Pro 20th July para 5.

Order thereon 17-18

Ordered to be sent again in Consultation.
Read the following letter.

To J. Pycroft Esquire
Secretary to the Board of Revenue
Fort St. George

19

Sir,

From the Collector of Guntoor - - - Para 1. I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board dated 21st May 1846 on my report of the Settlement for 1254. together with the subsequent Extract dated 20th Ultimo transmitting Minutes of Consultation of Government under date the 26th of June on the same subject.

2. Before supplying the required information on the settlement of 1254. — I beg to point out that the explanation called for by the Board and Government, in reviewing the settlement of Fusly 1252, which the Government in Para 10. suppose to have not yet been furnished and which the Board request may be expedited, has already been supplied in Mr. White's letter of the 10th of October 1845. and in mine of the 18th April last, to which I beg to refer —

3. The first point which the Board notice in the Settlement of 1254 is the extension of

Fort St. George 4th January 1847.

of the Rayetwary mode of settlement to those villages which, at present, are under renting or sharing tenures. Accordingly since the receipt of the Boards instructions no Villages have been rented, with the exception of those in the Koorapaud Tanah, the peculiar Circumstances of which render it expedient to continue this mode of Settlement for the present - Nearly the whole of this Tanah having been for some time under rent, the terms of which in many Villages extend beyond the present year, the retaining of some villages under annual would be liable to cause loss - The original rates of thist have been greatly reduced and an attempt to restore them would drive the Rayets to other rented villages -

4. The reason why villages previously settled Rayetwary were given on rent in Fuslies 1253 and 1254 was, from the desire of carrying out the instructions contained in the Boards' Proceedings of the 21st November 1842 which seemed the more suitable under the pressure of the time when there was unavoidably so general a

Para 4.

Fort St. George 4th January 1847.

a desire to relinquish lands in such Villages.

5. The granting of Villages on lease for two or three years renewable after that period according to circumstances has been found the most effectual way of extending Cultivation and thus restoring the Beriz of decayed villages to their former standard, but in every other point of view and especially for the purpose of protecting individual rights, the Rayetwary system seems far to be preferred -

6. In para 10 the Board observe that the Settlement of the Zemindaries is little more than half what the country was supposed capable of yielding, when the permanent settlement was made. The Board however are aware, that the depopulation of the Country by the famine of 1833 and its consequence rendered that standard inapplicable and that the recovery of the District, necessarily gradual, was violently checked by the long and disastrous depression of the agricultural market during three successive years.

7. In para 14 the Board comment upon the Statement Shewing the particulars of the

* No 27 of the appendix.

the relinquishment and occupation of lands in the Palnaud - They question the fidelity of these accounts, exhibiting the anomaly of an extensive relinquishment of land from the pressure of the times, simultaneously with a considerable occupation of new lands by new Settlers -

8 As mentioned in my report I endeavoured to test the accuracy of these accounts as regards the total abandonment of farms by taking Asmiveis or individual lists, and sending for some of the Rayets named in them; who as well as their neighbours, were questioned closely in my Cutcherry, and in no case was any falsehood detected. There being no restriction on the alteration of farms the Rayets largely avail themselves of the liberty to throw up fields that have been impoverished from a succession of Crops; and take fallow fields instead -

9 It is extremely difficult to trace out all the causes which influence these transactions - With respect to the new farms it is to be observed that this process may be continually going on from various causes which do not necessarily imply

imply that the times are profitable - Family property is divided among different brothers whose names newly appear in the accounts - Grown up sons in their fathers life time, occupy new lands in their own name - It is not meant that the lands taken were taken up by new settlers, or strangers, but only by persons whose names did not appear before in the accounts - The present active and vigilant Ameen has reported the prevalence of the practice of persons, who chiefly subsist by their herds and flocks occupying small farms; in order to benefit by the exemption from Poollary allowed to those who cultivate - It does not appear easy to check such practices without rendering the System more stringent than at present and this is not desirable - If we can only secure the exhibition in our accounts of the full extent of land in bonâ fide Cultivated - this seems all upon which stress need be laid - This I hope will be facilitated when the measures proposed in my letter of the 18th April have been matured -

10 The Palnaud balances are next noticed by

*Rec: 21st May
Paras - 17-18 -

† M.O. 26th June para 7 — by the Board and also by Government. The Examination into the balances on sery lands, was made to a considerable extent under my orders in the Huzzoor Cutcherry, while I was in the Palnaud and afterwards the Ameen was directed to complete it. The result has been that, of the amount recoverable Rupees 3315-12-3. has been collected. The hopeless arrears will be recommended for remission on the completion of accounts which are under preparation.

11. With respect to the balances of Quit rent on Enams Mr. Goldingham furnished the Board in his report for Fusly 1249 dated 21st November 1840 with such information as is forthcoming together with his own views on the subject. In anticipation of the Boards final orders on the subject nothing has been done since, except to urge their collection. To me it appears that if the lands held on quit rent yield no profit on cultivation, which is commonly the ostensible plea for leaving them waste, there would be no hardship in enforcing the law by bringing them to sale, and where the balances on them were not realized buying them

† para 102

them in an account of Government, and thus by a simple and unobjectionable process getting rid of the Enam tenure. They can then be assessed on a par with equivalent lands to which they may be contiguous. I accordingly beg to recommend that I may be empowered to advertise them for sale.

12. In paras 19 to 22 the Board point out certain discrepancies in the accounts forwarded with the report.

13. Of these the first is in the accounts of Garden assessment. In Statement No. 8 there is no heading for the Separate divisions "on Puttah and Amany". The amount entered in it includes Rupees 2-7-6 of Amany Gardens.

In the next item, in the extent of land for the Jungada Purgannah, a mistake was committed by the Talook Goomastah, of 19 acres, which tho' observed on examination and marked in the rough Copy escaped notice in the fair Copy.

14. The error in the calculation of remission on waste land of the Datchapully Talook, entered in Column 42 which the Board point out in the 22nd para appears I regret to say the result of wilful fabrication

Fort St. George 4th January 1847.

fabrication by the Goomastah who prepared it, to save himself trouble as the total, which he must have copied from another account Comes right. The Office Copy will be corrected, and I beg that the requisite correction may be made in the fair copy.

15. The extension of irrigation regarding which the Government convey their orders in para 8 has been completed so far as the project has been sanctioned, that is to say the Toongabhadra channel has been connected with the Tanks of Coomanore Appicutta, Nundoor Poondlah, Bapettah and Sandole, all of which have already in the present season been filled. The Civil Engineer will be consulted upon the requisite plans for further projects as directed.

16. The Board's instructions regarding the forms of statement to be used in reporting on the Settlement of as Fusly 1256 will be duly attended to.

Guntoor Collectors Cutcherry 6th August 1846

/Signed/ H. Stokes.
Collector

The

312. Fort St. George 4th January 1847.

Proceedings thereon. Para 1. The explanation called for relative to the Settlement of Fusly 1252 A.D. 1842-43 noticed in Para 2 of the letter recorded at the Head of these Proceedings was submitted to Government under date 16th November 1846. The letter from the Collector of Guntoor dated 18th April 1846 relative to the Survey and Settlement of Palnaud will be noticed separately.

Recording observations on a letter from the Coll. of Guntoor furnishing the explanation called for in the Board's Proceedings on the Settlement of that district for Fusly 1254. (Read 14th July 1846)

Para. 3 & 9. 2. The explanations furnished in these Paras relation to the adoption of the renting system in certain cases and to the relinquishment and occupation of Lands in the Palnaud do not call for particular remark. It is seen that in many instances where new land is occupied it does not strictly come under the meaning of new Farms. There being no restriction in the alteration of Farms "the Ryots largely avail themselves of the liberty to throw up fields that have been impoverished from a succession of Crops, and take fallow fields instead." The Board are of opinion however that the Collector should satisfy himself that the Ryots do not abuse the liberty thus granted

19-20

granted to them and that in exchanging their lands on the plea of improvement they are not allowed any unfair advantage over their poorer neighbours so as to discourage their industry and to injure the Revenue. other cases of occupation of fresh lands, the not strictly by new settlers or strangers are also adduced by Mr. Stokes. In regard to the observations of the Collector relative to the deteriorated condition of the Revenue as exhibited in the results of Fusly 1254 A.D. 1844-45 it is sufficient to observe that the Report of the Commissioner abundantly shews that the Famine of 1833 and the depressed state of the Markets during three successive years would not alone account for the fall of the Revenue of the District being about one half of what it was supposed to be capable of yielding when the permanent assessment was formed Improved prospects are now held out by the removal of abuses, and the introduction of

of an uniform system of management.

Para 10 3. The Board await the Report of the Collector on the outstanding Balances in the Talluk.

Para 11-12 4. The propositions of the Collector for the disposal by public sale of Enams, on which the Quit rent may not be realized, does not appear to be necessary. The Enams referred to fall chiefly under the denomination of Charitable grants as defined by Regulation IX of 1831 and the proper Course in cases of default will be their resumption, with the permission of Government and incorporation with lands paying full revenue, the assessment being fixed with reference to equivalent lands to which they may be contiguous. These orders do not apply to service and Cuttoobady Enams. The Board will be glad to hear further from Mr. Stokes how these should be treated with reference to the remarks of the Collector in his Report on the Settlement for Fasly 1249 A.D. 1839-40

Dated 21st in Cons. 30th Nov. 1840 Para 125

Para 14 5. The error in the calculation of

of Remission on waste lands held on Cowle will be rectified in the fair Copy of the accounts received from the Collectors Office.

Statement No. 6.

Read the following letter

To J. Sycroft Esqre.

Secretary to the
Board of Revenue
Fort St. George

Sir,

From J. H. Cochrane Esqre. Collr. of Cuddapah — Para 1

Adverting to Extract from the Proceedings of the Board of Revenue under date the 7th December 1846 requiring with reference to my letter dated 12th Ultimo further explanation in respect to the Nature of the Misconduct on the part of the late Tahsildar of Coilcountlah which has rendered his removal necessary, I have the honor to state that the Sheristadar of another Taluk was appointed to act for him during his captivity in the hands of the Rebels, and that he was removed from his Head of Office pending the result of Enquiries as I was of opinion that his unpopularity was in a great measure the Cause of the Poligar having been able so readily to Collect so large

(21)

Affording the information called for respecting the nature of the misconduct on the part of the late Tahsildar of Coilcountlah

large a body of followers which clearly shewed that disaffection was widely spread throughout his Taluk. Matters having since transpired to prove that instead of attempting to save the Taluk Treasury as was his duty by making a stand and Collecting his Peons and Cuttoobadies, which if he had done the rising at the time would have been most probably quelled, he absconded and hid himself, leaving the Treasury to take care of itself though not without having three days previously taken care to secure his own money by removing it from the Chests which were in the Treasury where he kept it, and filling them with stones.-

2. As it appeared very probable that the Court of Foujdaree Adalut under all circumstances would not sanction his reappointment I proposed with the permission of the Board of Revenue to appoint their Deputy Sheristadar pending the result of enquiries by the Special Commissioner as to the causes proximate and remote which

which led to the outbreak and to the disaffection confined as it was to the Talooks of Coilcoontlah.

Cuddapah District
Coll.rs Circuit Office
Coilcoontlah 14th Dec.r 1846. } J. H. Cochrane
Asst. Coll.r

Resolution thereon. Under the explanation furnished in the above letter, the Board of Revenue sanction the removal of the late Coilcoontlah Sasildar from his Office, and the appointment of Vencata Row to act in his room pending the result of the Enquiries now in Course of prosecution by the Special Commissioner. Vencata Row's situation of Deputy Sheristadar in the Board Cannot however be kept open for him, and he is therefore required, on the receipt of this order at Cuddapah, to forward thro' the Act.g Coll.r his resignation of that appointment; or if he is not prepared to do this, he must rejoin the Board without delay.

From C.C. Lovell Esq.re
A. Coll.r of Northarcot

I have the honor to acknowledge the receipt of your letter dated 14th Inst.t forwarding for my Early report an Arzee from the Zemindar of Canchungur Complaining of certain Curnums having been summoned to attend before the Police Ameen of the Narrainswarum Division with a view to the prosecution of an Enquiry into some charges of alleged over collection. In reply I beg to say that it was not for the above purpose that the Curnums would appear to have been summoned by the Ameen, But while the Estate was under attachment from the years 1842 to 1845 a sum of Rupees 592. 3. 3 as.p accumulated as over-Collections which remains in deposit in my Treasury. I had therefore directed accounts to be prepared for the distribution of this sum to the parties from whom it was Collected. A Complaint was received from the Zemindar

* Herewith returned.

