The

Para 5- The 12 new hamlets have been made by 59 families occupying as many houses, the increase in houses being generally in the order Mouzas and Muzras- The great disparity between the increase in males and that of females is probably attributable to many of the former, who had no settled occupation or cultivation having proceeded to Columbos, where the high rate of wages still offered for laborers tempts many to pass a year or two on the Ceylon Estates- The increase in the Cows Calves and Bullocks, is satisfactory as betokening no decrease in the means and comfort of the Ryot, whilst there was no sickness amongst the Cattle to cause any diminution of their numbers, or individual loss- The only decrease of any description, connected with the cultivation or general Revenue, is observable under the head of "Anicuts" which, on explanation, will be found to be no real decrease; but an accidental overentry in former years- One of the dams in the Village of Cumbum pertaining to Tenkarayn is also entered in the Village of Hammumantamputty and again in Puddupputty when it should only

have been entered in Cumbum- It has therefore been struck off the List of water-works in the other two Villages- A new dam having been erected in the Village of Villpatty, forming one of the hills of the Palany range, leaves one to be entered in the accounts as decrease- altho there is an actual increase of one Anicut, when compared with those really existing in the former year- The increase of Ryots and Ploughs appears to have kept pace with their means or ability of cultivation-

Para 6. The following is a Statement shewing the difference between the Dittum, Cultivation and Waste, in the past and present years-

Season. Para 7. The season for Punjah was, on the whole good, although no satisfactory or heavy fall of rain took place till the middle of October which might have been attended with injury to the produce, had not a good supply been received towards the end of December, by which the harvest was plentiful; and the demand for grain in the direction of Tinnevelly and Columboo, being great, the profit of the Cultivators was proportionate. The season for Punjah and Garden Cultivation was also good. The whole year was generally healthy; but Cholera appeared about the Month of April in the Cushbah and some of the Villages of the Iyempilly Taloak, which tended for the time even to impede the progress of the Settlement. The disease fortunately did not last long, and the fears of the people soon subsided.

Prices. Para 8. Throughout the season Prices were unusually high, not owing, as shewn above, to any real scarcity or unfavorable season - but to the great demand outside, which eventually brought great profit to the Ryot and all merchant holders or speculators in the grain market. I have frequently observed large quantities of grain proceeding to Tinnevelly even from some of the Villages of Coimbatore, the distance being above 200 miles. A list of the average prices in the Sub Division throughout the Fasly $\frac{1254}{1844/45}$ and $\frac{1255}{1845/46}$ is here given.

The

Increase on Cultivation.

11. The increase in the different species of Cultivation, is the result of a favorable or average season, and, as may fairly be believed, the improving condition of the Ryot, which is expected to be more fully developed in the following year.—

Reductions.

12. The increase in the reductions termed Hooloos naf and Munasib on account, is owing to the increase in the Ryots' Cultivation.—

Shavy.

13. The following is a Statement of the Shavy during the present year.—

Statement.

the system of the Renters and the moderate assessment fixed on their lands. I have nothing further to urge on this subject in addition to what may be gleaned from the Paras 30 to 54 of my Report on the Settlement of the Land Revenue for Fusly 1254 / A.D. 1844/45 dated 28th November last; but would respectfully request attention to the steady increase in the number of Ryots, their means and their cultivation, all of which, there is reason to believe, will continue to increase with the happiness and comfort of the Ryots.

Hill Village Inams-

18. The amount deducted for the Services of the Village Officers, is a trifle higher than that entered for former years, owing to the increased cultivation. In consequence of the remissions granted on account of the incorrect and double entries for the Veeriupatchy bill for Fusslies 1252 and 1253. (A.D. 1842/43. 1843/44.) there will be a sum at the rate of 7 per cent on those remissions to be recovered from the Village Officers, for as their salaries are a per Centage on actual collections, so are they not entitled to retain that per Centage on amounts not collected, and not due.- This recovery has not hitherto been made through oversight; but will be carried to account on realization as Sirkar Jama: for Fusly 1252 (1842/43.) From the Principal Collr. of Coimbatore

Sir,

It is with much regret that I have the honor to communicate to the Board the extreme adversity of the season as regards this district our rains have entirely failed in April and May in consequence of which the Punjah Crops have been completely destroyed and again the 2d sowing appears likely to prove equally unsuccessful in many of the Talooks. In explanation of the present difficulties I have to remark that at Coimbatore the rainguage Kept by Mr. Assistant Surgeon Porteus gives only 5 63 from January last, and the prices of all Kinds of grains are proportionately affected thereby

Ordered that the following letter be sent in reply.

To

The Pt. Collector of Coimbatore

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 14th Ultimo bringing to their notice the extreme adversity of the present season as regards your District, and requesting their sanction for the continuance during the current Fusly of the discretionary indulgence authorized under date 15th January last.

In reply I am di-rected to inform you that the Board have learnt with much regret the unfavorable nature of the present season in Coimbatore, and that under the circumstances represented they empower

empower you to grant remissions on
Nunj and Poonjah lands which have
been left waste, or proved unpro-
-ductive, on the same principles, and
under the same restrictions as those
prescribed for the Settlement of the
past fusly 1255- In making these
remissions you will of Course conform
strictly to the instructions contained
in my letter of 15th January 1846
and the Board will rely upon your
vigilance and judgement that undue
advantage be not taken of the con-
-tinued indulgence now authorized
and that it be confined to those
cases only wherein it shall appear
to be indispensably requisite-

From the Collr of Canara

Sir,

With reference to the Proceedings of the Board of Revenue under date the 28th ultimo I have the honor to state that the sum of Rupees 35000 sanctioned by Government on the 18th July last has reference to the payment to be made for the Home manufactured salt in the Current fasly. It is necessary that the Bombay Salt should be purchased for the Monopoly in addition to the Canara Salt, to which the Bombay produce is preferred by the inland traders. Under these circumstances I request that the necessary sanction may be obtained for the sum of Rupees 12,325 required for the purchase of 725 Garces of Bombay Salt, as stated in my letter of the 12th Ultimo.

From the Collr of Madras.

Sir,

I have the honor to report for the information of the Board of Revenue, that, after the hurricane on the 25th Ultimo, I visited, in person, the Salt Colaurs at Madras, and found the whole of the heaps uncovered, and much of the Salt stored in each washed away. I lost no time in getting an Estimate of the probable loss prepared, and when the examination was in progress, I caused such of the Palmeira leaves as were scattered in the neighbourhood, in addition to those which could be purchased, to be collected, and the heaps to be covered with all practicable dispatch, lest another heavy fall of rain should occasion a more serious loss.

2. I have succeeded in getting over already nearly the entire number of heaps at the Madras Colaurs covered again, and now submit a Statement exhibiting the result

Encl. A

Fort St. George 21st December 1840.

result of the examination made there, from which it will be observed that, whilst the loss during the Gale in October last was Garce 119-360 - or 9¼ per cent on the quantity actually stored in my letter of the 29th of that Month that sustained in November was G. 81-300 - or 6 12/16 per cent; the total being G. 201-260 - or 15 3/16 per cent.

3. At Ennore the hurricane would appear to have been less violent; for the covering of Palmeira leaves has not been much injured; but the loss of Salt there is a greater than at the Madras Colaurs, the overflowing of the River having been such that water on the 30th Ultimo rose to the height of 2 or 2½ feet and continued so, for a long while, without abatement; whereby a considerable portion of the Salt in the lower parts of the heaps was dissolved.

Encl. B

I submit a separate Statement exhibiting the result of the examination made at Ennore, from which it will be observed that, whilst the loss sustained at the Depôt during the Gale in October was G. 81-100 - or 2 15/16 per cent, that in November was G. 269-200 - or 9 5/8 per cent; the total being G. 350-300 - or 12 2/16 per cent.

Resolution thereon.

(104-105)

The Board observe that the loss of Salt at the Madras and Ennore Cotaurs occasioned by the Storm on the 25th Ultimo is estimated at 351 G 100, which being added to the Estimated loss occasioned by the Gale on the 20th and 21st October preceding Viz.t 201 G 00 as reported in the Collectors letter of the 27th October; the total Estimated loss is 552 G 100.

The Collector will be pleased to shew distinctly in his Statement of Salt wastage for the Current Fasly 1256 the actual loss sustained on both occasions with explanation of its causes.

To

J. Byeroft Esqre

Secretary to the

Board of Revenue

Fort St. George

Sir,

(106)

From the Collector of Madras } Para 1.

Recommending for stated reasons that sanction may be granted for the removal of 1969-3774 Salt from the platform at Ennore to the Cotaurs at Madras for sale for inland consumption the remaining being kept there to meet such applications as are made for export to Calcutta on private trade.

From B.o 3d July 45
From Do 11th Do

I have the honor to bring to the notice of the Board of Revenue that from the enquiries which I have recently made it does not appear to me that any more Salt for exportation from Ennore to Calcutta on private trade under the rules communicated in the letters noted in the margin will be applied for. I am therefore anxious to submit for consideration a proposition for the disposal of the large quantity now available for export retaining only a small proportion to meet such applications as may be made before the newly manufactured salt of the ensuing season is received into store.

2- The last application for the shipment of Salt was received in September 1845. I understand that the exporters have all sustained a loss which in some Cases has

has been so heavy that they are wholly deterred from making any further purchase for private trade.-

3. The quantity at Ennore according to the examination made after the Storm on the 25th Ultimo is G 2459—177—" I would recommend that of this G 500 be kept there for export leaving G 1959—177—" to be appropriated to some other purpose.-

Jt B. 1st Dec. 46.

4. The issue of Rowannahs for Salt sold at the Madras Cotaurs to be conveyed for Consumption inland beyond the limits of this Collectorate was discontinued in 1823 to prevent the supply from interfering with the demand for Home Consumption and export to Bengal. As however the purchase of the quantity now in store for shipment is extremely doubtful I am induced to suggest that the G 1959-177 " referred to above be disposed of for inland Sales, not only to guard against further loss and wastage but to prevent the Salt from changing in colour by being kept too long, so much as to render it unfit for the Bengal Market.-

From B. 27 Dec. 23.

