To the Collector of Malabar-

Sir,

I am directed by the Board of Revenue to request you to explain the discrepancy observed between your Report of the 11th Instant, and your Return of Suspensions and dismissals under Regulation VII of 1831, for the Months of October, November and December last, on the former of which it is stated that there were no suspensions or dismissals during that period, while from the latter, one dismissal and three Suspensions appear to have taken place.-

12,166.- On the three first this Settlement was below the amount of Peshcush and on the three last it did not reach the average outturn of the previous 10 years.- In Fusly 1252 owing to an unfavorable season and low prices the Estates produced only Rupees 6877 presenting a falling off to the considerable extent of Rs. 5289, or nearly one half the amount of the previous year's Settlement.-

It is with a year, remarkable for so great a deterioration in the revenues, that the comparison of the result of the season under review is instituted, and still the comparison is unfavorable. The Settlement of Fusly 1253 moreover when compared with the amount of Peshcush and 10 years average given in para 22 of the Collector's report is equally unsatisfactory.-

His Lordship in Council observes 2.- that the Collector attributes these results to the unfavorableness

"unfavorableness of the Season, and the consequent "scantiness of produce, added to a depression of "prices," but an equally deteriorated condition and falling off of Revenue in Estates in other parts of the Northern Circars have recently been traced to other causes, such as fraudulent practices, alienation of lands, defective System of Management &c.- It is therefore of importance that the Board of Revenue should cause such enquiries to be instituted as shall enable them to ascertain the extent to which other causes may have operated to occasion the remarkable decrease above noticed.-

3. It is also observed that rents for the dry lands of certain Estates on a lease of 5 years have been introduced by the Collector, which the Board are of opinion are as favorable as can be expected, and also that the wet land of others have been farmed out for one year (1254) The amount is considerably below what the Estates may be expected to yield in a good Season such as Fusly 1251.-

4. His Lordship in Council therefore desires to be informed more fully of the character of the rents and whether the System has the full approval of the Board, and had received their Sanction prior to leases being granted by the Collector- His Lordship in Council also with reference to the instances of default noticed in Collector's letter Paras 29-30-32 desires to be informed whether the

It is however a matter of some satisfaction that of a demand of Rupees 6387- on these properties, nearly the whole was paid within the Fusly, leaving on the 25th. March last a small balance of Rupees 284, which the Collector expected to realize in Fusly 1254.-

6. The exemption from Assessment of land cultivated to a certain extent with "Punpkins and Gogoolos" being an indulgence hitherto enjoyed by the Ryots according to the usage of the District, the Government approve of its being continued within the customary limits.-

7. The total demand of Peshcush on the Estates in possession and under the management of the Proprietors during Fusly 1253 amounted to Rupees 4,38,445 of which Rupees 2,38,189 were collected to the 31st. March 1845 leaving a large balance of Rupees 2,00,256 the greater portion of which is due by the Proprietors of the Wyore and Nundegamah Estates.-

of these balances the arrears against these Estates and others for previous years amounted to the considerable sum of Rupees 12,07,019 of which Rupees 10,11,928 are due by the Zemindar of Nundegamah.- The Government approved of this property being placed under attachment and the Board on the 22d December last reported their having authorized the same proceeding regarding the Bezoarah Estate- but before determining on the application of similar measures to the Wyore and Nundegamah Estates the Government would desire to receive from the Board of Revenue a special and detailed Report on the causes of the default, and the condition and resources of these Zemindaries, and to know whether with reference to past results in this Collectorate any real and permanent benefit to the Ryots, to the Government, or to the proprietors themselves may be expected, by placing or continuing these Estates under the Management of the Collector on their behalf, in lieu of putting them up for sale for the arrears of Revenue due, and purchasing them on account of Government.-

Sir

I have the honor to receive

Collr. of Bellary — 1 —

the Collectors Proceedings of the Undersigned from the Proceedings of the Board of Revenue under date the 21st. August 1845 directing me to discontinue the Proceedings of the Collector of Bellary in suspending the Revenue demand of Rupees 7,845 from the Pension Paid to the Poligars of Kanjeeveram and Chingleput Districts, and to call upon the Parties from my Proceedings and Collections to pay the same into the Treasury and to report my Proceedings for the Information of the Board of Revenue

I have the honor to report for the information of the Board of Revenue that I have not received any Petition from the Poligars of Kanjeeveram and Chingleput Districts against the Collectors Proceedings in suspending the Revenue demand of Rupees 7,845 from the Pension Paid to the Poligars of the said Districts and that I have not called upon the Parties from my Proceedings and Collections to pay the same into the Treasury

I have also the honor to report the following Statement of the Pensions Paid to the Poligars of Kanjeeveram and Chingleput Districts which I have received from the Collectors of those Districts

Signed / J. Hodgson Collector.

I have also the honor to report that the Pensions Paid to the Poligars of Kanjeeveram and Chingleput Districts have been regularly enjoyed by the Poligars for the last 30 years.

I have also the honor to report that

obtained certain Enam lands and Rupees in Money in consideration of the Privilege and title of "Sur Desayee Reddy" conceded to them in 44 Villages in the Yadakee Talook, on the cession of the Country the then Principal Collector Colonel Thomas Munro resumed the same in Fusly 1244 A.D. 1834/5 and allowed in lieu thereof 100 Canteroy Pagodas equal to Company's Rupees 291.10.8 in the name of Obalareddy (the father of the present incumbent Rungareddy) — and which the latter it appears succeeded to after his father's death.

4. The substance of the Takeeds issued by Colonel Munro on the subject to the Tahsildar of Yadakee is as follows:—

1st Takeed issued on the 25th April of Fusly 1211 in the name of Govinda Row Tahsildar of Yadakee "As I have deducted 50 Canteroy "Pagodas in part of the 100 Canteroy "Pagodas of Enam Lands granted to "Samoolapaud Obalareddy when issuing "Puttah to that individual, you are directed to pay over to him the balance of 50 "Canteroy Pagodas receiving the same from "the Hoozoor Treasury."

2nd Takeed issued on the 25th February of

of Fusly 1212 in the name of the Tahsildar "that a sum of 50 Canteroy Pagodas in the "Talook and 50 Canteroy Pagodas from the "Hoozoor Treasury making a total of 100 Canteroy Pagodas, having been paid to Obalareddy last year, you are to deduct "for the Current year the equivalent sum "from the Histhundy Bariz of the Talook "and Pay it over to the Incumbent obtaining "a receipt from him for the same"

3d Takeed issued on the 7th January of Fusly 1215 in the name of Rungarow Tahsildar "that the widow of the Reddy "having preferred a complaint that the amount "of 100 Canteroy Pagodas, has not as usual been "deducted from the Histhundy Bariz of the "Talook, you will, as in last year, deduct the "amount in question from the Bariz and make "over the same to the Individuals (meaning the "Family) obtaining a receipt for the same"

5. Obalareddy died in August of Fusly 1214, as appears from the report of the Tahsildar of that Talook. At the time of his death, the allowance usually continued to the deceased not being deducted from the Bariz of the Talook and paid to the Family the same appears from the last mentioned Takeed of the Collector (Munro) dated the 7th January to have been passed on consequent upon

upon the complaint preferred by his (Obalareddy) widow as above elicited: The present Poligar (Rungareddy) was then a minor (being 5 years of age) and exhibited in the accounts in his name (Runga Reddy) for a series of years—

6— This Poligar (Rungareddy) is now 46 years of age, and has a family consisting of 2 wives, 4 Sons, and 2 Daughters, besides 18 Relations in all 27 Persons including himself, depending on the allowance for support. The allowance which he enjoys as Polair of Vamoolapaud and as Curnum of Timmapoor independent of the sum of Rs. 291-10-8 referred to in the 3d para of this report is specified in the subjoined Abstract Statement—

Names of Villages	Situation	Share	Enam Ayacut Land in Cents in Company's Rupees	Which Cultivated in Fusly 1254	Waste and Unclaimable allowance	Total of Col 5 & 6	Amount payable to Circar Enam Deduction	Ditto Inam

to the Sunnud of the late Nabob Ally Dost Khan appointing Vamvolapaud Kristnareddy as Dasayee of Yadakee Purganah, he be recognized as such, and enjoy the Roosoom Vcu. allowance according to Maumool. By a Takeed (No. 4) issued by Foujdar Baboo Row Samajee of Tadputry to the Reddies and Curnums of Yadakee Purganah on the 24th. Jamadelawull in the Bigree 1162, he has directed that Vamalsaud Kristnareddy shall continue to enjoy the Roosoom Enam Vcu. for which permission is now granted. In a Takeed (No. 5) issued by Bajarow Timmajee Ameer Purganah of Tadputry in the name of Shaikdar Timmajee Vencogee of Yadakee it is specified, "that as I have given orders to pass to Kristnareddy "of Vamvolapaud Roosoom Vcu. "of the Purganah, and the fee of Oil and Betil "and nut at the Cusbah station.

From these various Sunnuds it appears, that the Enam lands and Roosoom in Money Vcu. were enjoyed by the ancestors of the present incumbent Rungareddy for a long time, and these grants no where appear to have been ordered to be discontinued.

The Enam lands and other Income (so long and successively possessed by the Family) Colonel Munro resumed, and in lieu thereof conferred on Obalareddy the Father of the Present Incumbent Rungareddy 100 Canteroy Pagodas per year to be deducted and paid from the Bariz of the Talook as herein before stated, for the support of the Family which Rungareddy has already enjoyed for 40 years.

Under these circumstances the Board will at once see that the allowance is hereditary and I feel assured, that it will be so recognized by Government and passed to Rungareddy and his heirs.

To the Chief Secy. to Government

Sir,

1. I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Bellary on the subject of a Poligar Pension in this District.

2. The circumstances of this case are fully explained in Mr. Keller's letter. It will be seen that, as shown by a series of original Sunnuds going back as far as Fusly 1146 or A.D. 1736/7 the ancestors of the present Poligar Vamoolapaud Runga Reddy held under the Native Government the Office of Sheristadar Desaye in 44 Villages in the Yadalen Taloof of Bellary, and received certain Emoluments both in Enam land and fees. These Emoluments were resumed in 1801 by the Coll.r Col. Munro and a money payment of 100 L.P. or L Rs 291-10-6 substituted but was first paid as shown by the Collectors Takeeds to Obla Reddy father of the present incumbent and on the death of the latter individual in

in August Fasly 12 14 was continued by

it since that time. The Pension has hitherto
been paid by a deduction from the Hist-
bundy and not disbursed directly from
the Treasury and entered in the usual
statements furnished to the Offices of
Account and Audit. In the Extract Minutes
In Cons. 1st June 1843 Consultation 18th May 1843, the Government
directed that this mode of payment
by deduction should for the future be
discontinued and such disbursements be
made and checked like all other pensions,
and these orders have been attended to in
the few cases in which a contrary prac-
tice had prevailed. In the present instance
of the Vamoolapaud Poligar, however, the
grant of Pension does not appear to have
at any time received the formal sanc-
tion of Government altho' the claims
of the Poligar are of the same descrip-
tion as those of other Poligars in the
same District, the pension being in lieu
of resumed Emoluments. Under these cir-

From the Asst Collr Chingleput

Sir,

In returning the enclosed
Petition from the Zemindar of Endathoor, I have
the honor to state the following circumstances.—

Returning with report the Petition No. 64 of 1840 from C. Vencatapaty Naick the Zemindar of Endathoor.

2. The quarrel between the Zamindar and the ryots of his Cudba Village arose from his demanding an annual payment on account of some Totacab Ground, and proceeding to collect the amount by attachment. The circumstances under which the demand was made, and under which the property at-
tached on the occasion was released, are stated in the enclosed translation of
Enclosure A. an order passed by the Collector Mr. Freese.—

3. The ill feeling which thus origi-
nated between the Zemindar and his ryots
and

and which had since been increased by his instituting Civil actions for the amount of his demand was first brought to my notice in a Complaint on the part of the Zemindar who represented that the Crops had remained undivided in the fields for 5 Months, because the ryots refused to bring his Mailvarum grain to his godowns. On this Petition an Endorsement was given that it was the usual practice in the District for the Mailvarum grain to be made over in the fields, and that the Zemindar should not cause delay in dividing the produce it being equally injurious to the Ryots, who had also Complained to me on the subject.

4. Two Months afterwards the ryots again represented that tho' they had frequently called on the Zemindar to have the Crops divided the grain still remained in the fields to their great loss. I then directed the Zemindar to send his servants to receive his share, adding that if further delay occurred I should be obliged to protect the ryots from loss by allowing them to measure the grain and take their Koodewarum share

share in the presence of the Village and District servants.

5. The Zemindar then again addressed me requesting that the above orders might not be carried into effect or that if the grain was to be divided in the fields he might be allowed to stop an allowance of 2 Sooms in every 10 Cullums which he stated was enjoyed by the ryots as Compensation for bringing the Mailvarum grain to his godowns. I accordingly summoned both parties and enquired into this point. The ryots maintained that this extra allowance had been granted forty years ago by a previous Zemindar to make them Consent to receive their Swatuntrum grain fees by measurement, instead of by estimate, and the precise purpose for which it was granted was not clearly shown. It appeared however to be an indulgence on the part of the Zemindar, which was liable to revocation on any want of agreement between the parties, and I therefore passed orders that the Zemindar was at liberty to withhold it if the ryots did not meet his wishes by bringing the Mailvarum grain to his godowns. The produce was afterwards

afterwards divided in the fields and the allowance stopped by the Zemindar under this order.-

6 The Zemindar subsequently Complained of much grain having been stolen, adding that he intended to sue the ryots for this loss in the Civil Courts. The Tahsildar was directed to enquire into the theft thus Complained of, but from his report it appeared that there was no evidence to establish the offence against any party. The Village Talliaree Complained that the Zemindars servants had given him no assistance in guarding the heaps which were scattered in different places over an area of mile and a half in length, and though doubtless advantage was taken by the lower classes to pilfer grain which was left so long unprotected in the fields, there was nothing to show what part of this loss, which fell as much on the Cultivators as on the Zemindar, arose from theft or was occasioned by Cattle disturbing the heaps or rain destroying the grain. It is only necessary to add that this loss

loss would not have occurred if the Zemindar had received his Mailvarum at once in the fields; and had it carried to his godowns by his Servants, as the ryots state that they repeatedly requested him to do, and then applied to this Office to recover the allowance (2 Tooms in 10 Collums) which he Considered they ought only to enjoy when they brought the grain to his store house.-

7. The next point to which it is proper that I should allude is the demand made by the Zemindar that the ryots should execute Muchilkas to him under the Provisions of Regulation XXX of 1802. As this was a new demand and the practice of taking Muchilkas under a dumany system has not prevailed in this or other Zemindaries it was necessary that I should make enquiries before calling on the Meerasidars to execute engagements which they had not previously been in the habit of signing and which in the present state of feeling between them and the Zemindar they were afraid to execute, fearing that it was intended to take some advantage of them, or interfere with their right

to

to the lands.-

8 It seemed to me however proper on full consideration that the Zemindar should have confidence in the lands of his Mootah being fully cultivated, and I accordingly called on the ryots to execute Muchilkas warning them of the consequence if they refused to execute them within the time appointed in the Regulation. The ryots then attended at my Cutcherry and stated that they would execute Muchilkas drawn up under my inspection, but were afraid to sign such as the Zemindar had prepared. I accordingly corrected the form of Muchilkas drawn up by the Zemindar leaving out some stringent particulars, and confining it to the points stated in the 4th section of the Puttah Regulation - as the Merasdars have not yet fully divided their lands they were permitted to execute a general engagement for this year.-

9 With regard to the complaint of the Zemindar that no orders have yet been passed allowing him to collect revenue from the Totacal lands. I beg to add that although the payments claimed

claimed by him have not been hitherto made, and the demand is now a subject of litigation before the Courts, I directed enquiries to be made regarding the lands in question to ascertain how far their individual holders would be called on for assessment in a Circar Village. On the completion of the enquiry the Zemindar will be informed of the orders which it may appear proper to pass.-

Translation of a Takeed No. 283 dated 23d May 1842. issued by A. Freese Esqre Collector of Chingleput to Ramakeeram Puntolo Tahsildar of Carangooly.-

1. Your Urzee No. 74 dated the 25th March last, reporting on the Petitions of the inhabitants of the Casbah Endutton in the Mootah of the same name in your Taloob stating objections to the demand of assessment of Pagodas 49-4½ made for fusly 1250 on 3 cs 3/6 us of totacal land situated within the Gramanuttum, on account of which the grain belonging to the Petitioners was attached by the Zemindar's Goomasta

22 in Number

Appaniengar.

Appaniengar in October last. has been received with its enclosures.-

2. It is to be remarked that no definite arrangement has been entered into between the Zemindar and the Ryots in fusly 1250, regarding the extent of Totacal land for which Teerwa was to be paid, and on enquiry being made to ascertain the practice in this respect in the preceding year, it appeared that the question of assessment on Totacal lands has never been determined since the Mootah came into the possession of the present Proprietor and that although at

+F. 1237

the beginning of fusly 1250 a Kistbundi agreement on the part of the Ryots for the payment of the arrears due up to the end of 1249 F. has been executed, this document is not unquestionable and was not moreover fully enforced, nor does it appear that it was produced by the Zemindar's Gomastah nor was any arrangement effected, either by the present or former Zemindars defining the portion of Totacab land enjoyable rent free by each individual and the portion which was

liable

liable to assessment. The accounts however show that a Bilmuta or fixed rent was to be paid to the Mootadar not exceeding 25 Pagodas per annum.-

3. Further enquiries were made to ascertain how the sum of Pagodas 49 was made the demand of the Totacal assessment for fusly 1250, and it appears that of the 657 Gs. 4 3/16 As. of Totacal land cultivated in fusly 1250, 519 3/16 Goontahs, which are entered Jaury or rent free in the accounts of the year Rawdry, together with 84 15/32 Goontahs held under decrees of Courts, being deducted, the remaining 303 1/2 Goontahs were assessed by the Zemindar as in Aumany, according to the description of produce raised thereon: To this settlement the Ryots have not given their consent. The account of the year Rawdry shows under the head of Jaury or Rent free that portion only which was cultivated by each Ryot and under the head of Teerwa put the portion of Poramany or unoccupied Garden land also cultivated in that year - The remaining land which was waste is not included in the above accounts.

The

The demand of the Zemindar should be made with reference to the Totacal land enjoyed by each person and cultivated in fusly 1250, & the demand should be limited to the Peramany Totacal lands which are liable to assessment, and should be regu-lated by the practice which obtained re-garding these lands in former years. But on no plea should a demand be made on an account prepared so far back as 40 years, more especially as a Considera-ble portion of the Totacal land on which the demand of assessment is made is held as Backyards of dwelling house.