23

on

319 Fort St. George 4th January 1847.

on the 11th Instant on the subject of the detention of his Carnums and a reply was sent to him on the 13th and at the same time instructions to the Ameen precisely in accordance with the Boards Orders namely "that the attendance of the Carnums" for the disposal of the above trifling matter" should not be required "when it would be likely to be productive "of Embarrassment to the Proprietor". The Zemindar was not justified in troubling the Board on the subject without first awaiting my reply to his Complaint.

North Arcot — Coll.rs Circuit Cutcherry — By reddy patty — 16th November 1846. — } Signed / C. C. Lovell

Order thereon. Ordered that the following Endorsement be passed upon the Zemindars Urzee received from Mr. Sano 11th inst. viz. Dt. Cont. 16th Nov.r 1846.

"The Board of Revenue have referred to the acting Coll.r of North Arcot on the subject of this Urzee, and they have been informed by that Officer, that on representation being made to him by the Petitioner regarding the detention of the Carnums of his Estate at the Narrainaw-rum Cutcherry, orders were sent to the Ameen directing that the attendance of the Carnums should not be required at times when their absence from their Villages would be productive of inconvenience to the Zemindar."

To

23-24

37.

320 Fort St. George 4th January 1847

To T. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

Sir,

25

From the Acting Coll.r of North Arcot forwarding a letter from Mr. Groves affording the further explanation regarding his land under the River Channel which supplies his tank Vide Dated 14th October 1846.

Para 1. I have the honor to acknowledge the receipt of your letter dated 8th Ultimo and to forward a letter from Mr. A. N. Groves affording the further explanation required by the Board regarding his land under the River Channel which supplies his tank —

2. I have the honor also to submit the Statement called for by the Board "shewing "the extent of land now held by Mr. Groves "under the Channel its present assessment "according to the District Accounts and the "Amount which Mr. Groves would have to "pay for it in the event of his present propo-"sal being complied with"

3. As regards the grant of a Cowle for the land for a certain limited term of years, the Board having been pleased to desire me to state my opinion on the subject — I beg leave to say that I see no reasons in favor of such an arrangement, but on the other hand it seems to me open to considerable objections — If the object be only to satisfy Mr. Groves it will not answer that purpose as will be seen from his letter, since he does not assent to the measure —

But

But a precedent applicable to other cases I cannot think that the amount of duty to be levied on a few Acres of land should be a matter of solemn Covenant between the Government or the Board of Revenue and the Cultivator I think that the moderation and general Character of Government should be considered the Cultivators sufficient security in the improvement of his land rather than any such agreement and that this prin=ciple should be maintained I would suggest whether the introduction of an entirely new form of settlement might not be considered as in some degree disparaging to the present forms of Ryotwary settlement as leaving it to be inferred that they do not afford suffi=cient security whereas the defects which have been complained of therein do not seem to be that the terms of the puttah are not sufficiently permanent but that they do not always hold out sufficient encourage=ment to the Cultivators It appears to me that the grant of a Cayemputtah to Mr Lyon on the terms proposed would answer every object with the advantage of being a form of Settlement already extensively in force in the District The Cayem puttah secures the Cultivator from any inconsiderate or unnecessary increase of the Assessment which is equally paid whatever the nature of the Cultivation & whether the land is cultivated or not

not but I do not understand that it would be any bar to such general revision of the whole settlement as might be made under orders from competent authority —

4. As regards the Channel in question I am of opinion that it is in every point of view more desirable that it should remain in private hands, than ever become the property of Government as would seem to be contemplated in the proposed grant of a Cowle The increased Revenue as well as other advantages refer=red to in my former letter will thus be secured without the expense of repairing and keeping up the works which as the Channel requires constant care and attention to keep it in order when the freshes come down, would more than counterbalance any advantage to be derived from the possess=ion of it by Government —

Note A party of convicts having been employed again lately on the Channel to the Arasbicar Tanks it is now understood that it may be now cleared through out the whole length in a few days.

North Arcot
Coll.rs Circuit Cutcherry
Pyreddypully
16th November 1846

Signed E. C. Lovell
Acting Collector

No 1

To The Acting Collector of
North arcot

Sir I have the honor to acknow=

1. ledge the receipt of your letter with the enclosure

enclosure from the Board of Revenue and would reply that as to the meaning under the 2d Para of their letter it is what I intended to convey.—

2. As to the question of a Cowle as the mode of meeting my wishes, I understand it to convey usually the idea of ceding on the part of Government some present advantages that might be justly claimed, on the ground of expences incurred by the applicant This is however entirely at variance with the nature of my present application on which I consider I am giving a bonus to Government for the liberty of applying my own skill industry and capital in the distribution of a certain portion of their water, nearly useless in its present application and which I now posses at an enormous rental Viz from 8 1/2 to 9 3/4 Pagoda for so much as will annually water one Cawnee of paddy land now so far am I from contemplating at any future period paying more than I now offer—that I anticipate long before the expiration of the term allowed me by Cowle (should this mode be determined on) Government will see it to be its own interest to lower this

this oppressive taxation one third more at least than from my experience any land should be taxed with.—

3. Our relative position appears to be the following—

The Government position is this—

1st Securing as much Nooncha revenue as it ever has done from the drain water of the Kullah—

2d Obtaining a fixed poonjee powasee price for land that never has yielded a piece of revenue from time beyond remembrance by the application of my own tank water to their unproductive ground—

3d By obtaining a constant poonjee revenue from all that land over which I let the drain Kullah water run whereas most of it has not for years been Cultivated once in three years under existing circumstances—

My advantages in this arrangement are—

1st The escaping the loss of wasting water upon land where it is now of no Value, as my tank more than supplies it, and for which

water

Fort St George 4th January 1847

water thus wasted. I have to pay an enormous tax

2d Paying my Revenue in one fixed sum without the interference of Native authorities, which I consider for a European of great value.—

3d In being free to make the most of my farm by alternating my Crops instead of being tied down to a constant succession of one kind of Crop on one specific spot—

4. To obtain these advantages however I shall have to level at very considerable expense all the new ground and it must be remembered that the drainage water can never be increased by a Cubic yard what it has been on the average for 20 years past (if seasons are the same) it will be for 20 years to come. Indeed was it not for the connection of the Hullah with my tank as its feeder and consequently my wish to have the whole interest in it I would give up the whole cultivation under it at once. But as I cannot do this without introducing a collision of interest I wish to do this next best thing namely to endeavour by energy and Capital to give

Fort St George 4th January 1847.

give a profitable direction to the use of its water instead of one by which I annually lose very considerably. certainly I should have laid out 30000 Rupees and upwards to very little purpose here, in improving the irrigation if the old arrangements are ever to be resumed it must be obvious to any one acquainted with the localities. if the whole were to lapse to Government tomorrow a perfectly new distribution of water must be adopted to meet these new circumstances and therefore the only question is whether I shall be allowed now step by step on the spot to find out the most profitable application of the water or whether some one after me perhaps far less interested and favorably circumstanced should do it.—

5. In reference to that query in Para 5 of the Board's letter I may say that the land held by ryots amount to about 3 Cawnies which they will sell the puttah of to me and remain under me, the portion of water these are entitled to is I believe about 3 Hours out of 150 which can of course be always supplied under any circumstances even should they make any difficulty with regard to parting with their puttahs.—

6. I deeply appreciate the kind wishes of the Board to afford me every facility and my endeavour shall be that the Board shall have no cause to regret it.—

Chittoor 11th October 1846

From D. C. Lovell Esqre Collr of North Arcot

Submits the Annual Statements in detail of the Extra Sources of Revenue for fusly 1255 A.D. 1845/46

Parl.

I have the honor to submit the Annual Statements in detail of the Extra Sources of Revenue for fusly 1255 A.D. 1845/46 in the Northern Division of Arcot, Viz^t —

Printed Statements in Triplicate —

Statements A and B.

Statements Nos 1 and 2 with Statements in Hindoovee.

The following Abstract

2

shews the Revenue from Extra Sources for fusly 1255 in Comparison with the Revenue of Fusly 1254 —

Salt

Fort St. George 1st January 1837.

	Fusly	Increase	Decrease
	1246 a 1247	1247 a 1248	
Salt	6,911 12 "	2286 12 "	
Sayer	4,674 1 11		1074 1 11
Abkarry	13,850 " "		
Sundry small farms and Licences	3,102 11 10		975 5 4
Stamps	5,389 11 6		
Motorpha	88 10 5		
Sea Custom duty	221 2 2		
Total	21,519 12 5	1004 5 5	
	1,485 12 "		

Fort St. George 1st January 1837.

Exhibiting a Net increase of Rupees 1,485 12 " above the Revenue of Fusly 1254.—

3 Nos 3 and 4 are detailed.—

Statements of the Manufacture and sale of Salt prepared according to the Board's letters of the 22d September 1836 and 22d June 1837. The abstract of each is as follows.—

	Rowanahs	Salt	
	Rolls	Garces	Parcals
Fusly 1254	610	228	250
Fusly 1255	563	249	393

	Quantity of Salt manufactured		Quantity Sold		Amount Value		
	Garces	Mn.	Gs	m	Rs	a	P
Fusly	270	70	228	250	2771	12	"
Fusly	211	379	249	393	2998	8	"
Decrease	58	91	"	"	"	"	"
Increase	"	"	21	143	226	12	"

Salt— 4. The decrease of Garces 58 91 in the quantity of Salt manufactured arises from the quantity remaining on hand at the Season of Cultivation and the increase in the quantity sold is probably owing to the abolition of the Sayer

Sayer duties by which the trade of the Dis-
trict has been generally benefited—

Sayer

5. There is a decrease in the
Collections on account of Land Customs to
the Amount of Rupees 4674 1 11 arising
from the discontinuance of the frontier
Sayer duties from the 23d March 1845—

Boards Proceedings 17th March 1845

Abkarry

6. The Season having appeared
favorable just at the Commencement there
was considerable Competition for the
Abkarry farms which occasioned the above
increase of Rupees 15,830 — — although the
rent of the former year was also much higher
than usual—

Sundry Small farms and Licences—

7 The increase in the Revenue
derived from Sundry Small farms and
Licences is Rupees 3102 14 10 The par-
ticulars of which are exhibited in the
following table—

Items	Fusly 1254	Fusly 1255	Increase	Decrease
	Rs a p	Rs a p	Rs a p	Rs a p
Tank fishery	6072 6 6	9175 5 4	3102 14 10	— — —
Rent of the Toll on Boats and right of Collecting Shell for Chunam at Ellavoor on the Pulicat lake	580 — —	580 — —	— — —	— — —
Total	6652 6 6	9755 5 4	3102 14 10	— — —

The

Tank fishery.

8. The increase under the head
of Tank fishery is owing to the large Cavery pauk
and Maunundoor Tanks having become dry in
fusly 1245 so that the whole of the fish were
secured by the Renters

Stamps—

The Collection under this head
9. has fallen to the extent of Rupees 5389 14 6
below the preceding year as shewn in the
Annexed Table—

Items		Fusly 1254	Fusly 1255	Increase	Decrease
		Rs a p	Rs a p	Rs a p	Rs a p
Revenue — Sayer	Rowanahs	12 — —	— — —	— — —	12 — —
Judicial	Judicial	16852 14 6	12947 12 —	— — —	3905 2 6
	Penalty	1300 12 —	— — —	— — —	1300 12 —
	Pauper	166 — —	— — —	— — —	166 — —
		18325 10 6	12947 12 —	— — —	5377 14 6
Total		18337 10 6	12947 12 —	— — —	5389 14 6

The decrease of Rupees 3905 2 6
10. arises from Stamp papers not being re-
quired for Suits for Sums of 1000 Rupees
and under filed before the District Moonsiffs—

The decrease of Rupees 1472 12 —
11 is owing to the Amount levied under the
Head Penalty and Paupers having been
carried

Statement of Balance of Arrears of Revenue

Items	Demand	Collection	Balance	Remarks

From the Collector of South Arcot ---- Sir.

Returning Petition No. 1168 of 1846 From Gherry boyalu Sewooboy widow of the late Chinnatamany Venkata Row eldest son of the late Madava Row Shrotrium Sudar of Trepatoor and Caravady and reporting thereon.

X No. 1168 of 1846.
14th Sept. 1846.
No. 1.

28th May 1846.

In returning the Petition received with your letter, I have the honor to forward Copy and translation of a Deposition given by one Kistnamacharry the Vakeel of the Petitioner, from which it will be seen that the boy Streenevasa Row who is alleged to have been adopted by the widow, is her Sisters' son and that he was adopted on the 7th or 8th July at Arnee in the North Arcot District, a place where neither party resided.