5. Should it be the intention of Government

-ment to authorize the shipment of Salt at a future date on terms different from those which have obtained since 1845. I shall be prepared to get a sufficient quantity manufactured previously to the supply now proposed to be retained, G 500 being exported.-

6. The expence incurred before in depositing the Salt on the platform at Ennore is, as shewn in the accompanying Encl. A Memo R 1—15—10 per G. The estimated expence for its removal to the Madras Cotaurs is Rupees 2—11—" the total being R 4-10-10

7. The total outlay for the removal of the G 1959—177—" from Ennore to Madras will thus be Rupees 5.266—"—" to which being added the expense already incurred Rupees 3898—7—7 the aggregate is raised to Rupees 9164—7—7 It is proper at this place to state that the situation of the present platform is not such as to ensure the sale of the Salt for transport to the interior.-

8. Were the whole of the G 1959-177 " conveyed originally from the Pans to the Madras Cotaurs, the expence would have been only Rupees 5.082—4—10 or Rupees 2—9—6 per G.

The

Fort St. George 21st. December 1846

9164 — 7 — 7
5082 — 4 — 10
4082 — 2 — 9

The adoption of the arrangement proposed by me will in consequence involve an additional expence of Rupees 4082—2—9 or Rupees 2-1-4 per G but the sale proceeds of the Salt at Rs. 120 ℔ Garce or R 1 per Maund will be Rupees 285133-1-7

9 The facilities for the Sale of Salt at the Madras Cotaurs for Inland Consumption are very great from its affording immediate means to a Considerable of Carts which are employed in bringing Articles of Merchandize and domestic Consumption from the interior to return to their Homes with a full supply of a Common necessary of life of which are not engaged at once by some wealthy Merchants to convey it as an article of trade the purchase there of elsewhere being attended with additional expence and delay. Under all circumstances I have reason to thank that the Salt set apart for Inland sales may be disposed of in 4 or 5 Months.

10. The present temporary Establishment at the Ennore Depot Amounts to Rupees 78 — — per Mensem By reducing the quantity to G500 I shall have it in my power to effect a saving of Rs. 52 ℔ Mensem equal to Rs. 624 per Annum

I-

Fort St. George 21st. December 1846.

11 I beg leave, therefore to recommend that sanction may be granted for the removal of G1959 — 177 — — of Salt from Ennore to the Cotaurs at Madras for sale for Inland Consumption.

Ordered that the foregoing letter be submitted with the following address.-

To. The Chief Secretary to Government.

(106-107)

To the Chief Secy. to Government.

Sir,

I am directed by the Board of Revenue to submit for the orders of Government the accompanying letter from the Collector of Madras of the 7th Instant on the subject of the salt at present in store at Ennore for sale to Exporters in private trade.

Submitting a letter from the Collector of Madras on the subject of the Salt at present stored at Ennore for Sale

From

sale to exporters on private trade and recommending that his application to remove a portion of it to the Madras Colaurs to be sold there for inland consumption may be acceded to and that he may be authorized to incur the expenses attendant on the removall of the salt from Ennore to Madras.-

2. From this it will be seen that Mr. Huddleston states that from the enquiries which he has recently made it does not appear to him that any more applications will be made for salt for exportation from Ennore to Calcutta on private trade under the rules published in the Fort St. George Gazette of 19th September 1845 p. 800. The last application for the Shipment of Salt was received in september 1845 and it is understood that the exporters have all sustained a loss which in some cases has been so heavy that they are wholly deterred from making any further purchases. The quantity of Salt now at Ennore is 2459 — 177 Garce and the Collector recommends that of this 500 Garce be returned to meet any demand which may possibly be made and that to guard against any further loss and wastage the remaining 1959 — 177 Garce be removed to the Madras Colaurs and sold there for inland Consumption in which case he expects that the total quantity will be disposed of in four or five months.-

3. It should be remarked that the sale of Salt at the Madras Colaurs for Conveyance into the interior was discontinued in 1823 lest it should interfere with the supply

supply for Home consumption (i.e. the Consumption of Madras and its vicinity and export to Bengal) In the present case however such a result is not to be apprehended and under the circumstances explained in the letter now under submission and to prevent any loss to Government the Board beg to recommend that the Collectors application may be acceded to and that he may be authorized to incur the expence attendant on the removal of the Salt from Ennore to Madras which is estimated at Rupees 5266.-

Note.- Quantity of Salt now in store at the Madras Colaurs for Home Sale is 1084.-248-22 about a years supply.-

mendation of the Government of Fort Saint
George for the continuance for life to Hafiz
Abdool Kader Karee from May 1845 of an
allowance of Rupees 15 per mensem being a
Moiety of the Stipend enjoyed by his late father
Hafiz Goolam Nubbee.

2 This being a conditional or service
grant the President in Council doubts the
expediency

expediency of diminishing the stipend unless it can be clearly shewn that Abdool Kader Karee is unable to collect and instruct the complement of pupils required by the terms of the original grant His Honor in Council is accordingly desirous of information on this point before coming to a decision on the question—

Read the following Extract from the Proceedings of the Board of Revenue

Here enter 12th November 1846 No 5411 Subs

It is observed from the report submitted by the Acting Collector of Tinnevelly that Enoyet Cawn succeeded to Pattoo Saibi's share of the Yesmiah referred to by virtue of his adoption, but admitting the claim on this ground which however untenable under the Mahomedan law the Governor in Council cannot allow that Enoyet Cawn was entitled also to the share enjoyed by his natural father Mahomed Khan in default of heirs, and which ought properly to have been discontinued at the time. The continuance of this share was therefore irregular, and not having been sanctioned either by the Board of Revenue or by the Government the Governor in Council would not be warranted by the circumstances of the case in confirming the grant, and he accordingly directs that the additional share be discontinued from the date to which the last payment was made, thus leaving Enoyet Cawn in the enjoyment

16980 Fort St. George 24th December 1846

of an amount equivalent to that received by the other Sharers Viz. Rupees 65-4-2 Sixty five, annas four and Pice two per annum which will be continued to him for life.

From the Offg Sect. to Government

Communicating observations & orders on the Board's Proceedings relative to the settlement of the Land Revenue of the Government Estates and the Collections made in the Proprietary Estates in the District of Rajahmundry for account of Fusly 1254

Extract from the Minutes of Consultation under date the 2nd Dec. 1846.

Read the following Extract from the Proceedings of the Board of Revenue

Relative to the Settlement of the Government Estates, and the Collections made in the Proprietary Estates in the District of Rajahmundry on account of Fusly 1254 1844/45.

Here entire 16th July 1846 No 3448

Para 1. The Season of Fusly 1254 in the District of Rajahmundry, would appear

appear from the Statements contained in para 1 of the foregoing proceedings, to have been on the whole tolerably favorable in comparison with preceding years, and the

G.R. para 3 Harvest is reported by the Collector to have been about three-fourths of a good year's produce. With the exception of an Epidemic

G.R. para 5 which, as in the previous year destroyed a great Number of Cattle, the District was comparatively healthy. The high prices of the principal productions, although in

G.R. para 4 advance of the previous year, afforded no benefit to the Ryots, the rise having taken place after the Ryots had disposed of their crops.

2. The Number of Government Villages in Fusly 1253 was 404 bearing a Perma-

Ra. para 6 G.R. — 8 nent demand of Rupees 7,37,945 — 2 — 6 — 4 in consequence of the reversion of 21 Estates Permanently assessed at Rupees 25,898 — 5 = 10 — 160 Villages were added, making the present Number 564 of which 536 are full assessed, and the remainder 28 Shrotrums, Enttoobadies &c.

3. Of the 536 Villages 80½ were on individual Money Settlements, on a Division

of produce and 448½ on Rents. The augmentation in the Vijsabaddy or individual money settled Villages is accounted for partly by the annexation to the Government Estates of 46 Villages, which in the previous Fusly were included in Proprietary Estates —

4 The Settlement of the Vijsabaddy and Assarah was made by the Acting Collector Mr. C. Bird In the former it is stated to have been formed on the same principles as in Fusly 1253 Viz. the Amaracum Cist after the usual deductions and in only two instances was remission for Crops destroyed granted —

5. A considerable increase amounting to Rupees 74,215 - 13 - 3 in the Settlement of Rented Villages appears occasioned by the more moderate freshes in the Godavery a large amount of this Settlement remains uncollected, Unless in extraordinary cases, the renters should be held to their engagements and there is nothing in the State of the season under report giving grounds for Considering them entitled to Special indulgence —

6. The amount of Settlement

Ro. para 12 7. The Collections inserted above are those made to the end of September 1846, those realized within the Fusly amounted only to Rupees 744347-8-4 The Balance under the Vessabuddy mode of Settlement is comparatively high to the demand, being in the proportion of 18¾ per Cent and amounts to the large sum of 2084. More than half of this amount stands against the Canpavarum Talook, where rain failed and the lands are asserted to be highly assessed and the Ryots poor.

The

8 The outstanding Balances from Fusly 1242 to 1253, amounted at the beginning of Fusly 1264 to Rupees 3,22,651-12-2, of which there were Rupees 9657-8-3 brought to account in that year, and Rupees 35,132-15-10 remitted leaving Rupees 2,77761-4-1 yet unadjusted Of the arrears for Fusly 1253 alone amounting to Rupees 90,330, only Rupees 7722 were brought to account in 1254, and of those due for the Fuslies preceding 1253 no Collections in some years, and an insignificant Amount in others, were realized. The Collector should furnish the report required in para 26 of the Extract Minutes of Consultation dated 30th June 1845 at an early period.

Ro. paras 14 & 17. 9 The Pushcush on the Zemindaree portion of the District amounted to Rupees 9,47460-14-2, of which Rupees 8,53,461-2-0 were Collected within the Fusly and subsequent to its close, leaving a balance of Rupees 94,000 outstanding. Of this Amount, Rupees 48,121-12-5 were against the Peddapore and Ramachendrapooram Estates the management of which as well as

Fort St. George 24th December 1846

as of the Cotah Estate has been separately considered by Government. The Petitioners Estate to which the Board of Revenue have adverted in para 18 forms also the subject of their separate communication dated 1st October and will be disposed of on an early date.

10 The Board have directed the Collector in para 15 to proceed to the sale of Takey and certain other Proprietary Estates, provided the defaulters do not immediately enter into arrangements for the liquidation of the arrears. There Government approve of this course But with regard to the 6 Estates, the Proprietors of which have already proposed periods varying from one to three years for the payment of arrears and the acceptance of which terms the Board recommend, the Governor in Council observes that similar engagements have been disapproved of and rarely have been kept and he sees no valid reason in the present instances for expecting these to prove exceptions. He is averse to sanctioning a course which only postpone for a short period the ultimate loss of the property to its owners and sanctions the

Fort St. George 24th December 1846

the acceptance of the terms now proposed only on the clear understanding that on the first failure of the proprietors to meet their new engagements, their Estates will be brought to sale in strict conformity with the Regulations.

