With reference to the Board's Proceedings of the 22d ultimo, I have the honor to report that in consequence of recent falls of rain the Price of Paddy has considerably fallen and

and that consequently it no longer appears to me necessary to decline Imports of Grain free from the Company's Territory and Travancore -

The other measures of relief will be useful still to some extent as the failure of their Crops hitherto may have deprived the Ryots of the Northern Talooks of the means of purchase -

Mr Cochrane has been at some pains to obtain accurate returns of the extent of Indigo and Cotton Cultivation- From these it appears that the former returns were inaccurate- In reporting on the settlement of fasly 1254 (1844-45) it was supposed that the cultivation of Cotton was about 5 per Cent of the whole cultivation of the District and

and the produce in the proportion of 3 per Cent on the grain produce, and that the Indigo crops the cultivation of which is general throughout the District, were under 1 per Cent of the whole produce, according to the returns received from the Talooks for fasly 1255/1845/46. it appears that the extent of the land cultivated with Indigo and Cotton was 32037 Acres and 84,160 Acres respectively or about 2½ and 5 per Cent on the entire Circar & cultivation of the District- But these pro returns, though supposed to exhibit with tolerable accuracy the actual cultivation of the year do not, the Collector states by these two descriptions of Crops as owing to the unfavorable nature of the season certain Lands under Tanks cultivated with Indigo in the preceding year were left waste in the current and a still greater portion of Land under wells in the fasly under review was cultivated with Jowar and Ragee instead of Indigo- For the same reasons it is added there has been a decrease in the cultivation of Cotton in the price of which there has been

Land occupied for Indigo is wet land paying a Comparatively high rate of assessment. The Collector will be directed hereafter in future reports to whether the occupants of such lands draw from them two Crops the Indigo being the 2d Crop and under what description of irrigation these Crops are raised —

Para 61 —

11. The extent of land cultivated with Sugar Cane is stated to be acres 4397 assessed at Rupees 37513- averaging about Rupees 8-8- per Acre. The Cane is grown in the Talooks of Pungamoor & Muddoor principally where the Sugar required for exportation is chiefly made. It is important that the returns shewing the extent of land occupied for the three Products enumerated with the assessment thereon should be prepared with accuracy and the Board rely on the Collector adopting such measures as may be necessary for the attainment of this end.

Indigo
Cotton
Sugar Cane.

12. The attention of the Collector having been called to the importance of encouraging the cultivation of Sugar Cane and the more valuable products and of affording additional facilities to cultivators and

merchants to effect remittances he expresses an opinion (Para 60) that if the Ryots engaged in Cane cultivation are not collected till the produce has been disposed of and advances are liberally made, the growers would participate in the advantage afforded by the stimulus which has been recently given to the manufacture of Sugar and be enabled to extend their cultivation —

13. The Kuttcherry is framed with reference to the Harvest generally and the Board do not think that the Collector has shewn sufficient grounds for any modification specially in favor of lands planted with Sugar Cane. Additional advances from the Public Treasury for the extension of this description of cultivation do not appear to be required. The practice in regard to the issue of Tuccavy provided for ordinary cases and as a general rule it appears better that the Government should not interfere with the arrangements which the Merchants and growers mutually contract with reference to their respective interests. It is customary with the former to make advances in order frequently to secure the produce for himself. The practice is open to objection as it enables the

Fort St George 8th March 1847.

the Ryot to anticipate income and leads to improvidence but the evil is not to be remedied by the interference of Government.

14. On the subject of increased facilities for effecting remittances to distant parts of the District and from one part to another, the Collector is of opinion that the former is of slight importance inconsequence of the amount of Bills remitted by Merchants from Madras being so large as not to admit of them being cashed at the Collectors Treasury. In regard to the latter the object is attainable at this Station by the Tahsildars receiving authority to issue Bills on each other. In both cases the Collector very properly adds the risk incurred by Government by retaining large sums of money in the Talook Treasuries not to be overlooked. The rules now in force respecting remittances from the Talooks to the Hoozzoor Treasury were drawn up with the special object of providing for the security of the Cash and are based on the principle of not permitting Cash transactions of any description in the Talooks and of not allowing the Collections to remain in the Talook beyond a limited period

Fort St George 8th March 1847.

period. To permit Tahsildars to draw upon each other would thus be subversive of the precautionary measures which experience has shewn to be necessary and by placing the cash at the disposal of the Talook authorities would expose the Government to fraud and loss. The proposition could not therefore be entertained, similar remarks apply to the Cashing in the Talooks of Bills drawn by the accountant General on the Collector.

15. The Board await the reports adverted to in Para 65. They would point out that the requisition for information respecting the works of irrigation was called for so far back as 4th August 1845. They would also remind the Collector that the information in regard to the sale of wells apart from the lands irrigated by them

States in reference to his letter of the 27th January 1847 that from further enquiries made, he is of opinion that the production of Rowannahs for the repayment of Wastat duties where they may not be forthcoming may be dispensed with.

1. Since the dispatch of my letter of the 27th Ultimo I have had an opportunity, during a visit into the Northern parts of this District, of making enquiries from certain of the Merchants engaged in the trade in articles upon which Wastat duties were collected which has induced me in some degree to modify the opinion I then entertained respecting the absolute necessity of insisting upon the production of Rowannahs by claimants for a refund of the Wastat duties levied on articles exported by land. I do not the less think that the production of these documents is most desirable, but I am informed by the Merchants at this place that it has not been customary for them to preserve their Rowannahs particularly on Articles exported into the Hydrabad Country after they have passed the frontier and I apprehend therefore that a rigid adherence

adherance to a demand for the production
them might in some cases operate more h
-ly than I had first anticipated by dep
them of all chance of participating in th
boon which Government has decided up
granting them in restitution of the
collected, however perfect the collateral
of their claim might be. I think therefo
that the Notification appended to my
might at once be published, for while t
exists generally on the production of "al
-cessary Vouchers" it does not specially
name the export Rowanah as one
them. They will therefore in all pro
-bility be produced wherever they are
-coming and will in that case be a ve
-ble check, whilst in cases in which t
have been destroyed or lost it will
my duty to make a more rigid enq
and comparison of the accounts existi
in the Office and in doubtful cases to
-pend payments pending a referen
to the Board; and it will not pre
my acting upon any instruction whi
the Board may think proper to com
-nicate for my guidance on particular
points referred to in my letter of the 27th Ult

I

2. It will not escape the notice of the Board however that the admission of other proof than that of the Rowanahs will probably diminish the amount which in a former letter I stated would be likely to remain unclaimed.

The Most Noble the Governor in Council directs that the following rules be established for the preparation of Price Currents for the Commissariat Department and Military Boards.

1-

Printed forms of Price Currents will be furnished by the Commissary General to the Officers of this Department prepared in the annexed form-

2-

At the commencement of each Month, the Commissariat Officer of the District will forward to the Collector a blank Price Current containing a list of the whole of the

the Articles usually required to be purchased by his Department-

3-

At the close of the Month, the Collector will forward the Price Current to the Officer Commanding the Division for transmission to the Military Board with the wholesale and retail rates carefully filled in from the average sales on Market days during the Month at the principal places in the District-

II

His Lordship in Council is of opinion that the Collector should prepare his Price Current altogether independent of the Commissariat Department and Paras 1 and 4 of the Commissary General's proposed Circular will therefore require to be modified accordingly-

Sir,

I have the honor to acknowledge the receipt of your letter, forwarding a Petition from the Polegar of Congoondy complaining of my having refused to assist him in the recovery of his Village Rents.

The Zemindar wished me to attach property of various descriptions to be sold on account of alleged arrears of Revenue. The reasons of my refusal referred to by the Polegar were in some cases that the property consisted of lands, houses or other real property which are precluded from being destrained and sold for revenue by Section III Regulation XXVIII of 1802, or of the ploughing bullocks and implements of husbandry &c. of the Ryots, necessary for their subsistence, which it is not usual to sell and in other cases that the Polegar had not complied with the provisions of Section III Clause 1st Regulation III of 1822 which require that no property attached for the discharge of arrears of rent of revenue

In the foregoing letter the Acting Collector states that he withheld his assistance in the recovery of Village Rents from the Zemindar of Cougoondy because in some of the property attached consisted of lands held or other real property precluded from being attained and sold for arrears of Revenue by Section III Regulation XXVIII of 1802 and that others the Zemindar had not complied with the provisions of Clause 1 Section III Regulation V of 1822 which require that no property attached for arrears should be sold unless Puttahs shall have been granted or tendered and refused.

The Board presume that in refusing his assistance the Acting Collector only attended to the provisions of Regulation V of 1822 which prescribe the course to be followed in his Office, and under the above explanation resolve that the following endorsement be entered upon the petition

"The Acting Collector having reported that in some cases the property attached for arrears was of the description referred to in Section III Regulation XXVIII

Resolution thereon 18th

28.29

Before authorizing the sale of the lands referred to in the foregoing letter the Board wish to have further and full explanation of the grounds on which the Collector recommends the sale. It should be borne in mind that the extreme measure of sale should not be resorted to except in cases of necessity for the security of the revenue, as contumacy and large balances from neglect.

Read letter from the Principal Collector of Coimbatore containing his annual report upon the Settlement of the Extra sources of Revenue in that District for Fasly 1255.

36

Proceedings Coimbatore
Relative to the Settlement of the Extra sources of Revenue in the District of Coimbatore for Fasly 1255.

The result of the years Settlement of the several items comprising this branch of the Public Revenue in Fasly 1255 exhibits a decrease as compared with the preceding year of Rupees 10717-8-11.

Settlement	
Fasly 1254	2,30,587-11-11.
1255	2,19,870-3-0
Decrease	10717-8-11.

The falling off in the Demand of the year under report appears to have been caused chiefly by the decrease under the heads of Profits on Tobacco and Diminished supply of the Article to the Cochin State in which items the Deficit amounted to Rupees 11246-3-11. and to the reduced Collections of Sayer owing to the removal of the Customs stations on the Mysore Frontier as also to the operation of Act IX of 1844 relative to the amount of Suits in the District Moonsiffs Courts by which the stamp receipts underwent a decrease of Rupees 4886-6-0. In addition to the above items there

Decrease in Sayer 7836-4-5-

2.

this enumerated there was a small decline in the Maturpha demand of the year in question making the total decrease of Fusly 1255 amount to Rupees 2,413-1-11-

3. As a set off against this depression there is observed to have been an increase under the several heads of Sandal wood, Abkarry and small Farms in the former to the extent of Rupees 13,010-11-4 and in the latter to Rupees 684-14-4-

4. The Statement appended to para 12 of the report shews the state of the Collections at the close of the Fusly under all heads, from which it appears that the whole was punctually realized within the Fusly with the exception of Rupees 2,115-6-10 which however was also brought to account in the month of October less Rupees 20-14-6 than in course of liquidation.-

5. In the fluctuations in the same items of charge incurred during the year the result exhibited a total excess of Rupees 1,200-4-7- and which was attributable principally to the additional outlay required for the supply of Timber for the Bombay Government furnished from the Forests in this District the particulars of which are stated in detail in para 7 and require no further remarks

The

Net Revenue
1254 --- 226,583-9-4
1255 --- 212,853-13-7
Net decrease 13,729-11-5

The total receipts including Current, Extra collections and arrears amounted to Rupees 2,19,111-6 7-4- from which being deducted the charges for the year in question the net revenue stood at Rupees 212,853-13-7 which was below the net Revenue of Fusly 1254 by Rupees 13,729-11-5-

7 It only remains to notice the balance of arrears outstanding at the date of the report amounting to Rupees 690-13-4- and due under the two heads of Small Farms and Maturpha from Fusly 1249 as detailed in the enclosure B.-

8. The Principal Collector observes that this arrear will in due course be brought to account but that under the peculiar circumstances of the season "the exercise of forbearance is expedient." The Board entirely concur with Mr Troughton in this remark and will not press for an early adjustment of the amount but would at the same time observe that they do not deem it desirable to allow these outstanding demands to continue unadjusted beyond the current Fusly, at the termination of which the Principal Collector will report upon the cases of such defaulters whose circumstances he may be of opinion entitle them to the indulgent consideration of Government.-

Ordered that a copy of the foregoing Extract from the Boards Proceedings together with the annexed comparative statement of the Collections charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Principal Collector of Coimbatore for his information and guidance-

Extract from the Minutes of Consultation. dated 20th February 1847.

Read the following Letter.

Transmitting a letter from the Resident at Hyderabad requesting to be furnished with the existing rules and Regulations for the Custom Department and the present Tariff of the Territories under this Presidency and describing the Boards to furnish the information required. E.V.

To, The Chief Secretary to Government

Sir,

Para 1. With a view to the Establishment of a better and more correct System of management for the levy of duties in future in the Nizam's territory, it is the intention of the present Dewan to abolish all the excessive and irregular duties that have been hitherto exacted, and to levy 5 per Cent only upon the whole trade of the Country, external and

and internal, with exception only of opium, tobacco, Spirituous liquors, and perhaps a few other articles, thus assimilating the duties and customs of the Nizam's Country as much as possible with those of the Company's Country.

2. In order to assist the Dewan as much as possible in the object he has in view, I request that the Governor in Council of Fort Saint George will be so good as to furnish me with a Copy of the existing rules and regulations for the Custom Department and present tariff in the territories under the Madras Government; with such other information on the subject generally as may enable me to assist the Dewan in the arrangement he proposes to establish, and which I hope will prove advantageous to the subjects of the Honorable Company as well as to those of His Highness the Nizam.

3. It may be proper for me to refer you on this occasion to an Extract from Minutes of Consultation of the Government of Fort St. George No. 130 under date the 18th April 1844, which was transmitted for my information, and to an Extract from subsequent Minutes of Consultation No. 215 under date the 4th July 1844 on the subject generally of the levy of duties on trade between the Company's territories and

Fort St. George 15th March 1847.

and Native states.

4. I am induced to address you on the present occasion in case of any changes having since taken place in the duty and Custom Department of which I may not be aware, and at the same time of making known to the Government of Fort St. George the intentions of the Nizam's Government, with a view to my being favored with such remarks or suggestions as in the opinion of the Government of Fort St. George the case may seem to require.

To the Chief Secy to Government 3

To the Chief Secretary to Government

Sir,

Reporting the existing rules for the Customs Department under this Residency.

I am directed by the Board of Revenue to acknowledge the receipt of the Resolution of Government dated 20th Ultimo No. 250 transmitting Copy of a letter from the Resident at Hyderabad and desiring them

Rec'd Comm. 15th March 1847

them to furnish the information applied for by that Officer regarding the existing rules for the Customs Department under this Presidency with a view of assimilating as much as possible the duties and Customs of His Highness the Nizam's Country with those of the Company's territories.

2 In reply I am directed to state that the revenue now Collected under the Head of land Customs under this Presidency is the frontier duty levied on articles passing into or out of the Foreign † European Settlements and * Native States named in the margin, the general inland duty formerly levied under Regulation I of 1812 on the internal trade of the Country having been abolished by Act VII of 1844. It appears therefore only necessary to refer to the orders under which duty is now levied by the British Government on imports into or exports from His Highness the Nizam's territories. The correspondence noted in the margin has reference to this subject and it appears to the Board that it will be sufficient to furnish the Resident at Hyderabad with the revised table of Import and export duties sanctioned by Government of which a Copy is herewith submitted.

3. Goods which have paid Sea import duty are exempted from further demand on account of frontier duty if covered by a Certificate from the Collector of Sea Customs - if unaccompanied by such a Document, frontier duty is levied.

4. The Board have called for a Copy of the Tariff in force in the District adjoining the Nizam's frontier which they will submit as soon as received.

(Here enter 15th February 1847 No. 102)

Para. 1. The Most Noble the Governor in Council is of opinion that in cases of doubt in respect of the nature and terms of pensionary Grants the determining the point at issue might be facilitated by a reference to the original Pow-wannah or if this is not forthcoming to the List of Yeomiahs originally prepared and submitted to the Board. He desires therefore in the present case that either the Powwanah with a translation of its contents, or the List of Yeomiahs may be laid before Government together with a Copy of the correspondence which is stated by the Collector to have taken place in 1814.

2. The yeomiahs for the support of "Punjahs" appear to be peculiar to the Rajahmundry District, and it is desirable before recognizing and continuing them as service grants that the Government should be satisfied that the Services they provide for are such as to call for their renewal in perpetuity.—

I have the honor to solicit for the consideration of the Board of Rev

Copy of a communication received from Mr. Pringle the Acting Sub Collector in this District relative to the objection made to his drawing extra tent allowance whilst employed on duty at Angole in the Sub Division in consequence of there being a public Cutcherry at that place-

2. Although there is a public Cutcherry at Angole, Mr. Pringle explains that it is not available to him when on circuit in consequence of being full of the Sub Division records, and that he is obliged to make use of his tents for his Cutcherry at Angole in the same manner as at other places when out on Circuit on duty- Under these circumstances I trust the Board will be pleased to withdraw the objection to sanctioning the extra tent allowance of Mr. Pringle for seven days in July 1255, and allow him to draw it at Angole in the present fusly, provided he is obliged to furnish tents for the accommodation of his Cutcherry-

Memorandum.

