Sir.

From the Acting Coll.r of Trichinopoly

In reply to your letter of 3.d Instant requesting me to ascertain and inform the Board from what date Mr. Pushington wishes the leave to be granted and also to explain under what Circumstances he quitted his District previous to obtaining the permission of Government I have the honor to state for the information of the Board that Mr. Pushington was too ill to be able to proceed on his Journey for a single day and as the certificate of ill health was forwarded to Madras direct on the 5.th Ultimo it does not appear that the Head Assistant was at the time aware of the necessity of an application for leave through me which informality I trust may be excused and on account of the urgency of the case I beg to recommend that Mr. Pushington be allowed leave of absence on the Medical certificate

Replying to letter of the 3.d Instant and explaining the Circumstances under which Mr. Pushington Head Assistant Coll.r quitted his District previous to obtaining the permission of Government.

Certificate for four months from the date of his quitting the District viz the morning of the 15th April 1847.

From the Secy. to Govt. sanctioning the continuance as life grants of the full extent of the lands of the Naud Gowd Enam at Hachalie in Bellary or hitherto in the enjoyment of Rungummah and the Goomastahs.

Ordered to be sent again in Circulation.

Extract from the Minutes of Consultation under date the 29th April 1847.

Read the following letter from the Board of Revenue.

(Dated 15th April 1847 No. 196)

The Most Noble the Governor in Council concurs in the views expressed by the Board in respect of the arrangements submitted by the Collector of Bellary for the disposal of the Naud Gowd Enam at Hucholie, and resolves agreeably to their recommendation to sanction the continuance as life grants of the full extent of the lands hitherto in the enjoyment of the surviving widow Rungummah and the dependant Goomastahs Mudra Row and Venkiyyah amounting in all to acres 190-13-8 assessed at Rupees 495-9-10 Viz.

To Rungummah Acres 52-29-8 Rupees 196-7-

To the Goomastahs " 137-24- " Rupees 299-2-10

Subject in the latter case to the condition of the family being taken into consideration on the occurrence of a lapse.

2. With the foregoing exceptions, his Lordship in Council authorizes the resumption of the lands held by the

the deceased Lingummah and the portion of the Enam alienated for the use of Davastanums, amounting to Acres 1,569 - 28 - 13 assessed at Rupees 3502 - 11 - 9 -

Lingummahs Enam		
	Acres 1539 - 2 - 9 Rupees 3411 - - 1	
Davastanums	30 - 26 - 4 Rupees 91 - 11 - 8	

3. His Lordship in Council also approves and confirms the arrangement proposed by the Collector and recommended by the Board for investing Siddana Gowd with the Office and rights of Potail of Cushah Hucholic and placing him in possession of the lands attached to the Office - the actual extent being Acres 150 - 17 - 8 assessed at Rupees 306 - 2 -

Sir

I am directed by the Board of Revenue to acknowledge the receipt of an Extract Minutes of Consultation dated 6th instant enclosing certain papers presented to Government by T. Soobroyaloo and requesting them to state whether in the matter of the Pagoda Village of Teroovercaudoo in Chinglepul that individual has any real grounds of complaint -

In reply I am instructed to submit for the information of the Most Noble the Governor in Council the accompanying letter from the Collector of Chinglepul dated 10th of February 1835 containing full details connected with the history of the Village in question -

Submitting with reference to Extract Minutes of Consn dated 6th instant a letter from the Collector of Chinglepul containing full details connected with the history of the Pagoda Village of Teroovercaudoo and stating that the Board consider that the recorded misconduct of Soobroyaloo while in the enjoyment of the Village was such as to neutralize all claims upon the consideration of Government

In Consn 19th Feby 1835.

Recorded in Consn 13th May 1847

3. On referring to this report it will be seen that in the year 1787 on an application from the Enamdar the Board Sanctioned the restoration of the Village on the same Enam terms as originally held to Rama-lingum the Patron of the Pagodah in Tero-voreandoo "in consideration of the loßes which he had sustained during the then recent war". On the demise of this person the management of the Village and Pagoda devolved by Will upon his third son, who was again succeeded in 1805 by his brother T. Soobroyaloo the individual referred to in the above Extract Minutes Consultation in whose posession the Village remained for a period of Thirty years or upto 1835 when complaints having been preferred by the Shilladar of the Pagoda an Enquiry was instituted by the Collector in the course of which it transpired that the Enamdar Soobroyaloo had been guilty of groß fraud and irregularity in the Management of the Village and Pagodah by misappropriating the proceeds, surreptitiously carrying away the produce when under attachment for arrears of Peishcush, and omitting to keep and preserve Accounts of the institution entrusted to his control.

4. In Communicating the result

result of his investigation the Collector observed that "Soobroya Moodeliar has never "been regularly appointed Churchwarden "and altho his having held the office for a "long time might entitle him to a continu-"ance in it, had his Management been "satisfactory his disreputable character "& profession and mismanagement altogether "render him unworthy of indulgence at the "hands of Government; and, he added "I have no "hesitation in recommending that the Village "of Teroavoreandoo and the Pagoda be with-"drawn from his Management and placed "under that of the Shelladars and Villagers "subject to the general control of

5 The course thus strongly urged was adopted by the Board but on a fixed allowance, paid direct from the Treasury having at a subsequent date been provided for the expences of the Pagodah, the Village was permanently resumed on behalf of Government and has continued to form part of the Syen lands of the Taluk for the last 12 years.

date of resumption 8th June 1835.

6. Under these Circumstances the Board consider that the recorded misconduct of Soobroyaloo while in the enjoyment

enjoyment of the Village of Tervoovarcundoo was such as to neutralize all claims upon the consideration of Government, and they have no hesitation instating their opinion that no just grounds of complaint exist against the course pursued in his case which was further rendered necessary to afford protection to other parties whose rights he had invaded and especially to the Proprietors in the Village most of whom were represented as having deserted the Village in consequence of his misconduct and oppression.-

7. The custody of the Temple with the enjoyment of the money allowance granted in lieu of the resumed Village have been transferred to the representative of an elder branch of the family of the Pathon.-

8. It may be also further observed that both the late and present Collectors concur in believing that Petitioner is not in his right mind.-

of Fort St. George.-

Sir

I am directed to acknowledge the

the receipt of your letter No. 331 dated the 10th Ultimo with Enclosures furnishing the information required by my letter of the 29th August last respecting the nature and extent of the authority given to Colonel Munro to confer grants of Enams similar to that which formed the subject of Mr. Secretary Thompsons letter No. 820 dated the 10th Idem.-

2. In reply I am directed to state that as the Enam referred to appears to have been granted by competent authority to be enjoyed by the Grantee and his heirs both in the Male and Female lines, and to be liable to resumption on the family becoming extinct; and it being clear in this case that there is a female descendant in the person of Balummah Daughter and sole remaining child of Barkerummah and Gowra Ramapah Naid, the original grantee, there cannot be a sequestration of the grant under present circumstances. The President in Council is pleased therefore to concur in the view of the Board of Revenue at Madras as described in the concluding Para of the letter from their Secretary dated the 18th December 1845, and to determine that the proceeds of the Enam be paid

Requesting the Board to obtain sanction for the disbursement of Rs 100-8-0 being the amount estimated for engraving the register number on one of the Boundary Stones to all the fields in the Paulnaud District.

24

Sir,

1.- In my letter of the 28th February 846 I reported the steps taken for the compilation of a complete Field Register number=
=ed according to the Site of the fields in the Paulnaud - The Registers have now been completed and are ready to be fair copied Co
Boundary Stones have also been placed to all the fields - Chuckrapany Rao, though
=pecially exertions accomplished, and who though Co
=nominated to the Office of Naib Shirastadar
Shaul continued in charge of the
Paulnaud to finish what remains to be
done, suggested what appeared to me
a most valuable improvement in the
Survey arrangements - It is to mark on
one of the stones in each field the
registered number of the field with the
initial letter of the Telugoo word Serv
or Cham as the case may be - He estimated
the cost for doing this throughout the
Paulnaud at the small sum of Rupees 555-2
the

Fort St. George 13th May 1847.

& the reason assigned being that there are Village Smiths remunerated by Cowm lands, who are also stone-cutters, almost in every village, and flat slabs of the coarse marble called Nápa Rai are found all over the Paulnaud - In order however to test the estimate, Chuckrapany Row was ordered to carry his project into execution in one Village and report the result - this he has now done - The Village of Nuddecoody was selected - It contained 512 fields and stone in each field has now had engraved on it in figures of 4 Inches long, half an Inch wide, and half an Inch deep, its registered number with the corresponding letter for Cowm as per Serj.- The whole had been done in five days at a cost of Rupees 2-8-0 Chuckrapany Row promises to get the same done throughout the whole of the Paulnaud in 3 months at an expense of Rupees 400-8-0 and I most strongly recommend that the Board will be pleased to obtain sanction for this small disbursement in anticipation of which, the work will be allowed to proceed - If this arrangement be preserved in its integrity, a greater check than has ever before been provided, will be placed upon the Cunnum - the mystery which usually shrouds the village accounts will be dispelled, and a common peon

Fort St. George 13th May 1847.

peon be able to decide questions which heretofore would have required the presence of the Tahsildar -

2.- It will be now doubly important, that such advantages should be secured by a legislative enactment, and I cannot refrain from venturing again to prefer upon the Board the considerations briefly stated in my letter of the 27th February last, and begging that they may be at least submitted to the notice of the government, with a view to extend to this Presidency the Law for Boundary marks.-

Proceedings thereon.- The Board are of opinion that the measures proposed by Mr. Stokes is judicious and calculated to act as a salutary check upon the corruption of the Native Servants, but in reference to present circumstances and to the probability at no distant period of a general survey of the whole district, they consider its introduction premature - They resolve therefore to request the Collector to suspend further proceedings and

From the Collector of Guntoor—

Reply to the Board's Proceedings of the 16th November last on the Settlement of the Guntoor District for Fusly 1253 with reference to the explanation submitted by the Acting Collector on the 10th October 1845 on the decline of Revenue—

Sir

I have the honor to acknowledge the receipt of the Board's Proceedings of the 16th November last conveying further remarks on the Settlement of Fusly 1253, with reference to the explanations submitted by the Acting Collector on the 10th October 1845.

