Sir,

I am directed by the Board of Revenue ading, to acknowledge the receipt of an Extract from the Minutes of Consultation dated 17th Instant No. 285 directing that the Copies of Thornton's History of British India and of the Gazetteer transmitted to this Office by the Principal Commissary of Ordnance be half bound at the Vepery Mission Press and distributed among the several Collectorates.-

In reply the Board beg to represent that including the Collector of Sea Customs there are 22 Collectors under this Presidency. If four more Copies of Thornton's British India could Conveniently be spared the number furnished to the Office 24, would then allow of one Copy being supplied to each Collector and 2 retained in the Board one in the Revenue Department and one in the Department of Public Works. As regards the Gazetteer the Board would hope that they might be allowed also to retain two Copies one in each Department of the Office the remaining Eight they would distribute as far as the number permits Among the Collectors in the Provinces giving the preference to the Collectors of Maritime Districts.-

Sir,

Adverting to the 1st Para of the letter from the Military Board to Government dated 11th February 1845 and referred to Council, I have now the honor to annex Extract from a Communication addressed to the Military Board by the Collector of Bellary, explanatory of the causes of the differences between the Serricks furnished to the Military Board, and those recorded by the Superintendent of Police from which explanation it will be apparent that the Prices adopted by the Collector in framing his Price Lists will always differ materially from the Current Rates of purchases by this Department and this is also explained and shewn in the accompanying Copy of

Letter from A. Mellor Esqre Collector of Bellary in reply to a reference on the subject.-

2. The Price Lists received by the Military Board may therefore be fairly considered rather inconclusive Checks upon the rates charged by the Commissariat Department.-

Extract from a Letter from Captain C. Elphinstone Sub Assistant Commissary General to the Commissary General dated 5th July 1845.-

I have just discovered through the Merchants of the Bruce Pettah that the Serricks in question are not to be compared together, inasmuch as the Collectors only gives the rate at which the common Bazar articles are to be purchased, and not of those consumed by European Officers and Gentlemen of the station: For instance, let us look at the article "Rice" alone- In one my Serrick there are eleven kinds, in Mr. Mellor's only three are mentioned, in the former the 1st and 2d sorts are Table rice and are not taken into account by the Collectors people as they are chiefly used by Europeans but the 3d sort is relied by them and exhibited in the latter as "1st sort" which satisfactorily accounts for

Fort St. George 30th March 1846

for the discrepancy as I will explain ac-
=cording to my Nerrick:-

1st Sort Rice was yesterday Market
selling at 19 seers the Rupee, or 25
as do " " " 10 1/4 the Garee.
2nd Sort, 23 seers the Rupee or 208 to
the Garee and
3rd Sort, 25 seers the Rupee, or 192 to
the Garee.

this is the rate at which this last de-
=scription of Rice was selling in Januar
last and was to be included in the Collecto
Nerrick as "1st Sort". I would also remar
with regard to Coolies, Chinna, Wheat, Dal
Lamp and Lindeed Oil, Swaing twine, and
indeed nearly all the articles enumerate
in my Nerrick that their several
qualities as sold in the Bazaars are shewn
there in the Collector's Nerrick are all blend
together, under one head, and thus their a
=verage rate during the month is deduce
Even this mode of calculating the average
prices gives a rate very far below that
at which the articles could be purchased.

Sir,

I have the honor to ac[k]nowledge

Fort St. George 30th March 1840

the receipt of your letter dated 19th Instant
with its enclosure, and in reply to inform
you that the Statement furnished by this
Office to the Officer Commanding Bellary.
Contains the prices of Cudbah Bellary as ascer-
=tained on some day towards the close of
the month and will therefore differ with your
Nerrick, as the latter is as you state drawn
up from the Average Market prices rendered
by the Principal merchants in Bruce pett
on the close of every market day. No doubt
the information on which my Nerrick is
founded proceeds from the same source as
yours - but the different mode adopted in
framing the Document may cause a dif-
=ference in the Prices between the two Nerricks.-

counterparts of the rates furnished by the Commis-

and would therefore be equally useless for
purposes of Check.

2. As the system of check upon the
disbursements of the Department of supply in

To Colonel the Honble Sir Geo. Arthur K.C.B.
Governor and President in Council.

Honorable Sir, We have the honor to acknowledge the receipt of Secretary Lieutenant Colonel Melvill's letter dated 17th Ultimo No. 3103, calling upon us to furnish a concise statement of the present system of auditing the charges of the Commissariat Department.

In reply we have the honor to state that the Commissariat Monthly Bills, accompanied by the necessary vouchers, are forwarded to this Office for audit by the Commissary General, who receives them direct from the different Officers of his Department. A List of the Bills, shewing the amount of each under the different heads of arrangement observed in the Bills prepared in the Commissary General's Office, accompanies each set of Bills, and this List is submitted by the Military Board to Government for sanction with

with such remarks as may appear necessary on a general review of the charges in the Bill.

On receipt of the Commissariat Bill it is handed over to that section of the Office whose duty it is to test the accuracy of the calculations. This being done, the Bill is passed on to the Auditor by whom the charges are examined in connexion with the Indents, Extracts from orders and other vouchers by which they are supported. The vouchers themselves are also subjected to a close scrutiny and any charge which is supported by an irregular voucher is objected to. At this stage of the audit much depends on experience in the duty an accurate knowledge of existing Regulations as well as an acquaintance with local circumstances connected with the charges under revision. The draft of the Primary Audit is then submitted by the Clerk of the Division to which the Bill belongs for the further examination and remarks of the Head Clerk, whose peculiar attention is given to render this Department of the Office

as efficient as possible. The draft of the Primary Audit with the Bill is on then submitted to the Secretary, and after any necessary corrections, circulated by him to the Board for examination and approval. Finally the draft is fair copied and sent to the Commissary General, who communicates the same to the subordinate officer of his Department referring the Bill for such explanations as he may be able to afford, and on receipt of these the charges primarily objected to are again carefully considered with reference to the replies furnished, and either disallowed or admitted under orders of the Board.

When the Bills are audited the Military accountant is advised of the amount to be credited to the disbursing officer, and also of the extent of the retrenchments made against him. Similar communications are also made to the Military auditor General and to the Commissary General.

All replies to retrenchments made

made on final audit are submitted
to Government with remarks of the
Military Board and they are ulti-
mately disposed of in accordance
with the decision of Government thereon.

The Commissariat charges
in the Military Department are arranged
under the following heads.

Barrack Department.
Boat... Do.
Carriage of the Sick
Cattle Department
Cavalry... Ditto
Ecclesiastical Department.
Funeral Charges
Medical Department European Troops
Ditto... Native... Ditto
Miscellaneous.
Office Establishment.
Ordnance "
Provision Department.
Remount... Ditto.
Transport of Stores.

And the better to enable your Honora-
ble Board to understand the system
of audit in force, we shall proceed
to detail the process of examination

which each charge of expenditure sepa-
rately undergoes.

Barrack Department.

The Description of stores
supplied by the Commissariat to this
Department is shewn in the 3rd Sup.
Sec: Art: 87- at the Presidency the co-
Barrack Furniture is made up in the
Gun Carriage manufactory and con-
sequently not charged for in the co-
Commissariat Bills.

All Indents for Barrack
Furniture from Corps and Departments
at the Presidency and outstations pre-
vious to being complied with by the com-
missariat are submitted by the Barrack
Master or other officer in charge for
the sanction of the Military Board
and after a careful examination
dealt with as may be deemed co-
advisable.- On the receipt of the
Commissariat Bills in which charges
for Barrack Furniture are brought
forward, the quantity or number therein
charged for is compared with the co-
sanctioned

Fort St. George 30th March 1846.

Sanctioned Indent and the rates charged in the Bill are compared with those shown in the contract, or when there is not a contract, in the Bazar Price current for the particular Month in which the supply has been made.

Before any heavy demands are passed on Indent reference is made to ascertain the prices chargeable at the station requiring the supply, and if the Articles required can be obtained cheaper elsewhere measures are adopted for doing so.

The principal demands made by the Barrack Department on the Commissariat are for Copper ware the contract for which in 1838 was Rupees 19-4-6- per Bombay Maund of 28 ~~lbs~~ lbs

Fort St. George 30th March 1846.

the existing contract which expires in 1843 is Rupees 16-11-2 per Maund.

Boat Department.

The quantity of Tonnage allowed for the different Ranks of the army when proceeding from one port to another on duty is provided for by the Regulations.

The supply of Tonnage provided by the Commissariat for the transport of Troops is with a few exceptions supplied by Contract at a fixed rate per Candy, and the charges are audited on the disembarkation Returns of the Corps or details signed by an Officer of the Quarter Master Generals' Department or Station Staff Officers.

Charges for Tonnage not supplied on Contract are supported by disembarkation Returns with a Copy of the order directing the Commissariat to supply the Tonnage, also the suppliers' Bill if the amount is 100 Rupees or upwards.

Carriage of the Sick.

The proportion of Muccadums, Dooley Bearers, with Carriage for Hospital Stores for European and Native Troops when in the Field, Marching from station to station,

Fort St. George 30th March 1846.

Station or Stationery is fixed by the Regulations.—

Carriage of the Sick. In the Field.

The Charges made in the Commissariat Bills on account of corps, details &c. on Field Service are audited on the following Vouchers, Viz.—

1st. Indent on the Commissariat signed by the Medical and Commanding Officer of the corps or details countersigned by the Superintending Surgeon.—

2d. Entertaining muster Rolls as taken on the day of entertainment of the Carriage, signed by the Commissariat and mustering Officer.—

3d. General Muster Roll taken on the 1st of every Month.—

4th. Acquittance Rolls duly receipted by each individual for whom pay is charged.—

D°. Marching from Station to Station.

The Charges in the Commissariat Bills are Audited and passed under following Vouchers, Viz.—

1st. Copy of the order sanctioning the March of the Corps or details.—

2d.

Fort St. George 30th March 1846.

proportion of Carriage, signed by the Medical and Commanding Officer of corps or details, or countersigned by the Superintending Surgeon.—

3d. Entertaining Muster Rolls of the Dooley Bearers.—

4th. Discharge Roll of the Carriage.

5th. Acquittance Roll duly receipted.

Ditto Stationery

Audited and passed on Monthly Muster and Acquittance Rolls being duly signed by the proper Officer and receipted by the Establishment for whom pay is charged in the Commissariat Bills.—

When it so happens that the Carriage allowed by the existing Regulations under any of the above circumstances is insufficient, additional aid is given to such extent as may be deemed necessary on an Indent signed by Medical and Commanding Officers of corps and countersigned by the Superintending Surgeon.—

Cattle Department.

Permanent Establishments are kept up at the different stations, and the contracts being held during the pleasure of Government, a report on the reasonableness

on

or otherwise of the rates and the expediency of renewing the Contracts is submitted to Government annually.

The charges on account of hired Establishments are supported by a Monthly Muster Roll and Register of payments signed by the Contractors.

Statements of the daily employment of the permanent Cattle at the varied stations are always required as Vouchers, and no charge for extra Cattle unless it is shewn from those Employment Rolls that the whole of the Permanent Establishments allowed were otherwise engaged.

Cattle required by Corps on details marching from station to Station for the conveyance of camp equipage and Regimental stores, the proportion of which is provided for and fixed by the Regulations, are supplied by the Commissariat on duly vouched, and sanctioned.

If the Cattle or Carriage required cannot be furnished from the fixed Establishments, the following vouchers are required in support of charges for hired Cattle.

1st. Copy of the Station order directing the Carriage to be supplied.

2d. Sanctioned Indents duly receipted.

3d. Station Price-Current.

Extra Cattle are hired either by the Month or by the Trip, where the former is the case the following vouchers are required in addition to those above enumerated.

Entertaining and discharge Rolls taken on the dates they are taken on and dispensed with.

Copy of Station order directing their discharge.

Grain, Forage and Medicines for Cattle.

Charges under these heads are audited upon receipted Indents, and the Contracts or prices current according to the mode of supply.

Demands for Grain and Forage drawn on Indents are passed to the extent allowed by the Regulations.

Nearly all the Grain supplied is by Contract.

Cattle purchased.

For Auditing Charges in

the Commissariat Department on this account the following vouchers are necessary Viz.

1st. The sanction of Government authorizing the purchase to be made.

2d Committee Proceeding on the

3d. Dealers Bills.

Cavalry Department.

An Establishment for the issue of Grain &c. under all circumstances is fixed by the Regulations, the charges for which in the Commissariat Bills are duly and passed on regular Monthly Muster and Acquittance Rolls.

The demands for grain in this Department are supported by similar vouchers to those furnished in the Cattle Department.

Ecclesiastical Department.

The supplies to this Department are made on Indents which in the first instance must have been passed by your Honorable Board, and they are audited in the same way as supplies made to other Departments by the Commissariat.

Funeral Charges.

The charges under this Head embrace merely Coffins supplied to the families of Soldiers and Deceased

Officers and Soldiers on the Pension Establishment.

Such charges are supported by Indents sanctioned by the proper Authorities.

Medical Department European & Native Troops.

Dett. All supplies are made on Indents signed by the Medical Officer in charge and agreeably to the Established proportions laid down in the Regulations.

These charges are passed under Contracts with a very few exceptions, and in such cases the prices charged are compared with the prices current.

Ditto. Petty supplies such as Country Medicines &c.

Are furnished by the Commissariat on Monthly Indents signed by the Medical Officer in charge, and countersigned by the superintending Surgeon, the charges for which are audited in the same way as those alluded to in the preceding para.

There being an Established proportion of the articles supplied in this Department laid down, whenever that is exceeded a reference is made to the Medical Board as to the necessity of such excess

excess previous to the charges being admitted.

D. P. Class Hospital Servants.

The number and description of attendants for Hospitals of corps Details, and Stations, as also the rates of pay are fixed by the Medical Regulations.

The charges on this account are audited by us on Monthly Muster and acquittance Rolls.

Where Hospital servants are required in excess to the Establishment allowed to corps and Details by the Regulations, the charges are supported by an Indent from the Medical Officer in charge, countersigned by the Superintending Surgeon of the Division.

Miscellaneous.

