Communicating observations and orders on the Board's Proceedings relative to the settlement of the Extra sources of Revenue in the District of Rajahmundry for Fusly 1255.

Extract from the Minutes of Consultation under date the 8th December 1846

Read the following Extract from the Proceedings of the Board of Revenue

Relative to the Settlement of the Extra Sources of Revenue in the District of Rajahmundry for Fusly 1255.

(Read 16th November 1846 No 552)

Para 1. The Settlement of the Extra sources of Revenue in Rajahmundry for Fusly 1255 was fixed by the Collector at 341909 11 5, shewing an increase over the preceding year of 35,669 - 10 excepting

Fort St. George 11th January 1847.

excepting in the item of Stamps there was increase in all branches.

2. Under the head of Salt it is not increase of Rupees 353, the Revenue derived from the sales being 150,720 - 10 - 3. The decrease in home consumption of 2,033 was caused by the higher price which prevailed in Fusly 1254 for the first Month of that Fusly. The inland sales slightly exceeded those of Fusly 1254 -

3. The collections of Frontier duty was augmented from Rs 4222 - the Revenue of 1254 to Rs 5,819 - 14 - 5. Ship timber was imported largely from the Nizam's Territory. The Sea Custom Collections have nearly doubled in the year being Rs 61,891 - 9 - 7, the increase being caused by export of fine rice to the Mauritius and Bourbon and import of coarse from Arracan - This improvement in the export trade is satisfactory.

4. It is observed that the whole of the Abkary demand which considerably exceeded that of 1252, has been realized, and that the balance of Fusly 1253 is in course of collection. An extension of trade had had a favorable effect on the Motupilla, the demand on this account amounting to 49,149 - 10 - 2 has been made good with the exception of Rs 4,203 - 10 - 1.

5. The Collector has submitted a statement of Motirpha balances amounting to 6,221-5-11 outstanding for Fasles 1251-02-53 and 54. Of these he pronounces Rupees 5,303-5-3 as irrecoverable. This sum is stated to be owing by deceased, deserted and poor Ryots, and diligent enquiry, he adds, has satisfied him that the parties have not the means of paying the balances for the same period amounting to Rupees 820-2-3 are on similar grounds reported as irrecoverable under the head of Sundry small Farms.

The Board of Revenue support the recommendation of the Collector and accordingly the Governor in Council is pleased to grant sanction for writing off these irrecoverable balances amounting together to Rupees (6,123-7-6) Six thousand one hundred and twenty three, Annas Seven, and Pice Six—

Motirpha 5,303-5-3
Small Farms 820-2-3
Total 6123-7-6.

Proceedings dated 16th November last.

From the Offg. Sec. to Government—

Approving under certain precautions suggested by the Hond. the Court of Directors the General Rule proposed by the Board for the Collection of arrears of Quit Rent on grounds for which no demand has been previously made and directing that the case of Kumma Kummal & Rungaswamy Kummal be disposed of accordingly—

Extract from the Minutes of Consultation under date the 11th December 1846.

Read the following letter from the Secretary to the Board of Revenue.

(Recd enter 2d November 1846 No 529)

Para 1. The Governor in Council has had under his consideration the case of Cumakummal and Rungaswamy Kummal as brought to the notice of Government in the foregoing letter, as well as the circumstances under which arrears of Quit rent have been demanded on lands occupied by two Houses belonging to them. The Board advert to a proposition contained in their previous letter of the 31st October 1844, No. 505, and now recommend as a general rule that in all cases in which application may hereafter be made for the issue of Grants or Certificates for land at Madras, the demand for arrears of Quit rent on such ground be limited to five years, or for such period within that term, as the present owner may have been in possession.

2. The Governor in Council observes that the Honorable Court of Directors in para 34 of their Revenue letter No 13 dated 22d September 1846, a Copy of which will now be furnished to

the Board of Revenue in commenting upon the proposition contained in their letter of the 31st October 1844, remark that to fix the period when the party came into possession as the limit for the collection of arrears would operate unequally and be objectionable, and suggest that a definite term should be prescribed for which only arrears should be collected previously to issuing the certificate in Cases where the Collector is satisfied that no demand has been previously made, and that the payment of Quit rent has not been fraudulently or knowingly withheld by the party in possession.

3 The proposition of the Board of Revenue so far meets the wishes of the Honorable Court, as in that it fixes a specific term for the Collection of arrears, and the Governor in Council in approving the general Rules under the reservations contained in the Despatch referred to above, directs that the Case of the Petitioners Cunnakunnaul and Rungunaik Unnaul be disposed of accordingly.

Extract from a General Letter from the Honble the Court of Directors Dated the 22nd September 1846 No. 13.

29. The arrears of Quit rent due on certain property in Madras belonging to a Member of the family of the Nabob of Arcot remitted

34. We observe that the Board of Revenue proposed to lay down as a general rule for regulating the demand of arrears for Quit rent, as that "in all cases of lands hitherto "unassessed with Quit rent, whether built "upon, or cultivated, no demand should be "made for any period earlier than that in "which the party came into actual possession, "whether by purchase, or inheritance, and that in no "instance should a demand for Quit rent on land "hitherto unassessed, be made for any period in ar- "rear beyond five years." You passed no order on this portion of the Board's letter, but we think it desirable that a rule should be laid down for the guidance of the Collector in similar cases—

To fix the period when the party came into possession whether by purchase, or inheritance, as the limit beyond which no arrears should be Collected, would be objectionable as it would obviously operate unequally in cases similar in all other respects to

of the commencement of the actual incumbent's occupancy, and we should prefer that a definite term should be prescribed for which only arrears should be collected previously to issuing the Certificate in cases where the Collector is satisfied that no demand has been previously made, and that the payment of Quit rent has not been fraudulently or knowingly withheld by the party in possession.

Order thereon.

Ordered that Copy of the foregoing Extract Minutes Consultation and of the Extract from the General letter from the Honorable the Court of Directors under date 22d September 1846, which accompanied it, as also of the Board's letter to Government 2d November 1846, be communicated to the Collector of Madras in reference to his letter of 22d September last.

In Cons. 22d Octr. 1846.

Under the instructions conveyed in these papers Mr. Hudleston will be pleased to charge Cunnakummul and Rungnaikummul with arrears of Quit rent for five years on the property for which they require a Certificate.

Fort St. George 11th January 1847.

We will also be guided by the same principle in determining the demand for arrears of Quit rent to be charged in all future cases in which he is satisfied that no demand has been previously made and that the payment of Quit rent has not been fraudulently or knowingly withheld by the party in possession.

From the Offg. Secy. to Government.— Communicating observations & Orders on the Board's Proceedings relative to the Settlement of the Land Revenue in the District of Kellore for Fusly 1255.

Extract from the Minutes of Consultation under date the 2d January 1847.

Read the following Extract from the Proceedings of the Board of Revenue.

Relative to the settlement of the Land Revenue in the District of Kellore for Fusly 1255. 1845/46

(Here enter 16th November 1846 No. 557)

Para 1. The season of Fusly 1255 was favorable for dry, but not for wet Cultivation. In October, November and December the supply of water in the Tanks was not more than 1/4th, the proper quantity, and in January many Tanks were quite dry. The freshes in the Pennar were less by one half than in the year preceding and their duration was in like proportion.

2. The cultivation Pottum of the year exhibits a net increase of 2707 Cottahs. The actual Jmt. De. Cultivation a net increase of 3072 Cottahs 855. The large

Mattu Mooloom and Jaroo Magany — 0-2077.

decrease in wet cultivation amounting to Gorsoos 2977 reducing the total quantity of land brought under the Plough. The chief decreases in wet cultivation occurred in Five Talooks of the Collector's division where are the largest Tanks mainly dependant on rivers for supply.

