At for as No 13 of 1843.

I have the receipt of your letter dated the 24th Ultimo and beg in reply to acquaint you for the information of the Board that the several Talook Cutcheries in my District are not supplied with Translations of the Madras Regulations and acts of the Supreme Government on matters of Revenue or Police

2. I have lately procured Telugoo Translations of Campbells' Code of Regulations with acts of the Supreme Government bound up together as also Telugoo Translations of the Circular orders of the Sudr and Foujdaree adalut and furnished them to the Tahsildars at one copy each. They have paid for them and they consequently are Private Property. The Village Moonsiffs are also supplied at their own expense, with telougoo translations of the Moonsiff and Village Police Regulations

3. It is very necessary for the guidance of the Revenue or Police Officers that each Talook Cutcherry should have lodged in its records a complete set of Regulations and acts without reference to what the Tahsildar may be in possession of as private Property as

Submits his opinion on certain Rules for regulating the assessment on trees and topes in his District

I have the honor to acknowledge the receipt of your letter of the 24th ultimo, repeating a call for my opinion on certain Rules for Regulating the assessment of trees and topes in this District, circulated from the Board's Office on the 26th January last.

2 The object sought to be attained as explained in Mr. Boudillon's letter of the 2d January 1843 was the encouragement of Native liberality in the construction of topes for purposes of embellishment and charity by dealing generously with parties so employing their funds, and by the imposition of a very moderate Rate of tax on land hereafter planted with trees.

3 The Rules under consideration enact that parties forming topes for public accommodation

accommodation in waste land shall freely be permitted to devote their labor and money accordingly the Government Officers relieving them of the trouble of management when the trees become productive by registering the plantations as Rice Topes and by devoting their produce to such local purposes as may be thought right.

4. The only remuneration for the liberality and public spirit of the Planter is the free enjoyment of any thing he can extract from the waste until the trees produce. Encouragement of this nature will never I fear stimulate the charitable feelings of native capitalists.

5 This is the proposed Rule for public Topes. Parties making private Topes for their own purposes from waste are to be charged with half assessment on the waste if the land be tilled while the trees are growing, and with the full land assessment when the trees have grown.

6. But on cultivated land the full assessment and no more, is to be taken from the date of the plantation whether the land is cultivated or not.

7. As regards land usually under Cultivation, I believe the general Rule throughout Southern

Southern India is that the occupant of any fields may plant them as he pleases, and enjoy the produce so long as he pays the ordinary land assessment. If this be so these Rules afford no boon to the planter whatever.

8 And I believe that no body will occupy or plant immemorial waste on the terms indicated above.

9. To carry out the benevolent intentions indicated in Mr Boardillon's letter I am of opinion that in accordance with the policy set forth in Clause XV Regulation XXX of 1802. It would be necessary, as regards waste, to grant land to parties desirous to plant and form Topes for charitable purposes rent free for a long term of years or in perpetuity for a pepper corn rent. This is frequently done by Zemindars and I see no reason why Government should be outdone in liberality by Zemindars.

But the grant of waste for public purposes at a light rent so long as the Tope is devoted to public uses is no sacrifice of Revenue at all.

From the Collr
of Rajahmundry } Sir

With reference to your Circular of 26th January last, I have the honor to state that the rules which accompanied it appear to be quite satisfactory, but I think that the 3d rule requires this additional provision that if the party who plants a tope should die intestate the Sirkar, or should relinquish the tope it should be rented out in behalf of Government that this should be done by public auction and that the amount of rent realized therefrom should be credited under the head of Topes in Land Revenue.

2. It does not appear necessary to offer any additional inducements to people to plant Topes in this District.

Reply to
on } Sir

With reference to your letter of the 21st

on the proposed plantations of Topes on Avenues in Canara in reference to the Board's letters of the 26th January last and 21st ultimo.

21st ultimo and in reply to the Circular letter from the Board of the 26th January last I have the honor to state that the District of Canara is in general so well wooded, and there are so many topes already existing that there does not appear to be any necessity for encouraging the plantation of topes of trees, nor do I think that the rules laid down for that purpose would form an encouragement to the people in a country where there are large quantities of waste land claimed as private property and where trees will spring up spontaneously if the waste land be only protected from Cattle. There would also be much practical difficulty found to exist from the fact that the sites described in the rules where a tope would be of any public utility i.e. in the vicinity of the Villages or Towns are for the most part the private property of individuals

3. With respect to the proposed rule regarding the planting of avenues along the high roads they already exist in many parts of the district, but in others where the Villages are distant and the soil not well adapted for trees I do not anticipate that

that the permission to enjoy the produce rent-free would be considered by the inhabitants as at all sufficient recompense for the trouble of planting and rearing them both because they have already so many fruit trees on their own private estates and because the protection of the fruit along the public roads would be difficult and expensive. The offer might however be made if the rules be finally passed and although it might in some instances be accepted I am satisfied that it would not be so at all generally.

From J. F. Bishop Esqre Collector of Nellore— Reporting on the Settlement of the Land Revenue of the District for Fusly 1255.

Sir,

Para 1. I have the honor to transmit the Jamabundy and Kistabundy Statement for Fusly 1255 with a detailed Jamabundy Statement and a Statement of the Beriz of that Fusly compared with the previous one, both in English and Maratta.—

2. Of the 17 Talooks composing the District 11 in the Principal Division have been settled by myself, namely Soonnuh: tulpoor, and Goondavole at Rapoor, Ravoor and Calegherry at Danaroypully, Woodeaghersy at the Cusbah Woodiaghersy, Talamunchy and Sungum at Allor, Cotta and Sursapully at Cotta Nellore and Sydapoor at Nellore. Puttahs in all having been personally distributed with the exception of Sydapoor under Amany- Cavaly the remaining Talooke of the Principal Division was settled at Cusbah Cavaly by the Acting Head

No. 4 Head Assistant Collector Mr. Lushington and the five Talooks composing the Sub Division by the Acting Sub Collector Mr. Pringle Copy of whose report is herewith submitted.

3. The following is a Statement of the number of Villages and hamlets in the whole District compared with the past Fusly 1254 shewing the total number of Villages 2071 and hamlets 670 total 2741 including Shrotriums Amaruns &ca not hitherto entered.—

Decrease in Fusly 1255 Hamlet one.—

4. In the number of hamlets there is a decrease of one dependant on Dhurmanasam a Village in the Danagoodom Talook. The hamlet had no separate lands and the inhabitants have joined

joined those of the original Villages.—

5. The Settlement of the Coroo Villages has been conducted on the same principles as in last year.—

Season— 6. The season of Fusly 1255 has been very irregular. May when showers are looked for to prepare the land for the sowing of the Car or first Crop was quite dry with the exception of a trifling fall in some of the Sub Division Villages. In June there was a small fresh in the Pennar and a tolerable fall of rain which set both wet and dry cultivation going.— July was dry, but a trifling fall of rain in August and a pretty general one accompanied by freshes in the Rivers in September enabled the Ryots to carry on the Cultivation of Guddanary, Moodooroo, Jonna &ca 2nd Series of Crops both wet and dry. In October, November and December when heavy rains, good freshes and full Tanks are expected. the supply of water was so small that the generality of Tanks received not more than one fourth their proper quantity and the Cultivation of the 3rd Wet Crop, Coda,

was

was in consequence very much impeded. The dry lands however derived benefit from the rains scanty as they were and every exertion was made to cultivate as much as possible, the state of the market inducing the Ryot to secure as much gain as he could. By the Month of January many Tanks were quite dry and the water in such as held any was applied to portions only of the Crop on the ground the remainder being left to its fate. Most fortunately however when the prospects of the Ryot were thus gloomy, an unexpected and bountiful fall of rain in February over nearly the whole District revived both their hopes and Crops and many of those which had been abandoned recovered in a great measure, tho' the supply of water in the Cannaur was insufficient to bring to maturity a large quantity of cultivation depending on its channels.—

7. The Marginal Note gives a Comparison of the quantity of water in the River during the year under Report and last year. With such a season as above described Society to a large extent will naturally be expected and but for the rain

Fasli &c.	Rain	Fasli days
1254	1	121
1255	1	121

rain in February the extent would have been many times greater.—

8. In the Sub Division the rain in February was more abundant than in the Principal Division and in the former the extent of magany Poddanary and Codanary cultivation was greater in proportions.—

9 Mooloom and Jareeb under wells was carried on according to the water available and as in Magany. Mooloom and Jareeb dependent on Tanks and Channels have been cultivated to a less extent than in last year.—

10. The Cars not produce which came to maturity yielded a fair return but both the 2d and 3rd Crops were deficient being injured in their productive powers by the want of sufficient moisture.— The dry Crops gave generally a good return tho' the ripest suffered slightly from the heavy local rains of February.—

11. The accompanying Statement No. 5 shows the prices of the several grains which prevailed in the Months of April, may and June of fasly 1255

Compared

Compared with the previous fusly. The highest average of dry grain per Candy was Rupees 20—5—4 and the lowest Rupees 15—3—7 for fusly 1254 while for the fusly under review the former is Rupees 30 and the latter Rupees 24. The highest average rate of wet grain for fusly 1254 was Rupees 20—6—" and the lowest Rupees 13—13—4 while for fusly 1255 the former is Rupees 30—"—" and the latter Rupees 22—8—".—

12. In the Cuslah stations of the Principal Division Salooks the highest dry grain rate was Rupees 20—5—4 and the lowest Rupees 16—"—" for fusly 1254 while for fusly 1255 the former is Rupees 36 and the latter Rupees 24. The highest wet grain rate is Rupees 27—12—" and the lowest Rupees 22—8—" for fusly 1255 while for the previous year the former was Rupees 20—6—" and the latter Rupees 13—13—4. In the Sub Division Salooks the highest average rate of dry grain for fusly 1255 is Rupees 33—5—4 and the lowest Rupees 28—10—8 the former

former for fusly 1254 being Rupees 18—5—4 and the latter Rupees 15—3—7. The highest rate of wet grain is Rupees 30 and the lowest Rupees 28 for fusly 1255 while for the previous fusly the former was Rupees 19—13—4 and the latter Rupees 18—6—8.—

13. In consequence of failure in the grain Crops of the neighbouring Districts a steady demand for export thither has kept up our prices and for the first time for many years the Ryots of

while there is a decrease of Gorstoos 15h in the wet lands the net increase being as above stated Gorstoos 2707.-

15 The principal decrease in the Dittum has occurred in the Sydapoor and Talamunchee Talooks. In the former settled under a division of produce the actual cultivation may be considered the Dittum and unfavorableness of season has caused the decrease. In Talamunchee the Magany Dittum was reduced from poverty and inability on the part of some Ryots to undertake their full extent as was also the case with the Metta Dittum of Sungam.-

16. The Marginal Statement exhibits a Comparison of the actual Cultivation of Fusilies 1254 and 1255 shewing an increase of 855 Gorstoos on the whole District above that of the previous year. The increase in Metta Cultivation is large and the decrease in Magany large attributable entirely

entirely to the nature of the season being so much more favorable for dry than wet cultivation.-

17. An increase however will be remarked in the Magany of the Sub Division but subsequent drought laid a great portion of this under Sooktie.-

18. The Chief decrease in Magany cultivation has happened in the Talooks of Nellore, Surnapully, Talamunchy and Canaly in which the largest Tanks of the District are situated and being mainly dependant on the rivers for supply. They this year received no more than sufficient for the land which was brought under cultivation and hence the large decrease.-

The Sarcebcul: tivation also has exceeded that of the previous year fusly 1254 by Gorloos 43. owing to lands which had been some time waste having been taken up and others in the beds of Tanks which could not last year be cultivated having in this been brought under the plough.