The attachment made by the Zemindar's Goomastah is unreasonable, and I owe will therefore call upon that person to whom as well as to the Ryots you will at an early period Communicate these instructions, to release the pro-perty and see that it is duly made over to its proper owners.-

4 Though the attachment made by the Zemindar's Goomastah was improper, it is of importance that some definite understanding should exist between the Zemindar and his Ryots regarding the Totacal land, should any

any application be made to you by the Zemindar's Agent in this respect, you will make such arrangement as will be accept-able to both parties, reporting the same for my information.-

Order thereon 4th Ordered that the follow-ing Endorsement be passed on Petition
39-40 No. 64 of 1846.-

"From the explanation afforded by the acting Collector of Chin-gleput on the subject of this Petition, it appears that according to the practice of the district the Mailwaram Grain is made over in the fields. The Ryots are not bound to convey it to the Zemindars godowns - and in default of so doing the utmost which the latter can claim from them is the deduction of an allowance of two Seers per 10 Collums from the share which was enforced on the present occasion. The alleged theft of the grain was enquir-ed into but could not be brought home to any party and the loss is attributable chiefly to the

the Petetioner himself and proceeded from the delay interposed by him in the division of the Crop. It further seems that the Ryots have been required by the Collector to execute a Moochilka in favor of the Zemindar as prescribed by Regulation XXX 1802 - but that as the Meerassidars have not yet fully divided their lands they have been allowed to execute an agreement collectively for the current Fusly. The claim of the Petitioner to assessment on the Totacal lands is the subject of litigation in the Civil Court. but the acting Collector is also making enquiries regarding it, and will give the question due attention".-

The Board see no reasons to pass any orders on this petition. Petitioner appears to have received from the Acting Collector all the support and consideration to which he is entitled.-

43 From the Collr of Salem Reports on the cultivation of Sir, With reference to Extract from the Minutes of Consultation under date the

of the Mauritius Sugar Cane in this District and forwards a Statement relative thereto.-

the 28th July conveyed in Board's Proceedings dated 11th August 1845 directing me to report if Nursery Gardens for Mauritius Sugar cane could not be established in my District, and if so what arrangements I would suggest to give effect to the Establisment. I have the honor to state for the information of the Board, that the cultivation of Mauritius Canes in the Ahtoor & Co Talookes is now much expended, and the Ryots are selling cuttings from their own nursery to other Planters - a portion of the Government garden at Razeepoor has already been cultivated with Mauritius canes from which cuttings are supplied gratis to the Cultivators who apply for them, and having adopted measures to extend it, I think other nursery gardens are not necessary in the District, as a Space of ground in the Government garden at Ahtoor will also be made available for that purpose, and would have been fully planted by this time, had the season been more favorable.-

2 A detailed Report was submitted on the 21st October 1845 regarding the progress which the cultivation of the Mauritius

Fort St George 2nd March 1846

Mauritius Sugar Cane had made in this District from the supply of ratoons received from the Horticultural Society up to 1843. The amount of plants put into the ground in this District for Fusly 1254 as stated in the above report was 135,702, a great portion of which was in some places dried up on account of the failure of the ratoons and in others destroyed by vermin per the produce after these losses amounted to 148,310 Canes of which 73,100 were taken for Sugar and Jaggery, which produced 44 Maunds of the former, and 188 of the latter, some were also sold and used by the poorer class of Ryots, the remainder 45,000 Canes gave 134,000 Seeds at 3 Cuttings per cane, which were all put into the ground in Fusly 1255 Reports have been received from the Talooks that from this crop Jaggery and Sugar are now making in many Villages and a sufficient quantity is also retained for seed which will be planted on the fall of a few Showers of rain. A separate Report will be Submitted after the close of the Fusly on this Subject.

3 The accompanying Statement will exhibit the quantity of Ground occupied in

Fort St George 2nd March 1846

in the cultivation of Mauritius cane in Fusly 1254 together with its Jeerwak and produce as well as the number of plants put into the ground in Fusly 1255. Of the 44 Maunds of Sugar shewn in the Statement 9 was of the best quality made by Mr Martin at Salem and sold at 4 Rupees a Maund, the remainder was manufactured in the Razipoor Jalook of an inferior quality or similar to Jaggery and sold at 1 Rupee per Maund. With the exception of a few employed by Mr Martin, there are no manufacturers of clean grain Sugar to be found in the District, and the Ryots are little desirous of attaining the knowledge of it in consequence of their not being able to get an immediate return or sale for the better sorts of Sugar they prefer making Jaggery and country Sugar of the lowest quality owing to their getting an immediate demand for it at the same time they are desirous of augmenting the cultivation of the Mauritius Canes in consequence of their produce of Jaggery excelling that of the country Canes.

From the Collr of South Arcot
Sibanattengum further report on the transactions of the late Mootah-dar of Vanamadavy Estate with reference to Board's Proceedings of 12th Ultimo.
12th Jany 1846

Sir,

Para 1. With reference to the Proceedings of the Board of Revenue I beg to state, that on calling upon the principal relations of the late Mootadar of Vanamadavy, to render true accounts of the deceased's property and debts due to him, and how far these latter are likely to be realized, his nephew furnished two Statements† which I herewith forward with translations containing all the information required by the Board. -

† Nos 1 & 2

2. I also forward a copy* and translation of a deposition given by Seetarama reddy from which it will be seen that the debt due by the Estate is only Rupees 9,994-15-8 and that on an examination of the accounts the 3rd item Rupees 700 entered in the list does not appear due to any one -

* No 3.

* Sent to Board 3rd Jany 1846.

3. In submitting at the request of the 3rd family a list† shewing the arrears of revenue due to the Estate by the Ryots since Fusly 1250 I have only to remark that there is no prospect of recovering any portion of the same without injury to the Collection of the current Revenue. -

† No 4.

4. In conclusion, I beg to state that Kistna reddy and Venkatapatty reddy, on whom the Estate was originally conferred in 1807 are distant cousins, and the latter is Uncle to the deceased Mootahdar Venkatapatty reddy -

No 3.

Translation of a Deposition given by Seetaram Reddy Nephew of late Tencatapudy reddy Mootadar of Vanamadavey residing at Troomaundacondy dated the 3d February 1846.—

Question. In the account of debts you formerly submitted it is mentioned that Rupees 5,226–3–8 are due to Goonichetty for three Bonds, Rupees 3868–12–0 are due to Sadasiva reddy as per Bond and accounts, and Rupees 700 are due for petty debts—Name the persons to whom the petty debts are due.—

Answer. The sum amounting to Rupees 9094–12 due to Goonichetty and Sadasiva Reddy is correct—with regard to the petty debts amounting to Rupees 700, it has been discovered on examining the accounts, that nothing is due to any one, but stated the amount to be Rupees 700 on a mere guess, without looking properly into the accounts Viswanada reddy of vellenjairy having informed me then, that some money was due to himself. Now it appears after a further examination being made into the accounts, that no debt is due to any person.—

To the Chief Secretary to Government stating with reference to Extract Minutes of Cons. dated 6th Decr last that the Vanamadavy Mootah in the district of South Arcot cannot be regarded in the light of those referred to in paras 20 & 23 of the Honorable Court's despatch of the 11th July 1838 Reporting the circumstances which have led to the default of the deceased proprietor and stating that the Board regret that they cannot advise that the Mootah be placed on behalf of the Minor under the Collector's management.

23 Jan 46 in Cons 6 Dec 1839 in Cons 15 Dec 1845

To The Chief Secretary to Government.

Sir,

1.- I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes of Consultation 6th December last requesting them to state whether the Vanamadavy Mootah in the District of South Arcot is of the Class referred to by the Court of Directors in para 20 - 22 and 73 of their Revenue Dispatch dated 11th July 1838, whether there are any circumstances connected with the default of the deceased Proprietor which call for indulgent consideration from Government; whether the Board can recommend the Mootah being placed under the charge of the Collector and if so what arrangements will be necessary to secure the proper realization of the revenues.-

2.- In reply the Board direct me to state that the original Mootahdars of Vanamadavy were Nattawars or Head Men of certain Villages in South Arcot who enjoyed under the Native Government certain privileges which under the British rule were resumed and an allowance of 5 per Cent on the Net Revenue granted them in lieu. On the formation of the Trevandapooram Mootahs in 1807 these parties were allowed to take the Mootahs without purchase on condition of surrendering their former allowances. Vanamadavy was in this manner conferred upon its first holders Ristna reddy and Venkatapathy reddy by whom it was held until 1819 when it was sold for arrears

arrears of Revenue and purchased by the deceased Mootahdar a Nephew of one of the former joint proprietors - The Mootah cannot be regarded in the light of those referred to in Paras 20 - 23 of the Honorable Court's Despatch as held by mere speculators and non resident proprietors. The Mootahdars seem to have resided on the property and themselves to have taken a share in the cultivation.-

3.- In regard to the circumstances which have led to the default of the deceased proprietor the Collector to whom the Board have applied for information on the point states that the estate has not suffered from drought, inundations or any other calamity of the season during the three preceding years for which the arrears are outstanding. The bariz of the property has not undergone any material diminution and the causes to which the embarrassments of the late proprietor are attributable are partly the obstinate conduct of the ryots in withholding a portion of their Rents and the incompetency of the Mootahdar to manage his Mootah and partly the want of due attention on the part both of Ryots and proprietor to the repair of the Anicut on which the supply of the wet lands of the Villages depends.-

4.- With respect to the propriety of placing the Mootah under charge of the Collector and the Court of Wards it is to be observed that the Collector states that the estate with good management would probably yield a surplus revenue of 1000 Rupees

per

Fort St. George 2d March 1846

per annum after payment of the Government Pish-
=cush Rs. 7273-10-5. At the same time he represents
that of this surplus after defraying the charges
of Collection Rs. 360 the repairs to the works
of irregation 350 Rs. and interest on the outstanding
arrear, nothing will be left for the liquidation
of the Government dues. It is also shewn that the
private debts due on the estate amount to Rs. 9994-
15-8. that to meet this the effects immediately avail-
=able are only see margin Rupees 694-2-6. Further
sums amounting in the aggre-
=gate to Rupees 4529-1-10 might
it is stated be realized if the
debtors were prosecuted in the
Civil Court, but this would in
value the Collector if charged
with the management of the
estate in the conduct of numerous Civil actions
supposing the whole realized, the effects would
still fall short of the private
debts by Rupees 3871-11-4 besides
the arrear due to Government
Rupees 9484-1-1. The
balances due to the Mootahdar from his ryots
are given at Rupees 4954-15-11 but it is observed
that "there is no prospect of recovering any portion
of the same without injury to the Current revenue"
Under these circumstances the Board regret
that they cannot advise that the Mootah be
placed on behalf of the Minor under the
Collector's management.-

Ordered that the following Endorsement be passed on Petitions No 516 of 1846 and No 13 of 1846.

Petitioner cannot be allowed to take credit for the value of the articles alleged to have been supplied by his deceased relative to the Ramnad Palace in Fusly 1242 as a set off against the arrears due on the Paddy contract for Fusly 1252. The two transactions are perfectly distinct Petitioner must pay his balance on the contract. For the sum said to be due to him he must look to the party who may eventually be placed in possession of the Zemindary as heir to the late Rance.

The Principal Collector is requested to furnish some further explanation in regard to the statement made by the late Manager respecting the large balances - Rupees 69383-3-5 and 31454-5 the realization of which is said to have been postponed & stating whether there are such balances and if so their amount the account for which they are due and the reasons why they have not been realized.

Forwarding an application from the inhabitants of Mangalore for the Establishment of a Dispensary and recommending the same for the favorable support of the Board.

I do myself the honor to transmit the accompanying Petition addressed to the Most Noble the Governor by the inhabitants of Mangalore praying for the Establishment of a Dispensary in their Town, and to express my hope that the Board will support the request with their strong recommendation.-

2. The Petition was presented some time back to Mr. Blair. He was prevented from submitting it I imagine, by the press of the business which necessarily fell upon him near the time of his departure to England, as I have reason to believe that he was very favorable to the application.

3. A similar boon it is understood has been granted to Calicut, Salem and other places, in none of which, I feel assured, can a dispensary produce

more benefit than at Mangalore. A considerable proportion of the inhabitants are Native Christians and Portuguese who are very desirous of European medicine and treatment, and will most thankfully accept them if placed within their reach. The Natives generally also both Hindoo and Mussalmans are much freer from prejudice here than on the Coromandel Coast and will not allow the advantages of a Dispensary to be lost on them.-

4 During the past year and at present the want of such an Institution has been deeply felt. Cholera has prevailed to a considerable extent, and small Pox has committed and is still committing awful ravages. There has been no want also of the more ordinary descriptions of Disease.-

5 I trust that these circumstances may procure for the Petition the favorable consideration of Government.

6 The establishment, which I am informed is maintained at Calicut for the purpose

Sir,

I have the honor with reference to your Communication dated 31st January 1846 on the subject of a Dispensary in the Town of Mangalore annexing a Memorandum of the Establishment entertained for the same purpose at Calicut to inform you that I do not considers it possible to keep up an effective Dispensary establishment including a Ward for the purpose of receiving such urgent cases of disease or accidents requiring surgical aid or otherwise under the Establishment mentioned in your Memorandum and Copied in the Margin. and which are extra to the regular sum allowed by Government from House Rent 2d Dresser's Pay and European Medical Officers Remuneration.

House Rent	114	"	"

In addition to those I would beg to suggest that in order to afford due aid and Countenance

Countenance to the Establishment 3 Peons two of whom would be always present might be sanctioned on the premises. The sum necessary incurred for the above extra servants, is the smallest that is compatable with efficiency without which it is vain to enter upon the object great as its importance and use may be to the native Community with any satisfaction to myself or real utility to the Community for whose use it is intended.—

I am directed by the Board of Revenue to request you will submit for the Consideration and orders of the Most Noble the Governor in Council the accompanying letter from the Sub Collector in charge of Canara forwarding an application from the Inhabitants of Mangalore for the Establishment of a Dispensary at that station.—

2 From this Communication it will

will be seen that the want of a Medical Institution of this description is much felt among the people who the Collector states are considerably free from prejudice are not averse to European Medicine and treatment and would most thankfully accept them if placed within their reach.

3 The Dispensary at Calicut is shown to be maintained at a Cost of Rupees 108-8-0 and Mr. Parker encloses Copy of a letter addressed to him by the Zillah Surgeon who gives it as his opinion that a Dispensary equal to the wants of Mangalore cannot be kept up at a smaller charge and recommends an addition of 3 Peons.

4 Under all the Circumstances stated by the Sub Collector in charge the Board beg to recommend that the authority of Government may be granted for the Establishment of the proposed Institution at Mangalore on the same footing as those in the other large Revenue Board's Office

Judges Dty. 5 — 11

I regret to have to report for the information of the Board that the last season was far from being a favorable one. The S. W. Monsoon did not set in till about the end of May, and the fall of rain in that month was only about a fourth of the usual quantity - a circumstance which, in several parts of the District, proved highly injurious to the young plants then on the ground. In June and the five following weeks the fall of rain, though moderate was pretty seasonable, but there was an almost total failure for more than five weeks Commencing from the end of August. the period when rain is required to invigorate and bring into maturity the first Crops the consequence was that the Harvest generally speaking was a scanty one.

June — 10-25
July — 10-70
August — 10-57

The failure of Rain at the period just adverted to, added to the scanty supply of water during the N. E. Monsoon, had an unfavorable effect upon that description of lands from which a crop is raised in January and February and this Harvest also has, from all accounts, fallen much below the average quantity. In short I think it would not be going much beyond the mark to estimate the deficit in the total produce at one third less than the quantity obtainable during an ordinary good season. This falling off in the produce, has naturally

Sowing and transplanting season of the 2d crop Nagarams &c.

naturally raised the price of Grain, the increase varying from 25 to 40 and even 45 per Cent above the Prices which obtained last year.—

I have not at present, reason to apprehend a scarcity or want of Grain for the Consumption of the District, though the high price falls hard upon the poorer classes.

Submitting all necessary information relative to certain land at Veyserpaudy which has been claimed by one T. Soondra Moodelly and which is now in possession of the party to whom it was let in 1838 for Cultivation & under an arrangement entered into with the Circar.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 26th Ultimo relative to certain land at Veyserpaudy claimed by one T. Soondra Moodelly, who is represented to be the Grand son of Nagumenaig Moodelly and with reference to Para 1 to report that under the Agreement entered into in 1838 by Arnachellum Moodelly, he was put in possession of the spot by this Office to cultivate it with Paddy for one year only, it being therein stipulated that the Circar Servants should be present when the

the crops to be raised thereon were to be gathered; that he was to appropriate to his own use a moiety thereof, and to deliver up the other moiety on account of the Malevarum share, that, if he neglected to irrigate &c. the land, he was to make good the estimated loss to the Circar, that, if he stole any part of the Grain, the value of it was to be recovered from him at 12 fanams per Measure; that no vegetable was to be grown without a fresh Agreement, and that in the event of the full amount of arrears being discharged by the Owner before the expiration of the Contract he (Arnachellum Moodelly) was to abide by such orders as the Circar were to give him—

2. The Custom prevailing within the Collectorate is to make the best arrangement under similar Agreements, it being understood that at the expiration of the term of the lease, the right of occupation shall revert to Government, unless the continuance of the Contract be deemed advantageous, in which case on the Contractors further application the renewal of his Agreement becomes necessary, and is authorized—Being merely a tenant the Pyacary Cultivator is bound to resign his occupancy, or, in other words, this Office has

has the power to oust him - Annachella [illegible]
Moodely having been put in possession by the
Collector, he is prepared to relinquish the
further occupation of the land in question in
favor of Government if required so to do, after
the present crops shall have been gathered -

P. 2 3. The Quit Rent bills from 1838 to 1842 were
To 3d 10th Dec 1845 Ps. 8/7. made out in the name of Nagummany Mondelly for
Rupees 52-8-4 each, whereas the Malawaram
To Do Do P 14 share realized instead, from the sale proceeds
of the produce, formed but a small pro-
portion of the annual demand as follows

	Demand	Collection	Balance
For 1838	Rupees 52-8-4	Rupees 5-4-11	Rupees 47-4-4
1839	52-8-4	5-10-7	46-13-9
1840	52-8-4	2-1-3	50-7-1
1841	52-8-4	2-11-11	49-13-4
1842	52-8-4	3-8-11	49-11-4
	262-9-8	19-2-10	243-6-10

4 The sums under the head of "Collection" were alone
credited on account of Quit Rent and the "balance"
was brought under the head of Remission, part of it,
that is the amount outstanding from 1838 to 1840,
having already been written off to profit and
lose under due sanction -

Para 3 5. It is Customary, on a Grant
being transferred from one party to another, and
on

on both or either of them appearing at this office,
with an application for the registry of the transfer
to ascertain its genuineness, and to get the necessary
entry made, in the first instance, on the Grant
and then in the Register of transfers, as it is
from it that the number of the folio and other
particulars are taken for specification in the
Endorsement on the Grant itself. This was done
in the case now under consideration but the usual
Memo in the Register of Grants, which should
have been made afterwards, chiefly for the guidance
of the Quit Rent Department was omitted. This
omission however cannot be held to invalidate
in any degree the transaction for the Officials
cognition of the transfer in October 1841 was
known to the parties more immediately concerned,
although it is evident, that the present claimant
was not fully cognizant of it, as he has but
recently submitted translation of a document
stated to have been executed by T. Cundapah
Gramany in March "1812," which is at variance with
what took place in the previous Year -

6. The entry in the Register of Grants made
lately was only to supply an omission, which has
misled the Quit Rent Department. It was not
at all requisite that on that occasion, the parties
interested in the transfer should have been present.
It would have been extremely irregular to make any
entry

entry on the Grant when they were absent or without their Consent but they had nothing to do with the Correction of a mistake in one of the Books of the Office which may have originated in the carelessness of some Servants who are not now on the Establishment, the Board having observed in their Proceedings dated 19th July 1838 that "it is competent to the Collector on his own discretion and responsibility to rectify "similar petty errors of this nature that may hereafter come to notice without referring to superior authority"

Read again the following correspondence which has passed between the Collector of Madras and this Office regarding the claims set forth in Petition No 1468 by T. Soondra Moodeliar to certain lands in Veyserpaudy—

(61-62)

Proceedings thereon.

