Fort St. George 7th January 1847.

It is evident that during the last 23 years the Cultivation has increased for notwithstanding a sum of about 6800 Company's Rupees allowed as Remission at 25 Per Cent on the original assessment the net Revenue rose as high as Rupees 27,415. This result I think affords some ground of excuse for the Ryots not performing their agreements to increase the Baruz.-

See Para 9. 17. Mr Vincash states that "on the "average 1 acre of wet land is equivalent to 2 Candys which "would yield under the original and Renters "Collection 12 Star Pagodas or 11 — 4 — " Canterey "Pagodas The survey assessment is 9 Canterey "Pagodas additional assessment on the 2nd Crop "4½ making a total of 13½ which is less than the "amount collected by the Renters and since the "Remission of ¼th has been allowed the present "demand for both Crops amounts only to Canterey "Pagodas 11 — 2½ The Ryots therefore "have but "little reason to complain". I do not agree with Mr Vincash in this nor can I admit the correctness of any part of this Statement- The extent of wet land Cultivated at the time of Survey is 1005 acres. The assessment thereon at 11 — 4 — " as mentioned by him would have been C Ps 11472 or Company Rupees 12210 which is quite out of the question as the Revenue will observe by the accompanying Statement

Fort St. George 7th. January 1847.

It is evident that during the last 23 years the Cultivation has increased for notwithstanding a sum of about 6600 Company's Rupees allowed as Remission at 25 Per Cent on the original Assessment the net Revenue rose as high as Rupees 27415. This result I think affords some ground of excuse for the Ryots not performing their agreements to increase the Baruz.-

See Para 9. 17. Mr. Vincash states that "on the "average 1 acre of wet land is equivalent to 2 Candos which "would yield under the original and Renters "Collection 12 Star Pagodas or 11 — 4 — " Canteroy "Pagodas The survey Assessment is 9 Canteroy "Pagodas additional Assessment on the 2nd Crop "4½ making a total of 13½ which is less than the "amount collected by the Renters and since the "Remission of ¼th has been allowed the present "Demand for both Crops amounts only to Canteroy "Pagodas 11 — 2½. The Ryots therefore "have but "little reason to complain". I do not agree with Mr. Vincash in this nor can I admit the correctness of any part of this Statement. The extent of wet land Cultivated at the time of Survey is 1005 acres. The Assessment thereon at 14 — 4 — " as mentioned by him would have been C Ps. 14472 or Company Rupees 12210 which is quite out of the question as the Board will observe by the accompanying Salwar Statement

Statement of 60 years Revenue, that no such Bariz was ever levied in any one year.

18 The Ryots being reduced to Poverty and the assessment which they pay appearing high and because the Rices afford no return I beg leave to recommend the entire exemption of the Butter Produce of Serogojopah from all demand of "Tupelgastee in the same manner as it was allowed by Mr. Robertson to the adjacent Village of Dasanoor.-

19 The demand of the Tax which I now recommend be remitted has formed subject of discussion for a series of years. Many Collectors have declared the Butter Produce liable to payment and others have held a contrary opinion (viz in favor of the exemption) and tho' the reimposition of the Tax had been once determined on, still I am of opinion in the event of an adherence to any such determination that the Ryots will not cultivate the land. The Village being situated in the immediate vicinity of His Highness the Nizams Frontier they can easily emigrate into that Country (since before had occasion Vide Para 41. to notice in my Summary Report of Trichy 1252 the circumstances of their having fled to that Territory. It would be no surprize if a similar event were to take place the consequence being

being the abandonment of the Cultivation.-

20 With reference to that part of Mr. Vide Para 7. Vivecahs report in which he stated that the reduction of the fixed assessment by Mr. Campbell led to complaints from Kumpely Cultivators who claimed the same indulgence I beg to add that none of the lands irrigated by the Tombadrie nalas in the Kumpily & Koodlighee and Adonie Talooks are above 12 Rupees (Talooka) per acre, while the net demand on an acre at Serogojopah amounts to Company's Rupees 19-4-. The wet & lands in these Talooks are not left uncultivated with Paddy for the 2nd. Crop as at Serogojopah The case is widely different, they cultivate the latter Grain as much as the supply of water enables them to do, also Sugar cane to a considerable extent. In my opinion Dasanoor and Serogojopah are alike and equal in respect of claim. The former enjoys an indulgence which the latter does not and I see no reason why it should be so.-

21 The value of this inferior Grain I have shewn else where in the report, and if it be thought absolutely necessary by the Board that I should suggest a Plan consistent with the object of maintaining the survey in its integrity and yet ensuring the Cultivation of the land I

Fort St. George 7th January 1847.

I would in that case submit here under the following.-

A Moiety of the assessment or Jufulgastee per acre
12 — 12 — "

Deductions.-

One fourth. Established remission — 3 — 8 — "

Temporary remissions under head which all except to be entered & limitting the demand to the extent of the produce — 6 — 9 — "

Net demand of Government to be recovered on each acre — 2 — 12 — "
3 — — "

22. The foregoing calculation will shew that the Circar gains the whole produce in the shape of Seerva and the Ryot the stocks and leaves of the Buller for his share to fertelize his land. The Cultivators will object to this and I shall be glad if it should please the Board to remit altogether this trifling impost. The Dasanoor Ryots have enjoyed an entire exemption from the Tax from Fusly 1242.-

23 I cannot conclude this letter without soliciting the early attention of the Board to this important subject. It requires their early instructions.-

24.- I should longere this have reported to the Board the difficulties of this matter but it must be remembered that the dispute is

Fort St. George 7th January 1847.

is of more than 20 years standing that directly contrary opinions have been officially recorded upon it. The Ryots themselves increased the difficulty by their untoward conduct and total want of good faith, it is inexpedient to enter into any compromise with them they leave no intention of adhering to their engagements.- On the other hand laying aside these considerations and viewing the whole matter it cannot be doubted that there exists ground of complaint.- Patails have died and been removed Tahsildars have been changed but yet the same difficulties occur.- a conspiracy may exist for a time, but can hardly go on for years transmitted from Father to son.- Under this impression. I beg as the result of every enquiry and of some years experience to urge the course proposed in the 18th Para of this report.-

20.21

To the Collector of Bellary---

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 29th October last on the subject of the levy of Fuzl Jastee on Buller cultivation in the Serroogoopah Village in your District.-

2. In reply the Board instruct me to inform you that before passing orders on your letter they wish to know whether the raising of Buller or any similar dry Grain in Nunjah land obtains in any other Villages of your District besides Dasanoor and Serroogoopah and in such case whether any, and if so what assessment is paid upon it, what are the circumstances of the several cases as compared with the case of Serroogoopah - and how far the grant of any indulgence to the Ryots of this latter Village would be likely to lead to applications for similar concession from other quarters.-

3. The Board also desire to be informed whether the Cultivation of Buller or dry Grain of a like description in wet land was taken into consideration at the time of the survey, and whether any definite orders were then passed upon the subject.-

To T. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

22

From the Collr of Bellary----

Forwarding transcript of a letter from Mr Abraham Proprietor of Tent for certain Houses & Gardens in the Cantonment at Bellary respecting Quit rent demanded thereon & stating that it is fair to tax all Houses invariably according to the survey assessment only excepting where this rate is higher than the old grant when the difference may be allowed.-

Sir

1. I have the honor to request that you will lay before the Board of Revenue the accompanying letter from Mr Abraham Proprietor of Tent for certain Houses and Gardens in the Cantonment at Bellary respecting the Quit Rent demanded thereon.-

2. Mr Abraham complains that the Amount of Quit Rent charged on the 3 Houses referred to in the 2d Para of his letter is excessive and requests that the same be limited to the Survey assessment of the land.-

3. These 3 Houses are held under Government Grants and the demand of Quit Rent has been made conformable to the first Para of the Rates prescribed by Government under date the 15th June 1844 / Circulated by the Board on the 8th July following / which runs thus ---

"1st That the terms of the Grants which have "been obtained for lands situated in Military "Cantonments shall be respected and that "such lands shall pay the amount of Quit "Rent stipulated in those Grants." In fact it is according to the terms of the Grants that

" that the Bills have been made out in the instances under reference.

4. The Board are aware that the tax on one House will and must vary with that of another under the operation of the different articles of the Rules above quoted and with reference to the extent of the compound the Survey rate 7½ 7½ of Premises. Such being the principle of taxation, the demand cannot admit of the comparison which Mr. Abraham appears to have drawn in the 3d Paragraph of his Contrasts (No. 114 being one of the 3 now under reference) with No. 66 and 126 in the same locality, and shews the difference. The first of the two latter does not appear to be held under any Grant, at least none was produced, and the second is one of those lately erected and held under the new form of Grant, which prescribes the Quit-Rent invariably at C. Rupees 3-8-" whatever may be the size of the House and Compound and the Survey Assessment.-

5.

	Quit Rents as per Grant and Bill.	Survey assessment of the lands as per Survey account
No. 114 - House	3 —	3 — " — 7 — " —
No. 117 - D. -	4 —	5 — 10 — 11 — 1 — 8.
No. 116 - D. -	4 —	6 — 11 — 11 — 8 — 5.
No. 66. D. -	10 —	2 — 9 — 10 — 2 — 9.
No. 126 - D. -	3 —	8 — " — 13 — 12 — 6.

But considering the material difference which the Comparison exhibits and that which will appear, were the demand restricted to the Survey Assessment of the land, I am of opinion that there is some hardship

* Probably issued previous to the resolution of Government Conveyed in the Board's Circular of the 27th October 1845.-

hardship in the instances represented, and have therefore thought it proper to refer the matter for the consideration and orders of the Board as I am not aware of the circumstances under which the Rule 1st requiring the terms of Old Grants to be respected is based.-

6. In further elucidation of the matter I beg to state that the House now occupied by Major Reid C.B. (Bill No. 126) was recently erected and though the Quit Rent according to the Survey rate was communicated by me to the proper authorities by whom the application for the land was referred to me for report yet the Grant issued thereto exhibited a Quit-Rent of only 3½ Rupees. In the same manner, in the cases of other applications made at the same time with the No. 126 the Rent appears fixed far below the Survey assessment reported by me.- The consequence of this is that Premises consisting of large tracts of land (Major Geogh—— and for instance 28 acres) are of late charged with the low Rent of 3½ Rupees (as the terms of their respective Grants shew) while Houses of small size held under old Grants (produced) are subjected to the payment of ten times the above Rent.- Thus it will be observed that this

× Major Geoghans
Captain Reills
Mr. Abraham-

Fort St. George 7th January 1847.

This high Tax is made a punishment to the Proprietors of small Houses for having produced their Grants at the requisition of the Circar. For those Houses for which no Grants have been obtained, or not for the coming, the Survey assessment only has been fixed.

7. I must in conclusion add that the collection of a few hundred Rupees in the shape of Quit Rent is attended with more difficulty and confusion, than the Collection of Lacs from other sources in this District, while the difference in the demand between one House and another such as those pointed out by Mr. Abraham has led to much discontent and complaint on the part of the Proprietors. Under these circumstances, it appears to me fair to tax all Houses invariably according to the Survey assessment only excepting where this rate is higher than the old Grant when the difference may be allowed.

Fort St. George 7th January 1847.

A. Mellor Esqre
Collector of Bellary.

Sir

1. I beg leave with reference to three Bills preferred against me for Quit Rent for Fusly 1255 for Houses belonging to myself and under my care to solicit your kind consideration of the following circumstances connected therewith.

2. I am informed that Quit Rent has been charged according to the terms of the Grants under which the Grounds are held, but as the difference between this rate and that at which almost all other Houses in the Cantonment are assessed, is in the case of one of the Bills alluded to above very great, I take the liberty to submit the following Statement contrasting the rates charged in the Bills and that to which the Houses would be liable if assessed in common with others.

Bill	Houses	Measured Extent			Assessed as per Bill			Survey assessment less one fourth remission		
		A.	G.	A.	Rs.	a.	p.	Rs.	a.	p.
No. 114	House occupied by Captain Elphinstone	9	12	"	31	3	"	7	"	"
No. 117	Houses occupied by Mrs. M. Abraham	14	22	4	44	5	10	11	1	8
No. 116	House belonging to Estate of the Late Mrs. M. A. Rofs	10	27	"	47	6	11	41	8	5

3. I beg to state that Houses No. 114-

Fort St. George 1st January 1847.

is situated on the same line of Road with the Houses occupied by Brigadier Bird and Major Reid C.B. and though no other Houses intervene, and the extent of the compound is much less the Quit Rent charged thereon is much higher Viz.t.-

		A.	G.	St.	Pt.	a.	O.
No. 114	Captain Elphinstone	9	12	"	31	3	"
" 66	Brigadier Bird	13	12	4	10	2	9
" 126	Major Reid	17	39	10	3	8	"

In like manner the House and Ground occupied by Mrs. M. Abraham is assessed at Rs. 44-5-10 a Pt. altho' it does not exceed 4/p acres but the House and Grounds occupied by General Anderson altho' held under a similar Grant and the Ground extends to 40 Acres is assessed only at Rs. 22-14-7 a Pt. and I believe all other Houses on the same line as the Generals are similarly assessed.-

4. Permit me Sir to bring to your notice, the inconvenience arising to parties concerned from one House being more highly taxed than another, altho' situated in the same localities and the depreciation in the value of property which must ensue in consequence, and also, that large allotments of Ground having been made when Quit Rent was not levied, it follows that many old Houses of little value owing to their

Fort St. George 1st January 1847.

their being erected on large pieces of land held under Grants, have much more Quit Rent to pay than other new buildings which yield twice as much rent but being situated within small compounds have little to pay to Government.-

5. The Grants which are subject to so large a Rent were made over by the former proprietors and as they always enjoyed an exemption from the payment of Land Rents- the present holders of the property naturally anticipated a similar benefit but as Government have within the last few years directed the collection of Quit Rent it is to be hoped that an uniform system and rate will be adopted and that all Houses will be assessed alike.-

6. I therefore submit this appeal to you in the hope that you will be pleased to direct the Quit Rent Bills to be withdrawn and others preferred in conformity to the survey Assessment subject to the usual remission or according to the terms made applicable to Houses situated beyond the Military limits but held under Government Grants.-

Bellary 28th October 1846.

Read.

1264. Fort St. George 7th January 1847.

Read the following letter—

To F. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George—

24

Sir,

From the Collr of Bellary—

Requesting early information on certain points connected with the Proclamation by Government regarding the Madras weights and Measures—

By the Proclamation of Government dated the 16th October 1846 published in the Official Gazette it is notified that the Madras Weights and Measures of which Tables were thereunto annexed shall alone be used on and after the 1st January 1847 in the Revenue, Commissariat and other Public Departments throughout the Presidency of Fort Saint George Madras, and that all the Public accounts shall be kept therein, duly authenticated Standards having been furnished to the several Heads of Departments throughout the said Presidency for this purpose.—

2. With reference to this Proclamation, I beg to submit the following for the consideration of the Board.—

3. The Board have already on the dates noted in the Margin, directed the adoption in the Sayer Department of the Standard of 3200 Tolas to the Indian Maund under Act VI of 1844. agreeably to their suggestion. I have under date the 14th August 1845 submitted an Estimate for making up 6 Sets of Standards but no sanction or reply to the reference has yet been received.—

× 5th December 1844
23d June 1845

The—

1265. Fort St. George 7th January 1847.

4. The Proclamation now issued is not explicit as to whether the Standard 3200 Tolas to the Indian Maund has been superseded by the Madras Weights and Measures or whether the former still stands good in the Sayer Department. I therefore request specific instructions on this point.— If the Board be of opinion that the standard of the Indian Maund should continue, no time should be lost in granting their sanction to the Estimate.—

5. I wish also to be informed whether the Madras Weights and Measures as now published should be used only in the Public Departments and their accounts kept accordingly or whether they are to be adopted also by the People in general, Merchants, Ryots and other Inhabitants. If the latter be the object desired I do not imagine that the People will be able to comprehend the equivalents of Madras weights shewn in imperial standard Viz: Avoirdupois and Troy Pounds Ounces and drachms and dimensions of Measures in Cylindric Inches and tenths, nor can I under this principle of reform / foreign as it is to the Country / calculate upon the practicability of a successful introduction of the Madras standard. It appears to me that the

Fort St. George 7th January 1847.

the equivalent of Company's Rupees and convenient fractions thereof in weights would render this Madras standard easily and perfectly understood by all descriptions of People in this Provence.

6. Being in possession of one check set of this last mentioned Standard weights and Measures supplied from the Public Stores I might according to what I have above pointed out regulate a Table shewing the relative proportions in Company's Rupees &c. of the weights and Measures in my District to the Madras Standard, but not I fear with that perfect exactness and accuracy with which it would be prepared by professional Men. I have under these circumstances the honor to request that the Board will obtain for me from the proper Quarter Tables exhibiting those equivalents with which the generality of People are more commonly and familiarly acquainted.

Bellary District, Collector's Office on Circuit at Hospett 3d December 1846.

Proceedings thereon.

Informing the Coll.r of Bellary in reference to his letter of the 3d Ulto. that where the Indian Maund is specified in the import & export Schedules annexed to act VI. 1844 the Maund of 3200 Tolas must still be employed and requesting him pending the final orders of the Supreme Govt. in regard to the continuance of the Hydrabad frontier Chokies, to make the best arrangements in his power with the Sayer Weights now available.

In reference to Para 4 of the above letter the Collector is informed that where the Indian Maund is specified in the Import and Export Schedules annexed to Act VI. 1844 the Maund of 3200 Tolas or Rupees must still be employed.

The estimate submitted by the Collector under date 14th August 1845 has not been forwarded by the Board for the sanction of Government in Consequence of the uncertainty existing in regard to the continuance of the Hydrabad frontier Chowkies when the final orders of the Supreme Government on this question shall be received, the Board will take measures accordingly. In the interim the Collector will be pleased to make the best arrangements in his power with the Sayer weights now available.

2. The Board understand that the use of the Madras Weights and Measures as published in the Fort St. George Gazette of 16th October 1846 is to be confined to the Public Departments and is not to be made Compulsory

Fort St. George 7th January 1847.

" compulsory upon the people in general who are at liberty to continue to employ in their trasactions among themselves those those weights and measures which they have hitherto been in the habit of using. at the same time the Revenue Officers should explain to them the advantages which would result from Conforming to the standard now established and encourage its introduction as much as possible.-

3. In reference to the observations contained in the 5th and 6th Paras of the Collectors' letter the Board would point out to him that the Tola which is the basis of the System of weights &c specified in the Government Notification and of which the weights are all multiples is the equivalent in weight to the Company's Rupee. The table therefore referred to by the Collector will run thus.-

1 Tola = 1 Company's Rupee

1 Pollam = 3 Tolas or Company's Rupees

1 Viss = 40 Ds = 120 Ds

1 Maund = 8 Ds = 320 = Ds 960 Ds

4.- The depth and diameter of the measures are given in the Proclamation in inches and tenths and it does not occur to the Board that the dimensions of these measures could be expressed in any preferable manner.-

From the Asst. Collr. of Cuddapah ---

Sir,

With reference to your Circular letter of the 19th January last requiring me to ascertain whether the several Taluk Cutcheries in this District are supplied with Translations of those Madras Regulations or acts of the Supreme Government on Matters of Revenue or Police necessary for their guidance and to adopt measures to make good deficiencies I have the honor to state that the deficiency of such Regulations and Acts as I think every native Functionary at the Head of a Taluk Cutcherry ought to be supplied with is very great in every one of the Taluks to make which good the means at my Command are inadequate and to submit as required a Memorandum shewing the Nos. of Copies Translation of which in Telugoo are required.

17th December 1846.

/Signed/ J. H. Cochrane
Acting Collector

Order thereon — Ordered to lie in the table.

(27-27a.)

To

Fort St. George 7th January 1847.

To J. Tycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir,

(28)

From the Actg. Coll.r of Cuddapah - - -

With reference to your letter of the 17th August 1846 I have the honor to forward for submission to the Most Noble the Governor in Council a Statement in the Form required shewing the Annual Revenue drawn from the Land in this District during the last 30 years Viz.t from 1816 to 1845 inclusive, and to enter in the Column of remarks a note of the chief causes which in my opinion have contributed to render the Land Sale in this District stationary as it appears to be.

The District since the remissions granted to all lands in 1811/12 cannot be considered a highly assessed one. The assessment on the lands after deducting these usual Remissions is in my opinion fair and equitable to the Ryot with reference to the quality of the soil notwithstanding the depression in the prices of grain which must be remedied by a ready outlet being afforded for the Surplus produce of the District.

Cuddapah District, - -
Collector's Office on Circuit

Ordered

mainly depends failed to an extent which produced most unfavorable consequences.

4. The Southern Talooks of Carangooly, Chingleput, and Tiruvelore situated on the Sea Coast were benefited by more plentiful Showers than the remainder of the District and their Tanks received generally half and in some instances three fourths of their usual supply. The unfavorable effects of the season were most felt by the Northern and Inland districts, as instances of which I would mention that the Palar, Cuttilar, and Cheyar rivers had only slight freshes for a single day, and the large Tank of Cheembrumbaukum watering 58 Villages received but 2 Months supply. The supply received by the smaller Tanks was generally of an equally limited extent.

5. In consequence of this unpropitious state of the season much Nunjah land remained uncultivated and a considerable portion of the Sunnah and Nanery Cultivation which was attempted failed from drought. The Season was less unfavorable to the Poonjah lands and the light Showers which fell at

at intervals brought their crops to maturity in most instances. This circumstance was of importance in mitigating the distress of the poorer ryots, and preventing the absolute scarcity which would otherwise have been felt.

