From the Collr of Rajahmundry Reporting on the Settlement of

Sir

Para 1 I have the honor to submit the usual Statements of the Settlement of the

of the Estates of Ramachendrapooram, Cotah and Peddapore for Fusly 1255.

the Management Estates Vizt Ramachendra-pooram, Cotah, and Peddapoor for Fusly 1255- A.D 1845/46.

2. Owing to the scarcity of rain at the commencement of the cultivating season in May and June, about a fourth of the Poonasa or first crop was lost. There was no rain in the Months of July, August, and September. The North East monsoon may be said to have failed, for there was only a small quantity of rain in October. The Tanks were not filled from want of the usual Godavery freshes. The wet lands of Cotah and Ramachendrapooram, were not cultivated from want of rain, and in Ramachendrapooram Estate the dry lands of Dracharam, Ramachendrapooram and other Villages were left uncultivated from the same cause. The Lankah lands of a few Villages named Coollah, Amjoor Panikaroo, Soondarapilly and Tautaproody pcs yielded a large quantity of Paddy, Cundooloo Sanagaloo, Gram, and Cotton, while one fourth of the dry lands of Condoor pcs produced a good crop of Cholum. The dry lands of Cotah did not suffer so much as those of Ramachendrapooram being nearer the Godavery. The Lankah lands produced their usual crop. The Estate of Peddapoor produced a good crop having the benefit of the

the fertilizing freshes of the Yalaroo river aided by occasional showers from the hills; but the Bickavole Mootah having had scarcely any rain and no water in the tanks yielded only one fourth.-

3. The rise in the price of Grain was caused by the scarcity on the Eastern side of the Godavery extending into the Vizagapatam District and to the exportation of Grain from Cocanada to Bourbon &c.-

4 In consequence of the almost entire failure of the crops in 30 Villages of Ramachendrapooram and Cotah in the whole of the Bickavole Mootah (which belongs to the Peddapoor Zemindary) and in some Villages of Valoogoobunda Mootah of the same Zemindary, the poorer Ryots, who were thus deprived of the means of subsistence gladly employed themselves in the excavation of the Thoolia Bhagah channel and other important works of irrigation.-

5 A great number of Cattle died partly of sudden disease and partly from want of pasturage and water.-

Ramachendrapooram 6 The annexed Statement shews the mode of Settlement of the 37 Villages appertaining to this Estate for the Fusly under review compared with the preceding year.-

The decrease in these four Vijsabady Villages, which were settled in the preceding Fusly under the renting system, is chiefly attributable to a large remijsion granted, after due examination through the Huzzoor and Extra Servants on account of lands both wet and dry left uncultivated owing to the failure of the rains.-

the Village was held under attachment, the Cir-

Though there was less land than usual brought into cultivation, and the produce was small, owing to the unfavorableness of the season in the said Ashurah Villages, a small increase was caused by the enhanced price of Grain and by an increase arising from the Poollary or grazing tax.-

20. The Settlement of 24 rented Villages/19 of which are in the Colah Ramachendrapoor Talook and 5 are transferred to Amlapoor/ shews a Net decrease of Rupees 478-14-7- arising out of a decrease of Rupees 1,116-3-10- on Alamoor and other Villages/which were settled under Aumany in last fusly but rented in this fusly at a Moderate Bariz adapted to the state of the Ryots pandavs increase of Rupees 637-5-3- upon 8 Villages which were settled under rents in both fusties.-

In consequence of the entire failure of the crops on the wet lands of Bheemacrosoo-pollem and other Villages, and the distressed circumstances of most of the ryots, which I fully ascertained at the Settlement, and with reference to the report previously sent in of the state of the Cultivation and the Seantiness of the produce, I found it necessary to postpone the Collection of Rupees 4,153-1-7. due from the poor ryots. The Amuldar having neglected the Collections, I was obliged to sent my Head Sheristadar who collected Rupees 3,286-8-4. during the Month of September. Fee

The decrease arose partly from the reduction in the Amaracund owing to the indigent circumstances of the ryots which was duly enquired into at the time, and partly from allowing a remission of Rupees 1931-2-1 out of the Cists of the lands left uncultivated in Linguinpurroo in Bickanole and Valoogoobundah. This remission was given upon enquiries made at the time of Settlement regarding the lands so left uncultivated, and the circumstances of the ryots who occupied them, care being taken not to make similar remission for lands left uncultivated in villages having the means of irrigation from the Yalairoo river. The increase of Rupees 213-5-0 is attributable partly to the high Kham Cist of a Village called Poolemaroo in Peddapoor Taluk, which was transferred from Rent to Vipsabady and partly to the imposition of the taxes upon ryots who had Cultivated Cumms in accordance with the Rules established for that purpose.

In the Bickanole Taluk, Cumsefoor Pellumkah, China Bremhadauroo Vadaroopundah and four other Villages which were settled in last fasly under Amany at a high Cist having left large balances, were rented in this Fasly at a

The

4999 Fort St. George 23d November 1846

To the Board of Revenue in the Department of Public Works.

The Board are in possession of the Civil Engineer's report regarding the enlargement of the Shollinghoor channel, and of my letter of the 4th March last, describing the scarcity of water in the Villages of Linguimpurroo Inoatah, in the whole of the Bickanole Talook, and in part of Valagoondah. The Ryots means of meeting the Current demands being greatly crippled, I instituted a personal enquiry during the settlement and having previously obtained accounts through Huzzoor and Esatra Servants deputed to ascertain the real state of the cultivation, I arranged that of the balance outstanding Rupees 19558-10-11 should be realized if possible during the next fusly, this sum being due from very poor ryots.

The remaining balance of Rupees 2560-11-7 will it is hoped be collected in the Months of November. The above said sum of Rupees 19558-10-11 will be realized as far as may be practicable from the produce of fusly 1256. A.D. 1846/47 The ryots would be ruined if their property were to be sold now to satisfy the Government demands. The proportion of the balance thus held is under

15000 Fort St. George 23d November 1846

under obligance in the rented Villages amounts to Rupees 13-7-6 per Cent upon the demand.

33 The Gross abstract shows the state of the arrears of former fusles. Some Villages in the Peddapoor Estate having the benefit of the water of the Yalairoo River had good Crops. The price of Grain also being high the sum of Rupees 10517-3-4 was realized on account of arrears. The remainder Viz. Rupees 28376-13-3 is irrecoverable, as the balance is due by the very poor ryots and upon Villages whose produce was quite insufficient to meet the Current demands.

34 Of the advance of Rupees 4968-4-u on account of Tuccavy Rupees 4944-6-6 have been recovered within the fusly leaving the present balance of Rupees 23-13-6 which will be realized by the end of November.

Proceedings thereon 1. The Annexed Statement exhibits the increase and decrease in the Demands from the Extra Sources as compared with the previously Fusly

Relative to the settlement of the Extra Sources of Revenue in the District of Bellary for Fusly 1255 & 1845-46.

Sayer 2 The deficiency under the Head of Sayer has been occasioned almost Entirely by the abolition under the orders of Government of the Mysore Frontier Chowkies and may therefore be viewed as resulting from Circumstances over which the Collector could have no Control.

Alkarry 3. In the Alkary Revenue there is an improvement of Rupees 19485- arising from the animated competition among the Renters.

4 The Small Farms have yielded an increase of Rupees 681-2- over the previous Fusly in consequence of some of the plantations and fruit trees having arrived at maturity- out of which sum Rupees 182 form the increase which accrued upon Topes planted and maintained till Maturity at the expense of Government.—

Moturpha 5 It is observed that the increase in the Moturpha duty of 1299 Rs.

Fort St. George 23d. November 1846.

is satisfactory as an evidence of improvement in the Village trades and Manufactures.

Stamps. 6 The same causes have operated in this as in other Districts to lessen the revenue derived from Stamps, Vizt. the recent prohibition against the Zillah Courts receiving Contain suits cognizable before the District Moonsiffs without the use of Stamps and the substitution of unstamped for Stamped Remanals in the Sayer Department.

Charges. 7 The Charges incurred for the Collection of the Extra Revenue do not seem to demand any remarks.

