Minutes of the last Meeting read and approved.

Read the following Extract.

(1)

From the Secy. to Govt. Communicating orders on certain Yeomaah allowances in the District of Trichinopoly.

Extract from the Minutes of Consultation under date the 3rd August 1840.

Read the following letter from the Board of Revenue.

(Here enter 18th June 1840 No. 305)

The Most Noble the Governor in Council has carefully considered the documents furnished by the Collector of Trichinopoly in support of the two grants regarding which further information was required in para 4 of the Minutes of Consultation dated the 20th January last No. 95 and he is satisfied from the terms of the Purwanahs and of the Certificates issued by the Collector in 1821 to the present incumbents that the Yeomiahs could

could never have been regarded otherwise than as charitable grants-

2- It is observed that in both cases the allowances were originally granted "for subsistence" accompanied with the expressed obligation that the Grantees would pray for the long continuance of the (then existing) Government of the Nowab Anawurdy Khan, the Grantor- that they were considered and continued by former Collectors as charitable Grants- that they were discontinued for a period of ten years under the conviction that they were not renewable and that they were afterwards revived without the authority of Government (all this is asserted in the Certificates signed by the Collector) and continued to the existing incumbents "in charity" and "during life"-

3- Under these circumstances, and adverting to the absence of all positive evidence that the services now stated to be attached to the Yearnials were originally intended to be provided for by those grants, his Lordship in Council directs that the allowances hitherto paid to Annoonuntha Chary and

and Hafuz Syed Ally be continued to them on the distinct understanding that they will lapse to Government on their death, and that the past disbursements to these parties be admitted by the Civil Auditor under the sanction now granted-

4- Under the opinion expressed in Para 5 of the Minutes of Consultation dated the 20th January last No 95, his Lordship in Council sanctions the continuance of the allowances noted in the Margin for the life of the present incumbents, and authorises the Civil Auditor to admit the past payments to them- It is observed that an allowance of Rupees 11-9-- per Mensem is paid to × Budshaw Beebee for a similar purpose Viz: for the performance of Ceremonies at the Tomb of Ameerool Oomara-

Replying to letter of the 18th Instant in relatives to the Statement of arrears of Yeomiahs submitted by the Coll.r

Forwarded Returns.

Sir,

1. In reply to your letter of the 13th Instant accompanied by the Extract from the Minutes of Consultation under date the 1st ultimo relative to a Statement of arrears of yeomiah submitted by me I have the honor to request that you will lay the following remarks before the Board.

2. The explanations suggested in the 3d 4th and 5th paras of your letter regarding Yeomiahs 34 and 8 are correct. As regards the latter number 8 the remark entered in the list which accompanied my letter of the 18th November 1844 correctly specifies the nature of the grant.

3. With regard to the farther information called for in para 3 of the Extract from the Minutes of Consultation I beg to state that the "revised list" to which reference is made contained the names only of those Yeomiahdars whose allowances were included in the retrenchments made by the Civil Auditor. The allowances of Taheer Mahommed and Chaud bee were not included in those retrenchments. but distinct information regarding them was given in the explanation

explanation of the yeomiahs entered in the Statement D. which accompanied my letter of the 20th September 1845 and in the concluding para of that letter I solicited sanction for the disbursement of the allowances as well of those yeomiahdars who had not been retrenched as of those who had, the total number being 41. The sanction of Government was only given for those allowances which had been retrenched the omission to sanction the others arising I presume from oversight.

4. It will be seen from the explanation above referred to in my letter of the 20th September that the yeomiahs of the two individuals in question. Saheer Mahommed and Chaund bee is mootahiguan.

Submitting the information called for on

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes

Syed Ghouse. P. 99-12-2.

In Cons. 9th Feby 1846.

Minutes consultation dated 1st June last, calling for certain information regarding several yeomiahs in the Trichinopoly District, and in reply to submit the accompanying correspondence with the Collector on the subject.

2. From this it will be seen that Syed Ghouse No. 8 of Valecondapooram, and No. 30 of the Marginal Statement of para 2 of the Minutes of Consultation 20th January last No. 95 is a different individual from Syed Ghouse referred to in the Board's letter of 1st December 1845 P. 728. and in the subsequent correspondence. The yeomiah enjoyed by the former of these parties was granted for service in a Mosque at Valecondapooram, and was entered as a service yeomiah in the list originally furnished to the Board by the Collector. this list was returned for

revision, and in furnishing the revised list, the yeomiah was by a clerical error entered as a charitable grant, and was sanctioned as such by Government in para 2 Extract Minutes Consultation 20th January last that it was however a service yeomiah as shewn by the previous correspondence respecting it in this Office, as noted in the Margin.

From Coll. 11th in Cons: 18th Oct. 1824. To D. 18th Oct. -.

12183 Fort St. George, 1st October 1846.

Under this explanation the Board beg that sanction may be granted for payment of the arrears due to this individual.

3. In respect to the Syed Ghouse mentioned in the Board's letter of 1st December 1845 No. 728 full particulars relative to this individual were laid before Government in the correspondence indicated in the margin and the continuance of his Yeomiah was sanctioned by Government 13th February 1846.

4. With regard to the Yeomiah entered in the margin, the date of authority quoted by the Collector appears to have been an error, but it will be observed that this is one of those Yeomiahs on which no orders were passed in Extract Minutes Consultation 20th January 1846, and referred to in Para 4 of the Board's letter of 18th June last. The Collector will be requested to make application for its continuance with the other allowances as directed in Extract Minutes 3d August. And he will be instructed to apply for sanction for payment of arrears at the same time.

Sir

5. From the Collr of Rajahmundry Affording certain information regarding the difference between the amaracum of fusly 1255 the Estimated value of the produce and the amount realized from the Zemindary of Pittapoor in reply to the Board's letter of the 11th June last.

Para 1. I have the honor to acknowledge the receipt of your letter of the 11th June last, relating to the Pittapoor Zemindary. You remark that the amaracum for fusly 1255 (A.D. 1845-46) being Rupees 326165-10-3 the estimated value of the produce being Rupees 162110-15-6 and the amount realized Rupees 215000. the difference between these three items is so great, that the Board are not prepared to submit the request of the Zemindar for the favorable consideration of Government without full Explanation as to what the Estate has produced this year calculated on the best information within my reach what the Zemindar has collected from his ryots under every head including Casual items Nuzzeranna. Head what probable amount of profit resulted to the Proprietor from the enhanced prices of grain during fusly 1255 (A.D. 1845-46) and whether the amount entered as personal Expenditure of the Zemindar Viz. Rupees 30044-13-8 included the whole of this expences under that head.

In reply I beg to annex a

as can be ascertained through the Dorogahs of Pittapore and Cocanada, and from the Zemindars own accounts.——

3. The amount of produce in the Jeroyaty lands being taken from the Curnums accounts, is not strictly to be depended upon. The Zemindars appears to have collected the full cist from all who had the means of paying it whether their lands produced a full crop or not. Those whose lands produced little contributed according to their means and to the value of the produce of their Maniem lands, which they cultivated Dea. The result was that the collections exceeded the amount of the produce.

4. The Zemindar has now sent me a statement shewing the amount of the collections up to the end of fusly 1255 (AD 1846-46) to have been Rupees 227314-11 after deducting Rupees 4699-4-1 on account of Moturpha and the cist of the land occupied as a Military Cantonment at Sammulcottah the sum actually realized was Rupees 222614-12-10 which shows an increase of Rupees 7614-12-10 beyond the sum of Rupees 215000 as estimated in my letter of the 11th May 1846 and I have no reason to think that the Zemindar collected more. This sum of Rupees 222614-12-10 includes Rupees 15969-5-11 on account of Cuttoobady in many Villages and the arrears of fusly 1254 (AD 1844/45) Dea including the Nuzzuranna said have been paid by the Curnums and other servants as noted in the Margin.——

He has now given in a statement shewing Rupees 23702-13-8. to be the amount of his personal Charges which with Rupees 6000 payable to Rajah Row Boochee Tummiah according to the Razeenamah filed in the Court amounts to Rupees 29702-13-8. He informs me now that by contracting a loan of Rupees 11158—12—11 he has reduced the sum to Rupees 18576-9 including the abovementioned sum of Rupees 6000 I believe that he effected considerable reductions in his personal and house hold Expences but being unwilling

7. I think it appears probable that owing to the very favorable commencement of this fusly the Zemindar will be able to pay Rupees 30000- this year out of 100000 Rupees I have therefore informed him that pending the orders of the Board I shall not be satisfied unless he does so, and that

I suspect him to pay Rupees 25000 in each of the two ensuing fusles* and the remainder in the fourth year.—

the head of Nuzzarana except from his servants from the Village Curnums and from others holding employments under him. ——

9. It will not escape the attention of the Board, that the Zemindar has expended a larger sum on Tuccavy than he originally Estimated, and the flourishing appearance of the Villages in the Talook of Cocanada, is a proof that the ryots in this neighbourhood have not been pressed so hard, as to affect their power of cultivating as much land as in past fusles. There are a great many substantial ryots in the Pittapoor Talook, and the outturn of the present season, if no unfavourable change takes place, may be expected to be unusually large. I therefore think that there is every probability that the Zemindar will be able to discharge his obligations to Government. I mentioned in my former report the success with which he managed his Talook in Fusly 1254 which A.D. 1844/45. it was first put into his charge under peculiarly disadvantageous circumstances

and I now take the liberty to recommend his case again to the indulgent consideration of the Board. ——

To the Chief Secy to Government — Submitting a correspondence with the Collr of Rajahmundry relative to the postponement of a portion of the Peishcush for Fusly 1255 payable by the Zemindar of Pittapore and supporting the Collector's recommendation that it may be made payable by instalments.

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying correspondence with the Collector of Rajahmundry to the postponement of a portion of the Peishcush for Fusly 1255/1845/46 payable by the Zemindar of Pittapore —

From Collr 11th May

2. Stree Rajah row Venkata Sooriah Row the Zemindar addressed the Board by Petition dated 27th December 1845, bringing to their notice the unfavorable character of the season, his embarrassment in consequence, and soliciting an indulgent consideration of his case, with the adoption of such arrangements, short of attachments, as might seem proper. On reporting on this Petition the Collector was of opinion that the Zemindar had strong claims for indulgence, founded on the nature of the season and his own personal character,

dated 11 May 1846.

