509. The endowment consists of an Enam of 10 Cuttics of Dry Land called the Tamara Davoka - Doddy - and appears to have been granted for defraying the

the expense attending the Daily Offerings during the time that the Enam was under the enjoyment of the Pagoda, the said Cs 10 Cuttics of Land were at two different periods washed down by the encroachment of the river, and it was not till some years after that the deposit began to accumulate - In Fusly 1250 A.D. 1840/41 it was finally reclaimed and entered under the head of Land fit for cultivation, but part Cs of Land fit for cultivation, but part Cs thereof was only cultivated in that year by the warden of the Pagoda who advanced a claim to the land then reclaimed from the river, and the late Collector on a perusal of the documents, and in consideration of the antiquity of the original grant, and the right recognized in the District in similar cases, and further with the concurrence of the Zemindar, restored the Land to the Pagoda - This will account for the increase of 10 Cuttics under the head of Cultivation in the Surva Mouzem in Fusly 1250 - A.D. 1840/41

Adverting to Para 10 of the Board's Proceedings dated 9th January last, it seems sufficient to

to state that the increase in the Berij of rented Villages for fusly 1248 / 1838/39 and 1249 / 1839/40 is occasioned by the Board, owing to the progressively increased rates at which a gringuennial Lease ending in fusly 1250 / 1840/41 was settled by Mr. Goldingham on Chanoolumdah 23.

The following statement will exhibit the settlement of the Village of Chanoolumdah during the fusly under review, compared with that of the preceding one.

There was an increase in the Settlement of Dry Lands in this Village of Rupees 195-2-10 but a decrease in wet lands of Rupees 327-15-8 which is owing in a great degree to the failure of periodical rains in the Sirvoor Taloork, since the commencement of the cultivating season, which not only impeded the progress of cultivation, but caused the crops which came to maturity to yield a small return.

The falling off in the produce of wet lands caused a diminution in the receipts on account of Dasabhagums &c under the head of Ready Money collections. The net decrease in the settlement under all heads, amounted to Rupees 177-8-3.

Fort St. George 13th November 1843.

In Para 9 of the Board's Proceedings dated 26th January last, it is remarked that contrary to what is found in all the other Estates there was a large increase in the revenue of wet land, and a great falling off in that from Dry; and that the causes given for this difference between this Village and other properties

Fort St. George 13th November 1843.

properties do not appear sufficient. From the information which I have since obtained upon the points above adverted to, I am enabled to explain to the Board that the increase which occurred in the wet lands of this Village in fusly 1250 A.D. 1840/41. as shewn by the accounts may be considered as merely nominal, there having been no Cultivation whatever of that sort carried on in the preceding year, owing to dissensions among the Ryots, and other causes, whilst the decrease in the dry crops was occasioned by the want of rains which tho' fell on the frontier did not occur to the same extent in the other properties situated nearer to the coast.

Imagadapah - 25. The settlement of this Estate for fusly under review, exhibits a decrease of Rupees 1,139 - 7a - 10p. below that of the Preceding fusly 1250 A.D. 1840/41. The particular items in which this decrease has occurred are shewn

in this part of the Country as noticed in Para 4 of this report, which was not only unfavorable for the wet lands but likewise for the Dry: and which diminished the return to one thirds of that obtained in the preceding fusly, added to this, the falling off in the prices caused a still further decrease of revenues.

26. Referring to Para 2 of the Board's Proceedings wishing to know what progress has been made in the preparation of Sub division Accounts of the Survey adapted Ryotah, with the view of releasing the Estate from attachment, Beg to state that the respective Zemindars have, after great delay, produced accounts for 8 years from fusly 1241 to 1832/33 1249 which on examination have been found to 1839/40

be such as cannot be depended upon. The accounts in question were prepared by the Zemindar's own servants instead of by the Village Curnums and the Average taken from them has fallen far short of the amount of Peishcush. In Section VII Regulation XXVII of 1802 it is directed that accounts not less than three years preceding the then Current fusly, should be obtained from the Curnums in forming Subdivisions. The Estate has been now under attachment for the last 3 years ending fusly 1252, which 1842/43 has just expired, orders have accordingly been issued for the preparation of the Summabundy and Subdivision Accounts with as little delay as possible.