The Acg Sub Collector begs to acknowledge the receipt of the Officiating Collector's Memorandum dated 23d February 1847 accompanied by a copy of the Board's letter under date the 5th instant on the subject of the amount of extra tent allowance over drawn by him while resident at Ongole for the settlement of Jubly 1255 = As regards the Cutcherry therein mentioned as being intended for the use of the sub Collector's Establishment the Acting Sub Collector would now beg to acquaint the Officiating Collector, that that building is at present completely filled with the records of the Sub Division as to prevent the possibility of any part of it being made available for the use of the servants attached to his Cutcherry - He was inconsequence last year obliged to pitch tents for their accommodation during the whole of his stay at Ongole and the same objection will apply to the present year and the settlement having obliged the Acting Sub Collector to reside at Ongole for some considerable period, he begs to remark that the cadjan erected the same, and that his tents are now pitched for the use of the Public Servants. Taking the above circumstances into consideration, he trusts the Officiating Collector will kindly recommend the sanction of the amount now ordered to be refunded, & also that on all future occasions the Acting Sub Collector may be permitted to enjoy the benefit of extra tent allowance while his duties obliged him to remain at Ongole.

Proceedings thereon.

23

It appears by the foregoing letter and explanation of the Acting Sub Collector that the building at Ongole intended for the use of his Establishment is at present so completely filled with the records of the Sub Division as to prevent the possibility of part of it being made available for the use of the servants attached to his Cutcherry, and that he was inconsequence obliged to pitch tents for their accommodation. Under these circumstances the Board would not withhold sanction of the amount objected to, but they observe that part of the records of the Sub division might have been removed to the Collectors Cutcherry at Nellore provided for the accommodation of the Sub Collectors public servants, and they direct that this measure be immediately carried into effect. The Collector will ascertain and report whether there be any useless records at Ongole which he would recommend to be destroyed and the carriage of which is consequently unnecessary, & will forward a statement of the same for the Board's approval.

Order on the 2 foregoing Statements. Ordered to be sent for publication in the Fort St. George Gazette.

Read again letter from the Acting Collector of Chingleput dated 9th and entered in Consultation 16th November last.

Ordered that the following letter be sent in reply.

To

The Acting Collector of Chingleput.

Sir,

28

I am directed by the Bo...

To the Actg Coll.r of Chingleput. Calling for further information on the subject of the proposed transfer to the Trustees of the different Institutions.

Para 1. ...of Revenue to acknowledge the receipt of your letter dated 9th November 1846 with accompanying Statement relative to the proposed transfer of the Dawattanum lands to the Trustees of the different Institutions.

2. In the Villages appropriated to the Pa... it is observed, that the amount payable to the Government is in some instances as Vinnoy Mudaliar, &c., greatly in excess of the emoluments of the Institution. It appears that it would be proper to transfer to others the management of the entire Village in which such Land is situated though normally a good rent for the distinct interests of Government and the

are so large. The Board are of opinion therefore that another arrangement should be sought for as far as circumstances will admit. They desire to be informed on what principles the shares allotted to the several Pagodas was originally fixed, and whether an equivalent in land may not be given to the Pagoda, either in the same Village or in any other Village in which it already had a vested interest, thus bringing together the Property of both parties into a more compact form, and rendering the management of it more easy. An arrangement of this nature would probably be acceptable to the Trustees and will be equally concurred in by the Merapidars and others interested.

3. The Commuted Fees Swatantrums, Merahs &c. it is observed amount to Rupees 36,618-11-9. The Board request that you will furnish further information in regard to the precise nature of each item, and the period when the commutation took place, and as it is desirable in conformity with the requirements of the measure that money payments of this description from the Public Treasury should cease when such an arrangement

arrangements practicable, it is requested that you will Report whether, with reference to the origin of this source of income, an equivalent in land or rent free tenure having the conveyance of the Meerasidars and Ryots annexed, can be substituted for any portion of this payment as well as for the payments of Rupees 720 and Rupees 2,622-4-9 specified in Columns 33 and 34 of the Statement which accompanied your letter under reply—

4. As it is important that the proposed transfer should not be delayed beyond the close of the present July, the Board trust that you will find no difficulty in submitting the final arrangements which it may be proper to adopt at an early date—

Sir,

(31) From the Collr of Salem. Reports on the cause of the Motumphal balances being due in the Salem District—

With reference to the 2d Paragraph of the Extract from the Minutes of Consultation dated 27th January 1847. Conveyed in the Board's proceedings dated 8th February on the subject of the uncollected Motumphal balances I have the honor to state for the information of the Board that the badness of the Seasons from fasly 1255 and high prices were very severely felt by all the poorer Ryots as well as by those subject to Motumphal Rate, consequently the balance of Motumphal of fasly 1255, which was outstanding at the close of September 1846 amounted to Rupees 6,803-13-2 The amount since collected up to the close of January 1847 with great difficulty is Rupees 3762-8-6. of the remaining balance Rupees 3041-4-8 Rupees 1419-4-6 are due by the Ryots of the Salem Talook—The greater portion of which is against those who are subjected to Loom tax and who obstinately refuse payment on the plea that they anticipate the remission of the Loom tax—Every legitimate measures have however been adopted by the attachment of their property in order to ensure the payment of the balance—

AS

4341 Fort St. George 15th March 1847.

As regards the balances outstanding in all the other Talooks a careful and individual enquiry shall be instituted at the time of the settlement for fasly 1256 and a report submitted on the result thereof.

Salem — Coll'n Cutcherry 26th February 1847. } (Signed) W. C. Peckham Collector.

Resolution thereon.

31-32

The Board observe that the arrear of Motirpahd outstanding at the close of September last has been reduced from Rupees 6,803—13—2 to Rupees 3,041—4—8 and that measures have been adopted to effect the recovery of the still remaining balance.

With respect to the weavers who are stated to have refused payment of the tax upon their Looms, the Board would observe that the Collector should at once proceed to collect the amount due by such parties who may have the means, but who have, as stated, obstinately refused payment of their respective liabilities. They should at the same time be informed that the alleged grounds of their objection to pay are totally inadmissible.

To, The Officiating Collector of Tanjore.

Sir,

I am directed by the Board of Revenue to return Mr. Cotton's letter dated 9th February 1847 with the accompanying Statement relative to the transfer of the Devastanum Lands of the District under your charge to the parties respectively entrusted with the management of the Institutions and to request that the subject may be reported upon by yourself. Mr. Cotton's proposition to make over the whole Devastanum Property to the custody of the Rajah of Tanjore does not appear expedient as it is not necessary therefore that your report on the subject of the transfer now called for should embrace the observations contained in Paras 4 & 8.

2. As it is desirable that the orders of Government and of the Honorable Court should be fully carried out I am directed to take

To the Offg Collr of Tanjore — Returning with certain observations Mr Cottons letter dated 9th Feb 1847 relative to the transfer of the Devastanum Lands of the Tanjore District to the parties respectively entrusted with the management of the Institutions & requesting him to report on the subject himself.

on Survamaniem tenure Nos. 1 and 4. In the Villages paying a quit rent Nos. 285 it is seen that in some the amount of quit rent payable to the Government is large. It is thus for consideration whether in these cases the interests of the Government and of the Meerasidars do not render it expedient that the Government and the Pagoda should hold their respective portions separately by the assignment to the latter of an equivalent in land either in the same village or in any other in which it has an interest by which its property will be more concentrated. Some arrangement of this kind if practicable appears necessary to meet the requirements of the transfer. You will be pleased to take this point into consideration reporting at the same time on what principles the portion allotted to the Pagodas was originally fixed.

4. Similar remarks, but with greater force in consequence of the nature of the tenure apply to the Tareff Villages Nos. 386. The Interest of Government in these is very considerable, and as they must necessarily remain under the Management of the officers of Government, an annual adjustment

Sir,

I have the honor to acknowledge the receipt of your Circular of the 25th Ultimo requesting information concerning the revenue derivable from the Fisheries of the Villages Tanks and Channels in the District, and in reply I beg to submit a statement of the revenue thus obtained for the last ten years, from which it appears that the average of the last ten years has not exceeded 185 Rupees. There are no large Tanks in the District and the Fishery of the River is not rented. Formerly there appears to have been no such restriction in the way of fishing the Tanks and even now this restriction exists only in a few dry Villages, where it does exist the fisheries are rented yearly. It will be seen by the annexed Statement that the amount thus yielded has increased in the last two years and it was suggested by Mr. Onslow in his letter to the Board dated 17th September 1845 that this

system of renting the Fisheries should be kept up since the Government by the Tanks in repair—

2. By its abolition the poor classes will be benefited as they will be enabled to catch the fish without paying for them.—

3 Until fusly 1254 the amount thus realized was entered under the Heads of Maturpha and Sundry Items Farms and Licences but since that it has been entered as a separate item under the Head of Extra Items of Revenue.—

From the Pde. Collr. of Madura - - } Sir.

In acknowledging receipt of the Board's Circular of the 25th. Ultimo & the 3d. Instant, I have the honor to inform you that the last ten years average gives a revenue of Rupees 9,065-14-2- per annum, from the fisheries of the tanks and Channels which has been carried to account, since fusly 1239 A.D. 1829/30. as Extra Source of Revenue and is realized in three different modes Viz. By inviting tenders and public sale of the fisheries of the large tanks & Channels, dependent upon rives dams - some Villages by a long fixed rate for each which is shared individually amongst the Ryots themselves without interference, and 3d. in other Villages by a fixed tax of 2 annas per each Cawny of wet land under cultivation. -

2

I do not think there is any serious objection to the tax but I would willingly advocate its abolition for there is little superfluous wealth in the general body of tax payers of the Collectorate and should it be abolished those will have the fish for nothing and now pay to amount of Rupees 9,065 per annum.

Calling for further information on the subject of the proposed transfer of the Devastanum lands in this District to the parties entrusted with the Management of the Institutions respectively.

Inboms. 15th. March 1847.

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 11th. October 1846 with accompanying Statements relative to the transfer of the Devastanum Lands of your District to the parties entrusted with the Management of the institutions respectively -

Statement No. 1 exhibits the whole of the Landed endowments under the management of the Officers of Government -

2

There are 14 Villages, the Revenue of which is entirely alienated, 59 Villages paying a Quit Rent to Government the amount in some cases

cases, forming a considerable portion of the
Beriz and 3 Villages held jointly by
Government and the Pagodas, in two
which the Beriz is equally divided and
the 3d. the share of Government exce
one half. The Board are not aware
any objection to the transfer of the 14
entire Villages and desire that this may

the Board observe that in some cases
Cutchecutty and Valiencolum, in the Te

the amount payable to the Government
considerable. In cases of this descripti
it has to be considered whether the transf
of the entire Village is compatible with
due regard to the interests of the Gover

orders therefore for the transfer of the 59
Villages enumerated, the Board wish to
informed upon what Principle the Quit
Rent was originally fixed and how far
would be practicable to make over to the
Pagod

Pagoda an equivalent in land either in the same Village or in any other in which it has already an interest - This arrangement applies chiefly to Villages with a considerable Beriz and to those in which the interests of Government are proportionably large..

3. The Principle as above stated of an equivalent in Land may perhaps be applied with advantage to the 3 Villages which are jointly shared by the Government and these institutions.

4. The Enam Lands referred to in Columns 21 at 34 may be made over at once to the Trustees of the institutions to which they belong.

5. Statement No. 2 exhibits the particulars of 99 Villages which were formerly Devastan Property but have become incorporated with lands belonging to Government, an annual Money payment of Rupees 49,155-"-1- having been fixed in lieu as the principle of the measure which has been ordered to be carried out requires that Money payments shall be discontinued as far as circumstances will admit the Board request that you will submit your opinion as to the practicability of transferring the landed property referred to, to

by the 3d Defendant of 3/8 Gorlies to the 5th as illegal because given without the consent of the Plaintiff, the original tenant, or an assignee from the Tahsk, and in spite of Plaintiff's opposition at the commencement of Cultivation and contrary to para 3 of the Honble command to uphold the Plaintiff, as legal tenant of the whole land, in Cultivation of the remaining 7 Gorlies in that year, taking malwaram from the 5th Defendant for the 3/8 Gorly of Land and litigation and to receive from him Plaintiff pattah for the whole land viz 10 8/16 Gorlies with Pattah in his name and to let the whole land cultivated the 3/8 Gorlies be occupied by the Plaintiff from following year and receive taff from him and give Puttah in his name after taking a written Cowle to undertake the Cultivation.—

4 The 2d Defendant accordingly issued an order to Vencat Ramien Zillahdar of Dindigul fully before whom the Plaintiff gave security and litigation on the 20th March agreeing to pay taff on 7 8/16 Gorlies, whether Cultivated or left waste in the year, as well as on the 3/8 Gorlies, on receiving Malwaram from the 5th Defendant and obtaining Cowle for the same to Cultivate the whole land inclusive of the said 3/8 Gorlies, from the following year, and pay the Government Demands thereon Which

Fort St George 15th March 1847

the Zillahdar submitted his report to the 2d Defendant together with the above Documents, on the same date, and he issued an order, on the 29th idem to the 3d and 4th Defendants to give effect thereto—

5 although the Malwaram on the 3/8 Gorlies had not been recovered to Plaintiff from the 5th Defendant, and tho' the former was unable to Cultivate the 7 8/16 Gorlies in that year, yet he paid the taff on the whole 10 8/16 Gorlies in conformity to his obligations noted in Para 4 of the 1st plaint, and obtained receipt for it on a stamp Cadjan—

6 When the Sub Collector distributed Puttahs during the Settlement and was about to give one to Plaintiff for the 10 8/16 Gorlies some misrepresentation of the 5th Defendant prevented it's being made over to him but the 1st Defendant withheld doing duty for the Sub Collector issued an illegal order dated 18th July last to effect that in compliance with a request of the latter grounded on a reconsideration of the records of the Case for authority to make out Puttahs in the name of the 5th Defendant instead of in that of the Plaintiff because of being convinced the

Fort St George 15th March 1847

he had been in error in giving such an order before he / the 1st Defendant / had Authorized him so to act if he deemed proper, giving the 5th Defendant possessions the 3/8 Goolies with Puttah in his name upon this the 2d Defendant directed the 3 and 4th to give effect thereto.

7 In answer to Plaintiff's addy to the 1st Defendant this a Vakeel praying for reversal of the order, and for issue of Puttah in his name for the 10 8/16 Goolies, he passed an illegal Endorsement dated 29th July Cancelling his previous one as he saw nothing new to authorize

8 Agreeably to the obligation noted in para 4 of this plaint the tax on the 10 8/16 Goolies has been realized from Plaintiff for fasly 1255, but no Puttah was made out in his name. The Endorsement above alluded to is contrary to the Regulations and existing practice inasmuch as an order must given for issue

issue of Puttah to the 5th Defendant for 3/8 Goolies, without provision in whose names Puttahs should be made out for the remaining 7 6/16 Goolies, the Plaintiff brings this Suit against the 5 Defendants the 1st having acted as above stated, the 2nd to 4th having also acted under his orders; and the 5th having taken illegal possession of the 3/8 Goolies forming part of the Cowle Land of the Plaintiff.-

No. 2.-

Proposed Answer to original Suit No. 9 of
1846 on the file of the Subordinate Court at
Madura.-

Para 1. In compliance with the request

of

Fort St. George 15th March 1847.

of Anunthanarainen referred to in the Plaint for waste land at half tax for Cultivation with Nunjah and Punjah, the Sub Collector ordered the 2nd Defendant, under date 19th June 1841 to give him 21 7/8 Goolies of land but effect was not given thereto, because neither the Plaintiff nor his Agent gave a written consent to pay the tax on the land whether Cultivated or left fallow; nor did they obtain the necessary deed of Coule, without which the order is utterly nugatory - Moreover 5 7/16 Goolies only were Cultivated with Nunjah last year by the Plaintiff and Anuntien his Agent; full tax was paid for it, and Puttahs made out in their names; and the remainder was deducted from the Assessment of that Fusly as waste of Government. Plaintiff's Statement that the whole 21 7/8 Goolies were measured out and delivered to him is untrue.-

2. By a letter from the Board of Revenue dated 31st January 1842, under instructions from the Home Authorities of the 28th July 1841, all lands left fallow are

are looked upon as property of Government and that the 3 7/8 Goolies of land in question was allotted, by the 3rd to the 5th Defendant in the same way that other persons noted in the Margin got lands out of this same whole piece for Cultivation at different times, Fusly 1255, inclusive, and who are enjoying them with Puttahs in their names, and in perfect conformity with the published Notification of the 1st Defendant under date 23rd June 1841. regarding allotment of lands for Cultivation; and he [the 5th Defendant] reclaimed it at his own expence and brought it under Cultivation and is in enjoyment of it, with entry in his name in the periodical returns of Cultivation. Soobramoneya Iyen and others cultivated it under the authority of the Plaintiff, nor were Puttahs issued in their names on his behalf - nor did the Plaintiff make any improvement to the land as averred in the Plaint. On a Complaint of the Plaintiff against the 5th Defendant to the Joint Magistrate, the 2nd

Defendant

Fort St. George 15th March 1847.

