Submitting with reference to the Extract from the Minutes of Consultation under date 22d August last a letter from the Principal Collector of Coimbatore with its enclosure stating that Mr. Morris is unable to furnish a Statement of the expences incurred on account of the experimental rice cultivation carried on by him at Errode.

(Here enter 2d October 1843 p. 484)

The Most Noble the Governor in Council observes that without the means of comparing the expences attendant on the different modes of cultivating rice as adopted by Mr. Morris and the Native agriculturists,

agriculturists, the experiment of the former answers no useful purpose. His Lordship in Council would nevertheless be glad to reimburse Mr. Morris for any sums which may have been laid out from his private funds in carrying out the experiment; but he cannot learn that Mr. Morris was subjected to any such expenses, while from Dr. Wights' letter of the 10th November 1842 it would appear that all charges for the rice cultivation were included in the Monthly accounts of the Cotton Farm.

Submitting with reference to the orders of Government dated 20th. February last on Petition from Meer Mahomed ally and Meer Anver ally, a letter from the Collector of Guntoor, and stating that the Bd. are of opinion that Petitioners claim to certain emoluments attached to the Office of Cazee of Nizampatam is inadmissible under Regulation IV of 1831.

(Reference 14th. February 1843 No. 463 Sept.)

Para 1. The Petitioners, it is observed, claim participation in the emoluments attached to the Office of Cazee of Nizampatam which they had enjoyed, in virtue of an agreement, for a period of 27 years prior to 1839, but which has since been withheld from them by the

the present incumbent of the office. A suit was in consequence brought by the parties in the late Auxiliary Court at Guntoor to recover their shares, but was rejected upon the ground that the claim came within the scope of Regulation IV of 1831.

2. Under the circumstances of the case above noticed, it does not appear that the claim is one which can properly be adjudicated by the Government under the provisions of that enactment, and his Lordship in Council accordingly resolves to advise the Petitioners to appeal to the Court competent to set aside the order of the late Auxiliary Court under which their suit was rejected.-

Para 1. On the occasion of my meeting Mr Dighton at Mooneyal in April last for the settlement of the Poollary disputes, sundry questions of disputed boundary between Villages situated on either side of the frontier in that neighbourhood were brought to our notice; of which from various causes it was found impracticable to effect an immediate adjustment.—

2. In Para 3 of an Extract from the Minutes of Consultation of Government dated the 13th April 1841 it is directed that any disputes which might arise subsequent to the settlement made by Captain Gresley should be adjusted by Punchayet, under the Superintendence of the local Officers on both sides of the Frontier and this course we suggested to the disputants, as the best that could be followed by them. They were however extremely urgent that the questions should be determined by

by an European Officer and upon its being proposed to them that the cases under dispute should be adjusted by Captain Buckle late Civil Engineer in this Division and at present acting as Superintending Engineer at Secunderabad both sides agreed unanimously to abide implicitly by his de-=cision if he would undertake to arbitrate between them.

3. Captain Buckle, I have as-=certained will with pleasure undertake the duty, and as I purpose visiting the Moonegal Estate in the course of next month, I have the honour to request that the permission of Government may be obtained for his meeting me there for that purpose.

Recommending that the full Yeomiah of 30 Rs per mensem may be continued in the name of Goolam Hoosain the eldest son of Kenant Shah a deceased Yeomiahdar.

that a Yeomahdar named Kenant Shah who was in the receipt of a Monthly Yeomeah of 30 Rupees died on the 20th October 1842. The original Yeomeah was 30 Rupees but was reduced by Mr Travers on the assumption of the District to 15 Rupees. It was subsequently restored by Government to the original sum and arrears at that rate were allowed and paid to an amount of upwards of 4,000 Rupees.

The correspondence noted in the margin contains full information of the origin and other circumstances of the Grant. It was partly for the Yeomeahdar's own subsistence but principally for the support of a choultry in the Nellore Town comprising within the same compound three buildings. This choultry is much resorted to by travellers. The Yeomeahdar has left a large family who were supported by the allowance consisting besides his widow, of two Sons, four daughters and a younger Brother. Under the circumstances of the case

One of the buildings that for Gosha females is in a dilapidated state and must be repaired out of a portion of the arrears which will be payable if the allowance be continued. Sir,

I have the honor to acknowledge
1. the receipt of your letter dated the 25th Ultimo No 997, and to forward a figured Memorandum shewing the particulars of the Gain on exchange of C. Rupees 1620-9-10 credited in my Journal for June last.—

2. In explanation of the circumstances under which coins are received in payment of Revenue at a rate different from that established, I beg to state, that on the Cession of the Country to the British Government a General survey of the land took place and the accounts thereof were made out in Canteroy Pagodas & Fanams &c according to the practice which obtained during the former native Governments, and accordingly the Ryotwar and Summahbandy accounts were kept in the same currency. It has therefore become

necessary

at Government exchange without disturbing the survey account. The one is that it would re-lieve the Ryots from the unjustifiable demand of 86 Cents of a pice in the Rupee hitherto made; and the other that it would simplify the Puttah and enable the Ryot exactly to comprehend the amount of his responsibilities.—

6. As the Board have the opinion of several able Collectors on the subject, I shall not say more than to state my readiness to undertake the labour, and that it will be necessary to retain Summahbundy Extra Goomastahs in permanent employ in order to convert the Canteroy sums into Rupees, annas & Pice in the Puttahs amounting to upwards of 136.000 in number per year as per the marginal note.—

Sir,

I have the honor to acknowledge the receipt of your letter dated the 25th Ultimo No 997, and to forward a figured Memorandum shewing the particulars of the Gain on exchange of C. Rupees 1620-9-10 Credited in my Journal for June last.—

2. In explanation of the circumstances under which coins are received in payment of Revenue at a rate different from that established, I beg to state, that on the Cession of the Country to the British Government a General survey of the land took place and the accounts thereof were made out in Canteroy Pagodas & fanams &c according to the practice which obtained during the former native Governments, and accordingly the Ryotwar and Summahbundy accounts were kept in the same currency. It has therefore become necessary

necessary to regulate the Collection of the Revenue at the rate of conversion of only 3 Canteroy fanams and 6 annas per Rupee, while the the Circar Nirrick gives 3 Canteroy fanams 6 annas 8 86 Cents. The difference of 86 Cents thus appearing is the exeeefs or rather the gain obtained from Ryots in payment of their Kists.—

3. As connected with this matter, I beg to refer you to a former Collector Mr. Chaplins reply to a reference made from your office under date the 18th June 1810 which will satisfy you upon the subject.— dated 25th June 1810.

4. I further beg to enclose Extracts* from my Predecessor Mr. Robertson's letter to the Board of Revenue and of their reply dated respectively the 24th November and 16th December 1821. In the first of these communications you will observe Mr. Robertson has entered into a full discussion of the subject, noticing how the gain is derived and submitting his opinion as to what should be done. Although his proposal for the alteration of the Money of accounts Viz. the Canteroy Pagoda with all its fractions was at that time abandoned pending future consideration, it is nevertheless my intention as I informed you in my last letter, to bring the matter forward again, and I hope to be able to attain the object in view when the alteration is once introduced it will relieve the Revenue servants in the District from an abundance of labour in converting a nominal money which is entered from the survey accounts, the Curnam's chittahs, & the Ryots Puttahs down to the Summahbundy Cutcherry accounts) into the real & bonafide Currency of the present time.—

From the Asst Stn Collr of Salem ——— } Sir,

Submitting the revised Pookumnamah and Cowlenamah with reference to the Board's instructions of the 6th Sept. last—

With reference to Extract from the Proceedings of the Board of Revenue under date the 6th September last I have the honor to forward the revised Pookumnamah and Cowlenamah for the District in English and Tamil numbered

In

Fort St. George 23d November 1843.

2. In the Fookummamah Rule 2 has been revised in strict accordance with the observations contained in Paras 1-2-3-4 and 5 of the above extract, and with reference to Para 19 of the Board's proceedings under date the 23d March 1843.-

3. The latter portion of Rule 10 has been altered as required by the Board in Para 6 of the extract.

4 With reference to Para 7. Rules 22 and 30 have been modified, and Rule 32 omitted, as directed by the Board.

5 The amendment of Rule 1 of the Cowlenamah has been made with reference to para 8 of the extract under reply, and to paras 18 and 19 of the Board's Proceedings dated 23d March 1843. which rendered necessary also an alteration in Rule 2.

6. The restriction alluded to in para 9 regarding the privilege obtained by the construction of new Wells has been added to Rule 16.

7. I have been induced to enter an additional Rule (22) in the Cowlenamah regarding the description of lands to be given on Cowle with reference to Para

of the Board Proceedings dated 23d March 1843, and regarding which, I made an allusion in Para 38 of my Summahbundy Report of the District for the last Fusly.-

Actg Pt Collector,

No 1.-

Revised Fookummamah for the Zillah of Salem.

1st The Summahbundy accounts should be prepared uniformly according to the Forms that may be furnished from the Honble-

Sagoobady Dittum or Fraedom of Cultivation

2nd The Tahsildar should form annually a Sagoobady Dittum or Cultivation agreement- that the Ryots of each Village may know how much they have to cultivate, this Dittum to be commenced after the 1st of May and concluded before the 31st July of each year. The Ryots must not be forced but should be left voluntarily to engage for any quantity of Ponjah, Nunjah, or Waraget lands they may wish to cultivate and the same should be entered in the Dittum Accounts.- If any Ryot wishes to

to relinquish part of his Patent, he should be allowed to do so provided it is a whole field and so situated, that it can be conveniently cultivated by another who may choose to take it up, or give up good and bad together in fair proportions and shall on no account be permitted to throw up bad land alone.-

Remission 3. The tirwah in the Poonjah lands being fixed on their average production value, and but little rain being required for dry Crops, no remission will in ordinary cases be allowed on fields which have been entered in the Dittum agreement but which may have proved unproductive or been left uncultivated

4 On Anjah lands entered in the Dittum, no remission will be allowed if left uncultivated unless unavoidably in consequence a failure of water. The same rule applies to Bagayat lands.

5. When Anjah lands are cultivated but the Crops have partially or wholly failed from insufficiency of water, the full tirwah must nevertheless be collected according to the custom of the Country.-

Crops in the beds of Tanks 6. When lands situated in the

beds of Tanks are cultivated with Anjah, Poonjah or Bagayet Crops and when they may be inundated and the Crops destroyed from the Tank filling before they are reaped the tirwah of the extent inundated will be remitted according to the present practice.-

Sub Division of Fields.- 7- The fields which from their large extent had been formerly divided and the divisions entered in the Summahbundy Accounts prior to Fasly 1241 shall still continue as divided fields and the divisions may be cultivated as such When Poolochits are given for the Cultivation of additional lands, they must be given for entire fields or entire divisions as above specified In the event of offers being made to cultivate Anabey Bunjer or Poombuck which at the survey were entered in accounts in extensive tracts, the quantity of land the Ryot may require shall be given over to him and the Tirwah to be collected thereon should be fixed with reference to the assessment on adjoining lands of similar description and quality which may be under Cultivation the No of the fields bearings of the subdivision its extent and assessment must-

must be carefully entered in the Tolcheet which is given to the Ryots. In order however to prevent the lands being divided into such small portions as may make it inconvenient both for the collection of the Government Revenue or for the cultivation of a substantial Ryot no new lands are to be given in portions less than can be cultivated by a single plough which in Ponjah land may be fixed at 5 Acres, in Ponjah Bassayet 3 acres and in Nunjah 2 acres. In the event of two parties applying for the portions of the same mapped land and the whole being insufficient to afford a full portion to each the first applicant shall be entitled to the portion he requests and the remainder given to the other provided however, as should the remaining be under an Acre in extent no division shall be made, but the whole made over to the first person who made the application:-

8 In all cases where it may be necessary newly to assess waste land the

assessment must be regulated with reference to that fixed on lands of similar description, situation and quality under cultivation, as also to the means of irrigation. in the event of there being no cultivation and assessed lands of similar description in the same Village, the lands in the neighbouring Villages must be referred to the correctness of the assessment thus fixed will be examined into by the Huzzoor Establishment and confirmed by the issue of Puttahs.-

