From the Collector of Tekkary submitting his opinion on the proposal of legalizing the Manufacture of Salt under Sec III Reg.n I of 1819 and permitting it under a License and that of farming out the Manufacture and sale under Rules to the Manufacturers

Fort St George 3d October 1820.

Read the following Letter.

To W. H. Bayley Esq.re
Secretary to the
Board of Revenue,
Fort St George.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 8th November 1819 on the subject of the Manufacture of Earth Salt in which my particular attention is called to the observations of Government in para 168 of the Minutes of Consultation dated 8th October 1819; I am directed to state my opinion in detail respecting the two proposals therein suggested viz. the one of legalizing the Manufacture of Earth Salt under Section III Regulation I of 1805 and permitting it under a License, and that of farming out the manufacture and sale under suitable rules and restrictions either to the principal Manufacturers themselves or to others on principles similar to those by which the Abkary rents are already farmed, and to furnish a sketch of the arrangements which in my judgment should be adopted

For

for carrying out either the Licensing or Farming system and the probable financial result of each.

2 In reply I have the honor to state that I do not consider the plan of renting out the privilege of manufacturing and selling the Earth salt would meet the views of the Honorable Court of Directors and of Government for whatever restrictions it may be found practicable to impose, the Renters interest will always be to make the most of his Farm and will seek means to increase rather than to contract the manufacture, as has been the effect of the Renting system of the Abkary Farms; and I fear that the restrictions which it is the object to impose would be found less effectual than if the Manufacturers were kept under the immediate control of the authorities.

3 I would therefore prefer the plan of legalizing the manufacture and permitting it under a License to Manufacturers themselves under certain stipulations

stipulations to be entered into by them.

4 The following rules would be necessary.

1st The Collector shall determine the number and places of the Molas to be worked in each Taluk.

2d All others to be destroyed.

3d* No Mola to be worked by less than ten

* Refer to the observations on this Rule para 5 & 6

4th Each Mola to be rented to a bona fide manufacturer at a fixed rate of 1½ Rupee for each man and each Buffaloe employed at the Mola.

5th No more men or buffaloes to be employed than those stipulated in the Pottah.

6th The term "Man" is applicable to males and females above 15 years, Girls and Boys under that age may be employed in addition to the number of "men" stipulated in the License.

7th The quantity of salt manufactured to be declared to the Curnum of the Village from time to time who will transmit account to Tahsildar and it is not to be removed from the factory till duly brought to account.

8th

Fort St George 3d October 1830.

8th To be sold only to pyrts and merchants of the District. Merchants of other Villages must produce a certificate from the place they come from.—

9th All Molas worked without a License to be destroyed and the party working them fined at the discretion of the Collector.

10th All importations from foreign countries or other districts and all exportations of them to be confiscated, half the value of such confiscations to be given to the party making them or giving information which may lead to the confiscation.—

11th Salt to be manufactured only during the Months of January, February March, April, May and June.

As respects Rule 3. I would observe that the number of Molas now in operation upon the Calculations already forwarded to the Board appears to be only just sufficient to supply the present demand of the District and therefore it would be inadvisable to contract the Manufacture generally to any great extent.

But

Fort St George 3d October 1830.

But to meet the object Government have in view and to obtain as complete a control as possible over this Manufacture it seems desirable to reduce the number of the smaller Molas. The Manufacturers of the small ones in some few cases may combine together and work Molas of the authorized size. The estimated present produce of Earth Salt is 1,330 Garce annually; and the consumption was calculated by the average supposed consumption of each individual and the cattle to be about 1,400 Garce.—

But as every serious objection exists to limiting the number of Molas and compelling the owners of the smaller ones when practicable to unite together. The Molas are private property. They have existed as such from time immemorial, they constitute in fact in most cases the whole capital of the owners. They belong to families who would not consent to have strangers forced upon them and would have just cause of complaint if forcibly deprived

deprived of their property by Government. So though the Regulation may give Government a title to destroy the salt Manufactories, yet to apply it at this time after so many years have passed without interference with the rights of property would be a measure of exceeding hardship and one which the Government do not contemplate. Rule 3 would therefore have to be introduced with caution and only where it could be done with the consent of the parties.

7th The assessment proposed in para 4 is calculated on the principle proposed in Mr. Melvill's Report which in fact resolves itself into a Tax of 1½ Rupee per each Man and each Buffaloe employed.

8th I have taken into consideration the propriety of fixing a maximum or minimum price of selling salt but I find it impracticable to make a rule on the subject which can be enforced with any hope of success. Were the salt sold only in wholesale by the Manufacturers to merchants a limit might be

be made both as to the quantity and price but even this could hardly be enforced without the aid of a costly superintendence and great interference without any real advantage to Government. But the manufacturers are both wholesale and retail dealers. The ryots purchase their supplies from them. The salt women hawk it about from Village to Village and obtain grain &c. for the salt. The ryots seldom pay in money for the salt they want. So were we to put a limit on the price and quantity to be sold to merchants we could not without the greatest difficulty and great inconvenience to the poorer ryots control the sale of salt to them and it would, even if practicable be manifestly impolitic to attempt to fix a limit for sales to merchants and to permit the free sale to the ryots. For these reasons, I have abandoned the idea of fixing a price or limiting the quantity to be sold.

9. There can be no question, I presume, that the Manufacture of earth

salt

salt in Bellary should be permitted and legalized. It cannot be stopped entirely nor will it be possible even to greatly check the manufacture until the Marine salt is introduced in such quantities and at such a price as to induce the natives of the District voluntarily to take it in place of the earth salt.—

10 To endeavour to effect this change in the habits of the people I think the only method that can with any hope of success be adopted is for government to import directly or to directly encourage the importation of large quantities of Marine salt and distribute it throughout the District at a moderate price, not much exceeding the price of earth salt. For this purpose it would be necessary to sacrifice the Monopoly price entirely.— The cost of importation only being fixed as the price would perhaps enwrite a considerable increase in the consumption of this salt and supersede to some extent the consumption of earth salt.—

The

Memorandum of Prices of Marine and earth salt in Bellary

	Rupees
Marine salt per Garce	240
Earth salt.	100
Difference	140
Deduct Monopoly Price on Marine salt.	120
Difference of price of Marine salt over earth salt.	20

11. The government might first make the experiment by giving gratuitously salt for importation into the Bellary District for a few years. There are indeed serious objections to such a measure, but I do not see how any attempt to introduce the customs of a more general consumption of Marine salt in the District can meet with success otherwise. That the manufacture of earth salt can be entirely superceded I think improbable in the highest degree. It has been the condiment used by people and cattle for ages and ever will be to a certain extent. But still if Marine salt could be procured at a reasonable cost there is little doubt but that it would be largely used. The two kinds should be forced into a fair competition— If eventually the people take a liking to the sea salt they will create a demand for it, and gradually the government may obtain a Revenue from it as elsewhere.—

12 The plan of taxing the manufacture of earth salt now proposed is new, it is not likely therefore that it can be at

once

once introduced without difficulty, and it is a question whether after all it will be better than the existing mode of obtaining the Salt Revenue and be better adapted to the Manufacturers of that article. Unsatisfactory as the present mode of taxation under the Motunfa system is it is questionable whether as respects the mode of taxation now proposed for the article of Salt any real improvement will be made.