3. The deductions from the Dittum amounted to the large sum of Rupees 37,7458-10-9 exceeding by Rupees 29,144-10-9 those of Fusly 1254. The main item is Caboolaty Bunger. Rupees 3,54,622-15-8 of which Rupees 3,24,957-3-8 is on account of wet land left waste from insufficiency of water. The remissions on this last account as well as those amounting to 14,817-12-5 for withered Crops appear to the Governor in Council to have been admitted after careful and diligent enquiry on the part of the Collector. Notwithstanding these deductions Lands assessed to the Amount of Rupees 36,147-10-1 but left waste from neglect, for pasturage, for the object of cultivating Enam, and portions of fields were included in the settlement. In assessing Bunger the Collector states that he has "omitted imposing a thist on such "lands which have been left waste from inability "to cultivate and where no fault could be imputed to the Ryot" and he argues against the

impolicy of raising a berij merely nominal to be ultimately written off as irrecoverable. Of the correctness of those views there can be no question, and the Governor in Council confiding, as do the Board in the minute local enquiries made by the Collector at the time of settlement approaches of the course he has pursued.

4. The final settlement of Land Revenue exclusive of Peshcush and Shotrums stands at Rupees 12,59,205-6-11 of which up to the middle of September Rupees 12,53,081-3-6 were collected. The Governor in Council observes with satisfaction in the punctual realization of this demand, evidence of the exertions of the Collector and the Sub Collector.

Sub Collector's Division—
Demand — 4,83,034-10
Collections 4,03,646-11-11
Balance — 1,655-8-11

5. The demand for the entire District including Peshcush, Shotrum and Quit Rent amounted to Rs. 1,73,772-5-4 and exhibit on a comparison with 1264

Fusly 1254 — 1,35,082-6-5
Do. 1255 — 1,73,772-5-4
38,310-1-1

a decrease of Rupees 38,310-1-1.

6. In directing the immediate collection of a considerable balance of Peshcush due by the Zemindar of Vencataghery the Board have expressed their opinion that the indulgence shown to him by Mr. Bishop was not called for under the circumstances of the season. The Postponement of the balance of one year for realization from the expected resources

of the next is, under other than extraordinary circumstances to be avoided. In the present instance the decrease of Cultivation, low prices of late years, and the hitherto punctual adherence to his engagements induced the Collector to accede to the Zemindar's request. The Governor in Council does not see sufficient grounds in the reasons assigned for this relaxation of rule allowed without reference to the high prices of the year and apparently without investigation into the adequacy of the Zemindar's prospect collections from his ryots to meet the full amount of Peshcush

7. The Government are led to expect at an early date the Collector's report and the Board's proceedings on the outstanding Ryotwar balances.

8. The Governor in Council observes that since these Proceedings were drafted the Zemindar of Venkatagerry has paid up his kist in full for July 1255.

From the Collr of Vizagapatam, dated 9th Decr

Para 1. Sir,

I have had the honor to receive your letter of the 3d December, calling my attention to the requisition by Government of the 25th March last, on the subject of alleged illicit sales of Spirituous liquors to the Soldiery in Vizagapatam.

2. This subject has before been repeatedly mooted, and objection offered to the suggestions made by the Officers Commanding at that Station, which were then deemed sufficient.

Board's Proceedings 8th December 1842.

3. But under date the 29th November 1842, Government were pleased to "desire that the Magistrate would "afford the Officer Commanding Vizagapatam such assistance "as he might from time to time require for the suppression of Re= "moval of shops, in which Spirits were improperly "supplied."

4. This order has always so far

as I am aware, been promptly complied with and the best understanding has always existed between the Military and Civil Authorities.

No recent applications on this subject were made to me and upon personally communicating in April last with the Authorities in the Fort, on the subject of the reference under reply, I was verbally assured that the conduct of the men of the Veteran Company had, of late, been all that could be desired, and that a great reformation was observable in their habits.

From the Coll. of Rajahmundry.— Reporting on the petition No. 9 of 30th Sept. 1846 presented by the Zemindar of Pedagoy. comma Pattah.

Sir,

Para 1. With reference to your letter of the 28th September last

Fort St. George 11th January 1847.

last forwarding a petition from Vandravoo Somapach Zemindar of Vagayemmapettah Mootah dated 22d June 1846 wherein he prays that the balance due for fusly 1254 may be struck off because he did not obtain possession of the Estate till the Month of April of that fusly by which time the Ryots had cut and carried the produce of their lands, also to remit half of the balance due for fusly $\frac{1255}{A.D.\ 1845/46}$ in consideration of the loss sustained by him owing to the unfavorableness of the Season and to receive the other half along with the kists of fusly $\frac{1256}{A.D.\ 1846/47}$ and requiring me to report on the state of the Estate, and to report whether any instalments should be allowed for the discharge of the balance of fusly $\frac{1255}{A.D.\ 1845/46}$

I have the honor to state that the Mootah was made over to the Zemindar on the 12th of April in fusly $\frac{1254}{A.D.\ 1844/45}$ the balance of Rupees 51,335—5—11 outstanding up to the end of fusly $\frac{1253}{A.D.\ 1843/44}$ having been struck off under sanction of Government. With respect to the balance due for fusly $\frac{1254}{A.D.\ 1844/45}$ Viz. Rupees 2166—9—8 the Zemindar entered into an agreement duly executed on stamp paper to pay 1000 Rupees in fusly $\frac{1256}{A.D.\ 1846/47}$ and Rupees 1166—9—8 in fusly $\frac{1257}{A.D.\ 1847/48}$ with reference to the correspondence noted in the margin. The Estate fell into arrears for fusly $\frac{1255}{A.D.\ 1845/46}$ owing to the failure of the rains and was in consequence placed under attachment

but the Zemmindar has redeemed it on payment of the
Rupees 3278-2-1. arrears in full for that fusly.

2. It appears from a report from the Amil-
-dar of Colah and Ramachundrapoorum Talook &
that the present condition of the Estate in question is
very favorable, that the Amaramm thereof amounts
to Rupees 11,205. of which deducting Rupees 1,005 which
may probably be left unpaid by Raiars the Re-
-mainder Viz.t Rupees 10,200 will be realized. The Zemin-

the Eight Villages whose names are entered in the
margin belonged to Rajah Sobanadry Apparow
the Zemmindar of Noozeed, and was attached on
the 14th April 1842 for arrears due to the Circar.
Since which time, the Sary Villages have been
managed under Amaram tenure in fusly 1251/1841/42
1252/1842/43 and 1253/1843/44 and from fusly 1254/1844/45 the year
in which it was put up to auction and purchased
by Government, have been settled under rent.

3. During the Minority of the Zemin-

Para 1. With reference to Para 20 of my report upon the Government Estates in this District for fusly 1255/1845/46 I have the honor to bring to the notice of the Board the following circumstances regarding the Padapaud Mootah lately purchased on account of Government for arrears of revenue.

2. This Mootah which consists of the Eight Villages whose names are entered in the margin belonged to Rajah Sobanadry Apparow the Zemmindar of Noozeed, and was attached on the 14th April 1842 for arrears due to the Circar since which times the Sary Villages have been managed under Circar tenure in fusslies 1251/1841/42 1252/1842/43 and 1253/1843/44 and from fusly 1254/1844/45 the year in which it was put up to auction and purchased by Government, have been settled under rent.

3. During the Minority of the Zemmin-
dar

dar of Noozeed the administration of the Estate having been conducted under the Court of Wards, the Collection of certain items noted in the Margin was discontinued by the then Collector Mr. Russell, and after the Minority was over; the Zemindar having assumed charge of the Estate he again entered these items in the Demand of the Villages from fusly

1240 / A.d 1830/31

4.

After the sequestration of the Mootah in fusly 1251 / 1841/42 the Ryots of these Villages have several times represented the loss to which they would be exposed in the event of their being forced for the arrears which accrued during the Zemindar's management on account of these items which had been reimposed upon them by the Zemindar after they had once been formally discontinued by the Circar, and requested that justice should be done to them in the matter.

5.

