256000-0-0

to document similar to the above, were issued by Mr. Arbuthnot for the loans contracted in 1844/45 but Common receipts were given as formerly being to loans received

the Account indicated in the Margin, Amounting to Rupees 256000 for the service of the Rajah.

3.

I offered to give Gr. for a formal Loan as formerly, but the old Gentleman did not seem at all solicitous about it.

4.

The Board express a wish that the debt should be put in a train of early adjustment, and desire that I will report the way in which that may best be effected. The debt can only be liquidated, as heretofore, from the surplus Collections after payment of Peishcush and expenses of management and Maintenance.

The original Bonds were reduced in this manner from five Lacs and forty five thousand to one Lac and eighty thousand Rupees, endorsements to that effect

effect being made on the instrument from time to time, but I am not aware that the payment of this debt is in any way pressing, the greater portion having been very recently borrowed and the interest being moderate. The Bonared debts unliquidated seem much more embarrassing.

5. The Estate of Vizeanagarum is perfectly capable of meeting all its engagements with only ordinary attention, and prudent management. Anticipate that the Current Collections of this year will exceed nine Lacs of Rupees.

6. It does not however appear that Government desire that these debts should be paid off through the Channel of their Officers, so far at least as I can understand their Resolutions. For in the latest Minutes of Consultation with which I have been favored, Viz. of the 28th August last, it is observed "that the Rajah of Vizianagrum must now be left, as all other Zemindars, to make the necessary provision to liquidate the debts incurred

"incurred by his father or by himself,
"by the Mortgage or sale of portions
"of his Estate".

7. I have repeatedly stated that in my judgement the measure here indicated is quite uncalled for, but I need not discuss this point, for it has been intimated, in the Extract from the Minutes of Consultation of the 3d August last, that "no confidence was placed in my "estimate of the Rajahs' liabilities."

8. I am given to understanding that the Rajah is now endeavouring to raise funds privately here to pay off the Benares debts, without some settlement of which it does not seem likely that he can ever quit the place.

9. In reference to the latter para of your letter, I beg to state that acknowledgments of the receipt of the sums remitted were made by Major Carpenter the Governor Generals Agent at Benares to this Office, and an abstract Statement of the manner in which the amount was applied, was furnished in an appendix to an

an Official letter from that Officer dated the 10th May 1845.

Vizagapatam District,
Bimlipatam Governor,
Agents Office, 9th Nov 1845.

Bond No. 1.

I, Arthur Freese Collector and Manager of the Vizianagrum Zemindary do hereby acknowledge to have received, under the sanction of the Honorable the Governor in Council, from Goday Soorie Narrain Row the sum of three Lacks (3,00,000) Rupees for the Zemindar of Vizianagarum as a loan upon the following terms:-

The said loan of 300,000 to bear interest at six (6) per Cent. per Annum payable within three Months after the termination of each Fasly, in default of which the interest to be added to the principal.

The principal sum not to be paid off within two years, but at any subsequent period within the hereafter mentioned period, and in sums not less than (60,000) sixty thousand Rupees.

The Principal and Interest of the debts to be paid off within five years.

Vizagapatam, 1st July 1845.

(No. 3)

Bond No. III.

I, Arthur Freese Esqre Collector and Manager of the Vizianagrum Zemindary do hereby acknowledge to have received on the 15th March 1836 under the sanction of the Board of Revenue from Goday Narrain Row the sum of (50,000) fifty Thousand Rupees for the use of the Zemindar of Vizeanagrum as a loan upon the following terms.

1st

The said loan of 50,000 Rupees to bear interest at 6 per Cent per annum, payable within three Months after the termination of each Fusly in default of which the Interest to be added to the principal.

2nd

The principal sum not to be paid off before one year, but any subsequent period within five years the whole principal sum of 50,000 Rupees to be paid at once.

Vizagapatam, 15th March 1836.

(Signed) A. Freese
Coll.r

Ordered that the foregoing letter and the previous correspondence on the subject be submitted to the

with the following address.

(1-2)

To The Chief Secretary to Government.

To The Chief Secy to Government.

Reporting on the claims of G.L. Narrain Row of Vizagapatam upon the Rajah of Vizianagrum.

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes Consultations 11th July 1845, transmitting to them for report, a letter addressed to the Most Noble the Governor in Council by G.L. Narrain Row of Vizagapatam, regarding his claims upon the Rajah of Vizianagrum, and in reply to submit for the information of Government, the accompanying letters which have been received from the Government Agent at Vizagapatam, to whom reference has been made by the Board upon the subject.

2. From these letters, and from the previous correspondence, as noted in the Margin, it will be perceived that in the years 1835 and 1836 sums amounting in the aggregate to Rupees 5,45,000 were advanced by G.L. Narrain Row for the use of the Rajah of Vizianagrum. These loans which bore interest at 6 per Cent, were negotiated by the Collector of the District on behalf of the Zemindar, then absent at Benares, and loan acknowledgments of the

5,45,000

Margin were executed by that Officer, in his capacity of Manager of the Zemindary.

3. The amount borrowed on behalf of the Rajah from Narrain Row in 1835-1836 as above stated, being in all Rupees 5,45,000, was afterwards reduced, by payments made from time to time from the surplus proceeds of the Estate, to Rupees 180,000. In the years 1844/45 however further sums to the extent of 28,000 were advanced by Narrain Row, to be remitted to Benares, in discharge of the Rajah's debts, and for these common receipts were passed by Mr. Arbuthnot, then Collector of the District, and as Manager of the Vizianagrum estate, acknowledging the receipt, for the service of the Rajah, of the several sums advanced. Thus it will be seen that, the total Amount due by G. S. Narrain Row upon the Vizianagram Zemindary, is Principal Rupees 4,63,000. the interest is stated to be about Rupees 25,000 more.

Narrain Row's Petition dated 5th June 1846.

The

4. The Board have referred to the Collector for his opinion as to the manner in which this debt may be satisfied. In his reply Mr. Smollett states, that it can be discharged only from the Net surplus Collections of the estate, a mode in which the Money borrowed in 1835/36 was reduced from 5,45000 to 180,000 Rupees. He observes however that he is not aware that the payment of Narrain Row's debt is in any way pressing, the greater portion having been very recently borrowed, and the interest being moderate. The Benares debts unliquidated seems, he adds, much more embarrassing, and he is given to understand that the Rajah is endeavouring to raise funds privately in Vizagapatam, to pay off his liabilities at Benares, without which it does not seem likely that he can ever quit the place.

5. The present Zemindar having succeeded to all the liabilities of his father, and the Vizianagrum property being fully able to answer all the demands upon it. Narrain Row can

&c

be under no reasonable apprehension as to the ultimate recovery of the debt due to him. It appears however to the Board, for obvious reasons, to be very desirable that this claim should be placed in train of adjustment as speedily as possible. At the same time it is evident, as remarked by the Government Agent, that the only funds available for this purpose will be the surplus proceeds of the Zemindary. It is observed that the current collections of the estate for the present year are expected to exceed nine lacs of Rupees. The Board would therefore advise that, on the surplus yielded by the property for the current fasly, after deduction of Peishcush and expenses of Management and Maintenance being known, such portion of it as can conveniently be spared, be applied in liquidation of Narrain Row's debt, and that similar payments be made from the net surplus proceeds of the estate in all following years, so long as the Zemindary may remain under the Management of the Government Officers.

And

on the return of the Rajah, and his resuming charge of the Zemindary, the Government Agent should be instructed to effect such arrangement between the Zemindar and Narrain Row, for the discharge of the remainder of the debt due to the latter, as may, under all the circumstances, seem most reasonable, and in accordance with the wishes of the parties concerned.

Proceedings.

(6)

Resolved that the foregoing letter be forwarded for submission to the Most Noble the Governor in Council.

The Board of Revenue have ascertained by reference to the Sub Treasurer that the October Instalment for Palcondah was paid by Messrs. Arbuthnot & Co. into the General Treasury on the 1st of that Month. They would beg however to suggest that the Sub Treasurer be instructed henceforth to notify to the Collector of Vizagapatam the payment or non payment of each instalment as it may become due.

Ordered

Ordered also that the following Proceedings be recorded in Consequence.-

Proceedings

5-7

The Board of Revenue have ascertained by reference to the Sub Treasurer that the October Kist for Palecondah was paid by Messrs Arbuthnot & Co. into the General Treasury on the 1st of that Month. The Collector will therefore be pleased to give Messrs Arbuthnot & Co. credit for the Sum in his account.-

Boards Proceedings
18th May 1846
Do. 18th June- "
B.P. 3-4

Sir

Para 1. With reference to the communications noted in the Margin I have the honor to report for the information of the Board that in conformity with the instructions therein conveyed the Zemindar of Davercottah was put in possession of his Estate on the 6th Instant. Copy of the Enoyetnamah x of the agreement executed by him in my presence addressed to the Zemindar on the occasion and with translations thereof are herewith submitted.-

x No. 1.

x No. 2.

It will be observed from the

2. latter that the Zemindar engages to pay from Fusly 1256. A.D. 1846-47. the reduced Peishcush of Rupees 85650. and to desist from making any Collections hereafter on account of Durbary Charges in consideration of the abolition of which a remission has been made in the Peishcush originally fixed.-

It has been duly notified by me to

3. the Ryots whose interests are affected by the arrangement that the impost has for ever been abolished.-

It-

Vide letter to the Board 17th February 1845. Para 8 and enclosures 1 & 2 in enclosures No. 3.

13-14
24-2-1845

4. It will also be seen from that document as well as the Enoyetnamah that the two Villages alienated by the Zemindar to his Brother, in lieu of subsistence in money fixed at 3000 Rupees per Annum on condition of his paying the Peishcush thereof while the Estate may remain under his management, were made over to him at the same time that he was placed in the management of the Estate. Provision is also therein made for the payment of the allowances to the Zemindar's relatives.

No. 3. 5. The accompanying Account Current shews the amount of Compensation to be made to the Zemindar under the orders of Government on account of Durbary Charges, as well as the amount to be set off against it on account of arrears of Peishcush and the surplus standing to his Credit of which the following is an Abstract.

Comparative

16262. Fort St. George 17th December 1846.

Compensation Money on account of Durbary Charges entered in the Circuit Committee Accounts less 10 per Cent for Charges of Collection from Fusly 1230 to 1255 at 17140 Rupees per annum	C. Rs. As. P. 44364--

Total	36,481 . 9	3,562 1 8	40,043 2 5

&c.

7. In my letter dated 7th February 1845 I reported that the debt due to the Nabob after the abatement made by him, amounted to Rupees 116,000 which he had then agreed to receive by Annual instalments of 7,000 Rupees on condition of this arrangement being sanctioned within one year. This period had expired before the receipt of the Board's instructions and the Nabob considering himself no longer bound by his agreement naturally wished to have some benefit from the increased remission which has been extended to the Zemindar.

8. The parties have however come to terms by which the Nabob has agreed to receive 14,000 Rupees at present, and the remainder at 8,5000 Rupees per Annum instead of 7,000 Rupees. Copy and translation of his agreement is herewith submitted. The Nabob mentioned to the Zemindar in my presence that he would wish to have two or three Villages assigned over to him till his debt may be discharged in lieu of the money payment, and a negociation is now in progress between them and when it is completed the particulars will be reported for the Board's information.

No. 5.

9. Besides the Creditors above noticed there are few others with whom a like composition will

will be effected by the Zemindar at as early a period as may be practicable. In the meantime the Zemindar will have to pay from the surplus funds at his disposal under the arrangement above stated a sum of Rupees 41351. 8. 1, and he has agreed to make over to Government any balance which may remain after providing for the liquidation of the debt due to the remaining Creditors in payment of the ensuing Kist for the Current year.

10. I think it right to notice to the Board that the Account Current now submitted has been framed without charging interest on the Bonded debt due to Government, or the arrear of Peishcush due by the late Zemindar on account of his own management, though I am satisfied that the question has already been set at rest. As regards the first of these items the Board in Para 15 of their Proceedings dated 15th February 1844 recommended the remission of interest on the Bonded debt and this proposition was approved of in Para 4 Minutes of Consultation dated 30th March 1844. In reference to the latter, it is observed that the arrear had accrued shortly after the Zemindar had assumed

× Rupees 41396. 8. 2.

† Rupees as. P. 35847-11-7.

assumed the management of the Estate and under circumstances over which he had no controul. and though in ordinary cases on the occasion of Estates being released from attachment or sold for arrears, interest is charged on the arrear which may have accrued during the Zemindar's management or remitted at the discretion of Government, yet taking all the circumstances of the Davercottah Estate into consideration in connection with the fact that no interest is allowed to the Zemindar on account of the Durbary Charges now reimbursed in which the whole arrear and the Bonded debt due by him is now merged, I do not think that it could have been intended to charge interest on that portion of the arrear which forms part of the remission now ordered.

11. Indeed, if interest should be charged nothing would be left to the Zemindar as surplus funds, and he would still be labouring under public and private liabilities to such an extent as would defeat the benevolent intentions which influenced the Government to make the

	C. Rupees	as.	P.
⊗ Interest on Bonded debt at 5 per Cent per Annum.	88596.	4.	5
Do. on the arrears of Peishcush for Fusly 1244 at 12 per Cent per Annum.	61446	4	9
Total	150042	9	2

the concession which they have ordered in his favor.-

12. I request under the foregoing circumstances to be favored with the Board's early orders for the payment of the surplus money to the Zemindar in appropriation of the private debts under the arrangement above reported.-

Masulipatam Collector's Cutcherry 20th August 1846.---

/Signed/ R. T. Porter.
Collector.-

No. 1.

Translation of an Enoyetnamah issued to Rajah Streemut Yarlagudda Ankeeneedoo Bahadur Zemindar of Davaracotta Purganah

Dated 6th August 1846.

You have submitted two arzees on the 3d January 1845, in the one stating that an over assessment of Peishcush was originally fixed on Davaracotta Purganah belonging to you; that subsequently when your father the late Doorgah Prasadanaidoo was under minority or from Fusly 1230 certain items denominated Durbary charges Vizt which were included in the said Peishcush amount, were discontinued without being collected from the Ryots, and that from this, as well as from the causes arising from

from the untoward nature of the Seasons by which the resources have failed added to a depression in prices, the Peishcush had fallen in arrear to a great amount, and in the other alluding to the circumstance of your having agreed to alienate to your adoptive mother Stree Rajah Doorgha-bhavanamah, two Villages appertaining to Davaracottah Purganah for her maintenance.-

Taking into their consideration the report submitted by me, as regards your Estate as well as the Correspondence which formerly took place relating to the same, the Board of Revenue, Madras Government, and the Indian Government, have been pleased to issue their instructions which the Board of Revenue having forwarded to me with an Extract from the Proceeding dated 18th May last, you are hereby informed of the same as follows.-

1. The item called Durbary Charges Vizt which was included in the Circuit Committee Bariz, with reference to which the Peishcush Amount was determined on the said Davaracottah Estate, having, from Fusly 1230 when the Estate was under the management of the Circar consequent on the minority of the late Zemindar, been discontinued it has been considered that any Money on account of the said item

Cannot

cannot be in future realized from the Ryots and therefore from the average of that item being Rupees 19,044 as entered in the Circuit Committee Bariz a sum of Rupees 1,904 at 10 Rupees p.c Cent on account of wages for Sibbendy entertained to collect the same being deducted the remaindar amount to Rupees 17,140-"-" which is deducted from the Peishcush Rupees 102,690 fixed up to this time on the said Estate and the remaining sum Rupees 85,550-"-"- is determined as annual Peishcush to be paid henceforward.-

Resolving that the amount at Rupees 17,140 p.a year on account of Durbary Charges should be remitted from Fusly 1230 in which the Collection thereof was discontinued upto Fusly 1255 the Board have desired me to make over the management of the Estate to you and to inform them of the arrangements proposed for applying the sum that may remain after the balance of Peishcush d.a due by you upto this time is satisfied from the said amount towards the liquidation of the debts due by you to private individuals.-

3- A sum of Rupees 6,000 was paid on the 14th January 1832 on account of the principal amount of a bond exeecuted by your father

father on the 31st October 1831 or after he attained his Majority in which he had agreed to pay the sum of Rupees 81,800-/being the amount of advances made to him by Government at different times to enable him to liquidate the debts due to private individuals during his Minority/ in half yearly instalments of 6,000 Rupees together with interest at 5 p.c Cent per annum from the dates at which the said advances were made and there therefore remains to be paid to the Circar a sum of Rupees 75,800-1-1- being balance of principal amount on account of the bond above alluded to.-

4- The balance to be recovered from you by the Circar as p.r Statement prepared upto 5th August 1846 is particularized below.-

	Rs	as	ps
Balance of Peishcush for Fusly 1255	1205	7-	8-5-
Arrears due when the Estate was under your fathers management viz.t			
For Fusly 1241	3,584	7-	11-7-
D.o when the Estate was under Zuft	27,253	8-	2-9-
	30,838	5-	14-4-
	32,043	6-	9-
Balance on account of the principal amount of the bond exeecuted by your father	75,800	1-	1-
	396,243	7-	10-

A remission of the amount on account of Durbary Charges Rupees 4,45,640 at Rupees 17,140 per year is to be granted

granted to you for 26 years from Fusly 1230 upto 1255 from which a sum of Rupees 39,243-7-10. which is ascertained to be due by you to the Circar as above specified being deducted the remaining principal sum would appear to be Rupees 49,396-8-2. With regard to the private debts due by you, you and Nabob Intejamuddowla Roostoomjah Rajah ally saheb have presented before me a Samakhea paper dated the 15th July 1845. to the effect that out of the sum Rupees 18,953-8-10 being the amount due to a Decree and Rajeenamah filed in Court a sum of Rupees 7,953-- is remitted to you and that the remaining amount Rupees 11,000 will be paid by you as follows Viz. Rupees 14,000-- in ready Cash and the residue at Rupees 8,500 P. year.-

As regards the other creditors, a report will be submitted to the Board of Revenue when the arrangements proposed by you relating to them are completely understood. The instructions which may be issued by the Revenue Board on perusal of the Statement exhibiting the surplus amount above described, will be duly carried into execution.-

Under the said orders a Hookoom is issued to the Chullapully Tahsildar directing him to make over

over to you the management of your Estate and a Proclamation directing the Ryots to conform to the orders that may be passed by you. Moreover the Money onaccount of Durbary Charges to the amount above specified, which is remitted to you as alluded to above being deducted from Fusly 1230 upto Fusly 1255 from the Peishcush amount payable by you, you are not at all to collect infuture that item from the Ryots. Consequently this Circumstance is also stated in the said Proclamation. you will furnish the Tahsildar with a receipt after you may receive Charge of the management from him.-

6. The Kistbundy for the Peishcush amount Rupees 85,550 to be annually paid by you from Fusly 1256 is detailed below.-

	Rupees A. P.
15th October	5,347--
15th November	5,347--
15th December	5,347--
15th January	10,694--
15th February	10,694--
15th March	16,041--
15th April	16,041--
15th May	10,694--
15th June	5,345--
	85,550--

You are to pay into the Circar Treasury punctually

punctually without fail, the amount of each of the Kists as above specified, together with the amount of the allowance usually paid to yarlagudda Venkatadry Naidoo.

