Government of India
Home Department

Jud. Departt.

Sir,

In forwarding the paper called for in your letter No. 113 dated the 16th September I am directed by the Honorable the Lieutenant Governor to state, for the information of His Lordship in Council, that owing to the delay of the Sudder Board in replying to a call for a report on the subject of Grants particularly noticed by the Honorable the Court of Directors in their despatch No. 2 of 1842 dated the 23rd February, the several points therein alluded to have not yet been finally disposed of. The Board have been called upon to expedite the submission of their reply, but His Honor having observed the practical objections which exist to the Civil Servants of the Company being occupied or engaged in the management of Farms whilst holding Official employ deemed it absolutely necessary no longer to delay the issue of the notification.

Agra ---

Secretary Sudder Board of Revenue N.W.P.
Allahabad.

Sir

I am directed by the Honorable the Lieutenant Governor to forward the accompanying copy of a notification this day issued, and to request that the Board will submit a Register of covenanted Servants who are engaged in the management of private farms either personally or thro' Agents, with a statement of the Extent of farms held by them either exclusively or in joint tenancy with the circumstances under which they may have become connected therewith.—

Agra ---

I have &c.
(Signed) R. N. C. Hamilton
Secretary to Govt. N.W.P.

Notification

Judicial & Revenue Department N.W.P.
The 13th August 1843.—

The Lieutenant Governor having had under his notice the subject of Officers in situations of important Civil employ in the North Western Provinces being engaged in the management of private farms within these Provinces, either personally or through Agents, and being satisfied that such occupations necessarily involve a greater sacrifice of their time than they can consistently with their public duty

duty spare from their attention they are bound to bestow on the interests of the East India Company entrusted to their charge, considered it expedient to publish that no covenanted Servant in the North Western Provinces can, in future be permitted to engage in any such transactions within the limits of this Province.

The Lieutenant Governor has required a Register to be prepared of Covenanted Servants who are already so engaged with a Statement of the extent of Farms held by them either exclusively or in joint tenancy, with the circumstances under which they may have become connected therewith.

It is not the desire of Government that parties who in the belief that their Proceedings had the Sanction of Government have embarked in such Speculations should be required abruptly to close any engagements into which they may have entered. But adverting to the Sentiments expressed by the Honorable the Court of Directors in a Despatch on the Subject of grants to Officers in Civil employ, are recommended by the Lieutenant Governor to dispose of their interests in such concerns whenever an opportunity for their conveniently so doing may offer, and to withdraw entirely from such occupation for the future.

By order of the Lieutenant Govr. N.W.P.

Home Department Revenue.

Sir,

I am directed to acknowledge the receipt of your letter No. 5030, dated the 9th Instant forwarding a Copy of the Notification issued under the orders of the Lieutenant Governor regarding Officers in Civil employ in the N. W. Provinces being engaged in the management of Private Farms either personally or through Agents.—

2nd It is stated in the Notification that "it is not the desire of Government that parties who in the belief that their proceedings had the Sanction of Government have embarked in such Speculations should be required abruptly to close any engagements into which they may have entered". The Governor General in Council considers that such an indulgence as is here authorized to Covenanted Officers

Fort Saint George 16th March 1846.

Officers already in the possession of farms, cannot with due regards to the instructions received from the Court of Directors on this subject be permitted to take effect.—

8th In the letter from the Honble Court alluded to in the Notification regarding grants of land in Dryrah Dhoon and Gorukpore reference is made to a previous letter dated the 9th of May 1838 in which the Court wish it to be distinctly understood that a European must not "on any account be permitted to hold lands or to receive "a grant of land which he does not engage to reside "on, — and cultivate himself within a specific "& reasonable period on failure of which the grant should "be resumable."—

4th His Honor the Lieutenant Governor will observe that this injunction considered in connection with that, latter known, which prohibits Officers in Civil employ in a District from holding lands in that District, does in fact preclude all Officers in Civil employ from holding lands in any part of the Company's territories.— Accordingly on an application being made last year to the Government of Bengal by an Officer in the Civil Service for a grant of lands in the Soonderbunds His Honor the Deputy Governor on these grounds decided and the Supreme Government entirely concurred.—

Fort Saint George 16th March 1846.

concurred in the decision that the application could not be complied with unless the individual resigned the service or relinquished all employments under the Government.—

5th The Governor General in Council cannot but feel much surprise that the Board of Revenue N. W. Provs with a knowledge of the instructions received from the Court of Directors should yet have permitted Officers in Civil employ to engage in such speculations and the Governor General in Council requests that the Rejected which the Lieutenant Governor has required to be prepared "of covenanted Servants who are already so engaged with a statement of the extent of farms held by them either exclusively or in joint tenancy with the circumstances under which they may have become connected therewith" may be transmitted for the information of His Lordship in Council with as little delay as possible.—

6th I have also to state that the Governor General in Council is of opinion that it should be intimated to such Officers that the only condition on which they can continue to hold lands is the resignation of the Company's service.—

I &c

In conclusion I am desired to request that you will draw the attention of His Honor the Lieutenant Governor to the Court's Dispatch No. 2 dated the 23rd February 1842 respecting the grants of waste lands in the Dehra Dhoon and Gorucpore with the view to the Government of India being put in possession of the information which may enable the Governor General in Council to carry into effect the Honorable Court's instructions.

Forwarded with Mr. Off. Secretary Halliday's letter No. 68 6th May 1842.

Sir,

Rect. Depatch 1st I am directed to acknowledge the receipt on the 21st ultimo of your letter dated November 23d under date December 11th the correspondence noted in the margin, and of which copies are annexed had passed and been placed on records by the late

From Secy Sudder Board of Revenue N.W.P. dated 24th Novr 1843 No. 6646 with 35 enclosures—
To Secy Sudder Boards of Revenue in reply dated 11th Decr 1843 No. 5696

Lieutenant Governor—

2nd In the face of this late declaration of the Local Government, and of apprehensions that your letter under acknowledgement had been

been written without a full acquaintance with many facts of the case which are on the records of this Office, the Lieutenant Governor has suspended the issue of the information proposed in para: 6. of your letter until the Honorable the President in Council shall have taken into consideration the circumstances which I am now directed to represent.—

3rd Prior to 1837 there was no special prohibition to Civil Servants against holding lands, Regulation XIX 1803 enacted that "no European of whatever nation or description "shall purchase, rent or occupy directly "or indirectly any lands &c. This the Civil Servant was specially bound to observe by the terms of his covenant, in which he declared that he would not "directly or indirectly engage, carry on or be concerned in any trade, "Bank dealings, or Transactions, whatsoever, "contrary to law or contrary to any lawful "order, or Regulation relating generally to the "Service in which he may be engaged".—

4th By Regulation XXV 1803 Section 14, a Collector or Assistant was prohibited from holding "directly or indirectly any farm, or being concerned on their private account in "the Collection or payment of the Revenue of "any lands in the Zillah either as Farmer,

Surety

"Lastly or otherwise."— The following section shews that this had no reference to "purchasing bonafide the proprietary right in "lands situated within the Zillahs, by private

5th " Such being the state of the case the Legislature enacted in Act IV 1837 that "it shall be lawful for any Subject of His "Majesty to acquire, and hold property in "land in any part of the Territories of "the East India Company."—

6th " All restriction was thus removed and Mr Bird, a Member of the Sudder Board of Revenue, immediately communicated to the Civil Officers in the Dehra Dhoon that they were at liberty to hold lands—

Extract from Mr R. M. Bird's letter to Captain J. Fisher, dated 2nd May 1838 "You may take as much land as "you can on the terms which I believe "are well known in your part of the world, "at any rate Mr H. Boulderson can "give you them at once."—

7th " Colonel Young in forwarding a proposal from Major Johnstone of the Invalide Establishment, to take a grant of lands, expressed a readiness himself to embark capital in the undertaking of "the Government did not consider his so doing objectionable"— The Sudder Board in forwarding the application enquired whether it was thought — Objectionable "that an Officer in charge of a District, should be a sharer in a speculation in lands, in that District" The

Lieutenant

Lieutenant Governor (Sir C. Metcalfe) disallowed the application as regarded Colonel Young "on general principles" but thought it highly desirable that Officers on the Invalid Establishment should engage in such speculations" This decision was not Officially communicated to Colonel Young for a whole year, owing to its accidental detention in the Board's Office— Without however waiting for a reply Colonel Young and Captain Fisher both took extensive grants.—

8th " In the meantime the Governor General Lord Auckland, who then held the Local administration, passed through the Dhoon, observed evils arising from the possession of grants by persons holding Civil authority in the district, and called upon the Sudder Board of Revenue, and the parties themselves for an explanation of this, having been done in the face of Sir Charles Metcalfe's refusal to sanction it—

9th " The Board admitted their inadvertance in failing to communicate the reply of Government, and Colonel Young and Captain Fisher withdrew from their undertakings— But Lord Auckland so far from discouraging the grant of waste lands in the Dhoon gave it his fullest support.—

10th " The mode in which the grants were to be given was defined, and offers

were

were invited. The names of applicants were sent up for sanction, and amongst them were the names of Mr G: H: Smith and Mr W. H. Sykes. Regarding the latter of these the Boards remarks that "they suppose the Mr Sykes named as having an interest in the grants, the confirmation of which by Government is now applied for to be the Collector of Muttra." No suspicion was entertained that there could be any objection against Mr G: H: Smith a Collector of Outtoond at Delhie.

11th

During the seasons of 1838 and 1839 Lord Auckland was at Simla where Mr Smith and Mr Sykes were well known and their possession of these grants, matters of perfect notoriety and topics of common conversation.

12th

The applications forwarded by the Boards were all approved by Government a system of Registry was enjoined, and the issue of formal warrants directed.

13th

A Register was accordingly opened Warrants were prepared with great formality on parchment and sent to Government for sanction each warrant was signed by the Secretary to Government and entered in a separate Register kept in the Secretariat.

All.

14th All these Proceedings were fully and punctually reported to the Honble Court of Directors, and in Para 66 of Revenue Narrative N° 5 dated January 6th 1845, the names of Mr W. H. Sykes and of Mr G. H. Smith are entered as part owners of Grants N° 2 and 5.

15th The proceedings regarding these grants were carefully examined by the Honorable Court of Directors in their dispatch in the Revenue Department N° 2 dated February 23rd 1842, in the Margin of which it entered the very Narrative noted in the preceding paragraph.

16th As a proof how carefully the Honorable Court examined the circumstances of these grants it will be observed that they mention by name all the grantees against whom they take any exceptions. In Para 21 they observe, "among the grants "confirmed by you is one to Captain Kirkpatrick. If this be the same Officer mentioned in "the Governor Generals Minute, the grant "ought not to have been confirmed." But there is no mention of Mr W. H. Sykes, though the peculiarity of his position had been pointed out by the Boards. The whole tenor of the dispatch shews that the Honble Court viewed the proceedings with disapprobation and

were invited. The names of applicants were sent up for sanction, and amongst them were the names of Mr. G. H. Smith and Mr. W. H. Tyler. Regarding the latter of these the Boards remarks that "they suppose the Mr. Tyler named, as having an interest in the grants, the confirmation of which by Government is now applied for to be the Collector of Muttra." No suspicion was entertained that there could be any objection against Mr. G. H. Smith a Collector of 4 Buttons at Delhie.

11th

During the seasons of 1838 and 1839 Lord Auckland was at Simla where Mr. Smith, and Mr. Tyler were well known, and their possession of these grants, matters of perfect notoriety and topics of common conversation.

12th

The applications forwarded by the Boards were all approved by Government a system of Registry was enjoined, and the issue of formal warrants directed.

13th

A Register was accordingly opened, Warrants were prepared with great formality on parchment and sent to Government for sanction, each warrant was signed by the Secretary to Government, and entered in a separate Register kept in the Secretariat.

All.

14th All these Proceedings were fully and punctually reported to the Honble Court of Directors, and in Para 66 of Revenue Narrative No. 5 dated January 6th 1845, the names of Mr. W. H. Tyler and of Mr. G. H. Smith are entered as part owners of Grants No. 2 and 5.

15th The proceedings regarding these grants were carefully examined by the Honorable Court of Directors in their despatch in the Revenue Department No. 2 dated February 23rd 1846, in the Margin of which it entered the very narrative noted in the preceding paragraph.

16th As a proof how carefully the Honourable Court examined the circumstances of these grants it will be observed that they mention by name all the grantees against whom they take any exception. In Para 21st they observe, "among the grants "confirmed by you is one to Captain Kirke- "If this be the same Officer mentioned in "the Governor Generals Minute, the grant "ought not to have been confirmed." But there is no mention of Mr W. H. Tyler, although the peculiarity of his position had been pointed out by the Boards. The whole tenor of the despatch shews that the Honble Court viewed the proceedings with disapprobation.

and

and yet they neglected to fix upon the holding
of the grants by Civil Servants, as an objection=
able feature of the arrangement.—

17th In para 53 of the same despatch
after fully reviewing all the proceedings, the
Honorable Court "direct the invariable observ=
=ance of the rule of the service that no
Officer holding Civil Authority in a District
"shall directly or indirectly be a holder of
land or be concerned in any description of
speculation therein."—

18th When we consider the absence
of all other intredictions and the open=
nature of the transactions which called
forth this order it is difficult to refrain from
the inference that Officers not holding =
Civil authority in a District might hold
land in it, such was always understood in
these Provinces to be the case till the issue of
the late notification by the Lieutenant Governor,
and the receipt of the letter now under acknow=
=ledgement.—

19th In para 3 of your letter reference is
made to para 16 of the Honorable Courts
letter of May 9th 1838 which declares that
"A European must not on any account be
"permitted to hold land, or to receive a grant
"of land which he does not engage to reside
"on and cultivate himself within a specified
period

"period, on failure of which the grant should be
"resumable." This is considered to preclude Civil
Servants from holding lands in districts where
they are not stationed.—

20th Neither the Honorable Court of
Directors in 1842 nor Lord Auckland in 1838, nor any of the successive adminis=
=trations in these provinces since 1838 have drawn
this inference from the passage in question, for
they all knew that grants were held by Civil Ser=
=vants, and failed to point out that such a prac=
=tice was opposed to these orders of the Court—
The passage taken in connection with the context
in which it occurs has been understood to prevent
the mere occupation of land under a grant from
the Government without any expenditure of
Capital, or any attempts to bring it into cultiva=
=tion, at personal risk, or by personal exertion—
If it be construed literally to involve the forfeiture
of every grant on which a person does not actually
reside; it is apprehended that many grants in
the Soondur Lands, as well as in Goruckpore and
Dehra Dhoon are now at the disposal of the
Government.—

21st It is well known that the Gen=
=tlemen in the Dhoon are obnoxious to no
objection which can attach to them, under the
above

above construction of the pubs in question, with much zeal, and energy at a great expense of capital, and with a perseverance which has been praiseworthy to themselves, they have endeavoured to bring their grants in the Dhoon into cultivation - at their own expense they have located labourers introduced experimental Crops, supplied irrigation and imported machinery from Europe - They have effected much - Hope-town, Arcadia and the Attic farm, are well known to all who have visited the Dhoon as interesting and apparently thriving Establishments - But as a Speculation the attempt has failed - Disease has carried off their labourers. Murrain has destroyed their cattle, untimely and careless management by Agents has disappointed their hopes.-

22nd The persons who first engaged in the undertaking are now on the point of withdrawing from it, owing to the disappointment of their expectations of profit and not to the apprehended interdiction of the Government against their further holding. They have hitherto met with encouragement from every administration before the last, and under that encouragement have proceeded to lay out their money in an undertaking which they honestly thought would benefit the Country as well as themselves - But now when their hopes

hopes of profit fail they are first met by a proclamation of the Lieutenant Governor which by prohibiting covenanted servants from embarking in such undertakings shuts out from the Market the bulk of Capital in the Country, and then they find themselves exposed to the imputation of having acted contrary to the orders of the very Government who had been encouraging them, and run the risk of an intimation that now when the market for their property has been injured by the proclamation, they must immediately withdraw from the undertaking, or resign the service - The hardships of this case certainly calls for some consideration.

23rd. But it is well to view the question on a broader basis to drop all reference to former orders, to previous understandings and to cases of individual hardship, and to weigh well whether the intimation in question is in itself necessary or expedient.

24th. It is no where stated what objections exist to the holding of land by Civilians, but it may be supposed that there are two. First that they would be induced to expend time on the undertaking which should be devoted to the Public Service, Secondly That they would be liable to make their public character and their Official influence subservient to their private interests.

Now

25th Now there are many other undertakings which are not generally considered objectionable and which are open to all these dangers viz. many Civilians possess property in houses, hold shares in Banks, in a Bonded Warehouse, buy and sell Company's Paper, and engage in other similar speculations, without its attracting notice, or giving rise to any question. In all these pursuits they may be too much engrossed, or they may unduly exercise their Official influence. There is nothing in Agriculture particularly liable to objection on this score, on the other hand it may be urged that the Government have a direct and great interest in promoting and improving the Agriculture of the country, with which object it would be wise to admit the employment of all the Capital and Skill which this order is calculated to exclude.

26th The Government are desirous that their Servants should possess the means of living in ease and comfort, if not in affluence. For this purpose they must accumulate Money. The Money must be laid out and its advantageous disposal will always engage attention and give rise to interests, which may be prejudicial to the public service. But the mode to guard against these dangers, is not to restrict the means of laying out the Money, and to prohibit this or that mode of investment, but to

to assert those principles and instil that spirit which shall render every mode of investment free from objection.

27th This view of the question would lead to the inference that the existing prohibition against public Officers holding lands in districts where they have Civil Authority might be advantageously withdrawn. From such a conclusion the Lieutenant-Governor would not shrink. He conceives it would be easy to lay down principles and thence deduce rules which would render the unrestricted investment of Capital in land as free from objection as the employment of Money in any other authorized mode. This however is foreign to the subject now under consideration and the express injunctions of the Honorable Court of Directors render its present discussion unnecessary.

28. In an instance, however, of the operation of this rule, the case of Mr. Boldero may be mentioned. He has undoubtedly contravened the rule by acquiring a proprietary right in the village on which his House stands. A copy of the letter which has consequently been addressed to him is appended to this despatch.

despatch. The desired change in the tenure of his land will probably be made without much difficulty, but it seems necessary that a person should be prohibited from conducting his praiseworthy Agricultural experiments in the way which is most agreeable to his own feelings and on the terms held most in respect by the people who surround him. The difference in the estimation of the natives between a proprietary Biswadarree tenure and a mere leasehold [Jjara] is well known.

29th The Lieutenant-Governor trusts that these remarks will lead the Supreme Government to pause before they require the issue of the intimation proposed in para 6 of your letter. The Orders of the Honorable Court of Directors themselves can be now so quickly obtained that His Honor hopes that no objection will be felt to a further reference to them on the subject.

30th With reference to Para 7 of your letter I am directed to add that a separate report respecting the grant of waste lands in the Deira Dhoon and Goruckpore is now in course of preparation and will soon be submitted.

31st A Copy of your letter under ac-knowledgement with a copy of the foregoing and

and documents noted in Para 1st have been transmitted to the Officiating Secretary to the Government of India with the Governor General.

Revenue

Sir,

The Sudder Board of Revenue N. W. P. having received the returns called for in conformity with the orders of Government No. 3708 dated 15th August last, direct me to request that you will lay before the Honorable the Lieutenant Governor the information contained in the accompanying correspondence on the subject of Farms held by covenanted Officers in these Provinces.

2nd The only Officers reported to be possessed of Farms or engaged in Farming transactions are Majr Gr. H. Smith, Mr. Lindsay and Mr. H. Tyler, who hold lands in the Dehrah Dhoon; and Mr. J. Baldero who states that he holds certain interests in lands situated in Allyghur and Agra.

3rd The Officiating Commissioners of the Benares Division reports that no reply has been submitted by the District Judge of Benares.

No. 380 of 1843 /

To

The Sudder Board of Revenue N. W. P.
Allahabad.

Gentlemen,

With reference to your Circular of the 25th Ultimo, I have the honor to state that I have received replies from the whole of the Covenanted Officers of this Division and the three Judges intimating that they are none of them engaged in any way either personally or through Agents with farming transactions in this Country. I beg to make the same reply for myself.

2nd The following are the names of the Officers alluded to.

Messrs Cowell, Maesween, Pidcock, Lindsay, Wilson, Clarke, Smith, Williams, Mills, G. H. Clarke, Lock, Campbell, Thornhill.

To,
H. M. Elliot Esqre
Secretary to the Sudr Board of Revenue N. W. P.

Sir,

I have the honor to acknowledge your circular L dated 25th August, and to report that I am not engaged in the Management of private Farms either personally or through Agents, and that the following Covenanted Officers in this Division have made similar Statements Viz.t.

Mr. John Lawrence
" P. A. Vans Agnew
" M. R. Gubbins
" A. A. Roberts.
Mr. C. Le. Bas
" A. B. Gubbins
" A. Fraser
" W. S. Donnithorne

Mr. C. W. Fagan has joined the Hissar district since the issue of my circular and as Mr. Agnew had already replied to it, Mr. Fagan has not thought it necessary to do so.

Lieutenant Robertson has gone on leave and owing to previous ill health

health was prevented from attending to this and other calls.

Mr. G. H. Smith Collector of Customs is the joint proprietor of a large Farm in the Debrah Dhoon, His Statement of the circumstances under which he became engaged in this transaction accompanies.

Mr. C. Lindsay the Judge has not replied thro' this Office to your Circular though a copy was forwarded for his information.

Letter No. 23 dated 19th Oct. 1843 from G. H. Smith Esqre Collector Government Customs W. P. to T. Delhie

/ No. 23 /

To,
T. T. Metcalfe Esqre
Commissioner of Delhie.

Sir,

In continuation of my letter No. 21 of the 11th Ultimo, I now do myself the honor to furnish the information called for in the Circular letter of the Sudder Board of Revenue dated 25th August last.

2nd From a short period subsequent to the promulgation of the act admitting of all Europeans holding lands in their own names in

in the Company's Territories, I have held an Interest in several Grants of land in the Debrah Dhoon and its vicinity, which either applied for and secured from Government in the names of the parties now holding such Grants or purchased from individuals who had so obtained them and were obliged to give them up from ill success or other causes.

3. I annex a schedule indicating the names and extent of each grant at present in the possession of the Joint Stock Company to which I belong with note of the manner under which it came into our possession, whether under original application or by subsequent purchase.

4. As respects the circumstances under which I became connected with Agricultural speculation which I am called on to explain, I can only state that when I was at Mussoor in 1837, the Act I have referred to was promulgated, and understanding that the highest Authorities had held that no objection existed to a Civil Servant holding land situated otherwise than in his own district I was induced to join some of the Members of the existing partnership in applying for and eventually securing in our own names several tracts

tracts of land situated in the Deyrah Dhoon
which were (after the subject of some of the part=
=ners being covenanted Servants of Government had
been fully discussed) regularly assigned to us in
our own names by Government warrants under which
we have held the lands with a full reliance in the
security of the tenure so long as the terms to which
we had subscribed were acted up to.-

5. Since we have entered on the accu=
=pation of these Grants, very large sums Amount=
=ing to upwards of 3½ lacs of Rupees (which I have
subscribed fully one fourth) have been expended
in the stupendous exertions we have made to over=
=come the vast difficulties we had to encounter at first
starting and which proved such as to compel all the
parties except ourselves who took Grants in 1837 and
1838 to abandon them sooner than meet the heavy out=
=lay and losses which attended the commencement of
the undertaking.-

6. As yet the undertaking in which I am con=
=cerned has yielded no return, indeed it has swal=
=lowed up yearly much more than it has yielded,
and the only inducement we have had to persevere
arose from a conviction that we might during
the long period of our lease retrieve past
losses and obtain if not for ourselves at all
events for our children, some return for the sacrifices

we

we have made and are now making.-

7. As regards myself individually
I hope I may be believed when I state that
other objects beyond the mere prospect of
gain have influenced me.-

8. In entering on this undertaking
and on its prosecution, I have had a strong
desire to aid in developing the resources of
this much neglected Country.- I had hoped
to have assisted materially in the attainment
of this object by the introduction of new and
the improvement of indigenous produce and
by the application of Machinery to various
agricultural purposes.- I considered also
that by expending my savings in what was
likely to be attended with public benefit,
I was setting an example which if followed
by others would cause capital (the ab=
=straction of which it is admitted is attend=
=ed with such injury to this Country) to be
employed with in developing and adding to its
resources.-

9. It is to me a matter of deep regret
that I ever embarked in the undertaking as I am
now placed in a position which under all the
circumstances of the case, I would never have anticipated.-

10. The Notification of the Honorable the Lieu=
=tenant-Governor though containing no positive
order recommends the Succession of Governm=
=ment Civil Servants from all connection

with

3819 Fort St. George 16th March 1846.

with barring speculations, and prohibits for the future any embarking on them, the latter order rendering the fulfilment of what is recommended except at most fearful sacrifices, out of the question.

11. There are no natives who would purchase property, a considerable portion of the assets of which consisted of Bungalows buildings of various kinds, Indigo Factories, Sugar and Threshing Mills &c &c. there are few or no Europeans in these Provinces, except those in the service who have either the means or inclination to become purchasers.

12. I trust that all this will be taken into consideration, and that if I fail in so getting rid immediately of my connection with these Grants, except by an entire sacrifice of all I have expended, the retention of my interest will not subject me in any way to the displeasure of Government.

Customs N. W. F.

Gentlemen.