Defendant investigated it and reported under date the 26th December 1845, that the Plaintiff had no title whatever to the 3⅛ Goolies of land, but that it was entered in the Accounts in the name of the 5th Defendant, and the the Joint Magistrate in his Revenue Capacity, issued an order dated 2nd March 1846, that the land in question belonged to Plaintiffs Canole, and the Counter applications of the 5th Defendant, dated 1st April and 16th May of the year, he was so fully satisfied from perusal of the whole records that he was induced to lay the matter before the 1st Defendant under date 15th June following and to request permission to cancel the previous order. The 1st Defendant whilst in charge of the Sub Division had an opportunity of perusing the said records and being satisfied of the justice of the request for reasons shewn, issued an order to the 2nd Defendant under date the 18th July cancelling the former order

Fort St. George 15th March 1847.

of the Sub Collector and directing issue of Puttah in the name of the 5th Defendant for the 3⅛ Goolies of land in question, in the same way that Cultivators of other waste lands, forming part of the 21 and odd Goolies, enjoyed their portions with separate Puttahs in their own names. Hence the objections raised by the Plaintiff against the validity of the Sub Collector's last order, and his pretensions that the land in question belongs to his Canole are untenable.

3. If, as he states, the 6th Plaintiff in reality did give a written assent on Karaikanah binding himself to pay the Government tax on the 3⅛ Goolies in question, as well as on the 7 1/16 Goolies of waste land of Government, whether Cultivated or left fallow, and paid accordingly Rupees 12-8-8 on that account, it was evidently thro' fraud in view to deprive the 5th Defendant of his legal right to the 3⅛ Goolies of land, and since the

Fort St. George 15th March 1847.

the Sub Collector's previous order was set aside and the money directed to be refunded to, tho' refused by the Plaintiff, under orders from the same Authority, of the 22nd October of that year, it must be concluded the Karunnah was not in force.-

4. The 2nd & 3rd and 4th Defendants having acted under the instructions of the 1st and his Subordinate, they are not responsible in this Suit. The 1st Defendant therefore prays for the Consideration of the Proceedings and a non-suit against the Plaintiff with all Costs of Suit.-

Proceedings thereon.- The Plaint sets forth that Plaintiff tendered in January 1841 through his Agent a proposal to the Sub Collector agreeing to undertake the Cultivation of 21 7/16 Goolies of Runjah, long waste, in consequence of which an order for watching over the land was issued to the Tahsildar (2nd Defendant) and by him

him repeated to the 3rd and 4th Defendants- Plaintiff accordingly reclaimed and converted the wastes into arable land at a total cost for certain works of irrigation of Rupees 120 and allotted 7/16 Goolies to one Sockanunga Igen, retaining for own Cultivation by himself and his dependants 5 7/16 and leaving the remainder fallow in consequence of its unfavorable position. The 3rd Defendant in direct opposition to the Coole agreement given before of the Workunnanah and without the consent of Plaintiff allotted in Fusly 1255, to the 5th Defendant 3/8 out of the extent left waste, but upon the complaint of Plaintiff an enquiry was held by the Tahsildar (2nd Defendant) and a report made to the Joint Magistrate who committed the proceeding of the 3rd Defend. and directed the Tahsildar to maintain Plaintiff in possession of the whole land, taking Melwaram from the 5th Defendant for the 3/8 Goolies under dispute and receiving the two

for the whole land from Plaintiff and granting a Puttah in his name. Pursuant to this arrangement Plaintiff paid the tax for Fusly 1255. altho' the measurement of the 3/5 Goolies had not been recovered and he was unable to Cultivate the remaining 7 1/16 Goolies. Subsequently upon a request of the 5th Defendant, the 1st Defendant while in charge of the Sub Division removed the order of the Joint Magistrate placing the 5th Defendant in possession of the 3/5 Goolies and granted the puttah in his name. Plaintiff therefore sues for recovery of the 3/5 Goolies of land, for obtaining a puttah in his name for the whole land left waste yielding a Net Annual income of Rupees 107 — 6 and also for recovery of Rupees 20 — 4 — 8 being the value of the produce of the above 3/5 Goolies for Fusly 1255.—

2. The Principal Collector in his supposed answer denies the truth of Plaintiff's assertion that the whole 21 1/16 Goolies of land were measured out and delivered to him. He asserts that the Collector

Fort St. George 15th March 1847.

Collector's order dated 19th January 1841. directing 2nd Defendant to give Plaintiff 21 1/16 Goolies was not carried into effect because neither he nor his Agent gave a written consent to pay the tax on the land whether Cultivated or not, nor obtained the necessary deed of Cowle without which the order is utterly negatory. Plaintiff and his Agent Cultivated 5 2/16 Goolies only from that year, for which puttahs made out tax was paid, and Puttahs made out in their names, and the remainder were deducted from the account of that Fusly as waste of Government. The 3/5 Goolies in dispute were allotted to 5th Defendant in the same way that other portions of the whole 21 1/16 Goolies were granted to other individuals who are in possession of them and hold puttahs in their own names. This proceeding is in accordance with the instructions of the Honorable the Court of Directors conveyed in a dispatch recorded in Minutes of Consultation dated 24th December 1841 wherein all lands left fallow are

Instead of writing in the 5th para of the Razinamah that we presented to the Court on the 26th Ultimo in said number that the Plaintiff should enjoy all the aim Villages belonging to the Pedaranayadu Mahapum in the Aranoothy Inungalum Talook of said Zemindary During her life and after her, her Foster Sons from generation to generation, we have by mistake written only that the Foster son was to enjoy them. We therefore request it may be corrected and understood to be that first the Plaintiff and after her the Foster son from generation to generation is to enjoy said Villages.

Sir,

With reference to the Rules relative to leave of absence to uncovenanted Servants which are understood from the Board's letter of the 3d December last to be applicable to the Native Servants in the Revenue Department, I have the honor to bring to the Notice of the Board that there are no authorized Vacations in the Offices of Collectors, unless Native Festivals are so considered / and consequently no periods during which, according to the letter of the Rules, Revenue Native Servants can obtain leave without a heavy deduction from their Salaries and I would therefore request to be informed if the Board consider it within their power, or proper to authorize Collectors to grant leave to their Native Servants for a moderate period in each year without deduction.

2. It is probable that the Judges will deem themselves at liberty under the Rules to grant leave to

invariably been granted or to very limited
periods of absence either on sick certificate or
urgent private affairs when the indulgence
is attended with no inconvenience to the
public service, and they observe that while para.

held applicable to all officers in the uncove:

of salaries of Rs. 100 a month or upwards it
appears at the same time to allow a
latitude in regard to servants drawing a

Para 1 of the proceedings

Sir,

With reference to the Proceed:
Board of Revenue under date
the

submitting further information regarding the large increase in the Export Cotton to China.-

Fort St. George 15th. March 1847.

the 14th. January 1847 relative to the extra ca
Jamabundy report of Fusly 1255, I have the
honor to state that I have made such e
further enquiries, as were practicable in
this District, as to the cause of the ex
large Decrease in the export of Cotton to
China in fusly 1255 without being able
to discover any other reason than the s
slackness in the Demand. In reply to my
reference the Tahsildars report that the cr
was about an average one; and the larg
quantity that has already been shipped fr
fusly, before the crop of fusly 1256 has come
into the Market, owing to the large rise
in the Demand; consequent, it is supposed
on the reported failure of the crop in
America, seems to prove that their report
is correct.-

2.

When seeking for an
explanation of the decline of export to China
before making my extra revenue report on
last Fusly, I was told by individuals; who
I deemed likely to be well informed that
the Americans had exported largely to Chin
and observing from the Friend of India
dated the 5th. August, that there had

a

Fort St. George 15th. March 1847

also been a heavy Decrease in Bombay and
Bengal which was attributed to the Compe-
tition of the Americans, I ventured, / but
as a suggestion for consideration only, my
limitted field of enquiry not qualifying me
to express a decided opinion / that it might
be expedient to remit the export duty to
enable India to cope with them.-

I have since understood
3.
that the want of Demand for Indian
Cotton in China is ascribable as much to
a glut of manufactured Goods both from
England and America as to a large importa-
tion of raw Cotton from America, but not
having access to China Price Currents, I am
unable to test this opinion - It was expressed
by a Gentleman engaged in the trade, of high
respectability - I would respectfully suggest
that information on the point should be
sought from the Mercantile Body at Madras
or from the Bombay Presidency where the
large stake held in the trade has probably
led to anxious enquiry.-

It is possible that with the
4.-
removal of the glut in the China Market
the trade in Raw Cotton may revive without
freeing

freeing it from any of its present contributo
to the state, but I fear not permanently.-
5.
The Demand at present
is great, and all the good Cotton remain
ing on hand at the close of last Fusly
been purchased, and for the most part
shipped for China and England, but this
fact does not seem to afford any means
of judging if the general report be true
that the Demand has risen from an
apprehended failure in the Cotton Crop
America.-

observations of the Board.-

Collector remarked that the decrease
observable under the head of Exportation
of Cotton rendered it probable that
with the disadvantages of an Export
duty the local trade in this staple could
not stand a competition with the
American product - The Board however in
Board's Proc. 3rd Dec. 1846 para 6
their review of the report, observed that
they did not see sufficient grounds to
concur in this opinion and directed the
Acting Collector to ascertain whether there
had not existed other causes which might
have contributed to check the

to Government contains the result of the further enquiries instituted into the question by the local authorities, from which it will be seen that Mr. Parker states that he was led to make the remark upon the expediency of remitting the Export duty on Cotton from an impression that the great decrease observable in the Export of this article from the three Presidencies of India at that time, was attributable to competition on the part of the Americans who were represented as having Exported largely to China - Subsequent enquiry however seems to have satisfied Mr. Parker that the decrease in Fusly 1255 arose not from the operation of any fiscal regulation obtaining in this Country but from the Slackness in the Demand for Indian Cotton in China owing as much to a glut of Manufactured Goods both from England and America as to a large importation of raw Cotton from America.—

4.— The Board have reason to believe that such was the true but temporary cause of the diminished exportation in the

Fort St. George 15th March 1847.

the year in question, the low prices obtaining to the Eastward from the overstocked state of the Market producing a corresponding depression in the trade from this Country, and this seems to receive support from the fact stated in the concluding para of the Collectors' letter, Viz, that the whole of the superior Cotton has subsequently been shipped from the ports of Tinnevelly for China & England.—

5.— From the rise in the prices as quoted in the present Price Currents the Board anticipate that the Indian trade will exhibit a considerable increase in the Export of this article during the present year, especially as there seems grounds for the belief that the western Crop of Cotton failed extensively in the past year.—

6. Under the favorable condition of the trade as exhibited, in enhanced prices, and large Exports from Tinnevelly it does not appear to the Board that any relaxation in the existing duties on Export is called for at present, the subject however will not be lost sight of, should it hereafter appear that with the existing

rates

rates of duty the Indian trade in Cotton
placed at a disadvantage in competitio
with American produce.—

From the Collector of Madras . .

Sir,

With reference to Extracts from the Proceedings of the Board of Revenue dated 10th Ultimo and 1st Instant relative to a proposition, by the Collector of Sea Customs, for the sale and shipment of the whole of the Europe Salt stored in the Bonded warehouse, I have the honor to submit herewith copy of a recent correspondence on the subject with that Officer, from which it will be observed that, having no further offers for exportation, he suggests the immediate removal of the remaining portion to the shed adverted to in his letter to Government dated 15th February last or "elsewhere."

2. Before offering any opinion on the question, it is proper to bring to the notice of the Board that, when the Salt authorized to be shipped was about to be delivered to the Exporters it was discovered that their tenders were at Rs. 20 for the Garce of 9370 lbs whereas

From Collector of Sea Customs 8th March 1847 To D.g 4 Do. D

wherein that sum was originally pa
for the Garce of 9256½ lbs according to the
from Messrs Barrow & Co and the Certifica
from the Sea Custom House transmitted to
Office in Mr. Pycroft's letter of the 12th Janu
1846, the difference being 613½ lbs and the
value of it Rupees 1-5-2½.

From Coll. of Sea Customs to Government 3. 15 Feb. 1847 Para 4

The quantity of Salt de
livered on the two tenders submitted to G
Government by the Collector of Sea Cus
is G. 56-11-23/4 on which the excess of 61
lbs per Garce amounts to G 3. 285-23/4 and
cost to Rupees 7-4-3.

Another tender from the
Commander of the Barque Marie for 12½
G. having been referred to me I suggested
that it might be accepted at once if a
sum to cover the prime cost of the Salt
could be obtained it being stipulated
in the arrangement which received the
necessary sanction that Government shou
incur no expense, and that the price shou
be at the rate of 20 Rupees the Garce being
the sum paid for it by Government.
The price actually paid for the Salt ship
ped on the "Marie" was accordingly
Rupees 22 per Garce of 9870 lbs or
Rupees 275 for the 12½ G. This
quantity

quantity converted into Garces of 9256½
lbs each gives G 13-131-3, the cost thereof
at 20 Rupees per G. being Rupees 266-9-1.
The excess is thus Rupees 8-6-11. from
which being deducted Rupees 3-4-11 on
account of Coolies employed in digging
the Salt Vde according to a Bill from
Mr. Underwood, there is still an excess
of Rupees 5-2-4

5. On the G. 56-11-23/4 re-
ferred to in Para 3 above the loss to Govern-
ment is, as therein shewn Rupees
74-4-3. to which being added Rupees
12-10-3. on account of Coolies, raises the
aggregate to Rupees 86-14-6.

6. As regards Mr. Under-
wood's suggestion for the immediate
removal of the Salt from the Bonded
Warehouse, I beg leave to report that
I caused in the first instance, an account
shewing the remaining quantity in Garce
of 9256½ lbs each to be prepared. From
this account it appears that, of the
supply purchased in the past year, G. 155
354.-3. the quantity sold for Home
Consumption and export by Sea Vde
is G 84-311-5, leaving at present

in store £. 71-42.6 only

7.

I am not aware of any objection to the Salt being removed to the Shed alluded to by Mr. Underwood, but a wall around it is required to admit of the entire supply being deposited there with security. The expense for a mud wall, which will be sufficient for the purpose, and making a door with lock and key, is estimated at £ 90 and that for removing the Salt into it at Rupees 60, making a total of Rupees 150. The expence for removing the Salt to the Madras Custom beyond the walls of Black Town is estimated at Rupees

8.

As it is probable that there may be some other offers made hereafter for the purchase of the Salt for exportation by sea, and as the difficulty of selling it for Home Consumption is very great, I take the liberty to recommend that the whole of the remaining quantity be removed to the shed in the yard of the building where it is now stored, on its being walled up as suggested by Mr. Underwood, the outlay to carry out the

Date with its enclosure.

It appears to be the intention of the Board of Revenue that the Salt at present stored in that portion of the Bonded Warehouse which is to be appropriated to a Town Police Office, should be disposed of in the first instance. If Captain Pereira does not take the whole quantity now kept there it will be requisite to make arrangements for the removal of the difference to some other place where it can be secured. Should you wish to remove the remaining portion also, according to the orders of Government referred to by you, I request that you will be good enough to cause the shed in question to be pointed out to my Sheristadar in order that he may inspect it and report to me whether the whole of the Salt can be deposited there, or whether the conveyance thereof to the Madras Cutcherry or of a part only for the reasons which he will explain to you would not be more advantageous. If the last mentioned plan is preferable I beg leave to add that I shall be prepared to carry it into effect on obtaining the sanction of the Board of Revenue to whom I shall submit the case without any unnecessary delay.

Ordered that the foregoing letter be submitted with the following address.

To The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to submit for the consideration and orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Madras dated 13th. Instant, forwarding copy of a correspondence with the Collector of Sea Customs relative to the removal of the Europe Salt now stored in the Bonded warehouse.

2. From this letter it will be observed that of the quantity of Salt purchased in last year 84-3-11 Grs. Mds. have been sold for Home Consumption and export by Sea leaving 71-42-6 Grs. Mds. remaining in store. Mr. Underwood states in his letter of 8th. Instant that he has received no further offers for the purchase of this salt, and as it is necessary that it should be immediately removed from the Bonded Warehouse to enable the Military Board to complete the work now in progress for converting the Building into a Town Police office, he suggests that the remaining portion of the Salt be removed to a shed situated in the compound or elsewhere.

