Extract from the Proceedings of the Board of Revenue.—

Relative to the terms on which lands cultivated by wells should be granted in the Districts under this Presidency.— /Here enter 12th Sept. 1816. No. 639/

Para 1. In considering the highly important question brought before them in the foregoing proceedings, it is not necessary for the Government to enter upon the discussion generally, of the policy of taxing improvements on the land made by the Capital of the Ryot;— as the Right Hon. in Council observes, that the great principles, which should guide the Government and the Revenue Authorities upon this point, and in disposing of the question now submitted by the Board, have been already clearly and fully laid down by the Honorable Court.—

2. In their Despatch of the 21st August 1812 No. 25 Revenue Department the Honorable Court have recorded the following observations.—

"Para 31" "The question discussed in
"paras. 22 to 28 of the Proceedings of the Board
"of Revenue dated the 7th October 1809. as to the

"the degree of encouragement to be afforded
"to the Construction of New Wells is one of very
"great importance and has often been touched
"on in our correspondence with you. The
"practice which has apparently prevailed
"in Cuddapah is to levy no additional de-
"mand on land irrigated by Wells con-
"structed by the Ryots themselves. The
"instructions which we have always en-
"joined on this subject have been, as observed
"by the Board of Revenue, that the Ryot should
"in all cases be allowed to enjoy the benefit
"of any improvements he may have effected
"on his lands without any additional charge
"until he should have been not only amply com-
"pensated but liberally rewarded for the
"labour and expenditure which he may have
"applied. We quite agree in the view taken by
"the Board that it is not reasonable that the
"Government should forego all chance of
"prospective advantage by limiting its claim
"on the land in perpetuity, and we are of
"opinion that the advantages given under
"our orders to the Construction of New
"Wells hold out quite sufficient encourage-
"ment. We must not be misunderstood

"which on the Contrary we are anxious, on account
"of the greater certainty of obtaining the means of
"irrigation in case of failure of the usual rains,
"to see Carried to the utmost practicable ex-
"extent. There is however reason to ap-
"apprehend that the grant of needlessly
"great advantages to the construction of
"new Wells is not the most effectual mode
"of attaining that object, and that the result
"may rather be the transfer of Cultivation
"from land watered by old Wells and con-
"sequently subject to the higher rate of
"Teerwah, than any absolute increase in the
"aggregate quantity of Well Cultivation."

"32" "In all Cases, where the assess-
"ment of the old Garden land may be
"too high, it is our desire to see the old
"rates reduced to a Standard which,
"with reference to the intrinsic qualities
"of the Soil, may restore them to their
"original value in the estimation of
"the Ryots." And the Court close these
instructions with the order, that "in the
"ultimate decision on this point, the opinion
"of [illegible] have at different times ex-

Most Noble the Governor in Council is fully satisfied, upon a careful review of the whole question that if these sound and enlightened views of the Honorable Court are steadily carried out, they will prove at once highly advantageous to the Ryot and to the finances of the State.—

3. The Government have therefore only now to consider the proceedings of the Board with reference to these opinions; and to issue such instructions, as may enable the Board to frame a set of Rules, which shall embody the principles laid down by the Court, and ensure their uniform observance throughout the Presidency.—

4. The Board have observed that the subject of enquiry is inapplicable to Malabar and Canara; and that in the greater part of the Northern Circars, the practice of constructing new Wells is little known, and from their

their proceedings, it is obvious, that at present no one system exists.— That in the same District, one rule is in force in one part of the District, and another in a different part, and that in the several Districts where new Wells have been formed, in some, they are subject to an additional cess— in others to none; and that the rates vary in adjoining Districts without apparently any ex- ground for the difference.—

5. The practice now existing in the different Districts may be thus briefly stated.— In Nellore, the most expensive Wells only, are exempted from addi- -tional demand.— In all ordinary cases, the period is limited to that sufficient to reimburse the Ryot— after which, the full wet or Garden tax is imposed.— But in Villages surveyed and under Ryotwar entire exemption in perpetuity is the rule— In Salem and South Arcot it appears, that the land is not liable to

to any extra cess. inconsequence of wells being dug. but this indulgence is of recent origin.—

6. " The former practice in Palnad appears to have been, a partial exemption for 4 years. 25 per Cent of the higher rate being added in each succeeding season. In Bellary since the Survey, it has been open to the Ryots, to hold land under new wells, without any additional tax, provided they threw up no old land. and as recently on the authority of the Collector, a further limit has been imposed. confining this privilege to Ryots, who shall have previously cultivated as Apsanum (or old land of the best description) assessed at not less than ½ Canteroy Pagodas.—

In Cuddapah the original condition was the same as in Bellary, but it appears to have been but little attended to

to, and all attempts to impose an additional cess have been evaded. It is of some importance to notice in this place, that under the System in Bellary but 1005 wells have been constructed since the Survey to July 1848 from 1807 to 1838 "while in Cuddapah, the restriction having been less carefully enforced "the number has amounted in the same period "to upwards of 11,000"

Rec'd Rev. Proceedings from 15th Oct. 1839.

In Masulipatam and Chingleput a proportion of the land irrigated from the new well ranging from ¼ to ⅒ is allowed to be held rent free, or the improved land is exempted from Extra demand for a given period.

In North Arcot, Tanjore, Trichinopoly, Madura, Coimbatore and Tinnevelly the custom is to impose an extra cess on all lands improved by private capital, equal to the whole, or, to a part only of the rate of the higher class, into which the land thus irrigated is converted. The enhanced demand being made in some cases immediately, in others after a longer or shorter period, and in Coimbatore, the Ryot constructing a well has the special privilege of Adhinam or the right

Revd R.T. Proceedings Para 15. 7th Oct. 1839.

In Masulipatam and Chingleput a proportion of the land irrigated from the new well ranging from ¼ to ⅒ is allowed to be held rent free, or the improved land is exempted from Extra demand for a given period—

In North Arcot, Tanjore, Trichinopoly, Madura, Coimbatore and Timevelly the custom is to impose an extra cess on all lands improved by private capital equal to the whole, or to a part only of the rate of the higher class, into which the land thus irrigated is converted— the enhanced demand being made in some cases immediately, in others after a longer or shorter period, and in Coimbatore, the Ryot constructing a well has the special privilege of Adhinanam or the right

right of reclaiming the wells relinquished at any period on payment of charges of repairs.

His Lordship in Council also gathers from the proceedings of the Board on different occasions that the number of wells constructed in all the districts with the exception of Cuddapah, Coimbatore and Bellary is limited, and that no great obstacle will arise to the immediate and general enforcement of the principles laid down by the Court of Directors. This is further confirmed by the annexed Statement obtained from the Office of the Board of Revenue. This Statement shews that the well land with the exception of Bellary, Cuddapah and Coimbatore bears a comparatively small proportion to the entire land under assessment. For these Districts it is respectively 12 8 and 24 per cent in all others it falls to 8 per cent and below, and it will not be necessary therefore to sacrifice any large amount of present revenue to place wells old and new on an equitable relative assessment. The Statement also tends to shew that in those Districts where well cultivation has

See also Sir Thomas Munro's opinion quoted by the Board in para 19.

has not been greatly favored there it has but little advanced and no great extent of well land exists.

8. His Lordship in Council will now proceed briefly to notice the points in the Honorable Courts orders which appear to require attention from the Board. The great and primary object in view in withholding out inducement to the construction of new wells is stated by the Court to be "the greater certainty of the means of irrigation in the case of failure of the usual rains" which is peculiar therefore which it will be necessary for the Board to frame will be so to limit the indulgence or the advantages proposed to be extended to well cultivation to those wells alone which can fulfil this condition. They must consequently be of such dimensions and depth as to ensure a fair supply of water in seasons of ordinary drought. A rule framed upon this principle should also contain in it a provision under which land irrigated by wells sunk to more than the usual depth by which water and a return of produce is secured in seasons of excessive drought, should be assessed as still were favourable

Lands

terms. The Board will also consider whether it will be advisable that more favorable terms than ordinary should be extended to localities peculiarly subject to and distressed by drought; and where consequently peculiar facilities should be afforded for the increase of well cultivation. And further whether this may not perhaps be best effected by extending to the term fixed for bringing the land under full assessment five or ten years additional.

9. This limitation of the privileges to be granted to well cultivators, to be prescribed by the Board will observe, to be proposed so far as the Court have expressed their anxiety "to see well cultivation carried to the utmost practicable extent."

10. The Government observes also that the foregoing principle which limits the advantages to wells which are available in seasons of drought, excludes tanks and unimportant works like those noticed in para 24 of the Board's Proceedings, and will properly confine the benefits conferred, to capital expended on works of permanent benefit to the country.

11. Should the Board consider it expedient in any particular Districts to

afford special indulgence to the manner works referred to, they will in that case lay down distinct rules, and not mix them up with the general rules they are here required to frame. And His Lordship in Council apprehends that the principles of the present Cowlenamah for waste land, on that formerly observed in Poliaud of an annual increase of 20 to 25 per cent will be a sufficient guide in cases of this nature.

12. The point next in importance to which it appears necessary to call the attention of the Board, is the revision of the rates of assessment on the wet lands. They are now too high. This is perhaps more regretted in Cuddapah than elsewhere. But the evil there existing appears to His Lordship in Council to arise out of the Ryotwar system prevailing in that District, under which the land is subdivided into so many numerous classes or terrams, as to place the soils of inferior quality or land in the less favorable sites, on such reduced rates of assessment, compared with the better quality or more favorably situated soils, as to hold out a constant temptation to the Ryot to lay out his capital upon the inferior but lower assessed

Dry 19 rates ranging from 1 shanteng Pagoda to one fanam per acre.
Garden 20 rates ranging from 10 shanteng Pagodas to 8 fanams per acre.

upon the said lands. The Board have stated on this point (Proceedings para 9) that the Principal Collector of Cuddapah has given his opinion "that the old Gardens would be deserted in consequence of the great increase of new wells which has of late years been generally dug in the lowest assessed lands, paying only a few fanams per acre." It is not necessary for His Lordship in Council to point out the evil of thus turning off agricultural capital and labour to the inferior soil of a District, nor the permanent loss to Government which must follow, if either the old wells and the superior soil of the country are abandoned, or the Government demand on the superior soils so reduced, as to enable them to compete with lands thus highly assessed even "at a few fanams;" this subject will deserve the best attention of the Board and the rule should be carefully framed upon the principle stated by the Court of Directors, so as to effect without any great sacrifice of revenue, a full remedy for the existing evils.

13 With reference to the term during which the Ryots or Meerasidars should be permitted to hold land under new wells, before it is made liable to the full assessment, the Board have noticed, that at Bombay 30 years have been assigned and the Honorable Court in their Despatch of the 3rd August 1831 name the same period. But as they justly observe, this will probably be sufficient for full remuneration "even in the most expensive works" It is evident therefore that in all other cases be more than is necessary, and if carried out generally would involve an

an unnecessary sacrifice of Revenue or as the Court state it, concede "needlessly great advantages to the construction of wells which they add "is not the most effectual mode of attaining that object." Under this view and bearing in mind the value at which land ordinarily sells not exceeding in most districts a few years purchase; and the large and certain returns from Wells. His Lordship in Council is disposed to consider as a general rule that 15 years exemption with a half or other favorable assessment for a further term of seven years will hold out ample inducement to the investment of capital and prove fully sufficient to secure the land holder a liberal return for his expenditure.

15 The Board will take into their best consideration the policy of clogging the outlay of capital with conditions, like those imposed (and made more stringent by the Collector upon his own authority) in Bellary. If any restrictions are absolutely necessary to secure the Government rents which ought not however to be under a well devised system, they must be imposed as sparingly as possible and under the Board's orders. The Board will also

The Board have stated on this point (Proceedings para 9) that the Principal Collector of Cuddapah has given his opinion that the old Gardens would be deserted in consequence of the great increase of new wells which he adds were generally dug in the lowest assessed land, paying only a few fanams per acre. It is not necessary for His Lordship in Council to point out the evil of thus turning off agricultural capital and labour to the inferior soil of a District, nor the permanent loss to Government which must follow, if either the old wells and the superior soil of the country are abandoned, or the Government demand on the superior soils so reduced, as to enable them to compete with lands thus newly assessed even at a few fanams. With these observations the Government concur generally in the views expressed by the Board in paras 27 to 29 of their Proceedings and they approve of the rule proposed at the close of para 29 that the land under new wells constructed under existing Cowlenamahs should be placed upon the same footing as well land under the new rules in all cases where this may be favorable to the Ryots.- Or in other words that the holder whether the original party contracting the well or not be entitled to the term of enjoyment conferred by the amended rules or Cowlenamah on works of the same class if the original Cowle was less favorable to

the Governor in Council would desire the Board to take into their consideration when dealing with this subject the highly important instructions of the Court of Directors in their Despatch of 18th May 1825 para 20 where they observe when pointing out the policy of leaving to the Ryot the full benefit accruing from improvements effected by his own industry and means.-

"Neither is there any reason why
"this advantage should be confined to the
"case of digging a well. If the Land for example
"is prepared for a more valuable species of
"produce is planted with valuable Trees or in
"any way rendered more productive by the
"exertions of the occupant improvement will be
"the more extensively promoted the more completely
"the benefit arising from it is allowed to be
"enjoyed by him who makes it.- We therefore
"direct that in no case shall any additional
"charge be made upon any Ryot in consequence
"of any improvement which he may have
"made upon Lands in his occupation till
"after the lapse of such a period as may
"afford him not only an ample compensation
"but a liberal profit upon the labor and
expenditure

expenditure which he may have applied.

17. The expediency of practically carrying out these enlightened and just views at this period is obvious, when it is an object of so much importance to encourage the raising of more valuable products which shall command a foreign market and render the soil of this Country of ten-fold more value than it is at present. and His Lordship in Council looks to the Board to give them practical and early effect. satisfied that all great and general improvements in the productions of the Country can only be obtained by securing to the Ryot certain and ample compensation for all labor and capital expended upon such improvements. and that if this is denied to the Ryot it will be in vain to hope for the general introduction of superior species of produce or of any article requiring an outlay in the first instance a risk of his Capital.

Under date the 3d March 1846.-

From the Secretary to the
Board of Revenue (Fort St. George 9th February 1846 No 68)

To
The Most Noble the Governor in
Council &c &c &c

Para 1.- Council has given his best attention to the observations recorded by the Board of Revenue in these Proceedings, and he is unable to see in them any thing of sufficient importance to induce an alteration of the views of Government as stated in the Minutes of Consultation of the 8th August last.-

The Board appear to the Lordship

P.g B.s Pra: 2- in Council in a great measure to overlook the essential distinction which exists between the occupation or the lease of an Estate by a middleman, who farms the Government & revenue and whose object and sole means of profit are in the rents he may exact from the Ryots and a lease to parties who have no such object (See para 6 of the Board's proceeding) but who rent with the view of bringing the land under more skilful and profitable Culture and who look for their gain to

to the production of a more valuable article for external Commerce.

3. His Lordship in Council is also impressed with the opinion that on the present Circumstances of the Ryots it is hopeless to expect from them the introduction of foreign and superior Canes or that they will spontaneously adopt unusual and more expensive but better modes of Cultivation This it is scarcely to be doubted Can only be done by European enterprize and Capital. The Board in adducing the instance of the extended cultivation of Indigo in the Cuddapah District appear not to have adverted to the fact that the Kurpah Indigo is at this time an inferior article in the London market and that the plant is the ordinary indigenous plant of the County requiring no particular knowledge nor skill in raising Whereas if the Sugar of India is to be made a more valuable product and to compete with other sugars in the home market it must be by the Cultivation probably of foreign but certainly of the better species of Cane and by skilful management of the land His Lordship in Council does not therefore perceive the analogy supposed by the Board advanced in para 13 of their Proceedings.

