Abstract

(Signed) W. H. Babington
Acting Collector

Fort St. George 30th November 1843.

To The Acting Collector
in the Northern Division of
Arcot.

Sir

Para 1. I have the honor to report upon the Settlement of the Land Revenue of the four Talooks Composing the Sub division for Fusly 1252 (1842/43) and to forward the necessary explanatory accounts as noted in the Margin.

1 Comparison of Cultivation between Fuslies 1251 and 1252.
2 Rate of Revenue and of Remission between Do & Do.
3 Do of Muturpha between Do & Do.
4 Do of the Revenue of the Mahajanam Villages between Do & Do.

2. The preparation of the Jummabundy Chittas commenced on the 10th March or nearly a Month previous to my arrival in the District, and the distribution of the Pattahs terminated on the 15th July. The settlement had been commenced and was conducted throughout on the old plan, the Curnums accounts forming the basis of the Ryots assessment. It was my wish to have kept the plan pursued by Mr Boardillon in Fusly 1251 (1841/42) of making the settlement with each Ryot individually and agreeably to the instructions of the Board in Para 3 of their Proceedings on the Land Revenue of that year, on my entering upon the settlement of

† dated 13th Dec. 1843.

of the Arcot Talook. The season however had so far advanced that I found it impracticable with reference to my desire of bringing the Jummabundy to a close, and I would here venture to observe, that every benefit supposed to be derived by the Ryot from an individual examination of his accounts in his own presence under the plan recommended, is most Completely attained under the one which has hitherto been pursued and with infinite less trouble to him.

3. The Curnums Chittahs shew the entire Cultivation of each individual and also contain entries of his Loyer under the several heads for which remission is granted. The Ryot knows how his account stands with the Curnum, and it appears to me only giving him unnecessary trouble to call him up to the Cutcherry, when the accounts of his Village are being examined often from a great distance, for the mere sake of personally questioning him upon points he does not dispute

dispute, and then summoning the
a second time to receive his Pattah
all the accounts are closed. Nor
to be supposed that he will stop
at home or refrain from personally
tioning and explaining his Circumst
if he objects to the Statement of
Cultivation as prepared by the Cur
and has substantial grounds to sh
he may benefit by so doing. Experi
proves that every Ryot who has
plaint to make whether named
or real is but too ready to pres
and that no danger exists of his
injured or called upon to pay
unjust or improper demands from
backwardness on his part in stat
his objections. On the contrary every
who is dissatisfied with the way in
the Curnum has prepared his accounts
unreasonably prevents himself and pet
against them, his primâ facie allegat

into, and redress afforded if practica
or in case in which this cannot be
done, the reasons assigned for a
rejection of his demands are either sustain

on the back of the petition in which he
set them forth, or personally explained to
4. I hope the above explanation will
sufficiently show that every supposed benefit
likely to be derived by an extension of the actual
individual settlement is secured under the old
system to all who have any representations to
make, and from my own observation of the dislike
evinced by the Ryots at what they consider
any uncalled for absence from their homes
and detention at the Cutcherry beg, a
most strongly to recommend its continuance
as fully securing all the benefits of
a Ryotwary administration.

5. The Total Number of Pattahs
amounted to 27847. of these 24354 were for
Land, and 3493 for Melarpaha. The num-
ber objected to were 161.

6. The season of July 1842/43 may
be generally described as being very
unfavorable to agriculture owing in the
first place to the want of early rain &
in the second to the unseasonable period
in which it subsequently fell, as to the
middle of June the fall for rain
was very trifling, towards the end of
that & Month and in the beginning of
July, there was a small quantity, but
by no means general, it contributed
however

Fort St. George 30th November 1865.