28. The Colair lake which is the principal source of irrigation to the lands appertaining to Ky Kaloor and Bhoojabalapatam Mootahs received a small supply in Fusly 1253. / A.D. 1843/43 from the Godavery river. The means thus afforded as well as the subsequent falls of rain enabled the Ryots to extend their Cultivation and the harvest was as good as might be expected which gave an increase of 617 Rs. 5 a. 9 p. in all the items above those of the preceding fusly. The increase however is not so much as might be wished considering that the total failure of irrigation in the Colair lake during the preceding year had caused a considerable decrease of Revenue in that year. The increase of Rupees 3570-2-4 in Chinna Pondraca Mootah has not been sufficient to meet the Demand of Peishcush. This Estate is composed of wet lands and from the favourableness of the season gave an increase, but it was small from the depression of Prices.

29- With reference to Para 10 of the Board's Proceedings dated 26th January last, calling for explanation regarding the large deficit in the Poolaxy

Poolaxy or Grazing tax derived from the bed of Colair lake in fusly 1250 / A.D. 1840/41 I beg to observe that the Zemindar asserts his right to collect the tax in question for cattle belonging to Ellores, Kovally, Goondoogolanoo and Umberpett Vcas. Grazing in the Vicinity of the Colair lake, while the owners of cattle deny such a right which had become a matter of dispute between them. The annexed Statement No. 1 exhibits the Grazing tax under dispute collected Demand on this account for fusly 1248 / A.D. 1838/39 and 1249 / 1839/40 and 1250 / 1840/41 amounted to Rupees 7,575-4-8 as will appear from the Marginal Note, but this was omitted in the Jummabundy accounts of fusly 1250 / A.D. 1840/41 as explained by a remark appended to Statement No. 2 forwarded with my Report dated 25th November 1842 pending the Settlement of the above dispute, on which a reference was made to the Board on the 6th October 1842 by Mr. Ward the late Head Assistant Collector in Charge who enquired into the subject and recommended the adoption of certain Rates for the Collection of the tax. The Demand for fusly 1249 / A.D. 1839/40 according to the accounts given by the Zemmindar Viz. Rupees 3454-1-3 includes the sum of Rupees-

28.

The Colair lake which is the principal source of irrigation to the lands appertaining to RyKaloor and Bhoojabalapatam Mootahs received a small supply in Fusly 1251 / A.D. 1841/42 from the Godavery river. The means thus afforded as well as the subsequent falls of rain enabled the Ryots to extend their Cultivation and the harvest was as good as might be expected which gave an increase of 617 Rs. 5 a. 9 p. in all the items above those of the preceding Fusly. The increase however is not so much as might be wished considering that the total failure of irrigation in the Colair lake during the preceding year had caused a considerable decrease of Revenue in that year. The increase of Rupees 3570 2 4 in Chendrapondracca Mootah has not been sufficient to meet the Demand of Peishcush. This Estate is composed of wet lands and from the favourableness of the season gave an increase, but it was small from the depression of Prices.

29. With reference to Para 10 of the Board's Proceedings dated 26.th January last, calling for explanation regarding the large deficit in the Polarj

Polarj or Grazing tax derived from the bed of Colair lake in Fusly 1250 / 1840/41. I beg to observe that the Zemindar asserts his right to collect the tax in question for cattle belonging to Ellore, Kovally Goondoogolanoo and Umberpett &c.a Grazing in the Vicinity of the Colair Lake, while the owners of cattle deny such a right which had become a matter of dispute between them. The sum of Grazing tax under dispute collected Demand on this account for Fuslies 1248 / A.D. 1838/39 and 1249 / 1839/40 and 1250 / 1840/41 amounted to Rupees 7.5 7 5 4 8 as well appear from the Marginal Note, but this was omitted in the Summabundy accounts of Fusly 1250 / A.D. 1840/41 as explained by a remark appended to Statement No.2 forwarded with my Report dated 25.th November 1843 pending the Settlement of the above dispute, on which a reference was made to the Board on the 6.th October 1843 by Mr. Ward the late Head Assistant Collector in Charge, who enquired into the subject and recommended the adoption of certain rates for the collection of the tax. The Demand for Fusly 1249 / A.D. 1839/40 according to the accounts given by the Zemindar Viz.t Rupees 3454 1 3 includes the sum of Rupees

Rupees 2268-3-2 claimed by the Zemindar which the Ryots refuse to pay as above stated, but the Demand for fusly 1251 during which it was under Amanam Viz.t Rupees 1589-4-3 is exclusive of the sum under dispute which amounts to Rupees 2696-8-3- This explanation will account for the Decrease noticed by the Board. The information called for by the Board in their letter dated 3d November 1842 on the subject of the Pooliay in question I hope to be able to submit at an early period.

