Sir. With reference to the

From the Secy to Govt Fort St George No 837 dated 15th Augt 1851. Under Secy to the Govt of India to the Govt of Fort St George No 525 dated 5th Septr 1851

to the letters noted in the margin, I have been directed by the Right Honorable the Governor in Council to forward to you the accompanying Copy of a communication No 995 dated the 1st Ultimo, from the Conservator of Forests under this Presidency, and to request you will state for the information of this Government, whether the arrangements therein proposed are in accordance with the views of the Government of Madras

Bombay Castle, 10th November 1851 / Signed / H.C. Goldsmid Secy to Govt

No 995 of 1851.

To.

The Secretary to Government

Revenue Department

Sir,

In letter No 9074 under date 10th Ultimo, accompanying Copies of correspondence from the Government of Fort St. George on the subject of the Canara and Malabar Forests the Right Honorable the Governor in Council was pleased to direct that "in the event of the Supreme "Government taking the same view of the case

case as that taken by the Madras authorities "I should report what arrangements I "wish to make in regard to these Forests"

2d In reply I have the honor to state that in order that no time may be lost in bringing into operation such measures as may be for the benefit of the Forests and also because I may not be on the Spot to give an opinion when the final decision shall arrive I deem it best that I should now explain to Government the view I take as to the prospective measures which may be most practicable and at the same time most beneficial-

3d First, with regard to the Forests in Malabar the Madras Government state- Paragraph 8, that the Collector of Coimbatore strongly deprecates any change in the present Agency for the management of the Anamalla and Wallias Forests and urges "that Lieutenant Michael may continue in his present Post."

4th On a reference to my letter of August

August 1848, it will be seen that I advocated a local conservator for those Forests acting in concert with, and in subordination to, the Collector of Coimbatore and having no subordination to the Bombay conservator.

5th At the time that letter was written I was not aware that Lieutenant Michael had been appointed, otherwise I should have recommended as I now do recommend that his appointment be on no account disturbed. The great object being to have a direct European Agency for the Forests it is immaterial whether the Agent be a servant of the Government of Madras or Bombay.

6th A reference to my letter of August 1848 will also shew that I never contemplated the possibility of the Bombay conservator being able to exercise any supervision over those Forests, as circumstances of distance &c must effectually preclude his doing so.

7th Under the aspect of the case as at present existing there, we may consider that the proposal for the employment

employment of the Bombay Agent for Timber in Malabar as a Provisor of supplies and at the same time a local conservator for the Wallair and anamalla Forests is not practicable, and that the intended end is fully and efficiently fulfilled by the arrangement in force.

8th A question next arises, as to the manner in which the services of the agent for Timber in Malabar and Canara, can be disposed of with the greatest amount of benefit.

9th We have just seen that there is no room for their extension in Malabar.

10th At the same time when we advert to the fact that the requirements of the Naval Department for some years to come at least, are not likely / Vide letter from Secretary to Naval Commander in Chief No 998, under date 15th May 1851 / to exceed 2000 pieces of Teak planking per annum it will be obvious that for the provision of this amount of material alone, the services of a tolerably paid European

European Officer must materially enhance the cost thereof the more so, as I have understood that it is in contemplation to furnish a supply direct from the Anamalla and Wallia Forests to the Naval Department at Bombay.

11th. This Officer, Viz., the Bombay Agent then could advantageously fill up his leisure time by attending to the interior management of the Sounda and Canara Forests in subordination to, and communication with the Collector of Mangalore.

12th. My original proposal was that the Officer locally in charge of these Forests should carry on the duty in subordination to the Bombay conservator and in correspondence with the Collector of Canara, but it was never intended that the said conservator should interfere with the minute details of property &c. in the manner apprehended in Paragraph 5th of the letter of the Board of Revenue neither is it apparent in what manner the presence of the Conservator could weaken the "Prestige" or

or the Powers of the Talook authorities:

In the Bombay Territory

13th such result has not been found to follow the general Superintendence exercised by the Conservator whose interest and duty are directly in favor of his co-operating smoothly and cordially with the different Revenue and Police authorities with whom he comes in Contact.

However, in order to remove

14th all cause of apprehension, I would now respectfully propose that the present acting Timber Agent be placed entirely under the Collector of Mangalore and that he communicate with him, and receive orders from him in fact be on the footing of an Assistant Collector in charge of the Forest of the different Talooks North of Mangalore, that all requisitions for Forests supplies be made to the local Conservator as also the letting of the Farm

+ As regards the Duties of the Canara and Sounda Forests

Farm of Jungle Timber and of any other products which are the subject of Farm-

15

I am respectfully of opinion that it would be of importance to secure the services of Mr. Poulter for these duties even at the expense of some addition to his present salary particularly as the saving on the total amount of agency expenditure must at present be considerable.

16

Mr. Poulter has good experience of the nature and products of the Forests and has repeatedly brought to my notice matters tending directly to enhance their value.

17

His present duties in Malabar could in my opinion, with ease be annually fulfilled by a three months presence at the lower Depot. Viz. Calicut, and Panyany while during the remaining nine months of the year he could from his Head Quarters at Sudasheghur with an occasional Visit to Dandelly, Hallibal, Soopalor Yellapore,

Yellapore, sufficiently carrying on the work of local superintendence reporting his proceedings to the Collector at stated periods.

By the adoption of

18

this plan we would secure the benefit of direct European Superintendence for this valuable Forest and this at a sacrifice comparatively small, as compared to the return which may be looked for

I have seen no reason

19

to alter the opinion I formerly expressed as to the absolute necessity of direct supervision by a European officer, on the contrary the conduct of the late Native Sub. Conservator has made this necessity even more prominent than before.

/Signed/ Alexander Gibson

11

B. No. 2987.

From the Collector of Cuddapah — Affording further explanation on the subject

Sir,

I. I have the honor to reply to the Board's proceedings of the 4th of June 1849 on the subject of petitions

subject of
Petitions Nos
505- 1144.
& 2235 of
48 & No. 1048
1851 pre-
ented to
e Board of
evenue by
avilgars of
nvoolapully
the Dis-
trict—

petitions Nos. 651— 705— 1444 and 1801 of 1848 and
of 1048 of 1851 since received.—

2. The Board desire to have it further explained first when the former Amaragar Cuttoobadies Venkataramaraz, Soobaraz &c. resigned their Offices; and to what period they retained the enjoy-ment of their Villages. The resignation of their offices is dated in 1825, at which time they had given a five years rent of the lands and on the expiration of the rent, or in 1830, they ceased to enjoy their Villages. In 1875, one Venkataraz was appointed by the Rajah of Pongunoor to superintend the Police, and from 1831 every thing in-cluding the management of the Villages has been in his hands.—

3 Secondly the Board have desired to be informed what arrange-ment in respect to the discharge of Police duties and profession of Avvoolapully and the other Villages— was made upon the resignation of the former holders, and what is the— nature of the arrangement upon these

these lands still subsisting. The resignation which is the Cause of being the present petitions was a relinquish-ment of the lands only, and not of the Cuttoobady service the latter is still performed by petitioners who receive a salary for the duty, while the Villages are managed by Venkataraz on behalf of the Raja.

4th Thirdly. I am directed to state, who the petitioners are, and what is their Connection with the former Cuttoobadies Vencataraz Somaraze &c. when they were invest-ed with the charge of the Villages and police duties appertaining to them, whether they still retain the manage-ment, and if not when and under what circumstances they lost it. Ragavaraz and Goorooviah are entered in the Jummabundy accounts as the Cuttoobadies of the Village of Avoola-pully the present petitioner Ragava-raz is the grand son of the former and Yellapiah is the Grandson of the latter Soobaraz has no relationship with

with any former amindar. The amin-
dars charge of the Village dates from
before the Tyrnaish, and as stated above,
they ceased to manage it from the
year 1830, the time from which the
razeenamah dated 1825 was acted upon.
This Razeenamah purports to be a
resignation of all Contract and manage-
ment of the Villages given by Venkata-
razoo, Baliah, Yerramarazoo, and T.
Baliah four of the principal Cuttoo-
babies, or duffadars, on behalf of all
the rest and the reason for the resig-
nation is said to have been inability
to discharge their police duties, in combi-
nation with the management of the
land—

5 Fourthly the Board de-
sire to know if as represented, the
Cabooliaty beriz be Rupees 1749—10—9
and the ready money payments Ru-
pees 1656—10—b esides the alienation
of Enam lands, what profit remains
to the holders. The profit remain
to the petitioners if they retained
possession of the Village, would be
only

only the difference between the two
sums mentioned but the Villages being
in the Rajahs possession he has the
services of all the Cuttoobady peons
as a return for the payments made from
the land—

6. The fifth point on which
information is required arises solely
from a clerical error in the Collectors'
former report, in which the date 1834
was written for Fusly 1734 the latter
was the real date of the document
and explains the discrepancy remarked
by the Board—

7. The next point for ex-
planation is whether the sum of
Rupees 176—5—10 the beriz of certain
lands said to have been given by the
amanagars under a document dated
in Fusly 1221, to other parties as
remuneration for the service of gather-
ing flowers for the Rajahs Palace,
and the Pagodas is inclusive or ex-
clusive of the sum of Rupees 66—9—8
the amount of assessment on lands
enjoyed by parties other than the
present

present petitioners; the former suit is included in the latter.—

8. And finally the Board desire that the fact urged by Petitioners that they had paid a Jody of C. P. 96-2 up to 1834, and in support of which they have sent several puttahs, should be met and explained. The Vakeel of the Rajah with reference to this has stated that in consideration of their former profession, a puttah has been annually given to petitioners and is still given them every year and that the sum of C. P. 96-2 is the Jody which was received by the Rajah from petitioners when in profession, and which he now receives from the person to whom he has committed the charge of the Villages.

The petitioners have been called to my office and I have personally enquired into their case. The complaint they then urged

urged was their having been deprived of their Villages on a rayeemanah, genuineness of which they deny, and which if valid at all, they submit can be binding only on the four who signed it, and not on the remaining one hundred and twenty one cuttoobadies whose signatures it does not bear, they desire that this document may be set aside and that they may be restored to the enjoyment of their lands on the terms which obtained prior to its supposed execution.—

10 The four persons who signed this rayeemanah are dead, and it is certainly a point unfavorable to the petitioners that they should have made no remonstrance regarding having been dispossessed of their lands while any witnesses were alive who could have proved or disproved the validity of the document on which they were dispossessed.—

11. A point on which petitioners lay some stress is that the rayeemanah is signed by four of their body only but I am not inclined to consider that this is

is alone, a sufficient reason for refusing to recognize it. It is by no means an unfrequent practice for the heads of Classes or bodies of men to sign for their Subordinates as for themselves, and it would probably lead to much confusion if the principle were now admitted that no document is binding on any parties but those whose individual Signatures it bears.

12 On the whole Same of opinion that the razeenamah should be acted on, and that Petitioners have no valid grounds of complaint.

Cuddapah District, Coll.r's Office, on Circuit, Coilpettah 2d December 1851.

(Signed) H. Forbes. Collector.

(B.r No 9. Proceedings thereon. 1 / 112)

The Board learn from this further explanation that Petitioners lost their Villages on 1/4 of their number, acting on behalf of the whole body, tendering a razeenamah in 1825, which was acted upon in 1830 giving up the entire control and management of the Villages retaining however their Offices, and receiving a money payment in which Petitioners participate.

2. The Board agree with the Collector that the terms of the razeenamah should be adhered to and that Petitioners have

have no just grounds of complaint.

3. Resolved that former petitions be recorded, the following Endorsement being given on that last presented, No. 1048. / 1851.

"The Board have received a report from the Collector on the subject of this petition and are of opinion that the razeenamah given in 1825, and acted upon in 1830, should be enforced, and that Petitioners have no valid grounds of complaint."

Received the following letter.

No. 53.

To W. H. Bayley Esq.r Secretary to the Board of Revenue. Fort St. George.

13

(B.r No 3024. From the Agent to the Governor at Kurnool.... 27th May 1850.)

Sir, With reference to the Board's Circular† quoted in the Margin I have the honor to submit in the required Forme, an application for payment of a reward of 100 Rupees to an Informer for bringing to the notice of the Assistant Agent at the time of the Summahlundy Settlement of Fusly 1260, certain frauds committed by the Carcoons of the Nundecoodoor Talook, in regard to concealed Motursha.

Kurnool, Gov.t Agent's Office, 6th December 1851.

(Signed) J. B. H. Conway. Agent to the Governor

15.16

Bd. No. 6.

To the Asst. Collector of Tanjore - - -

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 4th December 1851, forwarding for sanction two Statements of arrears of Rocca and ayacut Maniems.—

2 In reply I am desired to request that

that you will be so good as to state whether any detailed list of the Pensions payable to the ayacut Maniemdars was furnished to this Office and if so that you will quote the date of its transmission as their names do not appear in either Mr Hepburn's list of 1815. or that of Mr Bird of 1849- your remark in Column 5 of the Statement relates to an abstract furnished by the Collector in 1837.-

3 I am also instructed to call your attention to the inaccuracies in the ages of most of the parties entered in the Statement of Rocca Maniemdars, as compared with Mr Hepburn's list of 1815.- The Board would particularly notice that of No 134 whose age in the present list is stated to be 46 whereas in the previous one it was entered at 60, and in consequence the individual must now be about 96 years of age.- It seems probable therefore that the claim is fictitious.-

4 The Statements forwarded by you are herewith returned and you are requested after strict investigation of the several claims to make the necessary alterations and retransmit them to this Office with your reply.-

The Chief Secretary to
Government.-

Sir,

I am desired to forward for the information of Government, the correspondence noted in the margin, having reference to the information sought for in Extract Minutes Consultation 11th September 1850 - as to "whether there was any dispute between the District of Malabar and the Cochin Circar in respect to the boundary in the Placcote and Pellapilly Hills, and whether the frontier was unsettled in any other part."-

From Collector 9th Dec
in Cons 16th Jany 1851
Bs Pro thereon 16th Jany 1851
From Coll 25th Oct 1851
in Cons 20th Nov "
From Do 4th Dec "
in Cons Do 5th Jany 1852.

In the matter of the claim first referred to, it appears that the Head Assistant Collector met Mr Kolhoff the conservator of the Cochin forests and that these Gentlemen, after a careful inspection of the tract in dispute, were satisfied as to the justice of the claim advanced by the Cochin Circar and consequently recommended that the territory should be at once made over

over to that State.—

Mint Com 11th Sept 1850 Para 2

3. As remarked by Government this dispute has been already determined by the Commissioner in 1816. It would appear only necessary now to enforce that award, and to direct, as proposed by Government in the case of Sitty Komby Atchen's claim, that any interference with the portion now transferred to Cochin, by the two Nair Chiefs hitherto exercising authority over it shall be punished by the Malabar authorities.—

P. 1 — — — — —

F. W. Afs Collr 8th Nov 8.6.
Enc F. Collr 9th Decr 1850.

4 Among the remaining disputes as to frontier, there would appear but two of any importance for the Settlement of which an inspection of the Map relied upon by the Cochin Circar is considered absolutely necessary.— In procuring the transmission by the Resident of this Map, Mr Conolly it will be seen after many applications has hitherto failed

B. of R. No. 2996

From the Secy to Government in the Revenue Department under date the 6th December 1851.

Extract from the Minutes of Consultation

Resolving with regard to the question of Boundaries between Tinnevelly and Travancore that the Survey Maps of Travancore furnished to the Resident in 1822 should be followed in adjusting the disputed in the Neighbourhood of Ateham Coil and Shamar

No. 1207.

Read again Extract from the Minutes of Consultation in the Political Department dated 25th September and recorded in Diary to Consultation 17th October 1848 No. 1180.

Read also the following letter from the Secretary to the Board of Revenue

(Were enter 13th October 1851 No. 442.)

Para 1. The Report of the Board of Revenue above recorded and the correspondence accompanying

Shanars — passes Calling for a report regarding the State of the Spice Gardens of the District sanctioning the exchange of the Villages of Mallian-culum and Pooliary and directing that the lands known as "Tuftee" be made over to the Travancore Circar together with the Collections derived from those lands regarding the actual — amount of which the Board is requested to report.