As nearly all the supplies furnished by the Commissariat come under the Heads already adverted to the charges under this Head are very limited, being merely for such as are required to keep the Commissariat Store Rooms in order; such as Brooms &c. and advertisements inviting tenders for Contracts, vouched by Bills from the parties.

Office Establishments.

The charges are passed to the extent sanctioned by Government and are supported by an Acquittance Roll duly receipted by each individual for whom Pay is charged.

Ordnance Department.

The demands of this Department on the Commissariat are previously sanctioned by the Military Board.

Before any Indent is passed, in the first instance it is examined in the Ordnance and Commissariat branches, and the object of the scrutiny is as follows.

1st To see that whether by complying with the demand the Established proportion would be exceeded or not.

2d Whether the Balance in store is not sufficient to meet the wants of the Department.

3d To strike out demands for any articles of which a supply may be expected from England, or to curtail them so as to allow only sufficient to meet the wants of the Ordnance Department till the arrival of such stores.

4th To disallow demands on the

Fort St. George 30th March 1846

the Commissariat at outstations which might be had cheaper from the Presidency or supplied from other Depots.

5th

To see that no unnecessary expence is incurred by indenting for articles of a superior quality when those of an inferior would answer the purpose equally well.

6th

In the event of there being no Contract for any particular article of which there may be an unexpectedly heavy demand, to ascertain before passing the Indent, at what rate it can be supplied. If the price in the Market be high the demand is reduced as much as possible, and provision made for the supply in future either by Contract or from the Honorable Court as may be most advantageous to the State.

7th

To see that no article is demanded from the Commissariat which can be made up cheaper in the Department indenting for it.

Provision Department.

Provision Grain &c. of every description supplied to meet the demands of the Public service. The Charges brought

Fort St. George 30th March 1846.

forward in the Commissariat Bills are compared with the rates of the Sanctioned Contracts or when there is no Contract by the Bazar Prices Current or Market rates for the particular Month in which the supply was made.

The supplies are brought on the Commissariat store Returns which are examined in this Office, and no issues are allowed to be debited unless under proper receipted Indents.

No purchases to any considerable extent are admitted, unless from a reference to the Returns, it is seen that the Balance is not sufficient to meet the demands.

Provision Establishments.

These are fixed by the Regulations.

The Charges are audited and passed on regular Monthly Muster and Acquittance Rolls duly authenticated.

Remount Department.

Under this head the Charges on account of horses purchased by Regimental Committees are brought forward and the following vouchers are necessary in support of them.

Proceeding

Fort St. George 30th March 1846.

1st. Proceedings of the Committee on the horses tendered, approved of by the Officer conve-ning the Committee.

2d. The Presidents order in favor of the dealer for the amount at which the Horses are valued by the Committee.

3d. Dealers Bill duly receipted for

Fort St. George 30th March 1846.

for the amount of the purchase money agreed on.

4th. The average prices admitted for the Horses are as follows agreeably to the Regulations. Viz.

Horses for European Dragoons & Horse Artillery Rs 530 each.

——— Native Cavalry ——— 400.

Transports of Stores. Water Carriage.

The supply of Tonnage for the Transport of stores is with few exceptions supplied by contract at a certain rate per Candy, and these charges are audited on regular Packing Lists shewing the description of the Stores, quantity and weight embarked with a certificate of the correct delivery of them, signed by the receiving Officer.

Land Carriage.

The rates charged in the Bill for the Trip or otherwise as the case may be are compared with those in the contract, or when there is not a contract by the rates in the Bazar Price Current of the Station at which the carriage is engaged.

Similar vouchers are necessary in support of these charges as are required for those for

Fort St. George 30th March 1846.

...received at their destination.

The principal part of the stores sent to outstations are transported by the fixed Establishments of battle.

All charges for supplies amounting to Rupees 100 are required to be supported by the dealers Bills.

Contracts

Under the present system all sche... dules of contracts are submitted by the ... Commissary General for the approval ... the Military Board before tenders are ... vited on them. The rates quoted are carefully examined and compared with those of the previous three contracts and a Statement of the result produced shewing the Amount of one years' supply of the Articles included in the Schedules according to the proposed rates and those of the expired Contract. The Schedules are then ... with the remarks of the Military Board ... necessary alteration in the rates made where ... ders are invited and the ...

We shall now proceed to detail the nature of the System of Audit observed with respect to the Commissariat Bills in the Marine and Steam Departments.

The Commissariat supplies in these Departments consist of the following.-

Provisions to the different Honorable Company's Vessels and Boats.

Stores to the Honorable Company's Vessels and Boats.

Do. to the Dock yard.

Boat hire.

The vouchers to the Bills for stores are the several Warrants made on Indents sanctioned by the Superintendent.

These warrants are compared with the original Indents sanctioned by the Superintendent of the Indian Navy which documents are previously carefully compared with the proportion Book of Stores for each Vessel and any excessive demand is checked unless satisfactory explanation is afforded.

Fort St. George 30th March 1846.

In addition to the above the Stores charged for in the Bills are likewise compared with the store accounts of the respective Vessels.

The rates charged are compared with those in the several Contracts. A Primary Audit is then made of such items as appear to the Board objectionable, and the same is transmitted to the Commissary General for such explanation or remarks as the disbursing Commissariat Officer may have to offer, and the charges are either admitted or checked according to the nature of the explanation afforded.

The Military Pay Master, Commissary General are apprized of the amount passed on each Bill appertaining to the Marine Department, and the Accountant and Commissary Generals on those in the Steam Department.

All Stores supplied by the Commissariat are brought to account in the Stores an Naval Store Keeper's Returns.

The Provision Bills are in like manner compared with the Indents, and Vouchers which accompany them duly sanctioned by the Superintendent of the Indian Navy.

After

Fort St. George 30th March 1846.

After the examination the same course is adopted with respect to the Primary and Final Audits as obtains with respect to Bills for stores.

These Bills are also examined with the scale of Provisioning allowed by the Regulations of the service and any excess is retrenched unless satisfactorily explained.

The Charges are also compared with the Provision Accounts of each Vessel to see that the supplies are correctly brought to account.

Outstation - Commissariat Bills.

The Commissariat Bills or account of the Stations of Aden, Karrack, Kurrachee, Sukkur and Surat are compared in the first instance with the Indents which accompany them, and in case of Articles being charged which come under the head of "Provisidency Supplies" they are checked with the contract rates. The charges on account of Articles purchased on the spot examined, when there is no contract, with the Prices current furnished by the respective Superintendents of Bazars, and the price charged for similar Articles in the Bills of the

Military

Fort St. George 30th March 1846.

Military Department.

Presidency Boat Charges.

These charges are included in the Provision Bills and are compared with the Boat Notes which accompany them as Vouchers. These Boat Notes are sanctioned by the Superintendent of the Indian Navy or by his Assistant by order.

If Coals are landed or shipped by the Commissariat Department, the charges are examined with the Quarterly Statements furnished by the Indian Naval Store Keeper of Coal landed and shipped by the Government and Contractors Boats.

Hamallage Charges.

The Hamallage duties of the Indian Naval Department have since 1st May 1842 been transferred to the Superintendent of the Indian Navy, under whose orders the duties are now performed.

All separate Contracts in these branches are examined in the same manner as those of the Military Department of the Commissariat.

In conclusion we beg to observe that this Report has reference merely

Fort St. George 30th March 1846.

merely to the present System of auditing the charges of the Commissariat Department as called for in Lieutenant Colonel Melvill's letter under reply. But the heavy and responsible duty of auditing the Commissarial Quick and Dead Stock Returns is also vested in the Military Board, and we shall have the honor of furnishing the details of the System observed in controlling this branch of public expenditure in the course of our Report on the working of the Military Board in all its Departments as recently called for by your Honorable Board.

My Lord Marquis

I have the honor to acknowledge

acknowledge the receipt of Extract from the
Minutes of Consultation dated 22d Ultimo,
No. 327, with the documents therein recorded, and
referred to, the latter of which, as per Margin,
are herewith returned; and in obedience to the
orders of your Lordship in Council, to report
that after a careful perusal and consideration
of the correspondence in question, I feel obliged
to express my concurrence in the opinion sub-
-mitted by the Military Board in their letter
to Government, dated 6th Ultimo, No. 12, that
that unless they can be furnished with more
precise and correct information than at
present to be obtained from other sources
than the Commissariat Officers, upon
whose charges the Merricks in question are
intended to be a check no course can appa-
-rently be followed but that which obtains
in Bengal Viz: a reliance on the vigilance
of the Head of the Commissariat De-
-partment, and the declarations on
honor by which the accounts of all Exe-
-cutive Officers are supported.—

Before however proceeding to
direct that the Merricks or Prices Current,
shall be entirely dispensed with, your
Lordship in Council may, perhaps, be

disposed to give a trial to the Bengal
System of check, by requiring those
documents to be furnished and signed
by Commanding Officers of Stations,

I have not been able to
discover, either from the Communications

India and Bombay, or from the Bengal
and Bombay printed regulations, that the
opinion of the Military Board, that in
both those Presidencies the Accounts of
Executive Officers are subject to the exa-
-mination of the Departments of Audit
is correct: the Monthly Bills of Executive
Officers would appear to be furnished to
the Military Board at Bombay but whether
it is so or not, it does not appear how
the present check, which is declared by
the Board to be incomplete, could be made
more effective by merely subjecting the
charges in question to renewed examina-
-tion in another Office.—

5 When the further discussion on the practice prevailing in Kurnool for the Ryots to take up the lowest assessed lands, or leave the higher already engaged for, waste and claim remissions as well as respecting the principle upon which a remedy is provided, shall have been brought to a termination, His Lordship in Council will be glad to have before him the result of the same. The examination of the latter in the Ryotwar Cutcherry is an essential principle of the Ryotwar system and should on no account be departed from.

6 The occupation of Enam lands to the prejudice of Circar lands as brought to notice in these paras is a point that seems to admit of further investigation, and the Government will be glad to learn that some definite and well understood System has been established for the protection of the Government Revenue in that portion of the Country.

From the Collr of Masulipatam submitting the information called for by the Board relative to certain items connected with Moturfa.—

Para 1.

Sir,

With reference to your letter of the 18th December last. in which I am desired to furnish further information relative to certain items of Moturfa. I have the honor to submit the same as follows.—

Muctaa rates.

2. In reply to Para 2 regarding the circumstances under which Mucta rates have been fixed. and the Comparative advantages of these and individual rates. I beg to state that it appears that Mucta rates prevailed for a length of time in the case of certain classes of persons in the three Talooks of Bunder. Padanah and Ralunghy. In other Talooks each individual of such class is separately assessed. It has not been found practicable to ascertain either from accounts or other information on what principle the aggregate amount as originally fixed was determined; whether with reference to the profits derived by the classes of persons exercising certain professions or at the discretion of the Ruling authorities at the time being. Neither is it known what consideration

consideration could have influenced the conte-
=nuance of the Mucta System which appears
to have been sanctioned by Custom only.—

3. In the Goodoor Purganah in the
Bunder Division a Bilmucta List of 86 Rupees
was fixed on certain Banians, but in fusly 1247 A.D. 1837-38
it was discontinued and an individual
List substituted, by which, tho' the aggregate amount
for a time exhibited an increase, it has again
fallen off even below the original amount.—

4. On the receipt of the Board's Proceed-
=ings under reply, information was called for
as to the data on which the Bilmucta List
was determined— The accounts received do not
shew the exact principle upon which the portion
contributed by each had been regulated, but
it would appear to have been fixed according
to the circumstances of each individual Contribu-
=tor's accounts appear to have been from time to
time obtained shewing the profits derived by
the payers generally of Motursa upon which
the List ought to be determined, but much
dependence cannot be placed on these Returns
The Comparative advantages of the Mucta and
the individual List can hardly be distinctly
laid down— In the Case of small fishing farms
Vide where individual interests are united, and
where

where it would be difficult to assess each individu-
=al separately the Mucta System would work well:
but wherever the profession and the amount
of profit of each individual payer is defined,
both as regards his own interest as well as that
of Government, it is no doubt preferable that
he should be taxed separately which would
relieve him from the loss and oppression
consequent on the Bilmucta System under
which heads of a particular class use their dis-
=cretion in lowering or raising the demand
against each.—

Indigo Farms. 5. In reference to Paras 3 & 4 it is
to be observed that in the Villages of Padanah
and Cuppaladoddy, both under the Circar and
Zemindars' management the practice of the
Indigo farm hitherto classed under Land
revenue being Monopolized for a fixed sum
by one or more individuals, has existed for a
length of time, and the net profits accruing
therefrom have been divided among the indivi-
=dual speculators.—

6. Consequent on the Board's instructions
dated 29th January 1844 attempts were made at
the Commencement of fusly 1254 A.D. 1844-45 to assess
proportionately the individuals actually engag-
=ed in the dying trade with reference to its

Ecstent

extent, but it could not then be ascertained who were the particular persons likely to come under the operation of the rules - the Monopoly was consequently Continued for that year for Rupees 250 for Padanah, and 25 Rupees for Cuppaladoddy.

7. For fusly $\frac{1255}{1845\text{-}46}$ measures are now in progress for assessing persons engaged in dying Indigo with Moturfa in the Town of Masulipatam and its vicinity, the particulars of which will be reported hereafter. In Ellore and Nandegamah persons dying Cloths are separately assessed with Moturfa. Here the Bilmuctah System does not prevail.

8. The Shipsers noticed in Para 5 is a mistake of the Copyist, it should be "shepherds".

9. The question of what should be the rates at which the tax should be collected comes next under consideration. It seems preferrable that it should be fixed at so much per cent on the profits derived by the payor as well as on the Nos. of Sheep, Goats &c. as regards the profits much depends on the Estimates formed by the Circar servants, who, in the prosecution of the enquiry, should be required to exercise a strict scrutiny so that the Maximum Sist may be assessed. In the absence of any rule for regulating the demand with reference to income the rates as now levied being in some cases too high, and in

others too low, any modification that may be made might fall heavily on those who are now paying at the lowest rates. By the accounts already received the amount of profits is estimated at Rupees 310,000. the Collection on which according to the rates at present existing appear to be about Rs 2/8 5-8-" per Cent.

10. Hereafter for a term of 5 years a progressive rate might be fixed to reach the maximum of 6 per Cent in the last year and on goats and Sheep at one Rupee per hundred, the average rate now in force being Annas 15. These may then be modified as circumstances may warrant.