30. The Marginal Statement shews a Decrease of 589-4-3 in the Collection of Grazing tax for fusly 1251 A.D. 1841/42 below that of the preceding year. In fusly 1252 A.D. 1842/43 the Colair lake had not received any supply of water either from the freshes or rains while in fusly 1251 A.D. 1841/42 a supply was received from both, Consequently there was not so much pasture land for the Cattle in the latter fusly as in the former and the Cattle did not resort to this lake in the same numbers as in the preceding year. Moreover the Grazing tax was rented out in

in fusly 1251 A.D. 1841/42 for 1200 Rupees which amount was realized in full, while a Balance for fusly 1251 A.D. 1841/42 of Rupees 176-4-3 still remains uncollected.

34. In Para 1 of the Board's Proceedings dated 26th January last, they observe that the report promised by the late Collector respecting Ry Kalore and Bhoojabalapatam has not been received and that the omission should be supplied with the view of coming to some satisfactory arrangement for the liquidation of the arrears surrendering the Mootah of Chena Pondraca to the Proprietor. In reference to this subject I have only to observe that the Zemindar of these Mootahs has not as yet entered into any arrangement nor is it likely he will be able to do so at present, tho' I entertain hopes that the ample means afforded for the irrigation of the lands of these Mootahs from the Colair by the judicious arrangements of Captains Best and Buckle will materially benefit and improve the Estates and that the Current and Arrears of Peishcush against them will be discharged at no distant period.

32. There are 3 descriptions of Crops usually cultivated in the lands irrigated by the Colair lake,

Viz.t

viz., Saurivah yadagary and Dalwah the 2 first have settled on a division of produce, and the third on a Bilmicta tenure at so much per candy of the circar share of the grain. This rate of money payment was fixed several years ago when the prices of grain were high & the Ryots complain that the Bilmicta just so fixed has become more than they are able to pay in Consequence of the prices having since fallen to a great extent. The request of the ryots for a reduction in the rate of last appears to me reasonable and has also been urged upon my attention by the Zemindar. The demand for fusly 1251 (A.D. 1841/42) was regulated as usual according to the former prices. It appears however equitable that some abatement of the rate of the said sist on the Dalwah produce of fusly 1252 should be made in favour of the Ryots and on this subject I shall again address the Board in my report on the Settlement for that fusly.

Vasuntawadah Estate. 33. During the early part of fusly 1251 (1841/42) and prior to the date of the attachment of this Estate the Zemindar rented out 8 Villages to D. Venkatarayadoo and Condaveeny Ramalingiah and 6 Villages to D. Ramiah and Bollapooty Sashiah on a decennial lease as noted in the Margin

on the other hand asserts that the two first mentioned renters have entered into a Cabolcut and received a Cowle for the rent in question which was managed by themselves until the Estate came under attachment, and that as they have misappropriated a portion of the collections amounting to Rupees 1893-12a 11p without discharging the Government Peishcush agreeably to the terms of the Cowle, the rent should be confirmed, and the sum misappropriated recovered from them accordingly- As regards the rent of the other 8 Villages the Zemindar states that the transaction was bonâ fide, but as the renters gave up the management of rent from some cause or other and went away to another part of this District, she undertook it herself with the view of restoring it to them when they return-

3d- On the whole there appears no reason to doubt that the Villages were actually rented out to these parties by the Zemindar, that they exchanged Moochelkas and Cowles, managed the rent and paid a few Kists thereof as they had assumed the management prior to the date of attachment, the rent has been confirmed and the renters have been

been served with a demand for the Balances which they have yet failed to pay- The rent as well as the private property belonging to the two first mentioned Renters has been attached but some individuals have advanced claim to the property in question- The other renters do not appear to have any property- The payements made by the renters of the 8 Villages amounted to Rupees 959-10a-6p and a sum of Rupees 287-6-6 was collected by the Zemindar on account of the other renters making the total Collections on account of the rent Rupees 1246-16a-10p and there remains a balance of Rupees 8753-1a-2p-