2. Three days after the demise of her husband, she addressed a Petition to me complaining that certain Jewels had been taken away by another female, in which she made no allusion whatever to the adoption of a son, a circumstance she should not have omitted to mention, had she been so empowered by the deceased, nor would have remained silent about it until 7th July last, when she for the first time brought

Transmitted to be sent again in circulation.

Chas. Elliot

X No. 289 dated 24th June 1846.

brought to my notice in her Petition X that she intended to adopt a boy, on which petition I gave an Endorsement that her request to Register the Shrotrieum in the name of the boy, whom she stated she meant to adopt was inadmissible

3d. I am of opinion that the deceased had no intention to adopt a son for if he had, he would not have failed to have mentioned either previous to or during his illness, that such had been his wish and that the alleged adoption subsequently Concerted is not sufficiently valid to entitle the boy to any share of the family property. Rajah Row being a lineal descendant of the original grantee and his right to the Shrotriem, to which he succeeded, being unquestionable, the claim of the widow on behalf of her alleged adopted son for any provision as solicited in the concluding part of her Petition is inadmissible, until the right of adoption has been established before a competent tribunal to which she should be referred to prove the adoption any further enquiry on the subject appears unnecessary, and uncalled for.—

4. The Board will further find on perusing the deposition that it is stated

a

a paper was drawn out by the late Madoova Row in his own hand writing 5 or 6 days previous to his death, containing the division of his property. The deponent has not only failed to produce it before me, but now states that the document has been forwarded to Madras to her Vakeel. Had a division taken place between Vencata Row and Ramachendra Row an acquittance to that effect should exist as is customary generally among the Hindoos. It is therefore most improbable that the Petitioner ever professed such a document. It is further worthy of remark, that if the said two brothers were the divided Members of a family, it would render it unnecessary for Madoova Row to divide the property as is alleged that he did about the period of his demise. the younger son Ramachendra Row having died 8 months prior to Madoova Rows death and to the stated division.—

5. It will also be seen from the deponents own statement that the deceased Vencata Row mentioned to him that he had 20,000 Rupees worth of property, and that he was entitled to a share in the Common property, which was in the profession of Madoova Row.—

J.

Fort St. George 4th January 1847.

6.

Forward. Copy and translation of an attested Petition presented by the Petitioners Vakeel before the Principal Suder Ameen in a suit filed against her by her Mother in law for the recovery of certain Jewels, which Petition was produced by Rajah Row in the Cutcherry, in which she asserts in contradiction to what the Petitioners Vakeel stated before me, that a division had taken place and now that she is ready to bring a suit for the recovery of the share due to her adopted son.

x No. 229 of 1846 dated 20th July 1846.

7.

From the foregoing as well as from the assertion of Rajah Row, it is most improbable that any division ever took place between the parties as affirmed by Petitioner.

No. 1.

Translation of a deposition given by Kistnama Auchary Vakeel of Gherry boyeemmal widow of Suithamonee Vencata Row son of Iyeloo auchary of Trisapore subject to Cuddalore Talook Caste Brassin Mahadoova Sect Vythee gum ve profession aged 40 years dated 7th October 1846.

2. The said Gherry boyeemmal Stated in her Petition No. 1168 of the current year to

Fort St. George 4th January 1847.

to the Revenue Board that her husband Vencata Row and his brother Ramachendra Row have divided their property. Is it true.?

A. It is true.

2. What proof is there to substantiate the said statement?

A. A list was prepared by Madoo Row in his own hand writing shewing how the division took place, which I shall produce in two or three days.

2. Is there any other document or witnesses to prove that the division has taken place between Vencata Row and Ramachendra Row besides the said list?

A. There are no other documents but the said list nor any witnesses, but Madoo Row who distributed Jewels &c.a among the members of his family just before his death and who told me that he had made out and left a list of the same so as to prevent disputes arising thereon.

2. were there any other persons with you, when Madoo Row mentioned it to you?

A. Some persons belonging to his family were with me, but I do not now recollect who they were, nor shall I be able to point them out in future.

2. Did you see the List?

A. Modoo Row has shewn me a Maharatte

355. Fort St. George 4th January 1847.

Inaharatta Bookin which the list was said to ~~~ have been entered, but I do not know the Inaharatta language.-

2. How long since did you see it?-

A. Five or Six days before the death of Madoo Row, he shewed me the list.-

2. Have you any thing more to say regarding the division of the property beyond what you have already stated.?-

A. Vencata Row the Husband of the said Ievoboyummal told me that property had been divided between himself and his brother and that Jewels and lands &c. valued at 21000 Rupees came to his share, and that there were some more Jewels and bonds &c. with Madoo Row which after his death, ought to be divided amongst himself and his brother's children. This is all I have to state and nothing more.-

/Signed/ Kistnamachary

Given before me this 7th October 1846.-

/Signed/ D. White

Sub Collector

Further Examination on the 9th November 1846

2. Why did you not produce the ~~~ document which you stated before in your ~~~ deposition was left by Madoo Row to prove the property having been divided between Vencata Row and his brother Ramachendra Row and the

356. Fort St. George 4th January 1847.

that you would produce it in two or three days.?

A. I have not produced the document as it is with the Vakeel who is gone to the Revenue Board at Madras, and I do not know whether he filed it at the Boards' Office or not.-

2. What is the name of the child taken by Ievoboyummal, and how is he related to her and on what date and where did she obtain him.?

A. The name of the child is Streenevas Row. aged 5 or 6 years old. He is Ievoboyummal's younger sister's son. He was taken by her at Arnee on the 7th Audy.

/Signed/ Kistnamachary.

Given before me this 9th day of November 1846.

/Signed/ H. D. Davis.

Collector

No. 2

Translation of a Copy of a Petition presented to the Principal Sudr Ameen at Cuddalore by Narasinga Row a Vakeel to Ievoboyummal Defendant in a suit No. 191 of 1846 dated 30th July 1846.

That her husband died leaving no Estate either in money or in Jewels, but debts and his paternal property being in the possession of the Plaintiff, and her grand son Raga Row. The Plaintiff has filed the suit with a view not only to disgrace and annoy the defendant but also to deprive her adopted son of the ~~~ share of the paternal Estate due to him.-

The

Fort St. George 4th January 1847.

The defendand now defends a suit filed in the Civil Court No. 1 of 1845 by one Venkataroya alias Naik for 20,000 Rupees on a Garden and is perpared to sue the Plaintiff Vizt. in the Court for the recovery of the portion of Estate due to her adopted son. While so there is no necessity for the defendant to conceal her property or to desert the place thro' fear of answering the suit against her. The Plaintiff or her agent has procured some false witnesses as those who she named before failed to give their evidence as she wished. The Plaintiff not having stated the names of the witnesses previously she was enabled to name such as will comply with her wishes. It is uncommon to examine again witness as once examined. Under these circumstances I trust the court will consider the Plaintiff's request to attach the Defendants property to be irregular, and be pleased to pass such orders as it may deem proper.-

Fort St. George.

(29)

From the Collr. of South Arcot

Sir,

With reference to your letter of the 26th Ultimo, I have the honor to submit the following information on the points therein noticed.-

Affording further information about the succession to certain Enam Lands in the Village of Carrayaveri-vettoo Coopium situated in the Talook of Cuddalore.-

2 The dispute of the parties respecting the Enam has reference as furnished by the Board to both the items No. 142.-

3 As regards the possession of the said Maniums I beg leave to state that from the result of an Enquiry already made on the subject it appears that the above property had remained in the possession of Raja Row as joint Owner of it until 29th April last by the Consent of his late uncle Venkata Row who was Tahsildar of the Chaitput Talook This fact is fully proved by Raja Rows accounts of the receipts and Charges connected with the property. As it further appears that Venkata Row having rented it to certain individuals for five years at an annual rent of Rupees 350-- on the above date in whose possession

th

359.

Fort St. George 4th January 184

it has Evedence remained - Raja Row has been directed not to interfere in any way whatever with their enjoyment of the same. -

4

On my Calling upon the parties as directed to State whether they have any document in Support of their title Raja Row has stated that he has none, and the Vakeel of the widow of Veneata Row produced four which do not elucidate the grounds on which the Enams were originally Conferred. Copies and translations thereof are forwarded for the inspection of the Board. -

5.

I herewith forward Copy of the report of the late Chief and Council together with an Extract from the Enam Samahbundy accounts as enumerated in the enclosed list of packets. -

22d Oct. 1775 but not 30th June — 1775.

Fort St. George 4th January 1847.-

No. 5.

To
The Honorable Alexander Wynch Esqre.
President & Governor &ca. Council
at
Fort St. George

Honorable Sir, & Sirs,

1. Pursuant to your commands of 2d. Septr. 1774 we herewith send you the most accurate Accounts of the Farm of Fort St. David for ten years, from the year 1763 to the end of 1772. we could obtain.-.

Before we enter into the detail of these accounts, we shall endeavor to give such information of the Farm, of the nature of its Revenue, and of the mode pursued for the levying and collecting of the same - since the Company have been the proprietors of the Farm, as may serve to elucidate the particulars contained in them.-.

The Farm of Fort St. David was purchased by the Company of Ramarajah a King of the Marattahs in the year 1690 who at the time of the purchase resided at Gingee the limits of the Farm to the Northward, Southward and westward are marked by a Hedge and to the Eastward it is bounded by the

Fort St. George 4th January 1847.

the Sea, the Territory within is divided into fourteen Divisions Viz.t Pevenapatam, Cuddalore, Wadagamban, Trepapalore, Chellancoopang, Chemmundalum, Wadara Maineam, Villanatum, Ganganamcoopang, Watchmade, Uppalivady, Manjecopang, Vunnarpollam, and Carayaravitta=coopang generally called the fourteen Villages of Fort St. David, tho' the present number of Villages in the farm is forty four. —.

Five of the Division Viz.t Cuddalore, Wadagamban, Carigaravittacopang, Trepapallore, and Chellancoopang lie to the Southward, of the Gurdelum River which passes thro' the Farm, and the lands in them are mostly low lands, the Division of Cuddalore Carayara=vittacoopang, and Wadagumban are supplied with water from the water courses of the yary called the Condangy yary in the Division of Cuddalore and from the water Courses of River Gurdelum, which received their water from the Gurdelum, about two Miles before it enters the Bounds, in the Prevendepooram District, the Divisions of Trepapalore and Chellencoopang received supplies of water from the water Courses of the Gurdelam River, which received their water from the Gurdelam at the same place in the Trevandepooram District as

Fort St. George 4th January 1847.

as those water courses which bring water to the divisions of Cuddalore Caragaravitta=coopang and Wadagumban. —.

Six of the other Divisions Viz.t Pevenapatam, Vennarpolliem, Munjecopang, wadaramaneam, Chemmundalum, Villanuttum & part of the Division of Upulavaddy lie to the Northward of the Gurdelum, between the River and the Punnear River, which also passes thro' the farm and is in some places at the distances of a mile and a quarter from the Gardelum. Six of the above Divisions received no supply of water but from wells as they are situated considerably higher than the beds of both the Rivers, part of the Division of Uppalavaddy and the divisions of Ganga=namcoopang and watchmede lie to the Northward of the Ponnear. "the Division of Gunganamcoopang is watered by water= courses which are supplied from the yary of Baugore in the Nabos Country about five Miles distant from the limits of the farm and are low lands" the Division of Uppelevaddy has no Wells in it nor has any water conducted to it by watercouses, and the Division of watchmadoo receives no supply of water but from wells, on account of

A Mistake— this remark is applying to another Village of the same name in the Trevendeeporam District called Ganganam Coopang. — Signed E.W.F.

of the highness of its situation.—

It will be here necessary to remark that a yary is generally made in a large spot of hollow or excavated Ground and where the Ground circumjacent to this hollow spot is low— a Tank where there is a level clay Soil that may be easily dug and the ground about it low watercourses are only made in low ground that is easily dug and Wells are usually sunk in spots of Ground whose surface are somewhat higher than the ground circumjacent to them and wherein it is probable good springs of water may be found.—

In each of the fourteen Divisions are some Inam Lands, and in most of them some Garden Lands, which are at present claimed and occupied as private property and shall be afterwards explained under the Heads of Inams and Gardens.—

The Ground of each division is measured out into Cawnies & Culies, which in different divisions are of unequal dimensions, for the space of the Cawnie in some divisions is 100 Culies, each Culie a square of 48 Malabar or 51½ English Feet, in other 100 Coolies of which each Coolie, is no more than a square of 36 Malabar or 32 English Feet.—

The

The Revenue from the Farm to the Company exclusive of the Sea and Land Customs the amount of which are not included in the Report, consists in what arises from the Circar lands, used for Salt Pans, from the Circar Cultivated lands, from the fishery of the River Gurdelam, and from the Juncans.—