4. He

* See Circular Order Board of Revenue Fort St. George No. CXXV para 16.

4. He also observes that the Board are in error in assuming that the opinion of the Honorable Court and the Supreme Government referred to in the proceedings of Government applied only to leases of "Waste and unclaimed lands" the Board will find that settled and Cultivated Estates were referred to by these authorities.*

5. His Lordship in Council does not consider it necessary to follow the Board through their several arguments. The reasoning in para 12 and 14 does not appear to Government well founded and some of the Statements of the Board tend rather to support the views of Government. He is not also of opinion that any weight is due to the Boards argument in para 11. The interests of Messrs. Arbuthnot & Co. and the Cultivators are identical and if the Ryots are dealt liberally with there can be no question of the peace of the District nor of the permanent advantages which the whole body of ryots of Palecondah and Bongiaram as well as the Province itself must reap by the success of the efforts made to promote the Cultivation of a superior Cane upon a large scale.

6. With these views and adverting to those expressed by the Government in the Minutes of Consultation of the 8th August last and to the opinions now submitted of the Local Officers and the replies of the Agent Acting on behalf of Messrs.

* See also para 28th Agents Letter of 18th Nov. 1845.

Para 34th

Fort St. George 20th April 1846.

Messrs. Arbuthnot and Co. to the questions proposed by the Board The Most Noble the Governor in Council resolves to accept the offer of Messrs. Arbuthnot and Co. to lease the Estate of Palcondah with Koonjaram for Rupees 115000 Per Annum His Lordship in Council considers the experiment of too great importance to the interests not solely of this Estate but to the District of Vizagapatam to decline the proposal of that Firm. It appears moreover from the Statement laid before the Government by the Board and from the opinions expressed by the local Officer that if this Estate remains in the hands of Government it is not probable that a larger revenue will be obtained than the rent offered by Messrs. Arbuthnot & Co. His Lordship in Council does not see cause therefore to depart from the views of Government as contained in the

see Agents letter to the Bd. 12 June 1845.

† On the other hand it will be observed that the Net Revenue of last Fasly only amounted to Rs. 106027 and I do not expect that it will exceed, if it comes up to a lac in the present Fasly.—

The Cultivation of the poorer description of lands is falling off owing to the difficulty that is now experienced in procuring a Market for the produce at remunerating prices and I have no expectation that the average Revenue of the Taluk in future years if it remains in the hands of Government will be equal to that of the past.—

the Minutes of the 8th August 1845. But it is to be clearly understood that Messrs. Arbuthnot & Co. will not be entitled under the lease to collect Meturpha, nor any thing beyond the land tax from the Ryots.

7. The Government consider it unnecessary and inexpedient to introduce in the lease matters of detail sufficiently provided for by the Regulations. The Board will prepare a draft lease therefore, drawn out in that form, which shall in their view place Messrs. Messrs. Arbuthnot and Co. to the questions proposed by the Board The Most Noble the Governor in Council resolves to accept the offer of Messrs. Arbuthnot and Co. to lease the Estate of Palcondah with Hoonjarum for Rupees 115000 Per Annum His Lordship in Council considers the experiment of too great importance to the interests not solely of this Estate but to the District of Vizagapatam to decline the proposal of that Firm. It appears moreover from the Statement laid before the Government by the Board and from the opinions expressed by the local Officer that if this Estate remains in the hands of Government it is not probable that a larger revenue will be obtained than the rent offered by Messrs. Arbuthnot & Co. His Lordship in Council does not see cause therefore to depart from the views of Government as contained in the

see Agents letter to the Bd. 12th June 1845.

†On the other hand it will be observed that the Net Revenue of last Fusly only amounted to Rs. 106027 and I do not expect that it will exceed, if it comes up to a lac in the present Fusly.-

The cultivation of the poorer description of lands is falling off owing to the difficulty that is now experienced in procuring a market for the produce at remunerating prices and I have no expectation that the average Revenue of the Talook in future years if it remains in the hands of Government will be equal to that of the past.-

the Minutes of the 8th. August 1845. But it is to be clearly understood that Messrs. Arbuthnot & Co. will not be entitled under the lease to collect Melurpha, nor any thing beyond the land tax from the Ryots.

7. The Government consider it unnecessary and inexpedient to introduce in the lease matters of detail sufficiently provided for by the Regulations. The Board will prepare a draft lease therefore, drawn out in that form, which shall in their view place Messrs. Arbuthnot & Co. in the position best Calculated to secure the application to them of all the Regulations in force and to provide most effectually for the supervision and interference of the Collector and Agent on behalf of the Ryots, should disputes arise. The Board will name the periods at which the instalments of Rent are to be paid, and whether at Madras or in the District and they will insert a clause requiring Messrs. by Messrs Arbuthnot & Co. for a further term of five years on the same rental provided the Government is satisfied from the report of the local Officer that the ryots are thriving, and that the great object of Government in the lease the extension of a better mode of cultivation and of better Canes is progressing satisfactorily.

8. The Board will be pleased to furnish a Copy of their Proceedings and of these Minutes to Messrs Arbuthnot & Co. and carry out the instructions of Government with as little delay as practicable.

To The Chief Sect. to Government Submitting draft of a lease of the Palcondah & Hoonjaram estates in the Vizagapatam District proposed to be granted on behalf of Govt. to Messrs Arbuthnot & Co. with draft of the Counterpart to be executed by those Gentlemen. Encl. 20 April 1846

Sir,

Para 1. With reference to Para 7 of the Extract Minutes Consultation 3d Ultimo I am directed by the Board of Revenue to forward for submission to the Most Noble the Governor in Council the accompanying draft of a lease of the Palcondah and Hoonjaram estates in the Vizagapatam District which it is proposed shall be granted on

on behalf of Government by the Collector and Government Agent in Vizagapatam to Messrs Arbuthnot & Co. as also draft of the Counterpart to be executed by those Gentlemen.

2. In Para 6 of the Extract it is stated that "the Most Noble the Governor in Council resolves to accept the offer of Messrs Arbuthnot & Co. to lease the Estate of Palcondah with Hoonjaram for Rupees 115,000 per Annum" It is subsequently added, "but it is to be clearly understood that Messrs Arbuthnot & Co. will not be entitled under the lease to collect Moturpha nor any thing beyond the land tax from the Ryots." The proposal of Messrs Arbuthnot & Co. (5th June 1845) was to rent the estate of Palcondah with Hoonjaram including all sources of Revenue for the Annual Sum of Rupees 115,000 "but they further explained that if the Government should prefer excluding the Moturpha from the other sources of revenue, they would have no objection to such an arrangement deducting from the Amount of rent to be paid by them in such case the Average Amount of the Collections under this head for the last ten Years" The Board presume that excluding the Moturpha from Messrs Arbuthnot & Co's lease it was the intention of Government that a proportionate reduction should be made in the rental They have therefore deducted Rupees 4092 being the average

average of the last ten Years Moturpha Collections shown in the Statement in Para 4 of the Agents letter of 12th June 1845. and have inserted in the Lease 110908 as the rent Amount and a Clause has been introduced prohibiting the Collection of Moturpha or of any other branch of extra revenue.

3 It will be observed that the rent has been made payable at Madras, which appears to the Board to be the most eligible Course, and which they have ascertained to be most Convenient to Messrs Arbuthnot & Co. The Board beg to request that the Sub Treasurer may have authority to receive the same, and be directed to notify the receipt of the several instalments to the Collector and Government Agent at Vizagapatam. The Sub Treasurer should also be desired in the event of any instalment not being duly discharged by the day fixed to report the default to the Collector and Agent in order that the Course prescribed in Clause III of the Lease may be followed.

4 The Board beg to add that the draft Lease has been shewn to Messrs Arbuthnot & Co. who have expressed themselves satisfied with its provisions.

Sir,

I am directed by the Board of Revenue

Int. 20th April 1846.

Revenue to acknowledge the receipt of Extract Minutes Consultation 25th March last, calling upon them to report, whether there is any other Province under this Presidency from which the services of a Sub Collector could be spared with less detriment to the public service than from Madura, and in reply to state, that the Board are unable to specify any Province, in which the abolition of the Sub Collectorate would not be attended with an equal degree of inconvenience and disadvantage to the public interests as may be expected to result from the discontinuance of that Office in the Madura District.—

* exclusive of Coravendoor transferred from Trichinopoly

It does not however appear that these exchanges have materially affected the revenue, which from the Statement in the Margin of the Settlements concluded annually would appear to maintain its average Standard, instead of deteriorating, the question nevertheless is of importance and admits of further investigation, and the Government will be glad to learn that the Board have arrived at some definite conclusions in respect of it—Their attention would be advantageously directed to ascertaining in the first instance the extent of land thrown

up, and that taken in exchange, with their relative averages for a long series of years, the causes which induce these exchanges, and if from favorable Cowles, whether the restrictions imposed upon the Cowle system, has as yet had any sensible effect upon the practice of relinquishing old patcut for lightly assessed waste—and further whether these exchanges do really tend to deteriorate the revenue as would seem to be the inference from the Board's previous proceedings, or whether they assist in maintaining it at its Standard.

P. 24 8 The Statement furnished by the Collector of the Settlement of the reverted Mootahs Compared with the Peishcush on them is not sufficiently in detail for the purpose required by Government viz: to ascertain the particular portions of the District in which the revenue has maintained its Standard, and where it has not, the causes which have tended to deteriorate it—The number of Mootahs reverted to Government is entered in the Statement at 208, whereas in the Settlement Accounts it is at 217. there is also a difference in the amount of revenue which is not accounted for, the Moturpha also has been added, whereas that included in the Apits in which the Permanent Beriz was formed it is believed, as much below the amount Collected by the Officers of Government—The Board have directed the Collector to supply additional explanation on this subject and

His Lordship in Council requests that that Officer may be required to submit a further Statement revised as far as practicable with reference to the foregoing observations.—

9. His Lordship in Council observes, that the Collectors' Report is on several points deficient in information, which the Board have now called upon him to supply. This information however might have been obtained during the three Months the report has been before the Board, as suggested in the 11 & 14 paras of the Extract Minutes Consultation 23d July 1845, which would have rendered another Years' delay in disposing of the several subjects unnecessary — His Lordship in Council is also of opinion, that the Collector ought to be requested to furnish the details on the old outstanding balances, amounting to Rupees 3,854-10-11 as soon as practicable, and not wait to embody the same as required by the Board in his next Summabandy Report.—

From the Agent to the Governor of Fort St. George Ganjam } Para 1. I have had the honor

Submits his sentiments in regard to the arrangement proposed by the Ag. Agent Mr. Smollett for the Settlement of the Private debts of the Zemindar of Berdee in Ganjam—

to receive the Extract from the Minutes of Consultation of Government under date the 26th December 1845, and the Proceedings of the Board of Revenue, dated the 22d January last, by which I am directed to submit my Sentiments in regard to the Arrangement that has been proposed by Mr. Smollett for the settlement of the private debts of the Zemindar of Berdee in this District—

2. The most important and urgent claim against the Zemindar of Berdee, as shewn in the Schedule of his debts submitted with the Acting Agents letter of the 4th November last, is that for Rupees 45,484-9-2 under a Decree passed by that Officer on the 25th October 1845. The Plaintiff in this Suit is Bundum Sobnia Sumbar the Cash Keeper of the Collector's Cutcherry, which Office one of the Members of his family has filled since the commencement of the Company's Authority in the Ganjam District. The family are wealthy Sowkars of Ganjam, who formerly had very extensive pecuniary

pecuniary transactions with some of the Zemindars in this District and are the same parties who many years ago purchased the Mopahary Zemindary when sold on account of Arrears of Revenue, but, Serious disturbances ensuing the Country was restored to the Ancient Family on a compromise arranged by the Commissioner Mr. Thackery—

3 Among others the Boredy Zemindars had from an early period money dealings with these Bankers who were in the habit of obtaining from time to time an assignment of Villages, and latterly for a Series of years, they had the entire Management of the whole Zemindary, of which they made the Collections, and paid the Government Peshcush, being at the same time the bankers and Managers of the Zemindars affairs. The last period for which the Country was assigned to these Bankers terminated in the year 1836- since which they have not obtained a footing in the Zemindary. The present suit was instituted upon a Bond for Rupees 24. 375— " — " executed in the year 1839 in favor of the Plaintiff by the Zemindar of Boredee among other matters the Defendant pleaded in answer to the claim, that the Plaintiff had not fairly accounted for the Collections during the time that the Zemindary was under his exclusive control and Management; and that if the accounts of these transactions were adjusted, the Plaintiff would be found

found to be indebted to him to a considerable Amount In the Decree, this plea is set aside, the Defendant being directed, if he see fit, to bring a seperate action against the Plaintiff for the recovery of any claim he may have arising out of the Plaintiffs Management of the Zemindary- It was at the same time ordered that Execution of the Decree should be stayed for a period of three Months, to allow of the Defendant instituting a suit for his alleged claims on the Plaintiff-

4- I am directed to state whether I consider the arrangement proposed for the payment of the Zemindars debts by an advance of funds from the Treasury necessary or advisable for the preservation of the peace of the District, and to afford information as to the locality of the Zemindary, with reference to the Hill Tracts and the Government lands- I beg to explain that the Small Zemindary of Boredee is situated on the North banks of the Koothcoola River which seperates it from the Government lands of the Pobacondah Taluck- On the West and North it is bounded by the Cullecta Zemindary, and on the East by the Small Zemindary of Moomah and the lands of the Government Boondah of Gunjam- A strong range of Hills lies between Boredee and Cullecta, but the whole of the rest of the Zemindary is perfectly open and the Ryots are peaceable

peaceable and orderly class of men, and the feudal retainers of this samuttanum are very few in number. Whatever might be determined in regard to the Zemindary, there appears to me no reason to apprehend the slightest resistance or opposition to constituted authority, but there is at the same time no question that the sale of this Ancient Zemindary for Sowkars debts, would be an extremely unpopular measure, and that the purchaser would necessarily be most unacceptable to the people of the Country, and if the new Proprietor is not prudent and Conciliatory in his Management he would be likely to meet with a good deal of annoyance which might call for the interference of the authorities, and in every point of view, it is extremely desirable that the Estates should not be brought to sale. The compromise between the Creditors and the Zemindar of the whole of their claims according to the settlement proposed by Mr. Smollett, would at once or effect that object in a manner highly satisfactory to the parties, if the Government will consent to authorize the Advance of the funds applied for, and if the sale of the Estate could not be obviated in any other way I think it would be advisable that the Government should lend its assistance for this purpose — —

5. In respect to the Decree in Suit No. 29 of 1840 I think that execution cannot equitably be

enforced pending the adjudication of the counter claims of the Zemindar, provided that within a reasonable time he takes measures for bringing these claims to trial. Moreover under Clause 3d. of the 23d. of the Rules for the guidance of the Agents, in the execution of Decrees against Rajahs and Chiefs whom it may be deemed proper to exempt from the ordinary process, it seems to me that it is not absolutely imperative to sell an Ancient Zemindary in execution of a Decree, while any other equitable mode of satisfying such a Decree exists. Such, as payment by instalments out of the accruing surplus revenue of the Estate. If this view as to the discretion to be exercised in the execution of the Decrees of the Agents Court be correct, there would not be an absolute necessity for bringing to the Board a Zemindary to sale, in satisfaction of the Decrees passed against the Zemindar, and a Chief ground on which the application for an Advance of Funds from the public Treasury rests would be removed. It seems moreover deserving of remark that several others of the Ancient Zemindars are also deeply involved in debt, and in the event of their Creditors obtaining Judgments against them, and pressing for execution, claims to aid from the public Chest not less cogent than those that have been brought to notice might arise, where a sale of the Zemindary would certainly be attended with much pain of the