Resident's letter Para 20.

accompanying it relate to the discussions which have taken place respecting the boundaries of the Travancore State and the Tinnevelly District, and regarding certain isolated spots of lands which have been attached to the Tenacausey Talook of that District and retained under the Collector's management under the designation of "Tuftee lands," after an attentive consideration of the reasons given at large in the Resident's letter to Government of 8th September 1848 and in Mr Bird's Report to the Board of Revenue dated 6th September last the Right Honorable the Governor in Council agrees with those Officers and the Board that the Survey Map of Travancore furnished to the Resident by Order of Government in 1822 and which is stated to have been prepared from the Survey made by Messrs Ward & Connor from 1817 to 1820 and to correspond with the great Map of India published by authority of the Honorable the Court of Directors, should be followed in adjusting the disputes in the neighbourhood of the Stehem Coil and Shanar passes and wherever else the

the boundary may be unsettled and he desires the Board of Revenue will instruct the Collector of Tinnevelly accordingly furnishing for his guidance as proposed in the concluding para of their letter, an authenticated Copy of the Memoir of Messrs Ward and Connor. It will be proper that boundary pillars should be erected wherever there are not well defined natural lines of boundary.

2. The Spice garden at Pumbooly near the Stehem Coil Pass is described in para 11 of Mr Thomas's letter to the Resident of Travancore 24th November 1848 as one of the most valuable of the Government Gardens "the Government have no information of this particular garden but they observe from the correspondence recorded in the Consultations of 1843, that the Spice Gardens of the District generally, though established for purposes of experiment, did not realize in full the expectations entertained of them and that as the charges incurred on their account were not met by the Sale of the produce obtained from them, it was determined to maintain them only as

Nurseries

Pres: Bd of Revs 22d June 1843 No 315 Recorded in Dy to Cons 6th Sept. 43 Nos 28-29.

Fort St. George 5th January 1852.

Nurseries for the valuable plants they contained. How far the gardens have since contributed to this object has not been communicated and the Government resolve in consequence to call for a further report on their present condition and prospects. Meanwhile the Pumbody plantation will be retained, but its retention forms no grounds for delaying the other parts of the arrangement, as it is observed from the latter part of the Resident's letter of 31st December 1848 that there is no objection to its continuing in the hands of the Company. It would not however seem advisable to keep it for any longer period than may be required for the purposes of the experiment.

3. The exchange of the Villages of Mailiuncolum and Pooliary which is represented to be highly desirable and assented to by all parties should be carried out at once by the Collector of Tinnevelly in communication with the Resident.

4. The Governor in Council directs that the lands designated "Zuftee" be made over to the Travancore Circar. The Collections derived from these lands since the date of attachment will also have

Fort St. George 5th January 1852.

have to be made over. Both the Collector and the Board represent the Amount to be 1,07,279-10-11, but referring to the Demand Collection and Balance Statement furnished by Mr. Bird the Gross Collections appear to be Rupees 1,36,967-4-1 of which Rupees 4,521-12-8 are for Village Sibbendy between Fusslies 1211 and 1215.

" 25,165-12-6 have been carried to the credit of Government and

" 1,07,279-10-11 have been retained and

Rupees 1,36,967-4-1 are now in deposit.

The Government do not understand under what circumstances a portion of the Collections has been credited to the public revenue or why if appertaining to the Zuftee lands of Travancore it should not also be made good to that Circar. As likewise why a charge for Establishment should be made for Fusslies 1211. 15 more than for the subsequent years. The Board of Revenue will furnish further explanation on this point and report for sanction the exact Amount to be refunded calculated to the time of transfer.

Ordered that a Copy of the above Resolution be furnished to the

Political

importance to the efficiency of the Public Cattle that the Poramboke or waste lands consisting of a range of fertile Hills close to the Farm of Sultanpore near Bellary and which had been relinquished by this Department through Lieutenant Harris to the Collector should be retransferred to it as the means of affording sufficient food for the Draught Bullocks and Camels without interfering with the private claims.

3. In regard to securing the state would derive much advantage by the retransfer and as Brigadier General Steel fully concurs in the view taken of the subject by Lieutenant Harris which is also in accordance with my own, I beg respectfully to express my hope that the Right Honorable the Governor in Council will be pleased to sanction the proposal being carried into effect.

Commissary Genl's Office

No. 748

To
Colonel A. Tulloch C.B.
Commissary General of the Army.
Madras.

Sir,

I have the honor to lay before you certain correspondence that has passed between Brigadier General Steel C.B. Mr. Pelly and myself regarding the boundaries of the Farm at Soultanpoor.

2. As all points but one are now settled to my satisfaction, and I trust to yours, there is much in this correspondence that will scarcely repay you the trouble of perusal, but I hope you will approve of my not having allowed to pass unnoticed first the alteration of the boundaries without my sanction or knowledge, and secondly Mr. Pelly having passed over this department and proceeded to address the Brigadier General Commanding regarding the adjustment of the disputed limits of the farm the ensuring a due respect being paid to you as the head of the Department

compelled.

Fort St. George 5th January 1852.

compelled me to the course I have & and as every thing I have done has (as you will observe by his letter to Mr Pelly) the full and unqualified support and approval of the Brigadier General, I am fully confident of being similarly favored by your approbation.

3. The only matter that still remains unadjusted is the restoration of the range of Hills previously ceded and on this point further discussion with Mr Pelly is useless, as he is evidently through on what grounds I cannot conceive disposed to the measure. Of its absolute necessity Brigadier General Steel is as fully convinced as I am and doubtless when he hears that you are of the same opinion he will address the Commander in Chief, or if called on will fully detail to you his reasons for considering the retransfer both necessary and desirable. For the Camels the forage is absolutely necessary and the propinquity of the range of hills to the farm renders them highly desirable as pasture lands for the other Cattle as regards revenue, Mr Pelly cannot contradict

Fort St. George 5th January 1852.

contradict that I can make them ten times as profitable to Government as he can and can only oppose the retransfer on the score of justice to the inhabitants. On this point I am prepared to meet his arguments. As for Villages there is not one near it, and the only person, the Hills benefit, is the Curnum of Antapore a rich and influential man who is the renter at Thelicane 60 Rupees a year and surely on the ground of justice it is not binding on Government to let lands to any individual for less than a tenth part of the amount they will actually realize to the State, if Report proposition of as to this department purchasing the privilege of cutting the leaves from the renter, it is a plan as I have shewn manifestly open to many objections the Department had much better become the direct renter from the Collector of the whole range as I could afford to give him double what the present renter gives and make it profitable to the Department and the State.

4. In conclusion I would remark that relinquishing these range of hills was my own proposition, made however

Fort St. George 5th January 1852 -

however against my own convictions of its ultimate propriety solely on account of my seeing that Government was bent upon some reduction of the farm limits I suggested therefore what I conceived the most feasible. For a long time I turned a deafear to the constant complaints of the Servants of the Scarcity of forage, but now that I am fully convinced such complaints are just, I trust you will pardon any apparent importunity in my most strongly urging that measures may be taken to have the range of hills again restored to the farm. My individual opinion on the matter may be doubtfully received by Government but when fully supported by so experienced an Officer as the Brigadier General Commanding this Division it can hardly fail of receiving serious attention and as I hold myself personally answerable that the measure will be beneficial to the Department. I feel on this account sure that you will do all in your power to further it.

No 472 -

To
C. Belly Esqre
Collector of Bellary -

Sir,

It having been reported to me that the Hills now in possession of this Department do not yield a sufficiency of leaves called "Aheet Thajad" for forage for the increased number of Camels now at the farm of Soultanpoor and that on the range of Hills lately given up to you there is an abundance. I do myself the honor to request that you will issue orders for the Servants to be allowed to gather leaves from those hills and convey them to the farm for the use of the Camels. I do not in any way ask this as right but strictly as a favor, and the Camels and Bullocks will not to prevent disputes be allowed to graze there, and neither the hills or leaves are of the slightest use to any one I doubt not my wishes will meet with ready compliance at your hands in which case I shall inform the Servants that on the first well established complaint the indulgence will be withdrawn.

I trust you will see no objection

to

Fort St. George 5th January 1852.

to this plan which will obviate the necessity of any further reference about the farm limits to Government.

I would also request to know if there would be any objection to the Elephants being kept at Soorumully instead of Durajee the rushes on which they feed having been entirely destroyed at the latter place by the late inundation.

Commissariat Office
C. D. Bellary
16th May 1851

/ Signed F. Harris
Lt. A. C. General.

No. 398.

To,
Lieutenant F. Harris
Asst. Commissary General.

Sir,

I have the honor to acknowledge your letter. No. 472 dated 16th Ultimo which I was prevented earlier replying for want of necessary information from the Taloor which owing to a change of Tahsildars, has only just reached me.

2. There is no objection to the Company's Elephants being kept at Soorumully instead of at Durajee and I have informed the Taloor authorities that you

Fort St. George 5th January 1852

you will probably send them to that Village.

3. But as respects the request that the Sumans may be allowed to gather leaves from the range of Hills contiguous to the Soolteanpoor Parkunah lately excluded from the Farm, I regret that I am unable to meet your wishes on this point in the manner you desire. These hills and Jungles have been rented out for the purpose of protecting the Grass &c. for the use of the Town of Bellary principally. The renter complains that your people have already without waiting for the permission solicited by you brought the Camels and Bullocks into these limits for the purpose of gathering and carrying leaves and have considerably damaged the Grass and caused loss to him. He informed me that he had remonstrated without effect with the Cattle farm people.

4. As therefore the liberty to intrude upon the Jungles now rented out would cause loss to the renter it is obvious that without his free will and consent I cannot accede to your request.

But

Fort St. George 5th January 1852.

But I see no reason why your Department should not enter into arrangements with the renter to supply you with leaves on such terms as may be mutually agreed upon and this course would be more satisfactory than granting permission to the farm people to go beyond the limits of the Farm. For after all that has happened and with the knowledge that we both have of petty jealousies existing between the Farm people and the surrounding Villages in respect to the limitations of the Farm I think it most desirable that each party should be confined strictly within the limits now laid down, if not there will be endless complaints and recriminations which it is my wish and study to put an end to.

5. The limits of the farm are still so extensive that I should hope the Forage to be found within them would be sufficient for all the wants of the Company's Cattle of every description but should you after careful enquiries be decidedly of

Fort St. George 5th January 1852.

of an opposite opinion the course pointed out in the preceding para might be resorted to with advantage and without the fear of complaints, and as it will be for the renters advantage to supply the Farm with leaves, I have no doubt he will be ready to do so on terms very reasonable.

Bellary District Collectors Office in Circuit at Ramandroog 15th June 1851

Signed C. Pelly Collector.

No. 502.

To C. Pelly Esqre Collector of Bellary.

Sir,

I have the honor to forward extract of a report made to me by the Commissariat Sargeant whom I sent to the Farm at Sooltanpoor to enquire into the removal of certain of the boundary stones by the Villagers and by it you will perceive that the farm has been encroached on to a considerable extent.

I trust such presumptuous conduct

conduct if proved to your satisfaction will meet with the most severe punishment as all the trouble that has been taken both in surveying and laying down Boundaries will be of no avail whatever if the Villagers are thus allowed to remove the stones with impunity. The farm servants shall be directed to attend whenever you may order.

With reference to the trespass of the Cattle Trust also that subject will receive your attention and that steps be taken to furnish the present Offenders and prevent any repetition of a similar encroachment.

Commissariat Office
C. D. Bellary
24th May 1851

Signed F. Harris
D. A. C. Genl.

Extract of a Report made by Commissariat Staff Sergeant Eddington dated 23d May 1851.

Sultapoor.

On my arrival here I lost no time in proceeding to the Englagee, Thogulcul Hoodiem pah and Mudh. Reamels and directly opposite the Village of Thogulcul, found that the stones defining the Boundary were removed and the land encroached upon as follows

1st.

1 Stone 42 yards.
1 Do. 47 Do.
1 Do. 25 Do.
1 Do. 262 Do.
1 Do. 400. Do.
1 Do. 800 Do.

About the centre of Thogulcul Hawul one of the large stones was taken up about 5 days ago, the Driver who looks after this part of the Farm found 6 Wudders, 2 Tallaries and a Village Peon wearing a belt with a Cart and Bullocks in the act of removing the stones, he threatened to report their proceedings when one of the Wudders caught him by the throat and shoved him aside. He then proceeded with all expedition to the lines and reported the circumstance to the Shaudry who with a Duffadar and 3 other drivers accompanied him to the place in question. The Shaudry remonstrated with the Villagers on the impropriety of their conduct, and they then left the stone lying on the ground and went away I am glad

Fort St. George 5th January 1852.

glad to say that the whole of the par-
ties engaged in removing the stones can
be identified by our attendants-

There are a number of stones
already placed at different distances
within our Boundary by which it would
appear the Villagers intended at their
own convenience to remove out of the
way all those put down by the autho-
-rity. I have directed the Choudry
and Duffadar and the 4 Drivers
to be in readiness to come into Bellary
and give in their depositions at
the Office when required. I also found
a number of Bullocks grazing on
the Hogul Kul Hawul and further
on, 2 large Herds, one of Buffaloes
and the other Bullocks, all which
I had driven here some of them have
been delivered to the owners and
Muddaddy Bheem Row is in pos-
-session of their receipts for the Cattle,
but I regret to say the whole of the rem-
-ainder about 100 got away while I was
out yesterday morning at the other
Hawuls-

On visiting the Lingudhully
and Yethumhully Hawuls, I also found
six

Fort St. George 5th January 1852-

six of the stones removed within the
Boundary and in 2 places cultivation
appears to be carried on opposite
Lingudhully by the Villagers- One of
the stones is removed 468 yards close
to the foot of the Hill and the remain-
-ing 5 from 20 to 100 yards-

There are at present 4 Driv-
-ers employed in looking after the
different Hawuls which number
is evidently insufficient to keep off
the Villagers Cattle and efficiently
guard the Boundary Lines and when
it is considered that the whole
Hawuls at this place, cover a larger
extent of Ground and are apart, I
humbly trust I may not be deemed
presumptuous, or in any way desirous
of entailing unnecessary expense, when
I beg leave to recommend that 4 regular
Hawulgars be entertained on the same
footing as those at the Grazing Farm
Hoonsoor, for the express purpose of
looking after the Farm attached to the
Public Cattle Department at Bellary-

When crossing the Nullah in
rear of the Lines early in the morning
the water was only ankle deep, but on

my

Fort St. George 5th January 1852.

my return found it up to the waist and the stream running very rapid, this I am informed is no uncommon occurrence during the late wet weather it appears the Camels which were at the other side for chara, could not get over for 2 or 3 days and it might so happen that our Bullocks which grazing beyond the Nullah may be prevented from crossing for a similar period or longer Under these circumstances I would respectfully propose that the Hilly Ground opposite to Kar Kanah, Viz. Ungulduney Dausum, Coollah and Toontee may be obtained, which would answer well to let the Cattle out on, in the Nemsoon weather or when there is an unusual quantity of rain, this land is somewhat nearer the Cantonment and would yield great assistance in the way of chara to the Bullocks stationed at Bellary."

/ A true Extract /
H. C. 366.

To
Lieutenant F. Harris
Sub Assistant Commissary General

Sir, I have the honor to acknowledge the

J. C. R.

Fort St. George 5th January 1852.

the receipt of your letter of the 24th instant, and in reply to inform you that I have requested my Head Assistant Mr. Arbuthnot to investigate the circumstance reported by the Commissariat Sergeant respecting the removal of the Boundary stones in the Cattle Farm at Sooltanpoor-

Bellary Collectors Office, 29th May 1852.

(Signed) C. Pelly.
Collector.

To,
Captain F. Harris.
Sub Assistant Commissary General.

Sir,

In reference to my letter to you dated 29th Ultimo, in reply to yours of 24th idem, I have the honor to inform you that the removal of the Boundary Stones was made by Talook authority who had been ordered by me to go round the Farm and see whether all the stones which had been put down but not examined were put in the proper places. The Talook authorities found some stones not in the places supposed to have been intended, and not placed in accordance with the account which had been sanctioned

sanctioned by Government and proceeded to place them in accordance with the said account. Hence arose the dispute alluded to by you. But as requested by me my Head Assistant has escammed every disputed part of Boundary and I have addressed the Brigadier General Commanding the Division on the subject and in due course my observations and recommendation will probably be sent to you for your opinion for though the stones have all been at length laid down it still remains to adjust every misunderstanding and to finally confirm the boundary which I hope will now soon be done and it would have been earlier completed but for the death of the late Tahsildar Dadarow who was better acquainted with the subject than any one else in the Talook.

Bellary,
Collector's Office,
28th June 1851.

(Signed) C: Pelly.
Collector.

No. 686.