It appears from the 35. Village accounts that from this Estate in fusly 1250 / A.D. 1840/41. when it was under the Zemindar's management the sum of Rupees 4,068-10a-11p was collected, while the Settlement was Rupees 4,521-3a-2p- On enquiry into the actual resources of the Villages in fusly 1251 / A.D. 1841/42. it appeared that the Settlement of the Collection have fallen off; the former by Rupees 341-10a-8p and the

39. It will be seen from the marginal note that there was a large decrease in the Collections of Davercottah &c. Estates amounting to Rs. 77,461–11–8 but an increase of Rupees 39848–9–9 in Vinnacottah, Goodawadah, &c. during the fusly under review the Net decrease being Rupees 37,616–1–11. The causes of increase and decrease in the Collections must be attributed to the proportionate increase and decrease of the Settlement of the respective Estates as affected by the Nature of the Season – In the case of Davercottah the large decrease both

both in the Settlement and Collections is attributable to several of the Villages of Estate being under rent in fusly 1250 / A.D. 1840/41. and their reversion to Annanie management in fusly 1251 / A.D. 1841/42 – the season of which proved particularly unfavourable to the dry lands, of which the Estate is principally composed – The principal causes by which a decrease, or increase has occurred in the Settlement of, during the fusly under review have been fully explained by my remarks on each Estate which I trust will be found satisfactory –

There is still an uncollected balance of Rupees 13,302–9–9 on account of the settlement of fusly 1250 / A.D. 1840/41. & 1251 / 1841/42 as will be seen in the margin and the causes of their non realization are detailed in the Statement A. –

With reference to Para 14. 40. of the Boards' Proceedings dated 26th January last, stating that it would be better to enquire into the balances with the view to obtaining sanction to write them off in the accounts, it is to be observed

observed: that the result of my enquiry into the balances outstanding on Government Estates was submitted in my report on these Estates for Fusly 1251 / A.D. 1841/42 dated 6th July last - The Estates comprised in this report being Zemindary lands held under attachment for arrears of Revenue it would not be advisable at present to recommend a remission of the balances which may be deemed irrecoverable as this would lead to Proprietors to advance claim on Government, since they are still responsible for the whole amount of arrear of Peishcush for which they are now held under attachment - measures have however been taken in pursuance to the Board's instructions to ascertain the amount of the balances which may be recoverable and to realize the same from the resources of future years.

The following statement will exhibit a comparison of the amount of Permanent Peishcush and the Settlement for Fusly 1251 / A.D. 1841/42

The

42. The settlement of the Estates of Chanoobunda, Innagadapah and Vasuntawadah for Fusly 1251 / A.D. 1841-42 exhibits an increase of Rupees 2897-14-3. The increase in Chanoobundah is on an average more than the 1/3d of the profit that would be left to the Proprietor. The settlement of each year since it came under Circar attachment exhibited an increase and left a surplus over the Government demand which has been fully discharged. When the question of the right of succession to the village shall have been determined in Court, I shall submit my sentiments as to the future disposal of the Village with reference to the Boards' observations in Para 15 of their Proceedings dated 26th January last. The increase in the settlement of Innagadapah is small and does not require any particular remark. The amount of Peishcush of Vasuntawadah exhibits an increase above the rented Bereiz but with reference to the actual outturn, it shews a decrease of Rupees 3497-8-0. In all the other Estates, the settlement has

The Causes of the falling off in the Settlement of these Estates have been so fully explained in the foregoing portion of this report that it is unnecessary to advert to them again farther than to express my conviction that they have been of a nature, which the greatest attention and energy on the part of the Circar servants, of which, I believe there has been no lack, could not have adverted.—

From

Fort St. George 13th November 1843.