11 It has not been found practicable from the mode in which the Settlement of the Land Revenue under the different Systems prevailing in this District has been reported to make a satisfactory comparison with the results of Fasly 1253, but from para 15 of the Collectors Report it would appear that the Revenue of the lands under a many Management Vizt fell short of the Permanent demand

17. The present plan of the Collector's report is confused, the System on which the accounts accompanying it have been framed is defective and the comparisons drawn in them as well as in the abstract Statements entered in the report are in some instances erroneous. The Board will be pleased to give their attention to the Subject and issue such instructions as they may deem necessary.

of Consultation be transmitted for the information and guidance of the Collector of Rajahmundry with reference to the Board's Proceedings dated 16th July last.

The attention of the Collector is requested to Paras 5. 12 and 16. He will be pleased to furnish as early as practicable the Report on outstanding balances called for in Para 8. In communicating to the Proprietors of the 6 Estates referred to in Para 10 the acceptance of the terms proposed by them for the payment of their arrears the Collector will distinctly intimate to them that on the first failure on their part to meet their engagements their Estates will be attached and sold.

Mr Prendergast's attention is also requested to the observations of Government in Para 17.

Communicating observations & orders on the Board's Proceedings relative to the settlement of the Ramachendrapooram Cotah & Peddapore Estates

Extract from the Minutes of Consultation
Under date the 2d December 1846

Read the following Extract from the Proceedings of the Board of Revenue

Here enter 3d August 1846 No 378

Para 1. The settlement of the three important estates of Ramachendrapooram Cotah

Fort St. George 24th December 1846

Estates for Fusly 1254 and directing that the latter be exposed to Sale for arrears of revenue and purchased on account of Government

Cotah and Peddapore exhibits different results The meanings of the South west and North east Monsoons in most of the Villages led, says the Collector "to a considerable failure of the crops." The Ramachendrapooram Estate was settled however at Rs. 74029-8-1 being 11058-10-2 above the Settlement of the year preceding while in Cotah the Settlement was 10022-1-8 less and in Peddapore also less by 11557-5-6. than in the year 1253.

2 Particular attention is reported by the Collector to have been paid in Fusly 1253 to the renting of Villages for the following year in Ramachendrapooram and accordingly out of the 37 Villages composing that Estate 34 were rented for Fusly 1254 at an increase of 19404-8-11 over their Settlement of Fusly 1253 - This extension of the renting system has not been attended with the benefit anticipated and continued exertions are called for to bring the views of Government into full operation - The Settlements for the year exceeded the Permanent Assessment by

Fort St. George 24th December 1846

by Rupees 13808-5-1 and of it amounting to 74029-8-1, Rupees 64216-5-6 have been realized leaving a Balance of Rs. 9813-2-7

3. The main part of this balance would appear to stand against the rented Villages the lands of which were not fully cultivated and the Collector states that if the next season be favorable a portion of this balance will be realized It does not appear from the Collector's Report what measures he adopted for ascertaining the ability of the renters to meet the engagements they entered into or on whom particularly these balances are outstanding - One of the objects of these collective contracts was to ensure the collective attention to the cultivation of the Villages who had made themselves answerable for the rent - But when such large balances as those here reported remain outstanding this object is frustrated and rents become nominal - The Board justly observe "It is much better that the rent should resolve itself into a Ryotwar Settlement than that Contracts should be made with the

Fort St. George 24th December 1846

the Village collectively which they fail to fulfil.

4 The Government have already Concurred in the necessity of bringing the Ramachendrapoorum Estate to sale for the arrears against the Zemindar which it has been clearly shewn there is no hope of ever being discharged and it is fully expected when the Estate is relieved from the injurious uncertainty to which the Ryots are subjected by a Management on account of the Zemindar and is permanently added as in all probability it will be to the Government Estates. that improvement will follow under the direction Superintendence of the Collector the measures which have been directed with that view.

5. In Gotah alone of the 3 Estates under review has the Peishcush for the year been fully adjusted. The demand amounted to Rupees 7,302 — 3 — 6. being below Fusly 1253 viz. Rupees 10022 — 1 — 5. But as the bids for the two years were not fixed on the same principles the decrease in 1254 is not real. The Sale

Fort St. George 24th December 1846

sale of the Estate for the heavy arrears with which it was encumbered and the purchase of it on account of Government having been sanctioned one step towards its restoration to prosperity has been attained. It remains for the local Officers by attention to the works of irrigation and encouragement of Village ranks to promote the extension of Cultivation and by a vigilant control over the Native Public Servants to free the Ryots from the exactions & abuses which have been so long practised under Zemindary rule and so secure to the Government their due share of the products of the soil. It is observed that of the uncollected balances for Fusly 1254 amounting to Rupees 5,970 stated to be against the poorer Ryots there is a probability of 2,000 Rupees being recovered "if the approaching season be favorable."

6. The demand for Peddapoor stood at 9,209 — 1 — 8 below the permanent Settlement and 11,557 — 5 — 6 below 1253. It amounted to Rupees 16,225 — 14 — 4 of which 14,545 were realized leaving the Considerable balance of 17,680 — 0 — 3. per.

Fort St. George 24th December 1845

per cent of the demand The main portion
of this balance, unlike that outstanding
in Cotah and Ramachendrapooram is due
from Villages under Wysabudy tenure
It is reported to be due from Poor Ryots
in Villages where crops have failed with
very little prospect of ultimate realization
The arrears of Peshcush against Peddapore
now amount to Rs. 4,60,544 — 5 — 8 as P and as the
Collector entertains no expectation of the
recovery of this large balance and for
other reasons recorded, the Board recom-
=mend the sale of the Estate and the
purchase of it by Government - The
Governor in Council fully concurs with
the Board of Revenue in the necessity
of this course being adopted and desires
that the Peddapore Zemindary be disposed
of sale and purchased on account of
Government - The investigations of the
Commissioner in 1843 have satis-
=fied the Government that the
constant failure of the Zemindars to
meet their obligations to Government
has not been caused by overassessment
but has been throughout attributable
to extravagance mismanagement and
litigation

Fort St. George 24th December 1845

litigation In his report to Government of the
3d January 1844 he remarks-

Commissioners Report para 28.

"The dismemberment of the
"ancient Zemindary, as traced in the foregoing
"remarks may more justly be attributed
"to reckless extravagance, corruption and
"misrule, to dissensions among the family
"causing frequent and ruinous litigation
"and to utter disregard of the obligations to the
"state and the people which its possession
"imposed on the Zemindars than to overassess-
"ment - Indeed an examination of the early
"accounts would lead to the conclusion that
"the ancient Peddapore Zemindary was
"originally more favorably assessed than any
"other portion of the Rajahmundry District.

The career of Soorla Narayana
Jagapaty Rauz the present Zemindar since
his first accession to the Estate in
Fusly 1248 has been depicted by the
Board in the 15 Para of their Proceedings
and they appear justly to arrive at the
conclusion that "it being hopeless to look
"to the Individual equally so to the
"administrative system under which he
"acquired his rights the alternative of
"sale for arrears becomes a paramount
obligation

"obligation for the security of the Revenue
"and the Prosperity of the Ryots. The pres-
=ent Zemindar enjoys possession of the
Cotum Estate, at one time a portion of the
ancient Zemmindary. He also enjoys from
the produce of the Peddapore Estate an
allowance of 500 Rupees per Mensem which
was conferred on him in 1842 on Condition
of his aiding in the management of the
Gufted Estate, a condition which it does
not appear he was ever called upon
to fulfil. He also holds possession of
certain Sairy and Choultry lands
yielding an annual income of about
Rupees 5000. On the sale of the Estate
the allowance will cease and it will
be the duty of the Collector to enforce
the appropriation of the proceeds of
the Choultry lands to the purposes
for which they were intended. The
Board of Revenue are requested to
state their opinion whether any al-
=lowance need be granted to the
Zemmindar for his support, if any whether
the alienation of land surrounding the
family residence at Peddapore would
in their opinion be preferable to a

Chief item of Decrease is Salt and is represented to have wholly occurred in the Inland Sales and ascribed to the prevalence of disease among cattle and the disturbed state of the Hydrabad Country. In the Home consumption was a Considerable increase amounting to 8300 in money.

2 A Decrease in the Sayer is attributed also to the state of the Nizams dominions.

3. The Collector recommends the return to the rate of Tax on Parriah looms in force previous to the famine. These looms were formerly charged at one uniform rate of 1 Rupee each. Deductions were made at the period of famine according to the circumstances of individuals at the discretion of the Collector on reports from his native subordinates and to meet these reductions augmentations in some cases have occurred. The total number of looms is 5163 and the amount of Revenue they yield is 5884 — 11 more than the rate in force before the famine would have given by Rupees 822 — 11 The Board recommend the

the adoption of the old rate and as there appear to have been no good grounds for the arbitrary enhancement of the established rate, and as the Collector considers the reversion to the uniform payment calculated to afford relief and encouragement to the industrious exercise of the trade the Governor in Council approves of the return to the former practice—

for Fusly 1254 / 1844/45

Para 1. The season of Fusly 1254 in the Rammad Estate appears from the account given in the first para of the above proceedings to have been extremely unfavorable for cultivation for not only was the extent of sowing in the dry land far below the average, but the return in crops in the land actually sown very deficient. the wet lands suffered a like, much of the paddy sown for seedlings having perished, while the crops were nothing like an average, the General result is stated to be decreased wet and dry cultivation and extensive withering of the Dry grain crops—

19

2. The Settlement under all heads amounted to Rupees

the preceding year and was realized within the July with the exception of Rupees 7,457–3–4 outstanding chiefly against purchasers of crops.

3. Adverting to this balance and to the sum of Rupees 7641–3–8 which appears remaining unadjusted on the same account for July 1253, the Governor in Council presumes that adequate security has been taken from the purchasers of crops for the payment of their purchases and that the above sums will with the exception of the disputed items be fully realized.

4. The mode prescribed by the Board in para 2 for the disposal of the crops, to the ryots on a careful estimate deems adopted as a general rule for ordinary years, but the making of an Estimate, unchecked by subsequent reaping of the produce, is open to much abuse and there can be no doubt that the proceeding adopted by the collector in the year under review, was the more prudent and safer course especially when from the unfavorableness of the season the scantiness of the crops rendered correct Estimate

Fort St. George 24th December 1846

Estimate a matter of difficulty—

5. Although it would serve no purpose of practical utility now that the Zemindary has passed from the authority of the Court of Wards to enquire into the subject still it would be useful to ascertain definitively whether the practice described by the Collector of allowing remission for all withered crops whether on Dry or wet lands, is peculiar to this Zemindary alone or prevails in other parts of the Madura District.