13. For in the first place there must be a continual supervintendence and interference with the manufacture, and how is that to be efficiently carried out? who can daily inspect the Molas, check the number of workmen employed, obtain accounts of quantities produced, above all in Bellary (surrounded by the Nizams and the Mysore countries and destitute of frontier Chowkies) how is an efficient control against smuggling to be observed. Of course the Manufacturer if he has opportunity and

and a Market will export his salt: and if the foreign merchant can make a profit by the introduction of salt from other Districts (and every restriction put on the Manufacture in Bellary will but encourage smuggling) who is to prevent or detect him. There is also the objection to the interference with private property and prescriptive rights noticed in paras 5 and 6.

14. The only point that remains to be noticed is the Revenue. By the abolition of the smaller Mills suggested (Appendix No. 2) an immediate sacrifice of Revenue to the amount of 2,523 Rupees would result. A part of this would be recovered by encouraging the Salt makers to club together: but in all probability the result of the restriction would be a loss of about 1,262 Rupees as follows, Viz.t:—

	Villages.	Molas.	Produce.	Rent.
Molas as now worked by 2 or more men	456	1,801	90,450	11,169
Do. by 1 Man only	290	944	21,850	2,523
Total	746	2,805	112,300	12,692
Deduct say 1/2 of the Revenue of Molas now worked by 1 Man only:				1,262
			Remains Rupees	11,430

To.

Fort St. George 3d October 1830.

To adopt this plan would cause much discontent and I do not see that any real good would result from it.—

Proceedings thereon. 1. The question now under the consideration of the Board has arisen from a Retrenchment made on the accounts of the Collector of Salem for "Refunds of Moturfa to Mootahdars" under the general authority given by Government* The Board are not informed as to the special grounds of objection made by the Civil Auditor but every thing evidently depends upon the fact of the Subdivision of the Mootah of Paparaputty in the Thurampoory Talook for which subdivision the Civil Auditor requires* the special sanction of Government

Declining under circumstances stated to sanction the subdivision of the Paparaputty Mootah in Salem, but leaving it to the Collector to lay the subject again under the Board's consideration if he should think it necessary.—

4. The next year the Collector of Salem transmitted #Extract from the Retrenchment Account of Fusly 1256 requesting the Sanction of Government for the 3 Items objected to by the Civil Auditor, one of which is the sum of Rs. a. p. 10,452-4-6 being the "Refunds of Motursha" to Mootahdars for the whole Salem District, as sanctioned by Government 8th November 1831.

A The sum sanctioned in this order includes Estates no longer under Proprietors

5. The Board informed the Collector *that 2 acts of 3 items could be disposed of but as regarded the Refunds of Motursha the Collector should first submit his explanation to the Civil Auditor. This it appears he has done@ but still one point remains unsettled and that is the retrenchment against the Paparaputty Mootah which is adhered to on re-audit as the subdivision of that Estate has never yet been confirmed. The annual sum chargeable to this Mootah is not stated, but the Board perceive in enclosure 2 accompanying the Collector's letter of 13th October 1831 that it is rated at Rs. a. p. 221-3-2 Whether the Civil Auditor has ever previously passed the item

item now retrenched, the Board have not been informed.

6. That the partition of the Mootah has never been sanctioned by the Board is certain, although the Local Authorities seem to have taken for granted that it has been since the discussion arose 20 years ago.

7. Mr. Cockburn was the Collector who first recommended* that the request of the parties who jointly held this Mootah should be complied with. In his letter he acknowledges that the separate shares are not very compact because the parties (who are relations) have sought to retain each the village belonging to their respective families As regards any expectation of water disputes he mentions that the whole Mootah is irrigated by wells as the 2 Tanks of Paparaputty and Pullore (in the share called Paraputty) are in a ruined condition. However in case they shall be some day repaired, he took a Carar Namah# (or Agreement) from the parties, that there should be no dispute, but what water there was, be divided according to custom and usage.

8. The Board objected to the partition

partition. The reasons why such "partitions" were desirable were not explained, and the subdivision was proposed to be made in a manner entirely at variance with Regulation II. of 1803, Section XXI which requires that Collectors in forming "subdivisions" shall form them compact. They observed there were "causes of discussion in existence" and that at all events the subject should be deferred till at least one of the 2 Minors who are parties to the transfer come of age.

@ 4th June 1829.

11th June 1832. 9. After a lapse of 3 years the Collector reported* that Kistniah one of the Minors was now 17 years old, and he recommended the partition. The reasons that made it desirable were, that the share holders were relatives, but having had frequent disagreements were afraid of the whole Mootah being sold for arrears (for want it is supposed, of unanimity in paying their respective share of the Peis.) Mr. Orr goes on to state "the Subdivisions are "not compact as some villages of one portion "are situated amidst those of another, and "several villages of different portions have "only one source of irrigation, their however cannot "be prevented as the parties have chosen "such villages as belonged to their families respectively

"respectively and will not consent to any other "mode of subdividing the Estate. The Registered "Proprietors have given mean Agreement stating "that there are no disputes regarding Boundaries "or Water, or regarding the Incompactness of the "Subdivisions and that they are satisfied "with them."-

He further informs the Board
10 that the Mootahdars have made Cowle Remissions on the Survey Assessment rates, especially on the Ponakolum share which was greatly over assessed at the Survey. These remissions would of course be discontinued should the Estate ever come under a mamm. On the whole he considers the Mootah a profitable one.-

To this communication the Board
11. apparently never replied. There is no trace of a reply in the Records of the last 19 years and thus it was that the Board were unable to furnish Mr. Lockhart with their answer to it as abovementioned.-

From Enclosure No. 5 in Mr. Orr's
12. it appears that the Collections from the Mootah were on a 7 years average 3372-10-4 after deducting Cowle Remissions. Sahavgy and

15. Although as before stated this arrangement was never sanctioned by the Board, a division of the Property seems to have been made among the parties themselves, and registered at the Cutcherry. To this there can be no legal objection though Section VIII Regulation XXV of 1802 does not prevent the whole Mootah from being liable to

to resumption on failure of payment of Rokcush whoever may individually be the Defaulter. The Board's Records* shew that though in Fusly 1241 only the 5 Registered Proprietors were acknowledged; yet that in the subsequent Fusly / the time of Mr. Orr's 2nd letter / the 8 persons proposed were acknowledged as Proprietors of the respective shares proposed. In Fusly 1244 the name of one Luddamah is found joined to those of the 3 Proprietors of shares both No. I and No. IV. In Fusly 1247, the names of the former Hindu Proprietors of shares I & IV disappear altogether, and in their place are found Syed Ahdan Saib & Jumal Khan respectively. In Fusly 1257 Jumal Khan's share (No. IV) is entered to Luteef Meah and thus the names stand as reported in the Collector's letter.*

*i.e the Hist. Abundy Statements submitted Annually under Section XIII. Reg: II 1803.