8 It appears that the Gross Receipts from all the sources of Extra Revenue, including those from the realization of arrears and Extra Collections during the Fusly under review amount to Rupees 599170-15-9 while the Charges come to Rupees 34197-15-4 leaving a net outturn of Rupees 565723-0-5 being less by 7th 199-11-11 than that of the Preceding Fusly.

The

Fort St. George 23d. November 1846.

9 The Board beg to support the application made by the Collector that he may be allowed to write off in the accounts the irrecoverable portion (amounting to Rupees 128-9-9) of the Moturpha arrears for Fusly 1254 and they request him to use his best Endeavours to realize without delay the balances outstanding at the close of September on account of Small Farms and Moturpha.

Ordered that a Copy of the foregoing Extract from the Boards Proceedings with the annexed Comparative Statement of the Collections charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Bellary for his information and guidance.

From A. Mellor Esqre
Collr & Magistrate of
Bellary - - -

During the late disturbances and outrages committed by the Rebel Nursima Reddy and his followers on the Cuddapah Frontier of this District I had occasion to indent on Emergency on the arsenal of Bellary for the Fire arms Flints Ammunitions &a specified in the accompanying Indents and the same were accordingly issued to me on my responsibility by order of the Brigadier Commanding Bellary. It was especially understood that on my return from Geety where I had proceeded on duty I shall procure the necessary sanction of Government for the supply.

+ Passed and returned.

2 Under these Circumstances, and as the Military Board require these Indents to be forwarded in Duplicate through the Revenue Board agreeably to the orders of Government published in the Fort St. George Gazette of 1841 at Page 156 I have the honor to request that the

+ 1st June 1841

From the Collector
of Ganjam

I have now the honor to submit
to the Board of Revenue a Statement shewing the
Land Revenue of the Ganjam District during the
last thirty years, prepared according to the Form
received with your Circular Letter dated 17th August,
and with reference to the instructions contained
in the Minutes of Consultation of Government
under date the 9th Ultimo.-

Forwards a Statement shewing the Land Revenue of the Ganjam District during the last thirty years prepared according to the form received with the Circular letter dated the 17th August 1846.

Adverting to the form of this
Statement, and the terms made use of in your
letter transmitting it, I am led to suppose that
it may have been designed to apply to Districts
in which a money Assessment has been fixed
upon the fields, whereas in Ganjam no such
fixed Assessment has been introduced - about
two thirds of the revenue being derived from
Hill Zemindars, who pay a fixed an-
-nual Peshcush, or tribute, and the re-
-maining portion from Government
Lands, of which the settlement is made
annually in more or less detail. The
results to be obtained by blending together
these incongruous Elements, and deducing
there-

therefrom a suppositious grain rent calculated with reference to the average price of one description of Grain for the entire District and for the whole year, I respectfully submit must be of doubtful value even for the sake of Comparison. The Annual Collections actually realized for a long series of years, form however a more safe index of the state of the Revenue of a District.

3. The fluctuations that appear in the Amount of the annual Land Revenue of Ganjam during the last thirty years, besides being attributable to ordinary causes periodically recurring failure of rains and consequently diminished harvests and variation in the prices of produce arising as well from external, as from the internal circumstances of the District affecting the Market are referrible in some instances to the rebellious and disturbances that have repeatedly prevailed in the principal Zemindaries and to the consequent forfeiture and annexation to the Government lands of some of these possessions. On the whole however the Gross revenue of the Ganjam District has been in a remarkable degree stationary throughout the whole period. Looking to the average of successive quinquennial periods commencing from Fusly 1226 as exhibited in the margin it

Average Collections.

From Fusly	1226 to 1230	8,51,522-3--
Ditto	Ditto 1231 to 1235	8,55,203-13-3
Ditto	Ditto 1236 to 1240	8,25,261-10-3
Ditto	Ditto 1241 to 1245	8,47,718-5-9
Ditto	Ditto 1246 to 1250	8,62,828-3-3
Ditto	Ditto 1251 to 1255	8,64,729-8--
For the 30 years		8,51,210-9-11

it will be observed that there is not a variation of Rupees 26,000 — or 3 — 10½ per cent in the Amount of the average revenue of any of these quinquennial periods compared with the average of the whole thirty years. With these observations I beg to submit the statement to the Board, any detailed explanation of the causes of the variations arising from time to time in the Land Revenue, could scarcely be made intelligible in reference to the documents in its present shape.

From the Collr. of Vizagapatam } Para 1. Sir,

In compliance with the requisition conveyed in your letter of the 17th August last I have the honor to forwards a Statement shewing the annual revenue drawn from land in this District during the last thirty years.

Forwards a Statement shewing the annual Revenue drawn from Land in this District during the last Thirty years.

2. The District for the first half of this period was wholly under the permanent Settlement, the revenues therefore show little or no fluctuation. During the last ten years some large Zemindaries and Estates have been confiscated which yield like Golgondah and Palcondah double the Peishcush and some proprietary lands have been acquired in various ways which do not pay the permanent Settlement.

3. But on the whole the revenues have been sustained even under greatly diminished prices of produce. It is not possible that as this District is situated they could have been greatly enhanced.

4. I am of opinion that the assessment on the land here is such as it can bear.

2. The Estate has been under the management of the Collector for the last ten years (or from fasly 1244 A.D. 1834-35 to 1253 1843-44) from the accounts of which the present value is formed. The accounts were prepared in the Office according

Fort St. George 26th November 1846.

according to the prescribed forms and abstract furnished to the parties concerned who have given their assent to the apportionment of the Permanent assessment as therein proposed.-

3. On comparing the original and present value of the Villages in the respective Subdivisions on the averages of the two periods Viz^t. from 1212 to 1218 Fas. A.D. 1802-3 - A.D. 1808-9 and from 1244 to 1253 Fasly A.D. 1834-35 - A.D. 1843-44 there appears a decrease in the Villages of Edookapilly and Veeragavaporem the lands of which are low and being entirely dependent on the Gowtamy Channel from the Yalairoo river were sometimes deprived of their supplies of water owing to the failure of the rains and the consequent lowness of that river. From this cause the ryots also have become impoverished and the average Collections

Collections have fallen short. The decrease in the Villages of Colunkah and Chendooroo, was also attributable to the unfavorableness of the seasons in some years and to the poverty of the Ryots by the failure of Crops and the low price of Grain- The several increases and decreases which appear in the other Villages require no particular Remark.

Proceedings thereon,

Requesting the Collector of Rajahmundry to furnish certain information regarding the accounts submitted by him of the Subdivision of the Gollaprole Estate.

The values of the two Subdivisions of the Gollaprole Zemindary in reference to which the assessments now proposed for sanction have been calculated, are stated by the Collector to have been ascertained from the accounts of the Estate for the ten years (Fusly 1244-53.) that it has been under Sir. cat Management. On comparing however the net Settlements, i.e. after deduction of allowances and Village charges, of the years 1244 to 1250, both inclusive, as shewn in Statement No. 2 forwarded by the Collector with the settlements of the Estate, as exhibited in the accounts furnished annually to the Board, of the Minor Zemindary of Pettapore, of which Gollaprole is a subdivision the result is as follows—

The increase of settlement in the Accounts now furnished above that shewn in the Accounts of the Pittapore Zemindary has the Board presume occurred in the rented Villages the amount of the rent at which those villages were leased by Government being alone shown in the latter Accounts whereas the settlements in the Accounts now rendered exhibit the amount of the engagements concluded by the Renters with their subtenants – It should be explained whether this supposition be well founded and if so in what manner the Accounts of the Settlement of the rented Villages is have been obtained from the Renters or from the Curnums and in either case what means were taken to test their correctness –

2. The total amount of remissions & Village Charges for the entire Collapsole Estate for fusly 1249 is given in Statement No. 2 at Rs. 1710-8-11 whereas

whereas it seems from the Pittapore Accounts already referred to, that a remission to the extent of Rupees 3561-15-6 was granted in that Fusly in consequence of the loss sustained in Gollaprole from the storm - That Sum has not been accounted for in the Statements now before the Board. It should be explained whether it is included in the Settlement Columns 49 Statement 2 in the Collections Column 50 or in the balance Column 51-3- Columns 50 Statement 2. and the corresponding Columns in Statements 3 and 4 pursuant to exhibit the Collections paid to the Sircar "The Board beg that it may be explained whether the full sums entered in these Columns were actually collected on behalf of Government in the Veesabuddy Villages from the Ryots, in the rented Villages from the Renters. or whether these sums include as regards the latter class of Villages, not the amount paid to the Sircar