On enquiry being instituted into the Records of this Office and the accounts in possession of the Villages, it would appear that from fusly 1197 / 1787/88 to fusly 1200 / 1790-91 the item termed Dhara Sajawat had not been assessed on or collected from any of these

Dhara Sajawat.

these Villages except one called Pommungy; but it appears that from fusly 1204 / 1794/95 to 1229 / 1819/26 it was entered on all the sary Villages at 2 Rupees per Candy on Kadeem, and one Rupee on Pay ahary Ryots, and from fusly 1230 / 1820/21 to 1239 / 1829/30 during which the estate was under trust on account of the Zemindar's Minority it had been discontinued; and again from fusly 1240 / 1820/21 to fusly 1243 / 1833/34 it was entered under the demand by the Zemindar in the same manner as had formerly been the case: and from fusly 1244 / 1834/34 they were reduced by the Zemindar himself to a Moiety Viz.th one Rupee per Candy for Kadeem, and 8 Annas for Payahary Ryots.

Saderwared.

6.

The item of saderwared likewise appears from the Accounts to have been collected only from the Village of Pommungy from fusly 1197 / 1787/88 to 1200 / 1790/91 at 6, 4, and 3 Annas per Candy, but not from other Villages. From fusly 1204 / A.d. 1794/95 to 1212 / 1802/3 the other Villages except Mandapully and Boondagoodem, and from fusly 1213 / 1802/3 to 1229 / 1819/20 the whole number of sary Villages have been assessed with the charge of the said item; while from fusly 1230 / 1820/21 to 1239 / 1829/30 the same was during the Circar trust totally discontinued on all Villages; and from fusly 1240 / 1830/31 the said saderwared was in

the

the manner set forth above included in the demand by the Zemindar; and from fusly 1247/1837/38 it was reduced to a moiety at 3 and 2 Annas per Candy.

Mootesuddy Saharcer.

7. This item from fusly 1204/1794/95 to 1209/1799/800 appears to have been separately collected without being entered in the annual Dowles, but the late Zemindar fixed it at 2 Rupees per Cent on the sist & and collected accordingly from fusly 1213/1802/6 up to 1224/1814/15 but from fusly 1225/1815/16 to 1239/1829/30 during which the Estate was under management on account of the Minority of the Zemindar, as well as from fusly 1240/1830/31 to 1244/1834/35 during the Zemindar's Management, this item has not at all been collected, but only appears to have been fixed by the Zemindar for 4 Villages from fusly 1245/1835/36 and for 2 Villages from fusly 1247 at one Rupee per Cent.

Nazur Cotoy.

8. This item has not been collected from any Villages except from Ponnuggy from fusly 1197/1787/88 to 1200/1790/91 In fusly 1214 during which the Estate was under Amany management the sums of was collected from all sary Villages. In fusly 1215/1805/6 the late Zemindar having purchased this Mostah, he fixed 60 Rupees per

Annam

Annum under this head on all sary Villages and collected accordingly up to fusly 1224/1814/15 and from fusly 1225/1815/16 to 1246/1836/37 this charge was not made on the said Villages either during the Fitty or the Zemindar's management. But from fusly 1247/1837/38 it appears that a Moiety of the charge in question was assessed by the Zemindar.

To the Board 20th March 1819.

9. During the Circar Fitty management when the Zemindar was a Minor, Mr. Russell the then Collector considering that extra items pressed heavily on the Cultivating Ryots and that the cultivation of the soil would be much impeded in consequence, with the view to bring the Villages into a state of improvement by extending the cultivation thought it proper to discontinue the collection of the Dues. bary charges, Nazur Cotoy, Mootsuddy Saharcer. &c. from fusly 1230/1820/21 and for the general information of all the Villages issued proclamations and Tookoms to that effect on the 19th June 1820. The same system of exemption was since continued till fusly 1239/1829/30 and even after the Zemindar obtained possession of the Zemindary he did not assess the items of Mootsuddy Saharcer

and

and Nagur Cutcy till fusly 1244 / 1834/35. The "Dhara Jafavut" and "Saderward" has been in abeyance for a period of 10 years and the "Nagur Cutcy" and "Mootsuddy Tahadeer for 20 years.

10. Since the Mootah has become the property of Govt it has been rented for 4 years from fusly 1255 / 1845/46 and in granting the lease the items of Dhara Jafavut &c have not been included in the rent, in consequence of the objections raised by the Ryots and the consequent difficulty which was anticipated in enforcing the demand on the part of the Renter. In the agreements therefore exchanged between the Circar and the renters, a reservation was made of the right of Collecting these items exclusively on account of the Circar.

11. Herewith I do myself the honor of forwarding a statement shewing the amount of the said Cutcy items included in the demand of the Estate from fusly 1251 to 1255 in the manner fixed by the Zemmindary and the Collection and balance for the same period, from which the Board will observe that there is still a balance due to Government Amounting to Rupees 1,853-3-6.

experience has shewn to have resulted from the irregular manner in which they have from time to time been assessed, and about all to the circumstance of their having been once formally discontinued by a Government authority so far as back as fusly 1230 / 1820/21 I would venture to suggest that now the Mootah has come into the possession of Government, they may be at once and entirely expunged from the accounts, being convinced that the stimulus to improvement it very much counterbalance the very small diminution of revenue at first entailed by their discontinuance.

dated 18th March 1841.

10 Comparative Statement of Cowle Land for Fusly 1255.

11. Comparative Statement of the Enam Cultivation for Fusly 1255.

12 General Abstract Comparative Statement of the whole Revenue from the Land and from Extra Sources for Fusly 1255.

13 Statement of Trees in the Circar Plantations.

2. The Settlement of the different Talooks composing the District of Bellary for Fusly 1255 was made as follows. The 12 Talooks under my own immediate management by myself conducted in five encampments namely Cooty Raidroog Adonie Nugalapoor and Bellary. The 5 Talooks comprising the Division by Mr. Daniell the Acting Sub Collector. I settled the 5 Talooks named in the margin in March and April the few Ryots who could attend could not be detained owing to the ravages of Cholera in their Villages, and a hurried issue of Puttahs was all that could be attempted.

produced the most disastrous year since I have been appointed to the District.

4. There having been no rain for the Moongari excepting some showers in the beginning of June, the Ryots holding Red lands Dry got no return in the crop of that season. For the Kingar, two rains fell in the beginning of September and October respectively insufficient in quantity hardly available for the black lands to receive seed and inadequate to prevent the crop withering away before it came to maturity, in few grounds it yielded a very small produce averaging not more than one eighth and one sixth of the usual quantity. The Talook of Bellary Adwanie and Gollem suffered most. As soon as the demand of the 1st Kist was made Ryots advanced their complaints. I caused the usual examination to be made by the Talook Revenue Servants of responsibility. I directed that in collecting the Kist the loss sustained by each individual should be taken into consideration and the settlement of these Talooks was in consequence delayed until the results of the examination were reported, desertionary remission was granted at the Summabundy with reference to these accounts according to each individuals case, whether he had other means, such as Enam lands &c. whether holding

holding wet land and whether his farm was assessed low or high. Remissions on this scale alone amounted to a sum of Rupees 56000 wherein the three Taloks aforenamed had a heavy share viz. 48,000 -

5.

Many Tanks not having been adequately supplied and others even less than last year, the Tank cultivation falls short by acres 13643. Assessment Rupees 12,062 of that year and contrasted with Fusly 1253 a year of high

Berij under Tanks among a series of years exhibits the enormous decrease of acres 31,392. Assessment Rupees 26,659 thus on the whole the chief decrease was owing to the insufficient supply of water to the Tanks. -

6.

The price of Grain remained low as in the year preceding till October and then the rains having failed gradually rose by degrees for 4 months or till the February following and then stood unaltered. The following is a Tabular view of the selling prices of the grain principally used in the District. -

7.

Notwithstanding the season was so disastrous in its circumstances, the Ryots holding Wet lands were well off on account of the price of Grain though I fear only a few of the dry land Cultivators are substantial enough not to have anticipated their produce and sold while the prices were low, nevertheless all difficulty in recovering the Kists was removed. -

8.