2. Fully admitting that the malpractices of the public Servants detected by the Commissioner, had a large share in the decline of the Revenue of this District, I cannot think the influence of the market should be altogether passed over— If the Board will have the goodness to glance down Column 21 of the Statement forwarded with my letter of the 7th September last, they will find that the actual collections of Land Revenue in the District including Guntoor and Poulnaud in Fusly 1253 represented in grain at the

Fort St. George 13th May 1847.—

the current value amounted to 39,811 Candies which is the greatest entry in the whole Column with the exception of that for Fusly 1237 which is about a thousand Candies greater— In Column 13 shewing the Collections in specie the highest entry is for 1227, being 17,82,357 the grain rent for that year shewn in Column 21 was however 36,940 Candies being only three fifths of the corresponding entry for Fusly 1253.—

In para 4 the decrease of the Settlement is ascribed among other causes to the granting of Villages at depreciated rents— The number of Villages settled under rent by me in Fusly 1252 and 1253 was 161 of which an abstract is given in the accompanying Statement. In 1836 of these Villages there was a decrease below the Settlement of the preceding year amounting to Rupees 5,808-1-4— In all the others there was an increase

*

Increase 125 Villages	7,519-5-4	
Decrease in 36 do	5,808-1-4	
Net Increase—		2,711-4—

3- On the whole, the Settlement of the Villages rented in 1252 and 1253 amounted to Rs 126,084 or Rupees 2,711-4— more than

Fort St. George 13th May 1847

in excess of the Settlement of the preceding year.—

In Para 3 the relinquishment of land is spoken of, I have only to suggest on this subject that if the market had admitted of a fair profit on cultivation, the combinations among the servants which have been proved to exist, could scarcely have succeeded at all certainly not to the extent they did— That the oppression of the renters did not generally cause land to be relinquished, has been proved by the state of the Villages which have lapsed from rent to an individual Settlement for with very few exceptions the cultivation in them was found to have largely increased.—

4— The balances on the rented villages are next noticed in the Board's Proceedings the marginal

The further report on the causes of the alteration of farms in the Pauland which the Board in Para 5 say they await, was furnished in Paras 7 to 9 of the 6th August last, and has been discussed in Para 2 of the Board's Proceedings

Fort St. George 13th May 1847.—

Proceedings dated 4th January 1847.—

The rule pointed out by the Board of assessing the full rate of garden Shist, under new wells in cases where the ryots have thrown up their old fully assessed dry lands will be enforced in future.—

The Board desire to be informed how far in the Pauluand the disproportion between the ordinary rate of assessment on Garden lands, and that on Betel gardens may have had assistive effect on the latter.— It is not the opinion of the Natives themselves that such has been the case; Peculiar advantages are required for Betel gardens both as regards soil, and a permanent command of water, and this is understood to be the chief reason, why so few gardens are cultivated.— It is to be remembered also that land after being planted with betel is rendered unavailable for cultivation for some years.— The abolition of the Sayer has probably already afforded relief to the cultivators of betel.— The highest rate of assessment per acre on betel gardens in the Pauluand appears

Fort St. George 13th May 1847.—

appears from the Accounts in this Office to be Rupees 26—1—2, and the lowest 9—10—, but in Collepuvva in the Guntoor Circar the rate somewhat exceeds Rupees 30 per acre, and I think ought to be reduced.—

Appellant- Supplemental Deft.

H. Stokes Esqr. Respondent- Plaintiff-

Collector of Guntoor Versus Moondraty

Government Vakeel- Venkatadry Vakeel-

Goondarapoo Croostniah- Sandapully Krishnud

The Plaintiff now Respondent, in his plaint, states, that in 1793 Rajah Mannekarow Bhawanarainah raw the ancestor of Mannekarow Jeyganarow 1st Defendant the Zemindar of Repully granted to the Plaintiffs father M. Ramjaniah one Coochell of Manium land in the Village of Soorapully and wrote orders to the Curnums of the Village to deliver the land to Plaintiffs father, and to fix the boundaries: the land was delivered, and the boundaries of fixed as specified in the Plaint, a document specifying the boundaries of the land was also executed by the Villagers. This land was held by Plaintiff and his father until the year 1835- In 1836.

Fort St. George 13th. May 1847.

1836 the 2nd 6th and 7th Defendants agreed to cultivate the land and to deliver to Plaintiff one half of the produce. Plaintiff gave a Covil to the 2nd Defendant dated 15th June 1836- The 1st Defendant required a present from the Plaintiff which he refused to give, and the Defendants appropriated the whole of the produce to themselves.

The Plaintiff on the 6th April 1837 applied to the Collector for the recovery of Rupees 114-8-9. value of Plaintiffs share of produce from the Defendants, while this matter was under investigation before the Collector the 2nd to 7th Defendants continued to cultivate the land, on this being reported to the Collector, he ordered the Plaintiffs share of the produce to be attached, this was done up to the year 1840; In 1841 the land yielded nothing; on the 12th February 1842 the Collector ordered the attached produce to be delivered to the Ryots, and ordered the Plaintiff to proceed by a regular Suit- Plaintiff filed a Suit No. 961 of 1843 in the Chabrole District Moonsiffs Court, for the recovery of the value of produce from 1836 to 1840, and for 1842

the

the Suit was dismissed by the District Moonsiff, and he directed the Plaintiff to include the Collector as a Defendant. The Plaintiff therefore sues the Defendants for the recovery of one Coolchell of Enam land within the boundaries mentioned in the Plaint.—

The Defendants in their answer state that the land was never granted by 1st Defendants father to Plaintiffs father neither did he or Plaintiff ever hold it as Enam, the land has always been Shary, a doombala was granted in 1843 by the Revenue Ameen, but in that year, the land produced nothing, the land is not entered in the Circar Accounts as Enam, nor is it registered as such.—

The reply is merely a denial of the Answer.—

The Defendant declined filing a rejoinder.—

The Principal Sudr Ameen in his decree states that in 1834 an investigation as to the Plaintiffs Mauniam was made by Mr. Lewin who decided under Regulation V of 1822 that the Plaintiff had a right to the Mauniam. The Plaintiff says that he could

could not produce the original Summuds as they were stolen from his house, that there are several Mauniam lands in this District, which are not registered, and which the Circar has allowed the holders to retain, that the Principal Sudr Ameen has sent for the registry book from the Collectors Cutcherry, that this book is so full of inconsistencies that it is unworthy of credit. The Principal Sudr Ameen therefore decrees that Plaintiff shall recover from the Defendants the land and the amount sued for, and that the Defendants pay all costs.—

The Collector, Supplemental Defendant being dissatisfied with this decree has appealed therefrom.—

In his appeal petition he states that with respect to the orders issued by Mr. Lewin in 1834 the Appellant stated in his answer that these orders were founded on a false report—made by the Ameen and filed accounts—proving that this Statement in the answer was correct.—

The

The Principal Sudr Ameen States, that the documents F. G. H. I. J. K. L. are useless because they were taken by an Ameen, who was incompetent to make a summary enquiry: this objection is fatal to the summary case, but cannot weaken the force of the documents.

The Principal Sudr Ameen observes that Y. Venkata Chellamiah in his deposition before the Ameen said that Respondent had no Maniums, and yet in his letter to the Ameen he said Respondent had a Manium, but Venkata Chellamiah's letter dated 9th February 1835 was in answer to the Ameen's letter dated 8th February, and the Ameen was not ordered to make the investigation before the 28th February, that the Ameen sent the copies, and not the originals of title deeds to Mr. Lewin, and these copies were delivered to the Ameen by the Respondent, Mr. Lewin never compared these copies with the Originals and there is no proof that these copies agreed with the Originals, that if the land had ever been granted to the Respondent's father, it ought to

have

have been registered in the Collector's Cutcherry during the Collectorate of Mr. Ram which was never done.

The Respondent in his Answer states that his Witnesses have proved the Summud and also the possession of the land by the Respondents family, that the Summud was granted in 1793 and therefore, the land must have been excluded from the Barize in 1802 and according to Section XII Regulation XXV of 1802 the Appellant can have no right to the land. The order of Mr. Lewin establishes the Respondents right, that Respondent first represented his case to the Ameen Sashiah, he wrote to Venkata Chellamiah, who returned an answer, the Respondents then praying that the Ameen would not act fairly, presented a petition to the Collector, who preferred it to the Ameen, that Venkata Chellamiah's deposition being in contradiction of his letter is unworthy of credit, that the Registry of Summuds have been very incorrectly kept, and are not worthy of credit. The Civil Judge having taken into consideration the proceedings in this

case

case passes Judgment thereon.-

The Respondent claims the one
toolchall of land in virtue of a Summud
granted to his father in 1793 by the father
of the late Repully Zemindar, the original
Summud however is not produced but
merely the copy of a copy.- In 1835 the Res-
-pondent presented an Arzee to the Collector
Mr. Lewin regarding this land, he directed
the Ameen Sashiah, to examine into the
matter, the Ameen reported to Mr. Lewin
that the Respondent had a right to the
land, and forwarded with his report a
copy of the Summud. It is from this
copy that the copy filed in this Suit is
taken.- The Respondents 3rd. Witness says
that 8 or 9 years ago, the Respondents house
was robbed and the Respondent told Wit-
-ness, that the Summud and other title
deeds of his land were stolen from his house.-

The original Summud was
never Registered, this under Section XVIII Re-
-gulation XXXI of 1802 would have ren-
-dered the deed invalid. It is extra-
-ordinary that the Ameen should have
sent the copy and not the original
Summud itself particularly as it was

on

on this very voucher the Respondents
claim was founded.- The Ameen however
had no authority to make a copy, nor can
any copy which was made by him, be
admitted, as an authentic document.-
consequently a copy of that must also
be useless and invalid.- Mr. Lewin did
not investigate the complaint of Respon-
-dent under the provisions of Regulation
V of 1822, he therefore merely gave orders
on the matter which have not the force
of a decree.-

The Civil Judge is of
opinion that the copy of the Summud
under which the Respondent claims
the land is unauthenticated and
invalid, he therefore reverses the decree
of the Principal Sudr Ameen, and de-
-crees that the Respondent do not recover
the land and amount sued for, and
that he pay all costs both in the original
and Appeal Suits.

