Board of Revenue

Sir,

From the Collr. of Malabar

(72)

I reported on the 30th Ultimo the death of my Head Sheristadar. The Board in their letter of 3d October 1839 desired that as little delay as possible should take place in making arrangements to fill up vacancies of this nature. it will not appear indecent therefore that I make this early proposition to supply the Head Sheristadar's loss. I request then the Board's leave to promote my second Sheristadar Peroombajee Coonjee Menon to the higher post. Coonjee Menon has served as second Sheristadar for nearly 5 years to my intire satisfaction. His merits have been [illegible] brought by me to the notice of the Board on more than one occasion† and I have no hesitation in saying that so far as I am a judge, there is no man in Malabar at all equal to him in revenue knowledge and judgement. He has very high testimonials from Mr Clementson who had ample opportunity of judging of his merits for 7 years. I have known him as Head Monsher & second Sheristadar for nearly seven more.

From the Offg Sec to Govt authorizing the Collr of Rajahmundry to accept certain terms proposed by the Zemindar of Pittapore for the liquidation of the present balance outstanding against that Estate -

Extract from the Minutes of Consultation Under date the 2d December 1846

Read the following Letter from the Secretary to the Board of Revenue

Submitting correspondence with the Collector of Rajahmundry relative to the postponement of a portion of the Peishcush for Fasly 1255 / 1845-46 payable by the Zemindar of Pittapore, and supporting the Collectors recommendation that it may be made payable by instalments

Para 2 In the correspondence above referred to the Collector of Rajahmundry strongly recommends

recommends, and the Board of Revenue support this recommendation, that indulgence be shown to the Zemindar of Pittapore against whom at the date of the Collectors letter a balance of Peishcush amounting to one lac of Rupees was outstanding. The whole of this balance accrued in Fasly 1255. The Government demand on the Zemindary for the Fasly was 258979. This ancient Estate was made over to Rajah Row Venkata Swama Row, at the beginning of Fasly 1251. after it had been under management for 15 years during the last 7 of which the amount of Peishcush in full was never realized. The Zemindar however paid without balance the Government demand against him for 1254 notwithstanding he received charge of the Estate too late in the season to make his own arrangements with his ryots, and commenced his administration without a single Rupee in his treasury. This first year of his enjoyment of his Patrimonial Estate was on the whole favorable, but it was not the Zemindar who directly benefitted by the season for all old balances against his Ryots were remitted on his assumption of the Estate and he was precluded from collecting from them more than the Annaracum which

which was settled by the Assistance of Govern-
ment previous to the commencement of Fasly
1254. For Fasly 1255, the engagements entered

Rs 23,858. The Governor in Council is of opinion that the last item is larger than the circumstances of the Zemindar warrant. It is incumbent on him when seeking indulgence from the Government to shew that he has made large sacrifices of his convenience and comfort and this he has failed to do in the present instance. The grounds of opinion entertained by the Collector of the correctness of the conduct of the Zemindar and the expectation that "he is really ap-
plying himself to the reduction of his ex-
pences" with other circumstances in his favor induce the Governor in Council to view his case with indulgence and according to the recommendation of the Board thereon resolves to authorize the Collector's acceptance of the terms proposed for the liquidation of the present balance within Fasly 1259-

Sir,

With reference to the correspondence transmitted to Government with a letter from this Department of the 26th September 1841 No. 371 and also of the 11th November following No. 436 and the Extract from the Minutes of Consultation of the 7th December 1841 No. 4629 I have the honor by desire of His Excellency the Most Noble the Commander in Chief to annex for the information and Orders of

of Government Copy of a letter from the Officer Commanding the Centre Division and also Copies of the Enclosures of the former from the Officer Commanding 2nd Native Veteran Battalion on the subject of the Huts erected by the Collector of Guntoor for the Detachment of the 2nd Native Veteran Battalion Stationed at that place.

It would appear by Mr. Goldingham's letter of the 8th September 1841 that the Huts "were planned for the Comfort and health of the Men" and as they were "all to be tiled" they would seem to have been of a permanent and superior description while their Cost exclusive of Conveyance labour was estimated by Mr. Goldingham at 6 Rupees the actual Cost of each house exclusive of carriage & labor Amounts by Mr. Mokes letter of the 22nd September last now transmitted to Rupees 6-11-5 and the balance 11 annas and 5 Pice over and above the Estimated Cost of 6 Rupees is sought to be recovered from the Sepoys who have been supplied with the huts and to which measure His Lordship in Council considers there can be no objection and recommends accordingly that the same may be ordered by Government.

I am further instructed to add that it would be very desirable that huts for the whole Detachment

contemplated by Mr Goldingham and in the manner a

respecting building of Huts for the men at
that station. The subject it appears was
formerly referred to the Quarter Master
General of the Army and subsequently to Gov
ernment. The points in question are 1st
The unwillingness of the Men to pay more for
the huts erected, than the Estimate Cost of
Six Rupees each.-

2d The difficulty and expense of
building by the Men themselves the remaining
huts required, owing to the high price of
Materials at Guntoor and from being with-
out the aid of convict labor, Under these
circumstances, I beg to request that the Major
General will be pleased to adopt the
measures he may consider expedient in or-

Wallajabad.

Sir,

I have the honor to forward a copy of a letter, received this day from the Collector of Guntoor, relative to the Hutting of the Detachment under my Command for the information of the Officer Commanding the Battalion and beg to know whether I have his authority to stop the Amount of 11 Annas and 5 Pice more from such men who are at present located in the Huts finished - I must add that the men are very unwilling to pay more than 6 Rupees the Amount originally agreed to by the then Collector Mr. Golding Evans -

The latter part of the Collectors letter states that the Sepoys who have no huts must build them for themselves which is a perfectly impossible for them to do here as the materials are most exorbitant and without his assistance they could not possibly be completed - Under these circumstances I wish to know whether I should return the Money to such Men as have no huts, which I fear will

Comd.

cause great confusion as many of the men would much prefer having their Money returned to them than remaining in the huts erected at present.

Sir,

With reference to the correspondence noted in the Margin I have the honor to state that 167 Houses have been completed and made over to the Sepoys under your Command. The total cost exclusive of Convicts labor is Rupees 1121-3-11 being at the rate of Rupees 6-11-5 per house, which I shall be obliged to you to recover from the Men and forward to me at your earliest convenience - There being no convicts now under my charge or other facilities for the work, the accounts in this Department will now be closed and such additional houses as may be required must be erected by the Sepoys themselves or in such way as you may think best - On your informing me what portion of ground out of that proposed for the lines is still required - I will have it pointed out to you - No further

Sir,

From The Governor in Council Informs of the demise of Narandra-rauze and forwards his Son's petition requesting that the amount of his father's pension may be extended to him & family.

I have the honor to report for the information of the Board of Revenue that Veerabahoo Narandrarauze who was a brother of the late Hereditary Dessawar of Palconda, and as such in receipt of Rupees thirty per mensem charged to the Revenues of that Hereditary died at Vizagapatam on the 22d June last.

2. He has left a widow legitimate son by name Seetaramrauze by a former marriage and two daughters by the second wife who have no means of livelihood except from the bounty of Government. The son is at present on a visit to his relatives detained as State Prisoners at Vellore, but his claims have been twice brought to my notice by Brigadier Doveton. The females enumerated above reside at Vizagapatam.

3. The pension adverted to in the first para of this letter was confirmed by an order of Government dated the 29th September 1835, under circumstances detailed in Mr Collector Freese's letter of the 29th August 1835 to which I beg to refer the Board.

4. The revenues of Palconda which yield

16575 Fort St George 21st December 1846

yield more than double the former Peishcush, being now carried to Public account the indi=vidual members of the family who are precluded from their position from earning their bread by service, have a strong claim for maintenance on Government, so long as the head of the family remains a State Prisoner without an adequate permanent provision

5. Under these circumstances I beg to recommend that the small sum allotted to the father of this young man may be continued by the Governor in Council to the son Sectarama=raze, transcript of whose address to me accompanies this letter - A moiety being paid to the members of the family in Vizagapatam and half to the son while he continues at Vellore -

6 The pension I suggest, should be paid from the demise of Narsaindraraze The delay in bringing the case to notice originated in the expectation entertained of the return of Sectaramraze to Vizagapatam but Brigadier Doveton in a report dated the 29th Ultimo, has informed me that the young man is necessarily detained at present at Vellore -

decease on the 26th June last of Veerabahoo Narraindra Rauze who was in the receipt of a Monthly Stipend of 30 Rupees and recommending that the allowance may be Continued to his son Seetaram Rauze for the support of himself and family

From the papers noted in the margin it will be observed that the deceased Pensioner was the half brother of the late Zemindar of Palcondah and that the allowance in question was granted to him under the orders of Government dated 29th September 1835. Mr Smollet States that the deceased has left a widow and two daughters besides his son Seetaram Rauze who are without any ostensible means of livelihood, and Recommends that the pension may be Continued a Moiety being paid to the Members of the family in Vizagapatam and the other half to the Son while he Continues at Vellore whither he has gone on a visit to his relatives who are detained there as state prisoners. It is further proposed that the Pension should be paid from the date of the death of Narraindra Rauze

Under the circumstances stated the Board beg to recommend that the allowance

Sir,

From the Coll.r of Rajahmundry
Submitting the Original Proceedings held in the two Cases charged against Beeracoyala Ramabawmy Somayajooloo Amildar of Taudemulla with reference to the Board's letter of the 24th Ultimo and reporting upon his Petition of Appeal No. 1214 of 1846

Para 1. As requested to your letter of the 24th Ultimo, I have the honor to forward the proceedings held in the two cases charged against Beeracayala Ramasawmy Somayajooloo Amuldar of Taudemulla with a precis of the evidence and defence in each case —

Original as per List accompanying No 1.