Rs
Peishcush 258979-

Fort St. George 1st October 1846.

Para 1. character as shewn in his management of the Estate. The engagements entered into by the Zemindar with his Ryots for Fusly 1255/1845/46 amounted to Rupees 326165-10-3 and the Collector thought that there was no reason to suppose that the Collections would have fallen far short of the sum had the season been favorable. The actual Collections however amounted to Rupees 215000, while the value of the produce was estimated at Rupees 162110-15-6 only. Where the irrigation was abundant as in the Villages under the Yalairis, and the Lunka Lands of the Cadeyem Mootah, and where the Monsoon was favorable, as in the wet lands of Chillapully the Crops yielded a good return — Prices were also high. The Zemindar was put in possession of his Estate at the commencement of Fusly 1254/1844/45 too late to make advantageous arrangements with the Ryots for the cultivation of the year. The Peishcush of that year has however been discharged in full. The Balance of Peishcush for Fusly 1255/1845-46 amounted at the date of the Collectors first letter to Rupees 131854, of which Rupees 31854 — it was considered would be paid immediately and the remainder in four years.

Adverting

12199. Fort St George 1st October 1846.

3. Adverting to the difference between the engagements of the Zemindar and the estimated produce, and again between the latter, and the actual collections, as well as to the high Prices of the year, the Collector was requested to make further enquiries into the actual resources of the Zemindar during the year under consideration. The Board also pointed out the large amount of the personal expences of the Zemindar, which they thought he was not justified in incurring considering that he had expressed an apprehension at an early period of the season that he would not be able to meet in full the Kists to Government.

4. The reply of the Collector to the foregoing requisition it will be seen does not substantially differ from his first communication

12. Produce is estimated at Rs. 167899-9-11 and the actual collections at Rs. 222614-12-10. The value of the produce is assumed at the prices prevailing in January. February and March when it was sold and the difference between the amount value and the sum actually realized is stated

Produce as per present Statement	167899-9-11.
Do. as per former Do.	162110-15-6.
Difference	5788-10-5.
Actual Collections as per present Account	222614-12-10.

stated to arise from the Zemindar having enforced payment of the full assessment from all who were able to discharge it, irrespective of short produce. In regard to the present expenditure of the Zemindar the Collector explains that it includes the sum of Rupees 6000 paid to Rajah Row Boochee Timmiah on account of a Razeenamah filed in Court and that the Zemindar is really applying himself to the reduction of his expenses.

5. The Balance of Peishcush due on account of Fusly 1255 (1845/46) according to the last return amounts to Rupees 100000. The Collector with reference to the favorable prospects of the season has called upon the Zemindar to pay Rupees 30000 this year and recommends that the remainder be made payable by instalments of Rupees 25000 in Fusly 1257 (1847/48) and 1258 (1848/49) and Rupees 20000 in Fusly 1259 (1849/50) under the circumstances set forth I am directed to submit the recommendation of the Collector for the favorable consideration of Government.

and that it was ascertained that the Mootaliquan consisted of the said Annajee Row and the individuals named in the margin.

2 As regards this Yeomiah and as Jenoo others it was stated in a letter from the Secretary to the Board of Revenue dated 26th July 1813 that they "under a general authority granted by Government on the 18th of September last have deemed it expedient to transfer the payment thereof to this Cutcherry it being shewn opposite to the entry of the Yeomiah particularly alluded to above that the grant was made for their subsistence."

3 Annajee Row having died on the 20th April 1819 the Collector on the 21st October 1820 Continued to the remaining Members of the Mootaliquan the stipulated proportion of Rupees 70-12-10 under the rule laid down in the Circular letter from the Board dated 31st July 1815.

From the Collr of Trichinopoly

Transmitting Statements Connected with the Land Revenue Settlement of the District of Trichinopoly for Fusly 1255.
A.D. 1845/46.

1. I have the honor to transmit the undermentioned statements connected with the Land Revenue settlements of the District of Trichinopoly for Fusly A.D. 1845/46 / 1255.

No. 1. Abstract of Settlement.
" 2 Do. of Do. in detail
" 3 Detailed Statement shewing all items of Increase and Decrease.-
" 4 Price Current of grain
" 5 Statement of Nunjah & dry withered Crops.
" 6 Statement of Sugar Cane Cultivation.
" 7 Do. of Demand Collection and Balance of Fusly 1255.
" 8 Do. of arrears
" 9 General Comparative Statement of the whole Revenue from the land and other Extra sources of Revenue of Fusly 1254 and 1255.-
" 10 Statement of Outstanding balance
" 11 Register of Cowle lands.

2. The results of the season are far from being so disastrous as at one time there was reason to apprehend would be the

the case tho' the revenue from Several causes is yet considerably below the amount which it would in an Ordinary year and under Ordinary circumstances reach. From the commencement of the fusly year until September there was no general rain and the tanks dependent on rain in many instances received no supply - In October there were a few heavy falls but they were not followed up by any Continuous rain in the subsequent months and the great benefit usually looked for from the North East Monsoon was lost. The general effect of this state of things was that the more tenacious soils in the dry lands on which Raghee, Cholum and other valuable Crops are cultivated and which require to be well saturated were not fit for the reception of seed - or in Cases in which seed was sown that it did not germinate or that the young Crop did not thrive while the Cultivation of under tanks was in many instances necessarily omitted altogether and many Crops perished for want of an adequate supply of water - In the wet Talooks dependent on Rivers as the Sources of

of irrigation the want of rain was also greatly felt - the early freshes which come down in small streams having been very deficient and very late so that there was not time to admit of the Cultivation of two Crops so generally as would certainly have otherwise been the Case in Consequence of the enhancement of the price of grain - In the Month of march the freshes may be said to have failed entirely and the early Cultivation of the description of paddy called Kalan Could not be undertaken and the extent of shavy in the wet and dry talooks was large the amount which it was necessary to remit under this head being Rupees 19,201 — 10 — 10 -

3. But tho there was no Continuous fall of rain there were showers at intervals pretty generally thro' the District and by taking advantage of them the Cultivation of pulse and inferior kinds of grain was Carried on favorably and an increase in all the dry talooks except that of Torriore is the Consequence - The portion of the Talook just named in which the decrease occurred is

is situated on the borders of Salem. It consists of a rich but hard and tenacious soil and the quantity of rain was not sufficient for its tillage. To this cause it may also be ascribed that there was no greater an increase in the Taluk of Arrealore a great part of the soil of which is of a similar nature. Many of the poorer Ryots who cultivate by means of hired cattle and implements were during the season under report deprived of their means of Cultivation in consequence of the owners of the cattle having been obliged to defer their operations till a later period than usual. The Revenue on the whole was however collected without distress to the ryots the difficulties attending the Cultivation having been compensated by an advance in the price of grain and the result of the settlement was an increase of Rupees ‡23920—14-1 above that of Fusly 1254.-

‡Settlement of Fusly 1254. Rs. 1274349-6-7
1255. Rs. 1298270-4-8
Increase 23920-14-1
4.

Some degree of embarrassment has been experienced in the four wet Taluks in consequence of the emigration of the Pullers the Cast-ow whom formerly

as

as slaves and now as labourers the landowner chiefly depends for the Cultivation of this irrigated lands. 1159 of these people are ascertained to have gone chiefly to Ceylon during Fusly 1255 and the total number of those who have absented themselves is supposed to be nearly 3000. I have little doubt that in the end this will in proces of time create its own remedy. but in the meantime it is clear that such an abstraction of labor must have put the Meerasidars to considerable inconvenience particularly as the nature of the seasons lately has been such as to require more than the usual share of labor in the Construction of the temporary works by means of which water is led into the channels nor has the inconvenience been confined to the actual loss of the labor of the Pullers who have left the District those who have remained behind have on several occasions exhibited Considerable determination to insist on superior rates of remuneration to that which they have been accustomed to receive and I have

had

had some difficulty in quelling their dis=
=turbances and inducing them peaceably to
undertake their usual avocations - It is
worthy of mention that each Puller is con=
=sidered capable of managing 5 Cawnies
of Nunjah land -

Prices

5 A Considerable advance took place
in the price of Grain during the season
under review as will be perceived from
No. 4. the accompanying Statement - In the arti=
=cle of Sunbah paddy it was particularly
remarkable and exceeded that of Fusly 1254
to the amount of 22 per Cent -

average rate.
Fusly 1254 Rs 1-10½
" 1255 " 1-4-7
Increase " 38½ %

The Settlement was conducted in
Conformity with the provisions of the
Hoolkummah except that in the dry
lands it was confined to the actual cultiva=
=tion remission being allowed under the
† From Board 9th March 1840. orders noted in the † margin on such
portions of holdings as could not from
the circumstances of the season be culti=
=vated - Had not this indulgence been
granted the amount of the settlement
would have been greatly swelled - but
there would have been a Correspondling
entry in the balance sheet accompanied
by

by all the harassing circumstances which
must ever attend attempts to exact from
men who are conscious of having been cir=
=cumscribed in their means of tax paying
by circumstances over which they have no Control -

7. In the wet Talooks all land was
brought to account which was left waste
thro negligence or from a desire to evade
just demands - The Cause of the deficiency
in the revenue derived from these talooks
Compared with former good years has been
already explained -

8. The only circumstance which seems
to call for further particular notice as
connected with the rules by which the
settlement is regulated is the mode of
Assessment obtaining in the dry lands
which proceeds according to the description
of Crop grown - I have been called upon
to make a special report on the subject
and I will only briefly remark here
that if I have erred in following the Sys=
=tem which I found in force it is
because I have misinterpreted the or
=ders and wishes of the Board in
thinking that their intention was merely

to

Fort St. George 1st October 1846

to prohibit me from returning to the original method which I had expressed a wish to do in preference to continuing the present system which is a modification of it. The Board having in the Extract from their proceedings of the 15th April 1844 stated that they were "averse to Sanction partial changes which unsettle existing institutions and endanger the revenue without affording effectual relief to the people" later Communications from the Board have led me to suppose that I have misinterpreted their orders and that I should henceforth cease to follow any part of the system which involves a change in the Revenue consequent upon a change in the nature of the crop, and on this subject

Fort St. George 1st October 1846.

subject I solicited orders in my letter of the 4th June 1846.