To, Brigadier General S: W: Steel C: B:
Commanding C. D.n
Sir,

I have the honor to forward Copies

Copies of correspondence that has taken place between Mr. Pelly and myself regarding the removal of certain Boundary Stones of the Soultanpoor Farm fixed as I thought permanently and when so fixed surveyed by the D. A. Qr. Mr. General of the Division and with reference to Mr. Pelly's explanation as to the cause of their removal respectfully submit the following remarks for your consideration.-

2- After much discussion and correspondence, orders from Government were received that the limits of the farm as of old were to remain undisturbed with the exception of one spot and the giving up an entire and separate range of Hills, stones were to be erected and then as a final measure a survey taken by an Officer of your Staff- In January 1850 Mr. Arbuthnot and myself proceeded to the farm and agreed on the limits as then marked out with Mounds of earth, heard all complaints and considered the matter finally settled; after much delay these stones were put down and the D. A. Qr. Mr. General at the solicitation of the Collector proceeded to Survey the Boundaries

as

as marked by those stones in the early part of this year, I submit that it was from this to be imagined that the limits were finally and once for all disposed of, but Mr. Pelly now states after all this has been settled and arranged and Surveyed by European Officers, in conjunction with his own head Assistant, that "the Talook authorities found some stones not in the places "supposed to have been intended and not placed "in accordance with the account which had been "sanctioned by Government and then without "any information or advice to this Department. These Talook authorities "proceeded to place "them in accordance with the same account"— The Thasildar — in fact exercising a revision of business previously fully settled by this Department and the Collector, and arranging the Boundaries according to his sole idea or supposition of what the orders of Government may have been.—

3. I most respectfully on the part of this Department protest against any such authority being exercised by the Tahsildar in curtailing the limits

limits of the farm, and submit that after the stones were once down and surveyed, not one should have been touched without a previous reference being made to this Department and also to you for the correction of the D. A. Qr. Mr. General Survey, which is now of course incorrect and of no value, surely no application would ever have been made to you for the services of a Surveying Officer had not the Boundaries and stones been then considered correctly and definitely fixed, to Survey Ground first and then alter the limits of such ground afterwards, appears to me to be giving double trouble and to be in the highest degree inconsistent. I trust therefore you will not sanction the removal of a single stone or the departure in the slightest degree from the limits as fixed in Captain Dallas' Survey.

4. I would also bring to your notice a departure on the part of Mr. Pelly from the rules of correspondence, I submit that any observations and recommendations he had to make, regarding the Boundaries of the farm, should

should have been addressed to me for the information of the Commissary General, the farm being solely under the direction of this department, and it would have been for me to lay such observations before you for your advice and opinion; whilst on this subject I would mention that I am in no way satisfied with the present arrangement of the Boundaries. As regards the range of Hills given up I find I cannot subsist my Camels without them and on my making this fully apparent to you I trust to be favored with your support in bringing the matter again before the Government. the Commissary General's wishes on this point being of course previously ascertained.

This will make no alteration in the Boundaries of old range of Hills or cause no work already done to be undone, as it would only be necessary to define the limits of the Ground lately given up and which must be again conceded.

Commissariat Office C. D.
Bellary 2d July 1851.

(Signed) F. Harris
S. A. Commissary General

To

No. 395.

To,

Lieutenant F. Harris
Sub Assistant Commissary
General.

Sir,

I have the honor by order of the Brigadier General Commanding to acknowledge the receipt of your letter to his address No. 686 dated 2d Instant, I am instructed to inform you that as the correspondence in determining the Boundaries of the Cattle Farm had been originally carried on between the Collector and yourself the Brigadier General concurs in the opinion that the observations and corrections proposed to be made by Mr. Pelly should have been continued in direct communication with you, for the information of the Commissary General.

The Brigadier General has however directed me, with a view to avoid the delay which would arise, to refer to you, for such observations as you may desire to offer the accompanying letter from the

the Collector of Bellary dated 28th Ultimo; on receipt of which, a further communication will be made to you.-

2d Mr. General's Department,
Ceded Districts
Bellary 5th July 1851.

(Signed) C. W. Dallas Capt.
Deputy A. 2d Mr. General.

To,

Brigadier General S. W. Steel C. B.
Commanding Ceded Districts.

Sir,

1. Under instructions from me my Head Assistant Mr. Arbuthnot has (as I informed you in my letter of 16th Instant) been to examine the boundary as defined by the stones lately put down by order of Government round the Cattle Grazing Farm at Soottanpoor in order to report upon disputes that appear to have arisen. With reference to that Gentleman's report to me and enquiries that I have made from the Talook authorities it appears to be necessary in concert with you to adjust 2 or 3 points.-

2. I would first observe that an account Particular of the lands intended to

to be excluded from or included in the Farm was prepared and sanctioned by Government on the 27th June 1850 and it would have been very desirable could that account be adhered to from the basis of the settlement, but in a few instances there appears to have been some misunderstanding, the adjustment of which I would propose as follows in each instance.-

See my letter to you dated 10th June 1850.-

First. A piece of land belonging to Inglaghy situated near Torngul No. 129 and 130 being 37-39-8 acres cs as of Talary enam land was entered in the account referred to as excluded from the Farm, it was supposed by the Talook authorities to have been so intended, But Mr. Arbuthnot has recommended that from its position (See the accompanying rough sketch No. 1.) it be given to the Farm, in this proposition I agree but it would be necessary to obtain the sanction of Government for other land in lieu of it which I shall accordingly ask for.

The

The line (see the rough sketch) will then run in the direction A: C: D: B- and the nook of land C-E.F.D be given to the Farm which is in conformity to the map of the Deputy Assistant Quarter Master General.-

2d. There are Circar Nos. 116–117–118 containing 61–35–11. acres &c. as belonging to the Village of Wudd which were excluded from the Farm in the account and the stones have been placed accordingly. It was agreed at the time as I am informed, between the Farm and Talook authorities that the lands of the whole of the Village named Hattiganahall adjoining Wudd should be given to the Farm, and the whole of the land of Wudd should be retained by the Villagers, this appeared a simple and unobjectionable Settlement as the Village Boundaries were well known and according to this arrangement the stones have been laid down corresponding with the account, but the map prepared by the Quarter Master General's Department includes I believe these 3 Fields and parts of 3 other fields of Wudd never

never included in the Farm lands (see Sketch No. 2.) the occupation of the lands by the Farm would be very inconvenient to the Villagers of Wudd who have not sufficient Ground for Grazing their Cattle and as they have been marked out with stones according to the Ground sanctioned by Government, and as I understand they are not very valuable nor urgently required by the Farm, I propose to let the stones remain as they are and the whole of the Wudd lands as before stated be put in the posession of that Village, the Borders of Hattiganhull forming the Boundary- I hope you will be able to acquiesce in this arrangement- The line would then be A. C, D B. (as the stones are now placed) instead of A. C. B. as in the map (see rough Sketch No. 2.).-

3. At one point further on towards Yettanhutty and Ligadahully Mr. Arbuthnot found a stone that had evidently by mistake been misplaced, in consequence of which the Map of the Quarter Master General's Department included

included a piece of Cultivated Circar land and a piece of land belonging to the Rajah of Soondoor, Mr. Arbuthnot with the concurrence of all parties removed the stones, at C. back to E. about 20 or 30 yards (see Sketch No. 3) and made the Border line A.B.C.D straight and according to this alteration it will be proper to correct the Map.—

4. The last point to be adjusted as also shown in the Sketch No. 3. The boundary stones are placed along the line E.H. which is in accordance with the account sanctioned by Government. The line erroneously pointed out to the Quarter Master General's Department was E.G.H and consequently two fields of Lingadas-hully Nos. 65 and 67 being in all 17-5-7 Acs. Qrs. As. have been improperly placed within the Farm. Mr. Arbuthnot reports that the ryots are desirous of Cultivating the fields (one is Enam) and are unwilling to give them up, and as he is of opinion that the line E.G.H was erroneously pointed out to the Surveyor (which there can scarcely be a doubt of as the fields in

question are not shown in the Accounts to be given to the Farm) I agree with him that it will be better to let the stones remain as they are placed and the necessary alteration may be made in the Plan.—

5 Should the above suggestions meet your approbation I will immediately order the boundaries, as now defined, after the necessary alterations to be confirmed and observed, and I should be obliged when the points alluded to in this communication are settled if you would direct the Farm people in conjunction with the Talook Authorities and Villagers to go round the Boundary which will be shown them, when all parties will be ordered strictly to observe the Boundary as defined by the stones which must henceforth be the only guide for settlement of future disputes as it is impossible on a Map (except on a very large scale) to define with sufficient accuracy every piece of land which may at any time become a matter of dispute.— It will be the duty of both the Villagers and Farm people to see that the

Commanding C. D.F.

Sir.

I have the honor to acknowledge the receipt of Deputy assistant Quarter Master General Captain Dallas's letter, and to submit the following remarks on regarding the Collector Mr. Pilly's communication to you that accompanied it.—

2 With reference to the 1st Para thereof this Department is perfectly unacquainted with any account particular of lands that may have been sent to Government in June 1850 by Mr. Pelly and unless such account particular agreed in every respect with the boundaries of the farm as originally defined and as concurred in by Mr. Arbuthnot and myself in January 1850 Mr. Pelly previously to so submitting any account particular differing therefrom should

I.

Fort St. George 5th January 1852.—

I think have made this department acquainted with his reasons for so doing, and received the consent of the Commissariat Officer to the new arrangement the annexed Extract* of my letter written to Mr. Pelly immediately on my return from the farm shews that I conceived every thing was over for all disposed of.—

3 With reference to the first piece of land alluded to in sketch No. 1 denominated Tornagul lands Mr. Pelly proposes to give to the farm what it has in fact always held and to the exclusion of it in the account particular was an error, and not in any way agreed to by this Department for N.C.B.B. was the line of original limits of the farm—Thus were the stones in the first instance erected and thus was the land surveyed and mapped

*Extract of a letter from Lieutenant J. Harris S.N.C.B. to Mr. Pelly Salting Collector &c.

Bullary dated 29th January 1850.

Sir I have the honor to inform you that I accompanied Mr. Assistant to the Farm at Tornagul and pointed out distinctly described to him by giving up the piece of land

to the Farm.

Part 2 The limits of the Farm are now all exactly

a list of which I lay this on them."—

mapped by the Quarter Master General
Vide last sentence of 2nd Para of Mr.
Pelly's letter without any reference or communi-
cation being made to this Department the
stones have subsequently been
removed to the line E. F. G. and
as I cannot concur in the propriety
of this I am glad Mr. Pelly at
once settles the matter by allowing
the limits to revert to their old
line A. E. D. B.—

4 With reference to the
2nd Para of the 2nd Section of Mr. Pelly's
letter and rough sketch No. 2 it
appears that Mr. Pelly has removed
the stones as placed and surveyed
from the line A. B. to the line
E. D. B. and having so removed
them now asks you to acquiesce
in the arrangement thus at once
without any previous reference to
this Department depriving it of about
115. Acres if the very best grazing
ground in the whole farm. From
this Valley near Mundy is cut
the best grass we get for stacking.

and

and this is not the first time the Villagers
have tried to obtain possession of part of
the land I trust however that you will
approve of my only recognizing the
original boundary A. B. as laid down
in the Dy A. D. Ms. General's Map
and that as Mr. Pelly has moved
the stones without obtaining either
your sanction or mine you will take
steps to have them immediately put
up in their former position A. B.

5 With reference to Sketch No. 3
the piece of land is so very unimport-
-ant and the new boundary so much
better than the old that I at once
concur in Mr. Pelly's wishes.—

6 I would now remark
that this account particular appears
to have been sanctioned by Government
on the 27th June 1850 and it occurs
to me that if any material difference
was to be found between it and
the boundaries as then defined,
that such errors should in
communication with this
Department have been rectified
at that time and the
surveying Officer applied for
when

Fort St. George 5th January 1852.

when every thing was settled which I in fact concluded to be the case in January 1850 and as I thought an undue importance had been given to the subject I studiously avoided any interference in the fixing of the stones feeling confident they would be put down as agreed on between Mr. Arbuthnot and myself I now find however that Mr. Pelly has unknown to me made alterations which even had I approved I should not have conceived myself justified in sanctioning without first obtaining the consent of the Commissary General

There are some but not many tracts of fine pasture land on the farm the piece of ground at Wadd is one of these and on them have we mainly to depend for forage for the Cattle, they are equally however desired for cultivation by the neighbouring ryots who feeling confident of support from the Civil authorities will lay some claim or other to every one of them and

Fort St. George 5th June 1852.

and if allowed to have their own way in the end leave the farm nothing but a range of barren and unproductive Hills.

I trust therefore should my views be favored with your approval that you will with the one exception of the Sketch marked No. 3 direct the immediate replacement of all stones moved and that the map remain as surveyed by Captain Dallas.

2d July 1851 8 With reference to the 4th para of my letter to you I take this opportunity of laying before you certain facts connected with the other range of Hills given up by this Department in January 1850 but which I now find must be again conceded to it. In October 1849, contrary to the recorded opinion of previous Commissariat Officer I admitted that there was in ordinary seasons a more than sufficient pasturage for bullocks I hesitated much as regarded the Camels and acquiesced (almost against my own conviction as to

the

the propriety of the measure) in these ex
=pence of Hills being given up I am
prepared to prove now that such
was impolitic both as regards the
well being of the Cattle and in
a financial point of view —

For, as regards the Cattle
I can now state without fear of
contradiction that on the lands now
in my charge there does not grow
any thing like a sufficiency of
the leaves called "Sheet-ka-Puttah"
for the Camels now at this farm — This has
often been reported to me and I loath
again to trouble Government or the Com=
missary General on the matter, gave
little heed to such constant complaints of the
scarcity of this particular kind of forage
I find now however that something
must be done or the animals will
have to be fed for some part of
of the year entirely forage at an expen=
=ce of Rupees 222 per Month, the reason
are these leaves that the Camels
are taken a distance of at the least 10
Miles from the Farm at day light to graze

S.G.B.
Asst.

there all day return late at night
carrying forage for the next day's consump=
=tion. occasionally also going into the ter=
=ritory of the Rajah of Soondoor, under
such arrangement as this, even if other=
=wise unobjectionable, I submit, it is a
hard to keep the Animals in decent
condition and it is surely unfair that
when there are such stringent rules
made regarding the lands of the
Circar under the Collector that those
of the Rajah of Soondoor should be
trespassed on, and to the highest degree
unadvisable that the Camels should
go ten Miles to get forage when at the
distance of less than two from the farm
there is a range of hills belonging to
the Circar, almost utterly useless for
any other purpose and perfectly ade=
=quate to the supply of the required
amount of forage. this I represented
to Colonel Watkins the Deputy Com=
=missary General when on his tour, he
advised me to write to Mr. Reilly
and solicit permission for the Camels
to be allowed to graze on these hills as

a

a favor and not as a right. Copy of my letter to Mr. Pelly and his answer are herewith annexed - the plan proposed by Mr. Pelly in the 4th. Para of his letter viz. that I should purchase the leaves from his contractor is open to many objections. In the first place although it increases his revenue it affects my charges, probably, to a far greater extent, for the contractor knowing very well that this department must either take his leaves or at an enormous expense feed the Camels on dry forage, will of course make his own terms, and I cannot see how it can be expected they will be reasonable, neither do I think unless it can be shewn that any great pecuniary advantage is derivable therefrom that it is fit that this department should be dependant upon any civil renter for the necessary provender for the Camels entrusted to its care, Government through one department letting a

thing

thing, and then again through another renting it is an anomaly and only likely to result in eventual loss to the State.-

10. I will now lay the subject before you as to how it affects the revenue - since the commencement of the discussion of the limits in 1849 it has been my object to make the farm as profitable to Government as possible. Mr. Pelly doubtless has had the same end in view but if any information as to the amount of revenue he has derived and the expenses he has incurred is correct the result cannot by any means have answered his expectations - since February 1850. this Department importing Grass into Bellary and issuing it instead of dry forage to the Public Cattle has effected a clear saving without any contingent expenses of Rupees 1361. The Collector has gained to the State the rent of the Hills (so I am informed I write under correction) but 60 Rupees

a

a year and as the cost of these boundary stones (all the result of this discussion) was 250 Rupees it will take 4 years before the rent covers this expense. With the limited land now at my disposal I cannot hope to continue this saving much longer, but if the additional range of hills are conceded to me it will be a pleasure to me at the end of a year to prove how far more productive they can be made in the hands of the Commissariat than in the charge of the Collector, there will be a sufficiency of every kind of forage for all animals and to meet all contingencies and if there is as there may be a surplus grass I will as I have a large amount of unemployed carriage at my disposal import it for sale into Bellary. In this there will be no difficulty and the Collector's rents will bear no comparison to my savings at any rate this can be tried for a year and I hold myself answerable

answerable that what I now advance will prove correct..