The Collecting of this Revenue since the Company have been the proprietors of the Farm, has constantly been entrusted to Renters who have farmed the same from the Company— the mode followed by the present Renters as well as by each of the former Renters for the levying of the same has invariably been to let out the Circar lands used for Salt Pans as well as the Circar Cultivated lands for an annual rent to be paid them in specie, the former in small portion to the husbandmen in the farm the fishery of the River Gurdelam has likewise been let out by them to the Fishermen for an annual Rent to be paid in specie, but the Juncans have been collected by servants employed and paid by the Renter.—

All the Circar Cultivated Ground is divided into Paddy lands & small

Grain

Fort St. George 4th January 1847.—

Grain lands, those lands set apart for Paddy lands are such lands as can be either — watered directly by watercourses supplied from the Rivers and Yaries such as can be supplied with water from those watercourses by the means of small Picotas, and such as can be watered from Well by the use of large Picotahs, and such lands as can receive no supply of water but from the rain and whose soil is considered worth the expence of Cultivation, are used for the growth of small Grains, the Husband= =men who rent these are all comprehended under one class, and enjoy no particular privileges. most part of the Paddy lands annually produce two Crops of Paddy, and great part of the small grain lands two Crops of small grain but the fertility of the Crops on some lands greatly exceeds the fertility of the Crops on others- this difference of fertility in the Paddy lands proceeds not only from the difference of soil, but from the facility in different methods by which the several parts of them are watered. In the — small grain lands, which we have before observed receive no supply of water but from the Rain, this difference of fertility depends wholly on the nature of the soil- we cannot ascertain the produce

Fort St. George 4th January 1846.—

produce either of all the Paddy lands, or small grain lands nor the difference between the product of some parts of these lands, — and those of others but we are told that on the best of the Paddy lands the annual produce from a Cawnie of 100 Culies each Coolie a square of 48 Malabar or 51½ English feet, — will be about 2½ Garce, & on the best of the — small grain lands from a Cawnie of the — same demensions 240 Cuddalore Marcals of Camboo and 42 Mercals of Grain or Challum on each crop of Paddy and small Grain the Husbandmen are obliged to make some allowances to the Public servants of the Farm and to the Pagoda of Trepapolore, besides the annual rent they pay for the land Renter, What these allowances are who are the public servants of the Farm, with the nature of their Duty- the other priveleges enjoyed by them, besides the — allowances they receive from the Husbandmen, and every other matter relative to them shall be afterwards explained under the Head of Public servants to the Farm.—

From the Paddy lands — portions of ground are sometimes taken for the growth

growth of Beetle, Sugar cane and Plantains, and from the small grain lands for the growth of Indigo, Chillies and other various sorts of Vegetables but on the grounds so taken and Cultivated the Husbandman pay only for the annual rent of them to the Renter, and make no allowances on the product to the public servants of the Farm or to the Pagoda Prepapilore.—

The Circar lands used for salt Pans are such only as can be supplied with salt water and are all comprehended in three Divisions Viz^t. Cuddalore Chellencoopang and Trevenapatam the computted quantity of salt annually made in a Cawnie of salt Pans in the Cuddalore Division is 50 Garce, and sells one year with another for Current Pagodas 5 per Garce in a Cawnie of salt Pans in the Chellancoopang Division 13 Garce and sells one year with another for Current Pagodas 5 per Garce and in a Cawnie of salt Pans in the Pevanapatam Division 3 Garce, & sells one year with another for Current Pagodas 3 per Garce.—

The reason assigned for such a disproportionable produce of salt in a Cawnie of Salt Pans in the Cuddalore & Chellancoopang Divisions

Divisions in both of which the Cawnies are of the same dimensions is because the salt Pans in the Cuddalore Divisions are a muddy soil, those in the Chellancoopang Division of a sandy soil which latter sucks up more of the salt water that is put into the pans than the former, the soil of the salt pans in the Pevenapatam Division is still more sandy than that in the Chellancoopang Division, and the inferior quality of the salt in the Pevenapatam Division is the reason that it sells for less than the salt made in the other two Divisions.—

The Juncans are Customs levied by the Renter on such merchandize only as passes thro' the Farm the rate for collecting them is explained under the head of <u>Rate of the Juncans</u>.—

Inams.—

The Enam lands of this Farm are exactly of the same nature, and held by the same Tenure, as those we have described in the Farm of Trevendepooram, and from the Crops of the Inam lands in each of the fourteen Divisions the Inamdars must make the same allowances to the Polygar the

the Pagoda of Trepapilore and to the Establish-ed Village servants of the Division, as what are made by the husbandmen who rent the Circar Ground.—

Gardens.—

The Garden lands tho' the use and possession of them are said to be vested in the Present Possessors and their Heirs, without making any render of rent or profit for them to Government, yet differ considerably from the Inam lands, because the present possessors may change the course of their descent by disposing of them during their own lives to stangers for a valuable consider-ation in which purchasers and their Heirs the course of descent then takes place if they do not interrupt it again by a fresh disposal of them to other Strangers, and because no allowances is made from them to any of the Public servants of the Farm or to the Pagoda of Trepapilore how the original possessors of these Gardens and the present possesors came to be possessed of them we have from the best information we could receive particularized in the account of Garden lands we have given of each Division.—

Public

Public Servants of the Farm.—

The Public Servants of the Farm are the Pollygar and the servants of the fourteen Divisions into which the Farm is divided generally called the Village servants. the present establishment of Village Servants to each of the fourteen Divisions is as follows Viz.t.—

The appointment of the Pollygar was originally made it is said by the Country Government and that the Offices of all the Village servants as well as the privileges annexed to them are hereditary, and that the Persons now in possession of these Offices are the descendants of those primarily appointed to them. The Office of Pollygar formerly considered as hereditary is now from the last of the hereditary Pollygars having been turned out of it, looked upon to be held only during pleasure, and the person now in possession of it is the one who was appointed to the Office on the dismission of the last Polegar who held it by Inheritance, but the present

Pollygar

Pollygar enjoys the same privelege from the Office as what were annexed to it when held by the hereditary Pollygar — The reason assigned for the unequal Establishment at present of servant to each of the fourteen Divisions is, because some Divisions are not only larger but furnish a greater rarity of employments than others — but from the inconsiderable establishment of servants to some of the Division it would rather seem probable that their original Number has been diminished since the Company have been in posession of the Farm.—

Pollygar.—

The duty of the Pollygar extends to all the fourteen Divisions throughout the farm and is every respect similar to what we have described to be the duty of the Pollygar and four Watchers in the farm of Trevendepooram except that it has never been usual for him to furnish a Sibbendy to protect the farm from the incursion of an enemy — His privileges in each of the fourteen Divisions are as follows — In the Divisions of Cuddalore, Tripapelore Shellan-coopang, Cariaravattacopang and Vadagambam to receive from each crop of Paddy produced on every Cawnee of Paddy Land in them 4 sheaves or bundles of Paddy supposed to contain

six Mercals and from each crop of small Grain on every Cawnee of small grain lands in them 4 Mercals of the Grain after it is trod out and Measured. He has likewise some Inam lands in the Divisions of Trepa-pilore, Cuddalore, and Cariaravattacoopang as particularized in the account Inams we have given of those three Divisions, but he has no Inam lands in the other two Divisions.—

In the Divisions of Munjecoopang Chemundalum, Kadaramanicam, Vanarpolliam and Tevanapatam, to receive from each crop of Paddy produced on every Cawnee of Paddy land in them four (4) Mercals of Paddy three Mercals after the Paddy is trod out and Measured and Mercal in the sheaf before it is trod out, and from each crop of small grain produced in every Cawnee of small grain land in them 3 Mercals of the Grain after it is trod out and measured he has likewise some small Inam lands in the Divisions of Manjecoopang and Chemundalum as particularized in the account Inams we have given of those two Divisions, but he has no Inam Lands in the other three Divisions.—

In Divisions of Vilvanuttum to receive four Mercals of Grain after it is trod

Fort St. George 4th January 1847.—

trod out and Measured from each crop of Paddy produced on every Cawnie of Paddy land and from each crop of small grain produced on every Cawnie of small grain land, but he has no Inam lands in this Division.—

In the Division of Upalavaddy to receive 2½ Mercals of Grain after it is trod out and Measured from each crop of Paddy produced on every Cawnie of Paddy land, and from each crop of small Grain produced on every Cawnie of small grain land, he has likewise some small Inam lands in this Division particularized in the account Inams we have given of this Division.—

In the Division of watchmede and Genganamcoopang, to receive for each crop Paddy produced on every Cawnie of Paddy land and for each crop of small grain produced on every Cawnie of small grain land in them 1 Fanam, but no allowance in grain. He has likewise some small Inam lands in them as particularized in the account of Inam we have given of those two Divisions.—

Besides the aforementioned privileges, the Pollygar is likewise allowed a fee or tax of 6 fanams per annum on every loom within the Town of Cuddalore and 3 fanams per annum

Fort St. George 4th January 1847

annum on every loom in the Farm without the Town of Cuddalore. The reason assigned for his being allowed double on the looms within the Town of Cuddalore is because most of the looms within Cuddalore are for making Demittes, Ginghams and other fine goods not wove in any other part of the Farm, which reason tho' it may be good with regard to those particular Looms yet is by no means satisfactory as to those looms which make such articles of goods as are wove in other parts of the Farm, he is likewise allowed ½ per Cent on all Imports and exports made by the Indian Inhabitants except on all sorts of Grain brought in by them on Bullocks and Coolies from the Country on which he is only allowed 1 Mercal for every 56 Mercals, he is also allowed a Tax of 3 Fanams per annum on all Bonthiques in the Farm, on which Rice Grain &c. provisions Oil and Toddy is sold, he is likewise allowed a Tax of 3 Fanams per annum on every Gold Smiths, Silver Smiths and Brass Smiths House in the Farm & 3 Fanams per annum on every Dyers yard who does not dye for the Company and on every Washerman's House who does not wash for the Company. All the Fishermen within the Farm likewise pay him a

Joint

Wadagamban Carayaravattacoopang Trepaplore and Chellancoopang the Established Village Conicoply in each of them receives from each crop of Paddy produced on every Cawnie of Paddy Land 4 Mercals of Paddy and from each crop of small grain produced on every Cawnie of small grain land 4 Mercals of the grain after it is trod out and measured the Conicoplies in the Divisions of Cuddalore Carraravattacoopang Trepaplore and Chellancoopang have likewise some small Inam lands as particularized in the accounts Inam Lands we have given of those four Divisions but the Conicoply of Wadagamban has no Inam lands In the other Divisions of the Farm there are no established conicoplies but the accounts of those Divisions are kept by Conicoplies entertained and paid by the Renter-

Shroff

In the Divisions of Cuddalore Wadagamban Carraravattacoopang, Trepaplore and Chellancoopang the established Shroff in each of them receives from each crop of Paddy produced on every Cawnie of Paddy land 3 ∞ Sheaves or Bundles of Paddy supposed to ∞ contain 3 Mercals and from each crop of ∞ Small grain produced on every Cawnie of Small grain Land 2 Mercals of the Grain ∞ after

joint Tax of Pagodas 6-4 per Annum-

Village Servants

The particular duties of the several Village Servants are likewise exactly similar to the Village Servants of the same denomination in the Farm of Sreevendepooram which in our Report of that Farm has already been described and the privileges enjoyed by the several Servants of each Division are as follows Viz.t

Astrologer Bramney

In the Divisions of Cuddalore Trepaplore Chellancoopang Ulpalavadi Canganamcoopang Watchemede Wadavamancam Chemandalam and Manjecoopang the Established Astrologer Bramney in each of them has some Inam lands as particularized in the accounts Inams we have given of those four Divisions but no allowance of Grain in the other five Divisions of the Farm the established Astrologer Bramney in each of them has neither Inam lands nor any public allowance of Grain but receives some private consideration of Grain from the Husbandman-

Village Conicoply

In the Divisions of Cuddalore ∞ Wadagamban

after it is trod out and measured the Shroffs in the Divisions of Cuddalore & Trepapaloor have likewise some Inam Lands as particularized in the account of Inams we have given of those two Divisions but the Shroffs of Wadagamban, Caviaravittacoopang and Chellancoopang have none. In the other nine Divisions of the Farm there are no established Shroffs but the Money paid by the Husbandman for the rents in those Divisions is Shroffed by Shroffs entertained and paid by the Renter.

