Remarks.

The object sought by the Return is to ascertain the quantity consumed in the District, the [illegible] of the quantity of Sugar produced and the quantity remaining for exportation.

As the Inhabitants are not prohibited from cultivating the Sugar Cane, it is desirable to adopt one uniform plan of procuring the information, and the Collector is therefore requested to transmit with the Return a statement of the manner in which the Estimates have been formed.

The first column of the Return is intended to comprise the Estimate of the quantity of land cultivated for Sugar in the year 1817-18, and the second column the Estimate of the quantity of Sugar which may be produced from the Canes cultivated in the same year.

The third column is intended to comprise the Estimate of the quantity of Sugar and Jaggery consumed in the District in the year 1817-18.

Upon the validity of such an adoption there would seem to be some doubt, but the Acting Collector of Chinglepute observes that some leading Members of the Caste to which the Family belong have stated that such an adoption is not contrary to their usages and that similar instances have occurred. The Governor in Council however of opinion that this point should be satisfactorily decided and before passing final orders on the application on behalf of Ruthnavalo Chitty has resolved to refer the subject to the Court of Sudr Adalut in view to the opinion of

His Excellency the Governor of the Presidency of Madras.-

My Lord-

An incident arising out of the

Fort St. George 10th. Decemr. 1846.

Issue of instructions for the cooperation of the French with the English Govt. in the appointment of Measurers & others employed in the superintendence of the delivery of Salt supplied to Pondicherry.

the recent delivery of a certain quantity of Salt made by the authorities of Cuddalore and intended for the supply of Pondicherry renders it incumbent upon me to refer the matter to your Excellency.

The charges for conveyance measuring &c. of the Salt supplied to the French Establishments in India by the Honorable Company though raised by it were subsequently in conformity with the conventions existing between the two Governments equally shared. The evident and necessary consequence of such an arrangement, omitting every other consideration ought to be the mutual right to appoint in common the Measurers and Coolies employed in the delivery of the Salt. The French Agents for reasons which I shall explain hereafter, having requested the exercise of this right the English Agent has refused to acquiesce in their demand, and the delivery has been interrupted. The observations which I addressed to this effect to M. the Collector of South Arcot, having reached Cuddalore in the absence of M. Davis, the Sub Collector White has replied. I annex a copy of his communication.

I believe it to be useless to

Fort St. George 10th. December 1846.

to discuss the considerations which this functionary employs for opposing the intervention of the French Government in the appointment of measurers of Salt and of their Assistants because they do not tend to resolve the question. It goes to prove that the supplies made in 1845 and 1846 have presented considerable diminution but at the same time it establishes the fact that they have always been made by Coolies selected exclusively by the English Agent it would appear that the Agent has proved himself guilty of unfairness. On the other hand the French Government had for a long time observed in the quantity of Salt which it received from the English Government a deficit which could not be accounted for from natural causes and for which the Agents charged with receiving the supply were held responsible. These have then, with a view to screen themselves from the blame imputed to them declared their right to participate in the appointment of the Coolies and Measurers in as much as they were led to perceive that Coolies, subject only to the

order

15805. Fort St. George 10th. December 1846.

orders of the English Agent received from him directions contrary to justice and good faith.

Whatever may be the truth of these suspicions, I resume the question on the eve of departure, and I have the honor to solicit that your Excellency will issue instructions that the right of the French Government to cooperate with the English Government in the appointment of Measurers and Meers employed in the Superintendence of the delivery of Salt supplied to Pondicherry and paid by both Governments may no longer be disputed.

As to personal motives in regard to these Agents or to any one of them to which Mr. White alludes, I have nothing to observe. These are Considerations foreign to the subject, and which have nothing to do with the question of right that has been raised.

To His Excellency Monsieur Pujol
Governor of the French
Establishments in India.

Sir,

&c. &c. &c.

I have the honor to acknowledge receipt of your Excellency's letter dated 10th Instant stating that the measurement of Salt now in course of receipt by your Government has been suspended in consequence of the person deputed on the part of this Government to deliver it having claimed a right to employ in the measurement Coolies selected by himself and representing that the fact of the expenses of the delivery of the Salt being borne equally by the two Governments establishes a right on the part of your Government to participate equally in the nomination of the Measurers.

In reply, I beg to express my regret that I am unable to adopt your Excellency's view of the case. It appears that ever since Salt was first furnished by the Honorable East India Company to the French Government at Pondicherry the whole duty of shipping it from the Salt pans, landing it at Pondicherry, conveying it and measuring it, indeed every expense up to the time of its being

being actually made over to your Government has been invariably borne by the Company after which the sum total involved in its delivery has been defrayed in equal shares by the two Governments -

It appears that the nomination of Coolies employed to measure the Salt has up to this time invariably rested with the Agent of the Company's Government and as the custom hitherto adopted has been attended with no inconvenience - I regret that I am unable without the special instructions of Government to interfere to disturb the present arrangement. -

I beg further to bring to your Excellency's notice that the Agent for the French Government has not in his address to the Commissioner complained of any unfairness in the measurement but it appears on the contrary by the accounts of this Office that a very considerable loss has lately occurred on the part of this Government in the delivery of Salt. -

In conclusion, I have the honor to state that it may not be improbable that the claims now brought forward by Coomaragooroo Moodaly may have had some origin in a dispute which

which has lately occurred between the Subordinates of the two Governments who are employed on this duty as detailed in the accompanying Copy of an arzee from Chedumbrum Pillay. -

I beg to inform your Excellency that I did not consider it necessary to bring the case of assault therein alluded to, to your particular notice, but preferred the party injured to the local Police authorities being fully assured that he will there meet with full redress. -

Subject to which it relates being of such little importance I should have abstained from taking this step had not the French Government compelled to it.—

The practice hitherto observed in the delivery of Salt to the French Government has not been productive of any inconvenience or injury to them, since I do not find in the records of this Office that any representation was ever made by them of having sustained loss, wastage, &c. from undue advantage being taken by the Coolies employed by the British Agent.—

The alleged right never having hitherto

hitherto been granted, I am at a loss to comprehend why it is now so pertinaciously urged.—

The joint appointment of measurers will also lead I fear to continual differences the decision of which will cause much inconvenience to all parties.—

Under these circumstances and to obviate every difficulty I proposed that in future the Salt to be supplied to the French Government should be weighed instead of measured, agreeably to the practice observed at Karakanum where this article is sold for exportation to Calcutta.—

Monsieur Le Collecteur,

Par la lettre que vous m'avez fait l'honneur de m'ecrire le 28 Octobre vous me demandez de donner des ordres afin que le sel de Gouverneur soit fait à Pondichery pour l'administration Anglaise et restant encore à livrer, soit reçu, comme de coutume, sur le mesurage de certis choisis par l'Agent Anglais, sans la participation des Agens français. Vous

ajoutez

ajoutez que les explications que a presentées son
Monsieur le sous Collecteur White a eut égard,
dans sa lettre du 13 Octobre, ont dû suffire pour
lever les difficultés survenues entre les Agens
des deux Gouvernemens.-

Les considerations dans les quelles
est entré Monsieur White, s'appliquant pure-
ment à des faits, ne tendaient en aucune ma
façon à resoudre la question de droit, elle ci
reste entière et ne paroit toujours devoir être
décidé dans le sens que j'ai indiqué, les frais
de transport et de livraison du sel fourni par
l'administration Anglaise aux Etablissemens
français de l'Inde, étant acquittés pour moitié, la
consequence nécessaire de cet état de choses, est
la cooperation de deux Gouvernemens, au choix
des coulis mesureurs à Pondichery.- Monsieur
White fait valoir qu'en 1845 et 1846 les livraisons
qui ont eu lieu ont présenté des déficits considera-
bles, mais il est a remarquer que elles ont été
faites par les Agens Anglais, sans la participa-
tion aux mesurage, des Agens français,
et l'on ne peut dès lors, y voir un motif
raisonnable de repousser ces derniers

Dieu autre coté, l'administration française
n'a pas eu moins à se plaindre du resultat
resultant de ces livraisons que l'administra-
tion Anglaise elle même, et elle a éprouvé
des pertes que ses Agens ont attribuée avec
quelque raison au moins dans la forme, à
la manière dont se faisoit le mesurage dirigé
exclusivement par les Agens Anglais. Ces faits
ont déterminé l'adoption de la mesure
recemment adoptée et qui auroit, reçu
lierement, toujours
clamer l'intervention des deux Gouverne-
mens dans le choix des coulis mesureurs,
Monsieur White toute fois ayant pensé de-
voir s'y refuser, j'en ai référé à la Presidence

pondu à la communication qui a eu lieu
à ce sujet, je ne peux que maintenir les
ordres qui ont été donnés de surseoir, pro-
visoirement, à la réception du sel que est

vous paraisse convenable de prescrire di-

Sir.

In reference to your Excellency's letter of the 5th Instant, I cannot help expressing my surprise that a subject of so little importance should have been made a matter of reference to the Madras Government, particularly as the right which you so pertinaciously wish to maintain has never been mooted from the time that the first supply of Salt was ever made to your Government. The silence hitherto observed on the subject induces me to believe that its delivery must have been conducted more to the advantage of the French than of the British Government, but as the subject is now before Government, I shall await their decision, pending which I beg to inform you that I have ordered my Agent to affix his Seal to the Godown in which the Salt is now stored and to return to his duty. —

Sir,

I have directed by the Board of Revenue to acknowledge the receipt of the Resolutions of Government, No.s 56 and 57, dated 5th and 16th November respectively, transmitting to them for their report certain communications, which have been received from His Excellency the Governor of the French Settlements in India, and from the Coll.r of South Arcot in charge of the Special Agents' Department, on the subject of the delivery of the Salt supplied for the use of the French Government.

Reporting with reference to the orders of Govt. dated 5th and 16th Nov.r last on certain communications from His Excellency the Governor of the French Settlements in India and from the Coll.r of South Arcot in charge of the Special Agents Department on the subject of the delivery of the Salt supplied for the use of the French Govt. and stating that the suggestion of the Coll.r that Salt be hereafter supplied to the French Govt. by weight instead of by measure appears to be judicious and if acquiesced in by that Govt. it might be adopted with advantage.

To the Chief Secy } Sir,
to Government. }

Reporting with reference to the orders of Govt. dated 5th inst. on 16th Nov.r last on certain communications from His Excellency the Governor of the French Settlements in India and from the Coll.r of South Arcot in charge of the Special Agents Department on the subject of the delivery of the Salt supplies for the use of the French Govt. and stating what the suggestion of the Coll.r that Salt be hereafter supplied to the French Govt. by weight instead of by measure appears to be judicious and if acquiesced in by that Govt. it might be adopted with advantage.—

(Rec.d in Secy's Office 10th December 1846. 25-24-3-577.)

I am directed by the Board of Revenue to acknowledge the receipt of the Resolutions of Government, Nos. 50 and 55, dated 5th and 16th November respectively, transmitting to them for their report certain Communications which have been received from His Excellency the Governor of the French Settlements in India, and from the Coll.r of South Arcot in Charge of the Special Agents Department, on the subject of the delivery of the Salt supplied for the use of the French Government.

2. From these papers it appears that from the time that Salt was first furnished by the East India Company to the French Government at Pondicherry all arrangements connected with the shipment of the Salt at Maracanum, its transport by Sea to Pondicherry, its landing at that place, measurement there, and delivery to the French Authorities have been conducted exclusively

exclusively by the servants of the British Government, and by parties employed and paid by them, and that afterwards the whole expenses consequent upon the conveyance and delivery of the Salt have been divided equally between the two Governments on the occasion of the last delivery of Salt at Pondicherry, the French Govt. claimed the right of appointing in common with the English agents, the Coolies by whom the Salt was to be measured to them, on the ground of their defraying half the charges of such measurement. This claim has been objected to by the Collector and Sub Collector in charge of the special agents' Department, who urge that the present practice by which the selection of all the measurers is left with the English Agents is that which has always been in force hitherto, and that there is no valid reason for any change of system.