11. I need not point out to you the numerous other hills nearer to Bellary which might be let to Contractor to supply this Cantonment with grass of which Article I never heard of any deficiency in the station when the range of Hills now let for that purpose were in the hands of the Commissariat Department.-

I trust therefore I have successfully proved to you first, that the range of hills are absolutely necessary for the supply of provender for the Camels. 2dly, that as regards actual revenue Government would gain by their being given up to the Commissariat, and thirdly that there are plenty of other hills that can be as well or even more advantageously rented out to supply Bellary with grass.-

12. As the whole correspondence has been so frequently before you. I offer the above remarks and when favored with your opinion and wishes thereon will lay the matter before

the

the Commissary General confident / the more particularly if my views have your support / of his full concurrence in all that I herein urge.

Commissariat Office, C.D.s
Bellary, ——
7th July 1851. ——

(Signed) F. Harris
S. A. C. Gl.

No. 404.

To

Lieutenant F. Harris
Sub Assistant Commissary General
Ceded Districts.

Sir,

I have the honor, under instructions from the Officer Commanding the Division, to acknowledge the receipt of your letter of the 7th Instant, and to forward to you a copy of the letter which he has addressed to the Collector of Bellary upon the subject of the Cattle grazing Farm at Suttanpoor.—

I am directed to state that you will therein observe the opinion which the Brigadier General has given up the disputed boundaries as

as well as of the necessity of obtaining the restoration to the Commissariat Department of the range of Hills given up in January 1850, and he authorizes you, to transmit a copy of that letter, in forwarding your reference upon the subject to the Commissary General and to state that he considers the concession of all that he has animadverted upon, to be of importance to the efficiency and well being of the Public Cattle of the state.—

2d M. Genl. Dept.
Bellary 11th July 1851. ——

(Signed) R. Dallas, Captn
D. A. 2d M. Genl.
No. 122.

To,

C. Pelly Esqr.
Collector of Bellary.

Sir,

I have the honor to acknowledge the receipt of your letter, dated 28th June 1851. No. and subject as per margin. I beg to state that I had previously received a representation upon the same subject from Lieutenant Harris S. A. C. General in charge of the Department in this Division

* Boundaries of the Cattle Grazing Farm at Suttanpoor. —

A copy of which is annexed.

Division, the Cattle Grazing Farm being entirely under the control of the Com=
=missary General. I concur in opinion with Lieutenant Harris that the further cor=
=respondence regarding the Boundaries should have been addressed to him as all previous communications had been; but as I considered it better to avoid the delay which would have arisen in adjusting that point, I at once referred your letter under reply to Lieutenant Harris, for such report and opinion as he might desire to offer in accordance with the expectation held out to him in your letter to his address dated the 28th. Ultimo, that this course would probably be adopted by me, a copy of his letter upon the subject as herewith forwarded.

2. Having given my best c consideration to the three proposed changes in the line of Boundary to the Farm, I have to observe as follows.- It appears to me that after the per=manent adjustment of the Boundaries by

by mutual agreement between the Honble Mr. Arbuthnot and Lieutenant Harris, who met on the spot for that special purpose in January 1850 it could never have been contemplated by Lieutenant Harris that any change could be proposed, much less carried into effect, without due notice to him, in whose charge the Farm has been placed, as head of the Commissariat Department with this Division.-

3. The account particular of the land sanctioned by Government on the 27th. June 1850 Lieutenant Harris states that he has never seen, but it may be presumed to have been based upon, and to have corresponded with the boundaries agreed upon, and defined in the previous January- and this would seem to be the case by the circumstance of those very limits having been pointed out by the Talook Authorities, as well as by the Farm Darogah and

Fort St. George 5th January 1852.-

Darogah and others, to the Office of the
2d Mr. Genl's Department when the
Survey was made in January of this
year, as the map now shews. Subsequently
in February, the Tahsildar of Comply
made an unfounded complaint to you
that Captain Dallas had altered the
position of some of the boundary stones
and appears to have at once proceeded
without authority from any one, to
remove them himself to places which
he supposed to have been intended,
from which extraordinary proceeding
of the Tahsildar, the disputed boundaries
have arisen.-

4. In regard to the changes
proposed, and shewn in the 3 rough Sketches
received with your letter, it will be ne:
-cessary that a reference should be made
for the decision of Government. The Sketches
numbers 1 and 3 offer no difficulty, but
there appears to be no doubt that the
Farm cannot spare the 116 acres of which
it is proposed to deprive in Sketch No. 2.
I would therefore suggest the necessity
pending

Fort St. George 5th January 1852.-

pending the decision of Government of
removing the stones which have been
placed without authority, and of renewing
the boundaries, surveyed and shewn
in the Map; except only in the land
referred to in Sketch No. 3. The boundary
shewn in Sketch No. 1 would thus run, as
proposed by you, on the line A. b. D. B.
and in Sketch No. 2 on the line A. B.
as pointed out to the 2d Mr. General's
Department, and the land thus included
to be considered as belonging to the
Farm till otherwise decided.-

5. The Farm according to those limits
contains no adequate supply of forage for the
Camels there stationed, and in recommending
to Government that boundaries be established
according to the view above detailed, I purpose to
recommend also that the range of Hills
given up in January 1850, may be restored to the
Commissariat Department to furnish the subsistence
actually necessary for the Camel
Establishment.-

Head Quarters, C. D.
Bellary - - -
11th July 1851. —

(Signed) S. W. Steel.
Brigadier General
Comg. C. D.

No.

No. 474.

To,

Lieutenant F. Harris.

Sub Assistant Commissary General.

Sir,

As requested by Brigadier General Steel in a letter to me No. 122 of 16th Instant in reply to mine of 28th June I purpose to do myself the pleasure of addressing you direct on the subject of boundaries of the Cattle Farm, which course instead of addressing my letter to the General on the 28th Ultimo, I should certainly have pursued had it not been that I had previously had correspondence with him respecting the subject, more particularly with reference to the Survey Map to which my last communication had also reference.-

2. I therefore have now the honor to acknowledge the receipt of your two communications to General Steel noted in the Margin copies of which were forwarded to me by that Officer in his letter of 11th Instant. But after the personal communication I have this day been favored with by you, and the

+ No. 882 dated 2 July 1851- " 706. 7th Dec.

the explanations that have been mutually given my reply need be but brief. You were under the false impression as I have endeavoured to explain that the stones had been laid down and subsequently removed by me and that the adjustment marking out the boundaries had been finally settled. I explained that this was not the case and that until the stones were reported by me to be all laid down and approved of by your Department and mine, the matter could not be considered as finally settled.-

3. Having approved of my propositions for the settlement of the few points in dispute with the exception of the 2d; Vizt. the Boundary Line at Wudy. it remains only to adjust this point. It is an error to suppose I have removed the stones here laid down at all. They are in the position in which they were first put down at the spot supposed by the Talook Authorities to be intended by you and Mr. Arbuthnot as is apparent from the Notes appended to the account made up at the time and subsequently

subsequently submitted to Government. The stones as now fixed exclude from the farm three Fields Nos. 116. 117. 118. Containing 61 acres and 35 Goontahs which previously were included in the Farm. It does not appear that you and Mr. Arbuthnott went over this piece of the boundary. But it seems to have been understood, by the Talook People, that these 3 Members had been resigned. But you have explained to me that it was not your intention to have resigned them and state that they are required for the Farm, and cannot be conveniently given up, I shall therefore desire them to be included and have the Boundary stones removed to a position that will include them in the Farm. I am informed there is a Nullah which makes a good boundary, and that it will also give your boundary a small piece more of land.-

4. But the Map made in the Quarter Master General's Office is said to include also 54 Acres and 20 Goontahs in being parts of Nos. 115-119 & 120 which I have (I believe satisfactorily) shown

shown to you, were never in the Farm- and you having in consequence given up your claim to them the boundary at Wudd is now I believe finally ascertained.-

5. All disputes being now disposed of I shall give instructions to have the stones altered and put down in conformity with the Sketches Nos. 1 & 3 which accompanied my letter to Brigadier General Steel of 28th. June- as respects the lands alluded to in those Sketches and as respects the land at Wudd in Sketch No. 2 the alteration will be made in conformity with Agreement mentioned in the two preceding paras of this letter.-

6. With respect to the restoration of the part of the Farm already given up I have nothing at present to say. The abandonment of it was suggested and ordered by Government and I should apprehend difficulties in it's being restored. But I hope to be able to suggest a plan by which without difficulty or annoyance to any party the Camels may obtain forage from the Hills alluded to.-

Bellary Collector's Office
16th. July 1851. —

(Signed) C. Pelly.
Collector.

No.

Fort St. George 5th January 1852.

No. 746.

To,

C. Pelly Esqre.

Collector of Bellary.-

Sir,

I have the honor to acknowledge the receipt of your letter of the 16th Instant and with reference to the 3d para thereof to state that the arrangement proposed by you regarding the boundary line at Wudd has my full concurrence, as only claiming for this Department, as limits as previously settled, I can have no posible right to the 54 acres and 20 Goontahs which by your accounts appear to have of old, always to have been excluded from the farm. The Kullah afisted by a stone or two here and there, will, as you very justly remark, make an excellent natural boundary. I trust therefore. that the stones will be as speedily as posible permanently fixed in spots of Ground as shown both in rough Sketches 1.- 2.- 3 and when so fixed for good, on your application to him, the Brigadier General Commanding

+ with the alterations in the Wudd lands as above.-

Fort St. George 5th January 1852.

Commanding will doubtless direct the Map to be altered so as to exclude the 54 acres and 20 Goontahs from the Wudd land, held by the farm- in all other respects it agrees I believe with present limits.-

2. The explanation you have done me the favor to offer regarding your not having addressed this department direct Concerning the boundaries of the farm, is fully satisfactory and duly appreciated by me.-

3. I regret that you apprehend difficulties in the range of Hills before Ceded being restored to this Department, I trust they may not prove insurmountable as looking on the question in any and every point of view I consider the transfer most desirable as to both the Public Cattle and revenue will be most assuredly benefitted. and that too, without, as far as I can see, the slightest sacrifice of any just private interests, and without any infringement on the rights or comforts of any parties.-

Commissariat Office
C. D. Bellary.
21st July 1851.-

To

Fort St. George 5th January 1852.-

No. 835.

To,

Colonel A. Tullock C. B.

Commissary General of the Army.

Madras.-

Sir,

I have the honor to forward
5th August 1851. Copy of a letter from Mr. Pelly and my
7th Do. reply thereto on the subject of leases for
the Camels from the Eastern range of
hills lately ceded by this Department.-
2. I trust this letter will not
interfere in any way with any appli-
=cation it may have been your intention
to make to Government for the entire
retransfer of the range. A Measure
infinitely more desirable both as regards the
provender for the Camels and grass and pasture
for the Bullocks and for importation
to Bellary as it is as much for the
benefit of the latter Animals as the
former that I urge the retransfer added
to this what may be considered practicable
and advisable by one Collector, may by
his successor be deemed the contrary.-

I-

Fort St. George 5th January 1852.-

* 13th June 1851. Paras 3 & 4 forwarded which was forwarded to the Commissary General on the 2d July 1851 with letter No. 748 of that date.-

3. It is hardly necessary for me
to draw your attention to Mr. Pelly's letter*
to me wherein the privilege now ceded was
stated to be apparently impracticable, had
I then concurred in all Mr. Pelly said, this
department would ere this have been sad-
-dled with a yearly payment to the renter,
greater in all probability than the whole
sum the latter gives for the entire range.
difficulties then raised however appear
to have now vanished and I trust all
objections to the retransfer may be as
easily disposed of when my best attention
shall be given to prove to you the justice
of my assertion that the land is not
only necessary but far more profitable
in the hands of the Commissariat than
in that of the Collector.-

Sub Asst. Commissary General.

Sir,

In reference to the concluding
part.

Fort St. George 5th. January 1852.-

part of my letter to you of the 13th. June last, I have the honor to inform you that I have this fusly year made such arrange:=ments as will enable you to procure leaves without hindrance for the public cattle from the Eastern Range of Hills which formerly were included in the Cattle Farm. All I have to request of you is that you will direct your Camel drivers to drive the Camel by one road into the Hills and back again from the Farm so as not to injure the cultivation or grass lands under the hills, and to warm them not to unnecessarily damage any grass lands &c. in this range.

I should be obliged by your informing for how many, and what months in the year you think the trees in this range will be available for the Camels, as I understand that it is the custom for them to grage for a short time only in one part and then to remove to another.-

4th Augt. 1851.

Fort St. George 5th January 1852.

Extt. from Mins. of Cons. Revs. Departt. No. 1181. 11th Decr. 1849. P. 1. 16th Octr. 1849.

of all the ground given up by order of Government on the suggestion contained in the 5th Paragraph of your own letter.

4. With the ground so relinquished were thirteen numbers of claimed lands restored to the owners; and the Commissary General before addressing Government would be much obliged to Mr. Pelly to state his decided opinion as to whether or not there would be any act of injustice in the retransfer of these to the Commissariat.

5. Should Mr. Pelly not object on a reconsideration of the subject, the Commissary General requests you will given in a Statement shewing the amount of advantage it would be to the State to give back to this Department the land formerly relinquished by it, after taking into consideration the compensation paid to ryots on that account.

Commissary Genel. Office,
Madras. - - - -
8th September, 1851.

(Signed) C. M. Maclean
A. C. General.

No.

Fort St. George 5th January 1852.-

No. 963.

To,
Colonel A. Tulloch C.B.
Commissary General of the Army
Madras.-

Sir,

I have the honor to acknowledge the receipt of Assistant Commissary General Major Maclean's letter, No. 1808 dated 8th Sept. 1851.- and with reference to the 2nd Para thereof, to state that I have conveyed to Brigadier General Steel C.B. your thanks as instructed and I doubt not they are as fully appreciated by him, as is I am sure by me, the approval you have been pleased to convey as regards the part I have taken in the matter.-

Previous to addressing Mr. Pelly I would however with reference to the 3d & 4th paras of Major Maclean's letter, point out, that it is not my wish to urge the restoration to this Department of any claimed Enam lands for which compensation would be necessary. The thirteen numbers of claimed lands alluded to in the 4th para of

Major

Fort St. George 5th January 1852.

Major Maclean's letter are not situated in or near the range of hills relinquished.- they consist of a strip of land close to the hills now belonging to this Department and I have no wish to that they should be again given us, or even indeed any claimed Enam lands near the range of hills the restoration of which I now urge, all I want are the Perampoke or waste lands consisting of a range of fertile hills close to the Farm and near Bellary and which were relinquished by me and which Mr. Pelly I believe rents for 60 Rupees per Annum. I would exclude all Enam lands so as to make no compensation necessary and give no cause for any possible ground of complaint by the Enamdars- Government would therefore lose but 60 Rupees a year in their Revenue Accounts and gain more than ten times that amount in the Commissariat Expenditure-

Enclosed is a Statement shewing the amount of advantage it would be to the state to concede again to this department the range of hills lately relinquished excluding

Fort St. George 5th January 1852

excluding all Enam lands claimed.

Pending the receipt of your orders on this letter I shall not communicate further with Mr Pelly and I trust that being now aware that I do not wish the retransfer of any Enam lands, you will not see any necessity for my again addressing that Gentleman as I almost despair of ever bringing him over to my view of the case supported even as I am by the General, but when the order of Government is once obtained for the retransfer I doubt not of being able to settle with him the minutiæ of boundaries &c in a manner satisfactory to you and advantageous to the State.

Reviewing the Proceedings of the Court of Wards relative to the Management of the Vullar-cottah Mootah in the Shungleput District.

Read the following Extract from the Proceedings of the Court of Wards.

/ Here enter 10th November 1851 No 489 /

Para 1. The charge of the Vullar-cottah Mootah in the Chungleput District was not made over to the Proprietor until the 7th June 1851 and the Estate having continued during fusly 1260 under the

Fort St. George 5th January 1852.

the management of the Court of Wards. Their report for that year is now laid before Government.

2. The Season is stated to have been nearly as unfavorable as the past. The Settlement for Fusly 1260 Rupees 1721-1-7 though above that of the previous year in Rupees 461-2-6 was yet Rupees 701-7-11 below the Peishcush [illegible] The Collections within the year, and subsequently to its close amounted to Rupees 1579-3-7. and of the balance Rupees 141-14- the Proprietor has agreed to recover and pay in to Government Rupees 126-2-9 leaving Rupees 15-11-3 which is irrecoverable and which with other small balances for fuslies 1257 and 1259 in all Rupees 35-[illegible]-6 will be written off in the accounts of the Mootah.