16 How or when these changes were made has never been explained nor did they in fact require the confirmation of the Board as long as there was no such actual subdivision of the Estate as to effect the liability of the whole for its own Rokcush, but in the Column of Explanation@ to the Civil Auditor the

17. The Collector was evidently under the impression that the subdivision had been sanctioned and it becomes incumbent on the Board to state that such is not the case and the question remains as to whether the Board shall now apply to Government to sanction the division.-

18. The Board have felt unwilling to do any thing to disturb the arrangements that have for so many years been acted on without dispute or Cavil but the grave objections that existed when the matter was first mooted, exist equally at this moment successive Collectors have acknowledged that the divisions are far from being compact and that the parties would not consent to their being otherwise.* and not only is this at variance to Section XXI of Regn. II of 1803 but the arrangement is at variance with Section XXII also for however the parties may agree among themselves as to the distribution

*Enclosure B in Mr. Cockburn's letter 12th Feby 1829 would seem to show that the tanks were available for irrigation.

distribution of water,* a very great inconvenience would occur if one subdivision (if sanctioned) were to fall under Amany- It was expressly to avoid such difficulties that these dis- =tinctions was introduced, and the Board cannot consent to a proceeding which quite sets aside these legal and prudent provisions.-

19. It is also observed from the Records of this office that the Mootah of Papara patty is itself a subdivision, and so sanctioned in the Board's letter to Mr. T. Munro 4th April 1811- In this case the precautions as to compactness were strictly attended to.-

20 The Board consider it necessary to remark the assertion made in Para 4 of Mr. Orr's letter of 11th June 1832 regarding the over assessment of parts of this Mootah and its irregularity of which he seems to think the Cowle Remissions afford a proof. He refers especially to the subdivision (No. IV) of Ponacolum, but it appears from the Statement enclosed (No. 3) that the Remissions were at one time nearly 45, and at another 2¼ per Cent;- the inference being that they were made more with reference to season than to the actual inequality or severity

of

Fort St. George 3d. October 1850.

of the assessment.-

21. It also appears that the Maximum remissions on subdivisions II & III are equal to those of No. IV which rather tends to disprove the view taken by Mr. Ass of the latter subdivision being assessed more highly than the others. Neither can any facts as to the Survey assessment be obtained from "Mostahdar Remissions" unless the system on which they make them is specified.-

22. On a full consideration of the whole subject the Board must decline to sanction the subdivision of the Paparas=patty Estate, nor will this decision affect they trust the mutual interests of the Share=holders which are still protected by Law.-

23. If however the present Collector is able to make any arrangement by which the difficulties above referred to may be obviated, and the parties are still desirous to have a subdivision he will report to the Board of Revenue with full details, and the subject will be taken into consideration.-

5. By a reference to Statement D it will be seen there was an aggregate increase on Fusly 1258 of Rupees 26,229-5-2- and this was derived by a more extensive export and traffic in salt, to the interior Districts of this Presidency during the year. The Marginal Note particularizes the several provinces where the export has been greatest. In Salem alone it has exceeded that of last Fusly by no less a sum than Rupees 10,846-8-- While to Tanjore is the only District where a decrease is perceived, and that to the trifling sum of Rupees 69-14-4. The internal salt trade by this result may be said to be on the mend, though there is still considerable room for improvement when we consider that

6. Under this head the sales tho' shewing an increase on the past Fusly of Rupees 14,679-14-8 still Statement No. 1- exhibit a falling off when compared with what they were in Fusly 1257/1847-48, the sales then amounted to Rupees 60,419-8-3- while those for the Fusly under notice are only Rupees 45,563-7-7. I feel at a loss to assign a good and sufficient reason for this falling off. It may be attributed to the licenses granted by Mr. Hallett in 1842 to the poor population to manufacture and consume for domestic use, salt obtained by boiling down earth gathered from the salt marshes on the Coast. And on my first joining this District finding that this indulgence was so much

much abused, and that earth salt was actually sold in the bazaar, I put a stop to the privilege, and cancelled the former orders, as both illegal and inexpedient- By this means, and a stricter scrutiny in the issue and time allowed for the validity of Rowanahs, I trust the home sales may rise.

27th. May 1850. The recent orders of your Board reducing the minimum quantity authorized to be sold at the pans to 20 Mercals will doubtless tend to increase the sales.-

Increase 1467 — 4 — 8.

17. The total collections of Moturpha in the Fusly was Rupees 40,146 — 7 which exceeded the Amount of the preceding year by Rupees 1467 — 4 — 8. By inspection of the details in the enclosure No 7 it will be observed that the tax on Looms and Oil Mills has been the chief cause of this increase.

18. Having thus noticed the various branches of Revenue comprising the extra Sources I have only to add that of the total amount of Rupees 1,42,583 — 0 — 7, the Sum of Rupees 1,33,690 — 10 were collected within the Fusly, leaving an arrear of Rupees 8,885 — 11 — 4 which has since been reduced by subsequent collections to the Sum of Rupees 246 — 13 — 9 and this balance is under claim of recovery.

" " " A It appears that of this sum Rupees 25-8-6 is on account of overcharge made by the Village Officers on certain weavers of the Village of Thembair Tricullore, which was included in the Jummah, but not collected, and upon further investigation taken taking place, it was proved the excess was illegal. Mr. Davis consequently suspended its recovery pending sanction for remission which is now solicited.

" " " B The fishery of the large tank of Veerasnum for Fusly 1258 was taken by one Pareatumby Padiachee at Rupees 80 " " but since it appeared clear that the renter did not enjoy the fish which had been forcibly made away with by the Village population. this sum ought not to be collected from him it is therefore recommended to be remitted.

" " " C Of this balance Rupees 152 " 4 is the amount of Moturpha imposed by the Sub Collector on certain professions at Ponts Novo. The Government having since ruled on the 5th June 1850 that no new demand should be required from this class of persons without previous sanction this sum of Rupees 152 " 4 ought to be written off.

From the Actg. Collector, } Sir,
of South Arcot.....

On the receipt of your letter of the 5th Ultimo, affording me further instructions on the subject of the Dittum engagements to be required of the Ryots at the cultivation season of this current Fusly 1260 / 1850/51 I issued a further notification explanatory of the Board's wishes But I regret to say the Ryots still evince great reluctance to enter into any engagements- Out of 2210 Villages comprised in the Nine Talooks under the Collector's immediate Control only 285 have signed their Dittum engagements.—

2- The Southern Talooks of Chellumbrum and Manargoody are the most obstinate and from a report received from the local authorities I am given to understand the Ryots are holding back in order to await the result

From the Acting Collector } Para 1- With reference to Para 6 of
of Tinnevelly,

Extract from the Proceedings of the Board of Revenue dated the 28th May 1849 regarding the boundary difference between the Village of Pundulgoody in the Madura District and Mettilputty in Tinnevelly, I have the honor to forward for the

the perusal of the Board Copies of 2 letters
received from the Collector of Madura in
answer to a reference made to him on the
subject, from which you will observe that the
Rance of Ramnad declines to have the
case decided by either of the 2 modes of
Settlement recommended by the Board-

2- Under these circumstances I
have the honor to request the sanction of the
Board for the Collections from the disputed
land being held in deposit either in the
Treasury of this District or in that of

Sir,

In reply to your letter of the 8th
September last, I have the honor to inform
you

you that the Zemindar of Ramnad insists upon
adherence to the Decision passed by Mr.
Blackburne on the 9th January 1841 in regard
to the dispute between the Village of Punthul-
-goody in Ramnad and Mettilputty in
Tinnevelly and declines submitting the case
to any further adjudication.-

I fully concur in Mr. Ogilvie's
opinion of the illigality of Mr. Blackburne's
Proceedings and have written again to the
Zemindar to persuade her to consent to one
of the means of Settlement you have pointed
out.-

To. The Chief Secretary to Government.