34. There is a decrease of Pu. fees 17834—1—5 in the amount of Bunger Lands included in the Settlement on account of neglect &ca in fusly 1255 which is on all descriptions of land as exhibited in Statement No. 14. and the following are the causes for which the Bunger has been assessed.—

Coroo lands left waste in order to cultivate Enam lands.—	1,618—5—5
Do. the cultivation of which was neglected in order to graze cattle thereon.....	6439—10—4
Do.— Do. neglect tho' there were means to cultivate them.....	8741—12—5
Assessment of portions of fields left waste.....	11567—1—11
Do. lands neglected by the Ryots after agreeing to Cultivate them with dry Crops the season not allowing wet to be grown thereon.	1780—12—"
	36147—10—1

In

35. In assessing Bunger I have been very careful in my enquiries and have omitted imposing a sheist on such lands which have been left waste from inability on the part of the holders to cultivate them and when no fault could be imputed to the Ryot, a too general assessment of waste from which nothing has been derived tends to raise the Beriz as a matter of account, this in reality but little is gained to the state and that little frequently to the detriment of the Ryot against whom stands a balance, a source of worry and inconvenience till it is eventually written off as irrecoverable.—

36. In the year under report the decrease in the amount assessed on Bunger is Rupees 17,834—1—5 compared with that of last years, of this Rupees 13290—5—6 is in the Principal Division and Rupees 4543—11—11 in the Sub Division.—

37. On comparing the sheist of the cultivated lands together with that of Bunger assessed there is an increase in

Fort St. George 15th October 1846.

in Mstts. Mooloom and Jareeb of Rupees 18,104-7-8 and a decrease of Rupees 59,049-8-6 in wet lands the nett decrease being Rupees 40,745-10-10.

38. There is a decrease of Rupees 1255-3-6 in the amount of Fuvulgasty on dry lands for fusly 1255 below last year owing to lands (which were originally classed for dry crops but cultivated for several years past with wet) not having been cultivated this year in consequence of the state of the season.

There is an increase of Rupees 4,415-6-9 in the Fuvulgasty of Magany Mooloom and Jareeb owing to a second Crop having been grown in wet lands in some places, and owing to highly assessed Crops being raised in Mooloom and Jareeb Lands.

On the whole there is an increase of Rupees 3160-3-3 in the amount of Fuvulgasty.

Sooketee

39 Under this head the deductions exceed those of last year by Rupees 12,315-11-3. the total amount deducted being Rupees 11,817-12-5. The

Fort St. George 15th October 1846.

40. The total sist on Crops which entirely perished was Rupees 22,117-11-3 but only Rupees 14,817-12-5 remitted, the remainder being assessed according to the assumed ability of the Ryot to bear the imposition, which was enjudged by a comparison of his loss on dookte with his gain by the sale of his grain from his productive lands, the quantity of produce being calculated as an average and the price the Merruck of the day. as exemplifying the method pursued in making the remissions on dookte, a detailed Statement of a Village is submitted as called for in Para 8 of the Board's Proceedings on the Report of Fusly 1254.

Besides the remission above alluded to Rupees 198-3-11. were remitted in the Village of Essapally the Beriz of which for Fusly 1255 was Rupees 1,608-10-4. and the loss by short produce more than half the full amount. The lands were personally inspected by myself and an enquiry made into individual losses, and where these were so heavy that the Ryot could not pay, indulgence was shewn the amount remitted being Rupees 198-3-11.-

Inundation. 41. The deduction under this head for Fusly 1254 is ____ 1353-7-1.

43. In Fusly 1254 dry lands cultivated in the beds of certain Tanks were inundated by the December rains which was not the case this year, and the principal deductions on account of wet lands inundated have been in the Talooks of Curnapully Jalamunchee and Buddapoody in consequence of the Caur Crops having been destroyed by inundation before they came to maturity.

Double remission. 44. The deductions on this account for Fusly 1254 were Rupees - - - - - 294-2-"

Fusly 1255 - - - - - - - - - - - - - - - 2,919-"-1.

Increase - 1,874-11-7.

47. The increase is chiefly in the Magany Mooloom and Jareeb lands cultivated with Crops of less value principally in Curnapully Nellore Tommalttulpar Baleghery and Woodiaghery and in consequence of dry Crops having been grown on wet lands under Tanks which had not water sufficient for them - There is a trifling decrease in the Two Crop Mooloom land cultivated with one Crop not requiring remark.

68. Strict attention to the punctual realization of Individual demands as they fell due, has tended in part to make the Collections within the Fusly so large, tho' doubtless the trifling outstanding Balance is to be attributed mainly to the favorable prices and as nearly every collectable Rupee has been paid I do not anticipate no more than 800 Rupees of the present balance will be realized in the Principal Division, and about Rupees 400 is expected in the Sub Division.-

69. The Marginal Statement exchibits the Beriz Collections and Balance of the Shrotriums for Fusly 1255. The Total Number of Shrotriums is the same as in last year Viz. 267- The Collections to 15th. September amount to Rupees 7,287-11-9. and the outstanding balance is Rupees 8707-7-4- Of this balance Rupees 426-2-5 are due on the Saree Shrotriums and Rupees 8,281-4-11- on the Zufty Shrotriums- The necessary steps have been taken to realize the balances against the Saree Shrotriums.

70. In the year under report many of the Zufted Shrotriums have been rented out to Individuals on Security, and the result has been very favorable- Of the 16 Villages so rented the original Jodee including Roosoomy is Rupees 8,672-3-1- and the amount at which they on have been rented Rupees 7189-12-4- the sums carried

73 The Collections from the Minor Zemindaries have been satisfactory and the only balance worthy of notice stands against the Vencatagherry Estate. The lowness of prices for several successive years and the decreased cultivation in this have pressed very heavily on the Zemindar's resources and as he has hitherto fulfilled his engagements punctually tho' with difficulty, I have consented at his repeated earnest request that the full amount of his 3rd Kist may be paid by the end of November and under these circumstances I trust the Board will not think I have shewn an uncalled for relaxation in his favor.-

77. The Statement of the total Charges of the District for Fuslies 1254 and 1255 in which the percentages of different branches of Revenues distinguishing the charges of general management from that of particular items of account is exhibited as called for in the Board's letter under date 29th November 1830 - The percentage on the land and Extra Sources of Revenue for fusly 1254 is Rupees 17-6-2. and in the present Fusly Rupees 14-15-3. exhibiting a decrease in the latter year of Rupees 2-6-11.

78. The necessary accounts connected with the balances of fusly 1254 and the recoverable and doubtful balances of fuslies prior to it are under preparation and will be reported on with the least possible delay.

79. The Board in Para 31 of their Proceedings on fusly 1254 call for explanation regarding the difference of Rupees 4067-7-10 between the amount exhibited as irrecoverable in the Statement No 12 and that sanctioned by Government to be written off - The amount sanctioned

To
J. F. Bishop Esqre
Collector in the Zillah of
Nellore.-

Sir,

Para 1. I have the honor to forward herewith the usual Summahbundy Kistbundys Comparative Statement and other accounts connected with the Settlement of the five Saloots in the Sub Division for the Fusly

1255.-
C.D. 1845-46.

2. The number of Government Villages was the same as in the previous fusly but that of the Hamlets was less by one named Goovelavarepollem attached to the Village of Dhurmavarum in the Davagoodoor Saloot having now become part of that Village itself. The inhabitants of that hamlet while it remained, were Shepherds and the houses few in number, and they also having decreased the remaining persons thought it advisable to take up their residence for security's sake in the Village itself.-

Season & Crops.- 3. During the Season of 1845.- between the Month of May and August except in the Saloot of Chendalore, which was visited, in June, by a severe Storm accompanied with rain, only a small quantity

fell throughout the other portion of the Division under my charge. The Ryots, however, in the Months of June and July, notwithstanding the great insufficiency of rain, sowed, as far as the nature of the Season would warrant, the seeds of the Poonasa Crops Viz.t. Suzzya, Indigo &c.a &c.a By reason of the total want of moisture to enable the Seeds to take root it is calcu:=lated that at least half of the seed Sown perished, while the remaining portion, which the Ryots had managed to save, was brought to maturity by the Seasonable rains which fell in the Month of September. The Jonna &c.a &c.a crops were sown about the usual period Viz.t. in the Months of July and August. unfortu:=nately however a very Small quantity of rain fell, but wherever the moisture of the ground permitted, cultivation was carried on to the utmost extent posible. During the Month of September a considerable fall of rain took place, and cultivat proceeded generally throughout the Division. Of the Lands which had previously been sown with Jonna and other Seeds, a part the Ryots were from necessity obliged to replough and sow with

with other descriptions of grain the Jonna Seeds having been destroyed by insects. In the course of the two following Months October and November the Jonna Crops, in some of the Lands belonging to the Villages of Addunkey &c.a in Chendalore, were entirely burnt up for want of water. Such of those, however, as were Spared from the effects of the Severe drought were Saved and ultimately brought to maturity by the timely rains which fell throughout the Division generally in the latter part of December, but in large quantities in the three Talooks Viz.t. Ongole, Davagoodoor and Paddapoody. The insufficiency of rains at the commencement of the Season lessened, to a considerable extent the amount of produce received from Pasaloo or Green Gram; but that of Cundoolo or red Gram yielded a fair return.—

4. Notwithstanding the unfa:=vorable nature of the Season; and the unfit State of the ground to receive the Seed Still the utmost endeavours for the Cultivation were made on the part of the Ryots, and in Such places as there appeared no prospect of Success the more hardy Seeds

Such

such as Sanagaloo or Bengal Gram and Daneyaloo, were sown - Towards the latter end of December - owing to the rain which then fell the Ryots were encouraged, by the appearance of the Crops then in the ground to sow the portions of their Lands which till then lay waste; with Varega, Pyra Jonna & ca after the lapse of two Months during which the Crops of every description had thriven well and there was every reason to expect a most plentiful harvest in February there came an exceedingly heavy fall of rain throughout the Division - This at a period when the Ryots were about to cut the Crops, was supposed to have done much damage, but with the exception of the Sanagaloo Crops suffering a little, no damage of any consequence was sustained and on the whole it is calculated that the produce of dry Cultivation exceeded that of the year preceding.-