3. It does not appear to the Board that the circumstance of half the expense of measuring the Salt being borne by the French Government can be held to confer upon them any absolute right to appoint half the Coolies

Coolies by whom that operation is performed. On similar grounds it might be contended that they were entitled to participate equally therein servants in all the processes connected with the supply of the Salt from the shipment at Mureanum, to its landing at Pondicherry the expenses of all of which no less than that of measuring the Salt, when brought to that place, are also in part defrayed by them. If the Salt were received by the French Government at the Mureanum Para it would clearly be measured to them by English Coolies and the fact of the delivery taking place at Pondicherry instead of Mureanum, under an arrangement between the two Governments for sharing the additional expense, does not, it seems to the Board, alter the character of the transaction. The Salt still remains the property of the East India Company who are exposed to any loss by wastage &c. which may accrue upon it, until the moment when after having been measured it is made over to the French Government. In the delivery at Pondicherry as at Mureanum, or generally as in any similar transaction, it is for the party selling the Salt to measure it to the purchaser

purchaser being of course at liberty to
object to the mode of measurement, if he
see fit. The question is one of such slight
importance, that it seems to the Board to be
of little moment, whether the claim urged
by the French Authorities be or be not
admitted, on the whole, however they are of
opinion, that as the existing arrangement,
in regard to the appointment of the measurer
is reasonable of itself, and is that which
has obtained since Salt was first supplied
to Pondicherry, there are no good grounds for
departing from it. at the same time every
means should be taken to satisfy the
French Authorities there, of the fairness of
the measure given them. some trustworthy
and respectable servant should be deputed
by the Collector to superintend every de-
livery, and any reasonable objection to the
mode of measurement pursued, which
may be advanced should receive due
attention.

4. In his letter of 9th November
last the Collector has proposed that with a
view to obviate all further difficulties the
Salt to be supplied to the French Government
be henceforth weighed, instead of measured,
on the same reasonen as Salt sold for export-

by sea. The Board think this suggestion
judicious and that if acquiesced in by the
French Government, it might be adopted
with advantage.

5. The Board cannot but draw
the attention of Government to the Collectors
letter to His Excellency M Pijot of 7th
November last, which appears to them
to be a very improper communication to
be addressed to the Government of a
Foreign Settlement.

of the Timber named in the Honorable Court's letter, and to communicate with the Agri-Horticultural Society as to the most approved method of preserving and packing them up. I have the honor to state, that the Teak tree (of three or four kinds Viz.ts Poulak Ranchak and Burree) the Deodar and the Saulwood or Goggellum are the only timber trees to be found in this District. I regret that the specimens of blossoms and seeds cannot be procured till the Months of May and June, when they will be in season, but some pieces of the timber and of the foliage have been brought down and I shall take an early opportunity of sending them to Madras by sea after submitting the leaves to the process recommended by the Agri Horticultural Society.

Para 1. I have the honor to forward a Copy of a Decree of the Civil Court at Masulipatam in Appeal No. 57 of 1845 made under the Board's Orders Conveyed in the Corr: respondence noted in the Margin -

2. It will be observed that the Court confirmed the Decree of the lower Court in favor of the respondent by which the Enam land claimed by him is to be restored free from the per Centage or Gittumpoo with which it has hitherto been Charged. This decision involves a question of importance as affecting the interests of the Zemindar now Government and I therefore beg to submit Draft of the proposed special Appeal Petition to the Sudr Adalut for the Board's approval and request to be favored with the early orders of the Board on the subject -

3. The delay in submitting the Draft has arisen from my having been engaged in other business and being now on a tour in the District - I have in Consequence applied

That it was clearly proved that the Signatures upon the Documents Nos. 192 and 193 were not made by the Zemindar Sobhanadry Row and even if they had been it is clear that as 1st Respondent and some of his ancestors were employed by the Zemindars it was a common custom for them to keep with them blank papers bearing the Signature of the Zemindar so that they could fill them up with what contents they pleased. How these Documents 192 and 193 were executed while the Zemindary was under the management of the Collector and the Zemindar had no authority

to grant such Documents that the 4 Cuttles of land at Tamerasa did not Consist of one piece of land within the limits described by the Respondents but was separated by a Bridge which divided it into 2 portions that the Villagers of Tamerasa gave solemn Depositions before the Collector in September 1839 to the effect that the Respondents Enam land was only 2-1-¼ and that the other piece on the Eastern side which is "Gramasamoodayem Beedoo" grazing Land had never been included in Respondents Enam. That he is ready to prove by the public Records lodged in his Office that Respondents 5th and 8th Witnesses gave false evidence. That no order was issued by the them Collector to the Respondents 6th Witness to grant Doombalahs 124 and 125 to the Respondents that the evidence of the said 6th Witness that the Respondents continued to hold possession of 4 Cuttles at Tamerasa is false and contrary to the accounts lodged in the Huzzoor Records and those in possession of the Village Curnum and Zemindars. That Respondents Document 65-70-71- and from 130 to 134 are fictitious as appellants 6th Witness deposed that the figure 4 inserted in the document 65 had been altered. That no proof was taken from appellant 4th Witness.

15828. Fort St George 10th December 1846.

Witness regarding Respondents Document 133. That the Principal Sudr aumeens argument as to the validity of the Document 130 may be easily refuted as the Enam lands of all the Villagers in this District are not fully entered therein nor neither does it bear the signature of Mr Russell nor was the summud No. 71 duly examined and Registered by that Officer. That the 1st Respondent caused the Enam lands entered in the Documents 192 and 193 to be inserted in the Register thro their friendship with the then record keeper. That the Respondents never had possession of 4 Cuttles in Tamerasa nor was a Cuttoobady fixed thereon. that Mr Roberts issued a Hookoom on the 14th December 1826 directing that the Register in question should not be considered correct and if Mr Russell really considered that Register true why did he not Complete it. that the Goodeewadas Gabits / a detailed List of the whole lands of the Village / of the Goodewada Purgunah lodged in the Record Office of the Collector shows that the Respondents possess only 2 Cuttles in Tamerasa. That even supposing Documents 73-74-139-140 and 142 were genuine yet they cannot annul the Rules provided for the summary Management that is

Documents

15829. Fort St. George 10th December 1846.

Documents 124 and 125 having been granted on a date previous to that of the Zemindary settlement for fusly 1229. they must be considered inadmissible.

The appellant further observes that the Respondents do not possess Chalicenamah or list showing the limits of the land for they would have produced it, that altho it appears from the documents 135 and 147. that the Hoors of the Respondents were burnt yet it is not shown that they possessed the original summuds or that those summuds were burnt and that it can be credited as observed by the Principal Sudr Ameen, that the servants of government would fabricate such Documents, from which they can derive no advantage and commit forgery in 1797 in order to defend an unforeseen suit filed in 1839. He therefore prays for reversal of the Principal Sudr Ameens Decree.

The Civil Judge having carefully perused all the Documents and evidence adduced in this Case proceeds to pass Judgement. The appellant in his appeal objects to the Decree of the Principal Sudr Ameen on the grounds that Mr Oakes' Registry is correct and that the Registry prepared by Mr Russell is incorrect. He

15830. Fort St. George 10th December 1846.

then objects to the important Documents 192 and 193 on the grounds that it was well known that the Zemindar used to give blank papers bearing his seal and signature to his public servants and that they used to fill them up as they pleased, he moreover adds that the Record keeper of the Collectors Office being a relation of the Respondents has allowed some of the Documents to be altered.

Now the appellant has totally failed to show that Mr Oakes Registry for fusly 1207 is correct whilst the Respondents have most clearly shown that it is incorrect and cannot be depended upon, for they have produced Document 149 which is an authenticated Extract from Mr Oakes Registry for fusly 1207. on which there is the following note. "This Registry was made out from the Reports of the Despondiahs who stated that the Doombalahs were destroyed and not from the production of a or Comparison with the Doombalahs" moreover in the Document 149 and also in 150 Land is entered as belonging to Respondents Enam which Respondents never have possessed.

The objections raised by appellant to Mr Russells' Registry are not properly set forth. It may be true that the Registry was

was not finished but that does not in any way show that the part which was completed and signed by Mr. Russell was incorrect neet with regard to its being well known that the Zemindar used to sign blanke papers, if this objection to this particular Document be accepted every Document signed by the Zemindar would be open to the same objection. It was therefore absolutely necessary that the appellant should have shown that this objection applied directly to the Documents in question which he has not done. With regard to the Documents having been altered by the Record keeper some evidence to support such an assertion should have been produced, for a general assertion of that sort cannot be admitted as bearing on any particular case. These objections are totally unsupported and therefore cannot be accepted as having any weight in the case. Now with respect to Mr. Russells Registry it appears to the Civil Judge that a good deal of dependance can be placed upon it as far as it goes because Respondents have produced Document 130 as authenticated Extract

Extract from Mr. Russells Registry in which the following note is entered "This Registry was prepared from the Production of summuds Vea By the notes then entered in these Extracts there can be no doubt but much more dependence must be placed on Mr. Russells than on Mr. Oakes Registry. The Appellant has admitted the collection of the Jase alluded to in the Plaint and set forth that this Collection was made because the produce of s-ary land had been clandestinely included in the produce of the Enam land. This assertion is not any way substantiated neither does he show what s-ary land he alludes to neither has he attempted to prove that the Respondents ever have acted or could act thus. while on the contrary the Respondents show that there is no sary land directly adjoining their Enam and if they had actually taken posession of two cutties of s-ary land there can be no doubt the Villagers would have made a Complaint on the subject. The Respondents have proved the destruction of their house by fire and it is not improbable that the

the Documents might have been destroyed as they have asserted at all events there is no Cause shown why this Statement should not be Credited. It further appears that after the 2d Defendant had obtained possession of the Zemindary he allowed the Respondents to enjoy the 4 Cuttles &c without improving this particular tax. The appellant has stated that he took Solemn declarations from the Villagers of Respondents Village, but this it appears was not done till after the institution of this suit and their evidence therefore could not have interfered with the imposition of this Tax.

The Principal Sudr Ameen in his Decree has explained his opinion on all the different Documents in detail and the Civil Judge is of opinion that the appellant has not shown cause why that decision should be set aside therefore under these circumstances the Decree of the lower Court is affirmed and all costs in appeal must be paid by appellant.

And it is further resolved

that no private adjustment of this decree shall be allowed or deemed valid unless the terms of such adjustment shall have been previously and reciprocally declared by all the parties interested herein and made a record of the Court with their unanimous consent.

Zillah Court's file.

1 Dandoo Gangannaze and Ramiah
Plaintiffs in the Original Suit No. 203 of 1839 of
the late Auxiliary Court's file, brought an Action
against the 1st Defendant the Collector of
Masulipatam and Rajah Canadana Perpatiah
the Ex Zemindar of Vuyaccotah and Goodewada
Purgunahs, stating that they possess one Enam
Cutt of 4 Cuttles in the Tamerasah Village in
the Goodewadah Purgunah as well as of 1 Cuttly of
Land in Cauvanapoody in the Vuyaccotah
Purgunah that out of the produce yielded

been carried by the 1st Defendants to the Credit of the Estate, the same may be restored; And whereas again, that the Enam lands yielding a profit valued at Rupees 987-14 per year may be continued to them without any reduction for the future; To this no Answer was given or by the 2nd Defendants but the Collr (the 1st Defendant) in his Answer stated 1st That the Plaintiffs had an Enam land of only 2 Cullies in Sawrawa Village; 2nd That for the purpose of preventing frauds and mis-appropriation, an arrangement was made by a former Collector Mr Roberts, by which a certain quantity of produce per Cent was deducted from all Enamdars in the Vinnacottah and Goodewadah Purganahs and by which a portion of the produce of the Plaintiffs Enam lands had been continued to be received from a long times by the Circar; that the Plaintiffs had consented to that arrangement inasmuch as they had accepted the remaining produce of their Enam land according to the said standard, and had not made any Complaint on the subject till after the expiration of 12 years; and that the Court should therefore dismiss the suit according to Clause IV Section XVII Regulation II of 1827 Pursuant to the above the Collector produced the remainder of

2. The Auxiliary Court's Assessor passed their Proceedings under date the 17th and 25th November 1840 and 1st January 1841 that the Suit in question is liable to be dismissed under the provisions of the said Regulation. The Plaintiffs having been called upon by the Court to produce certain accounts &c relative to the lands claimed by them, they not only failed to tender the same accordingly, but also omitted to conduct the proceedings of the Suit; consequently the Court dismissed the Suit on the 26th March 1842 and passed proceedings to that effect which proceedings were also confirmed by the late Northern Provincial Court. Whereupon the Court of Sudr Adalut they held proceedings on the 1st March 1843 stating that the suit should have been dismissed in the first stage or otherwise that it should be decided on its merits and that it should therefore be re-admitted on the file. Consequently the suit has been admitted accordingly on the file and was transferred to the Principal Sudr Ameen Court in May of 1843.