Agreeably to a Rajeenamah filed in Cause No. 324 of 1839 of the Masulipatam late Auxiliary Court file stipulating that under the Monthly allowance of Rupees 225 fixed by your father for the maintenance of yarlagudda Vissamah his adoptive Mother, a sum of Rupees 150 will be Monthly paid during the time your Estate continues under Zuft, from the amount paid on account of your Bootand esepenses, and that from the time your Talook is made over to you, you will continue paying the Monthly allowance of Rupees 225 fixed by your father as above stated on account of her maintenance for life; and also agreeably to an arzee addressed to me by your adoptive Mother Stree Rajah Doorgabhavanamah when you were under Minority you are to pay punctually into the Circar Treasury with the Kists of the Peishcush, the Monthly allowance of Rupees 225. to be paid for her maintenance.

8. You have submitted an Arzee under date the 3rd January 1845 stating among other circumstances, that when your

your Estate is to be made over to you, two Villages Viz. Mungullapoorum and Paulunkepaud, should be alienated to your adoptive Mother Stree Rajah Doorgabhavanamah in lieu of her maintenance; that the whole of the Peishcush amount on the whole Estate including the Peishcush &c. payable to the Circar on the said two Villages will be paid by yourself, and that the profit derived from all the items of the hamlets, Gardens &c. situated within the boundaries of the Villages in question, should be enjoyed by her. Independently of this, you have tendered an agreement engaging to make over to her the said two Villages and stating that if per chance, the Estate be placed by the Circar under Zuft Consequent on the non-payment of the Peishcush on the Estate, in any one year, your adoptive Mother should separately pay herself the proportionate Peishcush fixed on the said two Villages and keep them in her possession; and that in the event of the Talook being made over to you again after the Zuft thereon is removed, you will continue to pay the whole of the Peishcush amount including that on the two Villages in question which you will allow to be retained in her possession. You have likewise agreed in the said Rararnamah to the terms specified in this Enoyetnamah. Consequently the Chullapully Tahsildar is directed in the said Pookoom, to make over agreeably to your request the said two Villages to

to Stree Doorgabhavanamah. The proportion amount to be fixed on the two Villages in question, with reference to the apportionment of the Peishcush amou now fixed as per average of the whole of the Villages in the Purganah, will be communicated to you as early as possible after the consent of the Government is known

G. You will continue without fail the Enam Khareejos &c. and the rate of shares to the Ryots usual observed in the said Davaracottah Purganah acc ing to the Custom heretofore observed.

10. It is hoped that you will bear in mi that you have attained the prosperous condition in which you are now placed by the favor of Government towards you and that you will use your best endeavou to secure the extensive improvement of your Estate without any oppression being used towards the Ryots a continue to pay punctually the Peishcush amount Vca due to the Circar, and live in mutu happiness, abiding yourself and your successo by the Regulations hitherto in force and those be hereafter enacted by Government, by the ord that might be issued by the Circar as well as by the terms of the agreement tendered by you

You are to abide by the Orders which ma in furture passed by the Board of Revenue, on the sub of the foregoing Circumstances and the interest of the amount of the Bond executed to Government, an that of the arrear accrued during the Zemindar management.

/Signed/ R. T. Porter,
Collector &c

No 2.

To The Company's Circar

Translation of a Kararnamah drawn out and presented by Streemut Rajah Yarlagudda Ankeenaid Bahadur Zemindar of Davaracotta Purganah.

Dated 6th August 1846.

As I had represented to the Circar that the annual Peishcush originally fixed on my Zemindary Estate of Davaracottah Purganah was highly assessed; that the Collections of Dustoory Charges &ca leviable from the Ryots, which were included in the Peishcush of my Zemindary, has subsequently been discontinued during the time when my father Rajah Yarlagudda Stree Doorgah prasad Ranaidoo Bahadur was a Minor, that is to say from Fusly 1230; and that in consequence of the same as well as from the unfavorableness of the seasons, the consequent scantiness of produce and the falling off in prices the Peishcush has fallen in arrear to the Circar to a considerable extent, R. T. Porter Esqre the Present Collector in the Zillah of Masulipatam has been pleased to communicate the same to the Board of Revenue. The Board of Revenue, the Government of Madras, and the India Government, having with much regard to my Zemindary, taken into their favorable consideration

consideration the recommendation of the Collector as well as the correspondence which formerly took place regarding my Zemindary Estate, were pleased to pass instructions that the arrears of annual Peishcush Vcs outstanding as against my Estate should be recovered from the aggregate amount of Durbary Charges Vcs entered in the Circuit Committee accounts under Peishcush, the Collection of which has been, in consideration that the same can never at all be collected from the Ryots discontinued from these 26 years that is to say from Fusly 1230 to 1255; that the Durbary charges should be deducted from the amount of the annual Peishcush, and the Peishcush on my Estate should henceforward be reduced to Rupees 85,550-- and that the Estate should be made over to me accordingly. These instructions having been conveyed in the Boards' Proceedings dated 18th May 1846, I beg leave to draw out this Hazarmamah as follows Viz.

Out of the average amount of Durbary charges of Rupees 19,044- entered in the Circuit Committee accounts, the Sibbundy charges at 10 per Cent. Amounting to Rupees 1,904 per Annum being deducted, the remainder Rupees 17,140- being deducted

deducted from the former Peishcush Viz. Rupees 102,690 the Peishcush now stipulated to be paid on my Estate hereafter annually from Fusly 1256 Amounts to Rupees 85,550. I hereby bind myself to continue to pay from Fusly 1256 the said Amount of Peishcush of Rupees 85,550-- in the Company's Treasury according to the following Kistbundy Viz.

Kistbundy	Rs.
15th October	5,347
15th November	5,347
15th December	5,347
15th January	10,694
15th February	10,694
15th March	16,041
15th April	16,041
15th May	10,694
15th June	5,345
Total Rupees	85,550

If I should fail to pay any of the Kists regularly, I hereby engage to discharge the amount of the Kists so remaining unpaid with Interest due thereon.

The arrears due by me on my Zemindary up to the close of Fusly 1255 as per Account

account prepared in the Huzzoor Cutcherry up to 5th August 1846 is as follows Viz.

On account of Peishcush for Fusly 1255 — 12,057-8-5

Old arrears outstanding on my Estate during my father's Management on account of Fusly 1241 — 35,847-11-7

Do. Do. while the Estate was under Circar attachment — 27,539-2-9

75,444-6-9

308,385-14-5

3,20,443-6-9

Principal Amount lent by the Honorable the Government to my father for the discharge of his private debts, while my father was Minor, for which he has, after the lapse of his Minority, executed a Bond under date 31st October 1831 with Interest at 5 per Cent. per Annum being Rupees 81,800-0, of which the sum of Rupees 6000. repaid by him being deducted, the remaining Principal Amounts to — 75,800-1-1

Total Rupees — 3,96,243-7-10

4. As the Amount of Rupees 44,656-4-0 is to be reimbursed to me on account of the Collections of Durbary charges as alluded to above at Rupees 17,140 per Annum for 26 years from Fusly 1230 to 1255, if from this the aforesaid

aforesaid Amount of Rupees 3,96,243-7-10 due by me to the Circar, be deducted, a sum of Principal Rupees 49,396-8-2 remains in my favor. The surplus sum to be fixed as payable to me as directed by the Board, should be made applicable for the discharge of my other Private debts, and for the purpose of being reported to them again, Wherein beg leave to state that, with regard to the debt due by me to Nabob Intezamuddowlah Roostoomjah Bajah ally Saiby, and to the Nabob Noormeesabagum according to the Court Decrees and Panzeenamahs, I satisfied them and agreed that a sum of Rupees 11,6000 should be paid by me to them, after deducting the remissions granted by them; and we have both agreed and entered into Samakhya Paper or deed of assent; with conditions that I should pay them at present the sum of Rupees 14,000 in ready Cash and the remainder by yearly instalments at 8,500 Rupees per Annum and presented the said Samakhya paper to the Collector of Masulipatam 15th July 1846. With regard to the other individual debts, I have already adjusted most part, and as for the remainder, I will settle as soon as possible, and I agree by this to conform to the instructions that may be issued by the Board of Revenue on receipt of the Collector's letter to

a sum of 150 Rupees shall be paid every Month to her on account of her Monthly allowance from the Bootand allowance payable to me by the Circar during such time as the Estate remained under Circar attachment; and that after the assumption of the Estate, I should continue to pay the allowance of 225 Rupees every Month as stipulated by my father, and to the same effect I and my adoptive mother Rajah Stree Doorgabhavanamah have also addressed Arzees to the Collector of Masulipatam on 23d May 1844. According to the Contents stated in them, I now agree that I will continue to pay into the Circar Treasury together with the Circar Fists regularly without fail the Monthly allowance in full at 225 Rupees payable to the said Vijeyammah.

8. As I and my adoptive Mother Rajah Stree Doorgabhavanamah, have both addressed Arzees under date 3rd January 1845 stating that in lieu of the 3,000 Rupees the allowance stipulated to her, I will after the Estate is made over to me, give up to her two (2) Villages Viz. Mungalapooram, and Paulunkepaudoo appertaining to the Dasereotaly Purgunah that the annual Peishcush due on those 2 Villages, will be paid by myself together with the Pariz of the Purgunah, and that

to them in respect of the surplus fund as referred to above.

At the amount of the Durbary Charges payable to me up to this period has already been reimbursed to me, and the same has from July 1256 been deducted from the annual Peishcush on my Estate, I hereby engage that I will never hereafter collect any money from the Ryots under the Head of Durbary Charges.

I also agree by this that the Monthly allowance of Rupees 161-11-2 payable by me to Yarlagudda Venkatadry Naidoo will be remitted by me into the Circar Treasury together with the payments of the Circar Fists according to the Fist-bundy alluded to above, and the allowance due for July, August, and September will be paid with the Fists of October, without any failure on my part.

7. With regard to the monthly allowance of Rupees 225 fixed by my father to his adoptive Mother Yarlagudda Vijayamah, I Nauzeenamah has during the time when my Estate was under attachment, been filed in the Court in Cause No. 324 of 1839 of that Court's file, in which it is stipulated that

that the profits derivable from all sources and the savaes, Gardens, Vcs. Comprised within the limits of the Goodekattoo lands of those Villages should be enjoyed by herself. I agree to continue paying the Peishcush thereof myself, together with the whole Amount of Peishcush of the Purganah. In the event of my Estate being taken into Circar Mane-ment for any arrear that may remain outstanding against it in any year, then in such case the proportionate Peishcush payable on these 2 Villages should be paid by my adoptive Mother herself separately, and the Villages retained in her possession and Enjoyment. As I agreed for so doing after the release of that attachment, I will according to the said engagements continue again to pay the Peishcush of those 2 Villages myself, together with the Amount of Peishcush on my estate and allow the enjoyment of the 2 Villages to her, Request that the said two Villages should be made over to her at the time of my being put in possession of the Estate.

9. If I should fail to pay regularly to Government the Peishcush stipulated as above from Fusly 1256 according to Kistbundy for the discharge thereof, together with the Interest due thereon, I agree to bound myself to abide by the rules enacted in respect to revenue Defaulters, and according

to rules and regulations in force, as well as according the rules and Acts that may hereafter be enacted, as also by all such instructions as may be issued by the Circar.

10. I also agree to continue without failure the Enams, Khareejeeloo or Grain allowances and the Pyots share Vcs. in the Purganah as heretofore continued and will bring the Estate into an Ameliorated Condition.

11. From the great regard and indulgence shewn by the Honorable Government towards my Zemindary, I am provided with the means to increase my prosperity. I will bring the Estate into improvement without any inconvenience towards the Pyots, and will continue to pay the Circar Peishcush with punctuality, discharging the duties of allegiance according to the foregoing conditions, and the rules and regulations now in force, as well as according to those that may hereafter be enacted by Government and agreeably to the instructions that may be issued by the Circar. Further agree that I and my Heirs and Assigns will, without any infringement on these conditions, conform to the terms of this Kararnamah and merit the favor of the Honorable the Government.

12. Further I agree to conform to the orders which may hereafter be issued by the Board of Revenue, regarding the foregoing circumstances, as well as for the Interest on the Amount of the Bond executed to the Government, and on the Arrears accrued during the Zemindars Management.

No. 5

Translation of a Samaiyapah Paper or Deed of assent entered into between Nabob Intezammuddowlah Rustoomjah Nujah alli Saib Bahadur Sumsarjung, & Sreenivasa Sastrooloo Garoo Mahtuyar Vakeel on behalf of Nabob Noorenshahbaqum Saheb and Shreemut Nujah Yarlagudda Ayeheneed Bahadur Zemindar of Davercottah. Dated 15th July 1846.

As per Decree and Panchayatnamah presented in late Northern Provincial Court in Causes No. 37 of 1832 and No. 13 of 1836 of that Court's file Viz.t.

	Pa. a. P.
Amount of balance due upto December 1844 on account of Suit No. 37 of 1832	6,475-10-4
Amount of balance due upto December 1844 on account of Suit No. 13 of 1836	12,477-14-6
Rupees	18,953-8-10

The aforesaid sum is due by the Zemindar of Daveracottah.

Samaiya Paper or Deeds of assent have been entered into on 15th and 16th December 1844 in presence of R. S. Porter Esqre. Collector while at Chullapully with conditions stipulated to the following effect. That out of the aforesaid amount of Pa. a. P. 18,953-8-10 a sum of Pa. 7,953-8-10 shall be remitted to the Zemindar

Zemindar and the remainder Pa. 11,000 should be paid by the Zemindar to the Nabob Saheb and Noorunnisa begum Saheban after the Zemindary was made over to him (Zemindar) by the Government at 7,000 Rupees per Annum; that the Circar shall also take measures to effect a punctual payment of the same without any failure until the whole balance shall have been fully discharged and reasonable assistance rendered in this respect; that the Zemindar shall pay interest at 40 Rupees per 1000 per Annum for the principal sum in the aforesaid balance; that after deducting the payments of the instalments in the principal, the interest on Principal sum that may remain due, shall be paid according to future instalments; and that after the amount of Pa. 11,000 was completely liquidated the interest due thereon as above setforth shall also be paid according to the instalments referred to above.

The Honorable Government having been pleased to pass instructions to surrender the Estate to the Zemindar and to pay him certain Money on account of surplus in his favor vide (both parties) have stipulated certain other Conditions

as

16296 Jfort S.t George 17.th December 1846.

as follows Viz.t

We, the Nabob Saheb and Noorunnissabagum, beg to state that we have stipulated conditions that the Zemindar shall, after the Estate was made over to him by the Circar, pay 14,000 Rupees to us in part of the balances due to us both, and the remainder 102000 shall, from the date of his assumption of the Estate, be discharged by yearly instalments of 8,500 Rs. to us every year, by the Zemindar.-

The Amount of Principal and Int.o Court charges ---------- Rs. a P. 67898-12-3

Deduct Principal to be paid by the Zemindar soon after the assumption of the Estate from the Government ---------- 14,000-0-0

Remainder Principal ---------- 53898-12-3

Interest ---------- 48101-3-9

Total ---------- 102000-0-0

We agree that after the aforesaid 102000 Rupees shall have been fully discharged by the Zemindar according to the instalments alluded to above, we will continue to receive from him the Interest at 40 Rupees per 1000 per Annum which may become due on the above by yearly instalments as from that time. we accordingly agree by

16297 Jfort S.t George 17.th December 1846.

by this also to present a postponed Petition in the Court within the space of 40 days from the date hereof.-

The Zemindar of Davaracotah begs to state, that as I, the Nabob Saheb and the Noorunnissabagum Shaheban have agreed to, and abide by the conditions herein stipulated, I will continue to conform to these conditions without any failure, and according to the aforesaid conditions, we both parties, will present postponed Petition in the Court within the space of 40 days I also agree to pay the interest at 40 Rupees per 1000 per Annum on the Principal Amount stated above from the 15.th December 1844.-

Coll.r &c

Submitting a letter from the Collr. of Masulipatam reporting the transfer of the Devarcottah Estate to the Zemindar and the arrangements made for the settlement of the public and private claims against him and recommending that the arrangements contracted by the Collector may receive Sanction.-

8-9

Proceedings thereon. Para 1. In the letter above recorded, the Collector reports that the Zemindar of Davercottah was put in possession of his Estate on the 6th. August, in conformity with the instructions contained in the Proceedings of this Office of the 18th. May Communicating the orders of Government of 29th. April last, and he at the same time explains the principal arrangements connected with the restoration of the property, and the adjustment of the Zemindar's public and private debts - these are as follows.-

1. The Zemindar has executed a Kararnamah, whereby he contracts to pay from the commencement of the Current Fusly, a reduced Peishcash of Rupees 85,550 per Annum, in lieu of the former demand of Rupees 1,02,690. the difference, or Rupees 17,140, being the net value of the Desmook Roosoomy, or Durbary Kurchaloo, which were abolished by the Officers of Government in Fusly 1230. He has further engaged to abstain from making any Collections from his Ryots on account of those items for the

the future, and the final discontinuance of this inquest has been duly notified throughout the Zemindary.-

2. The Zemindar has likewise agreed to alienate to his adoptive Mother, Rajah Stree Doorgabhavanamah, two Villages, in lieu of a provision for her in Money, at the rate of 3000 Rupees per Annum, and to discharge the Peishcush upon those Villages so long as the Estate may remain under his Management. These Villages have been given over to Rajah Stree Doorgabhavanamah accordingly. The Zemindar has also engaged to pay into the Treasury, on the undermentioned dates, the following allowances to his relations, viz.

To his adoptive Grand Mother Yarlagaddah Vijsammah	Rupees 225.0.0	Per Mensem.
To Yarlagaddah Venkatadry Naidoo	Rs. 61.11.7	

3. The compensation due to the Zemindar on account of the discontinuance of the Durbary Surchaloo, calculated for 26 years, or from Fusly 1230. 1255, both inclusive, at 17,140 Rupees per Annum, being the rate determined by the Supreme Government, amounts to Rupees 4,45,640. The public demand outstanding against him,

Fort St. George 17th December 1846.

hire, consisting of arrears of Peishcush
from Fusly 1241 to Fusly 1255 (Rs. 39,4
6-9) and the balance (Rupees 9,800-1
the bonded debt amounts to Rupees 39,
7-10 which deducted from the compen
=on Money leaves the sum of Rupees
49,396-8-2 due to the Zemindar, and
available in liquidation of his privi
liabilities.-

4th The debts due to private creditors
with the exception of the Nabob of
Masulipatam, amount to Rupees
77,065-1-3, of which it has been agre
that Rupees 15345-6-10 shall be
remitted, and Rupees 2,676-8 paid
hereafter, according to stipulated in
=stalments. Of the remainder Rupees
12,691-10-4 are to be left for fina
adjustment, and Rupees 27,351-8-1 to
be discharged from the compensa
surplus.-

5th The sum due to the Nabob
Rupees 116,000 and it has been arrang
in place of the former engagem
reported in the Collector's letter of
7th February 1845, that a prevent
=ment be made to the extent of Rs 14,0
and

In Cons 24th
February 1845-

Fort St. George 17th December 1846.

and that the remaining 102,000 be
discharged by yearly instalments of
Rupees 8,500- a negociation is stated to
be in progress whereby instead of Cash
payments certain Villages are to be made
over to the Nabob, till the debt be discharged.
The particulars are to be reported hereafter.
The Board must however observe that the
arrangement, whatever it may be must
be among the parties themselves, and
that the assigned Villages will still
remain liable, in common with the
rest of the Zemindary, in the event of
the Peishcush falling into arrear.-

6th The ready money payments
(Rupees 27351-8-1) to be made to those
creditors whose claims have been adjust
=ed, and (Rupees 14,000) to the Nabob,
being deducted from the compensation
surplus, there will remain a balance
in favor of the Zemindar of Rupees 8,045
0-1, which it is proposed to apply in
satisfaction of some few private claims,
not yet settled- the remainder, if any,
being carried to the credit of Govern
=ment, in payment of the Current
Kists.