11. With reference to the concluding part of Para 6 as to the question how far the Veesabady System in the Ceded Districts is applicable to this District, it will be observed from Mr. Wroughton's letter dated 3d April 1837 that he saw no abstract objection to extending the same to this District tho' it was then considered impracticable. several of the persons who are now paying Moturfa as distinguished from Veesabady will come under the operation of the latter, as at present the two taxes are in practice the same.

12. Such being the case if the Veesabady System is to be introduced at all, it should be separated and each tax collected from persons liable to it respectively with reference to their profits. In this case the regulation of the amount to be paid as Veesabady might be left to the local Officers under the orders of the Collector rather than be Conducted under the operations of Punchayets as provided in that Regulation by which much unnecessary delay and annoyance might be avoided.

13. In reply to Para 7 I beg to state that it does not appear to me that any classes besides those alluded to in Para 5 of my letter as those on whom Moturfa should not be assessed should be relieved from the operation of the tax.

Affording the explanation required by the Board respecting Shaw Abdool Canny Caudry's Claims to the Village of Tadacaloor.—

1. In reply to the Extract from the Proceedings of the Board of Revenue under date the 8th January. I have the honor to state that there is nothing on record to show why the name of Shaw Abdool Canny Caudry was not entered in the list forwarded with the Principal Collector's Report of 24th August 1840. It appears that the individual in question presented an Arzee to the Collector on the subject of his Petition to the Board reported upon on the 8th December 1845 and a remark is made thereon to the effect that "the prayer of the Petitioner cannot be complied with". The age of the Petitioner as stated by himself is 50 tho' he appears somewhat older and from all I can gather he and his family are in a state of great distress, the Parties who were maintained on the allowance granted by the Zemindar are the present Petitioner Shaw Abdool Canny Caudry, his wife and one son with two dependants of the family together with his brother Shaw Yusoff Caudry, his wife, a daughter and 2 dependants, the Brothers age is 35 years.

2. The allowance granted by the Zemindar in lieu of the Village of Tadacaloor appears to have been

have been rated at 100 to 120 Pagodas per Annum tho' it does not seem that the payments were made with any regularity and being in kind the money amount would be higher than the actual value of the grain. I would suggest therefore that 20 Rupees per Mensem should be granted for the support of Petitioner his brother and their families.—

3. It does not seem probable that any other Parties have valid claims similar to those of Petitioner or they would have urged them ere this and consideration shewn in the present instance is not likely to produce further demands.—

4. In reference to the 2d Para of the Extract under reply the Petitioner has stated to me that from the time he presented the Arzee above alluded to in 1840 up to the period of Mr. Stonhouses departure from the District in 1844 he received by order of that Gentleman 10 Rupees per Mensem in Consideration of his reduced circumstances.—

Submitting explanation as required by the Board on the Petition of Hussnal Sung Bahadar Claiming a certain Garden.—

Sir, With reference to my Endorsement on Petition No. 728 of 1845. I have the honor to submit explanation as called for by the Endorsement of the Board on No. 169 of 1846 which is herewith returned.—

2 It appears that the Garden claimed by Petitioner rent free, was planted by his father in fusly 1184 and up to 1210 during the Nabob's Government paid no tax. In 1211 it was assessed at 32 Rupees being at the time in the enjoyment of one Tanjore Peroomallos who paid the amount up to 1228 when he died, and his son-in-law Seetaramadoo succeeded to the Garden paying the usual Tax up to 1254. Thus for 44 Years this Garden has been assessed and never in the interim in the possession of, or till now claimed by Petitioner. Under these circumstances it appeared to

to me just (as the occupant agreed to give it up) that the Petitioner if he chose to take the Garden, should do so with its liabilities, as stated in the endorsement on his former Petition.—

From the Commissioner in Kurnool. — New Parts.

Sir,

No Rules have yet been laid down in Kurnool for making new Wells at the Ryots own expence, and a notion prevails that under the Jarum assessment all lands irrigated from Wells will be assessed at a Bagayet teerwa, whether the Wells are of old date or lately made at private expence. The consequence is that no new Wells are made, and I request to have the sanction of the Board for adopting in Kurnool the same Rules that prevail in the neighbouring District of Cuddapah regarding the construction of New Wells.

2. The Bagayet teerwah in this District is generally speaking very high, and in a season like the present, the Gardens produce of irrigated lands paying only a Shrotriem or dry land assessment would have been of incalculable assistance to the Ryots.

3. If I am favoured early with the sanction of the Board, I have no doubt that

No Ryot shall be entitled to exemption from Seerwajasty unless he hold and pay for the whole of the lands forming his Kyfut or ordinary standard of cultivation or lands bearing an equivalent Amount of Assessment. but this rule shall not be understood to compel a Ryot to pay for wet land if proved to have been left waste in consequence of a deficiency of water.

2.

The lands cultivated by means of a Well situated within the bed of a Tank, and which is under water when the Tank is full shall be charged with Seerwajasty.

All

1759. Fort St. George, 30th March 1846.

All lands converted from Dry to wet by means of Wells constructed within 10 Chains (330 feet) from Tanks or Channels shall be charged with Teerwajasty if the lands are on such a level that the water of the Tank or Channel will flow to them.

4th. The lands under new Wells whatever may be their position shall hereafter be always charged with Teerwajasty for any Fusly in which it may be satisfactorily established that they have been irrigated by the water of a Tank or Channel during such Fusly.

From the Coll.r of Salem

Sir,

With reference to your letter of the 8th November 1845, I have the honor to forward my Pooruchittiars for Namacal and Bowlenamah in English and Tamil, revised according to the last instructions received from the Board dated 8th February 1845.

Fort St. George, 30th March 1846.

Revised Pooruchittiar for the Zillah of Salem.

The Jamabundy Accounts should be prepared uniformly according to the forms that may be furnished from the Huzzoor.

1st

The Tahsildars should formerly annually a Sagorbady Dittum, or Cultivation Agreement, that the Ryots of each Village may know how much they have to cultivate, their Dittum to be commenced after the 1st of May, and concluded before the 31st July of each year. The Ryots must not be forced, but should be left voluntarily to engage for any quantity of Poonjah, Nunjah, or Bagayet lands they may wish to cultivate, and the same should be entered in the Dittum accounts. If any Ryot wishes to relinquish part of his Puttah, he shall be allowed to do so, provided it be a whole field and so situated, that it can be conveniently cultivated by another, who may choose to take it up, or give up good and bad together in fair proportion, and shall on no account be permitted to throw up bad land alone.

Sagorbady Dittum or Freedom of Cultivation

Remission

The Teerwah on the Poonjah lands being fixed on their average productive value, and but little rain being required for

For dry Crops no remission will on ordinary cases, be allowed on fields which have been entered in the Dittum Agreement but which may have proved unproductive or been left uncultivated.—

4.— On Punjah lands entered in the Dittum no remission will be allowed if left uncultivated, unless unavoidably from a failure of water. The same rule to be applied to Bagayet lands.—

5. When Punjah lands are cultivated but the Crops have partially or wholly failed from insufficiency of water, the full tirwah must nevertheless be collected according to the custom of the country.—

6. When lands situated in the bed of Tanks are cultivated with Punjah, Poonjah or Bagayet Crops, and when they may be inundated and the Crops destroyed from the Tank filling before they are reaped, the tirwah of the extent inundated will be remitted according to the present practice.—

Subdivision of fields.

7. The fields which from their large extent had been formerly divided, and the divisions entered in the Jamabundy prior to Fusly 1241 shall still continue as divided fields, and the tirwah

may be cultivated at such When Pooloochits are given for the cultivation of additional lands, they must be given for entire fields or entire divisions, as above specified. In the event of offers being made to cultivate Punjah Bunjer or Poompoke, which at the survey were entered in accounts in extensive tracts, the quantity of land the Ryot may require shall be given over to him, and the Tirwah to be collected thereon, should be fixed with reference to the assessment, on adjoining lands of similar description and quality, which may be under cultivation. The No. of the fields, bearing of the subdivision, its extent and assessment must be carefully entered in the Pooloochit, which is to be given to the Ryot. In order however to prevent the lands being divided into such small portions as may make it inconvenient both for the collection of the Government Revenue or for the cultivation of a substantial Ryot, no new lands are to be given in portions less than can be cultivated by a single Plough which in Poonjah land may be fixed at five Acres, in Poonjah Bagayet 3 Acres, and in Punjah 2 Acres. In the event of two parties applying for the portions of the same unassessed land, and the whole being insufficient

insufficient to afford a full portion to each
the first applicant shall be entitled to the
portion he requests and the remainder go to
the other provided however, should the
remaining portion be under an acre such
no division shall be made but the whole
made over to the first person who made
application.-

8.

In all cases where it may be
necessary newly to assess waste lands, the
assessment must be regulated with reference
to that fixed on lands of a similar descrip-
tion, situation, and quality under cultivation
as also to the means for irrigation, in the
event of there being no cultivated and assess-
ed lands of similar description in the same
Village, the lands in the neighbouring Villages
must be referred to for the correctness of the
assessment thus fixed will be examined into
by the Huzzoor Establishment and confirmed
by the Ryots of Puttah.-

Excess or Deficiency in a field

9.

If in any field an excess above
or measurement, of more than 10 per Cent on
the whole excess should be added to the
Jamabundy, and the teerwah collected
at the same rate as on the rest of the
On the other hand, if a deficiency

greater than 10 per Cent, the whole deficiency
should be deducted: any difference one way or
the other within 10 per Cent, shall not be inter-
fered with. No field however should ever be
measured, unless there are strong grounds for
suspecting any great difference in its extent,
as a frequent and minute enquiry must prove
vexatious.-

Conditions on which a Ryot may obtain Lands on Cowle

10.

Any Ryot wishing to take up
Cowle lands for cultivation agreeably to the
terms specified in the Cowlenamah, shall
first apply for Toolochit to the Tahsildar, or in
the event of it being inconvenient, to the Hurkarn;
who must make a personal examination of
the land applied for, whether it be such as
may require to be given on Cowle, and afterwards
make his report to the Tahsildar; that the land
has been left waste for so many years, that the
Ryot who offers to cultivate it holds a Patent
of Acres, and whether it is all under tillage;
that he possesses means to carry on the cultiva-
tion of the above land; that he agrees to pay
the Teerwah thereof, whether cultivated or left
fallow; and that he has given competent se-
security to this effect, and has good grounds for
believing that he will fulfil his engagement.

The Tahsildar, on receiving the Durkhastnamah

and

and security bond, shall give a Pottah to
shewing the rate of Teerwah of the Cowle land
which in the event of being unassessed, shall
be assessed at the rate assessed on lands of the
similar description in the neighbourhood. The
Cowle Pottahs so granted shall be entered in a
separate Book, with the signature of the Sheris
and Sheristadar, who shall deliver it into the Reg
at the time of Settlement. No Village Servants
such as Curnums and Monegars are empowered
to allow any Ryot to take up Cowle land
should a Ryot, without making application
to the Tahsildar or Renter cultivate the
the full assessment, as in the event of its being
unassessed land a Mijsal Teerwah will be
collected.-

11. Should a Ryot cultivate Cowle
without applying for a Pottah, altho
applied without receiving one, the full assessment
in every case be collected. Care must be taken
by the District Servants and Village Officers that
this be carefully explained to the Resident Ryots
and Strangers previous to their undertaking
cultivation.-

12 Should any Ryot offer to cultivate
on payment of the full assessment, and be
entitled to Cowle, such land may be made
over to him at the full Teerwah under the Pottah

granted accordingly.-

13. Should any Ryot offer to cultivate
at the time of Settlement with and after Cubroom
entire field or fields, and give a Moochilka for
the payment of the full assessment, the land o
should be made over to him for cultivation, and
the extent and assessment inserted in the
Jamabundy account of that year as cultivated,
and the Teerwah collected accordingly.-

Cowle Pottah to be paid whether the land is cultivated or not.

14.- The Teerwah due on Cowle land must
always be collected whether cultivated or not.
in the event however of Runjah lands held on Cowle
being left waste from a failure of water, as in the
instance the cause is beyond the Ryots control,
full remission of the amount due in that year
must be given, but the lands will be liable in
the following year to the progressive Sheet which
belongs to that year. In the event of the death
of a Ryot holding Cowle land, the Pattah may
be transferred to his heirs on the Cowle terms, if
they are willing to hold it - in no other instance
however shall Cowle lands be transferred from
one party to another. Instances having occurred
of Cowle lands having been entered in the
name of one person who had neither the
means nor the intention of cultivating, and
which were enjoyed by another; thereby eluding
the provisions laid down for the Village
management

management — in the event of the latter place hereafter, the full assessment of the lands will not only be collected, but also the Monegar and Carnum shall be immediate dismissed from office, this could not take place.

Ryot culling Enam lands —

15. If any Ryot, from inability to procure water or other cause, tenders during the watering season a Razeenamah for a part or the whole of his usual Patent lands, and continues the cultivation of any Poonjah Jodigy, Agrahar, Jaury, Mocatah, and Enam lands, or any other Patent lands which he may have been in the habit of cultivating, no Teerwah will be levied on his Patent lands so given up, but if after tendering a Razeenamah he engages nearly in the cultivation of his Pallipatt Jodigy, Agrahar or Lands of the Poonjah will be considered as Patent lands, on which Teerwah will be collected, unless the lands so left be cultivated by another individual, and then Teerwah will be levied from the latter.