2. The Petition of appeal which accompanied your letter and which with its enclosures, I have the honor to return, calls, but for few remarks —

3. Beeracoyala Ramasawmy Somayajooloo Complains, that persons who state that they paid him money were examined as

as Witnesses and those who saw it paid, as Complainants, and further that in the Tirunala = pooram case the original Complainants were Ryots of Kotavaram, who had nothing to do with the former Village —

4. In Revenue enquiries of the nature of those now in question, the Officer against whom the charge is brought, is tried not for the evil he has done to the individual Ryot, but for a corrupt administration of his public trust the Government therefore stand in the light of prosecutors and the other parties are Witnesses and evidence is available from any quarter and the more valuable if given by those who are uninterested in the case —

5. The alteration in the Shroffs — account brought forward by Beeracayala — Ramasawmy Somayajooloo as throwing discredit on the document, has in fact, an exactly opposite tendency — The Original entry of 40 Rupees as paid to the Amildar on account of the Village Rent, was subsequently altered to 22 Rupees the amount for which alone a receipt could be obtained, and the remaining 18 Rupees was entered as — retained by the Amildar on his own account —

6. Beeracayala Ramasawmy Somayajooloo

Fort St George 21st December 1846

Somayajooloo asks in his Petition why the Ryots of Katavaram did not complain immediately instead of after so long an interval and a satisfactory reason may be assigned in the supposition that they were in continued hopes of receiving a full acknowledgement for the sum they had paid until the Amildar a second time collected the 18 Rupees from them to make up the deficiency in their rent caused by his appropriating the first sum and then hopeless of redress from him, they immediately brought their Complaint—

7. The Amildar further Complains that the examination was conducted in his absence and that he was not allowed a fair defence—

8. The points which fully and of themselves alone prove the case against him are the Village accounts proving the Collections in January and the Talook account proving the payment into the Treasury in June with the testimony of the Shroff and Talook Servants to the fact of his having given the sum from his own private box—

9 All the accounts were shewn to him, and the Sarrutdar and Muddutgar examined

Fort St George 21st December 1846

Examined before him in the Sub Collectors presence and he was prefsed to afford some better explanation of the affair than was contained in his bare denial of the truth of the charge but he declined doing so—

10. I Submit that this bare denial cannot weigh against the evidence against him and I trust that the Board by permanently removing Beeracayala Ramasawmy Somayajooloo from Office will convince the public Servants of Rajahmundry that the Government proceedings of the 14th of April declaring that all proved corruption will inevitably so be punished, are to be vigorously carried out—

11. It is true that the Sum proved against Beeracayala Ramasawmy Somayajooloo is small but this does not affect his fault The evil to the Ryots is great and they are so burthened with payments to the Amildars and other charges that they are unable to meet the fair demands of Government, to satisfy which their property is liable to sale—

12 In the course of this enquiry the Sub Collector elicited from the Inamdars a Statement of the "Village charges" in Katavaram, which amounted to Rupees 2½ per cent on the rent of the Village—

Proceedings thereon

(29-30)

It appears that there are two distinct charges against the appellant, the first accuses him of having appropriated to his own use 18 out of 40 Rupees Collected in January last on account of the Public revenue from the Villagers of Kataveram to whom he deferred granting a receipt till March, when he only brought 22 Rupees to the Credit of Government the Second is to the effect that he did not bring to account or give a receipt till July for the sum of Rupees 53 collected in the Month of January last from the Ryots of the Village of Trimala-pooram. The Board of Revenue have carefully reviewed the Proceedings held by the Sub Collector in regard to these two Charges and have attentively considered the evidence adduced as well as the nature of the defence set up, and are of opinion that the appellant is guilty in both instances they therefore direct that he be dismissed from the Office of Amildar from the date of his suspension by the Sube Collector.

The following Endorsement is ordered to be passed on his appeal Petition No. 12th of 1846.

The Board confirm the decision passed by the Collector under Regulation IX. 1822, on one of the Sheriff's

Fort St. George 21st December 1846.

the honor to report, that the amount of the deficiency discovered in the Cash Chest of the Innacondah Pannah has been recovered from the Securities of the two Shroffs, in equal proportions, and that having tried the parties implicated under the provision of Regulation IX of 1822 one of the Shroffs was convicted and sentenced to pay a sum of Rupees 155-2- « being equal to half the amount embezzled.—.

2. Though it appeared from the statements of the other servants that for some time previous to the discovery the Shroff in question had had sole charge of the Cash Chest, yet as it was the duty of the Peishcar in charge, the head Madutgar who keeps the Cash Accounts, and the other Shroff to satisfy themselves daily that the cash balance tallied with the accounts, I consider that they must all have been either privy to the fraud or culpably negligent, and have therefore dismissed them.—

Report on the subject of Petition No. 718 of 1846 agreeably to the Board's Endorsement thereon-

2 The Petitioner is the Defendant in Petition No. 765 of 1846 and complains of his Reddy Merasee having been reduced, of Sircarjasty having been unjustly levied from him and of his having been suspended from office for one year-

3. In regard to his Reddy Merasee Enam the subject has been reported on by Endorsement on Petition No. 765 of 1846 above referred to-

4. In respect to Sircarjasty having been levied from him it was proved on an enquiry held at Tarpa that Petitioner's dry land of 8 acres in extent was cultivated with Indigo and irrigated by water from the Tank, there being a Watercourse from the Tank's Nullah to his field, the Neercutty whose business it is to distribute the water having deposed to this effect- Sircarjasty was accordingly levied from him at the rate of 3 Pagodas per Acre- It was also proved that the Petitioner the Mirasi Reddy of the Villages of Talamunchee Puttinam and Madanapoor had appropriated to himself devastanum Enam lands attached to two Pagodas belonging to these Villages Viz.

tuck lands assessed at 6-2-5 which by the Chengauaresa and Amarja accounts (which were examined) it appears he had cultiva-ted for two years Viz. in Fusliee 1264 and 1255 also dry land assessed at --5-11 and Garden land assessed at --5-6 cultivated in Fusliee 1263 and 1254. These accounts also shew that these Enam lands have for Fusliee - been entered in the names of other Persons servants and dependents of the Petitioners and it is clear that none of the expenses attendant on these religious Institutions, which exist have been defrayed from the proceeds of these Enams granted for their support as the Poojary who had been residing in another Village came for-ward and claimed the Enams they were not resumed but the Petitioner for these irregu-larities in infringing rules which on Mirul Reddy he ought not to have done was suspended from office for one year with forfeiture of his hereditary Emoluments. The Curnums of the Village were also fined 5 Rupees each for not having entered the Teerauagasty in their accounts.

3. The amount of assessment having been also received from the Petitioner the produce of the 2d Crop ought to have been kept in deposit by Sircar and the

amount of Rupees 2-15-6 been returned to Goorooadoo - The produce of the 2d Crop could have then been made over to the Petitioner together with the balance of the assessment Rupees 5-4-6 the equivalent for the 1st Crop of which he had been deprived, and if the Petitioner refused to accede to this arrangment the assessment on the land which he had paid might have been returned to him and the produce of the 2d Crop kept in deposit been sold in satisfaction of the amount returned to Goorooadoo -

4 Petitioner is a troublesome and litigious Person, and having paid the assessment, would come to no terms but his own which at the time it was impossible to accede to, as the produce was not forthcoming - as he refused to receive the amount again and as it remained in deposit for several months it was ordered to be carried to account by the late Principal Collector Wm Ashton - On Petitioner presenting his petition to me I proposed that the matter should be decided by arbitration by means of a Punchayet to which he did not consent - The land has since been left waste and the Petitioner will neither cultivate it nor allow others to do so by throwing it up -

From the Acting Collr of Chingleput. Reporting an application of Subidar Major Sheerally khan for the Hereditary Kistnumut Inam to hold on Bilmuctah tenure the entire Village of Vaganmungalum which he wishes to select lands for his stratrium of 60 Cawnies.

Herewith returned.

Sir,

Para-1 I have the honor to ac
=knowledge your letter of the 27th July call
=ing for a report of the Village in which
Subidar Major Sheer ally khan Bahadar
Kistnumut Sung wishes to be allowed to
hold the 60 Cawnies of ground assigned
to him on Shotrium tenure by the Govern
=ment, and desiring me to give my opi
=nion regarding the Subidar's application
for permission to hold the entire Village
on Bilmuctah tenure - My report would
have been submitted at an earlier peri
=od had not delay occurred from my
endeavouring to reconcile, though with
=out success, the conflicting wishes and
interests of the Subidar and the land
holders of the Village.