In.

2. In submitting the arrange-ments, of which the above is the outline, the Collector states that he deems it necessary to point out, that no provision has ever been made for Crediting Government with interest, either on the bonded debt, or on the arrear of Peishcush (Rupees 35,847-11-7) due by the late Zemindar, on account of his own management in Fusly 1241- were such a charge to be made, he remarks it would more than absorb all the surplus due to the Zemindar, and leave him encumbered with public and private liabi-lities to an extent which would altogether frustrate the benevolent intentions of Government in his behalf. Mr. Porter how-ever expresses himself satisfied that the demand was not intended to be made. In this view the Board fully concur, not only inadvertence to the sanction of Govern-ment for the remission of interest on the bonded debt, conveyed in Para 4 Extract Minutes Consultation 30th March 1844- and to the circumstances under which the arrears of Fusly 1241 accrued, but also in consideration of no interest having been allowed by Government to the Zemindar upon

Interest	1,50,042-9-2
Surplus	49,396-8-2
Balance in favor of Government	1,00,646-1-0

upon the Durbary Nuzebalee Compensation payable to him- It would be seen from the Margin, that the simple interest upon the compensation Money at only 6 per Cent would greatly exceed that claimable by Govern-ment on the arrear of Fusly 1241 and the bonded debt.-

Simple Interest on the compensation Money Rs 17,140 per annum for the succeeding years from 1230-1235 at 6 per Cent 3,60,968-6-4
Interest on Bonded Debt and arrear of Fusly 1241 1,50,042-9-2

3. Under these Circumstances the Board resolve to submit the Collector's letter to Government, and to recommend that the arrangements concerted by him, in regard to the Davercottah Estate, which appear judicious and proper, may receive sanc-tion.-

To T. Pycroft Esqre. Secretary to the Board of Revenue Fort St. George

10

From the Collr. of Masulipatam

Submitting report on Petition No. 1323 of 1846 presented to the Board by V. Canacadry Deetchatooloo.

Sir,

Para 1. With reference to the Board's Endorsement dated the 1st ultimo, upon Petition No. 1323 of 1846, addressed to them by V. Cana Radry Deetchatooloo, late Head Muddutgar in the sheristah Departa-ment of my Cutchery, I have the honor to request that you will submit to the Board the accompanying Copy of a Memorandum which I entered on the records,

† Enclosure 1 in No 1323 of 1846

records, on receipt of his Petition addressed to me on the 28th July last, and which will perhaps render the reasons of his dismissal more apparent than the almost unintelligible translation of the order, which forms the 2d enclosure to his Petition.

2. The Petitioner has produced before the Board a goodly array of documents in support of his claims to consideration on the grounds of long and efficient services. but I have reason to believe that the mass might have been augmented by other documents which would have shewn his Character in a some-what different light. As however it has been entirely in consequence of what has come under my own observation, since I have had charge of the District, that I have thought proper to remove him from the Cutcherry, I see no necesity, either to endeavour to tarnish the lustre, such as it may be of his former Character - or to waste the time of the Board or my own, in commenting on the various misrepresentations which are contained in his present petition.

Since

3. Since the appointment of Ramajogy Pantooloo to the situation of Deputy Sheristadar in my Cutcherry which took place shortly after my arrival in the District, and to which he was raised solely because his claims, from long service and efficiency appeared to stand higher than those of V. Canaka Radry Deetchatooloo, the latter appears to me to have been so carried away by feelings of envy and disappointment, as to have entirely lost sight of all sense of property in his conduct whether towards his superiors in the Cutcherry or myself - so much so that, as stated in the memorandum now submitted, I have hardly on a single occasion been able to avail myself of his services, without his throwing objections in the way, which nothing short of a peremptory order has been able to remove. His dismissal has not been the result of caprice, or causeless dislike, nor has it been an unmerited punishment for a single act of indiscretion, but he had been warned again and again, and it was only the sincere conviction with which I at last became impressed, that

his

his further presence in the Cutcherry would be worse than useless, from the bad example he set to others. that I came to the determination at last to get rid of him entirely.

4. As for the notable discovery which he pretends to have made of a mistake in the adjustment of the Davercottah balances, whereby the Government might have been defrauded to the extent of upwards of a lac of Rupees it is almost unnecessary for me to observe, that the orders of the Supreme Government as to the extent of remission to be allowed, and the mode in which it was to be calculated were so clear and explicit that there was nothing left to the discretion either of the sheristahdar or the Collector all that they had to do was to carry out to the letter, the orders that they had received. I conceive therefore that the mode in which the Petitioner has attempted to injure the Character of the Head of his Department. by the insinuations contained, first in the Petition clandestinely addressed to myself and

and subsequently in that on which I have been called upon to report, would have been of itself a sufficient cause for the punishment which has fallen upon him, not for that alone, but for repeated instances of misconduct, which it became at last impossible for a Collector to overlook, and at the same time to retain any degree of control over the rest of his establishment.

Masulipatam Zillah,

No. 1.

Memorandum.

On Petition received by Tappal on the 29th July 1846 from V. Kanakadry Beechatooloo Serishtah Head Mudduligar dated 28th July 1846 with enclosure A.

From the tenor of this petition, and the remarks contained in the Memorandum which accompanies it, one would at first be almost led to suppose, that the writer had been called upon to put his name to an account, by means of which the Government were to be defrauded of a sum of no less than Rupees 115,536-15-4; and that in the plenitude of his zeal for the interests of Government, the

Mudduligar

Muddutgar had considered it his duty to give Secret information with the view of averting the loss which would have been otherwise incurred.- A personal examination of parties has however Convinced me that this is only a piece of contumacious impertinence on the part of V. Ranakadry Deechatooloo. quite in keeping with his general Conduct in the Cutcherry, and with several instances which have come under my own personal observation within the last three years.-

It appears from the Statement of the Head Sheristadar / which is confirmed in every particular by / that of the Deputy Sheristadar Ramasjogee Puntoolo / that the Muddutgar was desired to examine, and affix his name to a certain account connected with the affairs of the Davaracottah Zemindary which was intended to shew the balance which would remain in favor of the Zemindar after allowing him credit for a remission of Rupees 17140-1-9 from his Peishcush from Fusly 1230, agreeably to an arrangement

lately

lately sanctioned by the Government of India. The details of the balances due for former Fusslies &c. with which the Zemindar was to be debited, could have been ascertained from accounts in the Cutcherry and a reference to these was all that was necessary to enable the Muddutgar to perform the task assigned him of examining the account in question. he having been informed of the amount of the remission which it was the intention of the supreme Government to allow.-

Instead of sitting quietly to work to examine the account as he was ordered the Muddutgar demands to be put in possession of the correspondence which had passed in order that he might, as he says, "Know in what manner the Board had directed to adjust the account of the estate." This demand was not / as he asserts it was / withstood, but he was told that he might have access to any records he required. and he was moreover furnished with a Telugoo translation of three Paras of the Boards Proceedings; in the first of which, the

amount

amount to be remitted, and the time from which the remission is to be calculated are expressly laid down. These being the very points on which he professes to have a doubt, and regarding which he thinks proper to forward a Petition which he is evidently anxious to conceal from the party most concerned; the Head Sheristahdar. In his personal examination the Muddutgar mentioned many other "doubts" as the Cause of his demanding to be furnished with the Correspondence before putting his name to the account, but he admits that he never mentioned a word about these doubts to the Sheristadar or any one else in the Cutcherry - at last after much delay he returns the accounts merely Certifying at the foot of it that having been desired to examine the addition of the figures they had been added accordingly. This man's conduct in the Cutcherry, and particularly on the present occasion towards the sheristadar has been extremely disrespectful, and obstinate and I have myself on various occasions when I required his services in the district had

had to encounter the most dogged and sullen opposition, which nothing less than a most peremptory order has been able to overcome. He was warned on the last occasion, that any recurrence of such conduct would cause his dismissal, and as it is clearly apparent from his present conduct that however able he may be, he is useless as a public servant, I have come to the resolution of discharging him from the service as one whose example, if he be permitted to remain, will have even worse effects than those produced by his individual misconduct and insubordination. His name will therefore be struck off the list from the 1st Proximo.

Bunder, 30th July 1846 } (Signed) R. S. Porter Coll.

Ordered that the following Endorsement be passed on Petition No. 1323 of 1846.

From the Coll.r of Nellore

Forwarding a Statement of Salt and the wastage thereon for Fusly 1255 and requesting Sanction for Rs. 2-4-8 being the hire paid for conveying to the Platforms on the beach a part of the Salt lost by wastage.

To

J. Pycroft Esq.r

Secretary to the

Board of Revenue

Fort St. George.

Sir,

I have the honor to transmit a Statement of the Salt sold and the wastage occasioned on the quantity stored for fusly 1255 prepared according to the form transmitted with the Deputy Secretary's letter of the 21st November 1835.

Fusly	Quantity stored	Wastage Percentage	Quantity sold	Wastage
	Mds.	Mds.	Mds.	Mds.
1251	7,639	259	7,369	141 6
1252	8,046	166	7,826	246 1
1253	6,921	140	6,774	213 2/4
1254	5,512	333	5,331	142 7

Wastage Percentage	Sicca Rs.
Mds.	Rs. As.
270	118 1
219	319 7
246	326 3/4
181	90 1

2. It will be observed that the outturn of Mgarces 7950-323- " of Salt on being disposed of came to Madras Garces 7701-39-7/4 and the

Fort St. George 17th December 1846

wastage to Mgarces 249-263- "3/4 or Mgarces 3-56- " per Cent which is below the percentage of the wastage in fusslies 1251- 1253 and 1254 as shewn in the Margin but exceeds in a small amount that of fusly 1252.

I request you will obtain me the sanction of Government for writing off the above wastage as also sanction for C. Rupees 2-4-8 being the hire paid for conveying to the Platforms on the Beach a part of the Salt lost by wastage as shewn in the Statement.

(17)

Minute by Y. Goldingham Esqre Relative to the Revenue wants of Vellore-

Read the following Minute

Minute by T. Goldingham Esqre

Officiating Member

of the Board of Revenue

The importance of the subject

makes me desirous to record a Minute on the

Revenue wants of Vellore and I would briefly

allude in this place to two points connected

with surveys and the assessment founded thereon. The

first has respect to the most desirable mode

of conducting the survey of a District and the

second has reference to the restrictive character

of our present Revenue system, operating de=

trimentally to the interests of agriculture and the

improvement of the Country-

2. First as regards the survey of a

District- The main object in view in a

Revenue survey is the measurement of the

lands of a Village with a permanent record

of the same including mapping and a defini=

=tion of Boundaries- This object is to be obtained

in two ways- First ly following up the points

established by the Trigonometrical Survey

or secondly by a village and Field

Survey without reference to those

points. The former will be ex=

=pensive and tedious and furnish no

practical result beyond a general map

of

of the District which is not wanted and must terminate ultimately in a Village Survey. The latter may be commenced at once with a single set of Surveyors, and at a trifling charge. It is not desirable that the work should be pushed forward too rapidly at first, it will be easy to accelerate it throughout a District as the principles of the Survey including Assessment become more generally known and appreciated. A single set of Surveyors will suffice at first and the work may be begun simultaneously or nearly so in two or more Districts.—

3. It seems to be generally admitted that a Survey including the Assessment should be confided to a Separate Department, Specially organized for the purpose.

4 The second point to which I wish to allude are the restrictions which form an essential part of our present revenue system. These may be enumerated to be—

1 Complicated rules, regulating the occupation and relinquishment of land and the assessment to be paid on the conversion of land from one description of cultivation to another. This does not refer to the liberty which the Ryot should always have of

extending

extending or contracting his Farm but to the rules which compel a Ryot to make his Holding an annual holding and oblige him to cultivate the same Field with the same description of produce in each year, instead of the Holding being a permanent Property, used as the interests of the Ryot point out.—

2. Excessive Assessment of the rich lands of a District.—

3. Generally whatever interferes with the freedom of the Ryot in respect to the cultivation of his land a System of permanent individual properties or Copartnerships where such exist as in the Cumatums in some Villages of Nellore based on sound principles and rendering the annual interference of the Government Establishments unnecessary, appears to be the main desideration for the removal of existing evils.—

5 Practical men must have observed the disinclination on the part of the more substantial Ryots to annual interference. Its vexatious and oppressive character is manifest to an European, who holds land for farming purposes. This is illustrated in the case of Mr. Groves of Chittore, now under the consideration of the Board, whose application to hold certain

Lands

lands points to the entire removal of annual interferences and to his being at liberty to sow his land, and his water, with alternation of crops, in such a way as is best suited to his interests. The freedom sought for should extend not only to the land composing a Putcut or Holding but to the share of water to which the Holder is entitled.-

(Signed) J. Goldingham

14th December 1846.

F

Minute on the Revenue System of Nellore.

Paras 45-46-47. 1. Mr. Cotton's remarks on Nellore are very brief. He observes that "the assessment is in great confusion" and that "this fine District has been allowed to labour under evils which have long been known to exist, and for which no effectual and permanent remedies have yet been applied". "Over assessment appears to be the chief evil to which allusion is here made. Mr. Cotton refers Marginally to the Board's Proceedings dated 31st August 1837 and In Lons 18th August to Mr. Stonhouse's letter dated 8th August 1842 as affording a full description of the evils alluded to. The object of the Board in those Proceedings was to obtain full information regarding the principles and working of the existing assessment in order that defects might be remedied and the system placed on a sound and permanent basis. with this view the attention

of the Principal Collector was called to the following points.-

Para 12 2. The correctness or otherwise of Mr. Smalley's Survey and Assessment introduced into 86 Villages both as regards "the Settlement of the Villages" and the "field rates" and whether any irregularities or deviations from the prescribed rules had occurred, affecting the results.-

Para 13 3. The applicability or otherwise of Mr. Travers's work for the purpose of a field Assessment as shewn by the Survey and Assessment of the said 86 Villages.-

Para 14 4. How far the actual Settlement, where Mr. Travers Tarums are still observed, correspond with the original Accounts as respects the old cultivated lands and whether lands subsequently brought under cultivation have been classed and assessed according to the same rates.-

Para 15 5 The attention of the Principal Collector was particularly drawn to the observations of Mr. Smalley that "Mr. Travers's Survey might be used for forming a fixed Ryotwar Settlement" but that it would be defective as a field Assessment and that much would need to be done in regard to the waste lands and to those brought under cultivation subsequently to Mr. Travers's survey, the latter in the Ongole

From Mr. Smalley 31st March 1827 Para 13.

Division

Division being estimated at 25 per Cent of all the lands at present cultivated.-

Para 16 6. The value of the Muctah Settlement introduced by Mr. Smalley whether a new Survey was necessary and "whether it should be entirely a new work, or directed only to regulate the details of a Jessesment in extending and amending the best of the Settlements which have already been attempted."

7. Mr. Stonhouse the Principal Collector replied to the foregoing requisition under date 8th August 1842.-

Jn Cons. 18th Aug. 1.

8. It will be proper to consider

1st The Revenue System of Mr. Travers, it's merits and imperfections.-

2d The Revenue System of Mr. Smalley Considered with reference to Mr. Stonhouse's report.-

3d The remedies required for placing the Revenue and the prosperity of the District on a sound and permanent basis.-

8th June in Cons. 15th July 9. 1802.- Fusly 1211 / 1801-2 Mr. Travers, first report is for his assuming charge of the District. The extensive powers possessed by Collectors in the early periods of the British connexion with the several Districts was favorable for the acquisition of information in regard to their capabilities

1318 Fort St. George 17th December 1846

capabilities, and the advantages which this favorable position conferred were not lost by Mr. Travers.- After assuming charge he made a circuit of the District with the view of ascertaining the Produce of the different Soils.- and with the data thus obtained he fixed an average rate of assessment per Gorto for each Purgunnah. His attention was next directed to the Measurement of the entire lands of each village, a work which made considerable progress during the first year of his administration. The rents of the former Government were annulled and the Settlement of the year was made with each Village upon the produce of the year commuted into Money at the current rates. A Moochilka had been previously taken from the Ryots of each Village at the commencement of the season, setting forth the extent of cultivation with reference to the number of ploughs for which the whole Village bound themselves for that year, but without specification of produce or amount to be paid. The season was unfavorable particularly so in some parts and the actual produce was found to fall short of the estimated average for each Purgunnah which Mr. Travers had fixed on the several Soils during his first circuit of the District, as already noticed.

Paras 6-11-16-17-25-26

Having

10. Having an average standard
rate of Assessment per Goortoo for each Pu
=nah Mr. Travers wished to apply this to t
whole extent cultivated and thus to fix t
settled demand of the year, but the unfav
=able character of the year prevented the
accomplishment of this intention. Ava
=ble Statistical return shewing this aver
Rate and the actual average rate of the ye
was furnished with Mr. Travers' Report
and altho' his desire to apply the former
frustrated, he expected, from experiments
had made, that it could be depended upon
"Next year will I hope" he said "determine
this question."

Para 28.

11. The efforts of Mr. Travers
during this first year of his Management
to place the Assessment on a right basis were
extraordinary and were directed to the att
=ment of the chief requisites of a sound ad
=ministration Viz.t 1st a Standard of Assessm
of general application and 2d Accounts
shewing with tolerable accuracy the rea
extent of the lands of each Village.

12. The Settlement of Fusly 1
was made with the principal Ryots
Village who were left to settle with the re

In

From Mr. Travers 7th June in Cons. 5th July 1803.

Para 12 & 15 also 28-29-30.

Para 2 & 11

Paras 16-19 also 36-37-38

13. In the following year two
changes of great importance were made. It was
seen that a settlement made with the leading
Members of the Village led to oppression and
extortion, thus compromising the interests of the
Government and the happiness of the people. The
Village settlement was therefore abandoned in favor of
a Ryotwar or individual settlement, and as it was
desirable that the holding of each Ryot should
be assessed with a fixed amount, or Muctaub
as termed by Mr. Travers, the average assessment
per Goortoo, the results of the enquiries instituted
as before noticed at the commencement of the
preceding Fusly was given up for an assessment
fixed on the quality of each description of soil.
The large profits made by the leading Ryots under
the Village System at the expense of the less
influential Members are noticed in the Report.

14. A remarkable feature of
the system which Mr. Travers introduced in this
Fusly was the distribution of the entire arable
lands among the several Ryots of the Village,
Resident and Payacary, the portion beyond the
Ryots means of cultivating being assessed with
the rate for the worst of the arable lands then
under cultivation, but the amount remitted for a
time. The objects contemplated by this arrangement
appeared

appeared to be twofold 1st. to encourage the extension of cultivation, and 2nd by to secure to Government by creating an ownership in these lands, a fair revenue from lands which would be used for Pasturing cattle" the rearing and sale of which constitute a principal sour of their Ryots wealth and trade. "To class the land "Mr. Travers observed," according to the val of its soil, and, to form a Settlement upon su portion of it as might be occupied by the Cultivator, would open so wide a field for speculation, that I cannot conceive a check t could be established adequate to secure to Gover ment their dues particularly in this Distr where pasture lands are an object of such co sideration. Mr. Travers was aware Para 72 a proportion of the lands "must lay follow for fixed period of time to secure fertility."