If a Ryot, without tendering a Razeenamah during the cultivating season, leaves a part or the whole of his usual Patent lands waste, and engages on shares, Metta or otherwise the cultivation of Pallipatt, Jaury, Mocatah, Enam or other

Poonjah converted into any other description of cultivation by Circar water.

or not, the Teerwah of the Patent so left, will be collected, that is if not cultivated by another individual.—

16. If any Ryot converts his patent Poonjah lands into Nunjah or Cotakal, or from Cotakal into Nunjah by water from Circar Tanks, Rivers, or other sources, except his own well water, the assessment of the adjoining lands of a similar description and quality and possessing the same means of irrigation will be levied from him—

If Enam lands are similarly converted, the assessment of lands of a similar description and quality will be charged, and the difference, after deducting the Poonjah Teerwah will be levied from the Enamdar as Teerwah justly in addition to his usual Jodigy.—

Bagayet Waste —

17. If a Ryot repairs an old well in Bagayet waste land, at any trifling expense under 10 or 15 Rupees, no remission shall be allowed; but if he repairs substantially and at a considerable expence any old well, and brings into cultivation Bagayet land which has been waste, he shall obtain a Cowle on the terms specified in Para 12 of the Cowlenamah.—

8. All productive Cocoa and Betlenut Gardens, whether watered from Circar sources or from private wells, shall continue to pay the assessment hitherto levied on them

Do

On gardens already formed by water from Circar sources, but not yet productive, the assessment of the land if formed on Punjah land, if formed on Ponjah or Ponjah Bagayet Annandy Punjer Perumbake, the Punjah assessment of land of a similar description and quality shall be levied until the trees arrive at maturity, and afterwards that assessment doubled if the gardens are situated in the Baramahl and Poyenghaut Talooks, but if in the Balaghaut, the highest rate of the Lands irrigating them.—

19. On gardens already formed on assessed land by water obtained from wells but not yet productive, the assessment of the land both before and after they arrive at maturity, shall be levied. If formed on Perumbake or other unassessed land, the assessment of Ponjah land of a similar description and quality should be applied.—

Full Teerwah to be paid when a part of a field is cultivated

20 When a Ryot cultivates only a portion of a field and leaves the rest waste he must notwithstanding pay the full Teerwah for the whole field.—

21. If a part of a Ponjah field is cultivated with Bagayet or Punjah by means of water from any Circar source, the full

rate of assessment should be levied on the cultivated land, and the Teerwah of the adjacent Bagayet or Punjah land of a similar description and quality should be respectively collected on it, and the Ponjah Teerwah for the rest of the field whether cultivated or not. The extent of the land so converted and its increased assessment should be entered in the Jamabundy accounts as Fuzl jawby.—

22 No increase or decrease must be made in the terms of assessment, but in the event of the loss of means for irrigating Punjah lands either by the dilapidation of Tanks or other causes which may prevent the cultivation of the Punjah, the Tahsildar, after having examined the lands, will report the circumstance to the Huzzoor, and, should it be necessary, these lands may be given out on Ponjah Mirsaul Teerwah. If however the Ryot who holds the lands or any other Ryot, dig wells or — such lands at his own expence, and cultivate Punjah or Bagayet, the lands will revert to the original assessment, and be subject to the general provisions of the Cowle and Mookumnamah. In cases where at the period of the survey the lands were occupied by Topes, and on that account excluded from assessment, in the event of the Trees being decayed or cut down, if cultivated

all

as Punjah & Bagayet, the Mirasdar & Ewnadar
the lands which are similarly situated, as to
situation and quality, shall be assessed thereon
if cultivated with Punjah the Punjah Mirasdar
Teerwah is to be taken. In cases of Ryots who
have died or left their village, and whose
heirs have not the means or inclination, or
and tender Razeenamah for the lands held
by the former proprietor; also in cases of the heirs
of deceased and deserted Ryots, who neither
cultivate nor give Razeenamah, the notice
prescribed by Regulation 30 of 1802 should be
issued - in the event of no one appearing to
claim the land within the year, these lands
may be considered as belonging to Government,
and may therefore be given out for cultivation
to other Ryots - should these lands contain
private wells, they will be considered as appert-
=ed to Government; and in the event of a
higher term of cultivation being made, than
that originally fixed, an increased assessment
on Punjah may be collected, according to
the cultivation, whether Bagayet or Punjah -

23. The necessity of issuing notice
according to Regulation 30 of 1802, causing delay
which often prevents the cultivation of the

lands, and as the rights of Government ought
not to be affected by private impediments,
in cases such as above mentioned, where no
one belonging to the former cultivator appears
for the purpose of taking up the lands, the
Tahsildar, or those appointed by him to form
the Pagavully Dittum, shall enter these lands
for one year in the name of any person will=
ing to undertake their cultivation - should
the rightful claimant appear within the
year duly to demand the restoration of the lands,
they may be given up to him for the next
years cultivation, if not one appears, they may
be conferred for the ensuing year and there=
=after in the name of the party who agrees to
cultivate, or failing him to any other person -

Punjah Bagayet lands under cocoanuts, Plantains, Mangoes, cultivated or with other crops

If punjah garden lands contain

any longer pay the garden Assessment, they
may be cultivated with Punjah, on payment
of the assessment of the land, if formed on
punjah, if not of Punjah lands of a sim=
=ilar quality, and if there is not supply
of water according to the rule entered
in Para 23.

Scattered trees in Pulcut lands exempt from Teerwah

For scattered trees on Pulcut land,

lands at various decreased rates on the original
assessment, as well as those granted on
Monasidee Cowle, shall only continue while
the land is in possession of the original holder,
in the event of his passing it to another, or
its descending to his heirs, the full assessment
is to be levied. In cases of Mootahs reverting
to Government, the agreement entered into
by the Mootahdar or Renter with the
Ryots, either for renting or holding lands
at a reduced rate of assessment shall only
continue during the current year, and in
the ensuing July, the full assessment
should be re-established.—

Puttahs. 30. To all Ryots who pay the Ciar
demand on their lands, Puttahs should continue
to be issued in their names as hitherto. In the
event of a Ryot applying at the proper season
for Puttah to be made out in the name of
any other person for a portion or the full
extent of his Putteut, the Tahsildar after examin-
-ing into it, is to give it to the second person,
provided the person giving up the Putteut
holds no Cowle land, and provided the portion

So

so given up is composed of a fair proportion of good and bad land, as prescribed by Rule 2 should however a Ryot hold both Puttah and Cowle lands he cannot give up one and keep the other, but must relinquish both, in which case he must grant a Razeenamah, and Durkhast-namah being obtained from the second person when these are examined at the time of Settlement and approved of, the required Puttah shall be issued in his name, until such transfers undergo the examination in the Huzzoor at the time of the Settlement, they cannot be considered as confirmed. When the assessment on land remains unpaid for one year or upwards, and which the Puttahdar is unable to liquidate, if the land is cultivated by an under Cultivator the Puttah may be made out in his name, if he wishes it, and if he pays the Current balance and which may be actually due on the land; if he is either unable or unwilling to undertake the cultivation of the land, it may then be given to another. Any Ryot who has left his land waste for one year, and has not paid the assessment due on it, will not be allowed to reclaim his land if occupied by another. The same rules

are

are applicable to lands held by Canadars, Curnums, and other village servants. If a Ryot cultivates the land of an Emigrant Ryot, who has been absent for one year or upwards without making provision for the cultivation of his land, or the due payment of the Government demand, it will be entered in accounts in the name of the cultivating Ryot and a Puttah given to him, or having made provision, should the party undertaking to cultivate the land fail to do so or pay the Government dues for one year, the land will be given up to any one else, who agrees to cultivate it.

Jodigy and Zub Rent.

31. The Jodigy or Zub Rent fixed on Enam lands by Colonel Mr. Leod and Mr. David Cockburn, shall continue to be collected, any alterations since made by Mootadars or others without sanction, shall not be continued.-

32. Where any Enamdars or their heirs fail in paying their fixed Jodigy, the amount should be collected from the cultivator of the land if it has been actually cultivated In case the land may not have been cultivated or the amount of Jodigy not fully paid, the land to be attached for one year, and if the

so given up is composed of a fair proportion of good and bad land, as prescribed by Rule 2 should however a Ryot hold both Putcut and Cowle lands he cannat give up one and keep the other, but must relinquish both, in which case he must grant a Razeenamah, and Durkhast-namah being obtained from the second person when these are examined at the time of Settlement and approved of, the required Puttah shall be issued in his name, until such transfer undergo the examination in the Huzzoor at the time of the Settlement, they cannat be considered as confirmed. are applicable to lands held by Caradars, Curnums, and other village servants. If a Ryot cultivates the land of an Emigrant Ryot, who has been absent for one year or upwards without making provision for the cultivation of his land, or the due payment of the Government demand, it will be entered in accounts in the name of the cultivating Ryot and a Puttah given to him, or having made provision, should the party undertaking to cultivate the land fail to do so or pay the Government dues for one year, the land will be given up to any one else, who agrees to cultivate it.

Jodigy and Zaib Rent.

31. The Jodigy or Zaib Rent fixed on Enam lands by Colonel Mr. Leod and Mr. David Cockburn, shall continue to be collected, any alterations since made by the Mootadars or others without sanction, shall not be countenanced.

32. When any Enamdars or their heirs fail in paying their fixed Jodigy, the amount should be collected from the cultivator of the land if it has been actually cultivated. In case the land may not have been cultivated or the amount of Jodigy not fully paid, the land to be attached for one year, and if

the

the Judge is not within that time Expended or from the produce of the land or paid by the Ryots, the land should be included in the Circar annuary Lands from the following year.

Moturpha. 33. The Moturpha Collections should be made as hitherto. If any Ryot who paid Moturpha, dies or emigrates, or gives up Trade, the Teeruah should after proper enquiry be remitted. If any one liable to pay the Moturpha tax has hitherto evaded paying it, or if any new traders open shops the Moturpha tax should be fixed according to the circumstances of the Individuals and custom of the village. The house tax shall be collected as usual on all houses that are occupied. The list of casts shall continue to be exempt from loom, Shop, or house tax, according to Mahomed

Cultivating Ryots exempt from house tax. 34 All cultivating Ryots shall be exempted from house tax, but those who have their lands uncultivated for a season or who relinquish cultivation altogether, shall be obliged to pay it. If any other tax on the profession or trade has been hitherto paid the same shall continue to be collected. No person, however, who does not cultivate land paying double the amount to which he

would be liable for house tax, will be entitled to this exemption.

Houses on Puttah lands. 35. No Puttadar is to be allowed to build houses on Puttah lands without permission, and giving security that should he relinquish the ground he will leave it in a state fit for cultivation. For houses built on Puttah lands the inhabitants will be liable to pay the Puttadar reasonable ground rent and the usual tax according to profession, to the Circar.

36. No person should be allowed to build on annuary Bunjur, Poromboke and Podoogal lands without previous permission on application for places to build being made to the Tahsildar, he should report the circumstance and act according to order. Ryots acting contrary to this order will be subjected to the payment of the taxes due on the lands.

Backyards Exempt from Tax. 37. No tax according to custom shall be collected on the back yard of any occupied house, provided it does not exceed 1/8 of an Acre, neither shall any tax be collected on trees growing at the doors or in the back yards of occupied houses.

Fisheries. 38. According to custom, nothing shall be collected for the right of fishing in any tank, unless the rent exceeds 20 Rupees. but

when

the Judge is not within that time Cyandalis or Enaindars, the land should be included in the Circar annuary Land from the following year.

Moturpha. 33. The Moturpha collections should be made as hitherto. If any Ryot, who paid Moturpha, dies or emigrates, or gives up trade, the teervah, should after proper enquiry be remitted. If any one liable to pay the Moturpha tax has hitherto evaded paying it, or if any new traders open shops &c., a Moturpha tax should be fixed according to the circumstances of the Individuals and customs of the village. The house tax shall be collected as usual on all houses that are occupied. The basis of casts shall continue to be exempt from loom, Shop, or house tax, according to Mahamut

Cultivating Ryots exempt from house tax. 34 All cultivating Ryots shall be exempted from house tax, but those who have relinquish cultivation altogether, shall be obliged to pay it. If any other tax on the profession or trade has been hitherto paid the same shall continue to be collected. No person however, who does not cultivate land paying double the amount

would be liable for house tax, will be entitled to this exemption.

Houses on Putcul lands } 35. No Puttadar is to be allowed to build houses on Putcul lands without permission, and giving security that should he relinquish the ground he will leave it in a state fit for cultivation. For houses built on Putcul lands the inhabitants will be liable to pay the Puttadar reasonable ground rent and the usual tax according to profession, to the Circar.

36. No person should be allowed to build on Arundy Punjur, Poromboke and Podoogal lands without previous permission on application for places to build being made to the Tahsildar, he should report the circumstance and act according to order. Ryots acting contrary to this order will be subjected to the payment of the Teerah due on the land.

Backyards Exempt from Tax. 37. No tax according to custom shall be collected on the back yard of any occupied house, provided it does not exceed 1/8 of an Acre, neither shall any tax be collected on trees growing at the doors or in the back yards of occupied houses.

Fisheries. 38. According to custom, nothing shall be collected for the right of fishing in any Tank, unless the rent exceeds 20 Rupees, but when

when offers are received for upwards of 10 Rupees for any tank, the offer or Purchase of the village in whose village the tank may be situated will be preferred to that of other villagers. In the event of the villagers not making any offer the rent will be given to others. Offers shall be made at the Talook Cutcherries before the month of October, and all offers must be premptorily submitted to the Huzzoor for approval.

Palmira and Date Trees.— Regarding Palmira and date trees from which Toddy is drawn, the former instructions of Colonels Munro and M.r Lind and Captain Graham shall continue in force and agreeably to which the trees that yield produce to Toddy renters of the preceding years if they make suitable offers, or if not, to the highest bidders, and report the same to the Huzzoor. The Renters however are not to be put in possession of the trees until the offers are approved by the Collector and sanction given. The Talookdars should cause a particular account to be kept of all such trees, showing their total number young and old, the number arrived at maturity, the number rented out, the amount of rent, and the rent of the leases and of the young trees yearly as produce it at the

time of Settlement. Where the tree tax prevails it should be collected as usual.

Village Servants Enams.— 40. The Poty, Neerutty and Tandalkar should enjoy their fixed Enams as they have hitherto done. In the event of any Mootah reverting to Government the village servants shall only receive the original Enams fixed previous to the introduction of the Mottahdary system, but shall not be allowed to continue to retain rent free any additional Enam land given by the Mottahdar. On such additional land in excess of the original Enam, the full assessment should be levied.

Sookavasy.— 41. Brahmins and Mussulmans who have hitherto enjoyed the privilege of Sookavasy are still to enjoy it. Those who do not already enjoy the privilege, will only have it on such lands as they may have redeemed from Arrudy Banjar, and held Cowle therefore. It is necessary also to entitle them to this remission, that the lands on which they claim it should be cultivated with their own Ploughs and Cattle and no remission will be allowed on land which may be given out on cultivation, receiving a varrum share, or in any other way cultivated by the Ploughs and Cattle of the other Ryots.

