No. 187-

To

W. H. Bayley Esqre.

Secretary to the

Board of Revenue,

Bd. No. 3215

From the Collector of Madura

Report on the Settlement of the Districts of Madura and Dindigul for Fusly 1259.

Sir,

Fort St. George.

Para 1. I have the honor to transmit the prescribed accounts, according to an Enclosed List, shewing the Details of the Settlement of the Madura District in Fusly 1259, and the Report of the Acting Sub-Collector Mr. Cochrane on the Talooks composing the Sub Division, which were settled by him - Of the 4 Talooks composing the Principal Division, the Acting Head Assistant Mr. Hodgson made the Settlement of Tirumungalum, and assisted me by delivering the Puttahs of 18 Villages in Madaculum of which the previous details had been conducted by myself..

Season.

2. My letters to the Board under dates the 20th March and 30th May last informed them that the Season of Fusly

Fusly 1259 was on the whole very unfavorable. The quantity of Rain which fell during the South West Monsoon was less than usual and the North East Monsoon may be said to have wholly failed - There were showers in April when an early rice crop was sown and Poonjah lands ploughed - In May and June the supply was generally deficient - In July there was more rain - Up to the end of this Month there had been an Increase both in Poonjah and Punjah Cultivation - In August, September and October there were partial falls and moderate freshes in the Vigay owing to rain on the Western Hills - The Eastern and Northern Talooks received very little rain in these Months, and the North Eastern Monsoon, on which they chiefly depend, failed entirely in this part of the District - In January and February there were showers in the Tenkurray, Tyempilly and Peroomungalum Talooks, which were too late to be of much

much service.

3. The effect of the Season on the several Talooks varied according to their situation with regard to the Western Mountains - The Tenkurray and Pillacottah Talooks of the Sub Division which are enclosed between the Pulney and Secondary Range and receive the first drainage of the former, were tolerably well supplied, and in the Madaciolum Talook belonging to the Principal Division which though at some distance is traversed by the River Vigay flowing from the West, the Poonjah lands dependent on the River obtained sufficient irrigation, but its rain fed Tanks received very little water - The Peroomungalum Talook in the Principal Division was next in degree, some of its Tanks being supplied by streams flowing from the Secondary range of Hills - The other Talooks both in the Principal and Sub Divisions suffered very much, but most of all the Periyar Talook

of

of the Principal Division, which lies farthest East and whose small Tanks with the trifling exceptions dependent on the falling rains require to be filled twice or oftener to bring the Crops under them to maturity. The Shevagungah and Ramnad Zemindaries both experienced drought to a great degree; even those parts irrigated by the Vigay; for the supply in that River being less than usual was absorbed by the Channels in the Government Talooks lying nearer it's source.-

4. The Poonjah Crops were moderately good, as were those wet crops irrigated from Rivers and Tanks fed by them, and the Sub Collector reports that the Garden Cultivation which is situated chiefly in the Dindigul Division, yielded a full crop for the first and $\frac{2}{3}$ Crop for the second harvest - Under Tanks supplied by falling rains, the Crop was either scanty or withered entirely.- In Mayloor there was a scarcity even of drinking water.-

5. In the course of the year the

Inhabitants.

Inhabitants of several parts suffered from Cholera and Fever, and Cattle from a variety of Complaints; but no Disease arrived at any great height.-

6. The Prices which prevailed are shewn in the subjoined Table framed from the Data of the Madura Market which are supposed to be near the average: It will be seen that the Prices of the chief articles of Produce were below those of the preceding year - but Rice still sold above the Fysul Rates - I attribute the prices falling in a bad year partly to import from the neighbouring Districts, and partly to the produce of the preceding Fusly having been so large as to leave a considerable Stock on hand.-

8. It is necessary to remark here that the Settlement of 3 of the Talooks of the Principal Division was affected not only by the nature of the season but also by assumptions of and exchanges with Devastanum lands made under the Board's instructions and shown at large in the Correspondence in the Margin.