3. The Collector from several authenticated Accounts &c lodged among the Public record which clearly prove that the Plaintiffs possess only 2 Cullies of Enam land in the Sawrawa Village, produced certain documents which are deemed material and which were

numbered from Nos 88 to 92 Viz. Gradual tho Zabitahs
Evano Zabitahs as well as Extracts of Evano
favour and accounts as well those No. 94 and 96
which prove the mode of the standard for Cutlys
having been established, and he (Collector) further
brought forward certain witnesses who are Servants
&c. to the Zemindars Samastanum to support the
arguments in the defence of the Collector, that
the Sunnud and Dimmuk said to have been
granted by the father of the 2d Defendant in
lieu of the Sunnud originally granted for the
4 Cutlies of Evano Lands in the Village of
Samastanum which they (Plaintiffs) assert to have
been consumed by fire are not genuine and the
undisturbed prevalence of the standard system
of per Centage is proved by some other witnesses,
documents filed on behalf of the Collector from
the Public record and the evidences of the witness
the Plaintiffs which papers were prepared by
them through the mediums and friendship of the
former record keepers of the Collectorate Cutcherry
whose friendship the Plaintiffs had gained and
secured these documents for the purpose of obtain-
ing the object in view and by confronting with
the said record keepers they have effected through
their introduction of the witnesses for their own

the records and obtained attested copies of the same
again and those which the Plaintiffs obtained
during the time when they as well as their ancestors
were in the service of the 2d Defendants Canipah
row and his father, as well as on the evidences
of the witnesses on behalfs of the Plaintiffs
who have deposed falsely and in opposition to one
another and so passed a decree in favor of the
Plaintiffs. Being dissatisfied with the said
decree, the Collector has submitted an Appeal
to the Civil Court in No. 57 of 1845.

4. The Collector in his Appeal
Petition fairly set forth the objections attending
all the documents produced by the Plaintiffs
(Respondents) as also the evidences adduced by
them, and the reasons proving the oversight of the
Principal Sudr Ameen in passing his decree
in favor of the Plaintiffs as well as the in-
sufficiency of the documents produced on behalfs
of the Collector and the points deposed by the
witnesses having been quite favorable to the
defence as will be perceived by the Sudr Adawlut
Court from the Appeal Petition.

5. Although the many Grounds
stated in the said Appeal Petition
are so strong as to render the award passed by the
Principal Sudr Ameen in favor of the Plaintiffs

Unable

liable to be quashed and ordered to give
judgment in favor of Government by the
Civil Court, without at all bringing the
points of the Appeal Petition into consider-
ation pass a decision conforming the award
of the Lower Court. As the documents on
which the Plaintiffs (Respondents) brought
forward the suit which is now pending in
the Court of Sudr Adalut in No. 36 of 1843 as
regarding the Allaw Village, between the Collector
and the Plaintiff respondent are the same
which the present suit relating to the Enam
lands of Karaveda, is founded, and the same
parties and circumstances are involved the
same, the Special Appellant indicated in
the Appeal Suit No. 36 of 1843 the grounds
on which the said documents may be consi-
dered liable to objections which also
being applicable to the Enam land of the
Karaveda Village in the present case the Lower
Court with reference that with reference to
the relative circumstances touching in both
suits, the suit advanced by the Respondents is
liable to be quashed, that the documents
alluded to are not genuine and that the
decree passed by the Civil Judge and favorable
the respondents regarding the Enam

of Karaveda is erroneous. The Collector therefore
dissatisfied with that decision proceeds to present
the Special appeal to the Sudr Court forwarding
herewith Copies of the decrees now appealed from.
The Special Appellant begs to detail hereunder
the reasons recorded by the Civil Judge in his
decree for confirming the decision of the Lower
Court as well as the objections offered thereto
by the Special Appellants.

6. The Civil Judge observes that
the Collector (Appellant) has totally failed
to shew that Mr. Oakes' Register for Jaffna
1807 is correct, while the Respondents have most
clearly shewn that it is incorrect and cannot
be depended upon for they have produced
document No. 149 which is an authenticated
Extract from Mr. Oakes' Register for Jaffna
1807 and in which the 2 Cullies of the Enam
Land belonging to the Plaintiffs are entered
one which there is the following Note "The
Register was made out from the reports of the
Respondents who stated that the documents
were destroyed and not from the production
of a Comparison with the Documents" that
in the documents 149 and 150 Land is entered
as belonging to Respondents Enam which
they have never possessed, that the objections

raised

cases by the Special appellants to Mr Russells' Register are not properly set forth, that it may be true that the Register was not furnished but that that does not in any way show that the part which was completed and signed by Mr Russell was incorrect, most with respect to it being well known that the zemindars used to sign blank papers, that if this objections to this particular documents be not accepted every document signed by the zemindar would be open to the same objections, that it was absolutely necessary that the Appellants should have shown that this objections applied directly to the documents in question, which he has not done, that as regards to the documents having been altered by the record. Keeper, some evidence to support such an assertion should have been produced for a general assertion of that sort cannot be admitted as bearing on any case; that these objections are totally unsupported and therefore cannot be admitted as having any weight in the case; that a great deal of dependance can be placed upon Mr Russells' Register as far as it goes, because Respondents have produced documents No 1,3,7 and Authenticated Extract from Mr Russells Register

in which the Note Viz. "This Register was prepared from the production of Sunnuds Vizt" is entered; that by the Notes then entered in those Extracts, there can be no doubt but much more dependance must be placed on Mr Russells' than on Mr Oakes' Register, that the Appellant (Collector) admitted the Collection of the tax alluded to in the Plaint and sets forth that this Collection was made because the produce of Bazy land had been clandestinely included in the produce of the Enam land, that this assertion is not in any way substantiated, that neither does he shew what Bazy lands he alludes to, that neither has he attempted to prove that the Respondents even have acted or could act thus, that while on the contrary the Respondents shew that there is no Bazy land directly adjoining their Enam; that the Respondents have proved the destruction of their house by fire, and it is not improbable that the documents might have been destroyed as they have asserted; that in all events there is no cause shewn why their statements should not be credited; that it appears that after the 2d Defendant had obtained possession of the Zemindary he allowed the Respondents to enjoy the Collection without impeding them in particular case, that the Appellants stated that the

1845 Fort St. George 10th December 1846.

he took solemn declarations from the Villagers of the Respondents Village and that this was not done till after the institution of this suit, and their evidence therefore could not have interfered with the imposition of this Tax.

7. The Enam lands in this District were in Fasly 1207 registered during the management of Mr. Oakes Collector, and this Register is admitted by many former Collectors to be correct one, where discussions have originated as regards the Enam Lands, they are disposed of with reference to the Register of Fasly 1207 Consequently Mr. Oakes Register is considered valid in the Collectors Office. It will not be just to consider the said Register unbecause now in force to be unworthy of belief. It having been prepared after a full enquiry into the origin of the Enam lands through the Despondars noting at the same time the grounds thereof, it can be considered that the completion of the same is founded on a full and accurate investigation and your Court can perceive that that Register will not be liable to be deemed inadmissible on the ground that it was made out from the report of the Despondars. From the said Register it is clear that the Plaintiffs

1846 Fort St. George 10th December 1846.

possess only 2 Cuttles of Enam land in the Tamarasa Village, and that the Officer Village regarding which a Special appeal is pending in the Sudr Court between the Collector and the Plaintiff in Cause No. 36 of 1843 was alienated as an endowment for the purpose of Swamy Pagoda, and from several other documents produced on behalf of the Collector it is quite clear that in the Register 2 Cuttles only were inserted as Enam to the Plaintiffs in the Tamarasa Village.

8. The Court though admitting in its Decree that the Register prepared by Mr. Russell was incomplete have remarked that the objection stated by the Appellant regarding the said Register, were not regularly inserted. The several reasons which the

15847 Frost St. George 10th December 1846

the Collector has to state to prove that the Register was cancelled and never intended to be of any force have been more clearly inserted in the Appeal Petition presented by the Collector and the arguments to confirm the Collector's objections to be genuine, have also been clearly conversed by the same. On considering the opinion of the Civil Judge in his Decree that the Register so far as it was prepared by Mr Russell to which he affixed his signature, does not at all appear to be not genuine and as it appears that that Officer affixed to a certain part of that Register Register was at all signed by Mr Russell nor was it completed by him. Notwithstanding conducted the management of this Collectorate for a long period after this Register was withdrawn but he did not complete the said Register at all. Though it was inserted in the Register that the Allaw Village is in dispute of the Plaintiffs, yet he (Collector) conceiving it to have belonged to the Swamy Pagoda placed the Village under Ekaan management according to Regulation VII of 1817 from which it may clearly be observed that Mr Russell himself considered that the said Register could not be prepared by himself as stood it not a correct

15848 Frost St. George 10th December 1846

In the said Register it is mentioned that there was a Cuttoohady Tax of 2½ Pagodas per Cutty on the Respondents Cuans land in the said Tamerra Village, but they (Respondents) had not at any time paid the Cuttoohady Tax in question from which the claim of the Plaintiffs and the entry in the Register appears to be diametrically opposed to each other, such being the case it can hardly be considered that this Register should be applicable to the claim of the Plaintiffs. Moreover the former Collector Mr Roberts, finding from these Reasons that this Register was not a correct one passed orders that no Copies from this Register should be granted to any one placing confidence on such a Cancelled Register which for the reasons above mentioned had been set aside and not acted upon and discrediting the Register which is in force in the Collectors record and which has been made out by Mr Baker, The Civil Court has passed decision in favor of the Plaintiff which the Collector trusts that the Court can easily perceive to be Contradictory to Law.

St

Fort St. George 10th December 1816

9 It being the practice in the Zemindars Samastanum to keep blank Papers with the Zemindars signatures in possession of their servants and to use them on account of their affairs when occasion offers. The Plaintiff and his ancestors who held services in the said Samastanum have obtained some blank Papers bearing the signature of the Zemindar and invented Documents A. 192 & 193 on these blank Papers purporting to shew that some original Sannds which they had possessed having been burnt these documents were granted fresh in lieu of the originals and so during the time when the Estate was under Circar Amany Management they with the preconcerted view of enjoying the 4 Cuttles of Enam land in the Tamerasa village and to bring the Yellow village as aggrahara into their enjoyment have fabricated the documents to suit their own purposes and to these Documents the Collector has stated his objections which from the several accounts & &c lodged in the Collectors record it is apparent that the Enam land belonging to the Plaintiff in Tamerasa is only 2 Cuttles

the

Fort St. George 10th December 1816

the mention of 4 Cuttles of land in the Documents alluded to proves clearly that the latter must have been forged.