Sir,

With reference to Extract from Minutes of Consultation 16th May 1850 No. 1822 Military Department, I have the honor by direction of the Board of Revenue to forward for the approval of the

Right Honorable the Governor in Council a revised arrangement of the Establishment employed in the Office of the Board of Revenue the aggregate amount being the same as before. The details of the changes proposed will be seen in the accompanying Statment drawn up in the prescribed form.—

2. The object of the Board has been to reduce the whole into a few distinct Classes, and in 3 or 4 instances, to remedy the inconvenience (in) which has arisen from allotting salaries to individuals rather than to situations in proportion to the duties attaching to them.—

3. The chief alterations are the division of the pay of the Appeal Translator / 140 Rupees / reserving one portion for a person who will devote himself especially to the Petition Department / a Department the business of which is heavy / and another portion for raising the pay of one of the Assistant Managers who will take most of the English correspondence hitherto put upon the Appeal Translator,

and

and also bringing the pay of the Head Accountant and Record Keeper to an amount more commensurate with their duties.

4. Another change will be to reduce the pay of some of the Examiners and dispense with one. The duties in which they have been employed are more consistent with those of "Clerks" and the salary will be transferred to Clerks who will occupy their place in a great measure, so that the change will be little more than nominal. The other changes are of a petty nature, being chiefly the bringing into one rate of pay Servants whose salaries differ only by parts of a Rupee, and the adoption of a simpler classification of Official designation.

5. With reference to the close of the instructions received by Government, the Board propose that sanction for the change being obtained, it should be carried out gradually as vacancies occur, but as they have reason to expect that in a few months circumstances will admit of the more important alterations being carried into execution, they request authority to

to make the alterations suggested temporily pending the sanction of the Government of India.

6. I am also desired by the Board to take this opportunity of bringing to the notice of Government, the great want that exists in their Office of Indexers. Their Records are extremely voluminous and important. The necessity for persons of the description refered to has been acknowledged in the Offices of Government, Public, Revenue, and Military, but as the Establishment of the Board of Revenue has with a very few exceptions, remained stationary for many years / The appeal Translatorship, and a few Copyists having been added since 1828,* / the hands of all are fully occupied. Considering the extreme importance of their Records, and the delay often experienced in not having a complate Index to refer to, the Board trust that Government will recommend the employment of one Indexer on 120 Rupees and an Assistant on 60 Rupees a Month respectively, as in the Revenue Department of the Government Office.

*The uncovenanted Assistant appointed by orders of Government 19th October 1840 being in lieu of the Junior Deputy Secy. whose Office was abolished.

From the Collr of Cuddapah

Sir,

I have the honor to forward the

the Proceedings in the case referred to in the accompanying Petition No. 1658 of 1850 agreeably to the endorsement thereon of the Board of Revenue dated 27th Ultimo—

Cuddalore Collr's Office 6th September 1850. —— /Signed/ J. H. Cochrane Collector

Proceedings thereon.

Reviewing proceedings of the Collector of Cuddalore respecting Petition No. 1658 of 1850 & confirming the decision passed by him on the Petitioner's claims

(1920)

1. The Board having called for the Proceedings, which have had their consideration find the following facts—

2. The Genealogical Table of the Parties is as under, Nos. 1 and 2 being the sons of 2 brothers, ie cousins—

1 Siddum Buttloo married Naganah

Daughter

3 Chenganah married Vencata =ama

6 Soobiah Buttloo aged 8 years

2 Soobah Buttloo

4 Rama dead

5 Appiah

3. Nos. 1 and 2 died some 16 or 20 years ago. They are said to have been members of an undivided family, but for

for the past 10 years the families have lived separately, one party asserting that they are divided, the other that they are not—

* land from which a certain per centage of the tax is remitted in consequence of their being irrigated by a Reservoir constructed at the expense of the ancestors of the owners of the land—

4. No. 1. professed certain Purohit Enam, Dasbundum* land, and Puttah land they were entered in the Circar registers only in his name/ No. 2 asserts that it was because he was the head of an undivided family/

5. About 10 years ago, Naganah whose husband No. 1 had been dead some 6 years, quarrelled with No. 5 the present Petitioner, in consequence of his resisting her attempt to make over some of the Dus=bundum and Puttah lands to her daughter's husband Vencata Rama Buttloo—On this occasion Petitioner complained to Mr. Lavie the then Collector, but before the case was investigated the parties entered into a Razee=namah by which it was arranged that the Circar Puttah land which was registered in Vencata Ramen's name should be confirmed to him— That the Purohit Enam lands and perquisites and the Dusbundum lands as well as the Puttah land not assigned to Vencata Ramen should be divided in 2 shares

Fort St. George 7th October 1850

shares, between the Petitioner on the one hand, and Nagamah (with whom her mother in law seems to be associated) on the other. That the portion of land allotted to the latter, should be at her disposal at her death, but that the Purohit Enam and perquisites should only be hers for life, and then revert to Petitioner. This Razeenamah was approved of by the Collector in his Takeed of 29th May 1841—

6. About 2 years afterwards the daughter Chengamah had a son (No 6) for whom the property is now claimed. The child, his parents, and the widow Nagamah lived together separate from the Petitioner, the child's father Vencata Ramen doing the duties of Purohit*—

7. About a year ago the widow Nagamah died, and her funeral Ceremony was performed both by her daughter's husband and the Petitioners in different places.—

8. On the Petitioners preferring his claim to Nagamah's Enam and other landed property an investigation was

* Village & Domestic Priest.

Fort St. George 7th October 1850.