44. From the above, it appears that the collections and the payments of Peishcush of all Estates for the fusly under review fell below those of the preceding fusly by Rupees 4,454 — 10 — 9 and 3,339 — 15 — 7 respectively, but if each Estate is considered separately it will be seen that the Collections of Vinnacottah, Goodewadah, Kykaloor, Bhoojabala-patam, and Chena Pondraca exhibit an increase of Rupees 35,243 — 1 — 2 and the payments of Peishcush an increase of Rs 23,162 — 5 — 9 above those of

It may be observed that the amount credited to Peishcush in Vinnacottah and Goodewadah for $\frac{\text{Fusly}}{\text{A.D.}}$ $\frac{1250}{1840/41}$ was considerably greater in proportion

to the Collections of the year than in $\frac{\text{Fusly}}{\text{A.D.}}$ $\frac{1251}{1841/42}$. This was owing to the payments made on account of sibbundy charges and the Zemindars subsistence, as well as to the sum of Rupees 11,941 — 4 — 9 (the Collected in the Talook) not being received into the

the Treasury till after the close of the fusly, since which a sum of 10,000 Rupees was credited to Peishcash — Tho' the Collections of Ellore and Cavally Moottahs for the fusly under review exhibit a decrease, yet the amount credited to Peishcash shews an increase of Rupees 1631 — 10 — 11 above that of $\frac{\text{Fusly}}{\text{A.D.}}$ $\frac{1250}{1840/41}$ as notwithstanding the large amount of collections the amount credited to Peishcash in that year is small owing to the large amount of advances made from the Collections of the Estate for repairs to Tanks and water courses agreeably to the orders of the Board which has been debited in the Accounts of $\frac{\text{Fusly}}{\text{A.D.}}$ $\frac{1251}{1841/42}$ — The considerable decrease in the collection and Payments on account of Peishcash of the Daveresttah Purgunah is attributable to the decrease in the settlement which has been already explained — The amount credited to Government within the fusly is only Rupees 5,000 — which is about one twentieth of the permanent annual Peishcash but

a sum of Rupees 36,000, after deducting the Sibbundy charges as well as the Zemindar's subsistence &c. has since the close of the fusly. been carried to the credit of Peishcush, leaving a balance of Rupees 61.690 – for fusly A.D. 1251. 1841/42 against the Estate – It will be observed from the correspondence noted in the margin, that with the exception of 4. Villages, the whole of the Estate has been leased out from fusly A.D. 1252 1842/43 at a rent which will be sufficient to meet the demand of Peishcush and Sibbendy charges – The collections and Payments on account of Peishcush of Innagadapah Estate for the fusly under review likewise shew a great decrease below those of the preceding fusly, the latter in consequence of the surplus charges of fusly A.D. 1250 1840/41 having been disbursed out of the Collections of Fusly A.D. 1251. 1841/42.—

It appears from the above Statement that there is very little difference between the amount paid by the Zemindar on account of Peishcush in Fusly 1250 / AD 1840/41 and that actually collected from the Estates, but that the paymnents made prior to the date of attachment in Fusly 1251 / AD 1841/42 in discharge of the Peishcush far exceeded the amount of Collections for the same period - It must therefore be supposed that the paymnents by the Zemindars were made from their own private resources - The A mauny Collections subsequent to the date of attachment in Fauntaw adah were only sufficient to meet the Sibbundy Charges. The net Collections of the Padapaud Estate amounting to Rupees 800 after deducting Sibbundy Charges as well as the balance of cash remaining up to the close of the year have been carried to the credit of Peishcush -

possession of it. Under date 26th April 1843, he addressed a Petition in which he proposed to pay the arrear up to Fusly 1251 / AD 1841/42 by instalments at 2,000 Rupees every year commencing in the Fusly 1252 / AD 1842/43 This proposal of course could not be listened to, as the term of payment appeared to be too protracted - The Zemindar has subsequently addressed another Petition that the arrears outstanding against the Estate should be remitted and that the annual Peishcush being very high, a portion thereof should be abated - The Board of Revenue in reply to a letter from the late Collector reporting the attachment of the Estate desired that it should be put up to sale, and as the Zemindar has not hitherto effected any arrangement for the discharge of the arrear, I shall be prepared, if upon further consideration the Board think it advisable to proceed at once to dispose of the Estate in liquidation of the arrears due upon it -

For

48. For detailed information respecting the nature of the receipts and disbursements of the several Estates, I beg to refer the Board to the accounts current from No. 4 to 12.