Dittum called in Madura Puttadup

12 There was a net decrease of 54,031 3 3 in the extent of land taken up as compared with the preceding year. It occurred chiefly in the Meylore Ramgherry and Veroomungalum Talooks of the Principal Division in which the badness of the season became apparent before the allotment was concluded, and it comprizes a large extent of Poonjah waste to which the feeling of ownership and consequent dislike to relinquish do not apply so strongly as to Wet and Garden lands. It is to be observed also that the Cultivation of the preceding year was more than ordinarily extensive, especially in Meylore. The observations of the Board in Para 2 of their Proceedings on the Settlement of Fusly 1258 will be impressed on the Tahsildars.

13 The reduction in the extent of land occupied diminished the amount of remission for land left waste notwithstanding the adversity of the season. There was a decrease of Rupees 1,934-7-3 also in the extent waste retained in the settlement the assessment on which was Rupees 8,155-13-9 in Fusly 1258 and Rs 6,821-6-6

According

From Collector dated 20th March 1850 Do. Do. 30th May 1850.

5671

Fort St George 28th April 1857.

18 According to the Standing Rules after the receipt of Statements of withered Crops from the Village Curnums an examination was made by the Tahsildars Mozoomdars and other Talook Servants and in some instances of suspicion by servants deputed from the Huzzoor Cutcherry The general deficiency or utter want of water in Tank fed tanks were facts observed by myself and other European Revenue Officers as well as the Officers of Engineers in our Circuits—

19 With the permission of the Board granted in consequence of the Reports noted in the Margin the following relaxation of the Standing Rules were allowed in Consideration of the great drought 1st Crops eaten off by Cattle or absent from other causes were not excluded from remission when otherwise satisfactorily proved to have perished 2nd Remission was allowed for first or second Crop which perished altho another Crop was raised on the same land, the tax of the Crop raised being of Course exacted. In the sub Division where the assessment

a assessment of Wet land is paid without reference to the number of Crops in each & year this relaxation did not apply.—

20 As usual remission was regulated by a Combined consideration of produce and price the gain of the Ryots on the fields which produced by an excess of the market price of the day over that which prevailed when the assess-ment was fixed being deducted from the assessment of the & fields which withered and the Balance written off as was done in Fasly 1258.—

21 In the Sub Division where the drought was more moder-rate the usual practice of not taking into consideration inconsider-able amounts of withered Crops as compared with the total produce was adhered to, but in the Princi-pal Division where the produce of yielding Crops was much below the average I deemed it desirable to

to afford relief in these cases also.

22 I do not think that any practicable caution was neg-lected in examination of the & claims to this remission In the Meylore Taluk where it was & most required the drought was very severe and I am sorry to say the sufferings of the people enabled some notoriously bad Characters & little affected themselves to excite them to clamour against the fair, and in other Districts long established Rule of taking price into consideration; and to refuse their Puttahs because I would not surrender it— As I excluded from the calculation of gain by Price those lands the Crops on which were palpably deficient, it is obvious, that only such persons were subject to this reduction in the Remission as obtained Crops which with & reference to the Market rate of the & years were under assessed: & and I found on enquiry, that the most noisy were & in reality very little, if at all

Concerned

concerned I carefully explained the principle of the rule as well as the relaxations which the Board had allowed and so far allayed the ferment as to reduce the objectors to the single argument that it had not been customary in former times The conduct of some of the Individuals who plainly instigated the others was so unreasonable and turbulent as to lead me to regret that Regulation 3 of 1831 which renders a Ryot liable to punishment for refusing to attending a settlement does not extend to those who decline without a colourable excuse.—

The Board having directed in Para 6 of their Proceedings on the settlement of Fasly 1258. that as regards Trees on Cultivated lands the assessment of the land shall form the demands in all cases this Rule will be observed to the full extent in future Fasles.— When the number of Trees in a field is great, a difficulty was felt whether it

Increase 15-7-	

This remission was allowed in the sub Division owing to the Cowle holder having fallen into indigence.—

Of the other remissions some peculiar to the Cuddapah Division will be found explained in the sub Collector's Report, and others require no remarks.—

This Decrease is the amount of Dist Rent on Villages surrendered to the Devastanums in full Enam in exchange for Villages and Lands received from them under the Sanction of the Board noted in the Margin† For fuller explanation I beg to refer to a separate Statement marked A and to the Remarks in a subsequent portion of the Report on the Statistics of the District.—