Collector of Money

In the Divisions of Cuddalore Wadagamban and Caviaravittacoopang the established Collector of Money in each of them receives from each crop of Paddy produced on every Cawnie of Paddy land 3 Sheaves or bundles of Paddy supposed to contain 3 Mercals and from each crop of Small grain produced on every Cawnie of Small grain land 2 Mercals of the Grain after it is trod out and measured, the Collector of Money in the Divisions of Cuddalore & Wadagamban have Some Inam Lands as particularized in the account of Inams we

have given of those two Divisions but the Collector of money in Caviaravittacoopang has none. In the other eleven Divisions of the Farm there are no established Collectors of Money.

Carpenters and Smiths

To all the fourteen Divisions there is an established Carpenter and Smith in the Divisions of Cuddalore Trepaploor and Chellancoopang Caviaravittacoopang and Wadagamban, the established Carpenter and Smith in each of them receives Singly from each crop of Paddy Produced on every Cawnie of Paddy Lands 4 Sheaves or Bundles of Paddy supposed to contain 6 Mercals and from each crop of Small grain produced on every Cawnie of Small grain land 4 Mercals of the grain after it is trod out and measured. In the other 9 nine Divisions of the Farm the established Carpenter and Smith in each of them Singly receives from each crop of Paddy produced on every Cawnie of Paddy land 1½ Mercals of Paddy, and from each crop of Small grain produced on every Cawnie of Small grain land 1½ Mercall of the grain after it is trod out and measured In the Divisions of Cuddalore, Trepaploor Caviaravittacoopang Mungacoopang Villaunthum Chemmundalum, Wadarmanicam, Gangavancoopang Watchemedoo

Watchemedee and Uppalavady the established Carpenter and Smith in each of them has likewise each some Inam Lands as particularized in the account Inams we have given of these Ten Divisions but the Carpenters and Smiths in the two other Divisions of the Farm have no Inam Lands, the Carpenters and Smiths in all the 14 Divisions likewise receive from such Husbandmen who immediately employ them half a Measure of Rice each per day.

Barber

In the Divisions of Manjacoopang Chemmandalum, Cuddalore, Pillanullum, Uppalavady, Watchemedee Gnganamcoopang Carraravellacoopang and Trepaplore the established Barber in each of them has some Inam Lands as particularized in the account Inams we have given of those Divisions, but receives no public allowance of Grain. In the other five Divisions of the Farm there are no established Barbers.

Washerman

In the Divisions of Trepaplore Chellancoopang Uppalavady Gengananacoopang and Watchemedee the established Washerman in each of them has some Inams lands as particularized

particularized in the account Inams we have given of those 5 Divisions but receives no public allowance of Grain. In the other Nine Divisions of the Farm there are no Established washermen.

Snake Doctor

In the Divisions of Trepaplore, Watchemedee Gnganamcoopang & Uppalavady the established Snake Doctor in each of them has some Inam lands as particularized in the account Inams we have given of those 4 Divisions, but the Snake Doctor of Trepaplore alone receives a public allowance in Grain, which is from each crop of Paddy produced on every Cawnie of Paddy Land (one) Sheaf or bundle of Paddy supposed to contain ½ Mercal, and Grain each crop of small grain produced on every Cawnie of small grain land, one Mercal of the Grain after it is trod out and measured. In the other 10 Divisions there are no established Snake Doctors.

Forties Fig.4
1 Measuring Toaty
1 Toaty who distributes water
1 Do. to watch the Dams
3

In the Divisions of Cuddalore Wadagambau and Carraravellacoopang the three

three aforementioned Sort of establishes had
Toties in each of them receives amongst them
from each crop of Paddy produced on every
Cawnie of Paddy land three Sheaves or three
Bundles of Paddy supposed to contain 3 Co
Mercalls and from each Crop of Small
grain produced on every Cawnie of Small
grain land 2 Mercals of the grain after
it is trod out and measured, they have Co
likewise some Inam lands amongst them
as particularized in the account of Inams
we have given of those 3 Divisions In the
Division of Trepaplore the three aforementioned
Sort of established Toties in it receive amongst
them 3 Mercals of Paddy from each crop of
Paddy produced on every Cawnie of Paddy land
and 2 Mercals of Grain from each crop of Small
grain produced on every Cawnie of Small Co
grain land after the Grain is trod out and
measured. They have likewise some Small Inam
Lands amongst them as particularized in
the account of Inams we have given of that
Division. In the Division of Chellancoopang
the three aforementioned Sort of Established
Toties in it receive amongst them 3 Sheaves
or Bundles of Paddy supposed to contain Co
three mercals from each crop of Paddy
produced

produced on every Cawnie of Paddy land and
two Mercals of Grain from each crop of
Small Grain produced on every Cawnie of Small
Grain land after the Grain is trod out Co
measured, but they have no Inam Lands. In
the Divisions of Manjecoopang Villanuttum
Chemmundalum, Wadaramancam, Tenmarpollam
Tavanapatam and Upputvady there is only
one Established Toaty in each of them who
is a measuring Toaty. He receives two Sheaves
or Bundles of Paddy supposed to contain
two Mercals from each crop of Paddy produced
on every Cawnie of Paddy land, and 1 Co
Mercal of Grain from each crop of Small
Grain produced on every Cawnie of Small
grain land after the Grain is trod out and
measured and the Toaties in the Divisions of
Manjecoopang Villanuttum Chemmundalum,
and Upputvady have also Small Inam
Lands as particularized in the account Co
Inams we have given of those 4 Divisions;
but the Toties in the Division of Wadara-
ramancam, Tenmarpollam and Tavanapatam
have no Inam Lands. In the two Co
other Divisions of the Farm Vizt.
Wachenode & Ganganamcoopang there
are

are no established Duties.

The allowances in Grain made by the Ryot or Husbandman to the Pagoda of Trepapore are as follows Viz.t—

In all fourteen Divisions of the Farm 3 Marcals of Paddy from each crop of Paddy produced on every Cawnie of Paddy Land in them, and 3 Marcals of Gram from each crop of Small Gram produced on every Cawnie of Small gram Land in them after the Paddy and Small gram is trodden out & measured—

Besides all the aforementioned allowances made by the Husbandmen of each Division to the Polygar to the established Village Servants and to the Pagoda of Trepapore they have no other public charge to allow on the grain after it is cut down—

Rate of the Duncans Viz.t

On Chintz	1/4	for each Pagoda weight
Salampore	11-20	Do.

Elephant	Pag. 1-18-30	for each yard
Acheen Horse	Rs. 10	each
Country Do.	20	Do.
Paddy	1-8	Fan. for every 110 Oxe load
Gram	3	per Oxe load
Do.	1-40	for each mans load

Upon the article of Gram if any merchant residing in the Bounds buys any in the Country and passes it thro the Bounds from the Northward to the Southward or from the Southward to Northward. the Duncans Fanam 1-45 for each Oxe load or Mansload—

The accounts of the first nine years we have sent of this Farm contain merely an abstract of the Net Revenue said to be collected by the Company's Renters the Net amount received by the Inamdars and the Net amount of Fees received by the Polygar for each of those years—

The accounts for the year 1772 contain a Separate account of every Division in the Farm and in these several accounts we have first specified the whole quantity of Ground said to be contained in the Division and how it is disposed of viz.t how much has

have then particularized the rents paid that year by the Husbandmen to the Renter for the several portions of the circar cultivated land and the Rents paid by the said Makers for the different portions of the circar lands used for said Dams — the Number of Crops produced on the several portions of the Paddy and Small Grain Lands — The Methods by which the several parts of the Paddy lands were then and are now supplied with water and the total of Rents paid to the Renter from all the abovementioned Lands — We have likewise inserted Separate Rents of all the Inams and Gardens in the Division with the distinct Sums received that year by the several Inamdars as also of such as we could procure the accounts of the distinct Sums received by the several possessors of Gardens and the Total amount received by the whole, and Cast of all We have put down the number of Looms and Looms in the Division remarked the Condition of the watercourses and different reservoirs of water in the Division, with the Computed expence that will attend the repairing of them and the advantage that will be derived from making those Repairs —

It was out of our power to insert the

the whole quantity of Cloth manufactured in each Division as no such account has ever been kept —

And that a general view may be had of the net amount produce of this Farm for 1772 of the repairs necessary to be made to the watercourses and different reservoirs of water and of the Number of Looms and Looms in the Farm, we have besides these Separate accounts of each Division, made an Abstract account and in this abstract account we have inserted the Net Revenue that was paid to the Renter and the net amount received by the Inamdars and possessors of Gardens in each Division — the Condition of the water courses and different reservoirs of water with the computed Expence that will attend the repairing of them, and the number of Looms and Looms in each Division we have likewise added the Sum Amount of Rents for the Fishery of the River Gundelum the Sum amount of Sunds received by the Renter and the Sum Amount of Fees received by the Polygar in the Farm —

The above accounts for 1772 Furnished us by the Renter, the Public Servants of the Farm and the most

Experience

experienced of the Husbandmen, as also further ascertained to us by two Superintending Conecapolies whom we have entertained on account of the Company are intended to exhibit as nearly as possible the present and particular State of the Farm, because the Lands Cultivated that year are either the same as what are now cultivated, or as are now fit for Cultivation, and no more, because the Swamps and Garden Grounds therein set down are those only which now subsist, and because the Number of Houses and Looms mentioned to be in each Division, the descended condition of the different reservoirs of water and water-courses with the computed Expence of putting them in repair is the account and Survey that has now been taken and made of them.

No Improvement we are told can be made in the present Circar Cultivated Lands, as there are no proper Spots of Ground for making any new Tanks Watercourses or Wells. We had been informed at the commencing of our enquiries relative to this Farm that it was supposed water might be brought from the Pinneaur River by watercourses into

into those Six Divisions, and that part of the Upalavadoy Division which lies between the Pinnaur and the Gurdalum but on our having the practicableness of this scheme carefully examined we find it is not possible to effect it.

We have forwarded the report of the Farm without awaiting till Mr. Cadagan shall have completed his Survey of the Lands, because had we inserted in the accounts we have sent for 1772 any other than the Renters and Village Servants estimated quantity of the Land and of the Manner in which they were disposed &c we could not have explained what the Renter now and has hitherto considered to be Circar Ground, nor the amount Rent received by the Renter from the whole of Circar Ground nor the different goodness of the Circar Cultivated Ground, and of the Circar Ground used for Salt Pans or the different Rents paid to the Renter for the several portions of those Lands and because we were desirous in pursuance of your orders of 2d September 1774 to acquaint you as soon as possible of the Revenue Collected from this Farm by the Renter and of the Manner in which he has levied the same as also to lay before you his, the Village Servants, and Husbandmens account of the present State of the Farm, but so soon as Mr. Cadagan shall have

Fort St. George 4th January 1847

have completed his Survey of the Lands we shall send you his Report of them. Of those Lands he has already surveyed on this Coast we have the pleasure to acquaint you there is little or no variation between his account of them and those now forwarded you for 1772.

We have received the Report of your Committee of Revenue on the accounts of the Travendapooram Farm transmitted by us to your Honor &c with your orders thereon, and shall pay due attention to them.

In part obedience to those orders we have already publickly notified that if any Person or Persons are willing at their own expence to plant with mango or Topicul Trees, Cocoanuts or Palmeera Trees, or to convert to any useful purposes any part of these waste Lands in the Travendapooram Farm which are represented to be unfit for the Growth of Grain on condition that as much of that Land as any person takes and improves will be given to him and his heirs for ever without Tax or Taxe to be collected thereon till the expiration of a certain number of years when an annual equitable Rent will be fixed on them to be paid on behalf of the Company they will signify the same to us, also that every person will particularize the spot and quantity of this waste land he will so take and what number of years he will require to enjoy the same without paying any rent thereon to the Company.

We have likewise circulated the same notice with regard to the waste Land in this Farm, and if we receive any proposals in consequence we shall forward them to your Honor &c

&c

Fort St. George 4th January 1847

We have no particular remarks to make on the accounts we have sent but have only to request your directions whether the Monedars and possessors of Gardens shall have confirmed to them the lands they now hold.