6. The unfavorableness of the season extended to the neighbouring districts, and had a sensible effect upon the markets. The prices of agricultural produce were on an average 50 per Cent higher, than in the preceding year, and the ryots in the Southern Talooks where the rains were least scanty thus escaped loss, but on the whole the season was very unfavorable both as regards the interests of the people and the Government.

7. In the ryotwary Villages, the number of which is 1574 as in the preceding year, the Nunjah Cultivation fell off to the extent of 20089 Cawnies in consequence of the Tanks failing to receive their usual supply. The Poonjah lands under the plough exceeded those of the previous fasly by 6786 Cawnies, and the garden Cultivation also shows a trifling excess of 89 Cawnies. These two descriptions of cultivation are less affected than the Nunjah by a partial failure of the periodical rains, and the ryots appear to have resorted to them as far as the season permitted. The net decrease in the Settlement Compared with the previous year amounts to Rupees 18,913-8-4 or 2 per Cent.

10 Before adverting to the causes which have led some of the Villages in the foregoing Statement to be placed under the heads of "Amany and Rented" in the year under review I beg briefly to explain the increase of Rupees 474 — a 0 — 2 which the Statement shows in the item of quit rent. This sum has been newly levied, under the orders of Government, on some Gardens within the Cantonments of St. Thomas' Mount and Palavaram, which were either held free from assessment without authority, or had been temporarily exempted from its collection.

11 I now proceed to mention that of the 393 Villages which remained under Zemindar tenure at the Close of the preceding Fasly, six reverted to Government in the course of the present year by purchase when the Inostah of Ayacoluttoor to which they belong was sold for arears of Revenue. Four of these villages had been rented out by the Inostahdar at Rupees 2,200 per annum, for a term of 3 years* and as the Inostah only reverted to Government in the middle of the season it appeared to me necessary to confirm this arrangement for the current year. These four Villages were therefore included under the head of "Rented" and the remaining two placed under Amany.

12. The Villages under Amany Management in Fasly 1254 amounted to five which number was increased to ten in the year under review by the addition of two from the Ayacoluttoor Inostah, as already mentioned, and of three belonging to the Reverted Zemindaries of Amoor and Cottoor. [illegible]

* Fort St. George Gazette 19th July 1845.

* Vide Minutes of Consultation dated 6th Sept. 1845.

* From Fasly 1254 to 1256.

Villages were rented in Fasly 1254, but the Ryots declined to enter into terms for renting them in the present Fasly. The aggregate settlement of the ten Villages under amany amounted to Rupees 9706 — in being a decrease of Rupees 956 — 2 — 4 or of 10 per cent below the settlement of the preceding year.

13. The annexed Statement shews the details of the Villages under amany management and under rent. The decrease in the settlement of the former is owing to the impediment which the adverse nature of the season offered to agriculture. In consequence of the Tanks not receiving their customary supply the Ayacut or Cultivation fell off to the extent of 761 Cawnies or more than a third, and the loss of Revenue which followed this diminution of Cultivation would have been greater had it not been in part retrieved by the high price at which the Government portion of the produce was sold. The decrease of Rupees 378 — 1 — 2 which occurred on the other Villages under rent, is attributable to four Villages of the Ayacoluttoor Inostah having been given on rent by the Inostahdar on terms which did not quite meet the Circumstances. It seemed to me however necessary to confirm the rent in the current year, as the Inostah did not revert to Government till the middle of the Fasly and by this time the renter had realized a considerable portion of his Collections. Any new arrangement would therefore have been attended with difficulty and confusion notwithstanding the willingness of the renter to resign his rent, and it seemed to me doubtful under the peculiarly unfavorable state of the season whether the interests of Government would be advanced by placing these Villages

* Nungalapuram 1254 — 1841 — 2 / 1255 — 1089 — 7 / decrease 761 — 11

* 1254 Quit rent 378 — 1 — 2 / 1255 (Nil) 2200 — — / Increase 378 — 1 — 2.

Amount Rents in Land Cultivation

Remissions Enquiry

Rents in Land Cultivation

Rents in Land Cultivation

Fort St. George 7th January 1847.

It will be observed from the 4th paragraph of the Settlement Statement that the settlement of the six Villages comprizing the lately reverted Mootah of Ayacolattoor shows a decrease of Rupees 76-15-11 as the purchase of this Mootah had been recommended to the Government as likely to prove profitable I must regret this result although it is attributable to the unprosperousness of the season and the circumstances under which four of the Villages were rented. The renters contract has now been brought to a close and the lands are about to be placed under a fresh assessment and I still feel confidence that the expectation of the Mootah yielding an increase of Revenue when the seasons are not adverse to agriculture will be realized in future years.

Permanent Rs. a. p. 357-87
Beriz
Berij 3199-88

Amount of Remissions on Account of Failure of Crops.

Ratio of Remissions to Assessment.

Permanent Rs. a. p. 35-1-87
Beriz

Beriz of 1255 31497-8-8
76-15-11

It will be observed from the 14
details of the preceding Statement that the settlement of the six Villages comprizing the late ceded Mootah of Ayacoottoor shows a decrease of Rupees 76-15-11 as the purchase of this Mootah had been recommended to the Government as likely to prove profitable I must regret this result although it is attributable to the unpropitiousness of the season and the circumstances under which four of the Villages were rented. The renters contract has now been brought to a close and the lands are about to be placed under a fixed money assessment and I still feel confidence that the expectation of the Mootah yielding an increase of Revenue when the seasons are not adverse to agriculture will be realized in future years.

15. I now submit a comparative statement of remissions granted in the Ryotwar Villages during the late Settlement from which it will be observed that the aggregate remissions under the different heads amount to Rupees 101328 do. 6 and exceed those of the preceding year by Rupees 6829-4-

Statement

1849 — 4th of George IV. — January 1823.

Antecedents

Mortgagor	Mortgagee	Date	Amount
Thomas Hamilton	Thomas Hamilton	1st Jan. 1823	£ 1,000

16 The large increase which it was necessary to make in the amount of remissions granted during the Settlement was occasioned by an extensive failure of the Nunjah cultivation more especially in the Northern and inland Talooks. The remissions for Usual common lands where the want of water prevented the ryots from raising a 2nd Crop exceeds that of the preceding year by Rupees 11280 — 7 — 6 as and there is also an increased remission of Rupees 2300 — 7 — 11 and 1963 — 12 — 6 under the head of lands prepared for cultivation but unsown in consequence of a failure of rain. The principal remission was however granted on account of Shavee or Nunjah crops which were entirely destroyed by drought. The amount remitted under this head is Rupees 60,365 — 8 — 5 and exceeds the previous year by Rupees 57075 — 11 — 8.

Lands ploughed when dry.
Lands ploughed when wet.

17 The necessity of remissions on such an account is doubtless to be regretted but it seems to me indispensable while the land is assessed at its present rate that indulgence should be shown when from the adverse nature of the season the crops wholly fail. With this impression it appeared to me proper to relieve the ryots from the distress and might add ruin

which the enforcement of the full Government demand would have caused on the present occasion. But in thus acting care was taken to scrutinize carefully the various claims to indulgence brought forward at the settlement and remissions were confined to cases in which the loss was proved to exceed 10 per Cent of the Ryots Beriz. The general circumstances of each applicant the produce which he derived from other cultivation and the favorable state of prices were also taken into consideration, and with these precautions the remissions ultimately allowed amounted to Rupees 60365 — 8 — 5 out of Rupees 86613 — 10 — 2 the aggregate assessment of the Nunjah lands on which the crops had perished.

18 The remissions granted for Sheantat Bunjer or portions of fields left uncultivated amount to Rupees 1731 being Rupees 672 in excess of the preceding fasly. This increase arose from cultivation being necessarily diminished by a want of water in the Tanks. In all the instances where remissions were allowed under this head the uncultivated portion exceeded half the area of the field and a rule to this effect has been inserted in the Summahbundy Hookumnamah submitted to the Board for approval. The instructions of the Board

No B.R. & Coll. 1846.

were

were also attended to during the Settlement in disallowing claims for remissions for Pullanushtum or diminution of produce as remissions on this account have been pronounced inconsistent with a fixed Survey assessment & the favorable state of the market to facilitate their discontinuance - remissions were only granted in the present year for crops which entirely failed and it will be observed that the Statement of Remissions shows no entry under the head of "Pullanushtum".

Fasly. 1254 - 1743-3-5
1255 - 768-2-9
Decrease 975-0-8

19. The remissions on account of Puncebood thy or crops destroyed by inundations amount to Rupees 768 being Rs. 975 less than in the previous years. Of the remissions which were granted under this head the chief portion or Rupees 651 — 3 — 11 were allowed for some cholum crops which had been sown in the bed of the large Cottamalore Tank and were destroyed by the Tank receiving a sudden supply of water from the Cheyar river in the Month of May.

20. The increase of Rupees 69-12-2 under the head of Inaums granted for the support of charitable institutions was occasioned by the Yearwal of the whole of the lands assigned by Government to the Choultries

× Vide letter from Government to the Board dated 12th August 1818 Minutes of Consultation dated 12th June 1820.
* and 29th Nov. 1844

Choultries at Palavoyal and Pondaswerum being deducted from the Beriz in accordance with the instructions of the Board conveyed in Para 11 of their proceedings on the Settlement of the District for fasly 1254. An account showing the various items of this description and drawn out in the form received from the Board will follow this report as its preparation is a work of considerable labour and has occasioned delay.

21. I now proceed to advert to certain points connected with the Settlement of faslies 1253 and 1254 which were noticed by the Board in their Proceedings of the 21st April 1845 and 22nd January 1846.

22. In Para 4 of their Proceedings on the Settlement of fasly 1253 the Board allude to the increased cultivation of a 2nd Crop on single crop land and desire to be informed why with an abundant supply of water measures were not adopted by the Revenue Officers to bring an additional quantity of unoccupied 1st Crop land under culture and thus realize the full assessment instead of the moiety which is leviable on land sown with a second crop. As the illness of Mr. Greeve led that Gentleman to limit his report in the past year to the fasly embodied

immediately under review. I beg now to explain that the circumstance alluded to by the Board had its origin in the peculiarity of the season in July 1253. A considerable fall of rain in the month of May enabled a larger extent than usual of the land situated near the Tanks and Channels to be cultivated with a Khar or early crop. But in the succeeding months between July and October when rain is requisite to carry on the Sumbah or principal cultivation of the year the showers were so scanty as to prevent the usual quantity of the more elevated Nunjah land. A subsequent heavy fall filled the Tanks in December but the advanced state of the seasons rendered this supply available only for the late or Navery Crop which was extensively sown both in the fields where a Khar Crop had been raised as well as on those lands which had previously remained unoccupied as far as their position and means of irrigation during the hot months afforded a prospect of their Crops coming to maturity. The season was thus most favorable to the early (Khar) and the late (Navery) Crops which are both cultivated on the low Nunjah lands possessing most facilities of irrigation but single Crop lands

land does not appear to have been neglected where its cultivation was practicable.-

33. In Para 12 the Board advert to the subject of remissions for Pullanum thum on deficient produce and request the Collectors opinion regarding the necessity of indulgence on such occasions and the mode of getting rid of this item in the Settlement Accounts & under the present circumstances of the District. On consideration it appeared to me that remissions on this account should be discontinued and I have already observed that none were allowed in the present Settlement I would at the same time beg to explain that my opinion rests on the general arguments which exist against such remissions and is irrespective of the question of the suitableness of the present survey assessment.-

24. A strong argument against such remissions is to be found in the grounds for which they afford opportunity and they seem inconsistent with the principle of a Survey field assessment fixed on the average produce of several years. It may indeed be said that a combination of low prices with an unfavorable season may render indulgence

indulgence necessary while the Standard of assessment continues high but such occasions ought to be rare and if remissions are required under a field assessment for a short produce on ordinary occasions it would seem to me to show that the rates of assessment require correction A practice of granting such remissions besides being objectionable in itself would therefore be likely to injure the interests of Government and the Ryots by delaying the removal of an undue burden on the land, and substituting a temporary and unsafe expedient for that measure of permanent relief which the welfare of the District required.--

25. It will be observed that the instructions of the Board conveyed in their Proceedings on the settlements of 1253 and 1254 have been attended to in the Hookinnamah submitted for approval in which rules are laid down for regulating Remissions on account of Shantat Bunjar and abolishing the demand of any additional Teerwa when a third crop is raised on Nunjah land.-- The Collections on this account amounted only to Rupees 128-3-6 on the present settlement and will be entirely discontinued in the ensuing year.--

26. In explanation of a collection of Rupees 18-13-6 on account of Dust Rut alluded to in Para 4 of the Boards Proceedings I beg to state that this sum was due for fusly 1254 but as it was found necessary to remeasure the two Gardens on which it was assessed as well as several other pieces of land situated within the Cantonment of Saint Thomas' Mount before the orders of Government dated 15th June 1846 were carried into execution the collection of the sum in question was not made until fusly 1255 and it was therefore carried to account under the head of Sewy Jummah.--

fusly 1254.

27. I beg to annex a Statement shewing the demand from all sources of Revenue for the year under report the Collections within the fusly and the amount which has been since realized. The Board are aware that in this District the Nuvery crop comes into the market at so late a period that the Collections dependent on it cannot be made within the fusly without causing distress, and in the present year the adverse nature of the season tended to prevent that punctual realization of the Revenue which it is the aim of the District Officers to effect.--

Acting Collector.

Statement.—

other parties on their applying for Cowles and giving security for the fulfilment of their engagements. It therefore appeared to me advisable to insert this clause to define clearly the practice which is to prevail and thus prevent disputes and facilitate the cultivation of waste lands. The Coopputtum and Grama Meraha are distinctly shown in the Swatuntram Dittum of each Village; they are deducted in framing the Assessment from the gross produce, not from the Cultivators share and their amount is so trifling that they are valued chiefly from the importance and station which the right to receive them confers. It may be added that these fees are distinct from the Swamy bogum which the Merasdars receive upon private agreement when they make over their Ryput lands to Pay Karry Cultivators.

Sagoobady Woo Kummamah

In the Sagoobady Woo Kummamah it will be observed that arrangements are made for an annual Putcut Dittum. This system is not new though it has only been partially

partially followed it being less necessary than in other Districts from land being private property and generally of a saleable value. But as the Merasdars relying on their proprietary right often neglect their cultivation when other business occupies them and thus entail loss on the Government I have considered it necessary to lay down rules for a Putcut Dittum and hope that its gradual introduction, free from strictness or severity, will secure the interests of Government without injuring those of the Merasdars.

5. Under the proposed system the Merasdars will be distinctly taught that their right to the land involves the correlative duty of cultivating it and discharging the Sircar dues. At the same time it is only intended by Para 2 that the Village and Talook Servants should assist them in finding temporary Poyakary Cultivators when they themselves are unable to cultivate except in cases of long continued neglect and the penalty prescribed in Para 12 of being called on to pay the assessment on portions of the Putcut lands left uncultivated will only be enforced where the Merasdars

Fort St. George 7th January 1847.

Meerasdars wilfully neglect their lands and prevent their cultivation by other parties. The Teeruah will be remitted in all cases where the failure to cultivate arises from the effects of the season or other sufficient cause.

Summah Kundy Woo Rummamah

6. The Summah Kundy Woo Rummamah requires more detailed remark and I beg in the first instance to allude to the arrangement proposed for the preparation of the Adungul previous to the Settlement. Hitherto the Puttamanegars and Curnums have been associated in the work with the Talook Servants but it is now proposed to leave the task to them, making them responsible for its execution and confining the duties of the Talook Servants to enquiry and supervision. The object of this arrangement is to introduce increased expedition and accuracy into the routine of public business, and as the Puttamanegars and Curnums are Meerasdars and now prepare the Monthly Cultivation Accounts, they seem equal to the importance and responsibility of the duties to be assigned to them. When the Puttah Monegars are thus trained and provided with

Fort St. George 7th January 1847.

Letter to Board 17th July 1844.

with separate allowances, as already recommended, it is expected that their efficiency and value as public Servants will be increased.

The next point to which I would beg to draw attention is the rule proposed (Para 24 Clause 5) for the assessment of Poonjah when it is permanently converted into wet land either Poonjah or Totacah by the construction of brick or stone Wells. In Salem and also I believe in some other Districts it is not usual to impose an additional assessment on these occasions and the ryot is allowed the full advantage of the improvements to which he has applied his capital and labour.

If the circumstances of this District resembled those of Salem I should have proposed a similar course as it is of great importance to promote agricultural enterprise and encourage the ryots to exert themselves to secure their crops from those occasional failures of the rains which are attended with such disastrous consequences. But Chingleput contains a large excess of wet over dry

dry land, and the liberal encouragement — which is given in Salem to Sinking Wells — might therefore be open to abuse and injure the public interests by leading the ryots to neglect portions of their present wet cultivation and seek an enhancement of profit by constructing Wells on their Poonjah lands. An equal degree of encouragement seems also unnecessary in this District as the market afforded by the Presidency for fruits and Vegetables — makes the cultivation of Garden produce more than usually profitable. —

9— I have therefore proposed — that when ryots construct Wells on Poonjah lands first obtaining the Collectors — permission, one half of the additional — assessment shall be remitted and the other portion at once paid. This arrangement appears to have the advantage of simplicity and to be calculated to promote industry, and — secures the interests of both the Government and the Ryot —

10— The improvement of Poonjah lands by planting them with Topes of fruit trees is also alluded to in the Wootrumnamah (Para 24. Clause 6) and

and it is very desirable in this District to encourage such undertakings But as the subject appears to be under the consideration of the Board with a view to frame rules of general application it is merely stated

Circular letter from Board dated 28th January 1846 —

that parties wishing to plant Topes on — Poonjah lands will be liable to a full — extra assessment unless they first address the Collector and obtain his orders. When the rules of the Board are received they will be promulgated in the District and acted upon on these occasions —

11— It will be observed that in conformity with the instructions of the Board the Wootrumnamah contains rules for regulating remissions on account of Shamilat Bunjer and that the ryots are informed that when by their industry they raise a third crop within the year no extra cess will be demanded. In conformity also with the orders which have been received remissions for loss of produce are restricted to Runjah lands, and limited to occasions of Shave in — which the crops entirely fail —

12— In conclusion I would beg to observe that in framing the rules now submitted

Fort St. George 7th January 1847.

submitted for approval attention has been given to the effects which the introduction of the Survey & Assessment has caused in the District. The rules will therefore, I trust, be found generally suitable, but still I must anticipate that when they are tested by being brought into practical operation experience will show that some contingencies remain to be provided for and that in some points alterations are required.

Cowle

Fort St. George 7th January 1847.

A

Cowlenamah of the District of Chingleput for Fusly 1256.

Para 1. The undermentioned rules are framed to encourage the cultivation of waste lands on Cowles in Carcar Villages in which the field Assessment has been introduced.

2 If any persons, Merasdars or Sugavasees wish to undertake the cultivation of waste lands, they must present a Durkast or Proposal to the Tahsildar, shewing the particular lands which they select, and their boundaries. The Tahsildar will thereupon examine the lands personally or by deputing one of his subordinates, who will proceed to the spot accompanied by the applicant, the Puttamanigar, Merasdars and Curnums of the Village to measure the lands and prepare a Statement of them. This Statement is to shew their number, class and extent. The source of irrigation (if the land is Nunjah) their description according to the Pymash Accounts whether Sheigal Paikh, Anady or Porumboke the

year

year in which and the person by whom they were last cultivated the extent of labour required to clear them the number of old Wells / Doravoos / and fruit trees on them and the particular marks by which their boundaries are distinguished. It is also to be stated whether the applicant if a resident of the Village, cultivated in the preceding fusly the whole of the lands in his possession.

3. This report is to be sent to the Tahsildar who will examine its correctness and the means which the applicant has of fulfilling his engagement. The Tahsildar is also to enquire whether the Menajodars of the Village assent to the application undertakes to cultivate the land themselves and in the latter case he is to enquire whether their Sheigal lands are fully cultivated and whether they are prepared to give security for fulfilling their engagement to cultivate the waste. A detailed report is then to be made to the Buyer and it will be at the discretion of the Collector to grant or refuse the application on weighing the interests of Government and the different parties concerned.

Every-

4. Every person obtaining a Coule for waste lands is expected to cultivate the whole of them in addition to his Ryput lands. Where persons neglect a portion of their Ryput lands to cultivate fully their coule lands in consequence of the more favorable terms on which they are held they will forfeit the remission to which the Coule entitles them and the Amount will be carried to the credit of the Teerwah of the uncultivated portion of their Sheigal lands.

Proceedings of Board of Revenue on Settlement of 1252 Paragraph Minutes of Consultation Dt. Bt. Para 8.

5. If any person after taking a Coule for waste lands neglects to cultivate it in full its Teerwah will not be remitted. In the case of Nunjah lands remissions will only be granted for portions left uncultivated when it is clearly shewn that the failure proceeded from a deficiency of water and not from the fault of the Couledar.

6. Coules will not be granted for land situated near or in the bed of a Tank, when its cultivation is likely to injure the Tank by limiting its area or obstructing the course of its supply channels.

7. An extra Assessment, allowing remission according to the terms of

of Cowle will be made on account of Fusul & Teerwah Jastee in conformity with the general rules of the Summah-lundy Hookumnamah when Poonjah or single crop Nunjah Cowle lands are cultivated with a second crop and when Totacal or Nunjah produce is raised on Poonjah lands—

8— Parties obtaining Cowles for waste lands are to pay the gramy Coopputtum and Merah, together with the fees to the Curnums and other Village Servants according to the Swatantrum Dittum of the Village—

9— The following Table shews the scale of Assessment to be levied on Poonjah and Nunjah waste lands for which Cowles are granted—

	1st year Teerwa	2 year Teerwa	3 year Teerwa	4 year Teerwa	5 year Teerwa
Poonjah					
Waste from 6 to 10 years	½	¾	Full	"	"
Do above 10 years free from large trees	¼	½	¾	Full	"
Anadi or Immemorial waste overgrown with Jungle	"	¼	½	¾	Full

both Merasdars and Poga Ryots to give individually Puttut Moochilkas or engagements for Cultivation. These Moochilkas are to shew what portion of the Nunjah Punjah and Totacal lands in their occupancy the ryots wish to cultivate in the current year and they will be expected to cultivate the whole of the lands which they thus undertake.