Para 21 to 23. 15. Individual Muctah Settlements were not likely to be favorably viewed by the influential reddies of a Village, but as co observed by the Collector" individual interest will become too powerful for any combi tion to resist."

Para 25 to 27. 16 The Survey had made considera progress at this period. The measures adopte for ensuring accuracy are explained, and

16318 Fort St. George 17th December 1846.

all tho' Mr. Travers expresses himself cautiously as to the correctness of the work in all its details, he considered it of much practical value. "I have reason to suppose" he said "their Surveyors work can be so far depended on, as to commence the introduction of mucta rents, which will of itself gradually tend to establish the correctness of the Survey by the Division of the lands to be esta blished thereon. The present state of the Survey must therefore be considered as a ground work for gradual correction and improvement in time to afford correct information that at present it is impracticable to obtain."

Paras 39 to 42. 17. The gross produce of the soil having been ascertained 6½ per Cent were deducted on account of Village Fees. The Ryots share was fixed at 9 in 20. The Government share was converted into money at 7 M. Pagodas or 28 Rupees the Pooty for Dry Grain, at 5 M. Pagodas or 20 Rupees for Paddy these Prices Mr. Travers observed "are the lowest which have existed in these Districts for many years and those that I think would obtain in a season of large Produce, should the whole of the lands on which the present year's settlement has been formed be cultivated." Again Para 41. "The Dry Grain Produce being in general Jonnaloo I allowed the price of this Grain to govern the

the rest of the Prices of Dry Grains tho' the Prices of some are much higher, particularly shell Grain, but then their produce is less, and of those that are more productive their price is

Para 46-47. less." The Garden lands appear to have been rated as heretofore.-

Para 43 18. As a final measure in the formation of the settlement of the year the inhabitants of each Village were assembled in the respective Talooks, and the survey Accounts laid before them, in order to determine the extent and quality of the whole of the arable lands at the disposal of Government when a Division took place, as between the whole of the Cadeem inhabitants and such of the Payacaries as wished to participate". The particulars of each Ryots or Putcut or holding as well as the amount of Assessment to be paid for the year were specified in the Pottah.

19. It is thus seen 1st that the settlement was Ryotwar.

2nd That the entire arable lands were distributed among the Ryots thus forming so many separate Estates.-

3rd That each Kamatom Putcut Holding or Estate was assessed with reference to the qualities of the soil of which it was composed.-

In

16318 Fort St. George 17th December 1846

20. In other words the arable Lands were formed into Estates with a fixed assessment on each, and these were made over to the Ryots.-

21. A closer and more critical examination of the Assessment will be made in the sequel.- In the mean time it may be observed that the principles adopted by Mr. Travers were Sound and fitted to place the Revenue on a Permanent Basis. Imperfections in the Survey and Assessment were of Minor consequence as these were susceptible of reversion according to the experience gained afterwards. It was a great thing to have given practical effect to the principle of a Permanent settlement with each Ryot. The Curnums and Ryots of each Village ought to have been required to make a rough Sketch of the lands of the Village shewing each Putcut or Cummatum with its component fields as well as Boundaries. Such a Sketch however rough would have given perpetuity to the extraordinary efforts made for the introduction of a sound system at this early period of our acquisition of the District. It must not be forgotten that

Para 57- the Poollary or capitation Tax on Cattle was to merge according to these arrangements into a tax on the Land.-

Mr.

Para 56 22 Mr. Travers experienced as considerable opposition as was expected from the Head Inhabitants who, collusively with the Curnums, caused in some instances erroneous statements of the occupation of Land to be made out but these errors were of minor moment and were to "be corrected in the progress of the next years Settlement.-

Paras 62 & 63. 23. The Report contains the fol:=lowing arrangements regarding wells.-

	Number of Crops	Rate to the owner	Produce	Government assessment M.P.f. C
Kangabavolos Deep wells below 15 feet worked by Bullocks.	2 Crops	16 in 20	4 Pootics	5-12-3.0
Small Well worked by	2 Do.	16 in 20	4 Do.	10-26-"
Pacotah above 15 feet	1 Do.	12 in 20	2 Do.	6-29-20
Hand wells watered by	1 Do.	14 in 20	2 Pootics	3-48-61
the Hands with Pots	2 Do.	Do.	3 Pootics	5-47-63

24 Sugar Cane, Turmeric, Beetle Tobacco and Vegetables of various descriptions before fixed mucta rates.-

25 The System introduced by Mr. Travers in this Fusly in all its details including the commutation of the tax hitherto assessed on Cattle for

"for a tax equivalent in amount on arable land" the inclusion of all the waste lands in the Pottahs of the Ryots" as a measure calculated "it was observed "to impress on the minds of the inhabi=tants the value of that property" was appro=ved by Government under date 10th September 1803.-

26. The opposition of the Princi=pal Reddies continued to shew itself in Fasly 1213 after which it gradually gave way.- The Muctah Rents were revised when found necessary.-

Pottahs Revenue In Fusly 1215 the increase of Ryotwar Fusly 1215- 11219-436989 Cumatums or Farms was 1559.-
" " 1216- 9756-180791- Fusly 1216 was a year of Drought and it was found necessary to grant remissions to a considerable extent. This was opposed to the condition of a fixed rent on the entire Holding but the indulgence was necessary to save the Ryots from utter ruin" To have exacted the stipulated rent, "Mr. Travers observed "in such a season of distress was impossible and the attempt could only tend to drive the inhabitants out of the country and to diminish their Capital necessary for future cultivation." Bonds were taken from the Ryots for the difference but the amount was remitted by Government.-

From Govt. 28th Oct. 1807. Para 21. in Cons 23rd Nov.
From Mr. Travers 1st June 27. Revenue in Cons 7th July 1808.-
F 1217 4,74,862-23-54
1216 2,57,100-41-73
Increase 2,17,761-33-61-

Fusly 1217 was favorable and the result of the year exhibits on

an increase in the Revenue compared with Fusly 1216. It was found necessary to shew some indulgence to the poorer Ryots who had emigrated during the preceding disastrous year, and tho' on their return to the District this year they were again "put in full possession of their lands" the full amount of the Assessment was not demanded.

Para 6. 28. The number of Pottahs was stated to be less in Fusly 1217 than in the preceding year arising partly from some Ryots not having returned to the District and partly "from the Ryots in some instances having entered into partnership for the convenience of their cultivating Cattle & ea means".

Note This seems to be an error. The number of Pottahs in Fusly 1217 was 10177 and in Fusly 1216 it was 9756 See Statement No 2 - which accompanied letter from the Collector This discrepancy does not affect the question immediately under consideration.

Para 14 Stat. No 5. 29. It appears that the Survey had been completed and had cost as follows.

				M P.	F.
Sheristadar	M P. 30 per Mensem	Surveyors paid from the State and Grama Currums Roofsooms -			
Head Assists.	each 7½	Do.			
Assistants	each 5 --	Do.		4578	35 5
		1 Sheristadar 4 Head Assistants and 12 Assistants from Fusly 1211 to 31st May of Fusly 1217	8400 - - -		
		M Pagodas - -	12978 - 35 5		
		Rupees - - -	or 4996 7 14 4		

Dated 1st September 1808. 30. The following passages occur in the proceedings of the Board of Revenue on the Settlement of Fusly 1217, which it is proper to

connect with the foregoing review -

Para 7 The mucta rent was fixed on the principle of valuing the soil on an Estimate of its produce and fixing a Price to that Produce not as the rates of assessment have been in the Ceded Districts Viz. on the actual payments by the Ryots during former periods. The Collector took much pains to obtain the best information of the productive powers of the different descriptions of soil and valued the Produce at a low price but it is evident that this mode of valuation is liable to much error to be either too high or too low."

See Paras 40 & 42 of the Coll.rs Report dated 10th June 1803.

"The total estimated value of

Para 9 - Land in Fusly 1212 according to the survey as made up to that period and calculating all the arable land as cultivated, amounted to.

Madras Pagodas	525362 - 22 - 40
Land rent for Fusly 1212	466221 - 11 - 69
difference less	59141 - - - -

Para 10 - But comprising the Summa of Fusly 1212 with the Kamil Summa or ancient value, with the selection of high Summa from the Accounts of nine years, and with other averages, the result leads to a conclusion either that the expectations of the Collector in this particular year were too sanguine as to the extent of cultivation which would be carried on or his

Calculations

calculations of Price or of Produce were too favor=
=able for Government-

	M.Ps. f. C
Summa Kamil	4,00387-31-17
Selection of high rent for 9 years	5,40108-31-48
Average of 4 years 1792-1793-1794-&1795	4,66565
Average of 3 years 1796-97&98	4,53600-14-4
Average of 1200 and 1201	4,29201-17-
Fusly 1210	4,66950-9-13
Fusly 1212	5,35799-7-7

31. The foregoing quotation seems to indicate that the Standard of entire Revenue for the whole District assumed by Mr. Travers for Fusly 1212 was excessive, but as the amount includes the Revenue from all sources as Salt, Sayer &c. no conclusions can be drawn from the comparison as instituted, calculated to shew how far the Land Assessment was excessive. The main ground it may be observed for suppo=sing it to be excessive is the low rate of share viz 20 allowed to the Ryot-

32. The triennial and decennial Village rents followed, and as the Villages were leased either to Strangers or to the inhabitants themselves it is obvious that the Jarum arrange=ments of Mr. Travers were more or less deran=ged It had been the leading object of Mr.

10318 Fort St. George 17th December 1846-

Mr. Travers's administration to place each Ryot in possession of his rights and of the entire fruits of his outlay and industry to encourage the improvement of Farms and the establishment of landed properties. Great progress had been made for the attainment of these ends during the seven years of Mr. Travers's Ma=nagement. All that was required at the time was to correct imperfections and to mature the System The merits of Mr. Travers's system may be stated to be.-

First- The formation of Estates with a fixed Assessment on each-

Secondly- The recognition of indivi=dual rights by making the settlement Ryotwar-

33. The imperfections of the System were.-

First- The manner in which the Assessment of the land was determined-

Secondly The annual settlement with each Ryot for such portion of his entire Estate as was cultivated, instead of a stipula=tion with each for a progressively increasing pay=ment till the full amount of Assessment fixed on the Estate was attained-

Thirdly Inadequate provision for obtain=ing a correct permanent record of the component fields

fields of each Estate.

Assessment. 34 In Fusly 1211 Mr. Travers attempted it has been observed above to fix one average rate of Assessment to apply to all the lands of a Purganah or Taluk as the average included every description of soil, it was obviously of no practical value. An average rate for each soil which would represent the fertility of its varieties ought rather to have been attempted. In Fusly 1212 Mr. Travers fixed a scale of Assessment intended to represent the different degrees of fertility but here again the opposite error of a great number of rates was fallen into. The scale ranges for dry lands from a productive power of 2½ Pootiestone Mercal/Toom/ or the 1/20th part of a Pooty and comprises 15 rates. For wet lands no less than 38 Classes were fixed; in the first 25 classes there was either no land at all or an extent merely nominal and of the remaining 12 Classes, the 20th 26th 32d 34th and 35th alone are important with reference to the quantity of land they embrace.

+ An average for Black Soils
Do Red ... Do
Do Light/Soova/ Do
Do Stony .... Do

35. With the Accounts of Fusly 1212 Mr. Travers submitted a Statement shewing the actual Produce of different descriptions of Lands Dry and Wet with their variety of

Products

Products throughout the whole District. He caused the crop on a certain extent of land to be reaped and thrashed in upwards of 900 instances.

36. The results although not conclusive of themselves afford valuable Statistical data for comparison.

37 The accompanying abstract statement Nos. 1 and 2. have been drawn up from documents furnished by Mr. Travers shewing at once the classification made by that Officer and the importance or otherwise of each class with reference to the quantity of land it is stated to embrace. Referring to these and to what is generally known on the subject the following scale, subject to revision after local enquiry by the Officer who shall be entrusted with the Assessment and settlement of the District, may be taken as approximate standards of Assessment for.

Dry lands.	Rs.
1st Sort	10
2nd Do	7
3rd Do	5
4th Do	3

A fifth Sort to embrace lands of very inferior quality.

Wet lands	Rs
1st Sort	27
2d Do	18

The

Principle of Settlement.

38. The error pointed out in the manner of settling with each Ryot was of a correction. The Putcuts and Cumalums of Sc resembled the Estates or Vurgs of Canara. Th were either "Bherty" i.e. paying the full am assessed or "Kambherty" i.e. paying less the full assessment. It was only necessary that the assessment on the latter should be c rected, if faulty, and that the full assessm should be gradually enforced with the growing means of the Holder.

Survey

39 Mr. Travers survey was of mu practical value. It was stated to exhibiters but of easy correction all that was required after the renting System had ceased was the the permanent Establishments in each Talo should have been so organized as to be able Survey gradually each Village and each Estate with mapping.

Note The Board appear to have discountenanced a new survey Proceedings on Settlement of Fusly 1230 dated 22d October 24 Para 11. also in their Proceedings on the Settlement of Fusly 1231 dated 7th October 1822 Para 35 et seq. they recommend a correction of the survey & classification of Mr. Travers and not a complete rejection of them.

4 The excessive character of the assessment may be noticed as a further defe of Mr. Travers arrangements. He allowed the Ryot 9 in 20 only after deduction on account of Village Fees, which is consid ably less than 1/2 whereas the Ryots shar should in general be 2/3rds of an ordinary Produce.

41. The settlement

and

and Collections during Mr. Travers's Manage ment were.

Revenue System of Mr. Smalley.

From Coll. of Nellore 9th Jan. 19th July 1824 Para 23.

42. The triennial and decennial Rents intervened between Fusly 1217 and the arrival of Mr. Smalley in the District as Collector in Fusly 1233 - 1823/24. These leases were followed by the same evils in this District as in others "Lands changed, Ryots ousted, accounts neglected, industry checked, Mauniems usurped, Tanks allowed to go to ruin, Cultivation carried on slovenly" much confusion in consequence prevailed, and on Mr. Smalley's accession to office we find the greater part of the District settled on an actual division of the

Produce

Produce. The following four modes of settlement were observed at that time, Viz.t Putcut, — 2d Pottahs 3d Aherat Ryotwar and 4th Amany, "implying respectively, a fixed rent, a Rent regulated by the Pottahs given by Mr. Travers, a conditional rent depending on the supply of water, and a division of the actual produce of the year."

Board's Proceedings on the settlement of Fasly 1233 1823-24 dated 10th October 1824.

43. Mr. Smalley's attention was early directed to the formation of a "field assessment." He was of opinion that Mr. Travers' survey "was incomplete," using the term as applied in the Ceded Districts" and thought that Mr. Travers' "object was to introduce fixed Farms so as to include the whole lands of the village both in order to prevent the Government being defrauded and to secure to the inferior Ryots the advantage of letting out their Pasture lands to those who possessed large Herds of Cattle." according to Mr. Travers survey it was remarked "the lands were divided into tracts and not into fields, nor were the Boundaries marked by Stones." a Tract it was explained "consists of many fields and embraces two or three different soils."

From Mr. Smalley 9th July 1824 Para 27.

D.o Para 8

D.o Para 12.

The

The Ryots of the Ongole Division however desired to have their villages settled according to Mr. Travers's Pottahs, and the system Mr. Smalley observed was "not unsuited to the nature of the Country."

Mr. Smalley obtained

44. permission to make a new survey of one village. He proceeded till he had completed 86 villages. A revised assessment, termed Muctahs, formed on the produce accounts of 18 years, the field assessment being made by the Ryots themselves, was also introduced over a considerable portion of the District. The Revenue System of Mr. Smalley which has continued to the present period, is thus.

13 Villages in Nellore Talook.
18 D.o in Talamunchy
72 D.o in Sungum Calegherry.

1st Mr. Travers Tarams.

2d Mr. Smalley's Muctahs.

3d Mr. Smalley's new survey rates.

45. It is now proper to consider the objections urged against Mr. Travers's arrangements by Mr. Smalley and the practical value and importance of the changes introduced by him in the System of the District. It is of importance to bear in mind that Mr. Travers' survey was "in tracts," that his system was that

of

† Note. This remark seems to apply chiefly to the Northern Talooks of the Nellore District.

of "fixed Farms" that the Ryots of the Ongole Division desired it and that it was "not unsuited † to the nature of the Country."

46. Mr. Smalley's objections to the survey and classification made by Mr. Travers are explained at large in his letter dated 7th October 1825. They are as follows.

in Cons. 10th October.

1 a Defective system of mensuration.

2. The small amount of salary paid to the surveyors.

3 The omission to measure the Porembokes and waste lands.

4 Defective agency for revision where inaccuracies were brought to notice.

5 The gradual encroachments of Ryots on the Porembokes and waste Lands.

6 The partial occupation by neighbouring Ryots of Farms which had been abandoned.

47. And in regard to the classification it was urged.

1 That the agency employed was defective and ill paid.

2. That the classification was raised or

or lowered arbitrarily so as to make the total on the village correspond with a given Beriz previously fixed.

3. That revision was imperfect.

4. That encroachments of Porembokes and Waste were surrendered in order to make up for excessive Assessment on the Farm in general.

5. That inequality of Assessment existed which caused emigration and a reduced Revenue.

6 That remissions in order to remove inequalities were impracticable as the boundaries of fields were not defined.

7 That the garden Assessment was on the produce and not on the land.

48. The foregoing objections are insufficient for the condemnation in toto of the survey and Assessment as the omissions noticed were all susceptible of correction. In a subsequent letter Mr. Smalley pointed out that the Pymash Chittahs of all the villages were not to be found, that Counterparts of the accounts did not exist in the Talooks nor in most villages and that the original

From Mr. Travers 10th in Cons. 13th October 1825.

Chiefs

shists had been changed on the introduction of the renting system. These were no doubt serious obstacles, but it is not improbable that further enquiry would have shewn that the loss of records was not so extensive as Mr. Smalley was at first led to suppose; the changes made during the renting system might have been confirmed or otherwise according to circumstances.

49. Measurement in tracts that is apparently of subdivisions as they exist in the village is stated to have been the distinctive character of Mr. Travers's Survey. Mr. Smalley considered this rule objectionable because to use his own words "instead of making a single field to contain only two Goortoos of land, which is as much as can be cultivated by one Plough, a field was made to consist of ten or twenty Goortoos of land and was clapsed with three or four Soils, in which different Kinds of Grain were produced, but on what sides of the field these different descriptions of soils are situated was not defined and Marked"

7th October 1825 Para 8

Mr.

16318 Fort St. George 17th December 1846

Mr. Smalley thus advocated the principle of breaking up the ordinary subdivisions which ancient usage founded on peculiar circumstances had sanctioned for an arbitrary distribution of the lands into small plots, with nothing to point out the propriety of such a distribution except that the field allotment was proportioned to what a pair of Bullocks might Plough. The village subdivisions it is obvious should be first delineated with their boundaries and subsidiary allotments made afterwards, not with reference universally to what a pair of Bullocks will plough, but with reference also to the peculiar distribution of the land and its occupation by the Ryots.

