In his Minute dated — Mr. Drury seems to be of opinion that a settlement with Ryots of a given extent of Holding on such terms as to render an annual settlement with them unnecessary "would be attended with so serious a sacrifice of Revenue "that it would never be sanctioned" and refers to certain correspondence with Government in support of his views. The question is of much importance as bearing directly on the interests of the revenue and of the people

It is only necessary to notice the specific proposition which forms the subject of the correspondence referred to by Mr. Drury to shew that the two cases have not any features in common. The remarks of Government on the occasion will be found to be in confirmation of the principle advocated by the majority of the Board, from which Mr. Drury has recorded his dissent, and those remarks are the more valuable as being the recorded sentiments of Sir Thomas Munro, and as shewing what has always been the custom of the Country —

The specific proposition alluded to is recorded in the following words: "The Collector of

Govt. Con. 1824 Para 10.

of Bellary appears to regard the Ryotwar settlement and field assessment as a new and erroneous system, and to think that another which he proposes, might have been or might now be substituted for it with advantage. He says that if the Survey had stopped with the measurement without assessing the Field "and a discretionary Annual settlement had been formed with each Ryot for his entire Farm, without assessing each Field at different rates, the evil I have alluded to might perhaps, have been avoided &c." It is thus seen that the Collector of Bellary wished to lay aside not only the field assessment or valuation of the land which had always existed in the Ceded Districts long before they came into the possession of the Company but also the important statistical result of the Survey which had been acted upon for years and to substitute instead a discretionary assessment on the entire Putcut or Farm of a Ryot. The true value of the land he thought would be ultimately known by competition "the natural competition for Farms" he observed "would in time point out their true value" It is hardly necessary to pursue the subject further in this place to shew the total absence of analogy between the two propositions —

From Govt. as above Para 10.

The Government pointed out

out the Principle on which the Specific proposition of the Collector of Bellary was founded. "The Collector" they said "here is evidently thinking of what is called the Putcut settlement, which he does not appear to know is only another name for the Ryotwar." "The Putcut is the "land held" "The Ryot is the "land holder" "Every Ryot has always settled for his entire Farm or Putcut, but this does not preclude the necessity of a Field Assessment as supposed by the Collector." The proposition of the Board in regard to settlements from which Mr. Drury has recorded his dissent, is in unison with the Custom of the Country as here stated. They wish to settle with each Ryot for his entire Farm or Putcut, and thus to ensure the Ryotwar Principle being carried out fully according to the circumstances and exigencies of each District. "It is our object" the Government observed "to limit the demand upon his (Ryots) land, to secure him the possession of it and thus to render it a valuable Property."

It is important that due discrimination should be observed between a sound and unsound administration of a Principle, and still more important that the Principle should not be confounded with its

its several developements. The Putcut or Ryotwar Principle is exhibited in the Proprietory Estates in Malabar and Canara also in the Putcuts of Coimbatore, Salem and elsewhere, where a certain allowance is made for Pasture and in every District where a Ryot holds his Put Cut on the same Puttah from year to year without change. It is seen generally in Meerasis, and in the Meerasis of the Deccan. A further though unsound application of the Principle is seen in the Honorable M. Elphinstone remarks regarding a Mouzawar settlement. The application of the Principle in the last mentioned case should have been Ryotwar under defined Rules and not Mouzawar by which both the Interests of the Ryot and the rights of Government in the Waste were improperly surrendered to one Individual the Potail. All these are so many developements of the same Principle, the peculiarities in each case depending on circumstances it would not be reasonable to do away with

"The Assessment appears to have suffered no change within the last two Centuries, and I am disposed to think that the system adopted by Mullick Umber, of making Lands over in Perpetuity, is of great antiquity among the Hindoos, and was probably once uniformly adopted throughout India." with this mode of settlement which is peculiar to the Country together with the Principle itself, because a former Collector of Bellary has attempted to exhibit the Principle in a mild and visionary Form, and yet this is the position in which the question would be placed by supposing a parallelism between the cases under consideration. It must not be forgotten that the Principle has received the advocacy of the ablest Revenue Officers and the sanction of the Court of Directors.

Ryotwar, it is true, does not require the Ryot to pay for more land than is in his occupation, but according to the present stringent practical application of this rule he is compelled to pay the full assessment for all that he retains, he is thus shut out from the opportunity of using his usual Farm to the best advantage and if he wishes to give a field rest he is obliged to give up the land altogether or pay the full assessment upon it. The condition of each District seems to point out that we should no longer disregard the requisitions of Ryotwar Having noticed the absence of resemblance on the president occasion the Principle may be safely left to assert its own claims.

From the Coll.r of Ganjam

Sir,

I have the honor to acknowledge the receipt of your Circular letter of the 19th January last, desiring that it may be ascertained whether the several Talook Cutcherries in this District, are supplied with Translations of the Regulations and Acts of the Supreme Government applicable to the Madras Presidency which are necessary for their guidance and I beg to state that none of the Native functionaries in this District have ever been furnished with translations of the Regulations and Acts in question with the exception of the Tahassildar of Goomsur, to whom a set of the Telugoo Version of Regulations passed from the year 1802 to 1834 and the Acts up to No. XXX of 1836 received with a letter from the Chief Secretary to Government dated 16th May 1837 was supplied.

I beg to observe that Indents for the number of Copies of Regulations in the Native and English languages which are wanting to complete the existing sets of the Collectors, and Assistant Collectors Cutcherries, as well as the translations required for the Talook Cutcherries were submitted with Mr. Stevenson's letter of the 10th June 1837 none of which were supplied. I beg to forward herewith a fresh Indent for Copies of Telugoo Versions including those required for the Hoogoor as well as the District Servants in each Department the number of Copies required being 38.

Sir,

Para 1. In reply to your Circular letter dated 15th January last, I have the honor to state for the information of the Board that I was of opinion that it would be attended with considerable inconvenience to the actual owners of Sugar if they had to attend in person upon the Collector every time they required Certificates and to make the declaration in the Form L. in

in the Sugar act No. XV of 1839 does not obtain in the Bellary Districts and that the Sugar produced in it is Monthly consumed in the province itself and partly Exported by Land to His Highness the Nizams Dominions and that no part is conveyed for Exportation by Sea —

in the presence of that Officer. Under this impression it was my intention to have proposed to recognize it as sufficient and equally valid if the owner himself or the Party in possession of a Mokta or Parwanah or authority from him made the prescribed declaration before the Tasildar and to have authorized the issue of the Certificate of Origin B on the responsibility of the Tasildar, and on his forwarding me the declaration.

2 — But the orders of the Board dated 26th October 1843 consequent on a correspondence between myself and the Acting Principal Collector of Cuddapah relative to Sugar passing from one Company's District to another rendered the declaration and Certificate above alluded to quite unnecessary in the Bellary Zillah —

3 — The Sugar produced in this District is generally consumed in the Province itself or partially conveyed to His Highness the Nizams Territories and is never exported by Sea for the use of Foreign Countries States or Settlements —

Submitting certain information called for by the Board on the 22nd December last regarding the transfer of certain lands on the Sheveroy Hills from Mr. Fischer to Mr. Cockburn.

Sir,

With reference to your letter of the 22d December last I have the honor to inform you for the information of the Board that from the Records of this Office it appears that the lands therein mentioned were entered in two Grants Nos. 1756 and 1757 in the name of Mr. Fischer agreeably to instructions from the Board dated 8th June 1827. These lands were measured in 1833 by orders of the former Principal Collector Mr. J. Orr, and found to consist only of Acres 136. 27. — instead of Acres 141. 2. 3 as entered in the Grants Nos. the Teeruah thereon was demanded from Mr. Fischer by my predecessor Mr. Glieg on the 5th June 1838, in consequence of Mr. Fischer in his letter dated 11th September 1838 having refused payment, stating that the lands were transferred some time previous to Mr. R. D. Cockburn, that Gentleman was called upon to pay up the balance of Teeruah from July 1836 to July 1850, amounting to Rupees

2050

Fort St. George 23 April 1846.

2050- 3-4 Mr. G. Cockburne his Son, paid up this amount, as also the Teerwah for Fusly 1251 Rupees 136- 11-4- The Teerwah from Fusly 1252. to 1254 was paid up by the Agents of Messrs. Ashton Richardson and Co. Fresh Grants do not appear to have been obtained by Mr. Cockburne, or any documents connected with the case registered in my Office.

2. As the Lands in question were in Mr. Cockburn's possession for a very long time, and as Mr. Fischer in his letter to this Office exonerated himself from all responsibility regarding the same, the Lands were entered in Mr. Cockburn's name in the Public accounts, and the Teerwah collected from that Gentleman up to Fusly 1251- I beg to refer the Board to the detailed report dated 29th October 1842 submitted by Mr. Cleig on the subject. Herewith forward Copy of a letter dated 3d February from Mr. Cockburn in answer to one from this Office dated 31st December last in which that Gentleman states that if his recollection

is right the original Grants in 1830 were delivered to Mr. Vincash his attorney-

3. In answer to the 2d Para of the communication under acknowledgment, beg to state that no Puttah was hitherto issued for the lands held on Grants, nor any transfers of Grants from one name to another took place. Two shots of land in the Salem Talook originally entered in the Grants Nos. 1546 and 1547 in the names of Messrs. Carpenter and Heath are continued in the same names although subsequently put in possession of Mr. Fischer who pays the Teerwah on them yearly, Viz. Rupees 72-3-4 to Government without fresh Grants being taken out. As Messrs. Ashton Richardson and Co. required a Puttah to be issued in their names for the lands entered in the Grants in Mr. Cockburn's name I considered myself precluded from granting it without a Razeenamah from Mr. Cockburn, authorizing the transfer agreeably to the practice of the District. In cases in which lands are transferred by virtue of a Decree from the Civil Courts, in consequence of their communication to this Office being considered a sufficient Voucher a Razeenamah is not required- No document is existing

in my Office regarding the transfer in ques:
tion therefore Mr. Cockburns Razeenamah

This letter was submitted to Government who in accordance with the view taken by the Board ordered that no demand should be made on account of the land entered in grant No. 1756. until measures should be taken by the parties in possession of the grant or others towards its occupation but that Mr. Fischer should be required to pay Quit Rent on the land entered in No. 1757 (Acres 28. 17. 1½) from the date of the grant and on the remainder of the Space enclosed by Mr. Cockburn (Acres 108. 9. 11½) from the time of actual occupation. Sir,

I have the honor to acknowledge the receipt of your letter of the 5th Ultimo, relative to an application from Messrs. Ouchterlony, Fischer and Cadenhead for 170 Acres of land on the Shervaroy Hills for the purpose of Coffee Cultivation. I have communicated the sentiments of the Board to these Gentlemen and submit a Copy of their reply, from which the Board will observe that they rest their application for more favorable terms than allowed to other cultivators on the Shervaroy Hills, in consideration of the local disadvantages of the place they have chosen, and of terms in conformity with their former application having been granted by the Board for forest land taken for a similar purpose on the western

Coast

The land applied for is situated on the green Hills, about five Miles distant from the localities hitherto occupied by Coffee planters and on an elevation of several hundred feet higher. It comprises a large wood of forest trees, which must be felled at a considerable expence and the number would not pay the cost of its being removed - so that it will be a considerable time before a great portion of the land can possibly be cleared and brought under cultivation; but as their object is to keep belts standing for shelter, under these circumstances, altho' the parties are willing to accept the terms proposed by the Board, I beg to recommend for the many reasons advanced in their letter of the 28th of November, and in consideration of their having already made preparations for clearing and planting out 100 acres, that ten years should be substituted for the period they will be required to bring two thirds of the land under cultivation.

I am quite of opinion, that the land should be granted to the applicants, as it is obviously the interest of Government to encourage such speculations which can only be undertaken by

No. 1.

To W. E. Lockhart Esqre
Collector of Salem

Sir,

We have the honor to acknowledge the receipt of your letter of the 16th Instant.—

We beg to explain that when we made the former applications for Forest land on the Shevaroy Hills, we did so from being desirous of giving a fair trial to Coffee planting there and under a belief that land would be granted on no other terms than those we named, and which we did so name in accordance with an intimation made in a former year to the undersigned by Dr. Buchanan.— But when we came to understand that very different and more favorable terms were granted to applicants for Forest land

land for a similar purpose on the Western Coast we deemed that it never could be the desire of Government to place us, as experimental cultivators, in a worse position than other parties pursuing precisely the same object, and under circumstances of superior advantage to those we possess, in as much as the elevation we have been forced to choose is rather above the understood ranges of Coffee cultivation as neither forest nor soil are equal to what is found on the hilly ranges near the Western Coast, and as we are removed twice as far from a shipping port for our produce.—

We will venture still to trust that all these points will be taken into consideration by the Board of Revenue, and that it will yet find itself authorized in recommending to the Government that we may be placed on an equal footing with rival cultivators, for we ask for no preference and nothing to compensate for the local disadvantages we have above enumerated.—

We hope the Board of Revenue will allow its renewed attention to be drawn to the fact of the essential

essential difference between ordinary waste land and the forest land we apply for. the one presenting the opportunity of immediate cultivation, while as we before observed, the other will cost us the equivalent of about 30 years of ordinary assessment before it is cleared and ready for use:-

At the same time while we take leave to press these matters upon the favorable consideration of the Board of Revenue we frankly admit that we are so situated under the arrangements already made by us that we must accept of any terms the Board and Government may seem fit to lay down, but we hope, with reference to those mentioned in your letter, that "ten years" may be "substituted for the "seven" expressed in the former, as we find, being the period specified in the Cowles granted for Wynaad - And, repeating our readiness to accept such terms as may be established.-

To the Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying correspondence between this Office and the Collector of Salem on the subject of an application made by Messrs Auchterlony Fischer and Cadenhead for a grant of land on the Shevaroy Hills for the purpose of Coffee Plantation.

Coll.rs letter 5th March in Cont.n to 2d April 1816.

From this it will be seen that the land for which those Gentlemen have applied is in extent 170 Acres. that it is situated about five Miles distance from the localities hitherto occupied by Coffee Planters and on an elevation of several hundred feet higher and that it comprizes a large wood of forest trees which must be felled at a considerable expense and the Timber of which would not pay the cost of removal. Messrs Auchterlony

enclosure in letter from Coll.r Salem 28th Dec.r 1845 & enclosures 5th February 1846.

Auchterlony & Co.s have explained the nature of their speculation very fully in their letter to the Collector of 28th November 1845. They state that they look upon the undertaking very much in the light of an experiment both because the cultivation of Coffee has hitherto scarcely been carried on upon the Shevaroys to such an extent as to afford any test of its ultimate success or where it has been on a larger scale, has proved a lamentable failure and also because the particular land which they have selected is of much greater altitude than any other spot of the Hills where the plant has hitherto been produced. They also explain the mode in which they propose to proceed in the cultivation and shew that local circumstances will prevent them from cultivating the whole quantity applied for and that it will be indispensable to leave a considerable portion of woodland standing both to attract moisture and to serve as a belt or screen to afford shelter to the plants. Messrs. Auchterlony & Co.s express themselves willing to take the lands on the terms offered by Government and approved in the Honorable Court's Dispatch of

From Govt. 8th Con. 23d Oct.r 1846.

of 3d July 1846 - viz.t on a lease of 21 years - free of rent for the first five years - and afterwards liable to the usual land assessment, They will also bind themselves to bring two thirds of the land or Acres 1116 into cultivation within (10) ten years, which considering the difficulties incident to the undertaking is, the Board think, as much as could be expected - They are further, they state making preparation for clearing and planting out 100 Acres of land at the earliest season - The Native inhabitants of the Shevaroys who have been consulted upon the occasion have given their consent in writing to the proposed occupation of the land applied for -

3. Under these circumstances the Board beg to submit the application for the favorable consideration of Government, and to recommend that a lease of the land in question be granted to Messrs. Auchterlony and Co.s for 21 years on the terms above stated, being as already mentioned those offered by Government and approved by the Honorable Court for encouragement of Coffee cultivation. The undertaking in which those Gentlemen have embarked seems

seems likely to benefit the Hills and appears to be in every way deserving of encouragement—

Requesting the Collector of South Arcot to furnish some further information relative to the grant proposed to be Continued in favor of Thatha alias Goolam Mustapha.-

2. The Board observe that neither in the several documents transmitted with the above Communication or in the correspondence therein referred to is there any thing to lead to the conclusion that the original grant was intended to be hereditary- From the terms of the Sunnud granted by Mr. Ravenshaw in the year 1808 to Shaik Dilly the father of the present claimant, it occurs to the Board that the grant was looked upon in the light of a perdonal allowance, the name age and other identifying particulars of the grantee being carefully entered in that document it may also be remarked that this party in common with other individuals whose Claims to allowances Conferred by the former ruling powers were then acknowledged is denominated a "Pensioner" in the old lists and Correspondence a circumstance which would also tend to the Conclusion that the allowance was intended to be Continued as a life and not a Service grant.-

3 The Collector will be so good as to state

state his own opinion on this point for the Board's information, and explain at the same time the exact nature of the ceremony to be performed, whether it is conducted at the tomb of a Mahomedan Saint or of a relation of the original Grantee &c. The Board desire to call the attention of the Collector to the remarks of Government in para 9 of the Extract Minutes of Consultation dated 12th December last which the Subject of Grants for providing for the expenses of Religious Ceremonies of the description contemplated in the Yeomiah under consideration would appear to have been referred to as having no claim to support in perpetuity from the State.-

Sir,

Re-Submitting pay Rolls for administration of the Sequestered Zemindary of Ramnad under a Sub Collector to be nominated by Government in supersession of that throw Manager under the Court of Wards-

I have only just had the honor to receive your letter of the 23d Ultimo returning mine (and its pay rolls) of the 10th Idem, strongly recommending a Sub Collectors establishment for administration of Ramnad in supersession of that of a Manager, as recently under the Court of Wards because I had entered into no explanation regarding the reasons that induced my recommendation and because I had expressed myself in terms that precluded the Boards laying it before Government, and desiring the substitution of another letter confining myself to the above required explanation and abstaining from such observations as

were

In reference to the Board's communication of the 2d. received on the 10th. ultimo, of the Government's approbation of the Sequestration of Ramnad on behalf of the Courts of Law, I beg to forward with the strongest recommendation in my power for its acceptance, proposition with pay rolls, for a Sub-Collectors' Establishment for its administration in Superceession of the Manager under the Court of Wards.-

Sub Collector and Talook Establishment Rs. 3681-14-0

3

When I sequestered the estate, under the Board's orders in November 1842, I had an opportunity to see the large unwieldy and inefficient establishment for its administration- I made great progress in correcting it but was suspended in the following month, and on my restoration to duty after six months continued suspension, I saw how inadequate the Establishment was to my view of its efficiency and brought it to notice without effect- The administration during Wardship has not improved the Zemindary- I think

Fort St. George 2nd April 1840

on the contrary the Estate has deteriorated under it the Board have had before them the report of its settlement for fusly 1253, as also for the preceding years, from which they will be able to judge if my opinion is correct- The report for fusly 1254, to me equally unsatisfactory, is under preparation- I do not think the Estate can improve under the administration as at present constituted.- When it was formerly Sequestered under the like Order of the Civil Courts it was placed under a Sub Collector and their reports may be cited in proof of the advantage of the measure.-

Ordered that the following letter be sent in reply.-

(44-45)

To the Pr. Coll.r of Madura.