Sircar by the Renters but the amount realized by those parties from the Ryots If these Columns shew the Amount bonafide paid to Government it is requested that the actual Collections made in the rented Villages by the Renters may if possible, be ascertained and added to the Collections made by the Sircar in the Veesabuddy, and that it may be shewn what would be the assessment on each subdivision calculated upon the Collections thus obtained and to what extent it would vary from the Assessment now proposed for sanction.

forwarding a set of rules which have been drawn up with a view to encourage the plantation of trees and topes in the Provinces under the Madras Presidency and requesting my opinion as to how far they may be suited to the circumstances of the District and what alteration I would suggest to be made in them I have the honor to state that having endavoured to obtain the the sentiments of the community on the subject in question the Replies & that I have received lead to the con=clusion that there are few Estates in which good soil and sites suited for for planting Topes are situated and that there are few individuals either able or willing to aid in forming plantation.

2. I beg to refer the Board to my letter dated 17th February 1843 in reply to the late Secretary's letter under date the 2d January of that year in which I have more particularly illustrated my opinion as Regards planting trees and Topes.

3. The Provisions of the rules forwarded with your letter under reply appear to be well=suited to

suited for the purpose intended with the exception that I would suggest the extension of the 2d rule to the Topes planted for Public convenience in lands usually under cultivation in cases where there may be no waste in the immediate vicinity of the Choultries or other Public buildings for the support of which the proceeds derivable from the produce of the Tope when it has reached maturity are intended to be appropriated I would also leave to the parties by whom topes may be formed or their repre=sentatives the management of the said proceeds subject of course to the interfe=rence of the Government authorities in the event of their being misappropriated and the Choultries &c being allowed to fall to ruin.

From the Collr of Salem

Regarding the observations of the Board about the Decree passed by the Subordinate Court in O.S. No. 74 of 1844.

In reply to your letter of the 15th Ultimo relating to the Decree passed by the Subordinate Court in O.S. 74 of 1844 I have the honor to inform you that from a reference made to the Court it appears that the Decree in question was signed and Sealed under Act XXXV of 1837 on the 27th August last, and Copy was applied for by the Government Vakeel on the following day, and was furnished to him on the 2nd September. It was not however received in my Office till the 12th, and the Copy was not prepared till the 17th when it was forwarded to the Board. however, as I am informed by the Subordinate Court that an appeal has been preferred against the Decree by the Plaintiffs Mootoosawmy Gounden and others, it cannot for

for the present be carried into execution, though I have not as yet received a Copy of the Appeal Petition from the Civil Court, so conclude it is not decided whether it can be admitted-

The Subordinate Judge informs me, that the intention of the Decree, as to the Costs incurred by the 1st Defendant, has been correctly interpreted by the Board- "It being assumed that parties defray their own costs unless the Decree contains an express provision to the contrary"-

The documents referred to in the 4th Para: of your letter, were furnished by my Predecessor to the Plaintiffs after the receipt of the Extract Board's Proceedings dated 25th November 1844 in reply to his letter of the 16th of the same Month-

From the Prin.l Coll.r of Madura } 1- In reply to the Board's Proceedings of the 6th recevied on the 14th July, calling for further information on the appeal of Alagarasa Iyen, Zillahdar of Thenkurray, from my decision against him, under Regula=tion IX of 1822 I have the honor to submit that the persons designated, in paras 3 and 4 of their proceedings, as 1st and 2d Witnesses, are the 1st and 2nd Complainants-

Affording additional information required by Board's Pro= of 6th July re= =garding a de= =cision under Regulation IX of 1822 against the Zillahdar of Thenkurray and returning all the Proceedings.

Paras 3 & 4-

2- Agreeably to their wishes the Nattamagar of the Village, examined as a Witness originally, has not only been reexamined, now but also, the two persons shewn in the Margin, whose names appear in the Depositions of the 1st and 2nd Complainants, and also the Curnom; and all, but the Nattamgar, deny any knowledge of the transaction- The examination of the Curnum was not originally considered necessary, because neither of the parties cited him, and because the

1 Mayandy Thaven
2 Luckamally taken-

the charge of corruption was established to my satisfaction against the Zilladar, by the evidence of 4 other Witnesses- Two witnesses were also examined for the defence, but their evidence did not shake my confidence in the proof-

3- From the whole Proceedings it ap= =pears to me that on the report of the ryots, to the Tassildar, that Crops on 84 11/16 Cawnies of land, taxed at Rupees 401-1-7- had perished, he deputed the Zilladar to inspect it, who finding no stubble, concluded the crops must have been previously gathered, and objected to its being entered as "Shavee" in the Accounts, but that by some means they prevailed with him to make a false report as tho' the stubble of perished Crops of 56 3/15 Cawnies had been destroyed by Cattle, whilst the stubble of 5 13/15 had been Cut, and that 22 9/15 Cawnies had been only ploughed for Cultivation-

4- It appears further that the whole body of ryots united to bribe the Zillahdar to make the false report; but on being disap= =pointed from subsequent inclusion of those lands in the settlement,

under

under the restrictions of the Board, of the 6th March 1845, they sought recovery of the bribe from the Zilladar, and on his refusal of it, came forward with their complaints against him. The pretended ignorance of the transaction on the part of the Curnom, and two others, seems attributable to some compromise between them, and had it not been from some distrust of betrayal, on the part of the Zilladar, he would doubtless have named them as Witnesses, in the same manner as the two others in the Original investigation - I am of opinion the Zilladar did receive the bribe from the ryots, in full expectation the tax, on the pretended perished Crops, not present for examination, would be remitted, and that the want of success induced the ryots to come forward with the charge of corruption.

Para 5. 5. Called upon to account for his neglect to bring to notice, a dishonest transaction, of which he was fully cognizant, this very same Natangar answered that

it was because no remission had been finally granted to prejudice of the interests of the Government, and because the ryots performed his duties themselves, an excuse which I look upon as inadmissible: but taking into consideration his great ignorance, like very many others of his class, and that his annual emoluments average only Rupees 11-12-0- no punishment was awarded to him-

2. After a careful perusal and

and consideration of the evidence the Board resolve to confirm the sentence, but at the same time they remark that the Principal Collector should in the first instance have instituted a closer investigation than he seems to have done, and that he should have examined all the persons who were represented as able to give Material evidence in the matter, recording distinctly whether or not a false report was made by the appellant of the state of the fields in question.-

3. The Principal Collector will be pleased to report whether any portion of the fine was given to the ryots who bribed the appellant.

of Consultation, of the 24th Ultimo, depriving the Ranee Saithooputty of Ramnad of any power over her invested property, to amount of 6¾ lacs of Rupees.

I have the honor to communicate my apprehensions that the first instalment of the Peshcush, which falls due on the 15th proximo, cannot be paid without obtaining money from Merchants at usurious interest whilst the bonds are only yielding 4 per Cent, and as the Estate must unnecessarily deteriorate under such depressing circumstances, I take the liberty to suggest I should be empowered to sequestrate, if any fraction of an instalment be due one Month after demandable to extent sufficient to cover the balance.-

2. I have not failed to communicate this desire to the Ranee Saithooputty, and I trust the Board will not deem my suggestions premature, when they consider that my proposition for the police of this same Zemindary has been under consideration since the 15th of May last.-

3. I take this opportunity to mention that the Civil Court has declined

declined becoming depository of the Bonds in question and that Shave accordingly requested the Sudr Court to take that responsibility on themselves, which I presume will be complied with on the strength of the Minutes of Consultation above alluded to-

Proceedings thereon-

(26-27)

The Board of Revenue consider that it would be premature at present, to pass any orders on the subject noticed in Para 4 of the above letter- In the event of any Kist for the Ramnad Zemindary not being punctually discharged on the day when it may become due; the Principal Collector should report the default to the Board and state the amount of the balance, when instructions will be sent for his guidance-

The establishment proposed by the Principal Collector for the Police Management of the Estate was submitted by the Board to Government, for their sanction, on the 20th August last: The delay which has occurred is probably caused

caused by the necessity of a reference to the Supreme Government-

The Principal Collector will inform the Board of the decision of the Court of Sudr Adalut in respect to the Custody of the Bonds belonging to the Ramnad estate, as soon as it shall have been made known to him-

Ordered that the foregoing letters be submitted with the following address-

To,

The Chief Secretary to

Government.