2. It will be the duty of the Village and Talook Servants to endeavour to find cultivators for those lands which the ryots do not engage to cultivate when executing their Puttut Moochilkas, but the practise of allowing a portion of the Punjah land to lie fallow (Podu cal) after being cultivated in the preceding year will still be allowed.

3. If any person transfers to another on sale or Mortgage land included in his Puttah of the preceding year and wishes the Putent for that land to be prepared in the name of the new party he must make a written Application to the Tahsildar. That Officer will hold an immediate enquiry and if both parties assent and no objection appears he will forward a report of the case accompanied by the requisite documents to the Huzoor and on the receipt of the Collector's orders

Fort St. George 7th January 1847.

orders he will cause the Puttut and other Accounts to be prepared in the name of the Mortgagee or Purchaser furnishing the Village Curnum with his written authority. The Curnums are to keep carefully in their records all such orders which they receive for the transfer of lands.

4. Each ryot is expected in the first instance to complete the cultivation of the lands entered in his Moochilka, including the 2d Crop on double Crop lands the full Teerwa for which is at once included in the demands, afterwards he is at liberty to raise a second crop on single crop lands Ryots cultivating Manium land will be expected to cultivate the usual proportion of Teerwaput or lands paying assessment and with respect to Totacal lands remissions will not be allowed for waste (Bunjer) when Ryots neglect their jumma lands cultivating only their jury totacal.

5. No person is allowed to raise Nunjah or Totacal produce on Poonjah Manium land by water from the public Tank or Channel which irrigates the Teerwaput lands, or to cultivate a second crop on single crop Nunjah Manium land.

Fort St. George 7th January 1847.

land. When this is done an extra assessment will be levied in the former case and Fusub Jastee in the latter.

6. Where Topes of fruit Trees and Sugarcane are not assessed with a land rent but are annually rented, the Tahsildar will at the commencement of the Fusly invite tenders and forward the highest proposal at the Thuzoor accompanied with a Statement of the revenue during the preceding 10 years.

Monthly Account of Cultivation

7. The Puttamanigars and Curnams of every Village are to inspect periodically the Warapat and Manium lands and to prepare the Monthly return of Cultivation which is to be closed on the 20th of each Month. This Account is to be prepared in the prescribed form, shewing in detail each number of field with its means of irrigation whether the field is ploughed only or sown the name of the Cultivator the description of produce raised whether for the 1st or 2d crop, and the total cultivation entered in the Current Month together with the number of Cawnies cultivated at the close of the preceding Months Accounts. This Return is to be signed by the Village Officers and some of the principal Ryots and to be transmitted to the Zillahdar who will forward it on to the Tahsildar so as to

Fort St. George 7th January 1847.

to reach the Talook Cutcherry by the 30th of the Month. These Accounts will continue to be sent until the Adungul for the Summahbundy commences, and on their receipt the Tahsildar will prepare a Statement for the entire Talook and forward it to the Thuzoor within the 10th of the following Month.

Care of the Tanks and water courses

8. It is further the duty of the Puttamanigars or head Inhabitants to clear the supplying channels and keep them in order so that the tanks may receive their supply of water during the Monsoon. Rivers and spring Channels are to be daily inspected and cleared under the orders of the Puttamanigars who will also station the Toty, Taliar, and some labourers on the bunds of the Tanks during the Monsoon to watch their safety and repair without delay any slight breaches.

9. The Puttamanigars are to investigate and settle any disputes which arise in the Village regarding the occupancy of land, or the right of water and are likely to cause impediments to cultivation. When these disputes are beyond the control of the Puttamanigars they are to be immediately referred to the Tahsildar for adjudication.

10. On the 15th and 30th of every month.

month the Curnums and Puttamaniegars are to forward to the Tahsildar reports of the rain which has fallen in the Village on each day and the supply of water received by the different Tanks. On receiving these reports the Tahsildar will prepare a general Statement for the Talook and send it to the Huzoor by the 5th and 20th.

11. To enable the Puttamaniegars, Villahdars, and superior Talook Servants to ascertain how far the Ryots fulfil their Patent engagements the Curnums of every Village are to keep in readiness for inspection whenever called for, a detailed account shewing the quantity of land entered in the Patent of each Ryot and the portion of it which is actually under Cultivation.

12. The Tahsildar, Peishcar and Villadars are to pay frequent visits to the different Villages and see that Cultivation is not neglected. If any person has left a portion of the lands entered in his Patent uncultivated, they must enquire into the cause and adopt the requisite measures for its cultivation. Where the failure to cultivate in full according to the Patent arises from the neglect of the Ryot and not from such causes-

causes as a deficiency of rain or loss of Cattle the assessment of the entire lands will be included in the demand at the Summahbundy.

13. The Villadars are to make careful local enquiries to ascertain that no land is omitted in the Monthly accounts of Cultivation which they receive from the Puttamaniegars and Curnums. In September October and November when the principal Cultivation is carried on the Villahdars are to visit all the Villages of their division Taluk twice to examine the cultivated lands and check the Village Accounts. They are to report to the Tahsildar the dates on which they make this examination in each Village, and the result of their enquiries. And when these reports bring any frauds or discrepancies to light, the Tahsildar will himself investigate the circumstances and report them to the Huzoor.

14. No person is to cut down fruit Trees such as Palmira Cocoanut Jaca Tamarind, Mango &c. on pretence that they are unproductive or decayed without obtaining previous permission. If any person require Trees for building a

Fort St. George 7th January 1847.

a house or a shed for his cattle he must obtain the Collectors permission in the regular manner and all persons who cut Trees without permission will be liable to punishment in the Magisterial Department.

16. Any fraud or misconduct on the part of Puttamaniegars Curnums Villadars and other Public Servants either in preparing the Monthly Returns of Cultivation or in examining the lands actually cultivated will be punished under the provisions of the Regulations and the Tahsildars in their occasional visits to the different Villages will scrutinize the accounts and general proceedings of the inferior Servants.

16 Copies of this Book Rummamah are to be furnished by the Tahsildar to his Peishcar and Villadars and the Curnums of the different Villages. Its rules are to be carefully explained by the Curnums to the Puttamaniegars and Ryots.

Singalpet District.
Collectors Cutchery

8th October 1846.

Signed E. Maltby
Acting Collector

Fort St. George 7th January 1847.

C

Summahbundy Mookumnamah of the District of Chingleput for Fusly 1256.

The following rules are established for the guidance of the public servants in preparing the Adungul, or detailed Accounts of the cultivation, on which the annual Settlement of the Land Revenue is based.

Preparation of the Adungal by Village Servants.

2 In Villages when the cultivation is confined to Poonjah lands or where the supply of water does not generally admit of raising a Navany crop, the cultivation Accounts are to be closed on the 31st of December, but in Villages where Navany crops prevail the Accounts are not to be closed before the 31st of January. The Puttamaniegars and Curnums of each Village accompanied by the Toty and Taliars and the ryots should then proceed to inspect the lands from first to last according to the order of their registry in the Survey Accounts entering the results of their examination in the Adungul Oloongo. Each field or Number whether the land be Nunjah, Punjah or Totcah whether Tirwaput, or Manieum is to be particularized under its respective head together with its nature and description, its classification and Assessment, the manner in which it is irrigated, its being single or double crop land,

and

Fort St. George 7th January 1847.—

and the description of produce raised on it. It is also to be distinctly shewn to which description all land brought into cultivation during the current year belongs whether Sheiqb Laikh Anadee, or Parumboke. Where land is held on Cowle it should until liable to the fully assessment be simply specified as such in the Adungul Account. In preparing the Adungul for the Gramanuttum lands, it should be stated in detail whether each sete or number is occupied or unoccupied, and what fruit bearing trees are standing on them.—

3— Where land has been ploughed though not sown at the period of preparing the Adungul Aloongoo the fact is to be stated in the Account noting whether it be Sheet land ploughed when wet, or Poolee ploughed when dry, mentioning also its means of irrigation and the prospect and practicability of its being cultivated within the current Fusly.—

4.— Where portions of fields are left waste the extent of the cultivated and uncultivated portions are to be ascertained by measurement and entered in the Accounts the cause which led to the abandonment of the unsown portion is likewise to be shown.

Where

Fort St. George 7th January 1847.—

5. When land is brought into cultivation during the current Fusly from the Parumboke its area must be ascertained by actual measurement and a Memorandum recorded shewing the Parumboke of which it formed a portion— Its means of irrigation the description of produce raised and the nature and assessment of the adjoining lands are also to be exhibited.—

6.— If a single crop only is raised on land entered in the Survey Accounts as two crop land the cause is to be carefully ascertained and it must be distinctly specified whether the failure to raise a 2nd crop arose from neglect of the ryot or from unavoidable causes, such as failure of water, loss of Cattle or want of means.—

7.— If Nunjah or Totacal products are raised on Poonjah lands either as a first or second crop by means of water drawn from a Tank or other public sources of irrigation the fact must be entered in the Adungul Accounts noticing whence the land was irrigated, and the classification and assessment of the adjoining Wet or Totacal lands. In the same manner if Poonjah land is sown with a Paddy crop or depending on the rain, the tarum and assessment of adjoining Manavary land is to be sown

In

Fort St. George 7th January 1847

8.— In preparing the Adungul of the Villages transferred from Wandiwash and Trivittoor Talooks in North Arcot care should be taken to ascertain whether the Bramin and Mahomedan Ryots cultivate their lands thro' their own farming stock or by the aid of Soodra Cultivators. Should the latter be the case the number of ploughs with oxen complete used by each Soodra are to be specified. If either the Bramins or Mahomedan Cultivators underlease their lands this circumstance also is to be recorded. The rules laid down in this Paragraph are applicable likewise to all other Villages in which the Ryots have been allowed Tedzgary remissions.

9.— If a portion of Nunjah or Poonjah fields are rendered unfit for cultivation by inundations or by being appropriated for the construction of houses, Public roads, Tank bunds, Channels &c. they should be measured and their extent correctly specified in the Accounts with explanatory remarks of the nature of the impediment to their cultivation. Should entire fields cultivated in the preceding year be rendered unfit for cultivation by

Fort St. George 7th January 1847.

by like causes the fact is to be recorded in the Adungul.

10. Should a ryot after the closing of the Adungul propose to cultivate within the Fusly Nunjah, Poonjah, or Totacal land he is to execute a Moochilkah engaging to pay the Teerwah whether the land be cultivated or not. The Moochilkah is to show the number, extent and Teerwah of the land which is then to be added to the Adungul Accounts and Assessment levied without fail.—

11.— In the event of a Ryot neglecting to cultivate land in his occupancy especially fields situated between other cultivated fields or wet land when there is no deficiency of water, his reasons for so doing must be ascertained during the Adungul and specified distinctly under each number, in order that improper Remissions may be avoided at the Huzzoor Summabundy.—

12.— All the reservoirs and Channels of each Village must be inspected and entered in the Adungul Accounts noting any which have been newly constructed during the current year. Such as are in good order should be distinguished from those in disrepair. The Accounts should also show

Fort St. George 7th January 1847.—

shew how many Months water each Tank is capable of holding, the actual supply obtained during the current season and the quantity of water remaining at the time of framing the Adungul.—

13 All Topes and detached fruit trees of a description liable to taxation viz.th Jack, Mangoe, Tamarind, Palmira &c.a should be exhibited in the Accounts particularizing on what description of ground they stand— Waraput, or Manniem Sheigal or Poramboke and whether the ground is cultivated or waste.—

14.— The revenue under the head of Bazeerbat, derived from the Sungles fisheries &c.a is to be detailed in the Accounts distinguishing the items which are rented from those under Circar Management.—

15. A Statement of the Moturpha Revenue is also to be prepared shewing the Taxes on houses, implements of trade, shops and professions, each entry, under head being compared with the result of the preceding year— Should any alterations have taken place from individuals removing to another Village the Village to which they proceed is to be noted. In the same manner

Fort St. George 7th January 1847.—

manner if any new shop-keepers or Artizans come to follow their occupations in the Village the place from which they came is to be entered.—

An Account is to be prepared of the Sevoy Summak or extra collections shewing the Assessment collected on unclaimed (Bewarish) Maniems and Maniems belonging to decayed Choultries, Chavadies, Waterpundal &c.a as well as any Collections made on account of the incomes or Maniems attached to abandoned Pagodas or Mosques.—

A correct Return of the 17. census or population of each Village shewing the number of Adults and Children of each family according to castes, together with the number of horned cattle and sheep must be carefully prepared.—

When the whole of the 18. Adungul is finished the Accounts are to be closed and an Abstract appended to them shewing the total extent of land of each class and description under the respective heads of Waraputs and Maniem with the farther details of Sheigul Laikh Asadi and Poramboke, irrigation &c.a The Accounts are then to be signed by the Puttamanegaru and Circumstances and forwarded to the Tahsildar with a

Fort St. George 7th January 1847

a Memorandum of the date of Adungul and the date of transmission—

Supervision of the Adungals

19— At the proper season the Tahsildar will send Circular instructions calling for the Village Adungal Accounts within a specified date, and as they are received he will affix his initials, and note the date on which they reached his Cutcherry— For the purpose of testing their correctness he will then divide the Villages of the Talook between himself his Sheristadar, Peishcar, Zilladar and other Servants who will proceed to examine each Village of their divisions— If the Adungal is found correct this is to be stated in a few words by the examining officer in his Ajmash Report, but if any Errors are discovered a revised account which is to be attested by the Village Officers also must be prepared and forwarded to the Tahsildar— In the event of any important discrepancies being discovered, the Tahsildar will proceed to the Village himself, and he is expected under any circumstances to examine personally some of the Villages of each division into which he may divide his Talook.

20. The Puttamonigars and Curnums who originally prepare the Adungal and

Fort St. George 7th January 1847.

and the public Servants deputed to supervise as it will be held responsible for the accuracy of the Accounts prepared by them respectively— In the event of any fraud being discovered, the Puttamaniegars and Curnums will be punished in accordance with the Regulations, the Curnums being subject to a forfeiture of their Merass in aggravated cases of misconduct whilst the public servants will, in addition to the penalties prescribed in the Regulations, be liable to immediate dismissal—

Ryzzoos Summabundy—

21— The Ryzzoor Servants deputed to prepare the requisite Accounts for the Summabundy instance examine the monthly cultivation and the Adungal &c. Accounts, and direct the Curnums to prepare (on 1st Jan) the Summabundy Chittah. This Chittah is to be prepared in the prescribed form and with reference to the Adungal and Ajmash Accounts, shewing consecutively the number of each field with the name of its Cultivator, distinguished as Meerasdar or Poykarry and exhibiting such increase and decrease as may occur between the past and present year.

22— Before making any alterations in

in the Accounts by transferring land from the Puttah of one ryot to that of another or altering the designation of the cultivator as Meerasdar or Poykarry it is necessary that the Curnum should obtain the written order of the Tahsildar or Collector, and such order should be quoted in each entry in the Chittah.

23.- The Huzzoor or Talook servants who is employed to transcribe the Fasjan Chittah on paper must compare it with the one prepared in the past year, and when the whole is written out he must examine and sign it as well as the Curnum of the Village.

Rules for Suduk and Seerwah Jastee.-

24.- The following instructions are framed for regulating the items of Suduk Jastee and Seerwah Jastee in the assessment of Poonjah, Nunjah and Totacah lands:-

Poonjah lands.-

1st If Poonjah lands are cultivated with a second Poonjah crop half Seerwa is to be charged according to the practice which has hitherto prevailed and carried to the head of Suduk Jastee.-

2nd If Poonjah land is converted into Nunjah or Totacah by water brought from a Sircar Tank, channel or river it is to be assessed at the same rate as the nearest Nunjah

Nunjah or Totacah land of a similar description and quality and possessing the same means of irrigation - The additional assessment being carried to account under the head of Seerwa Jastee -

3rd If Poonjah land is prepared by embankments for a paddy crop like manawary land or riceland, dependent on the failing rain & paddy is raised on it assessment of the nearest similar Manawary land is to be collected, the difference between the Poonjah and Manawary assessment being included in the Accounts as Seerwa Jastee -

4th If Poonjah land is cultivated as Poonjah for the first crop and afterwards cultivated with Totacah or Nunjah produce by means of water for a second crop, the full Nunjah or Totacah Seerwa is to be levied and the amount, deducting half the Poonjah Seerwa for the 1st crop, exhibited under the head of Seerwa Jastee, it being improper in such cases that the remission allowed for raising a second crop should be granted in the more important Assessment.-

5th Should any person with the previous sanction of the Collector construct a brick or stone Well on Poonjah land and thus convert it to Nunjah or Totacah, one half

Fort St. George 7th January 1847.—

half of the additional Teerwa shall be remitted on account of the expense of constructing the Well and keeping it in repair and the labour of raising the water. the remainder will be included under the head of Teerwa Faster. In such cases the parties are expected to cultivate fully their Ryput Nunjah and Totacal lands and on failure to do so the remission authorized by this clause will cease.—

6th If any Ryots wish to plant Topes of Cloopah, Mangos, Jack or Tamarind trees on their Poonjah land, it is necessary for them to avoid the additional assessment which will otherwise be imposed when the trees come to bearing by previously addressing the Collector and obtaining his orders.—

Nunjah lands—

5th. If a second crop is raised on a single crop Nunjah land one half of the single crop Teerwa is to be added to the demand under the Head of Fusul Faster.—

7th— When Plantains, Sugarcane, betal, or Saffron, are grown on single crop land, double crop Teerwa is to be levied and the additional assessment entered as Fusul Faster. This demand will not be

Fort St. George 7th January 1847.—

be remitted on account of Sembacal or Young Betel Gardens.—

Totacal Lands.—

In the Villages of the Talooks as

4th. assessed in Fuslies 1233, 1236 and 1237 the present rates of assessment are to be continued till further orders and the present practice followed of levying half the first assessment as Fusul Faster when a 2nd Crop is raised.—

At the Huzzoor Summah.

25. In any notice will be taken of the Poombokes land entered in the Village Adungul as brought under cultivation and on which no assessment was fixed during the Survey. The Details of such lands must be submitted by the Tahsildar and a Teerwa will then be fixed on them corresponding with neighbouring land of a similar description and advantages.—

Note. Arrangement for the assessment of these lands were submitted to the Board by the Collector on the 31st July 1839.

Rockadayem or Ready Money Collections.—

Where an assessment has

26. been formerly fixed on topes it will continue to be levied in the present year. For such topes as have not a fixed assessment the Tahsildar is to invite tenders and submit the most favorable for sanction to the Huzzoor at the commencement of the fusly reporting at the

Rockadayem or ready money Collections.

the same time the collections of the previous ten years. The amount of the tenders accepted by the Collector is to be included in the Year's demand - Detached fruit trees on waste or uncultivated sheiguh ground will be taxed at the following rates according to previous usage.—

Cocoanut Tree	—	4 Fs
Jack	— Do —	4
Tamarind	— Do —	4
Cloppah	— Do —	2
Mangar	— Do —	2
Velee	— Do —	2
Lime	— Do —	2
Orange	— Do —	2
Mundrie or Cashewnut	— Do —	1

Todee— 27- The Cutcoums and nuzzur — paid to Government by the Tarabady and Sunnud Cranmdars, Collections on account of Tank meraks and the Teerwa levied on Ardha Tezahi, and Chowtahi maniums lands will continue to be included in — the Accounts under the head of Todee.—

Remarks on particulars Villages— 28- The Cowle Rent which was fixed in Fusly 1211 for the Villages of Kadamanellore in the Carangooly Talook, and has been

been in operation since will be continued — In the same manner the Suttewar Teerwah introduced into the Villages of Voyalore in — Nayer Talook will be levied for the present as heretofore - In the Village of Munjuncarney and Coorumbankum in the Peddapallium — Talook the Sheigah lands of which have been rented for 30 years the Summahbundy Chit- tahs are to be prepared accordingly until the expiration of the rent in Fusly 1250. If any waste land is brought under cultivation in these 2 Villages it is to be assessed accord- ing to the Terms of the Cowle and the amount included in the Beriz.—

In the Villages transferred 29- from North Arcot to this Zillah and — situated in the Ostramaloor, Conjeveram and Poonamalee Talooks the general rules of the Hookummamah of that District which — have been hitherto in force will be con- tinued until further orders —

Remissions 6 Remissions—

Double crop Teerwah 30- will be charged in the Accounts when — Double crop lands are cultivated and the Ryots must therefore take care that the 1st crop is cultivated in time to allow of a second within

Fort St. George 7th. January 1847.

within the fusly. In cases where one crop only is raised remission will not be granted, on account of the second unless it appears that there was an actual deficiency of water.—

31. When ryots by their in=dustry raise three crops on any Nunjah or Poonjah fields assessment will be demanded for the first and second only. No additional Teerwah will be levied for the 3rd crop.—

Shamlat Bunjer.— 32.— All Sheigah and Saikh fields are to be fully cultivated.—

1st— No remissions will be granted for portions of fields left waste, when the field is less than 2 Cawnies in extent if of Poonjah land, and one Cawny if Nunjah.—

2d— In Poonjah fields varying in extent from 2 Cawnies to 5 and in Nunjah fields of from 1 to 2 Cawnies remissions will only be granted for parts left waste when such portions amount to half the field, provided always that satisfactory reasons are given for the failure to cultivate.