Referring

Fort St. George 15th March 1847

3

Referring to the difficulty of sell
the Salt for Home consumption and the pro
bility that there may be some further offer
purchasing it for exportation Mr. Hudlest
recommends that it may be removed to th
shed alluded to by Mr. Underwood - It wou
be necessary however for the due security o
the Salt to build a wall round the shed
with a door lock and key, at an escpense
of Rupees 90 which together with Cody hire
60 Rupees will make the total charge amou
to Rupees 150 - The escpense for removing the
Salt to the Madras Cotaurs beyond the mud
of Black Town is estimated it will be about
at 324 Rupees -

4

Under these circumstances
the Board beg to recommend that the Collector
of Madras may be authorized to incur a charge
150 Rupees, for the removal of the Salt from the
Bonded Warehouse to the shed situated in the yard
of that Building -

5.

The Board observe from Mr.
Hudlestons letter that the Salt sold under the order
In Cons 1st March of Government of 16th February last, which was
received at 9256 lbs per Garee was issued at
9870 lbs the Garee a loss has accurred in conse-
quence of Rupees 74-4-3. to which should be added
Rupees 12-10-3 Cody hire making the aggregate
loss to Government on the two first shipments Rs.
86-14-6. The sale of salt to the Marie appears
however to have been at the rate of 22 Rupees
per Garee of 9870 lbs which realized after payment
of Cody hire a small surplus of Rupees 5-2-
the net loss to Government on the sale of Salt
for Exportation amount therefore to Rupees 81-12-6-

From the Collector of Madras - 3 1.

Submitting copy of a correspondence with Messrs Parry & Co. relative to the examination of their rum before being re exported, and requesting orders as to whether it is requisite as desired by them, to send an officer to their Godowns to ascertain the strength of the liquor contained in each Cask as well as to supervise the filling up of such as may require it as in that case it will be necessary to Emply at an additional escpense a competent person to do the duty -

With reference to Paras 6 and 7 of Mr. Pycrafts letter to the Chief Secretary to Government under date the 3d April 1845 and to Extract from the Minutes of Consultation dated 23d of the Month following I have the honor to report, for the information of the Board of Revenue that in January last, on a quantity of Rum under consignment to the abkarry Renters of Billary being sent to this office from Messrs Parry & Co.s Godowns which was brought from North Arcot, in November last, I caused it to be tested by Sykes's Hydrometer for the purposes specified in Section V Regulation I of 1813 whereby it was ascertained that the Sperit did not correspond in proof and quality with the entry made at the date of its importation." I brought the circumstance

2

to the notice of Messrs Parry & Co. and observed that the practice which obtained with

Fort St. George 15th March 1847

with them of filling up several Casks from one, which did not all contain the same strength was objectable, in as much as the discrepancy to which I called their attention may have arisen from it. but they informed me being quite sure of the accuracy of their own testing they were led to conclude the entries in my Register did not state correctly the strength of the spirit. They suggested that, on all future occasions an officer might be sent to their Godowns to ascertain the strength of the Liquor contained in each Cask as well as to supervise the filling up of such as required it.

3.

As they at the same time expressed themselves willing to abide by any order which the Board might pass in the event of a reference being made to them I allowed the Rum to proceed to the place of ultimate destination.

4.

Having obtained Copy of an account which Messrs. Parry & Co. informed me they kept shewing the strength of the Spirit in question on its arrival at Madras, the particulars thereof are transcribed in red ink, the enclosed Memorandum, which it will

Encl. A

Fort St. George 15th March 1847

will be seen correspond, in great measure with the result of the examination made the past month, whilst both one and the other differ materially from the entry at the date of importation taken from my Register.

5.

The difficulty of getting some of the Officers in connection with the Abkarry Department to acquire a perfect knowledge of the mode of testing spirits by Sykes Hydrometer was at first great, but they are not sufficiently well acquainted with the use of the instrument. It was under the impression that they may have erred, to a certain extent in the examination made some months ago that I was induced to defer the submission of a report to the Board on the case particularly referred to above.

6.

But a few days ago Messrs. Parry & Co. when applying to me for a permit to remove a further quantity of Rum from their Godowns, requested, again, that I might send an Officer on my Establishment "to see the casks filled up" From the very great inconvenience

which

Fort St. George 15th March 1847

which the adaption of the measure must necessarily put the principal Officers of the Albany Department to on account of the additional labour which has been imposed upon them within a precent period of examining all casks of Rum on their arrival from the places of distillation, and which are now imported in large numbers being already found to be such as to interfere in no small degree with the efficient discharge of their ordinary duty, I proposed that the Casks be conveyed to the Cutcherry to have the necessary examination made, at once preparatory to their being filled up or else that they be removed precisely in the state in which they were imported to admit of the usual examination being made only by the Officers under the Collector of Sea Customs with reference to the entry in my permits, "this being the course which has been observed also by a nather Firm."

7. To obviate delay Messrs. Parry & Co. have now shipped the Rum in the state in which it was imported, and have requested that their letters of the 13th and 15th January last relative to the Rum dispatched to

Fort St. George 15th March 1847

to Bellary might be forwarded to the Board for their orders I beg leave accordingly to submit the whole correspondence, and to add that if it be decided that an Officer should be sent to examine the spirit and to see the Casks filled up it will be requisite for the reasons assigned in Para 6 above to employ at an additional expense, a competent person for the performance of this special duty not only on account of Messrs. Parry & Co. but also of such other parties as may require his services under similar circumstances.

Fort St. George 15th March 1847

To Messrs. Parry & Co.

Gentlemen,

I have the honor to acquaint you that a Register of all spirits imported by land into Madras such as Sections III and IX of Regulation I A.D. 1813 provide for has been opened at this office. In order that the rule laid down in Section V may be duly attended to I request that in future applications for permits to remove such spirits to the Sea Custom House, you will be good enough to specify the marks and numbers to be found on the different casks to enable me to ascertain their identity, and that you will further do me the favor to obtain Certificate from the Collector of Sea Customs shewing the quantity of liquor re-exported, as it will be observed that, under the Regulation referred to above "a drawback of the particular import duty" for which you have given security is to be allowed only if "the liquor so re-exported shall be "found, on comparison with the register to be "kept as prescribed by Section III, to correspond in proof and quality with the entry made at the date of its importation."

To

Messrs. Parry & Co.

Gentlemen

With reference to your application under date the 24th ultimo I have the honor to observe that the liquor therein alluded to was brought to this Office only on the Evening of Friday the 8th Instant on its being examined for the purposes stated in Section V Regulation I of 1813 it was found that it did not "correspond "in proof and quantity with the entry "made at the date of its importation"

In subjoining a Memorandum, which shows the difference I request that you will be good enough to afford me such explanation as you may wish to offer on the subject.

2

Adverting to the intimation that one Cask was emptied to supply the deficiency in the others I beg leave to add that it does not appear to me that this is authorized by any part of the Regulation referred to above - Indeed the rule laid down in Clause 3 of Section II would seem to prohibit it altogether.

The Collector of

Sir,

Madras

We have the honor to acknowledge your letter dated 12th January stating the 20 Hhds of Rum sent to you by us on Friday the 8th Instant for the purpose of being forwarded to Bellary did not correspond in the strength and quality with the entry made at the date of its importation.

We beg to inform you that after the receipt of your letter dated 9th October 1846 stating that from that time a registry of the strength of Rum imported would be kept at your Office we have carefully tested such Rum as has been passed by you into our Godowns and have kept a record of the strength. The account kept by us does not agree with that now furnished in your letter as having been taken at your Office at the time of importation In the first Cask No 34 the difference is very apparent.

	Our registry	Ditto as per examination now made	
No 34 your registry at date of importation 7 Degrees over proof	8 Degrees under proof	6-2 under proof	

As we are quite sure of the correctness of our testing (within one degree of strength which is quite sufficient for any purpose) we can only

Fort St George 15th March 1847

only come to the conclusion that the entries in your register do not rightly state the strength of the spirit - we beg to enquire if you are quite satisfied that the Officer appointed by you was well acquainted with the use of Sykes Hydrometer.

2d Further than this we have no explanation to offer, and can only add our declaration that, with the exception of having filled up the casks from No 42 the Rum was sent to you in precisely the same state, to the best of our knowledge and belief as that in which we received it.

3d With reference to the second Para of your letter we beg to say that we have looked at Section 3 of the Regulation I of 1813, and we find nothing therein, which in our opinion, bears at all on the prohibition which you say is implied in it, The section merely provides that the Owners of spirit shall bear the loss of wastage while it may remain in the custody of Government, we suppose that it never was the intention of Government (and we see nothing in the Regulation to lead to such a supposition) to prevent importers from filling up the vacancy caused in

Fort St George 15th March 1847.

caused in a Cask from dryage from leakage or any natural or accidental cause of waste or to make Distillers of Rum ship and pay freight on Casks partially empty- Such a prohibition would prove an insurmountable alstacle in the way of trade and entirely stop our proceedings with distillation It would also render inoperative the late Act of the Government of India permitting the sale of Spirits to Abkarry renters for neither renters nor Distellers can afford to pay Duty here on Casks not filled.

4th We beg to submit that in our opinion the Spirit of the Regulation I of 1813 would be fully carried into effect by the Collector satisfying himself of the fair dealing of parties, rather than by requiring them to account for trifling inaccuracies in the proof of Spirits, which inaccuracies may very justly be supposed to arise from the strength being taken by different parties under differing circumstances.

6 We request an early adjustment of this matter, as the 20 Casks of Spirit now at your Office are much wanted by the purchaser and we suppose they remain at some risk in your Office compound.

To Messrs Parry & Co

Gentlemen, I have the honor to acknowledge the receipt of your letter under yesterdays date and to observe that I am satisfied that the Officers connected with the Abkarry Department whose duty it is to examine your consignments of Rum in common with all others are acquainted with the use of Sykes Hydrometer, I request however that you will favor me with a copy of the account stated to have been kept by you shewing the strength of the Spirit contained in the casks now under dispatch to Bellary, as it may enable me to come to decision on the present case.

2. Having already explained to you what renders the further examination of your Rum at the time of its re-exportation necessary you will admit that the filling up of the different Casks referred to in your letter from No 1 to 2 must necessarily defeat the subject in view in as much as the strength of the liquor in one Cask at the date of its importation differed materially from that contained in the others.

Sir,

We have the honor to acknowledge receipt of your letter of this date, and in compliance with your request we annex a copy of our register of the parcel of Rum imported by us on the 12th November 1846.

We now request that you will have the goodness to allow the 20 Casks of Rum to proceed to Bellary on our undertaking which we do hereby to abide by any order which may be made on the subject by the Board of Revenue, should you deem it necessary to make a reference.

2d

With reference to the 2d Para of your letter we beg to suggest that an Officer be sent by you to the Godowns containing the Rum to ascertain the strength of each Cask before its Despatch and having done this, he can supervise the filling up of such as may require it. Should you not deem this proposal a proper one to be adopted, we request that you will submit the question for the decision of the Board of Revenue it being one most materially affecting the interests of Distillers and directly bearing on the prospects of the Sugar

Gentlemen,

In acknowledging the receipt of your letter under yesterdays date I have the honor to observe that the duties of this Office will not admit of my sending any of the principal Officers on my Establishment for the purpose therein specified. I will, however, direct the casks alluded to by you to be conveyed to the Cutcherry, I shall cause an examination to be made, without any unnecessary delay preparatory to their being filled up. Should the adoption of this arrangement be likely to prove convenient to you I would beg to suggest as the only means of obviating all difficulties and of adhering at the same time, as strictly as possible to the Regulations that the Casks be removed precisely in the state

state in which they were imported; this being the course which has been observed also by another Firm at the Presidency.

Messrs. Parry & Co.

Gentlemen—

With reference to your application under yesterdays date, I have the honor to acquaint you that the necessary Permit is now under preparation but I am unable at present to send you an Officer on any Establishment to see the Casks filled up—

From Messrs. Parry & Co. 19th. February 1847.

The question is now under the consideration of the Board of Revenue, it having been referred to them at your request.—

2 As the 100 Casks, which have arrived at a recent date and one still at this Office are also to be shipped off I have directed the testing of the liquor—to be discontinued, as it will only be requisite to send a revenue Peon in charge to see the Casks delivered at the Sea Custom House in the State in which they have been imported—

I would accordingly beg to suggest that these be removed at once, under a separate Permit to prevent the detention of the Casks.—

to these points the Board observe by the

great difficulty in getting some of the Offic

sufficiently well acquainted with the use
of the instrument- It appears therefore that
the Collector already has competent Officers for

To

T. Pendergast Esqre

Collector in the Zillah of

Rajahmundry.

Sir,

An Arzee from Vennapoo Pauloo Inhabitant of Woopadah.

The Jeroyaty land called Jonnala Dibbah, which was cultivated by me in last Fasly, and on which a house was built by Mr. Rohde, I have now fully given up to that Gentleman for the same purpose. I therefore represent this for your information.

Please to peruse dated 18th August 1845.

A Declaration from Ponnadah Appeyandoo Barbary of Woopadah

She Marian land which I hold for the Village Service, lying in the Centre of the Jeroyaty field called Jonnala Dibbah on the East of the Village, measuring 1 1/2 Toom according to the present Measure, but appearing

Fort St. George 15th March 1847.

appearing in the permanent account to contain 3 Tooms and 3 Manikahs, and fetching annually a Cist of 4 Rupees or 2 Pulla Pootties of Nutchnys, having been included in the Compound of the Bungalow built by Mr. Rohde in the present year, I promised to give it up to him, provided I shall be granted on exchange, a piece of land measuring 1 1/4 Toom, out of the neighbouring field called Jonnala Guruvoopennyroo dated 26th April 1845.

Government received in reply of the date Numbers noted in the Margin we have the honor to submit a letter No. 59 dated the 9th Instant from the Salt Agent of Cuddalore and to solicit that the necessary instructions issued to the Madras authorities to provide further supplies of 75,000 Maunds of white Salt for exportation to the Chittagong Agency on account of the annual season.

P.S. We solicit the return of the Original Enclosure

No. 59.

To G. A. C. Plowden Esqre.

Officiating Secretary to the Board of Customs, Salt and Opium

Fort William

Sir,

On the 30th of June last I submitted a list of Contracts for the exportation of 26,3100 Maunds

Fort St. George — March 1847.

Maunds of Madras Salt for the present season which received the sanction of the Board.

2. My computation was founded upon the current Monthly sales up to that date, but they have lately increased so much that I deem it absolutely necessary to submit a second list of Contracts for an additional supply of 75000 Maunds of Salt.

3. In the year 1845. Mn. 114821-26-3/4 of Salt were sold and in the past year 132706-17-3/4 being an increase of 18,185-6-- Had no increase of sales been effected there would have been a Store in hand of 85600 Maunds at the close of 1847 but as shewn below there will now probably be only 49,714 left and if the sales increase as I confidently expect there will (more especially if the price be reduced to 2 Rupees) and the Vessels be delayed in arriving from Madras there may possibly be a deficiency.

4. There are at present in the Sudder Golahs only ——— 2483 Maunds

In Paow Colly ——— 21936 Do.

Contract for the present season to Do. 80,400 Do.

Do. to the Sudder Ghauts ——— 77700 Do.

Total ——— 182419 Do.

Note

The remainder of 26,3100 Contracted for will go to the Ballast Islands

If as during the last year there be sold 132706 — there will remain only ——— 49713 — in Store

Fort S.t George the March 1847

store, and much of this will be merely no-
as there must be a deduction made upon
whole amount sold on account of wastag
some of the Salt also may be lost, or
Contractors may from other causes fail in their
Engagements.

5.th

Shave the honor therefore to req
the sanction of the Board to the List of Con
herewith submitted and to observe that I ha
not gone through the form of inviting tende
but have given them to the old Contractors
the proportions I deem equitable.

Sir

Para 1

I have the honor to submit
the usual accounts exhibiting the settlement of the
Government Revenue in this District for Fasly
1255 / 1845/46. The settlement on the Government Estates
proceeded under the arrangement and on the
usual principles followed by Mr Ashburnham
in Palconda, and by Mr Hubrick in
Golgondah, Survasiddy and other Govern-
= ment lands. My share in the work con-
= sisted in endeavouring to collect after
assuming charge as much of the demand
previously defined, as I could, with the
instruments then at my command

2. The season was upon the
whole extremely unfavorable as Mr Ashburnham
had repeatedly reported to the Board.
Not having joined the District myself
till after the close of the harvest I

of course a tendency to enhance the re

Estimates of produce framed in the

9 It will be observed that there is little difference in the aggregate demand the two years under comparison, although there is considerable fluctuation in the details. The only great decrease is in Talooks of Palcondah, which, though situate amongst the Hills, was stated by Mr. Thurnhole's report of the 28th [illegible] to be almost as badly off in the season as the level country along the [illegible] This led to a contraction in the proposed for cultivation in the season under re-

10 I deem it necessary however to enter into any detailed explanation of which is termed "the Jodi [illegible] =bady" because, in reality, this distribution

Fort St. George 18th March 1847

distribution of lands at the commencement of the season is generally conducted in the most slovenly and careless manner in this District, the actual settlement being made afterwards almost wholly upon Estimates of produce, and having little reference to the lands entered in the accounts as actually given out for cultivation. The District servants were in the habit of entering almost all the lands capable of cultivation as taken up although a large portion were never actually brought under the ploughs.