49. In reference to the Boards observation in Paras 14 and 15 of their Proceedings dated 9th and 26th January last, respectively relative to the recovery of advances for repairs or what is known by the term Maramut Nisf, I have to state that the mode of recovery of this Item varies in each Talook. The nature of the Demand and the principle by which it is regulated as well as the cause of differences between the sum exhibited in the Accounts Current of Fusties 1248/1838/39 and 1249/1839/40 and the amount entered in the list of those fusties under the head of Maramut Nisf, are explained below.

50. It has been an invariable custom that a moiety of the outlay on account of ordinary occasional and extraordinary repairs to the tanks and water courses situated in Vinnacottah, Goodemadah and Davercottah Pungamahs is recovered from the Cultivators of lands in Sarj Villages, but this is not the case in Mocasa Villages in consequence of

of the profit arising from the repairs being after deduction of the Ryots share enjoyed by the Mocasadar. In these Villages therefore the Circar does not bear so large a proportion of the expence, but a moiety of the charges is recovered from the Villages and one fourth from the Mocasadar the Circar paying the other one fourth. The expences incurred for large and important works Viz. Boodamair and Poolair channels branching off from Kistna, as well as Bheemanady from Poolairr from which the tanks irrigating the lands in Vinnacottah, Goodewadah, Davercottah. Ests. receive their supplies, were under the sanction of the Board of Revenue charged to those Estates in proportion to the benefit to be derived by each but no part of this expence is borne by the Ryots, nor does it form part of the Maramut Nisf which is quite distinct from the charges disbursed for important works and invariably recovered from the Villagers, consequently the entries in the Account Current can never correspond with the sums entered in the

the Jummabundy.

51. In the Bhoojabalapatam and Ry Ryaloor Mootahs, no collection is made on account of a moiety of outlay for repairs from the Villages, nor under the head of Ghuttoo Soonooloo except in cases where water courses are cut from the bollair for the irrigation of lands - In Ellore, Cavally, Chanoobun-dah, Enagadapah &c. however the mode of collection of the item of Maramut Sist differs - In these Estates a Soom or two P. Candy under the denomination of "Ghuttoo Soonooloo" or "Padabtragum" are deducted every year from the Ryots share of the produce in wet lands to meet the charges of repairs, whether the repairs are made or not, and the sale proceeds according to the Jummabundy prices carried to the credit of the Jummabundy accounts and the money collected under this Head every year laid out for repairs when absolutely required, debiting the same in the Accounts - Beyond this no other collection is made from the Ryots on account of repairs - Hence the receipts on account of Guttoo Soons &c. and the disbursements under the head of repairs as entered in the accounts Current for fusly 1248 1838/39 and 1249 1839/40 do

do not correspond - however this Item is exhibited under a separate head in the Accounts of the year under review - as directed by the Board.

52. In conclusion I beg to assure the Board that I have not lost sight of the observations contained in Paras 12 and 14 of their Proceedings of the 26th January last regarding the expediency of allowing a continuance of the Annamy Sys-tem of management in any case in which the introduction of another

17239- Fort St. George 13th November 1843.

another System less objectionable may be found practicable. In the Estate of Goodewadah and Vunnacottah I have succeeded after much presuasion in inducing the Ryots to accede to a Settlement on Newadah for July 1252- / A.S. 1842/43 the result of which will be communicated in my report for that year, and I am at this present time engaged in endeavouring to bring the inhabitants of Deevy to acquiesce in a change of Settlement to which they have hitherto shewn themselves exceedingly averse, but I hope that before long

17240- Fort St. George 13th November 1843.

long their objections which are mostly of a trivial nature and principally founded on their inherent disinclination to deviate from "Maumool" may be overcome and that they may be brought to see and acknowledge the advantages which may be derived both to themselves and Government from the projected change.

To E. C. Lovell Esqre.

Acting Secretary to the Board of Revenue
Fort St. George.

From J. Scott Esqre. Agent to the Governor of Fort St. George at Kurnool

Sir,

12

With reference to an Extract from the Proceedings of the Board of Revenue under date 23d. of October 1843 respecting the remuneration to be given to the Venders of Stamps in Kurnool, I have the honor to state for the information of the Board that I propose for the present to employ one of the Huzzoor Goomastahs to dispose of Stamps at the Huzzoor station, and in the Talooks to delegate that duty to the respective Amildars who will of course employ one of the Talook Goomastahs, and I propose to allow in each case the commission of 5 per Cent sanctioned by Government.