P.S. Rs. 10898–1–4 6. The large decrease in the item of Sooruadayem for July 1254 as contrasted with July 1253 should have been explained especially as in the latter year there was a deficiency of Rupees 5,402 below that of the one immediately preceding it.

Communicating observations and orders on the Boards Proceedings relative to the settlement of the Land Revenue in the District of Madura for Fusly 1254.

25

Extract from the Minutes of Consultation
Under date the 17th December 1846.
Read the following Extract from the Proceedings of the Board of Revenue.
Relative to the settlement of the Land Revenue in the District of Madura for Fusly 1254 — 1844-45. A.D.

Para 1. The season of Fusly 1254 in the Madura District is stated to have been unfavorable, so much so in the early part as to call for a special Report from

from the Principal Collector on the bad prospects of the year at a later period Rain fell in great and injurious excess. The Crops of both wet and dry land consequently extensively failed, Cultivation decreased in comparison with the year preceding and the result was the large net decrease of Revenue of 55,662 Rs compared with that of Fusly 1253 or of 69,899 Rs with the average of the five years preceding. The badness of season was not happily followed by more than an ordinary measure of disease. Emigration to Ceylon prevailed in consequence of the high Prices and scarcity of grain which obliged the Ryots to seek their supply of food in the neighbouring Districts. It is satisfactory to remark that notwithstanding the late unfavorable years the returns of population and agricultural stock present no symptoms of permanent injury to the resources of the District.

2. The Government are pleased at observing that the settlement accounts in the form of those in force in the Ceded Districts are being gradually introduced by Mr. Blackburne In the Fusly under reference they were extended to three Talooks. The original measurements of the lands having been entered in the Survey accounts according to the holding of each ryot and not according to fields and great variation in the size of these holdings

holdings have caused much difficulty in the recognition of the original boundaries In the determination of these Mr Blackburne found it necessary to make numerous corrections and adjustments. Lately assessed lands were raised adding thereby to the settlement Rs 1333—15—3 and lands irregularly held as Mauniem were brought to ayen to the Amount of Rupees 84-14- The reduction of assessment on overrated lands and the relinquishment of Ayen to Mauniem are left to be effected in the current Fusly 1255.

3.— Such alterations of the assessment as it has prevailed of late years obviously require to be carried out with the utmost caution and the Board have properly called on the Principal Collector for a detailed account of the Course he has pursued in making them & "of the grounds on which he has satisfied himself that they have been "effected in Conformity with the original "Surveys."

4.— In the 12 and 13 Paras of his report Mr Blackburne has stated his objections to the introduction of the cultivation agreements on which the Dittums are formed and the inapplicability of the System to Madura. It was to be expected that such

such rules would at first be unpopular - By them the security of the Revenue is increased and a Ryot is no longer enabled to hold free an indefinite quantity of land to the detriment of the interest of the state which another would be willing to cultivate. In reality the Ryot is simply called on to state what land he will hold and what he will relinquish and such a rule is necessary for the protection of his rights as well as for those of the Government.

The Proceedings of the Tahsildar and Village Officers as represented by Mr Blackburne and the case he refers to as having occurred in the Sub Collector's Division are examples of the abuse of the System and cannot be accepted as arguments against it - as justly observed by the Board." It should "be explained to the Ryots that at the "settlement they are entitled to remission for "any portions included in their agreements "which they may have been prevented by the "vicissitudes of season from bringing under "tillage. The Dittum in fact is the process "of forming the demand. The settlement "that of deciding on cases in which the engagements entered into at the Dittum have

"have failed of performance" and it might be added that it is in the power of the Collector to extend the grant of remission to cases where exclusive of vicissitude of season of peculiar circumstances may appear to him to call for it - The Governor in Council expects from the Principal Collector his cordial endeavours to carry out the views of the Board in this respect which entirely accord with those of the Government.

5.— The transfer of the settlement of the Pylany Hills from renting to Amany under taken by the Sub Collector Mr. Elliot without authority either from the Board or the Principal Collector was strongly objected to in the review by Government of the settlement Reports for Fusly 1253. For that year of a demand of Rs. 5877-4-4 only Rs. 370-15-4 were collected and a large balance was outstanding for the Fusly preceding. From the information afforded by the Sub Collector, it now appears that the Rents were abolished at the repeated solicitation of the Inhabitants who complained of the oppression and exaction of the Manadies and that the mode now adopted of assessing the lands perfectly accords with the wishes of the

the people, that with trifling exception the Rents have been collected which were in arrear for Fusles 1252 and 1253 and have been paid in full to the amount of Rs. 5263 for Fusly 1254 Under this explanation and on the recommendation of the Principal Collector the Government agree with the Board in allowing the present settlement to remain unchanged for three years and with reference to the remarks contained in the 16 Para of the Minutes of Consultation of the 14th August 1845 resolve to declare Mr. Blackburne and Mr. Elliot relieved from the censure on their conduct there recorded.

6— The re-imposition in the 55 Villages of the remissions given by Mr. Peter has in some cases obliged the Principal Collector to have recourse to the sale of land for which in only one Village was a purchaser found - Mr. Blackburne would seem from this and other reasons given to infer that the discontinuance of these remissions has had an injurious effect, he admits however that in other Villages none is visible. That resistance should be offered to the addition of the demand was by no means extraordinary and in the present

Fort St. George 24th December 1846.

present instances the Government do not perceive grounds for believing that the return to the fixed demand has afforded just cause of complaint. The Board they observe have called on the Collector for further information regarding these Villages which when obtained with the experience of another year will enable a more correct judgment to be formed.—

7.— Of the settlement amounting to Rupees 17,13,639 — 4 Rupees 16,26,453.7.7. were collected within the Fusly leaving a Balance at its close of Rupees 87,185.8.9 this up to August last was reduced to the small sum of Rupees 1802 — 4 —

From the Collector of Rajahmundry — } Sir,
Requesting permission

1. With reference to the — Extract from the Minutes of Consultation — dated

permission for the removal of the present Nail Sheristadar to the Office of Amildar of Polak

Ramachendrapoorum the amildar of that Talook to the Bickavolu Estate and conveying certain observation on the subject.—

dated the 11th April 1846 wherein it is declared to be a matter of the utmost importance to the well being of this District that the Sheristadars should be able men trained in the best manner and familiar with the revenue administration of unsettled Districts — and thereby I am authorized at once to — disburse from my Treasury to the Head Sheristadar a higher rate of allowances than he has hitherto enjoyed, I have the honor to submit that in order that the views of Government may be carried out it is necessary to provide for the appointment of another Nail Sheristadar. The present incumbent Digavelly Timmaraz is a — person who obtained, and deservedly I believe, a high Character for honesty as an Amildar. When Stock Charge of this Office I found him drawing Rupees 100 in the Talooks — of Amlapoor and giving great satisfaction by the manner in which — he discharged his duties. Vamavarapoo Venkatachellum / now Amildar of

Fort St. George 24th December 1816

of Mogultore was then Acting Head Sheristadar, as he did not at all fulfil my expectations and I could not find a man in this part of the Country of the requisite qualifications to occupy his place it appeared to be absolutely necessary to call in a man of good character and approved talent from another quarter I was fortunate in securing the services of Canhum Narasingaraw. As he and I were both strangers to the Country, it was desirable that he should have associated with him as Nail a person acquainted with the revenue affairs of this District and Digavelly Timmarauz having the credit of being more honest and equally efficient with any of the other amildars I selected him without hesitation. The benefits derived from the services of the Head Sheristadar are conspicuous. It remains that a Nail should be appointed equally well versed in revenue affairs Digavelly Timmarauz has only had the defective education which this Cutcherry affords He has not been an amildar elsewhere and is altogether unacquainted with the System prevailing in unsettled Districts. This is a sufficient reason for removing him from his present situation and I regret that it cannot be done without hurting his feelings. I propose to appoint him to be amildar of the large Talook of Colah Ramachendrapooram in which he will be charged with the collection of 168,840 Rd. per annum and will continue to draw the Salary which he now enjoys Viz.t Rupees 100.

Fort St. George 24th December 1816

The present amildar Vandravoo Chilmiah has shewn his inefficiency during the past year to a degree that calls for his removal to a lower office, and the Bicheavelo amildar Annagondy Nursiah has displayed the same want of energy and activity in the management of his Talook.

2. The Collections in Ramachendrapoore were so much neglected that I was obliged to send Digavelly Timmarauz the Nail Sheristadar to assist in realizing the Government demands.

The

Fort St. George 24th December 1816

The arrears also in the Amildar's office are heavy another delinquency is his failure to send in the Sangoolady accounts during the last four Months. Strict orders were issued requiring their transmission to the Huzzoor framed with great diligence and care every 30 years but the Amuldar appears to have taken no trouble to procure them. Being one of the old school he prefers leaving as little on record as possible which may throw light upon the real state of his Talook. In acting thus he has set himself in decided opposition to the system which I am endeavouring to enforce and therefore I propose that he shall be removed to the Bickavole Talook on a reduced salary of Rupees 60. In the Police Department he has shewn himself equally unfit for so large and important a charge as that which has been entrusted to him and it has been merely from the consideration that

Fort St. George 24th December 1816

that the revenue management of the Country might receive detriment from his sudden removal that the Head assistant Magistrate has abstained from recommending that measure. This circumstance he has communicated to me officially by inconsequence of his having found it necessary to provide for the more efficient management of the police of that Talook in another manner.

3. The Bickavole Amuldar has shewn himself unequal to the task of managing that unpoverished and troublesome Talook and I request permission to remove him to an inferior situation either in the Huzzoor or elsewhere.

4. With regard to the Office of

of Sub Sheristadar which if the Board concur in my suggestion will become vacant immediately I am making enquiries regarding a successor to Dewaully Sunnarauy and shall lose not a moment in reporting when I have found a fit person.

From the Coll.r of Rajahmundry.

Requesting permission to accept the security given by the zemindar of the Yallamanchely Estate for the payment of the arrears within three years and to make over the Mootah to him.