Excess or Deficiency in a Field

9. If in any field an excess is found on measurement of more than 10 p.Cent, the whole excess should be assessed to the Immanabundy and the Cawah collected at the same rate as on the rest of the field. On the other hand, if a deficiency is found greater than 10 p.Cent the whole deficiency should be deducted: any difference one way or the other within 10 p.Cent should not be interfered with. No field however should be measured unless there are strong grounds for suspecting any great difference in its extent as a frequent and minute enquiry must prove vexatious.-

Conditions on which a Ryot may retain land on Cowle

10 Any Ryot wishing to take

take up Coole lands for cultivation agreably to the terms specified in the Cowlenamah. he shall first apply for Toolocheet to the Tahsildar, or, in the event of it's being inconvenient to the Karkoon who must make a personal examination of the land applied for, whether it be such as may require to be given on Coole and afterwards make his report to the Tahsildar that the land has been left waste for so many years, that the Ryot who offers to cultivate it holds a putteh of Acres and whether it is all under tillage. that he possesses means to carry on the Cultivation of the above land, that he agrees to pay the tirwah thereof whether cultivated or left fallow: and that he has given competent security to this effect and has good grounds for believing that he will fulfil his engagement. The Tahsildar, on receiving the Durkhastnamah and security bond, shall give a Toolocheet shewing the rate of tirwah of the Coole land which, in the event of being unassessed should be fixed at the rate assessed on land of a similar description in the neighbourhood. Toolocheets so granted shall be entered in a separate Book with the signature of the Tahsildar and Sheristadar who shall

shall deliver it into the Puzzoor at the time of settlement. No Village Servants such as Ammums and Monegars are empowered to allow any Ryot to take up Coole land. Should a Ryot, without making application to the Tahsildar or Karkoon cultivate the land, the full assessment or in the event of it's being unassessed land, a Mussal tirwah will be collected although the Karkoons put a Ryot in possession of Coole lands applied for, yet they cannot be considered thereby empowered to cultivate them until Toolocheets are obtained from the Tahsildar to that effect, and although there is a rule in the Dookummanah which permits a Ryot to throw up or take up any land at his pleasure, yet he cannot throw up any part of his puteh land after his engaging to cultivate Coole land until such time as the said land is liable to full tirwah. In the event of his giving Rajeenamah within the prescribed time for relinquishing his Puteh and retaining his Coole it cannot be accepted by the Tahsildar but should the Ryot after taking Coole land wish to give up a part of his Puteh before the Coole arrives at full tirwah, he should do so by giving up good and bad

had together if the Putlut in fair proportions
Should however he wish to keep the Coole
before it comes to full tuwah and give
up his entire Putlut he may do so, but the
terms of the Coole in that case will be
considered cancelled and full assessment
imposed thereon.—

11. Should a Ryot cultivate a land
without applying for a Toolocchit or having
applied without receiving one the full assess-
ment will in every case be collected care
must be taken by the District Servants
and Village Officers that this be carefully
explained to the resident Ryots and strangers
previous to their undertaking the Cultivation.—

12. Should any Ryot offer to culti-
vate on payment of the full assessment
lands entitled to Coole, such lands may
be made over to him at the full tuwah
and a Toolocchit granted accord-
ingly.—

13. Should any Ryot offer to cu
cultivate at the time of settlement with
an after Crop an entire field or fields
and give a Moochelika for the pay-
ment of the full assessment, the
land

land should be made over to him for
Cultivation, and the extent and assessment
inserted in the Jummabundy Account of
that Year as cultivated and the tuwah
collected accordingly.—

Coole Shist to be paid whether the land is cultivated or not.

14. The tuwah due on Coole lands
must always be collected whether Cultivation
or not in the event however of Sunjah
lands held on Coole being left waste
from a failure of water as in this
instance the cause is beyond the Ryots
control, full remission of the amount due in
that Year must be given; but the lands will
be liable in the following Year to the pre-
scribed Shist which belongs to that Year.
In the event of the death of a Ryot
holding Coole land, the Puttah may be
transferred to his heirs on the Coole terms
if they are willing to hold it in no
other instance however shall Coole
lands be transferred from one party to
another instance having occurred of
Coole lands being entered in the name
of one person who had neither the means
nor the intention of cultivating and
which

which were enjoyed by another thereby eluding the provisions laid down for the Village Management in the event of this taking place hereafter the full assessment of the land will not only be collected but it will render the Manegar and Curnum liable to immediate dismission, for without their Cognizance this could not take place

Ryots cultivating Enam lands

15th If any Ryot from inability to cultivate or other cause tenders, during the cultivating season a Razeenamah for a part or the whole of his usual Co puttah lands and continues the cultivation of any Pulliput, Jodiggy, Agrahar, Sanyp Mootah and Enam Lands or another's Puttah, which he may have been in the habit of cultivating, no Teerwah will be levied on his puttah land so given up, but if after tendering Razeenamah he engages wholly in the cultivation of Pulliput, Jodiggy, or Agrahar, 8th lands, his Razeenamah will be considered null, and the Teerwah of the Puttah land he has left, will be collected unless the land so left has been cultivated by another individual when no Teerwah will be levied from the late proprietor if a Ryot without tendering

tendering a Razeenamah during the cultivating season, leaves a part or the whole of his usual puttah land waste and engages as above stated in the cultivation of Pulliput, Jodiggy, Agrahar, 8th lands whether usual or not, the Teerwah of the Puttah so left will be collected that is if not cultivated by another individual.

Poonjah completing any other description of cultivation by Circar Water

16th If any Ryot converts his Puttah Poonjah land into Nunjah or Totakal or co. from Totakal into Nunjah by water from Circar Tanks, Rivers or other Sources (except his own well water) the assessment of the adjoining lands of a similar description and quality and keeping the same means of irrigation will be levied from him if enam lands are similarly converted, the assessment of lands of a similar description and quality will be charged, and the difference after deducting the Poonjah Teerwah, will be levied from the Enamdar as Teerwah justly in addition to his usual Jodiggy.—

Bagayet Waste

17th If a Ryot repairs an old Well in Bagayet waste land at any trifling expence under 10 or 15 Rupees no remission shall be allowed, but if he repairs substantially and at a considerable expence any

any old Cutt and brings into cultivation Bagayet land which has been waste, he shall obtain a Cowle on the terms specified in Para. 12 of the Cowlenamah.—

Nunjah Bagayet

18. All productive Cocoa and Betle nut-Gardens whether watered from Circar Sources or from private Wells shall continue to pay the Assessment hitherto levied on them on gardens already formed by water from Circar Sources but not yet productive. The Assessment of the land if formed on Nunjah and if formed on Poonjah or Poonjah Bagayet Amandy Bunjer or Pommboke the Nunjah Assessment of land of a similar description and quality shall be levied until the trees arrive at Maturity and afterwards that Assessment doubled if the Gardens are situated in the Bakramal and Poyungaut talooks but if in the Balaghaut the highest rate of the Tank irrigating them.—

19. On gardens already formed on Assessed Land by water obtained from private Wells but not yet productive the Assessment of the land both before and after they arrive at maturity shall be levied as if formed

formed on Pommboke or other unassessed land, the Assessment of Poonjah land of a similar description and quality should be applied.—

Full Teerwah to be paid when a part of a field is cultivated

20. When a Ryot cultivates only a portion of a field and leaves the rest waste he must notwithstanding pay the full Teerwah for the whole field.—

21 If a part of a Poonjah field is cultivated with Bagayet or Nunjah by means of water from any Circar Sources the portion so cultivated should be measured and the Teerwah of the adjacent Bagayet or Nunjah land of a similar description and quality should be respectively collected on it and the Poonjah Dum Teerwah for the rest of the field whether cultivated or not. The extent of the land to remain tied and its increased Assessment should be entered in the Dummabundy Accounts as Taujeeste.—

22 No increase or decrease must be made in the terms of Assessment but in the event of the loss of means for irrigating Nunjah land either by the dilapidation of Tanks or other causes which

which may prevent the cultivation of Nunjah. The Tahsildar, after having examined the lands, will report the circumstance to the Huzzoor, and should it be necessary, these lands may be given out on Poonjah tenure with reference to the Teerah of the nearest Poonjah similarly situated, taking a Shanbhoguekelekah from the individual who engages to cultivate them to the effect that he should without any objection relinquish them when any other Ryot offers to dig Wells on them and thereby cultivate Nunjah or Bagayet paying a Mifsal Teerah, or retain them paying the Teerah offered by the second person on these lands when a second individual digs a Well at his own expence and cultivates either Bagayet or Nunjah, a Mifsal Nunjah Bagayet Teerah as on lands similarly situated in the Village will be assessed on them agreeably to the general provisions of the Cowle and Hookumnamah. In cases of lands where at the period of the Survey the lands were occupied by Topes and on that account excluded from assessment in the event of the Trees being decayed or

or cut down, if cultivated as Nunjah Bagayet the Mifsal Teerah on the lands which are similarly situated as to situation and quality shall be assessed thereon, if Cultivated as Poonjah, the highest Poonjah Assessment of the Village is to be taken. In case of Ryots who have died or left their Village and whose heirs have not the means or inclination to continue the cultivation and tender Rageenamah for the lands held by the former proprietor, also in cases of the heirs of deceased and deserted Ryots who neither cultivate nor give Rageenamah, the notice prescribed by Regulation 20th of 1802 cr. should be issued. In the event of no one appearing to claim the land within the year, these lands may be considered as belonging to Government and may therefore be given out for cultivation to other Ryots. - Should these lands contain private wells, they will be considered as forfeited to Government, and in event of a higher term of cultivation being made than that originally fixed, an increased Assessment or fuzl. Jasta may be collected according to the Cultivation, whether Bagayet or Nunjah. The necessity of issuing notice

In cases such as abovementioned where no one belonging to the former Cultivator appears for the purpose of taking up the lands, the Tahsildar or those appointed by him to form the Sagawally Kittum shall enter these lands, for one year, in the name of any person willing to undertake their Cultivation. &c Should the rightful claimant appear within the Fusly to demand the restoration of the lands, they may be given up to him for the next year's cultivation. If no one appears, they may be confirmed for the ensuing year and thereafter in the name of the party who agrees to cultivate, or failing him, to any other Ryot.-

Nunjah &c Bagayet lands under certain circumstances may be cultivated with other Crops.-

Scattered trees in Patent lands except from Teervah

For scattered Trees on Patent

25. lands, with exception of coconut, no teervah shall be collected, unless the tax payable from the trees shall exceed in value one fifth of the Assessment of the land on &c which they are situated. In cases where it exceeds not only the land teervah but the usual teervah leviable from the trees, will also be collected: no remission of tree tax will be given on lands during the period they are held on Cowle, in the event of lands in which trees are situated being left uncultivated; the tree tax will alone be taken.-

causing delay which often prevents &c &c &c the Cultivation of the land, and as the rights of Government ought not to be affected by private impediments. In cases such as abovementioned where no one belonging to the former Cultivator &c appears for the purpose of taking up the lands, the Tahsildar or those appointed by him to form the Sagawally Kittum shall enter these lands, for one year, in the name of any person willing to undertake their Cultivation. &c Should the rightful claimant appear within the Fusly to demand the restoration of the lands, they may be given up to him for the next year's cultivation. If no one appears, they may be confirmed for the ensuing year and thereafter in the name of the party who agrees to cultivate, or failing him, to any other Ryot.-

Nunjah & Bagayet lands under certain circumstances may be cultivated with other Crops.-

24 If Nunjah Garden lands contain fewer or no trees and cannot on that account any longer pay the Garden Assessment, they may be cultivated with Nunjah on payment of the Assessment of

Fort St. George 23rd November 1843

of the land, if formed on Nunjah Lands, of Nunjah lands of a similar quality, and if there is no supply of water, according to the rule entered in Para 23.-

Scattered trees in Patent lands except from Teervah

For scattered Trees on Patent 25. land, with exception of Coconut, no Teervah shall be collected, unless the tax payable from the trees shall exceed in value one fifth of the Assessment of the land on which they are situated. In cases where it exceeds not only the land Teervah but the usual Teervah leviable from the trees, will also be collected: no remission of tree tax will be given on lands during the period they are held on Cowle, in the event of lands in which trees are situated being left uncultivated; the tree tax will alone be taken.-

Nursery lands to pay Assessment

26 When land is sown with any grain for the purpose of transplanting the shoots into other lands, the usual Teervah of the land so occupied should be collected, unless a crop is raised on it.-

Incroachment on waste &c lands.-

27 Where assessed or unassessed waste lands are incroached on by Ryots or by Enamdars, or the whole or any part thereof added to their Patent lands, they shall be liable in the former to pay the full Assessment of the fields so incroached upon, or in the latter to the &c provisions

provisions entered in Para 4.-

Land injured or swept away by flood.