Serious

serious disturbance of the public tranquility—

6— Referring to enquiry of the Board whether it is probable that the Zemindar of Bendee will abstain from involving himself in fresh liabilities in the event of his being relieved from his present embarrassments, I beg to state that my opinion of the improvidence and entire want of ordinary discretion of character of this Zemindar is such, that I am convinced the impossibility of obtaining credit has only prevented his further involving himself, and if relieved from his present difficulties. I fear that the privations he has experienced for several years would scarcely prevent his contracting fresh debts on usurious terms

7. Since the above Paras were written a Razeenamah Motion has been presented in this Court by the Plaintiff and the Vakeel on behalf of the Defendant in suit No. 29 of 1846, the principal conditions of which are to the following effect— That the Defendant relinquishes all claim whatever or against the Plaintiff arising out of his Management of the Berdee Estate or on any other account whatever the Plaintiff consenting to receive Rupees 18000 in full of all claims, provided that the Sum be paid at once in Cash by an advance from the public Treasury in the manner recommended by the Collector. Otherwise if the Government shall decline to authorize an advance of funds

funds for this purpose, the Plaintiff consents to receive 30,000 Rupees in full of all claims, the same to be paid in twenty instalments, at the rate of Rupees 500—— per Annum, through the Court, as long as the Estate shall remain under the Management of the Agent— In the event of the Estate being made over to the Zemindars own Management previous to the whole Amount being paid off, that he is to continue paying the stipulated annual instalments, and failing to do so, that payment shall be enforced by the process of the Court, until the whole shall have been cleared off—

8— This arrangement has been settled between the parties without any Mediation or previous Knowledge, and the terms are more favorable to the Plaintiff than from my general acquaintance with the nature of the transactions between Pewhard and Hill Zemindars, I should have desired to see— arranged; but I have ascertained that the Defendant comprehends and consents to the conditions of the Razeenamah— The parties to the Suit having mutually agreed to these terms of compromise and moved that the Court do pass an order confirming the same, there appeared to me to be no objection to admitting this Arrangement, with the proviso that the rights of the other Creditors who have also obtained or may obtain Decrees of the Court against the

the Defendant, shall not be prejudiced thereby for it appears to be proper that the other Decrees against the Defendant should be liquidated by instalments in the same manner as the claim of the Plaintiff in Suit No. 29 of 1840.— The surplus revenue annually becoming available for the discharge of the debts, being distributed among the parties in due proportion of the Amounts of the respective awards

9. In the event of the Government not seeing fit to authorize an Advance of funds from the Treasury for the discharge of the zemindar's debts the prospect of his obtaining the restoration of his Estate will be very remote, no money allowance has hitherto been made for the Maintenance of the zemindar since the Country has been under the Collector's Management. A small hamlet forming the jaghеer of his first wife in Sefh in her enjoyment, and the family have been dependant upon this source for subsistence, but the income it yields about Rs 303 0 0 per Annum scarcely suffices for the merest necessaries There are four other small hamlets of the aggregate annual value of Rs 572-9-6 and paying a Cattle duty of Rupees 109-8-11 held by other near relations of the zemindar, but these members have a great and can afford no ability to the Zemindar all arrears of Peshcush have now been cleared off, and the Estate will only remain under trust for the liquidation of the hereditary debt. I think it will be proper to give the zemindar a moderate allowance which with the produce of the Village will enable him to live in some degree of comfort, while the Estate remains under management. I would accordingly purpose with the Board's permission to make an allowance of Rs 50 per mensem to the Zemindar for his personal & private

Ordered that the foregoing letter be submitted with the following address.—

To the Chief Secretary to Government.—

To the Chief Sec.t to Government.—

Submitting a letter from the agent in Ganjam reporting with reference to Board's Proceedings of Consultation dated 20th Dec.r last the Course which in his opinion he most properly adopted for the relief of the distressed Zemindar. Stating that the Board cannot support the proposal of the late acting agent Mr. Sinclair recommending that the agent Mr. Bannerman be directed to place himself in communication with the creditors of the Zemindar with a view to effect an arrangement with all parties having claims upon the Estate also supporting the recommendation of the agent that an allowance of 50 Rs per Mensem be assigned to the zemindar in addition to the small Village which he now possesses

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes Consultation 20th December last transmitting to them the applications made by the acting agent lately in Ganjam, in his letter dated 4th November 1845, for an advance of Rupees 20,000 to the Bereddy zemindar on the security of his Estate, to relieve at this time from his private embarrassments, in view to their requiring Mr. Bannerman the agent to give his consideration to the subject, and submit his sentiments in full for the information of Government. It is further requested that the agent may be called upon to state whether he is of opinion that the arrangement proposed for the payment of the zemindar's debts is necessary or advisable for the preservation of the peace of the District, with the grounds upon which that opinion may have been formed, and desired further to furnish particular information as to the locality of the Bereddy Zemindary

possessed but which is inadequate for his support.

zemindary in reference to the Hill tracts and the Government lands. In submitting the report of the agent to Government the Board are requested to accompany it with their own sentiments on the proposition.

2. In reply the Board direct me to forward for the consideration and orders of His Lordship in Council the accompanying answer from the agent for Ganjam to the reference made to him upon the subject, giving in detail the explanations required on the several points specified in the Extract Minutes of Consultation and stating also the course which may in his opinion be most properly adopted for the relief of the zemindar.

3. Under the representations made by Mr. Bannerman, in regard to the improvidence of the zemindar and the encouragement which the discharge of his private liabilities from the public treasury would give to other no less cogent appeals to the liberal assistance of Government considering also that the continuance of the zemindary in the present family though very desirable is not indispensably

† 11th March in Cons. 20th April 1846.

necessary for the preservation of the peace of the District, the Board cannot recommend that the proposal of Mr. Smollett be acted upon, as however the Estate is at present clear of all public demand, there would seem to them to be no objection to the course proposed by the agent Viz.th that the claims of the principal creditor Bundaru Chinna Jumboo be discharged gradually, according to the Razeenamah which has been executed by the parties, from the surplus proceeds of the Estate, whether under management or in charge of the Proprietor, but without prejudice to any similar adjustment with the other creditors. Indeed as the zemindar and Sawcar have agreed to the arrangement it does not appear to the Board that it can be prevented from taking effect.

4. In Para 5 of his letter Mr. Bannerman has given it as his opinion generally that under clause 3 of the 23d of the rules for the guidance of the Government agent it is not imperatively necessary to sell an ancient zemindary in execution of decrees while any other equitable modes of satisfying such decrees exists, such as

payment by instalments out of the accruing surplus proceeds of the Estate. The rule referred to directs that "Decrees "against such Rajahs and other chiefs "as the agent may exempt from the "ordinary process shall be executed as "under such rules as may be specially "provided with the sanction of Government" In the letter now under submission the agent has confined himself to the consideration of the debt due to Pundum Chinna Tumboo who has by far the largest demand upon the Estate. It appears however advisable that an adjustment be at once made of all the demands upon the Beedee property the Board therefore beg to recommend that Mr. Bannerman be directed to place himself in communication with the other creditors of the Zemindar with a view to effecting if it can be equitably accomplished, an arrangement with all parties having claims upon the Estate on the principle of appropriating its surplus revenues rateably in gradual liquidation of their several demands, it being of course understood that the Government in no way pledges themselves for the discharge of such

debts

debts considering the period which must elapse before the Estate can, under the mode proposed, be freed from its embarrassments, and the facile character of the Proprietor, the Board cannot feel very sanguine as to the ultimate success of the measure, but the experiment may be tried it will in no way affect the interests of Government, and it seems to be very desirable that the Zemindary should, if possible be saved from passing into the hands of other parties.

5. It is not explained for what length of time it is proposed that the Estate shall remain under the charge of the agent but the Board recommend that he may be allowed to retain the management of it for so long a period as may be agreed upon between the Zemindar and his creditors.

6. The Board beg strongly to support the recommendation of the agent that an allowance of 50 Rupees per Mensem be assigned to the Zemindar in addition to the small village which he now possesses but which is evidently inadequate for his support. Unless some such moderate provision

provision be made for him it is not to be expected that he will abstain from involving himself in fresh embarrassments. This will leave the available surplus of the Estate according to Mr. Smollett's estimate at 2,400 Rupees per annually.

Surplus as calculated by Mr. Smollett Rs. 3000
Deduct allowance to zemindar 600
2400

It will be remarked that the party to whom the zemindar is the most largely indebted, Bundesapa Chinna Surabo, holds the place of Cash Keeper in the Cutcherry of the Collector and agent. It does not appear whether he filled that Office at the time when the debt was contracted, or when the property was under assignment to his family: and all connexion between them and the Zemindary seems to have terminated in 1836, or 10 years since. The Board will however call Mr. Barrow's attention to the circumstance and to the necessity of prohibiting all dealings whatsoever between the servants of his Cutchery and the Zemindars in the District.

From the Collector of Vizagapatam } Reporting on the arrears of Land Revenue for Fusly 1254 / 1844/45

In obedience to the instructions contained in an Extract from the Minutes of Consultation under date the 10th November 1845 I have the honor to submit the following Statements of arrears of Land Revenue outstanding up to the close of Fusly 1254 / 1844/45

I Demand Collection and Balance of arrears of the Aumanies Saloobs up to the end of fusly 1254.

II Statement shewing the arrears outstanding against Zemindaries and Proprietary Estates for each fusly the Collection and Balance up to 10th February 1846 of Fusly 1265.

III Statement shewing the amount recoverable and irrecoverable to the several sums asserted in statement No 1 of the Aumanie Balances.

IV Demand Collection and Balance of arrears of Succary outstanding against the Ryots of the Aumanies Estates.

Do. The annexed figured statement exhibits the Demand Collection and Balance of arrears for Fusly 1254 / 1844/45.

From the above Statement it will be observed that the Balance of Peishcush on Permanently settled Estates amounted to Rupees 64,203 4 4 as the commencement of the Fusly and that by Collections and Remissions it had been reduced up to the date of this Report to the sum of Rupees 64,203 4 4

The past season was so exceedingly adverse that I felt that I would not be justified in adopting any measurares of severity for the realization of the arrears for Fusles 1248 and 1250 (1838/39 1840/41) any attempt to do so would have materially interfered with the Collection of the Current Revenue. The defaulting Proprietors are deeply involved in pecuniary difficulties and the past and present seasons

seasons have been so unfavorable that their landed Estates instead of yielding them Profit, will entail on them a very considerable loss. I fear therefore that the Collection of these arrears must necessarily be postponed for a considerable time.

5.

The balance of arrears for Fusly 1253 (1843/44) is due by S. Padmanabarauzu the late Proprietor of the Condakerlah, Colour and Velchoor Codoor Estates which have since become the property of Government. Government has sanctioned the remission of the balances on the late Proprietor executing a document relinquishing all claim on the Ryots of the Estates, but he is still at Madras and I have had no opportunity of taking this document. The balance therefore remains in the accounts as outstanding.

6.

Of Rupees 39968-15-5 Balance of arrears on the Government Estates Rupees 12276-7-8 were stated in my last year's annual Report to be desperate. By a subsequent enquiry a further sum of Rupees 3,870-10-3 has been ascertained to be irrecouerable. The subjoined figured Statement exhibits the details, and I solicit sanction for writing outs of the accounts the aggregate sum of Rupees 18,147-1-11

7. In para 14 of the Proceedings of the Board of Revenue dated 23d May 1845 further information is required regarding the sum of Rupees 2,276-7-8 which as above stated I have already recommended to be written off. Most of these balances are due by individuals who still cultivate lands, and it was anticipated that some portion of the balance due by them might be recovered from the profits of future years, but the seasons have of late been so very adverse, that the circumstances of the cultivating classes have gradually declined and it is perfectly hopeless to expect to realize any portion of them. If we were to attempt it the Ryots would assuredly desert to the Estates of some of the neighbouring Proprietors, who would receive them with open arms. I consider it therefore perfectly unnecessary to retain these balances in the accounts.

8. A considerable amount of arrears is nominally due on Enams which have been abandoned by their Proprietors in consequence of their unproductiveness and the high rate of Cattubady imposed upon them. The Proprietors have in so many instances left the District, and their places of residence is unknown. So long however as they are retained in our accounts as Enams the Cattubady forms part of the demand, and of Course when not collected it becomes a balance.

9. The proper course will be to institute an enquiry and to resume all Enams, the owners of which are not forthcoming. The land will be transferred from the head of Enam Jeroyette, and the Assessment on it will only form part of the demand in the event of it being taken up for Cultivation.

10. The balance of Arrears of Succary amounting to Rupees 2 . . will be shortly collected.

Ordered that the foregoing report be submitted with the following address.

To

The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to request that you will submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Vizagapatam dated 11th February 1846 with Enclosures, reporting on the outstanding Land Revenue Balances of that District, and recommending that sanction may be granted for writing off to Profit and Loss the irrecoverable portion of it amounting to Rupees 18107-1-11 also stating that the Collr will be requested to incorporate with lands paying full assessment certain Enam lands the quit rent on which is included in these balances.

(26-27)

To the Chief Secy to Government

Submitting a letter from the Collector of Vizagapatam reporting on the outstanding Land revenue Balances of that District, and recommending that sanction may be granted for writing off to Profit and Loss the irrecoverable portion of it amounting to Rupees 18107-1-11 also stating that the Collr will be requested to incorporate with lands paying full assessment certain Enam lands the quit rent on which is included in these balances.

Fort St. George 20th April 1846

1. The outstanding Land Revenue Balances of the Vizagapatam District, and soliciting sanction for writing off Rupees 18107-1-11 due by the Ryots of the Government Estates.

2. The total amount of arrears, Proprietary and Ryotwar, ending with fasly 1253 / 1843 Fuh and outstanding at the date of the Collector's letter was Rupees 95174-3-9 and is distributed as follows:-

Proprietary	64203-1-4
Ryotwar	30908-15-5
Succanie	2 " "
	95174-3-9

3. Of the Proprietary portion, the sum of Rupees 15504-7-2 is the Balance of fasly 1253 / 1843 Fuh against the Condaderlah, Colloo and Velchoor Estates, which will be written off in conformity with the sanction of Government to that effect as soon as the late Proprietor J. Pudmanabarauze executes an agreement relenquishing all claims against the Ryots of the Estates. The collection of the Proprietary Balances amounting, remaining to Rupees 48098-13-2 is unavoidably postponed in consequence of the embarrassments of the parties respectively by whom these arrears are due.

6. The arrears will be observed to commence from Fusly 1243 - The realization of any portion of this sum the Board consider to be altogether hopeless and I am accordingly directed to solicit that sanction may be given for writing off the amount to Profit and Loss.

7. The Balance of Cuccaree amounting

amounting to Rupees 2, will it is stated be shortly collected.

8. I am directed to add that the Collector will be requested to incorporate with lands paying full assessment the Enam lands, the quit rent on which is included in the Balances which form the subject of the present communication.

Proceedings thereon- P. 1.

[Here Enter No. 19]

Resolved that the foregoing letter be submitted for the orders of the Most Noble the Governor in Council.

Submitting a letter from the Collr of Nellore and recommending for stated reasons that sanction may be granted for adjusting in the Accounts of that District a difference of Ms. 133. 2611-23/40 on the quantity of Salt exported by sea from February to 5th Inst. 1845. and 4th July 1845.