As required by your Secretarys Circular No. dated 25th August last together with its enclosure from Government on the subject of Farms held by Covenanted Officers of the 5th Divn. I have the honor to report as under.

Goruckpore

Messrs. C. A. Reade, C. Chester and I. M. Lind disclaim any connection whatever with any Agricultural or commercial Speculation.

Azimghur

"Speculation in this or any other district in India."

M. H. Armstrong reports that neither he nor his Assistant M. G. D. Turnbull "held any farm directly or indirectly".-

Sainpore.-

Messrs. C. R. Tulloh and S. S. Becher have both disclaimed being engaged in the management of private Farms either personally or thro Agents.-

Mirzapore

Messrs. W. C. Money J. S. Dumergue & and W. Roberts have reported that they are not professed, or in any way engaged in the management of any private Farms.-

Benares.

M. D. F. M.c Leod reports that neither he nor any of the Covenanted Officers subordinate to him Viz.t Messrs. R. K. S. Campbell M. H. Court and C. J. S. Brandreth are engaged in the management of private Farms either personally or through Agents.-

Ghazeepore.

Messrs. E. Wilmot and J. R. Carnac report that they are neither directly nor indirectly connected with or engaged in the management of any farm in this or any other district, while M. Robert Tucker states "that not having been brought up to farming "he has never engaged nor does now engage "in it either directly or indirectly."-

2.d As directed by your Board I addressed the Judges of the division on this

this subject and have been favored with replies from.-

Messrs. R. Neave Civil and Sess: Judge of Azimghur.
H. B. Harington Off.g Do. Do. of Sainpore.
A. P. Currie Do. Do. of Mirzapore.
A. C. Heyland Civil & Sess. Judge of Ghazeepore.

to the effect that they are in no way concerned directly or indirectly with the management of any Farms whatever.- From Goruckpoor and Benares I have not as yet been honored with any notice, nor have the Judge and Off.g Judge availed themselves of this opportunity afforded them of replying to the Government enquiry.-

3.d As regards myself I beg to assure you that I am not engaged either personally or through Agents in the management of any private Farms in any part of India.-

4.th I have not thought it necessary to send you the original letters from which the above details have been compiled, but they are all ready for transmission should you wish to have them.-

N. W. Provinces.

Gentlemen,

In continuation of my letter No. 374 A dated 16th Ultimo, I have the honor to forward Copy of a letter received from Mr. W. H. Woodcock Officiating Judge of Gorucknpoor dated 6th Instant No. 272.-

Commissioners Office
5th Division, Benares
The 11th November 1843 } (Signed) D. B. Morrieson
Officiating Commr.

(No. 272. of 1843)

To D. B. Morrieson Esqr.
Offg. Commr. of Benares Divn.

Sir,

I have the honor to acknowledge the receipt of your Circular letter of the 4th ult. September No. 36 and its enclosures, and to state with reference to the notification of the Honorable the Lieutenant Governor issued on the 15th August respecting Officers in Civil employ being engaged in the Management of Farms that I am not personally or by Agents engaged in any such speculation.-

To H. M. Elliott Esqr.
Secretary to the Sudr Board of
Revenue N. W. Provs.

Sir,

I am directed to acknowledge the receipt of your letter dated the 24th Ultimo No. 644 submitting correspondence regarding lands held by covenanted Officers in the N. W. Pvs.-

2nd. The Lieutenant Governor directs me to inform the Board that he was fully aware that Mr. G. H. Smith the Collector of Customs N. W. P. Delhie engaged in farming Speculations in the Dehrah Doon with their entire concurrence but observes that few Covenanted Servants have engaged at all in such Speculations and none at all since Mr. Smith ventured in them.-

3d. The Lieutenant Governor does not consider that as Mr. Smith apprehends the interdiction to this particular Class will in any degree affect the means he might otherwise have found for disposing of his grants without sacrifice.-

4th His Honor directs that the Board will assure Mr. Smith, that the retention by him of interest in the farms either in part or in whole cannot possible subject him to the displeasure of Government considering the circumstances under which he acquired such interest, and the reservation

Signified

Signified on this account in the notification of Government dated 15th August last.-

5th A copy of this letter has been forwarded to Mr. Smith for his information.-

6th The Original Enclosures of your letter under acknowledgement are returned, Copies having been kept for record.-

Rev. Dept.

(Copy)
No. 382 of 1844.-

To
J. S. Boldero Esqre.
Judge of Agra.

Sir

Your letter No. 141 dated October 31st 1843 to the address of the Commissioner of the Agra Division had come under the review of the late Lieutenant Governor and been placed on record without any observation.- It has been found necessary however now in reply to a call from the Supreme Government to review the whole question regarding lands held by Civil Servants and specially to report upon it.-

2nd It occurs to the Lieutenant Governor that the circumstances noted at the close of your letter viz. "that you own 85 Beegahs and

and

and have 169 mortgaged to you in the Village of Mhow - in which your House is situated" is opposed to the order of the Honorable Court of Directors noted in the Margin.-

† Para. 3 of Orders of 23d Feb. 1842. "We direct the invariable observance of the rule of the Service that no Officer holding Civil Authority in a District shall directly or indirectly be a holder of land or be concerned in any description of Speculation therein."

3d His Honor is quite aware that you occupy the land for domestic purposes and with a view to experimental farming and is convinced of the laudable motives which actuate you of the beneficial way in which you use the influence that results thence and of the advantage which is likely to accrue to the Country still the practice is opposed to a standing rule of the Service which all persons in the high situation you hold are particularly bound to obey and there is no doubt that you will see the propriety of conforming to the rule now that it is brought to your notice.-

4th His Honor hopes to receive from you an early intimation that you have either relinquished the land or that your continued occupation of it is such as not to invest you with any proprietary interest.-

5th A copy of this letter has been sent to the Government of India with the report in question.-

(Signed) J. Thornton

(No. 516.)

To

The Sudder Board of Revenue N. W. P.

Agra.

Gentlemen,

I have the honor to forward a Petition to the Lieutenant Governor from Messrs Smith, Tyler and Lindsay Civil Service and others, Grantees of Land, which I have received through the Superintendent of Dehra Doon.-

Commissioners Office- 1st Division - - - The 19th December 1843.-

(Signed) G: F. Franco
Commissioner.

To,

The Sudder Board of Revenue
N: W: P Agra.

Enclosure.

A Petition from Messrs Smith, Tyler and Lindsay C: S: and others Grantees of Land in the Doon-

To. His Honor
The Lieut. Governor
North Western Provinces

The humble Petition of Messrs Smith C. S. Tyler C. S. & Lindsay C: S: Captain Barnett and Lieuts Welter and Strachy and others.-

Humbly Sheweth.

That your Petitioners Servants of the Honorable East India Company, the actual Proprietors of certain extensive Landed Estates in the Dehra Dhoon and Saharumpoor have witnessed with dismay a Government

Notification

Notification in the Agra Government Gazette of the 22d August 1843, prohibiting all covenanted Officers of Government from engaging in any Farming Speculation and recommending those who are now connected with such operations to divest themselves of their respective Interests at their earliest convenience.-

2. Your Petitioners respectfully Submit that the Charter of the Honorable the East India Company when renewed in 1834 declared the right of the natural born subjects of Her Majesty to acquire and hold landed property in India within the Territories under the Government of the Honorable East India Company.-

3. That in consequence of and Subsequent to the promulgation of Act IV of 1837 a body of covenanted Civil and Military Officers united in the year 1839 to form a joint Stock farming Association under the designation of Maxwell, Mac Gregor and Co. and obtain from the Government of India extensive Grants of Land in the Dehra Dhoon Zillah Saharunpoor and in other places on Jungle farming Agreements subject to certain conditions.-

4. That the accustomed Pottahs and Kubbooliats were respectively interchanged between Government and the Partners in the Grants (your Petitioners) and that the names of the latter and their respective

Official

official designations were made known to the Government (vide Appendix No. 1)

5. That the Government was therefore entirely aware of the part taken by some of their covenanted servants in the laudable attempt to convert extensive wastes and Jungles into productive landed Estates to introduce an improved System of agriculture and thus extend the resources of the Country and confirmed their perfect approval of such measure by marked encouragement directing the Board of Revenue (vide Appendix No. 2) to extend to your Petitioners such indulgence in reference to the period from which the payments named in their Puttahs should commence as might be thought equitable and proper with advertence to severe losses incurred by Petitioners in their earliest efforts.-

Paras. 11. 12. 13. of the Board of Revenue addressed to Government No. 347 dated 27th September 1839 Extracts of reply of the Sec.y to the Govt. Genl.-

6. That entirely satisfied of the validity of their agreement with Government, and of the convertible value of the property thus created and persuaded of the favor with which their enterprize was regarded your Petitioners without hesitation boldly embarked large funds in an operation the ultimate issue of which was necessarily beneficial to the public interests even if it should prove unproductive to your Petitioners and have expended (excluding Interest) more than 3½ Lacs of Rupees in bringing into cultivation large tracts of lands and in providing the necessary

necessary European Agency Machinery Water power, Threshing and other Mills (two of which alone cost upwards of 14,000 Rupees) and in the erection of Bungalows, Bazars and all other arrangements conducive to the comfort of the Settlers whom they induced to establish themselves on their Grants. Looking also with the deepest interest to the improvement of the Agriculture of the Country and of the crops produced large sums were unsparingly expended in the provision of foreign Grain of superior quality- Cotton, Sugar, Hemp &c.a and in the introduction of implements of Husbandry more suitable for such object than the rude and inefficient Tools prepared by the inexpert Village artisans with which it is vain to expect that European service can be rendered available for giving activity to the vast productive power of the soil inert and dormant under imperfect native cultivation.-

7. That as the practicability of the adventure became more apparent and its prospective advantages less doubtful other persons also your Petitioners in addition to those in whose names the Grants are first made relying on the convertible title created and conferred by the Government of India joined the Association by the purchase of shares and these transferable interests were acquiring additional value as the increased responsibility of the Shareholders produced a sufficiency of means for all desirable arrangements whilst the general

attention

attention of the public was increasing the convert-
-ible value of the Shares alone wanting to render
this adventure the most desirable invest-
-ment in the Country.-

8. That whilst your Petitioners unreservedly recognizes the abstract right of Government to determine the conditions attached to their services they humbly represent that independently of the fact of participation of Government in the measure as above noticed, no regulation existed at the time of their agreement for the Estates in question which could have interfered with such acquisition by any individual in the Service save and except the rule which precluded Civil Servants from holding lands in the Districts with which they were officially connected- your Petitioners therefore respectfully submit that any Expost facto Law which shall materially alter this relation must press with great and undue Severity on your Petitioners and by practically annihilating the convertibility of their property at the very time your Petitioners are recommended to divest themselves of it necess-
-arily involve them in a ruinous loss if not entirely disable them from complying with the Lieut. Governor's suggestions otherwise than by a withdrawal from the concern at the sacrifice of their whole dis-
-bursements. Your Petitioners are satisfied that such result could never be contemplated by the liberal and beneficial Government they serve, even if the extensive capital embarked

in

in the trasactions had not been advanced with the entire concurrence and cooperation of the Government.-

9. Your Petitioners further respect-
-fully submit that they do not exaggerate the injury they apprehend from the Government order and there can be no doubt that whilst it entirely extinguishes all the prospects of future advantage in which they fairly indulged it renders a disposal of the property at any discount perfectly out of the question. It is obvious from the parties to the Association that none other than the Servants of the Honble Company can be found as purchasers and the order which precludes them from buying absolutely closes the Market. The local capital of the commercial Houses in Calcutta is too limited and too much occupied in transactions giving quick return to be drawn in this direction and to this distance, and as to English capital that employed in this Country is confined to the commerce of the Presidencies is of fluctuating and unsteady application and in fact solely intended for the promotion of the interchange of commodities and exchange opera-
-tions and in no wise to the amelioration of the resources of the Country by investments of a permanent character. Hereafter some part of the Super-
-abundant capital of Great Britain may be directed hither, but at present it would not provide a purchase for a single share in the Association of your Petitioners. The

effect

effect of this order will therefore be the extinction of the Capital already embarked in this adventure.-

10. Your petitioners imagined that the disinclination manifested by the Court of Directors of the Honorable Company to the measures adopted by this Government for reclaiming some portion of the extensive wastes (which is hopeless from native enterprize) would as regards the Grants to your Petitioners have been removed by their statements of the 1st September 1842 addressed to J. Williams Esqre Officiating Political Agent Dehra Dhoon. It can hardly be improper to remark that in the view taken of the subject in the extract from the despatch of the Honorable the Court of Directors however just the argument adduced may abstractedly be considered, the objections therein urged have little application to the Grants in the Dehra Doon, which are neither extravagant in extent nor exclusive, nor in any way conferring unusual or irregular previleges or in the remotest degree infringing the imaginary rights of any individual whatsoever. But your Petitioners do not presume to insist on the justice of their cause in opposition to the wishes of the Honorable Court. It is sufficient for them that by the ruling authority the measure which has given them a valuable property is deemed inexpedient and they are perfectly prepared to surrender the beneficial interests their capital has created and to relinquish great prospective advantages if the sacrifice is required. For the loss of prospective advantages they ask no indemnification, although when individual injury is the result of any general legislation, this every where meets with liberal consideration, and they seek nothing more from the justice of Government

Government than to be replaced in the same situation in which they would have been had the Government never made the Grants they now desire to resume, an Arrangement which seems to have been distinctly contemplated by the Honorable Court of Directors as is evident from the 70th Para of their despatch above alluded to. Your Petitioners need not superfluously repeat that the Government Notification which has given rise to their present Petition is virtually an effective resumption of the Grant, as they cannot consistently or prudently pursue their operations with the vigour essential to success in the face of a Proclamation which suggests their withdrawal and at the same time renders the disposal of their interests utterly hopeless.-

11. Your Petitioners having performed their part of the engagements they entered into with Government by bringing much more waste land under cultivation within the period defined by the Government Leases than was legally required of them, respectfully solicit that Government will be pleased to resume the whole of the Grants, at once affording to your Petitioners such indemnification as may appear just and liberal in consideration of their relinquishing the Leases and titles conferred by Government, and your Petitioners would respectfully remark that in exchange for the just indemnification which may be awarded to your Petitioners the state would gain an ample equivalent in the resumption of and reassessment with other parties of the lands

3849 Fort St. George 15th March 1846.

Sir, I have the honor to submit for the information of Government a Statement of Grants of Land made in the Dehra Dhoon requiring the sanction of Government.

I have annexed hereto a Plan of the Dehra Dhoon on which the Grants are laid down, and I have also annexed a Statement of the Grants made in the Dehra Dhoon which do not require the sanction of Government.

I have the honor to be Sir Your most obedient Servant

Appendix No. 2.

Extract Paras: 11-12-13 from a Letter No. 347 dated the 27th September 1839 addressed to F. Currie Esqre Secretary to the Right Honorable the Governor General.-

in the Para. 29 of Board's report dated 16th July 1839.-

Para. 11.- The Board stated that they suppased the Mr. Tyler connected with the Areadia Grant to be the Collector of Mattra.- They also believe the Mr. Smith mentioned as a proprietor of the Hopetown Grant to be the Customs Master of Delhie.-

Para. 12. The Board are informed that the parties concerned in this latter Grant incurred a very large outlay last year in receiving and furnishing with habitations food Cattle and implements, numbers who emigrated from the distressed Districts to Dehra Doon.- The Board have heard with regret that a heavy loss was incurred by the Grantees as a large proportion of these Cultivators thus hospitably entertained deserted as soon as more favorable seasons encouraged their return to their former seats.-

Para. 13. The holders of that tract are therefore in circumstances particularly to require the favorable consideration of Government as it will take a very long period to replace the Capital which has been thus expended even if the Speculation ultimately succeed far beyond the Board's expectations.-

Secretary to the Government N. W. Provinces

Sir,

I have had the honor to receive and to lay before the Governor General in Council your letter No. 381 dated the 27th of January with its enclosures stating that His Honor the Lieutenant Governor apprehensive that my letter of the 23d of November conveying the opinion of the Supreme Government on the circumstance which had been brought to its notice, of Officers in Civil employ being engaged in the Management of Farms, had been written without a full acquaintance with many facts of the case, has suspended the issue of an intimation to the Officers so engaged that the only condition on which they can continue to hold land is the resignation of the Company's service.

2. I am directed in reply to inform you that the Governor General in Council has failed to discover

discover any new facts in the case which can be allowed to alter that view of it, upon which the decision communicated to you in my letter of the 23rd of November was formed..

3. The letter of the Court of Directors dated the 23rd of February 1842 regarding grants of land in the Deyrah Dhoon was written when the Court were in possession of every circumstance connected with the grants "In that letter the Court desire that the grants be as far as practicable cancelled" His Honor the Lieutenant Governor would it appears deduce from it an argument in favor of a tacit permission having been given to Civil servants to hold land because although two of the grantees were in the Civil service the Court did not advert in terms of disapprobation to the circumstance. But it is quite evident that the Court could not be aware of the circumstance for the names alone were mentioned in the profession of the grantees and there was nothing in the mention of Messrs. Tyler and Smith which of itself should lead to a supposition that they were the Gentlemen of those names in the Civil Service.

4. Your letter draws the attention of Government to the hardship of the particular case and urges the inexpediency on general grounds of an order prohibiting Civilians from holding land

land. The persons who first engaged in the undertaking are said to be on the point of withdrawing from it owing to the disappointment of their expectations of profit, the hardship of their case therefore does not consist in their being forced to relinquish the lands for they were about to do so voluntarily it is the prohibition which precludes others of the same class from purchasing the property which alone is stated to constitute the hardship of the case. The removal of this prohibition would be a concession of the whole question it would be in fact a giving a license to Company's Servants henceforth to be the Proprietors of land. Therefore the particular case is identified with the general question and it appears that His Honor the Lieutenant Governor has so regarded it, since your letter advances arguments in favor of a conclusion not only that there should be no prohibition against public Officers holding lands in the districts where they have Civil authority might advantageously be removed..

5. That His Honor the Lieutenant Governor should support such a conclusion and by such arguments as are contained in the 25th Para of your letter affords to the Governor General in Council a strong justification of the propriety of the decision communicated to you in my letter of the 23rd of November, because it shows that an opposite decision cannot be advocated without

without advocating a great deal more, without altogether conceding the principle upon which Officers in Civil Employ have hitherto been precluded from establishing interests of their own among the people whose interests alone it is their duty and should be their undivided object to cherish and promote.

6. I have now the instructions of His Lordship in Council to inform you that the Officers who hold or who may be in any way concerned in the Management of lands will be expected wholly to relinquish their interests in those lands on or before the 1st of January 1845 and it should be intimated to such Officers that the only condition on which they can continue to hold or be concerned in the Management of lands beyond that period is the resignation of the Company's Service.

Fort William—
The 9th March 1845.

(Signed) J. R. Davidson
Offg. Secy. to Government

Extract from a Dispatch from the Government of India to the Honorable the Court of Directors in the Home Department (Revenue) under date the 4th July 1844 No. 11.

Jud. Cons. 16th Sept. 1843 No. 11
Rev. Cons. 23rd Nov. No. 1 to 3 — 20th Jany. 1844 No. 8 — 9th March — No. 23 to 29.

Para. 7. A notification was issued under the orders of the Lieutenant Governor regarding Officers in Civil employ in the North Western Provinces being engaged in the Management of private farms either personally or through Agents. In this Notification it was stated that "it is not the desire of Government that parties who in the belief that their proceedings had the sanction of Government have embarked in such speculations should be required abruptly to close any engagements into which they may have entered.

8. We could not consistently with the known instructions of your Honorable Court on the subject permit such an indulgence to take effect and we directed that it should be intimated to all Officers concerned, that they could not continue to hold lands unless they resigned the Company's Service.

9. The Lieutenant Governor before acting upon our Orders thought it necessary to make us acquainted with all the facts of the case but the communication made with this object discovered nothing which could alter the view we had taken of it. We duly considered the arguments which were advanced by His Honor and decided by fixing the 1st of January 1845 as the period before which all Officers who hold or are in any way concerned in the management of lands shall relinquish their interests in those lands.

Our Governor General of India in Council.

Letters dated 7th June (No. 6) 1843 para 3 & 4
4th July (No. 11) 1844. Para 7 to 9.
20th — (No. 13) —
17th Aug. (No. 14) —

Para 1. The Paragraphs noted in the Margin relate to the grants of land in the Dearkhar Dhoon and Goruckpore which formed the subject of our Despatch of 29th February (No. 2) 1842 and to an order issued by your Government that all Company's Servants should either entirely disconnect themselves from the occupation of land for farming purposes or should resign the Company's Service.—

You

2. You had the 1st January 1825 as the day on which this order was to take effect.

3. You transmit a Memorial & Appeal, ing against the order.

From Mr. Tyler dated 26th Sept. From Capt. Barnett dated 29th Sept.

4. Similar Memorials of which we trans: mit Copies have been addressed to us.

5. It is not our intention either to rescind or to modify the instructions which we have issued in respect of farming Speculations carried on by any of the Company's Servants in India. Neither are we prepared to object to the general principle of the order issued by you, although it has been carried further than was contemplated in our instructions which were to prohibit the holding of land by Company's Servants within the Districts in which they are employed, we think, nevertheless, that where it shall appear on investigation that the sanction of the local Government has led individuals into an extensive expenditure of real capital on farming Speculations not within the limits of their own districts, a degree of special indulgence may be extended to such cases. For the present we shall merely direct that the period fixed by you for the alternative of withdrawing from such Speculations or resigning the Company's Service, be extended to 1st January 1826, and we request that the cases of the Memorialists, and of all other persons

Similarly

similar circumstanced who may Memorialize in the interval may be made the subject of report on their respective merits.

6. The general question of the Dehra Dhoon and Gorruckpore Grants, as discussed in the Proceedings preferred to in the Paragraphs here partially noticed will be the subject of a future Despatch.

London 8th November 1826.

No. 4 of 1825.

To The Honorable the Court of Directors of the East India Company

Honorable Sirs,

We communicated to the Government of the N. W. Provinces a copy of your Despatch No

Rec'd 18th July 1845
No. 35.
" 15th March
1846 No. 8

No. 11 of 1844 dated the 6th November, and directed the issue of a Notification extending the period to 1st January 1846 for the relinquishment by the Honorable Company's Servants of all lands held by them for farming purposes conformably with your wishes. We also called for a report on the two Memorials from Mrs. Tyler and Captain Barnett, Copies of which accompanied your Dispatch.

2. We now transmit the reply of the Lieutenant Governor referring to Mr. Secretary Thornton's letter of 24th January 1844 which formed an enclosure of our Dispatch No. 11 dated the 4th July last as containing all that can be said on the subject of the two Memorials.

3. We take this opportunity of forwarding Copies of a correspondence which

Rec'd 15th March 1845 No. 5 to 7. has taken place with the Government of Fort Saint George with reference to your Honorable Court's Dispatch to that Government dated 6th November 1844 No. 29 respecting the occupation of lands by the Honorable Company's Servants in any of her Majesty's Colonies or in the Territories of Natives States in alliance with the Honorable Company - We have explained that your Honorable Court's orders do not apply

apply in the former case but must be taken as prohibitory in the latter - the holding of lands in Native states being much more objectionable than in the Company's Territories - we have further explained that we view your orders as confirmatory of our Resolution against the holding by the Honorable Company's Servants of lands for farming purposes in their Territories although those orders do not require the surrender indiscriminately of such possessions where in consequence of the sanction of the local Government grantees have incurred Extensive Expenditure in the prosecution of their farming Speculations - We added that we would be disposed in such cases to evince a degree of special indulgence -

We have &c.

Secretary to the Government
of India.

Sir,

Revenue Department
To Government of India 1st Sept. 1845.
No. 146.
From — Do — 15th March
No. 210.

Referring to the correspondence noted in the margin, I am directed by the Most Noble the Governor in Council to request you will submit for the orders of the Right Honorable the Governor General of India in Council the accompanying Copy of a letter from the Town Major giving Cover to one from Major Minchin at present on Medical Certificate at the Neilgherries, reporting that he is engaged in the cultivation of Silk on the Hills for the eventual benefit of his Sons, and requesting in the event of there being any question as to the propriety of his so employing his time, that the Special permission of Government may be obtained on his behalf.

dated 1st May 1845 Rec. 11th

2. His Lordship in Council is not aware that the orders of the Honorable Court of Directors and the Rules of the Government of India apply to cases like the present where the parties concerned in such undertakings although in the service belong to the Invalid Establishment, and understanding that Invalid Officers of the Bengal Presidency are

or otherwise and irrespective of the consideration that such professions are not detrimental to the public interests.

3rd The prohibitory Rules referred to above are regarded to be equally peremptory in relation also to Commissioned Officers of the Army; but in respect to Officers on the Invalid Establishment or now effective list the Government understand from the correspondence noted in the margin a copy of which will also be furnished to the Board of Revenue that those Rules are not considered in Bengal to apply with equal force.

4th The prohibition refers to lands both in the Company's Territories and in the Territories of Native States but not to lands in any of Her Majesty's Colonies.

5th The principle inculcated by the Government of India on the Government of the N. W. Provinces in para 6 of Mr. Davidson's letter dated 9th March 1845 No. 30, will be carried out under the Madras Presidency and in conformity therewith, and subject to the exceptions for special indulgence which are referred to by the Honble Court of Directors in their Despatch to the India Government dated 23d Septr 1845 a Copy of which has been furnished direct to this Government by the Honorable Court in No. 19 of 1845 dated 1st October all Officers who hold or who may be in any way concerned in the Management of lands will be required wholly to relinquish their interests in those lands on or before the 1st of January 1847 and it will be intimated to them that the only condition on which they can continue to hold or be concerned in the Management of lands beyond that period is the resignation of the Company's Service.