(Here enter 92 of 1845 & 12 of 1846)

It will be seen from the above that the land in question originally belonged to the late Nagummany Moodeliar the Grandfather of the Petitioner but having been left uncultivated for a long period of years the Government demand accruing thereon was cancelled subsequently in the year 1838 an offer from Arnachellum Moodeliar to bring the land under cultivation having been accepted it was made over to him in the absence of any proprietary claimant appearing

Informing the Collector of Madras that the Board are of opinion that the Claims of T. Soondra Mg to certain lands in Veyserpaudy are inadmissible and stating that the continued occupancy of the Lands by Arnachella Mg should not be interfered with until it is finally determined

Determining who should be recognized as the Proprietor of the Land—

appearing on the usual Pycarie conditions obtaining in the Collectorate and from that date Quit Rent bills were issued in the name of the original proprietor, Government receiving merely the mahomedan Share of the produce of the land from the recent occupant— Matters continued in this state until the year 1843 when the Petitioner discovering that the Quit Rent Bills for the land were issued in his Grandfathers name, who was then dead, applied for a reduction of the demand and voluntarily came forward and discharged the reduced amount for 1843 and 1844—

In the early part of the latter year one Jno Desilva made an application to the Collector to have the land in question placed in his possession, on the plea that he holds the original grant as the Mortgagee from P. Cundapah Grammany— On enquiry being made into these pretensions it appeared that an endorsement on the Grant indicated that the proprietorship of the land had been assigned over by Naganany Moodeliar to P. Cundapah Granny in the year 1811 and a further reference to the records of the Office also proved that the transfer had been duly registered by Jno Ellis the then Collector whose signature was moreover

moreover attached to the entry in the Grant itself a corresponding entry being at the same time made in the Register of Transfers but omitted thro oversight in the Register of Grants this omission however is explained to have invalidated in no degree the legality of the transaction being in fact a mere office memorandum which it was competent to the Collector at any future period to supply and which has since been done for the guidance of the Quit Rent Department of the office.—

3. It will hence appear from what has been above stated that the interest of the original owner in the land ceased as far back as the year 1811 when the transfer was made by him in favour of Cundapak Grammany, any claim therefore which the Petitioner may consider himself to have to the possession of the land, on the score of hereditary succession, falls to the ground, and moreover as the Grant itself is not in his keeping but shows a duly registered transfer to another party, and adverting also to the fact that the land itself has never been held by him the Board are clearly of opinion that his claims to have the land made over to him are inadmissible, and in the present stage of the proceedings they see no reason to interfere with the continued occupancy of the land by Arnachellum Irodeliar on the usual Pycarry tenure, until it is finally determined who should be recognized as the Proprietor of the land in

question. Ordered accordingly that the following Endorsement on Petition No. 11.68 of 1845 from the Sondra Irodeliar be recorded thereon.

The Board of Revenue having referred the address of the Petitioner for the report of the Collector of Madras, are informed, that the land in Veyserpaudy which he prays may be placed in his possession was assigned over by the late Nagamany Irodeliar in the year 1811 by a duly registered transfer to another party, and that since the date of that transaction it has never been in his possession under these circumstances therefore the Board cannot interfere in his behalf.—

As the period of Six Months have expired without Government passing any orders upon your report, Soom Kistnamah a pauper, Moved the Court by Petition, for issuing a warrant against me, and the Court of Principal Sudr Ameen accordingly issued two warrants against me on the 28th January 1846. Viz. one for a sum of Rupees 17,304 the amount of the Decree in Suit No. 1 of 1844 and another for Rupees 1019 the amount of Stamps duty and other costs of the said Suit.

I therefore beg leave to state that the Government with the view to uphold our Talooks and ourselves having nominated you as Commissioner, the warrants against us were stayed and we lived happily in the hope that we would be restored in possession of our Talooks. Now the Courts having issued warrants against me, I fear that

Submitting a report on the nature of the past season as affecting the harvest and the present condition and prospects of the Ganjam District as required by Circular Letter of the 31st January 1846.

1. In conformity with the directions contained in your Circular letter of the 31st Ultimo, I have the honor to furnish a report on the nature of the past season, as affecting the harvest, and the present condition and prospects of the Ganjam District. Having only resumed my duties here at the end of the Month of November last, what has to be stated in regard to the season previous to that period, is necessarily derived from the reports made from time to

to

to time by the local officers, and other record-
ed data, as well as from authentic informa-
tion from other Sources.

2.-

Agricultural operations generally commence in this District, in the Month of May, during which heavy showers usually fall, allowing of the early dry grains and the paddy seed intended for transplantation, being sown, but during the past year there was an entire failure of the early showers, that commonly precede the opening of the South west Monsoon, and the ryots were unable to commence cultivating until the Month of June, during which the supply of rain that fell was but scanty, and partial. Both the dry and wet lands were however ploughed nearly to the customary extent, but owing to the deficiency of Paddy plants ready for transplantation a larger proportion than usual of the seed was sown broad cast, as is the practice in this District, where the crop depends on the Falling rains. In the following months of July when an ample and continued supply of water is essential to the growth of the young

young plants no rain whatever fell, and a great deal of the Paddy cultivated in fields on the higher levels, was altogether dried up and destroyed. During August there was an abundant fall of rain, which enabled the ryots to plant out a good deal of land a second time, in the hope of the latter part of the season proving more favorable, unfortunately in September no rain fell throughout the District, and great loss was sustained in consequence in every Talooke "and Zemindary." During October there were partial showers, but they came too late to save much of the growing plant, which had attained to that state of forwardness, when a deficiency of water, for a short time even, proves fatal to the hopes of the harvest. There was nearly a total failure of the rains of the North East Monsoon, on this part of the Coast, none whatever having fallen from the last week in October up to the end of January, and the consequence has been that, altho in some favored situations the produce is tolerably abundant, the out turn of the rice

rice harvest throughout Ganjam, it is believed, will not be much more than half of an average crop; the produce of the dry grain crops is considered to be on the whole a little more favorable, but not to equal two thirds of an average crop.

3. The following details will indicate, in a general way, the effects of the late season in the different Talooks and Zemindaries. The Madadah Talook situated at its southern extremity is better irrigated than any other part of the Ganjam District, its Western Division, being supplied by a number of Channels issuing from the Nangala and Munsadrah rivers, across which temporary dams are raised for the purpose of directing the streams to these water courses. These rivers filled from the rains in the Month of June, and the cultivation was carried on nearly to the extent customary, but the deficiency of the rains at a subsequent period greatly reducing the volume of water in the rivers, the fields on the higher levels were dried up. Those more favorably

favorably situated have yielded a fair crop. In the Western Division where the Tanks are small and depend on the rains, the destruction of crops has been more considerable. The Proprietory Estates to the Southward, which are irrigated by a Channel from the Vamsadra are also represented to have yielded fair crops. The dry grain crops of the lands of the Mundasah, Khurlah and Peckaly Zemindaries lying near the Hills, are understood to have afforded nearly an average produce, but the rice crops have extensively suffered. In the Zemindaries of Jalantrah, Soorunghee and Chicacutty the dry crops of the lands situated near the Hills and the Wet lands irrigated from small reservoirs fed by mountain streams, have produced about two thirds of an average crop, but in the villages whose tanks derive their supply of water from the rains and the drainage of the Country, there is a great failure in the rice crop.

4. In the Itchapore Talook the villages that receive the first supply of water from the Baboda River, have yielded a fair Crop, but in the Muntreddy Purgunah, of which the Tanks did not obtain

obtain a quarter of the needful supply of water, the loss from the diminished extent of land under cultivation and the destruction of crops, is ascertained to have been great. The Poibcondah Taloob is very deficient in natural, or artificial means of irrigation, a considerable portion of its lands being entirely dependent on the rains and the drainage of the Country. The principal villages of the Zemindaum Pungunah however are supplied from a fine natural reservoir of great extent named the Coratola Tumparah, which receives the water of the Godakadah River, having its source in the Mountains to the west. This reservoir was improved by the construction of a calingalah at the recommendation of the late Civil Engineer, and last year the valuable lands under it produced good crops, while on the other hand the villages of the Seetarampore, Nursingapoor, Sekary and Conchoor divisions suffered to a great extent. The Poochecoolah River which flows thro' this Taloob and falls into the Sea at Ganjam, I am assured, did not fill at all, throughout

throughout the season, and inconvenience from the channels branching off from it, afforded a very inadequate supply of water. The extent of land left altogether waste, and of the crop destroyed is found, under such circumstances to be very considerable.

In the Mohurry Zemindary

5.

there are no rivers or channels of supply, and with the exception of the lands irrigated from Tanks fed by small streams from the Hills, the paddy cultivation has suffered considerably, more particularly in the Ghaut parts of the Vizianagrum and Pratapagherry Zemindaries situated in the small Vallies between the Hills, yielded a tolerable return but in many villages a great deal of land was left uncultivated, or yielded a very scanty produce from the effects of drought. The same remarks apply to the Zemindary of Hauty Nur. The rice crops in the Zemindary of Daracotta, Seeghur and Soradah, have from like causes been very deficient.

There are no large Tanks

in the Goomsoor Zemindary, and although the Mahanuddy and Hurrabhandy rivers flow

flow through it, the means of irrigation are extremely deficient, and a great proportion of the rice crop depends for coming to maturity on the falling rains or uncertain supplies of water from small mountain rills &c. In consequence of the very insufficient quantity of rain that fell, as above stated, throughout the season, and the large proportion of the crop in Gurramcondah, dependent on this precarious means of irrigation, the failure of the harvest in that Zemindary is likely to prove more general and extensive, than in any other part of this District. In consequence of the deficiency of the harvest here combined with the demand for grain in the Districts to the South, the prices of all kinds of produce have rapidly risen and are now &c higher than they have been for several years. But notwithstanding the advance of price, a considerable quantity of Paddy and rice has been exported from this District within the last three Months chiefly to Madras, and a number of Native Vessels are now loading for the same destination. Had it not been that the

the last fasli of former have compensated to a considerable extent for the deficiency of crops, there must have been a serious reduction in the revenue of the current fasli, but the collections up to this time are nearly equal to those of last year, and I do not anticipate that the result of the settlement and collections of the current fasli will exhibit any material decrease compared with the standard of previous years.

To J. Sycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George.

Sir,

9 From C. Mabbly Esqre. Acting Collector of Chingleput

Reporting on the present condition of the Chingleput District, & respectfully state if Tanks, Cuttrys &c

Para 1. In accordance with the instructions conveyed in the 1st Para of your letter of the 3rd Instant, I have the honor to state for the information of the Board of Revenue that the S. W. Monsoon in August and September passed over very lightly, and that the rain which fell during the N. E. Monsoon was also scanty and partial. The season has thus been decidedly unfavorable though not in an equal degree throughout the District. The want of rain has been most

2. felt in the Northern and inland Talooks, as in stances of which I would mention that the Palar, Cortallar and Cheyar Rivers had only slight freshes for one day, and the large Chembrumbaukum

Fort St. George 5th March 1846.

Chembrumbaukum Tank watering 59 villages received only 2 Months supply, while the Tennary Tank which irrigates 92 villages received only a small addition to the water which remained last year.

3. The villages situated near the coast especially in the Southern Taloohs benefitted by heavier showers during the N.E. Monsoon, and their Tanks received half, and in some instances three fourths of their usual supply. The large Tanks at Madrantacum and Chinglepat contain a sufficient supply of water though much of this remained from the preceding year.

These circumstances of the season

4. have affected the cultivation in the following manner.

Total land cultivated in Fasly 1254 - 39,360 Cs.
D.o D.o in 1255 of 63 d. D.o } 36,328
Decrease. 2032.

The dry cultivation which in this District is of small extent is almost equal to that of last year, and the crops being occasionally refreshed by showers may be said to have yielded nearly an average produce. The bajra and ragie sown early in the year failed in many places, but the harak or Waragoo being refreshed by occasional showers came to maturity and will be of important use in mitigating distress for subsistence among the poorer class of cultivators.

Total land cultivated in Fasly 1254 - 44,538 Cs.
D.o D.o in 1255 up to 63 d. D.o } 7898
Decrease - - 36,557

5. The Nunjah cultivation has suffered to a considerable degree. The land sown this year is nearly one third less than in the preceding season and of this much has failed. It must be added that as the Tanks are generally empty the circumstances of the season cannot be expected to be retrieved by an extended Navary cultivation, and the total rice produce will hardly reach one half of the preceding year.

This unfavorable state of the season joined

6. to the small stock of grain which remained on hand and a cessation in the importation of grain from the Western Markets have raised prices considerably and made them reach the height shown in the Statement forwarded by me on the 12th Instant.

The failure of rain led to a rise in Prices, but in consequence of a more favorable state of the Season in the neighbouring Districts and of importations of Grain from these, particularly from Ganjam, Prices did not attain the level of former years-

Omitting the 5 Villages which became the property of Government during Fusly 1253 / 1843/44, as those cannot properly enter into the comparison, the assessment of Land taken up during the year under review was Rupees 5958-1-, below that of the preceding year, which last exhibited a decrease of Rupees 10961-11-4 below Fusly 1252 and the difference again between

Decrease

Fusslies 1251 / 1841/42 and 1252 / 1842/43 was Rupees 8418-3- against the last mentioned year. This continued falling off is partly owing to fluctuations of seasons but as observed by the Board on a former occasion it is desirable that the Collector should ascertain whether this apparent contraction in the means of the Ryots is real or fictitious, and in the former case to what causes it is owing- It is seen / Para 10/ that Land assessed at Rupees 6281-10-9 was relinquished in Palcondah, Golcondah and Kurvasiddy, ostensibly in consequence of the Poverty or desertion of the occupants but as previously relinquished Lands assessed at Rupees 405-4-15-5 was again taken up

up in Polesndah and Goleondah during the year under review the Board are led to infer that the extent of Land which would really fall under the head of poverty and desertion will be found to be inconsiderable and that as in some other Districts the practice prevails of relinquishing land in order that it may remain fallow for one or more years.

4. Remissions to a great extent amounting to Rupees 105,947-"-4 were allowed. Nearly the whole of this sum is composed of Remissions for failure of crops and land left uncultivated. Mr Arbuthnot considered this large abatement of the Revenue called for by the circumstances of the season and is firmly persuaded that if they were not allowed to so great an extent the Ryots in the Government Estates, or at any rate the large portion which occupy the land bearing too high an assessment, would soon desert to the neighbouring Zemindaries and Proprietary Estates.

5 Remission in many cases is not altogether for what is strictly termed a failure of the Crop but is an adjustment

adjustment with the Ryot to make up for the difference between the "too high an assessment" at which the land he occupies is rated and the actual out-turn of the year. The Board have deprecated this annual adjustment of what should be defined in a Ryotwar Taluk. Their reasons were fully expressed in Paras. 7-8-9 and 10 of their Proceedings on the Settlement of the District for Fasly 1252 / 1842/43. It does not occur to them with reference to the Remarks of the Collector in his present Report that a reduction once for all of the "nominal list of the different fields" confessedly too high and requiring annual adjustment is likely to be followed "by a considerable loss of Revenue and no proportionate advantage" even supposing the revision of the Assessment to be Carried to the extent of equalization by raising the rates of the lowly assessed Lands.

in each successive year for some time past. in the Government Estates of Vizagapatam without any prospect of amelioration held forth. the Board would press the subject on the consideration of the present Acting Collector and they desire that his sentiments both as regards the assessment of the component parts of an Estimate as well as the relative rights of the several individuals occupying it may be fully reported in a separate communication. In the mean time as difficulties have been raised by the late Collector it is not the wish of the Board that any change shall be made in the usual mode of Settlement till their final orders shall have been given. The Board would Remark for guidance of the Acting Collector in the future consideration of this subject that the assessment on the more favored portions of an Estimate may be in some cases relatively low it may not be so absolutely. Assuming such to be the case or that the assessment is considerable, it is obvious that such remission as is required may be easily effected.

9 The Collections within the Fusly in the Government Estates amounted to Rupees 2,12,845-6-3. Subsequently Rupees 2044-5-7 having been realized there is an outstanding balance on account of Fusly $\frac{12\,5\text{-}4}{1244/45}$ of Rupees 6,15-6-12-4 which is large considering that Remissions were made with a liberal hand and that the Price of Grain was high. This result combined with the diminution of cultivation during the last three years, gives an unfavorable impression of the condition of a Country the physical features of which amply provide for the demands of the irrigation advantages which if rightly turned to account should rather ensure an improved condition of the People with a progressively increasing revenue.

dated 22d May 1845 Minutes of Cons. 22d July 1845 Para 14 infm. 6th October.

14 It is proper to remark with reference to the observations of the Most Noble the Governor in Council relative to the survey sanctioned for the Government Estates in Vizagapatam that Mr. Arbuthnot submitted on the 19th November 1840 for the consideration of the Board the instructions which he proposed to issue to the Surveyors to be entertained for the work. The Board did not pass any orders on this communication and as nothing can now be done till a system of Survey and Assessment for the Northern Division generally has been laid down.

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Collector of Vizagapatam for his information and guidance.

Proceedings thereon.-

The Kaperedy property in Masulipatam is composed of 10 separate Estates and comprize 185 Villages including Mocharas and Agraharums. The system of rents for long periods as pursued in the Government Estates of the District is advocated by Mr. Porter as the fairest mode of settlement for the Estates under consideration.

These Estates having been recently attached the attention is drawn 1st to the arrangements which it is proper to make at first with reference to present circumstances and 2d the adoption of such a system for the future as shall be best adopted for the development of the resources of this important property.-

The management of these Estates was confided to the Proprietor Kaperedy Ramanadahauboo about 8 years ago under a persuasion that as Proprietor he

would be directly interested in their improvement and thus ensure eventually the liquidation of the Government demand against them. The result of 8 years shows how these expectations have not been realized. The annual Peishcush payable by these Estates is Rupees 14,2201-8-. the average Collections of the managing Proprietor during the period of his incumbency ending with Fusly $\frac{1253}{1843/44}$ has been ostensibly only Rupees 63,477-12-. while the dist of Fusly 1254 under the Collector, altho' the season was far advanced when the attachment was made, is Rupees 86,499-12-6 and the estimated list for Fusly $\frac{1255}{1845/46}$ is Rupees 124,625-9-. The Collector has not in his present letter entered into any details explanatory of the system of Management pursued by Ramanadahaboo as bearing on this deterioration of the Revenue he will however be pleased to enter fully into the subject in the special report which he has been called upon to furnish under the orders noted in the Margin.

5. In regard to prospective measures it appears that Rents for long periods have been entered into and in the case of the Renoogunchepole and Palaiole Purgunahs the Renters have requested that their offers might be confirmed within 3 Months from the date of the Settlement or that the offers separately given in by them for Fusly $\frac{1255}{1845/46}$ should be accepted. The amount of Settled Rents for Fusly $\frac{1255}{1845-46}$ assuming that year as the first of the guinquennial series is Rupees 21877- and the amount of the separate tenders for the same year in the event of the guinquennial offers not being confirmed, is Rupees 20799- the difference is inconsiderable, and not to be placed in the scale against approved principles of Settlement.

The Collector will not fail
to observe that the last

a Revenue not only falling

the average Revenue of former years. The

Fusly $\frac{1253}{1843/44}$ and in conjunction with the
amount of the Rents effected in other Villages
under the orders of Ramanada baboo, noticed
by the Collector in Paras 14 & 15 of his
letter under consideration, shews how
greatly the confidence which had been
reposed in Ramanada baboo's management
was misplaced.

9 The objections noticed in
the preceding paras to the leases reported
by

by the Collector have reference chiefly to the small amount of Revenue, which the Government are led to expect at the termination of the period of rent, but weightier reasons exist for the rejection of the offers - founded on the Principle on which the rents are based. In their present shape they are opposed to the orders of the Board for Joint Rents in which the holding and rent to be paid by each individual are to be clearly defined. - Experience also has shewn that Rents contracted with one or two individuals of a Village as with strangers, have always ended in results disastrous to the Revenue and the great body of the Ryots - For these reasons the Board are precluded from giving their sanction to the leases reported by the Collector. They observe however that the measures he has adopted for the security of the Revenue for the current Fusly 1255 A.D. 1845/46. appear to be judicious and in withholding their confirmation of the rents generally, it is not to be understood that their objections apply to the arrangements of the Collector for the current year - From the ensuing year

Fusly.

Fusly 1256 / 1846/47 it is the wish of the Board that arrangements should be made in conformity with the instructions conveyed in Extract from their Proceedings under date 11th September 1845 - It is proper to add that where the individual holding and rent imposed on such holding are clearly defined much advantage is to be expected from terms stipulating for a progressively increasing rent for 3 or 5 years, as a stimulus is afforded to the Industry of the individual Ryots and his payments to Government will be proportioned to his growing means - An arrangement of this description is particularly adapted to a District in a depressed condition like Masulipatam, having a fair proportion of agricultural resources and requiring only sound fiscal measures for their development. -

Ordered that Copy of these Proceedings be transmitted to the Collector of Masulipatam for his information and guidance. -

Also that copy be - submitted to Government with reference to Extract from Minutes of consultation

Sir.

1 I have the honor to acknowledge the receipt on the 16th Instant of an Extract from the Board's Proceedings with another from the Minutes of Consultation conveying the orders of Government to sell pro-forma the Zemindaries of this Circar.