No 1058 of 1850.

was made by the Tahsildar, from whose Proceedings as well as Appiahs own Petition to the Board the facts above stated have been made out—

9. The Collector by his Takeed of 29th May 1841 decided against Appiah, and confirmed the boy Soobiah in the property as lawful heir of Nagamah—

10 The Board are of opinion the Collector's decision was correct—

11 The Petitioner lays great stress on the Razeenamah of 1841, and on the illegality of Nagamah's will by which he states she transferred the property to her grandson—

12 As regards the Razeenamah, the Board consider that the subsequent birth of a grandson to No 1 the sole Proprietor of the Enam and lands entirely altered the case. To support that Razeenamah now by the Collector's authority would be a manifest injustice to one who is the legal heir of Seddum Buttoo (as daughter's son) in preference to Petitioner (as Brother's son) of course the grandson is only heir to the rights of Seddum Buttoo and no farther. If therefore

Petitioner

Fort St. George 7th October 1850

Petitioner can shew that he has a claim to a share as son of an undivided brother it would be taken into consideration by Judicial authority, but since the Registers are in Seddum Butloo's name only the Revenue Authorities can acknowledge no division of property and must put the grandson in possession—

13. As regards the Will it may be irregular and useless, but in no part of the Proceedings is the claim of the grandson urged on the ground of that will— It is needless therefore to notice the Petitioner's arguments as the opposite party succeeds as heir to his Grandfather, and not to his Grandmother—

14 The Purohit Enam seems to have been granted as Dhanum† by one Baghire Ruddamah just before the Cession of the Territory to the Madras Government— The duties of the Office have been performed since Seddum Butloo's death by his daughter's husband the father of the boy to whom the Enam is now transferred— The Petitioner seems never to have enjoyed this Enam. There are no Sunnuds regarding the Dusawundum land—

From the Dy Pr. Coll. Sir
of Coimbatore
Submitting his opinion on the subject of raising a fund for cleaning the streets &c.

I. In reply to the Board's Circular of the 19th Ultimo, I beg to observe, that enquiry leads me to believe, that no "Town Duty" or new rate, however useful, or desirable, is likely to be proposed, or set going, really by the people themselves in Mofusil stations, unless under the influence and guidance of some European authority, taking an interest in the welfare of the place. Under such influence and leading, which I am of opinion is both necessary and beneficial, I think much might be done safely and gradually, to the peoples eventual benefit, and satisfaction. They have been hitherto so unused to taxes for their own benefit and have such a natural

natural aversion to rates and taxes in general that I fear we may have to wait many years, on this side of India (out of the Presidency) ere any thing of the sort will originate with the people themselves.

2. With reference, therefore, to the spirit and caution of the last para of the Circular under reply, I have not proposed any thing, tho' I believe any light rate, for real local benefit, might be easily introduced in Coimbatore and other large Towns, and would be eventually acquiesced in, and appreciated. whether for lighting watering draining or otherwise, permanently improving a locality.

3. A light rate per house according to its size would be perhaps the best method, (of 3 grades). since the relief afforded by the removal of the land Customs, Government have the greater right to expect some little public exertion from the Native community, but in this, as in most other cases

In many instances Collegal, in which the people met the grant of 100 Rupees by Government, with a like sum of their own, and the Town is in consequence much improved: the amount having been fully expended, but this would probably have not been effected, or proposed, except under the advice of the Civil Engineer, and myself on the spot.

Proceedings.

Read again the Demand Collection and Balance Statement from Malabar for the month of August 1850 dated 31st August in Cons: 3d October 1850.

The Board of Revenue observe it stated

stated at the foot of the above Demand Collection and Balance Statement, that "a heavy press of business has prevented the examination of the Treasury by the Collector" during the month of August 1850, they likewise notice that a similar remark occurs in the Statements furnished for the month of January, March, and May in this year.—

2- The Board would call attention to their reapeated orders on the subject of the Examination of Provincial Treasuries, and they desire that the Collector will consider it imperative on him to cause this duty to be performed monthly by a Covenanted Officer- In the event however of there being no European Officer at the Hoozoor station available for this duty he will follow the course pointed out in the Board's Proceedings dated 11th February 1841-

Read List from the Collector of Madras of letters received from the Board and remaining unanswered to 30th September 1850.

(46)

Proceedings-

The Collector in the Column of Remarks of the above list, states, that he is unable to obtain any information as to the origin and early history of the Rajpoot tribes the

the Board observe that this mode of replying to a call, from their Office, is irregular, and they request that Mr. Hudleston will be so good as to forward a separate letter in answer to their Circular of 23d July 1849, which it will be necessary to submit to Government.

To,

The Sub Collector in Charge of

Extract from the Minutes of Consultation under date the 24th September, 1850. No. 609.

Read the following letter.

To, J. Pycroft Esqre Secretary to Government in the Judicial Department.

Sir,

1. I am directed by the Judges of the Court of Sudder and Fouzdaree Udawlut with reference to the Extract from the Minutes of Consultation of Government

11th August 1849 (No. 317)

Government noted in the Margin, to submit the following report upon the revised Edition of the Madras Regulations and Acts prepared by Mr. Richard Clarke.

2. The Judges of the Court of Sudder and Fouzdaree Udawlut consider that Mr. Clarke has executed in a highly satisfactory manner the Commission entrusted to him by the Honorable the Court of Directors. In their opinion the general arrangement of the work is excellent, whilst the classified Table of the Regulations and Acts and the full and copious Indexes give it a very decided superiority over every edition hitherto published.

3. It was not to be expected that such a compilation would be altogether free from imperfections, but the annexed list will shew that the errors and omissions which have been discovered in the course of a careful revision of the volume, are few and not of a nature to detract from the general merit of the work.

From the Collr. of Nellore

Sir.

In my letter of the 6th July last reporting on the offers for the Ab Karry rent of the Cottah and Fada Divisions of this District for the Current Fusly. I proposed retaining under Amany the Paumvar Farm recently transferred from North Arcot, because the highest offer then received for it, was much below the remission granted to Mr. Morrison on account of its cessation from his contract and also with the view of ascertaining what the Farm is really capable of yielding. The result of the Management for the last two Months and a half however shows that its retention under Amany is by no means profitable to Government. Deducting charges, there is very little surplus left and besides Paumvar being Zemindary Property is so much removed from direct Circar supervision that it is impossible to check frauds. For these reasons I deem it advisable to

13555 Fort St. George 10th October 1850

to let out the Farm for the remainder of this Fusly, and 850 Rupees are now offered for it by one Davaty Soobiah - This is 90 Rupees higher than the offer Rupees 760 received at the time when I last wrote, and under present circumstances I recommend its acceptance on the renter furnishing the usual deposit and security supposing the Farm to be made over to him on the 12th of this Month, he will be entitled to a deduction for 3 Months of Rupees 212 - 8 - and I beg to be favored with the early orders of the Board on the subject -

The Board's recommendation in respect to the Enams in question is entered in the Tabular Report of lapse Enclosure 2 to the Acting Collector's letter of the 14th November 1849.

Recommendation of the Board.

Under all the circumstances represented in the Acting Collector's letters of the 14th November 1849 and 18th September 1850, the Board of Revenue recommend the last mentioned course suggested in para 13 of his communication of the 14th November 1849, namely that the actual possessors be recognized as the proprietors of their respective holdings and that their shares be made over to them in their own names.

The several holdings which

which would thus require to be confirmed are as follows.-

Sir,

From the Agent to the Governor of Fort St. George Reporting on Petition No. 1633 of 1850 presented by certain Mutton Butchers

I have the honor to acknowledge the Petition No. 1633 of 1850 addressed to the Government and to the Board of

Butchers of Kurnool.

of Revenue by certain Mutton Butchers of Kurnool with the endorsement by you referring it to me for report.