It is resolved that no
private adjustment of this decree shall
be allowed or deemed valid unless the
terms of such adjustment shall have
been previously and precipitately

Sir,

From the Collector of Guntoor

Requesting that the Go=vernment will be pleas=ed to grant permission to make over to the Officer Command=ing the Invalids at Guntoor the sum allot=ted for erect=ing Sepoys huts at that place; that Captain O'Neill declines Coun=tersigning the bills for materials furnished to him and that with the aid of the Tahseldars and other sources of enquiry He can to all probability find out the proper prices

With reference to my letter of the 30th Ultimo and correspondence therein referred to I have the honor to forward the accompanying Copy of one from the Officer Commanding the Invalids at Guntoor, stating that he declines Countersigning the bills for materials furnished to him as he cannot possibly know whether the charges made are just or unjust. As it appears to me that without this arrangement, the furnishing of the Materials required by Captain O'Neill for the construction of the Sepoys huts will entail upon me a serious responsibility on the expenditure of the Sepoys money which I am neither called upon, nor warranted to incur. I beg the Government will be=pleased to allow me to make over the Sum authorized to be advanced being Six Rupees per hut, to Captain O'Neill and direct=him to purchase the materials he requires. The materials for which the Commanding Officer has applied will probably cost much more

more than at the rate of 6 Rupees per hut, and as difficulty has already been experienced in recovering the amount disbursed in building the huts, I beg that I may be relieved from all concern and responsibility in the disbursement of the Sepoys money, which in every point of view seems properly to fall within the province of the Commanding Officer alone. By enquiries thro' the Native Officers, and in the Bazaar at Guntoor the commanding Officer can probably form a better judgment of the Cost of materials than I can, short of this the Tahasildars can be directed to afford all the assistance in their power, to the people deputed by Captain O. Neill to purchase materials, and this seems to be all that under the orders of Government I am required to do.

To
The Head Assistant Collector
of Guntoor

Sir,

With reference to your letter of the 24th Instant I have the honor to inform you that I must beg to decline affixing my signature to any Tahasildar's bills, for the price of

of the materials required for the erection of the remainder of the Sepoys huts. As I cannot possibly know, whether the charges made are just or unjust, and I am told that this charge made by the Mungelgherry Tahsildar of 12 Annas for the Hire of each Bandy load from Cauza is very exorbitant. I have no objection to sign my receipt for the materials as they are brought into Guntoor, and therefore enclose one for the Number of Bandy loads already received. The Maistry who is to Superintend the erection of the huts, states that this wood is not of the quality he requires for burning the Tiles.

Commanding Guntoor

Proceedings thereon

In the foregoing letter the Collector states that the Officer Commanding declines countersigning the Bills for materials furnished to him for the Sepoys huts on the plea that he cannot possibly know whether the charges made are just, or unjust, thereby entailing

entailing upon him (the Collector) a serious responsibility on the expenditure of the Sepoys Money which he is neither called upon nor warranted to incur. Mr Stokes suggests therefore that he be allowed to make over the sum authorized to be advanced being 6 Rupees per hut to Captain O'Neill who by enquiries through the Native Officers and in the Bazar at Guntoor and with the assistance of the Tahsildars can probably form a better judgment of the cost of the materials than he can. The Board consider that the request of Mr Stokes is reasonable and that the disbursement of the Sepoys money may properly be left to the Superintendence of the Commanding Officer and they resolve therefore to submit the correspondence on the subject for the orders of Government.

From the Collr of Nellore

Sir,

In reply to your letter of the 8th Instant, I have the honor to state that

that in Para 3 of my letter of 22d February I mentioned that the Yeomiah in question was included in the same Purwanah with that of Hafiz Syed Coodoozatoolla, the copy of which Purwanah bearing the signature of Mr Travers was forwarded together with a translation to the Board with Mr Bishop's letter of the 12th September 1845. Under these circumstances it is now only in my power in compliance with your request to forward the copy of the Purwanah of the Yeomiah in question bearing the signature of Mr Bishop together with a translation.

34-35

To D. White Esqre
Acting Secretary to the
Board of Revenue
Fort St George

Sir,

36

From the Agent to the Govr of Fort St George at Kurnool — I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 23d ultimo on my Report of the Settlement of the Extra Sources of Revenue for fusly 1255

Supplying certain particulars called for in the Board's Proceedings on the Report of Extra Sources of Revenue for fusly 1255 in Kurnool.

2 In answer to Paral of the Extract I have the honor to State that in communication with the Collector of Bellary an arrangement was made with the Security of Buswagond to discharge in four instalments all the balance against the Renter except 10,000 Rupees. The obligation was duly observed and the balance outstanding against Buswagond up to the present date is 9,999 12 6. A translation of the Moochilka taken at the commencement of the fusly from the Security is forwarded for the information of the Board. The balance against the Renter of the Paniem Talook is still 1,893 11 — It appeared that the Security had been unfortunate in some private transactions and I was therefore disposed to give him a little more time, but on the receipt of the Extract under reply I intimated to him the necessity of discharging the balance at once, except 1000 Rs and

Fort St George 13th May 1847

and have issued orders to sell his property on failure to do so—

3 With regard to the 2d Para of the Board's Proceedings, it is not easy in the absence of any certain knowledge as to the actual number of Cattle to determine with precision the difference of the Consumption before and subsequent to the withdrawal of the Regiment from Kurnool, but from a calculation I have made grounded on the Ast receipts (after deducting expenses of Collection) during the first seven months of the Fusly while the Regiment was at Kurnool and the five last months after its removal, it appears that the average monthly deficiency below the demand was 378 Rs for the former period and 791 Rs for the latter, this would give a monthly decrease of 413 Rs or 2065 Rs for the five months and as I often passed by the principal drinking place, I should judge from the diminished number of the assemblage that this is a tolerably correct approximation to the actual loss the Renter himself puts it at more but I think without reason — The removal of

Fort St George 13th May 1847

of the Regiment was as far as I am aware an unexpected event occasioned, I imagine by a call for troops from Bengal for it was ordered up to Sangor, and on the conclusion of peace at Lahore was recalled on the Madras Presidency and its place at Kurnool has lately been supplied by another Regiment, the 3th N. I.

No 243

Read also letter from the Commissioner in Kurnool dated 3rd and entered in Consultation 19th November 1846

36-37

Proceedings thereon / Relative to the Settlement of the Extra Sources of Revenue in the District of Kurnool for fasly 1255—

The Gross demand on account of all items composing the Extra Sources of Revenue in Kurnool during the period embraced

Fort St George 13th May 1847

embraced in the above Report amounted to Rupees 1,56,133-3-11, and exceeded the demand on the same account for the previous year by Rupees 5,504--8 being the result of a total increase of R. 10,926-7-10 and a total decrease of R. 5,422-7-2.

2 The bulk of the excess in question is observed to have occurred under the head of Abkarry the Rents from which source were in advance of the tenders of the preceding Fusly by R. 10,200. The Report also shows that there was a slightly enhanced Revenue during Fusly 1255 from Small Farms and Licenses and Miscellaneous but in the remaining two items composing the Extra Sources of this District viz Sayer and Stamps that the Collections did not equal the amount realized during Fusly 1254 as indicated in the marginal entry. The causes which operated to produce these fluctuations in the items specified are so fully explained by the Commissioner in his report that the Board do not deem any lengthened remarks necessary in this place except only as regards the decrease and consequent remissions recommended under the head of Abkarry

Fusly 1254	Fusly 1255	Increase Decrease
Sayer 13306 4 6	12975 0 9	" " 330 4 7
Stamps 12215 " 9	10127 " "	" " 2088 "

Fort St George 13th May 1847

3 Of the above demand the Collections made within the Fusly were R. 1,27,934-11-11 thus leaving at its close a outstanding balance of R. 28,198-8- almost the whole of which was due by the Abkarry Renters. The Gross Collections including Current, Extra Collections and arrears made up to the same date amounted to R. 4,9471 -"-9 from which if the charges viz 2,226 -10-4 are deducted the net Revenue was R. 1,38,244-6-5 or R. 11425-"-5 below the net Revenue of Fusly 1254.-

4 At the termination of the Fusly under review the outstanding Abkarry arrears of Current Revenue amounted to Rupees 27,000 Subsequently reduced at the date of the Report to R. 17990-"-" being the aggregate balance due by the Renter of the Pannium Talook and the more extensive Renter Busvangoud who held the Abkarry Farms in four Talooks

5 With respect to the former defaulter it appears that the amount of the rent for the Pannium Talook in Fusly 1255 was R. 10500 of which only R. 7225 were collected within the prescribed period but that the balance was reduced by subsequent collections to Rupees 1996

Note up to date of report

The

6 The Commissioner remarks that the Adkarry Contractors were exposed to severe loss owing to the unusual and long protracted drought which existed in the district during Fusly 1255 which not only checked the production of the article but by causing a rise in the prices generally debarred the great mass of the people from indulging in the use of liquor to the usual extent and he therefore submits his opinion that the indulgence of Government should be extended to the Pannieum Renter by remitting Rs 1,000 of the balance due by him. In a subsequent communication submitting some additional information on this subject required by the Board Mr. Scott reports that he had adopted measure to collect from the security of the Renter (whom he represents as being personally a man of no substance) the balance of rent due in excess of the amount of Rs 1,000 which he repeats his recommendation should be remitted —

From Commissioner March 26 to in Cons 13th May 1847

7 On referring to the accounts of past years the Board find that the rent of the Pannieum Talook during the past year exceeded with one exception

+ 1253 rent 10,700
55-10 500 Excess 2000

that of any year since the assumption of the Country and that when the excess outstanding beyond the sum of Rupees 1,000 proposed for remission shall have been collected as reported to be now in progress of realization in the Communication just referred to the actual receipts from the Talook will amount during the Fusly under report to Rupees 9,500 or Rupees 122-8-8 only below the average collections derived from the same Talook during the 3 preceding years as shown in the annexed Statement

Excess now being realized 996

Average Collection Fusslies 1251-52-53 9622-8-8
Collection 1255 9500-0-0
Decrease 122-8-8