however to reduce the decrease in Dry Cul-
tivation on the 25th July to Rupees 27618-15-1
which on the same date in June had amoun-
to Rupees 42281-12-9. This improvement how-
ever was at the time merely temporary and
by the end of August the decrease again increa-
sed to Rupees 56378-5-3. The rains may
be said to have commenced after the
15th September though they fell in part
-tial Spots, Chiefly in the South and East
of the Great Taluk, and in the western por-
of Tirvattoor, In October and November th
not abundant they were more than moder
and led to some extension of Cultivation
though the season considered most fa-
-vorable for the production of the three
Dry Crops had passed, and those which
down later in the year were in a grea
measure left uncultivated in cons
-quence of the Ryots means being eng
to the Cultivation of the wet lands. The
Decrease on the whole year after deduct
-ing an Increase of Rupees 469-11-9 per
Indigo in Tirvattoor amounted to Rupees
37775-10-8 of which Rupees 18127-
occurred in Shendirapuk and Rupees 19
-8-8 in Tirvattoor. The net Decrease
in Cannies, amounted to 13956-6/16

Fort St. George 30th November 1865.

7. The Crops may in general be said
to have been very indifferent and except in a
few places to have yielded very little
more than one half, in some they probably
fell as low as one quarter. This is to be
attributed chiefly to the unseasonable
periods in which the rain fell not
allowing the selection of the best season
for sowing and the consequent hinderance
to the Crops fully performing and yield-
-ing a proper return. The loss to
the Ryot therefore under these cir-
-cumstances was two fold first in the
diminished produce of his land, and secondly
in his inability to extend his Cultivation.

8. Adverting to the Boards Proceedings
† 18th May 1840 Para 3 noted in the Margin † expressive of the in-
13th April 1843 - 2 - convenience of treating the different Items
of Cultivation according to one system
in the Report and another in the figured
Statements accompanying it, I have been
induced to submit a Comparative State-
-ment of the Cultivation of the Sub divi-
-sion (Enclosure 1st) shewing the dif-
-ferent classifications of land of every
denomination, and in reference to it pro-
-ceed to explain the Circumstancies of
the wet Cultivation in which a very
considerable decrease exists this year.

The

Fort St. George 30th November 1843.

The want of early rain which occasioned so much loss to the Dry Crops as explained in Para 4 was equally felt in the early wet Cultivation, as it was not till the end months of September that rain fell in sufficient quantity to induce the Ryots to plant to any considerable extent. There was consequently a very great falling off in Car / sown between May and August / amounting to Rupees 55,008 - 15 - 4 or Rupees 37 - 12 per Cent less than Fasly 1251 / 1841/42 nearly one half of which or Rupees 24,176 - 11 - 11 occurred in Areot, where it is extensively cultivated and is attributable to the very small supply of water furnished by the tanks, river, and other Nullahs, in consequence of the failure of rain. The Decrease in Cauniem under this head amounts to 4,527 - 29/64 -

9 - The rains which fell towards the end of the season afforded some assistance to the Cultivation of Samboy which only fell off to the extent of Rupees 28,200 - 10 - 3 there having been an increase over last year in the Salook of Rupees 6,140 - 4 - 3 The Decrease occurred chiefly in Wunde

Fort St. George 30th November 1843.

Rs. a. p.

where it amounted to 19,740 - 4 - 10 and may be said to be owing to that Talook being ill supplied with Tank water, and depending for its Chief supply of water on the Tanks being filled by the periodical rains - In Madura there is an increase of Rupees 808 - 10 - 2 and of Cauniem on 59 - 37/64 attributable to a fall of rain in January and in Navaray there is a Decrease of Rupees 482 - 1 - 11 - but an increase in Cauniem of 222 - 19/64 -

The Increase in Cauniem is attributable to the fall of rain above adverted to inducing the Ryots to Cultivate in though a Month too late in the season, and the Decrease in Berij to their cultivating only the lower assessed lands, in consequence of the lateness of the season allowing only one Crop to be produced from them -