2. The Board beg to explain that Salt intended for exportation by sea is received and sold by weight but for the sake of uniformity is brought to Account in the same manner as Salt sold for home and inland Consumption Viz. in Garces, at the rate of 925 6½ lbs per Garce. In the Accounts furnished by the Collector to this Office for the Quarter ending 31st March 1845 the salt received from the Manufacturers was converted, at the correct rate of 925 6½ lbs per Garce, but in the Accounts of the Salt sold for export the Salt was brought to account

account at the rate of 9870 lbs being 120 Su:
=dian Maunds at 82 lbs per Maund. The
Board pointed out the error to the Collector
and directed that the Conventional weight of
the Garce both in the receipt and in the sale
of Salt should be the same Viz. 9256½ lbs
and the Collector corrected his accounts
accordingly. It appears however that in
the accounts of Sales previously trans:
=mitted to the Accountant General the Garce
had been calculated at 9870 lbs, thus causing
a difference between the accounts furnish:
=ed severally to this Office and to that of
the Accountant General of Garce Morgals Inda 3/4
133 - 263 - 2
on the quantity exported by Sea from Febru:
=ary to September 1845. for the adjustment of
which the Board recommend that sanction may be granted

3. It will be observed that since October 1845 the
conversion of the Madras Garce has been in both
the Accounts at the rate of 9256½ lbs; no differ:
=ence will therefore occur in future.-

for Dasayee Enam in Pun:

=sumed while presuming the Enams of the family of Nadgowd of Adwanie Province and forward:
=ing for in:
=structions the original Purwannah granted by Subdar Jung Bahadur with trans:

the Notice of the Board of Revenue that on
the demise of Nagummah the last female
Incumbent of the family Nadgowd of Adwa:
=nee the Enams yielding a Revenue of Rupees 1837
have reverted to Government the family being
extinct and the deceased having left no issue
either Male or female, which subject was
treated of in Para 34 of the Summarbundy
report for Fasly 1245 submitted by the late
A. D. 1835/36
Principal Collector Mr. Robertson. The
Enams thus presumed include also the Enam
lands in the Village of Caranmunchee in the
Punchapollem Talook assessed at Cauteroy Pa:
=godas 38-14-7 or equal to Rupees 113-9-4 which
was not in the enjoyment of the Nadagowd
family, but appears to have been possessed
successively by Parsee Dasayees of the Adwa:
=nie Province.

2. In the year following that on
which the Enams were resumed, Konary
Row son of late Manoomunta row who enjoyed
the Enam in question complained of the resumption
to Mr. Robertson who ordered an enquiry to be made
in the Talook. But the enquiry does not appear
to have led to a final Adjustment at that time.
The Party consequently repeated the complaint

in

80 years of age.

in last year, I directed the Tahsildar to enquire and report by whom the Enam was enjoyed successive-
=ly on what ground it was included in the
Enams of Nadagowd resumed, and how it is
entered in the Accounts – I shall now proceed to
shew what was the result of the Amildar's
report –

3. The following Abstract exhi-
=bits the numbers of the lands now under
reference, and the mode in which they are en-
=tered in the accounts –

Items	Nos	Acres	Assess-ment	How entered in Survey & accounts	How entered in the Enam account of Fusly 1216	Remarks.
		Acres	Gs.	Ks.	a	ps.			
Dry	39	16	17½	24	11	5	Dasay Sewared-dy & others Na-dayee Enam	Nadagowd Sewareddy	
	192	26	22½	38	11	6	Nadgowd Sewareddy Sadayee Enam	Do:	Do:
	201	15	28 5/8	22	14	7	Do:	Do:	Do:	Do:
Wet	74	11	31 3/8	28	14	10	Dasy Narapah Yen Survaenam	Do:	Do:	The Wet land No 74 is entered in the name of the Ancestor of the present Complainant

It appears that the only ground which led to
their resumption, was that they appeared entered
in the Enam account in the name of Nadagowd
Sewareddy in Fusly 1216 but on the other hand
A.D. 1806/7:
they were actually and successively enjoyed
by the Dasayee and not by the Nadagowd Fami-
=ly as is proved by the Statements given be-
=fore the Tahsildar by the Potail, Curnums of
the Village and the Ryots who cultivated
the above land – In the Accounts prepared
subsequent to Fusly 1216 the same is entered
A.D. 1806/7
in the name of the Dasayee while there ap-
=pears nothing to justify the entry in the ac-
=count herein before specified, of the name
of Nadagowd – I conclude that the entry
was made by mistake –

The present Complainant Kenary
Row urges in support of his claim, that the
Village of Caramanchee in which the Enam is
situated has never been attached to Nada-
=gowd Seemen prior to the introduction of the
System of Nadagowd, that the Nadagowd of Ad-
=varie had in reality no Enam in the Village, and
that as on the Contrary the Village appertained to
Dasayees the Enam in question is theirs. Further the
Purwanah granted by Subdur Jung Bahadar on behalf

* Dated 17th day of Shawal in the Hejera 1262 –

behalf of the former Government to the Villagers of the 57 Villages allotted to the Dasayees, includes the Village of Karamunchee also; Again in the Sakeeds issued by some of the Officers of that Government the above Village appears entered.— The Original Purwanah of Subdur Jung is enclosed with translation as being the principal Documentary evidence in the matter for the information of the Board.—

See No. 38 in the list annexed to the Purwanah.

† Registered to be returned

5. Under these circumstances, there appears evidence that the Village of Karamunchee is a Dasayee Village, and accordingly I request the instructions of the Board. The total assessment of the Enam land is 113-9-0 of which a portion only assessed at 33 Rs was cultivated in Fusly 1254 A.D. 1844-45

3 of the above letter Nos. 39 and 7th seem to be Dasayee Nos. 192. 201. Nadagowd Enams. The Collector is requested to explain whether the Offices of Nadagowd and Dasayee did not sometimes exist in the same Village. what was the nature of those two Offices. whether the Enams in all the 57 Villages entered in the Purwanah have, with the exception of Caramunchee been enjoyed without interruption by the Dasayees. whether the Nadagowds have had any Enams in those Villages, and whether there are any other Dasayee or Nadagowd Enams in Caramunchee besides those mentioned in his letter. He will also be so good as to state whether it is established to his entire satisfaction that the Nadagowd, as is asserted, have never had any connection with Caramunchee and if so in what manner such entries as those in Col.s 5 and 6 of the Memo can be supposed to have been made in both the survey and Enam accounts. and whether there are any other Accounts in his Office which would throw light upon the subject.—

Sir,

With reference to the leave of absence from my duty granted me in the Fort St. George Gazette of November last, I have the honor to report to you for the information of the Board of Revenue and of Government that I have been compelled by sickness to leave this Colony and proceed to England for the benefit of my health.

A copy of my medical certificate certifying the necessity for my taking the above steps is herewith enclosed for the information of the Board of Revenue.

I hereby certify that I have been professionally consulted by John Henry Goldie Esqre Madras Civil Service, and am of opinion from the perusal of his case as well as from his own statement, together

together with his present Symptoms, that his health has not improved & during the passage from Madras:- and furthermore that he is not likely to derive any permanent & benefit by a residence in this Colony.

Under these circumstance I consider it absolutely necessary for the re-establishment of his health, that he should proceed to England by the earliest opportunity and accordingly I beg to recommend that a Furlough to Europe may be granted in lieu of sick leave

thereon, 1. The fall of Rain in the season under review is minutely described by Mr. Cochrane, and must on the whole be characterized as variable partial, and deficient producing different results in different parts of the District in the rates of the abundance or otherwise of the supplies. The general feature seems to be that the harvest result varied from 1/4 to 8/4 of a full one, though in some instances the results were more favorable. A heavy fall in December proved injurious producing a Blight, which destroyed the beneficial effects which might otherwise have been looked for. This net decrease was the result of an increase under the head of Teerwa Jaste (enhanced or additional Teerwa) on lands watered by new Wells in the vicinity of Tanks, Channels and in the Beds of Tanks, and on dry and garden Land converted into Wet, and also by an increase under the head of Fugle Jaste (2d. Crop) the two amounting to Rupees 7256. The decrease of Assessment coexistent with an increase of Land cultivated, is explained by the abandonment of a large portion of highly assessed land, and by the cultivation of a large portion of the more lightly assessed Bunjar Ayacut.

Para 20. 21. 4- The extent of Land actually cultivated and the Assessment thereon compared with Fusly 1253 exhibits a net decrease of Rupees 18708: This net decrease

is the result of a gross deficiency of Rupees 25560 reduced by an increase under the heads of Teerwa Jaste or additional Assessment and Fugle (Cocoanut) Bagayet amounting to Rupees 6852. The decrease in Doopand, and other Talooks under the head of Wet cultivation and Fugle Jaste was caused by insufficient supplies of water in the Tanks whilst the decrease in the Assessment of Dry land Garden, and Poonaa Amounted to Rupees 10496.

Para 24 to 27. 5- The Increased and Decreased under the head of Remissions are few and satisfactorily explained by Mr. Cochrane. The total amount of Increase is Rupees 9606 reduced by a Decrease of Rupees 5323 — to a net Increase of Rupees 4283: which taken in conjunction with the amount of Remissions ordinarily granted, and the insufficiency of the falls of rain, may be viewed as small.

" 28 & 29- 6- The net Berij of the year amounted to Rupees 2043384 short of that of the preceding Fusly by Rupees 8667 which compared with the average of the ten years preceding yields an increase of Rupees 91508 - -

descriptions of Land, Circar and Enam in
the past and preceding Fusly shews a de-
crease in the former of 7 Rs 3 Piee and an
increase of 1-5-10 in the latter. Mr Cochrane
assigns two reasons for a greater proportion of
Enam land being cultivated than of Circar-
Land- The first is the great extent of waste
Lands brought under Assessment in the Sur-
vey Accounts in proportion to those that are fit
for cultivation- and secondly the extraordi-

Paras 49-50-51. 13- The Statement exhibiting the average prices of the principal Kinds of grain during the last ten years shews that throughout the whole of that series, in no years have the prices of all Kinds been so low as in Fuslies 1253 and 1254 Plentiful harvests producing supplies exceeding the wants of the District, and the absence of external Demand, occasioned by similar abundance elsewhere, caused this extraordinary depression. The Report of the Acting Collector refers to the close of the Fusly or July, tho it is dated in November 1845, and no notice is taken of the rise that had occurred in the interval. As in all other Districts, the price of grain has risen in Cuddapah in consequence of the failure of the North East Monsoon

to a height that quite precluded the necessity of any remarks on its previous low value -

14- In obedience to the orders contained in Para 6. Minutes Consultation 19th July 1845, the Acting Collector has given an account of the Extent of Cotton and Indigo grown in the District. The Cultivation of Cotton is confined chiefly to 5 Talooks, and bears a proportion of about 10 per Cent on the whole Cultivation of the District. Owing to the great decline in the prices of Cotton since Fusly 1250 A.D. 1840/41 much of the profit derived by the Ryot has been denied to them -

Indent 4th Augt 1846.

15- Indigo Cultivation is general throughout the District, but principally in 6 Talooks, and not only on land watered by Tanks and Wells, but on dry lands. The proportion is the same as Cotton Viz. about 10 per Cent Factories are numerous, belonging to Natives as well as Europeans to whom the Ryots deliver the leaf on contract - The crop is cut 3 or 4 times during the year, and the profit to the Ryots, as well as to the Manufacturers, is considerable -

16- It is stated in the early part of the Report that the Ryots of the Guzzumcondah and Muddenpully Talooks have begun to feel the beneficial effects of the increased demand

demand for Sugar, chiefly for exportation. Mr. Cochrane's attention should be unceasingly directed to the advancement of the valuable productions referred to above, in substitution of Rice, and other descriptions of Grain from which in ordinary years a bare subsistence is almost all that the Ryot can look for, after the payment of the Government Assessment. Any facilities which can be afforded either to the cultivator himself, or to the party who makes advances to enable him, to extend his operations and improve his resources would meet with the favorable consideration of the Board. Mr. Cochrane will be pleased to take into consideration the means by which Merchants at the Presidency are at present able to make their remittances to distant and remote Villages, and report whether it be possible to give additional facility to their present means of transporting the large sums of money likely to be required by them.

specific Division of the rights of either party. The Board were not before aware of this anomaly and now desire to be informed of the extent of Land in question, the actual Cultivation, and what checks, if any, are in existence to prevent the Ryots from taking undue advantage of an arrangement under which it is as observed by the Sub Collector obviously easy for Enamdars, in Collusion with the Village Officers to appropriate the best portions of the land to their own use.

2. It will be observed on reference to Paras 4 and 5 of Mr. Maclean's letter of the 3d November 1835 that the Petitioner many years since resigned his 1/2 share of the Shotrium to his brother Veeraragava Raj with a stipulation that if instead of residing with his brother he chose to live separate he was to hold 10 Cawnies of land in Maunieum and receive an annual money allowance

Regarding Gadigaval land attached to the Mootah of Chandamungalum in the Namcul Talook

Sir

I have the honor to state for the information of the Board that Ramalinga Odian and Carroopa Odian Zemindars of Chandamungalum Mootah in the Namcul Talook presented a Petition to the late Sub Collector, requesting that they may be put in possession of certain Gadigaval lands attached to their Mootah, now under circar management, and that the Revenues collected thereon from Fusly 1222 to Fusly 1254 be also repaid to them. Copy of Mr. Brettle's letter dated 29th December 1845 on the subject is herewith forwarded and from the Records of my Office it appears that Gadigaval lands in the Mootahs of Valacoorchy Parampat. lumpatty and Chandamungalum had been taken under the Circar management as having been specially reserved by Government at the time of the permanent settlement, and the Revenues therefrom collected accordingly when the Mootahdar of Valacoorchy instituted a plaint in the Zillah Court of Salem in O. S. No 381 of 1821. to obtain possession of the lands in question, as also to recover the amount levied on them by

the Collector. The above lands, together with the amount of revenue collected, were given up to the Mootahdar, in pursuance of the decree of the Zillah Court, and on his further application to the Board the sanction of Government was received, authorizing the Principal Collector of Salem to pay the Mootahdar the sum of Rupees 197-4-8 being the amount of past Collections on the Gadiganel lands made over to him, and to give up that part of the cultivated Gadiganel land of his Mootah which was still retained as Government land this was accordingly done.

* 18th March 1843 Board's Proceedings 23d March

2 On referring to the accounts of the Sandamangalum Mootah, it is found that the Gadiganel lands were not excluded from the lands entered under the 3d head of the schedule referred to in the 3d Para. of the Board's Proceedings dated 20th July 1835, and agreeably to the provisions of that rule I consider the lands of the above description to be the property of the Mootahdar.

3 Referring to the Ayacut accounts of the Doormady year, or Fusly 1211 the extent of Gadiganel lands fit for Cul. tivation was Acres 196-6-4. to which adding a trifle excess of Acre 1-.-15 found where

Fort St. George 20th April 1846.

measured by Timmapiah the Tahsildar by order of the former Sub Collector Mr. Ogilvie amounted to acres 197-7-3 from which deducting acres 157-31-15 already in possession of the Mootahdar there are only 39-15-4 at present under the Circar management acres 38-29-6 of which bearing Teeruah Rupees 107-12-4 were brought under cultivation in Fusly 1254.