5- Mangauny. In the Village of Carado in the Talook of Buddapoody alone the Car Cultivation was commenced, and that in the dry bed of the Tank, where wells or Sonas had been sunk for the purpose of irrigation - When the Crops had nearly arrived at maturity, the heavy rains which

which fell in the Months of September brought a considerable supply of water to the Tank, thereby entirely inundating the crops, and rendering all the labour spent on them of no avail - In the Villages, situated in low lying lands near the Sea, and which lands are entirely irrigated from wells and Springs, the Pedda Sunnavary was sown and ultimately yielded a fair return - Those however, on the higher grounds, irrigated in a similar manner perished from the drying up of the Springs and their having received no supply of rain - By reason of the adverse State of the Season - some delay took place in bringing the lands, usually planted with Guddavary under Cultivation - although however the Tank (from the rain which fell in September) had received but an insufficient supply of Water, the Ryots, from the backward State of their Crops, now commenced that Species of Cultivation, as well as that of Sunnavary and Codavary, to a small extent, as far as the Water would admit of, living in the hope that an abundant Supply of rain would shortly come to their aid - They were, as it afterwards turned out,

destined

destined to be disappointed, as from the period now spoken of Viz.t the Month of September, till the following January nothing but a continued series of drought was ex=
=perienced - The consequence of course, could not fail to be of a very serious nature and the loss sustained by the Ryots very large in extent - at this melancholy crisis, and when all hopes of Saving any portion of the standing Crops had vanished a most seasonable and a very general fall of rain took place throughout the whole Division Previously however to this a considera=
=ble portion of the Crop had perished beyond all hope of recovery but that part which had still held out and had borne the severe drought, although soon about to meet the same fate was completely revived and eventually yielded a tolerable rich harvest - The amount of produce varied considerably in dif=
=ferent Villages, owing to the limited Supply of Water received in some of the Tanks - Those Crops irrigated from Tanks which were nearly full yield=
=ed, it may be said, almost an unusual

large -

large return - Under such Tanks but more especially those in Davagoodoor and Baddepoody Cavery Suzza &c. were there Cultivated with good succes.- C. Mooloom - The Cultivation of Suzza, Cora, Indigo &c. under wells which received a supply of Water from the September rains, came to Maturity and yielded a good harvest, and more especially the two first mentioned species - Mooloom, Ragee and Chepota Ragee Cultivation was carried on and yielded good Crops - In some mooloom Lands where the wells received no supply of Water the Ryots turned it to the best advantage by Sowing the ground with the Seeds of different descriptions of dry grain - The dry harvest in the Taloot of Chendaloor having turned out badly, owing to the total absence of rain from June in which Month the Storm before mentioned took place a few Ryots were induced to offer proposals for the Cultivation of Some waste Mooloom, and which having been accepted they are said to have paid themselves well for their trouble.-

Under

J. Jareb. Under this head of Cultivation one or two Species of Crops such as Chillies Tobacco &ca were increased beyond those of the year preceding although both gave a good return, the Tobacco suffering from the heavy rains of February when just about to be reaped, failed in fetching the highest prices in the Market, yet however on the whole the Jareeb Cultivation has turned out satisfactory and been profitable to the Ryots.-

Prices of Grain 8. The accompanying Statement No. 3 exhibits the prices of all denominations of Grain in Fuslies 1254 and 1255 and it will be observed that there is an increase in every description- The cause of this increase is mainly attributable to a diminished quantity of produce as well as to the exportation of several of the above description by Sea- The average price during the past season of Some of the principal grains grown in the four Northern Talooks is inserted in the Margin.-

9. With reference to the extracts from the Minutes of Consultation under date the 21st March 1846 the Lands of

of Vagella Coomara Venkatapaty Rajoo, a descendant of the Goodloor family in the Nellore District, having been permanently incorporated with the Government Lands, the accounts of Dittum Cultivation, Collection &ca connected with them will be included in the Statements &c shewn throughout the Report.-

Dittums- 10- The Dittums for the Fusly now reported on were made by the Tahsildars of each Talook respectively and the annexed Statement Marked A shows the extent of Land of all descriptions taken up for Cultivation in the Fusly under review, as compared with that immediately preceding- A Net increase of 1078 $\frac{584}{64}$ G in dry Land 13 $\frac{22}{64}$ G in Wet and 44 $\frac{6}{16}$ G in Mooloom is observable, but in Jareeb a decrease of 4 $\frac{54\frac{2}{64}}{64}$ G has taken place- under the last mentioned Item about 4 Gortoos of land cultivated under Yatam in Pundillapully of Chendaloor Talook, after the framing of the Dittum, were however entered under the head of Cultivation, as the Statements were received from the Talook previous to the closing of the Jummabundy accounts- &c This not having been the case and from unavoidable causes the remaining Small portion was deducted and thereby the above mentioned decrease is accounted for.-

Cultivation and Waste Dry Waste

11. The annexed Statement B Shews the extent of Cultivated & Lands and those left Waste, on the whole a Dittum of the year under review.- The extent of Land Cultivated exceeded that of the previous fusly by G 1242 2/64 Gortoos and the quantity left Waste after all was less by G 163 14/64 than that of the last year and 610 less than in fusly 1252 with the exception of G 253 46/64 (the assessment on which was deducted as having been left uncultivated) the shist, in the waste Gortoos 4383 3/4 amounting to Rupees 21,678-1- 11 was as usual carried to account as the lands had been left uncultivated & through carelessness and neglect on the part of the Ryots.-

Wet Waste

12. According to the pro= portion of Water received in the Tank the Cultivation of Wet Lands was com= menced upon. Out of the Total amount per Dittum Viz.t 3816 3/4 Gortoos 1,514 5/10 were brought under Cultivation and the remaining portion 2,302 9/10 acres left Waste from a scarcity in the supply of Water received. Of the last mentioned extent 35 13/10 Gortoos amounting

Fort St.e George 15th October 1846.-

amounting to Rupees 683-5-5 were assessed the Ryots having failed to Cultivate while they had ample means afforded them of doing so. The remaining portion namely 2266 3/4 Gortoos assessed at Rupees 55142-4-11 was deducted as Bunger. Reference to the Report made on the season, in the early part of this Statement, will shew the necessity for the above large deductions being made.-

Mooloom Waste.

13. The Waste amounted to 53 1/2 Gortoos less than that of the preceding fusly. of which Gortoos 17 9/10 were deducted on account of the poverty of the Ryots and the distinc= tion of the means of irrigation. The remainder Gortoos 35 15/10 amounting to Rupees 577-14-9. was assessed as Casaary the Ryots having through a Carelessness neglected its Cultivation.-

Jareab Waste -

The Jareab Waste 14 of Gortoos 4 3/4 was deducted for the same reason as that of Mooloom and Gortoos 20 13/10 assessed to the amount of Rupees 944-6-1 was carried to account from the same reason as that in the Item immediately preceding.-

Mode of Settlement

15. The mode of Settlement was the same as in previous years - Of the 235 Villages 79 were settled according to Mr. Travers Turrum, and in 156 the established remissions or additions to the Turrums bearing that Gentlemans name were made - The latter mentioned portion are perhaps better known by the name of Muctah Villages being the term which hitherto distinguished them.

Result.

16. A Statement shewing the total result of the Settlement in money, for the Fusly under review Compared with the preceding year is annexed - The deductions it was found necessary to make in each Fusly are exhibited in the same table.

17. From the above it will be seen that the gross assessment on all lands occupied for cultivation at or subsequent to the formation of the Dittum amounted to Rupees 407301-6-11 from which deductions amounting to Rupees 67350-6-4 were necessarily made, leaving a Net Land Revenue of Rupees 339945-0-7 or Rupees 17227-3-8 above the settlement of Fusly 1254 - The Total Settlement, including the Cattle tax and the Cuttoobady Lands of Vagilla Comara Vencatapaty Rajoo as well as other Items is Rupees 430887-9-9 or Rupees 18948-4-5 in excess of that of the Fusly immediately preceding.

Fusul Jastee and Dº Fusul. 18. The trifling increase, as exhibited under this head, arose from the collections made upon certain Dry Lands &c. which had been irrigated with water and a second Crop taken from them.

Deductions Dry waste. 19. It will be observed that the deductions, under this head are considerably greater than in the previous Fusly - Of the amount so deducted Rupees 913-11-0 was the assessment on land left waste by ryots, who from down right poverty, and other adverse circumstances had been utterly unable to

to cultivate it, and the remainder is accounted for from various causes, such as the death of the Ryots, their desertion from their Villages and in some few instances from the dittum lands being abandoned and others cultivated in their stead.

Wet Waste. 20. The deductions under the head of Wet Lands, left waste for want of water, are Rupees 55142-0-0 being less than those made in the last year by Rupees 14599-10-11. The seasonable rains of February, mentioned in my Report on the season, will sufficiently account for the considerable difference. The assessment on those lands that the Ryots had wilfully neglected to cultivate is shewn in the 17th para of this Report.

Mooloom Waste. 21. The deductions on account of Mooloom Burger exceeded those made in the Fusly preceding, by Rupees 1145-7-3. the lands having been unavoidably left waste by the Ryots from extreme poverty &c.

Jareeb Waste. 22. The exctent of remission on account of Jareeb waste was given on the same causes as that on Mooloom alluded to in the previous para.

Crops destroyed by inundation 23. The Crops on some cultivated fields

fields, which had not at the time come to maturity, were destroyed by inundation. The same amount shewn in the Statements under this head was therefore of necessity deducted, and is the cause of its exceeding that of the last year.

Withered Crops of Suklty. 74. The deductions made on account of sukty amounting to Rupees 4,508-8-0 exceeded that made in the last Fusly by Rupees 3768-14-0. The rains which fell in September, following immediately the long continued drought of nearly four Months induced the Ryots to extend their cultivation very largely. The Subsequent want of rain, however, when the crops were far advanced, burnt them up entirely in many places, and remission on such was accordingly granted. Most particular care was however, taken to ascertain the true state of the Crops and remission was only granted when the extreme urgency of the case required it and in strict conformity with the orders of the Board of Revenue.

75. The small Items of Vundra and discretionary remission are not worthy of remark.

The

Paulvasy. 26. The season did not admit of the Car cultivation, in the Village of Caradoo in the Bunddapoody Talook being brought to maturity, although carried on to a tolerable extent, consequently the remission under this head was less than that of the last year.

Ready Money Collections. 27. In the Items of ready money Collections, there will be seen a small increase under Pullary in the Villages of Ongole and Vullapully, in which the species of taxation is carried on under the former Capitation system. The increase in the amount realized by the sales of Pasture lands as stated in the Margin, arose from the proposals, which were made for their grazing being higher in amount than last year, as well as by reason of the Pasture lands of Vajella Vomara Vencata Rajoo's having been incorporated with the Government Lands as stated

stated in para 9 of this report.

28. With reference to para 25 of the Boards Proceedings of the 25th September 1845 on the Summabundy Report for Fusly 1253 I beg to refer you to my letter dated the 23d March 1846 regarding the distribution of Pullary and arable wastes Nothing further has occurred as worthy of mention on the subject - I therefore now wait instructions how to act, when the Board shall have given this matter their consideration.

29. The increase in the Enam Badegas is attributable to a slightly larger extent of wet Nanjems having been brought under cultivation - The increase under the head of Cheyroot arose from the proposals made by the Renters, being larger in amount than in the previous Fusly. Under the head of Firewood an advance upon last year of Rupees 258-14-3 is observable - It arises from the exportation of Firewood being considerably greater than that of last year.

30. The two Statements inserted below show the amount of the money Settlement of each Talook, and the Beriz of each Talook for the Fusly under review, as compared with Fusly 1254.

Cause of Increase.

31. The amount as shewn by the above Statement of Rupees 18,806-13-5 - as an increase in the Money Settlement of last year, is attributable, as in a former paragraph I have already explained, to the favorable nature of the latter part of the season for wet cultivation.

Collections.

32. An account shewing the Collections up to the end of the Fusly under review as compared with those of the three Fuslies immediately preceding is here given.