This large Decrease Consists of 4439 3 10 in the Dindigul Division and 57 17 3 1 in the Ramgherry Taloot of the Madura Division—The former item is owing to the suspension of the levy of the tax in the Sub Division in consequence of the Remarks contained in the Proceedings of the Board dated 30th July 1849 Para 12— The latter arose partly from the

the drought and party from the Ryots having ascertained that the quantity of land they had appropriated was more than sufficient for their Cattle or more than they could afford to pay for and therefore resigned it— I subjoin an abstract Statement from which it will be seen that there was but a very trifling decrease in the land occupied for grazing under the rule allowing land for this purpose to the extent of 1/5th of the holding at 1/4th the full Assessment but that no land was offered for over and above, and no Assessment was levied on Dittum waste under this Head on account of its having been retained for grazing— The absence of grass was perhaps more or less the Cause of the first, and under the Circumstances of the season I deemed it inexpedient to make a severe Scrutiny as to whether the Dittum waste had been used for grazing— A report on the mode in which I would recommend this tax being levied in future will be submitted separately.

Recoverable Balance-

35. Of this Balance the Amount due for Fusly 1257 is quit rent &c. outstanding against two Individuals / the property of one of whom, who is a defaulter to the Amount of 26-1-11 is sequestered by the Civil Court / who will make over the Balance when the sale takes place. The remainder, Viz. as P 4-3 will be recovered immediately. The Balance for 1258 is owing by very poor Ryots who will pay the same with the Kists of the Current year.

Doubtful- 36. Of this Balance the sum of 6-15-5 for 3 Fusles is standing against one individual on account of a boundary dispute which has been to a considerable extent investigated, & will be decided on receipt of answers to the questions asked on the last Talooks report. The Collections of 5-5-9 also depends on the decision of a Boundary dispute under enquiry and the remainder 77-9-1 is in deposit but not

not carried to account owing to the correctness of the entry by the Tahsildar of lands in a superior class, which led to the increased demand, having been challenged. Several orders have been despatched calling for a final Report.

Irrecoverable 3-2-11 / 3-5-" 37. Certain lands on remeasurement were found deficient to the extent noted in the Margin, which is above the limit allowed.

38-1-4 / 35-6-7 38. These Items form half the Teerwa the first of land on which Seed Plants had been raised, and which was afterwards left uncultivated, and the 2d for very low lying fields left waste, without, as was considered at the Jumma bundy, due cause being assigned. On subsequent representations, I considered that the neglect of the Ryots would sufficiently visited by exaction of half the Teerwa which has been paid.

2-8-9 39. On enquiry the lands charged with this assessment was found to be Enam.

11-9-5- 40. This land on enquiry was found to belong to the Aminadinore Zemindary.

18-7-3. 41. This is the Teerwa erroneously charged on certain Palmira trees which bore no Fruit.

42. These irrecoverable Balances amounting in the aggregate to Rupees 112-9-3 I recommend to be written off.

43. Subjoined is an explanation of the old Balances against Zemindaries

44. These Balances will be collected at the rate of 1,500 per Annum from the Renter of the Estate under the orders of Government dated the 18th June 1850 and the Board's Proceedings of the 2d September 1850.

45. These Balances are nominal having accrued during the management of Government Officers undertaken to improve the resources of the Estate which had been thrown up by the Zemindar on the ground of its being inadequate to pay the Peshcush. Mr. Blackburne submitted a report on the 24th December 1846 which remains unanswered.

Rent Roll

49. Comparing the Rent Roll with that of Fusly 1268, an Increase of 1 Puttah between 500 and 750 Rupees will be found in each of the Talooks of Madacolum and Veroomungalum. The former is owing to an increase in the farm of a Ryot who in the preceding year held a Puttah of 396-7-7. The latter is owing to an error in the Rent Roll of 1258 which should have contained a similar entry. The Decrease in the Amount of other large Puttahs in the Collectors Talooks arose from the adversity of the season. The difference between the No. of Joint Puttahs as entered in the Rent Roll of Fusly 1258 and in that of the present year is shewn in the Margin and is owing to the ignorance of the Tahsildars as mentioned in my letter of the 30th September last, of the meaning of the Term "Goonchee" a Joint Puttah. They have now entered under this Head all Puttahs held in the names of more than one Ryot. The Partners mentioned in the Sub Collectors Report are persons having a share in the profits of the Farm without entry of their names in the Puttah. The number of such persons and extent of Joint Puttahs in the