8 As it would thus appear that a fair amount of revenue has been derived from the Adkarry of this Talook during the past year especially under the depressing circumstances of the season the Board will not withhold their support of the request of the Commissioner under all the circumstances represented for the remission of the uncollected arrear of Rs 1,000 still due by the Renter. They would however point out to Mr. Scott that it is not desirable to encourage the speculation of parties unpossessed of a certain extent of property in the Adkarry Contract of this District as the Such persons may be supported by a Surety of

Fort St George 13th May 1847

of adequate Competency as in the rent of the Renters Security subsequently becoming reduced in Circumstances as would to some extent seem to have occurred in the present instance & the interests of Government may be prejudiced by the insolvency of both the Renter and his Security—

9 As regards the case of the more extensive defaulter Buswangond in whose favour indulgence is also advocated by the Commissioner to the extent of Remission of Rupees 10000 it will be seen that this Individual held the Rents in the Talooks noted aside the joint amount of Rent being Rupees 74,230 of which at the close of the Fusly there was a balance due of Rupees 22,313 the whole of which however with the exception of Rupees 9999-12-6 is stated to have been Subsequently made good by after collections and payment realized from the Renters Security an opulent Merasidar in the Bellary District and represented to be the Father of Buswangond himself—

Dhone — 23000
Ghoordoor 14,000
Kundicotoor 13200
Cusbah Kurnool 24000
74230

10 It would appear desirable to state that in Consequence of this Extensive Renter having allowed the payment of his Rents to fall into arrear during the year his farm was

Fort St George 13th May 1847

was attached and under the orders of the Board the Commissioner was instructed to retain the farm of Cusbah Kurnool in the personal holding of the defaulter under Annamie but to continue the Sub-Rents of the remaining three Talooks to his undertenants due precaution being taken to secure on behalf of Government the Rents payable by them—

11 The remarks and Marginal statements in para 3 of the report show that the Collections under Annamie fell considerably & below the amount of Rent and that the larger proportion of arrears outstanding in the entire Farm at the close of the year was due on account of Cusbah Kurnool Independently of the prevailing causes which depressed the Revenue derived from Arbitrary generally during the year already alluded to the Commissioner brings to notice the withdrawal of a native Corps from Kurnool with its numerous camp followers owing to which

Commissioners letter 26th March

Circumstances he is of opinion that the monthly receipts were reduced to the extent of 413 Rs giving a total decrease for the 5 months of the Fusly during which this body of men were absent of Rupees 2065-

On Referring back to the Rents of

Fort St George 13th May 1847

of past years the accounts show that the Demand on the Talooks held by Buswaungond during Fusly 1253 was the highest on record and from the following abstract it will be seen that the collections made upto the 26th of March last have exceeded the average of the 3 years of Comparison

13 The Board were led to hope that the whole amount which might have been due at the termination of the period of rent would have been recovered from the Renter and his Security who were represented to be fully competent to make good any balance outstanding against them, but as they think there

Fort St George 13th May 1847

there is good grounds for the remark of the Commissioner that the Rents were unduly high especially in Kurnool under the circumstances of the unexpected removal of a considerable source of profit in the withdrawal of the Regiment from that Station, they are of opinion on a consideration of all the circumstances of the case that the indulgence of Government may be extended to Buswaungond the more so as every assertion appears to have been made by himself & his Surety to meet those liabilities by which the Revenue has been maintained with reference to the average of the three years above quoted

They therefore beg to recommend that the Commissioner may be authorized to remit the remaining balance due by Buswaungond amounting as per letter dated the 26th March last to R 9999-12-2

14 Adverting to the remarks recorded by the Commissioner in Para 6 of his Report on the Subject of the Moturpha tax which the Butchers in Kurnool Cuddah are liable to pay and which he considers should be relinquished as being in effect a direct tax on an article of food, the Board would observe that pending the issue of the general Moturpha question now under their

Consideration

Fort St George 13th May 1847

consideration they desire to withhold any expression of their opinion as to the future disposal of thes item

15 The Commissioner has furnished in the concluding paras of his report the result of his enquiries into the State of the old balances appertaining to the Extra Sources outstanding in his district from Fusly 1250 to 1254 both inclusive The annexed abstract exhibits the total amounts due in each year and the sums proposed to be remitted

17- The Board have scrutinized the particulars of that portion of the amount pronounced as irrecoverable and given their attention to the explanation rendered by the Commissioner respecting such items as he considered to call for special notice and under the circumstances stated they are of opinion that the amount recommended by him for remission should be struck out of the Accounts.- The length of time during which the greatest portion of these balances has been allowed to exist would appear to render any clear exposition of the justness of the demand in some cases now impracticable, and altho there may be some items which in other districts would not call for such ready remission yet considering the peculiar circumstances of Kurnool the Board deem it desirable that these arrears should not be retained longer on the accounts and they therefore beg to recommend that Sanction may be granted for their final remission.-

18. The total amount including Current balance of Albany Revenue which the Board would now request the authority of Government to enable the Commissioner to write off from the accounts of the District amounts to Rupees (17,725-14-0) Seventeen thousand Seven hundred and twenty five Annas fourteen.-

From the Acting Collr. of North Arcot.

Sir,

I have the honor to report that two of the Officiating Urchuckars of the Tirputty Daveston have been sentenced by the Sessions Court at Chittoor to seven years imprisonment for robbing the Jewel Chest of the Pagoda and to request the Board's orders regarding the disposal of the endowments of public revenue as particularized in the annexed Statement which have lapsed under the circumstances of the Offices having thus become vacant.-

Reports that two of the Officiating Urchuckars of the Tirputty Daveston have been sentenced by the Sessions Court at Chittoor to 7 years imprisonment for robbing the Jewel Chest of the Pagoda & requests the Board's orders regarding the disposal of the endowments of Public Revenue under the circumstances set forth.

No. 2.

* Venkatapatty Deetchatur and Teroomla Chary.

2. These endowments exclusive of the emoluments received from the Mahunt of the Pagoda, it will be seen, are of the value of Rupees 1645-15-9- per Annum and were held by two Women named Tirputty Ammah and Lutchmummah and as they were unable to perform the Services which consist in offering prayers in the temple, they employed the above persons as their Gomastahs or Deputies to do so, one of whom Venkatapatty Deetchatur is the adopted son of one of the above incumbents.-

Lutchmummah-

The

Fort St. George 13th May 1847.

3. The Mahunt of the Pagoda has claimed the endowment to be made over to him and placed entirely at his disposal by reason of the entire control of the Pagoda having been transferred to him. The female incumbents also claim the right to retain possession of them appointing other Gomastahs to perform the Services for them as before. It is also for the Board's consideration whether as the entire revenues of the Pagoda have been made over to the Mahunt it is necessary to continue the endowment in perpetuity on the present footing. Pending the receipt of the Board's orders on the subject I have ordered the revenues to be collected and retained in deposit.-

	3- Venkatakistnah-

The Prisoners are charged with having at 12 O'Clock at Noon of the 9th of December 1845, corresponding with 26th Karteekay year Visvasoo

Fort St. George 13th May 1847.

Viswasoo, made a hole in the bottom of a Chest in a room in the Pagoda of Tripaty attached to the Zillah of Chittoor, and stolen therefrom old Ornaments set with precious stones &ca. valued at about 3,800 Rupees.-

Remarks.-

This has been a long and laborious investigation, and after carefully considering the evidence for the prosecution and defence, I have come to the conclusion that the 1st and 2nd Prisoners, whose duty it was to attend upon the Idol and perform the Poojah, with the co-operation and assistance of the 3d Prisoner, took from the box placed near the Idol a quantity of Sujjoo (Gold dust or pieces of broken Jewels and precious stones) which was kept therein - The 1st and 2d Witnesses deposed that the 1st and 2d Prisoners are the only persons who had access to the Idol at that time and that they saw them lift up the box and take out the Gold dust &ca. and it is very evident that a hole has been made in the box and it has been covered by an iron plate, which the 11th witness states that he did not see when he repaired the box 3 years before and through this hole the Gold dust, broken pieces of the Jewels and loose precious Stones might

Fort St. George 13th May 1847.

might be extracted - It is proved by 3rd 4th and 5th Witnesses that the 2d Prisoner mortgaged to the 3d witness 2 large and 3 small pearls two emeralds, and four rubies which the 8th 9th and 10th witnesses declared to be the property of the Pagoda - The 6th and 7th witnesses deposed to a statement made by the 2d Prisoner before the Mohunt of the Pagoda, the Prosecutor, that he and the 2d Prisoner, with the aid of the 3d Prisoner, took away the Gold dust &ca. and the 12th 13th and 14th Witnesses proved that there was a deficiency in the Gold dust &co. contained in the box when it was examined before the Mohunt - In opposition to this evidence the Prisoners called witnesses to prove that the 1st Prisoner was sick and did not attend at the Pagoda on the day stated in the charge, and those witnesses did so depose, but as their evidence is confuted by that of the 1st and 2d witnesses for the prosecution who stated that they saw him there, and there is generally a great confusion and indifferent knowledge of dates in the minds of the Natives of India, this testimony must be received with great caution, and it does not seem sufficient to nullify the evidence for the prosecution, or to justify me in setting aside the Futwah of the Law Officer - In the same way I cannot admit the statements

statements of the witnesses for the Prisoners that the 1st & 2nd witnesses for the prosecution were absent in the Cuddapah District at that time, they declare on oath that they were present and saw the Prisoners steal the Gold dust &c. nor of those who deposed that the other witnesses for the prosecution were not present at the time the property belonging to the Pagoda was delivered over to the Mahunt as they have stated, and as for the evidence to prove that there was a custom that the Poojaries should be searched, and that no person, except the Poojaries, could go beyond a certain spot meaning thereby that the 1st and 2d witnesses could not have been in the position they describe nor could they see the Prisoners turn the box and extract the Gold dust &c. since the Pagoda has been out of the Charge of the Public Servants of Government, there has been much laxity and negligence in observing the former rules; and this the Prisoners appear to have taken advantage, so that I can lay no great stress on this evidence. The Prisoners were most anxious that the two Seeyngars of the Pagoda should be called to prove these last mentioned points, but as it was represented to me that they were considered as Hermits and Holymen, who ought not be disturbed by worldly cares, and that it would be a disgrace

to

to cause them to come to the Court I dispensed with their attendance - which was the less necessary as there were other witnesses who deposed to the same subject. The allegation that the Mahunt had extorted the deposition from the 2nd Prisoner and that the 1st and 2nd witnesses had been bribed to give their evidence do not appear to be deserving of credit, and the difference of the weight of the Gold dust when wet and dry would be very trifling as the witnesses stated themselves, and by no means such as to cause the great loss set forth in the charge. For these reasons I concurred with the Futwah of the Law Officer who declared the Prisoners to be guilty of Koomar Surkut or Robbery and to be liable to lose their right hands and I sentenced them agreeably to Section XXI Regulation VII of 1802, to Seven years imprisonment with hard labour in irons.