10 As regards the point mentioned in the decree that with regard to the documents having been altered by the Record Keeper some evidence to support such an assertion should have been produced for a general assertion of that sort cannot be admitted as bearing on any particular case. These objections are totally unsupported and therefore cannot be accepted as having any weight in the case. The Collector has to observe that he should have been ready if the Court required it, to afford every proof regarding them the Court did not make any requisition of the kind. In the appeal Petition the Collector has stated that the former Record Keeper being connected with the respondents have prepared certain extracts of documents in such a manner as may tend to their purpose, and obtained signatures of the authorities on them in a fraudulent manner and given them to the Plaintiffs to effect their design and that

Fort St George 10th December 1846

that the fraudulent transaction on their part will if required by the Court be proved by the Collector but the Court not having called upon him for so doing he was precluded to do so. Secondly instance the Collector begs to state that the document No. 131 filed on behalf of the Respondents viz. Extract of the Goodeconattoo Jemabundy of the land of Tamerasa Village in the Goodeconadah Purgunah exhibits 11 Cuttiers of Enam land as entered in it in the Plaintiffs name whilst in its original lodged in the Collectors office and from which the document purports to be extracted as well as in other accounts it is clear that there is only 2 Cuttiers of Enam lands belonging to them in that village. The documents Nos 121-122 and 123 are the extracts of the Dowla Sea of some fusleis for the Hyderabad account of Tamerasa village of fusly 1229 there appears an entry of the Hyderabad Cuttiers of the Respondents Enam land in the after part, in which also certain quantity of dary produce having appeared to have included and the Hyderabad quantity having been found in excess of the Enclosure by M. S. Gf. it is inserted at the foot of the said papers that the quantity of the produce has been entered under dary and

therein

Fort St George 10th December 1846

therein the initials of Mr. Russell are affixed while such being the case the former Record keeper got an extract of the same to be procured by the Plaintiff only to that part of the contents where in the whole Candies set forth above were inserted omitting the items inserted in the same on the upper part as well as at the foot of the same to enable the Plaintiffs to claim and argue that no dary produce was included in the Enam and on the strength of the same the Plaintiff has been enabled to support his claim Consequently if the Court be pleased to inspect the original lodged in the Collectors office the deceitful acts committed by the former Record Keepers as well as by the Plaintiffs will clearly be evident - The Statement therefore that these objections are totally unsupported and therefore cannot be accepted as having any weight in the case appears without foundation -

11 With respect to the observation on the Decree to the effect that it is stated by the appellant that the Collection of Cottage was made because the produce of dary land was included on the Enam produce and that these assertions are not in any way substantiated neither does he show what

15853 Fort St George 10th December 1846-

what Sary lands he alludes to neither has he attempted to prove that the Respondents to ever have rented or could rent them. The Collector begs to state that for the purpose of ascertaining and discovering frauds Committed in stating the produce of either enam or Sary lands a rule has obtained in the Revenue branch of estimating the produce and in Consequence of it having been discovered that the produce of certain Enam lands had been fraudulently Represented as fair exceeding the quantity inserted in the Anchanadi and that the Sary produce had fallen below the same the Collectors in former Fasles ordered the Excess produce to be included under Sary and hence the Jamabundy accounts prepared accordingly a reference to Duplicate account of that Village for Fasly 1227 which bears the initial of Wm Russell Than Collector it will be clearly manifest that Wm Russell ordered the Excess produce of the Plaintiffs to be included under Sary but the Plaintiffs having obtained Extract of only such part of the Contents of the said paper as suited their own purposes and presented the same as a document in the Court. The Principal Sudr Ameen drew his conclusion from that document and all the other documents produced

15854 Fort St George 10th December 1846-

that the Civil Court should inspect the original accounts lodged in the Collectors office did not take his request into consideration. Had the Court examined the original accounts as requested above they would never have come to the Conclusion on the matter which they had come to. The Collection of excess produce found above the Anchanadi quantity being an Established System of Revenue Management Cannot be considered at present as a point liable to objection. As regards the points inserted in the decree "that the respondents have proved the destruction "of their house by fire and it is not improbable "that the documents might have been destroyed "as they have asserted, at all events there is no "cause shewn why this Statement should not "not be credited" The Collector begs to state that if the respondents had proved the destruction of their houses by fire they might in the same manner have given proofs of the documents having been burnt. The objection therefore can hardly be considered as valid.

The late Auxiliary Court of Adawlut on the decree passed by it in Cause No 1st of 1827 remarked

15855 Fort St George 10th December 1846

Remarked that the 1st Plaintiff did not adduce sufficient proof of the original Summuds having been destroyed by fire nor even proved whether they ever exested and that the other documents cannot support the fact of the Originals having been burnt, and on some other grounds the claim of the Plaintiffs has been dismissed and an award passed in favor of the Government - Thereupon the Plaintiffs made an appeal in the Zillah Court of Rajahmundry in N° 1036 of 1837 who having passed a decree in his favor the Collector has submitted a special appeal to the late Northern Provincial Court who admitted the Special appeal on the grounds that the documents presented by the Plaintiff, which he proffers as principal and important instruments to prove the fact of the originals having been destroyed by fire, are not sufficient to prove the fact nor does it appear that any evidence has been adduced to prove the originals having been voluntarily drawn out by those whom the Plaintiff asserts to have drawn them out or of the particulars of contents stated in them, but afterwards the

15856 Fort St George 10th December 1846

the record of the suit was remanded to the lower court for review, stating at the same time that also another partner should bring his claim to the said Enam land but the party not having brought his claim the then Judge of the Court passed a decision stating that it was passed conformably to the decree passed before - Thereupon the Collector submitted a special Petition to the Court of Sudr Adalut who have been pleased to pass proceedings under date the 11th December 1843 and admitted the special appeal on their file in No 36 of 1843 which is now pending before the Court - while the case is thus pending and in which the documents mentioned in this suit having been objected to by the Collector, It may be manifested to your Court that the award passed by the Civil Judge in favor of the respondents on the strength of those invalidated documents on which the claim of the respondents chiefly depends is Contrary to Law -

13 while the Collector from several authenticated Public documents among his records as well as from extracts of honest Characters had proved the fact the Civil Judge altho the Collector has substantiated and

Fort St. George 10th December 1846.

and stated sufficient grounds and proofs to prove the decree passed by the Provincial Court amean to be erroneous has Confirmed the decision of the lower Court awarding that the 4 Cottahs of Enam land in the Tamarsa Village should be placed under the enjoyment of the respondents without any deductions on account of pension for the future which awards the Collector trusts that the Court will perceive to be erroneous.

4th Therefore the Collector begs leave to submit for the Consideration of the Court of Sudr that from the foregoing it will be clear that the respondents have not possessed more than two Cutties of Enam lands in the Tamarsa Village and that the arrangement established by the former Collector Mr Roberts for the purpose of preventing frauds in the Enam produce to which all Enamdars as well as the respondents have acceded and agreed to become the remainder of their produce from a long time should not be altered and that the Amaun passed by the lower Court for enjoyment of 4 Cuttas of land in the said Village should be reversed.

5th The respondents have neither produced any Chuknamah for the Enam land

Fort St. George 10th December 1846.

nor are there any grounds to consider that this was the respondents enam it being the Gramasamoodaya Sweetoo or waste land to be enjoyed by the Villagers.

The respondents have neither adduced proofs of the Documents (which they assert that they had a fresh grant from the Zemindar) having been granted anew by the said Zemindar or of the existence of the original document or of their having been consumed by fire.

6th The respondents and their ancestors having held principal situations in the Service of the Zemindar they had the opportunity of procuring documents requisite for their own purposes. Even had it been the case that they had really possessed any Summuds they cannot be considered as valid and genuine for the following reasons that the Zemindary Estate of Canadam Sabhanadry was long prior to and subsequent to June 1819 on which the Respondents assert that the Summud Deeds was granted afresh afresh by Sabhanadry was as well as at the same period has been placed under Cod: sew attachment for arrears and the Zemindar could have no authority to grant any summuds at a time when the estate was under Cowar Management and although the Plaintiff asserts

Fort St. George 10th December 1846.

asserts that the Enams has been continued by the 2d. Defendant without making any deduction on account of the proportion of produce established above upto the mode of Cuttage established both previously and subsequently during the Cavass Cumany Incumbent is clearly proved as will appear from a reference to the letter addressed by the Collector to the Board under date 14th March 1840 while the deduction of Cuttage has been accorded to by all the Zemindars in Vizagapatam and Goodavarah Zillahs as well as by the respondents themselves and been paid accordingly from a period of above 20 years without any objection if the decision now passed in favor of the respondents be brought into execution and the Enams land allowed to continue as surmadorumbalah without any deductions in the produce according to the standard system established by the former Collector the Enamdars in general residing in their Purgunahs will no doubt receive claims to remission in their favor for the whole period already elapsed as well as for the future. therefore it may easily be judged that the system observed from several preceding years passed should not be altered

Fort St. George 10th December 1846.

on light grounds whatsoever may be the terms or Conditions between the Zemindar and the respondents during the time when the Estate was in the hands of the Zemindar as the Estate has now reverted to Government. the Government has the power of Continuing the Enams at their discretion after an enquiry into the validity of the documents relative to them and it is not incumbent on Government to accede to the Plaintiffs claims to enjoy the Enams of 2 Cuttees more than they are entitled to without sufficient authority and as stated

17 Therefore the Collector begs the Court will be pleased to take the foregoing into their Consideration and after an enquiry into documents and evidences accounts &c on behalf of the Collector pass Judgement in favor of Government awarding at the same time that the Costs of the Court incurred by it may be paid by the Respondents.

With reference to the correspondence noted in the margin I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter 7th November 1846 from the Collector of Masulipatam reporting that the Suit of 1287 of 1846 tried in appeal before the Civil Court of Masulipatam has been decided in favor of the respondents the Plaintiffs in the original Suit and forwarding for approval Draft of the Special appeal Petition which he would propose to file in the Case before the Court of Sudr Adawlut

The nature of the claims preferred by the Plaintiffs in the original Suit and the grounds on which it had been rejected by the Collector were explained by the Board in their letter of 8th May 1845. The reasons on account of which the Judge has affirmed the decision of the lower Court, and the exceptions taken to those reasons by the Collector will be found stated at large in the Draft of the proposed Special appeal Petition, but scarcely admit of being abstracted, and the Board beg therefore to refer to that document — as however the questions involved in the case, and more especially that in respect to the relative degree of value to be attached to Mr. Baker and the Principal Registers of Enams respectively are of much importance, and as the Collector has in their opinion shewn good cause for making the proposed Special appeal the Board most respectfully recommend that he may be authorized to do so, putting in and effectual Instrument according to the Draft now submitted, and prosecuting the appeal at the Public charges —

From the Collr of Masulipatam

Sir,

1. Referring to the Board's Proceedings dated 10th August last directing that unless a satisfactory arrangement is entered into for the liquidation of the arrears on Pangella Moody Mootah, the provisions of Regulations should be enforced, I have the honor to state that the date of attachment of this Estate there was an arrear of Rupees 3994-9- which the Zemindars have since promised to pay partly in ready Cash and the remainder by instalments and actually paid the sum of Rupees 1,926-15-8 leaving a Balance of Rupees 2,067-9-4 This the Zemindar proposes in his Petition Copy and translation of which is herewith submitted, to pay before the end of the Current Fusly 1256 A.D. 1846-47

Submitting the application of Simhadry and Venkatadry Apparow for the release of Pangellamoody Mootah on the conditions therein stated and recommending Compliance thereto—

2. The Estate was transferred by the Zemindar of Nedadavole in Fusly 1254 A.D. 1844-45 in full of all claims which Simhadry and Venkatadry Apparow had on him on account of subsistence, and as his failure to pay the balance arose

Fort St. George 10th December 1846.

arose rather from the badness of season than to any other cause, I beg to recommend that the prayer of the Petitioners may be complied with.—

No. 1.

Translation of an arzee addressed to R. T. Porter Esq re Collector in the Zillah of Masulipatam by Rajah Simhadry Apparow Bahadur and Rajah Venkatadry Apparow Bahadur Zemindars of Ellore &ca.—

Dated 30th November 1846.

In consequence of a sum of Rs 3994-9 being due on account of Peishcush against the Tungellamoody Mootah appertaining to our Zemindary upto fusly 1255 the Mootah has been taken into the Sirkar attachment consequently we have lately paid 2,000 Rupees in ready cash, and addressed Arzees representing that the remaining balance will be discharged by us at the close of fusles 1256 and 1257, and that you should be pleased to submit our address to the higher authorities with your recommendation and obtain sanction for the removal of the attachment on

Fort St. George 10th December 1846.

on this Mootah. On perusal whereof your honor have been pleased to issue an Enoyetnamah to me in No. 19 dated 27th Instant Communicating that the higher authorities will not admit my prayer.—

What we therefore most respectfully beg leave to represent your honor is that from the Amount of Rupees 3994-9 being the arrears outstanding against the Mootah upto fusly 1253 after deducting the 2,000 Rupees lately paid by us, the remainder including the interest as inserted in the Enoyetnamah issued by you, amounting to Rupees 2,067-9-4 we agree by this to pay within the Close of the current fusly 1256 without the necessity of requiring the 2 yearly instalments, and solicit your honor will therefore on perusal of this arzee be graciously pleased to forward this our address with your favorable recommendation to higher authorities without loss of time, obtain their sanction and release the Tungellamoody Mootah from the attachment.—

We further beg to represent that the Money of the Current kists already elapsed

1587 Port St. George 10th December 1846.—

Report of Lt. Lenegan 10th December 1846—

elapsed, as well as that of the Revd to that, may become due up to the date of the Removal of the attachment, will both be discharged by us at the time of the Removal of the attachment.—

Therefore your Honor will we trust be kind enough to submit this with your recommendation to the Right Authorities for sanction of releasing the Mortgaged Farm the attached amount as soon as possible.—

I have &c.