9 The Pottahs were delivered principally in my own presence partly in that of Mr. R. S. Sullivan my Head Assistant and in accordance with the orders of Government and a Custom which I have never at the time of Summabundy omitted to observe the Heads of Villages were addressed as to the nature of their duties and exhorted to a performance of them, but I am constrained to confess that I do not consider that much advance has been made to a more regular Course of proceeding on their part. tho I am assured that their influence is used for good in the settlement of petty disputes which they arrange without the formalities of

Fort St George 1st October 1840

of making any Record of the Cause from which it is made to appear, & Report of the Circumstances which had the Effect of preventing the Collection and Remuneration to the Proprietors of Land had Plans been prepared & Offered in Reasoning with this Reduction & Proceedings for the Purpose of ascertaining the Objection to the Additional Assessment thereon that they are not Sufficiently Remunerated. But in the Question will arise Clearly Objects of the Additional that an Investigation in the Settlement may be Conducted for.

The deductions exhibited were made on holdings entirely or partly relinquished principally owing to want of rain and also to the various other causes which usually occur to prevent many Ryots from cultivating the full extent of their former holdings as there would seem to be an impression that sufficient attention has not been paid on my part in regard to the exchanges of Poonjay lands and that Ryots have been allowed to relinquish their highly assessed and retain their lowly assessed lands in undue proportions &c. I beg leave to annex a Statement which will shew that in Fusly 1255 the lands relinquished were assessed considerably lower than those newly taken up.

Nanul Padoogay Increase Rs. 25-15-7

18

The increase under this head arises from the Cultivation of a small portion of land on the banks of the Cavery formerly overgrown with reeds.

Increase from Enams " Rs. 11 " "

19.

Cawnies 4 Goolies 30 15/16 of land which were formerly granted as a "Nundavanum" or Garden for the Cultivation of flowers, for the use of a Pagoda were found to be in the possession of persons who had no right to them and cultivated them for their own benefit. The Assessment Rupees 11 was imposed and brought to account.

Increase from resumed Shrotriem and Poroppoo lands Rs. 100-14-1

20

Under the orders of the Board of Revenue dated 19th March and 11th June 1846, two Enams were resumed during the Fusly under report. The lands thus newly incorporated with the Jyn lands consist of Cawnies 279-90-4½ of which 64-6-15½ were cultivated - and the assessment amounting to Rupees 100-14-1 is the increase under this head.

Quit Rent Increase Rs. 228-2-5

21.

The increase under this head is the amount of Quit Rent on lands occupied by dwelling houses at the station of Trichinopoly newly

newly included in the Jummabundy in Fusly 1255 under the orders of the Board dated 8th August 1844.

Alterations of Crops.

Assessment on 3rd crops grown on wet and garden lands Rupees 193-1 Increase from the cultivation of second crop on Garden lands entered in the accounts as bearing one crop Rupees 738-3-10 Increase from the Cultivation of the Superior Kinds of crops on lands which in Fusly 1254 were cultivated with inferior Kinds, Rupees 4,092-11-9 Total increase Rupees 5024-4-7 The decrease is composed of the following items Decrease in the Cultivation of 3rd Crops 197-9-11 in 2nd crops on one crop Garden land 61-6. Decrease from the cultivation of inferior Kinds of crops on lands which were cultivated with superior Kinds in Fusly 1254 Rupees 649-2-3 Total decrease Rupees 908-2-2 leaving a net increase of Rupees 4115-14-5.

24. The item of Rupees 649-2-3 the

the decrease from the cultivation of inferior crops seems to require further explanation which accordingly I beg to subjoin.

25.

In the dry Villages of the Talook of Conaid the assessment on Punjay lands depends on the description of crops cultivated, the remission on that account is Rupees 25-7-9. In the dry Villages of the same talook a superior rate of tax is imposed whenever "Roonah" the root used for dying is cultivated in the same way that Turmaric, plantains &c. are subject to a high tax. the increase on this account amounted to Rupees 3-2-9. In the Talook of Caulgoody the tax on certain quantities of land was improperly entered in the accounts of Fusly 1254 by the Curnoms as being subject to a higher rate than was justly due in consequence of a change in the description of the crops grown this occasioned a remission in Fusly 1255 of Rupees 19-8-9.

26.

In the Village of Tartatiore and 5 other Villages in Torriore it has ever been the practice to regulate the assessment by the description of crop grown. The remission in consequence of this Custom was Rupees 170-3-4.

In the same talook and Village

27.

the assessment of the 1st Crop on Punjay lands is fixed with reference to the Cultivation of Paddy of the 2d Crop with reference to that of Raghee it being presumed that there is not in general water enough to suffice for the cultivation of Raghee. but if Paddy is cultivated the tax is increased. In Fusly 1254 Paddy was cultivated as the 2d Crop, in Fusly 1255 Raghee - hence a decrease in the latter year of Rupees 12-4-5. The decrease of Rupees 6-5-4 arises from the cessation of Vampyre cultivation on certain Baghayet lands, in the Talooks of Torriore also, and is a change about the propriety of which there can be no doubt. It would however be better to enter it under the head of Vanpyre. In the Topayee Mahanum of Torriore it is customary to make an additional demand on Poonjay land when a second crop is cultivated - when it is not cultivated the additional demand is remitted. On this account there was a decrease of Rupees 6-8-2 In the Talook of Arealore the Curnom of a certain Village erroneously entered the assessment as if for a high crop on certain land in Fusly 1254 - in Fusly 1255 the excess, amounting to Rupees 4-2-. was remitted. The sum

of

of Rupees 397-7— was remitted in consequence of a certain extent of land which in Fusly 1254 was cultivated with Paddy as the second crop, having in the year under report been cultivated with Raghee, in conformity with a custom described above. In the same Talook a remission of Rupees [illegible] was allowed on land on which an additional Assessment had been fixed in consequence of the Cultivation of Sugar cane.

28. I have thought it proper to enter into this detailed explanation in consequence of the orders which I have lately received relative to the taxation of crops alluded to in the former part of this letter.

30. Under this head there was a net increase in fusly 1255 as compared with the preceding year of Rupees 7,371-14-3 There was every disposition on the part of the Ryots in the wet Talooks to increase this cultivation but the time at which the freshes came done prevented a greater extension. In the dry Talooks many of the Tanks, as above noticed, received a very insufficient supply of water and

and some were deprived of it altogether. but the utmost advantage was taken of what water there was, a vigilant supervision being also exercised on the part of the public servants to prevent any improper omissions to cultivate and all lands which were left waste without sufficient excuse were included in the Statement.

were collected within the fusly leaving a balance of Rupees 364-9-1 of which Rupees 350-6-7 are due by one annajee Rao a Tahsildar in the Madura District who will neither cultivate his lands nor give them up, and endeavours to obtain remission of the assessment on grounds which cannot be admitted. The Board have authorized the recovery of this balance by the sale of annajee Rao's lands but I have little doubt that he will pay it before this report can be dispatched. The only balance therefore which will remain outstanding on account of fusly 1255 is the small sum of Rupees 14-2-6 the assessment on a Peroopoo Maniem belonging to one Mootapillay who left the District some years ago. The amount is irrecoverable and I solicit sanction for writing it off in the accounts and incorporating the Maniem with the din lands.

I propose submitting a separate report on the state of the balances of fusly 1251 in October by which time I hope to have realized all that can be recovered.

51.

As regards the balances of other years I have already submitted my reasons for considering that they should be remitted. I beg most respectfully to repeat the opinion I then expressed and to observe that the arrears are entirely to be attributed to bad seasons and low prices. The state of the latter of which is exhibited in the Margin+. I can safely say that the demand was in the years in question, enforced to the utmost extent possible, and with as much rigidity as could properly be exercised. The conduct of some of the defaulters rendered a greater degree of rigidity than it would otherwise have been necessary to resort to unavoidable. and had their grain almost the only property available besides their land. not been sequestrated the Government would have been driven to the necessity of exposing thirteen entire Villages to

From the Prin. Coll.
of Madura

Sir,

In reply to your letter of the 14th received on the 20th Instant, communicating the Board's hesitation to sanction extra tent allowance, drawn in my name, from the 29th August to the 3d September; and for the 25th and 26th December 1845, within the limits of Trichinopoly, I regret my omission to notice the matter in the list submitted, and beg to explain that on the first occasion I was in attendance on His Excellency the Rajah Sondaman Bahadur of Poodoocotay who, with his Mother and family had come to Trichinopoly to bathe in the Caavery, a ceremony considered by them desirable, after the Marriage of the two young chiefs. On the second occasion I was necessitated to go through Trichinopoly, on my road to Poodoocotay, and took that particular road in preference to inspect the admirable improvements of the

direct road from Poodoocotay to Trichinopoly which approaches within 7 or 5 miles of the last named place, which last portion is nearly impassable for wheel carriage; whilst the 30 or Miles in Poodoocotay are very far above mediocrity; having been formerly but little better than the few miles in Trichinopoly. On the occasion in question I drove a buggy the whole distance in Poodoocotay before breakfast.

Sir,

Para 1.

With reference to para 15 of Boards Proceedings dated 1st Instant I have the honor to report that Cotton screws and Warehouses of Native Merchants in this Zillah, have not been hitherto subject to any tax.

Fort St. George 1st October 1846

A Memorandum of the highest and lowest rate of tax imposed on wholesale Dealers in Virdooputty and on trade in other places, is given below for the Board's information.

In reply to Para 8 of the Board's Proceedings of 1st December 1845, I beg to state that the Balance of Rupees 4912-- due by the Chauk Renters of Fusly 1254, cannot immediately be adjusted; the Chauk Fishery having been rented out for 3 years from Fusly 1253 to 1255, and the Fishery of fusly 1255 being carried on under Circar Management, agreeably to the Board's Proceedings of 23d October 1845. By arrangements made, it is hoped that much loss to Government will be obviated the late storm has interrupted and injured the Fishery damaging many of the Chauk Boats.

Transmits a letter from the Civil Judge of Honore requesting a review of the decision passed by Government as communicated in Boards Proceedings of the 3d ultimo respecting the grant of a site for the erection of Bungalow at Honore.