Balance 33

The Balance amounting to Rupees 1833-2-" as shewn by the latter Statement may justly be considered very trifling in its amount when compared with that outstanding at the termination of several previous Fusilies - Reports forwarded

Fort St. George 15th October 1846

forwarded by the Tahsildars promise a further collection of Rupees 600-"-" and the Balance which will then remain uncollected must be considered as totally irrecoverable. Due care and attention have been paid to the collections since the commencement of the Fusly under review and I have ascertained beyond all doubts that further demands could not be made without materially distressing the ryots. I further beg to state that another and perhaps the Principal cause of the increase and early collections for Fusly 1755 was the vast assistance with the high price of grain in the Market afforded to the Ryots thereby enabling them to pay up their Kists regularly.-

The number of Shrotriems 34.-

in possession of the Shrotriemdars up to the end of last Fusly was 76. The balance outstanding on account of the Shrotriem Village named Vurnaseyanice kundega in the Buddapoody Talook having been realized, the Village was accordingly again made over to the Shrotriemdars from attachment

increasing

increasing the total number therefore to 77 and yielding a revenue of Rupees 15,015-10-11 four Villages assessed at Rupees 792-7-10. still remain under attachment. Of the amount due on the Jarcy Shrotriems. the sum of Rupees 14,679-10-8 was collected up to 15th August, leaving a balance of Rupees 336-0-3. For the recovery of the said amount strict measures have been adopted. The balance remaining on the Shrotriems. which were under attachment up to the said date was Rupees 703-14-7 and it does not appear that much of this amount can be collected, the Settlement having been formed according to the former practice on a diversion of produce.

35. On the date of my Report for Fusly 1254 a balance of Rupees 307-6-5 was outstanding on account of the Beriz of that Fusly on the Jarry Shrotriems. Of this amount Rupees 273-7-1 has since been realized leaving still to be recovered a sum of Rupees 34-4-4.

36. In the amount of the settlement remaining on Shrotriems, which were

were under attachment during the previous Fusly Rupees 54-7-10 were collected and there still remains a balance of Rupees 343-6-9.

Moturpha- 37. The Statements connected with this Item of Revenue is herewith annexed.

Number	Names of the Talooks	Fusly 1254			Fusly 1255			Increase			Decrease		
1	Buddapoody	1,723	11	4	1,757	0	7	33	2	7	0	0	0

5	Chendaloor	5,143	0	10	5,268	11	1	25	10	3	0	0	0
	Total	12,681	9	10	12,867	14	7	186	4	9	0	0	0

It seems an increase on the Fusly preceding of Rupees 186-4-9 the majority of which arises from the number of Looms being greater than last year. Under this head Rupees 12,450-8-2 were collected up to 15th August, leaving a balance of

Rupees

Fort St. George 15th October 1846

Rupees 217-6-5- Of this amount the sum of Rupees 118-15-4 is due by the Ongole Butchers, and some other parties concerning whom no mention has been made in the report of the last year, but whose case has not yet come under the final decision of the Board of Revenue. The remainder is due principally by a few poor weavers and some one or two other persons who are now absent from their Villages. In conformity with the orders received the Moturpha Tax is being collected from the Cottapalam Merchants but not without much trouble to the Circar Servants, they still continuing to offer that resistance to the collection of it, which has so frequently formed the subject of complaint in former Reports.-

Balance of 38-
Fusly 1254-

I stated in my last years Report that about Rupees 1500-0-0 could be realized of the balance outstanding for that Fusly, up to the 15th September, but I now beg to remark that an increase of Rupees 379-6-0 has been actually collected over and above that sum.

In

Fort St. George 15th October 1846.

39- In conclusion I beg leave to annex a Statement shewing the result of the Settlement for the year under review of all Items of Revenue under my management and which exhibits a total increase of Rupees 20694-15-2- over the last Fusly.-

Fort St. George 15th October 1846.

The net increase from the Plantations is Rupees 710 and is caused by young Fruit Trees having yeilded produce this year. There is besides an increase of Rupees 28 in the other branches comprised in this Head. The Collection made within the Fusly on account of its current Beriz amounts to Rupees 18437 and that up to the end of September 1846 is Rupees 517. leaving a balance on the date of this report of Rupees 193. The Gross Collection of this branch is hereunder contrasted with the last year.

In elucidation of the Statement A°. 3 I beg to state that the Gross increase as stated in

in Column 50 is Rupees 13,673 of which Rupees 5,128 is the tax contributed by 2674 new Puttahs and Rupees 8,545 derived from augmenting Rents to old, with reference to their respective increase in Trade or Profession - The Gross decrease of Rupees 12,374 consists of Rupees 5,887 on 2,280 Puttahs and Rupees 6,487 being rents reduced on account of poverty this year, leaving a Net increase of Rupees 1,299.-

There is a decrease of Rupees 537 in the Collection of arrears owing to the balance of the former Fusly being higher in the beginning

beginning of last year than at the commencement of this, and the decrease of Rupees 314 in the actual Collection of the Current Beriz exhibits the balance outstanding at the end of this year higher than last year - There is an increase of Rupees 52 in the Sewy Jummah - Out of the Current Beriz the Collection made within the Fusly is Rupees 265,162 and the subsequent Collection is Rupees 2,485 — " — leaving a balance of Rupees 542 — " — of which a portion appears recoverable.-

Stamp Revenue.

9. The sale of Stamp Paper for the Fusly under Report amounts to Rupees 2,545 being Rupees 9,306 less than last year as shewn below,-

The

The decrease of Rupees 4,112 in Law Paper is both from the zillah Court being prohibited from taking Suits cognizable to the District Moonsiffs and from unstamped deeds being carried (from February last) to the head of Sevoy Jamah under the Accountant General's orders. The decrease in Sayer Rowannahs (Rupees 5,194) is the effect of the abolition of the Mysore Frontier duty and lastly of the subsequent substitution of Moffee Rowanahs in the Sayer Department. The total amount realized for this year (including the Penalty on unstamped Papers Rupees 1,184) amounts to Rupees 3,729 from which the charge under this head Rupees 128 being deducted, the Net Revenue is Rupees 3,601 falling short by Rupees 8046 of the Debit amount of last year.

Supplemental Defts
1st Defendant by Vakeel Syed Abdool Majeed Saib Govt Vakeel and 3d Defts by Vakeel Rungasharry and the Govt Vakeel -

This suit is instituted for the recovery

recovery of the Mootah or Estate of Dindoomungalum in the Talook of Paramully assessed at an annual permanent Beriz of Rupees 7280-5-7, and yielding annual produce to the value of Rupees 10,000 as stated in the plaint.—

The Plaintiffs of whom the 2d & 3d are the nephews of the 1st allege that the Estate in question had been for many years in their family but that in consequence of the misconduct of one Rajagoundan to whom a portion of Mootah was sold and whose name was registered jointly with those of the Plaintiffs as Proprietors of the Estate, a heavy arrear of Revenue accrued, and the Estate was consequently put up to sale by the Acting Principal Collector, the 1st Defendant, on the 1st October 1843. Two parties named Valagoundan and Kanpermalgoundan made a bid during the sale for the sum of Rupees 7,500. and were prepared at the time - as the Plaintiffs state to go as high as Rupees 25,000- but the 1st Defendant the Acting Principal Collector, upon a suggestion made by Rajagoundan who was present demanded security from them contrary to custom and rule, before he would accept their bid, and these two parties were then prevented from purchasing the Estate as they intended not having the Security required

required at hand, although they offered to pay down the Deposit of 15 per Cent as provided by Section XII Regulation XXVI of 1802 and to give security for the payment of the remainder. Subsequently one Comaravalagounden the 3d Defendant made an offer of Rupees 9,000, and the Estate was declared sold to him, altho as Plaintiffs state the other parties above mentioned would have offered Rupees 25,000 if they had not been irregularly prevented from bidding. On this the Plaintiffs appealed to the Board of Revenue, and instructions were sent to the Collector directing him to cancel the sale and to restore the Estate to the Plaintiffs upon payment of the sum due on account of arrears. 1st Defendant then sent for the Plaintiffs and called upon them to pay these arrears by a certain time which sum they paid accordingly on the 1st January 1844 the day stipulated. The 1st Defendant accordingly cancelled the sale, and directed the Cash Keeper by written order to repay the purchaser the 3d Defendant the amount of his purchase money. Notwithstanding this the 1st Defendant has failed to restore the Estate to Plaintiffs and they therefore claim its recovery by legal action as above

above stated.-

The Principal Collector Mr. J. D. Gleig having in the mean time taken charge of the District filed an answer for the 1st Defendant in which this Officer notices that liability of the estate to sale is admitted by the Plaintiffs; that due notice had been given prior to its being put up to auction, but that the arrears due were not discharged; that the sale took place in open Cutchery and in the presence of the Acting Principal Collector; the Collector further proceeds to observe that during the sale an offer was made by Valagounden as mentioned in the Plaint but that the 1st Defendant being informed by parties then attending the sale that he was not a competent person, required him to produce security in order to satisfy himself on this point, and to shew that his Offer was such as the Collector might accept as that of a bonâfide purchaser; The answer urges that the Regulation quoted by the Plaintiff is couched only in general terms and "leaves many arrangements connected with the actual conduct of the sale to be regulated by circumstances and the discretion of the Collector"; and that if the parties mentioned in the Plaint had come to the sale prepared to make a bonâfide offer to the

the extent of Rupees 25,000. as the Plaintiffs assert, they would have had no difficulty in satisfying the Collector of their competency for Rupees 7,000.

The answer proceeds to state that the Board of Revenue never annulled the sale as alleged by the Plaintiffs, although on receipt of their Petition they suspended their confirmation of the Acting Principal Collectors proceedings, and expressed in general terms their reluctance that the Estate which had been long in the family of the Plaintiffs should pass out of their hands. Upon finding however that the sale had been conducted in a perfectly fair and legal manner and that many of the allegations contained in the Plaintiffs Petition were false and unfounded, the Board considered they had no alternative but to confirm the sale in favor of Comaravalagounden the 3d Defendant in the present case.

An answer was also presented by Comaravalagounden who was admitted at his own request as 3d or Supplemental Defendant, in which he states that having purchased the Estate at a fair and open sale he himself is the sole proprietor; and that the Plaintiffs had forfeited their right by the nonpayment of the arrears due upon it

it- 3d Defendant also asserted that the property is not worth 25,000 Rupees as stated by the Plaintiffs, that was sold for Rupees 10,000 in 1835. and that one half of it was sold by Plaintiffs to Rajagounden subsequently as noticed in the Plaint, for the sum of Rupees 4,000- The parties mentioned in the Plaint Kampernal gounden and Valagounden acted merely at the instigation of the Plaintiffs being their dependents, and are not competent persons to make an offer for an Estate of so much value, the Acting Collector was therefore, 3d Defendant observes, perfectly justified in requiring them to produce Security.-

The Reply presented by the Plaintiffs repeats that the Estate was sold at a price much below its real value in consequence of the irregular and unusual demand of Security made by the Acting Principal Collector, and that the latter engaged to restore them the Moottah on payment of the arrears, but has not done so, although the above condition was punctually complied with on their part.-

The 1st Plaintiff also filed a Reply to the answer of the 3d Defendant in which he alleges that the 3d Defendant

is brother-in-law to Rajagaunden the partner with Plaintiffs in the Moottah, and that Rajagounden is the virtual purchaser, having merely bought it in the name of the above 3d Defendant.-

The Principal Collector filed a Rejoinder observing that if the Revenue Board contemplated the non confirmation of the sale, and the restoration of the Moottah to Plaintiffs this could only be considered as an act of favor and cannot be claimed by the latter as a right; and that the Estate was sold in fusly 1244/1834/35/ for the sum of Rupees 10,000 as noticed also by 3rd Defendant.-

The 3d Defendant also presented a Rejoinder in which he states in contradiction to the assertions of the Plaintiffs, that he purchased the Moottah on his own account, and he has no connection with Rajagounden, the late joint Proprietor, as to pecuniary transactions.-

The 2d Defendant being the Head Savalnavis of the Principal Collector's Office, and having acted under the orders of the 1st Defendant presented no answer in the case.-

Points for proof were recorded by the Subordinate Court on the 27th January 1845 as follows:-

Plaintiffs to prove that the sale

of their Estate was illegal, and that it was unfairly disposed of at a price much below that which might have been realized. To prove also that it was illegal and unjust to require Security from the Bidders; that undue partiality was shewn towards the freinds of Rajagounden; that the latter is Brother-in-law to Comaravalagounden, the ultimate purchaser; and that the former purchased the Estate under the borrowed name of the latter. also that the sale was subsequently cancelled by the orders of the Board. Plaintiffs will file all Documents which may support their statements on these Points.