3. Deducting charges of management and maintenance the sum available to meet the demands for Peishcush Rs. 2,122-9-6. was only Rupees 1550-10-6 which after allowing for Rupees 126-2-9 which the Mootah dar has promised to recover for Government will leave an unadjusted balance of

Fort St. George 5th January 1852.

of Rupees 945-12-3 due on account of fusly 1260, which the Board recommend to be written off. The Government remark, that for some years past it has been usual in case of Estates under charge of the Court of Wards to remit at the expiration of the management, all arrears of Peishcush which may then be outstanding. This course has been pursued in deference to the opinion expressed by the Judges of the Sudr Udalut in their letter to Government of 7th December 1831. wherein it was stated that the intent of Regulation V 1804 was "to secure to disqualified proprietors as soon as the particular cause "of incapacity should be removed, the "possession of their Estates, unincumbered "under any circumstances with public "demands" and that the Regulation "does not contain a single direct provi- Para 3. "sion or even an incidental expres- "sion from which it can possibly be "inferred that arrears of Peishcush "which have accrued under management "of the Court of Wards were intended to remain a debt against the Estate

to

to be liquidated by the Proprietor. The Government cannot but consider this view here taken as open to question - They would observe, that an Estate while under charge of the Court of Wards may be presumed to be administered by their Agent the Collector, with all due regard to its interests and, if so, and no imputation attach to that Officers management, there seems no reason why balances which have accrued from adversity of season or similar causes it may be in the very last year of Wardship should not be recoverable from the proceeds of subsequent and more favorable years, after the property has been given up to its owner in the same manner as arrears accruing on other Estates are occasionally allowed to lie over for gradual liquidation. To strike off all arrears as a matter of course on the delivery of the Estate is practically to reduce the Peishcush for the period of management and thus to place the incapacitated Proprietor in a better position, than are whose Estate

has never been under the Court of Wards. The Government resolve to communicate these remarks to the present Court of Sudr Udalut, and to request them in reference thereto, and to the correspondence as per Margin which passed on the subject in 1831 to reconsider the question, and state whether they adhere to the views contained in the letter to Government of 7th December 1831. It is observed that in para 5 of that letter, the Judges refer in corroboration of their opinion, to the provisions of certain Regulations of the Bengal Code. The Government therefore resolve to refer to the Government of Bengal and to ascertain from them what is the usage followed in that Presidency in respect to the recovery of arrears of revenue accrued against the Estates of incapacitated proprietors during the management of the Court of Wards which may be outstanding

Recording opinion on the Proceedings of the Court of Wards reviewing the Management of the Wootoo and Shrotrium in the Shimoga Sheput District for Fusly 1260.

Fort St. George 5th January 1852.

Read the following Extracts.

No. 1269.

Extract from the Minutes of Consultation in the Revenue Department. Under date the 20th December 1851.

Read the following Extract from the Proceedings of the Court of Wards.

(Here enter 27th October 1851 No. 459)

Para 1. In the above proceedings the Court of Wards review the management of the Wootoo and Shrotrium in the Shimoga Sheput District for Fusly 1260, and request instructions in respect to the future disposal of the property.

2. The outturn of the Shrotrium for the year under report is far from satisfactory. Owing it would seem to the falling off (155 @ 8967) in the Kunjah cultivation, and the greater amount of remissions allowed, the Rupees 958, the settlement was only Rupees 1914 - and of this but Rupees 1667 have been collected. The Revenue of Fusly 1259 and for the average of the 8 Fusles 1253 to 1260 both inclusive, during which

Statement A in Coll.rs letter dated 16th Aug.t 1851.

Fort St. George 5th January 1852.

Statement B in Coll.rs letter dated 8th Aug.t 1851.

which the Estate has been under the management of the Court of Wards, was respectively Rupees 3193 and Rupees 3558.

3. The Honorable the Court of Directors have ordered that the succession to this Shotrium be regulated on the same principle as was applied to the Shotrium of Tinnanoor - that is that all the sons of the original grantee be regarded as the second of the three lives for which the grant is to run, and all their sons as the third.

Proc. Para 10. The Court of Wards therefore consider that the title to the Village of Wootoo and should rest in Cothumda Ramaswamy Naick and Juggunada Swamy sons of the first Grantee Dt. Swamy Naick and the Minor Venkatarama[illegible] Nephew and adopted Son of their deceased brother Seetaramah Naick - The Court observe

Para 10 that as the interest of the Minor in the Estate is now limited to one third share it is not strictly necessary that it should continue under their control,

but

Fort St. George 5th January 1852

but that application should be pre-
-ferred to the Civil Court under Section
XX Regulation V of 1804 extended -
by Section III Regulation X of 1831 to
name a Guardian to Venkataramanjoolu, none having yet been formally
appointed, and on this being done
that the Collector should be directed
to make over to the Guardian so no-
-minated and to the two other share-
-holders their respective proportions of
the Surplus Funds (Rupees 9,853 in
public Securities) which have accu-
-mulated since the Shotrium has
been under the management of the
Collector the Shotrium itself being
also it is to be presumed made over
to the same parties.-

4- It is however brought to notice
the two Sons of Dt. Swamy Naick
Cothunda Ramaswamy Naick and
Iuggunada Swamy are insolvents
and that application has been
made to the Collector for the accu-
-mulated proceeds of the Shotrium
by the Official Assignee on behalf
Para 11- of their Creditors- The Court of Wards
doubts

Fort St. George 5th January 1852

doubt whether the Collector can accede
to this request- They remark further -
that if the insolvent parties could agree
Para 15- with the Guardian of the "Minor to -
"allow the Estate to remain under ma-
"-nagement till his majority and receive
"a fixed sum for their maintenance it -
"might be done- but the arrangement
"must be voluntary"

5- The Right Honorable the Go-
-vernor in Council is of opinion that the
Shotrium should be registered in the
joint names of the two surviving Sons
of Dt. Swamy Naick Viz. Cothunda
Ramaswamy Naick and Iuggunada
Swamy Naick and in that of his grand-
Son the Minor Venkataramanjoolu Naick
It is desirable that the Estate should
remain under charge of the Court of
Wards until this last named in-
-dividual attains his majority
but it may be doubted whether
this can be done against the Will
of the other shares- Under any
circumstances, however no charge
should be in the existing ma-
-nagement of the property until

the

Fort St. George 5th January 1852.

the sons formally demand possession when it should be proposed to them to continue the present Administration under an arrangement for the division of the proceeds among the Sharers. Should they demur to this course of procedure, the Court of Wards should then apply to the Civil Judge under Section V Act XIX of 1841 for the appointment of the Collector as Curator to prevent mis appropriation or waste of the property during the Minority of Venkatarama Iyelos Naick.

6. With respect to the surplus funds which have already accumulated it would seem that payment of the two thirds belonging to the Shares of Cottiunda Ramaswamy Naick and Juggamada Swamy Naick cannot be withheld but the Court of Wards should instruct the Collector not to make over the sums either to the parties themselves or to the Official Assignee until he has consulted the Honorable Commissioners Solicitor and ascertained his opinion.

From Secy to Government.

Reviewing the Board's Proceedings on the settlement of Extra Sources of Revenue in the District of South Arcot for Fusly 1260.

(38)

No. 1270.

Extract from the Minutes of Consultation in the Revenue Department under date the 20th December 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

/Here enter 24th November 1851 No. 508/

Para 1. The settlement of the Extra Sources of Revenue in the District of South Arcot for Fusly 1260 amounted to Rupees 5,06,535 being above the previous Fusly by Rupees 67,469 the greater portion of which Rupees 48,346 is shewn to have occurred in the Salt Department. The current Collections amounted to Rupees 491,983, leaving a balance at the close of the year of Rupees 14,532 which has been since reduced to Rupees 198-13-11 and is outstanding under the heads of Moturpha and small farms.

2. With the exception of a decrease of Rupees 2678 in Frontier Customs the report of the Collector exhibits an increase under each of the other heads. The revenue from Salt, Rupees 2,77,862 the highest on record, was Rupees 69,095 above the average of the preceding 10 years, and Rupees 48,346 above the sales of Fusly 1259. Of the latter, Rupees 33,119 occurred in the sales for Home consumption and, is attributed to the check given to the illicit manufacture of Earth Salt, to the encouragement held out to retail purchasers by a reduction in the Minimum quantity allowed to be

sold and to greater attention in the preparation of permits so as to make these documents exhibit more correctly the places for which the Salt has been purchased

3. In the Salt taken for inland traffic an increase of Rupees 19780 appears to have occurred, chiefly in the exports to Mysore and Trichinopoly; the sales for Salem and Coimbatore present a large diminution. The Collector is of opinion that the Inland Trade in Salt will be greatly improved by a good Cart road being opened to the Western Districts. He observes "an easy line of communication from Salem by Ahtoor to this part "would materially advance to the prosperity of the "Salem, Coimbatore, and Mysore Districts, and have "an important influence on the Salt sales as the bandies which brought their produce to the Coast, would "carry back this article in return, and the diminished charge of its conveyance would doubtless "lead to an increased consumption - at present the "line of road is in a very unsatisfactory state, and "I have requested the Civil Engineer, Captain "Smythe, to take measures for its inspection and improvement." The Right Honorable the Governor in Council resolves to refer this portion of the subject to the Board of Revenue in the Department of Public Works in view that no time may be lost in submitting an Estimate

Estimate of the cost of effecting the improvement suggested.-

4. The Governor in Council notices with satisfaction the testimony borne to the exertions of Mr. Mc. Donell, Head Assistant Collector, under whose immediate charge the Salt Department has been placed, and to whose efficient check and Superintendence the present favorable results are in a great degree attributable.-

5 With regard to the Stock of Salt in hand at the close of the Fasly which is represented to be low, owing to the large sales of the year, and to an untoward season impeding the manufacture of the Article, the Governor in Council regrets that so scanty a supply should be left available for the wants of the current year, and concurs with the Board of Revenue in the opinion, that the manufacture should be conducted on such a scale as to leave at all times a year's supply, to provide against unforeseen contingencies.-

6. The decrease of Rupees 2,678 in Sayer previously noticed occurs principally in exports of Piece goods and Grain and in Imports of Liquor and Spices. In Sea Customs the increase of Rupees 6,372 is ascribed chiefly to larger Exports of Indigo and Oil to Europe, and in Stamps Rupees 752 to the extended operation of Act XVII of 1848.-

The

7. The fluctuations under the heads of Abkarry, Moturpha and Small Farms are sufficiently explained by the Collector, and call for no special notice from Government.

8 The Gross Collections of the year, including extra items and arrears amounted to Rupees 5,03,308 deducting charges Rupees 64,167 the Net revenue Rupees 4,39,140 was Rupees 58,068 above that of the preceding Fusly.

9. Agreeably to the recommendation of the Board of Revenue, the Right Honorable the Governor in Council grants authority for writing off in the accounts of the South Arcot Collectorate, the following balances of previous years reported to be irrecoverable, amounting to Rupees Nineteen, Annas eight and pice Seven Viz.

Small Farms	1-2-10
Moturpha	18-5-9
Rupees	19-8-7

Fort St. George,

Sir,

Reporting as directed in the Board's Circular of the 20th Ultimo the cost to Government per Garce of all Salt received on account of the Monopoly.—

I have the honor to acknowledge the receipt of your letter of the 20th Ultimo calling upon me to report the cost to Government per Garce of all Salt received on account of the Monopoly.—

2. In reply I beg leave to submit a Statement shewing the quantity of Salt received into store at the Cotaurs in this District during the last five years and the cost to Government in each year, distinguishing the different items. Under "wages of Sibbendy" the whole

Fort St George 5th January 1852

whole of the Salt Establishment both at the Muzzoor and the Stores is included. The cost to Government per Garce taking the average of the five years is Rs 11 a 3 p 7. In this calculation the repairs to Roads and Bridges in the vicinity of the Salt stores are not included though as the outlay is almost entirely, I might say, exclusively for the benefit of the Salt trade I think it may be fairly considered as a charge on the Salt revenue.

The amount so expended during the last 5 years is shown in the Margin If this be added the total cost per Garce will stand at Rupees 11 8 6 27.

Fusly	Amount expended for the repairs of Roads and Bridges			Per Garce		
	Rs.	a	p	Rs	a	p c.
1256	250	12	11	"	1	4 46
1257	742	10	"	"	3	5 65
1258	1060	12	9	"	7	" 53
1259	2444	2	3	"	11	8 41
1260	2632	4	6	1	9	8 10
Total	4930	10	5	1	"	"
Average	986	2	1	"	4	11 27

3. I think it is well to exhibit in the Margin the wastage on stored Salt during the same period as that to which the Statement now submitted refers, in calculating the net profit derived by Government this item should I apprehend be taken into consideration

	Quantity

No 91

To, W. H. Bayley Esqre

Secretary to the

Board of Revenue,

Fort St. George—

(52)

Bd No. 3139

From the Collector of Bellary— } Sir,

Reporting with reference to the order of Government dated 29th July 1851 and Communicated in the Board's Proceedings dated 4th August last his opinion and the object of the inhabitants of the Town of Bellary for the adoption of the provisions of Act XXVI of 1850 in this Town—

I have the honor to report that in conformity with the orders of Government contained in Extract from the Minutes of Consultation under date the 29th July 1851 No 489, Judicial Department, and Communicated to me in Extract of Proceedings Board of Revenue of the 4th August last, I proceeded to give publicity in the manner prescribed, to the Notification of 29th July 1851 to the inhabitants of Bellary Town, inviting them to come to my Office to declare themselves for or against the adoption of the provisions of Act XXVI of 1850 to the Town of Bellary and I kept a Book in my Cutcherry for the enrolment of the names of all occupants of houses or shops in the Town as being in favor of, or against the prayer of the application of certain of the inhabitants who had already requested that the said

Act

Act might be put in force-

2 In Conformity with this Notifi-
-fication, I have the honor to report that
* Bruce Pettah 1282 * 1761 occupants of Houses in the Town of
Coulo Bazar 479
1761 Bellary including the two Pettahs, Bruce
Pettah and Coulo Bazar, have responded
to the application for putting in force
the said Act, and as desired by Govern-
-ment I beg to explain that it is their
wish that the Act shall be put in force in the
Towns for all the purposes specified in section II.

But I am particularly desired to be
very careful to inform myself accurate-
-ly of the real sentiments of the people in
respect to the proposed measure and to
report the same - I am constrained I regret
to say that I am of opinion that the general
feeling of the people has not been as
expressed so strongly in favor of the
measure as I could have wished -

In the first place for a long time none
came forward to respond to the Notification
except some Government Servants in my
own Cutcherry and the Civil Courts.

Secondly

Secondly - When I called a general meeting of
the Merchants and other principal men at
my office, objections were raised to the measure
because it was not understood what amount
would be assessed on them, and the merchants
Complained that they were already too
hardly taxed with the Motarpha assess-
-ment and for some time it appeared
that they opposed the measure and I
Requested they would accordingly note
their disapproval by entering their names
as against the measure - But this they were
unwilling to do and after every explanation that
could be given them they eventually voted for it -

Thirdly - Notwithstanding this first move-
-ment in favor of the measure parties came
very slowly into my Office and not until
they were sent for -

And fourthly - After all there are only
1761 Signatures of Heads of Houses in
favour of the measure out of a population
of 8229 House or Shop holders and a total popula-
-tion of 34,230 Souls - Of those who signed 152

were

are Government Officers.

1033 are Merchants.

576 are others.

My impression from the whole is that the people generally are quite indifferent to improvements within the Town, that many of those who are really desirous of improvement are not willing to be taxed for them and that few only are really desirous to have the measure carried out and are willing to pay for it.

3. Under these circumstances I am doubtful though not a single individual has come forward to notify his positive dissent to the measure, whether the assent has been given in such a manner as to authorize my recommending the Government to put the Act in force in the Town of Bellary and it is with sincere regret that I feel myself compelled to this opinion.

4. I would here explain that not only the Cantonment Bazar but the Bruce Pettah and the whole town is under Military

Military Superintendence and Subject to the Military Police Regulation of Regulation VII of 1832. But the Cantonment Bazaar is more peculiarly Military while Bruce Pettah contains exclusively Civil Inhabitants i.e. non Military and non registered inhabitants.

Dated 26th August 1850 No. 52.

I had the honor to point this out more fully in a letter in reply to a requisition of Government calling upon me to report on the Military Cantonment to which I would refer for a full description of the two Pettahs and the Military and non-Military portions of the Cantonment.

5. The Bazaars especially as that of the Bruce Pettah is very much in need of a fund to keep it clean and in proper order for a town of its size. But this fund cannot be obtained by a voluntary assessment of the inhabitants, and it must be collected by other means authorized by Government either by a Town Duty, by an assessment of a per centage on the valuation of the Houses to be levied

leased from the owners or by direct grants from —

Government —

Bellary, Collectors Office, 28th November, 1851 — Bd. No. 3039

Proceedings thereon,

(Signed) C. Pelly
Collector

No. 8

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to the papers noted in the margin.