To The Principal Collector of Madura.-

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of 2d. March Submitting payrolls of the Establishment proposed to be entertained for the administration of the Zemindary of Ramnad whilst under Sequestration.

2. It would appear to be your impression that the Ramnad Estate during the time that it continues under management by order of Court should be administered as on a former occasion by a Sub Collector for whose Cutcherry you have proposed the List of Servants Contained in Enclosure 1 in your letter at a Monthly Cost of Rupees 781 - The Saloop establishment is to be of the same strength as under the Manager Viz.t 290-11-- Rupees per Mensem - In the Police Establishment you propose an increase above that maintained when the Estate was under Wardship of Rupees 172 - 8 - - in the Marramut, also an increase of Rupees 182 - - - -.

3. The Board regret that they cannot

Ltr. to the Pr. Coll.r of Madura - stating that the Board cannot concur with him in thinking that the administration of the Ramnad Zemindary can require the sole Superintendence of the Sub Collector and that the Board trust that the Pr. Coll.r will be able to superintend its administration in addition to his other duties with an accession to his present Establishment sanctioning the Saloop and Marramut Establishments & authorizing the disbursements to the Servants of their pay from the date of entertainment also requesting him to revise the Ramnad Police establishment as to Superintendence will remain as before with the Magistrate and

and if any larger establishment be required to explain the cause of such increase.-

cannot concur with you in thinking that the administration of the Ramnad Zemindary can require the sole Superintendence of a Sub Collector. They observe that on the previous occasions when Ramnad was placed under a Sub Collector, the Dindigul Sub Division was transferred to the Management of the Principal Collector. Dindigul now forming a separate charge, the Board would hope that you would find no difficulty in Superintending the administration of Ramnad in addition to your other Duties.- Some accession to your present Huzzur Establishment will probably be required, and for this you will be pleased to Submit a separate list.-

4- The Board sanction the Saloop and Marramut Establishments and authorize the Disbursements to the Servants of their pay from the date of entertainment.-

5. The Police Establishment it is remarked exceeds that employed under the late Manager by Rupees 172-8- perhaps because it was framed with a view to the Police being placed under the Special charge of a Joint Magistrate - The Superintendence of the Ramnad Police remaining as before with the Magistrate it is requested that this Establishment may be revised, and as the Police charges are to be borne by

by Government if any larger Establishment be required than has been maintained when the zemindary was under the Court of Wards the causes of such increase should be carefully explained.-

Extract from a General Letter from the Honorable the Court of Directors dated 12th November 1845 No 22

2. Measures for bringing under Cultivation certain waste and Inundated lands reported upon by the Proceedings relative to certain assumed Pollams in Madura report.

3 Approved

4 With your Letter dated the 4th January No 5. 1846 you transmitted to us a Memorial from the Poligar of Karungapoory praying for the restoration of his Estate with the remission of the arrears and on a reduced Peishcush and have informed you in reply (Despatched Dated 30 July No 7. 1845 paras 15 & 17) that we were willing to authorize you to

Extract from the Minutes of Consultation under date the 16th Feby 1846 No 191.

Para 3. A Copy of these Paras will be furnished to the Board of Revenue with instructions to communicate with the Principal Collector of Madura on the subject of the Assumed Pollams of that District for the purpose of giving effect to the views of the Honorable Court conveyed in Paras 6 and 7.

to restore the Estate to the Polygar at the present Peishcush but with the remission of the outstanding arrears, at the same time warning him that any future failure in the punctual discharge of the revenue fixed on the Estates would be followed by his dispossession in due course of law. ——

5. We were indeed to extend this indulgence to the Polygar of Ramnaporay because there was reason to believe that not only the balance for which he was originally dispossessed but the large encreased amount which had accrued under the Management of the officers of Government had been the consequence of the decrease of population occasioned by the fever which raged throughout the Circar in the years 1219. 1220. and 1221 and not of any mismanagement on the part of the Polygar ——

6 We are of course ready to accord the same consideration to the cases of the other Polygars similarly circumstanced but we cannot consent to a reduction of the Peishcush if it should appear to have been fixed at an amount beyond that

the assets of the Estates will enable them to pay as it would be obviously useless to restore the Pollams burdened with an amount of revenue which would necessarily compel them again to fall into arrears. ——

7. We observe that the Collector Mr Blackburne objects to the restoration of any of the Estates to their original proprietors on the ground that their general character is not such as to entitle them to lenity and that the interests of the Ryots will be best consulted by allowing the Management to remain in the hands of Government. Mr Blackburne however admits that the falling off in the assets of the Estates was occasioned not by the maladministration of the Polygars but by physical causes over which they could have had no control and of which it would be inconsistent with our general practice and policy to take advantage and by restoring the Estates to the Polygars it will be competent to the Collector hereafter to enter into any arrangement by which

which he may think requisite for
the preservation and protection of
the interests of the Alienators.

7. Management of the Eastern Revenue of Madura for Fasly 1252 — Ret. Revenue Fasly 1251 Rs 87,770. 1251 - 56,401. 1252 - 56,743.

8. The result as shewn in the margin does not call for particular remark. ——

8. Petition of Palaniandah Pillay complaining of the Tobacco Rents of the Madura Chowkey Farms have been taken from him, rejected.

9. The letter from the Principal Collector of Madura dated the 7th August 1845 which is referred to in the letter from the Acting Secretary to the Board of Revenue of the 6th February 1846 explaining the grounds on which the Petitioners complaints was dismissed cannot be traced on our copy of the Board's proceedings and we are consequently unconformed as to the circumstances of the case. You will furnish us with a copy of the document and any other information connected with it at an early period —

4. The Board of Revenue will be requested in the reference to their Secretary's letter dated 8th July 1844 para 3 to the paragraph

13 & 14. Management of the Eastern Revenues of Tanjore for Fasly 252. Ret. Revenue Fasly 1252 Rs 917716. 1251 - 916114. 1252 - 933949.

12. The Management of these branches of revenue calls for no remarks beyond the expression of our approbation of your resolution to discontinue

6. The attention of the Board of Revenue will be requested to the observations of the Civil Court communicated in para 12

the system of renting the exclusive privilege of selling salt within certain limits. Whatever care the Collector may take to fix the retail price at a suitable amount it must be impossible in many cases to prevent the renter exceeding the prescribed limit and we cannot doubt that the creation of a sub monopoly of this nature must have the effect of enhancing the price of this necessary to the consumer whilst its effects in benefitting the revenues are at the best problematical. — We are surprised to learn that a practice liable to such serious objections should so long have prevailed in this district apparently since 1828 without the sanction or even knowledge of your Government or of the Board of Revenue.

15. An application from Mr Blair of Madura for exemption from duty in favor of Callicoes Carried from Coimbatore to Ceded Districts not complying with the Regulations

16. & 18. Management of the Eastern Revenues of the Northern Circars for 1252. Ret. Revenue Fasly 1251 Rs 1,49,672 1251 - 3,76,674 1252 - 1,47,832

13. No remarks —

14. All the items of Eastern Revenue in this district exhibit a decrease with the exception of salt and the increase under

4. With the exception of the Provinces lately added to Coimbatore the Collectors of Revenue will be requested to furnish information —

8. The Honorable Court will learn from Mr the Revenue Collector's letter Dated 1845 No 6 that it has been left to the judgment of the Collector to fix the retail price of salt according to circumstances

under this head appears to have been occasioned by the Brinjaries having resorted to South Arcot for their supplies in preference to Chingleput in which district a more than corresponding decrease has taken place in the Salt receipts.—

1 Process in perpetuity in continuation of Letter dated 1st February No 11 1845 — 15 No reply.

2 Management of the Custom Revenues of Pondicherry for Fasly 1252 — Cust Revenue Dr 1250 Rs 31657 1251 - 52863 1252 - 830840. — 16 In the report for Fasly 1251 it was explained that the revenue of that year was accidentally swelled by the inclusion under instructions from the Accountant General of the profits on Tobacco supplied to the Malabar Coolies and Tranquebar for the eight years from 1827/8 to 1835/6 amounting to Rs 100676. Deducting that amount the comparison is in favor of the year under review to the extent of Rupees 5268.—

3 Arrangements for collecting the revenue of Chingleput Neighbourhood rendered practicable — 17 Approved.

4 The Tahsildar's Establishment of Chingleput — Salaries to be reduced so as not to exceed Rs 1000 per annum — 18 Very much.

5 Management of the Custom Revenue of Chingleput for Fasly 1252 — Cust Revenue Fasly 1250 Rs 488177 1251 - 611320 1252 - 447752 — 19 The decrease in the revenue of this District occurred in the sales of Salt for Home consumption arising as has already been noticed in para: 14 from the Brinjaries having resorted to the Chingleput pans for their supplies.—

6 Settlement of the Customs for the Pondicherry Territory for Fasly 1251 — 20 This Zemindary was taken under the Collector's Management for arrears of Peishcush, which amounted at the close of Fasly 1251 to the sum of Rupees 176171. In addition however to the debt due to Government there are private debts to the extent of about five and a half lacs of Rupees which have been accumulating for many years and the existence of which has caused the inability of the Zemindar to discharge his Peishcush. There appears however every reason to believe that the Estate under careful management is fully capable of relieving itself from these encumbrances and that an annual surplus of Rs 30000 may be applied to the discharge of public and private debts

liabilities after providing for all the ordinary charges including Peshcush / Rupees 187663 / and an allowance for the Zemindars subsistence. We shall be glad to learn the result of the Collectors efforts to effect a favorable composition with the private creditors -

The suggestion of the Board that the administration of this important estate yield ing an increase of three and a half lacs of Rupees should be specially committed to one of the Collectors Assistants who should pass a considerable portion of his time within its limits is judicious and should be acted on -

21. Management of the Cutch Revenues of both sorts for Fasli 1252 — Nil Revenues Fasli 1251 Rs 324/6952- 1252 - 191011 1252 - 201330. Does not call for remarks —

22. Management of the Cutch Revenues both Land & Sea Customs for Fasli 1252. Nil Revenues Fasli 1251 Rs 336/61 1252 - 144672 The principal increases on the year under review arise under the Head of Salt Duties Rupees 69003 / increase almost entirely by augmentation

sales for export to Calcutta - In the Sayer Revenue there was also an increase of Rupees 22187 and in the Abkary of Rs 57535 arising partly from the circumstance that the shops were closed for several days in the previous year and partly from increased consumption by the troops and their followers, who on their return from the China expedition remained for some time at Madras before being ordered off to the garrisons in the interior —

17. Reward of Rs 40 given to the Individual who by an attempt to ship a quantity of Coast Salt in Casks of the Application -

13. Stamp revenues for Fasli 1252 - - - - Net Revenues Fasli 1251 Rs 1202177 1252 - 412360 -

24. The net revenues of this year exhibit a slight decrease below those of the preceding, arising from casual circumstances, which do not call for observation —

3d Management of the Customs revenues of Canara for Fasli 1252 Net Revenues Fasli 1250 Rs 3993977 - 1251 - 926168 - 1252 - 945638 - Pay 25 March 1824

28. The Board of Revenue in reviewing the Collectors Report have some reference to certain remarks of the Land Customs and frontier duties levied in this Province, there seems every reason to anticipate that the Land & sea Duties will shortly be abandoned, but there would appear

7. The propriety of payments to Individuals in respect of Pensions granted by the Native Powers of India before the Country came under the British Government should be carefully investigated by the Board of Revenue with the Scheme of remodelling the

29. Notwithstanding the confident anticipations of the Board of Revenue, the Haulut duties were not exempted from the operation of Act XII of 1814, and their abolition was determined on by the Government of India contrary to the urgent remonstrances of your Government, and apparently rather from considerations of general policy than with any particular reference to the local circumstances of Canara.

The Haulut duty, although paid by the Merchant, has in fact been always regarded rather as a portion of the Land Revenue and as intended, in some degree to enable Government to share in the advantages possessed by the comparatively lightly assessed garden Lands of the Province for the production of those articles which are subjected to that duty namely Pepper, Betelnut, and Cardamoms. The tax moreover, is stated to have been by no means unpopular in the District, and from the mode in which it was levied, to have been regarded by the ryot as tending rather to protect than injure his interests.

30 There are on general principles great objections to the re-imposition of a Tax which has been abolished, but from the concurrent testimony of the Officers who have been successively engaged in the revenue administration

The tax moreover is stated to have been by no means unpopular in the District, and from the mode in which it was levied, to have been regarded by the ryot as tending rather to protect than injure his interests.

30. There are on general principles great objections to the re-imposition of a Tax which has been abolished, but from the concurrent testimony of the Officers who have been successively engaged in the revenue administration

administration of these Provinces, there seem to be circumstances connected with the question of the abolition of the Moturpha which render it desirable that it should be again brought under the consideration of the Government of India, and we accordingly desire that you will without delay submit a special report on the subject, accompanied by such information as the local Officers may be able to supply to that Government, at the same time furnishing them with a copy of these paragraphs.

32. From the Collector's Report of the 25th April 1846, we learn that the manufacture of earth Salt has been extensively carried on in this District ever since it came into our possession both for home consumption

This practice, although forbidden by the regulations, has been well known to and tacitly permitted by the local Officers and the higher revenue authorities at the Presidency, and under the strong representation made by the Collector of the extreme hardship to the People of the District if it were suddenly put a stop to, we approve of your having withheld your consent to the strict enforcement of the provisions of the law on the subject; we think however that if the practice is to be permitted, it would be desirable to place the manufacture under a more defined system of regulation, and instead of levying Moturpha (now producing about Rs 13000 per annum) on the parties engaged in the Manufacture, to impose a moderate tax proportioned to the quantity manufactured.

In the Fasly under review the actual Collections have amounted to Rupees 36057 and considering that the Estate is represented to be in a very depressed

condition through the maladministration of the Zemindar and that its resources may be much increased by efficient management the results shewn in Mr Stonhouse's Report are satisfactory.-

(Here inter'd March 1846 No 123.)

Para 1— The Most Noble the Governor in Council does not consider it would be proper for the Government to enter upon the defence of the Suit instituted by Chellamba Gounden in the Subordinate Court of Salem upon the grounds brought to notice in the foregoing correspondence. The complainant it would appear stained pattahs annually for the land in dispute, and it is not shown that

that he had done any thing to forfeit the right which he held under those documents — and however unadvisedly these pattahs may have been issued to him — he should not have been forcibly dispossessed of his land — at the same time His Lordship in Council would remark that it would not be right to permit the cultivation of the same, if the Tank, as the Collector represents to be the case, is thereby liable to injury —

2 His Lordship in Council is of opinion that the Collector should have induced the complainant to relinquish the land by offering him other ground and if necessary further compensation for giving it up, and he desires the Board of Revenue will instruct that Officer to adjust the matter according to the foregoing views rather than defend the action before the Court.—

I have the honor to submit the explanation called for in Paras 3-h and 5th of the Extract from the Minutes of Consultation under date the 20th January which accompanied that from the Proceedings of the Board of Revenue dated the 9th February -

2. The Yearly allowances alluded to in Para 3 performed service on different places, Confusion Mahomed V. Bada Mahomed as Peish Kars in the Jaghire etc. etc.

Dasoos

Doowoor and Goolam Inahomed as Hakeel of the Mosque at Cundaccoor Dadamahomed died lately and his division of the Yeomiah was claimed by his son but rejected on the principles expressed by the Board of Revenue in their Communication of the 5th November 1829- tho the share enjoyed by Dauda Inahomed was not made over to Hoosain Inahomed, as perhaps it ought to have been as the performance of the service has fallen to him alone-

3 The services attached to the grants alluded to in Para 1st are Pesh Imam & Inoregam the former: Con-ducts the 5 daily prayers in the Mos-que and the latter calls to prayer and takes care of the lamps- Shahamalee is dead and her Yeomiah transferred to Inahomed Dawood under sanction of Government dated 5th September 1844 and that of Inahomed Cassim has also gone to his son Shaik Inadar as per sanc-tion dated 26th October 1844-

4 Mahomed Ghouse alluded to in Para 5 as in the receipt of 16 Pdts a moiety only of the amount of the full Yeomiah enjoyed by himself and wife

Lall Bee has been in the receipt of the full sum since the death of Lall Bee and the instructions communicated by the Board in their letter of the 5th November 1829 one Moiety under the sanction of Government dated the 3rd January 1823 and the other under the authority conveyed in the letter above alluded to-

Recommending the alteration of the first part of rule 2 and that the waste lands to be allotted for plantations may be allowed free of all demands —

In answer to your Circular letter of the 28th January last on the encouragement of Plantations, I have the honor to state that the Rules proposed by the Board appear to me to be sufficiently liberal for the object in view in any District

District where there is a decided inclination among the people to avail themselves of the encouragement held out, but in Kurnool if I except a few Pathans who have the means as well as the wish to make Gardens, I do not think that at present there is any inclination to incur the expense of planting for the benefit chiefly of future generations - There are several fine old topes in different parts of the Country, but I cannot call to my recollection more than two or three young topes, that is to say, planted within 40 or 50 years - It is to be hoped that in the course of time as the prospects of the people improve, their condition will assimilate more with that of their neighbours in the ceded Districts, but until some such improvement takes place I am very doubtful whether the prospect of any advantages short of such as would entail a certain loss to the Government, would effect the object the Board are desirous of encouraging -

2 As a general Rule, I should be inclined to recommend the alteration of the first part of Rule 3 and allow the waste land to be cultivated free of all demands until the trees become productive

instead of being charged with half the assessment as is proposed -

The Plaintiff sets forth that judgment was passed by 1st Defendant as officer of Police at Palaveram against one Tagaracara Chowry Moottoo for a certain sum of money due to 3rd Defendant as to recover which sum the 2nd Defendant falsely reported to 1st Defendant that her property valued at Rupees 101-15-3. belonged to the said Chowry Moottoo and they accordingly sold it by an auction and that they also detained her 2nd (Plaintiffs) 3 certificates. She prays that the properties in question may be recovered for her.

to her by Plaintiff and Chowry Moottoo with whom she was living - This claim was enquired into and disposed of in conformity with Clause 7 Section XII Regulation V of 1827 and Clause 1 Section XXI Regulation VIII of 1832 the document having been admitted by Plaintiff & Chowry Moottoo.

In her Reply the Plaintiff states that she is not a Military follower according to Section V Regulation VII of 1832 and Clause 7 Section XII Regulation V of 1827.

But the Rejoinder asserts on the Contrary that Chowry Moottoo by whom the Plaintiff was kept was a Military Bazarmian -

In consequence of this Contradiction in the Pleadings the Government Vakeel was questioned under what authority 1st Defendant entertained the action against the Plaintiff and he produced an Extract of the Bazar Register describing the individual as 18-

A doubt caused by the Rejoinder not specifying the same particulars contained in this Extract has been removed by a reference to the original Book of "General Bazar Register" subsequently called for -

As the Plaintiff has brought a false suit by denying herself to be a Military follower whilst her name

was

was actually entered as such in the Public Register Book, and has thereby occasioned unnecessary trouble to the Court as well as to 1st. Defendant the Court deems it proper to dismiss her suit punishing the Plaintiff under Regulation I of 1832.

From the Collr of Chingleput — Para 1 I have the honor to request that you will submit for the consideration of the Board the enclosed transcript of an Extract from the Proceedings of the Civil Court of Chingleput from which the Board will observe that the Court requests that the whole or a portion of the Mootah of Cheyamcherry Calum in this Zillah may be sold by public auction to meet the amount of a Decree (Rupees 1609) and the proceeds remitted to the Court for payment to the Appellant.