Sir,

Para.1 I have the honor to report with reference to the 5.th Para of my letter of the 7.th September last, that Cundoocoory Mullecarjuna Bhoopharrow the Zemindar of Yallamanchely having fallen into arrears to the amount of Rupees 6364-15-8 the Estate was attached in fasly 1254 (A.D. 1844/45) and the subject was reported to the Board on 28.th April 1845. The Mootah has been under attachment ever since that period. The present balance of arrears is Rupees 4998-2-9. The Zemindar now proposes to discharge this sum by three yearly instalments provided the Estate be released from attachment and made over to him. He has also tendered the security of two persons named Duntooloory Soondariah of Polavaram and Goodoory Appiah Duntooloo of Cuddaley, who have severally engaged in their Urzees to fulfil the agreement proposed by the Zemindar. As the former person is a female her security is inadmissible

madrissille. The latter Cordoory appiah being a respectable person and possessed of Inamums and other property to the amount of Rupees 2350. I think that he may be admitted as sole security. This Moostah was formerly presented to Mullecarjoona Bhoosharrow in consideration of his meritorious services to Government in Goomsur and I am informed that he has suffered great distress during the last three years since the Estate has been placed under attachment. Should the Board approve of the Zemindar's proposal for the payment of the arrears within three Years I request permission to accept the security abovementioned and to make over the Estate to the Zemindar.

2. The Moostah consists of 11 Villages bearing a permanent assessment of Rupees 12,000. The outturn for Fusly 1255 A.D. 1845/46 shows a surplus sum of Rupees 2237 as noted in the margin which was credited under arrears after deducting the salaries of the Establishment. It may therefore be presumed that if the Estate be made over to the Zemindar the arrears will be liquidated on the terms

outstanding against the Estate is Rupees 4998-2-9 which the Zemindar proposes to liquidate by three annual instalments on condition of the property being made over to him. It will further be seen that security has been tendered by the Zemindar for the punctual discharge of his engagement.

Under all the circumstances stated by the Collector and adverting to the services in reward of which the Zemindary was conferred upon the Proprietor the Board beg to recommend that authority may be granted for the release of the Estate from attachment and for its being made over to Mullecarjana Bhoopathi Row on the proposed conditions but with the distinct understanding that a failure on his part to act up to these terms will be followed by the immediate reattachment of the property.

Sir,

From the Collr. of Masulipatam.

Submitting report on the Settlement of Government Estates for Fusly 1255 in the Zillah of Masulipatam.

Para. I have the honor to submit my Report on the Settlement of the Government Estates in this District for Fusly 1255 / A.D. 1845/46. accompanied by the Statements enumerated below.

No. 1 Abstract Summinabundy Settlement.

	Grand Total	93241	12	5	117695	9	"	24453	12	1

3 It will be observed from the foregoing that there was an increase of Rupees 24453 12 1 in the Settlement of Fusly 1255 above that of the year preceding; which is rather attributable to the System of Management and the goodness of prices than to the abundance from the favorable nature of season, the effects of which I shall immediately explain.

4. The Season of Fusly 1255 was any thing but favorable either for Wet or Dry Lands;

lands. In the early part of the cultivating season Viz.t from June up to 11.th July the rains were partial, and from that period up to the end of August there was an entire failure. In September there was one or two heavy falls which were sufficient only to commence the Wet cultivation. In October very little rain fell, and again in November there was an entire failure, so that the progress of Wet cultivation was obstructed, even the black paddy Crops in some places perished in consequence; but in the Estates of Vinnacotah, Goodewadah and the Village of Hytapully, were means of irrigation from the Neetna were available, the wet lands did not suffer as in the Padanah Talook which is dependant on rain.

5. The dry lands in the Padanah Talook which stands first on the list, the Board are aware are under Quinquennial lease, the amount of which for Fusly under review was Rupees 3309, exceeding that of the preceding year by Rupees 855. To this is to be added Rupees 28 on account of Tax on Palmira Trees and Spontaneous

Chayroot not included in the rent which makes the total Rupees 3337 — — .

6. The wet lands in these Estates as already remarked suffered considerably from the failure of rain and the absence of any independent means of irrigation. The extent of Cultivation in Fusly 1255 was much below that of Fusly 1254 / A.D. 1844/45, arising from the above causes, and the Estimated out-turn on which the Settlement was founded subject to the further deduction, the particulars of which were reported in my letter dated 6th July last was 265 C. 7 S. 7 — 2½ showing a decrease of 190 C. 19 S. 4½ below Fusly 1254 / A.D. 1844/45 such being the case, there would have been a considerable decrease in the Revenue had it not been for the enhanced price of grain, which exceeded that of the preceding year by Rupees 5 — 3 — 3 per Candy, which nearly compensated for the deficiency in the quantity of produce as a comparison of grain Sist noted in the margin will shew. To that Sist Viz.t Rupees 1687 — 9 — 11. is to be added Rupees 351 — 11 — 10 on account of Ready money Collections, and Rupees 109 — 3 — 8 on account of Extra items, making a total of Rupees 2148 — 9 — 5. which is below

8. Of the said Settlement, the sum of Rupees 5240 — 15 — 11 was collected up to the end of September last and Rupees 52 — 8 — 10 subsequently. There is now a balance of Rupees 287 — — 8 which will be hereafter realized. Of the Inaamut Sist Viz.t Rupees 22 — 9 — — , the sum of Rupees 7 — 12 — 6 has been collected, leaving a balance of Rupees 15 — 12 — 6. which will be recovered hereafter. The Taccavy advances Rupees 269 have been recovered in full.

9. There was an arrear of Rupees 770 — 12 — 11 on account of the Settlement of former years, and Rupees 850 — 7 — 7 on account of Inaamut Sists, of which Rupees 405 — 9 — 9. and Rupees 84 — 5 — 9. have been realized respectively. a sum of Rupees — — 3 — 11 On account of the latter was collected up to the end of October, leaving balances still uncollected of Rupees 371 — 3 — 2 and 568 — 13 — 11 regarding

of the preceding year by 17 18 13½
This increase is not the result of the
goodness of the Season; but is owing
to the means of irrigation which the
Village posses from being situated on
the banks of the Hiatus. The price
of grain exceeded that of Fusly 1254 A.D. 1844/45
by Rupees 8 6 11; so that the Settlement
amounted to Rupees 2159 9 1. to which
the ready money Collections and sundry
items not included in the Settlement,
together with Extra revenue, amounting to
Rupees 91 1 5 being added, the total
Settlement was Rupees 2,250 10 6, which
exceeds that of Fusly 1254 A.D. 1844/45 by Rupees 1,022
2 9. Thus the demand on the wet and
dry lands above shewn amounted to
Rupees

Rupees 4,066 10 6 Of which the sum of
Rupees 4,008 11 2 was Collected before the
end of September and the small ba:

total of Rupees 30,966 14 1. Two Villages
Viz: Boosanagoolla and Boommooloor
are under permanent rents for

The total of the above items Rupees 43962-1-2, exceeds that of Fusly 1254 by Rupees 1638-2-5. Independently of the above, there are 49 Villages under Annamy; 15 of which are Inahajeas and Agrahareems held under various tenures, the Sist thereof being determined Annually with reference to the quantity of produce on a division of the produce or on Estimate as the case may be. The Settlement for the Fusly under review effected on the Estimated produce amounted to Rupees 4648-a 3 inclusive of the Zillahdars Jaferiek not included in the rent; and shews an increase of Rupees 1290-13-9, leaving 34 Sary Villages, the particulars of the Settlement of which I shall proceed to explain as follows.

favor of the Fusly under review.

15. There are two items, Viz.t Spontaneous Chayroot and tax on Jungle which have not been included in any of the foregoing items, and which for the Fusly under review amounted to Rupees 35, exhibiting an increase of 3 Rupees above that of Fusly 1254.

16. The aggregate Demand on the above enumerated items for Fusly 1255 A.D. 1845/46 amounted to Rupees 95007-14-11, exceeding that of Fusly 1254 by Rupees 16396-2-4. Of which the sum of Rupees 90552-7-1 was collected before the end of September, and Rupees 843-4-3 up to 31st October last, leaving a balance of Rupees 3888-3-7. These consist of Sundry sums due from each Village, for the Collection of which strict orders have been issued.

Regarding which the enquiries directed in Para 11 of the Board's Proceedings dated 10th August last will be instituted, which must necessarily occupy some time, and when this is completed the result thereof will be reported for the Board's information.

Padapandoo.

20. This Mootah, the Board are aware, now forms one of the Government Estates, on the Settlement of which I proceed to make a few observations. Of the Six Sary Villages composing this Estate, four were leased out to one G. Jagapatyroodoo, and two to the Villagers for a term of 4 Years Commencing with Fusly 1255 A.D. 1845/46 for the sum of Rupees 12521 as already reported to the Board. A high offer has since been received and accepted for the Village of Boorugagoodem at an annual sum of Rupees 262 exceeding that already reported by Rupees 11 per annum. This was owing to a Competition among the Villagers, and as the offer was received before the Cowle was issued it was deemed expedient to accept it subject to the Board's

24. It will be observed from the foregoing, that, except in Goodewadah and Polaty tippa, there was a decrease in all items, of Rupees 6,836—3—5. below the amount of Peishcush and the average collections owing principally to the badness of the season, tho

tho' in some degree the scantiness of produce was made up by the comparative increase in prices.

25. In Goodewadah the case is different not only the Estate possesses an improved means of irrigation, but in fusly 1255 the prices were good, compared with the preceding year as noticed in Para 14 of this report which have not only in a greater degree made up the deficiency consequent on the less quantity of the Circar share of the produce, but caused an excess above the Peishcush of Rupees 13728-14-11 as fact which is much in favor of the opinion expressed in Para 36 of my report on the Settlement of Government Estates for fusly 1254 that the fluctuation in the Revenue is dependent on the goodness of season and prices, tho' of course it is not to be denied that that fluctuation may be traceable to other causes as remarked by the Government.

The arrangement proposed relative to the 3d was submitted for the Board's orders under date 11th October last. The amount due on Nos 1 must be collected under

Fusly

Fusly, unless some arrangement be proposed by the Proprietors which is likely to meet the Board's approval, in which case it shall be submitted for orders.

39 The particulars of Arrears due on Minor and Fusly Estates, and the causes by which they still remain unpaid will be noticed in submitting the reports on the settlement of those Estates.

40 Having reported on the settlement

Fort St George 24th December 1846

settlement of the year, I beg to add in conclusion, that the lands of the Estates under consideration, except Kytapully have never been surveyed, which precludes the introduction of even an individual settlement as suggested by the Board, with any approximation to accuracy, and it is my intention therefore to propose an Establishment for the Survey of lands preparatory to the introduction of that settlement by which the interests of Government and Ryots will be pro= =moted and which will serve as a= preliminary to a formation of the= Ryotwar settlement.