3rd " In more extensive fields the Teer=wah of any portion left waste from un=avoidable causes will be remitted.—

33.— Claims to remissions for loss of crops on Poonjah and Tottal land will not

Fort St. George 7th January 1847.

not be allowed.— On Nunjah lands Remissions for Shavi or crops entirely destroyed by drought will be granted at the discretion of the Collector in regard to the percentage which such loss may bear to the ryots gross Beriz as well as to the general circumstances of each indi=vidual.—

34.— The instructions of the Board and Government respecting certain Permd=nent and Mucta Cowles having been com=municated to the Sahdildars they must be guided by them for regulating remissions in this head in the current year. The exact period when each Cowle will expire should be noted in the Summabundy Chittah.—

35. The Remissions which have been hitherto granted in some Villages at fixed percentages as well as those under the head of Teez-garee will be continued in the current year.—

Bajeebob 36.— Under the head of Bajeebob Revenue will be included as hitherto, the amount of the rents sanctioned in the Fuzeeas for Tank fisheries, thatching grass, rattans Junglewood &c. in those Villages where the rents have hitherto prevailed. The process of the sale of various Jungle products in the Straits of

Division

Division and the tax collected on firewood & timber for building purposes, cut in those Jungles will also be entered under this head.—

Moturpha in Shrotriem Zemindary &c. Villages

37. The Rules laid down in Paras 15 and 17 for the preparation of the Moturpha and Population Returns in the Sircar Villages are to be followed by the Curnums and Head Inhabitants in preparing similar Accounts in the various Zemindary Shrotriem Enam and Izarah Villages.—

38.— The whole of the preceding Accounts relating to the Land Revenue, the Moturpha, the Bajeebob, and Sewayt Summah having been carefully examined, the Signatures of the ryots present at the Settlement will be taken to the Huzoor Summah bundy Chittah which will also be signed by the Huzoor Sheristadar, the Village Curnum and the Goomastah who transcribed the Chittah on paper.

Puttahs 39.— Puttahs will then be given to the Ryots corresponding with the entries in the Summah bundy Chittahs, and specifying the class and number of every field in their occupation, the name by which it is known, its extent and assessment. The gross Assessment of the Ryot, and his net Beriz, deducting remissions, will also be shown together with the Kistbundy, or monthly instalments by which the amount is to be paid.—

40.— The individuals assessed with a Moturpha, tax, and those who are called on to make payments under the head of Bajeebob and Sewayt Summah will also receive Puttahs shewing the particulars of their liabilities.—

41.— In any points which may arise to which the preceding rules do not apply reference must be made to the Huzoor and special orders obtained.—

(Signed) E. Matthey
Ag. Collector

(31-31a) Order thereon— Ordered to be sent again in Circulation

Read

Read the following Letter

To

T. Pycroft Esq.re

Secretary to the

Board of Revenue

Fort St. George

(32)

From the Collector of Salem—

Sir,

In acknowledging the receipt of your letter of the 20th August last regarding the claim preferred by the Moolahdar of Salem for arrears of rent upon certain Land in his Moolah which has been occupied by Government as a Mango Garden, I have the honor to forward copy of Mr. Fischers letter together with its enclosure dated 30th Novem.r ber 1846 from which the Board will observe that he is willing to forego all claim for arrears of rent both principal and interest, on the Land in question, if Government will give him up the Mango Tope to be applied by him to the purpose originally intended by Mr. Orr. This proposal I would recommend being acceded to altho' Mr. Fischer may well be told that his demand of Interest in this instance bears no analogy to what may have been made upon him by Government for arrears of his Rent.—

As.

Forwards copy of a letter from Mr. Fischer relative to the land occupied by Government for a Mango Tope at Salem, who agrees to forego his claim to arrears of Rent & Interest if it is made over to him.—

32

Fort St. George 7th January 1817.

2. As required in Para 3 of your letter under acknowledgment I beg to state that the Garden in question is situated at the distance of a Mile on the North of the Cutcherry of Salem. the extent of Nunjah land converted into Garden is Coolies 112½ or Acres 2–6–8 bearing Teerwah Rupees 17–11–7 the breadth of it from East to West is yards 88½ and the length from North to South is yards 127. It receives a supply of water from a Channel of an Anicut which runs at the distance of about 20 Yards. The number of Mango Trees in the Garden are 71, only 4 of these are stunted and the rest are in a thriving condition.

3. No expense whatever has been incurred exclusive of the rent and the Gardeners' wages one Gardeners salary from July of Fusly 1216 to June of Fusly 1255, being 9 Years, at Rupees 24 per annum amounts to Rupees 216 to which adding Rupees 10 the salary of 5 Months from July to November in the Current Fusly makes a total of Rupees 226. Salary paid to the Gardener. The trees commenced bearing from Fusly 1252 the

Fort St. George 7th January 1817.

the produce of the Garden up to Fusly 1255 amounted to Rupees 6–8–9. which was carried to Sircar Jummah Accounts. Agreeably to the orders issued by my predecessor many grafts have been annually given to those who required them.

4. The Garden is not neglected, as stated by Mr. Fischer but is manured & kept in good order, but the Teerwah of the land and the Gardeners' wages annually amount to Rupees 41–11–7. the produce will not reimburse the expense even after 10 years. I would therefore recommend the Garden being made over to Mr. Fischer.

Salem Zillah Cutcherry,
Collectors Office
9th December 1816.

/Signed/ W. E. Lockhart
Collector.

To
The Collector of
Salem.

Sir,

I must no longer delay acknowledging the receipt of your letter of the 27th August last, which reached me in due course at Tuticorin, and replying to it, as I had hitherto done so, in the hopes of being able speedily to return to Salem and have

1847 | Fort St. George 7th January 1847

have recourse to the enclosed and other simi-
=lar Documents necessary to support the in-
=formation required by the Board of Revenue
but being unavoidably detained on the Coast
by business, and trusting the enclosed Docu-
=ment will be deemed sufficient, I now
proceed to address you.

The grounds on which I claim
interest for the arrears of Kist due to me by
Government, are precisely the same as those
on which the Government are constantly claim-
=ing and exacting it from myself and other
Zemindars Viz.t on account of default of
payments at the appointed times indeed in that
respect I am but strictly following the high
example set me by Government itself.

In a matter of the kind under
discussion I am however willing and beg you will
propose it to Government to forego all claim,
both to principal and interest, if they will give
me up the Mango Tope to be applied by me to
the purpose originally intended by Mr. Orr and
myself in forming it. Viz.t a nursery for pro-
=pagating the superior kinds of Mangoes. Neglected
as it is now, neither dug about nor manured nor
pruned the grafts which cost me so much labour
and expence will soon be ruined. Had they
been properly treated with the advantages
they enjoy of good soil and plenty of water, they
ought to be luxuriant young trees yielding
hundreds of grafts annually instead of which
they are stunted sickely trees, and not a single graft
I believe has ever been taken from them.

Signed / G. F. Fischer. Collector.

Fort St. George 7th January 1847

Ordered that the foregoing letter and the previous correspondence on the subject be submitted with the following address—

(32-33)

To The Chief Secretary to Government

To the Chief Secy to Government

Sir,

Para. 1. I am directed by the Board of Revenue to submit for the orders of Government the accompanying correspondence which has passed between this Office and the Collector of Salem, on the subject of a claim preferred by Mr. G. F. Fischer, for arrears of Kist due to him on a piece of land forming part of his Mootah of Salem which has been appropriated by Govern: ment as a Mango Garden.—

Reporting on a claim preferred by Mr. G. F. Fischer for arrears of Kist due to him on a piece of land forming part of his Mootah of Salem which has been appropriated by Govt as a Mango Garden.—

From Collr. 20th July & Encs 20th Augt 1846.
To Collr. 20th August 1846.
From Dr. 9th Decr & Encs 7th Jany 1847.

2. It will be perceived that the land in question being 2 6 8 acres assessed at Rupees 17 11 7 was applied ten years since, by a former Principal Collector, Mr. Orr, to the formation of a Garden, which he had projected, under the permission of Government, for the propagation of Mango trees of a superior description. It was given up for that purpose by the Ryots who then occupied it, and the late Mootahdar of Salem at the same time executed an Agreement whereby she relinquished her demand upon the land, and consented that it should thenceforth be held

Fort St. George 7th January 1847.

held free of Kist, whether the estate were under sequestration, as it then was or Saree. The Mootah of Salem with all the arrears of Kist due from the Ryots of it was afterwards purchased by Mr. Fischer, who paid the balance of Peishcush due to Government, and redeemed the Estate from attachment. Mr. Fischer now claims the Kist upon the Garden from the time of its first occupation by Government or Rs: 181 13 10 as also interest amounting to Rupees 111 1 9 in all Rupees 292 15 7.—

* 2d June 1836.

From Fusly 1245 to the 2d Kist. of Fusly 1255 — 181 13 10
Interest — 111 1 9
292 15 7

It appears to the Board to be evident that the engagement entered into by the former proprietrix, which would be recognized by the Sircar, if given in favor of any other party, should not have been acted upon by the Collector, while the Mootah was under sequestration, but that the Peishcush of the land should have been duly carried to the credit of the Mootahdar in adjustment of her arrears of Peishcush. It is not equally clear whether, on the release of the Estate from attachment, the Agreement would not hold good either against the proprietrix or against any party to whom she might sell her Mootah. Under all the circumstances however, the Board are of opinion that the remuneration made

Fort St. George 7th January 1847

the Geomiah into four shares but after her death it descended to her daughter Paupakbee, who was in the enjoyment of it at the time Mr. Orr wrote to the Civil Auditor but the name of Paupakbee as the daughter and heiress of Hazerabee appears to have been inadvertently omitted to be inserted.

Salem Zillah Office
Collr's Cutcherry 11th Decr 1846.

/Signed/ W. E. Lockhart
Collector

Read again also the following correspondence with the Collector of Salem—

From Collr 10th in Cons 16th July 1846 No 2165
To Ditto 3d September — " —
From Ditto 23d October in Cons 3d Decr "
Boards Proceedings 3d Decr " —

(34-35)

Resolution thereon— Resolved that the foregoing papers be submitted to Government with the Boards recommendation that under the circumstances stated by the Collector sanction be granted for the payment of the arrears due to Paupak Bee and Auffee Sahkhanum amounting in the aggregate to Rupees 32—10— and for the continuance of their Geomiah for life.—

Read

Fort St. George 7th January 1847.

Read the following letter—

To T. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George

(36)

From the Collr of South Arcot—

Reporting on the outstanding arrears of Land Revenue & forwarding a statement for the same—

Sir

Para 1. With reference to Para 15 of my report I have now the honor to submit the promised report on the outstanding arrear of Land Revenue of this District—

2. Out of the total arrear outstanding on the 30th Ultimo for the last 15 years or from Fusly 1240 to 1254 amounting to Rupees 47791-6-9- a portion of the arrear due for the last 5 years or from Fusly 1250 to 1254 amounting to Rupees 24487-13-8- appearing to be recoverable, and being in a train of Collection by degrees I have thought it proper to retain the same in the accounts until the result of the exertions and the measures adopted for the Collection of the recoverable portion be finally known without therefore including them in this report—

3. The arrear due from Fusly 1240 to 1249- amount to Rupees 23303-9-1- which I have distinctly shewn in the enclosed Statement prepared according to a form formerly received from the Board, and on referring to which the Board will find the

Amount due from 1240 to 1249. 23303-9-1-
Do from 1250 to 54 24484-13-8-
47791-6-9-

the amount was classed under the several heads of recoverable, doubtful of recovery, and irrecoverable in each of the 10 years with particulars of the same due by the Renters of the resumed Inaghire Villages as also from the Ryots of the Ryotwary Villages.

	Rs. as. p.
Recoverable	341-12-10
Doubtful of recovery	6429-3-7
Irrecoverable	16532-8-8
	23303-9-1

4. Of the amount of Rupees 6429-3-7 entered under the head of doubtful recovery a sum of Rupees 1078-2-3- is due by a Renter named Ramalinga Pillay of the Village of Colamany Keelpaudy in the Talook of Mannargoody, for Fuslies 1240 and 1241, it appears from the enquiry recently made that this defaulter has with a view to evade the Circar demand transferred his Puttah lands Cattle &c. and property in the name of his son but pending the final settlement of the matter which is under investigation it is advisable his arrear should continue in the public account some time longer. The remainder of the doubtful balance of Rupees 5351-1-4- though elapsed under this head by the local Officers yet as from the length of time that has elapsed it does not appear probable that any part can be recovered from the defaulters and their heirs without resorting to the Sale of

Fusly 1240. 629-14-6-	
" 1241-448-3-9-	
	1078-2-3-

thereby depriving them of the only means of support which if authorized will affect seriously the Condition of the current revenue- I therefore trust that the Board will concur with me as to the expediency of declaring this portion of the arrear irrecoverable.-

5. As regards the amount of irrecoverable balance of Rupees 16532-8-8- its recovery appears from the minute inquiry made individually into the condition of the defaulters to be quite hopeless consequently ought to be struck off from the public Accounts.-

	Rs.	
Irrecoverable By death of the defaulters	7138-1-11	
By desertion of Do.	2167-5-1	
By poverty of Do.	6705-1-8	
Amount since remitted by the Collector for various causes as explained in the Col.n of remark.-	522--	
	16532-8-8	

6. If from the total arrear of Rupees 23303-9-1- the portion recoverable and that retained amounting in all to Rupees 1419-15-1- be deducted, a net old arrear of Rupees 21883-10-- is left without the slightest prospect of its ever being recovered.-

Recoverable	341-12-10	23303-9-1-
Amount retained under the doubtful arrear as per para 4	1078-2-3	
	1419-15-1	

7. It is proper here to state that this arrear when compared with the Bariz[x] of the 10 years to which it appertains does not exceed 1/5per cent of the entire Summah.-

[x] Rs. 188,78,063-12-9.

8. Under these circumstances I beg to request that the Board will be pleased to recommend to Government authority for writing off the said arrear of Rupees 21883-10-- in the public accounts under the head of remission.-

South Arcot- - -
Collectors Cutcherry- -
Cuddalore- - - -
14th December 1846.-

/Signed/ W. D. Davis.
Collector.

Fort St. George 7th January 1847.

36 - 37

Proceedings thereon, Para 1. From the above report it appears that the balances of land revenue outstanding in South Arcot to the conclusion of Fusly 1254 amount to Rupees 47,791-6-9. Of this sum Rupees 24,487-13-8. are due for the five last years or from Fusly 1250 - 1254, and these arrears are reserved for further enquiry and future report. The balances to which the present letter has more immediate reference are those which have accrued from Fusly 1240 to 1249 and amount to Rupees 23,303-9-1.

Total balances from 1240 = 1254 47,791-6-9
ded. balances from 1250 = 54 24,487-13-8
remains from 1249 — 23,303-9-1

2. The arrears which belong to this last period are classed under three heads viz.

Recoverable	341-12-10
Doubtful	6,429-3-7
Irrecoverable	16,532-8-8
	23,303-9-1

3. Among the doubtful arrears is included the sum of Rupees 1078-2-3 due for Fusles 1240 and 1241 by the Renter of a Village in the Colleemalay Jaghire. The defaulter it is stated has with a view to evade the Circar demand transferred his Putta lands, Cattle &c. and property in the name of his son, and pending the final settlement of the matter which is now under investigation, it is recommended that this balance should still be retained in the public accounts. It is evident that such a procedure as the conveyance of the Defaulters property to

Submitting a letter from the Collector of South Arcot reporting upon the balances of land revenue outstanding in his district to Fusly 1254 inclusive and recommending that sanction may be granted for striking out of the books of the Collectorate Rs. 21,883-10-0

1464.

Fort St. George 7th January 1847.

to his son cannot be permitted to defeat the just demand of Government and it would have been satisfactory had some more distinct explanation been given as to the reasons for which this arrear has for so many (15) years remained unadjusted. The Collector will be pleased to take immediate measures for the realization of this balance and will report the steps which he may adopt and their results at an early date. The remainder of the second class of balances the entered by the local Officers as "doubtful" cannot be. Mr. Davis states be recovered except by the sale of the lands and by seriously affecting the defaulters and by their condition and resources.

4. The irrecoverable balances are such as cannot be recovered in consequence of the death emigration or utter poverty of the parties by whom they are due. Under this head has also been included the sum of Rupees 180-2-0 which seems to have been improperly entered in the Demand and Rupees 341-12-0 being the amount of remission due to a Shotreendar for land belonging to his Shotreem but taken by Government for the formation of an irrigating channel.

5. It will thus be seen that the irrecoverable balances and those the realization of which the classed as doubtful, it would

would not be expedient to enforce amount
Irrecoverable ___ 16,532-8-8. Jointly to Rupees
Doubtful ___ 5,381-1-4. 21,883-10-"-
21,881-10-". and under
the explanation afforded by the Collector the
Board of Revenue beg to recommend that sanc-
tion may be granted for striking that sum
out of the books of the Collectorate.

To the Pl. Coll.
Coimbatore } Sir

In forw. 7th Jan.y 1847

I am directed by the Court of Wards to acknowledge the receipt of your letter of the 28th December last giving cover to a Treasury acknowledgement for Rupees 16800-- in favor of the Minor Poligar of Shamattoor and Cotampatty Polliems in your District

This document is herewith returned as requested by you with my signature affixed to the receipt on the back of it for the purpose of being transmitted to Bengal to be exchanged for a Promissary Note.-

Revenue Board Office
Fort St. George
7th January 1847. } (Signed) J. Pycroft
Secretary.-

(46. a.)

To J. Pycroft Esqre
Secretary to the
Board of Revenue

From the Pl. Coll.
of Coimbatore } Sir

Adverting to the 2nd para

1183.

Fort St. George 7th January 1847.

of your letter of the 21st Instant I have the honor to acquaint you that Mr Robinson's duties during the period in question were required at Bhawany for the Superintendence of the Collection of Workman &c. for the construction of the Bridge over the river Bhawany as directed in the Orders of the Board of Revenue in the Department of Public Works dated 20th November 1845 No. 505. Para 3. there is no Public accommodation at that place of any kind and under this explanation I request that sanction may be granted for the extra Tent allowance drawn by that Gentleman in 1255/1846.

Coimbatore Pr. Colrs Office 29th December 1846

/Signed/ J. C. Throughton
Principal Collector

Resolution thereon.

(469-46.6.)

Under the explanation furnished in the foregoing letter the Board Sanction the extra Tent allowance drawn by Mr Robinson for 171 Days as noted in the Margin.

Amount drawn for Fusly 1255 — 158 Nos of days
Do. arrears for Fusly 1254 — 13
Total 171

Read the following report.

To

1184

Fort St. George 7th January 1847.

H. S. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George

(47)

From the Collector of Malabar — 1.

Reporting on the extra sources of Revenue for Fusly 1255.

Sir,

I have the honor to report on the different branches of Extra Revenue of this District for Fusly 1255 A. D. 1845/46 and to submit the usual No. 4 Comparative Statement, in triplicate, exhibiting the Gross Collections Charges and Net Revenue of each source, together with the two general Abstracts Nos 2 and 3 Statements annually furnished.

Salts 2.

The Gross Collection in this Department during the Fusly under review amounts to Rupees 3,02,520-5-9 and is below the Collection of the preceding year by Rupees 88,189-14-2, but only Rupees 5,197-4-10 below that of Fusly 1253; by the accompanying Statement No. 4 the Board will perceive, that the deficit above noticed attaches to the sales for

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease
Gross Collection	3,07,717 6 7	3,90,710 3 11	3,02,520 5 9	" "	88,189 14 2
Charges for purchase or Manufacture	89825 1 1	1,03,134 4 1	74,831 10 1	" "	28,302 10 "
Ditto Superintendence and Sale	7,045 13 2	7,511 2 9	6,139 " 6	" "	1,325 3 3
Total Charges	96,870 14 3	1,10,648 7 10	81,020 10 7	" "	29,627 13 3
Net Revenue	2,10,846 8 4	2,80,061 12 1	2,21,499 11 2	" "	58,562 " 11
Per Centage of the Charges	31 7 8¼	28 5 1¼	26 12 5	" "	" "

for Inland and Home consumption almost in an equal ratio, the decrease on account of the former being 39,492 Indian maunds - Value Rupees 40,672-6-4 and on account of the latter 40,738 Indian maunds. Value Rupees 47,713-9-6, total decrease in Indian maunds 80,230 and in Rupees 88,385-15-6. Out of the latter amount, Rupees 6,975-7-6. is attributable to a difference in the selling Price, which, as noticed in my report for 1254, was 1/2 Rs. per maund up to the 19th August of that year, when it was reduced to 1 Rupee - that even this price affects the consumption of Government Salt is, I think, deducible from the fact of the gradual decrease observable in our sales since Act No. of 1844 came into operation - I do not however mean to assert that the whole of the decrease now under consideration is attributable to this cause - it may in part have arisen from the dread of Cholera which was very prevalent for a considerable time, which deterred the Mysore people from coming down to Cannanore and Tellicherry for their full annual supply -

Para 2.