2 Immediately I sent for the three Zemindars and the Vakeels of the Mahrauze and Chilkaloorpaud Proprietors, who being females do not attend in person. The Vakeel of Mahrauze Lutchmah attended the same day, and the Zemindar Mannoor Venkata Gopaul row of Suttenapully and Vaseredy Ramanada Baboo were present in the course of yesterday. I explained to them fully the reasons which have induced the Government to order the sale of the Estate and assured them that this measure will in no wise interfere with the conditions on which their Sunnuds were surrendered. They expressed

expressed themselves satisfied with this assurance and made no further objections to the measure than that they had reason to fear their Creditors now despairing of a compromise would sue out Warrants for the attachment of their personal effects or even of their persons. I explained to them that they were at present equally liable to the same inconvenience, but that I would lose no time in applying to the Board for instructions as to the course to be taken if Warrants for their persons should be issued. Ramanadaha Baboo stated that Peons from the Zillah Court arrived yesterday morning at his residence Amaravaty charged with a Warrant to attach his effects. I shall be glad if the Board will instruct me as to whether any or what steps can be taken to protect the Zemindars from the operation of such Warrants and especially from imprisonment

3 As neither the Reypilly Zemindar nor Chilkaloorpaud Vakeels arrived up to a late hour last night and I could not without much hindrance longer delay my departure

for

Fort St. George 5th March 1846.

for the Poland which had been arranged for Monday last I requested Mr. Newill to make the necessary communication to those parties as soon as they arrived.

4 Written demands as prescribed in the Regulation quoted by the Board have been issued to the five Zemindars. Those on Ramanada Bahoo and the Sattawa=pully Zemindar were served yesterday. The others have been sent to the respective residences of the Zemindars; but as the Estates are already under attachment under the same section it does not appear to me necessary to delay the advertisements of sale until the serving of the demands has been reported.

5. In Telugoo

Accordingly I now send five Advertisements in the usual form in Telugoo only. It has not been customary in this zillah to publish them in Persian also; but if the Board think this should now be done to be in strict conformity with the law I beg that Persian copies may be prepared at Madras. I have no means of getting them made here. The 1st of April is the date fixed for the sale.

6 As the Zemindars with whom

Fort St. George 5th March 1846

whom I have yet communicated did not press for an assurance in writting. I have not thought it necessary to give it them.

To the Collector of Guntoor

To The Collector in the Zillah of Guntoor

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 18th Ultimo forwarding for publication five Advertisements of the sale of the Guntoor Zemindaries. The Advertisements have been published in this Office in Telugoo and English Persian having long ceased to be an official Language their translation into that tongue seems unnecessary.

The day fixed for the sale is approved.

2. The Board are pleased to find that you have fully satisfied the Vasareddy, Suttanapully and Mulrauze Zemindars as to the reasons which

Informing him that the Advertisements forwarded by him for the sale of the Guntoor Zemindaries have been published in the Board's Office and stating that it is left at his discretion to attach the personal effects of the Zemindars on behalf of Govt. to prevent their being seized by private parties.

which have induced Government to resort to the sale of the Estates, and trust that you will be equally successful with the remaining Zemindars of Chilkaloorpaud and Reypilly. As the Zemindars seem content with your verbal assurances, the Board agree with you that it is unnecessary to repeat those assurances in writing.—

3. The Board regret to learn that Warrants against the personal property or even the persons of the Zemindars may possibly be sued out by their Creditors. As regards precess against their personal effects as on the insufficiency of the landed Estate to satisfy the public demand / which is clearly the case in the present instance / the Government have also a claim on the personal property - it will be at your discretion should you think it advisable, to attach the personal effects of the Zemindars on behalf of the Government and thus prevent their being seized by private parties - but this the Board leave to your judgment - If the Creditors threaten to have recourse to precess against

against the persons of the expropriators the Board are not aware that you can interpose further than by exerting your influence as far as possible, with the parties likely to resort to the measure and by pointing out to them the utter inutility of such procedure and the certainty that it will in no wise induce the Government to settle their claims - The Board feel assured that you will do all that may thus be in your power to save the Zemindars from such mortification.—

it will be perceived, that the Shrotriem in question was granted by a Nawab of Adoni Mohobut Jung in the year 1790. to one Rahool Ameen Shah and after his death passed to his Disciple and successor Fysully Shah — This latter individual died 16th April 1836 having previously by a Hibbanamah or will executed in 1832 divised the Village to one Cawder Ameen Shah a relation of the original grantee Rahool Ameen — On the death of Fysully Shah — disputes arose in regard to the succession to the Shrotriem, and it was in consequence attached by the Principal Collector and held under sequestration until the year 1840, when the several claimants appeared to

3. On the 9th August 1844 the Collector again addressed the Board on the subject of the Village, he stated that the parties who had at first waived their pretensions in favor of Cauder Ameen Shah, had subsequently retracted their engagement - he enclosed a Memorandum reporting on the merits of the several claims advanced, he

continued by another Nawab in Hijree 1211- In both of these the Shrotriem was stated to have been given "as gemiah for daily Consumption for the expenses of the grantee"- and in neither was mention made of any Durgah or religious institution as dependent on the grant- On referring to Mr. Collector Chaplin's register of Enams it was also found that the Shrotriem was simply stated to have been conferred by Mohabut Jung on Rahool Ameen but without specification of the object of the grant- Under these circumstances the Board called upon the Collector for explanation as to the reasons which had induced him to consider the Village as having been bestowed in endowment of the Durgah at Adonie and requested him to state at what time and by whom the Durgah was founded- in what manner its expenses had hitherto been defrayed, for what length of time the proceeds of the Shrotriem had been applied to its maintenance and whether the Durgah were provided with any other endowment.—

From Coll. 9th Feby 1846-

Mr. Mellor therefore submits it as his opinion that the Jaghire should be considered as an alienation for the support of Ebram shah's Durgah and be managed on behalf of it by the party Cawder Ameen Shah now in charge of the institution under the control of the Mahomedan Community of Adonie.—

The ceremonies called "Wooroos" at the tomb of a Saint and distribution of alms appear to have formed part of the general expenses of the original grantee, but this circumstance will not affect the terms of the Grant - The present case is parallel with that of Sid Abdul Latuf Cauzy of North Arcot, to whom a reduced allowance of Rupees 100 per Mensem was given only

Adverting to the reduced Grant in the case above quoted, and to the circumstance that Cauder Ameen Shaw, one of the present claimants, has incurred certain expences on account of "Wooroos" at the Pond in question, I would suggest that Rupees 200 per Annum may be granted to that individual for his life only, but retrospectively from the date of the sequestration of the Village of Kaditotum, which should now be finally resumed—

Vide M. Cons 19th June 1845—

it is seen that the amount proceeds in Deposit since the date of sequestration to 31st January last is Rupees 4,342-10-3. The average proceeds of rent for 7 years is Pagodas 136-28-61—

From the Collr of Cuddapah. Dated 27th Feby 1846. Recd 2d Mar. Para.

Sir,

In reply to your letter of the 29th Ultimo directing me to report on the subject of the accompanying Petition No. 187 of 1846. I have the honor to state that I ordered the attachment of the lands in question to put a stop to the virulent disputes between the Parties which led to repeated serious affrays and assaults; both Parties being supported by different factions under the instigation of two influential merchants in the place at rivalry with each other. One of whom has since died.

2. The Petitioner Pedda Poolareddy is a boy of 8 years old, and on the death of his uncle Peddubly 3 years ago the Puttah instead of being continued in the name of the widow of the deceased Viz. Soobluckbar was granted by the Head Assistant to the Petitioner which led to Saums being preferred by the friends of Chinna Poolla Reddy also a boy

of

of 6 years of age both Parties being cousins of an undivided family. Dissensions have arisen among the members of the family since the death of Peddubby and their disputes as to the division of the family property have not yet been adjusted. Chinna Polla reddy died 7 months ago but his mother claims a share of the Puttah lands as well as of the Property - and under all circumstances I thought it advisable to adopt the measures I did until the Parties settled their differences in a Civil Suit.

3.

The Talukdar ought not to have collected from the Petitioner the assessment on the lands - these, which are rather highly assessed, having been cultivated by Ryots, who according to agreement have paid the Junum after the usual remissions being deducted - (this arrangement having been made to guard against loss to Government consequent on the attachment of the lands) the amount paid on account of the assessment Petitioner I have directed to be refunded to him -

Proceedings thereon

(25-26)

It does not appear to the Board that the disputes between these parties furnished any reason for the attachment of the land. Their differences might have been settled among themselves or by Civil process, and any breach of the peace would of course be punishable by the Magistrate. On the death of Peddubby Reddy, Puttah should not have been granted in the name of the party, whether Minor or Nephew of the deceased, who by the Customs of the District was entitled to succeed. The same party should also have been held responsible for the agreement. If the decision of the Head Assistant in this respect was incorrect it might have been rectified. The parties actually in possession should have been maintained in it until ejected by a decree of Court. The Acting Collector will be at liberty to adopt early measures for settling the matter on the above principle. If he continues to hold the land under attachment he will render himself liable to a Civil Action.

I am directed by the Board of Revenue to acknowledge the receipt of your predecessor's letter of the 19th August 1846 reporting on the balances of Land and Extra revenue in his District outstanding from 1244 to 1251 inclusive

To the Ag. Coll. of Chingleput

Requesting further information regarding the balances of land and Extra Revenue in his Distrust outstanding from fusly 1245 to 1251.

The balances due on account of those years at the date of Mr Irvine's letter were Rupees 26,388-14-2. of which Rupees 1880-12-3 were stated to be recoverable and Rupees 24,508-1-11 to be irrecoverable, and the latter sum was therefore recommended to

to be written off in the accounts. The Board wish to be informed whether any, and if so what portion of the above sums stated to be recoverable, and irrecoverable respectively has since been realized. They also request that as respects that portion of those balances still outstanding which is not likely to be of easy adjustment you will furnish two Statements one shewing those balances which may be at once recommended for remission. the other those the disposal of which will probably give rise to delay and discussion.

3. In enclosure A in the Collector's letter arrears for five years from Fusly 1244 to 1248 both inclusive at Rs 3 / 1 in all Rupees 215—2—11, are charged against Veera-sawmy Iyen's Garden. no corresponding entry appears in Statement B or from the years 1249-50—51. The Board beg that the cause of the omission may be explained that it may be stated whether the demand for those years is also outstanding. and whether the representatives of the deceased have come or are likely to come to any arrangement. You will further be so good as to report upon the balances against the Chinglepattern Garden and to inform the Board whether these have been realized wholly or in part. as also why the rent on the Garden given for each of the years 1248 and 1249 at Rupees 52—1 is stated to be for Fusly 1250 Rupees 84-9 and for 1251 Rupees 98—5—2.

result of the Management of the past Fusly exhibits an increase of Rupees 574—11—7. in Comparison with the preceding year and a Surplus of Rupees 504—5—2. above the Peishcush. This increased Collection arose from an extension of the Nunjah Cultivation and more particularly from the high price at which the mailwarum share of the produce was sold, it having been retained for a short

short time in anticipation of an improvement in the Market.

3. The decrease in the Punjey cultivation was caused by a want of rain in the Months when this Cultivation is undertaken, and the ready money Collections were less than in the preceding year, inconsequence of lower offers having been made for the supply of firewood is becoming limited.

4. Out of the total Sum Collected on account of the Demand of fusly 1254 of Rupees 2,888. 3—11. the Sum of Rupees 2,812. 4—6. has been disbursed on account of Peishcush, Maintenance, Sibbandy Charges &c. and the remainder Rupees 75—2—5 has been credited on account of the balance of Peishcush due for fusly 1253.

The

5. The small outstanding arrears shewn in the Margin, and entered in Col. 16. of the Statement **B** will be soon realized.

Proceedings thereon.

Relative to the Management of the Minor Estate of Vulla: vottah in the District of Chingleput under the guardianship of the Court of Wards.

The Court are glad to learn from the present report that the Management of this Moottah during the past fusly (1254) has been attended with more satisfactory results than exhibited during any of the preceding years during which the Estate had been held under Wardship. No change was introduced in the system of management which was the same that previously obtained under the late owner, and the increase arose from the extension of the Nunjah cultivation during the year under consideration and also from favorable rate at which the Mailwarum share of the crops was disposed of after having been judiciously kept in hand in expectation of a rise in the Market.

2. The Demand for fusly 1254 amounted to Rupees 2,926 14 8 exceeding that of the prior fusly by 2 1/2 per cent and was above the annual Peishcush to which the Estate is liable by 504 5 2. Of the Demand

The current balance of Demand against the Ryots amounting to 38 16 9. together with the similar of the past year it is stated will be shortly realized.

The Balance of Peish: cush still due in arrear is shewn in Colr. 15 of Enclosed Statement B to amount to 1115. — 4, having accrued chiefly since the com: : mencement of the Court of Ward's Manage: : ment in fusly 1251.

In the report upon the past year the Collector observed that he conceived there would be difficulty in realizing from this Estate the full — : amount of Peishcush except in favorable years, in the present instance however it would — appear.

appear that there had been a slight decrease both in the Punjey cultivation from want of rain, and in the Money rent as noted in the Margin the increase arising entirely from the Nunjah produce, by due attention to the sources of irrigation and active general supervision over the acts of the Manager and the affairs of the Estate, the Court are led to hope that the property will eventually free itself of the encumbrances now attached to it and revert to the proprietor on attainment of his majority in prosperous condition.

Sir

Para 1.

I have the honor to acknowledge Extract from the proceedings of the Board of Revenue dated the 19th. Instant — directing me to report what steps I have taken to check the facility with which Colo: nel Jones complains that the 57th. Regiment under his command obtain — liquor from the native venders in the neighbourhood of Poonamalee.

Reporting the measures taken to prevent the Men of H. M. 57th. Regt: ment under Colonel Jones' command — obtaining liquor from — Native Venders at Poonamallee

I beg to observe in the first place, that no new shops have been allowed this year either before or since the arrival of the — Regiment, and that as the list of places for licensed shops was prepared before tenders were in: vited for the contract in July last, the number of shops could not now be reduced without the consent of the contractor

contractor. But it seems to me doubtful whether it would be advisable to alter the present arrangements as the shops are too few for much benefit to be expected from a reduction in their number, and the stay of the Regiment is not, I understand, likely to be of long continuance.—

I propose therefore to check 3.
the evil by a vigilant watch over the Shop: keepers, and for this purpose have sent — strict orders to the Tahsildar, and given him additional means of control. At the same time I regret that the State of the law — (Regulation I of 1820) offers difficulties by preventing the effect which prompt punish: ment would have in checking offences of the description now complained of. The powers of the Magistracy have been increased in more important cases but the offence of selling liquor to an European soldier is one of those which still remain punishable only by the Criminal Court, and the necessity of — sending parties for trial to Chingleput not

Fort St. George 5th March 1846.

not only produces delay but takes the police away from their duties, and makes witnesses reluctant to come forward when they thus entail on themselves considerable inconvenience.

The offenders in the instance mentioned by Colonel Jones were sent to Chingleput for trial, and have been sentenced to fines of 30 Rupees commutable in default of payment to 3 Months imprisonment. In another case brought to my notice which was not clearly established I revoked the permission which had been given to a person to retail European liquors in Poonamalee, and I shall continue to endeavour to check the evil as much as practicable.

From the Collector of Salem ---

Sir,

Particulars relative to the arrears of Quit Rent claimed by Mr. Fischer for grounds occupied by Judicial Buildings

In reply to your letter of the 25th July last, on the subject of the arrears of Quit Rent claimed by Mr. Fischer for grounds occupied by Judicial Buildings at Salem, I have the honor to inform you, that I called upon that Gentleman to state specifically what is the amount of Quit Rent he claims for the grounds so occupied, calculated to the end of Fasly 1254, and to particularize the extent, Nos., Names, Classes, and assessments of the Lands, the particulars of which are as follows.—

Fort St. George 5th March 1846.

From this Statement a difference of Goontas 7-3 Teerwah 11 as. 11 p. having appeared between it and the Circar measurement, I requested Mr. Fischer to furnish me with the particulars of this difference, he in reply states, that it is impossible at present for him to ascertain in what state the land in dispute was at the time of the Pymash Settlement, and therefore agrees to the Circar measurement, but states that his demand for Interest on the balance due on lands occupied by Judicial Buildings, as well as the Teerwah of Nattum Poonjah lands is valid. It therefore appears to me unnecessary to give any explanations of the existing difference on the land and Teerwah as called for in the 4th Para of your letter under reply.

The particulars of the lands on which Quit Rent is due to Mr. Fischer are as follow.-

Mr. Fischer claims Rent on a Nuttumpoonjah land, which is not in possession of Government, from Fusly 1249 to 1254 amounting to Rupees 41–13–11 it is out of the Court House, and is clearly shown in my Proceedings 1842 and 9th January 1843, as also in my letter of the 13th March 1843. the latter was written after my personal inspection of the land. the Teerwah of which up to Fusly 1248 amounting to Rupees 180–4–7 was erroneously paid, and which if deducted from Rupees 348–14–1, there remains Rupees 168–9–6 justly due to Mr. Fischer.—

I beg herewith to forward, as called for in the 4th Para of your letter, an account shewing the extent, Names &c. of the lands occupied by the Judicial Buildings, as obtained from the Curnam Goomastah Vencatachellum Moodelly, together with its translation. by which the Board will perceive, that a piece of land, comprising 9/16 Goontahs or 2–6–" Acres bearing Teerwah Rupees 2–14–4, is entered as Nattumpoonjah which appears to be incorrect, as the Original Curnum Palanyappah Moodelly and Moonsiff Maurymoottoo Goundin, states in their depositions formerly taken by the Tahsildar Tummapiah that the said Nattumpoonjah is not within the wall of the Compound of the Judicial Buildings, and which I found on personal examination of the land to be the case.—

I beg to assure the Board that the increase of 9/16 Goontahs or Acres 2–6–" included in the Compound of the Judicial Buildings is not termed as Nattumpoonjah but Paraporumboke, to which the Mootahdar has no right as it is Government property as stated in my letter of the 13th March 1843, nor is one Goontah or Acres 3–32–14 bearing Teerwah Rupees 5–2–5, as claimed by Mr. Fischer, within the Compound of the Judicial Buildings.—

Should the Board however consider Mr. Fischer's claim to 9/16 Goontahs as admissible, in that case he can be entitled to Rent for that portion alone.—

From the Collector of Salem ---

Sir,

Stating his opinion regarding the Plantations of Trees and Topes in his District.

I have the honor to acknowledge the receipt of your letter of the 25th January forwarding a set of rules drawn up with a view to encourage the plantation of Trees and Topes, and requesting my opinion as to how far they may be suited to the circumstances of this District.-

It appears to me the inducement offered in the 2nd Rule will be scarcely found to be a sufficient encouragment, as the labour and expense attending such plantations would be greater than the return.-

Parties forming Topes in waste lands, in addition to their usual holding, will generally, in the first instance have to undergo the expense of digging a Well, and they will only be able to cultivate the ground for four or at most five years, after

Fort St. George 5th March 1846.

after which the spreading of the Roots and shade of the Trees will prevent cultivation, and as the Trees, generally speaking, do not become productive under ten years, the parties would for half that period be put to a considerable expense and trouble in taking care of, watering, and fencing the Topes without reaping any benefit, a task too expensive and hazardous to be likely undertaken. I should therefore suggest, that parties wishing to plant Topes should be allowed half of the produce when they become into bearing for a certain number of years equivalent to the time the land could not be cultivated before they became productive, as some corresponding return to the outlay they will be required to make; without some such arrangement, I think that Rule 2 in this District would be inoperative.-

It does not appear to me that any alterations are necessary in Rules 3 and 4. The spirit of Rules 5 and 6 is always observed in this District.-

From the Collector of Sir,
Trichinopoly ---

I have the honor to bring to the notice of the Board that Ramasawmy Pillay an Inhabitant of Moosery wishes to erect a Chattrum at the expense of about 1000 Rupees at Thottiem on the high Road from Trichinopoly to Salem and Bangalore, for the convenience of Travellers who very much suffer for want of shelter at that place. As there is no building of the kind on this line of Road within about 15 Miles, I request that an Inam according to the Rules be granted for its support.