2. As the arrangements which I have made since my arrival here I believe removed the principal grievance of which the Petitioners complain, it will I trust be unnecessary for me to enter at any considerable length into the subject.

3. Before my arrival in Kurnool the Butchers had agreed that for Fusly 1260 the Veesabuddy Tax of one anna and 6 pies per sheep, as originally fixed by the first Commissioner Mr. Blane should be paid by the trade on a computation of their killing 93 Sheep daily. On this head I received no complaints, but they brought forward their grievance of being forced to sell the skins at a fixed rate, which they considered far below their value to one person, and of the injury which they were likely to sustain from the skins being detained in deposit until they could agree to the terms imposed by the purchaser.

4. It appears that under the

the head of Veesabuddy there has been collected the Amount entered in the Margin from the individual who has been in the habit of purchasing the skins from the Butchers.

Fusly	R.	A.	P.
1255	405	—	4
1256	385	—	4
1257	385	—	4
1258	395	—	4
1259	714	—	—

The price usually given was 8 Rupees per 100 and it was only last year that the Butchers became aware that the price in Madras was 30 Rupees per 100 skins. Last year there was competition for the privilege which explains the rise in the Amount. Although up to last year there had been no price fixed by the Commissioner to be given to the Butchers, the system had in its working become an oppressive Monopoly which was only not felt because the Butchers were unaware of the lowness of the price paid to them, and were on good terms with the purchaser. Shortly before the departure of Mr. Phillips the contention between the parties came constantly before him, he fixed the rate at 12 Rupees per 100 until the close of the Fusly, after which the skins were detained

detained in deposit until the matter should be settled.

5. The Arrangement which has been now made entirely removes all the evils of such a System. The sum paid last year by the Butchers was 2,604 and by the purchaser of the Skins Rupees 714 making a total of 3318 Rupees. From what I have heard during my short residence here I am not induced to think that the Amount which the Butchers contribute presses too severely on them, and with this impression on my mind I have not thought that any good reasons exist for the Government share of the profits upon the 2 trades of Butcher and Currier being fixed at a less amount than it was last year.

6. The Butchers have voluntarily agreed to pay 3000 Rupees for the present year or Rupees 396 beyond that previously placed upon them, on the understanding that they are to have the privilege of disposing of the Skins to whom they choose, without the slightest interference from any one. For the remaining

sum of Rupees 318 — " — " a Currier of respectability has made himself answerable on behalf of the traders of that class in Kurnool. This arrangement has entirely removed the main grievance of which the Butchers complained, and I trust there will be no difficulty in the future realization of the sum fixed. — Should You further acquaintance with the details of Veesabuddy Tax, and with its bearing upon the Traders of Kurnool see any reasons for believing it to be oppressive I shall at once adopt such measures as may seem most calculated to remove or lessen the grievance complained of.

Stating the practicability of letting out certain Government Plantations on leases and communicating the offers received for the consideration of the Board.

Sir

In reply to that part of your Board's proceedings dated 15th April last which requires explanation whether the employment of Gardeners in certain Government Plantations cannot be dispensed with, and whether the Plantation cannot be made over to the Head inhabitants of the Villages in which they are situated or to other parties, on conditions which will ensure their being preserved. I have the honor to state that offers have been received from individuals of respectability to take a lease of the Plantations in question which are situated at Paigepoor and Wonalore, for periods of 31 and 5 years,

at

Fort St. George 10th October 1850.

at Rupees 36 and Rupees 38 per annum should the Board be pleased to authorize the acceptance of these offers, the services of the three Gardeniers who have hitherto cost the state 72 Rupees a year may at once be discontinued.

2. I beg to add that I myself suggested that leases for a period of 31 years should be obtained if possible from such parties as might be desirous of coming forward to rent the gardens because from observations made when I was in Hurnool, I have received the impression that the Nawab's Orchards in that province are not carefully preserved or fairly looked after under the five years leases which there prevail, and I apprehend that it will be almost impracticable so to arrange that the renters, particularly during the last year of the five, shall not be slack in the performance of their engagements to preserve the trees as if they were

Affording explanation for the delay in submitting the decrees in the suits filed against the Collector in the Courts.

Sir,

I have the honor to acknowledge the receipt of the Proceedings of the Board of Revenue under date the 19th Instant, and to regret that I cannot offer what I consider a Satisfactory reason for the delay in submitting the Decrees alluded to.

2 When I came to the District there were a great many Suits in prosecution against my Predecessor

Predecessor and I gave orders in my office that as Decisions were passed they should be brought up to me in due course for report. Several have been reported accordingly and others, being connected with the Rainnad and Shevagunga Zemindaries restored to the proprietors subsequently to the institution of the suits did not need report. In looking over the accounts of Law charges recoverable from the opposing parties which were still outstanding I discovered the non submission of the decrees in the suits adverted to in the Board's Proceedings one of which had been decided before. I came to the District and made an application for copies which were received during my absence on leave.

Exhibit No 137 of 1844 Decree dated 31st December 1846

Instituted in the Subordinate Court by Meenatchee Ammee of Madura against the Collector and two others for recovery of some building ground alleged to be her ancestral property. The Decree nonsuited the Plaintiff with costs as she produced no title deeds and the evidences given by her Witnesses was contradictory & vague and unsatisfactory.

Exhibit No 9 of 1845 Decree dated 2d December 1848.

Instituted in the Subordinate Court by Ammuda Narrainen and on his death by his brother the guardian of his Widow and adopted son against the Collector and four others to establish a right to certain lands and to recover from the 5th defendant the profit from certain portion of it after paying Kist for Fasly 1255.

The Decree nonsuited the Plaintiff with costs as the lands were waste lands and were consequently at the disposal of the Circar.

Exhibit No 2 of 1847 Decree dated 7th Decr 1848.

Instituted in the Subordinate Court by

by Venkatasawmy Naicker against the Collector and five others to restrain them from opposing the erection by them of Houses &c &c on two grounds.

By the Decree the Defendants were ordered to desist from opposing Plaintiff in the erection of the Houses &c on the grounds and directed the 1st Defendant the Collector to bear all the costs. as the grounds had been sold to Plaintiff and the money paid and the reasons given by defendants for cancelling the sale were insufficient and the advantages and convenience of 4th 5th and 6th defendants would not be materially affected by the Plaintiffs erecting the Houses &c.

Exhibit No 13 of 1847 Decree dated 19th Feby 1850

In this suit brought before the Subordinate Court by Veeravanday Pillay and six others the Collector was only a supplemental defendant the plaintiffs sought to restrain the removal of the bund of a Tank. The Decree nonsuited the Plaintiffs with costs as they failed to produce documents or evidence to shew that the Tank referred to ever existed or that they derived any supply of Water therefrom and as the dams which they erected was across the stream of Water leading to a Tank called Nanthe-
-colum and had been removed because it interfered

interfered with the rights of the defendants supply of water from that Tank.