6th With the above view the Board of Revenue will be requested to expedite the transmission of the Statements called for in para 2 of the Extract Minutes of Consultation dated 22d Septr 1845 No. 25 Ordered that the foregoing Resolution be communicated to the Military and Political Departments.

Resolution

To the Govt of India 4th June 1845 No. 670.
From — Do — 18th Augt — 547

1-2

Resolution thereon.

Resolved that Copy of Paras 1 to 5 of the foregoing Extract from the Minutes of Consultation and of the Extract from the papers which accompanied it noted in the Margin be transmitted for the information and guidance of the several Collectors and Government Agents under this Presidency with reference to the Board's Proceedings dated 12th May 1845.

The Board request the particular attention of the Revenue authorities to the Orders conveyed in Para 5 of the above Extract which they will be careful to make known to all parties holding or engaged in the Management of lands within their respective Districts whom those orders are likely to affect.

Extract from the Minutes of Consultation
Under date the 21st February 1846.

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 26th June 1845 No. 408)

Para 1. The Board of Revenue having in the letter recorded above stated the grounds on which they are opposed to the reimposition of the Hawlut and Special Duties in the Districts of Malabar and Canara, and such being also in conformity with the views of Government recorded in Extract Minutes of Consultation dated

† Para: 6 of the letter from the Government of India to the Government of the N. W. Provinces dated 19th March 1844.
2- Letter from the Honorable Court of Directors to Government of India 23d September 1845.
3- From Government of Madras to Government of India 4th June 1845.
4- From Government of India to Ditto of Madras 16th August 1845.

3

From the Secy to Government Stating that the proposition to reimpose the Hawlut duties in the Western Provinces has been abandoned. 2d Transmitting a petition praying for a refund of the excess duty levied on Canara since Act VII of 1844 came into operation and requesting the Board to state the Amount of Petitioner's claim and the extent to which similar claims may require to be adjusted & granting an authority for writing off in the accounts of Malabar the wastage of Tobacco which occurred.

occurred in that District for Fasly 1253.—

dated 12th April 1845 No. 180, the Most Noble the Governor in Council does not see that there is any thing further to be done on the subject, than to transmit in fulfilment of the promise made to the Government of India under date the 24th January 1845, and in obedience to the instructions recently received from the Honorable Court of Directors a transcript of the correspondence which has taken place with the view of inducing that Government, that the proposition to reimpose the Nawlut duties in the Western Provinces has been abandoned.—

Do. 15th Feb. 45 No. 96 para 3.
Do. 12th Nov. —a—u 182—a—2
12th Nov. —a—u 22-28 & 30.

2. The only question remaining to be adjusted, is the disposal of the unauthorized collections made in the Canara District since the 1st of April 1844 when Act No. VI of 1844 came into operation to the date the Nawlut duties were actually discontinued.— In the letter to the Government of India dated 24th January 1845 it was observed, in respect of these collections that "One of two Courses only "was open for adoption, either to legalize them "by a legislative enactment, or to refund the "Amount so collected."—

3 The former course cannot be recommended, now that the reimposition of the duties has been abandoned, but as a Petition has been presented to Government praying for a refund of the excess duty thus levied, His Lordship in Council resolved to transmit it to the Board of Revenue for report, with a request that they will state the Amount of the Petitioners' claim, and the extent to which similar claims may require to be adjusted, when the question will be finally disposed of by this Government.

Cond 17th June 1845 No. 469.

4. A further question which has been adverted to in the discussions on the Imposts of the Western Provinces is the Tobacco Monopoly, which has been under the separate consideration of Government in the Minutes of Consultation noted in the Margin, and regarding which a reference has been made to the Board of Revenue, with the view of ascertaining the practicability of modifying the Law, so as to secure a considerable revenue, and yet divest it of some of its most injurious features, and the Government await the reply of the Board and the opinion of the local Officers to bring this portion of the subject before the Government of India for final orders.

Dys 10th June 1846 No. 19-20.
" 16th Sept. —a—u—1—3

5. His Lordship in Council also grants authority for writing off in the Accounts of Malabar the Amount of Tobacco which occurred in that District for Fasly 1253, Amounting as reported in the Proceedings of the Board of Revenue, dated 5th May 1845, No. 308, to Candies 185-7-1½ of the value of Rupees 16465-5-2/ Six thousand four hundred and fifty five, Annas five, and

From the Collr.
of Rajahmundry

Sir,

I have the honor to submit
for the consideration of the Board of Revenue,
Copy and translation of a Complaint, filed
by Gillellah Bhanojy Ramers of Parvor,
in the Subordinate Court of Rajahmundry
in Suit No. 83 of 1845. against the Collect
=or of this District, and some others, claim
=ing 3 Pootties of Land at Parvor, attach=
=ed to Amlapoor Talook in this District
which form part of 10 Pootties of Enam
resumed by the Circar at the time of
fixing an allowance, upon the Office of
Despondiah, together with the Draft of
my proposed answer, and to request that
sanction may be obtained for defending the
Suit in question at the Public expense.

No. 1 Gentoo
No. 2
No. 83 of 1845.

To The Subordinate Court of
Rajahmundry

A Complaint filed by Gillalah Bhanojy
Ramers

Ramers of Paroor Plaintiff against Defend-
-ants, 1 T. Prendergast Esqre Collector of
Rajahmundry- 2. Mauncheranze Narasaraujee,
and 3 Sumparah Venkanah, Curnums of Paroor
and 4 Currah Caunnanah, Moonsiff of the
same Village.-

1- My ancestors long ago acquired
at Paroor Villages, 14½ Pootties of Lakrajy
Enam Land, which was entered in the accounts
taken by the Committee in the year Parabha-
-va of Fusly 1196-

2- In the year 1802, the Circar
resumed under Zeroyty, ten of the said
14½ Pootties of Land, which was acquired by
my Ansestors as above stated and in lieu thereof
fixed an allowance to my grand father, upon
the Office of Mazoomdar- and as my grand father
was then old, and my father was young the other
4½ Pootties of land was also included in the
Zeroyty at the instigation of our enemies- For
instance, the said 4½ Pootties of Lakrajyee
land were entered in our name since the year
1802, in the accounts of the Village which is
have been produced in the Collectors Office
but the land is not now in our enjoyment-
as this circumstance relates to land it

will

will be clearly known and cannot be con-
-cealed by any one- While we were regretting
the said loss we suffered another great injus-
-tice below noticed, which induced me to
bring the present suit in hopes of obtain-
-ing redress.-

3. About 200 years ago my grand fa-
-ther's father named Gillellah Ramiah Pun-
-toolo, had acquired as agraharum from
the then authorities 6¾ Pootties of Ashul-
Menaha land within the site of the Paroor
Village which was not connected with the
Zeroyty and gave in gift to the Braamins
P 7 M
2-9-10 thereof with houses for their dwel-
-ling reserving for himself the other 4-6-8
of land for his residence, by building
8 tiled houses wherein he and his 8 sons
remained a long time, and enjoyed the
4-5-6 of land as dwelling places.-

4- The said Ramiah Puntoolo
(my grand father's father) as well as 7 of
his eight sons subsequently died and the
eight dwelling houses built on the said
agraharum land became ruins; and my
grand father the surviving son of the

said

Said Ramiah Puntooloo, dug a Tank on that land and laid out a large sum of money upon it, and as this made the land fertile my grand father enjoyed it a long time – after the death of my grand father my father also made large repairs to the said agraharum land and enjoyed it a long time without any hindrance.

5. The circumstance of our said agraharum land, Viz.t 6 3/4 Pootties and the lands of other agraharums not being attached to Zeroyty but comprised in the Village site as ashun menaha lands is clearly evident by the Committee accounts of the year Parabhava or Fusly 1196 which is about 59 years ago, by the similar accounts Caulayekty or Fusly 1208 and by the accounts Viz.a since produced to the Cirkar.

6. While we were thus enjoying the said 6 3/4 Pootties of ashun menaha agraharum land some of our enemies presented a false Urzee in 1822 to Mr. Sewell, the then Head Assistant Collector as that this land which my father held as

(as agraharum land) formed a part of the 10 Pootties of land which the Circar resumed by fixing an allowance to my grand father as above stated – The said Gentleman referred that urzee to Vetchah Lutchmiah the then Amuldar of amalpoor Talook with instructions to enquire into the matter. The Amuldar came into the Village inspected the said lands, examined the Village accounts &c.a obtained information from the Village Moonsiff and Curnam of the true facts of the case and made a report to the Collector on 10.th March 1822, stating that the lands which the Cirkar resumed at the time of fixing an allowance to my Grand father in 1802 were entirely included in the Zeroyty Amaracum, and occupied by the ryots and not held by my father that my grand father's father had long ago acquired for agraharum 6 3/4 Pootties of land and gave a part of it for the dwellings of Brahmins retaining the rest for a long time, that as the houses built by him were ruined, the land itself was enjoyed by my father and

that

that the 6¾ Pootties of the said agraharum land was ashun menaha land attached to the Village site. In consequence of this report, the said false arzee was rejected and the whole agraharum land in question was enjoyed by my father as before, without any interruption.

7. About 12 years after we thus enjoyed the said agraharum land that is in 1834, our enemies again misrepresented as that my father had been enjoying a part of the land which was resumed from us at the time of fixing an allowance to my grand father and Mr. Crawley the then Collector without any enquiry into the matter issued an Enoitnamah to my father on 26th January 1834 to say that 3 of the 10¼ Pootties of land which had been resumed from us at the time of fixing allowance to my grand father were found less and that he did not know where that land existed. In passing this order the said Gentleman resumed under Zeroyty 3 Pootties (lying within the limits annexed) of the said agraharum land, which had been under our enjoyment

enjoyment from time immemorial with buildings for habitation &c. and which is not attached to the Zeroyty but forms part of the Village site as ashun menaha land.

8. It is not just for the Collector to resume under Zeroyty 3 Pootties of the agraharum land which has been from time immemorial under our enjoyment as dwelling &c. and which forms part of the Village site saying that some land was found deficient out of that which had nerely 42 years ago been resumed (upon fixing allowance to my grand father) under Zeroyty.

9. The said 3 Pootties of land which the Collector newly resumed from us is surrounded by dwelling compounds and Lakeraje Enams &c. but not by zeroyty lands, the land which was resumed by the Circar 42 years ago at the time of fixing an allowance to my grand father is lying about 2 miles distant from the said 3 Pootties of land, and not in the neibourhood, and there are Lakeraje Enams &c. of a good many people between these two lands. Consequently it is not practicable for us to have encroached upon the land which

which had been taken from us 42 years ago.

10. The other ancient agraharums namely Woomamahaswaroodoo agraharum Candragoolah Goonna-pa Puntolo agraharum &c. forming part of the Village-site, are all now under the enjoyment of their respective owners, it will also be proved by the inhabitants of this Village as well as by those of the several neighbouring Villages, that our agraharum is a more ancient one. It is therefore not just for the Collector to resume under Zeroyty 3 Pootties of land out of that of our more ancient agraharum.

11. I have stated in para 2 of this complaint the circumstances under which the remaining 4½ Pootties of our land were also included under Zeroyty when 10 of the 14½ Pootties were resumed in fixing our allowance to my grand father. While it was thus, it is not just to resume 3 Pootties of land from our said Agraharum, saying that a like quantity was found less out of the resumed 10¼ Pootties.

12. My father presented many arzees on the subject both to Mr. Crawley and his successors Messrs. Grant and Smith respectively - after the death of my father. I have also presented several arzees to Sir Henry Montgomery Bart, late Commissioner of Northern Circars, and the late acting Collector Mr. Bird but neither of them afforded us justice during the Jamabundy settlement as promised, owing to the

misrepresentation

misrepresentation of the Village Moonsiff and Curnums the 2d 3d and 4th Defendants who are my enemies. I have likewise presented some Arzees to the 1st Defendant, who merely said he would afford me redress, but I have as yet not obtained it.

As I could not thus obtain justice from the said authorities, I am obliged to file this complaint with a view of receiving it from your Court. The following is due to me from the 1st and other Defendants:

1. Lakeraje land bounded on the east by my compound in the land of the said Agraharum, on the south by a Channel called Dasa Codoo, on the west by a street, and on the North, partly by my dwelling place in the said Agraharum, partly by a Tank which was dug by my Ancestors, and partly by a Street in the said Agraharum, and 1 Lakeraje land bounded on the North by the Dasa Coodoo Channel, on the South by the Lakeraje lands of certain inhabitants, on the west by the boundary of Bodasa Cooroo Village and on the North by the said Dasa Coodoo Channel lying between my compound in the said Agraharum and the same land, in all two Pieces of Lackeraje land bearing on

annual

Fort St. George 16th March 1846

annual Cist of 75 Rupees ——— 3 Poottles

When the Collector resumed the said land from us as we received its produce for the year Jaya or fusly 1214 the amount of produce due to me from fusly 1215 to 1254 being ten years — Pdas 750

I therefore pray your Court will be pleased to examine my witnesses and documents and pass a decree adjudging the 1st Defendant to give me the above together with the subsequent produce, also the 1st and other Defendants to pay me the Costs of the Suit. Please to peruse.

To The Subordinate Court of

Rajahmundry

A proposed answer to be filed by T. Prendergast Esqre Collector of Rajahmundry to the complaint from Pellelah Bhoneyy Ramen Plaintiff in case No 83 of 1845.

Plaintiff states in his complaint that his ancestors held 11 1/2 Poottles of Lakhraj Enam land as shewn in the Committee's accounts

Fort St. George 16th March 1846

accounts of fusly 1196; that in the year 1802 the Circar resumed under Zeroyty 10 Poottles of this land, and in lieu thereof fixed an allowance to his grand father upon the Office of Mazoomdar that the remaining 1 1/2 Poottles were also included under Zeroyty owing to the infancy of his father and old age of his Grand father that Mr Crawley the late Collector resumed as Zeroyty 3 Poottles of land forming part of the Agraharum land which had been under the enjoyment of Plaintiffs family for a period of 200 years out of the Village site (and confirmed by the Committee Accounts of fusslies 1196 and 1208 as well as by a report from the Amuldar of Amlapore Taluk to Mr Sewell the then Head Assistant Collector under date 10th March 1822) stating in an Enamnamah dated 25th January 1834, that there quantity was found deficient out of 10 1/4 Poottles, which had been resumed at the time of fixing an allowance to Plaintiffs Grand father and that his late father and himself addressed several Arzees to Mr Crawley late Collector, and his successors, but could not obtain redress. He therefore prays the Court to examine witnesses and documents, and pass a Decree for the recovery of his said 3 Poottles of land together with

with the past, produce amounting to Rupees 750 and Court charges.

In reply to the above the Collector begs leave to state that the statement of the Plaintiff that his ancestors held 14½ Pootties of Enam land is incorrect for had it been true, they would have enjoyed the same quantity of land up to the time the money allowance was fixed in lieu of the Office of Mazoomdar of the Bhoobund accounts which were taken from fusly 1197 to 1210 for the information of the Permanent assessment those of fusslies 1197 and 1210 shew the individual detail of the Enam lands, while others merely exhibit the Total quantity of land shewing also that certain new Enam lands were resumed under Zeroyty. The Bhoobund account of fusly 1197 specifies 14½ Pootties of Enam land in the name of the Plaintiff's Grand father Bhongy Ramers but that of fusly 1210 shews only P. T. In 11-2-14 of land. By this it is clear that the remaining 1-½ Pootties of land alleged by the Plaintiff to be Enam, formed part of the Zeroyty and that neither his Grand father nor his father had inconsequence ever claimed it. As the P. T. In 11-2-14 of land specified in the Bhoobund Account of fusly 1210 was attached

attached to the Office of Mazoomdar and under the Provisions of Regulation XXIX of 1802 abolishing all Offices but that of Cumum, as the Government issued instructions for the resumption of the lands of Despondiahs and Mazoomdars and payment of money allowance on life tenure, the quantity of land actually held by the Plaintiffs Ancestors in Paroor Village Vizt. 10 Pootties, was resumed along with their other lands comprised in several Estates, amounting in the aggregate Pootties J Gr. to 122 — 3 — 13 and in lieu thereof a money allowance of Star Pagodas 620 was paid them during their life time, according to the Register submitted to the Board by Mr. Collector Churchill under date the 7th September and sanctioned by Government on 27th October 1804. In fusly 1222 when the Dumpwar Cist of the Village was entered, it was discovered that there were only 7 7/16 Pootties of land instead of 10 Pootties resumed from the Plaintiffs Ancestors on fixing their money allowance as above stated and certain persons of the Village complained of Plaintiffs ancestors clandestine enjoyment of the remaining land. As the Annuldar of amlapoor Vitcha Lutchmiah reported in fusly 1232 to Mr. Sewell the then Head Assistant Collector that the land resumed

at

at the time of fixing Money allowance to the Plain-
=tiff's ancestors was included in the Zeroyty; an
order was issued in fusly 1236 to ascertain where
the said 10 Potties of land were situated and
the then Amuldar of Amlapoor reported
that there were only 7¼ Potties according to the
Pumpowar and that the other 3 Potties were
not found. In fusly 1243 the late Collector
Mr. Crawley enquired into the whole matter
resumed under Zeroyty at the settlement of
that fusly the 3 Potties of land which form-
=ed part of the said resumed 10 Potties
and which were under the clandestine enjoy-
=ment of the Plaintiff's father, and fixed
thereon a sist of 7 5 Rupees. Hence from fusly
1243 to fusly 1254 a period of 12 years the land
in question uninterruptedly paid Zeroyty
Cist to the Circar. If the act of Mr. Crawley
in resuming the land were unjust the father
of the Plaintiff who was a competent
person would not of course have refrained
from bringing his complaint before the Court.
The Court will also perceive that the present
claim of the Plaintiff for land which has paid
Zeroyty Cist to the Circar for a period of 12
years is contrary to the provision of Section 17
Regulation

Regulation XXXI of 1802.

No mention was made in any account up to fusly 1244 of what quantity of land was granted to Plaintiff's Ancestors for the erection of an Agraharum - but the Bhoo-
=bund of fusly 1245 shews that 9 3/4 Potties of land were held under Agraharum that is after the resumption of the 3 Potties of the said concealed land under Zeroyty by Mr. Collector Crawly in fusly 1243, conse-
=quently no order was issued for resuming under Zeroyty any of the Agraharum land it is unknown from whom Plaintiff's Ances-
=tors took land for Agraharum now is it to be believed that they reserved P. 4 — F. 5 — M. 10 — thereof for their dwelling — If any of such land was really resumed a suit should have been brought immediately for the same. The Court will find that the present com-
=plaint brought by the Plaintiff 12 years after the alleged fact, in consequence of the resumption of the 3 Potties of the said concealed land is not true.

Under all these circumstances the Col-
=lector trusts that the Court will be pleased to ex-
=amine the facts of the Case, and non suit the Plaintiff with costs.

/Signed/ J. Prendergast
Coll.r

Ordered that the foregoing letter be submitting with the following address:-

To The Chief Secretary to
Government

5-6

To the Chief Secy. to Government

Submitting a letter from the Collr of Rajahmundry reporting the institution of a Suit No. 83 of 1845 against himself and others in the sub Court of that Station for the recovery of 3 Postties of the Plaintiffs Agraharum Enam land resumed under orders of the Collr in 1834 and for the value of the produce of that land for 10 years estimated at Rs. 750, and recommending that the Collr may be allowed to put in the answer prepared by him and to conduct the defence of the Suit at the Public expence.

24th Judicial Con. 16th March 1846.

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Rajahmundry reporting the institution of a suit against himself and others- No. 83 of 1845- in the Subordinate Court of that Station - sending also Copy and translation of the Plaint and draft of the answer which he proposes to file in the case:-

2. In the Plaint the suit is stated to be brought for the recovery of three Postties of Plaintiffs Agraharum enam land resumed under orders of the Collector in 1834 - and for the value of the produce of that land for 10 years estimated at Rupees 750:-

3. In his proposed answer the Collector represents that the three Postties of land resumed by Mr Crawley in 1834 were not agraharum land, but part of the 10 Postties of land formerly attached to the Office of Mozoomdar - that in accordance with Regulation XXXI of 1802 the office of Mozoomdar in the Village of Parvor - held by

Plaintiffs family, was abolished - the Enam- land resumed, and a pension granted in lieu of them - that nevertheless it was after- wards found in 1834 that Plaintiff had continued to retain three Postties of the ten- already mentioned as Enam - and that on the discovery being made by the then Collector Mr Crawley those three Postties were annexed to the Jeroyettee or assessed lands - This occurred in 1834 and as the lands in question have paid Jeroyettee assessment since that time or for 12 years - Plaintiffs claim would un- der any circumstances be barred by Regu- lation XXXI 1802 Sec: IV - It must further be evident that Plaintiffs pretensions are un- founded or he would have brought them - forward at an earlier period:-

4. The answer of which an abstract has been above given appears to the Board to be sufficient and as they presume that the facts stated in it can be established by the revenue accounts, they beg to recommend that the Collector may be allowed to put it in and to conduct the defence of the suit at the public expence:-

From the Collr of Rajahmundry. } Sir,

I have the honor to state for the information of the Board that the Summabundy Report called for in your letters of the 26th Ultimo and 15th Instant was furnished and delivered to be transcribed several days ago, but owing to my being suddenly separated from my Cutcherry by some Police affairs of great importance, which called for my immediate attention 50 miles off some unforeseen delay has occurred. The Report will probably be despatched in four or five days hence.-

I request that the accumulation of business which occurred while I was prostrated by the Hill fever has prevented me from concluding it sooner. The Annicut Report shall be despatched also within this week.-

From the Collector of Sir,
Masulipatam - 2 Para 1.

Submitting Copy and translation of a Petition addressed by the Mylaveram Zemindar containing certain propositions for averting the sale of his Estates and recommending Compliance therewith.-

To the Board 28th June 1845.-
From Do 3rd Nov.
To Do 24th Do
From Do 26th Jan.y 1846
To Do 5th February
From Do 16th Do

With reference to the correspondence noted in the Margin, I have the honor to forward Copy and translation of a Petition presented to me by Rajah Sooranany Vencatapaty Row, Zemindar of Mylaveram, containing certain propositions made with the view of averting the sale of his Estates, which has lately been ordered, on account of the large Amount due upon them to private Creditors and to the Government.-

2. It would appear from this Petition that the Sowcar, who has been mainly instrumental in getting the Mylaveram Estates ordered for sale, finding that in consequence of the prior claim possessed by Government, he is in danger of losing the amount of his own claim altogether, has consented, in the event of the sale being countermanded to postpone his demand until that of the Government may have been satisfied, and the Zemindar is thereby enabled with

with his consent and that of the other Creditors, to propose the following arrangements for the discharge of his arrears of Peishcush.—

1st He promises that the remaining balance still due on the Mylaveram Mootah, on account of which Rupees 6,000 have already been paid, shall be made good in the course of a week. in consideration of which he trusts that the interest due upon them this balance may be remitted.

Mylaveram Mootah.
Balance— 7,202–1–8.
Paid— 6,000–0–0
Remaining— 1202–1–8

2nd On account of the amount due on the 4 co Mootahs of Kykaloor. Boojahalapatam, Valamadum and Chintalapoody, he promises an immediate payment of Rupees 7,000 and an additional payment of Rupees 8,000 within the close of the Current Fusly. the Estates still remaining under Circar Zuptt. The remainder, exclusive of interest he proposes to find adequate security for making good by three annual instalments.—

3rd The Estates of Toomey and Chena Ponraaa on which the arrears are admitted to be hopeless to be disposed of agreeably to the advertisements already published.—

3. It will be observed that the terms above set forth, are essentially different from those proposed in my letter of the 28th June last. which as no notice by the Board, involved the postponement

of the Government demand for an almost indefinite period, and the sacrifice of half the annual surplus of two of the Estates, to meet the demands of the Creditors, which are now proposed to be placed in abeyance until those of Government are satisfied. with this view of the case, and seeing, that on a former occasion the Board were pleased to postpone the sale of the Boojalapatam Mootah on an arrangement being effected with the Creditor at whose instance it was about to be sold, I venture to recommend the present proposition to the Board's favorable consideration, and request their orders upon it.—

From Board 31st May 1841.

4. In the mean time, I shall in the absence of any orders to the contrary, proceed to offer the Estates in question for sale on the day fixed in the advertisement. The sales being subject to the confirmation of the Board, any orders which may be passed on the present reference, will not in any way be affected by their having taken place previously to the receipt of such orders.—

Masulipatam Zillah,
Coll[r]'s Circuit Cutcherry,
at Nayoor 1st March 1846.—

/Signed/ R. T. Porter
Collector.

No. 1.

Translation of an Arzee to R. T. Porter Esq[re] Collector in the Zillah of Masulipatam by

Rajah

Fort St. George 16th March 1846.

Rajah Sooranany Vencatapaty Row Zemindar of Mylaveram and Chintalapoody &c. Purgunah.

Dated the 5th March 1846.