2.

As the quantity of waste applied for by the Mission is exchressly stated in my communication to you of the 5th December. I have only to recapitulate their application for reduction of tase of certain Nanjah and Poonjah land to extent of 10-10½ cos as from Rupees 65-0-8 to Rupees 30-15-5, as per detail in the above quoted communication and in which the Government seem to acquiesce:

and Secondly to recommend that the 28 Cawnies 7½ annas of Porumboke gravel hill for which they have applied should be made over to them on a pepper corn rent of 1 Rupee per annum, or if it is desirable to tax it by Cawnies, at the pepper corn rent of 1 anna per cawny per annum I ground my recommendation on the apparent impossibility of ever converting this gravel porumboke into arable ground; on the utter improbability of its ever being sought for such purpose, and the admirably beneficial purpose to which it is being appropriated - for it will be recollected

Government

Government has long ceased to give any encouragement whatever to study in this collectorate; and without the aid of this mission there would no where be means afforded to obtain beyond the very rudiments of education.

3. Since my letter of December I perceive a great increase of the seminary buildings and very evident marks of further careful progress; whilst one portion is already occupied by the Reverend Mr. Tracey with a considerable number of Boarding scholars.

Submitting a letter from the Pl Coll. of Madura and recommending that certain waste land applied for by Messrs Tracey & Cherry may be made over to them subject to a tax of one anna

would be prepared to allow them to hold whatever lands they may be disposed to enclose at a fair rate of assessment. I am directed by the Board of Revenue to submit the accompanying communication from the Principal Collector of Madura stating that the waste land applied for by these Gentlemen consists of C. 23 — A. 7 P., which being of such description as to render it impossible to convert into arable ground he suggests should be assessed at a mere nominal rent. The Board concur in this opinion and beg to recommend that the waste land inquestion may be made over to the applicants subject to a tax of one anna per cawney per annum.

2. The Board at the same time instruct me to repeat their recommendation that the extent of Nunjah and Poonjah lands now in the possession of these Gentlemen may be confirmed to them at the reduced teerwah of R. 3 — A. 13 — P. 11 per Cawney as solicited in my letter of the 12th of January last.

Sir,

From the Collr of Tinnevelly
Requesting orders on an abuse made by Ramsing on 2000 chains of land held under Mr. Hughes's grant.

} Para 1. I beg to request the Board's Orders on an abuse which has probably never been brought to notice, but which appears to require some regulating. Among the lands enjoyed under Mr. Hughes's grant of 2000 chains a large proportion is Hill land, and Forest, from which though entered as waste, Ramsing derives large and extensive profit (without any reference to foreign products) from a considerable quantity of valuable building timber, large supplies of firewood, (in great demand for sale at the Towns of Palamcottah and Tinnevelly) and various minor Hill productions, Honey, wax, Plantains &c.

It does not appear the Hills were included in the grant at all but long possession has been held.

2. I am doubtful if it was ever intended that any forest land, totally unfit for cultivating either foreign or native productions should be included in the grant to Mr. Hughes and

and with regard to the munjah and Poon-
jah in the plains. I think ample
encouragement and facility would
be afforded to Ramsing if he be per-
mitted to hold at ½ the usual teerwah,
whatever land he has bonafide under
foreign produce, the introduction
and encouragement of which was
doubtless the real intention of the ori-
ginal boon and not to superadd an
unnecessary monium to an already
wealthy Individual.-

3.

Did Ramsing's character
entitle him to much consi-
deration and indul-
gence, the continuance of the
monium however unmerited, might
be advised, but when he is in fact
the oppressor of every poor Ryot into
whose neighbourhood he comes, and
the dread and terror of all who hold
land near him, his presence becomes
a bane instead of a benefit.

4.

Timber for Commissariat
and other public demands is now becom-
ing extremely scarce in Tinnevelly
and large quantities of valuable
wood have been already cut and ap-
propriated by Ramsing - a large
quantity

quantity of valuable timber has also
been felled by Ramsing without any
lease on the Courtalum Hills, near
his Coffee Estate. an Order has just
been received for supplying 600 cubic
feet of congoo timber for Gun fuzees of
the artillery. but I fear it will be quite
impracticable to meet the requisition.
A memorandum of the land at now
held, is enclosed.-

3332 (46-47) Fort St. George 5th March 1846.

Proceedings thereon. 46-47

Our reference to the Cowle granted to Ramsing and Chundoo Saul in 1837 the Board observe that the extent of land thereby leased to those individuals was not the whole quantity of 2000 chains originally held by Mr. Hughes but only that portion of it which had been reclaimed from the waste and rendered fit for cultivation amounting to 1430 13/15 chains. In addition to this they were to be allowed the use of 47/15 chains for threshing floors &c. and the same right and interest in 135 41/54 chains being Village sites, wells, water courses &c. as had been enjoyed by Mr. Hughes during his lease. The proportion of the above mentioned Cultivable lands chains 1430 13/15 in each Village and Talook are clearly specified in the Schedule annexed to the lease. The Board direct that Rama Sing's occupancy and enjoyment be strictly confined to the several portions of land entered in Column 3 of that Schedule, and no encroachments be permitted.

To T. Pycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir,

(48)

From the Prin.l Coll.r of Coimbatore - - - } Para.1 I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue bearing date the 22d Instant

Submits his opinion that the abolition of the Monopoly will not be productive of an extension of cultivation of Tobacco in the Coimbatore District &c.

hereof, and also your letter of the 18th Instant directing me to state what, in my opinion, will be the result of abolishing the Monopoly as regards the extension of the cultivation of Tobacco in this District, and the reduction which may be effected in my District Establishment exclusive of that now charged to the Monopoly with any further remarks upon the question as far as it may be applicable to the Province of Coimbatore, and beg to apologize for the delay which has occurred in the earlier transmission of the required information.

2 On a subject of so much importance, and one that has formed matter of voluminous Correspondence

Fort St. George 5th March 1840

Correspondence between this office and the Board of Revenue for the last 40 years, I feel considerable difficulty in offering any sound opinion - the advantages and disadvantages of the System have also been so fully discussed by many of the able officers who presided over this District, that little or nothing of novelty remains for me to urge either against or in favor of it -

3. It is however necessary to review the nature and necessity of the Tobacco Monopoly from its commencement.

4. During the late Mahomedan Dynasty and until 1805/6 Tobacco was Cultivated without any restriction whatever, and exported to Malabar on the payment of a Transit duty of Rs 8-13-0 for every 60 Bundles - In 1806/7 the Monopoly was established at the recommendation of Mr. Collector William Garrow and the Markets were closed to all but the Government Contractors, and from 1811 the year in which the restrictive Regulation was enacted, to 1815/16 Tobacco was supplied to Malabar through the agency of the Government Servants - this having been considered by Mr. Sullivan the then Collector to have given rise to much oppression in consequence of the abuses committed by Cauvery Chitty of notorious

Vide Commissioners Report dated 10th Feb.y 1816 Para 30 to 61. and Mr. Secy. Hamilton's Minute dated 9th Dec.r 1816.

necessary

memory, the contract system was resorted to, which prevailed up to 1826/27 when the Monopoly in Coimbatore was again established, and has continued uninterrupted from that period to the present, viz. 20 years.

5. The first point for consideration is whether the abolition of the existing Monopoly will be productive of an extension of the Cultivation of Tobacco, and being diffident of hazarding my own opinion, I have deemed it advisable to consult the respectable Tobacco growers in this District, their sentiments, offered voluntarily and uninfluenced are submitted in the translated Copy of a Malayalam Memorial signed by 670 Inhabitants, which I have the honor of forwarding herewith. It amounts in the abstract, that instead of an increase in the Cultivation, the proposed abolition will be against it. and this I have no reasons to believe to be imaginary from the causes to be explained hereafter.

6. Tobacco has been Cultivated under the immediate protection of Government. Under the present system, there is a certainty of demand for the produce. the Ryot receives advances from Government with reference to the quantity he is capable of growing. these advances are made at a time when he stands in the greatest need of pecuniary assistance for

for the adjustment of the Government demands on his Farm which saves him from the necessity of having recourse to usurious loans. His standing Crops are guarded by the Government officials against the depredations of Cattle, packed free of Charge, and conveyed to the Depôt at Coimbatore where every leaf is purchased at a remunerating price whether the quality of the article is good or otherwise. His accounts are instantly settled, and he as promptly receives the difference between the amount of price, and the advances previously made to him. The classification of the Tobacco is made with strict impartiality, as the Servants of the Circar have no interest in undervaluing the article. if the Ryot, however, is led to believe that he has been unfairly dealt with, he is at liberty to cause his Tobacco to be assorted by a Punchayet which equitably terminates any difference of opinion. "Indeed the "Monopoly in Malabar," as observed by the Board, Para 20 in their Proceedings dated 29th July 1820, "under proper arrangement, is calculated to establish "a fixed demand for a staple product of Coimbatore labour, and in this respect must be beneficial "to the Ryots of the latter Province."

7. With the discontinuance of the Monopoly and the fostering aid of Government, all these advantages will

will be removed. There will be no certainty of demand, and consequently, the Ryot must either keep the article until he can meet a purchaser from Malabar or sell it to the wealthier classes of the people at such price as may be dictated by necessity. The same promptitude in the adjustment of accounts will cease. Instead of the Punchayet system, actions by Civil Process will be introduced to the loss both of time and money of the litigants. In fact the change will still be a monopoly and will revert to the contract system which has been proved by long experience to have worked least satisfactorily of the two.

8. Moreover the inferior kinds of Tobacco that have also heretofore been purchased by Government will be thrown back into the hands of the Ryots who will have no means of disposing of it. It is likewise urged that the article produced in the best Tobacco growing Villages will only meet with a ready sale. These Villages are few in the District, and in them the Cultivation will, in all probability increase; but not

not to a sufficiently large extent to counteract or supply the deficiency apprehended in the others.

9. These are the disadvantages likely to attend the withdrawal of the Monopoly and discourage the Cultivation of Tobacco, which altho declared a free trade, will yet be a Contract system as regards the poorer classes of the Inhabitants.

10. The 2d point that demands explanation is what reduction may be effected in my District Establishment exclusive of that now charged to the Monopoly. To this I would only beg to add that the District Sillendy being already upon the most reduced scale contrasted with that of the neighbouring Zillahs, it is susceptible of no reduction whatever as Communicated by me to the Revision Committee under date 21st April 1843. The amount now debited to the Monopoly is Rupees 19,272-14-7 per annum viz.

Tobacco Sillendy —— 8288-14-5

Hundy Sillendy —— 10,981-10-2

19,272-14-7

Of these the former will of course cease with the Monopoly

* 2½ a Pr. 6-14-6 Per Cent.

Monopoly, but the latter, it is impracticable to discontinue, as it forms a portion of the Civil Armed Establishment kept up in the District for the protection of the Public Peace as well as the revenues of Government. This subject having so fully been entered into in the previous Correspondence, no further remarks appear requisite to explain the cause of the necessity for its Continuance. The Frontiers of this District, on three sides, are bounded by dense Jungles, and the absence of a preventive force will most assuredly lead to injurious Consequences: for it cannot be expected, that the discontinuance of the Monopoly will effectually prevent the Moplahs from the commission of their habitual outrages. On this point I had the honor of addressing the Board of Revenue so far back as the year 1841, an Extract of which letter, I beg leave to subjoin here. "it is an accepted belief that "it would never be possible to prevent effectually "the existence of a class of people who are professiona- "l despisers of the Constituted Laws, and "they will commit depredations wherever they "are able to do so with the least possible risk."

and

"and greatest profit, and I am frank to confess, "I do think that any strong and successful "measures for the suppression of Smuggling "will lead from fraud to crime, and the "attacks which have heretofore been carried "on to a certain degree against the Revenue "Laws will be turned against the subject, "such having been the case during the year "of the Scarcity of Tobacco, when almost all "the charges of a heinous character perpetra- "ted in the Talooks adjoining the boundary "of Malabar were traced to the Moplahs."

Having answered the two points noticed by the Board in their Proceedings under reply, I now beg leave to state that in the Minute recorded by Mr. Sullivan under date 29th July 1840, Para 8, the Monopoly system is declared to be a "financial deception and blunder" because "what the Govern- "ment gain under the name of Tobacco "revenue in Malabar, they lose as Land Revenue "in Coimbatore." In a previous Communication of 7th October 1826 Para 9 also it is stated by that Gentleman "that the "land assessments of Coimbatore were formed "upon the average produce of the Soil and upon

but the Mahazurnamah now submitted,
and which gives a decided preference to the
present system, is an exception to the recorded
observations of Mr. Sullivan, manifesting
that although a dislike existed against
the Monopoly in its infant stage, its
beneficial effects have now been
tested, and that it is considered by
the Ryots, a measure of recognized
advantage, to their interests - vide the
Marginal

during my Management of the District amount-
-ing to upwards of 3,40,000 Rupees. I shall there-
-fore confine my observations which are few
to Malabar alone.

13. I would, in prosecution of this object, take leave to state that a late visit to Ponnaney has impressed me more strongly than ever that no real necessity exists for the Sacrifice of so much revenue - in fact from the conviction which I had, it struck me, it was the molestation, and intermediation that the Tobacco under-went previous to its reaching the consumer that caused annoyance, and I think, if any arrangement could be made to supersede the expensive, and inquisitorial system which governs the Monopoly in Malabar that it would be considered a great relief to the people, and whatever cause might have produced the outcry against the system, it has disappeared or seeming-ly been transferred to the Salt Monopoly and it is not unreasonable to infer that the concession of one Monopoly must be the precursier of the other -

14. I find that in Malabar every Tahsildar receives 10/ Rupees for Mensem for

for his duties as revenue Officer, and in addition to this a commission of 25 Rupees and in some places 40 Rupees, on the Sales of Tobacco which is extended to the other Servants of the Hoozoor, these charges I do not think, ought to fall upon the consumers.

15. Notwithstanding these charges, the price of Tobacco in Malabar, is one Rupee a Bundle weighing upon the average 3 1/2 lbs while the excise - duty alone in England upon an equal quantity would amount to about 7 Rupees -

16. Whatever may be the determined result upon this question, it is necessary that time should be given for the introduction of any new measures subversive of the System which has existed for the last 20 years, and I have therefore to solicit not only as a matter of policy, but also Justice, that a period of at least two or three years may be allowed to the inhabitants of Coimbatoor, to enable them to prepare themselves to meet such change as may be eventually determined upon.

Translation

No. 1.

Translation of a Mahazernamah addressed to his Excellency the Most Noble the Governor in Council of Fort Saint George by the undersigned Ryots, 670 in number, the cultivators of Tobacco in the Talooks of Coimbatoor, Pulladum, Cheyoor, Denaikencottah and Pullachey in the District of Coimbatore.—

Dated 1st December 1845.

As Tobacco is not cultivated in the Malabar Province composed of Calicut, Travancore, and Cochin, the practice observed before and during the time of Tippoo Sultan was to cultivate Tobacco known by the name of "Cuppel Pagali" in this District which borders that Province and dispose of it here to the people of that Country who used to carry the article on payment of the duty due thereon to the Circar.- This practice was considered prejudicial to our interests from the following causes Viz.t the Mattyers or Smugglers of Malabar forcibly entered our Gardens and plundered our Tobacco in the most violent manner- Certain Ryots used to sell their Tobacco without any Standard rate of price whereby poor Ryots were

3333 Fort St. George 5th March 1846

were obliged to feel much inconvenience.—

After this province was taken by the British Government restriction was made by the enactment of Regulations VII and VIII of 1811 prohibiting the cultivation and Sale of the Tobacco fit for consumption in Malabar Province without the previous sanction of the Circar- afterwards we the Ryots used to cultivate Tobacco with previous permission and sell it to certain respectable persons who became contractors to supply Tobacco to the Malabar District and to the native States of Travancore and Cochin at the rate of 16 Pagodas per Candy- This practice was likewise considered inconvenient in as much as the Contractors failed to pay to the poor Ryots, the reasonable value of the Tobacco purchased from them and a great quantity was smuggled away- whereupon several Complaints on the subject having been preferred to Mr. John Sullivan the then Principal Collector, that Gentleman abolished the contract System, and adopted measures to the effect that advances of money should be made from the Circar

to

to the Ryots who cultivate the Tobacco at 5 Rupees for supplying 100 Bundles. that the article when cultivated and made fit for consumption should be conveyed by the Circar to the Government Godown at Coimbatore where the same should be assorted into four classes with due reference to its Quality and the price fixed at Rupees 16-14-12-10 per 100 Bundles respectively. such Bundles as are unfit for assortment being also priced from 1 to 7 Rupees per Cent. that the sum previously advanced should be deducted from the total amount of price and the remainder paid to us. and that if the amount of price so fixed is less than the money already advanced the sum due to the Circar should be recovered from us with interest - Mr. Sullivan also stationed guards of Peons at the different out posts or Hundies to prevent the smuggling of Tobacco by Mottyers - This system continues undisturbed since Fusly 1236 and is best calculated to relieve us from the annoyance of Mottyers Fees and also to prevent wealthy Ryots from selling the Tobacco at a lower price upon competition to the great loss of other Ryots - under the present Monopoly all of us obtain reasonable price for our Tobacco from Government who derives a profit not

not less than 4 00000 of Rupees a year after deducting the prime cost, Sibbundy charges, hire Fees Fees and by our getting the amount of reasonable price for our article as soon as we deliver it to the Circar, we are enabled to liquidate the amount of Assessment due on the uncultivated portion of the lands of our Farms respectively and for which no remission is granted to us in this District.

But being given to understand that the Government have taken into consideration the expediency of abolishing the present Monopoly System thereby leaving the Ryots at liberty to cultivate and sell the Tobacco at their own choice, we are under the painful necessity of making the following observations -

It may perhaps be considered by Government that the abolition of the Tobacco Monopoly would tend to the convenience of the Ryots but we beg to say that its abolition and the consequent withdrawal of the guards of Peons from the out posts or Hundies will again subject us to the robbery of Mottyers in night times - besides this certain rich Ryots will sell their Tobacco at a reduced price, so that all other Ryots can get no reasonable price. In fact the abolition

of

of the Government Monopoly System will be productive of much annoyance to the community and in no way inconvenience to the people. For instance the government with a view to afford great relief to the people by the abolition of Sayer duties sanctioned the withdrawal of the General Inland and Transit duties and at the same time increased the price of Salt. To this we beg to say that poor people can pass off their livelihood whether they shall have or not any of the dutiable articles. but Salt is a necessary of life and none (even poor Ryots) can dispense with the use of that article therefore the increase of price on Salt tends much to inconvenience the community whilst the abolition of the Sayer duties profits the rich people. In likemanner the proposed abolition of the Tobacco Monopoly will tend to create much inconvenience amongst the poorer classes of people. under the foregoing reasons we respectfully request the Honorable Government will be pleased to protect us by retaining the Government Monopoly System as it now exists so that we may not be again subjected to the attacks of Mottyers as in former years.

Signed by 67 Ryots.

Reporting on the state of the Churmar schools entertained at the expense of Government & requesting sanction for the expenditure that has been incurred during the past year amounting to Rs. 1608-6-4

Dated 4th December 1845.

Sir,

I have the honor to forward letters from my Sub Collectors and Head Assistant reporting on the State of the Churmar Schools entertained at the expense of Government at Tellicherry and Palghaut respectively. They are on the whole favorable.-

2. The School at Calicut is in a good condition and the Children on a late examination seemed to me to have made fair progress. The prejudices of the Country against Churmar education are it is to be hoped somewhat dispelled & I think we may now with more success than could have hitherto been anticipated proceed to extend the present system. But to do so with as little risk of failure as need be, I propose to establish my new Schools at no very great distance from those already in working. My first extension will be one of three schools in a circle of six miles from Calicut, one extra one, I had indeed begun two months ago on one of the proposed localities but from want of due Superintendence it

Fort St. George 5th. March 1816.

it had not got on so well as I believe it will under my new arrangement. With the view of thoroughly supervising all the schools I have appointed from the 1st. Instant a young man as inspector whose whole time will be given up to this duty. I had authority to engage a person of this description long ago but hitherto the schools have been so few and so near the European Cutcherries that I did not think it proper to go to my expense on this score. I still deem it unnecessary until the circle gets much larger and onerous to employ a person on the large pay at first contemplated and sanctioned and I merely give the person chosen twenty rupees a month with a batta when travelling to Palghaut or Tellicherry of ten rupees more. I give him also a peon on five rupees to aid him and add to his respectability & influence.