Fort St. George 28th April 1851

No. 1 in 5. Statement explaining the decrease in the Dahot Pooroopoo Bariz of Fusly 1259 in Comparison with that of Fusly 1258 (Vide Colr. 335 and 336 in Statement No. 5 of Fusly 1259)

1	Amount of Dahot Pooroopoo Bariz. 2 Rupees A P	Detail of Colum 1. 3		Remarks. 4
As per Statement No. 5 of Fusly 1258 ———	15,065 6 9	As per Statement A forwarded to Board under date the 14th April 1849-		
Deduct-		Pooroopoo of Kullay Villages granted by Teromala Naick - - - - - - - - -	462 7 1	The Slight difference between 4971-10-7- and 4969-8-9 is owing to Cullar Canvooly and Paudy Canvooly lands having been Cultivated less than in Fusly 1254-

Para 9. In the Tadcombo Talook owing to the increased Cultivation during the past Year the Ryots were in hopes of a successful Crop this Year also, and consequently many brought Cattle and Ploughs to Cultivate the Land but unfortunately, owing to the want of Rain they were unable to do so, and dissolved partnership with each other, and gave up their Land. A great number of Emigrants left this Talook also to proceed to Ceylon.—

Para 10 In the Inemtully Talook owing to the same cause Viz.t the scarcity of Rain a considerable decrease has taken place in some of the Cultivators, who were in possession of Land of their own gave it up, and took a share with others, which is the cause of the Increase of Partnership.

Para 11. In the Tenkarany Talook, both in the last and present Fusslies there was an Increase. Formerly a great number of Ryots were in Partnership but owing to their success, they broke up their partnership, and took Land seperately for themselves.

Para 12. The Nellacottah Talook is much the same as Tenkarany shewing an Increase

Fort St. George 28th April 1851

Para 16. It will be observed in the above Statement that Compared with the past Fusly 1250, the prices of the various sorts of Grain Pulse and Vetches, were somewhat lower in the Fusly under report, excepting two articles Viz. Koorooveer Nellee and Castor oil seed, on which the prices were a trifle higher-

Para 17. The increased price on Castor oil seed, is ascribed to the scanty supply of rain both at the sowing and reaping season which necessarily brought on a scarcity for this article.—

Para 18. The increased price on Koorooveer nellee paddy is attributed to small produce in this District, from a small supply of rain, and to the non-importation of the same from others.

Para 19. Although the Cultivation of the present Fusly has been less than the Year before, yet the Population and Cattle were, as stated in Para 5, in a healthy and flourishing Condition, in the whole of the Sub Division, excepting five Villages where the people suffered from Cholera and Fever. Many of the principal Roads too being in good order the Merchants, without any apparent difficulty brought in several kinds of grain for disposal from the neighbouring countries. Hence the prices became

Fort St. George 28th April 1851

became generally low during this Fusly. The Kist money was Collected in a regular way without the necessity of attaching any of the Ryots property. In a few instances only it was realized with some difficulty owing to the low prices obtained by the Ryots for their produce.

Average produce.

Para 20 In a general point of view the average Crop on Punjah may be taken at 3/4ths; on the Nunjah at 2/3ds; there was however a fair or full Crop on the Baghayt or Punjah Gardens for the 1st harvest called Kalum, but the 2nd or Koday crop produced only 2/3ds owing to the scarcity of water. The Vanapyre or Nunjah Gardens gave a full return in many places where there was a sufficient quantity of water

The Dittam

Para 21. The annexed Statement of the Dittam and the Cultivation &c of Land in Dindigul, will I hope be found to supply the particulars required by the Board in Para 2 of their Proceedings under date 12th August 1850.—

5961

Fort St. George 20th April 1851

Para 22. With reference to Para 2 of the Board's Proceedings quoted above wherein it is stated that "the principles of the Dittam are "imperfectly understood," I beg to state that the Lands alluded to therein were Cultivated entirely by the free will and consent of the Ryots themselves. Finding that there were other waste lands in the neighbourhood, disengaged and more fertile than their own they preferred Cultivating them even after the Dittam had been made out. Those lands did not therefore form a portion of the ordinary holdings of the Ryots," and as such they were not included in the Dittam

*Col 7 of Statement appended to Para 14 of the acting Sub Collectors Report for Fusly 1250.