2 Beg to state that the Inamdar in question Comprizing 4 Villages and assessed with a Peishcush of Rupees 1565-11-5 was transferred in 1843 by the then Proprietor B. Seetha-rayer Moodely (1st Respondent) to Mr. W. S. Nailer of Madras in whose name it was registered in this office on the 3d October of that year. The Zemindar has failed to pay any portion of the Peishcush for the current year, and the Kists for December and February are thus in arrear, while that of April will also become due before the

Subscribing for the consideration of the Board Copy of an Extract from the Proceedings of the Civil Court of Chingleput directing the Sale of the Chenambercalum Mootah on account of the decree Amount in Appeal Suit No. 20 of 1844 stating the Balance of Government Peishcush due against it and requesting an Authority for its Sale.

the Sale is made. In the event of the Zemindar not discharging this balance (Amounting to Rs. 1379) it will be necessary to recover the Amount from the Sale proceeds, but I fear that the Sale of the entire Mootah will not realize a sum sufficient to meet this demand, and the Amount of the decree.

3 I have therefore thought it expedient to attach at once the entire Mootah placing it under the Superintendence of the Tahsildar so that the Estate may not be subjected to any charge on account of management and I request the authority of the Board for my proceeding to the Sale according to the Advertisement herewith transmitted.

4 As the time allowed by the Court for the Sale of the Inamdar is limited, I beg that I may be favored with early instructions.

Another mode of decision is to adopt the principle of the Mahomedan law of inheritance, but this as well as the former one would produce a result very disproportionate to the number of persons depending on each branch.

4th

As the claims of the family do not rest upon any right, and the Government should only be actuated in granting this pension by consideration of the poverty and distress of the large number of persons dependent upon it, I beg to submit a memorandum dividing the amount of Rupees 1800 in proportion to the number of persons who depend upon the different branches, which I would suggest, should be granted to each of the present heads of the family during life. Ordered that the following letter be sent in reply.

(31-32)

To the Collector in the S.n D.n of Arcot

Stating that the Board are unable to support him with regard to the pension proposed to the family of the late Jaghiredar of Resh: vendrum to the extent suggested in his letter of the 6th March last. and requesting him to state if there are any members of the family who by reason of age or other causes are unable to maintain themselves and of the degree of relief to be granted for their support

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 6th March last furnishing further explanation in regard to the manner in which you would propose to distribute the Pension which you recommend should be granted to the family of the late Jaghiredar of Reshi vendrum.

2. In reply I am instructed to inform you that on a further review of all the circumstances connected with this subject the Board observe that the parties stated to have been dependent on the late Jaghiredar are in number 204. The total sum which you propose to divide among them annually is Rupees 1,600, being less than 8 Rupees each it is clear that this would be insufficient for their maintenance, and that they must therefore have some other means of subsistence. It further seems that this sum is nearly equal to

to the average annual proceeds of the Jaghire for the last five Fuslies. To grant it therefore would be in effect to continue the Jaghire itself for some years to come. whereas that grant was for its terms a life Grant only and terminable at the death of the parties on whom it was conferred in 1804. The Board therefore regret that they cannot support your proposal to its present extent but should there be any members of the Reshvendrum family, who by reason of age, infirmity or other causes are unable to maintain themselves, who are totally destitute, and have no persons to whom they can look for support, you will be pleased to bring such cases with explanation of all circumstances connected with them and of the degree of relief required, to the notice of the Board, who will submit them for the favorable consideration of Government. You will however understand that the relief proposed to be granted should be confined within the narrowest limits and should be restricted to such parties only who are bona fide objects of charity.

Sir,

I am directed by the Board of Revenue to request that you will submit to the Most Noble the Governor in Council the accompanying letter from the Collector of Tanjore soliciting sanction to disburse to Goondapah the Head Sheristadar of that District increased pay at the rate of 125 Pagodas per Mensem from the 1st of May 1845 the date on which he became entitled to draw the augmented salary agreeably to the provisions of the modified rules sanctioned by government on the 12th October 1827.—

of May last Goondapah, had completed the term of six years in the capacity of Head Sherestadar, having previously served 12 years in the subordinate grades of Naib and Division Sherestadar, making a total aggregate period of 18 years service, and had consequently under the existed modified rules become entitled to the salary of a Head Sheristadar of 10 years standing, Viz. 125 Pagodas per Mensem. The Board beg to recommend that the Collector may be authorized to disburse to him that amount Monthly and in arrears from the 1st of

3. Adverting to the remarks of the Collector contained in the concluding portion of his letter, suggesting that certain advantages which were shown to the late Head Sherestadar of Tanjore should be also extended to the present incumbent it may be observed that a deviation from the established rules of the service was recommended in that instance because it was the opinion of the Board that the minimum allowance of 80 Pagodas which that officer was by the rules entitled to receive, was an insufficient allowance for the Head Sherestadar of Tanjore "as the responsibility of his office" they observed "was peculiarly great and "he was exposed to more than ordinary temptations "especially in the then unsettled state of the land Revenue" and he was accordingly with the sanction of Government

considered to be on the footing of a Sherestadar of 10 years standing with a salary of 125 Pagodas a Month or in other words was advanced to the position corresponding as regards advantages with that now regularly attained to in the course of service by Goondapah.

4. The circumstances of the two cases would therefore not appear altogether analogous and altho' the Board are fully aware of the responsibility and arduousness of the duties devolving upon the Head Sheristadar of Tanjore which they are happy to observe are so efficiently performed by Goondapah, they do not feel at liberty to recommend a deviation from the Regulations of the service in his favour under existing circumstances.

Sir,

From the Collector of Trichinopoly

No 34 of 1846 Returned

Para 1. In reply to your letter of the 5th Instant desiring me to report on a Petition presented by Monikem Chetty I have the honor to state that

Fort St. George 6th April 1846

that so long ago as fasly 1247 A.D. 1837/38 the lands of the Village in which the Pagoda in question is situated were measured and Cawnies 53 1/16 being found according to the measurement to be in the posession of the Pagoda over and above the Pagoda Enam the teerwah on that extent of land amounting to Rupees 2-5-7½ annually was demanded up to the year fasly 1253 A.D. 1843/44 when as it clearly appeared that nothing more than the proper extent of the Enam was in posession of the Pagoda the demand was discontinued.—

2. The Petitioner seeks to recover the sums which were collected from fasly 1247 A.D. 1837/38 to fasly 1263 A.D. 1843/44 amounting altogether to Rupees 16-7-4 and I see no sufficient reason for complying with his request.—

/Signed/ A. P. Onslow
Collector—

Ordered that the foregoing letter be submitted with the following address.—

To
The Chief Secretary to
Government.—

Sir

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Trichinopoly under date the 10th Ultimo reporting on a Petition

39-40

To the Chief Secy. to Government—

10th March in Cons 6th April 1846—
88.—

Fort St. George 6th April 1846—

one Manikum Chitty of Woodiarpolliem in his District, in which that individual complains that the Collections of certain Pagoda land have been improperly carried to the credit of Government—

From the above letter it will be seen that an excess Teerwah of Rupees 2-5-7½ was levied upon the Enam lands attached to the Pagoda for 7 years or from Fasly 1247 A.D. 1837/38 to Fasly 1253 A.D. 1843/44 and carried to the account of Government—It is this sum amounting to Rupees 16-7-4½ for the above period that the Petitioner now claims.—

2 The Board differ from the Collector and consider the party justly entitled to this sum in as much as it appears to have been improperly collected under the idea that the land in posession of the Pagoda was in excess of the proper quantity—an idea subsequently found to be erroneous—They therefore beg to recommend that the Collector may be authorized to return to Manikum the amount unduly collected being as already stated Rupees 16-7-4½.—

I have the honor to forward two series of correspondence with the Sub Collector regarding insinuated malversation in the time of his Predecessor in Nellacotay and suspicion of appropriation of Government lands by the proprietor of Yerraseeka Pakhoor in Shenkurray, in further proof of his persevering procrastination, and the vexatiously unsatisfactory nature of his communications that serve only to waste my time.—

2. Within the last few days I have received also a letter, with Journal correspondence with his Tahsildars, and an English abstract of it on the Engineer's diary Complaints of June, July, August and September last, whilst those for the last 6 Months remain unnoticed, as report at last, and in that unfinished, unsettled form, that would require orders from myself in most cases and not a single opinion offered by him,

Sir,

1. With reference to the subject of the Codavenaur Bridges on which a report might still be expected from me in conformity with your letter of the 2nd of May last relative to the inspection of certain Maramut accounts sent for by me from the Talook, and which

Fort St George 6th April 1845.

which matter still forms one on the list of unanswered communications. I have the honor to state that there does not appear to be any necessity for any further investigation on my part as both Bridges have long since been fully reported on in the several Diaries of the Civil Engineer, and have of themselves stood the force of freshes without any material damage.

2. On a Statement being made in the Cutcherry by one Soobbammaul of Dindigul on the 29th of January 1845. a deposition was taken from her wherein she stated to the effect that for the Paraputty Codaveraur Bridge the 1st Estimate was 6000 Rupees and for which sanction was duly given: but being destroyed or seriously damaged by a fresh 5000 Rupees were requested for its reconstruction and granted. that after 4 months the said Bridge was again destroyed and the Civil Engineer made remarks on the same in his Diary: that the matter was referred to the Sub Collector who sent the Sheristadar attached to his Cutchery Venkata Row to examine the same: and he made a report corresponding with the Jaghiredars.

that

Fort St George 6th April 1845.

that nothing approaching to the Estimate had been expended on the work and that if I would send for the accounts in the Talook the subject would be properly understood.

3. Although the deponent was totally unprepared with any dates it appeared that the matters alluded to chiefly occurred before my arrival and therefore for hopes not necessary for me to enter upon such a subject upon such a Statement. still, I deemed a look into the Talook accounts perfectly unexceptionable and sent for them on the Jaghiredar to send up and send me all the Paramaut accounts from 1839 to the present time. On the 2d of February however he addressed an Arzy to know what accounts were required. As I had stated all the Paramaut accounts there certainly did not appear any occasion to ask such a question. In my reply of the 5th I reminded him of this and stated that such useless delay in forwarding the accounts was far from allaying any suspicions I might have entertained touching their correctness. I therefore repeated my orders for all the Paramaut accounts during the said period which

were

were reported on the 7th to have been despatched according to orders which however was found not to be the case.

4. On the 3d of the same month February, one of the Bricklayers Say pundaram Kattan presented a Petition (No 209) stating that Rupees 89—11—4 were still due to him and others but refused by the Tahsildar. On the 10th of the same month also one Mattoosamy Guruva Boyen complained that Rupees 140 were due to him for stone work and 50 for Chunam &c. Total 190. which he could not get from the Tahsildar.

5. Amongst the accounts sent those most required were not to be found and the Maramat Coomastah was consequently sent for to explain, he arrived on the 5th of April and deposed that it was true 137 Rupees were still due to the workmen which would be settled when certain over-advances had been recovered. That 64 Rupees were due to the Carpenter by 2 persons, one of whom was the Pandaratty Natamagar Symandy. He also allowed that the Chief Maramat accounts viz those showing the Estimate measurements, advances for and receipt of material, and daily Coolly hire were still

in the Taloock Cutcherry and were contained in two packets which should be sent for. In some of the accounts were figures and Memoranda which were not free from suspicion, but the Coomastah stated he had made some Maramat reckoning thereon not having sufficient paper. The missing accounts were sent for, but although they were not regular or correct, nothing was elicited therefrom. Depositions were taken from those to whom Money was due the accounts were returned, and the examinations despatched.

The accounts in the possession of the Cunnum of Anaputty having reference to the Coduvenaur Bridge at that place were sent for on the 19th of April and the Cunnum deposed on the 21st that for the 3 Arched Bridge, the Cattoor Channel, the Mango grove Channel Sluice, road earth and gravel work, he had received Rupees 2862—0—8 from the Taloock, for all which he had accounts. On examining them however it appeared he had received of the above sum Rupees 1501—0—8 from the month of April to the 22d of December 1845. and that for Rupees 70 there was no entry for the persons receiving the same, whilst for the rest

there

Fort St George 6th April 1846

there was no explanation from January to May 1842 it appeared he received the remainder of the money, but for Rupees 570 10 8 there was no entry of the persons receiving it or purposes for which the money was given. In like manner in the accounts from June to August a similar omission of particulars occurs for Rupees 152 15 9 one entry was for Rupees 210 to the Hangany Maistry Vencatasawmy Pack as Salary according to the orders of Govt for Rupees 70 but no particulars of work persons or dates. In July 1842 a similar entry is made for the same purpose to the amount of Rupees 82 10 9 with the same omissions, and another for earth work to the amount of Rupees 40 without names dates or specification of work. The total of receipt during 1842 is first drawn at Rupees 428 2 9 four which (including the above) he formally acknowledged having no accounts of particulars, and certainly the accounts as produced were rather extraordinary He stated that they were written as

Fort St George 6th April 1846

dictated by the Satanagar who declared he had no other accounts

The said Bridges having been duly reported on by the proper authorities as above stated and the workmen having no further complaints to make it is doubtful whether any advantage is to be gained by any further examination into the matter. The accounts themselves are with the several parties from whom they were received

To The Principal Collector of Madura

Sir,

I have the honor to acknowledge the receipt of your letter of the 21st Instant in reply to mine of the 17th Inst on the subject of the two Coderenaur Bridges and to state that my letter was not intended to convey suspicions of mal-practices as against any individual. I have not even investigated in any case nor did I consider it necessary to do so certain Petitioners appeared before me at different times and took depositions from 2 of them at Jivanseruigoo, when I also inspected the Bridge - Others I appointed to meet me on the following day at the Cutcherry, but they did not appear, from which I naturally concluded they had been perfectly satisfied, as the late Maramut Goomastah had given me to understand they would be. The last depositions were taken on the 28th of April 1839 so that the examination was not continued after that or any deposition taken for the last 10 months. Your letter did not seem to require any special Report but having been entered amongst the list of unanswered communications, I drew up a review of what had at the time occurred. I have not any of the correspondence before me but from memory beg to state that on the Tahsildar of Nellacottah's drawing an Arzy to you mentioning that I had certain accounts

5173. Fort St. George, 6th April, 1840.

accounts, a letter was written to me to know what I required them for, and in reply to my answer believe, I was requested to submit any decision I might pass thereon before carrying it into execution. I have not however as above stated, made any investigation beyond calling on the Village Officers for their accounts particulars, which they showed they did not possess and I have not therefore passed any decision. I did not deem the Village Officers want of accounts any more satisfactory than the demur of the Tahsildar to send me the Jabook Accounts and keeping back others, or the Statement of want of paper by the late Goomastah. But I saw no sufficient reason to believe the money had been misspent or any proof of malversation on the part of any one, and therefore took no deposition from the Tahsildar and others who might be looked upon as responsible. In conformity however with the directions contained in your letter under reply I shall proceed to Nellacottah and commence an investigation into the subject of each of the said Bridges but it will not be in my power to do so before the 15th or 20th of March as I expect it will take me till that date to submit any report to you on the Mootah of Colemandy where I have been above a month obtaining all the information possible, and my Shirastadar is at present sick. I do not believe however the examination would take me more than 20 days from the day of my reaching the Spot.

Fort St. George 6th April 1846

of the same Month by letters No 277 and 278— The subject of the former Viz.t the nearly constructed bank in Periapoodiampitty in the Zemindary of yerrasekkanaiknoor" was directed to be stopped and inspected by me and with regard to the latter it was directed that the asserted appropriation of Government land by the Zemindar of yerrasekkanaiknoor may be inquired into by the Tahsildar of Tenkarray" When therefore the examination was so pointedly taken off my hands, and given to the Tahsildar when too I was about to visit the spot in person according to your expectation, it is at least very extreme to consider that the case was before me or under my consideration—

4— The case as far as the Tahsildar had been able or willing to proceed, was received by me on the 28th of November last, and sent to the Sheristadar for any further information he could afford. On the 30th of December, I directed the Tahseldar to report whether any decision had ever been passed upon similar petitions of late lands being appropriated by the Zemindars of Tengaray on the 22d of January his answer was received accompanied by Sakeeds from which it was perceived that such orders had been issued. The Sheristadar returned the bundle in the case to the Revenue Jawabnaveese on the 2d of February with a memorandum containing letters

* 22d June No 484

* 29th June No 483

neither date nor subject upon which a takeed was issued on the 2nd Idem to him in future to send such documents in a proper manner, and on the 24th of February the case was reported to you mentioning that the signature of the Principal Collector was attached to a former decision on matters connected with the stated appropriation, and therefore if it were desired to renew the enquiry it would be requisite to have the fysul Cooloogoo accounts of the Zemindary of Yerrasekkanaicknoor.

5.— Under the circumstances above stated it would not probably be proper in me to trouble you with any opinion of my own. The case which has been specially taken off my hands, appears to have been disposed of by competent authority ten years back, and such appearing on the face of the Documents would alone be sufficient to deter me from any further investigation without the special permission of higher authority on the receipt of which I should be most willing either to examine the case myself or refer it to the Tahsildar as before instructed.—

Proceedings thereon— Para 1 The first of the cases above referred to relates to two bridges in the Nellacottah Talook

Informing the Rent Collr of Madura that the Board see no reason why either of the cases referred to in his letter of the 6th March last should have been brought before them as there seems nothing in which the Prin. Colle might not have passed his own orders, or on which a reference to this office was necessary and desiring that they may not be appealed to in cases of this nature for the future also expressing regret at the tone in which he has permitted himself to address his Sub Collector

Sent Sub Collr 24th April 1846

Talook built some years ago, in the construction of which frauds were alleged to have taken place. Some of the workmen assert that they have not yet been paid in full and their statements seem to be admitted by the Maramat that Goomastah nevertheless the Sub Collector states that he "saw no reason to believe the money has been misspent nor any proof of malversation." He has been directed to make further investigation in the Talook and to report the result to the Principal Collector which he should do without delay and the Principal Collector will then pass such final orders as may seem called for.—

2. The second case refers to the alleged appropriation of some Circar land by the Zemindar of Yerrasekkanaicknoor. It seems that the Zemindar has been proved to be in possession of 1275-12 Goontahs more than he should have had but it at the same time appeared that the case or one similar to it had already been decided. The Sub Collector therefore applied to the Principal Collector for instructions whether he should proceed with the enquiry and if so requested that the Fysul Colungoo accounts of the Zemindary might be furnished him. In answer the Principal Collector does not state whether he wishes the investigation to

to be continued but expresses his readiness to supply any accounts that might be required and adds that mean while he purposes to submit the Sub Collectors letter to the Board of Revenue as another instance of his procrastination and of the confused nature of his communication. "The Principal Collector has accordingly submitted it and without allowing Mr Elliot time to offer any further observation. The Sub Collector has since addressed a second letter to the Principal Collector in explanation of his first which has also been forwarded to this Office.