11 Passing therefore at once to the Settlement of the year, I have the honor to submit a statement exhibiting the remissions allowed in each Estate together with the Net Settlement effected therein.

12 From this it will be seen that from the Dowle of the lands nominally entered as taken up by the Ryots bearing a sist of Rupees 28,196 15 11 there was struck out no less than Rupees 52,261 15 8, being the sist of lands left wholly uncultivated, and Rupees 43985 4 being deductions for deficiency of produce agreably with the Estimates made in the Jabe Adding some usual items, the entire remissions admitted were Rupees 97,021 12 4 leaving a Net Settlement of Rupees 189,175 3

13 If a comparison be made of the remissions of the previous & Fusly with the present it will be seen that there is a diminution of the remissions amounting to Rupees 8925 4 in the aggregate

14 The decrease in remissions allowed (loss of produce is in good measure attributable the enhanced prices of grain in the year under and the increase under the head of lands left uncultivated was doubtless produced by the esctreme drought which so materially affected all the District.-

15 As regards the sums admitted failure of produce, it will be readily allo that in years of great adversity, such as the son under notice, a very considerable remiss will, under any system of land revenue that ma obtains under this Government, be necessary to the Ryot. But under ordinary Circumstances, and in usual seasons, I believe the present system estimating the crops of all the Ryots, and gran remissions with reference to the alleged ascer=tained failure of crop, and the presumed o over assessment of the land, is highly prejudicial bo to Government and to the people, and I think it should be abandoned without delay.-

16 In the first place, the system is of recent origin, and unless under the most active and hones superintendance, it opens a wide field for fraud and malversation. In the next place I hold that the assessment

Fort St. George 18th March 1847.

assessment on each field is already determined with sufficient accuracy for all purposes of an annual settlement, that it is capable of being realized in full in ordinary years, and that any changes that may have been introduced by the chicanery of the wealthier Ryots could be easily and expeditiously obviated.-

17 On these points I am quite at issue with Mr. Arbuthnot who deemed such a course of Settlement impracticable.-

18 I am convinced that the sists are not ex= orbitant, and that any inequalities introduced by the richer cultivators for their own benefit, are mainly caused by the present defective system, and would be checked by its discontinuance. A real and not a nominal "Atkoobady" as now should be made, and the assessment of the lands actually undertaken should be levied under ordinary Circumstances. What is required is active and trustworthy servants, these may be had. secondly attentive supervision, and thirdly a Collector at the head who understands the business of a land steward, by no means a common qualifi= cation in the Northern Circars.-

19 The Net current Annamie Settlements effected in these Talooks, and Net Collections within the year during the two last Fusles, are as shewn in the accompanying Statement.-

The only Ryotwaree Balance of any amount outstanding at the close of January 1847 are Rupees 1309 in the Polygondah Talook. This is attributable to the disturbed state of that Zemindary during the past year and to the partial plunder of Villages in the low Country by the followers of the Hill Sirdars which prevented the punctual realization of the Government dues. In the other Estates the balances are small and do not call for particular remark.

23.

If to the aumanie index Settlement be added the demand from rented Hill Villages, the list of Agraharums, Inocafsaks, and Cuttoobadies of Enams &c. the aggregate annual land Settlement of the Fusly in the Government lands will be found to be Rupees 2,34,923-10-9. of which Rupees 2,19,212-3-10. are collected within the year and subsequently to 31st January a further sum of Rupees 8,372-11-2 leaving at that date the net balance outstanding Rupees 7,338-11-9.

24 The Balance due on the Palandah and Hoiyaram Talooks is due by certain Enamdars whole lands remained great measure uncultivated in the seas under report. Every exertion has been use to recover these balances up to this date as the means of the parties concerned will permit, but the greater portion of the arre now outstanding is I fear, wholly irrecov partly by reason of the poverty of the par and partly from the fact known to the that the cultivation and Revenue many ment of the Estate is now under the Superintendence of Messrs Arbuthn & Co. as renters.

25 The large Balance of Rupe 3846-12-1. on the Golgondah Talook was occa by the cause already noticed, of some in surrectionary movements within the Hill country of that Ancient Zemindary the withholding of their rents by some of the Sirdars, and the destruction of the Village Golgondah by the Troops of Government for other reasons. As this outbreak is not yet altogether quelled, I am quite unable to say whether any considerable portion of the arr can be recovered and brought to account The

Fort St. George 18th March 1847

26 The outstanding Balances of Surwasiddy and other Estates consist principally of Balances due by Enamdars whose lands were left uncultivated through the drought in this season, and many of whom have no means of payment, the Cuttoobody on these lands being almost as high as the land Assessment. It is custom ary to exhibit this cuttoobady as a fixed and unatterable demand, but it would be a wise and liberal measure I think to investigate the state of each of these individual Enamdar holdings during the Settlement and make remissions to them in years of famine where necessary in like manner with the Government Ryot. The only other alternative is the harsh one of including the lands under the head of Aumany a measure which would be unpopular as a measure of fiscal Policy in the Country, and which in my judgment would a prove besides unproductive to the exchequer of the state.

27 If a comparison be made of the total land Revenue, Current and arrear, realized during the two last Fusslies, it will be found exhibited below the net increase in the year under review Rupees 6388-4-11 Talooks

Management

Fort St. George 18th March 1847.

29. The Board may consider this comparison as not very gratifying but the result in a highly unfavorable season, or rather after two years of great scarcity, is I think by no means discouraging. It is indubitable that in an ordinary season. It only requires tolerably prudent management with an alteration of system in granting remissions upon Estimates of produce and somewhat more active superintendence, to raise Government Revenues upon their acquired Estates greatly above the permanent Settlement, after payment of all charges of collection some individual Estates will never be profitable acquisitions in a fiscal view but the result indicated would be found in the aggregate, if a proper system be steadily pursued.

30. The Zemindaries and Proprietary Estates held by private individuals in this District are assessed with a tribute of Rupees 976845. All of these suffered much from the drought and scantiness of production which so universally prevailed throughout the District and many Landlords with difficulty were enabled to meet their engagements. Nevertheless, with some pressure from without the owners of the following thirty Estates yielding Rupees 360261 – 14 – 5. paid up their Peishcush in full, either within the year or shortly after its close.

marginally noted it will be observed that out of a demand of Rupees 6,16,583-1-7 a balance of Rupees 2,08,963-8-3 was still uncollected at the end of January last.-

32.

Avery large proportion of this Vizt. Rupees 1,85,000 was an arrear due to the Government by the Vizianagrum Zemindary caused not by a falling off of Revenue to this extent below the current demands of the year as the Government in Minutes of Consultation of the 11th January last in adverting to the Settlement for Fusly 1254 seem to suppose but occasioned by the Diversion

Fort St. George 18th March 1847

diversion of two lacs and twenty a thousand Rupees of the assets of the Zemindary to meet the wants of the late Rajah at Benares in the year 1845. as explained in Mr. Arbuthnots letter of the 26th May 1845 I shall have occasion to notice this fact more at length in a separate report upon the Vizianagarum Zemindary. Meanwhile it will suffice to remark that this and other balances on the Estates particularized in the preceding para will be realized in full in the current Fusly year.

33 In the nine Estates entered below, there are balances outstanding to the extent of Rupees 19348-8-1. but these too will it is expected be brought to account at an early date.

34 There was a Balance against the Inandigalu Zemindary at the close of Fusly 1255 amounting to Rupees 3,5035-4-3. The holder of the ancient Zemindary has long been pressed with financial embarrassments, and the disastrous nature of the two last years have generally tended to increase his difficulties. The Balances of Fusly 1255. are however mostly recovered, and arrangements for the recovery of the

old arrear are now being made the result of which will be hereafter separately reported.

35. There is only one Estate under attachment for arrears Viz. the Moatah of Peddagoomooloor, the balance on which was at the close of Fusly 1255. Rupees 3797-6-9. I shall bring this Estate to sale at the end of this Fusly if no proper settlement be made before that time by its owners.

36. Of the Succary jumma for Fusly 1255 amounting to Rupees 11600 the arrear outstanding at the close of the year was Rupees 160-11-4 which has been recovered subsequently in full.

37. I beg to annex a comparative Statement of the gross collections of the land Revenues of this District including Extra Sources &c. for the two last years which exhibits an increase in the year of Rupees 29,688-9-9. Sources

35.

In conclusion, I beg that any deficiencies in the present Report may be considerately overlooked. I regret much that of late years it has almost always been my lot to report upon the work of others, and not upon my own settlements, a task abundantly unpleasant when there are no very cheering topics to dilate upon.

To the Actg Coll.r of Masulipatam.

Sir, I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 5th December 1846 on the subject of the transfer of the Devastanum lands to the Managers or Trustees of the different institutions.

Inters 14th Dec.r 1846.

2. It appears that in the District under your charge there are only two Villages Ulloor and Vadaly and a small hundreca in Mootoor belonging to Pagodas which are under the management of the Officers of Government. The right to Ulloor is contested by one Daversoo Gingaraugu and the case is at present under special appeal before the Sudr Adalut. In regard to Vadaly and the Land in Mootoor these may be transferred at once in conformity with the orders of Government.

3. The Board regret to find that

Fort St. George, 18th March 184

that their instructions issued so far back
1842 for making over the management of t
Pagodas to the Zemindar of Vinnacottah
Goodewadah have not been carried int
effect and that this omission was not
brought to their notice before. They desir
with reference to Para 8 of the letter under
acknowledgement that the charge of both
Pagodas together with the Village of Vadeja
and the Nundrega in Mootoor be made over
to the late Zemindar. It is not necessary
require a Trust Deed, but a simple engage
-ment in writing should be taken by which
the party is to bind himself to maintain the
Ryots and others concerned in their rights
privileges with an obligation to pay to Gov
-ment the proportion of charge to be borne
by the institution for repairs of irrigation in
the benefits of which it may participate. The
Village of Ulloor will be retained under
your charge pending the decision of the
Sudr Udalut. Should judgement be given
favor of the Pagoda the Village is to be im
-mediately made over to the Trustee and the
circumstance reported to the Board.

Reporting the purchase of the Estates of Ellore &c on account of Government and sending Copies and translations of Anzees addressed by their Proprietors requesting Board's orders on the subject-

Rec'd 16-3-

With reference to an Extract Proceedings dated 17th November last, I have the honor to report that the Estates of Ellore &c have been put up to sale by public auction according to advertisement, and been purchased in pursuance of the Board's directions on account of Government for the sums noted in the margin-

	Rupees.
Ellore	10,000
Cavally	8,000
Ramasinga veeram	1900
Streerama veeram	800

At the request of the Proprietors
2. of the Estates in question the accompanying
Copies and Translations of Anzees addressed to
me by them on the subject of the sale are
forwarded for the consideration of the Board-

The circumstances of the Ellore
3. and Cavally Mootahs have been already laid
before the Board and
I can add nothing to the
correspondence that
has already taken place
but may remark that
the Zemindar claims
indulgence on the

plea that the present balance has principally accrued during the time the lands have been under attachment while the claim is urged by the Proprietor of Parungavaram, and on this as well as other grounds they hope for favorable consideration from the Board.

4. With respect to the Village of Streeramaveram. I should mention that, at the time of sale, the Zemindars offered to pay down Rupees 850 — — out of the balance of Rupees 1725 — 10 — 8. being the Peishcush as well as Interest due by them, and promised to pay the remaining sum within the Month of January provided that I would stop the sale. This however I did not feel myself authorized to do unless the entire balance was at once paid up. In their Petition now forwarded the parties offer to pay up the entire balance on condition that the sale is cancelled and the Village made over to them. They also request that as the period for which they were allowed to hold this Village on payment of half the permanent Peishcush will expire with the current Fusly 1256 A.D. 1846/7 this indulgence may be continued to them for perfect Fusly

or even for a further period of five years on this point I can only refer the Board to the correspondence noted in the Margin remarking however that the intentions of Government to benefit them by the gift of this Village would seem to have hitherto been almost entirely frustrated as the resources of the Village, as will appear from the Account in the Margin drawn from the Office Records, appear never to have been sufficient since it came into their possession, even to meet the Government demand.

Translation of an Arzee addressed to R. J. Porter Esqre Collector in the Zillah of Masulipatam by Rajah Narrainha Offparow Bahadur Zemindar of Ellore &c.

Dated 7th December

As you have been pleased to issue an Encyclenamah in my name dated the 1st Instant communicating that from Fusly 1242 upto 1250 or upto 24th November 1840 there is a balance of Rupees 5,40,770 - 5 - 4 Viz: Rupees 319504 - 15 - 7 on account of Peishcush and Rupees 220585 - 9 - 9 on account of Interest outstanding against Ellore and Loualy Mootahs appertaining to my Zemindary, and that unless the whole amount of balance stated above be discharged in full within the 28th Instant, the Mootahs will incur forfeiture to the instructions contained in the Board's Proceedings, be put up to sale on the said date. I most respectfully beg leave to

Fort St. George 18th March 1847.

to solicit your honor will be kind enough to take the following circumstances stated by me, into your favorable consideration -

That my father the late Rajah Vencatanarsimha Offparow, had in Fusly 1215 purchased these 2 Mootahs in Public Auction for Rupees 90,300 since that Fusly for a period of 22 years that is to say up to 1236 in which he had departed this life, and afterwards 11 years from Fusly 1237 to 1247, making in all 33 years, these Mootahs have been continued on Zemindary tenure under our controul -

The Villages of these Mootahs consist chiefly of wet lands yielding Paddy Produce, depending on the abundant falls of rain, but in dry lands generally suited to yield produce even in seasons of moderate rains, and which can yield sists to a large extent, consequently tho there was a proper harvest in some years it was scanty in others, the annual Peishcush fixed for these Mootahs being Rupees 39383 - 9 - had, for a period of many years been regularly discharged without any failure on our part even by contracting loans separately from any others in the years in which the resources of the Mootahs have fallen off -

From

Fort St. George. 18th March 18

From the direful effects
famine in Fusly 1242 the Ryots having b
reduced to poverty, and from the absenc
seasonable rains, the cultivation of the lan
having been decreased and the resources
yielded in such a decreased state having
met with a proper demand, owing to the
depression of the prices of grain, the Pesh
consequently became a source of loss - The
arrears of Peishcush fallen due in the fas
year during my minority being Rupees 33,19
9 — 5 (on which remission was justly to be
granted) having been added, it has accumu
-lated up to Fusly 1247 to Rupees 73,700 —
for the recovery of the same. the then
Collector had in the year 1838 sequestered
the Mootahs and in the month of October
the same year, put them to sale in Public
Auction, but as these Mootahs were not able
to yield resources even to meet the demand
of the Peishcush, no one has offered to bid
for them in Auction, consequently they were
sold at Auction to the Government for
only Rupees 20,000 and the circumstances
reported to the Board, at the same time
some Arzees were also submitted on my
behalf to the Board of Revenue praying that

Fort St. George 18th March 1847

to restore the Mootahs under our Zemindary
without being disposed of in sale - Taking
these into consideration, the sale of the se
Mootahs by auction had not been confirmed,
but the sale already made cancelled, and the
Mootahs retained in Zuft under circar ma-
=nagement, and so the management of the se
Mootahs is continuing consequently I was in an
earnest expectation that these arrears on
the Mootahs can perhaps in any manner,
be realized at some time, and the means of
restoring possession of the Mootahs again to me
be thus afforded - but on the contrary from the
continuance of the unfavorableness of seasons
even the resources in each year ever since the
Mootahs came under Zuft, have not been
enough even to meet the Peishcush which gave
cause to a gradual increase of the arrears to
the extent of Rupees 3,19,000. but there was not
any prospect of decreasing it even in any
one of the said years - This circumstance
has already been understood by your honor
from the accounts lodged in your Cutcherry -
I was in the ardent expectation that your
honor will bring the whole condition of the
Mootahs and their income in detail into the
notice of the Honorable the Board of Revenue,

and

Fort St. George, 18th March 18

From the direful effects of famine in Fusly 1242 the Ryots having been reduced to poverty, and from the absence of seasonable rains, the cultivation of the land having been decreased and the resources yielded in such a decreased state having met with a proper demand, owing to the depression of the prices of grain, the Peishcush consequently became a source of loss - This arrears of Peishcush fallen due in the fasly year during my minority being Rupees 33,1[illegible] 9—8 (on which remission was justly to be granted) having been added, it has accumulated up to fusly 1247 to Rupees 73,700 - for the recovery of the same, the then Collector had in the year 1838 sequestered the Mootahs and in the month of October the same year, put them to sale in Public Auction, but as these Mootahs were not able to yield resources even to meet the demand of the Peishcush, no one has offered to bid for them in Auction, consequently they were sold at Auction to the Government for only Rupees 20,000 and the circumstance reported to the Board, at the same time some Arzees were also submitted on my behalf to the Board of Revenue praying that

and of the Government cause the Poish
to be fixed as may be suited to the pr
state of these Inostahs and obtain sam
to put the Inostahs in my professions
it will be known to your honor that
unable to bear the incumbrance of duties
-ing so large amount of arrears, five Lac
and forty six thousand and upwards of
Rupees including the interest.