Village Servants Enams.— 40. The Toty, Neerenty, and Tandalkar should enjoy their fixed Enams as they have hitherto done. Sookavasy. 41. Brahmins and Mussulmans who have hitherto enjoyed the privilege of Sookavasy are still to enjoy it. Those who do not already enjoy the privilege, will only have it on such lands as they may have redeemed from Amanedy Burjaw, and held Cowle therefore it is necessary also to entitle them to this remission, that the lands on which they claim it should be cultivated with their own Ploughs and Cattle and no remission will be allowed on land which may be given out on cultivation, receiving a varrum share, or in any other way cultivated by the Ploughs and Cattle of the other Ryots.

All

Topes.

42. All groves or topes planted prior to the introduction of the Survey assessment and which are still Jaury, shall be as heretofore, exempted from assessment.

43. The Tahsildar should resume old Government and unclaimed Topes or Trees situated on the Fallow, Punjar, and Poramboke as well as in the Pillary lands, praying only for Teerwah, and enter them in the Jummabundy accounts as usual.

Pasture lands.

44. In some of the Talooks such as Nameul, Paramutty, Trichengode, Lenkenpoor and Raizepoor, a grazing tax has been fixed in these, no difference is to be made in other Talooks, where the grazing tax has not been fixed, it has been found in many instances, that the heads of villages have appropriated to themselves the largest portion of the grazing lands, giving out small parcels thereof to the Ryots for profitable consideration. To prevent this abuse, no Ryot shall be entitled to hold more grazing land than one quarter of the extent of his cultivated land. In Talooks where the grazing tax is not already fixed and a Ryot appropriates as pasturage for his own use any portion of ground as grazing land, if the land be unassessed, a Mussul Teerwah shall be fixed, and one

quarter of it collected during the time it may remain as grazing land if the land has been assessed, one quarter of the fixed assessment will be collected any Ryot holding a larger portion of ground than one quarter of his cultivated land, must pay the full assessment. It is to be understood however, that only when the Ryot appropriates to himself lands as above mentioned, will these rates be collected. In uncultivated lands whether assessed or unassessed, should the Ryots in common feed their Cattle thereon, no Teerwah shall be demanded. Punjah ground must not be given for grazing, and in the event of any Ryot offering to cultivate grazing land possessed by another, the owner shall have the offer of retaining it, provided he agree to cultivate or to pay the full assessment thereof. Should he however agree to do neither, it must be made over to the party offering to take it into cultivation.

Tank Grass.

45. The Vidally or grass for thatching which grows in the beds of Tanks, should not be taken by the Curnums, and principal Inhabitants alone, but should be divided among all the Ryots in the village in proportion to the number of their Ploughs.

46. Lands planted with Sugar Cane and Betel Vine, and irrigated by water from

Cacar

Circar sources, are as usual to be considered as Punjah Crops and not to be subject to any additional assessment beyond the Punjah Seerwah.—

Information how to be rewarded

47.— If any information shall be given at the time of Samabundy Settlement relative to the frauds committed by the Curnums if it be proved, such Curnums shall be dismissed and the Informant shall receive a reward of 50 per Cent of the amount of Embezzlement which may be recovered.. If such information be given after the Samabundy is concluded, the informant will be allowed only 25 per Cent of the amount of Embezzlement recovered..

48.. Annual Settlements should be made as usual for the Shroshwahe Pee Lands which pay ⅓ or other share to the Peasants These shares should be deducted, and the remainder should appear in the Samabundy accounts. The Shrotriems which pay a fixed rent should as usual also be included in the Samabundy.

49.— It is expected that the Tahsildars will always be very attentive to the condition in which the village accounts are preserved, as well as the manner in which they are

kept by the Curnums When on Circuit they should occasionally personally inspect the Curnums accounts in different villages and ascertain that in those since Fasly 1250 the recent orders for keeping them in Acres, Goontahs and Annas, are strictly observed. For the information of the Curnums, accurate Tables for converting the different land measures in use into Acres, Goontahs, and Annas, have been already sent to each Talook, and a Copy directed to be furnished to each Curnum. The Curnums must be strictly enjoined always readily to afford to every Ryot who may apply to them, such information as he may require relative to the difference between the old measurements and that of Acres, Goontahs, and Annas now introduced.

50. It having come to notice that in several villages, the Ryots leaving the Punjah Poadoogul land uncultivated, have taken the Tank water for the cultivation of Poonjah fields. The Tahsildars and Monegars of villages will do their utmost to prevent the water of the Tanks from being diverted from the Punjah ayacut. Should any Ryot carry the water of the Tank for the cultivation of his Poonjah fields

fields while the Nunjah Podoogal lands remain waste, the Poonjah fields so cultivated will be liable to the highest Nunjah assessment under the Sanks.-

5th. It must be expressly understood, and explained to all the Ryots, that in the event of their using the water from Circar sees for Poonjah lands, even for a day, the lands will be liable to increased assessment if cultivated with Poonjah Crops to Bagayet; and if with Nunjah Crop, to Nunjah Teerwah.-

From the Collector of Salem - - - - Reporting on the present Condition of the Salem District and its prospects for the current Fusly.

Para. 1 Sir With reference to the 2d para of your letter of the 31st January last requiring me to report concisely on the present condition of my District and its prospects for the current Fusly, and on all other subjects connected with the season, I have the honor to state for the information of the Board with the exception of the Munjah Crops of the lands irrigated from the Cavery and Penaheny Channels as well as the P. Crop of the Poonjah Bagayet lands Viz.t Cholum and Raugy the harvest for the Fusly 1255 is reaped.

1. All the sources of irrigation in the Eastern Talooks of Athoor received their full supply of water in proper season and consequently gave a fair return of from half to three quarter crop which enabled the Ryots to discharge the Government demand without inconvenience.

3. In all other Talooks below the Ghaut and in those in the Baramahl only partial showers of rain fell, and consequently the Poonjah cultivation generally failed and became a Kadoy, some produced from one to four sixteenth of a

a Crop, and in other places from a quarter to half a Crop. A great portion of the Nunjah cultivation, with exception of such as received its supply from Wells and River Channels, was dried up, and the produce on the whole was from four to eight twelfth of a crop.

4.

The Nunjah and Poonjah cultivation, in some parts of the Ceded and Denkenicottah Talooks, was altogether withered owing to the total failure of rains, in some places the produce was very scanty, but generally not equivalent even to the quantity of grain ex- seed sown.

5.

A great number of Ryots in the Baramahl and Western Talooks are known in distress from their inability to discharge the Government demands. Kists were therefore, both in Saury and Amany Villages collected with great difficulty, the collection made up to the end of February as noted in the Margin amounts to Rupees 5,38,279-10- which is below that of the preceding year by Rupees 89,300-1-5 or Rupees 12-4-11½ per Cent.

6.

The severity of the season has so impoverished the poorer class of Ryots, from the dearness of common necessaries, that compelled to

Collection made up to February 1845.
Ore accounts of Fasly 1254 ——— 7,27,579-12-0

to live upon jungle fruit and roots, and suffering under severe fever and ague from the using of unwholesome food, many are dying of cholera in various parts of the District, under these circumstances the Board will perceive, that the sum of Rupees 6,38,279-10-7 was realized with great difficulty.

7.

There are also casualties among the cattle in some villages in the District, but generally they suffer for want of forage and water and consequently will be rendered unfit for use for the next season, to alleviate their condition the North West rains are much required in the present and following Months. If this season proves favorable, and the tanks receive their supply, it will enable the Ryots to prepare their Lands for cultivation in the next Fasly, but in the event of, in this first season, the rains failing, the effects will be very severely felt, as the prices of grain will be much increased and the cattle so impoverished, that the poorer classes will not be able to take advantage of the 2d Season.

8.

In consequence of the scarcity crime has much increased, the poorer class of people have recourse to plundering from pits and to robbing the grain brought for sale at the weekly

fairs

pairs in the Talooks and when apprehended they confess their crime, thereby indicating a desire of being placed in jail for some time to obtain subsistence.

9. Reverting to the season reports, it would appear that we have not had a really good season in the District since 1839. Both Monsoons in each year have fluctuated and been deficient; the rains have been partial and irregular, and consequently the crops of every kind have been defective, particularly for the last 3 years, and of course much of the cost of labour bestowed upon them, thrown away, while the Ryots till last season when some remission was allowed for withered crops have had to be paid in full.

10. The effects of so many consecutive bad seasons have been the impoverishment of the bulk of the people, the loss of live stock, of want and crime, of sickness and falling off of trade, and of the derangement of the social System.

11. The present condition of the District is gloomy enough for the reasons stated above, and bordering as it is on famine, the prospects of the current year it is impossible to calculate upon just now, to say any thing upon them will be purely speculation, they will depend upon so many contingencies wholly beyond calculation, judging from the past. The Coffee Crop of last season on the Shevaroy Hills was different, the Cotton and Indigo crops were bad and Weavers and Manufacturers of every class are in great distress from the high price of food.

Sir,

From the Coll^r of South Arcot 33 Para 1.

I have the honor to submit for the information of the Board, and eventually of Government, the Report on the over assessment of Nunjai and Poonjai land, as requested in the Board's Proceedings on Minutes of Consultation dated 31st January 1842 observing that my Remarks apply only to the 10 Talooks where the Rooloo assessment has been introduced, and have no reference to the Talook of Cuddalore, nor to those of Chillumbrum and Munnargoody, my predecessors Report on the two latter, and the resumed Saghire of Cuncaraposseram, being now before the Board for their decision.

2. Before I enter upon this important subject, I think it proper to submit an abstract of the correspondence that has taken place regarding it. From this it appears, that while this District was in the possession of the Nabob, the Circar share in Nunjah land was received in kind, while

while a Money rent was levied on Ryotwar tenement of which dependent upon

the description of Crop cultivated. After the completion

of the Carnatic in the year 1801. the Peishcush was

adjusted by Major Macleod on a rough estimate of the quality of the Soil. It does not

appear from any record upon what principle

this assessment was based but it's present

to be so high. that the Board addressing

his Successor Mr. Ravenshaw desired it

to be reduced. so as to leave to the

Cultivator a Clearance of 25 per Cent

in Nuncjah, and 31 per Cent on Pooroyah

produce. Hence it appears that the Circar

share was at this time 75 per Cent on

Nunjah and 69 on Pooroyah lands. A

modification was accordingly effected

by Mr. Ravenshaw which continued in

force until the present field assessment

was introduced by him into part of the Dis-

trict, upon the principle of an equal division

of the gross estimated produce between the

Cultivator and the Circar. In 182[illegible] to

27 Mr. Cunliffe effected the Settle-

ment of the Remainder of the District

upon the same principle. which remains

in force at the present time. although

it has not received the formal

sanction of the Board

3d Mr. Ravenshaw, after

completing his assessment, appears himself

to have considered it excessive - the Board

concurring in this opinion invested Mr Hyde

with "the power of reducing the Peishcush, where

they might be found excessive," and refer-

ring to the reduction to the amount of

25 per Cent effected by Sir Thomas

Munro in the Ceded Districts, desired

him "to give this subject his best consideration

"and to submit fully to the Board his

"sentiments on the extent of the reduction

"required" Mr Hyde in reply proposed in

Revising the assessment, to reduce the

Circar share from 50 to 40 per Cent

of the estimated gross produce - and also

to lower the price at which it was com-

-muted into money - The Board finally

gave Mr Hyde a general and discre-

-tionary authority to reduce the assessment

where it was essentially necessary,

but this appears never to have been

acted upon.

District stated previously to his departure

for England, that "it was always his intention, after the Accounts had been examined and passed to offer an earnest recommendation that the assessment throughout the District should be considerably reduced."

5 Mr Ashton, when he was called upon by Mr Commissioner Cotton to report upon the state of the District appears to have been strongly impressed with the idea, that the assessment was too high, and accordingly recommended a reduction. Mr Cullman, who subsequently acted for the Commissioner in transmitting his Report to Government supported these views, and the observations of Government upon the subject, which was thus brought to their notice occasioned the Board to call for the present report.

6 From the foregoing correspondence, it appears, that all the Officers who have been engaged in the assessment of this District, are unanimous in considering the assessment as unanimously too high, and the history of the assessment itself shews clearly how it came to be so.

7 St. Lo

50 per Cent upon the estimated gross produce of both wet and Dry land, was taken as the Circar share. Sir Thomas Munro considered one third of the gross produce to be the right proportion, and the Board in a Circular letter desired it to be generally adopted in regard to Poonjai land, but Mr Ravenshaw's Settlement having been previously effected, it was left undisturbed. 25 per Cent on the whole Settlement was remitted in conformity with Sir Thomas Munro's views in Bellary and Cuddapah, where the survey rates were originally very much lower than in South Arcot, and in other Districts some reduction appears to have been made but no remission of the kind has been granted here.

8 Again the price at which the Circar share was commuted into money was 5 Cullums per Pagoda, for all kinds of grain and without any compensation for transport to a distant market. this however is a fair average price for Paddy, and some kinds of dry grain, but one third of the dry cultivation in this District consists of Varagoo, the

price of which is about 30 per Cent below that of Paddy.

9

Another cause of the ass=
=essment being heavy and unequal, was
the fixing a consolidated double crop (except on
lands which happened at that time to be cultivated with two Crops instead of
making them liable to an additional
impost only when a second crop was
actually raised, as observed by Govern=
=ment in the Minutes of Consultation
before quoted.

Lastly, although the Survey
Rules direct that all lands should be
assessed according to the quality and actual
produce of the soil for a series of years
together with the average prices of grain
it must be well known to the Board
that there were no means of ascertaining
one of these conditions, as regarded Poonjy
land, namely the actual produce
for a series of years, since the whole
District paid a money rent up to the
period of the survey and consequently no
accounts of produce were kept; it was
to be expected therefore, that its basis
being thus imperfect, the settlement would

be somewhat arbitrary. Again, about three fifths
of the Nunjah land assessed at the Survey
was waste, consequently here also the grounds
on which a fair and accurate assessment could
be based, were deficient.—

It is needless for me to—
11
enumerate the evils that result from over=
assessment, which have so often been incurred
on by better authority. The Board themselves
have observed that those are greater under
a Ryotwary, than any other Settlement.—it will
be sufficient for me to point out the principal
reasons that occur to me for reducing the=
assessment in this District.—

12.