In Osuit No 7 of 1846 it is stated that a settlement was made by Rajeswaramah and that the costs in that suit as well as in Osuits No 137 of 1844 and 9 of 1845 have been recovered. In Osuit No 4 of 1847 the costs have also been recovered, the Plaintiff having given a Rajeswaramah but the Plaintiffs in Osuit No 13 of 1847 have appealed to the Civil Courts against the decision of the subordinate Court.

From D. 21st D.
in Cons. 5th Novr 1850

From the Collectors letter of the 20th September 1850 it would appear that the order of Government No 284 dated the 1st March 1842 desiring that Collectors duly report to Government the result of all suits instituted in the Courts against the local authorities and authorized to be defended at the public cost, is not generally understood. The Board therefore resolve to call the attention of Collectors to this subject.

From the Coll. of Madura Reporting on Petition No 1663 of 1850

Para 1. In explanation of Petition No 1663 of 1850, herewith returned, I have the honor to state that in 1847 the Petitioner complained to the Head of Police of Ramnad against Mootanen mentioned in the Petition of disturbing him in possession of a piece of his Poonjah land consisting of 6 Coorkums. The Head of Police found by enquiry that the previous possession was with Mootanen and his decision was confirmed in Appeal by the late Acting Head Assistant Magistrate under date the 11th December of the same year.

2, In January 1850 the abovementioned Mootanen having presented a petition to the present Acting Head Assistant Magistrate accusing one RacKappen and others

the

/the former of whom has been acknowledged by the Petitioner to be his Punnagiar/ of having illegally carried away the produce of the land in question, it was referred to the Head of Police, before whom the case was settled by a compromise between the parties in favor of Mootanen.

3 A subsequent Petition of the Petitioner has been rejected by an Endorsement of the Acting Head Assistant Magistrate and it is evident that the Petitioner should have either appealed to the Sessions Court against the former order or should seek redress in the Civil Courts.

Order thereon,

allowance for the deficiency discovered are correct. Major Macleod's Rules upon this subject appear to have been lost sight of and other Rules and practices by which all differences above or below 6¼ per Cent were taken to account or permitted, seem to have sprung up. Under what circumstances or upon what authority, this Standard was assumed, the records do not explain. Even this practice, as observed in para 31 of Mr. Wroughton's report of the 21st November 1816 No 76 has been allowed to fall into disuetude as respects the deficiency for which remission was to be allowed to the Ryot the increase in favor of Government being alone brought to account.

4 In para 2 of the Kookoomanah framed by the former Principal Collector Mr. Dorry and sanctioned by the Board on the 1st April 1841. the Rule objected to by Mr. Bird, would appear to have been authorized. It is there laid down that in cases of "deficiency of measurement," Ryots willonly be allowed to relinquish such lands "according to the general rule of "relinquishing good and bad lands

"lands in equal proportion," which practically implies in most cases denial of remission. In an instance which occurred subsequently this rule has been carried out, and the Board of Revenue concurred.

5 It appears now inexpedient to review what has already passed, and whatever may have been the late practice whether authorized or not, the Board have finally determined the course to be pursued in similar cases, in para 9 of Extract from their Proceedings of the 5th October 1848 in which they have directed the adoption of Major Macleods' Rules. I would, however, observe that this cannot well be acted upon at once simultaneously throughout the District tho' just and necessary without difficulty and confusion. In 1839 the instructions conveyed in that Rule were carried out under very careful enquiry on the spot in the Taluk of Perode where Complaints against the former measurment as the Board are aware were numerous and serious. The remission necessary amounted to Pd. 1308 as noted in the margin

During

6. During the annual Revenue Settlements of each Talook the same course will be gradually followed and I would beg to assure the Board that no remission will be granted, except upon a searching examination of the accounts and personal inspection and correct measurement of fields. That some such relief is absolutely required in many Talooks, I am fully convinced; but it has been, and will be, my earnest endeavour to carry it out gradually, and cautiously, and in accordance with what I believe to be the Board's wishes and views.

Sir,

I find a practice in force in my division which I am assured by my Shrishtadar, is authorized by use throughout the District since Fasly 1255 and therefore not to be broken through without special authority. It is however one of which the justice to my mind, is more than questionable, and the expediency hardly less doubtful. I feel therefore that I owe it equally to myself, as to the people whose interests I am bound to watch over, as much as over those of Government not to give this practice the sanction of my observance, without ascertaining that the authority of the Principal Collector requires it to be adhered to. The practice I refer to is that of occasionally measuring the lands of Villages and wherever an increase is discovered in any individual field, to add it to the quantity heretofore on the

the authority of the Survey accountants set down in the Puttah of the occupant, first when a decrease appears, in no case to make a Remission for it.—

2. I have carefully enquired how this practice has originated, but cannot hear of it's having ever received any positive sanction. I have been shewn Paras 17 and 18 of the Copy furnished by you to this Office, of Extracts from the Proceeding of the Board of Revenue dated 1st June 1843, containing the Board's remarks upon the Summabundy Report of this District for July 1251 and it is evident the subject has heretofore attracted attention, but I cannot find that any authoritative decision has been given.—

3. In the Chuckraybery Talook consisting of 97 Villages, where I am now engaged in settling the Summabundy, twenty seven has this year been examined by measurement from a suspicion of the Survey accounts not being correct, and the result has been the entry of a larger extent of land in a great many

many Puttahs and the discovery of a great number of formerly over-measured Lands, none of the accounts for which, I am told I am at liberty to correct.—

4 The majority of the errors discovered of either kind are of extremely minute amount and in great many instances, the increase found in one plot of ground is matched by a corresponding or nearly corresponding decrease in the adjoining one, leading to an inference generally, and I believe in most cases correctly held that the discrepancies are the effects merely of encroachments; for the cases spoken of Para 18 of the Board's Proceedings above quoted, are very rarely to be found. Yet the increase in one plot of ground is carried to account, but the decrease in the other not allowed for.—

5. Such cases as that just described are of no great consequence as respects the infliction of a burden upon the Ryots, but I am of opinion that they are very mischievous as giving fair occasion for an unfavorable opinion of the Justice of our revenue administration and thereby creating disaffection. There are however instances in which the rule I am advised to

Fort St. George 10th October 1850.

to follow is a real hardship and I may instance that in one Village a piece of ground according to the Survey accounts contains 64 3/4 Pullahs and is taxed accordingly, it is now ascertained to be about 54 1/2.—

It perhaps does not behove me to offer an opinion as to what should be the rule in these cases: but it seems to me that there should be a latitude given to the Survey accounts so that discrepancies ascertained within a certain per centage either way should not be taken as sufficient cause for altering the amount heretofore set down in the Puttahs, while for greater differences the Ryot should be allowed the benefit when they are in his favor as well as Government when in theirs.—

I propose in order not to lose time in making the Summabundy to follow what I am informed is the rule with the understanding that should your instructions authorize a change, the requisite correction shall hereafter be made.—

No 2

To,
J. C. Wroughton Esqre.
Principal Collector of
Coimbatore.

Sir,

In Compliance with your instructions of 12th March last Para 2, and with reference to Para 7 of my report upon the Settlement of this Division for last Fasly, I have now the honor to submit the following observations illustrative of the subject respecting which I had the honor to address you on the 28th of last February.