10 - In Betel gardens there is a Decrease of Rupees 102 - 13 - 1 in Tirnattoor and Tolloor, and an Increase of Rupees 130 - 7 - 1 in Wundiwash and Areot, making a Net Increase of Rupees 27. 10 - - In Sugar Canes and Plantain

the

13. The above Statement it will be seen shews an Increase of Jungul Jasty under every head except that added on Ryots Cultivating land under their own wells and tanks bona fide by Crops known by the name of Poonjah Poovanshy. This increase amounting to Rupees 556-6-1. of which Rupees 497-4-2. are derived from the conversion of Dry land into wet may be said to be entirely owing to the unseasonableness of the rains inducing the Ryot to engage in the Cultivation of produce bringing him an immediate return, rather than wait for a fall of rain sufficient to enable him to Commence his ordinary Cultivation, and the Decrease to the Boards orders conveyed in Para 7 of their Proceedings dated the 31st October 1842 desiring the discontinuance of the practise of bringing Poonjah Poovanshy to account, to make up for what a Ryot had left waste in his last years Patta and which therefore now no longer exists as an Item of Revenue. The following Statement shews that Rupees 467-15-4 would have been realized under this head, had the practice hitherto prevailing been this year still maintained.

14. The improvement in the price of grain to the advantage of the Ryot has been general throughout the Sub Division, and in nearly every Month of the present Fusly 1257 was cheaper to the consumer than in the previous one, with the exception of Polaur where it Continued cheaper up to December than in the Fusly 1251 1841/42 subsequently the price rose also in this Talook and for the remaining months was about 20 per Cent higher than the year before. The subjoined Statement shews the average selling price in the four Principal towns of Arcot, Trivattoor, Polaur and Wandiwash per Pagoda and per Garce in Talook.

It will be observed that the average price per garce is Rupees 71 4a — p or a little above 20 Pagodas, being an increase of rather more than 2 Pagodas over last year though still upwards of eighteen and a half per Cent lower than the commutation rate. The average price per Pagoda is 19 — 5 54/64 Mercals.

15. The following Comparative Statement of the Revenue of the Subdivision including the Maturpha and Jan B. fisheries for Fasliee 12 51 (1841-42) and 12 52 (1842/43) shews the falling off which took place in each Talook, and the Net Decrease on the whole year to amount to Rupees 114,222 — 9a — 11p the reasons for which are to be found in Para 6 to 11.

Struck out of Cowle in Fusly 1252.

Fort St. George 30th November 1843

23

It will be observed that the assessment of land newly acted on by Cowle in Fusly 1252 amounts to Rupees 41-15-2 1842-43

this sum is composed to the extent of Rupees 4-12-11 a p 6 of land newly granted on Cowle and of Rupees 269-3-8 of land previously granted on Cowle but not previously under the plough, of this latter sum, Rupees 246-2-5 apply to the Ryots who settled at Shyar and Codyallum Villages of Mundiwash as explained in Para 8 of my letter of the 6th May 1843 & 27 of the above sum of Rupees 41-15-2 Rupees 4.38-11-3 were totally remitted; and of the remainder, one eighth or Rupees 37-4-5 was brought to account and the remaining seven eighths or Rupees 265-5-6 remitted.

24.

The two preceding Paragraphs shew the working of the Cowle System and the Value of the land affected by it in the Sub Division. It is now necessary for me to explain the reasons which induced me to cancel the Cowle of the Cowledars alluded to in Para 22. The Holders of the Cowle in question which was granted by Mr Bourdillon under date the 28th March 1841 came from Cuddapah and settled at Goolyaru Village in the Polur

Fort St. George 30th November 1843.

Look. The terms of the Cowle which was made out for 140 Cawnies of Dry land and 100 of wet, were, that their yearly Cultivation should be in the proportion noted in the annexed Memorandum; the Dry land bearing a Commuted assessment of half a Pagoda per Cawney the Wet of two and a half, and the Garden if any of eight and with the agreement that they should be free from any Sircar Demand for the first year and for the fresh Cultivation of each year, but that for the land Cultivated the year before, they should be assessed at one fourth, for land Cultivated 2 years one half; 3 years, three quarters, and 4 years or the fifth of it's being Cultivated the full assessment, until the whole at the above rate of yearly increasing should be brought under the operation of the full assessment. They omitted however to Cultivate to the extent required in Fusly 1251 and on their representing their circumstances to Mr Bourdillon, he reduced 1841-42

Fusly	Dry	Wet	Total
1251	40	20	60
1252	60	40	100
1253	60	4	100

the assessment he had fixed on the Wet land half a Pagoda and on the Garden 4 Pagodas

per

per Cawney, and gave orders that this reduced assessment should be the fixed assessment for the future.