3. The sales for home consumption may have in some slight measure been lessened in consequence of the general prevalence of Cholera and other epidemic diseases, but the great diminution has no doubt been caused

caused by the enhanced price of Salt which has left the poorer classes, especially in South Malabar, to supply their wants through the illicit means described in my letter dated 27th June last. —

4. I now proceed to offer the explanation called for in your letter of the 28th September last, in reply to mine just alluded to, which I was desired to incorporate in this report. —

* On the subject of diminution in our domestic sales. —

I much regret that from a want of explicitness in the note appended to para 2 of my address of the 27th June I should have embarrassed the Board in the consideration of the question I had laid before them, and necessitated the remarks made in Para 3 of the letter now under consideration: remarks which had I been more explicit would not have been required - Had the words "from the Ponany Gollah" been added to the 3 first words "our domestic sales" all would have been clear - The tenor of my whole letter was to shew the decline in the sale of Salt for Home consumption in South Malabar, in which the Talooks adjoining the Cochin Rajahs' territory are situated - Ponany, the Board are aware, is the only large Salt depot to the South - With this explanation I beg to reiterate my recommendation that something be done to prevent the smuggling

of

Fort St. George 7th January 1847.—

1483

of Salt from the Cochin, to our territory — That the smuggling does exist — that it must exist while the difference of price is so great in the two closely joined countries seems to me a clear axiom — To what extent it prevails I feel unqualified to state — Seizures of the contraband articles are not frequent from the fact that it is no body's especial business to look out for and seize it, and that the Boundary on which smuggling can go on is a very long one, nearly 100 miles, giving from its natural peculiarities great facilities to the free trader — But I repeat that when such a necessary of life as Salt can be obtained on one side of an imaginary line for 7 annas per Maund while it costs 16 annas on the other side, and there is no overwhelming police force to prevent the cheaper article coming over to the place where it is dearer, it is contrary to all experience of human nature to believe it will not come.—

5. On consideration I think no better plan can be devised than to make arrangements with the Cochin Sircar to put their Salt monopoly on the same footing as ours with regard to the price at which they sell it. This will at once remove all difficulties.—

6. The Court of Directors have decided

Fort St. George, 7th January 1847.—

decided that Cochin (and Travancore) should, so far as their voice is concerned, have all the advantages of a British possession — It is but reasonable that it should share in its disadvantages. To me it seems that until Cochin at least is assimilated to Malabar in its monopolies of Salt and Tobacco and in its Sea exports and imports anomalies will always prevail which will lead to much inconvenience corruption and loss on one or other side — Nothing for instance can as it seems to me be much less satisfactory than the mode which has to obtain at the British port of Cochin where in order to prevent our trade from being altogether swamped by the contiguous and rival port of Mullipooram belonging to the Cochin Sircar, we are obliged to reduce our tariff rates on all exportable articles to a near level with theirs — i.e. to some 60 per Cent below what they are at any other of our ports — But though in thus injuring ourselves we to a certain degree injure the Mullipooram people, we are unable to obtain the superiority, in as much as they can reduce not only their tariff but their export and import rates also — which we cannot do — They will always therefore retain their (as I think undue) advantage

The Cochin Sircar's monopoly Tobacco is retailed by them at a higher rate than ours is to our subjects — The British Tobacco is therefore smuggled into the Cochin limits — See my letter of 5th September 1841.

Fort St. George 7th January 1847.-

advantage until their system is assimilated to ours- This is somewhat of a digression, but not an unnatural one.—

7. In the 6th paragraph of the Board's letter under consideration, it is remarked that the Board do not understand how it could have happened that the Garce should have been estimated as equal to 146 Indian Maunds prior to the passing of Act 6 of 1844 as stated in my letter of the 11th June 1844- The Parrah measure of 25 Mc Leod's Seers which was in use from Mr. Warden's time in 1807 to the introduction of Act 6 of 1844 was, as observed by the Board, held to be only 1/120th of a Garce, and to contain the exact weight of an Indian Maund- And it did so when the Salt was of the light nature which it was when the Monopoly was introduced- a Native article of very poor grain and weight- But the Parrah measure when filled with the stronger and heavier Bombay Salt, an article which was rapidly substituted for the native manufacture, weighed not only an Indian Maund, but 688 tolas in excess- The Bombay merchants had to give us 120 Parrah measures full for each Garce they supplied, and the extra weight just allotted to make the Garce amount in reality to 146 Indian Maunds.

Fort St. George 7th January 1847.

Maunds- The benefit of this extra weight of Salt went to the consumers- for each measured Mc Leod's Seer they got a greater weight and therefore a greater amount of Salt than they would have done had the Salt been of a lighter nature.— 10-

8. On the introduction of Act 6 of 1844 which rendered it imperative to sell by the Indian Maund, I cut down all my Parrah measures so as to make them contain the weight of an Indian Maund of Bombay Salt exactly- The Bombay merchants having to give us less weight have supplied the Garce of Salt at a proportionately decreased price as will be seen by a reference to my Salt accounts- The retail consumer, it will be sufficiently evident is the party who loses by this change.- 10-

See Letter to the Board of 11th June 1845.

9. The "charges for Purchase" exhibit a decrease of Rupees 28,302-10-" which may be divided thus: on account of the required Salt having been purchased during the year under consideration at favorable rates Rupees 15,923-13-"; and on account of a lesser quantity having been purchased in 1255 than in 1254 Rupees 12,378-13-" With respect to the first item, I would add that the average purchase price of 1254 was Rupees 28-12-7 per Garce whereas that of 1255 is only Rupees 23-11-9, or

	Indian Maunds
× Salt purchased in Fusly 1254	4,29,919
" 1255	3,78,318
Difference	51,601

See Statement No. 5.

or Rupees 5-11-10 in favor of the last quoted year-

10. The decrease of Rupees 1325-3-3. in the "Charges for Superintendence and Sale" falls on the items of expenses attending the conveyance of Salt from Mangalore to Calicut and from Calicut to Mambaat respectively (no similar charges having occurred in 1255) and from a decrease in the expenditure on account of Repairs to Gollahs.—

11. The decrease under the two Heads above noticed giving an aggregate of Rupees 29627-13-3. reduced the falling off in the Revenue derivable from this source from Rupees 88189-14-2 to Rupees 58562-1-11, the Net Revenue of Fusly 1254 being Rupees 2,80,061-12-1 and that of Fusly 1255 Rupees 2,21,499-11-2 Ans Rie.—

Tobacco. 12. This branch of Revenue exhibits this year a favorable result, in as much as there is an increase of Rupees 38,608-10-2 in the Gross Collection, - a decrease of Rupees 14,910-9-11 in the

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease

the Charges, and an increase of Rupees 53519-4-1 in the Net Revenue - The excess in the sales may partly be attributed to an improvement in the quality of the Tobacco supplied from Coimbatore - and partly to increased vigilance in checking the influx of contraband Tobacco - It is not improbable further that the prevalence of Cholera in Coimbatore may have discouraged smugglers from resorting thither as much as usual.—

13. The decrease in the "Charges of Purchase" amounting to Rupees 13081-1-6 is solely owing to the supply received in 1255 being less than that of 1254 by 1,200 Candies - the difference arising from this cause would however have been much greater, say about 34,500 Rupees - but for a higher rate having been charged on the Tobacco supplied in 1255; the average for the year being Rupees

or Rupees 5-11-10 in favor of the last quoted year-

In the imports there was a small decrease of Rupees 145-0-4 occasioned by the discontinuance, since 1st January 1846, of the levy of difference of Duty on Goods imported under Certificates from Bombay.

Para 10 18- In their Proceedings dated 16th March last, the Board expressed a wish to be informed what portion of the Products of the District had been exported by Sea, and to what Ports and on what bottoms &c.

Nos. 8 to 10 I beg therefore to transmit Copies of three Statements furnished from this Office to the Reporter of External Commerce which though framed for the Official Year will, I hope, afford the information which the Board are desirous of having.

19- The increase of Rupees 684-15-10 in the "charges of Collection" proceeds from the Additional Establishment, amounting to Rupees 1146-- per Annum having been only partially charged in 1254, whereas in 1255 the full amount has been debited.

* Sanctioned by Government 16th May 1845

20- In the Drawbacks it will be perceived that there is a Decrease of Rupees 14,322-10-8 arising chiefly from the change of the system under which the Sea Customs are now managed.- I

the

Net Revenue of 1255 - 1,44,382 - 4 - 4
" " 1254 - 1,33,834 - - 5
Increase - - - 10,548 - 3 - 11 - this decrease in the charges there has been an increase in the Net Revenue of Rupees 10,548 - 3 - 11 -

Abkary -

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease
Settlement	62,633 12 2	63,807 14 7	62,970 10 -	- - -	837 4 7

Charges	- - -	- - -	- - -	- - -	- - -
Net Revenue	61,650 2 -	64,156 15 5	61,878 3 -	- - -	2,278 12 5
Per Centage of the Charges	- - -	- - -	- - -	- - -	- - -

Fusly 1252 - 866 - 12 - -
1254 - 916 - 6 - 8
Rupees - - 1783 - 2 - 8

21 - Of the decrease as noted in the Margin Rupees 687 falls on that portion of the Abkary which is annually farmed out, and Rupees 150 - 4 - 7 on that which is managed under Amanee, the same being a tax on Toddy Knives and Stills no longer in use or existence, which was therefore remitted. The Gross Collection stands thus. On account of the Current demand Rupees 60,095 - - - 4 and on account of arrears of previous Fuslies Rupees 1,783 - 2 - 8, the former being Rupees 27,50 - 4 - 9 below, and the latter Rupees 471 - 8 - 4 above, the results of Fusly 1254 - At the close of the Fusly the amount outstanding was Rupees 2,875 - 9 - 8 out of which Rupees 2865 - 1 - 8 was realized

realized, leaving the trifling sum of Rupees 1 - 8 - - - to be hereafter collected.

Farms and Licences -

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease
Settlement	46,389 11	48,684 4	49,287 6 10	603 2 -	- - -

Charges	791 - 7	680 11 2	602 8 1	- - -	78 3 1
Net Revenue	44424 13 7	48,025 - -	47803 8 10	- - -	222 7 2
Per Centage of the charges	1 11 11¾	1 64¼	1 3 10¾	- - -	- - -

2 - 10 - 22 - In the Settlement of this branch of Revenue, the Ferry farms yielded an increase of Rs 565 and that for Hill produce, Rupees 65 - 8 - - - Total Increase Rupees 630 - 8 - - from which the Decrease of Rupees 27 - 6 - - arising from the Hill produce under Amanee being deducted, the net result is as above noticed -

23 - From the Demand amounting to Rupees 49287 - 6 - 10, Rupees 47193 - 15 - 7 - was realized in the course of the year independent of a sum of Rupees 1,203 - 15 - 7 on account of arrears of Fusly 1254; these two items, with Rupees 7 - 1 - 9 being a refund of charges, give the aggregate Gross Collection inserted in the marginal Abstract Viz: Rupees 48705 - - 11, which is Rupees 300 - 10 - 3 below the Gross Collection of 1254 - The amount still

still remaining to be collected on account of the Balance of Fusly 1255 is only Rupees 401–12–7. The difference in the charges and Net Revenue appear too trifling to call for particular Notice.

121 Balance at the end of Fusly 1255 — 2,093-7-3
Since Collected — 1,691-10-8
Balance — 401-12-7

Stamps

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease
Gross Collection	52,714 6 4	48,155 2 10	36,862 11 6	" " "	11,292 7 4

Per Centage of the Charges	5 2½	6 4½	6 6¾	" " "	" " "

24. The decrease in this branch of Revenue is solely attributable to the discontinuance of Stamped Rowannahs in the Sea Custom transactions under the instructions conveyed in the Board's letter dated 30.th June 1845.

Mohturpha.

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease
Settlement	116,066 12 6	116,565 5 6	117,639 12 11	1074 7 5	" " "

Per Centage of the charges	" " "	" " "	" " "	" " "	" " "

25. In the settlement of this Branch of Revenue is there was in all an increase of 1074-7-5, but the claims of various petty Ryots for remissions of taxes on Houses, Shops, & professional

professional implements &c. gone to ruin or held by persons in indigent circumstances appeared, on enquiry so well founded that a remission to the extent of Rupees 2-10-2 was allowed, which left the Net-Increase at Rupees 1,074-7-5.

The Abstract prefixed to 26. the foregoing Para: shews that the Demand was Rupees 117,639-12-11, from which Rupees 117,311-6-6 was realized before the expiration of the year, leaving a small sum of Rupees 328-6-5 outstanding out of which Rupees 140-3-10 has been collected since the commencement of the Current Fusly. To make the Gross Collection agree with the amount above quoted it is only necessary to add thereto Rupees 386-1-8 realized on account of Arrears, viz.

Of Fusly 1253 — 2-3-2
" 1254 — 383-14-6
386-1-8

and the result is Rupees 1196-1-7- in favor of the Fusly under report.

Grand Total.

27. Upon a review of the whole, it will be found that although there is a decrease in the Gross Collection

1501

Fort St. George 7th January 1847.

Collection amounting to Rupees 73,380 – 11 – 5

Set Revenue of
Fasly 1254 – 10,99,842 – 3 – 8
a 1255 – 10,86,786 – 5 – 1
Decrease Rupees 13055 – 14 – 7

Outstanding Balance 28 –

The Balance on account of former years exhibited in the Enclosure N° 4, outstanding at the commencement of Fasly 1255 was Rupees 4,321 – 8 – 1, of which Rupees 3,373 – 3 – 11 was collected, and Rupees 227 – 12 – 7 written off under the authority conveyed in the Boards Proceedings dated the 16th April last. The residue, viz. Rupees 720 – 7 – 9 I would class as follows.

* Rs. 158 – 8 – has already been realized in the Current Fasly 1256

Recoverable	×	284 – 7 – 9
Doubtful		4 – 4 – 0
Irrecoverable		431 – 15 – 10

The latter sum I request the Board will be pleased to recommend to be written off against the amelioration Fund.

Fort St. George 7th January 1847.

will account for the excess of charge adverted to by which in other words means that the quantity of Tobacco in store in last July was small contrasted with the preceding year. -

Coimbatore 12th August 1846

/Signed/ J. C. Throughton
Principal Collector

To

J. C. Throughton Esqre
Principal Collector of
Coimbatore. -

Sir,

Para 1. In reply to Mr. Bird's letter of the 27th ultimo, I am directed by the Accountant General to request you will insert in your next Journal the annexed entry which will render the balance outstanding in your accounts under the head "Advances for Tobacco" correct. The adjustment of the second Item of Rupees 12,137-4-2 requested in your letter of the 6th January last, is unnecessary as the amount has already been brought to account in the General Books of this Office. -

2. With reference to the 2d para of Mr. Bird's letter, stating that some mis-apprehension existed in your Office regarding the calculation of the average value of Tobacco in

Fort St. George 7th January 1847.

in store quarterly, I am directed to explain that the object in proposing the measure was to facilitate the transaction of business between the two Offices, at once saving, to a precise understanding as to the mode of taking those averages.

3. The Tobacco Accounts were before rendered Monthly and it was then of course easy to take the balance in store at the close of the preceding Month, the amount received into store and the amount of actual charges during the Month, and to determine how much of the price of what was should be credited to "Tobacco" and much to "Profits on Tobacco". At present no Accounts Particular of Tobacco are rendered at all, simply a Quarterly Statement of the balance in store, and it is next to impossible for this Office to follow your calculations if you continue to take the averages Monthly. That is to take three separate averages in each quarter. The only way to obviate this difficulty is to take the averages quarterly or upon the amount and value of Tobacco in Store at the commencement of and the transactions during one Quarter of the Official Year

Year to determine the ratio in which the proceeds of the sale of Tobacco in the Quarter of the year immediately succeeding shall be respectively credited to "Tobacco" and "Profits on Tobacco". To prevent the impossibility of any misunderstanding hereon the calculation of one quarter's average

4. Shall this opportunity of bringing to your notice that your Journals shew only the weight of the Tobacco supplied, and not the number of bundles, where the Tobacco received into store is noted by the number of bundles, and to request the favor of your furnishing in future the number of bundles as well as the weight of the Tobacco supplied to other Districts.

Fort St. George
Accountant General's Office
15th April 1843

(Signed) Gue. Mn. Swinton
Head Assn. to Acc. Genl.

Patient 11th July 1846. E & Fn. / Signed / H T Conolly

Order thereon (47-47.a.)

Ordered to be brought forward at a future day.

Read the following letters.

48

From Capt.n E. Buckle
Asst Mint Master.

Requesting instructions for preparing Salt Measures adopted as a basis for the Indian Maund.

To
The President and Members
of the
Board of Revenue.

Gentlemen,

Para 1. Having received the instructions of Government to prepare Standard measures of capacity for the Sale of Salt in this Presidency, adopting as a basis the Indian Maund Weighing 3200 Tolas, I have the honor of inquiring whether Salt is sold by Stricken or heaped measure.

2. Where heaped measure is employed it is necessary to declare a ratio between the diameter and the depth of the Vessel in the Imperial Measure of England, the former must be to the latter at least as 2 to 1, and the height of the cone three fourths of the depth of the vessel.

3. There is this objection to heaped measure, that in multiplying or dividing the Standard into larger or smaller measures, there is a great risk of the proportion of the Conical to the cylindrical part being lost sight of, there is also great=er latitude given to the parties dealing by it, to defraud the purchaser, by not heaping the measure to its proper height.

4. Government, it is presumed will buy and sell by the same Standard, in which case it appears questionable, how far "thoroughly dry" old Salt should be made use of in

determining

determining the dimensions of the measures: if salt be received moist and sold dry, there will be some loss to the state, or if perfectly dry salt be the regulator of the Standard, and Salt not perfectly dry, be sold by it, then Government will be unduly a gainer. On this point it may be desirable to institute some experiments, these, if the Board wish it, shall be conducted and recorded for their information.

5. As the salt of this country may be brought into competition with that of England, it may be worth noting that Government was formerly in the habit of allowing 66 instead of 56 pounds to the bushel of salt in keeping its duty, by way of compensation for the impurities of rock salt.

6. I may add that taking the specific gravity of salt at 2125 [an average of different authorities] the dimensions of the half maund [stricken measure] would be diameter 8¼ Inches height 10 Inches. of the one third maund diameter 6 ¾ Inches, height 10 Inches, but the weight of the former, including the Copper measure would amount to about 60 lbs, which is too heavy for native use, while the one third maund measure of salt, estimated in the same way, would be about 33 lbs and more Convenient.

7. Before Commencing on the preparation of

of the measures I must be favored with your Board's reply to the second para of this letter, as of course in heaped measure the diameter of the Vessel is of the greatest consequence, but stricken measure is more exact and less liable to abuses.

Fort St. George Mint 23d October 1846.

/Signed/ C. Buckle.
Acting Mint Master.

To
The President and Members
of the
Board of Revenue.

(49)

From Capt. C. Buckle
Actg Mint Master

Forwarding three Copper Measures for the use of the Salt Department.

Gentlemen,

Para 1. I have the honor of forwarding three Copper Measures for the use of the Salt Department as follows.

No. 1. To contain half a Maund or 1600 Tola weight of Salt.
No. 2. To contain one third of a Maund or 1066 ⅔ Tola weight of Salt.
No. 3. To contain one fourth of a Maund or 800 Tola weight of Salt.

2. The dimensions of their capacity are respectively as follows.

No. 1. A cylinder 12 Inches diameter

13

13 Inches high, contents 1470½ Cubic Inches, holds 1600 Sola weight of salt.

No. 2. A Cylinder 10 Inches diameter 12 3/8 Inches high. Contents 1006½ Cubic Inches, holds 1066⅔ Sola weight of Salt.

No. 3. A cylinder 10 Inches diameter 9 5/8 Inches high, contents 756 Cubic Inches, holds 800 Solas weight of Salt.

3. The weight of the copper measures themselves, empty, and filled with Salt, are as follows.

	Empty	Filled with Salt	
No. 1	1061¾ Solas	Solas 2801¾	Acts 67 nearly
No. 2	798½ Do.	" 1865¼	" 48 — "
No. 3	640½ Do.	" 1440½	" 37 — "

4. From its appearing to me that the two larger measures were too heavy for handling when filled, I prepared the third, which being a multiple that natives are familiar in using, appeared on that account to be preferable to the one third maund.

5. The salt employed as a Standard, was that received from the Collector of Madras under the denomination of "Old dry". I employed it in the form in which it was received without sampling it in any way.—

6. If the Salt measured be filled by pouring

pouring salt into them they will be found correct, but if after filling in this manner they be poched about or shaken, they will then be found capable of containing, from 10 to 17 per cent more, the former rate being the increase on the greater maund measure, the latter applies to both the others.

7. On account of these peculiarities it was found necessary to make the actual cubic contents of the half maund less than double those of the quarter maund, owing to the greater compression of salt in the larger Vessel, otherwise while the former contained 800 Solas of salt, the latter would have contained 1890 instead of 1600 Solas.

8. I transmit the measures in their present form for the inspection and approval of the Board, but such as they may desire to glue a trial to, should be strengthened with hoops and stamped, for which purpose they must be returned to me, these additions will of course increase the weight above specified.

9. In dealing with this subject, I thought it expedient to make some experiments, of which the results are as follows.

Having divided the salt into three classes according to the size of the grain, it was found using the same measure that the large grained salt, artificially dried, was lightest of all, the difference between it and the smallest grained salt

salt was 12 per Cent.– 2d. The difference between a loose measure and shaken measure (all stricken) was also about 12 per Cent. 3d. Wet salt weighed heavier than dry salt, packing closer, the difference varying according to circumstances, but I presume it might in practice amount to nothing than 5 per Cent, the smaller grain wet, retaining the same advantage over the dry as before.

10. The following inferences may be drawn from this. 1st that in the purchase of salt, as much depends upon the measure, as upon the measure, by a little dexterity one man might receive 10 per Cent more than another from the same salt heap, with the same measure, and at the same time. 2d it is more to the advantage of the purchaser to buy salt of small crystals than of large, and 3d that it is also to his advantage to buy moist salt, the last conditions however might depend upon whether the purchase intended to convey his salt to a distance or retail it at once.

Fort St. George Mint 5th December 1846.