1. Under the sway of the Honorable Company the ancient Zemindaries have from feelings of compassion been supported and security afforded in every way against any injury, by which they (Honorable Company) won boundless fame and reputation. We, from time immemorial with great dignity and repute, had merited the favor of the authorities and paid the full amount of Peishcush on our Estates every year with much punctuality without ever allowing it to fall in Arrear. While the case was thus the grievous famine which prevailed in the year Nundanahr, or Fusly 1242, had in many ways reduced the Talooks composing my Estate to a state of entire deterioration, by which a balance of Peishcush to some extent remained unpaid against the Talooks for which with the exception of Mylaveram, the whole of them were attached notwithstanding this, I am anxious to pay up the said balance due to the Circar and to have the Talooks in question released from attachment.—

2. From the means which the Roots

Fort St. George 16th March 1846.

of Mylaveram, Valawadum, Kykaloor, Choogalapatam and Chintalapoody with the exception of Chena Pondraca and Toomedy appertaining to my Zemindary, possessed for the discharge of the Arrear from year to year a portion thereof has already been liquidated accordingly, and it is not improbable that the remainder will likewise be discharged because Government have been pleased to put the sources of irrigation in repair, and have done much for their improvement: while it was so, one of my Creditors by name Breje Mohundoss Sowcar, thro' my Gloomy Stars has endeavoured to bring Kykaloor Mootah one of the said Estates to sale on account of the debt due to him, and I have been exerting myself to satisfy him and prevent him from doing so: this circumstance is well known to your Honor. But a Proclamation has been lately issued, by which it appears that Government have when informed that the Sowcar has forced the sale of Kykaloor Mootah on account of his debt, directed the sale of all my Estates for Arrears due thereon up to Fusly 1254, as well as on account of the Kists up to January last of the Current year.—

3. As the adoption of this measure tends, not only to the great injury of myself, but also to ruin my Creditors. I have therefore made some arrangements as

Fort St. George 16th March 1846.-

as set forth in this Arzee with the view of satisfying my Creditors, Viz.t to pay at present in ready money a portion of the principal Amount on account of arrears due to the Circar against my Estates, and to discharge the remainder by short instalments, leaving the Estates in the meantime to continue under the Circar's attachment until the whole amount of arrears shall have been so discharged. I also propose some other arrangements on the subject, which I humbly beg your honor will be pleased to take into your indulgent consideration, and recommend them to the higher authorities. There is a balance of Rupees 7,202-1-8 due on the Mylaneram Mootah, Viz.t Rupees 4,297-14-9 on account of arrears up to Fusly 1254, and Rupees 2,904-2-11 for Current Kists up to February of this, a sum of Rupees 6,000 has been remitted to the Treasury. The remainder Rupees 1,202-1-8 will be paid within a Week. As in consequence of the Famine alluded to above, the Villages of the Mootah have been reduced to a deteriorated condition by which the said balance remained unpaid, I humbly crave your honor will kindly order the amount of interest charged on the arrear to be remitted and condescend to protect me as well as my Estate.-

Mylaneram Mootah.
Principal sum due thereon-Rs. A. P.
Arrears up to Fusly 1254- 4,297-14-9
Do for the Current Fusly 1255- 2,904-2-11.
7,202-1-8.

Moreover-

Fort St. George 16th March 1846.-

Bhoojabalapatam Mootah arrears up to Fusly 1254- Rs. A. P. 20,631-5-10.

4. Moreover there is an arrear due of Rupees 20,631-5-10 up to Fusly 1254 on the Bhoojabalapatam Mootah. This Mootah is now under the Circar attachment, and the Villages therefore stand mortgaged by virtue of a Ranzeenamah filed in the Court to Vutteem Cristna Sastrooloo, Pothoory Roosal Ramiah and Vetcha Bhamiah. I propose the following instalments for the discharge of the arrears of Pishcush Viz.t Rupees 20,631-5-10 due on the Bhoojabalapatam Mootah.-

Amount to be paid at present ——— 5,000-"-"
Do ——— Do within the end of Fusly 1256- 5,200-"-"
Do ——— Do within Fusly 1257 ——— 5,200-"-"
Do ——— Do at the close of Fusly 1258— 5,231-5-10.
20,631-5-10.

and which I agree to pay accordingly. The available resources of the Current year are sufficient for the payment of the Current Kists within the Fusly.- This Mootah should, until the said Arrear is discharged be continued under attachment, and if there be any surplus during the Circar Management it will be paid on account of the said instalment at the end of each year and if there be none, I will engage to pay myself the said balance according to the above instalments for which sufficient Security will be tendered by my said Creditors to whom the Villages of the Mootah are

are Mortgaged as above stated.-

5. Besides this, there is a balance on account of arrears of Rupees 18,544-6-1 due up to 1254 from the Kykaloor Mootah. This also stands mortgaged by virtue of a Razeenamah to Brejee Mohundoss Sowcar. I propose and agree to pay the said arrear by the undermentioned instalments.-

Kykaloor Mootah. arrears due up to Fusly 1254 — C.R. A.P. 18544-6-1

	C.R.	A.P.
Amount to be paid immediately	5000	--
Do. up to the end of Fusly 1256	4,500	--
Do. up to the end of Fusly 1257	4,500	--
Do. Do. Fusly 1258	4,544	6-1
	18,544	6-1

The said Brejee Mohundoss Sowcar who is the Mortgagee of the Kykaloor Mootah has, under the same arrangements as were entered into with the other Creditors to whom the Bhoojabalapatam Mootah is under Mortgage, promised that he will bind himself to act in like manner as regards the Arrear without resorting to the sale of the said Mootah on account of the debt due to him; and that he will receive in liquidation of his debt any surplus that may remain after the discharge of the balance due to the Circar. And to this effect he will present an Arzee. As the arrears due on this Mootah had accrued owing to the famine

above

above alluded to, I beg your honor will forego the interest charged on the same, and save my Estate from sale on that account. From the resources now under the custody of Circar the current Kists will be paid within the Fusly.-

6. The Creditors to whom the Bhoojabalapatam Mootah is mortgaged are persons of a respectable character and of great note, and have submitted Petitions to the Board agreeing that they will not force the sale of the said Mootah on account of their debts, and that they will receive the amount thereof after the balance due to the Circar shall have been paid in full. Independently of this, I will tender security and will pay punctually the above instalments.-

7. On the Valawadum Mootah there is an arrear of Rupees 38,543-1-11 Outstanding up to the end of Fusly 1254. This Mootah is now also under the Circar attachment. The said arrear I propose to discharge as stated below.-

Valawadum Mootah arrears up to Fusly 1254 — C.R. A.P. 38,543-1-11.

For Fusly 1255. C.R.

To be paid immediately		4,000
Amount proposed to be paid at the close of Fusly from the estimated surplus resources	5,000	9,000-"-"
Up to the end of Fusly 1256		10,000-"-"
Do. Do. Fusly 1257		10,000-"-"
Do. Do. Fusly 1258		9,543-1-11.

I agree to pay the same accordingly & further I shall get some credible people and other Pettanadars of the Mootah to execute Security Bonds for the punctual discharge of the said balance. The arrears due on the said Mootah and proposed to be discharged by instalments will be paid from the profits derivable at the end of each Fusly, and the balance that might still remain or the whole amount of the instalments, should there not be any surplus, will beyond doubt be paid in full either by myself or those who may stand Security for the same as asserted to above. The arrears on this Mootah having also accrued from famine, your honor will be kind enough to remit the interest charged thereon, and save my ancient Zemindary which is the sole means of our livelihood.

8.

Chintalapoody Purgunah arrear up to Fusly 1254 Rs. A. P. 23159-6-5

The arrears outstanding up to Fusly 1254 on Chintalapoody Purganah Amounts to Rupees 23159-6-5 for which it is now held under attachment. This arrear I propose to pay by the undermentioned instalments.

For Fusly 1255.

To be paid immediately ---------- 3000-

To be paid from the Surplus of the Purganah at the end of Fusly ---------- 3000. ---------- 6000-"-"

Amount to be paid within the Fusly 1256 ---------- 5700-"-"

Do. ---------- Do. ---------- Do. ---------- 1257 ---------- 5700-"-"

Do. ---------- Do. ---------- Do. ---------- 1258 ---------- 5759-6-5.

23159-6-5.

For the due discharge of the said arrear in the manner proposed, I shall cause Security Bonds to be executed by respectable inhabitants in the Villages of the said Purganah as well as by others. I as well as the said Securities, bind ourselves without fail to pay the said amount according to the instalments prescribed above. Should there be surplus receipts in the Purganah, the arrear will be paid from it. if otherwise by separate money payment. I therefore most humbly pray your honor will take the foregoing circumstances into your indulgent consideration and kindly order the interest charged on the principal sum of the arrear due on this Purganah to be forgone as the same had accrued chiefly from famine &c.

Principal amount of arrears due up to Fusly 1254. Rs. A. P.
On Toommedy Mootahs 3543-1-11
On Chena Pondreca Mootah 5150-3-9

The balance outstanding on Toommedy and Chena Pondreca Mootahs is as noted in the Margin. Unless repairs are made to the sources of irrigation, the said Mootah cannot be brought into improvement, and if they are made over to me after remitting the arrears now due, the Annual Peishcash might be punctually paid. But as I am solicitous of your assistance as regards the other Estates belonging to me, I cannot hope for it in respect to these Estates also. As thus I am unable to retain them, I leave them

them to be disposed of in any manner as your honor may deem proper.-

10. I now most respectfully beg to represent that I have with a view to merit your honor's favor got with great difficulty the Securities &c.a to execute Security Bonds engaging to pay immediately in ready money into your Treasury on Bhoojabalapatam Mootah Rupees 5,000; on Kykaloor Mootah Rupees 5,000; on Valavadum Mootah Rupees 4,000; and on Chintalapoody Purganah Rupees 3,000; making total Rupees 17,000, as also for payment at the end of Fusly Viz.t Rupees 3,000 on Chintalapoody Purganah, and Rupees 5,000, on Valavadum, in all Rupees 25,000, as well as to pay up the remaining balance by three yearly instalments, and continue discharging the annual Peishcush in full without failure, consequently there cannot be any doubt for paying up the arrear as well as the Peishcush. In the event of my failing to pay the amount of any of the instalments, the sale of the Estates now ordered by Government may without hesitation be then resorted to. By a compliance with the propositions now submitted and carrying them into effect, a sum of Rupees 25,000 in ready money will be paid into the Treasury

Viz.t Rupees 17,000 immediately and right thousand Rupees at the end of the Fusly, and the remaining balance will also be paid according to the abovementioned instalments without any impediment both from the surplus money as well as by the Sureties. and by doing in this manner, my estates would be secured to me until the said propositions can be carried out, the several Mootahs should be retained under attachment. By the adoption of these arrangements the debts due to my Creditors who on the security of my Estate lent to me sums of money, shall also be punctually discharged. None of the Creditors have insisted on the sale of my Zemindary at present as Arzees have been submitted by them to the higher authorities to that effect. The Honorable Company under their Government have protected by every means the Estates of the ancient Zemindars like myself and facilitated the discharge of the debts due to the Sowcars by whom money was lent for paying the Peishcush &c.a due to the Circar, and have thereby acquired great fame and reputation for their generosity.-

The Honorable Government

11. thro' their liberality have subsequent to the famine

famine supported the Zemindary Estates by devising means for their preservation and saved from decay the Zemindary System to which only its existence is now owing or which if they treated with indifference would have ere now become extinct. Independently of this, the Honorable Government are maintaining many Zemindary Samastanums by reducing the Peishcush, by writing off the arrears and by advances from their Treasury. If the Estates are sold entire no person would come forward to purchase it and to keep it for a time. neither do I wish their being now sold. I here beg to represent to your honor as regards the capabilities of my Zemindary Estates. That if any one Estate of Chintalapoody, Kykaloor Bhoojabalapatam and Valavadum be subdivided and the Villages thereof put up to sale, the whole amount of the arrears due by me on all the Mootahs respectively will be recovered by the sale of some Villages only of that Estate, while the other Villages as well as the entire other Estates will remain for me. Such being the case, if the whole of the Mootahs on account of the small

amount

amount of arrear outstanding against each of them are to be sold, the dignity and fame maintained from time immemorial as well as the respectability of the Zemindary will be at an end, and moreover it will throw me in gloom and obscurity without any hope of extricating myself from such a scene of dismay, while the debts due the Creditors, who depending on me, my Estates and Laws of the Established Government lent money will fall into oblivion, by which I shall for ever suffer contempt by my equals and others inasmuch by of the loss of all morality in this and the other world. The authorities who naturally wish for the prosperity and happiness of all their subjects had hitherto supported the Zemindars as Myself like their own Children and upheld our dignity by preserving our possessions from any injury. I am full of hope that in the fall possession of my Estates. I shall ever be happy with due obedience to Government and in gratefulness praying for the augmentation of its prosperity.-

I am

Fort St. George 16th March 1846.

12. I am fully confident that the authorities after taking the foregoing circumstances into their indulgent consideration condescend to do good to me and support my Estates, on which the permanent maintenance of myself as well as my dignity and rank in life solely depend, and by which the claims of the Creditors may be satisfied, who in lending money naturally look for the discharge of their debts. In conclusion, I most respectfully beg again to repeat that your honor will out of compassion and favor take the said circumstances into your kind consideration and submit this Urzee to the Honorable the Board of Revenue supported by your favorable recommendation, and preserve my Estates from being brought to sale.—

(Signed) Rajah Sooranany Venkatapaty Row
Zemindar of Mylaveram and Chintalapoody &c.

(True Translation)
(Signed) R. T. Porter.
Collector.

9-10

To the Coll.r in the Zillah of Masulipatam

Informing him that the Board are constrained to adhere to the orders for the Sale of the Mylaveram Zemindary already communicated to him.

Sent Coll.r 16th March 1846

Ordered that the following letter be sent in reply—

Fort St. George 16th March 1846.

To
The Collector in the Zillah of
Masulipatam.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 7th Instant, submitting Copy and translation of an address from the Mylaveram Zemindar in which that individual proposes certain arrangements for averting the sale of his Estates, and recommending that the application be complied with.—

Para.

2. In reply the Board instruct me to inform you that they have given their best consideration to the proposal made by the Zemindar but that they feel reluctantly constrained to adhere to the orders for the sale of the Estates already communicated to you. Even supposing the terms now offered could be kept by the Zemindar (which the Board cannot but regard as very questionable) four years must elapse before the Government demand on that portion of the Estate which he would retain could be satisfied. A much longer time would afterwards be required for the discharge of his private debts, and the Board have no confidence that the Zemindar would or could abstain during

during so long a period from incurring fresh liabilities - On a careful review of all the circumstances connected with the subject it still appears to the Board that the extrication of the Zemindary from the public and private claims upon it is hopeless - and even were the interests of the Proprietor alone to be consulted, his personal comfort would in their opinion be more effectually promoted by the sale of his Estates, and by the assignment of some moderate provision for his support, than by the adoption of expedients which can could at best only defer for a while that crisis in his affairs which the Board cannot but regard as inevitable.—

Revenue Board Office
Fort St. George
16th March 1846

(Signed) T. Pycroft
Secretary -

Read the following letter from the Head Asst. Collector in charge of Guntoor dated 25th November 1845, reporting on the Settlement of the Extra Sources of Revenue in that District for Fusly 1254 —

A.D. 1844/45.

Here enter No. 110.

II

Proceedings thereon Relative to the settlement of the Extra Sources of Revenue in the District of Guntoor for Fusly 1254 A.D. 1844/45

Para 1. The Settlement of the Extra Sources of Revenue for the Fusly under review

review shows, as per Statement annexed to Para 2 of the Report, an Increase of Rs. 24.306-13-11. by comparing the Frontier Collections only with those of the preceding year; but if the whole proceeds of the General Sayer Revenue be taken into account, the result would be a Total Decrease of Rs. 17.100-8-7 below the Settlement of the antecedent year - The Increase in the different branches was general, excepting only in that of Stamps, in which there was a falling off of Rupees 1735-7-8. below the receipts on that account in the preceding year, which reduced the net increase to Rupees 22.575-6-3 as shown in the Statement above referred to.—

Salt

Increased Rs. 9.151-10-3

2. The Increase in the Salt Revenue of Rupees 9.151-10-3 is ascribed principally to the increase in the price of that article from 105 to 120 Rupees per Garce and also to the enhanced sale to Home Merchants and Lumbadies, and to increased Exports to the neighbouring Districts.—

Frontier Revenue

Increase Rs. 7235-12-1

3. The increase of Rs. 7235-12-1 in the Frontier Revenue, as exhibited in the Statement annexed to Para 7 of the Report, is explained to have resulted from the operation of

of Act VI of 1844. and from the subsequent Instructions furnished by the Board regarding the Collection of Frontier duties. The chief items of Increase in the Exports occurred in Cloths. Tobacco and Grain, which latter was largly exported to the Nizam's dominions during the year. The Imports exhibits a slight increase being chiefly confined to Dying Bark and skins.—

Abkarry Increase Rs. 627-15-"

4. The Abkarry was under rent, and realized Rupees 627—15—" above Fusly 1253, the whole demand being Collected within the Fusly and subsequently.—

5. Of the arrears of former Fuslies 1248 and 1249 there remained a balance of Rupees 9-4-8 as shown in P. 16 of the report, which being of long standing and hopeless recovery, the Board beg to support the recommendation of the Head Assistant Coll^r in charge that Government will be pleased to sanction its remission.—

Sundry Small Farms Increase Rs. 162-4-"

6. There was a small increase in this branch of the Revenue of Rupees 162-4-" above the previous Fusly 1253, in which Fusly there occurred a decrease of Rs. 504-8-" from the destruction of the Palmyra and Date trees by the storm of 1843.—

The

Fusly 1253 Rs. 96-8-2
1252 " 3-2-"
1249 " 9-4-"
1248 " 24-13-4
" 133-11-6

7. The Head Assistant Collector submits with reference to the Boards' Proceedings of 27th January 1845. the Statement as per Margin of the Arrears of previous Fuslies remaining undischarged under this head amounting to Rs. 133-11-6. of which the sum of Rupees 21-11-4 he considers irrecoverable, and recommends for remission which the Board beg to support.—

Stamps Decrease Rs. 1735-7-8.

8. The Collections from the Sale of Stamp Papers in Fusly 1254 exhibits a Net decrease of Rs. 1,735-7-8 below that of the previous Fusly. the result of an increased Sale of Money Papers in demand at the Zillah and Sessions Courts. and decreased sale of Sayer Rowanahs consequent upon the operation of Act VI of 1844.—

Moturpha

9. In the Moturpha Revenue of Fusly 1254 there was an increase of Rupees 4,823-12-" above the outturn of the antecedent years, which is principally ascribed to the returning prosperity and resources of the District from the effects of the disastrous famine of the years 1832 & 1833 which has enabled the Revenue from this source to revert to its former standard when it had been reduced to

Fusly 1253 Rupees 34,866-9-11.
1254 " 39,690-5-11
Increase 4,823-12-11.

P. 23 & 24

Fort St. George 16th March 1846

to meet the exigencies of the Times.—

10. Of the arrears of former Fuslies there remained a sum of Rs. 271-11-6 due at the close of Fusly 1254, in the proportion noted in the Margin, respecting which the Collector will be pleased to institute inquiry and communicate the result with his own opinion in the ensuing annual report.—

F. 1253 - 66-9-6
" 1252 - 70-5-4
" 1251 - 117-14-8
" 1250 - 16-14-"
271-11-6

Charges

11. The Charges incurred on account of the several branches of the Extra sources of Revenue for the Fusly under review exceeded those of the antecedent year by Rs. 31,345-4-5. of which the sum of Rs. 31248-14-" in the Salt Department constituted the principal item, and was incurred on account of hire to Manufacturers and other contingencies arising from an increased Manufacture of that article which amounted to 4,85,103 Indian Maunds above the Manufacture of the preceding Fusly. The remaining items being of small import, do not seem to require particular notice.—

Increase Rs. 31345-4-5

P 26 & 27

Demand Collection and balances.—

12. The total net Revenue derived from all Extra Sources exhibits a Decrease of Rs. 44,534-6-9. The total Collections on account of Current Demand amounted

Fort St. George 16th March 1846.

amounted to Rs. 4,36,433-3-10, leaving a Balance at the close of the Fusly of Rs. 6,943-5-5, which has since been realized up to the 15th November 1845, with the exception only of Rupees 455-6-11.—

Ordered that a Copy of the foregoing Extract from the Boards Proceedings with the annexed Comparative Statement of the Collections charges and net revenues be submitted to Government and a transcript of the same be forwarded to the Collector of Guntoor for his information and guidance.—

Read the following letters.

To H. Pycroft Esqre
Secretary to the Board
of Revenue
Fort St. George

Sir.

12

From the Collr of Guntoor. Reporting on the allegations of mismanagement contained in petition No 31 of 1844.

Para 1. The accompanying petition was transmitted to me with Mr. Lovell's letter dated 29th February 1844. directing me to investigate and report upon the Statement in para 12. that balances in the Palnaud remitted by Government had been fraudulently collected by the Public Servants, and to take such notice of the other allegations as might be considered necessary.—

2. The petition reached me after I had finished the Palnaud Settlement for fusly 1253 and when I was busy with the Jummabundy of another part of the District. so that I could not without stopping Current business, return to make the required investigation in person and I considered it hopeless to employ on such an occasion the establishment who were the parties accused. I sent however for such of the individuals whose signatures were annexed as could be indentified, several

attended

attended and disclaimed any knowledge of of the matter—

3. A complaint, that some of the balances suspended by Mr. Goldingham on account of losses of crops in Fusly 1248 and 1249 had been appropriated by the servants, had been made to me when I was settling the Palnaud in January 1843 and I then deputed a person to examine into the balances in the Village of Dooghee. At first some of the rayets denied that there was any balance against them, but when they came before me they retracted their Statement and said they had not properly understood their accounts. The rayets of the Dachapully Sanah were questioned in my Cutcherry as to the truth of the balances standing against them which they admitted, and when the Puttas were distributed, they were distinctly informed of the amount remitted.—

4. Under these circumstances, tho' by no means satisfied that the complaint was false I felt persuaded that proof was not forthcoming— Both the ameens of Palnaad referred to in the Petition have since been dismissed.—

The

5. The other allegations in the Petition refer to matters which have since been investigated by the Commissioner and I would suggest that it be furnished to him should the Board think it necessary.—

6. I will add, that both from the hand writing the style and the contents of the Petition I received a strong impression that it was the production of a party who was anxious for employment and who I believe furnished Mr. Elliot with similar information after his arrival in Guntoor - Tho' I greatly suspected there was too much ground to impugn the honesty of my establishment I still thought the decrease of revenue to a great extent inevitable under existing prices and I felt my hands tied during Sheshagherry Row's continuance at its head from discovering the truth of what was stated.—

18

From the Coll.r of Bellary—

Reporting with reference to the Boards Proceedings of the 8.th December last that the Rajah of Soondoor has given his consent to make over the site selected for a sanatarium on the Ramdurgum Hill & noticing with his opinion a objection which presents itself in regard to the management of Police on the Table Land of the Droog.

Sir,

Para.a 1. With reference to the Extract from the Minutes of Consultation under date the 18.th November 1845 No.a 1333 annexed to the Boards Proceedings of the 8.th December last forwarding Copy of a letter from the Brigadier General Commanding the Ceded Districts (with Enclosures) and calling upon me to report whether there are any objections to the Establishment of a Sanatarium for Europeans at Ramanamalay and to ascertain and Communicate the terms on which the Soondoor Rajah is willing to make over the proposed site to Government for the purpose intended I have the honor to acquaint you for the information of the Board and Government that I am aware of only one objection to the Establishment of the Sanatarium. There is no doubt the Rajah would be willing to make over the site selected for the Institution But, the objection which presents itself to me is the management of the Police

on

on the Table Land of Ramanmaley There is a small Village there and the Ryots thereof are the subjects of the Rajah Should any of them be implicated in any offence in which British subjects may happen to be a Party the case ought to go to the Rajah for enquiry and disposal according to the Spirit of his Summed determined by the late correspondence regarding jurisdiction in Criminal Offences committed in his Territory and according to the practice which has hitherto obtained.-

2- It cannot be denied that in a place resorted to by Europeans and their servants and followers (British subjects) disputes and Petty Offences must be expected Provision must be made for these occurrences. Under the present state of the Case the jurisdiction rests with the Rajah.-

3- I should have replied to this letter sooner, but I wished to be in possession of the Rajahs inclinations on the subject I submitted by letter to him the following Proposals to be of course finally accepted or not at the pleasure of Government.-

dated 20th Decr 1815.-

W. Petter.

1st Whether he would give up the whole Table Land with the Village the springs and the Lake and take in exchange a Village of the Bellary District in the immediate vicinity of Soondoor yielding a revenue equivalent to that of the Village on the Table Land the same being estimated at not above 50 Star Pagodas the Rajah enjoying all the benefits arising from the Hills such as from Grass Firewood Charcoal Honey &c. &c.-

2- If not whether he would be inclined to transfer the Police of the Village and of the Table Land to be managed by the Head of Police of the Koodleghee Talook which is in the immediate vicinity of the Soondoor Valley.-

15th February 1816.- The Rajah has replied to these Proposals and on also speaking to him personally I perceive that he demurs and is of opinion that his dignity would be compromised by such an arrangement as it would be inferred that he could not conduct the Police If all Visitors to the Hill are instructed to make no direct communications to the Rajah but to apply through the Collector for any permission they may wish to obtain If the Invalid Soldiers who proceed to the Sanatarium are

are amenable which I believe they are to Court Martial and can be tried by a Military Tribunal (they being while there beyond the jurisdiction of the Civil and Criminal Courts) the objections will be less.