The humble address of C. Singara Charlu Vakeel on the part of Savadasgee of Tiruvottiyur &c.

Sheweth.

That certain Villages were enjoyed as Enams for the service of the Pagodas of Tiruvottiyur &c. for a length of time by Yakunga Ancharee proprietor Charlu and others but they were now attached by the Circar consequently the petitioner prays that after perusing the following grounds the said enam Villages should be released from attachment.-

2- The Enam which were given to the Archakas. Iyengar and others by the late Rajahs for service had hitherto enjoyed unmolested. The section 1 and 3 Regulation 7 of 1817 which is now in force strictly provides that the Enam given by any authorities on account of the Pagoda or Mosque cannot be made available for any other purpose. Independant of this the late Collector had issued Istegarnamah on the subject. Under date the 6th November 1822, which explains that several orders were given for that purpose. Moreover in Fusly 1230. an account was prepared by the Circar in which it is clearly stated the Enam.

Enam and income of the Pagoda servants and the duties performed by them. Bogapatta and other ac-counts will bear testimony to the fact. Moreover the late Collector had presented a Motion to the Provincial Court thro' the Government Vakeel under date the 26th. November 1838 in which he admits that the Villagers were given to archacks &c. for service of Pagoda.-

3. On the 10th. July 1843 the late Acting Collector Mr. Babington by order of the Government and Board of Revenue gave a Summud to the Petitioner appointing him as a Durmacurta to the said Pagodas in which he is directed to enjoy the enam Villages by the Sheraspee-dars till they perform their services and in failure to act up to the usual practice of the Circar. It is therefore clear that the Circar have nothing to do with the Enam above alluded to but the Petitioner has full authority to grant or resume as the case may be, which is also mentioned in the 9th. Para of the said Summud.

4. Some of the Golla Chervacaroo and others not having performed their duties the Petitioner addressed 2 Utzees to the late Collector under dates the 13th. November 1843 and 29th. March 1844 and whose Takeed No. 91 dated 4th. April 1844 to the Tashildar of Teroopaty directed that in the event of their failure to perform their

their services to obey the Orders of the Petitioner which has been intimated to them 3 Takeeds were issued to the Petitioner dated the 24th. November 1843/4th. April and 17th. June 1844 extending the power of the said Summud and according to the power vested in him by the said Tankeeds and Summuds the Villages &c. left to the said Chervacaroo are still under attachment of the Petitioner. The Statement submitted by you to the Board of Revenue on the 25th. November 1845 has been approved of by them and they also sent a Receipt on the 22nd. December last to your honor stating that the attachment made by the Petitioner of the Villages of Golla Chervacar is regular, and that they will not interfere in the matter.-

5. The Tashildar irregularly attaches the above Villages with reference to the Takeed issued to him under the orders of Government under date the 26th. April 1845 which is quite inconsistent with the standing Regulations and orders as well as with the summud above alluded to and the order of the Board of Revenue. The said order of Government is only applicable to those stated in Regulation 4 of 1831 and Act 36 of 1836, but not to the service Enam directed in Regulation 7 of 1817.

One.

6. One of the Servants of the Pagoda by name Sumputcoomaree Yakaghy having resigned his service Sutagopa ramanoja Yakanghy was appointed in his stead, and whose one fourth of the Inera see was attached by the Tashildar, on which on the 30th. October of last year an Arzee was presented to your Honor, but on orders were given on the subject.

7. The 1st. Archareya poroshoo by names Teroomala Coomara Gopawla Charloo and Vadala Ramanja Charloo died and their service maniem lands at Teroopaty 18 were attached by the Tashildar. Their heirs are conducting the duties: He also attached those belonging to archakium Venceta paty Deet-chatoolor Teroopatamah and Lutchmamah on account of a charge of pilfering in the Pagoda brought against them but they conduct their duties thro' their Gomastahs. If any thing was pilfered by them in the Pagoda the produce of their Enam Villages to be made available for the same and the Circar has nothing to do with it.-

8. One of the Servants of the Pagoda Jeeneghery Colla Gunganah died and his maniem was unjustly attached Consequently the services to be performed by them would not at all be performed.-

He-

9. He therefore prays that your Honor will be pleased to peruse the abovementioned summud and the said order of the Board of Revenue and that dated 12th. June 1843 as well as the Statement marked B submitted by the Collector to your Board on the 13th. June 1845 in which it is clearly stated that the Villages in question were given for service of that Pagoda &c. &c. to remove the attachment of the above named maniem Villages, and to place under the order of the Petitioner to satisfy the amount which has been pilfered and to issue Takeed to the whole of the Villagers intimating them that if they fail to perform their services their maniems will be attached by the Petitioner and to the Tasildar not to interfere in such a matter.

Proceedings thereon,

By the foregoing letter it appears that the above Endowments were held by two Women who, as they were unable to perform the services which consist in offering prayers in the temple, employed the persons now convicted as their Gomastahs or Deputies. The Board also observe by the petition which forms Enclosure 3 of the Collector's letter that the Inahumt has been

been in the habit of interfering with the servants of the Pagoda and that the Revenue authorities have on several occasions attached the effects of deceased Servants. The Board request Mr. Lovell will state the circumstances under which the Enams in question came into the possession of women and the nature of the original grant whether personal or service. They also wish to be informed under that authority the Revenue Officers have interfered in the affairs of the Pagoda, and of the extent to which such interference has been carried.

From the Actg. Collector of North Arcot

Sir,

I have the honor to acknowledge

22d March 1847. the receipt of the Proceedings of the Board of Revenue accompanied with an Extract from the Minutes

18th March 1847. of Consultation of Government regarding the repair of a Choultry built to the memory of the late Ex King of Kandy on the banks of the Palaur river and requiring me to state my opinion regarding its value.

2. The Choultry is a small building for the accommodation of brahmins only. Distant about two miles from Vellore on the road to Chittoor.

The Tahsildar values it in its present state at about 250 Rupees and states that above 300 Rupees would be required to put it in repair. Under these circumstances and as the Choultry is represented as being "in a very ruinous condition" partly owing to the indifferent materials of which it was originally constructed "it does not appear advisable that it should be repaired at the expense of Government.

Sir,

In reply to your letter of the 1st Instant returning the Statement of the lapsed Enam of Valacoorchy and calling upon me to submit my opinion on the subject, I have the honor to state for the information of the Board that Mr Travers the former Collector, having already given his opinion injurious to the Authenticity of the Maratta Document issued by Moorajee Hindoo Row, I have nothing further to say respecting it - As the 3 Persian documents are not entered in the Enam Register prepared by Mr Wallace they appear to me on that account to be suspecious - the family of the deceased Annuntacharry being poor and having no other means for their subsistence than this Enam I beg to recommend that one half of the share enjoyed by the deceased Annuntacharry may be continued to his Grandson Seenevasa-charry

2d In reply to the 2d Para of your letter I beg to state that the Enam in question was not continued to the deceased Anuntacharry under the authority of Government, but the deceased succeeded to it as being paternal property immediately after the death of his father according to the custom prevalent in this District previous to the receipt of the Board's Circular order of the 22d May 1845.

3d In reply to the 3d para of your letter I have to inform you that there are no further documents in the possession of the present claimants those formerly submitted to the Board and received back with their letter of the 1st Instant are herein enclosed.

in Council, the accompany-ing correspondence with the Revenue authorities of Trichino-poly on the subject of a lapsed Enam in that District.

2. It will be observed that Anundacharry, the party whose death is now reported, was in the enjoyment of 1 11/16 Cheys of land in the Veeroopacherum Village, and 5 cheys in the Village of Valacoor; chy of the aggregate value of Rupees 164-4-0 and that the family left by the deceased, who claim succession to his Enam, consists of his daughter in law and grand son, and the wife of the latter.-

3. No documents appear to be forthcoming in support of the first grant, and those produced in support of the second are stated to be of a suspicious nature, the Board cannot therefore recommend the continuance of the Enam in question, but as it is reported that the family of the deceased are poor and have no other means of subsistence, they beg leave to support Mr. Elliots recommendation, that one half of the share enjoyed by the deceased may be continued to his grandson, Seenevassacharry, during his life time.-

Sir Fort St George.

From Collector of Malabar - - - - } 1- I have the honor to request

Reporting on the Land Revenue Settlement of Malabar for Fasly 1255- you will lay before the Board the accompany-ing Statements connected with the Land Revenue Settlement of this District for Fasly 1255. A. D. 1845/46.

Season and its effect upon Cultivation & Produce- 2. The season was unpropitious and the prevalence of Cholera, to an alarming extent, almost throughout the year, and in every part of the Province, enhanced the distress of the Ryots. The South west Monsoon did not set in until the last day of May 1845. Although the supply of Rain in June and July was pretty fair, it commenced to fail after the middle of August, and this failure continued till the end of the year with but partial relief. The con-sequence was that both the first and Second Crops, and especially the latter, suffered serious injury. In several parts of the District, the Taloobs of Medin-ganad, Hosdroog, Chowghaut and Ca-

Relatead in particular, whole fields
were parched up from want of water. The
deficiency in the total produce, which may
be estimated at more than 35 per Cent, coupled
with pressing demands for Rice, for exportat-
ion to Countries which were threaten-
ed with famine, raised the price of Grain,
the increase varying from 25 to 50 per Cent
above the ordinary rates.