25. On my proceeding to Poloor, the parties presented themselves before me, and petitioned to be relieved from the above revised rates of assessment representing the land entered in the Accounts as wet, as not adopted to that description of Cultivation, and praying, therefore to be allowed to Cultivate the land in any way they might prefer, and to be charged according to the Crop they might produce from it that is to say that if they produced a Dry Crop in a wet land, that then they should only be assessed with Dry Seerwah, and vice versa, and that for such portion as they might Cultivate as Garden they were only to be called on to pay the rate levia-ble on wet. as this, if sanctioned would not only have altered a second time the rates of Seerwah permanently fixed by Mr Bourdillon, but also have effected a change in the classification of the land. I told them their application could not under any circumstances be allowed, and that the objections they had now newly

offered ought to have been previously made by them if they had wished them to be admitted. I however gave their circumstances all the consideration in my power and offered to allow them to cultivate on the Cowle rates but agreeably to the classification of the land, as much or as little land as they annually chose, either Dry or Wet; to this they would not consent, though I conversed with them on two separate days on the liberality of my offer and how advantageous it was to them, and called in some Monigars and Curnums who were standing near the Door of my tent to state what they thought of the offer, and whether it was possible to grant one or more favorable terms. The Monigars and Curnums immediately recommended them to close with it, but they still refused saying they were willing to have their Cowle broken and be assessed with full Seerwah if they could not hold the lands on their own terms. I thus did all in my power to bring them to a Knowledge of what was most conducive to their own interests, and it was only after they would neither listen to me nor the advise of disinterested parties that I had no alternative left me but to cancel their Cowle, which

Chatoor Baugum: 28. The cause assigned in the preceding Paragraph for the decrease of the Seazgary remission is equally applicable to the Item of Chatoor Baugum, which this year amounts to Rupees 4-8-2 less than in Fusly 1251/1841-42.

Shratriem Reyayet- 29. This remission calls for no remark as it is granted only in Mechanellore a Village in Mundiwash and is fixed in its Accounts.

Jody on Enam Lands 30. The tax paid under this head by certain Enamdars in the Poloor and Arcot Talooks amounts to Rupees 57-6-7 less than the sum received from them in Fusly 1251/1841-42 and is owing to their diminished Cattle.

Orchard and Topes 31. There is a deficiency in this branch of Revenue to the Amount of Rupees 8-5-5 below last Fusly.

Chillana Caunilly Lundayem- 32. The increase in this Item amounts to Rupees 21-1-8.

Malyalum Villages 33. There is a decrease in the receipts from these Villages as in almost every other branch of Revenue, Amounting to Rupees 35-10-a of which 30 fall under the head of Land Revenue and 5-10-a of Miscellaneous Items.

Palm Toper &c &c 34. A Decrease of Rupees 65-12 below the previous Fusly, the season having turned out as unfavorable for fruit as for grain.

Moturpha 35. The Moturpha Revenue has risen as Rupees 157-6-5 a above Fusly 1251/1841-42 the details of its separate Items will be found in enclosure No. 3.

Tank fish 36. As the Tank of Shamendoor did not dry up sufficiently to allow of its being fished, the Decrease in this Item amounts to Rupees 349-12-11-a.

37. The outstanding Balance of Fusly 1251/1841-42 at the commencement of Fusly 1252/1842-43 amounted to Rupees 1,14,417-1-5 a of which Rupees 1,10,068-5-2 have been realized, leaving a balance uncollected of Rupees 4348-12-3 and the old balance of the years between Fusly 1240/1830-31 and 1250/1840-41 at the end of Fusly 1251/1841-42 amounted to Rupees 17,770-6-4 of which Rupees 481-4-7 a were collected in the Fusly now reported on, leaving Rupees 17,289-1-7 a still due for the revenues of those years. The total Balances therefore of the years between Fusliés 1240/1830-31 and 1251/1841-42 inclusive, at the end of Fusly 1252/1842-43 amount

the others, I am inclined to attribute the heavi-
ness of the arrear in a great measure to a
want of energy in the Tahsildar, who I fear
is scarcely equal to the duty intrusted to
him, it is the more remarkable when
compared with Trivatoor, where the ba-

present Fusly $\frac{1253}{}$ was nearly equal in am-
amount, and which has nevertheless been
almost entirely collected.-