Para 23. After the Dittams were made out and the Ryots had Cultivated their lands from want of rain, some of their Crops perished, and Remissions were obliged to be given for the same.—

Para 24 The following Statement will show the number of Ploughs employed in the agriculture of the 4 Talooks the extent of land Cultivated, the number of Cultivators, and the Collections of Teerwah, as Compared with the two last Fusles 1257 and 1258.—

Remarks

Remarks for Statement No. IX.-

No. 1. In consequence of the Cultivation being some-what less this Year, it has equally affected the Amount of the Wastes Mag Remissions granted during that Period, hence the decrease under this head.-

No. 2 The same remarks apply to Inamadar Cumvy or Dismissions.-

No. 3. The increase in this of Unjah Shavy Mag is accounted for in Paragraph 3 of this Report.

No. 4. The Sum of Rupees 602-14-2 between the Amount remitted last Year and that in the present Account of Decayed Ryotwar Lands because a fair proportion of the Land of Cultivation demanded Lands have had Remissions this Year.

No. 5. The Increase in the item of Cowle Mag. is attributable to more land having been taken up this year than in the last.-

No. 6. The same remark applies to the additional Remission granted this year for the Sugar Cultivation.-

No. 7. A remission of Rupees 4-13-10. was granted additionally by reason of more Cultivated land in the bed of Tanks, having been inundated this year.-

No. 8. The Increase in the item of "Shrotriem" is owing to the Mahajanum Brahmins (to whom that privilege is granted) having extended their Cultivation.-

No. 9. The great Decrease of Rupees 602-14-2. observable under the head of "Rararnamah Tarsee" is attributable to the Ryots having refrained from taking up certain resigned lands, fearing that there would be no seasonable rain to favor their Cultivation.-

No. 10. The cause of Increase under the head of "Terrwah Cummy," is that the lands Cultivated with highly assessed Crops last year, were, in the Fusly under report, occupied by Crops

5967

Fort St. George 28th April 1851.

Crops subject only to a low assessment.-

No. 11. This item requires no remark.

No. 12. The decrease under the head of "Quit Rent on Topes and Trees," is partly attributed to some persons having bid less this year for Topes &c. in the absence of competitors, from an apprehension that there would be no good return by a failure of rain and partly because the tax on several Trees situated on cultivated fields was remitted (in a greater proportion than the past year) according to the standing rules.- Another reason may here be assigned for the Decrease in question. A few Contractors who had undertaken the rental of certain Topes, under the usual terms of Puttadaroo, resigned the same this year, on the plea that they derived or expected no particular advantage therefrom. Thus therefore those Topes had to be made over to others for a reduced amount.-

No. 13.

Grass tax. The Decrease of

Rupees

+ Ext: Boards Pro: 17th Sept. 1835 Para 69.

5968

Fort St. George 28th April 1851.

Letter from the Collector of Madura dated 21st September 1849. No. 321.

Rupees 1439-3-10 in this item, is owing to the tax on pasture lands having been discontinued with reference to the Boards' Proceedings under date the 30th July 1849. Para 12. The small sum carried to account, Vizt. Rupees 5-4-10 is the Manool tax levied for years past, which, for that reason, has not been discontinued.-

No. 14. Honey and Wax Rent. The Decrease observable under this head, is ascribed to the absence of Competitors at the Annual Sale of the Rent, owing, it is said, to the faint hopes the people then entertained of any success, from a failure of rain, which chiefly contributed to the blossom of Trees and shrubs from which the Bees gather honey.-

No. 15. This requires no particular remark.-

No. 16. Zemindars' allowance at the rate of ten Percent. The Decrease in this arose from the Beriz of the sequestered Zemindary lands being less this year, compared with the past.-

No. 17. Salaries of Satangars &c. &c. This Increase is the result of an augmented Cultivation in three of the five Hill Villages.