3- I forward herewith an account of the expenditure that has been incurred on account of Churmar Schools during the past year & request sanction for the amount Rupees 1,9 1608-6-6-

Annexed is a statement of the

the boys at present educating in the Chermar School of Tellichery.-

The statement exhibits the number of Scholars the books they are studying with their progress in reading and writing.-

On the occasion of my unexpected visits I have found the Scholars and Master assembled and fully engaged in their respective duties. I have asked questions and received answers which should some shrewdness, and heard them read and seen them write in a manner which proved their time had not been misspent, and the foremost boys will now at my recommendation commence the rudiments of arithmetic. The physical and mental advancement of the Children must be apparent to any person acquainted with the habits and appearance of the half fed and ill clothed other untaught Chermar boys ordinarily to be met with.-

No 2.

To

H. V. Conolly Esqre

Collector of

Malabar

With reference to your letter of the 10th Instant I have the honor to forward herewith two Reports in detail of the progress made by the Cherumar Boys in reading - One by the school Master the other by the Tahsildar who examined them in Malayalum.

2- I began the School in September 1844 with very poor prospects of being able to get any Boys at all so great was the prejudice of the Pyts against these Boys being sent to school By a little perseverance I succeeded in collecting a few and since the beginning of the year the number has remained steady.

3- I call the Boys frequently before me and make them go over a part of their Lessons and some of them promise to turn out very sharp Boys indeed. But it requires some attention and vigilance to keep the Boys at work as they are naturally of a very idle disposition.

4- It is pleasing to observe the improvement in the physical condition

Fort St. George 5th March 1845

of the Lads since they came to School. The majority of them were miserable looking creatures when first brought before me, but they are now hardly to be distinguished from Boys of the Teeyer or Nair caste so true it is that attention to personal comfort and cleanliness is one of the most essential means of improving any condition of men and were the means at our disposal of raising these poor degraded creatures to a higher scale as to physical comfort I have no doubt but in time they would become as strong and healthy a set of men as the generality of the other Inhabitants of Malabar.

5- The only difficulty I anticipate in educating these Boys is what is to be done with them afterwards - To throw them back to their work in the fields is to turn into waste their partially cultivated minds, and having been once used to a regular mode of life, I fear they would ill relish a return to the poor and hard fare of the working Cherumar - To educate them to any trade appears to be easy at first sight but we have a heavy barrier of prejudice to overcome before we could induce

Fort St. George 5th March 1816

induce any one to employ a Cherumar Boy in any domestic business whatever. Even did we succeed in bringing any of these Boys to a fitness for public employ the difficulty of introducing them into Office would be great. Still with all these difficulties I would not despair of improving them in some way, and we can always engage them as Peons or even servants if they are able for active employment.

6 The School Master has been attentive hitherto and appears to take an interest in the education and discipline of the School.

Since my letter to your addrefs of the 23d Ultimo requesting sanction for a further advance of Rupees 5,000 to conduct the chank fishery under Amanie which is now going on briskly, I have received Urgees from the renters and the Sea Custom Chunkdar in charge of the fishery stating that owing to the chanks being fished in great numbers, an immediate advance of 3000 Rs is required, or the fishery would be stopt Of this sum Rupees 1,000 being all that remained of the former sum sanctioned, has been sent for the purpose but as part was already forestalled for expences incurred before its receipt and the remainder will not last long at the present rate of expenditure I have the honor to make this emergent application, and reipect the condition sanction

Making an emergent application requesting the conditional sanction of the Board for the advance of 2000 Rs out of the 5000 Rs applied for in his letter of the 23d Ultimo for conducting the chank fishery under amany.

sanction of the Board by return of Post for the advance of 2000 Rupees out of the 5000 Rupees applied for in my letter of the 23d Ultimo, pending the sanction of Government for that sum in the regular course. I would here remark that the prospect of realizing the full amount of the Rent must depend on the activity with which the chanks are fished but which naturally entails an increased outlay in the first instance

2. No Chanks have been as yet sold, though upwards of Two lacs and a half are in depasit. should an advantageous offer be received for these or any considerable portion thereof, no further advance would be required as the proceeds would as far as necessary be available to meet the outlay of the fishery.

1 Considering the number of settlement reports which have been disposed of since the constitution of the Board of Revenue under its present Members, and the several important questions which have been laid before Government with distinct opinions and recommendations on the same together with the assurance that the current business is in a state of forwardness the Most Noble the Governor in Council is disposed to regard the Return of arrears in their Office submitted by them

then to be satisfactory and resolves / in approval of their labors / to forward the same to the Honorable the Court of Directors. The Return it is observed distinguishes the arrears of 1845 when the present Board was formed, from those of previous years.

2. As there is no reason to question the desire and ability of the Board to perform their responsible duties with efficiency and despatch, and there being but little doubt if the exertions heretofore made are persevered in, and precautions taken to confine each subject to its proper limits that the delays so frequently commented upon by the Government will not recur, His Lordship in Council will not press, by any further Orders, for a division of labor or Return of the duties to be assigned to each Member or to enforce individual responsibility.-

P. 2 Ex: Mins Cons. 14th. July 1845 No. 813-

3 It occurs to His Lordship in Council that by a right understanding in the Board, each Member might take in hand such subjects with which he may be practically conversant, or which by mutual consent might be delegated to him, after which his papers and notes on the same might be submitted for the opinion and suggestions

of

of the Collective Board, and afterwards framed into proceedings. There can be no doubt that under such an arrangement, carried out on an amicable and proper understanding, business would progress with greater dispatch and each subject be more efficiently disposed of than if each member undertook a separate and distinct charge on a system of individual responsibility to the Government for his own, and a prescribed quantity of work.

4. The Board of Revenue will be directed to place before Government at the close of each year a Return similar to the one under this notice of the arrears of Business in their Office. Their attention is specially directed to the early and timely review of the settlement reports for the past year, and they will be pleased to take up the questions undisposed of according to their relative importance

From the Coll.r of Ganjam

Sir

Submitting his opinion on the proposed Rules regarding the Plantation of Topes &c &c.-

I have the honor to acknowledge the receipt of your Circular letter dated 26th Ultimo, forwarding a Set of Rules proposed with

Fort St. George 9th March 1846

with a view to the encouragement of the planting of topes and trees, by individuals and requiring my opinion as to how far they are suited to the circumstances of the Ganjam District

In reply I beg to express my entire concurrence in the propriety of due encouragement being afforded for the formation of topes and plantations throughout the Country, which seems an object of much importance in districts not possessing natural woods and forests. In Ganjam the extensive forests along the whole range of Hills afford an inexhaustible supply of timber for all necessary purposes and the formation of topes and plantations in this District would chiefly conduce to the comfort and convenience of the inhabitants and travellers, by their shade and their supply of wholesome fruits.

There do not appear to me therefore to be any special circumstances rendering necessary a greater degree of encouragement to such undertakings in Ganjam than elsewhere, but my impression is that the terms proposed for general adoption are

in

Fort St. George 9th March 1846

in some respects not so favorable to the plant- -er as to afford the necessary degree of encouragement. In many situations the soil well suited to for growth of trees, is of such a nature as to afford a scanty return from the Cultivation of dry grains, and as the trees grow up the space of Ground between them ca- -pable of producing a crop becomes more con- -tracted every year I would suggest that after the trees shall begin to bear, the planter of a public tope be allowed to enjoy the produce tax free for a limited number of years, in addition to the advantage of cultivating the land rent free up to that time as proposed, to compensate him for the expense in forming the plantation.

In regard to the plantations for the benefit of the individual planting the only modification I would propose in Para 3 of the Rules is that, if the land so occupied has never at any former period been assessed to the Revenue, half only of the teerwah on similar land should be fixed in perpetuity.

Brought under the attention of the Board of Revenue for the management of which I had delivered over charge on the 1st August. I have the honor to be Sir Your most obedient humble Servant

Fort St. George 9th March 1845.

To Board of Revenue
Fort St. George

Dated 1st July 1844/45

I have the honor to submit the annual report on the settlement of this District with the customary Statements in number in English and Telugoo explanatory thereof. Detailed accounts for each Zemindary have not yet been drawn up and I promise to send hereafter if the Board consider them necessary in preference to detaining this report longer than I feel the Board should again have had cause to notice. Mr Orwell had the materials for it nearly complete before my arrival, but prevented from undertaking a tax which the Board would expect him to revise. I have myself been hindered from commencing it immediately by various other matters which required attention.-

2- During the year under review the District has been under the management of three different Officers all of whom had a share in the settlement- I delivered over charge to Mr. Newill on the 18th August; he transferred it to Mr. Lockhart on the 16th September, who was again on the 16th February, succeeded by Mr. White- The arrival of the Commissioner at the same time and his subsequent investigations resulting in the deduction of extensive grants and the removal of the Servitadars & and several Ameens form an important feature in the transactions of the year, & doubtless had a considerable influence on the Collections.-

No 3- As Mr. White has already furnished most of the explanations required by the Board in their review of the Report for July 1253 / 1843/44 and as I purpose reporting in a separate letter on the assessment of Wet lands and the Survey accounts of Palanad I shall not enter on these topics now further than to explain in answer to.

To Board 10th Oct 1845

Resolution thereon.- The Board concur with the Collector that the interference of the Court of Wards in the cases specified in the Statement accompanying the foregoing letter is unnecessary.-

Reporting on the Settlement of Guntoor and Palnad for Fusly 1254.- 1844/45.

Collr's Ltr dated 15th ult. & Enclosures

I have the honor to submit the annual report on the settlement of this District for Fusly 1254 with the customary Statements 1844/45 9 in number in English and Telugoo explanatory thereof.- Detailed accounts for each Zemindary have not yet been drawn up and I promise to send them hereafter if the Board consider them necessary in preference to detaining this report longer I regret that the Board should again have had to call for it twice.- Mr Powell had the materials ready some weeks before my arrival, but purposely abstained from undertaking a tax which he thought the Board would expect him to leave to me. I have myself been hindered from commencing it immediately by various other

other matters which required attention.-

2.- During the year under review the Distrect has been under the management of three different Officers all of whom had a share in the Settlement.- I delivered over charge to Mr Newill on the 18th August; he transferred it to Mr Lockhart on the 16th September, who was again on the 16th February, succeeded by Mr White.- The arrival of the Commissioner at the same time and his subsequent investigations resulting in the deduction of extensive grants and the removal of the Serishtadars & and several Ameens form an important feature in the transactions of the year & doubtless had a considerable influence on the Collections.-

To Board 10th Ext 3- 1845

As Mr White has already furnished most of the explanations required by the Board in their review of the Report for Fusly 1253 1843/44 and as I purpose reporting in a separate letter on the assessment of Wet lands and the Survey accounts of Palanad I shall not enter on these topics now further than to explain in answer to.

to the Board's inquiry which Mr. Lockhart and Mr. White professed themselves unable to do with certainty, the nature of the relief I stated in my report for Fusly 1252 I had afforded to the Ryots of the Zemindaries. That relief I fully explained in my letter to the Board dated 25th. October 1842. It considered of three measures, permission to relinquish land which could not be cultivated from want of means the postponement of the Kists till January in Villages where there was no early Crop and permission to Cut and thrash Crops without reference to the public servants abolishing in other words the Doombalah system- Translations of the Orders issued by me will be sent if required-

Relief to Ryots- in Fusly 1252 & 1253

4- One of Mr. Lockhart's first acts was to revoke my orders on these points and revert to the old Zemindary practice with slight modification.-

Principles of Settlement- 5- The Palvaid was settled by Mr. White in person the Zemindaries partly by him and partly by Mr. Lockhart and Mr. Newill.-

6.- The principles of the Settlement were

were the same as in previous Fusles that is to say, the Palvad is settled Rayetwary with the exception of the wet lands, in which the Crop is shared and valued at the Current price- The Mulvauze Zemindary is also settled Ryatwary with the exception of Villages rented in Fusles 1252/1842/43- 1253/1843/44 and 1254/1844/45 and a few sharing Villages.- The Vaseareddy Zemindary comprises Village rents Inucta land and in a greater proportion than any other Zemindary dry lands under share.- The same various modes of Settlement prevail in the Settanapully Chidkaloor-pand and Rapully Estates.-

Continuance of Share explained- 7- It is to be observed with reference to the continuance of the sharing system which will probably attract the attention of the Board that in the Tanah of Vaseareddy Estate and many other Villages there seems no alternative until the new Survey comes into operation- The endeavours to get the Villagers to rent have proved ineffectual and no accounts are forthcoming on which a Inucta Settlement could be made without recourse to measurement.-

Season- 8- Rain fell from time to time on the whole seasonably, but in moderation,

during

during the whole time of Cultivation and harvest, from May till January, with the exception of the Month of November. E. when none fell- There was no scarcity of water in the Town- The season was healthy.-

Crops- Guntoor- 9- In Guntoor the early crop called Ponnaw was in some places limited in Cultivation and stunted in growth from the absence of timely rain- Yet the less than the crop before the outturn was pretty good- The principal crop of Pedda Jonnd was better than in the year before- The Pyru Crops were also and Cotton yielded very well- The Velladum or red Paddy was not extensively sown but where it was it yielded an average return- Rice both under the Channels and such of the Tanks as had been repaired since the gale of May 1843- was more extensively cultivated and proved a better Crop than in the year before.-

Crops- Palnad- 10- In the Palnad where the principal Crop is that of early Jonnah and Sezza, the season was somewhat less favorable but the Cotton Crop was particularly good and the Pyru Produce as far as sown was likewise good.-

The

The rice crops in Palnad were less than in the last year.-

Channels 11- The projected extension of irrigation proceeds, tho' but slowly- In the Jusly under review the Tanks of Sundole and Karlepalyam and the marsh lands of three Villages for the first time derived, to some extent, benefit from the Toonga-bhadra Channel.-

Prices- 12- The progressive depression of prices annually reported since July 1249 / 1839/40- reached its maximum in July 1253- and from July 1844- there has been a gradual and steady rise as will be seen in the Margin- The rates quoted are those furnished monthly to the Board being the mean returns from the different Tanahs-

General results of Settlement-

13- It will be observed that in every part of the District, the the cultivation continued to decrease because in the season for taking up land, all the causes which led to the same result in the three preceding fasties continued in operation; yet in the Zemindaries there has been a universal and considerable increase in the Collections- The causes of this improvement in all cases being the same, it seems sufficient to enumerate them here, once for all- They are first and principally, the rise of prices; the selling price in February 1845 being 50 per Cent better than in February 1844- Secondly the stringent measures of the Commissioner and Mr. White breaking up the combinations of the servants, and intimidating them into greater alertness in their duty- and thirdly, the productive harvest- In the Palnad the Collections from the nature of the settlement are more nearly commensurate with the demand & here alone the land revenue collection falls below that of Fusly 1253 / 1843/44- because the extent

of land cultivated was less-

14- Finding considerable inconvenience in the practice hitherto usual of embodying in the report, the figured statements given in illustration of the several matters touched upon, I have entered them in an appendix-

Total revenue of the Fusly- 15- In the collections from all sources current and arrears there is a net increase of Rupees 1,33,133- 4 - 9- making the Revenue of the year Rupees 02,82,608 as shewn in appendix No. 1-

Quinquennial Circumstances of Zemindaries

16- The circumstances of all the Zemindaries were the same as at the close of the previous year, that is under sequestration for arrears and managed by the Collector- the Zemindars having also surrendered their rights temporarily into the hands of the Government on condition of receiving a suitable maintenance- The appeal pending before the Queen in Council as to the Vaspareddy Estates has not yet been decided- The Zemindars of the Mutrauze Chilcalooripand and Vaspareddy Estates received their respective allowances

allowances for the whole year. The two remaining proprietors not till the present fusly; but certain sums were paid as advance to them and have been entered in the Statement of Charges for the respective Estates. The investigation of the Zemindars debts was commenced by the Commissioner who reported in the Schedules of the Vasaredy and Suttanapully proprietors.

Arrears of Peishcush-

18. The arrears of Peishcush or account of preceding years amounted at the Commencement of the fusly to Rupees 67,65,702 8-5 of which Rupees 7,7839-4-7 were recovered during the year, the particulars of which are shewn in the 5th Statement in the Appendix.-

Comparison of total payments of Peishcush-

19. The aggregate payments of Peishcush Current and arrears for each Estate in Fuslies 1253 / 1843/44 and 1254 / 1844/45 are shewn in the Comparative Statement numbered 4.

Remarks on Settlement.

20 In the Settlement of this Estate there is a decrease compared with the previous year as exhibited in the table No. 8 of Rupees 6,559-7-5.-

21. It will be observed that there is a considerable decrease in the Assessment without any decrease in the extent of land. It is owing chiefly to nine Villages entered by the Zemindar at nominal rents far beyond the actual resources having lapsed in the present year, and the demand fixed with reference to the mucta rates at the same time 6 Villages which were last year under mucta have been rented at a reduction of the nominal Dowle they then bore. But a clear insight into the changes in the Settlement cannot be obtained without more detailed accounts.-

Demand Collection and Balance-

22. The next Statement No. 6 is an abstract of the Demand Collection and Balance of each item of the Settlement

Demand-89,158-15-5

and the Collections since the close of the fusly- Of Rupees 89,158-15-5, Rupees 83,748 11-6 were collected in the year.-

23- There still appears a large balance compared with the demand- It is chiefly owing to the Continuance in the accounts-

accounts, of rents made by the Zemindars at exorbitant rates.-

Gross Collections 24- A comparative view of the gross Collections in Fasly 1253/1843/44 and 1254/1844/45 is given in the Statement No. 7. There is a net increase of Rupees 1633-1-4 ascribable to the causes mentioned in para 13.-

Sattanapully Settlement- 26- A Comparative view of the Settlement of this Estate is given in form No. 9 It amounts to Rupees 96284-2-4 being less than in the preceding year by 8460-10-9. The decrease has occurred chiefly on the mucta lands which have been relinquished and some which have been transferred to Village rents. There has been an increase on the demand of sharing land both wet and dry.-

Cause of Balance 28 The balance on mucta or Amny assessed land is owing to the continuance in the demand according to the usage of the Zemindars of land uncultivated - That on the rented Villages arises from some of the rents given by the Zemindars being higher than the resources. The other items for the most part will it is hoped be realized.-

Total Collections- 29- A Comparison of the total Collections current and arrears in Fasslies 1253- and 1254 is exhibited in Statement No. 11. It will be seen that notwithstanding the decrease of the demand there is an increase in the Collections of Revenue of Rupees 16,467-14-3-

an increase of Rupees 6,780-9-2- under the head of Village rents and wet and dry sharing produce, arising from the progressive increase in the terms of rents for more than one year and the improvement in the market and the crops. The decrease in the Inuctа lands is owing to Villages brought under rent, and lands having been relinquished. The large item of increase on wet lands, amounting to Rupees 14,248-8-7 is chiefly owing to the benefit derived from the new Anicut.

Demand Collection and Balance.

The Demand Collection and Balance with the Collections since the close of the fusly are exhibited under each head in Statement No. 14. The causes of the balances are the same as have already been assigned for the other Zemindars.