Therefore I beg leave to repre
-sent to your honor that out of the Rupees
3,19,00 and odd the sum of Rupees 73,75
and odd outstanding against the Inostahs
up to June 1838 when the Estate was taken
into attachment, being deducted, there remains
Rupees 2,45,904 and odd which can be seen
to have accumulated during the 8 years
in which the Inostahs have been under
Circar Zuft, from which it appears that
the annual Peishcush on these Inostahs for
these 8 years at Rupees 39,383-9-11 Amounts
to Rupees 3,15,068½, for which if the amount
of Rupees 2,45,904 accumulated during those
8 years be deducted, there appears to remain
only 69,164 Rupees to have been realized in
discharge of the Circar Peishcush. If these
reasons are thoroughly weighed, your honor
will perceive that these Inostahs by retaining
under Zuft, can yield no profit to the
Government

Fort St. George, 18th March 1847

Government at all, should they be sold
in Public auction the Government
should purchase them, but there are
none others to bid it for so large
Amount as Rupees 5,45,000 and odd. Even
if it be admitted that it will be
purchased by Government itself from
the reasons above setforth, it is plain
that from the present circumstances of
the season they cannot derive resources
even to the extent of its annual Peishcush,
consequently I solicit your honor will be
pleased to extend your kindness towards
me, order an average of the 10 past
years annual lists to be formed, and
reduce from the annual Peishcush, the
sum of about 10 thousands of Rupees
and grant possession of the Inostahs
to me; by so doing I am confident that

I

Fort St. George, 18th March

I will be enabled to discharge the Cra
Peishcush in full without any failure
my part, and hope to continue meriting
increasing the favor of the Honorable
Government as well as that of yours. T
kind indulgence will not only be the m
of realizing to Government the Crear Pe

Translation of an arzee addressed to R. T. Porter Esqr Collector in the Zillah of Masulipatam by Gande= =cherlah Sheetah Zemindar of the Mootah of Ramasingaveram—

Dated 8th December 1846

Having on the 4th Instant received the Enoyetnamah issued by your honor dated the 1st Instant communicating in it that there is a balance of Rupees 3048 – 5 – 6 Viz. Rupees 2590 – 2 – 11 – on account of Peishcush and Rupees 958 – 2 – 7 on account of Interest outstanding against the said Ramasingaveram Village from Fasly 1250 up to 1256 or up to 24th November 1846; and that unless the said amount be discharged in Jail within the 25th December the Village will agreeably to the instructions contained in the Boards Pro= =ceedings, be exposed to public sale on the said date I am under the necessity of stating a few circum= =stances regarding the said Village for the notice of the Honorable the Board of Revenue, as well as that of your honor trusting that I shall stand excused for having thus ventured to occupy your valuable time by this my memorial, and hoping at the same time that your honor will take it into your mature Reflection and support me by granting the desired relief

The Village Ramasingaveram

which appertains to Mulcacherlah Mootah this Zillah having in July 1240 been put up to sale in Public Auction by the then Collector I purchased it on the 15th December 1830 for the sum of Rupees 9300 paid the amount in full cash and obtained possession of the Village under a Moochulka from that Collector dated 25th March 1831 but the Village, prior to the same time had fallen into a very decayed condition consequently the settlement of 1241 on all sources of Revenue for July 1250 amounted to Rupees 446-4-3 and the actual Collections received from the Village from the Month of December up to the close of that July amounted to Rupees 154-1 a shewing a decrease of Rupees 287-4-3, below the Curcar Peishcush of Rupees 676-0-3 So that next July 1848 I have caused Repairs to be made to the Tanks and Watercourses &c. at an expence of Rupees 500, procured Ryots kadeems and Panyakarees paid to them the necessary advances of Tuccavy and brought the Village into gradual improvement at a considerable outlay, but owing to the depression in prices the resources of that July had hardly met the Curcar Peishcush, the Sibbendy Salaries and the arrears of Fasly 1240 consequently the balances against the Ryots to a large amount were left uncollected in July 1242, I have again

Fort St. George 18th March 1847

paid Tuccavy advances to the Ryots to a large amount and stimulated the Cultivation to its full extent but from the dreadful drought and direful effects of famine, accidentally diffused over this country during that July the crops of both dry and wet lands totally failed, the Ryots and cattle perished, and the Village was brought into a depopulated condition and the revenue collected from it for that July was only Rs. 254-7-3 exhibiting a loss of Rupees 525-9 which Sum was paid by me to complete the Peishcush, besides the Sibbendy charges and Maramut expenditure - However I had ever since up to July 1250 not omitted executing the necessary repairs, procuring the new Ryots as far as possible, and extending the Cultivation to a large extent, but from the continued droughts as well as from excessive falls of rains and from the Village being situated amidst the Jungle part of the country as also from the fever and ague by which the Ryots have perished to a large extent, and in the intervals from the storms and disputes regarding the irrigating channels &c. the Village has yielded during the whole length of time that it to say 8 years from July 1243 up to 1250 only the sum of Rupees 3984 as shewn in the Margin though the Revenue has fallen below the Peishcush Yet

all Rupees 5513-5-9 leaving, not only a balance
Rupees 263-1-7 as this Village consists of a large
portion of land and was purchased by me at a large
price I have with great ambition, that if I could
restore the Village to its prosperous condition
it would however compensate the loss already
sustained made improvements to bring it into a
flourishing condition, yet in Juslee 1251 from the
drought of season, the wet crops totally failed
and the famine was renewed in that year Conse-

amounted only to a sum of Rupees 175-13-5 out
of which I paid to the Circar, the amount of co
actually collected leaving a balance of Rupees
592-5-11 for that Juslee- In Juslee 1252 up to the
month of March 1843 this Village was placed in
my possession- The amount of kists due by
me up to that date was Rupees 4,228-5-4 of which
though the resources then on hand in the Vi
Village was to the extent of Rupees 280 that
I paid an excess sum of Rupees 293-13-7 to
Circar in discharge of the kists of that
Juslee leaving only a balance of Rupees

that I will discharge the balance due by

you have been pleased to order the Village to
lie taken into attachment on 8th April 1843,
leaving a balance of Rupees 984-1-11- on ac=

Afterwards the Sum of Rupees 128-1-5 referred
to above was not even realized up to the
close of that Juslee inclusive of the said sum
on account of the kists of the said Juslee a
balance of Rupees 302-2-8 was raised, and
the total balance accumulated for the 3 Juslies
amounted to Rupees 1157-10-2 against the
Village, while there was a balance of Rupees
850 due to me by the Ryots up to that time-

During the Juslies 1253-54-
3-
and 55 in which the Village was placed under
attachment a Coomastah has been nomi=
=nated separately for managing the affairs
of this Village, but it may be known to your=
honor that the Juslee Coomastah can have no
such care and interest in the Management of its
affairs as that I profess- However as there is
a large portion of land in this Village for the
cultivation of both dry and wet Crops, and as this
Village prior to its having been purchased by me
in public Auction had yielded produce to a consider=

it had yielded profit above the Peishcush and as
this Village was purchased by me at a large price

have not even been realized, but increased ab
into an arrear of Rupees 1348-"-9 as noted in
the Margin and a total balance of Rupee
2505-10-11-" accumulated, to which the inclos
of Rupees 920-11-" is added also. This is the true
State of the case, but I did not, as others did
misappropriate any part of these sources of the
Village without paying to the Cucar, nor was
any arrear raised by myself, this circumstance
is plain itself to your notice from the Account
kept in your Huzzoor from the time of the
present attachment.

While this is the case, as I
have received an Ensyeanamah from you re
quiring me to discharge within a short
instalment

instalment the large amount of arrears &c
Rupees 3426-5-11 accumulated as above, I beg leave
to represent briefly as possible to your honor as
follows—

5

That this is only a Village, which
I had purchased at a large price with a confidence
that I who am burdened with a numerous family
will become prosperous and enjoy it as a perma
=nent means of subsistence for my family and with
a courage that as the Honorable Government have
in cases of several Zemindars and Proprietors
who have fallen in arrears, extended their
indulgence towards them and supported them
against any injury to their proprietary
Estates but by all means. I felt great
life from it in the above manner as the
circumstances of the Zemindary Estates in
this Collectorate having been reduced to de-
=terioration without being able to yielded
ressources even so far as to cover the Rushensh,
and the falling off of the prices of Grain added
thereto are plainly evident to your notice from
a reference to the Management of the Estates now
under Damany in your control, I thought it
unnecessary to expatiate any further on the
subject—

6

A report is now propagating
that with regard to the proprietary Estates in
the Guntoor District, which have from the
Similar events been reduced to impoverished
condition.

condition, the Honorable Government are contemplating measures to preserve them against any enquiry to their rights, and to secure the properties to their respective holders upon some fresh conditions—

7. In consequence of the Village being now prepared to be disposed off by public Auction, I have not only been led to suffer a loss of Rupees 12,356–2–8 being the price I paid for it, and the expence of repairs and the payments of Rents up to the date of its attachment but also my honesty and reputation have been dimmed, nor does it appear from the present desastrous condition of this Village, rather by sale in Auction or in any other manner, the retained under Circar Management, can yield resources even to answer the demand of the Circar Peishcush As I am a man of large family and had expended considerable money on this account, the demand calling upon me to pay also the arrears accumulated during the Co[illegible] Putty management appears unreasonable Therefore I humbly solicit your honor will be graciously pleased, to do recommend to the Board, to remit that balance, and obtain instructions to surrender the Village to me and to receive from me the remainder

of the arrears by instalments together with the payments of the future current Kists 2 Do. o

If it is considered that the Board do not accede to this proposal your honor may be pleased to recommend to them and obtain sanction to remit the interest and to surrender the Village to me with instructions that the principal amount of arrears due on it may be collected from me on some protracted instalments. 3 Do. If the Board would still doubt about this, I beg your goodness will be pleased to submit my prayers to the favorable notice of the Board to retain this Village under Circar Management, (as this Village is composed of a large portion of land and fit to yield resources to realize the balance by degrees) until it may be able to discharge the balance in full, and then to restore the possession of the same to me 4 Do. Should this offer still seem inadmissible I beg to implore in conclusion that by putting this only Village to sale in public Auction, it can never yield any benefit in whatsoever manner it may be reverted to the Honorable Government but will only tend to deprive the right

of my landed property and to degrade my
character. Therefore I offer to give up
Village to Government and request that
the pronouncing of the sale of the Villa
in auction, which will greatly affect
my dignity may be suspended, and
these my prayers accepted &-

I further beg to submit
that as I have Submitted a Petition
to the Honorable the Board of Reven
on the Subject of the foregoing cir
circumstances, your Honor will take
all the foregoing into your serious
consideration, and also be pleased to
forward this address to the Honorable the
Board of Revenue with your favorable
recommendation without much delay & oblige

Translation of an Arzee addressed to A. S.
Mathison Esquire Acting Collector in the Zillah
of Masulipatam by Rajah Simhadry Apparow,
and Vencatadry Apparow Bahader Zemindars
of Ellore &c.

Dated 13th January 1847.

With greatest respect and humility
we beg leave to represent that the superior authorities
having been well aware of the tenor of the propo-
-sitions made by us up to 1835 regarding the shares
we have justly been entitled to obtaine from the
patrimonial Estate of our late
father, as well as with the distressed condition we
were then in the Honorable Lord Adam
Governor when he came to visit the Northern
Circars, personally enquired into the true state
of our condition, and had with much compas-
-sion perceiving that the monthly allowance
settled to be paid to us from the Nooged and
Nedadavole Zemindaries was insufficient
for our subsistence, been pleased to determine
so that Pauvecherlah the surva Jageer
Village which was at that time belonged
to the Circar as well as Streenamaveram
a Zemindary Village may be granted
to us for our proper support.-

The.

2.

The Proprietor of the Mulke=chela Moottah in which the Sheeramavaram Village is concluded having fallen in arrear to Circar, this Village was in liquidation thereof disposed of in Public Sale purchased by Government and became the property of the Circar consequently the Circar in consider=tion of the then state of the Village fixing the if the same Permanent Bariz of Rupees 1061 - 1 - 3 as was stipulated on this Village upto that time, be continued it cannot be with ease be raised from it hence been so in=dulgent as to fix Half of the Bareez on it at Rupees 530 - 8 - 9 per Annum for a term of 5 years from Fusly 1247 to 1251 to enable us to bring the Village into a prosperous condition and thence forward, that is to say from Fusly 1252, to continue paying the full Sist on it. So this Village was made over to us on 23d November 1838 or Fusly 1247.

3.

But for want of proper sources of irrigation, this Village had not come into im=provement nor yielded proper Harvest con=sequently it has fallen in arrear to the amount of Rupees 2023 - 4 - 1 on account of the Peishcush &c. stipulated as above upto Fusly 1251, after deducting the amount paid by

by us separately. The Circar having thoroughly com=prehended the circumstance of the Village not having yielded the resources in those Fusles were out of regard to us then pleased to remit the said balance, and in order to allow the Village to come into full improvement, granted a further term of 5 years from Fusly 1252 to 1256 to continue paying the half Peishcush on it at Rupees 530 - 8 - 9 - per annum, and so in conformity with the instruc=tions received from the higher authorities an En=oy Istimarah has been issued to us by Mr. Porter Collector under date 3d July 1843.

The Circar have not only with

4.

the greatest favor towards providing the means of our subsistence granted this Village to us but also rendered much assistance by reducing the Peishcush stipulated on it but in order to merit the favor so granted by the Circar and to enjoy the fruit thereof, we have stimulated the Ryots and caused them to cultivate the lands to a large extent, yet, it has not come into produc=tion, but with an intention that should the arrears of the Circar Peishcush stipulated as above be allowed to remain undischarged it will not tend to our good, we have not only paid the amount derived from the re=sources of the Village for Fusly 1252, but also paid under this balance a part of the amount

of

of our allowance which was remitted by the Zemindar of Nozed to the Circar Treasury at different times to be paid to us - notwithstanding we have thus paid the same, yet up to the month of June 1846, a balance of Rupees 501-11-1, was remaining undischarged, consequently the Village was taken into Circar attachment - We have represented both to the late Collector and as to the Higher Tribunals that we will be bound to continue discharging the Circar balance and that as the condition of the Village is not found available to pay continually the full sist on it in future from fusly 1257, the annual Peishcush if it should be reduced as much as possible so far as the Circar may deem proper but we did not propose that the balance which has been accumulated for want of resources should be remitted to us, but in consequence of an Enquelamah dated 1st December (having been received on the 6th Idem) issued by the late Collector purporting that if the sum of Rupees 677-12-5 - on account of arrears including interest accumulated during the Saury Zemindary management up to 24th November 1846, as well as the sum of Rupees 1047-14-3. on account of balance of Peishcush including interest accumulated during the Zuffy management making a total of Rupees 1725-10-8 be not discharged by

within the 23d December, the Village will be put up to sale in auction on 24th we have addressed to him an arzee on 13th December representing in it that out of the said amount we will pay 500 Rupees at present and the remainder by three (3) instalments from fusly 1257, that we will pay the current Kists regularly from the month of December, and that this circumstances should be recommended to the Higher authorities and sanction obtained to surrender the Village to our profession - we have in order to save our property, addressed another arzee on 17th of the same month representing that in the event of these our prayers not proving acceptable, we will pay in the present instance half of the said balance and the remainder half we will discharge within 2 months hereafter as also another arzee to your address on the 1st January soliciting that we will pay half of the Amount in the present instance, and the remaining half by the end of the same month of January, and binding ourselves to conform accordingly, we have remitted to your presence with our arzee of the 7th Instant Rupees 850, and the remaining 850 Rupees, we have promised to pay by the end of this month through our Vakeel - However under orders of the Circar the Village has been

been put up to auction and Knocked down to the Circar for Rupees 800 - - -.