We are &c &c &c

State of New York } In Senate January 14th 1817
Secy's Office }

Transcript of an Act passed the Seventy seventh Session of the Legislature of this State

Assembly Chamber } An Act to authorize the Trustees of the Methodist Episcopal Church in the City of New York to sell and convey certain Real Estate belonging to the said Church

1222 & 1223	Assembly Chamber 4th February 1817	6	3	1	9	7	1	1/2	Copy filed 2 1/2 inches
1224 & 1225	Passed the Senate 7th February 1817								
1226 & 1227	Recorded in Book No 28 of Laws page 281								
1228 & 1229	Examined with the Original Law and found that the Transcript is a true Copy thereof								
1230 & 1231	Thomas Addis Emmet Attorney General								

Be it enacted by the People of the State of New York represented in Senate and Assembly That the Trustees of the Methodist Episcopal Church in the City of New York for the time being be and they are hereby authorized and empowered to sell and convey all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of one hundred and twenty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of one hundred and forty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of one hundred and sixty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of one hundred and eighty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of two hundred feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of two hundred and twenty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of two hundred and forty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of two hundred and sixty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of two hundred and eighty feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of three hundred feet from the corner of Broadway and Prince Street and running thence Northwardly parallel with Broadway one hundred and twenty feet thence Eastwardly parallel with Prince Street twenty five feet thence Southwardly parallel with Broadway one hundred and twenty feet and thence Westwardly parallel with Prince Street twenty five feet to the place of beginning and also all that piece or parcel of Land situate lying and being in the Out Ward of the City of New York and bounded as follows to wit Beginning at the distance of three hundred and twenty feet from the corner of Broadway and Prince Street and running thence Fort St. George 4th January 1847

Ordered that the foregoing letters be submitted with the following address.

28-30

To The Chief Secretary to Government

To the Chief Secretary to Government ----

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council

Submitting a Correspondence with the Collr of South Arcot on the subject of the claims advanced to the succession to certain Enam lands or Gardens in the Carayaraccoopum Village and recommending that they be continued to Puyah Row as heir of the late Vencat Row.

the accompanying Correspondence which has passed between this Office and the Collector of South Arcot, on the subject of the claims advanced to the succession to certain Enam lands in the Carayaraccoopum Village of the Cuddalore Taluk in his District.

From Collr 25th August
in Ont. 26th October 1840
To do 20th October "
in Ont. 4th January 1847

2. The Enam lands or gardens in question are in extent 24-9-0 Viz 5-6¼ of Nunjah and 19-2¾ of Poonjah and are entered in the Pymash accounts at an Assessment of Rupees 154-1-6. They are first mentioned in a Statement submitted to Government by the Chief in Council at Fort Saint David with their report of 1775 and purporting to shew the list of Enam Garden in the Fort St. David Farm of

One Garden	2-11¾ Poonj:	Rs-a-p
Assessment	7-2-10	
The other 5-6¼ Nunj: and 16-7 Poonj: Assessment		146-14-8
		154-1-6

of which Carajaravitta coopam formed a part with the yearly value to the possessors as they stood in 1772 - at this last date one of the Gardens now referred to appears to have been in the Enjoyment of Mr. Sloper but to have been granted originally to Mr. Barlow tho' at what time it was so granted by what means it passed into the possession of Mr. Sloper and for what period he had held it prior to 1772 is not stated - The other garden appears from the same statement to have been held in 1772 by Condul Nauck who had at that time been in the enjoyment of it for 38 years & and had acquired it from the alleged first grantee Mr. Barlow by purchase.

The grantee's date, terms, and purposes of the grant in each case seem to have been altogether unknown at the time (A. D. 1775) when the report of the Chief in Council was written and no title deeds were then forthcoming - In an Extract from that report which for more convenient reference is given in the

Note

The Collector - 25th August 1840 Para 3. States that "the grant appears to be of a Charitable nature," but there is nothing to show this nor to exhibit what was the real character of the grant. -

Gardens

"The Garden lands tho' the use and possession of them are said to be vested in the present Possessors and their Heirs without making any render of rent or profit for them to Government yet differ considerably from the Enam lands because the present possessors may change the course of their descent by disposing of them during their own lives to strangers for a valuable consideration in which purchasers and their Heirs the course of descent then takes place if they do not interrupt it again by a fresh disposal of them to other strangers and because no allowance is made from them to any of the Public Servants of the Farm or to the Pagoda of Trepapilore - how the original possessors of these gardens and the present possessors came to be possessed of them we have from the best information

the Margin, it is stated that the Enam Gardens of the Farm of Fort Saint David had up to that time been treated as saleable property and as descending hereditarily in the families of the purchasers unless sold by them to others - In the Concluding Para of the report instructions were also solicited as to the manner in which these gardens should be dealt with for the future.

The Correspondence between the Government and the Chief in Council is not on the records of this office and the Board are not therefore aware whether any orders were given on the subject - The Gardens to which this letter has reference have however continued to be held rent free from the time of the report and after passing thro' various hands they were bought by the last holder Vencat Row, who purchased the larger of

information we could receive particularized in the account of Garden lands we have given of each Division.

N.B. this account is the Statement accompanying the Report the particulars of which have been given in the Text.

of the two in the year 1835 for Rupees 3027-6— and the smaller in 1837 for Rupees 500 Vencata Row died 25th May last, but about a Month before his death he rented the Gardens to the parties who now occupy them on a lease for five years at the rate of Rupees 350 per annum. The persons who now dispute the succession to the property are Rajah Row nephew of Vencat Row and his widow Ghereboya alias Govoo boye Ammaul on behalf of a child whom she states that she has adopted after her husband's death.—

3 It has been already shown that the conditions and objects on and for which these gardens were first granted cannot now be ascertained, but looking to the length of time for which they have been held free of Assessment in one case for at least 112 years in the other for perhaps as long a period and certainly for 74 years and to the heavy prices paid for them by their late holder Vencat Row the Board would be reluctant to advise any other

‡ i.e. from 1772.

course than their continuance to his heirs.

4 The right of succession to the property of Vencat Row is as has been stated contested by his Nephew Rajah Row and his widow on behalf of her alleged adopted son. It should at the same time be remarked that the deceased Vencat Row was the eldest son of the late Madhoo Row who was for many years Head Sheristadar of the South Arcot District and on whom in consideration of his long and faithful services the Government were pleased to confer a Shotriem for three lives. Vencat Row was the second of those lives and on his death the Board 13th July 1846 recommended to Government under the advice received from the Collector that the Shotriem should be continued for the last life in the name of his Nephew Rajah Row which was sanctioned by Government 20th July 1846. At the date of their respective letters on the subject neither the Collector nor the

Board

Note Madhoo Row's family

Madhoo Row Original Shotriemdar and 1st life.

Vencat Row eldest son 2nd life died 25th May last.

Ramachendro Row younger son of Madhoo Row died in his father's life time.

Rajah Row 3rd and last life in the Shotriem.

Board were aware of the claim now advanced by the widow of Vencat Row. It will however be perceived by the correspondence herewith forwarded as noted in the Margin that the widow now asserts that Ramchendra Row father of Rajah Row and her husband Vencat Row had divided their property and that the latter had on his death bed directed her to adopt a son which she has subsequently done in conformity with his instructions. She therefore claims the Shotrium and the Carayara vettacoopum Enam Gardens as part of the share of the family property belonging to her husband, and devolving on his demise on her adopted Son.

5 The Board have referred to the Collector of South Arcot on the subject of Geriboyed Claim and the report received from that Officer 23rd November shows that the alleged division of property between the sons of Madhoo Row and the reality or at least the validity of the asserted adoption are highly improbable. The partition of property is supported by no witnesses and rests only on a memorandum said to have been

Fort St. George 4th January 1847

been made by Madhoo Row shortly before his decease but which does not appear to the Board to have any material bearing on the question. No mention was made by the widow of her intended adoption in a Petition addressed by her to the Collector a few days after her husbands death nor until nearly 6 weeks had elapsed and the adoption ultimately took place at Arnee a place at which none of the parties concerned reside. On the other hand the division of family property between the sons of a man so well known throughout the South Arcot District as Madhoo Row could scarcely fail to be a matter of notoriety and if true capable of clear and satisfactory proof. The intention of Vencat Row to adopt a Son must also have been well known and that intention together with her purpose to act upon it would naturally have been represented by the widow to the Collector in the first communication made by her to him after husbands death.

6 Under these circumstances the Board would beg to recommend that the

Fort St. George 4th January 1847.

the Enam Gardens at Carayaravetta Coopum be continued to Rajah Row as heir of the late Vencat Row - It will be for the Consideration of Government whether they will grant authority under Section II Regulation IV 1831 to the widow to institute a suit against Rajah Row for the purpose of proving the alleged adoption and for the recovery of the Carayaravettee Coopum Gardens and of the Shotriem - The Board are not however prepared as regards the Shotriem to advise this course under the circumstances of the case particularly in advertence to the fact that Rajah Row is the lineal descendant (Grand Son) of the original Grantee - As the Gardens on the other hand were acquired by purchase and may be considered as forming part of the Property of the Family whether undivided or otherwise the Board think that there would be no objection to the widow being allowed to establish her claims before the Courts -

From the Collr of South Arcot
Submitting report on the transfer to the Trustees of the several religious Institutions of the landed Davastanums endowments now under the management of the Officers of Government for instructions.
4th June 1846

Sir,

Parat. With reference to your letter forwarding Extract from the Minutes of Consultation together with its enclosures on the subject of the transfer to the Trustees of the several religious Institutions in this District of the landed Davastanums and documents now under the management of the Officers of Government. I have the honor to submit the accompanying Report recording my sentiments thereon -

2- It has already been reported by my predecessor Mr Hallett that the management of the landed endowments of the Chultra and Mudyastu Davastanums in this District is under the sole control of the Native Community and not subject to any interference on the part of the Government Officers with the exception of a small portion of land attached to the Chellumbrum Pagoda, which still remains under Circar management regarding this

For Board 10th May 1842 Consn Paras 3 & 5

this an enquiry is now being instituted and when completed its result shall be forwarded to the Board.

3. I will now briefly state my reasons for considering that it would not at this time be practicable, if expedient to relinquish the resumed Pagoda Lands to the management of their respective Trustees.

4. The Board are well aware that the whole landed property as well as the Soontrums receipts &c. were resumed and incorporated with the Circar Land in the years 1805/7 and that a fixed money payment was annually granted in lieu thereof amounting to Rupees 18020-7-5.

No 1.

5. On referring to the correspondence that took place between the Board and Mr. Ravenshaw when first determining the amount of the Money allowances to be granted to the Resident Pagoda, I find that the estimated average income derived from Lands attached to the Pagodas is computed at Rupees 32,882-7-10. The only Lands forming part of the above income which can clearly

clearly trace as belonging to the Pagodas to which they were originally granted are those comprising 15 Villages enumerated in the accompanying Statement, the remainder are scattered over various parts of the District and tho' I find such and such a portion of land entered in the Pymash Accounts as Pagoda Land, still after this lapse of time and in the absence of more detailed and specific information than I am at present possessed of I consider it would be utterly impossible for me to trace the identical Pagodas to which these scattered Enam Lands may have formerly appertained.

No 2.

6. As regards the above 15 Villages I beg to observe that they are not still recognised in the Public Books as "Pagoda Lands" but as I have already stated in the year 1806/7 "were incorporated with "the revenue lands money payment being "made from the Treasury in lieu of them" and I am therefore led to infer from the 14 para of the Despatch of the Government of India that it is neither their wish or intention that such lands should now be relinquished to the management of

No Government 20th Sept. 1815.

their

their Trustees. Moreover I would draw your attention to the assurance given by the Collector Mr. Hallett, who acting in accordance with the expressed wishes of Government advised the Trustees that the customary payments and allowances would not be withheld.

From Govt. to Board 12th June 1841 Para 4.

7. The amount of Soontrums fee 4 p.ca in this district was estimated to be Rupees 40,844-2-2. As these fees were estimated on Circar Lands which were consolidated with the Ryen Assessment when the money allowances were granted in lieu of them, it would be equally difficult for me now to trace the exact fee due to each Pagoda and would I conceive be also in opposition to the views expressed by the Honorable Court on the subject.

8. I need hardly enter into any explanation with regard to the sum of Rupees 9,377-2-10 being the Amount of fees due to the Pagodas from the Sayer and Abkary Departments. The Collection of these Fees has been discontinued for the last 3 or 4 years.

28th Augt 1841 Para 2.

Statement No 1	Rs a P
Sayer Mohonna resumed	8,087-2-10
Amount sanctioned by Government in lieu of Customs resumed	2,450-"-"
Amount annually paid in the Abkary branch of Revenue	840-"-"
	9,377-2-10

years when the money allowance was granted in lieu thereof. This together with the abolition of Land Customs would render it impossible for me to make any satisfactory arrangement with the Trustees.

9. Having now briefly stated my reasons for considering that no change can possibly be effected with regard to the items already discussed. I proceed to notice the Seven Villages and Soontrums 4 p.ca

No 3. entered in the accompanying Statement which are still exhibited in the accounts as "Pagoda Lands".