28- If any Putent land of a Ryot be injured or carried away by inundation from floods, riners, or the overflowing of Tanks, the Tahsildar should enquire into the circumstances, and after measuring the injured extent, should bring the case to notice at the time of settlement, when the teerwah on the extent injured will be remitted.-

29- The Cowles granted by the Collector previous to Fusly 1241 for the Cultivation of land at various decreased rates on the original assessment as well as those granted on Moonasib Cowle, shall only continue while the land is in possession of the original holder. In the event of her passing it to another, or its devolving to his heirs, the full assessment is to be levied. In cases of Mootahs reverting to Government the agreement entered into by the Mootahdars or Renter with the Ryots, either for renting or holding lands at a reduced rate of assessment shall only continue during the current year; and in the ensuing fusly the full survey rates should be reestablished.-

Puttahs

30- To all Ryots who pay the circar demand on their lands, Puttahs should continue to be issued in their names as hitherto.- In the event of a Ryot applying at the proper season for Puttah to be made out in the name of any other person

person for a portion or the full extent of his Putent, the Tahsildar, after examining into it, is to give it to the second person, provided the person giving up the putent holds no Cowle lands. Should however a Ryot hold both Putent and Cowle lands, he cannot give up one and keep the other, but must relinquish both, in which case he must grant a Razeenamah, a Durkastnamah being obtained from the second person,- When these are examined at the time of settlement and approved of, the required Puttah shall be issued in his name. Until such transfers undergo the examination in the Huzzoor at the time of the settlement, they cannot be considered as confirmed. When the assessment on land remains unpaid for one year or upwards and which the Puttahdar is unable to liquidate, if the land is cultivated by an undercultivator, the Puttah may be made out in his name, if he wishes it, and if he pays the current balance which may be actually due on the land.- If he is either unable or unwilling to undertake the cultivation

cultivation of the land, it may then be given to another. Any Ryot who has left his land waste for one year and has not paid the assessment due on it, will not be allowed to reclaim his land if occupied by another.- The same Rules are applicable to the lands held by Curnadars, Curnums, and other Village Servants.- If a Ryot cultivates the land of an Emigrant Ryot who has been absent for one year or upwards, without making provisions for the cultivation of his land, or the due payment to the Government demand, it will be entered in accounts in the name of the Cultivating Ryot, and a Puttah given to him, or having so made provision, should the party undertaking to cultivate the land fail to do so, or pay the Government dues for one year, the land will be given up to any one else who agrees to cultivate it.-

Jodiggy and Quit rent.-

31. The Jodiggy or Quit rent fixed on Enam lands by Colonel McLeod and Mr. David Cockburn shall continue to be collected.- Any alterations since made by Mootahdars or others without sanction shall not be continued.-

32. When any Enamdars or their heirs fail in paying their fixed Jodiggy

Fort St. George 23rd November 1843

Jodiggy, they amount should be collected from the Cultivator of the land if it has been actually cultivated.- In case the land may not have been cultivated, or the amount of Jodiggy not fully paid, the land to be attached for one year; and if the Jodiggy is not within that time liquidated from the produce of the land or paid by the Enamdars, the land should be included in the Circar Amany lands from the following year.-

Moturpha

33. The Moturpha Collection should be made as hitherto. If any Ryot who paid Moturpha dies or emigrates, or gives up trade, the teervah should, after proper enquiry, be remitted.- If any one, liable to pay the Moturpha tax has hitherto evaded paying it, or if any new traders open shops &c., a Moturpha tax should be fixed according to the circumstances of the Individuals and custom of the Village.- The House tax shall be collected as usual on all Houses that are occupied.- The heads of Castes shall continue to be exempted from loom, shop, or house tax according to Mamool.-

Cultivating Ryots exempt from House tax.-

34.- All cultivating Ryots shall be exempted from House tax, but those who leave their lands uncultivated for a season, or who relinquish cultivation altogether shall

shall be obliged to pay it.- If any other tax on their profession or trade has been hitherto paid, the same shall continue to be collected. No person however, who does not cultivate lands paying double the amount to which he would be liable for House tax, will be entitled this exemption.-

Houses on Putcut lands

35- No Puttahdar is to be allowed to build houses on Putcut lands without permission and giving security that should he relinquish the Ground, he will leave it in a state fit for cultivation. For Houses built on Putcut lands, the Inhabitants will be liable to pay the Puttahdars, a reasonable ground rent, and the usual tax according to profession to the circar.-

36- No person should be allowed to build on Anandy Bunger, Poramboke and Podiyal lands, without previous permission. An application for places to build being made to the Tahsildar, he should report the circumstance and act according to order. Ryots acting contrary to this order, will be subjected to the payment of the teervah due on the land.-

Backyards Exempt from tax.-

37. No tax according to Custom shall be collected on the backyard of any occupied houses provided it does not exceed ⅛ of an acre, neither shall any tax be collected on trees growing

growing at the doors or in the back yards of occupied Houses.-

Fisheries

38- According to custom, nothing shall be collected for the right of fishing in any tank, unless the rent exceeds 20 Rupees; but when offers are received for upwards of 20 Rupees for any Tank, the offer or Durkast of the Villagers in whose Village the Tank may be situated will be preferred to that of other Villagers. In the event of the Villagers not making any offer, the rent will be given to others.- Offers shall be made at the Talook Cutcherries before the month of October, and all offers must be previously submitted to the Huzzoor for approval.-

Palmeira and Date Trees

Regarding Palmeira and Date trees from which Toddy is drawn, the former instructions of Colonels Munro and McLeod, and Captain Graham shall continue in force, and agreeably to which the Tahsildars shall rent the Trees that yield produce to the Toddy renters of the preceding years, if they make suitable offers, or if not to the highest bidders, and report the same to the Huzzoor, the renters however are not to be put in possession of the Trees until the offers are approved by the Collector and sanction given.- The Tahsildar should cause a particular account to be kept of all such trees, showing their total number young and old,

shall be obliged to pay it. - If any other tax on their profession or trade has been hitherto paid, the same shall continue to be collected. No person however, who does not cultivate lands paying double the amount to which he would be liable for House tax, will be entitled this exemption. -

Houses on Putcul lands

35. No Puttahdar is to be allowed to build houses on Putcul lands without permission and giving security that should he relinquish the Ground, he will leave it in a state fit for cultivation. For Houses built on Putcul lands, the Inhabitants will be liable to pay the Puttahdars, a reasonable ground rent, and the usual tax according to profession to the circar. -

36. No person shall be allowed to build on Anandy Bunger, Poramboke and Podu-gal lands, without previous permission. An application for places to build being made to the Tahsildar, he should report the circumstance and act according to order. Ryots acting contrary to this order, will be subjected to the payment of the teervah due on the land. -

Backyards Exempt from tax. —

37. No tax according to Custom shall be collected on the backyard of any occupied houses provided it does not exceed ⅛ of an Acre, neither shall any tax be collected on trees growing

growing at the doors or in the back yards of occupied Houses. -

Fisheries

38. According to custom, nothing shall be collected for the right of fishing in any tank, unless the rent exceeds 20 Rupees; but when offers are received for upwards of 20 Rupees for any Tank, the offer or Durkast of the Villagers in whose Village the Tank may be situated will be preferred to that of other Villagers. In the event of the Villagers not making any offer, the rent will be given to others. - Offers shall be made at the Talook Cutcherries before the month of October, and all offers must be previously submitted to the Huzzoor for Approval. -

Palmeira and Date Trees

39. Regarding Palmeira and Date trees from which Toddy is drawn, the former instructions of Colonels Munro and McLeod, and Captain Graham shall continue in force, and agreeably to which the Tahsildars shall rent the Trees that yield produce to the Toddy renters of the preceding years, if they make suitable offers, or if not to the highest bidders, and report the same to the Huzzoor, the renters however are not to be put in possession of the Trees until the offers are approved by the Collector and sanction given. - The Tahsildar should cause a particular account to be kept of all such trees, showing their total number young and old,

old, the number arrived at maturity, the number rented out, the amount of rent, and the rent of the leaves and fibres of the young trees &c. and produce it at the time of settlement where the tree tax prevails at should be collected as usual.—

The Poly Necrenty and Tundul-

Village Servants Enams

40. -kar should enjoy their fixed Enams as they have hitherto done.— In the event of any Mootah reverting to Government, the Village Servants shall only receive the original Enams fixed previous to the introduction of the Motahdary system, but shall not be allowed to continue to retain rent free, any additional Enam land given by the Mootahdar on such additional land in excess of the original Enam, the full assessment should be levied.—

Pookavaky

41. Bramins and Mussulmen who have hitherto enjoyed the privilege of Pookavaky are still to enjoy it.— Those who do not already enjoy the privilege, will only have it on such lands as they may have redeemed from Anandy Punjer and held Cowle thereof. It is necessary also to entitle them to this remission that the lands on which they claim it

it should be cultivated with their own Ploughs and Cattle; and no remission will be allowed on land which may be given out on Cultivation receiving a share, or in any other manner cultivated by the Ploughs and Cattle of the other Ryots.—

Topes

42. All groves or Topes planted prior to the introduction of the Survey assessment and which are still Jaury, shall be as heretofore exempted from assessment.—

43. The Tahsildar should rent out all Government and unclaimed Topes or Trees situated on the Fallow Punjer and Paramboke, as well as in the Pilvary lands, paying only ⅓ teervah, and enter them in the Jummah-bundy Accounts as usual.—

Pasture Lands

44. In some of the Talooks such as Namcul, Paramutty, Trichengode, Senkerry-droog and Raizepoor, a grazing tax has been fixed in these; no difference is to be made in other talooks, where the grazing tax has not been fixed, it has been found in many instances that the heads of Villages have appropriated to themselves the largest portion of the grazing lands, giving out small parcels thereof to the Ryots for profitable consideration. To prevent this abuse, no ryot shall be entitled to hold more grazing land than

be made as usual for the Shreshwatte & Calandy which pay 1/3 or other share to the Brahmins These shares should be deducted, and the remainder should appear in the Jumma-mashumary Accounts.* - The Shrotriems which pay a fixed quit rent, should as usual also be included in the Cummachumary. -

49. It is expected that the Tahsildars will always be very attentive to the condition in which the Village accounts are preserved, as well as to the manner in which they are kept by the Curnums. - When on circuit, they should occasionally personally inspect the curnums accounts in different Villages, & ascertain that in those since Fusly 1240, the recent orders for keeping them in acres, Goontahs and Annas, are strictly observed. - For the information of the curnums accurate Tables for converting the different land measures in use into acres, Goontahs and annas

annas, has been already sent to each Talook and a copy directed to be furnished to each Curnum. - The Curnums must be strictly enjoined always readily to afford to every Ryot who may apply to them, such information as he may require relative to the difference between the old measurement and that of Acres Goontahs and annas, now introduced. -

50. It having come to notice that in several Villages the Ryots on leaving the Nunjah Podoogal lands uncultivated have taken the Tank water for the cultivation of Poonjah fields, the Tahsildars and Monegars of Villages will do their utmost to prevent the water of the Tank from being diverted from the Nunjah Ayacut. - Should any Ryot carry the water of the Tank for the Cultivation of his Poonjah fields on

while

while the Nunjah Podoogal Lands re=
=main waste, the Poonjah fields so
cultivated will be liable to the
highest Nunjah Assessment under
the Tank.—

5/— It must be expressly un=
=derstood and explained to all the
Ryotis, that in the event of their
using water from Circar Sources
for Poonjah Lands even for a
day, the land will be liable to
increased Assessment; if cultiva=
=ted with Poonjah Crop, to
Bagayet, and if with a
Nunjah Crop to Nunjah
Seerwah.—

Revised

1867 Fort St. George 23rd November 1843.

No. 2

Revised Cowlenamah for the Zillah of Salem.