5. Regarding the Piece of Ground for the Sanatarium there will be no difficulty. The rent will be only a few Rupees I can obtain from the Rajah a written Document authorizing its being built and whatever the Ryot on whose dry Land it is built demands can be easily adjusted.

6. But the Board and Government will be aware that this Petty Jaghire is held on a very extraordinary tenure that the Rajah is in fact an Independent Prince in his own Principality. What is required is power to take Cognizance of Offences committed by Persons not amenable to a Military Court and this Can I fear only be done by obtaining the Rajah's Consent to one or other of the proposals above named if made by order of the Government it is probable that the Rajah's Consent might be obtained. Failing this, the alternative would be to allow the Rajah himself to act

act which he wishes to do, but in that case it would be advisable that special instructions should be given, for, as a Dasharatta of Rank, the Rajah would be much annoyed by direct Communication from the lower order of Servants usually attendant upon Soldiers; but if the Government will give injunction that no direct Complaints or Requests are to be made to him but that all Regulations for general utility and convenience arranged by me with the consent of the Rajah shall be strictly attended to, difficulties and collision may be avoided and there would be no obstacle to the wishes of Government being carried out.

7. The Rajah in his reply states that he is not willing to sell or exchange the Land and that he will himself Conduct the Police.

8. The Table Land on the Ramanamalay was first visited by me more than a year ago I have certainly a high opinion of the climate. The verdure that surrounds it plainly indicates that it is not subject to the withering influences of the Plains. It may however be well to recollect that we have little actual Knowledge of the good effect of

of the climate the height is insignificant and it is surrounded by the burning Plains of the ceded Districts. No very material change can therefore be expected and the question appears to be whether sufficient importance is attached to the proposal to erect a Sanatariums to induce the Government to tempt the Rajah to dispose of it by making him a favorable offer - or whether the Police remaining in his hands is considered a difficulty requiring such a remedy.-

I If I were to venture an opinion I would propose that some further time should be allowed to test the salubrity of the Climate that opportunity would be thus given to ascertain whether the Rajah can conduct the Police with efficiency. These points being solved the Government will be enabled to judge whether a Sanatarium is advisable and whether it will be necessary to effect a change in the jurisdiction or whether matters are sufficiently well conducted to admit of their remaining as they stand.-

From the Acting Collr of Cuddapah - - - Sir

Offering a few Remarks on the Subject of service on Enams in this District.

Para 1. I have the honor to offer a few Remarks on the Subject of service Enams in this District. The adequate distribution of service Maniems both Curreekum and Reddy to those actually officiating with a view to prevent them from resorting to Peculation to Compensate for the insufficiency of their official Emoluments is of such paramount importance that in performing the Settlement of the Northern Talooks I have examined the accounts giving the respective shares of all Parties (Mirasdars and Ghayr Mirasdars) among whom the Meras of each Village is partitioned, and in all cases in which a revision of the present System (as regards the subdivision of these Enams which has the effect of impairing the efficiency of the Village Officers) seemed necessary such as has been effected - wherever the Emoluments (including Meras fees &c.) enjoyed by those in office were inconsiderable and fell short of the proportion laid down

on

in the Scale of remuneration framed by Colonel Munro the deficiency has been made up by such portions of the Meerasee enjoyed by the Gyr Meissuls being made available for the support of the Office. The largest Co-sharers of the Meerasee have been nominated when circumstances admitted, to perform the duties of their Villages if competent and willing and if not they can have been compelled to nominate Peons maintain or surrender such portion of their Enams to meet existing evils.

2. In the 15th Para of Extract from the Proceedings of the Board of Revenue the Board have stated that they have expressed their concurrence in the opinion of Mr. Ashton in forwarding his report to Government that the alienation of a portion of the Enam to Persons not holding the Office should be disallowed and the Proceeds appropriated exclusively to the benefit of the Party by whom the service is performed.

This has been done in all Villages in which the total amount of the Meerasee was inadequate or barely sufficient according to the Scale of remuneration above mentioned - but I do not

not imagine it was intended by the Board that the views of Mr. Ashton should be acted up to in such Villages where the Official Emoluments of those in Office are considered sufficiently remunerative, notwithstanding the bulk of the Meerasee being enjoyed by Persons who take no part in the performance of the duties of their Villages. The occupancy of the soil on the part of all such who have thus been made to surrender portions of their Inamiems has not been interfered with. but they have been required to pay to those in Office the Turrum of such portion of their Enam lands as is necessary to raise their Emoluments of Office to the proper Standard this being considered the best arrangement (and one easily enforced) considering the many changes that occur in the nomination of Parties to these Offices. all Village Officers thus additionally remunerated rendering themselves liable to dismissal or suspension will only be entitled to this Extra allowance up to the time on the calculated average of the periods they have

been

been in office since the revision of the present System - whereas if they were put in possession of the necessary land endless trouble and confusion would be entailed. The proceeds of portions of glyr Mufsul Enams thus added to the shares of those in Office hitherto inadequately remunerated has been divided among them so as to place them all on an equality as near as circumstances will admit of. To those whose Emoluments are the most scanty the greater proportion has been allotted.

3. The arrangement, I trust will meet the approval of the Board. I cannot but think it will be attended with the most beneficial results. Office with its Concomitant Power is generally eagerly sought after. Those who have encome under a reduction of Enam will be still more eager for service themselves, and be more willing to bring to light any frauds or malversations committed by those in Office, while to the latter, their Emoluments having been

increased

increased (and to such of those particularly whose own shares are trifling without the additional remuneration) a great inducement is held out to them to perform their duties honestly, and not render themselves liable to a forfeiture of their Mufsul by any misconduct.

4. In all Villages in which the total amount of Maniem in Cadeem Enam attached thereto as Emoluments of Office was inadequate in proportion to the Berij Cumbutty Enam was supplied by Colonel Munro to make up the deficiency but there are many instances in which the Enams thus rendered proportionate to the Berij are partly or wholly nominal. Complaints being numerous and loud on the part of those in Office of portions or the whole of their Enam lands being unfit for Cultivation from various causes - and consequently left waste year after year. such few of those thus scantily remunerated or perhaps not remunerated at all, for their services, as are honestly disposed, on resign their Offices together with their Emoluments cadeem and Cumbutty - their places must

must however be filled up and it cannot be supposed otherwise than that they who retain their Mofussils under such circumstances as well as they who succeed to the nomination on the resignation of Parties remedy the improvidence on the part of the Ruling power themselves, by making doubly good the amount of remuneration they ought to receive in committing frauds and acts of extortion. There is no beneficial check over such Persons, as their conduct is only watched by such who have no Idea of supplanting them under honest purposes and who of course would resort in their turn to the same frauds and exactions themselves.

5. It would seem good policy to meet the evil by substituting lands out of the ayacut Bunger for all such as are ascertained on due enquiry to be unprofitable, every care being taken to guard against any lands being exchanged unless really unfit for cultivation. Under this impression I am causing to

be prepared a statement in a proper form giving a list of all Villages in the Northern Talooks already settled, the Peaniems attached to which require a revision in the manner proposed which shall shortly be submitted and I beg to solicit the Boards permission to adopt these measures at once in all cases that require special attention while performing the settlement of each Talook.

6. In conformity with the 15th Instructions contained in the 15th Para of the Extract from the Boards Proceedings above quoted, I beg to state that due attention is being paid to the subject of restoring gradually to these Village Offices their proper Emoluments by taking advantage of all lapses that occur among the Herafidars of all Villages who may not leave legal Heirs to succeed to their Evans by annexing the same as "Cumbutty"

to

Fort St. George 16th March 1846.

to such Villages in which the re-
-muneration enjoyed by those
in Office (as their share of the
Werasse) falls short of the proper
Standard - In Cases in which it
it will not be necessary to annex such
Enams to the Village Officiating. Parties
being adequately remunerated
they will be brought under
assessment.-

Saddapah District, Collectors Circuit Cutcherry, Vaimpaly 16th February 1846.

To,
E. P. Thompson Esq.re
Secretary to Government of
Fort Saint George,

Home Depart.t Sir,

I am directed to acknowledge the
receipt of your letter No. 670 dated the 4th
June last, with enclosure enquiring with
reference to Major Minchin's Native Vet.n
Battalion being engaged in the cultivation
of Silk at the Neilgherry Hills, whether
any prohibition exists to Invalid Officers
of the Bengal Army engaging in speculations
unconnected with the service.-

In reply I am desired to state that
the Rules which are very stringent against
Mercantile or Commercial speculations
being entered into by Officers of the
Bengal Army, are not considered to ap-
:ply with equal force in a case like
that of Major Minchin's an Officer on the
non-effective list, and that in the opinion
of

of the Governor General in Council, such cases in
respect of Invalid Officers may more expe-
:diently be disposed of by the Governments
of the respective Presidencies agreeably
to the circumstances of each than dealt
with by any general rule.-

24

Sir.

From the A.d Coll.r of N. Arcot } I have the honor to acknowledge the receipt of your letter dated 5th Instant, regarding the removal of a Monigar.

The Monigar was not removed for the assault only, but he had placed the complainant in confinement and extorted money from him having demanded 5 Rupees and actually received 1 Rupee 8 annas for his release. He was proved to have committed a like offence in another case also and to have committed several other assaults. He had been

fined

there were no bidders for them.

4. Of the lands belonging to Subbabooty No. 2. One Spot No. 6 consisting of Nunjah Poonjah and Garden with a Well was put up and sold for Rupees 51. and purchased by Vurdapah Chetty of Razipoor, the arrears of Revenue due by this Individual being only Rupees 19 11—8, the other spot of land No. 113 belonging to him was not sold.

5. The lands belonging to Nullatumby Modelly and Soobraya Moodelly No. 5 at Sonedioor attiampatty were put up, and one Spot No. 1 consisting of Poonjah, Nunjah & Garden lands was sold for Rupees 40 and purchased by Permanoor Shapernapariachey. the balance due by these Individuals in this Village being only Rupees 33—4—5, the remaining three spots belonging to them were not sold.

6. The lands belonging to the said Nullatumby Modelly and Perroontully Gounden No. 3 of the Setyar, at Sandioor were put up, but as they are of a bad quality there were no bidders for them. however the balance due by these Individuals being Rupees 30—6—4, for the recovery of which

which, Nullatumby Modelly's half share in the remaining 3 Spots of land at Sandioor attiampatty were put up, and two of the three Spots Viz. No. 4 and 107 were sold, the former consisting of Poonjah and Garden was purchased by Aroonoogum pillay for Rupees 27, and the latter Nunjah land was purchased by Govindoo Chetty for Rupees 6. I solicit the Sanction of the Board confirming the sale of the above lands.

Salem Collr. Cutcherry, 2d March 1846. } (Signed) W. E. Lockhart, Collector

Read

Read letter from the Collector of Trichinopoly respecting the Balance outstanding on account of Land Revenue in that District at the end of fusly $\frac{1254}{1844/45}$.-

4th in Cons. 13th Octr. 1845.-

(33) (Here enter No. 112.)

Proceedings thereon.-

Requesting the Collector of Trichinopoly to furnish further information regarding the Land Revenue balances outstanding in that District at the end of Fusly 1254

The Collector has submitted an Abstract Statement of all arrears together with detailed accounts of the sums due by individuals in each Talook from Fusly 1242 to fusly $\frac{1253}{1843/44}$ inclusive. the totals arrears amount to Rupees 78842-9-10 and are distributed under eleven heads - but may be classed as follows.-

		Rs. a. p.
1st.	Recoverable without severe measures.-	1590-9-11
2d.	Recoverable by the Sale of lands.-	53756-8-1½
3d.	Irrecoverable.-	23095-7-9½
	Total.-	78442-9-10.

2- The irrecoverable or 3d. item comprises 9. Classes of arrears of which Nos. 3-5-6-7-8-10- include demands which appear wholly irrecoverable. No. 4 is due on account of embezzlements in different Talooks by Village Officers. The Collector

Collector will be so good as to explain why this entry is clafsed as an arrear of Revenue No 11 exhibits the amount of the difference between the proceeds of Grain seized by the Collector in certain Villages in fusly 1251 / 1841/42 in default of payment and the aſseſsment of the lands of certain Ryots who refused to to receive their puttah Deducting the sums embezzled the outstanding balance amots to Rupees 77931 - 11 - 10 -

Amount of outstanding balance } 78442 - 9 - 10

Deduct Embezzlements entered under No 4 } 510 - 14 - 0

Remaining 77931 - 11 - 10

3 The balance clafsed as recove=rable without severe measures has been realiz=ed in part and is in the course of Collection The largest amount of arrears or Rupees 53347-2-½ is included in the 2d Clafs as recoverable because it is due by individuals holding lands which are liable to distraint - as Mr. Onslow seems to consider the recovery of these arrears by sale of lands hopeleſs and that any arrangement with a view to adjust the balance would occupy 2 or 3 years and "so seriously interfere with the Current duties of the Collector that he doubts whether he would be able to conduct them without additional aſsistance" Of the above sum due

due by Ryots whose lands may be regarded as security of payment Rupees 21484 - 11 - 8½ are

Para 8 Stated to be arrears on account of Collections suspended under the orders of the Board for the repayment of which Moochilkas have been given. -

4. The Board are constrained to expreſs their diſappointment that these Col=lections, the suspension of which with reference to the correſpondence noted in the Margin, was acceded to at the earnest recommendation of the Collector should now be declared irrecover=able, except as he alleges on terms which would be productive of the greatest distreſs to the Defaulters - At one time the Collector thought that immediate payment if insisted on would cause great distreſs - but that the demand should not be abandoned - and it was expected that many Ryots who had benefitted by the indulgence would pay at least some portion of the demand thus postponed. -

From Coll.r 13th Dec.r 1843 in Cons.s 11th Jany 1844 - Bd.s Proceedings 18th May 1844 - From Coll.r S.A. in Cons.s 20th June 1844 - Bd.s Proceedings 20th Jan.y 1845 -

Sd. W.C.O. & Dated 13th Dec.r 1843 In Cons.s 11th Jany 1844 No 3.

5. In furnishing the details of the Suspended payments of Individuals in different talooks the Collector states "that the balances included under the head of "Suspended" do not been a regular proportion

Fort St. George 16th March 1846.-

"proportion to the extent of each holding they
"were in fact allowed to stand over in cases
"in which the necessity of the individual rendered
their collection at the time impossible".-

6.- On an examination of these State=
=ments it is observed that the sums "suspended"
and still due by individuals are in many
instances extremely small compared with
the amount of their actual holdings, and
payments according to their respective put=
=tahs, and the Board therefore cannot concur
with the Collector in the opinion that these
arrears have accrued under circumstances
which loudly call for indulgence. they do
not feel justified in recommending their
remission without further explanation and
enquiry- and accordingly resolve to furnish
Vide No. 1. the Collector with a list of the Names of certain
individuals selected for example from the
detailed accounts he has submitted, and
to direct that he will ascertain by personal e=
=investigation why the small Sums due by themselves or
other defaulters respectively on account of
the Collections temporarily suspended have not
been discharged.- The Board desire to be inform=
=ed how many Ryots (inclusive each Village
in which the Collections were allowed to

be

Fort St. George 16th March 1846.-

be temporarily suspended paid all demands
in full, and how many in part only- and
to know also the extent of land held by
those against whom there are no arrears com=
=pared with the extent held by those indi=
=viduals who gave Moochilkas for the pay=
=ment of their Lists which were postponed.
In submitting this information the Collector
will be pleased to furnish a Statement in
Vide No. 2 the accompanying Form- which provides also
for the entry of all balances on account of
years before and subsequent to Fasly 1251 (1841/42)-

On the receipt of this Statement the
Board will again take into consideration
the arrears outstanding in the District.-

Ordered that a copy of the e=
foregoing Extract from the Board's Proceedings
be forwarded to the Collector of Trichinopoly
for his information and guidance.-

(36)
36
From the Coll.r of Trichinopoly - Sir. 1.- With reference to the Extract from the Board's Proceedings under date the 12th Ultimo - I have the honor to state that the Pensioners Jevooboye and Sooboo boye have been before me this day - that two respectable Brahmins have deposed on Solemn affirmation that they have Known them for about 30 years and that they are the persons they repre=sent themselves to be, and that several of the Native servants attached to the Cutcherry

Fort St. George 16th March 1846.

Cutcherry have known them for 15 or 16 years.-

2.- It is impossible judging from their appearance that they can be of the great age, which if the original entry were correct they would have attained to - but I have no doubt that the original description is faulty - It will be observed that three of the women were according to it at the time of the transfer 66 years old - but they are children of the same parents - so that this account must be wrong - Jevooboye says she is now 70, Sabooboye that she is 68 years old, but they are evidently very uncertain as to their Age.-

3.- Should the Board not be satisfied of the identity of the individuals in question after this explanation it will perhaps be necessary that they should make their appearance at the Office at which pay=ment of the pension was originally authorized.-

From the Coll.r of Tinnevelly

Bringing to notice certain instances of gross malversation & fraud by Pagodah Trustees & requesting Orders as to how Offices of Trustees vacated by death or resignation should be filled up.

Sir

1st Para

I request the favor of your obtaining for me the orders of the Board on the following subject. Strong and repeated representations were made of gross malversation and misappropriation in 2 Chief Pagodas in this District while refraining entirely from interfering in any way with the distribution or management of the Funds, it seemed due to the parties appealing, some of them highly respectable to afford them some protection against the gross spoliation and fraud which appeared to be going on, the Petitioners pleading they had no other remedy or appeal provided for them, not knowing whether the Court could receive their case.

Rejected all enquiry for a

2.

Considerable time, but was induced at last, by the respectability of the Petitioners, and their urgent and Constant appeals for Redress, to make Enquiries sufficient to satisfy myself that gross malversation did exist, and to request the Boards Orders on the subject. The Enquiries have been Conducted by my Assistants, that

that regarding Trichendoor by Mr. Cator of Alwartunnevelly by Mr. Levinge, with the &c. assistance of the Nair Sheristadar.

3. On referring the Petitioners &c. generally to "the Courts," they state several difficulties 1st "as to who is to be considered the "community of each Pagoda, which of them is "to prosecute, and who to bear the espences 2dly "whether the court is empowered to receive and go "fully into the necessary enquiry by sending for "the Durmakurtahs accounts, Witnesses &c., and "3dly if, on Conviction, the Court can oust the "present Trustees, and appoint new ones, or who is "to do it." some more definite remedy, and means of redress than at present exist, would appear due to the community frequenting the Pagodas, to obviate the confusion and difficulty which now exists, as to the payment of Funds into the hands of know and acknowledged pillagers, and as regards succession on the death or resignation of the Original Trustees first appointed under Government Orders.

4. Several instances have occurred in which it has been necessary to name some one temporarily to receive the Funds, and "act," pending the Boards' final disposal of the whole question. Such as where a sole Trustee died, and there was no one to receive the allowances

or

or where one, of three, died, and the other two were at variance, and not agreeing to receive the dues either Jointly or Severally in these Cases of necessity I have named the heirs to succeed, or other fittest person available, on the emergency pending the Board's final orders wherever there was an unequal number, and a Majority among differing Trustees, the funds have been paid into their hands, &c. to prevent their accumulation in the Government Treasury; this is practicable with the &c. Smaller Village Pagodas, but not with a very large and important one like Trichendoor &c. resorted to from all parts of the Country.

5. I would therefore request the &c. Board's orders as to whether I should merely refer the Petitioners generally to the Courts, and leave the present Trustees in undisturbed pillaging and what is to be done in a case of all Trustees failing either by death or Resignation. To obviate this difficulty I have in several instances refused to accede to Resignations of Trustees declining the further trouble or responsibility of the Office some such Rules as proposed in my letter of 29th November 1842 &c. might I think be adopted, till Government had provided some other and definite Remedy. I did not feel at liberty, being fully aware of the &c. malversation and private appropriation

of

Fort St. George 16th March 1846

of the Funds, altogether to throw back the Petitioners without a hearing, or pointing out some mode of redress. In the case of Trichendoor about Rupees 10000 appear to have been misappropriated, and a large sum in the Alwartinnevelly-

Tinnevelly ---
24th January 1846

Signed/ C. B. Thomas
Collector

Ordered that the foregoing letter be submitted with the following address-

To The Chief Secretary to Government

(40-41)

To the Chief Secretary to Government ----

Sir,

I am directed by the Board of Revenue to forward for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Tinnevelly 24th January last, requesting instructions on certain points connected with the Native Religious Institutions in his District.

2. From this it will be seen that Mr. Thomas states that strong and repeated representations have been made to him of gross malversation and misappropriation in the two principal Pagodas of his District, that while he has carefully abstained

Submitting a letter from the Collr. of Tinnevelly requesting instructions on certain points connected with the native Religious Institutions in that District Reminding that the Bd. have submitted a draft act for amending the existing Law regarding mosques Hindoo Temples &c. and soliciting instructions as to whether frauds in the management of Pagoda Funds are or are not under the existing Laws to be held to be punishable under the provisions of Reg. IX of 1817 VII of 1828 and Act XXXVI of 1837

Recd. 16th March 1846.

Fort St. George 16th March 1846

abstained from any interference with the distribution or management of the Funds, it appeared to him that the complainants, some of them of high respectability had a claim to his protection against the gross spoliation and fraud which seemed to be in progress, that after long avoiding such enquiries he was at length induced to make such investigations through his subordinates as convinced him that the complaints of fraud and peculation against those entrusted with the management of the Pagodas were well founded, no less than 10000 Rupees having been misappropriated in one of the Pagodas, Trichendoor, and a large sum in the other Alwar Tinnevelly. Mr. Thomas explains that on referring the complainants to the courts of Law, they urged several practical objections, as regards the parties to prosecute the jurisdiction and powers of the Courts the payment of legal expences - and he requests instructions respecting the mode in which these complaints are to be disposed of.

3 The Collector next brings to notice the difficulties which have been experienced from the absence of any certain and definite rules regulating the succession to Trusteeships when the parties originally nominated have died or resigned their appointments and more especially when all those Offices in a Pagoda have become vacant from one or other of those causes, and he solicits some specific instructions

for -

for his guidance in this particular also

4 The subjects to which Mr. Thomas' letter relates have been previously brought to the notice of the Board from other quarters. Repeated complaints have been made to this Office by parties interested in the various native religious institutions regarding the frauds practised by those entrusted with their management, and the absence of all check on such proceedings. The Board have felt that the representations made were such as to deserve attention. On a late occasion a Petition most numerously and respectably signed was presented to this Office by parties interested in the great Pagoda of Sreerungham near Trichinopoly. The proceedings of the parties to that Petition were marked with the utmost propriety. Having first applied for permission to the Magistrate, and ascertained that there was no objection to the measure, they held a public meeting for the purpose of taking into consideration the state of affairs in the Pagoda. A committee was appointed who after enquiry reported that gross frauds had been practised in the expenditure of the Pagoda Funds. Application was then made to the Collector requesting that as all the Trustees originally nominated, with the exception of the Stullut dars or Pagoda servants associated in the trust ex Officio had

had since died, their places might be filled by others chosen by the election of the whole community interested in the Institution, and the Pagoda funds thenceforth disbursed to them. The Collector did not feel himself at liberty to comply with the application, and the Parties laid the subject before the Board. About the same time however the Collector of Trichinopoly addressed the Board and requested orders on the general question respecting the nomination of managers to religious native Institutions in room of those deceased. In some Pagodas, he stated, all the original Dhurmacurtahs had died in others of all but the ex officio Trustees, and these latter were at variance among themselves. It was necessary he observed, that some rules be laid down, if only to determine the parties to whom the Pagoda funds should be disbursed. and he therefore suggested that, as a simple mode of arranging matters for the present, the nearest of kin of each deceased manager, or on his refusal, any other of his relations should be appointed his successor, and that if none of the relatives of the deceased would consent to serve, the nomination should be

25th Octr. in Cons.
14th December 1846

made

Fort St. George 16th March 1846

set at rest by some Legislative Enactment have been reluctant to bring it under the consideration of Government. They have endeavoured to avoid the discussion of the question as far as possible or have issued general instructions such as those to the Collector of Trichinopoly mentioned in the last Para. The representation now made by the Collector of Tinnevelly appears however to demand further notice. The Board therefore beg to call to the attention of Government that in their Proceedings of 24th March 1842, they submitted draft of an act "for amending the existing Law regarding Mosques Hindoo Temples" &c. The draft was referred to the Sudr for their consideration, various objections were taken to it by that court who prepared an act in lieu of it. The new draft was forwarded to the Board for their observations, and in their Proceedings of 21st November 1842 the Board entered into a minute discussion of its provisions. They pointed out some amendments of which it seemed susceptible, suggested some additional provisions which appeared called for, and entered into the whole question at a length

18th Oct. 1842 in Cay. 3 Nov.

Fort St. George 16th March 1846

length and detail, which leaves them nothing to add on the present occasion. They would now therefore only suggest that if such measure has not yet been taken, the Sudr be requested to review and enlarge their draft in reference to the observations then made by the Board and to prepare a revised draft of an act for the final Settlement of this important question.