From the Coll^r of Bellary—

Sir

(26)

Since addressing the Board on the 2^d Ultimo, in reply to their Circular letter of the 15th June last on the subject of the landed Dewastanum Endowments and surplus Funds in Deposit, I am informed, that the sum of 8 Lacs of Rupees ordered to be transferred to the General Education Fund of the Presidency is intended to be appropriated for purposes of Education in the Provinces.—

2— In my Report abovementioned I adhered to a recommendation which I had repeatedly made of allotting the whole of the surplus Pagoda Funds deposited in my Treasury for the support of an Institution for the purposes of Education Established by the Native Community at Bellary

with

Fort St. George 10th December 1846—

with the exception of a thousand Rupees for the erection of a Choultry at the Capital Town of Bellary for the accommodation of Native Travellers But being separately called upon by the Board in the Department of Public Works with reference to the Extract from the Minutes of Consultation under date the 14th July 1846. to report upon what works I propose to disburse the said Funds, I am induced to modify my former views and will accordingly lay before that authority a report of the works (to use the words of Government) "of Public "benefit most acceptable and "valuable to the Native community "generally as Bridges, Choultries "Tanks, or Wells the works to be of "a permanent Character and open

of the General Educational Fund. They think it however probable that when the arrangements in respect to that Fund are more matured, reference will be made upon the subject to the several local Officers, when the Collector should take the opportunity of bringing the circumstances and claims of the Bellary Institution to the notice of Government.

6. Of the 166 wells shown in the Column of increase 112 have been constructed during the year near the circar Sources of irrigation without permission in direct opposition to the Rules contained in the Revised Cowlenamah at an expende of Rupees 4115-14 which on an average amounts to Rupees 36-12 each. The lands cultivated under these Wells are shown in the margin and on which the Fusleyaunty teerwah Rupees 156-3-9 has been carried to Jumabundy Accounts.

7. As these Wells have been constructed by permission distant from the Circar Sources of irrigation at an expende of Rupees 4820-9-0 which at an average amounts to Rupees 29-4-0 per well the fusleyaunty teerwah Rupees 354-14-6 has been remitted.

Season 8. The season under review was very unfavorable and worse than that of the previous fasly. The eight Talooks Trichengode Darampoory Singaracotta Kistnagherry Paramutty Tripatore Denkencotta, and Oshon partial showers of rain fell in April which enabled the Ryots to prepare their lands for ponja cultivation, in some of them Till was sown. In May partial showers fell in all the Talooks with the exception of Kistnaghery & which enabled the Ryots to sow Cumbos Cholum Till &c on their prepared ponjah lands as well as to plough lands for other Cultivation On the Totakal and Nunjah lands dependent on the channel of the rivers was carried on as usual, but lands under Tanks which did not receive their supply were left waste. There was no rain in the Month of June in the Talooks of Namcul Salem Trichengode Darampoory Sankerydroog and Omalore but

Fort St. George 10th December 1846.

but in the other eight Talooks there had been partial showers which were however benefi= =cial to the Till, Cholum and Totakul crops. In the month of July partial rain had fallen in the Namacul Salem and Denkencotta Talooks; the greater portion of Gingely and Banjerah sown in poonjah lands were perished. The Punjah cultivation under Tanks had not been carried on owing to their not having received any supply= of water.-

9. The Talooks of Athoor Tenga= =racotta and Ossoor received partial rain in August but in September there was a general fall of rain throughout the District especially in the Talooks below the Ghat= The early Poonjah crops Ragy &c was withered in many places from the lateness of the rains but it was in this month cultivated to a great exctent. No rain had fallen in the months of October and November except in some Villages in the Trichengode. Athoor Namcul Salem Tenga= =racotta Kistnagherry Denkencottah and Ossoor Talooks which was of little benefit to the Poonjah cultivation which in many places withered. In some parts of the Talooks

of Salem Athoor Namacul Paramutty Trichengode Womalore Darampoory and Tengaracotta slight showers had fallen whereby the Poonjah cultivation was some what Revived in some places but in others were entirely withered. The Punjah Cultivation from the beds of Rivers and Wells even felt the effects of the season but that from Tanks was in some places dried up.-

10. There was no rain in the months of December and January. In February March and April slight showers fell in some parts of the District. The failure of rain which continued almost throughout the year as stated in the preceding Paras. put a stop to the progress of cultivation both Poonjah and Punjah and the Crops on the ground suffered so much from drought as to compel me to solicit the Board's sanction to grant remission on shavee and waste. The produce of the lands cultivated was in Poonjah from 1 to 6 annas and in Punjah under Tanks from 2 to 8 annas. This is below the produce of the preceding year by 3 annas in Poonjah and 9 annas in Punjah under Tanks. The Punjah lands irrigated by river.

river channels alone yielded from 3/4 to a full Crop. The loss of Cattle from Sickness and from want of pasture and water was very great.

Note

15903- Fort St. George 10th December 1846-

on Cocoanut and Arakanut trees which arrived at maturity and partly from the rent of the waste Punjah Garden taken up for cultivation this year.-

14. There is a falling off in Punjah Cultivation of Acres 1549 - 32 - 9 bearing an assessment of Rupees 1509 - 4 - 4 throughout the District excepting 2 Talooks Viz. Kistnagherry and Trepatore. This includes the lands that were relinquished by Ranzenamah as also those for which permission was granted owing to their being left waste from drought

15. The increase in the cultivation of Punjah in the three Talooks Viz. Salem Attoor and Tengaracotta reduced the decrease that took place in the other 11 Talooks in the same item to Acres 3417 - 4 - 15 bearing Teerah Rupees 15013 - 3 - 4 in which the amount of remission granted for waste is included. The total decrease inclusive of Punjah and Poonjah amounts to Rupees 30522 - 7 - 4 from which deducting the increase in the Cultivation of Punjah Bagayet and Punjah Bagayet of Rupees 2004 - 6 - 10 there remains a Net decrease of Rupees 28518 - 1 - 6.

16. From the under written Statement it will be observed that the

Fort St. George 10th December 1846.

the increase in the prices of grain of every description is great and caused by a failure of the crops This in itself has been the cause of great depression and distress throughout the District.

Deductions

33. The total amount of deductions made in the settlement of the fusly under review is as shewn in Statement A. Rupees 117241-- 9 and exhibits as compared with that of the preceding year an increase of Rupees 13802- 5- 1.

34- The first item of increased deduction is Rupees 13762- 15- 9 being remission granted on Shavee of Nunjah and Ponjah cultivation as per instructions from the Board dated 29th January 1846 - Statement No 19 exhibits the particulars of this remission. The second item is Rupees 39- 5- 4 being the increased one third Collection of the Aggrar Villages under Circar, granted to the Aggrardars - In this case the one third Collection of the aggrar Villages payable to the Aggrardars increases or decreases in proportion to the cultivation of those Villages.-

35- The decrease in the deductions amounting to Rupees 2792- 10- 1 is composed of the following items:—

Remission granted on Sooka vary lands left uncultivated from drought	31- 8- 10	
The quantity of Nunjah Cowle land left waste being less than that of the preceding year the amount of remission granted on that account is—	79- 4- 6	
The amount of Land Revenue being far below that of the preceding year the allowance of the Village Sibbendy has also been reduced and exhibits a decrease of Rupees ------	1950- 7- 2-	
From the decreased cultivation in the Aggrar Villages which are under the Circar management the one third share granted to Aggrardars also shews a decrease of Rupees—	619- -- 5	
From the decreased cultivation under the Dasabundum Tanks the share granted to Dasabundum Enamdars shew a decrease of Rupees—	110- 5- 2-	
	2792- 10- --	

36- The decrease under the head of

of "Quit-rent on Jodigy Villages" of Rupees 3026-15-6 is produced from the transfer of Aggrar Villages / Comalah pooram and Seroomalanahmasamoodrum / from the head of Jodigy to that of the Circar Villages agreeably to the instructions from the Board, dated 11th December 1845.

37. The Jodigy of Seroomalanahmasamoodrum is ——— Rs 1116-7-"
and that of Camalapooram is ——— 1910-8-6
3026-15-6

but in consequence of Seroomalanahmasamoodrum having been left uncultivated by the Aggrardars and Ryots in the year under review a loss of the full amount of Jodigy / Rupees 1116-7-" / occurred. At present fifteen Sixteenths of the Ayacut lands of the Village have been brought under cultivation.

38. The settlement of the Camalapooram Village was made in accordance with the practice obtained in the Circar Villages, and individual putta's were distributed. The extent of lands cultivated was as follows Viz^z.—

	acres	Gr	a	Rs		
Poonjah	149.	32.	2.	511.	5.	11.
Poonjah Garden	6.	23.	6.	29.	2.	5

Motarpha				4.	6.	-
				894.	6.	5
Deduct Sibbendy charges				35.	12.	4
				858.	10.	1

This sum being deducted from the Amount of Jodigy, the actual decrease in the Jodigy of Camalapooram Villages Amounts to Rupees 751-11-5-

The cause of this decrease is attributed to the bad season.

39. The Statement entered in the Margin exhibits the comparative demand collection and balance of Fusly 1254 and 1255. The balance of fusly 1255 which stood against the Jaury Mootahs and Summanie Villages up to the end of October 1846 of the current fusly amounted to Rupees 15,109-3-4- Of which Rupees 13,326-11-7 were the balance against the Jaury and the remainder Rupees 5,782-7-9 against the Summanny Villages.-

40- The Summanie Balance gives a per centage of

as a. p.
of 4- 4- 4 on the total amount of Summah, the cause of so great a balance outstanding is from the failure of Crops the only source from which the Ryots are enabled to meet the Circar demands. In all cases of this nature no remission was granted even in the season of extraordinary scarcity- After the collections are made from the balance outstanding in the Months of November and December- a separate report will be submitted to obtain the sanction of Government for remitting any balance which may be due at that period.-

Outstanding Balance of former years.

41- Of the Jaury Mootah balance of Rupees 13,326-11-7, Rupees 4,642-4-4 were realized in the Talooks, but of the remainder Rupees 8684-7-3 Rupees 6534-2-- were due by the Noolahully and Molipully Estates which were sold by public auction on the 28th October, and the sale sanctioned by the Board in their proceedings of the 5th November 1846, and Rs 2150-5-3- are due by the Summudoor Estates the sale of which has been postponed pending the receipt of further orders from the Board.-

6th. The decrease in the Collections during the present year as appears in the above Statement Rupees 1,71,092-7-11 is owing to the successive adverse seasons throughout the District which has been the cause of great distress to the cultivating Ryots.

7th. The charges in the year under review exhibits a Net decreased of Rupees 712-12- which was partly occasioned from the salary of the Extra Assistant Mr Shubrick being drawn only upto the Month of November, and partly from the decreased repairs of the Revenue buildings Vcu Statements No 11 and 15 exhibit the particulars of the Collections and Charges.

49. The number of Ploughs employed by Ryots in Cultivation was 35501 or below that of fasly 1254 / A.D. 1844/45 by 646. This decrease is attributed to the bad seasons which induced the poorer Ryots to give up their lands. The Ploughs belonging to the Ryots to whom remission was granted for waste are also included in the above number. From the same cause a decrease (1177) was occasioned in the number of Puttahs.

Banjar brought to account.