21st August 1846.

At the request of Mr. Lascelles the Civil and Sessions Judge at Honore I have the honor to transmit the accompanying letter requesting a review on the part of Government of the decision lately passed as communicated in Boards' Proceedings of the 3d ultimo respecting the grant of a site for the erection of a bungalow at Honore and the terms on which he should be allowed to occupy the bungalow he now resides in- as the subject has already been under the consideration of the Board and was referred to their orders previously to my taking charge of the district, I do not consider it necessary to offer any opinion respecting the objections urged by Mr. Lascelles particularly as I have not visited that part of the district and am unacquainted with the locality.-

The bungalow referred to by Mr. Lascelles in the last paragraph of his letter as being with an extensive Compound in possession of the Revenue Officers is I am informed one which was originally built by the Conservator of forests and purchased

To

T. L. Blane Esqre.
Collector of Canara

Sir,

1.

I have the honor to acknow-
=ledge the receipt of your letter of the 20th.
Instant forwarding Copy of the Minutes of
Consultation dated 25th. July on the subject of
the house occupied by me, and my applic-
=ation for land at this station - Feeling
myself aggrieved by the order passed on
that subject, and perfectly satisfied that
the Government are not in possession
of the true merits of the case, which
induced the refusal to grant the land
applied for, I must beg that you will
do me the favor to forward to Government
through

Fort St. George 1st October 1846. -

through the regular channel this commun-
=ication requesting a review of the said
order - Showing the loss I shall sustain by
it - and soliciting that a moiety of the orig-
=inal quantity of land applied for be -
granted on the conditions proposed in my
letter of the 25th August 1845. -

I beg permission to state

2.

that since the establishment of the Sessions
Court at this station /1843/ three applica-
=tions have been sent in for land to build
upon by the 3 European Officers on duty
at this place, Viz. the Sessions Judge, the
Commanding Officer and the Assistant Surgeon,
and three substantial buildings have since
been erected upon the three portions of
Sirkar lands applied for by these Officers
under the firm conviction that grants

on the usual terms be given by Govern-
=ment for the grounds applied for. -

to the date of my application for the land
in question, and after the Engineer had
been ordered in consequence to estimate and
report the Value of the ruins on the
grounds I had applied for - after that
Officer had reported the site a most
suitable one for the Judges' house, and

had pointed out the necessity for one being built and after the land had been measured by the Revenue authorities, and I had distinctly been given to understand, not only that there existed no impediment to my building upon the said ground, but on the contrary that it was most advisable that I should do so, and previous at the rains setting in, otherwise that I should be driven into the old Travellers' Bungalow, since condemned as unfit even for that purpose. I commenced erecting the two buildings in question. I am now informed, one† year after sending in my application for this land, that these buildings are to be the property of Government on my quitting the station - this, for the use of an uninhabitable building, owned by no one, valued on a measurement of its walls by the Engineer at 500, but which if put up at public auction would very probably not have brought 50 Rupees, I am to pay (in addition to putting the said building into full repair) about 50† Rupees Monthly rental if I now removed, the same rental fixed by the Sub Collector, if Government had expended on the property the sum of 6,000 Rupees.

† Note 2 days less than one year.

† Note Estimated outlay on the two Buildings about 1,000 Rupees time of residence about 20 Months or 50 Rupees each month.

longer on the time of Government by commenting on the very singular view which has taken throughout by the Revenue authorities in their Proceedings which has led the Government to reject the Sessions Judge's application for two acres of Sirkar waste land to build a house upon, reputed† the most suitable for that purpose, I venture to hope that the Government will be induced on a review of the case to modify their order of the 25th July last, and grant to me at least a moiety of the ground in question. If this is refused, I must beg to be no higher taxed than the Revenue and Judicial Officers, who have preceded me at this station, that is that the outlay in repairing the original building be considered as a fair equivalent for the rental of the premises during the period of my occupancy - that 1,000 Rupees be paid to me for the new buildings - plans and estimates of which have been furnished by the Engineer Department - and that hence forward I be required to pay a rental of 35 Rupees Monthly for the same. and should this not be acceded to I request that 2. acres.

† Vide Engineer's report.

Note. according to the Sub Coll.r Mr. Parker's estimate an outlay by Government of 6000 Rs. ought to bring 50 Rs. Monthly rental. 500 Rs. the Value of the old house ought then to be rented at below 5. Rs. each Month. rental for 20 Months 100 Rs. four times that amount.

amount has been laid out in the repairs &c.a of the original building during the said period.

acres of some other waste land within a mile of Honore, where Sirkar waste is to be had in abundance, may be granted to me on the same Conditions as to the other European Officers at the station, to which ground I shall remove the materials of the two new Bungalows which I have been induced to erect on the ground in question.—

5.

It very probably is not known to the Government that the Revenue authorities posses at this station, in addition to the grounds in which the Cutcherry is built an extensive compound with a private Bungalow upon it.

Ordered that the foregoing letter be submitted with the following address.—

To The Chief Secretary to
Government.

(25-26)

To the Chief Secy. to Government.

Sir,

I am directed by the Board of Revenue to forward for the orders of the Most Noble the Governor in Council the accompanying letter—2d. September 1846—from the Collector of Canara transmitting a communication from Mr. Lascelles Civil Judge of Honore in which that Gentleman requests a review of the decision passed by Government in Extract Minutes of Consultation 25th July last upon

12337

Fort St. George 1st October 1846

upon his application for the grant of a site for the erection of a Bungalow at that station

As the views of the Board upon this subject and the correspondence which has passed respecting it have been laid before Government with my letter of 18th June last the Board think it unnecessary in submitting Mr. Lascelles's letter to accompany it with any comment. For reasons which they have already explained they cannot advise that any portion of the land to which his first application had reference be granted to him. but if as Mr. Lascelles states other Sircar waste land is to had in abundance within a mile of Honore they see no objection to a grant of two acres being made to him on the usual terms—nor adverting to the opinion expressed by the Collector do they perceive any reason why the Bungalow mentioned by Mr. Lascelles in the last Para of his letter should not be sold to him at a price to be fixed by the Engineer of the Division and the surrounding compound, or as much of it as he may require given to him on Grant. In either case also they think that the Civil Judge might be allowed to remove to his newly selected site the materials of the Bungalows which he has recently constructed, so far at least as their removal would not affect the buildings previously erected on the same ground.

Revd. Board Office

Annually proposed in the Estimate submitted to Board and Sanctioned by Government.

The Extra Servants here estimated, are required to protect the quantity of Salt manufactured in the district for the Government Monopoly from being made away with, as also to guard the Salt transported from one depôt to another, as well as the foreign Salt which will be required to cover the deficiency in the home manufacture.—

The increase in the present estimate is owing to 12 Kolkars Viz.t 6 for 4 Months and 6 for 2 Months at 4 Rs. each per Month, being proposed for the three additional depôts recommended in my letter to the Board dated 8.th June, and approved by Government under date the 13.th July 1840.—

To The Chief Secretary to Government

Sir

I am directed by the Board of Revenue to acknowledge the receipt of a resolution of Government No 2768 - 25th July 1846 communicating copy of a letter from the Secretary to the Government of India 4th July 1846 - in which sanction is granted for the substitution of a Measure of capacity in place of the Indian Maund weight of 3200 Tolas in conducting the sales of salt in the Maritime provinces of the

Fort St. George 5th October 1846.

the Madras Presidency and requesting the Board to take the necessary steps for the purpose.

2. In reply the Board direct me to state that they have caused experiments to be made in their office with a view to ascertain what would be the most convenient size for the new Measures to be introduced into the salt Depots of this Presidency and it appears to them that Measures containing a half or one third of an Indian Maund will be the best suited for the purpose. They cannot however at present decide whether the ½ or ⅓ Maund Measure should be preferred, but propose to send one of each description to two Districts where the sales of salt are the largest and to obtain the opinion of the Collectors upon the point. As however it is very desirable that these Measures should be prepared with care and accuracy and in such a manner as to serve as standards by which all other Measures of a little kind may be regulated, the Board would beg to suggest that they may be made up at the Mint. The Measures required should be made of Copper and should be four in number viz. 2 to contain each ½ a Maund or 1600 Tolas or Rupees weight of salt and 2 to contain each ⅓ of a Maund or 1066⅔ Tolas weight. The salt to which the measures are to be adapted may be procured from the Collector of Madras, but care should be taken that it be old salt and in a thoroughly dry state.

Sir,

I have the honor to acknowledge Extract from Minutes of Consultation 27th March 1846, No. 1496, and am directed by His Excellency the Commander in Chief to forward for submission to the Most Noble the Governor in Council the papers noted in the margin, and to offer the following observations.

Judicious and practical as are the views which Mr. Onslow has set forth in his short Memorandum which is enclosed, and confident as His Excellency feels that the public good would not suffer by being entrusted to that Gentleman's zeal, he yet considers that it would not be expedient to break through the rule of leaving a certain extent (4 Miles) around any Cantonment, under the control of Military authority for the suppression of

of drunkenness, and with reference to Trichinopoly in particular the Commander in Chief must contemplate the possibility of Mr. Onslow being withdrawn from his present duties and succeeded by a Magistrate who might devote less of his attention to that particular subject which is of such paramount importance to the discipline, and welfare of the Army.-

While his Excellency therefore regrets that he cannot recommend the adoption of a suggestion which would give the Military at Trichinopoly, the more immediate benefit of Mr. Onslow's experience and activity as a Magistrate, he directs me to solicit the particular attention of the Most Noble the Governor in Council to the letter of Captain Gosling of the Commissariat, containing as it appears to do the most convincing proofs of the necessity for taking further measures in respect to the Arrack which may restrain intemperance amongst the Military at that Station.-

With reference to para 9 of

Captain Gosling's letter, it is the intention of his Excellency to call the attention of the Military authorities at Trichinopoly to the latter Clause of para XLVII, Regulation VIII of 1832

Sir,

No. 2284
Forwards Extract Minutes of Cons. regarding Mr. Harry Limits at Trichinopoly for the opinion of Major General Gibson.-

With reference to your letter to my address dated 28th March 1846 (No. and subject as per Margin) I do myself the honor to report that I called upon the Officer Commanding Trichinopoly and the Commissariat Officer for their reports on the subject connected with the Minutes of Consultation accompanying your letter now under reply, and their reports are herewith forwarded.