10 The first of these Villages belongs to the Pagoda of Streemooshnum, and has been annually settled under the Ryotwary System, and the proceeds paid into the hands of the Trustees after deducting the Sheotrums rent. The value of the Village estimated in the Pymash

No 4. Accounts, exclusive of Poramboke and Enam, is Rupees 1288-"-2. The average net Collection is Rupees 334-"-8 but it is expected that the value of this Village will be greatly enhanced by the irrigation works which are now in contemplation. The 2d Village belongs

Fort St. George 4th January 1847.

belongs to the Pagoda of Trevandapooram and has always been let out on a lease by the Collector and rented to nearly its full value. With regard to these Villages I would suggest that they be now restored, that an uniform system may be thus preserved throughout the District. Their value might be ascertained by taking the average net produce for the last Ten years and a fixed annual payment granted to the Trustees in lieu thereof. Should however the Board be of opinion that it would be more expedient for the Collector to relinquish the management of these Villages their orders shall be immediately carried into effect.

No. 2. 11. In addition to the above Villages there are five Dehaut Cranam Villages belonging to the Mazzeed or Mutt=tum. Since our assumption of the Carna=tic they have been retained under Gov=ernment management and the proceeds annually paid to their Trustees from my Treasury. The tenure under which these Villages were held, has on since instances by the orders of Government been recently modified, for instance the Village of Devanundal which was considered formerly

Fort St. George 4th January 1847.

formerly to have been an hereditary grant

M. of G. 7th May 1845. has been determined otherwise by the Govern=ment and as its present owner declared to possess merely a life interest in the pro=perty. Should we however now relinquish our rights to the management of these Villages, the Government will I apprehend forfeit its claim to Devanandal on the the death of the present incumbent as well as the right of changing the tenure under which the other Villages are held (as was also the case in the Village of Bomiapol=liam) should it at any future time seem it

M. of G. 21st June 1845. expedient to do so. This circumstances together with the mismanagement to which the Pagoda would probably be subjected by our abandonment, will I hope induce the Board to consider an annual money pay=ment as heretofore more advisable.

12. There now only remains to be noticed one other item Viz. the ready money Assentrum of certain Pagodas which has already been included in the Land Teerwa; and I think, should still remain under the management of Circar for the reasons assigned in the 7th para of this Report.

With

Fort St. George, 4th January 1847.

13. With regard to the measures considered necessary for the protection of the rights and privileges of the Cultivators of Pagoda Lands the endowments in this District being so very inconsiderable I am of opinion that the present code of laws is sufficiently stringent to decide any disputes that may arise. Should the occasion of the Lands be finally determined upon—

To B. 10th May 1842. P. 33.

14. With reference to the 3d para of the Board's letter regarding the means to be adopted for maintaining the sources of irrigation on Pagoda Lands in repair and for recovering from the holders their share of the expenses incurred in such repairs. I have the honor to state for your consideration my view of the several cases that may arise Viz. That all scattered Enam Lands in Nunjah should receive Circar water free of any expense, as the grant of Nunjah Lands in my opinion implies the grant of water also to render them such where however Circar water is used for converting Poonjah Enam Lands into Nunjah, the additional Kuttoo Teerah should be levied as hitherto. In entire Enam Villages the holder who may enjoy

From B. 2. April 1832
To B. 20th Oct. 1833

Fort St. George, 4th January 1847.

enjoy the Circar share should defray all the expense of Repairs &c. as has always been observed in the Dehaut Villages in this District but where an Enam Village may receive its supply of water from a Tank kept in repair at the expense of Government a portion of the outlay on such repairs as may be required should be recovered from the holder of the Land with reference to his share of the water—

15. The Government of India having already determined that the surplus Pagoda Funds shall be devoted to purposes of general utility in the District in which they may have accumulated. I have only to refer the Board to my letter conveying my sentiments as to the manner in which the surplus Funds of this District amounting to Rupees 20,087-3-11 might be most advantageously expended. I must here however state that there is a further sum of Rupees 7,300-3-10 the particulars of which will be found in the accompanying Statement, both which I cannot conceive the Board will be disposed to consider to be public property and as such to be devoted to the above purposes, without the consent of the Trustees—

M. of Cons. 4th July 1845.

To Board of Revenue D.P.P. 25th Nov. 1846.

N. B.

South Arcot Collectors Cutcherry, Cuddalore, 21st Dec. 1846.

Statement.

432

Fort St. George 4th January 1847.

To

F. Pycroft Esq.re

Secretary to the

Board of Revenue

Fort St. George

Sir,

From the Acting Coll.r of Tinnevelly — Para 1. Suggesting such arrangements regarding the transfer to Trustees of the Davastanum lands under Circar Management in this District as appear expedient.

With reference to your letter of the 15th June last, I have the honor to forward prepared according to the Form which accompanied it 8 Statements shewing the extent and Revenue of the Davastanum lands under Circar Management in this District with a 9th containing the total of the said Statements and to suggest such arrangements regarding the transfer thereof as appear to be expedient.—

32

2. The number of Enam Villages belonging to the Pagodas which are under the Management of the Officers of Government is 36 of which 16 are Sarva Enam or free of all Cess and the remaining 20 pay a reduced assessment to Government.— The first-mentioned 16 Villages with their Bariz for fusly 1254 are here = undermentioned

hereundermentioned.

		Pr.	A	P
1	Chuttrapully in Sauttoor	79	8	10
2	Melnumby pooram Do.	848	7	10
3	Thoolookurcolum in Pulliambalum	289	13	5
4	Caroovalumcolum Do.			
5.	Vadyvaul pooram in Mangoonary	—	—	—
6	Poolingandoo in Punjalmal	88	1	4
7	Oodaperoodoo — Do.	261	7	2
8	Poothentharoovy Do.	904	8	1
9	Settyapathoo — Do.	186	15	2
10	Thuroothoo in Streevygrontum	720	10	10
11	Thavainthery in Streevelly pootoor	551	5	—
12	Esoopapairy Do.	662	5	7
13	Covilputtly in Sauttoor	677	5	1
14	Meenatchypooram Asheno = lum Do.	457	13	7
15	Thanangolum Do.	79	9	8
16	Mohanoor Do.	166	15	6
		5974	15	1

3. Of the income of the Village No. 1. — 3/4 belong to the Choultry at Sauttoor, only 1/4 to the Pagoda of that Village. The Village No. 2 also belongs partly to a Pagoda and partly to a Choultry. The 3d and 4th are allotted to the Mosque at Pellat, but with this condition that any surplus after paying the

Mosque

Mosque Charges which are fixed, shall be applied to the support of the Chuttrum at Punnaracolum. As the Government on behalf of the Chuttrums, which are under its charge, possesses a joint interest in the income from those 4 Villages and the amount of the Chuttrums claim is not a fixed sum, it is submitted that they should remain in the charge of the Public Officers and that this course may be adopted without infraction of the Principle of the measure under contemplation.

4. The remaining 12 Survas — Enom Villages belong to Pagodas solely and can be transferred to their several Trustees. The Beriz of the largest of them amounts only to Rs. 904. 8. 1 and that of the smallest to Rupees 79. 9. 8. The total Beriz of the whole 12 Villages is Rupees 4,757. 1. — No Beriz has been entered opposite to No. 5 as it was not cultivated in Fasly 1254. This is generally the case. The tank having long been ruined and the Village uninhabited.

5. Of the 20 Villages paying Quit rent to Government the rent in 7 is the same every year. The largest of them yields a Revenue of Rupees 2,563. 1. 3 per Annum and the smallest Rupees 103. 4. 1. The total Summah of the whole

7 Settycolum	

7

7 Villages amounts to Rupees 6831-2-2 of which Rupees 1151-15-7 is the amount of Quit rent and the remainder Rupees 4979-2-7 is carried to the account of the Pagoda. These 7 Villages may be made over to the Trustees who will be answerable for the fixed Quit rent due to Government. Of the remaining 13 Jodegee Villages 3 Villages pay Dasacaval or a tax on Poonjah land at a fixed rate per chain of the land cultivated formerly received by the Zemindars for watching them and a fourth called Ullum-putty pays to Government both Dasacaval and Cullooyoottah. The amount accruing to the Pagodas from these 4 Villages as well as the Dasacaval and Cullooyoottah paid to Government is shewn in the subjoined Statement.-

	Beriz			Deduct Dasacaval paid to Govern-ment.			Revenue carried to the Credit of Pagodas		
	Rs	a	p	Rs	a	p	Rs	a	p
Naranapoorum in Saullore Taluk	1967	1	11	55	8	8	1911	14	11

	3863	1	8	768	10	2	3096	7	6

Above

6 There is nothing to prevent the above 6 Villages being transferred to the Trustees and the Dasacaval and Cullooyoottah due to Government being collected as from them. But the transfer of the remaining 9 Villages seems to me objectionable. They severally pay ½ or ⅔ of their income as assessment to Government and the Government Revenue thus derived varies each year with the cultivation and cannot be ascertained till the time of

	Rs	a	p
Beriz of the Villages	21775	1	5
Deducted amount remitted in favor of Pagodas	8835	14	4
Remainder received by Government	12939	3	1

Summahbundy. From the Marginal Statement it will be seen that on the total of the 9 Villages the Government assessment exceeds by 1/4th the share of the Pagoda and more difficulty may be expected in treating with the Durmakurtahs as Proprietors than with Merasidars in general. If these Villages are transferred to the Pagodas the Government revenue from them will be insecure.-

7 The subjoined Statement shews the revenue accruing to Pagodas from the different species of Enams therein detailed or by a deduction from the Beriz of Villages. These Enams can be made over to the Trustees, to be held by them if land, or obtained by them from the Merasidars if a portion of the Beriz only, in the same manner as by individuals.-

Sawmybogum on Pagoda lands	9	2,306 7 9	2,306 7 9	" "
Total	"	12,512 11 7	2,306 7 9	10,206 3 10

8. The sum of Rupees 10,206-3-10. designated Tripany in the foregoing Statement and which is appropriated to the repair of Pagodas is derived from Picha or a contribution made by all the Ryots of the District with reference to the number of heaps of corn composing their harvest. If the Trustees of the Pagodas be left to collect these Enoms themselves the ryots will be exposed to considerable annoyance, and it will be a fruitful source of dispute. I would recommend that the Enoms should be collected with the Government Kists and paid to the Trustees of the Several Pagodas in like manner as the ready Money allowances to Pagodas.

9. The yearly Sawmybogum on Pagoda lands under Circar Management amounts to Rs. 2,306-7-9 as these lands pay

full

Fort St. George 4th January 1847.

full Teerwah to Government the Pagodas having a claim to Sawmybogum only the transfer of the lands themselves to the Pagodas will be dangerous to the Government Revenue, and to the Interest of the actual Cultivators many of whom have held them for a great many years. In such a case the Government assessment would have to be collected from Durmakurtahs, and supposing they should fall into arrear I do not perceive how the Balance is to be recovered under the present Law against the ordinary Proprietor, the Government remedy would be by sale of the land but I presume that it will be held that Pagoda lands shall not be saleable for arrears of Revenue. If notwithstanding these difficulties the transfer of such lands be considered necessary as a matter of principle, I would recommend that the Collector may be authorized, as suggested in para 7 of the despatch of the Supreme Government to fix the total amount of Sawmybogum to be collected for the Pagoda from the lands severally in addition to the Circar Teerwah and that the mode of recovery of arrears to Government on Pagoda lands may be laid down by Legislative Enactment. No other expedient (unless there be a money allowance

from

from Government occurs to me at present to
than holding the lands in sequestration but this
in reality will be a recurrence to the present
state of things and is not authorized by Regu:
=lation XXVII of 1802.-

10. For the general protection of
the Cultivators of Pagoda lands I would re:
=commend the following Rules which I presume
would not be effectual without a Legisla:
=tive Enactment.-

1. The cultivating Ryots to have
a right of occupancy while they pay what
is really due by them, and that the Pagoda
Trustees be prohibited from making any
demands not authorized.-

2. If for non payment of assess
=ment the Pagoda Managers be desirous of
ousting their Tenants they should apply to
the Collector for permission whose duty it
will be to make a summary Enquiry previous
to a decision.-

3. The Managers to give putteahs
and Receipts to the Cultivators or incur the
penalty of a fine leviable by distraint of
their personal property.-

4. Settlement with the Cultivators
by division of produce to be prohibited in
Pagoda

Pagoda Villages and a grain rent on an
average of a number of 7 years substituted
commutable into money according to the com:
=mutation price fixed each year by the Col:
=lector for the Government Cloongoo Villages.
If a survey Assessment be introduced throughout
the District the same to be introduced into the
Pagoda Villages also.-

5. Remission to be granted for
Drought as in Government Villages.-

6. A Money rent to be fixed on
Topes and Palmirah trees.-

7. Enoms, Cuttoogoattah &c.
Tenures in Pagoda Villages not to be inter:
=fered with by the Managers and Money Enoms
to be continued by them as usual.-

8. The Collector to have
authority to remove the Village Officers for
misconduct.-

9. The Collector to receive power
by a Legislative Enactment to take cognizance
of the infraction of these rules, as the provisions
of Regulation V of 1822 are evidently inapplicable.-

11. In Para 3 of their Proceedings
the Board call for an opinion as to the
measures requisite for maintaining the
Sources

sources of irrigation for Pagoda lands in repair and for recovering from the holders their quota of the expense which may be incurred for the maintenance and repair of such works.