The cultivation in South
Arcot instead of progressing with the population, as
anticipated by the framer of the assessment has rather
retrograded since the time of the Survey. The
effect of the present rates
has now been tried for 23—
years and the marginal
statement will show that the average cultivation of
the last 10 years is considerably less than the
amount of Sheikul, or land under cultivation
4 years previous to the Survey, the large—
proportion, that the waste bears to the—
cultivated

cultivated land is also exhibited in the Margin of this waste, a very large quantity is not only cultivable, but very fertile land or can I find any reason, excepting the high assessment, why a large proportion of it, if not the whole, should not be gradually brought under cultivation.—

13

If we compare the quantity of grain produced in these 10 Talooks with the number of inhabitants who depend upon cultivation for their support, it will be found, that after paying the Government rent but little remains for their subsistence, for defraying the expences of cultivation, clothing and other demands. This applies more especially to the better class of cultivators whose holdings are found in consequence to be diminishing year by year.

14

The Ryot either from the effects of a bad season, loss of cattle, or other contingencies, is now frequently obliged to leave his puttah land uncultivated in which case another tenders a proposal to take it—and on the former declaring his inability to cultivate it or to pay the Teerwah, the proposal is accepted, and the

land is made over to the Durkhastdar Government appear strongly inclined to check this frequent transfer of property, the injurious effects of which cannot be doubted to—gain this object, and encourage the growth of a set of comparatively substantial farmers, permanently to occupy the soil, and to make that soil a saleable property, to promote in short the improvement and general prosperity of the District, a reduction of the assessment will be the most powerful means that can be used.

Vide Minute of the Governor General in a letter from Bdare 20th June 1839.

I would urge an additional

15

reason for adopting this course, deduced from the rules against granting remissions in cases of local failure of crops in ordinary seasons, and a similar practice in regard to Nunjai double crop land, where water to raise a second crop has failed both of which are found to be most serious checks on the extension of cultivation—to guard against the fluctuations of season as well as price which make these remissions sought for a moderate standard of assessment appears especially desirable.—

As Government expresses a wish to be informed in what relation

the rates of assessment on the different descriptions of land in South Arcot stand in comparison with those prevailing in other Ryotwar Districts, I have applied to several Collectors who have furnished me with Statements of the extent of land cultivated in their Districts, and the assessment that it bears although the average Nunjia assessment of the District does not appear to be much higher than that of the others with which it is now compared, I trust I have succeeded in shewing that it is too high, and requires to be reduced especially as I purpose to shew more fully hereafter in the higher Taruns. but the disproportion of the Poonjai teerwah to that of the other Districts as exhibited briefly in the margin is so enormous as to appear to demand immediate attention.

respecting the Poonjai assessment, which I do, after a deliberate consideration of the correspondence, and the facts I have now brought to the notice of the Board, and especially the extent of the over-assessment in comparison with other Districts, and the improperly consolidated double crop teerwah one third of which or the portion imposed on the second crop which ought therefore to be remitted would alone amount to Rs. 10,29,86—12—7.

× Vide Statt. No 5

18 As one principal object of the proposed remission is to encourage the cultivation of the more fertile descriptions of land, comprised in the higher Taruns, which the heavy assessment has hitherto checked, the higher classes of land ought principally to benefit by it. but as it is also highly desirable to afford the means of extending the cultivation generally throughout the District, and as there are many Villages in which there is but little land in the higher Taruns, it appears expedient to make a small reduction in the lower classes also, in which there is a considerable quantity of waste. Even in the 4 last Taruns, there is a large amount

Fort St. George 30th March 1846.

x Vide Statt. No 4

amount of waste, but it will be seen on referring to the Talookwar Statements that a large portion of it belongs to the Western Talooks, where it is frequently overgrown with jungle, and the population is both poor and scanty, consequently there is not much prospect of any considerable extension of cultivation and any liberal reduction in these rates, the amount of land included in them now under cultivation being also large, would be attended with a considerable loss to Government with any corresponding benefit.

19 I propose therefore to remit on the whole assessment, as shewn in Statement No 5, 12½ per Cent, which has been also done as before observed in the Ceded Districts, and I have endeavoured to distribute this amount between the different Farums on a fair scale with reference to the bearings with which they seem to press upon the Ryots, and check the increase of Cultivation. This is by no means the full amount of Reduction required to put this District on a par with the others Referred to in Para 16

No 5

Fort St. George 30th March 1846

leaves the average Fuseah Still Rupees 2-12-8 per Cawny or 100 per Cent higher than in any of those Districts, but it is recommended with a full consideration of the interests of Government, in the confident anticipation that it will be carried into effect as I shall hereafter explain, without even a Temporary sacrifice of Revenue.

20 Perhaps it may appear at first sight, that the double crop lands, having been originally burthened with too heavy an assessment, should obtain a greater proportion of remission than the single crop lands but as there is in most of the Farums both single and double crop land, if this plan were adopted there would be in the same Farum, lands bearing different rates of assessment I have therefore thought it necessary to deal with them as one class, considering them all for the future as single crop lands, Government having already declared, that Poonjai lands are not liable to a 2nd crop Fuseah

which would be remitted on the land at present cultivated, according to the scale I have proposed is Rupees 2224523 but supposing 80,000 cawnies of waste to be taken into cultivation, in consequence of the measure under consideration, the whole of this remission would be made up. On comparing the small amount of cultivation in proportion to the population of these Talooks, with that of other Royetwary Districts and considering the known eagerness on the part of the Ryots of South Arcot, I entertain a strong hope that the greater part if not the whole of this increase of cultivation will take place in the first year after the reduction is made provided it is made known early in the season I entertain no doubt, that in 2 years the cultivation will exceed the amount required to make up the estimated remission and that

that it will continue progressively to increase to the great benefit both of the Ryots and Government.

22 Should the Board hesitate to ask the sanction of Government at once for a reduction both of the Nunjai and Poonjai assessment, I would recommend, that the experiment be tried at first in the Poonjai, if the beneficial results which I do strongly anticipate follow this measure, there will remain, I trust no objection to adopt a similar course, with regard to the modification of the Nunjai teerwah, regarding which I now proceed to offer my observations.

23 On referring to the annexed figured Statement of my predecessor alluded to in Minutes of Consultation 31st January 1842, it appears that there are in the 10 Hoodoo Talooks 11,594 cawnies of double crop lands, and 11507 entered doubtful whether single or double crop, which bear a high, consolidated teerwah paid equally whether a second crop is raised or not Government require information regarding the extent of this land under cultivation

Vide Statement No 2 in Mr Ashtons letter 30th Dec 1839

There

There are in many of the Tarums both double and single crop land some of which is occasionally cultivated with one and sometimes with two crops, but the cultivation accounts are already so bulky in consequence of the minute details entered in them, that it has not been thought necessary to note of these distinctions in them- there are therefore no means of ascertaining accurately the amount of this cultivation however from the Pulicat accounts, and another Statement roughly prepared by Mr. Dents orders in Feby 1244 it appears that about one half of the quantity of land entered in the survey accounts as "double crop" and "doubtful whether single or double crop" is usually cultivated.

24

In a former discussion on this subject both Government and the Board concurred in opinion as to the unfairness of this mode of assessment- and it appeared to be in the contemplation of Government with a view to encourage the cultivation of the large extent of fertile but waste

Mof C 18th May 1837

waste land included under these denominations, to reduce this consolidated teeruah for double crop lands, when one crop only should be raised, and to impose on single crop lands as practised in other Districts an additional teeruah, where a Second crop should be cultivated but to carrying out this plan in these Talooks there appear to be serious objections-

It will be seen by the above

25

Statement that a large extent of single crop lands, from the 8th to the 10th Tarums bears the same high rate of Teeruah as the double crop on account, it may be supposed, of the superiority of the Soil- but of 15,3066 cawnies the whole amount of single crop land 9,000 having been waste at the time of survey, the grounds for judging of that superiority must have been uncertain, as observed generally regarding Poonjai land in Para 2- Now if we compare the teeruah which would be paid on double and on single crop lands on the principle above mentioned, a moiety of the single crop teeruah being the proportion usually added for

Note.

A similar result will be found in the Doubtful whether double or single crop land

for the second crop we shall find in the 8th Tarum for instance that if one crop is raised on a double crop land the teerwah will be Rupees 10-8- per Cawny but for one crop on a single crop land in the same Tarum 15 Rupees 12 again for two crops on the former 15 Rupees 12 on the latter 25 Rupees 16 thus not only would there be different rates of teerwah in the same Tarum but the result would be unfair and oppressive to the cultivator of single crop land so much so that I have no hesitation in saying it would be impracticable with the present high rates to levy the additional moiety or one third of the double crop teerwah be remitted, and the single crop lands left

left as it is, the inequality instanced above will still remain and a considerable amount of Revenue will be sacrificed without attaining the object of extending the cultivation, as regards the single crop land of which by far the largest amount of waste consists.

26. It appears to me that the best means of removing the difficulties arising from the former concessions of consolidation of the teerwah and encouraging at the same time, the cultivation of the best lands, whether double or single crop which has been checked by too high an assessment, is to declare all lands for the future single crop, and to reduce considerably all the higher Taruns - The average teerwah of the first 10 Taruns is at present as high as Rupees 14-12-2 per Cawny I propose to reduce the teerwah of these 10 classes to that of the 11th namely Rupees 10-8-0 per Cawny declaring at the same time all lands liable to an additional half teerwah, whenever a second crop is cultivated.

27 From the best information I have been able to procure, and the opinion of the most intelligent natives it

Fort St. George 30th March 1846

it appears that the average produce of one crop raised on good land, does not in general exceed 30 Colums, and although under very favorable circumstances a larger crop may be produced, yet in the great majority of instances the average will be found to be far below what I have stated. The half of thirty Colums, being the Circar share, at the survey rate of 5 Colums per Pagoda, gives the result of 10½ Rupees per Cawny which I have recommended as the highest rate of assessment, convinced, that any larger amount of teerwah is disproportioned to the produce of the best soils, and must tend to check their cultivation.

28. The extension of Nunjai cultivation in the lower classes of land cannot be expected to any great degree, as the land included in these Farums is generally without ample means of irrigation. I therefore propose to leave them as they are for the present subjecting them only to the additional teerwah, where a second crop is raised as the assessment of these lands is now

Fort St. George 30th March 1846

comparatively low, and second crops are not often raised on them, excepting where the means of irrigation have been improved since the survey, there appears to be no valid objection to this measure, while it tends by checking double crop to encourage Nyen cultivation At present the Ryot is often forced to cultivate a second crop to enable him to meet the high teerwah, the effect of which is to exhaust and impoverish the soil, this is one of the evils that will be avoided by the proposed indul-

29. There is in Manavary and Erepoosputtaday land to the amount of 5083-2½ 25 per cent on the teerwah of which is now remitted about ⅕ of this quantity will fall within the first 10 Farums, and I propose that the remission to be granted on these lands should be inclusive of this 25 per cent where it exceeds that amount, and when the proposed remission falls short of 25 per cent that the latter amount should be remitted as heretofore, in consideration of the want of means of irrigation

and

Fort St. George. 30th March 1846

and consequent risk and labor.

30 The extent of the proposed remission upon the present cultivation will be as shewn in the enclosed State= ment Rupees 110737-9-9 or 14 per cent upon the Nunjai Deiz of these 10 Talooks. and 20 per Cent on that of the 10 first Taroms. but it must be borne in mind that a Conside= rable portion of this will be recovered by the teerwah to be levied on second crops- and the 25 per cent now remitted annually to the amount of about of Rupees 5,000 on Manaweary and Erroopoosputtaday lands is included in the remission- If about 10,000 cawnies be taken into cultivation out of the waste, which there is every reason to expect will be done even in the first year the whole of the apparent Remission will be made up. Every additional Cawney beyond this amount that is cultivated, as well as every second crop that is raised, will be a clear gain to the Government-

31 Should the Board not ap= prove of the same rate of teerwah being

Fort St. George. 30th March 1846

being applied as I have proposed to all the first 10 Taroms. but wish a gradation still to be retained, I would suggest that the first 3 Classes should be assessed at 14 Rupees the 4 next at 13—4—" and the 4 following Taroms at Rupees 10—8—" per Cawny with the same provision regarding Second Crops the amount to be remitted under this scale would be Rupees as

101193—13—10-

32- I trust the Board will be satisfied from all I have stated of the necessity as regards the cultivators, and I may add, of the advantages to Government of a liberal remission such as is now proposed with due deference to the superior judgment and experience of the Board-

To T. Pycroft Esqre
Secretary to the
Board of Revenue

From the Collr of Tanjore — Sir,

Reporting on Petition No 4 of 1846 explaining the circumstances under which certain lands were brought to Auction contrary to the instructions of the Board and stating the result of putting up to sale of lands advertised under orders of the 20th October 1846-

I have the honor to return the Petition which accompanied your letter of 8th January 1846 and to state the circumstances of the transaction to which it refers- Pitchoopilly in Fusly 1250 proposed to rent the Pagoda Village of Canambady paying in addition to the Government demand a certain amount to the Pagoda which possessed the Meerasy right of the Village- He tendered as security for the due performance of his engagement the lands of the Villages of Vadagaee -nyel the Meerasy of which stood in the name of Ramasamy Pillay- This Ramasawmy Pillay had two Brothers and one nephew- The two Brothers acknowledged by a formal writing before me that they had no claim to the lands given as security and the acknowledged agent of Petitioner, the nephew a minor did the same- The man in whose name the rent was confirmed is a mere agent of Ramasawmy Pillay who in conjunction with his brothers and nephew cultivated the lands, reaped the produce and paid the Fleets- The rent from various causes but chiefly from bad cultivation did not turn out as profitable as was expected, and Ramasawmy Pillay fell in arrears in Fusly

1263.