*During the last quarter of the Fasly year the rise in Price was about 100 per Cent above the usual rate.

3. The paucity of Rain after the
Month of August 1844, and until the South
West Monsoon of 1845 set in affected in a
material degree the produce of our Gardens
in the Fasly under review. The deficie-
ncy in Cocoanuts &c.a may, on an average, be
stated at 30 to 35 per Cent below the pro-
duce of a good Season. The market Price
rose gradually in a Corresponding ratio.

Effect of Prices on the resources of the District.

4. The high price which the
Land holders obtained for
Grain and Garden Products, added to a
favorable demand for the other staples
of Malabar usually exported by Sea,
(the result whereof Viz.to an increase of
Rupees 189,373, is shewn in the enclosed
Statement) removed the difficulty
which

which would otherwise have been
experienced in the Collection of the Cur-
rent Revenue, and it will be seen, that
out of a Demand amounting to Ru-
pees 16,35,187-12—a- Rupees 16,70,637-2-8,
was realized within the year. The bene-
fit of these high prices was of Course con-
fined to those who had a surplus pro-
duce. Distress was felt by the many
whose produce in average Seasons yields
little more than a sufficiency for
the support of themselves and their
dependents. To the large body of poor
people who have to trust to their own
exertions for a livelihood, the
excessive prices of the chief necessa-
ries of life was of Course a grievous
affliction. It is gratifying for me
to be able to report that the
Country has happily been relieved
from its strait by the first crop
of the present year, already in the
market, having been a most
abundant one throughout the
District.

7. It will be observed that the items of Remissions granted during the year under Con-sideration are all of the same tenor as those which have been included in the ac-counts for antecedent years, and as such would hardly seem to call for a repetition of the explanations given in respect to each of them, in my report for last year. The same applicable to each item of course vary every year, and the largest amount entered in the preceding abstract, and which appears to require some notice, is Rupees 2897—15-" entered under the Head of "Failure of Crops, in some cases partial, in others entire". In my Report for $\frac{1754}{1844/45}$ I had incidentally pre-pared the Board for the necessity of a liberal allowance on this score, and ad-verting to what has been said in Para-graphs 3 & 4 of this address of the unfavorable Season and its effect upon Cultivation and Produce, it only remains for me to assure the Board that not a single concession, either on this or other account, was made, unless a careful enquiry into the case of each in-dividual had established its necessity.-

See Para. 5.

By

8. By a reference to Statement No. 21 it will be seen that the effects of the unpropitious Season were felt most keenly in the Talook of Nedingaud, and next to it, of Hoolnaad, Chowy-kaub and Belatnaad; the Remissions allowed on account of failure of Crops being in the relative proportions of Rupees 1777—850—256—& 250.

9. For the decrease of Rupees 1061 which appears against the Talook of Wynaad, I beg to refer the Board to Paragraph of Mr. Sub Collector Chalfield's Report.

Dry Land	10
Decrease Rs. 2029-8-8	

Of the three items which constitute the Dry land Cultivation Viz.ts Maddom & Poonam & Ellow, the two first yielded an increase of Rupees 1,870 & 267, respectively total Rupees 2137, the whole of which was however absorbed by a decrease of Rupees 4,167, in Ellow, occasioned solely by the unfavorable Season already alluded to. The subjoined abstract exhibits the extent of land taken up for this Cultivation, it does not however embrace the tracts which after being tilled and sown with the Oil seed, were abandoned owing to the plants dying from want of rain towards the end of August. The extent of land thus abandoned may be computed at upwards of 2000 Cawnies.

the remissions which were deemed unavoid-

following grounds.

The Talook to which the greatest

portion

Rs 555-9-6 portion of the above amount was allowed was in
Koorumaad. The Gardens situated on its eastern
Side for the chief part a wild and mountainous
tract of Country were found to have suffered con-
-siderable deterioration, and here and there a large
number of Trees had been destroyed by lightning
and other natural causes. Under these circumstances
it was deemed unavoidable to grant the Ryots,
mostly people in distressed condition, the indulgence
they were proved to be entitled to. In doing this
however due attention was paid to the instructions
contained in the 7th Para of the Boards' Proceedings
dated the 26th January last, by bringing to account
all young and bearing Trees as well as several
new Gardens which had become
fruitful, the result was that
the whole of the Remissions were
made up within one Rupee.

Fort St George 13th May 1847.

Sum of Rupees 16,20,634-2-8 was collected within the Fasly together with a further sum of Rupees 18,156-12-11 on account of the Fasties specified in the margin the total amount realized on account of Land Revenue was accordingly Rupees 16,38,793-15-7- exceeding the demand of the year by Rupees 3,606-3-7- This result was attained without the necessity of selling any real property or placing a single Ryot in confinement- The refractory conduct of two Ryots in Koodroad and Wallowanad induced me to order the sale of their as personal property but this was for a limited extent the former being for 8 Rupees and the latter for 7 Rupees only-

16. The Balance outstanding in this District at the commencement of the year under review was Rupees 20,821-12-11 out of which Rs 18,156-12-11 was as noticed in Para 13 realized within the year and Rs 886-7-10 written off under the sanction of Government dated the 18th February 1846. These two items giving a total of Rs 19,043-4-9 there still remains a Balance of Rupees 1,778-7-3 which may be elapsed as follows.

the latter item viz^t. Rs 475-5 I request the Board will be pleased to recommend to be written off to Profit and Loss. It appertains to the Faslies noted in the Margin, and the Ryots against whom the amount stands are in very indifferent circumstances, rendered still more so by two successive unfavorable Seasons

17. With reference to the small sum of Rupees 200-1-3 entered as Doubtful, and to the observations recorded by the Board and Government on this subject, I beg to state that

Fort St George 13th May 1847

that the non-completion of the examination of the Ryotwar Accounts has obliged me to leave this sum, for the present under that head the necessary enquiry will be made in the course of the ensuing Gummabundy when such items as may appear recoverable will be recovered forthwith, and such as may be deemed irrecoverable set aside to be entered under that Head in my next year's Statement more than half of the amount belongs to Fasly 1254.

Waste Lands 18

No 26

It will be satisfactory to the Board to observe that the spirit for agricultural improvements continues unabated. By the enclosed Statement it will be seen that during the late Fasly, 90 Cowles were taken out for bringing into Rice Cultivation 329¼ Cawnies of land which has been waste from time immemorial and never assessed to the Revenue: these lands will in course of time yield to the Government upwards of 800 Rs annually. The period of total exemption from assessment varies according to the peculiar circumstances of each land from 2. to 9½ years including the period embraced in the years during which the assessment is to be paid at graduated rates. After what has been stated in my letter to the

the Board dated the 22nd July, last it may be hardly necessary to add that every application is carefully looked into, before the period of exemption is determined upon, in order that it may be rendered commensurate with the trouble and expense attending the clearing &c. of the tracts intended to be converted into Rice fields.

19 Referring to Para 10 of the Board's Proceedings dated the 22nd August 1844 I beg to

No. 27. transmit a Statement shewing the total extent of Land for which Cowles were issued since Fasly $\frac{1243}{1833/34}$ the number of years for which they were originally granted the number yet to run, and the amount now received for the same.

20 The extent of an assessed waste Land intended to be converted into Cocoanut Gardens, for which 112 Cowles were granted last year was 561 † Cawnies to be divided into 212 Separate Gardens which on an average will hold about 45,000 Cocoanut trees

† Note. this, with the 329 Cawnies taken up for Rice cultivation gives a total of 890 Cawnies of Waste Land reclaimed in one year.

In the 22nd Para of their proceedings dated the 25th May 1845 the Board expressed a wish of being annually furnished with an account shewing all Gardens whether new or old planted or replanted under Cowles or otherwise. I beg to submit a

No. 28 Statement which however comprises merely the particulars of the Cowles issued last year. It would be as difficult as laborious to enter in this Statement the numerous old Gardens in which young Plants have been first down in replacement of

JGB

of the Trees which had become unproductive or otherwise destroyed. I shall therefore only state in abstract that the number of trees thus planted stands as follows.-

Cocoanut Trees —— 87,412.
Betelnut - Do —— 78,298.
Jack — Do —— 9,495.

21 - I regret much that I am unable to submit the report on the Escheated Lands called for by the Board. The severe and protracted illness of my Head Sheristedar has prevented the completion of the Statement necessarily involving the examination of numerous old accounts. I shall as soon as possible forward a supplementary report on this subject.

It will be perceived that several Lands have not been brought to account at the expiration of the Cowles - this arises from the Lands in question having been abandoned, after trial owing to various causes such as unproductiveness of the soil, damage done by the influx of Salt water, Deaths &c. &c. Where practicable, fresh occupants have been procured for the cultivation of such abandoned Lands though instances of these are few.—

Collector of Malabar

Sir.

The Jamabundy accounts for Fusly 1255 connected with the Talooks forming the Sub Collector's Division having been already submitted to you with my Malayalum Yadast, I shall now merely make a few remarks on the Increase and decrease of the general revenue.

2 The following Abstract Statement shows a net increase in the Land revenue for the Fusly under report of Rupees 320. 10. 0 — As P

Gross increase on Paddy lands in the Talooks below the Ghauts Rs. 473-1-2 & above in Wynaad of Rs. 2928-3-5.

3. Extended Cultivation, reclaimed remission discovery of concealed Cultivation yea " yea " sufficiently account for this small increase of Rupees 473-1-2 below the Ghauts, without demanding a Statement of the several trivial items; whilst the increase in Wynaad of Rupees 2928-3-5 is attributable to renewed Cultivation of waste with the Assessment on escheated lands, and the Landlords share payable to Government on their account.-

Gross decrease on Paddy Lands in the Talooks below the Ghats Rupees 206-4-2 & above in Wynaad Rs. 3989-11-11.

4. Below the Ghauts there is a slight decrease of Rupees 206-4-2 the result of temporary remissions, the death of Cultivators, extreme poverty, and the encroachments of rivers and Sand-banks, Above the Ghauts I regret to say there is a decrease of Rupees 3989-11-11 in consequence of the desertion of Pannaiars, a great loss of cattle and the impoverished condition of many of the ryots. The desertion of the slaves is a constant subject of complaint amongst their proprietors, who have not yet learnt that the best and only manner of retaining their services is by kind and conciliatory treatment, to attach them to their masters as much as they are naturally attached to

to the Soil.-

Gross increase on Gardens Rs. 487-1-1 and decrease Rs. 524-12-8.