2. Vaganmungalum, the Vil
=lage referred to by the Subidar is situ
=ated on the bank of the Palaur River in
the

the Canjeveram Taluk and has been selu
on account of the value of its land a
the convenience of its proximity to
The accompanying Statement shews
Sycaut together with the other State
required by the Board and I beg to
the following remarks on the subject

3. The Village is small
extent containing altogether only 209 Ca
of Arable land exclusive of Manieu a
Parumboke. The Poonjah is of ordinary
lity and consists of 191½ Cawnies, with
the power of being extended. The value
the Village lies in its 117½ Cawnies of Nun
land, which from fertility of soil and
advantage of a permanent spring Chan
is the finest in the District and bears
average assessment of Rupees 10-17-
Cawnie. The Subidar requests that the
best Cawnies of double crop land of
ed at Rupees 21-5-0 per Cawnie may
assigned to him on Shrotriem and the remai
of the Village given on Bilmuctah tenure

Deduct 88 Cawnies of best double crop land assessed on average at Rs 21 5-0 per Cawney	1775 9 1
	809 2 4

In this case the annu
payment calculated
average Revenue of
years would be Rupee

but if it is considered proper that the 88 Cawnies of Shrotriem land should be taken in fair proportion from the differ: ent classes of Nunjah the annual Bilmuctah would be Rupees 1068-12-1.

	R a p
Average Bariz of 10 years including ready money Collections	2087-11-5
Deduct 88 Cawnies of different classes assessed on average at Rupees 17-0-3 per Cawney	1020-15-4
	1068-12-1

10- I beg however to observe that the Ryots have urgently protested both in Petitions addressed to the Government and myself against the Village being given to the Subidar. They are also averse to the assignment of a portion of their lands on Shrotriem and pray that in this case they may be permitted to continue under a Sircar management, making their payments on account of the Sircar thro' the officers of Government - such arrangement would in my opinion be advantageous, but the Subidar demurs to it and states that the value of the Shrotriem is enhanced to him by its giving him the consequence and rights of a landholder.

5. The chief objections of the Villagers are of a two fold nature - The first is founded on a fear that if the Village is given to the Subidar for the three lives the

care

care of the spring Channel on which the
ability to pay their very high rates of a
ment depends may be neglected This
nel requires constant attention and the Govern
outlay in repairing it during the last 10 yea
amounts to Rupees 1500 3-3 The Second
objection rests on the peculiar state of the
Village, all the landholders being of the
caste (Vellala) and forming a family
community - Their females are therefore
to appear in public and assist in out d
labours but if strangers entered the Villa
this advantage would cease and the Vill
fear that the presence of the Mahommeda
Servants of the Shetrumdar would lead
annoyance and quarrels - They are also
afraid, from other instances, that mu
understandings and lawsuits might ar
between them and a party like the Subi
whose habits and employment have not
made him acquainted with the mann
ment of revenue details - but this obje
is of general rather than particular appl
cation and need not be dilated on -

6. Under the circumstances of
the Village and the strong discrimination of

its inhabitants I feel it impossible to re-
commend that it should be made over to
the Subidar in accordance with his applic-
cation - and I beg to propose as the only mode
of reconciling in any degree the wishes of
the two parties that 30 Cawnies or one half
of the Shrotrium granted to the Subidar be
assigned to him in this Village and the other
half in the adjoining and similar Village
of Mannundoor - I am induced to recommend
this arrangement because it would give con-
fidence to the ryots of Vagamungalum,
who fear that if the Subidar obtained the
whole of his shrotrium in their Village, he
would be encouraged to persevere in his ap-
plications to obtain the entire Village and would
be supported by the fact of his holding so
large a portion of its lands - although this
fear may be without foundation it seems
advisable to remove what would be a constant
source of doubt and irritation and tend to
prevent harmony between the two parties - as re-
spects the Subidar the arrangement now proposed
meets his wishes on two chief points by assigning
to him for his Shrotrium lands of high value
and situated near Arcot -

Should

In either case the ra

The Chief Secretary to
Government

Sir,

I am directed by the Bo
of Revenue to acknowledge the receipt of a
order of Government, No 255 3d March 184
communicating to them for their informa
tion and guidance, an Extract Minute
Consultation 17th February 1846, wherein
under the authority conveyed by the Hon
rable the Court of Directors in their Ge
ral Letter of 8th July 1845 Para 35 the Ma
Noble the Governor in Council directs
that 60 Cawnies of Land on Shrotriem
Tenure be granted to Subadar Major
Sheer Ali Beg Khan Bahadar Himmut
Jung, Native A D C to His Excellency
the Commander in Chief and that the
Board of Revenue be requested to ascer
tain from the Subadar, the situation of
the land which he would select, and re
port the same to Government, stating

Inform 23 April 1846

In reply the Board instruct
2
me to state, that having communicated
with the Subadar, as directed by Govern
ment, they received from that Officer an
application to the effect, that he might
be permitted to hold on Shrotriem Tenure
the entire Village of Vagamungalum in
the Chingleput District, on condition of
his paying to Government as a Bilmuctah
or fixed Quit Rent, the excess of the average
revenue of the Village above the assessment
of the 60 Cawnies, which might be granted.
This application, with
to him as Shrotriem
copy of the proceedings of Government on the
subject of the grant to be made to the Suba
dar, was forwarded to the Acting Collector of
Chingleput, for his report.

From Mr Mallby's
3
reply herewith forwarded, it will be seen,
that the Village of Vagamungalum contains
309 Cawnies of arable land, Viz 191¼ Cawnies
of Pooyah of ordinary quality and 117¾ of
Nunjah, which from the fertility of soil, and
the advantage of a permanent spring
Channel, is the finest in the District, is
always under cultivation, and bears an average
assessment

assessment of Rupees 15-12-0 per Cawnee. The Subadar requests that the 60 best cawnies of two crop land, with a teerwah of Rupees 21-8-0 per cawnie may be allotted to him as his Shotriem, in which case the quit rent which he would have to pay were the entire Village granted to him on Bilmuctah Tenure, calculated in reference to its average annual revenue for the last ten years would be Rupees 809-2-4

Average Beriz of 10 years including ready money Collections	2087	11	5	In the event however of the 60 cawnies of Shotriem land being taken in fair proportions from the different classes of Nunjah land in the Village the yearly quit rent computed in the same manner would be Rupees 1088-17-1
Deduct 60 Cawnies of best double crop land assessed on average at Rupees 21-8-0 per Cawney	1278	9	1	
	809	2	4

Deduct 60 Cawnies of different classes assessed on average at Rupees 17-3-3 per Cawney	1020	15	4	
	1066	17	1	

The Acting Collector next brings to notice, that the Ryots of Vagamungalum have for reasons fully explained in his letter, most strongly protested

protested against either the grant of the whole Village to the Subadar as Bilmuctah, or even the assignment of the portion of their lands to him as Shotriem - considering the circumstances of the Village and the decided opposition evinced by its inhabitants. Mr. Maltby states that he cannot recommend that it be made over to the Subadar agreeably to his application, and as the only mode of reconciling in any degree the wishes of the two parties he suggests that 30 cawnies of land be granted to the Subadar be assigned to him in Vagamungalum, and the remaining moiety in the adjoining and similar Village of Mamundoor - an arrangement which, while it would tend to allay any apprehensions which may be felt by the Ryots of Vagamungalum, would also provide sufficiently for the interest and wishes of the Subadar - In the event of this suggestion being approved, the Acting Collector requests that it may be explained, whether the Subadar is to be permitted to select the most valuable land in each Village - or whether his Shotriem

Shotrum should consist of Nunjah land of the average quality - The difference be-

tween the Te-wah of the most highly assessed Nunjah land, and the average Nunjah teerwah of each Village is shewn in the Margin.

Adverting to the objections raised by the Ryots of Vagamungalum to the grant of their Village on Bilmuela holding to the Subadar, the Board quite agree with Mr. Maltby that such a measure would not be excepti-onable and even were these objections less de-cided - the extent and value of the Village as compared with the Shotrums land to be allotted to the Subadar would in their opinion render such an arrangement unadvisable. The plan proposed by the acting Collector of assigning half the Shotrum in Vaga-mungalum and half in Mamundoor seems under the circumstances explained to be judicious, and the Board beg to recommend its adoption - They request

however

however to be favored with the instructions of Government on the point referred to by Mr. Maltby, Viz. whether the Shotrum is to be granted from the best wet lands, or in due proportions from the various classes of Nunjah land in the two Villages - They do not find in their records any precedent bearing directly on this question - It would seem to have been usual to fix the amount to which the assessment of the lands to be granted should be equal and to regulate the assignment of the Shotrum land accordingly -

In the rules for regulating grants of Shotrums Communicated to the Board by Government 26th May 1836 - it is directed that the Shotrum shall always consist partly of waste land to the extent of at least one sixth of the whole that the total amount of the assessment of the cultivated and waste land together should not exceed the annual amount of the salary of the grantee or if there be any sur-plus that it shall be levied as quit rent if there be no surplus the small sum of ten Rupees per Annum shall be levied in acknowledgment of the seignorial rights of

of Government. The Board are in doubt whether these rules were intended to apply to Shotriums granted for Military Service they therefore beg to solecit information on this point and whether those rules are to be acted on in the present case.-

On the Shotrium being granted it will in the opinion of the Board be very desirable that the stipulations mentioned in para 6 of the Acting Collectors letter should be entered in the Sunnud.-

I am directed to add that the Acting 2d and the Officiating Member have recorded a separate Minute in connection with this subject.-

(57-59)

With every disposition to recognize the Service of so old and meritorious a Soldier as the Soobahdar Major Sheerally Khan with whom I have been personally acquainted for the last twenty five years, I regret that I am unable to concur in the proposition contained in this

this draft.