Proceedings to Govt. 19th December 1850
From — " 17th in Cons. 23d January 1851
Proceedings " 10th July 1851
From — " 29th " in Cons. 4th " May 1851

52.53

2. The general feeling of the Inhabitants of the Town of Bellary has not been strongly expressed in favor of the introduction of the provisions of act XXVI of 1850.

3. It would appear that out of a population of 37,230 souls of whom 8,229 are heads of Houses, only 1,761 of the latter have recorded their assent to the proposed measure, not one individual has noted his dissent, but those who are in its favor come slowly and after they were sent for the Inmates complained that they were already heavily taxed and appeared at first opposed to the introduction of the act, but on being requested to note their dissent, they declined, and after every explanation was given them, eventually voted for it —

4. Of the number who voted in favor of the introduction of the act, 152 are Government Officers, 1033 Merchants and 676 of other classes, but the Collector points out that the Inhabitants generally are indifferent to improvements in the Town, that many of those who are really desirous of improvements are unwilling to be taxed for them, and that a few only are desirous of improvements and willing to pay for the same have voted for the introduction of the Act have done so in such a manner as to warrant his recommending to Government that its provisions should be put in force.

5. The Collector is however doubtful whether those who

6. Under the circumstances stated by the Collector the Board are of opinion that the time is not arrived yet for putting the act into force in the Town of Bellary which from the explanation entered into in the last two paras of the Collector's letter would seem to be entirely under Military superintendence and subject to the Military Police Law specified in Regulation VIII of 1822. —

No. 93.

To, W. H. Bayley Esqre.
Secretary to the
Board of Revenue,
Fort St. George.

Sir,

I have the honor with reference to the refusal of the Government to submit my application in behalf of the Cummum Narasingarow of Antapore for a grant of Land for the support of the Choultry and Bungalow built by him at that Village as conveyed in the Inmates Consultation under date 2d Septemlier 1851 and Communicated to me in Extract Proceedings Board of Revenue dated 8th of the same month, to submit further explanation respecting these buildings which I trust may induce the Right Honorable the Governor in Council to recommend some Compensation to the Cummum for the expense he has incurred, in full reliance that an Endowment of Land would be granted to him. The grounds on which aggrievence with the application is refused are that "the Right Honorable the Governor in Council cannot consider either of

54

Bd. No. 3037.

From the Collector of Bellary — Submits again an application on behalf of the Cummum Narasingarow of Antapore for a grant of Land for the support of the Choultries built by him which was refused by Government in Inmates Consultation 2d September 1851 and hopes that the Right Honorable the Governor in Council on re-consideration of the facts now stated will be pleased to sanction an endowment on the ground that the building has been built in conformity to a plan previously submitted to and approved of by the Collector and Board of Revenue.

"of the buildings of such a description as to
"be entitled to public Endowment."

2. First as respects the Choultry at
Antapore - This building was erected under
the following circumstances -

On the 1st November 1847 Mr.
Mellor the Collector submitted the proposition
of Kurrum Naraingarow to the Board of
Revenue for erecting a Choultry accompanied
by an Estimate and Plan of the building -
The Estimate specified the materials of
which the Choultry was to be built -
1st The Walls were to be of Stone in Lolay
at 1 Rupee per C. yard -
2d The Roofing with Beams, Joists, wooden
Shingles, Posts and brushwood, mud and
Loamy soil at 25 Rupees per square -
3d The Walls were to be pointed with Chunam -
4th And 6 Doors were estimated for at
6 Rupees each -
5th The whole Estimate amounted
to Rupees 1,089-14-0

See letter to Board of Revenue from Collector dated 1st November 1847.

See Collector's letter to Board dated 22nd January 1848.

A Bungalow was subsequently proposed
and a plan sent to the Board of Revenue -

The

See Proceedings Board of Revenue 11th February 1848.

3. The Board of Revenue having been satisfied
with the report of the Collector authorized
the erection of the proposed Choultries at
Antapoor / this included the Bungalow /
and promised to take into Consideration
the endowment to be made for their support
on the Completion of the buildings being
Reported with Reference to the amount
expended by Naraingarow -

From Collector to Board of Revenue 30th September 1850.

4. The Completion of the Choultry
and the Bungalow as Contemplated / was
Reported by myself on the 30th September 1850.
I pointed out that Naraingarow had Con-
siderably enlarged the original Plan of
the Choultry and made it Commodious
for the accommodation of many Travellers
of all Classes according to a plan I
forwarded to the Board, I stated that
the Cost of the Choultry had been to the
Kurrum 1,500 Rupees or according to the
valuation of the Government Officers 1,276
Rupees, and I Considered that he had
established his Claim to the Endowment
and Recommended that Land valued
at a rental of 60 Rupees should be given
to him for the support of this Choultry and
this endowment / with the modification
that

* Note
The Estimate was only 1089-14-0

Fort St. George 5th January 1852

suited for its intended purpose" and it
should be remembered though he reported
the roof to be of very perishable materials"
it was the form of roof which the Curnum
had proposed to construct when making
his application for permission / see para 2
of this letter / and which had been approved
of - The Engineer also reported that it had
escaped the Ravages of white ants, and
I would also add that it is the kind of
Roof which in this district is with a very
few exceptions always used and it answ-
ers the purpose for which the Choultry
is intended and it should not be forgot
that the Endowment will be forfeited if the
buildings is not kept in repairs-

7 And as the Curnum has fulfilled
his engagements, and moreover added
thereto as regards the Choultry I beg
again to submit his claim for an
Endowment to the favorable recon-
sideration of the Governor in Council and
as the building affords very great ac-
commodation to the publick, and as it
was built with the full assurance that
the endowment would be granted, I
cannot but hope with this explanation
the

See Rules Cons 13th 255 15th March 1851.

that the Bungalow also should be included in this Grant / was recommended by the Board-

5. But the Government previous to "pass-ing orders upon the application" desired "to be informed what would be the annual "outlay for Repairs and establishment to each "of the Buildings, the Choultry and Bungalow" This information was supplied by the Civil

+ From Civil Engineer to Collector dated 19th April 1851.

+ Engineer in a letter Copy of which I forward-ed to the Board on 26th July last - And re-

° From Collector to Board of Revenue 26th July 1851.

° ceipt of which the Government did not consider that either of the Buildings were of such a description as to be entitled to public Endowment-

6 But I would beg permission to point out that the Choultry was erected by the Curnum with the permission of the Board of Revenue on a Plan and Estimate which had been previously submitted to and approved of by the Board - There was no deviation from that plan except in an-pronouncement upon it, and Consequently the incurring of a larger outlay than estimated for - and I would also beg permission to lay before the Board that although the report on the Bungalow made by the Civil Engineer was not a favorable report yet as respects the Choultry he stated that it is a Building better

the Right Honorable the Governor in Council will be pleased to sanction the endowment for its support of the Land Recommended by me under the usual Conditions.

8 It must not be expected from the circumstances of Bellary that the splendid Stone building raised at an enormous expense by wealthy individuals in other Districts can be obtained in Bellary. I should be satisfied if I could find a few more individuals willing to come forward to erect for public accommodation such Choultries as the one now alluded to. But the difficulty of procuring an endowment for this will I fear effectually check any other man from offering to perform so beneficial a service to the public of Bellary.

9 As respects the Bungalow, this Building according to the plan sent to the Board was to have had only a thatched verandah but a permanent tiled verandah on masonry pillars was superadded to the original plan and the cost was 700 instead of 400 Rupees. It is intended solely for European travellers and is now Continually occupied by them. I think it should be kept distinct from the Choultry. But if the Government

Fort St. George 5th January 1852.

Government are indisposed to a grant an Endowment for it, I would request that a pensioned Sepoy and a Sweeper be sanctioned for taking charge of it, and for assisting the European Gentlemen who now that the Ramandroog has become a Sanitory Station for the troops are continually passing and

Proceedings thereon.

Forwarding a letter from the Coll.r of Bellary resubmitting his application on behalf of the Curnum of Ammuntapoor for a grant of land for the support of the Choultries built by him - and recommending that the Collector's request be complied with. -

54. 55

Read: 27 January 1851.
from Govt. No 15 in Cons. 24th March 1851
from Coll.r 26th July 1851 inclos. 14
Augst 6th 1851. -
Rec.d 11th August 6th 1851. -
from Govt. 2d Septr. 1851 inclos.
8 Septr. 1851. -

Resolved that the foregoing letter be submitted for the orders of the Right Honorable the Governor in Council, with reference to the correspondence noted in the margin. -

2. In Enclosed Minutes of Consultation dated 2d September 1851, the Government decline to submit the Collector's Application, to the Government of India, on the grounds that the buildings are not of that description to entitle them to this indulgence. -

3. Mr. Pelly now explains that the buildings were constructed in accordance with the plan and Estimate submitted to the Board, and approved by them, and that the cost has exceeded the amount originally estimated by the Curnum. He also states with reference to the report of the Civil Engineer, that although that were not a favorable one, yet the roof of the building was of the form the Curnum proposed to construct, and the kind always used in the District, and that it answers the purpose for which the Choultry is intended. -

4 In paras 7 and 8, Mr. Pelly likewise states that the building affords very great accommodation to the public and that it was built with the full assurance that an

and Endowments would be granted.—

6 Under all these circumstances, and with the view to encourage similar undertakings in the District of Bellary, where there are at present very few Choultrums, the Board beg to submit this further application from the Collector, for an endowment of land, of the extent and value noted in the margin of para 7, for the favorable consideration of Government.

Land — acres 157- Gs 31- as 12
Assessment Rs 74- 9- 6.
Net Value 60- 0- 2

7 They would also recommend that instead of a separate endowment being granted for the Bungalow, a pensioned Sepoy and Sweeper be sanctioned to take charge of it as suggested by the Collector. The Bungalow it is stated is intended solely for European travellers, and is now continually occupied by them.

B. No. 4.
From the Collr. of Salem....

To

W. H. Bayley Esqre
Secretary to the Board of Revenue
Fort St. George.

Sir,

In reply to your letter of the 18th instant requiring me to furnish certain information as to the number and class of persons dependent on the Lungerkhanas for support, within my range, I have the honor to inform you that there are no Lungerkhanas in the District of Salem.

B. No. 5.
From the Collr. of Salem....
Reporting on the state of the

No. 162.

To, W. H. Bayley Esqre
Secretary to the Board of Revenue
Fort St. George.

Sir,

I have the honor to submit in regard to

Records in the District of Salem.

5th April 1851.

to the records of this District, the report required in your Board's communication dated the 25th November 1850, to which I would earlier have replied, had I not been anxious when complying with that requisition, also to lay before the Board a list of papers which ought, in my opinion, to be destroyed. Finding however, that the preparation of such a list will occupy more time than I originally anticipated, it has seemed to me inadvisable any longer to neglect the Board's instructions.

2. Soon after the receipt of the circular under reply, I requested the Assistant Collector Mr. Kindersley to visit the Cutcherries of the ten Talooks then under my own Superintendence and examine the state and condition of their records. The report made to me by that Officer was that "generally they were in good order," and my subsequent experience of the District is confirmatory of the impression left on Mr. Kindersley's mind by the investigation which he personally made.

3. At Seramungliny, the present Cutcherry of Talook Womaloor, Mr. Kindersley however found the "records" in a state of complete confusion, except such recent dusters as the Shasildar was in the habit of keeping with him for occasional reference,

the

the cause of the disorder being the removal of the Talook Cutcherry from Womaloor to Taramungalum where a new Cutcherry has lately been contructed. On receipt of the Assistant Collector's report, I made special arrangements for applying an early remedy to the evil brought to my notice and have reason to know that in a few weeks more the Dusters will be properly rearranged.—

14th Nov. 1851. 4. I beg to forward a copy of the report of the state of the records in the Sub Division and Talook Cutcherries, which as your Board will perceive are stated by Mr. Cochrane to be well preserved and in good order.

5. The English records in my own Cutchery have been kept, up to the present time in the manner indicated in the former Principal Collector Mr. Orr's letter of the marginal date. They have been carefully attended to and are complete in all respects, except the transcription of the Sections for a few years preceding 1850. It seems doubtful whether the labor of transcribing all the correspondence of a Collector's Office for record as "Sections," is compensated for by the very remote advantages likely to arise from volumes of that class but in so far as regards the period during which I have had charge of this Collectorate, I have directed

24th Nov. 1836 No. 88

directed that "Sections" be kept of all communications transmitted to the Government and your Board, and it has been my endeavour to get those also transcribed which were neglected during the time of my predecessor. I am not however, sanguine that the latter task will be performed within a moderate period, as my establishment is sufficiently occupied with the current daily duties devolving on it.—

6. In regard of the mode in which the Native records both of the Hoozoor and Talook Cutcherries are arranged, although an opinion does seem to be required from me I would add, that it is clear that no uniform system is observed, and that now to enforce one would be a matter of extreme difficulty if retrospective effect were required. However in almost all the instances where applications have been made to me by the Judicial authorities and others for copies of records, I have been able without difficulty to meet their wants where the data furnished by the applicants have been sufficient and correct from which circumstance it is fair to infer that although no single system is adopted the main and most important point has been duly regarded.—

The

7. The great and increasing impediment to the preservation and orderly arrangement of the records, is the fact that the rooms of the several Cutcherries are conveniently crowded with heaps of bundles of papers which are utterly useless as records and ought to be made over to the paper manufacturers, and for this disposal of them I am about to solicit authority from your Board in a separate communication.

Salem,
Coll.rs Cutcherry

No. 1.

To H. D. Phillips Esqre
Collector Salem.

Sir,

1 With reference to your letter of the 5th December 1850, forwarding copy of an Extract from the *Minutes of Consultation and of an Extract from the *Proceedings of the Board of Revenue, I have the honor to report upon the present condition of the records in my Cutcherry, and in those of the Talooks of the Sub Division under my charge.

*5th November 1850.
*25th Do — Do.

2. The English records of my Office, Viz.t all letters sent and received on Revenue and Police matters.

matters Revenue Accounts, Police Statements — Immunabundy Reports with accounts, Copy of Extracts from the Board of Revenue Orders and Official Gazettes, are carefully arranged and bound up regularly into Books for every year respectively from fusly 1233, in which year the Sub Division was formed, to fusly 1258 inclusive, and preserved in an Almirah, free from white ants and insects. The records of fusliers 1259 and 1260, which are already filed, will also be bound into books.

3. The records of my native Cutcherry under the Sheristadar are generally arranged and tied up in Dufters, with an index to each of them and secured in wooden and leather boxes. The Dufters containing annual Immunabundy Accounts Vols. are transferred to your Record Cutcherry up to fusly 1258, and only some of the Dufters, containing General Abstract accounts Vols, which are required, for frequent reference, are always kept in this Cutcherry.

4. The Revenue and Police records of my Javab. navisse's Cutcherry, are also properly arranged Dufftered and indexed, and sent to your Record Cutcherry up to fusly 1258. The records of 2 last years are kept in the Cutcherry for immediate reference.

5. The late Sub Collector, appears to have

have inspected the records of the Sub Division Talooks, when he visited those places, for the last Jummabundy settlement. The principal accounts preserved in the Talooks, are named in the margin. These accounts are well arranged, and Duftered from fusly 1206 to fusly 1258, and preserved in boxes and shelves. Indexes are written out for some of the Dufters, and some are kept without them, but orders have been sent to the Tahsildars to see every Dufter indexed. The Pymash Olungoo or settlement accounts &c., which are very important documents, are secured carefully in a separate box, in each of the Talooks. The Thasildars have also been directed, to keep their Talook records under the charge of one of their assistant Royesums, who should arrange the papers under the dufters, and act as a record keeper, in preserving the same and taking out any paper, when required for reference.

× Revenue accounts
Police — do.
Marumut do.
Davustanum do.
Sagud or Talook
Treasury — do.
Sayer — do.

6. In the Talook records, there are a great number of useless accounts and Cadjans which have accumulated from a series of years also Monigars and Village Mounsiffs reports to the Tahsildars all these are more or less destroyed by white Ants &c. and I beg to suggest that sanction of the Board of Revenue may be obtained, to dispose of the said accounts to paper manufacturers, in exchange for fresh papers, only reserving the annual Goswara or abstract accounts, which may be required for reference, at any future period.

W. H. Bayley Esqr.
Secretary to the
Board of Revenue,
Fort St. George.

Bd. No. 3001.

From the Collector of South Arcot.
Reporting on the Settlement of the Land Revenue for Fusly 1260 — 1850/51.

Sir,

1. I have the honor to make my report on the Settlement of the Land Revenue of this District for the past Fusly 1260 A.D. 1850/51. and to forward the usual explanatory Statements as enumerated in the accompanying list.