The extent of Gadiganel Punjah lands entered in the statements forwarded to the Board with Mr. M. D. Cockburn's letter of the 3d March 1827, as per Cymash Ayacut accounts, was acres 174-35-8, but acres 196-6-4 were entered in the Ayacut of Fusly 1211, making a difference of acres 21-8-12 in these accounts, which however cannot be made a matter of objection in accordance with the observations of the Board in Para 3 of their letter to Government 2d February 1843. The immemorial waste Punjah acres 210-23-10, and the Gadiganel lands Acres 196-6-4 entered in the accounts prepared at the time of the introduction of the Mootahdary system are included under the 3d head of the schedule above

referred to and a great portion of them is in the enjoyment of the Mootahdars. some of the lands of this description which is now under the Circar management and claimed by the Mootahdars. I consider to be legally theirs and should be adjusted according to the instructions contained in para 5 Board's proceedings of the 20th July 1835.

5 I therewith submit a Statement shewing the amount of revenue collected on the Jodigaiel lands and the amounts carried to account as well as those placed in deposit.

6 From the above the Board will perceive that the amount of Rupees 2.596-9-10 should be refunded to the Mootahdars besides giving up to them lands amounting to acres 39—15—& I would therefore beg to recommend that the sanction of Government may be obtained for disbursing the above amount and delivering over the land in question.—

Sir

I have the honor to transmit an original Petition presented by the Mootahdars of Sandamungalum in the Talook of Nameel dated June 1844 praying that certain Gidda-gavel lands lying within the Mootah of Sandamungalum may be made over to them and the collections made by the Circar from those lands from Fusly 1222 to Fusly 1254 may be paid to them with 2 Maharatta accounts showing the particulars of the lands and the sums collected.

2 The Petitioners prefer their claim on the ground that the lands in question were not excluded from their Mootah at the time of the permanent settlement.

3 On referring to the accounts it is found that the sums shewn in the Maharatta Memorandum amounting in the aggregate from Fusly 1225 to Fusly 1254 to Rupees 2588-12-10, have been collected from year to year on the lands referred to by Petitioners in consequence of their being supposed to

having been formerly covered with bamboos to belong to the Circar, of which Rupees 917-15-11 being the Collections from Fusly 1245, when it would seem that the claim was first preferred to Fusly 1254, have been kept in deposit and Rupees 1668-12-11 on the collections from Fusly 1225 to Fusly 1244 were carried to the account.

4 As I find after a careful examination of the original survey accounts for the Village of Sandamungalum that these lands were not excluded from the lands entered under the 3d head of the schedule referred to in the 3d Para of the Board's Proceedings dated 20th July 1835 in which it is ruled that lands of this description are to be relinquished to the Mootahs when they do not appear to have been specially reserved, I beg to recommend that application be now made to the Board that the full amount of Collections including the sum carried to the sun accounts and the sum in deposit, may be paid to the Mootahdars, and the

From 2nd to 21st Augt. Days 20.

of leave of absence, I on the 2nd August 1844, resumed charge of my Office from the Collector, who had conducted my duties during my absence. The Collector being at Cuddalore, it was necessary that I should rejoin at that Station, and during the days I remained there, my Cutcherry were engaged, in communication with the Collectors Establishments, in the preparation of the Summary accounts.

From 16th Dec. to 15th January 32 days.

On the 16th December, after an absence from Cuddalore of 4 Months, I again visited the Collectors Station for the purpose of making myself acquainted with the general business which had meanwhile been carried on in the Mooroor Office. Early in January I was offered the Acting Collectorate of Guntoor, and on the 14th of the Month was appointed to that situation, and on the 18th delivered over charge of my Establishments to the Collector. My remaining at Cuddalore during the latter part of the 32 days in question was therefore absolutely necessary and although the same necessity does not apply to the first part, I can hardly suppose that

that the Board wish altogether to prohibit the Sub Collector from visiting the Collectors Mooroor Station, or at least that he shall never do so, except under the penalty of losing his Extra tent allowance. If this be the case the Sub Collector will be denied that access to the Collectors records and that opportunity of becoming acquainted with the general Management of the district, which are afforded to every assistant and which are essential to qualify him for the discharge of the higher duties, which may hereafter devolve upon him.

The Board must be aware, that while at the Collectors Station my expenses in regard to tents and permanent accommodation for my Cutcherry are precisely the same as at other times, and as my residence at Cuddalore has I conceive, been neither unnecessary nor unreasonably long I trust that the amount of Extra tent allowance, now under explanation may receive their approbation & sanction.

Reporting that the situation of the Honskee Sheristadar was abolished & submitting certain arrangements for the approval of the Board

Sir,

In reference to the Board's Proceedings, I have the honor to inform you, that Tolasinga Chetty the Honskee sheristadar having been absent beyond the period of the leave granted to him for the Space of 14 days and his services being no longer required in the Sheristadar's Department, I have this day abolished the situation and have entertained the additional Establishments already approved of by the Board for the protection of the Frontier duties.

lately proposed to be employed on 45, which leaves an unappropriated balance of Sanctioned pay amounting to Rupees 34 Viz. the promoted Goomastahs' pay 31/2 and the balance of the Honskee Sheristadars' pay 2/.

3.- The Board are already aware of the very inadequate pay of several of the Servants in my Office particularly the Revenue Head Jawabnovees, the Magistrate Ditto and the Nuggad Head Goomastah, a Sayer Goomastah, and a Moochee, whose pay was formerly reduced, and I take this opportunity of earnestly bringing their claims to an increase of Salary to the notice of the Board. I believe their present allowances are considerably below those belonging to the same Officers in other districts, and I beg therefore with a view to remedy this to submit the following modifications of my Moyenzabitah:-

Resolution thereon. The Measures proposed in the above letter will be taken into consideration hereafter. Meanwhile the Board beg to call the attention of the Collector that in their letter of 5th January last they expressed their readiness to submit certain arrangements in his Honzoor and District Establishments if feasible for the orders of Government. without whose express sanction no new servants can be entertained. Under the circumstances represented there is no objection to the immediate discontinuance of the Cornikee & Heristadar. but the additional Establishments specified in Para 1 cannot be employed, nor the Office of Head Goomastah of Rupees 45 per mensem created, until

until the consent of Government be obtained. The Collector will therefore be pleased to cancel any appointments which he may have made and be careful to disburse no pay to the parties appointed.

From the Coll.r of Trichinopoly Replying to Letter of the 11th September last regarding the method to be observed in proposing Grants of remuneration for Village Moonseffs in the District of Trichinopoly.

Sir,

Para.1. I proceed to reply to your letter of the 11th September last, communicating the Board's wishes regarding the method to be observed in proposing grants of remuneration for Village Moonseffs in the District of Trichinopoly.-

2 In accordance with the Board's instructions I beg to send an abstract statement in the form which accompanied your letter- also 4 Statements exhibiting the several Villages in each Talook in which no emolument is at present attached to the Office of Head of the Village- the revenue and population of the Village- and the amount of remuneration proposed to be given- also

*
Nos 1 to 4

*
Nos 1 to 8 8 Statements exhibiting similar details in Villages in which allowances are enjoyed and in which it is not proposed to grant any further remuneration the whole comprising all the Villages in the District.-

Note Wet Talooks and Villages so designated as deriving their fertility from the rivers Cauvery

3. It will be perceived that the Villages in which there are no emoluments attached to the Office are all situated in the "Wet Talooks" they are also all "wet villages"

emolument

Coavery and Allerobon in contradiction to those which have not that advantage-

emoluments being attached to the Office in all the Villages of the dry Talooks and the dry Villages in the wet Talooks.-

4.- The cases in which I propose to grant remuneration anew is confined exclusively to those in which no emoluments are at present attached to the Office- and the total amount of the proposed remuneration is Rupees 4107 to be remitted from the revenue of immemorial waste and except in a few instances in which the Village may be destitute of immemorial waste -and I have endeavoured tho' with what success I am doubtful to adopt the scale in some measure to the proportion both of Revenue and inhabitants generally I believe the scheme is in accordance with the Board's intentions, and I may be permitted to observe and that the restriction of the amount of remuneration to the moderate bounds proposed is in unison with my own sentiments expressed during the former correspondence on the subject and confirmed by further experience- for I anticipate no very beneficial results from the measure altho' I am fully impressed with the propriety of endeavouring to produce them by the introduction of a more systematical method and by bringing the Office in question

question more immediately under the cognizance of established authority without which it is clear that it cannot be expected to be of any utility-

5 The total number of Village Moonsiffs is 1098 and that of them only 98 are not also Heads of Villages and that I will take immediate steps to provide for a strict compliance with the regulation- The reason why the enactment has not been carried out fully is simply because persons could not in all instances be found willing to hold the combined Office of Head of the Village and Moonsiff-

6.- "Rutlay Rusch" is the term used to designate the remuneration given to the Village Officers in those Villages in which it exists It is confined exclusively to the dry Villages and consists of a collection from the Cultivators varying from 5 to 5½ per Cent on the revenue of the respective Villages- It had to origin under the Carnatic Government, and the reason of its prevailing in the dry and not in the wet Villages is probably because the Revenue derived from the latter was collected in kind and the Village Servants most likely receive their remuneration in a similar way- the practice having fallen into disuetude during the irregularities which are well known to have pervaded in the Revenue administration under the late government and in the dry Villages the Collections of Revenue being made in ready money the practice of remunerating the Village servants in the manner above described and by grants of lands obtained In both cases the object probably was to avoid a direct draft upon the Great revenue.-

Ordered that the following Letter be sent in reply.

(60-62)

To the Pr. Coll.r of Madura

Informing him that the Bd. are of opinion that the allowances proposed by him to be granted to the Ramnad Palace establishment should be brought under the consideration of the Civil Court of Madura & if necessary eventually under that of the Sudr Udalut and directing that all the allowances exhibited in the list which accompanied the Comm.rs letter of 2nd March 1843 be discontinued & that in moving the Court for sanction for the Palace establishments to submit a statement of the allowance which shall be paid to the Members of the family & to such parties whether included in the Commissr.s list or otherwise as appear to have a claim to support from the estate.

To The Principal Collector of Madura.

Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 13th ult.o forwarding Statement in which is exhibited the allowance proposed to be granted to the Ramnad Palace establishment as compared with that proposed by the late Manager and that disbursed during the life time of the late Ranee under sanction of the Court of Wards.

2. In reply the Board desire me to state that the allowance which you have recommended Rupees 64 Monthly appears to them to be very reasonable and moderate. On further consideration of the subject they are however led to doubt whether, adverting to the present position of the Ramnad Zemindary, which is now held under attachment in virtue of a precept of Court, it is competent to this Office to authorize any expenditure, not immediately connected with the revenue management of the property. At the same time it is obviously but just and proper that until the question regarding the succession to the Estate be legally determined some provision should be made both for the support of the various Members of the Ramnad family and for maintaining in

the palace Establishment in such condition as the respectability of the family demands. Under all circumstances the Board are of opinion that you should bring the subject under the consideration of the Civil Court of Madura and if necessary eventually under that of the Sudr Udalut submitting the Statement of allowances now laid before the Board as containing the provision required for the maintenance of the palace Establishment pending the decision of the title to the estate by a Court of Law, and requesting the sanction of the Court for the disbursement of the amount from the proceeds of the Zemindary.

In Cons.s 20th April 1846.

3. From your letter of the 6th February last it appears that the Mother of the late Minor and Ranee Mooto Verayee Natcheyar continue severally in the receipt of the allowances of 500 Rs. Monthly granted to them while the Estate was under the Court of Wards. it is not stated whether the other parties specified in the List which accompanied

In Cons.s 16th March 1843.

the Commissioner's letter of 2nd March 1843 still draw the allowances therein allotted to them. Under the view now taken of the question by the Board they feel themselves constrained to order that all the allowances exhibited in that list be hencefor.th discontinued, but they direct that in moving the Court for sanction for the Palace Establishment contained in your letter now under reply, you will at the same time submit a Statement of the allowances which should in your opinion be paid to the Members of the family and to such parties, whether included in the Commissioner's list or otherwise, as appear to have a claim to support from the Estate, and that you will request the sanction of the Court for the disbursement of these allowances also from the funds of the Zemindary.

Board's Ltr. to Coll.r No. 1 dated 15th Feb.y 1848 in Cons.s 25th Feb.y 1848.

4. The Board observe that the procedure now suggested of applying to the Courts of Law in regard to the allowances to be granted for the support of parties having claims upon a Zemindary the succession to which is under litigation and for the maintenance of the family establishment has been pursued in Madura on former occasions.

Returning Petition No. 28 of 1846 with brief abstract of the circumstances complained of in it—

Returned

Sir

1. In answer to your letter of the 26th January received on the 3d. February calling for a concise Abstract of the subject alluded to in petition No. 28 of 1846— I have the honor to submit that, on the 21st April 1844. Marooden,

+ Marooden	1
Racken	2
Ondy Veeren and Petitioner	3
	4

One of 3 Co-partners of the Petitioner instituted a suit against him, under Regulation VII of 1831. claiming possession of one third of the Maday Coodoomboo Merasee or privilege of distributing water and Measuring grain in Pulvoy Carey and 3 other Villages in Shevagunga. setting forth that the Meerasee had always been held in 3 distinct shares, one of which belonged to Petitioner, each performing the duties by annual rotation, and that petitioners' objections against letting him Plaintiff take his turn, for fasly 1253. obliged him to bring the suit.—

2. On enquiry from witnesses and records it appeared the Meerasee was held in 3 shares to 2 of which the Plaintiff and Defendant were respectively entitled

Fort St. George 26th. April 1846

entitled, yet, as neither of the two proprietors of the remaining share came forward I looked upon them as willingly neglecting their share, and not to leave room for further dispute, I awarded on the 30th September 1844, the whole 3 shares to be enjoyed by the Plaintiff and the petitioner/Defendant/in equal portions, pending a future decision on any eventual claim for the 1/3 share.—

3. On subsequent formal claim of the abovenamed Racken and Vondy Veeren to the 1/3 share, dated 9th January 1845, having been fully established, I awarded it to them, on the 16th September following.—

Petitioners' right to the Merasee in question is confined to one third share only in the 4 Villages instead of to one half of the large Village of Pulvoy Curray, as pretended, nor did my Decree of the 30th September 1844 award him a moiety of the Meerasee of the 4 Villages unconditionally.—

Proceedings—

Proceedings thereon.—

Confirming the decision passed by the Pt. Coll.r of Madura under Regn. VII of 1831.— awarding to the appellant Moyen one third share in the Maday Coodoomboo Meerassy in Pulvoy Carray & 3 other Villages in Shevagunga Zemindary—

It appears that there are four parties connected with the Meerassee inquestion, the claims of two however Viz.t the 1st & 2d Respondents named in the Plaint are denied by the appellant who maintains that the right lies mutually between himself and the 3d Respondent.—.

2. In the enquiry consequent upon filing the suit before the Principal Collector under the provisions of the above regulation it appears that it was proved that the Meerassee right consisted of three shares one of which only was vested in the appellant, and not one half as asserted by him, that one other third share belonged to the third respondent, the remaining one third appertaining to two other parties who not having come forward in support of their claims were considered as intentionally neglecting so to do with a view therefore of providing for the due execution of the duties connected with the Meerassee the Principal Collector recorded a decree under date the 30th of September 1844 by which he recognized the rights of

of appellant and 3d Respondent Mauroothien to one third share of the whole Meerassee respectively and being of opinion that in the then stage of the proceedings a final decision could not be arrived at in respect to the remaining one third share, he directed that finding a further suit being instituted in regular course by the other parties connected with the right to the Maday Coodoomboo the complainant should perform the duty in fasly 1254 and 3d Respondent in the Ensuing year and during such time that they should enjoy the entire Emoluments connected with the Meerassee in equal proportions.—.

3. In a subsequent suit filed by the two parties on behalf of the un-appropriated third share it was satisfactorily established by evidence that their claim to that division of the Meerassee was valid and in the Principal Collectors decree of the 16th September 1845 the portion was awarded to them accordingly.—.