3.— The Board can perceive no reason whatever why either of the cases above briefly noticed should have been brought before them. There may have been some delay; Mr Elliot seems to have detained the Marraimut accounts longer than necessary; and his communications may perhaps be wanting in clearness and precision but there seems nothing on which the Principal Collector might not have passed his own orders or on which a reference to this office was necessary and the Board desire they may not be appealed to in cases of this nature for the future. They cannot also but express their regret at the tone in which Mr Blackburne has permitted himself to address his Sub Collector a tone likely

I have the honor to report upon Petition No. 119 of 1846 which accompanied your letter

Brought to Cons.s

letter of the 22nd Ultimo as follows.—

The Tahsildar of Sangaucherry reported that many of the Ryots of the Village in which the Petitioners are Curnums, presented Complaints to him—that the Petitioners defrauded and appropriated to themselves Rupees 164—3-8 and that on his investi=-gation the same was proved. The Ryots and Petition=ers were sent for and examined a 2nd time at the Huzzoor when the amount was fully proved against them with the exception of Rupees 17-6-9. The Petitioners have decreased Rupees 91—-1 in favour of certain Ryots and others, and made a corresponding increase in the balances of other Pullies Rupees 54—4-9 have been deducted from the Railwarees on account of Cavel fees and Coltoo in excess of the amount usually deducted; they defrauded the Circar of Rupees 55—12-9. and the Ryots of Rupees 91—-1—6 and in order to prevent this fraud being discovered, it appears—they interlined some parts of the accounts and tore up others—The Petitioners have also on a former occasion been fined 20 Rupees each for not having entered in the cultivation account of Fusly 1253 lands that were actually cultivated with other frauds.—

I have the honor to submit translation of an Arzee received from the Manager of the Yilloorvaday Estate now under the cognizance of the Court of Wards, requesting as per account forwarded by him, the grant of Rupees 2,049-8— for the marriage of the Minor Zemindar who is 14 years old. The said account has been checked in this Office, and it is considered that Rupees 1500 will be sufficient to render the ceremony creditable

creditable to the family of the Zemindar.—

The amount sanctioned in 1829 for the marriage of the Father of the present Minor was only 500 chks or Rupees 1,060-9-8 but in that instance the bride was of a family lower in rank than his own, while in the present case the marriage is to take place between families of equal rank. The escpence will likewise be increased by the marriage taking place out of the Zemindary as detailed in the accompanying translation of the application.— Under these circumstances I beg leave to solicit the sanction of the Court to disburse the sum of Rupees 1,500 from the surplus Collections now in Deposit in favour of the Estate amounting to Rupees 10,500.—

in marriage, but the Girls there being either very young, or too old to be a good match for the Minor, she informed me that Thallapa Naicken the Zemindar of Thallapa naickenoor 10 miles distant from this, and situated in the limits of the Madura Zillah is her relation; that when the Father of the Minor was alive, he intended to take a girl in marriage for his son from that family; that the one she intends to take in marriage has parents, and that they are persons of wealth; that the daughter of the Zemindar Pullamahl the proposed Bride is handsome that they have seen her, that the horoscopes of them both admit of their union, that the proposed Bride is 11 years old. that they are all willing to receive the girl in marriage, and requested me to bring the circumstance to your Honors notice and get the marriage performed I asked the minor about this and he is also of the same opinion. Upon this we got Thallapa Naicken to come here, and on asking him in the presence of the Rawny Chukrummal, and the Minor, he consented to give his daughter in marriage but when we told him we could make the necessary preparations for the marriage in this Zemindary he refused it stating that the marriage should be performed in his own Zemindary.

Translation of an Urzee respectfully addressed to E.B. Thomas Esqre Collector of Tinnevelly by Soobramoneya Pillay Manager of Yalowaday.—

The Rawny Chuckummal has acquired in one or two Poliapute for a girl to settle her son (the Minor Yarra Chinnama Naicken)

Fort St George 6th April 1846

in marriage, but the Girls there being either very young, or too old to be a good match for the Minor, she informed me that Thottapa Naicken the Zemindar of Thottapanaickenoor 10 miles distant from this, and situated in the limits of the Madura Zillah is her relation; that when the Father of the Minor was alive, he intended to take a girl in marriage for his son from that family; that the one she intends to take in marriage has parents, and that they are persons of wealth; that the daughter of the Zemindar Nattamahl the proposed Bride is handsome that they have seen her; that the horoscopes of them both admit of their union; that the proposed Bride is 11 years old that they are all willing to receive the girl in marriage, and requested me to bring the circumstance to your Honors notice and get the marriage performed I asked the minor about this and he is also of the same opinion. Upon this we got Thottapa Naicken to come here, and on asking him in the presence of the Rawny Chuckummal and the Minor, he consented to give his daughter in marriage but when we told him we could make the necessary preparations for the marriage in this Zemindary he refused it stating that the marriage should be performed in his own Zemindary.

Accordingly if the marriage is to be performed

performed there, the charges for the Bride and Bridegroom being sent for here, after marriage and for making procession and Bridegrooms invitation as well as for going and coming from that place would amount to a much larger sum. On our asking the Zemindar to bear any portion of the expence, he said he would not send the Bride to be married here and that according to the Custom prevailing among the Poliapets he will make such expenses as are necessary; and that the charges for marriage and Bridegroom invitation should be borne by the Minor and that the Bride should be brought from that Zemindary. Rawny Chuckunmal also concurs with the opinion of the Zemindar abovementioned.

On a consideration of the above circumstances, all their Statements seem to be correct and proper. Besides, the Minor is 11 years old and it was fit time for him to be married, and in performing the marriage as double expence will be incurred, both there and here I have framed a proper Estimate for the charges amounting to Rupees 2000 and which is herein enclosed signed by the Rawny Chuckunmal. On such occasions if the Zemindar was alive the marriage would be performed with great pomp but in preparing this Estimate the charges have been confined to the most proper and necessary and as the marriage is intended to

be performed in the month of Chittery, and as all things should be got ready by that time I most submissively beg to receive Orders for the Amount in question.

Sir

From the Collector of Madras

I have the honor to bring to the notice of the Board of Revenue that, under circumstances similar to those brought to their notice in my letter under date the 22d October last, No 80 much difficulty was experienced by this Office in procuring Six more Casks required for the use of the Albany Department which induced me to request the Commissary General to furnish me with the whole number

or

or with as many as he could conveniently spare for the present, pending an application to the Board for the necessary sanction. I have just heard, in reply that the Commissariat Department would supply the Six Casks to any person I might depute to receive them. I beg leave therefore, to submit the enclosed Indent for the purpose of being passed in the usual manner.

That your Memorialists having on
the Wilful Injustice and Glaring Partiality of the
Collector in the said Zillah exercised by the misrepre-
sentation of his under Officers applied to Government
of

of Madras, for interference and justice, as also
applied to the Governor General of India,
and as Doors of justice were shut by the both
authorities your memorialists were necessitated —
to solicit the interference of your Honorable
Directors, on the Wilful injustice practised, and
still practising, against all the prospect of your
memorialists, and his justice are delayed, your
memorialists again repeat the same briefly, with
full hopes, that the Interference of your —
Honorable Court will set aside all their attempts
and Keep your memorialists in rest and quietness. -

That your memorialists having on
the 9th October, 13th November and 30th December 1843
Petitioned your Honorable Court, and in full length
complained the wilful injustice done and practised towards —
your memorialists by the Collector of the said Zillah,
and did also therein, and thereby, pointed out to your
Honorable Court, the loss, hardships and difficulties
your memorialists with Family and children endured
and for reason of been disappointed, with the
expected relief. Your memorialists again repeated
a Duplicate, and enclosed Documents to satisfy
your Honorable Court, the Justness of your
memorialists claim, and the unjustifiable act
of the said Collector, namely your memorialists
in general are Weavers, from raising generation

Sir,

With reference to Extract Minutes of Consultation No 1855, dated 21st November 1842

I have

"I must now bring to the notice of the
"Major General Commanding the Divi-
"sion another point connected with the Dis-
"sipation of the men which is absolutely necessary
"should be attended to. I allude to the great
"number of illicit shops in Vizagapatam where
"Spurious Liquors of the worst description
"are sold to them, many communications

"and the Collectors, and the subject has
"been mooted again lately but with
"little success agreeable to G.O. 13th
"September 1831, the Staff Officer of this
"Station has vested in him Public authority
"for four miles round Vizagapatam, but no
"means are placed at his disposal, and
"without a Police Force he can do nothing;
"I would therefore suggest, that as the magis-
"trate is so frequently absent on duty in
"the District that full power, with the means
"be placed at the disposal of the Staff Officer

Read the following Extract from the Proceedings of the Board of Revenue—

Relative to the Settlement of the Land Revenue in the District of Bellary for Fasly 1254 A.D. 1844-45 (Received 26th February 1846. N: 105)

Para 1. The Season of Fasly 1254 in the District of Bellary appears from the Report

Fort St. George 9th April 1846.

Report of the Collector to have been unfavorable and to have affected both Cultivation and Crops. It was moreover unhealthy—Cholera and fever were prevalent, and the Mortality in human life and in the agricultural Stock of the District was great, while prices from their lowness added to the distress of the ryots.

2 The extent of land included in the Pattahs of the ryots fell short of fusly 1253 in acres 26632, while in that actually sown the deficiency amounted to 42,745 acres of this 22,854 acres were in dry lands. 1749 — " Wet D. — 2142 — " — in Pallahs and wells. The assessment upon this deficiency amounted to Rupees 2,12,315. of which the larger portion Viz. Rupees 158,642, was from its higher value on the wet lands.

	Fusly 1253 acre	1254 acre
Included in Pattahs	21,32,677	21,06,045
Deduct Waste	3,43,596	3,59,709
Remainder Sown	17,89,081	17,46,336
Less	"	42,745

3. The Net Settlement of the Land Revenue for Fusly 1254 Amounted to Rupees 2,23,744 exhibiting on a comparison with fusly 1253 a decrease of Rupees 15,9,994, which is stated to have arisen entirely from the season. Of the above demand — " Rupees

fusly 1253 2,23,744-0-0
1254 2,23,744-0-0
Less 15,994-0-0

Fort St. George 9th April 1846.

Rupees 2,10,182 were collected within the Fusly, and the balance of Rupees 23,607 outstanding at its close has been reduced by subsequent Collection to Rupees 8,586 to the end of September 1845.

4 The Most Noble the Governor in Council sees nothing to add to the observations recorded by the Board of Revenue on their review of the Collector's report, beyond the request for information as to the practice of the District in the disposal of Enam lands which have been deserted under various circumstances, and to which allusion of the Local Officers has been called in the 9th paragraph.

5. The promised report on the outstanding balances for fusly 1253 the Board will be pleased to request the Collector to submit without loss of time, and also direct his attention to the repeated calls of Government that a similar report should be furnished as soon after the close of each fusly as practicable.

late Proprietor, but it does not appear
at what period or under what authority the
Petitioner succeeded to it. It is clear
however from the circumstance of the Enam
having been mortgaged for a period ex-
ceeding twenty years, that the Original
purpose of the grant has been com-

the Governor in Council is therefore of opinion
that instead of permitting the Petitioner
to sue for its recovery in the Courts
the land should be forthwith resumed
and incorporated with the Government

Sir,

Correcting and explaining a discrepancy in reports of 13.th October and 17.th December regarding a Brummadayem or Chattrum Mauniem in Cunnoodayempully in Moorangapory Taluk.

17.th December 1845.

1. In reply to the Board's Proceedings of the 26.th January calling for further explanation on the claim of Ramiah to certain Buttawurthe, or family Mauniem land in Cunnoodayempully in Moorangapory, I have the honor to inform you that there Neither is, nor ever has been, a Choultry, or any similar institution, either in or near the Village in which the Mauniem is situated; and, as shewn in Para 4 of my letter under reference, the land in question is uniformly entered as "Vencatasoobiahs Chultrum Mauniem" in the three different accounts named; Yet due weight was given to the Tahsildars' proposed correction of

supposed error supported by the testimony
shewn in Para 2 of the same letter.
In the 4.th para of that letter
2 I accounted for my error in having stated
in my letter of the 13.th October preceding,
that the land in question was situated in
Cupuempatty, and the error in the name
of the Village seems to have entailed my
erroneous report of its being entered as
Brummadayem.
The three accounts merit cre-
3 dence; but doubts are thrown on them
by the evidence taken by the Thasildar and
-ded to the long uninterrupted possession by
the Petitioner.-

Proceedings thereon.-

(22-23)

From the above letter it appears that the Mauniem therein referred to is entered in all the accounts as Chettrum Mauniem but at the same time it seems that neither in the Village in which the Mauniem is situated, nor in its vicinity is there or, as far as can be ascertained, has there ever been any Choultry in endowment of which the Mauniem may be supposed to have been granted. Adverting to

5235 Fort St. George 9th April 1846.

to this fact, to the result of the enquiry made by Mr. Principal Collector Vincash in 1832. and to the circumstance of the Maniem having been enjoyed as Brummadayem by the Petitioners father and himself uninterruptedly from Fusly 1213 to 1251 or for 28 years. the Board are of opinion that it may be released from attachment and made over to the Petitioner for his life.—

But I deprecate the sequestration as I am not aware of any new circumstance having arisen that were not fully before the superior authorities when the abandonment of it to the present proprietor was ordered, and effected, further than renewed institution of the suit by Anga Moottoo Satchyar and because I think all lands suffer greatly under every change of administration. The instalments for the current year have all been duly paid; and I do not doubt those that remain will be similarly duly paid; but if the Estate be sequestered it is scarcely to be expected they will be realized till the following year.—

Read again Petition presented by Vakeel

Vakeel Annasastry in M. E. A. No. 557 of 1845 on behalf of the Ranee Ungamoottoo Nauchiar Pauper Plaintiff in O. S. No. 2 of 1845 on the file of this Court.—

This Petition is presented by the Vakeel for the Pauper Plaintiff in O. S. No. 2 of 1845, praying the Court to order the Zemindary of Shevagungah which is at issue in that Suit to be attached. On the grounds that altho' the Decree given by the Privy Council in special appeal was against his client, this Decree was founded on an informality in the proceedings before the Appellate Court and that the Privy Council by allowing the Petitioners client three years time to file a fresh suit clearly implied that her claim was good.—

2 That the Sudr Court in appeal had passed a Decree in her favour and.—

3d That the Zemindary having been formerly attached by orda of the Sudr Court no possible objection can exist to its being again attached.—

In their Proceedings under date the 29th June 1840, authenticated Copy of which is in the Court records, the Sudr Adalut observe "that in this case it would appear more conformable to the spirit of the

the Regulations as being more likely to secure to the party who may be ultimately successful the fair profits of the Estate during the time the case may be depending that the Zemindary should be held in attachment by the Collector during the litigation of the suit than that it should be left to the Management of either of the litigants under the most respectable security to be obtained."—

A fresh suit for the Zemindary having been instituted by the Petitioners Client and admitted by the Court under date 20th August 1845. the right of succession is as far from being adjudicated as ever as it was all the reasoning therefore that induced the attachment in the former suit would appear to be equally applicable in the present suit. If the present claimant should eventually be successful she will have suffered grievous injury not only from the opposite party having been empowered to dissipate the wealth of the Estate but also because these very revenues will have supplied him with funds to oppose her claim and procrastinate the suit she being kept without funds and reduced to abject poverty.—

It-

a Counter Petition may be presented on behalf of his client.—

4 On a perusal of these Petitions and of those enclosures the Court sees no grounds whatever for their interference at the present stage of the Proceedings.—

5.—It is open to the lower Courts to admit or reject suits preferred in Formâ pauperâ on their own decision is declared by the Regulations to be final.

6.— It is admitted that Ungamoottoo Nachear has been authorized by the appeal decree of her Majesty in Council to institute another Suit for the recovery of the Shevagunga Zemindary and it is for the Court to be understood and that of the Decree convey no specific instructions or lay down no precise grounds that Nachear must proceed upon such grounds as may appear applicable and appropriate and the legality of her Proceedings will be judged of when the suit shall have been brought to a decision.—

7.— Adverting to the objections raised by the Petitioner to be unauthenticated copy of the Council reported which has been presented to the Acting Civil Judge, the Court observe that it is for him to prove his assertion and to bring all the circumstances connected with under consideration of the Tribunal which is to try the suit.—

Meantime, Ungamoothoo Nauchear my enemy, has instituted a groundless suit against me in the Civil Court, to which I attached no importance in trust of its being disposed of according to justice, but = another circumstance still more serious = attracts my attention an European Gentleman with

with confirmed animosity often threatens my ruin unless I pay him a large sum of money. He sent for my Samoogum Peishkur and per= =sonally as well as thro' medium of another gentleman, not only threatened to have him committed to the Criminal Court but actually used his best exertions to subject him to that disgrace from which he was however delivered by the grace of God and your impartial justice. —

Want of success induced that Gentleman to renew his endeavours to bring my Zemindary under sequestration thro' the Civil Court and he has employed himself in this undertaking during the last 6 Months but Mr Dowdeswell, who lately presided as Judge of this Zillah rejected a Petition from the above Nauckear for sequestration which order was subsequently verbally confirmed by Mr Hooper. It was also verbally confirmed by the present Judge Mr Greenway more than once in open Court but prevailed upon by the endeavours of the above inimical gentleman, my servants inform me, that the Judge has not only written to the Sudr Court to place my Zemindary

under attachment but declared that he will cause effect to be given thereto in anticipation of their order, a circumstance attributable to my bad time. —

Since hearing the above I am stunged in the deepest sorrow. The suit instituted against me is in self groundless and unworthy of admission; and the Judge has been furnished with an Extract of the proceedings of the Sudr Udalut of the 8th December 1843 for his consideration I beg to submit copy of the above furnished me by my Vakeel for your Consideration and perusal. —

The suit itself is not only unfounded and unworthy of the Courts file but the attachment sought having been refused as well by two former as by this present Judges, it may be fairly concluded that the deviation from his own previously expressed sentiments was the result of the endeavours of my enemies. —

I beg of you to consider if in your opinion such an order is justifiable and good without the previous orders of the Sudr Udalut or without even demanding security from me. ——

I

Fort St George 9th April 1846

I further beg of you to consider if there is any fear of my selling away the Zemindary or if I have mortgaged it to any one, in which case alone recourse should be had to attachment. Is it fit that an unjust order like this should be given and a respectable Zemindar as I am subjected to mortification and disgrace whatever my rank of life as a Zemindar may be yet I am only a native of this part of India, and it would not be difficult, to defend myself against controversies and persecution of enemies if they were only natives. But no assertion against the determined persecution of an European Gentleman can avail on any thing because of my inability to pay him 2 Lacs of Rupees and from which nothing but your kindness can relieve me.

Want of rain during the Current Fusly 1255 operated more unfavorably than last year. It has not only reduced the cultivation but rendered much crop withered as I trust you had an opportunity of seeing in your last Circuit. I pay the Government dues with much difficulty by loans from Merchants and paying

paying them interest as may be seen by the bills (hic) which I always remit the same to Madras.

Should my Zemindary be placed under attachment the present scarcity must not be overlooked nor who is to be responsible for probable loss from short produce not sufficient even to answer the Government demand? Will not the report of such a measure operate disadvantageously in setting my servants loose from all control? Will it be just to saddle me with the loss consequent on the above proceedings?

As I have no other means of relief but your kindness I request that on mature consideration of the above particulars you will be pleased to protect me. I will cause a Petition to be presented to the Sudr Court on the subject, and request the attachment may be deferred till then.

Sir

(24-25)

To the Principal Collector of Madura.