Sir,

With reference to Extract Minutes Consultation, 29th July 1846, Sam directed by the Board of Revenue to forward for the orders of the Most Noble the Governor in Council, the accompanying letter from the Principal Collector of Coimbatore, reporting the withdrawal of his Custom Houses on the Cochin frontier, and requesting to be informed, whether the duty of 10 per Cent, ad valorem, levied for the last two years, on Tobacco consigned to the Cochin Sircar, is also to be given up, or whether, as on a former occasion, it is to be added to the fixed price at which Tobacco is supplied from Coimbatore, for the use of that State; I have also to submit a second letter from

30-31

To the Chief Secy. to Government-

Submitting a letter from the Pal. Coll. of Coimbatore reporting the withdrawal of his Custom Houses on the Cochin frontier and recommending that the duty of 10 per Cent ad valorem levied for the last two years on Tobacco consigned to the Cochin & Travancore Sircars be added to the fixed price at which Tobacco is supplied from Coimbatore for the use of those States-

from the same Officer, of the 3d. Instant, in reply to a reference made to him by the Board, for further information on the subject-

2- From the letter from this Office to Government, 20th June 1844, it will be seen, that a duty of Rupees 29-6-4 3/10 in addition to the fixed price of Rupees 37-3 per Candy, was levied from the year 1810 to 1844, on all Tobacco furnished from Coimbatore to the Cochin and Travancore Governments- This duty, tho' carried to account as Sayer, was in fact a Monopoly duty- When the abolition of the inland Customs rendered it improper longer to collect this duty, in the shape of Sayer, it was decided by Government, at the recommendation of the Board, that such portion of it as should be equivalent to the 10 per Cent ad valorem export duty, leviable under Schedule B Act VI 1844, should be charged as Frontier duty, and that the remainder should be added to the fixed price of the Tobacco- The 10 per Cent duty, charged under this arrangement, tho' carried to account

10th in Cons. 15th Augt. 1846-

as

as Frontier duty, has not been collected on the Frontier, but entered in the Invoices furnished to the Resident of Travancore and Cochin, and paid by him with the other charges of the Tobacco, into the Malabar Treasury- The removal of the Custom Houses on the Cochin Frontier, thro which the Tobacco supplied both to Travancore and Cochin formerly passed, renders it inconsistent longer to charge this 10 per Cent as Frontier export duty on either consignment, but the Board see no reason why it should not, on the same principle as the remainder of the entire duty of which it once formed a part be added to the fixed price of the Tobacco supplied to both States, and they would recommend that this should be done accordingly- The object contemplated in the removal of the Custom Houses between Coimbatore and Cochin, was to encourage and facilitate commercial

intercourse

intercourse between the territories of His Highness the Rajah, and those of the Company- It is not necessary that the reduction of the price of the Tobacco supplied to the Cochin and Travancore Sircars, and retailed by them at a large profit to their subjects, should form any part of the arrangement- It will be seen by the Statement transmitted in the Principal Collector's letter of 3d November, that the duty now referred to, amounted on an average of the last two Fuslies, to Rupees 6,658.-

3- In Para 8 of his letter of 7th September, the Principal Collector states that "as the duty on Tobacco to be furnished to the Travancore state is still leviable," and as his Land revenue Establishment is weak, he has not dispensed with the Services of the two Sayer Gomastas borne in his Hoozzoor list- As the Tobacco supplied to Travancore, as well as to Cochin, formerly passed thro the Cochin frontier Custom Houses, and those Custom

Houses

15125 1846 Fort St. George 26th November 1846.

Houses have now been removed, the charge of export duty, as such, on the Travancore consignment is open to the same objection as a similar charge on the Tobacco furnished to Cochin and the same course must be pursued in both cases. The Sayer Gomastahs referred to by the Principal Collector should therefore be discontinued and if any addition be required to his Establishment, in other Departments of his Office, application should be made for it in the usual manner.

To T. Pycroft Esqr.
Secretary to the
Board of Revenue

Sir, Fort St. George

From the Princl. Collr. of Coimbatore forwards a Statement exhibiting the Revenue derived from land for the last 30 years or from 1815 to 1845 prepared in the form annexed to the Board's Circular dated 17th August 1846 and asks for the information therein called for.

Vide Mr. Cullen's Report dated 5th October 1846 Para 4 page 22

Para 1. I have the honor to forward a Statement exhibiting the revenue derived from land for the last 30 years or from 1815 to 1845 prepared in the form annexed to your Circular dated the 17th August last.

2. The column 4th 7 is left unfilled as it appears to me that it is intended for the insertion of the grain rent of the Aumanie Districts which system does not obtain here.

3. The fluctuation in the revenues of the several years is attributable merely to the variations of season — the depredations of wild animals on the Talooks situated in the vicinity of Hills and Jungles also form a reason for the grant of remission in some years, and these causes are noted under the column of remarks.

4. With reference to the requisition that I should state my opinion

as

as to whether the assessment on the land in this District is with reference to the price of grain and the quality of the soil, fair and equitable to the Ryot, and such as the land under ordinary culture can well bear. I consider myself supported in saying that such is the case in average years. In the early part of the Company's administration the lands in the District were surveyed, and a system of field assessment was introduced, but the data upon which it was formed — are not to be found on the records of this office. Permanent reductions have subsequently and periodically been made in the assessment in cases in which it was found to be excessive and although some inequalities undoubtedly still exist in the demand on lands in the vicinity of Hills and Jungles and in other feverish localities — on the whole, I am induced to believe that the Survey assessment is fair and equitable in the ordinary run of years, and which is tested by the absence of complaints on the part of the Ryots in favorable years, and especially by the gradual increase of the land revenue since July 1850 1840 fasl. and after the experience of the last Six

years.

years. I can detect only one thing wanting Viz. freedom of cultivation — as existing in every other District under the Madras Territories, but this is a question which has been frequently mooted and still remains one for a very deep consideration.

2. Respecting Salt Rooms, I am required to state, whether the Government are in any way pledged to their renewal in perpetuity. So far as respects Appala Charloo No. 7 in the list, the Government have already directed that his allowance be continued during his life only. and this decision appears strictly in accordance with the intention of Government in the letter of 11th April 1806. There remained only two other Rooms under No. 19 and 21 in Mr. Smith's List dated 16th December 1805 and I consider that there is no ground for applying a different principle to their case. regularly paid should be continued. I do not conceive however that this opinion implies a pledge to continue in perpetuity, these gratuities to Mohammedans and Hindoo places of worship for many of which, it is observed, that no sunnuds were produced in 1805 and some of them originated under the Company's administration.

3. The nature of the duties of the Hatchookhana, for which item No. 71 was granted, appear to be the same as those of Nos. 68, 69 and 70 which the Government have decided should be discontinued on the death of the present incumbents. After the late Rajah Shaw became a lunatic, the Hatchookhana is said to have been taken care of by his father-in-law Mahomed Selimun and Mother-in-law and these persons now claim the renewal of the Jeermah. I am of opinion, however, that it should not be renewed. The Mahomed Selimun is old and infirm, he has a son in the receipt of a Monthly salary of 5 Rupees as a peon and the care of the building might properly be left to the Mahommedans, who are interested in it.

To the Chief Secy. to Govt. Stating with reference to Para 2 of Extract Minutes of Consultation 10th Augt 1846 that

To The Chief Secretary to Government.