4. After due consideration of the claims advanced by the appellant in his appeal Petition and also of the circumstance

(63-64)

Proceedings thereon.—

Confirming the decision passed by the Pt. Coll.r of Madura under Reg.n VII of 1831.— awarding to the appellant Moyen one third share in the Maday Coodoomboo Meerassy in Pulvoy Carray & 3 other Villages in Shevagunga Zemindary—

It appears that there are four parties connected with the Meerassee in question, the claims of two however Viz.t the 1.st & 2.d Respondents named in the Plaint are denied by the appellant who maintains that the right lies mutually between himself and the 3.d Respondent.—.

2. In the enquiry consequent upon filing the suit before the Principal Collector under the provisions of the above regulation it appears that it was proved that the Meerassee right consisted of three shares one of which only was vested in the appellant, and not one half as aperted by him, that one other third share belonged to the third respondent, the remaining one third appertaining to two other parties who not having come forward in support of their claims were considered as intentionally neglecting so to do with a view therefore of providing for the due execution of the duties connected with the Meerassee the Principal Collector recorded a decree under date the 30th of September 1844 by which he recognized the right

of appellant and 3.d Respondent Maurootheen to one third share of the whole Meerassee respectively and being of opinion that in the then stage of the proceedings a final decision could not be arrived at in respect to the remaining one third share, he directed that pending a further Suit to be instituted in regular course by the other parties connected with the right to the Maday Coodoomboo the complainant should perform the duty in fasly 1254 and 3.d Respondent in the Ensuing year and during such time that they should enjoy the entire Emoluments connected with the Meerassee in equal proportions.—

3. In a subsequent Suit filed by the two parties on behalf of the un-appropriated third share it was satisfactorily established by evidence that their claim to that division of the Meerassee was valid and in the Principal Collector's decree of the 16th September 1845 the portion was awarded to them accordingly.—.

4. After due consideration of the claims advanced by the appellant in his appeal Petition and also of the circumstances

circumstances set forth in the Documents now before the Board, they are of opinion that the Meerajsee claimed by him to the extent of one half is held in three equal shares by the parties, and in the manner noted in the margin, and they therefore see no occasion to revise or modify the judgment of the Principal Collector in the case awarding to the claimants the shares to which it has been Established by documentary and oral testimony that they are justly entitled to hold. —

Endorsement on appeal Petition

"The Board of Revenue having duly considered the circumstances stated in this appeal Petition and the documents submitted by the Principal Collector see no grounds for modifying the decision come to by that authority awarding to the appellant one third share in the Maday Coodoomboo Meerajsee in Palvoy Caray and 3 other Villages in Shevagunga Zemindary and they accordingly reject this alleged claim to hold one half of such Meerasee in lieu of

of one third to which alone it has been ascertained that he is entitled. —.

From the Pt Coll.r of Madura—

Sir,

In reply to the Board's Proceedings of the 6th Instant, observing in the 2d para, that I had not stated, in reference to an observation of the Sub Collector in a Correspondence submitted with my letter of the 6th March, whether I wished an investigation into fraudulent appropriation of Gov.t lands by the Proprietor of Yerrasekkanaikoor to be continued or not but that I had shewn my readiness to supply any accounts required, that the Board can see no reason why I should have brought that correspondence before them— and expressing their regret at the tone in which I had permitted myself to address the Sub Collector I have the honor to submit the offer of any accounts was a sufficient indication of my concurrence in the Sub Coll.rs undertaking the enquiry he seemed to wish, that the object of the reference was to renew my request for his removal from Madura previously negatived by the Bd.s proceedings of the 5th February last, & the correspondence was meant to shew Cause for that renewal of my wish— And if the tone of my correspondence was calculated to irritate I can conscientiously declare it was very far from my wish to irritate my desire was to urge promptitude in any work he did undertake. and that he would infer it would be better to attend to current duty than to seek for work in time passed by and where probably it will be found, there existed no grounds of dissatisfaction.—

Shewing the Bd why my letter of the 6th March was laid before them,— how I think there was not occasion to have expressly stated my wish that the Sub Collector should investigate a case of fraudulent appropriation of Govt lands to Yerasekkanaikoor if it pleased him— and that whatever may have been the tone of my letters to that officer it was far from any intention to irritate him.—

It is now a mere haunt of wild beasts and I should have been very unwilling to have paid it a visit unaccompanied by armed men. The reclaiming it from its present condition would be in many ways a public benefit. To say nothing of the primary advantage of having so large a place made cultivable and habitable, its culture would facilitate the extension of similar improvements in the deep forest all around. The fields which lie between it and the high road above adverted to would share in the benefit from being less subject to the incursions of wild animals. The Government would derive a direct advantage from this in the lessening of remissions frequently given for damage produced by these means. The high road itself would be traversed with more security. All this makes me very desirous that the present opportunity should not be lost. I have been trying for more than a year to get various parties to engage in this undertaking on their own resources but without success. The present applicant is a

I prefer a complaint against the Wirah Warmah Rajah of Kolekeh Cawilagom residing at Yarroopatty Cadoor Wunshom in Cotiote, the Ananderaven of the Plaintiff and against Mr. W. F. W. 1. The Mashallah and Coothracode forests situated at Elloornaad Wunshom in Wynaad Taluk are the Jenm property of the Plaintiff & are rented out by him- Information has however been received that an agreement was executed by the 1st Defendant on the 23d October last making over to the 2d Defendant the Hills & ca with the exception of that spot which is allotted to the shrine of the Deity called Coothracode, in these forests, the Jenm value of which is Rupees 1400, for 99 years, on an annual pattom or rent of 40 Rs.-

the 2d Defendant wrote to Plaintiff
under date the 19th June stating that
he was himself going to inspect the forest
to ascertain their boundaries & that he
would see the Plaintiff and settle about
them in person. Consequently when he
was at Tellicherry he sent for the
Plaintiff and showed him a plan of
the forests and their boundaries and
circumference and the Plaintiff on
leaving him said that he would, before
deciding, send his people to the forests
and get their boundaries. after this

side has made him execute an agreement,

The answer of Kandatta Ramun Nair Government Vakeel attached to the above Court in behalf of the Collector of Malabar the 3d Supplemental Defendant in O.S. No. 18 of 1845.-

I beg to subjoin my answer in behalf of the above Gentleman the 3d Supplemental Defendant to the Complaint preferred by the Mootah or Senior Wirah Warmah Rajah of Cotiote praying that the agreement entered by the 1st Defendant Wirah warmah Rajah of the Kelke Kah Cowilgam with the 2d Defendant Mr. Cowley assigning to the latter the Coothrah Codu & Mashallah forests which are in Wynaad may be cancelled.-

2. The Plaintiffs state in their plaint that the forests alluded to are their Jeum property.-

3.- The late Pyche Rajah of Cotiote having rebelled against Government all his property was escheated and the forests mentioned in the plaint were consequently

dealt with in the same way as the rest of his property.-

4.- By an old account prepared by the authorities in 1807/982 found amongst the records in which the names of the forests in Wynaad are particularized and the various hill produce to be collected by the Government specified, it appears that the Coothrah Codu forests is entered as the Jeum property of the Pyche Rajah that the Hill produce was being collected under Annany and that the Mashallah Forest forms a part of the Coothracodu Forest.-

5.- Sheroamallah Puttur the Karyastan of the Dive Warmah Rajah of Kehekeh Cowilagom and of Wirah warma Rajah of Padinhar Cowilagom of Cotiote having under date the 16th Kany 1002/30th Sept. 1826 presented a petition to Mr. Sheffield then Principal Collector of Malabar praying that 140 Rs. which an Engineer Officer had remitted to the Palook Cutcherry to be given to whatever party had a right to it on account of Coolty Canom on some logs which he had felled in the abovementioned forests

6.- If the Rajah's professed Jenm right on these forests they ought to have appealed within the prescribed period against the order of the Collector adjudging the forests to be escheated property and to which effect also an order was endorsed on the petition from the Karyastan. The Court therefore will be convinced that the Statement urged in the Plaint that the forests are under their management is not correct- that the forests are really escheated property- that the Rajah had no reason to advance such a claim and that the 1st Defendant had no power to make them (forests) over to the 2nd Defendant.- (True Translation)

Requesting further information in regard to the nature of certain Petty Taxes the abolition of which is recommended by him in Con. 18th Jany 1844

Sir

1. The Board observe that in your letter of the 9th January 1844 you have recommended the abolition of the undermentioned Small Farms Vizt.

1- Taxe on persons earning a livelihood by Cutting Firewood in the Jungles Bary ---- 182

2- Do Gathering Cherry and other Jungle fruits ---- 33

3- Do Do Hanaghy Seeds for making Oil ---- 113

4- Do Do Woods for making implements for agricultural purposes ---- 59

5- Do Do Kilns for burning Charcoal - 42

6- Do Do Sundry Jungle leaves for manuring wet Lands ---- 203

7- Do Do Pasture Lands in the Jungles grazed by the Cattle of Ryots ---- 411

2. The Board beg to request that you will furnish them with some further information in regard to the nature of

Fort St. George 20th April 1846

these petty farms- the parties by whom these farms or contracts are taken- the operation of the farms- the parties who contribute to them, and the objections to which you consider the various items to be open.-

3. The Board beg to be favored with similar information to that called for in the preceding para in regard to the six classes of small Farms which you propose to retain.

Vizt.

1- Taxe on trees bearing fruits.

2- Taxe called Jalle Poluram or pasture Trees.

3- Taxe on Wax and Gum.

4- Taxe on bark of Jalle for distilling Arrack- or dying barks &c &c.

5- Taxe on Timber and Bamboos exposed for Sale.

6- Taxe on Talavarany Leaves used for the manufacture of Indigo.

the nature of each of the above items should be clearly explained.-

4- In Para 3 of your letter of 28th August in Fin. Con. 7th Sept. 1843 you have stated that the Collection of the honey and wax rent is not distinctly exhibited in your accounts the amount being always included in the rents of certain

certain other items under the Technical term of Gedagavalah - in this case the Board beg to be informed how the sums given in Para 1 of the same letter as the average Collection from these two items of Money and Way Viz. 41-4 - for the former and 30 for the latter have been obtained -

5. The Board request that it may be explained what are the several petty farms Comprehended under the — Gedakanilee and Kandakanilee respectively - It is observed that the aggregate Bariz of the former for Fusly 1252 was Rupees 2505 - whereas the bariz of the tax recommended for abolition is only Rupees 1114 -

6. The Board request an early answer to this reference, it being desirable that the general question of Small Farms now before them should be disposed of as soon as possible.

5683 Thirty Sixth Year of George III. 1796

An Act for the more effectual Punishment of Persons who shall steal Lead or Iron fixed to Buildings, or other Hereditaments, and for the more effectual Punishment of Persons who shall receive stolen Lead or Iron, knowing the same to be stolen. [28th June 1796.]

Whereas the Stealing of Lead or Iron fixed to Buildings, or other Hereditaments, and the Receiving of Lead or Iron so stolen, knowing the same to be so stolen, are Offences not punishable with Death: And whereas it is expedient that Persons guilty of such Offences should be punished with Death: Be it therefore enacted by the King's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That from and after the passing of this Act, every Person who shall steal, or shall for Reward, or Hire, or Gain, or with Intent to sell, or dispose of, or to keep in his or her Possession, or to conceal, or to carry away, or to destroy, or to cause to be destroyed, any Lead or Iron fixed to any Building, or other Hereditament, or to any Fixture thereto, or to any Bridge, Mound, Fence, Rail, Gate, or Wall, or to any Post, Pale, or Board, set up for the Inclosing, Dividing, or Securing any Land, or Ground, shall be guilty of Felony, and shall be punished with Death as in Cases of Felony without Benefit of Clergy.

Felony, punishable with Death, in stealing Lead or Iron fixed to Buildings, or other Hereditaments, or to Fixtures thereto, or to Bridges, Mounds, Fences, Rails, Gates, Walls, Posts, Pales, or Boards set up for Inclosing, Dividing, or Securing Land or Ground.

Stealing Lead or Iron fixed to Buildings, &c. made Felony by 22 Geo. III. c. 58. repealed.

And whereas by an Act passed in the Twenty-second Year of the Reign of His present Majesty, intituled An Act for the more effectual Punishment of Persons who shall steal Lead or Iron fixed to Buildings, or other Hereditaments, and for the more effectual Punishment of Persons who shall receive stolen Lead or Iron, knowing the same to be stolen, it is enacted, That from and after the passing of that Act, every Person who should steal, or should for Reward, or Hire, or Gain, or with Intent to sell, or dispose of, or to keep in his or her Possession, or to conceal, or to carry away, or to destroy, or to cause to be destroyed, any Lead or Iron fixed to any Building, or other Hereditament, or to any Fixture thereto, or to any Bridge, Mound, Fence, Rail, Gate, or Wall, or to any Post, Pale, or Board, set up for the Inclosing, Dividing, or Securing any Land, or Ground, should be guilty of Felony, and should be punished with Death as in Cases of Felony without Benefit of Clergy: And whereas it is expedient that the said recited Act should be repealed: Be it therefore enacted by the Authority aforesaid, That the said recited Act shall be and the same is hereby repealed.

22 Geo. III. c. 58. repealed.

Persons receiving Lead or Iron, knowing the same to be stolen, punishable with Death.

And whereas it is expedient that Persons who shall receive Lead or Iron, knowing the same to be stolen, should be punished with Death: Be it therefore enacted by the Authority aforesaid, That from and after the passing of this Act, every Person who shall receive any Lead or Iron, knowing the same to be stolen, shall be guilty of Felony, and shall be punished with Death as in Cases of Felony without Benefit of Clergy.

Felony, punishable with Death, in receiving Lead or Iron fixed to Buildings, or other Hereditaments, or to Fixtures thereto, or to Bridges, Mounds, Fences, Rails, Gates, Walls, Posts, Pales, or Boards set up for Inclosing, Dividing, or Securing Land or Ground, knowing the same to be stolen.

Persons stealing Lead or Iron fixed to Buildings, &c. may be committed to the Common Gaol by Justices of the Peace.

And whereas it is expedient that Persons who shall steal Lead or Iron fixed to Buildings, or other Hereditaments, or to Fixtures thereto, or to Bridges, Mounds, Fences, Rails, Gates, Walls, Posts, Pales, or Boards set up for Inclosing, Dividing, or Securing Land or Ground, should be committed to the Common Gaol by Justices of the Peace: Be it therefore enacted by the Authority aforesaid, That it shall and may be lawful to and for any Justice of the Peace, upon Information upon Oath before him made, that any Person is suspected to have stolen any Lead or Iron fixed to any Building, or other Hereditament, or to any Fixture thereto, or to any Bridge, Mound, Fence, Rail, Gate, or Wall, or to any Post, Pale, or Board, set up for the Inclosing, Dividing, or Securing any Land, or Ground, by Warrant under his Hand and Seal, to cause such Person to be apprehended and brought before him, and upon Examination of the Circumstances of the Case, and Proof of the Goods, to commit the Person so suspected to the Common Gaol.

To the Actg. Collr. of Tinnevelly

Stating in reply to C. Mr. Thomas' letter of the 24th. January last bringing to notice some instances of Gross malversation on the part of the trustees of certain religious institutions in his District that Government have directed that pending in Board's Lr. dated 16th March 1846.

Sir, I am directed by the Board of Revenue to acknowledge the receipt of Mr. Thomas' letter of 24th. January last bringing to notice some instances of gross malversation on the part of the Trustees of certain religious institutions in his District, and requesting instructions as to the course which

pending reference from the Supreme Government all interference with the Native religious institutions should be refrained from as far as practicable.

which he should pursue on complaints of such frauds being preferred to him and also as to the manner in which Trusteeships vacated by death or resignation should be filled up.