Increase		11[illegible]-0-8	895-12-10 200-5-9

5. On Gardens there is an increase of Rupees 487-1-1 in consequence of a new assessment whilst the decrease of Rupees 524-12-8 results from encroachments of the Sea, unproductiveness temporary remissions, & destruction of trees from lightning and storms.-

6. The annexed abstract shews an increase of Rupees 1213-2-1 in upland cultivation and had the season been more propitious this Amount would have been considerably greater, but a drought at one period and excessive rains at another injured more or less all, but particularly Ellu, Crops.-

7. The Monsoon commenced auspiciously in May and, but for its suspension in August, would have been considered very favorable below the Ghauts, but in Wynaad the incessant rains at the beginning and their total failure at the end of the season caused considerable loss and distress; and I have again to deplore, particularly in Wynaad, the great destruction of Cattle from a disease which has been prevalent for several years.-

8. Cholera made its appearance within the District in January, but without apparently committing such ravages as the fears of the people led them to apprehend.-

She

Fort St. George 13th May 1847.

9. The entire collection during the Fusly amounts to Rupees 4,09,531-12-7 and the outstanding balance of Rupees 21-6-7 will be recovered without delay.-

10. In addition to the above the sum of Rupees 84,843-6-8 was collected during the Fusly on account of Exctra sources of revenue, Viz.t. Rupees 4,697-15-7 on account of Mohturpha, Rupees 649-12-9 of Kathy Chutty, or Knife tax, Rupees 15,299-8-0 of Ferry Farms, Rupees 24515-1-4 of Abkarry, Rupees 1655-8-0 of Hill Farm Rupees 1,908 of Gold Mine Farm, and Rupees 17-9-0 the produce of a Farary or escheated Cardamom Hill. The balance outstanding amounts to Rupees 529-14-8 on account of Abkarry, and Rupees 2-8-0 on account of Mohturpha, all of which I trust to be able soon and easily to realize.-

11. Much has been done during the year in Garden cultivation, and every day sees a vast amount of waste or jungle land brought under this favorite and desirable species of cultivation, by the industry of nearly every class of ryots. It is gratifying to observe how rapidly large tracts of waste land are being planted with the Jack, the Betel, the Cocoanut and plantain trees,-

and

and so soon as the injurious and distressing Tobacco monopoly is abolished, I expect much of the energy that is now expended in smuggling will be most advantageously exerted in reclaiming lands which are now covered with jungles, but which a little labor seems to convert with ease into Gardens or rice fields.-

12. A balance of Rupees 2769-4-1 on account of reclaimable remissions granted on rice lands from Fusly 1238 to 1253 still remains to be brought to account, and the reasons that have delayed this desirable measure, are to be traced to the position of much of the land in the neighbourhood of dense jungles, to the want of cultivators, and to the encroachments of rivers. Making however, due allowance for these difficulties, I hope a portion of the amount at least may be recovered in the course of a very few years.

13. Considering the extremely high price of provisions during many months of the year under review, there was of course much distress and suffering amongst the lower classes, but as the facilities of communication are daily increasing, and markets being opened in the neighbourhood of most populous Towns, I trust much of that uncertainty and irregularity of supplies, which

Card

lead to an increase in prices and foster
Monopolies will sink before a more free
and extended commercial intercourse.

14 I have in conclusion merely to
reiterate my opinion, which is the opinion of all
my predecessors who have known him, of the
perseverance & integrity of my Sheristadar,
and I regret he should have any grounds
for complaining that with equal respon-
sibilities to any, he finds himself re-
munerated with less liberality
than most native Officers holding a
similar position.

Read again also letter from the Collector of Malabar dated 29th July and entered in Cons. 4th March 1847.

Proceedings thereon. Para 1 The Monsoon did not set in till the last day of May and tho the fall of rain during the following month till the middle of August was sufficient to meet the wants of the Ryots there appears to have been a failure from the last mentioned period at the end of the year with only partial relief. Both first and second crops suffered, and in some places in the talooks of Nedingunaad, Kootnaad, Chowghaut and Beletnaad whole fields were parched up. It is supposed that the produce of the year was about two thirds of an ordinary outturn. Prices, in consequence of the unfavorable character of the season and from a pressing external demand for Rice ranged from 25 to 50 per Cent above the ordinary quotations and during the last 3 months of the fasly rose to about 100 per Cent in excess of the usual rates. The exports of the other staples of the District with the exception of Betel nut Cocoanuts Saffron wood and Timber were also favorable. The realization of the public Revenue was thus rendered easy and the more substantial landed proprietors enjoyed corresponding advantages. The mass of the Population however who are not connected with the land but subsist on wages felt the weight of the great increase in the prices, but their difficulties have been alleviated by the first Crops of the ensuing year which was abundant and was in the market before the date of the Collector's report under consideration.

Paras 6 @ 12 Wet Lands.

3. The decrease in the Wet Lands on Rupees 2209-6-9 is composed of a gross decrease of Rupees 8807-9-2 and a gross increase of Rupees 5798-2-5. The principal item of decrease is Rupees 2897-15-1 Remission for failure of Crops, which is Rupees 1756-2-1 above the amount granted under the same head in the preceding fusly. This indulgence was rendered necessary by the circumstances of the season, chiefly in the Talooks of Kootnaad and Nidingunaad, and was given only it is observed after a careful enquiry into each individual case. The prominent item of increase is Rupees 4512-11-6 being "Resumption of Remissions granted in fusly 1254" being composed chiefly of land uncultivated in that year and remissions given for loss of Crops and to indigent Ryots.

4. The Dry land Cultivation exhibits a net decrease of Rupees 2029-8-8 arising from a large diminution in the Cultivation of Oil seeds. In addition to this diminished Cultivation it appears that upwards of 2,000 Cawnies of land sown were abandoned in consequence of the failure of rain. From this there was no return.

Statement No. 2 Col. 3 & 4.

The Collector it is observed has been guided by the remarks of the Board in Para 7 of their Proceedings on the Settlement for fusly 1254 / 1844/45 dated 26th January 1846 in regard to the annexation to the Revenue of all young and fruit bearing Trees, and the result is a small increase under this head above the preceding year. The increase is chiefly in Koornunaad and Shernaad where Remissions are granted for decayed and unproductive Trees, it is but fair that all young bearing Trees should be brought to account; this practice should be strictly enforced generally when reinspection is called for according to the usage of the District.

Paras 13 & 17.

6. Of the Settlement amounting to Rupees 1635187-12-0 the sum of Rupees 1620637-2-8 was collected within the fusly and Rupees 11281-0-1 subsequently up to the date of the Collectors report leaving a Balance of Rupees 3269-9-3 for future realization. It is satisfactory to observe that the Revenue was realized without resource to distress except in two trifling cases, in which the refractory conduct of the parties rendered it necessary to order the sale of their personal property.

property amounting in one case to Rupees 8 and in the other to Rupees 7.

7. The arrears of former years amount to Rupees 1778-7-3, of which Rupees 475-1-5 are irrecouerable. This portion appertains chiefly to fuslies $\frac{1253}{1843/44}$ and $\frac{1254}{1844/45}$ and stands against Ryots who are, the Collector states, "in very indifferent Circumstances rendered still more so by two successive unfavorable seasons". Under this explanation the Board beg to recommend that the amount may be written off.

8. The Collections from all sources Land and Extra amount to Rupees 29,29,633-1-2 or a net Decrease of Rupees 72,759-1-6 below the Collections of the preceding Year, the particulars of which have been explained in the Proceedings of the Board on the report on Extra Sources.

Para 18 @ 20

9. The extension of the Waste Cultivation during the year under review is very satisfactory. 329¼ Cawnies of immemorial waste calculated to yield a Revenue ultimately of Rupees 800 were taken up for Rice Cultivation and 561 Cawnies of unassessed Lands to be planted with Cocoanuts, making an aggregate of 890 Cawnies of waste land reclaimed this year. The extent 561 Cawnies taken up for Cocoanut Plantations will form 212 Gardens calculated to contain about 45,000 Trees.

10 The particulars of the waste Land granted for

for Rice Cultivation are exhibited in Statement No. 26 prepared according to the usual Form. The periods of entire exemption vary for the most part from 1 to 3 years; in some instances it extends to 4 years in one case to 5 and in another to 6. The statement is very full but certain anomalies are apparent which it is desirable should be explained in the next years Report in treating of the subject of waste Land. Thus in Nos 1 and 5 of the statement the rate per Cawny is Rupees 1-3-2 but the description of Soil varies. In one case it is "Paphima Rufsy 3d. sort" and in the other "Rufsy 1st. sort". Both lands are situated in the same Village. Again Nos 9 and 10 are Paphima Rufsy 8th. sort both in the same Village and held by the same individual; the rate per Cawny however of one is Rupees 2-3-5 and the Assessment per Cawny of the other is Rupees 1-10-7 where other Circumstances are equal it is desirable that the rate of Assessment should be uniform. The statement submitted by the Collector should exhibit the rates fixed for Contiguous Lands of a similar description, and where the amounts differ the cause of such difference should be explained. The Produce as shewn in Col 10 has been probably arbitrarily assumed and hence the difference in the rates which has attracted the notice of the Board. It is sufficient to draw the attention of the Collector generally

generally to the discrepancies noticed above in order that such alterations may be made in future as may appear requisite.

11. Statement No. 27 shewing the Waste Lands reclaimed anterior to Fusly 1255 (1845/46) has been furnished in conformity with the requisition of the Board. Following the particulars as herein exhibited an Abstract has been prepared in the office shewing the Coole lands paying full Teerwah in Fusly 1255 (1845/46) as well as those under progressive rates, and the two together apparently should yield a Revenue of Rupees 544-7-2 in the year under review but the Amount entered in Col. 27 of Statement No. 1 is Rupees 279-6-1 only. The difference is Rupees 265-1-1 and should be accounted for. In future the general Statement No. 27 should be accompanied by an Abstract shewing the extent of Coole Lands in each year including the fresh heads given during the current with the Assessment, the portions bearing full and progressive rates respectively being separately distinguished.