1253. The property of the nominal renter being sought for in vain, that of the actual Renter Ramasamy Pillay was Zuftied- Every possible obstacle was put forward to its sale and finding the intrigues too much, recourse was had to the sale of the lands actually given as security, and they were entered in the lists which accompanied my letter No 57 of the 29th September 1845 and the permission of the Board was given for their exposure to Public auction- Ramasamy Pillay, now perceiving that his own efforts to evade payment, were likely to be fruitless, and his two Brothers having before me formally declared that they had no claim on the Zuftied lands made his nephew advance the plea that he had not signed the document executed by his Uncles and was a minor; and as I would not admit this plea which I look upon as being untenable and fraudulent, he has addressed the Board- I am now happy to state to the Board that in disobedience of their instructions for postponement, I proceeded to sale of the lands advertised, on the 26th January 1846, that Ramasawmy Pillay then paid down a portion of the balance against him

Fort St. George 30th March 1846

him and entered into engagement to pay within 15 days from that period a further sum - that 1000 Rs have actually been recovered from him and that I have accepted his offer and taken Moothiah's accordingly to pay the remaining balance by instalments. Under this explanation I hope to be excused for acting in opposition to the orders of my superiors.

I take this opportunity of reporting the result of the putting up to Public sale of the other lands of defaulters for which sanction was given by the Board on the 20th October 1845 - For the first land on the list no bidders were found. The remaining defaulters without exception attended with a portion of their balances in their hands and all save one have since liquidated their dues this one has been made good by a person who held a razeenamah executed before the Civil Court in his favor - For the recovery of the remainder, it will be necessary to sell the remaining land and it will be entered in the next list to be submitted for the sanction of the Board

Pennachee

Fort St. George 30th March 1846.

Board - I have the honor to add that the proceeding to the sale of the lands advertised has had a very good effect, and that had I acted in strict conformity to the instructions of the Board, the injurious impression that the Government would not sanction the sale of defaulters lands would have gained strength.

Resolution thereon - Under the explanation of the circumstances which rendered it expedient in the opinion of the Collector to proceed to the sale of the lands belonging to Ramasawmy Pillay referred to in the above letter, the Board approve of the arrangement entered into with that individual for liquidating the balance still due on behalf of the Renter Pitchoo pullydie - they would observe however that it would have been more regular had the particulars now submitted been communicated for their information immediately on the receipt of their letter dated 8th January last directing the suspension of the sale of the lands therein referred to until the receipt of further

further instructions from this Office.—

The Board will be prepared to sanction the sale of the defaulters' lands referred to in the concluding para of the above letter on the usual application being submitted for that purpose.—

On the 15th November, a few days after receipt of the Board's Proceedings of the 6th. idem, I served a notice on Paupanandan, Tobacco Renter of Ayeoor fully, for fusly 1253, requiring him within 15 days, to establish his alleged amount of loss and the compensation to which he considered himself entitled, in answer to which he laid claim, on the 1st December to Rupees 758, in compensation of loss exclusive of charges of collection.—

2. Promising that his statements bear falsehood in their face the

the accompanying abstract will prove his losses, by his own showing, to be only 175 Rupees and under my conviction of their dishonesty I have the honor to leave the question of compensation to the Board's judgment and liberality without a desire to say one word in the mans behalf.—

Proceedings thereon.

(54-55)

From the account submitted in the above letter it appears that the Renter alleges that his total gross Collections (2469 Rs.) from the commencement of Fusly 1253 to the date at which the rent was closed fell short of the kists (Rs. 3228) payable on the same period by Rupees 758. In other words that he had been a loser by his rent up to the time of its termination, in that sum, together with the expenses of management and Collection. It further seems from his accounts that the gross collection which he might have expected to realize (judging by the results of previous years) during the remaining portion of his lease had it been continued, would have exceeded the kists due on that time by only Rupees 31- as also that the sum (Rs. 4,320 Col. 3 and 6) at which the rent for the whole year was taken exceeds the average gross collection (Rupees 8,468. Col. 18) of the five preceding years 1248. 52 by Rupees 852. These Statements are evidently unworthy of belief and the amount of claim preferred Rupees 758 exclusive of charge of Collection is altogether unreasonable. The Board are therefore prevented

from taking further notice of the Renters' demand.-

Ordered that the following Endorsement be passed on Petition No. 559 of 1845.-

"The claim of the Petitioner has been referred for the consideration of the Principal Collector of Madura, from whose report it seems that the amount of compensation demanded is altogether unreasonable the Board therefore cannot recommend it to Government."-

On the 25th November last, a few days after receipt of the Board's proceedings of the 1st idem, I gave notice to Naranasamy Maiki Betel Renter of the Nadacum talook for fusly 1253. of their disapprobation of his claim as immoderate, and allowed him 20 days to produce a correct account of his alleged loss and claim to indemnification, and an denial of any accounts other than those already furnished, and which were

2. His claim to compensation being now reduced from Rs. 4824 to Rupees 1500 has a shew of moderation that induced me to recommend it for the consideration of the Board; tho' the persistence in the truth of the original accounts would have prevented me ever bringing it to their notice except in obedience to their orders.-

Proceedings thereon.

Narrain Swamy Naick's first claim amounted to Rupees 4824. Vizt. Rupees 1774. being as he asserted the sum by which his gross collections up to the closing of his rent had fallen below the Rists paid to Government on the same period, and Rupees 3050 expense incurred for Sibbendy. The Board rejected this claim as exorbitant. He has now preferred

preferred a reduced demand of Rupees 1,500, which though much below his former claim is still excessive, the Board cannot therefore recommend it to Government.-

Ordered that the following Endorsement be passed on Petition No. 876 of 1845.-

"The amount of compensation originally demanded by Petitioner on account of the discontinuance of his Farm was Rupees 4,824, which was rejected as exorbitant. He has since reduced it to Rupees 1,500 but the Board regard this claim also as excessive, and cannot recommend it to Government."

Afeez Mahomed Esoof the son of the Original Grantee & suggesting for the Consideration of Government whether it might not be expedient to resume only half the Yeomiah at present & Continuing the remaining half to the Holder for his life

Yeomiah in his District.

2- It will be seen that the yeomiah in question 2/8 fanams per diem or 102 — 4 — 6 Rs. per annum was granted by the Nabob Walla-jah in the year 1785 to one Hafiz Gorlam Mohideen Baseer. It was conferred for subsistence and was not hereditary but was nevertheless on the death of the Original grantee.

*Note In June 1224 according 1814/15 continued to his son Afeez Mahomed Esoof to Petition 119 of 1845.

Mahomed Esoof. This latter party has enjoyed it for many years but recently disputes between him and one of his relations have brought the yeomiah under the notice of the District authorities and of this Office and the true nature of the Grant has been discovered. That the original tenure was that of a life Grant only is sufficiently shown by the copy of the Purwanah of the Nabob and by the Extract from the Register of Yeomiahs of Tinnevelly made by Mr. Cotton in 1814 which have been transmitted by the Collector in his letter of 14th November 1845.

1st Jan. 1846 - 3- From the answer of the Collector to a reference made to him by the Board on the subject it appears that Afeez Mahomed Esoof is 36 years of age - that he has 15 persons dependent upon him and has means

of support distinct from the yeomiah as the yeomiah should have lapsed on his father's death he clearly has no claim to it and the Board have therefore considered it right to submit the case for the orders of Government as however Vazeer Mahomed Esoof is far advanced age and the entire loss of his yeomiah if it does not deprive him of all means of support, cannot but be severely felt by him, the Board would suggest for the consideration of Government whether it might not be sufficient to resume only half the Yeomiah at present continuing the remaining half to the holder for his life with the distinct understanding that this half also will lapse on his death. It will be remarked that a share in the yeomiah has been claimed by a Cousin of the present yeomiahdar One Cassim Lubboy under an agreement which seems to have been executed in his favour but as this person has received no portion of the yeomiah for many years past, if at any time it does not appear to the Board that any provision need now be made for him.

4. It should be observed that the yeomiah has hitherto been paid by deduction from

from the Moturpha Beriz and does not therefore appear in the Statement of the Tinnevelly Yeomiahs laid before Government on the 22nd September 1845. On the 1st June 1843 the Board in conformity with the instructions of Government called upon all Collectors to state whether there were in their Districts any ready money allowances granted to the families of Poligars and others in lieu of resumed lands &c. which were adjusted by deduction from the Kistbundy Beriz and if so it was directed that all such pensions should thenceforth be duly entered in the Statements furnished periodically to the Offices of Account and Audit. In his Return to that Circular the Collector of Tinnevelly made no allusion to the Yeomiah which is the subject of the present reference probably because the Circular appeared to apply only to grants falling strictly under the class of Pensions or allowances in place of resumed emoluments

From Govt 18th May on Con. 1st June 1843.

The Board have however issued a second Circular requesting the several Collectors to state whether besides the Pensions and ready money allowances already referred to there are any other of the nature of Yeomiahs or personal or charitable grants

of support distinct from the yeomiah. as the yeomiah should have lapsed on his death but he clearly has no claim to it and the Board have therefore considered it right to submit the case for the orders of Government as however Wazeer Mahomed Essof is in advanced age and the entire loss of his yeomiah if it does not deprive him of all means of support, cannot but be severely felt by him, the Board would suggest for the consideration of Government whether it might not be sufficient to resume only half the Yeomiah at present continuing the remaining half to the holder for his life with the understanding that this half also will lapse on his death. It will be remarked that a like in the yeomiah has been claimed by a Cousin of the present yeomiahdar. One Coosbrahmund Subbay under an agreement which seems to have been executed in his favour but as this person has received no portion of the yeomiah for many years past, if at any time it does not appear to the Board that any provision need now be made for him.

It should be observed that this yeomiah has hitherto been paid by deduction from

from the Motumpha Beriz and does not therefore appear in the Statement of the Tinnevelly yeomiahs laid before Government on the 22nd September 1845. On the 1st June 1843 the Board in conformity with the instructions

of Government called upon all Collectors to state whether there were in their Districts any ready money allowances granted to the families of Poligars and others in lieu of resumed lands &c which were adjusted by deduction from the Hirdtundy Beriz, and if so it was directed that all such pensions should thenceforth be duly entered in the Statements furnished periodically to the Offices of Account and Audit. In his Return to that Circular the Collector of Tinnevelly made no allusion to the yeomiah which is the subject of the present reference probably because the Circular appeared to apply only to grants falling strictly under the class of Pensions or allowances in place of resumed emoluments. The Board have however issued a second Circular requesting the several Collectors to state whether besides the Pensions and ready money allowances already reported to there are any other of the nature of yeomiahs or personal or charitable grants of

of any description which have hitherto been paid in like manner by deduction from the Beriz either of the land Revenue or of any of the Extra Sources, and if so to explain their nature, amount, and all circumstances connected with them, to the intent that such allowances also, if resting on due authority, may hereafter be made payable direct from the Treasury and be exhibited in the accounts furnished regularly to the Accountant General and Civil Auditor.-

March Session 30th Victoria 1866.

An Act to amend Chapter 7 of the Revised Statutes respecting Assessments and Taxes.

(Assented to 7th March 1866.)

Whereas doubts have arisen as to the proper construction of the Act passed in the Session held in the 29th and 30th years of Her Majesty's Reign, intituled "An Act to amend Chapter 7 of the Revised Statutes respecting Assessments and Taxes," and it is expedient that such doubts should be removed, and that the said Act should be amended in the manner hereinafter mentioned; Therefore Her Majesty, by and with the advice and consent of the Legislative Council and Assembly of Canada, enacts as follows:

1. The Act passed in the Session held in the 29th and 30th years of Her Majesty's Reign, intituled "An Act to amend Chapter 7 of the Revised Statutes respecting Assessments and Taxes," shall be construed as if the following words were added to the 8th section thereof, after the word "Municipality" in the 4th line of the said section: "Provided that no Assessment roll shall be void by reason of any omission to enter the name of the person assessed, or the description of the property assessed, or the amount at which the property is assessed, or any error in the name of the person assessed, or in the description of the property assessed, or in the amount at which the property is assessed, or any omission to return the roll to the Clerk of the Municipality, or any error in the return of the roll by the Assessor, or any omission of the Assessor or Clerk to do any act required by this Act, or any irregularity in the time of doing any act required by this Act, unless it shall appear that the party complaining has been thereby prejudiced, and that substantial injustice has been done in consequence thereof."

2. This Act shall be read and construed with the Act hereby amended, and with the Act passed in the 27th year of Her Majesty's Reign, intituled "An Act to amend the Law relating to Municipal Assessments and Taxes," as forming one Act.

3. This Act shall come into force on the day of the passing thereof.

Mr. Baron Rolfe delivered the Judgment of the Court.

This was an action of trover brought by the plaintiff, who is a Jeweller in Bond Street, against the defendant, who is a Pawnbroker in Holborn, to recover the value of a gold watch, a diamond ring, and a pair of silver spectacles, which the plaintiff had pledged with the defendant for the sum of £3. 10s. The defendant refused to deliver them up on demand, and set up a claim to a lien upon them for a debt due to him from one Edward Thornton, a person who had formerly been in the plaintiff's employ, and who had pledged the articles in question without the plaintiff's knowledge or authority.

The plaintiff's counsel contended that the defendant had no lien upon the goods, as the pledge was tainted with fraud, and that the plaintiff was entitled to recover their value. The defendant's counsel, on the other hand, argued that the pledge was valid, and that the defendant was entitled to retain the goods until the debt due to him was paid.

The learned Judge, after summing up the evidence, left the following questions to the jury: 1st, whether the defendant had taken the goods in pledge in good faith and without notice of the plaintiff's title; 2nd, whether the sum advanced was a fair and reasonable value for the goods; and 3rd, what damages the plaintiff was entitled to recover in case they found for him.

The jury found a verdict for the plaintiff, assessing the damages at £5. 12s. 6d., being the value of the watch and ring, but not including the spectacles, which they found had been pledged without the plaintiff's knowledge.

A rule nisi was obtained by Mr. Serjeant Talfourd in Easter Term last, to enter a nonsuit, on the ground that the plaintiff had not proved a demand and refusal before bringing his action; and cause was shown in Trinity Term by Mr. Bovill and Mr. Cowper.

The Court, after taking time to consider, now discharged the rule, holding that a demand and refusal were not necessary to support an action of trover, where the defendant had converted the goods to his own use, as he had done in this case by setting up a claim to them adverse to the plaintiff's title.