Cholera appeared in August and remained lamentably rife till March, when in many Persons fell victims to it the total loss on the whole was 18364 souls out of 28698 attacked in 796 Villages. The mortality in Advanie and Kurpanhully was very great. The scarcity of Forage was severely felt, the loss among Agricultural Stock was immense. -

Lands included in the Ryots Puttahs for this fusly 1255, are Acres 1684175. assessed at Rupees 2519186 and this is less by acres 6961. Assessed at Rupees 140387 than fusly 1254. It will be observed from the foregoing that the decrease in Dry Cultivation is Acres 5,204 assessed at Rupees 35565, and to which the result of the decrease under Tanks (Acres 13,643 assessed at Rupees 17052) and the increase in the Nullah and well Cultivations

(Acres 1886 assessed at Rupees 22230) being added, the total decrease below the Cultivation of last year amounts to Acres 6196 assessed at Rupees 14,0387. The cause of decrease both in dry and Tank Cultivation being insufficiency of rain. the increase under Nullahs and Wells was effected partly in the Sub Division where the beds of a few Tanks were cultivated by the aid of Wells and Nullahs and partly in my own Division, the cultivatable portion under the Toombadra Nullahs having this year been cultivated to the full extent the inducement being the rise in the price of Grain.

11. The subjoined is an abstract of the settlement of the land Revenue for the Fasly under Report and the decrease therein entered. Viz.t below the extent comprised in the Ryots Puttahs of last year Fanum Rupees 19,859 and below the Vasooli or Net settlement Rupees 1,53,204 which is Rupees 7-3-" per Cent below the settlement of last year.

Of the net decrease of Rupees 153204 Rupees 89548 arises in my own Division averaging on Rupees 5-9-- and Rupees 6365 in the sub Division or Rupees -12-8-- per Cent. the cause of so high a decrease in the Sub Division being the want of an adequate supply of water for the Tanks.-

12. I shall now proceed to illustrate the increase and decrease entered in statement No. 2 in which the net decrease of the Ryotwar settlement contrasted with that of last year is stated at Rupees 153204 resulting from a Gross increase Rupees 140052 and a Gross decrease Rupees 293256.

Statement No. 2 Col. 77 " 102

13. The different items forming the increase of Revenue Rupees 140952, will in the first place be explained. The 1st. item or the increase of Cultivation is Rs. 85,000 being Rupees 37,781 derived from new Ryots who held no Puttah in the same Village last year, and Rupees 47225 from old Ryots who increased their Farms this year. Out of these two items of increase a sum of Rupees 25000 arises both from wet lands and from Dry Cultivation ensured in the beds of a few Tanks which received no supply this year, whilst the remainder

is

is the increase under River Nullahs as well as from a few Ryots taking lands in substitution of uncultivable portions of their holdings. The 2d. item or the increase from old Ryots being Rupees 48,680 comprises land left unsown during last but cultivated in this year Rupees 37469 and increase obtained in lands sown both for the last and the present year 11211 Rupees.-

The latter consists of these Particulars.

From difference between the Established remission on the Survey assessment in the last and present year also from the fall in the deductions for the Shrotrimmadar's shares which fluctuates with the Cultivation ——	1421
From Casle expired lands transferred to the head "land paying full rent" as well as from the usual increase arising in the progressive Casle lands..	6364

From deduction allowed until last year to persons looking after three Government Plantations which have now attained maturity also from other insignificant items —	351

Grand Total of Decrease (in Para 12) 293256

Statement No. 22 Col. No. 102.

With regard to the Sodee or Quit rent on land laid waste owing to inability to cultivate, the Board in question in Para 9 of their Proceedings dated 26th February last on the Settlement of Fusly 1254, "whether land thus abandoned should not avenu- =ally be incorporated with the Syen Circar land fully assessed," the Board will observe that in this District, the Persons who pay Sodee are Village Servants in general and that the Sodee payments are of two kinds, the 1st Enam and the 2d March Sodee, the decrease in the 1st usually occurs on three occasions namely- where the holder of the Enam paying Sodee, dies Emigrates, or leaves it waste for want of rain (this last mentioned is included with those that are reduced to poverty) of these where the deceased left no heir, this Sodee is altogether struck off and the land carried to the Circar as usual, where the holder emigrates sufficient

Fort St. George 11th January 1847.

sufficient time is given to enable him to return and in his failing to do so his Enam is in like manner incorporated with the Circar land. I must here state that these two result seldom occur and the item is insignificant. Regarding this last, as the occurrence of it is caused by the failure of the season the circumstances of the holder are duly considered and where he is found unable to pay the Sodee a deduction is made for that year and the land continued to him for the year to come and so on, this item is undoubtedly one of some magnitude yet I trust the Board have no inclination to claim an Enam receiving an abatement of Sodee owing to an unfavorable season more particularly because there would be little prospect of ensuring cultivation of such lands (if taken by the Circar) and a certainty of injury to the Village; continuing it to the holder keeps him responsible to cultivate it in all good seasons, or to pay the full amount of Sodee on it. It is likewise to be observed that

Fort St. George 11th January 1847.

the Enam Sodee is also liable to decrease (under Moonasib) with reference to the fall in the Collection of Enam (a Grain fee) which fluctuates with the quantity of land under actual tillage. I trust therefore that the Board will consider Sodee as a distinct item and not altogether as a Quit rent. Referring to Para 38 of my Report on the settlement of Fasly 1252 wherein I have stated that the Sodee paid by the Enam holders of Purpanhully, Koodleghee and Hoovinhadagaly Talooks was excessive. I take this occasion to state that a few of these Enamdars propose giving up their Enam lands rather than pay the Sodee attached to them and that it will be a matter of serious consideration whether these lands are to be received by the Circar or whether remitting a portion of the Sodee where the demand is excessive may not be unavoidable.

17. There remains alone the Increase and decrease of Ryots in the Statement

Fort St. George 11th January 1847.

Statement No. 2 to explain in Columns 5, 6, the Gross increase of Ryots holding individual Puttahs, is 3416 and the gross decrease as entered in Columns 83 is 5176 making a Net Decrease of 1760 as per the following Abstract.-

Fasly or Rayetwar Cowle

Fasly 1255

1602

Fort St. George 11th January 1847.

The Shadaty Cowle Rupees 1910 being deducted the Sarum of fixed Cowle land is Rupees 19542 of this the Amount of Dhroovapiere or Cocoanut and Betel nut Garden is 167 the rest Rupees 19075 being black land Cowle.

21. The accompanying Statement of Cowle lands No 9 prepared according to the Boards form marked A. shews the extent of Cowle lands at Acres 10719 assessed at Rupees 19075 being Acres 89037 assessment 112380 the quantity of which the Cowle has expired in the present Fasly 1255 as well as in 3 preceding years. Of this the deduction for waste allowed this year is Acres 3878 assessment Rupees 9156 the remainder being included in the Ryots Pottahs Acres 55159 assessment 102970; Acres 15315 is what was fully reclaimed and its survey value is Rupees 85794 the rest is partially reclaimed and partly left entire waste. I failed not in giving the usual instructions to prosecute with diligence the cleaning; but the season of Fasly 1255 having been too unfavorable all care was vain.

22. The comparative Statement No 10 exhibits a decrease of Rs 8303 being the result of a gross increase of Rs 1854 Viz: Rs 1820 by old waste newly taken up and Rs 34 by lands taken in previous years: and a Gross decrease Rs 10357 being Rs 272 by decrease of Cultivation & Rs 10085 caused by the Cowle expired portion transferred to land liable to full rent. Of this the actual portion is 1270 being

The total Assessment of land on which the
Revenue was realized in the Fusly under report (inclusive
(in two items) is Rupees 251986 the first Rupees 21,8506
was entered as Pund cultivated in the Fusly under report
-ing the Punnabundy and Rs 3570 Waste land included
in the Pullahs and Assessed. The other item Rs 8994
is the land which remained to be sown on account of
the Vysauk Crop. To these items Rupees 4809 39 deducted
on account of land occupied but not cultivated being
added the total Gross Assessment will be Rs 300125-0
In this the Survey Assessment Rs 35707 on waste
(as above stated) being included (amounting to Vasoolu
Rs 26706) leaves a decrease of Rupees 8361 below

The total remission upon the
actual Cultivation of the year is Rupees 7,20878
of which the established remission is Rupees
63,230 the remainder Rupees 9,225 being dis-
cretionary, of this Rupees 2011, is fixed from a
Sub Cummee allowed to old Cocoanut and Betel
nut Gardens past bearing, and to high-
assessed lands. Temporary abatement to
Poor Ryots Rupees 1183 and Phalanustime or
loss of Crops Rupees 5,118. The sacrifice
of so large a sum as this, was unavoida-
ble owing to a most disastrous season
and in granting this remission at the
time of the Settlement the greatest care has been
taken (even after the fields were examined by
the Talook Servants) that these remissions should
be made as Correctly as possible. The following
figured Statement will show the number of
Villages and of Ryots which received remission.