50. It is important to bear in mind that Mr. Smalley drew a distinction between "Field Ryotwar" which it was his object to introduce and "Patcut Ryotwar" or fixed Farms the system pursued by Mr. Travers during 6 years. Such a distinction ought to be unnecessary. A Patcut Ryotwar, where it is rightly administered is in fact a field Ryotwar for each component part of the Patcut

See also Mr. Smalley's Memorandum of Instructions to his Assistant in Tusly 1233 Enclosures No. 4 in the Report for that year.

or

or Holding should be recorded with precision with specification of the soil, and other particulars. It seems however not improbable that Mr. Travers did not sufficiently attend to those details, but an error of this description may be corrected. Mr. Smalley's definition of a field, restricting it to 2 Goortoos, and thus subverting the usual fields or tracts of the village was a fundamental error, and tho in many instances the inconvenience arising from it might be got over in various ways, the rule was altogether unsuited for general adoption.

8th in Cons 18th August 1842.

51 Mr. Stonhouse Notices in his reply to the Proceedings of the Board dated 31st August 1837 the objections as they occurred to him to Mr. Smalley's survey. They are as follows.

Para 7. 52. Instead of forming a field into squares and measuring the angles afterwards, according to the instructions issued the average length and average breadth of the whole field were taken by the surveyor and its area thus determined.

" — 8 53. It was directed that immemorial waste should be divided into plots of 10 Goortoos whereas the surveyors measured off plots, of 100 and 150 Goortoos and recorded

16318 Fort St. George 17th December 1846

recorded the whole as of one Class.

Para 9 54. Small patches of waste and immemorial waste were to have been measured as forming parts of the adjacent fields. Separate numbers were however formed for these and the patches of land have been taken in subsequently by the owners of the neighbouring fields.

" 11 55. The prescribed day's work was 5000 Coontahs which is more than a surveyor can possibly perform and yet in some villages the day's work exceeded the fixed quantity 50 per Cent.

12 56. Re-examination shews that the actual extent of the land is in many instances double the survey extent. The excess found in 31 Numbers in the village of Probhagherry putnum are noticed at the end of Para 11.

13-14 57. The entire omission of some fields and disappearance of Boundary stones, thus shewing that Boundary stones are practically of no use.

16 58. The imperfect character of the Azmaish or examination of the measurement of the surveyors, thus leading the surveyors to act as self interest dictated.

In

59. In regard to the classification it is stated.

Para 18

60. That the soil was not specified and the same field was made to consist of good, Medium and bad.

19

61 That the classification was in fact left to the Ryots themselves, and that the data on which it was made are not apparent.

20–21

16 Moontahs = 1 Toom
20 Tooms = 1 Poty.

62. That the Tarams ranged for Dry lands from 2 Pooties to 10 Moonthas or $\frac{1}{32}$ part of a Pooty and that the Wet and Garden lands were in some cases assessed as low as Dry lands.

Para 22

63 That the Ryots fixed on relatively a low assessment on lands near the Village and a high rate on distant lands.

Note Mr. Smalley's report on the survey of Punchadee dated 8th March 1825 and his subsequent Report on all the surveyed villages dated 23d May 1827. rather indicate that the survey was conducted in a systematic manner and that much pains were taken to ensure accurate results.

64 Inaccurracies it may be observed are found to exist in all surveys conducted, as that of the Ceded Districts which should be corrected when discovered. The objections urged by Mr Stonhouse as noticed above apply rather to the system pursued than to the value of the work itself. They do not shew that the work is practically valueless but that a better system of survey is required.

16318 Fort St. George 17th December 1846

required.

Para 27 et Seq

65 Mr. Stonhouse enters into the details of the large Village of Alloor in the Salamunchy Talook. He considers that "in a good year and with a correct measurement this Village should yield about Rupees 40,000. The Tarandars were occupied during 3 Months in the Classification and the Sheristadars were engaged about 2 Months in the following year in revising some portion of it.

66 The village was in an impoverished condition at the time of the Survey. Mr. Smalley ascribed it to the excessive rates established by Mr. Travers. Mr. Stonhouse on the other hand thinks that it was owing to the large amount of Revenue Viz.t Rupees 68,700 Collected by Mr. Smalby in Fusly 1234. Mr. Stonhouse also thinks that "the ability of the Ryots to pay such an amount of Revenue as they did in Fusly 1234 indicated any thing but Poverty.

P. 30–31–32.

67 Mr. Smalley's survey exhibits an increase of 3147 Goortoos in the Cultivated and Cultivable land over Mr. Travers's Survey but the lands generally by Mr. Smalley's survey were

		Goortoos
Smalley's survey		4,996
Travers's	Do.	1849
	Excess	3147

were brought under lower Classes and an additional number of Classes was formed.

68. A Comparative view of the rates of assessment established by Messrs. Travers and Smalley respectively are shewn in the Margin. The average Wet rate as fixed by Mr. Travers was Rs. 28 — 13 — 1 while that fixed by Mr. Smalley is Rupees 16 — 6 — 9 a reduction which Mr. Stonhouse considers "enormous" and involving a loss of Revenue. This conclusion is supported, Mr. Stonhouse thinks, by the average Muctah rates founded on 18 year's Produce of neighbouring unsurveyed Villages, which do not differ materially in certain Villages from Mr. Travers's rate for the same - and in all exceeds Mr. Smalley's average of 16 — 6 — 9 for Allour.

† Note. The average as stated in the Margin above is 15 — 7 — 11 the difference does not affect the point under discussion.

Contiguous

69. Contiguous fields it is also asserted tho of the same description of soil are entered under different Classes and again a field uniform throughout in quality is made to consist of varieties.

70. Mr. Stonhouse in Para 38 shews that Mr. Smalley's enhanced Beriz in Fusly 1234 arose from the Settlement having been made on the produce, and the high Prices of the year and justly observes that "that year can never be taken into calculation." It is also stated that the Ryots in Fusly 1223 (1813-14) "voluntarily gave a written engagement to pay an annual Revenue of Rupees 50,000, if their Tanks were put in a state of thorough repair, the estimated expense of which was Rupees 20,000 - as much as this has since been expended on them."

71. The conclusions to be drawn from the foregoing abstract review of Mr. Stonhouse's remarks are.-

First. That Mr. Travers's survey did not record with accuracy the whole extent of land - But that the aggregate Demand on the Village for the land in Cultivation as fixed by Mr. Travers did not materially differ from that fixed by Mr. Smalley.

Land Cultivated	Goostoos	Assessment.
Mr. Travers	1123	32,382 — 11 — 5
Mr. Smalley	2023	33,940 — 4 — 10

Thus

Thus demonstrating as urged by Mr. Smalley that Mr. Fraser's rates of assessment were excessive, but the excess was not felt to the extent supposed by Mr. Smalley of impoverishing the Ryots, as they appear to have enjoyed as a set off a large extent of unrecorded land.

Secondly. That the offer of the Ryots

Ryots offer Rupees ---- 50,000 — " — " in Fusly 1223 to pay Rupees
Mr. Smalley's assessment on Cultivated and Waste — 50,635 — 2 — " 50,000 one year with another

is confirmatory of the accuracy of Mr. Smalley's aggregate demand on the entire lands.

Thirdly. That the settlement of Fusly 1234 having been made on the produce and Prices of the year, could not have operated as a permanent Cause of impoverishment, more especially because the amount originally fixed was reduced with the permission of the Board.

Fourthly. That considerable pains were taken by Mr. Smalley in assessing the lands altho' the Principle observed was defective.

Para 39- 72- Mr. Stonhouse wishes to shew in this Para that an extended Cultivation

10318 Fort St. George 17th December 1846

Cultivation since the survey has not been accompanied by an augmented Revenue. The comparison is instituted between the extent of land as shewn by Mr. Smalley's survey and the extent as it stood before in Mr. Fraser's accounts. the last mentioned account as already shewn did not contain a correct Statement of the land, and the comparison is therefore valueless. Looking to the Revenue, it is seen that there is no material difference. The difference in land is presumptive of the incorrectness of Mr. Fraser's accounts as to the actual Area of this Village.

The largest wet Revenue in Mr. Fraser's time ---------- Rs. 31,634
Do. in Mr. Smalley's time before the Survey ---------- 35,615
Do. Do. since the Survey ---- 31,153.

73- The general result of Mr. Smalley's survey and assessment in Sungam, Nellore and Calegherry Dootaloor appears satisfactory. The assessment of Sungam is considerably below Mr. Fraser's assessment, but this is explained by the facts that Mr. Fraser's rates were in excess of actual Produce, and above the average rate of the neighbouring Talook of Nellore. The Dry land in Cultivation in Mr. Fraser's time exceeded the Cultivated area as shewn by Mr. Smalley's survey, the difference is traced to the

From Mr. Smalley 23d May 1827 Para 8-10

injurious

injurious operation of the Amany System and to the superior offers held out to Ryots by the neighbouring Zemindars of Venkatagherry Calastry and Woodiagherry. Mr. Smalley's Assessment appears fair when compared with former Collections.

Para 4 & et Seq. 74.

The other Villages adduced by Mr. Stonhouse present the same general features as Allore and do not call for particular remark. The fact (Para. 55) that valuable products were grown on the lowly assessed soils as soon as the rule that an extra assessment would not be demanded was brought into operation, shews the importance of the rule itself as well as the necessity of keeping the assessment on rich soils low, and of not allowing the rates of assessment to be many, descending to amounts merely nominal.

76 & 80. 75.

On the whole Mr. Stonhouse is of opinion that the survey of Mr. Travers, from the defective way in which it was conducted in consequence of the Native mode of Circular measurement having been pursued, from the changes occasioned

16318 Fort St. George 17th December 1846.

occasioned by the Renting System, and the impracticability of discovering the fields according to that survey arising from Boundary Marks not having been fixed and the omission of the mention of natural Boundaries where such existed, is of no practical value. But as regards the demand in general fixed by Mr. Travers it is observed by him "Ibeline his rates of Produce to a given quantity of seed to be as nearly accurate as such accounts can be. He took vast pains to ascertain the productive powers of the lands in the several Villages."

76. Mr. Stonhouse condemns both the survey made by Mr. Smalley as well as the Muctah Rates introduced by that officer. The Muctah Rates were formed generally on the average of 18 years Produce, previous to Fusly 1230 and the Ryots were left to apportion the amount on the fields. Mr. Stonhouse thinks that the accounts themselves were false and that the Classification is equally injurious to the Revenue, as the worst lands

were

Note. Mr. Smalley appears to have been fully aware of their tendency when the Ryots are left to classify the lands without adequate check and it is probable therefore that the erroneous classification noticed by Mr. Stonhouse was not so extensive as he was led to conclude. "In consequence of the Ryots fixing classifications themselves" Mr. Smalley remarked "the lands usually cultivated in every year, were undervalued and those only under cultivation in the years in which there was an abundant fall of Rain were over valued." Mr. Smalley on the Survey of Punchayd[oo]. 8th March 1825 Para 14.

were classed under the higher rates and the best under the lower. The rates of assessment it is added range from 13 to 54 Rupees per Goortoo. The objection probably has reference to the Ryots being allowed to distribute the aggregate on their Fields without adequate check to ensure accuracy. It should be remembered that in many instances Mr. Smalley's Muctahs were a confirmation of Mr. Travers' Taram, whose rates of Produce are considered by Mr. Stonhouse to be generally Correct.

Para 81 et Seq. 77. Mr. Stonhouse's remarks in regard to the system of Revenues ~~suited~~ suited to the Nellore District and indeed to India generally now come under consideration. Mr. Stonhouse is (Para 88) "decidedly opposed to any new survey of this District." He thinks" we should make our engagements with the Heads of the Villages and that there is "no system which approaches so near perfection as the Wooloongoo settlement of Tanjore." He would accordingly fix "a Grain Patent" to be entered into with the Head Reddies and

Curnums for 5 or 10 years payable in all seasons except in years of Famine," and in regard to the Commutation of the Grain Demand into Money he would leave it "to the option of the Ryots to adopt one or other of the following modes. A standard Commutation Price of Rupees 16 for Wet and Rupees 24 for Dry grain. The rise of Prices above 10 per % to come to the Circar and a deduction made if they fall below 5 per % or a commutation of the Grain Beriz at the Current Prices of the year".

78. The proposition of Mr. Stonhouse for a settlement with the Head Reddies and Curnums" is opposed to the Principle of leaving the stock and industry of each possessor of land unfettered and free. the great Mass of the Village become under such a settlement the tenants at will of the "Head Reddies and Curnums" a system prejudicial alike to the individual interests as well as to the general prosperity of the Country. It is a check to the investment of fresh Capital as the ownership of all land is in fact made over to the "Head Reddies and Curnums" all persons desirous of becoming

Landed

Landed Proprietors would have to lo
to them - The Curnum moreover is
stipendiary Officer of Government. O
Stonhouse limits the Grain Putcut "to
5 or 10 years which is at variance with
the fundamental principle of a f
assessment Viz: that the Produce sha
be assumed under an ordinary state
Culture and all increase from improv
-ment given up permanently to the
Ryot. If it were otherwise the incen
to improvement ceases. and the Count
must either fall back or remain
stationary - Again one of Mr. Stonh
objections to Mr. Smalley's arrangem
is the diminution of Revenue it
entailed by it's moderation Compar
with Mr. Travers's assessment, but if
is wished to raise Mr. Smalley's
-ard the proposition to lower the

	Commutation Price	Prices not to
Mr. Travers	28	20
Mr. Smalley	30	20
Mr. Stonhouse	24	16

Commutation Prices to
Rupees 16 and Rupees 2
incompatible with that object.

79. To obtain accura
Revenue Accounts is a principal obj
in a Sound System of Revenue
-ment; without these it is impossi
to secure the rights of Governme

of individuals a survey of some kind then becomes indispensable.

80 Mr. Stonhouses' proposition appears to have been adopted partly as an alternative to the field assessment as pursued by Mr. Smalley the objectionable principle of which he has pointed out.

The leading principles of a "fixed Demand" tho' for a limited period and "simplicity of System" appear to receive advocacy from Mr. Stonhouse. The simplest and most desirable mode of giving effect to these principles is to make the Settlement once for all with each individual instead of with "the Head Reddies and Curnums."

Paras 81-82- 81 In these Paras it is affirmed that the Ryotwar Settlement as regards Rice lands exists only in the collectors accounts that the Boundaries of fields as fixed by the Survey no longer exist and that lands are held on Veesabadi or Commatom tenures. Were both survey and Ryotwar are stated to be inapplicable to the usages of the Country. The arbitrary distribution of small fields thus breaking up the ordinary

Village

Village distribution of lands is defective as a rule but does not furnish an argument against a Survey. The Ryots measure the lands amongst themselves, it is only necessary that the usage of the Country should in like manner be followed by the Government Surveyors. Defective as Mr. Smalleys Survey may be pronounced to be with reference to this point it is practically followed more or less in the 86 Surveyed Villages. In like manner Mr. Travers' measurement which was more in unison with the Custom of the Country has not been given up by the people. The existence of Veesabady and Cumatum is not at variance with Ryotwar. Veesabady is in fact Ryotwar it allots the share of the entire lands good and bad which each individual is to hold. In some Villages a new distribution of lands occurs periodically once in a certain number of years, but this is not general and where irrigation is tolerably certain and the Ryot enjoys a fixity of tenure under a moderate assessment the necessity for distribution

16318 Fort St. George 17th December 1846

re distribution ceases. No person with an inducement to improve his farm will consent to give it up after a positive value has been imparted to it, to begin again with other land in a low condition. A Cumtum is joint cultivation. This Custom is not universal and is adopted for the sake of convenience, as under River channels. where each Cumtum of a Village has to furnish labor for the preservation of the Channels. where Cumtums exist there are several in a Village and each Cumtum is composed of 3-4 or more Ryots associated together. Each Ryot has a separate right. the recognition of this right is Ryotwar. and whether the Settlement is made with each Cumtum and its members collectively direct by the Collector or thro' "the Mead Reddies and curnums" as proposed by Mr. Stonhouse, it must still be Ryotwar. Under the Collector it is Ryotwar rightly administered under the "Mead Reddies and Curnums" it is still Ryotwar but administered injuriously to the several individuals composing the Cumtum and

Note. In the Village of Cunchoodoo the first village surveyed and assessed on the Principle of a field assessment 18 Puttahs were distributed 8 of which were for cumnatums one for the whole land in the bed of the Tank and the remaining 9 were individual Puttahs. The right of each individual was defined in the Puttah and he was at liberty to separate and demand a Puttah for himself for his holding if he wished it. Joint cultivation is stated to be owing to Poverty and convenience of channel repairs. Mr. Smalley 8th March 1825 - Para 39.

"But all those Inhabitants who have joined in one Cumtum have been made answerable for the circars Balances outstanding on it according to the respective shares in which they jointly cultivate the Cumtum" Report on the Settlement of Fusly 19th June 1823 Para 23 in Lons 21st June

and to the detriment of the Revenue. In Nellore and other Districts generally where circumstances favor, joint Cultivation is unknown. Disputes frequently occur as among the members of a joint cultivation and separation follows. The impolicy and incompatibility of an administrative system through "Head Reddies and Curnums" would force itself on the attention if a proposition to conduct the management according to such a system were made to the Landholders of Malabar and Canara and to those of other Districts where the individual or Ryotwar system has always prevailed.

85

82. The expense of a survey and the annual charge of Ryotwar establishments are considered in this Para as objections to that system. The remark rather applies to annual Jummabundies than to survey but under a system of fixed farms, the cost would be lower than under any other system. The object of Ryotwar is to get rid of ultimately an expensive

16318 Fort St. George 17th December 1846

and Cumbrous machinery for collecting the Revenue. under a proper administration of Ryotwar the present voluminous details would merge into a simple Register of Farms. Mr. Stonhouse observes that the Ryotwar has "thrown down and trampled upon the Village Communities" that "it has separated the interests of the Cultivators and has thrown a numerous body of Ryots to Cultivate upon their own resources confessedly without in many cases any capital but their ploughing Bullocks" This observation appears incompatible with the supposition that the Ryotwar system exists only as already noticed in the Collectors' accounts.

83. "The very large deduction made annually from the gross Settlement to say nothing of uncollected balances" are also adduced as arguments against the system. The Dittum and the "settlement" are distinct. The former is the land taken up for the year subject

subject to deductions according to the Character of the season, the settlement is afterwards made. The deductions from the Dittum do not constitute a loss of Revenue. they are only the indexx of the season. The Settlement on the other hand shews the condition of the country improving or otherwise and it is known that the Revenue has progressively improved in all Ryotwar Districts, whereas it has deteriorated and that to a disastrous exctent under other systems. The "uncollected Balances" will be found to be comparatively small.

84 But the real question for consideration is whether the system of fixed "Farms" as in Malabar and Canara which is the essential Principle tho' carried out with much oppression and bad faith of all mustah settlements adopted by Zemmindars and Renters as well as of the fixed Farms, tho' loosely administered of Mr Fraser shews

not be generally encouraged in supercession of the present annual Jummabundy Mr Stonhouse's arguments apply with much truth to the annual system as at present pursued.

86 85. It is quite true that a "field assessment" is the only system suited to India. In all countries it is the same. Farms are composed of fields and each component part of a Farm bears its assessment. an acre of good land and an acre of inferior land bear their respective burdens. whether the Settlement is made direct with the Farmers or through intermediate agency as "Mead Reddies and Curnums" the Settlement must still descend to Farms and the component portions of Farms.