In the first place it appears to me clear that under the orders of the Court of Directors the Soobahdar had no claim beyond the grant of 60 Cawnies of land which may be deemed of suitable value and by no means to land bearing the highest rate of Assessment and of the first quality and fertility brought to its present high state of Cultivation by the labour and industry of a peculiar class of Cultivators, whose lands are of limited extent and whose happiness and ideas of independence, and comfort are centered in the integrity of their secludion and absence of intercourse with Strangers as well as in the sole Management of their Village affairs and Concerns with which indeed they are even jealous of the interference of the ordinary local Officers of Government.-

It will be seen that as the Soobahdar seeks not only 60 Cawnies of the best land in the District of Chengleput but also the Surrender of the entire Village in which these fine lands happen to be situated.-

This

This has been properly objected to by the Collector but the propositn of this Officer to divide the Grant between two Villages will rather augment than diminish the evils anticipated. Both Villages are inhabited by the same class of Ryots and are contiguous to each other. Their interests, feelings, and peculiarities are identical - a disagreement with the one would be concurred in by the other - It is probable that the Members of one family in Vagamungalum are also Members of another family in Mamundoor.-

In all that the Collector urges regarding the conflicting wishes and interests of the Sobahdar and the Land holders I entirely concur - They are wholly irreconcileable and nought but the authority of the Officers of Government will compel the latter to submit to the interference and Control of the former.-

To place two Bodies of influential Ryots living in two distinct Villages under the Sobahdar and his Dependents who however estimable they may be in other respects are wholly unacquainted with agriculture or the habits and feelings

of those who live by the Cultivation of the soil will assuredly be followed by disappointment to the one party and by great injury to the other.-

The Court of Directors as have always evinced much aversion to the measure, and there can be no doubt the alienation of the Government Land Revenue to a third party and the substitution of the latter as a sort of Middleman between the Government and Resident Ryots and proprietors of the soil is an evil of great magnitude and in fact can only be justified on the score of policy or expediency as in the case of an old and faithful Soldier like the Sobahdar.-

But the evil becomes as intolerable to those within its influence when the Grant includes the surrender of the Management of the lands, as well as of the Civil Economy of an entire Village and the withdrawal of Government control. However distasteful the latter may occasionally be to wealthy and independent Ryots it is often times necessary to their well being and is always acknowledged and submitted to from its

its limited interference with their private concerns. But the case is quite different when a stranger enters their Village and as is generally the case arrogates to himself a degree of superiority and assumes a tone of dictation quite incompatible with the relative positions of the two parties.-

In fact in a Village in which the Shotriemdar or Enamdar had not obtained by purchase or otherwise the proprietary right in the Soil he is merely the recipient of the Government Tax, whether that is paid in Money or Kind. In favor of such a party it cannot reasonably be expected that the old and real proprietors of the lands will sacrifice their influence and position. It is unnatural to expect it and in all Cases where the Government have enforced the arrangement by dint of authority as proposed by Mr. Maltby it will be found that hatred of each other and inveterate feuds have been the result.-

Of the unsuccessful result of similar Management and state of dependence evidence will be found in the

the correspondence connected with the Grant of Land to Subadar Major Noordahib.

It will there be seen that after a conflict of many years, and not without having caused the abandonment of the cultivation of the highest assessed lands of two of the finest Villages in the same District did this Soobahdar succeed in finding a third Village occupied by an ignorant and submissive class of Ryots in which he could hope to enjoy in peace the beneficent indulgence of Government.-

In considering the question of grants of Land of the nature here referred to it occurs to me to suggest for the consideration of Government in a general point of view how far it is just and fair towards those Ryots whose lands bear a high rate of assessment from the payment of which there is no escape to hand over the Revenue and Management derived from that land to a third party. in as much as if under this third party the Ryots are prevented by any untoward circumstance whatsoever from Cultivating their

Fort St. George 21st December 1840

their lands equally well and to the ful=
=lest extent or if they do not enjoy the same
freedom and liberty of action as they did
under Government itself it is obvious that
that transfer which can never be otherwise
than disadvantageous to them has mate=
=rially impaired their ability to fulfill
their engagements with Government
followed as this inability may eventually
be either by the abandonment of the land
or a demand for a reduction of Assessment.

In the opinion of the
undersigned the Soobahdar if permitted
to enjoy the Revenue drawn from 60 Cawdies
of the most highly assessed and richest
lands in the Country should be Con=
=tent to receive the Government dues
in money through the intervention of
the Collector and without any inter=
=ference on his part with the Ryots
or the Cultivation of the Lands, or else
he should be told to select lands of
ordinary quality and under circum=
=stances less likely to produce injury
to the resident Ryots, disappoint=
=ment to himself, and the ultimate
deterioration of the Government Revenue

The

The Ryots of Vaga=

The

Proceedings thereon. 1 The Court observe with c
-cern that the unfavorable season had a serious
effect upon this small Estate occasioning a f
-ing off of Rupees 1664-2. in its gross Reve
as compared with that realized in the previous
Fusly.-

2 The Settlement of Fusly 12
was Rupees 4,052-1-7 while that of the Fusly
under review came only to Rupees 2387-15-
which was insufficient by 10 Rupees to mee
the charges on the property on account of Sir
-bendy the Maintenance of the Minor and
Government Peishcush.-

3 It appears that after an
-justment of the Accounts of the Estate
remained at the close of the Fusly a surp
cash fund of Rupees 898-6-7 in the Acting
Collector's Treasury out of which it has been
necessary to disburse Rupees 216 for Current ch
and Rupees 300 for the repair of the Village Tank
-dertaken agreeably to the sanction of the Court
14th May 1846. The Acting Collector remarks that
is obliged to continue to defray the current expe
of the property from the remainder of the cash in h
till the Kists of the present season fall due.-

4 The Court trust that the re
of the tank in question were thoroughly executed
in time for it to receive a full supply of water
the recent rains in which case the result of the
-tlement for the present season may be expe
to prove more satisfactory than that of the ye
under report.-

Wms E C Lovell Esqr Collector 1st Dr of Arcot

Para 1. Referring to the Proceedings of the Board of Revenue dated 18th May 1846, I have the honor to report that I have communicated through the Tahsildars of Arcot with Gholam Moor-tazah regarding the Jodee hereafter to be paid on the Village of Maungaud granted to his late father Sorbadar Major Mahomed Surwur Khan Bahadar and beg to enclose a copy of the observations made by him on the subject, as taken down by the Tahsildar, together with a Statement of the Cultivation and revenue of Maungaud for the last nine years in the form prescribed by the Board.-

2 The difference in the Ayacut as given in my former letter and that given in the Statement which accompanied the Principal Collector's letter of 9th January 1836 arises from additional land having been brought under Cultivation from time to time since that date.-

Forwarding and translation of the observations made by Gholam Moortazah regarding the Jodee hereafter to be paid on the Village of Maungaud together with a Statement of Cultivation and Revenue of the Villages for the last nine years.-

No 2.

Translation of an enquiry before Soondara Pillay, Thasildar of the Arcot Talook of Gholam Moortejah Son of Subadar Mahomed Sursur Khan Nawaz Jung Jodee Enamdar of Mangaud Village in the said Talook on the 4th October 1846.

2. What have you to say regarding the payment of Rupees 315-1-4 due by you for Fusly 1255 as extra Jodee settled by the Board of Revenue on the above Village.