1.— Cowle will not be granted to those who
hold no putent land in the Amany Villages as
the granting of Cowle is intended to alleviate the
circumstances of the Ryots who hold Putent lands.
Those holding Putent and applying for Cowle
lands, the latter shall be granted in proper=
=tion to the teerwah of his Putent and not above=

2 . Any Ryot cultivating Cowle
land and wishing to give up a portion of
his Putent before the Cowle comes to full
Assessment, he must give up good and bad
together in fair proportion.— But should
he wish to give up his entire putent be=
=fore the Cowle comes to full Assessment, he
can do so, and the terms of the Cowle will
in that case, be cancelled, and full teer=
=wah fixed thereon

3 The following Rules are to be
observed for lands granted on Cowle:=

. No lands are to be given on
Cowle which have not been lying waste
for upwards of five years with the ex=
=ception in the case regarding

After the trees shall have come to maturity a double assessment to be fixed for those in the Bahramahl and Pyenghaut. In the Balaghaut, after the trees arrive at Maturity, the teerwah to be fixed thereon is to be that derivable from the highest rate of Nunjah land irrigated by the same tank. —

This rate to continue till the trees arrive at maturity after which, double teerwah to be fixed for such lands in the Bahramahl and Payenghaut. In the Balaghaut, after the trees shall have come to maturity, the teerwah to be fixed is that derived from the highest rate of Nunjah assessment to

Poonjah Bagayet lands left waste

Should the said lands be irrigated by the above means and cultivated as

Nunjah

Nunjah, Nunjah Mifsal Teerwah to be fixed and given on Cowle upon the same terms.

11 If Poonjah Bagayet lands are cultivated as Nunjah Bagayet or Nunjah Mifsal Teerwah to be fixed until the trees come to maturity, after which, they are to be given if lying waste 5 years and upwards for the

1st year 1/2 Teerwah
2nd Do 3/4 Do
3rd Do full Do

The above assessment to be continued till the trees arrive at Maturity, after which it is to be doubled for such lands in the Bahra-mal and Payeng kaut. - In the Balaghaut, after the trees have come to Maturity the Teerwah is to be that derived from the high-est rate of Nunjah land irrigated by the same Tank. -

12 Poonjah Bagayet lands where wells have become old and repaired at considerable expense by the Ryots and Cultivated as Poonjah Bagayet, shall if left waste for 5 years be assessed for the

1st year no Teerwah
2d Do 1/2 Do

and

and to continue so from the 3rd year up to the time the Ryot realizes the amount expended in the repairs of the wells - It shall not however be allowed to con-tinue longer than 7 years - Should the land be left waste within 5 years 1/2 Teerwah to be fixed for the 1st year and so continued up to the time the amount expended in the repair of the wells is realized; which is not however to be longer than 7 years, after which the full assessment is to be fixed. - In the case of the repairs not being com-pleted during the second year the Cowle will be void and the full assessment collected. -

13 Vide Para 8 of the Hookumnamah.

14 Vide Para 10 of the Hookumnamah.

Cowle Must to be paid whether the lands cultivated or not. -

15 If any Ryot leaves his Cowle land uncultivated he must never the-less pay the Cowle progressive Teerwah on it as if Cultivated, In the event of Nunjah Cowle land being unavoidably left uncultivated from a failure of water the Teerwah shall be remitted, but in the following year, will be liable to

to the progressive teerwah of that year.-

16 When a Ryot sinks a well at his own expence and thereby converts his Putcut or Poonjah into Nunjah or irrigates his adjoining fields from the said well, he will not be subject to any higher, but his fixed Poonjah, teerwah, provided he keeps up his mamool or putcut. But when such a well is sunk near circar sources of water, such as Tank or Channels &c. it will be considered as a circar well and fuzilgusty teerwah will be collected. When a Ryot cultivates his lands by water from others Wells he will be subject to fuzilgusty teerwah. For wells sunk at a small expense of 20 Rupees and for any other wells that are constructed at a trifling expense, &c; permission will not be granted.- An Individual sinking a well to carry on Cultivation on a spot where there is an old well, will be subject to fuzilgusty teerwah.- In small places three different teerwahs Viz. Poonjah, Nunjah, and Totakal are fixed on one spot in consequence of three different species of cultivation being carried on there; but when Ryots request permission to dig a well on such a

a spot their request will not be complied with; as they are capable of converting their Poonjah into Nunjah by the new well and leave their portion of Nunjah and as totakal waste, and therefore exemption from additional Assessment should be given to the Ryots, to encourage them to dig wells at their own expence on the spots where only Poonjah Cultivation is carried on.-

See Para 41 of the Hookumnamah.

Tooticoreen Topes.- 17. If any Ryot wishes to Plant Mango, Tamarind, or Bagayet Trees in Nunjah, Poonjah, or Punjah land, he may do so, and shall continue to enjoy the produce of such trees so long as he pays punctually the fixed assessment of the land.- Topes planted for charity or the convenience of the public on Anaudy kunjer or unassessment if uncultivated, but if cultivated, except with flowers for the Pagodas, to be assessed at the rate of the adjoining land of a similar description.-

Palmeira Trees 19. If any Ryot wishes to plant Palmeira Trees in the Bunjer or Punjah

Fort St. George 23rd November 1843

Pormunbokie lands he must apply to the Tahsildar for permission, and having obtained a Toolooshit, he may plant the Palmeira seeds. - Such lands shall be exempted from any teerwah, and the planter shall have the indulgence of using the leaves and fibres till the trees come to maturity, when the circar shall have the right of collecting the Loddy, or tree tax, or of renting the trees and also of cutting them down when required for circar purposes. - The Ryots planters of the Tope may always use the leaves and fibres, but shall have no right to cut down any of the Trees without the permission of the circar. - This rule to apply to every description of Trees in the District, none must be cut without previous permission. - If any should be discovered to have been so cut, double the value of each tree will be collected from the person who cut it. -

20. Where it is customary to collect the tree tax on Palmeira and Date trees ar-
-riving at maturity, such tax to be col-
-lected from the Loddy drawers at ha-
-lets according to the established Cawle Viz.

Do. from 15 years and upwards. -

1st year 1/4 Teerwah
2nd Do. 1/2 Do.
3rd Do. 3/4 Do.
4th Do. full Do.

Under 5 years, no Cawle will be allowed. -

21. Respecting all other lands the Cultivation of which this Cowlenamah does not provide for, the Ryots can make their own proposals to the Tahsildars, who will report the cir-
-cumstance to the Huzzoor, on which orders will be given. -

22. It is to be understood, that the lands to be granted on Cawle and reme-
-nerated, in Paras 4 - 8 - and 18, are to be of the description "over grown with Jungle and difficult of cultivation," but not lands that are without those impediments

Sir,

From the Asst Coll.r of South Arcot Reporting on the Seroomanulay Pagoda. - 28th Oct. 1843.

35

Para 1st With reference to your letter of the Board, that the Warrant which was issued against the Goorookuls of Seroomanullay Pagoda, has been withdrawn. -

2. Immediately after the receipt of your letter under reply, I invited the Trustees, by an Endorsement on a Petition, they forwarded to me, to attend at my Cutcherry, in order that I may be enabled to effect some amicable settlement between them and the Goorookuls, as suggested by Government in the 2nd and 4th Paras of the Minutes of Consultation; they have not only failed to obey the above requisition, but from their letter, copy of which is herewith forwarded, they do not seem to evince the smallest anxiety regarding the Pagoda affairs, nor do I think, they will ever be able to discharge the functions entrusted to them with any satisfaction

† 27th Oct. 1843.

satisfaction to the people, who seem, at present, opposed to their interference with the affairs of the Pagoda.—

3. The Goorookals and some of the inhabitants of the Teroviramullay District, appeared before me, and expressed great unwillingness to the arrangement already made.—From the conversation I had with them, and from what I have heard since my arrival here, the popular voice, seems to be in favor of the Goorookals—Besides which, it appears that Jewels and other property belonging to the Pagoda have been entrusted to the charge of these persons from time immemorial, and that none, but themselves, are acquainted with the subterraneous recesses within the Pagoda, where the most valuable ornaments are secured.—

4. I detained the Goorookals and the people for about a week, expecting the arrival of the Trustees, but on the receipt of their letter already quoted, the people have taken their leave, stating that as no measures have been adopted by the Trustees, towards the

the celebration of the approaching grand annual festival, they were willing to perform it, at their own Cost, pending the decision of Government, I have therefore issued orders to the Police Officer of the place prohibiting his interference with its celebration, directing him at the same time, to exert his utmost to preserve the peace.—

Sir,

Para 1. I have the honor to forward the Statements of the Land Revenue Settlement of this District for Fusly 1252, A.D. 1842/43 the result of which, I trust, will be received with satisfaction by the Board.

2. The accompanying Accounts shew an increase beyond the Settlement of last Fusly amounting to Rupees 41,563. 7. 5 and an excess also of the average of the last 10 years by Rupees 165,941-3-11. When I communicated to the Board that this Settlement has been effected without having had recourse, to attachment of Property in any instance nor to the personal restraint of a single inhabitant, its accomplishment under such circumstances will, I trust, call forth the commendation of the Board to the Agency, European and Native, to whose unitering co-operation, it is so greatly attributable

attributable.

3. The Season commenced propitiously for the early dry crops, but failing in the months of July and August, their productiveness was less abundant than might have been anticipated. The Northeast Monsoon, the late and partial, was copious, and the flow in the Rivers continuous. Altogether with the exception of the Cotton and [illegible] Tobacco Crops, at all times precarious products, the Season has been very favorable. The unusual depression in the prices of grain has

has somewhat contracted the profit of the Cultivators; but notwithstanding this, the District bears an air of contentment, and progressive improvement of which the diminution of Crime and the punctual realization of the Revenue are satisfactory proofs.

4. The subjoined memorandum will exhibit the prices of the principal grains compared with those of last year. The falling off in the prevailing prices varies from 24-14-8 to 9-9-9 P.ct. cent, which does not appear to have been equalled at any time during the last 10 years.

7. The amount entered under the head of Punjah lands paying full rent exhibits a net increase of Rs. 33586 6-1 on an increase of Rupees 68,922 2-2-6 and a decrease of Rupees 35,335-12-5.

8. There are six distinct items which compose the increase of Rupees 68,922-2-6 above referred to, the nature and amount of which are as follows viz.t 1st, Rupees 33,982-8-1 the assessment on waste and Perumpoke lands, on Jungle lands reclaimed and also on those discovered in excess of the quantity laid down in the Survey Accounts, 2ndly Rupees 3,563-13-7, the demand on that portion of the Neelgherry Hills which was retransferred to Coimbatoor under the orders of Government; 3rdly Rupees 20-4-5, the revenue on lands formerly allotted in satisfaction of the emoluments of Village Officers from the Putcut Farms of Ryots, and now discharged in the Accounts, other lands equivalent in value being substituted; 4thly Rupees 14-8-2, the increased rate of assessment levied on lands appropriated for Coffee Plantation in the Paringavaud Village

Village on the Neelgherry Hills in the Talook of Danaikencottah, 5thly Rupees 10,963-4-9 from the demand of full rent on Cowle lands according to the Stipulations of the Cowlenamah, and lastly Rupees 20,377-11-7 on lands held on grass tenure in last year having now been cultivated and charged with full rent as usual.