Fort St George 24th December 1846

41 I take this opportunity of requesting to be favored with the Board's orders on the settlement of Kytapully reported upon by the late Collector in his letter dated 29th April 1841 to enable me to judge how far the principles of Survey on which that settlement was founded are approved of.

Sir

Para 1

On the receipt of the Board's Proceedings dated 2nd of April last I directed the suspension of the Native Survey except so far as the placing of boundary stones was incomplete. The two Sub Assistant Surveyors however Mr Barnett and Mr Chatelier have continued in the District testing the work performed by Surveying a certain number of fields in each Village except during a part of the time when prevented by illness or by weather. Mr Barnett has however since been admitted on the Pension Establishment and has been permitted to leave the District - Mr Chatelier having applied for promotion, the Surveyor = General of India has requested me to state whether his services can be tempo = =rarily dispensed with in order that his qualifications may be ascertained by employment

Reporting with reference to the Board's Proceedings of the 2nd April last that he has directed the suspension of the Native Survey and that of the two Surveyors who continued testing the work performed Mr Barnett has been permitted to leave the District and recommending that Mr Chatelier may be relieved from his present duty for reasons explained against urging the importance of a speedy disposal of the question of the Survey of the Guntoor District.

employment in that Department. I have therefore the honor to recommend that he be relieved from his present duty and his services replaced at the disposal of the Surveyor General.

2 I venture to take this opportunity of urging the importance of a speedy disposal of the question of the survey of this District. If it be not finally abandoned which I should be sorry to anticipate it is very desirable that the work should be resumed in the present Cool season.

The

The Plaintiffs state in their Plaint that their progenitor Bauagee built a hamlet in his name in the abovementioned Moondradoo appertaining to the jurisdiction of the Vafs= =reddy Zemeendar where he lived for some time and died, that their father and grand father together with themselves resided in the said hamlet and enclosed about 1 Coot= =chela of land around their house as a garden in which were planted Palmyra, Date and other kind of trees for their own use - that while they appropriated accordingly the Palmyra fruit and other produce of that garden, the Sirkar caused the Palmyra trees which the Plaintiff and others caused to be tapped for their own benefit, to be counted and from Fusly 1238 to 1249 levied a distinct tax of 1/4 of a rupee a year on each tree yielding toddy from the Plaintiffs and other owners of gardens without any interference whatever with the Abkarry rent - that the then Collector Mr. Goldingham issued an order to the Salt Tanahdar of Chinna Ganjam informing him that as the levying of tax in the aforesaid manner was Contrary to Clause first Section XVII Re= =gulation I of 1820 the practice of levying tax on such Palmyra trees was incorrect that the

the owners of private gardens were at liberty to have the trees of their own gardens tapped at their discretion and cost and to enjoy the produce - that in Fuslies 1250 and 1251 the said tax was cancelled. that in Fuslies 1249, 50 and 51 the first Defendant rented the Abkarry of the abovementioned Village and when a Complaint was instituted against the Defendants in No. 21 of 1843 in the late Auxiliary Court of the Zillah for the recovery of Rupees 31½ as tax for Fuslies 1250 and 1251 on some of the tapped trees in the Gardens round about the Plaintiffs houses Contrary to the Conditions of his Ejara Cowl where= =in it was stated that the renter had nothing to do with the private gardens and contrary to the said order and Regulation quoted, the Moofty Sudder Ameens Court examined the suit and passed a decree in the Plaintiffs favor rejecting the 1st. Defendants claim on the ground that the said private garden did not appear to come under the conditions of the 1st. Defendants Rent - that afterwards when the 1st. Defendant appealed to the Zillah Court in No. 26 of 1843 the Zillah Judge also confirmed the decision passed by the Moofty Sudder Ameen and the said

Garden

garden was enjoyed free of tax in Fustlies 1252 and 1253, that in Fusly 1254 the 1st Defendent rented the akkarry of that place and by some arrangement with the Sub renters the 2d 3d 4th 5th 6th 7th 8th 9th and 10th Defendants tapped the Palmyra and Date trees in the Plaintiffs own garden Caused 50 date and 25 Palmyra trees therein to be tapped and is enjoying the produce thereof himself and that consequently the Plaintiffs have to recover from the Defendents as follows.-

On account of 50 date trees tapped in the garden — 5 — 4

Do 25 Palmyra trees

10 — 0 — 0

Also 2500 Palmyra trees, 200 Date trees and 4 meny trees 6 Joobi trees total trees 2710 situated on 1 Coorchela of ground Comprising private garden of the following limits and valued at 140 Rupees.

East- Goondraven Koos stone boundary along the alleoy lahs' road.

South- The Muddamillas houses of the Pariahs hamlet all along.

West- High road to Muttapoody.

North- Talah Kooral Boochanahs Tank all along:-

That

That after this suit was presented against the said Defendants in the Moofty Sudder Ameens Court the Collector of this Zillah Caused a petition to be presented in that suit through the Government Vakeel in the Civil Court of this Zillah stating that a suit should be brought against him on the part of the Circar and that a Complaint against the other Defendants was incorrect- The Civil Judge then called up the suit in that number and referred it for trial to this Court with instructions that the Collector should be included as a Supplemental Defendant- a Supplemental arzee was accordingly received from the Plaintiffs and the Case brought to a hearing.-

The Supplemental Defendant stated in his answer that these plaintiffs have no private gardens in that Village that the depositions given by 1st and 2d Plaintiffs on the 6th 9th 10th and 24th September 1839 and other papers and by the accounts filed at the Jummahbundy time in Fusly 1210 during Mr. Collector. Reads management go to shew that the 1st and 2d Plaintiffs together with Totacoorah Nacroydoo and Gowny Vencatashen had

had 400 full grown trees deducted as Enam to them, from those counted in the above-mentioned hamlet, that whenever any of the Palmyra trees excluded or other trees were tapped for Toddy 4 Annas used to be levied for the Sircar that besides the 400 Trees excluded the remainder were usually Rented to the Abkarry Renter at 5½ Rupees per cent per Annum- that this is apparent by the depositions given in September 1839 by the 1st and 2d Plaintiffs and by those given by Totacoorah Naroydoo and Gowny Venkatada before the Salt Tanahdar of Nizampatam, as also by Yellapregadah Kristniah and Do. Kasavooroo Kurnums of that Village- Notwithstanding the Decree passed by the Moofty Sudder Ameen in No. 21 of 1843 instituted in the late Auxilary Court of Guntoor by the renter the 1st Defendant for the Recovery of the tax leviable for Fuslies 1250 and 51 yet as the nature of the tax was recoverable in the Revenue Department and made payable to the Defendants the Baspetlah Tanah Ameen sent for the Plaintiffs and others and made enquiry and reported on the 21st of February

February 1844 that it was apparent by the deposition given by Totacoora Naroydoo who admitted the contents of the deposition formerly given by him in the year 1839 before the Tanahdar of Nizempatam, that this 2d Plaintiff stated in writing during Mr. Reads management that a deduction of 100 Palmyra trees were usually made for each individual as Enam- that by the Accounts sent to the Huzzoor by the Ameen in Fuslies 1236 and 36,400 trees had been deducted as Enam to these Plaintiffs and others tho' no mention whatever was made as to where these were situated, neither do those accounts shew that the Plaintiffs have a private Palmyra garden. Moreover the Document called a "Venkay" list of the number of trees counted in Fusly 1230 shews that all the other trees with the exception of the 400 alluded to were included as Sircar trees- that as the Plaintiffs had no private garden in the aforesaid Village the order issued during the management of the late Collector Mr. Goldingham is applicable to people who have private gardens of their own but not to the Plaintiffs- that the omission

Fort St. George 24th December 1840

omission of the Plaintiffs in not having looked over the whole Record Connected with the Complaint instituted by 1st Defendant in the Moosfys Court for the recovery of tax for Fuslies 1250 and 1251 as to enable them to make a proper defence is of no avail for if the Sirkar themselves were to institute this suit, it would be of no Consequence to oust them in their claim and legal rights which they / the Government / have to those trees- that the Decree passed by the said Moosfy Sudder Ameen is not of much importance, the objections therein taken being trivial to the present Claim and that therefore the Plaintiffs suit should be annulled..

The 1st Defendant stated in his answer particulars similar to that in the answer presented by the Supplemental Defendant that these Plaintiffs have no private gardens that it was customary to deduct 400 Palmyra trees as Enam to plaintiffs and others without any spot being defined as to where they were situated but nothing else, and stated at length other particulars relative thereto-

Plaintiffs stated in their reply that

Fort St. George 24th December 1840

that they have a garden around their houses at Moondradoo which forms the subject of their present Claim to a private garden and besides this it was usual to deduct Separately from the Shary trees situated at Moondradoo 400 trees for the use of the Plaintiffs together with Totaccora Naroydoo and Gowny Vencatesa, that therefore that Subject has no interference whatever with the present Subject in dispute. Regarding a private garden the Plaintiffs Stated other particulars also in Corroboration of the State=ments alleged in their plaint..

The Supplemental Defendant stated in his rejoineder particulars in the same Strain as before regarding the Suit and alleged particulars which cancelled in toto the allegations of the Plaintiffs reply. The 1st Defendant having neglected to file a re=joinder, the same has been done away with under Clause Second Section VII Regulation XV of 1816 and the pleadings brought to a close..

The remaining 2d 3d 4th 5th 6th 7th 8th 9th & 10th Defendants having failed to attend before the Court and file an answer within the period prescribed in the Notice and Proclamation the Case was tried Ex parte against them according to Section III Reg. II of 1819

The Supplemental Defendant did not name any Witnesses.

The Supplemental Defendant caused a motion to be filed in this suit by the Government Vakeel stating that the Kifayets Wos presented by the Plaintiffs appear adequate Vouchers to substantiate the real facts of the case and that as he was of opinion that no other witnesses were necessary no application for them was made.- Moreover another motion having been presented wherein the Court were requested to depute an Ameen to have the spot claimed by these Plaintiffs measured ere a decree be passed and that Ackeraze Boochiah Sall Tanahdar of Nizampatam should be examined as a witness. an Ameen on behalf of the Court was consequently sent to measure the place which was done and a plan thereof obtained. No application having been made for the said Ackeraze Boochiah to be examined

as

Fort St. George 24th December 1840

as a witness he was not examined as such. All the documents filed in the record of this Suit having been read and considered the following Judgment is given.-

The material point in the Plaintiffs Claim is that their Ancestor and themselves caused Palmyra and other trees to be planted on one Cootchel of land Round their houses which they designated as their own private garden that while they were enjoying the same the 1st Defendant who is the Abkarry Renter improperly caused those Palmyra and other trees to be tapped apparently thro' the Connivance of the other Defendants and went away, that therefore they Sue for the recovery of 10 Rs. loss sustained and request that the garden situated within the limits described in the Plaint and valued at Rupees 140 may be made over to them.