(Signed) E. Buckle
Actg Mint Master

Ordered that the following letter be sent in reply.

To

48-50

To the Acting Mint Master.

Stating that the salt measures furnished by him seem correct and well adapted to the purpose for which they are intended, and returning them with a view to their being hooped and stamped as proposed by him– also requesting him to prepare certain Standard Measures in Sheet Iron–

Extract Pub. Cons. 7th January 1847.

To

The Acting Mint Master

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letters of the 23d October and the 5th Ultimo, and of the Salt measures which accompanied your last communication– The Board were on the point of dispatching their answer to your first letter, when the second with the measures reached them. They need therefore now only observe that, the principle on which the measures just set appear to have been prepared is that of measurement by the stricken measure, which is the correct one.

2. The Board direct me to convey to you their acknowledgments of the attention which you have paid to the subject, and to thank you for the experiments in respect to the weight of the several sorts of salt, which you have instituted, and recorded for their information. The measures which you have furnished seem correct, and well adapted to the purpose for which they are intended, and they are now returned to you with a view to their being hooped and stamped as proposed in Para 8 of your last letter.

3. Of the measures now supplied, the ½ and ¼ Adamds seem those most likely to be

be useful in practice - and the Board propose to conduct trials to be made in the provinces with these & measures, and with others of corresponding capacity, but of a greater height. They would therefore be indebted to you if you would prepare for them two half, and two quarter Maund measures, in sheet iron, of the same dimensions as those already furnished, as also three half, and three quarter maunds, in sheet iron, of a diameter of only eight inches.

Order thereon (47-47a.)

Ordered to be brought forward at a future days
Read the following letters.

(48)

From Capt.n E. Buckle
Asst. Mint Master.

To
The President and Members
of the
Board of Revenue.

Registering instructions for preparing Salt Measures adopted as a basis for the Indian Maund.

48

Gentlemen,

Para 1. Having received the instructions of Government to prepare Standard measures of capacity for the Sale of Salt in this Presidency, adopting as a basis the Indian Maund Weighing 3200 Tolas, I have the honor of inquiring whether Salt is sold by Stricken or heaped measure.

2. Where heaped measure is employed it is necessary to declare a ratio between the diameter and the depth of the Vessel. in the Imperial Measure of England, the former must be to the latter at leastt as 2 to 1, and the height of the cone three fourths of the depth of the vessel.

3. There is this objection to heaped measure, that in multiplying or dividing the Standard into larger or smaller measures, there is a great risk of the proportion of the Conical to the cylindrical part being lost sight of, there is also great= =er latitude given to the parties dealing by it, to defraud the purchaser, by not heaping the measure to its proper height

4. Government, it is presumed will buy and sell by the same Standard, in which case it appears questionable, how far "thoroughly dry" old Salt should be made use of in

determining

determining the dimensions of the measures: if salt be received moist and sold dry, there will be some loss to the state, or if perfectly dry salt be the regulator of the Standard, and Salt not perfectly dry, be sold by it, then Government will be unduly a gainer. On this point it may be desirable to institute some experiments, these, if the Board wish it, shall be conducted and recorded for their information.

5. As the salt of this country may be brought into competition with that of England, it may be worth noting that Government was formerly in the habit of allowing 66 instead of 56 pounds to the bushel of Salt in levying its duty by way of compensation for the impurities of rock salt.

6. I may add that taking the specific gravity of salt at 2125 [an average of different authorities] the dimensions of the half mound [struck measure] would be diameter 8¼ Inches height 10 Inches of the one third mound diameter 6¾ Inches, height 10 Inches; but the weight of the former, including the Copper measure would amount to about 50 lbs which is too heavy for native use, while the one third mound measure of Salt, estimated in the same way, would be about 33 lbs and more convenient.

7. Before commencing on the preparation of

of the measures I must be favored with your Board's reply to the second para of this letter, as of course in heaped measure the diameter of the Vessel is of the greatest consequence, but Struck measure is more exact and less liable to abuses.

Fort St. George Mint 23d October 1846. } /Signed/ C. Buckle
Acting Mint Master.

To

The President and Members of the Board of Revenue.

(49)

From Capt. C. Buckle
Actg Mint Master

Gentlemen,

Forwarding three Copper Measures for the use of the Salt Department

Para 1. I have the honor of forwarding three copper Measures for the use of the Salt Department as follows.

No. 1. To contain half a Maund or 1600 Tola weight of Salt.

No. 2. To contain one third of a Maund or 1066⅔ Tola weight of Salt.

No. 3. To contain one fourth of a Maund or 800 Tola weight of Salt.

2. The dimensions of their capacity are respectively as follows.

No. 1. A cylinder 12 Inches diameter

13 Inches high, contents 1470½ Cubic Inches, holds 1600 Tolas weight of salt.

No. 2. A Cylinder 10 Inches diameter 12 3/16 Inches high. Contents 1006½ Cubic Inches, holds 1066⅔ Tolas weight of Salt.

No. 3. A cylinder 10 Inches diameter 9 5/8 Inches high, contents 756 Cubic Inches, holds 800 Tolas weight of Salt.

3 The weight of the copper measures themselves, empty, and filled with salt, are as follows.

	Empty	Filled with Salt	
No. 1	1061¾ Tolas	Tolas 2861¾	Avth. 67 nearly
No. 2	798½ Do.	" 1863¾ "	48 "
No. 3	640½ Do.	" 1440½ "	37 "

4 From its appearing to me that the two larger measures were too heavy for handling when filled, I prepared the third, which being a multiple that natives are familiar in using, appeared on that account to be preferable to the one third maund.

5 The salt employed as a Standard, was that received from the Collector of Madras under the denomination of "Old dry". I employed it in the form in which it was received without sampling it in any way.

6 If the salt measures be filled by pouring

pouring salt into them they will be found correct, but if after filling in this manner they be rocked about or shaken, they will then be found capable of containing from 10 to 17 per cent more, the former rate being the increase on the greater maund measure, the latter applies to both the others.

On account of these peculiarities it was found necessary to make the actual cubic contents of the half maund less than double those of the greater maund, owing to the greater compression of salt in the larger Vessel, otherwise while the former contained 800 Tolas of salt, the latter would have contained 1890 instead of 1600 Tolas.

8. I transmit the measures in their present form for the inspection and approval of the Board, but such as they may desire to give a trial to, should be strengthened with hoops and stamped, for which purpose they must be returned to me, these additions will of course increase the weight above specified.

9. In dealing with this subject, I thought it expedient to make some experiments, of which the results are as follows.

Having divided the salt into three classes according to the size of the grain, it was found using the same measure that the large grained salt, artificially dried, was lightest of all, the difference between it and the smallest grained salt

salt was 12 per Cent. — 2d. The difference between a loose measure and a shaken measure all stricken was also about 12 per Cent. 3d. Wet salt weighed heavier than dry salt, packing closer, the difference varying according to circumstances, but I presume it might in practice amount to not less than 5 per Cent, the smaller grains wet, retaining the same advantage over the dry as before.

10. The following inferences may be drawn from this. 1st that in the purchase of salt, as at much depends upon the measure, as upon the measure, by a little dexterity one man might receive 10 per Cent more than another, at the same salt heap, with the same measure, and at the same time. 2d it is more to the advantage of the purchaser to buy salt of small crystals than of large, and 3d that it is also to his advantage to buy moist salt, the last conclusions however might depend upon whether the purchaser intended to convey his salt to a distance or retail it at once.

Fort St. George Mint 5th December 1846. } (Signed) E. Buckle Actg Mint Master

Ordered that the following letter be sent in reply.

To

To

The Acting Mint Master

48-50

To the Acting Mint Master

Stating that the salt measures furnished by him seem correct and well adapted to the purpose for which they are intended, and returning them with a view to their being hooped and stamped as proposed by him — also requesting him to prepare certain Round Measures in Sheet Iron —

Both Ltrs Cons. 7th January 1847.

50

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letters of the 20th October and the 5th Ultimo, and of the Salt measures which accompanied your last communication — The Board were on the point of dispatching their answer to your first letter, when the second with the measures reached them. They need therefore now only observe that the principle on which the measures just set appear to have been prepared viz that of measurement by the stricken measure, is the correct one.

2. The Board direct me to convey to you their acknowledgments of the attention which you have paid to the subject, and to thank you for the experiments in respect to the weight of the several sorts of salt, which you have instituted, and recorded for their information. The measures which you have furnished seem correct and well adapted to the purpose for which they are intended, and as they are now returned to you with a view to their being hooped and stamped as proposed in Para 8 of your last letter.

3. Of the measures now supplied, the ½ and ¼ Maunds seem those most likely to be

be useful in practice - and the Board propose to cause trials to be made in the provinces with these measures, and with others of corresponding capacity but of a greater height. They would therefore be indebted to you if you would prepare for them two half, and two quarter Maund measures, in sheet iron, of the same dimensions as those already furnished, as also three half, and three quarter maunds, in sheet iron, of a diameter of only eight inches.

T. Pycroft Esqre

Secretary to the

Board of Revenue

Fort St. George

(31)

Sir,

From the Actg Collr of Chingleput — Submitting for approval Forms of new Coulemanah Sagobady, Hookummanah and Summahkundy Hookummanah for the Chingleput District —

A B and C

Para 1. In conformity with the instructions of the Board conveyed in their Proceedings on the Land Revenue Settlement for Fusly 1254, I have the honor to forward for approval forms of a new Coulemanah, Sagobady Hookummanah and Summahkundy Hookummanah for this District —

Coulemanah

2 — The Coulemanah now submitted is drawn out generally according to the terms which have hitherto prevailed and it seems only necessary to offer an explanation regarding the 8th Para in which it is ruled that parties receiving waste lands on Cowle are to pay the Coopputtum and Grama Menahs to the Menasodars as well as the usual fees to the Curnum and other Village Servants.

3 — The claim which the Menasodars advance to the waste lands of their Villages has been sanctioned so far that they have the privilege of cultivating them in preference to other

Boards Proceedings dated 8th Septr 1846 with Extract from a General Letter from the Honorable Court of Directors Dated 3d July 1844 No 17 Paras 31 & 32.

Fort St. George 7th January 1847.

other parties on their applying for Cowles and giving security for the fulfilment of their engagements. It therefore appeared to me advisable to insert this clause to define clearly the practice which is to prevail and thus prevent disputes and facilitate the cultivation of waste lands. The Coopetturum and Grama Meraks are distinctly shown in the Swatantram Pettum of each Village; they are deducted in framing the Assessment from the gross produce, not from the Cultivators share and their amount is so trifling & value chiefly from the importance and station which the right to receive them confers. It may be added that these fees are distinct from the Swamy bogum which the Merasdars receive upon private agreement when they make over their Kyput lands to Pay Kavy Cultivators.

Sagoobady Koo Rummanah

In the Sagoobady Koo. Rummanah it will be observed that arrangements are made for an annual Putcut Pettum. This system is not new though it has only been partially

Fort St. George 7th January 1847.

partially followed it being less necessary than in other Districts from land being private property and generally of a saleable value. But as the Merasdars relying on their proprietary right often neglect their cultivation when other business occupies them and thus entail loss on the Government I have considered it necessary to lay down rules for a Putcut Pettum and hope that its gradual introduction; free from strictness or severity, will secure the interests of Government without injuring those of the Merasdars.

Under the proposed system the Merasdars will be distinctly taught that their right to the land involves the correlative duty of cultivating it and discharging the Sircar dues. At the same time it is only intended by Para 2 that the Village and Talook Servants should assist them in finding temporary Poyakary Cultivators when they themselves are unable to cultivate except in cases of long continued neglect and the penalty prescribed in Para 12 of being called on to pay the assessment on portions of the Putcut lands left uncultivated will only be enforced where the Merasdars.

Fort St. George 7th January 1847.

other parties on their applying for Cowles and giving security for the fulfilment of their engagements. It therefore appeared to me advisable to insert this clause to define clearly the practice which is to prevail and thus prevent disputes and facilitate the cultivation of waste lands. The Coopetturum and Grama Merahs are distinctly shown in the Swatuntrams Pettum of each Village; they are deducted in framing the Assessment from the gross produce, not from the Cultivators share and their amount is so trifling that they are valued chiefly from the importance and station which the right to receive them confers. It may be added that these fees are distinct from the Swamy bogum which the Merasdars receive upon private agreement when they make over their Ryput lands to Pay Ryot Cultivators.

Sagoobady Roo Rummanah

In the Sagoobady Roo. Rummanah it will be observed that arrangements are made for an annual Putcut Pettum. This system is not new though it has only been partially

Fort St. George 7th January 1847.

partially followed it being less necessary than in other Districts from land being private property and generally of a saleable value. But as the Merasdars relying on their proprietary right often neglect their cultivation when other business occupies them and thus entail loss on the Government I have considered it necessary to lay down rules for a Putcut Pettum and hope that its gradual introduction; free from strictness or severity will secure the interests of Government without injuring those of the Merasdars.

Under the proposed system the Merasdars will be distinctly taught that their right to the land involves the correlative duty of cultivating it and discharging the Sircar dues. At the same time it is only intended by Para 2 that the Village and Talook Servants should assist them in finding temporary Poyakary Cultivators when they themselves are unable to cultivate except in cases of long continued neglect and the penalty prescribed in Para 12 of being called on to pay the assessment on portions of the Putcut lands left uncultivated will only be enforced where the Merasdars

Fort St. George 7th January 1847.

dry land, and the liberal encouragement
which is given in Salem to Sinking Wells
might therefore be open to abuse and injure
the public interests by leading the ryots
to neglect portions of their present wet
cultivation and seek an enhancement
of profit by constructing Wells on their
Poonjah lands. An equal degree of encou-
ragement seems also unnecessary in this
District as the market afforded by the
Presidency for fruits and Vegetables
makes the cultivation of Garden produce
more than usually profitable.

9- I have therefore proposed
that when ryots construct Wells on Poonjah
lands first obtaining the Collectors
permission, one half of the additional
assessment shall be remitted and the
other portion at once paid. This arrangement
appears to have the advantage of simplicity
and to be calculated to promote industry, and
secure the interests of both the Government and
the Ryot.

10- The improvement of Poonjah lands by plant-
ing them with Topes of fruit trees is also alluded
to in the Hookumnamah (Para 24 Clause b)

and

Fort St. George 7th January 1847.

and it is very desirable in this District to
encourage such undertakings. But as the
subject appears to be under the consideration
of the Board with a view to frame rules of
general application it is merely stated
that parties wishing to plant Topes on
Poonjah lands will be liable to a full
assessment unless they first address
the Collector and obtain his orders. When the
rules of the Board are received they will be
promulgated in the District and acted
upon on these occasions.

Circular letter from Board dated 21st January 1846.

11- It will be observed that in conformity with the instructions of the Board the Hookumnamah contains rules for regulating remissions in account of Shamilat Bunjer and that the ryots are informed that when by their industry they raise a third crop within the year no extra cess will be demanded. In conformity also with the orders which have been received remissions for loss of produce are restricted to Poonjah lands, and limited to occasions of Shaire in which the crops entirely fail.

12- In conclusion I would beg to observe that in framing the rules now

submitted

Fort St. George 7th January 1847.

submitted for approval attention has been given to the effects which the introduction of the Survey & Assessment has caused in the District. The rules will therefore, I trust, be found generally suitable, but still I must anticipate that when they are tested by being brought into practical operation experience will show that some contingencies remain to be provided for and that in some points alterations are required.

Chinglepute District,
Collectors Cutcherry,
Pullecarney,
8th October 1846.

(Signed) E. Maltby
Asst Collector
Cowle

Fort St. George 7th January 1847.

A

Cowlenamah of the District of Chinglepute for fusly 1256.

Para 1. The undermentioned rules are framed to encourage the cultivation of waste lands on Cowles in Carcar Villages in which the field assessment has been introduced.

2 If any persons, Menigodars or Suganapees wish to undertake the cultivation of waste lands, they must present a Durkast or Proposal to the Tahsildar, mentioning the particular lands which they select, and their boundaries. The Tahsildar will thereupon examine the lands personally or by deputing one of his subordinates, who will proceed to the spot accompanied by the applicant, the Puttamanigar, Menigodars and Curnums of the Village to measure the lands and prepare a Statement of them. This Statement is to show their number, class and extent. The source of irrigation (if the land is Nunjah) their description according to the Pymash Accounts whether Sheigal Saikh, Anady or Poorumboke the

year

Fort St. George 7th January 1847.

year in which and the person by whom they were last cultivated the extent of the labour required to clear them the number of old Wells / Doravoos / and fruit trees on them and the particular marks by which their boundaries are distinguished - It is also to be stated whether the applicant if a resident of the Village, cultivated in the preceding fusly the whole of the lands in his possession -

3- This report is to be sent to the Tahsildar who will examine its correctness and the means which the applicant has of fulfilling his engagement - The Tahsildar is also to enquire whether the Meerasdars of the Village assent to the application or undertakes to cultivate the land themselves and in the latter case he is to enquire whether their Sheigal lands are fully cultivated and whether they are prepared to give security for fulfilling their engagement to cultivate the waste - A detailed report is then to be made to the Huzoor and it will be at the discretion of the Collector to grant or refuse the application on weighing the interests of Government and the different parties concerned -

Every -

1416 Fort St. George 7th January 1847.

Every person obtaining a Coule to waste lands is expected to cultivate the whole of them in addition to his Kyput lands - Where persons neglect a portion of their Kyput lands to cultivate fully their coule lands in consequence of the more favorable terms on which they are held they will forfeit the remission to which the Coule entitles them and the Amount will be carried to the credit of the Teerwah of the uncultivated portion of their Sheigal lands -

Proceedings of Board of Revenue on Settlement of 1252 Parag of Minutes of Consultation Dt. Dt. Para 3.

5- If any person after taking a Coule for Poonjah waste land neglects to cultivate it in full its Teerwah will not be remitted - In the case of Kunjah lands remissions will only be granted for portions left uncultivated when it is clearly shewn that the failure proceeded from a deficiency of water and not from the fault of the Couledar -

6- Coules will not be granted for land situated near or in the bed of a Tank when its cultivation is likely to injure the Tank by limiting its area or obstructing the course of its supplying channels -

7- An extra Assessment, allowing remission according to the terms of

of Coule will be made on account of Fusul & Teerwah Jastee in conformity with the general rules of the Summah. Mundy Hoo Rummamah when Poonjah or single crop Kunjah Coule lands are cultivated with a second crop and when Totacul or Kunjah produce is raised on Poonjah lands.

8- Parties obtaining Coules for waste lands are to pay the gramma Coopputtum and Merahs together with the fees to the Curnums and other Village Servants according to the Swatantrum Dittum of the Village.

9- The following Table shews the scale of Assessment to be levied on Poonjah and Kunjah waste lands for which Coules are granted.

	1st year Teerwa	2 year Teerwa	3 year Teerwa	4 year Teerwa	5 year Teerwa
Poonjah					
Waste from 5 to 10 years	½	¾	Full	"	"
Do above 10 years free from large trees	¼	½	¾	Full	"
Anadi or Immemorial waste overgrown with Jungle	"	¼	½	¾	Full
Kunjah					
Waste from 5 to 10 years	½	Full			
Do from 10 to 20 Do	½	¾	Full	"	"
Do above 20 years free from large trees	¼	½	¾	Full	"
Anadi or Immemorial waste encumbered with Jungle	"	¼	½	¾	Full

10- If any person propose to repair and cultivate Kunjah lands which have been injured by the overflowing of Rivers and Madoogoos or by an accumulation of sand or from which earth has been taken for Roads lands of Tanks &c. a portion of the Teerwa will be remitted for one or more years as may appear proper in each separate instance.

11- Should any person cultivate waste land without applying for a Coule and obtaining the Collector's permission no portion of the assessment will be remitted.

12- Copies of this Cowlenamah are to be furnished by the Tahsildar to his Peishcar and Tillahdars and Curnums of the different Villages. Its rules are to be carefully explained by the Curnums to the Puttamoniagars and Ryots.

Chinglepute District Collectors Cutcherry Pullecarney 8th October 1846.

Cultivation Hoo Rummamah of the District of Chinglepute for Fusly 1256.

Putcut Dittum — Parcal.

At the beginning of the Fusly the Tahsildar is to proceed through his Talook and call on the Ryots who hold Puttahs both

Fort St. George 7th January 1847.

land. When this is done an extra assessment will be levied in the former case and Fusub Jastee in the latter.

6. Where Topes of fruit Trees and Sugarcanes are not assessed with a land rent but are annually rented, the Tahsildar will at the commencement of the Fusly invite tenders and forward the highest proposal at the Buzoor accompanied with a Statement of the revenues during the preceding 10 years.

Monthly Accounts of Cultivation

7. The Puttamanigars and Curnums of every Village are to inspect periodically the Warapoot and Manaium lands and to prepare the Monthly return of Cultivation which is to be closed on the 20th of each Month. This Account is to be prepared in the prescribed form, shewing in detail each number or field with its means of irrigation whether the field is ploughed only or sown the name of the Cultivator the description of produce raised whether for the 1st or 2d crop, and the total cultivation entered in the Current Month together with the number of Cawnies cultivated at the close of the preceding Months Accounts. This Return is to be signed by the Village Officers and some of the principal Ryots and to be transmitted to the Killadar who will forward it on to the Tahsildar so as

to

Fort St. George 7th January 1847.

to reach the Talook Cutcherry by the 30th of the Month. These Accounts will continue to be sent until the Adangal for the Summah Fusly commences, and on their receipt the Tahsildar will prepare a Statement for the entire Talook and forward it to the Buzoor within the 10th of the following Month.