5. We most respectfully beg leave to represent your honor that in the event of the sale of the Village being confirmed by the Circar, the indulgent disposition of the Circar with which they were pleased to grant us the Village will meet with no success - consequently we have resolved in our mind to pay up the whole amount of Rupees 1725. 10. 8. being the balance on it up to the date of Public auction, and to obtain possession of the Village without having the sale confirmed by the authorities.-

6. As the sale of the Village cannot be confirmed until it is approved by the Higher Authorities, and as we are readily prepared to discharge the whole balance by loans we solicit your honor will be pleased to submit your recommendation to the Higher authorities, so that the sale may not be confirmed, also to receive from us the balance and to grant possession of the Village to us - we propose that soon after the sanction to that effect obtained your honor may receive from us the balance together with the amount of Kists already past of the current year, and then grant possession of the Village to us.-

7- With greatest respect we beg leave to

represent more particularly that your honor will be pleased to shew your favor and pity on us, as we will, within 8 days after the sanction of the Higher authorities is obtained, pay the whole balance and the Current Kists. Your honor should therefore keep confidence on us to this effect, and submit this our Urzee with your honor's recommendation at the same time when your honor will forward the report of the sale of this Village by which we are really confident that they will bring your recommendation into their mature reflection, and grant sanction for our prayers - Therefore your honor will be gracious as to render your favorable assistance to comply with our prayers.-

8- We further most respectfully beg leave to represent that the Honorable Government with greatest condescension and favor towards us, have been pleased to fix half of the Annual Bariz on the Village to be paid by us for 5 years from Fusly 1247 so that it may prove of use to us, and afford us means to bring the Village into amelioration but from the adverse seasons it not having been brought into improvement, Mr. Porter Collector has been pleased to consider the state of it and recommended the same to the authorities to grant a further term of 5 years for

the subjects in general, and forward your recommendation in our favor to the Honorable the Board of Revenue, and support our right against being endangered by any means—

Sir,

To the Chief Sect.
to Government

I am directed to submit for the information and orders of the Most Noble the Governor in Council the accompanying letter from the acting Collector of Masulipatam reporting the result of the sale for arrears of Revenue of the four estates named in the margin and soliciting sanction for the confirmation of the purchase on behalf of Government.

Para 1.

Ellore. ₹ 10,000
Cavally. 6,000
Streemaneram 800

2. The prices realized for these estates fell considerably below the circar claims

for the continuance of the half Peishcush and the Government have been pleased to grant the same accordingly, which term will also expire by the end of the Current fusly.— As it is even now very well known to your hon.r that the half of the Peishcush stipulated on it is very difficult to be derived from it, your honor will therefore be pleased to recommend and obtain sanction so that the same Peishcush now fixed on it may be confirmed, to continue for ever, or for a period of more 5 years in future, and we beg your honor will in any way whatsoever, be pleased to obtain possession of the Village to us, so that we may be enabled to discharge the Peishcush in a regular manner and enjoy happiness.— We are always offering up our fervent prayers for the progress and prosperity of the Honorable Company's Government, and that we ourselves may continue enjoying happiness under their patronage.—

As all the people under the equitable administration of your honor are enjoying peace and tranquillity without any trouble whatever, we beg your honor will shew your pitiful sight towards us, so that we may continue to enjoy the same peace and happiness as was enjoyed by all the

claims upon them, the sum at which they were bought in by the acting Collector, who had been instructed to bid to the extent if necessary of the arrears due upon them respectively being rupees 18700, whereas the aggregate amount of balances including interest, for which they were brought to sale was rupees 541926.-

3. In submitting his request for the confirmation of those sales the Acting Collector has taken the opportunity to transmit Copies (with translation) of Arzees addressed to himself by the dispossessed proprietors requesting the favorable consideration of Government.-

4. The circumstances under which the sale of the Covally and Ellore Mottahs was deemed necessary have been so recently under the consideration of Government in the correspondence quoted by the acting Collector, that it will be needless to recapitulate them here - it may however be remarked that the total arrear outstanding at the time of sale on these two Mottahs amounted to Rupees 536,702-5-4 of which rupees 314 682. was the balance of Pesh Cush due by the Proprietors the remainder being the aggregate amount of the

of Interest accruing thereon - The utter impossibility of realizing any portion of this large arrear from the Zemindary, as the resources of the estates were ascertained to have been scarcely sufficient to meet the Government demand, rendered it expedient, in the opinion of the Collector that they should at once be brought to sale, which measure was fully approved of by the Board, and they do not consider that the circumstances of the case as represented in the address now submitted to Government from the Zemindar are of a character to demand further indulgence, and they therefore beg to recommend that the sale may be confirmed.-

5. With respect to the address published by Rajah Sembadry Apparow and Venkatadry Apparow the joint Proprietors of the Village of Streeramavaram soliciting the continuance of the Village on the terms hitherto fixed by Government, either in perpetuity or for a further period of 5 years, and engaging to discharge the balance of arrears being Rupees 1725-10-8 as well as the current Peshcush on the sale being cancelled - the Board would observe that they have recently had under consideration a communication from the Collector and which they beg now to submit to Government

From Coll.r dated 17th Nov.r 1846. Inclos 14th Dec.r 1846.

Fort St. George 18th March 1847

Government arising out of a Petition presented to them by these Proprietors upon the subject of the Village in question when they took occasion to inform the parties that under the circumstances they detailed their request for further indulgence could not be complied with, and that they directed the Collector to proceed with the sale of the Village.-

6. The Board regret to observe from the account of the settlement of the Village furnished by the Acting Collector that the benevolent intentions of Government in confer-ring this grant upon the late incumbent has been frustrated by the resources of the Village having in no year since 1247 equalled even the reduced amount of Peshcush demandable from them but as it is evident that the proposed payment of arrears now made could only be raised from other sources that the proceeds of the Estate, the acceptance of their offer to pay up the amount in the event of their being reinstated in possession of the Village, would merely have the effect of liquidating their Public liabilities, of involving them probably in private embarrassment, and they therefore recommend that the sale of this Village should receive the sanction of Government and also the sale of the Village of

of Ramasingaveram, the arrears due from which amounted to Rupees 3426-5-11 up to the 10th of October last the circumstances connected with which were laid before Government in the correspondence noted in the Margin and seem to call for no further remarks from the Board.

7. In the event of the purchase of these estates on behalf of Government being confirmed as now solicited, the Board will instruct the acting Collector to procure from the late Proprietors agreements relinquishing all demands against their former Sub tenants for arrears due after the day of Sale, and on the completion of such agreement they will again address Government in view to the balances of Peshcush still outstanding being written off from the collec-torate accounts.-

Sir,

Para 1. I have the honor to acknowledge the receipt of an Extract from the Board's proceedings dated 29th February 1844, and Mr. Lovell's letter of the 3rd October following; calling for a report on the Village Police, throughout the Guntoor District; exhibiting at one view the whole state of the case, past and present, as regards the numbers and emoluments of these functionaries; with my opinion as to the best means of reviving their efficiency: and desiring that in proposing any plan of general amendment, I should state the additional expense involved in it; and the present available resources.

resources for the remuneration of village servants. In the letter of the 3d October, the Board point out that the report is not intended to include Kurnums—

2. Under the head of village Police in this District are included Heads of villages, Mohtands or village watchers, Vetty people and Kuttabady Peons—

3. As this matter has already, more particularly as regards village Moonsiffs, been the subject of a protracted correspondence between the Board and this Office, it seems proper to revert to what is already on record—

4. When the Office of village Moonsiff was established by the Regulations of 1816, there do not appear to have been either in the Palnaud or the Zemindaries, recognized Heads of Villages corresponding with the Potails, Reddies, and Gowdahs of the ceded Districts and other parts. In some few of the eastern Villages there

there were influential Royets, distinguished by the denomination of Chowdry, Pettandar or Peda Capoo, who took part in the Revenue management of the village, and in consideration thereof enjoyed certain Enams, fees in grain, or remissions of shist— It thus happened that when the Office of Head of the village was recognized by law, there were no emoluments allotted for it; and the expediency of granting them, tho' from the first unanimously admitted by the Collectors, Board, and Government, has never yet been acted on—

5. The position of the Official Heads of villages in this District seems first to have been brought to the Boards' notice by Mr. Thish in 1823 in his report of the 9th of June. He stated that their authority was next to nominal; that they took no share in the revenue business, and that they had no Enams: and he proposed to remedy the evil by granting to each a small Enam. His observations had reference to the Palnaud only but as was afterwards shewn, they were

Paras 53 & 54

were equally applicable to the Zemindaries.—

6. In their Proceedings on this letter, the Board, concurring in the propriety of granting Enams, called for information as to the quantity of land which the Collector considered would be adequate for the purpose intended.— 31st July 1823 para 45.

7. On the 28th January 1825 Mr. Whish submitted to the Board a scale, according to which he proposed to confer Enams, but the Board, requiring more particular information, in their reply dated 17th February of the same year, sent a form to be filled up, and at the same time suggested, that some of the smaller villages not exceeding four, might be placed under one Moonsiff; and also that it might be found on enquiry, that Heads of villages were in the enjoyment of certain fees or Roosums, which should be taken into account.—

8. The Collector replied to these remarks, in para 30 of his Jummahbundy Report for 1235 and furnished the

† dated 26th Decr. paras 30 to 36.

the statement required. He explained what he had stated in his former letter, and urged certain objections to placing more than one village under the same Moonsiff. The number of Moonsiffs he recommended was 91 and the value of the Enam proposed to be granted to them Rupees 5.964 per annum, for which he requested sanction.—

9. In their Proceedings dated 26th March 1827, the Board, pursuing the subject, ceased, under Mr. Whish's explanation, to urge the union of villages under the same head; but not being quite satisfied with the principle on which the scale of remuneration had been framed by Mr. Whish, called for an amended statement drawn up on the principle by which these allowances were regulated in the ceded Districts; which they observed was calculated to proportion the emolument to the labour and responsibility of the duty. It may here be mentioned that in Mr. Whish's scale, 21 Rupees was the standard for all villages yielding less than 400 Rupees 42 for villages yielding

yielding more than 400 and less than 200 and 84 for those yielding more than the latter sum - The scale for the Ceded Districts was to be framed on an average of 7 years settlement including Motarpha and was graduated as follows.—

The Board also suggested the profsibility of Maniums, originally allotted to the persons who collected the revenue being still in Existence, altho in the lapse of years, their original object might have been lost sight of.—

11.

In the meantime the Heads of villages of the Zemindaries had soon after the transmission of Mr. Whish's report, petitioned the Government for remuneration. Their petition was

was referred to the Board of Revenue in a letter from the Secretary to Government dated 2nd February 1827. in which the Board were requested to submit their opinion as to the propriety and means of making a suitable provision for Moonsiffs. as a remuneration for their services. and in order to give respectability to the Office - The Board referred this

19th April 1827. Petition to the Collector.—

On the 18th October 1827—

12.

Mr. Orr. who was then acting for Mr. Whish furnished the information required. both for the Palnaud. and Guntoor Sirkar, with a table of allowances framed according to the scale of the Ceded Districts for each village - He reported. that it did not appear that any Enams or Roofsums had ever been allotted to any of the Head inhabitants of the Palnaud; that before the British Government all village duties devolved on the Desapandyas and Kurnums; and after the abolition of the former Office under our administration. on the Kurnums alone; who he found. did not enjoy

enjoy more than a fair remuneration for their own proper duties - according to Mr. Orr's table for the Palnaud the number of village Moonsiffs was to be 113; the average settlement Rupees 2,16,953 - 12 - 6 and the aggregate allowances to be sanctioned for the Moonsiffs Rupees 3,364 - 3 - "

13. In the Guntoor Sirkar the number of villages was 883; the average Beriz 18,53,070 Rupees and the remuneration to be given 24,959 - 1 - " minus the value of existing Enams, leaving 24,305 - 5 - 4 as the net value of the Enams to be newly sanctioned; which however, he observed, it would be necessary to grant in money in the permanently settled villages.-

14. What became of these propositions does not appear, no orders upon them were communicated to this Office. In 1829 - 9th of July the Board called for a statement of the Enams of all village Officers in a form which they furnished. This was supplied by Mr. Whish on the 14th of the following December but according to the form the Zemindaries

From Board dated 18th July 1831.

Zemindaries were excluded.-

15. In 1831 the subject was resumed or rather taken up denovo as reference was made to the recorded correspondence by the Government, who, in consequence of representations from the Judicial authorities of the inefficiency of the Village Police in the Northern Sirkars ascribed mainly to their want of remuneration, called on the Board to ascertain accurately, what emoluments in land, grain, fees or otherwise, were possessed by village functionaries at the time of the permanent settlement, with the view to restore such as might have been taken from them by the Zemindars. No reply having been furnished, in consequence probably of the frequent change of Collectors, the Board on the 11th February 1833. repeated their call to Mr. Blackburne on his appointment to the District-

16. Mr. Blackburne furnished the required report on the 28th June of that year - With respect to heads of villages, he strongly supports the recommendation of Messrs. Whish and Orr; observing that in the Palnaud

Fort St. George 18th March 1847.

Palmaud, rent free lands may be conferred on them on the Bellary scale; and that in the Zemindaries allowances should be made in ready money, as it was hardly to be expected that the Zemindars would provide a maintenance for men whom Jealousy would teach them to look upon as checks over their own authority.

He stated that no particulars were forthcoming of the Enams enjoyed at the permanent settlement; but that the total extent of alienated lands for Village Offices as returned by the ameen to him exceeded that recorded at the time of the permanent settlement; from which it appears that the Zemindars had not encroached upon their rights. Here the correspondence dropped until resumed by the letter under reply.—

17. I now come to the present state of the village Polices. First, as regards Village Moonsiffs. It appears from what has been said, that there are no hereditary heads

Fort St. George 18th March 1847

Heads of Villages that there are no existing emoluments assigned to the office, and that hitherto they have not been employed in revenue duties I cannot discover that, as the Board inferred from Mr. Blackburne's report, there are any Heads of Villages who are not Village Moonsiffs. In the Villages where, as noticed above in para 4, there are Chowdries Pettanadars, or similar principal inhabitants enjoying emoluments or exemptions, they cannot be called Heads of Villages. There are generally several of them in the same Village and it is obvious that though the Office of Moonsiffs might and ought to be given to one of them they could not be all Moonsiffs. Neither could the returns of Villages usually be ex officio Moonsiffs Villages have been generally returned by several partners for the most part including the Kurnums and principal Capoos.—

18. The qualifications and efficiency of the present Moonsiffs were

were reported upon in my letter to the Board dated 27th April 1844. Considering the disadvantages under which this institution has laboured in this District I am only surprised at the measure of success which has attended it.

Villages.	Vacant	filled up	Total
Guntoor	265	536	801
Palnaud	7	107	114
Total	272	643	915

19. The number of villages in which the Office of Moonsiffs is at present filled up and vacant pre- spectively is noted in the Margin. The principal reason why in so many instances the Office is vacant seems to be, that, since the District was depopu- lated by the famine the office has not been of that value, to induce Candidates to apply for it, while the Zemindars probably were better pleased to have no Village Managers.

20. With respect to the measures to be now adopted, it appears to be unde- puted that the grant of remuneration to Heads of Villages whether in Palnaud or Guntoor, is just and politic, and ought no longer to be delayed. A great part of the difficulty which has been found in managing

this District, arises from the undivided power of the Kurnums; and as the Police and Judicial duties devolving on the Village Moonsiffs are already more than they willingly perform, they could not with any show of reason be asked to take revenue duties. Where they made stipen- diaries they might with great advantage be employed in the collections, and Superintending the cultivation.

21. It remains to determine the mode and means of remuneration. It has already been shewn that there are no available resources except in a few villages. The grant must be now made. Of the two scales that proposed by Mr. Welsh and that directed by the Board, the latter has doubtless the advantage, and although it seems presumptuous to deviate from so eminent a precedent as the System framed by Sir Thomas Munro, yet adverting to the prevalence of abuses and other difficulties incidental to Service Inamiums, I would strongly recommend both for Palnad and Guntoor an annual remission in money on the lands of the Village Moonsiff in preference to grants of land. The

22 The notion is prevalent among natives, that remuneration by grant of land is more economical than in ready money, but I think it is fallacious. The difference is, that in one case the outlay is kept out of sight, and do not in the other Enam lands afford a continual temptation to encroachment. The service attached to them soon becomes to be felt a burden, and there are no ready means of rectifying habitual neglect of duty. Moreover the heirs of the Servant contend for a partition of the Enam as much as if it were private property and it is difficult to prevent its being mortgaged, or otherwise alienated. An annual remission of assessment on the lands cultivated would be free from the objections which lie against the alienation of a particular piece of ground and it will at the same time be more popular than the payment of a Monthly salary.

23. The next is, how to regulate the amount of remission. It appears to me that to carry out the principle of the Bellary rates of apportioning the remuneration

remuneration to the labour, the amount should not be fixed but fluctuating. The present Beriz of the

24 District is half what it was when a Mr. Orr's calculation was made. Had the emoluments of Heads of Villages been permanently fixed on that scale, they would have now become accordingly disproportionate I think therefore that it would be better to grant the remission in each year on the amount of collections of the preceding year. a still further improvement would be to allow the Moonsiffs a fixed sum, say 12. Rupees annually, and in addition to this a commission of say one per cent on the Collections of the village for each preceding year. This would give him a direct interest in the prosperity of this Village, as well as an independent remuneration for his Police Duties, which might be heaviest when seasons were unfavorable to the revenue.