The Supplemental Defendant urges that the Plaintiffs had no private garden of their own but that as these Plaintiffs with Tolaccoora Narroydoo and Gowney Vencatesen were the head Cassoodars of Moondradoo 400 full grown Palmyra fruit trees (without any specific Spot being defined as to where they are situated) were annually deducted nominally on their account and the other trees invariably included

Fort St. George 24th December 1840

included in the accounts as "Sery". The 1st Defendant also gave similar statement regarding it. The Court having perused the record of the Suit in No. 21 of 1843 on the file of the late Auxiliary Court instituted against the Plaintiffs by the 1st Defendant in this Number (the Abkarry Renter for Fuslies 1249-50 and 51 as described in the Plaint) also the record in Appeal Suit No. 20 of 1843 on the file of the present Guntoor Zillah Court instituted by the 1st Defendant relative to the Decree passed in that Suit find that the 1st Defendant who was the Renter in Fuslies 1250 and 1251 instituted the Suit against these Plaintiffs for the recovery of Rupees 31-6-- at 4 annas for each tree of the 120 which the Plaintiffs caused to be tapped during his lease. The Moofty Sudder Ameen investigated that Suit and decided in favor of the Defendants, who are Plaintiffs in the present number on the ground that it was apparent there are Palmyra trees both without and within the Enclosures of the houses belonging to these Plaintiffs who appear to have taken possession of and appropriated to their own use in various ways the leaves and fruit thereof by merely obtaining permission from the Sirkar for it: that they do not appear to have paid

paid any taxe &c. to the Sirkar for this and that there are orders also in the public records to this effect thus deciding the original Suit by dismissing that the decree passed by the Civil Judge in the appeal Suit preferred by the Plaintiff of the original number / the 1st Respondent in the present Suit / is to the effect "that as it was clearly apparent by witnesses and documentary evidence that the Palmyra trees alluded to were situated round about the houses and within the gardens of the Respondents in the original Suit (Plaintiffs in the present number) the trees could not therefore have been connected with those which the Appellant rented and that the Moofty Sudder Ameens decree was confirmed on these grounds.-

Altho' the supplemental Defendant in the present number was not included a party in the Suit above alluded to yet I find by the documents filed by the Defendant in the present Suit that they cannot in the least set the Subject in any other light than the view already taken of it for the accounts marked A, B, and C. filed on behalf of the supplemental Defendant clearly shew that in the years 1801-1826 and 1829 the Sirkar deducted 400 Palmyra trees of those around the houses

houses of these Plaintiffs Tolaccorah Narsydoo and Gowny Vencatasa as "Enam."

Further it is apparent by the Kifeyets marked Ex. V Ex. given before the Sircars ameen by the 1st and 3d Plaintiffs on the 9th of September 1839 that a complaint was preferred against these Plaintiffs for having cut leaves &c. from their own Enam trees but not from the Sery trees that their ancestors and they were allowed to plant trees along the ridge of their fields that during the management of Mr. John Reade Collector of this Zillah 200 of such trees as had previously yielded fruit were included in the accounts as Sery trees at the rate of 100 trees each that subsequently the trees yielding fruit having become numerous the Abkarry Renters said that they would allow only 200 trees at 100 each to be taken as Enam as defined in the accounts filed during Mr. Reade's management and would not permit the relinquishment for nothing of the other full grown trees, that these were then counted and a certain rate of taxe fixed that the Renters then stated that if they / the Plaintiffs / would but pay the taxe demanded they would not cause any of those trees bearing fruit or barren to be

tapped

Fort St. George 24th December 1846.

tassed for Toddy that in furtherance of this object the renters relinquished only the aforesaid 200 trees as Enams at 100 trees for each individual and levied tase on all the rest.

That sometime afterwards during Mr. Wilkes administration the Toddy men having arranged to draw Toddy from those trees, these Plaintiffs and others complained to the said Gentleman who issued an order to the then ameen, that since then the Toddy men refrained drawing Toddy from those trees and that whenever they (the 1st and 3d Plaintiffs) happened to get those trees tassed the sirkar generally levied a distinct tase of 4 annas on each tree and never included it in the accounts of the adkarry Renters.

It is shewn by the Hefeyets marked D & B given before the Ameen by these two men Potacorra Naraydoo and Gowny Venkatasa who enjoyed from the time of Mr. Reades management, 100 trees each in Common with these Plaintiffs that they spoke in similar strains as stated by the Plaintiffs in their Hefeyets that therefore they appear to admit the truth of the circumstances of the 1st and 3d Plaintiffs having

Fort St. George 24th December 1846.

having enjoyed 200 full grown trees of those around their houses and along the banks of their fields up to the year 1839 and of Potacoora Naraydoo and Gowny Venkatasen having enjoyed 200 full grown fruit trees. It is apparent by the Hefeyet marked H given by the Moondradoo Kurnums Yellapragadah Krishnah and Dr. Kasanaloo before the said Ameen Guttoo putty atchiah during the examination that the 1st and 3d Plaintiffs together with Potacoora Naraydoo and Gowny Venkatasen 4 in number planted of their own accord as did their fathers Palmyra plants round their houses and along the embankment of their fields that these continue in their possession and were never tassed by any of the Toddy drawers.

That in Fasly 1210 when the double was fixed by Mr. J. Reade Collector who settled the items of Revenue from all sources he caused 400 trees the only number which were full grown that years of those at Moondradoo to be deducted in Common with the Course pursued regarding private gardens. Subsequently the adkarry rent having been given separately the said renters deducted only 400 trees

and

and fixed a tax more or less on the remaining trees and allowed each to enjoy the benefits of such trees as belonged to them respectively.

During the Wishes Management these Plaintiffs and others presented an arzee about certain Toddy gatherers having endeavoured to tap such of these full grown trees as they thought would answer the purpose when an order was issued to the Renters not to tap contrary to the usual practice, trees situated in private gardens that those trees have never been tapped to this time, and that whenever any of the Mourners had any of these trees tapped for their own use the Sirkar had them counted distinct from those belonging to the Sirkar Renter, and generally collected a tax of 4 annas on each tree which they called "alliya" or scattered trees. thus did they state in their Hiseyets.

These particulars corroborate with the statements made by the 1st and 3d Plaintiffs, also those given by Tatacoora Narayadoo and Gowny Venatasen before the aforesaid Ameen viz the Hiseyets marked **DEFVB** the contents of which do not vary consequently it is clear that the 1st and 3d Plaintiffs enjoyed up to the year 1839-200 Palmyra trees of those situated round the Plain:

Plaintiffs houses &c. and along the banks of their fields proximate thereto and that these two even Tatacoora Narayadoo and Gowny Venatasen also enjoyed 200 of those trees thereupon under all the circumstances stated above it is my opinion that the decree passed by the said Moosty Sudr Ameen who established the Plaintiffs right to the trees situated around their houses and which was confirmed by the Civil Judge finally in the appeal suit before him, tallies in to to without any disparity-

The Plaintiffs in the present suit having named as witnesses Yellapragada Kristniah and Kasavoolo Kummum of the said Village they were sent for and when examined gave evidence to the effect that the Plaintiffs have around their houses a private garden to the extent of one cutchel as per limits described in their Plaint, that the said one Cutchel of land comprising the garden is included in the three Cutchels of land deducted as the grama Cantum or Village site allotted for building houses on, and does not appear to be entered as a separate garden in the Sirkar accounts that no tax was levied on that garden by the Sirkar up to Fusly 1238 that from Fusly 1239 to 1249 the Sirkar collected

a

Fort St. George 24th December 1846

a tase of 4 annas on eacls of such trees as the Plaintiffs and others caused to be tapped and Collected the amount distinct from that of the abkary rent that subsequently during Mr. Goldingham's administration an order was issued prohibiting the Collection of such tases that besides the garden which the Plaintiffs have around their houses it was usual every year to deduct as Enam for account of these now 400 full ground trees of those belonging to the sirkar situated at Dindy and that the Rifeyet marked H was written regarding the Palmyra trees deducted at Dindy but not about the trees situated round the houses of the Plaintiffs and others. Thus did they give evidence just as they pleased whereby they stated other detailed particulars.

On perusing and taking into consideration the above evidence together with the Documents marked A B & H which these Kurnums filed into the sirkar under the Authority of the Collector, it is Evident without a shadow of doubt that these men have given false evidence before this Court, in as much as they with the view of obtaining the good will of the Plaintiffs have

not

Fort St. George 24th December 1846

not only deposed to the Plaintiffs having a garden of Palmyra trees close to their houses but have without restraint presumed to make it appear that the Plaintiffs have a right by usage to 400 "very" sirkar trees situated at Dindy. No other Construction can be placed on their evidence.

There is nothing to shew that these Curnums stated in the accounts &c. heretofore filed into sirkar under the authority of the Collector or in their Rifeyets &c. that there was a private garden of Date or other trees close to the houses situated within the limits of the Village site or that it was usual for the sirkar to deduct separately 400 full ground trees as Enam out of the very trees at Dindy.

They appear to have stated clearly in the accounts &c. that it was usual to deduct as Enam to the Plaintiffs 400 full ground trees of those situated around each of their houses they could not have meant any thing else for it is shewn that the sirkars management of the same is Consonant to the opinion expressed and that therefore the evidence given by those Kurnums before this Court is unworthy of Credit.