I am inclined to think that the sale of Stamps will for a few years be very trifling, and that the Commission derivable therefrom would not of itself be sufficient to remunerate the sort of person it would be necessary to employ, for it is of the greatest importance to secure a respectable and trustworthy person in a situation where the temptation to go wrong is great, and the detection difficult. If I find after a years trial that the sales are much greater than I anticipate, I shall with the Board's permission Employ a Darogah for the express purpose, as in that case too much time would be taken up for the duties to be performed by any one holding another situation.

The Statement required by the Board is herewith submitted.

Sir,

Para 1. With reference to the Extract from the Proceedings of the Board under date the 2d May 1842, I have the honor to report for their information that a set of the standard weights and measures thereon referred to has been received from the Arsenal at Fort St. George.

14

2 I take this opportunity of requesting with reference to the Board's Proceedings of the 19th August 1841 their specific instructions as to whether these weights and measures are to be used only in the transactions of Government, or whether those in use in the District should be regulated by them from the date of the intended introduction of the new System.—

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 9.th Instant and in reply to inform you that the weights and measures with which you have been lately furnished are not intended for current use but to serve as a standard for reference. With this view they should be kept in your Cutcherry under lock and key and employed only from time to time as the test by which all other weights and measures used in the transactions of Government and recognized in the public accounts are to be regulated from the introduction of the new System.

From W. D. Davis Esq.re
A.g. Coll.r of South Arcot.

Sir,

Forwarding an attested Copy of an Enagetnamah issued by Amer ool omerah regarding the land enjoyed by one Futta Beig in the Village of yadiar in the Tal.k

I Under an Enagetnamah issued by Ameer ool omerah dated 27.th Runjan 1202 Higeree year, as per an attested Copy thereof herein enclosed it appears that one Futta Beig who had long served as Soobadar under the late Nabab, enjoyed 3¾ Cawnies and 6¼ of

the Manargaudy Tallook for instructions

Ninjah land yielding an annual rent of Rupees 403-3-5 in the Village of yadiar in the Talook of Mannargaudy.

x Vide letter to Board dated 8.th September 1806.

2. M.r Ravenshaw considering the services of this Class of servants of the late Nabab to be no longer required, he discontinued them under an arrangement sanctioned, by which the land in question was declared liable to pay to Government annually one-third of its Assessment.

3. The grantee enjoyed it for several years on the revised tenure, and died leaving two Sons by his first wife, and two widows, as shewn in the annexed Memorandume.

4. The Sons and the second widow having quarrelled, it was decided by the Cauzee at Porto Nove that one third of this Catoobaddy Enam should be enjoyed by the 2.nd widow, and the remainder by the two Sons which was accordingly enjoyed by the family for the last 6 years.

5. The second widow Zabeen Beebee dying last year, one Syed Amed claims succession to her share of the Enam under an alleged adoption, but the two Sons protest against its legality, and insist on her share of the Enam reverting to them as the are her next legal heirs.

6. According to the arrangement sanctioned

1st November 1806 sanctioned by Government the land should have been fully assessed after the demise of the original grantee, but for reasons mentioned in the 4th para of Mr. Hyde's letter to the Board the resumption was 26th Sept. 1816 not carried into effect as the several lapses occurred.—

7th On reference to the records I am unable to find any precedent for my guidance, I have therefore the honor to submit, for the consideration of the Board and for their instructions, whether the second Widow's share 10c-12a% should be declared subject to full assessment and if not, to whom this share should be given.—

From J. C. Wroughton Esqre
Pl Coll. of Coimbatore

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 12th Instant, directing me to afford such assistance as may be necessary to the Deputy Assistant Commissary General in procuring the supply of Teak Timber required by the Commissary General in procuring the supply of Teak Timber required by the Commissariat Department, observing that there was a want of Courtesy on my part towards that Officer, and also remarking that no sanction was necessary for my affording the requisite assistance to Captain Gosling in this matter.—

Affords explanation for not having complied with Captain Goslings request for Teak Timber for public purposes.—