9. Although the amount is trifling I would here advert to the item of Rupees 14-8-2 shewn in the preceding paragraph. Some of the lands in the Paringavaud Village now occupied for Plantations of Coffee have been classed as the 8th Sort and assessed at the rate of Rs. 1-7-6 a Bullah at the time of the original Survey for no other reasons, I believe, than the distance they were situated from the then existing Villages, and the improbability of the Berghers, the agricultural classes on the Hills, being able to grow other than the poorest description of grain on the soil. These lands have, of late, been greatly improved by the present occupants, and by the conversion of water to their purpose - and are capable

Fort St. George 23d. November 1843.

capable of yielding the most valuable products. The Coffee Plants are irrigated from Hill Streams which formed the matter of previous correspondence between this Office and the Board, and under the changed condition of the lands assuming now the "designation of "Punjah converted into Nunjah", the levy of the original Survey rate would seem an act of partiality as regards the Berg hers who pay the same rate but are not allowed to raise other than the inferior descriptions of grain. At the same time as the augmentation of the assessment to the standard of the average Nunjah or Garden rate of the District would press heavily upon the Parties, I have deemed it advisable to regulate the present assessment on the lands in question with reference to the Superior Punjah rate of the Village Viz.t Rupees 3-8-5 P.r Bullah, and I shall continue to do so unless I receive the orders of the Board in modification of this arrangement such having been the practice in that portion of the Hills which was lately

transferred

Fort St. George 23d. November 1843.

transferred to Malabar.

10. The Division of the Neelgherries which was reannexed to Coimbatoor, consists of 6 Villages shewn in the margin. The demand on them amounts to Rupees 7,092-14-6 inclusive of the Quit Rent leviable on the Premises of the Gentlemen Residents and others which exceeds the revenue of last year by Rupees 746-3-11. vide accompanying Statement marked A. The collections upto the 9.th April 1843, the date on which the transfer was made are Rupees 3,925-1-10. which appear to have been included in the demand of Malabar and carried to the account of that District. the remaining sum of Rupees 3,167-12-8 having been credited in the accounts of this District.-

11. Adverting to para 15 of Extract from the Proceedings of the Board dated 1.st June 1843, I have to state that the instructions therein contained will be carried into effect where applications are received from Parties in the service of Government for the occupation of

extensive

extensive tracts of land on the Neelgherry Hills.

12. With reference to the decrease of Rupees 35,335-12-5 shewn in para 7 of this report, the following explanation is offered Viz.t. It consists of 4 different items, the 1st. Amounts to Rupees 20,818-4-10, the revenue on lands thrown out of Cultivation from Circumstances out of Control, and on those which have been given up; other waste lands of an equivalent value having been taken up by the Ryots; The 2d. item is Rupees 129-9-1 on lands included in Perampoke for reasons which will be explained hereafter; The 3d. Comprises Rupees 6,858-3-7, on lands transferred to the head of Grass in exchange of Grass lands brought under Cultivation, and the last item amounts to Rupees 1,529-10-11 which is on Punjah lands converted into Garden and wet cultivation, and charged as such in the Accounts.-

13. Under the head of Garden lands paying full rent a net increase of Rupees 10,280-3-11 is observable arising

from an increase of Rupees 20,346-1-11 and a decrease of Rupees 10,065-14-0.-

14. The increase of Rupees 20,346-1-11 is made up as follows.- Viz.t., Rupees 5,324-6-7 from the cultivation of waste, Perampoke, and unsurveyed lands; Rupees 262-12-9 from the retransferred portion of the Neelgherries, Rupees 477-1-1 from the levy of assessment on the Village Sibbendy Enam lands; Rupees 2784-2-6 on Cowle lands charged with full rent; Rupees 4074-7-8 on garden lands Cultivated with common dry grain, and entered under the head of "Bagayet Surm Punjah" &c.a in last year having now been brought to their appropriate heads; Rupees 2,465-9-1 from the exchange of Grass and arable lands; and Rupees 4,957-10-3 from the conversion of dry into Garden lands.

In

15. In reference to the item of Rupees 477-1-1 exhibited in the preceding para, I deem further remark would appear requisite. In para 52 of my report on the Settlement of last year, I had the honor of informing the Board that certain dry Lands allotted for the payment of the Village Officers were converted into Garden and wet lands, and that the increased assessment levied on them was credited under the head of "Fixed Saurnadayem". This year they were allowed to retain a portion of the Lands in Lieu of deduction of their emoluments, and the excess has been carried to the credit of Government

cases where such arrangement was impracticable, the whole extent was brought to account and fresh lands given in lieu of it - and the increase produced by these transfers under this head Amounts to Rupees 477-1-1.

16. The Decrease of Rupees 10,634- alluded to in Para 13, is composed of five items as shewn below - The 1st. of which is Rupees 5735-1-7, arising from Casualties among Cultivators; the 2nd Rupees 256-12-10 on lands transferred to Perampoke, the 3rd Rupees 12-7-9 from the allotment of lands for the pay of Village Sibbendy; the 4th Rupees 3137-5-9 produced by the tranfer of lands to the head of "Bagayet Surrun Punjah" consequent on their having been cultivated with Punjah produce from the failure of water in the Wells and therefore charged with "Dawree Punjah rate" and in some instances with one half of the Garden Assessment; the 5th Rupees 460-8-4 from the exchange of Grass and cultivated lands; and the 6th or the last item, Amounts to Rupees 463-9-9 from the conversion of Well lands into "Punjah" and under which head they are entered this year at an enhanced rate of Assessment -

18- The Particulars of this increase are thus detailed- Rupees 11535-5-3 from the cultivation of waste Perumpoke and unsurveyed lands; Rupees 139-3-1 from the transfer of Village Sibbendy enam lands; Rupees 1,887-11-1 from the augmentation of Assessment on one crop lands cultivated this year with a double crop; Rupees 3,077-13-2 from the levy of the survey assessment on lands in the Villages of Annalli and Cotoor which were held on a "discretionery" rate of 4 Rupees a Cawney from Fusly 1230 / A.D. 1820/21 Rupees 2359-10-3 from the transfer of Cowle lands to the head of full rent, according to the Stipulations of the Cowle Pattah; Rupees 404-3-7 from the cultivation of "Nunjah Turn Punjah" lands with Nunjah produce which were charged as such this year; Rupees 149-6-10 on lands on which remission was allowed in last year for failure of produce having now been cultivated and charged with full rent; Rupees 13-4-9 from the cultivation of Pasture lands, and of

19- The increase of Rupees 3077-13-2 produced by the payment of full demand on wet lands in the Villages of Annalli and Cotoor noticed in the preceeding para seems to require some further remark.

20- These lands are in the vicinity of dense Forests of which they previously formed a part until reclaimed by the present occupants- They abound with wild Animals, the most destructive to the crops, and in guarding them at night, the Ryots suffer from fever which rages fearfully for three months in the year- Under these discouraging difficulties and with a view to their removal by extending cultivation, and the re-establishment of the old frontier Village of Annalli (which as an out-post is of great importance in the prevention of smuggling) with reference to these considerations, I am informed, &c.

MR

Fort S.t George 23.d November 1843.

Mr. Sullivan gave Forest lands on a deserttenury payment of 4 Rupees a Cawney. This arrangement judging from the present flourishing appearance of the Town of Animalli and its dependences, has been productive of success; the cultivation having kept pace with the object in view. Latterly for reasons stated in para 22 of my report, it has been ruled that the continuance of the concession made by Mr. Sullivan was unnecessary and the gradual augmentation of the assessment to the level of the survey rates was determined upon accordingly one half of the difference was charged in Fusly 1251 / A.D. 1841/42 and the other half in 1252 / 1842/43 thus raising the demand above that of Fusly 1230 / 1820/21 to the Amount of Rupees 6625-11-8 in two years. This arrangement, as was apprehended, so greatly discouraged the Ryots that they one and all, determined upon the relinquishment of the whole of their lands, which circumstance on being communicated to me by the Tahsildar of Pulachey whose endeavours to restore confidence having entirely failed, I proceeded to Animalli and found the land not only lying waste, but the season so far advanced that in order to prevent a total loss of Revenue, and time not admitting of reference, I, on my own responsibility suspended the operation of the final order, until I could lay these circumstances more

Fort S.t George 23.d November 1843.

more clearly before the Board. Having placed myself in direct communication with the Ryots, the above circumstances were elicited. their Statements appear true and correspond with the actual and present state of the land the molestation of the wild Animals and the unhealthiness of the locality altho' much lessened is not removed.

21. No scarcity of water is ever apprehended, but the depression of prices for the last two years has rendered their profits exceedingly trifling. in fact this part of the District from its insulated position, and difficulty of access only thrives in years of adversity, when the prices of Grain range high, and being a Security against famine, the augmentation of the cultivation, is, I submit, a matter of policy justifying the departure from the regular System. These considerations, and the experience of past years confirmed me in the belief that it is impracticable to maintain the cultivation of this unhealthy part of the Country at the survey standard, and that the application of some remedial measure is absolutely requisite. Under this impression, I, with the greatest difficulty reconciled the Ryots, and persuaded them to resume the cultivation of their lands.

lands on condition of paying the demand of Fusly 1251, a.D. 1841/42 promising them at the same time that in the ensuing year this matter will receive every consideration, and their claims be placed before the Board for final settlement. I propose to submit in a short time a separate report on the subject.

22. Referring to parat 4 of the Board's Proceedings observing that no mention of these lands occurs in the former Statements of favorable Cowles submitted to the Board, I now beg to remark that they were never entered under the head of Cowle. The Punjah lands in Isstoor which were occupied on payment of 4 Rupees a Cawney were entered under the head of lands paying "full rent" in Statements Nos. 2 and 3, and the difference between this sum and the survey Assessment was determinated and accounted for under the head of "permanent reduction". The Punjah lands in Selly Putty &c. which were reclaimed from fusly 1232 a.D. 1822/23 were not assessed with reference to the productive power of the soil, but an inferior rate of 1-7-6 Rs. A. P. was fixed thereon. This concession was considered necessary at that time. The Jungle having subsequently disappeared, and the causes of the concession

no

no longer existing, the lands were reassessed in last year according to their real & bonâfide value which produced the increase remarked upon by the Board-

23. The Decrease of Rupees 20,648-9-- noticed in para 17 is ascribable to the following causes- namely, Rupees 17,904-12-5- from the death, desertion and insolvency of Ryots, and from lands left waste inconsequence of the insufficiency of water, Rupees 56-15-1 from the transfer of lands to Perampoke, Rupees 2414-13-2 from the reduction of demand on lands which yielded a single Crop instead of two, the difference being accounted for under the head of "Fasul Cummee," Rupees 82-10-1 from the transfer of lands to the head of "Bagayet Surm Nunjee," the cause of which was the want of water for wet cultivation, and Rupees 189-6-3 on lands entered under the head of remission-

24- Under the head of Cowle is a net Decrease of Rupees 2873-2-7 produced by an increase of Rupees 9502-9-1 and a decrease of 12375-11-8.

25- The increase has been occasioned from the cultivation of waste,

Perampoke,

Perampoke, and unsurveyed lands to the Amount of Rupees 2254 — 1 — 2; from the reannexation of the Nel- -gherries to Rupees 261 — 8 — 11, from the increase in the demand of one Crop lands now cultivated with two, to Rupees 2 — 4 — 11, from the increase of Progressive Cowle rent to Rupees 6,414 — 6 —; From the recent oc- -cupation of Nunjah Turm Poonjah lands for wet Cultivation on Cowle tenure to Rupees 267 — 15 — 5; From the cultivation of Poonjah and Garden Pasture lands to Rupees 164 — 4 — 8; and from the Grant of Cowle for the conversion of Punjah land and Garden into Nunjah &c. to the amount of Rupees 138 — 8 — 0.