50. The extent of waste lands brought to account this year was acres 4346-36-6 the Tarij of which is Rupees 5569-10-1 and exhibits a Net decrease after deducting a small increase of acres 13-18-12 Tarij 10-3-1 of acres 1739-10-3 Rupees 3492-6-5 occasioned from the remission granted on Banjar lands of the poorer Ryots. The particulars of this decrease are fully shewn in the subjoined Statement.

51 There appears by the above statement a decrease in the Coulc cultivation of Rupees 5085-2-7 as also Rupees 6429-7-11 under the head of "Coulc land for which assessment &c. were fixed by Mr. Cockburn" the former is occasioned partly by the Coulcs coming to full teeruah and partly by disallowing the granting of coulc to the Ryots who possess no patent lands, and limiting the grant of it only to the Patentdars so that the coulc land granted may not exceed the extent of their patent land as per Rule 1 of the revised Coulcnamah and the latter is owing to the lands left hunjer by indigent ryots being deducted in the Summabundy accounts and to lands coming to full assessment on the death of the original holders.

55 The particulars of the decrease in the Progressive Coulc as as follows.—

60 Prior to the promulgation of rule 4th in the revised Sankrumunah of Fusly 1254 the Ryots of the Dendicotah and 4 four Talooks had possession of pasture land without any limit or restriction to any extent they pleased but at present each Ryot possesses no more than a spot equivalent to

Fort St. George 10th December 1846

to one fourth of the extent of this patent agreeably to the spirit of the above rule. The extent of land held at this rate in these 2 Talooks together with its taxes is as follows—

	Extent	Fixed Teeruh	Summah Chuvoy or 1/4 of the Fixed Teeruh
Acres	4308-20	4069-6	1018-1-0

The total amount of grazing taxe paid on lands in the 5 Talighaut and 2 Balaghaut Talooks is Rupees 7247-0-11-

61 In the 4 Baramahl Talooks Viz. Darampoory, Tengaracotta, Kristnagherry and Tripatoor the practice of paying grazing taxe to Government does not exist, every Ryot is entitled to graze his cattle free on the Circar waste land this privilege is allowed by the provisions of the above rules.

62 Besides the above there is a general practice of levying grazing taxe on cattle belonging to the different castes of people, Mahomedans and Bramins excepted, in the 8 Talooks below the Ghats, but as there being various rates and ways of levying this taxe in each of these Talooks, I cannot enter into these particulars but individual pattahs have always been granted in these cases at the time of

Fort St George 10th December 1846

of settlement and the taxe levied accordingly which amounts to Rupees 2265-12-9-

63 The Paya Pillary taxe amounts to Rupees 250-0-0. This taxe has always been rented out to the highest bidder who has a Controul over the jungle pastures within the following limits Viz. from Narrasingapoorum the Eastern extremity of the Salem Talook to Mulloor and Anticompully on the South in the Razipoor Talook and from the Cauvery river in the limits of Soungapully Village in the Womalore Talook in the East and on the North as far as Paulcode Village in the Darampoory Talook. The Shepherds who graze their flocks in these limits pay the renter a taxe of 8 Annas per 100 Sheep per Month. The instalments for paying this rent to the Circar are three Viz. from May to July. The total amount of the 2 items Viz. Taxe on Cattle and the rent of Paya Pillary is Rupees 2515-2-9-

64. In the Talook of Dunkencotta the five Currahs Viz. Anchatty, Addarany, Maichahully, Nauttarumpallem and Pennahully are rented out the amount of the Pillary Rent of the present year is ——— Pa. 300-0-0

Besides

Besides this, the tase paid by the Ryots of these 5 Currals, as per puttahs granted to them to the Circar at the rate of Rupees 8-14-6 per every 100 heads of cattle is 1139-6-6.

65 The renter of the above 5 Currals levies a gra:=zing tase on cattle brought there for pasture from the neighbouring Taloks, but the ryots of the local Villages, Bramins, Mahomedans, Vaidus, Shepherds who live in the jungle, Christians, Caragapoo:=dary and Tolies excepted, pay grazing tax on cattle direct to the Circar as stated in the preceding para. The ploughing Bullocks and calves are exempted from tase. A ruined aggrar Village which formerly paid Jodigy to the Circar in the Denkencottah Taloak has also been annually rent:=ted out as pasture land, the two thirds of the tase after deducting one third to the aggrarundars is Rupees 36-6-2 which is added to the above 2 items make a total of Rupees 1976-12-8. The grand total of the grazing tase of the District is Rupees 11738-10-4. These several taxes are imposed in accordance with the system which obtains in the Taloks.

Answer to Para 26.

69 Orders have been sent to the Tahsildars

Fort St. George 10th December 1846

Talookdars requiring them to furnish Returns to the Huzzoor shewing to what exctent the Ryots have actually abandoned their own Villages for lands in other parts of the District, and on the other hand, how far the abandonment of lands was followed by reoccupation of other lands in the same Village by the same individuals. On the receipt of these Returns from the Talooks a report to accompany that promised in para 28 will be prepared and forwarded for the Boards information.

Answer to Paras 27 & 28

70. In para 27 the Board state that they should be explicitly informed whether the exemption from additional taxation in the case of new wells is confined to such Ryots only as retained their usual Holdings, and what the exctent of such Holdings / they say in Para 28 / with the number of wells and the Costs of their construction being sufficient, they do not wish other particulars regarding the new wells to be laid before them. I therefore beg to state what is necessary for their information.

71. The new wells constructed from fusly 1230 to fusly 1258 together with their Costs and the exctent of lands cultivated

Rupees 91-11-7 paid by the holders being added makes a total Rupees 81104-1-7. These Ryots are

are not in the habit of contracting or relinquishing any portion of the cultivation of their patent lands. In the event of their doing so they are subjected to Jodijaudy Teerwa on the land cultivated under their private wells agreeably to the provisions contained in the Hookoomnamah and Coulenamah. Statement No. 21 will exhibit the particulars of this cultivation.

Answer to para 30.

72 The Board in para 30 observe that there was a discrepancy in statements No. 2 and 9 forwarded with my Summabundy report for fusly 1254 in regards to remission granted for lands [illegible] Coule but I beg to state that the amount of Rs. 275-10-10 shewn in Column 76 of statement No. 2 is correct. Of which sum Rupees 28-11-2 shewn in column 72 of statement No. 9 was the remission granted as progressive Coule land left unjey, and the remainder Rupees 246-15-8 being the remission granted on lands that arrived from ½ to full assessment in fusly 1254 was not shewn in that statement.

73. I think that I have now disposed of most of the subjects which require particular observations with the

the exception of those which are left to be reported on separately. The accompanying report on the Sub Division requires very few remarks being in itself so clear and explicit on every point.

The severe effects of the very
74 adverse season were as exceptionally felt in the Sub Division as throughout the District generally, but after the long threatened discussion the subject has undergone, all the it is imperatively necessary to enable the poorer ryots to recover from the pressure to afford them every legitimate of the season. [illegible] I cannot concur with Mr. Maltby indulgence, in recommending a perfect relaxation of the rules as to the relinquishment of land, tho' I admit that in many instances brought to my notice the Tahsildars by putting a too stringent or literal construction on the rules their refusal to accept cauze: enamahs has been prejudicial to the interests of Government and injurious to the people for instance if a ryot wishes to throw up a piece of poonjah land the Tahsildars by the present rule refuse to allow him to do so if he has any [illegible] the

the one spot may be perfectly distinct from the other, and even in another village, and perhaps after he may have held the latter land some thirty years and the poonja 4 or 5- The effect is bad as it forces a ryot to cultivate more than he has stock or Capital for, and deters others from taking up fresh spots of land for fear of being saddled with them for ever, or being obliged to throw up their good land to get rid of them, to remedy this evil which appears to me to have a direct tendency to repress cultivation, instead of to stimulate it, I should wish to put a construction on the rule, and which I think without alteration it can very well bear, that a spot of land separately taken may be separately thrown up, when the Cowle lands if any have arrived at full assessment-

95 Five eighths of the ryots in this District are in poor circumstances and have very small holdings and cannot afford to manure their lands and consequently are obliged to throw up every 2 or 3 years when exhausted and take up others left

left waste and the accruals of the lands thus taken up rarely counterbalances the lands relinquished- this has been particularly the case for the last three severe seasons the unfavorable years it is likely the whole quantity of land relinquished would be retaken-

96 Mr. Mattley mentions the orders of the Board with regard to Shanee remissions as having been received on the 8th april last the Board will observe it was only on that date that he joined the District till then from the time of the departure of the late Sub Collector I was alone in the Revenue charge of the District and engaged in the settlement of Talooks in which the Crops were in a worse state- Orders had been given to investigate all claims for remission according to the instructions of the Board but the accounts furnished were not to be depended on and were as properly rejected, and the indulgence shewn in relaxing the demands against the poorer ryots has had a better effect than granting remissions on uncertain accounts to those who could command most influence and least required

Equired the indulgence.

No 16.

To W. E. Lockhart Esqre
Collector of Salem

Sir,

Para 1. I have the honor to report upon the settlement of the Land Revenue for Fusly 1255 of the four Talooks of Senkerrydroog, Trichendore, Paramutty & Namcul under my charge —

2 I joined the District on the 8th of April as Sub Collector, and shortly afterwards commenced the settlement in the Shenkerrydroog Talook, The settlement of Namcul had been already made by yourself with the exception of a few Villages regarding which further investigation was required, but I have thought it better that the Accounts of all four Talooks should be united as usual —

3 In the accompanying Accounts I have followed the form and order adopted by my predecessor, They are

No 1 Revenue from Estates

No 2 Settlement of Government Lands

No 3 Statement Comparative of the Revenue of the present and preceding year

No 4 Detailed Statement of Cultivation with explanation of the causes of

of increase and decrease—

N°5 Statement of waste lands included in the Settlement—

N°6 Abstract Statement of lands held on Cowle—

N°7 Statement of the average prices of Grain

Settlement 4 The Ryots were assembled in the Senkerrydroog Talook at Conarapollieum on the banks of the Cauvery the excessive drought rendered this preferable to the Cusbah Station. In the Trichendore Talook the settlement was made at the Cusbah in the Paramutty Talook at Vayloor, and in Kamcul at the Cusbah by yourself, and completed at Moganoor by me—

Season— 5 The past season has been particularly unfavorable and I regret to say has entailed much suffering upon the people when I arrived in April the Country was parched up, the wells in many places were dry, the price of grain had risen enormously and the scarcity of pasturage and water caused an extensive mortality among the Cattle— Sickness the usual accompaniment of scanty food,

was

was very prevalent, and the ravages of the Cholera were extensive and severe— This is a painful account to give, but you are aware that the scarcity only fell a little short of famine—

Prices of Grain 6. In Fasly 1253 there was a rise in the general price of grain of Rupees 7 1 10¾ per Cent above the average of 1252— In 1254 there was a farther rise of 6 15 a 8 above the price of 1253— In the Fasly under Report there was a further rise of no less than 36 15/16 per Cent upon this already high price— nor does even this adequately represent the pressure upon the lower classes— Camboo and Cholum are the chief Subsistence of the working population in this District, the rise in the price of these Articles is still greater as shewn in the subjoined Abstract—

Villages and Hamlets.

The following abstract shews the number of Villages and Hamlets under Government and the landed proprietors—

	145	339	484	204	637	841	349	976	1325

It differs from the corresponding abstract of the last year only in the transfer of one Village from the head of "Jodigy" to that of "Jin". This was the Village of Terconialamah-masamoodrum in the Paramutty Talook attached by order of Government—

Puttahs and Holders.

8. In the Fusly under review the Total number of Holders was 37,399, that of Puttahs was 27283; that of the Ploughs used was 17504, shewing on comparision with last year a decrease under the head of holders— of

of 619 under that of Puttahs of 517, and under that of Ploughs of 876.