87 86. The Heads of the Village it is stated understand the details of assessment" far better than any one else possibly can. This suggests the expediency of looking to this class for information but does not point them out as the proper

proper administrative Officers. Their Agency was ostensively made use of by Mr. Smalley in fixing his Paramount rates.

91 87 Mr. Stonhouses arguments in this Para appears to be directed against surveys. He is also unfavorable to moderation in the assessment as its effect is to make land saleable. He is of opinion that "we ought to do every thing in our power to prevent its sale" in order to take away from the owner any inducement to sell it. That which attaches the greatest value to land "he observes" in the estimation of a Ryot is the circumstance of its having been held through a long succession by his family." The argument in support of an excessive assessment is opposed to experience a moderate assessment is easily paid by the Holder and if pressed he can raise money on his property - with a heavy assessment it is otherwise, he is obliged to relinquish his inheritance and descend into the class of laborers.

88. If Government are finally determined that a "field Ryotwar system" shall be continued Mr. Stonhouse is in that case in favor of a "topographical survey." He does not shew in detail on what Principles the classification should be made.

96 89. He thinks that "the field assessment should be a grain not a money assessment" and is averse to a fixed commutation Price as it tends he says "to make food dear" and is further impracticable from the great fluctuations of Prices.

90. A grain Rent for each description of soil is unquestionably necessary but the amount should never vary and should be assumed on land in its ordinary state of culture. No money assessment can be formed with a hope of its being permanent without this necessary preliminary. In regard to the effects of a fixed land assessment on the

the prices of grain it is obvious that the Pa
is dependant on the market and not
the market on him as Mr. Stonhouse
supposes A Monopoly of supply can never
under the Circumstances of the Country exist-

91 In regard to fluctuation of Pric
there can be no difficulty in fixing a moderat
commutation Price which shall represent a
ordinary fluctuations- The real question howev
for consideration is whether the Government
shall have the power to revise the commutat
Price in a given number of years, or whet
it should be fixed once for all- As a pe
of revision would materially affect the Valu
of land, it is manifest that the interva
prescribed for its exercise should embra
a very long series of years-

92 To sum up- The desiderata for a
appear to be a measurement of the lands on
correct Principles including Mapping the to
correct having reference to the European system of
and to the recognition of the distribution
Lands into fields and tracts as found to ha
existed from time immemorial but a
new distribution to be permitted
when

where change of circumstances renders it necessary
The triangulation of the whole district in the
first instance appears unnecessary in a Revenue
survey- Each Village should be separately surv
veyed and its Boundaries relatively with those of
the neighbouring Villages laid down- One set
of surveyors for a district will suffice at
first Additional sets to be employed as the
work advances and the Principles of the survey
assessment become generally understood- Under
a System of fixed landed Properties the meas
surment of the land on correct Principles
accompanied by Plans of each Estate will
become a part of the duties of the ordinary
Establishments- It will be desirable there
fore to remodel at as early a period as
practicable the establishment in each Talook
in order that they may be prepared to discharge
the duties required of them- By attention to this
object the survey of a District ought not to
involve an additional charge to Govern
ment except at first-

2- The classification and
assessment of lands according to
the scale shewn in a former Para
of this Minute, modified as far as
necessary

necessary after further local enquiry.

3- A System of fixed Farms whereby present occupants of substance will be relieved from the injurious effects of annual settlements and poorer occupants will posses a powerful incentive to improve their condition The privileges to be accorded to holders of fixed farms are.

That an allowance shall be made on account of fallow.

That the occupant shall be at liberty to cultivate any description of produce he pleases and to use his land in the way most profitable to himself except for purposes of building

That he shall be at liberty to dig wells without additional assessment provided the water be not drawn from Government source.

That he shall be at liberty to use the water he receives from Government in any way he pleases. Thus supposing a Ryot to hold a Farm of 10 Goortoos and that 3 of these are assessed as wet land he is to be at liberty to use the quantity of water allowed for 3 Goortoos for which he stands assessed, in any way he deems best even

Note- This provision agrees with Para 23 of the Draft of a Regulation for the general introduction of the Ryotwar System formerly prepared and the Principle was Approved of by Sir T. Munro See Note 8 of the Draft.

1818 Fort St. George 17th December 1846.

even to the irrigation of the whole 10 Goortoos provided the quantity of water prescribed for 3 Goortoos is not exceeded. a Ryot will find it profitable in one year to Cultivate 3 Goortoos with Rice, in other year 2 Goortoos with Rice and 3 with Indigo in a third with Rice and 3 with Indigo in a third he will probably wish to omit the Rice and Cultivate a large portion of his holding with Garden or other produce. The objject of this rule is that the Ryot shall not be restricted in regard to the application of the water for which he pays. The improved state of the science of agriculture shews that the capability of the soil is only fully developed under a rotation system and this important object is unattainable if the Ryot is not allowed to use his share of water as suits his interest. The removal of all restrictions on the agriculture of the Country has become imperative in the present relations of India to Europe and especially in its position as a Sugar growing Colony.

93- In Seasons of extreme pressure as from Famine it will be politic to grant remissions, but where fixed Farms are held on a moderate assessment

and.

and their resources are developed it is to be expected that the necessity for reconfsions will seldom occur. certainly no claims should be admitted on ordinary occasions. It would be unfair to Government and tend to encourage improvidence and a slovenly tillage.

94. A Ryot, it is obvious, should not be allowed to throw up any part of his Estate, unless such portion, when separated shall be so situated, that any other Ryot may conveniently occupy it.

95. The term "Fixed Farms" is used throughout this minute in consequence of its being employed in the correspondence which has been recei By the term is meant separate Proprietary Estates assessed on specific data. The Principle is recognized by the Honorable Court. "The effect of such separate "settlements" they observe "would be not only to stimulate the industry of those who should be thus permanently established in their Property and enable them gradually to apply for portions of the waste lands upon the terms at

General Letter 16th Dec. 1812 Para 38.

at which it has been customary to allot such lands convertible into a perpetuity at a reasonable assessment, but because the example thus held out of the benefits derived from exertion could not fail in the course of time to have a general influence upon the other occupants of Land. "It is important to preserve a distinction between a mere Farm and a Property. Unless a feeling of Property is imported, and such is the essential principle of Ryotwar, it is useless to expect an improved state of the Country and of the Revenue. For the attainment of this object every thing of a restrictive character as the rules which are now in force regarding cultivation and Cumbrums establishments for the Collection of the Revenue must be gradually got rid of. Till then Capital will not be freely invested in Land, and the Landholder will continue to be a stranger to the duties and enjoyments to

to which property give rise.

96 Sir T. Munro has already pointed out that the Ryotwar Principle may be carried out in different ways, but that that mode of administration alone is good, which establishes Private Property. He proceeded with caution himself in the imperfect state, as he often said of our knowledge of the Country. His arrangements were also much impeded by the exigencies of the State which could not at that time relinquish any portion of the Current revenue. It now remains that the wants of Bellary Nellore, and other Ryotwar Districts should be met by a full and practical recognition of the individual Principle in all its requisitions.

97 The Land Assessment is admitted presses heavily on the People. The System of separate Collection in the mode proposed will be accompanied by the removal of this pressure and will lead to the introduction of a

* Minute by Sir T. Munro 31 Dec. 1824 Para 2.

1318 Fort St. George 17th December 1846.

a permanent system of Settlement and Collection. A mere reduction of Assessment without improvement of System will be of little advantage to the People and involve a permanent sacrifice of Revenue. An improved system will speedily replace whatever amount may be at first given up and lead to a vast augmentation of Revenue through the investment of fresh Capital on the Land.

Revenue Board Office
Fort St. George

Statement

1838

Statement shewing the state of Plantations in Allens-
ville on the 1st of January 1839 as compared with the
Returns of the preceding year.

Townships	Cotton Planted	Acres in Cotton	Estimated Produce in lbs.	Increase or Decrease per cent.
Allens-ville	2,400	27	103	
Greenfield	1,800	20	2,603	
Hillside	1,500	17	1,646	
Oakdale	1,100	13	1,978	
Pinehurst	900	10	1,642	
Rockford	1,200	13	1,978	
Sandy Ridge	600	7	1,064	
Willow Creek	1,400	16	2,433	
Woodbine	800	9	1,369	
Total	11,800	132	16,816	

The Returns for Allens-ville and Greenfield are
believed to be correct; those for the remaining
townships are estimates only.

Allens-ville Cotton Growers' Association.

Report of the Committee appointed at the Annual
Meeting held on the 3rd of January 1839.

The Committee appointed to consider the best means of
improving the cotton grown in the district, and of
obtaining for it a higher price in the market, have
the honour to report as follows:

1. That the present system of picking, ginning, and
packing the cotton is very defective, and that the
greater part of the crop is injured in consequence.

2. That the cotton should be picked only when
perfectly dry, and that the bolls should be gathered
as they open, not left to fall on the ground.

3. That the seed cotton should be ginned at once,
and not allowed to lie in heaps, which heat and
spoil the fibre.

4. That the bales should be pressed tightly, and
covered with strong canvas or matting, so as to
exclude damp and dust.

5. That a sample bale, properly packed, should be
sent to the Secretary before the 1st of February,
that it may be submitted to the Board of Trade.

The Committee are of opinion that if these rules
are carefully followed, the quality of the cotton
will be greatly improved, and that a higher price
can be obtained in the market. They also recommend
that a meeting of the Association be held in June,
to receive reports from the different districts.

(Signed) J. P. Hawkins, Chairman.
T. Greenwood, Secretary.

24th Do	"	15	29	11	2	782
25th Do	"	10	27	6	"	2

The total Maganey or wet area is 38,257 Goortoos

Referring to the extent of land under each class, it appears that the only rates deserving of consideration are -

16th	—	40 — 13 — 4
20th		34 — " — 5
26th		27 — 3 — 7
32d		20 — 6 — 8
34th	—	16 — 5 — 4
35th		13 — 9 — 9

Mr. Smalleys Survey rates amounted to 38 ranging from Rs. 1 — " — 8 to Rs. 14 — 9 — 4 per acre, or Rs. 3 — 4 to Rs. 45 — 9 — 2 per Goortoo. But referring to actual results as shewn in Statement No. 6 which accompanied his report on the 86 Surveyed Villages dated 23d May 1827 the first class of importance is — 10 — 6 — 8 per acre or Rs. 32 — 8 — 10 per Goortoo the lower rates have only a nominal existence — allowing the rule of not fixing an excessive assessment on the higher soils its proper weight the 20th sort would almost exibit the maximum rate for wet lands. The highest rate may then be assumed at Rupees 36. Taking the commutation rate at Rupees 16 instead of Rupees 20, this rate will be further reduced to Rupees 27. On these data it will probably be found that Rupees 27 and Rupees 18 will be fair rates for most of the wet lands of the District. It will be better still to adopt a specific amount in addition to the Dry rate as the charge per Goortoo for irrigated land

10320 — Fort St George 17th December 1846

Fort St. George 17th December 1846.

Proceedings thereon—

Requesting the Acting Collector of North Arcot with reference to his letter of the 4th Ultimo to explain on what footing the Choultry at Sholinghur might be maintained so as to be more generally useful and to state his opinion whether the institution might not be converted into an Hospital and Lungerkanah instead of as at present merely serving to supply food to travelling Bramins.—

21–22

With reference to his remarks in Column 12 of the Statement the Acting Collector is requested to explain on what footing the Choultry might be maintained so as to be more generally useful— It has occurred to the Board that the institution, instead of as at present, merely serving to supply food to travelling Bramins, might be converted into an Hospital and Lungerkanah where the sick might receive medical treatment gratuitously— and in case of destitution be provided with food whilst under cure— It is observed that the allowance to the Choultry exclusive of the servants Wages— is Rupees 809 per Annum or 67 Rupees per Mensem, which might be made available for the entertainment of a Native Dresser and Vaccinator and for the purchase of food and Medicines— The servants now employed at the Choultry, if willing to undertake the new duties, should retain their present salaries till vacancies

	per annum	
Ready Money payment	1,280–9–5	
Establishment	555–	
Deduct 2 lapses @ 3½ Rs each per Mensem	84	
	471–0–0	
per annum	809–9–5	
per Mensem	67–7–5	

Fort St. George 17th December 1846.

vacancies occur when the Establishment might be remodelled— The Acting Collector will be pleased to favor the Board with his opinion on this suggestions.—.

To T. Pycroft Esqre

Secretary to the
Board of Revenue.

From the Actg. Collr. of North Arcot ——

Reporting the Cause of the Omission to allude about the old balances in the Jummabundy report for Fasly 1254

Sir,

Para 1.

The Board have noticed in their proceedings on my Jamabundy report for Fasly 1254 my omission to report on the old balances and I beg leave to say that there is no point on which I have more constantly insisted since I have had Charge of the District than their early Settlement, and I think it necessary that the cause of the delay which has occurred should be distinctly stated to the Board.—.

2. My Head Sheristidar assured me many months ago that with the exception of a few trifling items then in Course of adjustment the whole amount had either been recovered or otherwise satisfactorily accounted for and I intended that my report should so closely follow that on the Jamabundy that both might be disposed of either together

Fort St. George 17th December 1846.

5th February 1845

together or separately as might be most convenient to the Board, but on comparing the account prepared by the Head Sheristedar with that submitted by Mr. Goldingham, I discovered that the sum of Rupees 5,922-3-8. had been entirely omitted. This sum consisted of a great Number of small sums due by the Cultivators in almost every Palook commencing from Fusly 1240 (1830/31) being the item of all others the early adjustment of which was of the most importance. The greater part of this sum has now been recovered and the remainder with a very few trifling exceptions satisfactorily accounted for, but not until the obedience of the Thasildars had been enforced in several instances by fines. It is clear to me that the Head Sheristedar had a private understanding with them having for its object to defeat my repeated orders and those of the Board on this subject, because if any one of the Thasildars had reported the adjustment of the balances as ordered, it would have made the omission of all the others too obvious to leave any chance

See Return of fines for the 3d Quarter ending 30th September 1846.

Fort St. George 17th December 1846.

chance of its passing unnoticed. I beg herewith to submit for the Boards inspection the original account prepared by the Head Sheristedar.

3. It will be in the Boards recollection that this is not the first serious error which has been detected in his accounts, I refer to the omission of the charge of interest and Commission on the balance due by the Cavetnuggar Zemindar which could not have been unintentional. Express Orders had been passed by the Board of Revenue and Government, of which translations were in his possession. I had made repeated enquiries of him on the subject before submitting my Statement. At length as the Board had pressed for the early transmission of the account I forwarded it as prepared by him on his assurance that he had examined the records and ascertained that no interest &c. was chargeable. Though at the same time I called for the papers in the English Department to be Collected for my own satisfaction. After what has passed I can no longer place any confidence in the Head Sheristedar's accounts or any thing that he says and I therefore consider him quite useless as a Sheristedar and am of opinion that he should be removed from the situation.

North Arcot Collrs Circuit Cutcherry
Byreddypully 13th November 1846 — } Signed E. C. Lovell
Acting Collector —

Ordered —

Fort St. George 17th December 1846.

Ordered that the following letter be sent in reply.—

To The Acting Collector in the Northern Division of Arcot—

(23-24)

To the Actg Collr. of North Arcot—

Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 13th Ultimo, explaining the cause of your having omitted to report upon the old balances in your District.—

Informing him that as he has shewn no cause for withholding his Confidence from Sooba Row Head Serishtadar in his district the Board direct that he will cause him to occupy his due position in the Cutcherry—

2. In your letter you represent that your Head Sheristadar assured you, many Months since that with the exception of a few trifling items, then in course of adjustment, the whole amount had either been recovered, or satisfactorily accounted for, but that lately, on comparing the account prepared for you by that Officer, with the statement previously submitted to the Board by Mr. Goldingham, you discovered that the sum of Rupees 5,922–3–8 had been entirely omitted. This sum it appears consists of a great number of small sums, due by the cultivators of almost every

Talook

Fort St. George 17th December 1846.

Talook, commencing from Fusly 1240— The greater part has now been recovered, and the remainder, with a very few exceptions, satisfactorily accounted for,— but not until the obedience of the Thasildars had been enforced in several instances by fines. It is clear to you, you add, that the Head Sheristadar had a private understanding with the Heads of the Talooks, having for its object to defeat your repeated orders, and those of the Board, on the subject, because, if any one of the Thasildars had reported the adjustment of the balances as ordered, it would have made the omission of all the others too obvious, to leave any chance of its passing unnoticed. On these grounds, as also in reference to the conduct of the Head Sheristadar in omitting to charge interest and commission upon the Cavetnuggur arrears, you state that you can no longer place any confidence in his accounts, or any thing that he says, and you therefore consider him quite useless as a Sheristadar, and are

of

Fort St. George 17th December 1846—

of opinion that he should be removed from the situation.—

3. In reply, the Board direct me to observe that, on referring to the late Collector's letter of 5th February 1845. and to the Proceedings of this office of 29th May 1845; they perceive that the total amount of the old balances from Fusly 1240 to Fusly 1252, as reported by Mr. Goldingham, was Rupees 184221-14-4- of this sum Rupees 95,000 were outstanding against the Cavetnuggur Zemindary, Rupees 15,628-3-6 were due by Mr. Turner the abkarry Renter for Fusly 1252- and Rupees 62,818-14-7- were recommended by the Board to be written off, and sanction to that effect was given by Government- The two first items having thus been accounted for, and the third having been remitted, there remained only Rupees 10,774-12-3- Viz. Rupees 7,523-8-5 stated by the late Collector to be recoverable, and Rupees 3,251-3-10 represented

In Cons. 10th February 1846-

Fort St. George 17th December 1846—

represented to be irrecoverable, but in respect to which the Board called for further explanation- It was therefore only necessary for you to issue orders to your several Shasildars for the realization of the balances classed as recoverable- and for the remaining sum, to furnish such information as might lead to its final adjustment.—

4. Such being the case, it does not appear to the Board what opening could be afforded for any irregularities on the part of your Head Sheristadar- The sum of Rupees 5,922-3-8- which appears in the account furnished by the late Collector, but was omitted in the statement rendered to you by the Sheristadar, must, the Board presume, be that portion of the Balance Rupees 7,523-8-5 classed by Mr. Goldingham as recoverable, which had not been collected at the date of the Sheristadar's Statement- The omission to include this sum in his account is explained by the Head Sheristadar, in his Petition to the Board, which is now forwarded for your information, to have proceeded from the supposition that this Statement was intended by you to

Fort St. George 17th December 1846.

to contain the details of the irrecoverable balances (Rupees 3251-3-10) only, in regard to which further explanation had been required. That his account purported to apply only to these balances, is indeed apparent from the Statement itself, as transmitted with your letter. The idea which you would appear to entertain that the Sheristadar, in combination with the several Phasildars, attempted from interested motives to keep the "recoverable balances" out of sight, appears to the Board to be altogether untenable. In the very first line of his Statement, Sooba Row refers to Para 2 of the Board's Proceedings of 29th May 1845. and in the very next Para of those Proceedings the amount of the Balances in question is stated, with the remark that they would be realized in due course. Part of the balances would seem since to have been actually collected, and their recovery in course reported. Moreover, not to mention that the Head Sheristadar could propose to himself no advantage in delaying the Collection of a "great" number of small sums due by the cultivators of almost every Palook, [illegible] the

† Note and those of Fusly 1253

Fort St. George 17th December 1846.

that such a line of conduct would have placed him at the mercy of half the Palook Officers in the District, it is evident that, as the sum (Rupees 5922-3-8) which you suppose him to have intentionally omitted in his Statement, still remained in the public Books, and was therefore still to be accounted for, and as it formed a portion, and by far the larger portion of the balance so very recently reported as recoverable, any attempt on his part to retard or impede its recovery could have resulted only in his detection and exposure.—

5. In respect to the failure to charge interest and Commission on account of the Cavetmuggur Estate, it is to be remarked that, although the orders of Government and the Board upon the subject are explicit, the practice relative to such charges has hitherto been by no means uniform in the various Districts. Under all the circumstances therefore, the Board do not think that the omission can be made matter of accusation against Sooba Row, unless, which is not asserted

he

he neglected to make these charges when ordered by his superior to do so —

6. Having thus reviewed the grounds on which you have questioned the correctness of your Head Sheristadars proceedings, the Board feel it but due to that Officer to state, that they see no reason whatever to impugn his conduct. From his Petition now forwarded to you, it will be observed that he complains, that, for some time past, you have ceased to do business with him, or to Consult him about the affairs of the District — and his statement is corroborated by the fact shewn by the Enclosure in his Petition — Viz^t that the Deputy Sheristadar was recalled upon by you to explain the Statement which his Principal had prepared — It is further indeed represented by Sooba Row that, up to the present time, you have afforded him no opportunity of offering any explanation regarding that Statement, although you have made it the grounds for your recommendation of his dismissal from his Office The Board

deem

deem it unnecessary to point out to you how essential it is — for the public interests, and the well being of a District, that a good understanding should subsist between a Collector and his Head Native Revenue Servant and as they consider that no cause has been shewn in your letter for your withholding your confidence from Sooba Row, they direct that you will cause him to occupy his due position in your Cutcherry, and will avail yourself of his services on all matters of importance connected with the Revenue administration of your District —

7. The Original account forwarded in your letter is herewith returned, and the Board request that the report on the old balances of North Arcot may be furnished as soon as possible. —

Read the following Report

To J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

Sir,

30

From the Asst Coll.r of Tinnevelly— Reporting upon the Settlement of Land Revenue of the Tinnevelly District for Fusly 1255 and forwarding the usual Accounts relative to the same.—

Para 1- I have the honor to report upon the result of the Settlement of the Land Revenue of the Tinnevelly District for Fusly 1255 A.D. 1845/46 and to forward the usual Statements marked A to D. and numbered 1 to 14.