Sir,

With reference to Para 2 of Extract of Minutes of Consultation under date 10th August 1846 I am directed to state for the information of the Most Noble the Governor in Council that after

That the Board see no reason to conclude that the Government in any way directly pledged themselves to renew in perpetuity the payment of Salt Allowances and allowances to individuals and that they are of opinion that in most cases they might cease on the death of the present incumbents.

after a careful perusal of the Records relating to the subject, the Board of Revenue have found no reason to conclude that the Government is in any way directly pledged to renew in perpetuity the payment of Salt Allowances and allowances to individuals, and that they are of opinion that in most cases they might cease on the deaths of the present incumbents. In some instances, as where the family of the incumbents is found to be in such indigent circumstances as to be dependant solely on the allowance for subsistence, or where the claim to renewal may rest on peculiar grounds, or be supported by sufficient vouchers, it may seem proper to prolong the indulgence.

2. The allowances paid from the Salt Department to Charities and Pagodas, would seem from their nature to be of a more permanent character, it will be for the consideration of Government whether they should not be continued as long as the institutions to which they have been hitherto devoted are duly kept up It does not appear that any guarantee has been given for the permanency of the payment of compensation for the presumed previlege of manufacturing Salt except-

in

desirable for the welfare of the District, that the work should be resumed on proper principles at an early date.

2. In reply the Board instructed me to state, that the report upon Surveys to which the Government have alluded, was under the consideration of this Office, as constituted in 1844, but that its further progress was arrested by the almost simultaneous breaking up of that Board at the close of the year, and the dispersion of all its Members by illness, or by the calls of duty. This circumstance was mentioned in the Proceedings of the present Board of October 1845, but the subject was subsequently more fully explained by the 3d. Member on deputation, the only remaining Member of the Board of 1844, in his report on the Guntoor Survey. In Para 37 of that paper Mr. Elliot stated that "the late Board of Revenue, in forwarding a "review of the Survey of Chinglepat Distinct "made known their intention of addressing "Government again on certain changes & "and improvements in the conduct of such "undertakings, calculated to ensure a greater "degree of success in future. The Members were

To Govt. 18th Dec. 1845

"were occupied for several weeks in the examination of former reports and of other "information contained in very voluminous "papers, and had completed the draft of "the communication to be submitted, when "they were unexpectedly dispersed by disease "and the calls of duty and the Office was "newly constituted. Under these circumstances "the labors of the late Board necessarily "fell to the ground, after they had been "prosecuted, with much labour and "research, almost to a conclusion."

Having thus shewn the circumstances under which the deliberations of the Board of 1844, on the Survey question were brought to a close, the Commissioner then proceeded in the following paras of his report to explain the views of himself and his late Colleagues on the leading principles and more important points connected with that question. In their Proceedings of 26th March 1846, the present Board recorded their opinion upon this, as upon the other parts of Mr. Elliot's report.

4. This report and the Board's Proceedings are now before Government, and the Board are not aware that in

in the present stage of the question, it is in their power to afford any further information, than is contained in those papers. When the pleasure of Government shall be known upon the main principles, and more prominent points discussed by the Board, and the Commissioners, the carrying out of that system which may be eventually determined on, and its adaptation to the circumstances of the different Districts into which Surveys have been ordered to be introduced, may be taken into consideration.

5. With respect to the Ganjam Survey, the Board beg to submit that that work, with all other similar operations in other Districts, is for the present in abeyance, until the system to be followed out in Ganjam, by which as the Board understand all other Surveys are to be regulated, shall have been decided on.

Sanctioning the purchase on account of Government of the Cottah Zemindary in the District of Rajahmundry and a monthly allowance of 400 Rupees to its late proprietor Juggannadarauze.

Para. 1. The Governor in Council sanctions the Proceedings of the Collector of Rajahmundry with regard to the sale for arrears of Peishcush and purchase for 80,000 Rupees on account of Government of the Cottah Zemindary. The Balance of Rupees 18,175 14-2 remaining outstanding against the Estate after deducting the Amount of purchase in Money now realized is to form the subject of a separate report.

2. At the recommendation of the Commissioners Government in March 1845 sanctioned an allowance to the Zemindar of 100 Rupees per Mensem which together with the produce of Garden and Saivy lands then in his enjoyment, It was expected would be sufficient for the present decent maintenance of the Family - This allowance which was made payable from the produce of the Estate has now ceased and it appears from

from the report of the Acting Collector that subsequent to the Commissioners enquiry Juggannadarauze has been stripped by his creditors of all benefit and interest in his garden and Saivy Lands. He is therefore now wholly dependant for subsistence on the bounty of Government. Under these circumstances and in accordance with the recommendation of the Board of Revenue. The Governor in Council is pleased to sanction, subject to the confirmation of the Government of India a Monthly allowance of Rupees [400] four hundred to Juggannadarauze to commence from the date of sale of his Estate and to be paid from the Treasury of the Collector of Rajahmundry but it is to be clearly understood that this provision is not to be hereditary but open for reconsideration on the decease of the grantee and cannot be mortgaged or alienated.

3. The Governor in Council desires to be informed whether this purchase on account of Government includes the Saivy and garden lands above referred to as it is observed that the resumption of certain Saivy lands of the Zemindar is reported by the Collector of Rajahmundry in his letter

From the Collr of Nellore
Submitting Explanation to the objections which have occurred to the Board against the

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 12th Instant

the change of Villages recommended in his letter of 10th July last.

In first calling my attention to objections which have occurred to the Board against the change of Villages recommended in my letter of the 10th July. In the first place I should apologize for not having been more particular in my representation of the exchange being effected "without any inconvenience," as the very point brought forward in objection had attracted my attention, but on enquiry they appeared not to be of sufficient consequence to throw any impediment in the way of future management. The first point noticed by the Board is that the different modes of settlement in the Villages of one Talloor would be likely to produce inconvenience when brought into juxtaposition. At the first glance it would seem very probable that confusion should arise from such a mixture, but in several of the Talloors as they are now arranged, Villages under different systems exist and there is not the smallest inconvenience experienced thereby. In the Nellore Talloor there are 34 Mucta's 5 Travers Turrum. and 13 under Mr. Smalley's Survey. In Talamunchee 32 Mucta's 11 Travers Turrum. and 1 Survey, the large Village of Alloor.

2. As regards the difficulty which it is considered would attend the extraction of the old

old accounts in the several Talloors whilst drawing future comparisons I beg to observe that most of the accounts belonging to the different Villages are kept separately, though there may be some general Statements in which all the Villages are put together. In the former case the accounts belonging to the respective Villages can be furnished to the Talloors to which they may be transferred, and in the latter such parts of the general Statements as relate to the particular Villages and as may be considered essentially necessary can be easily extracted and accompany the transfer.

3. The Board having admitted that the arrangement proposed is "deserving of consideration will I trust be satisfied with the explanation offered on the points of objection raised, and sanction the carrying out of the proposed interchange of Villages in the several Talloors alluded to in my former letter.

Submitting correspondence with

with the Collr of Nellore on the subject of the proposed interchange of some Villages in certain Talooks of his District & recommending that the measure may be carried out & that the Salaries of the Woodiagherry & Sungum Tahsildarships may be henceforth fixed at 80 & 100 Rs per Mensem respectively

of the Most Noble the Governor in Council —

From Coll[r] of Nellore 10th July in Cons 12th Oct[r] 1846 — Proceedings 12th Oct[r] —

From Coll[r] of Nellore. 27th Oct[r] in Cons 30th Nov[r]

the accompanying Correspondence, which has passed between this Office and the Collecton of Nellore, on the subject of the proposed interchange of some Villages in certain Talooks of his District —

2. From this it will be seen, that the Villages of the Woodiagherry and Calagherry Talooks, are very inconveniently intermixed, both with each other, and with the Villages of the neighbouring Talooks of Sungum and Vaccoor, and that the revenue and Police management of the Talooks is consequently conducted at much disadvantage. With a view to render these Talooks more compact and more easy of supervision, the Collecton, in his letter of 10th July last, proposed certain arrangements for the interchange of the Villages belonging to them, of which the details are given in the Statements Nos 1 & 2 submitted with his letter — the first of which shews the several Villages to be transferred, their distance from the Cutcherry of the Talook to which they are now attached, and from that of the Talooks to which they are proposed to be annexed, and the second exhibits the

the effect of the transfer upon the extent and revenue of each Talooke which will be affected by it — The Collr at the same time recommended that, as the result of the plan would be to reduce the annual revenue of the Woodiagherry Talooke by more than 2,000 Rupees, and to increase that of Sirgum by upwards of Rupees 10,000, leaving them at about Rupees 6,000 and 9,000 Rupees respectively, the salaries attached to the Tahsildarships of those Talookes should also be exchanged, the pay of the Woodiagherry Tasildar being fixed at 80 Rupees per Mensem instead of 100 and that of the Sirgam Tahsildar raised from Rupees 80 to 100 —