In respect to the question more immediately submitted by Mr. Thomas Esqr. as to the course to be taken by the Local Revenue Officers when complaints of malversation or misappropriation of the Pagoda Funds are preferred to them, the Board are of opinion that as Regulation VII. 1817 has not yet been rescinded and as by the last Section of that Regulation it is enacted that the "legislative provisions now in force "or which may hereafter be enacted for the punishment "of fraud or embezzlement in the Native servants of "Government employed under the Collector in the Depart"ment of Land Revenue shall be held applicable "to all Native servants and to all trustees managers "or superintendents employed in or charged with "the Settlement, custody or appropriation of the "Revenues, funds or other property of the public institutions

Referred

Fort St. George 16th March 1846

referred to in this Regulation "ie/ Sec II/ mosques, Hindoo Temples, &c." it is competent, and indeed incumbent on Collectors to investigate and dispose of such charges in the same manner and under the same Regs. (IX 1822. VII 1828. and Act XXXVI 1837) as embezzlements of land Revenue. As however there is reason to believe that this has not generally been the practice in the provinces since the transfer of the Pagodas to native Trustees, and if now acted on frequent complaints would at least at first be made to the Revenue Authorities, and much of their time occupied with these investigations, and as in a measure of so much consequence the Board are unwilling to proceed without reference to superior authority they beg to submit the question for the decision of

Note. In Paras. 20. 21 of their Proceedings (21st November 1842) on the draft act proposed by the late Adawlut, the Board in reference to Section XVI of that act suggested that, if it were thought advisable that Pagoda frauds and embezzlements should continue cognizable by the revenue authorities advantage should be taken of the proposed new act to introduce by means of certain modifications of Reg. IX. 1822 VII 1828 for the better adaptation of the provisions of those Regulations to the purpose proposed. The observations in those Paras. contemplated the rescission of Reg. VII 1817 and the substitution of a new Enactment. Until however Reg. VII. 1817 be rescinded the obligation imposed by the terms of its concluding Section must, the Board apprehend, be as stated in the Text.

Fort St. George 16th March 1846

of Government, and to solicit instructions as to whether frauds in the management of Pagoda Funds are or are not under the existing law to be held to be punishable under the Provisions of the Regulations above referred to, and if not, in what manner, under what Act or Regulation and by what authority such charges are to be disposed of.

The Board further beg to be informed

(42)

From the Collr of Sinnevelly

Sir,

Submitting explanation on all the points discussed by the Board in their Proceedings on the proposed Survey and Assessment of Sinnevelly & forwarding Accounts referred to—

1 I have the honor to acknowledge the receipt of the Board's Proceedings dated 6th February 1845 on the 3 Survey Reports forwarded from this Office under date the 24th October and 15th December 1843, and to forward explanation on all the points called for.—

2— The Board in their Proceedings object chiefly to the proposed rate of price, arguing that a permanent price should not be fixed at too low a rate and that by fixing a low price, a deficiency in Revenue will be the inevitable result. If keeping in view only the present and temporary interests of Government I had suggested the price, as the Board wish, at a higher rate, without duly attending to the state of the District, the circumstances of the Ryots, and other considerations the consequence would I fear only be detrimental both to the Government and the Ryot.— The price I proposed was the highest that I believed could be safely fixed and punctually realized after a mature consideration

of

of all the data and the interests of the Ryot and Government Whatever experience and information I have gained since my arrival, now nearly 3½ years in this District, from actual observations and a consideration of all the previous correspondence on Record in this Office convinces me that the rate I have proposed, is a fair and equitable one, as high as the Ryots would consent to as can be relized without arrears, and without arresting the progress and improvement of the Province.—

3.— Before giving specific information on the several points required by the Board, I would beg to explain generally that the Hookumnamah furnished by me for the Board's information was carefully drawn up on comparison with and reference to all other accredited Hookumnamahs I could get access to, and not merely according to my own views or those of my Sheristadars.— Distrusting my own judgment I have anxiously availed myself of all sources of information open to me and chiefly of Native accounts and Extracts drawn from the Board's Records, and brought down to

to Tinnevelly by Rama Row the late Collectors late Sheristadar, who was in the Board's Office 2½ years for that especial object.— In other instances, where information on particular points was wanting, it has been obtained either by myself or through my Sheristadars, from the Records and Head Sheristadars of other Districts; and I believe no Rule or proposition will be found in any Hookumnamahs that will not find a counterpart in those drawn up and acted on in Bellary Tanjore, Chingleput or Cuddapah.— I have endeavoured, to the best of my ability and as far as I knew, in accordance with the Board's views, to select from each all that appeared best suited to Tinnevelly, and I am not aware that a single entirely new or untried Rule has been proposed

1842.— before I left the Malabar Session's Court, and when under orders for Tinnevelly, I devoted the last few Weeks to reading and extracting through the aid of the Collector the valuable Revenue Records of that collectorate to be found in the Reports of Mr. Thackeray Mr. Graeme and other able Revenue Servants believing

that

that I could not do better than make myself acquainted with the principles and opinions of such men and take them as my guide - I shall now endeavour to afford the information required by the Board, in the order found in their Proceedings.-

4.- In Para 4 of their Proceedings the Board object to the use of a Rod 24 feet long, seaded at both ends, giving preference to the use of a Chain, objecting that the former, is a cumbrous and inconvenient Instrument, liable to accidents and fractures, and in minute measurements to error. In reply I beg to state that if the Chain were used, it would not give such accurate measurement, it is weighty and unwieldy; same time becomes untrue by one or more links twisting - The Chains must be mended and regulated every to days, the chain is heavy and requires some little strength to carry it, pull it out to its full length and lay it each time straight. The Rod appeared to me to be a better instrument and more suitable to Tinnevelly, to be of male Bamboo not liable to fracture, both

† See Mr. Munro's Hookumnamah of Cuddapah District.

both strong and light - Several hundred such are already in the Cutcherry, formerly ordered by my Predecessor Sir H. Montgomery as the best method of measurement in his judgment - The Rod would be fitted with Rings, on both ends and in the middle and deals affixed, the only precaution required is that of seeing that the seal is not broken - the Bamboo Rod is easily manageable by the hand, and has been the usual standard of Nunjah measurement both in this and I believe in Tanjore Districts. The expence of the Bamboo is very little, that for the Chains considerable and finally the Bamboo Rod is used throughout the District by the Civil Engineer for all his measurements of Marahmut, Roads &c. the people are therefore familiar with it and it was under all these considerations I proposed it, but if the Board still prefer the chain it can be of course substituted. In explanation of the other points in para 4 of Board's Proceedings same definite Rule for the Ridges appeared necessary the one adopted was that understood to -

to obtain in Tanjore there is no settled practice of the District to fall back on the only old Accounts discoverable, showed that the Ridges had been in former partial measurements, Excluded. A fact corroborated also by the oldest Ryots - the smaller Ridges - are liable to alteration, but those above 1 foot would seldom be, as they are used for the passage of people and Cattle, and as marked and necessary boundaries, which common consent would generally leave untouched they were therefore excluded.

The numbering the "Shades" can be omitted as the Board suggest, it was so proposed as causing very little more trouble to the Surveyors when on the spot and as likely to be of some use hereafter, as showing in the accounts the number of Sub divisions at the time of survey. The naming of fields, though an obvious, useful, and natural practice has not been the general custom in Tinnevelly but only very partially the 2½ Rule was taken from the Hookumnamahs of other Districts and had reference to their practice

5- The object of making the Hookumnamah

Hookumnamah precise and definite, was by leaving little to the discretion of the Surveyors to obviate disparity of practice, and mistakes it also had in view to exhibit to the Board as much information as possible of the details of the Survey. The Surveyors would be mostly selected from tried and experienced Servants already in the District, and acquainted in practice with much that is found in the Hookumnamahs they will however in compliance with the Board's orders be curtailed as much as practicable Striking out all that appears redundant, and making the Rules as few and simple as possible

as suggested in my letter of 15th Dec. 1843 Paras 13 and 14.-

The duties assigned to the Surveyors, Assessors, and Head assessors were chiefly as found so assigned in the Hookumnamahs of Bellary, Chingleput, and especially Tanjore, due attention however will be paid to the Board's remarks on that head - Regarding the transfer of denomination of dry and wet lands of 5 years standing some limit was necessary for guidance of the surveyors - it was assumed that the practice of 5 years would be some fair

fair criterion of the denomination of the land, but it was intended also to bear fully in mind and give due consideration to the facts the Board allude to the restoration of irrigation by Government works &c. &c. It being doubtful if the Government would ever restore these works and certain that the Ryots would always leave the lands waste / to their own loss and Government's / so long as liable to a Nunjah tax for Poonjah produce it appeared desirable to class them as they really are Poonjah, and bring them under Poonjah cultivation till restored to Nunjah with regard to backyards, it seemed advisable and desirable to establish and settle something definite, on an important point, as the survey passed through the Village - but the Surveyors were desired not to alter in any way but simply to record the present extent of Ryots backyards, as data for a future Settlement, not to alter or fix their present limits such orders were also found in the Hookumnamah of Tanjore, Chingleput, Bellary my own view would be, to give every Ryot,

free

See also subsequent Para 20 on Ooda-colums -

free, somewhat more than is at present allowed (guarding against abuse) as an useful and desirable boon, tending to encourage industry at home and add to the individual and domestic comfort of the people - a few gourds, pumkins and Chillies in a backyard, are as valuable to an Indian Ryot, as a potato plot to an Irish Cottager - the enquiry also seemed necessary as in some cases the Backyards are found in the midst of taxable and cultivated land in others at a distance from the Houses to which they belong and ought to be attached and other irregularities requiring record at the Survey, and any settlement the Board deem best afterwards there are many such encroachments on "Ayen" lands I would not advocate the resumption of even an encroachment, if an old one; but a record and knowledge of it would be a check to its extension, or to similar future abuses for the above reasons the para was thought advisable in the Hookumnamah it will be omitted if the Board direct - As regards the measurement of

of Muzras and Monjahs the diffi=
=culties supposed by the Board do not
exist; and rendered necessary the course
proposed - The size of Poonjah fields
may be properly limitted, as the Board
observe, by the work of one plough
though that must differ some what
with the soil / light or heavy / and the
cattle / good or bad / but the average
in Tinnevelly would be about 5 or 6
Cawnies of a Poonjah field every
enquiry on this point has been made
of the Thasildars, and of intelligent
Ryots - It will not always be prac=
=ticable to confine this limit in large
tracts of waste land lying at the
foot of Hills, which if taken up
are chiefly by substantial Ryots in
large portions but the limit will be
attended to as much as possible,
in obedience to the Board's remark - The
Boundary to Enams will be at their
own cost as directed. -

In 1 Kawel 2 Uppel 3 Pottel } 6 Cawnies
In 4 Kawel 5 Mannil-Kawel- } 5 Do.
6 Mannil

6. — In the classing of the land
the information to be derived from
the accounts of produce was not
forgotten but they are neither so full

full nor so much to be relied on as the
Board would appear to suppose the "Cando=
=mootul" or gross produce, is only calculated
on the whole quantity of a Ryot's land not
on each field - the produce of each field
can only be learnt from future enquiry and
new accounts - In Yagabogum Villages for
instance, where there is but a single Puttah
and the whole Village held by one indi=
=vidual, the outturn of the whole Village
alone is known - not fieldwar - In Bungoo=
=ealy Villages again the lands change hand
periodically (in 5 - 7 or 11 years) under a
"lot" each sharer has usually a fair
mixture of good and bad - it would be
difficult under this system for any Head
Ryot, to usurp all the best land - It is
doubtless as the Board observe an evil
and a tendency to be watched and guard=
=ed against - but it was believed that
the best and only remedy lay in the
open and free discussion of neighbouring
Ryots the competition of separate interests,
and the care that would be taken
to give all a hearing. —

"puny"

7. — The Board in Para 7 object to
the difference of 3 or 6 cully fanams
between

between each grade - In reply, I beg to state that the rates of mailwarem and price in this District vary in each Village, instead of one average rate of price and a few rates of mailwarem, as in South Arcot. The average rate of mailwarem is in some Villages as high as 11/2 Cottahs per S.C. and in others so low as 1 Cottah. If as in South Arcot only a difference of 5 Calums be kept between each class, the consequence will be a very unequal assessment, for example, The extent of land in a Village is 50 S.C Cottahs; of which, only 30 S.C are fit for cultivation, and pays a Mailwarem of 1/2 G. C. per S.C - though the whole extent is composed of 5 or 6 sorts of soil - If a difference of 1/2 a Cottah per Cawney between each class be put, the last and 5th class will have to pay too little in comparision with others and with what they formerly paid, while the Ryots possessing land of the 1st and the next 2 classes will have to pay 1/2 1-1/2 G.C. more than they paid formerly as shewn in the margin - If the mailwarem be fixed according to Class, as above shewn, the

1st Class	G.C	3
2d Do.		2 1/2
3d Do.		2
4th Do.		1 1/2
5th Do.		1
6th Do.		1/2

the Ryots would start many objections. It appears therefore necessary that at least 2 rates of difference Viz: 3 and 6 fanams between each class should be sanctioned the maximum rate to be adopted in Villages containing lands of superior and the minimum rate to those of an inferior description.

In Bellary a difference of 5 and 2 1/2 Canteroy fanams per acre, is fixed on with reference to which the rate proposed in 7 and 8 of the Tarm Kookummanah was made. Under all circumstances, I considered that the Kookummanah of Bellary in this respect was more applicable to this District than that of South Arcot. In estimating the qualities and classes of all lands, it appeared to me natural and just to estimate first from the colour or other recognized features, and afterwards to test this by the produce (any intelligent Ryots if asked the nature of a field will not give an opinion by the eye only) but will immediately take up a little of the soil in his hand and by pressure and close examination, determine as far as practice unaided by chemical analyses can do, the tenacious, loamy, clayey, strong nature of the soil,

or

or friable and lighter and more steril qualities) The object of search and the fair criterion, is the natural and inherent, not the acquired fertility of the soil the latter much depending on the manuring fencing Draining, liberally and judiciously expended, and which it would be impolitic and unfair to tax two adjoining fields, by good or bad management may be made to differ 100 per cent. in weight of produce this is notoriously the case in England, and must be so in a measure, all over the world and holds good (though to a less extent) even in wet lands as well as dry- manure being necessary and much used in Tinnevelly and good husbandry requisite in Nunjah as well as Poonjah,- Every consideration was however given to the important fact noticed by the Board the supply of water and the same attention will be carefully given to the produce- I request copy of the Board's Proceedings on Tanjore quoted by the Board, which I have never had the opportunity and advantage of perusing- It would have been a great

great help to me if I had been favored at the outset with copies of whatever correspondence or Kookumnamahs (from the Board's Records) the Board deemed most valuable I could not apply for such, because I neither knew what was in their Records, nor what the Board considered most valuable.- I was left to gather the best information and data I could individually from other Districts.

8. On reference to the Kookumnamahs of other Provinces it will be seen that the Rules laid down for Tarumdars and Sir Tarumdars are much the same- It was intended to defer any more special Rules for the Sir Tarumdars till the Survey- but in accordance with the remark of the Board, a set of Rules are now submitted for approval- In the 4 specimen Villages the Tahsildars employed, represented a Sir Tarumdar- Imposing 2¼ Rupees per Grain Cottah as an average Rate for the whole District, I considered it to be only a moderate, not a "low" one- and I trusted that the grounds and reasons I adduced were the soundest

* Enc. 2d p. 15.

and

See accounts & former letter of 24th October 1843.

and safest attainable - Especially, that of 40 years collections and Balances - If the "demands of the Native Governments were high, and required lowering, as in the ceded Districts, there is little doubt the pressure was always met and borne by large quantities of concealed lands, or conceded Enams. Where all land is strictly brought to the account of Government, as now, the Ryot cannot bear so high an assessment - I regret the Board should think, as they appear to infer, that I adopted any "speculative scale," or proceeded on a limited view of local circumstances" - I had no data or Rules given me, but the very general direction "to follow out the principles of Sir Thomas Munro's System" and apply it to Tinnevelly as I best could - I had no access to the Board's valuable English Records, but gathered and availed myself of such information as I was able - comparing it with all the circumstances and peculiarities of Tinnevelly and with other Districts, in which I had either myself served, or my Sheristadar was cognizant of and I could arrive at no higher standard than 2¼ Rupees per Grain (ottah), as a safe permanent moderate

moderate, and realizable, rate for Tinnevelly that a higher rate could in favorable years be imposed, there is little doubt, but it would be crippling not developing the resources of the Province and would only end in eventual remission, which if conceded at once, will greatly facilitate the progress of improvement.

9- I am aware that the Peruck or price is influenced by "many considerations" to all of which I endeavoured to give due weight, and after looking carefully at all the local and peculiar circumstances of Tinnevelly it appeared desirable to carry out the comparison with neighbouring Districts rather than confine my view to Tinnevelly alone - I therefore did the best I could by getting such accounts as I was able from the Collectors and Sheristadars of other Provinces taking all practicable care to secure accuracy - While I would propose 2¼ Rupees as the average permanent standard, I still think that under any standard (except a really very low one which this cannot be called), Government must always allow remissions or commodification

modifications for these periodical and calamitous seasons of entire drought, which no care of the Ryot can prevent, and on no forethought meet - I would also respectfuly but earnestly press the subject of longer Cowles - the present are not adequate to induce outlay of the Ryots capital, to reimburse him or to encourage those experiments and improvements which a liberal outlay can alone effect the present limited Cowles deter improvement and lead to evasion, the Cowle land being frequently held only while the Cowle lasts, and thrown up when it comes to the full assessment - if longer time were granted and more capital induced to be sunk, such would not be so much the case, let a Ryot see a <u>certainty</u> of reaping the fruits of his own capital and exertions & under a long Cowle and he works with energy, and will, and is ready with his dues - remove this surety and you take away all motive for exertion - present moderation of demand is as surely followed by future increase and punctual payments, as exaction is by future distress and heavy balances. The Board in para

4

4 of letter to Collector of Tinnevelly 3rd April 1817 and in their printed instructions of 22d May same year, lay down, that the consent of the Ryots should be obtained which I fear would be quite hopeless to expect a higher rate than that proposed while there is little doubt but that a really moderate assessment will bring under Cultivation much of the Punjah and Poonjah now lying waste - a large quantity as will be seen by the Marginal Statement.

*Commissioners Poonjah --- 5,15,858 Punjah --- 64,810

With regard to Tinnevelly 10. possessing an "extensive seaboard" and several parts, the Exports of its staple productions are but few, the demand for Cotton is I trust a growing one but it is certainly not yet, and I think never can be, such as to enable Tinnevelly to bear a heavy Assessment it is but prospective, and the product, itself limited to certain soils: the price moreover being much the same now, as 10 years ago, Rupees 60 per Candy although Rice might occasionally, as the Board remark, go from hence to Ceylon such has not yet been the fact, and it will

Fort St. George 16th. March 1846.

will therefore hardly be a safe ground on which to assess the District highly, the errors of the Coloongoe standard have been forcibly pointed out by Messrs. Wm. Rinderson, Bishop, and others and are not matters of speculation.- I will not presume to offer any remarks on the arguments and conclusions of the Board on the Balances of 42 years as exhibited in the Statement C, but would merely observe that I considered an average struck on so long a period and various systems of management, showing an uncollected and uncollectable demand of more or less magnitude under all circumstances, was one of the safest among other attainable data and if the Balance was less under direct management, I think it may fairly be attributed to the greater power and authority of Officers collecting direct for the state.- My impression of the main object of the survey, was to afford Finncially an equitable and moderate assessment, by alleviating the pressure where found too heavy, and leaving it untouched where moderate but if the total

Fort St. George 16th. March 1846.

total Bariz of the District is to be, at all hazards, augmented, and every instance of alleviation made up for by a corresponding increase some where else.- I fear the Survey will leave Financially in a worse state, than it finds it- it will have, relieved no burdens without imposing others, and will have changed the existing order of things, without on the whole relieving the District and if the moderate (I would beg respectfully to disclaim the term "low") assessment contended for by me, would still, as I believe it would, yield the same average Rental to Government, wipe off an annual heavy Balance Sheet (always impending and never collected, depressing to the Ryots and prejudicial to Government, a source of constant fraud and oppression), if it would preclude in a great degree the present yearly remissions, and at the same time tend to develope the resources of the District, and the energies of the people, by an elastic and moderate pressure, then I would most respectfully and earnestly submit, that it is a safe and

and desirable measure, and that if it involves the error of being too moderate it is one which leads to a liberal and wise policy, and a very much safer error than one in the other direction after again giving the subject the Board's remarks, and the whole data my most deliberate and careful consideration, I cannot propose a higher average commutation price than 2¼ Rupees per seed Cottah, on the grounds now adduced and those advanced in paras 9. 10. 11. and 12 of my former letter of 24th October 1843.

11. The proposed deduction of 20 per Cent on the average of 20 years, was founded not on mere supposition, but on bonafide losses and charges to which the Ryots are liable, which they themselves strongly urged, (Oppportunity was always taken, when I was on Circuit, of consulting and conversing freely with Head men and intelligent Meerasidars regarding the proposed survey) this 20 per Cent as urged by the Ryots on their behalf, was borne out by all the

the old accounts; and the 20 per Cent assumed by the Board to be lost to Government by "removal of grain and under Statement of Carnums" is but a supposition on which though probably partially correct, it would be unsafe to act, for the Government against the Ryot, a long average of prices, as of Collections and Balances, was taken, and though prices may rise, and will of course fluctuate, the gradual increase of Cultivation will tend to keep them low. The deduction of 20 per Cent of the average price, recommended by me, is not, as the Board suppose, a centage on the charges incurred before the Ryots and Government share of produce have been divided, but on the aggregate of all the charges incurred after the Division is made, and usually remitted from the Nailwarum, and when this is made over to the Ryots and a fixed money demand received in lieu, these charges would necessarily devolve upon the Ryots and would have to be remitted by Government. The Ryots complain much of a tax now levied

on

on them called "Netawary" both in kind and money on cultivated land, it originated in the Nabobs time, and has ever since been collected on various pretences, it amounts to 20,000 Rupees, is an anomalous and unfair tax and ought to be abolished I would much rather recommend this reduction urgently prayed for, than that on the Betel proposed by the Board, but not asked or expected by the people. Two Statements of the particulars of the Netawary were before forwarded - a few only of the Items might be retained.

Report of the Collector of Salt 1839.

12. The single year Fusly 1248 alluded to by the Board in para 12, and supposed to and argued on, as one of "unusual fertility was quite the contrary it was one of unusual and severe drought, in which prices rose from excessive scarcity and which it was found necessary to grant remissions to the extent of 150,000 A reference to the Serruck of 21 years from Fusly 1232 to 1251, will show that the prices of all the Fuslies but of the two noted in the Margin, have been very low It seems unfair to the Ryot to select

Fuslies Rs. as Rec. 1246-3-4-10 9/5
1248-3-3-1-4/10

Fusly

Fusly 1248, and argue much upon it, as being much above the proposed rate It will be seen by the Marginal Statement that the Average Bariz of 5 years, which the Board remark gives an average of 4 per cent above the Collectors Estimate, only exceeds it by 1 2/10 per cent; with the deduction of one more Fusly (1249), also a very high one. So the deduction of one more high year was made, because formerly the present Wooloongoo price (which forms one of the principal data on which the Settlement is made) was fixed by deducting from the 9 years taken the 2 highest and 1 lowest year, and striking an average only on the remaining 6 years. The Estimated Bariz was moreover calculated only for the Boards information, and it is probable that the actual permanent

Pariz derivable under the proposed conversion rate, will rise above the amount now surmised. It appeared sound and right to look especially at the last year preceding the one in which the survey is discussed as calculated to give a fair and practical view of the state and prospects of the District to which a survey is to be applied.

13. The Board remark that "it may be inferred" that the best lands in Tinnevelly have been under assessed. I am not aware on what the Board ground this inference and I fear further practical and local enquiry would not tend to bear it out. The data of the Colongoe standard have always been doubted, and I believe, with reason. The lands under the Tambraparney River alone (of some size and fed from the Western Ghauts) are of a superior class and well irrigated, bear the highest assessment, and are seldom laid waste, while the lands under smaller streams, and tanks, where the supply of water is precarious, are of inferior quality, bear a lower rate of assessment and are often left waste. Their irrigation having of late years been attended

Fort St. George, 16th March 1846.

to and improved, has brought a good deal of such land (inferior) under cultivation and this is I believe one of the real causes of the falling off (noticed by the Board) in the average produce below that of 7 years. I do not feel sure what account the Board wish me calling for "an Estimated Pariz calculated in the present Colongoe standard" and price for Talooks and Villages compared with past Collections and cultivation:— Every account and data the District and Records afford, have been forwarded, but

+ Nos 1 to 14. Statements supposed to be in accordance with the Board's wish are herewith sent if they do not afford the information the Board require, others shall be forwarded according to any form the Board will be good enough to furnish. I would beg most respectfully once more to refer the Board to paras 8—9—10—11—12 and 14 of my

+ 24th Oct. 1845. former letter, and to the important Statement of Balances C. the prices fixed for the present Statement / for each Village will probably require modification at the survey. With regard to the settlement of the 4 Experimental Villages on the new rates, I regret that I have not met, but misunderstood the Board's wishes.

Fort St. George, 16th March, 1846.

wishes. I was guided by the following reasons. I had no definite orders as to whether the Pote was to be carried out in these Villages or not if the measurement and assessment was to be mere matter of Account, the Ryots would have considered the process a fiction, and not a practical measure it appeared to me highly desirable also to test the practical working of the new System by a short trial, which if it failed could be amended, and if it promised success, it would greatly encourage the other Villagers and Ryots to accede (no unimportant and easy matter) to the new system, and I really therefore thought (and regret that I was mistaken) that I should be only meeting the Board's wishes, and acquiring more and correct data for future guidance, by bringing the new rates and system to actual experiment and practical test in these 4 Villages, while I of course, caused it to be understood that their permanency depended eventually on the Board's sanction."