2- Owing to pain in March the Ponacolum Tanks received a supply of Water by the aid of which Crops were raised which were carried to account in Fusly 1255 A.D. 1845/46 the harvest not taking place till the commencement of that Fusly. There was a considerable Increase from this source principally in the Sub Division. In May there was not the usual quantity of rain nor any fresh in the Tambrapoorny but in June and July rain fell abundantly on the Hills where are situated the sources of the Rivers supplying irrigation for the Agaput Lands from which cause and from the Agaput Tanks sharing also in the advantage of the March rain there was an Increase in Agaput Carr Cultivation. But within

within the limits of the District there was a little general rain till the 27th of September from which cause the average quantity of Cass produce was, it is said, less than the Standard and a considerable amount of remission was required for withered and defective Crops.

Peshanum Season.

3. The Peshanum season of Fasly 1255 & 1845/46 was more favorable. In October and November rain fell in abundance in all parts of the District and the Rivers and Channels &c. received their full supply which was kept up to the end of December by the heavy rain that fell on the 3rd of that Month. The consequence of the favorable states of the season will be seen in the increased Cultivation. On the 2d December there was a hurricane attended with heavy rain which injured the standing Crop; but notwithstanding this and a failure of the usual rains in January and February the Peshanum Crop was in general good, and remission on account of short produce was required only to the extent of 2754 Rs instead of 3707 as in Fasly 1254 & A.D. 1844/45

Col. 329. Statement B.

4. Of the 4 additional Villages which it will be observed from marginal Statement No. 1 are brought to account in the Fasly under review the Villages of Cayo Sheriff and Nagulcandoo in the Talook of Tencausey held on Pottom and Poroopoo tenures for life only under the operation of the orders communicated by the Board on the 6th January 1845 lapsed to Government by the deaths of the Incumbents, and were transferred to the Head of Oloongoo.

5. The Village of Nagojee Row Pully in the same Talook was transferred from

Fort St. George 17th. December 1846

from the Head of Poonjah to Oloongoo according to the system of the District in consequence of some of the lands therein having been cultivated with Nunjah produce.

6. The Village of Pilliar Oloom in the Talook of Nellianbalum granted on Sheotrium tenure to Vencata Row a former Head Sheristadar of this District fell to Government in the Fusly under report and was transferred to the Head of Oloongoo in consequence of the death of Lat Sunny Boy whose life was the last of the 3 for which it was granted. This circumstance was reported to the Board on the 19th of April 1845.

From.

Fort St. George 17th December 1846

7. From the foregoing Statement No. 2 it will be observed that the Nunjah Cara and Peshanum Cultivation in the Aloongo rented and Amanne Villages of Fasly 1255 A.D. 1845/46. exceeds that of the previous year by Sa. C. 11830 1h — 2½ — adding to this, the Increase in the cultivation of Nunjah and Bugeyet Cultivation in the Villages experimentally settled amounting to

Singasamoodrum — Sa. C. 70 — 2/8 the total Increase amounts
Padenalampary —
Chittawr Chuttrum. to Sa. C. 11830 — 1h — 5/8 — From this is to be
Jerkoo Elundacolum. deducted the decrease of Sa. C. 2167 — 1h — 4/8 in Nunjahmail poonjah and Vampyp Cultivation shewn separately in Fasly 1254 A.D. 1844/45. but included with Nunjah in the past Fasly and that of Sa. C. 80. 1h — 2/8 in Nunjahmail poonjah and Vampyp Cultivation under Summedy both together being Sa. C. 2248 — 9 — 7. The net Increase in Cultivation will then be Sa. C. 9582 — 1h — 6/8 which is ascribable to the favorable nature of the Peshanum season; to an impulse given to the Cultivation of a 2d. Crop by an extension of the rule of taxing it with a half Fasly

Fort St. George 17th December 1846

Seawah only, and to the increased Cultivation brought to account in Cara under the Circumstances already explained in describing the nature of the Season.-

8. The decrease under the head of Nunjahmailpoonjah & Vampyp entered as Nunjah is owing to this species of Cultivation having been agreeably to the Board's orders dated 23d December 1842. amalgamated with Nunjah and that under the Head of Nunjahmailpoonjah and Vampyp Cultivation under Summedy 8th is partly attributable to the discouragement given to the Cultivation of 8 Sorts of produce included under this Head by the Board's order of the 25th September 1845 directing the assessment of such land with the usual Nunjahmailpoonjah or Nunjah taxe whichever may be the highest and partly to the Betel and Plantain Cultivation in some places having been destroyed by the Storm which passed over the District in December 1845.-

Serrack

10344

Fort St. George 17th December 1846.

9. The average commutation price of the year both exceeded that of July 1254 and also the Aloongoo A.D. 1844/45 Standard to the extent shewn in the foregoing Statement.- The Increase occurred in regard to the Cash products and was attributable to the appre-hensions created by the failure of Rain in September at the commence-ment of the season of Pesharum Cultivation combined with scarcity in neighbouring Districts.

10- The annexed Statement- No. 4 exhibits in one view the Settlement of the Fusly under the several Branches of Land Revenue in contrast with Fusly 1254 - A.D. 1844/45 No. 4.-

10347

Fort St. George 17th December 1846

11. The revenue derived from Inanjah Warapuit or full tassel wet lands in Oborgoe Villages in Fusly 1255 amounts to Rupees 1292754 4 9 which compared with that of the previous year shows an increase of Rupees 155377 8 8 in favor of the year under report. A considerable portion of this large addition was occasioned by Increase of Cultivation already explained. Allusion has been made to an impulse afforded to the Cultivation of a 2nd Crop by the order given by my Predecessor Mr. Thomas to extend the privilege of a half Teerwah on a 2d Crop to lands entered in the Ayacut accounts 1 Crop land, this privilege being previously confined to lands so entered in the accounts of Fusly 1238 / A.D. 1828/29. The Increase in 2d Crop Cultivation in the Fusly under review was 4520 which may be partly attributed to this cause. The other main cause of Increase in Revenue was the rise in the Commutation Price as shown in Statement No. 5.

15. Notwithstanding the Decrease in Cultivation of S. 14 7 1 - 2 5/8 caused by many Plantain and Betel Gardens ha- been destroyed by the Hurricane above noticed, there is an In- in the Bairy of Rupees 1941-12 chiefly occasioned by the exten- land Cultivated with Betel and Plantain, which are very highly assessed, being greater in proportion than in Fusly 1264 / A.D. 1854/55 and in a hi- -er degree to such descriptions of Produce as a less than the Nunjah teerwah last year ta- -xed with full Nunjah Teerwah in Fusly 12 / A.D. 184 under the orders of the Board dated 25 th September 1845.-

No. 16.

Nunjah mail poonjah.

Fusly.	Nunjah mail poonjah and Vaniapy Cultivation under all Heads.								
	Extent of Cultivation			Average rate per S.C.			Teerwah		
	S.C.	m.	h.	R.	a.	p.	R.	a.	p.
1264	8295	12	1 7/8	8	15	11 1/2	3316 3	15	"
1255	8250	3	4	4	12	7 11/16	6350	5	10
Increase	"	"	"	"	1	3 9/16	386	6	10
Decrease	68	8	5 11/16	"	"	"	"	"	"

16. In the Item noted in the Margin there was a Decrease of S.C. 68-8-5 11/16 the Cultivation in consequence the Unfavorable nature of the Pesharam season of Fusly 1265 / A.D. 1845/46 having induced the Ryots to neglect Well Cultivation for the sake of the Pesharam Nunjah, nevertheless there is an Increase of Rupees 386-6-10 in the Revenue from

Fort St. George 17th December 1846

from this Head caused by the greater proportion of the more highly assessed Lands of this description which were cultivated.

No. 11. Nunjah mail poonjah.

Fusly.	Lands paying usual Nunjah Mail poonjah and Vaniapy Teerwah under Sannads								
	Extent of Cultivation			Average rate per S.C.			Teerwah		
	S.C.	m.	h.	R.	a.	p.	R.	a.	p.
1254	248	19	2 1/4	1	15	6 2/4	491	1	"
1255	283	15	"	1	14	10 1/4	547	1	2
Increase	34	16	5 7/8	"	"	"	56	"	2
Decrease	"	"	"	"	"	8/12	"	"	"

17. The Increase under this Head of Rupees 50-" 2 is entirely attributable to the Increased extent of this description of Cultivation.-

18 On a reference to the subjoined Statement No. 12 it will be observed that notwithstanding an Increase in Nunjah Cultivation of S.C. 64-2 4 3/4 the revenue of 4 Tarum or settled Villages fell short of that of the previous Fusly by Rupees 48-14-4- owing to a considerable decrease in the Cultivation of a 2d Crop. The Lingasamoodrum Tank by which these Villages are irrigated is fed by the Chittaur River in which the freshes were less abundant early in the season than in Fusly 1254 / A.D. 1844/45 The Increase in Cultivation under the Head of Bagayet amounting to S.C. 5-16-6 1/2 produced a cor- -responding Increase in Revenue of Rupees 26-10-" The total wet Cultivation of Fusly 1255 / A.D. 1845/46 including the Bagayet exceeded by S.C. 70-"-2 7/8 the Total Cultivation of the previous Fusly, but the Revenue from the same above stated was less by Rupees 22-4-4-

Carriage	20 3/16	22 13/16	
Total Cottah	3/205 31/64	93 3 40	15 " 10

Do. As mentioned in the foregoing Statement it will be seen that the portion which the Cotton Cultivation bears to that of Coonjah is equal to 20 3/16 per Candy and the Rate of Cotton Land is 22 13/16 per Candy. The Cotton mostly Cultivated and of the Country description (Coonjah Cotton) are annually taken inquiry into by Officers appointed for the purpose, and the kind of Cultivation fixed accordingly.

Bellary 26th October 1845

Actg Collr

Increase of Fusly 1255 over 1254 = Candies 1255 - 1254 = 1 Candy

Decrease of Fusly 1255 under 1254 = Candies 1254 - 1255 = 1 Candy 88 7/10 Rupees at 2 Rupees per Candy = 177 Rupees 6 Annas 8 Pie

Deduct Increase 1 Candy at 2 Rupees per Candy = 2 Rupees

Net Decrease = 175 Rupees 6 Annas 8 Pie

Proportion of 20 Fuly Cess to the Total Collection

10350 Extract from Fort St. George Consultation 17th December 1840

21 On the Head Sheristah of the Board's Collections in Guntoor the Collector reports that in consequence of the Cultivators having received Tuccavy Loans to a greater amount than usual, there was a deficiency of Rent to the extent of Rupees 1255 in the Fusly Year 1254 as compared with Fusly 1253 and that he has granted Remissions to the amount of Rupees 1242 4 0 on account of Failure in the Cultivation and of Rupees 345 0/32 Chairum in the Collection and of Rupees 345 - in the Revenue from Fixed Sources. That Decrease of Revenue does not appear to have occasioned any Loss to the Government as the Tuccavy Loans have been realized with Interest.

The Board observe with Satisfaction, that the Collector has made an Enhancement by the Land Cultivated bearing one Rupee a Cowle but that on the Whole there is a Decrease of Rupees 1255 - in the Collection of Fusly 1254 as compared with Fusly 1253 which they attribute to the Failure of the Crops.

Ordered, that the Collector be informed that the Board are not satisfied with the Reasons assigned for the Decrease in the Collections of Fusly 1254 as compared with Fusly 1253 and that he be required to report more fully on the Subject.

Ordered, that the Collector be informed that the Board are not satisfied with the Reasons assigned for the Decrease in the Collections of Fusly 1254 as compared with Fusly 1253 and that he be required to report more fully on the Subject.

	Rs	a	p
Fusly 1254.	19503	2	10
" 1255—	20229	15	4
Decrease—	1225	2	6

Ordered, that the Decrease in the Fusly Revenue amounting to Rupees 1225 2 6 be remitted.

Ordered, that the Collector be informed that the Board require more Minute Reports in future.

22 On the Revenue Proceedings of the Head Sheristah, in the Ceded Districts, for the Month of January—

Fusly 1254.

Fort St. George 17th December 1840

The

Fort St. George 17th December 1846

23. The Decrease in the 1st & 3d Items amounting together to Rupees 1,239—12-8- is attributable to the destruction of a large Number of Productive Trees by the Storm in December 1845- Deducting therefrom the Increase of Rupees 114—3-4 arising from advantageous offers received for the rent of certain Topes forming the 2d Item, there remains a Net Decrease of Rupees 1125-9-4-

24. The Number of Tope Trees blown down by the Storm abovementioned amounted to 7317- according to the Rule of the District 1/3rd 3/4 of the Sale proceeds of the timber is payable to the Government in Meerassy lands and the whole in Perumbut lands- The aggregate amount of this Revenue was Rupees 1,503-10-6- of which Rupees 1,006-2-9- were realized within the Fusly and Rupees 201-3-3 subsequently making in all Rupees 1,207-6— The balance remaining amounts to Rupees 356-4-6- which is in process of realization.-

No. 18.

Fort St. George 17th December 1846

No. 18 Land Cund or Palmirahs-

	Fusly 1254				Fusly 1255				Decrease			
	No. of Trees	Teermah Rs	a	ps	No. Trees	Teermah Rs	a	ps	No. of Trees	Teermah Rs	a	ps

Total	3,79,1605	1,09,786	3	3	3,70,3613	1,04,452	5	"	8,992	5332	14	3

25 The Decrease of Rupees 5,332—14-3 under the 1st & 2d Items was occasioned by 122520. Palmirahs including 8992 productive Trees having been blown down by the tempest above referred to- The Circar Share of the Sale proceeds of these Trees came to Rupees 1472 1-3-6 of which Rupees 7,272-3-2- were realized within the Fusly and Rupees 4630-1-10- subsequently leaving the balance to be Collected hereafter at Rupees 2,618-14-6- Thus there was no real deficit in the Revenue from Palmirah Trees in the present Fusly though the destruction of Trees will pro tanto necessarily diminish the yearly revenue hereafter-

10304

Fort St. George 17th December 1846.

From the Statement No. 19

26

it will be observed that the lands therein entered are not fit for any purpose but planting Palmirahs. The number of Palmirah Seeds sown therein Amounts to 569567 of which 566227 Seeds were sown on the Sand Hills at Trichendoor Vca. and 3340 Seeds on the Banks of the Tambraporney River as follows.

	On the Drifts of Sand	On the Banks of Rivers	Total
Seeds not yet come up—	147279	2160	149439
Seeds which have come up—	418948	1180	420128
	566227	3340	569567

27. These Plantations were made by the Ryots on an assurance contained in written Cowles that these Trees should be exempted from tax till grown up and then assessed with half Teerwah only and that until the Trees should come to bearing the under Cultivation if any (which is at present impracticable) will be also exempted from Tax.-

Fusly 1254	2,278	14	6
" 1255	1985	9	7
Decrease	293	4	11

29. The Decrease under this Head is owing partly to the felling of Trees in lands paying Poonjah Teermah and the land being therefore either left waste or entered under the Head of Cultivation, and partly to Trees on Government waste where the Revenue is derived from the Sale of the Trees themselves not being fit for felling.

Decrease		2464	3	10	2426	4	10	37	15	0

The

Fort St. George 17th December 1840

32 The Decrease under this Head was Caused partly by a Smaller extent of land having been taken on Jabitah Cowle in Fusly A.D. 1255/1845/46 partly by the transfer of lands receiving Cowle remission in 1254/1844/45 to full assessment and partly to Cowles being thrown up- The Decrease from remission from the last cause was considerable, as will be inferred from enclosure No. 2- The parties who threw up their Cowles were totally unable to carry through their speculation- One person in particular who had engaged for land under a ruined Tank which required a large sum to repair found his Capital utterly inadequate to the undertaking and it was evidently useless to hold him to his engagement- He was fully assessed for the extent he did Cultivate- The other instances were of a trifling amount and the parties had died or left the District-

Deduct Decrease							1226	14	0			
Net Increase							4793	8	2			

33 The Increase in the 1st Item of remission under this Head was caused by an excess in the extent of Cultivation from which this Enam is derived and by certain Enam lands belonging to Pagodas hitherto erroneously entered as Enam to Chuttrums Water Pundals &c. having been in Fusly 1255 A. D. 1845/46 Carried

Fort St. George 17th December 1846

carried to the Head of Pagodas after careful examination of accounts. That in the 5th Item arose from the same cause. The total Increase in these 2 Items was Rupees 6020-6-8. Deducting therefrom the Decrease under the 2d and 3d Items of Rupees 809—11—"- and 24-9-1- respectively the former occasioned by certain Enams formerly erroneously included with the 2d Item having been in Fusly A. D. 1255/1845/46 carried to the proper Head and the latter by certain Enams having lapsed to Government owing to the death of the Incumbents as also Rupees 392-10-5- arising from a falling off in Cultivation and from a Decrease in the Beriz on Tope and Tankbunds in consequence of the destruction of Palmirahs and Tope Trees already noticed, the Net Increase in the amount of Remission under this Head is Rupees 4793-8-2.