A. Government fixed the Jodee for the Village of Mangad in the endorsement on the Original Purwanah on the extent of our Inamin and on the 14 years average Teerwah of the land, reserving the right to effect a new Settlement for the extent of cultivation in the waste land of the Village with the successors of my father the Jodee Enamdar, Mahomed Sursur Khan Subadar Namdar Jung. My father died in Fusly 1254. I cultivated not even a single Goontah of the waste land in Fusly 1255 but only the average extents and not even the additional waste land which

16654 Fort St George 21st December 1846.

my father enjoyed. Matters being thus, it appears that I am required to pay 315 Rupees and odd as if I had cultivated the waste land. According to the meaning of the Purwanah I should be allowed the benefit of the waste land brought under cultivation by my father, as included in the average and that a new Settlement should be effected, if from the time of his death, I should cultivate any additional waste land besides that cultivated by my father, contrary to that provision I am now required to pay 315 and odd Rupees more and there is no waste land sufficient to cover that amount of Beriz I request therefore I may be exempted from the demand of the above extra Jodee. My father enjoyed the Jodee Enam for 9 years. The Jodee is fixed on the average Beriz of 14 years according to the Jurm Teerwah of the land, and a portion of the waste land, and after deducting the amount of the Inamin in Vajpoor the remainder was fixed as Jodee. I beg the payment of the Extra Jodee may be remitted because the land on which it is fixed is the

same

Fort St George 21st December 1846.

same on which the average Jodee was settled in the first instance and which was enjoyed for the last 9 years. I mentioned this to you when the Account was first prepared in the Talook, but you replied that you would not go into the matter of the Ham Vufsool (actual Collection) and prepared the account by referring to the Pymash and Samabundy Turm Teerwah accounts. The Turm Teerwah is very high and as the Ryots would not take the land at that price the Cultivation was decreased, and my father was in consequence obliged, in some instance, to give the land for less than the Turm Teerwah, and where even this was rejected he gave it on warum. In this manner he has been giving out the land annually for about 100 or 150 Pagodas less than the Turm Teerwah and thus owing to the Jodee on the Turm being originally fixed very high, the value of the Cultivation has been less than our Maniem. I give the account of the actual Collection. From the above circumstance and from the poverty of the Ryots the rents remain uncollected together with the certain advance

made for Cultivation. It will appear that the extra Jodee is equal to our Maniem and we have no benefit whatever and the whole Deriz of the Village is only equal to the amount of Jodee Rupees 1060. I request therefore that the Extra Jodee for Rupees 315 and odd may be remitted for we cannot make good the deficiency.—

To the Chief Secretary to Government —

Sir

In reference to the orders of Government 22d March 1836, and 2d May 1845, I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council, the accompanying correspondence which has passed between this Office and the Acting Collector of North Arcot, respecting the revision of the Settlement of the Village of Maungaud in his District.

Proposing a revision of the Settlement of the village of Maungaud in the District of North Arcot

2. The Village of Maungaud was in the years 1836 conferred upon the late Subadar Major Mahomed Surwar Khan, Bahadar Namdar Sung, and upon his heirs in lieu of the Enam lands previously held by him in the Villages of Vaporar and Kyraudroor, on condition of his paying annually as Inam, the difference between the value of his original Enam. Rupees 886-8-6 and the net average revenue of Maungaud. Rupees 1631-5-8 for the preceding fourteen years. The Quit Rent

Calculated

16660 Fort St George 21st December 1846.

calculated on this principle amounted to Rupees 744-13-2. At the same time it was distinctly stated that although the Government would not disturb the arrangement in respect to the Quit Rent payable on Maungaud during the life of the Subadar, they reserved to themselves the right to effect a new Settlement for the extent of cultivation in the waste land of the Village with his successor. The Subadar died 15th February 1845 and on the 2d May following the Village was ordered by Government to be registered in the name of his nearest heir Goolam Moortaza. The Acting Collector has now applied for instructions in regard to the Settlement to be effected with that individual. —

3. From the Statement transmitted in the Acting Collector's letter of the 22d Ultimo, it will be perceived that the average net annual Bariz of Maungaud for the 9 years that it has been in the possession of the late Subadar is Rupees 1946-7, exceeding the 14 years average bariz (Rupees 1631-5-8) on which the Settlement of 1836 was made by Rupees 315-1-4. The present incumbent has however represented that his father did not benefit to that extent in as much as to secure the Cultivation of the lands he was obliged to grant them to the Ryots on reduced rates of Assessment

or

16661. Fort St. George 21st December 1846.

or on Warum or division of the Crop. He appl[ies] to the Board that this assertion may be inv[es]tigated, and they think that were the Tah[ir] now payable on the Village to be increased to the full extent of the difference / Rupees 315- / between the two Baruzes above stated - it would bear hardly upon the Enamdar, and tend to deter him from improving his Village for future. They would therefore beg to recommend that two thirds / Rupees 210 of that sum be added to the Quit Rent of Maungaud, making it Rupees 954-13-2, and that the arrangement take effect from the commencement of Fusly 1255- the year following that in which the last holder died and remain in force for the period of ten years, being liable to revision at the expiration of that time -

4. If the present incumbent Gobi Moortaza will not assent to these conditions the Board would propose he should be required henceforth to pay year by year from the Commencement of 1255. the actual net annual Baruz of the Village less the value of his original Enam or Rupees 8-6. ——

Sayer. in the Sayer Revenue of the latter period a
xcounted for by the total abolition in this Dist
of all Frontier Duty agreeably to the orde
communicated by the Board of Revenue un
date 17th March 1815.—

Abkeary. 3. Fluctuations in the compet
for the rent of the Abkeary Farms occasio
a deficiency under this head of Rupees 286
not demanding particular remark.—

Small Farms and Licences. 4. The Settlement of Small Far
and Licences amounted to Rupees 8908—10
being Rupees 286—10—4 higher than that of
previous Fusly. It is observed that there was a fa
off of Rupees 146—13—4 in the rent of Fisheries.

Moturpha 5. There was an increase of Rupe
2076—13—1 in the Moturpha and Loom Fa
which appears to have arisen chiefly from
latter. The Board desire that the item "Co

Moonsiffs where stamped Papers are not
required to be used and the abolition of the
Sayer Customs caused a falling off of
Rupees 6085—1—2 in the proceeds of the
sale of Stamps and Rowannahs.—

7. Extra Collections from the
foregoing items amounted to Rupees 1213.
—4—11 being Rupees 146—5—1 above the sum
of those of the previous Fusly.—

8. It is observed that of the a
gross demand, amounting to Rupees 189364
12—4. Rupees 171631—13—2 were realized
within the Fusly and Rupees 10656—7—6 by
subsequent collections leaving an outstanding
balance at the close of September of
Rupees 7076—8—2.—

9. The total receipts of the
Fusly from all sources of Extra Revenue,

On reference to the accounts.

2.

The Immahbundy Goshwarah Accounts of Peramadhee or Fusly 1203 when the Country came under the present Government, shew Coutcery Fanams 29½ or Rupees 8–11–9 as a "Poojary Jodigey." The Accounts of Fusly 1204 are not to be found. The Accounts of Raulchasah or Fusly 1205 shews Coutcery Fanams 27 or Rupees–j —— 15 —— 11 ∞ as a "Poojary Jodigey." On looking at the accounts from the year Caulayookty or Fusly 1208 to Doormadhee or Fusly 1211 the accounts of some year shew Coutcery Fanams 47 or Rupees 13–11–10 as "Malaykaurel Poojary tax" or ten persons, some years as "Poojary tax" and some years as "Malaycaurel Poojary Jodigey." The Accounts from Fusly 1212 to Fusly 1229 cannot be found as the Village was under Mootadary Management during that period. In the Motursika account of Fusly 1230 when the Mootah came under Amanee, the sum of Rupees 13–11–10 as stated as "Jodigey on Calandan and 9 others the Poojaries of Malaykaurel Dawastanum" and in the Chitta Account of that Fusly it is stated that this tax was remitted or discontinued in the last Fusly by the Mootahdar. From J. J. Cotton Esqre
Sub Collector in Charge
of
Tanjore

Sir,

Reporting on the inexpediency and objectionable quality of the taxes on Betel and Tobacco lately in force in the Territory of Tranquebar and submitting a Statement of its actual and probable Revenue.

1- I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board dated 15th October 1846 forwarding Copies of Extract from the Minutes of Consultation dated 7th October in reply to the Board's letter of the 10th August 1846 on the subject of the Tobacco and Betel taxes lately in force in the Town of Tranquebar and its precincts calling upon the Collector to state whether these imposts can be levied there in a less objectionable manner than they were under the Danish Government, and to report the amount of the House tax collected in Tranquebar from the date of its imposition and whether this or any other impost can be levied without difficulty and yield the same Revenue as the Betel and Tobacco under the Danish Government.

2- With regard to the first point noticed above it is obvious that any special Tax applied to one particular part of a Country above

Fort St. George 21st December 1846.

must always be highly obnoxious unless there exist at the same time advantages to counterbalance the same, and nothing but expediency as far as the Revenue is concerned could justify the retention of a Monopoly by a Government in a Territory lately annexed, unless particular priviledges and exemptions continued to be enjoyed there, from which the rest of the country was excepted - But when the interference of the new Government in the Revenue Administration of the Territory has proceeded so far, as to exercise its powers in the imposition of new duties Sea Customs and House Taxes &c. &c. and to effect improvements and ameliorations in the System of Management lately pursued and when these innovations have already exhibited more favorable results in the Revenues, it hardly admits a question if in the general progress of improvement in all other Departments certain specific obnoxious and [as it is clearly shewn in Sir Henry Montgomery's letter of the 10th July 1846 as well as in your own, forwarding the above to Government] objectionable imposts should be allowed to continue.

3- Independent of the foregoing reasons there is stronger one that I beg to bring

bring forward - The People of Tranquebar are only reconciled to the imposition of new taxes upon its annexation to Tanjore by the persuasion that a permanent exemption from taxes such as those under consideration would be finally secured to them by our Government and in support of this opinion rapid advances have been made since the discontinuance of the Tobacco and Betel Taxes, to bring the revenue of the new acquisition in all its varied features to a close assimilation to the Country to which it was annexed — without offending popular feelings.