17. Of the 23 whole Villages which it is proposed to transfer to the Management of Pagoda Trustees 8 are Poonjah Villages and have no works of irrigation - In 4 of the remaining 15 Villages which contain Nunjah lands a small sum (in Fusly 1254 Rupees 33/) is annually collected under the Head of Tank Marah. In the 3 of the above 4 Villages and in one other there have been repairs to the extent of 391- in 12 years - In the remaining 11 Villages there have been no repairs during the last 12 years; and in the same number of Villages (and with the exception of one the same a Village) nothing is collected for the purpose.

13. Where no Repairs to sources of irrigation have taken place hitherto it is probable that some may be required hereafter and I think it is expedient, though the Villages belong to Pagodas that the repairs for the sake of the cultivating Ryots should be made by the Government and that a Per Centage of the Revenue should be taken from the Managers of the Pagodas to defray the expense - To avoid

avoid interference with the Villagers and disputes I would propose to fix the per Centage on the income from Nunjah land in the last year in which it was retained under the management of Government - If in any year no Nunjah should be cultivated the payment to be excused on the proof being afforded. The Collections should be kept in deposit and repairs made when requisite - In the event of very extensive repairs exceeding the amount in deposit being requisite which may happen by the breach of a Tank or similar accident the Managers may be called upon to supply the deficiency -

14. On an average of 12 years the expense of repairs to works of irrigation for the whole district has been 4343- on an average Revenue of Rupees 1216302- being in the proportion of $3\frac{5}{8}$ per Cent - I would therefore propose to fix the payment by the Managers at 4 per Cent -

The repairs hitherto made in the Pagoda Villages afford no criterion - In the 4 Villages the per Centage was $7\frac{3}{8}$ as will be seen by the Statement in the Margin -

	Rs	a	p
Marahmut Expenditure in the 4 Villages in question during the 12 years from 1834 to 1845	391	"	"
Average Marahmut Expenditure for 1 year	32	"	"
Basis of the 4 Villages for Fusly 1254	442	"	"
Per Centage of the former on the latter	$7\frac{3}{8}$	"	"

With

15- With regard to Pagoda Enoms in Government Villages, such as are considerable already pay a Marahmut Marah or contribution. Where no such payment is already made I would propose to collect in future at 4 per cent on the yearly net Bariz to the Pagoda- It will perhaps be advisable to legalize this Collection by a Clause in a Legislative Enactment and to authorize the Collector to hold the lands in deposit for balances-

16- In conclusion I would beg to represent strongly the inconvenience that is felt from the want of a Legislative Enactment regarding the succession to the Office of Trustee to Pagodas, and the persons by whom they can be sued for Malversation- Since the appointment of Trustees many vacancies have occurred from deaths and resignations and some Pagodas have been left with an insufficient number- In some cases I have intimated that if the remaining Trustees are willing to associate with themselves the heir of their deceased Colleague- I would recognize him so far as permitting him to join in giving a receipt for the Government allowance and in one or two cases where a Pagoda has been left entirely without a Trustee-

I

have offered to the extent above stated to accept the election of the Villagers, but in all cases I have declined to issue any fresh summons. I would not press the subject but that I apprehend that the want of a Legal Provision in regard to it is the cause of considerable discontent-

17- One question I beg to ask of the Board as relevant to the subject of this letter- What course is to be pursued in case all worship at a Pagoda is notoriously discontinued- if the Enom is continued it will then constitute a private Income to the Trustees-

+No. 10- 10- A separate Statement+ shewing the extent of Pagoda lands under Circar Management which for reasons already Mentioned it is deemed inexpedient to transfer to the Trustees is herewith transmitted as required in Para 5 of your letter under reply-

Tinnevelly 21st December 1846-

From the Collector of Sd Trichinopoly } Parat. Reporting with reference to the Extract Proceedings of the 21st May last relative to the degree of relationship in which Kareem Saib Beebee and Syed Homed stands respectively to Shah Jummaub Ooddeen Hoossain.

With reference to the Extract from the Board's Proceedings under date the 21st May last I have been in vain endeavouring up to this time to procure satisfactory testimony as to the degree of relationship in which Kareem Saib Beebee and Syed Homed stands respectively to Shah Jummaub Ooddeen and Shah Jummaub Ooddeen Hoossain, whose names are entered in the Register as the Original Enamdars of Sumbutt and Hostapatt — Syed Homed is not to be found and Kareem Saibiba (the Petitioner) has furnished me with a genealogical list, of which a translation is herewith sent, according to which she is a great grand-daughter of Peer Shah Hoossain who was a nephew of the Original grantee and inherited his Office and grants — the two names — Shah Jamaul Ooddeen and Shah Jamaul Ooddeen Hoossain belonging

(according

Fort St. George 4th January 1847.

(according to this Statement) to one person. the knowledge of which fact Hareem Sahiba states she derived from her mother. but this is at variance with — Wallajah's Enoyetnamah from which it would appear that the above names belonged to an Uncle and Nephew in Mr. Wallace's register the names are ascribed respectively to Father and Son and in Mr. Travers a different degree of relationship is noticed as being said to subsist between them -

2 — It is not to be expected that at this distance of time such discrepancies can be reconciled - I have had many persons before me from whom I thought it possible that I might be able to elicit some information - but the only evidence at all bearing on the subject is contained in the accompanying translations of two depositions besides the petitioners own assertion in favor of her genealogical list above alluded to —

Ordered that the foregoing letter be submitted with the following address -

To the Chief Secretary to Government.

(33-34)

To the Chief Secy to Govt

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of an order of Government of the 19th September 1845 transmitting Petition No. 1264 of 1845, and requesting them to report whether the case falls under Regulation IV of 1831.

Petitioner submitting with reference to the tender of Govt. transmitting for report petition No. 1261 of 1845 relative to the claims of the petitioner to the Enam Village of Shembuttu Pottaputtu in correspondence with the Collr of Trichinopoly stating that the villages were conferred for charity & that the grant is therefore of the description specified in

3311.

2 - In reply I am directed to forward the accompanying correspondence which has passed between -

481.

Fort St. George 4th January 1847.

in Regulation IV of 1831 also suggesting that a reference be made to the Judges of the Sudr Adalut that instructions may be issued to the Subordinate Judges & Mahratta Talliaries to communicate to the Revenue Authorities the attachments and intended sale of all Lands Enam as well as Ain-

between this Office and the Collector of Trichinopoly upon the subject - From this it will be perceived that the Enam Villages of Shembuttu and Pottaputtu, to which the claims of the Petitioner relate were conferred for charity, and the grant is therefore of the description specified in Regulation IV of 1831. These Villages are held under a Purwanah granted by Mafans Khan, brother of the Nabob Mahomed Ali dated Hijree 1157 or A.D 1742, and under an Enogetnamah issued by the Nabob Wallajah bearing date Hijree 1208 or A.D 1793.

3. From the tenor of the former of these documents, the grant would seem to have been personal and for life. In the Enogetnamah, which however is not free from suspicion, the Enam is continued to the Mootaliff Khan of the original grantee Shah Jamaul Oodeen that is to those of his family who were living at the date of that instrument and "also from generation to generation of his family." These latter words however have not been usually held to convey absolute hereditary right, and as they are in the present instance complied with the mention of the Mootaliff Khan

A.D 1793.

Fort St. George 4th January 1847.

Mootalikham, there seems to the Board to be no doubt that the alienation was not intended to be perpetual, or to extend except at the pleasure of the ruling power beyond the heirs of the original Grantee who were alive at the time when the Grant was continued by the Enoy etnamah.

4. The Petitioner Fakeereem Sahibah Beebee from her age, must have been alive when the Enoy etnamah was issued. If therefore she is as she alleges a descendant of the first Grantee a point which it will be for her to establish before the Civil Court, she is one of the Mootalikham referred to in that document. She represents herself to have an interest in the half share of the Enam held by one Syed Hamed but lately sold by him to another party, unconnected with the family and without her knowledge or consent and she now solicits the permission of Government to enable her to institute a suit in the Civil Court for the recovery of her portion of the share. There would appear to be no objection to a compliance with this request, but with the distinct understanding

Fort St. George 4th January 1847.

understanding that the permission will in no way preclude the Government from dealing with the several shares of the Enams as may seem fit on the occurrence of lapses among their holders.

5. In the concluding Para of his letter of 12th February last, the Collector points out the manner in which shares in this Enam have been alienated, under process of Court, to parties unconnected with the family of the original Grantee and adds "this will show the Board how necessary it is that Courts should be required to give notice of the sale, under their decrees of land of whatever description." The transaction alluded to occurred prior to the passing of Act XXIII of 1838, and consequently at a time when the Enam was liable to attachment "for the discharge of the debts personally incurred by its holders." As a general rule however, the Board quite agree with the Collector that the attachment and intended sale of all lands Enam

x Date of sale 2 May 1837

as

Fort St. George 4th January 1847

as well as Dir. should be communicated by the Courts to the Revenue authorities, in order that the latter may have an opportunity of offering any objections to the measure which the interests of Government may seem to require - On this point the Board would beg to suggest, that reference be made to the Judges of the Sudr Udalut, to the intent, that should they concur, the necessary instructions may be issued to the Subordinate Tribunals -

To.

Fort St. George 4th January 1847.

To.

The Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to submit for the orders of Government the accompanying correspondence which has passed between this Office and the Principal Collector of Madura on the subject of a Maniem in the Caroongalgoody Village of the Meyloor Talook of his District at present enjoyed as a Mutturm Maniem, but which is recommended by Mr. Blackburne to be resumed as a life Maniem, and having no connection with Danasanums -

From this correspondence it will be seen, that the Maniem in question assessed at Rupees 42-7-8, but charged with a quit rent of Rupees 9-6-8, is stated to be held under a deed of gift engraved on Copper, which purports to have been executed 360 years ago by the then Zemindar of Meyloor, and whereby the Maniem is assigned for the support of a Mutturm - In the Survey accounts of

37 38

To the Chief Secy to Govt.

Submitting a correspondence with the Pl. Collr of Madura on the subject of a Maniem in the Caroongalgoody Village of the Meyloor Talook which he recommends to be resumed and stating that as it appears to be a Mutturm or service Maniem the Board would recommend that it be continued -

From Principal Collector
10th June in Con. 13th July 1846
To Do. 13th July "

From Do. 10th Augt in Con. 24th Sept. Canteer "
Proceedings 24th September "

From Pl. Collr 26th Novr. in Con. 4th January 1847.
3650 -

12¾ Regt. 4th April 1847

Fort St. George 4th January 1847.

of Fusly 1212, the enam seems to be entered as a Mutturn enam in the name of Cunnoo Pundaram. In the Register of Fusly 1217 the same Pundaram is entered as enjoying the endowment of a Mutturn, and in that of Fusly 1223 the Manium is said to have been granted for subsistence and for performing ceremonies in a Mutturn. A Mutturn is also still supported from the proceeds of the Manium, which is its sole endowment Cunnoo Pundaram, the Manicandar already mentioned, died without male issue in Fusly 1228 / 1818/19, since which time the Manium has been enjoyed in equal shares though without alteration in the Registry, and the service of the Mutturn performed by his Nephew Sister's Son Moottoviadooga Pundarum, and his Son-in-law Aroomooga Pillay. His latter sold four Goolies of the land, in Fusly 1247 / 1837/38 for Rupees 38, to another party who still holds it.

The Board cannot concur with the Principal Collector in considering this Enam to be a subsistence Manium. Looking to the deed of gift, to the various entries in the Accounts and to the fact of a Mutturn being supported from

P.G.R.

Fort St. George 4th January 1847.

from the proceeds of the grant, the presumption appears to be in favor of the Manium being a Mutturn or service Manium and the Board would therefore recommend that it be continued and registered in the name of Aroomooga Pillay as Son-in-law and heir of Cunnoo Pundarum, but without interruption to the joint enjoyment of the Manium by Aroomooga Pillay and Moottoviadooga Pundarum which seems so long to have obtained.

The alienation of the 4 Goolies which were sold in Fusly 1247 / 1837-38 is however clearly improper, and the Board would suggest that Aroomooga Pillay be allowed a certain time within which to redeem the land and re-annex it to the Manium.