34 The Nunjahmail poonjah Cultivation, which was in Fusly 1254 A. D. 1844/45 assessed with

Fort St. George 17th December 184

with 3/4ths of the difference between the old Nunja
=mail poonjah tax and the Nunjah full teerw
having been in Fusly 1255 / A.D. 1845/46 assessed with full
Nunjah tax and amalgamated with Nunja
no remission under this Head was granted i
Fusly 1255 / A.D. 1844/45 as was the case in the previo
Fusly 1254 / A.D. 1844/45 neither was any remission
granted in Fusly 1255 / A.D. 1845/46 on account of

The

36. The Items enumerated in Statement No. 27 which remain to be added to make up the total Land Revenue of the year, amount for Fusly 1255 / A.D. 1845/46 to Rupees 4.10.928 3 1. exceeding the amount of the preceding year by Rupees 14,443-6-4 which may be explained as follows—

37- The Increase in the Hill Rent was occasioned by higher offers that in the 3d. Item by high prices. that in the 5th. Item is the amount of Teerwah on a piece of land granted to Mr. Coey the Constituted Attorney of Messrs. A & R. Crowe & Co. of Colombo under the Sanction of Government dated 29th. August 1834. and the considerable Increase

Increase in the 7th. Item was derived from the Government share of the sale proceeds of the immense number of Trees blown down by the Storm of 2d. December 1845. An Increase in cultivation and Price is the cause of the Increase in the Tripany and Chuttrum Deposits - The total Increase under the different Heads included in the Statement was Rupees 15,082-6-4- from which the Decrease of Rupees 639 on under the Head of Shrotriem caused by the resumption of the Village of Pilliarcolum under the circumstances stated in Para 6 of this report being deducted the net Increase amounted to Rupees 14.443-6-4.

38- The foregoing Items being added to the Total Revenue under Annual Settlement the full Net Land Revenue of the year exclusive of the Deposits was Rs. 22.91.410-10-11 and inclusive of them Rs. 23,23,441-8-7-

No. 29

Sheet of Memoranda 1846.

No. 29.

| | | |

Fort St. George 17th December 1846.

39. The Statement No. 29 exhibits a comparison of the total Land Revenue from all sources, exclusive of Peishcush and Extra Revenue with that of previous Fuslies. and it will be satisfactory to the Board to observe that it is the highest on Record, while the Balance at the close of the Fusly is the lowest on Record. I may add the further very satisfactory circumstance, that owing to a rise in the Price of Grain after the commutation Price for Peshanum had been fixed the Year was a profitable one to the Ryot, notwithstanding that the Carr Crop was perhaps in general but indifferent This fact was so clear that, unlike Farmers in general they universally expressed their contentment.

From

Fort St. George 17th December 1846.

40 From the foregoing State-
ment it will be seen that of Rupees
23,23,441-8-7 the Beriz of Fusly 1255 A.D. 1845/46
Rupees 23,01,094-15-9 were collected
within the Fusly and Rupees 17,184-5-2
subsequently to the 30th November 1846.
leaving Rupees 5,162-3-8 outstanding on
the latter date which will be soon
Collected with the exception of a
small sum expected to be irrecoverable, and
for writing off which to Profit and Loss
sanction will be applied when detailed
Accounts are received from the Talooks.

The

Fort St. George 17th December 1846.

42. The sum of Rupees 987-- was advanced for Cultivation in Fusly 12.55 / A.D. 1845/46 and recovered within the Year, and of Rupees 1331. the Balance at the commencement of the Fusly of an advance for the re-construction of Houses destroyed by fire. Rupees 126 only were outstanding at the close, and will be collected speedily.—

43. The whole of the Balance of Tuccavy amounting to Rupees 2,137-5-4 which had accumulated from Fusly 12.14 to A.D. 1804/5 12 42 / 1832/33 has been written off to "Profit and Loss" under the sanction of Government dated 11th August 1846.

44. In submitting a report on a year of unusually high Revenue, it seems to me just on the part of the Collectors Department to acknowledge the effect on the prosperity of the District of the unremitting attention paid to the sources of irrigation by the Civil Engineer. Where wet Cultivation bears so large a proportion to the whole, it is evident

Fort St. George 17th December 1846.

evident that a great deal must depend on his judgment and exertions. and if any Credit is considered to be deserved for the steady increase in Cultivation (which I think is apparent in this District) a considerable share seems to me to be due to him. In saying thus much, I hope that I shall not be considered to have been guilty of the presumption of intending to give an opinion on professional acquirements of which I am not a competent Judge.

45. In conclusion I have the honor to submit the report of the Sub Collector on the Talooks under his charge and to express my entire satisfaction with Mr. Eltons Management of them. They are with trifling exceptions entirely under his care, and require more attention and judgment than almost any other Talooks of the District. Whenever Mr. Elton has resided near me, I have also received from him that advice and information in regard to the District in general which his longer residence in it enabled

enabled him to afford -

46. I beg also to express my obligations to Mr. Lewinge the Head Assistant for great assistance in the Management of the Talooks forming the principal Division: Owing to the absence of the Second Assistant his duties have for some time past been so much increased, that I am sure few could have performed them satisfactorily; but Mr. Lewinge's extensive knowledge of the language, readiness and application to business, and acquaintance with localities and habits of the people render a heavy task comparatively light to him - These qualifications have also enabled him to afford me much information in regard to the District of which I naturally stood in need -

47. Mr. Cator the 2d Assistant having quitted the District for Madura, a few days after my arrival, I am unable to say more of him than that Mr. Elton speaks favorably of his Zeal and industry -

Tinnevelly
4th December
1846

(Signed) R. D. Parker.
Acting Collector

Glossary

Glossary of the terms made use of in the Journal Report for Fasly 1255 -

Amahlundy - Aspaut - Asmany - River or Channel fed or irrigated Villages or lands under the direct management of Government Officers -

Bagayet - Garden lands -

Cars - - - The first Crop of the year from May to September -

Carasel - Black soil which is the first class Poonjah land -

Cooppen Carothy - A Kind of Country Cotton annually produced -

Cowle - - A Lease -

Chuttrum - Choultry or a place of accommodation for Native Travellers -

Chittara Cuttyattu - Petty Quit Rent -

Durcaxaul - Fees formerly levied by Poligars from Ryots for watching Villages and which is now collected by Circar -

Dumastanum - Pagoda -

Gayer Murzy - Remission refused for drought and short produce -

Mamul - 5th class Poonjah land -

Mamul Sowl - 6th class Poonjah land -

Maniaum

Manium - Grant of Land wholly or par-
=tially rent free.
Mainyporool Productive Crop
Mahajanum Meerasidars of the Brahmin
Casts.
Nelawary - Exctra tax on Straw &c.
Nunjah mail / punjah } Dry Cultivation raised on
wet lands.
Nunjah Warapatt Full taxed wet lands.
Nadamparutty Cotton trees the stem of which
are about 2 yards high and which
yield produce for 3 years.
Oloongoo - An assessment fixed in grain
but converted into money year
by year.
Peshanum The 2 Crops of the year from
October to April.
Patum — A fixed Grain assessment.
Parasoo - A favorable fixed Money
assessment.
Punaclums - Lands dependent on the rains.
Pottah - 4th Class Punjah lands.
Peshcush - Tribute paid by Poligars.
Seneb - Red soil on second Class Pun-
=jahs.
Surwa Inamee - Grant of land entirely free.
Shrotrium - A fixed favorable rent.

Tarum

Tarum Villages Villages settled on a fixed
money field assessment.
Tope —— Groves of trees
Tarabund - Palmirahs
Tripany - A fund for the Repair of
Pagodas.
Tuccany — Advance for cultivation.
Vampyre - A Kind of Garden Cultiva-
=tion such as Tobacco Turme-
=rick &c.
Woodungaud Thorn Jungles.
Zabitah fowler. A Lease allowing remission
progressively decreasing to
bring waste Land into Culti-
=vation.

Akarry

Collections within the Fusly	25272 8	25662	389 8		The Collections of Fusly 1255 having comprized arrears of the previous year to a greater amount than that included in the Collection of the preceding year is the cause of this Increase
Extra Revenue	15			15	For particulars of this decrease see the accompanying Memorandum H
Total	25273 13	25662	389 8	15	

Small Farms & Licenses

Collections within the Fusly	26408 10	20070 4 2		6338 7 8	The decrease here shewn is attributable chiefly to the Collections of Fusly 1255 not having included Casualty Revenue, as was the case in the preceding year
Extra Revenue	35			35	For particulars of this decrease see the accompanying Memorandum I.
Total	26443 10	20070 4 2		6373 7 8	

Motorpha

Collections within the Fusly	102571 11 10	101621 5 8		958 6 2	This decrease has arisen in consequence of the Rs of Looms &c. brought to account in Fusly 1255 having been less than in the preceding year
Extra Revenue	791 1 29	99 212 8 8			For particulars of this Increase see the accompanying Memorandum J
Total	102653 12 11	101912 13 5	212 8 8	958 6 2	

Sayer or Land Duties

Sayer duties Collected within the Fusly	57804 3 9	57233 10 10		570 8 11	This decrease is partly owing to the non exportation of Jaffna Tobacco to Travancore, & partly to the Tariff valuation of Tobacco having been reduced from Rs 103 11 a to 50 Rs per Candy
Extra Revenue	196 12 7	325 12 8	129 1		For particulars of the Increase see the accompanying Memorandum K
Total land customs	58001 1 4	57559 7 6	129 1	570 8 11

Signed / P. D. Parker
Acting Collector

of June and July in more than usual abundance, and the surplus water which remained in the Poonacolum Tanks prior to the opening of the Fusly enabled the Ryots to carry on their Cultivation on a more extended scale than in the previous Fusly, as shewn in Table No. 2. But the failure of the usual rains in the Months of August and September gave rise to the occurrences of dried up Crops, and short produce the former to the extent of seed Cattahs 75 — 12 — 0 and the latter to that of seed Cattahs 134 — 0 7/8 The amount of remissions granted in both these cases amounting to Rupees 2685 — 1 — 9 exceeds that of last year by Rupees 2677 — 9 — 2 as shewn in Table No. 3. but was not by any means of such an extent as

1255	2685	1	9
Increase	2677	9	2
Decrease	0	0	0

as to neutralize the amount gained by the extended Cultivation shewn in No. 2.

4. The Season for Peshanum of Fusly 1255 was a favorable one, and the rains in general sufficient. The Peshanum Cultivation in three Taloohs is in excess of last year by seed Cattahs 2213 — 4 — 3 5/8 as shewn in the annexed Table No. 4 and generally came to Maturity. But a deficiency of water in certain small Tanks originating in a want of rain at a time when it was much required for ripening the Crops under them was the cause of Remission to the extent of Rupees 2103 — 0 — 8 on account of dried up Crops and scanty produce

produce as shewn in Table No 5.

5. The rains in September during which the greater part of the Poonjah lands are brought under cultivation entirely failed. Nevertheless the subsequent falls in the latter part of the season having been abundant enabled the Ryots to cultivate to a greater extent than in the previous Fusly as will be seen in the annexed Table No 6 shewing an increase of Chains + 3013 $\frac{66}{128}$.

No 6 Poonjah.

Cam and Peshanam

the Nerunk for the Cam 23 $\frac{37}{64}$ per cent above last year as shewn in Table No 7. The Peshanam Nerunk for the 3 Taloks Shermadavy, Bremadasham and Sheevilly-pootoor was also higher in this Fusly than in the previous one, but in the Talook of Shenkamma-coil alone, it fell below that rate which is partly attributable to the favorable nature of the present Peshanam season as compared with that of the previous year, and partly to the abundant produce which the neighbouring Garden-dary lands yielded.

The particulars of Revenue obtained from all the different sources are exhibited in one view in the following Table No 8 shewing an increase over the last year of Pagodas 19787 — 12 — .

Fort St. George 17th December 1816.

8.

The Summah of the Nunjah Warapat lands of the Money rented Villages of Fusly 1255, as compared with that of the preceding Fusly, exhibits a net increase of Rupees 8204-8-0 as shown in Table No 9 which is attributable to an increase in cultivation, and a higher rate of Peice. The decrease in the rate of Maliwaram is owing to the additional lands taken up this year being less productive ones than those usually cultivated year by year; and to one crop lands cultivated twice within the year being only charged with ½ Keerwah for the 2d Crop.

19. The Palmirah Trees let out on lease exceed those of last year by 14,491 in Number, but the amount offered for their rents has fallen off this fasly to the extent of Rupees 13-2-8 from an unpromising state of the produce at the time of renting them. Besides this a further decrease of Rupees 55-8-9 has taken place in these Villages in which a permanent tax on each producing tree is fixed, attributable to the large number of 5,003 trees having been blown down by the late storms, above referred to, and to some of the remaining trees having become unproductive; making together a total decrease of Rupees 68-11-5 as shewn in Table No. 20.

Decrease	55 1 3	" " "	" " "

26. The Extra Revenue consisting of 2 Items Viz. Fisheries and Motarpha Tax, increased, in the former instance to the amount of Rupees

Rupees 3123-1-4, and fallen off in the latter by Rupees 55-1-3. The increase in Fisheries of Rupees 3123-1-4 shewn in Table No. 28 is owing to the produce of the Tanks having been from being better supplied with water, greater than in the previous year, and especially from certain Tanks having been left at the expiration of the preceding Fasly in a favorable state for renting early in this. The slight decrease in the Motarpha Revenue of Rupees 55-1-3 has been caused by various circumstances affecting the liability of different persons to this Tax, but chiefly by the exemption of cultivating Ryots from the Payment of the Motarpha tax, but this is far more than made up by the additional revenue derived from the land occupied by them.

To. The Revenue Board

Sir.

I have the honor to forward herewith a Statement of the Collections made at this Presidency during the month of November 1846.

2. The Collections of the month amount to Rupees 7,32,971-5-1 and the Balance outstanding at the end of the month to Rupees 752-11-2.

3. The Collections of the month are less than those of the preceding month by Rupees 1,03,973-10-3 and those of November 1845 by Rupees 1,19,953-14-11.

4. The Collections of the month are less than the Demand by Rupees 752-11-2 and the Balance outstanding at the end of the month is less than that of the preceding month by Rupees 239-14-4.

5. The Collections of the month are less than the Demand by Rupees 752-11-2 and the Balance outstanding at the end of the month is less than that of November 1845 by Rupees 1,19,953-14-11.

I have &c.

1655 — Chap. 1° & 2° George IV. — September 1848.

An Act for the better ascertaining and more effectually preventing the Adulteration of Tea.

[Royal Assent 5th July 1655.]

Whereas it is expedient that the Duties payable upon Tea should be collected and secured in such manner as may be most convenient for the Trade, and that the Practice of counterfeiting, mixing, and adulterating Tea with other Herbs or Leaves, and with Sloe Leaves, Copper Leaves, and other Leaves, and with Sand, Sloe Leaves, and other Things, should be prevented; and that the Duties payable upon Tea should be secured to His Majesty, His Heirs and Successors, and that the Trade in Tea should be carried on with more Facility and Advantage to the Fair Trader; and whereas it is expedient that the Duties payable upon Tea should be collected and secured to His Majesty, His Heirs and Successors, and that the Trade in Tea should be carried on with more Facility and Advantage to the Fair Trader; and whereas it is expedient that the Duties payable upon Tea should be collected and secured to His Majesty, His Heirs and Successors, and that the Trade in Tea should be carried on with more Facility and Advantage to the Fair Trader;

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That from and after the Passing of this Act, all Tea imported into Great Britain shall be subject to the Duties of Customs and Excise hereinafter mentioned, and shall be warehoused in the Warehouses of the Importers, or in such other Warehouses as the Commissioners of Her Majesty's Customs shall appoint, and shall be delivered therefrom only for Home Consumption, or for Exportation, under the Regulations hereinafter mentioned.

And be it further enacted, That all Tea which shall be imported into Great Britain shall be entered at the Custom House

16536 Fort St. George 17th December 1846.

15 Report from the Sub Collector, dated 22d October 1846.
16 Report to the Secretary to the Board of Revenue dated 4th December 1846.

/ Signed / R. D. Parker
A. Collr

1537 Fort St. George 17th December 1846.

Order thereon—

(30–31)

Ordered to be brought for-
ward at a future day.

To

J. Pycroft Esqre

Secretary to the
Board of Revenue
Fort St. George.

From the Princl. Collr. of Coimbatore—

Sir

I have the honor to acknowledge the receipt of your letter of the 28th January last

(32)

giving cover to a set of Rules for the encourage-
ment of the Plantation of trees and Topes
and requesting my opinion thereon—
2.

Para 2 of the Rules does not appear to me to be sufficiently remunerative as regards this district— In places distant from Villages it will be an undertaking of great labour and expense to form a Tope, and I am therefore of opinion that parties planting Topes in waste lands should be allowed to enjoy their Produce rent free in perpetuity— the Topes being considered the Property of Government and not liable to be disposed of by deed of sale mortgage or transferred by the Planter to any other Party—

3.

The other Paragraphs seem to be sufficiently favorable and I have

no-

1538 Fort St. George 17th December 1846.

no remarks to offer on them—

Coimbatoor— }
7th December 1846— }

I have &c
Signed J. C. Wroughton
Princl. Collr.

No 1—

To

J. C. Wroughton Esqre

Principal Collr. of
Coimbatore—

Sir

I have the honor to acknow-
ledge the receipt of your letter of the 17th
instant enclosing copy of a proposed
draft of rules by the Board of Revenue for
the encouragement of planting Topes and
avenues and desiring to know my opinion
of their applicability to the Talooks
under my charge and whether I can
propose any modification—

I am not sure whether I
rightly understand the latter part of the
2d rule If the intention is that as soon
Topes came into bearing the Planter is
to lose the privilege of cultivating the
ground in addition to his usual holding

tax-

tax free and to have as beneficial an interest in the trees I doubt whether many persons will consider it worth while to plant Topes at all. At all events the Topes would be liable to fall speedily into a state of ruin for want of some one sufficiently interested in their preservation. I would beg therefore to suggest that when Topes come into bearing the Coolivarem or Ryot's share be given to the planter while the Government reverse to themselves the Mailvarum or value of the usual tax and the Swamy Bhogum or Landlord's share of the produce.

I have only further to remark that the proposed rules appear to me well calculated to encourage the planting of Topes and avenues in localities not distant from Villages, but if it is considered desirable to make it worth peoples while to construct continuous avenues along the principal thoroughfares, it will be necessary to make some additional remuneration for Avenue trees planted and properly tended in places remote from Villages and on high rocky places, which are not worth cultivating on

any

any terms. I have observed many such situations in this District where the shade of trees would be a great blessing to travellers and I submit it to your better judgment whether or not it is expedient to propose to the Board to allow in such cases of a small extent of land at the rate of so much for every tree planted at not more than such a distance from each other to be held tax free by the planter.

In many of the situations I allude to, fruit bearing trees might not perhaps live (tho' tamarind trees I believe will grow almost any where) but at long distances from Villages, it would hardly be practicable to

1539. Fort St. George 17th December 1846

to guard the fruit from pillage and in such cases therefore the grant of the Cowleearee after the trees come into bearing would be regd and it would be better to establish a light assessment on the grant of cultivable land to commence when the trees have come to a certain age and ceased to require attention.

Caroor