4- In pursuance of this object there are under contemplation, other taxes to be imposed on Poorja and Bagayet Lands which have hitherto been postponed pending the result of the present question, and with a view to obviate the chance of existing popular distrust towards the Government to which they have been so lately annexed -

5- Thus on the ground of policy alone, it would be most injudicious to attempt the re introduction of these imposts, and I am totally unable to conceive or suggest any plan for their re-imposition, which in its principles and operations would be less open to objection -

6 With regards to the next two points Viz.t the amount of the House tax realized

in Tranquebar, and whether this or any other impost can be levied without difficulty, and yield the same Revenues as the Tobacco and Betel under the late Government, I beg to forward herewith a Statement* exhibiting the average amount of Revenues derived from all sources in the Town of Tranquebar and its dependencies under the Danish Government, the Estimate framed by the Commissioners, the actual collections during Fusly 1255 in whole or in part as the case may have been and an Estimate for Fusly 1256 - The Grand Total of each shews a net Increase of Rupees 8,762 in favor of the last column over the Commissioner's Estimate which excludes also the Tobacco and Betel taxes, and 16665 over the average under the Danish Government, which includes the above taxes -

7- With regard to the item of Salt I may here add that there was an increase of Rupees 6000 in the sales at the Nadarvasel Salt pans in Fusly 1255 the chief portion of which is attributable to the surveillance exercised by our Government in preventing the manufacture of Earth Salt which formerly took place in the vicinity of the Fort of Tranquebar -

8- I trust a consideration of the foregoing will confirm the Board in their opinion, of the unadvisableness of reintroducing the taxes of Tobacco and Betel into Tranquebar, and incline them to renew their recommendation to the Government with a view to their abolition in toto, as being alike incompatible with the well known liberality of the Government and the policy which guides all their Proceedings -

To the Chief Secy to Government

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes Consultation of the 2d of October last, requesting them in communication with the Collector of Tanjore, to state whether the Taxes on Betel and Tobacco, can be levied in Tranquebar, in a less objectionable manner than they were under the Danish Government; and further to report the amount of the House tax collected in Tranquebar and whether this or any other impost can be levied without difficulty, and yield the same revenue as the Betel and Tobacco under the Danish Government -

2 - In reply the Board instruct me to submit for the consideration of His Lordship in Council, the accompanying letter from the Sub Collector in charge of Tanjore, in Answer to the references made upon the subject.

3 - In respect to the first of the points to which the call of Government relates it will be seen that Mr Cotton states, that he is, "totally unable to conceive or suggest any -

any plan for the reimposition of the Duties in question, which in its principles and operations would be less open to objection" than the system lately in force - The Board are also at a loss to devise any arrangement whereby such an object could be accomplished -

4 - In respect to the 2d and 3d points it will be perceived by Government, that the Collections on account of House Tax in Tranquebar for the whole of the past Fasly, amounted to Rupees 581-12-9 - The rates charged are those which prevail throughout the Tanjore District it does not therefore seem that the revenue arising from this source could be materially enhanced, nor does it appear from the Sub Collectors letter that any new taxes could be imposed in addition to those proposed by the Commissioners in their report of 28th November 1846, so as to produce a return equivalent to the proceeds of the late Tobacco and Betel duties - At the same time it should be remarked, that the future revenue derivable from Tranquebar, as estimated by the Commissioners exclusive of the Betel and Tobacco Taxes exceeds the average revenue realized under the Danish

Danish Rule, in which those taxes are included, by 800 Rupees - that the actual collections made during past Fusly those from some items being for a part of the year only are in excess of the Commissioners Estimate by Rupees 2594 - 11 and that the Estimate Beriz of the Current year Rupees 42,762 surpasses by Rupees 8762 the Estimate framed by the Commissioners, and by Rupees 16,665 the average revenue drawn from the Territory under the Danish Government. In particular it should be pointed out as exhibiting a gratifying indication of the increasing value of Tranquebar as a Port, that the Sea Custom revenue estimated by the Commissioners at Rs. 12,500 produced for 8 Months only of last Fusly Rupees 15,612 - 2 - 1, and that the receipts from this source for the present year are expected to reach Rupees 20,000. Under these circumstances the Board would hope that it will not be thought necessary to have recourse to the re-introduction of the Betel and Tobacco duties -

Read

16688 Fort St. George 21st December 1846.

Read again the letter from the Collector of Trichinopoly reporting on the Petition of Kistniengar Record Keeper of his Office, setting forth that the Zemindar of Torriore with the connivance of the Native Officers of the Collector's Establishment held possession of 1100 Cawnies which properly belonged to the Circar.-

22d. augt. 1845 in Cons. 2d. Febry. 1846. No. 715 of 1845.

79

Proceedings thereon-1- In the year 1816 the Government resolved that a selection of certain Villages should be made in the Zemindary of Torriore of an Annual value equivalent to allowances of Star Pagodas 6833-34-2 or Rupees 23918-2-4 which had been granted to the Zemindar of Torriore at the rate of 10 per Cent of the gross Collections for the period of 13 years and in Fusly 1227 / 1817-18 Thirteen Villages, inclusive of the Cawnies bearing an Assessment of Star Pagodas 7054-7-7 or Rupees 24689-9-9 were made over to the Zemindar on Istemerar tenure, subject to an Annual Quit Rent of Star Pagodas 200 or Rupees 700- The purport of the foregoing Petition is to shew that a tract of land to the extent of 1100 Cawnies has been annexed to these Villages to the injury of the public interests.-

Recording observations on a letter from the Collector of Trichinopoly reporting on the Petition of Kistniengar Record Keeper of his Office, relative to certain Circar land which was in the possession of the Zemindar of Torriore with the connivance of the Native Officers of the Coll.r's Estab.lishment.

2- In the letter above recorded it is

Admitted

16689 Fort St. George 21st December 1846.

admitted that an addition to the extent said to consist of 1100 Cawnies was made to one of the 13 Villages Viz.t Keerumboor which is not to be found in the Pymash accounts. The Collector shews it is clearly entered in the accounts as having been newly annexed to the above Village Cawnies 650 in fusly 1225 / 1815-16 and Cawnies 450 in fusly 1226 / 1816-17 The two fushes immediately preceding that in which the transfer was made under the authority of the Board.

Para 3.

Mr. Onslow brings to the notice of the Board that the Boundaries of the Villages which were transferred to the Zemindar of Torriore were investigated in the year 1821 and he has submitted a translation of a report submitted to the Collector Mr. Lushington by Venkatarow, at that time the Deputy Sheristadar of the Office, from which it would appear that as the Villages in question were transferred according to the Beriz of fusly 1225 / 1815-16 and as 650 Cawnies were added to the Village of Keerumboor in that year from the Circar Villages in the Puchaymullay Hills Venkatarow was of opinion that it was just to confirm this addition of land to the Zemindar. It is to be regretted that some further enquiry was not made at that time particularly as the Deputy Sheristadar upon actual

actual measurement found in 1832 that instead of 1100 Cawnies which are stated to have been annexed to Keerumboor in fusly 1225 (1815-16) and 1226 (1816-17) only 467 3/8 Cawnies could be brought to account and also it further appears that a certain extent of land was annexed to the Village of Keerumboor at the time the estate was transferred to the proprietor which does not belong to it by the Original Pymash account."

Collectors letter dated 22d augusti 1845 P. 6 in Cont 2d July 1846

4 The abstract statement furnished by the Collector exhibits the extent of land in the Estimeras Villages according to the survey accounts of fusly 1216 (1805-7) and to the Dowle accounts of fusches 1224 (1814-15) 1225 (1815-16) and 1226 (1816-17) and in the Village of Keerumboor there is an excess of 9650 Cawnies in the Dowle of fusly 1225 (1815-16) and of 4650 Cawnies in that of fusly 1226 (1816-17) On a reference to Mr Cushingtins letter dated 26th December 1816 it is observed in the list of the Villages transferred to the Poligar that the land revenue of the Keerumboor Village including topes amounted to star Pagodas 1366.36-78 or Rupees 4783 14as - but it cannot be ascertained whether this Peiz includes the additional extent of land as entered in the Dowles above noted. and with a view to ascertain this point the Board request the Collector to furnish a Statement shewing the Cultivation of the lands of Keerumboor by fields and individuals and also of those Villages from which the additional lands are stated to have been taken for three consecutive years from

in Cont 2d June 1847

from fusly 1223 (1813-14). If these accounts cannot be supplied from the records of his Office they may be prepared from the Village accounts with the concurring testimony of any Ryots who may have cultivated the lands in questions.

27th March 1846 P. 3

Luchamally Poonachee Coombee

5 If as stated by the Zemindar in her address to the Collector, lands to the extent of 1100 Cawnies, included in the Villages noted in the Margin were added to the Village of Keerumboor for cultivation it would not have been necessary to transfer these lands altogether from the accounts of the Villages to which they respectively and originally belonged such transfer would be specified in the Dowle accounts of these Villages which the Collector will be pleased to examine and so the Decennial Rents were in operation during fusles 1225 (1815-16) and 1226 (1816-17) there can be no difficulty in ascertaining if the Villages in question were under Rumjay in these years.