1st Defendant to prove that the sale was conducted in fair and legal manner, and that the Acting Principal Collector was justified under the circumstances, in requiring security from the Bidders for the Estate; to prove also that the Plaintiffs received all the considerations to which they would be looked upon as entitled under the circumstances of their case.

To file Copy of the Proclamation issued previous to the sale with Copies of the letters to the Board under date 29th December 1843, and such other correspondence between the Board and his Office as may tend to support his case, as well as any other Documentary evidence which

which he may be able to produce.

Supplemental Defendant to prove that he is himself independant of Rajagounden and a bonâfide purchaser; and that Valagounden and Nampermal gounden who as Plaintiffs state were desirous of purchasing the Estate for Rupees 25,000 were men of no property and made merely fictitious offers on behalf of the Plaintiffs.

The 1st Plaintiff who conducted the latter part of the case to the exclusion of his nephews the 2d and 3d filed eleven Documents.

1st Copy of letter to the Acting Principal Collector W. E. Lockhart Esqre from the Acting Secretary to the Board of Revenue dated 16th November 1843.

2d Copy of a Deposition given by Rajagounden before the Acting Principal Collector 26th December 1843.

3d Copy of Deposition given before the Acting Principal Collector by the three Plaintiffs on the 26th December 1843.

Decree of the Court.—

On a review of the record of this very voluminous case it appears to the Subordinate Judge that the Plaintiffs or rather the 1st Plaintiff, who is clearly the chief promoter of the Suit and who alone conducted it through its latter stages have entirely failed to prove their allegations as to the irregularity of the sale or to adduce any facts from which the Court could infer the necessity or the justice of setting it aside. It is to be admitted that the demand of Security from the Bidders Valagounden and Nampermalgounden during the progress of the Sale was unusual and an authorized by the Proclamation issued previous to the auction, the 6th para. of which as observed

by

Fort St. George 15th October 1846.—

by Mr. Ogleby in para 4 of his letter to the Board of Revenue dated 4th June 1844 would seem to refer to the production of security after the completion of the sale, by the purchaser in order to guarantee the payment of the Balance of the purchase money, of which 15 per Cent is by Section XII Regulation XXVI of 1802, payable immediately. But there seems no reason to question the right of the Collector in such cases to frame such subsidiary rules as he may think proper and which may not be inconsistent with Regulations for the conduct of the Sale, and to take such measures as may be necessary for ascertaining the competency of parties making Offers, in order that his time may not be fruitlessly occupied and the interests of bonâ fide purchasers as well as the defaulting proprietors injured by the production of fictitious and fraudulent bidders for the property. In the present case the Court thinks that there is reason to believe the Collector had just grounds for doubting the competency of the bidders Valagounden and Nampermalgounden; it is stated by several credible witnesses that they are persons of no property and that they merely came to make offers on behalf of the Plaintiffs the late proprietors in direct violation of the provisions of Section XVIII Regulation XXVI of 1802.—

At.

At the same time the Court would observe that if the exercise of the above power demanding Security during the progress of the Sale is considered discretionary on the part of the Collector in instances which may appear to require it, it is to be regretted that such provision was not inserted in the Proclamation, which would have obviated all doubt and difficulty on the Subject.-

It does not seem to be in any way proved by the evidence that the demand of Security above alluded to and which led to the rejection of the offers of the two bidders already mentioned had any effect in depreciating the property or occasioning its Sale at a price lower than that which it would otherwise have reached, it is observed by the Collector in his Rejoinder that the Estate was disposed of in Fusly 1244/A. D. 1834/35/ for the Sum of Rupees 10,000, and a still stronger proof that the Sum of Rupees 9,000.- for which it was sold to 3d Defendant on the present occasion was not much below its real value is afforded by the Answer given by the 1st Plaintiff in the present Suit as 1st Defendant in Original Suit No. 148 of 1843 in which he states the value of the Estate at the same sum of Rupees 10,000 and it may be supposed that

that the disputes which have latterly arisen between the Joint proprietors may have contributed to lessen this value in some measure.-

As regards the assertion of the Plaintiffs that Rajagounden one of the late defaulting proprietors was the real purchaser of the property at the Sale and that 3d Defendant was only nominally such, the Court would observe that the whole tenor of the evidence leads to a contrary conclusion, the two parties although Brothers-in-law seems to be independent of one another, and there seems every reason to believe that the 3d Defendant Comaravalagounden is the real owner and manager of the property.-

The question of the legality and validity of the Sale being thus disposed of the Court proceed to take into consideration the assertion of the Plaintiffs that the Sale in 3d Defendant's favor was cancelled by the Board of Revenue, and that on this ground they are entitled to the recovery of the property, the balance due having been paid up by them as required on the 1st January following the Sale, a fact which is admitted by the Collector in his defence.- On this point it is to be remarked that although the instructions of the Board of the 16th November 1843. do not expressly direct that the Sale should be-

be annulled, and although the late Acting Prin=
=cipal Collector in the communication which
took place between the Plaintiffs and himself
as recorded in the Plaintiffs 3d and 4th Documents
appears to have abstained from any expressions
which might commit the Government or him=
=self to the restoration of the Moottah to the
Plaintiffs yet the indulgence was virtually
conceded to them by the Acting Principal Col=
=lector of the 8th January 1844 filed as Plaintiffs
6th and 7th Documents, which shew that the
purchase money was actually returned to the
3d Defendant the purchaser at the sale a pro=
=ceeding which of course involved the resto=
=ration of the Estate to the Plaintiffs. If the
present question were therefore only between
the Plaintiffs and the 1st Defendant, the Court
might consider whether the Government
should not in equity behold astound by
the act of their authorized and accredited
Officer the 1st Defendant to concede an
indulgence their title to which had been
thus virtually acknowledged but the sale in
favor of the 3d Defendant appearing as above
stated to have been legal and valid, such
a course obviously could not be followed
without direct interference with his rights.-

Although

Although therefore the Court are precluded
from decreeing the restoration of the Estate to the Plain=
=tiffs as they solicit, it is to be acknowledged that
they possessed some tenable ground for the institution
of the present action, and more especially for its
prosecution to a final decision after the despatch
of the Letter of Mr. J. D. Gleig to the Board of
Revenue dated 4th June 1844 in which he
recommends that the claim of the Plaintiffs
should be allowed, and states that in his opinion
the suit could not successfully be defended-
at that time the Plaint only had been filed
on behalf of the Plaintiffs- Under these circum=
=stances the Court could have taken into conside=
=ration the propriety of allowing the Plaintiffs
their costs; were it not for the tone of gross
exaggeration which characterises the Plaint,
added to the opinion of the Court derived
from the evidence in the case that the two parties
referred to in the Plaint from whom security
was demanded by the Collector, were persons of no property
fraudulently and illegally brought forward by the
Plaintiffs to make offers for the Estate virtually

To the Collr. of Salem — Requesting him to explain the cause of the delay in furnishing copy of the decree passed in the Subordinate Court of Salem in O.S. No. 74 of 1846 also calling for certain information on the subject- Inclosure 15-10-1846

Sir,

Para 1.

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 17th Ultimo forwarding Copy of a decree passed in the Subordinate Court of Salem in O.S. No. 74 of 1846 and requesting instructions in respect to the Costs decreed to be paid by the 1st Defendant.-

2 In reply I am directed to remark that this Decree appears to have been passed on the 11th August 1846 but that your

your letter transmitting Copy of it to this office was not written until the 17th September and did not reach the Board until the 21st Idem or only six days prior to the date on which the appeal term would expire- and therefore too late to allow the Board to obtain from Government permission to prosecute the Appeal- You are requested to explain the cause of this delay in furnishing the copy of the Decree.-

3. It is presumed that you have been adjudged to pay your own Costs 372 Rupees as 1st Defendant as well as those Rupees 418-8-0 of the 3d Defendant or in all Rupees 790-8-0 but this should be explicitly stated.-

4.- The Board beg that you will also be so good as to explain at what time and in what manner Plaintiff obtained copies of the letters from the Principal Collector and acting Principal Collector of Salem to this Office which form Nos. 1-8-11 of the Documents filed by him in Court.-

Furnishing information regarding the grant of remission on dry land left uncultivated.-

Sir,

Referring to the 6th para of the Extract from the Minutes of Consultation dated 9th ultimo, to which my attention is called by the Board's Proceedings of the 6th instant, I have the honor to state that it is not novel in Tanjore to grant remission on dry land left uncultivated.-

2.- The remissions which have attracted the notice of the Most Noble the Governor in Council were given for dry land left uncultivated from absence of rain and not for short produce.- They were confined to the Talook of Puttookottah and that portion of Trivady uninfluenced by river irrigation.- They were more than usually large in Fusly 1254 A.D. 1844/45 in Consequence of the badness of that Season and the two seasons preceding and the Condition of the Ryots who benefitted by them, mostly the poorest

poorest class depending for their livelihood on their dry lands, was so reduced that granting them to the extent stated was imperative.-

3.- In the Neerarumbum Villages i.e. those under river irrigation where the quantity of dry land is insignificant in Comparison with the wet, remission on dry land is not as a general rule permitted in Tanjore.-

To the Principal Collector of Madura-

Sir,

1- I have the honor to acknowledge the receipt of your letter of the 28th Ultimo. On the Number of Skeleton Glossaries in the Office, Shewing how many of them have the new words entered in them and when the Completion of them might be expected or whether the task be too arduous for my many other duties.-

2. In reply to the above I beg to inform you that the publication consists of Nineteen parts, of which four have been already dispatched to your office and the remaining 15 parts although Completed, I have not had opportunity to make duplicates of, and there is no one here who is able to Copy the languages in which they are entered

which,

which, when I have only one writer allowed, and the languages are English, Telugu, Tamil, Hindustan, Persian and Samskrit (Devanagari) can scarcely be any matter of surprise- The work was originally intended to be performed in the office of the Principal Collector as every species of assistance could there be obtained; but the Principal Collector I believe declined and the Compilation was thereupon handed over to me- Four Sections as above said were Copied and Submitted in duplicate; but as the remainder were not called for, I imagined they were not required; and therefore kept them in my own office till required elsewhere- To enter the words properly occupies the leisure hours of about 4 or 5 days for each section- and one day for transcription- The whole set is Complete and although more words might be inserted- Those entered are very carefully done and I believe will be found to contain no error of any Description- I shall be happy to send the completed set

to

to you with the unentered Copy, as directly you wish to have them; I have taken a few days to look through the Sections to make such remarks as might tend to improve any publication of the kind- The abstract of which I beg herein to enclose.-

names of Hindu Deities, but the commoner should be entered in the body of the work as well as any well known Towns with such historical particulars as would not fail to be acceptable to every one.-

4. Hindu and Mussulman names might also be entered in a separate appendix Alphabetically arranged with the derivations or meanings of each word. The Titles of nearly every officer has in different parts of the Country totally different significations. It is so with Amil, Amuldar, amin amina, asamy, Moonshy, Javabnavies, Peshkar, Karkoon, Roysom, Zillahdar, Zemindar and the like- whilst honorific titles are given to the most menial offices. A Full explanation in all such cases would be particularly required to prevent confusion.-

5. For the 2d part of such a work it would be attended with great utility if every English Law and Revenue term were translated into arabic, persian, Hindu, Guzeratty, Bengali, Tamil, Telugu, Malayalem, Canarese and sanscrit, a Mahrattah would be useless as scarcely an Original or peculiar term would be found in it. Of Canarese there are only 2 or 3 words in the present glossary and about as many of Maliyalem and Malay; but it would require considerable ingenuity and leisure if not extensive talent to compile such a work.-

From the Pt Collr of Coimbatore

Sir,

I have the honor to acknowledge the receipt of the Board's Circular dated March 30th 1846, requesting to be informed whether, in this District there are any allowances of the nature of Nyomiah's personal or charitable Grants with or without service annexed which have been paid by a deduction from the Kistbundy Bariz either of the land Revenue, or of any of the Extra Sources, and if so, to explain the circumstances connected therewith

Affords the information called for in the Board's Circular letter of the 30th March 1846.