2. I took occasion in a personal communication with Mr. Onslow, but without shewing him the Military Reports, to ask him his opinion on this question, and it is with his permission and concurrence that I have with

Fort St. George 5th October 1846.

herewith forward his memorandum in reference thereto.-

3. From every enquiry and from every information which I have been enabled to obtain I cannot learn that intoxication prevails more now at Trichinopoly than it did 15 years ago. I offer this opinion with due deference to Mr. Onslow, who must I very willingly admit be a better judge than myself, but it is quite clear to me that the whole subject hinges upon the want of mutual cooperation between the Civil and Military Authorities, as I cannot perceive how intemperance can be checked by the Civil authorities having the control of the sale of liquor in the Island of Seringham; as if the Civil & Military contractor sold arrack at the usual rate which it is sold in the District, it would only facilitate the procuring of it to the Native Population of the Fort, but here Mr. Onslow has obligingly met the question, and he has assured me that if he is allowed the control of the sale of liquor in the Island of Seringham, he will insist on the price being established on the Island of Seringham being the same as that at

Fort St. George 5th October 1846

at which it is sold by the Military Contractor The Commissariat Officer is on the other hand extremely jealous of any alteration in the contract as affecting the Revenue derived by his Depart-ment. I cannot see the weight of this argument as doubtless the Revenue received by the Col-lector would come to be equivalent to that lost by the Commissariat Department; thus the Revenue would reach the Government Treasury though through different sources, I am therefore compelled to say that although I can see no benefit from this innovation in a long existing Regulation, I can see no objection to Mr. Onslow's wishes being acceded to, always bearing in mind the fundamental principle on which it is accorded that liquor and intoxicating drugs are never to be sold there at a lesser rate than that at which a similar article can be purchased for from the Military Contractor.

I must observe however that innovations and alterations in long established rules should never be adopted without some certain advantage is to be derived from the alteration, and although I do not see the disadvantage of not meeting Mr. Onslow's wishes I cannot see any sufficient reason to induce me

Fort St. George 5th October 1846

far as relates to Abkaree contract, was under civil authority, the evil of drunkenness arising amongst the European Soldiery would be very considerably increased, from the facility of obtaining liquor, at half the cost of that sold within Military Abkaree limits. The river is fordable 2/3rds of the year, and if it be admitted that spirits could be had at half price on the opposite bank, not only would the soldiers themselves resort thereto, but smuggling to a very great extent would increase, and when the bridge now in course of progress is finished, the difficulty of crossing over to Seringham will at all seasons be removed. Another question occurs to me, on which perhaps I have no right to comment it being irrelevant to Military matters; which is that the Abkaree Revenue might be considerably diminished by the proposed transfer. At the same time I cannot fancy that in every other point of view the transfer would be beneficial. I have the honor to submit the view the Commissariat officer has taken on the subject; and in conclusion I must apologize for the time your communication has remained unanswered owing

Sir,

I have the honor to acknowledge the receipt of your letter No. 154 of the 1st ultimo, with its several accompaniments hereunto returned. Upon some consideration on the subject, after due enquiry, and with reference to a plan of the Cantonment, and Garrison of Trichinopoly, denoting the Military Abkarry limits in possession of the Commissariat Officer, and defining them to an extent of four miles in circumference from the centre of the General Military bazar I am of opinion, that if the island of Seringham as

Fort St George 5th October 1846

possible from the European soldiery the spot where the facilities for procuring cheap liquor are the greatest. These limits, which are the same as in every other Military Bazar station, have since remained undisturbed, and I beg to observe, that after an experience of 3 years at this station, I am not aware of any cogent reason, which now calls for an alteration of them.

3. As it may perhaps be expected that I should offer a remark upon the probable effect of the measure upon the Civil population, I beg to state, under correction, my opinion that it would rather tend to increase the evils complained of by the Magistrate, than the contrary, from the simple circumstance that the price of the liquor vended by the Civil Contractor is much lower than that of the Military and consequently, that a more than ordinary quantity would be consumed by the people especially during the great festivals. The restrictions, also upon, drinking are I believe greater at present, than they would

Sir,

I have the honor to acknowledge the Fort Adjutants* A. M. forwarding Do= comments as per margin on the subject of annexing the abkaree of the Island of Seringam to the Revenue Department, and calling for a report on the same.

2. In reply, I beg to state that the abkaree limits at this station were fixed by the commissariat Officer at the establishment of the General Military bazars in 1822, with the concurrence of the Collector and the Officer commanding the Garrison; and as usual included an area of 4 Miles round the General Military Bazar, than which a better point, could not in my opinion have been selected, with reference to the important object of removing as far as

would be were the Military Regulations not in force; although, on this point I do apprehend, that no restrictions would operate successfully in preventing the lower orders from procuring the liquor to which they are accustomed and which is perhaps as necessary to them as their daily food.

With respect to the proposal of the Board that the Abkary of liquor should be transferred to the Revenue Department with a view to the greater prevention of Drunkenness while the vast population of the Fort and suburbs should still remain under the present arrangement I beg to observe that the majority of the population of the Island are Bramins, among whom the practice of Drinking is unknown, and, and that there, are only 3 Licensed arack and Toddy Shops established there, viz:

1 at Seringham
1 at Jumbookistnah, and
1 at Marlon; on the verge of the civil limits; all of which are at a considerable

distance from each other supposing that the number of shops were to be still more reduced than at present, I presume that Individuals in the habit of Drinking would not hesitate to go a little farther for their liquor than usual, rather than be deprived of it entirely and if it were deemed expedient to abolish them altogether it would inevitably lead to smuggling; with all due deference, therefore the opinion of the Board, I confess myself unable to see any great advantage derivable from the measure, as regards the prevention of Drunkenness among the Civil population, the majority of which it may be observed would still be under Military control.

But while I am of opinion that the adoption of this measure would not lead to the anticipated result among the Civil population, I cannot but consider that it would be decidedly impolitic with reference to the Troops, and especially the Europeans as it would defeat the object originally contemplated by Government in

in fixing so large a space as an area of 4 Miles for the operations of the Military Abkary, by affording the men increased facilities for obtaining liquor at a cheaper rate. The Civil limits are at present, so remote that the soldiers cannot obtain easy access to them but if they were brought so near the Cantonment as the left Bank of the Cavery, which is dry, or at least fordable during the greater part of the year (and more especially after the new bridge now in course of erection is built) it would be impossible to keep the men from resorting to them.

It appears to me that this is a most substantial reason for not disturbing the present boundary which has been now fixed for upwards of 20 years.

6.

An important subject connected with the present question is the influence upon the rent which would be produced by severing the Island of Seringham from the Military contract, and I am induced to believe that it would be extremely detrimental to the

1st Obj.

Because the superior cheapness of

of the liquor under Civil contracts would draw the Customers from all our Shops, and more especially those in the Fort, which would be close to the Civil limits.

2nd Obj.

Because the loss of the sales at the great Festivals, when the Civil and Military population and a vast concourse of Strangers and pilgrims from all quarters flock to the Island, would considerably reduce the amount of the Contractors receipts, and consequently produce a deterioration of Military Abkary revenue, to the extent of probably one third of the present receipts as I am credibly informed.

3.

So far from contracting the Military Abkary limits, it has always appeared to me advisable that they should be still more extended if possible, in order that the Civil limits, where liquor is to be procured for little or nothing should be removed to a greater distance than at present from the European Soldiery, and also that smuggling into Military limits might be rendered more difficult; with this view I conceive that a space of 4 miles might be advantageously left vacant, between the Civil and Military limits within which

no

no Shops should be permitted to be kept.

8.

After mature consideration therefore I beg respectfully to state my opinion that any change in the present arrangements would be productive of serious inconvenience and I would therefore recommend that the Abkarry of the Island of Seeringham, may not be removed from the management of this Department. The advantages contemplated by the change it appears to me are uncertain as it admits of a doubt of any diminution of Drunkenness could actually ensue, while on the contrary, very serious evils would result, as I have endeavoured to shew; if the change now contemplated, were carried into effect.

9

With regard to the number of Shops at present under License I beg to state that there are exactly the same number within Military Limits, as were included in the List forwarded by General Showers in 1840 viz.

31 Arrack

15 Toddy

as you will perceive by a reference to the annexed

annexed list. The "out Garrison" Shops therein alluded to have been allowed to exist during the last few years, but they have been for the present, abolished by me, since the expiration of the last contract and will not be resumed unless absolutely necessary. Their establishment was only occasionally permitted as a temporary measure during the festivals, to secure our Contractors from the loss entailed on them by the competition of the Civil Renters, who erected booths for vending Liquor on the verge of our limits. The places where opium, Gunjah and Bang are retailed, are probably included among the 72 Shops alluded to in the Revenue Board's report. I beg to add that I am not aware that there are greater facilities for procuring liquor at present than in former years, nor do I consider that Drunkenness prevails here to a greater extent (as far as comes under my notice as Police Officer) than at other stations, where the Abkarry System exists. The number of Shops has not been found more than are required to

to supply the wants of the people, and to afford the Renter a fair field for the exercise of his Contract.

In conclusion I beg to inform you that frequent references on the subject of the Military Police Jurisdiction and the definition of the limits of the Cantonment, have been made to Government and I am induced to believe that the Settlement of these points was a main consideration with General Showers in reporting on the advisability of disconnecting Seringum from Military limits rather perhaps than any distinct reference to, or peculiar interest in, the prevention of Drunkenness among the Native population, It is possible also that the effects of the measure upon the European Troops, may in their full extent, have escaped the General notice, more particularly as I cannot discover in the records of this Office that any correspondence was held at the time with the Commissariat Office

Memorandum.

The object of placing the management of the Abkarry under the Commissariat Officer is not to create a revenue, but to repress drunkenness.

This object is entirely defeated when the Officer charged with the management directs his attention principally to Revenue, endeavouring to sell as much as he can to the drinking portion of the general community and only endeavouring to repress the vice of drinking as regards the Military.