Independent

Fort St. George 11th January 1847

Independent of the remission entered above there was found occasion for making a deduction of Rupees 941 for Crops injured by inundation and Rupees 8875 for Teeruvas bummies. Pymash Cummies 462.

26 The Survey assessment on land Cultivated both in last and in this year demands Rupees 287420 of which Rupees 30908 changed hands, the rest being retained in the holding of the same occupants. The Revenue in last year amounted to Rs 184,3884 and the demand for the present year to Rs 179,519 giving a decrease of Rs 13,4,365, the general cause, the failure of seasonable rain

27 The Enam land Cultivated both in the Circar and Enam Villages in this Fusly amounts to Rs 1,47,8,214 being less than last year by Rs 29807 (or 2 1/2 per Cent) The chief reduction is in Tank lands from insufficiency of Water. The annexed is a brief account exhibiting the Enam Cultivation of Fusilies 1254 and 1255 in the Circar Villages, that in the Enam Villages is noted in the margin. Vide Statement No II.

Enam Cultivation in Circar Villages

Decrease in Circar Enams

Ryotwar Cultivated-

28 The Gain on Enam Cultivation in the Circar Villages stands thus—

Sudder or Quit rent on Enam lands ——— 142291

Meerasy or Tax usually levied on Enam land Cultivated by means of Circar Water — 5831

Enam Jafferech ——— 7763

155885

29 Thus the total demand for the Fusly under report on account of Land Revenue amounts to Rs 1970543 and the Collections and balance of the same Compared with Fusly 1254 are shewn in the following account—

Fusly

Fusly	Berij	Of which Collections made within the Fusly	Balance	Percentage	Subsequent Collections upto the end of September	Balance outstanding
	1	2	3	4	5	6	7
1254	21,23,747	21,00,140	23,607	1 2	15,021	8,580
1255	19,70,543	19,12,233	28,310	1 7	16,512	11,798

Out of the balance of Fusly 1254 which Amounted to Rupees 8,580 the Collection made up to the end of September of Fusly 1250 being Rs 3,574 leaves a balance still outstanding Rs 5,007- Of this Rs 858 is ascertained to be recoverable, the rest Rs 4,204 being irrecoverable balance, I shall request in a separate letter to be allowed to remit. The balance for the present Fusly 1255, outstanding at the end of September of Fusly 1255 amounts to Rs 11,798- Of this I have reason to think that Rupees 7 or 8000 will prove to be irrecoverable.

30 The Subjoined is a general view comparative of the whole Revenue from the land as well as from the Extra Branches for Fusly 1255 exhibiting a net decrease of Rs 232057 below Fusly 1254-

It now remains to state the Total

31 Collections from Land and Extra Sources Viz. the year last Current rent and arrears of Ordinary and Extraordinary Viz. these are explained in the following figured Statement.

Items	Collections of Fusly 1254	Collections of Fusly 1255	Comparison Increase	Decrease
Land and Extra Revenue	28,06,837	25,58,433	"	2,48,404

Extraordinary Receipts	81,303	59,034	"	22,269
Total	28,96,254	26,30,317	"	2,65,937

The decrease in the Ordinary Revenue being Rs 2,48,668 arises from want of rain in the Land Revenue and from the abolition of the Sayer Chowkies of the Mysore Frontier Whilst the decrease in the Extraordinary Branch is explained by the refunds of advances for Public Works & advances for Cultivation being less than in last year.

32. The total Collections of Fusly 1255 amounts to Rupees 26,30,317 the following is a Comparative Abstract of the Revenue of Fusslies 1254 and 1255 with the proportion of Charges for the last Fusly.

I shall only notice the important items the others being matters of detail and self evident. The decrease in the charges for the Hozoor and Talook Sebundies is Rs 6500 arising from the abolition of Mysore Sayer Frontier Chowkees. The next Item Rupees 3773 is owing to the appointment of the Extra Assistant Mr. Hawkins to Cuddapah whilst the increase of Rs 13388 in the Public Works Department is explained the Government sanction having been obtained on the 25th January 1846. The other items need no remark. In the Extraordinary Charges the advance for Cultivation falls short by Rs 20712 owing to the orders of the Honorable the Court of Directors restricting this expenditure having been carried into effect

33 The information required in the Government Minutes of Consultation dated 11th January 1845 regarding the recoveries of advances for Cultivation is afforded in the subjoined Account.-

36. The Honorable D: Arbuthnot my Acting Head Assistant has been placed in the Western Talooks. He accompanied me during the Settlement and in my occasional tours, and has been of the greatest assistance to me. It is gratifying to me to add, that I have received from that Gentleman the most prompt attention to every suggestion I had occasion to make in the Charge entrusted to him, and in those special duties on which he was deputed. I have now deemed it advisable to detach him to the important work of the Vullabhapoor "Toombadra" Anicut, the construction of which is just commenced.-

37. As regards my other Assistant Mr Tweedie I have great satisfaction in expressing my approbation of his Proceedings in the Magisterial Department in which his duties have been extremely laborious he having to examine and dispose of the numerous Police Cases sent to the Magistracy every day of the Military Police of Bellary; he has also been otherwise useful to me. His knowledge of Hindoostanee is highly creditable to him, he conducts business with efficiency and ease.-

38. In conclusion, I beg to inform the Board, that this Report would have been sent earlier, had not the late disturbances on the Cuddapah Frontier required my presence in the Eastern Talooks from whence I have only just returned.-

To

T. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

From the Collector
of Bellary.

Sir,

Forwarding the Acting Sub Collectors report in the Settlement of Land Revenue of the Sub Division for Fasly 1255, and assigning the causes for delay in its transmission.

As promised in the 35 Para of my report on the Settlement of Land Revenue for Fasly 1255 A.D. 1845/46 I have the honor to forward my Acting Sub Collectors report on the Settlement of the Sub Division, which has just been received.-

2. Mr. Daniell was deputed about the beginning of September last to the Eastern Talooks on the Cuddapah and Kurnool Frontiers, where the disturbances of the Rebel Nursim Reddy prevailed, for the purpose of giving orders on the spot to the Amildars for their guidance in protecting the Frontier Villages. He proceeded to Moonema-doogoo Vc. Vc. limits accompanied by Detachment of Native Infantry and Police in pursuit of the Rebel and his band and returned to Gooty about the middle of October, which has caused the delay in the transmission of his Jummah-bundy report within the prescribed time.-

3. As regards the delay that occurred

1693 Fort St. George 11th January 1847.

occurred since his return from the above duty
Mr. Daniell has explained it in the concluding para of his report now submitted.-

No. 1

To

A. Mellor Esqre
Collector of Bellary.

Sir,

1 I have the honor to submit my report on the Settlement of the Land Revenue on the Sub Collector's Division for Fusly 1255 together with the following Accounts-

No. 1 Jummah and Kistbundy for Fusly 1255.-
" 2 Comparative Statement between the Settlements of Fuslies 1254 and 1255.-
" 3 Abstract of the Collections of Land Revenue since Fusly 1210 compared with the Settlement for Fusly 1255.-
" 4 Abstract Comparative Statement of the Collection and Net Settlement for Fusly 1255 according to the Board's form of 27th January 1823.-
" 5. General Revenue Statement for Fusly 1255.-
" 6 Statement of Gouche Cultivation for Fusly 1255

1694 Fort St. George 11th January 1847.

No. 8. Register of land held on Cowle.-
" 9. Comparative Statement of the Cowle lands for Fuslies 1254 and 1255.-
" 10. Comparative Statement of Cnam Cultivation for Fuslies 1254 and 1255.-