2. There is no grant of the nature adverted to from the Extra Sources of Revenue the only allowance of a charitable character which is paid by a deduction from the Kistbundy Bariz of the land Revenue is that granted to a person of the name of Yanasevachary of Pairoor amounting to Rupees 293-12-11 per

Fort St George 15th October 1846.

per annum which is entered in the annual Statement No 3 of the Land Revenue Settlement transmitted to the Board of Revenue

3. From the enquiries which have been made, it appears that the entire Village of Cooroocapolliem in the Dharapooram Talook was alienated to the ancestors of the present incumbent on Enam Tenure 195 Years previously, and that in consequence of the absence of the Grantee in the early part of our administration, the Enam was resumed, and the proceeds carried to the credit of Government up to Fusly 1222 (1812/13)

4. A reference to the records of this Office shews that Mr Gannon the late Collector of this District authorized the Grant of 100 Star Pagodas to Yanasevachary from the gross Revenue of that Village in 1223 (1813/14) and that this grant was subsequently reduced by Mr Sullivan in 1225 (1815/16) to 100 Canteroy Chuckrums or Rupees 293-12-11 which sum has been subsequently continued

5. I beg leave to enclose herein translated Copies of Takeeds and other

Fort St. George 15th October. 1846

other Papers which were discovered on my records in reference to this subject from which it would appear that altho' the payment of this allowance has not been sanctioned either by Government or the Board of Revenue still it was always recognized and contenued by the Local authorities.—

6. This grant is of a chartable nature and was made during the time of the Native Princes 195 years previously in support of which a Copper Pashanum is produced by the Party—a translated Copy of that Pashanum is also forwarded herewith, from which the Board will observe that it was granted for the Poonjah of a certain Sawmy, and as a mark of respect to the powers of the Grantee who is stated to have caused a dumb person to speak.—

7. No Puttah was issued by Mr. Garrow, neither is any allusion made to this grant in the Cutcherry accounts of this District. The only Puttah which the party is possessed of is the one granted by Mr. Sullivan in

Fort St. George 15th October 1846—

in 1232/1822/23 translation of which is also submitted.—

The reference alluded to in the Yaleed to the Yalsildar of Dharapooram dated 30th November 1817 No. 43 does not seem to have been made to the Board of Revenue.—

Deposition given by Soobbramaniah Iyen Curnum of the Village of Coorooca-pollium in the Dharapooram Talook dated June 8th 1847 Corresponding with the 28th of Viasee of the year Dhatoo—

Many years ago during the Reign of Royer Appajee, the Village of Coorooca-pollium was granted as entire Enam to Ganasevacharry of Carroor as a Charitable endowment who made a dumb person to speak— This Grant was recognized during the Governments of Rayer Appajee's successors and Ganasevacharry was in the uninterrupted enjoyment of it up to the year Calayouctee—

In the year Siddarty, when this Province was governed by the Company Ganasevacharry having been absent on his travel, the said Village was rifled by the Circar— In the year Sreemookha when Mr. Collector William Garrow introduced the decennial lease Settlement, Ganasevacharry Communicated to that Gentleman the Circumstance of his having held the said

said Village on Enam tenure, and also produced the Copper Sashanum &c. in support of his statement that Gentleman inspected the same summoned and examined me, and having made himself perfectly acquainted with the facts of the Case, authorized the deduction of 100 Star Pagodas from the Revenue of that Village for payment to Ganasevacharry this was continued in that and in the succeeding year "Bhava"—

In the year "Yuva" when the Revenue Settlement was in progress at Dharapooram, Colonel Thomas Munro and Collector Mr. John Sullivan again enquired into the Case and having inspected the said documents and ascertained that Mr. Collector Garrow had authorized the Grant of 100 Star Pagodas per Annum, sanctioned the deduction of 100 Canteroy Pagodas from the revenue of the Village—

This Enam is in the enjoyment of Ganasevacharry for the last three years to whom the Village of Coorooca-pollium was originally granted as entire Enam—

No. 3

Translated Copy of Arzee addressed to J. C. Wish Esqre. Head Assistant Collector of Coimbatore by Kistnaroo acting Tahsildar of Dharapooram No. 143 dated 9th June 1817.

I was favored with a Yakeed No. 85 dated 11th of May last directing me to ascertain and report whether any Yakeeds have been received from the Huzoor authorizing the deduction of a Dasacharry of Pairoor from the revenue of the Village of Coorooca pollium in this Talook from Fusly 1223.

In obedience to these instructions I instituted the necessary enquiry, and I am informed by the Curnum of the Village that from a long time, and up to the year "Calayputee" which is the one preceding the assumption of this Province by the Company Canarese Charryer as enjoying the said Village entirely as Enam. the said Curnum has also given a deposition to this effect, which I beg leave to enclose. In Fusly 1223, when the decennial leases & settlement was introduced, the said Acharry communicated this fact to Mr. William Garrow, who

who authorized the deduction of 100 Star Pagodas from the Revenue of the said Village to be paid to him. accordingly in 1223 and 1224, a sum of 100 Star Pagodas was deducted from the revenue of the Village in each year, and a Kisthundy was received for the residue. In 1225 he again petitioned the Huzoor when the deduction of a sum of Conteroy Pagodas 100 was authorized, and a Kisthundy was sent to the Talook for the net revenue, but no Yakeed was received in this Talook during the said three years. and I request to be favored with instructions for my future guidance on this point.

The Tahsildar of Dharapooram

Dharapooram, under instructions from the Huzoor, having directed us to state the facts connected with the enjoyment of certain Enam by Ganasevacharry of Pairoor in the Village of Cooroocapollieum in this Talook; we give the following particulars Viz.

The Village of Cooroocapollieum was alienated to the Ancestors of the said Ganasevacharry as entire Enam during the Dynasty of "Poyer Appajee," and a deed drawn out on a Copper Plate, was issued, which was recognized in the reigns of Madura, and Mysore Rajahs, and also during the Government of the Nabob and Tippoo Sultan upto the year Calayouctee - When this Province was assumed by the Company, Ganasevacharry was absent travelling over India. Consequently, the said Village was Zuftied by the Circar. In the year Sreemookha, When Jun. Collector William Garrow was in the Kongyan Talook engaged in the settlement of Summa-lundy Ganasevacharry returned, and produced the said deed to that Gentleman and also Communicated to him all the Circumstances connected therewith.

He

Fort St. George 15th October 1846.

He took the subject into consideration, and authorized the deduction of 100 Star Pagodas ℔ annum from the revenue of that Village as Enam to the said Ganasevacharry - this practice prevailed during that and the succeeding year "Bhava" - In "Yuva" Colonel Munro, and Mr. John Sullivan when engaged in the Immanabundy settlement in Dharapooram enquired into the Circumstances of Ganasevacharry enjoyment of 100 Pagodas as an Enam, and also the fact of his holding a Sashanum for the entire Village which they inspected and likewise authorized the deduction of 100 Canteroy Pagodas in favor of that individual - Ever since, he is enjoying the Enam in question - the Village of Coorocapolliem was alienated as entire Enam to him in former times and we know this perfectly well - and thus do we give our deposition -

Deposition given by Kistnien Gana: -sevachan of Coorocapollium in the Dharapooram Talook dated 28th. July 1846.

Question - Sum of Rupees 293 12 - 11 is deducted from the Revenue of the said Village, and paid to you annually - When and for what purpose was this Enam granted to you? Whether you have got any Copper Sashanum, or other Deed in support of this Grant? if so produce it - also How you became possessed of the said Enam?

Answer - Our Ganasevacharry Mutt, and the Pooja of Iyenpuram-dareum Tinnevelly Pudasamy have had their origin 2000 years previously - The Worshipper of this Mutt is not permitted to

Fort St. George 15th. October 1846 -

to marry - he should be a Bachelor and make Poojah. This rule prevails for many years past - about 1795 years previously on Friday the 15th. of Chittry of the year Khara, at the time of an Eclipse which occurred on that day when Veeranalia Deva Maharajah was reigning over this Province, an extent of land consisting of one Mattra and 10 Coolies measuring with a Chain of 100 Fathomas was granted as entire Enam in the Village of Coorocapollium where we have a "Mutt" both for the Poojah of the said Samy, and in token of regard to the power of Ganasevacharry who made a dumb person to speak - the limits of this Grant are as follows -

One half of the field in Seckoogunceadoo situated on the North east Corner to the North of Palaley Cara and Vadacoo Cara, and also Velacoo Covil cadoo - South of the North Mary or Pathway, east of the well on the west, and again east of the Cunnaoonjavarey - To this effect a Copper Sashanum was also issued which I now produce - Ever since the said lands were held on Entire Enam Tenure by many persons who held the seat of Ganasevachar - those whose names I recollect are as follows.

those whose names I recollect are as follows - 1st Chittumbara Ganasevachaun held the Enam for 50 years, 2dly Lunda Ganasevachaun for a like period. He was the last person who enjoyed it but being absent from the Village and engaged in travelling over the Provinces to collect the usual fee from his disciples at the time when this Province was assumed by the Company, the Enam was resumed and the proceeds thereof Carried to the Credit of Government. Thirdly Poothra Ganasevachaun returned from Combaconum in Fasly 1223 and represented his case to the authorities of this District and produced the Copper Sashanum and other documents, when a sum of 100 Star Pagodas or 350 Rupees was authorized to be granted to him which he received in 1223 and 1224 and in Fasly 1225 the Grant was reduced to 100 Conteroy Pagodas or Rupees 293-12-11 which was enjoyed by him. His successor Soobramania Ganasevachaun and ultimately by myself for the last 5 years. the above sum of 100 Pagodas is deducted from the Revenue of that Village and the rest is paid into the Circar. I stand appointed to the office of Curnum and Mongian of the said Village and have employed Substitutes to perform the duties thereof and therefore I am allowed to be held certain lands — free in part payment of the amount of my Enam in question for the deficiency of any own farm rent I recover the amount from the Ryots in adjustment of their dues to Government. I do not know what other documents were severally possessed of by the Parties who held the seat of Ganasevacharry previously. Neither have I now got any of those documents. I have in my possession only the Copper sashanum above alluded to and also a Puttah issued by Mr. John Sullivan in 1223 authorizing the deduction of 100 Pagodas from the Revenue of the Village. which latter I have also now produced.