In my opinion therefore the present System is radically faulty. The Head of the Department, the Commissary General has no interest in the Police administration of a Cantonment, and if a falling off occurs in the Abkarry revenue his subordinate is liable to his displeasure without any imputation on the Officers in charge of the Military Police it is obvious that their bias will be rather to conciliate the favor of the Commissary General by increasing their revenues than to aid in preventing drunkenness in their Capacity as Police Officers, for their promotion depends rather on their qualifications as Commissariat than as Police

Police Officers. But this is a question which is perhaps placed beyond discussion as by the enactments and orders of Government the system I complain of has its being.

To advert then to the peculiarities of Trichinopoly. It is objected I believe to my complaints that Drunkenness is not peculiar: ly prevalent here. but as the objection is. founded upon the means of observation afforded the Military Police Officer by his situation I do not think it a very valid one, for the Cantonment as constituted here differs very materially from other Cantonments. however I need not here mention. Moreover I do not consider it a question of comparison. It is admitted that drunkenness prevails to a lamentable extent (I allude to observations on the subject by the Foujdaree Adaulut) and I am quite satisfied that the vice is as prevalent here, to say the least as at other places. and I may be permitted to say that as having exercised the duties of Magistrate here for upwards of 7 years as having taken great pains to abate the evil. having gone thro' the Fort and its purlieus at almost all hours from four in the morning to twelve at midnight.

midnight. my means of observation are considerable. and that they have been made use of.—

If the foregoing observations are just it seems beyond a doubt that the Magistrate ought to be consulted as to the number of Shops and their sites. It must ever be borne in mind that it is as much his duty to prevent drunkenness amongst the community generally as it is for the Military Police Officer to prevent it amongst the Military.—

As regards the proposed contraction of the Military Abkarry limits it is objected that greater facility will be afforded to the Military to obtain liquor by bringing Cheap liquor shops nearer to them. This objection can easily be obviated by raising the prices at the Shops to which it applies.—

The Cannery bridge will certainly facilitate access to Seerungham. but it will at least as greatly facilitate the detection of the Military who may resort thither for the purpose of getting liquor. From the bridge they may be much better observed than they now can be. and no Shops will be established at

at places where the Military authorities may think they ought not to be.—

General Showers proposals &c. about Seerungham had reference solely to the Abkarry question. he never contemplated extending the Cantonment to the South bank of the Cannery.—

Recent occurrences have led me to believe that the Civil and Military Shopkeepers are jointly concerned in smuggling transactions. The Military Shopkeeper purchasing his supply from the Civil one instead of from the Military Godown the former selling at a lower price. I think a reward for the detection of smuggling might abate this evil.—

Submitting a Correspondence with the Collector of Nellore, relating to the disbursements made in Fusly 1252, on account of certain Salt Roofsooms, retrenched by the Civil Auditor, and recommending that sanction be granted for the actual payments, and for the continuance of the allowances.—

(Here enter 20th July 1846 No. 358)

Para 1. "The first item of retrenchment submitted for the orders of Government in the Re-audit under reference is the amount disbursed in Fusly 1252 for the support of various Charitable Institutions in the Nellore District. These institutions it is observed from the account Particulars furnished by the Collector, comprise Byranghee Mutthums, Choultries and Village Water Pandals, which were formerly maintained by grants of Salt Roofsooms &ca but since the monopoly by allowances from the Public Treasury.

public.—It is probable that during a period of 40 years some of these institutions may have fallen into decay or disuse, and this is a point which the local Native Officers should be instructed to ascertain by personal inspection and enquiry on the spot.—The Collector should also report after a consideration of the circumstances and utility of each Establishment, whether as in the case of the Mutthum at Ramiapatam, the present endowment may not be reduced in the instances where it may appear unnecessarily large for the objects of the institution.—

Order thereon " 11th September " " 1258.

3. As regards the Byranghee Mutthums, the Government are not informed of the particular nature and precise objects of these institutions, but if as His Lordship in Council concludes, they are chiefly designed for the accommodation and maintenance of a religious order of Mendicants, he considers it would be objectionable and inexpedient to continue the aid of Government to Establishments which are of no public benefit, and which, divested of all religious prejudices, have nothing to recommend them even to the favor and support

support of the Native community.— As The Collector will be pleased to submit a report on these institutions, furnishing the information required in the beginning of this para, and the Board will also favour the Government with their opinion on the propriety of continuing the grants.—

4. Altho' the allowances payable to the several Charitable Establishments noticed in the preceding 3d para cannot be regarded as personal grants. His Lordship in Council considers it desirable that the accounts furnished to the Audit Office should exhibit the names of the parties having charge of the institutions and held responsible for the due fulfilment of their trust.— In all cases the failure of the existing incumbents to fulfil the obligations of their charge will entail the forfeiture of the allowance enjoyed by them, and the discontinuance of the payment altogether.

5. With a view to the adjustment of the retrenchment pending in the account of Fasly 1252. His Lordship in Council resolves to authorize the Civil Auditor

Auditor to admit the Sum of Rupees 1138-10- disbursed on account of the above institutions as well as the subsequent payments to Fasly 1255, but will await the further information now called for before sanctioning the continuance of the grants.—

From the Collr of Rajahmundry Reporting on the Settlement of Extra Sources of Revenue for Fusly 1255.

Sir

Para 1. I have the honor to submit the usual Statements exhibiting the Settlement of Extra Sources of revenue in this District for fusly 1255 A.D. 1845/46.

2. The annexed Statement of Salt Collections exhibits on a Net increase of Rupees 263-2-9 being the result of an increase of Rupees 2452-11-6 in the Inland Consumption sales of smuggled Salt, and Extra revenue, and a decrease of Rupees 2189-8-9 in the Home Consumption, in the supply for the French Settlement of Yanam, and the recovery of advances for

for

for salt manufactures.

3. The Decrease in the Home Consumption has arisen from the price of Salt sold in Fusly under review being at 1 Rupee per Maund while it was at 1. 8 per Maund until the 16th of August in Fusly 1254 / A.D. 1844/45

4. The Increase in the sales for Inland Consumption was owing to the large number of Brinjaries, who came to the Mogultore Pans to take Salt to Nagpore Vca.

5. The Increase in the sale of smuggled Salt is occasioned by the vigilance of the Peons during the hot weather in seizing spontaneous Salt.

6. The Decrease in the sale of Salt for the consumption of the French Settlement arose from their receiving 3½ Garces less than in the preceding Fusly.

7. The Decrease in the recovery of Advances+ was inconsequence of the small quantity manufactured and which were received into store within the Fusly Viz. 150311 Maunds.

8. The Increase in the Extra revenue

+ In comparison with the Advances made in Fusly 1253 — and A.D. 1843/44 recovered in Fusly 1254 — A.D. 1844/45

revenue arose from bringing to account a sum held in deposite for a long time on account of the shares on the sale of smuggled Salt due to certain individuals who have not appeared to claim it.

9. The subjoined Statement shows the Comparison of Salt Charges.

in owing to no advance having been made for the small quantity of Salt actually manufactured in the preceding fusly. The large decrease of Rupees 1096. 10. 5 has arisen in the Prime Cost of Salt from the circumstance of less Salt having been manufactured and received into store in the fusly under report while in the preceding fusly a large quantity

quantity was received into store including that manufactured in fusly 1253. a.D. 1843/44.

Frontier duty.

11. The annexed Statement shows an increase of Rupees 1597. 2. 8. on the frontier duty arising principally from the transit of piece goods into the French Settlement of Yanaum notwithstanding a decrease of upwards of 500 Rupees from the abolition of duties on Grain imported to that place and from the import of a large quantity of timber from the Nizam's territory for the repairs of ships Vca in this District.

Moturpha. 20.

The Demand on account of Moturpha (as will be seen by the marginal Statement) has produced a Net increase of Rupees 1235-3-4 chiefly from some addition to the number of Merchants and weavers and from an Extension of trade. This information was obtained by accurate enquiries during the settlement. The decrease on some professions has arisen from the ordinary casualties of death and poverty. The increase in the renting settlement arose from the commutation of the demand of Moturpha Rs. 4911-9-10-2 Rs. 147-9-0 petition. Of this amount were Collected within the end of Fusly and Rs. 764-15-- to the end of August, leaving the present balance of Rs. 1703-10-1. for the realization of which the requisite steps will be taken. With reference to your Circular letter of the 19th January I have the honor to inform you that with the exception a written Copy of Regulations XXVII and XXVIII of 1802 and those of XI of 1816 and IV of 1821 there are no Copies of Regulations in the Talook Cutcherries of this District or any which can be spared from the Hoozoor where there are 3 Copies and as directed I have submitted an Indent for such as appear to me necessary, tho some perhaps may not obsolutely be required still they may be useful in affording information for a Thasildar's guedance when he may be at a loss how to proceed—

The number of Talooks are 17 in which Revenue and Police Regulations are required. The number of Divisions under Heads of Police are 8 and in them the Police Regulations are only necessary—

Proceedings thereon

Recording observations on a letter from the Principal Coll.r of Madura reporting the payment by order of the Rance of Ramnad Rupees 14784-9-6 the property of that Estate to Mr. Fischer of Salem.—

Note

Actual amount of Razeenamah Rupees 50175-13-2 From Pl. Coll.r 26th July in Bo.d 1st August 1846.—

26-27

The sum reported by the Principal Collector of Madura in the letter above recorded as having been paid by him under order from the Rance to Mr. Fischer of Salem is the amount (within a trifling sum) specified in the Razeenamah executed on the 21st October 1842 between Mr. Fischer and the present Rance, at that time Guardian to the late Rance her daughter, in Suit No. 11 of 1841 on the file of the Southern Provincial Court. This suit was instituted by Mr. Fischer against the present Rance Purvatha Vardamey Natchyar, guardian to her daughter Dorarajah Natchyar at that time Minor heiress of Ramnad Estate, as 1st Defendant and Moottoo Chilla Taver the Manager of the Zemindary as 2nd Defendant, for the purpose of recovering the amount stated to be due to him for his alleged services in procuring the refund of the Ramnad Motumpha and in virtue of a Karar or letter of agreement given to him by the 2d Defendant the Manager of the Estate under date 8th July 1839. The Honorable the Court of Directors in their dispatch of the 2d April 1844, when reviewing the Proceedings of the late Madura Commission state (Para 16)"

From Govt. 10th June in Bo.d 4th July 1844

"Of Mr. Fischer's conduct in prosecuting a claim to remuneration for the pretended exertion of his influence in obtaining a settlement of the claim to Motumpha remission on the part of the Ramnad Zemeendar, we are not called on to express an opinion, but we desire to be informed of the result of the Suit which Mr. Fischer instituted against the late Manager of the Ramnad Zemindary." In the same despatch the Home Government strongly condemned the manner in which Mr. Fischer had been allowed to interfere in the affairs of the Madura District, and they fully approved the orders of the Local Government, under which Mr. Blackburne's restoration to Office, had been coupled with an explicit warning "against any repetition of disobedience to superior authority on any occasion whatever, or any instance of permitting Mr. Fischer or his servants to exercise any influence or interference in the affairs of the District."