I have endeavoured as much

39- as possible by sending frequent and stri-
-gent orders to the Tahsildars to realize
the Rists with punctuality, and not to defer
demand for payment after the period at
which it was due.- The interest of Govern-
-ment and the well being of the Ryot,
who would only squander his means,
and experience greater difficulty in
paying his assessment, were he allowed
to put it off much beyond the time of
his gathering in his Crops require that
the utmost attention should be paid
to this point, and considering the un-
favourableness of the year and the
large balance Fusly $\frac{1251}{1841/42}$ that has been

been realized within it, the sum out-
standing on the 25th Ultimo Rupees
2592-12-9 appears to me to be co
comparatively small. Kists pur-

Ordered to be sent again in circulation-

Read the following letter.

To, The President and Members of the Board of Revenue

Gentlemen,

From Rajah Bommaa Rauz Bahader Zemindar of Carvetiynuggur in North Arcot-

Para 1.

Submits a succinct account of the History of his Zemindary from the time of his Ancestors to the present period the Causes of its present depressed condition and his own difficulties which led to its sequestration by the Circar. Prays that it may now be restored to him remitting a portion of the arrears due the remainder being paid by instalments and the annual Peishcush reduced-

I have the honor to lay before your Board the following succinct account of the History and present depressed condition of my Zemindary for the favorable consideration of your Board-

The Zemindary in question was held in my family for the last several Centuries The annual Peishcush or Government Revenue fixed thereon by the then Reigning power was Rupees 114,051 which was regularly discharged by my ancestors, and all that they were required to do in addition, was to assist the State in times of War, with their forces which, it must too well be known to an enlightened British Government, were not maintained by the Princes of India at so considerable an expense as that laid out by themselves now were the forces regularly disciplined- These forces were generally composed of all the relatives of

(42)

Fort St. George 30th. November 1843

of the Princes (whom they were bound to support) and of their own train of Servants who were all maintained by small grants of land and by inconsiderable payments of money- This System was, after the assumption of the Country by the British Government, altered, and Mr. Stratton, who had the administration of the District of Arcot commuted those services into an annual Money payment of Rupees 73,612 thus increasing the Peishkush from Rupees 114,051 to Rupees 187,663. It must here be remarked that this increase became doubly burdensome to the Zemindary, because the expence incurred in maintaining the sibbendy was very light, and because that sibbendy was not, and could not be, wholly dispensed with especially as a part of that sibbendy composed of persons connected by blood,

whom

1836 Fort St. George 30th November 1843.

whom according to the rules of nature,
we could not debar from maintenance,
whilst the other part comprized of
Servants, whom for the protection of
the revenues and the due adminis-
=tration of the Country, it was found
ill advisable to dispense with some
portion of the latter who were imme-
=diately attached to the personal
attendance of the Zemindar, were
however dismissed, but the saving
thereby effected did not recompense
the Zemindar in more than a trifling
portion of the Increase he was
bound to pay to the British
Government

1839 Fort St. George 30th November 1843.

Government by their altered policy. It is
not however to be denied, that the Estate
generally yielded a surplus Revenue, but what
was this sum? The highest revenue of the
Estate, out of 22 years preceding the present
sequestration of my Zemindary, as will
appear in the annexed Statement, was
Rupees 4,19,331 — 3 — 8. and the lowest Rupees
1,42,041 — 6 — 8. averaging Rupees 3,11,115 — 1 —
per Annum, which exceeds the Peishcush
by only Rupees 123452. From this your Board
will perceive that Rupees 60 — 5 — 1. per Cent
are now taken by Government, whereas
before the increase of Peishcush by Mr.
Stratton, only Rupees 36 — 10 — 6. per Cent were
paid to them, so that no more than Rupees
39 — 10 — 11. per Cent are now left as our
surplus Profits, instead of Rupees 63 — 5 — 6.
per Cent, and this to cover the various enor-
-mous offences attending the administration
of the Estates.—