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 20th Ultimo with enclosures submitting Proceedings of Civil Court of Madura of the 13th Idem in which the immediate sequestration of the Shevagunga Zemindary is ordered and requesting sanction for the entertainment of the former Establishment if the Board acquiesce in the attachment of the Estate.—

In reply the Board instruct me to state that they observe that the Proceedings of the Civil Court have been submitted by the Acting Judge for the consideration of the Court of Sudr Adalut and they are of opinion that it will not be necessary to take measures for the attachment of the Zemindary until the decision of that Tribunal be obtained Should the higher Court concur with the Acting Zillah Judge in the propriety of sequestrating the Estate, you will be pleased to adopt immediate steps for the purpose and you will consider yourself authorized to employ the same Establishment that was entertained at the close of the last period of attachment at an annual charge of Rupees 33,276.—

Sir,

Reporting on the Settlement of Ramnad for Fasly 1254 under Wardship

In submitting my report on the Settlement of the Ramnad Estate, for Fasly 1254 (A.D. 1844/45) under Wardship, I have the honor to forward the following Statements—

No 1 Settlement of the Sirr Revenue—
" 2. Sirco Thasildar.
" 3. Dharma Mugharmay.
" 4. Jaree Mugharmay.
" 5. The Account Current
" 6 & 9 are abstracts of Demand Collection and balance of first four Items for the Fasly under report and up to end of A. D. 1845.
" 10 & 13. Abstracts of Balance of old arrears under the same four heads up to end of A. D. 1845.

limitted, lasting only for one or two Days. In the Ragonada Cawery the freshes continued for five Days, in October, and for seven Days in January; and the Tanks dependent on it received supplies of from one fourth to three fourths. The Cultivation under Tanks dependent on rain alone, was in proportion to the supply received, and very scanty. The rains that fell in December and January were insufficient to fill these tanks dependent but a little that fell in March was valuable for the Nunjahs.

3. From the unfavorableness of the season the Poonjah sowing was to much less than average extent; and part, sown in expectation of rain gave no return, either from intire or partial failure of it, and from absence of after rains; particularly in the Talooks of Coimbatoor and Paupanaum, and on highlands and hard soils; and tho' the rains of January ensured crops on the lower lands, yet they nowhere attained the average yield by reason of the lateness of their fall. Much of the Poonjah sown for seedlings perished, and the land cultivated was kept at a reduced rate in proportion to the scarcity.

defect of Tank water; and even that would have perished but for the rains of March, which tho' they saved all with small exception, from perishing, yet did not secure any thing like an average Crop. The consequence, then, of the failure of rain has been decreased Nunjah and Poonjah cultivation, and extensive withering of Poonjah Crops; and more especially in the Talooks of Coimbatoor and Paupanaum, where the principal remissions were given by the Manager.

4. The measurement of the Nunjah and Poonjah cultivation paying more tax and the getting in of the Nunjah paying harvest, was conducted thro' persons partly ill paid extra servants, employed occasionally, by the Manager, under the superintendence of the several Ameens and of himself.

Board's Proceedings 15th December 1846 Para 1.

5. To clear up the Board's doubts "whether Nunjah lands paying in Kind are made over to the Ryots after an Estimate of the produce, or whether it is the prevailing Custom of the country that the produce should be gathered under the superintendence of Government servants" I beg to state that when the grain is ready to cut, the land is estimated by Mutchulkas (subdivisions

In the Rajeonada Cavery the freshes continued for five Days, in October, and for seven Days in January; and the Tanks dependent on it received supplies of from one fourth to three fourths. The Cultivation under Tanks dependent on rain alone, was in proportion to the supply received, and very trifling. The rains that fell in December and January were insufficient to fill these rain dependent Tanks, but a little that fell in March was valuable for the Punjah

3. From the unfavorableness of the season the Poonjah sowing was so much less than average extent; and part, sown in expectation of rain gave no return, either from entire or partial failure of it, and from absence of after rains, particularly in the Talooks of Camoothi and Pongunoor-Lum, and other highlands and hard soils; and tho' the rains of January ensured crops on the lower lands, yet they nowhere attained the average return by reason of the Calamity of their failure of the Paddy sown for seedlings, previous to, not the land cultivated being left at a reduced rate on proportion to the usable

deficit of Tank water; and even that would have perished but for the rains of March, which the they saved all with small exceptions, from perishing, yet did not secure any thing like an average Crop. The consequence, then, of the failure of rain has been decreased Punjah and Poonjah cultivation, and extensive withering of Poonjah Crops, and more especially in the Talooks of Camoothi and Pongunoor-Lum, where the principal re-

missions were given by the Manager.

4. The measurement of the Punjah cultivation, paying money Punjah and Poonjah cultivation, paying money tax and the getting in of the Punjah shares paying harvest, was conducted thro' persons partially ill paid extra servants, employed occasionally by the Manager, under the superintendence of the several Ameens and of himself.

Board's Proceedings 15th December 1845 Para 4.

5. To clear up the Board's doubts whether Punjah lands paying in kind were made over to the Ryots after an Estimate of the produce, or whether it is the prevailing Custom of the County that the produce should be gathered under the superintendence of Government servants" I beg to state that when the grain is ready to cut, the land is estimated by Ryots of substance

of varying extent / by the Cummums, Umbalagars and Ryots / and the account furnished to the Maghamum Sumpaty who re-examines and reports to the Ameen, any doubts or suspiccons arising in his own mind; who attends himself or sends an Overseer, to superintend the reaping according to the exigency of the case).

Board's Proceedings 15th Dec. 1845 Para 4

6 The remission on Money paying Lands, whether Nunjah or Punjah, amounted during the year under report to Rupees 27,623-9-4 exceeding that given in the preceding Fusly by no less than Rupees 24,818-5-9; and was granted by the manager on all withered Crops, after examination by the Ameens and other Talook servants agreeably to the customs of the Country.

7. The cultivation of Nunjah paying land was less than in the preceding Fusly by Cullums 13210-10-5/8 (Mcls Gmds) of Seed Land, and its average produce per Cullum of seed land was less by 13 Marcals and 1/2 measures, the produce in the preceding Fusly, had as it was averaging 6 (Cullm MC Mcls) 11-1/2 per Cullum; whereas in the Fusly under report it reached only 6 (Cullm MC) 10-6 per Cullum.

8 From bad season the proprietors share of produce was less than in the preceding Fusly by Cullums 37,501-1-3/4 (Mcls Mcls) but the grain's price of Rs 2-4 11 per Cullum than that of the preceding Fusly at Rs 1-7-8 per Cullum went somewhat towards counterbalancing the deficit of produce.

9 The total of the Jummabundy is less by Rs 3,220-15-6 than in the preceding Fusly, and is less by Rs 38,518-8-9 than the average of the last three years.

13 The General Instructions to the Manager were confined almost exclusively to requiring the settlement to be made on five different centres of parts of the Zemindary in preference to the preparation of the Rennad Cudastah. In other matters he was left to be guided by his own discretion in following the mode hitherto prevalent.

The annexed Current No. 6 shows the receipt for the Fusly under review to have exceeded that of the preceding Fusly by Rupees 13,180 .. 12 .. 6, which increase is stated to have commenced chiefly on the Cudaloor estate and to have amounted to Rupees 31887 .. 7 .. 4 during the

The balance on hand seems to me much too small for investment, besides being required for the current expenses of the Estate pending the growth of Crops; but if the Board of Revenue or Government require it the transfer can be made.

15. For the comprehension of the Board of Revenue I would beg to explain that in the account Current for Fasly 1253 the Item "Adjustment of arrears" was intended to include all adjustment of that perticulars mode of paying servants, and liquidating debts, by orders for grain on different Talooks not styled by Sunnads, and all other payments that had then been satisfactorily ascertained; and the "disbursements by the present Manager" was meant to show the amount similarly disbursed by him, including his return to the perticulars Custom during my seven Months suspension which I had abolished during my laborious enquiry immediately preceding that misfortune. Its entire abolition has

Of this, Rupees 7,641-3-8 is due from purchasers of Crops, and therefore probably disputes to be adjusted as to the full delivery, but particulars are not furnished. The Manager has, however, been called upon strongly for the revision and realization of what is due. By addition of another years balances there is shewn a further increase of outstanding arrears of old balance of Rupees 1,668-15-8-a portion consists of unadjusted Puttas / orders for payments of salary in grain of irrecoverable balances from indigent ryots and from ryots deceased without heirs, and demands made on Estimate which the out-turn of the harvest proved to have been excessive. all which render the accounts so very suspicious as to make it difficult to separate the fair from the unfair demand. the Manager has however, been directed to give his best attention to the subject, and to hasten the recovery of which is really due. During the year under report there has been collected on account of these old balances Rupees 7,609-7-1.—

20 Of the Estimate of 18000 Rupees for works of ordinary repairs for 1845 for which sanction was not given till the 31st July work to amount of Rupees 11133-1-7 was only executed by the close of the year.—

From the Coll.r of Malabar &c. knowledging the receipt of the Board's letter of the 9th ult.o and reporting on the Petition from Pliadun Pattan appealing against an order passed by him

Sir,

I have the honor to acknowledge the receipt of your letter of the 9th ult.o Para-graph 1 giving cover to a Petition from Pliadun Nainar addressed to the Board of Revenue, and desiring me to report on the allegations therein contained.-

2 The subject in question had attracted much of my attention, and it was not until after considerable consideration of the merits of the claim brought forward by the contending parties respectively, that I passed the order against which the Petitioner has now appealed to the Board.-

The question in itself involves no great interest and a quarrel of the sort between a small party of Weavers would in the usual course of things have speedily come to a termination, but influential parties on both sides have chosen to fan the flame for no good reason that I can ascertain- The petitions which have presented on this matter on both sides are too able to have emanated

emanated from the Class of people who claim their ownership. -

My object has been to steer as clear as possible of all matter that did not come legitimately within my province as a Revenue officer, and with this view, I passed the order now appealed against to the purport, that the government assessment should be received from the parties, who in virtue of the arrangements made by the responsible trustees of the Edda kayil Guenapathee Pagoda, held and managed the lands belonging to it, leaving the Petitioner to establish his alleged right to succeed to the office of Samoothayom or Manager, by a suit in the Civil Court. -

It is possible this explanation of my motives might be sufficient, but with the hope of furnishing such information as will shew that the Petitioner's assertions are not correct, I will offer a few remarks on his petition. -

3 - Pumbally Chekonty, the former Samoothayom or Manager, died in the Month of June 1843, and at a meeting of the Corales or Trustees in conjunction with the body of the Weavers of the Village, held on the 3rd October following Elleyan Chetty an writtil Chato, one of the Corales, was formally appointed Samoothayem - on this occasion the Petitioner, who as nearest

of kin to the deceased Manager had taken possession of all his property, delivered up the grain in store belonging to the Pagoda as also such Documents as were required for the immediate administration of its affairs by the new Samoothayem - He likewise, then and there executed a writing binding himself to surrender all the other Documents, accounts &c connected with his deceased Uncle's manage=ment of the Pagoda concerns, at a subsequent period - The affairs were accordingly managed by Chator, the newly appointed Samoothayom, through his Brother and delegate Paroo (also a Trustee) who regularly paid the kists for the year 1019 1843/44 and obtained the usual Govern=ment Receipts. -

At the commencement of the following revenue year, the Petitioner, repenting his acquiescence in the choice of a new Manager attempted to make good a claim to super=intend the affairs of the Pagoda on the grounds that the office of Manager descended to him by hereditary right and threw every obstacle in his power against the realiz=ation of the rent and assessment of the lands by Paroo, a procedure which necessarily led to an enquiry to ensure the Government dues. -

The principal plea urged by the

Fort St. George 9th April 1846.

the petitioner, and one which no doubt would have great weight with any tribunal if duly supported Viz.th that the Office of Samoothayom in this Devasom was hereditary was disproved by the Statement of the (Single) Coralan, who supported him, for setting aside a mass of other evidence on this point, - this very Coralan admitted that previous to the institution of the late Samoothayan, the office had been held by more than one Individual quite unconnected by family, with him, or each other. -

The petitioners assertion that he did not execute the Document above noticed, promising to give up his Uncles papers or concur in the appointment of Chatoo, seemed to me to to be inadmissible against the host of evidence to the contrary. - The Petitioner urges that Raroo who looked after the affairs in 1843/44 was his delegate, but Raroo denies this and avers that he acted for his Brother Chatoo - I do not think it necessary to go further into an examination of the Petitioners allegations, but in conclusion would beg to observe that the other Coralers &ca as well as the whole of the community of the Village to which the Pagoda belongs on the occasion of the Petitioners appealing to me strongly

† In this District there are three descriptions of Samoothayoms Viz.th The 1st whose right to the Office dated from the institution of the Temple and as such hereditary - The 2d whose right to the Office does not extend beyond his life time - The 3d temporary and as such may be removed at the will and pleasure of the Coralers &ca N.B. It has been established that the Petitioners deceased - Haroonawan belonged to the 2d Class.

Fort St. George 9th April 1846.

strongly protested against my disturbing the arrangement they had themselves made in respect to the Devasom affairs and its property. To force, so far as it was in my power to force the petitioner back on them would I thought and think be harsh. The step would undoubtedly lead to great difficulty in realizing the Government assignment which they do not wish to pay them. I certainly think the proper course for the Petitioner to pursue is, to appeal to the Civil Court for the restoration of his rights - They were taken from him - if they were taken - not by me - but by his fellow Villagers, against whom his action must lie. -

Collector

The Board of Revenue entirely approve the course taken by the Collector in the matter reported on in the above letter and order the following endorsement to

to be passed on petition No. 143 of 1846.

"From the report of the Collector upon the subject of this Petition the Board of Revenue learn that the party Chatoo who at present the Samasthanam or Manager of the edakayil Guenapathee Pagoda was appointed to that office by the Coralers or Trustees in conjunction with the main body of the parties interested in the institution that the Petitioner himself for some time acquiesced in the measure - that Chatoo thro' his brother and delegate Paroo paid the kists for the year 1019 regularly and obtained the usual Government receipts. - The Collector has very properly declined to alter the present arrangement without the general consent of the parties concerned. - If Petitioner consider his claims to the office of Manager to be valid he is at liberty to establish it before the Civil Court." -

privileges, and resolves to submit for the sanction of the Government of India, the aggregate annual disbursement of Rupees (2778-1-5) two thousand seven hundred and seventy eight, annas One and pice five to claimants on this account.

2. This compensation which it is observed, includes all parties, Zemindars excepted, who actually enjoyed the former Men Cavil fees, is a life grant, as in Tanjore - to be renewed only in special cases - and is in each individual instance to the date of the enforcement of the orders of Government of the 5th April 1839.

3. It must be clearly made known to the parties receiving the remuneration, that its continuance during their life time depends on their good conduct.

4. Adverting to para 12 Revenue Lordship in Council observes that it is the wish of Government, not to discourage the employment of influential Cavilgars in the Police of the District if

be found expedient to alter the date, of which due notice will be given.

Chief Secretary.

Ordered to be recorded.

Extract from the Minutes of Consultations under date the 24th March 1846.

Read the following letter from the Secretary to the Board of Revenue.

(Received 27th Nov. 1845)

No. 721.

Para 1. The Most Noble the Governor in Council approves of the principle suggested by the Collector of Trichinopoly, and recommended by the Board of Revenue in the foregoing letter for regulating the rate of Compensation to Mem. Cavilgars, in lieu of their resumed privileges,

7-8

Order thereon.

From the Chief Sec. to Govt.

Approving of the principle recommended by the Board for regulating the rate of compensation to Mem Cavilgars in the District of Trichinopoly in lieu of their resumed privileges, stating that Govt will be glad to receive at as early a date as practicable the statements called for by the Board as to the financial result of the measures in contemplation for the resumption of the village Police of that District and sanctioning the employment of two

9

two Cavilgars for the village of Mangudoor.

privileges, and resolves to submit for the sanction of the Government of India, the aggregate annual disbursement of Rupees (2778-1-5) two thousand seven hundred and seventy eight, anna One and pice five to claimants on this account.

2. This compensation which it is observed, includes all parties, Zemindars excepted, who actually enjoyed the former Mem. Cavil fees, is a life grant, as in Tanjore - to be renewed only in special cases - and is in each individual instance to be calculated from the date of the enforcement of the orders of Government of the 5th April 1839.

3. It must be clearly made known to the parties receiving the remuneration, that its continuance during their life time depends on their good conduct.

4. Adverting to para 12 His Lordship in Council observes, that it is the wish of Government, not to discourage the employment of influential Cavilgars on the Police of the Dist

inf

if approved by the Magistrate as fit
persons to be entrusted with the duty, but
that their appointment should rest entirely
with the local authorities, and should
not be made solely with a view to
obviate the demand for compensation.

5. The arrangement proposed
in para 13 though not open to very
strong objection, is not in the opinion
of Government calculated to prove so
effective as a full payment direct
from the Treasury, rendering the recipi-
ent more immediately dependent upon the
Government; and His Lordship in
Council concurs in the view taken by the
Board, that "one uniform system of
money payment from being regular and
certain" is better adapted to secure the
efficient working of the Police of the
District; and he would propose therefore
that this system be authorized.

6. The Government will be
glad to receive at as early a date as
practicable, the statements which the
Board have called upon the Collector of
Trichinopoly to furnish, as to the financial result
of the measures in contemplation

for the revision of the village Police of
that District, and the question of annex-
ing it to be attached to the Office of
Village Moonsiff will be then finally
taken into consideration.

7. Meanwhile the Govern-
ment sanction the employment of
two Cavilgars for the Village of Manigundoor,
as proposed by the Collector, to complete
the arrangements for the Police in general
of the District of Trichinopoly, at a charge
of (2) two Rupees each per Mensem.

8. With reference to the incon-
venience experienced in consequence of
the Military arbitrary limits of the Town
of Trichinopoly extending beyond the
contracted boundaries of the Military
Bazar at that station, and the Police
Jurisdiction of the Commissariat Officer,
resolved that paras 16 to 19 of the forego-
ing letter be furnished to the Military
Department, for the opinions of the local
Officers.

Exhibited in comparison with Fusly 1253 a decrease of Rupees 79402-4-3. The greatest fluctuation appears in the items of Salt, Sayer, Sea Customs and Stamps. in the first there was a large increase, and in each of the three latter a considerable decrease. In the other branches, the revenue exhibited no great variation.-

2. The Gross Collections in the Salt revenue amounted to Rupees 390710-3-11 which is Rupees 82992-13-11 above the preceding year, but from the explanation afforded by the Board, the improvement appears to have been occasioned by the enhanced price of the Article, and not by a greater demand, as it is shown that the quantity Sold in Fusly 1254 fell short of that disposed of in Fusly 1253 by 3003 Maunds, and was less than the average of the five years anterior to Fusly 1253, by 88473 Maunds, but a decrease to the extent of 6367 took place in the Inland Sales, regarding which it is observed, the Board have properly called for further information from the Collector

The

p: 2 @ 4-6 @ 12-

The diminution in Sayer, Sea Customs and Stamps was caused by the operation of Act VI of 1844.- The other items do not call for notice

3 Although the act above quoted has tended to diminish the Sea Customs revenue, it is satisfactory to His Lordship in Council to observe from the Collector's Report that the Official value of the Exports from the district in Fusly 1254 was Rupees 6,39,014 above the value of the Exports in Fusly 1253.- This increase is stated by that Officer to have been chiefly in the Staple products of Malabar, and is ascribed by him "to the abolition of the "Sawlut duty and the reduction of the "General rate of export duty".- It may be doubted whether the very recent repeal of the Sawlut duty has had so large and immediate effect, but there can be no question in the opinion of His Lordship in Council that the relief afforded to the Staples of the Province by the abolition of a tax which pressed peculiarly upon them must have given a stimulus to their production and Export. The effect of this relief from duty cannot be judged of by a comparison with any one year, for other

and

and adventitious causes as the Board have noticed may influence any particular year, but the Collector and Board should watch the State of the export and a short period will probably enable them to determine with certainty on the effect of the reduction of this Rawlut as well as the general rate of Export duty.-

Sir,

Adverting to the Court's letter dated 8th December 1845 No 195, I am directed by the Judges of the Foujdaree Udalut to report that numerous Statements have recently reached the Office of their Register submitted by Magistrates with reference to a Circular from the Board of Revenue dated 5th May 1845, which appear to have been prepared in ignorance of the order of Government noted marginally, declaring that it is "not intended by Government that there should be any change in the

Extr. Mins. of Con: dated 29th April 1845 No 544.-

"the course observed in respect to the charges "for batta to Prisoners and Witnesses &c "brought before the Magistrates and Police "Officers."-

2. As the time of the Court has been most unnecessarily occupied in issuing instructions to the officers from whom the statements in question have proceeded, I am directed by the Judges to suggest for the consideration of the Most Noble the Governor in Council whether it would not be expedient to direct that copy of the Minutes of Consultation referred to be circulated for the information of the Magistracy through the Board of Revenue with advertence to the Board's order above quoted.-

To the Chief Secy. to Government

Submitting with reference to the order of Government dated 3d Instt. a Copy of the Circular Order issued by that Board directing the several Magistrates to submit thro' the Court of Sudr. and the Foujdaree Udalut all charges on account of Convicts employed under their orders and stating that the Board gave no authority for any change in respect to the Channel thro' which Charges for Batta to Prisoners and witnesses &c. brought before the Magistrates and Police officers had been submitted for Sanction.