Melrauze- Estate Settlement-

35- The Statement No. 17 shews the Settlement of the two last fuslies under the several heads and the total of each Settlement for each Talook. There is an increase of Rupees 300-5-4-1 upon the rented Villages and Sharing produce, but a decrease of Rupees 3,629-1-8 on the Inuctа lands. This however has chiefly been caused by the transfer of 38 Villages from the head of Inuctа to that of rents- with this exception there is not much fluctuation in the demand.-

for this fusly, the particulars which the Board called for, as to the relinquishment, transfer, and occupation of land. The form is not so convenient as I could wish, but I hope it will answer the end in view. On reference to it, it will be found that 23 Rayets cultivating 133 acres 21 cents are entered as deceased, and their land in consequence uncultivated. Eighty four Rayets are entered as having abandoned their farms containing 534 acres 21 cents and emigrated to other places, while 897 others who remained in their villages appear to have relinquished their whole farms amounting to 5145 acres 38 cents and betaken themselves to other pursuits. In explanation of these facts, which will no doubt be attract the attention of the Board, I can only repeat the opinion which I have given in my former reports, that the cause lies in the continued prevalence of ruinous prices, which has inevitably impoverished those who were not able to meet the pressure of the times from breeding cattle or other sources than the produce of their land. I have however, taken measures to get a list

Fort St. George 9th March 1846

list of the rayets said to have enri=
=grated, and I purpose enquiring minutely
into it, as well as into the cases of
some of those who are said to have
given up their farms entirely. It is
further to be observed in the Statement
that Rupees 596-15-5 has been brought
to account on land entered in the Dowle
of last year as progressively increasing
that under the terms of the cowlenamah
allowing for this, there is a total
decrease from land relinquished of
Rupees 6672-11-10 Of this Rupees 1451-
14-6 was deducted at the time of Settle=
=ment on land taken up for cultivation,
but from alleged want of timely rain,
either not ploughed, or ploughed but
not sown.

48 Having, I fear, failed in my
former reports to convey to the Board
a clear understanding of the principles
on which the relinquishment of land,
the deduction of land taken up but
not cultivated, and the grant of cowle
are, or ought to be regulated, I shall endeavour
to lay the subject fully before the Board, and
obtain their instructions, in my separate com=
=munication on the Palnad Survey.

The

Fort St. George 9th March 1846

49 The next Statement No. 28 of
shews the cultivation, produce and value
of wet land in the two last fusleis. There
is a decrease in each particular, altho' there
is a slight increase in the commutation
price. The loss under the head of Magany
is Rupees 1885 11-11. This had already been
accounted for in the remarks on the season,
in which there was not rain enough for
the tanks in the Palnad. The decrease
under the head of Dafsabhagum is of course
commensurate with the decrease of pro=
=duce. The fifth head of the Settlement
Viz. dry cultivation in wet land has
been increased slightly by the permission
to cultivate in this way land under a tank
which was hopelessly damaged.

50. In Garden cultivation, for which
see Statement No. 29, there is an increase
of Rupees 332-7-6 the greater part
of which is under the head of
amany Sareeb, i.e. it is not in=
=cluded in the rayets puttah. The
reasons for continuing this practice
seem insufficient, and it will be got
rid of as far as possible.

settled at Rupees 1439-15-5 is distributed as shewn in the margin- Two new Wells & were dug in this year and land cultivated under & them, as well as under those previously dug 15 in number.

53 Under the head of Enam there is a decrease of Rupees 7-6-10- in consequence of one Enamdar having relinquished his land-

Under the head of Peshcush there is a large increase of Rupees 1993 13 10, being 50 per cent above the preceding years- It is ascribed to the increase in the number of cattle & acquired by those who do not cultivate, and to the resort to the Palnad for pasturage of more cattle from other parts- There is a slight decrease under the head of fruit trees from less produce-

The balance of Enam quit & rent, under the plea of the Enams being uncultivated has again been large, & and peremptory orders which were issued & to enforce payment on these lands, or their surrender to Government have been little attended to. I hope for better success in the current fusly-

56 A comparison of the total Collections in the two last fusles is given in Statement N° 32- They amounted to Rupees 128856-13-8 being Rupees 4676-11-1 less than in the preceding year.

58. In conclusion it is scarcely necessary for me to bring to the notice of the Board the efficient and highly valuable services of my Head Assistant Mr Newill in whatever duties may be committed to him. The Board have doubtless formed their own opinion from the zealous and satisfactory manner in which unaided he for several months conducted the whole of the heavy basiness of this troublesome District-

Remarks.

R.

10 No. 1. This decrease of R. 6,203-12-10 is owing to the relinquishment of lands by ryots who have emigrated or who have been reduced to poverty by the low prices of grain — and Cotton. —

— No. 2. This increase is owing to the extended cultivation of Garden land carried on this year.

— No. 3. Although the commutation price of paddy was increased a decrease on the outturn has been caused by the diminished cultivation from the want of water at the proper time and the diminished Crop on the land cultivated from the same cause. —

No. 4. This decrease has occurred under the preceding remark. —

10 No. 5. This increase is from the extended dry cultivation carried on this year in consequence of the tanks not having received supply of water at due time and from the higher prices of grain. —

9 No. 6. This item is of a fluctuating nature. —

— No. 7. Although the cultivation carried on to the same extent as in last year, the increase is from the increased prices of grain. —

" No. 8. No Remark.

10 . No. 9 Although a certain Bunjer land which was not cultivated from a long — time has been cultivated this year, the decrease is on account of a certain Enam land reverted to Government. —

4. No. 10 This increase is from the increased number of Sheep and Goats, and Ryots who are not included in the list of Cultivators having recently procured Cattle and from the head of Cattle arrived — from other Villages.

9 No. 11. The Tamarind topes produced to a limited extent this year hence this decrease. —

Ordered

Order thereon.

(20-21) To J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

(22) From the Coll.r of Guntoor } Para 1.

Sir,

Reporting that no further clue can be found to the Repully Summud, but suggesting that the absence of the document is immaterial under the sale of the Zemindaries

With reference to the correspondence noted in the Margin, I have the honor to state, that in answer to reference on the subject of the Repully Summud, the Principal Sudr Ameen of Guntoor, reported under date the 8th of May last that notwithstanding all the search made, it had not been found in the records of the late Auxiliary Court, and the Officiating Zillah Judge of Masulipatam under date 9th November 1845 forwarded a copy of the decree in Case No. 144 of 1810, in which it was alleged to have been filed "from which" he stated, "it may be inferred that the summud of Repully Zemindar was not filed in that Suit" "no further clue to it can be found.

2 No further steps appear to have been taken to recover the document of the Tunghepoorum Tuntoo of the Vatteredy Estate.

3. I presume, however, that under the measure subsequently directed by

by Government of bringing the Zemindaries to sale the absence of these documents will be immaterial.

4- In explanation of the inaccuracy of what I stated in my letter to the Board dated 29th June 1844 I have to state that I wrote it to the best of my recollection and from the impression I was under at the time, without again referring to a Ramanadha Baboo's Arzee, and when the list was brought to my notice containing the note that the Repully summud had been filed in Court, I desired that a reference might be made to the Government Vakeel but cannot now find out.

Fort St. George 9th March 1846.

out why this was not done.

Collector

Resolution thereon,

The sale of the Rey-

22-23 -pilly and Vapareddy Estates in an common with that of the other Guntoor Zemindaries having been ordered by Government subsequent to the correspondence to which the letter above recorded relates, the absence of the summuds referred to does not appear to be of much moment. The Collector will be pleased to make such further search as may be in his power and will report to the Board if the summuds are found

Reporting on the present state of the district as called for by the Board.

Sir

I have the honor to submit a report on the present state of the District as called for in your letter of the 31st January.

The actual extent of land cultivated is shewn in the annexed Statement exhibiting an increase in Dry, Mooloom and Sarees both in the Principal and Sub Division, a decrease in wet in the former and an increase in the latter as compared with the cultivation under the different heads in July 1254.

Divisions		Dry land	Wet land	Moolom	Sarees	Total	Net Increase

3 The season tho' so very unfavourable for the magany cultivation owing to the almost total failure of the River freshes has been much less so, as regards the Mettas, the local rains tho' only just sufficient to keep the crops growing felt at such opportune times that the Crops hitherto Cut / about one half in extent / have in general yielded a very fair return — and those now in the ground are expected to be a little, tho not much worse than those already reaped and as the prices are now remunerating to the Ryot, the Collection of the Peiz on dry lands will not be impeded.

4. The following Statement shows the supply received in the Pennaur in the Current and past fusly from June to January, and the present quantity of water in the main Tanks.

5 The failure of the Monsoon has unavoidably caused a deficiency in the extent of wet land cultivated, tho' every exertion has been made to extend it as much as possible under the hope of a supply of water later in the season, water has been eked out with the greatest care, but in many places the Crops have suffered in their productive powers from want of Moisture and a very large extent of Sooltee must have occured but for the providential fall of rain over the greater parts of the District between the 16th & 18th February which has revived the withering Crops and given a supply of water to the Tanks and Channels sufficient to remove all apprehension for the safety of the larger portion now on the ground / about 2/3ds the whole extent / tho' some was too far gone from the effects of long drought to derive any benefit from the late supply, and on the whole the produce is expected to be below an average return.

6 In the Sub Division there is an increase in the wet Cultivation 590 Gortions, but the Tanks under which the land is situated depend entirely on local rain, which tho' sufficient in the Division to bring the dry Crops to maturity was altogether insufficient for the wet which have failed to a large extent some of the Tanks having

having been perfectly dry. The Statement lately submitted will have shown the rise of prices and the rate is likely to remain high for some time large Tundahs of Grain being exported into Cuddapah, Hydrabad and Bellary. The effect on the poorer classes unconnected with agriculture is doubtless much felt, but by far the larger portion of the District Community are gainers, as fortunately the grain is in the hands of the Coolies and Ryots instead of those of Merchants and in consequence of this I trust the demand till the close of the finely will be as punctually realized as it has been up to the 15th February, the Amount Collected exhibiting an increase of 15,234/ Compared with that of last year on the same date.

Sir

I have the honor to acknowledge the receipt this day of your Circular letter of the 31st Ultimo, agreeably to the instructions contained in which I beg to send a statement of the prices of the principal kinds of grain sold at the Trichinopoly market and I will continue to send them every ten days until further instructions

25.
From the Collr of Trichinopoly
Replying to the Board's Circular of the 31st Ultimo and Submitting a statement of the principal kinds of grain sold in his district

In regard to the state of the
2 District I regret to have to report that in Consequence of the want of rain in the months of July and August the Cultivation of the superior kinds of Grain usually grown in the Dry Talooks at that season was hardly undertaken at all. Towards the end of September and during the months of October and November rain fell in light and partial showers throughout the District, and the Ryots were stimulated by the obvious tendency of the season to cause a rise in prices to undertake the cultivation of the inferior kinds of grain largely. In the month of December rain fell heavily upon two days only. So that scarcely any of the tanks received any thing like a full supply.

Upon the whole it may be said regard-
3 ing the dry Talooks that the Cultivation of the superior kinds of

dry.

Fort St. George 9th March 1846

dry grain was undertaken only to a very small extent and wherever undertaken has been attended with very bad success - and that the inferior kinds have succeeded tolerably well - and that there is every reason to apprehend that the greater part of the tank Cultivation has entirely failed.

4 - As regards the wet talooks which are irrigated by means of the Rivers the case is very different - There has been an ample supply of water and the Cultivation has been carried on to the usual extent - Up to this moment there has been no want of water in these Talooks and I see no prospect of a deficiency.

5 - Large purchases of grain have been made and are in the Course of being made at Trichinopoly by merchants from the Western and from the Southern Provinces and the price of Paddy rose during the last week from Rupees 88 - ⸗ - ⸗ to Rupees 110 - ⸗ - ⸗ per Garce.

6 Cholera broke out with great virulence about six weeks ago - and has continued with various degrees of violence ever since. It now appears to be abating

7 In connexion with this subject I beg to observe that the construction of the Cauvery Bridge and the Repairs of a few roads in the neighbourhood of Trichinopoly will give most opportune employment to many labourers.

To The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to forward for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Salem on the subject of the Cart Tax levied in that District.

2. From the correspondence noted in the Margin it will be perceived that in the year 1836 a proposal was made to Government thro' the Principal Collector of Salem by the Merchants and Cart owners of that District who voluntarily offered to pay a tax of one Rupee per Annum on each of their bandies, on the condition that the amount thus contributed should be applied annually to the repair of the Salem roads. The Government were pleased to accept this very liberal offer, and further to direct, that as requested by the Petitioners, the amount annually Collected

To the Board of Revenue.

Sir,

I have the honor to forward herewith a Report of Permits issued for Cart-cooly Exemption for the Month of February 1846.

2. I have the honor to be Sir, Your most obedient Servant

C. Kingsbury
Assistant Collector

Collectorate Office
Salem 6th March 1846.

collected, and the mode in which it had been expended should be notified for public information in the Fort St. George Gazette.

3. For three years 1836-1837-1838. the sums Collected were duly applied according to the intention of the contributors, and the receipts and disbursements for this period are shewn in the Margin.

Collections	Disbursement
1836-1185-8-0	1178-1-8
1837-1364-0-0	2309-13-9
1838-1420-0-0	807-10-4
3969-8-0	4295-10-4
	3969-8-0
Excess	326-2-4

From the year 1839 however the Principal Collector Mr. Gleig ceased to expend the proceeds of the tax upon the repair of the roads, and carried the full amount yearly to the credit of Government.

Collections from 1836 to 45	16,986-14-0
Expended in 1836-7-8:	4295-10-4
	12,691-3-8.

The total amount so carried to the end of 1845 seems to have been Rupees 12,691-3-8. This departure from the original purpose of the Tax has, as might have been expected, given rise to much complaint. The Collector however states that these complaints are directed not against the tax itself but against the mode in which it has of late years been appropriated, and that were it to be again devoted to the purpose for which it was first contributed, the community would willingly continue the payment.

4. The Board cannot but consider it

as much to be regretted that Mr. Gleig should without any authority and indeed in opposition to explicit orders on the subject have carried to the public accounts, sums subscribed for a specific object, and one reflecting so highly on the liberality and public spirit of the contributors. They would now beg to suggest that as proposed by Mr. Lockhart the whole amount so carried to account hereforthwith, under the care of the Collector and Civil Engineer of the Division, applied to the repair of the Salem roads, and a Statement of the amount and the mode in which it has been expended be notified in the Fort St. George Gazette. They also beg to suggest that all the Collections hereafter made may be appropriated in the same manner, and the expenditure also duly notified in the same official organ.

5. With reference to the remarks of the Collector in the first part of Para 3 of the letter now forwarded the Board would observe that they see no reason why the tax at its present rate (1 Rupee) should not be extended to the woddur Bandies referred to. The Collector states that it could be easily collected, and it

may

may fairly be demanded on these vehicles as from their construction and the heavy loads which they carry, they are evidently more destructive to the roads than any other description of bandies.—

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes of Consultation 18th August 1843 requesting that further enquiry be made in regard to the claim advanced by Mr. Fischer Mootahdar of Salem to arrears of rent on certain ground occupied by the Judicial buildings at that Station and recommending that the sum of Rs. 163-9-6 be tendered to him in

by the Judicial Buildings at that Station, and in reply to forward the further correspondence which has passed on the subject between this Office and the revenue authorities of the Salem District.—

2. . . . The correspondence on this matter has proceeded to an extent far beyond the importance of the subject itself, the following Statement, though in some degree a recapitulation of what has been already mentioned in the Boards' letter of 23d March 1843. will, it is hoped, place the question in a clear light.—

3. In August 1839. the sum of Rupees 294-12-1. was paid by the Principal Collector of Salem to Mr. Fischer, on bills furnished by that Gentleman, as the rents in arrears to the end of Fusly 1248 or 11th July 1839. for the land, being part of his Mootah, occupied by the Sail, the Court House and other Judicial buildings at that Station- the particulars of the land on account of which the payment was made are as under mentioned.—

Names of the land	Extent	Jeermah	years for which arrears unexpired	Amount paid

Nattum Poonjah	1 Gooly or 3 Acres 32 Gs. 14 Annas	5- 2- 5	From Fusly 1214 to Fusly 1248- 35 years.—	180- 4- 7
x Catayamode Perumbokie	7/16 Gooly or acres 1: 2.6: 14	3- 7- 6-	From Fusly 1216 to 1248 33 years—	114- 7- 6

Sanctioned by the Court's Letter to the Board dated 22d Decr. 1843 Para 3.

x Note. This the called Perumbokie is in fact Mayfield Ld. See Mr. Orrs' letter 22d December 1843 Para 3.

M.

Fort St. George 9th March 1846.

It may be at once remarked that the charges made for the land occupied by the Jail is admitted on all sides to have been correct. It will therefore be necessary only to direct attention to the land occupied by the Court House and other Offices being a separate Enclosure.

4. After receipt of the sums above stated, Mr. Fischer seems to have made no demand until March 1841 when he sent in an application for Ground rent, not to the Principal Collector, but to the Judge of the Zillah Court, and demanded payment not only of one year's rent on the Nuttum Poonjah already mentioned, but further payment in arrear for 37 years on certain other parcels of land said also to be occupied by the Salem Court House the particulars of his new demand are exhibited below:—

Name of the Ground	Extent	Jeermah	Years for which arrears were claimed	
	A. Gl. Sm.	Rs. a Ds.		Rs. a Ds.
Vadoogum Totum	2-1-4	6-11-9	Fasly 1213 to 1249 37 years	249-2-9
Cundachanum Totum	-31-	2-10-	1224 to 1249 26 years	68-4-
	2-32-4			317-6-9

5. On receipt of this new demand from Mr.

Fort St. George 9th March 1846.

Mr. Fischer claiming payment in arrears in addition to that already made in 1839. and on an additional extent of land, a fresh examination of the land occupied by the Court House and its Offices was made. The enquiry, measurement of the ground, and comparison with the Survey accounts was first conducted by the Thasildar of the Salem Taluk and by the Head and Deputy Sheristadars of the Principal Collector's Cutcherry under Mr. Glaig. The measurement was subsequently compared and verified by Mr. Lockhart and his Chief Cutcherry Servants. The result given on all these occasions was the same, and shewed that no part of the land occupied by the Court House and other buildings was, as had been originally supposed, Nuttum Poonjah; that the payment made for that land in 1839 was erroneous, and that the whole extent of the Court enclosure was as under mentioned Viz.t.

From P. Coll.r 4th Nov.r 1842 P. 4 in Cons.n 21st Dec.r

	Cundachanum Totum	38-3-	3-7-1
	Shara Perumboke	1-36-7-	No assessment
		4-21-8-	8-9-10

6. It should be explained that of the three plots of ground above named Mr. Fischer has an undisputed title

Fort St. George 9th March 1846.—

to rent on the two first only — the third is Poreum = boke and the question whether a Mootahdar has a right to the Porumboke land within the limits of his Mootahdar as brought to the notice of Government on the 11th March 1844, at present under litigation before the Courts — Under pre = sent circumstances therefore payment on account of the Porumboke should be withheld.—

Ext. acct. to Mr. Fischer 2-32-4
Pt. acct. to Collector 2-25-1
4-7-3

7. The extent of Vadagum Totum and Cundachanum Totum land included within the Court Enclosure as given by Mr. Fischer and the Collector respectively differ only by the trifling quantity of Gds. a 7 — 3. and Mr. Fischer admits that the Collectors measurement may be correct. He however objects that the remaining portion of Ground stated by the Collector to be Dhara Porumboke is in fact Nuttum Poonjah, that the payment Rs. 180 made for this ground in 1839 was correct and that he is entitled to receive rent for it in future. Mr. Fischer's objection derives some support from the Statements made by the present Curnum Goomastah of the Village, who asserts that 9/16 of a Goolie or 2 — 6 — Acres of Nuttum Poonjah is within the Court Enclosure — on the other hand this Statement is contradicted by the Curnum ca / Palany appah Moodelly / and by the Moon = siff of the Village, Maraa Mootoo Pillay, the

Fort St. George 9th March 1846.

the latter of whom cultivated the land in ques = = tion at the time of the Pymash and must be acquainted with its boundaries — The State = = ment of the Goomastah is further irrecon = = cilable with the result of the inspection and measurement of the land made successively with great care by Messrs. Greig and Lockhart in person — The objection raised by Mr. Fischer does not therefore seem to the Board to be admissable.—

8. The amount to which the Board conceive Mr. Fischer to have a valid claim is as follows.—

Land.	Jeerunah	Period	
Rent on Vadagum Totum	5 — 8 — 9	From 1213 to 1254 = 42 yrs	232-15-6
Cundachanum Totum	3 — 1 — 1	From 1246 to 1254 = 31 yrs	95-1-7
Cattanoodoo Porumboke Punjah	3 — 7 — 6	Fasly 1249 to 1258 = 6 years	20-13--
			348-14-1.
Deduct the sum paid in 1839			180-4-7
Remains due to Mr. Fischer to end of Fasly 1254 or 11th July 1845			168-9-6.