3. The arrangements proposed by the Collecton seemed to the Board to be judicious, but before submitting them for the sanction of Govt it appeared necessary to make a further reference to that Officer, with a view to ascertain whether the suggested transfer could be made without any inconvenience, as regarded the revenue settlement of the transferred Villages, and the keeping of their accounts. The explanation afforded by Mr Bishop in his letter of the 27th Ultimo, on these points, seems quite satisfactory, and the Board beg therefore to forward the Correspondence

for

15165 Fort St. George 30th November 1846

for the Orders of Government, and to recommend that the interchange of Villages, which he has advised, may be carried out; that the salaries of the Woodiaghurry and Sungum Tahsildarships may, as suggested by him, be hereafter fixed at 80 and 100 Rupees per Mensem respectively.

Sir,

22

From the Ag Collector of Chingleput - - - Transmitting a statement of Land Revenue of the Chingleput District from 1815 to 1845 with explanation of the causes by which it has been affected. Enclosure 22

Para 1 In Conformity with your Circular letter of the 17th August last I have the honor to transmit a Statement shewing the annual Land Revenue of this District for the last 30 years or from 1815 to 1845 with explanation of the causes by which it has been affected.

2 As the Land Revenue has been collected under different systems and is still so to some extent, it has not been in my power to prepare the Statement in strict accordance with the forms which accompanied your letter, nor have I been able to shew the grain rent attained by Commuting the Revenue received in specie into grain at the price of the year except for that portion of the District and that period of time in which the Peyatwaree or field assessment has prevailed but as the greater part of this District is now assessed on that system and the information called for applies I believe almost exclusively to it I trust that the Statement which I am able to

Fort St. George 30th November 1846

have extended more rapidly and widely if a lower standard of assessment had been taken, though on this last point an opinion could be expressed with more confidence if the assessment had been formally proclaimed as the maximum demand, and been longer in operation.

7 The Statement now submitted shews (column 16) that though prices have varied much in particular years the general average approaches nearly to the rate fixed on in framing the assessment, and an inference may thence be drawn that the fluctuations have not been unfavorable to the Ryots the losses of one year being compensated by the gains of another. It is therefore proper to observe that in this statement the rate of produce per Cawney has been taken at the full average rate in each year but experience has shewn that in consequence of the markets not being dependent on the state of agriculture within the District alone prices have been to much depressed in cheap years for the loss to be counterbalanced by any excess of produce while in bad seasons the highness of price has not been more than enough to save the Ryots from the loss which would otherwise have arisen from a deficiency of produce. It may further be observed that the small portions into which the lands is divided and the necessity which most of the ryots are under of deriving their subsistence

18th Increase per Pagoda

Fort St. George 30th November 1846

subsistence and paying their assessment from the crop of the year prevents their keeping grain in store and profiting by the favorable states of the market.

8 The fluctuations of price have not therefore been equalized in their consequences to the cultivators and they have had an adverse effect in another manner which the statement now submitted would not shew without explanation. In favorable years the Ryots extend their cultivation and have thus had to pay the assessment under the depressed circumstances arising from low prices on a large extent of inferior Nunjah land which the season has not permitted to be cultivated when the markets were remunerating. Thus in fasly 1237 when prices were such as to cause the Ryots to lose 127000 Cawnies of such land were cultivated but in fasly 1238 when the markets were high the season permitted the Cultivation of 91000 Cawnies the season permitted the Cultivation of 91000 Cawnies only. The loss and gain arising from fluctuation of price would not therefore be equal in extent even if they were so in rate and the proprietors of the higher Guaranteed lands which have not Tanks and are dependent on the falling rain for being cultivated and yielding a crop are peculiarly exposed to suffer from casualties of price and season.

Under these circumstances I am led

9 to the conclusion that the less valuable description of Nunjah lands with inferior means of irrigation call for consideration in the first instance, and that although the Survey has been conducted with success and furnishes valuable data the prosperity of the district and Comfort of the people would be increased if the rate of assessment was lowered by a larger portion of the gross produce being assigned to the Cultivator.

Originally sanctioned Rupees ✕ 1302

From Board 2d. April 1810

From Do. 12th. July 1810

From Do. 20th. Sept. 1810

From Do. 6th. May 1819.

The Cavilgars were formerly required to maintain a police force & to make good all property that was stolen. But an additional police force has been maintained at the above public charge of Rupees 1260 which is paid through the Cavilgars & the practice of holding them responsible for stolen property seems to have fallen into disuse.-

It is stated by the Cavilgars that 535 Rupees is divided by them annually between 189 Cuttoobaldy Peons who hold also Enams inland. They appear to be of little or no use at present as a police, but perhaps assist the Cavilgars in providing Wood &c. for the Pagoda.-

As the Revenue has been collected by the Cavilgars there seems no means of ascertaining the exact actual proceeds and under ammanee it would probably be found to fall short of the registered Amount.-

It seems desirable that the Villages should now be taken under Circar management when the ¼ shares of the other two incumbents may be paid to them in cash and the police Establishment maintained at the charge of Government, be paid by the Shanildar.-

Petition No. 412 of 1846.

One of the above sharers named Coomara Kistnamah Naick has preferred a claim to succeed to the lapsed share, which seems to be inadmissible as he is not a near relation of the deceased. If it be considered proper that some provision should be made for the daughter (only child of the deceased Cavilgar) I would propose that a small pension be granted her for life & that the lapsed share of the Enam Villages be resumed to Government.-

Proceedings thereon.-

The Acting Collector will be so good as to state, what as far as he may be able to ascertain, is the net value or profit of the firewood contract for the Triputty Pagoda mentioned in Column 11 of the Statement. He will also explain who Ramah Naid, husband of Mungamah, is, and what are his means of support, and will state more distinctly whether in his opinion, under all the Circumstances of the case, any provision should be made for Mungamah, and if so what amount he would recommend.-

Collector of Tanjore } I have the honor to submit a Bill of expences incurred in the removal of the Treasury and Records of this Collectorate from Negapatam to Tranquebar amounting to Rupees 342—3—6 for which I request Sanction may be obtained. The smallness of the total sum will prove that economy has been exercised. The unexpected demand on the part of the French Government of 58 Rs. 9 As. 0 P. for hire of Boats &ca. in crossing the Rivers in the Karikal limits has swelled the charges. This demand tho' light I did not think it proper to object to, and as in other respects the expences have been very small I anticipate no objection to my payment of it on the part of the Board.—

From the Sub Collr in Charge of Tanjore, dg. 1st Octr. 1816, forwarding the death of Appavoo Moopan an extensive Landholder in this District and the Minority of his son and applying for the sanction of the Board to place this Estate under the Provisions of Regulation V of 1804.—

Sir,

I have the honor to report for the information of the Board of Revenue in their capacity of Court of Wards, the demise of Appavoo Moopan a very extensive Landholder in this Province lately Resident in the Talook of Papanassum which occurred on the 21st August last.—

He has left one son a child of 2 3 years old as the legal heir to his Property and Estates the landed Portion of which consists of 582 Vallies of Toruff land, comprised under the Heads noted in the Margin, and paying an annual Revenue to Government of Rs. 23590.—

3— On receiving intimation of the approaching end of Deceased, Measures were taken

taken to prevent the misappropriation of the Property and the following was thus secured.