2 I can most conscientiously disclaim any intentional discourtesy to Mr. Gosling. That Gentlemans first communication conveyed a requisition for the supply of 20 Teak Beams to be floated to Trichinopoly. The 1st part of the application I did not consider myself qualified to meet having

Fort St. George 13th November 1843

having received a previous commission from the Military Board under the orders of Government for the supply of 1500 Teak Beams of the largest dimensions which was, at that time, as it is now, unaccomplished and the 2d part of Mr. Goslings letter involved a matter for enquiry on the subject of floating the Timber to Trichinopoly which up to this time I do not comprehend.—

3 Under these circumstances I briefly pointed out to Mr. Gosling the necessity of making his application in the manner suggested in his subsequent letter dated 17th August 1843.—

4 Had I acted otherwise, I should not have done my duty to Government under whose orders I was pledged to the Military Board and further I should have disobeyed your Boards instructions dated 27th March 1834 which direct all communications on the subject of Teak Forests to be made to the Military Board.—

5 Beyond therefore the delay which occurred in replying to Captain Goslings first letters which a heavy press of business must excuse, I cannot consider myself, in intention to all events meriting the censure conveyed in the 2d para of the Proceedings under reply.

6 It would also be a source of considerable Revenue if the local restrictive order against the cutting of Teak is altogether removed and modified so as to let it have access to the Market at its relative value the marking of the Jungles being strictly under the protection of the circar Servants.—

Extract from an Order issued by the Sub Collector of Malabar to the Maramut Maistry attached to his Office under date the 19th October 1843.

1. An accurate survey and Plan of the Military Limits at Mummendaly lately fixed and reported upon by the Sub Collector, being called for by the Government with as little delay as possible, the Maramut Maistry is directed to proceed as early as practicable to that place.

2. Errors having been discovered on a personal inspection by the Sub Collector in the former Survey of the Mundra Mula Farm, he directs a fresh and more accurate one to be made should the state of the Maistry's health be still such as to prevent his undertaking these duties at present, the Sub Collector would observe Dr. Kennedy's opinion

17403.

Fort St. George 13th November 1843.

Revenue Department.

Extract from a General Letter from the
Honorable the Court of Directors Dated 18th
January 1843 No 1.

13 The resumption of four Devadaundum Enams in Salem authorized and further information required respecting Enams of this description in that District

Para 4. These Enams were originally granted
on consideration of the Tanks under which they are
situated being kept in repair, and the Tanks having
become breached and the Enamdars declaring their
inability from want of means to put them in repair
the lands have been resumed under the terms of the grant.

5. The Principal Collector Mr Gleig states
that "many of the Enams held on Devadaundum tenure
"in this District are far too limited" and that consequently
"they are useless for the purposes intended" and in such cases
he suggests the propriety of giving to the Enamdars as
"hereditary share" or in other words an average on the years
"cultivation in this Case" he remarks "there is not only
inducement to preserve the efficiency of the irrigating source
but also to bring up to the utmost the cultivation."

6. Mr Gleig further states "There is no
"doubt that the Enams are liable to resumption on the
"non fulfilment of the conditions of grant, but there will
"I think, be a loss to the Government by these small
"works whether resumed or not if, the holders of the
"Enams do not have a sufficient remuneration to
"make it their interest to keep them in a state
of repair. If not resumed, every year's payment is a
loss,

"loss, for when heavy repairs become necessary the tank
"is thrown on Government's hands and if resumed, the
"constant repair these small Tanks require is often
"more than their value".

17. From this we gather it to be Mr. Gleig's
opinion that the repairs required to keep these small
Tanks in a state of efficiency can be more economically
performed by the Enamdars than by means of the Collectors
Establishment, and that it is desirable that the advantages
offered to the Enamdars, should be sufficient to induce them
to fulfil the terms of the grant. With advertence to the
opinion thus expressed by the Principal Collector, and
in consideration of the paramount importance of main-
taining in an efficient state all the existing means
of irrigation we are inclined to doubt the correctness
of the opinion stated in your Minutes of Consultation
of the 2d September 1841 that "as a general rule it
"would be desirable that Enams held on Davalumdum
"tenure should be resumed when the terms of the grant
"are not complied with" at all events we trust
that the subject will receive your full consideration
when the further information which has been called
for on the subject shall be laid before you.