1845 he has given it as his opinion that
the

the money would be paid as soon as the parties are at liberty to follow their own inclinations. The Board have no means of knowing how far this impression may be well founded but it appears to them that the question is one in which the Revenue authorities have no power of interference and which must be left to be settled by the parties among themselves or by reference to a Civil Tribunal. If the Plaintiff in No. 3 of 1843, Mootoo Veerayee Katcheyar has reason to apprehend that by making this payment to Mr. Fischer, or by any other means, Purwatha Vurdaney Katcheyar will on entering upon possession of the Estate misappropriate its resources she may as intimated by the Sudr Udalut apply to the Court, in order that legal measures may be made available for the protection of the property and it will be for that authority to take such steps as may seem called for." The views of the Board seem to have received the approval and sanction of Government 16th June 1846.

In Con. 22nd June 1846.

the Suit No. 3 of 1843 brought for recovery of Ramnad Estate, in which she deprecated surrender of the property to Purwatha Vurdanee Katcheyar on the ground that the latter would misapply its resources, and alluded particularly to Mr. Fischer's Claim. On this Petition the Board passed the following Endorsement. "The question of the surrender of the Ramnad Zemindary to Purwatha Vurdana Katcheyar has been submitted for the orders of Government. Petitioner may inform herself of any instructions which may be given on the subject by application from time to time to the Principal Collector of Madura. If on Purwatha Vurdana Katcheyar being placed in possession of the property she attempt to misappropriate its resources by making payment to Mr. Fischer of the alleged sum of Rupees 56,000 Rupees or by any other means. Petitioner may address the Civil Court."

p. Copies of all these papers were duly furnished to the Principal Collector, and on their receipt Mr. Blackburne in a letter of 10th June last stated that "looking upon the debt (without reference

reference to its being or not being excessive) due by Ranee Purwatha Vurdana Natcheyar of Ramnad to Mr. Fischer of Salem as just, and for very important services performed, he would have encouraged her immediate payment of it, if he had not been made aware of the Board's sentiments by the proceedings of the 21st May," and he added that when "he considered the heavy punishment with which the Board threaten Purwatha Vurdhanee Natcheyar at the hands of the Civil Courts, if she should presume to pay what he has already reported her to believe a true and honest debt as well as her intention honestly to discharge it and when he considered their Endorsement of the 21st Ultimo on Petition No. 635 of 1846 in which they encouraged her adversary Moottoo Veerayee Natcheyar to address herself to the Civil Courts to enforce the Board's expectations he could but request permission, to furnish her with a copy of that Para of the Board's Proceedings; as also Copy of their endorsement on Petition No. 635 of 1846 to guard her if possible from the risks they think she will incur by following the present dictates of her heart and mind." The Board

Fort St. George 5th October 1846.

saw no reason to comply with the Principal Collector's request to be allowed to furnish Copies of the Papers in question to Purwatha Vurdanah Natcheyar, both because those papers were not intended to bear the construction which Mr. Blackburne had placed upon them, and because such a measure was unusual and seemed to them to be uncalled for, and they intimated their refusal to the Principal Collector in their order of 13th July 1846.

In Bd. 23d July 1846

On the 1st July 1846, the Principal Collector addressed the Board informing them that "orders were being issued for transfer of the Ramnad Zemindary to the Ranee Purwatha Vurdanee Natcheyar," on the 21st of the same Month he reported

In Bd. 17th August 1846

"that Narasing Row Sah Amildar doing the "duty of Manager of Ramnad delivered over "charge of the balance of Cash on hand "amounting to Rupees 21,634-14-10 together "with Jewels, Chanks, chayroot and other "articles, property of the Zemindary to Ranee Purwatha Vurdanee Natcheyar, as per four receipts taken from her From this letter the Board were led to suppose that the Zemindary had been surrendered to the Ranee in toto, and they stated the same in

Fort St. George 5th October 1846

in their letter to Government of 27th August last Paras 1st In the letter recorded at the head of these Proceedings the Principal Collector states "in reference to his seven months suspension from the end of 1842 to the middle of 1843 "that he has just paid under order of the Rance of Ramnad Rupees 49734-9-6 of her money into his hands to Mr. Fischer of Salem——

8. The Board of Revenue deem it their duty at once to lay Mr. Blackburne's letter before the Most Noble the Governor in Council for his consideration and orders, with the precis as above given of all the previous correspondence connected with the subject. They resolve also to call upon the Principal Collector of Madura to furnish as early as possible with a view to its being submitted to Government, explanation as to whether the Ramnad Zemindary has or has not been made over to the Rance, as to the source whence the money paid to Mr. Fischer was derived, and especially in reference to the correspondence cited in the preceding paras, as to the circumstances & the authority under which he has paid or taken part in the payment of the sum in question to that individual.

Ordered that Copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a duplicate of the same be furnished to the Principal Collector of Madura.

Sir,

From the Pe. Collr. of Coimbatore ——— Para. 1

Submits a proposal from the Sub Collector of Coimbatore for the entertainment of a Police Ameen in the Aravacourchy Division of the Iaroor Talook for the Boards consideration

Adverting to the Extract from Minutes of Consultation dated 25th March 1834, circulated by the Court of Foujdaree Adalat on the 10th June following, I have the honor to forward for the consideration of the Board Copies of communications from Mr. C.S. Bird containing a proposition for the appointment of a Police Ameen in the Aravacourchy Division of the Iaroor Talook.

2 The extent of Jurisdiction to be assigned to him is exhibited in the accompanying sketch. It extends over 20 Villages containing a population of 11,741 and yielding a revenue of Rupees 514-52-6-8 or one fourth of the Total Summa of the Talook. The pay proposed by the Sub Collector for this new appointment amounts to Rupees 21 per mensem to be met by the reduction of a Peishcar in Iaroor and of a peon in one of the four Talooks comprising the Sub Division.

27

Fort St. George 5th October 1846.

3.

I do not generally concur with Mr. Bird in opinion as to the necessity for the proposed arrangement. The opinion of the Talook of Cauroor have been managed by a single Tahsildar up to this time with as much regularity and efficiency as in other Talooks and I am therefore induced to the belief that if any unusual difficulties now present themselves, it must be inconsequence of the want of capability on the part of the present Tahsildar.

4.

Considering the extent and nature of the power to be vested in the Ameen, the proposed salary appears absurdly small. being also in opposition to the orders of Government above quoted. The reduction of a Peishcar and Peon is also objectionable in as much as it cannot be expected that in order to meet contingencies arising from a Tahsildar's incapability, the efficiency of the fixed establishment of the Talook should be impaired.

5.

Under these circumstances, I consider the project of the Sub Collector inexpedient: as it seems to me to be merely a measure to meet individual

Fort St. George 5th October 1846

convenience and incapacity creating more over a divided authority in that Talook which I think most likely to work prejudicially. These however are points which require the deliberated attention of the Board.

No. 1.

To

J. C. Wroughton Esqre.
Principal Collector
of Coimbatore.

Sir,

I have the honor to solicit your consideration and recommendation of a small alteration in the Talook Establishment of Cauroor which appears to me calculated to render it more equal to the performance of the duty demanded from it.

At present business is continually in arrears and much of what is done is slurred over hastily. The Tahsildar in explanation asserts that more subjects call for his personal attention than there is time for. I believe this to be true and I find that two other Tahsildars of my Division who heretofore held Office in Cauroor.

Caroor concur in the same account of it.

There are obvious reasons why the Caroor Talook is proportionably more troublesome than others. not in matters of importance and difficulty but in petty details requiring much of the Tahsildar's time. The river Ambravatty finishes its course in this Talook and the wet lands situated under the last two or three channels taken from that river enjoy but a precarious supply of water and this naturally gives rise to continual disputes. The Talook is bounded on three sides by the Salem - Trichinopoly, and Madura Districts - and there is consequently much business made by necessary references to and from the Tahsildars of the adjoining Talooks in those Collectorates, principally in Police matters. The Caroor people rendered so in all probability by the accidents of locality above adverted to, are habitually more litigious than those of the other Talooks in this Division of the District. and thus it is that there is not only more work for the Tahsildar in the way of investigation in Caroor than in the three other Talooks of the Sub Collector's charge, which are each of

of less extent than it, but more proportionably and more I sincerely believe than he can properly get through.

To remedy this I propose with your concurrence and the sanction of higher authority to make an arrangement by which the Tahsildar may be relieved of a considerable portion of the labour which now is required to be performed by him.

There are two Peishcars on the Caroor establishment the duty of whose Office it is to proceed under the orders of the Tahsildar to make personal inspection of localities which the Tahsildar is prevented from visiting himself to collect information, to superintend measurement of grounds and so forth to enable the Tahsildar to arrive at his conclusions in order to settle questions or to report upon them to this Office.

My project is to reduce one of these Peishcars and to establish in a separate part of the Talook a Police Ameen who under Act XXX of 1837 should relieve the Tahsildar of all the Police details of a certain number of Villages and under

clause

Clause II Section II Regulation IV of 1821 should render him all the afsistance he requires in matters of Revenue. I would locate him in the large town of Aravacoorchy and give him Police Powers in the Villages noted in the Margin. His pay I think ought not to be less than Six Pagodas or 21 Rupees which is 1 Pagoda or three and a half Rupees more than the pay of a Peishcar, should there be any difficulty about obtaining sanction for this small increase of Charge it my be met by the reduction of one Talook peon in any part of the Division where one may be spared with least inconvenience and that I think is the Dauraipooram Talook, and for an establishment I would transfer to the Police Ameen one or perhaps two of the five Roysums now borne on the Carour list and give him likewise one of the three Duffadars and a suitable proportion of the Peons belonging to the same Talook.