Para 44 The new Puttadars have no share whatever in the lands of their former Partners, but have taken up separate waste lands to Cultivate.— With the exception of one man, who, it will be seen, had two Ploughs of his own, all the others used hired Ploughs.—

Para 45 In the above Statement No. XVI, only two Villages attached to the Sadicombo Sub Division, are given as an example, as a similar detail of all the other Villages, would greatly enlarge it.— In the other places where the dissolution of Partnership exists, the Increase may be said to be in the same ratio.— Long perseverance in their agricultural labors, making them wealthy and independant, has induced them to dissolve the Partnership, and take up land for

Para 46 Last year there was one Puttah above 750 and under 1000 Rupees.— This year there was none; for, in last year, in the Jeyempully Taluk, one Collana Naick held a Puttah for Rupees 767—2—7, this year he just kept under the 750 Rupees, by taking a Puttah for 748 8—10.—

Shaw Remission

Para 49 The rains were very deficient in the Tadicomboo, Iyempully and Nellacottah Talooks, for the kumpah crops - In the three Villages on the Iyempully Talook, there having been an unusually short supply of water, this year, the wet lands dependant on them were not all cultivated - Remission was however granted only for the Village of Kaleimpoatoor in that Talook, were the Ryots experienced great disappointment from the scanty supply brought in by a Channel branching off from one of those Streams, they having sown their lands in expectation of a good supply of water.-

Para 50- In the Tadicomboo and Nellacottah Talooks, the Tanks are, with a few exceptions, small, which require being filled twice in order to produce a good crop: or otherwise, they should at least receive water at different intervals, to make up for the short supply - In failure of the same, Remission had to be given in 34 Villages of the Tadicomboo Talook, and in 8 Villages of Nellacottah, as shewn in the margin.-

Para 51

In Tenkaray Taluk, Shavy Remission was extended to 3 Villages, Viz. Melmongalom, Audiputty and Covilputty. Owing to a small supply in the stream on which the wet lands of Melmongalom are dependant, the water did not reach certain elevated fields, for which it was necessary to grant the Remission. The tanks belonging to the other two Villages being dependant on Rain only, the Cultivation suffered in some places, for which also it was considered necessary to grant that indulgence.—

Para 52

Some of the Taluk Officers were deputed to examine the Shavy Fields for which Remission had been applied for.— and subsequently the same. The former, after making the necessary examinations, on each of the Fields submitted their accounts to their Cutcherry according to a form furnished them. Those accounts embrace the items. Nos. 1 to 3 inclusive Statement XVIII.

Para 53.

The reasons assigned for the necessity of granting Remission on the Crops detailed in item No. 1, were satisfactory. Although the reasons given

Fort St. George 28th April 1851

given for granting the like Remission on the Crops detailed in items Nos. 2 and 3, were not so satisfactory; yet, on account of the causes mentioned below, it was found very necessary to extend that indulgence also on them.

Para 54

In a few instances where the Ryots had sown Paddy on Lands under Tanks which contained but two Months water, whilst the Crops required five Months irrigation, the crops in consequence withered in the blade, as the Tanks received no further supply. Hence, those Ryots at once became poor, and were unable to pay Watchmen to take care of the Shavy, till the same was examined by the Talooks Officers. Most of them had, besides, no other kind of Cultivation to depend upon. When, however, those Officers proceeded to the spot, they scarcely found any withered Crops; there but they satisfied themselves as to the certainty of the same having been partly destroyed by the Cattle, and partly blown away by the wind. Taking into mature consideration the expences these Cultivators must have

the actual produce, but Remission was dis-
allowed to a further extent of 15 per cent as a
punishment for their negligence.—

Para 58 In the Tadicomboo Taluk in
the Village of Velvarcottah, where there was
much sickness, as alluded to in Paragraph
56, in one Ryots house, where 4 people
dwelt, 3 died of Fever; the remaining one
suffered greatly also from it; his Punjah
crop became all Shavy. He thought that
cattle would destroy even the Shavy, and
therefore cut it. Four other Ryots in the
same Village suffered alike from that
disease and used a similar precaution with
regard to their Shavy. Taking into
consideration the circumstances of these
cases, Remission was granted.—

Para 59 . The annexed Statement
shews the number of Topes, amounting
to 8 in number.—