The

Fort St. George, 16th March, 1846.

| | | |

large expenditure was incurred for that one Village. In the present 4 no extra expence was incurred, 20 per cent only were remitted, and the measure had the people's concurrence a material point to be composed whenever the Survey be carried out, and without which it can never be satisfactory or beneficial in its results. A reference to para 7 of Mr. Cotton's Report in question, and the Ryots objections there stated, will give some idea of the obstacles to be met and overcome. It was greatly with a view to breakdown the strong prejudice and opposition raised to any change at all, that the following Jummabundy was carried on in the 4 Villages under the new Rates, much of the opposition has since ceased, the Ryots see and accede to the practical working of the new Rate, other opposers have since expressed more willingness to accede; and the result has been as shewn above an Increase of Cultivation and Rent. In reference to my 1st letter of the 24th October 1823 I expected orders as to carrying on the Jummabundy

Jummabundy of the 4 Villages, receiving no reply I was obliged at the settlement (till which period I waited) to decide on the old or new Rate, and for the reasons given above the new seemed desirable to act on.

11. In Para 14 of their Proceedings the Board ask explanation of 15 Nos or 35 Seed Cottahs formerly classed as Nunjah, being now entered as Poonjah (40 Cawnies). It was one of these cases provided for in the Board's letter of 15th April 1823. "to discontinue all Nunjah "and Poonjah, entering as Nunjah all lands "fairly capable of irrigation, and as Poonjah those "where bonafide no irrigation was now practicable" from high levels, ruined reservoirs, or such unavoidable causes, the 15 Nos referred to in Padmalampary fell exactly under this class they were utterly incapable of irrigation, from high levels.

12. The Increase in Topes and Trees remarked by the Board, arises from large tracts of Palmirahs planted simultaneously; rising at once (from their age and size) from a lower to a higher rate, i.e. from a 4th or non-productive to a 3d or 2d or fruit bearing state.

13. The 4 Villages selected were fixed on

ore by my Predecessor, not by myself, as being near together, and yet exhibiting most specimens of the various tenures of Juri= =nevelly viz. single holding Nagabogum, Joint D° Palabogum, Govt not sold talk held by lol Proprietary Perumbut, Pungoovaly, Buttaeuty, supplied by Rivr with Nunjah and Poonjah under Ayacut, from rain only and Poonacolum Tanks, and it was considered that the Village of Padmalam= =pary, once flourishing now decayed, might be an useful example for the Survey.

17. In proposing to fix Fusly 1252 as a period from which new wells in Poonjah would be privileged to exemption I merely wished to assign some definite period to which to refer, that being the earliest date on which any thing decisive had been received from the Board and the new Rules were stated by the Board in their Proceedings 13th April 1843 para 8. to be applicable only to "new wells of comparatively recent construc= =tion". I was not aware the subject had been agitated so early as Fusly 1252 but I shall only be too happy (advocating well cultivation strongly as I always have done) to see a more liberal Rule applied.

The

The Board in Para 18 of their 18. Proceedings observe with reference to the Statement N° 11 of the Village of Padmalam= =pary that I have adopted a single rate while there is a different rate for each of the 2 Crops Carr and Peshanum. I merely beg to explain that as the assessment on lands cultivated was much with reference to the rate for the Carr or Peshanum season in which the land has been cultivated, and the rates (for Carr and Peshanum) varied in each Village without uniformity and there was no fixed general rule to regu= =late the Demand on the 1st or 2nd Crop, it was arranged that the 1st Crop Nunjah should pay according to the capability of the soil full tax, and the 2nd Crop half of it, without reference to the Season in which the Crop is raised; so in "Padi= =alampairy" the term Carr and Peshanum, and the different rate for each was done away with, and full tax laid on the 1st Crop with reference to the fertility of the soil, means of irrigation &c and half of it on any 2nd Crop, raised at any time within the year in= =which the first Crop was cultivated.

The

The same rule is proposed to be adopted with respect to lands to be surveyed hereafter-

19. Needs no further remark-

20. As the Board object to consolidating the extra tax on Poonjah for 2 Crops and observe that any Collection on a 2d Poonjah Crop is not usual, I would propose that it be done away with, and the old single tax alone levied, leaving the benefit of a Crop to any Ryot who by good fortune or industry is able to raise one.-

21- 22- Need no further explanation-

23- I do not quite understand whether the Board intend Betel to pay only the tax of 2 Crops rice Lands, or how they would wish it settled by taxing it only as a double Crop, the Board will be aware that a sacrifice of about 9675 Rs is involved (see memorandum) My proposal was only to levy on it a rate equal to what it had always paid.

Total Betel Cultivation in Fusly 1252 A.D. 317 Mamool teerwah or the present average Betel assessment Rupees		14,550-
Treble Poonjah tax as now proposed	9750 less	4800 Rs
Double D:	6500 less	8050.
1½ Poonjah teerwah or Dofusul Teerwah	4875 less	9675.

paid. or indeed 4800 less. and I endeavoured to assimilate it as near as could to the Rules for other produce, by making its rate depend on so many fold of the class of land, instead of the arbitrary local rates now prevailing as the Board do not consider it properly taxable on the ground of a luxury, nor of its hitherto high rate. I would beg their definite orders on this point: and to what rate it shall be reduced though I think it would be more advisable to reduce the tax on some grain of life- I am quite aware of its being an exception to the general Rules for the other crops, but it is a single exception: and appears unavoidable, unless the Board deem it right to incur the large sacrifice involved in thus reducing the Betel. (a reduction by no means asked or expected by the growers) the rate will be as I propose, on the land only a high one. In the next Province, Madura, Betel is also taxed at an arbitrary and high rate- Betel has already been entirely

entirely relieved from the excise duty, if the great and unexpected remission proposed by the Board, be also made, it will have been favoured beyond all other produce, the mode I have suggested seems the only one to keep it in its proper and usual grade, in comparison with other produce, and collect an excisable duty on an article of luxury, as well adapted for taxation, without greatly departing from the unexceptionable rule of taxing "Soil not produce" It is one of those partial deviations which occur in every rule, however sound, and I am most unwilling to give up to the Betel at a considerable loss to Government, what is <u>neither asked</u> nor <u>expected</u> by the people. Though similar general principles will apply to all surveys, yet local peculiarities and Customs will require the adoption of different measures in each District I would also beg to learn if the Board intended by the closing remarks in para 23. to <u>settle</u> the question of "Perumbut" (in 82 Villages) which has as I pointed out, been long a subject of discussion in many letters, and if I

may act on the Board's assent by considering the right and time "Perumbut (or exclusive Government proprietary, right) as ceasing in the District &c It involves a considerable, though I think a salutary change, in the 82 Villages in the District which should be clearly and distinctly made known to the people and some rules regarding the waste of these Villages will also be necessary - if declared private property and saleable it would lead no doubt to an enhanced value, and ultimate improvement of the land.-

14 The modification directed in the proposed proclamation will be duly attended to.

25. Having noticed all the points referred to by the Board, I would beg to refer to one or two others of general import in the District, requiring consideration and notice, as well as the Board's Orders. One description of land to be reassessed, is that lying under old ruined Tanks, called "<u>Wodacoolum</u>" or <u>Broken</u> this was once Nunjah but has for 20 - 30 and 50 years, since the ruin of the Bund or supplying channel, fallen back to Poonjah, much of this land lies <u>entirely</u> waste it is incapable at present of Nunjah

and

and the Ryot fears to cultivate Poonjah lest the Nunjah rate (from its class) should be charged upon him, as has at times been the case: Some of these lands might on the due repair of the Tanks at a considerable expence; again revert to Nunjah; at present I proposed to class them like what they really resemble, the other Poonjah around them: they will probably fall properly in the highest class of assessed Dry (Poonjah) land in the Villages, for though no longer capable of irrigation, or any thing but dry crops the land having once been Nunjah is levelled, free from stones, and usually productive - All such I would propose should remain under dry grain cultivation and assessment till the sources of irrigation be restored at the cost of Government or by the Ryots themselves under encouraging Cowles: when it may then properly and naturally pay Nunjah Teerwah; to charge it so now would be to prevent its present occupation or its coming again up to Nunjah: as long as the liability of a Nunjah Rate hangs over it though under dry cultivation, it will be left entirely waste to the detriment of Government and Ryot.-

Under the present Pycramauth Rules requiring a large and early return, few such lands can be restored: long Cowles to the Ryots will alone do it.-

The

Repair of Old Tanks Cowles.

26. The funds of Government are sufficiently and perhaps better employed in keeping up the existing sources of irrigation, than by restoring former ones, but — much might and would be done by the people themselves under due encouragement, without any risk or expence to Government — The reason why the Ryots so seldom come forward to repair and restore Old Tanks and other sources of irrigation is because the present Cowles are in many instances not sufficient to be fairly remunerative the longest Cowle now allowed is 6 years, often quite inadequate to the object in view I would propose to increase the period of the Cowles and invite the people to undertake many works, the cost and risk of which Government are not inclined or able to sanction, though many such have been examined pronounced, practicable and desirable and estimated for by the Civil Engineer: there are only two points which require to be guarded against, and that is easily done, first that no Old land be thrown out of cultivation by the new Cowles, and 2dly that such Cowles, or at least the

formerly

~~Ryo~~

offer of them, be granted only or chiefly to those first entitled to them the real proprietors and community of the Village. an offer is often made by some neighbouring Villagers of substance and intelligence, able and willing to carry out what they offer (and desirable parties to close with, as far as Government Interests are concerned) but the offer is perhaps made with a view to get a footing and eventually a right in lands where no such intrusion is fair - Any such Cowle should always first be offerred, and even on more favorable terms, to the resident and hereditary Ryots of the Village, and only granted to others on the confessed inability or unwillingness of the Original Ryots to benefit themselves and Government by such outlay - In that Case to bring back waste lands again under profitable cultivation, and improve the resources of Government, (without injury to existing cultivation) by means of Extra and neighbouring aid seems necessary and unobjectionable - In all Cowles, I would eventually have the lands, however long they may have lain waste, come up to the full

full assessment of other lands around them. Offers are occasionally made, to redeem waste lands, if a lighter permanent assessment be fixed on them; but I think such should never be accepted where the cost of redeeming such land is heavy, let the Cowle be ample, but the full average assessment of surrounding lands, be invariably payable at last: or the Cowle lands will affect the value ultimately of neighbouring land - Cowles are frequently asked and taken for the mere purpose of keeping out, or of annoying others without any real intention of being acted on: for the due fulfilment of all such Cowles, parties should give security, and the teerwah should be exacted even though the repairs be not executed.

27. The Chackumputty Zemindary referred to in Para 27 of my letter,+ is being as I said, gradually appropriated by strangers, under others' names the Estate was bought in by Government: the proprietary right of the Zemindar has passed fully and fairly into the hands of Government, a sale of it, giving merely the right to dammy baguan

+ Dated 15th Decr. 1843.

or

or Rent, would bring a Considerable sum to Government, without molesting the occupying labouring Ryots, who would be maintained in their usual position, and who are now every year coming under new Masters with unrecognized and spurious rights. It would be better to lift every occupying Ryots of 10 years standing found in the Estate, into a full proprietor, giving him full proprietary right in addition to his present prescriptive right of occupation, rather than let middlemen and adventurers step in and appropriate the proprietary right, and Rent as they are now doing.

Moderation. 28 Feeling assured that the Board is disposed to admit the desirableness of a really moderate assessment it seemed chiefly necessary for me to show, with reference to Tinnevelly, that the rate and standard proposed by me was nothing less than such moderate assessment, as on sound principles and careful enquiry, I am warranted in

in submitting. I trust I have partially satisfied the Board on this point by the statements, Accounts and comparisons already forwarded. In a report now before me which the Board were so good as to forward "for my perusal and information," I find in Para 92 of Mr. Goldsmid's Report on the survey settlement (dated 1st November 1840) of a portion of the Nasick Collectorate that he reduced the Assessment 52 per Cent, his survey was I believe confirmed and approved of, and I cannot suppose your Board would dissent from the sound and liberal views of the Bombay Revenue Board quoted in Para 94 of the same letter, advocating and indeed enjoining on the Survey Officer, "a moderate settlement as the only sound policy and safe principle." I desire nothing more than permission to carry out practically in Tinnevelly the spirit and injunctions of the above Para.

while I propose only 20 & that on strong grounds & reasons shewn.

Boundaries 29 I beg to refer to another point of some importance not adverted to in my former letters; an early and very important point as a preliminary in every Survey, is the fixing field and Village Boundaries. It is highly desirable that these should be made, by some mode or other, as indelible

and

and obvious as practicable - The usual one is by Boundary stones but I think objections to it exist: it is an expensive, and after all unsatisfactory mode - in many tracts of sandy and black soils in Tinnevelly, not a stone or rock is to be found; in such localities Boundary stones must be brought from a distance of many miles, and if large enough to be really useful, are very expensive - Moreover an Ordinary Boundary stone, is easily removable, whether from fraud or for use for other purposes - Another mode proposed in the Bombay Deccan survey was to throw up "earthen banks or ridges", but this was found also laborious and expensive - and liable I should think to be obliterated by 2 or 3 monsoons; and must occupy in the aggregate a considerable area of useful land. I would propose as the most economical, - durable obvious, and useful mode, to mark the Boundaries generally by planting particular trees: the Cost will be comparatively small, the mark - / as the Trees grow up / indelible and irremovable; subject to immediate

observation,

observation, if cut down, and useful in itself for fruit / and eventually timber / while serving as a Boundary mark a large upright stone, yields nothing not even shade - A tree will at least do that, - and make at the same time a better Boundary. there are 2 kinds which I find from experience, refuse no soil, will grow, and flourish almost anywhere, both extremely hardy and both useful to the Country; the Palmirah, and the thorn trees common all over India called in Tinnevelly the Caroo and Vell Vela* Marum, of the tough wood of which, nearly all ploughs and Native implements of agriculture are made; the bark yields a spirit distilled; and the Gum is the "Gum Arabic" of Indian Bazars. valuable, and approaching nearly to the real Arabian Gum. The many obvious uses of the Palmira need hardly be repeated. Every Native Hut and house, - as well as all other Buildings, being partly -

composed

another thorn called S & L & Cumil, is also extremely useful ✻ acacia arabica, or Babool see page 49 Indian plants, by H H. Spry forwarded by the Board where the value of this thorn is noted -

* called "puttah sarayum".

composed of it timber and roofed with its leaves, the accounts of a great portion of the Revenues of the Country being recorded on its leaves its fresh juice and fruit affording sustenance to thousands of the poorer classes as a drink called "Puthaneer," its fermented juice bringing in a large Revenue, in the left desirable state of spirit and its boiled and prepared juice, affording Jaggery and sugar to a large extent.— and to those who can affford the luxury the young root of the Palmirah of about 3 months old is a vegetable food of much esteem among all classes of Hindoos large quantities are annually planted for this purpose only, when dug up for use much resemble a large parsnip, both in appearance and property. I propose to sow at every Boundary one of each kind, in pairs close together, their so growing up will sufficently indicate them as Boundary trees. Not being usually so planted though found scattered in the same localities: once up both trees naturally seed themselves and will perpetuate the Boundary with out any further trouble than to see that they are not cut down. In any particular spots where the trees would not grow (which would be very few) or where any more

more peculiar mark, or an inscription, might be required, Stones could of course still be used. I trust the Board will not deem me dwelling needlessly on a point of apparent minor importance but the fixing the boundaries of the lands, is necessarily a first and main step in the Survey that such a Boundary when decided on, should be obvious and permanent, is also important, and if the process, usually an expensive one, can be effected permanently and at the same time cheaply, it is the more desirable, though the cost is a secondary consideration in such an important object.—

30. In my enquiries and proceedings hitherto, as regards the Survey I have endeavoured to take as my basis and guide a principle I believe also laid down and acted on in the N. W. Provences and other Surveys, and which indeed appears the only safe and politic one, namely, taking "as a general "limit for the entire assessment of the whole District, the sum actually realized for a series of "years" it is added in the Bengal reports, "without arrear or difficulty" this latter clause would I fear hardly apply to Tinnevelly for I believe the actual collections, (independent of all the heavy Balances shown in my Statement.

O

(I have not been made "without difficulty."
It is claimed to be the distinctive character
and merit of the Bengal System in the N.W.
Provinces, that its assessment has a constant
reference to "former regular and easy payments"
the principle however is so plainly a sound
and safe one, that I believe it has not been
overlooked either in Bombay or Madras Surveys,
and is one on which I would mainly propose
now to act. The practical and obvious benefit
conferred by a moderate and fixed assess-
-ment (the only one that can be invariably
realized in all seasons) is perhaps the most
tangible and effectual bond, and is the best
means of maintaining and increasing that
hold on the good will and affections of the People
which in the present day it appears especially
our Policy to regard. In almost every letter
and order on the subject from the Court of
Directors and the Supreme Government, over
assessment is directed to be "seduloously and anx-
-ously guarded against," as the worst of evils, and
one far outweighing the opposite one of Govern-
-ment securing somewhat less than the utmost
limit of its practicable demands. and again it
is justly remarked, "that over assessment is
the worst result that can follow any attempt at

"ot Survey." The Governor General in a letter
to the Court of Directors 18th August 1838 ob-
-serves that "every assessment is, to a certain ex-
-tent a matter of conjecture, in which the great
"danger lies on the side of excess. let the con-
-jecture be too high, and the Country is ruined.
"let it be rather lower than it might be, and
"there is a small sacrifice of present income
"to the Government, but the foundations are laid
"deep of present happiness and wealth to the people,
"and of future enlarged resources to the Govern-
-ment." Unless the Ryot feels secure against
any increase in demand, little or no improve-
-ment will take place. It is always the amount
not the mode of assessment that chiefly affects
proprietary rights, and either absorbs the Value
and Rent of land, if too high, or encourages
improvement, if moderate. this with perfect
freedom of cultivation and no demand on
Extra crops, is all that the Ryot requires.

31. The Revenue Board at
Allahabad under date 28th March 1838. No. 4
in No. 798 have attacked and decried at great
length and with much severity the Madras
Ryotwary, but I think that further consider-
-ation would show, that many of the remarks
of the Bengal Board on the evils of the
Ryotwar

× received from the Board with Proceed-
-ings dated 9th February 1843.

Ryotwar System, appear to apply more properly to the over taxation connected with that System, and not to the system itself. The Bombay survey, claim for themselves the "merit, whatever may be their faults, of "avoiding that most fatal one of over assess="ment." It has been claimed for the Ryotwary and I think justly, that it is better calculated than any other system to develope the whole resources of any country or District from its minute enquiries and details and full and close (its enemies would say in="quisitorial) intimacy, with the whole body of the Ryots but I think it is perhaps so far true also, that this close and constant knowledge of and interference with the mi="nute detail, concerns, and means of every Member of the agricultural community, tends naturally to over taxation, without leaving the waste lands as the Bengal and most other Village systems do to the people, as a prop on which they may fall back, and with the aid and advantage of which the taxes on their fully assessed lands, are most readily paid. Moderation and certainty of assessment, security against and increased demand on his own outlay and improvement

general

general security of property and of usufructuary and proprietary rights, long and liberal leases and bowles for encouraging improvements, and the full and untaxed benefit of all improvements effected by the Ryots own Energy, Capital, or skill, are the main points necessary for the prosperity of Tinnevelly, and all these are as practicable under the Ryotwar as a Village System; while the Ryotwar possesses advantages peculiar to itself, not existing in the Village Settlement whose joint responsibility seems rather a forced than a natural result, created by Government itself, to ensure the better realization of its own demands, and must prove a bar, in the natural course of things, to individual energy and activity, the re="sult of individual responsibility. The Ryot="wary or fixed field assessment tends less, it appears to me, than the Bengal Village system and of the N. W. Provinces, to interfere with existing rights and tenures in land. affords greater facility for its sale and transfer, and more protection to the poorer classes against injustice and oppression. Every assessment whether a field or Village one, must be in some degree a matter of conjecture, where the

great

great danger is on the side of excess. and it must always be not only far safer, but more politic, to take a little less than is practicable or possible as the Government demand, than the slightest degree more, the first error if it be one, will result in sure gain to both parties, the Ryot and Government: but the latter is frequently not discovered till it has done irre=
=mediable injury to the future resources of a Province—

Rent or Sawmy=
=bogum—

32. Another point which is gradually increasing in difficulty, and will require some general and early settle=
=ment in Tinnevelly, is that of "Sawmybogum" or Rent. I believe so many orders have been passed at different times in different Dis=
=tricts regarding Rent and Meerasy rights, that it is very difficult to come to any definite conclusion as to the respective pri=
=vileges of Landlord and tenant, the rate of rent demandable, the right of the Merasidar to raise the rent on his tenant ad libitum, the extent of right conveyed by Meeras, & varying in different Provinces. as the land is more or less valuable, or proprietary right has been more or less invaded or disturbed

disturbed. the tenacity, on the one hand, with which the land holder retains his hold on his "Jenmy" or proprietary right on the Western Coast, mortgaging it in many different ways and degrees before he finally and with extreme reluctance, quits his last hold on it and the facility, on the other hand, with which the labourer or small tenant at will, is able in other parts of the country (as Coimbatore, Trichinopoly, South Arcot) to occupy a piece of waste, though nominally included in some proprietary limit, and eventually secure undisturbed and confirmed possession. All these varying practices render it difficult to arrive at any decision or definite precedent for guidance regarding Meerasy right. its extent, and the best mode of dealing with it, so as fairly to uphold on the one hand, proprietary and private rights, and at the same time, protect the poorer Ryot from rack Rents, and oppression, and encourage cultivation, and secure the just dues of Government on all land fit for culti=
=vation, and where Ryots are found willing to cultivate—

33. In some remarks of the Court of Directors not long ago on Meerasy right, and the power of the under tenant

tenant to protect himself, the real condition of the tenant at will, the Poracoody, is not sufficiently or really adverted to. It is taken for granted that his power of removing himself and his labour, are a sufficient check and guarantee against any undue exaction by the land holder. In England of course it would be so, but not in India at least in Tinnevelly. constant flittings from field to field are objectionable and ruinous to him, his little capital such as it is valuable to him though small, is expended on the field he occupies perhaps in a Well a fence. Manure &ca all necessary to a fair crop. he cannot afford to leave this frequently or suddenly. it is not desirable he should. the tenacity with which a poor cultivator clings to a bit of land, however barren, and apparently worthless to others, is remarkable. he has no means to build a fresh hut would not be allowed to carry away his old one if he could, finds a difficulty in gaining a fresh locality and a footing in a new Village, and often lingers (under any moderate oppression) near his old and usual haunts his family connections are also probably there

there and I believe the old and homely adage would hold good in his case, that several removes would be as ruinous to him as a fire. and I believe that it is on a practical knowledge of these difficulties besetting the poor Ryot, that an oppressive land owner is often emboldened to go great lengths in exaction before he actually drives away the Poracoody tenant, and therefore that the latter has not really the easy remedy supposed, in his own hands, but needs just and fair protection. Indeed I know of no class in this part of India who readily and frequently transfer their labour from one soil to another. It is contrary to Native habits and inclination and is only resorted to under peculiar and urgent circumstances.