Vengaman 3
Woodaloor
Aravacoorchy
Sandapadi
Pongumbandy
Madacoor
Valambundy
Tenangonoor
Serdamungalum 3

With respect to the charge I recommend to be given to the proposed Police Ameen, experience may require its alteration. but I ought to explain that I have fixed upon it as being in

a distant part of the Talook containing the two considerable Towns of Aravacoorchy and Chinna Dasapooram but not including the Nunjah Villages which from the circumstances before alluded to call for a great deal of the Tahsildar's attention. I annex a sketch Map of the Talook which may perhaps afsist informing a judgement of the propriety of the suggested partition.

Sir,

In reply to your letter of the 21st Instant desiring to be informed of the grounds upon which I set down a lower Salary than is specified in C. O. Fr M. of 10th June 1834 for the Police Ameen whom I proposed to be appointed in a Sub Division of the Talook of Carour. I have the honor to explain that any suggestion was founded on the difficulty and delay which unavoidably attends the reference which in the present day is required to be made to the

Fr 1st May 1846.

Gouvernment

Government of India when any increase is sought to the cost of existing establishments.

I am quite persuaded that a salary of thirty or thirty-five Rupees is not more than an adequate remuneration to Police Ameens charged with the duties adverted to in my former letter and I wish I were able to think of an arrangement by which the allowances of the proposed Office might be raised to that standard without augmenting the charges of the present Establishment or detracting from its efficiency.

In the present case it appears to me that as the Police Ameenship on the footing I have proposed would naturally be regarded as a stepping stone to higher preferment it may reasonably be expected to be much sought for and zealously filled by candidates for still higher Offices. But should you deem it more proper to apply for the higher rate of allowances I shall be able to shew that the business of the Cavoor Talook is not and has not for many years been satisfactorily performed even under Tahsildars of acknowledged merit, and that the interests of Government therefore require an amendment of the establishment.

I shall however greatly regret the loss of time which this course will lead to, because in consequence of the failure of rain last season and the great increase of the price of food both the Collection of the revenue and investigation of revenue Complaints and the administration of the police are at present unusually difficult and troublesome and the affairs of the Cavoor Talook are I am sorry to say in even a more than commonly unsatisfactory position.

Perhaps Government may see fit considering the circumstances to

12448 Fort St. George 5th October 1846.

to Sanction the arrangement I before proposed pending the determination of the Supreme Government on the question of the increase of charge and this upon the whole I am inclined to think would be the most expedient courser.

Ordered that the foregoing letter be submitted with the following address.

To
The Chief Secretary to Government

(28-29)

To the Chief Secy to Government

In Cons.n 5th October 1846.

Submitting for the favorable consideration of Government a communication from the Principal Collector of Coimbatore forwarding an application from his Sub Collector for the appointment of a Police Ameen for the Revenue and Police management of a Sub division of the Caroor Talook on a monthly salary of 6 Pagodas to be provided by the reduction of one of the Caroor Peishcars at 5 Pagodas and of a Peon Pagoda.

Sir

Para 1. I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying communication. 15th August 1846. from the Principal Collector of Coimbatore forwarding an application from his Sub Collector for the appointment of a Police Ameen for the Revenue and Police management of a Sub Division of the Caroor Talook.

2. From Mr. Bird's letter it will be seen that the Caroor Talook is the most extensive in the Sub Division, and that from the nature of its irrigation from its position on the confines of the three Districts of Salem, Trichinopoly and Madura from the character of its inhabitants, and from other causes. its managements, both in Police and in revenue matters, is more laborious, and involves more detail than that of any other Talook in the Collectors charge. The subjects which call for the personal attention of the Caroor Tahsildar

Tahsildar are thus more than he has time to dispose of the work devolving upon him is, the Sub Collector states, more than he can properly get through, and as a necessary consequence much of it, is in arrears, and much of what is done is hastily slurred over. As a remedy for this state of things, the Sub Collector proposed to place a portion of the Talook under the charge of a Police Annean, who, under Act XXX 1837 and CII SII Regulation IV. 1821, should, within the range allotted to him, exercise the revenue and Police Functions of the Thasildar but subject to the control of that Officer. An arrangement whereby the Tahsildar would be relieved of much of the detail with which he is at present burthened. Mr. Bird has annexed a Sketch Map shewing the extent of the proposed Police Anneens charge which will comprehend 20 Villages with an estimated population of 11741. persons, and an average Revenue of Rupees 51452-6-8. It also includes the two Towns of Chinna Dharampooram and Aravacoorchy the latter of which will be the Anneen's Chief Station. The pay proposed to be assigned to the Anneen is six Pagodas or 21 Rupees per Mensem to be provided by the reduction of one of the

the Karoor Peishcars at 5 Pagodas, and a Peon at 1 Pagoda.-

3. The Principal Collector of Coimbatore has forwarded the proposal of his Sub Collector but it will be seen, that the does not generally concur with that Officer as to its propriety. His objections appear to be, first that the measure is one calculated to meet a temporary exigency, caused by the incapacity of the present Thasildar of Karoor and secondly that the salary to be assigned to the Police Anneen is too small, and below the limit specified in Extract Minutes Consultation 25th in Cons. 10th April 1834. March 1834. The Board have carefully considered both of these objections but they cannot regard them as conclusive against the expediency of the proposed arrangement.

4. With respect to the first of the reasons given by the Principal Collector Viz. that the plan suggested has for its object merely to compensate for the incapacity of the present Head of the Karoor Talook, the Board would observe, that the measure is recommended by the Sub Collector on general grounds, irrespective of any inefficiency imputed to the Karoor Thasildar, to which indeed no allusion is made, on the contrary Mr. Bird states

States that the Thasildars assertion that the business of the Talook is more than one man can perform is corroborated by two other Thasildars of the Sub Division who heretofore held Office in Carur, and he adds that he himself sincerely believes that the Work is more than the Thasildar can properly get through - again in his letter of 24th July he says, that he is able to shew "that the business of the Talook is not and has not for many years been Satisfactorily performed even under Thasildars of acknowledged merit and that the interests of Government thereby require an amendment of the Establishment" The opinion of the Sub Collector on this point must be admitted to be of much weight; inasmuch as Carur is not only within his Sub Division, but is the Talook in which his Head Quarters are situated, and which consequently it is probable, occupies more of his time and engages more of his attention than any other of his Talook.-

5. With regard to the inadequacy of the pay to be given to the new Police Ameen the Sub Collector has explained

explained that he has not recommended a higher rate of Salary from his reluctance to apply for any increase to the cost of his existing Establishment. The Principal Collector has referred to the Extract Minutes consultation 25th March 1834 as prescribing the minimum rate of pay to be given to a Police Ameen, but the Board would remark that altho in Para 5th of that Extract the Government specify 35 Rupees per mensem as the smallest Salary which, in their opinion, should be assigned to a Police Ameen with a jurisdiction extending beyond the limits of the Town to which he is appointed, they do not absolutely prohibit the grant of a lower rate of remuneration where particular circumstances may appear to warrant it. It seems doubtful also whether the orders of Government in that Para, were intended to apply to cases such as that now under Submission, and did not rather contemplate the Establishment of Police Ameens in large Towns, such as those mentioned in the next Para of the Extract where the management of the chief Town in which the Ameen is Stationed is the principal object of the arrangement

In Consn. 10th April 1834.

arrangement, and that of a portion of the adjacent country only subsidiary.-

6. In Para 7 of the Extract it is stated that the Governor in Council "is not prepared to authorize the appointment of the Talook Peishcars generally to be Ameens of Police as is recommended by some of the magistrates but he thinks that where a Talook is extensive and does not lie compact such a measure will be expedient." Of this nature is the measure now proposed by the Sub Collector who for the purpose of relieving the Shasildar of revenue and Police details, wishes in place of a Peishcar to entertain a Police Ameen, with the powers given by Act XXX 1837. and Section II Regulation IV 1821. not for the management of any particular Town but for that of a Tract of Country the whole population of which is only 11741 persons. The Board presume that it was not the intention of Government that all Peishcurs vested with the powers of Police Ameen under Para 7 of the Extract above quoted should be paid at the rate of 35 Rupees monthly. In the instance now under reference it seems to them that 6 Pagodas per mensem will be a sufficient rate of Salary, or

or at least that the smallness of the pay should not militate against the arrangement if advantageous on general grounds. It should also be considered, that, as urged by the Sub Collector, the appointment is likely to be regarded not so much with a view to the Salary attached to it but "as a stepping stone to higher preferment and will therefore be much sought for and zealously filled by candidates for still more important offices."

7. The difference of opinion between the Principal Collector and Sub Collector in respect to the expediency of the measure has induced the Board to discuss the subject at greater length than would otherwise have been necessary - and as they cannot but regard the grounds on which the proposal has been recommended as cogent and the arrangement itself as of advantage to the public interests, they beg to submit it for the favorable consideration of Government.

From the Collr. of Malabar — Requesting authority for the sale of certain lands for arrears of Revenue —

With reference to section V Regulation XXVII of 1802 and the Board's instructions under date the 29th. May 1813.

I have the honor to request the Board's authority for selling by public auction the lands belonging to the four Pyots specified in the accompanying Memo: towards the realization of the Balance of Revenue due by them respectively the payment of which they withheld in a contumacious manner without any reasonable cause.

The Chief of these defaulters it will be seen is the Sea Customs Manager of Chowghaut. I have great doubts ... whether

whether a man who sets such a bad example should be allowed to retain his place in the public service. I have taken every means to impress him with a sense of his misbehaviour, but he has long been careless as to character and impervious to all rebuke.

Resolution thereon. The Board request the Collector will be pleased to submit as prescribed in section XI Regulation XXVII of 1802, an advertisement for the sale of the lands referred to in the above letter in the accompanying form, with translation in Malialam for publication in this office such date being fixed for the sale as will allow of the advertisement being published at the Board's office for the full period of one Month.

(30-31)

The Board will leave it to the Collector to take such measures as he may think proper in regard to the principal defaulter the late Custom Manager of Chonghatt.