3. In order that your Board may clear-

Under these disadvantageous circumstances my father was obliged to run, in the course of a series of years, into debts to the extent of about 10 lacs of Rupees, raised partly from the mortgage of some of the Villages composing the Estate, and of Jewels forming his family property, and partly from simple Loans contracted so as to enable him to pay the Peishcush and keep all the expences above adverted to. At his death, I was a Minor, and the Estate was in consequence taken under Government Management, when the little Interest taken by public Servants reduced the annual revenues so low that the average did not exceed Rupees 2,91,368—15—6. per Cent per An-num whilst during the right years of my own management previous to the present sequestra-tion of the Estate, it amounted to Rs. 3,00,046—11—7. per Cent per Annum and, during the last 10 years of my Father's administration, it yielded Rupees 3,34,825—14—1. per Cent per Annum.—

Nundana year. 5. †The first year after the restoration of the administration to me was, unfortunately, a Season of famine and from the next, I used such strenuous endeavours as restored the Estate to its somewhat former condition, but what benefit could a

man reap from the fruits of his labour and industry when he is deeply involved, and when he had to satisfy them by part payments, and to pay, besides a heavy Government Peishcush, independently of the various expences incident to the administration of a large Estate, as already observed above. This was not, however the case with me for, by my economy, I have reduced my Father's debts to half the amount, but in despite of all my prudence and frugality, I could not have been punctual either to my creditors, or to the Government, (whose dues I was bound to pay first) in consequence of the unbounded ambition of my Creditors, who, in fact became usurers. Their stubbornness was so great, that, notwithstanding the various arrangements I had made for the liquidation of their debts, some of them brought Actions against me, and involved me into law Suits. This battery brought on me ruin and, with it, their own, for, by the sequestration of the Estate by Government on account of their Peishcush, which itself indicates my ruin, they have lost the management of

Fort St. George 30th November 1843.

of some of the Villages which they had forced me by their law Suits, to mortgage to them. They are, however, now sufficiently convinced of their folly, and are inclined to come to some better arrangements than before, and I have availed myself of this opportunity to use my best endeavours for effecting a Settlement with them, and I am happy to say that I have nearly brought it to a conclusion. With regard to the arrears of Peishcush now due, I shall leave it to the liberal consideration of your Board and Government, who, with their wonted indulgence towards the antient Zemindars of whom I am one, will, I earnestly solicit, be so gracious as to remit either the whole, or a part thereof, and restore me to the management of my Estate. In the event of the present exigencies of the State not admitting of the indulgence solicited by me, I beg leave to request that I may be allowed to discharge the same by Instalments of equal payments, but in doing so my earnest Prayers are, that the Instalments may be so low as to enable me to keep

ap

up my payments regularly in addition to the annual Peishcush and the liquidation of my debts, the latter of course by similar smaller payments. I am induced to ask this indulgence more on account of the little interest now taken by the public Servants in the improvement of the Estate, which I am afraid, will run into further public debt, than from any anxiety to regain the management, however natural it must be to the descendant of an antient Zemindar's family, for without it, he would look in the Eyes of his people and the public at large as but a piece of Straw, and make him a burden both to his family and dependants. In proof of the little Interest taken by public Officers, and of the increase of Debt under the public Administration, I beg to observe that the arrears of Peishcush due when the Estate was sequestered in the last year was Rupees 163,619. and the amount now due is Rupees 196,171. exceeding the former sum in Rupees 32,552 or in other words making the increase of public debt to amount to that extent during one year's public management the Revenue of the year having

having yielded no more than Rupees 2,78,000, a sum far less than the Kerij. of the three years preceding the sequestration of the Estate, or of a Majority of the years under my management, as will be evident from the annexed Statement as a proof also of my economy and anxiety for the liquidation of Government dues; I beg to add that, since the Zemindary was taken under the Government management, I have refrained from applying for any part of the Revenues for my maintenance, which, it must here be remarked, in consequence of my rank and station in life, would require no inconsiderable sum.