Ready Money Rupees - - - - - 856 - 13 - 3

Jewels and household Utensils remain in the possession of the family, no authority existing for the interference of the Collector in their Domestic concerns.—

4. It appears Deceased some time previous to the birth of his son, adopted one Aya Moosun who is now intriguing with deceased's first wife Ammance in order to obtain possession of the above Property and has produced a Decree passed by the late Zillah Court by which his adoption was proved and his claim consequently at the time, to the Property admitted. This Decree which is dated 8th December 1812 awards to Aya Moosun a certain sum for his maintenance

5. Aya Moosuns' claim however under present Circumstances is altogether inadmissable and is rejected in favor of the legal heir and representative of the Deceased, his son above alluded to, born subsequent to the Date of the foregoing Decree by a second Marriage.—

The

6. The next claimant was the first wife of the Deceased Ammance whose application together with that of the second Wife Neelalachy Ammal the Mother of the Minor son were similarly disallowed.—

7. Besides the foregoing there are other claimants to share in the Estate, viz. Allamaloo widow of Deceased's step brother Tylemma widow of Deceased's cousin on the Father's side Chennacooty, Deceased's step Mother all of whose pretensions are without any valid Foundation.

8. Some delay has already occurred in reporting the present case to the Board owing to a previous reference having been made to the Civil Judge with a view of inducing him to assume charge through the Provision of Section XX Regulation V of 1804 and upon the Receipt of the Judge's Answer declining to interfere. I lose no time in forwarding the present communication to you, with a view to the security of the large amount of Revenues payable by the Estate and for the due preservation of the interest of the Minor who is exposed to attacks from various Quarters as explained as before. I am therefore induced to request

request the early orders of the Board to place the Property under the Provisions of Regulation V of 1804. as every day in the present advanced state of the season, when the early wet Crops are being harvested, gives room for Peculation &ca. on the part of his numerous Retainers, who are as yet under no acknowledged Control beyond the supervision as far as practicable of the Revenue Officers employed in those parts of the District where his property is situated.—

9 Further information with regard to the steps proposed to be pursued in the Management of the Estate I will take an early opportunity of furnishing, and in the meantime I beg to recommend that the Mother of the Minor son may be duly constituted as his Guardian.—

Proceedings thereon.

(30-31)

The Sub Collector in Charge is requested to forward to this Office as early as possible copies of the decree referred to in Para 4 and of the correspondence with the Civil Judge mentioned in Para 8. of his letter. He will also explain whether there seems any reason to question the fact of Agalloo puns adoption whether it is admitted by the family and whether generally the family are on good terms with each other.—

2 In reference to the observations contained in the concluding part of Para 8. the Board would further remark that until the question of the succession to the property be decided it is competent to the Sub Collector in Charge to take such measures as may be requisite to prevent the Crops being misappropriated altho' the Estate may not have been assumed under the management of the Court of Wards.—

To J. Pycroft Esq.re Secretary to the Board of Revenue Fort St. George.

Sir,

From J. L. Blane Esq.re Collector of Canara ——

Para 1.

Reporting on the effect produced by the increase made by Act VI of 1844 in the duty on Salt imported from the Goa territory.

By Para 4 of the Board's Proceedings of the 30th April last I was desired to bring the question of the present heavy duty imposed upon the importation of Goa salt into Canara, before them in a separate communication accompanying it with to such further information and remarks as I might consider necessary with a view to its submission to Government.

2. As a period of two years has now elapsed since the passing of Act VI of 1844 sufficient time has been given for ascertaining the working of the system, and I have obtained a return from the Collector of Belgaum of the imports of Goa Salt which have taken place within his Collectorate for the above period which I have now the honor to enclose, and which will serve to throw much light upon the subject.

No 1.

3. It will only be necessary with reference to this particular question to furnish the returns of Salt sales for that part of the District which can be affected by the import of Goa Salt, in consequence of its contiguity with that

that Territory - and for this purpose, I have drawn up two Statements, one showing the sales of Canara Salt at the depôts noted in the Margin both for Home and Inland Consumption for the past 10 years, and the other showing the Import of Goa Salt by land into the Canara District for the same period. From these it will be observed that while the import of Goa Salt into Canara has entirely ceased for the last two years, and the sales of Canara Salt for Home Consumption, by which is to be understood Consumption in the Talooks below the Ghauts has decreased from 118 Garce (in Fusly 1253/1843/44) to 97 Garee (in Fusly 1255/1845/46) the sale of Canara Salt for Inland Consumption has increased during the same period from 557 Garee to 1013 Garee.

4. As two very influential causes have been brought into operation about the same time by which the sales have been affected it is a matter of very considerable difficulty to ascribe to each the degree in which they have respectively operated in producing the changes which have taken place. I allude to the increase which had been made both in the selling price of home made Salt, and the increase in the duty on Goa Salt as well as

and the other is the improvements of the roads and Ghauts by which the communication with the Coast in this District has been so greatly facilitated. In respect to the sales of Canara Salt for Home Consumption the decrease which has taken place is not of a very large Amount, being about 20 Garee and it seems doubtful whether it is to be attributed altogether to the increase in the price imposed which may have had some effect in limiting the consumption, or partly to this cause and partly to the inducements offered thereby to smuggling of Salt from the Goa territory. In the same manner it is difficult to determine with any certainty whether the great increase which has taken place in the sale of Canara Salt for Inland Consumption is owing altogether to the improvements in the communications, or whether it may not have been occasioned in a considerable degree by the heavy duty on Goa Salt, amounting as it does to an entire prohibition, having prevented that article from passing by the most direct route into the Mysore Country, and thus driving the Mysore Merchants to our Salt stores to supply their wants.

5. One thing is certain that the direct Import of Goa Salt into Canara has entirely

entirely ceased, and a reference to the accounts now furnished by the Collector of Belgaum will at once show what has become of it.

It is curious indeed to observe how nearly the aggregate quantity imported into the Company's Country still corresponds with what it was before, although the direction which it has taken has been so entirely changed. The average quantity of Goa Salt imported into Canara for the 5 years between the years 1839/40 and 1843/44 was 426 Garces, and the quantity imported into Belgaum in the year immediately preceding the passing of Act VI of 1844 Viz^t. 1843/44 was 5,965 B. Maunds Statement No 2 or 483 Garces, making a total of 909 Garces. In the following year when the import into Canara ceased altogether that into Belgaum rose to Garces 930. which has fallen off in the past Year to 873. From this I am led to infer that the demand for Goa Salt for the supply of distant Markets has experienced no increase and that it is still consumed in nearly equal quantities in our Northern Talooks of Dhoopiah and Sondah though obtained in them by the more circuitous route of a transit in the first instance into the Belgaum District.

As

6. As far as concerns the financial results of these changes they appear to be to the benefit of the General revenue although they may have caused a slight decrease in respect to this District below what might otherwise have been shown. The entire revenue derived from Goa Salt imported by land into the Company's territory in 1843/44 was as follows.

	Rupees
On 483 Garce imported into Belgaum at 8 annas per Maund duty, or Rupees 60 per Garce	28,987.
On 426 Garce imported into Canara at 70 Rupees per Garce	29,820.
Rupees	58,807.

had the duty remained the same there would have been little difference in the aggregate revenue but having been raised in the Bombay Presidency first to 1 Rupee per Maund, which appears to have put a stop at once to its import, and then reduced again to 12 annas per Maund or 90 Rupees per Garce it produced Rupees 77,696. in 1844/45, and Rupees 73219 in 1845/46.

7. It is to be observed that the advantage in favor of Goa Salt as an Article of trade into the Inland Districts has been

been somewhat diminished by the new rates of duty established in 1844, below what it possessed before, even the Salt obtained at the Canara depôts for exclusive of the cost of Carriage, which was rather against the Goa Salt; as the prices stood thus previous to the passing of Act VI of 1844.

Retail price of Salt at the Canara depôts per Garee ——— Rupees 105

Purchase price of Goa Salt ——— 7

Duty on import into Canara ——— 70

77.

Difference in favor of Goa Salt ——— 28.

Present retail price of Canara Salt ——— 120

Purchase price of Goa Salt ——— 7.

Duty on import into Belgaum at 12 annas per Maund or per Garee } 90.

97.

Difference in favor of Goa Salt ——— 23.