Statement.—

have undergone to buy seed, to maintain
their cattle for a year, and to pay
the Plough-men &c.; and all the
above matters having been proved
to the Hoozoor Officers, it was con-
sidered necessary to grant Remission
for such crops destroyed by Cattle
and those not forthcoming.—

Para 55. From those Ryots
only who had withered crops present
for examination, less than the Crop
which came to maturity, the gain
by Price on actual produce was
deducted; for such Shavee as exceeded
the same, Remission was granted
without such deduction.—

Para 56. Remission was granted
in full to those whose Punjah crops wholly
withered, whether present or eaten by Cattle;
and no deduction for gain by Produce was
made where a portion which produced yielded
considerably less than a full crop.—

Para 57 In the case of Ryots, a small por-
tion only of whose crops withered, which they
allowed to be eaten off by Cattle, the rest
producing very well, not only was a deduc-
tion made on account of gain by Price on

The

Para 70. The balance of Rupees 15—1—0 in the Iyempully Talook, is in consequence of a Puttahdar of a Tope sub-renting the same to another person and the two are quarrelling about it— Orders have been issued to sequester the Puttahdar's property and to realize the same by its sale.

Para 71. The balance in Tenkaray is owing to a Ryot being very poor and having no other property except some landed property— It will be collected from his Produce in Fusly 1260 under instructions from the Collector.

Para 72. The balance of Nellacottah is pending a Case the Puttadar has in the Civil Court at the sale of his Property this balance will be realized.

Para 73. The balance of Rupees 11—9—5 in the Nellacottah Talook for Fusly 1257 arises from a boundary dispute between the Seeroomalay hills

hills and the Village of Reelacottah in the said Talook adjoining each other. A new appointed Zilladar when examining Karar Sagoopuddy in that Fusly entered the Seeroomalay land in the Reelacottah Village Accounts— After a further examination it was found that the land really belonged to the Seeroomalay hills, and was delivered over to the Nattamgar of those Hills, and the Arconia naickenoor Zemindar (in whose Estate those Hills are) received the money from the Hill Ryots. The balance therefore ought to be deducted from this account.

Para 74. In conclusion I beg to add my testimony to the efficiency and Zeal of the Sub Division Sheristadar Vencat Row, and to acknowledge the valuable assistance I derived from his knowledge

This man is dead.

This man has suffered imprisonment in default of payment.

For false accounts regarding the Cultivation of the Village of Brevedoo the Curnum was fined 500 Rs and a Talook ausawny 500 Rs. The former was confined in Jail for non payment. The fine of the latter was mitigated by the Board of Revenue to 100 Rs which he paid. There is therefore no outstanding Balance. But the Statement furnished by the Sub Collector in 1258 shewing a Collection Demand of 600 Rs, it was erroneously supposed in the Collectors Cutcherry that this comprised the 500 Rs remitted, which was accordingly deducted and the Demand shewn as 200 from which deducting the 100 Rs paid there remained 100 Rs balance as now shewn. The demand of 1258 should have been 600 Rs the Collection 100 and the Balance 500 against the Curnum which would have to be written off in consequence of his imprisonment. Under existing circumstances Sanction is requested to write off the 100 Rs retained in the accounts.

This fine was cancelled in appeal

Fines subsequently cancelled.

In reply to the Sub Secretary's letter of the 24th Ultimo, I am directed by the Board of Revenue to state that this Office has not the means of verifying from record the services of Mr. Just Gaultz from 1st January 1820 to 8th February 1821 as his name does not appear in the pay abstracts for that time.

From information obtained from Mr. C. R. Martin, the oldest of the present subordinates employed in this Establishment, it appears that Mr. Gaultz was employed in the Tank Department Inspector Generals Office about the time alluded to, and paid, as was the practice at that period, out of the amount allowed for the Establishment

From M.r G. Jobard

Sir,

(56)

Adverting to Minutes of Consultation N.o 3155 dated 27.th August 1850, on my address to Govern.ment of the 20.th Inst.t, I beg leave respectfully to bring to the notice of the Board of Revenue, that one of my uncles Captain Jobard of the French Service in France, on whom was conferred, as a special mark of the Royal favor of his Sovereign, the Imperial Gold Cross of Chevalier dela Croix de S.t Louis" arrived at Karrical about the year 1797, was made a Prisoner of War by the British Government, and enjoyed a Pension of 18 Pagodas per Month from the Government of the Presidency of Fort Saint George, up to the date of his demise which took place at Karricol or Pondicherry about the year 1817.-