2 The Settlement of the Talooks under my charge was completed by myself in the following places.-

Anuntapoor Talook in Cuzba.
Dharmaveram Talook in Ravoolcherroo of the same Talook.-
Madgeerah Talook in Cuzba.
Vinnacondah and Codicondah Talooks in Hindoopoor.-

3. The season of the Fusly under review I regret to report proved most unfavorable owing to the pains of both Monsoons having failed. In June there was a fall of rain which held out to the Ryots an inducement to exert themselves in the cultivation of their dry Crops, but from that period until the Months of September and October no rain having fallen instead of their anticipations of their Crops having been realized the Crops were only saved from entire destruction by occasional light showers during the last two Months and subsequently no rain having fallen the Tanks in my division

received

1695

Fort St. George 11th January 1847

received scarcely any water, and it will be observed from the Abstract Account in the Margin that to so great an extent was this the case, that although 1248 proved the most favorable season of the ten years preceding 1255. for the cultivation of the lands under Tanks, the year under review has fallen short of that fasly by Rupees 35,586. and the total decrease of the year as compared with 1253 which was a favorable season for the cultivation of Tank lands Amounts to Rupees 189,306. In the Coicondah Talook a considerable quantity of Sugar is annually produced and in the months of April and May about 1010 Acres of land were cultivated with Sugar Cane but the subsequent scarcity of water was the cause of great loss to that class of Ryots and at the time of Jummabundy these Ryots have been very clamorous for the remission of second Faisal Jastie after the Cane is cut hopes of which they were led to have been held out to them. I am induced now to bring to your notice the report of Mr. Pelly under date 15th August 1843, in which he has made particular mention of inability of these Ryots to pay two Ayen Teerwah one Faisal Jastie or two Faisal Jasties and one

The prices at which grain was sold from the commencement of the year to the end of October, the reduced state of their cattle for want of forage and the prevalence of Cholera were causes of great distress to the Ryots but the gradual rise in the price of grain from November to February and the high rate at which it continued to the end of the year in some measure remunerated the Ryots for the losses they had sustained and enabled them to discharge their Kists. I however regret to report that Cholera was very prevalent in the Sub Division throughout the year and in some places proved a serious impediment to all kinds of business. The number of cases reported Amounted

to

to 6079 and the number which proved fatal to 3898 bearing a per centage of 64. The deaths in the Dhurmaveram Talook alone amounted to 1185.

5. The gross amount of Cultivation Ryetwaree entered in the Puttahs at the Jummabundy Settlement is exhibited in the subjoined Abstract Statement.

From the foregoing Statement it will be observed that the gross Settlement of the year as entered in the Ryots Puttahs after deducting the rent of uncultivated lands

Fort St. George 11th January 1847.

at the time of Jummabundy is below that of last year by Acres 22874 assessed at Rupees 83513 and this decrease is as follows: In the Cultivation of Wet lands under Tanks there was a deficiency of Acres 11772 assessed at Rupees 10737 caused by the insufficiency of water in the Tanks but as a set off against this decrease by great exertion in the part of the Ryots 2623 Acres of land assessed at Rupees 20653 and irrigated by Nalahs and Wells were cultivated in excess of lands irrigated by the same means last year and likewise Rupees 3571 derived from the Cultivation of Bengal gram and Jonna crops in the beds of Tanks which last two items being deducted from the decrease of Cultivation in Tank lands leaves the deficiency as stated above. The item of Rupees 3571 derived from the cultivation of Bengal gram and Jonnalu in the beds of Tanks having been carried as has hitherto been the practice to the head of Dry cultivation will account for the increase in the assessment whilst there is an apparent decrease in the number of Acres.

6. The following abstract Statement exhibits the deductions on the above gross Revenue as compared with last year.

From the above Statement it will be observed that the deduction on account of Cabooleat Bunjer exceeds that of last year by Rupees 52,993 and the cause of this is to be attributed chiefly

Fort St. George 11th January 1847.

to the unfavorableness of the season and partly to Dry lands exchanged for others but retained in the Puttahs, and likewise to inability on the part of some Ryots to cultivate. Of the sum granted to Dry lands is 64459 and the remainder 174105 to Wet lands. With the exception of two items Viz. one of Rupees 107 on "Cowle remission" and another "Temporary remission" for loss of Crops the remaining items of remissions on the actual cultivation are below those of last year.

Ryotwaree is Rupees 62,426 and in Dry Enam lands converted into Wet Rupees 1267 which added to the item of Rupees 37 for ready money allowances makes the total decrease Rupees 63,656.

In the comparative Statement No. 7. 2. the real increase and decrease of the revenue is exhibited and on reference to that Statement it will be seen that the total Increase is ——— Rupees 56,264.

and the total Decrease ——— Rupees 119,920.

leaving a Net Decrease ——— Rupees 63,656.

The different Articles forming the increase of Revenue are as follows.

8. The sum of Rupees 41,820 under the head of "Increase of Cultivation" is composed of

Fort St. George 11th January 1847.-

of two items the first of which is land taken by Ryots who held no Puttahs in the last year amounting to Rupees 25,429 and the second is amount taken by other Ryots being Rupees 16,391- The increase has arisen partly from dry beds of Tanks having been cultivated in this year, from the cultivation of some lands under Nalahs and Wells which were left waste last year, and from the cultivation of lands taken in exchange for others. The next item "Increase of rent" upon the lands occupied in the last and present year amounting to Rupees 13,484- Land left unknown during the last but productive in this year Rupees 11,438- Increase on the lands cultivated in both last and present year Rupees 2,046 which increase is derived as follows: Difference arising partly between the established remission of last and present year and partly from Shrotriam Villages whose cultivation has diminished in this year Rupees 797- Difference between the quit and full rent of land whose Cowle has expired Rupees 11.- Increase upon lands allowed an abatement of rent last year on account of the failure of Crops Rupees 1037- and Increase from Miscellaneous remissions granted to persons to take care of these

young Topes last who are now withdrawn. Rupees 201- Total increase Ryotwar Rupees 55,384. The increase of Quit rent payable by holders of Jodie Enams which have been productive in this year amounts to Rupees 97- The next item of increase in Col. 72 amounting to Rupees 517 is derived as follows: Extra assessment on dry Enam land converted into wet by means of Circar water Rupees 279- Fees receivable upon certain wet Enams when cultivated Rupees 153- Extra assessment on Enam assessed at the Survey as one crop land which was this year cultivated for a second Crop Rupees 85- In Col. 73 the sum of Rupees 117 arises from the Suffreek or Extra assessment on Enams cultivated by Ryots not being the Proprietors: In Col. 75 the sum of Rupees 229 arises from Ready money allowances making the total increase on Enam lands Rupees 960 which added to the increase Ryotwar makes the total increase 56,264 as stated above.-

The total increase of Ryots Amounting to 1014 as per Col. 54 to 59 is as follows.-

9.

Ryots left out of account last year because their farms were not cultivated from failure of rain ——— 163.

Ryots who have thrown up their lands last year from poverty and other cause ——— 77

Increase by separation of partners or of a family including Ryots of the Village who have this year occupied new farms — 389

New

New comers including fugitive Ryots who have this year returned to the Village ——— 57

Pyacaries ——— 334

10. The different items composing the "Decrease of Cultivation" in Col. 8 Amounting to Rupees 5,237 are as follows. –

	No. of Ryots.	Amount Rupees.
Relinquished from want of means. –		
Loss from Deaths ———	32	134
Loss by Desertion ———	72	454

Total Decrease of Cultivation	2090	5,237

Of this sum Rupees 15,622 is the Ayen or Original assessment of land thrown out of Cultivation. Rupees 15,462 is the Extra Tax of Fasal Jasti on the 2nd Crop sown last year on one Crop land, and Rupees 1,716 is the Tirva Jasti on dry land converted into wet and Cultivated last year. –

The next item "Decrease of [illegible]

year alluded to in Column 9 and amounting to Rupees 61492 is as follows

Deduction made at the Summabundy for Dry and Tank lands which were not sown chiefly in consequence of the scarcity of rain though occupied this year.		Rupees 60,161
Difference of remission allowed to lands cultivated in last and present year ———		1331

		1337

With

Fort St. George 11th January 1847.