From the Collr. of Madras -

Submitting the Statement of the Settlement &c. &c. of the Land revenue of the Madras Collectorate for Fusly 1255. 1845/46.

Sir,

1. I have the honor to transmit herewith, for submission to the Board of Revenue, the Statements A to G, of the Settlement and Collection of the Land Revenue of the Madras Collectorate for Fusly 1255. 1845/46

Statement A which has reference

Demand of Current Revenue Fusly 1254 - 63472-13-2
1255 - 63569-15-1
102-14-1

2. to the Current Revenue exhibits a Decrease in the demand to the amount of Rupees 102-14-1 in consequence of bills having been made out in 1254 on certain property at Mylapore retrospectively from 1816 which was not the case in 1255, as shewn by the particulars in Statements B and G.

Collections of the Current Revenue Fusly 1254 Rs. 57966-
1255 - 57701-9-4-
Increase - 995-9-4-

3. The Increase in the Collections of the Current Revenue is Rupees 995-9-4- which is ascribable to every effort having been used for the realization of as large a portion of the demand as possible within the year.

Sales of Lands 4. The proceeds from the Sales of land
Fusly 1254 - Rs. -
1255 - 250-2-
Increase - 250-2-

brought to account in Fusly 1255 amount to Rupees 250- Statement H submitted herewith shews the extent and assessment of each spot, as well as the authority under which the

the Sale took place.

5- I shall now proceed to afford exc=planation on the Collections of "Current revenue" and "arrears" keeping them distinct, and treating them as separate topics in conformity with the instructions conveyed in Para 12 of Extract from the Board's Proceedings, dated 10th August last.

4,086-10-3-
17,446-3-7-
53,532-13-10-

6 Statement E shews that the Current demand on Houses and Garden Houses occupied, and Gardens and Paddy fields in a state of productiveness, was Rupees 53,532-13-10- of which Rupees 49,659-4-5- were recovered within the Fusly, and the balance remaining unpaid at its termination was Rupees 3,873-9-5- This could not have been recovered before the expiration of the year owing to the indigent circumstances of many of the defaulters, in whose case a warrant of distraint can be of no avail.

39,217-4-9-
10,442-3-8
49,659-4-5
3,873-9-5

1,710-13-1-
787-15-8-
2498-12-9-
229-1-8-
2269-11-1-

7- Of the Current demand Rupees 2,498-12-9- assessed on Houses and Garden Houses remaining unoccupied, and on Gardens and Paddy fields in a state of unproductiveness, Rupees 229-1-8- have been recovered, and the balance at the close of the Fusly was Rupees 2269-11-1- As regards property of the description just

refered

referred to, the realization of any portion of the demand thereon is at all times difficult. Many of the Warrants issued within the Fusly were returned, from there being no available property to be found on the premises. The comparatively small collection under this head was therefore, made by distraint where distraint was likely to be of any use.

8- Statement D shews that the extent of land cultivated in 1255. was Cs. 2375-9-10½, on which Rupees 10,442-3-8- of the Current demand were collected within the year. The average is Rupees 4-6-4- per Cawney. The revenue of 1254. was Rupees 10,448-10-4- on Cs. 2315-20-544. giving an average of Rupees 4-8-2- per Cawney.

7368-4-6.
5,863-3-3-
1,505-1-3-

9- Of the demand on account of Ground rent, Rupees 7,368—4—6, the Collections amount to Rupees 5,863—3—3- and the balance remaining unpaid at the close of the year was Rupees 1505-1-3-

63609-15-1-
55961-9-4-
7648-5-9-

10- Thus, of the whole demand, Rupees 63,609-15-1- of the Current Revenue, Rupees 55,961-9-4 were collected, leaving at the close of the year, an outstanding balance of Rupees 7,648-5-9-

Houses unoccupied- Rs 1481-11-5-
Paddy fields uncultivated- 787-15-8-
2269-11-1-

11- It will be seen that a considerable portion of the balance of Current revenue, Rupees 2269-11-1- is composed of items not

recoverable

recoverable immediately.—

Collections of Arrears
Fusly 1254 Rs. 1567-3-7.
1255 — 4769-14-2
Decrease — 1847-5-6.

12. In the collection of arrears in comparison with that of the previous Fusly 1255 / 1845/46. year as per Statement G, there is a decrease of Rupees 1847-5-5.—

1579-12-9.

19- Adverting to Para 20 of my report of 8th Octo= ber 1845 and to Para 11 of Extract from the Board's Proceedings of 10th August 1846, I beg leave to explain that, there being no accounts to be got from any of the Village Curnums such as would have enabled this Office to prepare the required account of the whole Ayacut lands within the Collectorate my Amildar was directed, in communication with the

the Sheristadar to collect the necessary particulars from all available sources, by careful enquiry. A detailed Statement has been drawn up with reference to the Cutcheries, Registers of Grants and Certificates, but the entries in respect to the purposes for which each of the subdivisions of an Enclosure is being appropriated are founded almost entirely on his own but imperfect knowledge of them, and that of the Conicopillays employed in the Collection of the public demand, from their not having the power of entering the premises of any private individual and causing a Sketch Plan or Memo of measurement, to be made of the same. And, again, the Statement although a voluminous one includes merely about one half of the Village of Mylapore only. As any Account framed on such data can be but of little use, if it were requisite to test, thereby, the correctness of any application for a reduction or remission, of Quit Rent, or to refer it with a view to any other object, and as the former Quitrent Committee, who were anxious to have the whole of the Madras

in consequence of objections having been made by different parties, I regret to be obliged to add that I do not entertain any hope of my being able to obtain sufficiently accurate details for the formation of an account such as the Board have called for even if I were to wait for a considerable time to come for its completion.

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation dated the 5th of March last transmitting Copies of certain Correspondence which had passed in the Military Department with reference to which the Board were directed to report whether it may not be practicable for Collectors to furnish Returns such as may afford an efficient check upon the Commissariat charges at the several Stations of the Army.

2. In reply I am instructed to submit for the information of Government the accompanying Reports from the several Collectors throughout the Provinces explaining the trade and data upon which the Price Lists supplied to the Military Authorities are at present framed in their respective Districts and stating what measures they would recommend in order

Submitting with reference to Extract Minutes Consultation 5 March last reports from the several Collectors throughout the Provinces explaining the mode & data upon which the Price lists supplied to the Military authorities are at present framed & recommending the adoption of certain measures in order to render these Statements efficient checks upon the Commissariat charges.

order to render these Statements efficient checks upon the charges in question. Referring to the observations contained in these Returns and to the remarks of the Sub Assistant Commissary General at Bellary in his letter dated 5th of July 1845 transmitted with the Correspondence furnished with the above order of Government it appears that the discrepancies noticed in the Price Current Lists now supplied by the Civil Authorities & those framed in the Military department arise chiefly from the want of uniformity in the system observed in preparing the two accounts and that it is to this cause the inadequacy of the Collectors Statement to operate as checks over the Commissariat charges is mainly to be traced.

3. It will be seen that the remarks of the Military Superintendent of Police at Bellary are explained to be drawn up from the Average weekly Market prices rendered by the Principal Merchants of that station on the close of every market day whereas those supplied by the Revenue Authorities are framed at longer intervals and contain the average of the selling prices of the different Commissariat articles in the principal Towns of the district as ascertained on some day towards the close of the Month Independently

Fort St. George 15th. October 1846.

Independently of the difference thus pointed out in the construction of the lists it will be observed that the Statements do not correspond in respect to the articles severally specified in them, in those framed in the Districts the staple articles only are entered and their prices ascertained but from Captain Elphinstone's letter it seems that minute distinctions are made in the classification of the different sorts of articles included in his Nerruk which are not generally recognized or contemplated in the general Price Current Lists furnished by the Collectors, but the insertion of which materially tends to affect the average price of the whole entries made under such head.

4. In order to meet the requisition of Government that the Revenue Nerruks should be rendered efficient checks upon the charges in the Commissariat Department at the several Stations of the Army it is suggested by the Collectors that the system hitherto observed in respect to the mode of forming the Price Lists should be modified to correspond with that obtaining in the Military department. The Board entirely concur in the opinion thus expressed by the local authorities and observe that as long as

Fort St. George 15th. October 1846.

as the Accounts are prepared on different principles and data it is not practicable to render them effectual checks upon the prices of the various Articles entered in the Commissariat Accounts. In view therefore to obtain the description of Nerruks required by Government the Board would submit that the Commissariat Department should be instructed to furnish periodically the Civil authorities with Statements containing the several articles in demand for Government use, and the prices of which it is desired by that Department to check by means of the Collectors Nerruks, these Statements should be confined to articles usually purchased on behalf of Government and the classification generally known and established in the Markets and Towns of the district among the general dealers be adhered to as closely as circumstances will admit. They would also recommended that prices should be ascertained by enquiry at the principal stations and places of sale by the local Civil authority at intervals of a week as observed in the Military Bazar at Bellary and the Nerruks framed on the information so obtained should they consider be transmitted without delay to the Commissariat Department

to

Fort St. George 15th. October 1846.

so that any material discrepancies observable in the lists of the two Offices might be at once investigated if necessary. By the introduction of a uniform system of preparing the Returns as proposed in the above arrangement it appears to the Board that a check may be obtained over the prices entered in the Commissariat charges with as much accuracy as seems practicable in general Statements of that nature.

To the Pl. Collector of Madura — } Sir,

In reply to your letter of the 11th Instant I am directed by the Board of Revenue to inform you that in submitting to Government your letter of the 18th Ultimo on the subject of the leave solicited by Mr. Cator they were unable to support your application to be permitted to detain that Gentleman in your District for a fortnight after his being relieved by Mr. Robinson and the Government do not appear to have passed any orders upon that part of your letter. Under these circumstances it is desirable that Mr. Cator should lose no time in availing himself of the leave granted to him in the Fort St. George Gazette of the 29th Ultimo on Mr. Robinsons arrival. From your letter however the Board are led to infer that Mr. Robinson has already joined and that Mr. Cator has continued to do duty in your Cutcherry subsequent

From S. Scott Esqre Commissioner in Kurnool

Sir,

Para 1. In answer to your letter of the 27th Ultimo requiring me to explain more in detail my proposal for allotting small portions of land in different Talooks for the propagation of Cuttings of the Mauritius Sugar Cane, I have the honor to annex a Statement shewing the Village in which I propose to try the experiment- In the three first Villages both the land and the means of irrigation are of superior quality, and in them the trial might be made in two Acres, in the others the natural advantages are less and therefore I think one Acre will be sufficient for the present; it can be extended hereafter if found advisable.