26- The decrease comprises Rupees 448 — 8 — 1 occasioned from casualties among Ryots; Rupees 6 — 15 — 9 from the transfer of lands to the head of Perampoke or Village common, Rupees 23 — 8 — 0 from the correction, in the accounts, of a double entry as regarded some Cowle lands in the Village of Ettimadey in the Coimbatore Talook, Rupees 1809 — 7 — 7 from the transfer of lands to the head of "full rent," Rupees 53 — 5 — 1 from the circumstance of certain Permanent Cowle lands having been held on Grass te- -nure at a reduced rate in adjustment of a similar quantity of Pasture ground cultivated

cultivated, and Rupees 34 — 15 — 2 from the con- -version of Punjah held on Cowle into Garden and Garden into Nunjah.

27- The 1st. item of decrease Viz. Rupees 447 — 8 — 1 comprises two different sums the one is Rupees 314 — 3 — 2 which has arisen from the death, desertion and insolvency of the holders of lands described in my report on the settlement of last year. These lands are situated in un- -healthy spots in the Danaikencottah Talook and having been granted by Mr. Sullivan on a permanent Cowle, are always entered under that head. when they are thrown out of cultiva- -tion, the accounts shew a decrease, and when again occupied, an increase is observable. The other sum of Rupees 133 — 4 — 11 is on Progressive Cowle lands in the Talooks of Danaikencottah, Hongyam, and Pulachey, the occupants of which died leaving no successors.

28- The lands in the Village of Bhoosanaiken Dhullee which were held at a favorable rate, and which the Parties were informed would be charged with full rent in $\frac{\text{Fusly } 1252}{\text{A.D. } 1842/43}$ were disposed of accord- -ingly this year, and I subjoin an abstract deduced

29- It would appear that there is an increase of Rupees 541 - 9 - 10 in the Settlement of Kaim Cowles above that of last year. Of which Rupees 280 - - 11 are from the cultivation of Permanent Cowle lands in Danaikencottah as explained in the above para, and Rupees 15 - - on those occupied on Cowle tenures by Mr. James under a Cowle Puttah from the Collector of Malabar in the

the Village of Segoor recently reannexed to this District. Copy of which together with the proposal of Mr. James are submitted herewith in explanation of the terms upon which the land is held. The other sum of Rupees - 24 - 6 - 8 - 11 is on Poonjah and Garden lands for which Permanent Cowles were granted by Mr. Sullivan in the same manner as in the Villages situated at the base of the Guzzlehatty Ghaut the particulars of which were submitted with the report on the settlement of Fusly 1248 / A.D. 1838/39

Vide copy of Report to the Board of Revenue

In Paras 33 and 34 of my report on the Settlement of Fusly 1251 / A.D. 1841/42 I recommended the reduction of Survey Assessment in 9 Villages in the Danaikencottah Talook for reasons which I had the honor of explaining. The Board in their Proceedings on the review of that Report object to this proposition 1st. because the return to the survey rates was effected in similarly circumstanced Villages in the Pulachey Talook without difficulty - 2ndly because the Grant of this concession is not likely to prove advantageous, in as much as the cultivation of lands

lands since the introduction of this favor-
able tenure has rather declined- and thirdly
because that there will be two distinct sets
of rates in the same Village, and the great-
object of the Survey will be set at nought-

31- I fully recognize the force
of these arguments, and, if I were pleading
for a civilized part of the District, they would
be unanswerable, but I would attract the atten-
tion of the Board to the fact that these Vil-
lages are in the wildest, and most unhealthy
tracts and would not be resorted to by any,
but the most abject race of the people- By the
imposition of the higher rate, the present occupants
will emigrate to the Mysore country, where the
assessment is lighter and more in accordance with
their means, and the little good which has been ef-
fected by their labours will disappear in a few
years, and if the present terms of the tenure are
not permitted, the sacrifice of the whole must
occur-

32- Three of the Six Villages in
question are depopulated, and in the
other three which are still inhabited
there are only a few huts not exceeding

exceeding 10 in number/ containing a
very few infeebled inhabitants, but the
principal and largest portion of the lands
is cultivated by Paykarries who residing at
a distance lose much of their time in going
to and from to resume their avocations-
Under the above circumstances,
these villages cannot possibly
be brought into contrast with
those in the Dulachey Taloork-
where "the return to the Survey
rates was effected without difficulty" and which are altogether
of a different character- As
a set off against these disad-
vantages the indulgence objected

Fort St. George 23d November 1843.

to by the Board was granted by Mr Sullivan
The lands in one Village (Chinnapelly)
where the assessment was extraordinarily
heavy were allowed to be held for one half of
the survey rate since Fusly 1825 (A.D. 1815/16) and those in
the other five for three fourths of the fixed
assessment from Fusly 1233 (1823/24) and charged in
the accounts as such. To expunge the objection-
-able head of settlement from the accounts
I was induced to submit the proposition now
under reference, and which appeared to me to be
the only way of carrying out the orders of the
Board in regard to the abrogation of the Perma-
-nent Cowles in the District.

33. The grant of this favorable
tenure, has not as observed by the Board, ope-
-rated favorably, but at the same time it
may be considered to have prevented the
desertion of these Villages which will
assuredly come to pass if the Sur-
-vey assessment should be levied.

vide Para 17.

The

Fort St. George 23d November 1843

The contrast drawn by the Board between
the state of these villages in Fusly 1213 (A.D. 1803/4) when
the whole Revenue was levied at the survey
rates and in Fusly 1251 (A.D. 1841/42) where it was paid
at a reduced rate shews a deficit of Rupees
1864-8-4 but I would submit that
since the first mentioned period, the Culti-
-vation has declined — The Inhabitants
have gradually emigrated to other parts
which would have obliterated these local-
-ities, but for the continuance of the
Cowle terms - The proper comparison
therefore under the present circumstances
is not the condition they are now in, but
that which they would have been reduced to,
had the full survey rate been demanded;
for with it, the existence of these Villages
would have ceased, and the Government, in
all probability, would, with the revenue, have
lost the Cultivators of the soil - they would have
retired to Mysore, as it is well known, that they
will not advance into the District.

34. The reduction proposed to be made
will not be productive of any in-
-equalities in the assessment

levied, but that the entry of the Head of "Cowle" should be struck off the accounts substituting for it the more appropriate head of "Permanent reduction"; such having been observed in cases where the assessment proved to be high in reference to the productive power of the soil in

Justices 1216 and 1234-
A. D. 1806/7 1824/25.

35 There are 12 distinct sorts of lands in these villages with the same number of rates of assessment, and the proposed reduction will not in any way interfere with this graduated scale, it being applied only in cases of extraordinary necessity as above remarked.

†Nellitoray Cotundoray Dallapolliam.

36- The other three† villages are at the foot of the Covoor Ghat, overspun with impervious Jungle. Here it is proposed to maintain the survey rates on lands contiguous to the village of Nellitoray, which are cultivated with Dhroopyre and Runjah produce.

It

It is a very singular fact in connection with this village that it is solely in the occupation of women, it being well known that residing in it is certain death to males, whilst the same febrile influences are innocuous to Females, this is not attempted to be explained by the people, but the fact is undoubted. such is the antisocial condition of this village, and a similar state of exclusion and uncivilization may be supposed to prevail in all the other villages under similar influences, so that the proposed relaxation may be conceded to necessity- the precedent being purchased by too many privations to make it desirable or sought after. The other two localities which are much dreaded on account of their reputed unhealthiness are cultivated through the means of the Mulsers. They have no cattle, nor a settled place of residence. Their restless habits in the Jungle render their occupation of land very uncertain.

One

Fort St. George 23d November 1843.

One third of the produce in cash, and in many instances in grain, has always been received from them in adjustment of the demand of Government. The sale of the grain was a tedious process often attended with loss, and a temptation to the Officers of Government entrusted with the management of it. To substitute for it a more secure mode of payment, to guard against the relinquishment of lands from an unexpected recurrence to the survey rate, and also to do away with the head of "Permanent Cowle," I suggested a reduction in the Amount of the assessment equivalent to the remission now given under the designation of "Cowle". This may perhaps be viewed as establishing two distinct sets of rates in the same village; but I would add that such differences are sanctioned, and exist in the Talook of Suttimungalum where deductions were made, of late, on wet lands.

Under

Fort St. George 23d November 1843.

37. Under these circumstances should the Board Concur with me in opinion as to the expediency as well as policy of sanctioning the arrangement, I request that the indulgence solicited may be extended to the small quantity of land now held on payment of full rent in the villages of Chinnia-
-pully and Teppatoray, for the purpose of preserving an uniform scale of assessment.

found deficient in the Ryotwary and included in the aggregate Survey accounts, under the orders of the Board of Revenue in the Millages of Ettimaday and Poodoor, from which it would appear that the deficiency of 42-5¼ Bullahs specified at 150-12-8 is not included entry in the whole extract but is considered as Inclusive of the new under Cultivation. The additional assessment accruing thereon is likely necessary when the full survey Establishment was demanded in July 1841-42. This difference appears to have been taken from the wild and not the cultivated of the Country in consequence of which the Survey is unable to take cognizance of it.

41. The items which composed the head of increase are Rupees 1,395-10-6 from the Cultivation of waste and unassessed lands; Rupees 3,225-12-0. from the appro-priation of Pasture lands for the Culture of Punjah produce; Rupees 86-10-11 from the augmentation of demand from Punjah to Half Garden rent at the requisition of the Ryots, the difference being re-mitted in the assessment on other lands, and Rupees 1456-9-6. from Garden lands Cultivated with Punjah produce and transferred to this head—

42. The Decrease of Rupees 2,957-8-4 has arisen under the following Cir-cumstance Viz.t Rupees 846-8-6. from death Vea. Vea. of Certain Ryots, Rupees 20-11-10. from the transfer of lands to the head of Perampoke, Rupees 101-13-5 from the reduction of demand from "half garden

43. It is remarked in the Board's Proceedings, that the demand of Half Garden assessment on lands cultivated with Punjah produce is opposed to the sanctioned Hos-koomnamah, which prescribes the imposition of the Teerwa demandable on Punjah lands in the same neighbourhood— The levy of Half Garden rent is certainly un-authorized and contrary to the existing Hookoomnamah, which on being so sanctioned was circulated for the infor-mation and guidance of all the Tahsil-dars; but this practice appears to form a part of the Putent system— Under this, the Ryots are not allowed the option of giving up lands at pleasure except in

Para-8- within the influence of the southwest Mon=
=soon, the Punjah lands generally yield to
rich crops- In like manner, the garden
lands of the description given in the Hos=

aid of irrigation, and if full rent is le=

crops, without reference to other circumstan=
=ces, it could not fail to press heavily on
the Ryots- At the same time if Lannee
"Punjah rate" is demanded which is less than
a fourth of the Garden assessment in ma=
many cases, such relaxation would cause
the Ryots to prefer paying this easy rate
of assessment rather than undergo the ad=
additional trouble and expence of main=

acted in accordance with the long
prevailing usage, and will continue
to do so, without receive your Board's orders

"Punjah" Turum Poonjah" shews an increase of Rupees
52-7-9. growing out of an increase of Rupees
492-0-4. and decrease of Rupees 439-8-7.

46. The Particulars of the increase are,

Cultivation of waste and Unsurveyed lands-	375-10-6
Increase of assessment from the Cultivati= =on of Garden produce instead of Punjah as in last year-	58-7-8
Cultivation of lands with Punjah produce in consequence of want of water which have been transferred to this head	56-4-11
Cultivation of Pasture lands with Garden produce	1-9-3
	492-0-4

47. The details of the decrease are as follows.

Death, desertion, and insolvency of Ryots and exchange of lands	157-6-5
Reduction of demand on lands held on Garden tenure last year now Cultiva= =ted with Punjah produce and charged at that rate	8-10-1
Transfer of lands to the head of Full rent-	204-7-3
Do to the head of Cowle	75-0-10

48. Failure of water in Tanks rendered
it necessary to grant remission in the Village of

The remission in last year amounted to Rupees

50. The Increase comprises Rupees 1,569—5—4 from the appropriation of waste Perampoke, and unsurveyed lands as pasture ground; Rupees 245—10—7 from the retransferred portion of the Neelgherry Hills; Rupees 1—2—10 from the exchange of Village Sibbendy Enam lands; Rupees 1824—4—5 from

Bagayet Turrn Punjah, and Rupees 47-13-" from the conversion of Pasture lands into Garden and Punjah.—

52. As directed in para 18th of the Board's Proceedings dated 2nd May 1842, I beg leave to forward herewith statement No. 21 **D** exhibiting the manner in which the Pasture lands have been disposed of this year distinguishing the two Divisions of the District. It would appear that lands to the extent of 3,724—1¼ Bullahs assessed at Rupees 18,065—1—" and paying a Revenue of 4,524—14—" which were in excess of a fifth of the authorized proportion were adjusted to the several heads of Full rent, Bagayet Turrn Punjah, and Cowle. This has been occasioned chiefly in the Sub-Collector's Division. In like manner a large extent of grass land was cultivated and carried to other heads in last year in the Talooks under my charge.—

Similar arrangements will be made in this year's also.