The demand on account of the Dhara or Porumboke also comprised within the Court Compound must lie over for consideration hereafter.—

9. Mr. Fischer has further = preferred a demand for interest on his arrears amounting to Rs. a p 235 — 8 — 11 on this however

however the Board would remark that Mr. Fischer did not come forward with his new demand until 1841 - and then preferred it to the wrong quarter Viz. to the Judge, not the Principal Collector. The matter being in some degree intricate, much time has been occupied in ascertaining the true merits of the claim - These, have now, the Board hope, been satisfactorily determined and if Mr. Fischer now receive payment in full of the principal of his demand in arrears, he will in the opinion of the Board receive all to which he can be deemed entitled -

10 Under these circumstances the Board beg to recommend that the sum of Rs. a. P. 168-9-6 be tendered to Mr. Fischer in payment of the rent in arrears due upon the land occupied by the Court House

House and jail to Fusly 1254 inclusive - leaving the demand on account of Dhara Perumbokee to stand over for future consideration. They also beg to advise, that, subject to the same condition, the sum of Rupees 12-1-4 be henceforth paid to the Mootahdar annually for the same Jail and Court ground.

In the Extract Minutes

11.

18th Inst. to 21st August 1843 Consultation the Government expressed their opinion that the demand made by Mr. Fischer and laid before Government in the Boards' letter of 13th July 1843 - might perhaps have been intended to apply to other parcels of land than those on which the sum of Rs. a. P. 185-4-7. was paid in 1839 - It will be seen from the above explanation

Fort St. George 9th March 1846

explanation that this was in reality the case - The land for which the Rupees 180-4-7. were paid was supposed at the time to be Nuttum Poonjah and Mr. Fischer still maintains it to be so - The land for which Mr. Fischer's second demand was made was Vadagoor & Totum and Cundachanum Totum - It has however been explained that the land which Mr. Fischer represents to be Nuttum Poonjah is in fact Dhera Perumboke - and that, under present circumstances, at least, it cannot be recognized as constituting a part of the Salem Mootah.

Sir,

From W. E. Lockhart Esqre
Collector of Salem

With reference to Extract from the proceedings of the Board of Revenue dated 5th January 1846, directing me to submit an application for refunding to Chelumbara Gounden, the Plaintiff, the fine of 20 Rupees imposed on him, and to modify the Answer to be filed in the Court, being the defence of the suit on the merits of the case, and maintaining the rights of Government to assess the plaintiff's patta and redeem the land at issue; I have the honor to submit a modified answer, and request sanction of the Board for defending the suit at the Public expense. The fine of 20 Rupees imposed on the Plaintiff for the damage caused to the circar was not collected from him, pending his appeal the order for collecting it has since been countermanded.

No. 1.

Answer proposed to be filed by the Defendant W. E. Lockhart Esqre Collector of Salem to Suit filed in the Subordinate Court of Salem in O. S. No. 71. of 1845.

The Plaintiff institutes this suit against the Collector to get his decision passed on the 16th

Fort St. George 9th. March 1846.

16th. June 1845. cancelled, also claiming Poonjah land measuring Acres 35. 13—4. and yielding a Maluarum share of 50 Rupees, and a well valued at 80 Rupees, begging also that the fine of 20 Rupees, which was imposed on him, on account of the loss sustained by the Circar may be returned. Although the Plaintiff obtained toolooch from the Circar to cultivate the lands situated in the bed of the Tank attached to the Puttanum Village, the Inhabitants of the Village, having complained at the time of Settlement in the year 1842, that in the monsoon the earth was washed into and filled the Tank so as to cause a deficiency of Water for their Cultivation the late Principal Collector not only strictly ordered them personally not to meddle with the land any more, but also issued a Takeed to the Tahsildar on the 22d. of April of the said year, prohibiting the Complainant from meddling with the said land which was duly communicated to him by the Tahsildar, notwithstanding this it was again represented during the time of the next Settlement, that the said individual had cultivated it contrary to orders. The Sub Collector in charge ordered him on the 3d. February 1843 not to have any further interference with it, and that if he again acted contrary to orders, he would be punished. These remarks were in the Jummah Settlement book and the Tahsildar and Sheristadar were fined for having allowed the Complainant to dig a well in the bed of the Tank.

Fort St. George 9th. March 1846.

July 1843, the Acting Principal Collector published an Istyar that no ryots throughout the District, should undertake to cultivate lands of this description, and that should there be any under cultivation they should be relinquished, even after this, the Complainant having cultivated the said land, the late Principal Collector sent for him in June 1844. and told him personally not to cultivate it any longer, but that he may retain it, if he liked for grazing his Cattle on and sent a Takeed to the Tahsildar of the Talook to that effect; which was also communicated to him.

In consequence of his having continued to cultivate it in Fusties 1254 and 1255 without regard to the several orders given him at different times, the Tank constructed by the Circar at a great expense, sustained considerable injury. The complainant argues that he obtained a puttah in each year for the land in question, since he was ordered not to cultivate it but it having been brought to notice during the Settlement his having cultivated it, in opposition to the Circar orders, the usual puttah was granted to him inorder to enforce the collection of revenue in the cultivated lands which does not annul the Circars orders to him, after the order and Istyar had been promulgated, those individuals who were in the habit of Cultivating land situated in the bed of Tanks relinquished them in admission of the undoubted authority of Collectors to issue orders for the protection of the Revenue according to the rules and right of Cultivation inforce, the land in

in the bed of the Tanks is considered as Village poram: poke, and the ryots are not allowed to cultivate them. Altho' the Cultivation of the land in question has been overlooked for a long time in consequence of the neglect of the Native local Authorities, in reporting the abuse and infringement of the rules in force, for which the Tahsildar was visited with a fine. It was when discovered incumbent on the Collector to protect the interests of the Government in accordance with the usages and the Custom of the District.

The Collector requests the Court will send for the Istgar and the Tahsildar issued to the complainant for his having trespassed against the Circar orders, and the decision passed regarding him personally during the time of Settlement, and on their perusal to reject the case without further enquiry, as also to cause him to pay the Costs incurred by the Defendant. The fine im: posed upon the Plaintiff not having been collected pending this appeal the Collector (Defendant) is willing to withdraw his order in that respect, and only urges the right he is vested with to cancel the Plaintiff's puttah & redeem the land at issue.

38 Ordered that the foregoing letter be submitted with the following address.

To, The Chief Secretary to the Government

37-38.

To the Chief Secy. to Government.

Submitting a letter from the Collector of Salem forwarding Copy and translation of a plaint filed against him in the Sub Court at that Station to establish the rights of the Plaintiff to a certain extent of land obtained on a Durkhast and recommending that Sanction may be granted for conducting the Suit at the Govt. cost.

17th February 9th March 1816.

Sir,

Para 1. In advertence to the concluding para of my letter dated the 24th November last, I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying communication from the Collector of Salem enclosing Copy and translate of a Plaint filed in the Sub Court at that station against himself in his revenue capac: city and a modified draft of an answer proposed to be put in in defence of the Suit in which he solicits permission to defend at the Public Expense.

2. The object of the Plaintiff in bringing the present action would appear from the Plaint to be the establishing his right to an extent of land consisting of Acres 35. 13 Goontahs, bearing a teerwah of Rupees 50 which he had obtained on a Durkhast in Fusly 1214. and held up to the present time being a period of 15 Years and upon which he had expended considerable sums of money in rendering it fit for cultivation and in sinking

a

a Well at an outlay of Rupees 80 and further to set aside the orders of the defendant imposing upon him a fine of 20 Rupees in consideration as alleged of the loss sustained by Government in consequence of the cultivation carried on by the Plaintiff on the land thus held by him.

3. With regard to the infliction of the fine objected to by the Plaintiff, I am instructed to observe that upon due consideration of the Case as stated in the original answer submitted by the Collector the Board were of opinion that under all the circumstances the punishment should not be enforced and they therefore directed the remission of the fine, and the substitution of a modified Answer confining the defence of the action to the merit of the case and maintaining the rights of Government to resume the land in dispute.

4. Agreeably to these constructions Mr. Lockhart has furnished the accompanying Answer in which it is admitted that the land sued for was given to the Plaintiffs at the time specified by him, but that in the ensuing year he was enjoined to abstain from its cultivation

in consequence of representations from the Ryots of the Village of the injury sustained by the Tank from the loosened surface being washed into it, with detriment to their Nunjah cultivation.

The Collector has entered into details in his present Answer showing that stringent and repeated orders were from time to time given to the Plaintiff prohibitory of the land being used for purposes of cultivation which were systematically evaded by him until it became necessary, in consequence of the injury caused to the Tank to adopt measures to enforce obedience to the previously neglected injunctions of the Revenue Authorities.

5. The answer further sets forth that the land in question was situated within the limits of the bed of a Tank, and consequently being Perumbokee was exempt from cultivation, that a fine was imposed upon the Tahsildar for granting permission contrary to established rules for the formation of a Well by the Plaintiff, and finally that the occupation of the land other than for purposes of pasturage was

Fort St. George 9th March 1846

was contrary to the usages of the District, in accordance with which it is incumbent upon the Collector to maintain and protect the interests of Government.—

6. The Board consider that the answer is good and sufficient, and they beg therefore that the usual sanction may be granted for conducting the suit at the Government cost.

Relative to the settlement of the Extra Sources of Revenue in the District of South Arcot for Fasly 1254.

The Settlement of the Extra Sources of Revenue in the District of South Arcot for the period under consideration exhibits a net decrease of Rupees 11,606—3—9 the result of a gross decrease of Rupees 109,976—1—11 and a gross increase of Rupees 98,369—14—2.

2 The decrease Rupees 109,976—1—11 occurs under the heads of Sayer, Stamps and Abkarry in the two former of which the deficiency 1,05,816—1—11 is attributable to the operation of act VI of 1844. This falling off in the Sayer Revenue was somewhat counterbalanced by an augmentation in the frontier duties which in consequence of the increased rate of duty were in excess of the receipts of the past year by Rupees 13,458—13—8. The decrease in the Abkarry demand is stated to have been caused by a less offer for the farms having been made than in the preceding year - but nevertheless the amount exceeded that of any period since fasly

Fort St. George 9th March 1846.

Fasly 1254 In the present year, the farms were sold in one lot in consequence of the bids being 7630 Rupees in excess of the collective amount of the farms for the farms when put up separately as explained in the correspondence noted in the margin.

From Coll.r 28th June in Cons.n 15th July
Proceedings 1st Aug.t

The heads of Increase are Sea Customs, small Farms and Mala-pha; the transactions under the two last items do not appear to call for any particular remark.

4.-

The very large addition to the Revenue for the period under report is attributed partly to the enhanced price fixed on the Chingleput Pans which compels the Merchants of Salem to resort to this District for the usual supply.-

5.-

The excess in the receipt from Sea Customs occurs chiefly in the duties levied on the export of Blue cloth and Indigo caused by the new rate of duty fixed by the late act. It has also been attributed to the favorable aspect of the Sugar trade in the Southern quantity of sugar exported to the United Kingdom exceeded the export in the past year by Candies 7[illegible]

From the Collr of South Arcot --- Board's Ltr No 359 of 1846 - 2d Feby 1846 -

Sir,

In returning the Petition received with your letter I have the honor to enclose an Extract from the List of Enams prepared by the late Chief and council at Fort St. David in the year 1775 from which it will be seen that the grant was of a charitable nature, and that it was conferred by one of the Native Princes at Gingee 30 years previous to that date. There being no document the terms of the grant cannot be ascertained. One enquiry the Petitioner appears to be the adopted son of Anauthachary therein mentioned.

2. He now represents in the Petition that he had mortgaged the Enam land for 40 Pagodas to one Veneataramana charry in the year 1824, and transferred its possession to him, and that one Anoomunda Charry the son of the Original mortgagee refuses to restore the land altho' by the usufruct the whole debt has been entirely cleared, he solicits the authority of Government to sue him in the Civil Court - the dispute appearing to be of a civil nature and the grant falling within the provision of Regulation IV of 1831, I do not see any objection to his being permitted to seek redress in the Civil Court as solicited by him, subject to the general power of enquiry and decision reserved by Government on all Enam lands.

On referring to the present Enam accounts it appears that the Petitioner Streeniwasa Iyengars name is mentioned as grandson to one Veeraperumal Iyengar, and that 1—½ of Nunjay lands is entered in his name as present possessor, the difference in extent between this and the amount of land exhibited in the chief and Councils List is to be accounted for by the variation in the mode of measurement a Rood of 49 feet having at that time been used for which one of 24 feet has been substituted

Board No. 23 of 1846

I am directed by the Board of Revenue to acknowledge the receipt of an Order of Government dated 27th January last, desiring them to state, in reference to Petition No. 59 of 1846, whether Regulation IV of 1831 embraces the case of the Petitioner.

16th Feb. in Cons. 9th March 1846

From the accompanying letter from the Collector of South Arcot it will be seen that the Enam in question was originally granted for charity, and falls therefore under Regulation IV of 1831. There would seem to be no objection to the Petitioner being allowed to bring a suit for its recovery but with the distinct understanding that such permission in no way pledges the Government to the continuance of the Enam after the next lapse.

Para 1

Sir,

I have the honor to acknowledge the receipt of your letter of the 26th Ultimo forwarding for Petition No.s 1684 of 1845, presented by

Inquiry returned

by Syahtoriew and his brothers of the Village of Nochiem in this District, and requesting me to report on the particular circumstances of the case and of the grounds on which I have rejected his prayers as inadmissible. In reply I beg leave to state that the Petitioners laid waste their Patent Garden, at the cultivating season when the Tahsildar commenced the Dittum of cultivation, an offer was made by another Inhabitants of the Village to cultivate the said Garden, but the Petitioners declined to give it up agreeing to cultivate it themselves on condition that they would be liable to pay the tax thereon whether they cultivated it or not.

2. In their petition to the Board under notice the Petitioners for the first time mention certain acts of a Nautar as having prevented them from cultivating their land. If there had been any truth in this allegation they would hardly have omitted to adduce it in their former petition No 850 of 1845, but it is a mere excuse and the fault of omission to cultivate the lands rests with themselves.

Resolved that the following Endorsement be passed on Petitions No 150 and 1684 of 1845.

From the report of the Collector on the this Petition it appears that on an offer made by another ryot to cultivate the garden land referred to, the Petitioners refused to give it up, and engaged to pay the assessment on it whether cultivated or not. It has been left waste and Teerwah charged, which under the circumstances was quite proper.

From

From the Secretary to the Govt. of India.

Requesting to be furnished with a copy of the Order of Council of the 15th August alluded to in the Extract Minutes of Consultation dated 22d August excepting the recent Judicial appointments from the operation of the Rules for deputation allowance &c.

Para 1. The Most Noble the Governor in Council observes, that the statement forwarded by the Civil Auditor is in accordance with the Orders of Government of India of the 1st Idem; and he accordingly directs, that the allowances of the several Judicial Officers named, be now fixed as proposed by the said Auditor: and that the authorized Extra Tent allowance be alone granted to the Registers, drawing the salary of that Office appointed Assistants to the Collectors.

Recd. under 22d Sept. 1846 No. 1313

2. His Lordship in Council resolves at the same time, in consideration of the long period which elapsed before the new Judicial arrangements were carried into effect, to request the authority of the Government of India to relax their instructions of the 1st November 1841 to this extent. That individuals who have held their Offices and been in the receipt of the allowances of the Office, one year prior to their abolition

Fort St. George 9th March 1846

abolition by the orders of the Council of the 28th July and 15th August last, shall carry with them the salaries of the abolished Office to their new appointments. This proposal is submitted, as consonant apparently with the views of the Government of India, as it is concluded that at the date of their Instructions of the 1st November 1841, it was not contemplated that the change of the Judicial system should have been delayed for 2½ years.—

3. If the orders of the Government of India are now carried out they will fall with peculiar severity on Individuals and in the case of those officers who are on leave [as Mr. Ratliff Register of Zillah Court of Bellary] may prove a source of great difficulty. It appears also to his Lordship in Council that in a change of the nature of that made by the late revision of the Judicial system, reducing largely the allowances of the Judicial branch of the service, it will be more equitable to give this change a limited, rather than an extended retrospective effect.—

4. His Lordship in council takes this opportunity to forward a copy of the orders of council of the 28th July and 15th of August required in the letter from the Secretary to the Government of India No. 1313 dated 22d Ultimo. a copy of the orders of council was, it is observed transmitted in a special Gazette on the 28th July and 15th August.

5 In elucidation of the observations in the

Minutes

Fort St. George 9th March 1846

Minutes of Consultation of the 22d August last

His Lordship in Council would further remark that upon a reference to the appointments arising out of the change of the Judicial System of the Presidency it will be seen that the Acting* appointments then made, and which are alluded to in the Minutes of Consultation of the 22d August were mere transfers. Ely Mr Coplestone Acting Assistant Judge of the auxiliary court of the Zillah of Rajahmundry was nominated Acting Subordinate Judge of the Civil and Session court of the Zillah of Raghmundry involving no change in the character of his duties, but that of increased responsibility and powers under Sect VII of Act There was also no vacation of Office, nor any new appointment taken up. The services of the Officers were in fact merely transferred from the Court under the old System to the same Court it might be said under the new system. and it was on this ground the Opinion of His Lordship in council that no change should be made in the allowances drawn. Where any new appointment was taken up the new rate for acting and Deputation allowances would be applied.

To. The Chief Secretary to Government

To the Chief Sec.y to Government submitting for the decision of Government a correspondence with the Pr. Coll.r of Madura on the subject of the Extra tent allowance drawn by the late Coll.r Mr. Limond for Fus.y 1253 and objected to by the Board

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in council the accompanying correspondence with the Principal Collector of Madura on the subject of the Extra Tent allowance drawn by Mr. Limond for Fusly 1253

2. From this it will be seen that Mr. Limond formerly a Register was on the change of the Judicial System appointed an Extra Assistant to the Principal Collector and Magistrate of Madura. He did not however take up his Office nor perform any revenue duties, being simultaneously with his appointment as Assistant Collector nominated to take charge of the Zillah court as acting Subordinate Judge. Nevertheless he appears to have drawn extra tent allowance for 289 days in Fusly 1253 amounting at Rs 2 10 per diem, Rupees 758-10. The Board have objected to pass this charge and Mr. Blackburne has desired that

that the question may be referred to Government I am therefore directed to submit it for the orders of his His Lordship in Council.—

3. The Principal Collector states that the amount was disbursed by him under the authority of the Extract Minutes Consultation 16th October 1843. That Extract directs that "the authorized Extra Tent allowance be alone granted to the Registers, drawing the salary of that Office appointed assistants to the Collectors. It would seem to be the impression of the Principal Collector of Madura that this Extra Tent allowance was under all circumstances to be drawn by such parties. He does not view the order in the same light. It appears to them that, as regards such persons, the Registers salary continued to them was to be in lieu of all the fixed allowances of an assistant collector, Dezt.y Pay, House rent and fixed Tentage. The only Tentage which they could draw would therefore be extra Tent allowance, but this was not to be drawn by them at all times, but only, as in the case of all other Revenue Servants, when they were employed in Revenue duties at a distance from their usual place of residence in from the Collectors Kuzzoor Station. Mr. Limond could therefore have no

title

Fort St. George 9th March 1846

title to it, as he was not engaged in Revenue business at all during any part of the time for which the allowance has been drawn. It will be for the Government to decide whether the view taken of their orders by the Board or by the Principal Collector be the correct one.

Sir,

On receipt on the 14th of the Board's Proceedings of the 2nd June, I informed Chokalingum pillay, the Tobacco renter of Madaroolum, and of both Tobacco and Betel of the Shevagunga Zemindary, for Fusly 1253 of their disapprobation of his claim for compensation as immoderate, and called upon him to produce a correct account of his receipts and charges, and on denial, gave him a paper of interrogatory which I have the honor to submit herewith with his answer annexed, and both with Translates.

Though he has now reduced