2. In reply I am directed to inform you that the Collectors letter has been laid before Government, from whom the Board learn that intimation has been received from the supreme Government that "the modification of the provisions of Regulation VII. 1817 would immediately engage the attention of the Legislature and that "the draft, of the Law which might be determined upon would be forwarded hereafter for the sentiments of the Madras Government." This communication was made to Madras in September last, the Draft Act may therefore be expected at an early period, and will it may be presumed provide a remedy for the inconveniences now experienced in regard to the condition and Management of Native religious Establishments His Lordship in Council has therefore desired that under present circumstances the Local Officers shall, as far as practicable refrain from all interference with the affairs of such institutions.

From the Collector of Tanjore...

Sir,

I have the honor to submit a Statement of Works for the different Pagodas of this District for which the Trustees of these institutions demand the Funds in deposit. The Statement exhibits the name of the Pagoda, the nature of each work, the estimated cost, the amount in deposit appertaining to each Pagoda and the sum it is proposed should be allowed.

The list has been revised in my Huzzoor Cutcherry and by myself and the works have been selected from a much larger number said to be required but many of which may be postponed to a future period. The only ground on which I venture to recommend this expenditure is that the Funds are the property of the Institutions. That they will be devoted to the purposes stated is highly doubtful but as the Managers and Trustees of the Institutions complain of the accumulated Funds not being granted to them for the repairs of the buildings and these complaints are looked upon by the people in general as well founded it becomes my business to place the matter before the Board for their orders.

It will be observed that no new work is entered in the list.

Informing of certain discrepancies which prevented the sale of the Cassimcottah and Mullapaukah Estates and purpose with reference to them of submitting an amended sale advertisement for the sanction of the Board.

Para 1

Sir,

I do myself the honor to request you will inform the Members of the Board of Revenue, that the sale advertisement of the Estates of Cassimcottah and Mallapaukah with the date of auction fixed for the 6th Proximo, has not been published in this district.

This advertisement was forwarded to the Board of Revenue by Mr. Arbuthnot on the 9th December, but sanction did not reach this Office until the 2d March. At that time the settlement for the present fusly year had been completed and a large portion collected. Apart of these collections had been brought to account of current kists that had fallen due, and a portion had been carried to account of old Balances. The arrears due to Government on these Estates did not therefore correspond with those inserted in the notification sent in December

December and ultimately published by the Board of Revenue. There were also other discrepancies and it was besides inconvenient to sell in April, when a new owner might object to, and dispute the propriety of the Settlement effected by the Officers of Government.

Under these circumstances the notices for the sale has not been published, but in accordance with the orders of Government in this case, I purpose in a few weeks, when the collections shall have been completed and the accounts adjusted by submitting an amended sale advertisement in ample time to admit of all intending purchasers making their own arrangements for the cultivation and settlement of the ensuing Fusly

From the Collector of Masulipatam — Para 1.

Forwarding the application of Rajah Bhavany Acootaswara Prasada Naidoo soliciting the continuance of the allowance enjoyed by him formerly & recommending payment thereof at 200 Ps. per Month with arrears.

I have the honor to forward a copy and Translation of a Petition received from Rajah Vaseredy Bhavany Acootaswara Prasada Naidoo the dependant Zemindar of Chintatapanty Vuntoo Appertaining to the Nundegamah Zemindary in this District, praying that a Monthly allowance of 200 Rupees, or a Monthly allowance of 100 Rupees and the produce of Sauveram lands may be paid to him for his subsistence.

2 This dependency was placed under the management of the Zemindar in Fusly 1248 / 1838-39 under the Boards Orders noted in the Margin and continued till 4th June 1838. December 1844 when it was attached together with the Vaseredy Estates for arrears of Revenue agreeably to the Boards instructions dated 5th December 1844.

3 From Fusly 1248 / 1838-39 till the date of attachment during which the Estate was under the management of the Zemindar he enjoyed a Monthly allowance of Rupees 165 for the subsistence of

of himself and his dependants inclusive of the wages of the Public Establishment the appointment of which and the distribution of their wages was entirety in his hands. This the Zemindar has often represented to me as being quite inadequate and has also addressed a Petition to the Board on the subject which was referred for my report, and I was about submitting his application for their orders, but the receipt of the orders above referred to for the attachment of the Estate rendered it necessary to postpone the transmission until I should be able to report on the condition of the Estate —

† No. 1807 of 1863.

4. In Para 3 of my letter of the 10th February last, I reported the particulars of the Settlement effected for the Current fasly compared with the Revenue of former years. It will have been observed that it amounted to Rupees 24964-12- exceeding the amount of Peishcush by Rupees 5696-8-, which the Board is aware is chiefly owing to the highness of price of Jonna the principal produce of the Estate - When the estate was under Circar management the Zemindar was allowed for some time to enjoy the produce of Sawaram lands, but this has subsequently been disallowed and a monthly provision substituted, the payment of which was discontinued on the attachment

† Rs. 19268-4-

the Estate - It will be observed from the Zemindars Urzee that he is in a most embarrassed state for want of means of actual subsistence and that immediate relief should be afforded to enable him to support himself in a manner becoming his rank - The Vaseereddy Zemindar Ramanada Bauboo is allowed Rupees 1000 a Month for his support from the proceeds of his Estates in the Guntoor District - I am of opinion that, in consideration of the reduced circumstances of this Zemindars affairs his only dependance for the support of himself and dependants being at present on the bounty of Government a monthly allowance of Rupees 200 should be paid to him instead of giving him part in Money and part in land whilst his Estate continues under Attachment, and I request the Boards authority at as early a period as may be practicable for the payment of the same in arrear from the date of attachment -

Translation of an Arzee addressed to R. J. Porter Esqre Collector in the Zillah of Masulipatam by Rajah Vaseereddy Bhavany Mootoo Suria Prasada Nasio Bahadur dated 16 Febuary 1846-

Shows repeatedly represented to your Honor of the embarrassed state I have been involved in owing to the difficulty experienced for the Bootaud expenses from a period of 13 Months ie since Chintala pauty Cuntoo appertaining to my Zemindary was attacked - I have likewise represented the same to your Honor when at Goodewada in the Month of January last, as also subsequently at Nundegamah and your Honor has been pleased to say when you were about to return to Masulipatam from the latter mentioned place that you will recommend my case to the Board of Revenue and get me speedily relieved from the embarassment which I am in. Owing to the highness of prices in this

Fort St. George 23d April 1846-

part of the Country not a loan is even to be procured and consequently - I who am encumbered with a large family have so much suffered on account of subsistence that it would be considered sordidness in me were I to enlarge on the same beyond the sphere of Beauty-

Tho' a Monthly allowance of Rs. 165-8 — was paid to me by the Circar up to last year on account of Bootaud expenses &c. and tho' the prices of paddy were then at the rate of Rs. 10 — — per Candy which being much below what they are now selling at, yet there being no sufficient means to answer to Bootaud Charges I was obliged to contract loans for the same and have often then represented to your Honor the said circumstances by Arzees soliciting at the same time that your Honor will be good enough to save me by either allowing the Savaram Lands which were granted for our subsistence to be enjoyed by me independently of the allowance paid up to that time in ready Money or by continuing a Monthly stipend of Rs. 200 to be paid to me- Whereupon your Honor has been pleased to say that you will recommend on the subject to the Board of Revenue- I heartily trust that

Fort St George 23d April 1846.

that your Honor who is an emblem of all wisdom will consider how I (who up to the time of addressing the Arzees alluded to, had been so much suffered as deserted) have been distressed owing to the non payment on account of Bostaud from a period of 13 Months and to the enhancement in prices and how I have been pressed to discharge the debts I have hitherto contracted. There is nothing to be expected as to the means of my subsistence in future since I am in such hampered circumstances that nothing at present is provided in my hands to cover the road expenses should I wish to come down to your Honor to represent personally the said circumstance which I am constrained to do by this humble Arzee hoping that I shall be eyed with compassion for the importance of extricating us, by providing at least the means of livelihood at this juncture is solely devolved on your Honor, and I therefore most humbly crave you will be graciously pleased to relieve me and my family from the present embarrassing state by either granting a Monthly allowance of Rupees 200 until my Talook shall have been made

made over to me or by continuing only Rupees 100 to be monthly paid to me in addition to the Savaram Lands formerly allowed for our subsistence. In doing this generous act your Honor will gain everlasting fame for your humanity in delivering our family from the fangs of distress.

existing effect produced by loan sources on the cultivating community who incur in consequence submitting applications for the reduction of their Dittum extent as the then current fusly 1251. tho' this perhaps was less clearly shewn than it might have been and some what out of place Para j "the attention "of the Collector is also called to the unpaired "state of the irrigation of the Mootoom gardens "and to report if in his opinion the inability "of the Ryot should be met by pecuniary "assistance from Government in cases where "the repair of the well or other sources of "irrigation is likely to afford a constant supply "of water"

3- That the sinking of new wells and the repair of old ones should be encouraged admits of no question. the land under them is increased much in value, the well becomes property and any kind of Crop can be put on the land at the pleasure of the Ryot. the advantage of wells also in seasons of drought both for the use of man and beast can only be duly appreciated by those who have experienced the benefits or felt the want of them.

4- In digging a well the entire expence

expence is borne by the Party without any pecuniary assistance from the Circar. dry land is converted into garden by the outlay and it would be but fair that the owner should derive the greater benefit when the increased assessment is the consequence of his expenditure and this is the consequence of his expenditure and in this District it is customary when small wells are dug and metta land is turned into mootoom to abstain from levying the higher assessment until the Ryot has been repaid the expence he has been at when a considerable sum has been expended and a large and lasting well dug no extra assessment is put on the land which pays the original Metta rate. Then the Parties who have the greater means have also the greater benefit on their outlay. In repairing existing wells under an which the land is uncultivated in consequence of their dilapidated state remission is also made, where the garden has been waste less than 5 years half the mootoom assessment until the amount of the outlay has been recovered by the Ryot. when more than 5 years have elapsed since the land was cultivated no assessment whatever is levied the first year and half only during the subsequent years until the amount of repairs has been recovered.

5- Hitherto no advance on money has

it be allowed or some other inducement offered, no one will borrow from the Circar the present plan of obtaining loans from richer ryots on the security of the crops or other property being the more profitable to the borrower who receives credit from the Circar for the amount he has expended, whereas in the absence of remission a debt would be incurred, and the Circar at no cost derive an immediate benefit from the outlay of the Ryot. If therefore Tuccavee for the repair of sources of irrigation be given it appears to me the full Thist on the land should be taken to cover the expence incurred by the Ryot be returned to him by remission of the Thist, the advance made by Government being paid within 3 years.

Para 12. "The Board observe that in the Peeta has not been fixed with sufficient accuracy in the four Taloohs noticed in Para 37 of the Collectors report. The result for fusly 1253 obtained by computation is stated to be Rupees 20158 11 10 and the Jumla for the same year has been fixed at Rupees 28881 9 5. the amount as per number of Cattle in fusly 1252 was Rupees 28877 — 10 which is greatly in excess of the number stated to have been counted in fusly 1253."

Para 13. "In the absence of any grounds explanatory of

has been made by the Circar to enable men in want of assistance either to sink or dig a well on the question now is whether such assistance for repairs is advisable. I am inclined to think it is so, and that in many instances a timely advance will be the mean of preserving garden cultivation which will otherwise remain waste. In the ordinary distribution of Tuccavee the amount advanced is the first item to be recovered from the ensuing Collections. This is easily effected as the amount paid to individuals is generally very trifling but a similar practice could not be applied to advances made for the repair of wells as the sum must be larger to assist probably in the purchase of Bawry Bullocks, without which the repair of the well would be useless. It will be therefore necessary if advances be made, to fix a time within which they must be repaid to be regulated by the Circumstances of the Ryot and extent of cultivation but in no case to exceed 3 years. Then again comes the question of remission the Board may perhaps object to the continuance of the present system as above described in addition to necessary assistance but unless

"If the difference it would appear that the Pootah "fixed for fusly 1253 is greatly disproportionate "to the actual number of Cattle in those Talooks.

In explanation of the remarks in the subjoined Paras I beg to state that in fixing the Puncta Pollary in 1253 the amount collected on the Capitation of 1352 was considered preferable to that Cowle as per number of Cattle entered in the accounts of 1253 which were sent in by the Pushcar and other inferior Servants — — — — and not in all instances submitted to the test of a strict examination and comparison with the number of Cattle found on a recounting by the Tahsildar or other superior Servants, which generally took place as opportunity offered or information was received of the return of Cattle to their respective Villages from whence they had been removed pro tempore when the visit of the Pushcar was expected for the purpose of counting them — The numbers ascertained in 1252 and the amount collected in that fusly were on therefore considered the fairer data on which to fix a Puncta and the amounts (28072 & 28831) do not vary greatly when bearing in mind that in fixing an amount to be imposed as an annual demand the extent of available pasture

pasture was taken into consideration so an increased number of Cattle could be grazed without an additional demand of Pollary — It may also be remarked that the concurrence of the Ryots was obtained for the amount fixed as a Puncta which would hardly have been the case had they not been aware that the counting of 1253 did not include all the Cattle they had in possession —

Again in favour the amounts as per Para 4th — numbers and Puncta are Rupees 11052 3 — and Rupees 11579 12 — respectively whereas the result of the counting in fusly 1252 led to a demand of Rupees 12556 9 9 and in fusly 1251 the demand as per rechowning was Rupees 11821 4 — "This decrease for which apparently no cause exists calls for the explanation of the Collector"

In fixing the Puncta in favour reference was made to the average Collections realized under the Capitation System and not on the demand the Capitation returns would yield if fully collected and decrease alluded to between the Capitation amount of 1352 and the Puncta of 1253-9 7 4 — 13 9 has arisen in part from remissions allowed to certain privileged classes and castes the Commavar and Pachavar and partly from a mistake having been made by including in the accounts of Pavoor the Pollary amount of Chavoo the Wooding heavy Talook which is a Village on the

and deducted in fixing the Puncta —

Collusion which is exhibited in Para 20 of the Collectors Report. moreover it does appear to the Collector that a portion of this sum "must have been collected".

Cultivation to which the Collector alluded in his Report on the Settlement for fusly 1253 (1843/44) had reference to the fusly year 1254 (1844/45) but they considered that this tendency to throw up land was at variance with the readiness to carry on the usual cultivation which was apparent in the results of fusly 1253 (1843/44); the Cultivation of the last mentioned year they observed shewed a marked increase above that of fusly 1252 (1842/43) and the extent of Dittam of the two years was nearly the same - The results of fusly 1254 (1844/45) have since been received by the Board and in Para 11 of their Proceedings on the Settlement of that year they were led to conclude from the facts presented to them that this desire to occupy land was strong and that when checked it was traceable mainly to fluctuations of season - They were however of opinion that each case of relinquishment of Land should be carefully sifted in order that it might be clearly shewn how far the pressure arising from the excessive character of the fixed commutation Prices in comparison with the Current rates in Salem

22d December 1845

Salem, which has been generally and extensively felt, had occasioned a contraction of the usual Holdings. The Board expect that the Collector will give this point prominent notice in his future reports.