2. The talooks of Chittput, Tindevanum, Vellapoorum, Cuddalore, Manargoody and Chellumbrum were settled by myself; Virdachellum, Culacoorchy, Ellavanasore and Bowangherry by the Sub Collector Mr. Wood, and the 3 Talooks of Trinomallie, Tricoloor, and Trivady by the Head Assistant Collector Mr. McDonell. The Jummabundy was held at the following Stations:—

Collector — Chittput — At the Ousbah.
Tindevanum — At Ditto.
Villapoorum — At Virdoor.
Manargoody

Manargoody — At Amiahpet on the
Shellumbrum — frontier of the 2 Talooks.

Cuddalore — At Carayaravetty Coopum

Sub Collector.- Cullacoorchy.- At Cuvbah.-

Ellavanasore.- At Trivennanellore.

Bawangherry.- At Cuvbah.

Veradachellum.- At Ditto.-

Head Assistant Collector. Trinamalay.- At Ditto.-

Tricullore.- At Ditto.-

Trivandy.- At Ditto.-

Season- 3. Having only joined the District at the close of March I did not observe personally the state of the season during the months when Cultivation is carried on, but the information obtained by local enquiries, and the perusal of the periodical reports shows that it's main feature was a favorable commencement and a subsequent scarcity of rain- The consequences were that the Cultivators were induced to take up a large breadth of land from which they eventually obtained only a scanty return- In June and July the showers were partial and impeded

in

in some degree the progress of the dry Cultivation; but in August so favorable a fall of rain took place that most of the tanks received a supply, and the Ryots were encouraged to undertake an esctensive culture both of Poonjah and Sunjah land- The favorable prospects which the season then held out were not however realized, as the showers proved scanty in the subsequent months of September and October, and the North East Monsoon afterwards failed to an esctent which caused much anxiety for the Crops, esccept in the Villages irrigated by the Coleroon, Vellaur and Pennaur rivers.- The freshes in these rivers were steady and abundant throughout the season, in the Coleroon indeed they rose to an unusual height and did some injury to the banks and adjacent lands- the Cuddelum river on the other hand was not equally well supplied as it more immediately depends on the local rains, but the springs which it possesses afforded material aid to the

Cultivation

Cultivation in its adjoining Villages.

Produce. 4. Under these circumstances the Poonjah grain produce was unfavorable &c while the Crops of the Nunjah lands &c dependent on tank irrigation were generally scanty and in some instances failed &c altogether. The Cultivators therefore &c looked with increased anxiety to the &c Indigo and Oil seed produce which is &c extensively raised on the Poonjah lands &c for the European Markets, but these Crops &c also suffered from the unusual heat and drought which followed the failure of the &c Monsoon, and rendered water scarce even &c for domestic purposes in some parts of the Western Talooks during the months of February, March and April. The subse= =quent Storm in May proved however &c beneficial to these two descriptions of &c produce by saving the Crops from failing altogether and enabling the Ryots to get a second

second cutting in some places from the &c Indigo plants.

Health. 5. As respects the health of the Community the year under report was &c favorable, Cholera visited the Southern part of the District but not to any severe &c extent, and other epedemic diseases were not prevalent. The live stock of the &c Cultivators was also free from murrain and contagious disorders, though some &c losses were occasioned, especially among the Sheep, by the Storm in May.

Prices. 6. The prices of the principal grains produced in the District, although they did not reach the height of fusly 1257, were more remunerating than in the preceding year and afforded some compensation to &c the ryots for scanty produce. The annexed comparative Statement exchibits the details, but it is proper to observe that the rates &c there entered are the average of the

the year and of the entire District. They are to therefore higher than the Assessment which prevailed in the months when the Principal Fruits fell due and Specified that in the 2 Southern Talooks of Manargoody and Shellumbrum the Assessments obtained by the Ryots for their Produce fell below the Remainder of the District from 15 to 25 per Cent in consequence of Assistance from the Markets and other causes. The Assessments of Indigo, it will be observed, have considerably but the advantage which it would otherwise have conferred was much diminished by the Cheerfulness the want of Rain caused to this Cultivation.

7. Having thus noticed the principal features of the Season & Causes as far as they affected Statement Exhibiting a comparison between the Settlement of the present and preceding Fasley. It will be observed that the results in an increase of Rupees 4,77,857-12-0 on 25 per Cent in the year under report, which was occasioned by a greater extent of Land having been taken into Cultivation throughout the District.

Jm

The Dittum System.

Board's Circular 18th March 1856.
Board's letter 22d April "
Ditto 5th August "
See letter from Board to Govern: ment dated 17th February 1857.
1. Extract from Minutes of Cons: 1st April 1851. received with Board's Proceedings of 14th April 1851.

8. In accordance with the orders of the Board the Ryots had been called upon at the commencement of the year to enter into Dittum engagements and the Settlement was conducted upon that principle. I considered it however necessary to introduce the Dittum with great leniency not only on account of the unfavorableness of the season and the high rates of assessment which prevail in the District, but because the introduction of the new system caused some anxiety and alarm which it was advisable to allay. In reality the principal persons whose interests are opposed to the Dittum, are the large and influential ryots who have obtained possession of much land to the exclusion of other parties under the "Ryput" or assumed right of continuing to hold waste lands for 5 years, a right which though never sanctioned by Government has been admitted in practice in the District. To these persons the Dittum will always be

unpopular by its tendency to check their monopoly of land, and they would have been glad to excite a feeling against it in the other classes by raising a cry that waste lands were newly included in the Settlement.

9. I therefore informed the people that the object of the Dittum was not to interfere with freedom of Cultivation but to protect the interest of all by securing present rights and rendering the waste lands available for parties who were willing to cultivate them, the first choice being always given to those persons who had enjoyed any previous occupancy. I further explained that liberal remission would be granted for Poonjah fields left fallow (poodoogal) and for any other lands which the Ryots had entered in their engagements but were unable to cultivate from adversity of season or other uncontrolable circumstances. At the same time I felt it necessary to show that the Dittum was not merely introduced in name, and therefore occasionally included

+ See letter from Board 18th March 1850. Mr. of Cons: 17th Feby 1851. Para 1.

included in the Settlement some lands which had been improperly left uncultivated, such as Poonjah fields which are taken up from rivalry or enmity to exclude other parties, and Nunjah fields and Totacal lands which from their ample irrigation and convenient proximity to the Villages were in general request. The accounts show that the amount thus included in the Settlement is Rupees 2,740-9-10. while the remissions granted on account of "Rabooleat Bunjer" or lands entered in the Dittum engagements but left uncultivated on account of failure of rain and other obstacles amount to Rupees 1,50,160-6-10.

Vide Statement A. Col: 311.

Dr. Col: 279.

10. It was to be expected that the ryots would hesitate to enter into extensive engagements for lands until they saw the manner in which the new system would be carried out, and the annexed Statement will accordingly show the Board that a considerable portion of the land brought into the Settlement was not included in the ryots' Dittum.

Dittum

	Dittum.				Subsequent additional Cultivation.				Total.	
	Cawnies.		Teerwah.		Cawnies.		Teerwah.		Cawnies.	Teerwah

Total	4,28,476	4/8	2,12,8,537	9 2	86,256	11/8	4,38,924	8 10	5,14,732	15/4 25,67,462 2 "
									Deduct remission for waste	1,50,160 6 10
										24,17,301 11 2

It is to be hoped that this feeling will gradually wear off but as the benefit which the Dittum is intended to give to the smaller cultivators will be less readily felt than its check to the interests of the richer class, and as all changes of System not accompanied by immediately apparent advantage are viewed with mistrust and dislike, it will take some time before it is looked upon as a regular part of the District revenue system.

11. The only absolute opposition which was made to it's introduction occurred in the Manargoody and Shellumbrum Talooks

Talooks, where some discontented persons refused to sign Dittum engagements and afterwards induced some of the ryots to throw down their puttahs and raise a disturbance with the view of interrupting the Huzoor Jamabundy - Some of these individuals afterwards addressed the Board and I offered some observations on their petitions in my letter of the 23d September - The ryots of these talooks have always been noted for noisy and contumacious conduct but their behaviour on this occasion had partly its origin in their unwillingness to see any alteration of system unaccompanied by the reduction of their assessment to which they have long looked - The modification of the teerwah in these talooks has been frequently under discussions and the ryots feel discontent on contrasting their condition with the landholders in Tanjore and some adjacent Trichinopoly Villages

12- The only remaining observations which I deem it necessary to offer on the Dittum are that the present state of

the assessment offers in my opinion three principal difficulty to its efficient introduction. If the assessment was lower fewer alterations would occur in the lands annually taken up for cultivation and this is of much importance to the system as the heavy duties which occupy the Talook Servants in a Ryotwary District, and the large number of the cultivators make it impossible for much detailed scrutiny - At present the ryots watch for favorable circumstances of season and prices before venturing to take up the higher assessed lands and they feel reluctant to enter into formal engagements for their cultivation - Until therefore the assessment is modified it will be necessary to carry out the Dittum system with much moderation and to show indulgence, except in cases of positive fraud and neglect when the ryots fail to cultivate portions of the lands included in their engagements -

Number of Puttahs given in Settlement of Fusly 1260 Quit rent omitted 1524/185

Settlement 13- I now proceed to offer remarks on the Settlement of the year under report which shows an increase of Rupees 477851 - 12 - as already observed above the result of the preceding year - The following abstract Statement exhibits a Comparison between the two fusslies -

Beriz

It thus appears that in the year under review there was an increase of Cultivation to the following extent —

	Cawnies	a
Poonjah	8097	3 7/8
Kunjah	29,755	11 5/8
Totacah	124	13 1/4
Total	37977	12 3/4

and

and I shall now proceed to offer some observations on each of the 3 descriptions of land —

Poonjah — 15 — The Poonjah lands including the unrented Jaghire Villages which were entered in the Dittum accounts amounted to Cawnies 33,1058 - 3/8 but as 60,988 - 3/4 were subsequently taken up the total becomes 39,2046 - 1/8 with a gross Beriz of Rupees 1,37,3688 - 15 - 4 — To however deductions were made on account of Cabooleat Bunzur to the extent of Rupees 12,643 or Cawnies 38,326 - the Settlement amounted to Rupees 12,47,245 - 1 - 3 upon a cultivation of Cawnies 35,3720, which gives an increase over the preceding year of Rupees 1,91,913 - 15 - 2 — upon an extended cultivation of Cawnies 58098 - From the accompanying Statement No 1 in A the Board will perceive that the increase of Cultivation was general throughout the District though varying in its degree according to the local favorableness of the rains and the Ryots were evidently desirous to take advantage of the promising prospects with which the year opened as to season and prices Unfortunately however the scantiness of the subsequent rains prevented the cultivation of some of the lands for which engagements had been made and gave rise to a general and justly founded complaint of short

short produce on those lands which were sown. It is proper to observe that the deductions under the head of Caboolcat Bunjur principally consisted of Poodoogab or lands which were left fallow according to the usage of the Country after hearing a Waragoo crop in the preceeding year. The remaining Caboolcat Bunjur was allowed on account of the unfavorableness of the season which obliged the ryots to leave some of their fields uncultivated a comparison of the actual Poonjah cultivation during the last 6 years in the Dindigul Taluk omitting only the Jaghire rented Villages, is exhibited in the Margin.

	Cawnies	Assessment Rs.
Fusly 1255	2,90,929	10,90,842

16. From the Statement forwarded to the Board under date the 30th August last it will be observed that the Indigo cultivation shows an increase of 6,486 Cawnies. but the unfavorableness of the season diminished the produce and prevented the ryots obtaining the profit which they would otherwise have got from the temporary high price of this article in the European Markets. The extent of the Indigo cultivation during the last 5 years is shewn in the Margin and it is beneficial to the interests of the District that the Poonjah lands should be capable of being profitably turned to the production of this dye and of ground

Kunjah. ground nut Oil for exportation to Europe.

17. The following Abstract Statement exhibits the Kunjah cultivation of the year under report in comparison with the preceeding fusly and shows an increase of Cawnies 29,755- 11 5/8 or Rupees 30,629 7- 4- 8.

Year	Extent or Dittum including lands afterwards taken up				Deduction for Caboolcat Bunjur				Lands under Cultivation and brought to Kunmah			
1259	1,16,075	7 5/8	1,10,6780	1 2	27,396	15 1/4	26,570	11 6	88,678	8 1/4	84,0209	5 8
1260	1,21,278	8 7/8	1,16,9386	" 3	2,844	4 3/4	22,879	5 11	1,18,434	4	1,11,6,506	10 4
Increase									29,755	11 5/8	30,6297	4 8

In consequence of the hesitation which the ryots felt and which has been alluded to by me in Para 10, the Dittum engagements for Kunjah land amounted only to Cawnies 96,404- 6 1/2 but the subsequent prospects of the season induced them to take up in addition Cawnies 24,874- 2 3/8 making a total of Cawnies 1,21,278- 8 7/8. The deductions from this extent on account of Caboolcat Bunjur amounted to Cawnies 2,844- 4 3/4 with an assessment of Rupees 22,879- 5- 11 and consisted principally of lands which remained uncultivated from a deficiency of rain, the remainder was left fallow

Poonjah

Fort St. George 5th January 1852

Poonjah in consequence of the exhaustion caused by previous Sugar Cane Cultivation.

18- The Board will perceive from the Statement No 2 in A that the increase in the Kunjah cultivation was general throughout the District but as there was an important difference under the circumstances of the Season to which I have already adverted between the Kunjah lands benefited by Channel irrigation and those dependent upon tanks. I annex a Statement shewing the extent of the Cultivation which was watered by the principal rivers. These lands yielded full produce but the crops were scanty on a considerable portion of the wet land which depended on tanks and Minor streams and in some places they failed altogether. The Northern Taloks of Tindevanum and Villapooram suffered most from drought and it was found necessary to grant remission in other parts of the District also for Shanie or withered crops.

1259	1212-9	24013-12-3
Increase	195-12¼	2536-1-4

Garden. 19- The Garden cultivation exhibits an increase of Cawnies 195-12¼ or Rupees 2536-1-4 which it will be observed from the Statement

Fort St. George 5th January 1852.

No 3 in A was spread over the entire District. Of the above increase Rupees 1599-3-7 belonging to lands actually cultivated while the remainder was the teeruah of some Dittum lands which although left waste was included in the Settlement as the Wells afforded water and there was no legitimate excuse for the neglect of its cultivation.

20- The total cultivation of the 3 description of land in the Ain and resumed Jaghire taloks thus amounted to Cawnies 674,732-15¼ being an excess of Cawnies 87977-12¾ over the preceding fusly. The assessment of the lands brought to Summah in the year under review Amounts to Rupees 24,17,301-11-2 including Rupees 2740-9-10 on account of the teeruah of some uncultivated fields which were not entered in the Cabooleat Bunjur for the reasons given in Para 9 and Rupees 7694-14 " on account of some other waste lands which were brought into the Settlement under the Hoo Koonnamah rules of the District.

Shamilat Bunjur	4,311-	2-4
Durkhoast Dº	3,063-	6-5
Cowle Dº	320-	5-3
	7694-	14- "

21- The above gross demand of Rupees 24,17,301.

24,17,301-11-2 is raised to Rupees 24,87,026-4-1 by the addition of Rupees 69,724-8-11 on account of Kulsur or the extra tax levied for water taken from the Government Channels and reservoirs under particular circumstances. In the year under review the demand for Kulsur exceeded that of the preceding fusly by Rupees 17,966-1-7 and slightly exceeds the result of the most favorable previous year. This revenue comprizes several items, but the principal is the Kunjah Kulsur, or payment for water when it is taken from the Government irrigation works for raising rice crops on Poonjah land. In the year under report the Kunjah Kulsur amounted to Rupees 56,353-7-11 or nearly 7/8ths of the entire demand and exceeded the same item of the preceding fusly by Rupees 15,729-1-1. This revenue is principally derived from the Talooks of Manargoody, Chellumbrum and Bowanghery, where the improvement in the irrigation works of the Coleroon and Vellaur rivers has rendered much dry land capable

22. The gross Settlement of the land including Kulsur being thus shown to be Rupees 24,87,026-4-1 there remain to be added the items noted in the Margin by which the total gross demands of the year is raised to Rupees 25,74,868-7-4. As the particulars are detailed with the necessary explanatory remarks in Statement K and I shall have occasion to allude to the rented Villages when offering some observations on the Manargoody and Chellumbrum talooks, I shall abstain from further remarks here.