Rent continued

34. These rights and the eventual permanent occupation of such lands by ex tenants, have been made the matter of Suits and the Courts have I believe in many instances rejected the plea of the Meerasidar to oust the tenant and have upheld the latter in possession, where uninterrupted occupation of old waste, for 12 years could be proved. again the indefinite term of "old waste" &ca needs some limit or definition, it may run from 10 to 100 Years, and though it may be argued that

"Anady Bunger" "Nedoonialtur"

no

In England I believe undisturbed occupation for 21 years gives profession

no length of time ought entirely to abrogate private right, yet the interests of Government require that some limitation should be set to a right which claims the privilege of keeping arable and productive lands in a barren and unproductive state, to the exclusion of others able and willing to cultivate them and to the yearly and constant loss to Government of a considerable amount if the proprietors are able and willing to use the lands, their claim and right is paramount and should in all instances be first admitted; if they insist on their barren privilege, they should pay for it what others are willing to pay, the Government dues, or allow others to occupy. I think 12 years is a fair limitation, and I would therefore uphold in permanent profession, free from future disturbance or "Sawmy bogum," any tenant who had occupied uninterruptedly for 12 years without payment or demand of such Rent, giving a Puttah of occupation to secure him, but reserving to the proprietor the right of Sale so that a tenant wishing to have full and complete right of profession as well as occupation, must at last purchase that right of the Meerasidar,

Landlords Rent

Meerasidar, but in the mean time he should be supported in undisturbed occupation, so long as he pays the Government dues. I am not creating or supposing a difficulty but only detailing what exists to a large extent, and is the cause of constant dispute in Tinnevelly. There are large tracts, of many thousand Acres of fine Poonjah land, of more than 20 years waste, on which many Soodra Ryots are willing to settle, and pay the full Government tax, with a moderate Sawmy bogum or Rent to the Brahmin Meerasidar, but which the Meerasidar will neither use himself, nor allow the Paracoody to cultivate, or touch, unless he comes up to the high and exhorbitant rate asked, the poor Ryot is kept out of land he would improve and cultivate, and the Government of a considerable amount, while the land lies waste: exemplified in one single Village of "Wutteracroopoo" in Sheevelly pootoor, there are about 2,600 Chains or 7150 Cawnies of fine red Poonjah Soil, fit for cultivation, on which poorer Ryots would gladly get a footing, and which has now lain waste from the above cause. Two evils arising from an abuse of Meerasy right, are, the poorer Ryot is often

Of Revenue

20 & 30 years

often precluded from getting land to culti-
=vate at all, and secondly, when obtained, he
is liable to great oppression and exaction. The
landed Meerasidar knowing the cultivating
Ryot can live by land alone, and is precluded
by caste and circumstances from turning
his hand to trade or other means of livelihood,
withholds the land till the Ryot comes up, of
necessity, to the terms required, which gene-
=rally leave, beyond the Rent, a bare sub-
=sistence only, and no hope or chance of the
poor labouring tenants raising himself
to a higher class as a farmer or small pro-
=prietor, but this bargain, though a hard one,
the Ryot makes with his eyes open, as able
to get no better. A second and still greater
evil is, where a grasping and avaricious
Meerasidar, seeing the poor Ryot improve
the land by the outlay of his small means,
in fencing, draining manuring or perhaps
digging a well immediately enhances his
demand, doubles his rent, or gives the tenant
the option of quitting the land and losing the
capital sunk in the field, intended by the
Ryot for his own future and fair profit,
but now unfairly appropriated by the Mee
=rasidar this is not a supposed case of
hardship,

hardship, but one of frequent actual occurrence
in Tinnevelly, and I have always been doubtful
whether Section VIII Regulation V of 1822 autho-
=rizes the Collector or not to step in and
adjust, on due enquiry, a fair Rent and terms,
between the Meerasidar or Proprietor (so called)
and the Poracoody or occupying and indus-
=trious tenant, where, as is often the case,
no Puttah has passed the Meerasidar will
not give one because it binds him inconve-
=niently, the poor Ryot has no option but to
submit to the extra demand or lose his
labour and small capital sunk in the field.
The consequence is they are usually afraid
to make any outlay or improvement, but live
from hand to mouth, and keep the lands
in a low and poor state of cultivation, yield-
=ing less than they otherwise would. It may
perhaps be argued that these matters are
best left to settle themselves, and find their own
level between land lord and tenant. I should also
say decidedly so in an European country,
where a spirit of fair dealing, a principle
of competition, and public feeling, are all in
full play to prevent oppression and wrong,
but I fear the grasping Meerasidar and
the poor Ryot cannot be so left, or be under

the

the influence of such salutary checks, and
I believe it therefore becomes necessary for
Government to step in first for the support
and protection of the poorer cultivator, and
secondly for the security of its own dues on
the land. It may be said the Ryot should
secure himself by the necessary Bonds
and written agreements with the Meerasidar,
the only answer to this is, he does not, he
has not at present the forethought or
capacity for taking such precaution,
50 years hence this may be safely left per-
haps to the increased independence and
intelligence of the cultivating Ryot. At
present it appears requisite, in some
degree, to think and provide for him.

I trust the Board will
35 not think this a needless reference on
Meerasy right of the difficulties and
varied forms of which the Board are
doubtless well aware. I am desirous of some
general practical rules for my own
guidance in Tinnevelly where perplexing
questions of this nature are constantly
now arising, the interests of Government,
the rights of the Meerasidar, the protec-
tion of Ryot, the local custom of the

District

District, each seeming at times to require
some different decision. The question I
fear cannot safely be left to settle itself the
conflicting interests require some general
consideration and settlement, and are I
believe equally indefinite and unsettled in
many other Districts. Any general out-
lines or Rules by the Board for settlement
of Meerasy claims, would therefore probably
be extensively and generally useful, and as
I have no wish to bring forward and
enumerate difficulties, without endeavour-
ing to suggest some practical remedy for
the Board's consideration, I have ventured
as regards Tinnevelly to propose a few
general Rules above which would I think
meet most cases, without unfairly com-
promising the several rights and Interests
of each party, namely the real rights of the
Meerasidar, the welfare and protection of
the industrious and labouring Ryot, and
the just dues of Government which the
exigencies of the State cannot permit it
to forego, land being its chief resource.
The subject has I believe been frequently
and largely discussed by the Board, but
no general or final Settlement of the

question

Fort St. George 16th March 1846.

question or Rules for guidance, have as far as I am aware ever been passed.—

36. I may truly say that the preparation of these Reports, and collection and consideration of their data, has cost me quite as much anxiety and trouble as if the survey were in actual progress, laying a true and sound foundation is not the least important or anxious part of any undertaking; the Rules once settled and a fixed the practical progress of the survey will chiefly require a little personal trouble and exertion in moving about and watching its operation.

Fort St. George 16th March 1846.—

operation. Every late Summahbundy and decision of any Revenue difficulty, or have all had to be considered and settled with reference to the approaching Survey so as to square, as much as possible, with the proposed Rules. A constant and arduous pressure of current work, with occasional ill health, and for many months no Special Assistant (to relieve me of details) with a desire to consider fully and answer deliberately all the Board's suggestions and enquiries, have prevented my replying at an earlier period.—.

Tinnevelly ----- 31st January 1846.—

/ Signed / C. B. Thomas
Collector.

Signed / E. B. Thomas Collector.

Fort St. George, 15th March 1845.

No. 15.

Hookoommamah proposed for the guidance of Sunturmdars of Tinnevelly District.

1st. Copies of Pymash, Aymashes and Sarvi Hookoommamahs are furnished to you, and you should carefully understand all the rules contained in each Column of them.

2. The Pymash Accounts of your Division should be sent for by you from the Taksildar and then furnished to the Turmdars.

3. You must make yourself well acquainted with the contents of every descrip=tion of Account before you divide them between the Turmdars - as soon as you proceed to a Village in order to examine and classify the lands you should with reference to Ac=counts from Fasly 1211 prepare a Statement for your guidance containing the following particulars Vizt. the state of the Village the circumstances in life of the Ryots, the extent of cultivation in each year, the lands that are laid waste, the gross produce and Maiwarem of each year, the average produce of 7 years for each crop under Aymaree, Particulars of Agaput and Poracolum Tanks, the ex=tent of cultivation and the lands that lay waste in the preceding year under each Poraco

Fort St. George, 15th March 1845.

Poraco the waste poraco Tank or that Tank under which the lands lie waste, and the Source of irrigation - after knowing these=particulars, you must go to the sides of the Village for examination.

4. You must also ascertain the following particulars in every Village Vizt. Whether the lands possessed by the meras=dars are cultivated by themselves or by their under cultivators or Poracoodies, if by Pora=coodies whether they cultivate the lands on the condition of receiving waram or giving Sawmybogum or whether they enjoy exclusively the profits of the lands without giving any thing to the owners and how are lands disposed of.

5. You must, when inspecting and examining the lands under each Poraco do it in the presence of Meeras=dars. Ryots and number Curnams, keeping the accounts divided by you between the Ryots and that of 7 years Aymanie Cun=doommoodul which will be in the hands of St. Curnam, as your guide - though the Aymanie Condoomoodul account, may agree with the one prepared for classification, yet if the Ryots produce any

any Individual and fieldwar account of old date kept among themselves and if it can be relied upon, then you should make it a point for consideration - After the 7 years of cumaries as the Ryots on the ground of Mamool continue to pay land tax, Yareemarah, Curum=marah, and Nalpedyvasee in cultivated Nunjah land, you must carefully include them in the gross produce of each Cawny of land of every description which you inspect and examine. Desire the fertility of the soil, the distance of the lands from the Village, the cultivation of lands whether supplied by first or last channel of each source of irrigation whether the water runs freely or is with difficulty and the labour of cul=tivation should be ascertained, and after mature consideration if the clas=sification fixed by the Tumsdars appear unjust, the necessary alteration should be made. During your examin=ation, if it comes to light, that the Tum=dars, through ignorance, partiality or self interest, have placed wrongly the 1st sort land under 2. and 2. under 1st. Let such

such should be brought to notice with particular remarks and get them punish=ed. the fixed Woodasaram of each field of every class of land should be made known to all the Ryots to get their consent. Due attention should be paid that lands are by no means classed as above mentioned favoring one Ryot to the disadvantage of another - the Merasidars or Head Inhabit=ants having their own interest in view, will endeavour to have their lands entered under the lowest class which should be carefully avoided -

If any Ryot with a view to di= diminish the public Revenue wilfully ob=ject to the classification and instigate others to follow his example such a Ryot should be sent in charge of a peon to the Tahsildar who will enquire and treat him according to his deserts -

When classifying Nunjah, Totacal, and Poonjah Totacal lands, the Particulars of the Hookoomnamah and of the classification fixed by the Tum=dars should be well known and then you should proceed to inspect the lands where after considering the state of cultivation, nature

nature of the soil means of irrigation and springs, as also whether the lands have always been always cultivated without being laid waste: you should fix Woodiwarem to each Cawny of land.

8. Whatever may be the means of supply by drawing water from wells, for Nunjah and Poonjah Totacal lands still as such should bear a lower assessment than lands supplied by channel, the particular source of irrigation should be clearly specified in the accounts, and the reference with reference to the Sort of irrigation under which the lands are cultivated, you should fix Cundoomoodel to each Cawny of land according to its class.

9. Cundoomoodel of Pottom, Poroy Enam and Cuttoogoottah lands should as above directed be fixed according to their classes.

10. The Ryots may conceive that the 7 years average of Aumanie should be the standard for assessing lands, but you must not look to it as quite adopted for your guidance, because during Aumanie the lands may perhaps be laysed low, though the deficiency in the supply of water for want of repairs or through fraud and therefore you must enquire whether the lands

lands are laysed by the Turndars with reference to fertility and present state of cultivation and then you must fix Cundoomoodel to lands according to their classes.

11. You must ascertain during the examination whether Enam, Pottom, Poroy and Cuttoogoottah lands which are held on favorable terms are enjoyed by the proprietors themselves, or by strangers for want of legal heirs and how these lands are held of old. These particulars you must write in the accounts.

12. In classifying the lands of the experienced talook servants are requisite for your assistance the Tahsildar will send them to you on application.

13. In fixing Woodiwarem for Anady Bunjer and Salvar Bunjer according to their classes, if it was fixed more favorably than that for cultivated lands then the Ryots will lay the latter waste and cultivate the former as bearing a favorable assessment, therefore the Woodiwarem for those lands should be fixed with reference to their inherent qualities and to their respective classes.

After

14th After the Completion of the examination of your Division, you must send the accounts to the Tahsildar and after obtaining receipt for the same you must proceed to another division agreeably to the orders that may be issued to you-

15 The Amount of Abstracts of the pay of Turnndars, Coomastahs and Deloyets, if sent to Kooroor will be sent to you through the Tahsildar for disbursement-

16- You should by no means detain Turnndars with you, as lands must be classified and assessed immediately after Pymash or Survey-

17- Your Salaries are at present fixed at 35 and 42 Rupees and your promotion depends on the Amount of Beriz for which lands are assessed and on the efficient manner in which you conduct the business of assessment- The Coomastahs mentioned in the accompanying list are appointed to assist you and to do duty under your orders-

18- You must keep attested Copies in a Book, of all your Arzees to the Kuzzoor and letters to the Tahsildars &

Village Servants, and others addressed to them on any account connected with public business- the answers which you may receive should also be tied up in separate Bundles for each Taloob and kept well digested-

19- To enable you to answer to all questions put to you at the Kuzzoor you should before hand inform yourself on the nature of the Soil sources of irrigation, Boundaries of the Villages and classification &c-

20- The Poonjah lands have already been classed, but the assessment is fixed at so many Cully fanams per chain, and also there are 2 or 3 classes for a field, therefore one rate of assessment should now be fixed for each field at so many fanams per Cawny. The former chains should now be converted into Cawnies and assessed at so much per Cawny. a new rate of teerwah should be fixed per Cawny with reference to the fertility of the soil, the one rate of assessment fixed by the Turnndars for a field which was subject to

to 2 or 3 rates should be tested by you and then you should go through the process of your examination and fixing assessment as to the mode of your proceeding to the assessment of a field subject to 2 or 3 Classes and as regards other points you should look to paras 12 and 15 of Tinnevelly and Pymash Hookoommanahs respectively for your guidance.

21. When classifying the lands of one Village you should know the nature of the soil, source of irrigation and the average produce of the lands of neighbouring Villages but if they were subject to another Talook, you should learn these points by writing to the Tahsildar or Provincial Serasidars and Curnums who should be sent for by your peons for that purpose. An account of the same should be kept by you.

Tinnevelly. 31st January 1846.

/Signed/ E. B. Thomas
Collector.

Order thereon, (42-43)

Ordered to be sent again in circulation.

Read

From the Asst. Collector of Tinnevelly (44)

Read letter requesting leave of absence for one month in addition to the period allowed him to join his station as Acting Collector of Tinnevelly under Section XI of the Rules.

(44-45) Order thereon.

Ordered to be submitted thro' the channel of the Civil Auditor for the favorable consideration of Government.

Read the following letter.

To, J. Pycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George.

(46) From the Dt. Collr. of Coimbatore.....

Reporting on the State of the season and the present condition of the District.

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter of the 31st. January last requesting the transmission of lists of prices of the several descriptions of grains in the District once in 10 days and also a report on the state of the season and the present condition of the District.

2. The Price lists for the 31st January 1846. and also for the 10th. and 20th. Ultimo have already been transmitted to the Board of Revenue, and that for the 28th. will be forwarded in due course.

3. I regret to be under the necessity of giving a very unfavourable account of the

Fort St. George 16th March 1816.

the Season; Both the South West, and North East Monsoons having nearly failed the prices of grain have become unusually high, and the cultivation of Punjah has been greatly affected thereby. the whole quantity of rain from January 1815. up to this period not exceeding 18 inches and 53 cents. and this scanty supply quite out of Season.

	Inches	Cents
January 1815	4	15
April 1815	4	53
September 1815	4	32
October 1815	4	88
December 1815	1	65
Inches	18	53

No. rain in Jany & February 1816

4. To this evil must be added, the ravages of Cholera which has prevailed in different parts of the District and still continues.

5. Under these circumstances, the falling off in the revenue and the distress to the Ryots would have been very great, but for the large extent of well lands in the district, and the encouragement also held out by the Board as conveyed in your letter of the 15th January last.

6. The Garden cultivation has been carried on as usual, except in the Northern portion of the Errode Talook where it is reported the water in the wells has entirely failed.

7. The Nunjah lands cultivated under

Fort St. George 16th March 1816.

the influence of the Cauvery Bhawaney, and Amhauvatty Rivers have yielded a very abundant produce.

8. I do not expect any material falling off in the revenue settlement of the Current Fusly, and neither have any unusual difficulties presented themselves in the collection of the Government demand which is up to this time, realized with punctuality.

Coimbatore, March 9th 1816. (Signed) J. C. Wroughton Principal Collector

Order thereon, From the Coll. of Canara. (46-47)

Ordered to be recorded.

48

Read letter submitting an application from his Assistant Mr. L. C. Innes requesting an extension of leave until the 25th Instant.

Order thereon; (48-49)

Ordered to be submitted thro' the Channel of the Civil Auditor for the favorable consideration of Government.

Inbons. 30th Oct. 1815.

Read letter from the Collector of Malabar dated 20th October 1815. reporting on the Management of the Extra Sources of Revenue in his district for Fusly 1254 A.D. 1814/15.

(Here enter No. 113)

50

Proceedings thereon; Relative to the settlement of the Extra sources of Revenue in the District of Malabar for Fusly 1254 - A.D. 1814/15.

The annexed Statement shews in abstract the Settlement of the several sources of Extra Revenue levied

levied in the District of Malabar for the year under report, from which it will be seen that there was a net decrease in the Demand of Rupees 79,402 4 3, resulting from a gross increase of Rupees 86,910 8 8. and a gross decrease of Rupees 166,312 12 11.

	Settlement of Fusly 1253.			Settlement of Fusly 1254.			Increase			Decrease

The

Salt. P. 205. 2. The sales of salt effected during the year under review exceeded in value those of the antecedent Fusly by Rupees 82,992 13 4 and realized a larger sum than had ever before been attained in the District this result is not however attributable to a greater demand for the article, but to the enhanced price recently fixed upon it, as it is shewn that the quantity sold in Fusly 1254, fell short of that disposed of in 1253 by 3003 Maunds and was less than the average of the five years anterior to Fusly 1253 by 88,473 Maunds.

	Gross Collections.		
Fusly 1253	307,717	6	7
1254	390,710	3	11
Increase	82,992	13	4

3. The inland sales exhibit a falling off of 6,387 Maunds and those for Home Consumption an increase of 3,384 Maunds. A reference to Statement 4 shews that the exports to Coimbatore alone were below those of the previous year by 5,874 Maunds, which the Collector states is owing to that District having received a larger supply from Madura and Tanjore in Fusly 1254 than in the preceding year, but he does not explain the causes which, in his opinion, would induce

induce Traders to resort to those districts, instead of to the places from whence their usual supplies were received.

Charges. P. 6 & 8.
Fusly. 1253. 96870-11-3.
1254. 110648-7-10
Increase 13777-97

4. The purchase of 63,238 Maunds of Salt having been made in Fusly 1254 in excess of the quantity received in the year previous, the "Charges of Purchase" had increased by Rupees 13,309—3—. The augmented disbursement of Rupees 468—6—7 under the head of "Superintendence and sale" arose chiefly from the additional expense incurred in landing and storing 12,000 and odd Maunds of Salt which had been procured from Canara when the Malabar stock was exhausted.

Tobacco. P. 9 & 10.

5. The trifling decrease of Rupees 143—6—11. in the sales of Tobacco needs no remark. the Charges exhibit an increase of Rupees 24,876. 10. of which Sum Rupees 11,695—2—4 was owing to the greater price charged by the Principal Collector of Coimbatore for the Tobacco imported into Malabar during the year under review, as shewn in the margin. Rs. 10274—11—8 arose from

Gross Collections.
Fusly 1253-107,123-10-7.
1254. 12,633-11-5.
Decrease 94489-15-2.

6. The abolition of the Transit duties caused a decrease of Rupees 94,489-15-2. in the Sayer Collections and Rupees 36,229—11—7 in the Charges. the Collections amounted in all to Rupees 12,633—11—5. which were realized at the Frontier Chowkies.

Charges. P. 11.
Fusly 1253-42705-5-8
1254 6535-10-1
Decrease 36229-11-7.

Sea Customs.
Para 12. & 13.
Fusly 1253. 250029-4-11.
1254. 183078-1-11.
Decrease 66951-3-0.

7. The operation of Act VI of 1844 had affected the Sea Custom Revenue to the extent of Rupees 66,951. 3—. the gross collections from this source during the period under review having been only Rupees 183,078—1—11. while the gross Collections of the preceding Fusly amounted to Rupees 250029—4—11.

8. The Collector observes that the abolition of the "Inland Duty" and the reduction in the rate of export duty by the operation of Act VI of 1844. has—. said the effect of augmenting generally the

the exportation of the staples of Malabar, and in corroboration of which he annexes a Memorandum containing sundry Articles in which an increase is exhibited in the Official value of the Exports Amounting in the gross to Rupees 6,39,011 in favour of 1844/45, over the corresponding period of 1843/44.

9. In the 12 para of his report on the Extra Sources of Revenue for Fusly 1253; Mr. Conolly remarked that the greater portion of the decrease then observable in the Sea Custom Revenue was "owing to a falling off in the exportation of some of the staples of Malabar, particularly Pepper and Cocoanuts the excessive exportation of which commodities in Fusly 1252 must, he adds, have occasioned a depression of the markets to which they are usually carried". on referring to the Memorandum furnished in para 12 of the present report, it will be seen that the largest increase in the value of the items therein enumerated, as exported from the District in 1844/45 occurred under the heads of Cocoanuts, Koppara's, and Pepper comprising two of the Articles in which a decreased export had taken place

15th. Inborn. 24th. Feb. 1846.

place in the preceding year, it may therefore be inferred that the late demand for these staples may have been greatly enhanced by the more healthy state of the Markets which were declared to have been overstocked in the previous year in consequence of the excessive export of Fusly 1252.

10. The Board would have been glad to have received more detailed information regarding the large increase in the estimated value of the exports specified in the Memorandum furnished in the report under review showing what portion of the products named had been exported by Sea and to what ports and on what bottoms, and also whether the season of Fusly 1254 had been peculiarly favorable for the production of the articles in question.

11. It may be observed in respect to the nominal list of exports quoted by Mr. Conolly that the only articles to which the late Sayer, or more correctly speaking "Special Duty" had been applicable were Pepper and Betternuts which under that system were liable to a levy of 15 & 12½ per Cent respectively, these rates have by the operation of Act VI of 1844 been reduced

reduced to a uniform levy of 3 and 6 per Cent, according to the bottom.—

Charges P. 13. Fasly. 1253. 48551-6-6. 1254. 49214-1-6 Increase 662-11-

12. The small increase in the Charges is said to be owing partly to an addition to the Establishment, and partly to the drawback on Goods Exported to Bombay prior to April 1844. and re-exported from thence to the United Kingdom having been greater than in Fasly 1253.—

Abkarry P. 14-716. Fasly. 1253. 62863-12-2 1254. 63807-14-7 Increase 1144-2-5

13. The Abkarry Settlement amounted to Rupees 63,807—14—7. being Rupees 1144-2-5. in excess of the previous Fasly. Of this sum Rupees 62,845—5—1. had been realized within the Fasly, and Rupees 907—13—6 subsequently, leaving an outstanding balance of Rupees 54—12— at the date of the Collector's report which sum it is stated was likely to be soon recovered.—

Farms & Licences. P. 17 & 19. Fasly 1253. 46389-11-4 1254. 48687-1-10 Increase 2294-9-6.

14. The demand on account of Farms and Licenses also exhibits an increase of Rupees 2,294—9—6, the whole of which with the exception of Rupees 154-6-1. had been collected.—

Stamps—P. 20. Gross Collections Fasly. 1253. 52714-6— 1254. 48155-2-10 Decrease 4559-3-2

15. The discontinuance of the sale of Sayer Rowannahs caused a falling off in the Stamp Revenue to the extent of Rupees 4,559—3—2. the slight increase of

of Rupees 257—12—8. in the Charges is satisfactorily accounted for by the Collector and needs no remark.—

Motursha. P. 21 & 22. Fasly 1253 11606-12-6. 1254 11665-5-6. Increase 498-9-

16. Although the Motursha Settlement shews but a small increase, yet it is satisfactory when taken in Comparison with the demand of Fasly 1253. which was Rs. 2,152—7— in excess of the year preceding it. Under this head also the Collections shew that the whole demand, except the small sum of Rupees 132—8—1. had been realized.—

Do. by Pt. Collr. of Coimbatore	866-12-"	3901-6-2
12th July 1255 Remaining		726 10 2

17. Of the outstanding balance at the commencement of Fasly 1254 Rupees 30,34-10-2. had been recovered in addition to Rupees 866. 12. collected by

Fort St. George 16th March 1846.

by the Principal Collector of Coimbatore on account of the Arrack Farm of the Neilgherry Talook, making in all Rupees 3901. 6 — 2. the balance therefore remaining due at the close of the Fusly under report for former years was — Rupees 726 10 2. Of this sum the Collector anticipates that he will be able to collect Rupees 498 — 13 — 7. thus leaving the balance of arrears deemed irrecoverable Rupees 227 — 12 — 7. on account of the several heads noted in the margin. Mr. Conolly requests permission to write this latter sum off the Accounts of his Collectorate and the Board beg to recommend that the necessary

necessary sanction may be granted.

Ordered that a Copy of the foregoing Extract of the Boards Proceedings with the annexed Comparative Statement of the Collections and Charges and Net Revenue be submitted to Government, and a transcript of the same be forwarded to the Collector of Malabar for his information and guidance

Fusly.

made by the hereditary Officers of the Pagoda, the money not to be paid until the parties had come to an agreement on the subject.

8th Dec.r 1845 5 In their reply to the Collector, the Board informed him that such a measure as declaring Pagoda Trusteeships absolutely hereditary in the families of the first incumbents, or investing the Stalladars, or mere ministerial Officers of the Pagoda, with power to fill up vacancies when the heirs of former trustees might refuse to act, would in their opinion obviously be productive of great abuses. They therefore directed that on the death of a manager of a Pagoda (not being in that capacity ex officio) his next of kin or other of his heirs selected by the family should be appointed his successor, if the appointment were acquiesced in by the major part of the community interested in the Institution, but that when this was not the case, the vacancy should be filled up by the election of the community. The Petition from Streerangham was forwarded to the Collector to be disposed of on those principles. The Board have not received any further Communication

communication from the Collector, and they do not doubt that he has exerted himself to arrange matters as far as practicable, on the principle indicated by the Board, altho' in absence of all definite rules as to the parties who are to be held entitled to have a vote for the election of a Trustee, the extent and nature of the qualification, whether depending on property, residence or other circumstance, the decision of such questions cannot but be attended with great difficulty and embarrassment.

6. All the native religious Institutions in the Madras Territories have some time since been made over to Trustees and managers, and the Officers of Government have been relieved from all concern with their internal management. It must at the same time be admitted that the transfer has not to the present time at least been followed up by the measures necessary for the due protection of the Pagoda Revenues, for determining the succession to trusteeships, or for the settlement of the other important questions necessarily arising from the change. The subject cannot be regarded as of a Fiscal nature or one falling properly under the cognizance of this Department, and the Board being further in expectation that it would shortly be set-