I am directed by the Board of Revenue to acknowledge the receipt of the order of Government dated 3d Instant No. 199 requesting them to report whether the instructions of Government contained in Para 3 of the Extract from the Minutes of Consultation dated 29th april 1845 on the subject of Charges to be submitted for Sanction thro' the Court of Foujdaree Udalut have not been embodied in the Circular from this Office to the Magistrates and what they may have done in pursuance of those orders.

2. In reply I am directed to transmit for submission to the Most Noble the Governor in Council the accompanying Copy of the Circular issued by them conveying the orders of Government of the 3d april 1845 above referred to from which it will be seen that the several Magistrates were directed to submit through

Communicating observations and orders on the Board's Proceedings relative to the Management of the Extra Sources of Revenue in the district of Guntoor for fusly 1254.

Read the following Extract from the Proceedings of the Board of Revenue.—

Relative to the settlement of the Extra Sources of Revenue in the District of Guntoor for Fusly 1254 / 1844/45.

(Here enter 16th March 1846 No. 147)

Para 1. The Settlement of the Extra revenues of the Guntoor Collectorate amounted for fusly 1254 to Rupees 443376-9-3 being below fusly 1253 in the Sum of Rupees 17,100-8-7.—

2. There was an increase under every head excepting sayer and stamps which were affected by the provisions of Act VI of 1844.— The large increase in the articles of Salt is attributed to the enhanced price and sale to the Home Merchants and Lumbadies. But owing to the heavy disbursements on account of hire to manufacturers the net revenues from this branch was considerably reduced (Vizt. Rupees 22,718-7-10.)

3. The increase in the Mohturpha revenue, as an evidence of the returning prosperity and resources of the District, is satisfactory, and the more so as the whole amount was brought to account on the 15th November.—

4. The Gross Collections from all sources amounted to 4,41,993-4-7- and the net revenue after deducting charges was reduced to Rupees 3,84,217-6-7 being below fusly 1253. in the sum of Rupees 44,534-6-9.—

6. His Lordship in Council observes that there are some petty outstanding balances on account of Small Farms and Mohturpha extending over a period of Six years still undisposed of, and on which the Board have desired the Collector to communicate his opinion in the ensuing annual report.— His Lordship in Council has frequently had occasion to deprecate the system of postponing from year to year the settlement of outstanding balances, and he now requests that the Collector may be called upon to institute immediate enquiry regarding these arrears and report the result with a view to their early adjustment.—

Desiring that the Collector of Salem be directed to disburse in the repair of roads throughout that district the sum of Rs 12,691-3-8 subscribed by certain individuals in Salem for that purpose and to submit for publication in the Fort St. George Gazette a Statement of the expenses and the localities in which repairs have been executed stating that there is no objection to the levy of a tax on the Wudder bundees and so directing that the sum of Rupees 762-2-0 represented as difficult of realization may be written off.—

Read the following letter from the Secretary to the Board of Revenue.—

(Here enter 9th March 1846 No. 128.)

Para 1. The Most Noble the Governor in Council concurs with the Board of Revenue that it is much to be regretted that Mr Glegg should without any authority and indeed in opposition to explicit orders on the subject have carried to the public account sums subscribed by the liberality and public spirit of certain individuals in Salem for the repair and improvement of the roads in that District.—

2. With the view of removing the unfavorable impression which this proceeding has created, His Lordship in Council now desires that the contributors may be assured that the collections in deposit

deposit, amounting to Rupees 12,691-3-8. will be applied to their legitimate object, and that the Collector and Civil Engineer be directed forthwith to follow up this assurance by a judicious disbursement of the above amount in road repairs throughout the District, and that when these are completed a Statement of the expenses and the localities in which repairs have been executed be submitted for publication in the Fort Saint George Gazette, as heretofore.— The Board of Revenue will also be pleased to take measures to ensure the amount of subscriptions being annually applied to the purposes intended.—

3. There seems to be no good reason why the proprietors of the Wudder bandies to whom the roads are equally available should not be placed on the same footing as the Cart owners, or why they should not be required to contribute to the general good. and His Lordship in Council therefore sees no objection to the proposition to the levy of a tax of the same amount on the Wudderbandies.— The sum of Rupees (762-2-0)

From the Agent to the Govt. in Ganjam Regarding the transfer of certain Mootahs appertaining to Goomsoor Zemindary to the Madras agent.

So

So early as was expected, I think it proper in the mean time to acquaint the Board of Revenue with the reason why the arrangements connected therewith have not yet been made and reported on to them.-

Para 7.- With respect to the Mootahs of the Goomsur Zemindary ordered to be placed under the Authority of the Khond agent, I beg to observe that the limits specified in in Resolution of the Government of India under date the 6th December last, are not identical with, but differ materially from those stated in the previous letter from the Secretary to that Government, of the 19th July 1845, as the tracts which were proposed to be transferred to the special Jurisdiction. The objections that were pointed

Para 29.- out by Mr. Smollett in his letter addressed to the Chief Secretary on the 6th September 1845 to the transfer of the latter mentioned tracts apply with greater force to some portions of the territory that has actually been ordered to be made over. The Board and the Government are possibly not aware that the Cantonment of Russell condah, and the Sasseldar's Cutchery and Cusbah Village Nowgaum are included in those limits. I cannot perceive the least necessity in furtherance of measures

connected

connected with the suppression of the rite of Sacrifice amongst the Khonds, for thus separating and placing under a special authority some of the most valuable and populous parts of the Zemindary, and it is difficult to perceive by what considerations the selection of the particular Mootahs may have been guided. For I find that numerous populous Villages in the open plain and nearly in the heart of Goomsoor have been included in the Khond limits, while other Mootahs immediately bordering on the Maliahs, and principally inhabited by races having intercourse with the Khonds have been left under the Ganjam Agency and quite isolated and cut off from the rest of the Zemindary being surrounded by tracts which are to be under the exclusive Authority of the Khond agent. It would certainly have been desirable to have avoided as far as practicable the intermixture of the limits of the two jurisdictions, which is likely to occasion much inconvenience.-

Sir,

Mulrauze Lutchmiah has requested me again respectfully to remind the Board of the request contained in her petition of the 6[th] December 1842 noticed in Parahs 2 to 5 of my letter of the 10[th] February 1843, that the Government will be pleased to recognize Vencata Londadrow as her heir and the representative of the family to be addressed in the same style as her late husband, and declared to be successor to her allowances and eventually the Estate. If the Estate were held on the tenure of the permanent Sunnud under the payment of the full Peishcush, a compliance with her request would be no more than strict justice and even in the present circumstances of the Estate, the Government will perhaps be disposed to shew the same favour

favour to one, who though his legal claim by adoption may be disputed, is still by his mother's side the lineal descendant of the last Zemindar Mulraz Vencata Lynda Row, as is to be shewn to other Zemindars. - - Lutchmaya's great age makes her desirous to see this matter settled. —

Whatever course may be adopt-
-ed with respect to the Mulrauze Estate, will
I conclude be applicable to the adopted son
of Manoor Vencata Bharatyanna of —

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 17th ultimo, on the subject of the request preferred by Mulrauze Lutchmiah in her Petition of 6th December 1842 and lately repeated, that her adopted grandson Vencata Londadil Row may be recognized as her heir and

and the representative of the family and be declared successor to her allowances and eventually to the Estates.

2. In reply the Board instruct me to state that it does not appear to them to be at present necessary to bring under the notice of Government the arrangements which may be required on the demise of the Melvaram Proprietor when that event does occur the claims of all parties concerned will be duly taken into consideration. The same remarks will apply to the application made by Manoor Vencata Bharatyanmah officer Chilkaloorpaud.

the

the emoluments of the Tournum and Peddy offices have been hitherto distributed among the Meerasseedars both Mirasul and Gyr Mirasul, and in all cases in which a revision of the present system seemed necessary such has been effected. In cases wherein the emoluments of the parties in office fell short of the scale framed by Colonel Munro, they have been made up to that standard from the portions of the Meerassee enjoyed by the Gyr Mirasul sharers; the largest of the latter shares have been called upon to perform the duty when able and willing to do so - if otherwise they have been required to employ Goomastahs or to surrender a portion of their own emoluments in remuneration of those by whom the service has been actually performed. In this latter case however the occupancy of the Enam Lands has not been interfered with - but the non-officiating party has been ordered to pay to the party in office the Tarwa on the portion necessary for raising the share of the latter to the desired standard. Those measures which the Board trust have been carried out with caution and judgment seem very proper. It is presumed that as

as regards the employment of Goomastahs the Rules III IV V proposed by Mr Arbuthnot and approved by the Board in their Proceedings of 12th October 1843 Para 17. have been attended to. The Acting Collector, should however bear in mind that Goomastahships should be allowed as seldom as possible and only when other parties are not available.

2. In reference to Para 2 of Mr Cochranes letter the Board observe that when the Official Emoluments of those in Office are sufficiently remunerative it is not necessary that the shares enjoyed by the Gyp Mirasul Meerasseedars should, for the present at least, be interfered with. The Acting Collector should however take means to inform himself accurately of any lapses which may occur among the Meerasseedars whether Officiating or non officiating, and in the event of persons of either class dying without heirs their shares should be attached and the circumstances reported to the Board, without whose sanction no such arrangements as those contemplated in the concluding Para of Mr Cochranes letter are to be adopted. In Making his report on the

the case the Collector should at the same time state what portion if any, of such shares should be continued in endowment of the Meerasseedars to which they have hitherto been annexed and what portion may be resumed and made available in compensation of the expense which may hereafter be incurred by Government in granting additional remuneration in these Villages where the emoluments may now be insufficient.

3. In the latter part of Para 2 the Acting Collector states that "all Village servants themselves liable to dismissal or suspension will only be entitled to this extra allowance up to the time on the calculated average of the period they have been in Office since the revision of the present System" If by this it is to be inferred that such parties will forfeit their extra allowances only on removal from Office, the Board must call Mr Cochranes attention to their letter of 13th October 1845 Para 3 in which they have directed that the dismissal of a Village servant for gross misconduct or fraud shall in every case involve the total loss of all his official emoluments whether in

Fort St. George 16th April 1846.

in land money or fees whether ordinary or extraordinary—

4. The Board will await the receipt of the Statement promised by the acting Collector in Para 5 respecting those Villages in which the Servicer Manneums require Revision—but they regret that they cannot allow the measures proposed by him to be carried out at once in all cases which require special attention while he is performing the Settlement of each Talook"—

They request that no change of the nature referred to Viz^t "the substitution of Lands out of the Ayacut Bungers for such as are ascertained to be unprofitable" be in any case effected until the whole Scheme with the necessary Statements and explanation be submitted to them and receive their direct and formal sanction—

Sir,

Forwarding Copy of the Instructions issued at the end of July 1253 regarding the cultivation of Enam lands & a Statement of the average prices of Grain for July 1253 and 1254.

* Para 12 & 13 of the Proc. 21st

The Board having in their Proceedings of the 16th Ultimo expressed a desire to know the nature of the instructions issued to the Amildars on the occupation of Enam lands and having remarked on the Ronalli-sion in my Report to the prices of Grain, I lose no time in forwarding a Copy of the Instructions issued at the end of July 1253 regarding the cultivation of Enam lands, and also a Statement of the average selling prices of Grain both for July 1253 and 1254.

2. I did not previously submit these Instructions for the sanction of the Board because I look upon them merely as a temporary expedient which will be in force only until the introduction of the Farm assessment. Measures that receive the sanction of the Board are supposed to be of a more permanent Nature, and any radical change in them might be open to a charge of instability where as it is perfectly well understood that any fiscal regulations

which the local authority may make now, will only have effect so long as the present Revenue system exists.

3. In the Bellary and Cuddapah Districts the Enam lands are probably for the most part in the actual holding of the Enamdars, a long undisturbed possession has given a right which it would be very difficult to interfere with now. But in Kurnool the case is different; there under the Mogulye Government the Enam lands, except those held for service or on a regular Sunnud were for the most part at the disposal of the Village authorities, who being answerable for the Revenue of the Village, took care that they should be turned to the best account. So long as the Village system existed, the distribution of the Enam lands might very well be left to the Reddies and Curnams, but when every Ryot was made directly answerable to the Circar for the the amount of his Pottah, it became necessary to prevent the monopoly of the Enams both by the more powerful Ryots and by new claimants calling themselves Enamdars. These latter have been gradually springing up from distant villages, and even from the neighbouring Districts,

Districts, as descendants from former Enamdars whose names may be entered in the old accounts, such claims are rarely contested, in fact are generally connived at, by the Village authorities, as they procure the possession on agreeing to pay the claimant a light rent, and to have an ostensible owner for the Enam prevents it being too curiously enquired after by the Circar Servants.

4. In Bellary and Cuddapah Districts, a Ryot is liable to an additional assessment if he cultivates more than a certain quantity of land, but I do not think it would be advisable to introduce that plan into Kurnool for the present, because the Circar land is so much more highly assessed than in those two Districts, and the demand could not be paid even without the aid of the Enams, when each field has been tarum assessed then, the Rule might perhaps be extended to this District.

5. The other points in the Board's Proceedings requiring notice will be answered as soon as practicable.

Instructions

No. 1.

Instructions for the cultivation of the Enam lands.

Para 1. The immense quantity of Enam (so Called) land cultivated to the great prejudice and loss of the Circar, renders it necessary to make some Rules for the future cultivation of these lands.

2. It is to be remembered that all those lands for which no currency can be produced, are merely Enam by sufferance until an investigation into the tenures has been made.

3. Not a twentieth part of these lands were cultivated by the enamdars under the Mogul aye Government, but by the Circar Ryots as asan to their Cirkar lands, and it is undisputed that the Cirkar demand was always made with reference to the Enam lands, which were always considered as bearing a portion of the burden, the Enamdars receiving a trifle either in money or privilege from the Ryots.

4. This system has never been cancelled by the present Government & until it is cancelled it must be considered to

to remain in force.

5. The different amildars are enjoined to remember this and are required to pay the strictest attention to the following instructions, to enforce the observance of them by the Carcoons, Reddies and Curnams, and to see themselves that they are acted up to.

6. The great quantity of enam land that is cultivated, is one of the chief causes of the extreme cheapness of grain, as the enamdar having no rent (or a very trifling one) to pay can afford to sell his grain at a price which would scarcely pay the Cirkar demand upon the Ryot, or which would at any rate leave him very little profit. It should therefore be the object of the amildars to discourage the Cultivation of enam lands except as asan to the Ryots.

7. No enam land that has been waste for more than five years shall be cultivated by any body until the Villavari be equal to what it was in Fusly 1250.

8. No enamdar shall cultivate the land of another enamdar unless he agrees to take an equal quantity of Cirkar land.

No

9. No Enamdar shall cultivate in Fusly 1254 any enam (so called) land (unless he can produce a sunnud for it) which he has not hitherto been in the habit of cultivating himself. It is to be presumed that such land has either been waste for many years or has been cultivated as assamy by the Ryots, and the enamdar will get from them what he was in the habit of getting under the Mogulayee rule.

10. The Enam land cultivated in any Village shall not exceed that of the Sirkar unless the Villivari has come up to what it was in 1250 if it does exceed it, the deficiency of the Cirkar shall be made up from the enam lands.

11. As the Cirkar dues can with difficulty be paid without the assistance of the enam lands, the amildars should consider the proper distribution of these lands as one of the most important parts of their duty. Hitherto they have paid no attention whatever to it, and the consequence is that a great part of these lands has been monopolized by the Reddies and a few influential Ryots, and notwithstanding this

those are the very men against whom the heaviest balances are found, a clear proof of the absence of proper superintendence of the Talook authorities.

12. Until the tarum assessment is introduced, to make the Villivarie of a Village properly requires great care and attention on the part of the amildar and Carcoon, but except in a very few Cases, very little of either has been bestowed, the details have been left to the Reddies and Curnums, who have almost invariably consulted their own interests to the prejudice of the Cirkar. Hence it is that the Village authorities make such liberal use of the terms, fotey, farary, Madar &c. &c. without the amildar being able to check them, from his ignorance of the real State of the Village. But if these instructions are carefully observed and enforced there will be no room for these vain excuses, and I shall consider their being urged in future as a proof of inefficiency on the part of the amildar.

13. Every amildar who has been two years in a talook ought to be so intimately acquainted with the real State of the greater part of the Villages, as to be able to check at once the attempts of the Reddies and Curnums to defraud the Cirkar, but I am sorry to find that this is by no means the case generally.

From the Asst. Collr. Sirt — Para 1. I have the honor to report for the
of Shingleput — information of the Board the death on the 20th
Reporting the death of Sheik Tippoo attached to the Mosque at Futtapettah and requesting authority to register the services performed by him in the name of his son Badradeen permitting him to receive the moiety of the Yedmiah and Maunieem lands enjoyed by Sheik Tippoo — October last of Sheik Tippoo one of the three Individuals by whom services are performed in the Mosque at Futtapettah for which a yeomiah allowance of Rs 81 - 14 - 9 per Annum and a Maniam of 4 Cawnies at Peddaveerapuram in the Peddapollium Talook have been granted —

2. Under the orders of the Board of Revenue dated 21st March 1836 Abdul Shader and Mahommed Casim, brothers of the deceased, were admitted to assist in the performance of the ceremonies receiving a Moiety of the Yeomiah and of the produce of the Maunieem land. The present address relates to the other Moiety which was enjoyed by Sheik Tippoo.

3. The deceased has left two Widows, a Son named Badradeen about 30 years of age and five daughters, four of whom are married. Badradeen carries on the services which his father was accustomed to perform in the Mosque, and solicits that his name

name may be entered in the registry en succession to his father and that he may be permitted to receive his Moiety of the Yeomiah allowance (Rs. 40-15-5) and the proceeds of two Cawnies or half of the Maunieam land.

4- The enquiries which have been made to ascertain Budradeen's right to succeed Seik Tippoo as a servant of the Mosque shew that he is the only son of the deceased, and that the family is under his protection. The Mosque also is reported to be in good condition being supported by the Yeomiah and the Income of the Maunieam land.