23- The deductions made from the above gross demand of Rupees 25,74,868-7-4 are exhibited in the Margin and reduce the Net Settlement to Rupees 2,34,318-5-3. The Statement K shows that these deductions exceed those of the preceding year by Rupees 42,007-10-10 but it will be observed that with the exception of the remissions for Shaie or withered crops and losses by inundation the increased amount of deduction had its origin in the extended cultivation of the year - This cause necessarily increased the amount deducted under the following heads 1st Wooleguem, or pay of the Village Servants which is fixed on a per centage of the Settlement 2. Minai, or remission granted to Brahmin & Cultivators and 3rdly the Teerwah remitted on lands for whose irrigation it is necessary to use large Pottahs &c. It will accordingly be observed that the increased deductions took

took place principally in these items.-

24. The remissions granted to the ryots in the Course of the settlement for losses of produce consisted of Rupees 127-8-9 for some crops swept away by the Coleroon flood, and Rupees 4,509-5-3 on account of Shavy or withered produce in the Nunjah lands - The particulars of these remissions are shown in Statement Q and as I have already detailed the circumstances of the season in which they originated I need only observe here with respect to the Shavi, that in Consequence of the Complaints made of loss of crops a careful enquiry was instituted previous to the settlement and remission was only allowed when the withered crops were preserved in the fields and shown to the Government servants. The remissions were regulated upon the principles which had been previously followed in the District, but in future the pay of the Village servants will be struck out of the account when considering claims to remission for Shavi in accordance with the instructions of Government which were received subsequent

Minutes of Consultation 14th August 1851. Para 7.

subsequent to the Settlement. It will be observed that the total claims brought forward on account of Shavy amounted to Rupees 8,408-5-6, of which Rupees 3901-..3 were disallowed, under the rules of the district, but I regret that the extent of these claims does not fully indicate the effects of an unfavorable season, as the interests of the land owners were compromised less seriously by the actual Shavi than by a general scantiness of Nunjah produce in the lands dependent on tank irrigation. In preparing the Shavi Statement the headings of Columns 13-16 and 17 have been corrected according to the instructions given by the Board in their remarks on the Settlement of Fusly 1259.

25. Of the Net demand of the year thus amounting to Rupees 23,40,550-2-1, the sum of Rupees 21,95,608-1-9 was realised within the Fusly, leaving at its close an outstanding Current arrear of Rupees 44,942-"-4 which has been reduced by the Collections+ since made to Rupees 7,763-13-10. This balance includes the sum* due on the Moolahs

of Aliginattum now under attachment whose proprietor is a female and has shown herself unequal to the proper management of the Estate, but measures are being taken to recover this and the other outstanding arrear. - As I only joined the District at the end of March many of the Talaoks were unavoidably settled late in the season, and the general scantiness of the produce of the Nunjah and Poonjah lands was also unfavorable to the punctual realization of the Kists, but when allowance is made for these obstacles I trust that the result of the Collections will not be deemed unsatisfactory. The District accounts show that a considerable sum generally remains outstanding at the close of the Fusly, and the principal reason is that a Kist of 5 per Cent falls due at so late a period as the Month of June It appears to me that this might be obviated, without cause for complaint on the part of the Ryots by a new adjustment of the Kists, but I refrain from making any proposition on the subject until after a longer acquaintance with the District.

Ou

26. On the subject of the out standing arrears of land revenue from Fusly 1250 I beg to observe that the total balance at the beginning of the Fusly under report was Rupees 2,09,250-12-3 of which sum Rupees 1,68,385-11-8 were recovered during the year - There is consequently a present old balance of Rupees 40,865--7 to the realization of which my attention is being given - A portion of the amount is clearly irrecoverable, or could not be enforced without undue hardship but a portion is due by parties who withhold payment in consequence of the Collectors present want of power to proclaim their lands for sale, and I propose asking for authority to proceed to this measure in some instances as an example.-

Statement L.

27. The Sevoy Jummah Statement which accompanies this report shows that the Collections during the year on account of old balances amounted to Rupees 1,402-1-10, while Rupees 4,299-2-8 were realized on account of a Current demand of Rupees 8,693-15-10 on many items of which were only discovered and brought to account near the close of the Fusly according

Statement F.

According to this Statement the present total arrear would be Rupees 27,197-9-5

29th September 1851. but the sanction of Government has been since received for writing off Rupees 12,031-5-11 on account of arrears due up to Fusly 1249, so that the actual balance now outstanding is Rupees 15,942-3-6.-

28. From the Tuccavy Statement now forwarded the Board will perceive that Rupees 15,756-6-11 were advanced to the Cultivators in the year under review out of the sum of Rupees 19,000 sanctioned by Government and that the entire amount has been recovered.-

29. In Para 12 of the Board's Proceedings on the Settlement of last Fusly 1259 explanation is called for on two points which I now proceed to offer. My enquiries show that the difference of Rupees 30-1-11 which the Board notice between the Statements H and R occurred in the following manner. The former Head Assistant Collector Mr. Cockburn gave 15 Cawnies of Poonjah Porumboke land under date 24th February 1816 to one Venatachella Maistry of Walakoor on easy rent of 1-9- per Cawny for planting

Fort St. George 5th January 1852.

planting topes for the support of a tank and Choultry. But on its being discovered that part of the land had been brought under Cultivation in 1847, the Collector Mr. Davis levied the regular assessment on that portion, allowing the remainder of the land to be still enjoyed on the terms of the grant which had been so many years in force. The difference between the Turrum teerwah and the grant has been accordingly deducted as a remission in the Summabundy accounts since Fusly 1257, but in consequence of the special nature of this grant it was not included in the general Statement [H] of Cowle lands. This circumstance cause the difference of Rupees 30-1-11 noticed by the Board between that Statement and Statement R as will appear from the following.-

Memorandum

		Rs.	a.	p.
Turrum teerwah of 15 Cawnies		51	13	6
Deduct full teerwah levied upon the six Cawnies brought under Cultivation		20	11	9

Extent of Remission		30	1	11

On

Fort St. George 5th January 1852.

On the second point adverted to by the Board I beg to explain that the accounts of Fusly 1259 contained no entry of Maal Poloor Cowl because none of the Nunjah land on which it was customary to grant remission was Cultivated in that year.-

30. A Statement of the Settlement of the two Villages comprising the reverted Mootah of Nullatoor accompanies this report, and it will be observed that the increase in the Fusly under review amounts to Rupees 410-12-... In the past year Rupees 238-4-3 were expended in the repair and improvement of the Tank, but the unfavorable-

Vide Statt. S.

* Repair of bund	111-8-7	
Construction of 3 Sluices	126-11-8	
	238-4-3	

ness of the season prevented Cultivation taking place to its full extent, and it is hoped that the ensuing year will show a more favorable result.-

31. The Statement P shows the Sugar cane Cultivation of the year, which was increased to the extent of Cawnies 268. It will be observed that this Cultivation is principally carried on in the Taloks of Cullacourchy and Trevady, where the firms of Messrs. Parry & Co. and Messrs. Griffiths and

	Cawnies
1260	1442
1259	1174
Increase	268

and Co. have factories, and it is favorable to the interests of the District that the business appears profitable and likely to be more extensively entered into.

Proceedings of the Board 15th July 1851 Paras 6 and 9. Extract from Minutes of Consultation 14th August 1851 Para 5.

32. The remaining points on which my remarks are called for are the state of the 2 Southern Taloks and the effect of the newly constructed Vellaur Anicut on the revenue of the Bowanghery Taluk. As the anicuts in the Coleroon and Vellaur rivers formed the subject of a letter which I recently addressed to the Maramut Commissioners and which includes the result of the late settlement, it seems to me advisable to annex to this report a + Copy of that letter as the most convenient method of furnishing the desired information, and to confine myself here to offering a few additional explanatory observations.—

+ No. 4

33. It will be observed that in the late settlement there was an increase over the preceding year in the Taloks of Manargoody and Chellumbrum and in the 68 Villages of the Bowanghery taluk benefitted by the Vellaur Anicut. It is however true

1259-1260 Increase.

Manargoody	94,920	42,905	47,985
Chellumbrum	88,567	12,348	34,857
68 Villages in Bowanghery under Vellaur Anicut	53,288	65,074	11,788
	236,775	33,1327	94,622

true that the revenue of the 2 former taloks has fluctuated considerably, and is still below the height attained in some preceding favorable years while the Vellaur Anicut has not yet produced the profit of Rupees 49,000 per annum which was expected from an anticipated increase of Cultivation in its dependent Villages. But I trust that the Board and Government will see no cause for dissatisfaction at the expenditure on these 2 works, when it is considered that the Coleroon Anicut constructed at a Computed cost of 3,09,000 has given an average increase of Revenue of about 99,000 per annum in this District alone, since its completion in 1836 and that the construction of the Vellaur Anicut at an outlay of Rupees 1,97,709 has already produced an annual increase of Revenue to the extent of Rupees 19,577.— It is to be further observed that the Coleroon Anicut benefits also the Tanjore District, and I would submit that to estimate fully the importance of these works, their future effect not only in increasing the revenue but in adding to its security by protecting the

the cultivation against the droughts which occasionally prevail in the Carnatic, must be taken into consideration.-

A 34 With respect to the fluctuations in the settlement of the Mannargoody and Chellumbrum talooks since the construction of the Coleroon anicut, it will be observed from my letter to the Maramut Commissioners, that I agree with my predecessors in opinion that the principal cause is to be looked for in the height of the present assessment, which obliges the Land-Holders to watch the state of the Markets before entering upon extensive Punjah Cultivation. This cause has the greater effect because in the Wet Villages of these Talooks there is little of the fine Poonjah land which affords valuable assistance to the ryots in other parts of the District, while at the same time the extensive rice produce of Mannargoody and Chellumbrum is disposed of at a disadvantage equivalent nearly to a difference of 20 per Cent in price in consequence of difficulties of conveyance and distance from Markets. Measures are now being taken to improve the

the roads and also to overcome the deficiencies of drainage which have in some degree impeded the Cultivation, but I can look for no permanent and steady improvement in the state of these talooks until the assessment is modified and brought to the standard of the adjoining Tanjore and Trichinopoly Villages, a measure which among its other advantages would be likely to improve the character as well as [illegible] to the happiness

happiness of the people by ~~so~~ placing them in easier circumstances, encouraging industry and removing discontent.—

35. A revision of the assessment in these talooks has been under former discussion and it appears to me that the time for executing it has properly arrived as the irrigating channels and drainage works are now sufficiently advanced

advanced for the different Villages and lands to be divided into classes, with the aid of the Civil Engineers department, according to their means of irrigation and other advantages and the measure is one of essential importance to the interests of Government as a check against fraud.— The Board are aware that 28 fine Villages belonging to the Colamalay reverted Jaghire are situated under the Veeranam Tank and enjoy the benefit of its irrigation but have still no tarum assessment.— The consequence is that to avoid the greater frauds which would take place under a division of the crop these Villages are now rented out, but owing to the character of the ryots and perhaps also to Talook intrigues the rates obtained fall below the average Nunjah assessment of the Talook, and Government thus sustain a loss of revenue while the land holders in the adjoining ain Villages become more discontented at the contrast with their own position. I enclose for the Boards information a Statement /R/ showing the settlement of these Villages on the fusly now under

Col. Wr. Letter to Bd. 13. Sept. 1836.

Bd. Pro. 14 Feb. 1848.

report

Fort St. George 5th January 1852.

report. Another important reason for a revision of the assessment in these Talooks is that a great extent of land still remains in the accounts as Poonjah and Manaivary dependent on rainfall though the late improvements have made them capable of regular irrigation according to the District rules an extra tax termed Kulsaw is to be charged on such lands when they receive water from the Government channels and reservoires but this system admits of so much fraud that I deem it necessary for the interests of Government that these lands should be reclassed and subjected to a regular Nunjah assessment.

The Kulsaw rate for Poonjah is 6 Rs. pr. Cowny The rates for Manawary are shown in the 29th Para of the Hookummanah for 1251.

36. To enable the Board to form some degree of the extent to which the Government is exposed to loss in the Kulsaw I beg to observe that I called for a statement of the Poonjah lands in these two Talooks which are now admittedly capable of irrigation. The account thus rendered by the Curnums gives the extent as Cawnies 7,614 which seems to me considerably below the truth and yet Kulsaw was charged in the late settlement on only 5,382 Cawnies, although under the circumstances of a deficient Monsoon and ample artificial irrigation at hand it

Fort St. George 5th January 1852.

is impossible to believe that Government water was not taken for the remaining 2,232 Cawnies also. The frauds which are capable of commission in the Kulsaw due on water taken for the extensive Manawary lands must also be considered and as I was called upon to give detailed explanation regarding the unsatisfactory state of this item of Revenue I felt it necessary to offer these observations. In explanation of the Kulsaw frauds I beg to observe that their commission is easy as it is only necessary to omit the Kulsaw charge in the cultivation accounts and should detection ensue, Witnesses are always forthcoming to declare that the lands were cultivated by the aid of the rain alone even in years when the Monsoon notoriously failed, or that the irrigation channels happened to overflow their banks. When there is any supineness or connivance in the part of the head talook servants, the extent of these frauds is materially increased and it appears.

The amount of Manawary Kulsaw on Settlement of 1260 was Rs. 13,141.8-7

The total extent of manawary land in the 5 clas Villages Cawnies is 1114.8.

The rates of manawary Kulsaw vary from Rs. 2 5 4 to Rs. 1 7 4 per Cawny see Para 29 of Hookummanah for 1251.

*B. Pro. 10th July 1851. Para 9.

appeans to me therefore unfavorable to the public interests that the authority of Collectors over Tahsildars and their consequent power of exercising an efficient local control should have been diminished. The subject is not one into which I feel authorized to enter fully on this occasion, but I may be permitted to observe in connection with the subject on which my raport is called for, that one important duty which Tahsildars now much neglect is the examination of the Cultivation previous to the settlement. Negligence on this point is particularly adverse to the interests of Government in talooks where valuable Nunjah lands may be omitted in the accounts and water be misappropriated from the costly irrigation works which Government has constructed, and it appears to me that the present neglect would not be ventured upon if Tahsildars were aware that their local superior, who observes personally the extent and consequences of their negligence, had his former power of removing them from Office. The very possession of this power would thus check

check supineness and misconduct, and tend to protect the Government revenues without its frequent exercise being necessary.

37. Although the preceding remarks have a more extensive application than to the settlement of the year under report, yet I trust they will not be considered out of place as explanation was called for regarding the fluctuating state of the land revenue and Kuffeer in the Manargoody and Chellumbrum Talooks. I felt therefore obliged to allude to the advisability of a revision of the assessment which by modifying the present rates where two high and classing all the irrigable land as Nunjah would have an important effect in checking frauds and rendering the cultivation more steady. But I approach this subject with hesitation as I feel that such a measure could not be limited to these Talooks. The state of the assessment in the remaining and larger portion of the District where industry is checked and the finest

lands

Assessment of 10 Talooks in Cuddalore &c.

	Cultivated & fallow exempt omitting Peramboke	Cultivation of Nunjah 1260	Ex. Percentage
Poorjah	1087243	2,91,533	2 1/2
Nunjah	187085	88,545	4 1/2

Ex. from Mr. of Cons 31st Jan 1842
Letter from Coll. to Bd. 10th March 1846.
Pros. of Bd. dated 20th Dec. 1849. with enclosure
Ex. from Mr. of Cons 2nd October 1849 Para 18.

Fort St. George 5th January 1852.

Lands are thrown out of cultivation has been under Second discussion with an view to the same and Law inclined to agree in opinion with my predecessor Mr. Mallett that such a Farm is equally necessary there for the public interest, while it is better invested by the chuttah, and conduct of the people. I will however only observe in this place that of Government should sanction a revision of the Assessment of Sept that the measure could only be executed by an Officer who was able to give his entire time and attention to the work and had full authority to carry into immediate effect those reforms which on local examination were found necessary.

38 The following abstract exhibits the various branches of Revenue in the year under review, and shows that the increase derived from all sources amounts to Rupees 5,46,251 — 3 — 5. It also discloses the state of the Collections at the end of the fasly and at the period when the accounts which accompany this report were closed

The

Fort St. George 5th. January 1852

39. The accompanying report of the Sub Collector Mr. Wood will shew the Board, that Gentlemans success in the management of the Talooks under his charge; and I have pleasure in noticing the efficiency and zeal of the Head Assistant Collector Mr. Mc. Dowell who conducted the settlement of 3 Talooks, and also of the Assistant Collector Mr. Bambury, who accompanied me during the Inmahbundy tour and was of much assistance in the despatch of the business which then accumulates on the Collectors hands. From the Head Sheristadar, Rungd. Charloo, I have always received that aid which I was led to anticipate from the high

Fort St. George 5th. January 1852.

character which he has borne in the estimation of the Board and my predecessors in the District.

South Arcot,
Collector's Cutcherry
Cuddalore,
31st. December 1851.

(Signed) E. Maltby
Collector.