Care of the Tanks and watercourses

8. It is further the duty of the Puttamanigars or head Inhabitants to clear the supplying channels and keep them in order so that the tanks may receive their supply of water during the Monsoon. Rivers and spring Channels are to be daily inspected and cleared under the orders of the Puttamanigars who will also station the Poty, Talian, and some labourers on the bunds of the Tanks during the Monsoon to watch their safety and repair without delay any slight breaches.

9. The Puttamanigars are to investigate and settle any disputes which arise in the Village regarding the occupancy of land or the right of water and are likely to cause impediments to cultivation. When these disputes are beyond the control of the Puttamanigars they are to be immediately referred to the Tahsildar for adjudication.

10. On the 15th and 30th of every month

month the Curnums and Puttamaniegars are to forward to the Tahsildar reports of the rain which has fallen in the Village on each day and the supply of water received by the different Tanks. On receiving these reports the Tahsildar will prepare a general Statement for the Talook and send it to the Augvar by the 5th and 20th.

11. To enable the Puttamaniegars, Gillahdars, and superior Talook Servants to ascertain how far the Ryots fulfil their Puteut engagements the Curnums of every Village are to keep in readiness for inspection whenever called for, a detailed account shewing the quantity of lands entered in the Puteut of each Ryot and the portion of it which is actually under Cultivation.

12. The Tahsildar, Peishcar and Gilladars are to pay frequent visits to the different Villages and see that Cultivation is not neglected. If any person has left a portion of the lands entered in his Puteut uncultivated, they must enquire into the cause and adopt the requisite measures for its cultivation. Where the failure to cultivate in full according to the Puteut arises from the neglect of the Ryot and not from such

causes

causes as a deficiency of rain or loss of Cattle the assessment of the entire lands will be included in the demand at the Summahbundy.

13. The Gilladars are to make careful local enquiries to ascertain that no land is omitted in the Monthly accounts of Cultivation which they receive from the Puttamaniegars and Curnums. In September October and November when the principal Cultivation is carried on the Gilladars (Tahsildar) twice to examine the cultivated lands and check the Village Accounts. They are to report to the Tahsildar the dates on which they make this examination in each Village, and the result of their enquiries. and when these reports bring any frauds or discrepancies to light, the Tahsildar will himself investigate the circumstances and report them to the Augvar.

14. No person is to cut down fruit Trees such as Palmira Eloopah Tamarind, Mangoe Cocoanut &c. on pretence that they are unproductive or decay without obtaining previous permission. If any person requires Trees for building

a

Fort St. George 7th January 1847.

a house or a shed for his cattle he must obtain the Collectors permission in the regular manner and all persons who cut Trees without permission will be liable to punishment in the Magisterial Department.

15. Any fraud or misconduct on the part of Puttamanigars Curnums Villadars and other Public Servants either in preparing the Monthly Returns of Cultivation or in examining the lands actually cultivated will be punished under the provisions of the Regulations and the Tahsildars in their occasional visits to the different Villages will scrutinize the Accounts and general proceedings of the inferior Servants.

16 Copies of this Book Rummanah are to be furnished by the Tahsildar to his Peishcar and Villadars and the Curnums of the different Villages. Its rules are to be carefully explained by the Curnums to the Puttamanigars and Ryots.

Singlaput District.
Collectors Cutcherry
Pullecarney
8th October 1846.

Signed E. Maltby
Acting Collector

Fort St. George 7th January 1847.

C

Summahbundy Rookumnamah of the District of Chinglaput for Fusly 1256.

The following rules are established for the guidance of the public servants in preparing the Adungul, or detailed Accounts of the cultivation, on which the annual Settlement of the Land Revenue is based.

In Villages where the cultivation is confined to Poonjah lands or where the supply of water does not generally admit of raising more than one crop, the cultivation Accounts are to be closed on the 31st of December, but in Villages where Navarry crops prevail the Accounts are not to be closed before the 31st of January. The Puttamanigars and Curnums of each Village accompanied by the Toty and Talliars and the ryots should then proceed to inspect the lands from first to last according to the order of their registry in the Survey Annual, entering the results of their examination in the Adungul Aloongo. Each field or Number whether the land be Nunjah, Punjah or Totcah whether Tennaputt or Manieum is to be particularized under its respective head together with its nature and description, its classification and Assessment, the manner in which it is irrigated, its being single or double cropland,

Preparation of the Adungul by Village Servants.

and

Fort St George 7th January 1847.—

and the description of produce raised on it. It is also to be distinctly shewn to which description all land brought into cultivation during the current year belongs whether Sheiqut Larkh Anadie, or Parumboke. Where land is held upon Cowle it should / until liable to the full assessment / be simply specified as such in the Adungul Account. In preparing the Adungul for the Granamattum lands, it should be stated in detail whether each fute or number is occupied or unoccupied, and what fruit bearing trees are standing on them.—

3— Where land has been ploughed though not sown at the period of preparing the Adungul Aloongoo the fact is to be stated in the Account noting whether it be shaep land ploughed when wet / or Poolee / ploughed when dry / mentioning also its means of irrigation and the prospect, and practicability of its being cultivated, within the current Fusly.—

4.— Where portions of fields are left waste the extent of the cultivated and uncultivated portions are to be ascertained by measurement and entered in the Accounts the cause which led to the abandonment of the unsown portion is likewise to be shewn.

When

Fort St George 7th January 1847.—

5. When land is brought into cultivation during the current Fusly from the Parumboke its area must be ascertained by actual measurement and a Memorandum recorded shewing the Parumboke of which it formed a portion.— Its means of irrigation the description of produce raised and the nature and assessment of the adjoining lands are also to be exhibited.—

6.— If a single crop only is raised on land entered in the Survey Accounts as two crop land the cause is to be carefully ascertained and it must be distinctly specified whether the failure to raise a 2nd crop arose from neglect of the ryot or from unavoidable causes, such as failure of water, loss of cattle or want of means.—

7.— If Nunjah or Totacal products are raised on Poonjah lands either as a first or second crop by means of water drawn from a Tank or other public sources of irrigation the fact must be entered in the Adungul Account noticing whence the land was irrigated and the classification and assessment of the adjoining Wet or Totacal lands. In the same manner if Poonjah land is sown with a Paddy crop as depending on the rain, the tarum and assessment of adjoining Manavary land is to be sown

In

Fort St. George 7th January 1847

8.— In preparing the Adungal of the Villages transferred from Wandiwash and Trivittoor Talooks in North Arcot, care should be taken to ascertain whether the Bramin and Mahomedan Ryots cultivate their lands thro' their own farming stock or by the aid of Soodra Cultivators. Should the latter be the case the number of ploughs with oxen complete used by each Soodra are to be specified. If either the Bramins or Mahomedan Cultivators underlease their lands this circumstance also is to be recorded. The rules laid down in this Paragraph are applicable likewise to all other Villages in which the Ryots have been allowed Tedzgary remissions.—

9.— If a portion of Nunjah or Poonjah fields are rendered unfit for cultivation by inundations, or by being appropriated for the construction of houses, Public roads, Tank bunds, channels &c. they should be measured and their extent correctly specified in the Accounts with explanatory remarks of the nature of the impediment to their cultivation. Should entire fields cultivated in the preceding year be rendered unfit for cultivation by

Fort St. George 7th January 1847.—

by like causes the fact is to be recorded in the Adungal.—

10. Should a ryot after the closing of the Adungal propose to cultivate within the Fusly Nunjah, Poonjah, or Tolacal land he is to execute a Moochilkah engaging to pay the Teerwah whether the land be cultivated or not. The Moochilkah is to show the number, extent and Teerwah of the land which is then to be added to the Adungal Accounts and Assessment levied without fail.—

11.— In the event of a Ryot neglecting to cultivate land in his occupancy especially fields situated between other cultivated fields or wet land when there is no deficiency of water, his reasons for so doing must be ascertained during the Adungal and specified distinctly under each number, in order that improper Remissions may be avoided at the Huzzoor Summakhundy.—

12.— All the reservoirs and channels of each Village must be inspected and entered in the Adungal Accounts noting any which have been newly constructed during the current year. Such as are in good order should be distinguished from those in disrepair. The Accounts should also show

Fort St. George 7th January 1847.—

show how many Months' water each Tank is capable of holding, the actual supply obtained during the current season and the quantity of water remaining at the time of framing the Adungul.—

13 All Topes and detached fruit trees of a description liable to taxation viz. Jack, Mangoe, Tamarind, Palmira &c. should be exhibited in the Accounts particularizing on what description of ground they stand— Warapat, or Manium Khiyal or otherwise and whether the ground is cultivated or waste.—

14.— The revenue under the head of Bazerbat, derived from the Sungles fisheries &c. is to be detailed in the Accounts distinguishing the items which are rented from those under Circar Management.—

15.— A Statement of the Mofussil Revenue is also to be prepared shewing the Taxes on houses, implements of trade, shops and professions, each entry, or head being compared with the result of the preceding year— Should any alterations have taken place from individuals removing to another Village the Village to which they proceed is to be noted. In the same manner

Fort St. George 7th January 1847.—

manner if any new Shop-keepers or Artisans come to follow their occupations in the Village the place from which they came is to be entered.—

16.— An Account is to be prepared of the Devoy Dummak or extra collections shewing the Assessment collected on unclaimed (Bewaris) Maniums and Maniums belonging to deceased Choultries, Chavadies, Waterpundals &c. as well as any Collections made on account of the incomes or Maniums attached to abandoned Pagodas or Mosques.—

17— A correct Return of the census or population of each Village shewing the number of Adults and Children of each family according to castes, together with the number of horned cattle and sheep must be carefully prepared.—

18. When the whole of the Adungul is finished the Accounts are to be closed and an Abstract appended to them shewing the total extent of land of each class and description under the respective heads of Warapat and Manium with the farther details of Khigul Laikh Asadi and Tumbaka, irrigation &c. The Accounts are then to be signed by the Puttamanegarr and Curnums and forwarded to the Tahsildar with a

Fort St. George 4th January 1847

a Memorandum of the date of Adungul and the date of transmission.

Supervision of the Adungals

19.- At the proper season the Tahsildar will send circular instructions calling for the Village Adungul Accounts within a specified date, and as they are received he will affix his initials, and note the date on which they reached his Cutcherry.- For the purpose of testing their correctness he will then divide the Villages of the Taluk between himself his Sheristadar, Peishcar, Tahsildar and other servants who will proceed to examine each Village of their divisions. If the Adungul is found correct this is to be stated in a few words by the examining officer in his Ajmaish Report, but if any errors are discovered a revised account, which is to be attested by the Village Officers also, must be prepared and forwarded to the Tahsildar. In the event of any important discrepancies being discovered, the Tahsildar will proceed to the Village himself, and he is expected under any circumstances to examine personally some of the Villages of each division into which he may divide his Taluk.

20.- The Puttamonigars and Curnums who originally prepare the Adungul and

Fort St. George 4th January 1847.

and the public servants deputed to supervise, will be held responsible for the accuracy of the Accounts prepared by them respectively. In the event of any fraud being discovered, the Puttamanigars and Curnums will be punished in accordance with the Regulations, the Curnums being subject to a forfeiture of their Meerasi in aggravated cases of misconduct whilst the public servants will, in addition to the penalties prescribed in the Regulations, be liable to immediate dismissal.-

Ruzzoos Sumanah-bundy.

The Ruzzoor Servants deputed to prepare the requisite Accounts for the Sumanahbundy Settlement will in the first instance examine the monthly cultivation and the Adungul &ca Accounts, and direct the Curnums to prepare (on Cadjan) the Sumanahbundy Chittah. This Chittah is to be prepared in the prescribed form and with reference to the Adungul and Ajmaish Accounts, shewing consecutively the number of each field with the name of its Cultivator distinguished as Meerasdar or Poytharry and exhibiting such increase and decrease as may occur between the past and present year.-

22.- Before making any alterations in

in the Accounts by transferring land from the Puttah of one ryot to that of another or altering the designation of the cultivator as Kerafsdar or Poykarry it is necessary that the Curnum should obtain the written order of the Tahsildar or Collector, and such order should be quoted in each entry in the Chittah.

23.- The Huzzoor or Sahook Servants who is employed to transcribe the Fasjun Chittah on paper must compare it with the one prepared in the past year, and when the whole is written out he must examine and sign it as well as the Curnum of the Village.

Rules for Susul and Seerwah Jastee.-

24.- The following instructions are framed for regulating the items of Susul Jastee and Seerwah Jastee in the assessment of Poonjah, Nunjah and Totacah lands.-

Poonjah lands.-

1st If Poonjah lands are cultivated with a second Poonjah crop half Seerwa is to be charged according to the practice which has hitherto prevailed and carried to the head of Susul Jastee.-

2nd If Poonjah land is converted into Nunjah or Totacah by water brought from a Sircar Tank, Channel or river it is to be assessed at the same rate as the nearest Nunjah

Nunjah or Totacah land of a similar description and quality and possessing the same means of irrigation.- The additional assessment being carried to account under the head of Seerwa Jastee.-

3rd If Poonjah land is prepared by embankments for a paddy crop like manawary land, or rice-land, dependent on the failing supply & paddy is raised next season the assessment of the nearest similar Manawary land is to be collected, the difference between the Poonjah and Manawary assessment being carried to account as Seerwa Jastee.-

4th If Poonjah land is cultivated as Poonjah for the first crop, and afterwards cultivated with Totacah or Nunjah produce by means of water for a second crop, the full Nunjah or Totacah Seerwa is to be levied and the amount, deducting half the Poonjah Seerwa for the 1st crop, exhibited under the head of Seerwa Jastee, it being improper in such cases that the remission allowed for raising a second crop should be granted in the more important Assessment.-

5th Should any person with the previous sanction of the Collector construct a brick or stone Well on Poonjah land and thus convert it to Nunjah or Totacah, one half

Fort St George 7th January 1847.—

half of the additional Teerwa shall be remitted on account of the expense of constructing the Well and keeping it in repair and the labour of raising the water, the remainder will be included under the head of Teerwa Jaster. In such cases the parties are expected to cultivate fully their Ryotwar Nunjah and Potacah lands and on failure to do so the remission authorized by this clause will cease.—

8th If any Ryots wish to plant Topes of Cloopah, Mangos, Jacks or Tamarind trees on their Poonjah land, it is necessary for them to avoid the additional assessment which will otherwise be imposed when the trees come to bearing by previously addressing the Collector and obtaining his orders.—

Nunjah lands—

9th If a second crop is raised on a single crop Nunjah land one half of the single crop Teerwa is to be added to the demand under the Head of Fusul Jastee.—

2d— When Plantains, Sugarcane, Betal, or Saffron, are grown on single crop land, double crop Teerwa is to be levied and the additional assessment entered as Fusul Jastee. This demand will not be

Fort St George 7th January 1847.

be remitted on account of Sembacah or Young Betteh Gardens.—

Potacah Land.—

In the Villages of the Talooks as

9th.

assessed in Fudlie 1233, 1236 and 1237 the present rates of assessment are to be continued till further orders and the present practice followed of levying half the first assessment as Fusul Jaster when a 2d Crop is raised.—

At the Huzzoor Summah.

25.

Note.— Arrangements for the assessment of these lands were submitted to the Board by the Collector on the 31th July 1839.

Hereditary notice will be taken of the Poombokes land entered in the Village Adungul as brought under cultivation, and on which no assessment was fixed during the survey. The details of such lands must be submitted by the Tahsildar and a Teerwa will then be fixed on them corresponding with neighbouring land of a similar description and advantages.—

Rockadayem or Ready Money Collections.—

Rockadayem or ready money Collections.

Where an assessment has been formerly fixed on topes it will continue to be levied in the present year. For such topes as have not a fixed assessment the Tahsildar is to invite tenders and submit the most favorable for sanction to the Huzzoor at the commencement of the fusly reporting at the

the same time the collections of the previous ten years. The amount of the tenders accepted by the Collector is to be included in the Year's demand - Detached fruit trees on waste or uncultivated sheigul ground will be taxed at the following rates according to previous usage.-

Cocoanut Tree	— Ds	4
Jack	— Do	4
Tamarind	— Do	4
Eloppah	— Do	2
Mangoe	— Do	2
Velo	— Do	2
Lime	— Do	2
Orange	— Do	2
Mundri or Cashewnut	— Do	1

Sodee- 27- The Cutcoum and nuzur paid to Government by the Tanadars Sunnud Enamdars, Collections on account of Tank meraks and the Tirwa levied on Ardha Tezahi, and Chowtahi maniam lands will continue to be included in the Accounts under the head of Sodee.-

Remarks on particular Villages.- 28.- The Cowle rent which was fixed in fusly 1211 for the Village of Irsamanellore in the Carangooly Talook, and has been

been in operation since will be continued- In the same manner the Tuttewar Teerwah introduced into the Village of Voyalore in Nayer Talook will be levied for the present as heretofore - In the Village of Munjuncarney and Coorumbankum in the Peddapollium & Talook the Sheigah lands of which have been rented for 30 years the Summakbundy Chittahs are to be prepared accordingly until the expiration of the rent in fusly 1260. If any waste land is brought under cultivation in these 2 Villages it is to be assessed according to the terms of the Cowle and the amount included in the Beriz.-

In the Villages transferred 29.- from North Arcot to this Zillah and situated in the Ootramaloor, Conjeveram and Poonamalee Talooks the general rules of the Kookummanah of that District which have been hitherto in force will be continued until further orders.-

Remissions- Remissions

Double crop Teerwah 30.- will be charged in the accounts when double crop lands are cultivated and the Ryots must therefore take care that the 1st crop is cultivated in time to allow of a second within

Fort St George 7th January 1817.

Division and the tax collected on firewood & timber for building purposes, cut in those Jungles will also be entered under this head.—

Motorpha in Shotriem Zemindary & Inam Villages

37.— The Rules laid down in Paras 15 and 17 for the preparation of the Motorpha and Population Returns in the Sircar Villages are to be followed by the Curnums and Head Inhabitants in preparing similar Accounts in the various Zemindary Shotriem Enam and Ryrah Villages.—

38.— The whole of the preceding Accounts relating to the Land Revenue, the Motorpha, the Bajeebob, and Sevagy Summah having been carefully examined, the Signatures of the ryots present at the Settlement will be taken to the Ruzoor Summahbundy Chittah which will also be signed by the Ruzoor Sheristadar the Village Curnum and the Goomastah who transcribed the Chittah on paper

Puttahs— 39.— Puttahs will then be given to the Ryots corresponding with the Entries in the Summah bundy Chittahs and specifying the class and number of every field in their occupation, the name by which it is known, its extent and the Teerwa — The gross Teerwah of the Ryot, and his net Beriz, deducting remissions, will also be shown together with the Kistbundy, or monthly instalments by which the amount is to be paid.—

40.— The individuals assessed with a Motorpha, tax, and those who are called on to make payments under the head of Bajeebob and Sevagy Summah will also receive Puttahs shewing the particulars of their liabilities.—

41.— In any points which may arise to which the preceding rules do not apply reference must be made to the Ruzoor and special orders obtained.—

Ching Deputy District Collr Cuttchery Pullecurney 8th October 1816 — [Signed] E. Maltby Actg Collector

31 - 31a. Order thereon — Ordered to be sent again in Circulation

Read

Fort St George 7th January 1817.

Read the following letter

To J. Pycroft Esqr Secretary to the Board of Revenue

Fort St George

32

From the Collector of Salem — Sir,

In acknowledging the receipt of your letter of the 20th August last regarding the claim preferred by the Moolahdar of Salem for arrears of rent upon certain land in his Mootah which has been occupied by Government as a Mango Garden, I have the honor to forward copy of Mr. Fischers letter together with its enclosure dated 30th November 1816 from which the Board will observe that he is willing to forego all claim for arrears of rent both principal and interest, on the land in question if Government will give him up the Mango Tope to be applied by him to the purpose originally intended by Mr Orr. This proposal I would recommend being acceded to although Mr Fischer may well be told that his demand of Interest in this instance bears no analogy to what may have been made upon him by Government for arrears of his Rent.—

Forwards copy of a letter from Mr Fischer relative to the land occupied by Government for a Mango Tope at Salem, who agrees to forgo his claim to arrears of Rent & Interest if it is made over to him.—

32

As

Fort St. George 7th January 1847

have recourse to the enclosed and other simi-
lar Documents necessary to support the in-
formation required by the Board of Revenue,
but being unavoidably detained on the Coast
by business, and trusting the enclosed Docu-
ment will be deemed sufficient, I now
proceed to address you.

The grounds on which I claim
interest for the arrears of Kist due to me by
Government, are precisely the same as those
on which the Government are constantly claim-
ing and exacting it from myself and other
Zemindars. Viz. on account of default of
payments at the appointed times. Indeed in that
respect I am but strictly following the high
example set me by Government itself.—

In a matter of the kind under
discussion, I am however willing and beg you will
propose it to Government, to forego all claim,
both to principal and interest, if they will give
me up the Mango Topes to be applied by me to
the purpose originally intended by Mr. Orr and
myself in forming it. Viz. a nursery for pro-
pagating the superior kinds of Mangoes. Neglected
as it is now, neither dug about nor manured nor
pruned, the grafts which cost me so much labour
and expense will soon be ruined. Had they
been properly treated, with the advantages
they enjoy of good soil and plenty of water, they
ought to be luxuriant young trees, yielding
hundreds of grafts annually, instead of which
they are stunted sickly trees, and not a single graft
the Native has ever been taken from them.—

[Signed] G. F. Fischer. ordered.

Fort St. George 7th January 1847

Ordered that the foregoing letter and the previous correspondence on the subject be submitted with the following address—

(32-33)

To

The Chief Secretary to Government.