6. After the sequestration of the Estate, I have endeavoured to live within the moderate income of a few Villages forming my family property, and I would now willingly give up my claim for my maintenance, for which purpose, I am given to understand, Rupees 26,841 are set apart and kept in deposit at the Collector's Treasury, and I propose that this sum be credited in public accounts on account of the arrears of Peishcush, though there will still be an increase of debt of

Fort St. George 30th. November 1843.

of about 5000 Rupees above the sum originally due by me, as set forth in the preceding para.-

I have reason to assure your Board that the lesson I have had from the present misfortune will make me adhere to my present mode of life, until by own prudence and the Grace of God, the liquidation of my debts both public and private will enable me to regain my former position. If this should not prove the case, the Government have it at all times in their power to resort to the measure they have adopted on the present occasion, and can take back the country under their management, and if I had not hitherto proved punctual to Government, it was entirely ascribable to the ambition and inhumanity of my creditors, which being now set aside by the assumption of the management of the Estate by your Board & Government, whose good will and intentions towards the antient Zemindars are too well Known to be denied, I now earnestly request that my prayers may be granted, and that they will once more give me a fair trial, which I doubt not will prove successful, and to the entire satisfaction of the Bounteous and liberal principled British Government.-

Resolution thereon.—

(44-46)

Pay of twelve Saliars employed on Chellumbrum during Fusly 1252 / 1842/43 is occasioned by the resumption under the orders of Govt. dated 11th April 1842. of the Cawlly income held by the Pitchaverum Zemindar from which they were before paid; the special sanction of Government is therefore solicited for the charge and for continuance of the Establishment which is represented to be absolutely necessary.—

To The Secretary to the
Board of Revenue
Fort St. George

(46)

Sir,

From H. Mc. Blair Esqre Collr of Canara.

Submits Statements and observations on the mode of levying the Hawlut duties in Canara and explains their bearing on the land Revenue—

Nos 1-2-3
4-5-6

I have the honor to acknowledge the receipt of your letter of the 28th August last, calling for a report on the branch of Customs Revenue levied in this District under the name of Hawlut, together with Statements of its amount, rates, mode and places of Collection—

In reply, I beg to submit—

2. herewith Statements shewing the amount of the Hawlut duties levied, both in the land and Sea Custom Department, from Fusly 1236 / 1826/27 to 1246 / 1836/37 with the other particulars required by the Board—

3. The Statement, No 1, shews the Collection of this duty in the land Custom Department, and the disbursements on account of Drawback from Fusly 1247 / 1837/38 to 1252 / 1842/43

Statement No 2 Exhibits a similar return for the same period, in the Sea Customs Department—

4. Nos 3 & 4 shew the Collection in both

both Departments from Fusly $\frac{1236}{1825/27}$ to $\frac{1246}{1836/37}$ ..
and N°5 exhibits the Disbursements on ac=
=count of drawback during the above period—

5. The Hawlut duty was levied both under the Mysore and Bednore Dynasties, and was most probably coeval with the Garden plantations in the Bala=
=ghaut Talooks of this District. It was called Hawlut, a Canarese term, meaning "Estimated," from the duty not being levied on the value of the Article, as at present, but on the Estimated weight or quantity. It was usual to weigh only two or three bags out of a number intended for exports=ation, the rest being passed on Hawlut, or Estimated weight, and the duty .. levied at the rate of 3 Hoons per Ney of 12 Maund. This practice continued until the year 1812, when it was deemed expedient to .. introduce a more regular and uniform system of levying the Hawlut duty, and under the provision of Regulation I of 1812, a Tariff valuation of the several articles subject to the duty was settled, and the rates of duty fixed.—

6. The Statement in the Margin exhibits the present rates of the Hawlut duty on the several articles subject to the impost—

7. The Statement N°2. previously referred to, includes Cassia or Bastard Cinnamon and Boon Spars, which have been entered, as required by the Board in Para 2d of their Letter under reply, as the articles are subject to a higher rate of duty than the usual Sea Custom duty of 8 per cent—

8. The principal places at which the Hawlut duties are levied in the land Customs Department, are shown in the Margin, but duty is also levied at several of the frontier chookies, on any of the articles subject to it, which may not have passed by the principal routes of Trade.—

9. The Hawlut duties in the Sea Custom Department, are collected at any of the Sea ports from which the articles may be exported—

10. The duty is paid by the Trader or exporter, who usually purchases the article from the Ryots in their Villages - after the goods have been weighed at the land or sea Custom house, and the duty paid, the Exporter is furnished with the usual certificate shewing the quantity of the articles, and the amount of duty &c. levied &c.