I have since submitted the case to the Accountant General Fort S.t George, whose reply I beg leave to annex for your perusal, and as it therein appears, that the Representations made to Government for the subsistence to M.r Jobard originally, and the increase subsequently added thereto, must have passed through the Board of Revenue, I beg to solicit that his Christian name may be ascertained or to what branch of the French Service he belonged, when he

has was made a Prisoner of War, by what ship he arrived in India, where he died, and the date of his demise, which several items of information being very much desired with a view to support a claim, I am advised to prefer on the French Government either in India or elsewhere. I beg to submit that it is probable the same may be derived from the Representation made to Government in the first instance of Captain Jobard's case for as the circumstance may be, and I would therefore beg leave most respectfully to submit my case for the favorable consideration of the President and Members of the Board of Revenue with a view, that a copy of the Representation above referred to, and the order of Government thereon, together with any other documents bearing on those points collected from the Records of your Office may be furnished to me.-

Mr Jobard with the documents which he requires if they can be supplied by the Military Auditor General or from any other Department.—

(Signed) C. A. Brown Lt Colt
Secretary to Government

The Petitioner requests a reference to be made to the Receipts or Abstracts on which the sum of Pagodas Eighteen was paid to one of his Uncles in the French Service who arrived at Karrical about the year 1797, and was made a Prisoner of War by the British Government — for the purpose of ascertaining through such receipts, or Abstracts the Christian name of that Individual. He also requests information as to what branch of the French Service he belonged to, when he was made a Prisoner of War, by what Ship he arrived in India where he died, and the date of his demise. On reference to the Records of this Office several Receipts and Abstracts for subsistence paid to that Individual at the rate of Pagodas 18 per month have been discovered, but these shew only the Surname, Jobard, but not his Christian name neither do the records of this Office furnish any information on the other points on which information is applied for. The last payment

5981 Fort St George 28th April 1851.

payment made to Mr Jobard on account of his subsistence, is for the Month of November on his Receipt, dated Pondicherry 1st December 1816; from which it may be supposed, that he died at that place soon after that period. In a letter addressed to Government by Mr J. Cotton Acting Collector of Tanjore dated 5th September 1804 it is stated, "on "the 16th July 1801 Mr Harris received sanc- "tion from the Board of Revenue for the "increase of the Pension to Monsieur Jobard "from 9 Star Pagodas 12 fanams 10 Cashs "to the Monthly allowance of 18 Star Pags "to commence from the date of his appli- "cation, being the 19th of the preceding "Month." from which it may be presumed that the Representations to Government for the subsistence paid to Mr Jobard originally, and the increase subsequently added thereto, must have passed through the Board of Revenue, and not through this Office.—

Para 70. The balance of Rupees 15—1—0 in the Iyempully Talook, is in consequence of a Puttahdar of a Tope sub-renting the same to another person and the two are quarrelling about it— Orders have been issued to sequester the Puttahdar's property and to realize the same by its sale.

Para 71. The balance in Tenkaray is owing to a Ryot being very poor and having no other property except some landed property— It will be collected from his Produce in Fusly 1260 under instructions from the Collector.

Para 72. The balance of Nellacottah is pending a Case the Puttadar has in the Civil Court at the sale of his Property this balance will be realized.

Para 73. The balance of Rupees 11—9—5 in the Nellacottah Talook for Fusly 1257 arises from a boundary dispute between the Seeroomalay hills

hills and the Village of Reelacottah in the said Talook adjoining each other. A new appointed Zilladar when examining Karar Sagoopuddy in that Fusly entered the Seeroomalay land in the Reelacottah Village Accounts— After a further examination it was found that the land really belonged to the Seeroomalay hills, and was delivered over to the Nattamgar of those Hills, and the Arconia naickenoor Zemindar (in whose Estate those Hills are) received the money from the Hill Ryots. The balance therefore ought to be deducted from this account.

Para 74. In conclusion I beg to add my testimony to the efficiency and Zeal of the Sub Division Sheristadar Vencat Row, and to acknowledge the valuable assistance I derived from his knowledge