In that letter I adverted to the practice I found in force of "occasionally "measuring the lands of Villages, and whenever "an increase is discovered in any individual "field to add it to the quantity heretofore "on the authority of the Survey accounts, &c "down in the Puttah of the occupant, but when "a decrease appears, in no case to make a re- "mission for it"-and of this practice I remarked "that the justice to my mind is more than questionable, "and the expediency hardly less doubtful." The number of instances in which this practice was brought into effect at the recent Summabundy, was

two

too great to be set forth in detail on this occasion, but trust that the tabular statements which accompany this report, will serve sufficiently well to expose the grievances I desire to bring to notice and to lead to its correction—

Table No. 1 contains the result of the examinations of the 27 Villages in the Chucrabagherry Talook, to which I adverted in my letter of 28th of February - The figures set down in Columns 3 4 and 5 are the sum total of Bullahs in each Village of the several fields, or more properly speaking, of the Survey divisions known by the revenue term of Caulie in which some difference from the Survey accounts was ascertained by measurement, what portion of each Village was thus found not to agree with the old accounts may be seen by comparing Column 3 of this Table with Column 3 of Table No. 2—

Altogether it appears, there was found an increase of Bullahs 387-7- rated at Rupees 1,645—7—10 and a decrease of Bullahs 155-9- rated at Rupees 634-9-6.

The

The Summabundy Settlement, vide total of Columns 11 and 12 of the Table No. 2 included the whole of the Increase, and no allowance for the decrease, and that as I was instructed by my Serishtadar, in Conformity with the long established usage of the District—

The grievances seem to me sufficiently great as thus stated, but these accounts do not afford a full view of it; for it has come to my knowledge by questioning several Ryots whom I met on the spot, that lands known to be of less extent than stated in the Survey accounts were not entered in the examination, the object being to discover increase, and there not being any purpose to be answered by bringing to light the opposite error. That this assertion is true, seems proved by the fact that the deficiency of above ten Bullahs in one piece of ground or "Caulie" which I instanced in para 3 of my letter of 28th Febuary exists in the Village of Poolavandy The fact was previously known and accordingly at the late examinations no notice was taken

of

of it, and Table No. 1 shows, for the Village of Poolavandy an increase of nearly 4 Bullocks and no instance of decrease whatever. Indeed I believe that generally, even ascertained deficiencies were left out of the reports of the Examiners as serving only unnecessarily to swell the accounts.

I now beg to direct attention to Tabular Statement No. 3 which gives the particulars of differences brought to notice in Veerakulputty one of the 27 Villages above alluded to and will suffice as a sample of the manner in which these examinations are made, and the use to which they are applied, indeed not convenient, and shall only pick out two instances among many of the grievance I am endeavouring to bring under consideration—

1st Vencata Naik, the Ryot distinguished as No. 19 it will be seen, holds certain lands in a portion of which has been found a deficiency of 2½ Sixteenths of a Bullah the Tax upon which is Annas 13—3, while in other parts of his holding, an increase of 1½ Sixteenth of a Bullah was discovered taxable with Annas 7—10. His addition is accordingly

accordingly has been laid upon him without exempting him the 13 Annas 3 piece for the decrease—

2d Three Ryots Mourappagounden No. 23 Moolavoir Soobbandagounden No. 139. and Curnur Annavalinga Moodelly No. 168. occupy parts of one and the same Survey Division of the Village on Cadie, named Caravailawurattoo Candoo and numbered 44. In the portions of this piece of ground enjoyed by the two first named Ryots were found, respectively 7/16 and 1/16 of a Bullah less land than they had previously been accounted to hold and for which they paid. The ground in the occupation of the last named Ryot on the contrary, was discovered to be 3/16 of a Bullah in excess of the extent formerly entered in his Pottah. He is now charged for the excess and the other two continue to pay for the 7½/16 of a Bullah which is now known to be wanting—

There are other instances of similar kinds which I might adduce but I think I have said enough to justify my observation on the 28th of February, "that cases like these "even when of no great consequence as respects the

Fort St. George 10th October 1850.

"the infliction of a burden upon the Ryots
"are nevertheless very mischievous indeed
"as giving fair occasion for an unfavorable
"opinion of the Justice of our Revenue ad-
"ministration and thereby creating disaffection".

I have in Conclusion only to report in the words of Para 6 of my above mentioned letter that "it perhaps does not behove me to "offer an opinion as to what should be the rule "in these cases, but it seems to me that there "should be a latitude given to the Survey Accounts "so that discrepancies ascertained within a certain "percentage either way should not be taken "as sufficient Cause for altering the Amount "heretofore set down in the Puttahs, while "for greater differences, the Ryot should be "allowed the benefit, when they are in his "favor as well as Government when in theirs".

Proceedings thereon—

Submitting with reference to Extracts & Minutes of Consultation

+ Extract Minutes of Consultation 19th May 1849 para 3 & Cons 31st May 1849.

The explanations afforded in the above letter are the result of the remarks made by Government on the Sub Collector's Report on the

Fort St. George 10th October 1850.

Consultation 18th May 1849 a letter from the Acting Principal Collector of Combaconum transmitting the explanation called for on the Sub Collector's Report on the Summabundy of the Sub division for Fusly 1257—

the Summabundy of the Subdivision for Fusly 1257—

2. Mr. Bird left the District very soon after Copy of these observations reached his Office, but as he had previously explained his view fully on the Subject the present Acting Principal Collector has forwarded Copies of 2 letters* from Mr. Bird to Mr. Wroughton the then Collector in which he states his objections to the practice of charging for excess of measurement without allowing remission for deficient measurement, and giving instances—

3. It will be observed that the date of Mr. Bird's Summabundy Report, in which are the paras noticed by Government is 11th October 1848. It will not therefore be necessary to discuss the merits of the practice in-as-much as the Board in their Proceedings of 5th October 1848 (Para 9) which Mr. Bird could not have seen,* directed that the present practice should be discontinued, and the Rule adopted which was laid down by Major Macleod for his Testing Surveyors

Enc. No. 21 in Proc. Consultation 30th November 1848 in Cons. 16th April 1849—.

Surveyors, and a Strict adherence to this Rule was again desired by the Board in reply to a reference from the present Acting Principal Collector-

4 The rule therefore as it now stands is this. I If in Poonjah land there is found to be an excess above 1/8 (12½ per Cent) or in Nunjah above 1/10 (10 per Cent) such portion of land as is beyond this allowance is liable to tarwa. II If in Poonjah Land there is found a deficiency, the field shall be considered as if it were the full Registered Size unless that deficiency exceeds 1/8 (6¼ per Cent) or in Nunjah 1/20 (5 per Cent) and in this case the Extent beyond the 1/8 or the 1/20 shall not be Charged-

5 This order seems to have given Satisfaction, and will it is hoped remedy the anomaly of which Mr Bird justly complained.

Ordered that a Copy of the foregoing Extract be submitted to Government and a transcript of the same be forwarded to the Acting Principal Collector of Coimbatore-