11. With respect to the bearing of the Hawlut duty in the land Revenue, I am of opinion, that it is not attended with any prejudicial effect in checking the Garden cultivation, which has not decreased since our acquisition of the country, and many of the Ryots who have been desirous of late years, of converting their Rice lands into Betel plantations —

12. The Supare on which the greater part of the duty is levied, is exported principally to the Southern Mahratta Country, Hydrabad, Nagapoor and the neighbouring states. It is considered of superior quality to any other produced elsewhere and the demand for it is consequently steady, and the price has of late years, been gradually

rising —

13. The duty tho' advanced by the Merchant, is ultimately paid by the consumer and the abolition of it, while it would be a considerable loss to Government, would in no degree benefit the Canara Ryot or Trader, as the price of the article would doubtless fall in proportion to the reduction of duty —

14. The Garden proprietors themselves, are by no means desirous of seeing any alteration made in the existing Hawlut duties — on the contrary, I am disposed to believe they would view the abolition of this system rather as a disadvantage to themselves than otherwise, by taking away a security afforded against fraud on the part of the Traders, by the necessity that now exists for the goods being brought to the Custom houses previous to exportation —

15. As shewing the opinions of Sir Thomas Munro while Collector of Canara on the subject of the Hawlut duties, I beg to refer the Board to his letter to them on the Customs of the District, dated 28th June 1800

Paras 9 10 & 11

From

16 From the observations on these paras it will be seen that Sir Thomas Munro did not at that time consider that the amount of the Hawlut duties operated injuriously on the Garden Cultivation of the Balaghaut, or that the levy of the duty was attended with any inconvenience to the Trader, as is often the case with other Customs duties—

17 From the imperfect state of the Records of my Office, I am unable to refer to the sentiments expressed by the earlier Collectors of the District who succeeded Sir Thomas Munro, regarding the duty in question, but I believe I may safely assert, that but one opinion has been entertained on the subject, Viz: that the tax was a most legitimate one and that its abolition would be attended with no practical advantage to the Garden proprietors of the District—

18 In his Report on the Extra sources of Revenue for fusly 1245, dated 31st January 1837, Mr. Lewin the then Collector, in allusion to the supposed abandonment of the Hawlut duties, makes the following

observations.

19 "Their abandonment without a substitute I should consider a mere waste of the resources of the Government, the producer would derive no benefit from the measure, nor would a single acre be brought into cultivation by it. If asked for a substitute I should be at a loss to offer one, an additional tax on the land would be ruinous to the ryot and as a consequence fatal to the revenue now paid by him. On the whole the Hawlut duty seems as far as Canara is concerned, as free from theoritical and practical objection, as any tax that could be devised, and I trust that if the Government are prepared to give up the amount of revenue yielded by it, other taxes which press heavily on the inhabitants of Canara will fall before it. Of all the taxes now borne by Canara there is none so oppressively felt as the tobacco Monopoly."

In

Fort St George 30th November 1843

20

In these sentiments I entirely concur and I would therefore beg leave strongly to recommend, that whatever may be the intention of Government, with respect to other branches of the Customs, that the Hawlut duty on Canara, which is strictly a tax on the luxuries of the wealthier clases — chiefly of foreign states, and in no way injuriously affecting the Cultivator, or Trader of this District, may not be abolished, while a tax like that of the tobacco monopoly — which

which is not only a prolific cause of crime by the temptation it holds out to smuggling; but in a climate like this, seriously affects the comforts of the great body of the people; is retained as a source of public

Revenue —