Plaintiffs stated that they are in possession and in the enjoyment of a

private

Fort St. George 24th December 1846

private garden to the extent of one Cootchel of land according to the limits given in their Complaint but the supplemental Defendant caused the Government Vakeel to present a petition to the effect that the land situated within the said limits appeared to be more than the quantity specified that the Court should do well to send an Ameen on their behalf to have the same measured; and that due investigation should be made after obtaining such a document. the Court accordingly deputed an Ameen who had the spot measured and brought with him the accounts &c thereof, together with a plan which he filed in Court with his own report about it. It is apparent by the aforesaid Ameens report &c that the Plaintiffs pointed out other limits than those defined in their plaint and declared that these were really the same which they alleged in their Plaint that the Defendants declared positively that these were not the limits given by the Plaintiffs in their Plaint which are situated differently and then pointed out other limits. That on having the lands situated in the limits described by these Plaintiffs, measured, it was found to consist of 4 Cotchels 5 Veesums and odds. that there are 3653 Palmyras and

Fort St. George 24th December 1846

and other trees therein. that the spot shewn by the Defendants is to the extent of 14 Cootchels 9 Veesums odd within the limits described and in which there are 8632 Palmyra and other trees and that some Cultivation is known to exist within the limits given by the Plaintiffs. It is shewn that there is an excess of 3 Cootchels 5 Veesums odds of land above the one Cutchel specified by them in the Plaint and that pointed out by these Plaintiffs, that there are also above 1000 trees more than the number given, and that hence there is great discrepancy in the extent of land stated in the Plaint and the number of trees, as Compared with the extent of land found by the Ameens measurement and his account of the number of trees. The Court moreover Caused the ameen to measure one Cutchel of land round the houses of these Plaintiffs and on having the account, Plans &c thereof brought and inspected, found that there are 1229 Palmyras therein, and that there are 1481 trees less than the number stated in the Plaint. The Plaintiffs' claim is therefore shewn to be wrong even by the report of the Ameen deputed by the Court. However as it is not only apparent by the

Sir Ears

Fort St. George 24th December 1846

Sirkars accounts marked A B & C that the Sirkar usually deducted on account of an Enam to those Plaintiffs 200 Palmyra trees of those situated around the houses of these Plaintiffs, and that these alone were enjoyed by them, but by the Kifeyets marked E & E given voluntarily by the 1st and 3d Plaintiffs before the amen in which they admit the same, that the Plaintiffs have no right whatever to the remaining trees yea after deducting the aforesaid 400 alluded to, as situ=ated within the limits described by the Plaintiffs.

The other documents presented by the supplemental Defendant appear to be such as were prepared for the garden situated around the said houses, after this suit was commenced and that as the Kifeyets therein given as documentary evidence do not appear to have been taken on oath, they are not of the least utility in this suit, and granting them at length in the decree connected with this suit will cause it to appear voluminous

Consequently under the cogent reasons given above it is decreed that as stated by the supplemental Defendant the Plaintiffs appear entitled to participate in the enjoyment of only 200 full grown Palmyra

trees

Fort St. George 24th December 1846

trees (without any spot being specified as to where they are situated) out of those reported by the ameen of the Court as having been pointed out to him in the following limits viz.

East- From alleboylahs water course direct to the 3 Palmyra trees situated in the centre of the field belonging to Jillamullys son Daraya-

South- From the aforesaid 3 Palmyra trees to the road leading to Chinna Muthapaly after passing along the houses of the Pundi people.

West- From the said road to the felled Jumbulen tree situated on the bank of Sataccara Pachannahs tanke.

North- From the said tree to alleboylahs watercourse, after passing along the range of saplings belonging to Gowny Venkiah's limits, but that the right to the other trees must rest with the Sircar. that the supplemental Defendant should not render any hindrance to the Plaintiffs as to precludo them enjoying the aforesaid 200 trees as "Enam" and that as the Plaintiffs appear to have brought a frandu=lent and litigious suit, it is ordered that they shall pay all costs incurred in the Court.

Plaintiffs - Appellants.	Defendants Respondents.

	Supplemental Defendant
	H. Stokes Esqre. Collr. of Guntoor.

The Plaintiffs, now Appellants, in their plaint, stated that their ancestors Bauvajee built a small village attached to the Village of Moondradoo in the Vasereddy Zamindary. The Plaintiffs' grand father and they themselves now live in the village. One Coochela of land round this Village was planted with

with palmira and date trees, from which the Plaintiffs drew toddy from fusly 1248 to 1249, the Collecton collected the tax on those trees, since fusly 1250 no tax was collected. The 1st Defendant rented the arrack from 1249 to 1251 both inclusive, the 1st Defendant sued the Plaintiffs in No. 21 of 1843 on the file of the late auxiliary Court for the tax due on these trees for 1250 and 1251 fusles. the claim was dismissed by Sudr Ameen Moofty and the decree was confirmed in A. S. No. 26 of 1843 in fusly 1254 the 1st Defendant again rented the arrack, and the Defendants from 2 to 10 who are his renters drew toddy from these trees.

The Plaintiffs therefore sue to recover from the Defendants Rupees 10 being the value of the toddy.

The 1st Defendant and the supplemental defendant the Collecton in their answer state that the Plaintiffs have no private gardens in the above Village; that 400 Palmira trees were allowed to the Plaintiffs and others as Enam, but that the tax was paid on all the other trees that the order issued in 1250 fusly did not affect the Plaintiffs, because that order,

order referred to only those who had private gardens, which the Plaintiffs have not.

The 2nd to 10th Defendants not having appeared to file answer, this Cause was ordered to be tried exparte on their behalf.

The Principal Sudr Ameen in his Decree states, that the Original Suit No. 21 of 1843 and the Appeal Suit No. 26 of 1843 merely decreed, that the trees the tax on which was there claimed, were situated in the yard and round the houses of the Defendants, Plaintiffs in this Case, and therefore that no tax was due on them, that the supplemental Defendant in this Suit has stated in his answer that the Plaintiffs and others have 400 trees allowed them as Enam and there is a tax paid on all the other trees. this fact is supported by the Documents produced, that an Ameen was sent to examine the ground and make a plan. that by this plan and report of the Ameen it is shewn that there are many more than 400 trees within that space in which the Plaintiffs assert the trees are exempt from tax. The Principal Sudr Ameen therefore decreed that within the boundaries pointed out the Defendants to the Ameen. The Plaintiffs shall enjoy 200 female trees,

that

Jaffna 5th George 24th December 1846

that all the other trees the Circar have right to; that Plaintiffs pay all Costs in this suit.

The Plaintiffs being dissatisfied with this decree appealed therefrom.

In their appeal Petition they state that the depositions given by the 1st and 2nd appellants in 1839 and the Fiyfeyets of the Curiannes have reference to the trees at Dindu and not to those at Baanjeepolleny, that these depositions and Fiyfeyets were not given on Oath and therefore cannot be received as evidence; that the land on which the trees stand is not more than Coochellah; that it is not for the land but for the trees that they are suing.

The Civil Judge having taken into consideration the proceedings in this case passes Judgment thereon.

The appellants say that the depositions given by the 1st and 2nd Appellants in 1839 referred to trees at Dindu, this is not the fact; for in these Depositions & and F it is stated, the trees in our Village which our ancestors and we planted. In the Fiyfeyets given by the Curiannes in 1839 they say we are called on to state what we know regarding the trees in our Village

Jaffna 5th George 24th December 1846

Village of Mundradoo. In both these Documents it is evident that the appellants have only 200 trees. The Civil Judge being of opinion that the decree of the Principal Sudr Ammen is just and proper, confirms it and decrees that appellants pay all Costs in appeal.

It is resolved that no private adjustment of this Decree shall be allowed or deemed valid unless the terms of such adjustment shall have been previously and reciprocally declared by all the parties interested therein and made a record of Court with their unanimous Consent.

Proceedings under date the 10th September 1846 requiring me to explain the practice in my District in respect to the enjoyment of the produce of trees in waste land when an offer may be made for the cultivation of the land in which the trees are growing I have the honor to state for the information of the Board that formerly it was the practice to levy tax on scattered trees in putcut lands which was subsequently discontinued agreeably to orders from the Board, and the Ryots allowed to enjoy the produce of trees in their putcut lands / cocoanut trees excepted / agreeably to the provisions contained in the 25th rule of the Hookumnamah. Some trees of this description are rented out owing to the lands on which they are situated being left waste for a long time - In some cases where the waste are taken up for Cultivation the Renters of the trees do not agree to give them up to the Putcutdars in consequence of having been in the enjoyment of them for a series of years, in such cases they are directed to pay the tax on trees to the Puttadars of the land in all cases in which the tax does not exceed one fifth of the assessment of the land on which

that as a general rule, on a dircast being made by a ryot to cultivate waste Lands containing trees held on puttah by another party, the pattahdar of the trees should be allowed the option of taking the land for cultivation, the trees in such case if their Teerwah be within one fifth of the land assessment being continued to him free. If he decline, the land and trees should be made over to the new applicant on the same terms - In the present Case this has not been done but as the order of the Collector, whereby the holder of the trees has been directed to pay the assessment to the Cultivator of the land, is stated to be in accordance with the practice of the district, the Board will not

Sir,

With reference to your letter of the 3d Instant relative to a Lease to be granted to Messrs Ouchterlony Fischer and Cadenhead for certain lands on the Shervaroy Hills. I have the honor to forward Copy of my letter to the Civil Engineer on the subject with his reply and to state that the Sahildar of

of Salem has since measured the said lands and reports that it contains acres 213-4-8. and that on applying to Mr. Cadenhead to be present to see the lands measured that Gentleman requested him to wait until Messrs Ouchterlony and Fischer should return to Salem from Madura, which is the cause of the delay in submitting a Draft of the lease and Counterpart to be given to, and taken from Messrs Onchterlony & Co.

Sir

With reference to your letter of 12th July 1845 I beg to annex a list shewing the Classes of Public servants who furnish Security in this District with the amount given by the individuals of each Class and as the registry of the Security renders it very difficult for those of small salary to obtain security owing to the disinclination of persons living at a distance to take a journey to the Court for the purpose, I beg to know whether it may not be in some instances dispensed with and if registry is deemed indispensable, whether the Security itself may not be discontinued in regard to some of the Servants

3. The aggregate demand for the year under review amounted to Rupees 7,403-1-4 Collections within the Fusly were 5,840-12- leaving a balance of 1562-5-4 which was reduced by subsequent recoveries to the end of November last to Rupees 238-11-2 of this sum Rupees 227-5-3 are due on lands in the occupancy of the Minor as stated in my letter to this Court dated 27th October 1846- the amount due by the Ryots being very trifling Viz 11-5-4

4. Statement No 3 will exhibit that the Surplus Collections now in deposit to the Credit of the Estate amounts to Rupees 16,708-10-7.

5. The Guardian of the Minor took it upon herself to dispose of an Elephant belonging to the Poliput for a sum of 4,000 Rupees without previous permission- a proceeding opposed in my opinion, to Section XII Regulation V of 1804. this sum has not as yet been remitted