	Rs	a	p
Full Teerwah	59	15	2
Progressive rates	484	8	0
Rs	544	7	2

20th January 1846 Paras 12 & 13.

12. In their review of the settlement for last year the Board observed that the period of Coole appeared in some cases to be excessive and called upon the Collector to afford the fullest information on the subject. In his letter dated 22d July 1846 recorded at the head of these Proceedings the requisite explanation has been furnished which is considered satisfactory. It is observed that 9 out of 102 land have been exempted from entire payment of the Assessment for periods above

In Cons. 4th March 1847.

above 5 years and that these are situated in the deep forest. Of the 9 lands in question 3 are to be enjoyed rent free 8 years being the longest period of total exemption included in the statement, in addition to which 3½ years of partial remission have been granted, but the expense of clearing the land with other incident charges amount to Rupees 2300, and 4 years must elapse before the land can be rendered fit to receive the seed. The period of Coole is regulated generally according to the circumstances in such cases.

13. The Board await the report on escheated Lands.

14. It was wished that the accounts of each year should exhibit the ancient or original Assessment and the amount which has been permanently given up as well as the usual annual remissions, and with this view, a form of statement was sent to the Collector with the Proceedings of the Board on the settlement for Fusly 1248 (1838/39) dated 4th Nov. 1840 Para 7. The Abstract statement No. 19 and the Statement shewing the details of each Talook are furnished in conformity with that requisition. The amount entered in No. 19 Col. 3 as the original Assessment is Rs. 1142660 but this it is seen is the Beriz of the preceding year and not the ancient Assessment. The Board request that in future the ancient Assessment with the amounts permanently struck off subsequently may be entered in the several statements referred together with the detailed information which these Statements exhibit at present.

Ordered that a copy of the foregoing Proceedings be submitted to Government and a transcript of the same be furnished to the Collector of Malabar for his information and guidance. Statement

From Do. 22nd April

With reference to the orders of Government communicated in Extract from the Proceedings of the Board of Revenue dated 12th June 1845. I have the honor to submit herewith the correspondence entered in the Margin, and to report that the Deeds forwarded to me by Mr. J. Y. Fullerton shew that Mr. W. A Serle has actually transferred to him the late Mr. Bannermans property on the Neilgherries, which was held under lease No. 14 in the name of Dr. Sanderson, the extent of the Ground therein specified being Cs. 10 — 1.000. Under the Sanction of Government dated 10th June 1845. A separate Deed in confirmation of the transfer can now be made out, but Mr. Fullerton solicits, instead a consolidated lease for Cs. 8-17-812.-

2. The additional portion of Ground Cs. 3. 6 - 2.212. was originally enclosed by Dr.

Fort St. George 13th May 1847.

Dr. Sanderson, with the permission of the Collector of Malabar in 1842, from which period the Quit rent has been paid thereon, as stated by the Principal Collector of Coimbatore. Mr. Fullerton, as the present proprietor of the House and Ground specified in Dr. Sandersons lease No. 14 considers himself entitled to a consolidated Grant for the whole Enclosure in his possession. Ct. 8-17-812. the excess not having been purchased by any of the former Occupants.—

3. As under the circumstances of the case, compliance with Mr. Fullertons request appears to be unobjectionable, I beg leave to recommend that the necessary sanction may be procured for the issue to him of a consolidated lease of Ct. 8-17-812.

J. Y. Fullerton Esqre

Sir,

I have the honor to acknowledge the receipt of your letter of the 2nd Instant forwarding the Original Papers relative to your Property at Ootacamund which I regret to be under the necessity of returning.

2. The land alluded to being encircled within the Cantonments of Ootacamund I am unable to transmit your application to the Collector and Registrar of Government Grants

without

without the Certificate of the Commanding Officer, the more particularly as you state that Major Grant objected to sign the Certificate while the word private stood there, because he had understood from Mr. Williams that Mr. Ryan had preferred a claim to part of the ground specified in the plan.

3. A reference, however to the records received from Malabar shews that the Ground for which the Grant is now applied for, is indisputably a portion of your Property the land in excess of the extent set down in the Original lease having been enclosed by Dr. Sanderson with the permission of the Collector of Malabar in 1842 from which period the Quit Rent has been paid thereon through this Office, under these circumstances I cannot conceive how Mr. Ryan can possibly claim any portion of it, but as a further inquiry on the spot will place this matter beyond a doubt, I would suggest the expediency of your again communicating with the Commanding Officer, who, when made aware of the Circumstance will I believe urge no further objection to attesting his

Adverting to your letter of the 26th Ultimo, I have the honor to request that you will be good enough to forward the Plan and the Original Title Deeds therein alluded to, to the Collector and Register of Government Grants at Madras to whom your application signed by the Officer Commanding Ootacamund has this day been transmitted.

To. J. Y. Fullerton Esqre

Sir,

1. I have the honor to acknowledge the receipt of your letter under date the 9th Instant together with the Title Deeds &c. therein referred to.

2. It appears that you now wish

wish to have a consolidated Grant for Cs. 8-17-812 of land on the Neilgherries of this Cs. 5-10-1000 are included in the lease to Dr. Sanderson No. 14. the transfer of which to you was sanctioned by Government on the 10th June 1845 as was intimated to Mr. Serle, the Executor to the Estate of the late Mr. Bannerman on the 18th of the same Month.

3. On looking at Dr. Sandersons bill of Sale to Mr. Bannerman under date the 22nd August 1842, I find that the Ground assigned by him under that instrument is only the Cs. 5-10-1000 conveyed to him by his lease No. 14. and that Mr. Serle's assignment to you dated 1st July 1845 is not for more.—

4. It further appears from Mr. Wroughton's letters that the excess Cs. 3-6-2212. was enclosed by Dr. Sanderson with the permission of the Collector of Malabar in 1842. from which period the Quit rent has been paid thereon. As the Ground however, has formed part of the enclosure since it came into Mr. Bannermans possession in 1842 I would beg leave to suggest, under the circumstances of the case, that Mr. Serle, as his Executor, be requested to address a few lines to me stating

8-17-812.
5-10-1000.
3-6-2212

stating that he does not lay any claim whatever to the said excess on account of the Estate, and that the issue of a fresh Grant for it to you so far as he is concerned, is perfectly unobjectionable, to enable me to submit your application at once, to Government for the necessary sanction.—

To. J. A Hudleston Esq.re
Register and Collector
of Government Grants
Madras.—

Sir,

I have the honor to acknowledge the receipt of your letter under date the 11th of March last and to state that it does not appear to me necessary that Mr. Serle should be applied to in the way that you suggest in your letter under reference in regard to the property on the Neilgherry Hills for which I am desirous to have a consolidated grant for it is fully known to you that the excess Viz Cawnies 3-5-2212 to which you allude was not purchased by the original proprietor Dr. Sanderson but was enclosed by him with the permission of the Collector of

Malabar

Malabar in 1842 and succeeded to the ground comprised in lease No. 14 and Mr. Serle in taking possession of the ground included in the said lease, in like manner took possession also of the said excess for which you will observe there is no assignment from Dr. Sanderson to the late Mr. Bannerman whom Mr. Serle represents and as I purchased the property specified in the said lease on the 14th February 1845 from Mr. Serle and have paid Quit Rent on Cawnies 8-17-812 from that date and as the excess was given away by the then Collector of the District to the owner of the house erected on the ground comprised in the said lease No. 14 and was not purchased by him I as the present proprietor of the house and ground specified in the said lease consider myself entitled to a consolidated grant for Cawnies 8-17-812 - which are now in my possession. Under these circumstances I request you will be pleased to submit my application to Government for the necessary Sanction.-

Proceedings thereon. Para 1. Ordered that transcript of the foregoing letter be furnished to the Collector of Madras with the Board's instructions that he will be pleased to adopt immediate measures for the removal of the British Salt now deposited in the buildings in question in order to render the site available for the object in view.

63

2 The Board trust that Mr. Hudleston will experience no difficulty in removing the more comparatively

=paratively small quantity of salt remaining on hand to some place of security within the buildings attached to the Sea Custom Establishment, he will accordingly place himself without delay in communication with the Collector of Sea Customs and make such arrange=ments for depositing the salt elsewhere as may appear=most desirable.

3. Ordered also that copy of the above cor=respondence and Proceedings of the Board be com=municated to the Collector of Sea Customs who will be pleased to arrange with the Collector of Madras for the salt in question being removed to some other local=lity as nearly adjoining its present place of deposit as circum=stances will permit, and subsequently make over to the Barrack Master Presidency Division the portion of the Bonding warehouse required for the purpose of the Town Police.

Ordered also that the following letter be sent in Consequence. To the Secy to the Military Board.

To the Secretary to the Military Board } Sir, I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 6th instant requesting that the necessary orders may be issued for the early delivering up to the Barrack Master of that portion of the Bonding warehouse to be=appropriated to the Town Police.

62-64

In reply, I am directed to inform you that instructions have been Communicated to the Collectors of Madras and Sea Customs to adopt immediate measures to clear the premises referred to and=to deliver them to the charge of the Barrack=Master for the purpose of being rendered avail=able for the use of the Town Police.

2. These measures which have been carefully made and tested at the Mint are intended to contain 1600 & 800 Tolas weight of Salt respectively, but the weight and Stowage of Salt depending so much on

on the dryness and the grain of the articles there is consider-
-able difficulty in arriving at any satisfactory Standard.
In forwarding them the Acting Mint Master has made the
following remark, "If the Measure be moved about in fill-
-ing, it will contain 10 per cent more than if the salt be
simply poured into it, or if well shaken as much as 17 per
cent more. - these measures are adapted to hold the stated
quantity of Salt poured in loosely - The smaller the
Diameter of the measure, the less is the effect produced
by shaking."

3. The Board request that on receipt of the measures in question you will make use of them in the salt transactions in your District with a view to ascertain which of each description is best calculated for general introduction throughout the Presidency and so soon as you have fully satisfied yourself upon this point they will be glad to be favored with your opinion together with any suggestions you may have to offer.