53. The orders of the Board that the "same lands which were charged with half rent "in the last year ought not to be granted "at the rate of one fourth of the assessment" have been brought into operation—there is however, a trivial decrease of 3 Rs. 11 As. 11 P. from

Fort St. George 23rd November 1843.

from the reduction of assessment from one half to one fourth—this deficiency was made good by the occupation of other lands according to the practice of the District.—

54. The lands transferred to Peramboke under the various heads of Settlement amount to Rupees 501—2—" the purposes for which they were appropriated, and the amount of each item are as follows——

Site of Villages	94	15	5
Stand for Cattle	12	14	10
Destroyed by flood	374	9	9
Roads	8	"	—
Excavating channels	4	"	2
Pond	2	9	2
Land rendered unfit for cultivation, the Palmira Trees thereon having arrived at maturity and taxed as usual	4	"	8
Total	501	2	"

Animals imbanked and endorsement of Collector.

55. With reference to the wet lands in the Villages specified in the margin, I have to notice that Punjah lands in these Villages were charged with two crops rent at the time of the original survey with reference to the productiveness of the soil,

and

and its aptitude as regards its means of irrigation
The same demand is always paid with the ex-
=ception of a very few instances in the Village
of Canateadooroo I was informed that a prac-
=tice of levying, one crop x rent also obtains in
the said Villages — This privilege is inconse=
=quence of the Cultivators themselves keeping the works
of irrigation in repair but there is no Authori=
=ty to be found on the records explanatory of
the deviation from the Established Rule.—

56. With advertence to the observations
of Government in para 6 of Extract from the
Minutes of Consultation dated 27th July
1843, I would here bring to notice that the
survey of the Southern Division of the
District was made in Fuslies 1210 and 1211 / A.D 1800/1 and 1801/2
and that of the Northern Division in 1211 and 1212 / 1801/2 / 1802/3 by the Village Servants and other Offic=
=cers employed for the purpose — The accounts
connected with it are drawn out on Cadjans
The originals are in the records of my office /
and the Copies are lodged with the village
Officers. These vouchers have never been
authenticated — and the Copies have been
found faulty on some occasions — On the

Copy of the account in the possession of the
Village Curnum, which very often happens its
veracity is tested either by a comparison with
the original in the Hoobzoor or by the mea=
=surements of the lands therein described —
and any mistake which may be detected is
rectified — Complaints were received this
year rendering a stricter examination of the
Survey accounts of some Villages necessary,
the result of which produced an increase of
Revenue to Rupees 14,261—4—3
which was carried to the
credit of Government, and

57. These accounts were prepared
40. years ago, and in consequence they are now,
as might be expected, falling into decay,
and require refreshing where the writing
has become obliterated — and as the Survey
accounts are most important records
(on which the revenue Settlement of the
District is based) I request sanction

for their renovation. I propose that two Copies should be made on double leaved Cadjans and being duly authenticated, deposited in the records of the Hutzoor, and the counterpart given to the Curnoms of the respective Villages. This arrange=ment will, in the end, prove of much advantage—

58. Under the head of Fixed Sourcas=dayem, a Sum of Rupees 419—11—1 was entered in last year being the revenue collected on lands allotted to village Sibbendy for reas=sons set forth in my report. This amount was carried to its appropriate head in this year. Notwithstanding this adjustment, there is still an increase of Rupees 1,647—8—4 viz^t Rupees 1,249—13—4 chiefly from the taxation of Palmira Trees which became productive this year; Rupees 658—14—9 from the levy of tax on cattle; Rupees 59—7—1 from cer=tain houses and individuals &c^a being charged with Moturpha Revenue at the Established rates; Rupees 5,562—6—8 from an increase in the amount of Paravapilloovarey rents; and Rupees 3,536—9—7 from the demand of Quit rent on the Premises of Gentlemen on the Neelagherries being transferred to this head under the

59. Board's Proceedings directing that "measures "should be adopted for ascertaining generally "whether the boundary stones laid down at "the survey to mark the limits of Fields "have been disturbed by subsequent encroach=-"ments or alterations," I have made many en=quiries on this point, and it would appear that the fields were rarely formed with reference to natural indicating marks—one field in the Ayacut is described to be the limit of another, and the identification of each is a hopeless task except to the respective Village Officers.—

Of this Rupees 1552—14—8 require to be remitted for reasons which will be explained hereafter, and Rupees 3,153—14—— are due by Gentlemen on the Neelgherry Hills on account of Quit rent on their Premises, and in the Course of Collection—The only balance outstanding in the demand of Land Revenue is 7,635—12—11 which is unprecedented in its trifling amount in any year previous to Fusly 1250 / A.D. 1840/41.

62. In connection with the amount proposed to be remitted Viz^t. Rupees 1,552—14—8. I would observe that certain Punjah lands under the irrigation of the Bhavaney River in the Sattimungalum Talook and of the River Noyel in Pulladum were kept waste, but as there was a sufficient supply of water in the channels, they were charged at full rent according to para 16 of the Hoosoonnamah sanctioned by the Board under date 1st April 1843—The depression in the price of grain, and other local circumstances

circumstances appear to have rendered the cultivation of these lands impracticable, and the recovery of the balance from the Parties cannot be effected without having recourse to extreme measures not warranted by circumstances—This amount might perhaps be entered under the head of "Suspended Collections," but as I consider such suspended balances pernicious as a means of extortion on the part of the Talook Public servants and prejudicial as regards the energies and independence of the Ryots, I have deemed it preferrable to recommend its remission at once, and accordingly solicit that sanction may be obtained for the same.——

63. The arrears outstanding at the end of September 1842 were Rupees—21,055—10—11
Collections within the same period
in 1843 are Rupees —— 2,143—14—10

receipts not being of a revenue nature a-
=mount to Rupees 25,23,615-5-4 The charges of
Management were Rupees 2,30,358-4-11 which
bears a proportion of 9-2-2 per Cent being 1/8
8 less than in the preceding year.—

68. The Report of the Sub Collector on
the Saloks under his charge is submitted.—

69. The accounts connected with the
settlement of the Estates of Shanatoor and
Cotamputty in the Pulachey Salook and now
under the management of the Court of Wards
are under preparation, and will be trans-
=mitted in the course of a few weeks.—

70. The Board will scarcely fail to
recognize with satisfaction, Mr. Birds
continued excellent management of the
Sub Division, and I have no doubt that
under his able administration, with good
seasons, the Resenues will continue to in-
=crease steadily in accordance with his
Assurance.—

71. I have also every reason to speak, in
the highest terms of Commendation, of my
Assistants Mr. Oswell, and Mr. Goldie, from
whom I receive very able Assistance.— their
promptitude, and steadiness in the despatch
of business in their respective Departments
is as satisfactory as it is efficient.—

Principal Collector

1805. Fort St. George 23d November 1843.

To
D. A. Wroughton Esqre
Principal Collector of
Coimbatore.

Sir,

Para 1. I have the honor to submit the usual Statements and accounts connected with the annual settlement of Land Revenue in the four Taloohs comprising the Sub Division for Fusly 1252.—
A.D. 1842/43.

2. This portion of the Coimbatore Province has ag ain been favored with a good and productive season and the supply from both former and latter was sufficient for an extended cultivation of the dry grain and garden lands. During the early part of the year, from April to the end of June, occasional showers fell throughout the Division in some places scanty, in others more abundant, but on the whole quite adequate for raising the ordinary Cumbu or early crop of the Country. The months of July and August were, with the exception of casual showers in the Taloohs of Conghiem and Dharapooram, dry, while in September much rain fell,

and

and the North East Monsoon during October and November was general throughout the Country, enabling the Ryot to extend his farm and realize his products with profit to himself and advantage to the State. The increase in Punjay and Garden Cultivation was consequently considerable. The freshes in the Cavery and Ambrawatty were at times heavy, but generally steady the whole season, and the Lands dependent on them for irrigation extensively cultivated. The tanks too every where received their full supply of water and the rice crops under them successful. No shade or loss of Crop from drought was sustained.

Bullocks Punjay 455 3 6-9/4 Cawnee 216-6½

3. To this general prosperity there were however drawbacks. The Epidemic Cholera broke out about the beginning of December and continued more or less virulent until the end of March, visiting during that period every town and almost every village and hamlet throughout the Division. To this calamity must be added the excessive depreciation in the price of all kinds of grain, which the

the subjoined Memorandum will show to have been much below that of the two preceding fusolies.—

5. The result of the year may be considered on the whole satisfactory and proves that the country is gradually pro-gressing to its former standard of revenue, but yet falls short of the settlement of Fusly 1245 A.D. 1835-36. in the sum of Rupees 8,704-14-5.

I have prepared the Marginal Statement in order to shew the degree of improvement that has taken place since 1246 Fusly A.D. 1836-37. and also the increase obtained this year or each preceding Fusly.

This account is exclusive of the Peishcush tax.

Dry Lands. 6. Under this head there is a net increase of Rupees 15,130-9-5. being the result of a gross increase of Rupees 24,474-8-0. and a gross decrease of Rupees 6,343-15-5.

Garden Lands. 7. In the Garden Cultivation there is a Net increase of Rupees 2,911-11-0. obtained from a gross increase of Rupees 6962-13-5. and a gross decrease of Rupees 4,051-2-5.

Wet Lands. 8. In this Item there is an increase of Rupees 652-8-7. resulting from

Fort St. George 23d November 1843.

from a gross increase of Rupees 3,458-0-2 and a gross decrease of Rupees 2505-12-7.

There is a Net decrease in

Cowle including Punjah Cawdy and Nunjah. 9. this head of Rupees 446-1-1. being the result of a gross decrease of Rupees 1,486-12-4. and a gross increase of Rupees. 1040-11-3.

The four Cowles of a permanent nature still exist in the Carcoor Talook as their abrogation has been found impossible for the reasons as already stated by me in my several Communications of the 17th November 1840. and 17th September 1842. and which I am happy to observe have met the approbation of the Board of Revenue.

Proceedings dated 1st June 1843 Para 14.

Grass. 10. To meet the wishes and carry out the repeated instructions of the Board of Revenue on the subject of grass, a careful revision was made at the settlement of all grass lands in the occupation of the Ryots held at quarter rent through in excess of the authorized proportion of one fifth of the Putcut holding and the result has been a deduction of the pasturage to the extent of

Pullahs

Fort St. George 23d. November 1843.

Pullaho 10,310-13¾. This was effected by charging the opulent Ryots and those who were known to rent out their fields on c. pasture at an advantage full rent for their excess of one fifth. And in the case of the poorer class of Ryots and petty farmers a portion only of the excess grass was charged full rent, equivalent to what they paid last year, so as to secure the Government from loss, and the remaining fields were struck out of the Pottah and carried to the head of waste. That is to say the Ryots amount of grass rent was the same as the preceding year though the land occupied by him was less. A small portion was granted on progressive Cowle tenure for cultivation. The Net Decrease on this head is Rupees 10,285-9-5. accruing from a gross decrease of 11464-15 and a gross increase of 1178-8-- --

11. The total demand in the Division on account of Land Revenue inclusive of fixed Lownadayem for the Fusly amounts to Rupees 622,763-15-8. of which the sum of Rupees 615,947-5-4 was

Fort St. George 23d. November 1843.

was realized within the Fusly leaving a balance of Rupees 6,816-10-4. which has subsequently been reduced to Rupees 4632-11-10. and this amount is in course of liquidation. The punctual realization of so great a portion of the Revenue notwithstanding the low prices, c. is very creditable to the several village and Taluk subordinate Officers entrusted with the Collection of the Rents.