Statement No. 1 exhibits

25. in abstract the number of Villages in Guntoor and the Palnad the number of Moonsiffs recommended the average Beriz, and the amount

amount of their allowances according to Mr. Orr's statement forwarded in 1827 the number now recommended, the Beriz of Fusly 1254, the allowance calculated thereon according to Bellary scale, as well as the amount of remuneration calculated according to the plan I have explained. In the case of the villages which at present are shared among different Zemindaries, the calculations hitherto made have allowed for a Moonsiff to each share or vunt. but if my recommendation shall be acted on, and these Villages be in future managed as single Villages one Moonsiff will be sufficient for each with one or two exceptions the a Village Matupully Nairupully for instance where the Beriz is upwards of 2000 Rupees more than one Moonsiff may be necessary. The statement also shews the highest and lowest rates of the allowance for one Village under each of the modes of calculation

26. In the event of these allowances being sanctioned, it will be necessary to determine whether they should be deducted from the Kistbundy or appear as a charge in the accounts.

27. The Inahtauds in the Palnaud are

are all in possession of Enams In the Zemindaries, some are remunerated by Enam land, some by ready money salary, and in some the two are combined; while nearly all receive besides small fees in kind statement No. 2 exhibits these particulars. In the Zemindaries where the renting system has been very prevalent, the renters have been accustomed to discharge the Inahtauds, and alter their pay at their pleasure, and generally they have been dealt with rather as revenue than Police servants. In addition to the objection to Enam lands mentioned in speaking of Village Moonsiffs, the time required by Inahtauds for their cultivation is a great drawback from their efficiency. I would recommend that gradually the substitution of money payments for Enam lands, may be acted on throughout the Zemindaries. In the Palnaud, where the tenure of the Inahtauds Enams is more settled, it may not be advisable to disturb the existing arrangement.

28. In the Zemindaries there are at present 324 Inahtauds remunerated by monthly pay and fees the rates of which range from 3 Rupees downwards, and the annual

Fort St. George 18th March 1847

annual amount is 7,193—1—6. There are again 612 Mokhauds who receive no pay but enjoy rent free lands and there are 27 Villages with 48 Mokhauds in which the remuneration is partly in Money and partly in lands.

29.

It seems fair and reasonable that a Mokhaud should receive a sufficient maintenance from Government, and he expected to give his whole time to its service, and therefore I think he ought to receive his wages monthly without the necessity of cultivating land for his support. In many cases 2 Rupees a month is found an adequate salary, but where the Village is large, and the number of Mokhaud not inconsiderable, it may be as much as 3 Rupees.

30.

If in the Zemindaries all the Enams were resumed and the Mokhauds paid on an average at 2 Rupees per month the additional cost as calculated in the note to the statement would be Rupees 7,347—11—11. I do not think it would be advisable to interfere with their fees.

31.

I am not of opinion that excepting in a very few cases, any thing is required to be done with respect to the Village people

Fort St. George 18th March 1847

people. They are of the low castes either the Mala/Pariah/or Mudigue/chuckler/ and are called upon in the Public service as guides, messengers, porters, and in watching at night. There is no fixed number liable to serve, but a certain number of hereditary families share the work and the emoluments among themselves. Statement No. 3 exhibits such particulars as are forthcoming regarding their present condition.

32.

The Cuttoobady Peons in the Calmand perform Police duties. Their emoluments seem sufficient. Statement No. 4. shews their number and their Enams. It does not seem necessary to propose any change respecting them.

33.

There are in the Zemindaries Cuttoobady Enamdars; but in very few instances are they employed in Police duties. They were principally required by the Zemindars to attend them on public occasions. In the contemplated revision of the Enams in the Zemindaries it may be found proper to resume some of these and other service Inamiums, the services assigned to which are neglected or unnecessary.

Proceedings.- Relative to the settlement of the Extra sources of Revenue in the District of North Arcot for July 1255.-

The foregoing report upon the settlement of the Extra sources of Revenue in the District of North Arcot during July 1255 furnishes little matter for any lengthened remarks from the Board. It will be seen from the Comparative figured Statement annexed to para 2 of the report that the net outturn of the year from all items comprising the General head of Extra sources of Revenue was in Excess of the preceding year by Rupees 11,485-12-4 the result of a net increase of Rupees 21,549-12-5 and a net decrease of

Fort St. George 18th March 1847.-

of Rupees 10,064-a-5.-

2. The principal item of Excess arose from the Abkarry Farms the receipts from which shew an enhanced Revenue of Rupees 15,850 above Fusly 1254 which year although furnishing a revenue below the year immediately preceding it was nevertheless considerably in advance of the average of the antecedent 10 years.-

3.- The next items of Extra sources which present a more favorable revenue, than in the past Fusly of 1254 were small Farms and salt in the former the excess amounted to Rupees 3,102-14-a from the effects of season and in the latter to Rupees 2,286-12-a which the Board are glad to observe appears to be attributable in the opinion of the Acting Collector to the general improvement in the trade of the District in consequence of the abolition of the Sayer Duties.-

4- The remaining items of increase are unimportant arising from the usual fluctuations to which they are liable and call for no remark.-

5. The decrease was confined to the two items Sayer and Stamps and resulted in great part from the discontinuance of the Sayer as also from the effect

effect of the late rules regarding the institution of suits of a particular amount on the lower Courts.-

6.- The total demand of the year under report was Rupees 233,777-3-7 the whole of which was brought to account within the Fusly except Rupees 10,251-1-6 which was however reduced to Rupees 2,792-15-5 by subsequent Collections made up to 23d of December, the date of closing the accounts transmitted with the report - This amount however is shewn in the remarks appended to the concluding para of the report to be almost entirely a nominal balance being chiefly composed of the sum of Rupees 2,780-13-1 the estimated amount of remission to be granted agreeably to the terms of their mochilka, to the abkarry renters in compensation for the loss sustained by the withdrawal of the European Regiment from Arnee during the term of lease - As the remission is usual and regular the Board beg that the sanction of Government may be granted for writing off the accounts as well as the further sum of Rupees 3-8-a pronounced as irrecoverable balance of a Sank Tank renter by the Collector.-

2,780-13-1
3-8-a
2,784-5-1

7.- The old arrears outstanding for Fusly antecedent to that forming the subject of the present report are shewn in the Statement B, to have amounted at the close of Decr 1846 to Rupees 18597-1-9 inclusive of the amount Viz Rs 15,628-3-6 on account of the abkarry Farm for 1252, held by Mr Turner, and which the Board directed to be adjusted without delay, in the correspondence noted aside - exclusive of this amount the balance remaining for future settlement amounted to the small sum of Rupees 15-a-9 which the acting Collector will take steps to dispose of during the current Fusly.-

Extract B dy Proceedings 1st February 47.

8.- The Board observe a clerical error in the above statement which they desire to point out to the notice of the acting Collector who will remark the incorrectness of the Entry under the item sayer instead of under abkarry.-

Ordered - That a copy of the foregoing Extract from the Board's Proceedings with the annexed comparative Statement of the Collections charges and net Revenue be submitted to Government and a transcript of the same be forwarded to the Acting Collector of North Arcot for his information and guidance.-

Sir,

From the Collr of Malabar } 1.

I am reply to your Circular letter dated 25th Ultimo I have the honor to state, that no revenue is derived in this District from the Fisheries of the Village Tanks and Channels.

2. With regard to your 2nd para I beg to observe, that the mode of realizing a revenue from the Sea Fisheries of Malabar, was detailed in the 4th para of my letter to the Board on the subject of the Mapilla case. I annex a Copy of this para for convenience of reference.

2/10th July 1845.

The principle on which these taxes were fixed is not apparent; but they are generally light.

"The charges on Fishermen's "Nets and Boats, Weaver's looms, Artisans tools "&a, Amounting in the whole to Rs. 19055-5-11, "were also introduced in Hyder's time. They are "now, as a general rule, uniform throughout the "District, as regards the same classes of persons rated to it, and are regulated annually "by the exigencies of the payers of the taxe, every "application for remission on the score of decay "of boats, abandonment of trade &c., being "separately enquired into and settled according to its merits."

A good deal has been done within the last two years to carry out this uniformity and more is still in progress.

3. I may add that I do not consider these taxes to be objectionable.

nature and extent of the Endowments to the religious institutions in the District under your charge, you suggest the transfer of the lands in certain cases, but in others in consequence of separate interests being involved and the comparatively small amount which forms the Endowment you are of opinion that the management should be retained in the hands of Government.

2. As the orders of the Honorable Court and of Government on this subject are positive, and as the Principle of the measure requires that the transfer shall be carried out in every case unless an obstacle really insurmountable present itself, in which case another course of proceeding might be deemed expedient, I am directed to convey to you the following observations on your letter under acknowledgment for your early consideration and report.

Para 3

3. It appears that the Income of Santoor is enjoyed by the Chontry and Pagoda situated in that Village in the proportion of 3/4 to the former and 1/4 to the latter. An adjustment of the respective claims is probably attainable by dividing the lands of the Village in the proportions specified, the share (3/4) of the lands belonging to the Chontry being retained with the general management

Fort St. George 18th March 1847

management of the Village under that of the Officers of Government while the land (1/4) which constitutes the property of the Pagoda will be made over to the Trustees of that Institution. Thus by a separation of the lands the rights of each party will be recognized and the requirements of the Principle involved satisfied. The arrangement is also likely to prove acceptable to the parties connected with the Pagoda. Where an interchange of Lands among the Ryots of a Village occurs at stated periods, the proposed separation of interests need not be affected by this custom as at each period of change the necessary adjustment will be made by allotting to the parties the shares to which they are respectively entitled.

4. Similar remarks apply to the Village of Melamby [illegible] in Santoor.

5. The Chittum at Pundaracolum you state is entitled to such surplus of the Revenue of the Villages of Tooloorcolum and Carrovalancolum as may remain after meeting a fixed charge on account of the Mesque at Pettah. There will not probably be any difficulty in fixing an equivalent which shall represent that surplus to be paid to Government by the parties to whom these Villages may be made over. If however the surplus is large a division of the lands as pointed out in the cases

Inform 15th March 1832

of Tinnevelly dated 6th March 1832 in which the several Items composing this Fund are enumerated, the entire amount is entered at Rupees 14,728-3-8 This discrepancy should be explained It appears that the Fund is drawn from the following sources

1st Alienations of Villages and lands wholly or in part only 2nd Motturpha and 3d private contributions the last mentioned item being derived

	Rs. A. P.
Private Farms-	973-10-5
Pichay Mans-	7731-3-5
Contributions by certain Holders of Dry Lands-	123-11-4
Do Jem Jom Temple—	6-5-10

from private Farms, Pichay or a levy in Grain, and the contributions of the Musicians attached to the Pagoda- The first mentioned source of Income might be settled by a specific assignment in land as already pointed out- The Motturpha Collections which are inconsiderable (Rupees 100-5) if strictly of the character of that branch of Revenue, should be resumed on behalf of Government and compensation in land be given if necessary- Full explanation should be afforded on this subject- Private contributors should be left to themselves to contribute or otherwise as they please- This item the Board are led to infer does not partake of the character of an alienation or endowment which the State is called upon to enforce- Mr. Hepburn's letter dated 17th October 1807 affords detailed information

In cons 2d November 1807

of Santoor and Melumby poorum above, may be a better arrangement

6 The 9 Villages indicated in Para 6 of your letter might be disposed of on the same Principle a liberal average should be assumed to represent the Income hitherto enjoyed by the institutions concerned and lands in the same Villages equal in value may be separated and made over to the Trustees- By fixing the average on a liberal scale, the claims of the institutions will be most amply provided for

7 The same Principle applies to the Enams enumerated in Para 7 In each instance an assessment of land might be made In the case of Cheekbundy Enams the extent and position of the land are defined and fixed- If the Quit rent payable to Government is of trifling amount compared with the whole assessment of the land, the entire land may be made over to the Trustees subject to the payment of Quit Rent. If on the other hand the quit rent forms a large portion of the entire assessment you will consider whether it will be a more convenient arrangement that the respective shares should be separated

8. The Tiroopanny Fund you observe amounts to Rupees 10,206-3-10 Statement A received with letter from the Acting Sub Collector in charge of

Fort St. George 18th March 18[illegible]

in regard to the division of the crops between the Government and the Ryots, and as Trapany Pitchay is not mentioned, it would appear that the payment is drawn from the Ryots Share of the Produce and in a letter from the Acting Asst Collector in charge dated 8th March 1832 it is stated to be "Alms Collected at various rates in Grain during the harvest under the long established usages of the country" The Board therefore requested that further information may be afforded on this point, in order that it may be definitively settled whether this item should be treated as a voluntary contribution or otherwise.

Asst Cons 15th March 1832 Para 5

9. The last item enumerated in your letter under reply is Rs 2306-7-9 Sawmy Bogum. This item is one considerable and you will be pleased to consider whether it may not be commuted into an Assessment and Settlement on Inam Tenure of ready Money payment from the Public Treasury.

10. Following the instructions contained in the foregoing Paras the Board trust that you will find no difficulty in furnishing them with your opinion on the practicability of making final Arrangements for the transfer of the interests therein refered to at an early date. In the other cases to which your letter has reference and in which no difficulty presents itself they desire that the transfer may be immediately effected in conformity with the orders of Government. A written engagement should be taken from the Trustees respectively to whom the lands are made over containing stipulations for the discharge of the dues of Government including the quota payable by the institution on account of repairs of irrigation and for the maintenance of the Ryots and other Members of the Village community in their rights and privileges. You will be pleased to Submit a Form of Bond with the above requirements for the approval of the Board.

Communicating necessary information relative to certain allowances enumerated in the Statement submitted on the 18th November 1846 which shows that they are Service premiums

Sir,

I have the honor to acknowledge the receipt of your letter under date the 25th Ultimo, and presuming the entries noticed by the Board of Revenue to be some of those in the Statement submitted on the 18th November 1846, to report that it was my intention simply to place before them the fact of the Civil Auditor having requested the special sanction of Government for the continuance of the whole of the Yeomiah allowances therein enumerated.

2.

1805	Fakeer Mohedeen	Rupees	50 = 12 = 8
57/58	Syed Shaw Mahomed	Cawdy	188 = = =
	Meer Badradeen		13 = = 11

The Remarks appended to each of the three items referred to by the Board will shew that the grant was originally made for the performance of certain services. The heading of the Statement that it is one of "Shutnaligum Yeomiahdars" is not therefore strictly correct.

3 It is customary to ascertain from time to time whether the conditions attaching to the tenure of the allowances are fulfilled from the services performed at Fees not having fallen into disuse. In the case of Fakeer Mohedeen information on

Fort St. George 18th March 1847

on the points just alluded to was obtained on the 18th January last, and as regards Syed Ahew Mahomed Cawdry and Meer Badradeen, the Acting Collector of Chingleput informed me on the 24th Ultimo of the results of an enquiry instituted at my request, the Shoguns and Durgah to which they are respectively attached being situated at Parem bank in that District.

4. In the Statement submitted to the Board on the 28th November 1836 which it was of importance to exhibit each class of allowances under a separate and distinct head, the Yeomiahs now under consideration are entered under the head of "Mushroot or Service Pensions".

5. It is proper under the circumstances, to bring to the notice of the Board that there are some other items in my Statement of 16th November 1846 as noted in the Margin which also are "Mushroot or service Pensions" they are entered as such in the Statement of 28th November 1837. The Jaet of the Service allotted to them being actually done was ascertained in the case of Ghoolam Mahomed on the 11th December 1846 and in that of Syed ally and as well as Ramooden ahomed on the 26th January

The decrease in the number of Boats importing Firewood and Paddy is owing to the early close of the river at the Coast Malls, and the decrease in the number of Boats importing Shells is attributable to a dispute between the Boatmen and the Merchants on account of the freight of the Boats. The 28th Feby 1847 having fallen on a Sunday accounts partly for the comparatively large number of Boats which were uncleared at the close of the Month - It is also partly owing to the owners of the Goods not having the means to discharge the toll leviable thereon, on which account frequently a delay of nearly a week occurs.

From the Commissary General — — — — — dd/15th Feby 1847

I have the honor with reference to your Secretary's letter to the Chief Secretary to Government, to bring to the notice of your Board, that although Treasure Boxes can be made up here for Rupees 2-12-6 each, they cannot be delivered at Madura whether sent up as far as Negapatam by sea or the whole way by land, as no return carts to Madura are ever available, under the prices indicated in the margin, and to solicit the favor of your informing me whether, as they can be supplied on the spot at a lower rate, it is the wish of your Board that this Department should make the supply.