Repair of decayed wells by means of public advances - Para 4

3. It has not been customary to make advances from the Public Treasury for the construction and repair of wells, but the Collector is of opinion that a timely advance will be the means of reviving Garden Cultivation which will otherwise remain waste." He recommends that the recovery of the Sum advanced should not be required from the first Collections of the year, as it now the practice when Taccavi is given, but that the Amount should be repayable by instalments within 3 years, with reference to the circumstances of the Ryot and the extent of his Cultivation - He is also necessary he observes that the full assessment on the land under Garden Cultivation should not be demanded ed till the Ryot has been remunerated for the outlay he has incurred - The proposition of the Collector is in accordance with the Principle laid down by the Honorable Court

Court and by Government, and as the application of advances for the purposes in view is likely to be attended with important advantages and appear to be deserving of liberal encouragement, I am directed to submit the proposition of the Collector for the favorable consideration of the Most Noble the Governor in Council, but to suggest that the advances be limited to such wells only whether new or old, as will become permanent sources of irrigation. The present suggestion has reference to advances from the Government Treasury for the specific object stated, with the terms of repayment, but it in no other way connected with the general question of well cultivation, it involves however a slight departure from the existing rules of the District in regards to the levy of the full assessment on land irrigated by wells, inasmuch as it is proposed that the full assessment shall not be demanded, till the outlay has been replaced, whereas under existing rules half the full amount is demanded from the first year, in case of Garden land which has not been

Cultivated within 3 years and from the second year, the first year the land being held free of assessment, in cases of waste extending beyond that period. Considering the important results to be expected from an extension of the sources of irrigation, and the conformity of the Principle involved with the expressed sentiments of Government the Board are of opinion that the proposed relaxation of the District rule, whereby the full assessment will not be enforced till the outlay has been fully replaced, is very desirable.—

4. The explanation of the Collector regarding the Poolany assessment for fusly $\frac{1253}{1843/46}$ is considered satisfactory. It will be seen that in the one case the excess of Pucka assessment above the actual number of Cattle counted in fusly $\frac{1253}{1843/44}$ is explained by the circumstance that the Capitation accounts of fusly $\frac{1256}{1843/44}$ from not having been tested did not shew the real numbers of Cattle, that the accounts of numbers for fusly $\frac{1252}{1842/43}$ were more to be depended on and that the Ryots had agreed to the sum fixed for fusly $\frac{1253}{1843/44}$ thus

Shewing that the capitation returns of
July $\frac{1253}{1843/44}$ did not include the whole number

ensued from the assessment having
been fixed on an average of previous
Collections, from certain remissions
being made to privileged Lands and from
the exclusion of the Village of Cheroodla

Sir.

1. I have the honor to acknowledge
the receipt of your Circular letter under
date the 26th January last together
with the Rules (therein enclosed) relative to
encouraging the practice of planting Topes
and Tanks, and beg to offer the following
observation

Fort Saint George 23rd. April 1846.—

and Tries ad submitting his opinion thereon with reference to the circumstances of the Bellary District

observations with reference to the circumstance of this District.—

2

In the 2nd Para of the Rules it is stated that when the Sayers planted by parties for general accomodation and Convenience, or other beneficial purposes (under the conditions therein specified) shall have come into bearing, the Topes shall be entered in the accounts as Public Topes free of all Sayer, and their Proceeds liable to be sold by the officers of Government, and the Proceeds applied in support of the Choultry, repair of Road or other municipal purposes — There will be no Topes planted in this Province under this proviso Individuals desirous of planting will not consent to give the same over to the Circar (when the Sayers shall have come into bearing) for the purpose indicated — They undoubtedly would wish to retain the management and application of the proceeds to Charitable or other Municipal purposes in their own hands and those of their heirs. Instead therefore of entrusting the Officers of Government with the appropriation in the manner specified to be of use here it will be necessary to empower them to

merely

Fort Saint George 23rd April 1846.—

merely to watch whether the Parties or their heirs do apply the Proceeds to Charitable or Municipal purposes as the case may be, according to the original intention, and should it appear that contrary to such original object, the Proceeds are misappropriated by the Parties (that is to their private benefit) these officers should them enter such Topes in the accounts as Topes liable to the payment of Sayer to Government.—

3—

The Rules as regards the allowing of Waste land for planting Topes for public utility and convenience as well as both Cultivable and Waste land for planting Topes for private benefit — appeared unobjectionable, but no advantage will be taken of it in this Province — In all practicable Cases the land to be allotted should always be such Dry lands as are low assessed, care being taken not to allow the high assessed and Wet lands for these purposes.—

I have in my reply to the Board's Circular of the 2nd January 1843 — entered into great detail on the System regarding the plantation of Topes and the Sayer

5739 Fort Saint George 23rd April 1846.—

Service thereof as introduced by my Predecessor the late Mr. Robertson, accompanied by my own opinion on the subject which I do not see any reason now to alter.—

5 In my former report I stated the great difficulty of rearing Trees at all in this District, and the rules now promulgated though probably sufficiently liberal for other Districts will be a dead letter here. Mr. Robertson who devoted himself to the investigation, thought it impracticable for Individuals to raise plantations in this Province and even his view of the matter was too favorable, for the Plantations which he expected to bear in 12 years have many of them failed to produce Fruit even now. The Black lands are not favorable to the growth of Trees, and the red lands are so light and hold so little moisture that Trees require artificial aid to an extent that is hardly credible. This is doubtless caused by the extreme aridity of the climate, excluding of course lands now under wet Cultivation. I do not think many Plantations would be made in this District were the Government to allow waste lands freely

5740 Fort St. George 23rd April 1846.—

freely applied to be given up without Tax for the life of the original Cultivator, on their being well planted with Trees and kept up. The long time that elapses before any return, the incessant labour in watering the Trees, the destruction that takes place in years of Drought which unfortunately are of constant recurrence, the great outlay in procuring water in the first instance by digging Wells which in this District require to be sunk to a considerable depth, are all obstacles almost insurmountable to men without capital.—

6. Under these circumstances, it becomes almost impossible to propose any measure that would be considered reasonable that would afford advantages sufficient to counterbalance the immense difficulties on this account the mutual expedient of planting Topes at the Government expense prevails here and as heavy sums have been allowed it renders further concessions less absolutely necessary.

7. Should the Government wish to get over the difficulty at any sacrifice I believe no Rule would be of the slightest avail here that did not give the Cultivator a rent free right in his Plantation for 20 years, on the understanding of course that all expenses of Planting inclosing and watering shall be borne by himself and that the Tax on the land after the lapse of 20 years shall only be the Survey rate.

The remaining Paras of the Rules i.e. the 4th 5th 6th and 7th do not call for any remarks.—

From the Collr of Salem.—

Sir

I have the honor to forward copy of an urzee from the Tahsildar of Womaloor with an application from one Ummiyappah Moodely for permission to erect a Chuttrum at Womaloor for the accommodation of Travellers at a cost of 1000 Rupees on the high road from Madras to Salem and Trichinopoly Via Vaniembady: the nearest Chuttrum to Womaloor on the South side is at Salem. distant 10 Miles and the North at Sopoor distant 15 Miles the road in question is always frequented by Travellers from Madras and the Northern Circars to Trichinopoly and Southern Districts. as also by Pilgrims proceeding to Ramaseram. I beg to recommend that permission be granted to the applicant for the erection of the Chuttrum on the completion of which a plan and estimate of the cost will be submitted.—

Resolution thereon.—

49-50

The Board have no objection to the erection of the Chuttrum referred to in the above letter but it will not be in their power to recommend to Government that any

any waste land be granted in endowment of it under the rules of 11th August 1829- as those rules are intended to apply only to building of a more important and ex= =pensive description.—

Read letter from the Collector of Tanjore communicating the result of the Settlement of the District for fusly 1254 A.D. 1844-45. thereon.—

22d Sept. in Con. 10th Nov. 1845- 51

Proceedings Relative to the Settlement of the District of Tanjore for fusly 1254 A.D. 1844-45

51

The commencement of the Season was favorable for the wet lands, but in September October and November the usual Rains failed and a serious loss of Revenue was apprehended. In December there was a seasonable fall at the end of that Month however the District was visited by a storm which injured the "Standing Crops of Wet grain and destroyed the "little of the Dry grain in ear that had been "reared through the previous drought." The Collector considers the season on the whole to have been favorable for the Rice Crops under the influence of the Rivers but very bad as for the other descriptions of cultivation, wet and Dry - The deficiency of the supply of River Water in three Talooks Nunnilum, Keeralore, and Sheally, requires explanation, and the Collector will be so good as to state whethers in his opinion this has been occasioned by any works which have been lately executed upon the Anicut for the purpose of keeping it at a proper

proper level and in such case what remedy he would suggest to secure to these Talooks the full benefit of this important work.

Paras 3. 2. The annual details of progressive effects of the great anicut exhibit an increase in the extent of land dependant on its works compared with the previous year of Valies 826. The Board are of opinion that in future it would be more convenient if these details were submitted in a separate Statement to accompany the Settlement accounts and the Collector is requested to do so and to explain briefly any causes of increase or decrease arising from the operations of the anicut in his Report.—

Para 4. 3. In the extent of land cultivated under every source of irrigation compared with that of fusly 1253 A.D. 1843/44 there is a net Decrease of 589 Valies being the result of a Gross increase of 745 Valies under the River and its Subsidiary works, and of a gross decrease on lands dependant upon the Tanks and the falling of Rains of 1334 Valies as shower in the following abstract.—

4. The result of the failure of the ordinary Rains exhibits a Net Decrease of cultivation in every description of land under each denomination of settlement in fusly 1254 compared with fusly 1253 of 1644 Valies of which 1005 Valies belonging to the Poonjah class of land were left waste in the Trivady and Put=tooccottah Talooks.—

See Statement in para 5 of Coll^{r} letter.

Para 6 to 11.

5. The several systems of Settlement and the different classes under which the Vil=lages are brought to account call for few re=marks. the diminution of the number of Amanie Villages by 25 in the year under review is satisfactory. the Board are glad to observe that a better disposition on the part of the Merassidars to hold their Vil=lages under a money rent has been mani=fested and that the total number of Villages under this head of Settlement exceeds that in fusly 1253 by 49.—Adverting to the Statement of the Gross increase and decrease of all items of land Revenue entered in Para 19. of the Collector's report it is observed that there is a considerable difference in the Settlement of 12 Villages at a grain rent converted into money at the selling prices of last year: and in their settlement according to money rent in the present fusly amounting as indicated

to 3-14-= indicated in the margin per cent below the Grain Beriz in last year the standard Beriz of these 12 Villages is not to be traced in the present accounts. On reference to Statement No 10 it is remarked that in 4 Villages of the Paupanassem Talook there is an increase in the extent of wet land above, but a decrease in the Settle=ment below last year being about 1/3d less than the standard Settlement.—

The attention of the Collector is directed to this circumstance. On further experience it is expected as the Merassidars become sensible of the advantage of holding their lands on terms which relieve them from the scruting inherent in the amanie system that the Settlement under Money rent will improve and such amount of Revenue be obtained as the Villages for which they are offered may be reasonably expected to yield.—

In the year under review under Talooks than in fasly 1253 by Rupees 20,768-14-2. The Director Surveyor-General was requested in the field of Salem Villages in the Talooks of Trivady and Puttoocottah which derive no irrigation from the River Cauvery. The following Talooks in the Portion of Salem fasly 1253 Panam = Mount Poonamallee = 1254 Panam = Vellore fasly 1253 Panam = 1254 Panam = Valooks in which the Land Revenue Records have been made com = pleted with the last year—

Para 2.

In the Keeralore Talook where a deficiency of the supply of river water was experienced the remissions were below the sum allowed in last year by Rupees 10,956–15– while in the Nunnillum and Sheally Talooks both under similar disadvantages of irrigation there is an increase of remission amounting to Rupees 3,718–13–5 the net amount of the losses of Revenue sustained under this head in Seven Talooks amounted to Rupees 3,635–11–4, and the Board observe that the Collector has exercised due judgment to prevent advantage being taken of the circumstances under which remission was sought to be obtained—

Paras 18–19

The settlement of the land Revenue in fusly 1254 amounted to Rupees 38,30,620 and the result of a Gross increase of Rupees 1,36,209–3–7 and of a Gross Decrease of Rupees 85,356–6–8. gives a net increase above the Settlement of fusly 1253 in this sum of Rupees 50,852–12–11 which is mainly attributed to increased Nunjah Produce and to the rise of Prices which exceeded those of last year and also the standard Price. as shewn in the Margin— The Board remark as in former reports that the Collector has fixed the Settlement price of

above fusly 1253–4 ½ per Cent
above the standard 8 ¾ per Cent

of the year at the rate at which the produce of Amanee lands was valued— a circumstance to which his attention has already been directed.—

Para 27.

8. It appears that in 27 Villages a sum of Rupees 233 was brought to account being the amount of the Meras. of 31 Meerassidars who on the plea that they were entitled to remission refused to cut their crops. On finding that their claims were unworthy of attention and unwilling at the same time to profs the full demand of Government upon them, the Collector "adopted the course of "bringing to account the whole of their "Merafsi Soondowarum". Admitting the necessity of an example to shew the Meerassidars of Tanjore that they cannot be allowed to profit by a wilful neglect of their lands with a view in breach of their agreement, to obtain undue remission the Board are unable to concur in the propriety of bringing the proceeds of their privileged shares to the account of "Current Revenue" this item should have been carried to the head of "Extra Revenue" pending the consideration of the whole circumstances

circumstances of the case, which the Collector will be so good as to explain.—

9. Of the Total Demand of land Revenue Rupees 37,64,527-6-3. were collected within the fusly leaving the balance of Rupees 66,092-3-2 which by subsequent collections to the end of February 1846 has been reduced to the sum of Rupees 26,304-14-3. The Collector will submit to the Board his opinion on the subject of those arrears which on further investigation he may find to be irrecoverable.—

10. The old Balances will form the subject of a separate communication to the Government.—

Adding the collections on account of the arrears of fusly 1253 and of previous years.— The Total Collections of land Revenue within fusly 1254 amounted to Rupees 38,90,059-8-7 and exceed the Collections in any fusly during the last ten years, a result which this Board desire to bring to the notice of Government as highly creditable to the Management of Sir H. Montgomery and of his Subordinates.

From the Coll. of Tanjore. Sir, I have the honor to return Petition No. 1570 of 1845 on the subject of which the Board require me to report.— Petitioner is the Arrack Renter of Keevalore.— considering he would obtain more advantage by selling imported Ceylon Arrack than the manufactured Arrack of the country, he landed several casks on which he claimed exemption of Duty on the grounds of his being the Renter; but as his claims appeared to me irreconcilable with the terms of his Cowle and with the Provisions of Act VI of 1844. 57 Before passing orders upon the above letter the Board request that in reference to their Circular 23d January 1840 the Coll.rs will furnish some information in respect to the circumstances under which the arrears for which the lands are to be sold have accrued and the condition of the defaulters.— It is observed that in Nos 6—8—9—12 the parties have discharged their kists for the last Fusly the arrears being for previous years. In one case, No.6. the arrear is for one year only Fusly 1252. It should be explained whether in respect to these or any other of the Nos in the Advertisement any less extreme measure but that of sale can be resorted to.— In some cases Nos 2—3—5—10 the amount of arrear does not bear a large proportion of the Bariz of the whole Wurg only parts therefore of these wurgs are advertised for sale.— The subdivision of Wurgs should not be allowed, when it can be avoided and the necessity of this steps for the realization of 9—14 As. a R. or 24—13—2 (Nos 3 and 10) on considerable Wurgs is not apparent. It appears probable that were the whole Wurg

made leable and advertised for sale, the arrears would be paid. The Collector will be pleased to give his opinion on this point and at the same time to explain when wurgs are subdivided in Cuddapa on what principle the subdivision is usually made, and the assessment distributed upon the subdivided portions. In No 6 it is proposed to sell 74.10.10 land of a wurg the whole Bariz of which is only 78.6.5 this also requires explanation.-