The particulars of increase and decrease are shewn below—

Ryots who have resigned their lands &c. by Kaujeenamahs	2654	1856	1063
Do who have died	42	38	14
Do who have deserted to other Villages, Talooks or Districts	51	49	15

Do who have succeeded to deceased cultivators	309	"	"
Moturpha Puttahdars who have become Cultivators of land	207	203	104
Total	2190	1459	743

The decrease arises entirely from the excess of the number of those who have thrown up

Fort St. George 10th December 1846.

up over those who have taken lands. This is the effect of a season so adverse following two which were unfavorable. And here I would beg to state my conviction that perfect freedom in throwing up lands which unfavorable season deprive the Ryots of the power of cultivating can alone give to the cultivation of the Country that elasticity which enables it to recover so from the pressure of such a season as the past. This alone can enable the poorer Ryot to husband his resources for better times: but with this freedom though the independent holder of the less favored land may contract his holding or sink for a season into the hired labourer he is prepared to resume his former position as soon as the season encourages the cultivation of the less favored spots.

Cultivation. 9. The state of cultivation in comparison with the previous season is shewn in the subjoined table.

Fort St. George 10th December 1856

It exhibits a net decrease of Acres 6404-30 in extent bearing an assessment of 7,205-0-4 you will observe that the principal decreaise is on the cultivation of dry land and is an effect naturally resulting from the season. On garden land there is a slight increase. The decrease in wet cultivation is partly owing to the inefficient state of the Moganoor Channel, and generally to the deficient supply of water on some of the Tanks.

Revenue 10. The settlement of the whole land Revenue in the Sub Division for Fusly 1253 amounts to 60,182-3-1 after deducting the usual Village

Fort St. George 10th December 1856

Village expenses. This added to the Revenue from Extra Sources amounting to Rupees 3,508-14-3 gives a Total of Rupees 63,991-1-4. On comparison with the past fusly there is a decrease in the land Revenue of Rupees 6,675-13-3, and an increase on the Revenue from extra Sources of Rupees 2,014-7-11 giving a Net decrease of Rupees 4,661-5-4. The sum of Rupees 1,416-7-0 of this sum is owing to the Agraharums of Tiroomalanamah-samoodrum having been left waste on its attachment by the Government. The remainder is owing to the Causes above assigned and the usual Casualties of the Season.

The Principal details are shown in the subjoined abstract.

The demand for assessment on these fallows formed however the exception. The adverse nature of the season obliged me to shew much indulgence towards the poorer holders who had been compelled to leave their lands uncultivated. Any other course would have been attended with severe hardship. The Ryots were repeatedly and distinctly warned that this would not be allowed to form a precedent for relaxing the rules under which they hold their lands.

General Result

17. The general result of the settlement is shewn in the following table. It exhibits a Net decrease of Rupees 7,205 — 4. The table shews that the gradual advance of improvement shewn by the transfer of lands to a higher class has been more than counterbalanced by the pressure of the season an effect which I hope an indulgent system will render only temporary.

The result appears to me to be very satisfactory in so unfavorable a season. It seems to me to prove that the Natives appreciate more fully the advantages of permanent sources of irrigation.

Emigrants

15 The number of Emigrants reported in this year amounts to 51 and the extent of land left waste to 124-33-5 bearing an assessment of Rupees 165-10-2.

The annexed table shews the Districts to which they are said to have resorted.

Corrections according to the Canny Standard.

17 The corrections in deviations from the Canny accounts have been as follows. On 6-2-10 reductions were made to the Amount of 14-11-5. On 4-6-10 an increase was made of Rupees 11-10-2. The result is a decrease of Revenue of Rupees 3-1-3.

Charges of Cultivation from one to two crops in the Village Cravendoor.

18. In the village of Cravendoor the assessment varies yearly as the land is Cultivated with one or with two crops. The fluctuations shew a decrease of Rupees 104-11-8. and an increase of Rupees 9-10-9. giving a Net decrease of Rupees 95-1-11. The imperfect state of the Nullah supplying the means of irrigation is the principal cause of this deficiency as well as of much land being left waste. Rs 6: sanction for the repair of the Nullah has lately been received.

Decrease from Village

19. The Beriz of Indigy villages for last year was Rupees 9827-3 In the present the village of Seroorealaramakrishnaramanoor having been attached by the Government this item is diminished on the sum of Rupees 1167- leaving a balance of Rupees 8,660-9-3.

Remissions on Cowle Rayatt lands.

24. The sum of Rupees 31-2-10. was remitted on lands for which the supply of water failed. The amount is Rupees 2-8-6 in excess of the remissions of last year.

Village Establishments.

25. The amount deducted from the Summah of the four Talooks under this head is Rupees 21894-2-3. being Rupees 335-4-6 less than that of last year. The fluctuation is dependent upon the state of Cultivation and has been affected by the depression of the present season. A deduction to the amount of Rupees 19-4-- is also caused by the attachment of the Agraharums of Soroondah Ramaswamy. This sum was erroneously charged on the Government assessment of the village instead of the land held by the Brahmins; and by the attachment has now ceased. a separate padash was addressed to you on the subject under date the 27th April 1844.

Sechawaly or Remissions to Brahmins and Mussulmans.

26. The remissions allowed under this head in the last Fusly amounted to the sum of Rupees 22-9 In the present Fusly is a decrease of Rupees 4-11-9. This arose from land bearing this indulgence to the extent of Rupees 7-2-10 being thereon upon which Rupees 2-7-1 was remitted on Cowle land held by Brahmins which in the present year reached full assessment.

Shawee or Remission for Crops destroyed by drought.

27. Under this heads remissions were granted in the Nawaub Talook to the extent of Rupees 1286-5-4. Of this sum Rupees 681-3-2 was on land watered by the Mogaroon Nullah, and the balance on land watered by various Nullah and Tanks with Rupees 7-15-9 on Bagayet land watered from a Tank.

The Orders of the Board of Revenue communicated with your letter of the 8th April last sanctioned the granting of Shawee remission during the present unfavorable season. The claims of remission under this section were almost universal in my Talooks, but I found myself compelled to reject them except in the few instances above stated. The applications were not made till a late period. The Crops

crops were no longer on the ground; and although it was clear that the crops had suffered greatly there was no possible means of preparing the accounts required by the Board. In some instances investigation had been ordered, but I found the accounts prepared on the recollection of persons, who stated as they had seen the Crops, utterly unworthy of Credit. Under these circumstances my only Course was to reject them entirely. To have done otherwise would have been to have granted remissions to those who could command most influence in the village, that is to those who had required the indulgence. Under these circumstances I rejected the Accounts and settlement was made as in the usual manner, and in fact the requisitions of the Board to entitle the parties to shairee remissions were seldom found. It was rarely the case that the crop was not gathered in but it was almost universally a most deficient Crop.

The Remissions granted in Mannacad were in three exceptions on Punjah lands where the supply of water had failed the

two exceptions was a garden watered by a Tank taken up this year, and where the failure of the Tank had prevented any crop being obtained. The Shairee in these cases was ascertained.

Collections. 30

The land Revenues of the year under review on lands under Government management amounts to Rupees 3,36,886-6-10 of which 2,69,372-2-5 were collected within the fusly leaving a balance of Rupees 67,484-6-5. of this the sum of Rupees 4,907-15-3. has been collected within the Months of August and September leaving a balance of Rupees 25,476-7-2. Of this balance the sum of Rupees 6,271-1-5 is reported to be irrecoverable, the sum of Rupees 161-14-10 is due from the villages of Coodoodanay &c. depending upon the decision of the Board, and the remaining sum of Rupees 18,653-6-11 is reported to be recoverable and it is expected that the greater portion will be collected in the course of October and November.

A Report on the subject of Coodoodanay villages was submitted to you on the 20th September last. The amount of balance awaiting the decision of the Board, being the accumulated annual difference between the assessment and the collections since 1247 amounts to Rupees 362-9-11. The balance in the preceding year Rupees 151-14-10. exceeds that of last year in the sum of Rupees 5-14-5. in consequence of the cultivation of a waste land upon which the same balance accrues as upon the rest of the lands.

Of the sum of Rupees 6,271-1-5 reported as irrecoverable the sum of Rupees 516-8-5. was suspended by my directions on investigation held during the Summa Shundy. the balance Rupees 5,755-9-11 will form the subject of enquiry during the current settlement.

Of the above sum of 516-8-5 a balance of Rupees 13-14-10 due from the Pergany of Malagaunah, formed the subject of my predecessors letter under date the 21st November 1844 and of an Yadast under date the 1st October of that year.

Moturpha. 31. The Revenue under the head amounts to Rupees 21,583-10-6. of which Rupees 18,759-6-11 were collected within the fusly leaving a balance of Rupees 2,824-3-7. of this balance the sum of Rupees 2,040-14-10. has been Collected up to the end of September leaving the sum of Rupees 783-4-9 still outstanding. The sum of Rupees 181-9-11 is reported as

32.

The Revenue from small farms amounts to Rupees 3960-3-9. of this the sum of 3051-3-9. was collected within the Fasly. of the remaining sum of Rupees 909—— Rupees 809—— have been collected and the balance of Rupees 100. will shortly be re-

Revenue from Mootahs.

33.

The Revenue for Fasly 1255 is Rupees 24,38,35-12-3. of which the amount credited on account of Meturpha is Rupees 4,077—12-4. The amount collected within the Fasly is 24,27,38-7-5 Total Rupees 24,81,816-3-9 Of the Remaining Rupees 10,809-8-8 the sum of Rupees 5913-6-7 has been collected up to the end of September. The balance Rupees 4,95,96-1-11 is due from one Mootah in the Sirkarry 2 Mootahs in that of the Fuzlengade, and 3 in that of Carawally and will be collected within the time fixed for the sale of attached Mootahs.

No. 1.

Translation of a Plaint in suit No. 9 of 1846 dated 28th February and received 29th June 1846.

Plaintiff Vestinoo Bhut of Bullapaddoo, a rayet in the Village of Oobrungul, Nellaniyay Mogany Bindwal Talook.

Defts.

1 J. L. Blane Esqr. Collector of Canara.
2 Bonifice Fernandes Tahsildar of Bekul.
3 Kistnia Sett. shanbogue of Paddy.
4 Devapah son of Sheedragiri Sorlin sheragar in Moolgar Village in the said Paddy Mogany.
5 Kistna Bhutt son of the elder brother of Sreemuzul Narna Bhutt in the Oobrungul Village.

I claim from these Defendants exclusively of other accounts regarding the 4th and 5th defendants, as follows.

My vurg registered in the name of my ancestor Varaina of Bullapaddoo, is assessed with a Berij of 15 Pagodas and odd and situate in the Village of Oobrungal. Of this Vurg a portion of 6 Pagodas Berij called "Sree Muzal land," is enjoyed by me in virtue of the Pottah obtained from the Coomblah Rajah Below the hill mentioned in the said Pottah as the Eastern

Fort St. George 10th December 1846.

Eastern boundary stands on its western side, a Pudpoo land known by name of Bachitotta, and a tank in it, which I kept in repair, and which irrigated the sooghly Crop Chilly, Vegetables &c. grown by me on a Moodi seed land out of the said Bachitotta land, besides my Cattle drinking water out of the said Tank. Part of the said land, with 5 Pagodas Berij on it including the said Pudpoo and water was mortgaged by me to Narna Bhutt the ancestor of the 5th Defendant for 73 Pagodas about the year Taranna 1823/24. On the strength of this mortgage the 5th Defendant began to improve the Pudpoo ground close by the Tank, when the 4th Defendant alleged that he had obtained that Spot on Moolgueni from the younger brother of the 5th Defendant and taking occasion to quarrel among themselves, lodged a complaint against the 5th defendant falsely charging him with having forcibly broken down his house and made away with it. After receiving the complaint the Peshcar of Potoor examined him (4th Defendant) who falsely stated that the ground called Bachitotta belonged to the Neerage Village while it really formed part of my vurg in the Oobrungul Village. On the ground of the spot being situated in the Neerage Village

Fort St. George 10th December 1845.