On the whole therefore I am not inclined to

to think that as a financial arrangement the disadvantages attending the high rate of duty imposed upon the importation of Goa Salt has been so disadvantageous as was anticipated, but the other objections urged by Mr. Thompson in his letter of the 4th August 1844 still remain to be noticed, and appear to me deserving of much consideration. It certainly appears an invidious distinction to make the price of Salt to the inhabitants of Soopah and Sondah so much higher than it is to their immediate Neighbours under the Bombay Presidency Nor that this is done to the full extent of the difference of duty for the practical result appears to be that they do not purchase the higher priced Salt obtained from the Canara depôts, but still continue to consume the Goa Salt which they obtain from the Bombay Districts. No additional profit therefore is derived by the Government while the Consumers are saddled with the additional Cost of bringing the Goa Salt by a more circuitous route instead of obtaining it straight from Goa.

Paras 7, 8, 9.

8. The other objection referred to by Mr. Thompson is the derangement caused by this difference in the duties which takes place in

in the trade in other articles brought down by the Merchants who carry back Salt.

It will be seen by the entries in Statement B which accompanies this letter that the trade with Goa in other articles besides Salt has diminished during the past year by about Rupees 33000 but I have no means of ascertaining whether this trade has been diverted in the direction of our own ports in Canara, or has taken the direction of the bordering Talooks under the Presidency of Bombay.

Should Government consider that these disadvantages and the anomaly involved in the existence of such heavy differential duties between adjoining Districts under the Company's Government are sufficient to warrant a change being made in the present rate of duty on Goa Salt. I do not think that there would be any danger of its materially affecting the Salt revenue. It would if the duty were equalized with that levied on the Bombay frontier. Viz. 12 Annas a Candy or Rupees 90 per Garce probably bring back the trade in Goa Salt into its old directions through this District, but as it would have no advantage

above

above what it had before over the Canara Salt there seems no reason to fear that it would supervene the trade in the latter to an extent greater than prevailed before the passing of act VI of 1844.

our own Manufacture was diminished owing to the mode in which the former is now imported into the Provinces." The Government Extract In Cons. 22d June 1816. Minutes Consultation, 2d June 1816 desired that the subject in all its bearings might be brought before them with the least practicable delay and I am now directed by the Board to submit for the consideration and orders of his Lordship in Council the accompanying report from the Collector of Canara, 25th Sept. in Cons. 30th November 1816. in which the whole question is very fully discussed by that Officer.—

From this paper it will be perceived that during the two years which have elapsed since the passing of Act VI. 1814. the sales for inland consumption at those Depots in N. Canara which are in the vicinity of the Goa territory, have greatly increased. and that the increase may not improbably be attributed in part at least to the prohibitory duty on Goa Salt, which has prevented the Mysore and other Merchants from resorting to that Settlement and has led them to seek their supplies at the Canara Stores. The Sales at the Canara Depots for home consumption that is for consumption in the Talookes of N. Canara

below.

Fort St. George 30th November 1816

below the Ghauts. the Balaghaut Talookes having always been supplied from Goa. have slightly decreased but the diminution is not more than may be ascribed to the enhancement of price from 105 first to 180 and afterwards to 190 Rupees per Garce, and perhaps to the additional impulse thereby given to the smuggling of Salt from the Goa Country. In respect to the import of Goa Salt into Canara it will also be seen, from the report that although that import has altogether ceased since Act VI 1814 came into force, yet that a corresponding increase has taken place in the import of Goa Salt into the Dharwar District and consequently that the general Customs revenue derived from the import of Goa Salt into the Company's territory has not diminished.

3. The fact stated by the Collector seem clearly to shew that the introduction of Act VI 1814 has not had an injurious effect upon the Canara Salt sales, or upon the general revenue drawn from the import of Goa Salt into the Company's Provinces. It is however represented

represented by Mr. Blane that the probable import duty imposed upon Goa Salt under the Act bears hardly upon the inhabitants of the Soondah and Soopah Talooks and places them in a disadvantageous position as compared with the ryots of the adjoining Province of Dharwar inasmuch as the people of that part of Canara tho' they continue to consume Goa Salt as previously are prevented by the high duty from procuring it direct from Goa as before; and have to obtain it via the Dharwar District, and to bear the increased Cost caused by its being brought by a circuitous route. He also points out that the same circumstance may possibly influence the course of trade with the Goa Country, as shows that the value of the articles besides Salt imported into and exported from that Territory during the past Fusly 1255 is less than that of the exports and imports of the two previous years by about 33000 Rupees but adds that he is unable to ascertain whether that portion of the former trade with Goa "has been" diverted in the direction of

of the Canara Ports, or whether it has taken the direction of the bordering Talooks under the Bombay Presidency."

4. On a careful review of the whole subject, the Board are of opinion that no modification of the existing system, as regards the high duty imposed on the import of Goa Salt into Canara is at present called for. It seems not improbable that the tendency of that system is to increase the inland sales of Canara Salt and thereby consequently to increase the commercial intercourse between Canara and those Countries to which the additional Salt is supplied. With respect to the supposed decline in the trade across the Canara & Goa Frontier it is to be remarked that the value of that trade for Fusly 1255 tho' below that of the trade for Fusslies 1254-1253 and to a small extent for Fusly 1252 is yet in excess of that of the trade of any other of the ten years shown in the Collectors' Statement [B] and is also above the average trade of the whole series. It appears further doubtful whether even admitting that trade to have in some degree fallen off it has not been diverted

Fort St. George 30th November 1816

directed to the Canara Ports or Markets and whether the change has not therefore been to the benefit of that Provinces. The cessation of the direct import of Goa Salt into Canara may possibly be productive of some inconvenience to the inhabitants of the Soonda and Soopah Talooks but this seems to the Board to be a consideration of minor importance, and not sufficient of itself to warrant interference with an existing arrangements which are a part of an extensive System and should not be lightly disturbed. The attention of the Local authorities should however in the opinion of the Board be given to the improvement of the Communications between the Coast and the upper Talooks, and to the formation as far as practicable of Salt depots at convenient localities with a view to the Canara Salt being brought into more general consumption in the Balaghaut, and its inhabitants rendered independent as far as supplies from the Goa Country.—

I have the honor to bring to the notice of the Board of Revenue that in consequence of the Gale on the 29th Ultimo

Toddy Shop Keepers have applied for a remission of the Government tax requesting sanction for the issue of a notice that Toddy may until further orders be drawn without restriction on the payment of the tax for supply to Bakers so as to prevent any interruption in their business

Enclosure No 1

several of the principal Toddy Shop Keepers licensed by this Office waited upon me, and requested that they might be allowed a remission of the Government tax such as they obtained after the Hurricane on the 30th October 1836; as from my enquiries it appeared to me that there were not sufficient grounds on which I could recommend their case for favorable consideration, I made my sentiments known to them - I beg leave to transmit herewith a Copy of my Endorsements of the 24th October and 10th November on two petitions which they presented to me on the subject -

2 - The petitioners Shops were shut for 5 days - On the endorsement bearing date the 24th Ultimo being delivered to them they recommenced the sale on my permitting the renewals payable up to that date to be collected in small proportions from their inability to discharge the whole at once, in addition to the full Amount of the daily tax -

3 - Yesterday the Shop Keepers presented a further petition requesting that they might be allowed the remission asked for in the last Month as well as that which they were entitled to on account of the Storm on the 25th Instant, on the principle on which it was granted in former years -

The Cocoanut topes in the neighbourhood of Madras would seem to have sustained such serious injury during the recent bad weather that I have been unable to collect any part of the Toddy revenues since Thursday last, and I am now induced, in advertence to the correspondence noted in the margin, to solicit the Board's sanction for the issue of a notice to all persons that Toddy may until further orders be drawn without restriction or the payment of any tax to Government, having already intimated to the Petitioners that I expected they would continue to supply the Bakers with as much Toddy as they could get, to prevent any interruption in their business, pending the receipt of the Board's reply to this reference.

Ramanyan's Petition has been referred to the Collector of Madura, for report, and he has accordingly addressed the following Letter to the Board of Revenue.

The Collector has ascertained, by due enquiry, that the Pollams are not entitled to any remission whatever on account of the recent bad weather. Their case cannot therefore be entertained to indulgence, nor authority for favourable consideration - as the Cultivators of recent cultivation pay a much smaller assessment than the old Cultivators.