Requestered to be returned. 5- I beg to transmit the original Summud under which the Yeomiah allowance of Pagodas 23-6/12 is held and to refer the Board to Mr. Maclean's letter of the 8th March 1836 which states that although no Summud is forthcoming respecting the Maniam, it has continued for the support of the Mosque for a long series of years. There seems therefore no objection to complying with the request of Badradeen, and I solicit the authority of the Board to register his name as successor of Seik Tippoo allowing him to enjoy the same portion of the Yeomiah and the Maniam lands.

Rd. 20th & Read 24th April 1846

From Collr. Chingleput 8th & Encs 21st March 1836.

I am directed by the Board of Revenue to request that you will submit to the most Noble the Governor in Council the accompanying letter from the Acting Collector of Chingleput reporting the death of Sheik Tippoo one of the parties by whom the Service in the Mosque at Puttapetta was performed, and soliciting the sanction of Government for registering the name of his son Bodradeen in succession to his Father, and for making over to him a Moiety of the Yeomiah allowance enjoyed by the deceased amounting to 40-15-5 per annum and the proceeds of 2 Cawnies of Maniem land.

2- On referring to the correspondence quoted by the Acting Collector and noted in the Margin, it will be seen that the Mosque in question was originally endowed with 4 Cawnies of Maniem land, and also enjoyed an annual allowance of Rupees 81-14-9 granted in lieu of certain other privileges previously attached to that institution. it does not appear however by whom or under what circumstances this alienation of land was made in the first instance

instance but it was observed when the subject was formerly brought under notice in the year 1836, that the Sarafsady accounts exhibited the maniems attached to the Mosque as having been conferred in 1763, there being no summud forthcoming except a Jari Summud in favor of the father of the deceased Bismillah Sha. the right however was then considered valid, the Maniem having been continued for the support of the Mosque for a long series of years past. With respect to the money allow=ance the Collector has transmitted a Certificate granted by Government under date the 12th July 1795 bearing the seal of this Office in virtue of which the Yeomiah has been regularly disbursed to the parties having claims upon it.

3. As it appears therefore that the endowments in question were conferred for the support of the Mosque which is represented to be duly maintained and that Badradeen is entitled to succeed his late Father in the performance of the duties and services required to be performed the Board beg to support the Acting Collector's recommendation that he may register his name accordingly and put him in pos=session of the Moiety of the Yeomiah allowance and

Returning the Petitions of Ven=catapaty Naik Zemindar of Tavoy with certain obser=vations.
Nos. 1054 of 1845
" 46 of 1846
312 of Do.

the 4th September 19th January last and 19th Instant I have the honor to return the Petitions present=ed by Vencatapaty Naik Zemindar of Tavoy with the following observations.

2. The Petitioner complains against an order of the Collector. Mr Freese dated 19th April 1845 by which he states that he has been deprived of some lands in Tavoy (1/12th of the Meraja of the Village) which were Mortgaged to his father together with the Zemindary twenty three years ago and have since been in his possession.

3. The enquiry held by Mr Freese should the circumstances of the case to be as follows. The late Zemindar Guntoor Vencutramiah being in=debt to the Petitioners father executed a deed in 1821 Mortgaging the Zemindary, his share in the Meraja of the Village and other property, as secu=rity for the debt, but without possession - one stipulation

stipulation of the deed was that of Vencatramia=
=ah failed to pay the principal and interest of
the debt by certain instalments the Zemindary
was to be sold to the Mortgagee for a stated
sum (Pagodas 4750) - In accordance with this sti=
=pulation the parties afterwards attended at the
Collector's Office to have the Zemindary registered in
the name of Venkatesha Naidoo Petitioner's father.
4 - But the Merasy lands now in dis=
=pute (consisting of 1/12th of the Village) remained
in the possession of Guntoor Vencatramiah,
who died in fusly $\frac{12\,33}{A.D.\ 1823/24}$ leaving a son Soobra=
=manyah, the present Defendant - In conse=
=quence of Soobramanyah's youth the Meras=
=sy lands were managed on his behalf by his
guardians from $\frac{12\,33}{A.D.\ 1823/24}$ to $\frac{12\,37}{1827/28}$ - In the latter
year Soobramanyah left the Village for pur=
=poses of education and the lands were formally
made over to the charge of his relation
Moopal Vencat Row, who executed a deed
to restore them to him on demand - Soobra=
=manyah returned to the Village in fusly
$\frac{1257}{A.D.\ 1846/47}$ and on his application Venkat Row
resigned the lands into his hands -

5 - The Petitioner adduced two main
points to prove that the lands were in his
possession - The first is that the Civil

Court

Court released the property of Guntoor Ven=
=cutramiah when attached for other liabi=
=lities, in consequence of its being Mortgaged
to him, but this only shows that he had
a prior lien on the property and does not
prove that he was in possession - The 2d
point is that Moopal Venkat Row executed
a deed to him agreeing to pay Copputtum for
the land and stating that a Civil action would
lie against him if he neglected to make this
payment, or give up the land on demand to
the Petitioner -

6 - Regarding this document it is
to be observed that it was executed only
in fusly $\frac{12\,44}{A.D.\ 1834/35}$ while the Curnums evidence
shows that Guntoor Vencatramiah had died
in possession of the lands, and that from
that time or from fusly $\frac{12\,33}{A.D.\ 1823/24}$ to the date of
this document the lands had been held for
the Merasdars Son Soobramanyah - It
may be observed further that the document
was executed during Soobramanyah's ab=
=sence from the Village and by a party who
had no proprietary right to the lands - Ven=
=kat Row himself admits that he held the
lands for Soobramanyah and that he only
signed this document on being threatened
by the Petitioner, who as Zemindar possessed
much -

stipulation of the deed was that of Vencatramiah failed to pay the principal and interest of the debt by certain instalments the Zemindary was to be sold to the Mortgagee for a stated sum (Pagodas 750) - In accordance with this stipulation the parties afterwards attended at the Collector's Office to have the Zemindary registered in the name of Venkatesha Naidoo Petitioner's father.

4- But the Merajdy lands now in dispute (consisting of 1/12th of the Village) remained in the possession of Guntoor Vencatramiah, who died in fusly A.D. 12/33 / 1823/24 leaving a son Soobramanyah, the present Defendant - In consequence of Soobramanyah's youth the Merajdy lands were managed on his behalf by his guardians from A.D. 12/33 / 1823/24 to Fy. 1237 / 1824/28 - In the latter year Soobramanyah left the Village for purposes of education and the lands were formally made over to the charge of his relation Moopal Vencut Row, who executed a deed to restore them to him on demand - Soobramanyah returned to the Village in fusly 1254 / 1844/45 and on his application Vencut Row resigned the lands into his hands -

5- The Petitioner adduced two main points to prove that the lands were in his possession - The first is that the Civil Court

Court released the property of Guntoor Vencatramiah when attached for other liabilities, in consequence of its being Mortgaged to him, but this only shows that he had a prior lien on the property and does not prove that he was in possession - The 2d point is that a Moopal Vencut Row executed a deed to him agreeing to pay Coputtam for the land and stating that a Civil action would lie against him if he neglected to make this payment, or give up the land on demand to the Petitioner -

6- Regarding this document it is to be observed that it was executed only in fusly A.D. 1244 / 1834/35 while the Curnums evidence shows that Guntoor Vencatramiah had died in possession of the lands, and that from that time or from fusly A.D. 1233 / 1823/24 to the date of this document the lands had been held for the Merajdar's son Soobramanyah - It may be observed further that the document was executed during Soobramanyah's absence from the Village and by a party who had no proprietary right to the lands. Vencut Row himself admits that he held the lands for Soobramanyah and that he only signed this document on being threatened by the Petitioner, who as Zemindar possessed much -

Fort St. George 16th April 1846

much influence and stated that he would otherwise take possession of them in his right of Mortgage.

7. Under these circumstances of Venkatrow's having held the lands for the young Merajodar and of his having voluntarily resigned them to him, Mr. Freese passed a decision declining to interfere for the purpose of giving the lands to the Petitioner, and informed him that he ought to enforce his claims by a Civil Suit whether he claimed the lands in consequence of debts due by Soobramanya his father, or on the document executed by Venkat Row. It will be observed that in this document the course marked out for the Petitioner was to proceed by a Civil Suit if Venkatrow failed to make the stipulated payment or surrender the lands to him.

From the Collr of South Arcot

Sir,

With reference to the appeal Suit No. 90 of 1845 for which the sanction of the Board was obtained under date the 14th November 1845, I have the honor to state for the information of the Board that on application being made to me by the Principal Sudr Ameen for payment of the Government Vakeels' fees decreed by him, I presented a motion in the Civil Court at Cuddalore praying that payment of the said fees might be postponed until the decision of the appeal Suit, as principal ground of that appeal being the illegality of the amount of Fees decreed by the Sudr Ameen.

ORIGINAL DESTROYED

It will be seen by the Proceedings of the Civil Judge Copy of which is enclosed that he had dismissed my motion. I request therefore that the sanction of Government may be obtained for the disbursement of Rupees 234-4-9 due to the heirs of the late Government Vakeel

Submitting Copies of Correspondence &c. relative to the payment of the Government Vakeels' Fees and requesting sanction for the payment of the same.

To, W. D. Davis Esqre Collector of South Arcot

Sir,

In reply to your letter of the 10th Instant, I have the honor to observe that the Vakeels' fees is not to be stayed or postponed in consequence of an Appeal being preferred from the decision as may be seen in Section XXIX Regulation XIV of 1816.-

Although the latter part of Clause 5th Section XXXVII of the above quoted Regulation provides that in Suits Conducted at public expence the fees of the Pleaders for Government are not required to be previously deposited; yet the foregoing part of the same 5th Clause prescribes that the Pleaders of Government are to be paid the same fees as other Pleaders employed by Individuals

Individuals, and under the same rules and restrictions.-

It therefore appears but reasonable that the Vakeel of Government should be remunerated upon the decision of the Suit as well as any other Vakeel under the Provisions of Section XXIX. in the same manner as if his fees had been deposited in the Court.-

I request that the prayer of the Vakeel may be complied with.-

Fort St. George 16th April 1840

No. 2.

Translation of a Motion addressed to the Civil Judge of Cuddalore, by Narasinga Row Government Vakeel in behalf of the Collector the Defendant in Suit No. 296 of A. D. 1842. dated the 19th January 1840.-

One Calitheetha Pillay filed a Paupers Suit against the Collector requesting the recovery of the loss sustained by him in the Oyara amounting to Rupees 4666-9-. The Principal Sudr Ameen decreed that the Circar ought to pay the Plaintiff Rupees 566-15-4 on account of the loss and the fees of the Vakeels of both parties Rupees 466-9-6 as well as all other Charges incurred by the parties. Upon which the Collector appealed to this Court in No. 96 of 1845 which is under examination; In the mean time the heirs of the late Government Vakeel have petitioned the Principal Sudr Ameen for the payment of the fees Viz. Rs. 234 a. 4 p. 9 due to them the Principal Sudr Ameen wrote on the 7th January 1846 requesting the Collector to send him the amount of the Fees. The Collector

in

Fort St. George 10th April 1840

in his reply dated the 10th Instant stated that the fees cannot be paid until the examination of his appeal is concluded. The Principal Sudr Ameen again requested the Collector in his letter dated the 15th to send him the fees as he could not stop the payment. The Collector objects in the 10th para of his appeal on the ground that it is irregular to decree the payment of the Vakeels' fees due on the full amount of the Suit, while only 580 and odd Rupees were decreed to be paid to the Plaintiff and observes that according to the Spirit of Section XXVI Regulation XIV of 1816 only the fees as Vakeels are entitled to on the amount decreed to be paid to the Plaintiff should be decreed. If the full fees were paid to the heirs of the late Vakeel and in the event of its appearing to this Court at the close of its examination of the appeal that it was irregular to do so and that only the portion due on the sum decreed should be paid there is no means to recover the difference from the heirs of the deceased Vakeel and in the event of the difference being

Fort St. George 16th April 1840

being determined in the appeal decision to be collected from the Plaintiff it cannot be collected as he is a Pauper. There is also reason for the Plaintiff to object to the refund of such extra fees which was decreed by the Court and paid to the heirs of the Vakeel. The Collector with a view of preventing an unnecessary loss to Government begs that the Principal Sudr Ameen be required by a Precept from this Court either to postpone the payment of the Vakeels' fees until the decree in appeal is passed or that he may send only such portion of the fees he is entitled to on the sum decreed and pay it to the heirs of the late Vakeel.

No 3

Extract from the Proceedings of the Civil Court at Cuddalore dated 9th March 1840.

Read again Motion No 17 of 1840 presented by the Government Vakeel on the part of the Collector Defendant on the part of Government in Original Suit No 796 of 1842 on the file of the late Auxiliary Court appealing against a requisition made on him by the Principal

Fort St. George 16th April 1840.

Principal Sudr Ameen to pay to the heirs of the late Government Vakeel the fees payable to the Vakeel in the above suit.-

Also read the Principal Sudr Ameens Return dated 3rd February 1840. to the Precept of the Civil Court dated 23d January 1840 requiring an explanation.-

The Collector in his Motion makes two objections to the payment of the Government Vakeels fees.-

1st.

The first is that the fees have been calculated on the sum sued for instead of on the sum awarded as they are required to be by Clause first Section XXVI Regulation XIV of 1816 and the amount required to be paid is thus illegally large and the Collector states that the illegal amount of the fees awarded is one of the grounds assigned for the appeal which had been filed against the decree passed in the above suit.-

2- The second objection is, that if the amount of fees awarded is paid and they are subsequently disallowed by the appeal decree loss will accrue to Government as they will not be recoverable either from the late Vakeels heirs or from the Respondent

who

Fort St. George 16th April 1840.

who is a Pauper

3. In reply to the first objection the Principal Sudr Ameen observed that although Clause First Section XXVI Regulation XIV of 1816 prescribes ordinarily in all cases the mode of Calculation mentioned by the Collector, "yet Clause 3d of the same Section XXVI "Contains a Provision by which the Court of "Judicature are vested with discretionary "power to charge the fees of the Pleaders "to the parties in such porportions as may "appear equitable and proper on considera- "tion of all the circumstances of the Case."-

4 This answer does not appear to meet the Collectors objection. The Collector objects to the fees awarded being illegally large in amount and the Principal Sudr Ameen replies by referring to a clause which has no reference to the amount of fees payable to the Vakeels but only to the proportions in which that amount is liable to be paid by the respective parties.-

5 The amount is fixed and determined by Section XXV of the same Regulation. The total amount of fees payable in any suit does not depend

on

on the decree but the proportional Amount in which they are payable by the respective parties does depend upon the decree. The rule laid down in Clause First Section XXXI in awarding Costs ought in ordinary cases to be followed; but Clause third of the Section gives a discretion to the Judicial Officer which in this instance the Principal Sudr Ameen has exercised. The appeal decree though it should reverse the decree passed in the original Suit, can make no difference in the amount of fees receivable by the Vakeels employed in the original Suit. It can only make a difference as to the relative proportion in which the respective Parties are made liable for the Amount.

6 With regard to the Collectors second objection the Principal Sudr Ameen argues, that if Government (as a private party would be obliged to do) pays the fees and subsequently obtains a decree in appeal by which decree the Pauper Respondent is declared liable for them, should the Government be unable to recover them from the Pauper and suffer a loss Government will only suffer what all private Parties who defend

5388 Fort St. George 16th April 1840.

defend Pauper Suits and obtain decrees are obliged to suffer.-

7 In this view of the Case the Court entirely coincides.-

8 Whatever the result of the Appeal may be the Defendants Vakeel has a Claim to receive the whole amount of his fees-On this point the reversal of the Original decree will make no difference. The Vakeels right to receive a certain amount of fees will not be in the least affected by it. The appeal decree may possibly award that the Costs shall be paid by the Plaintiff instead of by the Defendant and the Plaintiff being a Pauper this part of the decree, it will probably be impossible to enforce, and the Government as the Collector observes will lose. But this is constantly happening to private individuals who are Defendants in Pauper Suits and who obtain decrees and costs. They have been obliged to deposit their Vakeels fees but though they have a right to do it they cannot recover the amount of them from their Pauper Opponent and are obliged to bear the loss themselves.-

9 The object of Section XXIII Reg. XIV of 1816 was, whatever the result of the trial might

might be, to ensure to the Vakeels their fees by requiring their previous deposit. This deposit was dispensed with as unnecessary by Clause Fifth Section XXXVII of the same Regulation as regards the fees payable to Government Vakeels in Suits Conducted at the escpence of Government because there could be no doubt of the fees being forthcoming as soon as they became payable, that is immediately after the decision of the Suit. It could not have been intended to place the Government Vakeels as regards fees in a worse position than other Vakeels, and make their receipt of them depend on the possibility of the Pauper Suitor being able to pay them. If this practice was established it would become the interest of the Government Vakeels to lose the suit in which they were engaged, as the Government being Cast and having to pay the Costs, their Vakeel would at once obtain his fees which he probably would not be able to do if his receipt of them depended on the Pauper Plaintiffs ability to pay them.-

10 The Collectors argument is a good argument for changing the law as regards ce Pauper Suits. But while the law remains, as it is, excessively oppressive to Defendants in a Pauper Suits, it is but fair and just that the Government should bear the evils of the law equally with their subjects.-

11 For the above reasons the Collectors motion is dismissed.-

To the Chief Secy. to Government.

Sir,

16th March in Cons. 16th April 1840 960

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of South Arcot requesting Sanction for the payment to the heirs of the late Government Vakeel of the Cuddalore Court the sum of Rupees 234-4-9 being the amount of the Vakeels fees adjudged to be paid by the defendant. the Collector in Suit No. 296 of 1842 on the file of the Principal Sudr Ameens Court.-

In Dft. Cons 19th Novr. 1845.

The Suit in question has since been appealed under orders of Government 13th November last and it will be seen that the Collector has presented a Motion in the Zillah Court objecting to the payment of these fees both on the ground of their being illegally large and in excess of the due proportion to the amount decreed against the Defendant in the suit. & also because if the Amount be now paid and the charge be subsequently disallowed on appeal the sum disbursed will not be recoverable either from the heirs of the late Vakeel or from the respondent who is a pauper. These objections has however been overruled by the Civil Judge who has dismissed the Motion made by the Collector and the Board beg therefore to request the Sanction of Government for the payment of the fees in question.-

To J. Pycroft Esqre
Secretary to the

Fort St. George

Sir,

(76)

From the Collr of Trichinopoly — } Paral. The Board are aware from former reports that a class of people in the District of Trichinopoly termed Maultars are in common with other high castes allowed the privilege of holding their land on the payment of half the usual assessment and they have directed that their holdings shall be restricted to their original "dittum" or to the extent of which they consisted in fusly 1218, A.D. 1808/09 and these privileges were extended by the Revenue Officers of the time to persons of the same class holding lands in the Jaghire of Runjanagudy which was not incorporated with the Circar lands till fusly 1220 A.D. 1810/11.

Reporting on the privileges enjoyed by the Maultars in the District of Trichinopoly and recommends that their fees should be held free of Tax during the lives of the present occupants—

2 Mr. Garrow, thro' whose means this indulgence was conceded, after having been suspended for some years, annexed to it a condition, Viz. that they should cultivate in addition to the lands in the occupation of which he found them, as much more as would yield an equivalent for the amount of Revenue which he had relinquished in their favor the additional extent of cultivation being also subject

subject to the payment of half assessment only
and he further permitted time to hold certain
topes of fruit trees entirely free of tax on condition
that they should make up for the amount of
revenue remitted on them in the manner above
described and these terms were likewise extend-
ed to the Rauttars of Runjanaguddy.