6 The Board observe in the list of the Estimeras Villages submitted by the Collector that in fusly 1227 (1817-18) the year in which the Villages were transferred to the Poligar the Dowle extent of land transferred in *five Villages was less than the extent entered in the survey accounts and in one Villages besides Keerumboor there was an excess while in three Villages the extent of land according to

survey is not entered at all. The Collector is requested to state the circumstances under which these discrepancies have occured.—

With respect to the allegations against the Head Native servants of the Collector's Office the Board regret that imputations have been so publicly urged against their conduct which the Petitioner at the time had not the means of proving but in a case which with reference to the foregoing observations is still involved in difficulty the Board regret that Mr. Ouchterlony should have considered it necessary to resort to the extreme measure of dismissing the Petitioner before the matter had been finally disposed of, but in anticipation of the additional explanation now called for they will reserve the further consideration of this point until the whole of the information is before them.—

Enclosure No 5

In his address to the Collector Shadagherry Row the Head Sheristadar states that the widow [of the late Zemindar of Tarrore] has alienated a certain portion of land for the maintenance of a Charity established by her husband for Pelgrims at Ramiseram of which he had undertaken the administration and she continues to make through him, an annual remittance of Rupees 30 being the

Fort St. George 21st December 1846

proceeds of the lands so alienated to the Manager of the institution at Ramiseram. The Board request the Collector to ascertain the extent, description and assessment of these lands and to what Village they belong, and particularly whether they form any portion of the lands which are declared to have been improperly annexed to the Zemindary. The position of Shadagherry Row as the Head Sheristadar of the Collector's establishment renders his interference in the distribution of funds remitted by other parties for the administration of Charities on account of Pagodas highly objectionable. The Circumstance does not appear to have been viewed by the Collector in this light and the Board deem it necessary to desire that Shadagherry Row may be directed to discontinue his agency in this and all similar transactions

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be forwarded to the Collector of Trichinopoly for his information and guidance

Sir

I have the honor to acknowledge the receipt

receipt of your letter of the 7th Instant on the subject of certain taxes Collected on behalf of Pagodas in this District.

2 Adverting to the fact that Government in the year 1812 reserved to itself the exclusive right of Collecting the taxes alluded to in the second paragraph of your letter, it would seem that the enjoyment of the privilege by the Pagodas is attributable to oversight on the part of the servants of Government. This being the case and their being no peculiar circumstances to render it necessary that Government should make compensation for the resumption of its own rights I have signed orders for the Collection of the taxes in question on behalf of Government.

Resolution thereon

(80-81)

The Board of Revenue approve the orders signed by the Collector for the realization of the taxes on Looms and oil presses for the future on behalf of Government. The taxes on account of Bazars and Fisheries may be collected for the benefit of the Pagodas, but the Collection must be made by the Trustees or Managers of those Institutions and not by the Sircar servants. It is presumed that the levy of the other taxes mentioned in the statement which accompanied the Collector's letter of 29th June last has

been discontinued pending further orders.

From the Collector of Trichinopoly &c

Replying to the Board's Proceedings of the 3rd Instant regarding the Sale of Defaulters lands therein alluded to.

Sir

With reference to the Extract from the proceedings of the Board of Revenue dated the 5th Instant, I have the honor to state that all the defaulters the sale of whose lands I recommended in my letter of the 22nd Ultimo, owe sums on account of the Collections which were postponed under the permission of the Board granted in the Extract from their proceedings dated 7th July 1842 for the payment of which they have executed agreements. It was this Consideration which induced me to recommend the sale of their lands.

2 The amount however entered in the statements which accompanied my letter of the 22nd Ultimo, includes balances due by most of the individuals in question for other fusilies than those in which the postponed balances for which they have given agreements secured, the particulars of which are exhibited in the accompanying statement

3 The Causes to which these balances are attributable are the depressed state of the grain market

and

and the poverty of the individuals. The amount of the property which some of them have in addition to their lands is noted in the accompanying statement and is not sufficient to cover the respective demands. The years for which the balances are due are also distinctly shewn in the Statement.

4 Care will be taken to submit the requisite information on future occasions of recommending the sale of lands for arrears of Revenue.

Sir

To the Collector of Trichinopoly — 3 1

I am directed by the Board of Revenue to acknowledge the receipt

Recd. 21st Dec. 1846. of your letter of the 16th Ultimo, furnishing explanation respecting the arrears due by the defaulters whose lands were recommended for sale in your letter of 22d October last.

2. From your communication now under reply, it would appear, that these balances are due in part for Fusly 1254 having been

Fort St George 21st December 1

been allowed to lie over, under engagement executed by the parties in virtue of the Rev sanction of 7th July 1842 and have in part on the subsequent Fusilies 1252-3-4

3 The Collection of the arrears of 1251 was suspended at the time, in consequence depressed state of the Grain market, and it seem that the balances which have since accumulated are attributable to the same cause to the poverty of the parties - Under such circumstances the Board would be reluctant to resort to the sale of these lands unless should in your opinion be in any case necessary to Check any wilful or contumacious withholding of the public dues - should have been the Case in any of the present instances the Board will expect to hear further from you on the subject but if they direct that these arrears be included your irrecoverable balances.

Sir,

The cabbaree renters of the Lanlgoody Talook for the Current fusly are desirous for reasons affecting their private interests to transfer the rent for the remaining period of the fusly to a person named Lutchmana Pillay who has frequently held it before and discharged his dues punctually, and as the individual who is security for the present renters will give security for Lutchmana Pillay I see no objection to the measure which I accordingly beg to submit to the Board's favorable consideration.

Sir

From the Acting Collr of Madura

In elucidation of the settlement for Fusly 1255 A.D. 1845/46

I have the honor to submit

23

As per list accompanying No

23 Statements, rent rolls of the two Villages of Koollipollum in Madura and Punelipatty in Dindigul; and rent rolls of two individuals.

Season setting in for Punjah

2. The succesful cultivation of Punjah, in this Collectorate requires early rain in April, May and June, to permit the ploughing and preparation of chief part of land, for seed, during the rains of July and August; and during any subsequent rains are ploughed the small remaining portion to be sown with grain before the end of October.

Season as affecting the Punjah in the 1255 fusly

For the fusly under report there was no rain in April, very partial in May and more general, but insufficient in June and in July and August so very light and partial as to admit the sowing of a very limited extent only, and that, too generally to considerable extent, from want of rain up to the 27th September; the holding of which operated equally unfavorably on man and cattle, both suffering from difficulty and distance in procuring water to drink. The rain that fell from the end of September to the end of October

the resowing of the lands, the Crops of which had perished; as also ploughing of portion of the fallow lands, and sowing them with grains of rapid growth, such as Ragy Comboo Samy &c., which however, yielded only 1/4 1/2 & 3/4 Crops because of the very light and partial falls at the season of boiling; in December, whilst in some Villages the crops of some whole fields were entirely lost.-

See Coll.r to Board 22d. September & 15th. October 1845 Board's Proceedings 1st October 1845

The exertions of the Punjah Cultivation were greatly paralized, also, by extensive loss of Cattle, by looseness, during the 3 or 4 Months preceding Commencement of the fusly-

Season setting for Punjah

3. The succesful cultivation of Punjah, rain is desirable for sufficient supply of the tanks early in August to raise seedlings, which require about 45 days for transplantation when the tanks should be full in all October.-

Season as affecting the Punjah in fusly 1263.

In the fusly under report the showers of October and November were a prelude to the flow of water in the Goondar and other Jungle streams which filled the tanks, dependent on them, in various degrees from full

Fort St George 21st December 184

full to only one quarter; whilst the Vigh
had water uninterruptedly from the beginn
of October to middle of January some to
full, from bank to bank, sometimes the w
in its bed barely covered, or a small stream
just in motion, from frequent succession
freshes; and the tanks dependent on it
every where well supplied. And abundant
produce under this river and the Goondal
only prevented by lateness of season. The cr
under portions of the land dependent on
rain fed tanks, from
-gating water at the time of sowing, gave
one third and one half of average cr
but still more than in the preceding
In December the rain was light
partial, and in the second half of
the fusly there was no rain at
in March, and June and the little
fell in the other four was of no
to cultivation.

Price of Paddy in fusles 1254 and 1255.

4

The rain, as this shows,
in season, proved most adverse to the
Punjah cultivation, whilst but a
portion of the Punjah attained an

Fort St George 21st December 1846

crop yet the deficiency was more than made
up to the cultivator by the very high prices,
paddy reaching, in the year under report
as high as Rupees 2-8-6 per Cullum whilst
in the past, itself a high year, it only attained
to Rupees 2-3-8.—

State of health Cholera

5. During the year under report
Cholera has maintained its sway, tho' not so
virulently as before known most extensively
in Ramnad and Shevagunga; less so than
usual in Madura, and more particularly
about the months of January and February.
This is the only disease requiring mention.
But poverty reduced much of the lower
class to depend upon their daily labor for
their daily food.

6. The separation of the ain from
maniems, and maniems from ain lands is now,
I trust, complete, as anticipated in the
10th para of my report on the preceding years
settlement, a gain of Rupees 369-4-8 has
been effected by restoration to their proper
high class of taxation of lands accidentally
fallen under a lower rate of tax and a
small gain in addition to that of the preceding
fusly.