To the Chief Secy. to Govt. Para. 1 Reporting on a claim preferred by Mr. G. F. Fischer for arrears of Kist due to him on a piece of land forming part of his Mootah of Salem which has been appropriated by Govt as a Mango Garden.—

Sir,

I am directed by the Board of Revenue to submit for the orders of Government, the accompanying correspondence which has passed between this Office and the Collector of Salem, on the subject of a claim preferred by Mr. G. F. Fischer, for arrears of Kist due to him on a piece of land forming part of his Mootah of Salem which has been appropriated by Government as a Mango Garden.—

From Coll. 20th July in Cons. 20th Augt. 1846.
To Coll. 20th August 1846.
From Do. 7th Dec. Cons. 7th Jan. 1847.

2. It will be perceived that the land in question being 2 6 8 acres assessed at Rupees 17 11 7 was applied ten years since, by a former Principal Collector, Mr. Orr to the formation of a Garden, which he had projected, under the permission of Government, for the propagation of Mango trees of a superior description. It was given up for that purpose by the Ryots who then occupied it, and the late Mootahdar of Salem, at the same time executed an Agreement, whereby she relinquished her demand upon the land, and consented that it should thenceforth be held

Fort St. George 7th January 1847.

held free of Kist, whether the estate were under sequestration as it then was or Saree. The Mootah of Salem with all the arrears of Kist due from the Ryots of it was afterwards purchased by Mr. Fischer, who paid the balance of Peishcush due to Government and redeemed the Estate from attachment. Mr. Fischer now claims the Kist upon the Garden from the time of its first occupation by Government or Rupees 181—13—10 as also interest thereon amounting to Rupees 111—1—9 in all Rupees 292—15—7.—

2nd June 1836.

From Fusly 1245 to the 2d Kist of Fusly 1255 — 181—13—10
Interest — 111—1—9
292—15—7

It appears to the Board to be evident that the engagement entered into by the former proprietrix, which would not have been recognized by the Sircar, if given in favor of any other party, should not have been acted upon by the Collector, while the Mootah was under sequestration, but that the Peishcush of the land should have been duly carried to the credit of the Mootahdar in adjustment of her arrears of Peishcush. It is not equally clear whether, on the release of the Estate from attachment, the Agreement would not hold good either against the proprietrix, or against any party to whom she might Sell her Mootah. Under all the circumstances however, the Board are of opinion that the remuneration made

made by her in favor of Government should not be pleaded in bar of Mr. Fischer's claim which in other respects appears to be equitable, and they would therefore recommend that the sum of Rupees 197—5 be disbursed to him in full of the arrears of Cist due to the close of Fusly 1255, and that Rs. 17—11—7 be henceforth paid to him annually from the Commencement of the present Fusly. The claim to interest seems to the Board to be untenable inasmuch as Mr. Fischer has made no demand for the arrears in question until 7th March last.—

4. It will be seen that Mr. Fischer has offered to forego his demand in the event of the Garden, which he represents to be at present much neglected, being made over to him that the purpose for which it was originally intended may be more fully carried out. The Collector does not admit the correctness of Mr. Fischer's Statement in respect to the present state of the Garden, but states that it is manured and in good order, and that the trees are in a thriving condition. At the same time

† Note
From Fusly 1245 to 1254 — 179—10
Fusly 1255 — 17—11—7
197—5

The Bill furnished by Mr. Fischer dated 11th Jany. 1846 is only made up to the two first Kists of Fusly 1255.—

time it appears that the Annual charge to Government for assessment and Gardeners wages is Rupees 41—11—7, that the value of the produce from Fusly 1252 when the trees first came into bearing to Fusly 1255 was only Rupees 6—8—9, and that there is no prospect of the Garden Meeting its expenses for ten years to come. It may therefore in the judgment of the Board deserve consideration whether Mr. Fischer's Offer should not be accepted and the Garden be made over to him in lieu of the arrears due on it.—

From the Collr. of South Arcot—

Reporting on the outstanding arrears of Land Revenue & forwarding a Statement for the same—

Para 1. With reference to Para 15 of my report I have now the honor to submit the promised report on the outstanding arrear of Land Revenue of this District.—

2. Out of the total arrear outstanting on the 30th Ultimo for the last 15 years or from Fusly 1240 to 1254 amounting to Rupees 47791-6-9. a portion of the arrear due for the last 5 years or from Fusly 1250 to 1254 amounting to Rupees 24487-13-8. appearing to be recoverable, and being in a train of Collection by degree I have thought it proper to retain the same in the accounts until the result of the exertions and the measures adopted for the Collection of the recoverable portion be finally known without therefore including them in this report.—

3. The arrear due from Fusly 1240 to 1249- amount to Rupees 23303-9-1- which I have distinctly shewn in the enclosed Statement prepared according to a form formerly received from the Board, and on referring to which the Board will find the

Amount due from 1240 to 1249- 23303-9-1-
Do. from 1250 to 54- 24484-13-8-
47791-6-9-

the amount was classed under the several heads of recoverable, doubtful of recovery and irrecoverable in each of the 10 years with particulars of the sums due by the Renters of the resumed inam Lagbire Villages as also from the Ryots of the Ryotwary Villages.

	Rs. a. p.
Recoverable	341-12-10
Doubtful of recovery	6429-3-7
Irrecoverable	16532-8-8
	23303-9-1

2. Of the amount of Rupees 6429-3-7 entered under the head of doubtful recovery a sum of Rupees 1078-2-3 is due by a Renter named Ramalinga Pillay in the Village of Colamally Keelhaudy in the Talook of Mannargoody, for Fuslies 1240 and 1241, it appears from the enquiry recently made that this defaulter has with a view to evade the Circar demand transferred his Puttah lands Cattle &c. and property in the name of his son but pending the final settlement of the matter which is under investigation, it is advisable his arrear should continue in the public account some time longer. The remainder of the doubtful balance of Rupees 5351-1-4 though classed under this head by the local Officers, yet from the length of time that has elapsed it does not appear probable that any part can be recovered from the defaulters and their heirs without resorting to the Sale of

Fusly 1240. 629-11-6
" 1241. 448-3-3
1078-2-3

thereby depriving them of the only means of support which if authorized will affect seriously the Condition of the current revenue. I therefore trust that the Board will concur with me as to the expediency of declaring this portion of the arrear irrecoverable.

3. As regards the amount of irrecoverable balance of Rupees 16532-8-8 its recovery appears from the minute inquiry made individually into the condition of the defaulters to be quite hopeless consequently ought to be struck off from the public Accounts.

	Rs.
Irrecoverable By death of the defaulters	7138-1-11
By desertion of Do.	2167-5-1
By poverty of Do.	6705-1-8
Amount since remitted by the Collector for various causes as explained in the Col. of remarks	522-0-0
	16532-8-8

4. If from the total arrear of Rupees 23303-9-1 the portion recoverable, and that retained amounting in all to Rupees 1419-15-1 be deducted, a net old arrear of Rupees 21883-10-0 is left without the slightest prospect of its ever being recovered.

Recoverable	341-12-10	
Amount retained under the doubtful arrear as per para 4	1078-2-3	
	1419-15-1	

5. It is proper here to state that this arrear when compared with the Bariz[x] of the 10 years to which it appertains does not exceed 1½ per cent of the entire Summah.

[x] Rs. 188,78,065-12-9

6. Under these circumstances I beg to request that the Board will be pleased to recommend to Government authority for writing off the said arrear of Rupees 21883-10-0 in the public accounts under the head of remissions.

W. D. Davis
Collector.

Of this sum Rupees 180-2-" have been remitted by the former Collectors at different periods either on its being discovered that there was an error in the preparation of accounts or on enquiry made on appeal after the conclusion of the Settlement that certain demand had been improperly included in the accounts and the remaining sum of Rupees 341-4-" has also been remitted by the late Collr as compensation to the Shrotriemdar of Coonjemadoo in the Talooke of Mummargoody for certain land belonging to his Shrotriem Village which were taken up for Cutting Channels for the irrigation of lands in the Talooke of Chellumbarum.-

1463. Fort St. George 7th January 1847.

(36 - 37)

Proceedings thereon. Para 1. From the above report it appears that the balances of land revenue outstanding in South Arcot to the conclusion of Fusly 1254 amount to Rupees 47,791-6-9. Of this sum Rupees 24,487-13-8. are due for the five last years or from Fusly 1250-1254, and these arrears are reserved for further enquiry and future report. The balances to which the present letter has more immediate reference are those which have accrued from Fusly 1240. to 1246. and amount to Rupees 23,303-9-1.—

Total balances from 1240. 1254 47,791-6-9.
Ded.t balances from 1250. 54. 24,487-13-8.
remains from 1249 — 23,303-9-1.

2. The arrears which belong to this last period are classed under three heads viz.—

Recoverable	341-	12-10.
Doubtful	6429-	3-7.
Irrecoverable	16,532 —	8-8.
	23,303 —	9-1.—

3. Among the doubtful arrears is included the sum of Rupees 1078. 2-3. due for Fusles 1240 and 1241. by the Renter of a Village in the Colleemalay Jaghire. The defaulter it is stated has with a view to evade the Circar demand transferred his Cutta lands, Cattle &c.a and property in the name of his son, and pending the final settlement of the matter which is now under investigation, it is recommended that this balance should still be retained in the public accounts. It is evident that such a procedure as the conveyance of the Defaulters property to

Submitting a letter from the Collector of South Arcot reporting upon the balances of land revenue outstanding in his district to Fusly 1254 inclusive and recommending that sanction may be granted for striking out of the books of the Collectorate Rs. 21,883-10—

1464. Fort St. George 7th January 1847.

to his son cannot be permitted to defeat the just demands of Government and it would have been satisfactory had some more distinct explanation been given as to the reasons for which this arrear has for so many 15 years remained unadjusted. The Collector will be pleased to take immediate measures for the realization of this balance and will report the steps which he may adopt and their results at an early date. The remainder of the second class of balances the entered by the local Officers as 'doubtful' cannot Mr. Davis states be recovered except by the sale of the lands and houses of the defaulters and by seriously affecting their condition and resources.—

4. The irrecoverable balances are such as cannot be recovered in consequence of the death emigration or utter poverty of the parties by whom they are due. Under this head has also been included the sum of Rupees 180-2-— which seems to have been improperly entered in the Demand and Rupees 34-14-— being the amount of remission due to a Shotreendar for land belonging to his Shotreem but taken by Government for the formation of an irrigating channel.—

5. It will thus be seen that the irrecoverable balances and those the recalization of which the classed as doubtful, it would

would not be expedient to enforce amount
Irrecoverable ——— 16,532-8-8. jointly to Rupees
Doubtful ——— 5,381-1-4. 21,883-10-"-
21,881-10-" and under
the explanation afforded by the Collector the
Board of Revenue beg to recommend that sanc-
tion may be granted for striking that sum
out of the books of the Collectorate.-

1st.

for Inland and Home consumption almost in an equal ratio, the decrease on account of the former being 39,492 Indian Maunds - Value Rupees 40,672-6-4 and on account of the latter 40,738 Indian Maunds Value Rupees 47,713-9-6, total decrease in Indian Maunds 80,230 and in Rupees 88,385-15-6. Out of the latter amount, Rupees 6,975-7-6. is attributable to a difference in the selling Price, which, as noticed in my report for 1254, was 1/2 Rs. per Maund up to the 19th August of that year, when it was reduced to 1 Rupee - that even this price affects the consumption of Government Salt is, I think, deducible from the fact of the gradual decrease observable in our sales since Act No. 6. of 1844 came into operation - I do not however mean to assert that the whole of the decrease now under consideration is attributable to this cause - it may in part have arisen from the dread of Cholera which was very prevalent for a considerable time, which deterred the Mysore people from coming down to Cannanore and Tellecherry for their full annual supply. —

Para 2.

3. The sales for home consumption may have in some slight measure been lessened in consequence of the general prevalence of Cholera and other epidemic diseases, but the great diminution has no doubt been caused

Fort St.George 7th. January 1847.

caused by the enhanced price of Salt which has left the poorer classes, - especially in South Malabar, to supply their wants through the illicit means described in my letter dated 27th. June last. —

Price

4. I now proceed to offer the explanation called for in your letter of the 28th. September last, in reply to mine just alluded to, which I was desired to incorporate in this report. —

7 On the subject of diminution in our domestic sales. —

I much regret that from a want of explicitness in the note appended to para 2 of my address of the 27th June I should have embarrassed the Board in the consideration of the question I had laid before them, and necessitated the remarks made in Para 3 of the letter now under consideration: remarks which had I been more explicit would not have been required - Had the words "from the Ponany Gollah" been added to the 2 first words "our domestic sales" all would have been clear - The tenor of my whole letter was to shew the decline in the sale of Salt for Home consumption in South Malabar, in which the Talooks adjoining the Cochin Rajahs' territory are situated - Ponany, the Board are aware, is the only large Salt depot to the South - With this explanation I beg to reiterate my recommendation that something be done to prevent the smuggling

of

Fort St. George 7th January 1847.-

1418

advantage until their system is assimilated to ours- This is somewhat of a digression, but not an unnatural one.—

7. In the 6th paragraph of the Board's letter under consideration, it is remarked that the Board do not understand how it could have happened that the Garce should have been estimated as equal to 146 Indian Maunds prior to the passing of Act 6 of 1844 as stated in my letter of the 11th June 1844- The Parrah measure of 25 McLeod's Seers which was in use from Mr. Warden's time in 1807 to the introduction of Act 6 of 1844 was as observed by the Board, held to be only 1/120th of a Garce, and to contain the exact weight of an Indian Maund- And it did so when the Salt was of the light nature which it was when the Monopoly was introduced- a Native article of very poor grain and weight- But the Parrah measure when filled with the stronger and heavier Bombay Salt, an article which was rapidly substituted for the native manufacture, weighed not only an Indian Maund, but 688 tolas in excess- The Bombay merchants had to give us 120 Parrah measures full for each Garce they supplied, and the extra weight just alluded to made the Garce amount in reality to 146 Indian Maunds.

Fort St. George 7th January 1847.

Maunds- The benefit of this extra weight of Salt went to the consumers- for each measured Mc Leod's Seer they got a greater weight and therefore a greater amount of Salt than they would have done had the Salt been of a lighter nature.—

8. On the introduction of Act 6 of 1844 which rendered it imperative to sell by the Indian Maund, I cut down all my Parrah measures so as to make them contain the weight of an Indian Maund of Bombay Salt exactly— The Bombay merchants having to give us less weight have supplied the Garce of Salt at a proportionately decreased price as will be seen by a reference to my Salt accounts- The retail consumer, it will be sufficiently evident is the party who loses by this change.—

See Letter to the Board 11th June 1845.

9. The "charges for Purchase" exhibit a decrease of Rupees 28,302-10-11 which may be divided thus: on account of the required Salt having been purchased during the year under consideration at favorable rates Rupees 15,923-13-11; and on account of a lesser quantity having been purchased in 1255 than in 1254 Rupees 12,378-13-11- With respect to the first item, I would add that the average purchase price of 1254 was Rupees 28-12-7 per Garce whereas that of 1255 is only Rupees 23-11-9, or

× Salt purchased in Fasly 1254 - Indian Maunds 4,29,219
" 1255 - 3,78,318
Difference - 51,601

See Statement No. 5.

or Rupees 5-11-10 in favor of the last quoted year-

10. The decrease of Rupees 1325-3-3 in the "charges for Superintendence and Sale" falls on the items of expenses attending the conveyance of Salt from Mangalore to Calicut and from Calicut to Mamboat respectively (no similar charges having occurred in 1255) and from a decrease in the expenditure on account of Repairs to Gollahs.-

11. The decrease under the two Heads above noticed giving an aggregate of Rupees 29627-13-3. reduced the falling off in the Revenue derivable from this source from Rupees 88189-14-2 to Rupees 58,562-1-11, the Net Revenue of Fusly 1254 being Rupees 2,80,061-12-1 and that of Fusly 1255 Rupees 2,21,499-11-2 Arcot Rix.—

Tobacco. 12 This branch of Revenue exhibits this year a favorable result, in as much as there is an increase of Rupees 38,608-10-2 in the Gross Collection,- a decrease of Rupees 14,910-9-11 in the

	Fusly 1253	Fusly 1254	Fusly 1255	Increase	Decrease

the Charges, and an increase of Rupees 53,519-6- in the Net Revenue - The excess in the sales may partly be attributed to an improvement in the quality of the Tobacco supplied from Coimbatore - and partly to increased vigilance in checking the influx of contraband Tobacco - It is not improbable further that the prevalence of Cholera in Coimbatore may have discouraged smugglers from resorting thither as much as usual.—

13. The decrease in the "Charges of Purchase" amounting to Rupees 13,081-1-6 is solely owing to the supply received in 1255 being less than that of 1254 by 1,200 Candies - the difference arising from this cause would however have been much greater, say about 34,500 Rupees, but for a higher rate having been charged on the Tobacco supplied in 1255, the average for the year being Rupees

Fort St.George 7th. January 1847

Rupees 36-15-½ per Candy- whereas the average price of Fasly 1254 was only Rupees 28-11-4 excess Rupees 8-3-8½ per Candy- The cause of this enhancement in the Price is explained by the Principal Collector of Coimbatore in his letter to me dated the 12th. August last, a copy of which I beg to inclose.-

No. 6.

*Rs. 1829-8-5. 14

The decrease in the "Charges of Superintendence and Sale" is mainly owing to our having had a less quantity of Tobacco to transport from Coimbatore to Malabar.-

To

Fort St. George 7th. January 1847

15- To explain the decrease of Rupees 8,034-7-11 apparent in the Gross Collection derived from this Source- I need only state that it proceeds from the abolition of the Chowkies on the borders of the Mysore Country, and to this cause is also attributable the decrease of Rupees 590-3-5 which stands against "charges of Superintendence and Sale," the establishment kept up for the levy of Frontier Duty having been discontinued at the same time-

In the Drawback there appears 16- a decrease of Rupees 822-15-4 this item of disbursement will ere long be extinct, what has already been paid, being on account of the 5 p.c. inland duty levied previous to Act 6 of 1844 coming into operation- The net result shews that this branch has this year been an unproductive one to the extent of Rupees 523

*of Frontier Duty-

Calicut 11th July 1846 } E. E. /Signed/ H. V. Conolly
Collector

To

No. 6

To H. V. Conolly Esqre
Collector of Malabar.

Sir,

1. I have the honor to acknowledge the receipt of your letter of the 30th ultimo requesting to be informed of the cause of increase in the average price of Tobacco supplied to Malabar in Fusly 1255 above that of 1254 -

2. The increase alluded to has been occasioned from the calculation of the price of Tobacco quarterly as directed in the accompanying Copy of letter from the Office of the Accountant General bearing date the 15th April 1843. which is a temporary rather than a fixed standard. Under the instructions contained in this communication the value of Tobacco and packing materials purchased during the last three Months is proportioned on the aggregate quantity in store within that period, and the average rate produced by such calculation, is taken as the standard price for the next three Months. This does not at all correspond with the actual Cost but is subject to fluctuation according to the increase or decrease of the quantity in store and these will

1512 Fort St. George 7th January 1847.

will account for the excess of charge adverted to by which in other words means that the quantity of Tobacco in store in last Fasly was small contrasted with the preceding year.-

Coimbatore — } /Signed/ J. C. Wroughton
12th August 1846 } Principal Collector

To

J. C. Wroughton Esqre
Principal Collector of
Coimbatore.-

Sir,

Para 1. In reply to Mr Bird's letter of the 27th ultimo, I am directed by the Accountant General to request you will insert in your next Journal the annexed entry, which will render the balance outstanding in your accounts under the head "Advances for Tobacco" correct. The adjustment of the second Item of Rupees 12,137-4-2 requested in your letter of the 6th January last, is unnecessary as the amount has already been brought to account in the General Books of this office.-

2. With reference to the 2d para of Mr Bird's letter, stating that some mis-apprehension existed in your office regarding the calculation of the average value of Tobacco in

1513 Fort St. George 7th January 1847.

Sir, I am directed to explain that in forwarding the Quarterly Statements of the transactions of business between the two Offices, at once coming to a precise understanding as to the mode of taking those averages.

3. The Tobacco Accounts used to be rendered Monthly and it was then of course easy to take the balances in store at the close of the preceding Month, the amount received into store and the amount of actual charges during the Month, and to determine how much of the price of what was should be credited to "Tobacco" and much to "Profits on Tobacco". At present no Accounts Particular of Tobacco are rendered at all, simply a Quarterly Statement of the balance in store, and it is next to impossible for this Office to follow your calculations if you continue to take the averages Monthly. That is to take three separate averages in each quarter. The only way to obviate this difficulty is to take the averages quarterly on upon the amount and value of Tobacco in Store at the commencement of and the transactions during one Quarter of the Official Year

Fort St. George 7th January 1847.

Year to determine the ratio in which the proceeds of the sale of Tobacco in the Quarter of the year immediately succeeding shall be respectively credited to "Tobacco" and "Profits on Tobacco". To prevent the impossibility of any misunderstanding hereafter the calculation of one quarter's average.—

4. Make this opportunity of bringing to your notice that your Journals shew only the weight of the Tobacco supplied, and not the number of bundles, where the Tobacco received into store is noted by the number of bundles, and to request the favor of your furnishing in future the number of bundles as well as the weight of the Tobacco supplied to other Districts.—

Fort St. George
Accountant General's Office
15th April 1843 ---

(Signed) Jno. M. Swinton.—
Head Asst. to Acct. Genl.

Profits—

Fort St. George 7th January 1847.—

Profits on Tobacco Dr. to advances for Tobacco Company's Rupees 3551-13-7

Being the amount overtransferred from the Deposit Account in Journal from 1st to 11th July 1842 Page 54 to the credit of the former head instead of to the latter included in Rupees 10067 and now corrected - - -