2 It is to the indulgence regarding
these topes that I now wish to direct the atten-
tion of the Board for it does not appear
that the circumstance was ever brought to their
notice indeed they do not seem to have been fully
aware of the very great extension of the in-
dulgence involved in Mr. Garrow's proceedings
in allowing the Rauttars to make up for the
remission of Revenue by cultivating the ad-
ditional lands they were required to take
up on favorable terms and I cannot but
think that the alienation of Revenue as
regards the topes at least was quite un-
called for and unauthorized and that the
circumstance should at all events be pro-
minently laid before the Board for their or-
ders. The existing state of things as regards
the other lands held by the individuals in
question I would not disturb.

4. I briefly examined some of the four
or five Rauttars as to the nature of the

rights and I have the honor to submit
translations of the depositions of six of them to-
gether with a specimen of the "Cowles" which they ad-
duced in support of the indulgence and the Board
will I doubt not concur with me in deeming
the whole as destitute of satisfactory evidence
in their favor. But considering the length of
time during which they have enjoyed the in-
dulgence I beg to propose that the Topes should
be held free of tax during the lives of the pre-
sent occupants and be assessed according to
the prevailing rates or in cases in which they
are entered in the accounts according to the ori-
ginal Settlement at their death and that the
privilege of holding land on payment of half
teerwah should be restricted to the extent of each
man's dittum in fusly 1218 A.D. 1808/09 as regards the occu-
pants of land on the first assumption of the
Country and fusly 1226 A.D. 1816-17 as regards the Raut-
tars of the Runjanaguddy Jaghire.

5. The total amount of remission of Tope tax
in favor of the Rauttars does not according to the
accounts exceed Rupees 1500. But I am not
satisfied that this really includes the whole
of the Topes and when I receive the Board's instruc-
tions I will proceed to ascertain the facts correctly

6. It is as well to mention that the Hon'ble Roommamak of the District provides for the restriction of the cultivation of land by the Nauttars on favorable terms and that I have issued particular orders that the rules should be attended to.

Proceedings thereon:—

Requesting the Collector of Trichinopoly to furnish more specific details regarding the alienation of the topes in his District in favour of the Nauttars.

76-77

In referring to the former correspondence
to this office it does not appear, as observed by the Collector
that the circumstances regarding the alienation of the Topes in
favour of the Nauttars has ever been authorized, or in any way
brought to notice by the local authorities, and the Board
have no further information before them than what is
contained in the present communication, before proceed-
ing therefore to issue any instructions in reference to the suggestion
of the Collector for their future control and disposal they
deem it desirable to be furnished with more specific
details upon the subject—

The Board wish to be informed, as far as may
2. be now discoverable, of the particular circumstances which led
to the permission of these parties to hold the Topes rent free,
and the terms upon which they were originally granted, and
whether there were any conditions of service attached to them,
or privileges resumed, in lieu of which they might have been
conferred, also their extent and value when made over to the
former grantees in the time of Mr. Garrow, by whom the arrange-
ment appears to have been made, and at the present time—

3. The Collector will at the same time ascertain
whether these topes are in the possession of the original Hold
ers or in that of their immediate descendants or have passed
out of their hands to other parties by sale mortgage or otherwise—

4. The Collector will be pleased to submit
a Statement according to the accompanying form shewing the number
of Villages in which Nauttars are permitted to hold lands or Topes on
favorable assessment, the extent of land formerly cultivated by them and the
excess engaged for at the time of Mr. Garrow and the amount of such now
brought under the plough and also the number, extent and assessment of
the Topes, when originally made over to them, rent free, and at the present time—

From the Collr of Trichinopoly

Replying to the Boards Proceedings on the subject of the Rules proposed by Mr Pelly for supplying Carts to Troops.

Sir,

Para 1. I acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue under date the 12th February, communicating the Extract from the Minutes of Consultation dated the 13th January 1846 on the subject of rules proposed by Mr. Pelly for supplying Carts to Troops. I observe that it is intended to prepare for publication a revised G. O. to be substituted for the G. O. G. of the 9th August. I presume therefore that the rules included in the communication under acknowledgement are not to be considered as being in operation yet and I trust with reference to the frequent calls which are made upon me to supply carriage for troops marching from Trichinopoly I may be permitted to offer a few suggestions on the subject. If I am in error in supposing that the rules are not to be brought into operation till the publication of the revised G. O. it is necessary that I should solicit the recall of the Board regarding some of them the exact meaning of which I do not clearly comprehend.

2. The first point which appears to me

5208. Fort St George 16th April 1846.

me to require determination is that of registering Carts. The necessity of this measure is obvious but I submit that unless it is made imperative on owners to register of their Carts subject to some penalty the rule will be inefficient. I would therefore propose the adoption of the rules laid down in the accompanying Memorandum. I conceive that as Government is now engaged in large undertakings for the improvements of the roads and as they exact no tolls the obligation to register Carts cannot justly be complained of while it will tend greatly to prevent unnecessary Lordship by enabling the public authorities to avoid pressing the same bandies too repeatedly. Moreover if Registry is rendered obligatory and each bandy liable to be pressed is distinguished by a mark there will be less room for the exhibition of partiality on the part of the public servants.

3. Rules 2. 3. 6—11 and 12 alluded to in para 6 of the Extract Minutes of Consultation Military Department, are omitted in the Extract from Mr Pelly's rules forwarded to me and as some of them (particularly rule 11) are referred to in the other rules the omission is important if the communication under acknowledgement is intended to be the rule for my conduct in the matter in question.

4. If it is intended in rule 19 that

that the full hire for 10 Miles is to be 8 annas when the whole distance does not exceed 100 Miles and 12 annas when it exceeds 100 Miles- I beg respectfully to state my opinion that the rate is unsufficient and that it should be increased to 12 in the former case and 14 in the latter- It is true that a private individual in requiring a few bandies can procure them at lower rates than those proposed by Mr Pelly but if he were to require as large a number as the Magistrate is called upon to supply and it is to be recollected that the Magistrate is only to furnish carriage when private negotiation has failed to procure it, he would have to increase his payment upon the commonly received principle of supply and demand- In the case of carriage pressed to accompany troops there are manifestly many other weighty reasons besides the mere fact of large demand for enhancing the rate of hire- tho perhaps none but those who have been unfortunate enough to have had much experience in the duty of procuring carriage on such occasions can fully appreciate the difficulties with which it is surrounded- It will perhaps suffice to mention one instance to shew something of the magnitude of the evil (an unavoidable evil certainly but which no less on that account requires all the palliation which can be afforded) which the necessity of

pressing occasions- It is this During the time when customs were received on goods in transit the falling off in the receipts at Trichinopoly was so great is to shew that those had almost ceased for nearly 2 Months during which bandies were required for troops-

3 Again in rule 19 it is provided that a portion of the hire should be retained by the Magistrate (if I understand the meaning of the clause rightly about which I am very doubtful) to be paid on the exhibition (to the Magistrate) of a certificate from the Commanding officer of the Regiment that the carts have arrived at their destination and that the Cartmen have fulfilled the terms of the Contract I consider that this rule will operate with very great severity- It seems to assume among other things that the Cartmen will as a matter of course, at once return to the place where they were hired and that the advance (whatever it may be) is sufficient to pay all their expences backwards and forwards whereas they may find it to their advantage to proceed elsewhere and in the event of their desiring to do so they will under the rule have at all events to await the reply of the Magistrate to the Commanding Officers communication before they can get their due-

an

Fort St George 16th April 1846-

an obvious remedy for this difficulty is that the Commanding Officer should pay the balance due at the end of the journey.—

6- In regard to the payment of the advance of hire and the batta to be allowed under rule 21st it is not clear in what way the Magistrate is to be reembursed for the Money he may thus advance on behalf of Government—

7 The rule under which the further "batta" alluded to in rule 22 is to be paid has been omitted-

8 Strict observance of the 26th rule proposed by Mr Pelly is very desirable- Few things have tended more to create embarrassement in procuring carriage than the very unfair proceeding alluded to by Mr Pelly of compelling Carts just arrived at the end of one journey to proceed take another. I am credibly informed of instances in which Cartmen have under the pressing system been bandied about from place to place for years- None but persons most patient of oppression would endure such treatment- and nothing can have a greater tendency to increase aversion to the service in question. The dread that something of this sort was in contemplation was the cause of great embarrassement in procuring carriage for the 1st Light Cavalry which recently marched from Trichinopoly—

Proceedings Relative to the Settlement of the Extra Sources of Revenue in the District of Coimbatore for Fusly 1254 A.D. 1844/45.

Decrease Fusly 1254.

Gross Increase	33099-9-6	
Net Decrease	106289-"-1	

entered in the Margin it will be seen that there was a net decrease of Rupees 106289-0-1 on the demand on account of the several branches of Extra Revenue in the District of Coimbatore in the year under report in comparison with that of the preceding Fusly, resulting from a gross increase of Rupees 33099-9-6 and a gross decrease of Rupees 139388-9-7.—

Sayer-P.2
Stamps-P.11

2. The decrease in the Sayer and Stamp Revenue of Rupees 135962-15-7 and Rupees 3425-10-" respectively, was caused by the operation of Act VI of 1844, and the subsequent withdrawal of the Chowkies on the Mysore Frontier—One of the items composing the Sayer Revenue Viz. "Duty on Tobacco supplied to Travancore and Cochin," exhibits

a decrease of Rupees 23908-9-5 which is merely nominal—Previous to Act VI of 1844 coming into force, the Sayer duty on Tobacco supplied to those States amounted to Rupees 29-6-4-80 per Candy of 640 lbs but was reduced to 10 per Cent ad valorum under Schedule B of that Act—to counteract the loss which the Public Revenue would sustain by this change the Government authorized the difference of the two rates to be added to the fixed price at which the Tobacco was supplied, so that while the receipts under the head of "Duty" would shew a falling off, the "Profits" would increase in proportion as explained in the figured statement noted in the Margin.—

Sundry Farms &c.a-P.6
Moturpha-P.13

3. The demand on account of Abkarry, Sundry small Farms and Moturpha exhibits an increase of Rupees 3887-"-" Rupees 44-12 and Rupees 4922-14-11 respectively—The two first items require no particular remark with respect to the Moturpha the Board are glad to observe the great improvement in every branch of this tax, as well as to learn that abolition of the Sayer duties has given a greater impulse to the trade of the country

ar

as exemplified by the additional number of new Looms which the Principal Collector states have been established during the year under report.

Sandalwood year 87

4. The revenue derived from the sales of sandal wood, Teak, Elephants and Ivory was Rupees 862-3-9 in excess of that of the preceding Fasly. Mr. Wroughton states in reference to the observations of the Board in P. 5 of their proceedings dated 27th February last, that the value of the Timber sold to Parrinatk sing in Fasly 1252 was Rupees 544-15 and the Revenue derived from the sale proceeds of Teak and Blackwood in the Government Forests of Seegoor and Teppacardoo during the same period was Rupees 225 making a total of Rupees 769-15-0

Para 8

5. The Principal Collector observes that the stock of Sandalwood has accumulated in the Bavaney coodul Depot to the extent of 589 Candies and that not a single offer had been received for the purchase of any portion of it up to the date of his report. Of the above quantity 10 Candies were forwarded to Madras for experimental sale and were recently disposed off by Public auction at the office of the Acting Collector of Sea Customes. where the prices

obtained for the 5 different sorts of which the consignment consisted averaged about 90 Rupees per Candy. The Board have recently received applications from certain Native Merchants offering to purchase the whole of the Sandalwood now in store at Coimbatore at the rate of 56 Rupees per Candy. the Subject is now engaging the attention of the Board and they have intimated to the Principal Collector that they will be prepared to give due attention to any enhanced offers that may be tendered for the purchase of the whole stock with reference to the result of the late sale, failing which, they have suggested that a further consignment be sent down for disposal at the Presidency.

P. 9

6. During the year under review 22 Elephants are reported to have been captured of which number one died 8 were retained for working the Government Forests for the supply of Timber to the Bombay Presidency, and the remaining 13 were sold by public auction realizing Rupees 2759. being inclusive of the sale proceeds of 2 Elephants transferred to the Commissariat in Fasly 1253 and subsequently sold being pronounced unfit for the service of that Department.

P. 10

7. In this para the Principal Collector states that 1003 Teak Beams were prepared and sent beyond the limits of his District, 594 of which had reached the Coast and

and the remainder were delayed on their transit down the River Nunganpally from a failure in the freshes. The Board observe with satisfaction the great efforts which are reported to have been made by the Teak Establishment during the year under review to meet the demands for Timber from the Bombay Government.

Tobacco Increase Rupees 23382-10-10

8. The "Profits" on Tobacco supplied to the native States of Travancore and Cochin during Fusly 1254 amounted to Rupees 23,382-10-10 above those of Fasly 1253 which arose partly from an increase in the quantity supplied, and partly from the transfer to the head of a certain portion of the gain, hitherto carried to the credit of "Duty" as explained in para 2 of these proceedings

P 15

9. In their proceedings of the 27th February 1845, the Board called for a detailed information in reference to the Extra Revenue Report of Fusly 1253 as to the manner in which the price of the Tobbacco had been regulated so as to exhibit a profit of Rupees 1766-8-4. on the quantity supplied to Travancore and Cochin in that year. In the present report the Principal Collector has entered into the necessary explanation, from which the Board learn that the charges of Purchase of Tobbacco,

of Sillendy Veraon the quantity of Tobacco received during every three months were proportioned on the quantity purchased during that period the average cost to Government per Candy was then ascertained which formed the Standard price for the succeeding quarter. this system appears to have been introduced under instructions from the Accountant General.—

10 The fluctuations in the average

Costs of the Tobacco, while it seems to adjust the accounts between the two Districts of Mala and Coimbatore, do not affect the Convention price at which it is sold to the native States of Travancore and Cochin as referred to in Para 2 of these proceedings. the difference between the quarterly price, and the amount at which it is sold to those States, constitutes the Government Profits, which are more or less per Candy as the quarterly price fluctuates.—

The

11 The Net Revenue of fusly 1254 shews a decrease below that of the preceding Fusly by Rupees 105984-11-7 this result is solely attributable to the abolition of the Sayer Duties and reduced sale of Sayer Rowanahs in consequence.—

From Collector of Madras 3 3 Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 26th January last accompanied by a copy of the correspondence with Government therein referred to, and to submit herewith for publication in the Official Gazette a revised Table of tolls leviable on Cochrane's Canal with translations in Tamil and Telugu.

It will be observed that this Table includes the several articles the insertion of which was authorized by the orders noted in the Margin, and that it is drawn up in the form of the one which was retransmitted with my letter of date the 8th December last No. 91.

Ordered that the following letter be sent in reply —

To the Collector of Madras.

Sir,

(101-101)

To the Collr. of Madras

Requesting him to revise the Table of the rates of tolls proposed to be levied on Cochrane's Canal

1 I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 27th ultimo submitting a revised Table of Tolls to be levied on Cochrane's Canal with Translations in the Tamil and Telugoo Languages —

2 In reply I am instructed to inform you that the Board observe that the Conversion of fanams into annas and pice has been pursued to Cents of a pie — this minutenes is unnecessary and in practice could not be carried out, you will be pleased therefore to omit the Column of Cents — when the fractional part of a pie exceeds 50 Cents, a pie should be charged, when it falls below that proportion the fraction need not be taken into Account —

3 In item No. 14 the Board think there must be some mistake — They imagine it should be per 5000 instead of per 500 Brattics —

4 The rates on the articles from 10 to 24 both inclusive appear high — The Board request

request you will reconsider this portion of the toll table and report whether some reduction might not be effected in these rates without prejudice to the Canal Revenue, and if so to specify the reduced rates which you would propose to adopt stating also what quantities of the several sorts of goods referred to have passed down the Canal on the average of the last three years—

5 In respect to Items 25 to 30 it should be specified whether the Toll is per piece or per Bundle or half Bundle respectively—

6 The Number of Coolly loads to which items Nos 1-2-3 are to be deemed equivalent in Column 2 may be omitted the heading of the Table and of the other Columns may also be altered as shewn in the Margin—

7 In the 1st B. to the Table it is stated that Boats passing or repassing the Canal from Cautiously to Cautionee should pay

Table of Rates of Toll & Charges to be levied on Goods conveyed in Boats passing or repassing on Cleves and Cautionee Canals—

Articles	Quantity	Rate of Toll & Charges

pay a toll of annas 7-5-6o. per Boat load for all sorts of goods, the Board beg that in the situation of these places and the nature of the traffic generally carried on between them may be explained, and why the toll is to be charged by the boat load only without reference to the description of Goods Conveyed—

8 The Table and Translations are returned herewith, and you will be pleased to revise them under the foregoing instructions.

To the Chief Secty to Government

Submitting with reference to the Order of Govt. dated 28th Decr. last Letters from the Collrs of the Provinces in which Sugar is principally produced explaining the course followed in their respective Districts in granting Certificates of origin for Sugar under the provisions of Act XV 1839 and stating that the Govt has only to instruct the agents employed by them in the purchase of Sugar to execute the declaration A of the act whilst the Sugar is under their charge before certifying Officers of the Districts in which may have been produced & the certificates will be granted

In Con. 15th Jany 1846

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of an Order of Government No. 1498 23d December 1845 requesting them in reference to the representation made by Mr. Groves of Chittoor to report the general practice which is observed in obtaining Certificates of Origin for Sugar under the provisions of Act XV. 1839.

2. In reply the Board instruct me to submit for the information of his Lordship

From Ganjam 27th January Con. 5th February 1846. in Council the
From Vizag. 2d in Con. 12th March " accompanying
" Rajah. 26th Jany. in Con. 5 February " replies which have
" Bellary 23d March in Con. 2d April " been received

" Chingleput 21st in Con. 26th January " addressed by this
" S Arcot 21st in Con. 26th " " " Office to the Collectors
" N Arcot 10th in Con. 16th February " of the Provinces in
" Salem 5th in Con. 12th February " which Sugar is
principally produced

requesting them to explain the course followed in their respective Districts. It will be seen that in the absence of the real owner of the Sugar it had been the practice in Some districts to grant certificates of origin upon declaration A of the Act being executed by an agent, if such Agent be in charge of the Sugar - in others also on declaration made by an agent, but it is not clear whether such agent is required to have the Sugar in his charge or not.

3. The practice of granting certificates upon a Declaration taken from an agent not in charge of the Sugar does not appear to be in accordance with the provisions of Act XV 1839 inasmuch as such agent cannot be said to be "a party

Fort St. George 16th April 1846.

"party in possession of the Sugar" as required by the terms of Section II of that Act The Board however as they stated in their last communication upon the subject, are of opinion that by that expression is to be understood not only the owner of the Sugar but the party having it in his charge, and the replies now submitted from the Local Officers show that they are prepared to grant certificates on declarations executed by such parties. Under this view Mr. Groves has only to instruct the agents employed by him in the purchase of Sugar to execute the declaration A of the act whilst the Sugar is under their charge before the certifying Officer of the District in which it may have been produced and the required Certificate will be granted.

To

The above observations are of course applicable only to the Districts under the Madras Government the practice obtaining in Mysore not falling under the Cognizance of this Office.