+ 17th Dec. 1845.

Separation of ain and maniems lands and correction of slopes for taxation.

fusly of Rupees 1275 has been obtained by the recovery of arrs from resumed lands: whilst a loss has been sustained of Rupees 110-10-2 by restoring resumed lands improperly retained as arrs; and, of Rupees 8. by reducing high classed lands to their proper lower rate.

Of 55 Villages in the Madura one which long remitted full tax was resumed in fusly 1262 see infra para 13.

7 In fusly 1254 the land cultivated in the 55 Villages in which the Board remitted the full tax; after a long indulgence in a reduced, and moderate rate, was properly entered in column 4 & 5 of Statement No 4, as tho' the Ryots had bonded themselves in writing to be responsible for the lands, whereas one and all had declined carring such responsibility; in the form under report the entry is properly made in column 4 & 5, of cultivation without proper written responsibility, which will account for the correspondent increase and decrease in columns respectively. In the year under 46 of these villages accepted this favor and signed their acquiescence & accepted puttahs only; and a few paid rent for wet and punjah puttadars, on the other hand

took their puttahs and signed their acquiescence but the other Ryots refused their puttahs.

Statement No 6.

8 In reference to the 1st para of my report on the settlement of fusly 1254 I beg to point out completion of Statement No 6, after the form prescribed, with specification of spots and field marks, as in the survey, and of different produce on Nunjah and Punjah and on Nunjah and Punjah Garden; and in comparison with the preceding fusly: and the same particulars have been introduced into the other accounts which must agree with this. Statement No 4 is also strict, in strict accordance with the form, and the Marattah one, received from the Sub Collector tho' prepared in the same way, is without specification of produce or mode of cultivation The entries are merely as Nunjah and Punjah and Nunjah and Punjah Garden; and he has explained, in his Maratta remark to the Statement, that he has adopted this course in obedience to the Board's instructions directing entry of all punjah lands at the survey, under the same head, altho' subsequently cultivated with Nunjah or Garden produce

In

In any combined statements, therefore this tot
will be correct; tho' there may be a deficiency
in specification of detail - a remark appended
Statement No 16 from the Sub Division, shew
an increase in cultivation of Devastanom
and 4 other items of Cawnies 55 8 3/16, and a
decrease in that of Survamaniem and 10
items, of 55 12/16 Cawnies, giving on the whole
a net decrease of 9 7/16 Cawny, arising from
adjustment of difference in Maniem lan
from the survey; particulars of which will be
in the Statement itself.

of the whole Collectorate are supposed to be
prepared in accordance with the new forms.

Various notifications made to the Ryots

11. As in the preceding year each
Village was warned of the danger incurred
by tumultuous resistance to public authority
and of the necessity to register all deeds and
contracts as soon as made; as the registry
of a subsequent transaction of that nature
would bar the prior right the registry of
which had been omitted; and they were
shewn the course, and particularly encou-

Notification had been read to the assembled
Ryots, a copy was given in their presence

Thes of the 55 Villages shewn in the Margin, are dependent on rain and jungle streams alone, whilst the remaining 47 depend on tanks, supplied from the Vyhay and Goondar and insufficient local rain may thus be met by seasonable freshes. The gradual, but great, enhancement of price of grain from fusly 1233, has contributed to encourage some cultivation of these lands and tho' to a very limited extent, yet it has sufficed to secure the usual Government demand and even more: but it is greatly to be feared a future fall of prices will discourage cultivation till the recent average demand will not be procurable tho' the full tax be paid.—

The refusal of the ryots to accept Puttahs is the consequence of the reimposition of the full tax. The mortgages of lands appealed to by the Board in proof of the lightness of tax were made subsequent to the reduction of the

more easy to judge if the decreasing cultivation is really attributable to combination of the Ryots, as the Board fear; or to a high assessment, as I still think.-

Maroongapoory Zemindary.

11. The Maroongapoory Zemindary, which had been under sequestration and entered in the head "Land Revenue" since Fasly 1226 A.D. 1816/17 having been restored to the proprietor under the Board's orders of the 8th January, and 23d March 1846, its Settlement has been deducted under all heads, and a separate Statement A accompanies.-

Sequestration of Sechoopalay Polliem.

15. The petty Poligar Seeroopalay, who is an habitual defaulter, having failed to pay even his early instalments, to amount of Rupees 254, even up to April, the harvest season, his 4 Villages were sequestered on the 12th of that Month, settlement made at Rupees 1442-10-7 and Puttahs distributed, and the Peshcush of Rupees 903-10-11- levied, with exception of Rupees 69-3-5, for, prior to the sequestration, he had collected Rupees 926-12-11- of which he had paid Government only Rupees 516- To cover the remainder of the Peshcush is an outstanding balance against his own cultivation and of other Ryots to amount of Rupees 191-6-1.-

Pyluey hills.

17. The settlement of the Pyluey hills has been made on precisely the same principles as last year, and the Nelakoolangaun hill in Pooth hitherto forming part of the rent of "Sundy Village" has been entered in the settlement with other hill lands.

was to be expected - and I had no where to look for data, whereon to found it, but from the Sub Collector - Mr. Elliot only joined his station as Sub Collector on 20th November 1841 the proper time to inspect the reaping of part of the land and from the novelty of his situation it was not to be expected from him: why he did not do it in 1842 I do not know. For myself I could not, as I was obliged to go to Ramnad under the particular orders of the Board and I had scarce put matters in train for fair administration than I was suspended in December and this obloquy was continued to be held over me till July 1843. From August to the middle of September Mr. Elliot was in charge of the Court and had his ordinary work to do as well as to bring up the arrears that had accumulated under the Commission; and the rest of Mr. Elliots time seems to have been taken up in preparing the report on the past fasly 1252. Fort St. George 21st December 1846.

To enable comparison with the year under report it was necessary to prepare the accounts of the preceding year in reference to the Survey to accord with form No. 6 instead of after the form previously prevailing in which Punjah and Gardens cultivated in previous years on Punjah of the Survey formed a total with Punjah of the Survey whilst new cultivation of Punjah & garden on Punjah formed a separate total from it - now the Punjah and Garden cultivated on Punjah of the Survey retains its original designation of Punjah and the variations from it are distinctly shewn thus the totals will tally tho' there will be found certain variations in detail. The difference of reference appearing in the foregoing Abstract & that entered in my last years report is the consequence of the revision of the form i.e. the revenue exhibited in my report on the Settlement of Fusly 1254 at Rupees 10,13,629 - 13 - 3. is here shewn at 10,10,048 - 7 - 5 whilst discretionary remissions then entered at Rs. 43119 - 11 - 8 are here shewn at only Rs. 40538 - 9 - 4 the difference Rs. 2581 - 5 - 8 arises from rejection in the year under report of entry of any excess demand on Punjah & Cultivated on Punjah of the Survey in the Subdivision instead of following the old form of entering it in the account & afterwards deducting with the discretionary remissions.

The

Fort St. George 21st December 1846.

The reason given at the end of para 225 a looseness that prevailed for 3 or 4 months preceding commencement of the fasly amongst the Cattle accounts for their decrease and of ploughs and the decreave in houses is in Thirumungalum and Meylon where drought since fasly 1252 has been followed by decreased population (though in the whole Collectorate an increase) and decrease of dwellings.

Balance outstanding on 30th November — 4869-5-2

Of this Rupees 4693-4-6 is Peshkush due from the impoverished proprietor of the five estates of Annamanaikenorand for which 6 villages continue under

under sequestration and Rupees 67-3-5 from Sivagunga also under sequestration. Total Peshkush balances 4760-7-11.-

The Ryetwary Balance of Rupees 30-10 in the Madura Division, has been collected in the current month with the exception of Rupees 3-2- payable to a Quaniem Kaum in Meylow which has been inadvertently entered in the demand for striking off which I begged separate sanc on the 8th Instant and in the talooks of Jempu and Nellacotay in the Sub division, is a small balance of Rupees 78-3-2 which I trust will soon be realized.-

25.- Particulars of outstanding arrears of land revenue in the only two fusilies 1253 and 1254.-

Out of this, the small balance of 7-6-3 due in Meylow for fusly 1254 will I expect soon be recovered and for the rest remission should be given for reasons stated in my letter of the 8th Instant prepared separately as instructed on the 3rd of August last.

26.- No advances were made for cultivation during the year under report; and there are no balances under that head.-

27. My Sub Collector's report of the 10th October speaks for itself. From July 1845 to the 26th May 1846, I was left without any assistant, when I was joined by Mr. Cater; and I have never had so willing and zealous an assistant during my service, his temper and judgment was remarkable and as far as I could judge he was equal in ability, and knowledge of the vernacular language, with any Assistant I have ever had. I am as perfectly satisfied with my Sheristadar Krishna Row, as I expressed myself in my reports on the two last Fusilies Viz. 1253 and 1254. and I am better pleased with my Deputy Sheristadar Trimul Row, than I was even at the time of my last report, and he has been very diligent in his heavy duties during the year.- and, was it in my power, I would gladly do something to reward the exertions and diligence of my Head accountant Coopiah, a servant in this office of 33 years standing.-