With reference to Col 96 to 99 the decrease on enam cultivation amounting to Rupees 1999 is as follows

The Decrease of Quit Rent in Col 96 amounting to Rupees 704 is to be attributed to the inability of the holders to pay the full tax. Sody Enams having laid waste owing to the scarcity of water and the Sody they collected on Mera grain having been very small in consequence of very deficient crops. The remission however is only temporary and the individuals who pay Sody are Village servants. The next item of decrease in Col 97 amounting to Rupees 1059 comprises three different items, Viz:- Rupees 768 on account of Extra tax imposed last year on some dry Enam lands converted into wet by means of Canal water but this year waste or cultivated with dry Grain Rupees 236 on account of fees receivable from certain Enams which remained uncultivated this year, and Rupees 55 on account of enam lands producing two crops which this year has only produced one in Col 98 the sum of Rupees 236 under the head of Enam Jaffuk is also below that of last year and the decrease is owing to a small quantity of Enam land beyond the proportion allowed having been cultivated by Ceicar ryots. The additional upon

Fort St. George 11th January 1847.

allowances in excess of what was given last year was granted to persons placed in charge of some Villages where the office fees were insufficient and the Mirasidars had been removed from incapacity and other causes. The abovementioned items make the total Gross decrease amount to Rupees 119.920 as exhibited in Col 102.

" There now only remains in Statement No 2 to be noticed the increase and decrease of Ryots.

of this report, no further observation is necessary.

	Fusly 1254	Fusly 1255	Comparative Increase	Decrease
Individual Puttahs	20,600	19524		1076
Goorchee Puttahs	241			

The causes of the Decrease of Individual Puttahs have already been enumerated and the Increase of Goorchee Puttahs arises from the occupation of land in the bed of Tanks.

14 In the General Revenue Statement No 5 the usual information is contained in detail. It is therefore perhaps only necessary to observe that of the Gross Assessment 805,378 on the land occupied in the year under review 72,829 is the Ayen Jirrim the rest is composed of the extra taxes.

15 The survey Assessment of the land occupied in both fusslies 1254 and 1255 amounts to Rupees 7,63078. Of which amount the proportion continuing with the same occupants as last year was Rupees 7,36467 and the amount transferred from one Ryot to another Rupees 6611. It paid last year Rupees 423,853 the demand in the present year is Rupees 375,845 the decrease being Rupees 48,008 which is owing to the larger deductions on account of uncultivated land.

From the Asst. Collr of North Arcot

Sir,

I have the honor to acknowledge the receipt of your letter dated 26th October last requiring me to report on the †Petition of K. Soobroy Moodely and P. Yagambara Moodely, and to state that Mr. Carrapiett the Police Ameen &ca at Pulicat is not now in receipt of a Superannuation Pension in addition to the Salary of his Office, as represented by the Petitioners — The Pension having been retrenched from the date of his employment in the above Situation —

Resolution thereon. — The Board of Revenue observe that the question connected with Petition No. 1350 of 1846 is not simply whether Mr. Carrapiett is or is not in the receipt of his superannuation Pension in addition to the salary of his present appointment but whether that individual having been Pensioned as unequal to further service in the Military Board is in such vigour of mind and body

body as will enable him to discharge efficiently the duties of a Police Ameen. The Acting Collector will be pleased to satisfy himself fully on this point and report further to the Board on the subject.—

From the Collector of Salem.—

Forwarding for the approval of the Board Communication from the Sub Collector about lightening the assessment of the Nunjah lands watered by the Tank of Edumbun-=-colum in Paramuttty Talook.—

Sir,

I have the honor to enclose for the Board's consideration, a copy of a letter from the Sub Collector, and Statements shewing the cultivation of Nunjah lands watered from the Tank of Edumbuncolum in Paramuttty Talook—and the amount of reduction proposed to be made with reference to that made in Fasly 1228 by Mr. Collector Hargrave.—

It appears to me, that Mr. Maltby has clearly shewn that it will be of advantage to Government that the assessment on these lands should be lightened from which it is anticipated, that the whole of the lands will be cultivated and yield to Government a yearly revenue of Rupees 2104-7-4

Fort St. George 11th January 1847.—

the outlay of Rupees 8314-15, which have been expended on its repairs.—

The facts stated by Mr. Maltby that in Fasly 1211, 253 Acres of Nunjah land were cultivated, yielding a Revenue of Rupees 3013-4- clearly prove the capabilities of the soil, and the rapid falling off after the land reverted to amany Management, as clearly demonstrates, that the heavy standard of assessment alone prevents the people taking advantage of the means of irrigation, which the Government have at considerable expence provided.—

The average assessment proposed, Viz. Rupees 9-3-4- per Acre for the 1st Sort of land, and Rupees 6-12-4 for the 2nd Sort, the same as collected by Mr. Hargrave in Fasly 1228, being above the standard of the nearest Villages which are irrigated from the Cavery, I am decidedly of opinion that the remission should be granted, and trust that the proposition will be approved of by the Board.—

No. 1

To

W. E Lockhart Esqr.

Collector of Salem—

Sir. I have the honor to forward the accounts noted in the Marg with reference to certain lands in the Village of Edumbunedum in the Palook of Paramuttty—

2. My object in doing so is to bring the circumstances of these lands to your notice and to point out that it would be greatly to the advantage of Government the assessment which they now bear and which proves a bar to their cultivation, should be reduced to the standard which was proposed by Mr. Hargrave in fusly 1228—

3 It is unnecessary for me to point out to you the great advantage which the people derive from every means of irrigation which renders their cultivation less precarious. In the present instance the means of irrigation are at hand and

Fort St. George 11th January 1847—

been provided by the Government at a consider=able outlay—but the weight of the assessment renders them unavailing to the people.—

4. You will observe that in fusly 1211 the lands cultivated by means of the water of this tank yielded to Government a Revenue of Rupees 3,013-4-" On the land reverting to Amany Management the cultivation was found to have greatly decreased and 1227 the Revenue of Government was only Rupees 277-13-3- In 1229 owing to the bursting of the tank the lands were not cultivated, and from fusly 1230 till 1246 they yielded a trifling assessment varying from Rupees 362-3-" to Rupees 147-5-4—

5. In the year 1833 the sum of Rupees 8,069-8-" was expended to put the bund of the tank in an efficient state and from 1840 to 1844 further small sums have been expended making a total outlay of Rupees 8314-15-"

6. The weight of the assessment however has prevented this outlay being attended with proportionate advantage either to the Government or the people, and in the past year 1255 only 60 acres of land were cultivated instead of 253 which were cultivated in fusly 1211- The assessment of

Fusly

Fort St. George 11th January 1847.

Fasly 1253 is only Rupees 719-8-6 instead of Rupees 3013-4-= that of 1211.—

7. I have therefore prepared the following table shewing the present assessment the reduction proposed by Mr. Hargrave in Fas 1228 and the effect extending that reduction to the whole of the Anycut of this Tank. The effect I confidently anticipate is that the whole of the land will be cultivated and will yield to Government a steady Revenue of Rupees 2194-7-4- forming an ample remuneration for the outlay which has taken place.