Village the Peshcar referred it to the 2nd Defendant as situated within his jurisdiction. The 2nd defendant sent a Tarkeed to the 3rd defendant on the subject who according to the dictates of the 5th Defendant, took a Mahzar (declaration) from the Potail and other heads of the Neeraje Village on the 9th August 1844. They stated therein that the Inam-mungal land was included in the Cabrungal Village; that the Pudpoo i.e "Backelotta", and Tank belonged to the said land; but that the spot was entered under the Neeraje Village as regards the Coonery Corlaya or tax, the latter part of the statement being utterly false. It is to be observed that the Cooneri cultivation is usually carried on upon the hill much above that Pudpoo and Tank, but no such cultivation has ever been conducted nor can it be undertaken at that Pudpoo ground which is near the Tank such Mahzar was submitted by the 3d to the 2nd defendant with a report. The 2nd Defendant having again called upon the 3d for inquiry and report regarding the water there, the 3d without making any inquiry into that point submitted a report in favor of the 5th defendant that my land did not at all depend on the spring

Fort St. George 11th December 1845.

spring for any supply of water, without taking even a Mahzar (declaration) from Mokhtesars on the subject. The 2nd defendant instead of holding inquiry into such report which was very necessary under the circumstances of the case, relying on such unfounded statement submitted his own, expressing his opinion to the effect that the water which was indispensible for the crops of Sooghy (rice) Vizt was no longer required for my land, and that the ground in question was a Government waste and recommended to Mr Thompson Acting Principal Collector that it might be given to the 4th defendant according to his durkhast. Upon such vague report, the Acting Principal Collector without further inquiry directed by an order of the 2nd October 1254/1844 that the Tahsildar (2nd Defendant) should make over to the 4th defendant the ground in question and accordingly the same with Wasiqa gamy Beriz. Under this order the 5th defendant was put in possession of the ground which belonged to me, and he levelled the bank of the Tank and let the water run to the Pudpoo in consequence of which the sooghy crops and those of Castor Vizt raised by the 5th Defendant were deserted, and the cattle prevented drinking from the Tank. The 5th

5th Defendant then complained of this, and the Pootoor Peshcar referred the complaint to the Nellaniyay Monegar for inquiry - The Monegar held inquiry and took Mahzurr-na-mah from the Potails and Mokteesars of the Colcrungal and Mudiar Villages under date the 15th January 1254/1845 stating that in consequence of the bank having been destroyed and the spring stopped the Coogly Crops Vegetables, Castor and Chilly were dried and injured, the consequent loss being estimated at 12 Rupees - that the spring was in my enjoyment, and that my cattle benefitted by it, and that the 4th defendant had out of hostile feelings towards me, offered a durkhast for the ground in question.

The Peshcar submitted his report accordingly and received an order dated 29th February confirming the former order on the subject. I then presented a Petition to the 1st defendant, representing that I was to lose my property without any reason for it in consequence of quarrels and hostility between the 4th and 5th defendants and in reply without inquiry, I was told that no orders would be passed thereon as the ground in question had been made over to

to the 5th defendant and Chillas are now under preparation, the 5th defendant being asked to restore the land on receipt of the Mortgage money, declines doing so, on plea of the ground in question having been made over to the 4th defendant through the wrongful proceedings of the remaining defendants - the 1st defendant - is now the Officer that has succeeded to the Acting Principal Collector who issued the first order in the case and as the unfounded reports of the 2d and 3d defendants were the cause of the ground in question being made over to the 4th defendant; I sue all the defendants as aforesaid.

I therefore pray that the reports made by the 2d and 3d defendants together with the durkhast of the 5th defendant which has been unjustly confirmed regarding the foresaid Bachitotta forming part of the land of the 5 Pagodas Berij which has been mortgaged to the 5th Defendant; may be cancelled and that this (5th) defendant may be made to receive his mortgage money and restore the entire land, garden, jungle, waste, Pudpoo &c called

called Inemmzal together with the springs of water in question supplying water to my fields and cattle, all these producing annually 40 Rupees within the following boundaries.

Brow of the Hills on the East

Yadabelli on the South

Brow of the Hill on the West

Kugan baina on the North

I pray that the land within the above named boundaries may be made over to me and the damages which I have sustained during these 2 years amounting to 24 Rupees caused to be paid to me by the 5 Defendants.

Collector

Draft

Fort St. George 10th. December 1846.

No 7.

Draft of an answer to be filed in suit No 9 of 1846.

Vistnoo Bhutt Versus Collector of Canara & four others.

1. The Plaintiff seeks redress against an order of the late Acting Principal Collector and prays that a Pudtoo or waste ground belonging to his (Plaintiffs) wife assessed at Pagodas 15 and odd situated in the Co. brangal Village Nelangay mogany of the Buntwal Talook which has been given on Mofsagamee to Devapah the 1st Defend. and may be restored to him with damages.

2. In answer to this suit the 1st Defendant begs to state as follows.-

3. The Plaintiff grounds his claim on the Pottah stated to have been granted by one of the former Rajahs of Coomblah the waste ground alluded to being included within the boundaries therein mentioned. The Curkar demand amounting to Pagodas 3 - 1 - 11 4/8 C. mentioned in the Pottah is by that document fixed upon 5 Moorahs seeds extent of

magel

mazel and 5 of Bett Land. As the Plaintiff does not allege that any of this cultivated Land upon which the berij was fixed has been given away. it is to be inferred that he has not been deprived of any portion of it. The Pudpoo or waste ground in dispute was of late brought into Cultivation by the 4th Defendant without the permission of the Sircar. Both the 4th and 5th Defendants desired to Cultivate the ground in dispute free of Government rent, and this led to a quarrel between them which led to enquiry and termination. on its being discovered to be extra and concealed cultivation assessable with the public rent.

10. This rent was accordingly demanded from the 5th Defendant and permission was given to him to occupy the land on payment of the just assessment. but on his giving in a written refusal to do so it was granted to the 4th Defendant who appeared to the Collector to be entitled to hold it after him (5th Defendant) on account of his having incurred some expense for it in bringing it under

Cultivation

cultivation.

5. With regard to the Plaintiff's statement that the report of the Bekel to Tahsildar was unfounded and that of the Peetor Peishcar was a correct one. the 1st Defendant begs in the first instance to observe that the Vurg to which the disputed ground is alleged to belong is entered in the accounts of the Cobrangal Village Nattamegay Inogang in Buntwal - while the land forming part of the said Vurg is actually situated in the Moolliar Village Paddy Inogang in Bekul - There is evidence to prove that the taxes on the Coomary Cultivation carried on around this Vurg has been collected and carried to account of the moolliar Village and to that of Cobrangal a fact which enterly invalidates the claim set up by Plaintiff to hold the Pudpoo ground free of rent on the ground of its belonging to his Vurg. The Cobrangal Village formerly belonged to the Rajal of Coorg and that of moolliar to Canara. Even at that time the Coomary tax was collected by the Canara Servants and no objection was ever made to these

ex-

on the part of the Rajah or his Ryots which would certainly have been the case had the land been situated within the boundaries of Cokrangal.

6. With a view to ascertain the truth or otherwise of the Reports submitted by the Behal Tahsildar and Poonamallee Peishcar as stated in the Plaint the 1st Defendant thought it necessary to order these two Officers to meet at the spot in question and after due enquiry to report the result by which report since submitted it appears that the former report of the Behal Tahsildar was well grounded with that of the Peishcar which was founded on a Mazuranamah which there is every reason to believe was procured by the undue influence of the Plaintiff is virtually admitted to have been incorrect.

7. The Plaintiff states that the cultivation of his 300 fields which depended on the water flowing from the grounds in dispute was injured by the said Pudsoo ground being brought under cultivation and the spring of water consequently stopped. But

But this Statement is clearly shown by the joint Report of the Tahsildar and Peishcar to be entirely false and that the Plaintiffs fields have been an abundant supply of water from the other quarters and do not in any way depend upon the water issuing from the Pudsoo which is further shewn to Continue running only for a short time after the rains and to be soon dried up.

8. Under these circumstances the 1st Defendant submits that the suit now brought by the Plaintiff is without ground and vexatious as regards himself and as regards the other Defendants appears to have been only brought for the purpose of annoyance, and he prays therefore that it may be dismissed with Costs.

translate of a Plaint in suit No 9 of 1840 on the file of the subordinate Court of Mangalore, brought by one Vestinoo Bhut against himself and four others, together with the draft of an answer which he proposes to file and requesting permission to defend the suit at the expense of Government.

This suit has been brought by the Plaintiff to obtain possession of a piece of Pudpoo or waste land, alledged by him to form part of his warg, but given by the late Collector for Cultivation, to the 1st Defendant. In his proposed answer the present Collector Contends apparently on good grounds, that the land in question does not belong to the Plaintiffs farm, but is waste land the property of Government, and that it was in consequence properly granted by his Predecessor to the 1st defendant, who had tendered a Deceast for it. His answer appears to the Board to be sufficient, and they therefore beg to recommend that the Collector may be allowed to put it in, and to conduct the defence of the suit

suit as regards himself and the 2d and 3d Defendants being Talook Officers, at the public expense.

that the fraudulent transaction on their part will if required by the Court be proved by the Collector but the Court not having called upon him for so doing he was precluded to do so. Secondly instance the Collector begs to state that the document No. 131 filed on behalf of the Respondents viz. Extract of the Goodeconattoo Jemabundy of the land of Tamerasa Village in the Goodeconadah Purgunah exhibits 11 Cuttiers of Enam land as entered in it in the Plaintiffs name whilst in its original lodged in the Collectors office and from which the document purports to be extracted as well as in other accounts it is clear that there is only 2 Cuttiers of Enam lands belonging to them in that village. The documents Nos 121-122 and 123 are the extracts of the Dowla Sea of some fusleis for the Hyderabad account of Tamerasa village of fusly 1229 there appears an entry of the Hyderabad Cuttiers of the Respondents Enam land in the after part, in which also certain quantity of dary produce having appeared to have included and the Hyderabad quantity having been found in excess of the Enclosure by M. S. Gf. it is inserted at the foot of the said papers that the quantity of the produce has been entered under dary and

therein the initials of Mr. Russell are affixed while such being the case the former Record keeper got an extract of the same to be procured by the Plaintiff only to that part of the contents where in the whole Candies set forth above were inserted omitting the items inserted in the same on the upper part as well as at the foot of the same to enable the Plaintiffs to claim and argue that no dary produce was included in the Enam and on the strength of the same the Plaintiff has been enabled to support his claim Consequently if the Court be pleased to inspect the original lodged in the Collectors office the deceitful acts committed by the former Record Keepers as well as by the Plaintiffs will clearly be evident - The Statement therefore that these objections are totally unsupported and therefore cannot be accepted as having any weight in the case appears without foundation -

11 With respect to the observation on the Decree to the effect that it is stated by the appellant that the Collection of Cottage was made because the produce of dary land was included on the Enam produce and that these assertions are not in any way substantiated neither does he show what

what Sary lands he alludes to neither has he attempted to prove that the Respondents to ever have rented or could rent them. The Collector begs to state that for the purpose of ascertaining and discovering frauds Committed in stating the produce of either enam or Sary lands a rule has obtained in the Revenue branch of estimating the produce and in Consequence of it having been discovered that the produce of certain Enam lands had been fraudulently Represented as fair exceeding the quantity inserted in the Anchanadi and that the Sary produce had fallen below the same the Collectors in former Fasles ordered the Excess produce to be included under Sary and hence the Jamabundy accounts prepared accordingly a reference to Duplicate account of that Village for Fasly 1227 which bears the initial of Wm Russell Than Collector it will be clearly manifest that Wm Russell ordered the Excess produce of the Plaintiffs to be included under Sary but the Plaintiffs having obtained Extract of only such part of the Contents of the said paper as suited their own purposes and presented the same as a document in the Court. The Principal Sudr Ameen drew his conclusion from that document and all the other documents produced

that the Civil Court should inspect the original accounts lodged in the Collectors office did not take his request into consideration. Had the Court examined the original accounts as requested above they would never have come to the Conclusion on the matter which they had come to. The Collection of excess produce found above the Anchanadi quantity being an Established System of Revenue Management Cannot be considered at present as a point liable to objection. As regards the points inserted in the decree "that the respondents have proved the destruction "of their house by fire and it is not improbable "that the documents might have been destroyed "as they have asserted, at all events there is no "cause shewn why this Statement should not "not be credited" The Collector begs to state that if the respondents had proved the destruction of their houses by fire they might in the same manner have given proofs of the documents having been burnt. The objection therefore can hardly be considered as valid.