Rule discharged.

Ex parte Sheriff of Middlesex. — In the matter of Thomas Hodgson, an Insolvent.

This was a motion for a rule nisi to compel the Sheriff of Middlesex to bring into Court the sum of £47. 10s. 6d., being the amount of a levy made by him under a writ of fieri facias issued at the suit of the above-named creditor against the goods and chattels of the insolvent.

The facts were shortly these: The insolvent had been arrested on the 14th of February last, and had given bail to the action. On the 3rd of March following, the writ of fieri facias was delivered to the Sheriff, who levied the sum in question on the insolvent's furniture. On the 5th of March, the insolvent filed his petition in the Insolvent Debtors' Court, and on the 12th of April he obtained his discharge. The Sheriff now refused to pay over the money, alleging that he had a lien upon it for his costs and charges.

Mr. Serjeant Talfourd, in support of the rule, contended that the Sheriff had no such lien, and that the money ought to be paid over to the assignee forthwith.

Mr. Bovill, contra, argued that the Sheriff was entitled to retain the amount of his costs out of the proceeds of the levy, and that the Court would not interfere to deprive him of that right.

The Court, after hearing both sides, discharged the rule, but without costs, intimating that the Sheriff should not have delayed so long in bringing the money into Court.

Rule discharged.

Title of Act

An Act to alter the Time of holding the Courts in the Counties of Clinton and Franklin.

Passed 18th March 1834.

Whereas it is inconvenient to the Inhabitants of the Counties of Clinton and Franklin, that the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, should be held in the said Counties at the times now appointed by Law for holding the same; and whereas the Inhabitants of the said Counties have petitioned the Legislature to alter the times of holding the said Courts; Therefore,

Section 1. Be it enacted by the People of the State of New-York, represented in Senate and Assembly, That hereafter the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, in and for the County of Clinton, shall be held on the first Tuesday in March, the first Tuesday in June, the first Tuesday in October, and the first Tuesday in December, in each and every year.

Courts in Clinton to be held on the first Tuesday in March, June, October and December.

Courts in Franklin to be held on the first Tuesday in January, April, July and October.

Sec. 2. And be it enacted, That hereafter the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, in and for the County of Franklin, shall be held on the first Tuesday in January, the first Tuesday in April, the first Tuesday in July, and the first Tuesday in October, in each and every year.

Sec. 3. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, in the said Counties of Clinton and Franklin, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, any thing in the Act entitled "An Act to alter the Time of holding the Courts in the Counties of Clinton and Franklin," passed the 13th day of February, 1818, to the contrary notwithstanding.

Sec. 4. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 5. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 6. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 7. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 8. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 9. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 10. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 11. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

Sec. 12. And be it enacted, That all Writs, Recognizances, Bonds, Indictments, and other Proceedings, which shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next before the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings, shall be returnable to, or before the Courts of Common Pleas and General Sessions of the Peace, and Courts of Oyer and Terminer, and General Jail Delivery, to be held in the said Counties of Clinton and Franklin, on the first Tuesday of the month next after the time of the return of the said Writs, Recognizances, Bonds, Indictments, and other Proceedings.

to request that he would see that the work was executed at once in order that the Channel might be "available during the present Monsoon as recommended by the Engineer. Major Hardy + has stated that the repairs might be completed in 5 or 6 days only, but on the 17th November I received a communication from Mr. Cotton requesting further instructions on an urgee from the Thasildar of Poloor representing that he was prevented from proceeding with the repairs from being unable to understand the Estimate. I therefore suggested to Mr. Cotton to enforce the execution of the works by immediately suspending him until he should have completed them and he was accordingly suspended by Mr. Cotton from the 25th November last. In remonstrating against this measure the Thasildar promised to get the work executed in 8 days, but the repairs eventually were not completed till the 26th December last as appears from his own report x

3-

The explanation of the Thasildar of the causes of the delay appears unsatisfactory. There seems reason to suspect that even to the last he purposely delayed the work so as to let the season pass before it should be completed and also that some understanding must have existed between him and the Poloor Ryots

who opposed it and had closed the Channel. It will be seen that Mr. Cotton has fined each of these persons, as were found to be principally concerned in the stoppage of the Works - The Thasildar's salary for the period above mentioned namely from the 25th November to the 26th December inclusive has been retained in deposit pending the Board's orders regarding it and as his misconduct in this matter has been such as to draw upon him the notice of the Board and Government. I think the forfeiture of the whole amount Rupees 74-12-7 as per is the least punishment that could be awarded - But Mr. Cotton it will be seen is dissatisfied with the Thasildar's conduct in other respects, I think on good grounds, and recommends his removal - If the Board should be of opinion under all the circumstances that his removal is necessary I will take an early opportunity to make arrangements for his transfer to a situation of less responsibility. -

quickly as possible in order that the Tank might benefit by it, as I expected the river would have come down and filled the tank. I know of no good cause for his having been so long in finishing the work which he ought to have done on the 7th Instant. When he was suspended and before he was reinstated he reported that the Capaloor people knowing that he was suspended would not attend to what he said and hindered him in the accomplishment of the work, whereupon by your desire I wrote to him and desired him to report on the conduct of the parties he complained of, and after an examination to send the parties and case to me for disposal, which he has not done yet. In a subsequent report he mentioned that he had come across some large stones which would require some labour to remove.

3- In conclusion I beg to suggest a moiety only at most of the money in deposit be given over to the Phasildar, as I deem that from his conduct with regard to the work which he was desired to finish without delay (I mean his neglect to do any thing as ordered by the late Captain Vardon, his apparent unwillingness to do as directed by Captain Henderson and when forced as it were to obey orders, his going so slowly

Sir.

I have the honor to acknowledge the receipt of your letter dated the 15th Instant, on the subject of the unsatisfactory conduct of the Phasildar of Poloor in regard to the exemption of the repairs to the Capaloor Channel. It appears from your letter that the Phasildar has at length completed the work but before finally disposing of the question I would be obliged by your calling upon him for any explanation he may wish to give regarding the unnecessary delay which appears to have occurred in the execution of this work.

who instigated and called the others to fill up the Channel, but he gave no reason why he had not done so, and on being ordered to do so he forwarded one of them and the son of the other who he says is sick. It also appears that this latter man has never been examined at all, or even called upon by the Thasildar, though he admits he was one of the head men, and lives close by. It further appears that one of the Monigars of Capaloor, has been unable to attend to his duties for the last two, or three years, from old age and his sight being affected but this circumstance he never reported nor has he sent up his son who took a prominent part in the closing of the Channel. The Thasildar moreover did not send up the persons whose names are mentioned in the report, as the convicted persons but substituted 3 others and sent them with the peons, giving them also a false list, and he also entered in the peon's list as sent, one of the head men, who in his report he said he had not sent. The consequence was that during the examination I was much troubled and confused parties calling themselves (either to screen the guilty parties or for some other cause by feigned names, that is/ by the names of the guilty parties, or saying they were answerable, and that they had

had come in the place of them. I have taken depositions from the peons, and they declare that the persons that they brought to me, are the same, that were given over to them with the list. Indeed it appears to me quite evident that the Thasildar, and the Capaloor people are bound together and will screen one another as much as possible in this matter. The Monigars state they were away from the Village and neither the totties taliaries or Curnums in their absence reported the circumstance to the Thasildar although they must have known that the closing the Channel was in direct opposition to the orders issued. I have levied fines of 7 Rupees each on the Monigars, 15 Rupees each on the two head men, and on the 16 others concerned fines from 8 Annas to 2 Rupees each according to their ability to pay, and other circumstances, and I have also fined the Curnums, totties and taliaries 1 Rupee each for neglect of duty, the latter so far from reporting the circumstance collected the people by the orders of the 2 head men. As to the Thasildar I would recommend that his conduct be brought to the notice of the Board of Revenue with a view to his being punished severely, and being removed from Poloor

On

3-

On referring to his monthly report of Police Cases, for the month of December I find he nominally decided 5, but of these 2 were decided by filing Razeenamahs and in a third the complaint of the Prosecutor was dismissed, without calling upon the persons charged, as the things said to be stolen were found in the Prosecutor's house, the other two cases were very trivial ones and there are 62 cases pending before him undecided, of Revenue Cases he decided one only in December referring the parties to the Civil Court, and there are 17 cases before him undecided, and on the 15th January the amount of Revenue uncollected by him for the past Fusly was 831 Rupees 15 annas 9 Piece.

Sir,

I have the honor to forward an emergent Estimate for work necessary to be done immediately to render the new Channel available during this Mansoon for the supply of the Poloor Tank and beg to suggest that it be

be ordered to be executed at once-

The Thasildar has caused the project to be thwarted hitherto by having permitted the Capaloor Ryots to construct a dam across the new Channel at the stream called Cammanar by which the water is effectually prevented from reaching the Poloor Tank and turned into the Capaloor Tank by the above mentioned stream.

An Item in the Estimate provides for removing the dam and closing the Cammanar to which I beg to invite your parthcular attention and to suggest that an imperative order be issued for this work to be done the first thing and that the Thasildar report the same to you and, with your sanction, to me also-

To The Collector of North Arcot

Sir,

With reference to my letter of the 27th. Instant regarding the Poloor Channel I have the honor further to suggest that besides the work therein recommended the unexpended balance between the amount of the Estimate.-

Amount of Estimate -	825	—
Expended	558	10
Unexpended balance	266	—

and the work done for improving the portion of the Channel belonging to Capaloor be appropriated to its original purpose "On Emergency" as one of the causes of the failure hitherto of the project is the incompleteness of this portion of the work.-

As the work now recommended cannot be done when the Channel is full, advantage should be taken of the present fair weather for its performance, and if the people of Capaloor turn out in equal numbers and shew the same alacrity in its execution as they are reported to have done in its opposition the work might be completed in 5 or 6 days.

Should the bill for the above work have been already sent in a sum equivalent to the unexpended balance of Rupees 266-0-0 should be appropriated as above recommended.

Translation of an Urzee addressed by Lutchmenarsapah Thasildar of the Poloor Talook to Robert R. Cotton Esqre. Acting Sub Collector in the Zillah of Chittoor dated 23rd January 1846 No. 27.

After the usual Compliments.

I beg to acknowledge the receipt yesterday of your Order No. 26 dated 21st Instant referring me to your Yaddee of the 28th October last and several other Orders and directing me as called upon in the Acting Collector's Memorandum of the 19th Instant to explain the cause of the delay which occurred in executing the repairs to the supplying Channel of the Capaloor Tank. In reply I beg to state that no delay whatever was occurred by me in this matter, my sole attention was devoted in the execution of the work and which was done quickly and satisfactorily.

2.

The order dated the 28th October 1845 for Rupees 171 and odd was received on the 30th of that Month. That of the 8th November for Rupees 240 and odd being the amount balance of the Estimate of 1842 on the 10th idem. My receipts for the sums were as usual sent to the Treasurer on the following days respectively.

Received 171 Rupees and odd on the 9th November and 240 Rupees and odd on the 19th of that Month

Advanced 171 Rupees and odd to the workmen on

on the 10th November and caused the embankment in front of the Canganare Tank and in 2 other places which was most urgently required to be raised and which was expeditiously executed in three days. and also caused the earth choked up in the Channel by the rush of the flood from the Northern side to the Poloor Talook to be cleared out by the Ryots of that Village. In the meun time it rained and a large quantity of water at the embankment in front of the Canganoor Tank was prevented making its way through the Channel and on examining the reason of this obstruction it was found that the Channel required a further excavation of from ½ : 3/4 1 or about a yard and although there was no separate provision for this work, I considered it necessary that it should be executed for the safety of the embankment and caused it to be accordingly executed by Odders on an agreement that the expence attending thereon to be made good by the Monigars and Ryots of the Poloor Village so that the water may have free access to the Tank of that Village and as it rested on a large number of people to make good this sum and fearing that if one or two should fail, others would also follow their example, I considered it advisable to be present and have the work executed in my presence

presence before engaging the odders on the other Works as per Estimate, and accordingly had it finished within the 25th November and reported the same to you on that date by an Urzee No. 243.

3 On the morning of the 26th November I proceeded to the head of the River Channel and commenced with the 2 works in the Estimate and by indefatigable exertion caused the whole of the excavating work and all but 600 yards of filling up the breaches to be executed by the 8th December, which circumstance I reported to you on the 8th and to the Acting Collector on the 9th December 1845. The remainder work which consisted of a portion to be executed by the Poloor Ryots not provided for in the Estimate the above said 600 yards and the blasting of Stones in some places were executed in three days.

4 Upon my suggesting for excavating another Channel within the 240 Rupees and odd in order to avoid the obstruction of the Yellattoor Tank Calingalah Vth water to the free passage of the water from the River through the Channel I received an order dated the 22nd December 1845 No. 344 authorizing me to do so, I immediately commenced with the work and had it finished by the 26th and measured the whole 3 works at once on the 29th and as I had to send in my receipts in triplicate to the Honour I did not take the measurement of the completion of the above 2 works until the whole was completed

5 It will be seen from the water mark and from the work I have performed by the Ryots and Monigars of Poloor from the North of the Canganoor Tank to that of Poloor that the Estimate formerly

The Board of Revenue observe that the Acting Collector of North Arcot has not supplied any report upon the first proceedings of Capaloor Ryots and the Thasildar of Poloor with regard to the Poloor Channel as he was requested to do in the order No. 496 dated 21st August 1845.

As however the Ryots have been punished for their recent attempts to obstruct the work, it is not necessary to issue further orders upon the subject at present, and the conduct of the Thasildar will be taken into consideration in the Revenue Department of the Board.

Proceedings thereon

71-72

The Board of Revenue consider the conduct of the Poloor Thasildar in the particular instance mentioned in the letter of the Acting Collector to have been highly censurable, and they are of opinion that his behaviour both in that case and in the other instances brought to notice in the correspondence which accompanied Mr. Lovell's letter sufficiently show that he is altogether unfit for his present important Office. They therefore request that the Acting Collector will take an early opportunity of transferring him to a situation of less responsibility. The Amount of his Salary in deposit Rupees 7-12-7 should be disbursed to him.

Ordered that a copy of the foregoing Extract be communicated to the Department of Public Works.