8. The standard of Rupees 4-8 per acre for the 1st sort of land, and Rupees 6-12-4 for the second is that which was proposed by Mr. Hargrave in Fasly 1228, and which was collected in that year upon the lands then in cultivation. There are no Nunjah lands of tanks near at hand to form a standard of comparison. The nearest there are, are assessed below the standard I propose. Viz. One, 2 miles at Paramutty the average of which is Rupees 6-2-8 per Acre, - one 15 Miles distant at Vegaray Cuttoor the average of which is Rupees 6-0-0 One at Colaram the average being - 8-10-8

9. Under these circumstances

Fort St. George 11th January 1847.—

and I would beg your instructions on the subject at as early a date as possible. Should we have sufficient water to fill the tank this year these lands will form an invaluable resource to the Cultivators of Paramutty who have suffered most severely from the failure of their Poonjah Crops in this last and the present year a measure at once advantageous to the Government and of great value to the people will I trust meet with the sanction of the Board of Revenue.—

Proceedings thereon, Paral. From the letter from the Sub Collector, Mr. Mallby transmitted in the communication above recorded, it appears that in fusly 1211, the Kunjah lands in Edumbaucolum, and cultivated by means of the Tank of that Village, were in extent 253 acres and yielded a Revenue of Rupees 3013-4-. The Village was then given on Mootahdaree tenure, but reverted to Government in fusly 1221 from which year to fusly 1227, the average Bariz of the wet lands was only Rupees 131-7, that of fusly 1227 being only Rupees 277-13-9. In fusly 1228 a reduction in the rates of assessment was made by Mr. Hargrave to the extent shown in the Margin, but the settlement of the Kunjah lands for that year was but Rupees 186-12-. In fusly 1229 the Tank burst, and from that time until fusly 1256, the lands under it were not tilled as Kunjah, but applied in part to the raising of dry or Garden produce, and yielded a trifling Revenue ranging from Rupees 362-3, to Rupees 147-5-4. In the year 1835 the sum of Rupees 8069-8- was expended to put the bund of the Tank in an efficient state, and some small additional repairs have since been effected, making a total outlay of Rupees 8314-15-. The extent of Kunjah cultivation carried on at the Survey rates of assessment since the restoration of the Tank has not however been such as might has been expected

expected. It has varied from 107 - 27 - 17 acres, bearing a Toerumah of 1,200 - 4 Rupees in fusly 1259 to 33 - 18 - 3 acres, assessed at 374 - 8 - 9 Rupees in fusly 1254 and the cultivation of the fusly just elapsed 1265 is only to 1 - 14 acres yielding a revenue of Rupees 719 - 8 - 6 whereas, as already shewn, the Nunjah land Cultivated in fusly 1211 was Acres 253 - 15 - 11 and produced to Government a return of Rupees 3,013 - 4. This failure on the part of the Ryots to take adequate advantage of the repair of their Tank effected at such a cost to the state, is attributed by Mr. Mattby to the check given to Nunjah Cultivation in Edumbacolum by the present high rates of Assessment, and he proposes to reduce these to the rates introduced temporarily, or for 1228 fusly by Mr. Hargrave in which case he confidently anticipates that the whole of the land under the Tank will be cultivated, and will bring in to Government a steady Revenue of Rupees 2,194 - 7 - 4.

6 - 12 - 4 @ 1/4 per Acre
252 - 3 - 6 Acres

2. Before passing orders upon this application the Board are desirous of receiving some further information on the subject. It is observed that the failure of the Ryots to bring the whole Nunjah Ayacut under the Plough as in fusly 1211 is ascribed to the high rates of the Survey Assessment but it is at the same

Recd. of fusly 1211 = 253 Acres

which obtained in fusly 1211, appear to have been the same as at present, or averaging Rupees 12 per Acre. It should therefore be shewn on what date the Survey Assessment was fixed and under what circumstances an assessment which does not seem to have been oppressive, or to have checked cultivation in fusly 1211, has become burdensome in the present day. From the report of Mr. Hargrave 15th November 1819. it would seem that in forming the Survey Assessment, the Circar share was taken at 50 per Cent of the Net Produce, and converted into Money at the price of the period. This proportion of the Crop does not seem in Mr. Hargrave's opinion to have been exorbitant, but he represents that in consequence of the decline in prices between fusly 1211 and fusly 1228, the Commutation price of the former date was no longer applicable, and his proposed reduction of the assessment, had reference to the altered state of the Market. Unless therefore the prices which have prevailed of late years are the same, or nearly the same as those which obtained in the time of Mr. Hargrave; and on which his reduction of the assessment was founded, it will not follow that his rates of assessment should now be adopted. Under these circumstances the Board would wish for distinct information 1st as to the proportion of the produce taken for the Circar share in

fusly

Fort St. George 11th January 184[illegible]

fusly 1211, and the price at which it was commuted in fixing the Survey Assessment 2d as to the prices according to which Mr Bargrave rates were framed. 3d What has been the average selling prices of grain in the Paramatty Taluk for the last 7 years 4th whether the gross produce as estimated in fusly 1211, was overrated; or the Percentage taken for the Government share excessive and in either case to what extent and 5th what would be the assessment to be imposed on the two Classes of Nunjah land in the Edumbalcolum Village, were the Government share of the present actual produce taken at the proper per Centage, to be Converted into money at the average price of the last seven years.

3. Had the Cultivation of Nunjah land since the restoration of the Tank been checked by the high rates of Assessment, it may be presumed that this Cause would have operated uniformly whereas it is remarked that the Cultivation since fusly 1247 has fluctuated considerably, ranging from 33 to 107 acres. This great variation would seem in part to be attributable to the seasons. That the Board may judge how far such has been the Case they wish to be informed what has been the quantity of water received into the Tank & to what extent it would irrigate, in each fusly since fusly 1247 whether in any one or more of those years any and what part of the wa-

Fort St. George 11th January 184[illegible]

has been allowed to remain useless and not been turned to account whether the supply of water has in any one year been sufficient for the irrigation of the whole Nunjah ayacut, and whether under the System which is understood to prevail in the Salem District, whereby no Fuzl Jastee is charged on the 2d crop the water of the Tank has been applied to any considerable extent to the Cultivation of two crops on the same land. In illustration of this last point, an account should be submitted, shewing what proportion of the Nunjah Ayacut has, since fusly 1247, been cultivated with two and what with one Crop.

4. Again, the fact of the Nunjahs cultivation since fusly 1247 not having been carried out to the fullest practicable extent will not of itself necessarily prove the assessment to be excessive. It has been above shewn that from fusly 1229 to fusly 1246 or for 18 years no Nunjah has been cultivated. The resources of the Ryots may reasonably be supposed to have been impaired during that period so much so as to prevent their at once taking full advantage of the supply of water even when provided to them. That it may be ascertained how far this has been the case the Board would wish to be furnished with two Statements according to the annexed Forms, shewing 1st the entire Ayacut of the Village and 2d from

from fusly 1221 to fusly 1256 the extent and assessment of each description of land Nunjah Punjah and Garden, annually under Cultivation the total Settlement, Collection and balance of each year the number of Ryots Ploughs &c.

3. The reduction proposed by Mr. Hargrave extended to the assessment on dry and Garden no less than to Nunjah land. It should be explained whether the Survey rates of Peerwah on these descriptions of land are considered excessive, and if so, what reduction should be effected and on what principle it should be based.

6. From Statement No 1 accompanying the Sub Collectors letter, it appears that from fusly 1221, the year in which the Mootah reverted to Government, to fusly 1228, or that in which the assessment was reduced by Mr. Hargrave, the Settlement (Column 8) fell very greatly below the assessment (Column 3) of the Nunjah lands. It should be explained how this reduction of the demand took place, and on what principle the Settlement was formed in those years.

7. Of the 266-39-15 Acres which compose the total Nunjah, ayacut of the Villages 66-81-9 are classed as 2nd sort or Doasfulee. This latter term is frequently applied to land held by [illegible]

favorable rates. The Board wish to be informed whether this be the case in the present instance, or whether the assessment as imposed at the time of the Survey was fixed in reference to the intrinsic quality of the soil as also whether the extent of Sookavashee land is stationary or is liable to fluctuate.

8. It should be stated from what sources the Tank is supplied, whether dependant on the rains only or fed by Channels Anicuts &c as also whether there are any other means of irrigation for the Nunjah land besides the Tank.

9. It is observed that Mr Hargraves reduced rates of Peerwah, were intended to be introduced into 61 Mootahs besides Edumbuncolume and the Board would wish for information as to the condition of these Villages, and whether, if the rates of assessment in Edumbuncolume be revised, the revision should not be extended to the rates prevailing in all the other Mootahs.

Ordered that a copy of the foregoing Extract from the Boards Proceedings be submitted to the Collector of Salem for his information and