2. The Statement contains all the information called for by the Board except the price at which the Cuttings are to be sold, and I found that in consequence of so little being known of the quality of the Cane and the Amount of produce, opinions differed

Submitting a Statement shewing the Villages in which he proposes to try the propagation of Cuttings of the Mauritius Sugar Cane-

differed so much as to what would be a proper remunerating price to the growers, that it was thought better to defer fixing it till the Cane is fit for Cutting which will be in the Month of February- The Government will be under no liabilities whatever as I propose to take at Moochilka from each person to whom the land is granted, binding themselves to reserve all the produce for Cuttings, and to sell them at the price fixed by the Commissioner, and failing in either of these stipulations, to pay the Extraordinary Ryotwar demand upon the land.

From the Coll. of Salem, Reporting on the subject of the Giddagahvel lands of the Chandamungalum Mootah.

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated 13th July last, on the subject of the Giddoogavel lands of the Chandamungalum Mootah, I have the honor to forward 4 Statements No. 1 to 4 and to state for the information of the Board, that, the Mootah of Chandamungalum originally consisted of 8 Mouzahs and 8 Muzrahas, or 8 Villages and 8 Hamlets, but was subsequently subdivided, as follows.

To Mootookaputty	Mouzahs	3

In the Accounts prepared at the formation of the entire Mootah of Chandamungalum in fusly 1211. the extent of immemorial waste land or Annady tarisa entered was acres 3.625 15/16 the Statement No. 1 will exhibit the extent of immemorial waste Nunjah, and Poonjah lands, which belonged to each of the Mouzah Villages above alluded to, as also those attached to the Chandamungalum Village itself.

The

Fort St. George 19th October 1846.

2. The extent of the immemorial waste Kunjah entered in the Ayeut accounts of fusly 1211. as belonging to the Ichandamungalum Sub division was acres 210-23-10 of which acres 196-6-4 were Giddoogavel, and the remaining acres 14-17-6. annady Bunjur when these Giddoogavel lands were measured in fusly 1245 they were found to consist of acres 197-7-3 the cause of the difference is shewn in Statement No. 2.

*Columns 3-4 & 10

3. On referring to the Statement No. 2. which accompanied Mr. Collector Cockburn's letter of the 3rd July 1826, acres 35 5/32 are entered in Col. 120 as cultivated in fusly 1233 and acres 139 25/35 in Col. 121 as waste in all acres 174 15/16 in Column 122 as being in the possession of the Circar which would appear incorrect. None of the lands acres 139 25/32 entered in Column 121 was ever under the management of the Circar, but they have been always in the possession of the Mootahdar, It is true that this discription of lands were covered with thick bamboo jungles and a yarly rent derived from it, which was carried to the Circar accounts, The Mootahdar having by degrees cleared the grounds after the Bamboos were cut by the Renters converted them into Poonjah Kunjah and Bagayet. In fusly 1237 when this description of

of lands in the 3 Mootahs Viz. Vailacovroo Chey Periapullumpaudy, and Ichandamungalum, were taken by Mr. Hoargrave under Circar management, as having been specially reserved by Government at the time of the Permanent Settlement the extent of Giddoogavel land taken from the Ichandamungalum Mootah amounted to acres 37-21-4. the teerwah of which was also for fusilies 1225 and 26 collected from the Mootahdar. From fusly 1227 the land in question has been under the management of the Circar, of which acres 35 5/32 were entered in Column 120 of the Statement No. 2 which accompanied Mr. Cockburn's letter under date the 3rd July 1826, as brought under Cultivation in fusly 1233. It would seem that Mr. Cockburn never caused the whole extent of the lands which were both under the Circar management and in the possession of the Mootahdar to be measured and properly examined, or he would not have made the mistake as shewn above.

4. The Statements Nos. 3 and 4 will at one view exhibit the extent of lands that are actually under the Circar Management as well as the extent in the possession

Fort St. George 19th October 1846.

possession of the Mootahdar agreeably to the measurement of fusly 1214-5. together with the extent of lands brought under cultivation from fusly 1212 by the Mootahdar and from fusly 1227 by the Circar.

5. When the lands in question were measured in fusly 1245 the following excess were found, Viz.t Acres 4-9-9 in the land under the Circar management and Acres 18--11 in the land in the possession of the Mootahdar. These being added to those entered in the Statement No.2 forwarded in Mr. Cockburn's letter above quoted make, under the Circar management Acres 39-15-4 and in the possession of the Mootahdar Acres 157-31-15.

6- Of Acres 39-15-4 Acres 38-29-6- were brought under cultivation in fusly 1254 by the Circar, and the remainder Acres 25-14 left waste

The

Fort St. George 19th October 1846.

The Mootadar therefore claims these lands Acres 39-15-4 together with their Teerwah from fusly 1227 to fusly 54 amounting to Rupees 2,596-9-10 Under the above explanation I hope the Board will obtain the Sanction of Government for adjustment of this claim.-

To the Chief Secretary to Government

Sir,

Para 1- I am directed by the Board of Revenue to request that you will submit for the orders of the Most Noble the Governor in Council, the accompanying correspondence with the Collector of Salem, relative to his application that the revenue collected from certain Giddagavil land attached to the Mootah of Sandamungalum in his District may be disbursed to the Proprietor, and that that portion of the land now in possession of Government may be made over to him.

Submitting a correspondence with the Collector of Salem on the subject of certain Giddagavil lands attached to the Mootah of Sandamungalum in his District and recommending that his proposal that the revenue collected from it may be disbursed to the proprietor and that that portion of the land now in possession of Government may be made over to him be acceded to.-

From Do. 16th June - in Con.n 13th July - Board's Proceedings 13th July 1846-
From Coll.r 18th September - in Con.n 19th October 1846-

2 The nature of these Giddagavel lands has been explained by the Board in their letter of 2d February 1843. They consist of Jungly tracts, which in former troubled times were kept up by the petty chieftains of the Country,

Fort St. George 19th October 1846.

Country, around their forts, for purposes of security. On the introduction of the Mootahdarry system in Salem, these lands were in some cases included in the Mootahs, and in others excluded from them, and reserved to Government. In the present instance of Sundamungalum, it seems clear that the Giddagavel lands were included in that Mootah, as they were comprehended among the "lands uncultivated but fit for cultivation," forming Col: 3 of the schedule which was published for general information at the time when the several Mootahs were sold, and was intended to exhibit the actual extent of the lands included in the respective Mootahs, and to be conveyed to the purchasers. The Giddagavel land of Sundamungalum is entered in the Pymash accounts at acres 174-35-8. but these entries of uncleared and jungly land were made on estimate, and have generally been found far short of the true quantity. The actual extent, as entered in the Ayacut account of Fusly 1211 on which the Mootah was formed, & as included under the 3d head of the sale Schedule, was A.196-6-4 and to this being excess of A.1-5. has since been discovered on measurement thus making A.197-7-3 Of this quantity the greater part is in the possession of the Mootahdar, but a portion was attached by Mr. Collector Hargavel in Fusly 1227 with

with the Giddagavil lands of other Inamdars &
and this portion being A39-15-4 is held by
Government and revenue to the amount of
Rupees 2596-9-10 has been collected on it by the
Government Officers from Fusly 1227 to 1254 inclu-
sive. The Collector now requests that this sum
may be disbursed to the Mootahdar and the
remainder of his Giddagavel lands made
over to him as his right both to the land
and to the Collection in question seems to be
indisputable and the principle on which it
is founded Viz. the inclusion of the land in
the sale schedule has been admitted by
Government. The Board beg to recommend
Order St. 946 of 1835 - 7th Aug. 1835. that the proposal of the Collector be
acceded to. Of the total amount Rupees
2596-9-10 Rupees 927-12-11 is in deposit &
Rupees 1668-12-11 has been carried to account
the Refund of this latter sum will require
Special sanction.

From Thos R. D. Parker Esqre. Acting Coll.r of Timevelly. Sir. Para 1. I have the honor to acknow-
ledge the receipt of your letter of the 21st
Ultimo.

Stating that the accounts called for regarding allowances paid by deductions from the Nuttumdy Burzeatchy of the lands of any of the Extra Sources of Revenue will be submitted shortly.

2. The letter from the Board dated 30th March last was received at a time when all the Talooks and Huzzoor Servants were fully engaged in the Jummabundy of Fusly 1255 &c. delay however occurred in transmitting orders to prepare the Account therein called for. The preparation of the Jummabundy accounts to be forwarded to the Board has occupied much time. Subsequently Returns however have now been received from the Talooks and the whole strength of the Huzzoor Cutcherry is applied to the preparation of the Accounts in question.

question which will shortly be submitted.

3. Though the Imanums granted in this District are not perhaps great compared with those in other Districts. yet they are very various in their nature and it is exctreinely difficult to classify them and determine what should be entered in the Account.

I am very &c.

To J. Pycroft Esqre Secretary to the Board of Revenue. Fort St. George.

Sir,

(18)

From J. A. Ruddleston Esqre Collector of Madras } Para 1. Submitting explanation on certain items in the Statements of arrears of Land Revenue recommended for remission and referred to in the Board's Proceedings of 20th Ultimo. Pwd.

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 2d Ultimo calling for further explanation on certain items in the Statements of outstanding arrears of Land Revenue submitted with my letter of the 25th April last, and to report that in the cases referred to by the Board, where the balances were of some 3 or 4 years standing. the collections for intermediate periods were made by the distraint of such available property as was found on the premises, and the amount, from its being small was credited on account of the Current revenue, in pursuance of the long established rules of this Office, whereby the balances due for former and subsequent years were left unadjusted, but the Cutcherry records also shew that, in many instances, both the Arrears and the Current demand were collected at once, either by direct application or by the issue of a warrant of distraint as stated

in Para 2 of the letter referred to above.

Para 2. 2. It is shown to the Board that the Land revenue at Madras, Monthly Ground rent excepted, is payable under Grants and Certificates. The demand is therein entered in accordance with the rules referred to in the list submitted on the 11th January 1821. Without the walls of Black Town, the general rate is 5/4 Rupees per Cawney, not only for spots comprising a large extent, but also for those under a Cawney and not built upon, according to Paras 20 and 24 of the list. As regards lands under a Cawney upon which buildings have been erected, the assessment is at the different rates specified in the scale appended to Para 23.

3. Within the walls of Black Town, the demand is regulated by the estimated value of the property at 10 fs per 100 Pagodas, according to Para 22, whilst, on the Beach, it is at 1/2 Pagoda per Ground.

From Bd. to Govt. 16th May 1800. F. Govt. to Bd. 4th June.

Para 3

4. The assessment on the lands in the occupation of the Tank Diggers of Porsewakum was discontinued in 1838, the bills for the previous years, from 1827, having been cancelled, and the amount written off to profit and loss. I understand that in 1841 orders

orders were given, again, for the issue of the annual bill; but, on the Merasidars being called upon to pay it, they refused to do so, on the ground of their own inability to recover the Monthly sums of 2 fs per Ground, which they are entitled to get from the Tank Diggers. As there is not any personal property belonging to the Merasidars available for distraint on the land, no collection has been made. Bills were prepared likewise for four subsequent years, or up to 1845, when I caused them to be discontinued, to prevent the accumulation of arrears. As the Statements of my proposed remissions submitted on the 21st August last, however include arrears up to 1842 only, the bills for that and the previous years, have, alone, been entered in them. The Tank diggers have occupied the spot undisturbed since 1799.

Bills for items Nos 253 to 259.

4 and 5. 5. being the houses of some of the Triplicane Brahmins who claim exemption, have been issued annually, and cancelled under due sanction since 1829. I have been unable to ascertain why the bills alone, have been prepared, when there are other houses, the occupants of which were held under equally entitled to exemption 1st December