12. The arrears at the close of Fusly 1254. as shewn in Statement No 13. amounted to Rupees 5,499-6-2. (A. 1841-42) since reduced by subsequent collections to Rupees 1137-7-8- the balance still due and which I fear must be considered irrecoverable, and I accordingly beg to suggest sanction be obtained for its being written off.

The following shews the particulars with reference to each Taluk.

8. The Board is aware that under the orders of Government, no Sayer Chowkies were established on the frontier separating the lower from the upper Mogaums of Coorg; as it was deemed expedient to introduce as little change as possible into the newly assumed District of Umr Soolia - The absence of these Chowkies caused little or no decrease in the Customs until the new Mercara Road and Ghaut-

Fort St. George 23d November 1843

Ghauts were completed, but during the last three years much of the trade which previously took the routes of the Coolgoond, Combar and Cockad Ghauts has been diverted into the Mercara line; both on account of its exemption from Customs duty, and from the great facilities it affords for the transport of goods, it being the only route in the District practicable for wheel conveyances to the Coast -

9. This diversion of the trade has occasioned a considerable deficiency in the Haulet, and other customs duty in the Buntwal Taloork, as will appear from the accompanying

†D †Statement - Should it be in contemplation to abolish the whole of the Land Custom duties, the circumstance now brought to notice will of course be of no consequence; but in the event of any portion of the frontier duties being retained, it seems desirable that some measures should be adopted to secure the collection of duty, on such goods as formerly paid it, but which now can be imported free of all duty, by being sent through the Coorg Country -

12 The falling off in Betelnut and Pepper is attributable to a deficiency in the crops of these products, and that in Sandal owed to the diminished sale of the Article in Mysore, where it is a Government Monopoly—The increase in the Rice

Rice, and Cardamoms is owing to the abundant crops and good demand for these articles—The increase in Cotton which exceeds both the preceding Year, and the average, is merely nominal, the collections being refunded in the shape of drawback—

13 The revenue from this source falls short of the preceding Year by Rupees 2234-12-— while it exceeds the average of the last 5 years, in the Sum of Rupees 2378—1—9— The decrease below the previous Year is owing in a great measure to the removal of one of the Regiments from the Province—

Rupees 1741-9-7

15 In this branch of Revenue there is an increase above the preceding year, to the extent of Rupees 1251-4 and above the average, of The increase is chiefly owing to

to higher tenders having been received during the year under report, for Honey and wax farm, and for Vanagaloo, or Jungle wood, in the Balaghaut Talooks. The tax on the manufactures of Palmeira Jaggery, has been transferred from this head to that of Moturpha, otherwise the increase under the small Farms would have been still more considerable.

16 The increase under this head over the preceding year, amounts to Rupees 599-9-3 and above the average of the past five years, to Rupees 3348-13-6. The increase is accounted for by the transfer of the tax on Palmeira Jaggery from the head of small farms, to that of Moturpha and also to the assessment on Shops and Warehouses which had not previously paid the tax.

were considerably improved during the past Year by the great scarcity of Tobacco in Mysore, which prevented so large a quantity of the article being smuggled into the Province as usual.

Sir,

Inform'd 29th Sept.r No. 494

I am directed by the Board of Revenue to acknowledge the receipt of an order of Govt. dated 12th September 1843, transmitting copy of a letter from the officiating Secretary to the Government of India under date 27th July 1843, and Draft of a proposed act, on which the Board are requested to submit their sentiments.

In reply, I am instructed to

Fort St. George 27th November 1843.

to state that the observations on Act No. 1 of 1843 as contained in Mr. Secretary Bourdillon's letter of 16th January last in respect to the increase in the number of Registering Officers and the limitation as to amounts within which transfers should be altogether exempt from the operation of the act appear to the Board to apply with equal force to the enactment now proposed. They desire however to express their entire concurrence in the modification in the act now proposed, which gives a clear preference to Registered, over Unregistered deeds.

Civil Dispensary at Coombaconum, and to recommend that his salary may be fixed at Rupees 24-8-0 per mensem, the rate of pay of 2nd Dresser attached to the other similar institutions under this Presidency.-

The person recommended, I am directed to state was formerly a 1st Dresser in the public service, and was pensioned on account of impaired health in the year 1839. but in consequence of not having served long enough, in public employ, his pension was discontinued by order of the Honorable the Court of Directors.- as his general health appears to have become reestablished, and he is at present only 45 years of age, and likewise from his having always borne an excellent character, the Board have had no hesitation in selecting him, feeling confident that he will be found well fitted for the situation.-

Sir,

Para.

Fort St. George

1 I have the honor to forward Copies of two Plaints with translations filed in the Subordinate Court at Chittoor, in the Suits noted in the margin, against Kistnama Naik the Cutwal of Chittoor, and his son Venkatasamie Cutwal's Peon, also copy of the answer which I propose to give in, on the part of Government.

Submitting for approval and sanction copies of two Plaints with translations filed in the Subordinate Court at Chittoor in Suits Nos 7412 of 1843 against the Cutwal & two of Chittoor for having pressed two Carts for the use of the 30th Reg.t N. I. together with copy of an answer proposed to be given

2. The Suits are brought to recover damages from the Cutwal and his son for having passed in September last two Bullock Carts

proposed to be given at the expense of Government under the explanation set forth.

Carts with Bu... the property of the Plaintiff for the use... 30th Regiment Native Infantry. The da... laid in Suit No. 7 at Rupees 150-0-0, ... Suit No. 12 Rupees 120. The Cutwal having ... under the orders of the Magistracy ... ing the Carts, is not personally resp... and I have accordingly taken on myself ... lance of these Suits.

3. Government have expressly sanctioned ... pressing of Carriage for the use of Troops ... ance they will not refuse to bear the Costs of Suits, and to become responsible for the final decisions that may be passed in these Suits provided it is shewn that pressing was on the occasions in question unavoidable, as Carriage could not have been otherwise obtained.

†Extract from the Minutes of Consultation dated 12th April 1841.

4. In August and September last, the 7th Cavalry and the 11th and 30th Regiments Native Infantry quartered at Vaneeput and Vellore were severally under orders to march to very distant Stations, Viz. Kamptee, the French Rock and Samulcottah. As soon as the orders appeared in the Gazette, the people in the District got notice of it and began to drive their bullocks into the

the jungle and hide the Wheels of their Carts.
I was in consequence not able fully to comply
with the requisitions made on me for Carriage
by the Military authorities, but I managed ev-
with very great difficulty to procure 130 Carts
with Bullocks in addition to the Carriage
supplied by the Commissariat. The whole of
these Carts were pressed, and in many in-
stances the owners preferred entirely abandon-
ing their property to accompanying the
Regiments to the distant Stations to which
they were proceeding. The Plaintiffs in the suits
under reference acted in this manner. Their
Carts and Bullocks accompanied the 30th Re-
Regiment, and the Plaintiffs now sue to
recover the value of them.

5. If the necessities of the state may
be pleaded in the answers to the Plaints,
and exceptions may be taken to the high es-
value put upon the property. I am not aware
of any other defence that can be set up. The Ac-
Cutwal pretends to say that the Carts were
not pressed, but it is notorious that they were
so, and an attempt to prove the contrary would
certainly fail.

of Revenue to acknowledge the receipt of
your letter of the 10th November, submitting
copies of the plaints in two suits preferred
against you in the Subordinate Court at
Chittoor, with draft of the answer which
you propose to file in both cases.

Under these circumstances it does not
fall within the province of the Board of

merits of the question, and the sufficiency of
the answers which you intend to put in, nor
would it be consonant to the practice of this

Ordered that a copy of the foregoing resolution be submitted to the Board Auditor—

Read again letter from the Principal Collector of Madura dated 13th and entered in Consultation 28th September last—

Proceedings thereon—Para 1. Four important points are discussed in this communication, Viz. 1st the appointment of a Guardian to the Minor Zemindary of Ramnad, 2nd the Modification of the Police Establishment of that Zemindary 3rd the Defence of a Suit instituted by Mootoo Veerapa Natcheayar for the recovery of the Zemindary, and 4th Provision for the Superintendent of endowments &c to the great Pagoda at Ramaswaram—

The Board are fully impressed with the importance of, and the necessity of an early decision upon each point; but they have experienced a difficulty in the disposal of this communication as well as of some others recently received from the Principal Collector of Madura, and noted in the margin; from the style and spirit &c which pervades the whole, and which the Board think

Before therefore submitting these letters to Government, the Board are desirous of suggesting for Mr. &c Blackburne's better and more reflective consideration that all extraneous &c matter, such as explanation of the accession of Mr. Fischer's first &c visit to Ramnad, and of his &c connexion with the Zemindary, &c with all reflections upon the &c two Commissioners Messrs. Drury and Morehead, should be &c altogether omitted, they earnestly recommend this course for Mr.

be gained by this arrangement which led me to make the reference. I have been endeavouring in communication with the Sessions Judge to spare a detached portion of my Cutcherry now filled with old Records for the use of the principal Sudur Ameen lately appointed and I also require to make room for the important and numerous Survey accounts which will hence forward be daily accumulating. By clearing and giving up half of a large Record Room for the Principal Sudur Ameen, the expense of a new Court probably 5 or 600 Rupees at least may be saved to Government. I shall take due care that nothing valuable be destroyed; the old waste paper may, if found practicable be remade in the Jail.

3. . . . The collections on account of Sayer under Amanie / exclusive of the Customs on Betel and Tobacco / are Rupees 115716—1—7 as per Tabular Statement being in excess of the amount of Fusly 1251 A.D. 1841/42 by Rupees 1209—12—11, caused Chiefly by increased trade in Ghee.

4. The demand of Sayer on Betel and Tobacco is Rupees 27552, exceeding the demand of last year by 1596, and which has been recovered in full during the month of October 1843.-

5. The demand of duty on Tobacco supplied to the Native States of Travancore and Cochin amounts to Rupees 36750, exceeding that of the preceding Fusly in the sum of Rupees 13229-15-10, which has arisen from an increased demand for Tobacco to the extent of 450 candies in the year under review.-

6. The Sayer charges exhibit an increase of Rupees 45—13—10, which has arisen from the amount of fines levied this year being less than in the last, and also from the adjustment to this head of Rupees 34-4-" being the amount of Charges incurred for the repair of certain Sayer Choultries which in former

From the Collr of Malabar.

Sir,

In transmitting herewith the Statement of charges actually incurred in this District on account of Extra Establishments for July 1252. called for in your letter of the 13th Instant, I regret that some misapprehension in my Office led to its not being dispatched together with the Estimate of the same nature which was forwarded on the 2nd Instant.—

I take this opportunity of requesting to be informed, whether as formerly a separate Statement of actual charges of the above nature should be submitted for the sanction of Government, or whether, the one now sent will suffice.—

To,
G. D. Drury Esqre.
Chief Secretary to Government.
Fort St. George

Sir,

In reference to the instructions contained in Minutes of Consultation, Public Department No. 1113, I have the honor, by order of the Medical Board to submit for the approval of the most Noble the Governor in Council, the name of an individual who has been selected as duly qualified for the appointment of native dresser to the civil

Dated 23rd Ultimo

Civil Dispensary at Coombaconum, and to recommend that his salary may be fixed at Rupees 24-8-0 per mensem, the rate of pay of 2nd Dresser attached to the other similar institutions under this Presidency.-

The person recommended, I am directed to state was formerly a 1st Dresser in the public service, and was pensioned on account of impaired health in the year 1839. but in consequence of not having served long enough, in public employ, his pension was discontinued by order of the Honorable the Court of Directors.- as his general health appears to have become reestablished, and he is at present only 45 years of age, and likewise from his having always borne an excellent character, the Board have had no hesitation in selecting him, feeling confident that he will be found well fitted for the situation.-
